Digital Photography | Winter 2012

I learned the value of trying, not having a preconceived idea of investigation.

What I am most proud of is the ability to focus something I started.

I have always wanted to create something of my own. The day the art class started was "helped" me to realize the goal. I have set for this stage of my life.

I have always wanted to help. We haven't been able to find an organization that has really gotten the opportunity to explore and discover I have discovered.
