**2011, 2012, 2013, AND 2014 CONSERVATION FUTURES LEVY  
 CITY OF SEATTLE ALLOCATIONS**

<b>Jurisdiction</b>	<b>Project</b>	<b>Allocation</b>
Seattle (Ordinance 17349)	Chinatown/International District UCP	Approves Site Location
Seattle (Ordinances 17349)	Greenwood/Phinney UCP	Approves Site Location
Seattle (Ordinance 17349)	University District UCP	\$ 72,846
Seattle (Ordinance 17704)	University District UCP	Approves Site Location
Seattle (Ordinance 17619)	Smith Cove Park Addition	\$ 625,000
Seattle (Ordinance 17707)	Smith Cove Park Addition	\$ 875,000
Seattle (Ordinance 17707)	West Seattle Junction	\$ 1,000,000
Seattle (Ordinance 17707)	South Park Plaza	\$ 500,000
Seattle (Ordinance 17707)	Baker Park Addition	\$ 200,000
Seattle (Ordinance 17707)	48 <sup>th</sup> and Charlestown	\$ 350,000
<b>TOTAL</b>		<b>\$ 3,622,846</b>

**Project Descriptions:**

(Ordinance 17524):

1047211 International District Urban Center Park

This project received \$750,000 in Conservation Futures funding from King County with the understanding that Seattle would work with local community leaders and groups in the International District, which is underserved with open space, to identify an open space site for final approval by King County. This action confirms Seattle's selection of a site on Jackson Street in the International District, about one half block north of 12<sup>th</sup> Avenue.

Attachment AC  
to Exhibit A

1047216 Greenwood/Phinney Urban Center Park

This project received \$500,000 in Conservation Futures funding from King County with the understanding that Seattle would choose among three sites in the Greenwood/Phinney Ridge neighborhood on Greenwood Avenue, which is underserved with open space, for final approval by King County. This action will approve Seattle's selection of a site on Greenwood Avenue at 81<sup>st</sup> Street, directly across 81<sup>st</sup> Street from the recently-constructed neighborhood branch of the Seattle Public Library.

1112180 University District Urban Center Park

\$72,846 in Conservation Futures funds will be reallocated to this project from the recently-completed University District/Denny Triangle UCP project. That older project has a similar goal of acquiring open space in the University District neighborhood, which is underserved with open space, and has a need for additional funding for project completion.

(Ordinance 17704):

1112180 University District Urban Center Park

This project received Conservation Futures funding by Ordinance 17232 with supplemental funding by Ordinance 17349, under the condition that Seattle would identify a final open space site for approval by King County. King County approves Seattle's selection of the site on 9th Avenue NE, adjacent to Christy Park and south of NE 43rd Street in the University District.

1116261 SEA Smith Cove Park Addition

\$625,000 in CFT funds will be reallocated to this project from the abandoned First Hill Open Space CFT project, also in Seattle.

(Ordinance 17795):

1116261 Seattle - WLFC SEA Smith Cove Park Addition

2014: \$875,000 is added to this project to complete King County's Conservation Futures funding for this acquisition.

1122039 Seattle - WLFC West Seattle Junction

The West Seattle Junction Urban Village project is a new project that will acquire two parcels of approximately .26 acres to create a new community park in the mixed-use, high-density neighborhood near the intersection of SW Alaska Way and Fauntleroy Way.

1122040 Seattle - WLFC SEA South Park Plaza

This new project will establish an approximately 1.3-acre passive use greenspace within a larger park that is being created on 14th Avenue South, in the South Park community. It is located just north of the soon-to-be-completed South Park replacement bridge on the western shore of the Duwamish Waterway.

1122041 Seattle - WLFC SEA Baker Park Addition

The Baker Park Addition Project is a new project that will acquire a .25-acre property on 14th Avenue NW, immediately south of Baker Park in Seattle's Crown Hill Neighborhood. The goal

Attachment AC  
to Exhibit A

is to enlarge the existing park, allow more light into it, and improve the general usability of the park.

1122042 Seattle - WLCF 48<sup>th</sup> and Charlestown

The goal of this new project is to acquire an approximately .25-acre property for a new local park in West Seattle. It is located at the corner of 48th Street SW and SW Charlestown Street.

**City of Seattle:**

**\$ 3,622,846**

**Chinatown/International District UCP, Greenwood/Phinney UCP, University District UCP, Smith Cove Park Addition, West Seattle Junction, South Park Plaza, Baker Park Addition, and 48<sup>th</sup> and Charlestown acquisition Projects**
