She views walking as a basic social service and equity issue. Her recent research concerning the civic engagement challenges for the local Asian Pacific Island community identified mobility (walkability and transit connectivity) as a key determinant in a person's access to elections support or stays civically involved. As a program coordinator at Seattle CityClub, she shaped and executed numerous day-long "Civic Boot Camp" tours that educated over 250 Seattleites about local history and policy decisions on topics such as urban density, walkability, liability, and equity.</i> | | |
