Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project replaces protective relays, to ensure system reliability by protecting the rest of the distribution system from potentially cascading effects if one part fails to operate properly. It upgrades relay technology, allowing remote control and documentation of system events, which enhances the detection and management of equipment problems.

Replace Breakers BPA Covington and Maple Valley Substations

Project No:	MC-CL-YS7121	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	Kent
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project meets the terms of City Light's interconnection agreement with Bonneville Power Administration (BPA) by upgrading breaker capacity in two substations that are owned by BPA, but where City Light is responsible for the breakers.

Ross Dam - AC/DC Distribution System Upgrade

Project No:	MC-CL-XS6373	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 128 State Highway 20
Current Project Stage:	Stage 4 - Procurement/Bid	Council District:	Outside City of Seattle
Start/End Date:	2005 - 2029	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$13,690	Urban Village:	Not in an Urban Village

This project upgrades aging AC electrical distribution system at Ross Dam with a new electrical distribution system. It installs conduit, ducting, distribution panels and wire. It improves the 4 kV system, improves lighting, and provides improvements on top of the dam including a center substation room, emergency generator, valve houses, and a 130-volt battery bank. New conduit and conductors improve reliability of spillgate operations and other dam operations requiring electric power. New electrical equipment, new lighting, and the addition of emergency lighting allow staff greater operational flexibility, safety, and efficiency.

Security Improvements

Project No:	MC-CL-YD9202	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project plans, designs and implements projects, improving the physical security of City Light critical facilities, in order to mitigate unauthorized access and criminal activities that could cause significant system damage, power outages, and other related disruptions to the electrical system. The project reduces the risk of sabotage, vandalism, theft, and terrorism that can result in the loss of valuable infrastructure for generation and distribution of power. The project also reduces risk of noncompliance with North American Reliability Council (NERC) 1200 Standards to improve security at critical facilities that house command and control systems. It enhances reliability of the power system, reduces the risk of lost revenues, and reduces the jeopardy to public safety and emergency response due to loss of lifeline services such as medical services, water and wastewater systems, communications, law enforcement, banking, transportation system, etc.

Project Category:	Rehabilitation or Restoration	Location:	Newhalem Creek Rd, Marblemount, WA 98267
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Outside City of Seattle

This project provides design and construction of several new structures to support industrial and recreational boat operations on our Skagit reservoirs. Structures include a new tour dock, new dry dock, additions to the existing boat houses and a new barge landing in Diablo. The project provides improved visitor access for the Skagit Boat Tour, safer boat fueling facilities, reduced impact of snowfall on boats, consolidated barge landings, and improved dry docks.

Skagit Facilities Plan

Project No:	MC-CL-XS6520	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Newhalem Creek Rd, Marblemount, WA 98267
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Outside City of Seattle

This project implements a comprehensive facility plan to optimize buildings and structures at two Skagit town sites. The project preserves essential facilities that support SCL's power production needs, and retains important civic, cultural, and historic features in keeping with the historic preservation requirements of the Skagit FERC Licensing agreement. The project will reduce operational costs by dismantling and removing surplus facilities that require significant on-going maintenance.

Skagit Facility Conservation

Project No:	MC-CL-XS6515	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Newhalem Creek Rd, Marblemount WA 98267
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides funding for structural improvements to existing facilities at Skagit, both residential and commercial. It replaces lights, windows, and HVAC systems, insulates buildings, and performs related work. The project dramatically reduces the amount of energy expended to keep structures warm or cool depending upon the season.

Skagit Powerhouses - Install Protection Relays

Project No:	MC-CL-XS6415	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	500 Newhalem Creek Rd, Marblemount, WA 98267
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project enhances generating reliability by adding protective relays to generating systems at the Ross, Diablo, and Gorge plants, whose generator protective relays do not meet present IEEE Standards. The project funds the addition of microprocessor relays to the existing system, certain auxiliary protective equipment, and modifies the design of the existing protection system to upgrade functionality. This will limit the potential for damage when surges and faults occur in transmission lines due to lightning strikes, load rejections, and other unexpected events.

Sound Transit 3 - City Light

Project No:	MC-CL-ZT8467	BSL Code:	BC-CL-Z
Project Type:	Ongoing	BSL Name:	Customer Focused - CIP
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides the engineering and construction of relocated and/or new Seattle City Light facilities required for two new light rail lines and related transit facilities from downtown Seattle to Ballard and West Seattle, approved in November 2017 as part of the Sound Transit 3 initiative. City Light activities include engineering and construction of electric power feeder relocations and upgrades, power services for the planned light rail lines, and various other tasks. Sound Transit's plans will require City Light work through several future budget cycles.

Sound Transit Lynnwood - City Light

Project No:	MC-CL-ZT8471	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	Rehabilitation or Restoration	Location:	City Wide
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2015 - 2025	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$12,310	Urban Village:	Outside City of Seattle

This project supports Sound Transit's Lynnwood Link, which will extend from the Northgate Transit Center at 5th Ave NE & NE 100th Street to our service area boundary at NE 200th Street, near the I-5 Right of Way. This project will include 100 blocks of relocations, a significant fraction of which will convert lines from overhead to underground. The project will install two feeders for each of the light rail line's traction power stations and upgrade the radial system's capacity where needed to serve the new load. The low and medium power service connections for the line's stations will be handled through the existing service projects.

Stormwater Compliance

Project No:	MC-CL-YD9236	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	City Wide
Current Project Stage:	N/A	Council District:	
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds the installation of lighted canopies and the associated drainage improvements that are necessary to bring City Light into compliance with the current rules and regulations. As a result of a City wide storm water audit and several surprise inspections from the Department of Ecology, it was discovered that there are several areas where measures are needed to bring City Light's storm water protection program into compliance. Some of our facilities drain directly to Superfund sites and the successful implementation of a compliant storm water system not only reduces our liability in the short term, but it has a direct impact on the amount of funding we may be ordered to provide for the cleanup of current and future Superfund sites. Currently, City Light stores raw materials (gravel, cold mix, backfill material, vegetative matter), salvage material (wire, metal products, electronics, transformers, poles) and warehouse materials (timbers, unfinished metal, galvanized poles) outside, where product can leach into the drainage systems.

Streetlight LED Conversion Program

Project No:	MC-CL-ZL8441	BSL Code:	BC-CL-Z
Project Type:	Ongoing	BSL Name:	Customer Focused - CIP
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project is the second-generation replacement of LED luminaires and will be deployed with a controls system to replace all cobrahead streetlights. The project is expected to achieve an additional 20% annual energy savings and prevent 2,720 metric tons of carbon from being released into the atmosphere. Included in this project will be a color temperature reduction to 3000K to improve customer reports of discomfort glare. This project continues the work originally chartered in 2009 to upgrade all City-owned streetlights to LED, which achieved an estimated annual 40% energy savings and avoided 5,446 metric tons of carbon released into the atmosphere. Since then, the LED industry has matured, and the original fixtures are no longer a benchmark of efficiency and are nearing the end of life.

Substation Automation

Project No:	MC-CL-YS8424	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project replaces and upgrades substation automation systems, including Remote Terminal Units (RTU) and annunciators, in each of City Light's fourteen substations, and upgrades equipment at two substations annually. The project reduces the likelihood and length of system outages due to failure as the current equipment is wearing out and cannot be replaced in kind because the equipment is no longer manufactured. The project also enhances energy efficiency, and reduces the probability of fines from appropriate governing bodies if loss of a substation, due to equipment failure, causes instability of the western interconnection grid and/or loss of load.

Substation Breaker Replacements and Reliability Additions

Project No:	MC-CL-YS7779	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides the review of City Light's inventory of approximately 400 transmission and distribution voltage circuit breakers. It determines which have the greatest wear, gas or oil leaks, maintenance cost, and service stress. It replaces those circuit breakers with the priority given to those with the highest risk of failure.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project adds, replaces, and upgrades substation equipment, particularly substation electrical and control equipment. The project also funds installation of remote control and monitoring of substation equipment from the System Control Center, which facilitates faster response time to correct system instability or outages. This work maintains and improves system reliability, permits compliance with high voltage and environmental regulations, and ensures safe work sites.

Substation Transformer Replacements

Project No:	MC-CL-YS7776	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	2136 N 163rd St, Shoreline
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides the review of power transformers at substations and determines dissolved gas concentration, insulation aging, oil leaks, maintenance cost, service stress, and fault interrupting history. The project replaces transformers prioritized by those with the highest risk of failure, or those presenting substation capacity limits. The project enhances system reliability by replacing aging substation transformers before they fail in service.

Substations Oil Containment

Project No:	MC-CL-YS7783	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project brings City Light's Power Substations into compliance with the federal Clean Water Act. By federal law, owners or operators of oil containing equipment, such as our substation transformers, must provide facilities that will prevent spilled oil from reaching any streams or open bodies of water.

System Control Center System Map Board Replacement

Project No:	MC-CL-ZF9985	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	New Investment	Location:	System Control Center
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Multiple
Start/End Date:	2023 - 2025	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$1,500	Urban Village:	Not in an Urban Village

This project funds the update to the existing system map board in the System Control Center (SCC). Currently, the SCC has a manual system map board that is no longer supported by the vendor, is outdated, and failing. Replacement parts are no longer available. The current map board was created in 1995 and is well beyond its service life. This equipment is a critical tool for the SCC to monitor the electric transmission and distribution systems while making decisions that impact the safety of our employees, the public, and our infrastructure. The benefits from updating to an electronic map board are substantial and will enable a significant reduction in the potential for human error. A modern map board is updated digitally and provides real-time updates generated from our Energy Management System (EMS).

Tolt Relicensing

Project No:	MC-CL-XC6985	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Tolt River Dam
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides the necessary documentation with the FERC by June 2027 to either acquire a new operating license for the Project or decommission it. South Fork Tolt Hydroelectric Project (the Project) FERC License expires in July 2029. Without a license the Project cannot be legally operated. The FERC relicensing process will require preparing and filing a Notice of Intent (NOi), Preliminary Application Document (PAD), and Preliminary and Final License Applications. The PAD, which is due in 2024, will be a substantial document requiring consultant assistance and additional City Light staff resources. Work began in 2021 to prepare the PAD and start the relicensing process. The main study phase of relicensing will occur in 2025 and 2026, which will require consultant and agency support for studies, reporting, and preparation of the license application which is due in 2027. If City Light were to decide to cease operating the Project instead of relicensing it, a Decommissioning Application would need to be filed, which requires many of the same elements and funding to complete this work.

Transmission & Generation Radio Systems

Project No:	MC-CL-YD9108	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project builds or replaces communications infrastructure consisting of fiber optic rings, digital microwave, telephone networks, and two-way radio systems. This project provides City Light with command and control capabilities for the operation of the electrical system. This project ensures the safe, reliable, and efficient operation of the system and positions City Light to meet the Federal Energy Regulatory Commission's vital communications systems requirements.

Transportation Electrification

Project No:	MC-CL-XF9239	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	New Investment	Location:	System Wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project develops electrification infrastructure to support light-duty, medium-duty, and heavy-duty electric vehicles as well as ferry and port systems. Improvements will be developed based on feedback from customer engagement. Efforts are expected to support areas including electrified public transit, fleet electrification, and electric vehicle charging.

Underground 26kV Conversion

Project No:	MC-CL-YR8362	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project replaces the 4 kV electrical equipment remaining in the electrical distribution system with new, efficient and reliable 26 kV distribution equipment. This project increases capacity to deliver power to City Light customers, rebuilds and maintains the backbone of the system, saves energy by reducing transformer and line losses, improves quality and reliability of service to customers, and releases unit substation properties for better neighborhood uses.

Underground Customer Driven Capacity Additions

Project No:	MC-CL-YR8360	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides electrical lines from substations to customers' property lines. This project builds new and replaces old underground line segments, and may replace rotten and damaged poles in the distribution system that have underground facilities beneath them. This work is driven by specific customer projects, for their direct benefit, to identify and upgrade feeders that are impacted before the new load from those projects comes online. City Light is reimbursed by the customers for this work.

Seattle Public Utilities

Drainage and Wastewater

Overview

Seattle Public Utilities (SPU) maintains the network of sewer and drainage systems throughout the City of Seattle. These systems include approximately:

- 448 miles of sanitary sewers
- 968 miles of combined sewers
- 67 Pump Stations
- 5.5 miles of wastewater force mains
- 82 City-owned and permitted Combined Sewer Overflow points
- 38 Combined Sewer Overflow control detention tanks/pipes
- 481 miles of storm drains / 591 storm drain outfalls
- 24,733 catch basins
- 65 miles of ditches, 128 miles of culverts
- 30 miles of stream channel (49 creeks, 6 of which are salmon bearing)
- 9 acres of green stormwater infrastructure
- 17 detention/treatment ponds
- 295 drainage flow control facilities
- 578 water quality structures

The Drainage and Wastewater (DWF) CIP is the vehicle for rehabilitating, replacing, improving, and expanding this infrastructure, as well as constructing projects that protect, conserve, and enhance our region's environmental resources. Planned spending in the DWF CIP is approximately \$1.37 billion over the next six years, from 2024-2029.

Thematic Priorities/Project Selection Criteria

The goal of the DWF CIP is to replace failing assets, construct new facilities that reduce the frequency of flooding and sewer backups for customers, improve water quality and habitat in the environment by reducing sewage overflows and the impacts of stormwater pollution, and provide adequate workforce facilities for our employees and equipment operations. Projects in the DWF CIP are guided by various Federal regulations, City policies, and long-term planning documents (e.g., the Plan to Protect Seattle's Waterways and asset management plans). Additional direction for SPU's capital improvement program come from our 2021-2026 Strategic Business Plan, which outlined new investments, cost savings, and a retail rate path for the six-year period and grew out of SPU's efforts to provide greater rate predictability for customers while making important investments for the future. In addition to candidate capital projects identified from these planning documents, projects are identified from external projects, opportunities, emergencies, and other unexpected events. Prioritized projects are predominantly based on the following:

- **Public Health, Safety & Environment:** The overriding priority for the DWF CIP is maintaining public health and safety by providing or improving services to customers and decreasing our impact on the environment. Examples of highly ranked projects in this category include the Drainage Capacity program, Sanitary Sewer Overflow Capacity program, South Park Water Quality Facility, and Protection of Beneficial Uses program which includes floodplain reconnection efforts and water quality improvement projects.

SPU – Drainage and Wastewater

- **Infrastructure Reliability & Risk:** How a project addresses infrastructure conditions or vulnerabilities. Examples of highly ranked projects in this category include the Pipe Rehabilitation and Pump Station improvement programs.
- **Regulatory, Mandates, Legal Agreements:** The City of Seattle/SPU must comply with State and Federal regulatory requirements including the Clean Water Act (CWA) and the Consent Decree that was entered in court on July 3, 2013, between the City, the U.S. Environmental Protection Agency (EPA), and the U.S. Department of Justice (DOJ). The two most significant regulatory drivers associated with the CWA are the National Pollutant Discharge Elimination System (NPDES) Waste Discharge Permit (aka NPDES CSO Permit) and the NPDES Phase I Municipal Stormwater Permit (aka NPDES MS4 Permit). This ranking category considers the degree to which the project is driven by Federal, State, and local laws, permit and regulatory requirements, and consent decrees, as well as by legal agreements with public and private parties and the specific mandates of the City Council and Mayor. Examples of highly ranked projects in this category include the Ship Canal Water Quality Project, CSO Retrofits, South Park Water Quality Facility, and Natural Drainage System (NDS) Partnering Program.
- **External Drivers and Opportunities:** SPU’s responsiveness to, or engagement with, the projects of other Departments or Jurisdictions, or opportunities to provide multiple benefits, address service equity, or reduce ratepayer costs through outside funding opportunities. Examples of highly ranked projects in this category include the Transportation Agency projects through SDOT’s Bridging the Gap Program and Sound Transit.

To aid SPU in making responsible decisions on behalf of ratepayers, prioritized projects must then be justified through a business case process that establishes that a problem or opportunity is timely and important and that the proposed solution is superior to other alternatives based on a triple bottom line analysis (economic, environmental, and social) of life-cycle benefits and costs. The process also recognizes that a project may be a “must do” project (e.g., required by regulations). The need for a given project or program is documented in a business case document and must be approved by the SPU General Manager/CEO and Asset Management Committee or CIP Board.

DWW Priorities that are also Mayor/Council Priorities

SPU's Strategic Business Plan helps us focus our work to better meet the needs of our customers and communities. It also provides our customers with a predictable three-year rate path and projections for the subsequent three years. SPU updates the plan and adopts rate path on a three-year cycle to allow for future uncertainties and adjustments. As part of the update process, SPU conducts broad research and public engagement efforts, in addition to soliciting input by the Mayor’s Office and City Council.

The DWW priorities in the SBP are the collective priorities for SPU’s DWW line of business, and they reflect and respond to values consistently expressed by customers and community: affordability, sustainability, and equity. SPU is committed to leading with equity and working in partnership with communities and employees to create a just and sustainable future. We understand that the actions we take today have the power to transform our employees, community, environment, and economy for generations to come.

SPU’s vision for being Community Centered, One Water, and Zero Waste is as follows:

2024-2029 Proposed Capital Improvement Plan

SPU – Drainage and Wastewater

- **Community Centered:** As a community-centered utility, we must be in relationship with community. Our work must include listening and advocating for community interests. If we are successful in adopting this mindset, then our communities will come away with a strong sense of empowerment.
- **One Water:** The challenges facing the water industry are incredibly complex and costly. We must develop multi-faceted, multi-benefit systemic solutions that recognize the value in all water resources.
- **Zero Waste:** We must strive for a future where we are not producing waste. This means intense recycling/reuse, reducing packaging and food waste, and adopting and seeding new ways of doing business and circular economy (e.g., deconstruction vs. demolition).

Reaching our goals requires long-range planning and strategic maneuvering. SPU’s General Manager/CEO recently highlighted near-term steps to lead the organization as part of his recent confirmation. These steps include planning for a transition away from centralized treatment plants to a future where small-scale decentralized treatment plants are the norm; adopting a continuous improvement culture to deliver services efficiently and effectively with data-informed decision making, work processes, and value-added outcomes for customers; and excellent service delivery that continues to prioritize the City’s values including implementing solutions that are sustainable and resilient, which includes a growing focus on delivering more holistic, programmatic, and nature-based solutions.

2024-2029 Proposed Capital Improvement Plan

SPU – Drainage and Wastewater

Protection of Beneficial Uses: This program makes improvements to the City’s drainage system to reduce the harmful effects of stormwater runoff on creeks and receiving water bodies and preserve the storm water conveyance function of our creeks through stream culvert repair and rehabilitation. The program includes projects to meet regulatory requirements, primarily NDS Partnering Program projects (a key component of Seattle’s Plan to Protect Seattle’s Waterways) which improves water quality with green stormwater infrastructure (GSI) approaches, while also partnering with SDOT to provide mobility improvements and streetscape enhancements. The program also includes projects that are part of the SPU and Council created GSI in Urban Villages Program, helping SPU grow approaches for partnering with other agencies, developers, and community-based organization to install GSI at the lowest costs moment. Stream culvert and floodplain storage efforts, including the Longfellow Flood Storage project, are exploring win-win partnerships with Seattle Parks and Recreation.

Sediments: The City of Seattle is a Potentially Responsible Party (PRP) for cleanup liabilities for contaminated sediments at the Lower Duwamish Waterway Superfund Site, the Harbor Island Superfund Site, and Gas Works Park due to alleged historic contributions from Combined Sewer Overflows (CSO), storm drain discharges, and other City-owned facilities. The city continues to work with the EPA, the Washington State Department of Ecology, King County, and other PRPs on an assessment of contaminants and sources. The Sediments program provides funding for studies and analysis for cleanup of contaminated sediment sites in which the City is a participant, engineering design, construction of actual cleanup of contaminated sites, and liability allocation negotiations. The study phase of sediment remediation projects often requires multiple years before specific cleanup actions are defined. Current projections reflect costs associated with cleanup construction adjacent to Gasworks Park, the Duwamish Waterway Sediment Remediation, and East Waterway Remediation projects beginning in 2024 based on preliminary schedules.

Combined Sewer Overflows: This program consists of projects that are mandated by State and Federal regulations to control combined sewer overflows (CSOs) into the City’s receiving waters. During heavy rainfall events, the combination of stormwater (about 90 percent of the volume) and sewage may exceed the capacity of the combined sewer system (CSS) and overflow into our waterways – causing a combined sewer overflow (CSO). CSOs spill a mixture of raw sewage and stormwater into local waterways at 85 outfalls throughout the city. These spills violate water quality standards, create unacceptable risk to public health, contaminate sediment and habitats for endangered species, and pollute the Puget Sound.

Annual CSOs have been reduced from a range of 20-30 billion gallons per year by both the city and the County in 1970 to about 1 billion gallons per year today. The City’s overflows account for approximately 100-200 million gallons per year. SPU currently does not meet regulatory mandates that limit CSOs to one untreated overflow per outfall location per year. SPU is required by State and Federal law to achieve control of CSOs by 2030. The LTCP, also called the Plan to Protect Seattle’s Waterways, was approved by regulators in May 2015. Ultimately the Consent Decree requires completion of construction of all CSO reduction projects by December 2030. CSOs must be proven to be controlled one year after completion of construction. Continuing investments in CSO control will enable SPU to achieve compliance with the 2030 milestone.

Projects in the CSO Program include large infrastructure projects (e.g., storage structures, pipes, tunnels, wet weather treatment plants, stormwater separation, pump stations, etc.), smaller retrofits, construction of Green Stormwater Infrastructure (GSI) for CSO control, and development and implementation of regulatory required plans such as the Plan to Protect Seattle’s Waterways. The

2024-2029 Proposed Capital Improvement Plan

SPU – Drainage and Wastewater

largest project in the DWF CIP is the Ship Canal Water Quality Project (SCWQP). The SCWQP consists of a 2.7-mile-long, approximately 18-foot-diameter tunnel that, when completed, will capture and store approximately 75 million gallons of sewage and stormwater flows from Ballard, Fremont, Wallingford, and Queen Anne.

Planning is underway and will continue through the coming years for additional CSO reduction efforts to meet CSO Consent Decree compliance date requirements. SPU currently expects to spend approximately \$354 million over the next six years on CSO reduction projects. The majority of this spending is associated with the SCWQP, a joint project with King County to control CSOs into the Lake Washington Ship Canal and Salmon Bay, which is currently projected to cost \$640 million.

Rehabilitation: This program consists of projects that repair, rehabilitate, or replace existing drainage and wastewater assets to maintain or improve current functionality levels. Assets that are addressed include:

- pump station structures, force mains, airlift conversions, major mechanical, ventilation and electrical components;
- drainage facilities including water quality structures, flow control structures and large surface water facilities; and
- drainage and wastewater conveyance pipes and structures (catch basins, maintenance holes and sandboxes).

Work within this program is a critical component to achieving SPU's Consent Decree target of less than four sanitary sewer overflows per 100 miles of sewer pipe bi-annually. Individual projects are defined by the type and method of rehabilitation and/or replacement including emergency rehabilitation, no-dig pipe lining rehabilitation by crews or contract, full mainline dig pipe replacement by contract, dig point pipe and structure rehabilitation by crews or contract, pump station repairs or replacement by crew or contract, and force main repairs or replacement by contract.

This proposed budget will include a new drainage facility master project to rehabilitate or replace water quality structures, flow control structures and large surface water facilities by crew or contractor, and a drainage pipe rehabilitation program to replace and repair drainage pipes and conveyance structures.

Flooding, Sewer Back-up, and Landslides: This program is responsible for preventing and alleviating flooding and sewer backups in the City of Seattle, with a primary focus on the protection of public health, safety, and property. The program area is focused on planning, design, and construction of new pipes, ditches, culverts, detention facilities, and GSI that control and/or convey storm runoff to the ultimate discharge locations of creeks, lakes, and Puget Sound. This program also involves protecting SPU's drainage and wastewater infrastructure in landslide prone areas from impending small landslides and providing drainage improvements where surface water generated from the City right-of way is contributing to slope instability and/or small landslides. Lastly, this program also includes sewer capacity projects that reduce sewer backups and help lower the risk of exceeding the Consent Decree target of four sanitary sewer overflows per 100 miles of sewer pipe per year. Major projects in this program include the 12th Avenue drainage project, the South Park Conveyance project, and the South Park Water Quality and Pump Station project. The South Park Water Quality Facility is a regulatory commitment within the Plan to Protect Seattle's Waterways.

SPU – Drainage and Wastewater

Shared Cost Projects: This program includes individual capital improvement projects which typically benefit multiple Lines of Business (LOB) (e.g., the Water LOB and the Drainage and Wastewater LOB) and whose costs are "shared," or paid for by more than one of SPU's utility funds.

The Proposed Budget for the Shared Cost program includes budgets for a few interdepartmental projects including the Alaskan Way Viaduct and Seawall Replacement, Move Seattle, Center City Connector Streetcar, and Sound Transit Link Light Rail. This BCL also includes funding for SPU Facility Improvements such as the South Operations Center, the North Operations Center, and a new dewatering facility near the South Transfer Station. Other programs in this BCL include DWW Heavy Equipment Purchases, 1% for the Arts, and several smaller projects.

Technology: The Technology CIP is managed in six program areas that provide a department-wide view of technology investments to address SPU's strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing.
- Enterprise Information Management.
- IT Infrastructure.
- Project Delivery & Performance.
- Science & System Performance; and
- Asset Information Management.

Investments in 2024 address several of SPU's key initiatives, including:

- Financial Management and Internal Controls.
- Operational Excellence and Performance Management.
- An Easy and Engaged Customer Experience.
- Data-driven Decision Support; and
- Project Delivery/Project Controls.

In 2024, SPU will continue focusing its technology spending on the highest priority business needs. These projects would primarily be within the Customer Contact and Billing Program, the Project Delivery and Performance Program, and the IT Infrastructure Program.

Within the Customer Contact and Billing Program, the next major projects to be developed are the CRM (Customer Relationship Management) for Community Engagement Project, and the Kubra Realtime project. Other projects slated would be the Integrated Security System project, Accela Software Implementation, Development Systems Integration Phase 2 project, and the Construction Contract Management project, along with other projects that have been deferred in previous years.

CIP Revenue Sources

The DWF CIP is financed through revenue bonds, a combination of low interest State and Federal loans, operating cash, and a small portion through capital grants or capital contributions in-kind. Financial policies adopted by the City Council and embedded within revenue bond covenants require that non-debt sources of funds (operating cash, grants, contributions) comprise at least 25% of the portfolio over a four-year period.

SPU – Drainage and Wastewater

For the 2024-2029 period, SPU has secured low interest SRF loans from the State Department of Ecology and WIFIA loans from the EPA to fund the majority of the Ship Canal Water Quality Project, with the balance funded through operating cash. The remaining projects will be funded through revenue bonds and operating cash. SPU will continue to seek out additional SRF and WIFIA loans where appropriate, as well as Public Works Trust Fund (PWTF) and Remedial Action Grants for sediments cleanup.

Summary of Upcoming Budget Issues and Challenges

The biggest challenge for DWF will be continuing to manage priority projects while still complying with regulatory requirements from the EPA and the Washington State Department of Ecology (DOE) - all within the financial limitations of the Fund.

The City negotiated a Consent Decree among the City, the EPA, and the DOJ for compliance with the CWA and State regulations. The Consent Decree was entered in court on July 3, 2013 and includes deadlines for development and implementation of the LTCP and will drive spending in the CSO Reduction Program over the next several years. The Consent Decree also includes requirements to implement a Capacity Management, Operations and Maintenance (CMOM) Program, which drives operations and maintenance spending and CIP spending in the Rehabilitation Program. Additionally, an NPDES permit for stormwater includes requirements to help protect local waterways and the Puget Sound from damaging pollutants and excessive runoff. This increased regulatory emphasis on protecting and improving water quality has resulted in the need for the city to make substantial investments in water quality treatment, detention, CSO retrofits, pipe and pump station rehabilitation, and inflow/infiltration reduction.

- Water Quality Treatment: This focuses on removing pollutants and can be accomplished through GSI or the use of technology such as specialized media filters. GSI is the use of green solutions to help reduce untreated overflows by allowing stormwater to infiltrate slowly into the ground, cutting the volume of stormwater entering the system, and providing water quality treatment through natural processes as the polluted runoff comes in contact with the soil and vegetation.
- Detention: This focuses on storing stormwater and/or sewage during a rainfall event and can be accomplished through detention ponds (for stormwater), GSI (for stormwater), floodplain reconnection (for stormwater), or underground tanks or tunnels (for both wastewater and stormwater). Detention can be added to the drainage system to offset the impacts of larger storms that overwhelm the conveyance capacity of the combined sewer system resulting in backups of sewage, localized flooding, and releases of untreated sewage.
- CSO and Drainage Facility Retrofits: This focuses on optimizing existing collection, pumping and storage systems, using low-cost repairs and modifications to reduce pollution to waterways and/or improve flow control benefits.
- Pipe and Pump Station Rehabilitation: This consists of repairing, rehabilitating, or replacing existing gravity sewer and drainage pipes and structures, wastewater pump stations, and/or force mains that have deficiencies or have reached the end of their useful life.
- Inflow/Infiltration Reduction: This focuses on addressing parts of the system where there are direct stormwater connections to the sanitary sewer system which can be directed to a separated stormwater system. Infiltration reduction focuses on filling in cracks in sewer lines

2024-2029 Proposed Capital Improvement Plan

SPU – Drainage and Wastewater

that allow groundwater to enter the system. By reducing inflow/infiltration, it is possible to reduce the frequency and volume of SSOs and sewer backups.

Other challenges DWF faces in meeting its obligations:

- 1) Addressing public expectations: It is challenging to address public expectations around our basic service level programs, such as flooding and system capacity. Funding levels for these programs are less than needed, but unable to be increased at this time due to the demand on our budget from regulatory requirements. The separated drainage and wastewater systems are either at capacity during storm events or lacking the fundamental infrastructure at various locations across the City. The impacts can range from very serious (basement sewer back-ups) to nuisance (limited street or yard flooding) issues.
- 2) Construction Costs: Market conditions, inflation, and increasing cost of building large (drainage and wastewater) infrastructure in dense urban areas continue to put pressure on the portfolio.
- 3) Climate Change: Increasing rainfall intensities resulting from climate change are increasing pressure on existing drainage and wastewater infrastructure leading to increased CSOs and driving the need for larger solutions and additional system improvements. SPU assets also have risks related to sea level rise along the marine shoreline of the city.
- 4) King County Regional Treatment and Disposal rate increase impact: In 1958, a regional sewage treatment agency, the Municipality of Metropolitan Seattle (“Metro”), was formed to provide a regional solution to water quality problems. The City, rather than expanding its own treatment facilities, entered into a contract with Metro for sewage treatment. Metro operates three major regional wastewater treatment plants, two smaller local treatment plants, and four combined sewer overflow (“CSO”) treatment facilities, along with an extensive regional interceptor system to route sewage to the plants and stop untreated discharges into Lake Washington and other bodies of water. Metro and King County (the “County”) were merged in 1994. Since then, the County has been responsible for sewage treatment and disposal and has entered into a long-term contract with local sewage agencies, including the City, which remain responsible for their own local collection and transmission lines. The County currently provides services to 37 entities, including cities (including Seattle), sewer districts, and others. The County finances the capital and operating costs of its sewage treatment and disposal system, including projects from the Regional Wastewater Services Plan, with capacity charges to new customers and wholesale charges to the City and other component agencies, all of which are established by the County Council pursuant to the current agreement. Currently, the City’s share of the County’s wholesale charge revenue is approximately 40%, and SPU passes this wholesale charge on to the City’s Drainage and Wastewater System ratepayers. Future County increases in rates may impact the funding allocation available for SPU services.

Future Projects/What is on the Horizon

Over the next 10 years the DWF CIP will be driven largely by regulatory requirements, major transportation projects, and Operations Crew Facilities. Major projects include the completion of the Ship Canal Water Quality Project, sediment remediation, and other projects necessary under the LTCP/Plan to Protect Seattle’s Waterways, including right-of-way bioretention through the NDS

2024-2029 Proposed Capital Improvement Plan

SPU – Drainage and Wastewater

Partnering Program, and South Park water quality facility. With the implementation of the Seattle Transportation Plan, DWF CIP will look for partnering opportunities that will allow SPU to stretch dollars further.

The City is currently engaged in planning that will identify capital and operating and maintenance needs for the Drainage and Wastewater System. The City's Plan to Protect Seattle's Waterways (LTCP to reduce CSO and Integrated Plan that addresses both sewage overflows and polluted stormwater runoff), which was approved by the EPA, Department of Justice, and Ecology, requires CIP investments in wastewater and stormwater projects through 2030. Supplementing in the near-term and looking beyond 2030, SPU is in the process of developing a community-centered plan to guide investments in integrated utility infrastructure for the next 50 years ([Shape Our Water Plan](#)). Through this planning effort, SPU will identify the partnerships, programs, and projects that will improve the performance and resilience of our drainage and wastewater systems while optimizing social and environmental co-benefits for the city. This planning is part of building a better Seattle by providing drainage and wastewater services that are affordable, safe, green, and just in a climate uncertain future.

Beneficial Uses Program

Project No:	MC-SU-C3317	BSL Code:	BC-SU-C333B
Project Type:	Ongoing	BSL Name:	Protection of Beneficial Uses
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project develops drainage related projects to improve the water quality, stream function and habitat in the streams and receiving waters of Seattle. Projects include stream and habitat restoration to reduce flooding, culvert repair and replacements to protect public safety, and green stormwater infrastructure projects to address flooding and control and clean runoff to streams.

Creek Culvert Replacement Program

Project No:	MC-SU-C3314	BSL Code:	BC-SU-C333B
Project Type:	Ongoing	BSL Name:	Protection of Beneficial Uses
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides for the repair and replacement of stream culverts that are part of SPU's critical drainage infrastructure. Culverts are prioritized for repair or replacement based on structural condition. Projects are then sequenced based on prioritization and other factors such as readiness to proceed, ability to address other drainage needs (e.g., flooding, maintenance), potential partnerships, synergies with other projects and availability of funding.

CSO Facility Retrofit

Project No:	MC-SU-C3611	BSL Code:	BC-SU-C360B
Project Type:	Ongoing	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project retrofits, upgrades, and modifies existing Combined Sewer Overflows (CSO) reduction facilities in Seattle CSO basins. Retrofit projects cost-effectively optimize and maximize existing system operation to minimize CSOs to the greatest extent possible, reducing long term CSO storage needs. This project assists in achieving State Department of Ecology's requirement of an average of no more than one CSO event per outfall per year.

Drainage Capacity Program

Project No:	MC-SU-C3802	BSL Code:	BC-SU-C380B
Project Type:	Ongoing	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides flood control and local drainage and wastewater projects to improve system capacity or increase the existing level of service. Candidate projects are identified through DWW investigations, claims, complaints, studies, and prior planning. Drainage “spot” projects and small landslides prevention projects are also included within this program. The Localized Flood Control Program improves Drainage and Wastewater levels of service.

Future CSO Projects

Project No:	MC-SU-C3612	BSL Code:	BC-SU-C360B
Project Type:	Ongoing	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	N/A
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project is for future combined sewer overflow (CSO) reduction projects that will be identified through the CSO Long-Term Control Plan (LTCP) Update. Future projects are most likely to include underground storage projects, wastewater lift station improvements, and/or wastewater conveyance system improvements. Planning for the projects began in 2018, and the projects should complete their construction by 2030.

Green Stormwater Infrastructure Program

Project No:	MC-SU-C3610	BSL Code:	BC-SU-C360B
Project Type:	Ongoing	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides construction of Green Stormwater Infrastructure (GSI) as a component of combined sewer overflow (CSO) reduction within the uncontrolled CSO basins. Work includes roadside bioretention and the RainWise program. RainWise provides financial incentives to private property owners within our uncontrolled CSO basins for construction of properly sized and installed raingardens or cisterns. The program supports the City's current regulatory strategy for compliance with CSO National Pollutant Discharge Elimination System (NPDES) permit.

GSI for Protection of Beneficial Uses

Project No:	MC-SU-C3316	BSL Code:	BC-SU-C333B
Project Type:	Ongoing	BSL Name:	Protection of Beneficial Uses
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides construction of Green Stormwater Infrastructure (GSI) within the separated stormwater system. Work includes right-of-way retrofits with bioretention and/or biofiltration for water quality treatment and flow control, as well as potential expansion of private property incentives for construction of properly sized and installed rain gardens or cisterns (RainWise program) into creek watersheds. The Natural Drainage Systems Projects within this program will achieve the water quality goals for the NDS Partnering Program identified in Seattle’s Plan to Protect Seattle’s Waterways (the Long Term Control Plan requirement within our Consent Decree) while coordinating with SDOT and community groups to deliver co-benefits such as sidewalks. The program also includes projects that are part of the SPU and Council created GSI in Urban Villages Program which will deliver multi-purpose green infrastructure projects in urban villages and urban centers through community partnerships and development synergies.

Long Term Control Plan

Project No:	MC-SU-C3604	BSL Code:	BC-SU-C360B
Project Type:	Ongoing	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project supports the ongoing implementation of SPU's Combined Sewer Overflow (CSO) Reduction Long Term Control Plan (LTCP) in accordance with SPU's National Pollutant Discharge Elimination System (NPDES) permit and the Federal CSO Control Policy. On May 1, 2012, the Environmental Protection Agency/Department of Justice issued a draft Consent Decree to the City of Seattle which requires the development and submission of a Long-Term Control Plan for approval by May 30, 2015. It further stipulates that all CSO Control Measures are to be constructed as expeditiously as practicable, and in no event later than December 31, 2030. The Consent Decree also allows the City to propose storm water control project(s) as part of an Integrated Plan, in addition to the CSO Control Measures. The LTCP identified projects and programs to reduce the number and volume of CSOs, meet receiving water quality standards, and protect designated beneficial uses. The LTCP includes flow characterization, monitoring, and hydraulic modeling; development of CSO control alternatives; development of control alternatives that takes into consideration costs and performance; operational plan revisions; public participation; implementation schedule; and post-construction monitoring.

Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides rehabilitation of outfalls throughout Seattle Public Utilities service area. Typical improvements may include, but are not limited to, repair, rehabilitation or replacement of outfall structures. This project will investigate the condition of each of the outfalls and complete an options analysis, followed by design, construction, and closeout activities.

Pipe Renewal Program

Project No:	MC-SU-C3710	BSL Code:	BC-SU-C370B
Project Type:	Ongoing	BSL Name:	Rehabilitation
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

SPU operates and maintains approximately 1,423 miles of wastewater conveyance (combined and separated) pipe. The age of this infrastructure varies; however, significant portions of the system were constructed prior to 1950. This ongoing program repairs, replaces, rehabilitates and renews the conveyance system by SPU crews and various contracting construction projects.

Pump Station & Force Main Improvements

Project No:	MC-SU-C3703	BSL Code:	BC-SU-C370B
Project Type:	Ongoing	BSL Name:	Rehabilitation
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides for improvements and upgrades to the 68 SPU-owned wastewater pump stations and force mains. Typical improvements may include, but are not limited to, replacement of existing pump station assets including pumps, motors, and valves, and installation of new assets such as SCADA systems, generators, and emergency plugs. This project enhances and extends the useful life of the existing pump stations which protects water quality.

Sanitary Sewer Overflow Capacity

Project No:	MC-SU-C3804	BSL Code:	BC-SU-C380B
Project Type:	Ongoing	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program is designed to improve sanitary sewer service to Seattle customers by addressing current and projected capacity limitations of the wastewater system through capital project improvements. Such improvements may include demand management measures such as infiltration and inflow (I/I) reduction, increased conveyance capacity, and individual customer measures such as installation of backflow preventers or grinder pumps to reduce the risk that customers will experience backups of sewage into their homes and businesses during storm events.

Sediment Remediation

Project No:	MC-SU-C3503	BSL Code:	BC-SU-C350B
Project Type:	Ongoing	BSL Name:	Sediments
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program provides for City of Seattle participation in cleanup of contaminated sediment sites at multiple locations across Seattle for which the City's drainage and wastewater utilities may have some liability. Typical phases of such projects include preliminary studies and analyses, preliminary engineering for actual cleanup efforts, and liability allocation negotiations. This program enhances the natural environment of Seattle and addresses both State and Federal regulatory agency requirements.

Ship Canal Water Quality Project

Project No:	MC-SU-C3614	BSL Code:	BC-SU-C360B
Project Type:	Discrete	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	West Ship Canal
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2014 - 2030	Neighborhood District:	Multiple
Total Project Cost:	\$640,000	Urban Village:	Multiple

The City of Seattle (the City) has prepared a comprehensive strategy, called The Plan to Protect Seattle's Waterways (the Plan) to reduce overflows and discharge of pollutants from combined sewers and the storm drain system. The City must control sewer discharges to protect public health, the environment, to comply with the Clean Water Act, the United States District Court Consent Decree, and State regulations. On May 29, 2015, the City submitted the plan to EPA and Ecology for approval. The largest project identified in the Plan is the Ship Canal Water Quality Project. This project is a joint project between SPU and King County to design and construct a storage tunnel to capture Combined Sewer Overflows for 5 SPU outfalls and two King County outfalls. The tunnel will be 2.7 miles long and run from Wallingford to Ballard. The tunnel will be approximately 18 feet in diameter and have a storage volume of about 30 million gallons. The purpose of the project is to bring all seven outfalls into compliance with the State's control standard of one untreated overflow per year per outfall on a 20-year moving average. Note all City/County funding allocations are for informational purposes, only. Actual resource allocations will be determined through ongoing project governance agreements and interagency coordination between the City and King County.

South Park Stormwater Program

Project No:	MC-SU-C3806	BSL Code:	BC-SU-C380B
Project Type:	Discrete	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	698 S Riverside DR
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 1
Start/End Date:	2006 - 2027	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$134,876	Urban Village:	Greater Duwamish

This program constructs a pump station (PS), a water quality facility (WQF), and additional drainage conveyance in South Park. The PS will allow the existing storm drain outfall to drain the system when the tide is high and will support future drainage projects. The WQF will treat most stormwater flows from the basin, reducing pollutant loading to the Duwamish. Excessive flows will bypass the WQF and be pumped directly to the river. This program was formerly titled "South Park Pump Station."

Thornton Confluence Improvement

Project No:	MC-SU-C3811	BSL Code:	BC-SU-C380B
Project Type:	Discrete	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	Thornton Creek
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2008 - 2019	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$7,907	Urban Village:	Not in an Urban Village

This project provides creek realignment, floodplain excavation, culvert replacement, and riparian plantings at the confluence of the north and south branches of Thornton Creek. SPU has acquired a number of flood prone properties in this area over the last decade. Using these properties, this project increases culvert capacity, floodplain area and flood storage, and provides stream habitat benefits. The project will help alleviate flooding and reduce maintenance at Meadowbrook Pond.

O&M Impacts: Any O&M needed as a result of this project will be included and/or identified as part of SPU's Operating Budget.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Seattle Public Utilities

Solid Waste

Overview

Seattle Public Utilities (SPU) collects and disposes of solid waste generated within the City of Seattle. To fulfill this responsibility, the City owns and manages the following significant infrastructure:

- Two transfer stations;
- One recycling and re-use facility;
- Two household hazardous waste facilities;
- A fleet of trucks and heavy equipment; and
- Three closed landfills previously used by the City, plus assistance to Seattle Parks on two other closed landfills.

The Solid Waste Fund (SWF) Capital Improvement Plan (CIP) is the planning tool for rehabilitating, replacing, improving, and expanding infrastructure, as well as constructing projects that protect, conserve, and enhance our region’s environmental resources. Planned spending in the SWF CIP is approximately \$123 million over the next six years, from 2024 through 2029.

Major anticipated projects include:

- South Transfer Station Facility Redevelopment.
- Cleanup of the historic South Park Landfill at the South Park Development Project.
- North Transfer Station Compactor Replacement.

These projects comprise approximately 49% of the SWF CIP. Other significant projects include the Waste Removal project at the Midway Landfill, replacing two compactors, floor replacement at the South Transfer Station, and SPU’s annual equipment investment.

Thematic Priorities

The SWF places a high priority on managing environmental issues and addressing regulatory requirements related to current and historic solid waste facilities while protecting employees and customer health and safety.

- Managing environmental issues and regulations: SPU is required to improve former landfill sites and act as necessary when conditions change. For example, underground gas levels at these sites are monitored. When increasing gas levels are detected, SPU implements improvements to extract the excess gas or otherwise mitigate the environmental impacts of the gas increase. Landfill projects are also triggered by Washington State Department of Transportation improvements to Interstate-5 that require modification to landfill infrastructure in the right-of-way and support of Sound Transit projects that impact the Midway Landfill. Additionally, the new transfer stations are designed to reduce the environmental impacts of the existing stations on neighboring communities.

Project Selection Criteria

SPU identifies candidate capital projects from several sources – planning (e.g., comprehensive plans, program plans), external projects and opportunities, and emergencies or other unexpected events. Under SPU’s Asset Management System, projects must be justified through a business case process that establishes that a problem or opportunity is timely and important and that the proposed solution is superior to alternatives based on a triple bottom line analysis (economic, environmental, and social) of life-cycle benefits and costs. The process also recognizes that a project may be a “must do” project (e.g., required by regulations).

Prioritization of SPU projects are based on the following set of criteria:

- **Regulatory Mandates, Legal Agreements:** The degree to which the project is driven by Federal, State, and local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties. Examples of highly ranked projects in this category include the South Park Development project and Kent Highlands and Midway Landfills programs.
- **External Drivers:** SPU’s responsiveness to, or engagement with, the projects of other departments or jurisdictions, and the specific mandates of the City Council and Mayor. An example of a project in this category is the 1% for Arts program.
- **Infrastructure:** How a project addresses infrastructure conditions or vulnerabilities. An example of a highly ranked project in this category is the tipping floor replacement at the South Transfer Station.
- **Level of Service:** The importance of this project in providing or improving services to customers and neighbors. An example of a highly ranked project in this category is the replacement of two compactors at the transfer stations.
- **Other Factors:** Other important factors include high net present value or cost-effectiveness, social or environmental benefits that were not otherwise recognized, a project already in progress or near completion, limited time opportunity, demonstration projects, community visibility, or outside funding.

Every project is rated against each criterion. Criteria are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each LOB, with reviews by key internal stakeholders. The ranking scheme and criteria are the same for all LOBs and are approved by the SPU General Manager/CEO and Asset Management Committee. Project priority rankings are used to clarify and document which projects are most important and why, to help determine which projects at the margin will be included, excluded or deferred from the CIP, and which projects should receive priority attention if a staff or financial resource constraint should arise.

CIP Highlights

2024-2029 Proposed Solid Waste Fund CIP
(In '000s; total may not sum due to rounding)

BCL	2024	2025	2026	2027	2028	2029	Total
New Facilities	24,162	30,605	8,505	13,920	6,620	17,420	101,232
Rehabilitation & Heavy Eqpt	2,260	150	150	350	300	150	3,360
Shared Cost Projects	2,249	1,727	1,195	1,135	1,175	1,050	8,531
Technology	2,401	1,508	1,508	1,508	1,508	1,508	9,939
Total	31,072	33,989	11,357	16,913	9,602	20,127	123,061

New Facilities: This program includes the planning, design, and construction of new facilities to enhance solid waste operations. SPU will continue to implement its Solid Waste Facilities Master Plan. The key project drivers of the New Facilities budget are the South Park Development (landfill cleanup) and the South Transfer Station operational improvements projects.

Rehabilitation and Heavy Equipment: This program includes design and construction of projects that repair and/or upgrade solid waste facilities other than the transfer stations. The key drivers of this budget level are the Midway project and new funding for the Solid Waste Comprehensive Plan Update as required by the Washington State Department of Ecology.

Shared Cost Projects: This program includes individual capital improvement projects that typically benefit multiple Lines of Business (LOB) (e.g., the Water LOB and the Drainage and Wastewater LOB) and which costs are "shared," or paid for by more than one of SPU's utility funds. Key driver for this budget includes heavy equipment purchases, which reflects the best estimate of the required fleet of trucks and heavy equipment for the transfer stations.

Technology: The Technology CIP is managed in six program areas that provide a department-wide view of technology investments to address SPU’s strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing;
- Enterprise Information Management;
- IT Infrastructure;
- Project Delivery & Performance;
- Science & System Performance; and
- Asset Information Management.

Investments in 2024 address several of SPU’s key initiatives, including:

- Financial Management and Internal Controls;
- Operational Excellence and Performance Management;
- An Easy and Engaged Customer Experience;
- Data-driven Decision Support; and

2024-2029 Proposed Capital Improvement Program

- Project Delivery/Project Controls.

In 2024, SPU will continue focusing its technology spending on the highest priority business needs. These projects would primarily be within the Customer Contact and Billing Program, the Project Delivery and Performance Program, and the IT Infrastructure Program.

Within the Customer Contact and Billing Program, the next major projects to be developed are the CRM (Customer Relationship Management) for Community Engagement Project, and the Kubra Realtime project. Other projects slated would be the Integrated Security System project, Development Systems Integration Phase 2 project, Construction Contract Management project along with other projects that have been deferred in previous years.

CIP Revenue Sources

Much of the SWF CIP is funded through bond proceeds and current cash contributions, the mix of which is determined by SWF financial policies, the overall financial health of the SWF, and the best value and equity to ratepayers. SPU issued debt in 2014, 2015, and 2016. SPU is not planning any SWF bond issuances and will use current cash contributions and existing cash on hand to pay for the CIP. Cash contributions to construction and repayment of debt come from rate-based charges to customers whose solid waste services are handled by the City's solid waste infrastructure and programs.

SPU also actively seeks grants, low-interest loans, and other funding sources whenever possible and prudent. The Solid Waste Utility is currently in the middle of a capital-intensive historic landfill remediation process and the South Recycling Center project. These projects are the primary drivers of CIP spending and have required rate increases for financing.

Summary of Upcoming Budget Issues and Challenges

Solid Waste faces logistical and financial issues as it reconstructs its primary facilities and addresses site cleanup efforts.

- Logistics: SWF is focusing on developing the South Recycling Center and must continue to use the site for trailer parking and household hazardous waste collection during construction.
- Financial Challenges: Developing the South Recycling Center along with site remediation efforts puts considerable short-term financial strain on the SWF. While the SWF is funding and building these major projects, it is working to address environmental stewardship by encouraging waste reduction and recycling, which results in declining demand for services.

Future Projects/What is on the Horizon

Once the South Park Landfill cleanup work and South Transfer Station operational improvements are completed, SPU will begin a thorough planning process to guide the future redevelopment of the South Transfer Station campus. The planning will take broader City needs into consideration before selecting a redevelopment scenario. Spending for the future development will be better defined over the next 3-5 years.

2024-2029 Proposed Capital Improvement Program

Kent Highlands

Project No:	MC-SU-C2402	BSL Code:	BC-SU-C240B
Project Type:	Ongoing	BSL Name:	Rehabilitation & Heavy Equipment
Project Category:	Improved Facility	Location:	Kent Highlands
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program funds compliance activities related to the Kent Highlands landfill closure project. These activities include environmental studies to demonstrate the effectiveness of the Kent Highlands landfill closure project, as well as various landfill improvements. The environmental studies are required under the existing Consent Decree with the State Department of Ecology and validate that current environmental controls are effective and reduce the likelihood of additional capital or O&M expenditures. The landfill improvements include replacement of existing flares, drainage improvements, groundwater protection, water treatment and mitigating earthquake risks associated with steep slopes.

Resources	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total

Midway Landfill

Project No:	MC-SU-C2403	BSL Code:	BC-SU-C240B
Project Type:	Ongoing	BSL Name:	Rehabilitation & Heavy Equipment
Project Category:	Improved Facility	Location:	Kent
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program funds compliance activities related to the Midway landfill closure project. These activities include environmental studies to demonstrate the effectiveness of the Midway landfill closure project. The studies are required under the existing Consent Decree with the State Department of Ecology and validate that current environmental controls are effective and reduce the likelihood of additional capital or O&M expenditures. The flare improvements are also a regulatory requirement. To ensure that SPU maintains regulatory compliance, a smaller flare or new technology will be required. The current telemetry used to monitor the environmental control systems at the Kent Highlands Landfill and the Midway Landfill, both Superfund sites, are nearly obsolete and the equipment is no longer supported. In addition, the current system only transmits alarm conditions and does not have any data acquisition functionality. This program funds a replacement system that will allow remote data acquisition as well as alarm functionality. The largest effort under this program is the Midway landfill improvement project that funds removal of waste in the WSDOT Right of Way to allow construction of two additional lanes on I-5 and the Sound Transit Federal Way Link project. This is a joint project involving Sound Transit, WSDOT and SPU it is regulated by the Department of Ecology under a Consent Decree Amendment.

Miscellaneous Station Improvement

Project No:	MC-SU-C2303	BSL Code:	BC-SU-C230B
Project Type:	Ongoing	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides modifications, upgrades, and wear replacement for the two new City Transfer Stations. The new facilities will require periodic capital upgrades and replacement to extend the useful life of these assets. Examples of this work include replacement of the wear surface on the STS tipping floor, replacement of the large refuse compactors and replacement of HVAC/Life Safety components.

North Transfer Station Rebuild

Project No:	MC-SU-C2306	BSL Code:	BC-SU-C230B
Project Type:	Discrete	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	N. 34th St.
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 4
Start/End Date:		Neighborhood District:	Lake Union
Total Project Cost:	\$111,015	Urban Village:	Not in an Urban Village

The project constructs a new North Recycling and Disposal Station to replace the existing, aging facility. The new facility will meet customer and employee needs, regulatory requirements, and waste management goals for at least the next 50 years. Safety, operational, and capacity concerns at the existing transfer station necessitate building a new facility. The new facility will benefit the public by providing reliable transfer of solid waste from the City and preventing the accumulation of waste and unsanitary conditions within the City.

South Park Development

Project No:	MC-SU-C2304	BSL Code:	BC-SU-C230B
Project Type:	Discrete	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	8100 2nd Ave S
Current Project Stage:	Stage 3 - Design	Council District:	Council District 1
Start/End Date:	2007 - 2027	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$22,377	Urban Village:	Greater Duwamish

This project studies, plans, designs and constructs remediation of the historic South Park Landfill site to minimize environmental impacts. SPU owns a portion of the site on which the landfill once operated, and was a historic operator of the landfill at one time. This project will meet the requirements of a Consent Decree with the Washington Department of Ecology for remediation of the historic South Park Landfill. This project is tied to the STS 2 project and some redesign of remedial elements will be required and construction has been delayed three years to 2023.

Resources	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total
Solid Waste Rates	6,073	300	7,100	6,800	500	100	-	-	20,873

South Recycling Center

Project No:	MC-SU-C2302	BSL Code:	BC-SU-C230B
Project Type:	Discrete	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	8100 2nd AVE S
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 1
Start/End Date:	2006 - 2027	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$43,202	Urban Village:	Greater Duwamish

SPU postponed South Transfer Station phase construction and a smaller project is proceeding to complete cleanup work at the old South Park Landfill. SPU decided to postpone development plans (including the construction of the recycling facility) to allow a more holistic evaluation of future needs and job opportunities that best support our zero-waste vision. A recycling facility may still be included in the future plans, but partial development of the site at this time could severely limit what we can do in the future. The scope of the project has been reduced to only include the remediation of the South Park Landfill (required under a Consent Decree), minimal operational improvements, and a path along 5th Avenue to mitigate the street vacation at the new South Transfer Station. The reduced STS2 project will be designed during 2021-2022 and constructed in 2023.

Future site development plans will happen over the next 5 years in a parallel process.

Seattle Public Utilities

Water

Overview

SPU delivers an average of approximately 124 million gallons of drinking water per day to 1.5 million people and businesses in Seattle and 18 surrounding cities and water districts, plus the Cascade Water Alliance. The water system infrastructure includes:

- The Cedar and South Fork Tolt supply sources, including over 103,000 acres of forested land.
- Three groundwater wells.
- Two primary water treatment plants.
- 11 booster chlorination facilities.
- 325 million gallons of treated water storage.
- 30 pump stations.
- Over 1,900 miles of transmission and distribution system pipelines.
- Almost 200,000 meters and service connections.
- More than 17,000 distribution system valves.
- About 19,000 hydrants.
- Monitoring and control systems; and,
- Various buildings and other related facilities.

In addition to replacing and improving the supply, treatment, transmission and distribution systems, the Water capital program includes investments in watershed stewardship projects, Cedar River Watershed Habitat Conservation Plan implementation, water conservation programs, vehicles, heavy equipment, and technology.

Planned spending in the Water Capital Improvement Program (CIP) is \$879 million over the next six years. Major projects include:

- Water system improvements associated with transportation projects, including Move Seattle; East Marginal Way Heavy Haul Corridor; Roosevelt Eastlake Rapid Ride; SR 520 Rest of the West.
- Operational and Regional Facility construction.
- Seismic upgrades of the Eastside and Riverton Reservoirs, the Magnolia Tank, the Trenton Standpipe, and the Cedar River Pipeline in Renton
- Replace the floating cover at Bitter Lake Reservoir with a new 21 MG partially buried circular prestressed concrete tank
- Addressing a slide area through which the Tolt Pipelines pass, upstream of the Tolt Treatment Plant; and
- Relicensing the South Fork Tolt Dam under the Federal Energy Regulatory Commission with Seattle City Light

The 2024-2029 Proposed CIP also includes many ongoing core programs, such as improving the distribution and transmission system water mains, valves, meters, steel storage tanks, and pump stations; watershed stewardship and conservation programs; and facilities, vehicles, and heavy equipment investments. In addition, it includes funding for distribution and transmission system seismic improvement programs stemming from the recent completion of SPU’s water system seismic study and federally regulated dam safety improvements at the Tolt Dam.

SPU funds Water capital projects through a combination of cash and issuance of bonds. The primary source of cash and debt repayment funds come from sale of water charged to retail and wholesale customers in the region. SPU completed its 2019 Water System Plan, a Washington Department of Health (WDOH) regulatory requirement. The plan was approved by King County and the Washington Department of Health in 2019. The plan includes many elements, as well as providing plans for SPU’s capital needs for the next 20 years.

Thematic Priorities

The overarching goal of the Water CIP is to ensure that the water system is properly maintained, upgraded, and expanded to reliably deliver high-quality, safe drinking water to customers, protect the environment, and comply with regulations. The primary themes driving the CIP in the next six years are asset preservation, health and human safety, environmental sustainability, and race and social justice.

- SPU is committed to making **asset preservation** investments to create or enhance operational efficiency. SPU uses asset management principles to determine the timing of rehabilitation or replacement of its infrastructure. Projects that fall into this category vary, ranging from water main replacement related to transportation projects to rehabilitation of steel storage facilities.
- SPU’s commitment to **health and human safety** is also addressed through SPU’s reservoir covering projects. Consistent with Ordinance 120899 and required by state regulators, SPU has finished replacing its open finished drinking water reservoirs with underground structures that will improve water quality and system security. Additionally, SPU will complete construction of a new floating cover on the Lake Forest Park reservoir and will begin construction of a new partially buried concrete tank at the Bitter Lake reservoir location to replace the existing floating covers that have reached the end of their useful life. Finally, as a result of a recently completed seismic study, two reservoirs will remain uncovered – Roosevelt and Volunteer – and are disconnected from the drinking water system, filled with treated water and available for emergency storage needs after major emergencies such as earthquakes.
- SPU is committed to **environmental sustainability**. This can best be seen in SPU’s responsibilities as outlined in the 50-year Habitat Conservation Plan (HCP), an agreement between local, state, and federal agencies. The HCP seeks to ensure the long-term ecological integrity of the Cedar River Watershed, which supplies the majority of the City’s drinking water. It simultaneously addresses the needs of protected wildlife species in and along the Cedar River. Investments in the regional conservation and low-income conservation programs also help in management of our natural resources, while helping customers reduce their utility bills.
- SPU is also committed to **race and social justice**. One example of this commitment is the Low-Income Water Conservation Program. This ongoing program provides water use efficiency resources to the City’s low-income customers to implement water conservation measures. Typical improvements consist of installing water-efficient fixtures, primarily low water use toilets, but also faucet aerators and common-area efficient clothes washers.

Project Selection Criteria

SPU identifies candidate capital projects from several sources – planning (e.g., comprehensive plans such as the 2019 Water System Plan, program plans, and asset management plans), external projects and opportunities (such as transportation projects), and emergencies or other unexpected events. Under SPU’s Asset Management approach, projects must be justified through a business case process that establishes that a problem or opportunity is timely and important, and that the proposed solution is superior to alternatives based on a triple bottom line analysis (economic, environmental, and social) of life cycle costs and benefits. The process also recognizes that a project may be a “must do” project (e.g., required by regulation).

SPU prioritizes its capital projects into three categories – Priorities 1, 2 and 3, with 1 being the most important and critical. Some projects are part of an externally driven project. Typically, SPU lacks control over the timing of externally driven projects.

Priority rankings are based on the following set of criteria:

- **Regulatory Mandates, Legal Agreements:** The degree to which a project is driven by federal, state, and local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties. Examples of highly ranked projects in this category include the reservoir covering programs, the Cedar River Habitat Conservation Program, and the South Fork Tolt relicensing project.
- **External Drivers:** SPU’s responsiveness to, or engagement with, projects of other Departments or Jurisdictions, and the specific mandates of the City Council and Mayor. Examples of highly ranked projects in this category include SR 520 Rest of the West phase and Roosevelt Eastlake Rapid Ride.
- **Infrastructure:** How a project addresses infrastructure conditions or vulnerabilities. Examples of highly ranked projects in this category include the Watermain Rehabilitation, Distribution System Improvements and Tank Improvements programs.
- **Level of Service:** The importance of a project in providing or improving services to customers. Examples of highly ranked projects in this category include the Water Infrastructure – New Taps and Service Renewals programs.
- **Other Factors:** Other important factors include high net present value or cost-effectiveness, social or environmental benefits not otherwise captured, a project already in progress or near completion, limited time opportunity, demonstration projects, community visibility, or outside funding.

Every project is rated against each criterion. Criteria ratings are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each Line of Business (LOB), with review by key internal stakeholders. The ranking scheme and criteria are the same for all LOBs and are approved by the SPU GM/CEO, Asset Management Committee and/or Capital Improvement Plan Board. In addition, regional projects that are cost shared with SPU’s wholesale customers are vetted annually through the Seattle Water System Operating Board, which is a board of representatives who have certain limited authority over policy and

operational matters as they affect the Seattle Regional Water Supply System. Project priority rankings are used to clarify and document which projects are most important (and why), to help determine which projects at the margin will be included or excluded (or deferred) from the CIP, and which projects should receive priority attention if a staff or financial resource constraint should arise.

CIP Spending by Major Category

(In ‘000s; total may not sum due to rounding)

Water Fund	2024	2025	2026	2027	2028	2029	Total
Distribution	\$44,060	\$57,113	\$65,491	\$65,295	\$59,907	\$74,633	\$366,499
Transmission	\$13,522	\$26,288	\$17,730	\$24,500	\$16,501	\$22,338	\$120,879
Watershed Stewardship	\$4,886	\$1,353	\$2,513	\$1,232	\$1,358	\$908	\$12,249
Water Quality & Treatment	\$6,450	\$5,065	\$16,283	\$29,777	\$30,294	\$23,046	\$110,914
Water Resources	\$16,706	\$13,812	\$7,520	\$5,819	\$17,245	\$16,502	\$77,606
Habitat Conservation Program	\$3,686	\$1,098	\$567	\$616	\$508	\$384	\$6,859
Shared Cost Projects	\$44,593	\$34,035	\$23,637	\$23,931	\$20,182	\$10,710	\$157,089
Technology	\$5,323	\$4,221	\$4,221	\$4,221	\$4,221	\$4,221	\$26,428
Grand Total	\$139,227	\$142,986	\$137,963	\$155,390	\$150,216	\$152,741	\$878,524

Distribution: Projects and programs in this category relate to rehabilitation and improvements to the City's water mains and appurtenances, water storage tanks, pump stations, and other facilities that are part of the system that distributes treated water throughout the City of Seattle and to retail customers outside of the City.

Decreases in the **Distribution BCL** in 2024 are primarily due to shifting watermain rehabilitation projects to later years in the 6-year capital plan. In 2025-2029, funding increases to rehabilitate and replace water mains, because more of this large asset class is reaching the end of its service life.

Transmission: The purpose of this program category is to rehabilitate and improve the City's large transmission pipelines that bring untreated water to the treatment facilities and convey treated water from the treatment facilities to Seattle and to other local utilities that purchase a portion of SPU’s supply for their customers.

Transmission BCL in 2024 is stable. Increases in 2025-2029 are caused by initiation of the new transmission system seismic improvements program.

Watershed Stewardship: Projects and programs in this category improve protection of our sources of drinking water, provide habitat protection and restoration, sustain the environment, and enhance environmental quality, both locally and regionally. Most of the projects in this program category are located within the Cedar and Tolt River municipal watersheds.

- The Cedar River Municipal Watershed is 90,638 acres of land owned by the City of Seattle and provides about 65% of the drinking water used by 1.5 million people in the greater Seattle area supplied by SPU. The City of Seattle is required by law to maintain a clean drinking water supply. To that end, the City restricts public access and management is guided by a Habitat Conservation

Plan. The Cedar River Watershed is an unfiltered surface water supply which produces some of the best water in the world.

- The South Fork Tolt River Watershed is the second supply watershed in SPU’s freshwater supply system and provides roughly 35% of SPU’s drinking water supply. Located in the foothills of the Cascades in east King County, it first came on-line in 1964, and since 1989 has also supported a small Seattle City Light hydro-electric facility. The South Fork Tolt Municipal Watershed is approximately 12,000 acres, two-thirds of which are owned and managed by the City of Seattle. The Tolt Treatment Facilities, which includes filtration, can provide up to 120 million gallons of drinking water per day.

Increases in the **Watershed Stewardship BCL** in 2024 are primarily due to delays to replace failing culverts with larger fish passable culverts at road crossings in the South Fork Tolt Watershed. The new crossings will satisfy State regulatory requirements for fish passage. In addition to providing fish passage, this program will reduce the potential for excessive sedimentation, catastrophic infrastructure (i.e. forest road) failure, and impacts to drinking water quality.

Water Quality and Treatment: The purpose of this program category is to construct, rehabilitate or improve water treatment facilities, and cover the remaining open water reservoirs. State and federal drinking water regulations and public health protection are key drivers of investments in this program category. To comply with regulations, SPU has invested hundreds of millions of dollars in building two new primary treatment facilities and covering two and burying five reservoirs that contain already treated water that is distributed directly to Seattle retail and wholesale customers for drinking purposes.

The focus in the **Water Quality & Treatment BCL** is completion of the Lake Forest Park Reservoir floating cover replacement, and in later CIP years, the Bitter Lake Reservoir Project. The plan for the Bitter Lake Reservoir is construction of a new 21 MG partially buried circular prestressed concrete tank instead of the new floating cover previously considered. Construction of the Lake Forest Park Reservoir replacement cover was completed in 2022, and the Bitter Lake Reservoir Project is targeted to begin construction in 2026.

Water Resources: The purpose of this program category is to manage our water resources to meet anticipated demands and in-stream flow requirements – the amount of water provided to the river to support aquatic habitat, wetlands, riparian vegetation, and water quality – and to promote residential and commercial water conservation. The requirements for in-stream flows are detailed in agreements with state and federal agencies and include provisions for minimum stream flows in the Cedar and South Fork Tolt Rivers. Examples of the types of projects in this category include the Dam Safety Program, Sockeye Broodstock Weir and other improvements associated with the hatchery and fish ladder, and relicensing of the South Fork Tolt Dam to secure ongoing operations of that water supply source.

Increases in the **Water Resources BCL** in 2024 are due to dam safety projects such as the Tolt Early Warning System Upgrade and Tolt Debris Boom, which are both required to comply with the Federal Energy Regulatory Commission (FERC). Increases in outyears of the 6-year CIP are also due to FERC relicensing requirements at the South Fork Tolt Dam, which SPU will be partnering on with Seattle City Light.

Habitat Conservation Program: This program category includes projects and programs directly related to implementation of the Cedar River Watershed Habitat Conservation Plan. The Habitat Conservation Plan

benefits the utility and the ratepayers it serves by providing legal certainty under the Endangered Species Act for the City’s continued operations within the Cedar River Watershed, which supplies 65% of the SPU’s drinking water. The Habitat Conservation Program requires SPU to invest \$100 million over 50 years, with \$60 million in the first decade, on approximately 30 capital projects and 60 O&M activities in three areas: management of in-stream flows for people and fish, forest and land conservation activities, and mitigation for the blockage of salmon and steelhead fish as they return to the Cedar River to spawn. The Water Fund’s CIP projects in this area are grouped into eight categories: road improvements and decommissioning, stream and riparian restoration, upland forest restoration, Landsburg fish passage, Cedar River sockeye hatchery, improvements to the Ballard Locks for fish passage and water conservation, fish habitat protection and restoration in the lower Cedar River below the municipal watershed boundary, and evaluation of Cedar permanent dead storage in Chester Morse Lake.

Increases in the **Habitat Conservation Program BCL** in 2024 is tied to the Downstream Fish Habitat Program in the implementation of stream restoration projects in close coordination with King County. Decreases in 2025-2029 are the result of the transitioning of the that Program along with watershed road decommissioning and fish passage programs to the Watershed Stewardship BCL (see notes under C130 – Watershed Stewardship). These programs were previously all under the City’s Cedar River Habitat Conservation Program (HCP) and are close to meeting the City’s commitments in these program areas.

Shared Cost Projects: This program includes individual capital improvement projects which typically benefit multiple lines of business (e.g., the water line of business and the drainage and wastewater line of business) and whose costs are "shared," or paid for, by more than one of SPU's utility funds. For the next six years, the Shared Cost program includes funding for several interdepartmental programs and projects including Move Seattle, Alaskan Way Viaduct and Seawall Replacement. Funding is also included for SPU’s Heavy Equipment Purchases and several smaller projects.

There have been shifts in the **Shared Cost Projects BCL** primarily due to the East Marginal Way Heavy Haul Corridor and the Roosevelt Eastlake Rapid Ride delays and movement of the Center City Streetcar delay to outyears beyond this 6-year CIP. There are also increases associated with heavy equipment purchases to modernize SPU’s fleet.

Technology: The Technology capital portfolio is managed in six program areas, which provide a department-wide view of technology investments to address SPU’s strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing
- Enterprise Information Management
- IT Infrastructure
- Project Delivery & Performance
- Science & System Performance
- Asset Information Management

Investments in 2024 address several of SPU’s key initiatives, including:

- Financial Management and Internal Controls
- Operational Excellence and Performance Management
- An Easy and Engaged Customer Experience

2024-2029 Proposed Capital Improvement Program

- Data-driven Decision Support
- Project Delivery/Project Controls

In 2024, SPU will continue focusing its technology spending on the highest priority business needs. These projects would primarily be within the Customer Contact and Billing Program, the Project Delivery and Performance Program, and the IT Infrastructure Program.

Within the Customer Contact and Billing Program, the next major projects to be developed are the CRM (Customer Relationship Management) for Community Engagement Project, and the Kubra Realtime project. Other projects slated would be the Integrated Security System project, Development Systems Integration Phase 2 project, Construction Contract Management project along with other projects that have been deferred in previous years.

CIP Revenue Sources

SPU's Water CIP is funded largely by Water ratepayers. About 75% of the Water Fund's Operating Revenues come from retail ratepayers, split approximately evenly between residential and commercial customers. Another 20% of the Water Fund's overall revenues come from wholesale purveyors who serve surrounding jurisdictions. The remaining 5% consists of non-rate revenue, which include such items as tap fees received. SPU issues bonds, serviced by ratepayers, which in the current period covers 65% of the CIP, with the remainder funded by available cash, including ratepayer revenue.

SPU actively seeks grants, low interest loans, and other funding sources whenever possible. And, as mentioned above, SPU also receives payments from developers that are intended to offset the cost of installing new taps when they connect newly constructed buildings to SPU watermain. These "tap fees" are a volatile revenue source, trending with the construction-related sectors of the economy.

Summary of Upcoming Budget Issues and Challenges

These important issues create financial challenges and opportunities for the Water Fund in the future.

Water Conservation: The City of Seattle, Seattle residents and businesses, and Seattle's wholesale water partners have worked together to reduce water consumption. As a result, consumption has declined since the 1980's and is projected to flatten out. In 2021, consumption was 30% below the peak of 1984, despite serving a larger population. Seattle currently has some of the lowest per capita water consumption in the nation. While this accomplishment helps contribute to a sustainable future for the region, it puts financial pressure on the utility because fixed costs, including the costs of the CIP, need to be distributed across fewer units of water sold. This trend also puts pressure on SPU management and employees to deliver services as efficiently as possible. In the future, it may also influence water rate design.

Transitioning from Major Projects toward Asset Management: The Water Fund is transitioning from a period of building large capital projects, in response to regulatory requirements, to a time of physical infrastructure rehabilitation. Past investments include water treatment facilities for the Tolt and Cedar water supplies, coverings for seven open reservoirs in response to federal/state regulations, construction of a second pipeline for the Tolt system, and investments to meet federal requirements embodied in the Cedar River Watershed Habitat Conservation Plan. These investments helped secure the supply and distribution of high-quality drinking water and provide appropriate stewardship of the watersheds

consistent with federal and state requirements.

The City of Seattle is now better positioned than many water utilities in the nation in terms of regulatory compliance. Residents, businesses, and ratepayers will benefit from these investments for years to come. Although the focus will shift from major projects to physical infrastructure rehabilitation, the utility will be paying debt service over the next several budget cycles on the bonds that were issued for these major projects. Against the backdrop of these trends, the 2024-2029 Water CIP has been developed to:

- Provide for water system modifications associated with various Seattle and regional transportation projects.
- Recognize the need to invest in the water system’s resiliency in a major earthquake event and continue with strategic investments to reduce risk.
- Preserve the transmission and distribution systems through careful investment in aging infrastructure renewal,
- Provide stewardship of the watersheds, to ensure a reliable source of high-quality drinking water.
- Comply with federal and state regulations governing water quality, system reliability, and habitat protection in the watersheds in which SPU operates; and
- Prioritize projects to deliver on infrastructure and regulatory requirements within the limited resources of the Water Fund.

Future Projects/What is on the Horizon

The Water CIP has completed a multi-decade period of investments in major infrastructure projects. These projects have positioned SPU to meet drinking water quality and environmental regulations. Projects have included the Tolt and Cedar Water Treatment Facilities, Tolt Pipeline 2, Reservoir Covering Program, the Cedar River Watershed HCP, the Chester Morse Lake Pump Plant Project, and a new Water Quality Laboratory. SPU has also made a major reinvestment in the Supervisory Control and Data Acquisition System which is used to monitor and control the regional and retail water system. However, these investments have also led to increasing debt service payments that constrain future budgets.

The 6-year CIP funds the work to invest in critical projects allowing continued reliable service of drinking water to the region’s 1.5 million customers. Emphasis will be on asset management-based rehabilitation and replacement of distribution system infrastructure (e.g., mains, valves, hydrants, meters), as well as water system infrastructure improvements related to transportation projects, such as the Move Seattle Levy, seismic upgrades for critical infrastructure following the 2018 water system seismic study, and dam safety projects.

Ballard Locks Improvements

Project No:	MC-SU-C1606	BSL Code:	BC-SU-C160B
Project Type:	Discrete	BSL Name:	Habitat Conservation Program
Project Category:	Improved Facility	Location:	NW 54th St 30th Ave NW
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 6
Start/End Date:	2000 - 2025	Neighborhood District:	Ballard
Total Project Cost:	\$603	Urban Village:	Ballard-Interbay Northend

This project provides improvements at the Ballard Locks to upgrade conditions for salmon. Improvements are focused on conserving the amount of freshwater needed to operate the locks to reduce the demand for freshwater from the Cedar River and increase the availability of freshwater for salmon. This project is a requirement of the Cedar River Habitat Conservation Plan (HCP).

Cathodic Protection

Project No:	MC-SU-C1208	BSL Code:	BC-SU-C120B
Project Type:	Ongoing	BSL Name:	Transmission
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program installs corrosion protection systems that prevent external corrosion of water transmission pipelines located in Seattle and throughout King County. The cathodic protection systems extend the life of buried pipelines made of ductile iron, steel, and concrete cylinder pipe.

Cedar Bridges

Project No:	MC-SU-C1307	BSL Code:	BC-SU-C130B
Project Type:	Ongoing	BSL Name:	Watershed Stewardship
Project Category:	Improved Facility	Location:	Cedar River Watershed
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program replaces aging bridges and related structures, such as abutments, asphalt approaches, and guardrails in the Cedar River Watershed. This project improves aging bridge assets on priority roads in the watershed transportation system to provide City employees, City contractors, and visitors with safe and adequate access to City water supply and hydroelectric assets while minimizing and reducing environmental impacts over time. Work in this program area also maintains compliance with state laws, safety and environmental regulations, and tribal access agreements including Washington Department of Natural Resources (WDNR) forest practice regulations, and Washington Department of Health (DOH) Watershed Protection Plan regulations.

Dam Safety

Project No:	MC-SU-C1506	BSL Code:	BC-SU-C150B
Project Type:	Ongoing	BSL Name:	Water Resources
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program maintains the safety of SPU's water supply dams in the Cedar River and South Fork Tolt River Municipal Watersheds and the in-town reservoir dams. Typical improvements may include, but are not limited to, upgrades to the dams' failure warning systems, spillways, outlet works, piping, and other civil, mechanical, and structural systems. This program ensures the continuing safe functioning, operation and monitoring of SPU's water supply dams and associated facilities per Federal Energy Regulatory Commission (FERC), state and local regulations, and SPU requirements to prevent loss of life and/or property damage and loss of SPU's ability to deliver reliable drinking water supply to its customers.

Distribution Infrastructure

Project No:	MC-SU-C1138	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides funding for modifications and relocations of existing Distribution System assets resulting from third party project impacts to Distribution System infrastructure located in the right-of-way or on public property. The costs are recovered from third parties and primarily other public utilities and agencies through Memorandums of Agreement and standard charges. This program covers all Distribution System modifications and relocations that are funded by third parties excluding Water main Extension project projects. The benefit of this project is accommodation of third party development by relocating or modifying existing Distribution System infrastructure, while retaining a Distribution System that continues to provide cost effective service to the ratepayer.

Distribution System Improvements

Project No:	MC-SU-C1128	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program improves service reliability, pressure, capacity, and fire flow in the City's water distribution system. Typical improvements may include, but are not limited to, booster pump station installation, creation of new service zones, and tank elevation or replacement, as well as additional water main pipelines and pressure reducing valves. These improvements to service levels meet Washington Department of Health (DOH) regulations and SPU's Distribution System Pressure Policy to provide greater than 20 psi service pressure. These improvements provide higher flow of water for fire protection which improves public safety and results in smaller and shorter fires.

Distribution System In-Line Gate Valve

Project No:	MC-SU-C1136	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program replaces line valves in the water distribution system throughout the City of Seattle that fail or are obsolete due to age or lack of replacement parts. The replacement of these gate valves extends the useful life of the water main and restores the performance of the water distribution system. This ongoing program also adds valves within the system to enhance system performance, enhance operational control, and reduce the number of customers whose service is interrupted during a water main shut down.

Downstream Fish Habitat

Project No:	MC-SU-C1607	BSL Code:	BC-SU-C160B
Project Type:	Discrete	BSL Name:	Habitat Conservation Program
Project Category:	Improved Facility	Location:	Cedar River Watershed
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2008 - 2026	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$23,937	Urban Village:	Not in an Urban Village

This project provides protection and restoration of fish habitat along the lower Cedar River, below the City's municipal watershed boundary at the Landsburg Dam and includes both acquisition of habitat lands and habitat restoration on the main stem of the Cedar River. This project is a requirement of the Cedar River Habitat Conservation Plan (HCP).

Regional Water Conservation

Project No:	MC-SU-C1504	BSL Code:	BC-SU-C150B
Project Type:	Ongoing	BSL Name:	Water Resources
Project Category:	Improved Facility	Location:	Citywide and Regional
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides customer incentives for residential, commercial, institutional, and industrial water efficiency capital improvements. Typical examples include, but are not limited to, water efficient toilets and urinals, clothes washers, landscape irrigation devices, upgrades in industrial process water, and replacing water-cooled equipment with air-cooled versions. The program benefits both existing and future ratepayers. Water conservation provides low-cost options for meeting potential challenges from climate change, managing Seattle's drinking water resources, and customer efficiency and potential cost savings on water bills.

Tank Improvements

Project No:	MC-SU-C1134	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program implements water quality, seismic, and other improvements to steel water tanks in Seattle. Functional water tanks are essential to public health protection as they assure that the distribution system is under pressure at all times, even when pump stations or control valves malfunction. Depressurization of the water system may result in siphoning back contaminants from faulty private systems and from the ground into the water pipes.

Tolt Bridges

Project No:	MC-SU-C1308	BSL Code:	BC-SU-C130B
Project Type:	Discrete	BSL Name:	Watershed Stewardship
Project Category:	Improved Facility	Location:	Tolt River Watershed
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2004 - 2020	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$4,011	Urban Village:	Not in an Urban Village

This project replaces aging bridges and related structures, such as abutments, asphalt approaches, and guardrails in the Cedar River Watershed. This project improves aging bridge assets on priority roads in the watershed transportation system to provide City employees, City contractors, and visitors with safe and adequate access to City water supply and hydroelectric assets while minimizing and reducing environmental impacts over time. Work in this project also maintains compliance with state laws, safety and environmental regulations, and tribal access agreements including Washington Department of Natural Resources (WDNR) forest practice regulations, and Washington Department of Health (DOH) Watershed Protection Plan regulations.

Water Infrastructure-Hydrant Replace/Relocate

Project No:	MC-SU-C1110	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program renews or replaces existing hydrants in the City's water distribution system. In general, hydrant renewal or replacement may occur as a result of hydrant malfunction, catastrophic failure due to vehicle damage, or to meet SPU criticality criteria such as spacing, location, cost, opportunity projects, or flow and pressure problems. This program improves access to fire hydrants for the Seattle Fire Department (SFD) and helps to reduce the damage as a result of fire by locating fire hydrants in alternate or additional locations.

Water Infrastructure-New Hydrants

Project No:	MC-SU-C1112	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program installs new hydrants in the City's water distribution system. In general, new hydrants are installed to meet service requests made by private property owners and to comply with Washington Administrative Code (WAC) or Seattle Fire Department (SFD) requirements. This program also helps to reduce the damage as a result of fire by locating new fire hydrants throughout the City's direct service area.

Water Infrastructure-New Taps

Project No:	MC-SU-C1113	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program installs new drinking water services throughout the City of Seattle. This project provides new connections to existing water mains with no interruption of service to adjacent existing customers, and the installation of metered water service lines from the new tap to the new customer's property lines. This program meets City responsibility for new service connections in the Seattle Municipal Code (SMC) to provide reliable drinking water supply to customers.

Water Supply Flexibility Program

Project No:	MC-SU-C1507	BSL Code:	BC-SU-C150B
Project Type:	Ongoing	BSL Name:	Water Resources
Project Category:	New Investment	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program improves water system performance, reliability, and flexibility during severe weather events, supply and infrastructure emergencies, as well as enhancing environmental performance for fish and supporting regulatory and policy compliance in these areas. Project improvements include Tolt Reservoir Temperature and the Overflow Dike in Chester Morse Lake, and may include but are not limited to, dam integrity and alternatives to improved crest control, reservoir water temperature, and water quality management. In addition, the S. Fork Tolt Dam is up for relicensing under the Federal Energy Regulatory Commission (FERC), which expires July 19, 2029. The relicensing process will take 5-7 years depending on the relicensing approach taken with Seattle City Light and FERC. Seattle City Light is the Tolt Dam license holder and will lead the relicensing effort but significant support from SPU is anticipated. Both utilities (SPU/SCL) are establishing CIP numbers budgeted for the relicensing process.

Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program replaces or rehabilitates existing water mains in Seattle. Replacements occur when leaks and breaks become too frequent and the cost of ongoing repairs is no longer cost effective. The benefits of this program can include improved service reliability, fire flow, water quality and lower maintenance costs. These benefits vary depending on the specific water main and site conditions.

Watershed Road Improvements/Decommissioning

Project No:	MC-SU-C1601	BSL Code:	BC-SU-C160B
Project Type:	Ongoing	BSL Name:	Habitat Conservation Program
Project Category:	Improved Facility	Location:	Cedar River Watershed
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program provides forest road improvements and decommissioning in the Cedar River Watershed. The purpose of this program is to reduce the delivery of sediment into the waterways in the watershed to protect both aquatic habitat and water quality. This program is a requirement under the Cedar River Watershed Habitat Conservation Plan (HCP).

Seattle Public Utilities

Shared & Technology Projects

1% for Arts

Project No:	MC-SU-C4118	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	New Investment	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding for Seattle Public Utilities' 1% for Arts contribution. Eligibility is determined at the individual project level with payment occurring from this project. Funds contributed to the 1% for Arts project allow for the commission, purchase, and installation of art on City-owned properties that is accessible to the public. The Municipal Arts Plan, which is prepared annually, describes the status of ongoing art projects and establishes the scope of work and allocations for new art projects.

Alaskan Way Viaduct & Seawall Replacement Program

Project No:	MC-SU-C4102	BSL Code:	BC-SU-C410B
Project Type:	Discrete	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2001 - 2027	Neighborhood District:	Multiple
Total Project Cost:	\$87,522	Urban Village:	Multiple

This project relocates, replaces, and protects water infrastructure affected by the replacement of the Alaskan Way Viaduct and Seawall. This project encompasses many sub-projects which are collectively known as the Alaskan Way Viaduct and Seawall Replacement project (AWVSR project). The Washington State Department of Transportation (WSDOT) is the lead for the SR-99 replacement, while the City of Seattle is the lead on development of the waterfront public space, implementation of the new surface Alaskan Way, and design and construction of the seawall.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides SPU staff with new and replacement heavy equipment required by SPU crews to perform their work. This equipment transports work crews and tools to job sites and supports the safe and efficient replacement, repair, and maintenance of infrastructures. It also build the infrastructure and telematics system needed to implement a fleet of electric vehicles to reduce SPU's use of fossil fuels and support the City's Drive Clean Seattle Fleet initiative.

Integrated Control Monitoring Program

Project No:	MC-SU-C4108	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Not Applicable
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides for electronic and mechanical system upgrades as required at various City facilities. The drinking water Supervisory Control and Data Acquisition (SCADA) system was installed in 2005 throughout King County. System components include, but is not limited to, treatment/flow/pressure sensors, remote control pumps/valves used in the conveyance and quality of drinking water and the delivery of water to fire hydrants, also known as "fire flow". The project also provides engineering design and civil construction at drainage and wastewater infrastructure monitoring sites. The data produced at these sites is used by operations to predetermine combined sewer overflows (CSO) and engineering modeling and forecasting. The improvements supplied by this project decrease CSO violations in compliance with the City's NPDES permit. Typical improvements include trenching and conduit from power/Telco pole to above ground SCADA cabinet to field monitoring instrumentation. This work will occur at 150 CSS sites.

Meter Replacement

Project No:	MC-SU-C4101	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds replacement of existing water meters when they fail or become obsolete. Meters measuring up to two inches are replaced when they stop running. Meters measuring three inches or more are repaired when possible, but are replaced when repair costs exceed replacement costs. Accurate water meters ensure that customers are billed fairly for the water they use. Since water meters also are used to bill customers for their wastewater discharges, 48 percent of the funding is allocated to the Drainage and Wastewater line of business.

Operational Facility - Construction

Project No:	MC-SU-C4106	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing facilities project renovates, rehabilitates, replaces existing buildings, and constructs new facilities at various locations within the city limits to address deficiencies, failures, and functional changes in the SPU Lines of Business. Typical improvements include, but are not limited to, roof replacements, exterior wall or cladding replacements, and improvements to administrative office space, crew and shop space, lighting, heating and ventilation systems, and facilities structures. These improvements increase the useful life of the facilities, preserve the value of the assets, and provide a safe working environment.

Total Project Cost:	N/A	Urban Village:	Greater Duwamish

This ongoing facilities project renovates, rehabilitates, replaces existing buildings, and constructs new facilities at the Operations Control Center located at 2700 Airport Way South to improve the efficiency and effectiveness of the field crews delivering utility services to customers. Typical improvements include, but are not limited to, roof and other exterior replacements, improvements to public spaces, office and crew spaces and lighting, and heating and ventilation systems. These improvements increase the useful life of the facility, preserve the value of the asset, and provide a safe work and public space environment.

This ongoing project funds projects that mitigate undesirable impacts and take advantage of opportunities generated by the capital transportation projects of the Washington State Department of Transportation (WSDOT) and the Seattle Department of Transportation (SDOT) throughout the City. Work may include, but is not limited to, physically protecting the infrastructure during the transportation construction process, repairing and replacing damaged infrastructure, and improving existing infrastructure to meet higher standards. Project sites may include, but are not limited to, State Route 520, Interstate 5, and Interstate 90.

This ongoing project provides technology applications and application upgrades in support of improvements to project delivery and performance. Planned projects include continued development of an Enterprise Project Management System, replacement of the Engineering Support Contract Payments system, and SPU's share of costs for the City's central financial system upgrades. Future projects may include development of new Enterprise Resource Planning systems such as HR provisioning and financial reporting. This project will result in an improved ability to plan and deliver projects on schedule and within budget.

This ongoing project will provide new and improved technology applications and accompanying data management tools to support the gathering, monitoring, tracking and analysis of science and engineering information. Several planned projects include replacement of obsolete regulatory compliance tracking applications, upgrades to field monitoring equipment, and the integration of SCADA data with other data systems. This project enhances SPU's ability to control water quality and comply with environmental and health regulations.

Finance and Administrative Services

Overview

The Finance and Administrative Services (FAS) Capital Improvement Program (CIP) is the department's blueprint for planning, replacing, maintaining, remodeling, and upgrading FAS-managed facilities and IT infrastructure. These assets are used by City departments and certain nonprofit organizations that serve the public to deliver critical services to Seattle residents.

FAS' proposed CIP includes appropriations for ongoing capital programs and discrete, one-time capital projects with multi-year durations. Multi-year projects are identified by multiple priorities, including City goals (e.g., greenhouse gas reduction, public safety, improved ADA access), code compliance, severity of system deficiencies and impact to tenant department operations. Planned schedules and funding commitments for these types of multi-year projects are typically made every year in conjunction with the annual budget process. The six-year FAS 2024-2029 CIP includes approximately \$218.4 million in funding for new and existing projects and programs.

Thematic Priorities

FAS is responsible for the operation and maintenance of approximately 3.2 million square feet of building space throughout the city, including municipal courts, police and fire facilities, shops and fleet maintenance facilities, high-rise office space in the civic core, parking garages and some of the City's community-based public service facilities. FAS' capital investments either improve or enhance the operational capacity of these mission-critical facilities and systems. FAS' CIP addresses the following priorities:

- Life and safety issues – High priority is given to projects intended to ensure continuity of service at facilities that provide emergency or other essential services (e.g., replacing generators near the end of their useful lives at essential facilities, such as police or fire stations). Projects that mitigate potential threats to human life and safety, such as mold and lead abatement, structural failures and other hazardous conditions in building interiors also receive priority.
- Federal, state and local requirements – FAS must consider regulatory requirements in assessing capital needs when replacing existing, failing systems in FAS-managed facilities. One example is the Washington Administrative Code requirement to upgrade fire alarm panels and install fire sprinklers when substantial alterations are made while upgrading or modernizing an existing building. Substantial alterations may also require facility improvements mandated by the Americans with Disabilities Act (ADA), which meet the City's dual goals of compliance with federal requirements and provision of equitable access.
- Race and Social Justice Initiative (RSJI) – FAS integrates the City's social equity contracting requirements into all aspects of the execution of CIP projects. Women and minority-owned business (WMBE) vendors, construction contractors and subcontractors may be contracted for design and construction work, furthering the City's goal to promote contracting with WMBE businesses. FAS works within the inclusion plan guidelines published by City Purchasing and Contracting for consultant, contracting and purchasing work. Additionally, FAS utilizes Priority Hire, a community workforce agreement (CWA) and apprenticeship rules for construction contracts over \$5 million to further FAS' compliance with the City's community workforce goals and RSJI objectives.

- Sustainability – Several City sustainability policies and the Seattle building code guide FAS, as a building owner, to focus on meeting the energy-efficiency requirements of the Seattle Energy Code. Efforts focus on achieving cost-effective measures to reduce energy use and incorporating other sustainability strategies required by regulations. FAS will continue to address new sustainability efforts, such as the “Green Fleet Action Plan” and the “2030 Challenge,” by proposing additional projects to reduce energy use and greenhouse gas emissions.
Asset preservation – As authorized in Ordinance 121642, FAS dedicates annual funding in the CIP to support the replacement of existing building systems, guided by strict policies to ensure those funds are used exclusively to preserve, extend or replace failing and existing components such as roofs, windows, structures, electrical capacity, boilers or other systems at the end of their useful lives.

Aligning Capital Investments with Growth and/or Community Planning

FAS’ 2024-2029 proposed CIP focuses primarily on preserving existing City assets, decarbonizing building systems and expanding electric vehicle (EV) charging infrastructure for the City fleet. The FAS Asset Preservation Program spans across the city to preserve the real property assets within the communities served. EV and decarbonization investments are critical to achieving the City’s transportation electrification strategy and emissions reduction goals. FAS’ CIP also demonstrates a commitment to support the operational growth and capacity challenges of our public safety departments; this includes the Fire Station 31 replacement and multiple small projects supporting fire and police facilities.

Project Selection Criteria

For projects to be considered for inclusion in the FAS CIP, they must fit the priority themes above and adhere to the capital and asset preservation policies adopted in Resolution 31203. Projects typically fall into two categories: projects that improve or enhance operational effectiveness or projects that preserve the City’s capital assets. FAS solicits requests from its tenant departments for facilities-related projects that create or enhance operational effectiveness, vets them for timeliness and appropriateness and evaluates each request on its own merit. FAS also seeks Executive direction regarding projects that increase departments’ operational capacity and other areas of opportunity to consider when planning the City’s CIP priorities.

Asset preservation work is planned on a six-year cycle and evaluated for specific project development and execution. Department staff use a custom database known as the Unifier Asset Management and Preservation System (Unifier) to maintain building-specific facilities condition indices and evaluate known building deficiencies in the more than 100 FAS-managed buildings.

Every year, FAS revises the list of facility asset preservation projects that must be addressed. This list is compiled from annually updated asset management data generated by building condition assessments, energy audits, performance metrics and other capital planning studies. Elements that extend the useful life of improvements, increase tenant comfort, and reduce utility bills are integrated into existing projects where feasible. The recent Facility Condition Assessment report supports the needed increased investment in asset preservation.

2024-2029 CIP Highlights:

FAS' 2024-2029 proposed CIP includes new critical investments, endorsed ongoing programs and funding adjustments over six years, focusing on asset preservation of FAS properties and infrastructure, and improvements to public safety facilities.

Below are specific programs and discrete capital projects with funding adjustments:

- Asset Preservation – FAS continues its ongoing support of major maintenance work in the City's downtown core properties as well as City-owned properties outside of downtown.
- Bid Solicitation – The proposed investment funds a centralized electronic software solution to modernize the City-wide procurement process. This e-procurement software solution will be used City-wide in the development, issuance and evaluation of procurements such as Request for Proposals/Qualifications. The software will provide a more accessible method for contractors to submit bids by e-mail/online, making it easier for a wider group of vendors to submit bids to the City.

CIP Revenue Sources

The 2024-2029 proposed CIP is primarily funded by Limited Tax General Obligation (LTGO) bonds, REET I and space rent charges paid by City departments. LTGO bond funding is used to fund projects such as the Seattle Municipal Tower Elevator Rehabilitation and Human Capital Management System replacement. The related debt service is funded by the rates charged by FAS to City departments. Endorsed REET I funds are focused on specific facility improvement needs, such as Earthquake Preparedness, the Animal Shelter, and Fire Station 31 debt service.

Summary of Upcoming Budget Issues and Challenges

FAS' most pressing long term CIP budget issues are primarily driven by the age and condition of many City-owned buildings, federal, state, and local code requirements, and City sustainability goals. Below are specific programs and projects related to FAS budget challenges:

- Asset Preservation – The FAS Asset Preservation Program, created by Ordinance 121642, dedicates funds derived from space rent to replace building systems in over 100 City buildings inside and outside of the downtown core. The Asset Preservation Program has historically received \$4 million in funding annually from space rent charges. This funding level is \$12 million short of the annual amount FAS' model suggests is adequate to address deficiencies and deferred major maintenance work; the total funding need is estimated at more than \$100 million. An additional resource challenge is the number of vacant project manager positions that FAS is working to fill to implement more work.
- Building, Energy and Land Use Codes and City Sustainability Goals – FAS' efforts will play a major role in achieving the City's sustainability and environmental goals. FAS must continue to provide reliable, compliant, and structurally sound facilities for City departments to use and the public to access. These investments require FAS to evaluate and incorporate strategies to achieve code compliance, energy efficiency, and accessibility in the operations, maintenance, and

Finance and Administrative Services

infrastructure improvements of its buildings. Informing and engaging the public in accomplishing these goals is an ongoing challenge.

Future Projects/What Is on the Horizon

City facilities must be accessible, reliable, well-maintained and responsive to the needs of operating departments to ensure the safety and delivery of critical services to customers. FAS will utilize the Facility Condition Assessment report to help prioritize major maintenance and infrastructure project needs. FAS faces an ongoing challenge in adequately funding these needed asset preservation and major maintenance requirements at the City's aging facilities, including the Seattle Municipal Tower, Seattle Fire Department (SFD) Headquarters and multiple FAS shops and yards.

ADA Improvements - FAS

Project No:	MC-FA-ADAIMPFAS	BSL Code:	BC-FA-ADAIMPR
Project Type:	Ongoing	BSL Name:	ADA Improvements
Project Category:	Improved Facility	Location:	FAS facilities
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project is the FAS Americans with Disabilities Act (ADA) ongoing program that will address specific ADA improvements and upgrades at various FAS-owned and operated facilities. Past work has included reconfiguration of restrooms, meeting rooms and other spaces, reconfiguration of facility amenities, such as drinking fountains and various public access routes to sites, buildings, and public spaces. Future funding allows FAS to implement its long-term strategy that resolves the most critical public-facing ADA deficiencies first and maximizes accessibility to the greatest extent possible.

Asset Preservation - Schedule 1 Facilities

Project No:	MC-FA-APSCH1FAC	BSL Code:	BC-FA-APSCH1FAC
Project Type:	Ongoing	BSL Name:	Asset Preservation - Schedule 1 Facilities
Project Category:	Rehabilitation or Restoration	Location:	Multiple City facilities
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This ongoing program provides for long term preservation and major maintenance to the FAS schedule 1 facilities. Schedule 1 facilities are comprised of existing and future office buildings located in downtown Seattle, including but not limited to City Hall, the Seattle Municipal Tower and the Justice Center. Typical improvements may include, but are not limited to, energy efficiency enhancements through equipment replacement, upgrades/repairs to heating/ventilation/air conditioning systems, upgrades/repairs to electrical systems, upgrades/repairs to fire suppression systems, roof repairs or replacement, and structural assessments and repairs. This work ensures the long-term preservation of the operational use of the facilities.

City Hall and Seattle Municipal Tower Tenant Improvements

Project No:	MC-FA-CTYHLTIMP	BSL Code:	BC-FA-GOVTFAC
Project Type:	Ongoing	BSL Name:	General Government Facilities - General
Project Category:	Improved Facility	Location:	Multiple City Facilities
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This project provides predesign, design and construction services for developing or reconfiguring space and other adjacent functions in the downtown Civic Campus. Work may include, but is not limited to, working with project sponsors to catalog space and equipment needs, energy efficiency improvements, developing planning options, developing project cost estimates and construction. Work may also include analysis of how vacated space in other facilities might be utilized for other City uses.

Drive Clean Seattle Fleet Electric Vehicle Infrastructure

Project No:	MC-FA-DRVCLNFLT	BSL Code:	BC-FA-GOVTFAC
Project Type:	Discrete	BSL Name:	General Government Facilities - General
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2016 - 2024	Neighborhood District:	Multiple
Total Project Cost:	\$13,970	Urban Village:	Multiple

This project funds FAS' capital work efforts towards meeting the Drive Clean Seattle (DCS) initiative, a comprehensive transportation electrification strategy to transition Seattle's transportation sector from reliance on fossil fuels to the maximal use of clean, carbon-neutral electricity. Work will include but is not limited to, the design, permitting, and construction of electric vehicle charging stations in the Seattle Municipal Tower to provide capacity for the conversion of the City fleet to electric vehicles. Future work may include the installation of charging stations at additional sites.

O&M Impacts: FAS expects a temporary O&M cost increase for increased power usage as EV charging stations are utilized. FAS will develop a method for recovering costs from departments. Costs to departments will be offset by fuel savings.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Electrical Infrastructure Upgrades

Project No:	MC-FA-ELECTINFRA	BSL Code:	BC-FA-GOVTFAC
Project Type:	Discrete	BSL Name:	General Government Facilities - General
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Not Applicable
Start/End Date:	2023 - 2025	Neighborhood District:	
Total Project Cost:	\$16,000	Urban Village:	

This project funds electrical upgrades at Charles Street and Haller Lake fleet facilities. The project will bring necessary power to the facilities that will support larger scale electric vehicle charging stations and future decarbonization projects for the full facility. The scope of this project is for the electrical upgrades only.

Energy Efficiency for Municipal Buildings

Project No:	MC-FA-ENEFFMBLD	BSL Code:	BC-FA-EXTPROJ
Project Type:	Ongoing	BSL Name:	FAS Oversight-External Projects
Project Category:	Improved Facility	Location:	Multiple City facilities
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project funds energy efficiency work across City facilities, managed by the Office of Sustainability and Environment (OSE), in support of the City's goal to achieve a 20% reduction in building energy use by the year 2020. OSE will implement a package of energy efficiency projects, as well as continue a suite of O&M improvements, program management, measurement and tracking, and building assessments. The energy efficiency upgrades are expected to generate utility rebates paid by Seattle City Light and Puget Sound Energy, to be deposited into the General Subfund and shown here as future General Subfund revenue. Work may include but is not limited to, building tune-ups, facility improvements, building energy upgrades, and energy efficiency measures.

Facility Operations Initiated Tenant Improvements (FOISR)

Project No:	MC-FA-FASPDS	BSL Code:	BC-FA-FASPDS
Project Type:	Ongoing	BSL Name:	FAS Project Delivery Services
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project was formerly named the Customer Requested Tenant Improvement Program.

This ongoing program provides pass-through budget authority for FAS to provide capital and public works, as requested by FAS' Facility Operations division, at facilities that are managed or leased by FAS. Typical improvements may include, but are not limited to, tenant space remodels, security system upgrades and equipment replacement. Other project types include architectural and engineering services such as conceptual planning, design alternative development and preliminary cost estimating. Typical preliminary design and engineering work includes, but is not limited to, pre-design and analysis of project alternatives, cost estimates, test to fit studies, preliminary schedule development, engineering studies and code compliance, site development planning, and conceptual design and financial analysis of capital improvements options in conjunction with FAS and CIP priorities, programs, and initiatives.

This project provides funding for FAS to implement Seattle Information Technology (SIT) proposals to replace existing FAS IT systems that are at the end of their useful lives, accommodate new programmatic and operational needs, and allow the department to function efficiently. FAS coordinates development and implementation of these proposals with SIT. Specific projects include replacing FAS' department-wide budget system and assessing and replacing FAS' Capital Projects Information Management System.

Project Category:	Improved Facility	Location:	925 Alaskan Way
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 7
Start/End Date:	2014 - 2023	Neighborhood District:	Downtown
Total Project Cost:	\$13,691	Urban Village:	Downtown

This project, located on the downtown Seattle waterfront, provides a seismic and safety upgrade for Fire Station 5 and makes functional improvements to the facility and building systems. The project renovates the fire station and replaces the existing dock to protect fire fighters in the event of an earthquake and allows them to provide high-quality marine and land-based emergency service. The project was originally timed to coincide with the Seawall replacement project as this facility is physically attached to the Seawall structure, and dock replacement work was timed to align with Washington State Ferries (WSF) projects along the Waterfront.

Project Type:	Ongoing	BSL Name:	Garden of Remembrance
Project Category:	Rehabilitation or Restoration	Location:	1301 3rd Ave.
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This ongoing project provides an annual contribution (including increases for inflation) to a capital renewal fund for the Garden of Remembrance, located next to Benaroya Hall, per an agreement with Benaroya Hall Music Center (BHMC), a private, non-profit affiliate of the Seattle Symphony. This project pays for major maintenance and replaces garden installations including, but not limited to, irrigation equipment, landscaping, electrical/lighting fixtures, and mechanical water features. The project is managed by the BHMC and is displayed within FAS' CIP for informational purposes only.

Human Capital Management System

Project No:	MC-FA-HCMSYS	BSL Code:	BC-FA-A1IT
Project Type:	Discrete	BSL Name:	Information Technology
Project Category:	New Investment	Location:	700 5th Ave
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2021 - 2026	Neighborhood District:	
Total Project Cost:	\$60,936	Urban Village:	Downtown

This technology project funds the planning, design, and replacement of the aging Human Resource Information System (HRIS), which includes the Citywide payroll and benefits system, with a new Human Capital Management (HCM) system. The timing of this project is critical for the Citywide HR, timekeeping and payroll system, which will not be supported after 2023. The project was approved by the Enterprise Oversight Board (EOB) in February 2020 and will be managed out of the FAS Business Systems division, with funding and partnership from Seattle Department of Human Resources (SDHR) and Seattle IT (ITD).

O&M Impacts: To begin the strategic planning for implementing a new system, both FAS Business Systems and Seattle Department of Human Resources (SDHR) will hire 1.0 FTE and 2.0 FTEs respectively in 2020. Additional funding from ITD will allow for a strategic consulting firm to assist with this body of work and finalize the implementation budget and schedule. Additional staffing and services will be required in 2021 and 2022 for the life of the project.

Request for Client Facilities Services (RPS)

Project No:	MC-FA-CTYPDS	BSL Code:	BC-FA-FASPDS
Project Type:	Ongoing	BSL Name:	FAS Project Delivery Services
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project was formerly known as FAS Project Delivery Services.

This ongoing program provides pass-through budget authority for FAS to provide design and construction management services, as requested by City departments outside of FAS. Typical work may include, but is not limited to, the following services: predesign, programming, master planning, conceptual planning, architectural and engineering design and construction administration. FAS proposes to use the second and third quarterly supplemental budget process to "right size" the pass-through budget authority for this project. This approach allows FAS to meet the present needs of departments that have funding for their projects and is consistent with year-end accounting and budgetary requirements.

Seattle Municipal Tower Chiller Plant Replacement

Project No:	MC-FA-SMTCHLRPL	BSL Code:	BC-FA-APSCH1FAC
Project Type:	Discrete	BSL Name:	Asset Preservation - Schedule 1 Facilities
Project Category:	Rehabilitation or Restoration	Location:	700 Fifth AVE
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 7
Start/End Date:	2018 - 2022	Neighborhood District:	Downtown
Total Project Cost:	\$18,000	Urban Village:	Downtown

This project replaces the chiller plant in the Seattle Municipal Tower (SMT). The project will require a multi-year execution plan to allow for permitting, design, procurement and construction to occur during the windows of opportunity when cooling is not required. This highly technical, complex construction effort is a once-in-a generation endeavor. With a dwindling supply of spare parts for maintenance and repairs, it is no longer feasible to defer this critical work, and delaying the project would put FAS at risk of not being able to provide essential cooling to City of Seattle offices and other building tenants. Project costs shown here are exclusive of \$1 million expended on preliminary work on this project in 2018. Those funds are included in the Asset Preservation - Schedule 1 Facilities project (MC-FA-APSCH1FAC).

Seattle Municipal Tower Elevator Rehab

Project No:	MC-FA-SMTELVHRB	BSL Code:	BC-FA-APSCH1FAC
Project Type:	Discrete	BSL Name:	Asset Preservation - Schedule 1 Facilities
Project Category:	Rehabilitation or Restoration	Location:	700 Fifth AVE
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2019 - 2025	Neighborhood District:	Downtown
Total Project Cost:	\$26,500	Urban Village:	Downtown

This project will improve the operation, reliability, and system performance of the Seattle Municipal Tower (SMT) elevators. The work will bring the SMT elevators to current building codes and into compliance with Americans with Disabilities Act (ADA) requirements. This project is envisioned to be a multi-year effort that must be phased to minimize impacts on SMT ongoing building operations, and on the approximately 4,000 City staff who work in the building and the public who visit the SMT to access City services.

SLIM Replacement

Project No:	MC-FA-SLIMREPL	BSL Code:	BC-FA-A1IT
Project Type:	Discrete	BSL Name:	Information Technology
Project Category:	New Investment	Location:	700 5th AVE
Current Project Stage:	Stage 5 - Execution (IT Only)	Council District:	Multiple
Start/End Date:	2022 - 2025	Neighborhood District:	Multiple
Total Project Cost:	\$12,000	Urban Village:	Multiple

The Seattle License Information System (SLIM) manages the issuance and renewal of business licenses and the collection of revenue from fees and taxes. It houses our B&O tax information, Admissions Tax, Commercial Parking Tax, Firearms and Ammunition Tax, Gambling Tax and Utilities Taxes. SLIM is now outdated and can no longer adequately meet the needs of expanding business license, tax collection, and enforcement processes and needs to be upgraded. The SLIM Replacement will be part of the City's tax system built by Revenue Solutions Inc (RSI), which is called RPE (Revenue Premier Enterprise) and currently houses the Payroll Expense Tax, TNC tax, Sweetened Beverage Tax, and any other small taxes since 2017/2018; it also houses the Central Waterfront LID (Local Improvement District) and some of the BIAs (Business Improvement Districts). The project currently has \$4.8 million in funding for basic requirements gathering. This planning work continues but the project won't be fully launched until additional funding is identified. The total project cost is estimated at \$12 million and ongoing operating and maintenance costs are estimated at \$1.5 million.

Waterfront Operations and Tribal Interpretive Center

Project No:	MC-FA-OWMAINT	BSL Code:	BC-FA-GOVTFAC
Project Type:	Discrete	BSL Name:	General Government Facilities - General
Project Category:	New Facility	Location:	1426 Alaskan Way
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:	2023 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$13,000	Urban Village:	Downtown

This project holds budget to acquire the Integrus (Bakun) building located on the new Alaskan Way at Pike Street Hillclimb from WSDOT to provide for a facility to house the dedicated staff team for on-going maintenance and operations of the Waterfront Park. This building is located approximately 600 feet from the new maintenance area being provided under the Overlook Walk for vehicle storage and other maintenance activities. The building would also fulfill the City's permitting commitments to the Muckleshoot Tribe for construction of the Elliott Bay Seawall to provide space in a building along the Waterfront for a Tribal Interpretive Center rent free in perpetuity. The Tribe has indicated their interest in the space and that it could fulfill the conditions of the permit.

Information Technology

Seattle Information Technology Department

Overview

Seattle IT is a trusted partner that provides secure, reliable, and compliant technologies enabling the City to deliver equitable and responsive services to the public.

Seattle IT delivers technology solutions including, data, telephone, and radio networks; applications and application infrastructure; desktop, mobile, and printing device support; website and digital engagement tools; data centers, servers, storage, and backup; video production and coverage of public meetings; and community support for digital equity, civic technology, and public internet access initiatives. Seattle IT also manages designated projects on behalf of the City, other departments, and regional partners.

Seattle IT's Capital Improvement Program (CIP) supports major maintenance, improvements, replacements, and upgrades to the City's existing technology systems, as well as the development and implementation of new projects. Seattle IT's 2024-2029 Proposed CIP budget is \$100.7 million. Details for 2024 are provided in the following table.

CIP Program Name	2024 Proposed	Planned Spending
Discrete Projects		
Criminal Justice Information System Projects	\$4,829,660	Complete the implementation of case management systems for agencies including Seattle Municipal Court, and the City Attorney.
Ongoing CIP Programs		
800 MHz Radio Network Program	\$760,891	Maintain radio network infrastructure and public safety radios.
Computing Services Architecture	\$5,135,000	Computer equipment related to a new Unified Communication System (to replace the City's current telephone system) as well as routine equipment replacement and upgrades for servers, storage, and facility infrastructure.
Data & Telephone Infrastructure	\$8,702,477	Network equipment related to Unified Communication System, and routine equipment replacement and upgrades. Includes budget to continue the retirement and replacement of legacy telephony and contact center environments to more modern, secure replacements.
Fiber-Optic Communication Installation & Maintenance	\$4,701,533	Fiber installation and maintenance.
Seattle Channel Maintenance & Upgrade	\$363,463	Equipment replacement and maintenance.
Department Total	\$24,493,025	

Seattle Information Technology Department

CIP Revenue Sources

Seattle IT's CIP has been funded through a variety of revenue sources, including:

- **Rates and Allocations:** There are multiple services within the department that are cost-allocated based on a percentage of use for the service provided or billed directly to a department based on the actual cost of time and labor or quantity of materials provided. Seattle IT's budget also includes some projects that are funded using proceeds from general obligation bonds. Rates and allocations provide the funds to repay the debt service on these bonds.
- **State and Federal Grants:** Federal and state grants have been used to finance system replacements and new capabilities. In some cases, Seattle IT has been the direct recipient of the funds, and in others, Seattle IT has managed grant-funded projects for customers. The use of grant funding for the Seattle IT CIP has been intermittent.
- **Cable Franchise Fees:** Seattle IT collects Cable Franchise Fee revenues set in franchise agreements with the cable providers. Some of this revenue has been used to fund the CIP program which supports the Seattle Channel. Cable Fees have historically provided less than 1% of Seattle IT's CIP program.
- **Reserves:** In some instances, Seattle IT's rates and allocations include the collection of funds which are accumulated and held in a reserve in Seattle IT's Fund Balance. Currently, this is only done for the 800 MHz radio system, although it has been considered for other areas. Expenditures of these reserve funds appear Seattle IT's CIP program. Historically, there is a low level of spending for ongoing Operations & Maintenance items, with intermittent large expenditures associated with major replacements and upgrades.
- **Private Dollars:** In the past, Seattle IT projects have occasionally included funding from external non-public sources. Such instances are highly intermittent, usually for relatively small dollar value and not projected to continue at any appreciable level.
- **Levy:** In the past, Seattle IT received some CIP funding from a levy for the development, acquisition and installation of the 800 MHz emergency radio communication system. Going forward, the future replacement and upgrade of the county-wide radio system is funded by the Puget Sound Emergency Radio Network levy. Outside of that, no additional levy funding is anticipated.
- **Bonds & Future Bond Proceeds:** Seattle IT utilizes funding from City bond sale proceeds to implement significant capital projects in the CIP. Rates and allocations typically provide the funds to repay the debt service on these bonds.
- **Use of Fund Balance:** Seattle IT may use existing fund balance or planned carryforward to implement some projects in its CIP.
- **To Be Determined:** Occasionally, Seattle IT's CIP includes future projects for which a specific funding source has yet to be specified. These projects will not go forward unless and until funding is secured.

Thematic Priorities

Seattle IT's priorities are:

- **Develop & Enhance Business Solutions** – We build and improve tools and capabilities for our clients
- **Inform & Support the Public** – We deliver programs to ensure City residents have equitable access to technology, City data, government processes, and civic programs
- **Deliver & Improve Services** – We resolve issues and fulfill requests; and we increase the efficiency & performance of our services
- **Maintain Operational Integrity** – We support sustainable technology and avoid creating technical debt
- **Security & Compliance** – We reduce vulnerabilities, protect City assets and data, and exercise fiscal responsibility
- **People & Culture** – We recruit, develop, support, and retain top talent

Project Selection Criteria

STEP 1: Identification of Technology Needs and Opportunities

In this step, needs and opportunities for technology investments are identified. This happens on a rolling basis throughout the year, as well as during the budget planning process. Input comes from multiple places, including:

- customer department requests and requirements (including technology plan alignment to department strategic plans)
- Seattle IT Strategic Agenda
- technology roadmaps (updated annually)
- asset replacement schedules
- coordination with partners (regional efforts, vendor partners, etc.)

This step includes development of initial cost estimates and other resource requirements, potential timing, and dependencies. At the completion of this step, potential projects are added to the Citywide IT Project Portfolio for tracking and consideration through Seattle IT's Project Gate Review process.

STEP 2: Identification of CIP and Non-Discretionary Projects

As part of the Gate Review process, items identified in Step 1 are filtered to determine if they are (1) CIP- appropriate or not and (2) discretionary or not. Criteria for determining if they are CIP appropriate or not include:

- overall dollar value
- timeframe of implementation (e.g., multi-year project)
- lifespan of investment
- investment in/preservation of long-term infrastructure
- the nature of the acquisition (e.g., goods, services, etc.)

Seattle Information Technology Department

Criteria for determining if they are non-discretionary include:

- legally mandated (e.g., debt service, federal or state law/regulation changes, court orders, etc.)
- urgent security or risk mitigation needs (e.g., major system failure, major security breach)
- reimbursable services to others (e.g., Seattle IT manages a regional fiber consortium where the partners contract with/through us to get work done).

Projects which are determined to be non-discretionary are automatically moved forward for inclusion in Seattle IT's initial CIP and budget proposal. Discretionary projects proceed to Step 3. Regardless of discretionary status, project requests complete the Gate Review process to validate projects are established with the appropriate governance, value proposition and risk mitigation planning.

STEP 3: Prioritization of CIP-Appropriate Discretionary Projects:

In this step, proposed investments are screened to determine if they are a match for Seattle IT's normal maintenance/upgrade/replacement programs within the CIP. Investments such as these tend to be smaller in scale (less than \$250,000), "like for like" replacements (e.g., old equipment replaced by new equipment with little to no functionality change), etc. These projects are rated by program managers based on criteria tailored to each program and implemented as annual funding allows.

Larger capital investments which are best implemented on a stand-alone basis due to the size and complexity of the project are evaluated and ranked separately based on the following criteria:

- asset preservation/replacement/maintenance
- product lifecycles
- legal requirements/mandates
- security/risk mitigation
- reimbursable from other sources (other depts. or outside entities, grants, reserves)
- dependencies (on other products, equipment, etc.; also on staff/resource availability/long-term supportability)
- internal customer demands (including capacity) – including Mayoral/Council/Mayor's IT Subcabinet priority
- external customer demands – public, businesses, etc.
- external drivers (vendor changes, regional commitments, etc.)
- efficiency/effectiveness improvements/resource savings and return on investment
- key future trend/forward-looking/pro-active

Summary of Upcoming Budget Issues and Challenges

Hybrid Workforce. The shift of the City's workforce to a hybrid-remote mode will continue to put pressure on the IT infrastructure and resources necessary to secure our more distributed technology environment and continue to provide efficient services to employees. For example, the City's Virtual Private Network infrastructure was enhanced during the pandemic but will require ongoing financial and technical support to continue to serve the larger remote population of City staff. Similarly, the majority of City employees are not equipped to be mobile, flexible, and resilient. Most employees do not have

Seattle Information Technology Department

laptops, and the City's PC Replacement Program is funded using a desktop computer as the base unit of measure for budgetary purpose. In addition, logistics related to asset management, device support, and equipment deployment to remote and hybrid workers will continue to be challenging unless additional investments are made to support mobile equipment. Finally, some previous and in-flight capital IT projects, such as the Unified Communications system, were designed based on a pre-pandemic set of assumptions and use cases; some of those decisions concerning, for example, conference room technology, mobility, and fixed telephone sets will likely be in flux over the next 12-24 months.

Disaster Recovery/Preparedness - A future consideration as we invest in new programs and technologies is the need for disaster recovery and business continuity capabilities. Our reliance on systems continues to grow and, while our capital investment projects deliver new functionality, this work typically does not account for the redundancy or infrastructure needs to support an expedient disaster recovery scenario. The additional costs that come when planning that work are usually deemed cost prohibitive when sizing a Capital Investment Project. As we continue to plan our capital program, we will need to consider additional disaster recovery investments.

Rapid and major changes in technology. The continued rapid rate of change in technology presents a major challenge for the City. User demands (both internal staff and constituents) around technology continue to grow as available functionality expands exponentially. New technologies provide new solutions and new opportunities, but at the same time they can initially disrupt productivity, require upfront costs, and impact security, privacy, and the governance landscape. Vendors regularly "de-certify" and stop supporting products the City relies upon, leaving the choice of spending significant amounts of money to upgrade to supported products or risk running important/critical City functions on unsupported platforms. At the same time, the method by which vendors deliver technology solutions is rapidly changing. Many vendors have moved or are moving away from delivering a software product to the City for installations on City servers; instead, they are offering cloud-based and hosted solutions that the City can access on a subscription basis. While offering many benefits, this changing delivery approach requires increased City investments in identity management, data integration, and contract management.

Planning for future investments and lifecycle management. Departments want to move fast to leverage new technologies before Seattle IT has developed the platforms, teams, or culture to make this happen. Seattle IT balances the competing objectives of doing things right and doing them right now.

Platform First. Similar to all large enterprises, where technology has overtaken the organization's operations organically and over a long period of time, the City of Seattle also sits on hundreds of legacy technology applications. This fragmented technology footprint is a major cyber security concern, a cause of lost productivity, and a financial liability. A key factor in achieving reductions in the City's technology investment is directly dependent on a Platform First approach where 80% of the City's technology business is performed on 20% of technology solutions. Seattle IT will continue to promote the Platform First approach in the coming years, working to build commitment Citywide and tactically in Seattle IT.

Privacy and Public Records Management. The City is often confronted with the dichotomous challenge of preserving the privacy of members of the public who interact with the City and the requirements for transparency and disclosure outlined in the State of Washington's Public Records Act. The City collects

Seattle Information Technology Department

and uses a vast and expanding amount of data on a regular basis. It is necessary that the City minimize the number of platforms and services that collect public data, be mindful and intentional about the amount of data collected, and be consistent about retaining that data in repositories that can be accessed and searched in response to public records requests. The proliferation of data sources and repositories requires a constant evolution in the training and tooling used by Public Disclosure Officers, and requires all City employees to understand the City's commitments to data privacy and public records.

Cybersecurity. The nature of threats to the integrity of the City's technology systems is evolving. Emphasis is shifting away from network and end-point security to advanced risk-based threat assessment and response, identity assurance, employee training, and "security by design" for IT applications and solutions. Preventive controls are no longer entirely reliable; instead, we need a greater emphasis on the ability to locate and quickly remediate and recover compromised technology. This shift in the threat matrix requires different investments in technology, education, and expertise, and necessitates an increased participation in regional and national efforts that coordinate and share cybersecurity information.

Public Expectations. The public has high expectations for how government performs, including how technology is used to deliver efficient and accessible government services and how government can be more transparent about its operations. Some Seattle residents are tech savvy while others still lack internet access. Generational differences also create different expectations regarding services. Investments in new technology-enabled government services and civic technology programs such as Open Data must be prioritized and have to balance many audiences.

Future Projects/What is on the Horizon

Seattle IT has identified several initiatives and issues which will need to be addressed in the future.

- **Software systems which require replacement/upgrades.** Prior to IT consolidation, the Department of Information Technology CIP did not include funds to cover replacement of large applications owned and operated by individual departments. Since consolidation, Seattle IT has "inherited" responsibility for many such systems, most of which did not come with any long-term replacement funding. Replacement and upgrades for systems owned and operating by Seattle Public Utilities and Seattle City Light are generally being funded out of the utilities' CIPs with Seattle IT acting as the service provider. However, funds for other large applications and systems needing replacement are not comprehensively programmed into Seattle IT's CIP. Instead, Seattle IT will continue to address these needs on a case-by-case basis as the need arises.
- **Infrastructure systems which require replacement/upgrades.** Seattle IT's CIP contains sufficient funding to cover routine replacement of lesser value items, especially those which occur every year (e.g., switches, mid-range servers, etc.). However, larger value, intermittent replacements are more difficult to fund within existing budget. These needs will continue to be addressed on a case-by-case basis as the need arises.

800 MHz Radio Network Program

Project No:	MC-IT-C3550	BSL Code:	BC-IT-C0700
Project Type:	Ongoing	BSL Name:	Capital Improvement Projects
Project Category:	New Investment	Location:	700 5th Ave / Various
Current Project Stage:	N/A	Council District:	Council District 3
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This project funds the upgrades and replacement of software and hardware for the City of Seattle's portion of the King County Regional 800 MHz radio system. The 800 MHz radio system provides the communication infrastructure required for public safety operations such as 911, Medic One, Fire and Police.

Applications Development - Public Safety

Project No:	MC-IT-C6307	BSL Code:	BC-IT-C0700
Project Type:	Ongoing	BSL Name:	Capital Improvement Projects
Project Category:	New Investment	Location:	700 5th AVE
Current Project Stage:	N/A	Council District:	Council District 3
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This project provides funds to develop and implement software applications used by the Seattle Police Department (SPD) and the Seattle Fire Department (SFD). The applications will improve personnel oversight and deployment, in addition to enhancing the accessibility and quality of SPD and SFD data. These applications will support ongoing efforts to achieve improved transparency and compliance.

Appendices

Appendix A: New or Expanded Capital Facilities

Seattle City Light

Project ID	Project Name	Project Capacity	Location	2024 Budget*
MC-CL- XB6351	Boundary Powerhouse - Unit 51 Generator Rebuild	Rationale: The Unit 51 generator at Boundary is the original installation and its typical 30-year life expectancy has expired. It has accelerated deterioration of its windings caused by thermocycling (frequent startup and shutdowns of the generator, resulting in more pronounced temperature fluctuations). Failure of a generator can cause lost revenue, which during runoff could be many millions of dollars. Additionally, a failure may cause a fire and set off the fire extinguishing system, which would expose the powerhouse and its personnel to safety risks inherent with fire, smoke, and carbon dioxide (CO2) discharge for fire suppression. A rewind also allows for an updated insulation design that will permit the use of water as a fire protection system, providing an improvement in worker safety. Also, if the technology is advanced sufficiently by the time of the rewind, we may add a rotor mounted scanner or other diagnostic equipment. Alternative(s): Defer work indefinitely.	10382 Boundary Rd, Metaline, WA 99153	\$8
MC-CL- XB6353	Boundary Powerhouse - Unit 54 Generator Rebuild	Rationale: The Unit 54 generator at Boundary is the original installation and its typical 30-year life expectancy has expired. It has accelerated deterioration of its windings caused by thermocycling (frequent startup and shutdowns of the generator, resulting in more pronounced temperature fluctuations). Failure of a generator can cause lost revenue, which during runoff could be many millions of dollars. Additionally, a failure may cause a fire and set off the fire extinguishing system, which would expose the powerhouse and its personnel to safety risks inherent with fire, smoke, and carbon dioxide (CO2) discharge for fire suppression. A rewind also allows for an updated insulation design that will permit the use of water as a fire protection system, providing an improvement in worker safety. Also, if the technology is advanced sufficiently by the time of the rewind, we may add a rotor mounted scanner or other diagnostic equipment. Alternative(s): Defer work indefinitely.	10382 Boundary Rd, Metaline, WA 99153	\$72

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- XB6401	Boundary Facility - Minor Improvements Program	Rationale: Setting up and monitoring separate capital projects entails considerable administrative costs which may unreasonably increase the cost of small projects, even when identified in advance. Covering such projects under the emergent project program allows for accountability and tracking at the subproject level, with minimal overhead costs. A recent example is a FERC requirement for a mobile emergency generator as a redundant source of power to open spill and sluice gates. Project Weighted Rating-40.8, Primary Rationale-Varies Alternative(s): The only alternative for emergent projects is to find some other way to fund emergency needs that arise. Usually, for capital projects, this involves emergency appropriations involving the passage of special City ordinances, among other things. The time required to cut through the red tape of special appropriations could be prohibitively long, given that the needs that arise are either of an emergency nature or cannot be predicted. The only alternative for planned small capital projects is to secure separate budgeting for each one by putting each small project into the same administrative league as multi-million-dollar projects.	10382 Boundary Rd, Metaline, WA 99153	\$2,254
MC-CL- XB6493	Boundary Powerhouse Generator Step- up Transformer Replacement	Rationale: Design to begin in 2010. Closeout in 2017. First transformer delivered in 2012. Alternative(s): An alternative approach would be to repair or replace units as they fail from deferred maintenance. This approach would eventually result in a significant loss of revenue and/or fines from a regulatory agency. Accepting the risk of failure would not be in the best interest of the utility. Having a spare unit onsite would prevent such failures.	10382 Boundary Rd, Metaline, WA 99153	\$2,208
MC-CL- XB6535	Boundary Powerhouse - Unit 52 Generator Rebuild	Rationale: This project is part of the Utility's Generator Rebuild Program, a series of projects to maintain and extend the useful life of the Utility's aging generators. The program rebuilds ten generators, accounting for 70 percent of City Light's generating capability. Alternative(s): No Alternatives Provided.	Boundary Rd, Metaline, WA 99153	\$10,116
MC-CL- XB6565	Landis and Gyr RTU Modernization Boundary, Cedar Falls and Skagit	Rationale: Replace failing gear with new. Alternative(s): No Alternatives Provided.	Boundary, Skagit and Cedar Falls power facilities	\$631
MC-CL- XB6566	Boundary - DC Battery System & Charge Modernization	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	Boundary Rd, Metaline, WA 99153	\$765

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- XB6987	Boundary - Licensing Mitigation	Rationale: In order to continue to operate the facility, the City must obtain a new FERC license. The decision to apply for a new license has been made and we have embarked on the default FERC licensing process, the Integrated License Process (ILP). While the cost of attaining a new license to operate Boundary Dam is very significant, Boundary provides anywhere from 25% to 40% of SCL's power requirements and produces power at a cost significantly below the market rate. The plant's operations are shaped to deliver power during peak-load hours, an operating regime that allows the City to meet continued service area load growth and provide regional system reliability. For these reasons, the Utility has determined that obtaining a new license is a priority and we are confident that it will continue to be a cost-effective source of renewable power for the City. Alternative(s): No Alternatives Provided.	10382 Boundary Rd, Metaline, WA 99153	\$14,482
MC-CL- XC6406	Cedar Falls/South Fork Tolt - Minor Improvements Program	Rationale: Setting up and monitoring separate capital projects entails considerable administrative costs which may unreasonably increase the cost of small projects, even when identified in advance. Covering such projects under the emergent project program allows for accountability and tracking at the subproject level, with minimal overhead costs. A recent example is the replacement of an Oil-filled Transformer. Project Weighted Rating-40.8, Primary Rationale-Varies Alternative(s): The only alternative for emergent projects is to find some other way to fund emergency needs that arise. Usually, for capital projects, this involves emergency appropriations involving the passage of special City ordinances, among other things. The time required to cut through the red tape of special appropriations could be prohibitively long, given that the needs that arise are either of an emergency nature or cannot be predicted. The only alternative for planned small capital projects is to secure separate budgeting for each one by putting each small project into the same administrative league as multi-million-dollar projects.	19901 Cedar Falls Rd SE, North Bend, WA 98045	\$1,743
MC-CL- XC6450	Cedar Falls Powerhouse - Unit 5/6 Generator Protective Relay	Rationale: The present generator protection is outdated and lacks some basic protection elements to protect it from abnormal frequency and voltages. The existing relay does not meet the North American Electric Reliability Council (NERC) and the Western Electricity Coordinating Council (WECC) regional requirements for maintaining the generator in-service during system disturbances. This deficiency was identified as part of the NERC/WECC compliance program and has been scheduled for replacement as part of a prioritized program along with other outmoded technology present in SCL's aging infrastructure. Alternative(s): 1. Do the project described. 2. Do Nothing. This is not considered to be	19901 Cedar Falls Rd SE, North Bend, WA 98045	\$94

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

		a viable approach since the present generator protection scheme does not meet the ANSI/IEEE Standard or the WECC/NERC regional requirements for the protection of generators.		
MC-CL- XC6573	Cedar Falls Substation & Bank 6 Replacement	Rationale: This project improves generation reliability by replacing this critical transformer prior to failure. It will also enhance overall operational performance since new transformers are more efficient, have more environmental protections, and require less maintenance. Alternative(s): The only alternative to this project is to run the transformer to failure which would necessitate an emergency project to replace it.	Cedar Falls	\$255
MC-CL- XF8389	Special Work Equipment - Shops	Rationale: This project provides new tools and work equipment to replace outdated equipment. The project updates technical systems to current standards, as our current transformer test equipment relies on outdated computer equipment and programming that is no longer supported. Some equipment does not meet the latest safety standards. Other equipment is no longer supported by replacement parts or can no longer be repaired to provide accurate cutting, bending, etc. Some equipment needs to be updated to provide for increased production or size of stock material worked. Other equipment needs updated programming to provide for the latest technology advancements. The project ensures the transformers CL purchases and installs are safe and will last up to and beyond the average life span. It also ensures that we receive what we paid for, as specified, and that it will fit our system without problems such as oil leaks, incorrect voltage, and non-functional safety interlocks, etc. Replacing shop special tools and equipment will allow customer service enhancements by providing newer technology for more accurate fabrication of parts and other shop made items, safer tools to use, and newer equipment with more safeguards built in. Alternative(s): The recommended alternative would be to fully fund the special tool requests. This option would allow for the stated goals to be realized. Alternatives to funding special tools budget for shops are to not fund it or to fund at a lower level. Both options would slow production and would impact the opportunity to effectively serve the shops customers. It could also impact safety and injury rates where older equipment is less efficient and less ergonomic, requiring more repetitive motion and more labor with less automation.	System wide	\$325

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- XF9006	Safety Modifications	Rationale: Project 9006 was established to correct imminent and critical safety hazards not covered by divisional budgets. Investments will lower the risk of WA State compliance penalties and possible costs related to employee or customer injuries. Alternative(s): 1. Complete the projects as they emerge within established budget. Proactive response reduces the risk of employee and customer injuries, and related costs, as well as potential non-compliance penalties. 2. Do not fund project. This may leave significant safety problems unresolved, leading to increased compliance penalties. 3. Defer the project. The impact is similar to alternative 2 above, and also results in a continual growth of open and unfunded safety projects.	Citywide	\$708
MC-CL- XF9101	Equipment Fleet Replacement	Rationale: As mobile equipment ages, it reaches a point where it becomes more economical to replace the equipment than to continue to repair it. In the past, the mobile equipment fleet coordinator used a twenty-year replacement plan to maintain City Light's vehicle pool. Due to replacement deferrals starting in the mid-90s and the budget cuts which began in 2000, that replacement plan by necessity was revised. We are now faced with replacing fleet on an as needed basis. That priority is to replace the most often used, specialized, or critical equipment to the Utility, or the most costly to maintain and least reliable vehicles first. To get back to an established plan will require seven plus years of enhanced financing. A seven year recovery plan requires \$10 million annually. That plan has been underfunded for 15 years. The planned annual purchases, per the twenty year plan for the heavy fleet equates to approximately \$8 million per year. That \$10 million replaces the equipment that normally needs to be replaced every year and addresses some of the equipment that has been deferred. The proposed \$10 million will not fully cover inflation and the increasing cost of materials as many purchases now have a steel surcharge added. There are also added emissions requirements for the coming years starting in 2007. This will require about \$10,000 per diesel engine along with design changes to accommodate space for higher heat and larger exhaust pipes. The Memorandum of Understanding between the Fleet Management Department (FMD) and Seattle City Light (SCL) regarding financing and management of the City Light Fleet states on June 22, 1998, the City Council adopted Resolution 29771. In that resolution is reference to Timely Replacement of Vehicles. The recommendation is to replace vehicles in a timely manner, when fully depreciated. Alternative(s): The recommended alternative is to address the backlog of City Light vehicles, heavy and light fleet, on a plan spread over 7	System wide	\$8,690

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

or more years (a \$30 million backlog currently on a \$130 million fleet) A second plan would be to not purchase fleet vehicles. This option would result in paying both higher maintenance costs for worn out vehicles and higher rental costs both for specialized vehicles and daily use vehicles currently at \$2 million annually. It also has safety ramifications when considering malfunctions and inopportune breakdowns. A third plan would be to continue to not address the back log but replace on an as needed basis. This plan requires more rental costs and time loss due to equipment down time. It also does not address the need to be more fuel efficient and environmentally friendly. This plan to replace only as needed would be less reliable for tracking or budgeting. Address the back log through a seven year or longer plan.

MC-CL- XF9103	Facilities Improvements	Rationale: Workplace and process improvements completed under program 9159, plus ongoing organizational change, require the purchase of office furniture and equipment in order to achieve the project objectives. Each year Utility Support Services completes approximately 450 service requests requiring furniture reconfiguration, at least a third of which involve ergonomic corrections. Alternative(s): 1. Fund program 9103. 2. Don't fund program 9103 and purchase all office furnishings and equipment from the O&M budget. 3. Maintain office furniture until it can no longer be sustained in acceptable condition and then replace in total with a future ad hoc program.	System wide	\$12,246
MC-CL- XF9107	Service Center Facility Improvements	Rationale: The purpose of the proposed subprojects, SSC locker room remodeling, NSC building on the main site, and the SSC yard study, is to improve each facility in support of the assigned staff/crews. Results include improved efficiency and reduced maintenance. Planning in the employee parking lot is necessary since an off-ramp will be constructed over a portion of the lot. The SSC yard study subproject includes planning for the revisions needed when the off ramp is built from the Spokane Street Viaduct to 4th Avenue South. The off ramp is to be placed over the employee parking lot. Alternative(s): 1. Continue the improvements as proposed. 2. Defer improvements. 3. Replace the service centers with state-of-the-art facilities. 4. Do no improvements until the service center is unusable and then replace the asset.	Outside City of Seattle	\$1,000
MC-CL- XF9151	Facilities Regulatory Compliance	Rationale: Before City Light property is sold the area must be evaluated for any contamination. This project allows each property to be thoroughly investigated for contamination. Alternative(s): The alternative is to pass on contaminated properties to new owners and therefore incur long standing environmental liability.	System wide	\$50

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- XF9320	Energy Conservation	Rationale: Energy reduction is a Department and City goal. SCL Conservation Unit's energy audits of our facilities will identify a program of projects to accomplish these goals. With documented savings, there will be recovery of some of the costs from BPA. Alternative(s): Do nothing. Continue to consume energy at existing levels.	System wide	\$600
MC-CL- XP6530	Hydro Project Spill Containment	Rationale: The project will implement upgrades that will either prevent spills, from oils, greases, fuels and other petroleum products, through process improvements and equipment replacement, or provide additional containment capacity for accidental spills. Options for reducing spills include replacing oil filled transformers with dry type transformers, building larger containment basins around oil filled equipment, reconfiguring powerhouse sumps to separate potentially oily water from non-oily water, installing oil/water separators on transformer and generator cooling water systems, and replacing greased valve bushings with greaseless bushings. Because each powerhouse is unique, different solutions will be designed and implemented at each facility. Alternative(s): No Alternatives Provided.	Outside City of Seattle	\$148
MC-CL- XP6990	Endangered Species Act Mitigation	Rationale: This project protects and restores fisheries habitat in the Skagit and Tolt basins by implementing the Endangered Species Program for recovery of listed fish species that are potentially affected by City Light projects. The project scope includes land purchase, restoration, assessment, and management. The ESA prohibits harming listed species and their habitat. SCL's facilities impact these species since the dams have changed the downstream hydrology, affecting the rearing and spawning habitat for Chinook, and rearing habitat for bull trout and steelhead. When SCL lowers the flow to reduce generation (load following), thousands of chinook juveniles may be adversely affected. In addition, the Skagit Project separates the bull trout population into four distinct populations. Concerns have also been expressed about interference with access to spawning areas resulting from lower reservoir levels and the potential of entraining bull trout. Since SCL's licenses for the Skagit and Tolt were issued prior to the listing, they provide no protection for third party lawsuits under ESA. We have no "take" permit. SCL licenses can also be reopened by Federal agencies, e.g. the U.S. Fish and Wildlife Service, seeking additional measures to protect and restore the listed species. Alternative(s): 1. Complete the projects envisaged by the City Council and incorporated into the Recovery Plans for each basin and work to obtain legal protection. 2. Complete projects as budgeted, extending the timeframe. 3. Terminate the project at current expenditure levels. This	Outside City of Seattle	\$1,192

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

		would result in failure to carry out a Council and Executive mandate and increase the Department's liability under the ESA. We would not be able to obtain legal protection.		
MC-CL- XS6373	Ross Dam - AC/DC Distribution System Upgrade	Rationale: The operation of critical components of the dam, such as gates, valves, and lighting, depend on the power distribution system. The electrical system is 50 years old and has been in service beyond its normal life expectancy. Extra space for breakers is not available, cable insulation is starting to strip, and the existing gear is not approved for lockout/tagout requirements. Presently there is a risk of losing power to the dam spillgates. New conduit and conductors will improve reliability of spillgate operations and other dam operations requiring electric power. New electrical equipment, new lighting, and the addition of emergency lighting will allow staff greater operational flexibility, safety, and efficiency. Alternative(s): Doing nothing will result in eventual loss of control of motors and valves used for water spill control and could cause the dam to be overtopped. Maintaining power to operational components on the dam (for instance the spillgate) is needed to ensure the operation of Ross, which provides an average of 100 megawatts.	Milepost 128 State Highway 20	\$987
MC-CL- XS6405	Skagit Facility - Minor Improvements Program	Rationale: Emergent capital projects are, by definition, unpredictable. This project provides some financial coverage for such projects on a first-come, first serve basis. Without this authority, funding for emergency work would not be readily available, and could take months to acquire. Setting up and monitoring separate capital projects entails considerable administrative costs which may unreasonably increase the cost of small projects, even when identified in advance. Covering such projects under the emergent project program allows for accountability and tracking at the subproject level, with minimal overhead costs. A recent example is Emergency Generators for the Wastewater Treatment Plants. Project Weighted Rating-40.8, Primary Rationale-Varies Alternative(s): The only alternative for emergent projects is to find some other way to fund emergency needs that arise. Usually, for capital projects, this involves emergency appropriations involving the passage of special City ordinances, among other things. The time required to cut through the red tape of special appropriations could be prohibitively long, given that the needs that arise are either of an emergency nature or cannot be predicted. The only alternative for planned small capital projects is to secure separate budgeting for each one by putting each small project into the same administrative league as multi-million dollar projects.	500 Newhalem Creek Rd, Marblemount, WA 98267	\$7,586

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- XS6520	Skagit Facilities Plan	Rationale: The Skagit FERC Licensing agreement requires SCL to meet Section 106 of the National Historic Preservation Act of 1966, to take into account the effects of SCL's undertakings on historic properties. Additionally, the Skagit Licensing Agreement requires SCL to implement a historic resource mitigation and management plan demonstrating proper management of these resources. The Skagit Facilities Plan is SCL's commitment to meeting this licensing agreement requirement and results in better management of the overall resources and better operations and maintenance of the overall assets. Alternative(s): See the separate Skagit Facilities Plan that addresses alternatives. The alternatives include doing nothing, which does not conform to the FERC licensing requirements, and compromises our facilities as an asset to our power production operations and our civic and cultural stewardship responsibilities. The alternative to increase O&M resources (labor and budgets) is another option. This option improves facilities that are not required to meet program needs (improvements to vacant buildings).	Newhalem Creek Rd, Marblemount, WA 98267	\$5,108
MC-CL- XS6540	Skagit - Boat Facility Improvements	Rationale: Design and construct several new structures to support industrial and recreational boat operations on our Skagit reservoirs. Structures to include a new tour dock, new dry dock, additions to the existing boat houses and a new barge landing in Diablo. Alternative(s): No Alternatives Provided.	Newhalem Creek Rd, Marblemount, WA 98267	\$864
MC-CL- XS6986	Skagit - Relicensing	Rationale: Procurement of a new license for the Skagit River Hydroelectric Project from the Federal Energy Regulatory Commission (FERC) is required to continue operations. Alternative(s): No Alternatives Provided.	Newhalem Creek Rd, Marblemount, WA 98267	\$3,590
MC-CL- XS6991	Skagit Licensing Mitigation	Rationale: As part of the relicensing of the Skagit River Hydroelectric Project, City Light is required to provide mitigation for 30 years of continued project operation between 1995 and 2024. The license incorporates the Wildlife Settlement Agreement signed in 1991 by the City of Seattle and numerous interveners (Federal and State agencies, tribes, and environmental groups). This stipulates that the City shall make available a total of \$17,000,000 (in 1990\$) to secure and preserve valuable wildlife habitat. The charges to this CIP project will be credited towards the \$17,000,000 total. Alternative(s): 1. Perform work as scheduled in the Settlement Agreements and required by the license. This is the preferred approach to meeting our license obligations. 2. Delay implementation. This increases our liability since the bridge is falling down and poses a safety hazard which will only increase in future years. 3. Do not undertake some mitigation. This would have severe	500 Newhalem Creek Rd	\$131

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

		repercussions as the agencies and tribes are carefully monitoring our progress and participating as partners on many projects. They would likely contest our license should we not fulfill our commitments.		
MC-CL- YD9009	Communications Improvements	Rationale: Project 9009 provides the necessary flexibility to address emergent communication system problems that arise between biennial budget requests. These tend to be smaller projects costing less than \$10K per incident. During any given year there are a variety of requests requiring immediate attention. In addition, this program includes small specific improvement projects that are too small to warrant uniquely assigned project numbers. Each of these small projects has a separate scope of work, schedule, budget, and tracking mechanisms. An example is the project to monitor tower movement on our transmission towers near Oso, WA. Alternative(s): Option 1: Respond to customer requests for emergent and critical work in a timely manner. This approach preserves operational reliability, safety and security. This project provides flexibility to respond to these unknown communications problems or requirements. The alternative to having PE 9009 is to make special requests to the City Council for budget appropriations when emergencies occur. This is time-consuming and limits the department's flexibility to react to emergent communications problems. Option 2: Fund the project at a reduced level and incur the risk that emergent trouble cannot be met and worker safety, security and system reliability is compromised.	System wide	\$1,087
MC-CL- YD9102	Special Work Equipment - Other Plant	Rationale: This project is a roll up of requests from individual work units in the Electrical Services Branch and other units in the department except for Generation Division (see CIP 6102) and Power Stations (see CIP 7902). All tools and work equipment over \$5,000 dollars must be capitalized. The purpose of this project is to collect these requests into a project to allow better tracking and review of the expenditures throughout the year. Requests have been reviewed and prioritized during the 2003-04 budget cycle and purchases deferred. The proper funding of tools for high voltage electrical and related work supports the department's goals of safety, productivity and employee morale. Alternative(s): 1. See description. 2. Do nothing. Do not allow units to purchase new tools or equipment valued at over \$5,000. This alternative is not acceptable as the department would be unable to meet the needs and expectations of our customers. 3. Prioritize and review the individual units' requests and adjust CIP to budgeted targets. This would be a new way to budget for this CIP. Individual units may need to defer equipment purchases and in some	System wide	\$794

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

		cases work may be deferred. Risks include the possibility that unplanned equipment failures in deferred equipment will delay work completion. Option 3 has been selected and only the highest priorities for equipment have been funded. This project is being funded at approximately one third the level that historically has been required.		
MC-CL- YD9108	Transmission & Generation Radio Systems	Rationale: This project builds or replaces communications infrastructure consisting of fiber optic rings, digital microwave, telephone networks and two-way radio systems. This project provides City Light with command-and-control capabilities for the operation of the electrical system. This project ensures the safe, reliable, and efficient operation of the system and positions SCL to meet the Federal Energy Regulatory Commission's vital communications systems requirements. Alternative(s): Option 1 Proceed as proposed. Option 2 Do nothing and continue to have systems that are incompatible with each other, require a high degree of maintenance, at greater cost, and in some cases, rely on commercial carriers for service and system protection; and/or face the loss of capability, capacity, coverage, licenses, and electrical system reliability. This alternative maintains the inadequate data exchange between sites, switches, feeders, meters, and communications systems and networks. Option 3 Install digital microwave instead of fiber systems at all substations and facilities. This is not cost effective, very difficult to locate land or space, design the system, acquire the land or space, provide power and get permits for adequate sites. Future upgrades are very difficult and expensive, and increases maintenance costs.	System wide	\$1,056
MC-CL- YD9202	Security Improvements	Rationale: If Seattle City Light's Security Improvements Program is underfunded, its critical facilities face increased risk to sabotage, vandalism, theft, and terrorism that can result in the loss of valuable infrastructure for generation and distribution of power, as well as noncompliance with North American Reliability Council (NERC) 1200 Standards, adopted May 2, 2006, to improve security at critical facilities that house command and control systems. Curtailment of Seattle City Light's electric operations would impact reliability of the power system in the Pacific Northwest, create lost revenues, and jeopardize public safety and emergency response due to loss of lifeline services such as medical services, water and wastewater systems, communications, law enforcement, banking, transportation system, etc. Alternative(s): Option 1, Status Quo: No centralized security system. Operate local security systems in place and use local law enforcement and private security companies to address security on a limited basis. Use private security services and/or request additional assistance from	System wide	\$1,406

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

local law enforcement during times when the Federal government has raised the alert level for the nation or region, or for a situation that has occurred requiring additional security services. Option 2, Centralized Security System: Seattle City Light installs security enhancements to delay, detect, and respond to security intrusions at its critical facilities that are connected to a central security monitoring center that will be staffed by trained security guards on a 24/7 basis to monitor and respond to security incidents. Department wide response procedures will be established and coordination with local law enforcement will be established for responding to security incidents.

MC-CL- YD9307	Distribution Area Communications Networks	<p>Rationale: The communication systems now employed are in need increased capacity, better security, faster speeds, and increased reliability to meet new regulatory requirements. This will meet our ever increasing data and voice communication needs and take us twenty years or more into the future. Maintenance costs are lower because increased redundancy and reliability as well as better system alarms and the capability to remotely troubleshoot and reprogram the system. Traffic on the network is easily rerouted until major failures can be repaired. The new requirements of security, relaying, Automated Meter Reading, Automated Distribution and other automated systems will be easier to implement at lower cost once this project is completed. The system is easily upgraded to increase capacity or take advantage of new technology as it becomes available.</p> <p>Alternative(s): Option 1 Proceed as proposed. Install/complete fiber optic rings. Option 2 Do nothing. Have an inadequate communications network, with a high expense O&M component.</p>	Citywide	\$684
------------------	--	--	----------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YD9957	Enterprise Geographic Information System	<p>Rationale: The Enterprise GIS Initiative will support the Seattle City Light 2013-2018 Strategic Plan in these objectives: 1. Improve customer experience and rate predictability. 2. Increase workforce performance and safety practices. 3. Enhance organizational performance. 4. Continue conservation and environmental stewardship. Replacing our multiple, incompatible GIS systems with a single enterprise level GIS will eliminate redundant data entry into GIS and other systems, increase data quality and put information into the hands of the people who need it, when they need it, including engineering, operations, asset management and environmental affairs. An enterprise GIS will improve field worker safety and reduce the occurrence of expensive project changes in the field resulting from inaccurate or incomplete information. It will also streamline software maintenance and support requirements and ease integration to other future utility systems requiring access to GIS data. This new system will provide: 1. A centralized geospatial data store improving data access and interoperability to support other enterprise systems such as Outage Management (OMS), Work and Asset Management (WAMS), Mobile Workforce, System Planning/Analysis, Automated Utility Engineering Design (AUD), Advanced Metering Infrastructure (AMI) and Business Intelligence (BI). 2. Electronic and web-based access to distribution, transmission, streetlight, joint use and fiber optics/communications infrastructure information. 3. A flexible, configurable system that can accommodate evolving business information needs. The additional transmission, streetlight, joint use and fiber optics information that the utility needs to maintain as we move to an asset centric maintenance and planning model essentially doubles the size of the GIS dataset. The number of staff supporting GIS needs has seen an overall reduction in the last decade</p> <p>Alternative(s): This business case and proposal presents 3 options for dealing with the problem: A. Do Nothing B. Replace the current DAMS editor and convert TLM Services C. Install a new unified GIS system A. Do nothing. Do not fund the work. Continue to leave our Radial Distribution System's GIS data at risk, and by extension, baseline OMS functionalities. Apply additional resources to manually maintain systems using current tools. Write and support multiple custom interfaces and procedures to provide base line GIS data required by OMS & WAMS. Do not take advantage of new business processes and functionality of automation between GIS, OMS and WAM. B. Replace the current DAMS editor and convert TLM Services. The current DAMS editor was originally implemented in 1994 as a suite</p>	System wide	\$3,338
------------------	---	--	-------------	---------

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

of custom applications using Environmental Systems Research Institute (ESRI) Arc/INFO GIS products. DAMS tools are so obsolete that SCL is no longer backward compatible with our City partners in the Common Geographic Data Base (CGDB). To begin addressing these issues, the existing DAMS editor needs to be replaced. This project would incorporate into the DAMS GIS the final piece of connectivity data, between the customer meter and the transformer that is currently stored in the separate Transformer Load Management (TLM) database. This work will position City Light to begin working toward a unified GIS and to better leverage our GIS investment through new and improved integration to other major IT systems. Examples might include: 1. The ability to replace obsolete engineering analysis and planning systems, such as TLM and NLM/Loadflow, with modern GIS based applications. 2. The ability to more robustly model the underground portions of our Radial distribution system. 3. The ability to move closer to a unified GIS, including both our Radial and Network distribution systems in a single GIS data store, at City Light. C. Install a new unified GIS system. This option would install a new unified

MC-CL- YD9969	Enterprise Software Solution Replacement Strategy	<p>Rationale: This project is an ongoing commitment to provide a sustainable funding stream to keep enterprise level resources up to date and fully functional. Software systems today are as critical to operate City Lights business as poles and wires. The Utility can no longer afford to delay regular required upgrades and or replacements to the system.</p> <p>Alternative(s): City Light could decide not to upgrade the systems, as prescribed, but that could create a significant risk if the system goes unsupported by the vendor or if something were to happen with the software. Operations and Maintenance costs could rise significantly while attempting to maintain the software on our own.</p>	City Wide	\$8,301
------------------	---	---	-----------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8129	Network Hazeltine Upgrade	<p>Rationale: Using the Network Hazeltine system provides reliable power by remotely monitoring the electrical vaults and electrical equipment within the entire downtown service area. The Power Dispatchers constantly monitor the real time status of the network using the Hazeltine system. This program costs \$304K per year and avoids problems that can easily exceed twice that amount for Seattle City Light and its customers. The utility's cost for one such problem can range from \$200K up to as much as \$3M. Aggregated customer costs can range from \$100K up to \$5M. The benefit cost ratio for any one problem can range from 0.99 ($[\\$200k + \\$100k] / \\$304k$) to be as high as 26.3 ($[\\$3M + \\$5M] / \\$304k$). We usually avoid 4 to 5 smaller problems each year and a larger problem, with combined costs of \$1.53M, every 5 years. The yearly benefit cost is then $[4 * 0.99 + 1.53M / (304k * 5)] = 5.0$. Alternative(s): 1. Do nothing. Do not change existing Hazeltine system. Hazeltine has changed the production of their transmitters, forcing utilities to pay a premium for the transformers that is a fraction of the cost of upgrading to their Next Generation equipment. 2. Upgrade to Hazeltine's Next Generation system, changing station receivers and transmitters on each transformer. Total cost is about \$2.2 million. 3. Develop SCL proprietary network EMS system, capable of monitoring plus a new function of control of NP's, BTS's, and primary switches if they are added. Total cost ranges from \$7 million to \$17 million, depending on communications option selected. This excludes developmental costs. 4. Buy any upgrades from vendors only. Wait for Hazeltine or other vendors, to develop network EMS systems with the desired control and monitoring features. No products or competitors to Hazeltine are available at this time for cost estimates. 5. Add sensors to existing or future Hazeltine system to enhance the monitoring of the network environment. This would enable system operators to detect and respond to abnormal field condition and thereby improve customer reliability. 6. Continue existing program of upgrading the sensors to match the current SCL standard. In 2007 and 2008, review the Hazeltine program and determine if more significant upgrades are feasible. Presently, this is the recommended action and funding level for 2007 and 2008. The 2009 and beyond dollars are expected expenditures for the significant Hazeltine upgrades, if approved.</p>	System wide	\$895
------------------	---------------------------------	---	-------------	-------

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8130	Network Maintenance Hole and Vault Rebuild	<p>Rationale: The Network Maintenance Hole (MH) & Vault Rebuild project provides reliable electric service by repairing or replacing damaged electrical maintenance holes/vaults and ducts located within the network. This project also reduces unsafe working conditions for our workers and potential hazards to the public. In the 1990s, licensed engineering consultants conducted a series of structural surveys on approximately 1,200 underground maintenance holes and vaults. Based on the survey, 38 MH/vaults have been repaired or replaced at a cost of \$14.1Million. Subsequent additional surveys have been done. Our prioritized list of facilities requiring major repairs or replacements includes replacing 78 MH/vaults and 350 vault roofs. The vaults that we are replacing for the 2007-2008 period have exceeded their expected lifetime. These are among the oldest facilities and include brick structures in Pioneer Square that are approximately 100 years old. Replacing now provides an opportunity to construct a route for bringing main stem feeder service cables through the Pioneer Square area and to a significant portion of the Downtown core area (City Hall, Justice Center, Seattle Municipal Tower) rather than using the Alaskan Way Viaduct structure. By repairing or replacing six manholes/vaults, rebuilding at least 10 vault/manhole roofs and 2,800 feet of old clay tile duct banks. Surveys performed by licensed civil engineering consultants have identified 78 maintenance holes/vaults requiring replacement as well as roofs for an additional 350 underground right-of-way facilities.</p> <p>Alternative(s): Alternative 1 - No Action: Vaults and maintenance holes with failing structures and grates would be left in place until catastrophic failure. Problems associated with deferring repair work include reduced worker and public safety, increased City liability, increased City paving expense, negative impacts on traffic flow through downtown when repairs are not coordinated with SDOT's paving operations, and loss of use of City Light facilities for customer service needs. The no action alternative is never an option as too many facilities are in states of failure that require at least temporary shoring and loss of use, and many require immediate repair. Alternative 2: Perform temporary fixes to the highest risk facilities until permanent repairs are made at some unspecified future date. Without a specific project to repair vaults and maintenance holes, temporary shoring systems installed in failed facilities has the following challenges: a) Electric crews cannot perform electric work in the failed facility with shoring left in place, effectively resulting in loss of use of the facility. b) Placement and removal of temporary shoring</p>	System wide	\$1,953
------------------	---	---	-------------	---------

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

reduces productivity of field personnel. c) Wood shoring rots from continuous exposure to moisture has limited life in wet network environments. d) Temporary fixes using steel beams can be applied in facilities with few cables or obstructions from temporary supports. Such repairs require costly custom designs from Civil Engineers and could be applied only where manhole access is not needed for several years. Alternative 3 (Preferred): Make permanent repairs to those facilities in need and continually monitor condition of civil facilities. Work would be prioritized to those facilities in highest need of repair, those associated with new customer load additions and those affected by public right of way projects, such as street paving.

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8201	Union Street Substation Networks	<p>Rationale: The Union Street Substation Networks project provides sufficient and reliable electrical capacity for the growing power needs of our customers. It is a programmatic approach for comprehensive management of underground network assets (electrical and in some cases civil) serving customers in the area bounded by Yesler Street, Alaska Way, Pike Street, 6th Avenue, Union Street, the Freeway, University Street, 3rd Avenue and the Waterfront area from Denny to Yesler. The project goal is to increase the capacity of present Union Street Substation network feeder cables to their ultimate service build out limit (an overall increase of 128 MVA) as determined by Union Substations transformer capacity, with allowances for feeder imbalances, feeder diversity and diversity among sub-networks. We will re-conductor and re-route four targeted service feeders by the end of 2008 and perform associated work such as feeder balancing. This includes the work in support of finishing the main stem build out and to address capacity issues in the branch portion of the feeder service cables as needed in response to specific service requests, as well as analyses of branch cable congested areas. Work in 2007 and 2008 as well as successive years is necessary to be able to pick up loads that will likely be transferred from Broad Street sub-networks in 5 years. To meet the projected new loads on the Waterfront and at specific downtown core sites we need to complete re-conductoring and re-routing of four targeted service feeders by the end of 2008 and perform associated work such as feeder balancing that will be transferred from Broad Street, and may be transferred from Massachusetts Street; build and energize a new network substation at least six years before all Downtown network capacity is used so that service cutovers can be done with minimal impact to our customers. This work is essential to meet near term load requirements of the SAM/WaMu and Four Seasons projects. This critical project Alternative(s): Alternatives include: 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without commensurate additions to capacity of feeders serving this area, ultimately leading to multiple cable failures and extended customer outages. This would reduce the reliability of the network system from its present level, subjecting it to more lengthy outages. 2. Reduce customer demand for more load with demand side management measures. This alternative was evaluated in the Network Strategic Systems Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little as possible and as close to near-term load</p>	1312 Western AV	\$2,256
------------------	--	---	--------------------	---------

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

requirements as possible. This is no longer feasible as the next increment of feeder capacity additions reach their final capacity targets. 4. Increase capacity of network feeders to the full limit of the substations capability to deliver power. 5. Add measures that improve system reliability to mitigate the severity of any network event. 6. Add measures that improve customer reliability by preventing the chain of events leading to major customer impacts.

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8202	Massachusetts Street Substation - Networks	<p>Rationale: The rationale for this project is to increase the capacity and reliability of present Massachusetts Street Substation network feeder cables to their ultimate service build out limit (an overall increase of 69 MVA), as determined by Massachusetts Street Substation's transformer capacity, with allowance for feeder imbalances, feeder diversity and diversity among sub-networks. The Alaska Way Viaduct project will require the relocation of all 13kV distribution feeders that are suspended from the viaduct. These include feeders serving Pioneer Square and the downtown core. Additional duct banks and electrical vaults must be built throughout the Pioneer Square area to accommodate the feeder relocations. Doing the engineering for this relocation during 2007 will ensure that timely civil construction can be done in order to avoid many conflicts with other utilities and mitigate some of the traffic impacts that will occur during the Viaduct and Seawall construction. Alternative(s): Alternatives include: 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without commensurate additions to capacity of feeders serving this area, ultimately leading to multiple cable failures and extended customer outages. This would reduce the customer reliability of the network systems from its present level, subjecting it to infrequent but lengthier outages. 2. Reduce customer demand for more load with demand side management measures. This alternative was evaluated in the Network Strategic Systems Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders to the full limit of the substations capability to deliver power. 4. Add measures that improve system reliability to mitigate the severity of any network event. 5. Add measures that improve customer reliability by preventing the chain of events leading to major customer impacts.</p>	1555 Utah Ave S	\$3,643
------------------	---	--	--------------------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8203	Broad Street Substation - Network	<p>Rationale: Customer demand for higher loads continues. Capacity of the cables serving two sub-networks is near overload, requiring immediate attention to avoid cable failure and customer outages. In the next five years, customers are projected to exceed the capacity of cables in another five network subareas. This capital project addresses the means to serve customer demand for higher capacity. Reliability measures identified in the Network Strategic System Plan are incorporated into this capacity driven work. Without this critical project it is very likely that there will be insufficient reliable electrical capacity in the very near future to hook up new customers and to serve present customers such as the Westin building. The project goal increases capacity of present Broad Street Substation network feeder cables to their ultimate service build-out limit (an overall increase of just under 100 MVA) as determined by Broad Street Substation's transformer capacity. This project constructs ten vaults and ten blocks of duct banks, re-conductors and relocates three primary feeders per year, upgrades/optimizes network transformers as needed, reduces secondary bus ties (reduce the size of the secondary grid resulting in greater reliability), and performs ancillary work. Alternative(s): Alternatives include:</p> <ol style="list-style-type: none"> 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without commensurate additions to capacity of feeders serving this area, ultimately leading to multiple cable failures and extended customer outages. This would reduce the customer reliability of the network systems from its present level, subjecting it to infrequent but lengthier outages. 2. Reduce customer demand for more loads with demand side management measures. This alternative was evaluated in the Network Strategic Systems Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little as possible and as close to near-term load requirements as possible. 4. Increase capacity of network feeders to the full limit of the substations capability to deliver power. 5. ------------------	---	--	---------------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8301	First Hill - Network	<p>Rationale: At present, capacity of the cables serving the First Hill network is exceeded in several areas, requiring operation restrictions to avoid cable failure and customer outages. In the next few years, four or more large customer loads are expected to be added, exceeding the capacity of cables. Based on projected new loads within the First Hill area (Harborview and Swedish Medical Centers), the electrical capacity of the cables serving the sub-network will be exceeded, requiring immediate action to avoid cable failures and long costly customer outages. This project will provide and overall electrical capacity increase of 32.4 MVA for First Hill Substation customers. Alternative(s): Alternatives include: 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without the department making commensurate additions to capacity of feeders serving this area. This would ultimately lead to multiple cable failures and extended customer outages. This would also leave the customer reliability of network systems at its present level, subject to infrequent but lengthy outages. 2. Reduce customer demand for more loads with demand side management measures. This alternative was evaluated in the Network Strategic System Plan and found to have a negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little as possible and as close to near-term load requirements as possible. 4. Increase capacity of network feeders to the full limit of the substation's capability to deliver power. 5. **Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8404	Denny Substation - Network	<p>Rationale: This project is a result of a four years of advocacy by customers to make sure that the electrical distribution system has sufficient capacity to meet the projected loads in the rapidly growing area of North Downtown, and that the system has the reliability and voltage stability to support the research activities of the emerging biotech industry there. The principal stakeholders are the Fred Hutchinson Cancer Research Center, the UW School of Medicine, the Seattle Biomedical Research Institute, Rosetta Inpharmatics, ZymoGenetics, Children's Hospital and Medical Center, and the startups at the Accelerator Project. This five to seven year infrastructure project is specifically tailored and designed to the core needs of this business sector in the North Downtown area. The research activities and the laboratory equipment are so sensitive to system reliability and voltage stability that this area requires an extraordinary level of service from the utility. The motto is "World class research requires world class facilities.". The utility through this project is a partner in that effort. Because existing City Light substations cannot accommodate the new network feeders, this project requires the construction of a new North Downtown substation in a three to five year period, proposed as project 7757, North Downtown Substation Development. This network project cannot exist without the new substation. Alternative(s): 1. Enhance the service using non-network feeders from other substations. 2. Have individual customers invest in private reliability improvements. 3. Install network system in core service area, including the biotech industries. 4. Install network system throughout North Downtown area. Option 1 is not feasible because the availability of feeders from adjacent substations is limited and in question over time. Option 2 has been tried recently, but did not meet the reliability needs of this set of customers. Option 3 is the recommended option, as it is effective in meeting the need and cost effective. Option 4 includes all customers in the area, which is not necessary and expensive.</p>	Valley Street	\$6,995
------------------	----------------------------------	--	---------------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8464	University Substation - Network	<p>Rationale: This project increases electrical capacity and reliability for University Substation customers in response to increased customer demand. At present, capacity of the cables serving the University network is exceeded in several areas, requiring operation restrictions to avoid cable failure and customer outages. In the next few years, larger customer loads are expected to be added, exceeding the capacity of cables. Based on projected new loads within the University area (University of Washington, Sound Transit) the electrical capacity of the cables serving the sub network will be exceeded, requiring immediate action to avoid cable failures and long costly customer outages. Alternative(s): 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without the department making commensurate additions to capacity of feeders serving this area. This would ultimately lead to multiple cable failures and extended customer outages. This would also leave the customer reliability of the network system at its present level, subject to infrequent but lengthy outages. 2. Reduce customer demand for more loads with demand side management measures. This alternative was evaluated in the Network Strategic System Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little as possible and as close to near term load requirements as possible. 4. Increase capacity of network feeders to the full limit of the substation's capability to deliver power. 5. Add measures which improve customer reliability by preventing the chain of events leading to major customer impacts.</p>	645 NW 45Th	\$412
MC-CL- YR8322	Dallas Ave. 26 kV Crossing	<p>Rationale: Boeing and the other industrial customers in this area have critical facilities (e.g., Boeing wind tunnels) that depend on reliable power. The additional feeders assure reliable power supply to Boeing's operations and local industrial plants and residences. The Boeing Company has lobbied our management and the City Council to ensure that this line is replaced. Alternative(s): The do nothing alternative would leave Boeing and others with reduced reliability and in violation of previous SCL commitment.</p>	Dallas Ave S	\$4,626

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- YR8351	Overhead Equipment Replacements	Rationale: Equipment that is aging, overloaded, or of an outdated design poses a risk to the reliability of the system and could lead to unplanned outages and additional restoration expenses. By replacing the oldest and failing parts of our system, and those parts that are not made anymore, and we have no spare parts. We will replace items such as rotten and damaged cross-arms, transformers, hardware, old lead cable, PCB transformers, etc. By doing so, the system will be more maintainable and customer outages will be fewer and not as long. Alternative(s): The do nothing alternative leaves the existing system in place. As the aging and outdated equipment fail they will cause unplanned outages. This necessitates the immediate, unplanned replacement of these facilities. This causes hardship for the customers that are impacted and increased expense for City Light, especially if overtime is required to get the customers re-energized.	System wide	\$47,229
MC-CL- YR8353	Underground Equipment Replacements	Rationale: Avoid unplanned outages or interruption of service due to equipment failure. Alternative(s): The do nothing alternative would allow the equipment to deteriorate beyond its useful life and result in increased outages to customers.	System wide	\$28,939
MC-CL- YR8355	Overhead Customer Driven Capacity Additions	Rationale: This project adds capacity to the distribution system to accommodate increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.	System wide	\$4,547
MC-CL- YR8356	Overhead System Capacity Additions	Rationale: This project adds capacity to the distribution system to maintain the reliability level for the existing customers on the system and accommodate the increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.	System wide	\$3,410
MC-CL- YR8358	Overhead 26kV Conversion	Rationale: The existing 4kV equipment has lasted beyond its useful life and is no longer supported by manufacturers. In some places, the 4kV system no longer has the capacity to carry the system loads we are now experiencing. The system also demands ever increasing O&M resources. Alternative(s): The do nothing alternative leaves the 4kV system in place. The capacity concerns will remain and grow worse as more loads are added to the system. Obtaining 4kV equipment will become increasingly difficult and O&M will increase as the system continues to age.	System wide	\$2,468

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- YR8360	Underground Customer Driven Capacity Additions	Rationale: This project adds capacity to the distribution system to accommodate increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.	System wide	\$3,429
MC-CL- YR8361	Underground System Capacity Additions	Rationale: This project adds capacity to the distribution system to maintain the reliability level for the existing customers and accommodate the increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.	System wide	\$2,807
MC-CL- YR8362	Underground 26kV Conversion	Rationale: This project increases capacity to deliver power to City Light customers, rebuilds and maintains the backbone of the system, saves energy by reducing transformer and line losses, improves quality and reliability of service to customers, and releases unit substation properties for better neighborhood uses. Alternative(s): The do nothing alternative leaves the 4kV system in place. The capacity concerns will remain and grow worse as more loads are added to the system. Obtaining 4kV equipment will become increasingly difficult and O&M will increase as the system continues to age. Operations and maintenance costs are not expected to change as a result of this project. The Capitol Hill Underground Ordinance area does not have capacity at 4 kV to serve the load growth in the area, thus requiring City Light to install vaults, ducts and underground at 26 kV.	System wide	\$1,026

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- YR8425	Distribution Automation	<p>Rationale: The new distribution switching equipment is capable of intelligent controls. The integration of this equipment into Seattle's distribution system will provide significant benefits and will set the stage for a Smart Distribution System that will become one of the main components of a Smart Grid. S&C Electric offers first generation switching equipment with compatible intelligence built in. Through this CIP, the Smart Distribution infrastructure can be designed, constructed, and operated until fully built out. With SMART GRID in place, operators of the distribution system can optimize the operation of our distribution system, reducing time for outage restoration and preventing some outages in the first place. A smart distribution system can also provide real time data of the system, maximizing the capability of the system, and may allow for deferment of capital expenditure. A fiber cable system that can support this operation has been partially constructed. This fiber ring project can continue and be expanded to provide adequate coverage for Smart Grid and other communication needs of Seattle City Light in the future. Fiber optics communication allows secure communications and meets NERC Cyber Security requirements. As the power system is changed or redesigned through usual needs to serve customers, automated switches can be installed in consonance with the integrated DA plan. Eventually the whole distribution system in Seattle Service Area would have a capability to become a Distribution Automation system. Alternative(s): 1. Business as Usual. Automatic switches will be installed as need arises. Power system switching will be done through manually operated switches. Outage restoration will depend on feeder patrols. 2. Expand pilot projects. Candidates are SODO, which is highly congested with power lines and serves the industrial customers, White Center & Burien areas, which have potential for growth, and south Duwamish commercial area. Include the South Lake Union area when the City decides to proceed with the development. Required? Yes. Distribution Automation needs to be a properly funded project. City Light will have a distribution system ready to deliver automation as part of a SMART GRID initiative.</p>	Citywide	\$3,087
------------------	----------------------------	--	----------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YR8452	Pole Attachments	<p>Rationale: City Light is legally and contractually obligated to make space available on its facilities to government and private entities for communication and other purposes. Customers wishing to utilize space on City Light facilities are required to pay in advance for any necessary work required to provide the necessary space and minimum clearances to the electrical equipment. This ensures that the attachments meet all applicable federal, state and local safety codes. Customers are not allowed to make any attachments until all make ready work, including tree trimming, has been completed and the system made safe for the communication worker. Speed to market in the communications industry is critical for them to maintain their competitive advantage. Customers pay in advance for City Light crews to complete this work on overtime, without interrupting the normal assignments of the crews. All construction charges are deposited into the Light Fund. New wireless facilities and pole attachments generate an additional \$100,000 in rental revenue annually. Currently \$3.3 million in annual rental revenue is being generated and will continue to increase as construction and make ready work is completed. All rental revenue is deposited into the Light Fund. The communications industry and associated technology are growing at an astounding rate. City Light has experienced a 375 percent increase in pole attachment applications since 2007. All trends indicate that this growth will increase by an average of 24 percent annually. This does not take into account major initiatives such as fiber to the home, Advanced Metering Infrastructure (AMI), or vast expansion of existing networks and Distributed Antenna Systems (DAS). Completing the construction for make ready work and wireless facilities will enable City Light to fulfill its legal and contractual obligations to our customers. Customers will be provided a small measure of rate relief through increased revenue streams from these additions. Alternative(s): It is possible that some or all of this construction work could be outsourced to electrical utility construction companies. This alternative presents obstacles like logistics, compatible parts, quality control, and required electrical reviewers. These challenges negate any cost savings and sometimes take longer to construct.</p>	System wide	\$17,110
MC-CL- YS7121	Replace Breakers BPA Covington and Maple Valley Substations	<p>Rationale: City Light's interconnection agreement with Bonneville Power makes City Light the owner of the breakers in the Maple Valley Yard. City Light is required by this agreement to make upgrades as required. The breakers are currently over capacity due to the addition of another 500 kV line into the area. Alternative(s): If SCL does not replace</p>	Kent	\$3

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

		the breakers, they may be forced to do so through legal means due to a breach of contract.		
MC-CL-YS7750	Substation Plant Improvements	Rationale: The Power Stations CIP Review Committee evaluates subprojects for this category based on cost benefit ratios and departmental policies. Proposed work includes seismic improvements to old buildings, refurbishment of concrete buildings, upgrades to potable water systems, and construction of storage facilities for materials and tools. Incidental work that Power Stations do to improve station security is also funded in this project. Alternative(s): The water system at the North Substation is old, deteriorating, and becoming unreliable for drinking and for fire protection. Allowing the present systems to deteriorate may endanger employees and further put the safety and reliability of key system resources at risk. Additional seismic improvements are planned at Broad Street substation. Refurbishment of concrete structures is planned at North Substation. Storage facilities for tools and safety protective ground cables are planned for Delridge and East Pine substations. There are several levels of alternatives for improving security at Seattle City Light's fourteen substations. They range from installing more effective perimeter fencing, to adding remote monitoring systems, to catch intruders.	System wide	\$921
MC-CL-YS7751	Substation Capacity Additions	Rationale: We plan to design the feeder get-aways to carry power from substations as needed. Alternative(s): The alternatives to making capacity additions to existing substations are: 1. Accepting limitations on service to customers. 2. Successfully promoting voluntary power demand reductions. 3. Meeting capacity demand increases by new substations and transmission lines.	System wide	\$2,239
MC-CL-YS7752	Substation Equipment Improvements	Rationale: The project includes a regular program of critical electrical equipment replacements at the substations, because this equipment becomes less reliable as it ages. The 2005-2006 plans continue a program to provide supervisory control of breaker functions. This allows remote control and monitoring of substation equipment from the System Control Center, which allows the System Control Center to diagnose the seriousness of an equipment malfunction or switch equipment more quickly. This allows a faster response time to correct system instability or outages. Alternative(s): This project is where the utility funds work on equipment that the maintenance review process identifies as being more cost effective to replace or refurbish than to continue to maintain. A review team prioritizes replacements by their criticality rating. This is a figure provided by the System Control Center that identifies the components of Seattle's distribution infrastructure that are especially important to the system as a whole. For example,	System wide	\$6,326

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

		an equipment failure at Broad Street Substation may cause more of a problem than one at Canal Substation because it is not as easy to switch loads into the network grid.		
MC-CL- YS7753	Relaying Improvements	Rationale: Relays are protective devices that guard system components when electrical equipment fails. When a relay senses a problem with a major piece of equipment, it opens the circuit flowing to that component and isolates it from the rest of the electrical system. This protects the rest of the distribution system from potentially cascading effects if one part fails to operate properly. Recent technological advances in relay and protection equipment and software allow remote control and documentation of system events. The work plan includes installing digital fault recorder (DFR) equipment and software at the substations. City Light is changing electro-mechanical relay components to electronic, programmable devices. This will make it easier to detect and manage equipment problems. Alternative(s): Almost every change out of high voltage substation equipment requires that its relay and metering be reset and modified. Not continuing to have a significant relay improvement program would keep us using old technology that is not maintained by its manufacturers.	System wide	\$5,275
MC-CL- YS7755	Substations Demand Driven Improvements	Rationale: Requests from other agencies typically occur without enough notice to be included in the biennial budgeting process. The Power Stations Division budgets a nominal sum for each year to cover requests and to request spending authority. Alternative(s): The alternative to implementing regional demands is failing to meet City commitments to regional agreements.	System wide	\$1

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YS7756	Interbay Substation - Development	<p>Rationale: The Broad Street Substation is reaching its capacity to serve the network and the growing South Lake Union neighborhood. The limiting factor is an inability to construct additional underground feeders to carry electrical current in to the area. The existing 26 kV distribution system and substations are becoming overloaded and a new 26-kV substation will feed the areas load growth. The 115 kV ring bus work at Broad Street and Canal Substations will provide the connections to the transmission system. The new substations will provide 10 to 15 new 26 kV getaways, adding to the distribution network and providing a new path for power to the area. Because City Light already owns property for a station in Interbay, it is the nearest opportunity we have to add capacity in the western part of the service area that will off-load demand from the Broad Street Substation for the South Lake Union district. Developers who are interested in projects in the SLU district want to know that City Light will be able to serve their needs reliably. Alternative(s): 1. Not build the new substation. 2. Option one build: Contract out the design and construction 3. Option two build: Have City Light design and integrate the facility into the distribution system, and construct the facility. It requires at least 36 months to site, contract for design, construct, and energize a distribution substation. There are several alternatives such as installing distributed generation facilities to meet load growth. City Light has considered constructing additional transmission corridors from the University Substation and/or Canal Substation. Both alternatives require crossing a body of water, which are expensive options even if environmental challenges do not delay or halt progress. Given the recognized growth in South Lake Union, City Light selected the most cost effective and achievable option - constructing a station at Interbay to serve the growing load in that part of the service territory.</p>	17th Ave West	\$86
MC-CL-YS7776	Substation Transformer Replacements	<p>Rationale: To replace aging substation transformers before they fail in service. Alternative(s): The alternative is to accept the risk of a transformer failure and the consequent added cost and time for emergency replacement.</p>	2136 N 163rd St, Shoreline	\$2,918
MC-CL-YS7779	Substation Breaker Replacements and Reliability Additions	<p>Rationale: To replace aging substation circuit breakers before they fail in service. Alternative(s): The alternative is to accept the risk of a transformer failure and the consequent added cost and time for emergency replacement.</p>	System wide	\$5,656

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- YS7783	Substations Oil Containment	<p>Rationale: The rationale of this project is to get City Light into compliance with the Clean Water Act regulations (Title 40, Code of Federal Regulations, Part 112) which require that oil containment measures be taken that will prevent oil spills into any streams or open bodies of water. During preparation of the Oil Spill Plans required by the regulations, a comparison of existing oil containment facilities was made with the recently revised (August 2002) regulations, which resulted in discovery of instances at 11 of our substations of design problems or capacity problems that should be resolved to fully meet the regulations. Substation Scope of Recommended Oil Containment: (Scott McLean's project estimates) Duwamish Sub - Add oil containment at the bus bays and potential transformers. Major issues are proximity to the Duwamish River, which with porous soils raises the prospect of an oil spill finding its way to groundwater and into the river in a short period of time. Broad Sub - Remedy the insufficient capacity of the oil containment system and lack of impervious sumps. Major issue with the existing system is that spilled oil can overflow the undersized unlined sumps into the combined yard drain sys (i.e. combined drainage and oil containment system) and from there into City drains. There is no oil containment in the E yard. Improve the system or set up a contingency plan. Bothell Sub 1. Provide lining for the currently unlined sumps at transformers and OCBs, and provide for separating the oil containment system from the drainage system. Major issues include unlined sumps; no oil containment for oil tanks at west side next to wetland, combined drainage/oil containment system can spread an oil spill into the yard gravel. 2. Retrofit with impervious sumps at bulk storage tanks with normally closed valve. 3. Pipe 3 CBs at SW yard to MH with OSV. East Pine Sub - Remedy the undersized combined oil containment system, which has the potential of overflowing i</p> <p>Alternative(s): 1. Implement improvements recommended by Oil Spill Plans as soon as possible, to obtain compliance with the applicable federal regulations (Title 40, Code of Federal Regulations, Part 112). 2. Implement recommended improvements over a phased period of time, to obtain compliance with the applicable federal regulations (Title 40, Code of Federal Regulations, Part 112), giving priority to the sites of highest environmental risk. This is the selected alternative. 3. Do nothing.</p>	System wide	\$245
------------------	--------------------------------	--	-------------	-------

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- YS8424	Substation Automation	<p>Rationale: Seattle City Light's (SCL) remote monitoring and control of critical substation equipment from our system control center dates from the 1970s, when SCL led the industry's development. The basic configuration in each substation is unchanged since those early days. The configuration consists of a Remote Terminal Unit (RTU), which collects electric system measurements and status; forwards them promptly to the control center; conveys power dispatcher commands back to the substation to operate high voltage switches and circuit breakers for electric system reconfiguration in real time. Industry developments and the toll of decades have made necessary the upgrade of this system. The existing Remote Terminal Unit equipment is 40 years old, wearing out and cannot be replaced in kind because the equipment is no longer manufactured. It has insufficient capacity to address the needs of added substation sensors and controls, cannot offer the computerized capabilities of new technology, cannot support automation of the distribution system feeders radiating from the substations, is too slow to meet the speed requirements of new control applications, is energy inefficient and cannot support modern demands of sophisticated asset management of expensive high-voltage equipment, and it doesn't provide the insight into the operation of the substation that today's staff could be using to improve operation and maintenance practices. Further, an RTU failure will significantly affect the operation of the Automatic Generation Control (AGC) at the EMS. The AGC relies heavily on the RTU for accurate data acquisition of real time power flow on transmission lines to neighboring utilities, comprising the Western Interconnection governed by the Western Electricity Coordinating Council (WECC). The AGC enables the proper allocation of a pool of power generation to the appropriate load required by each utility customer. Loss of AGC due to RTU failure will in turn cause fines from the appropriate Alternative(s): Option I - Replace at Failure: This strategy poses significant business risk that will grow as the equipment ages. Currently, the average age is about 40 years old. This analysis assumes that this equipment will fail at an increasing rate at or before reaching 60 years old. The current technology can no longer be replaced or maintained because it is no longer manufactured. When the RTU fails, it will take one year to replace and require one year of manual operation, which adds approximately \$1Million of additional labor costs above the \$1.3 Million planned cost of replacement. Should SCL lose more than 2 RTUs in one year, it would take longer to replace and require more labor to manually operate the</p>	System wide	\$1,270
------------------	--------------------------	--	-------------	---------

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

substations. However, replacing this equipment with modern technology will set the foundation to support future smart grid applications like AMI (Advanced Metering Infrastructure), OMS(Outage Management System), Asset Management applications, Distribution Automation, and reactive power management, to name a few. It will also allow SCL to meet future NERC compliance requirements for substation equipment and install intrusion control measures for substation security. Option II - Preferred Option: Planned RTU Replacement over 7 Years at a rate of 2 per year. This option will: Remove existing RTU. Install new server systems in every substation. Install supervisory control of feeders (30 feeders for each station) that serve network loads to allow remote control of feeder breakers from the EMS. Install group control of network feeders to enable load restoration in case of a sub-network or total substation outages. Install new annunciators and monitors for productive operator interfaces. Two other options were discussed but not pursued for this analysis. One alternative considered adding a server to each substation over 7 years, but did not propose to connect it.

MC-CL- YT7011	Transmission Capacity	<p>Rationale: The capacity of the system is based on winter and summer peaks, weather conditions, and N-1 criteria. Additional capacity shall be added to meet the planning criteria for power delivery of new load demand.</p> <p>Alternative(s): If transmission lines are overloaded, overhead wires could sag beyond National Electric Safety Code clearances causing an unsafe condition, and underground lines could exceed the insulation's temperature rating causing damage to the cable. In order to avoid these situations from overload, which could cause long term outages; shorter term load shedding would be used.</p>	System wide	\$17
MC-CL- YT7104	Transmission Reliability	<p>Rationale: As structures, insulators and conductors reach their end-of-life expectancy and need to be replaced to maintain existing systems. To meet the National Electric Reliability Council and Western Electricity Coordinating Council reliability criteria, it is necessary to add additional transmission lines that are not capacity driven. Wood poles will have a shorter replacement life of approximately 40-60 years depending on condition assessment. Alternative(s): Allow the lines to fail before replacing them. This can cause a dangerous safety issue and will reduce the availability of the system at unscheduled and inopportune times. The August 2003 East Coast blackout has shown that inattention to the transmission system has large implications.</p>	System wide	\$2,250

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- YT7105	Transmission Inter-Agency	Rationale: Seattle City Light is required to relocate facilities at the request of other agencies. Drivers for the relocations are road realignments, construction of facilities, regional upgrades, and changes in lighting. Inter-agency projects may or may not be reimbursable depending on real estate drivers. Alternative(s): Do not meet other agencies needs and potentially delay local, state, or regional construction programs. If interagency agreements are not met, there are usually contractual, permit, or franchise rights involved, which could lead to litigation.	System wide	\$642
MC-CL- YT7125	Denny Substation Transmission Lines	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	System wide	\$227
MC-CL- YT8461	Transmission Line Inductor Installation	Rationale: Rationale: This project is based upon a Memorandum of Agreement (MOA) between Bonneville Power Administration (BPA), Puget Sound Energy (PSE), and Seattle City Light (SCL), aimed at improving the reliability of the regional electric grid in the Puget Sound Area Northern Intertie (PSANI). Since the early 2000's, BPA has limited energy transfers between the Puget Sound area and Canada due to congestion in the Puget Sound Area. This project will reduce congestion and upgrade the reliability of the transmission system, reducing the risk of region-wide customer power outages in the future. Objectives for this project include: 1. Install series inductors on the Massachusetts to Union to Broad (MA-US-BR) and Denny to Broad (DN-BR) 115kV Underground Transmission Cable Lines in the downtown Seattle Transmission System by 2017. 2. Complete all Transmission System Improvements within the 2013 - 2018 CIP Forecast and Budget. 3. Complete all agreed upon Transmission System Improvements per the MOA by the end of 2017. 4. Complete necessary upgrades to existing substation and transmission equipment or structures to support Seattle City Light's 2013 - 2018 Strategic Plan Initiative for Transmission System Improvements. Project Goals: 1. Enhance customer experience and service reliability for SCL customers. 2. Reinforce transmission interties and interconnections with PSE and BPA. 3. Improve SCL asset strengths and load capacity on existing transmission systems. 4. Reduce the risk of region-wide customer power. Alternative(s): City Light belongs to the Columbia Grid, a regional transmission planning organization. SCL and other Columbia Grid members considered alternatives such as new phase shifting transformers, 500kV transmission lines, and additional underground cables. The goal of the regional analysis was to minimize costs and impacts using a one-utility approach for solving the transmission congestion	System wide	\$8,164

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

		issues. The selected projects were chosen after two years of transmission system studies and analysis. The 2011 report can be found in City of Seattle Ordinance 123779, as an attachment with a table of the alternatives considered.		
MC-CL- ZL8377	Transportation Streetlights	Rationale: 2010 EMS Streetlighting that SCL owns may need to be relocated for transportation purposes, just as other SCL facilities. Often SCL will pay to move all types of its facilities if a project is deemed a Transportation Project. Utilizing SDOT as the design and construction management consultant allows SCL to avoid being in the critical path of transportation projects. It also allows for leveraging engineering staff. Alternative(s): The do nothing alternative would hamper transportation projects and cause delays to the public.	System wide	\$5,601
MC-CL- ZL8378	Streetlights: Arterial, Residential and Floodlights	Rationale: Streetlights and floodlights are provided in public right of way, and on private property, for either public or private benefit. Often these lights are attached on existing City Light wood poles, but they may also be installed on separate metal poles, depending on the application. City Light owns the arterial and non-arterial lighting systems throughout the City of Seattle per Ordinance 119497. In other jurisdictions, franchise agreements may dictate City Light's requirement to support lighting needs. City Light has historically provided the resources to install street lighting. These capital costs are then reimbursed by the requesting party through monthly billing according to Seattle Municipal Code 21.49.060, Schedule T, Option C. Alternative(s): The do nothing alternative would deny new lighting, a service authorized by ordinance. In residential areas, public safety would remain at present levels. Along arterials, the existing aging system would deteriorate beyond usefulness and lag behind improved lighting standards.	System wide	\$7,197
MC-CL- ZL8441	Streetlight LED Conversion Program	Rationale: 2010 EMS - This project will reduce annually energy consumption by 40% (for those lights replaced), provide Greenhouse Gas Avoidance of 5,446 metric tons of carbon per year, and reduce maintenance cost of the Utility's streetlight system. The savings in energy and maintenance costs will pay for the initial investment within the life of the new system. The overall goal of this project is to improve customer service and reduce cost. With a total system conversion, it is estimated that annual operating costs will be reduced from \$10,180,213.59 per year to \$6,510,231.31 per year. Debt service for system conversion capital cost may be made with these savings. Through 2011, 20,000 cobrahead residential fixtures have been installed. In 2012, residential conversion will take place from the southern border of City Light's service area to Brandon St. The 2013 conversion effort includes residential and minor	Citywide	\$2,250

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

		collector arterials in Zone 2 (250 watt High Pressure Sodium replacements), from Brandon St to Denny Way. Complete conversion of the residential streetlights completion anticipated by the end of 2014. Arterial cobrahead luminaire conversion will continue through 2017. Ornamental LED conversion anticipated through 2021. Alternative(s): No Alternatives Provided.		
MC-CL-ZL8481	Seattle Waterfront Streetlight Installation	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	1312 Western AVE	\$365
MC-CL-ZS8054	Meter Additions	Rationale: Background: Of the 400,000 meters in City Light's metering system, approximately 80,000 are older than 30 years. City Light's Rates Unit estimates that replacing the meters would result in an increase in revenues of more than \$450,000 annually. City Light has a fiduciary responsibility to continually update the metering system. Due to continuous budget constraints, both in labor and material, targets of 10,000 obsolete meter exchanges were reduced in 2000, 2006 and 2008 to our current level of 5300, thus the backlog of older meters continues to increase. Methodology: New Service Installations: Over the past 9 years, new or upgraded services have averaged 5,500 a year. Material budgeting was based on a 2006 to 2008 average and current labor figures. These project funds support the demands of new construction and upgraded services. Obsolete Meter Exchange: The life cycle of a meter is 30 years based on the electro-mechanical meter. However, current and future electronic technology may reduce this life-span up to 50%. Older meters slow with age, resulting in a loss of revenue to the Department. Obsolete meters can account for up to 3 percent loss in department revenue. The Technical Metering Unit expects to exchange 10,000 obsolete meters annually starting in 2013 through 2016. Alternative(s): 1. Continue to replace obsolete meters at current level of 5,300 annually. City Light could not accurately bill for electrical consumption. Incur loss of City Light revenue due to slow meters. Results in increasing backlog of meters over 30 years old. Increased future utility costs due to replacing obsolete meters at an accelerated pace with higher labor and material costs. 2. Continue to replace obsolete meters at higher level of 10,000 annually. Increase number of customers who receive accurate and timely bills. Reduce loss of utility revenues due to slow meters. Avoid higher cost of meter replacement when meters fail.	System wide	\$4,151

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL-ZS8350	Overhead Outage Replacements	Rationale: During unplanned outages, work often must be done that requires the complete replacement, rather than repair just one piece of equipment that is normally capitalized. This includes poles and transformers. This project is intended to capture those expenditures. Alternative(s): During an unplanned outage, feeder switching will restore most, if not all of the affected customers. The do nothing alternative possibly leaves the few affected customers without power. The system also remains in its damaged condition which severely limits the flexibility to switch the feeders to allow for other outages, both planned and unplanned. Planned outages are needed to accommodate line moves and other system work.	System wide	\$1,162
MC-CL-ZS8352	Underground Outage Replacements	Rationale: During unplanned outages, work often must be done that requires the complete replacement rather than repair just one piece of equipment that is normally capitalized. This includes cable and transformers. When there are no customer outages, the goal is to restore the system to its normal configuration within two months, unless customer driven construction mandates an earlier deadline or the magnitude of the scope of the outage makes this impractical. Alternative(s): During an unplanned outage, feeder switching will restore most, if not all, of the affected customers. The do nothing alternative possibly leaves the few affected customers without power. The system also remains in its damaged condition which severely limits the flexibility to switch the feeders to allow for other outages, both planned and unplanned.	System wide	\$2,563
MC-CL-ZS8363	Network Additions and Services: Broad Street Substation	Rationale: The Broad Street Substation Network Additions and Services project connects approximately five small, four medium, and five large properties costing \$4.6 million and performs capacity additions work associated with service connections. These connections include condominiums, office buildings, medical facilities, hotels, and commercial and apartment buildings. Alternative(s): No Alternatives Provided.	319 6th AV N	\$9,637
MC-CL-ZS8364	Network Additions and Services: First Hill, Massachusetts, Union & University	Rationale: This Network Additions and Services project for the customers in the First Hill, Massachusetts, Union, and University District network areas provides service connections to approximately nine small, five medium, and four large properties costing \$3.5 million. These connections include condominiums, office buildings, medical facilities, hotels, and commercial and apartment buildings. Alternative(s): No Alternatives Provided.	1555 Utah AV S	\$8,204

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL-ZS8365	Large Overhead and Underground Services	<p>Rationale: There is a continuous demand for additional electric power services as new construction and renovation work occurs. Seattle City Light provides service to new customers in a safe, reliable, timely, and cost effective manner as a means to fulfill its commitment to be a customer and community focused organization.</p> <p>Alternative(s): Each service connection may have unique aspects that would require or facilitate design, construction, and financing alternatives. Seattle City Light will fully consider alternatives as a means to fulfill its commitment to be a customer and community-focused organization.</p>	System wide	\$5,335
MC-CL-ZS8366	Medium Overhead and Underground Services	<p>Rationale: There is a continuous demand for additional electric power services as new construction and renovation work occurs. Seattle City Light provides service to new customers in a safe, reliable, timely, and cost-effective manner as a means to fulfill its commitment to be a customer and community focused organization.</p> <p>Alternative(s): Each service connection may have unique aspects that would require or facilitate design, construction, and financing alternatives. Seattle City Light will fully consider alternatives as a means to fulfill its commitment to be a customer and community-focused organization.</p>	System wide	\$22,701
MC-CL-ZS8367	Small Overhead and Underground Services	<p>Rationale: There is a continuous demand for additional electric power services as new construction and renovation work occurs. Seattle City Light provides service to new customers in a safe, reliable, timely, and cost-effective manner as a means to fulfill its commitment to be a customer and community focused organization.</p> <p>Alternative(s): Each service connection may have unique aspects that would require or facilitate design, construction, and financing alternatives. Seattle City Light will fully consider alternatives as a means to fulfill its commitment to be a customer and community-focused organization.</p>	System wide	\$7,839
MC-CL-ZS8379	Normal Emergency	<p>Rationale: This project will collect costs related to the annual storm invoked work orders, which results in more accurate accounting for weather related and other emergency outage situations and leads to better planning for similar future events. SCL traditionally has budgeted for these events in the Outage capital project. This did not allow us to easily account for emergencies versus billed work, such as car and pole accidents. Separating these charges will allow us to track costs and feasibly plan for future emergency situations.</p> <p>Alternative(s): To continue to mix emergency and non-emergency work in the Outage capital project. This project does not add a body of work but clarifies the accounting for it.</p>	System wide	\$1,231

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- ZS8380	Major Emergency	<p>Rationale: This project will collect costs related to emergency work. This will result in more accurate accounting for weather related and other emergency outage situations. This project does not add a body of work but clarifies the accounting for it. SCL traditionally has budgeted for these events in the Outage capital projects. This did not allow us to easily account for emergencies versus billed work such as car and pole accidents. Separating these charges will allow us to track costs and feasibly plan for future emergency situations. Alternative(s): To continue to mix emergency and non-emergency work in the Outage capital projects.</p>	System wide	\$3,000
MC-CL- ZS8405	Network Additions and Services - Denny	<p>Rationale: This is a mandated project that provides electrical service connections and related improvements in response to requests for service from customers. The project provides targeted civil and electrical design assistance to customers to connect existing and proposed buildings to the North Downtown network system. The conversion effort is quite large since we are installing a new network in this area. It is imperative to participate in early design discussions with customers building in the area. For existing buildings, the conversions to network service are complicated and require expert assistance. This project provides service connections to biotech industry, condominiums, office buildings, medical facilities, hotels, and commercial and apartment buildings. Alternative(s): 1. Do nothing. 2. Hook up customers as they request. Option 2 is recommended as it is most compatible with our mission of customer service.</p>	Valley Street	\$4,307

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- ZT8307	Alaskan Way Viaduct and Seawall Replacement - Utility Relocations	<p>Rationale: The Alaskan Way Viaduct replacement includes a complex transmission and network/non-network relocation, design and construction, and is on a fast track. This work is integrated and required by the broader transportation project. The externally generated project and schedule includes significant electrical relocation work in the near term that will extend for over a decade. The utility is required to relocate for transportation relocated projects. The City's overall plan for the Alaskan Way Viaduct project includes utility funded relocations for the viaduct replacement and for rebuilding the Seawall. The series of subprojects that make up the Alaskan Way Viaduct replacement have opportunities for system improvements that will also be funded under this program. For most of the subprojects in the Alaskan Way Viaduct project, utility relocations will lead the construction. Therefore any delay in accomplishing SCL work will result in delays along the overall projects critical path. While the designs & construction schedules for the various subprojects in the Alaskan Way Viaduct program are being sequenced and detail design is underway for the immediate projects, the central waterfront elements of the overall project are beyond this budget cycle and are still in the preliminary design phases. Alternative(s): The Alaskan Way Viaduct program provides the utility with a combination of obligations and opportunities for system improvements over the next 6 years. The Alaskan Way Viaduct program will likely be the City's primary construction focus as its various projects impact traffic and roadway construction, seawall stabilization, and urban design on the waterfront. Seattle City Light facility relocations will be a part of each of these projects. The global nature of the Viaduct Program also provides the opportunity to make system improvements that will provide for increased reliability and capacity for our customers. For example, work in the south end will include system improvements that will increase feeder capacity and reliability for Port customers. Undergrounding of transmission lines near Broad Sub are being done as part of an overall SDOT street improvement with costs shared based on a negotiated MOA with SDOT. The return of Aurora, north of Harrison Street to a city street, and the decommissioning of the Battery Street Tunnel provides an opportunity to extend ducts and vault across Aurora to help provide system capability to the NODO area.</p>	SR 99 / Battery St	\$109
------------------	--	--	-----------------------	-------

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL-ZT8369	Overhead and Underground Relocations	Rationale: This project provides the means to move City Light system infrastructure, located in the public right-of-way for transportation projects, including street widening and street vacation projects. This means moving distribution lines to make way for construction of buildings, bridges, airport runways, tunnels, and for other utilities. This project moves electrical lines to accommodate or take advantage of transportation-related projects being constructed by other agencies. The project builds new and replaces old line segments, installs and replaces poles, and adds or renovates underground facilities to the distribution system, as necessary, to relocate distribution systems for transportation projects, street vacations, or other projects proposed by outside (non-City Light) agencies. Some projects are paid for by City Light and some are paid for by the requesting agencies. This project provides the means to move the system for transportation projects in the public right of way, including street widening and street vacation projects. Alternative(s): The do nothing alternative leaves the distribution of facilities in their current location, which would interfere with the projects of the other agencies.	System wide	\$9,358
MC-CL-ZT8470	Center City Connector Streetcar City Light	Rationale: This SDOT project was initially proposed as the 1st Ave Streetcar project in 2009, but was deferred in favor of the 1st Hill Connector line. It is now being proposed as part of a wider mobility improvement initiative to be implemented along with the Alaskan Way Viaduct program. Alternative(s): Since this transportation relocation work is required, the "do nothing" alternative does not apply. Given the importance of SCL's infrastructure in the proposed project area, SCL engineering & project management will work with SDOT & contracting personnel to insure that the project design chosen has minimal impact on SCL customers & ratepayers while meeting the overall project's goals.	City Wide	\$10
MC-CL-ZT8471	Sound Transit Lynnwood - City Light	Rationale: See alternatives. This is a legally required relocations project for SCL. Alternative(s): The Sound Transit Lynwood Link project is a mandatory distribution system relocations project for SCL. Pursuant to SCL's status as a utility operating in the public transportation right-of-way, SCL is required by Washington State law to facilitate construction of new transportation projects by other agencies, such as Sound Transit. Therefore, this is not an optional project for SCL.	City Wide	\$144

Appendix B: Capital Projects passing the \$5 million threshold with the 2024 appropriations.

Seattle Department of Parks and Recreation

Project ID: MC-PR-21001
Project Title: Park Land Acquisition and Leverage Fund
Location: Citywide
2024 Proposed Budget: 1,686,142

Description: This ongoing project provides funds for land acquisition, leveraging capital projects, pre-acquisition activities (including planning, title searches, appraisals, negotiations, and community involvement), associated with acquisitions of specified real property, and related work. The project also serves as a match to leverage other funding sources such as King County Conservation Futures.

Project ID: MC-PR-21002
Project Title: Park CommUNITY Fund
Location: Citywide
2024 Proposed Budget: 3,235,090

Description: This ongoing project provides funding to support community-initiated improvement or upgrade projects to parks and facilities; with a focus on neighborhoods with a history of racial disparities regarding access to green space and safety from environmental harms. No match is required from community groups applying for this funding. Seattle Parks and Recreation will develop and administer a process by which projects will be selected and funding recommendations made to the Superintendent by the Board of Parks and Recreation Commissioners (BPRC). This funding can be used as seed funding for outside grants and private fundraising, to support initial feasibility work, or implement small responsive improvements in collaboration with communities. This project number was formerly used for the Major Projects Challenge Fund and Equitable Park Development Fund.

Appendix B: Capital Projects passing the \$5 million threshold with the 2024 appropriations.

Project ID: MC-PR-21007
Project Title: Parks Central Waterfront Piers Rehabilitation
Location: Alaskan Way
2024 Proposed Budget: 22,273,000

Description: The Waterfront Park and Pier 62/63 are public park facilities that provide public access to Elliott Bay and host a range of public events, markets and performances. Both piers need a full seismic upgrade to meet current life safety codes, and Waterfront Park needs significant access improvements. Waterfront Park is envisioned as a flexible public recreation and open space. Pier 62/63 is anticipated to be more heavily programmed, with a flexible activity rink, events, and performances. The Department of Parks and Recreation (DPR) owns the piers, but the Office of the Waterfront will lead the rehabilitation. The Pier 62/63 Phase 1 Rebuild was substantially complete in July 2020 with Pier 62 now operational, the next phase will demolish Pier 63. This project is part of the overall Central Waterfront program. (Interfund Loan will be repaid with Local Improvement District Bonds.)

Project ID: MC-PR-31002
Project Title: Aquarium - Pier 59 Piling Replacement and Aquarium Redevelopment Debt Service
Location: 1483 Alaskan Wy
2024 Proposed Budget: 1,649,050

Description: This project supports debt service payments on 20-year Limited Tax General Obligation (LTGO) bonds that were issued in 2005 to pay for the replacement of the entire pier piling system of Pier 59, interior infrastructure improvements, and development of portions of the Aquarium by the Seattle Aquarium Society. The pier and Aquarium work was part of an overall plan to repair and redevelop the Aquarium and the Central Waterfront area, and to construct a new Aquarium entrance, exhibits, and visitor services on a portion of the pier. This work enhanced and extended the useful life of Pier 59 and the Aquarium.

Appendix B: Capital Projects passing the \$5 million threshold with the 2024 appropriations.

Project ID: MC-PR-41001
Project Title: Major Maintenance and Asset Management
Location: Citywide
2024 Proposed Budget: 25,429,597

Description: This ongoing project provides funding for asset renewal in parks and recreation facilities citywide, including athletic fields, play areas, swimming pools, trails, buildings, accessibility elements, outdoor infrastructure, and related work. This project also funds integrated asset management to track and forecast long-term asset and maintenance needs. Typical major maintenance improvements may include, but are not limited to renovating buildings, Americans with Disabilities (ADA) access improvements, replacing play area structures, forest, landscape, trail maintenance and improvements, swimming pool repairs, athletic field refurbishment, and installation of energy efficient lighting, and related major maintenance work. These projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, reclaim Parks property, and improve the overall park experience for the public.

Appendix B: Capital Projects passing the \$5 million threshold with the 2024 appropriations.

Seattle Department of Transportation

Project ID: MC-TR-C018
Project Title: Neighborhood Large Projects
Location: Citywide
2024 Proposed Budget: 3,658,284

Description: This program enhances the safety, quality and condition of the pedestrian and neighborhood environments. Typical improvements may include, but are not limited to, sidewalk construction, repairs and replacement, installation of curb bulbs or other traffic calming devices, and improvements to crosswalks. The projects are funded by the Move Seattle transportation levy and it is a triennial program. The projects funded are identified by the community and the Move Seattle Oversight Committee.

Project ID: MC-TR-C029
Project Title: Transit Corridor Improvements
Location: Citywide
2024 Proposed Budget: 4,054,860

Description: This program implements multimodal projects which improve transit reliability, access, safety, and convenience. The program focuses on corridors and projects identified in the Transit Master Plan. Funding from Move Seattle Levy and other local funding sources are used to leverage partnership opportunities.

Project ID: MC-TR-C033
Project Title: Arterial Asphalt & Concrete Program Phase II
Location: Citywide
2024 Proposed Budget: 17,516,690

Description: The Arterial Asphalt and Concrete Program maintains Seattle's arterial streets through resurfacing and reconstruction projects. The Department uses a pavement management system to track the condition of arterial street pavement, to develop maintenance needs and establish priorities, and to select the streets to be rehabilitated each year. This project improves the quality and condition of the City's arterials.

Appendix B: Capital Projects passing the \$5 million threshold with the 2024 appropriations.

Project ID:	MC-TR-C034
Project Title:	3rd Avenue Corridor Improvements
Location:	3rd AVE
2024 Proposed Budget:	3,200,000
Description:	This project makes multimodal improvements for the Third Avenue transit corridor in downtown Seattle, specifically focused on bus stop, streetscape, and transit street priority improvements, e.g. installation of Third Avenue and Denny Way transit only signal, on Third Avenue between S. Jackson Street and Denny Way.
Project ID:	MC-TR-C058
Project Title:	Pedestrian Master Plan - New Sidewalks
Location:	Citywide
2024 Proposed Budget:	6,295,453
Description:	This project enhances the pedestrian environment in Seattle's neighborhoods by dedicating funding to construct new sidewalks. The New Sidewalk Program draws funding from the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund to improve sidewalks and the pedestrian environment near schools. Additional funding is drawn from other sources to pay for new sidewalk construction near frequent transit routes.
Project ID:	MC-TR-C062
Project Title:	Bike Master Plan - Protected Bike Lanes
Location:	Citywide
2024 Proposed Budget:	17,377,258
Description:	This ongoing program implements the Seattle Bicycle Master Plan. Typical improvements may include installing protected bike lanes, bike lanes and sharrows, bicycle route signing, completing key links in the urban trails network, adding bicycle/pedestrian signals to complete the network, and reconstructing key sections of the trails. The goals of the program are to increase bicycle safety and access while reducing bicycle crashes. This program includes funding for street improvement and trail construction and is consistent with the focus in the City's Transportation Strategic Plan (TSP) on encouraging walking and biking. Life-to-date actuals may include the BMP spot improvements, Urban Trails, and Neighborhood Greenways, which were previously combined with this project's budget.

Appendix B: Capital Projects passing the \$5 million threshold with the 2024 appropriations.

Project ID: MC-TR-C072
Project Title: Alaskan Way Main Corridor
Location: Various
2024 Proposed Budget: 28,857,000

Description: This project designs and constructs the rebuilt Alaskan Way/Elliott Way surface streets and the adjoining pedestrian promenade along the Seattle waterfront following the demolition of the Alaskan Way Viaduct. The State of Washington has built a deep bore tunnel to replace the Alaskan Way Viaduct and has relocated State Route 99 into the tunnel. The City of Seattle is responsible for the Alaskan Way/Elliott Way surface street and the promenade. The project also includes replacement of and improvements to four key connections impacted by the Viaduct removal: Seneca Street, Columbia Street, and the Marion Street and Lenora Street pedestrian bridges. This project is part of the larger waterfront improvement program. Construction of these improvements began in 2019.

Project ID: MC-TR-C073
Project Title: Overlook Walk and East-West Connections Project
Location: Multiple
2024 Proposed Budget: 6,250,000

Description: Removing the Alaskan Way Viaduct provides the opportunity for the City to improve key connections between the downtown core and the waterfront. The specific east/west streets targeted for improving connections include: Bell Street, King Street, Main Street, Pike Street, Pine Street, Railroad Way, Union Street, Washington Street, and Yesler Way. In addition to these east/west street connections, the waterfront improvement program also includes Overlook Walk, which will provide a pedestrian-oriented connection between the waterfront, the Aquarium and Pike Place Market with ADA access, views, and public open spaces. This project is part of the overall waterfront improvement program. This project includes funding from the Waterfront Local Improvement District.

Project ID: MC-TR-C087
Project Title: SR-520 Project
Location: SR-520
2024 Proposed Budget: 1,971,000

Description: This project provides policy, planning, and technical analysis support to the Washington Department of Transportation's SR-520 project. This regional project includes the replacement of the SR-520 bridge with a six-lane bridge, new freeway interchanges at Montlake Boulevard and Lake Washington Boulevard, and other improvements.

1% for Art: A program administered by the Office of Arts and Culture (ARTS) that sets aside one percent of eligible City capital improvement project funds for the commission, purchase, and installation of artworks.

2000 Parks Levy (“Neighborhood Parks, Green Spaces, Trails, and Zoo Levy”): A \$198.2 million, eight-year levy lid lift passed by Seattle voters in November 2000. The levy is designed to fund more than 100 park, open space, and recreation projects throughout the city.

2008 Parks Levy (“Parks and Green Spaces Levy”): A \$145.5 million, six-year levy lid lift passed by Seattle voters in November 2008. The levy was designed to fund park and green space acquisition, capital expansion and renovation of parks, and park facilities throughout the city.

Americans with Disabilities Act (ADA): A comprehensive civil rights law for people with disabilities passed by the federal government in 1990.

Allocation: The expenditure amount planned for a project or service that requires additional legislative action, or “appropriation,” before expenditures are authorized.

Appropriation: A legal authorization granted by the City’s legislative authority (the City Council) to make expenditures and incur obligations for specific purposes.

Asset Preservation (also known as Major Maintenance): Capital improvement projects that involve major repairs or rehabilitation of existing City facilities.

Capital Improvement Program (CIP): Annual appropriations from specific funding sources are shown in the City’s budget for certain capital purposes, such as street improvements, building construction, and some types of facility maintenance. The CIP is a six-year allocation plan presented as a document separate from the Budget that details all projects, fund sources, and expenditure amounts including many multi-year projects that require funding beyond the one-year period of the annual Budget.

Capital Projects Funds: Funds with resources set aside to acquire or construct major capital facilities that allow the monitoring of revenues and expenditures of authorized voter approved and Councilmanic bonds and levies.

Capital Projects Passing the \$5 million threshold (Appendix B): Pursuant to the 1999 settlement agreement in CLEAN, et. al v. City of Seattle, the City has adopted policies regarding public notification when capital projects cross certain spending thresholds. Resolution 31203 updated those policies to require a list of all Capital Projects for which the City has cumulatively spent more than \$5 million with the adoption of the current annual Budget be published as an appendix to the Capital Improvement Program.

Community Development Block Grant (CDBG): An annual grant to Seattle and other local governments from the U.S. Department of Housing and Urban Development to support economic development projects, housing and services in low-income neighborhoods.

Comprehensive Drainage Plan: A Citywide drainage management program for capital improvements and ongoing maintenance. It establishes a monitoring program and identifies measures to control flooding and pollution, such as regulatory controls and public education.

Cumulative Reserve Fund (CRF): A source of ongoing local funding to support capital projects in general government departments. The CRF consists of two accounts: The Capital Projects Account and the Revenue Stabilization Account. The Capital Projects Account has three Funds: REET I Capital Projects Fund, REET II Capital Projects Fund, and the Unrestricted Cumulative Reserve Fund.

Design Build Operate (DBO): A non-conventional approach to implementation of major capital projects, wherein a single vendor is responsible for design, construction, and long-term operation of a facility.

Debt Service: Annual principal and interest payments that local government owes on money that it has borrowed.

Endangered Species Act (ESA): Legislation passed by the federal government in 1973 to conserve the ecosystems upon which endangered species depend upon and to conserve and recover listed species.

Fire Facilities and Emergency Response Levy: A \$167 million, eight-year levy lid lift, approved by voters in November 2003. The Levy includes funds for more than 40 projects to upgrade, renovate, or replace most of the City's fire stations, construct new support facilities for the Fire Department, construct a new Emergency Operations Center and Fire Alarm Center, procure two new fireboats and rehabilitate an existing one.

Fund Balance: The difference between the assets and liabilities of a fund. This incorporates the difference between the revenues and expenditures each year.

General Fund: A central fund into which most of the City's general tax revenues and discretionary resources are pooled and allocated to support many of the operations of City government. General Fund dollars appear in the CIP in two places: the General Fund contribution to the Cumulative Reserve Fund (if any) and appropriations to capital projects from a department's operating budget.

Geographic Information System (GIS): A tool that enables users to analyze and understand the spatial relationships among things that exist and occur in a location. The results of geographic analysis can be communicated with maps and/or reports.

Growth Management Act (GMA): Passed by the state legislature in 1990, the Growth Management Act encourages strategic land use planning and provides protection for environmentally sensitive areas.

Habitat Conservation Plan (HCP): A 50-year commitment by the City and Seattle Public Utilities to protect and restore the Cedar River Watershed.

Leadership in Energy and Environmental Design (LEED): A green building rating system for new and existing commercial, institutional, and multi-family residential buildings that evaluates environmental performance from a "whole building" perspective. There are four rating levels: Bronze, Silver, Gold, and Platinum.

Levy Lid Lift: An increase in regular property taxes for a general or designated purpose—for example, the 2008 Parks Levy.

Levy to Move Seattle: A nine-year, \$930 million-dollar levy passed by voters in November 2015. The levy provides funding to improve safety for all travelers, maintain streets and bridges, and invest in reliable, affordable travel options.

Limited Tax General Obligation (“LTGO” or “Councilmanic”) Bonds: Bonds that are issued by the City Council without voter approval. The debt service on these bonds is typically repaid from existing general government revenues or from revenues generated by the project(s) financed with the bonds.

Major Maintenance: See “Asset Preservation” above.

Municipal Art Plan: A plan prepared by the Office of Arts and Culture that establishes budgets for new 1% for Art program projects and describes the status of existing projects.

Neighborhood Matching Subfund (NMF): A fund administered by the Department of Neighborhoods to provide money to Seattle neighborhood groups and organizations for neighborhood-initiated improvement, organizing, or planning projects. The community’s contribution of volunteer labor, materials, professional services or cash is “matched” by cash from the fund.

Operating Budget: The portion of a budget that deals with recurring expenditures such as salaries, electric bills, postage, printing, paper supplies, and gasoline.

Public Works Trust Fund: A low-interest state revolving loan fund designed to help local governments with the repair, replacement, and rehabilitation of public works infrastructure.

REET I and REET II: The Real Estate Excise Tax (REET) is levied on all sales of real estate with the first 0.25% of the locally imposed tax going to REET I and the second 0.25% for REET II.

Seattle Metropolitan Park District: In August 2014, voters passed a ballot measure creating the Seattle Metropolitan Park District. The goal of the park district is to provide long-term, stable funding to support recreation programming, parks projects and the critical needs for investment in major and ongoing maintenance.

Unlimited Tax General Obligation (“UTGO” or “voted”) Bonds: Bonds issued after receiving approval by 60% of the voters in an election with at least 40% voter turnout. The debt service on these bonds is repaid from additional (“excess”) property tax revenues that voters approve as part of the bond measure.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to Proposition 1 as approved by Seattle voters in the 2020 general election; authorizing material scope changes to increase the share of Proposition 1 dollars that can be spent on transit capital projects intended to maximize operating efficiency of transit service purchased with Proposition 1 revenues.

WHEREAS, Ordinance 123397 established the Seattle Transportation Benefit District (STBD) for preserving and maintaining transportation infrastructure; improving public safety; implementing elements of the Seattle Transportation Strategic Plan and other planning documents; investing in bicycle, pedestrian, freight mobility, and transit enhancements; and providing people with choices to meet their mobility needs; and

WHEREAS, Revised Code of Washington (RCW) 36.73.160 requires the STBD to adopt a policy to address material changes to a project's cost, scope, and schedule; and

WHEREAS, in STBD Resolution 3, the Governing Board of the STBD approved a material change policy that addresses the procedures for approving changes to project cost, scope, and schedule; and

WHEREAS, by Ordinance 125070, The City of Seattle assumed the rights, powers, immunities, functions, and obligations of the STBD as authorized under RCW 36.74.030; and

WHEREAS, by Ordinance 126115, the City Council submitted a ballot measure ("Proposition 1") to Seattle voters to authorize up to a 0.15 percent sales and use tax for the purposes of funding transit and related transportation programs in Seattle; and

WHEREAS, on November 3, 2020, Proposition 1 was approved by an overwhelming majority of qualified

Seattle voters; and

WHEREAS, in December 2020, by Ordinance 126250, Council imposed the revenue measure authorized by the voters through the approval of Proposition 1; and

WHEREAS, in November 2022, by Ordinance 126718, Council increased the amount of Proposition 1 revenues that may be used annually to support the implementation of citywide capital improvements to enhance transit efficiency and reliability and passenger amenities from \$3 million to \$15 million; and

WHEREAS, the City intends to maximize the efficiency of transit service purchased with Proposition 1 revenues by increasing the authorized share of these revenues that can be spent on complementary transit capital projects; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Pursuant to the material change policy adopted by Seattle Transportation Benefit District (STBD) Resolution 3, later subsumed by The City of Seattle, the cost of the project authorized by Proposition 1 and Ordinance 126718 is expanded to increase from \$15 million to \$16.4 million the amount of Proposition 1 revenues that may be used annually to support the implementation of citywide capital improvements to enhance transit efficiency and reliability and passenger amenities intended to maximize the efficiency of transit service purchased with Proposition 1 funds.

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

Scheereen Dedman, City Clerk

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
Legislative	Chow/x4-4652	n/a

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title:

AN ORDINANCE relating to Proposition 1 as approved by Seattle voters in the 2020 general election; authorizing material scope changes to increase the share of Proposition 1 dollars that can be spent on transit capital projects intended to maximize operating efficiency of transit service purchased with Proposition 1 revenues.

Summary and Background of the Legislation:

In November 2020, Seattle voters approved a 0.15 percent sales tax to fund additional transit service, transit infrastructure, access to transit, and emerging mobility needs. The allowable uses of the sales tax revenue include:

- A. Service hours on King County Metro operated services;
- B. King County Metro transit service hours on RapidRide lines;
- C. Up to \$10 million annually to support access to transit;
- D. Up to \$3 million annually to support infrastructure maintenance and capital improvements to maximize the efficiency of transit operations, including enhancements to transit speed, passenger amenities, transit street pavement maintenance, and reliability of transit service operated by King County Metro within Seattle; and
- E. Up to \$9 million annually to support emerging mobility needs related to COVID-19 response and recovery, and closure of the West Seattle High Bridge.

In November 2022, the Council passed Ordinance 126718, increasing the annual maximum that can be spent on infrastructure maintenance and capital improvements (item D) from \$3 million to \$15 million.

This legislation increases the annual maximum that can be spent on infrastructure maintenance and capital improvements (item D) from \$15 million to \$16.4 million.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

The legislation allows the City to increase the amount of spending on transit capital infrastructure. Actual spending will be governed by the approved budget.

Are there financial costs or other impacts of *not* implementing the legislation?

No impacts identified.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
SDOT is responsible for implementing Proposition 1.
- b. **Is a public hearing required for this legislation?**
Yes. A public hearing is scheduled for November 13, 2023 as part of the City Council's budget process.
- c. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- d. **Does this legislation affect a piece of property?**
No.
- e. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
No specific impacts identified.
- f. **Climate Change Implications**
- 1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No specific impacts identified.
 - 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**
No specific impacts identified.
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**
SDOT reports annual progress on Proposition 1 implementation. As King County Metro has experienced limitations on the amount of additional service that Seattle could purchase, additional revenue is available to fund transit capital projects.

Summary Attachments (if any):
None.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the electric system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing municipal light and electric power generation, transmission, and distribution system of the City; authorizing the issuance and sale of municipal light and power revenue bonds for the purposes of providing funds to pay part of the cost of carrying out that system or plan, providing for the reserve fund requirement (if necessary), and paying the costs of issuance of the bonds; providing parameters for the Bond Sale Terms including conditions, covenants, and other sale terms; describing the lien of the bonds and authorizing their issuance as either senior lien parity bonds or junior lien bonds; and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle (the “City”) owns, operates, and maintains a municipal light and electric power generation, transmission, and distribution system (the “Light System”) which Light System from time to time requires various additions, improvements, betterments, and extensions; and

WHEREAS, the City needs to acquire and construct certain additions, improvements, and betterments to and extensions of the Light System (the “Plan of Additions”) as described in this ordinance, and needs to borrow funds to pay a portion of the costs of carrying out such Plan of Additions; and

WHEREAS, the City currently has outstanding certain municipal light and power revenue bonds (as identified in Exhibit A to this ordinance, the “Outstanding Parity Bonds”) having a charge and lien upon Gross Revenues of the Light System available after payment of Operating and Maintenance Expense (“Net Revenue”) prior and superior to all other charges whatsoever; and

WHEREAS, pursuant to the Outstanding Parity Bond Ordinances identified in Exhibit A to this ordinance, the City reserved the right to issue additional municipal light and power revenue bonds having a lien and charge on Net Revenue of the Light System on parity with the lien and charge of the Outstanding Parity

Bonds (“Future Parity Bonds”), upon satisfaction of certain conditions (the “Parity Conditions”); and WHEREAS, pursuant to the Outstanding Parity Bond Ordinances, the City also reserved the right to issue additional municipal light and power revenue bonds or other obligations having a lien and charge on Net Revenue of the Light System that is junior and subordinate to the lien and charge of the Outstanding Parity Bonds (the “Junior Lien Bonds”); and

WHEREAS, after due consideration, the City has determined that it is in the best interest of the City and its ratepayers to authorize, subject to the provisions of this ordinance, the issuance and sale of municipal light and power revenue bonds as either Parity Bonds or Junior Lien Bonds to pay part of the cost of the Plan of Additions, to provide for the reserve fund requirement (if necessary), and to pay the costs of issuance of those bonds; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** In this ordinance, the following capitalized terms shall have the meanings set forth in this section.

“**Accreted Value**” means with respect to any Capital Appreciation Bond, (a) as of any Valuation Date, the amount determined for such Valuation Date in accordance with the applicable Bond Documents, and (b) as of any date other than a Valuation Date, the sum of (i) the Accreted Value on the preceding Valuation Date and (ii) the product of (A) a fraction, the numerator of which is the number of days having elapsed from the preceding Valuation Date and the denominator of which is the number of days from such preceding Valuation Date to the next succeeding Valuation Date, calculated based on the assumption that Accreted Value accrues during any semiannual period in equal daily amounts on the basis of a year of 12 30-day months, and (B) the difference between the Accreted Values for such Valuation Dates.

“**Adjusted Net Revenue**” means Net Revenue, less any deposits into the Rate Stabilization Account and plus any withdrawals from the Rate Stabilization Account. In calculating Net Revenue, the City may include the Tax Credit Subsidy Payments the City expects to receive from the federal government in respect to

the interest on any Tax Credit Subsidy Bonds (or with respect to which the federal government will provide direct payments). In a Parity Certificate, Adjusted Net Revenue is subject to further adjustment as set forth in subsection 18(a)(ii) of this ordinance. In a Junior Lien Coverage Certificate, Adjusted Net Revenue is subject to further adjustment as set forth in subsection 18(b)(ii) of this ordinance.

“Alternate Reserve Security” means Qualified Insurance or a Qualified Letter of Credit that is used by the City to satisfy part or all of the Reserve Fund Requirement, and that is not cancelable on less than five years’ notice.

“Annual Debt Service” means, with respect to either Parity Bonds (or a series of Parity Bonds) (**“Annual Parity Bond Debt Service”**) or Junior Lien Bonds (or a series of Junior Lien Bonds) (**“Annual Junior Lien Debt Service”**), as applicable, the sum of the amounts required in a calendar year to pay the interest due in such calendar year (excluding interest to be paid from the proceeds of the sale of bonds), the principal of Serial Bonds maturing in such calendar year, and the Sinking Fund Requirements for any Term Bonds due in such calendar year. Additionally, for purposes of this definition:

(a) **Calculation of Interest Due - Generally.** Except as otherwise provided in this definition, interest shall be calculated based on the actual amount of accrued, accreted, or otherwise accumulated interest that is payable in respect of the relevant series of Parity Bonds or Junior Lien Bonds, as applicable, taken as a whole, at the rate or rates set forth in the applicable Bond Documents.

(b) **Capital Appreciation Bonds.** The principal and interest portions of the Accreted Value of Capital Appreciation Bonds becoming due at maturity or by virtue of a Sinking Fund Requirement shall be included in the calculations of accrued and unpaid and accruing interest or principal in such manner and during such period of time as is specified in the Bond Documents applicable to such Capital Appreciation Bonds.

(c) **Variable Interest Rate Bonds.**

(i) **Assumed Interest on Variable Interest Rate Parity Bonds.** The amount of interest deemed to be payable on any series of Parity Bonds that are Variable Interest Rate Bonds shall be calculated under the

assumption that the interest rate on those bonds is equal to the highest 12-month rolling average of the SIFMA Municipal Swap Index over the preceding five years.

(ii) **Assumed Interest on Variable Interest Rate Junior Lien Bonds.** The amount of interest deemed to be payable on any series of Junior Lien Bonds that are Variable Interest Rate Bonds shall be calculated on the assumption that the interest rate on those bonds is equal to the highest 12-month rolling average (ending with the month preceding the date of the calculation) of the SIFMA Municipal Swap Index over the preceding five years.

(d) **Interest on Bonds with Respect to Which a Payment Agreement is in Force.** In general, debt service on any bonds (Parity Bonds or Junior Lien Bonds, as applicable) with respect to which a Payment Agreement is in force shall be based on the net economic effect on the City expected to be produced by the terms of the applicable Bond Documents and the terms of the Payment Agreement. For example, if the net effect of the Payment Agreement on a series of bonds otherwise bearing interest at a variable interest rate is to produce an obligation bearing interest at a fixed rate, the relevant series of bonds shall be treated as fixed rate bonds. And if the net effect of the Payment Agreement on a series of bonds otherwise bearing interest at a fixed interest rate is to produce an obligation bearing interest at a variable interest rate, the relevant series of bonds shall be treated as Variable Interest Rate Bonds.

Accordingly, the amount of interest deemed to be payable on any series of Parity Bonds (or Junior Lien Bonds, as applicable) with respect to which a Payment Agreement is in force shall be an amount equal to the amount of interest that would be payable at the rate or rates stated in or determined pursuant to the applicable Bond Documents, plus Payment Agreement Payments, minus Payment Agreement Receipts. For the purposes of calculating as nearly as practicable Payment Agreement Receipts and Payment Agreement Payments under a Payment Agreement that includes a variable rate component determined by reference to a pricing mechanism or index that is not the same as the pricing mechanism or index used to determine the variable rate interest component on the series of bonds to which the Payment Agreement is related, it shall be assumed that: (i) the

fixed rate used in calculating Payment Agreement Payments will be equal to 105 percent of the fixed rate specified by the Payment Agreement, and (ii) the pricing mechanism or index specified by the Payment Agreement is the same as the pricing mechanism or index specified by the applicable Bond Documents. Notwithstanding the other provisions of this definition, the City shall not be required to (but may in its discretion) take into account in determining Annual Debt Service the effects of any Payment Agreement that has a term of ten years or less.

(e) Parity Payment Agreements; Junior Lien Payment Agreements. For any period during which Payment Agreement Payments under a Parity Payment Agreement (or Junior Lien Payment Agreement, as applicable) are taken into account in determining Annual Debt Service on the related Parity Bonds (or Junior Lien Bonds, as applicable) under subsection (d) of this definition, no additional debt service shall be taken into account with respect to that Parity Payment Agreement (or Junior Lien Payment Agreement, as applicable). However, for any period during which Payment Agreement Payments are not taken into account under subsection (d) of this definition because the Parity Payment Agreement (or Junior Lien Payment Agreement, as applicable) is not then related to any Outstanding Parity Bonds (or Junior Lien Bonds, as applicable), payments on that Payment Agreement shall be taken into account by assuming:

(i) If City Is Obligated to Make Payments Based on a Fixed Rate. If the City is obligated to make Payment Agreement Payments based on a fixed rate and the Qualified Counterparty is obligated to make payments based on a variable rate index, it shall be assumed that payments by the City will be based on the assumed fixed payor rate, and that payments by the Qualified Counterparty will be based on a rate equal to the average rate determined by the variable rate index specified by the Payment Agreement during the four calendar quarters preceding the quarter in which the calculation is made.

(ii) If City Is Obligated to Make Payments Based on a Variable Rate Index. If the City is obligated to make Payment Agreement Payments based on a variable rate index and the Qualified Counterparty is obligated to make payments based on a fixed rate, it shall be assumed that payments by the City will be based

on a rate equal to the average rate determined by the variable rate index specified by the Payment Agreement during the four calendar quarters preceding the quarter in which the calculation is made, and that the Qualified Counterparty will make payments based on the fixed rate specified by the Payment Agreement.

(f) **Balloon Bonds.** In calculating Annual Debt Service for any series of Parity Bonds, the City may in its discretion treat the debt service requirements with respect to Parity Bonds that are Balloon Bonds (including principal of and interest on such bonds at the applicable rate or rates) as being amortized in approximately equal annual installments over a period equal to the longer of 30 years or the remaining term of such series of Parity Bonds.

In calculating Annual Debt Service for any series of Junior Lien Bonds, the City may in its discretion treat the debt service requirements with respect to Junior Lien Bonds that are Balloon Bonds (including principal of and interest on such bonds at the applicable rate or rates) as being amortized in approximately equal annual installments over a period equal to the longer of 30 years or the remaining term of such series of Junior Lien Bonds.

(g) **Adjustments for Defeased Bonds.** For purposes of determining compliance with the rate covenants set forth in subsections 17(a)(ii) and 17(b)(ii) of this ordinance, calculating the Reserve Fund Requirement, and making coverage ratio calculations in connection with the delivery of a Parity Certificate or Junior Lien Coverage Certificate, Annual Debt Service shall be adjusted as set forth in subsection 20(d) of this ordinance.

(h) **Reimbursement Obligations.** If any payment under a Parity Reimbursement Obligation is then due and payable, or is then reasonably expected to become due and payable, the reasonably estimated amount and timing of such payment, calculated in accordance with applicable generally accepted accounting principles and as reflected in the annual financial statements of the Light System, shall be included in calculating Annual Debt Service for purposes of delivering a Parity Certificate. If any payment under a Parity Reimbursement Obligation, an Intermediate Lien Reimbursement Obligation, or a Junior Lien Reimbursement Obligation is then due and payable, or is then reasonably expected to become due and payable, the reasonably estimated

amount and timing of such payment, calculated in accordance with applicable generally accepted accounting principles and as reflected in the annual financial statements of the Light System, shall be included in calculating Annual Junior Lien Debt Service for purposes of delivering a Junior Lien Coverage Certificate.

“Authorized Denomination” means \$5,000 or any integral multiple thereof within a maturity of a Series, or such other minimum authorized denominations as may be specified in the applicable Bond Documents.

“Average Annual Debt Service” means, for purposes of calculating the Reserve Fund Requirement with respect to all Parity Bonds outstanding at the time of calculation, the sum of the Annual Parity Bond Debt Service remaining to be paid to the last scheduled maturity of the applicable Parity Bonds, divided by the number of years such Parity Bonds are scheduled to remain outstanding.

“Balloon Bonds” means any series of either Parity Bonds or Junior Lien Bonds, as applicable, the aggregate principal amount (including Sinking Fund Requirements) of which becomes due and payable in any calendar year in an amount that constitutes 25 percent or more of the initial aggregate principal amount of such series.

“Beneficial Owner” means, with regard to a Bond, the owner of any beneficial interest in that Bond.

“Bond” means a municipal light and power revenue bond issued pursuant to this ordinance.

“Bond Counsel” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“Bond Documents” means (a) (i) with respect to any Series of the Bonds, this ordinance (including any amendatory or supplemental ordinances), (ii) with respect to a series of Parity Bonds other than a Series of the Bonds, the applicable Parity Bond Ordinance(s), and (iii) with respect to any Junior Lien Bonds other than a Series of the Bonds, the applicable Junior Lien Bond Ordinance(s); (b) the authenticated bond form; and (c) the written agreement(s) setting forth the Bond Sale Terms and additional terms, conditions, or covenants pursuant to which such bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale

resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance), (iii) a bond indenture or a fiscal agent or paying agent agreement (other than the State fiscal agency contract), and (iv) a direct purchase or continuing covenant agreement.

“Bond Owners’ Trustee” means a bank or trust company organized under the laws of the State, or a national banking association, appointed in accordance with subsection 24(e) of this ordinance to act as trustee on behalf of the owners, from time to time, of either the Outstanding Parity Bonds or the Outstanding Junior Lien Bonds, as the case may be.

“Bond Purchase Contract” means a written offer to purchase a Series of the Bonds pursuant to certain Bond Sale Terms, which offer has been accepted by the City in accordance with this ordinance. In the case of a competitive sale, the Purchaser’s bid for a Series, together with the official notice of sale and a Pricing Certificate confirming the Bond Sale Terms, shall comprise the Bond Purchase Contract.

“Bond Register” means the books or records maintained by the Bond Registrar for the purpose of registering ownership of each Bond.

“Bond Registrar” means the Fiscal Agent (unless the Director of Finance appoints a different person to act as bond registrar with respect to a particular Series), or any successor bond registrar selected in accordance with the System of Registration.

“Bond Sale Terms” means the terms and conditions for the sale of a Series of the Bonds approved by the Director of Finance consistent with the parameters set forth in Section 5 of this ordinance, including the amount, date or dates, denominations, interest rate or rates (or mechanism for determining the interest rate or rates), payment dates, final maturity, redemption rights, price, and other terms, conditions or covenants. In connection with a negotiated sale or private placement, the Bond Sale Terms shall be set forth in a Bond Purchase Contract; in connection with a competitive sale, the Bond Sale Terms shall be set forth in a Pricing Certificate.

“Book-Entry Form” means a fully registered form in which physical bond certificates are registered

only in the name of the Securities Depository (or its nominee), as Registered Owner, with the physical bond certificates held by and “immobilized” in the custody of the Securities Depository or its designee, where the system for recording and identifying the transfer of the ownership interests of the Beneficial Owners in those Bonds is neither maintained by nor the responsibility of the City or the Bond Registrar.

“Capital Appreciation Bond” means any Parity Bond or Junior Lien Bond, all or a portion of the interest on which is compounded and accumulated at the rates or in the manner, and on the dates, set forth in the applicable Bond Documents, and is payable only upon redemption or on the maturity date of such Capital Appreciation Bond. A Parity Bond or a Junior Lien Bond that is issued as a Capital Appreciation Bond, but which later converts to an obligation on which interest is paid periodically, shall be a Capital Appreciation Bond until the conversion date and thereafter shall no longer be a Capital Appreciation Bond, but shall be treated as having a principal amount equal to its Accreted Value on the conversion date. For purposes of (a) receiving payment of the redemption premium, if any, on a Capital Appreciation Bond that is redeemed prior to maturity, or (b) computing the principal amount of Parity Bonds (or Junior Lien Bonds, as applicable) held by the Owner of a Capital Appreciation Bond in connection with any notice, consent, request, or demand pursuant to this ordinance or for any purpose whatsoever, the principal amount of a Capital Appreciation Bond shall be deemed to be its Accreted Value at the time that such notice, consent, request, or demand is given or made.

“Capital Improvement Program” or “CIP” means the portion or portions of the “2023-2028 Capital Improvement Program” relating to the Light System adopted by the City in conjunction with approval of the 2023 budget by Ordinance 126725. The term CIP includes all future amendments and supplements to and all replacements or updates of the Light System portion of the 2023-2028 Capital Improvement Program, as well as those portions of any previously adopted capital improvement programs of the City relating to the Light System.

“City” means The City of Seattle, Washington.

“City Council” means the City Council of the City, as duly and regularly constituted from time to time.

“**Code**” means the Internal Revenue Code of 1986, or any successor thereto, as amended at any time, and regulations thereunder.

“**Conservation Plan**” means the 2022 Conservation Potential Assessment with respect to the Light System, reviewed by the City Council in connection with the adoption of Resolution 31932, to the extent that funds are appropriated by the City therefor. The term Conservation Plan includes all future amendments and supplements to and all replacements or updates of the 2022 Conservation Potential Assessment, as well as any previously adopted assessment of conservation potential.

“**Construction Account**” means such fund, subfund, or account within the Light Fund as may be designated from time to time by the Director of Finance for the payment of costs of the Plan of Additions.

“**Continuing Disclosure Agreement**” means, for each Series that is sold in an offering subject to federal securities regulations requiring a written undertaking to provide continuing disclosure, a continuing disclosure agreement entered into pursuant to Section 22 of this ordinance in substantially the form attached to this ordinance as Exhibit B.

“**DTC**” means The Depository Trust Company, New York, New York.

“**Defeasible Bonds**” means the Defeasible Parity Bonds and the Defeasible Junior Lien Bonds.

“**Defeasible Junior Lien Bonds**” means any outstanding Junior Lien Bonds that are eligible to be defeased pursuant to the Omnibus Defeasance Ordinance.

“**Defeasible Parity Bonds**” means any outstanding Parity Bonds that are eligible to be defeased pursuant to the Omnibus Defeasance Ordinance.

“**Deferred Hydroelectric Project Relicensing Costs**” means certain costs required by the Federal Energy Regulatory Commission to be incurred as a condition of the renewal of licenses for the Light System’s hydroelectric projects, which costs are treated in the same manner as capital expenditures.

“**Director of Finance**” or “**Director**” means the City’s Director of Finance or such other official who succeeds to substantially all of the responsibilities of that office.

“Event of Default” has the meaning given in Section 24 of this ordinance. A **“Parity Bond Event of Default”** shall refer to those Events of Default relating to nonpayment of Parity Bonds, or defaults in respect of the Parity Bond covenants set forth in this ordinance and in the applicable Parity Bond Documents giving rise to remedies available to the owners of Parity Bonds. A **“Junior Lien Bond Event of Default”** shall refer to those Events of Default relating to nonpayment of Junior Lien Bonds, or in respect of the Junior Lien Bond covenants set forth herein and in the applicable Junior Lien Bond Documents giving rise to remedies available to the owners of Junior Lien Bonds.

“Fiscal Agent” means the fiscal agent of the State, as the same may be designated by the State from time to time.

“Future Junior Lien Bonds” means, with reference to any Series designated as Junior Lien Bonds, any revenue obligations of the Light System issued or entered into after the Issue Date of such Series, the payment of which constitutes a charge and lien upon Net Revenue equal in priority with the charge and lien upon such Net Revenue for the payment of the amounts required to be paid into the Junior Lien Debt Service Fund to pay and secure payment of the Junior Lien Bonds (including Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations), in accordance with the priority of payment set forth in Section 14 of this ordinance. Future Junior Lien Bonds may include Junior Lien Payment Agreements issued in compliance with the Junior Lien Additional Bonds Test.

“Future Parity Bond Ordinance” means any ordinance passed by the City Council providing for the issuance and sale of a series of Future Parity Bonds, and any other ordinance amending or supplementing the provisions of any such ordinance.

“Future Parity Bonds” means, with reference to any Series designated as Parity Bonds, any revenue obligations of the Light System issued or entered into after the Issue Date of such Series, the payment of which constitutes a charge and lien upon Net Revenue equal in priority with the charge and lien upon such Net Revenue for the payment of the amounts required to be paid into the Parity Bond Fund and the Reserve Fund to

pay and secure payment of the Parity Bonds in accordance with Section 14 of this ordinance. Future Parity Bonds include Parity Payment Agreements, Parity Reimbursement Obligations, and any other obligations issued in compliance with the Parity Conditions.

“Government Obligations” means, unless otherwise limited in the Bond Documents for a particular Series of the Bonds, any government obligation as that term is defined in RCW 39.53.010, as amended at any time.

“Gross Revenues” means (a) all income, revenues, receipts and profits derived by the City through the ownership and operation of the Light System; (b) the proceeds received by the City directly or indirectly from the sale, lease or other disposition of any of the properties, rights or facilities of the Light System; (c) Payment Agreement Receipts, to the extent that such receipts are not offset by Payment Agreement Payments; and (d) the investment income earned on money held in any fund or account of the City, including any bond redemption funds and the accounts therein, in connection with the ownership and operation of the Light System. Gross Revenues do not include: (i) insurance proceeds compensating the City for the loss of a capital asset; (ii) income derived from investments irrevocably pledged to the payment of any defeased bonds payable from Gross Revenues; (iii) investment income earned on money in any fund or account created or maintained solely for the purpose of complying with the arbitrage rebate provisions of the Code; (iv) any gifts, grants, donations, or other funds received by the City from any State or federal agency or other person if such gifts, grants, donations, or other funds are the subject of any limitation or reservation imposed by the donor or grantor or imposed by law or administrative regulation to which the donor or grantor is subject, limiting the application of such funds in a manner inconsistent with the application of Gross Revenues hereunder; (v) the proceeds of any borrowing for capital improvements (or the refinancing thereof); and (vi) the proceeds of any liability or other insurance (excluding business interruption insurance or other insurance of like nature insuring against the loss of revenues).

“Intermediate Lien Reimbursement Obligation” means any payment or reimbursement obligation

incurred under a written agreement entered into in connection with a series of Parity Bonds or to obtain Qualified Insurance or a Qualified Letter of Credit, under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue junior in rank to the lien and charge upon such Net Revenue required to be paid into the Parity Bond Fund to pay and secure the payment of the Parity Bonds, but senior to the lien and charge upon such Net Revenue required to be paid into the Junior Lien Debt Service Fund to pay and secure the payment of the Junior Lien Bonds. For purposes of determining percentages of ownership of Bonds under this ordinance or under any Bond Documents, Intermediate Lien Reimbursement Obligations shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Intermediate Lien Reimbursement Obligations.

“Issue Date” means, with respect to a Bond, the initial date on which that Bond is issued and delivered to the initial Purchaser in exchange for its purchase price.

“Junior Lien Additional Bonds Test” means the conditions set forth in subsection 18(b) of this ordinance for issuing additional Junior Lien Bonds (including Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations).

“Junior Lien Bond” means, generally, any bond or obligation secured by a lien and charge on Net Revenue that is junior and subordinate to the lien and charge of the Parity Bonds and Intermediate Lien Reimbursement Obligations, but prior and superior to other liens and charges, in accordance with the priority of payment set forth in Section 14 of this ordinance. The term Junior Lien Bond may refer to (a) any Bond of a Series issued pursuant to this ordinance that is so designated by the Director of Finance upon satisfaction of the Junior Lien Additional Bonds Test; (b) any Future Junior Lien Bond; (c) any Junior Lien Payment Agreement; and (d) any Junior Lien Reimbursement Obligation.

“Junior Lien Bond Documents” means those Bond Documents applicable to a series of Junior Lien Bonds.

“Junior Lien Bond Ordinance” means this ordinance (if used in connection with the issuance of a

series of Junior Lien Bonds authorized hereby) and any future ordinance authorizing the issuance and sale of any Future Junior Lien Bonds, including any ordinance amending or supplementing the provisions of any Junior Lien Bond Ordinance.

“Junior Lien Coverage Certificate” means a certificate delivered pursuant to subsection 18(b)(ii) of this ordinance, for purposes of satisfying the Junior Lien Additional Bonds Test in connection with the issuance of Future Junior Lien Bonds.

“Junior Lien Debt Service Fund” means the special fund of the City known as the Seattle Municipal Light Revenue Junior Lien Debt Service Fund established within the Light Fund pursuant to Ordinance 125459 for the purpose of paying and securing the principal of and interest on Junior Lien Bonds and securing obligations under Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations.

“Junior Lien Payment Agreement” means any Payment Agreement that is entered into in compliance with the Junior Lien Additional Bonds Test, and under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required to be paid into the Junior Lien Debt Service Fund to pay and secure the payment of the Junior Lien Bonds in accordance with Section 14 of this ordinance. For purposes of determining percentages of ownership of Junior Lien Bonds under this ordinance or under any Bond Documents, Junior Lien Payment Agreements shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Junior Lien Payment Agreement.

“Junior Lien Reimbursement Obligation” means any reimbursement obligation incurred under a written reimbursement agreement (or similar agreement) entered into in connection with a series of Junior Lien Bonds to obtain Qualified Insurance or a Qualified Letter of Credit, under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required to be paid into the Junior Lien Debt Service Fund to pay and secure the payment of the Junior Lien Bonds. For purposes of determining percentages of ownership of Junior Lien Bonds under this

ordinance or under any Bond Documents, Junior Lien Reimbursement Obligations shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Junior Lien Reimbursement Obligations.

“Letter of Representations” means the Blanket Issuer Letter of Representations between the City and DTC dated October 4, 2006, as amended at any time, or an agreement with a substitute or successor Securities Depository.

“Light Fund” means the special fund of that name previously created and established by the City.

“Light System” means the municipal light and power generation, transmission, and distribution system now belonging to or that may later belong to the City.

“Maximum Annual Debt Service” means, with respect to Parity Bonds (or Junior Lien Bonds, as applicable), the maximum amount of Annual Debt Service that shall become due in the current calendar year or in any future calendar year with respect to those Parity Bonds (or Junior Lien Bonds, as applicable) that are outstanding as of the calculation date.

“MSRB” means the Municipal Securities Rulemaking Board.

“Net Revenue” for any period means Gross Revenues less Operating and Maintenance Expense.

“Omnibus Defeasance Ordinance” means Ordinance 126220, as amended at any time, authorizing the defeasance of Defeasible Bonds, or any future ordinance of the City pursuant to which the Bonds (or any Series of the Bonds) are designated as Defeasible Bonds.

“Omnibus Refunding Ordinance” means Ordinance 125460, as amended by Ordinance 125987 and as further amended at any time, authorizing the issuance of refunding bonds, or any future ordinance pursuant to which the Bonds (or any Series of the Bonds) are designated as Refundable Bonds.

“Operating and Maintenance Expense” means all reasonable charges incurred by the City in causing the Light System to be operated and maintained in good repair, working order and condition, including but not limited to all operating expenses under applicable generally accepted accounting principles included in the

annual audited financial statements of the Light System, except those excluded in this definition. Operating and Maintenance Expense does not include: (a) extraordinary, nonrecurring expenses of the Light System or any judgments or amounts to be paid in settlement of claims against the Light System; (b) non-cash expenses relating to a mark-to-market treatment of energy-related contracts; (c) any costs or expenses (including interest expense) for new construction, replacements, or renewals of Light System property; (d) Deferred Hydroelectric Project Relicensing Costs, the High Ross Capital Payments (as defined in the Outstanding Parity Bond Ordinances), or other similar payments under any agreement for the development or licensing of a capital improvement or asset, under which agreement the City agrees to make periodic payments in respect of its share of the capital expense; (e) any allowance for depreciation, amortization, or similar recognitions of non-cash expense items made for accounting purposes only (including non-cash pension expense); (f) any taxes levied by or paid to the City (or payments in lieu of taxes) upon the properties or earnings of the Light System; or (g) any obligation authorized pursuant to ordinance or resolution specifically excluding the payment of such obligation from Operating and Maintenance Expense.

“Outstanding Junior Lien Bonds” means, with reference to a particular Series of Junior Lien Bonds issued pursuant to this ordinance, those Junior Lien Bonds that are outstanding as of the Issue Date of such Series.

“Outstanding Parity Bond Ordinances” means the ordinances authorizing the various series of Outstanding Parity Bonds.

“Outstanding Parity Bonds” means, when referencing Parity Bonds outstanding as of the date of this ordinance, those outstanding Parity Bonds identified in Exhibit A to this ordinance. When used in reference to a particular date in the future or in reference to a particular series of Parity Bonds, Outstanding Parity Bonds shall mean those Parity Bonds that are outstanding as of that future date or as of the issue date of such series.

“Owner” means, without distinction, the Registered Owner and the Beneficial Owner of a Bond.

“Parity Bond” means, generally, any bond or obligation secured by a lien and charge on Net Revenue

that is prior and superior to any other liens or charges whatsoever, in accordance with the priority of payment set forth in Section 14 of this ordinance. The term Parity Bond may refer to: (a) the Outstanding Parity Bonds identified in Exhibit A to this ordinance; (b) each Series of the Bonds designated by the Director of Finance as a Series of Parity Bonds upon satisfaction of the Parity Conditions; (c) any Future Parity Bonds; and (d) any Parity Payment Agreement entered into upon satisfaction of the Parity Conditions.

“Parity Bond Documents” means those Bond Documents applicable to a series of Parity Bonds.

“Parity Bond Fund” means the special fund of the City known as the Seattle Municipal Light Revenue Parity Bond Fund established within the Light Fund pursuant to Ordinance 92938 for the purpose of paying and securing the payment of principal of and interest on Parity Bonds (including Parity Payment Agreement Payments) and payments under Parity Reimbursement Obligations.

“Parity Bond Ordinance” means any ordinance passed by the City Council providing for the issuance and sale of any Series of Parity Bonds, and any other ordinance amending or supplementing the provisions of any Parity Bond Ordinance.

“Parity Certificate” means a certificate delivered pursuant to subsection 18(a)(ii) of this ordinance, and the corresponding provisions of the Outstanding Parity Bond Ordinances, for purposes of satisfying the Parity Conditions in connection with the issuance of the Bonds and any Future Parity Bonds.

“Parity Conditions” means (a) for purposes of establishing that a Series of the Bonds may be issued on parity with the Parity Bonds outstanding as of the Issue Date of such Series, the conditions for issuing Future Parity Bonds set forth in the Parity Bond Ordinances relating to those Parity Bonds that are then outstanding; and (b) for purposes of issuing Future Parity Bonds on parity with a Series of the Bonds, the conditions described in the preceding clause (a) together with the conditions set forth in subsection 18(a) of this ordinance.

“Parity Payment Agreement” means a Payment Agreement that is entered into in compliance with the Parity Conditions and under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required to be paid into

the Parity Bond Fund and the Reserve Fund to pay and secure the payment of principal of and interest on Parity Bonds in accordance with Section 14 of this ordinance. For purposes of determining percentages of ownership of Parity Bonds under this ordinance or under any Bond Documents, Parity Payment Agreements shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Parity Payment Agreement.

“Parity Reimbursement Obligation” means any payment or reimbursement obligation incurred under a written agreement entered into in connection with a series of Parity Bonds or to obtain Qualified Insurance or a Qualified Letter of Credit (other than Qualified Insurance or a Qualified Letter of Credit obtained to satisfy all or part of the Reserve Fund Requirement), under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank to the lien and charge upon such Net Revenue required to be paid into the Parity Bond Fund to pay and secure the payment of the principal of and interest on the Parity Bonds. Parity Reimbursement Obligations accruing as a result of a mandatory tender for purchase of Parity Bonds shall be excluded from the calculation of Annual Debt Service for all purposes. For purposes of determining percentages of ownership of Parity Bonds, Parity Reimbursement Obligations shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Parity Reimbursement Obligation.

“Payment Agreement” means a written agreement entered into by the City and a Qualified Counterparty, as authorized by any applicable laws of the State, for the purpose of managing or reducing the City’s exposure to fluctuations or levels of interest rates, or for other interest rate, investment, or asset or liability management purposes, and which provides for (i) an exchange of payments based on interest rates, ceilings, or floors on such payments, (ii) options on such payments; (iii) any combination of the foregoing, or (iv) any similar device. A Payment Agreement may be entered into on either a current or forward basis. A Payment Agreement must be entered into in connection with (or incidental to) the issuance, incurrence, or carrying of particular bonds, notes, bond anticipation notes, commercial paper, or other obligations for

borrowed money (which may include leases, installment purchase contracts, or other similar financing agreements or certificates of participation in any of the foregoing).

“Payment Agreement Payments” means the amounts periodically required to be paid by the City to a Qualified Counterparty pursuant to a Payment Agreement.

“Payment Agreement Receipts” means the amounts periodically required to be paid by a Qualified Counterparty to the City pursuant to a Payment Agreement.

“Permitted Investments” means any investments or investment agreements permitted for the investment of City funds under the laws of the State, as amended at any time.

“Plan of Additions” means the system or plan of additions to and betterments and extensions of the Light System adopted by ordinance, including but not limited to the CIP, the Conservation Plan, and the Deferred Hydroelectric Project Relicensing Costs. The Plan of Additions includes all amendments, updates, supplements or replacements to the CIP, the Conservation Plan, and the Deferred Hydroelectric Project Relicensing Costs, all of which shall automatically constitute amendments to the Plan of Additions upon approval by ordinance. The Plan of Additions includes the purchase and installation of all materials, supplies, appliances, equipment (including but not limited to data processing hardware and software and conservation equipment) and facilities, the acquisition of all permits, licenses, franchises, property and property rights, other capital assets, and all engineering, consulting and other professional services and studies (whether performed by the City or by other public or private entities) necessary or convenient to carry out the Plan of Additions. The Plan of Additions also may be modified to include other improvements without amending the CIP, the Conservation Plan, and the Deferred Hydroelectric Project Relicensing Costs, if the City determines by ordinance that those amendments or other improvements constitute a system or plan of additions to or betterments or extensions of the Light System.

“Pricing Certificate” means a certificate executed by the Director of Finance as of the pricing date confirming the Bond Sale Terms for the sale of a Series of the Bonds to the Purchaser in a competitive sale, in

accordance with the parameters set forth in Section 5 of this ordinance.

“Professional Utility Consultant” means the independent person(s) or firm(s) selected by the City having a favorable reputation for skill and experience with electric systems of comparable size and character to the Light System in such areas as are relevant to the purposes for which they were retained.

“Purchaser” means the entity or entities who have been selected by the Director of Finance in accordance with this ordinance as underwriter, purchaser or successful bidder in a sale of any Series of the Bonds.

“Qualified Counterparty” means a party (other than the City or a person related to the City) who is the other party to a Payment Agreement and who is qualified to act as the other party to a Payment Agreement under any applicable laws of the State.

“Qualified Insurance” means any municipal bond insurance policy, surety bond, or similar credit enhancement device, issued by any insurance company licensed to conduct an insurance business in any state of the United States, by a service corporation acting on behalf of one or more such insurance companies, or by any other financial institution, the provider of which, as of the time of issuance of such credit enhancement device, is rated in one of the two highest rating categories (without regard to gradations within such categories) by at least two nationally recognized rating agencies.

“Qualified Letter of Credit” means any letter of credit, standby bond purchase agreement, or other liquidity facility issued by a financial institution for the account of the City in connection with the issuance of any Parity Bond or Junior Lien Bond, which institution maintains an office, agency or branch in the United States and, as of the time of issuance of such instrument, is rated in one of the two highest rating categories (without regard to gradations within such categories) by at least two nationally recognized rating agencies.

“Rate Stabilization Account” means the account of that name previously established in the Light Fund pursuant to Ordinance 121637.

“Rating Agency” means any nationally recognized rating agency then maintaining a rating on a Series

of the Bonds at the request of the City.

“Record Date” means, unless otherwise defined in the Bond Documents, in the case of each interest or principal payment date, the Bond Registrar’s close of business on the 15th day of the month preceding such interest or principal payment date. With regard to redemption of a Bond prior to its maturity, the Record Date shall mean the Bond Registrar’s close of business on the day prior to the date on which the Bond Registrar sends the notice of redemption to the Registered Owner(s) of the affected Bonds.

“Refundable Bonds” means the Refundable Parity Bonds and the Refundable Junior Lien Bonds.

“Refundable Junior Lien Bonds” means any then outstanding Junior Lien Bonds that are eligible to be refunded pursuant to the Omnibus Refunding Ordinance.

“Refundable Parity Bonds” means any then outstanding Parity Bonds that are eligible to be refunded pursuant to the Omnibus Refunding Ordinance.

“Refunding Junior Lien Bonds” means Future Junior Lien Bonds that satisfy the applicable Junior Lien Additional Bonds Test and are issued pursuant to the Omnibus Refunding Ordinance (or a Future Junior Lien Bond ordinance) for the purpose of refunding any Refundable Junior Lien Bonds.

“Refunding Parity Bonds” means Future Parity Bonds that satisfy the applicable Parity Conditions and are issued pursuant to the Omnibus Refunding Ordinance (or another Future Parity Bond Ordinance) for the purpose of refunding any Refundable Parity Bonds.

“Registered Owner” means, with respect to a Bond, the person in whose name that Bond is registered on the Bond Register. For so long as a Series of the Bonds is in Book-Entry Form under a Letter of Representations, the Registered Owner of such Series shall mean the Securities Depository.

“Reserve Fund” means that special fund of the City known as the Municipal Light and Power Bond Reserve Fund, established pursuant to Ordinance 71917 and maintained pursuant to the Outstanding Parity Bond Ordinances and this Ordinance as a separate account within the Light Fund to secure the payment of the Parity Bonds.

“Reserve Fund Requirement” means, for any Series of Bonds designated as Parity Bonds, the Reserve Fund Requirement established in the Bond Sale Terms for that Series and any other Series issued as part of a single “issue” of Parity Bonds, consistent with Section 15 of this ordinance. For any series of Future Parity Bonds, the Reserve Fund Requirement means the requirement specified for that series in the bond sale terms associated with that issue. The aggregate Reserve Fund Requirement for all Parity Bonds shall be the sum of the Reserve Fund Requirements for each series of Parity Bonds. For purposes of this definition, “issue” means all series of Parity Bonds issued and sold pursuant to a common set of bond sale terms. For the purposes of calculating the Reserve Fund Requirement only, the City shall deduct from Annual Debt Service the Tax Credit Subsidy Payments the City is scheduled to claim from the federal government in respect of the interest on a series of Parity Bonds that are Tax Credit Subsidy Bonds (or with respect to which the federal government is otherwise scheduled to provide direct payments).

“Rule 15c2-12” means Rule 15c2-12 promulgated by the SEC under the Securities Exchange Act of 1934, as amended at any time.

“SEC” means the United States Securities and Exchange Commission.

“SIFMA Municipal Swap Index” means the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index, calculated and published by Bloomberg and overseen by SIFMA’s Municipal Swap Index Committee, or a substantially similar recognized market successor index representing a seven-day market index comprised of certain high-grade tax-exempt variable rate demand obligations.

“Securities Depository” means DTC, any successor thereto, any substitute securities depository selected by the City, or the nominee of any of the foregoing. Any successor or substitute Securities Depository must be qualified under applicable laws and regulations to provide the services proposed to be provided by it.

“Serial Bond” means any Parity Bond or Junior Lien Bond maturing in a specified year, for which no Sinking Fund Requirements are mandated.

“Series” means, when capitalized in this ordinance, a series of the Bonds issued pursuant to this

ordinance.

“Sinking Fund Account” means (a) with respect to Parity Bonds, any account created in the Parity Bond Fund to amortize the principal or make mandatory redemptions of Parity Bonds that are Term Bonds; and (b) with respect to Junior Lien Bonds, any account created in the Junior Lien Debt Service Fund to amortize the principal or make mandatory redemptions of Junior Lien Bonds that are Term Bonds.

“Sinking Fund Requirement” means, for any calendar year, the principal portion (and required redemption premium, if any) of any Term Bond that is required to be purchased, redeemed, paid at maturity, or paid into any Sinking Fund Account for such calendar year, as established in the applicable Bond Documents.

“State” means the State of Washington.

“State Auditor” means the office of the Auditor of the State or such other department or office of the State authorized and directed by State law to make audits.

“System of Registration” means the system of registration for the City’s bonds and other obligations established pursuant to Seattle Municipal Code Chapter 5.10, as amended at any time.

“Tax Credit Subsidy Bond” means any Taxable Bond that is designated by the City as a tax credit bond pursuant to the Code and as a “qualified bond” under Section 6431 or similar provision of the Code, and with respect to which the City is eligible to claim a Tax Credit Subsidy Payment.

“Tax Credit Subsidy Payment” means a payment by the federal government with respect to a Tax Credit Subsidy Bond.

“Tax-Exempt Bond” means any Parity Bond or Junior Lien Bond the interest on which is intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“Taxable Bond” means any Parity Bond or Junior Lien Bond the interest on which is not intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“Term Bond” means any Parity Bond or Junior Lien Bond that is issued subject to mandatory redemption in periodic Sinking Fund Requirements prior to its maturity date.

“**Valuation Date**” means, with respect to any Capital Appreciation Bond, the date or dates, determined as set forth in the applicable Bond Documents, on which specific Accreted Values are assigned to that Capital Appreciation Bond.

“**Variable Interest Rate**” means any interest rate that fluctuates during the stated term of a bond (or during a stated period during which the bond is designated as a Variable Interest Rate Bond), whether due to a remarketing, a market index reset, or other mechanism set forth in the applicable Bond Documents. The Bond Documents for any Series of the Bonds bearing interest at a Variable Interest Rate shall set forth: (a) the available method(s) of computing interest (the “interest rate modes”); (b) the particular period or periods of time (or manner of determining such period or periods of time) for which each value of such Variable Interest Rate (or each interest rate mode) shall remain in effect; (c) provisions for conversion from one interest rate mode to another and for setting or resetting the interest rates; and (d) the time or times upon which any change in such Variable Interest Rate (or any conversion of interest rate modes) shall become effective.

“**Variable Interest Rate Bond**” means, for any period of time, any Parity Bond or Junior Lien Bond that bears interest at a Variable Interest Rate during that period. A bond shall not be treated as a Variable Interest Rate Bond if the net economic effect of (a) interest rates on a particular series of Parity Bonds (or Junior Lien Bonds, as applicable), as set forth in the applicable Bond Documents, and (b) either (i) interest rates on another series of Parity Bonds (or Junior Lien Bonds, as applicable) issued at substantially the same time, or (ii) a Payment Agreement related to that particular series, in either case, is to produce obligations that bear interest at a fixed interest rate. Any Parity Bond or Junior Lien Bond with respect to which a Payment Agreement is in force shall be treated as a Variable Interest Rate Bond if the net economic effect of the Payment Agreement is to produce an obligation that bears interest at a Variable Interest Rate.

Section 2. **Adoption of Plan of Additions**. The City specifies, adopts, and orders the Plan of Additions to be carried out as generally provided for in the documents comprising the Plan of Additions. The estimated cost of the Plan of Additions, as nearly as may be determined, is declared to be approximately \$2.7 billion, of

which approximately \$400 million is expected to be financed from proceeds of the Bonds and investment earnings thereon.

Section 3. **Authorization of Bonds; Due Regard Finding.**

(a) **The Bonds.** The City is authorized to issue municipal light and power revenue bonds payable from the sources described in Section 13 of this ordinance and secured as either Parity Bonds or Junior Lien Bonds, as determined by the Director of Finance in accordance with Section 5 of this ordinance. The Bonds may be issued in one or more Series in a maximum aggregate principal amount not to exceed the amount stated in Section 5 of this ordinance, for the purposes of: (a) paying a part of the cost of carrying out the Plan of Additions; (b) providing for the Reserve Fund Requirement (if necessary); (c) capitalizing interest on the Bonds (if necessary) and paying costs of issuance; and (d) carrying out other Light System purposes approved by ordinance. The Bonds may be issued in one or more Series and may be combined with other municipal light and power revenue bonds authorized separately. The Bonds shall be designated municipal light and power revenue bonds, shall be numbered separately and shall have any name, year, series, or other labels as deemed necessary or appropriate by the Director of Finance. Any Series of the Bonds designated as Junior Lien Bonds shall bear a designation clearly indicating that such Bonds are Junior Lien Bonds.

(b) **City Council Finding.** The City Council finds that, in creating the Parity Bond Fund, the Reserve Fund, and the Junior Lien Debt Service Fund (collectively, the “Bond Funds”), and in fixing the amounts to be paid into those funds in accordance with this ordinance and the parameters for the Bond Sale Terms set forth in Section 5 of this ordinance, the City Council has exercised due regard for the cost of operation and maintenance of the Light System, and is not setting aside into such Bond Funds a greater amount than in the judgment of the City Council, based on the rates established from time to time consistent with subsection 17(a)(ii) of this ordinance, will be sufficient, in the judgment of the City Council, to meet all expenses of operation and maintenance of the Light System and to provide the amounts previously pledged for the payment of all outstanding obligations payable out of Gross Revenues and pledged for the payment of the Bonds. Therefore,

the City Council finds that the issuance and sale of the Bonds is in the best interest of the City and is in the public interest.

Section 4. **Manner of Sale of the Bonds.** The Director of Finance may provide for the sale of each Series by competitive sale, negotiated sale, limited offering, or private placement, and may select and enter into agreements with remarketing agents or providers of liquidity with respect to Variable Interest Rate Bonds. The Purchaser of each Series shall be chosen through a selection process acceptable to the Director of Finance. The Director of Finance is authorized to specify a date and time of sale and a date and time for the delivery of each Series; in the case of a competitive sale, to provide an official notice of sale including bid parameters and other bid requirements, and to provide for the use of an electronic bidding mechanism; to provide for and determine matters relating to the forward or delayed delivery of a Series of the Bonds, if deemed desirable; and to specify such other matters and take such other action as in the Director's determination may be necessary, appropriate, or desirable in order to carry out the sale of each Series. Each Series must be sold on Bond Sale Terms consistent with the parameters set forth in Section 5 of this ordinance.

Section 5. **Appointment of Designated Representative; Bond Sale Terms.**

(a) **Designated Representative.** The Director of Finance is appointed to serve as the City's designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and this ordinance.

(b) **Parameters for Bond Sale Terms.** The Director of Finance is authorized to approve, on behalf of the City, Bond Sale Terms for the sale of the Bonds in one or more Series, and in connection with each such sale, to execute a Bond Purchase Contract (or, in the case of a competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with the following parameters:

(i) **Maximum Principal Amount.** This ordinance authorizes the issuance of Bonds in a maximum aggregate principal amount of not to exceed \$400 million.

(ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance. The initial Issue Date (without restricting any reissuance date) may not be later than December 31, 2026.

(iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

(iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, whichever is later, unless otherwise provided in the applicable Bond Documents. Each Series of the Bonds shall bear interest at one or more fixed interest rates or Variable Interest Rates. The true interest cost for any fixed rate Series may not exceed a rate of 10 percent per annum. The Bond Documents for any Series may provide for multiple interest rates and interest rate modes, and may provide conditions and mechanisms for the Director of Finance to effect a conversion from one mode to another. Nothing in this ordinance shall be interpreted to prevent the Bond Documents for any Series from including a provision for adjustments to interest rates during the term of the Series upon the occurrence of certain events specified in the applicable Bond Documents.

(v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director of Finance, which shall include payment at the maturity of each Bond; in accordance with any Sinking Fund Requirements applicable to Term Bonds; and otherwise in accordance with any redemption or tender provisions.

(vi) **Final Maturity.** Each Bond shall mature no later than 40 years after its Issue Date.

(vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption and tender provisions, as determined by the Director of Finance in the Director's discretion, consistent with Section 8 of this ordinance and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as subject to optional redemption prior to its maturity, consistent with subsection 8(a) of this ordinance. Any Bond that is subject to optional redemption prior to maturity must be callable on at least one or more date(s) occurring not

more than 10-1/2 years after the Issue Date.

(B) **Mandatory Redemption.** The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity on the dates and in principal payment amounts set forth as Sinking Fund Requirements, consistent with subsection 8(b) of this ordinance.

(C) **Extraordinary Redemption.** The Director of Finance may designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent with subsection 8(c) of this ordinance.

(D) **Tender Options.** The Director of Finance may designate any Variable Interest Rate Bond as subject to tender options, as set forth in the applicable Bond Documents.

(viii) **Price.** The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in the Director's judgment, the price that produces the most advantageous borrowing cost for the City for that Series, consistent with the parameters set forth of this ordinance and in any applicable bid documents.

(ix) **Other Terms and Conditions.**

(A) **Expected Life of Capital Facilities.** As of the Issue Date of each Series, the Director of Finance must find to the Director's satisfaction that the average expected life of the capital facilities to be financed with the proceeds (or allocable share of proceeds) of that Series exceeds the weighted average maturity of such Series (or share thereof allocated to financing those capital facilities).

(B) **Satisfaction of Parity Conditions or Junior Lien Additional Bonds Test.** For each Series of the Bonds, the Director of Finance must designate such Series of the Bonds as a series of either Parity Bonds or Junior Lien Bonds. For a Series to be designated as Parity Bonds, the Director of Finance must find to the Director's satisfaction that, as of the Issue Date, the Parity Conditions have been met or satisfied so that such Series is permitted to be issued as Parity Bonds. For a Series to be designated as Junior Lien Bonds, the

Director of Finance must find to the Director's satisfaction that, as of the Issue Date, the Junior Lien Additional Bonds Test has been met or satisfied so that such Series is permitted to be issued as Junior Lien Bonds.

(C) **Additional Terms, Conditions, and Agreements.** The Bond Sale Terms for any Series may provide for Qualified Insurance, a Qualified Letter of Credit or other liquidity facility, Parity Reimbursement Obligation, Intermediate Lien Reimbursement Obligation, Junior Lien Reimbursement Obligation, or any other Payment Agreement as the Director of Finance may find necessary or desirable, and may include such additional terms, conditions, and covenants as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of any of the Bonds); provisions for the conversion of interest rate modes; provisions for the reimbursement of a credit enhancement provider or Qualified Counterparty; and requirements to give notice to or obtain the consent of a credit enhancement provider or a Qualified Counterparty. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants.

(D) **Parity Bond Reserve Fund Requirement.** The Bond Sale Terms for any Series of Parity Bonds must establish the Reserve Fund Requirement for such Series and must set forth the method for satisfying any such requirement, consistent with Section 15 of this ordinance and the Parity Conditions. The Reserve Fund Requirement for any such Series may not be set at a level that would cause the aggregate Reserve Fund Requirement to exceed the least of (1) 125 percent of Average Annual Debt Service on all Parity Bonds outstanding, (2) Maximum Annual Debt Service on all Parity Bonds outstanding, or (3) 10 percent of the proceeds of the outstanding Parity Bonds.

(E) **Tax Status of the Bonds.** The Director of Finance may designate any Series of the Bonds as Tax-Exempt Bonds, Taxable Bonds, or Tax Credit Subsidy Bonds, consistent with Section 21 of this ordinance.

Section 6. **Bond Registrar; Registration and Transfer of Bonds.**

(a) **Registration and Bond Registrar.** The Bonds shall be issued only in registered form as to both principal and interest and shall be recorded on the Bond Register. The Fiscal Agent is appointed to act as Bond Registrar for each Series of the Bonds, unless otherwise determined by the Director of Finance.

(b) **Transfer and Exchange of Bonds.** The Bond Registrar shall keep, or cause to be kept, sufficient books for the registration and transfer of the Bonds, which shall be open to inspection by the City at all times. The Bond Register shall contain the name and mailing address of the Registered Owner of each Bond and the principal amount and number of each of the Bonds held by each Registered Owner.

The Bond Registrar is authorized, on behalf of the City, to authenticate and deliver Bonds transferred or exchanged in accordance with the provisions of the Bonds and this ordinance, to serve as the City's paying agent for the Bonds, and to carry out all of the Bond Registrar's powers and duties under this ordinance and the System of Registration.

The Bond Registrar shall be responsible for its representations contained in the Bond Registrar's certificate of authentication on the Bonds. The Bond Registrar may become an Owner of Bonds with the same rights it would have if it were not the Bond Registrar and, to the extent permitted by law, may act as depository for and permit any of its officers or directors to act as members of, or in any other capacity with respect to, any committee formed to protect the rights of Owners.

Bonds surrendered to the Bond Registrar may be exchanged for Bonds in any Authorized Denomination of an equal aggregate principal amount and of the same Series, seniority, interest rate, and maturity. Bonds may be transferred only if endorsed in the manner provided thereon and surrendered to the Bond Registrar. Any exchange or transfer shall be without cost to an Owner or transferee. The Bond Registrar shall not be obligated to exchange or transfer any Bond during the period between the Record Date and the corresponding interest payment or principal redemption date.

(c) **Securities Depository; Book-Entry Form.** Unless otherwise determined by the Director of Finance, the Bonds initially shall be issued in Book-Entry Form and registered in the name of the Securities

Depository. The Bonds so registered shall be held fully immobilized in Book-Entry Form by the Securities Depository in accordance with the provisions of the Letter of Representations. Neither the City nor the Bond Registrar shall have any responsibility or obligation to participants of the Securities Depository or the persons for whom they act as nominees with respect to the Bonds regarding the accuracy of any records maintained by the Securities Depository or its participants of any amount in respect of principal of or interest on the Bonds, or any notice that is permitted or required to be given to Registered Owners hereunder (except such notice as is required to be given by the Bond Registrar to the Securities Depository). Registered ownership of a Bond initially held in Book-Entry Form, or any portion thereof, may not be transferred except: (i) to any successor Securities Depository; (ii) to any substitute Securities Depository appointed by the City or such substitute Securities Depository's successor; or (iii) to any person if the Bond is no longer held in Book-Entry Form.

Upon the resignation of the Securities Depository from its functions as depository, or upon a determination by the Director of Finance to discontinue utilizing the then-current Securities Depository, the Director of Finance may appoint a substitute Securities Depository. If the Securities Depository resigns from its functions as depository and no substitute Securities Depository can be obtained, or if the Director of Finance determines not to utilize a Securities Depository, then the Bonds shall no longer be held in Book-Entry Form and ownership may be transferred only as provided in this ordinance.

Nothing in this ordinance shall prevent the Bond Sale Terms from providing that a Series of the Bonds shall be issued in certificated form without utilizing a Securities Depository, and that the Bonds of such Series shall be registered as of their Issue Date in the names of the Owners thereof, in which case ownership may be transferred only as provided in this ordinance.

(d) **Lost or Stolen Bonds.** In case any Bond or Bonds shall be lost, stolen, or destroyed, the Bond Registrar may authenticate and deliver a replacement Bond or Bonds of like amount, date, tenor, and effect to the Registered Owner(s) thereof upon the Registered Owner(s)' paying the expenses and charges of the City in connection therewith and upon filing with the Bond Registrar evidence satisfactory to the Bond Registrar that

such Bond or Bonds were actually lost, stolen or destroyed and of Registered Ownership thereof, and upon furnishing the City with indemnity satisfactory to both.

Section 7. **Payment of Bonds.**

(a) **Payment.** Each Bond shall be payable in lawful money of the United States of America on the dates and in the amounts as provided in the Bond Documents for that Series. Principal of and interest on each Bond designated as a Parity Bond shall be payable solely out of the Parity Bond Fund. Principal of and interest on each Bond designated as a Junior Lien Bond shall be payable solely out of the Junior Lien Debt Service Fund. The Bonds shall not be general obligations of the City. No Bonds of any Series shall be subject to acceleration under any circumstances.

(b) **Bonds Held in Book-Entry Form.** Principal of and interest on each Bond held in Book-Entry Form shall be payable in the manner set forth in the Letter of Representations.

(c) **Bonds Not Held in Book-Entry Form.** Interest on each Bond not held in Book-Entry Form shall be payable by electronic transfer on the interest payment date, or by check or draft of the Bond Registrar mailed on the interest payment date to the Registered Owner at the address appearing on the Bond Register on the Record Date. The City, however, shall not be required to make electronic transfers except pursuant to a request by a Registered Owner in writing received at least ten days prior to the Record Date and at the sole expense of the Registered Owner. Principal of each Bond not held in Book-Entry Form shall be payable upon presentation and surrender of the Bond by the Registered Owner to the Bond Registrar.

Section 8. **Redemption and Purchase of Bonds.**

(a) **Optional Redemption.** All or some of the Bonds of any Series may be subject to redemption prior to their stated maturity dates at the option of the City on the dates and terms set forth in the applicable Bond Documents.

(b) **Mandatory Redemption.** All or some of the Bonds of any Series may be designated as Term Bonds, subject to mandatory redemption in Sinking Fund Requirements, as set forth in the applicable Bond

Documents. If not redeemed or purchased at the City's option prior to maturity, Term Bonds (if any) must be redeemed, at a price equal to 100 percent of the principal amount to be redeemed, plus accrued interest, on the dates and in the years and Sinking Fund Requirements as set forth in the applicable Bond Documents.

If the City optionally redeems or purchases a principal portion of a Term Bond prior to its maturity, the principal amount so redeemed or purchased (irrespective of its redemption or purchase price) shall be credited against the remaining Sinking Fund Requirements for that Term Bond in the manner directed by the Director of Finance. In the absence of direction by the Director of Finance, credit shall be allocated among the remaining Sinking Fund Requirements for that Term Bond on a *pro rata* basis.

(c) Extraordinary Redemption. All or some of the Bonds of any Series may be subject to extraordinary optional redemption or extraordinary mandatory redemption prior to maturity upon the occurrence of an extraordinary event at the prices, in the principal amounts, and on the dates, all as set forth in the applicable Bond Documents.

(d) Selection of Bonds for Redemption; Partial Redemption. If fewer than all of the outstanding Bonds of a Series are to be redeemed at the option of the City, the Director of Finance shall select the maturity or maturities to be redeemed. If less than all of the principal amount of a maturity of the selected Series is to be redeemed and such Series is held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected for redemption by the Securities Depository in accordance with the Letter of Representations. If the Series selected for redemption is not then held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected by the Bond Registrar using such method of random selection as the Bond Registrar shall determine. All or a portion of the principal amount of any Bond that is to be redeemed may be redeemed in any applicable Authorized Denomination. If less than all of the outstanding principal amount of any Bond is redeemed, upon surrender of that Bond to the Bond Registrar there shall be issued to the Registered Owner, without charge, a new Bond (or Bonds, at the option of the Registered Owner) of the same Series, seniority, maturity, and interest rate in any Authorized Denomination in the aggregate principal amount to remain

outstanding.

(e) **Purchase.** The City reserves the right and option to purchase any or all of the Bonds at any time at any price acceptable to the City plus accrued interest to the date of purchase.

Section 9. **Notice of Redemption; Rescission of Notice.** Unless otherwise set forth in the applicable Bond Documents, the City must cause notice of any intended redemption of Bonds to be given not fewer than 20 nor more than 60 days prior to the date fixed for redemption by first-class mail, postage prepaid, to the Registered Owner of any Bond to be redeemed at the address appearing on the Bond Register on the Record Date, and the requirements of this sentence shall be deemed to have been fulfilled when notice has been mailed as so provided, whether or not it is actually received by the Owner of any Bond. Interest on Bonds called for redemption shall cease to accrue on the date fixed for redemption unless the Bond or Bonds called are not redeemed when presented pursuant to the call.

In the case of an optional or extraordinary optional redemption, the notice may state that the City retains the right to rescind the redemption notice and the related redemption of Bonds by giving a notice of rescission to the affected Registered Owners at any time on or prior to the scheduled redemption date. Any notice of optional redemption that is rescinded by the Director of Finance shall be of no effect, and the Bonds for which the notice of redemption has been rescinded shall remain outstanding.

Section 10. **Failure to Pay Bonds.** If any Bond is not paid when properly presented at its maturity or redemption date, the City shall be obligated to pay, solely from the sources pledged to that Bond in this ordinance, interest on that Bond at the same rate provided on that Bond from and after its maturity or redemption date until that Bond, principal (including redemption premium, if any) and interest, is paid in full or until sufficient money for its payment in full is on deposit in the Parity Bond Fund (if such Bond is a Parity Bond) or the Junior Lien Debt Service Fund (if such Bond is a Junior Lien Bond) and that Bond has been called for payment by giving notice of that call to the Registered Owner of that Bond. The exercise of remedies of Owners of the Bonds are limited as set forth in Section 24 of this ordinance.

Section 11. **Form and Execution of Bonds.** The Bonds shall be typed, printed, or reproduced in a form consistent with the provisions of this ordinance and State law; shall be signed by the Mayor and Director of Finance, either or both of whose signatures may be manual or in facsimile; and the seal of the City or a facsimile reproduction thereof shall be impressed or printed thereon.

Only Bonds bearing a certificate of authentication in substantially the following form (with the designation, year, and Series adjusted consistent with this ordinance) and manually signed by the Bond Registrar shall be valid or obligatory for any purpose or entitled to the benefits of this ordinance: “This Bond is one of the fully registered The City of Seattle, Washington, Municipal Light and Power [Improvement] Revenue Bonds, [Year], [Series and/or Seniority, if applicable], described in [this ordinance].” Junior Lien Bonds shall bear the words “Junior Lien” in their name in the foregoing certificate of authentication. The authorized signing of a certificate of authentication shall be conclusive evidence that the Bond so authenticated has been duly executed, authenticated, and delivered and is entitled to the benefits of this ordinance.

If any official whose manual or facsimile signature appears on a Bond ceases to be an official of the City authorized to sign bonds before the Bond bearing that official’s manual or facsimile signature is authenticated or delivered by the Bond Registrar or issued by the City, that Bond nevertheless may be authenticated, issued, and delivered and, when authenticated, issued, and delivered, shall be as binding on the City as though that person had continued to be an official of the City authorized to sign bonds. Any Bond also may be signed on behalf of the City by any person who, on the actual date of signing of the Bond, is an official of the City authorized to sign bonds, although that person did not hold the required office on the Issue Date of that Series of the Bonds.

Section 12. **Construction Account; Deposit of Proceeds.** The principal proceeds of the sale of each Series of the Bonds (other than amounts necessary to pay accrued interest (if any), to pay costs of issuance, and to provide for the Reserve Fund Requirement (if necessary) with respect to a Series of Parity Bonds) shall be deposited into the Construction Account (or such other fund or account as may be directed by the Director of

Finance) to be used for the purposes set forth in Section 3 of this ordinance. Until needed for such purposes, the City may invest principal proceeds and interest thereon temporarily in any Permitted Investments, and the investment earnings may, as determined by the Director of Finance, be either (a) retained in the Construction Account to be spent for the purposes of that account, or (b) deposited into the Parity Bond Fund or Junior Lien Debt Service Fund, as applicable.

Section 13. **Security for the Bonds; Designation as Parity Bonds or Junior Lien Bonds**. The Bonds shall not constitute general obligations of the City, the State or any political subdivision of the State or a charge upon any general fund or upon any money or other property of the City, the State or any political subdivision of the State not specifically pledged by this ordinance.

(a) **Parity Bonds**. Each Series of the Bonds that is designated as Parity Bonds shall be a special limited obligation of the City payable from and secured solely by Gross Revenues available after payment of Operating and Maintenance Expense (“Net Revenue”) and by money in the Parity Bond Fund and the Reserve Fund. Net Revenue is pledged to make the payments into the Parity Bond Fund and the Reserve Fund required by Sections 14 and 15 of this ordinance, which pledge shall constitute a lien and charge upon such Net Revenue prior and superior to all other charges whatsoever. Each Series of the Bonds designated as Parity Bonds shall be issued on parity with the Outstanding Parity Bonds and all Future Parity Bonds, without regard to date of issuance or authorization and without preference or priority of right or lien.

(b) **Junior Lien Bonds**. Each Series of the Bonds that is designated as Junior Lien Bonds shall be a special limited obligation of the City payable from and secured solely by Net Revenue and by money in the Junior Lien Debt Service Fund. Net Revenue is pledged to make the payments into the Junior Lien Debt Service Fund required by Sections 14 and 16 of this ordinance, which pledge shall constitute a lien and charge upon such Net Revenue (i.e., Gross Revenues available after payment of Operating and Maintenance Expense of the Light System pursuant to subsection 14(a) of this ordinance) that is (i) subordinate only to the payments to be made into the Parity Bond Fund required by subsections 14(b) through (d) of this ordinance, and (ii) prior

and superior to all other charges whatsoever. Each Series of the Bonds designated as Junior Lien Bonds shall be issued on parity with the lien and charge of any then outstanding Junior Lien Bonds and all Future Junior Lien Bonds, without regard to date of issuance or authorization and without preference or priority of right or lien. Nothing in this ordinance prevents the City from issuing revenue bonds or other obligations that are a charge or lien upon Net Revenue subordinate to the payments required to be made into the Junior Lien Debt Service Fund and the Reserve Fund, and any subfund, account, or subaccount within the foregoing funds.

Section 14. **Priority Expenditure of Gross Revenues; Flow of Funds.** Gross Revenues shall be deposited as received in the Light Fund and used for the following purposes only, in the following order of priority:

(a) To pay the Operating and Maintenance Expense of the Light System;

(b) To make, when due, all payments into the Parity Bond Fund required to be made in order to pay the interest on and principal of all Parity Bonds, including all Parity Bond Sinking Fund Requirements, and all net payments under Parity Payment Agreements, and to make all payments required to be made (if any) in respect of Parity Reimbursement Obligations;

(c) To make all payments required to be made (if any) into the Reserve Fund necessary to satisfy the Reserve Fund Requirement, to make all payments (if any) required to be made under subsection 15(c)(i)(B) of this ordinance into a special account within the Light Fund for the replacement of an Alternate Reserve Security as to which the City has received a notice of cancellation, and to pay any reimbursement obligations under any Alternate Reserve Security;

(d) To make all payments required to be made (if any) in respect of Intermediate Lien Reimbursement Obligations;

(e) To make all payments into the Junior Lien Debt Service Fund required to be made in order to pay the interest on and principal of all Junior Lien Bonds, including all net payments under Junior Lien Payment Agreements and all Junior Lien Reimbursement Obligations, when due;

(f) To make all required payments into any revenue bond redemption fund created to pay and secure the payment of the principal of and interest on any revenue bonds or short-term obligations of the City having a charge and lien upon Net Revenue subordinate to the lien thereon for the payment of the principal of and interest on the Parity Bonds and the Junior Lien Bonds; and

(g) Without priority, for any of the following purposes: to retire by redemption or purchase any outstanding revenue bonds or revenue obligations of the Light System; to make necessary additions, betterments, repairs, extensions, and replacements of the Light System; to pay City taxes or other payments in lieu of taxes payable from Gross Revenues; to make deposits to the Rate Stabilization Account; or for any other lawful Light System purpose.

Section 15. **Parity Bond Fund; Reserve Fund**. The special funds of the City known as the Parity Bond Fund and the Reserve Fund have been previously created and shall be maintained as special funds for the sole purpose of paying the principal of (including redemption premium, if any) and interest on the Parity Bonds as the same shall become due. The Director of Finance may create subfunds, accounts, or subaccounts in the Parity Bond Fund and the Reserve Fund to pay or secure the payment of Parity Bonds as long as the maintenance of such subfunds, accounts, or subaccounts does not conflict with the rights of the owners of the Parity Bonds. Principal of (including redemption premium, if any) and interest on the Parity Bonds shall be payable solely out of the Parity Bond Fund.

(a) **Required Payments into the Parity Bond Fund and Reserve Fund.** So long as any Parity Bonds (including any Parity Payment Agreements or Parity Reimbursement Obligations) are outstanding, the City shall set aside and pay out of Net Revenue certain fixed amounts, without regard to any fixed proportion, namely:

(i) Into the Parity Bond Fund, on or prior to the respective dates on which such payments shall become due and payable, an amount sufficient, together with other money on deposit therein, to pay without priority or preference among the following items: (A) the interest (including net payments due under Parity

Payment Agreements) then due on the Outstanding Parity Bonds, (B) the maturing principal of the Outstanding Parity Bonds (including any Sinking Fund Requirements then due), and (C) any payments then due in respect of Parity Reimbursement Obligations; and

(ii) Into the Reserve Fund, an amount necessary to provide for the Reserve Fund Requirement within the time and manner required by this ordinance and the Bond Sale Terms, including all payments required to be made under subsection 14(c) of this ordinance.

To meet the required payments to be made into the Parity Bond Fund and the Reserve Fund, the Director of Finance may transfer any money from any funds or accounts of the City legally available therefor, except bond redemption funds, refunding escrow funds, or defeasance funds. The Director of Finance may provide for the purchase, redemption or defeasance of any Parity Bonds by the use of money on deposit in any subfund, account, or subaccount in the Parity Bond Fund or Reserve Fund, so long as the money remaining in those subfunds, accounts, or subaccounts is sufficient to satisfy the required deposits with respect to the remaining Parity Bonds.

(b) **Parity Bond Fund.** The Parity Bond Fund has been previously created for the sole purpose of paying the principal of and interest on the Parity Bonds as the same shall become due. Each Series of the Bonds designated as Parity Bonds shall be payable (including principal, Sinking Fund Requirements, redemption premium (if any), and interest) out of the Parity Bond Fund. Money in the Parity Bond Fund shall, to the fullest extent practicable and reasonable, be invested and reinvested at the direction of the Director of Finance solely in, and obligations deposited in such accounts shall consist of, Permitted Investments. Earnings on money and investments in the Parity Bond Fund shall be deposited in and used for the purposes of that fund.

(c) **Reserve Fund.** The Reserve Fund has been previously created for the purpose of securing the payment of the principal of and interest on all Parity Bonds (including all net payments due under any Parity Payment Agreements, if any). Money held in the Reserve Fund shall, to the fullest extent practicable and reasonable, be invested and reinvested at the direction of the Director of Finance solely in, and obligations

deposited in such accounts shall consist of, Permitted Investments. Earnings on money and investments in the Reserve Fund shall be deposited in that fund and credited against amounts required to be deposited therein until the Reserve Fund is fully funded, and thereafter such earnings shall be deposited in the Parity Bond Fund.

(i) **Reserve Fund Requirement.** The Bond Sale Terms for each Series of the Bonds shall establish the amount (if any) to be added to the aggregate Reserve Fund Requirement for such Series, and the method for providing for such incremental addition to the Reserve Fund deposit, subject to the following:

(A) In connection with the issuance of Future Parity Bonds, the City shall provide the amounts required for deposit into the Reserve Fund (1) at one time on the Issue Date, or (2) in periodic deposits of Net Revenue (or any other legally available source of funds), so that by five years from the date of such Future Parity Bonds there will have been paid into the Reserve Fund an amount that, together with the money already on deposit therein, will be at least equal to the Reserve Fund Requirement for the Parity Bonds scheduled to be outstanding at the end of that five-year period.

(B) The City may obtain one or more Alternate Reserve Securities for specific amounts required to be paid into the Reserve Fund. The amount available to be drawn upon under each such Alternate Reserve Security shall be credited against the amounts needed to satisfy the Reserve Fund Requirement. In the event of receipt of any notice of cancellation of an Alternate Reserve Security, the City shall (and, in preparation for the expiration of any such Alternate Reserve Security in accordance with its terms, the City may) either: (1) obtain a substitute Alternate Reserve Security in the amount necessary to satisfy the Reserve Fund Requirement on the date any such cancellation (or expiration) becomes effective, or (2) create a special account in the Light Fund and deposit therein amounts necessary to replace the Alternate Reserve Security upon its expiration or cancellation. In the case of receipt of a notice of cancellation, such periodic deposits are to be made on or before the 25th day of each of the 60 calendar months succeeding receipt of such notice, in an amount equal to 1/60 of the amount necessary (together with other money and investments then on deposit in the Reserve Fund) to satisfy the expected Reserve Fund Requirement on the date such cancellation shall

become effective, taking into account scheduled redemptions of Parity Bonds and disregarding any incremental additional amounts that may become necessary due to the issuance of Future Parity Bonds subsequent to the date of such notice of cancellation. Such amounts shall be transferred from Net Revenue available in the Light Fund after making provision for the required payments into the Parity Bond Fund, in accordance with Section 14 of this ordinance. Amounts on deposit in such special account are preliminarily earmarked for the replacement of such Alternate Reserve Security and shall not be available to pay debt service on Parity Bonds or for any other purpose of the City, and shall be transferred to the Reserve Fund on the effective date of any cancellation or expiration of the Alternate Reserve Security to make up the deficiency caused thereby. In the event that the Reserve Fund is completely depleted and all Alternate Reserve Securities have been fully drawn, the amounts in that special account may be withdrawn and treated as Gross Revenues available to be used in accordance with the flow of funds set forth in Section 14 of this ordinance. If and when a substitute Alternate Reserve Security having a sufficient value or policy limit is obtained, amounts held in that special account may be transferred back to the Light Fund and treated as Gross Revenues available to be used in accordance with the flow of funds set forth in Section 14 of this ordinance.

(C) If the amount on deposit in the Reserve Fund is less than the Reserve Fund Requirement (taking into account the five-year period referred to in paragraph (A) of this subsection), the City shall transfer to the Reserve Fund money in an amount sufficient to restore the Reserve Fund to the Reserve Fund Requirement within 12 months after the date of such deficiency. The City shall transfer such amount first from Net Revenue available in accordance with the priority of payment in Section 14 of this ordinance, and only thereafter from money in any construction fund or account established with respect to any issue of Parity Bonds, first taking money from the unrestricted portion thereof, then taking money from the restricted portion thereof. If the amount in the Reserve Fund is greater than the Reserve Fund Requirement, the City may then withdraw such excess from the Reserve Fund and deposit such excess in the Light Fund.

(ii) **Use of Reserve Fund to Refund Parity Bonds.** If any Parity Bonds are to be refunded, the

money set aside in the Reserve Fund to secure the payment of such Parity Bonds may be used to retire such Parity Bonds, or may be transferred to any reserve fund or account which may be created to secure the payment of any bonds issued to refund such Parity Bonds, as long as the money left remaining in the Reserve Fund is at least equal, together with all Alternate Reserve Securities, to the Reserve Fund Requirement.

(iii) **Use of Reserve Fund to Pay Debt Service.** If the money in the Parity Bond Fund is insufficient to meet maturing installments of either interest on or principal of and interest on the Parity Bonds (including net amounts payable under any Parity Payment Agreements), such deficiency shall be made up from the Reserve Fund by the withdrawal of money or proceeds of Alternate Reserve Securities, as the case may be. Any deficiency created in the Reserve Fund by reason of any such withdrawal or claim against an Alternate Reserve Security shall then be made up out of Net Revenue or out of any other legally available funds of the City.

(iv) **Withdrawals From Reserve Fund.** Money in the Reserve Fund may be withdrawn by the City for any lawful purpose as long as the aggregate of any money and Alternate Reserve Securities remaining on deposit in the Reserve Fund is at least equal to the Reserve Fund Requirement for the Parity Bonds then outstanding. The City reserves the right to substitute one or more Alternate Reserve Securities for money previously deposited in the Reserve Fund and to withdraw such excess to the extent described in the preceding sentence. Any withdrawals from subaccounts within the Reserve Fund shall be made on a pro rata basis, except when the terms of an Alternate Reserve Security require all cash and investments in the Reserve Fund to be withdrawn before any draw or claim is made on the Alternate Reserve Security, or unless the City receives an opinion of Bond Counsel to the effect that such pro rata withdrawal is not required to maintain the federal tax benefits (if any) of any then outstanding Parity Bonds issued as Tax-Exempt Bonds or Tax Credit Subsidy Bonds. If multiple Alternate Reserve Securities are on deposit in the Reserve Fund, draws on such Alternate Reserve Securities shall be made on a *pro rata* basis.

Section 16. **Junior Lien Debt Service Fund.**

(a) **Use of Junior Lien Debt Service Fund.** The Director of Finance is authorized (and, in conjunction with the issuance of Junior Lien Bonds, is directed) to create and maintain a special fund of the City known as the Junior Lien Debt Service Fund for the sole purpose of paying the principal of (including redemption premium, if any) and interest on the Junior Lien Bonds as the same shall become due. The Junior Lien Debt Service Fund shall consist of a Principal and Interest Account and such additional subfunds, accounts, or subaccounts as the Director of Finance may find it necessary or convenient to create in order to pay or secure the payment of Junior Lien Bonds, as long as the maintenance of such subfunds, accounts, or subaccounts does not conflict with the rights of the owners of the Junior Lien Bonds or the Parity Bonds.

Each Series of the Bonds designated as Junior Lien Bonds shall be payable (including principal, Sinking Fund Requirements, redemption premium (if any), and interest) out of the Junior Lien Debt Service Fund. Money in the Junior Lien Debt Service Fund shall, to the fullest extent practicable and reasonable, be invested and reinvested at the direction of the Director of Finance solely in, and obligations deposited in such accounts shall consist of, Permitted Investments. Earnings on money and investments in the Junior Lien Debt Service Fund shall be deposited in and used for the purposes of that fund.

(b) **Required Payments Into the Junior Lien Debt Service Fund.** So long as any Junior Lien Bonds (including any Junior Lien Payment Agreements) are outstanding, the City shall set aside and pay out of Net Revenue certain fixed amounts, without regard to any fixed proportion, namely, into the Principal and Interest Account of the Junior Lien Debt Service Fund, on or prior to the respective dates on which such payments shall become due and payable, an amount sufficient, together with other money on deposit therein, to pay the interest on and the principal of the Junior Lien Bonds, including net payments due on Junior Lien Payment Agreements and all payments under Junior Lien Reimbursement Obligations, as the same shall become due. To meet the required payments to be made into the Junior Lien Debt Service Fund, the Director of Finance may transfer any money from any funds or accounts of the City legally available therefor, except the Parity Bond Fund, the Reserve Fund, other bond redemption funds, refunding escrow funds, or defeasance funds. The Director of

Finance may provide for the purchase, redemption or defeasance of any Junior Lien Bonds by the use of money on deposit in any subfund, account, or subaccount in the Junior Lien Debt Service Fund, so long as the money remaining in those subfunds, accounts, or subaccounts is sufficient to satisfy the required deposits with respect to the remaining Junior Lien Bonds.

Section 17. **Bond Covenants.**

(a) **Parity Bond Covenants.** The City covenants with the Owner of each Bond that is designated as a Parity Bond, for so long as such Bond remains outstanding, as follows:

(i) **Sale or Disposition of the Light System.**

(A) The City may dispose of all or substantially all of the Light System only if the City simultaneously causes all of the Parity Bonds to be, or be deemed to be, no longer outstanding.

(B) Except as provided below, the City will not dispose of any part of the Light System in excess of 5 percent of the value of the net utility plant of the Light System in service unless prior to such disposition: (1) there has been filed with the Director of Finance a certificate of a Professional Utility Consultant stating that such disposition will not impair the ability of the City to comply with the rate covenant set forth in subsection 17(a)(ii) of this ordinance, in which the Professional Utility Consultant may make those assumptions permitted in delivering a Parity Certificate under subsection 18(a) of this ordinance; or (2) provision is made for the payment, redemption or other retirement of a principal amount of Parity Bonds equal to the greater of the following amounts: (I) an amount which will be in the same proportion to the net principal amount of Parity Bonds then outstanding (defined as the total principal amount of Parity Bonds then outstanding less the amount of cash and investments in the Parity Bond Fund) that Gross Revenues for the twelve preceding months attributable to the part of the Light System being sold or disposed of bears to the total Gross Revenues for such period; or (II) an amount which will be in the same proportion to the net principal amount of Parity Bonds then outstanding that the book value of the part of the Light System being sold or disposed of bears to the book value of the entire Light System immediately prior to such sale or disposition.

(C) Notwithstanding the foregoing, the City may dispose of any portion of the Light System that has become unserviceable, inadequate, obsolete, worn out or unfit to be used, or no longer necessary for, material to, or useful in the operation of the Light System.

(D) If the ownership of all or part of the Light System is transferred from the City through the operation of law, the City shall reconstruct or replace the transferred portion using any proceeds of the transfer unless the City Council determines that such reconstruction or replacement is not in the best interests of the City and the Owners of the Parity Bonds, in which case any proceeds shall be used to purchase, defease, or redeem Parity Bonds prior to maturity.

(ii) **Rates and Charges.** The City will establish from time to time and maintain such rates for electric energy as will maintain the Light System in sound financial condition and provide sufficient revenues to pay all Operating and Maintenance Expense, to pay into the Parity Bond Fund the amounts that are required by this ordinance to be applied to the payment of the principal of and interest on the Parity Bonds until the Parity Bonds shall have been paid in full, and to pay all bonds, warrants, and indebtedness for which any revenues of the Light System shall have been pledged.

(iii) **Operation and Maintenance of the Light System.** The City will operate the properties of the Light System in an efficient manner and at a reasonable cost; will maintain, preserve, and keep, or cause to be maintained, preserved, and kept, the properties of the Light System and every part and parcel thereof in good repair, working order, and condition; and from time to time will make or cause to be made all necessary and proper repairs, renewals and replacements thereto so that at all times the business carried on in connection therewith will be properly and advantageously conducted.

(iv) **Books and Financial Statements.** The City will keep and maintain proper books of account for the Light System in accordance with generally accepted accounting principles applicable to governmental utilities; will generally adhere to the uniform system of accounts prescribed by the State Auditor's Office and the Federal Energy Regulatory Commission (if any); and will prepare, on or before 180 days after the end of

each calendar year, annual financial statements showing reasonable detail, including a balance sheet, an income statement, and a statement of cash flows or other such statement. Copies of such financial statements shall be placed on file in the office of the Director of Finance and shall be open to inspection at any reasonable time by any owner of any Parity Bonds. A copy of such financial statements shall be sent to any owner of Parity Bonds upon request in writing setting forth the name and address to which such financial statements may be sent.

(b) Junior Lien Bond Covenants. The City covenants with the Owner of each Bond that is designated as a Junior Lien Bond, for so long as such Junior Lien Bond remains outstanding, as follows:

(i) Sale or Disposition of the Light System. The City may dispose of all or substantially all of the Light System only if the City simultaneously causes all of the Junior Lien Bonds to be, or be deemed to be, no longer outstanding. The City will not dispose of any part of the Light System in excess of 5 percent of the value of the net utility plant of the Light System in service except upon compliance with the covenant set forth in subsection 17(a)(i)(B) of this ordinance. Notwithstanding the foregoing, the City may dispose of any portion of the Light System that has become unserviceable, inadequate, obsolete, worn out or unfit to be used, or no longer necessary, material to, or useful in the operation of the Light System.

(ii) Rates and Charges. The City will establish from time to time and maintain such rates for electric energy as will maintain the Light System in sound financial condition and provide sufficient revenues to pay all Operating and Maintenance Expense; to pay into the Parity Bond Fund the amounts that are required by this ordinance to be applied to the payment of the principal of and interest on the Parity Bonds until the Parity Bonds shall have been paid in full; to pay into the Junior Lien Debt Service Fund the amounts that are required by this ordinance to be paid into such fund, in accordance with the priority of payment set forth in Section 14 of this ordinance, until the Junior Lien Bonds (including Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations) shall have been paid in full; and to pay all other bonds, warrants, and indebtedness for which any revenues of the Light System shall have been pledged.

(iii) Operation and Maintenance of the Light System. The City will operate the properties of

the Light System in an efficient manner and at a reasonable cost; will maintain, preserve and keep, or cause to be maintained, preserved and kept, the properties of the Light System and every part and parcel thereof in good repair, working order and condition; and from time to time will make or cause to be made all necessary and proper repairs, renewals, and replacements thereto so that at all times the business carried on in connection therewith will be properly and advantageously conducted.

(iv) **Books and Financial Statements.** The City will keep and maintain proper books of account for the Light System in accordance with generally accepted accounting principles applicable to governmental utilities; will generally adhere to the uniform system of accounts prescribed by the State Auditor's Office and the Federal Energy Regulatory Commission (if any); and will prepare, on or before 180 days after the end of each calendar year, annual financial statements showing reasonable detail, including a balance sheet, an income statement, and a statement of cash flows or other such statement. Copies of such financial statements shall be placed on file in the office of the Director of Finance and shall be open to inspection at any reasonable time by any owner of any Junior Lien Bonds. A copy of such financial statements shall be sent to any owner of Junior Lien Bonds upon request in writing setting forth the name and address to which such financial statements may be sent.

Section 18. **Additional Bonds.**

(a) **Future Parity Bonds.** The City reserves the right to issue Future Parity Bonds (which includes entering into Future Parity Payment Agreements or Future Parity Reimbursement Obligations) for any lawful purpose of the City's Light System if the Parity Conditions are met and complied with as of the date of issuance of such Future Parity Bonds, or as of the effective date of the Parity Payment Agreement or Parity Reimbursement Obligation, as appropriate.

If the Parity Conditions are met and complied with, then payments into the Parity Bond Fund with respect to such Future Parity Bonds shall rank equally with the payments out of Net Revenue required to be made into the Parity Bond Fund by this ordinance. Nothing in this subsection 18(a) shall prevent the City from

(i) issuing revenue bonds or other obligations that are a charge upon Net Revenue junior and inferior to the payments required to be made therefrom into the Parity Bond Fund for the payment of the Parity Bonds, provided that such subordinate obligations may not be subject to acceleration under any circumstances; or (ii) issuing Refunding Parity Bonds to refund maturing Parity Bonds of the City for the payment of which money is not otherwise available.

(i) **Parity Conditions.** The Parity Conditions are as follows:

(A) No deficiency may then exist in the Parity Bond Fund or in any of the accounts therein; and

(B) Provision must be made to satisfy the Reserve Fund Requirement for the Parity Bonds then outstanding plus any additional amount required (if any) in connection with the issuance and sale of the proposed Future Parity Bonds in accordance with subsection 15(c) of this ordinance; and

(C) There must be on file with the City a Parity Certificate as described in subsection 18(a)(ii) of this ordinance. If the proposed Future Parity Bonds (or any portion thereof) are to be issued for the purpose of refunding outstanding Parity Bonds and the Annual Debt Service on the refunding portion of the proposed Future Parity Bonds is not more than \$5,000 greater than the Annual Debt Service on the Parity Bonds to be refunded thereby, then no Parity Certificate shall be required as to that portion issued for refunding purposes. If the requirements of the preceding sentence are not satisfied, Refunding Parity Bonds may alternatively be issued upon delivery of a Parity Certificate.

(ii) **Parity Certificate.** A Parity Certificate required by subsection 18(a)(i) of this ordinance may be provided by either the Director of Finance or by a Professional Utility Consultant, as follows:

(A) A Parity Certificate may be prepared by the Director of Finance, demonstrating that the amount of Adjusted Net Revenue in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed series of Future Parity Bonds (the “Base Period”) was not less than 125 percent of Maximum Annual Debt Service in any future calendar year on all Parity Bonds then outstanding and the

proposed series of Future Parity Bonds. For the purposes of a Parity Certificate delivered under this subsection (A), the Director of Finance shall reflect in that certificate any adjustment in the rates, fees, and charges for the services of the Light System that will become effective at any time prior to or within six months after the delivery of the proposed Future Parity Bonds, by including in the amount of Adjusted Net Revenue the amount that the Director estimates would have been collected in the Base Period if such new rates, fees, and charges had been in effect for the entire Base Period.

(B) A Parity Certificate may be prepared by a Professional Utility Consultant, demonstrating that the amount of Adjusted Net Revenue (which may be further adjusted as provided in paragraphs (a)(ii)(B)(1) through (5) of this section) in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed Series of Future Parity Bonds (the “Base Period”) is not less than 125 percent of the amount of Maximum Annual Debt Service in any future calendar year on all Parity Bonds then outstanding and the proposed Future Parity Bonds. For the purposes of a certificate delivered under this subsection (a)(ii), Adjusted Net Revenue may be further adjusted by the Professional Utility Consultant using any or all of the following methods reflecting the conditions and requirements as may be appropriate to the circumstances:

(1) If the purpose for which the proposed Future Parity Bonds are being issued is to acquire operating electric utility properties having an earnings record, the Professional Utility Consultant shall estimate the effect on Adjusted Net Revenue for the Base Period of the acquisition of such electric utility properties and the integration thereof into the Light System, and shall further adjust Adjusted Net Revenue for the Base Period to give effect to such estimate. Any such estimate shall be based upon the operating experience and records of the City and upon any available financial statements and records relating to the earnings of such electric utility properties to be acquired.

(2) If any changes to rates, fees, or charges imposed by the City on sales of power, energy, or other services furnished by the Light System that were not in effect during the entire Base

Period have been adopted by the City Council and are in effect on the date of sale of the proposed Future Parity Bonds (or effective date of the proposed Parity Payment Agreement) or are to go into effect not later than 12 months after such date, the Professional Utility Consultant may, if such changes resulted in increases in such rates, fees, or charges, and shall, if such changes resulted in reductions in such rates, fees, or charges, further adjust Adjusted Net Revenue for the Base Period to reflect any change in such Adjusted Net Revenue that would have occurred if the changed rates, fees, or charges had been in effect during the entire Base Period.

(3) If the purpose for which the proposed Future Parity Bonds are being issued is to acquire or construct generation or transmission facilities required to furnish or make available to the Light System additional power and energy, or transmission facilities required to enable the City to sell additional power and energy, the Professional Utility Consultant may further adjust Adjusted Net Revenue for the Base Period by (I) deducting the amount of the estimated increase in Operating and Maintenance Expense resulting from the acquisition or construction of such facilities in their first year of full operation, (II) adding any additional revenues to be derived from the sale or transmission of such additional power and energy pursuant to executed power sales contracts, and (III) adding an amount equal to the estimated cost of the power and energy that would have been replaced or displaced by such facilities had such additional power and energy in excess of the power and energy to be sold pursuant to paragraph (a)(ii)(B)(2) of this section been used in the Light System during the Base Period.

(4) If any customers were added to the Light System during the Base Period or thereafter (and prior to the date of the Professional Utility Consultant's certificate), Adjusted Net Revenue may be further adjusted as if such added customers were customers of the Light System during the entire Base Period.

(5) If extensions of or additions to the Light System (not described in paragraph (a)(ii)(B)(3) of this section) are in the process of construction on the date of the Professional Utility Consultant's certificate, or if the proceeds of the proposed Future Parity Bonds are to be used to acquire or

construct extensions of or additions to the Light System (not described in paragraph (a)(ii)(B)(3) of this section), Adjusted Net Revenue for the Base Period may be further adjusted by adding any additional revenues not included in the preceding paragraphs that will be derived from such additions and extensions, and deducting the estimated increase in Operating and Maintenance Expense resulting from such additions and extensions.

In rendering any Parity Certificate under this subsection (a)(ii)(B), the Professional Utility Consultant may rely upon the following documents, which shall be attached to the Parity Certificate: financial statements of the Light System, certified by the Director of Finance, showing income and expenses for the period upon which the same are based and a balance sheet as of the end of such period; financial statements of the Light System certified by the Office of the State Auditor of the State (or any successor thereto); or financial statements of the Light System certified by a certified public accountant for as much of such period as any examination by such accountant has been made and completed. If two or more of such statements are inconsistent with each other, the Professional Utility Consultant shall rely on the statements certified by the Director of Finance.

(b) Future Junior Lien Bonds. The City reserves the right to issue Future Junior Lien Bonds (which term includes Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations) for any lawful purpose of the City's Light System if the Junior Lien Additional Bonds Test is met and complied with as of the date of issuance of such Future Junior Lien Bonds, or as of the effective date of the Junior Lien Payment Agreement or Junior Lien Reimbursement Obligation, as appropriate.

If the Junior Lien Additional Bonds Test is met and complied with, then payments into the Junior Lien Debt Service Fund with respect to such Future Junior Lien Bonds shall rank equally with the payments out of Net Revenue required to be made into the Junior Lien Debt Service Fund by this ordinance. Nothing in this subsection (b) shall prevent the City from (i) issuing revenue bonds or other obligations that are a charge upon Net Revenue junior and inferior to the payments required to be made therefrom into the Junior Lien Debt Service Fund for the payment of the Junior Lien Bonds, provided that such subordinate obligations may not be

subject to acceleration under any circumstances; or (ii) issuing Refunding Junior Lien Bonds for the purpose of refunding outstanding Junior Lien Bonds to fund or refund maturing Junior Lien Bonds of the City for the payment of which money is not otherwise available.

(i) **Junior Lien Additional Bonds Test.** The Junior Lien Additional Bonds Test is as follows:

(A) No deficiency may then exist in the Junior Lien Debt Service Fund or in any of the accounts therein; and

(B) No default may have occurred that is then continuing with respect to any then outstanding Parity Bonds or Junior Lien Bonds; and

(C) There must be on file with the City a Junior Lien Coverage Certificate as described in subsection 18(b)(ii) of this ordinance. If the proposed Future Junior Lien Bonds (or any portion thereof) are to be issued for the purpose of refunding outstanding Junior Lien Bonds and the Annual Debt Service on the refunding portion of the proposed Future Junior Lien Bonds is not more than \$5,000 greater than the Annual Debt Service on the Junior Lien Bonds to be refunded thereby, then no Junior Lien Coverage Certificate shall be required as to that portion issued for refunding purposes. If the requirements of the preceding sentence are not satisfied, Refunding Junior Lien Bonds may alternatively be issued upon delivery of a Junior Lien Coverage Certificate.

(ii) **Junior Lien Coverage Certificate.** A Junior Lien Coverage Certificate required by subsection 18(b)(i) of this ordinance may be provided by either the Director of Finance or by a Professional Utility Consultant, as follows:

(A) A Junior Lien Coverage Certificate may be prepared by the Director of Finance, demonstrating that the amount of Adjusted Net Revenue in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed Series of Future Junior Lien Bonds (the “Base Period”) was not less than 115 percent of Maximum Annual Debt Service in any future calendar year on all Parity Bonds, Intermediate Lien Reimbursement Obligations (if any), and Junior Lien Bonds then outstanding plus the

proposed Series of Future Junior Lien Bonds. For the purposes of a Junior Lien Coverage Certificate delivered under this subsection (A), the Director of Finance shall reflect in that certificate any adjustment in the rates, fees, and charges for the services of the Light System that will become effective at any time prior to or within six months after the delivery of the proposed Future Junior Lien Bonds, by including in the amount of Adjusted Net Revenue the amount that the Director estimates would have been collected in the Base Period if such new rates, fees, and charges had been in effect for the entire Base Period.

(B) A Junior Lien Coverage Certificate may be prepared by a Professional Utility Consultant, demonstrating that the amount of Adjusted Net Revenue (which may be further adjusted as provided in subsection 18(a)(ii)(B)(1) through (B)(5) of this ordinance) in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed Future Junior Lien Bonds (the “Base Period”) not less than 115 percent of Maximum Annual Debt Service in any future calendar year on all Parity Bonds and Junior Lien Bonds then outstanding plus the proposed Future Junior Lien Bonds.

Section 19. **Rate Stabilization Account.** The City may at any time deposit in the Rate Stabilization Account Net Revenue and any other money received by the Light System and available to be used therefor. Thereafter, the City may withdraw any or all of the money from the Rate Stabilization Account for inclusion in Adjusted Net Revenue for any applicable year of the City. Such deposits or withdrawals may be made up to and including the date 90 days after the end of the applicable year for which the deposit or withdrawal will be included as Adjusted Net Revenue.

Section 20. **Refunding or Defeasance of Bonds.**

(a) **Bonds Designated as Refundable Bonds and as Defeasible Bonds.** Each Series of the Bonds is designated as “Refundable Bonds” and “Defeasible Bonds” for purposes of the Omnibus Refunding Ordinance and the Omnibus Defeasance Ordinance, respectively.

(b) **Refunding; Defeasance.** The City may issue refunding bonds pursuant to the laws of the State or use money available from any other lawful source (i) to pay when due the principal of (including redemption

premium, if any) and interest on any Bond, or any portion thereof, included in a refunding or defeasance plan (the “Defeased Bonds”); (ii) to redeem and retire, release, refund, or defease the Defeased Bonds; and (iii) to pay the costs of such refunding or defeasance. If money and/or Government Obligations maturing at a time or times and in an amount sufficient (together with known earned income from the investment thereof) to redeem and retire, release, refund, or defease the Defeased Bonds in accordance with their terms is set aside in a special trust fund or escrow account irrevocably pledged to such redemption, retirement or defeasance (the “Trust Account”), then all right and interest of the Owners of the Defeased Bonds in the covenants of this ordinance and in Net Revenue and the funds and accounts pledged to the payment of such Defeased Bonds, other than the right to receive the funds so set aside and pledged, thereafter shall cease and become void. Such Owners thereafter shall have the right to receive payment of the principal (or redemption price) of and interest on the Defeased Bonds from the Trust Account. After such a Trust Account is established and funded as set forth above, the Defeased Bonds shall be deemed to be no longer outstanding and the Director of Finance may then apply any money in any other fund or account established for the payment or redemption of the Defeased Bonds to any lawful purpose.

(c) **Notice of Defeasance or Refunding.** Unless otherwise specified in the applicable Bond Documents, notice of refunding or defeasance shall be given, and selection of Bonds for any partial refunding or defeasance shall be conducted, in the manner set forth in this ordinance for the redemption of Bonds.

(d) **Annual Debt Service Calculation Adjustments for Defeased Bonds.** If the refunding or defeasance plan provides (i) that the Defeased Bonds (or the refunding bonds issued to redeem those Defeased Bonds) are to be secured by money and/or Government Obligations pending the redemption of the Defeased Bonds, and (ii) that certain money and/or Government Obligations are pledged irrevocably for the redemption of the Defeased Bonds, then only the debt service on such Bonds as are not Defeased Bonds (and any refunding bonds, the payment of which is not so secured by the refunding plan) shall be included in the calculation of Annual Debt Service.

Section 21. **Federal Tax Matters.** The Bond Documents may include such additional terms and covenants relating to federal tax matters as the Director of Finance deems necessary or appropriate, including the following:

(a) **Tax-Exempt Bonds.** For each Series of the Bonds issued as Tax-Exempt Bonds, the City covenants that it will take all actions, consistent with the terms of such Series as set forth in this ordinance and the applicable Bond Documents, that are reasonably within its power and necessary to prevent interest on that Series from being included in gross income for federal income tax purposes. The City further covenants that it will neither take any action nor make or permit any use of gross proceeds of that Series (or other funds of the City treated as gross proceeds of that Series) at any time during the term of such Series that will cause interest on such Series to be included in gross income for federal income tax purposes. The City also covenants that, to the extent the arbitrage rebate requirement of Section 148 of the Code is applicable to any Series issued as Tax-Exempt Bonds, it will take all actions necessary to comply (or to be treated as having complied) with that requirement in connection with that Series (including the calculation and payment of any penalties that the City may elect to pay as an alternative to calculating rebatable arbitrage and the payment of any other penalties if required under Section 148 of the Code) to prevent interest on such Bonds from being included in gross income for federal income tax purposes.

(b) **Taxable Bonds; Tax Credit Subsidy Bonds.** For each Series of the Bonds issued as Taxable Bonds or as Tax Credit Subsidy Bonds, the Director of Finance is authorized to make provision in the Bonds and other Bond Documents, to execute additional written agreements, and to make additional covenants on behalf of the City, all as the Director may deem necessary or appropriate in order to obtain, maintain, and administer such tax status. In the case of Tax Credit Subsidy Bonds, such additional covenants and agreement may include (without limiting the generality of the foregoing) those necessary in order for the City (i) to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of such Tax Credit Subsidy Bonds, and (ii) to ensure that such Tax Credit Subsidy Bonds otherwise become and remain eligible for tax

benefits under the Code.

Section 22. **Official Statement; Continuing Disclosure.**

(a) **Preliminary Official Statement.** The Director of Finance and other appropriate City officials are directed to cause the preparation of and review the form of a preliminary official statement in connection with each sale of one or more Series to the public. For the sole purpose of the Purchaser's compliance with paragraph (b)(1) of Rule 15c2-12, the Director of Finance is authorized to deem that preliminary official statement final as of its date, except for the omission of information permitted to be omitted by Rule 15c2-12. The City approves the distribution to potential purchasers of the Bonds of a preliminary official statement that has been deemed final in accordance with this subsection 22(a).

(b) **Final Official Statement.** The City approves the preparation of a final official statement for each sale of one or more Series to be sold to the public in the form of the preliminary official statement, with such additions, modifications and amendments as the Director of Finance deems necessary or desirable, and further authorizes the Director of Finance to execute and deliver such final official statement to the Purchaser. The City authorizes and approves the distribution by the Purchaser of that final official statement to purchasers and potential purchasers of the Bonds.

(c) **Undertaking to Provide Continuing Disclosure.** To meet the requirements of paragraph (b)(5) of Rule 15c2-12, as applicable to a participating underwriter for a Series of the Bonds, the Director of Finance is authorized to execute a written Continuing Disclosure Agreement with respect to that Series, in substantially the form attached to this ordinance as Exhibit B.

Section 23. **Supplemental or Amendatory Bond Documents.** This ordinance and the other applicable Bond Documents for any Series of the Bonds may not be supplemented or amended in any respect subsequent to the Issue Date of such Series, except in accordance with and subject to the provisions of this section.

(a) **Amendments Without Bond Owners' Consent.** From time to time and at any time, without the consent of or notice to the owners of any Parity Bonds or Junior Lien Bonds, the City may supplement or

amend the Bond Documents applicable to any Series of the Bonds for any of the purposes set forth in this subsection (a). Any such supplement or amendment may be passed, adopted, or otherwise approved in writing by the City, without requiring the consent of the registered owners of any Parity Bonds or Junior Lien Bonds, but may become effective only upon receipt by the City of an opinion of Bond Counsel to the effect that such supplement or amendment is permitted by the terms of this ordinance. The City shall deliver a copy of any such supplement or amendment to each Rating Agency prior to its passage, adoption, or approval (as applicable) by the City. The types of supplements and amendments permitted under this subsection (a) are as follows:

(i) To add to any Parity Bond Documents (or to any Junior Lien Bond Documents, as applicable) additional covenants and agreements that do not adversely affect the interests of the owners of any Parity Bonds (or, as to Junior Lien Bond Documents, the interests of the owners of any Junior Lien Bonds) then outstanding, or to surrender any right or power reserved to or conferred upon the City in any Bond Documents.

(ii) To cure any ambiguities or to cure, correct, or supplement any defective provision in any Bond Documents, in regard to matters or questions arising under such Bond Documents, as the City may deem necessary or desirable and not inconsistent with this ordinance, and which do not materially adversely affect the interests of the owners of any Parity Bonds or Junior Lien Bonds then outstanding.

(iii) To make such changes as may be necessary to permit the Bonds to be held in registered certificate form or in Book-Entry Form, as the case may be, and to make similar amendments or modifications of a technical nature.

(b) Amendments Permitted Upon Bond Owners' Consent.

(i) **Parity Bond Documents.** With the consent of the registered owners representing not less than 60 percent in aggregate principal amount of the Parity Bonds then outstanding, the City may pass, adopt, or otherwise provide its written approval of any supplement or amendment to add to, change, or eliminate any provision of the Bond Documents applicable to a Series of the Bonds designated as Parity Bonds in any manner other than a supplement or amendment effecting a change described in subsection 23(c)(i) of this ordinance.

(ii) **Junior Lien Bond Documents.** With the consent of the registered owners representing not less than 60 percent in aggregate principal amount of the Junior Lien Bonds then outstanding, the City may pass, adopt, or otherwise approve in writing any supplement or amendment to add to, change, or eliminate any provision of the Bond Documents applicable to a Series of the Bonds designated as Junior Lien Bonds in any manner other than a supplement or amendment effecting a change described in subsection 23(c)(ii) of this ordinance.

(c) Amendments Prohibited Except Upon Unanimous Consent.

(i) **Amendments to Parity Bond Documents.** Nothing contained in this section shall permit or be construed as permitting an amendment or supplement that would:

(A) Except upon consent from the registered owners of or on behalf of all Parity Bonds so affected, extend the fixed maturity of any Parity Bond, reduce the rate of interest on any Parity Bond (other than a change in interest rate permitted under the applicable Parity Bond Documents then in effect), extend the times of payment of interest from their respective due dates, reduce the principal amount of any Parity Bond, or reduce any redemption premium; or

(B) Except upon consent from the registered owners of or on behalf of all of the Parity Bonds then outstanding, reduce the percentage of ownership required under subsection 23(b)(i) of this ordinance to approve any supplement or amendment.

(ii) **Amendments to Junior Lien Bond Documents.** Nothing contained in this section shall permit or be construed as permitting an amendment or supplement that would:

(A) Except upon consent from the registered owners of or on behalf of all Junior Lien Bonds so affected, extend the fixed maturity of any Junior Lien Bond, reduce the rate of interest on any Junior Lien Bond (other than a change in interest rate permitted under the applicable Junior Lien Bond Documents then in effect), extend the times of payment of interest from their respective due dates, reduce the principal amount of any Junior Lien Bond, or reduce any redemption premium; or

(B) Except upon consent from the registered owners of or on behalf of all of the Junior Lien Bonds then outstanding, reduce the percentage of ownership required under subsection 23(b)(ii) of this ordinance to approve any supplement or amendment.

(d) **Notice and Consents.** If at any time the City passes, adopts, or otherwise approves in writing a supplement or amendment for any of the purposes requiring consent under subsection 23(b) or 23(c) of this ordinance, it shall provide a notice to each registered owner and to each Rating Agency briefly summarizing the nature of the proposed supplement or amendment and stating that a copy of such supplement or amendment is on file at the office of the City Clerk. It shall not be necessary to obtain consent to or approval of the particular form of any proposed supplement or amendment, but it shall be sufficient if the consent shall approve the substance thereof. For purposes of determining whether consents representing the requisite percentage of principal amount of Parity Bonds or Junior Lien Bonds have been obtained, the Accreted Value of Capital Appreciation Bonds shall be deemed to be the principal amount.

(e) **Effect of Amendment or Supplement.** Upon the effective date of any amendment or supplement to any Bond Documents, such Bond Documents shall be deemed to be amended and modified in accordance with such amendment or supplement. Thereafter, the respective rights, duties, and obligations of the City under the applicable Bond Documents shall be determined, exercised, and enforced subject in all respects to such supplement or amendments, and all the terms and conditions of any such supplement or amendment shall be deemed to be a part of the terms and conditions of those Bond Documents for any and all purposes. The effective dates of such amendments and supplements shall be as follows:

(i) An amendment and supplement permitted under subsection 23(a) of this ordinance shall become effective immediately upon (A) the passage, adoption, or other approval of such amendment or supplement (or upon the effective date of such document as stated therein, if any), and (B) the delivery of the required opinion of Bond Counsel stating that such amendment or supplement is permitted under this ordinance.

(ii) A supplement or amendment permitted under subsection 23(b) or 23(c) of this ordinance shall become effective on the date on which the City has received the written consents of the requisite percentage of registered owners. If the requisite percentage of registered owners of Parity Bonds or Junior Lien Bonds, as applicable, have given their consent to any such amendment or supplement, no owner of any Bond shall have any right (i) to object to the passage, adoption, or approval of such supplement or amendment, (ii) to object to any of the terms and provisions contained therein or the operation thereof, (iii) in any manner to question the propriety of the passage, adoption, or approval thereof, (iv) to enjoin or restrain the City, or any authorized official thereof, from passing, adopting, or otherwise approving the same, or (v) to enjoin or restrain the City, any authorized official thereof, or the Bond Registrar from taking any action pursuant to the provisions thereof.

(f) **Notation on Bonds.** Any Bonds executed and delivered after the effective date of any amendment or supplement that is passed, adopted, or otherwise approved in writing pursuant to this section may include a notation as to any matter provided for in such amendment or supplement. The City may, in its discretion, prepare and deliver replacement bonds, modified to reflect any such amendment or supplement, to the registered owner(s) thereof upon surrender of the original bonds for cancellation.

Section 24. **Defaults and Remedies**

(a) **Parity Bond Events of Default.** Each of the following shall constitute an Event of Default with respect to the Bonds designated as Parity Bonds, except as set forth in subsection 24(c) of this ordinance:

(i) If a default is made in the payment of the principal of (including Sinking Fund Requirements and any redemption premium thereon, if any) or interest on any Parity Bond when the same shall become due and payable; or

(ii) If the City defaults in the observance and performance of any other of the Parity Bond covenants, conditions, or agreements on the part of the City set forth in this ordinance or the applicable Parity Bond Documents (except as otherwise provided herein or in such Parity Bond Documents) and such default or

defaults shall have continued for a period of six months (the “cure period”) after the City shall have received from the registered owners of not less than 25 percent in principal amount of the Parity Bonds then outstanding (or from a Bond Owners’ Trustee duly appointed as set forth in subsection 24(e) of this ordinance) a written notice specifying and demanding the cure of such default. However, if such default is one that cannot be completely remedied within the cure period, it shall not be an Event of Default with respect to the Parity Bonds, so long as the City has taken active steps within the cure period to remedy the default and is diligently pursuing such remedy.

(b) Junior Lien Bond Events of Default. Each of the following shall constitute an Event of Default with respect to the Bonds designated as Junior Lien Bonds, except as set forth in subsection 24(c) of this ordinance:

(i) If a default is made in the payment of the principal of (including Sinking Fund Requirements and any redemption premium thereon, if any) or interest on any Junior Lien Bond when the same shall become due and payable; or

(ii) If the City defaults in the observance and performance of any other of the Junior Lien Bond covenants, conditions, or agreements on the part of the City set forth in this ordinance or the applicable Junior Lien Bond Documents (except as otherwise provided for in this ordinance or in such Junior Lien Bond Documents) and such default or defaults shall have continued for a period of six months (the “cure period”) after the City shall have received from the registered owners of not less than 25 percent in principal amount of the Junior Lien Bonds then outstanding (or from a Bond Owners’ Trustee duly appointed as set forth in subsection (e) of this section) a written notice specifying and demanding the cure of such default. However, if such default is one which cannot be completely remedied within the cure period, it shall not be an Event of Default with respect to the Bonds as long as the City has taken active steps within the cure period to remedy the default and is diligently pursuing such remedy.

(c) Exceptions. Notwithstanding anything in this section to the contrary, the failure of the City or any

obligated person to comply with a Continuing Disclosure Agreement shall not constitute an Event of Default, and the sole remedy of any holder of any Parity Bond or Junior Lien Bond, as applicable, shall be to seek an order of specific performance from an appropriate court to compel the City to comply with the Continuing Disclosure Agreement. For purposes of determining whether an Event of Default has occurred and is continuing with respect to the rate covenant set forth in subsection 17(a)(ii) or 17(b)(ii) of this ordinance, if such covenant is met for any fiscal year, it shall be deemed to have been met for all prior fiscal years.

(d) Remedies; No Acceleration. In the case of a Parity Bond Event of Default, an owner of a Parity Bond shall have the remedies set forth in Section 10 of this ordinance and in the applicable Parity Bond Documents, as limited by subsection 24(e) of this ordinance. In the case of a Junior Lien Bond Event of Default, the owner of a Junior Lien Bond shall have the remedies set forth in Section 10 of this ordinance and in the applicable Junior Lien Bond Documents, as limited by subsection 24(e) of this ordinance. Nothing contained in this ordinance shall, in any event or under any circumstance, be deemed to authorize the acceleration of the maturity of principal on the Bonds, and the remedy of acceleration is expressly denied to the registered owners of the Bonds under any circumstances including, without limitation, upon the occurrence and continuance of an Event of Default.

(e) Bond Owners' Trustee. A Bond Owners' Trustee appointed in the manner provided in this section, and each successor thereto, is declared to be a trustee for all of the owners of the Parity Bonds (in the case of a Parity Bond Event of Default) or all of the owners of the Junior Lien Bonds (in the case of a Junior Lien Bond Event of Default), as applicable, and is empowered to exercise all the rights and powers herein conferred on the Bond Owners' Trustee.

(i) Appointment of Bond Owners' Trustee; Removal. Upon the occurrence and continuance of an Event of Default described in subsection 24(a) of this ordinance, the registered owners of 25 percent in principal amount of the then outstanding Parity Bonds (or upon the occurrence and continuance of an Event of Default described in subsection 24(b) of this ordinance, the registered owners of 25 percent in principal amount

of the then outstanding Junior Lien Bonds) may appoint a Bond Owners' Trustee by an instrument or concurrent instruments in writing signed by such registered owners (or by their duly authorized attorneys-in-fact) and delivered to such Bond Owners' Trustee, with notification of such appointment given to the City. That appointment shall become effective immediately upon acceptance thereof by the Bond Owners' Trustee. The entity acting as Bond Owners' Trustee may be removed at any time, and a successor Bond Owners' Trustee may be appointed, by the registered owners of more than 50 percent in principal amount of the Parity Bonds then outstanding (in the case of a Parity Bond Event of Default) or 50 percent in principal amount of the Junior Lien Bonds then outstanding (in the case of a Junior Lien Bond Event of Default), as applicable, by an instrument or concurrent instruments in writing signed and acknowledged by such registered owners or by their duly authorized attorneys-in-fact.

(ii) **Cure of Event of Default.** If the Bond Owners' Trustee furnishes to the City a certificate stating that, in its sole judgment, an Event of Default that has occurred has been cured, such Event of Default shall be conclusively deemed to be cured, and the City, the Bond Owners' Trustee, and the registered owners of the Parity Bonds or Junior Lien Bonds, as applicable, shall be restored to the same rights and position which they would have held if no Event of Default had occurred.

(iii) **Suits at Law or in Equity.** Upon the occurrence of an Event of Default and during the continuance thereof, the Bond Owners' Trustee in its discretion may (and, upon the written request of the registered owners of not less than 25 percent in principal amount of the Parity Bonds (or Junior Lien Bonds, as applicable) then outstanding, shall) take such steps and institute such suits, actions, or other proceedings, all as it may deem appropriate for the protection and enforcement of the rights of the registered owners of the Parity Bonds (or Junior Lien Bonds, as applicable), to collect any amounts due and owing to or from the City, or to obtain other appropriate relief, and may enforce the specific performance of any covenant, agreement or condition contained in this ordinance or set forth in any of the applicable Bond Documents.

Any action, suit, or other proceeding instituted by the Bond Owners' Trustee hereunder shall be brought

in its name as the Bond Owners' Trustee and all such rights of action upon or under any of the Parity Bonds (or Junior Lien Bonds, as applicable) or the provisions of this ordinance may be enforced by the Bond Owners' Trustee without the possession of any of those Parity Bonds (or Junior Lien Bonds, as applicable) and without the production of the same at any trial or proceedings relative thereto except where otherwise required by law.

(iv) **Effect of Appointment of Bond Owners' Trustee.** Any suit, action, or proceeding instituted by the Bond Owners' Trustee shall be brought for the ratable benefit of all of the owners of the Parity Bonds (or Junior Lien Bonds, as applicable), subject to the provisions of this ordinance. The respective owners, by taking and holding the same, shall be conclusively deemed irrevocably to appoint the Bond Owners' Trustee the true and lawful trustee of the respective owners, with authority to institute any such action, suit, or proceeding; to receive as trustee and deposit in trust any sums becoming distributable on account of those Parity Bonds; to execute any paper or documents for the receipt of money; and to do all acts with respect thereto that the owner might have done in person. Nothing herein shall be deemed to authorize or empower the Bond Owners' Trustee to consent to accept or adopt, on behalf of any owner of the Parity Bonds (or Junior Lien Bonds, as applicable), any plan of reorganization or adjustment affecting the Parity Bonds (or Junior Lien Bonds, as applicable) or any right of any registered owner thereof, or to authorize or empower the Bond Owners' Trustee to vote the claims of the registered owners thereof in any receivership, insolvency, liquidation, bankruptcy, reorganization, or other proceeding to which the City is a party.

(v) **Bond Owners' Direction of Proceedings.** By an instrument or concurrent instruments in writing executed and delivered to the Bond Owners' Trustee, the owners of more than 50 percent in aggregate principal amount of the Parity Bonds (or Junior Lien Bonds, as applicable) then outstanding shall be entitled to control and direct the enforcement of all rights and remedies granted to the owners (or the Bond Owners' Trustee for the benefit of the owners) under the applicable Bond Documents. Notwithstanding the foregoing, the Bond Owners' Trustee shall have the right to decline to follow any such direction which in the opinion of the Bond Owners' Trustee, in reasonable reliance on advice of counsel, would be unjustly prejudicial to owners

not parties to such direction.

(vi) **Limitation on Remedies; Limitations on Individual Actions.** No owner of a Parity Bond, in the case of a Parity Bond Event of Default (or owner of a Junior Lien Bond, in the case of a Junior Lien Bond Event of Default) shall have any right in any manner whatever by its action to affect, disturb, or prejudice the security pledged in this ordinance or the rights of any other owners, or to enforce any right under the applicable Bond Documents or applicable law except in the manner provided in this section, and that all proceedings at law or in equity to enforce any such right shall be instituted, had, and maintained in the manner herein provided and for the equal and ratable benefit and protection of all owners of the Parity Bonds (or Junior Lien Bonds, as applicable), subject to the provisions of this ordinance.

(vii) **Limitations on Individual Actions.** No owner of a Parity Bond (or Junior Lien Bond, as applicable) shall have any right to institute any action, suit, or proceeding at law or in equity for the enforcement of same unless (A) such owner previously shall have given to the Bond Owners' Trustee written notice of the occurrence of an Event of Default; (B) the owners of more than 50 percent in aggregate principal amount of the then outstanding Parity Bonds (in the case of a Parity Bond Event of Default) or 50 percent in aggregate principal amount of the then outstanding Junior Lien Bonds (in the case of a Junior Lien Bond Event of Default) shall have made a written request to the Bond Owners' Trustee to exercise the powers granted above or to institute such suit, action, or proceeding in its own name; (C) such owners shall have tendered to the Bond Owners' Trustee reasonable indemnity against the costs, expenses, and liabilities to be incurred in compliance with such request; and (D) the Bond Owners' Trustee shall have refused or omitted to comply with such request for a period of 60 days after such written request shall have been received by, and said tender of indemnity shall have been made to, the Bond Owners' Trustee. The conditions set forth in (A) through (D) in the preceding sentence are hereby declared to be conditions precedent to the exercise by any owner of a Parity Bond (in the case of a Parity Bond Event of Default) or by any owner of a Junior Lien Bond (in the case of a Junior Lien Bond Event of Default) of any remedy under the applicable Bond Documents or under applicable law.

(viii) **Duties and Obligations of Bond Owners' Trustee.** The Bond Owners' Trustee shall not be liable except for the performance of such duties as are specifically set forth in this ordinance. During any period in which an Event of Default has occurred and is continuing as to the Parity Bonds (or the Junior Lien Bonds, as applicable) the Bond Owners' Trustee shall exercise such of the rights and powers vested in it by this ordinance, and shall use the same degree of care and skill in its exercise as a prudent person would exercise or use under the circumstances in the conduct of that person's own affairs. The Bond Owners' Trustee shall have no liability for any act or omission to act hereunder except for the Bond Owners' Trustee's own negligent action, its own negligent failure to act or its own willful misconduct. The duties and obligations of the Bond Owners' Trustee shall be determined solely by the express provisions of this ordinance, and no implied powers, duties or obligations of the Bond Owners' Trustee shall be read into this ordinance. The Bond Owners' Trustee shall not be required to expend or risk its own funds or otherwise incur individual liability in the performance of any of its duties or in the exercise of any of its rights or powers as the Bond Owners' Trustee, except as may result from its own negligent action, its own negligent failure to act or its own willful misconduct. The fees and expenses of the Bond Owners' Trustee shall be borne by the owners of the Parity Bonds (or Junior Lien Bonds, as applicable) and not by the City. A Bond Owners' Trustee may require such security and indemnity as may be reasonable against the costs, expenses, and liabilities that may be incurred in the performance of its duties. The Bond Owners' Trustee shall not be bound to recognize any person as a registered owner of any Parity Bond (or Junior Lien Bond, as applicable) until their title thereto, if disputed, has been established to its reasonable satisfaction. The Bond Owners' Trustee may consult with counsel, and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it hereunder in good faith and in accordance with the opinion of such counsel. The Bond Owners' Trustee shall not be answerable for any neglect or default of any person, firm, or corporation employed and selected by it with reasonable care.

Section 25. **General Authorization.** In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance and each of the other appropriate officials of the City are each authorized

and directed to do everything as in the judgment of such official may be necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance. In particular and without limiting the foregoing:

(a) The Director of Finance, in the Director's discretion and without further action by the City Council, (i) may issue requests for proposals to provide underwriting services or financing facilities (including, without limitation, Qualified Insurance, a Qualified Letter of Credit, or other credit support or liquidity facility) and may execute engagement letters and other agreements with underwriters and other financial institutions (including providers of liquidity or credit support) based on responses to such requests; (ii) may select and make decisions regarding the Bond Registrar, fiscal or paying agents, and any Securities Depository for each Series of the Bonds; (iii) may take any and all actions necessary or convenient to provide for the conversion of interest rate modes for any Series in accordance with the applicable Bond Documents; and (iv) may take such actions on behalf of the City as are necessary or appropriate for the City to designate, qualify, or maintain the tax-exempt treatment with respect to any Series issued as Tax-Exempt Bonds, to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of any Series issued as Tax Credit Subsidy Bonds, and to otherwise receive any other federal tax benefits relating to any Series of the Bonds that are available to the City; and

(b) The Mayor and the Director of Finance are each separately authorized to execute and deliver (i) any and all contracts or other documents as are consistent with this ordinance and for which the City's approval is necessary or to which the City is a party (including but not limited to agreements with escrow agents, refunding or defeasance trustees, liquidity or credit support providers, providers of Qualified Insurance or Alternate Reserve Securities, remarketing agents, underwriters, lenders or other financial institutions, fiscal or paying agents, Qualified Counterparties, custodians, and the Bond Registrar); and (ii) such other contracts or documents incidental to the issuance and sale of any Series of the Bonds; the establishment of the interest rate or rates on a Bond; or the conversion, tender, purchase, remarketing, or redemption of a Bond, as may in the

judgment of the Mayor or Director of Finance, as applicable, be necessary or appropriate.

Section 26. **Severability**. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 27. **Ratification of Prior Acts**. Any action consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 28. **Section Headings**. Section headings in this ordinance are nonsubstantive.

Section 29. **Effective Date**. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this ____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

Scheereen Dedman, City Clerk

EXHIBIT B

FORM OF CONTINUING DISCLOSURE AGREEMENT

The City of Seattle, Washington (the “City”), makes the following written undertaking (the “Undertaking”) for the benefit of the Owners of the City’s Municipal Light and Power Revenue Bonds, [Year] [Series] (the “Bonds”), for the sole purpose of assisting the underwriter for the Bonds in meeting the requirements of paragraph (b)(5) of Rule 15c2-12 (the “Rule”), as applicable to a participating underwriter for the Bonds. Capitalized terms used but not defined below shall have the meanings given in Ordinance _____ (the “Bond Ordinance”).

(a) Undertaking to Provide Annual Financial Information and Notice of Listed Events.

The City undertakes to provide or cause to be provided, either directly or through a designated agent, to the Municipal Securities Rulemaking Board (the “MSRB”), in an electronic format as prescribed by the MSRB, accompanied by identifying information as prescribed by the MSRB:

(i) Annual financial information and operating data regarding the Municipal Light and Power System (the “Light System”) of the type included in the final official statement for the Bonds and described in subsection (b) of this section (“annual financial information”). The timely filing of unaudited financial statements shall satisfy the requirements and filing deadlines pertaining to the filing of annual financial statements under subsection (b), provided that audited financial statements are to be filed if and when they are otherwise prepared and available to the City.

(ii) Timely notice (not in excess of 10 business days after the occurrence of the event) of the occurrence of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notice of Proposed Issue (IRS Form 5701 – TEB) or other material notices

1 or determinations with respect to the tax status of the Bonds, or other material events affecting the tax
2 status of the Bonds; (7) modifications to rights of holders of the Bonds, if material; (8) Bond calls
3 (other than scheduled mandatory redemptions of Term Bonds), if material, and tender offers;
4 (9) defeasances; (10) release, substitution, or sale of property securing repayment of the Bonds, if
5 material; (11) rating changes; (12) bankruptcy, insolvency, receivership or similar event of the City, as
6 such “Bankruptcy Events” are defined in the Rule; (13) the consummation of a merger, consolidation,
7 or acquisition involving the City or the sale of all or substantially all of the assets of the City other than
8 in the ordinary course of business, the entry into a definitive agreement to undertake such an action or
9 the termination of a definitive agreement relating to any such actions, other than pursuant to its terms,
10 if material; (14) appointment of a successor or additional trustee or the change of name of a trustee, if
11 material; (15) incurrence of a financial obligation of the City, if material, or agreement to covenants,
12 events of default, remedies, priority rights, or other similar terms of a financial obligation of the City,
13 any of which affect holders of the Bonds, if material; and (16) any default, event of acceleration,
14 termination event, modification of terms, or other similar event under the terms of a financial obligation
15 of the City, any of which reflect financial difficulties.

16 For purposes of this Undertaking, the term “financial obligation” shall mean a debt
17 obligation; a derivative instrument entered into in connection with, or pledged as security or a source
18 of payment for, an existing or planned debt obligation; or a guarantee of either a debt obligation or a
19 derivative instrument entered into in connection with, or pledged as security or a source of payment
20 for, an existing or planned debt obligation. The term “financial obligation” does not include municipal
21 securities as to which a final official statement has been provided to the MSRB consistent with the
22 Rule.

23 (iii) Timely notice of a failure by the City to provide required annual financial
24 information on or before the date specified in subsection (b) of this section.

1 (b) Type of Annual Financial Information Undertaken to be Provided. The annual
2 financial information and operating data that the City undertakes to provide in subsection (a) of this
3 section:

4 (i) Shall consist of (1) annual financial statements of the Light System prepared in
5 accordance with applicable generally accepted accounting principles applicable to governmental units
6 (except as otherwise noted therein), as such principles may be changed from time to time and as
7 permitted by applicable state law; (2) a statement of outstanding Parity Bonds, Junior Lien Bonds (if
8 any), and any other bonded indebtedness secured by Net Revenue of the Light System; (3) debt service
9 coverage ratios for the then-Outstanding Parity Bonds, Junior Lien Bonds (if any) and any other bonded
10 indebtedness secured by Net Revenue of the Light System; (4) sources of Light System power and the
11 MWh produced by those sources; and (5) the average number of customers, revenues, and energy sales
12 by customer class;

13 (ii) Shall be provided not later than the last day of the ninth month after the end of
14 each fiscal year of the City (currently, a fiscal year ending December 31), as such fiscal year may be
15 changed as required or permitted by state law, commencing with the City’s fiscal year ending
16 December 31, 20__; and

17 (iii) May be provided in a single document or multiple documents, and may be
18 incorporated by specific reference to documents available to the public on the Internet website of the
19 MSRB or filed with the Securities and Exchange Commission.

20 (c) Amendment of Undertaking. This Undertaking is subject to amendment after the
21 primary offering of the Bonds without the consent of any Owner or holder of any Bond, or of any
22 broker, dealer, municipal securities dealer, participating underwriter, rating agency or the MSRB,
23 under the circumstances and in the manner permitted by the Rule, including:

1 (i) The amendment may only be made in connection with a change in
2 circumstances that arises from a change in legal requirements, change in law, or change in the identity,
3 nature, or status of the City, or type of business conducted by the City;

4 (ii) The Undertaking, as amended, would have complied with the requirements of
5 the Rule at the time of the primary offering, after taking into account any amendments or interpretations
6 of the Rule, as well as any change in circumstances; and

7 (iii) The amendment does not materially impair the interests of holders, as
8 determined either by parties unaffiliated with the City (e.g., bond counsel or other counsel familiar
9 with federal securities laws), or by an approving vote of bondholders pursuant to the terms of the Bond
10 Ordinance at the time of the amendment.

11 The City will give notice to the MSRB of the substance (or provide a copy) of any amendment
12 to this Undertaking and a brief statement of the reasons for the amendment. If the amendment changes
13 the type of annual financial information to be provided, the annual financial information containing
14 the amended financial information will include a narrative explanation of the effect of that change on
15 the type of information to be provided.

16 (d) Beneficiaries. This Undertaking shall inure to the benefit of the City and any Owner
17 of Bonds, and shall not inure to the benefit of or create any rights in any other person.

18 (e) Termination of Undertaking. The City's obligations under this Undertaking shall
19 terminate upon the legal defeasance, prior redemption, or payment in full of all of the Bonds. In
20 addition, the City's obligations under this Undertaking shall terminate if those provisions of the Rule
21 that require the City to comply with this Undertaking become legally inapplicable in respect of the
22 Bonds for any reason, as confirmed by an opinion of nationally recognized bond counsel or other
23 counsel familiar with federal securities laws delivered to the City, and the City provides timely notice
24 of such termination to the MSRB.

1 (f) Remedy for Failure to Comply with Undertaking. As soon as practicable after the City
2 learns of any material failure to comply with this Undertaking, the City will proceed with due diligence
3 to cause such noncompliance to be corrected. No failure by the City or other obligated person to comply
4 with this Undertaking shall constitute a default in respect of the Bonds. The sole remedy of any Owner
5 of a Bond shall be to take such actions as that Owner deems necessary, including seeking an order of
6 specific performance from an appropriate court, to compel the City or other obligated person to comply
7 with this Undertaking.

8 (g) Designation of Official Responsible to Administer Undertaking. The Director of
9 Finance of the City (or such other officer of the City who may in the future perform the duties of that
10 office) or the Director’s designee is the person designated, in accordance with the Bond Ordinance, to
11 carry out this Undertaking of the City in respect of the Bonds set forth in this section and in accordance
12 with the Rule, including, without limitation, the following actions:

13 (i) Preparing and filing the annual financial information undertaken to be
14 provided;

15 (ii) Determining whether any event specified in subsection (a)(ii) has occurred,
16 assessing its materiality, where necessary, with respect to the Bonds, and preparing and disseminating
17 any required notice of its occurrence;

18 (iii) Determining whether any person other than the City is an “obligated person”
19 within the meaning of the Rule with respect to the Bonds, and obtaining from such person an
20 undertaking to provide any annual financial information and notice of listed events for that person in
21 accordance with the Rule;

22 (iv) Selecting, engaging and compensating designated agents and consultants,
23 including but not limited to financial advisors and legal counsel, to assist and advise the City in carrying
24 out this Undertaking; and

25 (v) Effecting any necessary amendment of the Undertaking.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
City Finance / City Light	Kristi Beattie Kirsty Grainger	Caleb Wagenaar Greg Shiring

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the electric system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing municipal light and electric power generation, transmission, and distribution system of the City; authorizing the issuance and sale of municipal light and power revenue bonds for the purposes of providing funds to pay part of the cost of carrying out that system or plan, providing for the reserve fund requirement (if necessary), and paying the costs of issuance of the bonds; providing parameters for the Bond Sale Terms including conditions, covenants, and other sale terms; describing the lien of the bonds and authorizing their issuance as either senior lien parity bonds or junior lien bonds; and ratifying and confirming certain prior acts.

Summary and Background of the Legislation: This legislation provides the legal authorization to issue up to \$250 million of bonds in 2024 to fund a portion of capital expenditures for Seattle City Light’s system outlined in the proposed 2024-2029 Capital Improvement Plan (CIP). This legislation also authorizes up to \$150 million of borrowing for potential debt optimization, for a total issuance of bonds in a maximum aggregate principal amount not to exceed \$400 million. Debt optimization involves replacing high interest debt with low interest debt to reduce overall interest costs – without increasing the debt burden or extending the term of outstanding debt.

Although the budget, capital plan and rates make specific assumptions about the use of debt financing for a certain share of the capital program, separate authorization for the issuance of bonds is technically required.

A City Light bond sale is anticipated to occur in mid-2024. The bond proceeds combined with internally generated funds will support City Light’s capital program for about one year. The bond proceeds will also be used to make a deposit to the bond reserve fund and to pay issuance costs. As described in the legislation, bonds would have a maximum maturity of 40 years.

Major projects supported by the bond issue include Boundary Licensing Mitigation, the replacement of underground distribution equipment, and the replacement of overhead distribution equipment including the accelerated pole replacement program. For further information about City Light’s capital projects, please see the 2024-2029 CIP.

2. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**
This legislation affects City Finance, which coordinates the issuance of the bonds, and City Light which is responsible for managing the bond proceeds and implementing the major projects supported by the bond issue.
- b. Is a public hearing required for this legislation?**
No.
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- d. Does this legislation affect a piece of property?**
No.
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
N/A.
- f. Climate Change Implications**
- 1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No.
 - 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**
N/A.
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**
N/A.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to taxation; defining the sourcing of gross income arising from the activities of printing, and publishing newspapers, periodicals, or magazines; and modifying, effective January 1, 2024, the definition of printing, and publishing newspapers, periodicals, or magazines in accordance with ESS2B 5199 (2023); and amending Section 5.45.081 of the Seattle Municipal Code.

WHEREAS, during the 2023 regular session, the Washington State Legislature passed ESS2B 5199, amending the Model Municipal Business and Occupation (B & O) Tax Ordinance; and

WHEREAS, RCW 35.102.150 as amended modifies the definition of printing, and of publishing newspapers, periodicals, or magazines in accordance with ESS2B 5199 (2023); and

WHEREAS, under RCW 35.102.040, cities that impose a local B & O Tax must adopt this change to the Model Ordinance by January 1, 2024; and

WHEREAS, the City intends to adopt the change to the Model Ordinance as required under RCW 35.102.040;

NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 5.45.081 of the Seattle Municipal Code, last amended by Ordinance 125996, is amended as follows:

5.45.081 Assignment of revenues

Beginning on January 1, 2008, and with the exception of those persons subject to the provisions of chapter 82.14A RCW, this Section 5.45.081 will be used to assign revenue for purposes of the business license tax

imposed under Section 5.45.050.

* * *

K. Notwithstanding RCW 35.102.130, effective January 1, 2008, gross income from the activities of printing, and of publishing newspapers, periodicals, or magazines, shall be allocated to the principal place in this state from which the taxpayer's business is directed or managed. As used in this Section 5.45.081 until December 31, 2023, the activities of printing, and of publishing newspapers, periodicals, or magazines, have the same meanings as attributed to those terms in RCW 82.04.280(1) by the Department of Revenue. Beginning January 1, 2024, until January 1, 2034, as used in this Section 5.45.081, the activities of printing, and of publishing newspapers and periodicals or magazines are those activities to which the exemption in RCW 82.04.759 and the tax rate in RCW 82.04.280(1)(a) apply.

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

Scheereen Dedman, City Clerk

(Seal)

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
Office of City Finance	Joseph Cunha	Dave Hennes

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to taxation; defining the sourcing of gross income arising from the activities of printing, and publishing newspapers, periodicals, or magazines; and modifying, effective January 1, 2024, the definition of printing, and publishing newspapers, periodicals, or magazines in accordance with ESS2B 5199 (2023); and amending Section 5.45.081 of the Seattle Municipal Code.

Summary and Background of the Legislation: As a city that imposes a Business and Occupation tax (B & O), Seattle has adopted and is governed by the mandatory provisions of the State Model Municipal Business and Occupation Tax Ordinance (Model Ordinance). Cities that impose a local B & O tax must adopt changes, as required by RCW 35.102.040, to their own codified model ordinances to reflect current state law resulting from changes made by the state legislature. During the 2023 regular session, the Washington State Legislature passed ESS2B 5199 (2023), amending the Model Ordinance. The amendment modifies the definition of printing, and of publishing newspapers, periodicals, or magazines, effective January 1, 2024. This legislation updates SMC 5.45.081 to comply with the State's changes to the Model Ordinance. To remain in compliance the City of Seattle must adopt this change by January 1, 2024.

The state legislature's change to the definition of printing and publishing affects only State B & O tax collections, and will have a de minimis effect or no change on city tax collections.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
None.

Are there financial costs or other impacts of *not* implementing the legislation?

Yes. Cities that impose a business and occupation tax must adopt changes in state law to the model ordinance as required by RCW 35.102.140. A city that does not comply with the model ordinance may not impose a tax on the privilege of engaging in business activities in

the City. The City of Seattle projects B & O tax revenues of approximately \$368 million in 2024. If this legislation is not approved prior to January 1, 2024, the City would lose a portion of this revenue for the period beginning January 1, 2024, up until it adopts the mandatory provisions of the model ordinance.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
No.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- d. **Does this legislation affect a piece of property?**
No.
- e. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**

This legislation ensures city compliance with state requirements to modify the City's model B & O tax ordinance. The changes being made, concerning granting an exemption from the state's B & O tax to printers and publishers of newspapers, magazines and periodicals, are not anticipated to have any effect on vulnerable or historically disadvantaged communities.

- f. **Climate Change Implications**
 - 1. **Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No.
 - 2. **Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**
No.
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**
N/A

Legislation Text

File #: CB 120686, Version: 1

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the drainage and wastewater system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing drainage and wastewater system; authorizing the issuance and sale of drainage and wastewater revenue bonds in one or more series for the purposes of paying part of the cost of carrying out that system or plan, providing for the reserve requirement, and paying the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; describing the lien of those bonds; and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle (the “City”) owns, maintains, and operates a system of sanitary sewerage and storm and surface water drainage as part of Seattle Public Utilities (the “Drainage and Wastewater System”), which Drainage and Wastewater System has from time to time required various additions, improvements, betterments, and extensions; and

WHEREAS, the City desires to acquire and construct a system or plan of further additions, improvements, betterments to, and/or extensions of the Drainage and Wastewater System (the “Plan of Additions”) as described in this ordinance, and has a need to borrow funds to pay a portion of the costs of carrying out such Plan of Additions; and

WHEREAS, the City currently has outstanding certain drainage and wastewater revenue bonds (as identified in Exhibit A to this ordinance, the “Outstanding Parity Bonds”). Pursuant to the ordinances authorizing their issuance (the “Outstanding Parity Bond Ordinances”), the City reserved the right to issue additional bonds having a charge and lien on the net revenue of the Drainage and Wastewater System on a parity of lien with those Outstanding Parity Bonds (“Future Parity Bonds”), upon satisfaction of certain conditions (the “Parity Conditions”); and

WHEREAS, the City has determined that it is in the best interest of the City and its ratepayers to authorize the issuance and sale, subject to the provisions of this ordinance, of drainage and wastewater revenue bonds as Parity Bonds to pay part of the cost of carrying out the Plan of Additions, to provide for the reserve requirement, and to pay the costs of issuance of those bonds; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** In this ordinance, the following capitalized terms shall have the meanings set forth in this section:

“**Accreted Value**” means, with respect to any Capital Appreciation Bond, (a) as of any Valuation Date, the amount determined for such Valuation Date in accordance with the applicable Parity Bond Documents, and (b) as of any date other than a Valuation Date, the sum of (i) the Accreted Value on the preceding Valuation Date and (ii) the product of (A) a fraction, the numerator of which is the number of days having elapsed from the preceding Valuation Date and the denominator of which is the number of days from such preceding Valuation Date to the next succeeding Valuation Date, calculated based on the assumption that Accreted Value accrues during any semiannual period in equal daily amounts on the basis of a year of twelve 30-day months, and (B) the difference between the Accreted Values for such Valuation Dates.

“**Adjusted Annual Debt Service**” for any fiscal year means Annual Debt Service minus (a) an amount equal to ULID Assessments (as defined in this ordinance) due in that year and not delinquent, (b) an amount equal to earnings from investments in the Reserve Subaccount, and (c) Annual Debt Service provided for by Parity Bond proceeds.

“**Adjusted Gross Revenue**” means, for any period, Gross Revenue (a) plus withdrawals from the Rate Stabilization Account made during that period, and (b) minus ULID Assessments collected, earnings from investments in the Reserve Subaccount, and deposits into the Rate Stabilization Account made during that period.

“**Adjusted Net Revenue**” means Adjusted Gross Revenue less Operating and Maintenance Expense.

“Annual Debt Service” for any calendar year means the sum of the amounts required in such calendar year to pay the interest due in such calendar year on all Parity Bonds outstanding, excluding interest to be paid from the proceeds of the sale of Parity Bonds or other bonds; the principal of all outstanding Serial Bonds due in such calendar year; and the Sinking Fund Requirements, if any, for such calendar year. Additionally, for purposes of calculating and determining compliance with the Coverage Requirement, the Reserve Requirement and the conditions for the issuance of Future Parity Bonds and/or entering into Parity Payment Agreements, the following shall apply:

(a) **Calculation of Interest Due -- Generally.** Except as otherwise provided in this definition, interest on any series of Parity Bonds shall be calculated based on the actual amount of accrued, accreted, or otherwise accumulated interest that is payable in respect of that series taken as a whole, at the rate or rates set forth in the applicable Parity Bond Documents.

(b) **Capital Appreciation Bonds.** For purposes of this definition, the principal and interest portions of the Accreted Value of Capital Appreciation Bonds becoming due at maturity or by virtue of a Sinking Fund Requirement shall be included in the calculations of accrued and unpaid and accruing interest or principal in such manner and during such period of time as is specified in the Parity Bond Documents applicable to such Capital Appreciation Bonds.

(c) **Variable Interest Rate Bonds.** The amount of interest deemed to be payable on any series of Variable Interest Rate Bonds shall be calculated on the assumption that the interest rate on those bonds would be equal to the rate that is 90 percent of the average RBI during the four calendar quarters preceding the quarter in which the calculation is made.

(d) **Interest on Parity Bonds with Respect to Which a Payment Agreement Is in Force.** Debt service on Parity Bonds with respect to which a Payment Agreement is in force shall be based on the net economic effect on the City expected to be produced by the terms of the Parity Bonds and the terms of the Payment Agreement. For example, if the net economic effect of the Payment Agreement and a series of Parity

Bonds otherwise bearing interest at a variable rate is to produce an obligation bearing interest at a fixed interest rate, the relevant series of bonds shall be treated as fixed interest rate bonds. And if the net economic effect of the Payment Agreement and a series of Parity Bonds otherwise bearing interest at a fixed rate is to produce an obligation bearing interest at a variable interest rate, the relevant series of bonds shall be treated as Variable Interest Rate Bonds.

Accordingly, the amount of interest deemed to be payable on any Parity Bonds with respect to which a Payment Agreement is in force shall be an amount equal to the amount of interest that would be payable at the rate or rates stated in or determined pursuant to the applicable Parity Bond Documents, plus Payment Agreement Payments, minus Payment Agreement Receipts. For the purposes of calculating as nearly as practicable Payment Agreement Receipts and Payment Agreement Payments under a Payment Agreement that includes a variable rate component determined by reference to a pricing mechanism or index that is not the same as the pricing mechanism or index used to determine the variable rate interest component on the Parity Bonds to which the Payment Agreement is related, it shall be assumed that the fixed rate used in calculating Payment Agreement Payments will be equal to 105 percent of the fixed rate specified by the Payment Agreement and that the pricing mechanism or index specified by the Payment Agreement is the same as the pricing mechanism or index specified by the applicable Parity Bond Documents. Notwithstanding the other provisions of this definition, the City shall not be required to (but may in its discretion) take into account in determining Annual Debt Service the effects of any Payment Agreement that has a term of ten years or less.

(e) Parity Payment Agreements. For any period during which Payment Agreement Payments on a Parity Payment Agreement are taken into account in determining Annual Debt Service on related Parity Bonds under paragraph (d) of this definition, no additional debt service shall be taken into account with respect to that Parity Payment Agreement. However, for any Parity Payment Agreement during a period in which Payment Agreement Payments are not taken into account under paragraph (d) of this definition because the Parity Payment Agreement is not then related to any Outstanding Parity Bonds, payments on that Parity Payment

Agreement shall be taken into account as follows:

(i) **If City Is Obligated to Make Payments Based on Fixed Rate.** If the City is obligated to make Payment Agreement Payments based on a fixed rate and the Qualified Counterparty is obligated to make payments based on a variable rate index, it shall be assumed that payments by the City will be based on the assumed fixed payor rate, and that payments by the Qualified Counterparty will be based on a rate equal to the average rate determined by the variable rate index specified by the Parity Payment Agreement during the four calendar quarters preceding the quarter in which the calculation is made.

(ii) **If City Is Obligated to Make Payments Based on Variable Rate Index.** If the City is obligated to make Payment Agreement Payments based on a variable rate index and the Qualified Counterparty is obligated to make payments based on a fixed rate, it shall be assumed that payments by the City will be based on a rate equal to the average rate determined by the variable rate index specified by the Parity Payment Agreement during the four calendar quarters preceding the quarter in which the calculation is made, and that the Qualified Counterparty will make payments based on the fixed rate specified by the Parity Payment Agreement.

(f) **Balloon Bonds.** *Upon the Reserve Covenant Date, the following shall become effective:* For purposes of calculating debt service on any Balloon Bonds, it shall be assumed that the principal of those Balloon Bonds, together with interest thereon at a rate equal to the assumed RBI-based rate set forth in paragraph (c) of this definition, will be amortized in equal annual installments over a term of 30 years.

(g) **Adjustments for Defeased Bonds.** For purposes of calculating and determining compliance with the Coverage Requirement, the Reserve Requirement, and the Parity Conditions, Annual Debt Service shall be adjusted as set forth in subsection 21(d) of this ordinance.

“Authorized Denomination” means \$5,000 or any integral multiple thereof within a maturity of a Series, or such other minimum authorized denominations as may be specified in the applicable Bond Documents.

“**Average Annual Debt Service**” means, at the time of calculation, the sum of the Annual Debt Service remaining to be paid to the last scheduled maturity of the applicable series of Parity Bonds divided by the number of years such bonds are scheduled to remain outstanding.

“**Balloon Bonds**” means any series of Parity Bonds, the aggregate principal amount (including Sinking Fund Requirements) of which becomes due and payable in any calendar year in an amount that constitutes 25 percent or more of the initial aggregate principal amount of such series of Parity Bonds.

“**Beneficial Owner**” means, with regard to a Bond, the owner of any beneficial interest in that Bond.

“**Bond**” means one of the Drainage and Wastewater System revenue bonds issued pursuant to this ordinance.

“**Bond Counsel**” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“**Bond Documents**” means (a)(i) with respect to any Series of the Bonds, this ordinance (including any amendatory or supplemental ordinances), and (ii) with respect to a series of Parity Bonds other than a Series of the Bonds, the applicable Parity Bond Ordinance(s); (b) the authenticated bond form; and (c) the written agreement(s) setting forth the bond sale terms and additional terms, conditions, or covenants pursuant to which such bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance(s)), (iii) a bond indenture or a fiscal agent or paying agent agreement (other than the State fiscal agency contract), and (iv) a direct purchase or continuing covenant agreement.

“**Bond Insurance**” means any municipal bond insurance policy, guaranty, surety bond, or similar credit enhancement device providing for or securing the payment of all or part of the principal of and interest on any Parity Bonds, issued by an insurance company licensed to conduct an insurance business in any state of the United States (or by a service corporation acting on behalf of one or more such insurance companies), or by any other financial institution qualified to provide such credit enhancement device.

“Bond Purchase Contract” means a written offer to purchase a Series of the Bonds, pursuant to certain Bond Sale Terms, which offer has been accepted by the City in accordance with this ordinance. In the case of a competitive sale, the Purchaser’s bid for a Series, together with the official notice of sale and a Pricing Certificate confirming the Bond Sale Terms, shall comprise the Bond Purchase Contract.

“Bond Register” means the books or records maintained by the Bond Registrar for the purpose of registering ownership of each Bond.

“Bond Registrar” means the Fiscal Agent (unless the Director of Finance appoints a different person to act as bond registrar with respect to a particular Series), or any successor bond registrar selected in accordance with the System of Registration.

“Bond Sale Terms” means the terms and conditions for the sale of a Series of the Bonds approved by the Director of Finance consistent with the parameters set forth in Section 5 of this ordinance, including the amount, date or dates, denominations, interest rate or rates (or mechanism for determining the interest rate or rates), payment dates, final maturity, redemption rights, price, and other terms, conditions or covenants. In connection with a negotiated sale or private placement, the Bond Sale Terms shall be set forth in the Bond Purchase Contract; in connection with a competitive sale, the Bond Sale Terms shall be set forth in a Pricing Certificate.

“Book-Entry Form” means a fully registered form in which physical bond certificates are registered only in the name of the Securities Depository (or its nominee), as Registered Owner, with the physical bond certificates held by and immobilized in the custody of the Securities Depository (or its designee), where the system for recording and identifying the transfer of the ownership interests of the Beneficial Owners in those Bonds is neither maintained by nor the responsibility of the City or the Bond Registrar.

“Capital Appreciation Bond” means any Parity Bond, all or a portion of the interest on which is compounded and accumulated at the rates or in the manner, and on the dates, set forth in the applicable Bond Documents and is payable only upon redemption or on the maturity date of such Parity Bond. A Parity Bond

that is issued as a Capital Appreciation Bond, but which later converts to an obligation on which interest is paid periodically, shall be a Capital Appreciation Bond until the conversion date and thereafter shall no longer be a Capital Appreciation Bond, but shall be treated as having a principal amount equal to its Accreted Value on the conversion date. For purposes of computing the principal amount of Parity Bonds held by the Owner of any Capital Appreciation Bond in connection with any notice, consent, request, or demand, the principal amount of a Capital Appreciation Bond shall be deemed to be its Accreted Value at the time that such notice, consent, request, or demand is given or made.

“Capital Improvement Program” or **“CIP”** means those portions of the City’s “2024-2029 Capital Improvement Program” relating to the Drainage and Wastewater System, adopted by the City in conjunction with approval of the 2024 budget, together with any previously adopted capital improvement program of the City. For purposes of this ordinance, the CIP includes all amendments, updates, supplements or replacements that may be adopted from time to time by ordinance.

“City” means The City of Seattle, Washington.

“City Council” means the City Council of the City, as duly and regularly constituted from time to time.

“Code” means the Internal Revenue Code of 1986, or any successor thereto, as it has been and may be amended from time to time, and regulations thereunder.

“Construction Account” means the account or subaccount created in the Drainage and Wastewater Construction Account within the Drainage and Wastewater Fund for the deposit of proceeds of the Bonds, pursuant to Section 12 of this ordinance.

“Continuing Disclosure Agreement” means, for each Series sold in an offering subject to federal securities regulations requiring a written undertaking to provide continuing disclosure, a continuing disclosure agreement entered into pursuant to Section 23 of this ordinance, in substantially the form attached to this ordinance as Exhibit B.

“Contract Resource Obligation” means an obligation of the City that is designated as a Contract

Resource Obligation and is entered into in accordance with Section 20 of this ordinance.

“Coverage Requirement” means Adjusted Net Revenue equal to at least 1.25 times Adjusted Annual Debt Service on all Parity Bonds then outstanding.

“Covered Parity Bonds” means all Outstanding Parity Bonds, each Series of the Bonds, and each series of Future Parity Bonds. *From and after the Reserve Covenant Date, the term “Covered Parity Bonds” shall exclude each series of Parity Bonds for which the applicable Bond Documents provide that, from and after the Reserve Covenant Date, such series shall no longer be treated as a series of Covered Parity Bonds and shall no longer be secured by the amounts in the Reserve Subaccount.*

“Defeasible Bonds” means any outstanding Parity Bonds that are eligible to be defeased pursuant to the Omnibus Defeasance Ordinance.

“Director of Finance” or **“Director”** means the City’s Director of Finance or such other officer who succeeds to substantially all of the responsibilities of that office.

“Drainage and Wastewater Fund” means the fund created by Ordinance 84390 and later renamed by Ordinance 114155, into which is paid the Gross Revenue of the Drainage and Wastewater System.

“Drainage and Wastewater System” means the drainage and wastewater system of the City, including the sanitary sewerage and storm and surface water drainage systems, as it now exists (except properties, interests, and rights under the jurisdiction of the City’s Parks and Recreation Department, Seattle Center Department, Seattle Public Utilities Water System, City Light Department, and Fleets and Facilities Department, or the successors of any of the foregoing departments), and all additions thereto and betterments and extensions thereof at any time made, together with any utility systems of the City hereafter combined with the Drainage and Wastewater System. The Drainage and Wastewater System shall not include any separate utility system that may be created, acquired or constructed by the City as provided in Section 19 of this ordinance.

“DTC” means The Depository Trust Company, New York, New York.

“Event of Default” has the meaning assigned to that term in subsection 25(a) of this ordinance.

“Fiscal Agent” means the fiscal agent of the State, as the same may be designated by the State from time to time.

“Future Parity Bond Ordinance” means any ordinance passed by the City Council providing for the issuance and sale of a series of Future Parity Bonds, and any other ordinance amending or supplementing the provisions of any such ordinance.

“Future Parity Bonds” means, with reference to any Series, all revenue bonds and obligations of the Drainage and Wastewater System (other than that Series and any other Parity Bonds then outstanding) issued or entered into after the Issue Date of such Series, the payment of which constitutes a charge and lien on Net Revenue equal in priority with the charge and lien upon such revenue for the payment of the amounts required to be paid into the Parity Bond Account in accordance with Section 15 of this ordinance. Future Parity Bonds may include Parity Payment Agreements and any other obligations issued in compliance with the Parity Conditions.

“Government Obligations” means, unless otherwise limited in the Bond Documents for a particular Series of the Bonds, any government obligation as that term is defined in RCW 39.53.010, as amended at any time.

“Gross Revenue” means (a) all income, revenues, receipts, and profits derived by the City through the ownership and operation of the Drainage and Wastewater System; (b) the proceeds received by the City directly or indirectly from the sale, lease or other disposition of any of the properties, rights or facilities of the Drainage and Wastewater System; (c) Payment Agreement Receipts, to the extent that such receipts are not offset by Payment Agreement Payments; and (d) the investment income earned on money held in any fund or account of the City, including any bond redemption funds and the accounts therein, in connection with the ownership and operation of the Drainage and Wastewater System. Gross Revenue does not include: (a) income derived from investments irrevocably pledged to the payment of any defeased bonds payable from Gross Revenue; (b)

investment income set aside for or earned on money in any fund or account created or maintained solely for the purpose of complying with the arbitrage rebate provisions of the Code; (c) any gifts, grants, donations, or other funds received by the City from any State or federal agency or other person if such gifts, grants, donations, or other funds are the subject of any limitation or reservation imposed by the donor or grantor or imposed by law or administrative regulation to which the donor or grantor is subject, limiting the application of such funds in a manner inconsistent with the application of Gross Revenue hereunder; (d) the proceeds of any borrowing for capital improvements (or the refinancing thereof); (e) the proceeds of any liability or other insurance, including but not limited to insurance proceeds compensating the City for the loss of a capital asset, but excluding business interruption insurance or other insurance of like nature insuring against the loss of revenues; (f) general *ad valorem* taxes, excise taxes and special assessments (other than ULID Assessments), including interest and penalties thereon; and (g) earnings of any separate utility system that may be created, acquired, or constructed by the City pursuant to Section 19 of this ordinance.

“Independent Utility Consultant” means an independent person or firm having a favorable reputation for skill and experience with drainage and wastewater systems of comparable size and character to the Drainage and Wastewater System in such areas as are relevant to the purpose for which they were retained.

“Issue Date” means, with respect to a Bond, the initial date on which that Bond is issued and delivered to the initial Purchaser in exchange for its purchase price.

“Letter of Representations” means the Blanket Issuer Letter of Representations between the City and DTC dated October 4, 2006, as amended at any time, or an agreement with a substitute or successor Securities Depository.

“MSRB” means the Municipal Securities Rulemaking Board.

“Maximum Annual Debt Service” means, at the time of calculation, the maximum amount of Annual Debt Service that shall become due in the current calendar year or in any future calendar year with respect to the Parity Bonds then outstanding.

“Net Revenue” means, for any period, Gross Revenue less Operating and Maintenance Expense.

“Omnibus Defeasance Ordinance” means Ordinance 126223, as amended at any time, authorizing the defeasance of Defeasible Bonds, or any future ordinance pursuant to which the Bonds (or any Series of the Bonds) are designated as Defeasible Bonds.

“Omnibus Refunding Ordinance” means Ordinance 125455, as amended at any time, authorizing the issuance of Refunding Parity Bonds, or any future ordinance pursuant to which the Bonds (or any Series of the Bonds) are designated as “Refundable Bonds.”

“Operating and Maintenance Expense” means all expenses incurred by the City in causing the Drainage and Wastewater System to be operated and maintained in good repair, working order, and condition, including without limitation: (a) deposits, premiums, assessments or other payments for insurance, if any, on the Drainage and Wastewater System; (b) payments into pension funds; (c) State-imposed taxes; (d) amounts due under Contract Resource Obligations in accordance with Section 20 of this ordinance; (e) payments made to another person or entity for treatment or disposal of sewage or other commodity or service; and (f) payments with respect to any other expenses of the Drainage and Wastewater System that are properly treated as Operating and Maintenance Expense under generally accepted accounting principles applicable to municipal corporations, including payments (other than payments out of proceeds of Parity Bonds or other obligations not issued to pay current expenses of the Drainage and Wastewater System) into reasonable reserves for items of operating or maintenance expense the payment of which is not immediately required. Operating and Maintenance Expense does not include: depreciation, amortization, or other similar recognitions of non-cash expense items made for accounting purposes only including non-cash pension expense; taxes levied or imposed by the City, or payments in lieu of City taxes; payments of claims or judgments; or capital additions or capital replacements of the Drainage and Wastewater System.

“Outstanding Parity Bond Ordinances” means those ordinances authorizing the issuance and sale of the Outstanding Parity Bonds, as identified in Exhibit A to this ordinance.

“Outstanding Parity Bonds” means those outstanding Parity Bonds identified in Exhibit A to this ordinance. When used in reference to a particular date (or in reference to a particular series of Parity Bonds), Outstanding Parity Bonds shall mean those Parity Bonds, including any Parity Bonds issued subsequent to the effective date of this ordinance, that are outstanding as of that date (or as of the Issue Date of the referenced series of Parity Bonds).

“Owner” means, without distinction, the Registered Owner and the Beneficial Owner of a Bond.

“Parity Bond Account” means the Drainage and Wastewater Revenue Bond Account, 1990, created in the Drainage and Wastewater Fund by Ordinance 115098 for the purpose of paying and securing payment of the principal of and interest on Parity Bonds.

“Parity Bond Documents” means those Bond Documents applicable to a series of Parity Bonds.

“Parity Bond Ordinance” means any ordinance passed by the City Council providing for the issuance and sale of a series of Parity Bonds, and any other ordinance amending or supplementing the provisions of any Parity Bond Ordinance.

“Parity Bonds” means the Outstanding Parity Bonds, each Series of the Bonds, and any Future Parity Bonds then outstanding. Parity Bonds may include Parity Payment Agreements in accordance with Section 17 of this ordinance.

“Parity Certificate” means a certificate delivered pursuant to Section 17 of this ordinance for purposes of satisfying the Parity Conditions in connection with the issuance of the Bonds and Future Parity Bonds.

“Parity Conditions” means: (a) for purposes of establishing that a Series of the Bonds may be issued on parity with the Parity Bonds outstanding as of the Issue Date of such Series, the conditions for issuing Future Parity Bonds set forth in the Parity Bond Ordinances relating to those Parity Bonds that are then outstanding; and (b) for purposes of issuing Future Parity Bonds on parity with a Series of the Bonds, the conditions described in subsection (a) of this definition, together with the conditions set forth in Section 17 of this ordinance.

“Parity Payment Agreement” means a Payment Agreement entered into in compliance with the Parity Conditions and under which the City’s payment obligations are expressly stated to constitute a charge and lien on Net Revenue equal in rank with the charge and lien upon such Net Revenue required to be paid into the Parity Bond Account to pay and secure the payment of interest on Parity Bonds. For purposes of determining percentages of ownership of Parity Bonds under this ordinance or under applicable Parity Bond Documents, Parity Payment Agreements shall be deemed to have no principal amount, and any notice, consent, or similar rights (if any) shall be determined only as set forth in the applicable Parity Payment Agreement.

“Payment Agreement” means a written agreement entered into by the City and a Qualified Counterparty, as authorized by any applicable laws of the State, for the purpose of managing or reducing the City’s exposure to fluctuations or levels of interest rates, or for other interest rate, investment, or asset or liability management purposes, and that provides for (i) an exchange of payments based on interest rates, or ceilings or floors on such payments; (ii) options on such payments; (iii) any combination of the foregoing; or (iv) any similar device. A Payment Agreement may be entered into on either a current or forward basis. A Payment Agreement must be entered into in connection with (or incidental to) the issuance, incurring, or carrying of particular bonds, notes, bond anticipation notes, commercial paper, or other obligations for borrowed money (which may include leases, installment purchase contracts, or other similar financing agreements or certificates of participation in any of the foregoing).

“Payment Agreement Payments” means the amounts periodically required to be paid by the City to a Qualified Counterparty pursuant to a Payment Agreement.

“Payment Agreement Receipts” means the amounts periodically required to be paid by a Qualified Counterparty to the City pursuant to a Payment Agreement.

“Permitted Investments” means any investments or investment agreements permitted for the investment of City funds under the laws of the State, as amended at any time.

“Plan of Additions” means the CIP. The Plan of Additions includes (a) the purchase and installation of

all materials, supplies, appliances, equipment and facilities; (b) the acquisition of all permits, franchises, property and property rights, and other capital assets; and (c) all engineering, consulting and other professional services and studies (whether performed by the City or by other public or private entities), each as necessary or convenient to carry out the Plan of Additions. The Plan of Additions includes all amendments, updates, supplements or replacements to the CIP, all of which automatically shall constitute amendments to the Plan of Additions. The Plan of Additions also may be modified to include other improvements, without amending the CIP, if the City determines by ordinance that those amendments or other improvements constitute a system or plan of additions to or betterments or extensions of the Drainage and Wastewater System.

“Pricing Certificate” means a certificate executed by the Director of Finance as of the pricing date confirming the Bond Sale Terms for the sale of a Series of Bonds to the Purchaser in a competitive sale, in accordance with the parameters set forth in Section 5 of this ordinance.

“Principal and Interest Subaccount” means the subaccount of that name created in the Parity Bond Account for the payment of the principal of and interest on Parity Bonds.

“Purchaser” means the entity or entities who have been selected by the Director of Finance in accordance with this ordinance as underwriter, purchaser, or successful bidder in a sale of any Series.

“Qualified Counterparty” means a party (other than the City or a party related to the City) who is the other party to a Payment Agreement, (a)(i) whose senior debt obligations are rated in one of the three highest rating categories of each Rating Agency (without regard to any gradations within a rating category), or (ii) whose obligations under the Payment Agreement are guaranteed for the entire term of the Payment Agreement by a bond insurer or other institution that has been assigned a credit rating in one of the two highest rating categories of each Rating Agency (without regard to any gradations within a rating category); and (b) who is otherwise qualified to act as the other party to a Payment Agreement under any applicable laws of the State.

“Qualified Insurance” means any Bond Insurance that, as of the time of issuance of such credit enhancement device, is provided by an entity rated in one of the two highest rating categories (without regard

to any gradations within a rating category) by at least two nationally recognized rating agencies.

“Qualified Letter of Credit” means any letter of credit, standby bond purchase agreement, or other liquidity facility issued by a financial institution for the account of the City in connection with the issuance of any Parity Bonds, which institution maintains an office, agency or branch in the United States and, as of the time of issuance of such instrument, is rated in one of the two highest rating categories (without regard to any gradations within such rating categories) by at least two nationally recognized rating agencies.

“Rate Stabilization Account” means the account of that name created in the Drainage and Wastewater Fund pursuant to Ordinance 118974.

“Rating Agency” means any nationally recognized rating agency then maintaining a rating on a series of then outstanding Parity Bonds at the request of the City.

“RBI” means *The Bond Buyer* Revenue Bond Index or comparable index, or, if no comparable index can be obtained, 80 percent of the interest rate for actively traded 30-year United States Treasury obligations.

“Record Date” means, unless otherwise defined in the Bond Documents, in the case of each interest or principal payment date, the Bond Registrar’s close of business on the 15th day of the month preceding such interest or principal payment date. With regard to redemption of a Bond prior to its maturity, the Record Date shall mean the Bond Registrar’s close of business on the day prior to the date on which the Bond Registrar sends the notice of redemption to the Registered Owner(s) of the affected Bonds.

“Refundable Bonds” means Parity Bonds that may be refunded pursuant to the Omnibus Refunding Ordinance. Each Series of the Bonds issued pursuant to this ordinance is designated as a series of Refundable Bonds.

“Refunding Parity Bonds” means Future Parity Bonds that satisfy the applicable Parity Conditions and are issued pursuant to the Omnibus Refunding Ordinance, or other Future Parity Bond Ordinance, for the purpose of refunding any Refundable Bonds.

“Registered Owner” means, with respect to a Bond, the person in whose name that Bond is registered

on the Bond Register. For so long as a Series of the Bonds is in Book-Entry Form under the Letter of Representations, the Registered Owner of such Series shall mean the Securities Depository.

“Reserve Covenant Date” means the earlier of: (a) the date on which the City has obtained consents of the requisite percentage of Registered Owners of the Parity Bonds then outstanding, in accordance with the provisions of the applicable Outstanding Parity Bond Documents; or (b) the date on which all of the following Outstanding Parity Bonds have been redeemed or defeased: Drainage and Wastewater Revenue Bonds, 2009A (Taxable Build America Bonds - Direct Payment), Drainage and Wastewater Improvement and Refunding Revenue Bonds, 2014, and Drainage and Wastewater System Improvement and Refunding Revenue Bonds, 2016.

“Reserve Requirement” means the least of (a) Maximum Annual Debt Service on all Parity Bonds outstanding at the time of calculation, (b) 1.25 times Average Annual Debt Service on all Parity Bonds outstanding at the time of calculation, or (c) the sum of 10 percent of the proceeds of each series of Parity Bonds then outstanding, as of the delivery of each such series. *From and after the Reserve Covenant Date, the Reserve Requirement shall mean the lesser of (a) Maximum Annual Debt Service on all Covered Parity Bonds outstanding at the time of calculation, or (b) 1.25 times Average Annual Debt Service on all Covered Parity Bonds outstanding at the time of calculation. In no event shall the Reserve Requirement exceed the sum of 10 percent of the proceeds of each series of Covered Parity Bonds then outstanding, determined as of the Issue Date of each such series.*

“Reserve Security” means any Qualified Insurance or Qualified Letter of Credit obtained by the City to satisfy part or all of the Reserve Requirement, and which is not cancelable on less than three years’ notice.

“Reserve Subaccount” means the subaccount of that name created in the Parity Bond Account for the purpose of securing the payment of the principal of and interest on Parity Bonds.

“Rule 15c2-12” means Rule 15c2-12 promulgated by the SEC under the Securities Exchange Act of 1934, as amended.

“**SEC**” means the United States Securities and Exchange Commission.

“**Securities Depository**” means DTC, any successor thereto, any substitute securities depository selected by the City, or the nominee of any of the foregoing. Any successor or substitute Securities Depository must be qualified under applicable laws and regulations to provide the services proposed to be provided by it.

“**Serial Bonds**” means Parity Bonds maturing in specified years, for which no Sinking Fund Requirements are mandated.

“**Series**” means a series of the Bonds issued pursuant to this ordinance.

“**Sinking Fund Account**” means any account created in the Parity Bond Account to amortize the principal of or make mandatory redemptions of Term Bonds.

“**Sinking Fund Requirement**” means, for any calendar year, the principal amount and premium, if any, of Term Bonds required to be purchased, redeemed, paid at maturity or paid into any Sinking Fund Account for such calendar year, as established pursuant to the Bond Documents relating to such Term Bonds.

“**State**” means the State of Washington.

“**State Auditor**” means the office of the Auditor of the State or such other department or office of the State authorized and directed by State law to make audits.

“**System of Registration**” means the system of registration for the City’s bonds and other obligations established pursuant to Seattle Municipal Code Chapter 5.10, as amended.

“**Tax Credit Subsidy Bond**” means any Taxable Bond that is designated by the City as a tax credit bond pursuant to the Code, and which is further designated as a “qualified bond” under Section 6431 or similar provision of the Code, and with respect to which the City is eligible to claim a Tax Credit Subsidy Payment.

“**Tax Credit Subsidy Payment**” means a payment by the federal government with respect to a Tax Credit Subsidy Bond.

“**Tax-Exempt Bond**” means any Parity Bond the interest on which is intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“Taxable Bond” means any Parity Bond the interest on which is not intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“Term Bond” means any Parity Bond that is issued subject to mandatory redemption in Sinking Fund Requirements prior to its maturity.

“ULID” means a utility local improvement district of the City created for the acquisition or construction of additions to and betterments and extensions of the Drainage and Wastewater System.

“ULID Assessments” means all assessments levied and collected in a ULID, if and only if those assessments are pledged to be paid into the Parity Bond Account, in which case they shall be included in Gross Revenue. ULID Assessments shall include all installments of principal, payments of interest, and penalties and interest on delinquencies, but shall not include any prepaid assessments paid into a construction fund or account.

“Valuation Date” means, with respect to any Capital Appreciation Bond, the date or dates, determined as set forth in the Parity Bond Documents relating to the relevant series of Parity Bonds, on which specific Accreted Values are assigned to that Capital Appreciation Bond.

“Variable Interest Rate” means any interest rate that fluctuates during the stated term of a Parity Bond (or during a stated period during which the Parity Bond is designated as a Variable Interest Rate Bond), whether due to a remarketing, a market index reset, or other mechanism set forth in the applicable Bond Documents.

The Bond Documents for any Series of the Bonds bearing interest at a Variable Interest Rate shall set forth: (a) the available method(s) of computing interest (the “interest rate modes”); (b) the particular period or periods of time (or manner of determining such period or periods of time) for which each value of such Variable Interest Rate (or each interest rate mode) shall remain in effect; (c) provisions for conversion from one interest rate mode to another and for setting or resetting the interest rates; and (d) the time or times upon which any change in such Variable Interest Rate (or any conversion of interest rate modes) shall become effective.

“Variable Interest Rate Bond” means, for any period of time, any Parity Bond that bears interest at a

Variable Interest Rate during that period. A Parity Bond shall not be treated as a Variable Interest Rate Bond if the net economic effect of: (a) interest rates on a particular series of Parity Bonds, as set forth in the applicable Bond Documents, and (b) either (i) interest rates on another series of Parity Bonds issued at substantially the same time, or (ii) a Payment Agreement related to that particular series of Parity Bonds, is to produce obligations that bear interest at a fixed rate. A Parity Bond with respect to which a Payment Agreement is in force shall be treated as a Variable Interest Rate Bond if the net economic effect of the Payment Agreement is to produce an obligation that bears interest at a Variable Interest Rate.

Section 2. **Adoption of Plan of Additions.** The City specifies, adopts, and orders the Plan of Additions to be carried out as generally provided for in the documents comprising the Plan of Additions. The estimated cost of the Plan of Additions, as near as may be determined, is declared to be \$957 million, of which approximately \$95 million is expected to be financed from proceeds of the Bonds and investment earnings thereon.

Section 3. **Authorization of Bonds; Due Regard Finding.**

(a) **The Bonds.** The City is authorized to issue Drainage and Wastewater System revenue bonds, payable from the sources described in Section 13 of this ordinance, in the maximum principal amount stated in Section 5 of this ordinance, to provide funds (a) to pay part of the cost of carrying out the Plan of Additions; (b) to provide for the Reserve Requirement (if necessary); (c) to capitalize interest on (if necessary) and pay the costs of issuance of the Bonds; and (d) for other Drainage and Wastewater System purposes approved by ordinance. The Bonds may be issued in one or more Series and may be combined with other Drainage and Wastewater System revenue bonds (including Refunding Parity Bonds) authorized separately. The Bonds shall be designated Drainage and Wastewater System Revenue Bonds, shall be numbered separately, and shall have any name, year, series, or other labels as deemed necessary or appropriate by the Director of Finance.

(b) **City Council Finding.** The City Council finds that, in creating the Parity Bond Account and in fixing the amounts to be paid into it in accordance with this ordinance and the parameters for the Bond Sale

Terms set forth in Section 5 of this ordinance, the City Council has exercised due regard for the cost of operation and maintenance of the Drainage and Wastewater System, and is not setting aside into the Parity Bond Account a greater amount than in the judgment of the City Council, based on the rates established from time to time consistent with subsection 16(b) of this ordinance, will be sufficient, in the judgment of the City Council, to meet all expenses of operation and maintenance of the Drainage and Wastewater System and to provide the amounts previously pledged for the payment of all outstanding obligations payable out of Gross Revenues and pledged for the payment of the Bonds. Therefore, the City Council finds that the issuance and sale of the Bonds is in the best interest of the City and in the public interest.

Section 4. **Manner of Sale of Bonds**. The Director of Finance may provide for the sale of each Series of the Bonds by competitive sale, negotiated sale, limited offering, or private placement and may select and enter into agreements with remarketing agents or providers of liquidity with respect to Variable Interest Rate Bonds. The Purchaser of each Series shall be chosen through a selection process acceptable to the Director of Finance. The Director of Finance is authorized to specify a date and time of sale and a date and time for the delivery of each Series; in the case of a competitive sale, to provide an official notice of sale including bid parameters and other bid requirements, and to provide for the use of an electronic bidding mechanism; to determine matters relating to a forward or delayed delivery of the Bonds; and to determine such other matters and take such other action as, in the Director's determination, may be necessary, appropriate, or desirable in order to carry out the sale of each Series. Each Series must be sold on Bond Sale Terms consistent with the parameters set forth in Section 5 of this ordinance.

Section 5. **Appointment of Designated Representative; Bond Sale Terms**.

(a) **Designated Representative**. The Director of Finance is appointed to serve as the City's designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and this ordinance.

(b) **Parameters for Bond Sale Terms**. The Director of Finance is authorized to approve, on behalf of

the City, Bond Sale Terms for the sale of the Bonds in one or more Series, and, in connection with each such sale, to execute a Bond Purchase Contract (or, in the case of a competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with the following parameters:

(i) **Maximum Principal Amount.** The maximum aggregate principal amount of all Series of the Bonds authorized by this ordinance is not to exceed \$95 million.

(ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance. The initial Issue Date (without restricting any reissuance date with respect to a Series of Variable Interest Rate Bonds) may be no later than December 31, 2026.

(iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

(iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, whichever is later, unless otherwise provided in the Bond Documents. Each Series of the Bonds shall bear interest at one or more fixed interest rates or Variable Interest Rates. The true interest cost for any fixed rate Series may not exceed a rate of 10 percent per annum. The Bond Documents for any Series may provide for multiple interest rates and interest rate modes, and may provide conditions and mechanisms for the Director of Finance to effect a conversion from one mode to another. Nothing in this ordinance shall be interpreted to prevent the Bond Documents for any Series from including a provision for adjustments to interest rates during the term of the Series upon the occurrence of certain events specified in the applicable Bond Documents.

(v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director of Finance, which shall include payment at the maturity of each Bond, in accordance with any Sinking Fund Requirements applicable to Term Bonds, and otherwise in accordance with any redemption or tender provisions.

(vi) **Final Maturity.** Each Bond shall mature no later than 40 years after its Issue Date.

(vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption and tender provisions, as determined by the Director of Finance in the Director's discretion, consistent with Section 8 of this ordinance and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as subject to optional redemption prior to its maturity, consistent with subsection 8(a) of this ordinance. Any Bond that is subject to optional redemption prior to maturity must be callable on at least one or more dates occurring not more than 10-1/2 years after the Issue Date.

(B) **Mandatory Redemption.** The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity on the dates and in principal payment amounts set forth in the Sinking Fund Requirements, consistent with subsection 8(b) of this ordinance.

(C) **Extraordinary Redemption.** The Director of Finance may designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent with subsection 8(c) of this ordinance.

(D) **Tender Options.** The Director of Finance may designate any Variable Interest Rate Bond as subject to tender options, as set forth in the applicable Bond Documents.

(viii) **Price.** The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in the Director's judgment, the price that produces the most advantageous borrowing cost for the City, consistent with the parameters set forth in this ordinance and in any applicable bid documents.

(ix) **Other Terms and Conditions.**

(A) **Expected Life of Capital Facilities.** As of the Issue Date of each Series, the Director of Finance must additionally find to the Director's satisfaction that the average expected life of the capital facilities to be financed with the proceeds (or allocable share of proceeds) of that Series must exceed the

weighted average maturity of such Series (or share thereof) allocated to financing those capital facilities.

(B) **Parity Conditions Satisfied.** As of the Issue Date of each Series, the Director of Finance must find that the Parity Conditions have been met or otherwise satisfied, so that such Series is permitted to be issued as Parity Bonds.

(C) **Additional Terms, Conditions, and Agreements.** The Bond Sale Terms for any Series may provide for Bond Insurance or other credit enhancement, a Reserve Security, Qualified Letter of Credit, or Payment Agreement as the Director of Finance may find necessary or desirable. The Bond Sale Terms for any Series may provide for multiple interest rate modes and may include provisions for conversion from any interest rate mode to any other interest rate mode. To that end, the Bond Sale Terms may include such additional terms, conditions, and covenants as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of the Bonds), provisions for the conversion of interest rate modes, provisions for the reimbursement of a credit enhancement provider or Qualified Counterparty, and requirements to give notice to or obtain the consent of a credit enhancement provider or a Qualified Counterparty. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants.

(D) **Reserve Requirement.** The Bond Sale Terms must establish whether the Series is to be treated as Covered Parity Bonds and must establish the method of providing for the Reserve Requirement, consistent with Section 15 of this ordinance.

(E) **Tax Status of the Bonds.** The Director of Finance may determine that any Series of the Bonds may be designated or qualified as Tax-Exempt Bonds, Taxable Bonds, or Tax Credit Subsidy Bonds, consistent with Section 22 of this ordinance.

Section 6. **Bond Registrar; Registration and Transfer of Bonds.**

(a) **Registration and Bond Registrar.** The Bonds shall be issued only in registered form as to both

principal and interest and shall be recorded on the Bond Register. The Fiscal Agent is appointed to act as Bond Registrar for each Series of the Bonds, unless otherwise determined by the Director of Finance.

(b) **Transfer and Exchange of Bonds.** The Bond Registrar shall keep, or cause to be kept, sufficient books for the registration and transfer of the Bonds, which shall be open to inspection by the City at all times. The Bond Register shall contain the name and mailing address of the Registered Owner of each Bond and the principal amount and number of each of the Bonds held by each Registered Owner.

The Bond Registrar is authorized, on behalf of the City, to authenticate and deliver Bonds transferred or exchanged in accordance with the provisions of the Bonds and this ordinance, to serve as the City's paying agent for the Bonds and to carry out all of the Bond Registrar's powers and duties under this ordinance and the System of Registration.

The Bond Registrar shall be responsible for its representations contained in the Bond Registrar's certificate of authentication on the Bonds. The Bond Registrar may become an Owner of Bonds with the same rights it would have if it were not the Bond Registrar and, to the extent permitted by law, may act as depository for and permit any of its officers or directors to act as members of, or in any other capacity with respect to, any committee formed to protect the rights of Owners.

Bonds surrendered to the Bond Registrar may be exchanged for Bonds in any Authorized Denomination of an equal aggregate principal amount and of the same Series, interest rate and maturity. Bonds may be transferred only if endorsed in the manner provided thereon and surrendered to the Bond Registrar. Any exchange or transfer shall be without cost to an Owner or transferee. The Bond Registrar shall not be obligated to exchange or transfer any Bond during the period between the Record Date and the corresponding interest payment or principal redemption date.

(c) **Securities Depository; Book-Entry Form.** Unless otherwise determined by the Director of Finance, the Bonds initially shall be issued in Book-Entry Form and registered in the name of the Securities Depository. The Bonds so registered shall be held fully immobilized in Book-Entry Form by the Securities

Depository in accordance with the provisions of the Letter of Representations. Neither the City nor the Bond Registrar shall have any responsibility or obligation to participants of the Securities Depository or the persons for whom they act as nominees with respect to the Bonds regarding the accuracy of any records maintained by the Securities Depository or its participants of any amount in respect of principal of or interest on the Bonds, or any notice that is permitted or required to be given to Registered Owners hereunder (except such notice as is required to be given by the Bond Registrar to the Securities Depository). Registered ownership of a Bond initially held in Book-Entry Form, or any portion thereof, may not be transferred except: (i) to any successor Securities Depository; (ii) to any substitute Securities Depository appointed by the City or such substitute Securities Depository's successor; or (iii) to any person if the Bond is no longer held in Book-Entry Form.

Upon the resignation of the Securities Depository from its functions as depository, or upon a determination by the Director of Finance to discontinue utilizing the then-current Securities Depository, the Director of Finance may appoint a substitute Securities Depository. If the Securities Depository resigns from its functions as depository and no substitute Securities Depository can be obtained, or if the Director of Finance determines not to utilize a Securities Depository, then the Bonds shall no longer be held in Book-Entry Form and ownership may be transferred only as provided in this ordinance.

Nothing in this ordinance shall prevent the Bond Sale Terms from providing that a Series of the Bonds shall be issued in certificated form without utilizing a Securities Depository, and that the Bonds of such Series shall be registered as of their Issue Date in the names of the Owners thereof, in which case ownership may be transferred only as provided in this ordinance.

(d) **Lost or Stolen Bonds.** In case any Bond shall be lost, stolen or destroyed, the Bond Registrar may authenticate and deliver a new Bond or Bonds of like amount, date, tenor, and effect to the Registered Owner(s) thereof upon the Registered Owner(s)' paying the expenses and charges of the City in connection therewith and upon filing with the Bond Registrar evidence satisfactory to the Bond Registrar that such Bond or Bonds were actually lost, stolen or destroyed and of Registered Ownership thereof, and upon furnishing the City with

indemnity satisfactory to both the City and the Bond Registrar.

Section 7. **Payment of Bonds.**

(a) **Payment.** Each Bond shall be payable in lawful money of the United States of America on the dates and in the amounts as provided in the Bond Documents applicable to that Series. Principal of and interest on each Bond issued as a Parity Bond shall be payable solely out of the Parity Bond Account and shall not be a general obligation of the City. No Bonds of any Series shall be subject to acceleration under any circumstances.

(b) **Bonds Held in Book-Entry Form.** Principal of and interest on each Bond held in Book-Entry Form shall be payable in the manner set forth in the Letter of Representations.

(c) **Bonds Not Held in Book-Entry Form.** Interest on each Bond not held in Book-Entry Form shall be payable by electronic transfer on the interest payment date, or by check or draft of the Bond Registrar mailed on the interest payment date to the Registered Owner at the address appearing on the Bond Register on the Record Date. The City, however, is not required to make electronic transfers except pursuant to a request by a Registered Owner in writing received at least ten days prior to the Record Date and at the sole expense of the Registered Owner. Principal of each Bond not held in Book-Entry Form shall be payable upon presentation and surrender of the Bond by the Registered Owner to the Bond Registrar.

Section 8. **Redemption and Purchase of Bonds.**

(a) **Optional Redemption.** All or some of the Bonds may be subject to redemption prior to their stated maturity dates at the option of the City on the dates and terms set forth in the applicable Bond Documents.

(b) **Mandatory Redemption.** All or some of the Bonds of any Series may be designated as Term Bonds, subject to mandatory redemption in Sinking Fund Requirements, as set forth in the applicable Bond Documents. If not redeemed or purchased at the City's option prior to maturity, Term Bonds (if any) must be redeemed, at a price equal to 100 percent of the principal amount to be redeemed plus accrued interest, on the dates and in the Sinking Fund Requirements as set forth in the applicable Bond Documents.

If the City optionally redeems or purchases a principal portion of a Term Bond prior to its maturity, the

principal amount so redeemed or purchased (irrespective of its redemption or purchase price) shall be credited against the remaining mandatory redemption installment payments for that Term Bond in the manner directed by the Director of Finance. In the absence of direction by the Director of Finance, credit shall be allocated to each mandatory redemption installment payment for that Term Bond on a pro rata basis.

(c) **Extraordinary Redemption.** All or some of the Bonds of any Series may be subject to extraordinary optional redemption or extraordinary mandatory redemption prior to maturity upon the occurrence of an extraordinary event, at the prices, in the principal amounts, and on the dates, all as set forth in the applicable Bond Documents.

(d) **Selection of Bonds for Redemption; Partial Redemption.** If fewer than all of the outstanding Bonds of a Series are to be redeemed at the option of the City, the Director of Finance shall select the maturity or maturities to be redeemed. If less than all of the principal amount of a maturity of the selected Series is to be redeemed and if such Series is held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected for redemption by the Securities Depository in accordance with the Letter of Representations. If the Series is not then held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected by the Bond Registrar at random in such manner as the Bond Registrar shall determine. All or a portion of the principal amount of any Bond that is to be redeemed may be redeemed in any applicable Authorized Denomination. If less than all of the outstanding principal amount of any Bond is redeemed, upon surrender of that Bond to the Bond Registrar there shall be issued to the Registered Owner, without charge, a new Bond (or Bonds, at the option of the Registered Owner) of the same Series, maturity, and interest rate in any Authorized Denomination in the aggregate principal amount to remain outstanding.

(e) **Purchase.** The City reserves the right and option to purchase any or all of the Bonds at any time at any price acceptable to the City plus accrued interest to the date of purchase.

Section 9. **Notice of Redemption; Rescission of Notice.** Unless otherwise set forth in the applicable Bond Documents, the City must cause notice of any intended redemption of Bonds to be given not fewer than

20 nor more than 60 days prior to the date fixed for redemption by first class mail, postage prepaid, to the Registered Owner of any Bond to be redeemed at the address appearing on the Bond Register on the Record Date, and the requirements of this sentence shall be deemed to have been fulfilled when notice has been mailed as so provided, whether or not it is actually received by the Owner of any Bond. Interest on Bonds called for redemption shall cease to accrue on the date fixed for redemption unless the Bond or Bonds called are not redeemed when presented pursuant to the call.

In the case of an optional or extraordinary optional redemption, the notice may state that the City retains the right to rescind the redemption notice and the related optional redemption of Bonds by giving a notice of rescission to the affected Registered Owners at any time on or prior to the scheduled optional redemption date. Any notice of optional redemption that is rescinded by the Director of Finance shall be of no effect, and the Bonds for which the notice of optional redemption has been rescinded shall remain outstanding.

Section 10. **Failure to Pay Bonds**. If any Bond is not paid when properly presented at its maturity or redemption date, the City shall be obligated to pay, solely from the Parity Bond Account and the other sources pledged in this ordinance, interest on that Bond at the same rate provided on that Bond from and after its maturity or redemption date until that Bond, including principal, premium (if any), and interest, is paid in full or until sufficient money for its payment in full is on deposit in the Parity Bond Account and that Bond has been called for payment by giving notice of that call to the Registered Owner of that Bond.

Section 11. **Form and Execution of Bonds**. The Bonds shall be typed, printed, or reproduced in a form consistent with the provisions of this ordinance and State law; shall be signed by the Mayor and Director of Finance, either or both of whose signatures may be manual or in facsimile; and the seal of the City or a facsimile reproduction thereof shall be impressed or printed thereon.

Only Bonds bearing a certificate of authentication in substantially the following form (with the designation, year, and Series adjusted consistent with this ordinance) and manually signed by the Bond Registrar shall be valid or obligatory for any purpose or entitled to the benefits of this ordinance: “This Bond is

one of the fully registered The City of Seattle, Washington, [Drainage and Wastewater Revenue Bonds], [Year], [Series], described in [this ordinance].” The authorized signing of a certificate of authentication shall be conclusive evidence that the Bond so authenticated has been duly executed, authenticated and delivered and is entitled to the benefits of this ordinance.

If any official whose manual or facsimile signature appears on a Bond ceases to be an officer of the City authorized to sign bonds before the Bond bearing that officer’s manual or facsimile signature is authenticated or delivered by the Bond Registrar or issued by the City, that Bond nevertheless may be authenticated, delivered, and issued and, when authenticated, delivered, and issued, shall be as binding on the City as though that person had continued to be an officer of the City authorized to sign bonds. Any Bond also may be signed on behalf of the City by any person who, on the actual date of signing of the Bond, is an officer of the City authorized to sign bonds, although the person did not hold the required office on the Issue Date of that Series of the Bonds.

Section 12. **Construction Account; Deposit of Proceeds**. An account to be known as the Drainage and Wastewater Construction Subaccount, 2024 is created in the Drainage and Wastewater Construction Account within the Drainage and Wastewater Fund. After depositing accrued interest (if any) into the Principal and Interest Subaccount and depositing amounts (if any) necessary to provide for the Reserve Requirement (if any) into the Reserve Subaccount, the remaining principal proceeds of the sale of a Series of the Bonds shall be deposited into the Construction Account (or such other fund or account as may be directed by the Director of Finance) to be used (a) to pay part of the costs of carrying out the Plan of Additions, and (b) to pay capitalized interest on (if necessary) and the costs of issuance of the Series. Until needed to pay such costs, the City may temporarily invest principal proceeds and interest earned thereon in any Permitted Investments, and the investment earnings may be either (a) retained in the Construction Account to be spent for the purposes of that account, or (b) deposited in the Parity Bond Account, as determined by the Director of Finance.

Section 13. **Security for the Bonds; Parity with Outstanding Parity Bonds**. The Bonds shall be special limited obligations of the City payable from and secured solely by the Net Revenue (including all ULID

Assessments, if any) and money in the Parity Bond Account and the subaccounts therein, *except that from and after the Reserve Covenant Date, money in the Reserve Subaccount shall secure only Covered Parity Bonds.*

The Net Revenue (including all ULID Assessments, if any) is pledged to make the payments into the Parity Bond Account required by this ordinance. This pledge constitutes a charge and lien upon such Net Revenue prior and superior to all other liens and charges whatsoever.

The Bonds shall be issued on parity with the Outstanding Parity Bonds and all Future Parity Bonds, without regard to date of issuance or authorization and without preference or priority of right or lien. Nothing in this ordinance prevents the City from issuing revenue bonds or other obligations that are a charge or lien upon Net Revenue subordinate to the payments required to be made from Net Revenue into the Parity Bond Account and the subaccounts therein. The City covenants that, for as long as any Bond is outstanding, it will not issue any other revenue obligations (or create any special fund or account therefor) that will have any priority over, or that will rank on a parity with, the payments required in respect of the Parity Bonds, and that it will issue Future Parity Bonds only accordance with Section 17 of this ordinance.

The Bonds shall not constitute general obligations of the City, the State or any political subdivision of the State or a charge upon any general fund or upon any money or other property of the City, the State or any political subdivision of the State not specifically pledged by this ordinance.

Section 14. **Priority Expenditure of Gross Revenue; Flow of Funds.** Gross Revenue shall be deposited as received in the Drainage and Wastewater Fund and used for the following purposes only, in the following order of priority:

- (a) To pay Operating and Maintenance Expense;
- (b) To make all payments into the Principal and Interest Subaccount required to be made in order to pay the interest on and principal of all Parity Bonds (including all net payments under Parity Payment Agreements) when due;
- (c) To make all payments required to be made (i) into the Reserve Subaccount with respect to Covered

Parity Bonds, and (ii) under any agreement with a provider of a Reserve Security, which agreement requires those payments to be treated on a parity of lien with the payments required to be made into the Reserve Subaccount;

(d) To make all payments required to be made into any revenue bond, note, warrant or other revenue obligation redemption fund, debt service account, or reserve account created to pay and secure the payment of the principal of and interest on any revenue bonds or short-term obligations of the City having a charge and lien upon Net Revenue subordinate to the lien thereon for the payment of the principal of and interest on the Parity Bonds; and

(e) Without priority, to any of the following purposes: to retire by redemption or purchase any outstanding revenue bonds or revenue obligations of the Drainage and Wastewater System; to make necessary additions, betterments, improvements, repairs, extensions, and replacements of the Drainage and Wastewater System; to pay City taxes or other payments in lieu of taxes payable from Gross Revenue; to make deposits to the Rate Stabilization Account; or for any other lawful purpose of the Drainage and Wastewater System.

Section 15. **Parity Bond Account**. A special account of the City known as the Parity Bond Account has been previously created and shall be maintained as a separate account within the Drainage and Wastewater Fund, for the sole purpose of paying the principal of and premium, if any, and interest on the Parity Bonds as the same shall become due. The Parity Bond Account consists of the Principal and Interest Subaccount and the Reserve Subaccount, and may additionally include such subaccounts as the Director of Finance may deem necessary, so long as the maintenance of such subaccounts does not conflict with the rights of the owners of Parity Bonds. Principal of, premium (if any), and interest on the Parity Bonds shall be payable out of the Parity Bond Account.

(a) **Required Payments into the Parity Bond Account**. So long as any Parity Bonds are outstanding (including amounts required under any Parity Payment Agreement), the City shall set aside and pay into the Parity Bond Account all ULID Assessments upon their collection and, out of Net Revenue, certain fixed

amounts without regard to any fixed proportion, namely:

(i) Into the Principal and Interest Subaccount on or before each date on which interest on or principal of Parity Bonds (including Sinking Fund Requirements and net payments under any Parity Payment Agreements) shall become due and payable, an amount that will be sufficient, together with other money on deposit therein, to pay such principal, interest, Sinking Fund Requirements, and net payments then due on Parity Payment Agreements as the same shall become due; and

(ii) Into the Reserve Subaccount, an amount necessary to provide for the Reserve Requirement within the time and in the manner required by this ordinance and the Bond Sale Terms. The amount necessary, if any, to satisfy the Reserve Requirement upon the issuance of a Series of the Bonds may be funded (A) on the Issue Date, by a deposit of Bond sale proceeds, available funds of the Drainage and Wastewater System, or a Reserve Security; or (B) in annual installments from Net Revenue so that the Reserve Requirement is fully funded by no later than the fifth anniversary of the Issue Date of such Series. The manner of funding the Reserve Requirement for the Bonds shall be set forth in the Bond Documents.

To meet the required payments to be made into the Parity Bond Account, the Director of Finance may transfer any money from any funds or accounts of the City legally available therefor, except bond redemption funds, refunding escrow funds or defeasance funds. The Director of Finance may provide for the purchase, redemption, or defeasance of any Parity Bonds by the use of money on deposit in any subaccount in the Parity Bond Account as long as the money remaining in those subaccounts is sufficient to satisfy the required deposits in those subaccounts for the remaining Parity Bonds.

(b) **Reserve Subaccount.** The Reserve Subaccount has been previously created and is maintained as a subaccount within the Parity Bond Account for the purpose of securing the payment of the principal of and interest on all Parity Bonds outstanding (including amounts due under any Parity Payment Agreements if required under such agreement). The City covenants that it will at all times, so long as any Covered Parity Bonds are outstanding, maintain the Reserve Subaccount at the Reserve Requirement (taking into account

scheduled payments to fund the Reserve Requirement over time), as it is adjusted from time to time, except for withdrawals as authorized by this ordinance. Any withdrawals authorized below from subaccounts within the Reserve Subaccount shall be made on a *pro rata* basis except if the provider of a Reserve Security requires all cash and investments in the Reserve Subaccount to be withdrawn before draws are made on the Reserve Security, or unless the City receives an opinion of Bond Counsel to the effect that such *pro rata* withdrawal is not required to maintain the exclusion of interest on the then outstanding Parity Bonds issued as Tax-Exempt Bonds from gross income for federal income tax purposes.

(i) **Use of Reserve Subaccount for Payment of Debt Service.** In the event of a deficiency in the Principal and Interest Subaccount to meet current installments of either principal (including Sinking Fund Requirements) or interest (including amounts payable under any Parity Payment Agreement), the Director of Finance may make withdrawals of money or proceeds of a Reserve Security in the Reserve Subaccount. *From and after the Reserve Covenant Date, the Reserve Subaccount shall secure the payment of principal of and interest on Covered Parity Bonds only and the withdrawals authorized by this paragraph shall be limited to the amounts necessary to meet maturing installments of either principal (or Sinking Fund Requirements) or interest (including net payments under Parity Payment Agreements) with respect only to Covered Parity Bonds.* Any deficiency created in the Reserve Subaccount by reason of any such withdrawal or claim against a Reserve Security shall then be made up from Net Revenue (including all ULID Assessments, if any) first available after making necessary provisions for the required payments into the Principal and Interest Subaccount.

(ii) **Application of Funds in Reserve Account.** The money in the Reserve Subaccount may be applied to the payment of the last outstanding Covered Parity Bonds, and when the total amount in the Parity Bond Account (including investment earnings) equals the total amount of principal of and interest on for all then outstanding Covered Parity Bonds to the last maturity thereof, no further payment need be made into the Parity Bond Account in respect of the Covered Parity Bonds. Money in the Reserve Subaccount (including

investment earnings) in excess of the Reserve Requirement may be withdrawn and deposited in the Principal and Interest Subaccount and spent for the purpose of retiring Covered Parity Bonds or may be deposited in any other fund or account and spent for any other lawful Drainage and Wastewater System purpose.

(c) Investment of Money in Parity Bond Account. All money in the Parity Bond Account may be kept in cash or invested in Permitted Investments maturing not later than the date needed (for investments in the Principal and Interest Subaccount) or the last maturity of any outstanding Parity Bonds (for investments in the Reserve Subaccount). In no event shall any money in the Parity Bond Account or any other money reasonably expected to be used to pay principal of and/or interest on the Parity Bonds be invested at a yield that would cause any Series issued as Tax-Exempt Bonds or Tax Credit Subsidy Bonds to be arbitrage bonds within the meaning of Section 148 of the Code. Income from investments in the Principal and Interest Subaccount shall be deposited in that subaccount. Income from investments in the Reserve Subaccount shall be deposited in that subaccount until the amount therein is equal to the Reserve Requirement for all Parity Bonds, and thereafter shall be deposited in the Principal and Interest Subaccount. Notwithstanding the provisions for deposit or retention of earnings in the Parity Bond Account, any earnings that are subject to a federal tax or rebate requirement may be withdrawn from the Parity Bond Account for deposit in a separate fund or account for that purpose. If no longer required for such rebate, money in that separate fund or account shall be returned to the Parity Bond Account.

(d) Failure to Deposit Money in Parity Bond Account. If the City fails to set aside and pay into the Parity Bond Account, or the subaccounts therein, the amounts set forth in this ordinance, the registered owner of any of the outstanding Parity Bonds may bring action against the City for failure to make the required deposits to the Parity Bond Account only in accordance with Section 25 of this ordinance regarding Events of Default.

Section 16. **Parity Bond Covenants.** The City covenants with the Owner of each Bond at any time outstanding, as follows:

(a) **Operation and Maintenance.** The City will pay all Operating and Maintenance Expense and otherwise meet the obligations of the City under this ordinance. It will at all times maintain and keep the Drainage and Wastewater System in good repair, working order, and condition, and will make all necessary and proper additions, betterments, renewals, and repairs thereto, and improvements, replacements and extensions thereof so that at all times the business carried on in connection therewith will be properly and advantageously conducted, and will at all times operate or cause to be operated the Drainage and Wastewater System and the business in connection therewith in an efficient manner and at a reasonable cost.

(b) **Establishment and Collection of Rates and Charges.** The City will establish, maintain, revise as necessary, and collect rates and charges for services and facilities provided by the Drainage and Wastewater System so that the Adjusted Net Revenue in each fiscal year will be at least equal to the Coverage Requirement. The failure of the City to comply with this covenant shall not be an Event of Default if the City promptly retains an Independent Utility Consultant to recommend to the City Council adjustments in the rates of the Drainage and Wastewater System necessary to meet the requirements of this covenant and if the City Council adopts the recommended modifications within 180 days of the date the failure became known to the City Council.

(c) **Sale or Disposition of Drainage and Wastewater System.**

(i) The City will not sell, lease, mortgage or in any manner encumber or dispose of all of the property of the Drainage and Wastewater System unless provision is made for the payment into the Parity Bond Account of an amount sufficient to pay the principal of (including redemption premium, if any) and interest on all Parity Bonds then outstanding.

(ii) Notwithstanding the foregoing, the City may sell, transfer, or otherwise dispose of a portion of any of the works, plant, properties, facilities or other part of the Drainage and Wastewater System, or any real or personal property comprising a part of the Drainage and Wastewater System consistent with one or more of the following:

(A) The City in its discretion may carry out such a transfer if provision is made for replacement of the transferred portion of the Drainage and Wastewater System, or for payment into the Parity Bond Account of the total amount of Gross Revenue received from the transferred portion of the Drainage and Wastewater System, which shall not be less than an amount which shall bear the same ratio to the amount of Parity Bonds then outstanding as (x) the Gross Revenue available for debt service for such outstanding bonds for the 12 months preceding such transfer from the transferred portion of the Drainage and Wastewater System bears to (y) the Gross Revenue available for debt service for the then-outstanding Parity Bonds from the entire Drainage and Wastewater System of the City for the same period. Any such money so paid into the Parity Bond Account shall be used to retire such Parity Bonds at the earliest possible date; or

(B) The City in its discretion may carry out such a sale, transfer, or disposition (each, a “transfer”) if the aggregate depreciated cost value of the facilities or property being transferred under this subsection in any fiscal year comprises no more than 5 percent of the total assets of the Drainage and Wastewater System; or

(C) The City in its discretion may carry out such a transfer if the proceeds from such transfer are used to acquire new useful operating facilities or properties of the Drainage and Wastewater System, or are used to retire outstanding Parity Bonds or other revenue obligations of the Drainage and Wastewater System, if, at the time of such transfer, the City has on file a certificate of both the Director of Finance and the Director of Seattle Public Utilities (or any officer who succeeds to substantially all of the responsibilities of either office) demonstrating that, in such officers’ opinions, upon such transfer and the use of proceeds of the transfer as proposed by the City, the remaining facilities of the Drainage and Wastewater System will retain their operational integrity and, based on the financial statements for the most recent fiscal year available, the proposed transfer would not prevent the Drainage and Wastewater System from complying with the Coverage Requirement during the five fiscal years following the fiscal year in which the transfer is to occur. The certificate shall take into account (A) the reduction in revenue and expenses, if any, resulting from

the transfer; (B) the use of any proceeds of the transfer for the redemption of Parity Bonds, (C) the estimate of revenue from customers anticipated to be served by any additions to and betterments and extensions of the Drainage and Wastewater System financed in part by the proposed portion of the proceeds of the transfer, and (D) any other adjustment permitted in the preparation of a certificate under subsection 17(b). Before completing any such transfer, the City must also obtain confirmation from each Rating Agency then supplying a rating on the Bonds at the request of the City to the effect that the rating then in effect will not be reduced or withdrawn upon such transfer, unless such Rating Agency no longer offers a rating confirmation service as part of its business.

Nothing in this covenant shall prevent the City from transferring facilities or property that are no longer necessary, material or useful to the operation of the Drainage and Wastewater System or that have become unserviceable, inadequate, obsolete, or unfit to be used in the operation of the Drainage and Wastewater System.

(d) **Books and Records.** The City will keep proper and separate accounts and records in which complete and separate entries shall be made of all transactions relating to the Drainage and Wastewater System, and it will furnish the Registered Owner(s) of the Bonds or any subsequent Registered Owner(s) thereof, at the written request of such Registered Owner(s), complete operating and income statements of the Drainage and Wastewater System in reasonable detail covering any fiscal year not more than six months after the close of such fiscal year, and it will grant any Registered Owner(s) of at least 25 percent of the outstanding Bonds the right at all reasonable times to inspect the entire Drainage and Wastewater System and all records, accounts and data of the City relating thereto. Upon request of any Registered Owner of any of the Bonds, it also will furnish to such Registered Owner a copy of the most recently completed audit of the Drainage and Wastewater System's accounts by the State Auditor.

Section 17. **Future Parity Bonds.**

(a) **Issuance of Future Parity Bonds.** The City reserves the right to issue Future Parity Bonds and to

enter into Parity Payment Agreements for any lawful purpose of the Drainage and Wastewater System (including for the purpose of refunding a portion of the then-outstanding Parity Bonds) only if, at the time of the issuance of such series of Future Parity Bonds (or upon the effective date of the Parity Payment Agreement), the following conditions are satisfied:

- (i) There must be no deficiency in the Parity Bond Account, and no Event of Default with respect to any Parity Bonds shall have occurred and be continuing.
- (ii) The Bond Documents for the proposed Future Parity Bonds must provide that all ULID Assessments shall be paid directly into the Parity Bond Account.
- (iii) The Bond Documents for the proposed Future Parity Bonds must provide for the payment of the principal thereof and the interest thereon out of the Parity Bond Account.
- (iv) The Bond Documents for the proposed Future Parity Bonds must provide for the payment of any Sinking Fund Requirements from money in the Principal and Interest Subaccount.
- (v) For each series of Future Parity Bonds that is to be issued as a series of Covered Parity Bonds, the Bond Documents must provide for the deposit into the Reserve Subaccount of an amount, if any, necessary to fund the Reserve Requirement upon the issuance of those Future Parity Bonds, which requirement may be satisfied: (A) by a deposit into the Reserve Subaccount, made on the issue date of such series, of proceeds of that series of Future Parity Bonds or other money legally available for such purpose; (B) by obtaining one or more Reserve Securities (or a deposit of cash plus Reserve Securities) available to be drawn upon in specific amounts to be paid into the Reserve Subaccount and credited against the deposits required to be maintained in the Reserve Subaccount; or (C) by a deposit into the Reserve Subaccount of amounts necessary to fund the Reserve Requirement from Net Revenue (including all ULID Assessments, if any) within five years from the date of issuance of those Future Parity Bonds, in five approximately equal annual payments. Immediately prior to the issuance of Future Parity Bonds, amounts then deposited in the Reserve Subaccount shall be valued as determined on the most recent annual financial report of the City applicable to the Drainage

and Wastewater System, and the additional amounts, if any, required to be deposited into the Reserve Subaccount to satisfy the Reserve Requirement shall be based on that valuation.

(vi) There must be on file with the City a Parity Certificate as described in subsection 17(b). However, if the proposed Future Parity Bonds (or any portion thereof) are to be issued for the purpose of refunding outstanding Parity Bonds (referred to as the “Refunding Parity Bonds”), no Parity Certificate shall be required as to that portion issued for refunding purposes if the Director of Finance finds and certifies that the Adjusted Annual Debt Service on the refunding portion of the proposed Refunding Parity Bonds is not more than \$5,000 greater than the Adjusted Annual Debt Service on the Parity Bonds to be refunded thereby. Alternatively, Refunding Parity Bonds may be issued upon delivery of a Parity Certificate.

(b) **Parity Certificate.** A Parity Certificate required under subsection 17(a)(vi) may be provided as follows:

(i) A certificate may be prepared and signed by the Director of Finance, demonstrating that during any 12 consecutive calendar months out of the immediately preceding 24 calendar months Adjusted Net Revenue was at least equal to the Coverage Requirement for all Parity Bonds plus the Future Parity Bonds proposed to be issued (and assuming that the debt service of the proposed Future Parity Bonds for that 12-month period was the Average Annual Debt Service for those proposed Future Parity Bonds); or

(ii) A certificate may be prepared and signed by both the Director of Finance and the Director of Seattle Public Utilities (or any officer who succeeds to substantially all of the responsibilities of either office), demonstrating that, in the opinion of each officer, Adjusted Net Revenue for the five fiscal years next following the earlier of (A) the end of the period during which interest on those Future Parity Bonds is to be capitalized or, if no interest is capitalized, the fiscal year in which the Future Parity Bonds are issued, or (B) the date on which substantially all the new facilities financed with those Future Parity Bonds are expected to commence operations, such Adjusted Net Revenue, further adjusted as provided in paragraphs (1) through (4) of this subsection, will be at least equal to the Coverage Requirement. That certificate may take into account the

following adjustments:

(1) Any changes in rates in effect and being charged, or rates expected to be charged in accordance with a program of specific rates, rate levels or increases in overall rate revenue approved by ordinance or resolution;

(2) Net revenue from customers of the Drainage and Wastewater System who have become customers during such 12-consecutive-month period or thereafter, and an estimate of net revenue from any customers to be connected to the Drainage and Wastewater System who have paid the required connection charges, adjusted to reflect one year's net revenue from those customers;

(3) An estimate of net revenue from customers anticipated to be served by facilities or improvements financed in substantial part by those Future Parity Bonds (or additional Parity Bonds expected to be issued during the five-year period); and

(4) Net revenue from any person, firm, corporation or municipal corporation under any executed contract for drainage and wastewater or other utility service, which revenue was not included in historical Net Revenue of the Drainage and Wastewater System.

(c) **Other Provisions.** Nothing contained in this ordinance shall prevent the City from issuing Future Parity Bonds to refund maturing Parity Bonds, money for the payment of which is not otherwise available, or revenue bonds that are a charge or lien upon Net Revenue subordinate to the charge or lien of the Parity Bonds, or from pledging to pay Net Revenue and/or assessments levied for ULID improvements constructed from the proceeds of subordinate lien bonds into a bond redemption fund created for the payment of the principal of and interest on subordinate lien bonds.

(d) **Effect of Issuance of Future Parity Bonds.** If the Parity Conditions are met and complied with at the time of the issuance of such Future Parity Bonds, then payments into the Parity Bond Fund with respect to such Future Parity Bonds shall rank equally with the payments out of Net Revenue required to be made into the Parity Bond Fund by this ordinance. Nothing set forth herein shall prevent the City from (i) issuing revenue

bonds or other obligations that are a charge upon the Net Revenue junior and inferior to the payments required to be made therefrom into the Parity Bond Fund for the payment of the Parity Bonds, provided that such subordinate bonds may not be subject to acceleration under any circumstances; or (ii) issuing Refunding Parity Bonds for the purpose of refunding outstanding Parity Bonds, upon compliance with the Parity Conditions set forth in this section.

(e) Reserve Requirement; Election Not to Designate Bonds as Covered Parity Bonds.

Notwithstanding anything in this section to the contrary, in the Bond Documents relating to the issuance or sale of a series of Future Parity Bonds, the City may elect that, from and after the Reserve Covenant Date, such series shall not be deemed to be a series of Covered Parity Bonds, shall not be secured by the amounts in the Reserve Subaccount, and shall be excluded from the calculation of the Reserve Requirement.

Section 18. **Rate Stabilization Account.** The Rate Stabilization Account has been created as a separate account in the Drainage and Wastewater Fund. The City may at any time, as determined by the Director of Finance and consistent with the flow of funds set forth in Section 14 of this ordinance, deposit in the Rate Stabilization Account Gross Revenue and any other money received by the Drainage and Wastewater System and available for this purpose. The Director of Finance may, upon authorization by the City Council, withdraw any or all of the money in the Rate Stabilization Account for inclusion in Adjusted Gross Revenue for any fiscal year of the City. Such deposits or withdrawals may be made up to and including the date 90 days after the end of the fiscal year for which the deposit or withdrawal will be included as Adjusted Gross Revenue. No deposit of Gross Revenue may be made into the Rate Stabilization Account to the extent that such deposit would prevent the City from meeting the Coverage Requirement in the relevant fiscal year.

Section 19. **Separate Utility Systems.** The City may create, acquire, construct, finance, own and operate one or more additional systems for drainage and wastewater service or other commodity or service relating to the Drainage and Wastewater System. The revenue of that separate utility system shall not be included in Gross Revenue and may be pledged to the payment of revenue obligations issued to purchase,

construct, condemn, or otherwise acquire or expand the separate utility system. Neither Gross Revenue nor Net Revenue shall be pledged by the City to the payment of any obligations of a separate utility system except (a) as a Contract Resource Obligation, upon compliance with Section 20 of this ordinance, or (b) with respect to Net Revenue, on a basis subordinate to the lien of the Parity Bonds on that Net Revenue.

Section 20. **Contract Resource Obligations**. The City may at any time enter into one or more Contract Resource Obligations for the acquisition, from facilities to be constructed, of drainage and wastewater services or other commodity or service relating to the Drainage and Wastewater System, as follows:

(a) The City may determine, and may agree under a Contract Resource Obligation to provide, that all payments under that Contract Resource Obligation (including payments prior to the time that drainage and wastewater services or other commodity or service is being provided, or during a suspension or after termination of supply or service) shall be an Operating and Maintenance Expense if the following requirements are met at the time such a Contract Resource Obligation is entered into:

(i) No Event of Default has occurred and is continuing; and

(ii) There shall be on file a certificate of an Independent Utility Consultant stating that (A) the payments to be made by the City in connection with the Contract Resource Obligation are reasonable for the commodity or service rendered; (B) any facilities to be constructed to provide the commodity or service are sound from a drainage and wastewater services or other commodity or service planning standpoint, are technically and economically feasible in accordance with prudent utility practice, and are likely to provide such commodity or service no later than a date set forth in the Independent Utility Consultant's certification; and (C) Adjusted Net Revenue (further adjusted by the Independent Utility Consultant's estimate of the payments to be made in accordance with the Contract Resource Obligation) for the five fiscal years following the year in which the Contract Resource Obligation is incurred, as such Adjusted Net Revenue is estimated by the Independent Utility Consultant in accordance with the provisions of and adjustments permitted in subsection 17(b)(ii), will be at least equal to the Coverage Requirement.

(b) Payments required to be made under Contract Resource Obligations shall not be subject to acceleration.

(c) Nothing in this section shall be deemed to prevent the City from entering into other agreements for the acquisition of drainage and wastewater services or other commodity or service from existing facilities and from treating those payments as an Operating and Maintenance Expense. Nothing in this section shall be deemed to prevent the City from entering into other agreements for the acquisition of drainage and wastewater services or other commodity or service from facilities to be constructed and from agreeing to make payments with respect thereto, such payments constituting a charge and lien on Net Revenue subordinate to that of the Parity Bonds.

Section 21. **Refunding and Defeasance of the Bonds.**

(a) **Bonds Designated as Refundable and Defeasible Bonds.** Each Series of the Bonds is designated as a series of “Refundable Bonds” for purposes of the Omnibus Refunding Ordinance and as “Defeasible Bonds” for purposes of the Omnibus Defeasance Ordinance.

(b) **Refunding; Defeasance.** The City may issue Refunding Parity Bonds pursuant to the laws of the State or use money available from any other lawful source (i) to pay when due the principal of, premium (if any), and interest on any Bond, or any portion thereof, included in a refunding or defeasance plan (the “Defeased Bonds”); (ii) to redeem and retire, release, refund, or defease the Defeased Bonds; and (iii) to pay the costs of such refunding or defeasance. If money and/or Government Obligations maturing at a time or times and in an amount sufficient (together with known earned income from the investment thereof) to redeem and retire, release, refund, or defease the Defeased Bonds in accordance with their terms are set aside in a special trust fund or escrow account irrevocably pledged to such redemption, retirement, or defeasance (the “Trust Account”), then all right and interest of the Owners of the Defeased Bonds in the covenants of this ordinance and in Net Revenue and the funds and accounts pledged to the payment of such Defeased Bonds, other than the right to receive the funds so set aside and pledged, thereafter shall cease and become void. Such Owners

thereafter shall have the right to receive payment of the principal of and interest or redemption price on the Defeased Bonds from the Trust Account. After such a Trust Account is established and funded as set forth above, the Defeased Bonds shall be deemed to be no longer outstanding, and the Director of Finance may then apply any money in any other fund or account established for the payment or redemption of the Defeased Bonds to any lawful purpose.

(c) **Notice of Defeasance or Refunding.** Unless otherwise specified in the Bond Documents, notice of refunding or defeasance shall be given, and selection of Bonds for any partial refunding or defeasance shall be conducted, in the manner set forth in this ordinance for the redemption of Bonds.

(d) **Annual Debt Service Calculation Adjustments for Defeased Bonds.** If the refunding or defeasance plan provides (i) that the Defeased Bonds (or the Refunding Parity Bonds issued to redeem those Defeased Bonds) are to be secured by money and/or Government Obligations pending the redemption of the Defeased Bonds, and (ii) that certain money and/or Government Obligations are pledged irrevocably for the redemption of the Defeased Bonds, then only the debt service on such Bonds as are not Defeased Bonds (and any Refunding Parity Bonds, the payment of which is not so secured by the refunding plan) shall be included in the calculation of Annual Debt Service.

Section 22. **Provisions Relating to Federal Tax Issues.** The Bond Documents may include such additional terms and covenants relating to federal tax matters as the Director of Finance deems necessary or appropriate, including the following:

(a) **Tax-Exempt Bonds.** For each Series of the Bonds issued as Tax-Exempt Bonds, the City covenants that it will take all actions, consistent with the terms of such Series as set forth in the applicable Bond Documents that are reasonably within its power and necessary to prevent interest on that Series from being included in gross income for federal income tax purposes. The City further covenants that it will neither take any action nor make or permit any use of gross proceeds of that Series (or other funds of the City treated as gross proceeds of that Series) at any time during the term of such Series that will cause interest on such Series

to be included in gross income for federal income tax purposes. The City also covenants that, to the extent the arbitrage rebate requirement of Section 148 of the Code is applicable to any Series issued as Tax-Exempt Bonds, it will take all actions necessary to comply (or to be treated as having complied) with that requirement in connection with that Series (including the calculation and payment of any penalties that the City may elect to pay as an alternative to calculating rebatable arbitrage and the payment of any other penalties if required under Section 148 of the Code) to prevent interest on such Series from being included in gross income for federal income tax purposes.

(b) **Taxable Bonds; Tax Credit Subsidy Bonds.** For each Series of the Bonds issued as Taxable Bonds or as Tax Credit Subsidy Bonds, the Director of Finance is authorized to make provision in the Bonds and other Bond Documents, to execute additional written agreements, and to make additional covenants on behalf of the City, all as the Director may deem necessary or appropriate in order to obtain, maintain, and administer such tax status. In the case of Tax Credit Subsidy Bonds, such additional covenants and agreements may include (without limiting the generality of the foregoing) those necessary in order for the City (i) to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of such Tax Credit Subsidy Bonds, and (ii) to ensure that such Series otherwise become and remain eligible for tax benefits under the Code.

Section 23. **Official Statement; Continuing Disclosure.**

(a) **Preliminary Official Statement.** The Director of Finance and other appropriate City officials are directed to cause the preparation of and review the form of a preliminary official statement in connection with each sale of one or more Series to the public. For the sole purpose of the Purchaser's compliance with paragraph (b)(1) of Rule 15c2-12, the Director of Finance is authorized to deem that preliminary official statement final as of its date, except for the omission of information permitted to be omitted by Rule 15c2-12. The City approves the distribution to potential purchasers of the Bonds of such preliminary official statement that has been deemed final in accordance with this subsection (a).

(b) **Final Official Statement.** The City approves the preparation of a final official statement for each

sale of one or more Series to be sold to the public in the form of the preliminary official statement with such additions, modifications and amendments as the Director of Finance deems necessary or desirable, and further authorizes the Director of Finance to execute and deliver such final official statement to the Purchaser. The City authorizes and approves the distribution by the Purchaser of that final official statement to purchasers and potential purchasers of the Bonds.

(c) **Undertaking to Provide Continuing Disclosure.** To meet the requirements of paragraph (b)(5) of Rule 15c2-12, as applicable to a participating underwriter for a Series of the Bonds, the Director of Finance is authorized to execute a written Continuing Disclosure Agreement with respect to that Series, in substantially the form attached to this ordinance as Exhibit B.

Section 24. **Supplemental or Amendatory Bond Documents.** This ordinance and the other applicable Bond Documents for any particular Series of the Bonds may not be supplemented or amended in any respect subsequent to the Issue Date of such Series, except in accordance with and subject to the provisions of this section.

(a) **Amendments without Bond Owner Consent.** From time to time and at any time, without the consent of or notice to any owners of Parity Bonds, the City may supplement or amend the Bond Documents applicable to any Series of the Bonds for any of the purposes set forth in this subsection (a). Any such supplement or amendment may be passed, adopted, or otherwise approved by the City, without requiring the consent of the registered owners of any Parity Bonds, but may become effective only upon receipt by the City of an opinion of Bond Counsel stating that such supplement or amendment is authorized or permitted by this ordinance and, upon the effective date thereof, will be valid and binding upon the City in accordance with its terms, and will not adversely affect the exclusion from gross income for federal income tax purposes of interest on the affected Series of the Bonds, if such Series was issued and sold as Tax-Exempt Bonds. The types of supplements and amendments permitted under this subsection (a) are as follows:

(i) To cure any formal defect, omission, inconsistency, or ambiguity in the Bond Documents for

such Series in a manner not adverse to the owners of any Parity Bonds;

(ii) To impose upon the Bond Registrar (with its consent) for the benefit of the owners of Parity Bonds any additional rights, remedies, powers, authority, security, liabilities, or duties which may lawfully be granted, conferred, or imposed and which are not contrary to or inconsistent with such Bond Documents as theretofore in effect;

(iii) To add to the covenants and agreements of, and limitations and restrictions upon, the City in the Bond Documents, other covenants, agreements, limitations and restrictions to be observed by the City which are not contrary to or inconsistent with such Bond Documents as theretofore in effect;

(iv) To confirm, as further assurance, any pledge under (and the subjection to any claim, lien, or pledge created or to be created by) such Bond Documents on any other money, securities, or funds;

(v) To alter the Authorized Denominations of a Series of the Bonds and to make correlative amendments and modifications to the applicable Bond Documents regarding (A) exchangeability of such Bonds for Bonds of different authorized denominations, (B) redemptions of portions of Bonds of particular authorized denominations, and (C) similar amendments and modifications of a technical nature;

(vi) To comply with any future federal law or interpretation to preserve the exclusion of the interest on any Series of the Bonds issued and sold as Tax-Exempt Bonds from gross income for federal income tax purposes and the entitlement of the City to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of any Series of the Bonds issued and sold as Tax Credit Subsidy Bonds;

(vii) To modify, alter, amend or supplement the Bond Documents in any other respect which is not materially adverse to the owners of the Parity Bonds and which does not involve a change described in subsection 24(c); and

(viii) To add to the covenants and agreements of (or limitations and restrictions upon) the City set forth in any Bond Documents, such additional or alternative covenants, agreements, limitations, or restrictions to be observed by the City as the City may determine are necessary or convenient to accommodate a

provider of Qualified Insurance or provider of a Reserve Security and are not materially adverse to the owners of the Parity Bonds.

(b) **Amendments with Bond Owner Consent.** With the consent of registered owners of not less than 60 percent in aggregate principal amount of the Parity Bonds then outstanding, the City may pass, adopt, or otherwise approve any supplement or amendment (other than amendments requiring unanimous consent as set forth in subsection 24(c)) to any Bond Document that is deemed necessary or desirable by the City for the purpose of modifying, altering, amending, supplementing, or rescinding, in any particular, any of the terms or provisions contained in such Bond Document other than those terms and provisions described in subsection 24 (c).

(c) **Amendments Prohibited Except upon Unanimous Consent.** Unless approved in writing by or on behalf of the registered owner of each Parity Bond then outstanding, nothing contained in this section shall permit, or be construed as permitting, (i) a change in the times, amounts, or currency of payment of the principal of or interest on any outstanding Parity Bond, (ii) a reduction in the principal amount or redemption price of any outstanding Parity Bond, (iii) a change in the method of determining the rate of interest thereon (other than a conversion to a new interest rate mode in accordance with the applicable Bond Documents), (iv) a preference or priority of any Parity Bond over any other Parity Bond, or (v) a reduction in the percentage of the aggregate principal amount of the then-outstanding Parity Bonds required to effect a change under subsection 24(b).

(d) **Notice to Bond Owners.** If at any time the City passes, adopts, or otherwise approves a supplement or amendment for any of the purposes of subsection 24(b) or 24(c), the Bond Registrar shall cause notice of the proposed supplement or amendment to be given by first class mail (i) to all registered owners of the then outstanding Parity Bonds, (ii) to each provider of Bond Insurance or a Reserve Security, and (iii) to each Rating Agency. Such notice shall briefly set forth the nature of the proposed supplement or amendment and shall state that a copy is on file at the office of the City Clerk for inspection by all owners of the then outstanding Parity

Bonds.

(e) **Effective Date; Consents.** Any supplement or amendment, substantially as described in the notice mailed pursuant to subsection 24(d), may go into effect upon delivery to the Bond Registrar of (i) the required consents, in writing, of registered owners of the Parity Bonds, and (ii) an opinion of Bond Counsel stating that such supplement or amendment is authorized or permitted by this ordinance. Upon the effective date thereof, such supplement or amendment will be valid and binding upon the City in accordance with its terms and will not adversely affect the exclusion from gross income for federal income tax purposes of interest on any Tax-Exempt Bonds.

If registered owners of not less than the percentage of Parity Bonds required by this section shall have consented to and approved such a supplement or amendment, no owner of any Parity Bond shall have any right (i) to object to the passage, adoption, or approval of such supplement or amendment, (ii) to object to any of the terms and provisions contained therein or the operation thereof, (iii) in any manner to question the propriety of the passage, adoption, or approval thereof, (iv) to enjoin or restrain the City from passing, adopting, or otherwise approving the same, or (v) to enjoin or restrain the City, any authorized official thereof, or the Bond Registrar from taking any action pursuant to the provisions thereof. For purposes of determining whether consents representing the requisite percentage of principal amount of Parity Bonds have been obtained, the Accreted Value of Capital Appreciation Bonds shall be deemed to be the principal amount. It shall not be necessary to obtain approval of the particular form of any proposed supplement, but it shall be sufficient if the consent shall approve the substance thereof.

(f) **Effect of Amendment.** Upon the effective date of any supplement or amendment, this ordinance (or the relevant Bond Document, if not set forth herein) shall be deemed to be modified and amended in accordance therewith, and the respective rights, duties and obligations of the City and all owners of Parity Bonds then outstanding shall thereafter be determined, exercised, and enforced in accordance with and subject in all respects to such modifications and amendments. All the terms and conditions of any such supplement or

amendment shall be deemed to be a part of this ordinance and the Bond Documents for any and all purposes.

(g) **Special Amendments.** If and to the extent that it is determined that the written consent of Registered Owners of the Bonds is required under subsection 24(b) or 24(c), the Registered Owners from time to time of the Bonds, by taking and holding the same, are deemed to have consented to any supplement or amendment to the Bond Documents effecting any one or more of the following changes:

(i) When calculating “Annual Debt Service,” to permit or require Tax Credit Subsidy Payments expected to be received by the City in any period to be credited against amounts required to be paid in respect of interest on the Parity Bonds in that period; and

(ii) To permit or require Tax Credit Subsidy Payments to be deposited into the Principal and Interest Subaccount and credited against the Net Revenue otherwise required to be deposited into the Principal and Interest Subaccount; and

(iii) To permit the reimbursement obligations of the City under any Qualified Letter of Credit or Qualified Insurance (other than a Qualified Letter of Credit or Qualified Insurance obtained to satisfy all or part of the Reserve Requirement) to be secured by a lien and charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required to be paid into the Parity Bond Account to pay and secure the payment of the principal of and interest on Parity Bonds.

Section 25. **Defaults and Remedies.**

(a) **Events of Default.** Each of the following shall constitute an Event of Default with respect to the Bonds:

(i) If a default is made in the payment of the principal of or interest on any of the Bonds when the same shall become due and payable; or

(ii) If the City defaults in the observance and performance of any other of the covenants, conditions and agreements on the part of the City set forth in this ordinance or the applicable Bond Documents (except as otherwise provided herein or in such Bond Documents) and such default or defaults have continued

for a period of six months after the City has received from the Bond Owners' Trustee (as defined below) or from the registered owners of not less than 25 percent in principal amount of the Parity Bonds a written notice specifying and demanding the cure of such default. However, if the default in the observance and performance of any other of the covenants, conditions and agreements is one which cannot be completely remedied within the six months after written notice has been given, it shall not be an Event of Default with respect to the Bonds as long as the City has taken active steps within the six months after written notice has been given to remedy the default and is diligently pursuing such remedy.

Notwithstanding anything in this section to the contrary, the failure of the City or any obligated person to comply with the Continuing Disclosure Agreement shall not constitute an Event of Default, and the sole remedy of any holder of a Bond in that case shall be to seek an order of specific performance from an appropriate court to compel the City to comply with the Continuing Disclosure Agreement.

(b) **Bond Owners' Trustee.** So long as such Event of Default has not been remedied, a trustee (the "Bond Owners' Trustee") may be appointed by the registered owners of 25 percent in principal amount of the then outstanding Parity Bonds, by an instrument or concurrent instruments in writing signed and acknowledged by such registered owners of the Parity Bonds or by their attorneys-in-fact duly authorized and delivered to such Bond Owners' Trustee, notification thereof being given to the City. That appointment shall become effective immediately upon acceptance thereof by the Bond Owners' Trustee. Any Bond Owners' Trustee appointed under the provisions of this subsection shall be a bank or trust company organized under the laws of the State of Washington or the State of New York or a national banking association. The bank or trust company acting as Bond Owners' Trustee may be removed at any time, and a successor Bond Owners' Trustee may be appointed, by the registered owners of a majority in principal amount of the Parity Bonds then outstanding, by an instrument or concurrent instruments in writing signed and acknowledged by such registered owners of the Parity Bonds or by their attorneys-in-fact duly authorized. The Bond Owners' Trustee may require such security and indemnity as may be reasonable against the costs, expenses and liabilities that may be incurred in the

performance of its duties.

In the event that any Event of Default in the sole judgment of the Bond Owners' Trustee is cured and the Bond Owners' Trustee furnishes to the City a certificate so stating, that Event of Default shall be conclusively deemed to be cured and the City, the Bond Owners' Trustee and the registered owners of the Parity Bonds shall be restored to the same rights and position which they would have held if no Event of Default had occurred.

The Bond Owners' Trustee appointed in the manner herein provided, and each successor thereto, is declared to be a trustee for the registered owners of all the Parity Bonds then outstanding and is empowered to exercise all the rights and powers herein conferred on the Bond Owners' Trustee.

(c) Suits at Law or in Equity. Upon the occurrence of an Event of Default and during the continuance thereof, the Bond Owners' Trustee may, and upon the written request of the registered owners of not less than 25 percent in principal amount of the Parity Bonds then outstanding shall, take such steps and institute such suits, actions or other proceedings, all as it may deem appropriate for the protection and enforcement of the rights of the registered owners of the Parity Bonds, to collect any amounts due and owing to or from the City, or to obtain other appropriate relief, and may enforce the specific performance of any covenant, agreement or condition contained in this ordinance or set forth in any of the Parity Bond Documents.

Nothing contained in this section shall, in any event or under any circumstance, be deemed to authorize the acceleration of the maturity of principal on the Parity Bonds, and the remedy of acceleration is expressly denied to the registered owners of the Parity Bonds under any circumstances including, without limitation, upon the occurrence and continuance of an Event of Default.

Any action, suit, or other proceeding instituted by the Bond Owners' Trustee hereunder shall be brought in its name as the Bond Owners' Trustee and all such rights of action upon or under any of the Parity Bonds or the provisions of this ordinance may be enforced by the Bond Owners' Trustee without the possession of any of those Parity Bonds and without the production of the same at any trial or proceedings relative thereto except where otherwise required by law. Any such suit, action or proceeding instituted by the Bond Owners' Trustee

shall be brought for the ratable benefit of all of the registered owners of those Parity Bonds, subject to the provisions of this ordinance. The respective registered owners of the Parity Bonds, by taking and holding the same, shall be conclusively deemed irrevocably to appoint the Bond Owners' Trustee the true and lawful trustee of the respective registered owners of those Parity Bonds, with authority to institute any such action, suit or proceeding; to receive as trustee and deposit in trust any sums becoming distributable on account of those Parity Bonds; to execute any paper or documents for the receipt of money; and to do all acts with respect thereto that the registered owner might have done in person. Nothing in this ordinance shall be deemed to authorize or empower the Bond Owners' Trustee to consent to accept or adopt, on behalf of any owner of the Parity Bonds, any plan of reorganization or adjustment affecting the Parity Bonds or any right of any registered owner thereof, or to authorize or empower the Bond Owners' Trustee to vote the claims of the registered owners thereof in any receivership, insolvency, liquidation, bankruptcy, reorganization or other proceeding to which the City is a party.

(d) Application of Money Collected by Bond Owners' Trustee. Any money collected by the Bond Owners' Trustee at any time pursuant to this section shall be applied in the following order of priority:

(i) To the payment of the charges, expenses, advances and compensation of the Bond Owners' Trustee and the charges, expenses, counsel fees, disbursements and compensation of its agents and attorneys;

(ii) to the payment to the persons entitled thereto of all installments of interest then due on the Parity Bonds in the order of maturity of such installments and, if the amount available shall not be sufficient to pay in full any installment or installments maturing on the same date, then to the payment thereof ratably, according to the amounts due thereon to the persons entitled thereto, without any discrimination or preference; and

(iii) To the payment to the persons entitled thereto of the unpaid principal amounts of any Parity Bonds which shall have become due (other than Parity Bonds previously called for redemption for the payment of which money is held pursuant to the provisions of the applicable Bond Documents), whether at maturity or

by proceedings for redemption or otherwise, in the order of their due dates and, if the amount available shall not be sufficient to pay in full the principal amounts due on the same date, then to the payment thereof ratably, according to the principal amounts due thereon to the persons entitled thereto, without any discrimination or preference.

(e) Duties and Obligations of Bond Owners' Trustee. The Bond Owners' Trustee shall not be liable except for the performance of such duties as are specifically set forth herein. During an Event of Default, the Bond Owners' Trustee shall exercise such of the rights and powers vested in it hereby, and shall use the same degree of care and skill in its exercise as a prudent person would exercise or use under the circumstances in the conduct of that person's own affairs. The Bond Owners' Trustee shall have no liability for any act or omission to act hereunder except for the Bond Owners' Trustee's own negligent action, its own negligent failure to act or its own willful misconduct. The duties and obligations of the Bond Owners' Trustee shall be determined solely by the express provisions of this ordinance, and no implied powers, duties or obligations of the Bond Owners' Trustee shall be read into this ordinance.

The Bond Owners' Trustee shall not be required to expend or risk its own funds or otherwise incur individual liability in the performance of any of its duties or in the exercise of any of its rights or powers as the Bond Owners' Trustee, except as may result from its own negligent action, its own negligent failure to act or its own willful misconduct.

The Bond Owners' Trustee shall not be bound to recognize any person as a registered owner of any Parity Bond until registered ownership, if disputed, has been established to its reasonable satisfaction.

The Bond Owners' Trustee may consult with counsel and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it hereunder in good faith and in accordance with the opinion of such counsel. The Bond Owners' Trustee shall not be answerable for any neglect or default of any person, firm or corporation employed and selected by it with reasonable care.

(f) Suits by Individual Parity Bond Owners Restricted. No owner of any one or more Parity Bonds

shall have any right to institute any action, suit or proceeding at law or in equity for the enforcement of same unless:

- (i) An Event of Default has happened and is continuing; and
- (ii) A Bond Owners' Trustee has been appointed; and
- (iii) Such owner previously shall have given to the Bond Owners' Trustee written notice of the Event of Default on account of which such suit, action, or proceeding is to be instituted; and
- (iv) The registered owners of 25 percent in principal amount of the Parity Bonds then outstanding, after the occurrence of such Event of Default, have made written request of the Bond Owners' Trustee and have afforded the Bond Owners' Trustee a reasonable opportunity to institute such suit, action, or proceeding; and
- (v) There have been offered to the Bond Owners' Trustee security and indemnity satisfactory to it against the costs, expenses, and liabilities to be incurred therein or thereby; and
- (vi) The Bond Owners' Trustee has refused or neglected to comply with such request within a reasonable time.

No owner of any Parity Bond shall have any right in any manner whatever by action to affect or impair the obligation of the City to pay from Net Revenue the principal of and interest on such Parity Bonds to the respective registered owners thereof when due.

Section 26. **General Authorization**. In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance and each of the other appropriate officers of the City are each authorized and directed to do everything as such officer may judge necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance. In particular and without limiting the foregoing:

- (a) The Director of Finance, in the Director's discretion and without further action by the City Council,
 - (i) may issue requests for proposals to provide underwriting services or financing facilities (including, without

limitation, Qualified Insurance, a Qualified Letter of Credit, or other credit support or liquidity facility), and may execute engagement letters and other agreements with underwriters and other financial institutions (including providers of liquidity or credit support) based on responses to such requests; (ii) may select and make decisions regarding the Bond Registrar, fiscal or paying agents, and any Securities Depository for each Series of the Bonds; (iii) may take any and all actions necessary or convenient to provide for the conversion of interest rate modes for any Series in accordance with the applicable Bond Documents; and (iv) may take such actions on behalf of the City as are necessary or appropriate for the City to designate, qualify, or maintain the tax-exempt treatment with respect to any Series issued as Tax-Exempt Bonds, to receive from the United States Treasury the applicable Tax Credit Subsidy Payments with respect to any Series issued as Tax Credit Subsidy Bonds, and to otherwise receive any other federal tax benefits relating to any Series of the Bonds that are available to the City; and

(b) The Mayor and the Director of Finance are each separately authorized to execute and deliver (i) any and all contracts or other documents as are consistent with this ordinance and for which the City's approval is necessary or to which the City is a party (including but not limited to agreements with escrow agents, refunding trustees, liquidity or credit support providers, providers of Qualified Insurance or Reserve Securities, remarketing agents, underwriters, lenders or other financial institutions, fiscal or paying agents, Qualified Counterparties, custodians, and the Bond Registrar); and (ii) such other contracts or documents incidental to: the issuance and sale of any Series of the Bonds; the establishment of the interest rate or rates on a Bond; or the conversion, tender, purchase, remarketing, or redemption of a Bond, as may in the Mayor's or Director's judgment be necessary or appropriate.

Section 27. **Severability**. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 28. **Ratification of Prior Acts.** Any action consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 29. **Section Headings.** Section headings in this ordinance are nonsubstantive.

Section 30. **Effective Date.** This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this ____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

EXHIBIT B

FORM OF CONTINUING DISCLOSURE AGREEMENT

The City of Seattle, Washington (the “City”), makes the following written undertaking (the “Undertaking”) for the benefit of the Owners of the City’s Drainage and Wastewater Revenue Bonds, [Year] [Series Designation] (the “Bonds”), for the sole purpose of assisting the Purchaser in meeting the requirements of paragraph (b)(5) of Rule 15c2-12 (the “Rule”), as applicable to a participating underwriter for the Bonds. Capitalized terms used but not defined below shall have the meanings given in Ordinance _____ (the “Bond Ordinance”).

(a) Undertaking to Provide Annual Financial Information and Notice of Listed Events.

The City undertakes to provide or cause to be provided, either directly or through a designated agent, to the Municipal Securities Rulemaking Board (the “MSRB”), in an electronic format as prescribed by the MSRB, accompanied by identifying information as prescribed by the MSRB:

(i) Annual financial information and operating data of the Drainage and Wastewater System of the type included in the final official statement for the Bonds and described in subsection (b) of this section (“annual financial information”). The timely filing of unaudited financial statements shall satisfy the requirements and filing deadlines pertaining to the filing of annual financial statements under subsection (b), provided that audited financial statements are to be filed if and when they are otherwise prepared and available to the City.

(ii) Timely notice (not in excess of 10 business days after the occurrence of the event) of the occurrence of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or

1 their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of
2 proposed or final determinations of taxability, Notice of Proposed Issue (IRS Form 5701 – TEB)
3 or other material notices or determinations with respect to the tax status of the Bonds, or other
4 material events affecting the tax status of the Bonds; (7) modifications to rights of holders of the
5 Bonds, if material; (8) Bond calls (other than scheduled mandatory redemptions of Term Bonds),
6 if material, and tender offers; (9) defeasances; (10) release, substitution, or sale of property
7 securing repayment of the Bonds, if material; (11) rating changes; (12) bankruptcy, insolvency,
8 receivership or similar event of the City, as such “Bankruptcy Events” are defined in the Rule;
9 (13) the consummation of a merger, consolidation, or acquisition involving the City or the sale of
10 all or substantially all of the assets of the City other than in the ordinary course of business, the
11 entry into a definitive agreement to undertake such an action or the termination of a definitive
12 agreement relating to any such actions, other than pursuant to its terms, if material; (14)
13 appointment of a successor or additional trustee or the change of name of a trustee, if material;
14 (15) incurrence of a financial obligation of the City, if material, or agreement to covenants, events
15 of default, remedies, priority rights, or other similar terms of a financial obligation of the City, any
16 of which affect holders of the Bonds, if material; and (16) any default, event of acceleration,
17 termination event, modification of terms, or other similar event under the terms of a financial
18 obligation of the City, any of which reflect financial difficulties.

19 For purposes of this Undertaking, the term “financial obligation” shall mean a debt
20 obligation; a derivative instrument entered into in connection with, or pledged as security or a
21 source of payment for, an existing or planned debt obligation; or a guarantee of either a debt
22 obligation or a derivative instrument entered into in connection with, or pledged as security or a
23 source of payment for, an existing or planned debt obligation. The term “financial obligation” does

1 not include municipal securities as to which a final official statement has been provided to the
2 MSRB consistent with the Rule.

3 (iii) Timely notice of a failure by the City to provide required annual financial
4 information on or before the date specified in subsection (b) of this section.

5 (b) Type of Annual Financial Information Undertaken to be Provided. The annual
6 financial information and operating data that the City undertakes to provide in subsection (a) of
7 this section:

8 (i) Shall consist of (1) annual financial statements of the Drainage and
9 Wastewater System prepared in accordance with applicable generally accepted accounting
10 principles applicable to governmental units (except as otherwise noted herein), as such principles
11 may be changed from time to time and as permitted by applicable state law; (2) a statement of
12 outstanding bonded debt secured by revenues of the Drainage and Wastewater System; (3) debt
13 service coverage ratios; (4) general customer statistics, such as number and type of customers and
14 revenues by customer class; and (5) current drainage rates and wastewater rates;

15 (ii) Shall be provided not later than the last day of the ninth month after the end
16 of each fiscal year of the City (currently, a fiscal year ending December 31), as such fiscal year
17 may be changed as required or permitted by state law, commencing with the City's fiscal year
18 ending December 31, 20__; and

19 (iii) May be provided in a single document or multiple documents, and may be
20 incorporated by specific reference to documents available to the public on the Internet website of
21 the MSRB or filed with the Securities and Exchange Commission.

22 (c) Amendment of Undertaking. This Undertaking is subject to amendment after the
23 primary offering of the Bonds without the consent of any Owner or holder of any Bond, or of any

1 broker, dealer, municipal securities dealer, participating underwriter, rating agency or the MSRB,
2 under the circumstances and in the manner permitted by the Rule, including:

3 (i) The amendment may only be made in connection with a change in
4 circumstances that arises from a change in legal requirements, change in law, or change in the
5 identity, nature, or status of the City, or type of business conducted by the City;

6 (ii) The Undertaking, as amended, would have complied with the requirements
7 of the Rule at the time of the primary offering, after taking into account any amendments or
8 interpretations of the Rule, as well as any change in circumstances; and

9 (iii) The amendment does not materially impair the interests of holders, as
10 determined either by parties unaffiliated with the City (e.g., bond counsel or other counsel familiar
11 with federal securities laws), or by an approving vote of bondholders pursuant to the terms of the
12 Bond Ordinance at the time of the amendment.

13 The City will give notice to the MSRB of the substance (or provide a copy) of any
14 amendment to this Undertaking and a brief statement of the reasons for the amendment. If the
15 amendment changes the type of annual financial information to be provided, the annual financial
16 information containing the amended financial information will include a narrative explanation of
17 the effect of that change on the type of information to be provided.

18 (d) Beneficiaries. This Undertaking shall inure to the benefit of the City and any
19 Owner of Bonds, and shall not inure to the benefit of or create any rights in any other person.

20 (e) Termination of Undertaking. The City's obligations under this Undertaking shall
21 terminate upon the legal defeasance, prior redemption, or payment in full of all of the Bonds. In
22 addition, the City's obligations under this Undertaking shall terminate if those provisions of the
23 Rule that require the City to comply with this Undertaking become legally inapplicable in respect

1 of the Bonds for any reason, as confirmed by an opinion of nationally recognized bond counsel or
2 other counsel familiar with federal securities laws delivered to the City, and the City provides
3 timely notice of such termination to the MSRB.

4 (f) Remedy for Failure to Comply with Undertaking. As soon as practicable after the
5 City learns of any material failure to comply with this Undertaking, the City will proceed with due
6 diligence to cause such noncompliance to be corrected. No failure by the City or other obligated
7 person to comply with this Undertaking shall constitute a default in respect of the Bonds. The sole
8 remedy of any Owner of a Bond shall be to take such actions as that Owner deems necessary,
9 including seeking an order of specific performance from an appropriate court, to compel the City
10 or other obligated person to comply with this Undertaking.

11 (g) Designation of Official Responsible to Administer Undertaking. The Director of
12 Finance of the City (or such other officer of the City who may in the future perform the duties of
13 that office) or the Director’s designee is the person designated, in accordance with the Bond
14 Ordinance, to carry out this Undertaking of the City in respect of the Bonds set forth in this section
15 and in accordance with the Rule, including, without limitation, the following actions:

16 (i) Preparing and filing the annual financial information undertaken to be
17 provided;

18 (ii) Determining whether any event specified in subsection (a)(ii) has occurred,
19 assessing its materiality, where necessary, with respect to the Bonds, and preparing and
20 disseminating any required notice of its occurrence;

21 (iii) Determining whether any person other than the City is an “obligated
22 person” within the meaning of the Rule with respect to the Bonds, and obtaining from such person

1 an undertaking to provide any annual financial information and notice of listed events for that
2 person in accordance with the Rule;

3 (iv) Selecting, engaging and compensating designated agents and consultants,
4 including but not limited to financial advisors and legal counsel, to assist and advise the City in
5 carrying out this Undertaking; and

6 (v) Effecting any necessary amendment of the Undertaking.

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the drainage and wastewater system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing drainage and wastewater system; authorizing the issuance and sale of drainage and wastewater revenue bonds in one or more series for the purposes of paying part of the cost of carrying out that system or plan, providing for the reserve requirement, and paying the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; describing the lien of those bonds; and ratifying and confirming certain prior acts.

Summary and Background of the Legislation: This legislation provides legal authorization for the Drainage & Wastewater System to issue up to \$95 million of bonds to fund a portion of capital expenditures outlined in the proposed 2024-2029 Capital Improvement Plan (CIP). Prior and concurrent legislation adopting the Drainage and Wastewater Fund (DWF) budget, capital plan, and utility rates make specific assumptions about the use of debt financing a share of the Fund’s capital program. However, separate authorization specifically for the issuance of bonds is technically required.

The DWF bond sale is anticipated to occur in mid-2024. The bond proceeds, in addition to existing U.S. Environmental Protection Agency Water Infrastructure Finance Innovation Act (WIFIA), Washington State Department of Ecology State Revolving Fund (SRF) loans, and internally generated funds, will support the Drainage & Wastewater System capital program for roughly one year. Bond proceeds will also be used to pay for issuance costs and may also be used to make a deposit to the Debt Service Reserve Fund, as per existing bond covenants, if required. Annual debt service is expected to be approximately \$6.5 million per year.

Major projects supported by the bond issue include combined sewer overflows, rehabilitation of existing assets, flooding and sewer backup management, and projects related to Move Seattle, the waterfront, and information technology. For further information about the Drainage and Wastewater capital projects, please see the Seattle Public Utilities (SPU) 2022-2027 Strategic Business Plan and 2024-2029 CIP. Bond funds, though fungible, will not be used to pay for the Ship Canal Water Quality Project, which is funded through WIFIA, SRF, and internally generated funds.

2. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**
This legislation affects City Finance, which coordinates the issuance of the bonds, and Seattle Public Utilities (SPU) which is responsible for managing the bond proceeds and implementing the major projects supported by the bond issue.
- b. Is a public hearing required for this legislation?**
No.
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- d. Does this legislation affect a piece of property?**
No.
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
N/A.
- f. Climate Change Implications**
- 1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No.
 - 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**
N/A.
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**
N/A.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the municipal water system of The City of Seattle; amending Ordinance 126716 to increase the authorized principal amount of municipal water system revenue bonds to be issued for the purposes of paying all or part of the cost of carrying out the system or plan of additions and betterments to and extensions of the existing municipal water system; extending the initial authorization date for those bonds; and ratifying and confirming certain prior acts.

WHEREAS, by Ordinance 126716, passed on November 29, 2022 (the “2023 Water Bond Ordinance”) The City of Seattle, Washington (the “City”) provided for the issuance of not to exceed \$81 million principal amount of Municipal Water System Bonds (the “Bonds”) for the purposes of paying all or part of the cost of carrying out the Plan of Additions, providing for the Reserve Requirement for the Parity Bonds, and issuing and selling the Bonds; and

WHEREAS, the City has not yet issued any of the bonds authorized by the 2023 Water Bond Ordinance, but has since that time has accumulated additional capital needs, as reflected in the adopted Capital Improvement Plan previously approved by Council, that have arisen or are expected to arise during 2024 and which will exceed the amount originally authorized in the 2023 Water Bond Ordinance; and

WHEREAS, the City deems it desirable to increase the authorized principal amount of municipal water system revenue bonds to provide funding for the water system’s capital needs; and

WHEREAS, the City deems it desirable to extend the date by which such bonds must be issued; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Definitions. The definitions of capitalized terms set forth in the recitals to this ordinance are

incorporated by this reference. The meaning of capitalized terms used and not otherwise defined in this ordinance shall be as set forth in Ordinance 126716.

Section 2. **Amendment to Section 2 of Ordinance 126716.** Section 2 of Ordinance 126716 is amended as follows:

Section 2. Adoption of Plan of Additions. The City specifies, adopts and orders the Plan of Additions to be carried out as generally provided for in the documents comprising the Plan of Additions. The estimated cost of the Plan of Additions, as near as may be determined, is declared to be \$631 million, of which approximately ~~((81))~~ 99 million is expected to be financed from proceeds of the Bonds and investment earnings thereon.

Section 3. **Amendments to Section 5 of Ordinance 126716.** Section 5 of Ordinance 126716 is amended as follows:

Section 5. Appointment of Designated Representative; Bond Sale Terms.

(a) **Designated Representative.** The Director of Finance is appointed to serve as the City's designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and this ordinance.

(b) **Parameters for Bond Sale Terms.** The Director of Finance is authorized to approve, on behalf of the City, Bond Sale Terms for the sale of the Bonds in one or more Series, and, in connection with each such sale, to execute a Bond Purchase Contract (or, in the case of a competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with the following parameters:

(i) **Maximum Principal Amount.** The maximum aggregate principal amount of all Series of the Bonds authorized by this ordinance is not to exceed ~~\$(81))~~ 99 million.

(ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance. The initial Issue Date (without restricting any reissuance date with respect to a

Series of Variable Interest Rate Bonds) may be no later than December 31, (~~2025~~) 2026.

(iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

(iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, whichever is later, unless otherwise provided in the Bond Documents. Each Series of the Bonds shall bear interest at one or more fixed interest rates or Variable Interest Rates. The true interest cost for any fixed rate Series may not exceed a rate of 10 percent per annum. The Bond Documents for any Series may provide for multiple interest rates and interest rate modes, and may provide conditions and mechanisms for the Director of Finance to effect a conversion from one mode to another. Nothing in this ordinance shall be interpreted to prevent the Bond Documents for any Series from including a provision for adjustments to interest rates during the term of the Series upon the occurrence of certain events specified in the applicable Bond Documents.

(v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director of Finance, which shall include payment at the maturity of each Bond, in accordance with any Sinking Fund Requirements applicable to Term Bonds, and otherwise in accordance with any redemption or tender provisions.

(vi) **Final Maturity.** Each Bond shall mature no later than 40 years after its Issue Date.

(vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption and tender provisions, as determined by the Director of Finance in the Director's discretion, consistent with Section 8 of this ordinance and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as subject to optional redemption prior to its maturity, consistent with subsection 8(a) of this ordinance. Any Bond that is subject to optional redemption prior to maturity must be callable on at least one or more dates occurring not more than 10½ years after the Issue Date.

(B) **Mandatory Redemption.** The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity on the dates and in principal payment amounts set forth in Sinking Fund Requirements, consistent with subsection 8(b) of this ordinance.

(C) **Extraordinary Redemptions.** The Director of Finance may designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent with Section 8(c) of this ordinance.

(D) **Tender Options.** The Director of Finance may designate any Variable Interest Rate Bond as subject to tender options, as set forth in the applicable Bond Documents.

(viii) **Price.** The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in the Director's judgment, the price that produces the most advantageous borrowing cost for the City, consistent with the parameters set forth in this ordinance and in any applicable bid documents.

(ix) **Other Terms and Conditions.**

(A) **Expected Life of Capital Facilities.** As of the Issue Date of each Series, the Director of Finance must additionally find to the Director's satisfaction that the average expected life of the capital facilities to be financed with the proceeds (or allocable share of proceeds) of that Series must exceed the weighted average maturity of such Series (or share thereof) allocated to financing those capital facilities.

(B) **Parity Conditions Satisfied.** As of the Issue Date of each Series, the Director of Finance must find that the Parity Conditions have been met or otherwise satisfied, so that such Series is permitted to be issued as Parity Bonds.

(C) **Additional Terms, Conditions, and Agreements.** The Bond Sale Terms for

any Series may provide for Bond Insurance, a Reserve Security, Qualified Letter of Credit, credit enhancement, or any Payment Agreement as the Director of Finance may find necessary or desirable. The Bond Sale Terms for any Series may provide for multiple interest rate modes and may include provisions for conversion from any interest rate mode to any other mode. To that end, the Bond Sale Terms may include such additional terms, conditions, and covenants as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of the Bonds); provisions for the conversion of interest rate modes; provisions for the reimbursement of a credit enhancement provider or Qualified Counterparty; and requirements to give notice to or obtain the consent of a credit enhancement provider or a Qualified Counterparty. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants.

(D) **Reserve Requirement.** The Bond Sale Terms must establish whether the Series is to be treated as Covered Parity Bonds and must establish the method of providing for the Reserve Requirement, consistent with Section 15 of this ordinance.

(E) **Tax Status of the Bonds.** The Director of Finance may determine that any Series of the Bonds may be designated or qualified as Tax-Exempt Bonds, Taxable Bonds or Tax Credit Subsidy Bonds, consistent with Section 22 of this ordinance.

Section 4. **General Authorization.** In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance and each of the other appropriate officers of the City are each authorized and directed to do everything as in their judgment may be necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance.

Section 5. **Severability.** The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance, or

the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 6. **Ratification of Prior Acts.** Any action consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 7. **Section Headings.** Section headings in this ordinance are nonsubstantive.

Section 8. **Effective Date.** This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
Office of City Finance/SPU	Kristi Beattie Paul Hanna	Saroja Reddy Akshay Iyengar

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the municipal water system of The City of Seattle; amending Ordinance 126716 to increase the authorized principal amount of municipal water system revenue bonds to be issued for the purposes of paying all or part of the cost of carrying out the system or plan of additions and betterments to and extensions of the existing municipal water system; extending the initial authorization date for those bonds; and ratifying and confirming certain prior acts.

Summary and Background of the Legislation: This legislation amends Ordinance 126716 that authorized Municipal Water System bonds to be issued for the Seattle Public Utilities water system by increasing the maximum authorized issuance amount from \$81 million to \$99 million to fund a portion of the capital expenditures outlined in the 2024-2029 Proposed Capital Improvement Plan (CIP), and extending the authorization date for these bonds to December 31, 2026. Although the budget, capital plan, and rates make specific assumptions about the use of debt financing for a certain share of the capital program, separate authorization for the issuance of bonds is technically required.

The bond sale is anticipated to occur in mid-2024. The bond proceeds, combined with internally generated funds, will support the water system capital program for about 12 months. The bond sizing is based on the adopted budget, Strategic Business Plan, rates, planned cash flow, and cash contribution targets. The bond proceeds will also be used to make a deposit to the bond reserve fund and to pay issuance costs. Annual debt service is expected to be approximately \$6.4 million starting in 2025. This bond issuance was incorporated into the rate proposal for 2024-2026. Ordinance 126716 originally authorized up to \$81 million of bonds to be issued no later than December 31, 2025.

Major projects supported by the bond issue include transmission and distribution system upgrades, water quality and treatment and transportation-related projects. For further information about Water CIP, please see the SPU Proposed 2024-2029 capital plan.

2. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**
This legislation affects the Office of City Finance, which coordinates the issuance of the SPU Municipal Water System Bonds, and Seattle Public Utilities (SPU) which is responsible for

managing the bond proceeds and implementing the major projects supported by the bond issue.

b. Is a public hearing required for this legislation?

No.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

d. Does this legislation affect a piece of property?

No.

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

N/A.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

No.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

N/A.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

N/A.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to affordable housing; amending Ordinance 126258 to authorize forgiveness of a loan to Community Roots Housing.

WHEREAS, the City made a loan in the principal amount of \$1,000,000 to Community Roots Housing pursuant to Ordinance 126258 to mitigate the financial impacts of COVID-19; and

WHEREAS, the financial impacts of COVID-19 impaired Community Roots Housing's ability to repay the loan; and

WHEREAS, forgiveness of the loan may improve Community Roots Housing's ability to actively develop, operate and maintain affordable housing in Seattle; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 2 of Ordinance 126258 is amended as follows:

Section 2. The principal amount of the Loan shall be payable in installments upon the earlier of (i) the loan schedule included in the promissory note and loan agreement (collectively, the "Loan Documents"); or (ii) demand by the City. If the Loan principal has not been fully repaid by the maturity date defined in the Loan Documents due to ongoing financial conditions that create a hardship for Community Roots Housing to successfully complete payments on the installments, the OH Director is authorized to extend the term for an additional period of up to three years in the OH Director's reasonable discretion. The Loan shall bear interest at the rate of the City's internal rate of borrowing; however, the interest expense shall be borne by the City and shall not be payable by Community Roots

Housing. The principal balance outstanding on the Loan at any time shall not exceed \$1,000,000.

Principal payments shall be deposited in the General Fund via Finance General and may not be lent again in any amount exceeding an aggregate total of \$1,000,000 without Council approval. Other terms and conditions of the Loan not described in this ordinance shall be negotiated by the OH Director and Community Roots Housing. The OH Director is further authorized to forgive the Loan, including both principal and interest, due to ongoing financial conditions that create a hardship for Community Roots Housing, provided that the OH Director in the Director’s discretion determines that forgiveness of the Loan will improve Community Roots Housing’s ability to actively develop, operate, and maintain affordable housing in Seattle.

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

Bruce A. Harrell, Mayor

* Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to affordable housing; amending Ordinance 126258 to authorize forgiveness of a loan to Community Roots Housing.

Summary and Background of the Legislation: This ordinance amends Ordinance 126258 authorizing a \$1 million General Fund loan for Community Roots Housing (CRH) to allow the Office of Housing Director to forgive this loan in its entirety. The loan was provided to CRH to help mitigate the financial impacts of COVID-19. CRH continues to experience financial impacts from the pandemic that impair CRH’s ability to repay this loan. Forgiveness of this loan will improve CRH’s ability to actively develop, operate and maintain affordable housing in Seattle.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes x No

If yes, please fill out the table below and attach a new (if creating a project) or marked-up (if amending) CIP Page to the Council Bill. Please include the spending plan as part of the attached CIP Page. If no, please delete the table.

Project Name:	Project I.D.:	Project Location:	Start Date:	End Date:	Total Project Cost Through 2028:

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes x No

If there are no changes to appropriations, revenues, or positions, please delete the table below.

Appropriation change (\$):	General Fund \$		Other \$

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the financing of the Central Waterfront Improvement Program; amending Ordinance 123761 to extend the duration of the existing interfund loan to the Central Waterfront Improvement Fund; and increasing the amount of the existing interfund loan.

WHEREAS, in 2010, the Department of Transportation conducted a preliminary feasibility analysis of special benefits for various program elements of the Alaskan Way Viaduct and Seawall Replacement Program, which supports a potential range of special benefits for a future Local Improvement District; and

WHEREAS, a loan of \$2.4 million to the Central Waterfront Improvement Fund was authorized in 2011 by Ordinance 123761 and increased to \$13.7 million in 2012 by Ordinance 124033, and the Mayor and Council anticipated revising the legislation to increase the amount of that loan to accommodate future years' spending; and

WHEREAS, Ordinance 124345 increased the interfund loan from \$13.7 million to \$31.225 million; and

WHEREAS, Ordinance 125188 amended the expiration date of the interfund loan to the Central Waterfront Improvement Fund to December 31, 2019; and

WHEREAS, Ordinance 125990 amended the expiration date of the interfund loan to the Central Waterfront Improvement Fund to December 31, 2023 and decreased the interfund loan from \$31.225 million to \$12.225 million; and

WHEREAS, Seattle Municipal Code subsection 5.06.030.C requires City Council approval by ordinance of any interfund loan for a duration of more than 90 days; and

WHEREAS, in the normal course of business the City may temporarily lend cash between funds to maintain

required balances; and

WHEREAS, in January 2019, Ordinance 125760, the City Council (“Council”) of The City of Seattle (“City”) established Local Improvement District No. 6751 of the City (interchangeably, “LID 6751” or the “Waterfront LID”), created the Local Improvement District No. 6751 Fund (“Waterfront LID Fund”) and authorized Interim Financing (including interfund loans) to pay for the costs of the LID Improvements in the anticipation of the issuance of LID Bonds; and

WHEREAS, funds loaned to the Central Waterfront Improvement Fund were previously used for costs eligible to be repaid with future LID Bond proceeds (LID-eligible costs) and used for costs which are ineligible to be repaid with future LID Bond proceeds (all other costs); and

WHEREAS, the City has kept a detailed record of the spending of funds loaned to the Central Waterfront Improvement Fund and can segregate LID-eligible costs from all other costs. LID-eligible costs are anticipated to be paid with LID bond proceeds and all other costs are anticipated to be repaid from LTGO bond proceeds, philanthropic contributions, and reimbursements from private utilities; and

WHEREAS, funds loaned to the Central Waterfront Improvement Fund in 2020 were no longer intended to be used for LID-eligible costs. An additional 2020 interfund loan of \$19 million to the Local Improvement District No. 6751 Fund was used for LID-eligible costs. The creation of the 2020 interfund loan for LID-eligible costs resulted in the reduction of the amount of funds loaned to the Central Waterfront Improvement Fund from \$31.225 million to \$12.225 million; and

WHEREAS, the primary revenue source for the Central Waterfront Improvement Fund is philanthropic donations collected from private donors by Friends of the Waterfront Seattle and transferred to the City, and the timing of donations have been updated to reflect anticipated changes in collection dates related to the COVID-19 pandemic and other economic conditions which have impacted fund raising, necessitating the need for an interfund loan to bridge cash flow needs for the Waterfront projects currently under construction; and

WHEREAS, Friends of the Waterfront Seattle has provided updated philanthropic donation timelines to the City that meet the original commitment of \$110 million in total donations by the end of 2025; and

WHEREAS, the Director of Finance and the City Budget Director have determined that this interfund loan request is consistent with the Debt Management Policies adopted by Resolution 31553; and

WHEREAS, there is sufficient cash in the REET I Capital Project Fund to support an interfund loan of up to \$20,300,000 through December 31, 2025 and still meet regular budgeted operating needs; NOW,

THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Sections 5 and 7 of Ordinance 123761, last amended by Ordinance 125990, are amended as follows:

Section 5. The Director of Finance is authorized to make a revolving loan of up to (~~(\$12,225,000~~) \$20,300,000 of principal and interest outstanding from the REET I Capital Project Fund to the Central Waterfront Improvement Fund, to provide financing for central waterfront improvements. The loan is to be repaid no later than (~~December 31, 2023~~) December 31, 2025, with interest on the loan at the rate of return of the City's Consolidated Cash Pool. The entire principal and interest amount of the loan drawn is intended to be repaid with (~~(LTGO bond proceeds, LID bond proceeds,)~~) philanthropic contributions, and reimbursements from private utilities.

* * *

Section 7. The Director of Finance may effectuate the loan authorized in Section 5 of this ordinance by transferring cash from the REET I Capital Project Fund to the Central Waterfront Improvement Fund, or by carrying the Transportation Fund in a negative cash position, in an amount not to exceed (~~(\$12,225,000)~~) \$20,300,000, until no later than (~~December 31, 2023~~) December 31, 2025. The Director of Finance is further authorized to establish, and modify if necessary, from time to time, a repayment plan and schedule.

Section 2. Any act consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this ____ day of _____, 2023.

Bruce A. Harrell, Mayor

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
Office of the Waterfront and Civic Projects	Kyle Butler	Caleb Wagenaar

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the financing of the Central Waterfront Improvement Program; amending Ordinance 123761 to extend the duration of the existing interfund loan to the Central Waterfront Improvement Fund; and increasing the amount of the existing interfund loan.

Summary and background of the Legislation: This legislation extends the existing interfund loan to the Central Waterfront Improvement Fund through 2025. It also increases the amount of the loan by \$8,075,000, from \$12,225,000 to \$20,300,000.

In 2011 through Ordinance 123761, City Council authorized an interfund loan to the Central Waterfront Improvement Fund to finance the costs of the Central Waterfront Improvement Program. The Central Waterfront Improvement Fund loan previously financed costs that were eligible to be repaid with LID bond revenue and costs that are ineligible to be repaid with LID bond revenue, the balance of this loan has been paid off. The interfund loan is now needed to meet cash flow requirements to continue construction of philanthropy related project elements due to the anticipated timing of these donations, with collections planned into late 2025.

The interfund loan will continue to finance costs to be reimbursed through philanthropic contributions, other City funds, and private utility reimbursements. The primary revenue source for the Central Waterfront Improvement Fund is philanthropic donations collected from private donors by Friends of the Waterfront Seattle and transferred to the City and the timing of donations have been realigned to reflect anticipated changes in collection dates related to the COVID-19 pandemic and other economic conditions, which have impacted fund raising, necessitating the need for an interfund loan to bridge cash flow needs for the Waterfront projects currently under construction. Friends of the Waterfront Seattle has provided updated philanthropic donation timelines to the City that meet the original commitment of \$110 million in total donations by the end of 2025.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

No.

Is there financial cost or other impacts of *not* implementing the legislation?

The City would not have adequate cash resources to complete the Waterfront capital improvements, which could cause a project delay and increase costs.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

No.

b. Is a public hearing required for this legislation?

No.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

d. Does this legislation affect a piece of property?

No.

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

NA.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way? No

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects. No

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

NA.

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION approving interest rates set by the Seattle City Employees' Retirement System (SCERS) Board of Administration for 2024.

WHEREAS, the Seattle City Employees' Retirement System (SCERS) currently pays interest on employee contributions at an annual rate of 5.75 percent (compounded annually) for contributions made before December 31, 2011, and an annually changing rate based on an average yield on 30-year U.S. Treasury Bonds (also compounded annually) for employee contributions made after December 31, 2011; and

WHEREAS, Seattle Municipal Code Section 4.36.505 provides that “[n]othing in this Section 4.36.505 shall be construed to limit the right of the Board, subject to approval of the City Council, to make changes in rates of interest whenever the Board deems it necessary or advisable”; and

WHEREAS, the SCERS Board of Administration, at its July 13, 2023 meeting, voted to adjust the annual interest rate for 2024 on all contributions received after December 11, 2011 to 3.62 percent (compounded annually); and

WHEREAS, the SCERS Board intends to review and adjust this rate annually, based on market conditions;

NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE MAYOR

CONCURRING, THAT:

Section 1. The City Council approves the 2024 credit interest rate adopted by the SCERS Board of Administration of 3.62 percent (compounded annually) on all member contributions received after December 31, 2011. Member contributions received on or before December 31, 2011, will continue to accrue credit

interest at a rate of 5.75 percent (also compounded annually). These rates will apply at the beginning of the first full pay period of 2024.

Adopted by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its adoption this _____ day of _____, 2023.

President _____ of the City Council

The Mayor concurred the _____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
RET	Paige Alderete	Dave Hennes

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: A RESOLUTION approving interest rates set by the Seattle City Employees' Retirement System (SCERS) Board of Administration for 2024.

Summary and background of the Legislation:

Per Seattle Municipal Code 4.36.505.F, this resolution provides City Council approval of the 2024 interest rates on member contributions set by the SCERS Board of Administration.

Under the policy enacted by the SCERS Board, in 2024, contributions received on or before December 31, 2011 will earn 5.75% annual interest, compounded annually. Contributions received after that date will earn 3.62% interest, also compounded annually. The Board reviews and adjusts the post-2011 interest rates annually, based on a policy target of the average yield on 30-year U.S. Treasury Bonds for the immediately preceding June 1 to May 31 period.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

This legislation has no direct financial implications for City appropriations, revenues, or positions. Interest rates for 2024 will grow member contribution balances. Resulting impacts get estimated along with other factors in the retirement system's periodic actuarial valuations.

Is there financial cost or other impacts of *not* implementing the legislation?

The proposed change reflects an increase in market interest rates in the last year. Not implementing the legislation would not recognize the action taken by the SCERS Board of Administration or the practice of the last several years. Inaction would leave the rate at the 2023 level.

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**
This legislation affects all SCERS members, who are employed across the City but has no effect on departmental costs.
- b. Is a public hearing required for this legislation?**
No.
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- d. Does this legislation affect a piece of property?**
No.
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
No perceived impact on vulnerable or historically disadvantaged communities.
- f. Climate Change Implications**
- 1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No.
 - 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**
No.
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**
N/A

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to fees and charges for permits and activities of the Seattle Department of Construction and Inspections, related fees by other departments, and technical corrections; adding a new Chapter 22.900I to the Seattle Municipal Code; and amending Sections 22.210.060, 22.900A.010, 22.900A.020, 22.900A.065, 22.900B.010, 22.900B.020, 22.900C.010, 22.900D.010, 22.900D.110, 22.900D.140, 22.900D.160, 22.900E.020, 22.900E.030, 22.900E.050, 22.900F.010, 22.900H.020, 22.900H.050, 22.900H.060, and 22.900H.080 of the Seattle Municipal Code.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 22.210.060 of the Seattle Municipal Code, last amended by Ordinance 118839, is amended as follows:

22.210.060 Issuance of tenant relocation license

The Director shall issue a tenant relocation license when the owner has ~~((completed all of the following))~~:

A. Submitted an application for a tenant relocation license as provided in Section 22.210.070;

B. Delivered relocation information packets to tenants and submitted proof of delivery as required by Section 22.210.080;

C. Paid the owner's share of tenant relocation assistance as required by Section 22.210.110; ~~((and))~~

D. Complied with the 90 day tenant notice provisions as required by Section 22.210.120 ~~((:));~~ and

E. Paid the relocation license application fees as required by Chapter 22.900I.

Section 2. Section 22.900A.010 of the Seattle Municipal Code, last amended by Ordinance 124347, is amended as follows:

22.900A.010 Title

Chapters 22.900A through ~~((22.900H))~~ 22.900I shall be known as the "Fee Subtitle," may be cited as such, and will be referred to in this subtitle as "this subtitle."

Section 3. Section 22.900A.020 of the Seattle Municipal Code, last amended by Ordinance 124919, is amended as follows:

22.900A.020 Purpose

It is the purpose of this Subtitle IX to prescribe:

A. ~~((It is the purpose of this Subtitle IX to prescribe equitable))~~ Equitable fees and fee collection policies for all services provided by the Seattle Department of Construction and Inspections, hereafter, "Department" or "SDCI," and other City departments that are sufficient to cover their costs of processing applications, inspecting and reviewing plans, and preparing detailed statements required by chapter 43.21C RCW~~((:))~~ ;

B. ~~((An additional purpose of this Subtitle IX is to prescribe special))~~ Special fees for testing, examination, registration, inspection, or the furnishing of certain services or materials ~~((:))~~ ;

C. ~~((A further purpose of this Subtitle IX is to prescribe fees))~~ Fees to cover the costs of implementing and administering the Rental Registration and Inspection Ordinance program as required by Chapter 22.214 ~~((:))~~ ; and

D. Fees to cover the costs of implementing and administering the Tenant Relocation Assistance Ordinance as required by Chapter 22.900I.

Section 4. Section 22.900A.065 of the Seattle Municipal Code, enacted by Ordinance 126709, is amended as follows:

22.900A.065 Technology Fee

A technology fee of five percent of the underlying fee or charge amount will be added to any fee or charges in Chapters 22.900B, 22.900C, 22.900D, 22.900E, 22.900F, ~~((and))~~ 22.900H, and 22.900I.

Section 5. Section 22.900B.010 of the Seattle Municipal Code, last amended by Ordinance 126709, is

amended as follows:

22.900B.010 Base fee and hourly rate

A. The SDCI base fee shall be charged as specified in this Subtitle IX and shall be (~~(\$252)~~) \$257.

B. Any services provided by the Department for which an hourly charge is assessed shall be charged at a rate specified in this Subtitle IX.

The hourly rate for land use review is (~~(\$430)~~) \$439. The rate for all other hourly fees is (~~(\$252)~~) \$257 an hour except where a different hourly rate is specified in this Subtitle IX. Where "SDCI hourly rate" is specified in this Subtitle IX, the rate is (~~(\$252)~~) \$257 an hour.

C. If an hourly rate is specified, overtime shall be charged at that same rate. If no hourly rate is specified, overtime shall be charged at (~~(\$252)~~) \$257 an hour. All overtime shall require approval by the Director. The minimum fee for each overtime request shall be one hour, with minimum increments of 1/4 hour, in addition to other permit fees established by this Subtitle IX.

Section 6. Section 22.900B.020 of the Seattle Municipal Code, last amended by Ordinance 126709, is amended as follows:

22.900B.020 Miscellaneous and special fees

* * *

D. Address change. The fee to correct the address on an application or, if applicable, on an issued permit is (~~(\$68.50)~~) \$69.75. If an address change is requested that is unrelated to an application for a permit or for an issued permit, a fee of one multiplied by the base fee shall be assessed.

E. Copies of electronic and microfilm records. Charges for plans reproduced from electronic records or from the microfilm library are shown in Table B-1 for 22.900B.020.

Table B-1 for 22.900B.020- Fees for Reproductions from Electronic or Microfilm Records	
Page Size	Price
Electronic Records	
8½" x 11"	((\$0.75)) <u>\$0.80</u> per printed page
11" x 17"	((\$0.75)) <u>\$0.80</u> per printed page
Microfilm Records

11" x 17"	((\$1.70)) <u>\$1.75</u> per copied page
Both sizes	<u>\$0.10</u> per scanned image

* * *

Section 7. Section 22.900C.010 of the Seattle Municipal Code, last amended by Ordinance 126709, is

amended as follows:

22.900C.010 Land use fees

* * *

Table C-1 for 22.900C.010-LAND USE FEES	
A. MASTER USE PERMIT, ENVIRONMENTAL CRITICAL AREAS, CITY COUNCIL, HEARING EXAMINER APPROVALS	
Hours worked beyond those covered by minimum will be charged the Land Use hourly rate, unless otherwise noted, and are payable at time of invoice.	
Type of Land Use Review	Minimum Fee
General-first 10 hours of review	Land Use Hourly × 10
Low-Income Housing-first 24 hours of review ¹	Land Use Hourly × 10
1. Administrative conditional uses (ACUs) ACUs for community centers, child care centers, adult care centers, private schools, religious facilities, and public and private libraries in neighborhood residential and multi-family zones shall be charged a minimum fee of ((\$2,150)) <u>\$2,195</u> for the first 20 hours. Additional hours shall be charged at the Land Use hourly rate. This exception applies if the application is for an ACU only, or an ACU combined with a variance application.	
2. Design Review The minimum fee for Administrative Design Review, Master Planned Community Design Review and Streamlined Design Review is ((\$4,300)) <u>\$4,390</u> . The minimum fee for full Design Review is ((\$8,600)) <u>\$8,780</u> , which covers the first 20 hours of review. Refer to subsection 15 of Table C-1 for 22.900C.010 for fees related to Design Review for Tree Protection.	
3. Environmental reviews (SEPA), including projects with more than one addressed site.	
4. Environmentally critical areas (ECA)	
a. Environmentally Critical Areas variance ²	
b. ECA Exception	
c. Environmentally Critical Areas Administrative Conditional Use	
5. Shoreline permits	
a. Substantial development permits	
b. Variances ² and conditional uses	
6. Short subdivisions ³ ; refer to subsection 10 of Table D-2 for 22.900D.010 for additional fees that apply to this permit type	
7. Special exceptions	
8. Variances ² Variances for community centers, child care centers, adult care centers, private schools, religious facilities, and public and private libraries in neighborhood residential and multi-family zones shall be charged a minimum fee of ((\$2,150)) <u>\$2,195</u> for the first 20 hours. Additional hours shall be charged at the Land Use hourly rate. This exception applies if the application is for a variance or a variance combined only with an ACU application.	

9. Type II land use approvals such as, but not limited to, planned community/residential development, major phased developments, and other Type II approvals that are not categorized otherwise in the C-1 for 22.900C.010.	
10. The minimum fee for Council conditional uses, Rezones, Public Projects, and all other Type V land use approvals shall be ((\$8,600) <u>\$8,780</u>), which covers the first 20 hours of review.	
11. Full subdivisions ⁴ ; refer to subsection 10 of Table D-2 for 22.900D.010 for additional fees that apply to this permit type	
12. Reserved	
13. Reserved	
B. MISCELLANEOUS HOURLY LAND USE REVIEWS, RESEARCH, AND OTHER SERVICES	
Hours worked beyond those covered by minimum will be charged the Land Use hourly rate, unless otherwise noted, and payable at time of invoice.	
Type of Land Use Review	Minimum Land Use Review Fee
14. Concurrency	Reserved
15. Design Review for Tree Protection ⁵	
a. Design review required by Section 25.11.070 and Section 25.11.080 to protect exceptional tree if no other land use reviews are required	Land Use Hourly × 10
b. Design review elected by applicant for tree protection	Land Use Hourly × 10
16. Other Environmentally Critical Area (ECA) review, inspection, and site visit under Chapter 25.09 or Chapter 23.60A, including but not limited to:	Land Use Hourly × 1
a. ECA review for Wetlands, Fish, & Wildlife Habitat Conservation Areas on land use or construction permits shall be charged on an hourly basis	
b. Review to determine Environmentally Critical Area exemption for Wetlands and Riparian Corridor and Shoreline ECAs shall be charged on an hourly basis	
c. Other miscellaneous ECA reviews, inspections or site visits as required by code or as a condition of approval shall be charged on an hourly basis	
17. Early design guidance	Land Use Hourly × 10

18. Establishing use for the record: Refer to subsection 9 of Table D-2 for 22.900D.010 for additional fees that may apply to this permit type	Land Use Hourly × 2
19. Extensions of Type IV Council Land Use Decisions	Land Use Hourly × 2
20. Land Use Code Interpretations ⁶	Land Use Hourly × 10
21. Letters for detailed zoning analysis or permit research	Land Use Hourly × 4
22. Lot Boundary Adjustment (LBA), Temporary Use > 4 weeks; refer to subsection 10 of Table D for 22.900D.010 for additional fees that may apply to this permit type	Land Use Hourly × 5
23. Major Institution - review of annual plan	Land Use Hourly × 6
24. Major phased development permit - minor amendment	Land Use Hourly × 2
25. Neighborhood planning	Reserved
26. Noise survey review and variance	See Table F-2 for 22.900F.020, Noise Fees
27. Open space remainder lots and surplus state property	Land Use Hourly × 4
28. Pre-application conference ⁷	Land Use Hourly × 2
29. Property Use and Development Agreement (PUDA) - minor amendment	Land Use Hourly × 2
30. Public benefit feature review	Land Use Hourly × 2
31. Renewals	Land Use Hourly × 2
32. Revisions other than shoreline revisions	Land Use Hourly × 1
33. School use and school development advisory committee reviews	Land Use Hourly × 10
34. Shoreline exemptions	Land Use Hourly × 1
35. Shoreline permit revisions not due to required conditions	Land Use Hourly × 2
36. Special accommodation	Land Use Hourly × 2
37. Structural building overhangs and areaways as a separate component	Land Use Hourly × 2
38. Tree and Vegetation Restoration Review in ECA	Land Use Hourly × 1
39. Street Improvement Exceptions on a Land Use permit	Land Use Hourly × 2

40. Hazardous Tree Removal	Land Use Hourly × ((±)) <u>1/2</u>
41. Zoning Coaching	Land Use Hourly × 1
C. NON-HOURLY LAND USE FEES	
Type of Land Use Review	Fee
42. Curb cuts as a separate component	
a. Single-family residential	((\$103.30) <u>\$105.35</u> each
b. Other than single-family residential	((\$204.25) <u>\$208.35</u> each
43. File Management	SDCI Base Fee × 1
a. Placing projects on hold at applicant request	
b. Splitting or combining projects	
44. Intake appointments for land use reviews; fee charged for each occurrence	SDCI Base Fee × 1
45. Notice. All notice is charged based upon type for each occurrence. ⁸	
a. Land use information bulletin (GMR notice)	SDCI Base Fee × 1
b. Posting large sign or placards	((\$156.20) <u>\$159.35</u>
c. Mailed notice	SDCI Base Fee per 500 pieces of mail or portions thereof
d. <u>Daily Journal of Commerce (DJC)</u> decision publication	((\$245.10) <u>\$250</u>
e. Neighborhood newspaper publication	Rate charged by newspaper
f. Public meeting room rental and/or associated costs	((\$157.40) <u>\$160.55</u>
46. Rebuild Letters	
a. With research	SDCI Base Fee × 1
b. Without research	((\$52.85) <u>\$53.90</u>
47. Records research by the Public Resource Center	SDCI Base Fee × 1
48. Recording Fees, for LBA or Short Subdivision	Rate charged by King County ⁹
49. Shoreline Extensions	SDCI Base Fee × 1

Footnotes to Table C-1 for 22.900C.010: ¹ For purposes of these land use fees, low-income housing that both (1) satisfies the definition of "housing, low income" in Section 23.84A.016; and where at least 50 percent of the total gross floor area of each structure on the site is committed to income housing use for at least 20 years. ² The single variance fee shall be applicable whether the project requires one or multiple variances. ³ Includes short subdivisions in environmentally critical areas. ⁴ Includes unit-lot subdivisions and full subdivisions in environmentally critical areas. ⁵ This fee applies if design review is initiated only for tree protection and the application has no other review under Items 1-14. ⁶ The fees for interpretations of Chapters 25.12, 25.16, 25.20, 25.21, 25.22, 25.23, 25.24, 25.25, 25.26, 25.27, 25.28, 25.29, 25.30 and 25.30 shall be collected by the Director of the Department of Neighborhoods. ⁷ The pre-application conference fee covers a one-hour conference and one hour of research and/or follow-up review time that normally occurs, for a total of two hours. Additional pre-application review time will be charged at the Land Use hourly rate. See also subsection 22.900C.010.D. ⁸ Additional notice may be given in certain circumstances including but not limited to the following: reinstallation of environmental review signs; reposting of the land use review or environmental signs; new component reviews added subsequent to the original notice; revised decisions; and changes to the scope of the project. ⁹ Recording fees will be charged at the current rate as established and charged by King County at the time of document recording.

Section 8. Section 22.900D.010 of the Seattle Municipal Code, last amended by Ordinance 126709, is amended as follows:

22.900D.010 Development permit fees

* * *

Table D-1 for 22.900D.010 - CALCULATION OF THE DEVELOPMENT FEE INDEX	
Total Valuation	Development Fee Index
\$0 to \$1,000	(((\$252)) <u>\$257</u> for the first \$1,000 of value or fraction thereof
\$1,001 to \$25,000	(((\$252)) <u>\$257</u> for the first \$1,000 of value plus \$100 for each additional \$100 of value or fraction thereof
\$25,001 to \$50,000	(((\$552)) <u>\$557</u> for the first \$25,000 of value plus \$100 for each additional \$100 of value or fraction thereof
\$50,001 to \$75,000	(((\$852)) <u>\$857</u> for the first \$50,000 of value plus \$100 for each additional \$100 of value or fraction thereof
\$75,001 to \$100,000	(((\$1,139.50)) <u>\$1,144.50</u> for the first \$75,000 of value plus \$100 for each additional \$100 of value or fraction thereof
\$100,001 to \$175,000	(((\$1,414.50)) <u>\$1,419.50</u> for the first \$100,000 of value plus \$100 for each additional \$1,000 of value or fraction thereof

\$175,001 to \$250,000	(((\$1,827)) <u>\$1,832</u> for the first \$175,000 of value additional \$1,000 of value or fraction thereof
\$250,001 to \$500,000	(((\$2,239.50)) <u>\$2,244.50</u> for the first \$250,000 of value additional \$1,000 of value or fraction thereof
\$500,001 to \$750,000	(((\$3,552)) <u>\$3,557</u> for the first \$500,000 of value additional \$1,000 of value or fraction thereof
\$750,001 to \$1,000,000	(((\$4,802)) <u>\$4,807</u> for the first \$750,000 of value additional \$1,000 of value or fraction thereof
\$1,000,001 to \$1,500,000	(((\$6,052)) <u>\$6,057</u> for first \$1,000,000 of value additional \$1,000 of value or fraction thereof
\$1,500,001 to \$2,000,000	(((\$8,427)) <u>\$8,432</u> for the first \$1,500,000 of value additional \$1,000 of value or fraction thereof
\$2,000,001 to \$2,500,000	(((\$10,802)) <u>\$10,807</u> for first \$2,000,000 of value additional \$1,000 of value or fraction thereof
\$2,500,001 to \$3,000,000	(((\$12,927)) <u>\$12,932</u> for the first \$2,500,000 of value additional \$1,000 of value or fraction thereof
\$3,000,001 to \$3,500,000	(((\$15,052)) <u>\$15,057</u> for first \$3,000,000 of value additional \$1,000 of value or fraction thereof
\$3,500,001 to \$4,000,000	(((\$17,052)) <u>\$17,057</u> for first \$3,500,000 of value additional \$1,000 of value or fraction thereof

\$200,000,001 and up	((\$482,552) \$482,557 for the first \$200,000,000 for each additional \$1,000 of value or fraction th
----------------------	---

Table D-2 for 22.900D.010 - CALCULATION OF DEVELOPMENT FEES DETERMINED

Type of Development	Percent of Development Fee Index (DFI) Calculated from Project Value as Specified in Table D-1 ¹ for 22.900D.010	
	Permit Fee	Plan Review Fee
1. Building, with or without mechanical or without use	100% of DFI	100% of DFI
2. STFI (Subject to field inspection and/or mechanical ²)	100% of DFI	40% of DFI
3. Energy code compliance review (included in subsection UA Alternative and/or Simulated Alternative)	(included in subsection 1 of this Table D-2 for 22.900D.010)	SDCI hourly rate, 1 hour minimum
4. Mechanical permit:		
a. Submitted as part of a building application (if associated with other work)	(included in subsection 1 of this Table D-2 for 22.900D.010)	Mechanical review at the SDCI hourly rate, 1 hour minimum
b. If submitted separately from permit application (if associated with other work) or if applied for as a mechanical permit; also see Section 22.900D.010 mechanical equipment fees	100% of DFI	SDCI hourly rate, 1 hour minimum
5. Blanket permit review fees:		
a. Tenant alterations applied for within 18 months of the date of issuance of certificate of occupancy within a building where the area of work is more than 100 square feet.	((\$3.20) \$3.30 per 100 square feet ¹	((\$3.70) \$3.75 per 100 square feet ¹
b. Tenant alterations applied for more than 18 months of the date of issuance of certificate of occupancy	100% of DFI	100% of DFI
6. Initial tenant alterations applied for within 18 months of the date of issuance of certificate of occupancy (nonblanket) and initial tenant improvements to shell and core	50% of DFI based on new building value of shell and core	50% of DFI based on new building value of shell and core
7. Standard plans:		

a. Establishment of standard plan for temporary structures. (For swim subsection 16 of this Table D-2 22.900D.010.)	100% of DFI	200% of DFI, plus SDCI hourly rate for review/approval of "options"
b. Establishment of already permitted standard plan	100% of DFI	100% of DFI, plus SDCI hourly rate for review/approval of "options"
c. Subsequent reviews of standard plan for structures other than temporary structures	100% of DFI	60% of DFI, plus SDCI hourly rate for review/approval of "revisions"
d. Subsequent reviews of standard plan for temporary structures	See subsection 18 of this Table D-2 for 22.900D.010	See subsection 18 of this Table D-2 for 22.900D.010
8. Factory-built housing and other structures:		
a. Modular construction, 3 or fewer modules	Base fee × 1	Base fee × 1 for each module
b. Modular construction, more than 3 modules	Base fee × 1	Base fee × 1 for each module, plus SDCI Hourly Rate for structural review
Special Development Fees		
9. Establishing use for the record:		
a. Applications with no construction	Base Fee × 1.5	None
b. Applications with construction	100% of DFI	100% of DFI
subsection 17 of Table C-1 for 2 additional Land Use Fees that apply to this permit type		
10. Building review associated with zoning actions and/or LBAs	None	SDCI hourly rate; .25 hour minimum
11. Noise survey reviews	None	See Table F-2 for 22.900F.020 Noise Fees
12. Parking facilities:		
a. Outside a building	See Section 22.900D.060	

b. Within or on a building	See subsection 22.900D.010.C	
13. Renewal (or Reestablishment) of development permits and/or separate mechanical permits See subsection 22.900D.010.G and subsection 22.900D.010.H for exceptions and modification	Base fee × 1.5	SDCI hourly rate
14. Single-family seismic retrofits		
a. Permit for work in full compliance with Project Impact Standards/Plans	Base fee × 1	None
b. Permit for work in partial compliance with Project Impact Standards/Plans and engineering design of those portions not in compliance	Base fee × 1	SDCI hourly rate with 1 hour minimum
c. Voluntary seismic upgrades of existing buildings with engineering/design and not per Project Impact Standards/Plans	100% of DFI	100% of DFI
15. Review of unreinforced masonry building designation or retrofit standard:		
a. Review to change unreinforced masonry bearing wall building designation	None	SDCI base fee × 1
b. Review to determine seismic retrofits to meet standard of previously retrofitted unreinforced masonry building	None	SDCI hourly rate; 1 hour minimum
16. Special inspection	Base fee × 1	
17. Swimming pools: ⁴		
a. Unenclosed pools accessory to principal use and occupancy	Base fee × 4	
b. Unenclosed pools accessory to principal use and occupancy other than Group R-3	Base fee × 6	
c. Principal use unenclosed pools	Base fee × 6	
d. Future construction of an unenclosed swimming pool	Base fee × 1	
e. Initial approval of standard plans for unenclosed swimming pool accessory to Group R-3 occupancy	Base fee × 5	
f. Subsequent review of application for unenclosed swimming pool standard plans	Base fee × 1.5	

18. Temporary structures, such as coaches ⁵	Base fee × 2 per structure	
19. Temporary use permits:		
a. For 4 weeks or less ⁶	Base fee × 1.5	
b. For more than 4 weeks ⁶	Base fee × 2	
20. Phased Permits:		
a. Value ≤ \$5,000,000	Base fee × 1	
b. Value > \$5,000,000	Base fee × 2	
21. ECA Small Project Waiver permit	None	SDCI hourly rate; 0.25 hour minimum
22. Street Improvement Except building permit	SDCI Land Use Hourly × 2	Land Use Hourly rate for each review hour spent beyond 2 hour minimum fee
23. Building Permit Shop Drawings	None	SDCI hourly rate: 1.75 hour minimum
24. Sprinkler Shop Drawings	None	SDCI hourly rate: 0.75 hour minimum
25. Sprinkler Only Permit Substitution and/or Add/Alt)	Base fee × 0.75	See Chapter 22.900G; this fee is determined by Seattle Fire
26. Code Alternate Request	None	SDCI hourly rate, 2 hour minimum
27. Commercial Re-Roofing Permit	Base fee × .5	

Footnotes to Table D-2 for 22.900D.010 ¹ The minimum permit fee or plan review fee for value-based plan review fee for subject-to-field-inspection (STFI) value-based plan review is ((~~\$100.90~~) \$100.00) initial tenants that reflect the use and occupancy established in the shell and core permit. The value used in calculating value for the shell and core permit. ⁴ If a swimming pool is located within an existing building plans for that building, a separate fee shall not be charged for the swimming pool. The fee shall be assessed on the area of the principal occupancy of the building. ⁵ This fee shall not apply to any on-site, temporary permit is in force. ⁶ Master use permit fees for such temporary uses shall be charged according to

* * *

H. Certificate of Occupancy. The issuance of a Certificate of Occupancy for existing buildings, either if no Certificate of Occupancy has previously been issued or if a change of occupancy is requested, requires a building permit. If there is no construction valuation (there is no work that would require a building permit), the minimum building permit fee shall be assessed. In addition to the minimum building permit fee, if records

research, plan examination or inspection is required, charges shall be assessed at the SDCI hourly rate. If work is being done as authorized by a permit, the permanent Certificate of Occupancy fee is not assessed in addition to the building permit fee. The fee for a temporary Certificate of Occupancy shall be charged at the rate of 1/2 the base fee. The fee for the duplication of a Certificate of Occupancy is ~~((\\$42.20))~~ \$43.05 unless records research, plan examination or inspection is required, in which case charges shall be assessed at the SDCI hourly rate.

* * *

K. Renew or reestablish a permit

1. Fees to renew or reestablish a permit shall be charged according to Table D-2 for 22.900D.010. If the fee for a new permit would be less than 1.5 times the base fee, then the fee to renew or reestablish the permit shall be the same as for a new permit.

2. Fees to renew or reestablish a fire sprinkler permit shall be 1/2 the base fee.

3. If changes are made to the original approved plans, an additional fee shall be charged for plans examination review and inspections at the SDCI hourly rate.

Section 9. Section 22.900D.110 of the Seattle Municipal Code, last amended by Ordinance 126709, is amended as follows:

22.900D.110 New installations and alternations of boilers and pressure vessels

* * *

Table D-12 for 22.900D.110 - Installation Fees for Boilers and Pressure Vessels			
Type of Installation			Installation Fee
Boiler((s))	Heated By Combustion Products Heat	Electric Power Input (In KW)	
	0-250	0-200	((\\$277.55)) \$283.10
	>250-500	201-400	((\\$412.10)) \$420.35
	>500-750	401-600	((\\$552.65)) \$563.70
	>750-1,000	601-800	((\\$797.75)) \$813.70

	> 1,000	Over 800	(((\$1,009.20)) \$1,029.40
Pressure Vessel(s)	Length times diameter in square feet		
	0-15		(((\$186.20)) \$189.95
	>15-30		(((\$243.90)) \$248.80
	>30-50		(((\$353.25)) \$360.30
	>50-100		(((\$455.30)) \$464.40
	>100		(((\$552.65)) \$563.70
Burner ²	0-12,500,000 Btu/hr		(((\$277.55)) \$283.10 (each fuel)
	Over 12,500,000 Btu/hr		(((\$430.10)) \$438.70 (each fuel)
Automatic certificate	0-12,500,000 Btu/hr		(((\$277.55)) \$283.10 (each fuel)
	Over 12,500,000 Btu/hr		(((\$430.10)) \$438.70 (each fuel)
Monitoring System	Per Boiler		(((\$513)) \$523.30
Footnotes to Table D-12 for 22.900D.110: ¹ Rating size is the product of the two greatest dimensions: diameter x overall length for the cylindrical vessels; maximum width x maximum length for rectangular vessels; ² If a burner is installed in conjunction with a boiler, a separate fee shall not be charged for the burner.			

* * *

Section 10. Section 22.900D.140 of the Seattle Municipal Code, last amended by Ordinance 126709, is amended as follows:

22.900D.140 New installations and alterations of elevators and other conveyances

* * *

Table D-13 for 22.900D.140 - Permit Fees for Elevators and Other Conveyances	
New Installations and Relocations	
Type of Conveyance	Fee
Hydraulic elevators	(\$724.50) \$739 plus (\$62.50) \$63.75 per hoistway opening
Cabled geared and gearless elevators	(\$1,388.85) \$1,416.65 plus (\$105.70) \$107.80 per hoistway opening
Residential hydraulic and cabled elevators	(\$546.65) \$557.55
Dumbwaiters, manual doors	(\$263.10) \$268.35 plus (\$31.30) \$31.90 per hoistway opening
Dumbwaiters, power doors	(\$263.10) \$268.35 plus (\$74.50) \$75.95 per hoistway opening
Escalators and moving walks	(\$2,061.70) \$2,102.90 plus the following: (width in inches + run in feet + vertical rise in feet) x (\$6.30) \$6.45
Accessibility lifts (vertical and inclined)	(\$421.70) \$430.15
Material lifts	(\$507) \$517.15
Alterations & Repairs	
Type of Conveyance	Fee
Accessibility lifts (vertical and inclined)	(\$210.25) \$214.45 plus (\$31.30) \$31.90 for each \$1,000 of construction value or fraction thereof
Other elevators, escalators, walks, dumbwaiters, and lifts	(\$252.35) \$257.40 plus (\$42.10) \$42.95 for each \$1,000 of construction value or fraction thereof
Elevator Cosmetic Alterations Only:	
Weight differential less than or equal to 5%	(\$252.35) \$257.40 plus (\$42.10) \$42.95 for each \$1,000 of construction value or fraction thereof, to a maximum fee of (\$507.00) \$517.15
Weight differential greater than 5%	(\$252.35) \$257.40 plus (\$42.10) \$42.95 for each \$1,000 of construction value or fraction thereof
Alteration or replacement of a door opening device	(\$302.80) \$308.85 per opening device

Section 11. Section 22.900D.160 of the Seattle Municipal Code, last amended by Ordinance 126709, is amended as follows:

22.900D.160 Sign, awning, and canopy permit fees

A. Permanent signs. For permanent signs, a permit fee of ~~(((\$167))~~ \$170.35 shall be charged for the first 32 square feet or less of the total display area of the sign plus an additional charge for each 10 square feet or fraction thereof of total display area in excess of 32 square feet as shown in Table D-16 for 22.900D.160. A permit is required for all electric signs, and all signs exceeding 5 square feet in area that fall outside the allowances in Section 23.55.012.

Permanent Sign Size	Marginal Rate for Additional Charge	Applied Fee
0 to 32 sq. ft.		(((\$167)) <u>\$170.35</u> for the first 32
32 to 100 sq. ft.	(((\$27.20)) <u>\$27.70</u>	(((\$167)) <u>\$170.35</u> for the first 32 <u>\$27.70</u> per additional 10 sq. ft. o
100 to 150 sq. ft.	(((\$29.95)) <u>\$30.55</u>	(((\$357.40)) <u>\$364.25</u> for the first)) <u>\$30.55</u> per additional 10 sq. f
150 to 200 sq. ft.	(((\$29.95)) <u>\$30.55</u>	(((\$507.15)) <u>\$517</u> for the first 15 <u>\$30.55</u> per additional 10 sq. ft. c
200 to 250 sq. ft.	(((\$33.05)) <u>\$33.75</u>	(((\$656.90)) <u>\$669.75</u> for the first)) <u>\$33.75</u> per additional 10 sq. f
250 to 300 sq. ft.	(((\$33.05)) <u>\$33.75</u>	(((\$822.15)) <u>\$838.50</u> for the first)) <u>\$33.75</u> per additional 10 sq. f
300 to 350 sq. ft.	(((\$36.55)) <u>\$37.30</u>	(((\$987.40)) <u>\$1,007.25</u> for the fir \$36.55)) <u>\$37.30</u> per additional 1 thereof
350 to 400 sq. ft.	(((\$36.55)) <u>\$37.30</u>	(((\$1,170.15)) <u>\$1,193.75</u> for the \$36.55)) <u>\$37.30</u> per additional 1 thereof

Section 16. Section 22.900H.020 of the Seattle Municipal Code, last amended by Ordinance 125705, is amended as follows:

22.900H.020 Rental housing registration and renewal fee

The fee for registering a property containing rental housing units is ~~(\$70)~~ \$110 for the first rental housing unit plus an additional fee of ~~(\$15)~~ \$20 for each additional rental unit. The fee is payable at the time the registration application is received by the Department. The fee for renewing a rental housing registration is the same as the rental housing registration fee and is payable at the time the renewal application is received by the Department.

Section 17. Section 22.900H.050 of the Seattle Municipal Code, last amended by Ordinance 125705, is amended as follows:

22.900H.050 Private qualified rental housing inspector training and registration fees

The fee for private qualified rental housing inspector training is ~~(\$200)~~ \$300 and is payable in advance of the training. The fee for registering as a private qualified rental housing inspector is ~~(\$250)~~ \$300 and is payable at the time of registration.

Section 18. Section 22.900H.060 of the Seattle Municipal Code, last amended by Ordinance 125705, is amended as follows:

22.900H.060 Rental housing unit inspection fees if the Department serves as a qualified rental housing inspector

The fee for the Department to serve as a qualified rental housing inspector to perform a rental housing unit inspection for a property and one housing unit is ~~(((\$175))~~ \$210. The fee for the Department to inspect each additional housing unit on the same property is ~~(((\$35))~~ \$40. The inspection fee is paid in advance of the inspection. The Department shall not charge for additional re-inspections for each unit the Department initially inspected to confirm that repairs required to pass the rental housing unit inspection and obtain a certificate of compliance have been completed.

Section 19. Section 22.900H.080 of the Seattle Municipal Code, enacted by Ordinance 125705, is amended as follows:

22.900H.080 Private inspection submittal processing fee

The fee for receiving and processing a rental housing inspection certificate of compliance submitted by a private qualified rental housing inspector is ~~(((\$40))~~ \$50.

Section 20. A new Chapter 22.900I of the Seattle Municipal Code is added to Subtitle IX of Title 22 as follows:

Chapter 22.900I TENANT RELOCATION ASSISTANCE ORDINANCE APPLICATION FEES

22.900I.010 Purpose

This Chapter 22.900I contains fees for the Tenant Relocation Assistance Ordinance program required by Chapter 22.210.

22.900I.020 Tenant relocation assistance application fees

The fee for a relocation license or certification of no displacement is one times the SDCI base fee. A fee of 1.25 times the SDCI base fee will be added to a relocation license for every dwelling unit from which a tenant is eligible to apply for relocation assistance.

Section 21. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by

Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by
me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

Scheereen Dedman, City Clerk

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
SDCI	Shane Muchow	Christie Parker

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to fees and charges for permits and activities of the Seattle Department of Construction and Inspections, related fees by other departments, and technical corrections; adding a new Chapter 22.900I to the Seattle Municipal Code; and amending Sections 22.210.060, 22.900A.010, 22.900A.020, 22.900A.065, 22.900B.010, 22.900B.020, 22.900C.010, 22.900D.010, 22.900D.110, 22.900D.140, 22.900D.160, 22.900E.020, 22.900E.030, 22.900E.050, 22.900F.010, 22.900H.020, 22.900H.050, 22.900H.060, and 22.900H.080 of the Seattle Municipal Code.

Summary and Background of the Legislation:

This legislation revises a portion of SDCI’s fees and charges beginning on January 1, 2024. The majority of SDCI’s fees and charges were last revised in Ordinance 126709 effective January 1, 2023, which provided a compounded inflationary adjustment of 9.16% as fees had not been adjusted for inflation since January 1, 2020. The proposed 2024 fee revisions include an inflationary adjustment of 2% and other changes.

SDCI is proposing several fee increases to keep up with the cost of doing business. These increases include Vacant Building Monitoring (VBM) fees and most Rental Registration and Inspection Ordinance (RRIO) fees as follows:

Fee Type	Current Fee	Proposed Fee
Vacant Building Monitoring Fees		
Building is closed to entry and premises are in compliance with applicable codes	\$296.75	\$332.36
Building is closed to entry and premises are not in compliance with applicable codes	\$493.80	\$651.82
Building is not closed to entry regardless of compliance with applicable codes	\$592.30	\$781.84
Rental Registration and Inspection Fees		
Property Fee	\$70	\$110
Each additional rental unit on same property	\$15	\$20
Private inspector training	\$200	\$300
Registration as qualified private inspector	\$250	\$300
SDCI-performed inspection – first unit	\$175	\$210
SDCI-performed inspection – each additional unit on same property	\$35	\$40
Receipt and processing of an inspection certificate by private inspector	\$40	\$50

The changes to Rental Registration and Inspections Fees are estimated to closely align with the cost of business; however, they are not anticipated to immediately close the program’s current deficit. So long as future inflationary adjustments are made, the deficit is projected to be erased within ten years.

SDCI is proposing a 50% reduction of Hazardous Tree Removal Fees in order to promote accessibility of service and align costs with the amount of work performed.

SDCI also proposes a couple of new fees to establish a cost recovery mechanism for services not previously captured by fees. The creation of a new Tenant Relocation Assistance Ordinance (TRAO) application fee will be charged to permit applicants who are redeveloping rental properties and owners of buildings who are removing a rent restriction. This fee, set at \$257 plus \$321.25 for every unit from which a tenant is eligible to apply for assistance, will be used to fund a new staff position and is intended to speed up TRAO permit processing. Another new \$128.50 fee creates a cost recovery mechanism to renew or reestablish a fire sprinkler permit, which is a service not previously captured in other mechanical permit renewal fees.

SDCI is primarily fee-supported, and its fees and charges are necessary to support SDCI’s permitting operations. All fees collected by SDCI for processing SDCI’s permits are used for that purpose, and the fee structure is reflective of the Seattle Municipal Code requirements to recover the cost of providing the permitting service. Similarly, other fees are set to recover the costs of certain code enforcement activities. This legislation will help ensure that the fees that SDCI collects are in line with the services provided.

Attachment A to this Summary and Fiscal Note, “SDCI Permit Fee and Charges proposed for 2024” provides a summary of all SDCI fees affected by this ordinance. Prior to developing this legislation, these fees were reviewed to determine whether the cost of providing the service warrants a fee change, if improvements to the fee structure are necessary, or if new fees are required.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? Yes No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? Yes No

Appropriation change (\$):	General Fund \$		Other \$	
	2023	2024	2023	2024
	\$0	\$0	\$0	\$0
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	2023	2024	2023	2024
	\$0	\$0	\$0	\$1,790,412

Positions affected:	No. of Positions		Total FTE Change	
	2023	2024	2023	2024
	0	0	0	0

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

No

Are there financial costs or other impacts of *not* implementing the legislation?

Not implementing this legislation would create a situation where the revenues SDCI collects through fees would not align with the cost of providing permitting services. Without the proposed fee increases SDCI would be required to reduce services or programs. Such reductions would impact the department’s ability to perform its permitting and enforcement responsibilities and delay service to customers.

3.a. Appropriations

 This legislation adds, changes, or deletes appropriations.

3.b. Revenues/Reimbursements

 X This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from This Legislation:

Revenue/Reimbursement Notes:

Fund Name and Number	Dept	Revenue Source	2024 Estimated change in Revenue
Construction and Inspections Fund (48100)	SDCI	Boiler	\$35,233
Construction and Inspections Fund (48100)	SDCI	Building Development	\$128,718
Construction and Inspections Fund (48100)	SDCI	Elevator	\$110,574
Construction and Inspections Fund (48100)	SDCI	Land Use	\$37,157
Construction and Inspections Fund (48100)	SDCI	Noise	\$9,389
Construction and Inspections Fund (48100)	SDCI	Other Miscellaneous*	\$476,847
Construction and Inspections Fund (48100)	SDCI	RRIO	\$821,001
Construction and Inspections Fund (48100)	SDCI	Signs	\$10,817
Construction and Inspections Fund (48100)	SDCI	Site Review & Development	\$160,677
TOTAL			\$1,790,412

* Other Miscellaneous includes adjustments for TRAO fee (\$208,341) and Vacant Building Monitoring (\$257,613) as well as other minor changes.

3.c. Positions

___ This legislation adds, changes, or deletes positions.

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?
No
- b. Is a public hearing required for this legislation?
No
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?
No
- d. Does this legislation affect a piece of property?
No
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?
By regularly reviewing fees, SDCI is able to ensure that the fees it sets appropriately cover the costs of the services it provides. Additionally, a 2% inflationary increase allows SDCI to continue to pay staff at more equitable wages.
- f. Climate Change Implications
1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?
No
 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.
There is no impact anticipated on Seattle's ability to adapt to climate change.
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?
This legislation does not include a new initiative or major programmatic expansion.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the Seattle Department of Transportation; amending Section 11.16.121 of the Seattle Municipal Code to set new limits on parking rates at parking payment devices.

WHEREAS, Section 11.16.121 of the Seattle Municipal Code (SMC) sets minimum and maximum limits on parking rates at on-street parking payment devices (e.g., pay station kiosks, mobile parking payment) and identifies policy for the Director of Transportation to adjust parking rates; and

WHEREAS, since 2010, with the passage of Ordinance 123462, the Seattle Department of Transportation's (SDOT's) Performance-Based Parking Pricing Program (the fundamental component of the Department's overall paid parking system) has used a data-driven process to adjust rates throughout the city to achieve one to two open and available spaces; and

WHEREAS, SMC 11.16.121.C established a minimum and maximum hourly parking rate in 2010, was updated in 2016, was updated again in 2021 specific to event rates around the Climate Pledge Arena, and should be adjusted to more accurately account for the costs of SDOT's paid parking program and to more effectively achieve the objective of pricing the curb to ensure reliable customer access; and

WHEREAS, increasing the minimum hourly rate would allow SDOT to more fully recover paid parking program costs including non-discretionary fees to process transactions, and increasing the maximum hourly rate would allow SDOT to adjust rates in Seattle's highest demand areas to provide more reliable customer access; and

WHEREAS, it is the legislation's intent to direct the new increment of revenues collected after passage of this

legislation to SDOT for the purpose of maintaining and administering the on-street paid parking program; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 11.16.121 of the Seattle Municipal Code, last amended by Ordinance 126399, is amended as follows:

11.16.121 Director of Transportation-Rate setting for parking payment devices

* * *

B. The Director of Transportation is authorized to set parking rates up to (~~(\$5)~~) \$8 per hour ("Maximum Hourly Rate"), except that for large Seattle Center events the Director is authorized to set parking rates up to \$12 per hour for locations within a mile of Seattle Center. When parking rates are in effect, parking rates shall be set no lower than (~~(\$0.50)~~) \$1 per hour ("Minimum Hourly Rate").

* * *

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

Bruce A. Harrell, Mayor

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the Seattle Department of Transportation; amending Section 11.16.121 of the Seattle Municipal Code to set new limits on parking rates at parking payment devices.

Summary and Background of the Legislation: The Seattle Municipal Code (SMC) establishes purposes for on-street paid parking rate-setting and since 2010, has provided direction to the Seattle Department of Transportation (SDOT) on adjusting parking rates with a minimum and maximum hourly rate range. SDOT proposes to update the SMC language regarding the minimum and maximum rates for two primary purposes: 1) to ensure basic program cost recovery, and 2) to maintain the ability to effectively carry out SMC direction to adjust rates so that 1-2 parking spaces are available on each block to provide reliable customer curbside access. SDOT does not adjust paid parking rates to generate revenue, but rather to carry out the SMC direction to provide reliable curbside access. The legislation revises the minimum hourly rate from \$0.50 to \$1.00, and the maximum hourly rate from \$5.00 to \$8.00.

This legislation will allow greater flexibility and conformity with parking policy and legal requirements. Currently, SDOT is adjusting rates three times per year. Parking data show that many areas of the City are likely to soon hit the rate cap. When we are not able to adjust rates beyond the current maximum, we cannot meet City goals of maintaining adequate parking turnover for business access, as stated in the SMC. In addition, raising the minimum would bring our rates more in line with other (Northwest or peer-sized) comparable cities locally and around the country.

Net new parking revenues from these changes are directed to SDOT for the purposes of maintaining and administering the on-street paid parking program and other transportation purposes in the 2024 Proposed Budget. Costs associated with implementing this change are estimated at \$144,000 and are also included in the Proposed Budget, and they will be included in future budget legislation.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Appropriation change (\$):	General Fund \$		Other \$	
	2024	2025	2024	2025
	0	0	0	0
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	2024	2025	2024	2025
	\$2,400,000	\$3,800,000	0	0
Positions affected:	No. of Positions		Total FTE Change	
	2024	2025	2024	2025
	0	0	0	0

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

Yes, for these rate adjustments, the impact to SDOT costs is expected to be on the credit card fees paid (at an estimated 6% of revenues). Therefore, SDOT costs are estimated as both one-time and on-going costs. These are non-discretionary paid parking program costs.

The revenue estimates for 2024 are a partial year because of installation of the rate changes expected in March 2024. In future years, the revenues are expected to be about \$3,800,000 in 2025 and beyond from these changes made with the legislation.

Are there financial costs or other impacts of *not* implementing the legislation?

Yes, in the case of the minimum hourly rate, a small but important number of transactions will continue to happen at amounts below SDOT’s per transaction cost to operate the paid parking system. The hourly \$0.50 is below what most Washington state cities with paid parking charge, as well as major cities around the United States.

For the maximum hourly rate change, the increase in the allowed adjustment will provide SDOT flexibility to meet these same SMC rate-setting direction, where rates are set so that 1 to 2 spaces are open and available throughout the day and to support transit and demand management modes.

3.a. Appropriations

This legislation adds, changes, or deletes appropriations.

3.b. Revenues/Reimbursements

This legislation adds, changes, or deletes revenues reimbursements.

Anticipated Revenue/Reimbursement Resulting from This Legislation:

Fund Name and Number	Dept	Revenue Source	2024 Revenue	2025 Estimated Revenue
General Fund – 00100	SDOT	Paid Parking Revenue	\$2,400,000	\$3,800,000
TOTAL			\$2,400,000	\$3,800,000

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**
No.
- b. Is a public hearing required for this legislation?**
No.
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- d. Does this legislation affect a piece of property?**
No.
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**

The recommended changes could lead to people paying more for on-street parking if they choose to drive and park in the paid areas where rates change with this legislation. RSJI considerations for these changes could develop in several ways:

1 – Thriving BIPOC businesses depend on reliable customer access. In paid parking areas, these businesses may see *benefits* as SDOT better meets parking availability goals so that their customers can more reliably find nearby street parking.

2 – Owning, operating, and relying on the private vehicle to access Seattle’s densest business districts is not the most cost-effective travel option, no matter the hourly parking rate. Parking fees are one of the least costly factors in owning and operating a private vehicle, after fuel and insurance. Providing low-cost on-street parking is not the equivalent of providing equitable and affordable transportation options. Pricing the curb appropriately however, for reliable access has numerous safety and climate benefits, as well as signals the importance of ensuring access to affordable mobility and transportation options. SDOT continues to expand options to our neighborhood business districts by transit, bicycle, walking, and shared micromobility.

3 – In terms of Language Access, SDOT publishes in multiple language the “Can I Park Here” Brochure, which explains parking rules including those for paid parking, and provides SDOT and SPD parking contact info.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

This change could lead to decreased carbon emissions. Free or reduced parking charges have been found in numerous transportation studies to be leading determinants for why people choose to drive. SDOT's paid parking program uses a data-driven metric to regularly adjust parking rates to ensure 1-2 open parking spaces throughout the day. This process leads to less circling for parking, with reductions in emissions and congestion. Pricing itself, particularly at higher rates, may encourage people to switch modes to transit, bicycling or shared micromobility, thereby also decreasing emissions. The Curbside Management team has also seen the opposite situation with free parking on Sundays in Seattle business districts, where streets are very full of parked vehicles with others circling for parking or idling waiting for an open spot.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

This legislation enacts a new maximum and minimum street parking rate in the SMC, thereby providing a more permanent change for on-going paid parking management, with the resultant climate benefits noted above.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

Seattle Municipal Code Section 11.16.121 directs SDOT to use the performance goal of keeping 1-2 parking spaces open and available when setting on-street paid parking rates. This performance goal is the basis of the legislative request to change the rates in SMC 11.16.121, particularly the maximum rate.

Legislation Text

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the Seattle Fire Department’s services and fees; adding, deleting, and revising various Seattle Fire Department permit, inspection, and development-related fees and related provisions; and amending Sections 22.602.045, 22.602.070, and 22.900G.060 of the Seattle Municipal Code.

WHEREAS, Seattle Fire Department permit, inspection, certification, and plan review fees were last modified on January 1, 2023, as authorized by Ordinance 126711; and

WHEREAS, amendments to the Seattle Fire Code from time to time require the introduction of new Seattle Fire Department permits, the elimination of other permits, and modifications to permit titles and administration, to ensure consistency between the permit structure and Seattle Fire Code regulations; and

WHEREAS, the City wishes to maintain or improve cost recovery for the provision of fire prevention services related to specific permitted activities, inspections, plan reviews, and certifications; NOW,

THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 22.602.045 of the Seattle Municipal Code, last amended by Ordinance 126711, is amended as follows:

22.602.045 Fees

* * *

B. The fees for the following special event permits are established in Schedule B. See Table B for

22.602.045.

Special Events Permit Fees

Effective January 1, ((2023)) 2024

Schedule B Table B for 22.602.045 Special Event Permits See notes Late Fee ^{a,b} , Fireworks ^c applicable to all Schedule B permit fees.			
Code No.	Permit Title	Original Fee	Renewal Fee
* * *			
8020	Flammable Liquids, Pla temporary single event ^a	\$312	No renewal
8205.1	Flame effects (all fuel ty events, temporary single projected attendance 250	\$500	No renewal
8205.2	Flame effects (all fuel ty events, temporary single projected attendance 1,0	\$1,500	No renewal
8205.3	Flame effects (all fuel ty events, temporary single projected attendance 250 issued in conjunction wi or 7803 Permit for Pyro	\$500	No renewal
* * *			

^a **Late Fee Applied.** Schedule B permit applications for permits 1102-H, 2500 FM, 2511, 8020, 8206, 8207-VH, and 8208 that are received by the Seattle Fire Department fewer than ten calendar days prior to the event, not counting the day of the event for which they apply, shall be assessed a late fee in addition to the permit fee. The late fee shall be equal to 50 percent of the original permit fee. Applications received three or fewer business days prior to the event may not be processed and the permit may not be issued. Payment for Schedule B permit renewals, where allowed, which is received more than 30 calendar days but fewer than 91 calendar days past the permit expiration date shall be equal to 1.25 times the renewal fee. The renewal permit will be valid for only one year from the expiration date of the prior permit. Permits for which no renewal payment has been received within 90 calendar days following the permit expiration date will be cancelled. Permits that have been cancelled may be reinstated, effective from the expiration date, if the permit holder pays a late penalty of 1.5 times the fee for an original permit within 180 days of the expiration date. Thereafter, any person whose permit has been cancelled shall not be allowed to reinstate the cancelled permit, but shall be required to submit a new permit application and pay a late penalty of 1.5 times the fee for an original permit. Note: new applications for permits 8206 (all types) and 2500-LPG are not subject to late fees; the renewal process for these annual permits does include late fees and if permits are not renewed timely, late fees related to the renewal will be applied as described above in this footnote a.

^b **Late Fee Applied.** Applications for temporary, non-renewable Schedule B permits 1102-FE, 2503 to 2505.4, 3201, 3201-CTY, 3201-SFD, 7801.1 to 7802, 8205.1 to 8205.3, and 8207-FE that are received by the Seattle Fire Department fewer than 30 calendar days prior to the event, not counting the day of the event for which they apply, shall be assessed a late fee in addition to the permit fee and any applicable time charge. The late fee shall be equal to 50 percent of the original permit fee. Applications received three or fewer business days prior to the event may not be processed and the permit may not be issued.

^c **Fireworks Permits.** An application for a fireworks permit shall be made in writing to the fire code official at least 30 calendar days in advance of the display. At the time the permit application is submitted, the fire code official shall be consulted regarding requirements for standby fire apparatus.

C. The fees for the following special hazards permits are established in Schedule C. See Table C for 22.602.045.

Special Hazards Permits

Fees for special hazards permits are established in Schedule C (See Table C for 22.602.045). In some cases these fees are based on the quantity of hazardous material stored and/or handled at the site and the relative risk posed by each material.

L. Fees for certification examinations are established in Schedule L. Each examination fee listed under Schedule L includes one test and one opportunity to retake the test under the following "re-test" conditions: the person taking the examination does not pass the examination the first time and the "re-test" occurs within 90 calendar days of the original test. Upon successfully passing a certification examination, and upon providing evidence of current State of Washington certification if required by State law for that certification type, the

person who took the test will be certified by The City of Seattle for that certification type for one year. The certification may be renewed for two subsequent years at no cost to the licensee. The licensee will, however, need to demonstrate continued competence and continue to comply with State regulations where applicable as a condition of certification renewal. The renewal of the license will be denied if the Seattle Fire Department becomes informed and verifies that the licensee no longer meets the qualifications for the license. Testing is required once every three years.

((Schedule L))

Certification Fees

Emergency Responder Radio System Coverage(Systems Testing) <u>Inspection</u> ^b	\$289
Knox Box Inspections and Service Visits ^c	\$309 plus time charge((^a)) ^d per inspection/service visit
Request for Temporary Certificate of Occupancy recommendation	\$346 plus time charge for all related inspection and review((^a)) ^d
Installation of ((Battery)) <u>Energy Storage Systems Permit and Inspection</u>	See Table C for 22.602.045, permit code 6401 -Install
Installation of Capacitor Energy Storage System <u>Permit and Inspection</u>	See Table C for 22.602.045, permit code 1206 -Install
Installation of Fuel Cell Power Systems <u>Permit and Inspection</u>	See Table C for 22.602.045, permit code 1207 -Install

Installation of Gas Detection Systems <u>Permit and Inspection</u>	See Table C for 22.602.045, permit code 916-Install
Installation of Tanks for Storage of Combustible Liquid Serving Emergency/Standby Power Systems <u>Permit and Inspection</u>	See Table C for 22.602.045, permit code 3402-Install
Installation of Stationary Tanks for Storage of Liquid Petroleum Gas (LPG) <u>Permit and Inspection</u>	See Table C for 22.602.045, permit code 8201-Install
Footnotes to Table A for 22.602.070 ^a ((Where a time charge is indicated, a fee shall be charged equal to actual labor costs plus administrative overhead costs for field inspection and/or review exceeding one hour.)) Seattle Fire Department development fees are applied only to projects receiving a construction or phased construction permit. ^b Fee includes initial inspection plus subsequent inspection visits with no additional charge until the costs of providing the service exceed the amount paid, in which case further inspections may be billed using the time charge. ^c Includes an inspection and one reinspection for a specific project and location. ^d <u>Where a time charge is indicated, a fee shall be charged equal to actual labor costs plus administrative overhead costs for field inspection and/or review exceeding one hour.</u>	

~~((D-))~~ B. Whenever the Fire Prevention Division is requested, or required by the Seattle Fire Code to perform inspections outside regular business hours (8 a.m. to 4:30 p.m.) Monday through Friday, the Fire Chief or the Fire Chief's designee shall collect and the responsible party shall pay a fee for such "overtime" inspection equal to actual labor costs including applicable administrative overhead. If the responsible party does not cancel the "overtime" inspection by 9 a.m. the business day prior to the inspection, and fails to appear within 20 minutes from the original appointment time, the Fire Chief or the Fire Chief's designee shall collect and the responsible party shall pay a fee for such "overtime" inspection equal to actual labor costs including applicable administrative overhead.

~~((E-))~~ C. Whenever the Fire Prevention Division is requested to perform an inspection as required by the Fire Code during business hours and the responsible party fails to appear within 20 minutes from the original appointment time and does not cancel the appointment (~~((by fax or email))~~) in writing with 24 hours' notice, or fails to have the required personnel and/or equipment prepared and available to conduct the test, the Fire Chief

or the Fire Chief's designee shall collect and the responsible party shall pay a fee for such staff time and preparation required to meet the inspection appointment. Such fees shall be based on actual labor costs including any applicable administrative overhead with a one-hour minimum.

((F-)) D. The Director of the Seattle Department of Construction and Inspections is authorized to collect fees listed in this ((section)) Section 22.602.070 for the Seattle Fire Department, and to transfer those funds to the Seattle Fire Department.

Section 3. Section 22.900G.060 of the Seattle Municipal Code, enacted by Ordinance 123453, is amended as follows:

22.900G.060 Fees for review by the Seattle Fire Department((:))

((The fees for Fire Department Plan Review (Section 22.900A.040.C) shall be collected by the Department for transfer to the Seattle Fire Department.)) The Department is authorized to collect fees for Seattle Fire Department development-related services referred to in subsection 22.900A.040.C and transfer those funds to the Seattle Fire Department.

Section 4. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance, or the invalidity of the application thereof to any person, property, or circumstance, shall not affect the validity of the remainder of this ordinance or the validity of its application to other persons, property, or circumstances.

Section 5. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
Seattle Fire Department	Karen Grove	Ramandeep Kaur

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the Seattle Fire Department’s services and fees; adding, deleting, and revising various Seattle Fire Department permit, inspection, and development-related fees and related provisions; and amending Sections 22.602.045, 22.602.070, and 22.900G.060 of the Seattle Municipal Code.

Summary and Background of the Legislation:

This legislation introduces a small number of new permit titles to align with new permit types included in the 2021 Fire Code and makes other changes to certification exam titles also required by the 2021 Fire Code.

This legislation also creates a new fee to help stabilize SFD’s development-related services. Over the past several economic cycles, SFD has had significant recurring impacts on the City’s building permit process. SFD delays have impacted the City’s service goals, slowed the production of new housing units, and cost customers thousands to tens of thousands of dollars. The proposed legislation would result in an overall revenue increase for 2024 and 2025 of \$315,000.

Background

SFD’s Fire Marshal’s Office (also known as the Fire Prevention Division) provides permits and services to help ensure the safety of Seattle residents, workers and visitors and protect them and their property from the hazards of fires, explosions, and dangerous conditions including releases of hazardous materials. The Fire Prevention Division has historically operated by collecting fees that offset some of the costs of providing fire prevention services to service users. Both direct and indirect costs of providing services are included when making cost recovery calculations. The following program specific permit changes are included in the proposed legislation:

For **hazardous materials**, new permits are introduced for newer technologies including 3-D printing and energy storage systems, aligning SFD’s permits with the permits listed in the 2021 International Fire Code.

For **special events**, the flame effects permit is modified to reflect different costs of service for smaller events, larger events, and to provide a discount for events that require the SFD pyrotechnic permit in addition to the flame effects permit.

For **development-related services**, new inspection services are added for integrated testing of fire protection systems and smoke control systems in new construction and buildings undergoing

significant remodels. The legislation also proposes a fee based on project value to help improve turn around times by adding an inspector and investing in process updates.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? Yes No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? Yes No

Appropriation change (\$):	General Fund \$		Other \$	
	2024	2025	2024	2025
	0	0	0	0
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	2024	2025	2024	2025
	\$315,932	\$315,932	0	0
Positions affected:	No. of Positions		Total FTE Change	
	2024	2025	2024	2025
	0	0	0	0

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
 No.

Are there financial costs or other impacts of *not* implementing the legislation?
 Yes. SFD has been a repeated cause of delays to the City’s building permitting process. This ordinance helps SFD take steps to reduce costly delays and improve turn around times including ability to fund an additional new construction inspector and retire aging standalone systems that slow the SFD plan review process.

3.a. Appropriations

This legislation adds, changes, or deletes appropriations.

3.b. Revenues/Reimbursements

This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from This Legislation:

Fund Name and Number	Dept	Revenue Source	2024 Revenue	2025 Estimated Revenue
General Fund, No. 00100	SFD	Development-Related Services	\$307,220	\$307,220
General Fund, No. 00100	SFD	Hazardous Materials	\$2,592	\$2,592
General Fund, No. 00100	SFD	Special Events	\$6,120	\$6,120
TOTAL			\$315,932	\$315,932

3.c. Positions

 This legislation adds, changes, or deletes positions.

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**
 Yes. SDCI will update the fee amounts in the City’s Accela system for the development-related fee changes in this legislation. City building customers pay for these fees in a one-stop shop within Accela, also known as the Seattle Services Portal. SDCI then transfers the revenues for SFD services to SFD for recording in SFD revenue accounts.
- b. Is a public hearing required for this legislation?**
 No.
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
 No.
- d. Does this legislation affect a piece of property?**
 No.
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
 This legislation includes an additional fee for development-related services. The fee is structured based on project value (sliding scale) instead of based on a flat fee and will be the first time SFD’s fee tables have included a value-based fee. Value-based fees are preferable from an equity perspective than flat fees. Using valuation has the result that larger projects pay higher fees for services than smaller projects. This reflects that larger projects take more work, and it creates a structure that provides small projects with lower fees. This will benefit all low-income communities and small businesses, including BIPOC communities and businesses. The fee will be used for staffing stability and process improvements. Part of the process improvements include language access review and improvements. This work will be

informed by an RSJ Equity Toolkit analysis, to be performed at the start of the new budget year.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

No; however, this legislation contributes in a moderate way by setting up administrative provisions for the new energy storage systems (ESS) permit that is included in the 2021 international fire code. ESS are used in buildings and outside of buildings to store and make available electrical power as an alternative to carbon-based power.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

No; however, this legislation contributes in a moderate way by setting up administrative provisions for the new energy storage systems (ESS) permit that is included in the 2021 international fire code. ESS are used in buildings and outside of buildings to store and make available electrical power as an alternative to carbon-based power.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

N/A

Legislation Text

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to Seattle Parks and Recreation; establishing the 2024 fee schedule for the use of park properties and other park and recreation facilities and services; and superseding previous park and recreation fee schedules.

WHEREAS, on November 29, 2022, the Seattle City Council approved Ordinance 126712, which established the 2023 fee schedule for the use of park properties and other park and recreation facilities and services and superseded previous park and recreation fee schedules, pursuant to Section 18.28.010 of the Seattle Municipal Code; and

WHEREAS, the City Council wishes to adopt a 2024 Seattle Parks and Recreation Fee Schedule effective January 1, 2024; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Effective January 1, 2024, the Superintendent of Parks and Recreation is authorized to charge the fees substantially in the form set forth in the 2024 “Seattle Parks and Recreation Fee Schedule,” attached as Attachment 1 to this ordinance. All prior Seattle Parks and Recreation fee schedules are superseded.

Section 2. The provisions of this ordinance and of Attachment 1 to this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, or portion of this ordinance or Attachment 1, or the invalidity of their application to any person or circumstance, does not affect the validity of their remainders or the validity of their application to other persons or circumstances.

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by

Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by
me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

Scheereen Dedman, City Clerk

(Seal)

SEATTLE PARKS AND RECREATION FEES AND CHARGES

AUTHORITY AND GENERAL PROVISIONS

- **Authority**

Fees and charges are necessary to provide financial support to the Seattle Parks and Recreation (the Department) for the operation and maintenance of programs, facilities, and park grounds. The revenue generated by these fees constitutes only a portion of funds required for operating and maintaining the Park System. All fees collected from park and recreation activities and concessions are used exclusively for the Park System, as these funds are deposited in the Park and Recreation Fund, not the City General Fund. Fees and charges are proposed each year by the Department as a part of the annual budget process. Both the Mayor and City Council review and, by ordinance, authorize the Department to collect these fees and charges.

- **General Provisions**

The Superintendent of the Seattle Parks and Recreation is authorized to establish a fee for requested uses not included in this schedule, keeping the Mayor and the City Council advised thereof. The Superintendent of the Seattle Parks and Recreation is authorized, as provided in Seattle Municipal Code (SMC) Chapter 18.28, to waive or reduce any fees in this Schedule.

The Superintendent of the Seattle Parks and Recreation is authorized, as provided in SMC Chapter 18.28, to establish experimental rates, and to engage in special promotional and marketing activities to enhance Departmental programs. These include, but are not limited to, use of 2 for 1 coupons, 50% discount coupons and free admission days for children. Discounts for Senior Adults (age 65 and over) vary per program. These types of activities may occur at various Department facilities throughout the year.

The Superintendent of the Seattle Parks and Recreation is authorized, as provided in SMC Section 18.24.010, to operate for fee parking without recourse to commercial or private operators such parking lots under the Department's jurisdiction as are deemed desirable with the concurrence of the City Council by resolution as to location and fee schedule, consistent with provisions of RCW 35.86.010 and 35.86.040 which so permit such owner operation.

The Superintendent of the Seattle Parks and Recreation is authorized, as provided in SMC Chapters 18.04 and 18.28, to approve the free use of Department facilities by the Associated Recreation Council, recognized recreation advisory councils, and other organizations that are open to the public, that further Department goals and programs, and that apply any proceeds to Park and Recreation services.

In addition to the fees and charges identified herein, the user may be required to pay any additional Department costs resulting from such use, and to pay a reasonable portion of the City's costs for traffic control and police services when the user's event requires them. Cancellation of reservations for Parks and Recreation facilities or services may result in loss of payment or a service charge (see Appendix D). For further information, contact Seattle Parks and Recreation at (206) 684-4075.

Fees contained in this Fee Schedule shall not apply to permits issued pursuant to SMC Chapter 15.35 "Filming."

STAFFING FEES

Rentals are required to have at least one staff in attendance. If additional staff are required due to the nature of the event or the anticipated attendance, a fee of \$34.00 will be multiplied by the number of staff required for the event. Additionally, staff rates increase 1½ times per hour on holidays.

Staffing fees are applicable at:

- Tateuchi Community Room
- Shoseian Tea House
- West Seattle Stadium
- Interbay Stadium
- Lower Woodland #1 Field, when using scoreboard
- Gymnasium rentals
- Boathouse, Bathhouse, Shelterhouse, and Pumphouse Rentals
- Magnuson Park (Event attendants)
- Park Area Ceremonies (Ceremony attendants) – Additional staff fees will be charged when wedding or ceremony is large and/or complex

ADMISSION FEES

QUICK CARDS

- **Seattle Parks and Recreation “Quick Cards”**

This reusable card features a barcode and photo of the participant. It allows fast, easy, self-service access to a variety of selected fee-based or free programs (recreational swims, fitness swims, weight room access, teen centers, etc.) at various facilities. This non-refundable, non-transferrable card can be reloaded, renewed, or added with new features/programs as desired or as they become available. There is a \$5.00 replacement fee for lost or stolen cards. For further information, call the Business Service Center at (206) 684-5177.

GOLF COURSES

- **Interbay, Jackson, Jefferson and West Seattle Golf Courses**

The Superintendent of the Seattle Parks and Recreation is authorized to establish all greens fees and all other golf facility or service fees (including, but not limited to, driving range, carts, cars, play cards, lessons, and room rentals) consistent with and subject to the contract entered into with Premier Golf Centers, LLC (Premier), as authorized by separate ordinance. Golf program fees will be prominently posted at all times in each clubhouse. Call the following for further information:

Interbay	(206) 285-2200
Jackson	(206) 363-4747
Jefferson	(206) 762-4513
West Seattle	(206) 935-5187

- **Green Lake Pitch & Putt**

Green Lake Pitch & Putt is operated through a concessions contract. Therefore, fees for participation at this facility are not governed by City Ordinance. You may contact Green Lake Pitch & Putt directly at (206) 632-2280, or the Business Resources Unit of the Seattle Parks and Recreation at (206) 684-8008, to obtain specific information related to this facility.

SEATTLE AQUARIUM

- **Aquarium Fees**

All admissions, services rendered or sales made to the public or otherwise at the Aquarium (including, but not limited to, admission fees, annual memberships, rentals, education program fees, and discounts/other programs) will be established by the Seattle Aquarium Society (“SEAS”), consistent with and subject to City Ordinance 123205 and Article 13 of the Seattle Aquarium Operations and Management Agreement. You may contact the Seattle Aquarium directly at (206) 386-4300 to obtain further information or by visiting their web page at “seattleaquarium.org”.

VOLUNTEER PARK CONSERVATORY

- **Weddings / Photography Permits**

Weddings and special ceremonies may be scheduled (see page 32) and/or Photography Permits (to be used outside of public hours) may be obtained (see page 36) through the Parks Event Scheduling unit by calling (206) 684-4081.

• **Admissions Fee**

• **Aquatic Facility Rental Fees**

General Swimming Pool Rentals (other than Competitive Sports)

	2024	
	\$32.25	Non-refundable booking fee required for all rentals in addition to hourly rates.
	\$200.00	Damage deposit for all rentals where equipment is brought into the facility.
	\$32.00	Hourly lifeguard staff costs (per lifeguard), in addition to pool rental fee (staff rates increase 1½ times per hour on holidays)

	\$96.00	Indoor pool or half of Rainier Beach Pool (either the lap pool or the leisure pool) rental cost per hour when pool is scheduled to be closed to the public, plus staff costs. <i>Calculation for a per lane rental rate when entire pool is used = dividing the cost per hour by the number of lanes and rounding up to the next whole dollar.</i>
	\$49.00	Hourly indoor pool rate for shallow end only in bulkhead pools when deep end is in use. This fee applies to Madison and Medgar Evers aquatic facilities.
	\$317.00	Indoor Pool rental, per hour, when pool is scheduled to be open to the public, plus staff costs
	\$149.00	Colman Pool rental, per hour, plus staff costs (exclusive use) Note: Colman Pool is an 8 lane, 50-meter pool with a slide
	\$159.00	Mounger Pool or Rainier Beach Pool rental, per hour, plus staff costs (exclusive use, including all pools & slide)

Swimming Pools – Competitive Sports Rentals

	2024	<i>(see notes on following page for more information)</i>
	\$32.25	Non-refundable booking fee required for all rentals in addition to hourly rates.
	\$200.00	Damage deposit for all rentals where equipment is brought into the facility.
	\$32.00	Hourly lifeguard staff costs (per lifeguard), in addition to pool rental fee (staff rates increase 1½ times per hour on holidays)
	\$91.00	Beginning Swim Team for youth – introductory beginning level, per hour for all lanes, offered at a reduced price to encourage use by new youth competitive sports programs. <i>Pricing offered on a quarterly basis at which time swimmers advance to standard rates.^A</i>
	\$117.00	Indoor competitive sports rental (between 6am-8pm) cost per hour when pool is scheduled to be closed to the public, plus staff costs. ^{A,B}
	\$59.50	Hourly indoor competitive sports (between 6am-8pm) rate for shallow end only in bulkhead pools when deep end is in use, plus staff costs. This fee applies to Madison and Medgar Evers aquatic facilities. ^B
	\$107.00	Indoor competitive sports rental (between 8pm-6am) cost per hour when pool is scheduled to be closed to the public, plus staff costs. ^{A,B}
	\$49.25	Hourly indoor competitive sports (between 8pm-6am) rate for shallow end only in bulkhead pools when deep end is in use, plus staff costs. This fee applies to Madison and Medgar Evers aquatic facilities. ^B
	\$233.00	Indoor pool competitive sports rental or Swim Meet, per hour, when pool is scheduled to be open to the public, plus staff costs. ^B

	\$202.00	Colman Pool competitive sports rental, per hour, plus staff costs (exclusive use) Note: Colman Pool is an 8 lane, 50-meter pool with a slide. ^B
--	----------	--

^A NOTE: Calculation for a “per lane” rental rate when entire pool is used = dividing the cost per hour by the number of lanes and rounding up to the next whole dollar.

^B NOTE: “Competitive sports” rates apply to swim teams, masters, and water polo.

NOTE: Individuals and groups desiring to use swimming pools will be expected to pay the cost of staffing in addition to program rates established. Staff rates increase 1½ times per hour on holidays.

NOTE: Rates also apply to Metro or King County League swim meets for events that do not include a Seattle Public School. Events that include a team from a Seattle Public School are covered under the Joint Use Agreement and are not charged a swim meet fee. Staff fees are additional (staff rates increase 1½ times per hour on holidays).

NOTE: There is an hourly flat-rate charge for competitive meets, with no additional percentage charges for the event (no percentage collected for entry fees and heat sheet sales).

NOTE: Swim meet entry fees and sale of heat sheets are included in base fee for each event.

NOTE: Permit Application Fee as established in **Use Permits** section of Fees and Charges ordinance will apply plus 10% of gross revenue for **all Admissions and Swim Meet Concessions** (food/drink, t-shirts, goggles, etc). Additional insurance and/or permits may be required.

NOTE: Deck or lobby rentals priced as small room under Class C room rentals.

NOTE: Bulkhead pool rentals during public hours are limited to lap pool or shallow pool, not both, unless specific fees are charged.

Timing System Rental

	2024	
	\$400.00	Minimum 4-hour use
	\$100.00	Each additional hour
	\$31.00/hr	Additional staff charge for delivery, set up, operation and clean-up (staff rates increase 1½ times per hour on holidays).

Note: The timing system is available for rentals at most Seattle Parks and Recreation swimming pools. Some limitations may apply.

Special Use Fees

	2024	
	10% of gross sales on Parks property	If, in the course of the activity/event, charges are levied for admission, sales, concessions, or entry fees, the user will be subject to a minimum charge of 10% of the gross receipts.
	\$1.00	Water Slide Use Fee per person for recreation swims over one hour in length; no charge if one hour or less.

	\$2.00 – 50.00	Supplemental Special Event fee (indoor or outdoor), depending on event, such as open water swim, dive-in movies, jazz night, etc.
	\$15.00	Dog Swim Special Event – <i>scheduled immediately prior to preventative maintenance closure. Limited to dogs only in the pool. No charge for spectators.</i>
	\$0.25	Coin Operated Locker
	\$0.50	Towel use, each
	Market Value	All merchandise sold at Mounger Pool will be at market value. Merchandise may vary throughout the season. NOTE: While this is a “City fee” at Mounger Pool, this fee is collected by the Associated Recreation Council at all other pools.

Special Provisions

Colman and Mounger Pools:

Admission fees to these facilities are charged to all persons entering pool area, even if not swimming (except parents watching children in lesson programs). Use of the pools, decks and picnic areas is part of the overall recreation opportunity; pool capacity is based on use of this area.

- **Special Programs**

Super Deluxe Birthday Party Package

A complete birthday party package at pools includes one-hour shared use in a section or portion of the pool, a one-hour party immediately following your water time in a designated party space (room, deck, or lobby), lifeguards, one pre-packaged juice, paper products and party goodie bags for each enrolled child. (Food items not included.) NOTE: Booking Fee does not apply to this program when operated during public business hours, and is not for exclusive use nor rental). Maximum party size is 20 children and 20 adults. Adults are included in the party package without charge as spectators and/or as in-water assistants for children who are weak swimmers, under height, or below age requirement. Adult in charge of party is responsible for all clean-up of party areas at the end of the program.

	2024	
	\$273.25	Minimum package fee – for a party of 10 children
	\$13.50	Additional fee – per child

Wading Pool Rental

	2024	
	\$500.00	Minimum 4 hours of operation (includes 5½ staff hours)
	\$50.00	Each additional hour

Wading pool rentals are only available at sites scheduled for summer use. All wading pool operating time under this rental rate is available for public use; no exclusive rental use is allowed.

Aquatic Special Events

NOTE: This category is for special events that result in the cancellation of scheduled programs or closure of a small craft center, swimming beach, or other public program. This fee is in addition to other fees.

	2024	
	\$300.00	Special events, per day

ATHLETIC FACILITIES

See Appendix C for the Athletics Field Inventory.

- **West Seattle Stadium and Interbay Stadium Usage Fees**

	2024	
	10% of gross revenues	Admissions/Sales. This includes admissions or donations, and excludes entry fees.
	\$79.00/ hr	Athletic Stadium Games, Meets and Events *
	\$58.75/hr	Practice Fee** adult and youth practices
	\$15.00/ hr	West Seattle Stadium only – youth fee
	\$15.00/ hr	Rental of the West fenced Field Event area for shotput, discus, hammer throw, long jump and javelin only (West Seattle Stadium only); users must also pay staff fee.
	\$31.50/ hr	Light Fee - this fee is charged for all uses requiring lights.

*Event fees are charged for adult and youth special events, games and meets. West Seattle Stadium fee provides exclusive use of the facility and includes use of equipment, the press box and PA system, ticket booth, locker rooms and grandstands. Interbay Stadium fee provides exclusive use of the facility and includes use of equipment, the press box, locker rooms and grandstands. A staff person is required to be in attendance, and the staff fee must be paid in addition to the use fee. This fee does not include Lights or 10% charge on all admissions/sales.

** Practice Fees provide use of the facility and includes use of equipment, the press box and PA system, ticket booth, locker rooms and grandstands. A staff person is required to be in attendance and the staff fee must be paid in addition to the use fee. This fee does not include lights or the ten percent (10%) charge on all admissions/sales. Facility use may not be exclusive – multiple users’ activities will be organized through the Seattle Parks and Recreation scheduling office.

NOTES for Department Sponsored Activities:

- See following page for synthetic and non-synthetic field fees for practices/games.
- All rentals are a minimum of one hour.
- Additional staff may be required due to nature of event and anticipated attendance.
- A damage deposit may be charged depending on nature of event and anticipated attendance.

- **Adult Sports Fees**

	2024	
	\$25.00	Indoor Sports League Fee, per hour
	\$30.00	Adult Sports Team Administration fee/team
	\$81.00	Adult Outdoor Use, per hour – synthetic field
	\$60.00	Adult Outdoor Use, per hour – non-synthetic field
	\$31.50/ hr	Outdoor Field Lighting Fee, per hour

- **Youth Sports Fees**

	2024	
	\$16.00	Youth Outdoor Use, per hour – synthetic field
	\$10.50	Youth Outdoor Use, per hour – non-synthetic field
	\$81.00	Private School Outdoor Use, per hour – synthetic field
	\$60.00	Private School Outdoor Use, per hour – non-synthetic field
	\$81.00	Outdoor youth Sports Camps, per hour – all field surfaces
	\$31.50	Outdoor Field Lighting Fee, per hour

- **Sports Organizations’ Use Permits**

Sports organizations’ events, such as jamborees and tournaments, shall be subject to regular Use Permit charges. *See permit fee details on pages 31-33.*

- **Seattle Parks and Recreation Outdoor Tennis Courts**

Where a participant entry fee for tournaments or a fee for lessons is charged, 10% of gross receipts are to be paid to the Department in addition to the charges noted below. All persons who instruct tennis for a fee on Department courts must schedule according to court availability with the Scheduling Office, obtain the appropriate permit and pay the required fees. They must also successfully complete the Department’s Tennis Instructor’s Certification program and show proof of certification before a permit will be issued.

Tennis Reservations (4 or less players)

	2024	Scheduled based on availability.
	\$8.00	1 hour, court rental, Adult play
	\$13.00	1 hour, court rental, Private School
	\$6.00	1 hour, court rental, Youth play

NOTE: *See “Amy Yee Tennis Center” on page 6 for Indoor Tennis fee rates.*

- **Outdoor Volleyball Courts**

Outdoor Volleyball Reservations

	2024	Scheduled based on availability.
	\$8.00	1 hour, court rental, Adult & Youth play
	\$8.00	1 hour, court rental, Private School

Facility Rentals

	\$250.00	Damage deposit without alcohol at event

• **Warren G. Magnuson Park**

Note: Magnuson Park artist studios are available via License Agreement with Seattle Parks and Recreation. The rental rate for these studios at the time of signing a License Agreement will not exceed 75% of market rate for these spaces. Market rates are determined via a consultant study commissioned by SPR. The intent behind this pricing guideline is to preserve the presence of the arts in Magnuson Park as the value of Seattle property continues to rise.

Application Fees

	2024	
	\$32.25	Booking Fee, non-refundable for indoor rentals
	\$75.00	Application Fee, non-refundable for Use Permit Fee
	\$30.00	Per location per day film shoots
	\$50.00	First Amendment use permit fee
	10% of gross + rental charges	Admissions, booths, and sales revenue (includes all performance revenue)
	\$75.00	Alcohol use fee (insurance also required)*
	Up to 25 - \$212.50 Up to 50 - \$425 Up to 100 - \$850	Tables
	Up to 100 - \$250 Up to 250 - \$625 Up to 500 - \$1,250	Chairs
	\$25-\$250	A non-refundable per hour maintenance fee may be charged and collected prior to the event as determined based upon event size, number of participants and anticipated labor required for maintenance and cleaning for the activity
	\$250.00	Refundable Damage deposit for events without alcohol
	\$500.00	Refundable Damage deposit for events with alcohol

*Alcohol must remain in facility. Alcohol is not permitted during operating hours.

Special Amenity Facility/Site Rentals

	2024	<i>Note: Staff fee not included. *Tables & chairs rented separately</i>
	\$91/hour	Bldg 30 Workshop
	\$102/hour	West Wing – Admiral’s Office, office/kitchen, 4-hour minimum

	\$235/hour	Hangar 30, hourly weekend rate*
	\$95/hour	Hangar 30, hourly weekday rate for regular evening rentals
	\$27/hour	Bldg 406 Brig, Belvedere room
	\$60/hour	Bldg 406 Brig, Garden room & Hawthorne Hills room
	\$79/hour	Bldg 406 Brig, Matthews Beach and View Ridge rooms
	\$170/hour	Garden Amphitheater, 2 hour minimum (Ceremonies)
	\$295/hour	**Parking area use fee – 25 or fewer spaces blocked per day (<i>Building 30 parking lots only</i>)
	\$49/hour	*Hourly use fee for Community, Natural, Special Use and Recreation Area parks (<i>Magnuson Park only</i>)

* Hourly use fee for Park Use Permits for all events except those constitutionally protected or those events covered under separate agreement. Contact Event Management office at 684-4081 for further information.

** *Parking area use fees apply to designated parking areas in some parks that the Parks Department deems necessary to reserve for events.*

Facility/Site Rentals

	2024	
	50% of regular room rate	Class A room rate per hour (+ booking fee) – <i>see Class A requirements on page 19</i>
	\$48.25	Gym, athletic use, per hour
	\$132.25	Gym, non-athletic use, per hour
	\$42.25	Small room rate, per hour
	\$54.25	Medium room rate, per hour
	\$72.25	Large room rate, per hour
	\$30.25	Kitchen rate, per hour

- **Washington Park Arboretum (Graham Visitor’s Center)**

All fees are collected by the Arboretum Foundation. Please refer to the Arboretum’s website for the current fee schedule. <https://botanicgardens.uw.edu/washington-park-arboretum/visit/venue-rental/>

MOORAGE, DOCKING, AND BOAT RAMP FEES

MOORAGE FEES

- **Leschi and Lakewood Marinas**

Moorage fees and all other marina facility or service fees will be established by a business vendor through the bidding process as authorized by separate ordinance. Moorage hours will be prominently posted at all times at each marina entrance. Contact the following for fees or any other information regarding Marinas:

Leschi Marina or Lakewood Marina: (206) 708-4619

DOCKING FEE (includes various Parks Department docks)

	2024	
	\$75/day	Load/unload; short term moorage slip use + Application/Use Permit Fee
	\$75.00	Application/Use Permit fee

Note: For Lake Union docking fee information, please contact the Center for Wooden Boats at (206) 382-2628.

BOAT RAMPS

	2024	
	\$12.00	Daily Permit fee – consecutive daily permits may be purchased to allow for overnight parking (not to exceed 4 nights).
	\$150.00	Annual Permit fee – overnight parking privileges not to exceed four consecutive nights.
	\$75.00	Annual Permit fee (low income rate) – overnight parking privileges not to exceed four consecutive nights.

LAKE UNION PARK HISTORIC SHIPS WHARF

- **Center for Wooden Boats Fees**

Temporary use by vessels of the wharf and north seawall at Lake Union Park is managed by the Center for Wooden Boats under contract with Seattle Parks and Recreation. Fees are established by the Center for Wooden Boats consistent with and subject to the contract between Center for Wooden Boats and Seattle Parks and Recreation. For information, call 206-382-2628.

PARTICIPATION FEES

RECREATION PARTICIPATION FEES

As a service to the public, the Seattle Parks and Recreation may contract with Advisory Councils, or the Associated Recreation Council to collect fee payments. The contract shall require the Advisory Council or Associated Recreation Council to remit the participation fee to the City.

- **Community Center and Outdoor Recreation Class Fee**

	2024	
	4.0%	Percent of fee for all Advisory Council sponsored classes, programs, and sessions at community centers and for outdoor recreation programs.

- **Lifelong Recreation Program Participation Fees**

NOTE: These fees only apply to programs offered through the Department’s Senior Adult Section. Senior adult fees for participation in other programs are listed elsewhere in this Fees and Charges Schedule. Where there is no senior adult fee listed for the activity, the adult fee will apply.

	2024	
	4.0%	Percent of Senior Adult Advisory Council class fee paid by registrants for all advisory council sponsored classes, programs and field trips.

- **Small Craft Center Class Participation Fees**

	2024	
	17.5%	Rowing Advisory Council fee (paid in quarterly installments)
	18%	Seattle Canoe Club (paid in quarterly installments)
	12%	Mt Baker Boating Advisory Council (paid in quarterly installments)

RESERVATIONS

- **Park Area Ceremony Fee**

NOTE: Areas are available in many parks for various special ceremony uses. See “USE PERMITS – General Provisions” for standard application Park Use Permits.

	2024	
	\$200.00	Hourly fee, with 3-hour minimum for garden weddings or ceremonies at Kubota Gardens and Parsons Gardens
	\$170.00	Hourly fee, with 2-hour minimum for wedding or ceremonies at Alki Beach Park, Golden Gardens Park, Hamilton Viewpoint, Sunset Hill Viewpoint, Volunteer Park, and Washington Park Arboretum, Magnuson Garden Amphitheater
	\$148.00	Hourly fee, with 2-hour minimum to use parks not listed above for weddings or other ceremonies

- **Picnic Reservation Fee**

NOTE: Tables at shelters are not included in shelter price and are charged separately. **Shelter rental must include shelter price plus fee for each table.**

	2024	
	\$60.00	Each Regular Shelter per HALF-day (excluding Golden Gardens, Carkeek, Alki, Lincoln Park and Magnuson Park); additional fees will apply for tables under shelter. Half-day rates are 8:00 a.m.-2:00 p.m. OR 3:00 p.m.-10:00 p.m.
	\$75.00	Each Shelter at Golden Gardens, Carkeek, Alki, Lincoln Park and Magnuson Park per HALF-day; additional fees will apply for tables under shelter. Half-day rates are 8:00 a.m.-2:00 p.m. OR 3:00 p.m.-10:00 p.m.
	\$110.00	Each Regular Shelter per DAY (excluding Golden Gardens, Carkeek, Alki, Lincoln Park and Magnuson Park); additional fees will apply for tables under shelter. Full day rates are 8:00 a.m.-10:00 p.m.
	\$120.00	Each Shelter at Golden Gardens, Carkeek, Alki, Lincoln Park and Magnuson Park per DAY; additional fees will apply for tables under shelter. Full day rates are 8:00 a.m.-10:00 p.m.
	\$25.00	Each Table, per day
	\$15.00	Each Table, per half day
	\$25.00	Reschedule fee (14-day notice required to reschedule)

- **Day Camps Booking Fee**

	2024	
	50% discount of Shelter and/or Table fees	Discount of “Picnic Reservation Fees” and Camp Long Shelters as found in Fees and Charges, plus \$75 use permit application fee.

PERMITS

USE PERMITS

Use Permits authorize non-department groups to utilize Seattle Parks and Recreation property for special events (i.e., runs, boating, concerts, day camps, community festivals, rallies, commercials, etc.). Additional charges may apply to cover direct cost of special services/requests.

- **General Provisions**

NOTE: Insurance shall be required when the planned event or any structure, activity or feature thereof presents a significant risk of liability or loss for the City, its officers, or for the applicant, due to personal injury or property damage. The insurance requirement shall not apply to events where the sole activity consists of expression protected by the First Amendment and does not involve the use of any structures, vehicles, equipment, apparatus or machinery that creates a significant risk of personal injury or property damage. In addition, an application fee will be collected upon formal written application. This fee is non-refundable, except when the Department denies a request.

	2024	
	\$50.00	Application fee – First Amendment Events, including political activities.
	\$75.00	Standard Application fee – Use Permits (i.e., runs, boating, concerts, day camps, community festivals, rallies, seasonal concession permits, etc.)
	\$30.00	Booth fee – As part of a special event, a charge of \$30.00 per booth or 10% of gross sales, whichever is greater.
	10% of gross sales on Parks property	<u>For events OPEN to the general public without restriction:</u> Events with booths that pay a participation fee (paid to the event organizer) – pay 10% of Gross Sales from entire event collectively, OR, pay 10% of their vendor participation booth fee, per booth. Example: If booth participation fee is \$500 to sell their items in the event, then \$50 of that gets paid to Parks. Any sales received outside of a booth still pay 10% of sales; Ex: admission/entry fee, food trucks, etc.
	The greater of 10% of gross sales on Parks property or \$5,000	<u>For events that RESTRICT general public access:</u> For events that restrict or limit access to the general public through the use of controlled entry points the percentage of sales fee shall be set at \$5,000.00 per day minimum or 10% of the gross receipts for those items not free, whichever is greater. In these cases, the percentage of sales applies to all admissions, registration fees or tickets, including those not purchased on Parks property collected before during or after the event. This minimum percentage of sales fee will be added to the park use reservation and must be paid in advance with all fees due prior to permitting. When sales generate additional fees, those fees are due within 10 days of the expiration of the permit.

	The greater of 10% of gross sales on Parks property or \$10,000	<u>For events that EXCLUDE general public access:</u> For events that exclude the general public because the event is private in nature and restricted to a specific group or invited attendees, the percentage of sales fee shall be set at \$10,000.00 per day minimum or 10%, whichever is greater. In these cases, the percentage of sales fee applies to all admissions, registration fees or tickets, including those not purchased on Parks property collected before during or after the event. These fees apply to all days of event set up, event execution and event break down while the event area is restricted to the general public. This minimum will be added to the park use reservation and must be paid in advance with all fees due prior to permitting. When sales generate additional fees, those fees are due within 10 days of the expiration of the permit.
	\$25.00	Load/Unload fee, per vehicle – for short-term access into non-parking areas or those areas accessed through a locked gate or bollard.
	\$95.00	Utility hook-up fee – for any utility hook-up performed by Department personnel.
	\$75.00	Alcohol use permit fee
	\$75.00	Supplemental Late Application Fee – for requests submitted less than 6 working days before event. (Fee does not apply to First Amendment events)
	\$100.00	Per surface (advertising banner, canopy/tent wall, sign, vehicle surface, inflatables, other) per day – for posting signage (including signage that contains both commercial and non-commercial elements) in a park in conjunction with a park use permit.
	\$15.00	*Hourly use fee for Triangles, Circles, Squares, Pocket parks, Boulevards, and the Burke Gilman Trail
	\$25.00	*Hourly use fee for Downtown & Neighborhood parks
	\$35.00	*Hourly use fee for Community, Natural, Special Use and Recreation Area parks
	\$49.00	*Hourly use fee for Community, Natural, Special Use and Recreation Area parks (<i>Magnuson Park only</i>)
	\$200.00	**Parking area use fee – 25 or fewer spaces blocked per day
	\$250.00	**Parking area use fee – 26-50 spaces blocked per day
	\$575.00	**Parking area use fee – 51 or more spaces blocked per day

* Hourly use fee for Park Use Permits for all events except those constitutionally protected or those events covered under separate agreement. Contact Event Management office at 684-4080 Ext. 3 for further information.

** Parking area use fees apply to designated parking areas in some parks that the Parks Department deems necessary to reserve for events.

- **Permits and Agreements for Activity Permits**

In order to provide positive activation to parks, needed amenities for park users and services that enhance the park experience or provide applicable opportunities that the Department does not provide, agreements and permits are periodically issued to interested parties and organizations and small businesses. Permits are mandatory for doing business in a park. NOTE: Rating criteria emphasis is put on WMBE businesses and those businesses are encouraged to register in the City’s WMBE database. Activities must align with the Department mission and goals. Activity (Fitness and Nature Education) opportunities are advertised on the Department website year-round.

	2024	<i>All fees are payable <u>in advance</u> at the time the permit is purchased.</i>
	\$75.00	Permit Administrative fee – Activities (Fitness & Education classes) operating less than ten (10) hours per week with fewer than 35 participants at any time.
	\$75.00	Monthly (per park) Permit fee – Activities (Fitness or Education) operating, but not vending in the Parks with fewer than 35 participants and less than ten (10) hours per week operating in a park.

- **Use of Park Facilities for Filming/Photography**

NOTE: Regular permit fees apply to below charges, including late permit fee. Commercial filming and photography for advertising within the City of Seattle is covered under the Seattle Filming Ordinance. All of the information that you need about filming in Seattle can be found in the Seattle Film Manual, located online at <http://www.seattle.gov/filmandmusic/film/film-permits>

	2024	
	\$30.00	Per 4-hour block of time, per park, for commercial filming/photography (wedding photos, graduation photos, etc.). NOTE: Fees for Garden Sites may be higher, depending upon time of year and/or days requested.

- **First Amendment Vending**

Persons may apply for a permit to vend merchandise that is inherently expressive or in which a political, religious, philosophical or ideological message is inextricably intertwined. Such “First Amendment Vending” is governed by regulations adopted by the Seattle Parks and Recreation. When conducted on a park drive or boulevard, First Amendment Vending is subject to a base permit fee of seventy-five dollars (\$75.00) for a monthly site permit. When conducted within a park, First Amendment Vending is subject to a monthly base permit fee of seventy-five dollars (\$75.00). Questions concerning the First Amendment Vending Regulations may be directed to the Parks Concessions Coordinator at 233-0063.

- **Construction Plan Review**

The Seattle Parks and Recreation (SPR) charges a fee of \$128 per hour for our cost of construction plan reviews, including review of development plans from both private and public entities that affect park property. This SPR fee is in addition to the fee currently charged by the Department of Planning and Development (DPD), excluding Public Works projects which are requested for review outside the DPD review process. The DPD fee includes elements to reimburse DPD, Seattle Public Utilities

(SPU), the Department of Health, and Seattle Department of Transportation (SDOT), for the plan review work done by their staff. For further information, please contact the Parks Planning & Development section at 206-684-4860.

PERMITS FOR NON-PARK USES of PARK PROPERTY (Revocable Use Permits or RUPs)

• **General Provisions & Fees**

Revocable Permits to Use or Occupy Park Property, commonly called Revocable Use Permits, are issued by the Superintendent of Parks and Recreation, under authority of Seattle Municipal Code (SMC) 18.12.042, 18.12.045, and 18.12.275, for various short-term or on-going (i.e., Limited Term or Continuing Use, respectively) **non-park uses** of public land under the control of the Seattle Parks and Recreation. **Permits are revocable upon thirty (30) days' notice** or immediately upon failure of the Permittee to comply with the terms and conditions of the Permit. **Unauthorized use of park property**, including failure to apply for and obtain a Revocable Use Permit, **is unlawful and subject to enforcement** actions or other remedies as specified in SMC 18.30 or other applicable law.

In accordance with the Policy on Non-Park Uses of Park Lands, as endorsed by City Council Resolution 29475, it is the policy of the Seattle Parks and Recreation to **limit authorized non-park uses of park land to the fullest extent practicable. Fees and conditions** set for Revocable Use Permits **are intended to discourage private, non-park uses of park lands**; encourage the elimination of encroachments; and promote private and public cooperation in maintenance of park lands in a manner consistent with a public park-like character.

Consideration of any permit application requires payment of an Application Fee, unless City action to a public right-of-way resulted in inaccessibility from other than park property. The **Application Fee is non-refundable**. Issuance of a permit requires payment of a Permit Fee which is:

- a **fixed daily fee** (i.e., **Limited Term permit fee**); and/or
- calculated in accordance with a **formula (Continuing Use permit fee)**; or
- a **minimum** permit fee.

Application Fees and Permit Fees are set periodically by ordinance. Under exceptional circumstances, the Superintendent of Parks and Recreation may waive or reduce the Revocable Use Permit Fee, in accordance with criteria established by SMC 18.28.030 or SMC 18.28.040. Creek restoration projects proposed by other City departments are specifically exempted from permit fees of any kind as the City recognizes these projects as valuable enhancements to its parks and recreation assets. In determining whether the Permit Fee should be **waived or reduced**, the Superintendent shall be guided by:

- The benefit to the public and the direct benefit to the park system;
- The frequency and/or amount of usage requested;
- The effect on and fairness to other park users;
- Consistency with policies underlying the fee schedule and SMC Chapter 18; and
- The consequences of denying the request.

The Superintendent may authorize the **acceptance of permanent physical improvements**, such as constructed improvements or landscaping, as compensation in lieu of the Permit Fee in those circumstances where the proposed in lieu compensation can be shown to be equal to, or greater, in value than the calculated or set amount of the Permit Fee, provided that the Superintendent shall not

accept such in lieu compensation where the improvement is inconsistent with the City's health, safety or aesthetic standards, the mission or policy of the Parks Department, or conveys any message that is not adopted by the City.

Waiver or reduction of the Permit Fee **does not necessarily waive or reduce other fees, charges, requirements, or obligations** in connection with issuance of a Revocable Use Permit including Application Fee, Inspection Fee, processing charges, insurance or indemnity requirements, or restoration requirements.

Limited Term Permit Fee

Limited Term permits may be issued for necessary uses of park property for brief periods of time, generally expected to be **limited to ninety (90) days or less**; however, Limited Term permits may be issued for uses expected to continue beyond ninety (90) days. **Examples of activities** for which Limited Term permits may be issued include removal of encroachments, installation of landscaping consistent with Department guidelines, utility installations, and temporary access.

The Limited Term permit fee will be **charged at a daily rate from the date the permit is issued or the date the use or occupancy of park property began, whichever is earlier**, until the activity is completed and all conditions of the permit, including restoration of any damage to park land, have been satisfied. If seasonal factors, such as planting conditions or construction prohibitions, warrant a delay between the time the use or occupancy of park property is completed and the time the restoration is completed, no Permit Fee shall be charged for the interim period, unless the park land is unavailable for the use or enjoyment of the public.

If a Revocable Use Permit is issued for a use of park land that is expected to continue for a limited period of time, such as a Limited Term permit, but for a **period exceeding ninety (90) days**, the fee shall be the daily rate set for Limited Term permits for the first ninety (90) days; the fee for the period exceeding ninety (90) days shall be calculated in accordance with the Continuing Use permit fee.

Under no circumstances shall a Limited Term permit fee be converted to a lesser fee due to extension of the anticipated completion date of the permitted activity. If upon inspection it is determined that the permit conditions have not been satisfied, charges for additional daily fees at the same rate shall accrue until conditions have been satisfied.

Continuing Use Permit Fee

Continuing Use permit fees shall be charged for **uses expected to continue for an extended period of time, generally beyond ninety (90) days (e.g., encroachments or other non-park uses that will not be corrected or eliminated within a ninety (90) day period)**. Continuing Use permit fees shall be calculated using a **formula** based on land **Value**, **Area** of use, a **Barrier** factor, and a **Rate** of return (**V x A x B x R**).

The **Value** of the park land used shall be determined by calculating the average of the **assessed value** per square foot of the benefited property and the assessed values per square foot of **comparable** (i.e., similarly zoned, having similar amenities such as waterfront or view), nearby (within a distance not to exceed 1,000 feet) **non-park properties**.

The **Area** shall be the total of the square footage of park land actually used or occupied for non-park purposes and/or the square footage of park land that is subject to a barrier to public use and/or enjoyment.

The **Barrier Factor** is a multiplier of 1 or less than 1, representing the extent of barrier to public use and enjoyment, as set by the following scale. If two or more Barrier Factors may apply, the greater factor shall apply.

Factor: **1.00** Full use and/or occupancy of area, preventing public use or occupancy of the area (e.g., a private structure); or creation of a physical barrier denying public use or access to the area (e.g., a fence or hedge);

.70 Creation of a perceptual barrier by improvements or actions that capture the public space for private use (e.g., paving, shrubbery, other plantings);

.35 Private landscaping or other improvements on park land that violate, exceed, or are inconsistent with established design guidelines or reasonable standards intended to preserve the public park-like character of park lands (e.g., private access drive or walkway in excess of standard; private lighting or safety railings that exceed a security function).

The **Rate** of return (i.e., land capitalization rate) is set at 10%.

Continuing Use permit fees for permit **periods of less than twelve (12) months are payable in full prior to permit issuance**. Continuing use permit fees for permit periods anticipated to continue for twelve (12) months or more may be pro-rated and annualized and payable in advance for such annualized date as the Department shall establish. If the permit period is shorter than anticipated, the permit fees paid in advance shall be prorated for the time used and over-payment shall be refunded, except in the case of revocation due to Permittee's failure to comply with the terms and conditions of the permit, in which case no refund shall be given. **Permits for utility installations, such as electrical, natural gas, or telephone service, shall be charged as Limited Term permits**, based on the permit period necessary for installation.

There is no Permit Fee charged for Limited Term permits of ninety (90) days or less issued expressly to allow the removal or elimination of an encroachment onto park land.

There is no Permit Fee charged for certain non-park uses of park land which may be allowable by property right, such as driveway access from the roadway portion of a park boulevard if access is not available from any other right-of-way, or pedestrian walkway from a public sidewalk to the abutting private property, if such uses comply with established design guidelines or reasonable standards intended to preserve the public park-like character of park lands.

Revocable Use Permit FEE SCHEDULE

	2024	
	\$200	Application Fee (non-refundable; includes one (1) on-site inspection and two (2) hours of staff time for reviewing and processing application)
	\$200	Inspection and/or Monitoring, per hour (Application fee includes one on-site inspection. Additional on-site charges at \$200.00 per hour may be assessed, for on-site inspections and/or monitoring, if specified in the Permit or if necessary in the Department’s judgment, due to Applicant’s or Permittee’s action(s), or failure to comply with the terms and conditions of the permit.)
	\$250	Limited Term Permit, per day, OR \$325.00 minimum, whichever is greater
	Formula	Continuing Use Permit, determined by formula (V x A x B x R) OR \$650.00 minimum, whichever is greater
	\$130	Processing Charges, per hour (costs of staff time in excess of two (2) hours to review and process permit applications; payable prior to permit issuance.)

PROMOTIONAL & MARKETING FEE WAIVERS & REDUCTIONS

The Superintendent of the Seattle Parks and Recreation is authorized, as provided in SMC 18.28.020, to waive or reduce entry or use fees from those contained in an approved fee schedule in conjunction with the promotion and marketing of Park and Recreation programs.

EXAMPLES OF FEE WAIVERS & REDUCTIONS

Authorized activities include, but are not limited to, the following arrangements:

1. **Sponsored days:** A sponsored day or activity for which a sponsor pays the Department a fixed fee, a matching amount, or supplies advertising, service, or other benefit. In exchange, the Department provides free public entry use of the facility, or free or reduced entry for a certain segment of the public (e.g., children under 12, senior citizens, anyone donating clothing or food for a drive for those in need); for a special group of the public (e.g., participants in a community parade); or to the first entrants up to a specified number.
2. **Bonus and prizes:** The Department may distribute to users or entrants an item supplied by the sponsor (e.g., a button, a balloon, literature, an item of apparel, or a donated prize for an achievement).
3. **Combination tickets:** The Superintendent may issue a combination ticket for use of multiple City facilities or participation in multiple City events. A combination ticket may also take the form of a reciprocal discount or credit. For example, presentation of a ticket stub or coupon from an aquarium in another city may entitle the holder to a credit on admission to the Seattle Aquarium when a receipt for paid entry to Seattle's Aquarium entitles the holder to like privileges in the facility of the other city. In those cases, where a combination ticket is authorized, combining multiple events and facilities:
 - o The combined ticket price may be less than the amount that would be paid for each entry or event singly;
 - o The combined ticket shall expire within a time period after the ticket's sale or first usage, with said period to be determined by the Superintendent of the Seattle Parks and Recreation or his or her designee; and
 - o The City and any other participant organizations shall apportion the revenue from the combined sale by a ratio or formula.
4. **Discount Coupons:** A coupon allowing two people to enter for the price of one person, or the coupon holder to enter at a reduced rate. Coupons may be offered through a sponsor who makes a payment to the City or who provides special advertising in return. For example, the coupon may accompany an advertisement in a widely distributed publication for tourists, which contains similar coupons for other attractions. The Department may also use coupons as a way of reaching out to a group or segment of the citizenry, who would not attend or use the facility at the established fee.

5. **Prepaid Passes:** During special hours or otherwise, admission may be sold to a tour company, the organizer of a convention, or an association at an aggregate fee for all members and the participants may be granted entry, either as a group or individually, at the hours or on the days authorized by presenting a ticket or other indication of pre-payment.
6. **Departmental Free or Half-Price Days:** “Senior citizens’ days” may be offered during which time people over a minimum age are admitted free; a free day may be provided for the public to see and enjoy an exhibit financed through a bond issue or by a public fund-raising drive; on a “Kids’ Day” or “Neighborhood Day,” admission may be free for children and low income adults; a free golf lesson day for kids may be provided; or free swimming day at our pools may be provided.
7. **Promotional Purposes:** The Department may offer extended evening hours or special discounts during specific periods in the year to encourage high attendance at our park facilities. Some examples include, but are not limited to, the following:
 - (a) Extended Aquarium hours and special discounts during the summer.
 - (b) Extended special discount for swimming fees during the summer.

APPENDIX D – Parks Department Refund Policy

Department Policy & Procedure

Subject: Refund Policy (for community centers, swimming pools, small craft centers and other recreational providers)	Number 060-P 7.16
	Effective 1/9/2013
	Supersedes 3/15/2001
Approved: <i>A current, approved, signed copy of this policy can be found on the Seattle Parks web site, located at:</i> http://www.seattle.gov/parks/reservations/feesandcharges/refunds.htm	Department: Parks and Recreation & The Associated Recreation Council
	Page 1 of 3

SUMMARY

For community centers, swimming pools, small craft centers, outdoor spaces, sports fields and other recreation providers, it is the policy of Seattle Parks and Recreation and the Associated Recreation Council that:

- *A full refund will be issued for any program, activity, or reservation that is cancelled for any reason by the Department or the Associated Recreation Council.*
- *Any person who registers for a PROGRAM and who requests a refund before the second class session may receive a prorated refund minus a service charge.*
- *Any person who registers for an ACTIVITY and who requests a refund 14 days or more before its start, may receive a refund minus a service charge.*
- *Any person who schedules a STANDARD RENTAL of a recreation facility and who cancels at least 15 days in advance is entitled to a partial refund.*
- *Any person who schedules a rental of a SPECIAL AMENITY FACILITY and who cancels at least 90 days in advance is entitled to a partial refund.*
- *Any person who reserves a SPORTS FIELD must provide 14 days advance notice of cancellation to be entitled to a full refund.*
- *ADULT SPORTS LEAGUES may receive a partial refund if the cancellation notice is received prior to the league starting and if a replacement team is found.*

Portions of this summary will be included in printed materials where applicable with reference to encourage customers to read the entire policy for specific information. This policy is Appendix D to the adopted Fees and Charges Ordinance for Seattle Parks and Recreation.

1.0 DEFINITIONS:

“Activity” is the term applied to a day camp, school-age or preschool care, trip, overnight camp or special event operated by Seattle Parks and Recreation or Associated Recreation Council or other authorized providers.

“Booking Fee” is an established fee found in the adopted Fees and Charges Ordinance for Seattle Parks and Recreation as a requirement when requesting a facility rental.

“**ARC**” is the Associated Recreation Council operating programs at Seattle Parks and Recreation facilities under a Master Use Agreement with the City of Seattle.

“**Cancellation**” is a case in which the Department does not operate a program as originally planned and/or scheduled and results in a refund to the customer without a service charge applied.

“**Damage Deposit**” is an established fee found in the adopted Fees and Charges Ordinance for Seattle Parks and Recreation usually required as a deposit for facility rentals.

“**Fees and Charges**” are City fees adopted by City Council as a City of Seattle Ordinance establishing fees and charges for Seattle Parks and Recreation.

“**Program**” is the term for a series of classes which may include swimming instruction, youth sports, ARC recreation classes or other similar recreation class series.

“**Refund**” is the direct payment of money or a credit to a customer account. If payment was made by cash or check, a refund will be processed through the Accounting office and may take approximately three weeks. If payment is made through credit card, the refund will be processed within 48 hours of the request.

“**Transfer**” is the process of withdrawing from one program and enrolling in a different program.

2.0 PROGRAM

2.1 **CANCELLATION:** It is the policy of Seattle Parks and Recreation and Associated Recreation Council to make a full refund to participants who register for a class, camp, special event or program that is canceled by the Department or Advisory Council for any reason.

2.2 **CANCELLATION OF ONE SESSION:** In the event of an unplanned cancellation of a single session of a program, that class will be rescheduled whenever possible. If it cannot be rescheduled, the participant will receive a refund.

2.3 **DROPPING A PROGRAM BEFORE SECOND SESSION:** A participant may be issued a refund if he/she withdraws from a program, and notifies the program coordinator, prior to the second class session. The facility will retain the pro-rated class fee plus a service charge of \$5.00 or 10% of the fee, whichever is greater.

2.4 **DROPPING A PROGRAM AFTER SECOND SESSION:** If a participant withdraws from a program after the second session of a series, no refund will be given.

3.0 ACTIVITY

3.1 **BEFORE, AFTERSCHOOL, AND PRESCHOOL CHILD CARE PROGRAMS:** A participant may be issued a refund, less the deposit amount for the activity, if he/she withdraws from a before and/or after school, or preschool child care program if he/she notifies the program coordinator at least fourteen (14) days prior to the beginning date of the program. No refunds will be made for requests received less than fourteen (14) days prior to the beginning of the program. For School Aged Care and preschool program days canceled by the Department due to weather related circumstances, NO credit/refund will be issued for the first two canceled days over the course of the school year. A credit will be issued for the 3rd or additional canceled days.

3.2 **DAY CAMPS, OVERNIGHT CAMPS, TRIPS AND EVENTS REFUND:** A participant may be issued a refund, less the deposit amount, if he/she withdraws from a youth or teen camp, an overnight camp, trip or event, and notifies the program coordinator at least fourteen (14) days prior to the beginning date of the camp. No refunds will be made for

D APPENDIX

requests received within fourteen (14) days prior to the beginning of the camp. No refunds will be made for food, supplies, or materials fees.

4.0 STANDARD RENTAL

- 4.1 FACILITY RENTALS: Standard Recreation Facility Rental to include Community Centers, Pools, Environmental Learning Centers.
- 4.2 A renter may be issued a refund for a cancelled rental, minus the application booking fee and a cancellation service charge using the following timetable:

31+ days notice of cancellation	Booking Fee, plus \$50 fee is retained by Dept
15-30 days notice of cancellation	Booking Fee, plus 50% of the rental fee is retained by Dept. Damage deposit is refunded.
14 days or less notice of cancellation	No refund given

5.0 SPECIAL AMENITY FACILITIES

- 5.1 FACILITY RENTALS: Special Amenity Facilities include Alki Bathhouse, Golden Gardens Bathhouse, Mount Baker Rowing and Sailing Center, Dakota Place Park Building, Pritchard Bathhouse, Ward Springs Pumphouse, Cal Anderson Shelterhouse and other identified facilities.
- 5.2 A renter may be issued a refund for a cancelled rental, minus the application booking fee and a cancellation service charge using the following timetable:

181+ days notice of cancellation	Booking Fee, plus \$50 fee is retained by Dept
180-91 days notice of cancellation	Booking Fee, plus Damage Deposit is retained by Dept
90 days or less notice of cancellation	No refund given

6.0 SPORTS FIELDS

- 6.1 Field cancellations must be made at least 14 days in advance of usage to get a full refund or credit.
- 6.2 If the Department closes a field for any reason, or if lights do not operate as expected, or if there is a conflict in the scheduled use of a field, a full refund or credit for the missed use will be provided.

7.0 ADULT SPORTS LEAGUES

If a team drops from league play after the deposit is paid and before the final payment is due, a refund will be issued only if a team is found to take the place of the team that wishes to drop from league play. Parks will retain a service charge of the greater of the deposit or 10% of the league fee. No refunds will be issued after the final payment is made and/or final schedules are drawn.

8.0 MERCHANDISE AND FOOD

We are unable to issue refunds for clothing, personal items, supplies or food items, unless there is a product defect. Exchanges may be made for defective products.

D APPENDIX

9.0 EXCEPTIONS

No refund is available for some designated programs, activities or services, which may include deposits for registration, regattas, rentals, outdoor events, ceremonies or picnics. Information on any specific exception is available from Parks and Recreation staff prior to payment or purchase.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
Seattle Parks and Recreation	Amy Williams	Justin Hellier

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to Seattle Parks and Recreation; establishing the 2024 fee schedule for the use of park properties and other park and recreation facilities and services; and superseding previous park and recreation fee schedules.

Summary and Background of the Legislation: Seattle Parks & Recreation (SPR) charges programming and usage fees to provide financial support for SPR programs, facilities, and park grounds. The 2024 SPR Fee Schedule transmitted by this legislation includes administrative changes to update the document to the current fiscal year and corrections to the participation fees at the small craft centers to align with the updated fiscal agreement with the department's recreation programming partner (Associated Recreation Council). There are no financial impacts related to these changes.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

This legislation does not have any other indirect financial impacts.

Are there financial costs or other impacts of *not* implementing the legislation?

The legislation is required to allow the department to collect program and facility fees in order to generate the revenues necessary to support a portion of Park Fund expenses. Without authority to collect this revenue, services would need to be reduced.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

No, this legislation does not directly affect any other department.

b. Is a public hearing required for this legislation?

No, a public hearing is not required.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No, a notice in either publication is not required.

d. Does this legislation affect a piece of property?

This legislation does not affect a piece of property.

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

An approach for all park programs and facilities has been developed that ranges from free (high community value) to varying recoveries of costs (high personal value). Social equity is built into that pricing to ensure that there is access to a range of programs and activities. SPR also prioritizes in Park District planning recreational scholarships that supplement fee pricing at pools and fields.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

This legislation is administrative in nature and does have impacts on carbon emissions.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

This legislation is administrative in nature and does not increase or decrease resiliency to climate change.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

This legislation is not proposing a new initiative or major programmatic expansion.

Summary Attachments:

Summary Attachment 1 – Proposed Changes to 2024 Fee Schedule

Changes from the Adopted 2023 Fee Schedule to the Proposed 2024 Fee Schedule

The table below identifies all Seattle Parks and Recreation proposed fees included in Attachment 1 that are changed from 2023 Adopted fees. Changes are noted for Proposed 2024 fees when compared to Adopted 2023 fees.

Facility/Area	Service	Page # in 2024 Schedule	Description	Adopted 2023 Fee	Proposed 2024 Fee	Comments
Participation Fees	Small Craft Class Participation Fees	31	Administrative correction of Rowing Advisory Council PAR fee	\$41,500	17.5%	Revise the PAR fee from a fixed rate fee to a percentage based fee to align with updated ARC agreement with Small Craft Centers.
Participation Fees	Small Craft Class Participation Fees	31	Administrative correction of Seattle Canoe Club PAR fee	\$14,000	18%	Revise the PAR fee from a fixed rate fee to a percentage based fee to align with updated ARC agreement with Small Craft Centers
Participation Fees	Small Craft Class Participation Fees	31	Administrative correction of Mt Baker Boating Advisory Council PAR fee	\$45,000	12%	Revise the PAR fee from a fixed rate fee to a percentage based fee to align with updated ARC agreement with Small Craft Centers

Legislation Text

File #: Res 32114, **Version:** 1

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION amending Resolution 31334; establishing the City Council's intent to fund the Seattle City Employees' Retirement System as informed by the January 1, 2023 Actuarial Study.

WHEREAS, the City provides and manages a defined-benefit pension for its non-uniformed employees to serve as a source of retirement income, along with Social Security; and

WHEREAS, the City Council previously declared, in Resolution 31334, its intention to fully fund the actuarially required contribution amounts into the pension system, including a plan to amortize the system's unfunded liability in 30 or fewer years; and

WHEREAS, the January 1, 2023 valuation study performed by the Seattle City Employees' Retirement System (SCERS) actuary identified the contribution rate necessary to fully fund the system; and

WHEREAS, the City will update its contribution rate to SCERS annually to a level not less than the actuarial required contribution for that year as determined by the most recent valuation; and

WHEREAS, under Seattle Municipal Code Section 4.36.505 the SCERS Board of Administration shall recommend to the City Council any necessary revisions in the rate of contributions of members and the City; and

WHEREAS, the SCERS Board of Administration, at its June 8, 2023 meeting, voted to recommend to the City Council that it maintain the 2023 employer contribution rate of 15.82 percent for fiscal year 2024 under the rationale that it is prudent in the interest of funding stability and in anticipation of investment market volatility and low returns; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE MAYOR

CONCURRING, THAT:

Section 1. Resolution 31334, last amended by Resolution 32071, is amended as follows:

Section 1. The City will fully fund its actuarially required contributions to SCERS in the 2012 Adopted Budget and thereafter. The City will base its contribution rate on a five-year smoothed asset valuation as described in the most recent actuarial report, and the rate will be sufficient to amortize the system's unfunded liabilities in 30 or fewer years.

Section 2. To that end, the ((2023)) 2024 Adopted Budget will include sufficient appropriation for the City to maintain payment of 15.82 percent of regular (non-overtime) payroll into SCERS. This is greater than the employee contribution rates into the system. It keeps the combined contribution at 25.06 percent. The employer contribution rate must not be less than the required Actuarial Contribution Rate of ((15.82)) 15.17 percent and a combined contribution rate of ((25.06)) 24.12 percent, as determined by the January 1, ((2022)) 2023, Actuarial Valuation.

Section 3. The City endorses the actuarial assumptions and methods adopted by the SCERS Board of Administration, utilized beginning with the January 1, 2011, valuation, and modified by the Board as a result of the actuary's investigation of the system's experience from 2018 through 2021. These include:

- A. The entry age normal actuarial cost method;
- B. An investment return rate of 6.75 percent;
- C. A five-year smoothed method for asset valuation;
- D. Generational mortality tables that take future life expectancy improvements into account;
- E. Expected average membership growth of 0.25 percent per year; and
- F. Other economic and demographic assumptions as described in the valuation.

Section 4. Each year, and in the event the SCERS Board of Administration should wish to change its actuarial assumptions and methods, the City requests that the Board consult with the Mayor

and the City Council by the tenth day of July regarding the impacts of such changes on funding requirements, as described in Seattle Municipal Code subsection 4.36.550.A, to allow sufficient time to make budget preparations.

Section 5. The City will update its contribution rate to SCERS annually to a level not less than the actuarial required contribution for that year as determined by the most recent valuation. The City may elect to exceed the required contribution rate in any given year in the interest of funding stability or to amortize the system’s unfunded liability in fewer than 30 years.

Section 6. Beginning with the January 1, 2013, Actuarial Valuation and thereafter, the amortization period is closed and fixed. That is to say, the amortization rate should be sufficient to retire the system’s unfunded liability over the period 2013-2042. Since closed amortizations can generate excessive contribution rate volatility in the second half of the period, the Council may consider re-opening the amortization period after 15 years. At any time, the SCERS Board and its actuary may recommend additional amortization layers and/or separate amortization periods for any new unfunded liabilities or surpluses generated after January 1, 2013.

Adopted by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its adoption this _____ day of _____, 2023.

President _____ of the City Council

The Mayor concurred the _____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
RET	Mark Schimizza	Dave Hennes

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: A RESOLUTION amending Resolution 31334; establishing the City Council's intent to fund the Seattle City Employees' Retirement System as informed by the January 1, 2023 Actuarial Study.

Summary and background of the Legislation:

By this resolution and in accordance with Seattle Municipal Code Section 4.36.505, the SCERS Board of Administration is recommending to the City Council to maintain for 2024 the 2023 combined employer and employee contribution rate of 25.06% and the employer (City) contribution rate of 15.82% of regular payroll into SCERS. In the interest of funding stability and in anticipation of investment market volatility and low returns, the SCERS Board finds it is prudent to maintain the 2023 actuarially required contribution rate in 2024.

Per Resolution 31334 the City has committed to appropriate annually sufficient funds to make contributions to the retirement system to a level not less than the actuarial required contribution for that year as determined by the most recent actuarial valuation of the retirement systems liabilities. Although the City may elect to exceed the actuarial required contribution rate in any given year, in 2024, the minimum actuarial required employer contribution rate is 15.17% with a combined contribution rate of 24.12% as determined by the January 1, 2023 Actuarial Valuation.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes ___X___ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes ___X___ No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

This legislation does not adjust appropriations, revenues, or positions. The 2024 contribution rate is also captured through approval of the budget.

Is there financial cost or other impacts of *not* implementing the legislation?

Not implementing the full actuarially required contribution in 2024 would go against Council Resolution 31334, and would place greater cost burden on the City and potentially members

in future years to fund the pension system. Not meeting the required contribution would be reflected on the System's financial audit, valuation, and the City's ACFR.

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**
This legislation is the vehicle through which the SCERS Board conveys the updated actuarially required employer contribution rate to the Council as called for in Council Resolution 31334. The implementation of the rate change occurs through the adoption of the City's Budget Adoption Ordinance. The employer contribution rate approved with this Resolution, will affect all other City departmental budgets.
- b. Is a public hearing required for this legislation?**
No.
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No
- d. Does this legislation affect a piece of property?**
No
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
No perceived impact on vulnerable or historically disadvantaged communities
- f. Climate Change Implications**
- 1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No.
 - 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**
No.
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**
N/A

Amendment 1 Version 1 to RES 32114 – RET ARC for 2024

Sponsor: Councilmember Pedersen

Use actuarially derived rate of 15.17 percent for City’s employer contribution to City employee’s retirement system in 2024.

Effect: This establishes the City Council’s intent to use, for the City’s contributions to the Seattle City Employees Retirement System (SCERS) in the 2024 City Budget, the actuarially required employer contribution rate of 15.17 as calculated by Milliman Inc., SCER’s contracted actuary. The actuarially required contribution is the amount determined to be necessary, based on actuarial calculations, to be budgeted in 2024 to meet the goal of 100 percent retirement system funded status by 2042.

While this change does not directly impact the amounts appropriated in the City budget, it would align Council’s intent regarding the City contribution with appropriation changes proposed in SDOT-101-A-3, which would reduce the budgeted City employer contributions to the City retirement system to the actuarially required levels, and use the General Fund and Real Estate Excise Tax Fund savings to fund bridge and school zone camera investments in 2024.

Amend the recitals to RES 32114 as follows:

WHEREAS, the City provides and manages a defined-benefit pension for its non-uniformed employees to serve as a source of retirement income, along with Social Security; and

WHEREAS, the City Council previously declared, in Resolution 31334, its intention to fully fund the actuarially required contribution amounts into the pension system, including a plan to amortize the system’s unfunded liability in 30 or fewer years; and

WHEREAS, the January 1, 2023 valuation study performed by the Seattle City Employees’ Retirement System (SCERS) actuary identified the contribution rate necessary to fully fund the system; and

WHEREAS, the City will update its contribution rate to SCERS annually to a level ~~((not less than))~~ equal to the actuarial required contribution for ~~((that year))~~ 2024 as determined by the most recent valuation; ~~((and~~

~~WHEREAS, under Seattle Municipal Code Section 4.36.505 the SCERS Board of Administration shall recommend to the City Council any necessary revisions in the rate of contributions of members and the City; and~~

~~WHEREAS, the SCERS Board of Administration, at its June 8, 2023 meeting, voted to recommend to the City Council that it maintain the 2023 employer contribution rate of 15.82 percent for fiscal year 2024 under the rationale that it is prudent in the interest of funding stability and in anticipation of investment market volatility and low returns;)~~

NOW, THEREFORE,

Amend Section 2 of RES 32114 as follows:

Section 2. To that end, the ~~((2023))~~ 2024 Adopted Budget will include sufficient appropriation for the City to maintain payment of ~~((15.82))~~ 15.17 percent of regular (non-overtime) payroll into SCERS. This is greater than the employee contribution rates into the system. ~~((It keeps the combined contribution at 25.06 percent.))~~ The employer contribution rate must not be less than the required Actuarial Contribution Rate of ~~((15.82))~~ 15.17 percent and a combined contribution rate of ~~((25.06))~~ 24.12 percent, as determined by the January 1, ~~((2022))~~ 2023, Actuarial Valuation.

Legislation Text

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to contracting indebtedness; authorizing and providing for the issuance and sale of limited tax general obligation bonds to pay or reimburse all or part of the costs of various elements of the City’s capital improvement program and for other City purposes approved by ordinance and to pay the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; creating the 2024 Multipurpose LTGO Bond Fund; amending Ordinance 123751 (as previously amended by Ordinances 124341 and 124637), Ordinance 124341, Ordinance 124637, Ordinance 124924 (as previously amended by Ordinance 125986), Ordinance 125456, Ordinance 125715 (as previously amended by Ordinance 125986), and Ordinance 126219 (as previously amended by Ordinances 126288 and 126479); and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle, Washington (the “City”) has determined that it is in its best interest that the capital projects described in this ordinance (the “Projects”) be financed by the issuance of limited tax general obligation bonds of the City in a principal amount not to exceed \$84.2 million; and

WHEREAS, RCW 39.36.020 authorizes the City to incur indebtedness without the assent of the voters of the City so long as such indebtedness does not result in a total nonvoted indebtedness of the City in excess of 1.5 percent of the value of taxable property within the City as computed in accordance with RCW 39.36.030; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** In this ordinance, the following capitalized terms shall have the meanings set forth in this section.

“**Authorized Denomination**” means \$5,000 or any integral multiple thereof within a maturity of a Series, or such other minimum authorized denominations as may be specified in the applicable Bond

Documents.

“**Beneficial Owner**” means, with regard to a Bond, the owner of any beneficial interest in that Bond.

“**Bond**” means one of the limited tax general obligation bonds issued pursuant to this ordinance.

“**Bond Counsel**” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“**Bond Documents**” means, with respect to any Series of the Bonds, (a) this ordinance (including any amendatory or supplemental ordinances); (b) the authenticated Bond form; and (c) the written agreement(s) setting forth the Bond sale terms and additional terms, conditions, or covenants pursuant to which such Bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a Bond Purchase Contract (as defined in the applicable authorizing ordinance), (iii) a Bond indenture, fiscal agent or paying agent agreement, or the State fiscal agency contract, and (iv) a direct purchase or continuing covenant agreement.

“**Bond Purchase Contract**” means a written offer to purchase a Series of the Bonds pursuant to certain Bond Sale Terms, which offer has been accepted by the City in accordance with this ordinance. In the case of a competitive sale, the Purchaser’s bid for a Series, together with the official notice of sale and Pricing Certificate confirming the Bond Sale Terms, shall comprise the Bond Purchase Contract.

“**Bond Redemption Fund**” means the City’s General Bond Interest and Redemption Fund, created by Ordinance 112112 and established and to be used for the payment of the principal of and premium, if any, and interest on the Bonds.

“**Bond Register**” means the books or records maintained by the Bond Registrar for the purpose of registering ownership of each Bond.

“**Bond Registrar**” means the Fiscal Agent (unless the Director of Finance appoints a different person to act as bond registrar with respect to a particular Series), or any successor bond registrar selected in accordance with the System of Registration.

“Bond Sale Terms” means the terms and conditions for the sale of a Series of the Bonds approved by the Director of Finance consistent with the parameters set forth in Section 4 of this ordinance, including the maximum principal amount, date or dates, denominations, interest rate or rates (or mechanism for determining the interest rate or rates), payment dates, final maturity, redemption rights, price, and other terms, conditions, or covenants. In connection with a negotiated sale or private placement, the Bond Sale Terms shall be set forth in a Bond Purchase Contract; in connection with a competitive sale, the Bond Sale Terms shall be set forth in a Pricing Certificate.

“Book-Entry Form” means a fully registered form in which physical bond certificates are registered only in the name of the Securities Depository (or its nominee), as Registered Owner, with the physical bond certificates held by and immobilized in the custody of the Securities Depository (or its designee), where the system for recording and identifying the transfer of the ownership interests of the Beneficial Owners in those Bonds is neither maintained by nor the responsibility of the City or the Bond Registrar.

“City” means The City of Seattle, Washington, a municipal corporation duly organized and existing under the laws of the State.

“City Council” means the Seattle City Council of the City, as duly and regularly constituted from time to time.

“Code” means the Internal Revenue Code of 1986, or any successor thereto, as amended, and regulations thereunder.

“Continuing Disclosure Agreement” means, for each Series sold in an offering subject to federal securities regulations requiring a written undertaking to provide continuing disclosure, a continuing disclosure agreement entered into pursuant to Section 14 of this ordinance, in substantially the form attached to this ordinance as Exhibit B.

“Director of Finance” or **“Director”** means the City’s Director of Finance or such other officer who succeeds to substantially all of the responsibilities of that office.

“DTC” means The Depository Trust Company, New York, New York.

“Fiscal Agent” means the fiscal agent of the State, as the same may be designated by the State from time to time, or such other fiscal agent as the City may later appoint.

“Government Obligations” means, unless otherwise limited in the Bond Documents for a particular Series of the Bonds, any government obligation as that term is defined in RCW 39.53.010, as amended.

“Issue Date” means, with respect to a Bond, the initial date on which that Bond is issued and delivered to the initial Purchaser in exchange for its purchase price.

“Letter of Representations” means the Blanket Issuer Letter of Representations between the City and DTC dated October 4, 2006, as amended, or an agreement with a substitute or successor Securities Depository.

“MSRB” means the Municipal Securities Rulemaking Board.

“Omnibus Refunding Ordinance” means Ordinance 125457, as amended, authorizing the issuance of general obligation refunding bonds, or any future ordinance pursuant to which the Bonds (or any Series of the Bonds) are designated as “refundable bonds.”

“Owner” means, without distinction, the Registered Owner and the Beneficial Owner of a Bond.

“Pricing Certificate” means a certificate executed by the Director of Finance as of the pricing date confirming the Bond Sale Terms for the sale of a Series of the Bonds to the Purchaser of such Series in a competitive sale, in accordance with the parameters set forth in Section 4 of this ordinance.

“Projects” means the various elements of the City’s capital improvement program identified in Exhibit A to this ordinance.

“Purchaser” means the entity or entities selected by the Director of Finance in accordance with this ordinance as underwriter, purchaser, or successful bidder in a sale of any Series of the Bonds.

“Rating Agency” means any nationally recognized rating agency then maintaining a rating on a Series of the Bonds at the request of the City.

“Record Date” means, unless otherwise defined in the Bond Documents, in the case of each interest or

principal payment date, the Bond Registrar’s close of business on the 15th day of the month preceding such interest or principal payment date. With regard to redemption of a Bond prior to its maturity, the Record Date shall mean the Bond Registrar’s close of business on the day prior to the date on which the Bond Registrar sends the notice of redemption to the Registered Owner(s) of the affected Bonds.

“**Registered Owner**” means, with respect to a Bond, the person in whose name that Bond is registered on the Bond Register. For so long as a Series of the Bonds is in Book-Entry Form under a Letter of Representations, the Registered Owner of such Series shall mean the Securities Depository.

“**Rule 15c2-12**” means Rule 15c2-12 promulgated by the SEC under the Securities Exchange Act of 1934, as amended.

“**SEC**” means the United States Securities and Exchange Commission.

“**Securities Depository**” means DTC, any successor thereto, any substitute securities depository selected by the City, or the nominee of any of the foregoing. Any successor or substitute Securities Depository must be qualified under applicable laws and regulations to provide the services proposed to be provided by it.

“**Series**” means a series of the Bonds issued pursuant to this ordinance.

“**State**” means the State of Washington.

“**System of Registration**” means the system of registration for the City’s bonds and other obligations established pursuant to Seattle Municipal Code Chapter 5.10, as amended.

“**Taxable Bond**” means any Bond the interest on which is not intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“**Tax Credit Subsidy Bond**” means any Taxable Bond that is designated by the City as a tax credit bond pursuant to the Code, and which is further designated as a “qualified bond” under Section 6431 or similar provision of the Code, and with respect to which the City is eligible to claim a Tax Credit Subsidy Payment.

“**Tax Credit Subsidy Payment**” means a payment by the federal government with respect to a Tax Credit Subsidy Bond.

“**Tax-Exempt Bond**” means any Bond the interest on which is intended on the Issue Date to be excludable from gross income for federal income tax purposes.

“**Term Bond**” means any Bond that is issued subject to mandatory redemption prior to its maturity in periodic mandatory redemption payments in accordance with subsection 7(b) of this ordinance.

Section 2. **Authorization of Bonds.** The City is authorized to borrow money on the credit of the City and issue limited tax general obligation bonds evidencing indebtedness in the maximum principal amount stated in Section 4 of this ordinance to pay or reimburse all or part of the costs of the Projects (which costs may include capitalized interest, if necessary), and to pay the costs of issuance of the Bonds. The Bonds may be issued in one or more Series and may be combined with other general obligation bonds (including refunding bonds) authorized separately. The Bonds shall be designated limited tax general obligation bonds, shall be numbered separately, and shall have any name, year, series, or other labels as deemed necessary or appropriate by the Director of Finance.

Section 3. **Manner of Sale of Bonds.** The Director of Finance may provide for the sale of each Series by competitive sale, negotiated sale, limited offering, or private placement. The Purchaser of each Series shall be chosen through a selection process acceptable to the Director of Finance. The Director is authorized to specify a date and time of sale and a date and time for the delivery of each Series; in the case of a competitive sale, to provide an official notice of sale including bid parameters and other bid requirements and to provide for the use of an electronic bidding mechanism; to provide for and determine matters relating to the forward or delayed delivery of the Bonds, if deemed desirable; and to specify other matters that the Director determines are necessary, appropriate, or desirable in order to carry out the sale of each Series. Each Series must be sold on Bond Sale Terms consistent with the parameters set forth in Section 4 of this ordinance.

Section 4. **Appointment of Designated Representative; Bond Sale Terms.**

(a) **Designated Representative.** The Director of Finance is appointed to serve as the City’s designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and

this ordinance.

(b) **Parameters for Bond Sale Terms.** The Director of Finance is authorized to approve, on behalf of the City, Bond Sale Terms for the sale of the Bonds in one or more Series and, in connection with each such sale, to execute a Bond Purchase Contract (or, in the case of a competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with the following parameters:

(i) **Maximum Principal Amount.** The maximum aggregate principal amount of all Series of the Bonds authorized by this ordinance may not exceed \$84.2 million.

(ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance, which Issue Date may not be later than December 31, 2026.

(iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

(iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, unless otherwise provided in the applicable Bond Documents. One or more rates of interest shall be established for each maturity of each Series of the Bonds, which rate or rates may be fixed or variable. The true interest cost for any fixed rate Series may not exceed a rate of 10 percent per annum.

(v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director, which shall include payment at the maturity of each Bond, payment in mandatory redemption installments applicable to Term Bonds, and other payments as required in accordance with any redemption or tender provisions set forth in the Bond Documents.

(vi) **Final Maturity.** Each Bond shall mature no later than 31 years after its Issue Date.

(vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption provisions, as determined by the Director of Finance, consistent with Section 7 of this ordinance and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as being subject to optional redemption prior to its maturity at such time or times as are acceptable to the Director, consistent with subsection 7(a) of this ordinance. Any Tax-Exempt Bond that is subject to optional redemption prior to maturity must be callable on at least one or more dates occurring not more than 10-1/2 years after the Issue Date.

(B) **Mandatory Redemption.** The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity in mandatory redemption installment payments of principal, consistent with subsection 7(b) of this ordinance.

(C) **Extraordinary Redemption.** The Director of Finance may designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent with subsection 7(c) of this ordinance.

(viii) **Price.** The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in the Director's judgment, the price that produces the most advantageous borrowing cost for the City for that Series consistent with the parameters set forth herein and in any applicable bid documents.

(ix) **Other Terms and Conditions.**

(A) **Debt Capacity and Limitations.** A Series of the Bonds may not be issued in an amount that would cause the indebtedness of the City to exceed the City's legal debt capacity on the Issue Date of such Series.

(B) **Reasonably Expected Life.** As of the Issue Date of each Series, the Director of Finance must find to the Director's satisfaction that the average expected life of the capital facilities or assets to be financed with the proceeds (or allocable share of proceeds) of that Series exceeds the weighted average maturity of such Series (or share thereof allocated to financing those capital facilities).

(C) **Additional Terms, Conditions, and Agreements.** The Bond Sale Terms for any Series may provide for bond insurance or for any other credit enhancement as the Director of Finance may find necessary or desirable. The Bond Sale Terms may include such additional terms, conditions, and covenants as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of any of the Bonds); provisions for the conversion of interest rate modes; provisions for the reimbursement of a credit enhancement provider; and requirements to give notice to or obtain the consent of a credit enhancement provider. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants.

(D) **Tax Status of the Bonds.** The Director of Finance may designate any Series of the Bonds as Tax-Exempt Bonds, Taxable Bonds, or Tax Credit Subsidy Bonds, consistent with Section 13 of this ordinance.

Section 5. **Bond Registrar; Registration and Transfer of Bonds.**

(a) **Registration and Bond Registrar.** The Bonds shall be issued only in registered form as to both principal and interest and shall be recorded on the Bond Register. The Fiscal Agent is appointed to act as Bond Registrar for each Series of the Bonds, unless otherwise determined by the Director of Finance.

(b) **Transfer and Exchange of Bonds.** The Bond Registrar shall keep, or cause to be kept, sufficient books for the registration and transfer of the Bonds, which shall be open to inspection by the City at all times. The Bond Register shall contain the name and mailing address of the Registered Owner of each Bond and the principal amount and number of each of the Bonds held by each Registered Owner.

The Bond Registrar is authorized, on behalf of the City, to authenticate and deliver Bonds transferred or exchanged in accordance with the provisions of the Bonds and this ordinance, to serve as the City's paying agent for the Bonds and to carry out all of the Bond Registrar's powers and duties under this ordinance and the System of Registration.

The Bond Registrar shall be responsible for its representations contained in the Bond Registrar's certificate of authentication on the Bonds. The Bond Registrar may become an Owner of Bonds with the same rights it would have if it were not the Bond Registrar and, to the extent permitted by law, may act as depository for and permit any of its officers or directors to act as members of, or in any other capacity with respect to, any committee formed to protect the rights of Owners.

Bonds surrendered to the Bond Registrar may be exchanged for Bonds in any Authorized Denomination of an equal aggregate principal amount and of the same Series, interest rate, and maturity. Bonds may be transferred only if endorsed in the manner provided thereon and surrendered to the Bond Registrar. Any exchange or transfer shall be without cost to an Owner or transferee. The Bond Registrar shall not be obligated to exchange or transfer any Bond during the period between the Record Date and the corresponding interest payment date or principal redemption date.

(c) Securities Depository; Book-Entry Form. Unless otherwise determined by the Director of Finance, the Bonds initially shall be issued in Book-Entry Form and registered in the name of the Securities Depository. The Bonds so registered shall be held fully immobilized in Book-Entry Form by the Securities Depository in accordance with the provisions of the Letter of Representations. Neither the City nor the Bond Registrar shall have any responsibility or obligation to participants of the Securities Depository (or the persons for whom they act as nominees) with respect to the Bonds regarding the accuracy of any records maintained by the Securities Depository (or its participants) of any amount in respect of principal of or interest on the Bonds, or any notice that is permitted or required to be given to Registered Owners hereunder (except such notice as is required to be given by the Bond Registrar to the Securities Depository). Registered ownership of a Bond initially held in Book-Entry Form, or any portion thereof, may not be transferred except: (i) to any successor Securities Depository; (ii) to any substitute Securities Depository appointed by the City or such substitute Securities Depository's successor; or (iii) to any person if the Bond is no longer held in Book-Entry Form.

Upon the resignation of the Securities Depository from its functions as depository, or upon a

determination by the Director of Finance to discontinue utilizing the then-current Securities Depository, the Director may appoint a substitute Securities Depository. If the Securities Depository resigns from its functions as depository and no substitute Securities Depository can be obtained, or if the Director determines not to utilize a Securities Depository, then the Bonds shall no longer be held in Book-Entry Form and ownership may be transferred only as provided in this ordinance.

Nothing in this ordinance shall prevent the Bond Sale Terms from providing that a Series of the Bonds shall be issued in certificated form without utilizing a Securities Depository, and that the Bonds of such Series shall be registered as of their Issue Date in the names of the Owners thereof, in which case ownership may be transferred only as provided in this ordinance.

(d) **Lost or Stolen Bonds.** In case any Bond certificate shall be lost, stolen, or destroyed, the Bond Registrar may authenticate and deliver a new Bond or Bonds of like amount, date, tenor, and effect to the Registered Owner(s) thereof upon the Registered Owner(s)' paying the expenses and charges of the City in connection therewith, and upon filing with the Bond Registrar evidence satisfactory to the Bond Registrar that such Bond or Bonds were actually lost, stolen, or destroyed and of Registered Ownership thereof, and upon furnishing the City with indemnity satisfactory to both the City and the Bond Registrar.

Section 6. **Payment of Bonds.**

(a) **Payment.** Principal of and interest on each Bond shall be payable in lawful money of the United States of America on the dates and in the amounts as provided in the Bond Documents applicable to that Series. No Bonds of any Series shall be subject to acceleration under any circumstances.

(b) **Bonds Held in Book-Entry Form.** Principal of and interest on each Bond held in Book-Entry Form shall be payable in the manner set forth in the Letter of Representations.

(c) **Bonds Not Held in Book-Entry Form.** Interest on each Bond not held in Book-Entry Form shall be payable by electronic transfer on the interest payment date, or by check or draft of the Bond Registrar mailed on the interest payment date to the Registered Owner at the address appearing on the Bond Register on the

Record Date. The City, however, shall not be required to make electronic transfers except pursuant to a request by a Registered Owner in writing received at least ten days prior to the Record Date and at the sole expense of the Registered Owner. Principal of each Bond not held in Book-Entry Form shall be payable upon presentation and surrender of the Bond by the Registered Owner to the Bond Registrar.

Section 7. **Redemption and Purchase of Bonds.**

(a) **Optional Redemption.** All or some of the Bonds of any Series may be subject to redemption prior to their stated maturity dates at the option of the City at the times and on the terms set forth in the applicable Bond Documents.

(b) **Mandatory Redemption.** All or some of the Bonds of any Series may be designated as Term Bonds, subject to mandatory redemption in principal installment payments, as set forth in the applicable Bond Documents. If not redeemed or purchased at the City's option prior to maturity, Term Bonds (if any) must be redeemed, at a price equal to 100 percent of the principal amount to be redeemed plus accrued interest, on the dates and in the years and principal amounts set forth in the applicable Bond Documents.

If the City optionally redeems or purchases a principal portion of a Term Bond prior to its maturity, the principal amount so redeemed or purchased (irrespective of its redemption or purchase price) shall be credited against the remaining mandatory redemption installment payments for that Term Bond in the manner directed by the Director of Finance. In the absence of direction by the Director, credit shall be allocated to each mandatory redemption installment payment for that Term Bond on a pro rata basis.

(c) **Extraordinary Redemption.** All or some of the Bonds of any Series may be subject to extraordinary optional redemption or extraordinary mandatory redemption prior to maturity, upon the occurrence of an extraordinary event, at the prices, in the principal amounts, and on the dates, all as set forth in the applicable Bond Documents.

(d) **Selection of Bonds for Redemption; Partial Redemption.** If fewer than all of the outstanding Bonds of a Series are to be redeemed at the option of the City, the Director of Finance shall select the maturity

or maturities to be redeemed. If less than all of the principal amount of a maturity of the selected Series is to be redeemed, if such Series is held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected for redemption by the Securities Depository in accordance with the Letter of Representations. If the Series is not then held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected by the Bond Registrar using such method of random selection as the Bond Registrar shall determine. All or a portion of the principal amount of any Bond that is to be redeemed may be redeemed in any applicable Authorized Denomination. If less than all of the outstanding principal amount of any Bond is redeemed, upon surrender of that Bond to the Bond Registrar there shall be issued to the Registered Owner, without charge, a new Bond (or Bonds, at the option of the Registered Owner) of the same Series, maturity, and interest rate in any Authorized Denomination in the aggregate principal amount to remain outstanding.

(e) **Purchase.** The City reserves the right and option to purchase any or all of the Bonds at any time at any price acceptable to the City plus accrued interest to the date of purchase.

Section 8. **Notice of Redemption; Rescission of Notice.** Unless otherwise set forth in the applicable Bond Documents, the City must cause notice of any intended redemption of Bonds to be given not less than 20 nor more than 60 days prior to the date fixed for redemption by first-class mail, postage prepaid, to the Registered Owner of any Bond to be redeemed at the address appearing on the Bond Register on the Record Date, and the requirements of this sentence shall be deemed to have been fulfilled when notice has been mailed as so provided, whether or not it is actually received by the Owner of any Bond. Interest on Bonds called for redemption shall cease to accrue on the date fixed for redemption unless the Bond or Bonds called are not redeemed when presented pursuant to the call.

In the case of an optional or extraordinary optional redemption, the notice may state that the City retains the right to rescind the redemption notice and the related redemption of Bonds by giving a notice of rescission to the affected Registered Owners at any time on or prior to the scheduled redemption date. Any notice of redemption that is rescinded by the Director of Finance shall be of no effect, and the Bonds for which the notice

of redemption has been rescinded shall remain outstanding.

Section 9. **Failure to Pay Bonds**. If any Bond is not paid when properly presented at its maturity or redemption date, the City shall be obligated to pay interest on that Bond at the same rate provided on that Bond from and after its maturity or redemption date until that Bond, including principal, redemption premium (if any), and interest, is paid in full or until sufficient money for its payment in full is on deposit in the Bond Redemption Fund and that Bond has been called for payment by giving notice of that call to the Registered Owner of that Bond.

Section 10. **Form and Execution of Bonds**. The Bonds shall be typed, printed, or reproduced in a form consistent with the provisions of this ordinance and State law and shall be signed by the Mayor and Director of Finance, either or both of whose signatures may be manual or in facsimile. The seal of the City or a facsimile reproduction thereof shall be impressed or printed thereon.

Only Bonds bearing a certificate of authentication in substantially the following form (with the designation, year, and Series of the Bonds adjusted consistent with this ordinance) and manually signed by the Bond Registrar shall be valid or obligatory for any purpose or entitled to the benefits of this ordinance: “This Bond is one of the fully registered The City of Seattle, Washington, [Limited Tax General Obligation Bonds], [Year] [Series], described in [this ordinance].” The authorized signing of a certificate of authentication shall be conclusive evidence that the Bond so authenticated has been duly executed, authenticated, and delivered and is entitled to the benefits of this ordinance.

If any officer whose manual or facsimile signature appears on a Bond ceases to be an officer of the City authorized to sign bonds before the Bond bearing that officer’s manual or facsimile signature is authenticated or delivered by the Bond Registrar or issued by the City, that Bond nevertheless may be authenticated, delivered, and issued and, when authenticated, delivered, and issued, shall be as binding on the City as though that person had continued to be an officer of the City authorized to sign bonds. Any Bond also may be signed on behalf of the City by any person who, on the actual date of signing of the Bond, is an officer of the City authorized to

sign bonds, although that person did not hold the required office on the Issue Date of that Series of the Bonds.

Section 11. **Pledge of Taxes**. For so long as any of the Bonds are outstanding, the City irrevocably pledges to include in its budget and levy taxes annually within the constitutional and statutory tax limitations provided by law without a vote of the electors of the City on all of the taxable property within the City in an amount sufficient, together with other money legally available and to be used therefor, to pay when due the principal of and interest on the Bonds. The full faith, credit, and resources of the City are pledged irrevocably for the annual levy and collection of those taxes and the prompt payment of that principal and interest.

Section 12. **Refunding or Defeasance of Bonds**.

(a) **Bonds Designated as Refundable Bonds**. Each Series of the Bonds is designated as a Series of “Refundable Bonds” for purposes of the Omnibus Refunding Ordinance.

(b) **Refunding; Defeasance**. The City may issue refunding bonds pursuant to the laws of the State or use money available from any other lawful source (i) to pay when due the principal of (including premium, if any) and interest on any Bond, or any portion thereof, included in a refunding or defeasance plan (the “Defeased Bonds”); (ii) to redeem and retire, release, refund, or defease the Defeased Bonds; and (iii) to pay the costs of such refunding or defeasance. If money and/or Government Obligations maturing at a time or times and in an amount sufficient (together with known earned income from the investment thereof) to redeem and retire, release, refund, or defease the Defeased Bonds in accordance with their terms is set aside in a special trust fund or escrow account irrevocably pledged to such redemption, retirement, release, refunding, or defeasance (the “Trust Account”), then all right and interest of the Owners of the Defeased Bonds in the covenants of this ordinance and in the funds and accounts pledged to the payment of such Defeased Bonds, other than the right to receive the funds so set aside and pledged, thereafter shall cease and become void. Such Owners thereafter shall have the right to receive payment of the principal of and interest or redemption price on the Defeased Bonds from the Trust Account. After such a Trust Account is established and fully funded as set forth above, the Defeased Bonds shall be deemed to be no longer outstanding, and the Director of Finance may

then apply any money in any other fund or account established for the payment or redemption of the Defeased Bonds to any lawful purpose.

(c) **Notice of Defeasance or Refunding.** Unless otherwise specified in the applicable Bond Documents, notice of refunding or defeasance shall be given, and selection of Bonds for any partial refunding or defeasance shall be conducted, in the manner set forth in this ordinance for the redemption of Bonds.

Section 13. **Federal Tax Matters.** The Bond Documents may include such additional terms and covenants relating to federal tax matters as the Director of Finance deems necessary or appropriate, including the following:

(a) **Tax-Exempt Bonds.** For each Series of the Bonds issued as Tax-Exempt Bonds, the City covenants that it will take all actions consistent with the terms of such Series, as set forth in this ordinance and the applicable Bond Documents, that are reasonably within its power and necessary to prevent interest on that Series from being included in gross income for federal income tax purposes. The City further covenants that it will neither take any action nor make or permit any use of gross proceeds of such Series (or other funds of the City treated as gross proceeds of such Series) at any time during the term of such Series that will cause interest on such Series to be included in gross income for federal income tax purposes. The City also covenants that, to the extent the arbitrage rebate requirement of Section 148 of the Code is applicable to any Series issued as Tax-Exempt Bonds, it will take all actions necessary to comply (or to be treated as having complied) with that requirement in connection with that Series (including the calculation and payment of any penalties that the City may elect to pay as an alternative to calculating rebatable arbitrage and the payment of any other penalties if required under Section 148 of the Code) to prevent interest on such Series from being included in gross income for federal income tax purposes.

(b) **Taxable Bonds; Tax Credit Subsidy Bonds.** For each Series of the Bonds issued as Taxable Bonds or as Tax Credit Subsidy Bonds, the Director of Finance is authorized to make provision in the Bonds and other Bond Documents, to execute additional written agreements, and to make additional covenants on behalf of the

City, all as the Director may deem necessary or appropriate in order to obtain, maintain, and administer such tax status. In the case of Tax Credit Subsidy Bonds, such additional covenants and agreements may include (without limiting the generality of the foregoing) those necessary in order for the City (i) to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of such Tax Credit Subsidy Bonds, and (ii) to ensure that such Series otherwise becomes and remains eligible for tax benefits under the Code.

Section 14. **Official Statement; Continuing Disclosure.**

(a) **Preliminary Official Statement.** The Director of Finance and other appropriate City officials are directed to cause the preparation of and review the form of a preliminary official statement in connection with each sale of one or more Series to the public. For the sole purpose of the Purchaser's compliance with paragraph (b)(1) of Rule 15c2-12, the Director of Finance is authorized to deem that preliminary official statement final as of its date, except for the omission of information permitted to be omitted by Rule 15c2-12. The City approves the distribution to potential purchasers of the Bonds of a preliminary official statement that has been deemed final in accordance with this subsection.

(b) **Final Official Statement.** The City approves the preparation of a final official statement for each sale of one or more Series of the Bonds to be sold to the public in the form of the preliminary official statement with such additions, modifications, and amendments as the Director of Finance deems necessary or desirable, and further authorizes the Director to execute and deliver such final official statement to the Purchaser. The City authorizes and approves the distribution by the Purchaser of that final official statement to purchasers and potential purchasers of the Bonds.

(c) **Undertaking to Provide Continuing Disclosure.** To meet the requirements of paragraph (b)(5) of Rule 15c2-12, as applicable to a participating underwriter for a Series of the Bonds, the Director of Finance is authorized to execute a written Continuing Disclosure Agreement with respect to that Series, in substantially the form attached to this ordinance as Exhibit B.

Section 15. **Funds Created; Deposit and Use of Proceeds.** The 2024 Multipurpose LTGO Bond Fund is created in the City Treasury. For purposes of distinguishing among various Series of the Bonds, the Director of Finance may, if necessary or convenient, create such subfunds, accounts, or subaccounts within such fund for purposes of maintaining separate records for each Series. Unless otherwise provided in the Bond Sale Terms, the principal proceeds and net premium, if any, received from the sale and delivery of any Series of the Bonds shall be paid into or allocated to the 2024 Multipurpose LTGO Bond Fund, or to such funds, subfunds, accounts, or subaccounts of the City Treasury as the Director may designate for that Series, and used for the purposes described in Section 2 of this ordinance. The Director of Finance may use the principal proceeds and net premium, if any, of any Series to pay for costs of issuance of that Series, and the Director also may incur and account for costs of issuance that are not included as part of the bond proceeds and net premium, including but not limited to any underwriter's discount.

The Director of Finance may (i) establish and transfer proceeds of the Bonds among funds, subfunds, accounts, or subaccounts in the City Treasury, or (ii) make or repay interfund loans pursuant to Seattle Municipal Code Section 5.06.030 to or from other City accounts or funds, all on terms that the Director may deem necessary, appropriate, or desirable to carry out the purposes of this ordinance and consistent with the Bond Sale Terms. Enactment of this ordinance authorizes the transfer of amounts from the 2024 Multipurpose LTGO Bond Fund (and such other funds, subfunds, accounts, or subaccounts created for the purpose described in this section) to other funds in order to carry out the purposes of this ordinance.

There has previously been created and established in the City Treasury the Bond Redemption Fund. Net premium and accrued interest received from the sale and delivery of a Series of the Bonds that is not necessary for the purposes described in Section 2 of this ordinance, if any, shall be paid or allocated into the Bond Redemption Fund prior to the first debt service payment date with respect to that Series.

Until needed to pay the Project expenses and the costs described in this ordinance, the City may invest the proceeds of any Series of the Bonds temporarily in any authorized investment, and the investment earnings

shall be deposited in such funds, subfunds, accounts, and subaccounts as may be designated by the Director of Finance. Earnings subject to a federal tax or rebate requirement may be withdrawn from any such fund or account and used for those federal tax or rebate purposes.

The Director of Finance may pay principal of and interest on a Series of the Bonds with any proceeds of that Series (including interest earnings thereon) remaining after applying such proceeds to the purposes set forth in Section 2 of this ordinance, or after the City Council has determined that the expenditure of such Bond proceeds for those purposes is no longer necessary or appropriate.

Section 16. **Amendment of Exhibit A to Ordinance 123751 (2012 Projects)**. Ordinance 123751 authorized issuance of the new money portion of the City’s Limited Tax General Obligation Improvement and Refunding Bonds, 2012 (the “2012 Bonds”), and provided that proceeds of the 2012 Bonds would be used to carry out the costs of projects specified in Exhibit A to that ordinance or by other future ordinance. Exhibit A to Ordinance 123751 was subsequently amended by Ordinances 124341 and 124637, and is further amended to read as set forth in Exhibit C-1, attached to this ordinance and incorporated by reference, showing the cumulative amendments since the version originally adopted as Exhibit A to Ordinance 123751. Strikethrough text bracketed by double parentheses indicates deleted text and double underlining indicates inserted text. This amendment is ratified and confirmed in all respects and restates and replaces Exhibit A to Ordinance 123751 (including all previous amendments thereto) in its entirety. No other terms of Ordinance 123751, as currently in effect, are modified by this amendment.

Section 17. **Amendment of Exhibit A to Ordinance 124341 (2014 Projects)**. Ordinance 124341 authorized issuance of the new money portion of the City’s Limited Tax General Obligation Improvement and Refunding Bonds, 2014 (the “2014 Bonds”), and provided that proceeds of the 2014 Bonds would be used to carry out the costs of projects specified in Exhibit A to that ordinance or by future ordinance. Exhibit A to Ordinance 124341 is amended to read as set forth in Exhibit C-2, attached to this ordinance and incorporated by reference. Strikethrough text bracketed by double parentheses indicates deleted text and double underlining

indicates inserted text. This amendment is ratified and confirmed in all respects and restates and replaces Exhibit A to Ordinance 124341 in its entirety. No other terms of Ordinance 124341, as currently in effect, are modified by this amendment.

Section 18. **Amendment of Exhibit A to Ordinance 124637 (2015A Projects)**. Ordinance 124637 authorized issuance of the new money portion of the City’s Limited Tax General Obligation Improvement and Refunding Bonds, 2015A, (the “2015A Bonds”), and provided that proceeds of the 2015A Bonds would be used to carry out the costs of projects specified in Exhibit A to that ordinance or by future ordinance. Exhibit A to Ordinance 124637 is amended to read as set forth in Exhibit C-3, attached to this ordinance and incorporated by reference. Strikethrough text bracketed by double parentheses indicates deleted text and double underlining indicates inserted text. This amendment is ratified and confirmed in all respects and restates and replaces Exhibit A to Ordinance 124637 in its entirety. No other terms of Ordinance 124637, as currently in effect, are modified by this amendment.

Section 19. **Amendment of Exhibit A to Ordinance 124924 (2016A Projects)**. Ordinance 124924 authorized issuance of the new money portion of the City’s Limited Tax General Obligation Improvement and Refunding Bonds, 2016A, (the “2016A Bonds”), and provided that proceeds of the 2016A Bonds would be used to carry out the costs of projects specified in Exhibit A to that ordinance and by future ordinance. Exhibit A to Ordinance 124924 was subsequently amended by Ordinance 125986, and is further amended to read as set forth in Exhibit C-4, attached to this ordinance and incorporated by reference. Strikethrough text bracketed by double parentheses indicates deleted text and double underlining indicates inserted text. This amendment is ratified and confirmed in all respects and restates and replaces Exhibit A to Ordinance 124924 in its entirety. No other terms of Ordinance 124924, as currently in effect, are modified by this amendment.

Section 20. **Amendment of Exhibit A to Ordinance 125456 (2018A Projects)**. Ordinance 125456 authorized issuance of the City’s Limited Tax General Obligation Improvement Bonds, 2018A, (the “2018A Bonds”), and provided that proceeds of the 2018A Bonds would be used to carry out the costs of projects

specified in Exhibit A to that ordinance and by future ordinance. Exhibit A to Ordinance 125456 is amended to read as set forth in Exhibit C-5, attached to this ordinance and incorporated by reference. Strikethrough text bracketed by double parentheses indicates deleted text and double underlining indicates inserted text. This amendment is ratified and confirmed in all respects and restates and replaces Exhibit A to Ordinance 125456 in its entirety. No other terms of Ordinance 125456, as currently in effect, are modified by this amendment.

Section 21. **Amendment of Exhibit A to Ordinance 125715 (2019A Projects)**. Ordinance 125715 authorized issuance of the City’s Limited Tax General Obligation Improvement Bonds, 2019A, (the “2019A Bonds”), and provided that proceeds of the 2019A Bonds would be used to carry out the costs of projects specified in Exhibit A to that ordinance or by future ordinance. Exhibit A to Ordinance 125715 is amended to read as set forth in Exhibit C-6, attached to this ordinance and incorporated by reference. Strikethrough text bracketed by double parentheses indicates deleted text and double underlining indicates inserted text. This amendment is ratified and confirmed in all respects and restates and replaces Exhibit A to Ordinance 125715 in its entirety. No other terms of Ordinance 125715, as currently in effect, are modified by this amendment.

Section 22. **Amendment of Exhibit A to Ordinance 126219 (2021A Projects)**. Ordinance 126219 authorized issuance of the City’s Limited Tax General Obligation Improvement and Refunding Bonds, 2021, Series A, (the “2021A Bonds”), and provided that proceeds of the 2021A Bonds would be used to carry out the costs of projects specified in Exhibit A to that ordinance or by future ordinance. Exhibit A to Ordinance 126219 was subsequently amended by Ordinances 126288 and 126479, and is further amended to read as set forth in Exhibit C-7, attached to this ordinance and incorporated by reference Strikethrough text bracketed by double parentheses indicates deleted text and double underlining indicates inserted text. This amendment is ratified and confirmed in all respects and restates and replaces Exhibit A to Ordinance 126219 in its entirety. No other terms of Ordinance 126219, as currently in effect, are modified by this amendment.

Section 23. **General Authorization**. In addition to the specific authorizations in this ordinance, the Mayor, the Director of Finance, and each other appropriate officer of the City are each authorized and directed

to do everything as in such official or officer's judgment may be necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance. In particular and without limiting the foregoing:

(a) The Director of Finance, exercising discretion and without requiring further action by the City Council, (i) may issue requests for proposals to provide underwriting services or financing facilities (including liquidity or credit support), and may execute engagement letters with underwriters and other financial institutions (including providers of liquidity or credit support) based on responses to such requests; (ii) may select and make decisions regarding the Bond Registrar, fiscal or paying agents, and any Securities Depository for each Series of the Bonds; and (iii) may take such actions on behalf of the City as are necessary or appropriate for the City to designate, qualify, or maintain the tax-exempt treatment with respect to any Series issued as Tax-Exempt Bonds, to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of any Series issued as Tax Credit Subsidy Bonds, and to otherwise receive any other federal tax benefits relating to any Series of the Bonds that are available to the City; and

(b) The Mayor and Director of Finance are independently authorized (i) to execute and deliver any and all contracts or other documents as are consistent with this ordinance and for which the City's approval is necessary or to which the City is a party (including but not limited to agreements with escrow agents; refunding or defeasance trustees; liquidity or credit support providers; bond insurers; underwriters; lenders or other financial institutions; the Bond Registrar and any other fiscal or paying agents; counterparties to interest rate swap, cap, floor, or similar agreements; and custodians); and (ii) to negotiate, execute, and deliver such other contracts or documents incidental to the issuance and sale of a Series of the Bonds; the establishment of the initial interest rate or rates on a Bond; or the tender, purchase, remarketing, or redemption of a Bond, as may in such official's judgment be necessary or appropriate.

Section 24. **Severability**. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance,

or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 25. **Ratification of Prior Acts**. Any action consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 26. **Headings**. Section headings in this ordinance are nonsubstantive.

Section 27. **Effective Date**. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

Scheereen Dedman, City Clerk

EXHIBIT B

FORM OF CONTINUING DISCLOSURE AGREEMENT

The City of Seattle, Washington (the “City”) makes the following written undertaking (the “Undertaking”) for the benefit of the Owners of the City’s Limited Tax General Obligation Bonds, [Year][Series] (the “Bonds”), for the sole purpose of assisting the underwriter in meeting the requirements of paragraph (b)(5) of Rule 15c2-12 (the “Rule”), as applicable to a participating underwriter for the Bonds. Capitalized terms used but not defined below shall have the meanings given in Ordinance _____ (the “Bond Ordinance”).

(a) Undertaking to Provide Annual Financial Information and Notice of Listed Events.

The City undertakes to provide or cause to be provided, either directly or through a designated agent, to the Municipal Securities Rulemaking Board (the “MSRB”), in an electronic format as prescribed by the MSRB, accompanied by identifying information as prescribed by the MSRB:

(i) Annual financial information and operating data of the type included in the final official statement for the Bonds and described in subsection (b) of this section (“annual financial information”). The timely filing of unaudited financial statements shall satisfy the requirements and filing deadlines pertaining to the filing of annual financial statements under subsection (b), provided that audited financial statements are to be filed if and when they are otherwise prepared and available to the City.

(ii) Timely notice (not in excess of 10 business days after the occurrence of the event) of the occurrence of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of

1 proposed or final determinations of taxability, Notice of Proposed Issue (IRS Form 5701 – TEB)
2 or other material notices or determinations with respect to the tax status of the Bonds, or other
3 material events affecting the tax status of the Bonds; (7) modifications to rights of holders of the
4 Bonds, if material; (8) Bond calls (other than scheduled mandatory redemptions of Term Bonds),
5 if material, and tender offers; (9) defeasances; (10) release, substitution, or sale of property
6 securing repayment of the Bonds, if material; (11) rating changes; (12) bankruptcy, insolvency,
7 receivership or similar event of the City, as such “Bankruptcy Events” are defined in the Rule;
8 (13) the consummation of a merger, consolidation, or acquisition involving the City or the sale of
9 all or substantially all of the assets of the City other than in the ordinary course of business, the
10 entry into a definitive agreement to undertake such an action or the termination of a definitive
11 agreement relating to any such actions, other than pursuant to its terms, if material; (14)
12 appointment of a successor or additional trustee or the change of name of a trustee, if material;
13 (15) incurrence of a financial obligation of the City, if material, or agreement to covenants, events
14 of default, remedies, priority rights, or other similar terms of a financial obligation of the City, any
15 of which affect holders of the Bonds, if material; and (16) any default, event of acceleration,
16 termination event, modification of terms, or other similar event under the terms of a financial
17 obligation of the City, any of which reflect financial difficulties.

18 For purposes of this Undertaking, the term “financial obligation” shall mean a debt
19 obligation; derivative instrument entered into in connection with, or pledged as security or a source
20 of payment for, an existing or planned debt obligation; or a guarantee of either a debt obligation
21 or a derivative instrument entered into in connection with, or pledged as security or a source of
22 payment for, an existing or planned debt obligation. The term “financial obligation” does not

1 include municipal securities as to which a final official statement has been provided to the MSRB
2 consistent with the Rule.

3 (iii) Timely notice of a failure by the City to provide required annual financial
4 information on or before the date specified in subsection (b) of this section.

5 (b) Type of Annual Financial Information Undertaken to be Provided. The annual
6 financial information that the City undertakes to provide in subsection (a) of this section:

7 (i) Shall consist of (1) annual financial statements of the City prepared in
8 accordance with applicable generally accepted accounting principles applicable to governmental
9 units (except as otherwise noted therein), as such principles may be changed from time to time and
10 as permitted by applicable state law; (2) a statement of outstanding general obligation debt of the
11 City; (3) the assessed value of the property within the City subject to ad valorem taxation; and
12 (4) ad valorem tax levy rates and amounts and percentages of taxes collected;

13 (ii) Shall be provided not later than the last day of the ninth month after the end
14 of each fiscal year of the City (currently, a fiscal year ending December 31), as such fiscal year
15 may be changed as required or permitted by state law, commencing with the City’s fiscal year
16 ending December 31, 20__; and

17 (iii) May be provided in a single document or multiple documents, and may be
18 incorporated by specific reference to documents available to the public on the Internet website of
19 the MSRB or filed with the Securities and Exchange Commission.

20 (c) Amendment of Undertaking. This Undertaking is subject to amendment after the
21 primary offering of the Bonds without the consent of any Owner or holder of any Bond, or of any
22 broker, dealer, municipal securities dealer, participating underwriter, rating agency or the MSRB,
23 under the circumstances and in the manner permitted by the Rule, including:

1 (i) The amendment may only be made in connection with a change in
2 circumstances that arises from a change in legal requirements, change in law, or change in the
3 identity, nature, or status of the City, or type of business conducted by the City;

4 (ii) The Undertaking, as amended, would have complied with the requirements
5 of the Rule at the time of the primary offering, after taking into account any amendments or
6 interpretations of the Rule, as well as any change in circumstances; and

7 (iii) The amendment does not materially impair the interests of holders, as
8 determined either by parties unaffiliated with the City (e.g., bond counsel or other counsel familiar
9 with federal securities laws), or by an approving vote of bondholders pursuant to the terms of the
10 Bond Ordinance at the time of the amendment.

11 The City will give notice to the MSRB of the substance (or provide a copy) of any
12 amendment to this Undertaking and a brief statement of the reasons for the amendment. If the
13 amendment changes the type of annual financial information to be provided, the annual financial
14 information containing the amended financial information will include a narrative explanation of
15 the effect of that change on the type of information to be provided.

16 (d) Beneficiaries. This Undertaking shall inure to the benefit of the City and any
17 Owner of Bonds, and shall not inure to the benefit of or create any rights in any other person.

18 (e) Termination of Undertaking. The City's obligations under this Undertaking shall
19 terminate upon the legal defeasance, prior redemption, or payment in full of all of the Bonds. In
20 addition, the City's obligations under this Undertaking shall terminate if those provisions of the
21 Rule that require the City to comply with this Undertaking become legally inapplicable in respect
22 of the Bonds for any reason, as confirmed by an opinion of nationally recognized bond counsel or

1 other counsel familiar with federal securities laws delivered to the City, and the City provides
2 timely notice of such termination to the MSRB.

3 (f) Remedy for Failure to Comply with Undertaking. As soon as practicable after the
4 City learns of any material failure to comply with this Undertaking, the City will proceed with due
5 diligence to cause such noncompliance to be corrected. No failure by the City or other obligated
6 person to comply with this Undertaking shall constitute a default in respect of the Bonds. The sole
7 remedy of any Owner of a Bond shall be to take such actions as that Owner deems necessary,
8 including seeking an order of specific performance from an appropriate court, to compel the City
9 or other obligated person to comply with this Undertaking.

10 (g) Designation of Official Responsible to Administer Undertaking. The Director of
11 Finance of the City (or such other officer of the City who may in the future perform the duties of
12 that office) or the Director’s designee is the person designated, in accordance with the Bond
13 Ordinance, to carry out this Undertaking of the City in respect of the Bonds set forth in this section
14 and in accordance with the Rule, including, without limitation, the following actions:

15 (i) Preparing and filing the annual financial information undertaken to be
16 provided;

17 (ii) Determining whether any event specified in subsection (a)(ii) has occurred,
18 assessing its materiality, where necessary, with respect to the Bonds, and preparing and
19 disseminating any required notice of its occurrence;

20 (iii) Determining whether any person other than the City is an “obligated
21 person” within the meaning of the Rule with respect to the Bonds, and obtaining from such person
22 an undertaking to provide any annual financial information and notice of listed events for that
23 person in accordance with the Rule;

1 (iv) Selecting, engaging and compensating designated agents and consultants,
2 including but not limited to financial advisors and legal counsel, to assist and advise the City in
3 carrying out this Undertaking; and

4 (v) Effecting any necessary amendment of the Undertaking.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
Office of City Finance	Kristi Beattie	Caleb Wagenaar

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to contracting indebtedness; authorizing and providing for the issuance and sale of limited tax general obligation bonds to pay or reimburse all or part of the costs of various elements of the City’s capital improvement program and for other City purposes approved by ordinance and to pay the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; creating the 2024 Multipurpose LTGO Bond Fund; amending Ordinance 123751 (as previously amended by Ordinances 124341 and 124637), Ordinance 124341, Ordinance 124637, Ordinance 124924 (as previously amended by Ordinance 125986), Ordinance 125456, Ordinance 125715 (as previously amended by Ordinance 125986), and Ordinance 126219 (as previously amended by Ordinances 126288 and 126479); and ratifying and confirming certain prior acts.

Summary and Background of the Legislation: This legislation provides the legal authorization to issue up to \$84.2 million of Limited Tax General Obligation (LTGO) Bonds, as assumed in the 2024 Budget and the 2024-2029 Capital Improvement Program (CIP).

Although the Budget and CIP make specific assumptions about the use of debt financing for a certain share of the CIP, separate authorization for the issuance of bonds is technically required.

This bond sale is anticipated to occur in mid-2024. The bond proceeds will support a share of the City’s general government capital program for about 12 months. The bond sizing is based on the proposed budget and current cash-flow projections. The bond proceeds will be used to pay or reimburse all or part of the costs of the projects supported by the bond issuance (which may include capitalized interest) and pay issuance costs.

The City’s CIP identifies debt financing for certain projects and the City’s budget appropriates the associated debt service. The following table provides details of this bond issue.

<i>Project</i>	Approximate Project Fund Deposit	Approx. Par Amount (1)	Max. Term	Approx. Rate	Debt Service Proposed 2024	Debt Service Estimated 2025	Debt Service Funding Source
Fire Station 31	26,010	26,790	20	5.25%	1,406	2,196	REET I
Seattle Municipal Tower Elevator Rehab	6,334	6,524	10	4.50%	294	824	FAS Rates
Human Capital Management System	4,019	4,140	8	4.75%	197	634	FAS Rates
Electrical Infrastructure Upgrades	1,000	1,030	20	5.25%	54	84	Payroll Expense Tax
Computing Services Architecture	3,992	4,112	8	4.75%	195	630	IT Rates
Data and Telephone Infrastructure	6,921	7,129	8	4.75%	339	1,092	IT Rates

Alaskan Way Main Corridor	25,713	26,484	20	5.25%	1,390	2,170	Commercial Parking Tax
Overlook Walk and East-West Connections Project	3,000	3,090	20	5.25%	162	253	Commercial Parking Tax
Total	81,699	84,150			4,268	8,627	

(1) Includes 3% for costs of issuance and pricing adjustments

2. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
 The Office of City Finance and various operating departments with projects being financed by this bond issue.
- b. **Is a public hearing required for this legislation?**
 No.
- c. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
 No.
- d. **Does this legislation affect a piece of property?**
 No.
- e. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
 N/A.
- f. **Climate Change Implications**
 1. **Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
 No.
 2. **Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle’s resiliency (or ability to adapt) to climate change in a material way? If so,**

explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

N/A.

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**

N/A.

Legislation Text

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to funding from non-City sources; authorizing department directors to accept grants, enter into revenue-backed service contracts, and carry forward related appropriations. WHEREAS, many grants to City departments are accepted via annual grant acceptance ordinances, but several

other recurring or multi-year grants are known and assumed in the annual budget; and

WHEREAS, unspent grant appropriations typically carry forward to subsequent years, backed by the revenue previously received; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Attachment A to this ordinance lists approximate appropriation amounts in the 2024 Budget (introduced as Council Bill [redacted]) that are backed, or are anticipated to be backed, by grants and service contracts. The directors of City departments and offices listed in Attachment A are authorized to accept new grants or revenue-backed service contracts consistent with the amounts listed. All unspent funds so appropriated and listed in Attachment A shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance.

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by

me in open session in authentication of its passage this ____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this ____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this ____ day of _____, 2023.

Scheereen Dedman, City Clerk

(Seal)

1.47	Office of Housing	Weatherization Plus Health (formerly the Match Maker Program)	Washington State Department of Commerce	Office of Housing Fund 16600 and Low Income Housing Fund 16400 - WEATHERIZATION PLUS HEALTH through the Dept of Commerce grant provides funding for administration and program support to perform an approved energy audit and complete weatherization in both single and multifamily residential dwelling units in the City of Seattle.	16400 - Low Income Housing Fund	1,800,000	675,000
1.48					16600 - Office of Housing Fund		225,000
1.49	Office of Immigrant and Refugee Affairs	Annual DSHS Award	Department of Social and Health Services	This grant supports the participation of State benefits recipients in the Office of Immigrant and Refugee Affairs' New Citizen Program, which provides assistance to income-qualified individuals to apply for naturalization using a case management model. Matching funding is not required. The grant funding is for the current state fiscal year.	00100 - General Fund	865,600	865,600
1.50	Office of Immigrant and Refugee Affairs	Annual SHA Award	Seattle Housing Authority	This grant supports the participation of Seattle Housing Authority residents in the Office of Immigrant and Refugee Affairs' New Citizen Program, which provides assistance to income-qualified individuals to apply for naturalization using a case management model. The grant funding is for the existing calendar year.	00100 - General Fund	51,652	51,652
1.51	Office of the Mayor	Casey Family Programs Grant	Casey Family Foundation	Private grant to support 3.0 temporary FTE for research, planning, and implementation of programming related to public safety.	00100 - General Fund	500,000	500,000

1.52	Seattle Center	Monorail System Renovation	Federal Transit Administration	This funding is for Seattle Center Monorail FTA-funded major maintenance and renovation to support the system which began service in 1962. There is a 20% local match requirement for these funds.	11410 - Seattle Center Fund	1,255,000	1,255,000
1.53	Seattle Parks and Recreation	Community Services Block Grant Federal	Washington State Department of Commerce	This funding supports the Seattle Conservation Corps, a jobs training program for homeless adults.	10200 - Park And Recreation Fund	181,812	181,812
1.54	Seattle Parks and Recreation	Community Services Block Grant State	Washington State Department of Commerce	This funding supports the Seattle Conservation Corps, a jobs training program for homeless adults.	10200 - Park And Recreation Fund	71,530	71,530
1.55	Seattle Parks and Recreation	Community Services Block Grant State	Washington State Department of Commerce	This funding supports the Seattle Conservation Corps, a jobs training program for homeless adults.	10200 - Park And Recreation Fund	22,770	22,770
1.56	Seattle Police Department	FY23 Patrick Leahy Bulletproof Vest Partnership (BVP)	Department of Justice, Bureau of Justice Assistance	The grant reimburses states, units of local government, and federally recognized Indian tribes, for up to 50 percent of the cost of body armor vests purchased for law enforcement officers. SPD requested funds for 45 bulletproof vests.	00100 - General Fund	32,609	32,609
1.57	Seattle Police Department	FY23 Community Policing Development Microgrants	COPS Office	Funding for demonstration or pilot projects that offer creative ideas to advance crime fighting, community engagement, problem solving, or organizational changes to support community policing in one of the following areas: Officer recruitment, retention, and workforce diversification, underserved populations, building trust and legitimacy with the community, hate crimes and domestic terrorism, and community violence intervention.	00100 - General Fund	175,000	175,000
1.58	Seattle Police Department	FY23 COPS Community Policing Development – De-Escalation	COPS Office	Grant funds will be used to create a functional PEO/Parking Specific training related to de-escalation, including the establishment of trainers that can carry the program forward after the grant ends.	00100 - General Fund	83,997	83,997
1.59	Seattle Police Department	FY23 DHS Securing the Cities Grant	Department of Homeland Security	This grant provides funds to establish a land-based radiological and nuclear detection program, initially in the UASI identified Seattle Urban Area (Seattle, Bellevue, King County, Pierce County, Snohomish County, etc.). SPD is committed to be the Lead Agency on the Securing the Cities grant program issued by the Department of Homeland Security (DHS), Countering Weapons of Mass Destruction Office through the duration of the grant program. As the Lead Agency, SPD is committed to sustaining existing partnerships and building new partnerships with those entities identified as Principal Partners. This includes expanding the program across the remainder of the State of Washington and the neighboring states outlined by the Program requirements. This is a yearly allocation that will primarily focus on the continuation of the Program and funding the purchase and distribution of approved equipment.	00100 - General Fund	475,000	475,000

1.60	Seattle Police Department	FY23 High Intensity Drug Trafficking Area (NW HIDTA)	Office of National Drug Control Policy	Created by Congress in 1988, the High Intensity Drug Trafficking Areas (HIDTA) Program coordinates and assists Federal, State, Local, and Tribal law enforcement agencies (LEAs) to address regional drug threats with the purpose of reducing drug trafficking and drug production in the United States. This funding will be used to 1) Disrupt the market for illegal drugs by dismantling and disrupting drug trafficking and/or money laundering organizations; and 2) Improve the efficiency and effectiveness of HIDTA initiatives in the Seattle Region.	00100 - General Fund	30,600	30,600
1.61	Seattle Police Department	FY23 Supplemental Grant for Internet Crimes Against Children (ICAC) Task Force	Department of Justice Office of Juvenile Justice and Delinquency Prevention (OJJDP)	This annual grant provides funding to maintain the Northwest Regional Internet Crimes Against Children (ICAC) Task Force to address technology-facilitated child exploitation. This grant supports 1.0 FTE Program Manager.	00100 - General Fund	655,092	655,092
1.62	Seattle Police Department	FY23 Justice Assistance Grants (JAG)	Department of Justice, Bureau of Justice Assistance	The City of Seattle as the identified Fiscal Agent, annually submits a joint application on behalf of the City of Seattle and surrounding jurisdictions. This joint application represents the highest priorities for the 13 jurisdictions for preserving and supporting a variety of law enforcement programs aimed at preventing and reducing crime, providing services to victims, purchasing much needed law enforcement and investigative equipment, enhancing law enforcement training and officer safety, implementing community-based programs, providing law enforcement overtime, and streamlining and augmenting technology systems. JAG provides SPD with funds for three Crime Prevention Coordinators at approximately 80% of a year and has done so since 2009 when the city budget could not sustain these staff positions.	00100 - General Fund	918,880	918,880
1.63	Seattle Police Department	FY23 Law Enforcement Mental Health & Wellness ACT (LEMHWA) Program	COPS Office	Funding to implement new or enhance existing programs that offer training and services on officer emotional and mental health, peer mentoring, suicide prevention, stress reduction, and support services for officers and their families. Proposed projects may serve one agency, a consortium of agencies, or personnel from agencies located within a county or state.	00100 - General Fund	200,000	200,000
1.64	Seattle Police Department	FY23 Port Security Grant Program	Department of Homeland Security	Funding to help protect critical port infrastructure from terrorism, enhance marine domain awareness, improve port-wide maritime security risk management, and maintain or re-establish maritime security mitigation protocols that support port recovery and resilience capabilities.	00100 - General Fund	269,853	269,853
1.65	Seattle Police Department	FY23 SOS WA State Archives - Digital Imaging Grant	Office of the Secretary of State	Funds from this grant will be used to get a specific set of records digitized by a vendor so that the agency can: a. Provide more timely responses for frequently requested public records; or b. Better manage public records which have longer minimum retention periods.	00100 - General Fund	49,725	49,725

1.66	Seattle Police Department	FY23 SHSP King County OEM	Department of Homeland Security	Grant funds will be used to continue funding a contracted Crime Intelligence Analyst at the Washington State Fusion Center and for the purchase of up to 2 tactical robots for King County, Seattle, or Bellevue partners.	00100 - General Fund	230,000	230,000	
1.67	Seattle Police Department	FY23 Smart Policing Initiative Grant Program	Department of Justice, Bureau of Justice Assistance	Funding to support innovative and evidence-based policing practices, more effective information sharing, and multiagency collaboration under the Smart Policing Initiative Program. Categories: 1) Smart Policing Innovation, 2) Smart Policing Approaches to Community Violence Intervention and Prevention, or 3) Smart Policing Technology Development and Implementation. The Seattle Police Augmented Reality Operations (SPARO) platform is that innovation.	00100 - General Fund	799,982	799,982	
1.68	Seattle Police Department	FY 2024 SPD Impaired Driving Training Grant	Washington Traffic Safety Commission	This item provides funding for impaired driving training.	00100 - General Fund	65,000	65,000	
1.69	Seattle Police Department	FY 2024 Target Zero	Washington Traffic Safety Commission	This item provides funding for overtime related to supplemental traffic enforcement with special emphasis on impaired and distracted driving, seat belt, and motorcycle safety.	00100 - General Fund	30,000	30,000	
1.70	Seattle Police Department	FY23 UASI - Seattle Region	Department of Homeland Security	This grant assists high-threat, high density Urban Areas in efforts to build, sustain, and deliver the capabilities necessary to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.	00100 - General Fund	1,667,418	1,667,418	
1.71	Seattle Fire Department	FY23 UASI - Seattle Region	Department of Homeland Security	This grant assists high-threat, high density Urban Areas in efforts to build, sustain, and deliver the capabilities necessary to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.	00100 - General Fund	792,679	792,679	
1.72	Seattle Department of Transportation	Seattle Streetcar Maintenance 2022-2023	FTA	This project will fund preventive and major maintenance grants to support the Seattle Streetcar System. The first line began operations in 2007 and the second line began operations in 2016. The project contains funds for preventive and major maintenance, vehicle maintenance, and guideway work.	10800 - Seattle Streetcar Operations	127,967	127,967	
1.73	Seattle Department of Transportation	Seattle Streetcar Maintenance 2022-2023	FTA	This project will fund preventive and major maintenance grants to support the Seattle Streetcar System. The first line began operations in 2007 and the second line began operations in 2016. The project contains funds for preventive and major maintenance, vehicle maintenance, and guideway work.	10800 - Seattle Streetcar Operations	298,589	298,589	
PRIOR YEAR ACCEPTED AWARDS, IN OPERATING BUDGET							6,579,891	
1.74	Department of Education and Early Learning	ECEAP Grant 2023-2024 School Year	Washington State Department of Children, Youth and Families	The Early Childhood Education and Assistance Program (ECEAP) provides high quality preschool services for low-income families.	00100 - General Fund		2,971,476	
1.75	Department of Education and Early Learning	Upward Bound Grant 2023-2024 School Year	United States Department of Education	Upward Bound focuses on low-income and/or first generation students who cannot go to college without additional academic assistance and pre-college counseling.	00100 - General Fund		259,414	

1.76	Office of Housing	Bonneville Power Administration 2023	Washington State Department of Commerce	Department of Commerce grant provides funding for program administration and delivery of weatherization and repair services to improve energy efficiency, and provide health and safety benefits for Eligible Low Income Persons/Participants in areas served by the Bonneville Power Administration in both single and multi-family buildings.	16400 - Low Income Housing Fund		95,091
1.77					16600 - Office of Housing Fund		39,013
1.78	Office of Housing	Department of Energy 2023	Washington State Department of Commerce	Department of Commerce grant provides funding for administration and program support to perform a DOE-approved energy audit and complete weatherization in both single and multi-family residential dwelling units in the City of Seattle.	16400 - Low Income Housing Fund		200,000
1.79					16600 - Office of Housing Fund		74,162
1.80	Office of Housing	Low Income Home Energy Assistance Program 2023	Washington State Department of Commerce	Department of Commerce grant provides funding for program administration and delivery of weatherization services to provide cost-effective energy efficiency, and health and safety benefits to eligible low-income households in both single and multi-family dwelling units in the City of Seattle.	16400 - Low Income Housing Fund		1,400,000
1.81					16600 - Office of Housing Fund		439,208
1.82	Office of Housing	MatchMaker 2023 Grant	Washington State Department of Commerce	Department of Commerce grant provides funding to improve the energy efficiency and health & safety of dwellings owned or occupied by eligible low-income persons/participants in both single and multifamily buildings in the city of Seattle. Grant also provides funds for administration and delivery of weatherization services, repair services, and to perform Plus Health activities.	16400 - Low Income Housing Fund		925,000
1.83					16600 - Office of Housing Fund		176,527

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
City Budget Office		Anna Hurst

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to funding from non-City sources; authorizing department directors to accept grants, enter into revenue-backed service contracts, and carry forward related appropriations.

Summary and background of the Legislation: This bill authorizes City Department directors to accept grants and enter into revenue-backed service contracts anticipated as part of the 2024 Budget. Several departments routinely receive reliable funds from federal and state governments and other sources. The 2024 Budget relies on these revenues to back appropriations. Additionally, the appropriations backed by these sources will carry forward to subsequent budget years until exhausted.

Attachment A to the ordinance lists approximate appropriation amounts in the 2024 Budget that are backed, or anticipated to be backed, by grants and service contracts. Attachment A also lists grants that were previously accepted by the City Council via ordinance, but require additional carryforward authority for outyear appropriation amounts in the department's operating budget.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No.

Is there financial cost or other impacts of *not* implementing the legislation?
Not authorizing directors to accept these grants would impact the resources available to the City in 2024.

3.a. Appropriations

___ This legislation adds, changes, or deletes appropriations.

Appropriations Notes: The 2024 Budget contains appropriations backed by the anticipated grants authorized in this bill.

3.b. Revenues/Reimbursements

X This legislation adds, changes, or deletes revenues or reimbursements.

Revenue/Reimbursement Notes: See Attachment A to the ordinance for a list of all of the revenues anticipated as a result of this legislation.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
Several City Departments are authorized to accept future revenue as a result of this legislation.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- d. **Does this legislation affect a piece of property?**
No.
- e. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
The revenues anticipated in this bill support a wide variety of City programs.
- f. **Climate Change Implications**
- 1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No.
 - 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**
No.
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**
N/A

Amendment 1 Version 1 to CB 120679 - CBO 2024 Annual Grant Acceptance ORD

Sponsor: Councilmember Mosqueda

Technical Amendment to 2024 Annual Grant Acceptance Ordinance

Effect: Council Bill (CB) 120679, would authorize department directors to accept approximately \$107.1 million in grants and enter into revenue-backed service contracts to support appropriations that would be made in CB 120708, the 2024 Budget Adoption Ordinance

This amendment would add the 2024 Budget Adoption Ordinance CB number to Section 1 of CB 120679, the 2024 Annual Grant Acceptance Ordinance.

Underline indicates language added by this amendment.

Amend Section 1 of CB 120679 as follows:

Section 1. Attachment A to this ordinance lists approximate appropriation amounts in the 2024 Budget (introduced as Council Bill 120708) that are backed, or are anticipated to be backed, by grants and service contracts. The directors of City departments and offices listed in Attachment A are authorized to accept new grants or revenue-backed service contracts consistent with the amounts listed. All unspent funds so appropriated and listed in Attachment A shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

..title

AN ORDINANCE relating to funding from non-City sources; authorizing department directors to accept grants, enter into revenue-backed service contracts, and carry forward related appropriations.

..body

WHEREAS, many grants to City departments are accepted via annual grant acceptance

ordinances, but several other recurring or multi-year grants are known and assumed in the annual budget; and

WHEREAS, unspent grant appropriations typically carry forward to subsequent years, backed by the revenue previously received; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Attachment A to this ordinance lists approximate appropriation amounts in the 2024 Budget (introduced as Council Bill [120708](#)) that are backed, or are anticipated to be backed, by grants and service contracts. The directors of City departments and offices listed in Attachment A are authorized to accept new grants or revenue-backed service contracts consistent with the amounts listed. All unspent funds so appropriated and listed in Attachment A shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the electric system of The City of Seattle; amending Ordinance 125460, as amended by Ordinance 125987, to incorporate, ratify, and confirm certain contingent amendments thereto that were to become effective upon the occurrence of certain events that have since occurred and making certain other technical amendments; and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle (the “City”) owns, operates, and maintains a municipal light and electric power generation, transmission, and distribution system (the “Light System”) and currently has outstanding certain municipal light and power revenue bonds (as identified in Exhibit A, the “Outstanding Parity Bonds”) having a charge and lien upon Gross Revenues of the Light System available after payment of the Operating and Maintenance Expense (“Net Revenue”) prior and superior to all other charges whatsoever, which Outstanding Parity Bonds are designated as Refundable Bonds; and

WHEREAS, pursuant to Ordinance 125460, as amended by Ordinance 125987 (the “Omnibus Refunding Ordinance”), the City has authorized the issuance of municipal light and power revenue bonds for the purpose of refunding Outstanding Parity Bonds or Outstanding Junior Lien Bonds, as defined in this ordinance; and

WHEREAS, the Omnibus Refunding Ordinance contains certain contingent amendments that were to take effect upon the earlier of: (a) the date on which the City obtained consents of the requisite percentage of Registered Owners of the Parity Bonds then outstanding, in accordance with the provisions of the applicable Outstanding Parity Bond Documents; or (b) the date on which certain identified Outstanding Parity Bonds were redeemed or defeased; and

WHEREAS, as of August 11, 2023, the Owners of more than 60 percent in aggregate principal amount of the Parity Bonds currently outstanding have consented to certain amendments which have therefore become effective; and

WHEREAS, for ease of reference and to avoid confusion going forward, the City has therefore determined that it is in the best interest of the City to restate the Omnibus Refunding Ordinance to incorporate the terms of the contingent amendments, delete inoperative provisions, and make certain other technical amendments consistent with subsection 23(a) of the Outstanding Parity Bond Ordinances to cure ambiguities and/or make other corrections that do not materially adversely affect the interests of the owners of any of the Outstanding Parity Bonds; and

WHEREAS, as set forth in Section 27 of this ordinance, from and after the effective date of this ordinance, future Refunding Parity Bonds shall be issued under the authority of this ordinance and within the parameters set forth in this ordinance, without affecting the outstanding bonds previously issued under the Omnibus Refunding Ordinance; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** Section 1 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

In this ordinance, the following capitalized terms shall have the meanings set forth in this section.

“**Accreted Value**” means with respect to any Capital Appreciation Bond (a) as of any Valuation Date, the amount determined for such Valuation Date in accordance with the applicable Bond Documents, and (b) as of any date other than a Valuation Date, the sum of (i) the Accreted Value on the preceding Valuation Date and (ii) the product of (A) a fraction, the numerator of which is the number of days having elapsed from the preceding Valuation Date and the denominator of which is the number of days from such preceding Valuation Date to the next succeeding Valuation Date, calculated based on the assumption that Accreted Value accrues during any semiannual period in equal daily amounts on the basis of a year of 12 30-day months, and (B) the

difference between the Accreted Values for such Valuation Dates.

“Acquired Obligations” means Government Obligations maturing or having guaranteed redemption prices at the option of the holder at such time or times as may be required to provide funds sufficient to carry out a Refunding Plan and satisfying the requirements of the Refunded Bond Documents relating to the Refunded Bonds included in that Refunding Plan. For purposes of this definition, eligible “Government Obligations” for inclusion in a Refunding Plan shall be determined in accordance with the applicable Refunded Bond Documents.

“Adjusted Net Revenue” means Net Revenue, less any deposits into the Rate Stabilization Account and plus any withdrawals from the Rate Stabilization Account. In calculating Net Revenue, the City may include the Tax Credit Subsidy Payments the City expects to receive from the federal government in respect to the interest on any Tax Credit Subsidy Bonds (or with respect to which the federal government will provide direct payments). In a Parity Certificate, Adjusted Net Revenue is subject to further adjustment as set forth in subsection 18(a)(ii) of this ordinance. In a Junior Lien Coverage Certificate, Adjusted Net Revenue is subject to further adjustment as set forth in subsection 18(b)(ii) of this ordinance.

“Alternate Reserve Security” means Qualified Insurance or a Qualified Letter of Credit that is used by the City to satisfy part or all of the Reserve Fund Requirement, and that is not cancelable on less than five years’ notice.

“Annual Debt Service” means, with respect to either Parity Bonds (or a series of Parity Bonds) (**“Annual Parity Bond Debt Service”**) or Junior Lien Bonds (or a series of Junior Lien Bonds) (**“Annual Junior Lien Debt Service”**), as applicable, the sum of the amounts required in a calendar year to pay the interest due in such calendar year (excluding interest to be paid from the proceeds of the sale of bonds), the principal of Serial Bonds maturing in such calendar year, and the Sinking Fund Requirements for any Term Bonds due in such calendar year. Additionally, for purposes of this definition:

(a) **Calculation of Interest Due - Generally.** Except as otherwise provided in this definition, interest

shall be calculated based on the actual amount of accrued, accreted, or otherwise accumulated interest that is payable in respect of the relevant series of Parity Bonds or Junior Lien Bonds, as applicable, taken as a whole, at the rate or rates set forth in the applicable Bond Documents.

(b) **Capital Appreciation Bonds.** The principal and interest portions of the Accreted Value of Capital Appreciation Bonds becoming due at maturity or by virtue of a Sinking Fund Requirement shall be included in the calculations of accrued and unpaid and accruing interest or principal in such manner and during such period of time as is specified in the Bond Documents applicable to such Capital Appreciation Bonds.

(c) **Variable Interest Rate Bonds.**

(i) **Assumed Interest on Variable Interest Rate Parity Bonds.** The amount of interest deemed to be payable on any series of Parity Bonds that are Variable Interest Rate Bonds shall be calculated under the assumption that the interest rate on those bonds is equal to the highest 12-month rolling average of the SIFMA Municipal Swap Index over the preceding five years.

(ii) **Assumed Interest on Variable Interest Rate Junior Lien Bonds.** The amount of interest deemed to be payable on any series of Junior Lien Bonds that are Variable Interest Rate Bonds shall be calculated on the assumption that the interest rate on those bonds is equal to the highest 12-month rolling average (ending with the month preceding the date of the calculation) of the SIFMA Municipal Swap Index over the preceding five years.

(d) **Interest on Bonds with Respect to Which a Payment Agreement is in Force.** In general, debt service on any bonds (Parity Bonds or Junior Lien Bonds, as applicable) with respect to which a Payment Agreement is in force shall be based on the net economic effect on the City expected to be produced by the terms of the applicable Bond Documents and the terms of the Payment Agreement. For example, if the net effect of the Payment Agreement on a series of bonds otherwise bearing interest at a variable interest rate is to produce an obligation bearing interest at a fixed rate, the relevant series of bonds shall be treated as fixed rate bonds. And if the net effect of the Payment Agreement on a series of bonds otherwise bearing interest at a fixed

interest rate is to produce an obligation bearing interest at a variable interest rate, the relevant series of bonds shall be treated as Variable Interest Rate Bonds.

Accordingly, the amount of interest deemed to be payable on any series of Parity Bonds (or Junior Lien Bonds, as applicable) with respect to which a Payment Agreement is in force shall be an amount equal to the amount of interest that would be payable at the rate or rates stated in or determined pursuant to the applicable Bond Documents, plus Payment Agreement Payments, minus Payment Agreement Receipts. For the purposes of calculating as nearly as practicable Payment Agreement Receipts and Payment Agreement Payments under a Payment Agreement that includes a variable rate component determined by reference to a pricing mechanism or index that is not the same as the pricing mechanism or index used to determine the variable rate interest component on the series of bonds to which the Payment Agreement is related, it shall be assumed that: (i) the fixed rate used in calculating Payment Agreement Payments will be equal to 105 percent of the fixed rate specified by the Payment Agreement, and (ii) the pricing mechanism or index specified by the Payment Agreement is the same as the pricing mechanism or index specified by the applicable Bond Documents. Notwithstanding the other provisions of this definition, the City shall not be required to (but may in its discretion) take into account in determining Annual Debt Service the effects of any Payment Agreement that has a term of ten years or less.

(e) Parity Payment Agreements; Junior Lien Payment Agreements. For any period during which Payment Agreement Payments under a Parity Payment Agreement (or Junior Lien Payment Agreement, as applicable) are taken into account in determining Annual Debt Service on the related Parity Bonds (or Junior Lien Bonds, as applicable) under subsection (d) of this definition, no additional debt service shall be taken into account with respect to that Parity Payment Agreement (or a Junior Lien Payment Agreement, as applicable). However, for any period during which Payment Agreement Payments are not taken into account under subsection (d) of this definition because the Parity Payment Agreement (or Junior Lien Payment Agreement, as applicable) is not then related to any Outstanding Parity Bonds (or Junior Lien Bonds, as applicable) payments

on that Payment Agreement shall be taken into account by assuming:

(i) **If City is Obligated to Make Payments Based on a Fixed Rate.** If the City is obligated to make Payment Agreement Payments based on a fixed rate and the Qualified Counterparty is obligated to make payments based on a variable rate index, it shall be assumed that payments by the City will be based on the assumed fixed payor rate, and that payments by the Qualified Counterparty will be based on a rate equal to the average rate determined by the variable rate index specified by the Payment Agreement during the four calendar quarters preceding the quarter in which the calculation is made.

(ii) **If City is Obligated to Make Payments Based on a Variable Rate Index.** If the City is obligated to make Payment Agreement Payments based on a variable rate index and the Qualified Counterparty is obligated to make payments based on a fixed rate, it shall be assumed that payments by the City will be based on a rate equal to the average rate determined by the variable rate index specified by the Payment Agreement during the four calendar quarters preceding the quarter in which the calculation is made, and that the Qualified Counterparty will make payments based on the fixed rate specified by the Payment Agreement.

(f) **Balloon Bonds.** In calculating Annual Debt Service for any series of Parity Bonds, the City may in its discretion treat the debt service requirements with respect to Parity Bonds that are Balloon Bonds (including principal of and interest on such bonds at the applicable rate or rates) as being amortized in approximately equal annual installments over a period equal to the longer of 30 years or the remaining term of such series of Parity Bonds.

In calculating Annual Debt Service for any series of Junior Lien Bonds, the City may in its discretion treat the debt service requirements with respect to Junior Lien Bonds that are Balloon Bonds (including principal of and interest on such bonds at the applicable rate or rates) as being amortized in approximately equal annual installments over a period equal to the longer of 30 years or the remaining term of such series of Junior Lien Bonds.

(g) **Adjustments for Defeased Bonds.** For purposes of determining compliance with the rate covenants

set forth in subsections 17(a)(ii) and 17(b)(ii) of this ordinance, calculating the Reserve Fund Requirement, and making coverage ratio calculations in connection with the delivery of a Parity Certificate or Junior Lien Coverage Certificate, Annual Debt Service shall be adjusted as set forth in subsection 20(d) of this ordinance.

(h) **Reimbursement Obligations.** If any payment under a Parity Reimbursement Obligation is then due and payable, or is then reasonably expected to become due and payable, the reasonably estimated amount and timing of such payment, calculated in accordance with applicable generally accepted accounting principles and as reflected in the annual financial statements of the Light System, shall be included in calculating Annual Debt Service for purposes of delivering a Parity Certificate. If any payment under a Parity Reimbursement Obligation, an Intermediate Lien Reimbursement Obligation, or a Junior Lien Reimbursement Obligation is then due and payable, or is then reasonably expected to become due and payable, the reasonably estimated amount and timing of such payment, calculated in accordance with applicable generally accepted accounting principles and as reflected in the annual financial statements of the Light System, shall be included in calculating Annual Junior Lien Debt Service for purposes of delivering a Junior Lien Coverage Certificate.

“Authorized Denomination” means \$5,000 or any integral multiple thereof within a maturity of a Series, or such other minimum authorized denominations as may be specified in the applicable Bond Documents.

“Average Annual Debt Service” means, for purposes of calculating the Reserve Fund Requirement with respect to all Parity Bonds outstanding at the time of calculation, the sum of the Annual Parity Bond Debt Service remaining to be paid to the last scheduled maturity of the applicable Parity Bonds, divided by the number of years such Parity Bonds are scheduled to remain outstanding.

“Balloon Bonds” means any series of either Parity Bonds or Junior Lien Bonds, as applicable, the aggregate principal amount (including Sinking Fund Requirements) of which becomes due and payable in any calendar year in an amount that constitutes 25 percent or more of the initial aggregate principal amount of such series.

“Beneficial Owner” means, with regard to a Bond, the owner of any beneficial interest in that Bond.

“Bond” means a municipal light and power revenue bond issued pursuant to this ordinance.

“Bond Counsel” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“Bond Documents” means (a)(i) with respect to any Series of the Bonds, this ordinance (including any amendatory or supplemental ordinances), (ii) with respect to a series of Parity Bonds other than a Series of the Bonds, the applicable Parity Bond Ordinance(s), and (iii) with respect to any Junior Lien Bonds other than a Series of the Bonds, the applicable Junior Lien Bond Ordinance(s); (b) the authenticated bond form; and (c) the written agreement(s) setting forth the Bond Sale Terms and additional terms, conditions, or covenants pursuant to which such bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance), (iii) a bond indenture or a fiscal agent or paying agent agreement (other than the State fiscal agency contract), and (iv) a direct purchase or continuing covenant agreement.

“Bond Owners’ Trustee” means a bank or trust company organized under the laws of the State, or a national banking association, appointed in accordance with subsection 24(e) of this ordinance to act as trustee on behalf of the owners, from time to time, of either the Outstanding Parity Bonds or the Outstanding Junior Lien Bonds, as the case may be.

“Bond Purchase Contract” means a written offer to purchase a Series of the Bonds pursuant to certain Bond Sale Terms, which offer has been accepted by the City in accordance with this ordinance. In the case of a competitive sale, the Purchaser’s bid for a Series, together with the official notice of sale and a Pricing Certificate confirming the Bond Sale Terms, shall comprise the Bond Purchase Contract.

“Bond Register” means the books or records maintained by the Bond Registrar for the purpose of registering ownership of each Bond.

“Bond Registrar” means the Fiscal Agent (unless the Director of Finance appoints a different person to

act as bond registrar with respect to a particular Series), or any successor bond registrar selected in accordance with the System of Registration.

“Bond Sale Terms” means the terms and conditions for the sale of a Series of the Bonds approved by the Director of Finance consistent with the parameters set forth in Section 5 of this ordinance, including the amount, date or dates, denominations, interest rate or rates (or mechanism for determining the interest rate or rates), payment dates, final maturity, redemption rights, price, and other terms, conditions or covenants. In connection with a negotiated sale or private placement, the Bond Sale Terms shall be set forth in a Bond Purchase Contract; in connection with a competitive sale, the Bond Sale Terms shall be set forth in a Pricing Certificate.

“Book-Entry Form” means a fully registered form in which physical bond certificates are registered only in the name of the Securities Depository (or its nominee), as Registered Owner, with the physical bond certificates held by and “immobilized” in the custody of the Securities Depository or its designee, where the system for recording and identifying the transfer of the ownership interests of the Beneficial Owners in those Bonds is neither maintained by nor the responsibility of the City or the Bond Registrar.

“Capital Appreciation Bond” means any Parity Bond or Junior Lien Bond, all or a portion of the interest on which is compounded and accumulated at the rates or in the manner, and on the dates, set forth in the applicable Bond Documents, and is payable only upon redemption or on the maturity date of such Capital Appreciation Bond. A Parity Bond or a Junior Lien Bond that is issued as a Capital Appreciation Bond, but which later converts to an obligation on which interest is paid periodically, shall be a Capital Appreciation Bond until the conversion date and thereafter shall no longer be a Capital Appreciation Bond, but shall be treated as having a principal amount equal to its Accreted Value on the conversion date. For purposes of (a) receiving payment of the redemption premium, if any, on a Capital Appreciation Bond that is redeemed prior to maturity, or (b) computing the principal amount of Parity Bonds (or Junior Lien Bonds, as applicable) held by the Owner of a Capital Appreciation Bond in connection with any notice, consent, request, or demand pursuant

to this ordinance or for any purpose whatsoever, the principal amount of a Capital Appreciation Bond shall be deemed to be its Accreted Value at the time that such notice, consent, request, or demand is given or made.

“City” means The City of Seattle, Washington.

“City Council” means the City Council of the City, as duly and regularly constituted from time to time.

“Code” means the Internal Revenue Code of 1986, or any successor thereto, as amended at any time, and regulations thereunder.

“Continuing Disclosure Agreement” means, for each Series that is sold in an offering subject to federal securities regulations requiring a written undertaking to provide continuing disclosure, a continuing disclosure agreement entered into pursuant to Section 22 of this ordinance in substantially the form attached to this ordinance as Exhibit B.

“DTC” means The Depository Trust Company, New York, New York.

“Defeasible Bonds” means the Defeasible Parity Bonds and the Defeasible Junior Lien Bonds.

“Defeasible Junior Lien Bonds” means any outstanding Junior Lien Bonds that are eligible to be defeased pursuant to the Omnibus Defeasance Ordinance.

“Defeasible Parity Bonds” means any outstanding Parity Bonds that are eligible to be defeased pursuant to the Omnibus Defeasance Ordinance.

“Director of Finance” or **“Director”** means the City’s Director of Finance, or such other official who succeeds to substantially all of the responsibilities of that office.

“Event of Default” has the meaning given in Section 24 of this ordinance. A “Parity Bond Event of Default” shall refer to those Events of Default relating to nonpayment of Parity Bonds, or defaults in respect of the Parity Bond covenants set forth in this ordinance and in the applicable Parity Bond Documents giving rise to remedies available to the owners of Parity Bonds. A “Junior Lien Bond Event of Default” shall refer to those Events of Default relating to nonpayment of Junior Lien Bonds, or in respect of the Junior Lien Bond covenants set forth herein and in the applicable Junior Lien Bond Documents giving rise to remedies available to the

owners of Junior Lien Bonds.

“Fiscal Agent” means the fiscal agent of the State, as the same may be designated by the State from time to time.

“Future Junior Lien Bonds” means, with reference to any Series designated as Junior Lien Bonds, any revenue obligations of the Light System issued or entered into after the Issue Date of such Series, the payment of which constitutes a charge and lien upon Net Revenue equal in priority with the charge and lien upon such Net Revenue for the payment of the amounts required to be paid into the Junior Lien Debt Service Fund to pay and secure payment of the Junior Lien Bonds (including Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations), in accordance with the priority of payment set forth in Section 14 of this ordinance. Future Junior Lien Bonds may include Junior Lien Payment Agreements issued in compliance with the Junior Lien Additional Bonds Test.

“Future Parity Bond Ordinance” means any ordinance passed by the City Council providing for the issuance and sale of a series of Future Parity Bonds, and any other ordinance amending or supplementing the provisions of any such ordinance.

“Future Parity Bonds” means, with reference to any Series designated as Parity Bonds, any revenue obligations of the Light System issued or entered into after the Issue Date of such Series, the payment of which constitutes a charge and lien upon Net Revenue equal in priority with the charge and lien upon such Net Revenue for the payment of the amounts required to be paid into the Parity Bond Fund and the Reserve Fund to pay and secure payment of the Parity Bonds in accordance with Section 14 of this ordinance. Future Parity Bonds include Parity Payment Agreements, Parity Reimbursement Obligations, and any other obligations issued in compliance with the Parity Conditions.

“Government Obligations” means, unless otherwise limited in the Bond Documents for a particular Series of the Bonds, any government obligation as that term is defined in RCW 39.53.010, as amended at any time.

“Gross Revenues” means (a) all income, revenues, receipts and profits derived by the City through the ownership and operation of the Light System; (b) the proceeds received by the City directly or indirectly from the sale, lease or other disposition of any of the properties, rights or facilities of the Light System; (c) Payment Agreement Receipts, to the extent that such receipts are not offset by Payment Agreement Payments; and (d) the investment income earned on money held in any fund or account of the City, including any bond redemption funds and the accounts therein, in connection with the ownership and operation of the Light System. Gross Revenues do not include: (i) insurance proceeds compensating the City for the loss of a capital asset; (ii) income derived from investments irrevocably pledged to the payment of any defeased bonds payable from Gross Revenues; (iii) investment income earned on money in any fund or account created or maintained solely for the purpose of complying with the arbitrage rebate provisions of the Code; (iv) any gifts, grants, donations, or other funds received by the City from any State or federal agency or other person if such gifts, grants, donations, or other funds are the subject of any limitation or reservation imposed by the donor or grantor or imposed by law or administrative regulation to which the donor or grantor is subject, limiting the application of such funds in a manner inconsistent with the application of Gross Revenues hereunder; (v) the proceeds of any borrowing for capital improvements (or the refinancing thereof); and (vi) the proceeds of any liability or other insurance (excluding business interruption insurance or other insurance of like nature insuring against the loss of revenues).

“Intermediate Lien Reimbursement Obligation” means any payment or reimbursement obligation incurred under a written agreement entered into in connection with a series of Parity Bonds or to obtain Qualified Insurance or a Qualified Letter of Credit, under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue junior in rank to the lien and charge upon such Net Revenue required to be paid into the Parity Bond Fund to pay and secure the payment of the Parity Bonds, but senior to the lien and charge upon such Net Revenue required to be paid into the Junior Lien Debt Service Fund to pay and secure the payment of the Junior Lien Bonds. For purposes of determining percentages of ownership

of Bonds under this ordinance or under any Bond Documents, Intermediate Lien Reimbursement Obligations shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Intermediate Lien Reimbursement Obligations.

“Issue Date” means, with respect to a Bond, the initial date on which that Bond is issued and delivered to the initial Purchaser in exchange for its purchase price.

“Junior Lien Additional Bonds Test” means the conditions set forth in subsection 18(b) of this ordinance for issuing additional Junior Lien Bonds (including Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations).

“Junior Lien Bond” means, generally, any bond or obligation secured by a lien and charge on Net Revenue that is junior and subordinate to the lien and charge of the Parity Bonds and Intermediate Lien Reimbursement Obligations, but prior and superior to other liens and charges, in accordance with the priority of payment set forth in Section 14 of this ordinance. The term Junior Lien Bond may refer to (a) any Bond of a Series issued pursuant to this ordinance that is so designated by the Director of Finance upon satisfaction of the Junior Lien Additional Bonds Test; (b) any Future Junior Lien Bond; (c) any Junior Lien Payment Agreement; and (d) any Junior Lien Reimbursement Obligation.

“Junior Lien Bond Documents” means those Bond Documents applicable to a series of Junior Lien Bonds.

“Junior Lien Bond Ordinance” means this ordinance (if used in connection with the issuance of a series of Junior Lien Bonds authorized hereby) and any future ordinance authorizing the issuance and sale of any Future Junior Lien Bonds, including any ordinance amending or supplementing the provisions of any Junior Lien Bond Ordinance.

“Junior Lien Coverage Certificate” means a certificate delivered pursuant to subsection 18(b)(ii) of this ordinance, for purposes of satisfying the Junior Lien Additional Bonds Test in connection with the issuance of Future Junior Lien Bonds.

“Junior Lien Debt Service Fund” means the special fund of the City known as the Seattle Municipal Light Revenue Junior Lien Debt Service Fund established within the Light Fund pursuant to Ordinance 125459 for the purpose of paying and securing the principal of and interest on Junior Lien Bonds and securing obligations under Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations.

“Junior Lien Payment Agreement” means any Payment Agreement that is entered into in compliance with the Junior Lien Additional Bonds Test, and under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required to be paid into the Junior Lien Debt Service Fund to pay and secure the payment of the Junior Lien Bonds in accordance with Section 14 of this ordinance. For purposes of determining percentages of ownership of Junior Lien Bonds under this ordinance or under any Bond Documents, Junior Lien Payment Agreements shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Junior Lien Payment Agreement.

“Junior Lien Reimbursement Obligation” means any reimbursement obligation incurred under a written reimbursement agreement (or similar agreement) entered into in connection with a series of Junior Lien Bonds to obtain Qualified Insurance or a Qualified Letter of Credit, under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required to be paid into the Junior Lien Debt Service Fund to pay and secure the payment of the Junior Lien Bonds. For purposes of determining percentages of ownership of Junior Lien Bonds under this ordinance or under any Bond Documents, Junior Lien Reimbursement Obligations shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Junior Lien Reimbursement Obligations.

“Letter of Representations” means the Blanket Issuer Letter of Representations between the City and DTC dated October 4, 2006, as amended at any time, or an agreement with a substitute or successor Securities Depository.

“Light Fund” means the special fund of that name previously created and established by the City.

“Light System” means the municipal light and power generation, transmission, and distribution system now belonging to or that may later belong to the City.

“Maximum Annual Debt Service” means, with respect to Parity Bonds (or Junior Lien Bonds, as applicable), the maximum amount of Annual Debt Service that shall become due in the current calendar year or in any future calendar year with respect to those Parity Bonds (or Junior Lien Bonds, as applicable) that are outstanding as of the calculation date.

“MSRB” means the Municipal Securities Rulemaking Board.

“Net Revenue” for any period means Gross Revenues less Operating and Maintenance Expense.

“Omnibus Defeasance Ordinance” means Ordinance 126220, as amended at any time, authorizing the defeasance of Defeasible Bonds, or any future ordinance of the City pursuant to which the Bonds (or any Series of the Bonds) are designated as Defeasible Bonds.

“Omnibus Refunding Ordinance” means this ordinance, which amends and restates Ordinance 125460, as amended by Ordinance 125987, and any other future ordinance of the City pursuant to which the Bonds (or any Series of the Bonds) are designated as Refundable Bonds.

“Operating and Maintenance Expense” means all reasonable charges incurred by the City in causing the Light System to be operated and maintained in good repair, working order and condition, including but not limited to all operating expenses under applicable generally accepted accounting principles included in the annual audited financial statements of the Light System, except those excluded in this definition. Operating and Maintenance Expense does not include: (a) extraordinary, nonrecurring expenses of the Light System or any judgments or amounts to be paid in settlement of claims against the Light System; (b) non-cash expenses relating to a mark-to-market treatment of energy-related contracts; (c) any costs or expenses (including interest expense) for new construction, replacements, or renewals of Light System property; (d) Deferred Hydroelectric Project Relicensing Costs, the High Ross Capital Payments (as defined in the Outstanding Parity Bond

Ordinances), or other similar payments under any agreement for the development or licensing of a capital improvement or asset, under which agreement the City agrees to make periodic payments in respect of its share of the capital expense; (e) any allowance for depreciation, amortization, or similar recognitions of non-cash expense items made for accounting purposes only (including non-cash pension expense); (f) any taxes levied by or paid to the City (or payments in lieu of taxes) upon the properties or earnings of the Light System; or (g) any obligation authorized pursuant to ordinance or resolution specifically excluding the payment of such obligation from Operating and Maintenance Expense.

“Outstanding Junior Lien Bonds” means, with reference to a particular Series of Junior Lien Bonds issued pursuant to this ordinance, those Junior Lien Bonds that are outstanding as of the Issue Date of such Series.

“Outstanding Parity Bond Ordinances” means the ordinances authorizing the various series of Outstanding Parity Bonds.

“Outstanding Parity Bonds” means, when referencing Parity Bonds outstanding as of the date of this ordinance, those outstanding Parity Bonds identified in Exhibit A to this ordinance. When used in reference to a particular date in the future or in reference to a particular series of Parity Bonds, Outstanding Parity Bonds shall mean those Parity Bonds that are outstanding as of that future date or as of the issue date of such series.

“Owner” means, without distinction, the Registered Owner and the Beneficial Owner of a Bond.

“Parity Bond” means, generally, any bond or obligation secured by a lien and charge on Net Revenue that is prior and superior to any other liens or charges whatsoever, in accordance with the priority of payment set forth in Section 14 of this ordinance. The term Parity Bond may refer to: (a) the Outstanding Parity Bonds identified in Exhibit A to this ordinance; (b) each Series of the Bonds designated by the Director of Finance as a Series of Parity Bonds upon satisfaction of the Parity Conditions; (c) any Future Parity Bonds; and (d) any Parity Payment Agreement entered into upon satisfaction of the Parity Conditions.

“Parity Bond Documents” means those Bond Documents applicable to a series of Parity Bonds.

“Parity Bond Fund” means the special fund of the City known as the Seattle Municipal Light Revenue Parity Bond Fund established within the Light Fund pursuant to Ordinance 92938 for the purpose of paying and securing the payment of principal of and interest on Parity Bonds (including Parity Payment Agreement Payments) and payments under Parity Reimbursement Obligations.

“Parity Bond Ordinance” means any ordinance passed by the City Council providing for the issuance and sale of any Series of Parity Bonds, and any other ordinance amending or supplementing the provisions of any Parity Bond Ordinance.

“Parity Certificate” means a certificate delivered pursuant to subsection 18(a)(ii) of this ordinance, and the corresponding provisions of the Outstanding Parity Bond Ordinances, for purposes of satisfying the Parity Conditions in connection with the issuance of the Bonds and any Future Parity Bonds.

“Parity Conditions” means (a) for purposes of establishing that a Series of the Bonds may be issued on parity with the Parity Bonds outstanding as of the Issue Date of such Series, the conditions for issuing Future Parity Bonds set forth in the Parity Bond Ordinances relating to those Parity Bonds that are then outstanding; and (b) for purposes of issuing Future Parity Bonds on parity with a Series of the Bonds, the conditions described in the preceding clause (a) together with the conditions set forth in subsection 18(a) of this ordinance.

“Parity Payment Agreement” means a Payment Agreement that is entered into in compliance with the Parity Conditions and under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required to be paid into the Parity Bond Fund and the Reserve Fund to pay and secure the payment of principal of and interest on Parity Bonds in accordance with Section 14 of this ordinance. For purposes of determining percentages of ownership of Parity Bonds under this ordinance or under any Bond Documents, Parity Payment Agreements shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Parity Payment Agreement.

“Parity Reimbursement Obligation” means any payment or reimbursement obligation incurred under

a written agreement entered into in connection with a series of Parity Bonds or to obtain Qualified Insurance or a Qualified Letter of Credit (other than Qualified Insurance or a Qualified Letter of Credit obtained to satisfy all or part of the Reserve Fund Requirement), under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank to the lien and charge upon such Net Revenue required to be paid into the Parity Bond Fund to pay and secure the payment of the principal of and interest on the Parity Bonds. Parity Reimbursement Obligations accruing as a result of a mandatory tender for purchase of Parity Bonds shall be excluded from the calculation of Annual Debt Service for all purposes. For purposes of determining percentages of ownership of Parity Bonds, Parity Reimbursement Obligations shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Parity Reimbursement Obligation.

“Payment Agreement” means a written agreement entered into by the City and a Qualified Counterparty, as authorized by any applicable laws of the State, for the purpose of managing or reducing the City’s exposure to fluctuations or levels of interest rates, or for other interest rate, investment, or asset or liability management purposes, and which provides for (i) an exchange of payments based on interest rates, ceilings, or floors on such payments, (ii) options on such payments; (iii) any combination of the foregoing, or (iv) any similar device. A Payment Agreement may be entered into on either a current or forward basis. A Payment Agreement must be entered into in connection with (or incidental to) the issuance, incurrence, or carrying of particular bonds, notes, bond anticipation notes, commercial paper, or other obligations for borrowed money (which may include leases, installment purchase contracts, or other similar financing agreements or certificates of participation in any of the foregoing).

“Payment Agreement Payments” means the amounts periodically required to be paid by the City to a Qualified Counterparty pursuant to a Payment Agreement.

“Payment Agreement Receipts” means the amounts periodically required to be paid by a Qualified Counterparty to the City pursuant to a Payment Agreement.

“Permitted Investments” means any investments or investment agreements permitted for the investment of City funds under the laws of the State, as amended at any time.

“Pricing Certificate” means a certificate executed by the Director of Finance as of the pricing date confirming the Bond Sale Terms for the sale of a Series of the Bonds to the Purchaser in a competitive sale, in accordance with the parameters set forth in Section 5 of this ordinance.

“Professional Utility Consultant” means the independent person(s) or firm(s) selected by the City having a favorable reputation for skill and experience with electric systems of comparable size and character to the Light System in such areas as are relevant to the purposes for which they were retained.

“Purchaser” means the entity or entities who have been selected by the Director of Finance in accordance with this ordinance as underwriter, purchaser or successful bidder in a sale of any Series of the Bonds.

“Qualified Counterparty” means a party (other than the City or a person related to the City) who is the other party to a Payment Agreement and who is qualified to act as the other party to a Payment Agreement under any applicable laws of the State.

“Qualified Insurance” means any municipal bond insurance policy, surety bond, or similar credit enhancement device, issued by any insurance company licensed to conduct an insurance business in any state of the United States, by a service corporation acting on behalf of one or more such insurance companies, or by any other financial institution, the provider of which, as of the time of issuance of such credit enhancement device, is rated in one of the two highest rating categories (without regard to gradations within such categories) by at least two nationally recognized rating agencies.

“Qualified Letter of Credit” means any letter of credit, standby bond purchase agreement, or other liquidity facility issued by a financial institution for the account of the City in connection with the issuance of any Parity Bond or Junior Lien Bond, which institution maintains an office, agency or branch in the United States and, as of the time of issuance of such instrument, is rated in one of the two highest rating categories

(without regard to gradations within such categories) by at least two nationally recognized rating agencies.

“Rate Stabilization Account” means the account of that name previously established in the Light Fund pursuant to Ordinance 121637.

“Rating Agency” means any nationally recognized rating agency then maintaining a rating on a Series of the Bonds at the request of the City.

“Record Date” means, unless otherwise defined in the Bond Documents, in the case of each interest or principal payment date, the Bond Registrar’s close of business on the 15th day of the month preceding such interest or principal payment date. With regard to redemption of a Bond prior to its maturity, the Record Date shall mean the Bond Registrar’s close of business on the day prior to the date on which the Bond Registrar sends the notice of redemption to the Registered Owner(s) of the affected Bonds.

“Refundable Bonds” means the Refundable Parity Bonds and the Refundable Junior Lien Bonds.

“Refundable Junior Lien Bonds” means any then outstanding Junior Lien Bonds that are eligible to be refunded pursuant to the Omnibus Refunding Ordinance.

“Refundable Parity Bonds” means any then outstanding Parity Bonds that eligible to be refunded pursuant to the Omnibus Refunding Ordinance.

“Refunded Bond Documents” means those Bond Documents applicable to the original issuance of a series of Refunded Bonds.

“Refunded Bonds” means those Refundable Bonds identified in a Refunding Plan in accordance with this ordinance.

“Refunding Junior Lien Bonds” means Future Junior Lien Bonds that satisfy the applicable Junior Lien Additional Bonds Test and are issued pursuant to this ordinance (or another Future Junior Lien Bond Ordinance) for the purpose of refunding any Refundable Junior Lien Bonds.

“Refunding Parity Bonds” means Future Parity Bonds that satisfy the applicable Parity Conditions and are issued pursuant to this ordinance (or another Future Parity Bond Ordinance) for the purpose of

refunding any Refundable Parity Bonds.

“**Refunding Plan**” means the plan approved by the Director of Finance pursuant to the delegation set forth herein to accomplish the refunding of Refundable Bonds. Each Refunding Plan must identify the maturities and series of Refundable Bonds to be refunded thereby, and must provide for their defeasance and/or refunding, substantially as follows, with such additional detail and adjustments to be set forth in the Refunding Trust Agreement (including, without limitation, adjustments to permit a crossover refunding or the refunding of variable rate bonds) as the Director of Finance may deem necessary or desirable:

(a) The City shall issue a Series of the Bonds (which may be combined within the Series with Bonds of the same seniority, authorized hereunder or separately) and, upon receipt, shall deposit the proceeds of the sale of such Series, together with such other money as may be included in the plan by the Director of Finance, into a refunding escrow or trust account held by the Refunding Trustee;

(b) Upon receipt of a certification or verification by a certified public accounting firm or other financial advisor that the amounts deposited with it will be sufficient to accomplish the refunding as described in such Refunding Trust Agreement, the Refunding Trustee shall invest such escrow deposits in the Acquired Obligations specified therein (unless directed in the Refunding Trust Agreement to hold such deposits uninvested) and shall establish a beginning cash balance; and

(c) As further directed in the Refunding Trust Agreement, the Refunding Trustee shall apply the amounts received as interest on and maturing principal of such Acquired Obligations (together with any cash balance in the refunding trust account) to call, pay, and redeem those Refundable Bonds on the dates and times identified in the plan, and (if so directed) to pay the administrative costs of carrying out the foregoing.

If the Director of Finance serves as the Refunding Trustee, the Director of Finance shall approve a written Refunding Plan (which need not be set forth in a Refunding Trust Agreement) providing that the escrow funds are to be held separate and apart from all other funds of the City and are to be applied substantially as set forth above. A Refunding Plan may provide for the issuance of Refunding Parity Bonds or Refunding Junior

Lien Bonds to refund any Refundable Bonds, regardless of whether such Refundable Bonds are Parity Bonds or Junior Lien Bonds, provided that the conditions of Section 18 of this ordinance are met as of the Issue Date of such Refunding Bonds.

“Refunding Trust Agreement” means an escrow or trust agreement between the City and a Refunding Trustee, as described in Section 25(d) of this ordinance.

“Refunding Trustee” means the Director of Finance, or a financial institution selected by the Director of Finance, serving in the capacity of refunding trustee or escrow agent under a Refunding Trust Agreement.

“Registered Owner” means, with respect to a Bond, the person in whose name that Bond is registered on the Bond Register. For so long as a Series of the Bonds is in Book-Entry Form under a Letter of Representations, the Registered Owner of such Series shall mean the Securities Depository.

“Reserve Fund” means that special fund of the City known as the Municipal Light and Power Bond Reserve Fund, established pursuant to Ordinance 71917 and maintained pursuant to the Outstanding Parity Bond Ordinances and this Ordinance as a separate account within the Light Fund to secure the payment of the Parity Bonds.

“Reserve Fund Requirement” means, for any Series of Bonds designated as Parity Bonds, the Reserve Fund Requirement established in the Bond Sale Terms for that Series and any other Series issued as part of a single “issue” of Parity Bonds, consistent with Section 15 of this ordinance. For any series of Future Parity Bonds, the Reserve Fund Requirement means the requirement specified for that series in the bond sale terms associated with that issue. The aggregate Reserve Fund Requirement for all Parity Bonds shall be the sum of the Reserve Fund Requirements for each series of Parity Bonds. For purposes of this definition, “issue” means all Series of Parity Bonds issued and sold pursuant to a common set of bond sale terms. For the purposes of calculating the Reserve Fund Requirement only, the City shall deduct from Annual Debt Service the Tax Credit Subsidy Payments the City is scheduled to claim from the federal government in respect of the interest on a series of Parity Bonds that are Tax Credit Subsidy Bonds (or with respect to which the federal government is

otherwise scheduled to provide direct payments).

“**Rule 15c2-12**” means Rule 15c2-12 promulgated by the SEC under the Securities Exchange Act of 1934, as amended at any time.

“**SEC**” means the United States Securities and Exchange Commission.

“**SIFMA Municipal Swap Index**” means the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index, calculated and published by Bloomberg and overseen by SIFMA’s Municipal Swap Index Committee, or a substantially similar recognized market successor index representing a seven-day market index comprised of certain high-grade tax-exempt variable rate demand obligations.

“**Securities Depository**” means DTC, any successor thereto, any substitute securities depository selected by the City, or the nominee of any of the foregoing. Any successor or substitute Securities Depository must be qualified under applicable laws and regulations to provide the services proposed to be provided by it.

“**Serial Bond**” means any Parity Bond or Junior Lien Bond maturing in a specified year, for which no Sinking Fund Requirements are mandated.

“**Series**” means, when capitalized in this ordinance, a series of the Bonds issued pursuant to this ordinance.

“**Sinking Fund Account**” means (a) with respect to Parity Bonds, any account created in the Parity Bond Fund to amortize the principal or make mandatory redemptions of Parity Bonds that are Term Bonds; and (b) with respect to Junior Lien Bonds, any account created in the Junior Lien Debt Service Fund to amortize the principal or make mandatory redemptions of Junior Lien Bonds that are Term Bonds.

“**Sinking Fund Requirement**” means, for any calendar year, the principal portion (and required redemption premium, if any) of any Term Bond that is required to be purchased, redeemed, paid at maturity, or paid into any Sinking Fund Account for such calendar year, as established in the applicable Bond Documents.

“**State**” means the State of Washington.

“**State Auditor**” means the office of the Auditor of the State or such other department or office of the

State authorized and directed by State law to make audits.

“System of Registration” means the system of registration for the City’s bonds and other obligations, established pursuant to Seattle Municipal Code Chapter 5.10, as amended at any time.

“Tax Credit Subsidy Bond” means any Taxable Bond that is designated by the City as a tax credit bond pursuant to the Code and as a “qualified bond” under Section 6431 or similar provision of the Code, and with respect to which the City is eligible to claim a Tax Credit Subsidy Payment.

“Tax Credit Subsidy Payment” means a payment by the federal government with respect to a Tax Credit Subsidy Bond.

“Tax-Exempt Bond” means any Parity Bond or Junior Lien Bond, the interest on which is intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“Taxable Bond” means any Parity Bond or Junior Lien Bond, the interest on which is not intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“Term Bond” means any Parity Bond or Junior Lien Bond that is issued subject to mandatory redemption in periodic Sinking Fund Requirements prior to its maturity date.

“Valuation Date” means, with respect to any Capital Appreciation Bond, the date or dates, determined as set forth in the applicable Bond Documents, on which specific Accreted Values are assigned to that Capital Appreciation Bond.

“Variable Interest Rate” means any interest rate that fluctuates during the stated term of a bond (or during a stated period during which the bond is designated as a Variable Interest Rate Bond), whether due to a remarketing, a market index reset, or other mechanism set forth in the applicable Bond Documents. The Bond Documents for any Series of the Bonds bearing interest at a Variable Interest Rate shall set forth: (a) the available method(s) of computing interest (the “interest rate modes”); (b) the particular period or periods of time (or manner of determining such period or periods of time) for which each value of such Variable Interest Rate (or each interest rate mode) shall remain in effect; (c) provisions for conversion from one interest rate

mode to another and for setting or resetting the interest rates; and (d) the time or times upon which any change in such Variable Interest Rate (or any conversion of interest rate modes) shall become effective.

“**Variable Interest Rate Bond**” means, for any period of time, any Parity Bond or Junior Lien Bond that bears interest at a Variable Interest Rate during that period. A bond shall not be treated as a Variable Interest Rate Bond if the net economic effect of (a) interest rates on a particular series of Parity Bonds (or Junior Lien Bonds, as applicable), as set forth in the applicable Bond Documents, and (b) either (i) interest rates on another series of Parity Bonds (or Junior Lien Bonds, as applicable) issued at substantially the same time, or (ii) a Payment Agreement related to that particular series, in either case, is to produce obligations that bear interest at a fixed interest rate. Any Parity Bond or Junior Lien Bond with respect to which a Payment Agreement is in force shall be treated as a Variable Interest Rate Bond if the net economic effect of the Payment Agreement is to produce an obligation that bears interest at a Variable Interest Rate.

Section 2. **Finding With Respect to Refunding**. Section 2 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

The City Council finds that the irrevocable deposit of money and securities with a Refunding Trustee, verified or certified as to sufficiency in accordance with a Refunding Plan approved pursuant to this ordinance, will discharge and satisfy the obligations of the City as to the Refunded Bonds identified therein, including all pledges, charges, trusts, covenants and agreements under the applicable Refunded Bond Documents.

Immediately upon such deposit, the Refunded Bonds identified in such Refunding Plan shall be defeased and shall no longer be deemed to be outstanding under the applicable Refunded Bond Documents.

Section 3. **Authorization of Bonds; Due Regard Finding**. Section 3 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

(a) **The Bonds**. To refund outstanding Refundable Bonds, the City is authorized to issue municipal light and power revenue refunding bonds payable from the sources described in Section 13 of this ordinance and secured as either Parity Bonds or Junior Lien Bonds, as determined by the Director of Finance in accordance

with Section 5 of this ordinance. All municipal light and power revenue bonds and other obligations designated at any time as Refundable Bonds are eligible to be refunded under this ordinance. The Bonds authorized by this ordinance may be issued in multiple Series in a maximum aggregate principal amount not to exceed the amount stated in Section 5 of this ordinance for the purposes of: (a) providing funds, from time to time, to carry out the current or advance refunding of all or a portion of the outstanding Refundable Bonds pursuant to an approved Refunding Plan; (b) providing for the Reserve Fund Requirement (if any); (c) capitalizing interest on the Bonds (if necessary) and paying costs of issuance; and (d) for other Light System purposes approved by ordinance. The Bonds may be issued in multiple Series and may be combined with other municipal light and power revenue bonds authorized separately. The Bonds shall be designated municipal light and power revenue bonds, shall be numbered separately and shall have any name, year, series, or other labels as deemed necessary or appropriate by the Director of Finance. Any Series of the Bonds designated as Junior Lien Bonds shall bear a designation clearly indicating that such Bonds are Junior Lien Bonds.

(b) **City Council Finding.** The City Council finds that, in creating the Parity Bond Fund, the Reserve Fund, and the Junior Lien Debt Service Fund (collectively, the “Bond Funds”), and in fixing the amounts to be paid into those funds in accordance with this ordinance and the parameters for the Bond Sale Terms set forth in Section 5 of this ordinance, the City Council has exercised due regard for the cost of operation and maintenance of the Light System, and is not setting aside into such Bond Funds a greater amount than in the judgment of the City Council, based on the rates established from time to time consistent with subsection 17(a)(ii) of this ordinance, will be sufficient, in the judgment of the City Council, to meet all expenses of operation and maintenance of the Light System and to provide the amounts previously pledged for the payment of all outstanding obligations payable out of Gross Revenues and pledged for the payment of the Bonds. Therefore, the City Council finds that the issuance and sale of the Bonds is in the best interest of the City and is in the public interest.

Section 4. **Manner of Sale of the Bonds.** Section 4 of Ordinance 125460, last amended by Ordinance

125987, is amended to read as follows:

The Director of Finance may provide for the sale of each Series by competitive sale, negotiated sale, limited offering, or private placement, and may select and enter into agreements with remarketing agents or providers of liquidity with respect to Variable Interest Rate Bonds. The Purchaser of each Series shall be chosen through a selection process acceptable to the Director of Finance. The Director of Finance is authorized to specify a date and time of sale and a date and time for the delivery of each Series; in the case of a competitive sale, to provide an official notice of sale including bid parameters and other bid requirements, and to provide for the use of an electronic bidding mechanism; to provide for and determine matters relating to the forward or delayed delivery of a Series of the Bonds, if deemed desirable; and to specify such other matters and take such other action as in the Director's determination may be necessary, appropriate, or desirable in order to carry out the sale of each Series. Each Series must be sold on Bond Sale Terms consistent with the parameters set forth in Section 5 of this ordinance.

Section 5. **Appointment of Designated Representative; Bond Sale Terms**. Section 5 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

(a) **Designated Representative.** The Director of Finance is appointed to serve as the City's designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and this ordinance.

(b) **Parameters for Bond Sale Terms.** The Director of Finance is authorized to approve, on behalf of the City, Bond Sale Terms for the sale of the Bonds in one or more Series, and in connection with each such sale, to execute a Bond Purchase Contract (or, in the case of a competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with the following parameters:

(i) **Maximum Principal Amount.** The maximum aggregate principal amount of Bonds issued to carry out each Refunding Plan may not exceed 125 percent of the stated principal amount of those Refundable

Bonds selected for refunding in that Refunding Plan.

(ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance.

(iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

(iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, whichever is later, unless otherwise provided in the applicable Bond Documents. Each Series of the Bonds shall bear interest at one or more fixed interest rates or Variable Interest Rates. The true interest cost for any fixed rate Series may not exceed a rate of 10 percent per annum. The Bond Documents for any Series may provide for multiple interest rates and interest rate modes, and may provide conditions and mechanisms for the Director of Finance to effect a conversion from one mode to another. Nothing in this ordinance shall be interpreted to prevent the Bond Documents for any Series from including a provision for adjustments to interest rates during the term of the Series upon the occurrence of certain events specified in the applicable Bond Documents.

(v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director of Finance, which shall include payment at the maturity of each Bond; in accordance with any Sinking Fund Requirements applicable to Term Bonds; and otherwise in accordance with any redemption or tender provisions.

(vi) **Final Maturity.** The final maturity of any Series of the Bonds shall be determined by the Director of Finance, consistent with chapter 39.53 RCW and other applicable State law, as amended at any time.

(vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption and tender provisions, as determined by the Director of Finance in the Director's discretion, consistent with Section 8 of this ordinance and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as subject

to optional redemption prior to its maturity, consistent with subsection 8(a) of this ordinance. Any Bond that is subject to optional redemption prior to maturity must be callable on at least one or more date(s) occurring not more than 10-1/2 years after the Issue Date.

(B) **Mandatory Redemption.** The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity on the dates and in principal payment amounts set forth as Sinking Fund Requirements, consistent with subsection 8(b) of this ordinance.

(C) **Extraordinary Redemption.** The Director of Finance may designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent with subsection 8(c) of this ordinance.

(D) **Tender Options.** The Director of Finance may designate any Variable Interest Rate Bond as subject to tender options, as set forth in the applicable Bond Documents.

(viii) **Price.** The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in the Director's judgment, the price that produces the most advantageous borrowing cost for the City for that Series, consistent with the parameters set forth in this ordinance and in any applicable bid documents.

(ix) **Other Terms and Conditions.**

(A) **Refunding Findings; Approval of Refunding Plan.** As of the Issue Date of each Series, the Director of Finance must approve a Refunding Plan (which may be set forth in a Refunding Trust Agreement) and find that such Refunding Plan is necessary to accomplish one or more of the purposes set forth in RCW 39.53.020, as amended at any time, and is consistent with the City's debt policies then in effect, including, if applicable, a finding that the Refunding Plan will achieve an acceptable level of debt service savings.

(B) **Satisfaction of Parity Conditions or Junior Lien Additional Bonds Test.** For each

Series of the Bonds, the Director of Finance must designate such Series of the Bonds as a series of either Parity Bonds or Junior Lien Bonds. For a Series to be designated as Parity Bonds, the Director of Finance must find to the Director's satisfaction that, as of the Issue Date, the Parity Conditions have been met or satisfied so that such Series is permitted to be issued as Parity Bonds. For a Series to be designated as Junior Lien Bonds, the Director of Finance must find to the Director's satisfaction that, as of the Issue Date, the Junior Lien Additional Bonds Test has been met or satisfied so that such Series is permitted to be issued as Junior Lien Bonds.

(C) Additional Terms, Conditions, and Agreements. The Bond Sale Terms for any Series may provide for Qualified Insurance, a Qualified Letter of Credit or other liquidity facility, Parity Reimbursement Obligation, Intermediate Lien Reimbursement Obligation, Junior Lien Reimbursement Obligation, or any other Payment Agreement as the Director of Finance may find necessary or desirable, and may include such additional terms, conditions, and covenants, as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of any of the Bonds), provisions for the conversion of interest rate modes, provisions for the reimbursement of a credit enhancement provider or Qualified Counterparty, and requirements to give notice to or obtain the consent of a credit enhancement provider or a Qualified Counterparty. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants.

(D) Parity Bond Reserve Fund Requirement. The Bond Sale Terms for any Series of Parity Bonds must establish the Reserve Fund Requirement for such Series and must set forth the method for satisfying any such requirement, consistent with Section 15 of this ordinance and the Parity Conditions. The Reserve Fund Requirement for any such Series may not be set at a level that would cause the aggregate Reserve Fund Requirement to exceed the least of (1) 125 percent of Average Annual Debt Service on all Parity Bonds outstanding, (2) Maximum Annual Debt Service on all Parity Bonds outstanding, or (3) 10 percent of the proceeds of the outstanding Parity Bonds.

(E) **Tax Status of the Bonds.** The Director of Finance may designate any Series of the Bonds as Tax-Exempt Bonds, Taxable Bonds, or Tax Credit Subsidy Bonds, consistent with Section 21 of this ordinance.

Section 6. **Bond Registrar; Registration and Transfer of Bonds.** Section 6 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

(a) **Registration and Bond Registrar.** The Bonds shall be issued only in registered form as to both principal and interest and shall be recorded on the Bond Register. The Fiscal Agent is appointed to act as Bond Registrar for each Series of the Bonds, unless otherwise determined by the Director of Finance.

(b) **Transfer and Exchange of Bonds.** The Bond Registrar shall keep, or cause to be kept, sufficient books for the registration and transfer of the Bonds, which shall be open to inspection by the City at all times. The Bond Register shall contain the name and mailing address of the Registered Owner of each Bond and the principal amount and number of each of the Bonds held by each Registered Owner.

The Bond Registrar is authorized, on behalf of the City, to authenticate and deliver Bonds transferred or exchanged in accordance with the provisions of the Bonds and this ordinance, to serve as the City's paying agent for the Bonds, and to carry out all of the Bond Registrar's powers and duties under this ordinance and the System of Registration.

The Bond Registrar shall be responsible for its representations contained in the Bond Registrar's certificate of authentication on the Bonds. The Bond Registrar may become an Owner of Bonds with the same rights it would have if it were not the Bond Registrar and, to the extent permitted by law, may act as depository for and permit any of its officers or directors to act as members of, or in any other capacity with respect to, any committee formed to protect the rights of Owners.

Bonds surrendered to the Bond Registrar may be exchanged for Bonds in any Authorized Denomination of an equal aggregate principal amount and of the same Series, seniority, interest rate, and maturity. Bonds may be transferred only if endorsed in the manner provided thereon and surrendered to the Bond Registrar. Any

exchange or transfer shall be without cost to an Owner or transferee. The Bond Registrar shall not be obligated to exchange or transfer any Bond during the period between the Record Date and the corresponding interest payment or principal redemption date.

(c) Securities Depository; Book-Entry Form. Unless otherwise determined by the Director of Finance, the Bonds initially shall be issued in Book-Entry Form and registered in the name of the Securities Depository. The Bonds so registered shall be held fully immobilized in Book-Entry Form by the Securities Depository in accordance with the provisions of the Letter of Representations. Neither the City nor the Bond Registrar shall have any responsibility or obligation to participants of the Securities Depository or the persons for whom they act as nominees with respect to the Bonds regarding the accuracy of any records maintained by the Securities Depository or its participants of any amount in respect of principal of or interest on the Bonds, or any notice that is permitted or required to be given to Registered Owners hereunder (except such notice as is required to be given by the Bond Registrar to the Securities Depository). Registered ownership of a Bond initially held in Book-Entry Form, or any portion thereof, may not be transferred except: (i) to any successor Securities Depository; (ii) to any substitute Securities Depository appointed by the City or such substitute Securities Depository's successor; or (iii) to any person if the Bond is no longer held in Book-Entry Form.

Upon the resignation of the Securities Depository from its functions as depository, or upon a determination by the Director of Finance to discontinue utilizing the then-current Securities Depository, the Director of Finance may appoint a substitute Securities Depository. If the Securities Depository resigns from its functions as depository and no substitute Securities Depository can be obtained, or if the Director of Finance determines not to utilize a Securities Depository, then the Bonds shall no longer be held in Book-Entry Form and ownership may be transferred only as provided in this ordinance.

Nothing in this ordinance shall prevent the Bond Sale Terms from providing that a Series of the Bonds shall be issued in certificated form without utilizing a Securities Depository, and that the Bonds of such Series shall be registered as of their Issue Date in the names of the Owners thereof, in which case ownership may be

transferred only as provided in this ordinance.

(d) **Lost or Stolen Bonds.** In case any Bond or Bonds shall be lost, stolen or destroyed, the Bond Registrar may authenticate and deliver a replacement Bond or Bonds of like amount, date, tenor, and effect to the Registered Owner(s) thereof upon the Registered Owner(s)' paying the expenses and charges of the City in connection therewith and upon filing with the Bond Registrar evidence satisfactory to the Bond Registrar that such Bond or Bonds were actually lost, stolen or destroyed and of Registered Ownership thereof, and upon furnishing the City with indemnity satisfactory to both.

Section 7. **Payment of Bonds.** Section 7 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

(a) **Payment.** Each Bond shall be payable in lawful money of the United States of America on the dates and in the amounts as provided in the Bond Documents for that Series. Principal of and interest on each Bond designated as a Parity Bond shall be payable solely out of the Parity Bond Fund. Principal of and interest on each Bond designated as a Junior Lien Bond shall be payable solely out of the Junior Lien Debt Service Fund. The Bonds shall not be general obligations of the City. No Bonds of any Series shall be subject to acceleration under any circumstances.

(b) **Bonds Held in Book-Entry Form.** Principal of and interest on each Bond held in Book-Entry Form shall be payable in the manner set forth in the Letter of Representations.

(c) **Bonds Not Held in Book-Entry Form.** Interest on each Bond not held in Book-Entry Form shall be payable by electronic transfer on the interest payment date, or by check or draft of the Bond Registrar mailed on the interest payment date to the Registered Owner at the address appearing on the Bond Register on the Record Date. The City, however, shall not be required to make electronic transfers except pursuant to a request by a Registered Owner in writing received at least ten days prior to the Record Date and at the sole expense of the Registered Owner. Principal of each Bond not held in Book-Entry Form shall be payable upon presentation and surrender of the Bond by the Registered Owner to the Bond Registrar.

Section 8. **Redemption and Purchase of Bonds.** Section 8 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

(a) **Optional Redemption.** All or some of the Bonds of any Series may be subject to redemption prior to their stated maturity dates at the option of the City on the dates and terms set forth in the applicable Bond Documents.

(b) **Mandatory Redemption.** All or some of the Bonds of any Series may be designated as Term Bonds, subject to mandatory redemption in Sinking Fund Requirements, as set forth in the applicable Bond Documents. If not redeemed or purchased at the City's option prior to maturity, Term Bonds (if any) must be redeemed, at a price equal to 100 percent of the principal amount to be redeemed, plus accrued interest, on the dates and in the years and Sinking Fund Requirements as set forth in the applicable Bond Documents.

If the City optionally redeems or purchases a principal portion of a Term Bond prior to its maturity, the principal amount that is so redeemed or purchased (irrespective of its redemption or purchase price) shall be credited against the remaining Sinking Fund Requirements for that Term Bond in the manner directed by the Director of Finance. In the absence of direction by the Director of Finance, credit shall be allocated among the remaining Sinking Fund Requirements for that Term Bond on a *pro rata* basis.

(c) **Extraordinary Redemption.** All or some of the Bonds of any Series may be subject to extraordinary optional redemption or extraordinary mandatory redemption prior to maturity upon the occurrence of an extraordinary event at the prices, in the principal amounts, and on the dates, all as set forth in the applicable Bond Documents.

(d) **Selection of Bonds for Redemption; Partial Redemption.** If fewer than all of the outstanding Bonds of a Series are to be redeemed at the option of the City, the Director of Finance shall select the maturity or maturities to be redeemed. If less than all of the principal amount of a maturity of the selected Series is to be redeemed and such Series is held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected for redemption by the Securities Depository in accordance with the Letter of Representations. If the

Series selected for redemption is not then held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected by the Bond Registrar using such method of random selection as the Bond Registrar shall determine. All or a portion of the principal amount of any Bond that is to be redeemed may be redeemed in any applicable Authorized Denomination. If less than all of the outstanding principal amount of any Bond is redeemed, upon surrender of that Bond to the Bond Registrar there shall be issued to the Registered Owner, without charge, a new Bond (or Bonds, at the option of the Registered Owner) of the same Series, seniority, maturity, and interest rate in any Authorized Denomination in the aggregate principal amount to remain outstanding.

(e) **Purchase.** The City reserves the right and option to purchase any or all of the Bonds at any time at any price acceptable to the City plus accrued interest to the date of purchase.

Section 9. **Notice of Redemption; Rescission of Notice.** Section 9 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

Unless otherwise set forth in the applicable Bond Documents, the City must cause notice of any intended redemption of Bonds to be given not fewer than 20 nor more than 60 days prior to the date fixed for redemption by first-class mail, postage prepaid, to the Registered Owner of any Bond to be redeemed at the address appearing on the Bond Register on the Record Date, and the requirements of this sentence shall be deemed to have been fulfilled when notice has been mailed as so provided, whether or not it is actually received by the Owner of any Bond. Interest on Bonds called for redemption shall cease to accrue on the date fixed for redemption unless the Bond or Bonds called are not redeemed when presented pursuant to the call.

In the case of an optional or extraordinary optional redemption, the notice may state that the City retains the right to rescind the redemption notice and the related redemption of Bonds by giving a notice of rescission to the affected Registered Owners at any time on or prior to the scheduled redemption date. Any notice of optional redemption that is rescinded by the Director of Finance shall be of no effect, and the Bonds for which the notice of redemption has been rescinded shall remain outstanding.

Section 10. **Failure to Pay Bonds.** Section 10 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

If any Bond is not paid when properly presented at its maturity or redemption date, the City shall be obligated to pay, solely from the sources pledged to that Bond in this ordinance, interest on that Bond at the same rate provided on that Bond from and after its maturity or redemption date until that Bond, principal (including redemption premium, if any), and interest, is paid in full or until sufficient money for its payment in full is on deposit in the Parity Bond Fund (if such Bond is a Parity Bond) or the Junior Lien Debt Service Fund (if such Bond is a Junior Lien Bond) and that Bond has been called for payment by giving notice of that call to the Registered Owner of that Bond. The exercise of remedies of Owners of the Bonds are limited as set forth in Section 24 of this ordinance.

Section 11. **Form and Execution of Bonds.** Section 11 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

The Bonds shall be typed, printed or reproduced in a form consistent with the provisions of this ordinance and State law; shall be signed by the Mayor and Director of Finance, either or both of whose signatures may be manual or in facsimile; and the seal of the City or a facsimile reproduction thereof shall be impressed or printed thereon.

Only Bonds bearing a certificate of authentication in substantially the following form (with the designation, year, and Series adjusted consistent with this ordinance), manually signed by the Bond Registrar, shall be valid or obligatory for any purpose or entitled to the benefits of this ordinance: “This Bond is one of the fully registered The City of Seattle, Washington, Municipal Light and Power [Refunding] Revenue Bonds, [Year], [Series] [and/or Seniority, if applicable], described in [this ordinance].” Junior Lien Bonds shall bear the words “Junior Lien” in their name in the foregoing certificate of authentication. The authorized signing of a certificate of authentication shall be conclusive evidence that the Bond so authenticated has been duly executed, authenticated, and delivered and is entitled to the benefits of this ordinance.

If any official whose manual or facsimile signature appears on a Bond ceases to be an official of the City authorized to sign bonds before the Bond bearing that official's manual or facsimile signature is authenticated or delivered by the Bond Registrar or issued by the City, that Bond nevertheless may be authenticated, issued, and delivered and, when authenticated, issued and delivered, shall be as binding on the City as though that person had continued to be an official of the City authorized to sign bonds. Any Bond also may be signed on behalf of the City by any person who, on the actual date of signing of the Bond, is an official of the City authorized to sign bonds, although that person did not hold the required office on the Issue Date of that Series of the Bonds.

Section 12. **Deposit and Use of Proceeds**. Section 12 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

Unless otherwise provided in the applicable Bond Documents, the principal proceeds and net premium, if any, received from the sale and delivery of each Series of the Bonds, in the amount necessary to carry out the applicable Refunding Plan, shall be deposited with the Refunding Trustee and used in accordance with the provisions of this section to discharge the obligations of the City relating to the Refunded Bonds identified therein.

The Director of Finance may use the principal proceeds and any net premium to pay for costs of issuance of the Bonds, and the Director of Finance also may incur and account for costs of issuance that are not included as part of the bond proceeds and net premium, including but not limited to any underwriter's discount. Net premium and accrued interest received from the sale and delivery of a Series of the Bonds, if any, that is not necessary to carry out the Refunding Plan, shall be paid or allocated into the Parity Bond Fund (or Junior Lien Bond Fund, as applicable) and used to pay interest on that Series.

Until needed to carry out the applicable Refunding Plan and to pay the costs described herein, the principal proceeds of each Series of the Bonds shall be held or invested (and the investment earnings shall be applied) in accordance with the Refunding Trust Agreement, and the money deposited with the Refunding

Trustee, including the Acquired Obligations and any investment earnings, shall be held irrevocably, invested and applied in accordance with the provisions of the respective Refunded Bond Documents, this ordinance, the Refunding Trust Agreement, chapter 39.53 RCW, and other applicable State law. Earnings subject to a federal tax or rebate requirement may be withdrawn from any such fund or account and used for those tax or rebate purposes.

The Director of Finance may pay principal of and interest on a Series of the Bonds with any proceeds of that Series (including interest earnings thereon) remaining after applying such proceeds to carry out the Refunding Plan, or after the City Council has determined that the expenditure of such Bond proceeds for those purposes is no longer necessary or appropriate.

Section 13. **Security for the Bonds; Designation as Parity Bonds or Junior Lien Bonds**. Section 13 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

The Bonds shall not constitute general obligations of the City, the State or any political subdivision of the State or a charge upon any general fund or upon any money or other property of the City, the State or any political subdivision of the State not specifically pledged by this ordinance.

(a) **Parity Bonds**. Each Series of the Bonds that is designated as Parity Bonds shall be a special limited obligation of the City payable from and secured solely by Gross Revenues available after payment of Operating and Maintenance Expense (“Net Revenue”) and by money in the Parity Bond Fund and the Reserve Fund. Net Revenue is pledged to make the payments into the Parity Bond Fund and the Reserve Fund required by Sections 14 and 15 of this ordinance, which pledge shall constitute a lien and charge upon such Net Revenue prior and superior to all other charges whatsoever. Each Series of the Bonds designated as Parity Bonds shall be issued on parity with the Outstanding Parity Bonds and all Future Parity Bonds, without regard to date of issuance or authorization and without preference or priority of right or lien.

(b) **Junior Lien Bonds**. Each Series of the Bonds that is designated as Junior Lien Bonds shall be a special limited obligation of the City payable from and secured solely by Net Revenue and by money in the

Junior Lien Debt Service Fund. The Net Revenue is pledged to make the payments into the Junior Lien Debt Service Fund required by Sections 14 and 16 of this ordinance, which pledge shall constitute a lien and charge upon such Net Revenue (i.e., Gross Revenues available after payment of Operating and Maintenance Expense of the Light System pursuant to subsection 14(a) of this ordinance) that is (i) subordinate only to the payments to be made into the Parity Bond Fund required by subsections 14(b) through (d) of this ordinance, and (ii) prior and superior to all other charges whatsoever. Each Series of the Bonds designated as Junior Lien Bonds shall be issued on parity with the lien and charge of any then outstanding Junior Lien Bonds and all Future Junior Lien Bonds, without regard to date of issuance or authorization and without preference or priority of right or lien. Nothing in this ordinance prevents the City from issuing revenue bonds or other obligations that are a charge or lien upon Net Revenues subordinate to the payments required to be made into the Junior Lien Debt Service Fund and the Reserve Fund, and any subfund, account, or subaccount within the foregoing funds.

Section 14. **Priority Expenditure of Gross Revenues; Flow of Funds**. Section 14 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

Gross Revenues shall be deposited as received in the Light Fund and used for the following purposes only, in the following order of priority:

(a) To pay the Operating and Maintenance Expense of the Light System;

(b) To make, when due, all payments into the Parity Bond Fund required to be made in order to pay the interest on and principal of all Parity Bonds, including all Parity Bond Sinking Fund Requirements, and all net payments under Parity Payment Agreements, and to make all payments required to be made (if any) in respect of Parity Reimbursement Obligations;

(c) To make all payments required to be made (if any) into the Reserve Fund necessary to satisfy the Reserve Fund Requirement, to make all payments (if any) required to be made under subsection 15(c)(i)(B) of this ordinance into a special account within the Light Fund for the replacement of an Alternate Reserve Security as to which the City has received a notice of cancellation, and to pay any reimbursement obligations under any

Alternate Reserve Security;

(d) To make all payments required to be made (if any) in respect of Intermediate Lien Reimbursement Obligations;

(e) To make all payments into the Junior Lien Debt Service Fund required to be made in order to pay the interest on and principal of all Junior Lien Bonds, including all net payments under Junior Lien Payment Agreements and all Junior Lien Reimbursement Obligations, when due;

(f) To make all required payments into any revenue bond redemption fund created to pay and secure the payment of the principal of and interest on any revenue bonds or short-term obligations of the City having a charge and lien upon Net Revenue subordinate to the lien thereon for the payment of the principal of and interest on the Parity Bonds and the Junior Lien Bonds; and

(g) Without priority, for any of the following purposes: to retire by redemption or purchase any outstanding revenue bonds or revenue obligations of the Light System; to make necessary additions, betterments, repairs, extensions, and replacements of the Light System; to pay City taxes or other payments in lieu of taxes payable from Gross Revenues; to make deposits to the Rate Stabilization Account; or for any other lawful Light System purpose.

Section 15. **Parity Bond Fund; Reserve Fund**. Section 15 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

The special funds of the City known as the Parity Bond Fund and the Reserve Fund have been previously created and shall be maintained as special funds for the sole purpose of paying the principal of (including redemption premium, if any) and interest on the Parity Bonds as the same shall become due. The Director of Finance may create subfunds, accounts, or subaccounts in the Parity Bond Fund and the Reserve Fund to pay or secure the payment of Parity Bonds as long as the maintenance of such subfunds, accounts, or subaccounts does not conflict with the rights of the owners of the Parity Bonds. Principal of (including redemption premium, if any) and interest on the Parity Bonds shall be payable solely out of the Parity Bond

Fund.

(a) **Required Payments into the Parity Bond Fund and Reserve Fund.** So long as any Parity Bonds (including any Parity Payment Agreements or Parity Reimbursement Obligations) are outstanding, the City shall set aside and pay out of Net Revenue certain fixed amounts, without regard to any fixed proportion, namely:

(i) Into the Parity Bond Fund, on or prior to the respective dates on which such payments shall become due and payable, an amount sufficient, together with other money on deposit therein, to pay without priority or preference among the following items: (A) the interest (including net payments due under Parity Payment Agreements) then due on the Outstanding Parity Bonds, (B) the maturing principal of the Outstanding Parity Bonds (including any Sinking Fund Requirements then due), and (C) any payments then due in respect of Parity Reimbursement Obligations; and

(ii) Into the Reserve Fund, an amount necessary to provide for the Reserve Fund Requirement within the time and manner required by this ordinance and the Bond Sale Terms, including all payments required to be made under subsection 14(c) of this ordinance.

To meet the required payments to be made into the Parity Bond Fund and the Reserve Fund, the Director of Finance may transfer any money from any funds or accounts of the City legally available therefor, except bond redemption funds, refunding escrow funds, or defeasance funds. The Director of Finance may provide for the purchase, redemption or defeasance of any Parity Bonds by the use of money on deposit in any subfund, account, or subaccount in the Parity Bond Fund or Reserve Fund, so long as the money remaining in those subfunds, accounts, or subaccounts is sufficient to satisfy the required deposits with respect to the remaining Parity Bonds.

(b) **Parity Bond Fund.** The Parity Bond Fund has been previously created for the sole purpose of paying the principal of and interest on the Parity Bonds as the same shall become due. Each Series of the Bonds designated as Parity Bonds shall be payable (including principal, Sinking Fund Requirements, redemption

premium (if any), and interest) out of the Parity Bond Fund. Money in the Parity Bond Fund shall, to the fullest extent practicable and reasonable, be invested and reinvested at the direction of the Director of Finance solely in, and obligations deposited in such accounts shall consist of, Permitted Investments. Earnings on money and investments in the Parity Bond Fund shall be deposited in and used for the purposes of that fund.

(c) **Reserve Fund.** The Reserve Fund has been previously created for the purpose of securing the payment of the principal of and interest on all Parity Bonds (including all net payments due under any Parity Payment Agreements, if any). Money held in the Reserve Fund shall, to the fullest extent practicable and reasonable, be invested and reinvested at the direction of the Director of Finance solely in, and obligations deposited in such accounts shall consist of, Permitted Investments. Earnings on money and investments in the Reserve Fund shall be deposited in that fund and credited against amounts required to be deposited therein until the Reserve Fund is fully funded, and thereafter such earnings shall be deposited in the Parity Bond Fund.

(i) **Reserve Fund Requirement.** The Bond Sale Terms for each Series of the Bonds shall establish the amount (if any) to be added to the aggregate Reserve Fund Requirement (if any) for such Series, and the method for providing for such incremental addition to the Reserve Fund deposit, subject to the following:

(A) In connection with the issuance of Future Parity Bonds, the City shall provide the amounts required for deposit into the Reserve Fund (1) at one time on the Issue Date, or (2) in periodic deposits of Net Revenue (or any other legally available source of funds), so that by five years from the date of such Future Parity Bonds there will have been paid into the Reserve Fund an amount that, together with the money already on deposit therein, will be at least equal to the Reserve Fund Requirement for the Parity Bonds scheduled to be outstanding at the end of that five-year period.

(B) The City may obtain one or more Alternate Reserve Securities for specific amounts required to be paid into the Reserve Fund. The amount available to be drawn upon under each such Alternate Reserve Security shall be credited against the amounts needed to satisfy the Reserve Fund Requirement. In the

event of receipt of any notice of cancellation of an Alternate Reserve Security, the City shall (and, in preparation for the expiration of any such Alternate Reserve Security in accordance with its terms, the City may) either: (1) obtain a substitute Alternate Reserve Security in the amount necessary to satisfy the Reserve Fund Requirement on the date any such cancellation (or expiration) becomes effective, or (2) create a special account in the Light Fund and deposit therein amounts necessary to replace the Alternate Reserve Security upon its expiration or cancellation. In the case of receipt of a notice of cancellation, such periodic deposits are to be made on or before the 25th day of each of the 60 calendar months succeeding receipt of such notice, in an amount equal to 1/60 of the amount necessary (together with other money and investments then on deposit in the Reserve Fund) to satisfy the expected Reserve Fund Requirement on the date such cancellation shall become effective, taking into account scheduled redemptions of Parity Bonds and disregarding any incremental additional amounts that may become necessary due to the issuance of Future Parity Bonds subsequent to the date of such notice of cancellation. Such amounts shall be transferred from Net Revenue available in the Light Fund after making provision for the required payments into the Parity Bond Fund, in accordance with Section 14 of this ordinance. Amounts on deposit in such special account are preliminarily earmarked for the replacement of such Alternate Reserve Security and shall not be available to pay debt service on Parity Bonds or for any other purpose of the City, and shall be transferred to the Reserve Fund on the effective date of any cancellation or expiration of the Alternate Reserve Security to make up the deficiency caused thereby. In the event that the Reserve Fund is completely depleted and all Alternate Reserve Securities have been fully drawn, the amounts in that special account may be withdrawn and treated as Gross Revenues available to be used in accordance with the flow of funds set forth in Section 14 of this ordinance. If and when a substitute Alternate Reserve Security having a sufficient value or policy limit is obtained, amounts held in that special account may be transferred back to the Light Fund and treated as Gross Revenues available to be used in accordance with the flow of funds set forth in Section 14 of this ordinance.

(C) If the amount on deposit in the Reserve Fund is less than the Reserve Fund

Requirement (taking into account the five-year period referred to in paragraph (A) of this subsection), the City shall transfer to the Reserve Fund money in an amount sufficient to restore the Reserve Fund to the Reserve Fund Requirement within 12 months after the date of such deficiency. The City shall transfer such amount first from Net Revenue available in accordance with the priority of payment in Section 14 of this ordinance, and only thereafter from money in any construction fund or account established with respect to any issue of Parity Bonds, first taking money from the unrestricted portion thereof, then taking money from the restricted portion thereof. If the amount in the Reserve Fund is greater than the Reserve Fund Requirement, the City may then withdraw such excess from the Reserve Fund and deposit such excess in the Light Fund.

(ii) **Use of Reserve Fund to Refund Parity Bonds.** If any Parity Bonds are to be refunded, the money set aside in the Reserve Fund to secure the payment of such Parity Bonds may be used to retire such Parity Bonds, or may be transferred to any reserve fund or account which may be created to secure the payment of any bonds issued to refund such Parity Bonds, as long as the money left remaining in the Reserve Fund is at least equal, together with all Alternate Reserve Securities, to the Reserve Fund Requirement.

(iii) **Use of Reserve Fund to Pay Debt Service.** If the money in the Parity Bond Fund is insufficient to meet maturing installments of either interest on or principal of and interest on the Parity Bonds (including net amounts payable under any Parity Payment Agreements), such deficiency shall be made up from the Reserve Fund by the withdrawal of money or proceeds of Alternate Reserve Securities, as the case may be. Any deficiency created in the Reserve Fund by reason of any such withdrawal or claim against an Alternate Reserve Security shall then be made up out of Net Revenue or out of any other legally available funds of the City.

(iv) **Withdrawals From Reserve Fund.** Money in the Reserve Fund may be withdrawn by the City for any lawful purpose as long as the aggregate of any money and Alternate Reserve Securities remaining on deposit in the Reserve Fund is at least equal to the Reserve Fund Requirement for the Parity Bonds then outstanding. The City reserves the right to substitute one or more Alternate Reserve Securities for money

previously deposited in the Reserve Fund and to withdraw such excess to the extent described in the preceding sentence. Any withdrawals from subaccounts within the Reserve Fund shall be made on a *pro rata* basis, except when the terms of an Alternate Reserve Security require all cash and investments in the Reserve Fund to be withdrawn before any draw or claim is made on the Alternate Reserve Security, or unless the City receives an opinion of Bond Counsel to the effect that such *pro rata* withdrawal is not required to maintain the federal tax benefits (if any) of any then outstanding Parity Bonds issued as Tax-Exempt Bonds or Tax Credit Subsidy Bonds. If multiple Alternate Reserve Securities are on deposit in the Reserve Fund, draws on such Alternate Reserve Securities shall be made on a *pro rata* basis.

Section 16. **Junior Lien Debt Service Fund**. Section 16 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

(a) **Use of Junior Lien Debt Service Fund**. The Director of Finance is authorized (and, in conjunction with the issuance of Junior Lien Bonds, is directed) to create and maintain a special fund of the City known as the Junior Lien Debt Service Fund for the sole purpose of paying the principal of (including redemption premium, if any) and interest on the Junior Lien Bonds as the same shall become due. The Junior Lien Debt Service Fund shall consist of a Principal and Interest Account and such additional subfunds, accounts, or subaccounts as the Director of Finance may find it necessary or convenient to create in order to pay or secure the payment of Junior Lien Bonds, as long as the maintenance of such subfunds, accounts, or subaccounts does not conflict with the rights of the owners of the Junior Lien Bonds or the Parity Bonds.

Each Series of the Bonds designated as Junior Lien Bonds shall be payable (including principal, Sinking Fund Requirements, redemption premium (if any), and interest) out of the Junior Lien Debt Service Fund. Money in the Junior Lien Debt Service Fund shall, to the fullest extent practicable and reasonable, be invested and reinvested at the direction of the Director of Finance solely in, and obligations deposited in such accounts shall consist of, Permitted Investments. Earnings on money and investments in the Junior Lien Debt Service Fund shall be deposited in and used for the purposes of that fund.

(b) **Required Payments Into the Junior Lien Debt Service Fund.** So long as any Junior Lien Bonds (including any Junior Lien Payment Agreements) are outstanding, the City shall set aside and pay out of Net Revenue certain fixed amounts, without regard to any fixed proportion, namely, into the Principal and Interest Account of the Junior Lien Debt Service Fund, on or prior to the respective dates on which such payments shall become due and payable, an amount sufficient, together with other money on deposit therein, to pay the interest on and the principal of the Junior Lien Bonds, including net payments due on Junior Lien Payment Agreements and all payments under Junior Lien Reimbursement Obligations, as the same shall become due. To meet the required payments to be made into the Junior Lien Debt Service Fund, the Director of Finance may transfer any money from any funds or accounts of the City legally available therefor, except the Parity Bond Fund, the Reserve Fund, other bond redemption funds, refunding escrow funds, or defeasance funds. The Director of Finance may provide for the purchase, redemption or defeasance of any Junior Lien Bonds by the use of money on deposit in any subfund, account, or subaccount in the Junior Lien Debt Service Fund, so long as the money remaining in those subfunds, accounts, or subaccounts is sufficient to satisfy the required deposits with respect to the remaining Junior Lien Bonds.

Section 17. **Bond Covenants.** Section 17 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

(a) **Parity Bond Covenants.** The City covenants with the Owner of each Bond that is designated as a Parity Bond, for so long as such Bond remains outstanding, as follows:

(i) **Sale or Disposition of the Light System.**

(A) The City may dispose of all or substantially all of the Light System only if the City simultaneously causes all of the Parity Bonds to be, or be deemed to be, no longer outstanding.

(B) Except as provided below, the City will not dispose of any part of the Light System in excess of 5 percent of the value of the net utility plant of the Light System in service unless prior to such disposition: (1) there has been filed with the Director of Finance a certificate of a Professional Utility

Consultant stating that such disposition will not impair the ability of the City to comply with the rate covenant set forth in subsection 17(a)(ii) of this ordinance, in which the Professional Utility Consultant may make those assumptions permitted in delivering a Parity Certificate under subsection 18(a) of this ordinance; or (2) provision is made for the payment, redemption or other retirement of a principal amount of Parity Bonds equal to the greater of the following amounts: (I) an amount which will be in the same proportion to the net principal amount of Parity Bonds then outstanding (defined as the total principal amount of Parity Bonds then outstanding less the amount of cash and investments in the Parity Bond Fund) that Gross Revenues for the twelve preceding months attributable to the part of the Light System being sold or disposed of bears to the total Gross Revenues for such period; or (II) an amount which will be in the same proportion to the net principal amount of Parity Bonds then outstanding that the book value of the part of the Light System being sold or disposed of bears to the book value of the entire Light System immediately prior to such sale or disposition.

(C) Notwithstanding the foregoing, the City may dispose of any portion of the Light System that has become unserviceable, inadequate, obsolete, worn out or unfit to be used, or no longer necessary for, material to, or useful in the operation of the Light System.

(D) If the ownership of all or part of the Light System is transferred from the City through the operation of law, the City shall reconstruct or replace the transferred portion using any proceeds of the transfer unless the City Council determines that such reconstruction or replacement is not in the best interests of the City and the Owners of the Parity Bonds, in which case any proceeds shall be used to purchase, defease, or redeem Parity Bonds prior to maturity.

(ii) **Rates and Charges.** The City will establish from time to time and maintain such rates for electric energy as will maintain the Light System in sound financial condition and provide sufficient revenues to pay all Operating and Maintenance Expense, to pay into the Parity Bond Fund the amounts that are required by this ordinance to be applied to the payment of the principal of and interest on the Parity Bonds until the Parity Bonds shall have been paid in full, and to pay all bonds, warrants, and indebtedness for which any

revenues of the Light System shall have been pledged.

(iii) **Operation and Maintenance of the Light System.** The City will operate the properties of the Light System in an efficient manner and at a reasonable cost; will maintain, preserve and keep, or cause to be maintained, preserved and kept, the properties of the Light System and every part and parcel thereof in good repair, working order, and condition; and from time to time will make or cause to be made all necessary and proper repairs, renewals and replacements thereto so that at all times the business carried on in connection therewith will be properly and advantageously conducted.

(iv) **Books and Financial Statements.** The City will keep and maintain proper books of account for the Light System in accordance with generally accepted accounting principles applicable to governmental utilities; will generally adhere to the uniform system of accounts prescribed by the State Auditor's Office and the Federal Energy Regulatory Commission (if any); and will prepare, on or before 180 days after the end of each calendar year, annual financial statements showing reasonable detail, including a balance sheet, an income statement, and a statement of cash flows or other such statement. Copies of such financial statements shall be placed on file in the office of the Director of Finance and shall be open to inspection at any reasonable time by any owner of any Parity Bonds. A copy of such financial statements shall be sent to any owner of Parity Bonds upon request in writing setting forth the name and address to which such financial statements may be sent.

(b) **Junior Lien Bond Covenants.** The City covenants with the Owner of each Bond that is designated as a Junior Lien Bond, for so long as such Junior Lien Bond remains outstanding, as follows:

(i) **Sale or Disposition of the Light System.** The City may dispose of all or substantially all of the Light System only if the City simultaneously causes all of the Junior Lien Bonds to be, or be deemed to be, no longer outstanding. The City will not dispose of any part of the Light System in excess of 5 percent of the value of the net utility plant of the Light System in service except upon compliance with the covenant set forth in subsection 17(a)(i)(B) of this ordinance. Notwithstanding the foregoing, the City may dispose of any portion of the Light System that has become unserviceable, inadequate, obsolete, worn out or unfit to be used, or no

longer necessary, material to, or useful in the operation of the Light System.

(ii) **Rates and Charges.** The City will establish from time to time and maintain such rates for electric energy as will maintain the Light System in sound financial condition and provide sufficient revenues to pay all Operating and Maintenance Expense; to pay into the Parity Bond Fund the amounts that are required by this ordinance to be applied to the payment of the principal of and interest on the Parity Bonds until the Parity Bonds shall have been paid in full; to pay into the Junior Lien Debt Service Fund the amounts that are required by this ordinance to be paid into such fund, in accordance with the priority of payment set forth in Section 14 of this ordinance, until the Junior Lien Bonds (including Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations) shall have been paid in full; and to pay all other bonds, warrants, and indebtedness for which any revenues of the Light System shall have been pledged.

(iii) **Operation and Maintenance of the Light System.** The City will operate the properties of the Light System in an efficient manner and at a reasonable cost; will maintain, preserve, and keep, or cause to be maintained, preserved, and kept, the properties of the Light System and every part and parcel thereof in good repair, working order and condition; and from time to time will make or cause to be made all necessary and proper repairs, renewals, and replacements thereto so that at all times the business carried on in connection therewith will be properly and advantageously conducted.

(iv) **Books and Financial Statements.** The City will keep and maintain proper books of account for the Light System in accordance with generally accepted accounting principles applicable to governmental utilities; will generally adhere to the uniform system of accounts prescribed by the State Auditor's Office and the Federal Energy Regulatory Commission (if any); and will prepare, on or before 180 days after the end of each calendar year, annual financial statements showing reasonable detail, including a balance sheet, an income statement, and a statement of cash flows or other such statement. Copies of such financial statements shall be placed on file in the office of the Director of Finance and shall be open to inspection at any reasonable time by any owner of any Junior Lien Bonds. A copy of such financial statements shall be sent to any owner of Junior

Lien Bonds upon request in writing setting forth the name and address to which such financial statements may be sent.

Section 18. **Additional Bonds**. Section 18 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

(a) **Future Parity Bonds**. The City reserves the right to issue Future Parity Bonds (which includes entering into Future Parity Payment Agreements or Future Parity Reimbursement Obligations) for any lawful purpose of the City's Light System if the Parity Conditions are met and complied with as of the date of issuance of such Future Parity Bonds, or as of the effective date of the Parity Payment Agreement or Parity Reimbursement Obligation, as appropriate.

If the Parity Conditions are met and complied with, then payments into the Parity Bond Fund with respect to such Future Parity Bonds shall rank equally with the payments out of the Net Revenue required to be made into the Parity Bond Fund by this ordinance. Nothing in this subsection 18(a) shall prevent the City from (i) issuing revenue bonds or other obligations that are a charge upon Net Revenue junior and inferior to the payments required to be made therefrom into the Parity Bond Fund for the payment of the Parity Bonds, provided that such subordinate obligations may not be subject to acceleration under any circumstances; or (ii) issuing Refunding Parity Bonds to refund maturing Parity Bonds of the City for the payment of which money is not otherwise available.

(i) **Parity Conditions**. The Parity Conditions are as follows:

(A) No deficiency may then exist in the Parity Bond Fund or in any of the accounts therein; and

(B) Provision must be made to satisfy the Reserve Fund Requirement for the Parity Bonds then outstanding plus any additional amount required (if any) in connection with the issuance and sale of the proposed Future Parity Bonds in accordance with subsection 15(c) of this ordinance; and

(C) There must be on file with the City a Parity Certificate as described in subsection 18

(a)(ii) of this ordinance. If the proposed Future Parity Bonds (or any portion thereof) are to be issued for the purpose of refunding outstanding Parity Bonds and the Annual Debt Service on the refunding portion of the proposed Future Parity Bonds is not more than \$5,000 greater than the Annual Debt Service on the Parity Bonds to be refunded thereby, then no Parity Certificate shall be required as to that portion issued for refunding purposes. If the requirements of the preceding sentence are not satisfied, Refunding Parity Bonds may alternatively be issued upon delivery of a Parity Certificate.

(ii) **Parity Certificate.** A Parity Certificate required by subsection 18(a)(i) of this ordinance may be provided by either the Director of Finance or by a Professional Utility Consultant, as follows:

(A) A Parity Certificate may be prepared by the Director of Finance, demonstrating that the amount of Adjusted Net Revenue in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed series of Future Parity Bonds (the “Base Period”) was not less than 125 percent of Maximum Annual Debt Service in any future calendar year on all Parity Bonds then outstanding and the proposed series of Future Parity Bonds. For the purposes of a Parity Certificate delivered under this subsection (A), the Director of Finance shall reflect in that certificate any adjustment in the rates, fees, and charges for the services of the Light System that will become effective at any time prior to or within six months after the delivery of the proposed Future Parity Bonds, by including in the amount of Adjusted Net Revenue the amount that the Director estimates would have been collected in the Base Period if such new rates, fees, and charges had been in effect for the entire Base Period.

(B) A Parity Certificate may be prepared by a Professional Utility Consultant, demonstrating that the amount of Adjusted Net Revenue (which may be further adjusted as provided in paragraphs (a)(ii)(B)(1) through (5) of this section) in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed Series of Future Parity Bonds (the “Base Period”) is not less than 125 percent of the amount of Maximum Annual Debt Service in any future calendar year on all Parity Bonds then outstanding and the proposed Future Parity Bonds. For the purposes of a certificate delivered under

this subsection (a)(ii), Adjusted Net Revenue may be further adjusted by the Professional Utility Consultant using any or all of the following methods reflecting the conditions and requirements as may be appropriate to the circumstances:

(1) If the purpose for which the proposed Future Parity Bonds are being issued is to acquire operating electric utility properties having an earnings record, the Professional Utility Consultant shall estimate the effect on Adjusted Net Revenue for the Base Period of the acquisition of such electric utility properties and the integration thereof into the Light System, and shall further adjust Adjusted Net Revenue for the Base Period to give effect to such estimate. Any such estimate shall be based upon the operating experience and records of the City and upon any available financial statements and records relating to the earnings of such electric utility properties to be acquired.

(2) If any changes to rates, fees, or charges imposed by the City on sales of power, energy, or other services furnished by the Light System that were not in effect during the entire Base Period have been adopted by the City Council and are in effect on the date of sale of the proposed Future Parity Bonds (or effective date of the proposed Parity Payment Agreement) or are to go into effect not later than 12 months after such date, the Professional Utility Consultant may, if such changes resulted in increases in such rates, fees, or charges, and shall, if such changes resulted in reductions in such rates, fees, or charges, further adjust Adjusted Net Revenue for the Base Period to reflect any change in such Adjusted Net Revenue that would have occurred if the changed rates, fees, or charges had been in effect during the entire Base Period.

(3) If the purpose for which the proposed Future Parity Bonds are being issued is to acquire or construct generation or transmission facilities required to furnish or make available to the Light System additional power and energy, or transmission facilities required to enable the City to sell additional power and energy, the Professional Utility Consultant may further adjust Adjusted Net Revenue for the Base Period by (I) deducting the amount of the estimated increase in Operating and Maintenance Expense resulting from the acquisition or construction of such facilities in their first year of full operation, (II) adding any

additional revenues to be derived from the sale or transmission of such additional power and energy pursuant to executed power sales contracts, and (III) adding an amount equal to the estimated cost of the power and energy that would have been replaced or displaced by such facilities had such additional power and energy in excess of the power and energy to be sold pursuant to paragraph (a)(ii)(B)(2) of this section been used in the Light System during the Base Period.

(4) If any customers were added to the Light System during the Base Period or thereafter (and prior to the date of the Professional Utility Consultant's certificate), Adjusted Net Revenue may be further adjusted as if such added customers were customers of the Light System during the entire Base Period.

(5) If extensions of or additions to the Light System (not described in paragraph (a)(ii)(B)(3) of this section) are in the process of construction on the date of the Professional Utility Consultant's certificate, or if the proceeds of the proposed Future Parity Bonds are to be used to acquire or construct extensions of or additions to the Light System (not described in paragraph (a)(ii)(B)(3) of this section), Adjusted Net Revenue for the Base Period may be further adjusted by adding any additional revenues not included in the preceding paragraphs that will be derived from such additions and extensions, and deducting the estimated increase in Operating and Maintenance Expense resulting from such additions and extensions.

In rendering any Parity Certificate under this subsection (a)(ii)(B), the Professional Utility Consultant may rely upon the following documents, which shall be attached to the Parity Certificate: financial statements of the Light System, certified by the Director of Finance, showing income and expenses for the period upon which the same are based and a balance sheet as of the end of such period; financial statements of the Light System certified by the Office of the State Auditor of the State (or any successor thereto); or financial statements of the Light System certified by a certified public accountant for as much of such period as any examination by such accountant has been made and completed. If two or more of such statements are inconsistent with each other, the Professional Utility Consultant shall rely on the statements certified by the

Director of Finance.

(b) **Future Junior Lien Bonds.** The City reserves the right to issue Future Junior Lien Bonds (which term includes Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations) for any lawful purpose of the City's Light System if the Junior Lien Additional Bonds Test is met and complied with as of the date of issuance of such Future Junior Lien Bonds, or as of the effective date of the Junior Lien Payment Agreement or Junior Lien Reimbursement Obligation, as appropriate.

If the Junior Lien Additional Bonds Test is met and complied with, then payments into the Junior Lien Debt Service Fund with respect to such Future Junior Lien Bonds shall rank equally with the payments out of Net Revenue required to be made into the Junior Lien Debt Service Fund by this ordinance. Nothing in this subsection (b) shall prevent the City from (i) issuing revenue bonds or other obligations that are a charge upon Net Revenue junior and inferior to the payments required to be made therefrom into the Junior Lien Debt Service Fund for the payment of the Junior Lien Bonds, provided that such subordinate obligations may not be subject to acceleration under any circumstances; or (ii) issuing Refunding Junior Lien Bonds for the purpose of refunding Outstanding Junior Lien Bonds to fund or refund maturing Junior Lien Bonds of the City for the payment of which money is not otherwise available.

(i) **Junior Lien Additional Bonds Test.** The Junior Lien Additional Bonds Test is as follows:

(A) No deficiency may then exist in the Junior Lien Debt Service Fund or in any of the accounts therein; and

(B) No default may have occurred that is then continuing with respect to any then outstanding Parity Bonds or Junior Lien Bonds; and

(C) There must be on file with the City a Junior Lien Coverage Certificate as described in subsection 18(b)(ii) of this ordinance. If the proposed Future Junior Lien Bonds (or any portion thereof) are to be issued for the purpose of refunding outstanding Junior Lien Bonds and the Annual Debt Service on the refunding portion of the proposed Future Junior Lien Bonds is not more than \$5,000 greater than the Annual

Debt Service on the Junior Lien Bonds to be refunded thereby, then no Junior Lien Coverage Certificate shall be required as to that portion issued for refunding purposes. If the requirements of the preceding sentence are not satisfied, Refunding Junior Lien Bonds may alternatively be issued upon delivery of a Junior Lien Coverage Certificate.

(ii) **Junior Lien Coverage Certificate.** A Junior Lien Coverage Certificate required by subsection 18(b)(i) may be provided by either the Director of Finance or by a Professional Utility Consultant, as follows:

(A) A Junior Lien Coverage Certificate may be prepared by the Director of Finance, demonstrating that the amount of Adjusted Net Revenue in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed Series of Future Junior Lien Bonds (the “Base Period”) was not less than 115 percent of Maximum Annual Debt Service in any future calendar year on all Parity Bonds, Intermediate Lien Reimbursement Obligations (if any), and Junior Lien Bonds then outstanding plus the proposed Series of Future Junior Lien Bonds. For the purposes of a Junior Lien Coverage Certificate delivered under this subsection (A), the Director of Finance shall reflect in that certificate any adjustment in the rates, fees, and charges for the services of the Light System that will become effective at any time prior to or within six months after the delivery of the proposed Future Junior Lien Bonds, by including in the amount of Adjusted Net Revenue the amount that the Director estimates would have been collected in the Base Period if such new rates, fees, and charges had been in effect for the entire Base Period.

(B) A Junior Lien Coverage Certificate may be prepared by a Professional Utility Consultant, demonstrating that the amount of Adjusted Net Revenue (which may be further adjusted as provided in subsection 18(a)(ii)(B)(1) through (B)(5) of this ordinance) in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed Future Junior Lien Bonds (the “Base Period”) not less than 115 percent of Maximum Annual Debt Service in any future calendar year on all Parity Bonds and Junior Lien Bonds then outstanding plus the proposed Future Junior Lien Bonds.

Section 19. **Rate Stabilization Account**. Section 19 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

The City may at any time deposit in the Rate Stabilization Account Net Revenue and any other money received by the Light System and available to be used therefor. Thereafter, the City may withdraw any or all of the money from the Rate Stabilization Account for inclusion in Adjusted Net Revenue for any applicable year of the City. Such deposits or withdrawals may be made up to and including the date 90 days after the end of the applicable year for which the deposit or withdrawal will be included as Adjusted Net Revenue.

Section 20. **Refunding or Defeasance of Bonds**. Section 20 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

(a) **Bonds Designated as Refundable Bonds and as Defeasible Bonds**. Each Series of the Bonds authorized by this ordinance is designated as “Refundable Bonds” and as “Defeasible Bonds” for purposes of this ordinance and the Omnibus Defeasance Ordinance, respectively.

(b) **Refunding; Defeasance**. The City may issue refunding bonds pursuant to the laws of the State or use money available from any other lawful source (i) to pay when due the principal of (including redemption premium, if any) and interest on any Bond, or any portion thereof, included in a refunding or defeasance plan (the “Defeased Bonds”); (ii) to redeem and retire, release, refund, or defease the Defeased Bonds; and (iii) to pay the costs of such refunding or defeasance. If money and/or Government Obligations maturing at a time or times and in an amount sufficient (together with known earned income from the investment thereof) to redeem and retire, release, refund, or defease the Defeased Bonds in accordance with their terms, is set aside in a special trust fund or escrow account irrevocably pledged to such redemption, retirement, or defeasance (the “Trust Account”), then all right and interest of the Owners of the Defeased Bonds in the covenants of this ordinance and in Net Revenue and the funds and accounts pledged to the payment of such Defeased Bonds, other than the right to receive the funds so set aside and pledged, thereafter shall cease and become void. Such Owners thereafter shall have the right to receive payment of the principal (or redemption price) of and interest

on the Defeased Bonds from the Trust Account. After such a Trust Account is established and funded as set forth above, the Defeased Bonds shall be deemed to be no longer outstanding and the Director of Finance may then apply any money in any other fund or account established for the payment or redemption of the Defeased Bonds to any lawful purpose.

(c) **Notice of Defeasance or Refunding.** Unless otherwise specified in the applicable Bond Documents, notice of refunding or defeasance shall be given, and selection of Bonds for any partial refunding or defeasance shall be conducted, in the manner set forth in this ordinance for the redemption of Bonds.

(d) **Annual Debt Service Calculation Adjustments for Defeased Bonds.** If the refunding or defeasance plan provides (i) that the Defeased Bonds (or the refunding bonds issued to redeem those Defeased Bonds) are to be secured by money and/or Government Obligations pending the redemption of the Defeased Bonds, and (ii) that certain money and/or Government Obligations are pledged irrevocably for the redemption of the Defeased Bonds, then only the debt service on such Bonds as are not Defeased Bonds (and any refunding bonds, the payment of which is not so secured by the refunding plan) shall be included in the calculation of Annual Debt Service.

Section 21. **Federal Tax Matters.** Section 21 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

The Bond Documents may include such additional terms and covenants relating to federal tax matters as the Director of Finance deems necessary or appropriate, including the following:

(a) **Tax-Exempt Bonds.** For each Series of the Bonds issued as Tax-Exempt Bonds, the City covenants that it will take all actions, consistent with the terms of such Series as set forth in this ordinance and the applicable Bond Documents, that are reasonably within its power and necessary to prevent interest on that Series from being included in gross income for federal income tax purposes. The City further covenants that it will neither take any action nor make or permit any use of gross proceeds of that Series (or other funds of the City treated as gross proceeds of that Series) at any time during the term of such Series that will cause interest

on such Series to be included in gross income for federal income tax purposes. The City also covenants that, to the extent the arbitrage rebate requirement of Section 148 of the Code is applicable to any Series issued as Tax-Exempt Bonds, it will take all actions necessary to comply (or to be treated as having complied) with that requirement in connection with that Series (including the calculation and payment of any penalties that the City may elect to pay as an alternative to calculating rebatable arbitrage and the payment of any other penalties if required under Section 148 of the Code) to prevent interest on such Bonds from being included in gross income for federal income tax purposes.

(b) **Taxable Bonds; Tax Credit Subsidy Bonds.** For each Series of the Bonds issued as Taxable Bonds or as Tax Credit Subsidy Bonds, the Director of Finance is authorized to make provision in the Bonds and other Bond Documents, to execute additional written agreements, and to make additional covenants on behalf of the City, all as the Director may deem necessary or appropriate in order to obtain, maintain, and administer such tax status. In the case of Tax Credit Subsidy Bonds, such additional covenants and agreement may include (without limiting the generality of the foregoing) those necessary in order for the City (i) to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of such Tax Credit Subsidy Bonds, and (ii) to ensure that such Tax Credit Subsidy Bonds otherwise become and remain eligible for tax benefits under the Code.

Section 22. **Official Statement; Continuing Disclosure.** Section 22 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

(a) **Preliminary Official Statement.** The Director of Finance and other appropriate City officials are directed to cause the preparation of and review the form of a preliminary official statement in connection with each sale of one or more Series to the public. For the sole purpose of the Purchaser's compliance with paragraph (b)(1) of Rule 15c2-12, the Director of Finance is authorized to deem that preliminary official statement final as of its date, except for the omission of information permitted to be omitted by Rule 15c2-12. The City approves the distribution to potential purchasers of the Bonds of a preliminary official statement that

has been deemed final in accordance with this subsection 22(a).

(b) **Final Official Statement.** The City approves the preparation of a final official statement for each sale of one or more Series to be sold to the public in the form of the preliminary official statement, with such additions, modifications and amendments as the Director of Finance deems necessary or desirable, and further authorizes the Director of Finance to execute and deliver such final official statement to the Purchaser. The City authorizes and approves the distribution by the Purchaser of that final official statement to purchasers and potential purchasers of the Bonds.

(c) **Undertaking to Provide Continuing Disclosure.** To meet the requirements of paragraph (b)(5) of Rule 15c2-12, as applicable to a participating underwriter for a Series of the Bonds, the Director of Finance is authorized to execute a written Continuing Disclosure Agreement with respect to that Series, in substantially the form attached to this ordinance as Exhibit B.

Section 23. **Supplemental or Amendatory Bond Documents.** Section 23 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

This ordinance and the other applicable Bond Documents for any Series of the Bonds may not be supplemented or amended in any respect subsequent to the Issue Date of such Series, except in accordance with and subject to the provisions of this section.

(a) **Amendments Without Bond Owners' Consent.** From time to time and at any time, without the consent of or notice to the owners of any Parity Bonds or Junior Lien Bonds, the City may supplement or amend the Bond Documents applicable to any Series of the Bonds for any of the purposes set forth in this subsection (a). Any such supplement or amendment may be passed, adopted, or otherwise approved in writing by the City, without requiring the consent of the registered owners of any Parity Bonds or Junior Lien Bonds, but may become effective only upon receipt by the City of an opinion of Bond Counsel to the effect that such supplement or amendment is permitted by the terms of this ordinance. The City shall deliver a copy of any such supplement or amendment to each Rating Agency prior to its passage, adoption, or approval (as applicable) by

the City. The types of supplements and amendments permitted under this subsection (a) are as follows:

(i) To add to any Parity Bond Documents (or to any Junior Lien Bond Documents, as applicable) additional covenants and agreements that do not adversely affect the interests of the owners of any Parity Bonds (or, as to Junior Lien Bond Documents, the interests of the owners of any Junior Lien Bonds) then outstanding, or to surrender any right or power reserved to or conferred upon the City in any Bond Documents.

(ii) To cure any ambiguities or to cure, correct, or supplement any defective provision in any Bond Documents, in regard to matters or questions arising under such Bond Documents, as the City may deem necessary or desirable and not inconsistent with this ordinance, and which do not materially adversely affect the interests of the owners of any Parity Bonds or Junior Lien Bonds then outstanding.

(iii) To make such changes as may be necessary to permit the Bonds to be held in registered certificate form or in Book-Entry Form, as the case may be, and to make similar amendments or modifications of a technical nature.

(b) Amendments Permitted Upon Bond Owners' Consent.

(i) **Parity Bond Documents.** With the consent of the registered owners representing not less than 60 percent in aggregate principal amount of the Parity Bonds then outstanding, the City may pass, adopt, or otherwise provide its written approval of any supplement or amendment to add to, change, or eliminate any provision of the Bond Documents applicable to a Series of the Bonds designated as Parity Bonds in any manner other than a supplement or amendment effecting a change described in subsection 23(c)(i) of this ordinance.

(ii) **Junior Lien Bond Documents.** With the consent of the registered owners representing not less than 60 percent in aggregate principal amount of the Junior Lien Bonds then outstanding, the City may pass, adopt, or otherwise approve in writing any supplement or amendment to add to, change, or eliminate any provision of the Bond Documents applicable to a Series of the Bonds designated as Junior Lien Bonds in any manner other than a supplement or amendment effecting a change described in subsection 23(c)(ii) of this ordinance.

(c) Amendments Prohibited Except Upon Unanimous Consent.

(i) Amendments to Parity Bond Documents. Nothing contained in this section shall permit or be construed as permitting an amendment or supplement that would:

(A) Except upon consent from the registered owners of or on behalf of all Parity Bonds so affected, extend the fixed maturity of any Parity Bond, reduce the rate of interest on any Parity Bond (other than a change in interest rate permitted under the applicable Parity Bond Documents then in effect), extend the times of payment of interest from their respective due dates, reduce the principal amount of any Parity Bond, or reduce any redemption premium; or

(B) Except upon consent from the registered owners of or on behalf of all of the Parity Bonds then outstanding, reduce the percentage of ownership required under subsection 23(b)(i) of the ordinance to approve any supplement or amendment.

(ii) Amendments to Junior Lien Bond Documents. Nothing contained in this section shall permit or be construed as permitting an amendment or supplement that would:

(A) Except upon consent from the registered owners of or on behalf of all Junior Lien Bonds so affected, extend the fixed maturity of any Junior Lien Bond, reduce the rate of interest on any Junior Lien Bond (other than a change in interest rate permitted under the applicable Junior Lien Bond Documents then in effect), extend the times of payment of interest from their respective due dates, reduce the principal amount of any Junior Lien Bond, or reduce any redemption premium; or

(B) Except upon consent from the registered owners of or on behalf of all of the Junior Lien Bonds then outstanding, reduce the percentage of ownership required under subsection 23(b)(ii) of the ordinance to approve any supplement or amendment.

(d) Notice and Consents. If at any time the City passes, adopts, or otherwise approves in writing a supplement or amendment for any of the purposes requiring consent under subsection 23(b) or 23(c) of this ordinance, it shall provide a notice to each registered owner and to each Rating Agency, briefly summarizing

the nature of the proposed supplement or amendment and stating that a copy of such supplement or amendment is on file at the office of the City Clerk. It shall not be necessary to obtain consent to or approval of the particular form of any proposed supplement or amendment, but it shall be sufficient if the consent shall approve the substance thereof. For purposes of determining whether consents representing the requisite percentage of principal amount of Parity Bonds or Junior Lien Bonds have been obtained, the Accreted Value of Capital Appreciation Bonds shall be deemed to be the principal amount.

(e) **Effect of Amendment or Supplement.** Upon the effective date of any amendment or supplement to any Bond Documents, such Bond Documents shall be deemed to be amended and modified in accordance with such amendment or supplement. Thereafter, the respective rights, duties, and obligations of the City under the applicable Bond Documents shall be determined, exercised, and enforced subject in all respects to such supplement or amendments, and all the terms and conditions of any such supplement or amendment shall be deemed to be a part of the terms and conditions of those Bond Documents for any and all purposes. The effective dates of such amendments and supplements shall be as follows:

(i) An amendment and supplement permitted under subsection 23(a) of this ordinance shall become effective immediately upon (A) the passage, adoption, or other approval of such amendment or supplement (or upon the effective date of such document as stated therein, if any), and (B) the delivery of the required opinion of Bond Counsel stating that such amendment or supplement is permitted under this ordinance.

(ii) A supplement or amendment permitted under subsection 23(b) or 23(c) of this ordinance shall become effective on the date on which the City has received the written consents of the requisite percentage of registered owners. If the requisite percentage of registered owners of Parity Bonds or Junior Lien Bonds, as applicable, have given their consent to any such amendment or supplement, no owner of any Bond shall have any right (i) to object to the passage, adoption, or approval of such supplement or amendment, (ii) to object to any of the terms and provisions contained therein or the operation thereof, (iii) in any manner to

question the propriety of the passage, adoption, or approval thereof, (iv) to enjoin or restrain the City, or any authorized official thereof, from passing, adopting, or otherwise approving the same, or (v) to enjoin or restrain the City, any authorized official thereof, or the Bond Registrar from taking any action pursuant to the provisions thereof.

(f) **Notation on Bonds.** Any Bonds executed and delivered after the effective date of any amendment or supplement that is passed, adopted, or otherwise approved in writing pursuant to this section may include a notation as to any matter provided for in such amendment or supplement. The City may, in its discretion, prepare and deliver replacement bonds, modified to reflect any such amendment or supplement, to the registered owner(s) thereof upon surrender of the original bonds for cancellation.

Section 24. **Defaults and Remedies.** Section 24 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

(a) **Parity Bond Events of Default.** Each of the following shall constitute an Event of Default with respect to the Bonds designated as Parity Bonds, except as set forth in subsection 24(c) of this ordinance:

(i) If a default is made in the payment of the principal of (including Sinking Fund Requirements and any redemption premium thereon, if any) or interest on any Parity Bond when the same shall become due and payable; or

(ii) If the City defaults in the observance and performance of any other of the Parity Bond covenants, conditions, or agreements on the part of the City set forth in this ordinance or the applicable Parity Bond Documents (except as otherwise provided herein or in such Parity Bond Documents) and such default or defaults shall have continued for a period of six months (the “cure period”) after the City shall have received from the registered owners of not less than 25 percent in principal amount of the Parity Bonds then outstanding (or from a Bond Owners’ Trustee duly appointed as set forth in subsection 24(e) of this ordinance) a written notice specifying and demanding the cure of such default. However, if such default is one that cannot be completely remedied within the cure period, it shall not be an Event of Default with respect to the Parity Bonds,

so long as the City has taken active steps within the cure period to remedy the default and is diligently pursuing such remedy.

(b) **Junior Lien Bond Events of Default.** Each of the following shall constitute an Event of Default with respect to the Bonds designated as Junior Lien Bonds, except as set forth in subsection 24(c) of this ordinance:

(i) If a default is made in the payment of the principal of (including Sinking Fund Requirements and any redemption premium thereon, if any) or interest on any Junior Lien Bond when the same shall become due and payable; or

(ii) If the City defaults in the observance and performance of any other of the Junior Lien Bond covenants, conditions, or agreements on the part of the City set forth in this ordinance or the applicable Junior Lien Bond Documents (except as otherwise provided for in this ordinance or in such Junior Lien Bond Documents) and such default or defaults shall have continued for a period of six months (the “cure period”) after the City shall have received from the registered owners of not less than 25 percent in principal amount of the Junior Lien Bonds then outstanding (or from a Bond Owners’ Trustee duly appointed as set forth in subsection (e) of this section) a written notice specifying and demanding the cure of such default. However, if such default is one which cannot be completely remedied within the cure period, it shall not be an Event of Default with respect to the Bonds as long as the City has taken active steps within the cure period to remedy the default and is diligently pursuing such remedy.

(c) **Exceptions.** Notwithstanding anything in this section to the contrary, the failure of the City or any obligated person to comply with a Continuing Disclosure Agreement shall not constitute an Event of Default, and the sole remedy of any holder of any Parity Bond or Junior Lien Bond, as applicable, shall be to seek an order of specific performance from an appropriate court to compel the City to comply with the Continuing Disclosure Agreement. For purposes of determining whether an Event of Default has occurred and is continuing with respect to the rate covenant set forth in subsection 17(a)(ii) or 17(b)(ii) of this ordinance, if such covenant

is met for any fiscal year, it shall be deemed to have been met for all prior fiscal years.

(d) **Remedies; No Acceleration.** In the case of a Parity Bond Event of Default, an owner of a Parity Bond shall have the remedies set forth in Section 10 of this ordinance and in the applicable Parity Bond Documents, as limited by subsection 24(e) of this ordinance. In the case of a Junior Lien Bond Event of Default, the owner of a Junior Lien Bond shall have the remedies set forth in Section 10 of this ordinance and in the applicable Junior Lien Bond Documents, as limited by subsection 24(e) of this ordinance. Nothing contained in this ordinance shall, in any event or under any circumstance, be deemed to authorize the acceleration of the maturity of principal on the Bonds, and the remedy of acceleration is expressly denied to the registered owners of the Bonds under any circumstances including, without limitation, upon the occurrence and continuance of an Event of Default.

(e) **Bond Owners' Trustee.** A Bond Owners' Trustee appointed in the manner provided in this section, and each successor thereto, is declared to be a trustee for all of the owners of the Parity Bonds (in the case of a Parity Bond Event of Default) or all of the owners of the Junior Lien Bonds (in the case of a Junior Lien Bond Event of Default), as applicable, and is empowered to exercise all the rights and powers herein conferred on the Bond Owners' Trustee.

(i) **Appointment of Bond Owners' Trustee; Removal.** Upon the occurrence and continuance of an Event of Default described in subsection 24(a) of this ordinance, the registered owners of 25 percent in principal amount of the then outstanding Parity Bonds (or upon the occurrence and continuance of an Event of Default described in subsection 24(b) of this ordinance, the registered owners of 25 percent in principal amount of the then outstanding Junior Lien Bonds) may appoint a Bond Owners' Trustee by an instrument or concurrent instruments in writing signed by such registered owners (or by their duly authorized attorneys-in-fact) and delivered to such Bond Owners' Trustee, with notification of such appointment given to the City. That appointment shall become effective immediately upon acceptance thereof by the Bond Owners' Trustee. The entity acting as Bond Owners' Trustee may be removed at any time, and a successor Bond Owners' Trustee may

be appointed, by the registered owners of more than 50 percent in principal amount of the Parity Bonds then outstanding (in the case of a Parity Bond Event of Default) or 50 percent in principal amount of the Junior Lien Bonds then outstanding (in the case of a Junior Lien Bond Event of Default), as applicable, by an instrument or concurrent instruments in writing signed and acknowledged by such registered owners or by their duly authorized attorneys-in-fact.

(ii) **Cure of Event of Default.** If the Bond Owners' Trustee furnishes to the City a certificate stating that, in its sole judgment, an Event of Default that has occurred has been cured, such Event of Default shall be conclusively deemed to be cured, and the City, the Bond Owners' Trustee, and the registered owners of the Parity Bonds or Junior Lien Bonds, as applicable, shall be restored to the same rights and position which they would have held if no Event of Default had occurred.

(iii) **Suits at Law or in Equity.** Upon the occurrence of an Event of Default and during the continuance thereof, the Bond Owners' Trustee in its discretion may (and, upon the written request of the registered owners of not less than 25 percent in principal amount of the Parity Bonds (or Junior Lien Bonds, as applicable) then outstanding, shall) take such steps and institute such suits, actions, or other proceedings, all as it may deem appropriate for the protection and enforcement of the rights of the registered owners of the Parity Bonds (or Junior Lien Bonds, as applicable), to collect any amounts due and owing to or from the City, or to obtain other appropriate relief, and may enforce the specific performance of any covenant, agreement or condition contained in this ordinance or set forth in any of the applicable Bond Documents.

Any action, suit, or other proceedings instituted by the Bond Owners' Trustee hereunder shall be brought in its name as the Bond Owners' Trustee and all such rights of action upon or under any of the Parity Bonds (or Junior Lien Bonds, as applicable) or the provisions of this ordinance may be enforced by the Bond Owners' Trustee without the possession of any of those Parity Bonds (or Junior Lien Bonds, as applicable) and without the production of the same at any trial or proceedings relative thereto except where otherwise required by law.

(iv) **Effect of Appointment of Bond Owners' Trustee.** Any suit, action, or proceeding instituted by the Bond Owners' Trustee shall be brought for the ratable benefit of all of the owners of the Parity Bonds (or Junior Lien Bonds, as applicable), subject to the provisions of this ordinance. The respective owners, by taking and holding the same, shall be conclusively deemed irrevocably to appoint the Bond Owners' Trustee the true and lawful trustee of the respective owners, with authority to institute any such action, suit, or proceeding; to receive as trustee and deposit in trust any sums becoming distributable on account of those Parity Bonds; to execute any paper or documents for the receipt of money; and to do all acts with respect thereto that the owner might have done in person. Nothing herein shall be deemed to authorize or empower the Bond Owners' Trustee to consent to accept or adopt, on behalf of any owner of the Parity Bonds (or Junior Lien Bonds, as applicable), any plan of reorganization or adjustment affecting the Parity Bonds (or Junior Lien Bonds, as applicable) or any right of any registered owner thereof, or to authorize or empower the Bond Owners' Trustee to vote the claims of the registered owners thereof in any receivership, insolvency, liquidation, bankruptcy, reorganization, or other proceeding to which the City is a party.

(v) **Bond Owners' Direction of Proceedings.** By an instrument or concurrent instruments in writing executed and delivered to the Bond Owners' Trustee, the owners of more than 50 percent in aggregate principal amount of the Parity Bonds (or Junior Lien Bonds, as applicable) then outstanding, shall be entitled to control and direct the enforcement of all rights and remedies granted to the owners (or the Bond Owners' Trustee for the benefit of the owners) under the applicable Bond Documents. Notwithstanding the foregoing, the Bond Owners' Trustee shall have the right to decline to follow any such direction which in the opinion of the Bond Owners' Trustee, in reasonable reliance on advice of counsel, would be unjustly prejudicial to owners not parties to such direction.

(vi) **Limitation on Remedies; Limitations on Individual Actions.** No owner of a Parity Bond, in the case of a Parity Bond Event of Default (or owner of a Junior Lien Bond, in the case of a Junior Lien Bond Event of Default) shall have any right in any manner whatever by its action to affect, disturb, or prejudice

the security pledged in this ordinance or the rights of any other owners, or to enforce any right under the applicable Bond Documents or applicable law except in the manner provided in this section, and that all proceedings at law or in equity to enforce any such right shall be instituted, had, and maintained in the manner herein provided and for the equal and ratable benefit and protection of all owners of the Parity Bonds (or Junior Lien Bonds, as applicable), subject to the provisions of this ordinance.

(vii) **Limitations on Individual Actions.** No owner of a Parity Bond (or Junior Lien Bond, as applicable) shall have any right to institute any action, suit, or proceeding at law or in equity for the enforcement of same unless (A) such owner previously shall have given to the Bond Owners' Trustee written notice of the occurrence of an Event of Default; (B) the owners of more than 50 percent in aggregate principal amount of the then-outstanding Parity Bonds (in the case of a Parity Bond Event of Default) or 50 percent in aggregate principal amount of the then outstanding Junior Lien Bonds (in the case of a Junior Lien Bond Event of Default) shall have made a written request to the Bond Owners' Trustee to exercise the powers granted above or to institute such suit, action, or proceeding in its own name; (C) such owners shall have tendered to the Bond Owners' Trustee reasonable indemnity against the costs, expenses, and liabilities to be incurred in compliance with such request; and (D) the Bond Owners' Trustee shall have refused or omitted to comply with such request for a period of 60 days after such written request shall have been received by, and said tender of indemnity shall have been made to, the Bond Owners' Trustee. The conditions set forth in (A) through (D) in the preceding sentence are hereby declared to be conditions precedent to the exercise by any owner of a Parity Bond (in the case of a Parity Bond Event of Default) or by any owner of a Junior Lien Bond (in the case of a Junior Lien Bond Event of Default) of any remedy under the applicable Bond Documents or under applicable law.

(viii) **Duties and Obligations of Bond Owners' Trustee.** The Bond Owners' Trustee shall not be liable except for the performance of such duties as are specifically set forth in this ordinance. During any period in which an Event of Default has occurred and is continuing as to the Parity Bonds (or the Junior Lien Bonds, as applicable) the Bond Owners' Trustee shall exercise such of the rights and powers vested in it by this

ordinance, and shall use the same degree of care and skill in its exercise, as a prudent person would exercise or use under the circumstances in the conduct of that person's own affairs. The Bond Owners' Trustee shall have no liability for any act or omission to act hereunder except for the Bond Owners' Trustee's own negligent action, its own negligent failure to act or its own willful misconduct. The duties and obligations of the Bond Owners' Trustee shall be determined solely by the express provisions of this ordinance, and no implied powers, duties or obligations of the Bond Owners' Trustee shall be read into this ordinance. The Bond Owners' Trustee shall not be required to expend or risk its own funds or otherwise incur individual liability in the performance of any of its duties or in the exercise of any of its rights or powers as the Bond Owners' Trustee, except as may result from its own negligent action, its own negligent failure to act or its own willful misconduct. The fees and expenses of the Bond Owners' Trustee shall be borne by the owners of the Parity Bonds (or Junior Lien Bonds, as applicable) and not by the City. A Bond Owners' Trustee may require such security and indemnity as may be reasonable against the costs, expenses, and liabilities that may be incurred in the performance of its duties. The Bond Owners' Trustee shall not be bound to recognize any person as a registered owner of any Parity Bond (or Junior Lien Bond, as applicable) until their title thereto, if disputed, has been established to its reasonable satisfaction. The Bond Owners' Trustee may consult with counsel, and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it hereunder in good faith and in accordance with the opinion of such counsel. The Bond Owners' Trustee shall not be answerable for any neglect or default of any person, firm, or corporation employed and selected by it with reasonable care.

Section 25. **The Refunding Plan**. Section 25 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

(a) **Approval of Refunding Plan; Appointment of Refunding Trustee**. The Director of Finance is authorized and directed to select a Refunding Trustee and execute a Refunding Trust Agreement setting forth a Refunding Plan for each series of Refundable Bonds (or portion thereof) to be refunded pursuant to this ordinance, in accordance with subsection 25(d). Multiple Refunding Plans may be combined in a single

Refunding Trust Agreement. The Refunding Plan shall be carried out, and proceeds of the Bonds shall be applied, in accordance with this ordinance, the respective Refunded Bond Documents, the Refunding Trust Agreement, and the laws of the State. Nothing in this ordinance shall prevent the issuance of Refunding Parity Bonds for the purpose of refunding Refundable Junior Lien Bonds, or the issuance of Refunding Junior Lien Bonds for the purpose of refunding Refundable Parity Bonds, provided that the requirements of Section 18 of this ordinance and the Parity Conditions (if the Refunding Bonds are designated as Parity Bonds) or Junior Lien Additional Bonds Test (if the Refunding Bonds are designated as Junior Lien Bonds) are met as of the Issue Date of such series of Refunding Bonds.

(b) **Acquisition of Acquired Obligations.** To the extent practicable and desirable, the Refunding Plan shall provide for the Refunding Trustee's purchase of Acquired Obligations bearing such interest and maturing as to principal and interest in such amounts and at such times as to provide (together with a beginning cash balance, if necessary) for the timely payment of the amounts required to be paid by the Refunding Plan. The Acquired Obligations shall be listed and more particularly described in a schedule attached to the Refunding Trust Agreement, subject to substitution as set forth in subsection 25(c).

(c) **Substitution of Acquired Obligations.** The City reserves the right at any time to substitute cash or other Government Obligations (as defined in the applicable Refunded Bond Documents) for the Acquired Obligations if the City obtains a verification by a nationally recognized independent certified public accounting firm reasonably acceptable to the Refunding Trustee confirming that the payments of principal of and interest on the substitute obligations, if paid when due, together with the cash to be held by the Refunding Trustee, will be sufficient to carry out the Refunding Plan. If the applicable Series of the Bonds (or the applicable Refunded Bonds) were issued as Tax-Exempt Bonds, then prior to such substitution, the City must also obtain an opinion from Bond Counsel to the effect that the disposition and substitution or purchase of such securities will not cause the interest on the applicable Series of the Bonds (or of the applicable Refunded Bonds) issued as Tax-Exempt Bonds to be included in gross income for federal income tax purposes and that such disposition and

substitution or purchase is in compliance with the statutes and regulations applicable to the Series of the Bonds. Any surplus money resulting from the sale, transfer, other disposition or redemption of the Acquired Obligations and the substitutions therefor shall be released from the trust estate and may be used for any lawful City purpose.

(d) **Refunding Trust Agreement.** In connection with any Series of the Bonds, the Director of Finance is authorized to execute one or more Refunding Trust Agreements with one or more Refunding Trustees, setting forth the duties, obligations and responsibilities of the Refunding Trustee in connection with carrying out the applicable Refunding Plan. Each Refunding Trust Agreement and Refunding Plan must, among other things: (1) identify the Refundable Bonds to be refunded thereby; (2) contain the elements set forth in the definition of Refunding Plan set forth in this ordinance, including provide for the issuance of the Series of the Bonds and describing the method for carrying out the refunding of the Refunded Bonds (including authorizing and directing the Refunding Trustee to use the money deposited with it to purchase the Acquired Obligations (or substitute obligations) and to apply such money along with the maturing principal of and interest on such obligations to make the payments required to be made by the Refunding Plan); and (3) shall provide for the giving of notices of defeasance and redemption, as required under the Refunded Bond Documents. The Refunding Trust Agreement may additionally provide for the payment of the costs of issuance of the Series and the costs of administering the Refunding Plan (including without limitation, all necessary and proper fees, compensation, and expenses of the Refunding Trustee and all other costs incidental to the setting up of the escrow to accomplish the Refunding Plan), and for such other related matters as the Director of Finance may deem necessary or expedient.

Section 26. **Redemption of the Refunded Bonds.** Section 26 of Ordinance 125460, last amended by Ordinance 125987, is amended to read as follows:

The Director of Finance is authorized on behalf of the City to take such actions as may be necessary or convenient to call the Refunded Bonds for redemption. Such call for redemption of the Refunded Bonds shall

identify the Refunded Bonds, redemption dates, and redemption prices (expressed as a percentage of the stated principal amount) and shall be irrevocable after the Issue Date of the applicable Series of the Bonds. The dates on which the Refunded Bonds are to be called for redemption shall be, in the judgment of the Director of Finance, the earliest practical dates on which those Refunded Bonds may be called for redemption. The proper City officials are authorized and directed to give or cause to be given such notices as required, at the times and in the manner required pursuant to the Refunded Bond Documents, in order to carry out the Refunding Plan.

Section 27. **Effect on Prior Omnibus Refunding Ordinance; Outstanding Bonds Declared**

Refundable. It is the intent of the City Council that this ordinance reflect the fact that the holders of more than 60 percent of the currently outstanding Parity Bonds have consented to the amendments previously designated as becoming effective on the Parity Covenant Date and on the Second Parity Covenant Date as those terms are defined in Ordinance 125460, as amended by Ordinance 125987 (as amended, the “2018 Omnibus Refunding Ordinance”). To avoid ambiguity and for ease of reference, Sections 1 through 26 of the 2018 Omnibus Refunding Ordinance are amended and restated as set forth in Sections 1 through 26 of this ordinance. As of the effective date of this ordinance, this ordinance shall be referred to as the “Omnibus Refunding Ordinance” and future Refunding Bonds shall be issued under this ordinance. All outstanding Parity Bonds previously designated as “Refundable Bonds” under the 2018 Omnibus Refunding Ordinance are hereby designated as Refundable Bonds under this ordinance. If any provision of this ordinance is found by a court of law to be inapplicable to any bonds outstanding as of the effective date of this amendatory ordinance, the amendments contained herein shall be of no force or effect with respect to those outstanding bonds, and the provisions of the ordinance under which those outstanding Bonds were issued shall continue in effect with respect to those bonds only.

Section 28. **General Authorization**. In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance and each of the other appropriate officials of the City are each authorized and directed to do everything as in the judgment of such official may be necessary, appropriate, or desirable in

order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance. In particular and without limiting the foregoing:

(a) The Director of Finance, in the Director's discretion and without further action by the City Council, (i) may issue requests for proposals to provide underwriting services or financing facilities (including, without limitation, Qualified Insurance, a Qualified Letter of Credit, or other credit support or liquidity facility) and may execute engagement letters and other agreements with underwriters and other financial institutions (including providers of liquidity or credit support) based on responses to such requests; (ii) may select and make decisions regarding the Bond Registrar, fiscal or paying agents, and any Securities Depository for each Series of the Bonds; (iii) may take any and all actions necessary or convenient to provide for the conversion of interest rate modes for any Series in accordance with the applicable Bond Documents; and (iv) may take such actions on behalf of the City as are necessary or appropriate for the City to designate, qualify, or maintain the tax-exempt treatment with respect to any Series issued as Tax-Exempt Bonds, to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of any Series issued as Tax Credit Subsidy Bonds, and to otherwise receive any other federal tax benefits relating to any Series of the Bonds that are available to the City; and

(b) The Mayor and the Director of Finance are each separately authorized to execute and deliver (i) any and all contracts or other documents as are consistent with this ordinance and for which the City's approval is necessary or to which the City is a party (including but not limited to agreements with escrow agents, refunding or defeasance trustees, liquidity or credit support providers, providers of Qualified Insurance or Alternate Reserve Securities, remarketing agents, underwriters, lenders or other financial institutions, fiscal or paying agents, Qualified Counterparties, custodians, and the Bond Registrar); and (ii) such other contracts or documents incidental to the issuance and sale of any Series of the Bonds; the establishment of the interest rate or rates on a Bond; or the conversion, tender, purchase, remarketing, or redemption of a Bond, as may in the judgment of the Mayor or Director of Finance, as applicable, be necessary or appropriate.

Section 29. **Severability.** The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 30. **Ratification of Prior Acts.** Any action consistent with the authority of this ordinance taken prior to its effective date is ratified and confirmed.

Section 31. **Section Headings.** Section headings in this ordinance are nonsubstantive.

Section 32. **Exhibits.** Exhibit A to the Omnibus Refunding Ordinance is replaced in its entirety, as set forth in Exhibit A to this ordinance. Exhibit B to the Omnibus Refunding Ordinance is replaced in its entirety, as set forth in Exhibit B to this ordinance. Exhibit C to this ordinance shows the cumulative amendments to the original text of Ordinance 125460, as enacted, using double underlining to indicate added text and using double parentheses and strikethrough formatting to indicate deleted text.

Section 33. **Effective Date.** This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

Scheereen Dedman, City Clerk

EXHIBIT B

FORM OF CONTINUING DISCLOSURE AGREEMENT

The City of Seattle, Washington (the “City”), makes the following written undertaking (the “Undertaking”) for the benefit of the Owners of the City’s Municipal Light and Power Refunding Revenue Bonds, [Year] [Series] (the “Bonds”), for the sole purpose of assisting the underwriter for the Bonds in meeting the requirements of paragraph (b)(5) of Rule 15c2-12 (the “Rule”), as applicable to a participating underwriter for the Bonds. Capitalized terms used but not defined below shall have the meanings given in Ordinance _____ (the “Bond Ordinance”).

(a) Undertaking to Provide Annual Financial Information and Notice of Listed Events.

The City undertakes to provide or cause to be provided, either directly or through a designated agent, to the Municipal Securities Rulemaking Board (the “MSRB”), in an electronic format as prescribed by the MSRB, accompanied by identifying information as prescribed by the MSRB:

(i) Annual financial information and operating data regarding the Municipal Light and Power System (the “Light System”) of the type included in the final official statement for the Bonds and described in subsection (b) of this section (“annual financial information”). The timely filing of unaudited financial statements shall satisfy the requirements and filing deadlines pertaining to the filing of annual financial statements under subsection (b), provided that audited financial statements are to be filed if and when they are otherwise prepared and available to the City.

(ii) Timely notice (not in excess of 10 business days after the occurrence of the event) of the occurrence of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notice of Proposed Issue (IRS Form 5701 – TEB) or other material notices

1 or determinations with respect to the tax status of the Bonds, or other material events affecting the tax
2 status of the Bonds; (7) modifications to rights of holders of the Bonds, if material; (8) Bond calls
3 (other than scheduled mandatory redemptions of Term Bonds), if material, and tender offers;
4 (9) defeasances; (10) release, substitution, or sale of property securing repayment of the Bonds, if
5 material; (11) rating changes; (12) bankruptcy, insolvency, receivership or similar event of the City, as
6 such “Bankruptcy Events” are defined in the Rule; (13) the consummation of a merger, consolidation,
7 or acquisition involving the City or the sale of all or substantially all of the assets of the City other than
8 in the ordinary course of business, the entry into a definitive agreement to undertake such an action or
9 the termination of a definitive agreement relating to any such actions, other than pursuant to its terms,
10 if material; (14) appointment of a successor or additional trustee or the change of name of a trustee, if
11 material; (15) incurrence of a financial obligation of the City, if material, or agreement to covenants,
12 events of default, remedies, priority rights, or other similar terms of a financial obligation of the City,
13 any of which affect holders of the Bonds, if material; and (16) any default, event of acceleration,
14 termination event, modification of terms, or other similar event under the terms of a financial obligation
15 of the City, any of which reflect financial difficulties.

16 For purposes of this Undertaking, the term “financial obligation” shall mean a debt
17 obligation; a derivative instrument entered into in connection with, or pledged as security or a source
18 of payment for, an existing or planned debt obligation; or a guarantee of either a debt obligation or a
19 derivative instrument entered into in connection with, or pledged as security or a source of payment
20 for, an existing or planned debt obligation. The term “financial obligation” does not include municipal
21 securities as to which a final official statement has been provided to the MSRB consistent with the
22 Rule.

23 (iii) Timely notice of a failure by the City to provide required annual financial
24 information on or before the date specified in subsection (b) of this section.

1 (b) Type of Annual Financial Information Undertaken to be Provided. The annual
2 financial information and operating data that the City undertakes to provide in subsection (a) of this
3 section:

4 (i) Shall consist of (1) annual financial statements of the Light System prepared in
5 accordance with applicable generally accepted accounting principles applicable to governmental units
6 (except as otherwise noted therein), as such principles may be changed from time to time and as
7 permitted by applicable state law; (2) a statement of outstanding Parity Bonds, Junior Lien Bonds (if
8 any), and any other bonded indebtedness secured by Net Revenue of the Light System; (3) debt service
9 coverage ratios for the then-Outstanding Parity Bonds, Junior Lien Bonds (if any) and any other bonded
10 indebtedness secured by Net Revenue of the Light System; (4) sources of Light System power and the
11 MWh produced by those sources; and (5) the average number of customers, revenues, and energy sales
12 by customer class;

13 (ii) Shall be provided not later than the last day of the ninth month after the end of
14 each fiscal year of the City (currently, a fiscal year ending December 31), as such fiscal year may be
15 changed as required or permitted by state law, commencing with the City’s fiscal year ending
16 December 31, 20__; and

17 (iii) May be provided in a single document or multiple documents, and may be
18 incorporated by specific reference to documents available to the public on the Internet website of the
19 MSRB or filed with the Securities and Exchange Commission.

20 (c) Amendment of Undertaking. This Undertaking is subject to amendment after the
21 primary offering of the Bonds without the consent of any Owner or holder of any Bond, or of any
22 broker, dealer, municipal securities dealer, participating underwriter, rating agency or the MSRB,
23 under the circumstances and in the manner permitted by the Rule, including:

1 (i) The amendment may only be made in connection with a change in
2 circumstances that arises from a change in legal requirements, change in law, or change in the identity,
3 nature, or status of the City, or type of business conducted by the City;

4 (ii) The Undertaking, as amended, would have complied with the requirements of
5 the Rule at the time of the primary offering, after taking into account any amendments or interpretations
6 of the Rule, as well as any change in circumstances; and

7 (iii) The amendment does not materially impair the interests of holders, as
8 determined either by parties unaffiliated with the City (e.g., bond counsel or other counsel familiar
9 with federal securities laws), or by an approving vote of bondholders pursuant to the terms of the Bond
10 Ordinance at the time of the amendment.

11 The City will give notice to the MSRB of the substance (or provide a copy) of any amendment
12 to this Undertaking and a brief statement of the reasons for the amendment. If the amendment changes
13 the type of annual financial information to be provided, the annual financial information containing
14 the amended financial information will include a narrative explanation of the effect of that change on
15 the type of information to be provided.

16 (d) Beneficiaries. This Undertaking shall inure to the benefit of the City and any Owner
17 of Bonds, and shall not inure to the benefit of or create any rights in any other person.

18 (e) Termination of Undertaking. The City's obligations under this Undertaking shall
19 terminate upon the legal defeasance, prior redemption, or payment in full of all of the Bonds. In
20 addition, the City's obligations under this Undertaking shall terminate if those provisions of the Rule
21 that require the City to comply with this Undertaking become legally inapplicable in respect of the
22 Bonds for any reason, as confirmed by an opinion of nationally recognized bond counsel or other
23 counsel familiar with federal securities laws delivered to the City, and the City provides timely notice
24 of such termination to the MSRB.

1 (f) Remedy for Failure to Comply with Undertaking. As soon as practicable after the City
2 learns of any material failure to comply with this Undertaking, the City will proceed with due diligence
3 to cause such noncompliance to be corrected. No failure by the City or other obligated person to comply
4 with this Undertaking shall constitute a default in respect of the Bonds. The sole remedy of any Owner
5 of a Bond shall be to take such actions as that Owner deems necessary, including seeking an order of
6 specific performance from an appropriate court, to compel the City or other obligated person to comply
7 with this Undertaking.

8 (g) Designation of Official Responsible to Administer Undertaking. The Director of
9 Finance of the City (or such other officer of the City who may in the future perform the duties of that
10 office) or the Director’s designee is the person designated, in accordance with the Bond Ordinance, to
11 carry out this Undertaking of the City in respect of the Bonds set forth in this section and in accordance
12 with the Rule, including, without limitation, the following actions:

13 (i) Preparing and filing the annual financial information undertaken to be
14 provided;

15 (ii) Determining whether any event specified in subsection (a)(ii) has occurred,
16 assessing its materiality, where necessary, with respect to the Bonds, and preparing and disseminating
17 any required notice of its occurrence;

18 (iii) Determining whether any person other than the City is an “obligated person”
19 within the meaning of the Rule with respect to the Bonds, and obtaining from such person an
20 undertaking to provide any annual financial information and notice of listed events for that person in
21 accordance with the Rule;

22 (iv) Selecting, engaging and compensating designated agents and consultants,
23 including but not limited to financial advisors and legal counsel, to assist and advise the City in carrying
24 out this Undertaking; and

25 (v) Effecting any necessary amendment of the Undertaking.

EXHIBIT C

**AMENDED AND RESTATED
ORDINANCE 125460**

The text below displays the cumulative amendments to Sections 1 through 26 of Ordinance 125460 that were set forth in and adopted pursuant to (i) Ordinance 125987 and (ii) the ordinance to which this exhibit is attached. These amendments include technical amendments as permitted by Section 23(a) of the Omnibus Refunding Ordinance and the effect of certain amendments permitted by Section 23(b) of the Omnibus Refunding Ordinance that went into effect upon the occurrence of the following: (A) the collection of the requisite percentage of bondholder consents, (B) the occurrence of the Parity Covenant Date, or (C) the occurrence of the Second Parity Covenant Date (as those terms were defined in the Ordinance 125460, as amended by Ordinance 125987). Text that has been added is indicated using double underlining and text that has been deleted is indicated using strikethrough formatting enclosed in double parentheses.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions**. ~~((As used in))~~In this ordinance, the following capitalized terms shall have the meanings set forth ~~((below))~~in this section.

“Accreted Value” means with respect to any Capital Appreciation Bond (a) as of any Valuation Date, the amount determined for such Valuation Date in accordance with the applicable Bond Documents, and (b) as of any date other than a Valuation Date, the sum of (i) the Accreted Value on the preceding Valuation Date and (ii) the product of (A) a fraction, the numerator of which is the number of days having elapsed from the preceding Valuation Date and the denominator of which is the number of days from such preceding Valuation Date to the next succeeding Valuation Date, calculated based on the assumption that Accreted Value accrues during any semiannual period in equal daily amounts on the basis of a year of ~~((twelve))~~12 30-day months, and (B) the difference between the Accreted Values for such Valuation Dates.

“Acquired Obligations” means Government Obligations maturing or having guaranteed redemption prices at the option of the holder at such time or times as may be required to provide

1 funds sufficient to carry out a Refunding Plan, and satisfying the requirements of the Refunded
2 Bond Documents relating to the Refunded Bonds included in that Refunding Plan. For purposes
3 of this definition, eligible “Government Obligations” for inclusion in a Refunding Plan shall be
4 determined in accordance with the applicable Refunded Bond Documents.

5 **“Adjusted Net Revenue”** means Net Revenue, less any deposits into the Rate
6 Stabilization Account((;)) and plus any withdrawals from the Rate Stabilization Account. In
7 calculating Net Revenue, the City may include the Tax Credit Subsidy Payments the City
8 expects to receive from the federal government in respect to the interest on any Tax Credit
9 Subsidy Bonds (or with respect to which the federal government will provide direct payments).
10 In a Parity Certificate, Adjusted Net Revenue is subject to further adjustment as set forth in
11 ((~~Subsection~~))subsection 18(a)(ii) of this ordinance. In a Junior Lien Coverage Certificate,
12 Adjusted Net Revenue is subject to further adjustment as set forth in ((~~Subsection~~))subsection
13 18(b)(ii) of this ordinance.

14 **“Alternate Reserve Security”** means Qualified Insurance or a Qualified Letter of Credit
15 that is used by the City to satisfy part or all of the Reserve Fund Requirement, and ((~~which~~))that
16 is not cancelable on less than five years’ notice.

17 **“Annual Debt Service”** means, with respect to either Parity Bonds (or a series of Parity
18 Bonds) (**“Annual Parity Bond Debt Service”**) or Junior Lien Bonds (or a series of Junior Lien
19 Bonds) (**“Annual Junior Lien Debt Service”**), as applicable, the sum of the amounts required
20 in a calendar year to pay the interest due in such calendar year (excluding interest to be paid from
21 the proceeds of the sale of bonds), the principal of Serial Bonds maturing in such calendar year,
22 and the Sinking Fund Requirements for any Term Bonds due in such calendar year. Additionally,
23 for purposes of this definition:

1 **(a) Calculation of Interest Due – Generally.** Except as otherwise provided

2 ~~((below))~~in this definition, interest shall be calculated based on the actual amount of accrued,
3 accreted, or otherwise accumulated interest that is payable in respect of the relevant series of
4 Parity Bonds or Junior Lien Bonds, as applicable, taken as a whole, at the rate or rates set forth in
5 the applicable Bond Documents.

6 **(b) Capital Appreciation Bonds.** The principal and interest portions of the Accreted

7 Value of Capital Appreciation Bonds becoming due at maturity or by virtue of a Sinking Fund
8 Requirement shall be included in the calculations of accrued and unpaid and accruing interest or
9 principal in such manner and during such period of time as is specified in the Bond Documents
10 applicable to such Capital Appreciation Bonds.

11 **(c) Variable Interest Rate Bonds.**

12 **(i) Assumed Interest on Variable Interest Rate Parity Bonds.** The amount

13 of interest deemed to be payable on any series of Parity Bonds that are Variable Interest Rate
14 Bonds shall be calculated ~~((on the assumption that the interest rate on those bonds is equal to the
15 rate that is 90% of the average RBI during the four calendar quarters ending at least 15 days
16 preceding the quarter in which the calculation is made. Upon the Parity Covenant Date, the
17 following sentence shall replace the immediately preceding sentence: The amount of interest
18 deemed to be payable on any series of Junior Lien Bonds that are Variable Interest Rate Bonds
19 shall be calculated on))~~under the assumption that the interest rate on those bonds is equal to the
20 highest 12-month rolling average of the SIFMA Municipal Swap Index over the preceding
21 ~~((ten))~~five years. ~~((And, upon the redemption or defeasance of all of the Outstanding Parity
22 Bonds identified in Exhibit A to this ordinance, a five-year look back period shall be substituted
23 for the ten-year period referenced in the immediately preceding sentence.))~~

1 (ii) **Assumed Interest on Variable Interest Rate Junior Lien Bonds.** The
2 amount of interest deemed to be payable on any series of Junior Lien Bonds that are Variable
3 Interest Rate Bonds shall be calculated on the assumption that the interest rate on those bonds is
4 equal to the highest 12-month rolling average (ending with the month preceding the date of the
5 calculation) of the SIFMA Municipal Swap Index over the preceding five years.

6 (d) **Interest on Bonds with Respect to Which a Payment Agreement is in Force.**
7 In general, debt service on any bonds (Parity Bonds or Junior Lien Bonds, as applicable) with
8 respect to which a Payment Agreement is in force shall be based on the net economic effect on
9 the City expected to be produced by the terms of the applicable Bond Documents and the terms
10 of the Payment Agreement. For example, if the net effect of the Payment Agreement on a series
11 of bonds otherwise bearing interest at a variable interest rate is to produce an obligation bearing
12 interest at a fixed rate, the relevant series of bonds shall be treated as fixed rate bonds. And if the
13 net effect of the Payment Agreement on a series of bonds otherwise bearing interest at a fixed
14 interest rate is to produce an obligation bearing interest at a variable interest rate, the relevant
15 series of bonds shall be treated as Variable Interest Rate Bonds.

16 Accordingly, the amount of interest deemed to be payable on any series of Parity Bonds
17 (or Junior Lien Bonds, as applicable) with respect to which a Payment Agreement is in force
18 shall be an amount equal to the amount of interest that would be payable at the rate or rates
19 stated in or determined pursuant to the applicable Bond Documents, plus Payment Agreement
20 Payments, minus Payment Agreement Receipts. For the purposes of calculating as nearly as
21 practicable Payment Agreement Receipts and Payment Agreement Payments under a Payment
22 Agreement that includes a variable rate component determined by reference to a pricing
23 mechanism or index that is not the same as the pricing mechanism or index used to determine the

1 variable rate interest component on the series of bonds to which the Payment Agreement is
2 related, it shall be assumed that: (i) the fixed rate used in calculating Payment Agreement
3 Payments will be equal to 105(~~(%)~~) percent of the fixed rate specified by the Payment
4 Agreement, and (ii) the pricing mechanism or index specified by the Payment Agreement is the
5 same as the pricing mechanism or index specified by the applicable Bond Documents.

6 Notwithstanding the other provisions of this definition, the City shall not be required to (but may
7 in its discretion) take into account in determining Annual Debt Service the effects of any
8 Payment Agreement that has a term of ten years or less.

9 (e) **Parity Payment Agreements; Junior Lien Payment Agreements.** For any
10 period during which Payment Agreement Payments under a Parity Payment Agreement (or
11 Junior Lien Payment Agreement, as applicable) are taken into account in determining Annual
12 Debt Service on the related Parity Bonds (or Junior Lien Bonds, as applicable) under subsection
13 (d) of this definition, no additional debt service shall be taken into account with respect to that
14 Parity Payment Agreement (or a Junior Lien Payment Agreement, as applicable). However, for
15 any period during which Payment Agreement Payments are not taken into account under
16 subsection (d) of this definition because the Parity Payment Agreement (or Junior Lien Payment
17 Agreement, as applicable); is not then related to any (~~(outstanding)~~) Outstanding Parity Bonds (or
18 Junior Lien Bonds, as applicable) payments on that Payment Agreement shall be taken into
19 account by assuming:

20 (i) **If City is Obligated to Make Payments Based on a Fixed Rate.** If the
21 City is obligated to make Payment Agreement Payments based on a fixed rate and the Qualified
22 Counterparty is obligated to make payments based on a variable rate index, it shall be assumed
23 that payments by the City will be based on the assumed fixed payor rate, and that payments by

1 the Qualified Counterparty will be based on a rate equal to the average rate determined by the
2 variable rate index specified by the Payment Agreement during the four calendar quarters
3 preceding the quarter in which the calculation is made.

4 (ii) **If City is Obligated to Make Payments Based on a Variable Rate**

5 **Index.** If the City is obligated to make Payment Agreement Payments based on a variable rate
6 index and the Qualified Counterparty is obligated to make payments based on a fixed rate, it
7 shall be assumed that payments by the City will be based on a rate equal to the average rate
8 determined by the variable rate index specified by the Payment Agreement during the four
9 calendar quarters preceding the quarter in which the calculation is made, and that the Qualified
10 Counterparty will make payments based on the fixed rate specified by the Payment Agreement.

11 (f) **Balloon Bonds.**~~((Upon the Parity Covenant Date, the following sentence shall
12 become effective:))~~ In calculating Annual~~((Bond))~~ Debt Service for any series of Parity Bonds,
13 the City may in its discretion treat the debt service requirements with respect to Parity Bonds that
14 are Balloon Bonds (including principal of and interest on such bonds at the applicable rate or
15 rates) as being amortized in approximately equal annual installments over a period equal to the
16 longer of 30 years or the remaining term of such series of Parity Bonds.

17 In calculating Annual Debt Service for any series of Junior Lien Bonds, the City may in
18 its discretion treat the debt service requirements with respect to Junior Lien Bonds that are
19 Balloon Bonds (including principal of and interest on such bonds at the applicable rate or rates)
20 as being amortized in approximately equal annual installments over a period equal to the longer
21 of 30 years or the remaining term of such series of Junior Lien Bonds.

22 (g) **Adjustments for Defeased Bonds.** For purposes of determining compliance with
23 the rate covenants set forth in ~~((Subsections))~~subsections 17(a)(ii) and 17(b)(ii) of this ordinance,

1 calculating the Reserve Fund Requirement, and making coverage ratio calculations in connection
2 with the delivery of a Parity Certificate or Junior Lien Coverage Certificate, Annual Debt
3 Service shall be adjusted as set forth in ~~((Subsection))~~ subsection 20(d) of this ordinance.

4 (h) ~~((Intermediate and Junior Lien-))~~ **Reimbursement Obligations.** If any
5 payment under a Parity Reimbursement Obligation is then due and payable, or is then reasonably
6 expected to become due and payable, the reasonably estimated amount and timing of such
7 payment, calculated in accordance with applicable generally accepted accounting principles and
8 as reflected in the annual financial statements of the Light System, shall be included in
9 calculating Annual Debt Service for purposes of delivering a Parity Certificate. If any payment
10 under a Parity Reimbursement Obligation, an Intermediate Lien Reimbursement Obligation, or
11 ~~((under))~~ a Junior Lien Reimbursement Obligation is then due and payable, or is then reasonably
12 expected to become due and payable, the reasonably estimated amount and timing of such
13 payment, calculated in accordance with applicable generally accepted accounting principles and
14 as reflected in the annual financial statements of the Light System, shall be included in
15 calculating Annual Junior Lien Debt Service for purposes of delivering a Junior Lien Coverage
16 Certificate.

17 **“Authorized Denomination”** means \$5,000 or any integral multiple thereof within a
18 maturity of a Series, or such other minimum authorized denominations as may be specified in the
19 applicable Bond Documents.

20 **“Average Annual Debt Service”** means, for purposes of calculating the Reserve Fund
21 Requirement with respect to all Parity Bonds outstanding at the time of calculation, the sum of
22 the Annual Parity Bond Debt Service remaining to be paid to the last scheduled maturity of the

1 applicable Parity Bonds, divided by the number of years such Parity Bonds are scheduled to
2 remain outstanding.

3 **“Balloon Bonds”** means any series of either Parity Bonds or Junior Lien Bonds, as
4 applicable, the aggregate principal amount (including Sinking Fund Requirements) of which
5 becomes due and payable in any calendar year in an amount that constitutes ~~25((%)~~ percent or
6 more of the initial aggregate principal amount of such series.

7 **“Beneficial Owner”** means, with regard to a Bond, the owner of any beneficial interest
8 in that Bond.

9 **“Bond”** means a municipal light and power revenue bond issued pursuant to this
10 ordinance.

11 **“Bond Counsel”** means a lawyer or a firm of lawyers, selected by the City, of nationally
12 recognized standing in matters pertaining to bonds issued by states and their political
13 subdivisions.

14 **“Bond Documents”** means (a) (i) with respect to any Series of the Bonds, this ordinance
15 (including any amendatory or supplemental ordinances), (ii) with respect to a series of Parity
16 Bonds other than a Series of the Bonds, the applicable Parity Bond Ordinance(s), and (iii) with
17 respect to any Junior Lien Bonds other than a Series of the Bonds, the applicable Junior Lien
18 Bond Ordinance(s); (b) the authenticated bond form; and (c) the written agreement(s) setting
19 forth the Bond Sale Terms and additional terms, conditions, or covenants pursuant to which such
20 bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale
21 resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance), (iii)
22 a bond indenture or a fiscal agent or paying agent agreement (other than the State fiscal agency
23 contract), and (iv) a direct purchase or continuing covenant agreement.

1 **“Bond Owners’ Trustee”** means a bank or trust company organized under the laws of
2 the State, or a national banking association, appointed in accordance with
3 ~~((Subsection))~~subsection 24(e) of this ordinance to act as trustee on behalf of the owners, from
4 time to time, of either the Outstanding Parity Bonds or the Outstanding Junior Lien Bonds, as the
5 case may be.

6 **“Bond Purchase Contract”** means a written offer to purchase a Series of the Bonds
7 pursuant to certain Bond Sale Terms, which offer has been accepted by the City in accordance
8 with this ordinance. In the case of a competitive sale, the Purchaser’s bid for a Series, together
9 with the official notice of sale and a Pricing Certificate confirming the Bond Sale Terms, shall
10 comprise the Bond Purchase Contract.

11 **“Bond Register”** means the books or records maintained by the Bond Registrar for the
12 purpose of registering ownership of each Bond.

13 **“Bond Registrar”** means the Fiscal Agent (unless the Director of Finance appoints a
14 different person to act as bond registrar with respect to a particular Series), or any successor
15 bond registrar selected in accordance with the System of Registration~~((Ordinance))~~.

16 **“Bond Sale Terms”** means the terms and conditions for the sale of a Series of the Bonds
17 approved by the Director of Finance consistent with the parameters set forth in Section 5 of this
18 ordinance, including the amount, date or dates, denominations, interest rate or rates (or
19 mechanism for determining the interest rate or rates), payment dates, final maturity, redemption
20 rights, price, and other terms, conditions or covenants. In connection with a negotiated sale or
21 private placement, the Bond Sale Terms shall be set forth in ~~((the))~~a Bond Purchase Contract; in
22 connection with a competitive sale, the Bond Sale Terms shall be set forth in a Pricing
23 Certificate.

1 **“Book-Entry Form”** means a fully registered form in which physical bond certificates
2 are registered only in the name of the Securities Depository (or its nominee), as Registered
3 Owner, with the physical bond certificates held by and “immobilized” in the custody of the
4 Securities Depository or its designee, where the system for recording and identifying the transfer
5 of the ownership interests of the Beneficial Owners in those Bonds is neither maintained by nor
6 the responsibility of the City or the Bond Registrar.

7 **“Capital Appreciation Bond”** means any Parity Bond or Junior Lien Bond, all or a
8 portion of the interest on which is compounded and accumulated at the rates or in the manner,
9 and on the dates, set forth in the applicable Bond Documents, and is payable only upon
10 redemption or on the maturity date of such Capital Appreciation Bond. A Parity Bond or a Junior
11 Lien Bond that is issued as a Capital Appreciation Bond, but which later converts to an
12 obligation on which interest is paid periodically, shall be a Capital Appreciation Bond until the
13 conversion date and thereafter shall no longer be a Capital Appreciation Bond, but shall be
14 treated as having a principal amount equal to its Accreted Value on the conversion date. For
15 purposes of (a) receiving payment of the redemption premium, if any, on a Capital Appreciation
16 Bond that is redeemed prior to maturity, or (b) computing the principal amount of Parity Bonds
17 (or Junior Lien Bonds, ~~((a))~~as applicable) held by the Owner of a Capital Appreciation Bond in
18 connection with any notice, consent, request, or demand pursuant to this ordinance or for any
19 purpose whatsoever, the principal amount of a Capital Appreciation Bond shall be deemed to be
20 its Accreted Value at the time that such notice, consent, request, or demand is given or made.

21 **“City”** means The City of Seattle, Washington(~~(, a municipal corporation duly organized~~
22 ~~and existing under the laws of the State)).~~

1 **“City Council”** means the City Council of the City, as duly and regularly constituted
2 from time to time.

3 **“Code”** means the Internal Revenue Code of 1986, or any successor thereto, as ~~((it has~~
4 ~~been and may be))~~ amended ~~((from time to))~~ at any time, and regulations thereunder.

5 ~~((“**Conservation Plan**” means the Conservation Potential Assessment 2016 of the City~~
6 ~~with respect to the Light System endorsed by the City Council in Resolution 31631, adopted~~
7 ~~January 11, 2016, as that plan may be amended, updated, supplemented or replaced from time to~~
8 ~~time, to the extent that funds are appropriated by the City therefor.))~~

9 **“Continuing Disclosure Agreement”** means, for each Series that is sold in an offering
10 subject to federal securities regulations requiring a written undertaking to provide continuing
11 disclosure, a continuing disclosure agreement entered into pursuant to Section 22 of this
12 ordinance in substantially the form attached to this ordinance as Exhibit B.

13 **“DTC”** means The Depository Trust Company, New York, New York.

14 ~~((“**Deferred Hydroelectric Project Relicensing Costs**” means certain costs required by~~
15 ~~the Federal Energy Regulatory Commission to be incurred as a condition of the renewal of~~
16 ~~licenses for the Light System’s hydroelectric projects, which costs are treated in the same~~
17 ~~manner as capital expenditures))~~

18 **“Defeasible Bonds”** means the Defeasible Parity Bonds and the Defeasible Junior Lien
19 Bonds.

20 **“Defeasible Junior Lien Bonds”** means any outstanding Junior Lien Bonds that are
21 eligible to be defeased pursuant to the Omnibus Defeasance Ordinance.

22 **“Defeasible Parity Bonds”** means any outstanding Parity Bonds that are eligible to be
23 defeased pursuant to the Omnibus Defeasance Ordinance.

1 **“Director of Finance” or “Director”** means the City’s Director of ~~((the))~~ Finance
2 ~~((Division of the Department of Finance and Administrative Services of the City)), or~~
3 ~~((any))~~ such other ~~((officer))~~ official who succeeds to substantially all of the responsibilities of
4 that office.

5 **“Event of Default”** has the meaning given in Section 24 of this ordinance. A “Parity
6 Bond Event of Default” shall refer to those Events of Default relating to nonpayment of Parity
7 Bonds, or defaults in respect of the Parity Bond covenants set forth ~~((herein))~~ in this ordinance
8 and in the applicable Parity Bond Documents giving rise to remedies available to the owners of
9 Parity Bonds. A “Junior Lien Bond Event of Default” shall refer to those Events of Default
10 relating to nonpayment of Junior Lien Bonds, or in respect of the Junior Lien Bond covenants set
11 forth herein and in the applicable Junior Lien Bond Documents giving rise to remedies available
12 to the owners of Junior Lien Bonds.

13 **“Fiscal Agent”** means the fiscal agent of the State, as the same may be designated by the
14 State from time to time.

15 **“Future Junior Lien Bonds”** means, with reference to any Series designated as Junior
16 Lien Bonds, any revenue obligations of the Light System issued or entered into after the Issue
17 Date of such Series, the payment of which constitutes a charge and lien upon Net Revenue equal
18 in priority with the charge and lien upon such ~~((revenue))~~ Net Revenue for the payment of the
19 amounts required to be paid into the Junior Lien Debt Service Fund to pay and secure payment
20 of the Junior Lien Bonds (including Junior Lien Payment Agreements and Junior Lien
21 Reimbursement Obligations), in accordance with the priority of payment set forth in Section 14
22 of this ordinance. Future Junior Lien Bonds may include Junior Lien Payment Agreements
23 issued in compliance with the Junior Lien Additional Bonds Test.

1 **“Future Parity Bond Ordinance”** means any ordinance passed by the City Council
2 providing for the issuance and sale of a series of Future Parity Bonds, and any other ordinance
3 amending or supplementing the provisions of any such ordinance.

4 **“Future Parity Bonds”** means, with reference to any Series designated as Parity Bonds,
5 any revenue obligations of the Light System issued or entered into after the Issue Date of such
6 Series, the payment of which constitutes a charge and lien upon Net Revenue equal in priority
7 with the charge and lien upon such ~~((revenue))~~ Net Revenue for the payment of the amounts
8 required to be paid into the Parity Bond Fund and the Reserve Fund to pay and secure payment
9 of the Parity Bonds ~~((including Parity Payment Agreements),-))~~ in accordance with Section 14 of
10 this ordinance. Future Parity Bonds ~~((may))~~ include Parity Payment Agreements, Parity
11 Reimbursement Obligations, and any other obligations issued in compliance with the Parity
12 Conditions.

13 **“Government Obligations”** means, unless otherwise limited in the Bond Documents for
14 a particular Series of the Bonds, any government obligation as that term is defined in RCW
15 39.53.010, as ~~((now in effect or as may hereafter be))~~ amended at any time.

16 **“Gross Revenues”** means (a) all income, revenues, receipts and profits derived by the
17 City through the ownership and operation of the Light System; (b) the proceeds received by the
18 City directly or indirectly from the sale, lease or other disposition of any of the properties, rights
19 or facilities of the Light System; (c) Payment Agreement Receipts, to the extent that such
20 receipts are not offset by Payment Agreement Payments; and (d) the investment income earned
21 on money held in any fund or account of the City, including any bond redemption funds and the
22 accounts therein, in connection with the ownership and operation of the Light System. Gross
23 Revenues do not include: (i) insurance proceeds compensating the City for the loss of a capital

1 asset; (ii) income derived from investments irrevocably pledged to the payment of any defeased
2 bonds payable from Gross Revenues; (iii) investment income earned on money in any fund or
3 account created or maintained solely for the purpose of complying with the arbitrage rebate
4 provisions of the Code; (iv) any gifts, grants, donations, or other funds received by the City from
5 any State or federal agency or other person if such gifts, grants, donations, or other funds are the
6 subject of any limitation or reservation imposed by the donor or grantor or imposed by law or
7 administrative regulation to which the donor or grantor is subject, limiting the application of
8 such funds in a manner inconsistent with the application of Gross Revenues hereunder; (v) the
9 proceeds of any borrowing for capital improvements (or the refinancing thereof); and (vi) the
10 proceeds of any liability or other insurance (excluding business interruption insurance or other
11 insurance of like nature insuring against the loss of revenues).

12 ~~((“High Ross Agreement” means the agreement dated as of March 30, 1984, between the
13 City and Her Majesty the Queen in Right of the Province of British Columbia relating to the City’s
14 High Ross Dam.))~~

15 ~~((“High Ross Capital Payments” means the deferred portion of the annual capital
16 payments required to be made by the City under Section 5 of the High Ross Agreement,
17 representing the annual cost that would have been incurred by the City for the construction of the
18 High Ross Dam.))~~

19 **“Intermediate Lien Reimbursement Obligation”** means any payment or
20 reimbursement obligation incurred under a written agreement entered into in connection with a
21 series of Parity Bonds or to obtain Qualified Insurance or a Qualified Letter of Credit, under
22 which the City’s payment obligations are expressly stated to constitute a lien and charge on Net
23 Revenue junior in rank to the lien and charge upon such Net Revenue required to be paid into the

1 Parity Bond Fund to pay and secure the payment of the Parity Bonds, but senior to the lien and
2 charge upon such Net Revenue required to be paid into the Junior Lien ~~((Bond))~~Debt Service
3 Fund to pay and secure the payment of the Junior Lien Bonds. ~~((Intermediate Lien Obligations~~
4 ~~shall include the subordinate “Obligations” incurred under (and as defined in) that certain~~
5 ~~Continuing Covenant Agreement executed in connection with the issuance and sale of the City’s~~
6 ~~outstanding Municipal Light and Power Revenue Bonds, 2017A (Multimodal) and Municipal~~
7 ~~Light and Power Revenue Bonds, 2017B (Multimodal).))~~For purposes of determining
8 percentages of ownership of ~~((Junior Lien Bond))~~Bonds under this ordinance or under any Bond
9 Documents, ~~((Junior))~~Intermediate Lien Reimbursement Obligations shall be deemed to have no
10 principal amount, and any consent or similar rights (if any) shall be determined only as set forth
11 in the applicable ~~((Junior))~~Intermediate Lien Reimbursement Obligations.

12 **“Issue Date”** means, with respect to a Bond, the initial date on which that Bond is issued
13 and delivered to the initial Purchaser in exchange for its purchase price.

14 **“Junior Lien Additional Bonds Test”** means the conditions set forth in
15 ~~((Subsection))~~subsection 18(b) of this ordinance for issuing additional Junior Lien Bonds
16 (including Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations).

17 ~~((“Junior Lien Coverage Certificate” means a certificate delivered pursuant to Section~~
18 ~~18(b)(ii), for purposes of satisfying the Junior Lien Additional Bonds Test in connection with the~~
19 ~~issuance of Future Junior Lien Bonds.))~~

20 ~~((“Junior Lien Debt Service Fund” means the special fund of the City known as the~~
21 ~~Seattle Municipal Light Revenue Junior Lien Debt Service Fund established within the Light Fund~~
22 ~~pursuant to this ordinance for purpose of paying and securing the principal of and interest on Junior~~

1 ~~Lien Bonds and securing obligations under Junior Lien Payment Agreements and Junior Lien~~
2 ~~Reimbursement Obligations.)~~)

3 **“Junior Lien Bond”** means, generally, any bond or obligation secured by a lien and
4 charge on Net Revenue that is junior and subordinate to the lien and charge of the Parity Bonds
5 and Intermediate Lien Reimbursement Obligations, but prior and superior to other liens and
6 charges, in accordance with the priority of payment set forth in Section 14 of this ordinance. The
7 term Junior Lien Bond may refer to (a) any Bond of a Series issued pursuant to this ordinance
8 that is so designated by the Director of Finance upon satisfaction of the Junior Lien Additional
9 Bonds Test;² (b) any Future Junior Lien Bond; (c) any Junior Lien Payment Agreement; and (d)
10 any Junior Lien Reimbursement Obligation.

11 **“Junior Lien Bond Documents”** means those Bond Documents applicable to a series of
12 Junior Lien Bonds.

13 **“Junior Lien Bond Ordinance”** means this ordinance~~((;))~~ (if used in connection with
14 the issuance of a series of Junior Lien Bonds authorized hereby) and any ~~((other))~~ future
15 ordinance~~((passed by the City Council in the future))~~ authorizing the issuance and sale of any
16 Future Junior Lien Bonds, including any ordinance amending or supplementing the provisions of
17 any Junior Lien Bond Ordinance.

18 **“Junior Lien Coverage Certificate”** means a certificate delivered pursuant to
19 subsection 18(b)(ii) of this ordinance, for purposes of satisfying the Junior Lien Additional
20 Bonds Test in connection with the issuance of Future Junior Lien Bonds.

21 **“Junior Lien Debt Service Fund”** means the special fund of the City known as the
22 Seattle Municipal Light Revenue Junior Lien Debt Service Fund established within the Light
23 Fund pursuant to Ordinance 125459 for the purpose of paying and securing the principal of and

1 interest on Junior Lien Bonds and securing obligations under Junior Lien Payment Agreements
2 and Junior Lien Reimbursement Obligations.

3 **“Junior Lien Payment Agreement”** means any Payment Agreement(~~(, which)~~) that is
4 entered into in compliance with the Junior Lien Additional Bonds Test, and under which the
5 City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue
6 equal in rank with the lien and charge upon such Net Revenue required to be paid into the Junior
7 Lien Debt Service Fund to pay and secure the payment of the Junior Lien Bonds in accordance
8 with Section 14 of this ordinance. For purposes of determining percentages of ownership of
9 Junior Lien Bonds under this ordinance or under any Bond Documents, Junior Lien Payment
10 Agreements shall be deemed to have no principal amount, and any consent or similar rights (if
11 any) shall be determined only as set forth in the applicable Junior Lien Payment Agreement.

12 **“Junior Lien Reimbursement Obligation”** means any reimbursement obligation
13 incurred under a written reimbursement agreement (or similar agreement) entered into in
14 connection with a series of Junior Lien Bonds to obtain Qualified Insurance or a Qualified Letter
15 of Credit, under which the City’s payment obligations are expressly stated to constitute a lien and
16 charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required
17 to be paid into the Junior Lien Debt Service Fund to pay and secure the payment of the Junior
18 Lien Bonds. For purposes of determining percentages of ownership of Junior Lien Bonds under
19 this ordinance or under any Bond Documents, Junior Lien Reimbursement Obligations shall be
20 deemed to have no principal amount, and any consent or similar rights (if any) shall be
21 determined only as set forth in the applicable Junior Lien Reimbursement Obligations.

1 **“Letter of Representations”** means the Blanket Issuer Letter of Representations
2 between the City and DTC dated October 4, 2006, as(~~(it may be)~~) amended (~~(from time to)~~)at
3 any time, or an agreement with a substitute or successor Securities Depository.

4 **“Light Fund”** means the special fund(~~(of the City)~~) of that name
5 (~~(heretofore)~~)previously created and established by the City(~~(Council)~~).

6 **“Light System”** means the municipal light and power generation, transmission, and
7 distribution system now belonging to or (~~(which)~~)that may (~~(hereafter)~~)later belong to the City.

8 (~~“MSRB” means the Municipal Securities Rulemaking Board.~~)

9 **“Maximum Annual Debt Service”** means, with respect to Parity Bonds (or Junior Lien
10 Bonds, as applicable), the maximum amount of Annual Debt Service that shall become due in
11 the current calendar year or in any future calendar year with respect to those Parity Bonds (or
12 Junior Lien Bonds, as applicable) that are outstanding as of the calculation date.

13 **“MSRB”** means the Municipal Securities Rulemaking Board.

14 **“Net Revenue”** for any period means Gross Revenues less Operating and Maintenance
15 Expense.

16 **“Omnibus Defeasance Ordinance”** means Ordinance 126220, as amended at any time,
17 authorizing the defeasance of Defeasible Bonds, or any future ordinance of the City pursuant to
18 which the Bonds (or any Series of the Bonds) are designated as Defeasible Bonds.

19 **“Omnibus Refunding Ordinance”** means this ordinance(~~(-)~~), which amends and
20 restates Ordinance 125460, as (~~(it may be)~~) amended (~~(from time to time) or~~) by Ordinance
21 125987, and any other future ordinance of the City(~~(passed in the future,)~~) pursuant to which the
22 Bonds (or any Series of the Bonds) are designated as Refundable Bonds.

1 **“Operating and Maintenance Expense”** means all reasonable charges incurred by the
2 City in causing the Light System to be operated and maintained in good repair, working order
3 and condition, including but not limited to all operating expenses under applicable generally
4 accepted accounting principles included in the annual audited financial statements of the Light
5 System, except those excluded in this definition. Operating and Maintenance Expense does not
6 include: (a) extraordinary, nonrecurring expenses of the Light System or any judgments or
7 amounts to be paid in settlement of claims against the Light System; (b) non-cash expenses
8 relating to a mark-to-market treatment of energy-related contracts; (c) any costs or expenses
9 (including interest expense) for new construction, replacements, or renewals of Light System
10 property; (d) Deferred Hydroelectric Project Relicensing Costs, the High Ross Capital Payments
11 (as defined in the Outstanding Parity Bond Ordinances), or other similar payments under any
12 agreement for the development or licensing of a capital improvement or asset, under which
13 agreement the City agrees to make periodic payments in respect of ~~((the))~~its share of the capital
14 expense; (e) any allowance for depreciation, amortization, or similar recognitions of non-cash
15 expense items made for accounting purposes only (including non-cash pension expense); (f) any
16 taxes levied by or paid to the City (or payments in lieu of taxes) upon the properties or earnings
17 of the Light System; or (g) any obligation authorized pursuant to ordinance or resolution
18 specifically excluding the payment of such obligation from Operating and Maintenance Expense.

19 **“Outstanding Junior Lien Bonds”** means, with reference to a particular Series of Junior
20 Lien Bonds issued pursuant to this ordinance, those Junior Lien Bonds that are outstanding as of
21 the Issue Date of such Series.

22 **“Outstanding Parity Bond Ordinances”** means the ordinances authorizing the various
23 series of Outstanding Parity Bonds.

1 **“Outstanding Parity Bonds”** means, when referencing Parity Bonds outstanding as of
2 the date of this ordinance, those outstanding Parity Bonds identified in Exhibit A to this
3 ordinance. When used in reference to a particular date in the future or in reference to a particular
4 series of Parity Bonds, Outstanding Parity Bonds shall mean those Parity Bonds (~~((including any~~
5 ~~Parity Bonds issued subsequent to the date of this ordinance))~~) that are outstanding as of that
6 future date or as of the issue date of such series.

7 **“Owner”** means, without distinction, the Registered Owner and the Beneficial Owner of
8 a Bond.

9 **“Parity Bond”** means, generally, any bond or obligation secured by a lien and charge on
10 Net Revenue that is prior and superior to any other liens or charges whatsoever, in accordance
11 with the priority of payment set forth in Section 14 of this ordinance. The term Parity Bond may
12 refer to: (a) the Outstanding Parity Bonds identified in Exhibit A to this ordinance; (b) each
13 Series of the Bonds designated by the Director of Finance as a Series of Parity Bonds upon
14 satisfaction of the Parity Conditions; (c) any Future Parity Bonds; and (d) any Parity Payment
15 Agreement entered into upon satisfaction of the Parity Conditions.

16 **“Parity Bond Documents”** means those Bond Documents applicable to a series of Parity
17 Bonds.

18 **“Parity Bond Fund”** means the special fund of the City known as the Seattle Municipal
19 Light Revenue Parity Bond Fund established within the Light Fund pursuant to Ordinance 92938
20 for the purpose of paying and securing the payment of principal of and interest on Parity Bonds
21 (including Parity Payment Agreement Payments) and payments under Parity Reimbursement
22 Obligations.

1 **“Parity Bond Ordinance”** means any ordinance passed by the City Council providing
2 for the issuance and sale of any Series of Parity Bonds, and any other ordinance amending or
3 supplementing the provisions of any Parity Bond Ordinance.

4 **“Parity Certificate”** means a certificate delivered pursuant to ~~((Subsection))~~subsection
5 18(a)(ii) of this ordinance, and the corresponding provisions of the Outstanding Parity Bond
6 Ordinances, for purposes of satisfying the Parity Conditions in connection with the issuance of
7 the Bonds and any Future Parity Bonds.

8 **“Parity Conditions”** means~~((§))~~ (a) for purposes of establishing that a Series of the
9 Bonds may be issued on parity with the Parity Bonds outstanding as of the Issue Date of such
10 Series, the conditions for issuing Future Parity Bonds set forth in the Parity Bond Ordinances
11 relating to those Parity Bonds that are then outstanding; and (b) for purposes of issuing Future
12 Parity Bonds on parity with a Series of the Bonds, the conditions described in the preceding
13 clause (a) together with the conditions set forth in ~~((Subsection))~~subsection 18(a) of this
14 ordinance.

15 ~~((“Parity Covenant Date” means the earlier of (a) the date on which the City has~~
16 ~~obtained consents of the requisite percentage of Registered Owners of the Parity Bonds then~~
17 ~~outstanding, in accordance with the provisions of the applicable Outstanding Parity Bond~~
18 ~~Documents; or (b) the date on which all of the following Outstanding Parity Bonds have been~~
19 ~~redeemed or defeased: Municipal Light and Power Improvement and Refunding Revenue Bonds,~~
20 ~~2008; Municipal Light and Power Revenue Bonds, 2010A (Taxable Build America Bonds—~~
21 ~~Direct Payment); Municipal Light and Power Improvement and Refunding Revenue Bonds,~~
22 ~~2010B; Municipal Light and Power Revenue Bonds, 2010C (Taxable Recovery Zone Economic~~
23 ~~Development Bonds—Direct Payment); Municipal Light and Power Improvement and~~

1 ~~Refunding Revenue Bonds, 2011A; Municipal Light and Power Improvement Revenue Bonds,~~
2 ~~2011B (Taxable New Clean Renewable Energy Bonds—Direct Payment); Municipal Light and~~
3 ~~Power Improvement and Refunding Revenue Bonds, 2012A; Municipal Light and Power~~
4 ~~Improvement Revenue Bonds, 2012C (Taxable New Clean Renewable Energy Bonds—Direct~~
5 ~~Payment); Municipal Light and Power Improvement and Refunding Revenue Bonds, 2013;~~
6 ~~Municipal Light and Power Improvement and Refunding Revenue Bonds, 2014; Municipal Light~~
7 ~~and Power Revenue Bonds, 2015A; Municipal Light and Power Revenue Bonds, 2015B-1~~
8 ~~(SIFMA Index); and Municipal Light and Power Revenue Bonds, 2015B-2 (SIFMA Index).)~~

9 **“Parity Payment Agreement”** means a Payment Agreement ~~((which))~~that is entered
10 into in compliance with the Parity Conditions and under which the City’s payment obligations
11 are expressly stated to constitute a lien and charge on Net Revenue equal in rank with the lien
12 and charge upon such Net Revenue required to be paid into the Parity Bond Fund and the
13 Reserve Fund to pay and secure the payment of principal of and interest on Parity Bonds in
14 accordance with Section 14 of this ordinance. For purposes of determining percentages of
15 ownership of Parity Bonds under this ordinance or under any Bond Documents, Parity Payment
16 Agreements shall be deemed to have no principal amount, and any consent or similar rights (if
17 any) shall be determined only as set forth in the applicable Parity Payment Agreement.

18 **“Parity Reimbursement Obligation”** means any payment or reimbursement obligation
19 incurred under a written agreement entered into in connection with a series of Parity Bonds or to
20 obtain Qualified Insurance or a Qualified Letter of Credit (other than Qualified Insurance or a
21 Qualified Letter of Credit obtained to satisfy all or part of the Reserve Fund Requirement), under
22 which the City’s payment obligations are expressly stated to constitute a lien and charge on Net
23 Revenue equal in rank to the lien and charge upon such Net Revenue required to be paid into the

1 Parity Bond Fund to pay and secure the payment of the principal of and interest on the Parity
2 Bonds. Parity Reimbursement Obligations accruing as a result of a mandatory tender for
3 purchase of Parity Bonds shall be excluded from the calculation of Annual Debt Service for all
4 purposes. For purposes of determining percentages of ownership of Parity Bonds, Parity
5 Reimbursement Obligations shall be deemed to have no principal amount, and any consent or
6 similar rights (if any) shall be determined only as set forth in the applicable Parity
7 Reimbursement Obligation.

8 **“Payment Agreement”** means a written agreement entered into by the City and a
9 Qualified Counterparty, as authorized by any applicable laws of the State, for the purpose of
10 managing or reducing the City’s exposure to fluctuations or levels of interest rates, or for other
11 interest rate, investment, or asset or liability management purposes, and which provides for (i) an
12 exchange of payments based on interest rates, ceilings, or floors on such payments, (ii) options
13 on such payments; (iii) any combination of the foregoing, or (iv) any similar device. A Payment
14 Agreement may be entered into on either a current or forward basis. A Payment Agreement must
15 be entered into in connection with (or incidental to) the issuance, (~~(incurring)~~)incurrence, or
16 carrying of particular bonds, notes, bond anticipation notes, commercial paper, or other
17 obligations for borrowed money (which may include leases, installment purchase contracts, or
18 other similar financing agreements or certificates of participation in any of the foregoing).

19 **“Payment Agreement Payments”** means the amounts periodically required to be paid
20 by the City to a Qualified Counterparty pursuant to a Payment Agreement.

21 **“Payment Agreement Receipts”** means the amounts periodically required to be paid by
22 a Qualified Counterparty to the City pursuant to a Payment Agreement.

1 **“Permitted Investments”** means any investments or investment agreements permitted
2 for the investment of City funds under the laws of the State, as amended (~~((from time to))~~)at any
3 time.

4 **“Pricing Certificate”** means a certificate executed by the Director of Finance as of the
5 pricing date confirming the Bond Sale Terms for the sale of a Series of the Bonds to the
6 Purchaser in a competitive sale, in accordance with the parameters set forth in Section 5 of this
7 ordinance.

8 **“Professional Utility Consultant”** means the independent person(s) or firm(s) selected
9 by the City having a favorable reputation for skill and experience with electric systems of
10 comparable size and character to the Light System in such areas as are relevant to the purposes
11 for which they were retained.

12 **“Purchaser”** means the entity or entities who have been selected by the Director of
13 Finance in accordance with this ordinance(~~((to serve))~~) as underwriter, purchaser or successful
14 bidder in a sale of any Series of the Bonds.

15 **“Qualified Counterparty”** means a party (other than the City or a person related to the
16 City) who is the other party to a Payment Agreement and who is qualified to act as the other
17 party to a Payment Agreement under any applicable laws of the State.

18 **“Qualified Insurance”** means any municipal bond insurance policy, surety bond, or
19 similar credit enhancement device, issued by any insurance company licensed to conduct an
20 insurance business in any state of the United States, by a service corporation acting on behalf of
21 one or more such insurance companies, or by any other financial institution, the provider of
22 which, as of the time of issuance of such credit enhancement device, is rated in one of the two

1 highest rating categories (without regard to gradations within such categories) by at least two
2 nationally recognized rating agencies.

3 **“Qualified Letter of Credit”** means any letter of credit, standby bond purchase
4 agreement, or other liquidity facility issued by a financial institution for the account of the City
5 in connection with the issuance of any Parity Bond or Junior Lien Bond, which institution
6 maintains an office, agency or branch in the United States and, as of the time of issuance of such
7 instrument, is rated in one of the two highest rating categories (without regard to gradations
8 within such categories) by at least two nationally recognized rating agencies.

9 ~~((“RBI” means *The Bond Buyer Revenue Bond Index* or comparable index, or, if no
10 comparable index can be obtained, 80% of the interest rate for actively traded 30-year United
11 States Treasury obligations.))~~

12 **“Rate Stabilization Account”** means the account of that name previously established in
13 the Light Fund pursuant to Ordinance 121637.

14 **“Rating Agency”** means any nationally recognized rating agency then maintaining a
15 rating on a Series of the Bonds at the request of the City.

16 **“Record Date”** means, unless otherwise defined in the Bond Documents, in the case of
17 each interest or principal payment date, the Bond Registrar’s close of business on the 15th day of
18 the month preceding ~~((the))~~such interest or principal payment date. With regard to redemption of
19 a Bond prior to its maturity, the Record Date shall mean the Bond Registrar’s close of business
20 on the day prior to the date on which the Bond Registrar sends the notice of redemption to the
21 Registered Owner(s) of the affected Bonds.

22 **“Refundable Bonds”** means the Refundable Parity Bonds and the Refundable Junior
23 Lien Bonds.

1 **“Refundable Junior Lien Bonds”** means any ~~((Outstanding))~~then outstanding Junior
2 Lien Bonds that ~~((have been designated, or may in the future be designated, as refundable under~~
3 ~~this ordinance))~~are eligible to be refunded pursuant to the Omnibus Refunding Ordinance.

4 **“Refundable Parity Bonds”** means any ~~((Outstanding))~~then outstanding Parity Bonds
5 that ~~((have been designated, or may in the future be designated, as refundable under this~~
6 ~~ordinance))~~eligible to be refunded pursuant to the Omnibus Refunding Ordinance.

7 **“Refunded Bond Documents”** means those Bond Documents applicable to the original
8 issuance of a series of~~((the))~~ Refunded Bonds.

9 **“Refunded Bonds”** means those Refundable Bonds identified in a Refunding Plan in
10 accordance with this ordinance.

11 **“Refunding Junior Lien Bonds”** means Future Junior Lien Bonds that satisfy the
12 applicable Junior Lien Additional Bonds Test and are issued pursuant to this ordinance (or
13 another Future Junior Lien Bond Ordinance) for the purpose of refunding any Refundable Junior
14 Lien Bonds.

15 **“Refunding Parity Bonds”** means Future Parity Bonds that satisfy the applicable Parity
16 Conditions and are issued pursuant to this ordinance (or another Future Parity Bond Ordinance)
17 for the purpose of refunding any Refundable Parity Bonds.

18 **“Refunding Plan”** means the plan approved by the Director of Finance pursuant to the
19 delegation set forth herein to accomplish the refunding of Refundable Bonds. Each Refunding
20 Plan must identify the maturities and series of Refundable Bonds to be refunded thereby, and
21 must provide for their defeasance and/or refunding, substantially as follows, with such additional
22 detail and adjustments to be set forth in the Refunding Trust Agreement (including, without

1 limitation, adjustments to permit a crossover refunding or the refunding of variable rate bonds)
2 as the Director of Finance may deem necessary or desirable:

3 (a) The City shall issue a Series of the Bonds (which may be combined within the
4 Series with Bonds of the same seniority, authorized hereunder or separately) and, upon receipt,
5 shall deposit the proceeds of the sale of such Series, together with such other money as may be
6 included in the plan by the Director of Finance, into a refunding escrow or trust account held by
7 the Refunding Trustee;

8 (b) Upon receipt of a certification or verification by a certified public accounting firm
9 or other financial advisor that the amounts deposited with it will be sufficient to accomplish the
10 refunding as described in such Refunding Trust Agreement, the Refunding Trustee shall invest
11 such escrow deposits in the Acquired Obligations specified therein (unless directed in the
12 Refunding Trust Agreement to hold such deposits uninvested) and shall establish a beginning
13 cash balance; and

14 (c) As further directed in the Refunding Trust Agreement, the Refunding Trustee
15 shall apply the amounts received as interest on and maturing principal of such Acquired
16 Obligations (together with any cash balance in the refunding trust account) to call, pay, and
17 redeem those Refundable Bonds on the dates and times identified in the plan, and (if so directed)
18 to pay the administrative costs of carrying out the foregoing.

19 If the Director of Finance serves as the Refunding Trustee, the Director of Finance shall
20 approve a written Refunding Plan (which need not be set forth in a Refunding Trust Agreement)
21 providing that the escrow funds are to be held separate and apart from all other funds of the City
22 and are to be applied substantially as set forth above. A Refunding Plan may provide for the
23 issuance of Refunding Parity Bonds or Refunding Junior Lien Bonds to refund any Refundable

1 Bonds, regardless of whether such Refundable Bonds are Parity Bonds or Junior Lien Bonds,
2 provided that the conditions of Section 18 of this ordinance are met as of the Issue Date of such
3 Refunding Bonds.

4 **“Refunding Trust Agreement”** means an escrow or trust agreement between the City
5 and a Refunding Trustee, as described in Section ~~((26))~~25(d) of this ordinance.

6 **“Refunding Trustee”** means the Director of Finance, or a financial institution selected
7 by the Director of Finance, serving in the capacity of refunding trustee or escrow agent under a
8 Refunding Trust Agreement.

9 **“Registered Owner”** means, with respect to a Bond, the person in whose name that
10 Bond is registered on the Bond Register. For so long as a Series of the Bonds is in Book-Entry
11 Form under a Letter of Representations, the Registered Owner of such Series shall mean the
12 Securities Depository.

13 ~~((“Registration Ordinance” means City Ordinance 111724 establishing a system of
14 registration for the City’s bonds and other obligations pursuant to Seattle Municipal Code Chapter
15 5.10, as that chapter now exists or may hereafter be amended.))~~

16 **“Reserve Fund”** means ~~the~~a special fund of the City known as the Municipal Light and
17 Power Bond Reserve Fund, established pursuant to Ordinance 71917 and maintained pursuant to
18 the Outstanding Parity Bond Ordinances and this Ordinance as a separate account within the
19 Light Fund ~~((pursuant to Ordinance 71917, as amended,))~~ to secure the payment of the Parity
20 Bonds.

21 **“Reserve Fund Requirement”** means, for any Series of Bonds designated as Parity
22 Bonds, the Reserve Fund Requirement established in the Bond Sale Terms for that Series and
23 any other Series issued as part of a single “issue” of Parity Bonds, consistent with Section 15 of

1 this ordinance. For any (~~(Series))~~series of Future Parity Bonds, the Reserve Fund Requirement
2 means the requirement specified for that (~~(Series))~~series in the ~~B~~bond ~~S~~sale ~~T~~terms associated
3 with that issue. The aggregate Reserve Fund Requirement for all Parity Bonds shall be the sum
4 of the Reserve Fund Requirements for each (~~(Series))~~series of Parity Bonds. For purposes of this
5 definition, “issue” means all Series of Parity Bonds issued and sold pursuant to a common set of
6 ~~B~~bond ~~S~~sale ~~T~~terms. For the purposes of calculating the Reserve Fund Requirement only, the
7 City shall deduct from Annual Debt Service the Tax Credit Subsidy Payments the City is
8 scheduled to claim from the federal government in respect of the interest on a (~~(Series))~~series of
9 Parity Bonds that are Tax Credit Subsidy Bonds (or with respect to which the federal
10 government is otherwise scheduled to provide direct payments).

11 **“Rule 15c2-12”** means Rule 15c2-12 promulgated by the SEC under the Securities
12 Exchange Act of 1934, as amended at any time.

13 **“SEC”** means the United States Securities and Exchange Commission.

14 **“SIFMA Municipal Swap Index”** means the Securities Industry and Financial Markets
15 Association (SIFMA) Municipal Swap Index, calculated and published by Bloomberg and
16 overseen by SIFMA’s Municipal Swap Index Committee, or a substantially similar recognized
17 market successor index representing a seven-day market index comprised of certain high-grade
18 tax-exempt variable rate demand obligations.

19 **“Securities Depository”** means DTC, any successor thereto, any substitute securities
20 depository selected by the City, or the nominee of any of the foregoing. Any successor or
21 substitute Securities Depository must be qualified under applicable laws and regulations to
22 provide the services proposed to be provided by it.

1 **“Serial Bond”** means any Parity Bond or Junior Lien Bond maturing in a specified year,
2 for which no Sinking Fund Requirements are mandated.

3 **“Series”** means, when capitalized in this ordinance, a (~~Series~~)series of the Bonds issued
4 pursuant to this ordinance.

5 **“Sinking Fund Account”** means (a) with respect to Parity Bonds, any account created in
6 the Parity Bond Fund to amortize the principal or make mandatory redemptions of Parity Bonds
7 that are Term Bonds; and (b) with respect to Junior Lien Bonds, any account created in the
8 Junior Lien Debt Service Fund to amortize the principal or make mandatory redemptions of
9 Junior Lien Bonds that are Term Bonds.

10 **“Sinking Fund Requirement”** means, for any calendar year, the principal portion (and
11 required redemption premium, if any) of any Term Bond that is required to be purchased,
12 redeemed, paid at maturity, or paid into any Sinking Fund Account for such calendar year, as
13 established in the applicable Bond Documents.

14 **“State”** means the State of Washington.

15 **“State Auditor”** means the office of the Auditor of the State or such other department or
16 office of the State authorized and directed by State law to make audits.

17 **“System of Registration”** means the system of registration for the City’s bonds and
18 other obligations, established pursuant to Seattle Municipal Code Chapter 5.10, as amended at
19 any time.

20 **“Tax Credit Subsidy Bond”** means any Taxable Bond that is designated by the City as a
21 tax credit bond pursuant to the Code and as a “qualified bond” under Section 6431 or similar
22 provision of the Code, and with respect to which the City is eligible to claim a Tax Credit
23 Subsidy Payment.

1 **“Tax Credit Subsidy Payment”** means a payment by the federal government with
2 respect to a Tax Credit Subsidy Bond.

3 **“Tax-Exempt Bond”** means any Parity Bond or Junior Lien Bond, the interest on which
4 is intended, as of the Issue Date, to be excludable from gross income for federal income tax
5 purposes.

6 **“Taxable Bond”** means any Parity Bond or Junior Lien Bond, the interest on which is
7 not intended, as of the Issue Date, to be excludable from gross income for federal income tax
8 purposes.

9 **“Term Bond”** means any Parity Bond or Junior Lien Bond that is issued subject to
10 mandatory redemption in periodic (~~installments of principal~~) Sinking Fund Requirements prior
11 to its maturity date.

12 **“Valuation Date”** means, with respect to any Capital Appreciation Bond, the date or
13 dates, determined as set forth in the applicable Bond Documents, on which specific Accreted
14 Values are assigned to that Capital Appreciation Bond.

15 **“Variable Interest Rate”** means any interest rate that fluctuates during the stated term of
16 a bond (or during a stated period during which the bond is designated as a Variable Interest Rate
17 Bond), whether due to a remarketing, a market index reset, or other mechanism set forth in the
18 applicable Bond Documents. The Bond Documents for any Series of the Bonds bearing interest
19 at a Variable Interest Rate shall set forth: (a) the available method(s) of computing interest (the
20 “interest rate modes”); (b) the particular period or periods of time (or manner of determining
21 such period or periods of time) for which each value of such Variable Interest Rate (or each
22 interest rate mode) shall remain in effect; (c) provisions for conversion from one interest rate
23 mode to another and for setting or resetting the interest rates; and (d) the time or times upon

1 which any change in such Variable Interest Rate (or any conversion of interest rate modes) shall
2 become effective.

3 **“Variable Interest Rate Bond”** means, for any period of time, any Parity Bond or Junior
4 Lien Bond that bears interest at a Variable Interest Rate during that period. A bond shall not be
5 treated as a Variable Interest Rate Bond if the net economic effect of (a) interest rates on a
6 particular series of Parity Bonds (or Junior Lien Bonds, as applicable), as set forth in the
7 applicable Bond Documents, and (b) either (i) interest rates on another series of Parity Bonds (or
8 Junior Lien Bonds, as applicable) issued at substantially the same time, or (ii) a Payment
9 Agreement related to that particular series, in either case, is to produce obligations that bear
10 interest at a fixed interest rate. Any Parity Bond or Junior Lien Bond with respect to which a
11 Payment Agreement is in force shall be treated as a Variable Interest Rate Bond if the net
12 economic effect of the Payment Agreement is to produce an obligation that bears interest at a
13 Variable Interest Rate.

14 Section 2. **Finding With Respect to Refunding.** The City Council(~~hereby~~) finds that
15 the irrevocable deposit of money and securities with a Refunding Trustee, verified or certified as
16 to sufficiency in accordance with a Refunding Plan approved pursuant to this ordinance, will
17 discharge and satisfy the obligations of the City as to the Refunded Bonds identified therein,
18 including all pledges, charges, trusts, covenants and agreements under the applicable Refunded
19 Bond Documents. Immediately upon such deposit, the Refunded Bonds identified in such
20 Refunding Plan shall be defeased and shall no longer be deemed to be outstanding under the
21 applicable Refunded Bond (~~Legislation~~)Documents.

22 Section 3. **Authorization of Bonds; Due Regard Finding.**

1 (a) **The Bonds.** ~~((The))~~To refund outstanding Refundable Bonds, the City is
2 authorized to issue municipal light and power revenue refunding bonds payable from the sources
3 described in Section 13 of this ordinance and secured as either Parity Bonds or Junior Lien
4 Bonds, as determined by the Director of Finance in accordance with Section 5 of this ordinance.
5 All municipal light and power revenue bonds and other obligations designated at any time as
6 Refundable Bonds are eligible to be refunded under this ordinance. The Bonds authorized by this
7 ordinance may be issued in ~~((one or more))~~multiple Series in a maximum aggregate principal
8 amount not to exceed the amount stated in Section 5~~((7))~~of this ordinance for the purposes of: (a)
9 providing funds, from time to time, to carry out the current or advance refunding of all or a
10 portion of the outstanding Refundable Bonds pursuant to an approved Refunding Plan; (b)
11 providing for the Reserve Fund Requirement (if any); (c) capitalizing interest on the Bonds (if
12 necessary) and paying costs of issuance; and (d) for other Light System purposes approved by
13 ordinance. The Bonds may be issued in multiple Series and may be combined with other
14 municipal light and power revenue bonds authorized separately. The Bonds shall be designated
15 municipal light and power revenue bonds, shall be numbered separately and shall have any
16 name, year, ~~((and Series))~~series, or other labels as deemed necessary or appropriate by the
17 Director of Finance. Any Series of the Bonds designated as Junior Lien Bonds shall bear a
18 designation clearly indicating that such Bonds are Junior Lien Bonds.

19 (b) **City Council Finding.** The City Council~~((hereby))~~ finds that, in creating the
20 Parity Bond Fund, the Reserve Fund, and the Junior Lien Debt Service Fund (collectively, the
21 “Bond Funds”), and in fixing the amounts to be paid into those funds in accordance with this
22 ordinance and the parameters for the Bond Sale Terms set forth in Section 5 of this ordinance,
23 the City Council has exercised due regard for the cost of operation and maintenance of the Light

1 System, and is not setting aside into such Bond Funds a greater amount than in the judgment of
2 the City Council, based on the rates established from time to time consistent with
3 ~~((Subsection))~~subsection 17(a)(ii) of this ordinance, will be sufficient, in the judgment of the
4 City Council, to meet all expenses of operation and maintenance of the Light System and to
5 provide the amounts previously pledged for the payment of all outstanding obligations payable
6 out of Gross Revenues and pledged for the payment of the Bonds. Therefore, the City Council
7 ~~hereby~~ finds that the issuance and sale of the Bonds is in the best interest of the City and is in the
8 public interest.

9 Section 4. **Manner of Sale of the Bonds**. The Director of Finance may provide for the
10 sale of each Series by competitive sale, negotiated sale, limited offering, or private placement,
11 and may select and enter into agreements with remarketing agents or providers of liquidity with
12 respect to Variable Interest Rate Bonds. The Purchaser of each Series shall be chosen through a
13 selection process acceptable to the Director of Finance. The Director of Finance is authorized to
14 specify a date and time of sale and a date and time for the delivery of each Series; in the case of a
15 competitive sale, to provide an official notice of sale including bid parameters and other bid
16 requirements, and to provide for the use of an electronic bidding mechanism; to provide for and
17 determine matters relating to ((a))~~the~~ forward or delayed delivery of a Series of the Bonds, if
18 deemed desirable; and to ((determine))~~specify~~ such other matters and take such other action as in
19 ((his or her))~~the~~ Director's determination may be necessary, appropriate, or desirable in order to
20 carry out the sale of each Series. Each Series must be sold on Bond Sale Terms consistent with
21 the parameters set forth in Section 5 of this ordinance.

1 Section 5. **Appointment of Designated Representative; Bond Sale Terms.**

2 (a) **Designated Representative.** The Director of Finance is appointed to serve as the
3 City’s designated representative in connection with the issuance and sale of the Bonds in
4 accordance with RCW 39.46.040(2) and this ordinance.

5 (b) **Parameters for Bond Sale Terms.** The Director of Finance is authorized to
6 approve, on behalf of the City, Bond Sale Terms for the sale of the Bonds in one or more Series,
7 and in connection with each such sale, to execute a Bond Purchase Contract (or, in the case of a
8 competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related
9 agreements as may be necessary or desirable, consistent with the following parameters:

10 (i) **Maximum Principal Amount.** The maximum aggregate principal
11 amount of Bonds issued to carry out each Refunding Plan may not exceed ~~125((%))~~ percent of
12 the stated principal amount of those Refundable Bonds selected for refunding in that Refunding
13 Plan.

14 (ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by
15 the Director of Finance.

16 (iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

17 (iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or
18 from the most recent date to which interest has been paid or duly provided, whichever is later,
19 unless otherwise provided in the applicable Bond Documents. Each Series of the Bonds shall
20 bear interest at one or more fixed interest rates or Variable Interest Rates. The ~~((net))~~ true interest
21 cost for any fixed rate Series may not exceed a rate of ~~10((%))~~ percent per annum. The Bond
22 Documents for any Series may provide for multiple interest rates and interest rate modes, and
23 may provide conditions and mechanisms for the Director of Finance to effect a conversion from

1 one mode to another. Nothing in this ordinance shall be interpreted to prevent the Bond
2 Documents for any Series from including a provision for adjustments to interest rates during the
3 term of the Series upon the occurrence of certain events specified in the applicable Bond
4 Documents.

5 (v) **Payment Dates.** Interest shall be payable on dates acceptable to the
6 Director of Finance. Principal shall be payable on dates acceptable to the Director of Finance,
7 which shall include payment at the maturity of each Bond; in accordance with any Sinking Fund
8 Requirements applicable to Term Bonds; and otherwise in accordance with any redemption or
9 tender provisions.

10 (vi) **Final Maturity.** The final maturity of any Series of the Bonds shall be
11 determined by the Director of Finance, consistent with chapter 39.53 RCW and other applicable
12 State law, as ~~((it may be-))~~ amended ~~((from time to))~~ at any time.

13 (vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include
14 redemption and tender provisions, as determined by the Director of Finance in ~~((his))~~ the
15 Director's discretion, consistent with Section 8 of this ordinance and subject to the following:

16 (A) **Optional Redemption.** The Director of Finance may designate
17 any Bond as subject to optional redemption prior to its maturity, consistent with subsection 8(a)
18 of this ordinance. Any Bond that is subject to optional redemption prior to maturity must be
19 callable on at least one or more date(s) occurring not more than ~~((10½))~~ 10-1/2 years after the
20 Issue Date ~~((, consistent with Section 8(a)))~~.

21 (B) **Mandatory Redemption.** The Director of Finance may designate
22 any Bond as a Term Bond, subject to mandatory redemption prior to its maturity on the dates and

1 in principal payment amounts set forth ~~((~~the~~))~~as Sinking Fund Requirements, consistent with
2 ~~((Subsection))~~subsection 8(b) of this ordinance.

3 (C) **Extraordinary Redemption**~~((s))~~. The Director of Finance may
4 designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory
5 redemption upon the occurrence of an extraordinary event, as such event or events may be set
6 forth in the applicable Bond Documents, consistent with ~~((Subsection))~~subsection 8(c) of this
7 ordinance.

8 (D) **Tender Options.** The Director of Finance may designate any
9 Variable Interest Rate Bond as subject to tender options, as set forth in the applicable Bond
10 Documents.

11 (viii) **Price.** The Director of Finance may approve in the Bond Sale Terms an
12 aggregate purchase price for each Series of the Bonds that is, in ~~((his or her))~~the Director's
13 judgment, the price that produces the most advantageous borrowing cost for the City for that
14 Series, consistent with the parameters set forth ~~((herein))~~in this ordinance and in any applicable
15 bid documents.

16 (ix) **Other Terms and Conditions.**

17 (A) **Refunding Findings; Approval of Refunding Plan.** As of the
18 Issue Date of each Series, the Director of Finance must approve a Refunding Plan (which may be
19 set forth in a Refunding Trust Agreement) and find~~((s))~~ that such Refunding Plan is necessary to
20 accomplish one or more of the purposes set forth in RCW 39.53.020, as ~~((it may be))~~ amended
21 ~~((from))~~at any time~~((to time))~~, and is consistent with the City's debt policies then in effect,
22 ~~((f))~~including, if applicable, a finding that the Refunding Plan will achieve an acceptable level of
23 debt service savings~~(())~~.

1 (B) **Satisfaction of Parity Conditions or Junior Lien Additional**

2 **Bonds Test.** For each Series of the Bonds, the Director of Finance must designate ~~((each))~~such
3 Series of the Bonds as a series of either Parity Bonds or Junior Lien Bonds. For ~~((each))~~a Series
4 to be designated as Parity Bonds, the Director of Finance must find to ~~((his or her))~~the Director's
5 satisfaction that, as of the Issue Date, the Parity Conditions have been met or satisfied so that
6 such Series is permitted to be issued as Parity Bonds. For ~~((each))~~a Series to be designated as
7 Junior Lien Bonds, the Director of Finance must find to ~~((his or her))~~the Director's satisfaction
8 that, as of the Issue Date, the Junior Lien Additional Bonds Test has been met or satisfied so that
9 such Series is permitted to be issued as Junior Lien Bonds.

10 (C) **Additional Terms, Conditions, and Agreements.** The Bond Sale

11 Terms for any Series may provide for Qualified Insurance, a Qualified Letter of Credit or other
12 liquidity facility, Parity Reimbursement Obligation, Intermediate Lien Reimbursement
13 Obligation, Junior Lien Reimbursement Obligation, or~~((for))~~ any other Payment Agreement as
14 the Director of Finance may find necessary or desirable, and may include such additional terms,
15 conditions, and covenants, as may be necessary or desirable, including but not limited to:
16 restrictions on investment of Bond proceeds and pledged funds (including any escrow
17 established for the defeasance of any of the Bonds), provisions for the conversion of interest rate
18 modes, provisions for the reimbursement of a credit enhancement provider or Qualified
19 Counterparty, and requirements to give notice to or obtain the consent of a credit enhancement
20 provider or a Qualified Counterparty. The Director of Finance is authorized to execute, on behalf
21 of the City, such additional certificates and agreements as may be necessary or desirable to
22 reflect such terms, conditions, and covenants.

1 (D) **Parity Bond Reserve Fund Requirement.** The Bond Sale Terms
2 for any Series of Parity Bonds must establish the Reserve Fund Requirement for such Series and
3 must set forth the method for satisfying any such requirement, consistent with Section 15 of this
4 ordinance and the Parity Conditions. The Reserve Fund Requirement for any such Series may
5 not be set at a level that would cause the aggregate Reserve Fund Requirement to exceed the
6 least of (1) 125(~~(%)~~) percent of Average Annual Debt Service on all Parity Bonds outstanding,
7 (2) Maximum Annual Debt Service on all Parity Bonds outstanding, or (3) 10(~~(%)~~) percent of the
8 proceeds of the outstanding Parity Bonds.

9 (E) **Tax Status of the Bonds.** The Director of Finance may
10 (~~determine that~~) designate any Series of the Bonds (~~is to be designated or qualified~~) as Tax-
11 Exempt Bonds, Taxable Bonds, or Tax Credit Subsidy Bonds, consistent with Section 21 of this
12 ordinance.

13 Section 6. **Bond Registrar; Registration and Transfer of Bonds.**

14 (a) **Registration (~~of Bonds;~~) and Bond Registrar.** The Bonds shall be issued only
15 in registered form as to both principal and interest and shall be recorded on the Bond Register.
16 The Fiscal Agent is appointed to act as Bond Registrar for each Series of the Bonds, unless
17 otherwise determined by the Director of Finance.

18 (b) **Transfer and Exchange of Bonds.** The Bond Registrar shall keep, or cause to be
19 kept, sufficient books for the registration and transfer of the Bonds, which shall be open to
20 inspection by the City at all times. The Bond Register shall contain the name and mailing address
21 of the Registered Owner of each Bond and the principal amount and number of each of the
22 Bonds held by each Registered Owner.

1 The Bond Registrar is authorized, on behalf of the City, to authenticate and deliver Bonds
2 transferred or exchanged in accordance with the provisions of the Bonds and this ordinance, to
3 serve as the City’s paying agent for the Bonds, and to carry out all of the Bond Registrar’s
4 powers and duties under this ordinance and the System of Registration~~((Ordinance))~~.

5 The Bond Registrar shall be responsible for its representations contained in the Bond
6 Registrar’s certificate of authentication on the Bonds. The Bond Registrar may become an
7 Owner of Bonds with the same rights it would have if it were not the Bond Registrar and, to the
8 extent permitted by law, may act as depository for and permit any of its officers or directors to
9 act as members of, or in any other capacity with respect to, any committee formed to protect the
10 rights of Owners.

11 Bonds surrendered to the Bond Registrar may be exchanged for Bonds in any Authorized
12 Denomination of an equal aggregate principal amount and of the same Series, seniority, interest
13 rate, and maturity. Bonds may be transferred only if endorsed in the manner provided thereon
14 and surrendered to the Bond Registrar. Any exchange or transfer shall be without cost to an
15 Owner or transferee. The Bond Registrar shall not be obligated to exchange or transfer any Bond
16 during the period between the Record Date and the corresponding interest payment or principal
17 redemption date.

18 (c) **Securities Depository; Book-Entry Form.** Unless otherwise determined by the
19 Director of Finance, the Bonds initially shall be issued in Book-Entry Form and registered in the
20 name of the Securities Depository. The Bonds so registered shall be held fully immobilized in
21 Book-Entry Form by the Securities Depository in accordance with the provisions of the Letter of
22 Representations. Neither the City nor the Bond Registrar shall have any responsibility or
23 obligation to participants of the Securities Depository or the persons for whom they act as

1 nominees with respect to the Bonds regarding the accuracy of any records maintained by the
2 Securities Depository or its participants of any amount in respect of principal of or interest on the
3 Bonds, or any notice (~~which~~)that is permitted or required to be given to Registered Owners
4 hereunder (except such notice as is required to be given by the Bond Registrar to the Securities
5 Depository). Registered ownership of a Bond initially held in Book-Entry Form, or any portion
6 thereof, may not be transferred except: (i) to any successor Securities Depository; (ii) to any
7 substitute Securities Depository appointed by the City or such substitute Securities Depository's
8 successor; or (iii) to any person if the Bond is no longer held in Book-Entry Form.

9 Upon the resignation of the Securities Depository from its functions as depository, or
10 upon a determination by the Director of Finance to discontinue utilizing the then-current
11 Securities Depository, the Director of Finance may appoint a substitute Securities Depository. If
12 the Securities Depository resigns from its functions as depository and no substitute Securities
13 Depository can be obtained, or if the Director of Finance determines not to utilize a Securities
14 Depository, then the Bonds shall no longer be held in Book-Entry Form and ownership may be
15 transferred only as provided (~~herein~~)in this ordinance.

16 Nothing (~~herein~~)in this ordinance shall prevent the Bond Sale Terms from providing
17 that a Series of the Bonds shall be issued in certificated form without utilizing a Securities
18 Depository, and that the Bonds of such Series shall be registered as of their Issue Date in the
19 names of the Owners thereof, in which case ownership may be transferred only as provided
20 (~~herein~~)in this ordinance.

21 (d) **Lost or Stolen Bonds.** In case any Bond or Bonds shall be lost, stolen or
22 destroyed, the Bond Registrar may authenticate and deliver a (~~new-~~)replacement (~~(bond)~~)Bond
23 or (~~(bonds)~~)Bonds of like amount, date, tenor, and effect to the Registered Owner(s) thereof

1 upon the Registered Owner(s)' paying the expenses and charges of the City in connection
2 therewith and upon filing with the Bond Registrar evidence satisfactory to the Bond Registrar
3 that such ~~((bond))~~Bond or ~~((bonds))~~Bonds were actually lost, stolen or destroyed and of
4 Registered Ownership thereof, and upon furnishing the City with indemnity satisfactory to both.

5 Section 7. **Payment of Bonds.**

6 (a) **Payment.** Each Bond shall be payable in lawful money of the United States of
7 America on the dates and in the amounts as provided in the Bond Documents for that Series.
8 Principal of and interest on each Bond designated as a Parity Bond shall be payable solely out of
9 the Parity Bond Fund. Principal of and interest on each Bond designated as a Junior Lien Bond
10 shall be payable solely out of the Junior Lien Debt Service Fund. The Bonds shall not be general
11 obligations of the City. No Bonds of any Series shall be subject to acceleration under any
12 circumstances.

13 (b) **Bonds Held ~~((H))~~in Book-Entry Form.** Principal of and interest on each Bond
14 held in Book-Entry Form shall be payable in the manner set forth in the Letter of
15 Representations.

16 (c) **Bonds Not Held ~~((H))~~in Book-Entry Form.** Interest on each Bond not held in
17 Book-Entry Form shall be payable by electronic transfer on the interest payment date, or by
18 check or draft of the Bond Registrar mailed on the interest payment date to the Registered Owner
19 at the address appearing on the Bond Register on the Record Date. The City, however, ~~((is))~~shall
20 not be required to make electronic transfers except pursuant to a request by a Registered Owner
21 in writing received at least ten days prior to the Record Date and at the sole expense of the
22 Registered Owner. Principal of each Bond not held in Book-Entry Form shall be payable upon
23 presentation and surrender of the Bond by the Registered Owner to the Bond Registrar.

1 Section 8. **Redemption and Purchase of Bonds.**

2 (a) **Optional Redemption.** All or some of the Bonds of any Series may be subject to
3 redemption prior to their stated maturity dates at the option of the City (~~(at the times and)~~) on the
4 dates and terms set forth in the applicable Bond Documents.

5 (b) **Mandatory Redemption.** All or some of the Bonds of any Series may be
6 designated as Term Bonds, subject to mandatory redemption in Sinking Fund Requirements, as
7 set forth in the applicable Bond Documents. If not redeemed or purchased at the City's option
8 prior to maturity, Term Bonds (if any) must be redeemed, at a price equal to (~~((one hundred))~~)100
9 percent of the principal amount to be redeemed, plus accrued interest, on the dates and in the
10 years and Sinking Fund Requirements as set forth in the applicable Bond Documents.

11 If the City optionally redeems or purchases a principal portion of a Term Bond prior to its
12 maturity, the principal amount (~~((of that Term Bond))~~) that is so redeemed or purchased
13 (irrespective of its redemption or purchase price) shall be credited against the remaining Sinking
14 Fund Requirements for that Term Bond in the manner(~~((as))~~) directed by the Director of Finance.
15 In the absence of direction by the Director of Finance, credit shall be allocated (~~((to))~~)among the
16 remaining Sinking Fund Requirements for that Term Bond on a *pro rata* basis.

17 (c) **Extraordinary Redemption(~~((Provisions))~~).** All or some of the Bonds of any
18 Series may be subject to extraordinary optional redemption or extraordinary mandatory
19 redemption prior to maturity upon the occurrence of an extraordinary event at the prices, in the
20 principal amounts, and on the dates, all as set forth in the applicable Bond Documents.

21 (d) **Selection of Bonds for Redemption; Partial Redemption.** If fewer than all of
22 the outstanding Bonds of a Series are to be redeemed at the option of the City, the Director of
23 Finance shall select the (~~((Series and))~~) maturity or maturities to be redeemed. If less than all of

1 the principal amount of a maturity of the selected Series is to be redeemed(~~(,if)~~) and such Series
2 is held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected for
3 redemption by the Securities Depository in accordance with the Letter of Representations(~~(,and~~
4 ~~if)~~). If the Series selected for redemption is not then held in Book-Entry Form, the portion of
5 such maturity to be redeemed shall be selected by the Bond Registrar using such method of
6 random selection as the Bond Registrar shall determine. All or a portion of the principal amount
7 of any Bond that is to be redeemed may be redeemed in any applicable Authorized
8 Denomination. If less than all of the outstanding principal amount of any Bond is redeemed,
9 upon surrender of that Bond to the Bond Registrar there shall be issued to the Registered Owner,
10 without charge, a new Bond (or Bonds, at the option of the Registered Owner) of the same
11 Series, seniority, maturity, and interest rate in any Authorized Denomination in the aggregate
12 principal amount to remain outstanding.

13 (e) **Purchase.** The City reserves the right and option to purchase any or all of the
14 Bonds at any time at any price acceptable to the City plus accrued interest to the date of
15 purchase.

16 Section 9. **Notice of Redemption; Rescission of Notice.** Unless otherwise set forth in
17 the applicable Bond Documents, the City must cause notice of any intended redemption of
18 Bonds to be given not (~~(less)~~) fewer than 20 nor more than 60 days prior to the date fixed for
19 redemption by first-class mail, postage prepaid, to the Registered Owner of any Bond to be
20 redeemed at the address appearing on the Bond Register on the Record Date, and the
21 requirements of this sentence shall be deemed to have been fulfilled when notice has been mailed
22 as so provided, whether or not it is actually received by the Owner of any Bond. Interest on

1 Bonds called for redemption shall cease to accrue on the date fixed for redemption unless the
2 Bond or Bonds called are not redeemed when presented pursuant to the call.

3 In the case of an optional or extraordinary optional redemption, the notice may state that
4 the City retains the right to rescind the redemption notice and the related(~~(optional)~~) redemption
5 of Bonds by giving a notice of rescission to the affected Registered Owners at any time on or
6 prior to the scheduled (~~(optional)~~)redemption date. Any notice of optional redemption that is
7 rescinded by the Director of Finance shall be of no effect, and the Bonds for which the notice of
8 (~~(optional)~~) redemption has been rescinded shall remain outstanding.

9 Section 10. **Failure to Pay Bonds**. If any Bond is not paid when properly presented at its
10 maturity or redemption date, the City shall be obligated to pay, solely from the sources pledged
11 to that Bond in this ordinance, interest on that Bond at the same rate provided on that Bond from
12 and after its maturity or redemption date until that Bond, principal(~~(;)~~) (including redemption
13 premium, if any), and interest, is paid in full or until sufficient money for its payment in full is on
14 deposit in the Parity Bond Fund (if such Bond is a Parity Bond) or the Junior Lien Debt Service
15 Fund (if such Bond is a Junior Lien Bond) and that Bond has been called for payment by giving
16 notice of that call to the Registered Owner of that Bond. The exercise of remedies of Owners of
17 the Bonds are limited as set forth in Section 24 of this ordinance.

18 Section 11. **Form and Execution of Bonds**. The Bonds shall be typed, printed or
19 reproduced in a form consistent with the provisions of this ordinance and State law; shall be
20 signed by the Mayor and Director of Finance, either or both of whose signatures may be manual
21 or in facsimile; and the seal of the City or a facsimile reproduction thereof shall be impressed or
22 printed thereon.

1 Only Bonds bearing a certificate of authentication in substantially the following form
2 (with the designation, year(~~(, seniority)~~), and Series adjusted consistent with this ordinance),
3 manually signed by the Bond Registrar, shall be valid or obligatory for any purpose or entitled to
4 the benefits of this ordinance: “This Bond is one of the fully registered The City of Seattle,
5 Washington, Municipal Light and Power [Refunding] Revenue Bonds, [Year], [Series] [and/or
6 Seniority, if applicable], described in [this ordinance].” Junior Lien Bonds shall ~~also~~ bear the
7 words “Junior Lien” in their name in the foregoing certificate of authentication. The authorized
8 signing of a certificate of authentication shall be conclusive evidence that the Bond so
9 authenticated has been duly executed, authenticated, and delivered and is entitled to the benefits
10 of this ordinance.

11 If any (~~(officer)~~)official whose manual or facsimile signature appears on a Bond ceases to
12 be an (~~(officer)~~)official of the City authorized to sign bonds before the Bond bearing (~~(his or~~
13 ~~her)~~)that official’s manual or facsimile signature is authenticated or delivered by the Bond
14 Registrar or issued by the City, that Bond nevertheless may be authenticated, issued, and
15 ~~delivered((and issued))~~ and, when authenticated, issued and delivered, shall be as binding on the
16 City as though that person had continued to be an (~~(officer)~~)official of the City authorized to sign
17 bonds. Any Bond also may be signed on behalf of the City by any person who, on the actual date
18 of signing of the Bond, is an (~~(officer)~~)official of the City authorized to sign bonds, although (~~(he~~
19 ~~or she)~~)that person did not hold the required office on the (~~(date of issuance))~~Issue Date of that
20 Series of the Bonds.

21 Section 12. **Deposit and Use of Proceeds**. Unless otherwise provided in the applicable
22 Bond Documents, the principal proceeds and net premium, if any, received from the sale and
23 delivery of each Series of the Bonds, in the amount necessary to carry out the applicable

1 Refunding Plan, shall be deposited with the Refunding Trustee and used in accordance with the
2 provisions of this section to discharge the obligations of the City relating to the Refunded Bonds
3 identified therein.

4 The Director of Finance may use the principal proceeds and any net premium to pay for
5 costs of issuance of the Bonds, and the Director of Finance also may incur and account for costs
6 of issuance that are not included as part of the bond proceeds and net premium, including but not
7 limited to any underwriter's discount. Net premium and accrued interest received from the sale
8 and delivery of a Series of the Bonds, if any, that is not necessary to carry out the Refunding
9 Plan, shall be paid or allocated into the Parity Bond Fund (or Junior Lien Bond Fund, as
10 applicable) and used to pay interest on that Series.

11 Until needed to carry out the applicable Refunding Plan and to pay the costs described
12 herein, the principal proceeds of each Series of the Bonds shall be held or invested (and the
13 investment earnings shall be applied) in accordance with the Refunding Trust Agreement, and
14 the money deposited with the Refunding Trustee, including the Acquired Obligations and any
15 investment earnings, shall be held irrevocably, invested and applied in accordance with the
16 provisions of the respective Refunded Bond (~~(Legislation)~~ Documents), this ordinance, the
17 Refunding Trust Agreement, chapter 39.53 RCW, and other applicable State law. Earnings
18 subject to a federal tax or rebate requirement may be withdrawn from any such fund or account
19 and used for those tax or rebate purposes.

20 The Director of Finance may pay principal of and interest on a Series of the Bonds with
21 any proceeds of that Series (including interest earnings thereon) remaining after applying such
22 proceeds to carry out the Refunding Plan, or after the City Council has determined that the
23 expenditure of such Bond proceeds for those purposes is no longer necessary or appropriate.

1 Section 13. **Security for the Bonds; Designation as Parity Bonds or Junior Lien**

2 **Bonds.** The Bonds shall not constitute general obligations of the City, the State or any political
3 subdivision of the State or a charge upon any general fund or upon any money or other property
4 of the City, the State or any political subdivision of the State not specifically pledged by this
5 ordinance.

6 (a) **Parity Bonds.** Each Series of the Bonds that is designated as Parity Bonds shall
7 be a special limited obligation of the City payable from and secured solely by Gross Revenues
8 available after payment of Operating and Maintenance Expense (“Net Revenue”) and by money
9 in the Parity Bond Fund and the Reserve Fund. ~~((The-))~~Net Revenue is pledged to make the
10 payments into the Parity Bond Fund and the Reserve Fund required by Sections 14 and 15 of this
11 ordinance, which pledge shall constitute a lien and charge upon such Net Revenue prior and
12 superior to all other charges whatsoever. Each Series of the Bonds designated as Parity Bonds
13 shall be issued on parity with the Outstanding Parity Bonds and all Future Parity Bonds, without
14 regard to date of issuance or authorization and without preference or priority of right or lien.

15 (b) **Junior Lien Bonds.** Each Series of the Bonds that is designated as Junior Lien
16 Bonds shall be a special limited obligation of the City payable from and secured solely by Net
17 Revenue and by money in the Junior Lien Debt Service Fund. The Net Revenue is pledged to
18 make the payments into the Junior Lien Debt Service Fund required by Sections 14 and 16 of
19 this ordinance, which pledge shall constitute a lien and charge upon such Net Revenue (i.e.,
20 Gross Revenues available after payment of Operating and Maintenance Expense of the Light
21 System pursuant to subsection 14(a) of this ordinance) that is (i) subordinate only to the
22 payments to be made ~~(((A-))~~into the Parity Bond Fund ~~((in respect of the principal of and~~
23 ~~interest on the Outstanding Parity Bonds and Parity Payment Agreements, (B) in respect of~~

1 ~~reimbursement obligations arising under Alternate Reserve Securities, and (C) in respect of~~
2 ~~obligations arising under Intermediate Lien Reimbursement Obligations))~~required by subsections
3 14(b) through (d) of this ordinance, and (ii) prior and superior to all other charges whatsoever.

4 Each Series of the Bonds designated as Junior Lien Bonds shall be issued on parity with the lien
5 and charge of any then outstanding Junior Lien Bonds and all Future Junior Lien Bonds, without
6 regard to date of issuance or authorization and without preference or priority of right or lien.

7 Nothing in this ordinance prevents the City from issuing revenue bonds or other obligations
8 ~~((which))~~that are a charge or lien upon Net Revenues subordinate to the payments required to be
9 made into the Junior Lien Debt Service Fund and the Reserve Fund, and any subfund, account,
10 or subaccount within the foregoing funds.

11 Section 14. **Priority Expenditure of Gross Revenues; Flow of Funds.** Gross Revenues
12 shall be deposited as received in the Light Fund and used for the following purposes only, in the
13 following order of priority:

14 (a) To pay the Operating and Maintenance Expense of the Light System;

15 (b) To make, when due, all payments into the Parity Bond Fund required to be made
16 in order to pay the interest on and principal of all Parity Bonds, including all Parity Bond Sinking
17 Fund Requirements, and all net payments under Parity Payment Agreements, ~~((when due))~~and to
18 make all payments required to be made (if any) in respect of Parity Reimbursement Obligations;

19 (c) To make all payments required to be made (if any) into the Reserve Fund
20 necessary to satisfy the Reserve Fund Requirement, ~~((and))~~to make all payments (if any)
21 required to be made under ~~((Subsection))~~subsection 15(c)(i)(B) of this ordinance into a special
22 account within the Light Fund for the replacement of an Alternate Reserve Security as to which

1 the City has received a notice of cancellation, and to pay any reimbursement obligations under
2 any Alternate Reserve Security;

3 (d) To make all payments required to be made (if any) in respect of Intermediate Lien
4 Reimbursement Obligations;

5 (e) To make all payments into the Junior Lien Debt Service Fund required to be made
6 in order to pay the interest on and principal of all Junior Lien Bonds, including all net payments
7 under Junior Lien Payment Agreements and all Junior Lien Reimbursement Obligations, when
8 due;

9 (f) To make all required payments into any revenue bond redemption fund created to
10 pay and secure the payment of the principal of and interest on any revenue bonds or short-term
11 obligations of the City having a charge and lien upon Net Revenue subordinate to the lien
12 thereon for the payment of the principal of and interest on the Parity Bonds and the Junior Lien
13 Bonds; and

14 (g) Without priority, for any of the following purposes: to retire by redemption or
15 purchase any outstanding revenue bonds or revenue obligations of the Light System; to make
16 necessary additions, betterments, repairs, extensions, and replacements of the Light System; to
17 pay City taxes or other payments in lieu of taxes payable from Gross Revenues; to make deposits
18 to the Rate Stabilization Account; or for any other lawful Light System purpose.

19 Section 15. **Parity Bond Fund; Reserve Fund**. The special funds of the City known as
20 the Parity Bond Fund and the Reserve Fund have been previously created and shall be
21 maintained as special funds for the sole purpose of paying the principal of (including redemption
22 premium, if any) and interest on the Parity Bonds as the same shall become due. The Director of
23 Finance may create subfunds, accounts, or subaccounts in the Parity Bond Fund and the Reserve

1 Fund to pay or secure the payment of Parity Bonds as long as the maintenance of such subfunds,
2 accounts, or subaccounts does not conflict with the rights of the owners of the Parity Bonds.
3 Principal of ~~(~~;~~)~~ (including redemption premium, ~~(~~€~~)~~ if any) and interest on the Parity Bonds
4 shall be payable solely out of the Parity Bond Fund.

5 (a) **Required Payments ~~I~~nto the Parity Bond Fund and Reserve Fund.** So long
6 as any Parity Bonds (including any Parity Payment Agreements or Parity Reimbursement
7 Obligations) are outstanding, the City shall set aside and pay out of Net Revenue certain fixed
8 amounts, without regard to any fixed proportion, namely:

9 (i) Into the Parity Bond Fund, on or prior to the respective dates on which
10 such payments shall become due and payable, an amount sufficient, together with other money
11 on deposit therein, to pay without priority or preference among the following items: (A) the
12 interest ~~(~~€~~)~~ (including net payments due ~~(~~€~~)~~ under Parity Payment ~~(~~Agreement Payments~~)~~
13 and ~~)~~ Agreements) then due on the Outstanding Parity Bonds, (B) the maturing principal of the
14 Outstanding Parity Bonds (including any Sinking Fund Requirements ~~(~~)~~ the Parity Bonds as the~~
15 same shall become due)) then due), and (C) any payments then due in respect of Parity
16 Reimbursement Obligations; and

17 (ii) Into the Reserve Fund, an amount necessary to provide for the Reserve
18 Fund Requirement within the time and manner required by this ordinance and the Bond Sale
19 Terms, including all payments required to be made under subsection 14(c) of this ordinance.

20 To meet the required payments to be made into the Parity Bond Fund and the Reserve
21 Fund, the Director of Finance may transfer any money from any funds or accounts of the City
22 legally available therefor, except bond redemption funds, refunding escrow funds, or defeasance
23 funds. The Director of Finance may provide for the purchase, redemption or defeasance of any

1 Parity Bonds by the use of money on deposit in any subfund, account, or subaccount in the Parity
2 Bond Fund or Reserve Fund, so long as the money remaining in those subfunds, accounts, or
3 subaccounts is sufficient to satisfy the required deposits with respect to the remaining Parity
4 Bonds.

5 (b) **Parity Bond Fund.** The Parity Bond Fund has been previously created for the
6 sole purpose of paying the principal of and interest on the Parity Bonds as the same shall become
7 due. Each Series of the Bonds designated as Parity Bonds shall be payable (including principal,
8 Sinking Fund Requirements, redemption premium (if any), and interest) out of the Parity Bond
9 Fund. Money in the Parity Bond Fund shall, to the fullest extent practicable and reasonable, be
10 invested and reinvested at the direction of the Director of Finance solely in, and obligations
11 deposited in such accounts shall consist of, Permitted Investments. Earnings on money and
12 investments in the Parity Bond Fund shall be deposited in and used for the purposes of that fund.

13 (c) **Reserve Fund.** The Reserve Fund has been previously created for the purpose of
14 securing the payment of the principal of and interest on all Parity Bonds (including all net
15 payments due under any Parity Payment Agreements, if any). Money held in the Reserve Fund
16 shall, to the fullest extent practicable and reasonable, be invested and reinvested at the direction
17 of the Director of Finance solely in, and obligations deposited in such accounts shall consist of,
18 Permitted Investments. Earnings on money and investments in the Reserve Fund shall be
19 deposited in that fund and credited against amounts required to be deposited therein until the
20 Reserve Fund is fully funded, and thereafter such earnings shall be deposited in the Parity Bond
21 Fund.

22 (i) **Reserve Fund Requirement.** The Bond Sale Terms for each Series of
23 the Bonds shall establish the amount (if any) to be added to the aggregate Reserve Fund

1 Requirement (if any) for such Series, and the method for providing for such incremental addition
2 to the Reserve Fund deposit, subject to the following:

3 (A) In connection with the issuance of Future Parity Bonds, the City
4 shall provide the amounts required for deposit into the Reserve Fund (1) at one time on the Issue
5 Date, or (2) in periodic deposits of Net Revenue (or any other legally available source of funds),
6 so that by five years from the date of such Future Parity Bonds there will have been paid into the
7 Reserve Fund an amount (~~(which)~~that, together with the money already on deposit therein, will
8 be at least equal to the Reserve Fund Requirement for the Parity Bonds scheduled to be
9 outstanding at the end of that five-year period.

10 (B) The City may obtain one or more Alternate Reserve Securities for
11 specific amounts required to be paid into the Reserve Fund. The amount available to be drawn
12 upon under each such Alternate Reserve Security shall be credited against the amounts needed to
13 satisfy the Reserve Fund Requirement. In the event of receipt of any notice of cancellation of an
14 Alternate Reserve Security, the City shall (and, in preparation for the expiration of any such
15 Alternate Reserve Security in accordance with its terms, the City may) either: (1) obtain a
16 substitute(~~(-an)~~) Alternate Reserve Security in the amount necessary to satisfy the Reserve Fund
17 Requirement on the date any such cancellation (or expiration) becomes effective, or (2) create a
18 special account in the Light Fund and deposit therein amounts necessary to replace the Alternate
19 Reserve Security upon its expiration or cancellation. In the case of receipt of a notice of
20 cancellation, such periodic deposits are to be made on or before the 25th day of each of the 60
21 calendar months succeeding receipt of such notice, in an amount equal to 1/60(~~(th)~~) of the
22 amount necessary (together with other money and investments then on deposit in the Reserve
23 Fund) to satisfy the expected Reserve Fund Requirement on the date such cancellation shall

1 become effective, taking into account scheduled redemptions of Parity Bonds and disregarding
2 any incremental additional amounts that may become necessary due to the issuance of Future
3 Parity Bonds subsequent to the date of such notice of cancellation. Such amounts shall be
4 transferred from Net Revenue available in the Light Fund after making provision for ~~((payment~~
5 ~~of Operating and Maintenance Expense and for-))~~the required payments into the Parity Bond
6 Fund, in accordance with Section 14 of this ordinance. Amounts on deposit in such special
7 account are preliminarily earmarked for the replacement of such Alternate Reserve Security and
8 shall not be available to pay debt service on Parity Bonds or for any other purpose of the City,
9 and shall be transferred to the Reserve Fund on the effective date of any cancellation or
10 expiration of the Alternate Reserve Security to make up the deficiency caused thereby. In the
11 event that the Reserve Fund is completely depleted and all Alternate Reserve Securities have
12 been fully drawn, the amounts in that special account may be withdrawn and treated as Gross
13 Revenues available to be used in accordance with the flow of funds set forth in Section 14 of this
14 ordinance. If and when a substitute Alternate Reserve Security having a sufficient value or policy
15 limit is obtained, amounts held in that special account may be transferred back to the Light Fund
16 and treated as Gross Revenues available to be used in accordance with the flow of funds set forth
17 in Section 14 of this ordinance.

18 (C) If the amount on deposit in the Reserve Fund is less than the
19 Reserve Fund Requirement (taking into account the five-year period referred to in paragraph (A)
20 of this subsection), the City shall transfer to the Reserve Fund money in an amount sufficient to
21 restore the Reserve Fund to the Reserve Fund Requirement within 12 months after the date of
22 such deficiency. The City shall transfer such amounts first from Net Revenue available in
23 accordance with the priority of payment in Section 14 of this ordinance, and only thereafter from

1 money in any construction fund or account established with respect to any issue of Parity Bonds,
2 first taking money from the unrestricted portion thereof, then taking money from the restricted
3 portion thereof. If the amount in the Reserve Fund is greater than the Reserve Fund Requirement,
4 ~~((then and only then may))~~ the City may then withdraw such excess from the Reserve Fund and
5 deposit such excess in the Light Fund.

6 (ii) **Use of Reserve Fund to Refund Parity Bonds.** If any Parity Bonds are
7 to be refunded, the money set aside in the Reserve Fund to secure the payment of such Parity
8 Bonds may be used to retire such Parity Bonds, or may be transferred to any reserve fund or
9 account which may be created to secure the payment of any bonds issued to refund such Parity
10 Bonds, as long as the money left remaining in the Reserve Fund is at least equal, together with
11 all Alternate Reserve Securities, to the Reserve Fund Requirement.

12 (iii) **Use of Reserve Fund to Pay Debt Service.** If the money in the Parity
13 Bond Fund is insufficient to meet maturing installments of either interest on or principal of and
14 interest on the Parity Bonds (including net amounts payable under any Parity Payment
15 Agreements), such deficiency shall be made up from the Reserve Fund by the withdrawal of
16 money or proceeds of Alternate Reserve Securities, as the case may be. Any deficiency created
17 in the Reserve Fund by reason of any such withdrawal or claim against an Alternate Reserve
18 Security shall then be made up out of Net Revenue or out of any other legally available funds of
19 the City.

20 (iv) **Withdrawals From Reserve Fund.** Money in the Reserve Fund may be
21 withdrawn by the City for any lawful purpose as long as the aggregate of any money and
22 Alternate Reserve Securities remaining on deposit in the Reserve Fund is at least equal to the
23 Reserve Fund Requirement for the Parity Bonds then outstanding. The City reserves the right to

1 substitute one or more Alternate Reserve Securities for money previously deposited in the
2 Reserve Fund and to withdraw such excess to the extent described in the preceding sentence.
3 Any withdrawals from subaccounts within the Reserve Fund shall be made on a *pro rata* basis,
4 except when the terms of an Alternate Reserve Security require all cash and investments in the
5 Reserve Fund to be withdrawn before any draw or claim is made on the Alternate Reserve
6 Security, or unless the City receives an opinion of Bond Counsel to the effect that such *pro rata*
7 withdrawal is not required to maintain the federal tax benefits (if any) of any then outstanding
8 Parity Bonds issued as Tax-Exempt Bonds or Tax Credit Subsidy Bonds. If multiple Alternate
9 Reserve Securities are on deposit in the Reserve Fund, draws on such Alternate Reserve
10 Securities shall be made on a *pro rata* basis.

11 Section 16. **Junior Lien Debt Service Fund.**

12 (a) ~~((Creation))~~Use of Junior Lien Debt Service Fund~~((; Use of Fund))~~. The
13 Director of Finance is ~~((hereby))~~authorized (and, in conjunction with the issuance of Junior Lien
14 Bonds, is directed) to create and maintain a special fund of the City known as the Junior Lien
15 Debt Service Fund for the sole purpose of paying the principal of (including redemption
16 premium, if any) and interest on the Junior Lien Bonds as the same shall become due. The Junior
17 Lien Debt Service Fund shall consist of a Principal and Interest Account and such additional
18 subfunds, accounts, or subaccounts as the Director of Finance may find it necessary or
19 convenient to create in order to pay or secure the payment of Junior Lien Bonds, as long as the
20 maintenance of such subfunds, accounts, or subaccounts does not conflict with the rights of the
21 owners of the Junior Lien Bonds or the Parity Bonds.

22 Each Series of the Bonds designated as Junior Lien Bonds shall be payable (including
23 principal, Sinking Fund Requirements, redemption premium (if any), and interest) out of the

1 Junior Lien Debt Service Fund. Money in the Junior Lien Debt Service Fund shall, to the fullest
2 extent practicable and reasonable, be invested and reinvested at the direction of the Director of
3 Finance solely in, and obligations deposited in such accounts shall consist of, Permitted
4 Investments. Earnings on money and investments in the Junior Lien Debt Service Fund shall be
5 deposited in and used for the purposes of that fund.

6 (b) **Required Payments Into the Junior Lien Debt Service Fund.** So long as any
7 Junior Lien Bonds (including any Junior Lien Payment Agreements) are outstanding, the City
8 shall set aside and pay out of Net Revenue certain fixed amounts, without regard to any fixed
9 proportion, namely, into the Principal and Interest Account of the Junior Lien Debt Service
10 Fund, on or prior to the respective dates on which such payments shall become due and payable,
11 an amount sufficient, together with other money on deposit therein, to pay the interest on and the
12 principal of the Junior Lien Bonds, including net payments due on Junior Lien Payment
13 ~~((Agreement Payments))~~Agreements and all payments under Junior Lien Reimbursement
14 Obligations, as the same shall become due. To meet the required payments to be made into the
15 Junior Lien Debt Service Fund, the Director of Finance may transfer any money from any funds
16 or accounts of the City legally available therefor, except the Parity Bond Fund, the Reserve
17 Fund, other bond redemption funds, refunding escrow funds, or defeasance funds. The Director
18 of Finance may provide for the purchase, redemption or defeasance of any Junior Lien Bonds by
19 the use of money on deposit in any subfund, account, or subaccount in the Junior Lien Debt
20 Service Fund, so long as the money remaining in those subfunds, accounts, or subaccounts is
21 sufficient to satisfy the required deposits with respect to the remaining Junior Lien Bonds.

22 Section 17. **Bond Covenants.**

1 (a) **Parity Bond Covenants.** The City covenants with the Owner of each Bond that
2 is designated as a Parity Bond, for so long as such Bond remains outstanding, as follows:

3 (i) **Sale or Disposition of the Light System.**

4 (A) The City may dispose of all or substantially all of the Light System
5 only if the City simultaneously causes all of the Parity Bonds to be, or be deemed to be, no
6 longer outstanding.

7 (B) Except as provided below, the City will not dispose of any part of
8 the Light System in excess of 5(~~0%~~) percent of the value of the net utility plant of the Light
9 System in service unless prior to such disposition: (1) there has been filed with the Director of
10 Finance a certificate of a Professional Utility Consultant stating that such disposition will not
11 impair the ability of the City to comply with the rate covenant set forth in
12 ~~((Subsection))~~ subsection 17(a)(ii) of this ordinance, in which the Professional Utility Consultant
13 may make those assumptions permitted in delivering a Parity Certificate under
14 ~~((Subsection))~~ subsection 18(a) of this ordinance; or (2) provision is made for the payment,
15 redemption or other retirement of a principal amount of Parity Bonds equal to the greater of the
16 following amounts: (I) an amount which will be in the same proportion to the net principal
17 amount of Parity Bonds then outstanding (defined as the total principal amount of Parity Bonds
18 then outstanding less the amount of cash and investments in the Parity Bond Fund) that Gross
19 Revenues for the twelve preceding months attributable to the part of the Light System being sold
20 or disposed of bears to the total Gross Revenues for such period; or (II) an amount which will be
21 in the same proportion to the net principal amount of Parity Bonds then outstanding that the book
22 value of the part of the Light System being sold or disposed of bears to the book value of the
23 entire Light System immediately prior to such sale or disposition.

1 (C) Notwithstanding the foregoing, the City may dispose of any
2 portion of the Light System that has become unserviceable, inadequate, obsolete, worn out or
3 unfit to be used, or no longer necessary for, material to, or useful in the operation of the Light
4 System.

5 (D) If the ownership of all or part of the Light System is transferred
6 from the City through the operation of law, the City shall reconstruct or replace the transferred
7 portion using any proceeds of the transfer unless the City Council determines that such
8 reconstruction or replacement is not in the best interests of the City and the Owners of the Parity
9 Bonds, in which case any proceeds shall be used to purchase, defease, or redeem Parity Bonds
10 prior to maturity.

11 (ii) **Rates and Charges.** The City will establish from time to time and
12 maintain such rates for electric energy as will maintain the Light System in sound financial
13 condition and provide sufficient revenues to pay all Operating and Maintenance Expense, to pay
14 into the Parity Bond Fund the amounts that are required by this ordinance to be applied to the
15 payment of the principal of and interest on the Parity Bonds until the Parity Bonds shall have
16 been paid in full, and to pay all bonds, warrants, and indebtedness for which any revenues of the
17 Light System shall have been pledged.

18 (iii) **Operation and Maintenance of the Light System.** The City will operate
19 the properties of the Light System in an efficient manner and at a reasonable cost; will maintain,
20 preserve and keep, or cause to be maintained, preserved and kept, the properties of the Light
21 System and every part and parcel thereof in good repair, working order, and condition; and from
22 time to time will make or cause to be made all necessary and proper repairs, renewals and

1 replacements thereto so that at all times the business carried on in connection therewith will be
2 properly and advantageously conducted.

3 (iv) **Books and Financial Statements.** The City will keep and maintain
4 proper books of account for the Light System in accordance with generally accepted accounting
5 principles applicable to governmental utilities; will generally adhere to the uniform system of
6 accounts prescribed by the State Auditor’s Office and the Federal Energy Regulatory
7 Commission (if any); and will prepare, on or before ~~((120))~~180 days after the end of each
8 calendar year, ~~((and, upon the redemption or defeasance of the Outstanding Parity Bonds
9 identified in Exhibit A, on or before 180 days after the end of each calendar year,))~~ annual
10 financial statements showing reasonable detail, including a balance sheet, an income statement,
11 and a statement of cash flows or other such statement. Copies of such financial statements shall
12 be placed on file in the office of the Director of Finance and shall be open to inspection at any
13 reasonable time by any owner of any Parity Bonds. A copy of such financial statements shall be
14 sent to any owner of Parity Bonds upon request in writing setting forth the name and address to
15 which such financial statements may be sent.

16 (b) **Junior Lien Bond Covenants.** The City covenants with the Owner of each Bond
17 that is designated as a Junior Lien Bond, for so long as such Junior Lien Bond remains
18 outstanding, as follows:

19 (i) **Sale or Disposition of the Light System.** The City may dispose of all or
20 substantially all of the Light System only if the City simultaneously causes all of the Junior Lien
21 Bonds to be, or be deemed to be, no longer outstanding. The City will not dispose of any part of
22 the Light System in excess of ~~5((%))~~percent of the value of the net utility plant of the Light
23 System in service except upon compliance with the covenant set forth in

1 ~~((Subsection))~~subsection 17(a)(i)(B)~~((, above))~~of this ordinance. Notwithstanding the foregoing,
2 the City may dispose of any portion of the Light System that has become unserviceable,
3 inadequate, obsolete, worn out or unfit to be used, or no longer necessary, material to, or useful
4 in the operation of the Light System.

5 (ii) **Rates and Charges.** The City will establish from time to time and
6 maintain such rates for electric energy as will maintain the Light System in sound financial
7 condition and provide sufficient revenues to pay all Operating and Maintenance Expense; to pay
8 into the Parity Bond Fund the amounts that are required by this ordinance to be applied to the
9 payment of the principal of and interest on the Parity Bonds until the Parity Bonds shall have
10 been paid in full; to pay into the Junior Lien Debt Service Fund the amounts that are required by
11 this ordinance to be paid into such fund, in accordance with the priority of payment set forth in
12 Section 14 of this ordinance, until the Junior Lien Bonds (including Junior Lien Payment
13 Agreements and Junior Lien Reimbursement Obligations) shall have been paid in full; and to pay
14 all other bonds, warrants, and indebtedness for which any revenues of the Light System shall
15 have been pledged.

16 (iii) **Operation and Maintenance of the Light System.** The City will operate
17 the properties of the Light System in an efficient manner and at a reasonable cost; will maintain,
18 preserve, and keep, or cause to be maintained, preserved, and kept, the properties of the Light
19 System and every part and parcel thereof in good repair, working order and condition; and from
20 time to time will make or cause to be made all necessary and proper repairs, renewals, and
21 replacements thereto so that at all times the business carried on in connection therewith will be
22 properly and advantageously conducted.

1 (iv) **Books and Financial Statements.** The City will keep and maintain
2 proper books of account for the Light System in accordance with generally accepted accounting
3 principles applicable to governmental utilities; will generally adhere to the uniform system of
4 accounts prescribed by the State Auditor’s Office and the Federal Energy Regulatory
5 Commission (if any); and will prepare, on or before 180 days after the end of each calendar year,
6 annual financial statements showing reasonable detail, including a balance sheet, an income
7 statement, and a statement of cash flows or other such statement. Copies of such financial
8 statements shall be placed on file in the office of the Director of Finance and shall be open to
9 inspection at any reasonable time by any owner of any Junior Lien Bonds. A copy of such
10 financial statements shall be sent to any owner of Junior Lien Bonds upon request in writing
11 setting forth the name and address to which such financial statements may be sent.

12 Section 18. **Additional Bonds.**

13 (a) **Future Parity Bonds.** The City reserves the right to issue Future Parity Bonds
14 (which ~~((term-))~~includes entering into Future Parity Payment Agreements or Future Parity
15 Reimbursement Obligations) for any lawful purpose of the City’s Light System if the Parity
16 Conditions are met and complied with as of the ~~((Issue Date))~~date of issuance of such Future
17 Parity Bonds, or as of the effective date of the Parity Payment Agreement or Parity
18 Reimbursement Obligation, as appropriate.

19 If the Parity Conditions are met and complied with, then payments into the Parity Bond
20 Fund with respect to such Future Parity Bonds shall rank equally with the payments out of the
21 Net Revenue required to be made into the Parity Bond Fund by this ordinance. Nothing ~~((set~~
22 ~~forth herein))~~in this subsection 18(a) shall prevent the City from (i) issuing revenue bonds or
23 other obligations that are a charge upon ~~((the-))~~Net Revenue junior and inferior to the payments

1 required to be made therefrom into the Parity Bond Fund for the payment of the Parity Bonds,
2 provided that such subordinate ~~((bonds))~~obligations may not be subject to acceleration under any
3 circumstances; or (ii) issuing Refunding Parity Bonds to refund maturing Parity Bonds of the
4 City for the payment of which money is not otherwise available.

5 (i) **Parity Conditions.** The Parity Conditions are as follows:

6 (A) No deficiency may then exist in the Parity Bond Fund or in any of
7 the accounts therein; and

8 (B) Provision must be made to satisfy the Reserve Fund Requirement
9 for ~~((all))~~the Parity Bonds then outstanding plus any additional amount required (if any) in
10 connection with the issuance and sale of the proposed Future Parity Bonds ~~((if any))~~ in
11 accordance with ~~((Subsection))~~subsection 15(c) of this ordinance; and

12 (C) There must be on file with the City a Parity Certificate as described
13 in subsection 18(a)(ii)~~((, below))~~ of this ordinance. If the proposed Future Parity Bonds (or any
14 portion thereof) are to be issued for the purpose of refunding outstanding Parity Bonds and the
15 Annual Debt Service on the refunding portion of the proposed Future Parity Bonds is not more
16 than \$5,000 greater than the Annual Debt Service on the Parity Bonds to be refunded thereby,
17 then no Parity Certificate shall be required as to that portion issued for refunding purposes. If the
18 requirements of the preceding sentence are not satisfied, Refunding Parity Bonds may
19 alternatively be issued upon delivery of a Parity Certificate.

20 (ii) **Parity Certificate.** A Parity Certificate required by subsection 18(a)(i) of
21 this ordinance may be provided by either the Director of Finance or by a Professional Utility
22 Consultant, as follows:

1 (A) A Parity Certificate may be prepared by the Director of Finance,
2 demonstrating that the amount of Adjusted Net Revenue in any 12 consecutive months out of the
3 most recent 24 months preceding the delivery of the proposed series of Future Parity Bonds (the
4 “Base Period”) was not less than 125(~~(%)~~) percent of Maximum Annual Debt Service in any
5 future calendar year on all Parity Bonds then outstanding and the proposed series of Future
6 Parity Bonds. For the purposes of a Parity Certificate delivered under this subsection (A), the
7 Director of Finance shall reflect in (~~(his or her)~~)that certificate any adjustment in the rates, fees,
8 and charges for the services of the Light System that will become effective at any time prior to or
9 within six months after the delivery of the proposed Future Parity Bonds, by including in the
10 amount of Adjusted Net Revenue the amount that (~~(he or she)~~)the Director estimates would have
11 been collected in the Base Period if such new rates, fees, and charges had been in effect for the
12 entire Base Period.

13 (B) A Parity Certificate may be prepared by a Professional Utility
14 Consultant, demonstrating that the amount of (~~(the)~~) Adjusted Net Revenue (which may be
15 further adjusted as provided in paragraphs (a)(ii)(B)(1) through (~~((6) below)~~)(5) of this section)
16 in any 12 consecutive months out of the most recent 24 months preceding the delivery of the
17 proposed Series of Future Parity Bonds (the “Base Period”) is not less than 125(~~(%)~~) percent of
18 the amount of Maximum Annual Debt Service (~~(on all Parity Bonds and the proposed Future~~
19 ~~Parity Bonds)~~)in any future calendar year on all Parity Bonds then outstanding and the proposed
20 (~~(series of)~~)Future Parity Bonds. For the purposes of a certificate delivered under this subsection
21 (a)(ii), Adjusted Net Revenue may be further adjusted by the Professional Utility Consultant
22 using any or all of the following methods reflecting the conditions and requirements as may be
23 appropriate to the circumstances:

1 (1) If the purpose for which the proposed Future Parity Bonds
2 are being issued is to acquire operating electric utility properties having an earnings record, the
3 Professional Utility Consultant shall estimate the effect on(~~the~~) Adjusted Net Revenue for the
4 Base Period of the acquisition of such electric utility properties and the integration thereof into
5 the Light System, and shall further adjust(~~the~~) Adjusted Net Revenue for the Base Period to
6 give effect to such estimate. Any such estimate shall be based upon the operating experience and
7 records of the City and upon any available financial statements and records relating to the
8 earnings of such electric utility properties to be acquired.

9 (2) If any changes to rates, fees, or charges imposed by the
10 City on sales of power, energy, or other services furnished by the Light System(~~(, which)~~) that
11 were not in effect during the entire Base Period, have been adopted by the City Council and are
12 in effect on the date of sale of the proposed Future Parity Bonds (or effective date of the
13 proposed Parity Payment Agreement) or are to go into effect not later than 12 months after such
14 date, the Professional Utility Consultant may, if such changes resulted in increases in such rates,
15 fees, or charges, and shall, if such changes resulted in reductions in such rates, fees, or charges,
16 further adjust(~~the~~) Adjusted Net Revenue for the Base Period to reflect any change in such
17 Adjusted Net Revenue that would have occurred if the changed rates, fees, or charges had been
18 in effect during the entire Base Period.

19 (3) If the purpose for which the proposed Future Parity Bonds
20 are being issued is to acquire or construct generation or transmission facilities required to furnish
21 or make available to the Light System additional power and energy, or transmission facilities
22 required to enable the City to sell additional power and energy, the Professional Utility
23 Consultant may further adjust Adjusted Net Revenue for the Base Period by (I) deducting the

1 amount of the estimated increase in Operating and Maintenance Expense resulting from the
2 acquisition or construction of such facilities in their first year of full operation, (II) adding any
3 additional revenues to be derived from the sale or transmission of such additional power and
4 energy pursuant to executed power sales contracts, and (III) adding an amount equal to the
5 estimated cost of the power and energy (~~(which)~~that would have been replaced or displaced by
6 such facilities had such additional power and energy in excess of the power and energy to be sold
7 pursuant to paragraph (a)(ii)(B)(2) (~~(above)~~of this section) been used in the Light System during
8 the Base Period.

9 (4) If(~~there were~~) any customers were added to the Light
10 System during the Base Period or thereafter (and prior to the date of the Professional Utility
11 Consultant's certificate), Adjusted Net Revenue may be further adjusted (~~(on the basis that)~~as if
12 such added customers were customers of the Light System during the entire Base Period.

13 (5) If extensions of or additions to the Light System (not
14 described in paragraph (a)(ii)(B)(3) (~~(above)~~of this section) are in the process of construction on
15 the date of the Professional Utility Consultant's certificate, or if the proceeds of the proposed
16 Future Parity Bonds are to be used to acquire or construct extensions of or additions to the Light
17 System (not described in paragraph (a)(ii)(B)(3) (~~(above)~~of this section),(~~the~~) Adjusted Net
18 Revenue for the Base Period may be further adjusted by adding any additional revenues not
19 included in the preceding paragraphs that will be derived from such additions and extensions,
20 and deducting the estimated increase in Operating and Maintenance Expense resulting from such
21 additions and extensions.

22 In rendering any Parity Certificate under this subsection (a)(ii)(B), the Professional
23 Utility Consultant may rely upon the following documents, which shall be attached to the Parity

1 Certificate: financial statements of the Light System, certified by the Director of Finance,
2 showing income and expenses for the period upon which the same are based and a balance sheet
3 as of the end of such period; financial statements of the Light System certified by the Office of
4 the State Auditor of the State (or any successor thereto); or financial statements of the Light
5 System certified by a ~~((Certified Public Accountant))~~ certified public accountant for as much of
6 such period as any examination by ~~((them))~~ such accountant has been made and completed. If
7 two or more of such statements are inconsistent with each other, the Professional Utility
8 Consultant shall rely on the statements certified by the Director of Finance.

9 (b) **Future Junior Lien Bonds.** The City reserves the right to issue Future Junior
10 Lien Bonds (which term includes Junior Lien Payment Agreements and Junior Lien
11 Reimbursement Obligations) for any lawful purpose of the City's Light System if the Junior Lien
12 Additional Bonds Test is met and complied with as of the ~~((Issue-Date))~~ date of issuance of such
13 Future Junior Lien Bonds, or as of the effective date of the Junior Lien Payment Agreement or
14 Junior Lien Reimbursement Obligation, as appropriate.

15 If the Junior Lien Additional Bonds Test is met and complied with, then payments into
16 the Junior Lien Debt Service Fund with respect to such Future Junior Lien Bonds shall rank
17 equally with the payments out of ~~((the))~~ Net Revenue required to be made into the Junior Lien
18 Debt Service Fund by this ordinance. Nothing ~~((set forth herein))~~ in this subsection (b) shall
19 prevent the City from (i) issuing revenue bonds or other obligations that are a charge upon ~~((the))~~
20 Net Revenue junior and inferior to the payments required to be made therefrom into the Junior
21 Lien Debt Service Fund for the payment of the Junior Lien Bonds, provided that such
22 subordinate ~~((bonds))~~ obligations may not be subject to acceleration under any circumstances; or
23 (ii) issuing Refunding Junior Lien Bonds for the purpose of refunding Outstanding Junior Lien

1 Bonds to fund or refund maturing Junior Lien Bonds of the City for the payment of which money
2 is not otherwise available.

3 (i) **Junior Lien Additional Bonds Test.** The Junior Lien Additional Bonds
4 Test is as follows:

5 (A) No deficiency may then exist in the Junior Lien Debt Service Fund
6 or in any of the accounts therein; and

7 (B) No default may have occurred that is then continuing with respect
8 to any then outstanding Parity Bonds or Junior Lien Bonds; and

9 (C) There must be on file with the City a Junior Lien Coverage
10 Certificate as described in subsection 18(b)(ii)~~((, below))~~ of this ordinance. If the proposed
11 Future Junior Lien Bonds (or any portion thereof) are to be issued for the purpose of refunding
12 outstanding Junior Lien Bonds and the Annual Debt Service on the refunding portion of the
13 proposed Future Junior Lien Bonds is not more than \$5,000 greater than the Annual Debt Service
14 on the Junior Lien Bonds to be refunded thereby, then no Junior Lien Coverage Certificate shall
15 be required as to that portion issued for refunding purposes. If the requirements of the preceding
16 sentence are not satisfied, Refunding Junior Lien Bonds may alternatively be issued upon
17 delivery of a Junior Lien Coverage Certificate.

18 (ii) **Junior Lien Coverage Certificate.** A Junior Lien Coverage Certificate
19 required by subsection 18(b)(i) may be provided by either the Director of Finance or by a
20 Professional Utility Consultant, as follows:

21 (A) A Junior Lien Coverage Certificate may be prepared by the
22 Director of Finance, demonstrating that the amount of Adjusted Net Revenue in any 12
23 consecutive months out of the most recent 24 months preceding the delivery of the proposed

1 Series of Future Junior Lien Bonds (the “Base Period”) was not less than 115(~~(%)~~) percent of
2 Maximum Annual Debt Service in any future calendar year on all Parity Bonds, Intermediate
3 Lien Reimbursement Obligations (if any), and Junior Lien Bonds then outstanding plus the
4 proposed Series of Future Junior Lien Bonds. For the purposes of a Junior Lien Coverage
5 Certificate delivered under this subsection (A), the Director of Finance shall reflect in (~~his or~~
6 ~~her~~)that certificate any adjustment in the rates, fees, and charges for the services of the Light
7 System that will become effective at any time prior to or within six months after the delivery of
8 the proposed Future Junior Lien Bonds, by including in the amount of Adjusted Net Revenue the
9 amount that (~~he or she~~)the Director estimates would have been collected in the Base Period if
10 such new rates, fees, and charges had been in effect for the entire Base Period.

11 (B) A Junior Lien Coverage Certificate may be prepared by a
12 Professional Utility Consultant, demonstrating that the amount of(~~the~~) Adjusted Net Revenue
13 (which may be further adjusted as provided in subsection 18(a)(ii)(B)(1) through(~~(6), above~~)
14 (B)(5) of this ordinance) in any 12 consecutive months out of the most recent 24 months
15 preceding the delivery of the proposed (~~Series of~~)Future Junior Lien Bonds (the “Base
16 Period”) not less than 115(~~(%)~~) percent of Maximum Annual Debt Service in any future calendar
17 year on all Parity Bonds and Junior Lien Bonds then outstanding plus the proposed(~~Series of~~)
18 Future Junior Lien Bonds.

19 Section 19. **Rate Stabilization Account**. The City may at any time deposit in the Rate
20 Stabilization Account Net Revenue and any other money received by the Light System and
21 available to be used therefor. Thereafter, the City may withdraw any or all of the money from the
22 Rate Stabilization Account for inclusion in Adjusted Net Revenue for any applicable year of the
23 City. Such deposits or withdrawals may be made up to and including the date 90 days after the

1 end of the applicable year for which the deposit or withdrawal will be included as Adjusted Net
2 Revenue.

3 Section 20. **Refunding or Defeasance of Bonds.**

4 (a) **Bonds Designated as Refundable Bonds and as Defeasible Bonds.** Each Series
5 of the Bonds (~~(issued hereunder)~~)authorized by this ordinance is designated (~~(a Series of)~~)as
6 “Refundable Bonds” and (is eligible to be refunded under) as “Defeasible Bonds” for purposes
7 of this ordinance (in) and the (future) Omnibus Defeasance Ordinance, respectively.

8 (b) **Refunding; Defeasance.** The City may issue refunding bonds pursuant to the
9 laws of the State or use money available from any other lawful source (i) to pay when due the
10 principal of (including redemption premium, if any) and interest on any Bond, or any portion
11 thereof, included in a refunding or defeasance plan (the “Defeased Bonds”); (ii) to redeem and
12 retire, release, refund, or defease the Defeased Bonds; and (iii) to pay the costs of such refunding
13 or defeasance. If money and/or Government Obligations maturing at a time or times and in an
14 amount sufficient (together with known earned income from the investment thereof) to redeem
15 and retire, release, refund, or defease the Defeased Bonds in accordance with their terms, is set
16 aside in a special trust fund or escrow account irrevocably pledged to such redemption,
17 retirement, or defeasance (the “Trust Account”), then all right and interest of the Owners of the
18 Defeased Bonds in the covenants of this ordinance and in Net Revenue and the funds and
19 accounts pledged to the payment of such Defeased Bonds, other than the right to receive the
20 funds so set aside and pledged, thereafter shall cease and become void. Such Owners thereafter
21 shall have the right to receive payment of the principal (~~(of and interest)~~)(or redemption price)
22 of and interest on the Defeased Bonds from the Trust Account. After (~~(establishing and fully~~
23 ~~funding)~~)such a Trust Account is established and funded as set forth above, the Defeased Bonds

1 shall be deemed to be no longer outstanding and the Director of Finance may then apply any
2 money in any other fund or account established for the payment or redemption of the Defeased
3 Bonds to any lawful purpose.

4 (c) **Notice of Defeasance or Refunding.** Unless otherwise specified in the
5 applicable Bond Documents, notice of refunding or defeasance shall be given, and selection of
6 Bonds for any partial refunding or defeasance shall be conducted, in the manner set forth in this
7 ordinance for the redemption of Bonds.

8 (d) **Annual Debt Service Calculation Adjustments for Defeased Bonds.** If the
9 refunding or defeasance plan provides (i) that the Defeased Bonds (or the ~~((Refunding~~
10 ~~Bonds))~~refunding bonds issued to redeem those Defeased Bonds) are to be secured by money
11 and/or Government Obligations pending the redemption of the Defeased Bonds, and (ii) that
12 certain money and/or Government Obligations are pledged irrevocably for the redemption of the
13 Defeased Bonds, then only the debt service on such Bonds as are not Defeased Bonds (and any
14 ~~((Refunding Bonds))~~refunding bonds, the payment of which is not so secured by the refunding
15 plan) shall be included in the calculation of Annual Debt Service.

16 Section 21. **Federal Tax Matters.** The Bond Documents may include such additional
17 terms and covenants relating to federal tax matters as the Director of Finance deems necessary or
18 appropriate, including the following:

19 (a) **Tax-Exempt Bonds.** For each Series of the Bonds issued as Tax-Exempt Bonds,
20 the City covenants that it will take all actions, consistent with the terms of such Series as set
21 forth in this ordinance and the applicable Bond Documents, that are reasonably within its power
22 and necessary to prevent interest on that Series from being included in gross income for federal
23 income tax purposes. The City further covenants that it will neither take any action nor make or

1 permit any use of gross proceeds of that Series (or other funds of the City treated as gross
2 proceeds of that Series) at any time during the term of such Series) that will cause interest on
3 such Series to be included in gross income for federal income tax purposes. The City also
4 covenants that, to the extent the arbitrage rebate requirement of Section 148 of the Code is
5 applicable to any Series issued as Tax-Exempt Bonds, it will take all actions necessary to comply
6 (or to be treated as having complied) with that requirement in connection with that Series
7 (including the calculation and payment of any penalties that the City may elect to pay as an
8 alternative to calculating rebatable arbitrage and the payment of any other penalties if required
9 under Section 148 of the Code) to prevent interest on such ((Series))Bonds from being included
10 in gross income for federal income tax purposes.

11 (b) **Taxable Bonds; Tax Credit Subsidy Bonds.** For each Series of the Bonds
12 issued as Taxable Bonds or as Tax Credit Subsidy Bonds, the Director of Finance is authorized
13 to make provision in the Bonds and other Bond Documents, to execute additional written
14 agreements, and to make additional covenants on behalf of the City, all as ((he or she))the
15 Director may deem necessary or appropriate in order to obtain, maintain, and administer such tax
16 status. In the case of Tax Credit Subsidy Bonds, such additional covenants and agreement may
17 include (without limiting the generality of the foregoing) those necessary in order for the City (i)
18 to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in
19 respect of such Tax Credit Subsidy Bonds, and (ii) to ensure that such ((Series))Tax Credit
20 Subsidy Bonds otherwise become and remain eligible for tax benefits under the Code.

21 Section 22. **Official Statement; Continuing Disclosure.**

22 (a) **Preliminary Official Statement.** The Director of Finance and other appropriate
23 City officials are directed to cause the preparation of and review the form of a preliminary

1 official statement in connection with each sale of one or more Series to the public. For the sole
2 purpose of the Purchaser’s compliance with paragraph (b)(1) of Rule 15c2-12, the Director of
3 Finance is authorized to deem that preliminary official statement final as of its date, except for
4 the omission of information permitted to be omitted by Rule 15c2-12. The City approves the
5 distribution to potential purchasers of the Bonds of a preliminary official statement that has been
6 deemed final in accordance with this subsection 22(a).

7 (b) **Final Official Statement.** The City approves the preparation of a final official
8 statement for each sale of one or more Series to be sold to the public in the form of the
9 preliminary official statement, with such additions, modifications and amendments as the
10 Director of Finance deems necessary or desirable, and further authorizes the Director of Finance
11 to execute and deliver such final official statement to the Purchaser. The City authorizes and
12 approves the distribution by the Purchaser of that final official statement to purchasers and
13 potential purchasers of the Bonds.

14 (c) **Undertaking to Provide Continuing Disclosure.** To meet the requirements of
15 paragraph (b)(5) of Rule 15c2-12, as applicable to a participating underwriter for a Series of the
16 Bonds, the Director of Finance is authorized to execute a written Continuing Disclosure
17 Agreement with respect to that Series, in substantially the form attached to this ordinance as
18 Exhibit B.

1 Section 23. **Supplemental or Amendatory Bond Documents**. This ordinance and the
2 other applicable Bond Documents for any Series of the Bonds may not be supplemented or
3 amended in any respect subsequent to the Issue Date of such Series, except in accordance with
4 and subject to the provisions of this section.

5 (a) **Amendments Without Bond Owners’ Consent**. From time to time and at any
6 time, without the consent of or notice to the owners of any Parity Bonds or Junior Lien Bonds,
7 the City may supplement or amend the Bond Documents applicable to any Series of the Bonds
8 for any of the purposes set forth in this subsection (a). Any such supplement or amendment may
9 be passed, adopted, or otherwise approved in writing by the City, without requiring the consent
10 of the registered owners of any Parity Bonds or Junior Lien Bonds, but may become effective
11 only upon receipt by the City of an opinion of Bond Counsel to the effect that such supplement
12 or amendment is permitted by the terms of this ordinance. The City shall deliver a copy of any
13 such supplement or amendment to each Rating Agency prior to its passage, adoption, or approval
14 (as applicable) by the City. The types of supplements and amendments permitted under this
15 subsection (a) are as follows:

16 (i) To add to any Parity Bond Documents (or to any Junior Lien Bond
17 Documents, as applicable) additional covenants and agreements that do not adversely affect the
18 interests of the owners of any Parity Bonds (or, as to Junior Lien Bond Documents, the interests
19 of the owners of any Junior Lien Bonds) then outstanding, or to surrender any right or power
20 reserved to or conferred upon the City in any Bond Documents.

21 (ii) To cure any ambiguities or to cure, correct, or supplement any defective
22 provision in any Bond Documents, in regard to matters or questions arising under such Bond
23 Documents, as the City may deem necessary or desirable and not inconsistent with this

1 ordinance, and which do not materially adversely affect the interests of the owners of any Parity
2 Bonds or Junior Lien Bonds then outstanding.

3 (iii) To make such changes as may be necessary to permit the Bonds to be held
4 in registered certificate form or in Book-Entry Form, as the case may be, and to make similar
5 amendments or modifications of a technical nature.

6 (b) **Amendments Permitted Upon Bond Owners' Consent.**

7 (i) **Parity Bond Documents.** With the consent of the registered owners
8 representing not less than 60(~~(%)~~) percent in aggregate principal amount of the Parity Bonds then
9 outstanding, the City may pass, adopt, or otherwise provide its written approval of any
10 supplement or amendment to add to, change, or eliminate any provision of the Bond Documents
11 applicable to a Series of the Bonds designated as Parity Bonds in any manner other than a
12 supplement or amendment effecting a change described in subsection 23(c)(i) of this ordinance.

13 (ii) **Junior Lien Bond Documents.** With the consent of the registered owners
14 representing not less than 60(~~(%)~~) percent in aggregate principal amount of the Junior Lien
15 Bonds then outstanding, the City may pass, adopt, or otherwise approve in writing any
16 supplement or amendment to add to, change, or eliminate any provision of the Bond Documents
17 applicable to a Series of the Bonds designated as Junior Lien Bonds in any manner other than a
18 supplement or amendment effecting a change described in subsection 23(c)(ii) of this ordinance.

19 (c) **Amendments Prohibited Except Upon Unanimous Consent.**

20 (i) **Amendments to Parity Bond Documents.** Nothing contained in this
21 section shall permit or be construed as permitting an amendment or supplement that would:

22 (A) Except upon consent from the registered owners of or on behalf of
23 all Parity Bonds so affected, extend the fixed maturity of any Parity Bond, reduce the rate of

1 interest on any Parity Bond (other than a change in interest rate permitted under the applicable
2 Parity Bond Documents~~as~~ then in effect), extend the times of payment of interest from their
3 respective due dates, reduce the principal amount of any Parity Bond, or reduce any redemption
4 premium; or

5 (B) Except upon consent from the registered owners of or on behalf of
6 all of the Parity Bonds then outstanding, reduce the percentage of ownership required under
7 subsection 23(b)(i)~~((, above,))~~ of the ordinance to approve any supplement or amendment.

8 (ii) **Amendments to Junior Lien Bond Documents.** Nothing contained in
9 this section shall permit or be construed as permitting an amendment or supplement that would:

10 (A) Except upon consent from the registered owners of or on behalf of
11 all Junior Lien Bonds so affected, extend the fixed maturity of any Junior Lien Bond, reduce the
12 rate of interest on any Junior Lien Bond (other than a change in interest rate permitted under the
13 applicable Junior Lien Bond Documents~~((as))~~ then in effect), extend the times of payment of
14 interest from their respective due dates, reduce the principal amount of any Junior Lien Bond, or
15 reduce any redemption premium; or

16 (B) Except upon consent from the registered owners of or on behalf of
17 all of the Junior Lien Bonds then outstanding, reduce the percentage of ownership required under
18 subsection 23(b)(ii)~~((, above,))~~ of the ordinance to approve any supplement or amendment.

19 (d) **Notice and Consents.** If at any time the City passes, adopts, or otherwise
20 approves in writing a supplement or amendment for any of the purposes requiring consent under
21 subsection 23(b) or 23(c) of this ~~((section))~~ ordinance, it shall provide a notice to each registered
22 owner and to each Rating Agency, briefly summarizing the nature of the proposed supplement or
23 amendment and stating that a copy of such supplement or amendment is on file at the office of

1 the City Clerk(~~(, to each registered owner and to each Rating Agency)~~). It shall not be necessary
2 to obtain consent to or approval of the particular form of any proposed supplement or
3 amendment, but it shall be sufficient if the consent shall approve the substance thereof. For
4 purposes of determining whether consents representing the requisite percentage of principal
5 amount of Parity Bonds or Junior Lien Bonds have been obtained, the Accreted Value of Capital
6 Appreciation Bonds shall be deemed to be the principal amount.

7 (e) **Effect of Amendment or Supplement.** Upon the effective date of any
8 amendment or supplement to any Bond Documents, such Bond Documents shall be deemed to
9 be amended and modified in accordance with such amendment or supplement. Thereafter, the
10 respective rights, duties, and obligations of the City under the applicable Bond Documents shall
11 be determined, exercised, and enforced subject in all respects to such supplement or
12 amendments, and all the terms and conditions of any such supplement or amendment shall be
13 deemed to be a part of the terms and conditions of those Bond Documents for any and all
14 purposes. The effective dates of such amendments and supplements shall be as follows:

15 (i) An amendment and supplement permitted under subsection 23(a) of this
16 ordinance shall become effective immediately upon (A) the passage, adoption, or other approval
17 of such amendment or supplement (or upon the effective date of such document as stated therein,
18 if any), and (B) the delivery of the required opinion of Bond Counsel stating that such
19 amendment or supplement is permitted under this ordinance.

20 (ii) A supplement or amendment permitted under subsection 23(b) or 23(c) of
21 this ordinance shall become effective on the date on which the City has received the written
22 consents of the requisite percentage of registered owners. If the requisite percentage of registered
23 owners of Parity Bonds or Junior Lien Bonds, as applicable, have given their consent to any such

1 amendment or supplement, no owner of any Bond shall have any right (i) to object to the
2 passage, adoption, or approval of such supplement or amendment, (ii) to object to any of the
3 terms and provisions contained therein or the operation thereof, (iii) in any manner to question
4 the propriety of the passage, adoption, or approval thereof, (iv) to enjoin or restrain the City, or
5 any authorized official thereof, from passing, adopting, or otherwise approving the same, or (v)
6 to enjoin or restrain the City, any authorized official thereof, or the Bond Registrar from taking
7 any action pursuant to the provisions thereof.

8 (f) **Notation on Bonds.** Any Bonds executed and delivered after the effective date of
9 any amendment or supplement that is passed, adopted, or otherwise approved in writing pursuant
10 to this section may include a notation as to any matter provided for in such amendment or
11 supplement. The City may, in its discretion, prepare and deliver replacement bonds, modified to
12 reflect any such amendment or supplement, to the registered owner(s) thereof upon surrender of
13 the original bonds for cancellation.

14 ~~((g) **Special Amendments.** If and to the extent that it is determined that the written~~
15 ~~consent of Registered Owners of the Bonds is required under subsection (b) or (c) of this section,~~
16 ~~the Registered Owners from time to time of the Bonds, by taking and holding the same, are hereby~~
17 ~~deemed to have consented to any supplement or amendment to any Bond Documents effecting any~~
18 ~~one or more of the following changes:~~

19 (i) ~~Permitting the reimbursement obligations of the City under any Qualified~~
20 ~~Insurance or Qualified Letter of Credit obtained for the benefit of the holders of the Parity Bonds~~
21 ~~(other than Qualified Insurance or a Qualified Letter of Credit obtained to satisfy all or a part of~~
22 ~~the Reserve Fund Requirement) to be secured by a charge and lien on Net Revenue of the Light~~

1 ~~System equal in rank with the charge and lien upon such Net Revenue required to be paid into the~~
2 ~~Parity Bond Fund to pay and secure the payment of the principal of and interest on Parity Bonds.~~

3 ~~(ii) — Permitting the reimbursement obligations of the City under any Alternate~~
4 ~~Reserve Security to be made by transfers from money in the Light Fund on parity with the transfers~~
5 ~~to be made upon receipt of any notice of cancellation of an Alternate Reserve Security.))~~

6 Section 24. **Defaults and Remedies.**

7 (a) **Parity Bond Events of Default.** Each of the following shall constitute an Event
8 of Default with respect to the Bonds designated as Parity Bonds, except as set forth in subsection
9 24(c) of this ~~((section))~~ordinance:

10 (i) If a default is made in the payment of the principal of (including Sinking
11 Fund Requirements and any redemption premium thereon, if any) or interest on any Parity Bond
12 when the same shall become due and payable; or

13 (ii) If the City defaults in the observance and performance of any other of the
14 Parity Bond covenants, conditions, or agreements on the part of the City set forth in this
15 ordinance or the applicable Parity Bond Documents (except as otherwise provided herein or in
16 such Parity Bond Documents) and such default or defaults shall have continued for a period of
17 six months (the “cure period”) after the City shall have received from the registered owners of
18 not less than ~~25((%))~~percent in principal amount of the Parity Bonds then outstanding (or from a
19 Bond Owners’ Trustee duly appointed as set forth in subsection ~~24((d), below))~~(e) of this
20 ordinance) a written notice specifying and demanding the cure of such default. However, if such
21 default is one ~~((which))~~that cannot be completely remedied within the cure period, it shall not be
22 an Event of Default with respect to the Parity Bonds, so long as the City has taken active steps
23 within the cure period to remedy the default and is diligently pursuing such remedy.

1 **(b) Junior Lien Bond Events of Default.** Each of the following shall constitute an
2 Event of Default with respect to the Bonds designated as Junior Lien Bonds, except as set forth
3 in subsection 24(c) of this ~~((section))~~ordinance:

4 (i) If a default is made in the payment of the principal of (including Sinking
5 Fund Requirements and any redemption premium thereon, if any) or interest on any Junior Lien
6 Bond when the same shall become due and payable; or

7 (ii) If the City defaults in the observance and performance of any other of the
8 Junior Lien Bond covenants, conditions, or agreements on the part of the City set forth in this
9 ordinance or the applicable Junior Lien Bond Documents (except as otherwise provided
10 ~~((herein))~~for in this ordinance or in such Junior Lien Bond Documents) and such default or
11 defaults shall have continued for a period of six months (the “cure period”) after the City shall
12 have received from the registered owners of not less than 25~~((%))~~percent in principal amount of
13 the Junior Lien Bonds then outstanding (or from a Bond Owners’ Trustee duly appointed as set
14 forth in subsection ~~((d), below))~~(e) of this section) a written notice specifying and demanding
15 the cure of such default. However, if such default is one which cannot be completely remedied
16 within the cure period, it shall not be an Event of Default with respect to the Bonds as long as the
17 City has taken active steps within the cure period to remedy the default and is diligently pursuing
18 such remedy.

19 (c) **Exceptions.** Notwithstanding anything in this section to the contrary, the failure
20 of the City or any obligated person to comply with a Continuing Disclosure Agreement shall not
21 constitute an Event of Default, and the sole remedy of any holder of any Parity Bond or Junior
22 Lien Bond, as applicable, shall be to seek an order of specific performance from an appropriate
23 court to compel the City to comply with the Continuing Disclosure Agreement. For purposes of

1 determining whether an Event of Default has occurred and is continuing with respect to the rate
2 covenant set forth in ~~((Subsection))~~ subsection 17(a)(ii) or 17(b)(ii) of this ordinance, if such
3 covenant is met for any fiscal year, it shall be deemed to have been met for all prior fiscal years.

4 (d) **Remedies; No Acceleration.** In the case of a Parity Bond Event of Default, an
5 owner of a Parity Bond shall have the remedies set forth in Section 10 of this ordinance and in
6 the applicable Parity Bond Documents ~~((*Upon the redemption or defeasance of all of the*~~
7 ~~*Outstanding Parity Bonds described in Exhibit A to this ordinance, the rights and remedies of*~~
8 ~~*the owners from time to time of Parity Bonds shall be*)),~~ as limited by subsection 24(e) ~~((~~
9 ~~*below*))~~ of this ordinance. In the case of a Junior Lien Bond Event of Default, the owner of a
10 Junior Lien Bond shall have the remedies set forth in Section 10 of this ordinance and in the
11 applicable Junior Lien Bond Documents, as limited by subsection 24(e) ~~((~~ ~~*below*~~ ~~))~~ of this
12 ordinance. Nothing contained in this ordinance shall, in any event or under any circumstance, be
13 deemed to authorize the acceleration of the maturity of principal on the Bonds, and the remedy
14 of acceleration is expressly denied to the registered owners of the Bonds under any
15 circumstances including, without limitation, upon the occurrence and continuance of an Event of
16 Default.

17 (e) **Bond Owners' Trustee** ~~((~~ ~~*The provisions of this subsection shall become*~~
18 ~~*effective with respect to Parity Bonds only upon the redemption or defeasance of all of the*~~
19 ~~*Outstanding Parity Bonds described in Exhibit A to this ordinance.*~~ The provisions of this
20 subsection shall become effective immediately with respect to Bonds issued as Junior Lien
21 Bonds)). A Bond Owners' Trustee appointed in the manner provided in this section, and each
22 successor thereto, is declared to be a trustee for all of the owners of the Parity Bonds (in the case
23 of a Parity Bond Event of Default) or all of the owners of the Junior Lien Bonds (in the case of a

1 Junior Lien Bond Event of Default), as applicable, and is empowered to exercise all the rights
2 and powers herein conferred on the Bond Owners' Trustee.

3 (i) **Appointment of Bond Owners' Trustee; Removal.** Upon the
4 occurrence and continuance of an Event of Default described in subsection 24(a) of this
5 ~~((section))~~ordinance, the registered owners of 25~~((%))~~ percent in principal amount of the then
6 outstanding Parity Bonds (or upon the occurrence and continuance of an Event of Default
7 described in subsection 24(b) of this ~~((section))~~ordinance, the registered owners of 25~~((%))~~
8 percent in principal amount of the then outstanding Junior Lien Bonds~~((, if such default is one~~
9 ~~described in subsection (b) of this section)))~~) may appoint a Bond Owners' Trustee by an
10 instrument or concurrent instruments in writing signed by such registered owners (or by their
11 duly authorized attorneys-in-fact) and delivered to such Bond Owners' Trustee, with notification
12 of such appointment given to the City. That appointment shall become effective immediately
13 upon acceptance thereof by the Bond Owners' Trustee. The entity acting as Bond Owners'
14 Trustee may be removed at any time, and a successor Bond Owners' Trustee may be appointed,
15 by the registered owners of more than 50~~((%))~~ percent in principal amount of the Parity Bonds
16 then outstanding (in the case of a Parity Bond Event of Default) or 50~~((%))~~ percent in principal
17 amount of the Junior Lien Bonds then outstanding (in the case of a Junior Lien Bond Event of
18 Default), as applicable, by an instrument or concurrent instruments in writing signed and
19 acknowledged by such registered owners or by their duly authorized attorneys-in-fact.

20 (ii) **Cure of Event of Default.** If the Bond Owners' Trustee furnishes to the
21 City a certificate stating that, in its sole judgment, an Event of Default that has occurred has been
22 cured, such Event of Default shall be conclusively deemed to be cured, and the City, the Bond
23 Owners' Trustee, and the registered owners of the Parity Bonds or Junior Lien Bonds, as

1 applicable, shall be restored to the same rights and position which they would have held if no
2 Event of Default had occurred.

3 (iii) **Suits at Law or in Equity.** Upon the occurrence of an Event of Default
4 and during the continuance thereof, the Bond Owners' Trustee in its discretion may (and, upon
5 the written request of the registered owners of not less than 25(~~%~~) percent in principal amount
6 of the Parity Bonds (or Junior Lien Bonds, as applicable) then outstanding, shall) take such steps
7 and institute such suits, actions, or other proceedings, all as it may deem appropriate for the
8 protection and enforcement of the rights of the registered owners of the Parity Bonds (or Junior
9 Lien Bonds, as applicable), to collect any amounts due and owing to or from the City, or to
10 obtain other appropriate relief, and may enforce the specific performance of any covenant,
11 agreement or condition contained in this ordinance or set forth in any of the applicable Bond
12 Documents.

13 Any action, suit, or other proceedings instituted by the Bond Owners' Trustee hereunder
14 shall be brought in its name as the Bond Owners' Trustee and all such rights of action upon or
15 under any of the Parity Bonds (or Junior Lien Bonds, as applicable) or the provisions of this
16 ordinance may be enforced by the Bond Owners' Trustee without the possession of any of those
17 Parity Bonds (or Junior Lien Bonds, as applicable) and without the production of the same at any
18 trial or proceedings relative thereto except where otherwise required by law.

19 (iv) **Effect of Appointment of Bond Owners' Trustee.** Any suit, action, or
20 proceeding instituted by the Bond Owners' Trustee shall be brought for the ratable benefit of all
21 of the owners of the Parity Bonds (or Junior Lien Bonds, as applicable), subject to the provisions
22 of this ordinance. The respective owners, by taking and holding the same, shall be conclusively
23 deemed irrevocably to appoint the Bond Owners' Trustee the true and lawful trustee of the

1 respective owners, with authority to institute any such action, suit, or proceeding; to receive as
2 trustee and deposit in trust any sums becoming distributable on account of those Parity Bonds; to
3 execute any paper or documents for the receipt of money; and to do all acts with respect thereto
4 that the owner(~~(himself or herself)~~) might have done in person. Nothing herein shall be deemed
5 to authorize or empower the Bond Owners' Trustee to consent to accept or adopt, on behalf of
6 any owner of the Parity Bonds (or Junior Lien Bonds, as applicable), any plan of reorganization
7 or adjustment affecting the Parity Bonds (or Junior Lien Bonds, as applicable) or any right of any
8 registered owner thereof, or to authorize or empower the Bond Owners' Trustee to vote the
9 claims of the registered owners thereof in any receivership, insolvency, liquidation, bankruptcy,
10 reorganization, or other proceeding to which the City is a party.

11 (v) **Bond Owners' Direction of Proceedings.** By an instrument or
12 concurrent instruments in writing executed and delivered to the Bond Owners' Trustee, the
13 owners of more than 50(~~(%)~~) percent in aggregate principal amount of the Parity Bonds (or
14 Junior Lien Bonds, as applicable) then outstanding, shall be entitled to control and direct the
15 enforcement of all rights and remedies granted to the owners (or the Bond Owners' Trustee for
16 the benefit of the owners) under the applicable(~~(Parity)~~) Bond Documents. Notwithstanding the
17 foregoing, the Bond Owners' Trustee shall have the right to decline to follow any such direction
18 which in the opinion of the Bond Owners' Trustee, in reasonable reliance on advice of counsel,
19 would be unjustly prejudicial to owners not parties to such direction.

20 (vi) **Limitation on Remedies; Limitations on Individual Actions.** (~~(It is~~
21 ~~understood and intended that no~~) No owner of a Parity Bond, in the case of a Parity Bond Event
22 of Default (or owner of a Junior Lien Bond, in the case of a Junior Lien Bond Event of Default)
23 shall have any right in any manner whatever by its action to affect, disturb, or prejudice the

1 security pledged in this ordinance or the rights of any other owners, or to enforce any right under
2 the applicable Bond Documents or applicable law except in the manner provided in this section,
3 and that all proceedings at law or in equity to enforce any such right shall be instituted, had, and
4 maintained in the manner herein provided and for the equal and ratable benefit and protection of
5 all owners of the Parity Bonds (or Junior Lien Bonds, as applicable), subject to the provisions of
6 this ordinance.

7 (vii) **Limitations on Individual Actions.** No owner of a Parity Bond (or
8 Junior Lien Bond, as applicable) shall have any right to institute any action, suit, or proceeding at
9 law or in equity for the enforcement of same unless (A) such owner previously shall have given
10 to the Bond Owners' Trustee written notice of the occurrence of an Event of Default; (B) the
11 owners of more than ~~50((%))~~ percent in aggregate principal amount of the then ~~((Outstanding))~~
12 outstanding Parity Bonds (in the case of a Parity Bond Event of Default) or ~~50((%))~~ percent in
13 aggregate principal amount of the then ~~((Outstanding))~~ outstanding Junior Lien Bonds ~~((as~~
14 ~~applicable,))~~ (in the case of a Junior Lien Bond Event of Default) shall have made a written
15 request ~~((upon))~~ to the Bond Owners' Trustee to exercise the powers granted above or to institute
16 such suit, action, or proceeding in its own name; (C) such owners shall have tendered to the
17 Bond Owners' Trustee reasonable indemnity against the costs, expenses, and liabilities to be
18 incurred in compliance with such request; and (D) the Bond Owners' Trustee shall have refused
19 or omitted to comply with such request for a period of 60 days after such written request shall
20 have been received by, and said tender of indemnity shall have been made to, the Bond Owners'
21 Trustee. The conditions set forth in (A) through (D) in the preceding sentence are hereby
22 declared to be conditions precedent to the exercise by any owner of a Parity Bond (in the case of
23 a Parity Bond Event of Default) or by any owner of a Junior Lien Bond (in the case of a Junior

1 Lien Bond Event of Default) of any remedy under the applicable Bond Documents or under
2 applicable law.

3 (viii) **Duties and Obligations of Bond Owners' Trustee.** The Bond Owners'
4 Trustee shall not be liable except for the performance of such duties as are specifically set forth
5 ~~((herein))~~in this ordinance. During any period in which an Event of Default has occurred and is
6 continuing as to the Parity Bonds (or the Junior Lien Bonds, as applicable((;))) the Bond
7 Owners' Trustee shall exercise such of the rights and powers vested in it ~~((hereby))~~by this
8 ordinance, and shall use the same degree of care and skill in its exercise, as a prudent person
9 would exercise or use under the circumstances in the conduct of ~~((his or her))~~that person's own
10 affairs. The Bond Owners' Trustee shall have no liability for any act or omission to act
11 hereunder except for the Bond Owners' Trustee's own negligent action, its own negligent failure
12 to act or its own willful misconduct. The duties and obligations of the Bond Owners' Trustee
13 shall be determined solely by the express provisions of this ordinance, and no implied powers,
14 duties or obligations of the Bond Owners' Trustee shall be read into this ordinance. The Bond
15 Owners' Trustee shall not be required to expend or risk its own funds or otherwise incur
16 individual liability in the performance of any of its duties or in the exercise of any of its rights or
17 powers as the Bond Owners' Trustee, except as may result from its own negligent action, its own
18 negligent failure to act or its own willful misconduct. The fees and expenses of the Bond
19 Owners' Trustee shall be borne by the owners of the Parity Bonds (or Junior Lien Bonds, as
20 applicable;) and not by the City. A Bond Owners' Trustee may require such security and
21 indemnity as may be reasonable against the costs, expenses, and liabilities that may be incurred
22 in the performance of its duties. The Bond Owners' Trustee shall not be bound to recognize any
23 person as a registered owner of any Parity Bond (or Junior Lien Bond, as applicable) until ~~((his~~

1 ~~or her~~)their title thereto, if disputed, has been established to its reasonable satisfaction. The
2 Bond Owners' Trustee may consult with counsel, and the opinion of such counsel shall be full
3 and complete authorization and protection in respect of any action taken or suffered by it
4 hereunder in good faith and in accordance with the opinion of such counsel. The Bond Owners'
5 Trustee shall not be answerable for any neglect or default of any person, firm, or corporation
6 employed and selected by it with reasonable care.

7 Section 25. **The Refunding Plan.**

8 (a) **Approval of Refunding Plan; Appointment of Refunding Trustee.** The
9 Director of Finance is authorized and directed to select a Refunding Trustee and execute a
10 Refunding Trust Agreement setting forth a Refunding Plan for each series of Refundable Bonds
11 (or portion thereof) to be refunded pursuant to this ordinance, in accordance with subsection
12 25(d)~~((of this section))~~. Multiple Refunding Plans may be combined in a single Refunding Trust
13 Agreement. The Refunding Plan shall be carried out, and proceeds of the Bonds shall be applied,
14 in accordance with this ordinance, the respective Refunded Bond Documents, the Refunding
15 Trust Agreement, and the laws of the State. Nothing ~~((herein))~~in this ordinance shall prevent the
16 issuance of Refunding Parity Bonds for the purpose of refunding Refundable Junior Lien Bonds,
17 or the issuance of Refunding Junior Lien Bonds for the purpose of refunding Refundable Parity
18 Bonds, provided that the requirements of Section 18 of this ordinance and the Parity Conditions
19 (if the Refunding Bonds are designated as Parity Bonds) or Junior Lien Additional Bonds Test (if
20 the Refunding Bonds are designated as Junior Lien Bonds) are met as of the Issue Date of such
21 ~~((Series))~~series of Refunding Bonds.

22 (b) **Acquisition of Acquired Obligations.** To the extent practicable and desirable,
23 the Refunding Plan shall provide for the Refunding Trustee's purchase of Acquired Obligations

1 bearing such interest and maturing as to principal and interest in such amounts and at such times
2 ~~((se-))~~as to provide~~((;))~~ (together with a beginning cash balance, if necessary,) for the timely
3 payment of the amounts required to be paid by the Refunding Plan. The Acquired Obligations
4 shall be listed and more particularly described in a schedule attached to the Refunding Trust
5 Agreement,~~((but are))~~ subject to substitution as set forth in subsection 25(c)~~((below))~~.

6 (c) **Substitution of Acquired Obligations.** The City reserves the right at any time to
7 substitute cash or other Government Obligations (as defined in the applicable Refunded Bond
8 Documents) for the Acquired Obligations if the City obtains a verification by a nationally
9 recognized independent certified public accounting firm reasonably acceptable to the Refunding
10 Trustee confirming that the payments of principal of and interest on the substitute obligations, if
11 paid when due, together with the cash to be held by the Refunding Trustee, will be sufficient to
12 carry out the Refunding Plan. If the applicable Series of the Bonds (or the applicable Refunded
13 Bonds) were issued as Tax-Exempt Bonds, then prior to such substitution, the City must also
14 obtain an opinion from Bond Counsel to the effect that the disposition and substitution or
15 purchase of such securities will not cause the interest on the applicable Series of the Bonds (or of
16 the applicable Refunded Bonds) issued as Tax-Exempt Bonds to be included in gross income for
17 federal income tax purposes and that such disposition and substitution or purchase is in
18 compliance with the statutes and regulations applicable to the Series of the Bonds. Any surplus
19 money resulting from the sale, transfer, other disposition or redemption of the Acquired
20 Obligations and the substitutions therefor shall be released from the trust estate and may be used
21 for any lawful City purpose.

22 (d) **Refunding Trust Agreement.** In connection with ~~((each))~~any Series of the
23 Bonds, the Director of Finance is authorized to execute one or more Refunding Trust

1 Agreements with one or more Refunding Trustees, setting forth the duties, obligations and
2 responsibilities of the Refunding Trustee in connection with carrying out the applicable
3 Refunding Plan. Each Refunding Trust Agreement and Refunding Plan must, among other
4 things: (1) identify the Refundable Bonds to be refunded thereby; (2) contain the elements set
5 forth in the definition of Refunding Plan set forth in this ordinance, including provide for the
6 issuance of the Series of the Bonds and describing the method for carrying out the refunding of
7 the Refunded Bonds (including authorizing and directing the Refunding Trustee to use the
8 money deposited with it to purchase the Acquired Obligations (or substitute obligations) and to
9 apply such money along with the maturing principal of and interest on such obligations to make
10 the payments required to be made by the Refunding Plan); and (3) shall provide for the giving of
11 notices of defeasance and redemption, as required under the Refunded Bond Documents. The
12 Refunding Trust Agreement may additionally provide for the payment of the costs of issuance of
13 the Series and the costs of administering the Refunding Plan (including without limitation, all
14 necessary and proper fees, compensation, and expenses of the Refunding Trustee and all other
15 costs incidental to the setting up of the escrow to accomplish the Refunding Plan), and for such
16 other related matters as the Director of Finance may deem necessary or expedient.

17 Section 26. **Redemption of the Refunded Bonds.** The Director of Finance is authorized
18 on behalf of the City to take such actions as may be necessary or convenient to call the Refunded
19 Bonds for redemption. Such call for redemption of the Refunded Bonds shall identify the
20 Refunded Bonds, redemption dates, and redemption prices (expressed as a percentage of the
21 stated principal amount); and shall be irrevocable after the Issue Date of the applicable Series of
22 the Bonds. The dates on which the Refunded Bonds are to be called for redemption shall be, in
23 the judgment of the Director of Finance, the earliest practical dates on which those Refunded

1 Bonds may be called for redemption. The proper City officials are authorized and directed to
2 give or cause to be given such notices as required, at the times and in the manner required
3 pursuant to the Refunded Bond Documents, in order to carry out the Refunding Plan.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
City Finance / City Light	Kristi Beattie Kirsty Grainger	Saroja Reddy Greg Shiring

* Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the electric system of The City of Seattle; amending Ordinance 125460, as amended by Ordinance 125987, to incorporate, ratify, and confirm certain contingent amendments thereto that were to become effective upon the occurrence of certain events that have since occurred and making certain other technical amendments; and ratifying and confirming certain prior acts.

Summary and Background of the Legislation: This legislation amends the municipal light and power revenue bond “Omnibus Refunding Ordinance” that was passed by Council in Ordinance 125460 and amended by Ordinance 125987. Through the “Omnibus Refunding Ordinance” the City previously authorized the issuance of new municipal light and power revenue bonds for the purpose of refunding Outstanding Parity Bonds or Outstanding Junior Lien Bonds. However, the Omnibus Refunding Ordinance contained contingent amendments that have now become effective. For ease of reference and to avoid confusion going forward, this legislation amends each section of Ordinance 125460, as amended by Ordinance 125987, to read as shown in this legislation. This legislation incorporates the terms of contingent amendments, deletes inoperative provisions, and makes other technical amendments consistent with subsection 23(a) of the Outstanding Parity Bond Ordinances.

Future Refunding Parity Bonds will be issued under the authority of this ordinance without affecting the outstanding bonds previously issued under the Omnibus Refunding Ordinance.

2. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**
This legislation affects City Finance, which coordinates the issuance of the refunding bonds, and City Light which is responsible for managing the bond proceeds and implementing the major projects supported by the bond issues.
- b. Is a public hearing required for this legislation?**
No.
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.

d. Does this legislation affect a piece of property?

No.

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

N/A.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

No.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

N/A.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

N/A.

Amendment 1 Version 1 to CB 120685 - OCF Municipal Light and Power Omnibus Refunding
Bonds 2024 ORD

Sponsor: Councilmember Mosqueda

Update information on Exhibit A – Outstanding Parity Bonds

Effect: This amendment would update information shown on Exhibit A – Outstanding Parity Bonds for the Municipal Light and Power Refunding Revenue Bonds, 2023B, bond issue. The date and amount were not known until after the Executive transmitted the ordinance to Council for consideration.

These technical corrections would change the “dated date” and fill in the blank on the “Original Par Amount” as shown on Version 2 of the Exhibit A. ~~((Strikethrough))~~ indicates deleted language. Underline indicates added language.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to Seattle Parks and Recreation; authorizing an amendment to the Interlocal Agreement between The City of Seattle and the Seattle Park District.

WHEREAS, on April 28, 2014, the Seattle City Council approved Ordinance 124468, which authorized the

Mayor to sign an interlocal agreement formalizing the relationship between The City of Seattle (“The City”) and the Seattle Park District for implementation of park and recreation services and infrastructure in Seattle; and

WHEREAS, voters approved Proposition 1 on August 5, 2014, creating the Seattle Park District (“the District”) as permitted under chapter 35.61 RCW; and

WHEREAS, to ensure the ongoing provision of sufficient revenues to Seattle’s parks and recreation system, through the interlocal agreement, The City committed to allocate a baseline of General Fund revenues to be appropriated to Seattle Parks and Recreation in each annual budget that is adjusted by the rate of inflation as measured by Consumer Price Index on an annual basis; and

WHEREAS, in the 2024 Proposed Budget the City is retaining and expanding its allocation of General Fund revenues to Seattle Parks and Recreation, but an unprecedentedly high rate of inflation for 2023 hampers the City’s ability to do so at the level currently required by the interlocal agreement; and

WHEREAS, both the City and the Seattle Park District have an interest in ensuring the long-term stability of revenues to the park and recreation system, and avoiding unilateral termination of the interlocal agreement during a challenging fiscal environment; and

WHEREAS, pursuant to Ordinance 125722 of the City and Resolution 24 of the District Board, the City and the Seattle Park District agreed to enter into that certain First Amendment to the Interlocal Agreement, (the “First Amendment”); and

WHEREAS, pursuant to Ordinance 126199 of the City and Resolution 36 of the District Board, the City and the Seattle Park District agreed to enter into a Second Amendment to the Interlocal Agreement (the “Second Amendment”); and

WHEREAS, pursuant to Ordinance 126380 of the City and Resolution 43 of the District Board, the City and the Seattle Park District agreed to enter into a Third Amendment to the Interlocal Agreement (the “Third Amendment”) and execute an Amended and Restated Interlocal Agreement; and

WHEREAS, the City and the Seattle Park District desire to amend the interlocal agreement authorized by Ordinance 124468 as amended and restated on July 6, 2021 to adjust and clarify the terms; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Statement of intent. It is the intent of The City of Seattle that the interlocal agreement be amended to revise the rate by which the General Fund baseline for parks and recreation services is adjusted for the 2024 budget, and to clarify the specific measure of adjustment that will be used for other years.

Section 2. Amendment to interlocal agreement authorized. The Mayor is authorized to execute and deliver, on behalf of The City of Seattle, an amendment to the interlocal agreement between The City of Seattle and the Seattle Park District (the “Fourth Amendment”), set out as Attachment 1 to this ordinance.

Section 3. Amended and restated interlocal agreement authorized. The Mayor is authorized to execute and deliver, on behalf of The City of Seattle, the interlocal agreement as amended by Ordinance 125722, Ordinance 126199, Ordinance 126380, and this ordinance, as set out as Attachment 2 to this ordinance.

Section 4. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if

not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

Scheereen Dedman, City Clerk

- Attachment 1 - Fourth Amendment to Interlocal Agreement Between The City of Seattle, Washington, and the Seattle Park District
- Attachment 2 - An Amended and Restated Interlocal Agreement Between The City of Seattle, Washington, and the Seattle Park District

**FOURTH AMENDMENT TO INTERLOCAL AGREEMENT BETWEEN
THE CITY OF SEATTLE, WASHINGTON, AND THE SEATTLE PARK DISTRICT**

This Amendment is made between The City of Seattle, Washington (the “City”), a first-class city organized under the laws of the State of Washington, and the Seattle Park District, a municipal corporation organized under chapter 35.61 RCW and the laws of the state of Washington, amending the Amended and Restated Interlocal Agreement executed July 6, 2021.

WHEREAS, on April 28, 2014, the Seattle City Council approved Ordinance 124468, which authorized the Mayor to sign an interlocal agreement formalizing the relationship between The City of Seattle and the Seattle Park District for implementation of park and recreation services and infrastructure in Seattle; and

WHEREAS, voters approved Proposition 1 on August 5, 2014, creating the Seattle Park District as permitted under chapter 35.61 RCW; and

WHEREAS, The City of Seattle and the Seattle Park District both have an interest in ensuring the long-term stability of revenues to the park and recreation system, and avoiding unilateral termination of this interlocal agreement during a challenging fiscal environment; and

WHEREAS, The City of Seattle and the Seattle Park District desire to amend the interlocal agreement authorized by Ordinance 124468 as amended and restated on July 6, 2021 to adjust and clarify the terms; and

WHEREAS, by the Ordinance of the City introduced as Council Bill [REDACTED], the Mayor is authorized to execute this Amendment on behalf of the City; and

WHEREAS, by Resolution [REDACTED] of the Board of Commissioners of the Seattle Park District (“District Board”), the President of the District Board is authorized to execute this Amendment on behalf of the Seattle Park District; NOW, THEREFORE,

The City and the Seattle Park District agree to amend the Interlocal Agreement as follows:

- 1. Adjusting and Clarifying the Terms of the General Subfund revenue baseline.** Section 3.3, Finance, is amended by removing the stricken language and adding the underlined language to read in its entirety as follows:

3.3 Finance. The City shall include in its annual budget General Subfund revenues to support the Department of Parks and Recreation (“DPR”) projects, programs, and services in amounts necessary to meet or exceed the minimum funding described in this paragraph. The 2014 Adopted Budget for DPR includes \$89 million of General Subfund revenues which will be the baseline for allocating General Subfund revenues to DPR, adjusted annually by the annual percent change (July to July for the 12 months ending in June) in the Consumer Price Index (CPI-U) for the Seattle-Tacoma-Bellevue area (“CPI”) unless otherwise stated in this agreement, or unless the City Council by resolution with a ¾ vote determines that a natural disaster or exigent economic circumstances prevent the Council from maintaining this level of General Subfund support. The City shall continue to allocate all revenues dedicated by Article XI, section 3 of the City Charter to the operation and maintenance of

the park and recreation system. The Council will approve DPR’s budget and provide oversight in accordance with the City’s normal budget processes and Section 4 of this Agreement. The City shall keep such books and records as are necessary to ensure the proper expenditure of all funds received by it for parks and recreation purposes, in accordance with this Agreement, state law and City ordinances.

The City and the Seattle Park District agree that for The City’s 2024 Adopted Budget, the General Subfund revenue baseline for DPR will be adjusted by 3% rather than by the annual percent change in CPI. Subsequent annual adjustments will use annual percent changes in CPI as described in this section (e.g., the 2025 Adopted Budget baseline will be adjusted using the 2023-24 annual percent change in CPI).

- 2. Integration.** This Amendment culminates negotiations and discussions between The City of Seattle and the Seattle Park District concerning the amendment of the Interlocal Agreement, and supersedes all prior agreements, statements, and intentions with respect to the amendment of the Interlocal Agreement. This Amendment may be executed in two counterparts, one for each of the parties, each of which shall be deemed to be an original, and the same instrument. Except as expressly set forth in this Amendment, the Interlocal Agreement as previously adopted and amended remains in full force and effect. IN WITNESS WHEREOF, the parties have executed this Amendment this [redacted] day of [redacted], 2023.

**AN AMENDED AND RESTATED INTERLOCAL AGREEMENT BETWEEN THE
CITY OF SEATTLE, WASHINGTON, AND THE SEATTLE PARK DISTRICT**

This amended and restated Agreement between the City of Seattle, Washington (the “City”), a first class city organized under the laws of the State of Washington, and the Seattle Park District (the “Seattle Park District”), a municipal corporation organized under chapter 35.61 RCW and the laws of the state of Washington, is dated as of this ____ day of ____, 2023.

WHEREAS, the City passed Ordinances 124467 and 124468 proposing formation of a metropolitan park district, with the intent to cooperate with such a district to provide ongoing and stable funding to maintain, operate and improve parks, community centers, pools and other recreation facilities and programs, and to implement elements of the Seattle Parks Legacy Plan and other planning documents; and

WHEREAS, the formation of the Seattle Park District was placed before the voters at an election held on August 5, 2014 and was formed immediately upon certification of the election results, pursuant to RCW 35.61.040, possessing all powers available to a metropolitan park district under state law; and

WHEREAS, the City and the Seattle Park District are each authorized by RCW 67.20.010 and other state law to act independently or jointly to maintain, operate and improve parks, community centers, pools and other recreational facilities; and

WHEREAS, Article XI of the City Charter vests in the Seattle Department of Parks and Recreation the responsibility for the management and control of the park and recreation system of the City; and

WHEREAS, pursuant to Ordinance 124468 of the City and Resolution 1 of the Board of Commissioners of the Seattle Park District (the “District Board”), the City and the Seattle Park District entered into that certain Interlocal Agreement, dated as of October 30, 2014, in order to provide ongoing and stable funding to maintain, operate and improve parks, community centers, pools and other recreation facilities and programs, and to implement elements of the Seattle Parks Legacy Plan and other planning documents; and

WHEREAS, pursuant to Ordinance 125722 of the City and Resolution 24 of the District Board, the City and the Seattle Park District agreed to enter into that certain First Amendment to the Interlocal Agreement, (the “First Amendment”); and

WHEREAS, pursuant to Ordinance 126199 of the City and Resolution 36 of the District Board, the City and the Seattle Park District agreed to enter into that certain Second Amendment to the Interlocal Agreement, (the “Second Amendment”); and

WHEREAS, pursuant to the Ordinance of the City introduced as Council Bill 120098 and Resolution 43 of the District Board, the City and the Seattle Park District agreed to enter into that certain Third Amendment to the Interlocal Agreement, (the “Third Amendment”, and together with the First Amendment and the Second Amendment, the “Amendments”); and

WHEREAS, by the Ordinance of the City introduced as Council Bill 120098, the Mayor is authorized to execute this amended and restated Agreement on behalf of the City; and

WHEREAS, by Resolution 43 of the Board of Commissioners of the Seattle Park District (the “District Board”), the President of the District Board is authorized to execute this amended and restated Agreement on behalf of the Seattle Park District;

WHEREAS, the City and the Seattle Park District desire to amend and restate the Original Agreement in its entirety, together with all Amendments; NOW, THEREFORE,

The City and the Seattle Park District agree as follows:

1. Purpose and Interpretation. The City and the Seattle Park District are each, independently and acting jointly, empowered to maintain, operate and improve parks, community centers, pools, and other recreation facilities and programs. The purpose of this amended and restated Agreement is to make the most efficient use of public funds, avoid duplication of effort, and coordinate efforts.
2. Obligations of the Seattle Park District. The Seattle Park District agrees as follows:
 - 2.1 Governance. The Seattle Park District Board of Commissioners (“District Board”) shall conduct its business in accordance with state law, as necessary in order to review, consider and approve the annual budget for the Seattle Park District, including the levy of property taxes, and to participate in the planning and budgeting process set forth in Section 4 of this Agreement. The District Board will waive any additional compensation available under RCW 35.61.150.
 - 2.2 Staffing. The Seattle Park District shall not hire its own staff and shall not contract for the implementation of projects, programs or services with any person other than the City. The City shall provide the staff and other resources to implement the projects, programs and services identified in the adopted Seattle Park District budget. City staff supported with Seattle Park District funds shall remain City employees subject to applicable labor contracts. If public works, or other projects and activities need outside contracts to complete the work, the City will enter into those contracts using City contracting procedures. Nothing in this section affects the authority of the City to implement projects, programs or services funded by the Seattle Park District as it deems appropriate.
 - 2.3 Finance. The Seattle Park District shall levy property taxes annually under RCW 35.61.210, within applicable statutory and constitutional rate and amount limitations, in amounts sufficient, together with any other available funds, to provide for the payment to the City of amounts set forth in its annual budget adopted in accordance with Section 4 of this Agreement. The Seattle Park District will levy only the amount necessary to fund its budget adopted in accordance with the procedures under section 4.2 below. The Seattle Park District further agrees that if it receives revenues from taxes or any other source, excluding interest

earnings derived from Seattle Park District Revenues, in excess of the amounts needed to fund its obligations to the City (revenues in excess of appropriations), such money will be used to reduce tax revenues collected in the following year's levy.

2.4 Ex Officio Treasurer. The Seattle Park District shall take such actions as are necessary under RCW 35.61.180 to appoint the City Director of Finance to serve as *ex officio* Treasurer for the Seattle Park District.

3. Undertakings of the City. The City agrees as follows:

3.1 Duty to Provide Facilities and Services. The City shall maintain, operate and improve its parks, community centers, pools and other recreation facilities (including, without limitation, open spaces, zoo and aquarium facilities), and shall provide recreational programs, on behalf of itself acting in conjunction with the Seattle Park District. The City agrees to participate in the budgeting and planning processes described in Section 4 of this Agreement and to apply any funds received by it from the Seattle Park District, solely as set forth in the Seattle Park District's adopted budget.

3.2 Park Employees. The City shall provide the staff and other resources to implement the projects, programs and services identified in the adopted Seattle Park District budget. The City shall provide necessary related support to the Seattle Park District, including without limitation, administrative staffing, legislative staffing, treasury management services, legal services, subcontracts, and similar support. The Seattle Park District shall not contract for the implementation of projects, programs or services with any person other than the City. Nothing in this section affects the authority of the City to implement projects, programs or services funded by the Seattle Park District as it deems appropriate.

The reasonable costs of such staffing and support shall be reported to the Seattle Park District at least annually and may be included as part of the Seattle Park District annual budget.

3.3 Finance. The City shall include in its annual budget General Subfund revenues to support the Department of Parks and Recreation ("DPR") projects, programs and services in amounts necessary to meet or exceed the minimum funding described in this paragraph. The 2014 Adopted Budget for DPR includes \$89 million of General Subfund revenues which will be the baseline for allocating General Subfund revenues to DPR, adjusted annually by the annual percent change (for the 12 months ending in June) in the Consumer Price Index (CPI-U) for the Seattle-Tacoma-Bellevue area ("CPI") unless otherwise stated in this agreement, or unless the City Council by resolution with a $\frac{3}{4}$ vote determines that a natural disaster or exigent economic circumstances prevent the Council from maintaining this level of General Subfund support. The City shall continue to allocate all revenues dedicated by Article XI, section 3 of the City Charter to the

operation and maintenance of the park and recreation system. The Council will approve DPR's budget and provide oversight in accordance with the City's normal budget processes and Section 4 of this Agreement. The City shall keep such books and records as are necessary to ensure the proper expenditure of all funds received by it for parks and recreation purposes, in accordance with this Agreement, state law and City ordinances.

The City and the Seattle Park District agree that for The City's 2024 Adopted Budget, the General Subfund revenue baseline for DPR will be adjusted by 3% rather than by the annual percent change in CPI. Subsequent annual adjustments will use annual percent changes in CPI as described in this section (e.g., the 2025 Adopted Budget baseline will be adjusted using the 2023-24 annual percent change in CPI).

3.4 Ex Officio Treasurer. The City Director of Finance agrees to accept appointment as *ex officio* Treasurer for the Seattle Park District in accordance with RCW 35.61.180. In such capacity, the City Director of Finance shall maintain financial records on behalf of the Seattle Park District, kept in accordance with applicable generally accepted accounting principles and other applicable governmental accounting requirements.

3.5 Compliance with Other Law. In providing services pursuant to this Agreement, the City shall in all respects abide by all applicable federal, state and local requirements, including without limitation those regarding contracting, labor relations, minimum and prevailing wage, open public meetings, public records, ethics, and nondiscrimination.

4. Other Agreements. In addition the Seattle Park District and the City agree as follows:

4.1 Ownership and Disposal of Assets. All park and recreation land, facilities, and equipment that are maintained, acquired, improved or otherwise used in connection with this Agreement are and shall remain the property of the City. No joint property ownership is contemplated under the terms of this Agreement. Sale of City-owned park land or facilities remain subject to the restrictions contained in City Ordinance 118477, which adopted Initiative 42.

4.2 The Budget Process.

A. Annual Seattle Park District Budget Request. The Mayor will direct the development and implementation of DPR's budgets and work programs, which will include tasks performed on behalf of both the City and the Seattle Park District. The City will continue to provide funding for park purposes consistent with Section 3.3 of this Agreement and Article XI of the City Charter. In conjunction with its own budget process, the City shall prepare an annual budget request for Seattle Park District funding, to be presented to the District Board. The budget request shall include an annual proposed project list and budget for expenditure

of Seattle Park District revenues. The budget shall be accompanied by an annual report that documents the status of the park and recreation projects, programs and services undertaken pursuant to this Agreement, and describes how Seattle’s various peoples and neighborhoods have been equitably served by the projects, programs, and services. Each budget request shall be consistent with the then-current 6-year plan, as described in Section 4.3.

B. The Seattle Park District. Using the budget request submitted by the City, the District Board will annually review and approve a final Seattle Park District budget. Each annual budget shall make appropriations sufficient to fund a plan adopted through the 6-year funding process described in Section 4.3.

4.3 Six-Year Funding Cycles. The City and the Seattle Park District agree to engage in funding activities on a six-year cycle. For each six-year cycle, beginning with the cycle that includes 2021 through 2026, the Superintendent of Parks and Recreation, City Council and the Mayor will consider the recommendations of the Board of Parks and Recreation Commissioners, upon conclusion of a public process, and will recommend to the District Board an updated list of Seattle Park District funded projects, programs and services including projected costs, as part of the budget process. The Park District Board may delay the start of a new six-year funding cycle by one year by resolution with a 3/4 vote in the event of a natural disaster, exigent economic circumstances, or other emergency as determined by the Park District Board and instead approve an interim annual budget for the Seattle Park District consistent with the process outlined in Section 4.2 of this Agreement. The decision to delay the start of the six-year funding cycle may be renewed on an annual basis by resolution with a 3/4 vote in the event that the Park District Board determines that the natural disaster, exigent economic circumstances, or other emergency is continuing. For the purposes of this subsection, “3/4 vote” in this context shall mean a 3/4 vote of all Board Members who are available to participate in the Board Meeting and are capable of performing the duties of the office. Equitable distribution of services among Seattle’s various peoples and neighborhoods, including addressing historical and developing gaps in access for low-income and communities of color, will be considered in developing each update.

4.4 Board of Parks and Recreation Commissioners. The community based Board of Parks and Recreation Commissioners, which advises the City pursuant to chapter 3.26 of the Seattle Municipal Code shall be tasked to provide advice to the Mayor, City Council, and Superintendent of Parks and Recreation, and to provide oversight of the projects, programs and services undertaken jointly by the City and the Seattle Park District, pursuant to this Agreement, including:

- A. Establish a community response fund application process and evaluation criteria, and make recommendations to the Superintendent of Parks and Recreation (“Superintendent”) on the allocation of the fund.
 - B. Review an annual report prepared by DPR for the Seattle Park District and the City, including assessment of performance measures and expenditure of District funds including interest earnings, and reporting to the Superintendent and Park Board on implementation issues, concerns and needed adjustments in services or spending.
 - C. Hold-public meetings and making recommendations to the Superintendent in connection with each 6-year update to the funding plan.
 - D. Provide to the Mayor, City Council, and Superintendent of Parks and Recreation an annual report on the progress of expenditures, a report on lessons learned 4 years through each 6-year period to inform the planning process for the next 6-year cycle, and a final report documenting accomplishments in each 6-year period within one year of the conclusion of each cycle. The annual report for the final year of each 6-year period will be included in this 6-year reflective report.
5. Condemnation and other Exercise of Governmental Powers. The Seattle Park District shall not exercise condemnation powers within the City of Seattle. If condemnation of property is required for Seattle Park District purposes, the City may exercise condemnation powers on the Seattle Park District’s behalf. The Seattle Park District shall form no local improvement district within the City. If formation of a local improvement district is required for Seattle Park District purposes, the City may carry out the formation and may levy and collect of assessments on the Seattle Park District’s behalf.
6. Termination and Dissolution. This agreement shall terminate or expire as follows:
- 6.1 This agreement may be terminated by either party upon the provision of one hundred and eighty (180) calendar days’ notice. A final reconciliation of costs, payment, and a current report of completed activities shall be completed by the City within such period following the notice by either party.
 - 6.2 Unless earlier terminated by either party, this agreement shall expire on the date when the Seattle Park District is dissolved in accordance with provisions of chapter 35.61 RCW, as the same exists or is hereafter amended. Upon dissolution of the Seattle Park District, it is the intent of the parties that all assets be turned over to the City.
7. Severability. In the event that any provision of this agreement is held to be in conflict with existing state statute or any future amendment thereof, such provisions shall be severable, and the remaining provisions of this agreement shall remain in full force and effect.
8. Integration. This Agreement embodies the entire agreement between the City and the Seattle Park District with respect of the transactions contemplated in this Agreement and supersedes all prior agreements, statements, and intentions with respect to the subject matter herein, including, without limitation, the Original Agreement. This Amendment

may be executed in two counterparts, one for each of the parties, each of which shall be deemed to be an original, and the same instrument.

9. Effective Date. This agreement shall be effective upon the date first set forth above.

IN WITNESS WHEREOF, the parties have executed this amended and restated agreement on the date first written above.

Seattle Parks and Recreation	Amy Williams	Justin Hellier

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to Seattle Parks and Recreation; authorizing an amendment to the Interlocal Agreement between The City of Seattle and the Seattle Park District.

Summary and Background of the Legislation:

On August 5, 2014, Seattle voters approved Proposition 1, creating the Seattle Park District (hereafter, “the District”), to significantly expand resources for parks and recreation services for Seattle residents. Since that time the District, through levying of property taxes, has invested tens of millions of dollars annually in the development and maintenance of parks and recreation facilities, and the operations of programs for teens, older adults, people with disabilities, and all residents. In 2023, the Seattle Park District adopted its Cycle 2 financial plan, which increase investment in parks and recreation services by approximately \$59 million per year.

The District is governed by the District Board (the Seattle City Council members serving as the Board members, and the City Finance Director serving as the Treasurer, in ex-officio capacities). The City and the District adopted an interlocal agreement (ILA) governing the relationship between the two parties, in order to make the most efficient use of public funds and coordinate efforts.

The ILA stipulates that the City shall maintain a certain level of General Fund (GF) support to Seattle Parks and Recreation (SPR). Specifically, the ILA created a GF baseline—commonly referred to as the “GF floor”—and required the City to allocate GF resources to SPR in each annual budget at or above that baseline. Currently, the ILA requires the City to allocate to SPR an amount of GF equivalent to their 2014 GF allocation (\$89 million) adjusted for inflation annually using the percent change in the Consumer Price Index (CPI) for Seattle.

This fourth amendment to the ILA makes two changes to the provisions governing the GF revenue baseline:

- First, it clarifies that the measure of CPI used to calculate the annual changes to the baseline is more properly referred to as “the 12 months ending in June” rather than “July to July” as noted in the current ILA. Additionally, it also clarifies that the specific CPI to be used is for the Seattle-Tacoma-Bellevue area. To be clear, this amendment to the ILA does not change the specific inflation index used to calculate the baseline; it just refers to the index by its proper name to avoid future confusion.

- Second, for the 2024 budget only, it changes the formula used to calculate the inflationary increase to the GF baseline from CPI to 3%. For all future years, the inflator used to calculate baseline would return to CPI. Due to an unprecedentedly high rate of inflation, the City is able to meet its commitment to maintaining and increasing GF funding to parks and recreation services – but not at the level of growth specifically stipulated in the current ILA. Both the City and the District maintain an interest in long-term sustainability of the ILA and its role in coordinating efforts across both jurisdictions. Therefore, this one-time technical change to the formula for determining the GF baseline maintains and grows the City’s commitment to fully funding parks and recreation services, but does so at a level of growth that avoids the risk of unilateral termination of the ILA, or the requirement to declare an emergency.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

This legislation reduces the total allocation of GF that the City is required to provide in 2024 from \$123.4 million to \$118.2 million. This legislation resets the baseline for required GF support.

Are there financial costs or other impacts of *not* implementing the legislation?

If this legislation is not adopted, the City must allocate \$123.4 million to SPR in the 2024 Adopted Budget; the Mayor’s 2024 Mid-Biennium Proposed Budget includes \$120 million, an increase of \$2.1million over the 2023 Adopted Budget.

4. OTHER IMPLICATIONS

- Does this legislation affect any departments besides the originating department?**
No.
- Is a public hearing required for this legislation?**
No.
- Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- Does this legislation affect a piece of property?**
No.

- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**

This technical change will not have impact on RSJI or LAP. While it does decrease the total amount of GF that would be otherwise allocated to SPR, Cycle 2 of the Park District and other recent budget changes have dedicated significant resources to equity efforts.

- f. Climate Change Implications**

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way? No.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects. No.

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?** No program expansion.

Amendment 1 Version 1 to CB 120690 - Seattle Park District Interlocal Agreement Amendment

Sponsor: Mosqueda

Technical Amendments to Attachment 1

Effect: This is a technical amendment to Attachment 1 to Council Bill (CB) 120690 to add the CB number, and the Resolution number for the companion Park District Resolution, referenced in the Attachment.

Replace version 1 of Attachment 1 to CB 120690 with version 2 of Attachment 1 to make technical changes described above and as shown in double underline in version 2. No substantive policy changes made.

**FOURTH AMENDMENT TO INTERLOCAL AGREEMENT BETWEEN
THE CITY OF SEATTLE, WASHINGTON, AND THE SEATTLE PARK DISTRICT**

This Amendment is made between The City of Seattle, Washington (the “City”), a first-class city organized under the laws of the State of Washington, and the Seattle Park District, a municipal corporation organized under chapter 35.61 RCW and the laws of the state of Washington, amending the Amended and Restated Interlocal Agreement executed July 6, 2021.

WHEREAS, on April 28, 2014, the Seattle City Council approved Ordinance 124468, which authorized the Mayor to sign an interlocal agreement formalizing the relationship between The City of Seattle and the Seattle Park District for implementation of park and recreation services and infrastructure in Seattle; and

WHEREAS, voters approved Proposition 1 on August 5, 2014, creating the Seattle Park District as permitted under chapter 35.61 RCW; and

WHEREAS, The City of Seattle and the Seattle Park District both have an interest in ensuring the long-term stability of revenues to the park and recreation system, and avoiding unilateral termination of this interlocal agreement during a challenging fiscal environment; and

WHEREAS, The City of Seattle and the Seattle Park District desire to amend the interlocal agreement authorized by Ordinance 124468 as amended and restated on July 6, 2021 to adjust and clarify the terms; and

WHEREAS, by the Ordinance of the City introduced as Council Bill 120690, the Mayor is authorized to execute this Amendment on behalf of the City; and

WHEREAS, by Resolution 61 of the Board of Commissioners of the Seattle Park District (“District Board”), the President of the District Board is authorized to execute this Amendment on behalf of the Seattle Park District; NOW, THEREFORE,

The City and the Seattle Park District agree to amend the Interlocal Agreement as follows:

- 1. Adjusting and Clarifying the Terms of the General Subfund revenue baseline.** Section 3.3, Finance, is amended by removing the stricken language and adding the underlined language to read in its entirety as follows:

3.3 Finance. The City shall include in its annual budget General Subfund revenues to support the Department of Parks and Recreation (“DPR”) projects, programs, and services in amounts necessary to meet or exceed the minimum funding described in this paragraph. The 2014 Adopted Budget for DPR includes \$89 million of General Subfund revenues which will be the baseline for allocating General Subfund revenues to DPR, adjusted annually by the annual percent change (~~July to July~~ for the 12 months ending in June) in the Consumer Price Index (CPI-U) for the Seattle-Tacoma-Bellevue area (“CPI”) unless otherwise stated in this agreement, or unless the City Council by resolution with a $\frac{3}{4}$ vote determines that a natural disaster or exigent economic circumstances prevent the Council from maintaining

Att 1 – Fourth Amendment to ILA
~~V1~~ V2

this level of General Subfund support. The City shall continue to allocate all revenues dedicated by Article XI, section 3 of the City Charter to the operation and maintenance of the park and recreation system. The Council will approve DPR’s budget and provide oversight in accordance with the City’s normal budget processes and Section 4 of this Agreement. The City shall keep such books and records as are necessary to ensure the proper expenditure of all funds received by it for parks and recreation purposes, in accordance with this Agreement, state law and City ordinances.

The City and the Seattle Park District agree that for The City’s 2024 Adopted Budget, the General Subfund revenue baseline for DPR will be adjusted by 3% rather than by the annual percent change in CPI. For each year thereafter, the General Subfund baseline will be adjusted from this new 2024 baseline.

- 2. Integration.** This Amendment culminates negotiations and discussions between The City of Seattle and the Seattle Park District concerning the amendment of the Interlocal Agreement, and supersedes all prior agreements, statements, and intentions with respect to the amendment of the Interlocal Agreement. This Amendment may be executed in two counterparts, one for each of the parties, each of which shall be deemed to be an original, and the same instrument. Except as expressly set forth in this Amendment, the Interlocal Agreement as previously adopted and amended remains in full force and effect. IN WITNESS WHEREOF, the parties have executed this Amendment this [redacted] day of [redacted], 2023.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the regulation of network companies; imposing license and fee requirements on network companies; adding a new Chapter 6.700 to the Seattle Municipal Code; and amending Section 3.15.007 of the Seattle Municipal Code.

WHEREAS, network companies use an online-enabled application or platform to connect customers with app-based workers, present offers to app-based workers through a worker platform, and/or facilitate the provision of services for compensation by app-based workers; and

WHEREAS, an estimated 40,000 app-based workers perform services in furtherance of offers that are facilitated or presented by network companies in Seattle, including workers who are Black, Indigenous, and other People of Color (BIPOC), immigrants, workers with disabilities, lesbian, gay, bisexual, transgender, and queer (LGBTQ+), and single parents; and

WHEREAS, network companies rely on business models that treat app-based workers as independent contractors who are not covered by local, state, or federal workplace employee protections; and

WHEREAS, a 2021 Pew Research Center study found that 16 percent of American adults earned compensation from app-based work, and the rates were higher for BIPOC workers; and

WHEREAS, the U.S. Bureau of Labor Statistics data show that Black and Latinx workers are overrepresented among app-based workers, comprising almost 42 percent of app-based workers but less than 29 percent of the overall labor force; and

WHEREAS, BIPOC workers face unique barriers to economic insecurity and disproportionately must accept low-wage, unsafe, and insecure working conditions; and

WHEREAS, BIPOC workers have long been heavily concentrated in exploitative industries; and

WHEREAS, The City of Seattle (“City”) is a leader on wage, labor, and workforce practices that seek to eliminate racial disparities and achieve racial equity, improve workers’ lives, support economic security, and contribute to a fair, healthy, and vibrant economy; and

WHEREAS, the City has established 19 labor standards that regulate the activities of employers, network companies, and other hiring entities to establish minimum thresholds of fairness and economic security for workers in Seattle; and

WHEREAS, the City has authorized the Office of Labor Standards (OLS) to implement these labor standards, including those that establish workplace protections for app-based workers; and

WHEREAS, effective January 13, 2024, the App-Based Worker Minimum Payment Ordinance, Ordinance 126595, will require network companies to provide app-based workers with minimum payment, transparent job information and receipts, and flexible terms of work; and

WHEREAS, OLS estimates that implementing the App-Based Worker Minimum Payment Ordinance will require \$1.2 million and five full-time equivalents (FTEs) per year for ongoing costs, but the 2024 Proposed Budget Adjustments only include \$492,000 and three FTEs for this work; and

WHEREAS, effective January 1, 2025, the App-Based Worker Deactivation Rights Ordinance, Ordinance 126878, will require network companies to provide app-based workers with protections against unwarranted deactivations, including reasonable deactivation policies, advance notice of deactivation, case-by-case human review of deactivation decisions, records substantiating deactivation, and an internal challenge procedure; and

WHEREAS, OLS estimates that implementing the App-Based Worker Deactivation Rights Ordinance will require \$200,000 one-time in 2024 for outreach and set-up costs, \$1.13 million per year and seven FTEs in 2024, 2025, and 2026 for procedural enforcement, and \$1.56 million per year and nine FTEs beginning in 2027 for ongoing procedural and substantive enforcement; and

WHEREAS, OLS's implementation includes contracts with community organizations to provide trusted, culturally competent, and language specific outreach and education and community-based enforcement to strengthen workplace protections for a newly regulated industry; and

WHEREAS, effective 2017, the City established the OLS Fund, through Ordinance 125273, with the intention of guaranteeing annual funding of OLS from the City's business license tax revenues and any resources of the City's General Fund as necessary; and

WHEREAS, the existing revenue sources for the OLS Fund are insufficient to fully recover the regulatory costs of implementing the App-Based Worker Minimum Payment Ordinance and the App-Based Worker Deactivation Rights Ordinance; and

WHEREAS, robust implementation of app-based worker labor standards must include policy development, enforcement, and collaborative outreach and education programs to ensure that network companies provide the wages, benefits, and other protections required by the City's app-based worker labor standards; and

WHEREAS, the City intends to require network companies to obtain an annual network company license to operate in Seattle and pay a license fee to recover the costs of network company regulations; and

WHEREAS, the Department of Finance and Administrative Services estimates that implementing a network company license and fee would require \$1.14 million one-time in 2024 and \$94,000 one-time in 2025 for set-up costs and program management, and \$442,000 and 2.25 FTEs per year beginning in 2025 for ongoing costs; and

WHEREAS, the City intends to use revenue from the network company license fee to fully recover the costs of network company regulations incurred by licensing and implementing the App-Based Worker Deactivation Rights Ordinance and the App-Based Worker Minimum Payment Ordinance, in such order of priority; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. A new Chapter 6.700 is added to the Seattle Municipal Code as follows:

Chapter 6.700 NETWORK COMPANIES

6.700.010 Scope and purpose

This Chapter 6.700 applies to network companies operating in Seattle. The ordinance enacting this Chapter 6.700 is an exercise of the City’s police power to regulate network companies. The purpose of the ordinance is to regulate network company activity through an annual license requirement and impose a fee to recover the regulatory costs of licensing and implementing app-based worker labor standards that protect and promote public health, safety, and welfare.

6.700.020 Application of other provisions

The license requirements established in this Chapter 6.700 are subject to the general provisions of the new License Code in Chapter 6.202. In the event of a conflict between the provisions of Chapter 6.202 and this Chapter 6.700, the provisions of this Chapter 6.700 shall control.

6.700.030 Definitions

“App-based worker” means a person who has entered into an agreement with a network company governing the terms and conditions of use of the network company’s worker platform or a person affiliated with and accepting offers to perform services for compensation via a network company’s worker platform. For purposes of this Chapter 6.700, at any time, but not limited to, when an app-based worker is logged into the network company’s worker platform, the worker is considered an app-based worker.

“Application dispatch” means technology that allows customers to directly request dispatch of app-based workers for provision of services and/or allows app-based workers or network companies to accept offers to perform services for compensation and payments for services via the internet using interfaces, including but not limited to website, smartphone, and tablet applications.

“Customer” means a paying customer and/or recipient of an online order.

“Director” means the Director or the Director’s designee of the Department of Finance and

Administrative Services (FAS) or the Office of Labor Standards (OLS), as specified.

“Goods” means all tangible personal property, including groceries, prepared food and beverages, retail items, and other moveable items that have a physical existence.

“Groceries” has the same meaning as defined in RCW 82.84.030 as amended.

“Network company” means an organization, whether a corporation, partnership, sole proprietor, or other form, operating in Seattle, that uses an online-enabled application or platform, such as an application dispatch system, to connect customers with app-based workers, present offers to app-based workers through a worker platform, and/or facilitate the provision of services for compensation by app-based workers.

1. The term “network company” includes any such entity or person acting directly or indirectly in the interest of a network company in relation to the app-based worker.

2. The term “network company” excludes:

a. An entity offering services that enable individuals to schedule appointments with and/or process payments to users, when the entity neither engages in additional intermediation of the relationships between parties to such transactions nor engages in any oversight of service provision;

b. An entity operating digital advertising and/or messaging platforms, when the entity neither engages in intermediation of the payments or relationships between parties to resulting transactions nor engages in any oversight of service provision;

c. An entity that meets the definition of “transportation network company” as defined by RCW 46.04.652 as amended; or

d. An entity that meets the definition of “for-hire vehicle company” or “taxicab association” in Section 6.310.110 or as enacted in Section 6.311.040 of Council Bill 120653.

“Offer” means one or more online orders presented to an app-based worker as one opportunity to perform services for compensation that the app-based worker may accept or reject.

1. An opportunity to perform services for compensation includes but is not limited to an

opportunity described via a worker platform as a shift, a period of time to be spent engaged in service provision, a continuous period of time in which the app-based worker must make themselves available to perform services, or any other continuous period of time when the worker is not completely relieved of the duty to perform the service(s), and such a period of time shall be considered as one offer.

2. The term “offer” includes pre-scheduled offers and on-demand offers.

“On-demand offer” means an offer facilitated or presented by a network company to an app-based worker that requires performance to be initiated within two hours of acceptance (i.e., an offer that is not a prescheduled offer).

“Online order” means an order for services that is placed through an online-enabled application or platform, such as an application dispatch system, and that is facilitated by a network company or presented by a network company for its own benefit. The OLS Director may issue rules further defining the definition of “online order” and the types of transactions excluded from this definition, pursuant to Section 8.37.020. The term “online order” does not include the following transactions:

1. Sale or rental of products or real estate;
2. Payment in exchange for a service subject to professional licensure that has been listed in rules issued by the OLS Director pursuant to Section 8.37.020;
3. Payment in exchange for services wholly provided digitally;
4. Payment in exchange for creative services or works;
5. Transportation network company (TNC) dispatched trips. For purposes of this Section 6.700.030, “TNC dispatched trips” means the provision of transportation by a driver for a passenger through the use of a transportation network company’s application dispatch system;
6. Transportation provided by taxicabs or for-hire vehicles, as defined in Chapter 6.310; and
7. Any other transactions excluded from this definition listed in rules by the OLS Director, or the OLS Director’s designee, pursuant to Section 8.37.020.

“Operating in Seattle” means, with respect to a network company, facilitating or presenting offers to provide services for compensation using an online-enabled application or platform, such as an application dispatch system, to any app-based worker, where such services are performed in whole or part in Seattle.

“Paying customer” means a person or entity placing an online order via a network company’s online-enabled application or platform.

“Pre-scheduled offer” means an offer that is facilitated or presented by a network company to an app-based worker at least two hours prior to when the app-based worker is required to initiate performance.

“Services” means the application of labor or human effort to perform one or more identified tasks for an online order and includes but is not limited to delivery of goods and tasks of a personal, professional, business, or recreational nature.

“Worker platform” means the worker-facing application dispatch system software or any online-enabled application service, website, or system, used by an app-based worker, that enables the arrangement of services for compensation.

6.700.040 Coverage

For the purposes of this Chapter 6.700, coverage of network companies is limited to those that are subject to the App-Based Worker Minimum Payment Ordinance (Chapter 8.37) and/or the App-Based Worker Deactivation Rights Ordinance (Chapter 8.40).

6.700.050 License required

It is unlawful for a network company to operate in Seattle without a valid network company license issued pursuant to this Chapter 6.700, except that network companies may operate in Seattle from January 1, 2025, through December 31, 2025, pending issuance of the license, and compliance with the requirements of this Chapter 6.700.

6.700.060 License application

A. Network company licenses are issued by the FAS Director and may be obtained by filing with the

FAS Director a network company license application in a format determined by the FAS Director. The FAS Director shall announce, in a manner determined by the FAS Director (e.g., website, network company outreach), the date that network companies may start filing applications by October 1, 2025.

B. Application for a network company license shall include the following information:

1. Name and contact information of the applicant;
2. Name and contact information of the owners thereof, or in the case of a corporation, names and contact information of the officers of such corporation;
3. Attestation of the applicant's coverage by Chapter 8.37 and/or Chapter 8.40;
4. Description of the type(s) of app-based services offered by the applicant; and
5. Such other information that the FAS Director determines is reasonably necessary to determine the qualifications of the applicant for a network company license.

C. All network company licenses shall expire one year from the date the license is issued and shall be renewed annually.

D. The FAS Director may deny, revoke, or refuse to renew the license of any network company for any of the following:

1. Violating or failing to comply with any applicable provision of this Chapter 6.700;
2. Failure to pay all outstanding penalties assessed against the licensee under this Chapter 6.700;
3. Any reason set forth in Section 6.202.230; or
4. Failing to comply, within 30 days of service of any OLS settlement agreement, any final order issued by the OLS Director, or any final order issued by the Hearing Examiner under Chapter 8.37 or 8.40 for which all appeal rights have been exhausted, and the OLS Director has requested the FAS Director to deny, revoke, or refuse to renew any network company license held or requested by the applicant or licensee. The denial, revocation, or refusal to renew such network company license shall remain in effect until such time as the violation(s) under Chapter 8.37 or 8.40 are remedied.

6.700.070 Network company provisions

A. All network companies operating in Seattle shall:

1. Possess a valid network company license issued pursuant to this Chapter 6.700;
2. Submit quarterly reports in an electronic format determined by the FAS Director with the number of online orders subject to the license fee in subsection 6.700.080.A; and
3. Comply with such other provisions that the FAS Director determines by rule are material and necessary to effectuate the purposes of this Chapter 6.700.

6.700.080 License fee

A. The fee for a network company license issued pursuant to this Chapter 6.700 shall be \$0.10 per online order that results in an app-based worker's delivery of goods or provision of other services in Seattle.

1. The fee revenue shall be used to recover the regulatory costs prescribed in Section 6.700.100.
2. The fee shall be due and payable on a quarterly basis, except that the fee for the 2025 calendar year shall be payable on the same date that the fee payment is due for the fourth quarter of 2025. The FAS Director may use discretion to assign businesses to a monthly or annual reporting period. Forms for such filings shall be prescribed by the FAS Director. Network companies discontinuing operations in Seattle shall report and pay the fee no later than the quarterly payment period following close of business.
3. The fee is non-refundable and non-transferrable.

B. The FAS Director, in consultation with the OLS Director, shall review the fee at least annually and shall make any adjustment necessary by rule to ensure the fee achieves full recovery, and no more, of the regulatory costs prescribed in Section 6.700.100 after consideration of available information for the following factors:

1. Actual and projected fee revenue;
2. The FAS Director's projected costs and annual budget allotted for the implementation of the network company license and fee;

3. The OLS Director’s projected costs, including costs identified in the annual certification required by subsection 3.15.007.B, and annual budget allotted for the implementation of Chapter 8.37 and Chapter 8.40;

4. The number of network companies operating in Seattle;

5. The number of online orders subject to the license fee in subsection 6.700.080.A;

6. OLS’s implementation data for Chapter 8.37 and Chapter 8.40 (e.g., number and nature of worker and business inquiries, data on open and filed investigation, resolved investigations, and financial remedies); and

7. Such other factors that the FAS Director determines are reasonably necessary for reviewing the fee.

6.700.090 Exemption from fee

Online orders solely for an app-based worker’s delivery of groceries are exempt from the fee required by subsection 6.700.080.A. This exemption does not apply to online orders for an app-based worker’s delivery of both grocery and non-grocery items.

6.700.100 Allocation of fee revenue

A. Fee revenue shall be appropriated in the annual City budget or separate ordinances solely to recover regulatory costs in the following order of priority:

1. FAS’s implementation of the network company license and fee in this Chapter 6.700;

2. OLS’s implementation of Chapter 8.40; and

3. OLS’s implementation of Chapter 8.37.

B. FAS’s implementation of the network company license and fee may include administrative, enforcement, and other regulatory costs. OLS’s implementation of Chapter 8.37 and Chapter 8.40 may include policy development, enforcement, and outreach and education, including contracts with community organizations for culturally competent and language-specific outreach and education and community-based

enforcement, and other regulatory costs. The OLS Director shall include an itemized statement with the amount and description of funding needed to sustain such regulatory costs in the certification of the minimum annual contribution submitted to the Mayor and City Council under subsection 3.15.007.B.

6.700.110 Rulemaking authority

The FAS Director may adopt rules pursuant to Chapter 3.02 to implement the provisions of this Chapter 6.700.

The FAS Director is authorized to enforce, promulgate, revise, or rescind rules and regulations deemed necessary, appropriate, or convenient to administer the provisions of this Chapter 6.700, providing affected entities with due process of law and in conformity with the intent and purpose of this Chapter 6.700.

6.700.120 Enforcement authority

The FAS Director shall have the power to administer and enforce this Chapter 6.700 and shall have such powers and duties in the performance of these functions as are defined in this Chapter 6.700 and otherwise necessary and proper in the performance of the same and provided for by law.

6.700.130 Violation

The failure of any network company to comply with any requirement of this Chapter 6.700 or rule issued by the FAS Director is a violation.

6.700.140 Investigation and notice of violation

A. The FAS Director is authorized to investigate any network company the FAS Director reasonably believes does not comply with the provisions of this Chapter 6.700.

B. If, after investigation, the FAS Director determines that any provisions of this Chapter 6.700 have been violated, the FAS Director may issue a notice of violation to the network company responsible for the violation.

C. The notice of violation shall state the provisions violated, penalties for failure to come into compliance, necessary corrective action, and the compliance due date.

D. The notice of violation shall be served upon the network company by personal service or regular first

-class mail addressed to the last known address for the network company.

E. Nothing in this Section 6.700.140 limits or precludes any action or proceeding to enforce this Chapter 6.700, and nothing obligates or requires the FAS Director to issue a notice of violation prior to the imposition of civil or criminal penalties.

F. Unless the network company files a timely request for a contested hearing before the Hearing Examiner, the notice of violation shall become the final order of the FAS Director.

6.700.150 Review by Hearing Examiner

A. The network company cited on the notice of violation may appeal the notice of violation by requesting a contested hearing before the Hearing Examiner in writing within ten business days of service of the notice of violation. If the last day of the appeal period so computed is a Saturday, Sunday, or federal or City holiday, the appeal period shall run until 5 p.m. on the next business day.

B. Contested hearings shall be conducted pursuant to the procedures for hearing contested cases contained in Section 3.02.090 and the rules adopted by the Hearing Examiner for hearing contested cases. The hearing shall be conducted de novo and the FAS Director shall have the burden of proving by a preponderance of the evidence that the violation or violations occurred. Upon establishing such proof, the notice of violation shall be upheld unless it is shown that the FAS Director abused discretion. Penalties shall be assessed per Section 6.700.170. Failure to appear for a contested hearing shall result in an order being entered finding that the network company committed the violation(s) stated in the notice of violation. For good cause shown and upon terms the Hearing Examiner deems just, the Hearing Examiner may set aside an order entered upon a failure to appear.

C. The Hearing Examiner may affirm, modify, or reverse the notice of violation.

D. The network company may obtain judicial review of the decision of the Hearing Examiner by applying for a Writ of Review in the King County Superior Court within 30 days from the date of the decision in accordance with the procedure set forth in chapter 7.16 RCW, other applicable law, and court rules.

E. The decision of the Hearing Examiner shall be final and conclusive unless review is sought in compliance with subsection 6.700.150.D <https://library.municode.com/wa/seattle/codes/municipal_code?nodeId=TIT14HURI_CH14.16PASITIPASATI_14.16.095APHEEXOR>.

F. If a network company fails to comply within 30 days of service of any final notice of violation issued by the FAS Director or final order of the Hearing Examiner for which all appeal rights have been exhausted, the FAS Director may pursue, but is not limited to, the following measures to secure compliance:

1. The FAS Director may refer the matter to a collection agency. The cost to the City for collection services shall be assessed as costs, at the rate agreed to between the City and the collection agency, and added to the amounts due.

2. The FAS Director may refer the matter to the City Attorney for the filing of a civil action in a court of competent jurisdiction to enforce such order or to collect amounts due. In the alternative, the FAS Director may seek to enforce a final notice of violation or a final order of the Hearing Examiner under Section 6.700.160.

6.700.160 Debt owed The City of Seattle

A. All monetary amounts due under the notice of violation shall be a debt owed to the City and may be collected in the same manner as any other debt in like amount, which remedy shall be in addition to all other existing remedies.

B. If a network company fails to appeal a notice of violation to the Hearing Examiner within the time period set forth in subsection 6.700.150.A, the notice of violation shall be final, and the FAS Director may petition the Seattle Municipal Court, or any court of competent jurisdiction, to enforce the notice of violation by entering judgment in favor of the City finding that the network company has failed to exhaust its administrative remedies and that all amounts and relief contained in the notice of violation are due. The notice of violation shall constitute prima facie evidence that a violation occurred and shall be admissible without further evidentiary foundation. Any certifications or declarations authorized under RCW 5.50.050 as amended containing evidence that the network company has failed to comply with the notice of violation or any parts

thereof, and is therefore in default, or that the network company has failed to appeal the notice of violation to the Hearing Examiner within the time period set forth in subsection 6.700.150.A, and therefore has failed to exhaust administrative remedies, shall also be admissible without further evidentiary foundation.

C. If a network company fails to obtain judicial review of an order of the Hearing Examiner within the time period set forth in subsection 6.700.150.D, the order of the Hearing Examiner shall be final, and the FAS Director may petition the Seattle Municipal Court to enforce the notice of violation by entering judgment in favor of the City for all amounts and relief due under the order of the Hearing Examiner. The order of the Hearing Examiner shall constitute conclusive evidence that the violations contained therein occurred and shall be admissible without further evidentiary foundation. Any certifications or declarations authorized under RCW 5.50.050 as amended containing evidence that the network company has failed to comply with the order or any parts thereof, and is therefore in default, or that the network company has failed to avail itself of judicial review in accordance with subsection 6.700.150.D, shall also be admissible without further evidentiary foundation.

D. In considering matters brought under subsections 6.700.160.B and 6.700.160.C, the Seattle Municipal Court may include within its judgment all terms, conditions, and remedies contained in the notice of violation or the order of the Hearing Examiner, whichever is applicable, that are consistent with the provisions of this Chapter 6.700.

6.700.170 Penalty

A. In addition to any other sanction or remedial procedure that may be available, any network company violating any of the provisions of this Chapter 6.700 shall be subject to the following cumulative penalties per violation until compliance is achieved:

1. \$500 per day for each violation for the first ten business days; and
2. \$1,000 per day for each violation for each day beyond ten business days of non-compliance

until compliance is achieved.

B. The violation will be deemed to begin, for purposes of determining the number of days in violation,

on the date that compliance is required on the notice of violation of the FAS Director.

6.700.180 Alternative criminal penalty

It is a misdemeanor for any network company to violate the requirements of this Chapter 6.700 if the violation demonstrates a habitual disregard for the standards in this Chapter 6.700. The FAS Director may refer such network company for prosecution as an alternative to the notice of violation procedures outlined in this Chapter 6.700.

6.700.190 Additional relief

The FAS Director may seek legal or equitable relief to enjoin any acts or practices when necessary to achieve compliance.

Section 2. Section 3.15.007 of the Seattle Municipal Code, last amended by Ordinance 125492, is amended as follows:

3.15.007 Office of Labor Standards Fund

A. There is established in the City Treasury an Office of Labor Standards Fund. Funds deposited in the Office of Labor Standards Fund may only be used to pay for costs associated with the operations and activities of the City's Office of Labor Standards.

B. By September 1 of each year, the Director of the Office of Labor Standards shall certify to the Mayor and Council an itemized statement with the amount and description of the funding needed for the following year to maintain each of the following elements of the operations and activities of the Office of Labor Standards:

1. Enforcement activities, including but not limited to the investigation of complaints and directed investigations;

2. Policy development;

~~((2))~~ 3. Outreach and education to employers and other hiring entities; and

~~((3))~~ 4. Outreach and education to ((employees)) workers.

In determining the funding required to sustain these activities, annual inflationary adjustments and increases in the staffing, overhead, and infrastructure costs will be taken into account for each of these elements. Funding for enforcement should consider the level of resources needed to fulfill the goal of completing investigations within 180 days, taking into account the rate of successful completion of cases within 180 days during the previous year. The total funding required to maintain the current level of activity for all (~~three elements~~) four components shall be known as the minimum annual contribution. The minimum annual contribution for that year shall be reflected in the proposed City budget submitted by the Mayor to the City Council for the following year. Additionally, the Director may make further recommendations to the Mayor and the Council including, but not limited to, staffing, funding, and program design.

C. It is the policy goal of The City of Seattle that each year the minimum annual contribution will be appropriated in the budget to the Office of Labor Standards.

D. By January 1 of each year, an amount equal to the Office of Labor Standards appropriation for that year shall be deposited in the Fund.

E. The sources of funding for the minimum annual contribution under subsection 3.15.007.C shall come from the City's existing business license tax under Chapter 5.45 and the network company license fee under Chapter 6.700. Funds from the network company license fee shall be appropriated to the Office of Labor Standards solely to recover the regulatory costs of implementing Chapter 8.37 and Chapter 8.40, as prescribed by Section 6.700.100.

F. If the revenues available from the business license tax under Chapter 5.45 and the network company license fee under Chapter 6.700 are insufficient to meet the minimum annual contribution, the difference may be funded using any resources of the City's General Fund.

* * *

Section 3. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, or portion of this ordinance, or the invalidity of its

application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 4. Sections 1 and 2 of this ordinance shall take effect on January 1, 2025.

Section 5. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

Scheereen Dedman, City Clerk

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
LEG	Karina Bull//206-715-2460	N/A

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the regulation of network companies; imposing license and fee requirements on network companies; adding a new Chapter 6.700 to the Seattle Municipal Code; and amending Section 3.15.007 of the Seattle Municipal Code.

Summary and Background of the Legislation: The City of Seattle (City) has recently legislated requirements in the Seattle Municipal Code that provide workplace protections for app-based workers (i.e., workers performing services in furtherance of offers facilitated or presented by network companies). The App-Based Worker Minimum Payment Ordinance (Chapter 8.37), effective January 13, 2004, will require network companies to provide app-based workers with minimum payment, transparent job information and receipts, and flexible terms of work. The App-Based Worker Deactivation Rights Ordinance (Chapter 8.40), effective January 1, 2025, will require network companies to provide app-based workers with protections against unwarranted deactivations, including advance notice of deactivation, records, and an internal challenge procedure. The Office of Labor Standards (OLS) is authorized to implement these app-based worker labor standards through policy development (e.g., rulemaking), enforcement, and collaborative outreach programs that include contracts with community organizations.

Although the City established the Office of Labor Standards (OLS) Fund in 2017 with the intention of guaranteeing annual funding for OLS programs and activities, the existing sources of revenue for this fund (i.e., business license tax revenues, General Fund) are insufficient to cover the full costs of implementing the App-Based Worker Minimum Payment and App-Based Worker Deactivation Rights Ordinances.

This legislation would require network companies to obtain an annual network company license to operate in Seattle and pay a license fee as an additional source of revenue to recover the costs of network company regulations. The Department of Finance and Administrative Services (FAS) would implement the license and fee. The FAS Director would be authorized to promulgate rules, investigate violations, and issue a notice of violation that the network company could appeal to the Hearing Examiner.

The network company license fee would be \$0.10 per online order that results in an app-based worker's delivery of goods or provision of other services in Seattle. Online orders solely for an app-based worker's delivery of groceries would be exempt from the fee. The FAS Director, in consultation with the OLS Director, would review the fee at least annually to make any adjustment necessary (by rule) to ensure the fee achieves full recovery, and no more, of the regulatory costs prescribed in the legislation.

The network company license and fee requirements would become effective on January 1, 2025. License applications and the first filing of fee payments for the 2025 calendar year would be due by December 31, 2025.

Network company license fee revenue would be allocated to FAS and OLS for eligible expenditures listed in order of priority:

1. FAS implementation of the network company license and fee;
2. OLS implementation of the App-Based Workers Deactivation Rights Ordinance; and
3. OLS implementation of the App-Based Worker Minimum Payment Ordinance.

The network company license fee is estimated to generate at least \$2.1 million per year. With limited data from network companies, this estimate is based on Transportation Network Company (TNC) trips originating in Seattle as an analog for online orders. The estimate assumes at least 21 million online orders per year based on the average number of TNC trips originating in Seattle per year for 2018, 2019, and 2022 (2020 and 2021 were omitted due to reduced TNC trips during the pandemic).¹

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

Yes, the legislation would generate one-time and ongoing costs in FAS to implement the network company license and fee. The legislation would require allocation of fee revenue to FAS to fully recover these regulatory costs.

Are there financial costs or other impacts of *not* implementing the legislation?

The legislation would generate network company license fee revenue to fund implementation of the App-Based Worker Deactivation Rights and App-Based Worker Minimum Payment Ordinances. Not implementing this legislation would require redirecting funds from other resources for these purposes or reducing/foregoing implementation of these programs.

¹ A higher estimate of \$3 million per year assumes 30 million online orders per year based on the average TNC trips per registered driver for 2018, 2019, and 2022 multiplied by the estimated number of app-based workers in Seattle (749 average TNC trips x 40,000 app-based workers). Although online orders could far exceed TNC trips, projected revenues are based on the lower estimate to account for limited data and a proposed fee exemption for online orders solely for delivery of groceries.

3.b. Revenues/Reimbursements

X This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from This Legislation:

Fund Name and Number	Dept	Revenue Source	2024 Revenue	2025 Estimated Revenue
General Fund (00100)		Network Company License Fee	N/A	\$2,100,000
TOTAL			N/A	\$2,100,000

Revenue/Reimbursement Notes:

This is an ongoing change. The legislation establishes requirements for allocation of network company license fee revenue. Fee payments for the 2025 calendar year would be due by December 31, 2025.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

Yes, the legislation would establish network company license and fee requirements that would be implemented by FAS. The fee revenue would be used to recover FAS’s costs of implementing the license and fee, and OLS’s costs of implementing the App-Based Worker Deactivation Rights and the App-Based Worker Minimum Payment Ordinances.

FAS estimates that administering the network company license would require \$1.14 million one-time in 2024 and \$94,000 one-time in 2025 for set-up costs and program management, and \$442,000 and 2.25 FTE per year beginning in 2025 for ongoing costs.

OLS estimates that implementing the App-Based Worker Deactivation Rights Ordinance requires \$200,000 one-time in 2024 for outreach and set-up costs, \$1.13 million per year and seven FTEs in 2024, 2025, and 2026 for procedural enforcement, and \$1.56 million per year and nine FTEs beginning in 2027 for ongoing procedural and substantive enforcement.

OLS estimates that implementing the App-Based Worker Minimum Payment Ordinance requires \$1.2 million and five full-time equivalents (FTEs) per year for ongoing costs. The 2024 Proposed Budget Adjustments include approximately \$492,000 and 3 FTEs for this work.

b. Is a public hearing required for this legislation?

No

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No

d. Does this legislation affect a piece of property?

No

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

The legislation would require a network company license fee to fund implementation of the App-Based Worker Deactivation Rights and App-Based Worker Minimum Payment Ordinances. The City established these app-based worker labor standards to change the underlying systems creating race-based disparities in our community by strengthening job security, increasing income, and improving other terms and conditions of work.

Black, Indigenous, and other People of Color face unique barriers to economic insecurity and disproportionately work in low-wage jobs with insecure working conditions. Specifically, Black and Latinx workers are overrepresented among app-based workers, comprising almost 42 percent of app-based workers but less than 29 percent of the overall labor force.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

This legislation would require a network company license fee to recover the regulatory costs of network company regulations. Fee revenue would be used to recover the costs of licensing activities and implementation of two app-based worker labor standards established by the City.

Summary Attachments (if any):

Amendment 1 Version 1 to CB 120706 – Network Company License and Fee

Sponsor: Councilmember Herbold

Require FAS Director to recommend a reduced fee for marketplace network companies.

Effect: This amendment would require the Department of Finance and Administrative Services (FAS) Director to recommend a reduced fee for marketplace network companies after assessing initial fee revenue and no later than July 1, 2026. The FAS Director’s recommendation is intended to inform the City Council’s development of legislation that would establish a reduced fee for marketplace network companies.

Amend Section 1 of CB 120706 as follows:

6.700.030 Definitions

* * *

“Marketplace network company” means a network company primarily engaged in facilitating or presenting pre-scheduled offers in which: (a) the application or platform enables the prospective customer and app-based worker to exchange information about the scope and details of services to be performed, prior to the customer placing the online order for those services or the app-based worker accepting the offer; (b) the app-based worker sets their own rates; and (c) the network company does not monitor offers by mileage or time. On-demand network companies and companies that primarily provide delivery services are not marketplace network companies.

When determining whether a network company is “primarily engaged in facilitating or presenting pre-scheduled offers in which: (a) the application or platform enables the prospective customer and app-based worker to exchange information about the scope and details of services to be performed, prior to the customer placing the online order for those services or the app-

based worker accepting the offer; (b) the app-based worker sets their own rates; and (c) the network company does not monitor offers by mileage or time” the FAS Director, in consultation with the OLS Director, may consider any number of factors, including but not limited to: the number of pre-scheduled offers relative to the network company’s overall offers; how app-based worker rates are set; what information regarding offer mileage or offer time a network company knows before, during, or after performance of an offer; information from app-based workers performing offers through the application or platform; marketing or promotional materials from the network company; or other public statements from representatives of the network company. Such determinations shall be consistent with OLS Director rules.

* * *

6.700.080 License fee

* * *

B. The FAS Director, in consultation with the OLS Director, shall review the fee at least annually and shall make any adjustment necessary by rule to ensure the fee achieves full recovery, and no more, of the regulatory costs prescribed in Section 6.700.100 after consideration of available information for the following factors:

1. Actual and projected fee revenue;
2. The FAS Director’s projected costs and annual budget allotted for the implementation of the network company license and fee;
3. The OLS Director’s projected costs, including costs identified in the annual certification required by subsection 3.15.007.B, and annual budget allotted for the implementation of Chapter 8.37 and Chapter 8.40;

4. The number of network companies operating in Seattle;

5. The number of online orders subject to the license fee in subsection

6.700.080.A;

6. OLS's implementation data for Chapter 8.37 and Chapter 8.40 (e.g., number and nature of worker and business inquiries, data on open and filed investigation, resolved investigations, and financial remedies); and

7. Such other factors that the FAS Director determines are reasonably necessary for reviewing the fee.

C. The FAS Director, in consultation with the OLS Director, shall report to the City Council on establishing a reduced fee for marketplace network companies to reflect that such companies are only covered by Chapter 8.40, one of the two app-based worker labor standards incurring regulatory costs that can be recovered by fee revenue. The City Council intends to consider the FAS Director's recommendation for development of legislation that would establish a reduced fee for marketplace network companies. The FAS Director shall submit the report to the City Council after assessing initial fee revenue and the factors for consideration in subsection 6.700.080.B, and no later than July 1, 2026. The FAS Director's report shall include the following:

1. A recommendation for establishing a reduced fee for marketplace network companies and an assessment of the financial impacts;

2. The status of fee revenue for the 2025 calendar year and first quarter 2026;
and

3. Other information that the FAS Director determines is relevant for the City Council's consideration of a reduced fee for marketplace network companies.

Amendment 2 Version 1 to CB 120706 – Network Company License and Fee

Sponsor: Councilmember Pedersen

Exempt marketplace network companies from coverage.

Effect: This amendment would exempt marketplace network companies from CB 120706.

The proposed fee of \$0.10 per online order is the same for all covered network companies.

Marketplace network companies are only covered by Chapter 8.40, one of the two app-based labor standards incurring regulatory costs that can be recovered by fee revenue. This amendment would prevent any charges for marketplace network companies.

Since the City has limited data on the volume and type of online orders in Seattle, the financial impact of this amendment is unknown. The FAS Director could determine the financial impact in the first or second quarter of 2026 (after evaluating fee revenue from the 2025 calendar year) and could make any adjustment necessary to ensure the fee achieves full recovery of regulatory costs.

Amend Section 1 of CB 120706 as follows:

6.700.010 Scope and purpose

This Chapter 6.700 applies to network companies operating in Seattle, other than marketplace network companies as stated in Section 6.700.040. The ordinance enacting this Chapter 6.700 is an exercise of the City’s police power to regulate network companies. The purpose of the ordinance is to regulate network company activity through an annual license requirement and impose a fee to recover the regulatory costs of licensing and implementing app-based worker labor standards that protect and promote public health, safety, and welfare.

* * *

6.700.030 Definitions

* * *

“Marketplace network company” means a network company primarily engaged in facilitating or presenting pre-scheduled offers in which: (a) the application or platform enables the prospective customer and app-based worker to exchange information about the scope and details of services to be performed, prior to the customer placing the online order for those services or the app-based worker accepting the offer; (b) the app-based worker sets their own rates; and (c) the network company does not monitor offers by mileage or time. On-demand network companies and companies that primarily provide delivery services are not marketplace network companies.

When determining whether a network company is “primarily engaged in facilitating or presenting pre-scheduled offers in which: (a) the application or platform enables the prospective customer and app-based worker to exchange information about the scope and details of services to be performed, prior to the customer placing the online order for those services or the app-based worker accepting the offer; (b) the app-based worker sets their own rates; and (c) the network company does not monitor offers by mileage or time” the FAS Director, in consultation with the OLS Director, may consider any number of factors, including but not limited to: the number of pre-scheduled offers relative to the network company’s overall offers; how app-based worker rates are set; what information regarding offer mileage or offer time a network company knows before, during, or after performance of an offer; information from app-based workers performing offers through the application or platform; marketing or promotional materials from

Karina Bull
Select Budget Committee
November 14, 2023
D1

the network company; or other public statements from representatives of the network company.

Such determinations shall be consistent with OLS Director rules.

* * *

6.700.040 Coverage

For the purposes of this Chapter 6.700, coverage ~~((of network companies))~~ is limited to ~~((those))~~ network companies that are: subject to the App-Based Worker Minimum Payment Ordinance (Chapter 8.37) and/or the App-Based Worker Deactivation Rights Ordinance (Chapter 8.40); and not marketplace network companies.

Amendment 3 Version 1 to CB 120706 – Network Company License and Fee

Sponsor: Councilmember Nelson

Restrict OLS’s use of fee revenue to implementing the App-Based Worker Deactivation Rights Ordinance.

Effect: This amendment would restrict the Office of Labor Standards’ (OLS’s) use of fee revenue to implementation of the App-Based Worker Deactivation Rights Ordinance (Chapter 8.40).

OLS would be prohibited from using fee revenue for implementation of the App-Based Worker Minimum Payment Ordinance (Chapter 8.37). Any funding for OLS’s implementation of Chapter 8.37 would come from other sources of revenue in the OLS Fund (i.e., business license tax revenue and any resources of the City’s General Fund).

As the City has limited data on the volume and type of online orders in Seattle, the financial impact of this reduction is unknown. The FAS Director could determine the financial impact in the first or second quarter of 2026 (after evaluating fee revenue from the 2025 calendar year) and could make any necessary adjustments to ensure that the fee fully recovers full recovery, and nothing more, of regulatory costs.

Amend recitals of CB 120706 as follows:

* * *

~~((WHEREAS, effective January 13, 2024, the App-Based Worker Minimum Payment Ordinance, Ordinance 126595, will require network companies to provide app-based workers with minimum payment, transparent job information and receipts, and flexible terms of work; and~~

~~WHEREAS, OLS estimates that implementing the App-Based Worker Minimum Payment Ordinance will require \$1.2 million and five full-time equivalents (FTEs) per year for ongoing costs, but the 2024 Proposed Budget Adjustments only include \$492,000 and three FTEs for this work; and))~~

* * *

WHEREAS, the existing revenue sources for the OLS Fund are insufficient to fully recover the regulatory costs of implementing ~~((the App-Based Worker Minimum Payment Ordinance and))~~ the App-Based Worker Deactivation Rights Ordinance; and

* * *

WHEREAS, the City intends to use revenue from the network company license fee to fully recover the costs of network company regulations incurred by licensing and implementing the App-Based Worker Deactivation Rights Ordinance ~~((and the App-Based Worker Minimum Payment Ordinance, in such order of priority))~~; NOW, THEREFORE,

* * *

Amend Section 1 of CB 120706 as follows:

6.700.040 Coverage

For the purposes of this Chapter 6.700, coverage of network companies is limited to those that are subject to ~~((the App-Based Worker Minimum Payment Ordinance (Chapter 8.37) and/or))~~ the App-Based Worker Deactivation Rights Ordinance (Chapter 8.40).

* * *

6.700.060 License application

* * *

B. Application for a network company license shall include the following information:

1. Name and contact information of the applicant;
2. Name and contact information of the owners thereof, or in the case of a corporation, names and contact information of the officers of such corporation;
3. Attestation of the applicant's coverage by ~~((Chapter 8.37 and/or))~~ Chapter 8.40;
4. Description of the type(s) of app-based services offered by the applicant; and

5. Such other information that the FAS Director determines is reasonably necessary to determine the qualifications of the applicant for a network company license.

* * *

D. The FAS Director may deny, revoke, or refuse to renew the license of any network company for any of the following:

1. Violating or failing to comply with any applicable provision of this Chapter 6.700;

2. Failure to pay all outstanding penalties assessed against the licensee under this Chapter 6.700;

3. Any reason set forth in Section 6.202.230; or

4. Failing to comply, within 30 days of service of any OLS settlement agreement, any final order issued by the OLS Director, or any final order issued by the Hearing Examiner under Chapter ~~((8.37-0#))~~ 8.40 for which all appeal rights have been exhausted, and the OLS Director has requested the FAS Director to deny, revoke, or refuse to renew any network company license held or requested by the applicant or licensee. The denial, revocation, or refusal to renew such network company license shall remain in effect until such time as the violation(s) under Chapter ~~((8.37-0#))~~ 8.40 are remedied.

* * *

6.700.080 License fee

* * *

B. The FAS Director, in consultation with the OLS Director, shall review the fee at least annually and shall make any adjustment necessary by rule to ensure the fee achieves full recovery, and no more, of the regulatory costs prescribed in Section 6.700.100 after consideration of available information for the following factors:

1. Actual and projected fee revenue;
2. The FAS Director's projected costs and annual budget allotted for the implementation of the network company license and fee;
3. The OLS Director's projected costs, including costs identified in the annual certification required by subsection 3.15.007.B, and annual budget allotted for the implementation of ~~((Chapter 8.37 and))~~ Chapter 8.40;
4. The number of network companies operating in Seattle;
5. The number of online orders subject to the license fee in subsection 6.700.080.A;
6. OLS's implementation data for ~~((Chapter 8.37 and))~~ Chapter 8.40 (e.g., number and nature of worker and business inquiries, data on open and filed investigation, resolved investigations, and financial remedies); and
7. Such other factors that the FAS Director determines are reasonably necessary for reviewing the fee.

* * *

6.700.100 Allocation of fee revenue

A. Fee revenue shall be appropriated in the annual City budget or separate ordinances solely to recover regulatory costs in the following order of priority:

1. FAS's implementation of the network company license and fee in this Chapter 6.700; and
2. OLS's implementation of Chapter 8.40. ~~((; and~~
3. ~~OLS's implementation of Chapter 8.37.))~~

B. FAS's implementation of the network company license and fee may include administrative, enforcement, and other regulatory costs. OLS's implementation of ~~((Chapter 8.37 and))~~ Chapter 8.40 may include policy development, enforcement, and outreach and education, including contracts with community organizations for culturally competent and language-specific outreach and education and community-based enforcement, and other regulatory costs. The OLS Director shall include an itemized statement with the amount and description of funding needed to sustain such regulatory costs in the certification of the minimum annual contribution submitted to the Mayor and City Council under subsection 3.15.007.B.

* * *

Amend Section 2 of CB 120706 as follows:

3.15.007 Office of Labor Standards Fund

* * *

E. The sources of funding for the minimum annual contribution under subsection 3.15.007.C shall come from the City's existing business license tax under Chapter 5.45 and the network company license fee under Chapter 6.700. Funds from the network company license fee shall be appropriated to the Office of Labor Standards solely to recover the regulatory costs of implementing ~~((Chapter 8.37 and))~~ Chapter 8.40, as prescribed by Section 6.700.100.

* * *

Amendment 4 Version 1 to CB 120706 – Network Company License and Fee

Sponsor: Councilmember Nelson

Reduce the fee for network companies to \$0.05 per online order.

Effect: This amendment would reduce the fee for network companies from \$0.10 to \$0.05 per online order that results in an app-based worker’s delivery of goods or provision of other services in Seattle.

The fee would become effective on January 1, 2025. Changing the fee to \$0.05 per online order would reduce estimated fee revenue to \$1.05 million to \$1.5 million per year. Anticipated costs for 2025 through 2027 range from \$2.7 million to \$3.2 million depending on the year. This reduction would limit the fee revenue available for the regulatory costs prescribed by CB 120706. See Table 1 for estimated regulatory costs.

Table 1. Estimated regulatory costs.

City Department	Implementation Activity	2025	2026	2027
Finance and Administrative Services	License and fee requirements	\$536,000	\$442,000	\$442,000
Office of Labor Standards (OLS)	App-Based Worker Deactivation Rights Ordinance (Chapter 8.40)	\$1.13 million	\$1.13 million	\$1.56 million
OLS	App-Based Worker Minimum Payment Ordinance (Chapter 8.37)*	\$1.2 million	\$1.2 million	\$1.2 million
Total		\$2.87 million	\$2.7 million	\$3.2 million

*The 2024 Proposed Budget Adjustments include approximately \$492,000 GF for Chapter 8.37.

Amend Section 1 of CB 120706 as follows:

6.700.080 License fee

A. The fee for a network company license issued pursuant to this Chapter 6.700 shall be ~~(\$0.10)~~ \$0.05 per online order that results in an app-based worker’s delivery of goods or provision of other services in Seattle.

* * *

Amendment 5 Version 1 to CB 120706 – Network Company License and Fee

Sponsor: Councilmember Pedersen

Require ordinance to increase the fee.

Effect: This amendment would change the procedure for adjusting the network company license fee as follows:

1. The Department of Finance and Administrative Services (FAS) Director, in consultation with the Office of Labor Standards (OLS) Director, would make a recommendation to the City Council to increase the fee every two years;
2. The Council would establish any necessary increase to the fee by ordinance; and
3. The FAS Director would make any necessary reduction to the fee by rule.

The requirement to legislate any increase to the fee could provide a more public forum for making such adjustments. The requirement could also delay the effective date of a fee increase and the City's receipt of additional fee revenue. The legislative process typically takes longer than the notice and comment process for administrative rules under Section 3.02.030 of the Seattle Municipal Code (e.g., minimum of 14 days of notice and comment before adopting rules).

Amend Section 1 of CB 120706 as follows:

6.700.080 License fee

B. The FAS Director, in consultation with the OLS Director, shall review the fee ~~((at least annually))~~ every two years and shall make a recommendation to the City Council about any ~~((adjustment necessary by rule))~~ increase necessary to ensure the fee achieves full recovery, and no more, of the regulatory costs prescribed in Section 6.700.100 after consideration of available information for the following factors:

1. Actual and projected fee revenue;

2. The FAS Director's projected costs and annual budget allotted for the implementation of the network company license and fee;

3. The OLS Director's projected costs, including costs identified in the annual certification required by subsection 3.15.007.B, and annual budget allotted for the implementation of Chapter 8.37 and Chapter 8.40;

4. The number of network companies operating in Seattle;

5. The number of online orders subject to the license fee in subsection 6.700.080.A;

6. OLS's implementation data for Chapter 8.37 and Chapter 8.40 (e.g., number and nature of worker and business inquiries, data on open and filed investigation, resolved investigations, and financial remedies); and

7. Such other factors that the FAS Director determines are reasonably necessary for reviewing the fee.

C. The fee may only be increased by ordinance. The FAS Director shall make any reduction necessary by rule to ensure the fee shall not exceed full recovery.

Amendment 6 Version 1 to CB 120706 – Network Company License and Fee

Sponsor: Councilmember Herbold

Revise requirements to increase transparency and streamline provisions.

Effect: This amendment would include the following revisions:

1. Clarify the regulatory costs in the scope and purpose section;
2. Remove the Department of Finance and Administrative Services (FAS) Director's authority to assign network companies to a monthly or annual payment schedule;
3. Require OLS to publicly announce which contracts with community organizations are funded by fee revenue;
4. Require OLS to create policies and procedures for awarding and monitoring contracts that are funded by fee revenue to ensure that such contracts are solely for the purposes prescribed by this Chapter 6.700;
5. Require the FAS Director to include fee revenues in the quarterly reporting that the City Finance Division and the City Budget Office provide to the City Council as part of the Financial Monitoring program; and
6. Clarify that penalties do not accrue if the network company achieves compliance before the date that compliance is required in the notice of violation of the FAS Director.

This amendment is intended to increase the transparency of FAS and OLS activities related to the network company license and fee; streamline fee collection by only requiring fee payments on a quarterly basis; and increase understanding of enforcement provisions.

Amend Section 1 of CB 120706 as follows:

6.700.010 Scope and purpose

This Chapter 6.700 applies to network companies operating in Seattle. The ordinance enacting this Chapter 6.700 is an exercise of the City's police power to regulate network companies. The purpose of the ordinance is to regulate network company activity through an annual license requirement and impose a fee to recover the regulatory costs of licensing and implementing ~~((app-based worker))~~ labor standards in the App-Based Worker Minimum Payment Ordinance

(Chapter 8.37) and App-Based Worker Deactivation Rights Ordinance (Chapter 8.40) that protect and promote public health, safety, and welfare.

* * *

6.700.040 Coverage

For the purposes of this Chapter 6.700, coverage of network companies is limited to those that are subject to ~~((the App-Based Worker Minimum Payment Ordinance-))~~ Chapter 8.37 ~~(())~~ and/or ~~((the App-Based Worker Deactivation Rights Ordinance-))~~ Chapter 8.40 ~~(())~~.

* * *

6.700.080 License fee

A. The fee for a network company license issued pursuant to this Chapter 6.700 shall be \$0.10 per online order that results in an app-based worker's delivery of goods or provision of other services in Seattle.

1. The fee revenue shall be used to recover the regulatory costs prescribed in Section 6.700.100.
2. The fee shall be due and payable on a quarterly basis, except that the fee for the 2025 calendar year shall be payable on the same date that the fee payment is due for the fourth quarter of 2025. ~~((The FAS Director may use discretion to assign businesses to a monthly or annual reporting period.))~~ Forms for such filings shall be prescribed by the FAS Director. Network companies discontinuing operations in Seattle shall report and pay the fee no later than the quarterly payment period following close of business.

* * *

6.700.100 Allocation of fee revenue

A. Fee revenue shall be appropriated in the annual City budget or separate ordinances solely to recover regulatory costs in the following order of priority:

1. FAS's implementation of the network company license and fee in this Chapter 6.700;
2. OLS's implementation of Chapter 8.40; and
3. OLS's implementation of Chapter 8.37.

B. FAS's implementation of the network company license and fee may include administrative, enforcement, and other regulatory costs.

C. OLS's implementation of Chapter 8.37 and Chapter 8.40 may include policy development, enforcement, and outreach and education, including contracts with community organizations for culturally competent and language-specific outreach and education and community-based enforcement, and other regulatory costs. The OLS Director shall include an itemized statement with the amount and description of funding needed to sustain such regulatory costs in the certification of the minimum annual contribution submitted to the Mayor and City Council under subsection 3.15.007.B. The OLS Director shall publicly announce which contracts are funded by fee revenue to ensure that such contracts are solely for purposes prescribed by this Section 6.700.100. Consistent with City purchasing requirements, the OLS Director shall create policies and procedures for awarding and monitoring contracts that are funded by fee revenue to ensure that such contracts are solely for purposes prescribed by this Section 6.700.100.

D. The FAS Director shall include fee revenues in the quarterly reporting that the City Finance Division and City Budget Office provide to the City Council as part of the Financial Monitoring program.

* * *

6.700.170 Penalty

A. In addition to any other sanction or remedial procedure that may be available, any network company violating any of the provisions of this Chapter 6.700 shall be subject to the following cumulative penalties per violation until compliance is achieved:

1. \$500 per day for each violation for the first ten business days; and
2. \$1,000 per day for each violation for each day beyond ten business days of

non-compliance until compliance is achieved.

B. The violation will be deemed to begin, for purposes of determining the number of days in violation, on the date that compliance is required on the notice of violation of the FAS Director. Penalties do not accrue if the network company achieves compliance before the date that compliance is required in the notice of violation of the FAS Director.

Amendment 7 Version 1 to CB 120706 – Network Company License and Fee

Sponsor: Councilmember Pedersen

Clarify FAS Director’s authority to establish additional license application requirements and network company provisions.

Effect: This amendment would clarify the Department of Finance and Administrative Services (FAS) Director’s authority to establish additional requirements as follows:

1. Clarify that the FAS Director may only require additional “administrative information” for the license application; and
2. Clarify that the FAS Director may adjust fees by rule (as permitted by subsection 6.700.080) but is otherwise prohibited from adjusting obligations for network companies that are established by this Chapter 6.700.

Amend Section 1 of CB 120706 as follows:

6.700.060 License application

* * *

B. Application for a network company license shall include the following information:

1. Name and contact information of the applicant;
2. Name and contact information of the owners thereof, or in the case of a corporation, names and contact information of the officers of such corporation;
3. Attestation of the applicant’s coverage by Chapter 8.37 and/or Chapter 8.40;
4. Description of the type(s) of app-based services offered by the applicant; and
5. Such other administrative information that the FAS Director determines is reasonably necessary to determine the qualifications of the applicant for a network license.

* * *

6.700.070 Network company provisions

~~((A-))~~ All network companies operating in Seattle shall:

~~((1-))~~ A. Possess a valid network company license issued pursuant to this Chapter 6.700;

~~((2-))~~ B. Submit quarterly reports in an electronic format determined by the FAS

Director with the number of online orders subject to the license fee in subsection 6.700.080.A;
and

~~((3-))~~ C. Comply with such other provisions that the FAS Director determines by rule are material and necessary to effectuate the purposes of this Chapter 6.700, pursuant to Section 6.700.110.

* * *

6.700.110 Rulemaking authority

~~((The FAS Director may adopt rules pursuant to Chapter 3.02 to implement the provisions of this Chapter 6.700.))~~ The FAS Director is authorized to enforce, promulgate, revise, or rescind rules and regulations deemed necessary, appropriate, or convenient to implement and administer the provisions of this Chapter 6.700, providing affected entities with due process of law and in conformity with the intent and purpose of this Chapter 6.700. The FAS Director is authorized to adjust fees by rule as permitted by subsection 6.700.080 but is otherwise prohibited from adjusting obligations for network companies that are established by this Chapter 6.700.

Amendment 8 Version 1 to CB 120706 – Network Company License and Fee

Sponsor: Councilmember Pedersen

Establish requirements for OLS’s administration of contracts funded by fee revenue.

Effect: This amendment would establish requirements for the Office of Labor Standards’ (OLS’s) administration of contracts funded by fee revenue as follows:

1. Prohibit OLS from using fee revenue to contract with community organizations for community-based enforcement; and
2. Require OLS to conduct a competitive solicitation and selection process for all contracts funded by fee revenue, regardless of the value of such contracts. A competitive solicitation process would require a competitive “Invitation to Bid” or “Request for Proposal” issued by the OLS Director.

Amend recitals of CB 120706 as follows:

* * *

WHEREAS, OLS’s implementation includes contracts with community organizations to provide trusted, culturally competent, and language specific outreach and education ~~((and community-based enforcement))~~ to strengthen workplace protections for a newly regulated industry; and

* * *

Amend Section 1 of CB 120706 as follows:

6.700.100 Allocation of fee revenue

A. Fee revenue shall be appropriated in the annual City budget or separate ordinances solely to recover regulatory costs in the following order of priority:

1. FAS’s implementation of the network company license and fee in this Chapter

6.700;

2. OLS's implementation of Chapter 8.40; and

3. OLS's implementation of Chapter 8.37.

B. FAS's implementation of the network company license and fee may include administrative, enforcement, and other regulatory costs.

C. OLS's implementation of Chapter 8.37 and Chapter 8.40 may include policy development, enforcement, and outreach and education, including contracts with community organizations for culturally competent and language-specific outreach and education, ~~((and community-based enforcement,))~~ and other regulatory costs. The OLS Director shall include an itemized statement with the amount and description of funding needed to sustain such regulatory costs in the certification of the minimum annual contribution submitted to the Mayor and City Council under subsection 3.15.007.B. The OLS Director shall conduct a competitive solicitation and selection process for all contracts funded by fee revenue, regardless of the value of such contracts.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to deductions from the payroll expense tax; extending an existing deduction for non-profit healthcare entities and making the deduction subject to increases that account for inflation; and amending Sections 5.38.045 and 5.38.070 of the Seattle Municipal Code.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 5.38.045 of the Seattle Municipal Code, enacted by Ordinance 126108, is amended as follows:

5.38.045 Deductions from the payroll expense tax

For the period from January 1, 2021, through December 31, ~~((2023))~~ 2026, taxpayers that are non-profit healthcare entities may deduct from the measure of the tax the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99.

Section 2. Section 5.38.070 of the Seattle Municipal Code, enacted by Ordinance 126108, is amended as follows:

5.38.070 Adjustments for inflation

A. Beginning on January 1, 2022, and on January 1 of every year thereafter, the Director shall adjust in the manner described in subsection 5.38.070.B the following dollar amounts:

1. The amount of the dollar thresholds in Section 5.38.030; ~~((and))~~
2. The amount of the exemption in subsection 5.38.040.A.1~~((-))~~ ; and
3. The amount of the dollar thresholds in Section 5.38.045.

* * *

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

Bruce A. Harrell, Mayor

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
LEG	Aly Pennucci / 4-8148	n/a

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to deductions from the payroll expense tax; extending an existing deduction for non-profit healthcare entities and making the deduction subject to increases that account for inflation; and amending Sections 5.38.045 and 5.38.070 of the Seattle Municipal Code.

Summary and Background of the Legislation: This legislation would extend an existing deduction from the Payroll Expense Tax, for three years, that applies to compensation between \$150,000 to \$399,999.99 at non-profit healthcare entities. This legislation would also give the Director of the Department of Finance and Administrative Services (FAS) authority to adjust that range based on inflation. This exemption has been in place since the tax was enacted.

The revenue forecast produced by the Office of Economic and Revenue Forecasts for the JumpStart Payroll Expense Tax in October 2023 assumes that this deduction will expire at the end of 2023. If the deduction is extended, Payroll Expense Tax revenues will decline by about \$4.15 million relative to the October 2023 revenue forecast.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes x No

If yes, please fill out the table below and attach a new (if creating a project) or marked-up (if amending) CIP Page to the Council Bill. Please include the spending plan as part of the attached CIP Page. If no, please delete the table.

Project Name:	Project I.D.:	Project Location:	Start Date:	End Date:	Total Project Cost Through 2028:

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes x No

If there are no changes to appropriations, revenues, or positions, please delete the table below.

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

Are there financial costs or other impacts of *not* implementing the legislation?

3.b. Revenues/Reimbursements

___ This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from This Legislation:

Fund Name and Number	Dept	Revenue Source	2023 Revenue	2024 Estimated Revenue
TOTAL				

Revenue/Reimbursement Notes:

The Forecast Office confirmed that there are about 15 non-profit healthcare entities that are currently paying the tax and applied that deduction. Total revenue loss due to the deduction was \$4.1M in 2021 and \$5.2M in 2022. Even with deductions applied, these taxpayers still paid about \$3.4M in 2021 and \$4M in 2022.

If the deduction is extended, Payroll Expense Tax revenues will decline by about \$4.15 million relative to the most recent forecast.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

Yes, FAS administers the JumpStart Payroll Expense Tax and will need to update materials that reference this reduction to update the timeframe and will have to annually adjust the range based on inflation.

b. Is a public hearing required for this legislation?

No

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No

d. Does this legislation affect a piece of property?

No

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

This legislation extends an existing deduction from the Payroll Expense Tax and is not expected to impact vulnerable or historically disadvantaged communities.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

No

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

No

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

n/a

Amendment 1 Version 1 to CB 120689 - LEG JumpStart Payroll Expense Tax Deduction Extension

Sponsor: Councilmember Mosqueda

Technical Amendment

Effect: Council Bill (CB) 120689 would extend an existing deduction from the Payroll Expense Tax, for three years, that applies to compensation between \$150,000 to \$399,999.99 at non-profit healthcare entities. This exemption has been in place since the tax was enacted.

This CB would also give the Director authority to adjust that range based on inflation. This technical amendment would make a correction to the new language that allows the Director to adjust for inflation, making clear that this applies prospectively.

Double underline indicates language added by this amendment.

Amend Section 2 to CB 120689 as follows:

Section 2. Section 5.38.070 of the Seattle Municipal Code, enacted by Ordinance 126108,

is amended as follows:

5.38.070 Adjustments for inflation

A. Beginning on January 1, 2022, and on January 1 of every year thereafter, the Director shall adjust in the manner described in subsection 5.38.070.B the following dollar amounts:

1. The amount of the dollar thresholds in Section 5.38.030; (~~and~~)
2. The amount of the exemption in subsection 5.38.040.A.1(~~-~~) ; and
3. The amount of the dollar thresholds in Section 5.38.045.

B. The amounts listed in subsection 5.38.070.A shall increase commensurate with the rate of growth of the prior year's June-to-June Consumer Price Index (CPI-U) for the Seattle-Tacoma-Bellevue area as published by the United States Department of Labor. The amounts calculated shall be rounded to the nearest whole dollar.

Am 1 to CB 120689
Select Budget Committee
November 8, 2023
D1

C. The adjustment for inflation that pertains to the amount of the deduction in Section 5.38.045 is calculated consistently with subsection 5.38.070.A. However, the inflation adjustment that pertains to the deduction in Section 5.38.045 applies prospectively only, commencing on January 1, 2024.

File #: CB 120707, **Version:** 1

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the organization of City government; renaming the Community Safety and Communications Center to the Community Assisted Response and Engagement Department; requesting that the Code Reviser revise the Seattle Municipal Code accordingly; and amending Sections 3.15.060 and 3.15.062 of the Seattle Municipal Code.

WHEREAS, by adopting Ordinance 126233 the City created the Community Safety and Communications Center, effective January 1, 2021, including the 911 call answering and dispatch center; and

WHEREAS, the Mayor and City Council envisioned this new department to be responsible for 911 call answering and dispatch and also diversified response options to incidents when police officers are not needed; and

WHEREAS, the City will continue its efforts to build community-focused, trauma-informed approaches to low-acuity non-police public safety incidents; and

WHEREAS, the name Community Assisted Response and Engagement (CARE) better reflects the purpose and responsibilities of the department; and

WHEREAS, CARE also embodies the City's vision of aligning and unifying Seattle's community-focused, non-police public safety programs to better serve the City; and

WHEREAS, associated sections of the Seattle Municipal Code must be updated to reflect this new name and additional areas of responsibility; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 3.15.060 of the Seattle Municipal Code, enacted by Ordinance 126233, is amended as

follows:

3.15.060 (~~Community Safety and Communications Center~~) Community Assisted Response and Engagement Department

There is created within the Executive Department a (~~Community Safety and Communications Center~~) Community Assisted Response and Engagement (CARE) Department to provide timely, accurate, and vital information to the City's first responders, (~~city~~) service providers, and the public, and to provide (~~civilian~~) non-police and community-based services and solutions to community safety challenges. The CARE Department's mission is to improve public health and safety services by unifying and aligning the City's community-focused, non-police public safety investments and services to address behavioral abuse, substance abuse, and non-emergent, low-risk calls for service through diversified programs that are equitable, innovative, evidence-based, compassionate, and effective. (~~A. Effective the earlier of June 1, 2021 or 30 days after the Executive receives the necessary Originating Agency Identifier (ORI) access permissions for the 9-1-1 call center, the~~) The functions of the (~~Community Safety and Communications Center~~) Community Assisted Response and Engagement Department are as follows:

~~(1-))~~ A. Act as the city's Primary Public Safety Answering Point (PSAP), providing 24-hour public safety communication and dispatch services for 9-1-1 calls (~~(originating)~~) regarding incidents in Seattle.

~~(a-))~~ 1. Identify, triage, and dispatch public safety service requests to first responders and other community resources most appropriate to quickly and safely respond and resolve the requested need.

~~(b-))~~ 2. Dispatch and provide continuous contact with responders, provide(~~s~~) support functions for responding agencies, and coordinate(~~s~~) responses between city departments and public safety agencies operating within Seattle.

~~(c-))~~ 3. Notify City departments, City leaders, and other stakeholders of emergency incidents.

~~(d-))~~ 4. Provide information and service referrals to non-emergency callers.

5. Provide diversified community-focused responses to 911 calls identified as behavioral health,

non-emergent, low-acuity, and low-risk.

6. Create a new initiative to integrate the City’s violence intervention programs, using research and evidence-based strategies to reduce violence, including identifying specific and measurable outcomes. This initiative will focus initially on: (a) gun violence prevention interventions; (b) community-based intervention programs, including violence interrupters; (c) youth-focused programs; and use evidence-based public safety strategies to measure program success and develop future solutions.

7. Improve public health and safety by unifying and aligning Seattle’s community-focused, non-police public safety investments.

~~((B. Effective June 1, 2021, the following function shall be added to the Community Safety and Communications Center:~~

~~1. Provide parking enforcement to assist in the administration of traffic laws, to the extent allowed by the commission of Parking Enforcement Officers as Special Police Officers and in coordination with the Seattle Police Department and the Seattle Department of Transportation.))~~

Section 2. Section 3.15.062 of the Seattle Municipal Code, enacted by Ordinance 126233, is amended as follows:

3.15.062 ~~((Director))~~ Chief of the ~~((Community Safety and Communications Center))~~ Community Assisted Response and Engagement Department

A. Appointment, term, and removal

The ~~((Director))~~ Chief of the ~~((Community Safety and Communications Center (CSCC))~~ Community Assisted Response and Engagement (CARE) Department shall be appointed by the Mayor and subject to confirmation by a majority vote of the City Council. The ~~((Director))~~ Chief shall be subject to reappointment and reconfirmation every four years and may be removed by the Mayor upon filing a statement of reasons therefor with the City Council.

B. Duties

The ~~((Director))~~ Chief of ~~((ESCC))~~ the CARE Department shall be the head of ~~((ESCC))~~ the CARE Department, shall be responsible for the administration of the ~~((ESCC))~~ CARE Department, and shall:

1. Develop and manage all functions and responsibilities of the ~~((ESCC))~~ CARE Department;
2. Subject to the City's personnel ordinances and rules, appoint, assign, supervise, control, and remove all officers and employees in the ~~((ESCC))~~ CARE Department;
3. Manage the preparation of the preliminary proposed budget for ~~((ESCC))~~ the CARE Department, authorize necessary expenditures and enter into contracts for professional and expert services in accordance with the adopted budget, develop and manage programs, and undertake authorized activities;
4. Administer all ordinances pertaining to the ~~((ESCC))~~ CARE Department and its functions;
5. Execute, administer, modify, and enforce such agreements and instruments as the ~~((Director))~~ Chief shall deem reasonably necessary to implement city service dispatching consistent with all applicable laws and ordinances, as the ~~((Director))~~ Chief shall deem appropriate for carrying out the responsibilities, functions, and activities of ~~((ESCC))~~ the CARE Department;
6. Apply for grants for departmental programs;
7. Coordinate with outside jurisdictions;
8. Serve, in conjunction with other pertinent members of the Mayor's Cabinet, as the City's representative to intergovernmental and public-private boards, commissions, organizations, and committees engaged in issues pertaining to emergency communications and city service dispatching;
9. Provide input to the Mayor and City Council on the city's emergency communications and recommend actions to better respond to calls for assistance from the public and to better communicate with the public about dangerous situations and natural disasters;
10. Make periodic reports to the Mayor and City Council concerning the activities of ~~((ESCC))~~ the CARE Department;
11. Promulgate and amend, in accordance with Chapter 3.02, rules and regulations to carry out ((

CSCC)) CARE Department activities;

12. Maintain city compliance with all national, state, and county laws, rules, certifications, etc., as necessary for the efficient and robust city service response for all members of the community; and

13. Exercise such other and further powers and duties as shall be prescribed by ordinance.

Section 3. The City Council requests that the Code Reviser, pursuant to the authority established by Seattle Municipal Code Section 1.03.030, revise the Seattle Municipal Code to replace references to “Community Safety and Communications Center” with “Community Assisted Response and Engagement Department” and “Director of the Community Safety and Communications Center” with “Chief of the Community Assisted Response and Engagement Department.”

Section 4. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
Mayor's Office		Ramandeep Kaur

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the organization of City government; renaming the Community Safety and Communications Center to the Community Assisted Response and Engagement Department; requesting that the Code Reviser revise the Seattle Municipal Code accordingly; and amending Sections 3.15.060 and 3.15.062 of the Seattle Municipal Code.

Summary and Background of the Legislation: This legislation renames the Community Safety and Communication Center (CSCC) to the Community Assisted Response and Engagement (CARE) Department and clarifies the duties of the department and Chief.

In 2021, the Community Safety and Communications Center (CSCC) was created, making it the new home of the City's 911 dispatch center. As the City continues its work to increase public safety response to be more community-focused and trauma-informed, CSCC will be renamed to the Community Assisted Response and Engagement (CARE) Department to better reflect the department's intended vision and purpose.

In 2023 a pilot program will begin in CARE, where the department will provide dual dispatch and/or diversified response to certain low-acuity 911 calls, including behavioral health and substance abuse calls.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No
Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No.

Are there financial costs or other impacts of *not* implementing the legislation?
No.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

This legislation changes the name and duties of a City Department.

b. Is a public hearing required for this legislation?

No.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

d. Does this legislation affect a piece of property?

No.

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

As the Community Safety and Communications Center (CSCC) transitions to being the new Community Assisted Response and Engagement (CARE) Department, the CARE's mission aligns with the City's RSJI goal of eliminating racial inequities in the community. This legislation and name change will work towards consolidating the City's response options to incidents when police officers are not needed. Through this department the City is building community-focused, trauma-informed approaches to low-acuity non-police public safety incidents. The CARE Department's mission is to improve public health and safety services by unifying and aligning the City's community-focused, non-police public safety investments and services to address behavioral, substance abuse, and non-emergent, low-risk calls for service through diversified programs that are equitable, innovative, evidence-based, compassionate, and effective. The stated goal of this department supports improving the City's response to residents in distress, working towards reducing incidents of entering criminal justice system, and creating more inclusive Seattle for all.

Language Access Plan:

CSCC/CARE works with external vendors to offer translation, interpretation, community outreach, and direct engagement with residents speaking languages other than English. The Department plans on continuing this work as it expands its mandate and engages with community members.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

No.

- 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle’s resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

No.

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program’s desired goal(s)?**

This legislation reflects a change in name and expansion of scope for the Community Assisted Response and Engagement (CARE) Department. The CARE Department’s mission is to improve public health and safety services by unifying and aligning the City’s community-focused, non-police public safety investments and services to address behavioral, substance abuse, and non-emergent, low-risk calls for service through diversified programs that are equitable, innovative, evidence-based, compassionate, and effective.

Amendment 1 to CB 120707 – CARE Department

Sponsor: Councilmember Mosqueda

Clarifying the role of Seattle – King County Public Health in City public health governance and retaining the department head’s current title

Effect: This amendment would amend references to the Community Assisted Response and Engagement (CARE) Department’s purview in the Seattle Municipal Code with respect to public health. It would make explicit that the City’s roles and responsibilities with respect to the development and implementation of public health policies are governed by an Interlocal Agreement with King County. The current version of that Interlocal Agreement, passed by the Council in 2011, is Ordinance 123668. The amendment would also retain the “Director” title for the head of the CARE Department.

~~Double strikethrough~~ indicates language removed by this amendment. Double underlines indicate language added by this amendment. Dashed underlines indicate Seattle Municipal Code text proposed for deletion in the Council Bill that this amendment would restore.

1. Amend Section 1 of CB 120707 as follows:

Section 1. Section 3.15.060 of the Seattle Municipal Code, enacted by Ordinance 126233, is amended as follows:

3.15.060 (~~Community Safety and Communications Center~~) Community Assisted Response and Engagement Department

There is created within the Executive Department a (~~Community Safety and Communications Center~~) Community Assisted Response and Engagement (CARE) Department to provide timely, accurate, and vital information to the City's first responders, (~~city~~) service providers, and the public, and to provide (~~civilian~~) non-police and community-based services and solutions to community safety challenges. The CARE Department’s mission is to improve ~~public~~ health and safety services by unifying and aligning the City’s community-focused, non-police public safety

investments and services to address behavioral abuse, substance abuse, and non-emergent, low-risk calls for service through diversified programs that are equitable, innovative, evidence-based, compassionate, and effective and that conform to any interlocal agreements in effect between The City of Seattle and King County regarding public health. ~~((A. Effective the earlier of June 1, 2021 or 30 days after the Executive receives the necessary Originating Agency Identifier (ORI) access permissions for the 9-1-1 call center, the))~~ The functions of the ~~((Community Safety and Communications Center))~~ Community Assisted Response and Engagement Department are as follows:

~~((1.))~~ A. Act as the city's Primary Public Safety Answering Point (PSAP), providing 24-hour public safety communication and dispatch services for 9-1-1 calls ~~((originating))~~ regarding incidents in Seattle.

~~((b.))~~ 1. Identify, triage, and dispatch public safety service requests to first responders and other community resources most appropriate to quickly and safely respond and resolve the requested need.

~~((b.))~~ 2. Dispatch and provide continuous contact with responders, provide ~~((s))~~ support functions for responding agencies, and coordinate ~~((s))~~ responses between city departments and public safety agencies operating within Seattle.

~~((c.))~~ 3. Notify City departments, City leaders, and other stakeholders of emergency incidents.

~~((d.))~~ 4. Provide information and service referrals to non-emergency callers.

5. Provide diversified community-focused responses to 911 calls identified as behavioral health, non-emergent, low-acuity, and low-risk.

6. Create a new initiative to integrate the City’s violence intervention programs, using research and evidence-based strategies to reduce violence, including identifying specific and measurable outcomes. This initiative will focus initially on: (a) gun violence prevention interventions; (b) community-based intervention programs, including violence interrupters; (c) youth-focused programs; and use evidence-based public safety strategies to measure program success and develop future solutions.

7. Improve ~~public~~ health and safety by unifying and aligning Seattle’s community-focused, non-police public safety investments.

2. Amend Section 2 of CB 120707 as follows:

Section 2. Section 3.15.062 of the Seattle Municipal Code, enacted by Ordinance 126233, is amended as follows:

3.15.062 ~~((Director)) Chief~~ of the ~~((Community Safety and Communications Center))~~

Community Assisted Response and Engagement Department

A. Appointment, term, and removal

The ~~((Director)) Chief~~ of the ~~((Community Safety and Communications Center (CSCC)))~~ Community Assisted Response and Engagement (CARE) Department shall be appointed by the Mayor and subject to confirmation by a majority vote of the City Council. The ~~((Director)) Chief~~ shall be subject to reappointment and reconfirmation every four years and may be removed by the Mayor upon filing a statement of reasons therefor with the City Council.

B. Duties

The ~~((Director)) Chief~~ of ~~((CSCC))~~ the CARE Department shall be the head of ~~((CSCC))~~ the CARE Department, shall be responsible for the administration of the ~~((CSCC))~~ CARE Department, and shall:

1. Develop and manage all functions and responsibilities of the ~~((CSCC))~~ CARE Department;

2. Subject to the City's personnel ordinances and rules, appoint, assign, supervise, control, and remove all officers and employees in the ~~((CSCC))~~ CARE Department;

3. Manage the preparation of the preliminary proposed budget for ~~((CSCC))~~ the CARE Department, authorize necessary expenditures and enter into contracts for professional and expert services in accordance with the adopted budget, develop and manage programs, and undertake authorized activities;

4. Administer all ordinances pertaining to the ~~((CSCC))~~ CARE Department and its functions;

5. Execute, administer, modify, and enforce such agreements and instruments as the ~~((Director)) Chief~~ shall deem reasonably necessary to implement city service dispatching consistent with all applicable laws and ordinances, as the ~~((Director)) Chief~~ shall deem appropriate for carrying out the responsibilities, functions, and activities of ~~((CSCC))~~ the CARE Department;

6. Apply for grants for departmental programs;

Total					(\$223,015,304)

Allocation modifications for the Seattle Department of Transportation in this section shall operate for the purposes of increasing or decreasing the base for the limit imposed by subsection 4(c) of Ordinance 126725.

Section 7. To pay for necessary capital costs and expenses incurred or to be incurred, but for which insufficient appropriations were made due to causes that could not reasonably have been foreseen at the time the 2023 Budget was adopted, appropriations in the 2023 Adopted Budget and project allocations in the 2023-2028 Adopted Capital Improvement Program are increased as follows:

Item	Department	Fund	Budget Summary Level/BCL Code	CIP Project Name/ID	CIP Project Appropriation Change
7.1	Seattle Department of Transportation	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Revive I-5 Project Support (MC-TR-C124)	\$550,000
7.2	Seattle Department of Transportation	School Safety Traffic and Pedestrian Improvement Fund (18500)	Mobility-Capital (18500-BC-TR-19003)	SPU Drainage Partnership - Broadview Pedestrian Improvements (MC-TR-C036)	\$615,000
7.3	Seattle Department of Transportation	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Freight Spot Improvement Program (MC-TR-C047)	\$37,500

7.4	Seattle Parks and Recreation	King County Parks Levy Fund (36000)	Fix It First (36000-BC-PR-40000)	Major Maintenance and Asset Management (MC-PR-41001)	\$1,000,000
7.5	Seattle Parks and Recreation	General Fund (00100)	Building For The Future (00100-BC-PR-20000)	Yesler Crescent Improvements (MC-PR-21012)	\$1,000,000
Total					\$3,202,500

Allocation modifications for the Seattle Department of Transportation in this section shall operate for the purposes of increasing or decreasing the base for the limit imposed by subsection 4(c) of Ordinance 126725.

Section 8. Appropriations in the 2023 Adopted Budget and project allocations in the 2023-2028 Adopted Capital Improvement Program, which are backed by revenues, are modified as follows:

Item	Department	Fund	Budget Summary Level/BCL Code	CIP Project Name/ID	CIP Project Appropriation Change
8.1	Seattle Department of Transportation	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	RapidRide J Line (MC-TR-C013)	\$1,753,000
8.2	Seattle Department of Transportation	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Georgetown to South Park Trail (MC-TR-C096)	\$1,523,000
8.3	Seattle Department of Transportation	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Pedestrian Master Plan - New Sidewalks (MC-TR-C058)	\$583,006
8.4	Seattle Department of Transportation	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Pedestrian Master Plan - School Safety (MC-TR-C059)	\$190,687
				SDOT ADA Program (MC-TR-C057)	\$107,932
				Neighborhood Traffic Control Program (MC-TR-C019)	\$18,000

				SPU Drainage Partnership - Broadview Pedestrian Improvements (MC-TR-C036)	\$93,977
				Neighborhood Large Projects (MC-TR-C018)	\$110,000
				Bike Master Plan - Greenways (MC-TR-C063)	\$163,153
8.5	Seattle Department of Transportation	Transportation Fund (13000)	Major Maintenance/Replacement (13000-BC-TR-19001)	Bridge Seismic - Phase III (MC-TR-C008)	\$1,662,503
8.6	Seattle Department of Transportation	Transportation Fund (13000)	Major Maintenance/Replacement (13000-BC-TR-19001)	Urban Forestry Capital Establishment (MC-TR-C050)	\$25,889
8.7	Seattle Department of Transportation	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Urban Design Capital Projects (MC-TR-C120)	\$1,421,221
8.8	Seattle Parks and Recreation	Park And Recreation Fund (10200)	Fix It First (10200-BC-PR-40000)	Major Maintenance and Asset Management (MC-PR-41001)	\$1,200,000
Total					\$8,852,368

Allocation modifications for the Seattle Department of Transportation in this section shall operate for the purposes of increasing or decreasing the base for the limit imposed by subsection 4(c) of Ordinance 126725.

Section 9. Appropriations in the 2023 Adopted Budget and project allocations in the 2023-2028 Adopted

Capital Improvement Program are modified as follows:

Item	Department	Fund	Budget Summary Level/BCL Code	CIP Project Name/ID	CIP Project Appropriation Change
------	------------	------	-------------------------------	---------------------	----------------------------------

9.1	Department of Finance and Administrative Services	2023 Multipurpose LTGO Bond Fund (37100)	General Government Facilities - General (37100-BC-FA-GOVTFAC)	Waterfront Operations and Tribal Interpretive Center (MC-FA-OWMAINT)	\$13,000,000
		2023 LTGO Taxable Bond Fund (37110)	General Government Facilities - General (37110-BC-FA-GOVTFAC)	Waterfront Operations and Tribal Interpretive Center (MC-FA-OWMAINT)	(\$13,000,000)
9.2	Department of Finance and Administrative Services	REET I Capital Fund (30010)	General Government Facilities - General (30010-BC-FA-GOVTFAC)	ADA Improvements - Citywide (MC-FA-ADAIMPCTY)	(\$500,000)
			ADA Improvements (30010-BC-FA-ADAIMPR)	ADA Improvements - FAS (MC-FA-ADAIMPFAS)	\$500,000
9.3	Seattle City Light	Light Fund (41000)	Transmission and Distribution - CIP (41000-BC-CL-Y)	Transmission Inter-Agency (MC-CL-YT7105)	(\$500,000)
				Denny Substation - Network (MC-CL-YN8404)	(\$1,000,000)
				Transmission Reliability (MC-CL-YT7104)	(\$500,000)
				Broad Street Substation - Network (MC-CL-YN8203)	\$3,000,000
				Overhead Equipment Replacements (MC-CL-YR8351)	(\$1,000,000)
9.4	Seattle City Light	Light Fund (41000)	Transmission and Distribution - CIP (41000-BC-CL-Y)	Underground 26kV Conversion (MC-CL-YR8362)	(\$1,000,000)

				Overhead Customer Driven Capacity Additions (MC-CL-YR8355)	\$1,000,000
9.5	Seattle City Light	Light Fund (41000)	Customer Focused - CIP (41000-BC-CL-Z)	Network Additions and Services: Broad Street Substation (MC-CL-ZS8363)	(\$2,000,000)
				Small Overhead and Underground Services (MC-CL-ZS8367)	\$2,000,000
9.6	Seattle City Light	Light Fund (41000)	Customer Focused - CIP (41000-BC-CL-Z)	Large Overhead and Underground Services (MC-CL-ZS8365)	(\$1,000,000)
				Major Emergency (MC-CL-ZS8380)	\$2,000,000
				Network Additions and Services - Denny (MC-CL-ZS8405)	(\$1,000,000)
9.7	Seattle City Light	Light Fund (41000)	Transmission and Distribution - CIP (41000-BC-CL-Y)	Substation Capacity Additions (MC-CL-YS7751)	(\$500,000)
				Relaying Improvements (MC-CL-YS7753)	\$500,000
9.8	Seattle City Light	Light Fund (41000)	Power Supply - CIP (41000-BC-CL-X)	Boundary Powerhouse - Unit 52 Generator Rebuild (MC-CL-XB6535)	(\$3,100,000)
				Boundary Powerhouse - Unit 51 Generator Rebuild (MC-CL-XB6351)	\$3,100,000

9.9	Seattle City Light	Light Fund (41000)	Power Supply - CIP (41000-BC-CL-X)	Boundary Powerhouse - Unit 52 Generator Rebuild (MC-CL-XB6535)	(\$4,300,000)
				Boundary Powerhouse - Unit 54 Generator Rebuild (MC-CL-XB6353)	\$4,300,000
9.10	Seattle City Light	Light Fund (41000)	Power Supply - CIP (41000-BC-CL-X)	Landis and Gyr RTU Modernization Boundary, Cedar Falls and Skagit (MC-CL-XB6565)	\$500,000
				Cedar Falls/South Fork Tolt - Minor Improvements Program (MC-CL-XC6406)	(\$500,000)
9.11	Seattle City Light	Light Fund (41000)	Power Supply - CIP (41000-BC-CL-X)	Boundary Powerhouse Generator Step-up Transformer Replacement (MC-CL-XB6493)	(\$500,000)
				Cedar Falls Powerhouse - Unit 5/6 Generator Protective Relay (MC-CL-XC6450)	\$1,200,000
				Boundary Facility - Minor Improvements Program (MC-CL-XB6401)	(\$700,000)
9.12	Seattle City Light	Light Fund (41000)	Power Supply - CIP (41000-BC-CL-X)	Cedar Falls Substation & Bank 6 Replacement (MC-CL-XC6573)	\$4,000,000

				Boundary Powerhouse Generator Step-up Transformer Replacement (MC-CL-XB6493)	(\$4,000,000)
9.13	Seattle City Light	Light Fund (41000)	Power Supply - CIP (41000-BC-CL-X)	Skagit - Boat Facility Improvements (MC-CL-XS6540)	\$1,000,000
				Gorge Crane Rehabilitation (MC-CL-XS6639)	(\$1,000,000)
9.14	Seattle City Light	Light Fund (41000)	Customer Focused - CIP (41000-BC-CL-Z)	Overhead and Underground Relocations (MC-CL-ZT8369)	(\$4,000,000)
			Power Supply - CIP (41000-BC-CL-X)	Ross - Exciters 41-44 (MC-CL-XS6564)	(\$1,400,000)
				Boundary Station Service Transformer Replacement (MC-CL-XB6627)	(\$2,200,000)
				Skagit Facility - Minor Improvements Program (MC-CL-XS6405)	\$9,200,000
			Transmission and Distribution - CIP (41000-BC-CL-Y)	University of Washington Capacity Additions (MC-CL-YR8466)	(\$1,600,000)
9.15	Seattle City Light	Light Fund (41000)	Transmission and Distribution - CIP (41000-BC-CL-Y)	Enterprise Software Solution Replacement Strategy (MC-CL-YD9969)	(\$1,200,000)

				LRDS Editor Upgrade (MC-CL-YD9977)	\$1,200,000
9.16	Seattle City Light	Light Fund (41000)	Customer Focused - CIP (41000-BC-CL-Z)	Network Additions and Services: First Hill, Massachusetts, Union & University (MC-CL-ZS8364)	(\$500,000)
				Transportation Streetlights (MC-CL-ZL8377)	(\$500,000)
				Streetlights: Arterial, Residential and Floodlights (MC-CL-ZL8378)	\$3,000,000
			Transmission and Distribution - CIP (41000-BC-CL-Y)	Pole Attachments (MC-CL-YR8452)	(\$2,000,000)

Total					\$0

Allocation modifications for the Seattle Department of Transportation, Seattle City Light, and Seattle Public Utilities in this section shall operate for the purposes of increasing or decreasing the base for the limit imposed by subsection 4(c) of Ordinance 126725.

Section 10. The following positions are created in the following departments:

Item	Department	Position Title	Position Status	Number
10.1	Human Services Department	Grants&Contracts Spec,Sr (@ 99050 - 034)	Full-Time	1.0
		Plng&Dev Spec,Sr (@ 96679 - 030)	Full-Time	1.0
		Social Svcs Aide (@ 97488 - 004)	Full-Time	2.0
Total				4.0

The Director of the Human Services Department is authorized to fill these positions subject to Seattle Municipal Code Title 4, the City’s Personnel Rules, and applicable employment laws.

Section 11. Any act consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 12. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this ____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

Scheereen Dedman, City Clerk

(Seal)

Revive I-5 Project Support

Project No:	MC-TR-C124	BSL Code:	BC-TR-19002
Project Type:	Discrete	BSL Name:	Major Projects
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Citywide
Start/End Date:	2023 - 2032	Neighborhood District:	Multiple
Total Project Cost:	\$5,500	Urban Village:	Multiple

"Revive I-5 Preserving a Vital Freeway" is a State of Washington project where dozens of preservation projects are planned to revive Interstate 5 in King and Snohomish counties. The State's Revive I-5 projects will include pavement repair and full replacement, expansion joints, and seismic work to strengthen bridges against earthquakes. The City of Seattle will support the State's efforts by installing transit priority measures and other operational improvements on City streets, that may include dedicated bus priority lanes, new signal improvements and communication systems. The City will also support this effort with commute trip reduction programs, real-time support for signal timing changes, transportation operations monitoring, and communication of real-time traffic conditions and incident response.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
City Budget Office	Caleb Wagenaar	Caleb Wagenaar

* Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.

1. BILL SUMMARY

Legislation Title: AN ORDINANCE amending Ordinance 126725, which adopted the 2023 Budget, including the 2023-2028 Capital Improvement Program (CIP); changing appropriations to various departments and budget control levels, and from various funds in the Budget; revising project allocations for certain projects in the 2023-2028 CIP; creating CIP Projects; creating positions; and ratifying and confirming certain prior acts; all by a 3/4 vote of the City Council.

Summary and background of the Legislation: This ordinance proposes several adjustments to the 2023 Adopted Budget.

The City Budget Office compiles departmental requests for spending adjustments to the Adopted Budget into a Supplemental Ordinance for review and approval by the City Council. These bills accomplish the following:

- Adjust appropriation authority to Budget Control Levels approved in the Adopted Budget or subsequent legislation;
- Appropriate funding backed by new revenue sources;
- Adjust the Adopted Capital Improvement Program;
- Make changes to departments position authority; and

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? X Yes No

Note: Please see Attachment A to this document.

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? X Yes No

Appropriation change (\$):	General Fund \$		Other \$	
	Operating 2023	Capital 2023	Operating 2023	Capital 2023
	\$16,492,883	\$374,902	\$284,767,639	(\$211,335,338)
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	Operating 2023	Capital 2023	Operating 2023	Capital 2023
	\$4,991,145	\$0	\$24,369,328	(\$121,491,621)

Positions affected:	No. of Positions		Total FTE Change	
	2023	2024	2023	2024
	7.0		7.0	

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

Yes, some items in this ordinance represent costs increases to departments in order for them to accomplish the desired objectives as stated in Attachment A to this document.

Is there financial cost or other impacts of *not* implementing the legislation?

The same objectives could not be achieved without this legislation.

3.a. Appropriations

This legislation adds, changes, or deletes appropriations.

Appropriation Notes: See Attachment A to this document.

3.b. Revenues/Reimbursements

This legislation adds, changes, or deletes revenues or reimbursements.

Revenue/Reimbursement Notes: See Attachment A to this document.

3.c. Positions

This legislation adds, changes, or deletes positions.

Total Regular Positions Created, Modified, or Abrogated through This Legislation, Including FTE Impact:

Position Notes: See Attachment A to this document.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
 Yes, this legislation impacts a number of departments' 2023 budgets.
- b. **Is a public hearing required for this legislation?**
 No.
- c. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
 No.

d. Does this legislation affect a piece of property?

No.

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

Please see Attachment A to this document for any RSJI implications.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

Please see Attachment A to this document.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

Please see Attachment A to this document.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

Please see Attachment A to this document.

List attachments/exhibits below:

Summary Attachment A – 2023 Year End Supplemental Ordinance Summary Detail Table

2023 Year End Supplemental Ordinance Summary Detail Table

Item #	Title	Description	Amount/FTE
Section 1 – Appropriation Decreases – Operating Budgets			
1.1	Abandon Facilities' Unused Coronavirus Local Fiscal Recovery (CLFR) Appropriation (Department of Finance and Administrative Services)	This item decreases appropriation authority by \$146,372 in the Finance and Administrative Services Department in the Coronavirus Local Fiscal Recovery Fund Facilities Services Budget Control Level (14000-BO-FA-FACILITY). This item abandons excess CLFR appropriation intended to update City facilities in response to the COVID pandemic. Facilities has completed the updates and does not require the remaining appropriation.	(\$146,372)
1.2	Transfer and Abandon Budget from Paid Parental Leave Reserve (Finance General)	This item decreases appropriation in Finance General's General Purpose Budget Summary Level (00100-BO-FG-2QD00) by \$2,481,751, eliminating the Paid Parental Leave Reserve in 2023. Of this total, \$33,475 will be appropriated in department budgets and \$2,448,276 will be abandoned as it's no longer needed.	(\$2,481,751)
1.3	Abandon General Fund (Finance General)	This item decreases appropriation authority in Finance General's Appropriation to Special Funds Budget Summary Level (00100-BO-FG-2QD00) by \$1,327,214 and in the General Purpose Budget Summary Level (00100-BO-FG-2QA00) by \$320,419. This includes abandoning \$990,626 for repayment of an interfund loan (authorized by Ordinance 126407) that expired at the end of 2022 and for which there are no remaining liabilities; \$336,588 to true-up FG's debt service budget to actual costs in 2023; and \$320,419 to eliminate the balance in the Alt-911 reserve, as funds are now budgeted in CSCC.	(\$1,647,633)

Item #	Title	Description	Amount/FTE
1.4	CLFR Appropriation Abandonment (Human Services Department)	This item decreases appropriation authority in the Human Services Department by \$3,344,457 in the CLFR Fund Supporting Affordability & Livability Budget Control Level (14000-BO-HS-H1000), \$53,460 in the CLFR Fund Preparing Youth for Success Budget Control Level (14000-BO-HS-H2000), and \$120,376 in the CLFR Fund Promoting Public Health BSL. The programs funded by this CLFR-backed budget have ended and the appropriation is no longer needed.	(\$3,518,293)
1.5	Schedule 3 Lease Budget Adjustment (Human Services Department)	This item decreases appropriation authority by \$96,481 within the Human Services Department; \$34,184 of General Fund in the Preparing Youth for Success Budget Control Level, \$34,184 of General Fund in the Supporting Affordability and Livability Budget Control Level, and \$29,300 of Human Services Fund in the Promoting Healthy Aging Budget Control Level. This item technically corrects the appropriation for Schedule 3 lease costs charges by Finance and Administrative Services. The Schedule 3 lease estimates published inside the 2023 Central Cost Manual referenced incorrect amounts. Therefore, this item corrects the needed appropriation for the actual lease cost to the department.	(\$97,667)
1.6	KC Metro Grant Abandonment (Seattle City Light)	This item decreases grant-backed appropriation authority by \$500,000 in Seattle City Light, in the Light Fund, Utility Operations Budget Control Level (41000-BO-CL-UTILOPS). King County Metro does not have a site that can be studied as required for the grant.	(\$500,000)

Item #	Title	Description	Amount/FTE
1.7	SSTPI Reduction - Operating (Seattle Department of Transportation)	This item decreases appropriation authority by \$250,000 in the Seattle Department of Transportation in the School Safety Traffic and Pedestrian Improvement Fund Mobility Operations Budget Control Level (18500-BC-TR-17003). This reduction is necessary to align expenditures from the School Safety and Pedestrian Improvement Fund with the revised revenues forecasted in April 2023, and to reflect the lower-than-expected revenues in 2022. There is a related item that reduces the Capital Improvement Program to support bringing the Fund into balance.	(\$250,000)
1.8	Debt Service Budget Adjustment (Seattle Department of Transportation)	This item decreases appropriation authority by \$190,212 in Seattle Department of Transportation in the Transportation Fund General Expense Budget Control Level (13000-BO-TR-18002). This request is necessary to align the budget with the debt service schedule as 2023 bond issuances are now complete, and actual interest payments due in 2023 are lower than originally estimated.	(\$190,212)
1.9	Transfer Construction Wayfinding Grant Funds to Capital Master Project (Seattle Department of Transportation)	This item decreases appropriation authority by \$1,421,221 in the Seattle Department of Transportation, Transportation Fund Mobility Operations Budget Control Level (13000-BO-TR-17003) to transfer grant funding for Wayfinding construction costs to Transportation Fund Mobility Capital Budget Control Level (13000-BC-TR-19003). This transfer is completed in the companion budget change request SDOT-C36, which requests an increase to appropriation authority of \$1,421,221.	(\$1,421,221)
1.10	CLFR Abandonment (Seattle Parks and Recreation)	This item abandons appropriation authority by \$121,305 in the Seattle Parks and Recreation Department in the Coronavirus Local Fiscal Recovery Fund Leadership and Administration Budget Control Level (14000- BO-PR-20000). The program is complete and the funding is no longer needed.	(\$121,305)

Item #	Title	Description	Amount/FTE
1.11	City Hall Park/Yesler Crescent Improvement Transfer To Capital (Seattle Parks and Recreation)	This item abandons appropriation authority by \$1,000,000 in the Seattle Parks and Recreation Department in the General Fund Leadership and Administration Budget Control Level (00100- BO-PR-20000). This funding is being transferred to the City Hall Park Improvements Capital Project (MC-PR-21012) in a related Capital Supplemental item and necessary to align funding to create safe outdoor space in the City's downtown core where capital improvements may be anticipated. The net effect is a budget neutral transfer.	(\$1,000,000)
1.12	Carryforward Waterfront Abandonment (Seattle Parks and Recreation)	This item abandons appropriation authority by \$700,000 in the Seattle Parks and Recreation Department in the Seattle Park District Fund Leadership and Administration Budget Control Level (19710-BO-PR-20000) and a separate item in the 2024 mid-biennium update reappropriates it in the Seattle Center in the Seattle Park District Fund Waterfront Budget Control Level (19710-BO-SC-91000). This abandonment provides resources to cover anticipated expenses for maintenance of Waterfront Park including Pier 63 and additional park and open space elements of the development project currently underway as part of the transition of ongoing maintenance to Seattle Center. Seattle Center is appropriating these same funds in a separate item within the 2024 mid-biennium update and will use to cover maintenance costs referred to above that are beyond the resources included in the 2024 Adopted Budget, in line with an agreement between SRP, Seattle Center, and Office of the Waterfront and Civic Projects.	(\$700,000)

Item #	Title	Description	Amount/FTE
1.13	Grant Abandonments (Seattle Police Department)	<p>This action decreases appropriation authority in various BSLs by \$246,615. The following appropriations are abandoned from various BSLs associated with grant awards:</p> <p>(1) -\$14,827.10 from the Leadership and Administration BSL for the FY20 Impaired Driving Training Grant awarded by Washington Traffic Safety Commission.</p> <p>(2) -\$23,077.64 from the Leadership and Administration BSL for the FY21 Impaired Driving Training Grant awarded by Washington Traffic Safety Commission.</p> <p>(3) -\$4,666.84 from the Leadership and Administration BSL for the FY18 Justice Assistance Grant awarded by Department of Justice.</p> <p>(4) -\$11,667.30 from the Special Operations BSL for the FY19 Port Security Grant Program awarded by U.S. Department of Homeland Security.</p> <p>(5) -\$22,316.29 from the Criminal Investigations BSL for the FY18 Human Trafficking Grant awarded by Department of Justice.</p> <p>(6) -\$83,586.65 from the Criminal Investigations BSL for the FY20 Sexual Assault Grant awarded by Washington Association of Sheriffs and Police Chiefs.</p> <p>(7) -\$86,473.20 from the Criminal Investigations BSL for the FY20 Sexual Assault Grant awarded by U.S. Department of Homeland Security.</p> <p>All grant terms are completed.</p>	(\$246,615)
1.14	Appropriation Decrease-FEMA PDM Grant-Hiawatha CC Seismic (Office of Emergency Management)	<p>Correct Q2 appropriation (decrease) for FEMA-PDM Grant for SPR Hiawatha CC Seismic Retrofit (Council Bill 120617). This updates the amount of federal funds for FEMA reimbursement of OEM Subrecipient Management Costs by \$5,470.70, from \$21,864.64 to \$16,394.14. The reduced amount represents additional OEM match, to be met by OEM general funds.</p>	(\$5,471)

Item #	Title	Description	Amount/FTE
1.15	Regional Catastrophic Planning Grant (RCPG) Amount Correction (Office of Emergency Management)	This item reduces \$111,111 the amount of appropriated grant funding in Ordinance 126791. This reduction in grant funding represents matching funding being provided by the Seattle Office of Emergency Management through their General Budget. OEM match will primarily be comprised of OEM staff labor towards the project.	(\$111,111)
1.16	Removing Oil Heating Tax Appropriation (Office of Sustainability and Environment)	This item reduces General Fund appropriation authority in the Office of Sustainability and Environment, Sustainability and Environment Budget Control Level (BO-SE-X1000) by \$595,357. This is to account for the repeal of the Heating Oil Tax. Revenue from this tax source was never realized and has been removed from projected 2023 revenues. This action aligns appropriation authority with revenue expectations.	(\$595,357)
1.17	Reduce the Jump Start Fund Transfer to General Fund (Finance General)	This item decreases appropriation authority by \$4,674,491 of Payroll Expense Tax in Finance General in the Appropriation to Special Funds Budget Control Level (14500-BO-FG-2QA00). The Mayor's Office and the City Council agreed to reduce the amount of Jump Start Payroll Expense Tax fund supporting General Fund spending in for the 2023 Adopted Budget.	(\$4,674,491)
1.18	Reduce Proposed Increase for Insurance Premiums from \$1.5M to \$1.309M in FG (Finance General)	This item decreases appropriation authority in Finance General's Appropriation to Special Funds Budget Control Level (00100-BO-2QD00) by \$191,000 related to insurance renewal premium costs. The City Council passed an amendment to the Midyear Supplemental Budget Ordinance to reduce that appropriation by \$191,000 but it was inadvertently omitted from the legislative text before final passage. This item finalizes the action as Council had originally intended.	(\$191,000)

Item #	Title	Description	Amount/FTE
Section 2 – Appropriation Increases – Operating Budgets			
2.1	Increase Facilities Appropriation (Department of Finance and Administrative Services)	This item increases appropriation authority by \$2,000,000 in Finance and Administrative Services, in the Finance and Administrative Services Fund Facilities Services Budget Control Level (50300-BO-FA-FACILITY). This is necessary to pay for increased expenses due to backfill of vacancies, inflation, and higher than anticipated costs due to lack of competition for small maintenance/construction projects. This item is not revenue backed and will be funded by the Finance and Administrative Services Fund balance.	\$2,000,000
2.2	Fleet Replacement Appropriation Increase (Department of Finance and Administrative Services)	This item increases appropriation authority by \$13,845,000 in the Finance and Administrative Services Department in the Fleet Capital Fund and in the Fleet Capital Program Budget Control Level (50321-BO-FA-FLEETCAP). This item is necessary to allow the Fleet Capital program to continue to pay for vehicle replacements. Inflation, new adds, and unexpected replacements have increased the appropriation required to purchase and encumber all vehicles in 2023. This item will allow the Fleet Capital program to meet the needs of customer Departments.	\$13,845,000
2.3	Fleet Replacement Appropriation for Advanced Order of Fire Apparatus (Department of Finance and Administrative Services)	This item increases appropriation authority by \$18,606,000 in Finance and Administrative Services, in the Fleet Capital Fund Fleet Capital Program Budget Control Level (50321-BO-FA-FLEETCAP). This item is necessary to provide the Fleet Replacement program with sufficient appropriation to encumber funds for the replacement of Fire Apparatus that, due to long lead times, will not be delivered until at least 2027.	\$18,606,000

Item #	Title	Description	Amount/FTE
2.4	Budget System Appropriation Increase (Department of Finance and Administrative Services)	This item increases appropriation in the Finance and Administrative Services Department by \$400,000 in the Finance and Administrative Services Fund Leadership and Administration Budget Control Level (50300-BO-FA-BUDCENTR). The FAS budget system implementation is projecting an increased project cost due to timing of the project structure approval. The additional costs will be paid for with Finance and Administrative Services fund balance.	\$400,000
2.5	Appropriation Increase for Wheelchair Accessible Services (Department of Finance and Administrative Services)	This item increases appropriation in the Finance and Administrative Services Department by \$350,000 in the Wheelchair Accessible Services Fund Wheelchair Accessible Services Budget Control Level (12100-BO-FA-WHLCHR). The Wheelchair Accessible Services Fund is used to reimburse wheelchair accessible taxi owners and operators for the additional expenses they accrue by offering ADA accessible transportation for wheelchair users. Demand has increased for wheelchair accessible transportation this year, so reimbursement requests have increased.	\$350,000
2.6	Cash Transfer SSTPI Fund Correction (Finance General)	This item increases appropriation in Finance General (00100-BO-FG-2QA00) to pay for a cash transfer of \$1,500,000 to the School Safety, Traffic and Pedestrian Improvement Fund (18500). This transfer will correct a 2023 error in which revenues were not deposited in the fund.	\$1,500,000

Item #	Title	Description	Amount/FTE
2.7	Transfer CLFR Funds to GF to Support Firefighter/EMS Labor Costs (Finance General)	This item increases appropriation authority in Finance General (14000-BO-FG-2QA00) by \$146,372 to transfer CLFR funding to the GF. This supports SFD firefighter/EMS labor costs, along with the existing CLFR revenue replacement program supporting SFD firefighter/EMS labor in 2023. The funding is from Q3 CLFR abandonments in the Seattle Finance and Administrative Services Department. The Support Facility Safety program funded by this CLFR-backed budget has ended and the appropriation is no longer needed.	\$146,372
2.8	Transfer CLFR Funds to GF to Support Firefighter/EMS Labor Costs (Finance General)	This item increases appropriation authority in Finance General (14000-BO-FG-2QA00) by \$3,518,293 to transfer CLFR funding to the GF. This supports SFD firefighter/EMS labor costs, along with the existing CLFR revenue replacement program supporting SFD firefighter/EMS labor in 2023. The funding is from Q3 CLFR abandonments in HSD, the programs funded by this CLFR-backed budget have ended and the appropriation is no longer needed.	\$3,518,293
2.9	Transfer CLFR Funds to GF to Support Firefighter/EMS Labor Costs (Finance General)	This item increases appropriation authority in Finance General (14000-BO-FG-2QA00) by \$121,305 to transfer CLFR funding to the GF. This supports SFD firefighter/EMS labor costs, along with the existing CLFR revenue replacement program supporting SFD firefighter/EMS labor in 2023. The funding is from Q3 CLFR abandonments in the Seattle Parks and Recreation Department. The Expanded Parks Activation program funded by this CLFR-backed budget has ended and the appropriation is no longer needed.	\$121,305

Item #	Title	Description	Amount/FTE
2.10	Childcare Bonus Appropriation (Human Services Department)	This item increases appropriation authority by \$2,334,107 in the Human Services Department in the Human Services Fund Supporting Affordability & Livability Budget Control Level (16200-BO-HS-H1000). This appropriation will provide funding for the construction of Childcare facilities in Seattle using Childcare Bonus Funds revenue collected in prior years.	\$2,334,107
2.11	Leadership Transition Costs (Office of Arts and Culture)	This item increases appropriation authority by \$83,325 in the Office of Arts & Culture in the Arts & Culture Fund Leadership & Administration Budget Summary Level (12400-BO-AR-VA150) and Municipal Arts Fund Leadership & Administration Budget Summary Level (12010-BO-AR-VA150). This request is to pay one-time costs incurred this year within this BSL related with the transition of leadership between the outgoing interim director and the new interim director. Costs related to this transition include executive recruiting costs, relocation costs, and leave payout.	\$83,325
2.12	Backfill for Family Medical Leave (Office of Arts and Culture)	This item increases appropriation authority by \$116,800 in the Office of Arts & Culture in the Arts & Culture Fund Leadership & Administration Budget Summary Level (12400-BO-AR-VA150). This request is necessary to pay one-time costs incurred this year within this BSL related with the need to backfill for two positions whose permanent employees were on family medical leave.	\$116,800
2.13	Capital Authority Adjustments)	This item increases appropriation authority by \$53,840,755 in the Office of Housing in the Low Income Housing Fund Multifamily Housing Budget Control Level (16400-BO-HU-3000)As authorized in the Levy Administrative and Financial Plan, this request aligns budget authority with actual expenditures in 2023.	\$53,840,755

Item #	Title	Description	Amount/FTE
2.14	Short-Term Rental Tax for EDI Grants (Office of Planning and Community Development)	This item increases appropriation authority by \$820,000 in the Short-Term Rental Tax Fund Equitable Development Initiative BSL (12200-BO-PC-X2P40) to replace Community Development Block Grant funding that was redirected through standalone legislation for a future opioid treatment facilities RFP. When this item is combined with the stand-alone legislation, this is a net neutral budget item. The August 2023 revenue forecast projects higher Short-Term Rental Tax (STRT) revenues than were projected when the 2023 Adopted Budget was developed.	\$820,000
2.15	Paid Parental and Family Leave Backfill (Seattle Center)	This item increases appropriation authority by \$18,537 in Seattle Center, in the General Fund Campus BSL (00100-BO-SC-60000). It is necessary to pay backfill costs for staff members who have utilized either Paid Parental Leave or Paid Family Care Leave. Seattle Center has utilized a mix of overtime and intermittent staffing to backfill only certain positions.	\$18,537
2.16	McCaw Hall Inflationary Increase (Seattle Center)	This item increases appropriation authority by \$41,613 in Seattle Center, in the General Fund McCaw Hall Budget Control Level (00100-BO-SC-65000). This request is necessary per the contractual agreement to increase General Fund by CPI.	\$41,613
2.17	Short-Term Purchased Power, Additional Purchase Authority (Seattle City Light)	This item increases appropriation authority by \$150.0 million in the BO-CL-PWRSUPPLY BSL. Due to a variety of factors including dry conditions, larger than expected load particularly during extreme weather conditions and high market prices for energy, City Light will spend more on short-term power purchases than originally anticipated. The final expenditure is not known and will depend on hydro conditions, energy prices and retail demand for the remainder of the year. This increase is significant but is meant to be a conservative estimate that provides adequate appropriation authority for a worst-case scenario.	\$150,000,000

Item #	Title	Description	Amount/FTE
2.18	Taxes Due on Higher Retail Sales (Seattle City Light)	This request increases appropriation authority in the BO-CL-Taxes BSL in the City Light Fund (41000) by \$10,464,270 due to higher-than-expected taxes due at the City and State levels. This is a result of higher than forecast retail revenues coming in primarily due to the cold winter.	\$10,464,270
2.19	Increase Debt Service Budgets to Match Revised Payment Schedules (Seattle Department of Transportation)	This item increases appropriation authority by \$3,151 in Seattle Department of Transportation in the Transportation Fund General Expense Budget Control Level (13000-BO-TR-18002). This item increases appropriation authority by \$446 in Seattle Department of Transportation in the REET II Capital Fund General Expense Budget Control Level (30020-BO-TR-18002). This request is necessary to pay debt service obligations, which increased since the submission of the 2023 budget.	\$3,597
2.20	Pothole Repair (Seattle Department of Transportation)	This item increases budget authority by \$1,300,000 in the Seattle Department of Transportation in the Transportation Benefit District Fund Maintenance Operations Budget Control Level (19900-BO-TR-17005) to provide additional resources for the City's pothole repair efforts in the right-of-way. The funding source is the \$20 vehicle license fee established in Ordinance 126234.	\$1,300,000
2.21	Increase STBD Funding to Streetcar Ops (Seattle Department of Transportation)	This item increases appropriation authority by \$5,000,000 in the Transportation Benefit District Fund General Expense Budget Control Level (19000-BO-TR-18002) to pay for First Hill and South Lake Union streetcar operations, replacing \$5,000,000 of Commercial Parking Tax in the Transportation Fund (13000). Please see item 4.2 for the application of Commercial Parking Tax as a result of this change. Seattle Transit Measure fund balance is available to support streetcar operations.	\$5,000,000

Item #	Title	Description	Amount/FTE
2.22	Increase Budget for Leadership and Administration (Seattle Department of Transportation)	This item increases appropriation authority by \$13,000,000 in the Seattle Department of Transportation, in the Transportation Fund Leadership and Administration Budget Control Level (13000-BO-TR-18001) to pay for costs associated with leadership and administration.	\$13,000,000
2.23	Utilities and Fuel (Seattle Fire Department)	This item increases appropriation authority by \$388,648 in Seattle Fire Department in the General Fund Operations Budget Control Level (00100-BO-FD-F3000) This request is necessary to fund increased utilities costs that were above the baseline allocation amount. This item also increases appropriation authority by \$449,537 in Seattle Fire Department in the General Fund Leadership and Administration Budget Control Level (00100-BO-FD-F1000). This request is necessary to fund increased fleet fuel costs that were above the baseline allocation amount.	\$838,185
2.24	Worker's Compensation (Seattle Fire Department)	This item increases appropriation authority by \$1,250,639 in Seattle Fire Department in the General Fund Operations Budget Control Level (00100-BO-FD-F3000). This request is necessary to fund workers' compensation claims and labor costs that were above the baseline allocation amount.	\$1,250,639
2.25	Retirement Cash Outs (Seattle Fire Department)	This item increases appropriation authority by \$1,138,092 in Seattle Fire Department in the General Fund Operations Budget Control Level (00100-BO-FD-F3000). This request is necessary to fund retirement cash outs of vacation, merit and sick leave that were above the baseline allocation amount.	\$1,138,092

Item #	Title	Description	Amount/FTE
2.26	Unrealized OT Savings for Unit Outages (Seattle Fire Department)	This item increases appropriation authority by \$1,720,000 in Seattle Fire Department, in the General Fund Operations Budget Control Level (00100-BO-FD-F3000). This request is necessary to restore the overtime budget that was reduced in anticipation of having unit outages that would avoid overtime expenditures. It is projected that the Department will avoid \$780,000 in overtime and not the \$2.5 million forecasted in the Adopted Budget. The Department is experiencing the overtime backfill to maintain minimum staffing levels and therefore will need the spending authority.	\$1,720,000
2.27	Overtime/backfill increase (Seattle Fire Department)	This item increases appropriation authority by \$502,254 in Seattle Fire Department in the General Fund Operations Budget Control Level (00100-BO-FD-F3000). This request is necessary to fund overtime backfill due to increased leave utilization (sick, disability, vacation other outs) that were above the baseline allocation amount.	\$502,254
2.28	FAS Schedule 3 Lease and Vehicle Maintenance (Seattle Fire Department)	<p>This item increases appropriation authority by \$170,000 in Seattle Fire Department in the General Fund Operations Budget Control Level (00100-BO-FD-F3000). This item provides appropriation needed to technically correct for Schedule 3 lease costs charge by Finance and Administrative Services. The Schedule 3 lease estimates published inside the 2023 Central Cost Manual referenced incorrect amounts. Therefore, this item corrects the needed appropriation to cover the actual lease cost to the department.</p> <p>This item also increases appropriation authority by \$225,000 in Seattle Fire Department in the General Fund Leadership and Administration Budget Control Level (00100-BO-FD-F1000). This request is necessary to fund increased vehicle maintenance costs that were above the 2023 Central Cost Manual amount.</p>	\$395,000

Item #	Title	Description	Amount/FTE
2.29	Backup & Recovery Commvault Cost Increase (Seattle Information Technology Department)	This item increases appropriation authority by \$1,235,000 in Seattle IT in the Technology Infrastructure BSL (50410-BO-IT-D0300). This item is necessary to cover Commvault maintenance and support for 2023 which was inadvertently left out of the 2023 budget. This item supports critical services and applications across all departments.	\$1,235,000
2.30	Schedule 3 Lease Costs Correction (Seattle Police Department)	This item increases appropriation authority by \$52,575 within the SPD in the Leadership and Administration BSL. This item provides appropriation needed to technically correct for the Schedule 3 lease costs charge by Finance and Administrative Services. The Schedule 3 lease estimates published inside the 2023 Central Cost Manual referenced incorrect amounts. Therefore, this item corrects the needed appropriation to cover the actual lease cost to the department.	\$52,575
2.31	2023 Projected Fuel Costs Adjustment (Seattle Police Department)	This item increases appropriation authority by \$460,072 within the West Precinct BSL. This item provides appropriation needed to adjust for fuel costs charged by Finance and Administrative Services. SPD fuel costs are projected to be higher than the budgeted amount in the 2023 Central Cost Manual. Therefore, this item adds the needed appropriation to cover the anticipated fuel costs.	\$460,072
2.32	2023 Projected Fleet Vendor Maintenance Costs Adjustment (Seattle Police Department)	This item increases appropriation authority by \$391,464 within the Special Operations BSL. This item provides appropriation needed to adjust for fleet vendor maintenance costs charged by Finance and Administrative Services. SPD costs are projected to be higher than the budgeted amounts within the 2023 Central Cost Manual. Therefore, this item adds the needed appropriation to cover the expected vendor maintenance costs to the department.	\$391,464

Item #	Title	Description	Amount/FTE
2.33	Appropriation Increase for Fort Lawton Pipe Maintenance (Seattle Public Utilities)	This item increases appropriation authority by \$100,000 in Seattle Public Utilities (SPU) in the General Fund Utility Services and Operations Budget Control Level (00100-BO-SU-N200B). This provides SPU reimbursement for pipe cleaning and root removal in a drainage line owned by the Army Corps of Engineers in the Fort Lawton area. The City has leased a parcel in the area that contains this pipe. The Parks Department is assigned to manage this area, including the pipe. SPU is assisting Parks because of SPU's expertise in this area. This expenditure is intended to remove roots in the pipe that can cause overflows during storm events.	\$100,000
2.34	General Fund Appropriations for South Park Flooding Response Costs (Seattle Public Utilities)	This item increases appropriation authority by \$536,533 in Seattle Public Utilities in the General Fund Utility Services and Operations Budget Control Level (00100-BO-SU-N200B), for spending related to January 2023 flood prevention efforts in the South Park neighborhood. SPU coordinated Citywide efforts to prevent flooding during January King Tides, after a December 2022 King Tide led to severe flooding and sewer backups in the region. Prevention efforts included flood barriers and preventing sewer backups and totaled \$2.1 million in costs. Ratepayer funding will cover the bulk of these costs. However, expenses unrelated to sewer backup prevention, estimated at \$536,533, are general government expenses and must be paid by the General Fund.	\$536,532
2.35	Funding for settlement costs not eligible for JCF (Office of the Mayor)	This item increases appropriation authority by \$100,000 in the General Fund Office of the Mayor Budget Control Level (00100-BO-MA-X1A00). This request is necessary to provide appropriation authority to pay certain employment settlements, related to matters from 2020-21, that are not otherwise an eligible use of the Judgment and Claims Fund.	\$100,000

Item #	Title	Description	Amount/FTE
2.36	PPL Backfill (Office of the Mayor)	This item increases appropriation authority by \$14,938 in the General Fund Office of the Mayor Budget Control Level (00100-BO-MA-X1A00). This request supports backfill labor costs associated with Paid Parental Leave used during 2023.	\$14,938
2.37	Central Cost Adjustment for 2023 External Lease Costs (Office for Civil Rights)	This item increases appropriation authority by \$34,039 within the Seattle Office for Civil Rights (SOCR) in the General Fund Leadership & Administration Budget Control level (00100-BO-CR-XR100). This is a technical correction to provide appropriation needed for the costs. The Schedule 3 lease estimates published inside the 2023 Central Cost Manual underestimated the actual cost of the lease.	\$34,039
2.38	2022 Axon SPD Invoicing (Seattle Information Technology Department)	This item increases appropriation authority by \$1,951,459 in Seattle IT in the Applications BSL (50410-BO-IT-D0600). This funding is to pay for the 2022 Axon Body Worn Video and In-Car Video annual contracts that were invoiced after the 2022 fiscal year closed. Seattle IT is holding back the revenues to pay for these contracts from the 2022 Annual True Up, so no additional revenues are needed.	\$1,951,459
2.39	Increase Emergency Fund Transfer (Finance General)	This item increases appropriation authority in Finance General (00100-BO-FG-2QA00) by \$8,500,000 to transfer General Fund to the Emergency Fund (10102). This transfer accelerates the replenishment of the Emergency Fund after it was drawn down during the COVID emergency. The Emergency Fund policy states that the City should make contributions to meet the target fund balance within five years and sooner if practically possible.	\$8,500,000

Item #	Title	Description	Amount/FTE
Section 3 – Appropriation Increases – Operating Budgets – Backed by Revenues			
3.1	Facilities Reimbursable Expenditure Appropriation (Department of Finance and Administrative Services)	This item increases appropriation authority by \$359,000 in the Finance and Administrative Services Department in the Finance and Administrative Services Fund Facilities Services Budget Control Level (50300-BO-FA-FACILITY). This item is necessary to pay for current year unbudgeted maintenance expenditures resulting from tenant use beyond routine maintenance. This item is revenue backed as these expenses are reimbursed by the tenant.	\$359,000
3.2	Fuel Appropriation Adjustment for Increased Prices (Department of Finance and Administrative Services)	This item increases appropriation authority by \$2,859,000 in Finance and Administrative Services, in the Finance and Administrative Services Fund Fleet Services Budget Control Level (50300-BO-FA-FLEETS). This item is necessary to pay for fuel expenditures that will exceed the adopted budget in 2023. The overage is driven by higher than anticipated fuel prices. This item is revenue backed by direct billing departments using the fuel.	\$2,859,000
3.3	Fleet Maintenance Appropriation Adjustment for Increased External Vendor Use (Department of Finance and Administrative Services)	This item increases appropriation authority by \$1,729,000 in the Finance and Administrative Services Department in the Finance and Administrative Services Fund Fleet Services Budget Control Level (50300-BO-FA-FLEETS). This item is necessary to pay for external vendor maintenance of City vehicles due to lack of capacity in Fleet Maintenance shops and inflation on services from external vendors.	\$1,729,000

Item #	Title	Description	Amount/FTE
3.4	Tenant Improvements for Lease Renewal (Department of Finance and Administrative Services)	This item increases appropriation authority by \$700,000 in Finance and Administrative Services, in the Finance and Administrative Services Fund Facilities Services Budget Control Level (50300-BO-FA-FACILITY). This is necessary to pay for one-time improvements to a City building leased to the Washington State Patrol upon a recent five-year lease renewal. The renewed lease terms increase the tenant's rent by 80 percent, or \$558,000 annually. The increased rent will cover the costs. In the short-term, fund balance will cover the difference between the rent and tenant improvement costs, but fund will be fully reimbursed in Year 2 of the renewal.	\$700,000
3.5	Human Services Fund Grant Appropriation Changes (Human Services Department)	This item increases grant-backed appropriation authority in the Human Services Department by \$144,529 in the Human Services Fund Supporting Affordability & Livability Budget Control Level (16200-BO-HS-H1000), \$2,948,384 in the Human Services Fund Promoting Healthy Aging Budget Control Level (16200-BO-HS-H6000), and \$204,854 in the Human Services Fund Leadership & Administration Budget Control Level (16200-BO-HS-H5000). This appropriation is for increased funding for the grants from Washington State DSHS that provide supportive services to older adults. The grants were accepted in the 2023 recurring grant acceptance ordinance #126707 item 1,12, 1.16, 1.18, 1.27, 1.33.	\$3,297,767
3.6	Opioid Settlement Fund Appropriation (Human Services Department)	This item increases revenue-backed appropriation authority in Human Services Department in the Opioid Settlement Proceed Fund by \$476,249 in the Promoting Public Health Budget Control Level (14510-PO-HS-H7000). Of the \$476,249 appropriated, \$54,209 is for the Opioid Abatement Council, \$105,790 is for HSD administrative costs, \$235,000 is to continue drug user health/harm reduction services previously funded with one-time funds, and \$81,250 is to expand Health One's Overdose Response Team.	\$476,249

Item #	Title	Description	Amount/FTE
3.7	SFD Billable Services (Seattle Fire Department)	This item increases appropriation authority by \$738,523 in Seattle Fire Department, in the General Fund Operations Budget Control Level (00100-BO-FD-F3000). This request is necessary to pay for the overtime costs associated with providing emergency medical services, fire guard services and other fire protection services at events. The additional appropriation authority is supported by fees collected from the venues and/or event promoters.	\$738,523
3.8	Cloud - Direct Bill (Seattle Information Technology Department)	This item increases appropriation authority by \$650,000 in Seattle IT in the Technology Infrastructure BSL (50410-BO-IT-D0300). This request is necessary to cover direct billing through the end of 2023 for monthly cloud services consumed by SPD.	\$650,000
3.9	PSERN - Direct Bill (Seattle Information Technology Department)	<p>"This item increases appropriation authority by \$800,000 in Seattle IT in the Technology Infrastructure BSL (50410-BO-IT-D0300). This request is necessary to provide the Technology Infrastructure BSL with expenditure authority for PSERN implementation costs incurred by Seattle IT. Revenues for these costs are billed to King County/PSERN Project as these are costs are supporting the greater PSERN rollout.</p> <p>This request is to allow expenditure authority for ITD staff and materials needed to support the King County PSERN project. PSERN has requested skilled radio communication technologist support to assist in transitioning to the new PSERN regional radio system. All costs associated with this work are charged back to King County/PSERN project so there is no net cost to the City of Seattle."</p>	\$800,000

Item #	Title	Description	Amount/FTE
3.10	SMT Network Cabling Projects (Seattle Information Technology Department)	This item increases appropriation authority by \$180,000 in Seattle IT in the Technology Infrastructure BSL (50410-BO-IT-D0300). This request is necessary to fund ITD staff and materials needed to support cabling projects on SMT floors 32 and 33 as a result of floor layout changes. Revenues for these costs are billed to City Departments.	\$180,000
3.11	New PC Equipment - Direct Bill (Seattle Information Technology Department)	This item increases appropriation authority by \$3,382,533 in Seattle IT in the Frontline Services & Workplace BSL (50410-BO-IT-D0400). This request is necessary to provide the Frontline Services & Workplace BSL with expenditure authority for new computers purchased in 2023 on behalf of City Departments outside of Seattle IT's five year device replacement cycle. This item adds appropriation authority only. Revenue is collected from the individual departments as costs are incurred throughout the year.	\$3,382,533
3.12	Denied Firearms Transactions Program (Seattle Police Department)	This item increases appropriation authority by \$3,500 in the Criminal Investigations BSL from the Washington Association of Sheriffs and Police Chiefs (WASPC). The Washington State Legislature, via SHB 1501, provides funding to local law enforcement agencies to conduct criminal investigations regarding persons who illegally attempted to purchase or transfer firearms within their jurisdiction. WASPC will reimburse agencies \$300 per transaction investigated and an additional \$200 for each investigation referred for charges. Funds are state pass-through funds, through the Washington Criminal Justice Training Commission, and are available on a first come, first serve basis.	\$3,500
3.13	MLB All-Star Game Reimbursement (Seattle Police Department)	This item increases appropriation authority by \$1,768,072 in the Special Operations BSL from the Seattle Sports Commission, Mariners, and MLB for reimbursement of event and support costs for the MLB All-Star Game. The reimbursement amount will be used to fund overtime costs for staffing this event.	\$1,768,072

Item #	Title	Description	Amount/FTE
3.14	ATF Puget Sound Regional Gun Task Force (Seattle Police Department)	This item increases appropriation authority by \$10,527 in the Criminal Investigations BSL from the U.S. Department of Justice. This funding reimburses SPD for costs of detective overtime spent in connection with the Puget Sound Regional Gun Task Force. The Regional Gun Task Force is focused on increasing the ability of law enforcement to trace shell casings and firearms used in crimes and thus identify shooters and take them off the streets. There are no matching requirements or capital improvement projects associated with this item.	\$10,527
3.15	Drug Enforcement Administration Task Force (Seattle Police Department)	This item increases appropriation authority by \$61,346 in the Criminal Investigations BSL from the U.S. Department of Justice. This funding reimburses SPD for costs of detective overtime associated with the investigation of drug cases. The purpose of this work is to disrupt and interdict the flow of illegal drugs into the City. There are no matching requirements or capital improvement projects associated with this item.	\$61,346
3.16	Organized Crime Drug Enforcement Task Forces (Seattle Police Department)	This item increases appropriation authority by \$93,244 in the Criminal Investigations BSL from the Drug Enforcement Agency. This funding reimburses SPD for costs spent in connection with Organized Crime Drug Enforcement Task Force. This task force works to mount a comprehensive attack and reduce the supply of illegal drugs in the United States and diminish the violence and other criminal activity associated with the drug trade. There are no matching requirements or capital improvement projects associated with this item.	\$93,244

Item #	Title	Description	Amount/FTE
3.17	Pacific Northwest Fugitive Apprehension Task Force (Seattle Police Department)	This item increases appropriation authority by \$30,377 in the Criminal Investigations BSL from the U.S. Department of Justice. This funding reimburses SPD for costs of overtime associated with apprehending violent fugitives. There are no matching requirements or capital improvement projects associated with this item.	\$30,377
3.18	Puget Sound Joint Terrorism Task Force (Seattle Police Department)	This item increases appropriation authority by \$14,357 in the Criminal Investigations BSL from the Federal Bureau of Investigation (FBI). This funding reimburses SPD for overtime associated with working with the FBI on international and domestic terrorism investigations. There are no matching requirements or capital improvement projects associated with this item.	\$14,357
3.19	Safe Streets Task Force (Seattle Police Department)	This item increases appropriation authority by \$73,708 in the Criminal Investigations BSL from the Federal Bureau of Investigation (FBI). This funding reimburses SPD for overtime spent while working with the FBI to identify, disrupt, and dismantle existing and emerging violent criminal enterprises and gangs in King County, as well as other individuals and groups whose criminal activity negatively impacts the Puget Sound area. There are no matching requirements or capital improvement projects associated with this item.	\$73,708
3.20	Seattle Sound Regional Violent Crime Task Force (Seattle Police Department)	This item increases appropriation authority by \$21,834 in the Criminal Investigations BSL from the Federal Bureau of Investigation (FBI). This funding reimburses SPD for costs spent in connection with the Seattle Sound Regional Violent Crimes Task Force. There are no matching requirements or capital improvement projects associated with this item.	\$21,834

Item #	Title	Description	Amount/FTE
3.21	Homeland Security Investigations Task Force (Seattle Police Department)	This item increases appropriation authority by \$135,645 in the Criminal Investigations BSL from the Federal Bureau of Investigation (FBI). This funding reimburses SPD for costs spent in connection with the Homeland Security Investigations Task Force. There are no matching requirements or capital improvement projects associated with this item.	\$135,645
3.22	Federal Bureau of Investigation (FBI) Investigative Task Force (Seattle Police Department)	This item increases appropriation authority by \$5,355 in the Special Operations BSL from the Federal Bureau of Investigation (FBI). This funding reimburses SPD for costs spent in connection with a federal narcotics investigation. There are no matching requirements or capital improvement projects associated with this item.	\$5,355
3.23	MOU for services provided to Downtown Business Improvement Area (DBIA) (Seattle Police Department)	This item increases appropriation authority by \$660,000 in the Special Operations BSL from the Downtown Business Improvement Area (DBIA). This item provides funding to enhance police presence and to help further provide for safety and protection of the public, businesses, and property owners within the DBIA boundaries. The term of this contract runs from July 1, 2023 to June 30, 2024. There are no matching or capital improvement projects associated with this item.	\$660,000

Item #	Title	Description	Amount/FTE
3.24	Registered Sex Offender and Kidnapping Offender Address Verification Program (Seattle Police Department)	This item increases appropriation authority by \$99,157 in the Criminal Investigations BSL from the King County Sheriff's Office under the Registered Sex Offender and Kidnapping Offender Address Verification Program. This funding will be used to verify the address and residency of all registered sex and kidnapping offenders under RCW 9A.44.130; investigate failure to register cases and score unrated offenders; improve public safety by establishing a greater presence and emphasis in Seattle neighborhoods; and increase immediate and direct contact with registered sex and kidnapping offenders in their jurisdiction. The contract term runs from July 1, 2023 to June 30, 2024.	\$99,157
3.25	FY24 State ICAC Allocation (Seattle Police Department)	This item increases appropriation authority by \$2,270,000 in the Criminal Investigations BSL from the Washington Association of Sheriffs and Police Chiefs. This funding supports multi-jurisdictional Washington State Internet Crimes Against Children (ICAC) Task Force. The funding will be used for salary and benefits for 50% of Deputy Prosecuting Attorney, overtime for detectives on ICAC investigations, and equipment, training, overtime, and infrastructure needs for partner agencies. The term of this agreement runs from July 1, 2024 to June 30, 2025. There are no matching requirement associated with this item.	\$2,270,000
3.26	King County Flood Control District Appropriation for South Park Stormwater Mitigation (Seattle Public Utilities)	This item increases appropriation authority by \$1,551,000 in Seattle Public Utilities in the Drainage & Wastewater Fund Utility Service and Operations Budget Control Level (44010-BO-SU-N200B). This item provides for funding from the King County Flood Control District to prevent future flooding impacts in the South Park neighborhood. These efforts include temporary flood barriers as well as support for communications efforts and community-based operations.	\$1,551,000

Item #	Title	Description	Amount/FTE
3.27	Additional Funding for the Emergency Management Performance Grant (EMPG22), Amendment 1 (Office of Emergency Management)	This item increases grant-back appropriation authority by \$10,604.00 in the Seattle Office of Emergency Management (OEM), per EMPG22 grant amendment #1, in General Fund 00100, Budget Summary Level OEM - BO-EP-10000. The matching funds requirement is also increased by \$11,385.00, to be provided by OEM General Budget funds. This grant was accepted in Q1 2023 Ordinance 126791.	\$10,604
3.28	Fleet Maintenance Appropriation Increase for Reimbursable Labor (Department of Finance and Administrative Services)	This item increases appropriation authority by \$448,000 in the Finance and Administrative Services Department in the Finance and Administrative Services Fund and in the Fleet Services Budget Control Level (50300-BO-FA-FLEETS). This item is necessary to pay for overtime expenditures incurred in 2023 resulting from Department requests for service. These requests are not part of Fleet's normal service and Departments are billed directly for the additional expense.	\$448,000
Section 4 – Appropriation Transfers – Operating Budgets			
4.1	Debt Service Fund Swap (TNC Tax to CPT) (Seattle Department of Transportation)	This item transfers appropriation authority in the amount of \$750,000 from Seattle Department of Transportation in the General Fund General Expense Budget Control Level (00100-BO-TR-18002) to Seattle Department of Transportation in the Transportation Fund General Expense Budget Control Level (13000-BO-TR-18002). This item will maintain the budget for Debt Service and will reduce the budget for Transportation Network Company revenues that have been slow to recover after the COVID pandemic and associated response.	\$0

Item #	Title	Description	Amount/FTE
4.2	Transfer Appropriation for Emergency Events (Seattle Department of Transportation)	This item increases appropriation authority by \$5,000,000 in the Transportation Fund General Expense Budget Control Level (13000-BO-TR-18002) to Emergency Response, and decreases appropriation authority by \$5,000,000 in the Transportation Fund General Expense Budget Control Level (13000-BO-TR-18002). These transactions shift Commercial Parking Tax from streetcar operations support to Emergency Response, and are facilitated through the use of Seattle Transit Measure resources noted in item 2.22. To date, 80% of the Emergency Response budget has been spent and based on 2022 costs, SDOT anticipates needing an additional \$5 million in 2023 to support this body of work. Seattle Transit Measure resources are available in fund balance and may be applied to support transit service operations.	\$0
4.3	Transferring appropriation in JCF between BSLs (Department of Finance and Administrative Services)	This item moves \$1,200,000 of appropriation authority from the Judgment & Claims Litigation Budget Control Level (BO-FA-JR000) to the Judgment & Claims Claims Budget Control Level (BO-FA-CJ000) to cover a potentially significant claims expense.	\$0
4.4	Balance labor between Wealth Building and Director teams (Office of Economic Development)	This item transfers appropriation authority in the amount of \$175,000 from Office of Economic Development in the General Fund Business Services Budget Control Level (00100-BO-ED-X1D00) to Office of Economic Development in the General Fund Leadership and Administration Budget Control Level (00100-BO-ED-ADMIN). This item transfers labor budget to align with anticipated actual expenditures across the Wealth Building and Director workgroups.	\$0

Item #	Title	Description	Amount/FTE
4.5	Operating Authority Adjustment (Office of Housing)	This item transfers appropriation authority in the amount of \$275,000 from the Office of Housing in the Office of Housing Fund Leadership and Administration Budget Control Level (16600-BO-HU-1000) to the Office of Housing Fund Homeownership and Sustainability Budget Control Level (16600-BO-HU-2000). This item transfers budget between BCLs to align with anticipated actuals, and in response to budget shifts made during the Community Development Block Grant clean-up process.	\$0
4.6	Admin to Customer Care BSL Transfer Clean Up (Seattle City Light)	This item transfers appropriation authority in the amount of \$911,700 from Seattle City Light, in the Light Fund, Leadership and Admin Budget Control Level (41000-BO-CL-ADMIN) to City Light Customer Care Budget Control Level (41000-BO-CL-CUSTCARE). It was discovered that a records collection project was erroneously budgeted in the wrong project and BSL (920 FERC). This transfer moves the budget to the proper project (903 FERC) where the charges are actually hitting.	\$0
Section 5– Added Capital Projects			
	Add Capital Project to the 2023-2028 Adopted CIP	This item adds the Revive I-5 Project Support (MC-TR-C124) in the Seattle Department of Transportation.	
Section 6– Appropriation Decrease – Capital Budgets			
6.1	REET Debt Service Update (Department of Finance and Administrative Services)	This item decreases 2023 appropriation by \$731,286.11 in the Department of Finance and Administration (FAS) Real Estate Excise Tax I Fund General Government Facilities - General Budget Control Level (30010-BC-FA-GOVTFAC) and decreases appropriation by \$947,601.65 in the Department of Finance and Administration (FAS) Real Estate Excise Tax I Fund Neighborhood Fire Stations Budget Control Level (30010-BC-FA-NBHFIRE) to align debt service with the debt issuance.	(\$1,678,888)

Item #	Title	Description	Amount/FTE
6.2	CIP REET Reduction (Department of Finance and Administrative Services)	This item decreases appropriation from the Finance and Administrative Services Public Safety Facilities Fire (BC-FA-PSFACFIRE) and ADA Improvements (BC-FA-ADAIMPR) BSLs. This item reduces -\$2M in REET I project balance and shifts out -.49 million of REET I from 2024 to 2027 and 2028.	(\$2,493,000)
6.3	Align Bond Appropriation Timing to Spend Plans and Issuance (Department of Finance and Administrative Services)	This item amends the Fire Station 31 Replacement (MC-FA-FS31) and Human Capital Management System (MC-FA-HCMSYS) CIP Projects in the Finance and Administrative Services Department. This item decreases appropriation authority by \$15,000,000 within the Department of Finance and Administration Services, from 2023 in the Public Safety Facilities Fire Budget Summary Level (37100-BC-FA-PSFACFIRE). This item also decreases appropriation authority by \$8,184,657 within the Department of Finance and Administration Services, from 2023 in the Information Technology Budget Summary Level (37100-BC-FA-A1IT). These adjustments are necessary to align the budget with the spend plans and the actual issuance of the bonds. The 2024 Proposed Budget and 2024-2029 Proposed CIP will appropriate the unissued bonds in future years.	(\$23,184,657)
6.4	Water Structures - Abandon Appropriations (Seattle Department of Transportation)	This item decreases appropriation authority by \$823,051 in the Seattle Department of Transportation, in the Transportation Fund Major Maintenance/Replacement Budget Control Level (13000-BC-TR-19001). This change abandons budget authority in the Water Structures CIP that was created for the 24th Ave NW pier replacement project. The project has been completed.	(\$823,051)

Item #	Title	Description	Amount/FTE
6.5	Abandon SSTPI Appropriation - Multiple CIPs (Seattle Department of Transportation)	This item decreases appropriation authority by \$6,009,000 in the Seattle Department of Transportation in the School Safety Traffic and Pedestrian Improvement Fund Mobility-Capital Budget Control Level (18500-BC-TR-19003). This item also decreases appropriation authority by \$220,000 in the Seattle Department of Transportation in the School Safety Traffic and Pedestrian Improvement Fund Major Maintenance/Replacement Budget Control Level (18500-BC-TR-19001). These reductions are necessary to align expenditures from the School Safety and Pedestrian Improvement Fund with the revised revenues forecasted in April 2023, and to reflect the lower-than-expected revenues in 2022.	(\$6,009,000)
6.6	REET Reduction (Seattle Department of Transportation)	This item decreases appropriation authority in the Seattle Department of Transportation Real Estate Excise Tax (REET) fund in 2023 in the Major Maintenance/Replacement Budget Control Level (30020-BC-TR-19001) by \$1,807,288 and Mobility-Capital Budget Control Level (30020-BC-TR-19003) by \$1,029,547.52. These decreases were requested by the City Budgets Office in response to the April Revenue Forecast that is projecting for REET revenues to fall short of previous estimates. SDOT identified five programs that can be reduced in 2023 without impacting service levels or commitments made.	(\$2,836,746)
6.7	Abandon Utility Reimbursable Budget Authority - PMP - School Safety (Seattle Department of Transportation)	This item decreases appropriation authority by \$728,987 in the Seattle Department of Transportation, in the Transportation Fund Mobility Capital Budget Control Level (13000-BC-TR-19003). This item is necessary to remove budget authority not supported by executed agreement within the Pedestrian Master Plan - School Safety prioritized project workplan.	(\$728,987)

Item #	Title	Description	Amount/FTE
6.8	CIP REET/CPT Reductions (Seattle Department of Transportation)	This item decreases appropriation authority by \$1,250,000 in the Seattle Department of Transportation in four Budget Control Levels (BCLs) to allow for the funds to be used for debt service. This item decreases appropriation authority by \$500,000 in the Transportation Fund Major Maintenance/Replacement BCL (13000-TR-BC-19001), by \$250,000 in the Transportation Fund Central Waterfront BCL (13000-TR-BC-16000), by \$155,400 in the Real Estate Excise Tax I Major Maintenance/Replacement BCL (30010-TR-BC-19001), and by \$344,600 in the Real Estate Excise Tax II Major Maintenance/Replacement BCL (30020-TR-BC-19001). This reduction frees Commercial Parking Tax proceeds to be reappropriated for use in debt service payments. The companion item for this change is item 9.23.	(\$1,250,000)
6.9	Grant Abandonment - Bike Master Plan - Protected Bike Lanes (Seattle Department of Transportation)	This item decreases appropriation authority by \$900,000 in the Seattle Department of Transportation, in the Transportation Fund in the Mobility Capital Budget Control Level (13000-BC-TR-19003). This item abandons duplicate grant appropriation for the Connecting Washington funds on the Martin Luther King Jr Way Protected Bike Lane Project that was budgeted for in the Accessible Mt. Baker project and in the Bicycle Master Plan - Protected Bike Lane project. Abandoning this grant appropriation will still leave \$900,000 in the Accessible Mt. Baker project to pay for the grant-funded work.	(\$900,000)

Item #	Title	Description	Amount/FTE
6.10	Arterial Asphalt & Concrete Ph. 2 - Abandon Surplus Budget Authority (Seattle Department of Transportation)	This item decreases appropriation authority by \$4,206,369 in the Seattle Department of Transportation, in the Transportation Fund Major Maintenance/Replacement Budget Control Level (13000-BC-TR-19001). This item: (A) abandons surplus federal grant budget authority in the Arterial Asphalt & Concrete Phase II CIP (MC-TR-C033), and (B) transfers a portion of that budget to other funding sources in the same fund and project to reflect anticipated reimbursements from other City Departments. This change will properly represent the remaining balance of federal grant and reimbursable budget authority within the project.	(\$4,206,369)
6.11	Align TNC Appropriations with Current Planning (Seattle Department of Transportation)	This item decreases appropriation authority by \$625,098 in the Seattle Department of Transportation in the General Fund Mobility-Capital Budget Control Level (00100-BC-TR-19003). These technical abandonment items were identified in 2022 as a result of reduced Transportation Network Tax revenue, but not completed before they carried forward into 2023. This action completes the clean-up of these funds, and will be re-appropriated as revenues allow in the 2024 Proposed Budget.	(\$625,098)

Item #	Title	Description	Amount/FTE
6.12	CIP Carryforward Abandonment (Seattle Department of Transportation)	This item decreases appropriation authority by \$160,977,077 in the Seattle Department of Transportation, including: \$16,800,000 in Move Seattle Levy Fund Major Maintenance Budget Control Level (10398-BC-TR-19001); \$21,262,660 in the Transportation Fund Major Maintenance Budget Control Level (13000-BC-TR-19001); \$1,515,985 in the Transportation Fund Major Projects Budget Control Level (13000-BC-TR-19002); \$13,993,641 in Move Seattle Levy Fund Mobility Capital Budget Control Level (10398-BC-TR-19003); \$105,404,791 in the Transportation Fund Mobility Capital Budget Control Level (13000-BC-TR-19003); and \$2,000,000 in the Transportation Benefit District Fund Mobility Capital Budget Control Level (19900-BC-TR-19003). SDOT has identified those current year (2023) resources on capital projects that will not be used prior to year-end. The budget for these resources will be abandoned in this item and has become part of the available project funding for the proposed 2024-2029 CIP.	(\$160,977,077)

Item #	Title	Description	Amount/FTE
6.13	\$10 Vehicle License Fee (Seattle Department of Transportation)	This item reduces appropriation authority by \$1,400,000 in the Transportation Benefit District Fund Mobility Capital BSL (19900-BC-TR-19003) and \$261,000 in the Transportation Benefit District Fund Major Maintenance/Replacement BSL (19900-BC-TR-19001). The reductions are occurring in the NE 45th Bridge Street I-5 Crossing Improvements CIP (MC-TR-C122) and the Structures Major Maintenance CIP (MC-TR-C112). Ordinance 126270 increased vehicle license fees by an additional \$10 and the associated \$1,961,000 of revenues and expenditures were included in the 2023 Adopted Budget. However, due to late notification to the Washington State Department of Licensing, this vehicle license fee increase will not be implemented until December 2023. Therefore, projected 2023 revenues are \$406,000. This item abandons \$1,661,000 of the associated 2023 budget and revenues.	(\$1,661,000)
6.14	Stan Sayres Boat Ramp Renovation Washington State BFP Grant Abandonment (Seattle Parks and Recreation)	This item abandons appropriation authority by \$568,000 in the Park and Recreation Fund Fix It First Control Level (10200-BC-PR-40000) in the Major Maintenance and Asset Management Master project (MC-PR-41001). This abandonment of RCO funding is necessary due to the expiration of the original grant and approved extensions.	(\$568,000)
6.15	Utility Conservation Program Abandonment (Seattle Parks and Recreation)	This item abandons appropriation authority by \$250,000 in the Seattle Parks and Recreation Department in the Park and Recreation Fund Fix It First Budget Control Level (10200-BC-PR-40000) for the Utility Conservation project (MC-PR-41010). This abandonment is necessary to align expenditure appropriation with revenues within this program.	(\$250,000)

Item #	Title	Description	Amount/FTE
6.16	Lower Woodland RCO Grant Abandonment (Seattle Parks and Recreation)	This item abandons appropriation authority by \$100,254 in the Seattle Parks and Recreation Department in the Park and Recreation Fund Fix It First Budget Control Level (10200-BC-PR-40000) within the Major Maintenance and Asset Management Project (MC-PR-41001). This RCO-backed grant abandonment is necessary because the project is complete and the appropriation is no longer needed.	(\$100,254)
6.17	2023 REET Abandonment (Seattle Parks and Recreation)	This item abandons appropriation authority by \$13,500,000 in the Seattle Parks and Recreation Department in the REET I Capital Fund Fix It First Budget Control Level (30010-BC-PR-40000) and the REET II Capital Fund Fix It First Budget Control Level (30020-BC-40000) for the following projects: Major Maintenance and Asset Management (MC-PR-41001), Community Center Rehabilitation & Development (MC-PR-41002), Lake City Community Center Improvements (MC-PR-41040), and Carkeek Park Bridge Replacement (MC-PR-41075). A related item in the 2024 Proposed Budget reallocates funding for Lake City Community Center, the Carkeek Park bridge, and major maintenance to future years in the CIP, to better align with actual construction timelines. This change is necessary to align with the REET Revenue Forecast.	(\$13,500,000)
6.18	REET Debt Service Adjust (Seattle Parks and Recreation)	This item abandons appropriation authority by \$171,211 in the Seattle Parks and Recreation Department in the REET I Capital Fund Debt and Special Funding Budget Control Level (30010-BC-PR-30000) to align budget for debt service with actual debt service payment costs for 2023.	(\$171,211)

Item #	Title	Description	Amount/FTE
6.19	Abandon debt service for bonds not taken out re: Aquarium (Seattle Parks and Recreation)	This item abandons appropriation authority by \$831,966 in the Seattle Parks and Recreation Department in the Parks and Recreation Fund Debt and Special Funding Budget Control Level (10200-BC-PR-30000). This decrease is a true up of budget related to the Seattle Aquarium Society agreement with the Seattle Parks and Recreation Department in Ordinance 126874.	(\$831,966)
Section 7 – Appropriation Increase – Capital Budgets			
7.1	New CIP - Revive I-5 Project Support (Seattle Department of Transportation)	<p>This item creates a new discrete CIP Project: Revive I-5 Project Support - MC-TR-C124 in the Seattle Department of Transportation's Mobility Capital BSL (BC-TR-19003). This project will include City costs incurred as a part of the major preservation improvements on I-5 through Seattle that will be implemented by the Washington State Department of Transportation. Project costs will include as-needed design and construction of operational improvements on City streets, which may include dedicated bus priority lanes, new signal improvements and communication systems. The City will also support this effort with real-time support for signal timing changes, transportation operations monitoring, and communication of real-time traffic conditions and incident response. The CIP is needed in 2023 as the project will start planning work this year.</p> <p>Additionally, this item increases appropriation authority by \$550,000 in the Department of Transportation's in the Transportation Fund Budget Control Level (13000-BC-TR-19003).</p>	\$550,000

Item #	Title	Description	Amount/FTE
7.2	SSTPI - SPU Drainage Partnership - Broadview Ped Impr CIP (Seattle Department of Transportation)	This item increases appropriation authority by \$615,000 in the Seattle Department of Transportation, in the School Safety Traffic and Pedestrian Improvement Mobility Capital BCL (18500-BC-TR-19003). This request is necessary to fund Sidewalks Package Project in the SPU Drainage Partnership -Broadview Pedestrian Improvements CIP (MC-TR-C036) and provide the required match for the project's federal grant. This item offsets this appropriation increase by reducing the 2024 and 2025 budget in this Budget Control Level by the same amount.	\$615,000
7.3	Freight Spot - UPRR Partnership - Corson Ave (Seattle Department of Transportation)	This item increases appropriation authority by \$37,500 in the Seattle Department of Transportation, in the Transportation Fund Mobility-Capital Budget Control Level (13000-BC-TR-19003). This item increases reimbursement from Union Pacific Railroad for design and construction costs related to sidewalk restoration following a railroad crossing repair at Corson Ave S within the Fright Spot Improvement project (MC-TR-C047). The increased reimbursable authority from this request is necessary to account for reimbursement from UPRR to SDOT now that the agreement is finalized.	\$37,500
7.4	Play Area and Public Restroom Renovations King County Appropriation (Seattle Parks and Recreation)	This item increases appropriation authority by \$1,000,000 in the Seattle Parks and Recreation Department in the King County Parks Levy Fund Fix It First Control Level (36000-BC-PR-40000). This funding will go into the Major Maintenance Backlog Master Project (MC-PR-41001) and will be used to support play area and public restroom renovation projects. This appropriation is supported by King County Parks Levy Fund balance.	\$1,000,000

Item #	Title	Description	Amount/FTE
7.5	City Hall Park/Yesler Crescent Improvement Transfer From Operating (Seattle Parks and Recreation)	This item increases appropriation authority by \$1,000,000 in the Seattle Parks and Recreation Department General Fund Building for the Future-CIP Control Level (00100-BC-PR-2000). This funding is being transferred from the General Fund Leadership and Administration Budget Control Level (00100-BO-PR-20000) in a related Supplemental item and is necessary to align to create safe outdoor space in the City's downtown core where capital improvements may be anticipated. The net effect is a budget neutral transfer.	\$1,000,000
Section 8 – Appropriation Increase – Capital Budgets – Revenue Backed			
8.1	RRJ - Add Appropriations for FTA Small Starts Grant (Seattle Department of Transportation)	This item increases grant appropriation authority by \$1,753,000 in Seattle Department of Transportation, in the Transportation Fund Mobility-Capital Budget Control Level 13000-BC-TR-19003. The grant was accepted previously in Ordinance 126876. This grant funding is from the Federal Transit Administration (FTA) through the Section 5309 Fixed Guideway Capital Investment Grants Allocations Small Starts program for federal fiscal year 2023. The grant will support the RapidRide J-Line project to implement electric bus rapid transit service between downtown Seattle and the Roosevelt neighborhoods and improve transit capacity, travel time, reliability, and connectivity, while also making related improvements for people walking and bicycling along the corridor. The total grant award is \$64.2 million, with \$1.75 million expected to be utilized in 2023, and the remaining will be spent from 2024 to 2027.	\$1,753,000

Item #	Title	Description	Amount/FTE
8.2	Georgetown to South Park Trail - Reimbursable Appropriation Increase (Seattle Department of Transportation)	This item increases appropriation authority by \$1,523,000 in the Seattle Department of Transportation, in the Transportation Fund Mobility-Capital Budget Control Level (13000-BC-TR-19003). This request is necessary as the Georgetown to South Park Trail (MC-TR-C096) Capital Improvement Program includes installation of an off-leash area and trail connection to the South Park community on property conveyed to the Seattle Department of Transportation from Seattle City Light. This item is needed in 2023 as construction on the project is scheduled for late 2023. This item also increases total project costs to reflect the increased appropriation.	\$1,523,000

Item #	Title	Description	Amount/FTE
8.3	Pedestrian Master Plan - New Sidewalks Program - Reimbursable Utilities Appropriation Increase (Seattle Department of Transportation)	This item increases appropriation authority by \$583,006 in the Seattle Department of Transportation, in the Transportation Fund Mobility Capital Budget Control Level (13000-BC-TR-19003). This request is necessary as the Pedestrian Master Plan - New Sidewalks (MC-TR-C058) Capital Improvement Program includes drainage improvements and street lighting for sidewalk projects located at 17th Ave NW and NE 117th and Pinehurst respectively. This item is needed in 2023 as construction on these projects is scheduled for 2023.	\$583,006
8.4	Partnership and Interdepartmental Appropriation Increase - Multiple Capital Projects (Seattle Department of Transportation)	This item increases appropriation authority by \$683,749 in 2023 in the Seattle Department of Transportation, in the Transportation Fund Mobility Capital Budget Control Level (13000-BC-TR-19003). This request is necessary as the Department has five Capital Improvement Programs with projects that include partnering with other city departments or external parties. This item is needed in 2023 as work on these projects is scheduled for 2023.	\$683,749
8.5	SW Admiral Way North Bridge Grant Appropriation Increase (Seattle Department of Transportation)	This item increases appropriation authority by \$1,662,503 in the Seattle Department of Transportation (SDOT) Transportation Fund Major Maintenance/Replacement Budget Control Level (13000-BC-TR-19001). This is an increase to an existing grant from the Federal Highway Administration through the Washington Department of Transportation Local Bridge Program. The initial grant was accepted and appropriated in 2021 in Ordinance 126469 and Ordinance 126470, respectively. This item provides additional grant funding to retrofit the SW Admiral Way North Bridge to meet current seismic standards. This project is currently in design and will move to construction in late 2023/early 2024. The grant requires a 13.5% local match, which is accounted for in the existing budget within this program.	\$1,662,503

Item #	Title	Description	Amount/FTE
8.6	Urban Capital Forestry Establishment SCL Reimbursement Increase (Seattle Department of Transportation)	This item increases appropriation authority by \$25,889 in the Seattle Department of Transportation, in the Transportation Fund Major Maintenance/Replacement Budget Control Level (BC-TR-19001) Urban Capital Forestry Establishment Capital Project (MC-TR-C050). This item increases reimbursement authority from Seattle City Light to fund the replacement and care of six trees to comply with Executive Order 2023-03 due to installing vaults that require the removal of two trees.	\$25,889
8.7	Transfer Wayfinding Grant Funds to CIP (Seattle Department of Transportation)	This item increases appropriation authority by \$1,421,221 in the Seattle Department of Transportation, Transportation Fund Mobility Capital Budget Control Level (13000-BC-TR-19003). The budget is funded by Wayfinding grant, which was originally appropriated in Transportation Fund Mobility Operations Budget Control Level (13000-BO-TR-17003). A companion operating budget item requests a decrease of appropriation authority with the same amount.	\$1,421,221
8.8	Arson Insurance Proceeds Appropriation (Seattle Parks and Recreation)	This item increases appropriation authority by \$1,200,000 in the Seattle Parks and Recreation Department in the Park and Recreation Fund Fix It First -CIP Budget Control Level (10200-BC-PR-4000). This request is necessary to accept a portion of projected insurance proceeds into the Major Maintenance and Asset Management Master project (MC-PR-41001) for the re-build of Lower Woodland Comfort Station due to arson. Additional future insurance proceeds are expected to come to this project.	\$1,200,000

Section 9 – Appropriation Transfers – Capital Budgets

Item #	Title	Description	Amount/FTE
9.1	Transfer Appropriation from Taxable Bond Fund 37110 to Tax-Exempt Bond Fund 37100 (Department of Finance and Administrative Services)	This item amends the Waterfront Operations and Tribal Interpretive Center CIP Project (MC-FA-OWMAINT) in the Finance and Administrative Services Department, transferring appropriation authority of \$13,000,000 from the General Government Facilities - General Budget Summary Level (37110-BC-FA-GOVTFAC) to the General Government Facilities - General Budget Summary Level (37100-BC-FA-GOVTFAC).	\$0
9.2	Consolidate ADA Improvement Projects (Department of Finance and Administrative Services)	This item amends the ADA Improvements - Citywide (MC-FA-ADAIMPCTY) and ADA Improvements - FAS (MC-FA-ADAIMPFAS) CIP Projects in the Finance and Administration Services Department. This item transfers appropriation authority of \$500,000 from the General Government Facilities - General Budget Summary Level (30010-BC-FA-GOVTFAC) to the ADA Improvements Budget Summary Level (30010-BC-FA-ADAIMPR). The intent is to consolidate ADA Improvement projects within one master project.	\$0
9.3	Broad Street Substation Network (Seattle City Light)	This item reallocates \$3.0 million within the Transmission & Distribution CIP BSL. Funding is needed for the Broad Street Substation Network for costs associated with a higher-than-normal failure rate of feeders this year, specifically feeders 1370, 1383, and 1390. Funding is available from several areas of the CIP due to staffing shortages, shifts to higher priority work, and savings in several transmission projects.	\$0

Item #	Title	Description	Amount/FTE
9.4	Overhead Customer Capacity Additions (Seattle City Light)	This item reallocates \$1.0 million within the Transmission & Distribution CIP BSL. Funding is needed to cover the costs associated with increased overhead customer capacity additions in order to support customer growth and additional load as development continues at a high pace throughout the service area. Funding is available because the 26kV conversion work in the Capital Hill area is on hold while City Light continues to work with customers regarding the cost responsibility.	\$0
9.5	Small Overhead and Underground Services (Seattle City Light)	This item reallocates \$2.0 million within the Customer Focused CIP BSL. Funding is needed to cover the increases of small service connections. Increases are due to more home remodeling likely due to an increase in customers working from home. Service upgrades due to heat pumps, air conditioning, and gas-to-electricity conversions of ranges and water heating, also increased the number of small connections. Funding is available in the Network Additions Broad Substation because the work is progressing slower than anticipated as resources are allocated to higher priority work.	\$0
9.6	Major Emergency (Seattle City Light)	This item reallocates \$2.0 million within the Customer Focused CIP BSL. Funding is needed in the Major Emergency project due to storms occurring late in 2022 which carried forward into 2023 reducing the available budget in 2023. And with the upcoming storm season, this adds an adequate buffer for expected costs. Funding is available in large service connections because some of the projects anticipated for this year are delayed.	\$0

Item #	Title	Description	Amount/FTE
9.7	Relaying Improvements (Seattle City Light)	This item reallocates \$500,000 within the Transmission & Distribution CIP BSL. Funding is needed to cover costs of relay improvement projects that were not originally budgeted but are sensible to do now due to available outage opportunities and crew availability for relay upgrades in substations. Funding is available in substation capacity additions due to reallocation of resources to higher priority work.	\$0
9.8	Boundary Unit 51 (Seattle City Light)	This item reallocates \$3.1 million within the Power Supply CIP BSL. Funding is needed to cover the costs of repairs due to unforeseen damage to the thrust bearings on the Boundary Unit 51. The funding will cover costs for design, materials, City Light and contract labor. Funding is available due to delays in the unit 52 repair project.	\$0
9.9	Boundary Unit 54 (Seattle City Light)	This item reallocates \$4.3 million within the Power Supply CIP BSL. Funding is needed to cover repairs to damaged thrust bearings in unit 54. Funding will cover costs for design, materials, and City Light and contract labor. Funding is available because the unit 52 project is delayed until damaged units 51 and 54 are repaired.	\$0
9.10	Cedar Falls Substation Automation (Landis & Gyr) (Seattle City Light)	This item reallocates \$500,000 within the Power Supply CIP BSL. Funding is needed to cover labor costs for Cedar Falls substation automation which are higher than estimated. Funding is available from the Cedar Falls bank project as this project is deferred so that resources can be reallocated to high priority Cedar Falls work.	\$0
9.11	Cedar Falls Powerhouse Unit 5-6 Relays (Seattle City Light)	This item reallocates \$1.2 million within the Power Supply CIP BSL. Funding is needed for the Cedar Falls Powerhouse Unit 5-6 Relay project to cover the costs of additional labor for the generator protection. Funding is available in the Boundary Generator Step-up Transformer Upgrade project as resources have been reallocated to higher priorities as the schedule for the upgrade has been delayed.	\$0

Item #	Title	Description	Amount/FTE
9.12	Cedar Falls Bank 6 Replacement (Seattle City Light)	This item reallocates \$4.0 million within the Power Supply CIP BSL. Funding is needed for the Cedar Falls Bank 6 Replacement project to cover costs for change orders for the Cedar Falls substation due primarily to a new contaminated soil claim and changing conditions due to boulders and bed rock. Funding is available in the Boundary Generator Step-up Transformer Upgrade project as resources have been reallocated to higher priorities as the schedule for the upgrade has been delayed.	\$0
9.13	Skagit Boating Improvements (Seattle City Light)	This item reallocates \$1.0 million within the Power Supply CIP BSL. Funding is needed for the Skagit Boating Improvement project to cover funding that was abandoned at the end of 2022 but is needed for the revised construction estimate at final design. Funding is available from the Gorge Crane Rehab project as staff are working on higher priority projects.	\$0

Item #	Title	Description	Amount/FTE
9.14	Skagit Minor Emergent (Seattle City Light)	This item reallocates \$3.6 million within the Power Supply CIP BCL, and transfers \$1.6 million from the Transmission & Distribution CIP BSL and \$4.0 million from the Customer Focused CIP BSL to the Power Supply CIP BSL. In essence, this moves \$9.2 million into the Skagit Minor Emergent Program from three BSLs (Power Supply CIP, Transmission and Distribution CIP, and Customer Service CIP). Funding is needed for the Skagit Minor Emergent program to cover the costs for emergency work under several discrete projects. This work includes rockfall projects, road washout, and a revised trash rack cost estimate. Costs continue to rise due to increases to City Light design labor, changes requiring more steel, and for renting a barge. Funding is available from the Boundary Station Service Transformer and Ross Exciter projects because staff are reallocated to work on higher priority emergency projects; from the University of Washington Capacity Additions project because this project is deferred; and from the Transportation Relocation project because the work requested by the City of Shoreline has been deferred.	\$0
9.15	Technology Upgrade for Editor Project (Seattle City Light)	This item reallocates \$1.2 million within the Transmission & Distribution CIP BSL. Funding is needed in the LRDS Editor Upgrade technology project to cover the costs of two change orders. The original project end date has been extended by several months, increasing costs for labor resources to complete User Acceptance Testing. Funding is available in the Software Replacement Strategy program as some projects are deferred to the out years.	\$0

Item #	Title	Description	Amount/FTE
9.16	Streetlight Red Tickets (Seattle City Light)	This item reallocates \$1.0 million within the Customer Focused CIP BSL and transfers appropriation authority in the amount of \$2.0 million from the Transmission & Distribution CIP BSL to the Customer Focused CIP BSL. This transfer is needed for the Streetlight Arterial, Residential and Flood program to cover costs of City Light and contract labor to accelerate the backlog of replacements for high priority "red ticket" streetlight units. Red ticket projects are unrepairable streetlight failures which require a full circuit/system redesign & reconstruction to make operational. Funding is available from the Pole Attachment program as the pace of customer requested work is coming in slower than anticipated when the budget was prepared.	\$0
9.17	Facilities Consolidation Transfers (Seattle City Light)	This item reallocates \$2.4 million within the Power Supply CIP BSL. In the 2024 budget process, several smaller facilities projects were consolidated into one larger facility program under MC-CL-XF9103 Facilities Improvements. In preparation for the consolidation in 2024, these transfers will clear positive and negative balances in 2023 to avoid carry over into 2024.	\$0
9.18	New Technology Program Funding (Seattle City Light)	This item transfers appropriation authority in the amount of \$6.0 million from the Transmission & Distribution CIP BSL to the Customer Focused CIP BSL. This transfer is needed to fund the discrete projects within the New Technology Program. The funds will cover costs for multiple new technology projects including Advanced View Usage, Crew Call out, Digital Marketplace, Data Virtualization Tool, Power Path Data Cleanup and Storage, and Travel and Expense Reimbursement. Funding is available from Enterprise GIS because the project is deferred to start in December 2023 or early 2024.	\$0

Item #	Title	Description	Amount/FTE
9.19	Power Plant Controller Replacement (Seattle City Light)	This item reallocates \$700,000 within the Transmission & Distribution CIP BSL. Funding is needed for the RCOS Power Plant Controller Replacement project to cover the costs of labor resources to manage the completion of the project as the timeline has been extended to the end of the year (the scope has not changed). Funding is available from the Software Replacement Strategy program. The funding available is from two large detail projects that have been modified; WAMS to WACS Upgrade has been rescheduled, moving out the beginning of the CIP phase to 2024; and Kubra RT has been cancelled as FAS looks for a City-wide solution.	\$0
9.20	Security Improvements (Seattle City Light)	This item transfers appropriation authority in the amount of \$1.0 million from the Power Supply CIP BSL to the Transmission & Distribution CIP BSL. This transfer is needed to cover the costs in the Security Improvements program for several security enhancements including North Mountain, Union, and Broad Substations. Funding is available from the Substation Comprehensive Improvement program as resources are allocated to higher priority work.	\$0
9.21	Transfer of Bond Appropriations for Bridge Rehab & Replacement (Seattle Department of Transportation)	This item transfers appropriation authority in the amount of \$1,339,375 from the Seattle Department of Transportation, within the 2021 West Seattle Bridge Repair LTGO Bond Fund Major Maintenance/Replacement Budget Control Level (36810-BC-TR-19001). This item transfers appropriation authority from the Bridge Rehabilitation & Replacement CIP (MC-TR-C045) to the Bridge Rehabilitation & Replacement Phase 2 CIP (MC-TR-C039). The original work planned for MC-TR-C045 is complete. This action would repurpose these remaining bond budgets to the successor project MC-TR-C039, which still has work outstanding.	\$0

Item #	Title	Description	Amount/FTE
9.22	Urban Forestry Capital Establishment Transfers (Seattle Department of Transportation)	This item transfers appropriation authority in the amount of \$183,276 from the Seattle Department of Transportation from the Transportation Fund Mobility-Capital Budget Control Level (13000-BC-TR-19003) PMP-New Sidewalk Program (MC-TR-C058) to the Seattle Department of Transportation in the Transportation Fund Major Maintenance/Replacement Budget Control Level (13000-BC-TR-19001) for the Urban Forestry Capital Establishment program (MC-TR-C050) to pay costs related to the watering, irrigation and monitoring of new landscaping elements installed as part of the contributing capital projects. It will allow the capital projects to close in a timely manner while ensuring the support to complete the projects' three-year establishment for trees and associated planting.	\$0
9.23	Transfer Structures Major Maintenance Budget (Seattle Department of Transportation)	This item transfers appropriation authority of \$500,000 in the Seattle Department of Transportation, Transportation Fund, Major Maintenance/Replacement BCL (13000-TR-BC-19001) to the Seattle Department of Transportation, Real Estate Excise Tax I Fund, Major Maintenance/Replacement BCL (30010-TR-BC-19001) to facilitate resources to support debt service. Please see item 6.8 for other components of this change.	\$0
9.24	Intrafund Drainage and Wastewater Fund Transfer for South Park Stormwater Program (Seattle Public Utilities)	This item transfers appropriation authority by \$2,500,000 in Seattle Public Utilities in the Drainage & Wastewater Fund Combined Sewer Overflows Budget Control Level (44010-BC-SU-C360B) to the Flooding, Sewer Backup and Landslides Budget Control Level (44010-BC-SU-C380B). This transfer will address higher than anticipated costs for Pump Station #45 as well as the South Park Program. Higher costs for the latter were driven by unexpected groundwater mitigation measures and delays resulting from the Concrete workers' strike. This transfer will move excess appropriation for 2023 from the Ship Canal Water Quality Project.	\$0

Item #	Title	Description	Amount/FTE
9.25	Intrafund Water Fund Transfer for Hydrant Relocation and Replacement Program (Seattle Public Utilities)	This item transfers appropriation authority in the amount of \$2,000,000 from Seattle Public Utilities Water Fund Shared Cost Projects Budget Control Level (43000-BC-SU-C410B) to the Water Fund Distribution Budget Control Level (43000-BC-SU-C110B). Funding is needed in the Hydrant Replacement/Relocation program due to higher than expected demand for these services. Excess appropriation authority is available in the Bridging the Gap program partly driven by delays in related Seattle Department of Transportation projects. If this transfer is not approved, there will be a budget exception in the Hydrant Replacement/Relocation program.	\$0
9.26	Intrafund Water Fund Transfer for Heavy Equipment Purchases (Seattle Public Utilities)	This item transfers appropriation authority in the amount of \$1,500,000 for Seattle Public Utilities between master projects within the Water Fund Shared Cost Projects Budget Control Level (43000-BC-SU-C410B). Appropriation is being transferred from MC-SU-C4119 – Bridging the Gap Program to MC-SU-C4116 – Heavy Equipment Purchases. Funding is needed in the Heavy Equipment Purchases program due to delayed purchases from prior years taking place in 2023. Funding is available in the Bridging the Gap program due to underspending from reallocation and delays related to SDOT related projects. If this transfer is not approved, there will be a budget exception in the Heavy Equipment Purchases program.	\$0

Item #	Title	Description	Amount/FTE
9.27	Intrafund Water Fund Transfer for the Cathodic Protection Program (Seattle Public Utilities)	This item transfers appropriation authority in the amount of \$1,000,000 for Seattle Public Utilities between master projects within the Water Fund Transmission Budget Control Level (43000-BC-SU-C4120B). Appropriation is being transferred from MC-SU-C1207 – Transmissions Pipeline Rehabilitation to MC-SU-C1208 – Cathodic Protection. Funding is needed in the Cathodic Protection program due to delayed spending from prior years from prior years taking place in 2023. Funding is available in the Transmission Pipeline Rehabilitation program due to delayed spending on projects. If this transfer is not approved, there will be a budget exception in the Cathodic Protection program.	\$0
9.28	Intrafund Water Fund Transfer for Water Taps Program (Seattle Public Utilities)	This item transfers appropriation authority in the amount of \$2,700,000 in Seattle Public Utilities Water Fund Shared Cost Projects Budget Control Level (43000-BC-SU-C410B) to the Water Fund Distribution Budget Control Level (43000-BC-SU-C110B). Funding is needed in the New Taps program due to higher than expected demand for these services. Funding is available in the Bridging the Gap program due to underspending from reallocation and delays related to SDOT related projects. If this transfer is not approved, there will be a budget exception in the Hydrant Replacement/Relocation program.	\$0

Item #	Title	Description	Amount/FTE
Section 10 – Position Adds			
10.1	Opioid Settlement Fund Appropriation (Human Services Department)	This item adds 4 FTE related to expending the City’s opioid settlement funds. It adds two Social Service Aide FTEs for the HealthOne program expansion, paid for by Opioid Settlement program funds. The remaining two FTEs, a Sr. Planner and a Sr. Grants & Contracts Specialist, will be part of a new unit in HSD to manage all Public Health related work. The new Sr. Planner will be funded with the opioid settlement funds; the new Sr. Grants & Contracts Specialist will be funded by base budget in HSD's Promoting Public Health BSL.	4.0

Amendment 1 Version 1 to CB 120705 - 2023 Year-End Supplemental ORD

Sponsor: Chair Mosqueda

Reduce funding for Community Investment Trusts by \$250,000 JumpStart Fund in OPCD

Effect: This amendment reduces \$250,000 JumpStart Fund (one-time) from the Office of Planning and Community Development's (OPCD's) 2023 budget to provide resources for 2024. The Council added this funding to the 2023 Adopted Budget to support learning, licensing, and implementation for Community Investment Trusts. This funding will not be spent in 2023.

Amend Section 1 of CB 120705 as follows, renumber subsequent item numbers, and recalculate the total as needed.

Section 1. The appropriations for the following items in the 2023 Adopted Budget are reduced from the funds shown below:

Item	Department	Fund	Budget Summary Level/ BCL Code	Amount
1.1	Department of Finance and Administrative Services	Coronavirus Local Fiscal Recovery Fund (14000)	Facilities Services (14000-BO-FA-FACILITY)	(\$146,372)
* * *				
<u>1.19</u>	<u>Executive (Office of Planning and Community Development)</u>	<u>Payroll Expense Tax (14500)</u>	<u>Equitable Development Initiative (14500-BO-PC-X2P40)</u>	<u>(\$250,000)</u>
Total				(\$17,898,499) (\$18,148,499)

Amendment 2 Version 1 to CB 120705 - 2023 Year-End Supplemental ORD

Sponsor: Chair Mosqueda

Reduce funding for an Affected Person’s Program by \$50,000 GF in SPD's Office of Police Accountability

Effect: This amendment reduces \$50,000 GF (one-time) in 2023 from the Seattle Police Department’s (SPD's) Office of Police Accountability (OPA) for convening a workgroup to examine the prospect of adding an Affected Person’s Program (APP) similar to the program housed in Ontario, Canada. The Council included \$50,000 in the 2023 Adopted Budget and \$50,000 in the 2024 Endorsed Budget for this purpose (SPD-101-B-001-2023).

The Mayor's Office is leading the work on an APP program in partnership with the Seattle Police Monitor team and anticipates they will complete their review of APPs in other jurisdictions and the potential for an APP in Seattle by December 2023. The funding added in the 2023 Adopted and 2024 Endorsed budgets is not needed for the MO to complete the APP work.

This amendment, combined with Council Budget Action (CBA) SPD-901-A reduces the \$100,000 GF added over the biennium for the APP work; this reduction is used to balance CBA HSD-801-A.

This amendment, together with the associated actions in SPD-901-A and HSD-801-A, do not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

Amend Section 1 of CB 120705 as follows, renumber subsequent item numbers, and recalculate the total as needed.

Section 1. The appropriations for the following items in the 2023 Adopted Budget are reduced from the funds shown below:

Item	Department	Fund	Budget Summary Level/ BCL Code	Amount
1.1	Department of Finance and Administrative Services	Coronavirus Local Fiscal Recovery Fund (14000)	Facilities Services (14000-BO-FA-FACILITY)	(\$146,372)

Amendment 3 Version 1 to CB 120705 - 2023 Year-End Supplemental ORD

Sponsor: Chair Mosqueda

Reduce funding for a Recreational Vehicle storage program by \$1 million GF in HSD

Effect: This amendment would reduce \$1 million GF (one-time) in the Human Services Department (HSD) for a Recreational Vehicle (RV) storage program. In mid-2023, the Executive notified the King County Regional Homelessness Authority that RV storage is only an allowable use under the land use code if the storage site is directly adjacent to a site with non-congregate housing. Given that no site has yet been identified, it is unlikely that funds will be spent in 2023.

Of this reduction, \$166,000 is used to balance Council Budget Actions (CBA) included in the Chair’s 2024 balancing package. The remaining \$834,000 is used to balance CBA HSD-005-A that adds \$300,000 GF to HSD for meal providers and \$534,000 for the RV storage program in 2024.

Amend Section 1 of CB 120705 as follows, renumber subsequent item numbers, and recalculate the total as needed.

Section 1. The appropriations for the following items in the 2023 Adopted Budget are reduced from the funds shown below:

Item	Department	Fund	Budget Summary Level/ BCL Code	Amount
1.1	Department of Finance and Administrative Services	Coronavirus Local Fiscal Recovery Fund (14000)	Facilities Services (14000-BO-FA-FACILITY)	(\$146,372)
* * *				
<u>1.21</u>	<u>Human Services Department</u>	<u>General Fund (00100)</u>	<u>Addressing Homelessness (00100-BO-HS-H3000)</u>	<u>(\$1,000,000)</u>
Total				(\$17,898,499) (\$18,898,499)

Amendment 4 Version 1 to CB 120705 - 2023 Year-End Supplemental ORD

Sponsor: Chair Mosqueda

October Revenue Forecast Adjustments

Effect: This amendment modifies various appropriations within the Seattle Department of Transportation’s (SDOT’s) 2023 Adopted Budget to reflect the October 2023 Revenue Forecast update.

At the October 17, 2023, Forecast Council meeting, the Office of Economic and Revenue Forecasts (Forecast Office) reduced the 2023 transportation-specific revenues by \$2.4 million (in comparison to the August Revenue Forecast), as follows:

- \$1 million revenue decrease in the Transportation Fund due to projected decreases in commercial parking tax revenues
- \$1.2 million revenue decrease in the Transportation Benefit District Fund due to a projected decrease in vehicle license fees (VLF), slightly offset by increases in Seattle Transit Measure sales taxes
- \$280,000 revenue decrease in the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund due to projected decreases in school zone camera revenues

The total amount of the individual amendment items is lower than the \$2.4 million revenue forecast reduction due to the use of Commercial Parking Tax fund balance in the Transportation Fund. In addition, the budgeted 2023 VLF revenue will not be fully expended by year-end, therefore no additional adjustments are needed to supplant the reduced revenue forecast.

Amend Section 1 of CB 120705 as follows, renumber subsequent item numbers, and recalculate the total as needed.

Section 1. The appropriations for the following items in the 2023 Adopted Budget are reduced from the funds shown below:

Item	Department	Fund	Budget Summary Level/ BCL Code	Amount
1.1	Department of Finance and Administrative Services	Coronavirus Local Fiscal Recovery Fund (14000)	Facilities Services (14000-BO-FA-FACILITY)	(\$146,372)

Amendment 6 Version 1 to CB 120705 - 2023 Year-End Supplemental ORD

Sponsor: Councilmember Herbold

Add \$50,000 GF to OIG for external, independent investigations and reduce proposed funding for the Seattle Police Monitor Reserves by \$50,000 GF (2023) in FG

Effect: This amendment adds \$50,000 GF in 2023 to the Office of the Inspector General (OIG) for Public Safety for external independent investigative entities to handle conflict of interest cases such as investigations about conduct by the Chief of Police.

Ordinance 126628 provides the OIG with authorization to investigate the Chief of Police, when necessary, but does not ensure funding to do so. The Inspector General for Public Safety has indicated that OIG has a need to contract for conflict-of-interest cases in 2023 and 2024, but lacks sufficient appropriation authority to fund such contracts. This amendment would add \$50,000 GF in 2023; separately, Council Budget Action (CBA) OIG-001-A adds \$50,000 to OIG in 2024 as an ongoing appropriation for independent investigations.

This amendment also reduces funding for the Seattle Police Monitor Reserve by \$50,000 GF in Finance General (FG) to align FG reserves with expected spending. The City Budget Office (CBO) is tracking expenditures from the Seattle Police Monitor Reserve and indicates that the Reserve’s expected 2023 year-end balance will be sufficient to allow transfer of \$50,000 GF to OIG for independent investigations. Like this amendment, CBA OIG-001-A uses unprogrammed funding from the Seattle Police Monitor Reserves to pay for consultant contracts to handle OIG conflict-of-interest cases.

This amendment does not impact the projected ongoing operated deficit in the GF beginning in the 2025-2026 biennium.

Amend Section 1 of CB 120705 as follows, renumber subsequent item numbers, and recalculate the total as needed.

Section 1. The appropriations for the following items in the 2023 Adopted Budget are reduced from the funds shown below:

Item	Department	Fund	Budget Summary Level/ BCL Code	Amount
1.1	Department of Finance and Administrative Services	Coronavirus Local Fiscal Recovery Fund (14000)	Facilities Services (14000-BO-FA-FACILITY)	(\$146,372)

Amendment 7 Version 1 to CB 120705 - 2023 Year-End Supplemental ORD

Sponsor: Councilmember Strauss

Reduce \$150,000 in the Mayor’s Office for a local match for 2023 grant

Effect: This amendment reduces \$150,000 from the Mayor’s Office (MO) 2023 Adopted Budget for a local match to the \$500,000 Casey Family Programs grant for public safety work that ultimately was not needed. It was initially assumed that as a condition of receiving this grant a local match was required; in the end, the match was not required or needed, and this reduction does not impact the work supported by the Casey Family Programs grant. The City Budget Office noted that given current budget-to-actual trends in the MO this funding will not be needed in 2023 and do not anticipate any issues if Council uses this for other purposes.

This reduction is used to balance a portion of proposed Council Budget Action SDOT-006-C in the 2024 budget.

Amend Section 1 of CB 120705 as follows, renumber subsequent item numbers, and recalculate the total as needed.

Section 1. The appropriations for the following items in the 2023 Adopted Budget are reduced from the funds shown below:

Item	Department	Fund	Budget Summary Level/ BCL Code	Amount

Amendment 8 Version 1 to CB 120705 - 2023 Year-End Supplemental ORD

Sponsor: Chair Mosqueda

Create a New Unlimited Tax General Obligation Budget Control Level and Increase Appropriation

by \$210,000 in FAS

Effect: This amendment creates a new Debt Issuance Cost – Unlimited Tax General Obligation (UTGO) Budget Control Level (BCL) and increases appropriation by \$210,000 for debt issuance costs in the Department of Finance and Administrative Services (FAS).

In 2023, the City refunded the outstanding 2013 UTGO bonds, and as part of that transaction, costs of issuance were incurred. The City Treasury does not currently have a budget control level in place to recognize those costs. A budget control level is needed in order to account for the costs of issuance for UTGO bonds, both in relation to the 2023 refunding of 2013 UTGO bonds, and for future transactions relating to UTGO bonds. The costs of issuance are paid at the time of the transaction using the proceeds from the bond issuance.

Amend Section 2 of CB 120705 as follows, renumber subsequent item numbers, and recalculate the total as needed.

Section 2. In order to pay for necessary costs and expenses incurred or to be incurred in 2023, but for which insufficient appropriations were made due to causes that could not reasonably have been foreseen at the time of making the 2023 Budget, appropriations for the following items in the 2023 Budget are increased from the funds shown, as follows:

Item	Department	Fund	Budget Summary Level/ BCL Code	Amount
2.1	Department of Finance and Administrative Services	Finance and Administrative Services Fund (50300)	Facilities Services (50300-BO-FA-FACILITY)	\$2,000,000

<u>2.41</u>	<u>Department of Finance and Administrative Services</u>	<u>UTGO Bond Interest and Redemption Fund (20140)</u>	<u>Debt Issuance Cost – UTGO (FAS-BO-FA-DEBTISS-U)</u>	<u>\$210,000</u>
Total				\$296,940,225 \$296,730,225

Add a new Section 11 to CB 120705 as follows and renumber subsequent sections as appropriate:

Section 11. The 2023 Adopted Budget is amended with the creation of a new Debt

Issuance Cost – UTGO budget control level as follows:

<u>Item</u>	<u>Fund</u>	<u>Department</u>	<u>Budget Summary Level/ BCL Code</u>	<u>Budget Summary Level Purpose</u>
11.1	UTGO Bond Interest and Redemption Fund (20140)	Department of Finance and Administrative Services	Debt Issuance Cost – UTGO (FAS-BO-FA-DEBTISS-U)	The purpose of the Debt Issuance Cost – UTGO Budget Summary Level is to pay debt issuance costs related to Multipurpose Unlimited Tax General Obligation (UTGO) Debt Issuance.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to taxation; increasing the tax rates of the payroll expense tax imposed on persons engaging in business in Seattle; and amending Section 5.38.030 of the Seattle Municipal Code.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 5.38.030 of the Seattle Municipal Code, enacted by Ordinance 126108, is amended as follows:

5.38.030 Tax imposed-Rate

A. A payroll expense tax is hereby levied upon and shall be collected from every person engaging in business within Seattle.

B. The amount of the payroll expense tax due shall be the payroll expense of the business, subject to any deductions authorized under this Chapter 5.38, multiplied by the following rates:

1. For businesses with payroll expense up to \$99,999,999.99, the rate shall be:

a. (~~Seven-tenths~~) 0.701 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and

b. (~~One and seven-tenths~~) 1.701 percent of the payroll expense of employees with annual compensation of \$400,000 or more.

2. For businesses with payroll expense of \$100 million to \$999,999,999.99, the rate shall be:

a. (~~Seven-tenths~~) 0.701 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and

b. (~~One and nine tenths~~) 1.901 percent of the payroll expense of employees with annual compensation of \$400,000 or more.

3. For businesses with payroll expense of \$1 billion or greater, the rate shall be:

a. (~~One and four tenths~~) 1.401 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and

b. (~~Two and four tenths~~) 2.401 percent of the payroll expense of employees with annual compensation of \$400,000 or more.

C. The tax imposed by this Chapter 5.38 is levied on businesses. A business may not make any deductions from employees' compensation to pay for this tax.

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2020.

Monica Martinez Simmons, City Clerk

(Seal)

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
Legislative	Dan Eder/x4-8147	N/A

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to taxation; increasing the tax rates of the payroll expense tax imposed on persons engaging in business in Seattle; and amending Section 5.38.030 of the Seattle Municipal Code

Summary and background of the Legislation: This Council Bill would increase the rates for all businesses currently subject to the payroll expense tax imposed as provided for in Section 5.38 of the Seattle Municipal Code. This Council Bill would increase the projected revenues from the payroll expense tax by \$195,500 in 2021 which would be available to spend on a range of municipal priorities.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes **X** No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes **X** No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

Yes. If this Council Bill is passed, the City would be able to spend an additional approximately \$195,500 annually on a range of municipal priorities.

Is there financial cost or other impacts of *not* implementing the legislation?

No.

3.a. Appropriations

___ This legislation adds, changes, or deletes appropriations.

3.b. Revenues/Reimbursements

This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from this Legislation:

Fund Name and Number	Dept	Revenue Source	2020 Revenue	2021 Estimated Revenue
General Fund (10000)	N/A	Payroll Expense Tax	\$0	\$195,500
TOTAL	N/A		\$0	\$195,500

Is this change one-time or ongoing? Ongoing.

3.c. Positions

This legislation adds, changes, or deletes positions.

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department? N/A.
- b. Is a public hearing required for this legislation? No.
- c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant? No.
- d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation? No.
- e. Does this legislation affect a piece of property? No.
- f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public? None.
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s). N/A

List attachments/exhibits below: No attachments.

Amendment 1 Version 1 to CB 119950 – Increase Payroll Tax Rates

Sponsor: Councilmember Sawant

Co-sponsors: Chair Mosqueda and Councilmember Herbold

Increase the JumpStart Payroll Expense Tax rates to increase annual revenues by at least \$60 million.

Effect: This amendment increases the rates for all businesses currently subject to the payroll expense tax imposed as provided for in Section 5.38 of the Seattle Municipal Code (SMC) by a fraction of a percent, in nominal terms, across all the rate categories to increase annual revenues from this tax by \$60 million. This results in a 19.6 percent increase overall across all the rates, as follows:

Revenue Categories	Employee Compensation	Current Tax rate	Proposed Tax Rate in Am 1 to CB 119950
Category 1	Tier 1	0.7%	0.8%
	Tier 2	1.7%	2.0%
Category 2	Tier 1	0.7%	0.8%
	Tier 2	1.9%	2.3%
Category 3	Tier 1	1.4%	1.7%
	Tier 2	2.4%	2.9%

The increased revenue would be used to add:

1. \$20 million to the Department of Education and Early Learning (DEEL) to expand educational supports at Seattle Public Schools, prioritizing mental health services including, but not limited to, school-based mental health counselors and culturally specific and responsive programming from community-based organizations (see 2024 Council Budget Action DEEL-001-A); and
2. \$40 million to create a reserve in finance general to increase resources available to sustain future wages secured in the City's contract negotiations with the Coalition of City Unions. The intent is to provide an ongoing source of funds to help support the wages and programs and services that the employees within the Coalition of City Unions provide. The funds held in FG would be allocated to the appropriate departments following approval of a new contract for the Coalition (see 2024 Council Budget Action FG-501-A).

By passing this amendment the Council states its intent to amend SMC 5.38.055 in 2024 to amend how the proceeds from the JumpStart fund are allocated in the annual budget. This future change to SMC 5.38.055 would allow an ongoing use of JumpStart funds for the uses described above.

In addition, the signature block to CB 119950 would be updated to the current year (2023) and to reflect the current name of the Mayor and City Clerk.

Double underline indicates language added by this amendment. ~~Double strikethrough~~ indicates language removed by this amendment.

Amend Section 1 of CB 119950 as follows:

Section 1. Section 5.38.030 of the Seattle Municipal Code, enacted by Ordinance 126108, is amended as follows:

5.38.030 Tax imposed—Rate

A. A payroll expense tax is hereby levied upon and shall be collected from every person engaging in business within Seattle.

B. The amount of the payroll expense tax due shall be the payroll expense of the business, subject to any deductions authorized under this Chapter 5.38, multiplied by the following rates:

1. For businesses with payroll expense up to \$99,999,999.99, the rate shall be:
 - a. ((~~Seven tenths~~)) ~~0.701~~ 0.837 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and
 - b. ((~~One and seven tenths~~)) ~~1.701~~ 2.034 percent of the payroll expense of employees with annual compensation of \$400,000 or more.
2. For businesses with payroll expense of \$100 million to \$999,999,999.99, the rate shall be:

a. (~~Seven-tenths~~) ~~0.701~~ 0.0837 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and

b. (~~One and nine-tenths~~) ~~1.901~~ 2.273 percent of the payroll expense of employees with annual compensation of \$400,000 or more.

3. For businesses with payroll expense of \$1 billion or greater, the rate shall be:

a. (~~One and four-tenths~~) ~~1.401~~ 1.675 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and

b. (~~Two and four-tenths~~) ~~2.401~~ 2.871 percent of the payroll expense of employees with annual compensation of \$400,000 or more.

C. The tax imposed by this Chapter 5.38 is levied on businesses. A business may not make any deductions from employees' compensation to pay for this tax.

* * *

Amendment 2 Version 1 to CB 119950 – Increase Payroll Tax Rates

Sponsor: Councilmember Sawant

Co-sponsors: Chair Mosqueda and Councilmember Herbold

Increase the JumpStart Payroll Expense Tax rates to increase annual revenues by at least \$40 million

Effect: This amendment increases the rates for all businesses currently subject to the payroll expense tax imposed as provided for in Section 5.38 of the Seattle Municipal Code (SMC) by a fraction of a percent, in nominal terms, across all the rate categories to increase annual revenues from this tax by \$40 million. This results in a 13.1 percent increase overall across all the rates, as follows:

Revenue Categories	Employee Compensation	Current Tax rate	Proposed Tax Rate in Am 1 to CB 119950
Category 1	Tier 1	0.7%	0.8%
	Tier 2	1.7%	1.9%
Category 2	Tier 1	0.7%	0.8%
	Tier 2	1.9%	2.2%
Category 3	Tier 1	1.4%	1.6%
	Tier 2	2.4%	2.7%

The increased revenue would be used to create a \$40 million risk reserve in Finance General to increase resources available to sustain future wages secured in the City's contract negotiations with the Coalition of City Unions. The intent is to provide an ongoing source of funds to help support the wages and programs and services that the employees within the Coalition of City Unions provide. This \$40 million would be transferred from the JumpStart Fund to the General Fund following approval of a new contract for the Coalition.

By passing this amendment Council states its intent to amend SMC 5.38.055 in 2024 to amend how the proceeds from the JumpStart fund are allocated in the annual budget. This future change to SMC 5.38.055 would allow an ongoing use of JumpStart funds for the uses described above.

In addition, the signature block to CB 119950 would be updated to the current year (2023) and to reflect the current name of the Mayor and City Clerk.

Double underline indicates language added by this amendment. ~~Double strikethrough~~ indicates language removed by this amendment.

Amend Section 1 of CB 119950 as follows:

Section 1. Section 5.38.030 of the Seattle Municipal Code, enacted by Ordinance 126108, is amended as follows:

5.38.030 Tax imposed—Rate

A. A payroll expense tax is hereby levied upon and shall be collected from every person engaging in business within Seattle.

B. The amount of the payroll expense tax due shall be the payroll expense of the business, subject to any deductions authorized under this Chapter 5.38, multiplied by the following rates:

1. For businesses with payroll expense up to \$99,999,999.99, the rate shall be:

a. (~~Seven-tenths~~) ~~0.701~~ 0.792 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and

b. (~~One and seven-tenths~~) ~~1.701~~ 1.922 percent of the payroll expense of employees with annual compensation of \$400,000 or more.

2. For businesses with payroll expense of \$100 million to \$999,999,999.99, the rate shall be:

a. (~~Seven-tenths~~) ~~0.701~~ 0.792 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and

b. (~~One and nine-tenths~~) ~~1.901~~ 2.149 percent of the payroll expense of employees with annual compensation of \$400,000 or more.

3. For businesses with payroll expense of \$1 billion or greater, the rate shall be:

a. (~~One and four tenths~~) ~~1.401~~ 1.583 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and

b. (~~Two and four tenths~~) ~~2.401~~ 2.714 percent of the payroll expense of employees with annual compensation of \$400,000 or more.

C. The tax imposed by this Chapter 5.38 is levied on businesses. A business may not make any deductions from employees' compensation to pay for this tax.

Amendment 3 Version 1 to CB 119950 – Increase Payroll Tax Rates

Sponsor: Councilmember Sawant

Co-sponsors: Chair Mosqueda and Councilmember Herbold

Increase the JumpStart Payroll Expense Tax rates to increase annual revenues by at least \$20 million.

Effect: This amendment increases the rates for all businesses currently subject to the payroll expense tax imposed as provided for in Section 5.38 of the Seattle Municipal Code (SMC) by a fraction of a percent, in nominal terms, across all the rate categories to increase annual revenues from this tax by \$20 million. This results in a 6.5 percent increase overall across all the rates, as follows:

Revenue Categories	Employee Compensation	Current Tax rate	Proposed Tax Rate in Am 1 to CB 119950
Category 1	Tier 1	0.7%	0.8%
	Tier 2	1.7%	1.8%
Category 2	Tier 1	0.7%	0.8%
	Tier 2	1.9%	2.0%
Category 3	Tier 1	1.4%	1.5%
	Tier 2	2.4%	2.6%

The increased revenue would be used to add \$20 million to the Department of Education and Early Learning (DEEL) to expand educational supports at Seattle Public Schools, prioritizing mental health services including, but not limited to, school-based mental health counselors and culturally specific and responsive programming from community-based organizations (see 2024 Council Budget Action DEEL-001-A).

By passing this amendment the Council states its intent to amend SMC 5.38.055 in 2024 to amend how the proceeds from the JumpStart fund are allocated in the annual budget. This future change to SMC 5.38.055 would allow an ongoing use of JumpStart funds for the uses described above.

In addition, the signature block to CB 119950 would be updated to the current year (2023) and to reflect the current name of the Mayor and City Clerk.

Double underline indicates language added by this amendment. ~~Double strikethrough~~ indicates language removed by this amendment.

Amend Section 1 of CB 119950 as follows:

Section 5.38.030 of the Seattle Municipal Code, enacted by Ordinance 126108, is amended as follows:

A. A payroll expense tax is hereby levied upon and shall be collected from every person engaging in business within Seattle.

B. The amount of the payroll expense tax due shall be the payroll expense of the business, subject to any deductions authorized under this Chapter 5.38, multiplied by the following rates:

1. For businesses with payroll expense up to \$99,999,999.99, the rate shall be:

a. (~~Seven tenths~~) ~~0.701~~ 0.746 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and

b. (~~One and seven tenths~~) ~~1.701~~ 1.811 percent of the payroll expense of employees with annual compensation of \$400,000 or more.

2. For businesses with payroll expense of \$100 million to \$999,999,999.99, the rate shall be:

a. (~~Seven tenths~~) ~~0.701~~ 0.746 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and

b. (~~One and nine tenths~~) ~~1.901~~ 2.024 percent of the payroll expense of employees with annual compensation of \$400,000 or more.

3. For businesses with payroll expense of \$1 billion or greater, the rate shall be:

a. (~~One and four tenths~~) ~~1.401~~ 1.492 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and

b. (~~Two and four tenths~~) ~~2.401~~ 2.557 percent of the payroll expense of employees with annual compensation of \$400,000 or more.

Aly Pennucci / Tom Mikesell
Select Budget Committee

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE adopting a budget, including a capital improvement program and position modifications, for The City of Seattle for 2024; and creating positions exempt from civil service; all by a 2/3 vote of the City Council.

WHEREAS, in accordance with RCW 35.32A.030, the Mayor submitted a proposed budget for 2024 to the City Council; and

WHEREAS, the Mayor submitted a list of proposed position modifications as part of the 2024 Proposed Budget; and

WHEREAS, by Resolution 24964, the City Council adopted the concept of implementing the City's Capital Improvement Program through appropriations in a budget adopted annually to the greatest extent feasible; and

WHEREAS, the proposed budget for 2024 includes certain appropriations for capital programs that are described in the 2024-2029 Proposed Capital Improvement Program; and

WHEREAS, the City's 2024-2029 Capital Improvement Program, in conjunction with the Capital Facilities, Utilities, and Transportation Elements of the Comprehensive Plan, is in accordance with the State Growth Management Act; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. (a) In accordance with RCW 35.32A.050, the City Council has modified the proposed budget submitted by the Mayor.

(b) The appropriations for the budget control levels in Attachment A to this ordinance, as

restricted by the budget provisos included in Clerk File (C.F.) 314529, are adopted as the City’s annual budget for 2024. If a budget proviso refers to a City Council committee, and a committee by that name ceases to exist, the reference shall be to the successor committee with policy oversight of the same subject matter area.

(c) The appropriation for each budget control level in Attachment A to this ordinance may be used only for the purpose listed in Attachment A for that budget control level, unless transferred pursuant to Seattle Municipal Code (SMC) Chapter 5.08. Use of any amount of any appropriation restricted by one or more of the provisos in C.F. 314529 for any purpose other than that stated, or for any purpose expressly excluded, or in violation of any condition specified by proviso, whether by transfer pursuant to SMC 5.08.020 or by any other means, is prohibited.

(d) In addition to each budget control level in Attachment A to this ordinance, any budget control level created by a previous budget, for which appropriations remain that have not lapsed, is part of the 2024 budget and the un-lapsed appropriations for that budget control level are subject to the restrictions in subsection 1(c) of this ordinance. These un-lapsed appropriations continue to be subject to any provisos previously placed on them that have yet to be removed or satisfied.

(e) The funds appropriated in each budget control level are available to first satisfy any obligations incurred by contract, including but not limited to satisfaction of any bond obligation, contractual indemnity provision, or lease obligation.

(f) Unspent funds for the Executive Department Office of Housing’s Low-Income Housing Fund 16400 Budget Control Level, appropriated by subsection 1(b) of this ordinance, shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance.

(g) The revenue estimates for 2024 contained in the Mayor’s 2024 Proposed Budget, filed in C.F. 314527, as modified by the changes of the City Council in C.F. 314529, are adopted.

Section 2. The “CIP Project Pages” of the 2024-2029 Proposed Capital Improvement Program submitted by the Mayor, filed in C.F. 314528, as modified by the changes of the City Council in C.F. 314529,

are adopted as the City's six-year Capital Improvement Program (CIP).

Section 3. (a) The officer and employee position modifications in Attachment B to this ordinance, including the creation of some positions exempt from civil service, are adopted effective January 1, 2024. MikeseT1

(b) The City, by enacting Ordinance 126883, established a position list effective as of January 1, 2023. Subsection 3(a) of this ordinance modifies that list. It is anticipated that the Seattle Department of Human Resources will submit a proposed list of the City's regular positions for each department or office as of January 1, 2024 to the City Council for possible action in 2024. The proposed list should reflect (i) the modifications made in subsection 3(a) of this ordinance that take effect on January 1, 2024; (ii) the reclassifications of regular positions made by the Human Resources Director from January 1, 2023, through December 31, 2023; and (iii) the creation, modification, or abrogation of regular positions, by ordinance, that took effect from January 1, 2023, through December 31, 2023.

Section 4. (a) Subject to the conditions in Section 1 of this ordinance, the appropriation of money in the budget adopted by this ordinance, for a budget control level that includes a program or project assigned a project identification number in the 2024-2029 Adopted CIP, constitutes authority for the designated City department, commission, or office (after compliance with the State Environmental Policy Act) to acquire personal property; obtain options to acquire real property; negotiate to acquire right-of-way and other real property interests; prepare plans and designs; demolish, construct, or make improvements; and obtain any ancillary services, including, without limitation, planning, engineering, design, appraisal, escrow, title insurance, construction, inspection, environmental audits, and remediation appraisals or other reviews; all in order to carry out the project or program substantially as described in the 2024-2029 Adopted CIP. Each department may obtain the authorized services or property using City staff or by contract as authorized in subsection 4(j) of this ordinance. If projects or programs are identified in the 2024-2029 Adopted CIP to be

carried out by other entities wholly or in part with City funds, the appropriation constitutes authority to provide such funds to such other entities for such purposes, subject to applicable laws and ordinances.

(b) None of the appropriations in the 2024 Adopted Budget may be spent on capital projects or programs unless the projects or programs are specifically identified and assigned a project identification number in the 2024-2029 Adopted CIP or are added to the 2024-2029 Adopted CIP by a future amending ordinance.

(c) Without future Council authorization by ordinance, expenditures in 2024 on any project or program identified and assigned a project identification number in the 2024-2029 Adopted CIP for Seattle City Light, Seattle Public Utilities, or the Seattle Department of Transportation, other than expenditures pursuant to unspent capital appropriations carried forward from 2023 into 2024 in accordance with RCW 35.32A.080 and allocated to the same project or program, shall not exceed by more than \$1,000,000 the amount shown as the Appropriations Total in the 2024 column for that project or program in the Adopted CIP, as that amount may be amended by ordinance. The City Budget Office shall certify to the Chair of the City Council Budget Committee a list of those unspent capital appropriations not subject to the expenditures restriction imposed by this subsection by May 1, 2024, and shall also file the list with the City Clerk. The list shall include the project identification number and the dollar amount by project or program not subject to the expenditure restriction, at minimum.

(d) Moneys appropriated from funds, accounts, and subaccounts in which are deposited the proceeds derived from the issuance of bonded obligations shall be expended only in accordance with the terms, conditions, and restrictions of ordinances authorizing such obligations and establishing the respective funds.

(e) The 2024-2029 Adopted CIP is part of the 2024 Adopted Budget and identifies, among other projects, those capital projects funded wholly or in part from the proceeds of the taxes authorized in RCW 82.46.010 and/or RCW 82.46.035, and/or from the proceeds of bonds, for the repayment of which tax revenues under RCW 82.46.010 and/or RCW 82.46.035 have been pledged. Such taxes are intended to be in addition to

other funds that may be reasonably available for such capital projects.

(f) The portions of the 2024-2029 Adopted CIP pertaining to Seattle City Light and Seattle Public Utilities, as those portions of the 2024-2029 Adopted CIP may be amended from time to time, are adopted as systems or plans of additions to, and betterments and extensions of, the facilities, physical plants, or systems of Seattle City Light and Seattle Public Utilities, respectively.

(g) The Director of Finance and Administrative Services and the City's Director of Finance are authorized to draw and pay the necessary warrants or checks and to make any necessary transfers among funds and accounts.

(h) Except as limited by this section or by Section 1 of this ordinance or by any other ordinance, the funds appropriated in the 2024 Adopted Budget are subject to transfer for use with other projects as provided in SMC Chapter 5.08.

(i) The Mayor, or, at the Mayor's request, the head of the department that is designated to carry out a project for and on behalf of The City of Seattle, is authorized to submit applications as may be deemed appropriate to the United States of America, or any of its departments, and the State of Washington, or any of its departments, for financial assistance in carrying out the authorized projects included in the 2024-2029 Adopted CIP; to make for and on behalf of the City all assurances, promises, representations, and consent to suit, and/or covenants to comply with any applicable regulations of the United States relating to implementation of the projects; to act in connection with the applications as the authorized representative of the City; to provide additional information as may be required; and to prepare plans for implementation of terms and conditions as may accompany financial assistance, provided that the submission of an application shall not result in the making of a contract, in incurring of any indebtedness, or in the acceptance of moneys imposing any duties or obligations upon the City except as is authorized by this or another ordinance.

(j) The Director of Transportation, the Superintendent of Parks and Recreation, the Director of the Office of Arts and Culture, the General Manager and Chief Executive Officer of City Light, the General

Manager and Chief Executive Officer of Seattle Public Utilities, the Director of the Department of Finance and Administrative Services, the City Librarian, the Chief Technology Officer, and the Director of the Seattle Center Department are authorized to negotiate for and enter into non-public works contracts, within their appropriation authority, to obtain property and services authorized in Section 4 of this ordinance to carry out those capital projects and programs included in the 2024-2029 Adopted CIP and assigned to their respective departments or offices.

Section 5. The Mayor and the City Council find that the General Fund's 2024 contribution to the Park and Recreation Fund exceeds the requirements established in Article XI, Section 3 of the City Charter.

Section 6. Pursuant to the requirements of Ordinance 117216, Ordinance 118814, Ordinance 122293, Ordinance 122859, Ordinance 123459, Ordinance 124057, Ordinance 124640, and Ordinance 125190, the City in subsection 1(b) of this ordinance and Attachment A to this ordinance appropriates to the Firefighters' Pension Fund ("the Fund") \$21,962,930, of which \$20,131,305 comes from General Fund resources. No beneficiary of the Fund has a vested contractual right to the appropriation of the foregoing amount or any amount appropriated by the City to the Fund.

The Mayor and the City Council, under the authority granted by RCW 41.16.060, find that the General Fund's 2024 contribution to the Fund is equal to \$0.067 per \$1,000 of assessed value and provides, in accordance with the 2023 Actuarial Report on the condition of the Fund received from a qualified actuary dated June 14, 2023, together with other amounts appropriated by the City for the Fund, an amount equal to or greater than the estimated demands on the fund for 2024 and maintains the actuarial soundness of the Fund as it prevents recording a positive net pension obligation for the Fund.

The Mayor and the City Council find that the amount appropriated by this ordinance is appropriated for the purpose of keeping the Fund flexible and maintaining its integrity and actuarial soundness. The Mayor and City Council also find that such amount is reasonable for the purposes established in the ordinances listed at the beginning of this Section 6, and that such amount bears a material relation to the successful operation of the

Fund.

Section 7. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 8. This ordinance shall take effect and be in force on January 1, 2024.

Passed by a 2/3 vote of all the members of the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

Scheereen Dedman, City Clerk

1	Position Modifications for the 2024 Budget			
	The following is the list of position modifications for the 2024 Proposed Budget that take effect January 1, 2024.			
2	The modifications result from budget actions that eliminate positions, create new positions, change the status of a position, and reclassify positions. Numbers in parentheses are reductions. The figures in the column labeled “Number” represent net position modifications, by Position Status, as a result of changes contained in the 2024 Proposed Budget.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
City Budget Office		Adam Schaefer

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE adopting a budget, including a capital improvement program and position modifications, for The City of Seattle for 2024; and creating positions exempt from civil service; all by a 2/3 vote of the City Council.

Summary and background of the Legislation: This ordinance adopts The City of Seattle’s 2024 Budget, which includes the 2024-2029 Capital Improvement Program (CIP) and position modifications for fiscal year 2024. This legislation is submitted annually to adopt The City of Seattle’s budget for the next fiscal year.

2. CAPITAL IMPROVEMENT PROGRAM

a. Does this legislation create, fund, or amend a CIP Project? Yes No

Please see the 2024-2029 Proposed/Adopted Capital Improvement Program for project pages and details.

3. SUMMARY OF FINANCIAL IMPLICATIONS

a. Does this legislation amend the Adopted Budget? Yes No

Please see the 2024 Proposed/Adopted Budget for appropriations, revenues, and positions.

b. Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
Please see the Budget, CIP, and report of position modifications for detailed information regarding the financial and long-term implications of this legislation.

c. Is there financial cost or other impacts of *not* implementing the legislation?
RCW 35.32A.050 states that, “Not later than thirty days prior to the beginning of the ensuing fiscal year the City Council shall, by ordinance, adopt the budget submitted by the Mayor as modified by the City Council.” This legislation is the mechanism by which the Seattle City Council adopts the final budget for the City of Seattle.

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**
Yes, all City departments are affected by this legislation. All City departments are aware of the nature of the impact.
- b. Is a public hearing required for this legislation?**
Yes. The City Council’s Budget Committee will hold public hearings on October 18 and November 13, 2023.
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- d. Does this legislation affect a piece of property?**
No.
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities?**
Please see the RSJI summary section for an overview and individual department/program descriptions for detailed description of how the Budget impacts Race and Social Justice Initiative principles.
- f. Climate Change Implications**
- 1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
Individual programs and initiatives are described in detail in the Budget and CIP.
 - 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle’s resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**
Individual programs and initiatives are described in detail in the Budget and CIP.
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program’s desired goal(s).**
New and expanded programs are described in detail in the Budget and CIP.

General Fund	\$0	
Other Funds	\$(163,000)	
Total Budget Balance Effect	\$(163,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) adds \$163,000 Arts and Culture Fund to ARTS to provide additional funding for established community grant programs and imposes a proviso. Of this amount, \$20,000 is one-time and \$143,000 is ongoing.

The 2024 Proposed Budget Adjustments include an additional \$257,000 of ongoing funding for existing grant programs to account for historically high inflation rates. According to the Seattle Arts Commission, this proposed 7.6 percent adjustment represents the first adjustment to these grant programs in over 12 years. This CBA will increase the total amount of ongoing grant award adjustments to \$400,000, representing a 12 percent increase.

The ongoing funding will increase grant awards from ARTS' community grant programs including, but not limited to, Centering Art & Racial Equity (CARE), which supports arts and culture, heritage and arts services organizations; Youth Arts, which supports creative learning opportunities outside school time; and City Artist, which supports Seattle-based individual artists and curators in the research, development, and presentation of new creative products. ARTS is currently completing a racial equity analysis and impact assessment to determine how to best channel the proposed budget increase in grant awards across their programs.

This CBA also adds \$20,000 of one-time support for programming that showcases films from the global Latino community and promotes cross-cultural understanding in Seattle, such as the Seattle Latino Film Festival. This CBA imposes a proviso on these funds to reserve them solely for this purpose. For reference, the Seattle Latino Film Festival was awarded a three-year CARE grant of \$5,590 per year for 2023-2025.

This CBA uses \$163,000 of the unallocated \$900,000 from the Arts and Culture Fund that is available due to higher than anticipated Admission Tax revenue in the October 2023 Revenue Forecast.

The financial plan for the Arts and Culture Fund included in the 2024 Proposed Budget Adjustments shows a positive unrestricted fund balance in 2025 and beyond. This CBA will reduce the unrestricted fund balance but based on the current financial plan, the ongoing appropriation can be supported without creating a deficit in this fund in the future.

This CBA imposes the following proviso:

"Of the appropriations in the Office of Arts and Culture's 2024 budget for the Arts and Cultural Programs Budget Summary Level (ARTS-BO-AR-VA160), \$20,000 Arts and Culture Fund is appropriated solely for programming that showcases films from the global Latino community and may be spent for no other purpose."

ARTS-002-A

Add \$150,000 Arts and Culture Fund to ARTS for an African cultural and arts center

SPONSORS

Tammy Morales, Lisa Herbold, Alex Pedersen, Andrew Lewis

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(150,000)	
Total Budget Balance Effect	\$(150,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$150,000 Arts and Culture Fund (one-time) to the Office of Arts and Culture (ARTS) to support the acquisition of a cultural arts space for African immigrant and legacy communities, including African American communities, such as the African Cultural Arts Center (ACAC). This CBA supports a community-based project to create a community hub for African arts in the Rainier Valley Creative District, providing African cultural and heritage activities, gatherings, lessons, and artifact display. The center will provide arts education for youth and families. The Equitable Development Initiative (EDI) provided \$75,000 JumpStart Fund to support capacity-building for the ACAC project in 2023. ARTS should work with the Office of Planning and Community Development to ensure that the City's funding for this project is aligned.

Funding for this CBA comes from higher-than-anticipated Admissions Tax revenues identified in the October Revenue forecast. The financial plan for the Arts and Culture Fund included in the 2024 Proposed Budget Adjustments shows a positive unrestricted fund balance in 2025 and beyond. This one-time spending will not impact the sustainability of this fund in the future.

ARTS-003-A

Add \$250,000 Arts and Culture Fund to ARTS for art recognizing and preserving the legacy of the forced expulsion of Chinese Americans

SPONSORS

Tammy Morales, Alex Pedersen, Andrew Lewis

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(250,000)	
Total Budget Balance Effect	\$(250,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action adds \$250,000 Arts and Culture Fund (one-time) to the Office of Arts and Culture (ARTS) to support an art project recognizing the anti-Chinese riots of 1886 and preserving the legacy of Chinese people forcibly expelled from Seattle, such as the Chinese American Legacy Artwork Project. It reduces \$250,000 from the Arts and Culture Fund that is available as a result of higher than anticipated admissions tax revenue from the October economic revenue forecast.

The Wing Luke Museum is partnering with a community-led committee to create such a piece of artwork on the Alaskan Way promenade adjacent to the Central Waterfront, along the east side of the street between South Washington St. and Main St. This location reflects from where Chinese people were expelled, on the docks along Seattle's Harbor. The project is intended to memorialize the historical injustice of the 1886 anti-Chinese riots and the subsequent expulsion of Chinese immigrants from the city. The primary goal of this project is to create a permanent and substantial artwork that recognizes and preserves the legacy of this forced expulsion. The art is planned for donation to the City's public art collection.

Background

ARTS and the Office of the Waterfront and Civic Projects (OWCP) have indicated that in 2018/2019, community members approached OWCP for support for this project; this request came after the Waterfront Art Program had already awarded artwork commissions and allocated funding through competitive processes. The ARTS Director at the time offered to provide a site for a privately-funded project within the boundaries of the Waterfront Program, specifically on Alaskan Way.

In 2019, the ARTS Director and the Wing Luke Museum's Deputy Director informally agreed that the City would accept this artwork into the City's public art collection. The original project budget was \$28,000 for design and \$180,000 for fabrication and installation. OWCP tracked and reviewed the project as the commissioned artist developed his proposal and budget and the project was presented to the Seattle Art Commission's Public Art Advisory Committee (PAAC) for their feedback in 2021. The presentation in front of PAAC was not for the purposes of a vote, though as part of the process for accepting a piece of artwork into the City's public art collection, PAAC will have to take a vote at a future time. A 2022 estimate for the artwork increased the cost to \$500,000 (project cost plus 25 percent contingency).

The financial plan for the Arts and Culture Fund included in the 2024 Proposed Budget Adjustments shows a positive unrestricted fund balance in 2025 and beyond. This onetime spending will not impact the sustainability of this fund in the future.

ARTS-004-A

Add \$100,000 Arts and Culture Fund to ARTS to support the Bumbershoot Workforce Development Program

SPONSORS

Andrew Lewis, Lisa Herbold, Tammy Morales, Alex Pedersen, Debora Juarez

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(100,000)	
Total Budget Balance Effect	\$(100,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) adds \$100,000 Arts and Culture Fund (one-time) to the Office of Arts and Culture (ARTS) for the Bumbershoot Workforce Development Program (BWDP) in conjunction with the annual Bumbershoot Arts and Music Festival held at the Seattle Center. The appropriation would support teaching about 20 young people, ages 17 to 25 years-old, the skills of concert and event promotion.

Third Stone is Seattle Center's non-profit partner responsible for the main Bumbershoot Festival event and the education program. Seattle Center staff reports that Third Stone enrolled 16 individuals in the inaugural 2023 BWDP cohort. These individuals are currently engaged in workshops, training, and internships with local partner venues. Demographically, 75 percent of participants are LGBTQIA+ and BIPOC, and 88 percent come from households earning under \$70,000 annually. Third Stone plans to enroll in the BWDP a minimum of 20 young people in 2024 and potentially up to 25 young people in 2025.

This CBA uses \$100,000 of the unallocated \$900,000 from the Arts and Culture Fund that is available because the Admission Tax revenue estimated in the October 2023 Revenue Forecast exceeds the Admission Tax revenue estimate that informed the Mayor's 2024 Proposed Budget Adjustments. The financial plan for the Arts and Culture Fund included in the 2024 Proposed Budget Adjustments shows a positive unrestricted fund balance in 2025 and beyond. This one-time spending will not impact the sustainability of this fund in the future.

Separately, CBA CEN-801-A in the Chair's Balancing Package adds \$150,000 JumpStart Fund to Seattle Center for BWDP ongoing in 2024. If Council and the Mayor approve the 2024 Budget including both CBAs, then total City funding for this program in 2024 would be \$250,000.

In the 2023-2024 budget process last fall, Council approved one-time funding of \$100,000 JumpStart Fund for BWDP and removed the same amount of funding for this purpose that the Mayor had proposed for 2024.

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(100,000)	
Total Budget Balance Effect	\$(100,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$100,000 Arts and Culture Fund (one-time) to the Office of Arts and Culture (ARTS) for organizational development and strategic planning activities as requested in Statement of Legislative Intent (SLI) ARTS-801S-A. ARTS anticipates undergoing a strategic planning effort in 2024 that will evaluate its strengths, resources, and the arts and cultural landscape of Seattle. The exercise is anticipated to include structured conversations with ARTS staff, community listening sessions, and engagement with the Seattle Arts Commission. Informed by this process, ARTS anticipates developing a City Cultural Plan in 2025 that identifies key priorities and programs for the office and an established role for community stakeholders in guiding these investments.

The financial plan for the Arts and Culture Fund included in the 2024 Proposed Budget Adjustments shows a positive unrestricted fund balance in 2025 and beyond. This one-time spending will not impact the sustainability of this fund in the future.

2024 STATEMENT OF LEGISLATIVE INTENT

V2

ARTS-801S-A

Request that ARTS develop a strategic planning framework for the Arts and Culture Fund

SPONSORS

Teresa Mosqueda

DESCRIPTION

2024 STATEMENT OF LEGISLATIVE INTENT

This Statement of Legislative Intent (SLI) requests that the Office of Arts and Culture (ARTS) advance a strategic planning framework for ARTS resources - a City Cultural Plan – that includes, but is not limited to, population-level desired outcomes, key priorities and programs for investments from the Arts and Culture Fund, and an established role for community stakeholders in guiding these investments. ARTS has not previously undergone this type of effort for the Arts and Culture fund as a whole.

Recognizing that the City Cultural Plan may take more than a year to complete, this SLI specifically requests that ARTS complete an initial phase by the end of the third quarter 2024 reflecting an internal review and landscape analysis, as well as strategic planning proposal to be executed in Q4 2024 and 2025. These should reflect continuous engagement and co-design with stakeholders, including community organizational partners, local artists, the Seattle Arts Commission, and ARTS staff.

Organizational Role and Landscape

ARTS should complete an internal review and landscape analysis to lay the groundwork for a City Cultural Plan that addresses the following questions and areas of focus:

- What are the mission, vision, and values of ARTS?
- What is ARTS' role in advancing arts and culture in the city?
- How does ARTS relate to the local arts and culture community, including but not limited to: artists, arts organizations, businesses, cultural spaces, and philanthropic organizations?
- How does ARTS center racial equity in its approach, both internally and externally?

Planning Proposal for the Citywide Cultural Plan

ARTS should develop a strategic planning proposal including but not limited to:

- An overview of the current and potential resources available, both locally and beyond, to advance arts and culture in Seattle;
- A review of other comparable jurisdictions' resources and programming for arts and culture, and any lessons learned from the experiences of other jurisdictions;
- A detailed community engagement strategy for completing the City Cultural Plan;
- An updated cost estimate for developing the City Cultural Plan; and
- A timeline of activities to be completed in 2024 and 2025 towards this effort.

ARTS should report its landscape analysis and planning proposal to the Neighborhoods, Education, Civil Rights and Culture Committee, or successor committee, by September 3, 2024.

Responsible Council Committee(s): Neighborhoods, Education, Civil Rights, and Culture Committee

ARTS-802-A

Add \$20,000 GF to ARTS to support projects featuring African American artists' experience in Nordic countries

SPONSORS

Dan Strauss

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(20,000)	
Total Budget Balance Effect	\$(20,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$20,000 GF (one-time) to the Office of Arts and Culture (ARTS) to support projects featuring African American artists and their experiences in Nordic countries, such as the National Nordic Museum's "Nordic Utopia: African Americans in the 20th Century" exhibit. ARTS has not previously provided funding for this purpose. The City's Arts and Culture Fund, through the Centering Art and Racial Equity (CARE) grant program, currently funds the National Nordic Museum for general operating expenses at \$5,000 annually.

This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(675,000)	
Total Budget Balance Effect	\$(675,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$675,000 JumpStart Fund (one-time) to the Office of Arts and Culture (ARTS) to support arts, neighborhood identity, and public space improvements in the Interbay neighborhood. This funding is intended to support improvements to the pedestrian environment that integrate with the Seattle Storm Center for Basketball Performance, in consultation with the project developers. This funding should be used for artists and/or arts organizations to provide improvements such as murals, community-designed crosswalks, and wayfinding, as well as to support the work of local Black, Indigenous, and People of Color (BIPOC) artists.

The Seattle Storm Center for Basketball Performance will serve as the dedicated practice facility for the WNBA’s Seattle Storm team, as well as a space for youth basketball programs. It is expected to be completed in Spring 2024.

The financial plan for the JumpStart Fund included in the 2024 Proposed Budget Adjustments shows a positive unrestricted fund balance in 2025 and beyond. This one-time spending will not impact the sustainability of this fund in the future.

SDOT-803-A

Proviso \$600,000 in SDOT for paving improvements in the vicinity of the Seattle Storm training facility

SPONSORS

Debora Juarez

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Total Budget Balance Effect	\$0	

DESCRIPTION

This Council Budget Action (CBA) imposes a proviso on \$600,000 in the Seattle Department of Transportation (SDOT) for paving improvements in the vicinity of the Seattle Storm training facility. As part of the development of the Seattle Storm training facility, the project is responsible for repaving half of the streets (from property line to centerline) that are adjacent to the facility. The funds under proviso support repaving of the remaining half of the right-of-way that is not the responsibility of the project developer.

The proviso would reserve funds in the Non-Arterial Street Resurfacing and Restoration Capital Improvement Program (CIP) project, which supports repair of deteriorated asphalt and concrete panels on non-arterial streets. The 2024-2029 Proposed CIP includes \$2.4 million in 2024 for this program, and planned spending does not include consideration of right-of-way improvements in the vicinity of the Seattle Storm training facility. The proviso reduces the amount of funds available for other Non-Arterial Street Resurfacing and Restoration CIP project work in 2024.

This CBA imposes the following proviso:

"Of the appropriations in the Seattle Department of Transportation's 2024 budget for the Non-Arterial Street Resurfacing and Restoration (MC-TR-C041) project in the 2024-2029 Capital Improvement Program, \$600,000 is appropriated solely for paving improvements on 16th Ave W, W Bertona St, and/or Thorndyke Ave W, in the vicinity of the future Seattle Storm Center for Basketball Performance, and may be spent for no other purpose."

AUD-801-A

Add \$40,000 GF to AUD for staffing costs

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(40,000)	
Total Budget Balance Effect	\$(40,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$40,000 GF to the Office of City Auditor (AUD) for staffing costs. These funds will be used for staff recruitment and retention, enabling a competitive salary for a vacant auditor position, and salary adjustments to advance pay equity.

As a small office with 10 FTEs, about 90 percent of AUD's budget is spent on labor expenses and the balance is allocated to tenancy charges, consulting services, and other necessary expenditures. There is limited opportunity to use salary savings or draw from other parts of the budget to offset salary costs. In recent years, about half of AUD's staff retired and the office seeks to hire experienced candidates for jobs requiring significant training and skills to comply with U.S. Comptroller General's Government Auditing Standards.

This funding will allow AUD to either hire a more experienced candidate or fill a vacant position so that the office can conduct more performance audits and special projects in 2024 and in future years.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium by \$40,000 a year.

2024 STATEMENT OF LEGISLATIVE INTENT

V2

CBO-002S-A

Request that CBO report on how to create an independent Office of Police Accountability (OPA) budget

SPONSORS

Teresa Mosqueda, Lisa Herbold, Tammy Morales

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the City Budget Office (CBO) report on the legal, accounting, budget, and resource issues that must be addressed to create an Office of Police Accountability (OPA) budget that is independent from SPD in the Mayor's 2025-2026 Proposed Budget.

CBO should report to the Finance & Housing Committee, or successor committee, by May 1, 2024.

Background: The 2017 Accountability Ordinance (see ORD 125315) establishes an independent Office of Police Accountability as an impartial, autonomous body that receives, classifies, and investigates allegations of police misconduct. To constitute the budgetary independence of the OPA, Section 3.29.410(E) (Continuous Improvement) requests that the Executive provide in writing to the City Council notification of changes made in the Mayor's Proposed Budget to the City of Seattle's police accountability departments. OPA has its own Budget Summary Level within the SPD budget but is nonetheless subject to CBO's budgetary processes as implemented and executed by the SPD Chief and Finance Director. An independent budget may provide OPA with additional autonomy to make financial requests of the City Council and to manage its own assets separately from the larger SPD.

Errata Corrections to the Proposed Budget Adjustments and CIP

SPONSORS

Budget Committee

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(1,872,171)	
Total Budget Balance Effect	\$(1,872,171)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) corrects errors in appropriations and revenues for the 2024 Proposed Budget Adjustments. Also, this CBA adds three missing project pages to the 2024 – 2029 Proposed Capital Improvement Program (CIP). The City Budget Office and Central Staff identified these errata after transmittal to the City Council.

Central Staff reviewed the proposed corrections and finds that they do not represent policy choices and are appropriately addressed as a single budget action. Any conflicting effect of CBAs included in Council's final decision on the 2024 Budget or the 2024-2029 CIP would override changes included in this Errata CBA.

Only transactions that correct appropriations or revenues that were included in the 2024 Proposed Budget Adjustments are included in the Summary of Dollar Effect tables above. Discrete corrections to appropriations and revenues are shown in separate transactions in the Transaction table below.

The corrections included in this CBA by department include:

ARTS 1: This item reduces the Municipal Arts Fund revenues by \$2.7 million to align it with projections from contributing departments in 2024.

OH 1: Via two transactions, this item corrects the alignment of the JumpStart Fund programmatic split between homeownership and multifamily capital with allocations set forth in Seattle Municipal Code. It reduces the homeownership appropriation by \$543,000 and increases the multifamily appropriation by the same amount.

SCL 1: This item addresses a technical issue where three SCL project pages were inadvertently omitted from the Proposed 2024-2029 CIP. No corresponding budget transactions are necessary. This CBA adds to the SCL CIP the following project pages: Distribution Systems Replacement (MC-CL-YR8333), Network Services (MC-CL-ZS8370), and Network Systems (MC-CL-YN8630) as shown in Attachment A. There are no corresponding transactions.

SDOT 1: This item adds \$790,000 of revenue to the School Safety Traffic and Pedestrian Improvement Fund that was inadvertently omitted from the budget.

2024 COUNCIL BUDGET ACTION

V2

CBO-900-A

Reduce proposed funding and position authority for 2.0 FTE Strategic Advisor 2 for evaluation of JumpStart Fund-supported programs by \$1 million GF in CBO

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$1,013,647	
Total Budget Balance Effect	\$1,013,647	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) reduces proposed funding for evaluation and reporting on the effectiveness of programs funded by the JumpStart Fund by \$1 million GF and position authority for 2.0 FTE Strategic Advisor 2 in the City Budget Office (CBO). The GF funding in the 2024 Proposed Budget Adjustments for this work was supported by the transfer from the JumpStart Fund to the GF for all spending within the administration category of the JumpStart Fund spending policies.

The JumpStart Fund allocates up to five percent of JumpStart Fund resources to administer and evaluate the effectiveness of the JumpStart Payroll Expense Tax (JumpStart Tax) and to administer the investments and evaluate the effectiveness of those investments funded with JumpStart Tax revenues. At the time the JumpStart Tax was adopted the Council established a Payroll Tax Oversight Committee (Oversight Committee) to provide “oversight on the services and programs supported by the tax in Chapter 5.38 and its impacts on the number of jobs and businesses in the City, and other data that directly relates to measuring the impact of the tax on the City's economy.”

When the Oversight Committee was established in Seattle Municipal Code, the intent was that existing City staff would provide information to the committee to inform their oversight role. Once established, the committee will be engaged in shaping how the City evaluates the impacts of this tax and the investments supported by the fund. Because it is not yet established (but expected to be established by the end of 2023 or early 2024), it still appears premature to determine if new positions are necessary and if the Innovation and Performance Team within CBO is the right home for those positions.

The 2024 Proposed Budget Adjustments include \$50,000 GF, backed by the transfer from the JumpStart Fund within the administration category, to support the Oversight Committee's creation of an annual report, member stipends, and other general support to the board. CBA DON-802-A adds \$100,000 GF (supported by the reduction in this CBA) to increase resources for the Oversight Committee to conduct its work. In addition, there is ongoing funding for 1.0 FTE Strategic Advisor 1 in the Department of Neighborhoods to facilitate the Oversight Committee.

Following the City's October 2023 Revenue Forecast that increased projected JumpStart Fund revenues in 2024 and beyond, the Council increased the planning reserves in the JumpStart Fund by \$1.3 million. If additional resources are needed to support the Oversight Committee's work, Council intends to appropriate funds from the reserve for that purpose and to determine which department should lead that work.

CEN-801-A

Add \$150,000 JumpStart Fund to CEN for Bumbershoot Workforce Development Program

SPONSORS

Andrew Lewis

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(150,000)	
Total Budget Balance Effect	\$(150,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) adds \$150,000 JumpStart Fund ongoing to the Seattle Center (CEN) for the Bumbershoot Workforce Development Program (BWDP) in conjunction with the annual Bumbershoot Arts and Music Festival held at the Seattle Center. The appropriation would support teaching about 20 young people, ages 17 to 25 years-old, the skills of concert and event promotion.

Third Stone is Seattle Center's non-profit partner responsible for the main Bumbershoot Festival event and the education program. Seattle Center staff reports that Third Stone enrolled 16 individuals in the inaugural 2023 BWDP cohort. These individuals are currently engaged in workshops, training, and internships with local partner venues. Demographically, 75 percent of participants are LGBTQIA+ and BIPOC, and 88 percent come from households earning under \$70,000 annually. Third Stone plans to enroll in the BWDP a minimum of 20 young people in 2024 and potentially up to 25 young people in 2025.

The financial plan for the JumpStart Fund included in the 2024 Proposed Budget Adjustments shows a positive unrestricted fund balance in 2025 and beyond. This CBA will reduce the unrestricted fund balance but based on the current financial plan, this ongoing appropriation can be supported without creating a deficit in the fund in the future.

Separately, CBA ARTS-004-A adds \$100,000 Arts and Culture Fund to ARTS (one-time) in 2024. If Council and the Mayor approve the 2024 Budget including both CBAs, then total City funding for this program in 2024 would be \$250,000.

In the 2023-2024 budget process last fall, Council approved one-time funding of \$100,000 JumpStart Fund for BWDP and removed the same amount of funding for this purpose that the Mayor had proposed for 2024.

2024 STATEMENT OF LEGISLATIVE INTENT

V2

CSCC-001S-A

Request that CSCC report on its plan to increase Call Center staffing

SPONSORS

Lisa Herbold, Andrew Lewis, Sara Nelson

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Community Safety and Communications Department (CSCC) – the future Community Assisted Response and Engagement (CARE) Department – report on its plan to increase staffing, consistent with the staffing levels it recommended in 2023. The requested report should expand on the blueprint noted in the CSCC's response to SLI CSCC-300-B-001 (2023) that states, "This [staffing] blueprint provides us with a map to build up operations over the next several years as resources allow."

The Call Center is a work unit of the CSCC, answering calls to the City's 9-1-1 emergency line and dispatching responses to those calls. The job classifications that are directly responsible for these functions are Emergency Communications Dispatcher 1, Emergency Communications Dispatcher 2, and Emergency Communications Dispatcher 3. (Other Call Center positions are supervisory or administrative.) Historically, the City has referred to the Emergency Communications Dispatcher 1 and Emergency Communications Dispatcher 2 positions as "call-takers" and the Emergency Communications Dispatcher 3 positions as "dispatchers." This terminology may not persist in the future.

SLI CSCC-300-B-001 requested that the CSCC determine and report on the appropriate FTE level for each job classification housed at the CSCC (not just those referenced above); the SLI also requested an analysis of how current staffing levels affected staff well-being and morale. The CSCC's response to that SLI recommended the addition of 33.0 FTE call-takers and dispatchers to meet call-taking service metrics and fully support employees' wellness and professional development needs. The SLI response recommended an addition of a total of 60.0 FTE at the Call Center: 2.0 FTE "Emergency Call Takers" (Emergency Communications Dispatcher 1), 31.0 "Radio Dispatchers" (Emergency Communications Dispatcher 2 and Emergency Communications Dispatcher 3), 17.0 FTE supervisory positions, and 10.0 FTE administrative positions. The Executive's 2024 Proposed Budget Adjustments added only 3.0 FTE. Additionally, the shifting of restricted revenues from the Call Center's 9-1-1 Excise Tax escrow account into the CSCC's base budget, beginning in 2024, removes a funding source that Council had identified as being able to support future call-taker FTE adds.

2024 STATEMENT OF LEGISLATIVE INTENT

The response to this SLI should:

- Provide recommendations for how, gradually and from what current and potential future funding sources, the CSCC might add the 60.0 FTE recommended positions and over what period of time they should be added;
- Include a prioritization matrix for the types and/or groupings of positions for which the SLI response identified deficiencies and information about the anticipated impacts of adding these types/groups vs. the risks of not adding them according to the recommended timeline; and
- Recognizing that the aggregate impact of future technologies on Call Center staff is not known, include a discussion of these technologies and their potential impact on recommended staffing levels and describe the addition, over time, of the 60.0 FTE identified in the SLI response.

The report should be submitted to the Public Safety and Human Services Committee, or successor committee, and the Central Staff Director, by May 24, 2024.

Responsible Council Committee(s): Public Safety and Human Services

DUE DATE: May 24, 2024

2024 COUNCIL BUDGET ACTION

V2

DEEL-802-A

Add \$143,000 GF to DEEL for after-school and summer learning programs grounded in ethnic studies for middle school students and impose a proviso

SPONSORS

Tammy Morales, Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(143,000)	
Total Budget Balance Effect	\$(143,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) adds \$143,000 GF (one-time) to the Department of Education and Early Learning (DEEL), and imposes a proviso on that funding, to contract with an organization that provides after-school and summer learning programs grounded in ethnic studies for middle school students, such as El Centro de la Raza's Roberto Maestas After School Program.

The funding is intended to support programs that emphasize activities that allow students to understand and embrace their own cultural backgrounds and learning needs, develop cultural confidence as learners, provide services to family members supporting students in their academic success, and provide academic support for maintaining appropriate grade level skillsets.

This funding supplements funding that the City provides for community-based organizations through the Families, Education, Preschool, and Promise (FEPP) Levy, known as Opportunity and Access Investments. Opportunity and Access Investments are expected to total approximately \$7.2 million over the 2023-2026 school years. DEEL's 2024 Proposed Budget Adjustments also contain more than \$1.5 million of funding for programs focused on culturally specific and responsive supports and restorative justice for K-12 students.

This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

This CBA imposes the following proviso:

"Of the appropriations in the Department of Education and Early Learning's 2024 budget for the K-12 Programs Budget Summary Level (DEEL-BO-EE-IL200), \$143,000 is appropriated solely for after-school and summer learning programs grounded in ethnic studies for middle school students and may be spent for no other purpose."

General Fund	\$0	
Other Funds	\$(100,000)	
Total Budget Balance Effect	\$(100,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) would add \$100,000 GF (one-time) to the Department of Neighborhoods (DON) to facilitate a deliberative Representative Assembly to advance Space Needle Ideas for areas outside of Downtown and transfer \$100,000 Information Technology Fund from Seattle Information Technology to the GF to provide the necessary funding. Funding would be used to contract with an organization, such as Healthy Democracy or DemocracyNext, with experience in designing and facilitating deliberative representative assemblies. DON should coordinate with the Office of Economic Development (OED) in developing this project.

Representative assemblies are made up of a selection of residents who are chosen by lottery to convene, learn, discuss, and advise on significant policy issues. They have been used in cities and countries around the world as an alternative means of community input. Funding is provided for childcare, transportation, language access, and compensation for participants.

In Seattle, the intent is that a diverse sample of Seattle residents would be brought together in the fourth quarter of 2024 to identify long-range, transformational Space Needle Ideas for neighborhoods outside of Downtown Seattle to complement the Space Needle Idea projects planned as part of the Downtown Activation Plan. Four Space Needle Ideas have been identified as part of the Downtown Activation Plan for implementation in 2024: a BIPOC Mercado, creation of a Downtown arts and culture district, a Downtown maker's district, and a year-round play area in Downtown Seattle.

This CBA transfers \$100,000 from the Information Technology Fund to the GF, which represents a portion of the GF share of internal services charges above expenditures in 2022. This financial plan for the Information Technology Fund included in the 2024 Proposed Budget Adjustments shows a non-negative fund balance in 2025 and beyond. This one-time spending will not impact the sustainability of this fund in the future.

Add 1.0 FTE Strategic Advisor 1, 1.0 FTE Planning and Development Specialist II, and 0.5 FTE Public Relations Specialist Senior to DON to restore staffing for Community Wealth Building

SPONSORS

Tammy Morales

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Total Budget Balance Effect	\$0	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) adds 1.0 FTE Strategic Advisor 1, 1.0 FTE Planning and Development Specialist II, and 0.5 FTE Public Relations Specialist Senior to the Department of Neighborhoods (DON) to restore staffing for Community Wealth Building in DON. These positions support partnerships with community to close the racial wealth gap through strategies identified in DON's Equitable Economy & Community Wealth Building Statement of Legislative Intent (SLI) Final Report. Those strategies include broad-based worker ownership of businesses; access to affordable capital and community-controlled capital; community ownership of real estate; progressive procurement; equitable small business ecosystems; and asset building and wealth retention programs.

The 2024 Proposed Budget Adjustments would cut these positions with the intent that new positions would be created in the Office of Economic Development (OED) to continue this work. This CBA would maintain those positions in DON to allow for a gradual transition to OED, based on the plan requested by SLI DON-801S-A.

The \$370,000 annual costs to support the positions in 2024 is accommodated through an underspend in JumpStart funding provided to DON in 2023 to support the Department's Generational Wealth Initiative/Community Wealth Building work. The Council anticipates that future funding for these positions will be provided through JumpStart allocations under the Economic Resilience category in order to support the "Generating Wealth in Communities of Color" strategic pillar in the Future of the Seattle Economy investment agenda adopted under Resolution 32099.

The financial plan for the JumpStart Fund included in the 2024 Proposed Budget shows a positive unrestricted fund balance in 2025 and beyond. This CBA could reduce the unrestricted fund balance starting in 2025 but based on the current financial plan, this ongoing appropriation can be supported without creating a deficit in this fund in the future.

2024 STATEMENT OF LEGISLATIVE INTENT

V2

DON-801S-A

Request that DON and OED provide a transition and implementation plan for Community Wealth Building

SPONSORS

Tammy Morales

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Department of Neighborhoods (DON) and the Office of Economic Development (OED) provide an implementation plan for the Equitable Economy & Community Wealth Building SLI Final Report (Report). The Report identified six strategies for developing a restorative economic system where democratic ownership can advance equity, and social and racial justice. The 2024 Proposed Budget Adjustments indicate the Executive's intent to shift implementation of the report from DON to OED.

This SLI asks OED, DON, and the Community Roundtable to co-create and report to the Council on:

- (1) an implementation plan that indicates how the recommendations of the Report will be implemented with community-driven solutions, including a continuing role for the Community Roundtable in advising on implementation;
- (2) a transition plan that supports the long-term success of community wealth building in OED; and
- (3) legislation to effectuate the proposed implementation plan and the transition plan, including proposals to:

- amend the 2024 budgets for DON and OED,
- move staff from DON to OED, and
- update the JumpStart spending plan (Seattle Municipal Code section 5.38.055) and Future of Seattle Economy investment agenda (Resolution 32099) to reflect the City's long-term commitment to Community Wealth Building, as appropriate.

The Council requests that DON and OED submit a report on this SLI to the Neighborhoods, Education, Civil Rights & Culture and the Economic Development, Technology and City Light committees, or their successor Committees, by June 1, 2024.

Responsible Council Committee(s): Neighborhoods, Education, Civil Rights, and Culture Committee

DON-802-A

Add \$100,000 GF to DON for Payroll Tax Oversight Committee evaluation work and annual reporting

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(100,000)	
Total Budget Balance Effect	\$(100,000)	

DESCRIPTION

This CBA adds \$100,000 GF (one-time) to the Department of Neighborhoods (DON) to support setting up the Payroll Tax Oversight Committee's evaluation work and annual reporting responsibilities. This GF resource is supported by a transfer from the JumpStart Fund to the GF for JumpStart Administration and evaluation work.

The 2024 Proposed Budget Adjustments adds \$50,000 GF (ongoing) for non-labor costs, including the creation of an annual report, member stipends, and other general support to the board. The 2022 Adopted Budget provided funding for 1.0 FTE Strategic Advisor 1 in DON to facilitate the Payroll Tax Oversight Committee, however no non-labor budget was provided at that time. Combined with this CBA, the Committee will have \$150,000 to support their work in 2024. In addition, following the City's October 2023 Revenue Forecast that increased projected JumpStart Fund revenues in 2024 and beyond, the Council increased the planning reserves in the JumpStart Fund by \$1.3 million. If additional resources are needed to support the Oversight Committee's work, Council intends to appropriate funds from the reserve for that purpose.

This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

V2

FAS-001S-A

Request that FAS provide recommendations on the potential use of network company license fee revenue to support implementation of the App-Based Worker Paid Sick and Safe Time Ordinance

SPONSORS

Lisa Herbold, Tammy Morales, Teresa Mosqueda

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Department of Finance and Administrative Services (FAS), in consultation with the Office of Labor Standards (OLS), report on the potential use of network company license fee revenue to support implementation of the App-Based Worker Paid Sick and Safe Time (PSST) Ordinance.

In recent years, the City has established several labor standards in the Seattle Municipal Code (SMC) that regulate network company treatment of app-based workers:

- The App-Based Worker Minimum Payment Ordinance (Chapter 8.37);
- The App-Based Worker PSST Ordinance (Chapter 8.39); and
- The App-Based Worker Deactivation Rights Ordinance (Chapter 8.40).

Proposed budget legislation (CB 120706) would require network companies to obtain an annual network company license and pay a \$0.10 fee per online order to recover OLS's regulatory costs of implementing two of the three app-based worker labor standards: (1) the App-Based Worker Minimum Payment Ordinance and (2) the App-Based Worker Deactivation Rights Ordinance. The FAS Director, in consultation with the OLS Director, could make any necessary adjustments to the fee to ensure full recovery of identified regulatory costs.

CB 120706 would not permit allocation of fee revenue to implement the App-Based Worker PSST Ordinance. OLS estimates that implementation of the App-Based Worker PSST Ordinance (effective as of May 1, 2023) will require \$150,000 ongoing and 1 FTE; the 2024 Proposed Budget Adjustments include \$8,000 for this work.

This SLI requests FAS to work in consultation with OLS to: (1) provide recommendations on expanding the use of fee revenue to include implementation of the App-Based Worker PSST Ordinance; (2) provide an implementation plan for adopting such recommendations; and (3) provide accompanying legislation, as appropriate.

2024 STATEMENT OF LEGISLATIVE INTENT

When developing the recommendations, FAS should consider available information for the following factors:

- The FAS and OLS Directors' projected costs for regulatory expenditures covered by CB 120706,
- The OLS Director's projected costs for implementing the App-Based Worker PSST Ordinance,
- OLS's implementation data (e.g., number and nature of worker and business inquiries, data on open and filed investigations, resolved investigations, and financial remedies) for the App-Based Worker PSST Ordinance and its emergency ordinance predecessor, the Gig Worker PSST Ordinance (Ordinance 126091, as amended by Ordinance 126123),
- Any benefits and tradeoffs of using fee revenue for implementation of the App-Based Worker PSST Ordinance;
- Any necessary adjustments to the fee amount, and
- Other factors that the FAS Director determines are reasonably necessary for developing recommendations on expanding the permissible use of fee revenue.

FAS should submit the report to the Chairs of the Finance and Housing Committee, the Governance, Native Communities and Tribal Governments Committee, or successor committees, by July 1, 2024.

Responsible Council Committee(s): Finance and Housing

DUE DATE: July 1, 2024

2024 STATEMENT OF LEGISLATIVE INTENT

V2

FAS-801S-A

Request that the Executive convene a work group on disposition policies for surplus City-owned properties and submit a report with recommendations

SPONSORS

Teresa Mosqueda, Debora Juarez

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Executive, in collaboration with City Council staff and key stakeholders, convene a work group to determine how to expand the policies for the disposition or reuse of surplus City-owned properties. The policies were last revised in 2018 by Resolution 31837 for all non-City Light-owned properties and by Resolution 31829 for City Light-owned properties. The work group should include representatives from federally recognized tribes, organizations serving Native communities, Black, Indigenous, and People of Color, and affordable housing providers. These policies should specifically address the interests of federally recognized tribes; organizations serving Native Americans; Black, Indigenous, and People of Color; and non-profit housing developers.

The work group would evaluate the existing policies that apply to all City-owned properties, including those owned by Seattle City Light and Seattle Public Utilities. Staff from the Department of Finance and Administrative Services, Office of Housing, Seattle Public Utilities, Seattle City Light, Office of Intergovernmental Relations, Department of Neighborhoods, and City Council would support the work group.

The work group would assess any enhancements to the disposition policies that could result in the further utilization of excess City property for the development of affordable housing for communities at highest risk of displacement and housing instability. The work group should also consider policy changes adopted by the Tacoma - Pierce County Board of Health (Attachment 1) and the Tacoma City Council (Attachment 2) for inclusion in the City's revised disposition policies.

The Executive should submit a report from the work group, including recommendations for modifications to the City's disposition policies, to the Finance and Housing Committee, or successor committee, by June 3, 2024. The City Council will consider the recommendations of the work group when reviewing and adopting disposition policies in 2024.

2024 STATEMENT OF LEGISLATIVE INTENT

Responsible Council Committee(s): Finance and Housing

DUE DATE: June 3, 2024

Policy: Surplus Real Property Disposition Policy

1. Purpose

Provide direction to the Tacoma-Pierce County Health Department (“TPCHD”) for the disposition of real property that is not required for the needs of or the discharge of TPCHD’s responsibilities (“surplus real property”).

2. Background

TPCHD, as a combined County-City Health Department, currently owns, and may in the future own, real property to meet its business and operational needs. TPCHD should dispose of properties that do not meet these needs. This policy applies to any surplus real property disposition.

3. Prioritization

TPCHD considerations for surplus property dispositions are prioritized as follows:

- 1) Interests of federally-recognized Tribes (“Tribal Nations”)
 - TPCHD respects the sovereignty of Tribal Nations and prioritizes the return of land to Tribal Nations wherever possible as an embodiment of our Equity and Public Health goals;
- 2) Projects that promote Affordable Housing Goals consistent with RCW 39.33.015;
- 3) State or local government projects that promote the Racial Justice and Health Equity Goals set forth in TPCHD’s strategic plan;
- 4) Other governmental projects; and
- 5) Private or nongovernmental interests.

TPCHD encourages restoration of land to its original tribal stewards, as well as the continued public use and benefit of TPCHD surplus property. As such, TPCHD will provide notice and offering of a surplus property first to Tribal Nations whose usual and accustomed areas encompass the subject property and, as authorized by RCW 39.33.010, will negotiate an intergovernmental land transfer of said property if they express interest. Where transfer to a Tribal nation occurs, such transfer shall be for full value in accordance with RCW 39.33.010. Full value has a flexible meaning and may include mutual and offsetting benefits and achievement of equity goals, as well as monetary consideration. Wherever possible, TPCHD shall define full value in non-monetary terms when negotiating intergovernmental transfers to Tribal Nations.

If no Tribal Nation expresses interest in the property, then the next preference will go to public, private, or nongovernmental bodies that deliver public benefit as defined by RCW 39.33.015 (hereinafter referred to as “Affordable Housing”).

If no public, private, or nongovernmental bodies are interested in developing the property for Affordable Housing, the next preference will go to state or local government sponsored proposals for uses that promote TPCHD’s Racial Justice and Health Equity Goals; followed by state or local government sponsored proposals, regardless of the future use.

4. Disposition Methodology

TPCHD adopts the following guidelines for the disposition of surplus real property.

Staff shall determine the fair market value of the surplus real property. The Board of Health shall fix a minimum price for the sale or transfer of the surplus real property.

Upon a Declaration of Surplus by the Board of Health, TPCHD shall provide written notice to Tribal Nations that have usual and accustomed areas located within the areas TPCHD provides services and/or owns real property, and these Tribal Nations may obtain the property via a negotiated intergovernmental land transfer. If more than one Tribal Nation expresses interest in obtaining the land, TPCHD will negotiate in good faith with all parties to come to a resolution.

If no Tribal Nation responds with interest in the real property, TPCHD shall advertise for written competitive bids, except when selling to a federal, state or local governmental entity. TPCHD shall publish a request for bids on the sale of real property once a week for two consecutive weeks in the Pierce County and City of Tacoma official legal newspapers and such additional newspapers as the Board of Health may direct.

The request for bids shall particularly describe the property to be sold and when and where the bids are to be submitted, shall designate the place and the time that the bids will be opened, and shall set forth the terms of the sale. The request for bids shall identify the criteria to be used to evaluate responsive bids, which criteria shall award maximum points for bids that promote TPCHD's Affordable Housing Goals and the second most points to bids that promote TPCHD's Racial Justice and Health Equity Goals. TPCHD reserves the right to reject any or all bids.

If a federal, state, or local governmental entity proposes to purchase the real property, TPCHD may enter into direct negotiations with the governmental entity. If more than one governmental entity expresses interest in obtaining the land, TPCHD will negotiate in good faith with all parties to come to a resolution.

The party acquiring the property must pay fair market value, unless the property is transferred to a Tribal Nation, federal, state, or local governmental entity, or is acquired for Affordable Housing.

If the party acquiring the property is a federal, state, or local governmental entity, or a Tribal Nation pursuant to RCW 39.33.010, TPCHD must receive true and full value. Full value shall be interpreted to include mutual and offsetting benefits and achievement of equity goals.

If the party acquiring property is a public, private, or nongovernmental body for use as Affordable Housing, then the sale may be upon such terms and conditions as the parties agree, including a no cost transfer, as provided in RCW 39.33.015.

If the surplus real property has a fair market value of more than \$50,000, then TPCHD shall hold a public hearing in compliance with RCW 39.33.020.

Following the public hearing, the Board of Health shall vote on whether to approve the transfer or sale of surplus real property.

5. Relevant Law

RCW 39.33.010
RCW 39.33.015
RCW 39.33.020

AGO 1997 No. 5

Approval:	Anthony Chen, Director of Health
Effective Date:	X XX, 20XX.

DRAFT

DISPOSITION POLICY FOR GENERAL GOVERNMENT REAL PROPERTY

A. Background

The City owns a variety of properties to meet its objectives, including properties which site City buildings and facilities, parks, open spaces, tidelands, and rights-of-way. The City also owns properties which support specific community programs such as libraries, senior centers, public assembly facilities, and centers for performing arts. Further, the City owns certain properties which the City has either acquired or retained ownership for the specific purpose of redevelopment or for partnering with the private sector to redevelop. Lastly, the City owns certain properties which it has acquired since incorporation, and for which the City no longer has an interest in retaining ownership.

Overall, the City should retain properties which meet its property ownership objectives and dispose of properties which do not.

B. Guiding Principles for the Disposition of General Government Property

The City should retain ownership of properties necessary for conducting its business operations, supporting community and economic development initiatives, and for the preservation of public spaces and open space.

1. The City should endeavor to dispose of those General Government properties which do not meet the City's property ownership objectives. Among the City's goals in property dispositions are: development of affordable housing, private development which meets the City's economic development objectives, historic preservation, and increasing density and improving walkability in support of the City's Comprehensive Plan objectives.
2. The City has three established processes for disposing of City-owned property: (1) direct negotiated disposition; (2) request for proposal process; and (3) bid sale to the highest bidder. Having several tools for the disposition of City property gives the City useful options and flexibility when disposing of property to meet the needs of the City and community.
3. City staff should classify its properties to be disposed in order to help guide the determination of which disposition process should be utilized for conveying specific City properties. This classification is helpful because the City owns a variety of properties with varying levels of value and interest to the City and community. In sum, not all properties need to be disposed of in the same way.
4. The City should establish appropriate processes for notifying the City Council and the public prior to disposing of property. This notification will vary based upon the classification of the property. This process shall be transparent to the Council and public.
5. The City shall place **highest priority** on dispositions which increase affordable housing supply in Tacoma and/or contribute to equity goals within a specific community.

6. Where a General Government surplus property lies within the Puyallup Tribe of Indians ("PTOI") historic geographical boundaries existing prior to the Medicine Creek Treaty, the City shall give PTOI a right of first refusal to either purchase the property or to exchange tribal property or property rights for the surplus property.

C. Property Classification

Property that has been identified for disposition will be classified into three tiers with differing policy objectives. City staff will develop and maintain processes for each property tier that are consistent with the policy objective.

Tier 1 properties are generally those properties that: (1) are strategically located in the downtown or mixed-use center with high visibility; (2) are high in value (greater than \$1,000,000) and/or sizable (one-half of an acre or greater); (3) have the potential to generate a high level of community interest due to a substantial City-wide impact that may result from their development; and (4) can be instrumental in meeting the City's goals and/or in implementing its key policies.

Overall goals for disposition of these properties will be to achieve such outcomes as: provide affordable units/housing, create enhanced equity in communities, generate new property taxes, sales tax, business and occupation taxes, and other taxes, generate new family wage jobs, catalyze new private investment and/or leverage existing public facilities, minimize public liability, implement City master plans, encourage density, and promote sustainability.

Tier 1 Disposition: The process for property disposition will generally involve outreach and high levels of participation. The Request for Proposals approach will be the required method of disposition. Execution of a Development Agreement will be a requirement prior to conveyance.

- A. Where the surplus property lies within a Land Use Zone which permits housing of any type and where the proposal is for a Home Ownership Development, the following baseline requirement shall apply: a minimum of fifty percent (50%) of proposed units at or below eighty percent (80%) AMI. Scoring will be weighted in favor of proposals which include at least seventy-five percent (75%) affordable housing units at or below eighty percent (80%) AMI.
- B. Where the surplus property lies within a Land Use Zone which permits housing of any type and where the proposal is for a Rental Development, the following sliding scale of baseline requirements shall apply:
 1. Scoring will be weighted highest for proposals with a minimum of thirty percent (30%) of proposed units at or below fifty percent (50%) AMI.
 2. Where no proposals meeting the baseline in #1 above are received, scoring will be weighted highest for proposals with a minimum of fifty percent (50%) of proposed units at or below sixty-five percent (65%) AMI.
 3. Where no proposals meeting the baselines in #1 or #2 above are received, scoring will be weighted highest for proposals with a minimum

of fifty percent (50%) of proposed units at or below eighty percent (80%) AMI.

- C. Proposals not meeting any of the above baselines may be evaluated on contributions to the community that meet or exceed equity goals of the City.

Tier 2 properties are those properties which have some development potential, are important to the surrounding neighborhood, and have a value between \$500,000 and \$1,000,000, but have no significant alignment with the goals and/or in implementing its key policies.

Overall goals for disposition of these properties may be to support goals and strategies of applicable neighborhood councils, neighborhood business districts, and other community groups through such outcomes as: increasing affordable housing, creating enhanced equity in communities, improving the quality of life and property values in the neighborhood, improving walkability, fostering a safe environment for residents, reducing crime and blight in the community, and increasing tax revenue for the City.

Tier 2 Disposition: Because of the importance to community stakeholders, Tier 2 properties will be sold via a Request for Proposals or negotiated disposition process to put the City in a better position to influence the future use(s) of the property.

- A. Where the surplus property lies within a Land Use Zone which permits housing of any type and where the proposal is for a Home Ownership Development, the following baseline requirements shall apply: a minimum of fifty percent (50%) of proposed units at or below eighty percent (80%) AMI. Scoring will be weighted in favor of proposals which include at least seventy-five percent (75%) affordable housing units at or below eighty percent (80%) AMI.
- B. Where the surplus property lies within a Land Use Zone which permits housing of any type and where the proposal is for a Rental Development, the following sliding scale of baseline requirements shall apply:
 - 4. Scoring will be weighted highest for proposals with a minimum of thirty percent (30%) of proposed units at or below fifty percent (50%) AMI.
 - 5. Where no proposals meeting the baseline in #1 above are received, scoring will be weighted highest for proposals with a minimum of fifty percent (50%) of proposed units at or below sixty-five percent (65%) AMI.
 - 6. Where no proposals meeting the baselines in #1 or #2 above are received, scoring will be weighted highest for proposals with a minimum of fifty percent (50%) of proposed units at or below eighty percent (80%) AMI.
- C. Proposals not meeting any of the above baselines may be evaluated on contributions to the community that meet or exceed equity goals of the City.

Tier 3 properties are those properties which may be important to the adjacent or surrounding property owners but have a minimal level of interest to the community at large. Tier 3 properties will be disposed with preference for affordable housing infill development. Goals of disposition are to increase the affordable housing supply, minimize the City's liability, and turn ownership back the private sector or to public partners. These properties include: remnant parcels that have little or no financial value; vacant City parcels that have no operational, development, or open space potential to the City; properties that by virtue of their location or functionality would be better owned by another government agency; and other properties which have little financial or community value.

Tier 3 Disposition: Tier 3 properties may be transferred by direct negotiated disposition or via bid-sale to the highest bidder. Because of the limited impact of these property dispositions, community outreach efforts will generally be more direct and limited.

AFFORDABLE HOUSING EXCEPTIONS AUTHORIZED UNDER HOUSE BILL 2382 (2017-2018 Regular Session)

- A. Exceptions to the above methods of disposal may include property dispositions to other public entities and/or property transfers for development which includes Rental Developments where a minimum of fifty percent (50%) proposed units are at or below fifty percent (50%) AMI, and Home Ownership Developments where a minimum of fifty percent (50%) of proposed units are at or below eighty percent (80%) AMI.

. In these situations, the property may be conveyed via the direct negotiated disposition process, and compensation may be in the form of public benefit purposes in lieu of monetary compensation.

The City hereby enacts the following rules for disposition under HB 2382:

1. The conveyance documents must contain a covenant or other requirement that the property shall be used for the designated public benefit purposes stated in (A) above for a minimum of fifty (50) years ; and
2. The conveyance documents must contain remedies that apply if the recipient of the property fails to use it for the designated public purpose or ceases to use if for such purpose.

D. Guiding Principles for Direct Negotiated Dispositions

City code allows the City, upon City Council authorization, to approve the negotiated disposition of real property (see TMC 1.06.280). This authority provides the City with substantial flexibility to transfer property to governmental and nonprofit agencies, adjacent property owners, and public-private development partners. While competitive selection for surplus disposition is ordinarily preferred, there are circumstances where direct negotiation is in the best interests of the City. In considering whether a direct negotiated disposition should be pursued, City staff will consider the following guidelines, ranked in order of procedural clarity:

1. Where feasible, the City shall transfer surplus property suitable for housing directly to governmental and nonprofit agencies which will repurpose the property as affordable housing.
2. The City may transfer property to a City-formed Public Development Authority to develop according to a City-approved plan or development strategy for affordable housing or to remedy an inequitable situation within the immediate community.
3. The City may consider conveying surplus property directly to adjacent/abutting property owners when the adjacent/abutting property owner(s) are the only feasible or likely candidates for acquisition and when selling to the adjacent/abutting property owner(s) will allow for expansion and development of a profit or nonprofit enterprise increasing economic and community improvement opportunities within the City; and further when said sale is an ancillary component of a street vacation.
5. The City may consider selling surplus property directly to a private development partner when the conveyance of the property is an element of a public-private partnership agreement between the City and a third party that has been approved by the City Council and is necessary to achieve the desired development; and when (even if the City is not a development partner) the development will help the City achieve its affordable housing goals, equity goals, or economic development goals and is more suitable than existing alternatives and potential partners.
6. In the circumstances where the City has previously completed a Request for Proposals process and an acceptable proposal was not received, the City may directly or through a third-party agent contact potential developers/investor and directly negotiate a disposition.

2024 STATEMENT OF LEGISLATIVE INTENT

V2

FAS-802S-A

Request that FAS report on implementing a comprehensive responsible contractor policy for City contracts

SPONSORS

Teresa Mosqueda

DESCRIPTION

2024 STATEMENT OF LEGISLATIVE INTENT

This Statement of Legislative Intent (SLI) requests that the Department of Finance and Administrative Services (FAS) report on implementing a comprehensive responsible contractor policy for City contracts.

The City has established a variety of requirements in the Seattle Municipal Code for City contracts, including but not limited to equality in contracting (Chapter 20.42); nondiscriminatory provision of benefits (Chapter 20.45); and commitment to engaging in fair and responsible business practices (Chapter 20.46). In Chapter 20.46, contractors are prohibited from engaging in “unfair business practices,” which are limited to criminal or systematic deceptive, fraudulent, or abusive acts under state and federal consumer laws.

This SLI requests FAS to work in consultation with the City Attorney’s Office, stakeholders, and other jurisdictions to (1) develop contract requirements that expand upon existing legal obligations and require a comprehensive commitment to responsible business practices, (2) provide an implementation plan for adopting such requirements, and (3) provide accompanying legislation, as appropriate.

When developing additional contract requirements, FAS should consider model policies, such as the Sound Transit Responsible Contractor Policy, and the following criteria:

- Demonstrated compliance with local, state, and federal labor standards;
- Employee compensation that supports workforce equity and is at or above the prevailing or living wage;
- Provision of workforce benefits, such as health insurance and compensated days off;
- Prioritization of worker safety and promotion of training opportunities to improve the quality of the workforce;
- Provision of a worker complaint and grievance procedure;
- Respect for the right of employees to bargain collectively and commitment to remaining neutral in labor organizing drives;
- Established labor harmony agreement; and
- Support for environmental and energy efficiency policies.

FAS may consider whether certain criteria are appropriate for specific types of contracts, such as those for projects valued above \$373,000 and requiring a request for proposal or request for qualification process.

FAS should submit the report to the Chair of the Finance and Housing Committee, or successor committee, by April 1, 2024.

Responsible Council Committee(s): Finance and Housing

DUE DATE: April 1, 2024

2024 COUNCIL BUDGET ACTION

V2

FAS-803-A

Add \$900,000 JumpStart Fund to FAS to implement the proposed network company license and fee, and add \$500,000 JumpStart Fund and 7.0 FTE to OLS to implement the App-Based Worker Deactivations Rights Ordinance

SPONSORS

Lisa Herbold

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(1,400,000)	
Total Budget Balance Effect	\$(1,400,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$900,000 JumpStart Fund (one-time) to the Department of Finance and Administrative Services (FAS) for set-up costs and temporary staffing to implement the proposed network company license and fee, and it adds \$500,000 JumpStart Fund (one-time) and 7.0 FTE to the Office of Labor Standards (OLS) for set-up costs, outreach, and staffing to implement the App-Based Worker Deactivation Rights Ordinance.

Proposed budget legislation (CB 120706) would require network companies to obtain an annual license to operate in Seattle and pay a license fee of \$0.10 per online order that results in an app-based worker’s delivery of goods or provision of other services in Seattle. Fee revenue would recover the regulatory costs of FAS’s implementation of license and fee requirements and OLS’s implementation of the App-Based Worker Deactivation Rights Ordinance (effective January 1, 2025) and the App-Based Worker Minimum Payment Ordinance (effective January 13, 2024).

This proposal is intended to provide one-time funding to FAS and OLS to recover regulatory costs before the City starts collecting fee revenue in 2025.

FAS funds will support preparation for licensing and fee collection:

- Software development (\$724,000);
- Temporary staffing to manage software development (\$165,000); and
- Outreach (\$11,000).

2024 COUNCIL BUDGET ACTION

OLS funds will support preparation for the App-Based Worker Deactivation Rights Ordinance:

- Set-up (\$33,000) for rulemaking and new employee costs;
- Staffing (\$425,000) for staggered hiring of 1.0 FTE Enforcement Manager (Manager 1), 1.0 FTE Senior Investigator (Senior Civil Rights Analyst), 3.0 FTE Investigators (Civil Rights Analyst), 1.0 FTE Paralegal, and 1.0 FTE Communications Specialist (Public Relations Specialist); and
- Outreach (\$42,000) for communications and notice of rights design/translation.

The 2024 Proposed Budget Adjustments include approximately \$492,000 for OLS’s implementation of the App-Based Worker Minimum Payment Ordinance, but do not include appropriations to OLS and FAS for the regulatory costs funded by this CBA. The City cannot impose the license requirement or collect fees until FAS develops the necessary software and systems. This funding will allow FAS to implement the license and fee in a timely manner and OLS to develop policy guidance, train staff, and develop outreach materials before the effective date of the App-Based Worker Deactivation Rights Ordinance.

This proposal uses one-time resources from the JumpStart Fund for ongoing investments. The financial plan for the JumpStart Fund included in the 2024 Proposed Budget Adjustments shows a positive unrestricted fund balance in 2025 and beyond. This CBA will not impact the sustainability of the fund in the future.

Appropriation of ongoing funds to FAS and OLS for some or all of these expenses will be considered during 2025 budget deliberations based on projected fee revenue.

2024 STATEMENT OF LEGISLATIVE INTENT

V1

FAS-804S-A

Request that FAS convene an interdepartmental team to report on how to implement OIG's recommendations regarding increasing compliance with vehicle equipment regulations

SPONSORS

Teresa Mosqueda

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Department of Finance and Administrative Services (FAS) work with the Seattle Police Department (SPD), Seattle Municipal Court (SMC), the City Attorney's Office (CAO), the Community Assisted Response and Engagement Department (CARE), Department of Neighborhoods (DON), and the Seattle Department of Transportation's (SDOT) Transportation Equity workgroup to provide a report about how, if funding were provided in a future budget, to implement the recommendations of the Office of Inspector General for Public Safety (OIG) regarding increasing compliance with driving-related regulatory requirements and vehicle equipment laws, shown in Attachment A. OIG recommended a grant fund for education and financial assistance to reduce debt from traffic fines and fees, consideration of the best place to house the grant funding, and an automated voucher system.

The report should also include an update on SPD's efforts to determine how to de-prioritize traffic stops regarding vehicle equipment violations. The interdepartmental team should consult with CAO about any legal issues associated with implementation of OIG's recommendations and consult with the American Civil Liberties Union of Washington (ACLU-WA) to inform implementation. FAS should report to the Public Safety and Human Services Committee, or successor committee, by July 1, 2024.

This item was presented in the Chair's Balancing Package as SLI SMC-801S-A. The change reflects a change in leadership on the SLI from SMC to FAS.

Responsible Council Committee(s): Public Safety and Human Services

DUE DATE: July 1, 2024

August 22, 2023

Traffic Stops Session 2: Increasing Compliance

The Office of the Inspector General (OIG) convened stakeholders in early August 2023 to address increasing compliance with vehicle equipment regulations for Seattle drivers. The meeting included a presentation by OIG of fines and fees for traffic offenses in Seattle and brief overview of programs in other jurisdictions aiming to reduce the cycle of poverty associated with enforcement of equipment violations. Attendees discussed the logistics of potential education and repair programs in Seattle and identified recommendations for City Council to consider when submitting proposals for the 2024 supplemental budget. The meeting ended with a schedule for the next meetings to generate recommendations for SPD policy.

Discussion Summary

Voucher Program

Participants discussed the possibility of a voucher program to make equipment repairs affordable for all drivers. Like other jurisdictions, a voucher program in Seattle would provide financial assistance for parts and repairs at participating businesses.

Participants questioned whether a voucher system would result in more traffic stops, noting traffic stops are harmful for community even when a ticket is not issued. Participants discussed two alternatives: an “opt-in” option and an automated voucher system. An “opt-in” option would allow drivers to request vouchers rather than waiting for an SPD referral and necessitating police contact. An automated system for issuing vouchers could reduce in-person enforcement and allow officers to focus on more dangerous offenses. Participants suggested the automated voucher system would be best implemented as a function of dispatch: Officers would identify equipment violations and provide the vehicle and violation information to Community Safety and Communications Center (CSCC) dispatchers. Vouchers would then be mailed to the address associated with the vehicle license plate.

Education Program

In addition to a voucher program to offset the cost of parts and repairs, participants discussed a two-pronged education program. The program would include courses to educate drivers on equipment regulations and workshops for repairing minor equipment violations. Courses would be provided across the city for drivers of all ages and levels of experience. Additionally, driver’s education courses for beginning drivers would include information on equipment regulations and repair options. Workshops would also be offered at locations around the city and would train drivers about preventative maintenance and simple equipment repairs.

Two key considerations for an education program are awareness and accessibility: participants noted the importance of advertising in diverse communities across the city, and in ensuring workshops are accessible in terms of location, language, and skill level.

Waiver Program

Participants briefly discussed a waiver program to mitigate debt-based license suspension resulting from failure to pay traffic tickets. The waiver would provide fee-offset for vehicle registration costs and license renewal fees. Participants suggested modeling a waiver program on the Unified Payment (UP) program through Tukwila Municipal Court, which allows drivers owing money on a traffic ticket to have tickets removed from collections to a low-cost monthly payment plan.¹

Recommendations for City Council

The group recommends Seattle City Council include appropriations for a grant program to fund education and repairs for Seattle drivers, as it may increase the legitimacy of SPD in the eyes of community. Specific recommendations include:

1. Council should include appropriations for the implementation of a two-part grant fund:
 - a. Proactive: The proactive arm of the grant fund would provide for education for drivers regarding equipment regulations and simple repairs. It would also provide for “opt-in” equipment vouchers.
 - i. Council should consider including funding for repair workshops in partnership with local auto shops and community college automotive technology programs.
 - ii. Council should consider including funding for courses educating Seattle drivers on equipment regulations and local assistance programs. These courses should be accessible to all Seattle drivers. Council should also consider mandating the inclusion of equipment regulations and local assistance programs in driver’s education courses for beginning drivers.
 - iii. Council should consider including funding for an “opt-in” voucher program allowing drivers to request equipment repair vouchers rather than necessitating an SPD contact and referral.
 - b. Reactive: The reactive arm of the grant fund would provide financial assistance for drivers with equipment violations to reduce debt from ticketing fines and fees.
 - i. Council should consider including funding for repair vouchers to replace tickets for equipment violations.
 - ii. Council should consider including funding for a financial assistance program to address debt-based license suspension through waivers for registration and license renewal fees.
2. Council should consider the best program under which to house the grant fund:
 - a. The proposed *Traffic Safety for All* bill at the Washington State Legislature houses the grant fund under WDOT.² Council should consider whether SDOT has capacity for the grant fund.
 - b. City of Seattle has many programs for debt assistance. Council should identify if any of these programs could potentially incorporate the grant fund.
3. Council should consider including funding for an automated voucher system in the grant fund appropriations:

¹ [Unified Payment Program - City of Tukwila \(tukwilawa.gov\)](#)

² [HB 1513 - Washington State Legislature](#)

- a. Funding should be used to support the purchase of technologies capable of issuing automated warnings and vouchers to the address associated with a vehicle's plate.
- b. Alternatively, the funding could be used to hire additional personnel at the Community Safety and Communications Center (CSCC) to issue vouchers at the request of SPD officers.

Next Sessions

OIG will convene two additional small group sessions to focus on the following issues:

- Friday, August 25, 2023: Data Collection
- Thursday, September 7, 2023: Deprioritizing Offenses

The small group sessions will culminate in a larger roundtable on **September 21, 2023**, to generate recommendations for SPD traffic stop policies.

Thank you for your participation in the Traffic Stops Session 2 meeting. Please be on the lookout for invitations to the small group meetings and the culminating roundtable session.

2024 COUNCIL BUDGET ACTION

V1

FG-801-B

Transfer \$10 million JumpStart Fund to FG and swap JumpStart Fund for GF for certain expenditures to align with current policy

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$663,525	
Other Funds	\$(663,525)	
Total Budget Balance Effect	\$0	

DESCRIPTION

This Council Budget Action (CBA) would increase the transfer from the JumpStart Fund to the GF by \$10 million. In addition, for the following increases in the 2024 Proposed Adjustments, it changes the fund source from the JumpStart Fund to the GF, including:

- \$4.5 million in the Human Services Department, Department of Education and Early Learning (DEEL), and Department of Neighborhoods for Human Services Provider Pay increases;
- \$2.9 million in DEEL for childcare workers;
- \$142,000 in the Seattle Department of Construction and Inspections to add a code compliance analyst to support the Economic Displacement Relocation Assistance (ERDA) program;
- \$850,000 in the Department of Finance and Administrative Services for start-up costs for the Social Housing Public Development Authority; and
- \$916,000 in HSD for the relocation of Rosie’s Village, a tiny home village in the University District.

These expenditures are not allowable within current JumpStart Fund policies. This CBA swaps the fund source for these expenditures from the JumpStart Fund to the GF, which expresses Council’s intent that this spending should not be an ongoing liability from the JumpStart Fund in future years.

The remaining \$663,000 is used to balance the following CBAs: HSD-001-A; HSD-013-A; and HSD-014-A.

Add \$333,000 JumpStart Fund to FG to support the forgiveness of the Community Roots Housing (CRH) loan

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(333,333)	
Total Budget Balance Effect	\$(333,333)	

DESCRIPTION

This Council Budget Action (CBA) adds \$333,000 JumpStart Fund to Finance General (FG) to support the forgiveness of the GF loan provided to Community Roots Housing (CRH). In 2020, the City provided a \$1 million GF supported, three-year loan to CRH to help mitigate the financial impacts of the COVID-19 pandemic. This CBA provides funding that will backfill the revenue loss from forgiving the first year's loan repayment. The use of these funds is contingent upon the Council approving Council Bill 120703 authorizing the Office of Housing Director to forgive the loan. The Council intends to support the repayment of the balance of the loan in the next biennial budget.

The financial plan for the JumpStart Fund included in the 2024 Proposed Budget shows a positive unrestricted fund balance in 2025 and beyond. This CBA will reduce the unrestricted fund balance but based on the current financial plan, this ongoing appropriation can be supported without creating a deficit in this fund in the future.

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$9,018,364	
Other Funds	\$19,371,494	
Total Budget Balance Effect	\$28,389,858	

DESCRIPTION

This Council Budget Action (CBA) would recognize the impacts to the General Fund (GF) and other non-transportation funds from the Office of Economic and Revenue Forecasts (OERF)/City Budget Office (CBO) October 2023 forecast update. The forecast update's implications for transportation funds are included in SDOT-007-A. In August of each year, the City receives a revenue forecast that is used for the Mayor's budget proposal, followed by a fall update during Council's budget deliberations. Details on the 2024 impacts from the October revenue forecast updates are listed below by fund:

- **General Fund (00100):** This change increases GF revenues by \$9 million in 2024 due to increases in property tax, retail sales tax, business and occupation tax and court fines that are only partially offset by decreases in parking meter revenues.
- **JumpStart Fund (14500):** This change increases JumpStart Fund revenues by \$20 million in 2024 due to increases in payroll expense tax revenues.
- **Arts & Culture Fund (12400):** This change increases Arts & Culture Fund revenues by \$1 million in 2024 due to increases in admissions tax revenues.
- **Short Term Rental Tax Fund (12200):** This change increases Short Term Rental Tax Fund revenues by \$69,000 in 2024 due to increases in short term rental tax revenues.
- **Real Estate Excise Taxes (REET) (30010 and 30020):** Finally, this change decreases total REET revenues by \$1.7 million in 2024 dues. This decrease is divided equally between REET I and REET II.

Reduce proposed funding for City retirement contributions by \$1.4 million GF and \$2.5 million in other City funds to align with SCERS Board recommended rate

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$1,386,928	
Other Funds	\$2,536,519	
Total Budget Balance Effect	\$3,923,447	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) would reduce funding for the employer contribution to the Seattle City Employees Retirements System (SCERS) system to match the amounts consistent with the SCERS Board of Administration's (SCERS Board) recommendation (as reflected in Resolution 32114), resulting in a \$1.4 million GF decrease and a \$2.5 million decrease to other City funds.

The City’s employee retirement system, of which most non-uniformed City employees are members, is a defined benefit pension program funded by a combination of salary-based employer (i.e., the City) and employee contributions, and investment earnings. At retirement, members are eligible to receive a recurring annual benefit roughly based on their years of service with the City, and a percentage applied to their highest earnings averaged over several years. SCERS staff, who manage the system, are advised by external consultants, including an investment advisor, that provides insight on investment portfolio management, and an actuary that uses employee demographic, economic and investment earnings assumptions approved by the SCERS Board to determine the annual City contribution rates that would be necessary to ensure retirement balances will be sufficient to make retiree benefit payments now and in the future.

The SCERS Board, which is chaired by the Chair of the Finance & Housing Committee, and includes the Human Resources Director, the City Finance Director, and a mix of retired and active retirement system members, relies on information provided by the contracted actuary to make an annual City employer contribution rate recommendation to the City Council, who ultimately approves the rate by way of adopting the City Budget and a separate resolution, submitted as budget legislation, which affirms the SCERS Board recommendation. The rate is multiplied by active City employee retirement system member salaries to determine the annual budget for total City employer retirement contributions.

At its June 8, 2023, meeting, the SCERS Board voted to keep the rate at 15.82 percent, in line with the rate used to calculate the City’s contribution funded in the 2023 Adopted Budget. In contrast, the 2024 Proposed Budget Adjustments are built using a City contribution rate of 16.22 percent. This higher rate is a City Budget Office estimate derived early in 2023, prior to when the actuarial results were known.

This CBA would reduce the contributions across all affected City funds to the amounts that would be budgeted using the SCERS Board recommended rate of 15.82 percent.

2024 COUNCIL BUDGET ACTION

2024 COUNCIL BUDGET ACTION

V1

FG-904-A

Reduce JumpStart Fund revenue by \$4.2 million to reflect continuing the non-profit healthcare deduction

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(4,171,452)	
Total Budget Balance Effect	\$(4,171,452)	

DESCRIPTION

This Council Budget Action (CBA) would recognize the revenue impact of proposed budget legislation (Council Bill 120689) that would renew the deduction from the payroll expense tax for compensation between \$150,000 and \$399,999.99 at non-profit healthcare entities. The legislation would renew the deduction through 2026. Based on estimates from the Office of Economic and Revenue Forecasts, renewing the deduction would reduce projected revenue to the JumpStart Fund by \$4.2 million beginning in 2024.

V2

HSD-001-A

Add \$360,000 GF to HSD for a two percent provider pay increase for Continuum of Care contracts and impose a proviso

SPONSORS

Teresa Mosqueda, Lisa Herbold, Tammy Morales, Kshama Sawant

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(359,719)	
Total Budget Balance Effect	\$(359,719)	

DESCRIPTION

This Council Budget Action (CBA) adds \$360,000 GF to the Human Services Department (HSD) for a two percent provider pay increase for Continuum of Care Contracts (CoC) funded by the U.S. Department of Housing and Urban Development (HUD) and administered by the King County Regional Homelessness Authority (KCRHA). This CBA is balanced by increasing the one-time transfer from the JumpStart Payroll Expense Tax Fund (JumpStart Fund) to the GF by \$663,000 in CBA FG-801-B, bringing the total transfer from the JumpStart Fund in 2024 up to the full amount authorized in the 2024 Endorsed Budget for GF balancing; this CBA uses \$360,000 of that \$663,000.

In 2019, City Council passed Ordinance 125865 (codified as Seattle Municipal Code (SMC) Section 3.20.060) which required an annual inflationary adjustment for most contracts administered by HSD. When the ordinance passed, CoC contracts were covered by the required inflationary adjustment because they were administered by HSD. In 2022, KCRHA began receiving and administering CoC funding directly from HUD, rather than through HSD. Because CoC contracts are no longer administered by HSD, they are no longer subject to a required inflationary adjustment under SMC 3.20.060. The 2024 Proposed Budget Adjustments included a two percent provider pay increase for all HSD-administered contracts covered under SMC 3.20.060. Because CoC contracts are no longer covered under SMC 3.20.060, they also did not receive the two percent provider pay increase.

HUD does not currently include provider pay increases in CoC grant funding and would likely need increased funding through a congressional appropriation to do so. The National Alliance to End Homelessness has identified increases to Homelessness Assistance Grants (which includes CoC contracts) as one of its policy priorities, both to address growing need and to allow for modest cost-of-living increases for frontline staff. The FY24 Senate Transportation-Housing and Urban Development (T-

2024 COUNCIL BUDGET ACTION

HUD) Appropriations Bill would provide \$25 million for cost of living increases for workers in homelessness services, although that bill has not passed and its fate is uncertain.

Council’s intention is that in 2024 the Office of Intergovernmental Affairs include inflationary adjustments and provider pay increases for CoC contracts in its federal policy agenda and pro-actively seek a congressional appropriation for these purposes. Council will need to decide during the 2025 budget process whether or not to fund provider pay increases to CoC contracts. Council requests that if provider pay increases for HSD administered contracts are included in the 2025 Proposed Budget, that HSD submit information on the cost of providing the same provider pay increase for CoC contracts. Additionally, Council requests that HSD provide information on the impact on service levels and staff recruitment and retention for organizations receiving CoC contracts, if such increases are not included in the proposed budget. Central Staff will request that this is provided at the time the Mayor transmits the proposed budget each year in late September.

This Council Budget Action would impose the following proviso:

“Of the appropriation in the 2024 budget for the Human Services Department, \$360,000 GF is appropriated solely for provider pay to increase human services worker wages in addition to inflationary adjustments and may be spent for no other purpose.”

HSD-805-A sustains the inflationary increase provided to CoC contracts in 2023 and provides an additional inflationary increase of 7.5 percent for 2024. If both CBAs pass, CoC contracts would receive the same inflationary increase and provider pay increase as other HSD-administered contracts.

See Attachment A for the methodology used to calculate the two percent provider pay increase.

Because the \$360,00 is added to the base contract amount on which future inflationary adjustments are calculated, this CBA worsens the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium by more than \$360,000. In 2025, it would worsen the deficit by \$372,000 and in 2026 by \$383,000.

ATTACHMENT A

HSD-001-A

Methodology for Calculating Continuum of Care 2% Provider Pay Increase

The methodology for calculating the \$360,000 for the 2% provider pay increase for Continuum of Care (CoC) contracts is described below.

Base Contract Amounts

There are two different bases for CoC contracts when calculating inflationary adjustments.

Base 1: This is the funding that is provided from the federal department of Housing and Urban Development (HUD) directly to the King County Regional Homelessness Authority (KCRHA). The base amount is \$16,087,620 and will only change if the amount of funding provided by HUD changes.

Base 2: This is General Fund (GF) funding that is provided to the Human Services Department (HSD) for inflationary adjustments for CoC contracts. This funding is incorporated into the Master Services Agreement between KCRHA and HSD. GF funding for CoC inflationary adjustments are included in HSD's base contract amount on which inflationary adjustments are calculated.

Step 1: The 2% provider pay increase was calculated on Base 1.

$$\$16,087,620 * 2\% = \$321,753$$

Step 2: HSD-805-A sustains the one-time 4% inflationary adjustment provided in 2023 and provides an additional inflationary adjustment of 7.5% in 2024, for a total of \$1,898,342. This amount was not part of Base 2. Therefore, the 2% provider pay increase should also be calculated on it. In 2025, the \$1,898,342 of inflationary adjustments will be part of HSD's base contract amount.

$$\$1,898,342 * 2\% = \$37,967$$

Step 3: Add the results of Step 1 and Step 2 together to get total amount needed for a 2% provider pay increase to CoC contracts.

$$\$321,753 + \$37,967 = \$359,719$$

2024 COUNCIL BUDGET ACTION

V2

HSD-002-A

Add \$501,000 GF to HSD for homelessness services contracts, reduce \$501,000 GF from HSD for Rosie's Village relocation, reduce \$501,000 GF from Finance General for the transfer to the Emergency Fund in 2024 and impose a proviso

SPONSORS

Andrew Lewis, Lisa Herbold, Tammy Morales, Kshama Sawant, Dan Strauss

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(501,000)	
Total Budget Balance Effect	\$(501,000)	

DESCRIPTION

This Council Budget Action (CBA) would add \$501,000 GF in 2024 (one-time) to the Human Services Department (HSD) for a 2% provider pay increase and a 7.5% inflationary adjustment for \$5.2 million of 2023 funds expected to be carried forward into 2024 as part of the 2023 Master Services Agreement (MSA) between HSD and the King County Regional Homelessness Authority (KCRHA). It would reduce \$501,000 GF of \$916,000 GF in HSD for the relocation of Rosie’s Village, a 36-unit tiny house village (THV) in the University District and reduce \$501,000 GF from Finance General for the transfer to the Emergency Fund in 2024, to be reserved for relocating Rosie's Village, if needed in 2024.

There are sixteen programs serving people experiencing or at risk of homelessness that have been successively funded with \$5.2 million of one-time funding from KCRHA since 2020. KCRHA will use \$5.2 million of 2023 underspend from its MSA with HSD to continue these services through the end of 2024. Seattle Municipal Code (SMC) 3.20.060 requires an inflationary adjustment for most HSD-administered contracts. Additionally, the 2024 Proposed Budget Adjustments provided a 2% provider pay increase for any HSD administered contract that is also receiving an inflationary adjustment under SMC 3.20.060. Funds that are carried forward from 2023 to 2024 were not included in HSD’s base contract amount, on which the 7.5% inflationary adjustment and 2% provider pay increase was calculated. Because of that, the \$5.2 million in funds did not receive a 7.5% inflationary increase or 2% provider pay increase.

The cost to provide a 7.5% inflationary adjustment for the \$5.2 million in contracts is \$389,000. The cost to provide a 2% increase to the same contracts is \$111,000, when calculated on an inflation-

2024 COUNCIL BUDGET ACTION

adjusted base. See Attachment A for the methodology used to calculate these amounts.

The 2024 Proposed Budget Adjustments used \$916,000 from the JumpStart Fund to support the relocation of Rosie’s THV. FG-801-A in the Chair’s Balancing Package swapped \$916,000 JumpStart fund for GF to align with current policy.

Sound Transit, which owns the site Rosie’s Village is located on, will only commit to a lease extension for the site through May 2024. Sound Transit intends for the site to be developed for affordable housing and started the process of selecting a developer in September 2023. Development of the site is at least eighteen months away and likely longer. It is possible that the relocation of the THV could be moved to early 2025, but Sound Transit cannot commit to this extension until a developer is selected and a timeline is established. By reducing the transfer to the emergency fund by \$501,000 and holding those funds in a reserve for Rosie’s Village, this amendment will ensure that funds are available should Sound Transit not extend the lease and Rosie’s Village must be relocated in 2024. If relocation does not occur in 2024, these funds held in reserve for Rosie’s Village would be transferred to the Emergency Fund in the 2024 Year-end Supplemental Budget ORD.

This Council Budget Action would impose the following proviso:

“Of the appropriations in Human Service Department’s budget for the Addressing Homelessness Budget Summary Level (HSD - BO-HS-H3000), \$501,000 is appropriated solely for a 2% provider pay increase and a 7.5% inflationary adjustment for \$5.2 million of 2023 funds expected to be carried forward into 2024 as part of the 2023 Master Services Agreement (MSA) between HSD and the King County Regional Homelessness Authority (KCRHA) and may be spent for no other purpose.”

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium by \$501,000.

HSD-012S-A

Request that HSD provide a report on how the department will implement forthcoming legislation related to provider pay increases and integrate wage equity into competitive funding processes

SPONSORS

Lisa Herbold, Tammy Morales, Teresa Mosqueda

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Human Services Department (HSD) provide a report to City Council on how the department will: 1) incorporate wage equity into its competitive application process for awarding funds 2) implement the contracting, monitoring, and reporting requirements related to human services provider pay increases found in the provider pay legislation to be considered on November 30, 2023 and 3) provide recommendations on best practices for any department receiving provider pay funds.

The Select Budget Committee will discuss and may vote to make a recommendation to the full City Council on forthcoming provider pay legislation at its meeting on November 30, 2023. That legislation would require that human services contracts that spend appropriated money expressly reserved for increases to human services contracts for the purpose provider pay, ("provider pay funding") must be used to increase wages for human services providers. The legislation also stipulates that such increases must be in addition to any inflationary adjustments, and includes contracting and reporting requirements. If the legislation does not pass, this SLI will be removed from the Resolution that Council adopts annually to re-adopt all SLIs.

The 2024 Proposed Budget Adjustments includes a two percent increase to contracts administered by three departments for purposes of provider pay increases:

- \$4.2 million for contracts administered by HSD
- \$11,000 for one contract administered by the Department of Neighborhoods
- \$119,000 for contracts administered by the Department of Education and Early Learning.

This SLI is only directed to HSD because the department is administering the majority of contracts with provider pay funding. However, the intent is that information provided through this SLI will inform best practices for any department administering contracts with provider pay funding.

The report should include information on:

Staff: Jennifer LaBrecque

Page 1 of 2

2024 STATEMENT OF LEGISLATIVE INTENT

1) How HSD intends to incorporate wage equity into its competitive application processes such as Request for Proposals (RFP) and Request for Qualifications (RFQ). Topics addressed should include:

- What information HSD will ask for in its RFP and RFQs regarding wage levels and other staff metrics such as turnover rates and staff vacancy rates.
- How HSD intends to incorporate wage equity into the review and evaluation of competitive applications; possible ideas include rewarding bidders who can ensure that all workers carrying out the work will be paid at least a certain minimum and using other metrics related to job quality or organizational performance (e.g., turnover) in evaluating applications.

2) The process by which HSD will meet the requirements of provider pay legislation including how HSD will:

- Incorporate use of provider pay funding into contract negotiations.
- Collect information from providers to meet the reporting obligations
- Monitor that providers are following the requirements, including that provider pay increases are in addition to inflationary adjustments.

3) The process by which HSD will monitor and report on how prime contractors utilize provider pay funding for subcontractors, including but not limited to the King County Regional Homelessness Authority.

4) Recommendations on how HSD can obtain data needed to evaluate the impact of funding for provider pay increases that creates minimal administrative burden, such as working with an organization’s payroll processors to obtain wage data.

5) Recommendations on best practices regarding integrating wage equity into competitive application processes and establishing processes for meeting the requirements of the provider pay legislation for any department receiving provider pay funds.

Due Date: HSD should submit the report to the Public Safety and Human Services Committee or successor committee and the Central Staff Director by June 30, 2024.

Responsible Council Committee(s): Public Safety and Human Services

DUE DATE: June 30, 2024

2024 COUNCIL BUDGET ACTION

HSD-805-A

Add \$1.9 million GF to HSD for inflationary adjustments to Continuum of Care contracts

SPONSORS

Teresa Mosqueda, Lisa Herbold

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(1,898,342)	
Total Budget Balance Effect	\$(1,898,342)	

DESCRIPTION

This Council Budget Action (CBA) adds \$1.9 million GF to the Human Services Department (HSD) for inflationary adjustments to Continuum of Care (CoC) contracts that are administered by the King County Regional Homelessness Authority (KCRHA). The funding is provided to: (1) make ongoing the 4.0 percent portion of the 2023 inflationary adjustments that was added in a one-time manner in 2023 and (2) provide a 7.5 percent inflationary adjustment for 2024. See Attachment A for the methodology used to calculate the \$1.9 million amount.

In 2019, the City Council passed Ordinance 125865 (codified as Seattle Municipal Code (SMC) Section 3.20.060) which required an annual inflationary adjustment for contracts administered by HSD, with limited exceptions. When the ordinance passed, CoC contracts were covered by the required inflationary adjustment because they were administered by HSD. In 2022, KCRHA began receiving and administering CoC funding directly from HUD, rather than through HSD. Because CoC contracts are no longer administered by HSD, they are no longer subject to a required inflationary adjustment under SMC 3.20.060. The 2023 Adopted Budget provided a 7.6 percent inflationary adjustment for CoC contracts, with 4.0 percent one-time and 3.6 percent ongoing.

HUD does not currently include annual inflationary adjustments for wages and other operating costs in CoC grant funding. To provide an annual inflationary adjustment, HUD would likely need increased funding through a congressional appropriation. The National Alliance to End Homelessness has identified increases to its Homelessness Assistance Grants (which includes CoC contracts) as one of its policy priorities, both to address growing need and to allow for modest cost-of-living increases for frontline staff. The FY24 Senate Transportation-Housing and Urban Development (T-HUD) Appropriations Bill would provide \$25 million for cost of living increases for workers in homelessness services, although that bill has not passed and its fate is uncertain.

2024 COUNCIL BUDGET ACTION

Council’s intention is that in 2024 the Office of Intergovernmental Affairs include inflationary adjustments and provider pay increases for CoC contracts in its federal policy agenda and pro-actively seek a congressional appropriation for these purposes. Council will need to decide during the 2025 budget process whether or not to provide another inflationary increase for 2025. Council requests that HSD submit information on the cost of providing the same inflationary adjustment as required under SMC3.20.060 for CoC contracts each budget year. Additionally, Council requests that HSD provide information on the impact on service levels and staff recruitment and retention for organizations receiving CoC contracts, if such inflationary adjustments are not included in the proposed budget. Central Staff will request that this is provided at the time the Mayor transmits the proposed budget each year in late September.

HSD-801-A provides a 2 percent increase to CoC contracts for purposes of increasing provider pay. If both amendments pass, CoC contracts will receive the same inflationary increase and provider pay increase as other HSD-administered contracts.

See Attachment A for the methodology used to calculate the 2 percent provider pay increase.

Because the \$1.9 million is added to the base contract amount on which future inflationary adjustments are calculated, this CBA worsens the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium by more than \$1.9 million. In 2025 and 2026, it would worsen the deficit by \$2 million.

ATTACHMENT A
HSD-805-A
Methodology for Calculating Continuum of Care Inflationary Adjustments

The methodology for calculating the \$1.9 million inflationary adjustment for Continuum of Care (CoC) contracts is described below.

Base Contract Amounts

There are two different bases for CoC contracts when calculating inflationary adjustments.

Base 1: This is the funding that is provided from federal department of Housing and Urban Development (HUD) directly to the King County Regional Homelessness Authority (KCRHA). The base amount is \$16,087,620 and will only change if the amount of funding provided by HUD changes.

Base 2: This is General Fund (GF) funding that is provided to the Human Services Department (HSD) for inflationary adjustments for CoC contracts. This funding is incorporated into the Master Services Agreement between KCRHA and HSD. GF funding for CoC inflationary adjustments are included in HSD’s base contract amount on which inflationary adjustments are calculated.

Step 1: Calculate 2024 annual adjustments

The 2024 annual inflationary adjustments of 7.5% for CoC contracts was calculated on Base 1. Any prior ongoing GF inflationary adjustments were already part of HSD’s base contract amount and thus an inflationary adjustment has already been incorporated in the 2024 Proposed Budget Adjustments.

*Cost to provide a 2024 annual inflationary adjustment: $\$16,087,620 * 7.5\% = \$1,206,573$.*

Step 2: Calculate 2023 Inflationary Adjustments

There were two inflationary adjustments for CoC contracts in 2023:

- 4% (one-time): \$643,506
- 3.6% (on-going): \$579,155

The ongoing portion of \$579,155 is part of Base 2, and so has already had an inflationary adjustment applied as part of the 2024 Proposed Budget Adjustments. The one-time portion of \$643,506 was not added to Base 2, since it was one-time. To be consistent with past practices, a 7.5% inflationary adjustment was applied to \$643,506 amount.

*Cost to sustain 2023 inflationary adjustment: $\$643,506 * 1.075 = \$691,769$*

Step 3: Calculate total funding needed for 2024 inflationary adjustment and to sustain the 2023 inflationary adjustments

$\$1,206,573 + \$691,769 = \$1,898,342$

2024 COUNCIL BUDGET ACTION

V2

HSD-809-A

Add \$324,000 GF to HSD, DEEL, and DON for additional costs related to inflation-adjusted human services provider pay and impose three provisos

SPONSORS

Teresa Mosqueda, Lisa Herbold

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(324,000)	
Total Budget Balance Effect	\$(324,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) adds \$314,000 GF to the Human Services Department (HSD), \$9,000 GF to the Department of Education and Early Learning (DEEL), and \$1,000 GF to the Department of Neighborhoods (DON) for additional costs related to the two percent provider pay increase for human services provider contracts.

The 2024 Proposed Budget Adjustments provided a 2% increase to human services contracts in three departments for purposes of provider pay - \$4.2 million (GF) in HSD, \$119,000 (GF) in DEEL and \$11,000 (GF) in DON. Those amounts were calculated on a base contract amount which did not include the inflationary adjustment. This amendment provides the additional funding needed when the 2% provider pay increase is calculated on the higher, inflation-adjusted base contract amount. If this amendment passes, the total amount for provider pay will be \$4.5 million (GF) in HSD, \$128,000 (GF) in DEEL and \$12,000 (GF) in DON. See Attachment A for the methodology used to calculate this amendment. If this amendment passes, it is Council's intent that provider pay increases always be based on the higher, inflation-adjusted base contract amount.

This Council Budget Action would impose the following provisos:

"Of the appropriation in the 2024 budget for the Human Services Department, \$4.5 GF million is appropriated solely for provider pay to increase human services worker wages in addition to inflationary adjustments and may be spent for no other purpose."

"Of the appropriation in the 2024 budget for the Department of Early Learning, \$128,000 GF is appropriated solely for provider pay to increase human services worker wages in addition to inflationary adjustments and may be spent for no other purpose."

"Of the appropriation in the 2024 budget for the Department of Neighborhoods, \$12,000 GF is appropriated solely for provider pay to increase human services worker wages in addition to inflationary adjustments and may be spent for no other purpose."

Because the \$324,00 is added to the base contract amount on which future inflationary adjustments are calculated, this CBA worsens the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium by more than \$324,000. In 2025, it would worsen the deficit by \$336,000 and in 2026 by \$346,000.

2024 STATEMENT OF LEGISLATIVE INTENT

V1

HSD-010S-B

Request that HSD work with the King County Regional Homelessness Authority to prioritize use of 2023 remaining underspend

SPONSORS

Andrew Lewis, Lisa Herbold, Tammy Morales, Teresa Mosqueda

DESCRIPTION

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Human Services Department (HSD) and City Budget Office work with the City Council through the year-end carryforward process in early 2024 in evaluating and prioritizing use of remaining 2023 underspend in the King County Regional Homelessness Authority (KCRHA) budget program and that HSD provide a report on the agreed upon use of KCRHA underspend before or at the same time the 2023 Carryforward Ordinance is submitted.

Council acknowledges that HSD and KCRHA already made commitments for use of some 2023 underspend based on underspend estimates available in the summer of 2023, including utilizing \$5.2 million of 2023 underspend to cover programs with expiring, one-time funds. This SLI is not intended to alter those commitments. If there is remaining underspend after those existing commitments, KCRHA should first prioritize, to the extent feasible, funding for inflationary adjustments and wage increases for provider contracts funded with one-time funding that had not already received those increases.

If there are remaining funds after that first priority is addressed, other priorities (not listed in order of priority) include: addressing operational gaps caused by wages increases that are not fully addressed by inflationary adjustments and provider pay increases provided through the 2024 Budget; up to \$2 million to support the specific needs of migrants and asylum seekers; and funding for behavioral health services, case management and operating costs at tiny house villages and other non-congregate shelter.

HSD and CBO should work with the Council to identify the use of any available underspend from the 2023 KRCRHA budget program and the intended uses should be described in a report accompanying the 2023 Carryforward Ordinance.

Due date: The report should be submitted to the Finance Committee by April 1, 2024.

2024 STATEMENT OF LEGISLATIVE INTENT

Responsible Council Committee(s): Finance and Housing

DUE DATE: April 1, 2024

2024 COUNCIL BUDGET ACTION

V1

HSD-003-B

Add \$500,000 GF to HSD for behavioral health services, case management and operating costs at existing non-congregate shelters, reduce \$315,000 GF from HSD for Rosie's Village relocation, reduce \$315,000 GF from Finance General for the transfer to the Emergency Fund in 2024, reduce \$185,000 (IT Fund) from ITD and impose a proviso

SPONSORS

Andrew Lewis, Lisa Herbold, Tammy Morales, Kshama Sawant, Dan Strauss

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(500,000)	
Total Budget Balance Effect	\$(500,000)	

DESCRIPTION

This Council Budget Action (CBA) would add \$500,000 GF (one-time) in 2024 to the Human Services Department (HSD) for behavioral health services, case management and other operating costs at existing non-congregate shelters. It would 1) reduce by \$315,000 GF of the \$916,000 GF in HSD for the relocation of Rosie’s Village, a 36-unit tiny house village (THV) in the University District; 2) reduce by \$315,000 GF from Finance General for the transfer to the Emergency Fund in 2024, to be reserved for relocating Rosie's Village, if needed in 2024; and 3) transfer \$185,000 from the Information Technology Fund (IT Fund) to the GF, which represents a portion of the GF share of internal services charges above expenditures in 2022.

CBA HSD-032-B-001-2023 provided one-time funding in the 2023 Adopted Budget for the Low-Income Housing Institute (LIHI) for one-time maintenance costs and additional operational needs at eleven existing tiny house villages and one enhanced shelter (Lake Front) with a total of 483 units. HSD contracted with the King County Regional Homelessness Authority to administer these funds. Of the \$2.8 million, \$273,000 was for one-time costs and the remaining \$2.5 million was for ongoing staffing and services including behavioral health services, case management and other operating costs.

This CBA would add \$500,000 for behavioral health, case management and operating costs at LIHI operated non-congregate shelters. Separately, HSD-814-A provides \$500,000 GF (on-going) and HSD-004-A provides \$1.5 million (one-time) for the same purpose. If all three amendments were to be funded, \$2.5 million would be provided for LIHI operated non-congregate shelter. Overall, the 2024

2024 COUNCIL BUDGET ACTION

Proposed Budget Adjustments includes \$15.8 million GF for tiny house villages and non-congregate shelter (excluding the Rosie's Village relocation cost). If all three amendments were to pass, the 2024 Proposed Budget Adjustments would provide a total of \$18.3 million GF for Tiny House Villages and non-congregate shelter.

HSD would contract with KCRHA to administer and manage these funds. Council has identified LIHI for this funding and requests that the HSD Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C, to the extent applicable, and contract for these funds as part of the Master Services Agreement between KCRHA and HSD.

Because the \$500,000 added through this amendment were not part of HSD's 2024 base contract amount, these funds will not receive a 7.5% inflationary adjustment and 2% provider pay increase. Council requests that HSD work with KCRHA and LIHI to utilize a portion of the funds for inflationary costs and provider pay increases, recognizing that such an action could have an impact on service levels.

The 2024 Proposed Budget Adjustments used \$916,000 from JumpStart to support the relocation of Rosie's THV. FG-801 in the Chair's Balancing Package swapped \$916,000 of JumpStart funds to General Funds to align with current policy. Sound Transit, which owns the site Rosie's Village is located on, will only commit to a lease extension for the site through May 2024. Sound Transit intends for the site to be developed for affordable housing and started the process of selecting a developer in September 2023. Development of the site is at least eighteen months away and likely longer. It is possible that the relocation of the THV could be moved to early 2025, but Sound Transit cannot commit to this extension until a developer is selected and a timeline is established. By reducing the transfer to the emergency fund by \$416,000 and holding those funds in reserve for relocating Rosie's village, this amendment will ensure that funds are available should Sound Transit not extend the lease and Rosie's Village must be relocated in 2024. If relocation does not occur in 2024, these funds held in reserve for Rosie's Village would be transferred to the Emergency Fund in the 2024 Year-end Supplemental Budget ORD.

This Council Budget Action would impose the following proviso:

"Of the appropriations in Human Service Department's budget for the Addressing Homelessness Budget Summary Level (HSD - BO-HS-H3000), \$315,000 is appropriated solely for behavioral health services, case management and operating costs at non-congregate shelters and may be spent for no other purpose."

Because this adds one-time funding, this CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium. However, because funds are being used to pay for ongoing expenses at non-congregate shelter, such as staff, organizations receiving these funds are likely to pursue City funding in future budget years.

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA): (1) adds \$300,000 GF (one-time) to the Human Services Department (HSD) for meal providers, (2) adds \$534,000 GF (one-time) to HSD for a Recreational Vehicle (RV) Storage Program and (3) imposes a proviso on \$1.5 million GF in HSD to be used for a RV Storage Program.

\$300,000 for meal providers

Federal COVID relief food funding ended on December 31, 2022, and additional COVID Supplemental Nutrition Assistance Program (SNAP) food benefits ended on February 28, 2023. Due to the expiration of one-time funding, food and nutrition programs decreased from \$27.5 million in the 2022 Adopted Budget to \$21.4 million in the 2024 Endorsed Budget. That amount increases to \$23.3 million in the 2024 Proposed Budget Adjustments, in part due to \$1.3 million added for senior nutrition services from the Older Americans Act grant.

This CBA would add \$300,000 for meal providers. Separately, CBA HSD-808-A provides \$42,000 GF (one-time) for senior meals and CBA HSD-807-B provides \$650,000 GF (one-time) for food banks. If all three CBAs were to pass, total food and nutrition investments in 2024 would increase to \$24.3 million.

RV Storage Program

The 2023 Adopted and 2024 Endorsed Budgets included \$1 million GF (one-time) in both years for an RV storage program for RV residents transitioning to shelter or permanent housing. HSD contracted with the King County Regional Homelessness Authority (KCRHA) to administer this funding. In mid-2023, the Executive notified KCRHA that RV storage is only an allowable use under the Land Use Code if the storage site is directly adjacent to a site with non-congregate housing. The Chair's balancing package assumed passage of an amendment to the year-end supplemental ORD that reduces the 2023 funding for the RV Storage Program by \$166,000 GF. This CBA assumes passage of an amendment to the Year-end Supplemental Budget ORD that increases that reduction to \$1 million GF and uses the difference (\$834,000) for the uses described in this CBA. If the amendment to the Year-end Supplemental Budget ORD and this CBA pass, the total funding for the RV Storage Program in 2024 is \$1.5 million.

This CBA imposes the following proviso:

"Of the appropriations in the Human Service Department's 2024 budget for the Addressing Homelessness Budget Summary Level (HSD - BO-HS-H3000) \$1.534 million General Fund is appropriated solely for a Recreational Vehicle (RV) Storage Program for RV residents transitioning to shelter or permanent housing and may be spent for no other purpose."

This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

V1

HSD-807-B

Add \$650,000 GF to HSD for an emergency food fund

SPONSORS

Dan Strauss, Tammy Morales, Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(650,000)	
Total Budget Balance Effect	\$(650,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$650,000 GF (one-time) to the Human Services Department (HSD) for an emergency food fund to pay for food, staffing, and operational expenses for food banks. Council provided \$650,000 GF (one-time) to HSD in the 2023 Adopted Budget through HSD-012-B-001-2023 for the same purpose.

Federal COVID relief food funding ended on December 31, 2022, and additional COVID Supplemental Nutrition Assistance Program (SNAP) food benefits ended on February 28, 2023. Due to the expiration of one-time funding, food and nutrition programs decreased from \$27.5 million in the 2022 Adopted Budget to \$21.4 million in the 2024 Endorsed Budget. That amount increases to \$23.3 million in the 2024 Proposed Budget Adjustments, in part due to \$1.3 million added for senior nutrition services from the Older Americans Act grant.

In addition to the funding provided by this CBA, HSD-808-A provides \$42,000 (one-time) for senior meals and HSD-005-A provides \$300,000 (one-time) for meal providers. If all three of the CBAs were to pass, total food and nutrition investments in 2024 would increase to \$24.3 million.

Because this adds one-time funding, this CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium. However, because funds are being used to pay for ongoing expenses at food banks, such as staff, organizations receiving these funds are likely to pursue City funding in future budget years.

2024 STATEMENT OF LEGISLATIVE INTENT

V2

HSD-008S-A

Request that HSD work with the King County Regional Homelessness Authority to provide quarterly reports on geographic and population-based outreach to people experiencing homelessness

SPONSORS

Andrew Lewis, Alex Pedersen, Dan Strauss, Sara Nelson

DESCRIPTION

2024 STATEMENT OF LEGISLATIVE INTENT

This Statement of Legislative Intent (SLI) would request that the Human Services Department (HSD) work with the King County Regional Homelessness Authority (KCRHA) to provide quarterly reports on geographic based and population-based outreach services performed by outreach providers contracting with KCRHA. These reports would ensure consistent reporting to the public by HSD and KCRHA and contracted homelessness outreach providers to assess the outcomes and efficacy of responses to unsheltered homelessness.

The metrics to report on would convey the performance in the following areas, which are incorporated into KCRHA contracts with geographic based and population based outreach providers:

1. Coordinated entry enrollment;
2. Demographic information for participants;
3. Number of clients in program; and
4. Exits from "outreach" status into housing/shelter.

Additionally, Council requests that HSD and KCRHA continue to work with geographic based outreach providers over the next year to move contracted agencies towards reporting on the following additional information:

- 1) Location of initial outreach (geo located)
- 2) Referrals made to shelter, including date of referral and reason the referral did not result in a connection to shelter;
- 3) Reason for declining an offered shelter bed, if applicable
- 4) Instance of service provision, such as:
- 5) Connection to behavioral health services
- 6) Public benefits enrollment
- 7) Provision of harm reduction supplies (including educational materials)
- 8) Narcan training and distribution
- 9) Help obtaining identification
- 10) Connection to medical services i.e., Wound pack distribution;
- 11) Support for cultural well-being;
- 12) Language support service
- 13) Referral to employment or job advancement services;
- 14) Completion of housing and service needs assessment, as applicable

HSD should submit the reports to the Chair of the Public Assets and Homelessness Committee or its successor with a copy provided to the Central Staff Director.

Due date: Reports should be submitted by January 31, April 30, July 31, and November 17, 2023. The report due January 31, 2024, should cover activities conducted from October 1 through December 31, 2023.

Request that OIR and HSD report on how they plan to engage with the State to receive funding for tiny house villages and other types of non-congregate shelter for people experiencing homelessness

SPONSORS

Dan Strauss, Kshama Sawant, Andrew Lewis

DESCRIPTION

This Statement of Legislative Intent requests that the Office of Intergovernmental Relations (OIR) and the Human Services Department (HSD) report on how they plan to engage with the State Legislature and Governor's Office to receive funding for tiny house villages and other types of non-congregate shelter expansion for people experiencing homelessness. Such engagement could include, but is not limited to, the State's Rights-of-Way Safety Initiative, which provides shelter and permanent housing for people experiencing homelessness who are on state owned rights-of-way.

OIR and HSD should submit a report to the Public Assets and Homelessness Committee, or successor committee, by June 1, 2024.

Responsible Council Committee(s): Public Assets and Homelessness

DUE DATE: June 1, 2024

HSD-013-A

Add \$200,000 GF to HSD for domestic violence mobile community-based survivor supports

SPONSORS

Lisa Herbold, Tammy Morales, Kshama Sawant, Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(200,000)	
Total Budget Balance Effect	\$(200,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) would add \$200,000 GF (one-time) to the Human Services Department (HSD) for domestic violence (DV) mobile community-based survivor supports. Mobile supports allow DV survivors to determine the time and place of their services to protect their safety and confidentiality. This CBA is responsive to the 2023 recommendations of the Seattle Community Responses to Domestic Violence (CRDV) work group, which was initiated by the Seattle Office for Civil Rights (SOCR) in collaboration with the Accountable Communities Consortium, a group of DV advocates, DV survivors, and community members with experience responding to domestic violence outside of the criminal legal system. Those recommendations are contained in the CRDV work group’s “Transformation is Possible” report, which is included here as Attachment A.

The “Transformation is Possible” report identified that DV arrests follow existing patterns of racial criminalization in that residence in a highly policed neighborhood is a strong predictor of arrest probability, and it noted that although an estimated 7 percent of Seattle’s population is Black, approximately 40 percent of referrals (from the Seattle Police Department to the City Attorney’s Office) for DV-related offenses involved Black suspects. The report also found that criminal legal interventions are often at odds with the preference of DV survivors, due in part to their experience of being marginalized and harmed within the criminal legal system. Finally, the report identified a need for services for those who had committed DV that, instead of criminalizing the behavior, connected individuals with community-owned and community-led resources to motivate change and build accountable relationships and communities.

Funding in this CBA is intended to be awarded by HSD, working in partnership with SOCR, to up to three organizations that support DV survivors and families impacted by DV and that emphasize the non-criminalizing approach described in the "Transformation is Possible" report.

This CBA is balanced by increasing the one-time transfer from the JumpStart Payroll Expense Tax Fund (JumpStart Fund) to the GF by \$663,000 in CBA FG-801-B, bringing the total transfer from the JumpStart Fund in 2024 up to the full amount authorized in the 2024 Endorsed Budget for GF balancing; this CBA uses \$200,000 of that \$663,000. This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

Summary

TRANSFORMATION IS POSSIBLE is a report of the Community Responses to Domestic Violence (CRDV) workgroup, part of Seattle's Office for Civil Rights Criminal Legal System (CLS) Project. The CLS Project focuses on eliminating systemic racism in the criminal legal system and advancing social justice by involving communities that have been negatively impacted by criminal legal policies in advising the City's efforts for change. The CRDV Workgroup brought together local domestic violence survivors, advocates, and policy experts with experience intervening in domestic violence outside of the criminal legal system. The primary aim was to identify and make recommendations to expand community responses to domestic violence.

Domestic violence (DV) is a pervasive social problem; most Seattle residents will directly experience or be close to someone experiencing DV in their lifetimes. Seattle spends significant public resources on a criminal legal response to DV, yet this strategy generally fails to address the scale and root causes of the problem. Many survivors avoid involving law enforcement and most people abusing their partners do not come into contact with the criminal legal system for DV. Alternative forms of DV intervention have long been practiced within Black and Indigenous communities, communities of color, and among LGBTQ people, immigrants and refugees, and other groups in which survivors have been marginalized and criminalized, yet there are limited public resources available to directly support this work.

It is time to transform the public response to domestic violence in alignment with Seattle's stated commitments to racial and social justice. Seattle is well positioned to lead nationally by supporting a robust network of survivor-centered organizations working on the frontlines to provide community-based responses to domestic violence. TRANSFORMATION IS POSSIBLE identifies this work and provides the next-step recommendations for the city to invest in a broader vision of DV response. We highlight the need for durable funding streams and political leadership to support community-owned efforts that can prevent violence before it escalates, provide pathways for healing and accountable relationships, and motivate personal and social transformation.

Recommendations discussed in the report:

1. Establish durable public funding streams for community responses to domestic violence that reach people being abusive and are independent of the criminal legal system.
2. Invest first in strategies developed by marginalized survivors of domestic violence and practiced in Black and Indigenous communities and other communities of color; lesbian, gay, bisexual, transgender, and queer communities; immigrant and refugee communities; and other communities that have been systematically harmed by the criminal legal system.
3. Start with a pilot phase including a community-directed funding process with sufficient funding for community organizations to plan, design, implement, and evaluate programs over a three-year period.
4. Protect community ownership of programs including independent leadership and decision-making, reporting requirements that reflect community-driven evaluation criteria, and participant confidentiality.
5. Demonstrate public leadership and transparency in the adoption of community responses to domestic violence.

Acknowledgements

The Seattle Office of Civil Rights initiated the Community Responses to Domestic Violence (CRDV) workgroup in collaboration with the Accountable Communities Consortium. The project was supported by the Seattle City Council 2021 Budget Action that added funds to the Seattle Office for Civil Rights (CBA OCR-002-A-001).

Accountable Communities Consortium supports people, organizations, and communities to be in right relationship through organizing, facilitation, training, and consultation. Team members on this project included Shannon Perez-Darby and Marci Taitt-Lamar, with consulting by Sid Jordan.

Shannon Perez-Darby is an anti-violence advocate, author, and consultant working to create the conditions to support loving, equitable relationships and communities. With nearly 20 years of experience Shannon Perez-Darby centers queer and trans communities of color while working to address issues of domestic and sexual violence, accountability and transformative justice.

Marci Taitt-Lamar is a domestic violence advocate and consultant whose work in the field has focused on research, best practices, and training and technical assistance. Marci brings a wealth of experience working in grassroots LGBTQ organizations and movements and is committed to capacity-building work that centers the liberation of queer and trans survivors of color.

Sid Jordan is an assistant professor at Portland State University's School of Social Work. Jordan is an anti-violence researcher and educator with two decades of experience advocating with and for survivors of domestic and sexual violence. His work includes collaborating with community organizations using participatory research practices to advance gender, racial, and economic justice.

Additionally, we thank Damon Agnos, Caedmon Magboo Cahill, Angélica Cházaro, Merrilyn Leapelt, Liam Nold, Lan Pham, Emily Thuma, Hannah Whitworth, and JM Wong.

Key Terms

For the purposes of this report, the following terms and concepts are defined as such:

Community-owned refers to non-governmental groups who maintain responsibility and autonomy for decision-making, including budget authority, governance, project structure, program delivery, protection of data, and evaluation.

Domestic violence refers to a pattern of one person in a romantic, sexual, and/or spousal relationship asserting power and control in ways that diminish or threaten the other person's agency and safety.

A **survivor** of domestic violence is a person who has directly experienced a domestic violence relationship, as described above.

A **person being abusive** is a person asserting a pattern of power and control in an intimate interpersonal relationship.

A **victim-defendant, or survivor-defendant**, is a survivor of domestic violence facing criminal charges either directly or indirectly related to their DV experience.

Introduction

Domestic violence (DV) is a pervasive social problem. Despite decades of policy-making and public investment, DV remains one of the most prevalent forms of interpersonal harm and an insidious driver of preventative injury, housing insecurity, educational disruptions, chronic health problems, and premature death. National studies suggest that one in three women, one in three transgender and nonbinary people, and one in four men have experienced severe physical abuse by an intimate partner.² These numbers increase when we include other forms of abuse such as stalking, manipulation, economic control, and reproductive coercion, as well as other familial or household relationships, such as child, elder, or sibling abuse.³ Taken together, it can be assumed that most Seattle residents will directly experience or be close to someone experiencing DV in their lifetimes. It also means that most of us know someone who has engaged in abusive behavior.

This report focuses on responding to intimate partner violence, or abuse in the context of romantic, sexual, and/or spousal relationships. We define DV here as a pattern of one person in a romantic, sexual, and/or spousal relationship asserting power and control in ways that diminish or threaten the other person's agency and safety. This contextual understanding of DV is broadly accepted by DV advocacy groups but is notably distinct from criminal legal definitions. In Washington State, DV is statutorily defined to include specific criminal offense categories, such as assault, reckless endangerment, coercion, and kidnapping, when they are committed by and against an intimate partner, a legally recognized family member, or a household member.⁴ Whereas the contextual definition of DV emphasizes patterns and dynamics of abuse, the criminal offense of DV is defined by discrete intentional acts. Thus, the criminal legal definition may include actions that survivors engage in to escape or mitigate an abusive situation and, at the same time, disregard dynamics of abuse or control that do not fit the criminal legal standard. As scholars and advocates have documented, the criminalization of DV survivors and the dilemma of survivor-defendants is an urgent human rights and racial justice issue.⁵

Domestic violence impacts entire communities.

DV fundamentally disrupts the lives and life chances of its victims, survivors, and their families. At its most severe, domestic violence can be lethal. An estimated sixty-four people in Washington State die in domestic violence-related events each year.⁶ Far more often, DV causes preventable physical and psychological injuries. By one national estimate, more than 4.1 billion dollars is spent annually on DV-related medical and mental health care.⁷ Between December 2022 and February 2023, King County saw at least 530 DV-related emergency room visits.⁸ Survivors of intimate partner violence experience higher rates of traumatic brain injury, post-traumatic stress disorder, depression, and chronic disease and pain than those who have not experienced DV.⁹ Survivors also sustain economic harms ranging from lost wages and career opportunities to medical and legal debt.¹⁰ These deleterious consequences can extend to those who witness DV, especially children, including the effects of social isolation, chronic stress and educational disruptions.¹¹

Less often acknowledged are the many negative repercussions of DV for those engaging in abuse. These can include social alienation, lost housing, interrupted employment, termination of parental rights, incarceration, and medical and legal debt. Engaging in abusive behaviors against intimate partners is also associated with preventable health problems, such as post-traumatic stress, depression, and cardiovascular disease, and can lead to acute injury and premature death from self-inflicted harm, a survivor's self-defensive actions, and law enforcement interventions.¹² The cumulative impacts of DV on communities are brought into even sharper focus when recognizing that many people who enact abuse are also survivors of violence.¹³

The consequences of DV have meaningful impacts on municipal budgets. Public funds pay for emergency shelter, advocacy, health care, and legal services, as well as criminal legal interventions including emergency police response, civil protection order enforcement, prosecution, court, probation, and incarceration. A comprehensive analysis of Seattle's DV-related expenditures on criminal legal interventions is not currently available. However, the Washington Association

of Sheriffs and Police Chiefs estimated that nearly half of the law enforcement responses to “crimes against persons” in 2021 were DV-related.¹⁴ In Seattle, more than half of assault charges referred from law enforcement to the City Attorney’s office in 2022 were DV-related, and DV accounted for nearly one-third of all referred charges.¹⁵ Given the size of the City’s public safety budget relative to its DV-specific human service commitments, the criminal legal system represents Seattle’s single largest investment in domestic violence response. Importantly, CRDV Workgroup members point out that the true fiscal costs of DV are much higher than public expenditures, since many people turn to family and friends rather than public systems, and many advocacy organizations rely on philanthropic funding and charitable donations to maintain their operations.

Dominant policy approaches have failed to curb domestic violence.

Policymakers have generally favored funding community-based supports for survivors and criminal penalties for people who have engaged in domestic violence. One reason that both approaches have failed to prevent or significantly reduce the rates of domestic violence is that they concentrate on responding to individual instances of violence. Similar-scale investments of public funds have not been made in community-level prevention strategies or efforts to intervene in controlling behaviors before violence escalates.

Community-based supports for survivors

Community-based domestic violence advocacy organizations focus on the needs of survivors. Survivor-centered programs provide emergency shelter, basic needs support, legal aid, and advocacy services, among other kinds of support. As CRDV Workgroup members attest, survivors routinely report that community-based advocacy services have been useful, if not critical, to their sense of safety and self-determination. Researchers find that access to community-based services is associated with increased levels of social support and improved mental health for survivors, and in some cases reduced partner aggression.¹⁶

These organizations have also helped change the ways that communities and policymakers understand intimate partner violence by pairing their work to address the immediate needs of survivors with prevention and social change work. Yet, in a climate of deepening economic inequality, inflation, and public funding austerity, these already under-resourced organizations have increasingly had to narrow their focus to meeting the immediate basic needs of survivors.¹⁷ A 2020 report published by the Coalition Ending Gender-based Violence in King County highlighted the need for dedicated funding streams for domestic and sexual violence prevention work and called for investments in community-level approaches of Black, Indigenous, and People of Color-led organizations.¹⁸

State-based responses for people being abusive

DV criminal legal interventions are rooted in criminological theories of deterrence, retribution, and corrections. A primary flaw of the criminological understanding of abuse is that it misidentifies its root cause as individual anti-social behavior. But DV is widespread and frequently socially sanctioned behavior; it manifests in the context of unequal relations of social power. Further, most instances of DV never come to the attention of law enforcement¹⁹ and the current practice of highly selective prosecution undermines a potential deterrent effect. Moreover, DV arrests tend to follow existing patterns of racial criminalization where living in a highly policed neighborhood is a strong predictor of arrest probability. **In the City of Seattle, where an estimated 7% of the population is Black, the City Attorney’s most recent Criminal Division report indicates that approximately 40% of the referrals for DV-related offenses involved Black suspects.**²⁰

Criminal legal interventions are often contradictory to what DV survivors want and ask for. While survivors generally want the violence to stop, many make efforts to avoid interactions with law enforcement due to fears of reprisal, escalated violence, and a desire to protect themselves or a loved one from criminal penalty or deportation.²¹ According to the City Attorney, “a large proportion of domestic violence declines [decisions not to prosecute] are related to the victim not wanting or being able to assist the prosecution.”²² As discussed

below, this is especially the situation of survivors who belong to communities that have been historically and presently marginalized by and harmed within the criminal legal system.

Criminal legal responses have come at the expense of marginalized survivors.

Some of the most devastating consequences of DV have been facilitated by the criminal legal system itself and levied most heavily against survivors who belong to historically and presently marginalized groups, including Black and Indigenous people and other people of color (BIPOC); lesbian, gay, bisexual, transgender and queer (LGBTQ+) people; immigrants and refugees; people with disabilities; and especially those living at the intersections of these identities. This includes patterns of survivors being ignored, disbelieved, and discredited as victims and witnesses. It also includes survivors facing arrest, detention, and penalty for not behaving “appropriately” as a victim, and for activities carried out under duress of an abuser or in the course of trying to escape or avoid further abuse.²³ For those facing criminal charges, the effects of trauma and economic hardship can jeopardize the ability to mount an effective legal defense.²⁴ Most women currently incarcerated in the United States are DV survivors, and they are disproportionately BIPOC and LGBTQ people.²⁵

For both survivors and people who have caused DV, a criminal conviction compounds the health and economic consequences of this form of violence. For example, a conviction can negatively influence child custody proceedings, inhibit employment and economic opportunities, and limit access to housing and human services. Heightened state surveillance as a condition of probation or parole can contribute to the accumulation of charges and further periods of confinement. At the same time, there is inconclusive evidence to date that court-mandated treatment programs are effective for those who are arrested for DV. A²⁶growing demand for alternative responses DV was reflected in the 2022 reauthorization of the Violence Against Women Act, which advises federal funding support of survivor-centered, community-based restorative practice services, as defined as “unaffiliated with any civil or criminal legal process.”²⁷

Equitable and accountable relationships are supported by communities.

Most survivors turn to their friends and family members when experiencing a pattern of power and control. Some may seek support from a trusted therapist, counselor, clergy member, teacher, healthcare provider, or neighbor. This pattern of help-seeking has led many domestic violence advocates to regard friends, family members and other community members as “first responders.” A crucial aspect of creating a safety plan, for example, is identifying friends, family, and other community members who can provide aid and resources, and be involved in violence prevention and intervention strategies. These first responders can also be crucial resources for people who are being abusive in offering support and accountability for changing their behavior.

Most people do not wish to hurt people that they care about. People who are being abusive often regret their actions even as they continue to engage in them. **While domestic violence is a learned behavior, there are currently few identifiable resources for people to ask for help in unlearning these behaviors, whether on their own volition or at the urging of a survivor, their children, families, friends, or broader communities.** It is well established in other behavioral change contexts (e.g., substance use reduction) that self-motivation and community-based support and accountability play a crucial role in sustainable change. Yet, there are no widely available non-criminal options for people who need support in maintaining equitable and accountable relationships.

Individual accountability includes taking responsibility for one’s choices and the consequences of those choices. True accountability is not something that can be mandated or bestowed. For people who are being abusive, accountability requires personal commitment and transformation to stop the harmful behaviors, understand the dynamics that underpin their abusive actions, and meaningfully attends to the harm they have caused. Abusive patterns of power and control are established over time and undoing those harmful patterns also takes time. The process of recognizing and accounting for the harm caused can also be a long-term and time-intensive process.

Nationally, a number of anti-violence organizations have looked to develop and evaluate survivor-centered approaches to working with people who are being abusive to transform their behavior and take accountability outside the criminal legal system.²⁸ Many factors have influenced this growing area of anti-violence practice, including learning from previously failed partnerships with the criminal legal system, a recognition of the harm policing has caused marginalized survivors, and a belief that partnership with the criminal legal system is weighted to favor and maintain that system's power. This work is rooted in BIPOC-led (often BIPOC LGBTQ-led) community organizing.²⁹

Several Seattle-area organizations have contributed to the demand for and development of community responses, particularly practices that build the skills of family members, friends, and community members to prevent and effectively respond to domestic violence. These efforts have primarily been community supported rather than publicly funded. To the best of our knowledge, **the City of Seattle does not currently fund non-criminal, community responses to DV that focus on reaching people who are being abusive in a romantic, intimate, or spousal relationship.**

Assessment of Existing Domestic Violence Resources

The CRDV Workgroup conducted a brief landscape analysis of the Seattle Metro Area's existing DV resources and identified four primary categories, as described below.

Survivor-led services

Seattle has a large network of services for DV survivors. Built over several decades, this network includes services for survivors navigating both emergency and long-term needs, including housing, medical care, legal advocacy, counseling, support groups, transportation, childcare, employment, and flexible financial assistance. As a matter of practice, these organizations do not and have not historically offered services to people being abusive. An illustrative list of Seattle domestic violence survivor-serving programs can be found in Appendix B.

Culturally specific community organizing groups

Seattle has long been an incubator for culturally specific anti-violence organizations and groups seeking to prevent and respond to violence outside of the criminal legal system. These efforts often build on the knowledge and skill of survivors and their advocates and focus on restorative, transformative, healing-based, and integrated approaches for preventing and intervening in domestic violence, especially in LGBTQ+ and BIPOC communities. An illustrative list of Seattle-area culturally specific groups can be found in Appendix C.

Youth-based programs

Our region has a vast network of youth-based and youth-led programming from after-school programs to skill development to community-building programs. Although the CRDV workgroup focused on the need for community responses to DV in adult relationships, programs that work directly with youth and young adults are an important part of our region's response to domestic violence. Patterns of power and control are often easiest to address early in the

cycle of violence and, even more importantly, before it ever occurs. Programs that are most successful at violence prevention are those that keep young people socially connected to a community and provide skills and resources for practicing accountable relationships. An illustrative list of Seattle area youth-based and prevention programs can be found in Appendix D.

Mandated treatment

The Seattle Domestic Violence Intervention Project (DVIP) is a post-filing diversion program for those facing misdemeanor DV charges, which includes court monitoring, group and individual counseling, and referrals to substance abuse or mental health treatment. In the DVIP model, a treatment provider conducts an intake assessment and confers with a multidisciplinary team consisting of probation staff, victim advocates, treatment providers, and community consultants. The team determines the appropriate level of treatment and any additional requirements, such as substance abstinence or parenting sessions. The DVIP treatment levels range from Level One to Level Four. Those assessed as Levels One, Two, and Three are admitted to the DVIP and those determined to be Level Four are not admitted to the program. There have been 393 court referrals to DVIP since the first case was diverted in June 2018. In 2022, the Seattle Municipal Court referred forty-seven people facing a misdemeanor DV offense to the program. Sixteen people have since met the program requirements and completed the program. Notable to the CRDV Workgroup, the DVIP only works with men in heterosexual relationships and does not accept women and LGBTQ people facing misdemeanor DV charges.

A pre-filing diversion program called Access to Change is funded by the City of Seattle and hosted by Gay City, Seattle's LGBTQ Center. The Access to Change program sits at the intersection of criminal legal, community-based, and youth-based responses to domestic violence. The program utilizes a cohort-based advocacy model to provide support and stabilization to young people facing non-intimate partner DV charges.

Recommendations

The CRDV Workgroup calls for public investment in community resources that engage Seattle residents in preventing and responding to DV outside of the criminal legal system, long before crisis situations arise. Community responses to DV are strategies that focus on the self-determination, safety, well-being of survivors and uphold the potential that people who engage in abuse can change, understanding that many times they are also survivors of violence themselves. Community responses to DV require well-resourced organizational infrastructures to support individuals, families, and communities engaged in processes that promote lasting change.

The City of Seattle is uniquely positioned to be a national leader in investing in community responses to DV in alignment with the city's broader commitments to racial and social justice. The following recommendations from the CRDV Workgroup are premised on a vision of equitable, affirming, and accountable communities supported through a transformation of the current public policy approach to DV.

- **Establish durable public funding streams for community responses that reach people being abusive and are independent from the criminal legal system.** Currently, there are no widely available voluntary programs that people being abusive can access should they want to change their behavior, either on their own volition or at the prompting of their loved one, friends, family members, or other community members. The lack of resources and referral options outside the criminal legal system represents a significant gap in Seattle's domestic violence response. It is also a significant gap in Seattle's public safety plan given that most cases of DV never come to the attention of law enforcement and many survivors work to avoid contact with the criminal legal system. A community-level response to DV aims to reach people who are engaging in abusive or controlling behaviors and who may or may not be in contact with the criminal legal system. Community responses to DV are not simply alternative individual-level interventions, but rather strategies rooted in a community-level theory of change. Funding for this work must not be siphoned from existing funding for services for

survivors. The CRDV Workgroup supports a deep investment in survivor-led services and understands an ongoing commitment to survivor-centered support as an indispensable part of our region's response to DV.

- Invest first in strategies developed by marginalized survivors of domestic violence and practiced in Black and Indigenous communities and other communities of color; lesbian, gay, bisexual, transgender, and queer communities; immigrant and refugee communities; and other communities that have been systematically harmed by the criminal legal system. The CRDV Workgroup reflects the expertise of local DV survivors, DV advocates, and community organizers who have practiced responding to DV in communities where criminal legal responses have been disproportionately harmful. Public investments in community responses to DV should start with these communities of practice, and those who are least likely to benefit from efforts to reform criminal legal responses to DV.
- Start with a pilot phase including a community-directed funding process with sufficient funding for organizations to plan, design, implement, and evaluate programs over a three-year period. The CRDV Workgroup understands that several local organizations have already practiced community responses to domestic violence, but they have lacked sufficient funding to develop, evaluate, and expand these efforts. A pilot program is recommended to build these field-generated practices, including program design, implementation, and independent evaluation:
 - Resources should focus on helping people stop abuse, understand the context of the harm caused, and work towards meaningful accountability. This can and does involve a range of activities.
 - The pilot phase should be a minimum of three years to allow sufficient time for design, implementation and evaluation.
 - There should be funding for at least three organizations with levels sufficient to support a minimum of two Full Time Employees (FTE) per organization (a minimum of 6 FTEs/year in total); staff salaries and benefits should ensure a livable wage in the City of Seattle.

- Funding levels should be sufficient to support operational and administrative costs at the rate of at least 10% of total program costs.
- Funding levels should be sufficient to support design, implementation, and evaluation.
- Funding levels should be sufficient to support a minimum of \$100,000 per organization per year for program participant stability needs. The CRDV Workgroup identified stabilization funding as an essential part of creating the conditions to allow program participants to engage in the long and important work of accountability. Stabilization funds should:
 - be sufficient to cover the cost of administering funds;
 - be flexible to include transportation costs, childcare, interpretation, food, housing stability, educational support, employment stabilization, medical and mental health needs, and accommodations for people with disabilities; and
 - not be structured as a participant incentive or reward in order to ensure the integrity of a voluntary model.
- The funding should be administered by the Seattle Office for Civil Rights (OCR). OCR has taken consistent leadership in addressing complex intersectional community needs and has both the framework and community relationships to maintain consistent, values-aligned administration of the pilot funding.
- Community input through the funding decision-making process is essential. The CRDV Workgroup recommends the following guidelines to ensure a community-informed process.
 - The request for proposals should be vetted by community partners prior to release.
 - Funds should be made available to both established community-based programs with a history of working within their communities as well as new, innovative, or novel programs.
 - Funding should be available to a broad range of organizational structures including fiscally sponsored projects, non-professionalized community groups, and other evolving structures.

- **Protect community ownership of programs including independent leadership and decision-making, reporting requirements that reflect community-driven evaluation criteria, and participant confidentiality.** CRDV Workgroup members identified community ownership as a key pillar of success. Funding administration should clearly define community ownership as:
 - Independent leadership and decision-making related to all fundamental program qualities, design, and implementation;
 - sufficient resources for independent community-driven evaluation and improvement;
 - reporting requirements that reflect community-driven evaluation criteria, in which community organizations lead meaning-making over goals and outcome measures and the collection and interpretation of data;
 - the ability to protect the confidentiality of individual participants when meeting reporting requirements for funding; and
 - leadership and organizational stewardship of the evidence base.

- **Demonstrate public leadership and transparency in the adoption of community responses to domestic violence.** Elected officials and city leaders should be prepared to speak to diverse constituencies, agencies, and concerned groups about the need for community responses to domestic violence, including: the current scale and consequences of DV; the limits and harms of criminal legal approaches to the problem; and how public investments to support community responses strengthen Seattle's vision for community safety and racial and social justice. This may include working with local domestic violence programs for training and technical assistance and the development of written materials that strengthen understandings of dynamics of abuse and the negative effects of criminal legal strategies in historically and presently marginalized communities.

Conclusion

It is time to transform the City of Seattle's response to domestic violence to align with its stated commitments to racial and social justice. Transformation is possible, but it will require strong political leadership and dedicated public resources. Seattle can be a national leader in investing in survivor-centered organizations' development of community responses to domestic violence. We can invest in community responses that prevent violence before it escalates, motivate change through healing and transformation, and provide pathways for true accountability. This report has provided recommendations toward a broader vision where all of us can thrive in loving, equitable and safe relationships and communities.

Appendix A

Workgroup Overview

The Community Responses to Domestic Violence (CRDV) workgroup was an initiative of the Criminal Legal System project of the Seattle Office for Civil Rights (SOCR). The workgroup was established based on the recommendation of the SOCR's 2021 Community Task Force Report on the Criminal Legal System. In that report, the community task force identified the need for greater expertise on domestic violence. The Seattle City Council 2021 Budget Action added funds to the SOCR budget to convene this specialized workgroup. The purpose was to identify non-criminal legal system alternatives for people who are enacting patterns of power and control over their partners. The CRDV Workgroup was composed of survivors, advocates, and local leaders and representatives of community-based and culturally-specific organizations. The Workgroup included people with experience working directly with people who have caused harm or engaged in patterns of abuse and control. It was convened in June 2022 and met monthly through April 2023 to develop the recommendations in this report. Workgroup members shared experiences with a wide range of approaches including violence prevention and education programs, community-led processes of intervention, accountability plans, restorative processes, trauma-based modalities, and long-term personal transformation.

Appendix B

Domestic Violence Survivor Services in the Seattle Metro Area

Please note that this is a summary list of domestic violence survivor-based services in the Seattle metro area. Additional supports may be available even if not listed.

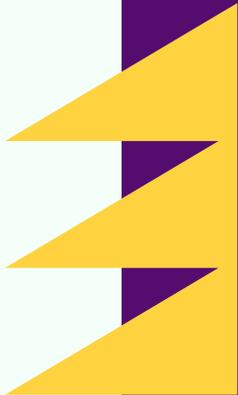

- Abused Deaf Women’s Advocacy Services
- API Chaya (Serving Asian, South Asian, and Pacific Islander Survivors)
- Broadview Emergency Shelter and Transitional Housing Program (Seattle)
- Consejo Counseling and Referrals Service (serving Latino/a Survivors)
- Domestic Abuse Women’s Network (24 hours, South King County)
- DoVE Project (Vashon Island)
- Jennifer Beach Foundation
- Jewish Family Service Project DVORA
- LifeWire, formerly EDVP (24 hours, East King County)
- Mother Nation
- Multi-Communities
- Muslimahs Against Abuse Center
- New Beginnings (24 hours, Seattle)
- Northwest Family Life (Christian faith-based)
- NW Network for Bisexual, Trans & Lesbian Survivors of Abuse
- Refugee Women’s Alliance Domestic Violence Program
- Salvation Army Domestic Violence Program
- Seattle Indian Health Board Domestic Violence Program
- Somali Family Safety Taskforce
- YWCA – East Cherry
- YWCA Downtown Seattle Shelter
- YWCA – South King County Domestic Violence Services

Appendix C

Culturally Specific Community Groups in the Seattle Metro Area

Please note, this is not a comprehensive list of Seattle Metro Area community organizing groups. This list is meant to be illustrative of the kind of community groups working in our region.

- Freedom Project
- UTOPIA Washington
- Collective Justice
- Lavender Rights Project
- Muslimahs Against Abuse Center
- East African Community Services
- Urban League
- West African Community Council
- Mother Africa
- Ingersoll Gender Center
- Gender Justice League
- Filipino Community of Seattle
- Casa Latina
- Sacred Community Connections
- Multi-Communities
- Rooted Reentry

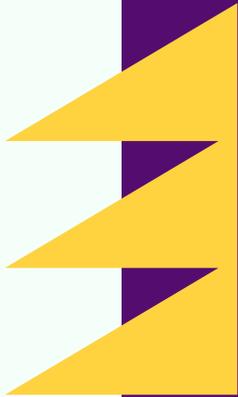

Appendix D

Youth-based and Prevention Programs in the Seattle Metro Area

Please note, this is not a comprehensive list of Seattle Metro Area youth-based and prevention programs. This list is meant to be illustrative of the kind of community groups working in our region.

- All Girl Everything Ultimate Program (AGE UP)
- Asian Counseling and Referral Services
- Gay City Youth Programming
- Powerful Voices
- API Chaya Youth Programming
- Goodfoot Arts Collective
- Coalition Ending Gender-based Violence Transformative Justice Program
- Community Passageways
- FEEST
- Creative Justice
- The Service Board
- Muslimah's Against Abuse Center Teen Awareness Program

Total Budget Balance Effect	\$(153,000)	

DESCRIPTION

This Council Budget Action (CBA) would add \$250,000 GF (one-time) to the Human Services Department (HSD) for services to survivors of gender-based violence and abuse. It is the intent of this CBA that HSD collaborate with the Mayor's Office on Domestic Violence and Sexual Abuse (MODVSA) to award funding to up to three community-based organizations that provide culturally specific service to particularly vulnerable communities (e.g., the deaf community and BIPOC survivors of DV sexual assault). These services may include flexible funding supports, advocacy, connection to needed resources, and legal systems navigation.

This CBA is balanced by a reduction of \$50,000 GF in the Mayor's Office, via the 2023 Year-End Supplemental Ordinance, for lawsuit costs that were projected and not needed, and a reduction of \$97,000 GF to the Community Safety and Communications Center (CSCC) for organizational planning (reducing total resources for this purpose from \$607,000 to \$510,000). Additionally, it is balanced by increasing the one-time transfer from the JumpStart Payroll Expense Tax Fund (JumpStart Fund) to the GF by \$663,000 in CBA FG-801-B, bringing the total transfer from the JumpStart Fund in 2024 up to the full amount authorized in the 2024 Endorsed Budget for GF balancing; this CBA uses \$103,000 of that \$663,000. This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

2024 STATEMENT OF LEGISLATIVE INTENT

V2

HSD-016S-A

Request that HSD assess and report on City programming related to gun violence prevention

SPONSORS

Lisa Herbold, Tammy Morales, Andrew Lewis

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Human Services Department (HSD) collaborate with the Community Safety and Communications Department (CSCC) – the future Community Assisted Response and Engagement (CARE) Department – to perform an assessment of current City services related to the recommendations of King County’s Regional Community Safety and Wellbeing (RCSWB) Plan.

In 2021, King County’s Department of Community and Human Services (DCHS) initiated the development of a RCSWB Plan, convening workgroups in five study areas with the intent of developing an upstream approach to deterring young people and community from gun violence. One of these study areas was Community-led Safety. DCHS understood Community-led Safety to have both a physical and a socio-emotional component and acknowledged it as the connecting thread of the RCSWB Plan. The Community-led Safety workgroup developed the following “key directions” and provided specific recommendations related to each:

- Scale up funding for data-driven, culturally connected work and practice-informed strategies that allow for hotspot monitoring and crisis response;
- Support the needs of Black and brown young people through programs that have been effective at diversion;
- Implement intentional education about community-led safety for impacted youth and their families;
- Implement community and law enforcement relationship-building programming, including shared protocol development, cross-training, and non-crisis/non-issue-based gathering and experiences; and
- Implement community partnerships and programs in schools (elementary to high school)

In addition, the workgroup’s gap analysis related to these recommendations identified County-level needs for increased investment in gathering models that are not driven by specific problems or public

2024 STATEMENT OF LEGISLATIVE INTENT

safety concerns, increased partnerships with elders and diverse faith communities, and investment in non-issue/non-crisis gatherings. HSD is currently performing a parallel gap analysis, assessing its own community-led safety investments with respect to the RCWSB recommendations. That work, which will be informed by the input of community partners and organizations, is expected to be completed in late 2023.

The assessment that this SLI requests should identify services and programs that are consistent with the workgroup's five recommendations as listed above and (1) currently provided neither by the City nor the County and a high priority for HSD and CSCC to implement; (2) currently provided by both the City and the County and where efforts may be duplicative, and recommendations for City actions that would seek to eliminate duplication; and (3) currently provided via City and County efforts that may be complementary. In requesting that the two departments collaborate on this report, the SLI acknowledges the Executive's intent that the CARE Department create a new initiative to integrate the City's violence intervention programs, including gun violence prevention.

The 2024 Proposed Budget Adjustments for the CARE Department include \$607,000 to envision future needs associated with its expanded mandate related to community safety challenges and the consolidation of the City's non-police and community-based services. The HSD-CARE collaboration described here aligns with that planning effort, and this funding is available to support any expenditures that arise from this SLI.

The report should be submitted to the Public Safety and Human Services Committee, or successor committee, by July 1, 2024.

Responsible Council Committee(s): Public Safety and Human Services

DUE DATE: July 1, 2024

2024 STATEMENT OF LEGISLATIVE INTENT

V2

HSD-017S-A

Request that HSD report on referrals to Let Everyone Advance with Dignity (LEAD) and the funding required to support them and on LEAD data integration

SPONSORS

Lisa Herbold, Dan Strauss, Andrew Lewis

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Human Services Department (HSD) report on two topics related to the Let Everyone Advance with Dignity (LEAD) program, both of which are pertinent to the Council's September 2023 passage of Ordinance 126896.

1. New Referrals to LEAD and LEAD Funding Increments

This SLI requests that HSD work with stakeholders, including Purpose. Dignity. Action. (PDA), to develop a process to document on a quarterly basis the volume of new referrals to LEAD resultant to the passage of Ordinance 126896 so that the Executive can include needed funding in future budget legislation, beginning with the 2024 Mid-Year Supplemental Budget Ordinance. HSD should also report on the method for that documentation and on how a given anticipated referral volume determines an anticipated incremental funding need. The report should provide the amount of funding that will be requested in the 2024 Mid-Year Supplemental Budget Ordinance.

LEAD is both a pre-arrest and a pre-booking diversion program, managed by PDA, that seeks to divert individuals who are engaged in low-level drug crime, prostitution, and crimes of poverty from the criminal legal system and connect them with case managers and the resources they need to stabilize. The City provides funding to PDA for its project management of LEAD, and to subcontract with outreach and case management agencies, via a contract with HSD.

Ordinance 126896 added to the Seattle Municipal Code the new crimes of knowing possession of a controlled substance and use of a controlled substance in a public place, both of which are gross misdemeanors. It took effect on October 20. The ordinance also explicitly established diversion to services and treatment as the City's standard approach for most instances of these crimes, and it acknowledged the LEAD program by name as a "substantial part" of intended service provision. Despite the Seattle Police Department's (SPD's) estimate that the new ordinance would result in its making approximately 700 to 800 new diversion referrals annually, the 2024 Proposed Budget Adjustments did not include any incremental funding for LEAD. With current City funding (approximately \$9.2 million in

2024 STATEMENT OF LEGISLATIVE INTENT

2024), the LEAD program supports approximately 750 active participants. SPD referred more than 30 individuals to LEAD in the first 10 days that the ordinance was in effect. This referral volume reflects a significant increase compared to earlier in 2023, and if it remains steady then 2024 new diversion referrals will exceed SPD's estimate.

2. Timeline and Cost for LEAD Database Integration with City and King County Systems

This SLI also requests that HSD, in collaboration with Seattle Information Technology (IT), develop a high-level timeline and cost estimate to integrate the LEAD database with the relevant data systems of City and County departments and programs (collectively "operational partners") that have contact with LEAD participants. These systems include those in use by SPD, the Seattle City Attorney's Office, the Seattle Fire Department's Health One program, and the future Community Assisted Response and Engagement (CARE) crisis response team, as well as those in use at the King County Department of Adult and Juvenile Detention, where LEAD participants are sometimes booked under the City's contract with King County for jail services.

By "integration" this SLI means that operational partners' data systems may both "push" to and "pull" from the LEAD database, only information that:

- Pertains to LEAD participants' law enforcement and behavioral health records; and
- May permissibly be shared under the LEAD program's Release of Information (ROI) framework.

The LEAD case management database is independent of the data systems listed above that may contain information about a LEAD program participant. This lack of systems integration deters cross-agency collaboration for the benefit of LEAD participants, promotes operational inefficiencies, and potentially re-traumatizes LEAD participants who must share painful information with various agencies and organizations so that it may be entered into several systems.

Many City departments and work units have contact with LEAD participants and/or their assigned case managers, and given the requirements of Ordinance 126896, SPD officers' and City Attorney's Office staff members' contact with LEAD participants and case managers is likely to increase. Providing those parties with the real-time ability to view a broad range of participant data (e.g., arrest history, upcoming court dates, enrollment in substance use disorder treatment, application status for supportive housing) would allow all of them to provide more nimble, responsive, and cost-effective service.

Council provided funding in 2019 to enable Seattle IT to assist a LEAD team in implementing a database or data-sharing platform that would allow SPD, the City Attorney's Office, and PDA and LEAD staff "to share information regarding LEAD participants and program operations." PDA staff note that private funding subsequently supported planning and development work associated with the project, although full implementation was not completed. According to PDA, additional private funding may be available,

2024 STATEMENT OF LEGISLATIVE INTENT

if needed, to support full implementation.

Recognizing that individual integration projects may be lengthy and costly, this element of the report should establish a priority order for each system's integration with the LEAD database and include a rationale for that prioritization.

The report should be submitted to the Public Safety and Human Services Committee, or successor committee, by March 1, 2024.

Responsible Council Committee(s): Public Safety and Human Services

DUE DATE: March 1, 2024

2024 COUNCIL BUDGET ACTION

V2

HSD-801-A

Add \$100,000 GF to HSD to convene survivors of police violence and family members of individuals killed by Seattle police to create recommendations for support or resources

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(100,000)	
Total Budget Balance Effect	\$(100,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This CBA adds \$100,000 GF (one-time) to the Human Services Department (HSD) for an organization to convene members of the community who are survivors of police violence in Seattle or are immediate family members of individuals killed by police in Seattle, to create recommendations about how the City can support them. These recommendations may include but are not limited to ideas such as creating a new office, program, or project, or providing resources in response to police violence. Council has identified Black Coffee NW for this funding and requests that the HSD Director waive the requirements of subsection 3.20.050.B, as authorized by subsection 3.20.050.C. Creation and content of these recommendations will be led and finalized by these community members independent of City employees.

The Council included \$50,000 GF in the 2023 Adopted Budget and \$50,000 GF in the 2024 Endorsed Budget to explore an Affected Person’s Program (APP) in Seattle (SPD-101-B-001-2023). The Mayor's Office is now leading this work in partnership with the Seattle Police Monitor team and anticipates the monitoring team will complete their review of APPs in other jurisdictions and the potential for an APP in Seattle by December 2023. However, the Mayor's Office work did not include a convening of affected persons as originally anticipated in the SPD-101-B-001-2023 and focused on the Seattle Police Monitor review. This CBA is intended to support a separate convening of community members who are affected persons.

The APP project is being supported with existing resources in the Mayor's Office and Seattle Police Monitor budgets, so the year-end supplemental ordinance will reduce the \$50,000 GF from OPA in 2023 and CBA SPD-901-A-2 reduces \$50,000 GF that is no longer needed in OPA in 2024. Together, these reductions in 2023 and 2024 would be used to support this CBA.

This CBA, together with the associated actions in the year end supplemental ordinance, and SPD-901-A-2, do not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium, though implementing new programs from the workgroup recommendations may require additional City resources.

General Fund	\$(200,000)	
Total Budget Balance Effect	\$(200,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$200,000 GF to the Human Services Department (HSD) for a program tailored to the needs of Native youth that delivers education, prevention skills, and mentorship. Council has identified the Rise Above organization for this funding and requests that the HSD Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C.

Rise Above works closely with tribes and partners to build tailored education programs with basketball clinics at the center. This organization was provided \$200,000 in one-time funding in HSD in the 2023 Adopted Budget but was not included in the Mayor's 2024 Proposed Budget Adjustments.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium by \$200,000.

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(100,000)	
Total Budget Balance Effect	\$(100,000)	

DESCRIPTION

This Council Budget Action (CBA) would add \$100,000 JumpStart Fund (ongoing) to the Human Services Department (HSD) for tax preparation assistance for individuals and families. Council has identified United Way of King County (United Way) for this funding and requests that the HSD Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C. This funding should be prioritized for providing free tax preparation services for low- and moderate-income households and for connecting these households to additional financial and public benefits, helping them retain income and create savings.

Prior to 2023, HSD’s base budget included General Fund funding for tax preparation assistance. In the 2023 Adopted Budget Council Budget Action HSD 027-A-001 provided \$100,000 GF 2023 funding on a one-time basis. This Council Budget Action makes the funding ongoing, from the JumpStart Fund, beginning in 2024.

The financial plan for the JumpStart Fund included in the 2024 Proposed Budget shows a positive unrestricted fund balance in 2025 and beyond. This CBA will reduce the unrestricted fund balance but based on the current financial plan, this ongoing appropriation can be supported without creating a deficit in this fund in the future.

2024 STATEMENT OF LEGISLATIVE INTENT

V2

HSD-804S-A

Request that CBO and FAS provide recommendations for tracking and reporting on non-utility grant expenditures made from the GF

SPONSORS

Lisa Herbold

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the City Budget Office (CBO) and Department of Finance and Administrative Services (FAS) provide a report and recommendations for options to track and report on non-utility grant expenditures made from the GF, including, but not limited to, the federal Community Development Block Grant (CDBG). The report should (1) identify all non-utility grant revenues, the expenditures for which are made from the GF; (2) propose financial policies for those revenues; (3) identify levels of financial reserves for those revenues, as appropriate; and (4) propose a mechanism for regularly notifying the Council of expenditures and proposed redeployment of those revenues. Options should include a draft bill for Council consideration of a legislative path to enable better tracking and reporting.

On October 10, 2023, the Council passed Ordinance 126922, which abandoned and reappropriated CDBG grant funding. Council review of that ordinance noted that there had been \$7 million in underspend from grants covered by the Consolidated Plan and identified the challenge in monitoring expenditures from the GF, for which there are grant reimbursements. This can deprive the Council of decision-making when those funds are proposed to be redeployed.

The report should be provided to the Finance and Housing Committee, or its successor committee, by June 28, 2024.

Responsible Council Committee(s): Finance and Housing

DUE DATE: June 28, 2024

2024 COUNCIL BUDGET ACTION

V2

HSD-806-A

Add \$500,000 GF to HSD for culturally competent behavioral health services for the Latino community and impose a proviso

SPONSORS

Tammy Morales

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(500,000)	
Total Budget Balance Effect	\$(500,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action would add \$500,000 GF (one-time) to the Human Services Department (HSD) and impose a proviso for culturally competent behavioral health services for the Latino community. Council has identified Consejo Counseling and Referral Services (Consejo) for this funding and requests that the HSD Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C. This funding should be prioritized for culturally competent behavioral health care, trauma-informed care, systems navigation, after-hours crisis lines, and supportive transitional housing for adults, children, adolescents, and families in Seattle’s Latino community.

Consejo was founded in 1978. Its staff and clinicians offer bilingual and bicultural services in six major programs, all of which focus on serving individuals and families with immigrant backgrounds from Latin American countries and who speak Spanish as their primary language. These programs focus on outpatient mental health; substance use disorder; domestic violence; sexual assault; systems navigation; supportive transitional housing; and children, youth, and family services. Consejo offers sliding fees for these services. Funding included in this CBA would support Consejo’s continued ability to provide these therapeutic services to its clients.

This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

This Council Budget Action would impose the following proviso: "Of the appropriation in the 2024 budget for the Human Services Department, \$500,000 is appropriated solely for culturally competent behavioral health services to the Latino community and may be spent for no other purpose. Council has identified the Consejo Counseling and Referral Services for this funding and requests that the Human Services Department Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C."

HSD-814-A

Add \$500,000 GF to HSD for behavioral health services, case management and operational costs at existing non-congregate shelters

SPONSORS

Andrew Lewis

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(500,000)	
Total Budget Balance Effect	\$(500,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) adds \$500,000 GF (one-time) to the Human Services Department (HSD) for behavioral health services, case management, and other operational costs at tiny house villages and enhanced shelter.

CBA HSD-032-B-001-2023 provided one-time funding in the 2023 Adopted Budget to the Low-Income Housing Institute (LIHI) for one-time maintenance costs and additional operational needs at eleven existing tiny house villages and one enhanced shelter (Lake Front) with a total of 483 units. HSD contracted with the King County Regional Homelessness Authority (KCRHA) to administer these funds. Of the \$2.8 million, \$273,000 was for one-time costs and the remaining \$2.5 million was for ongoing staffing and services including behavioral health services, case management and other operating costs.

This amendment would add \$500,000 for behavioral health, case management and operating costs at LIHI operated non-congregate shelters. Separately, HSD-003-B would provide \$500,000 GF (one-time) and HSD-004-A would provide \$1.5 million GF (one-time) for the same purpose. If all three amendments were to be funded, \$2.5 million would be provided for LIHI operated non-congregate shelter. Overall, the 2024 Proposed Budget Adjustments included \$15.8 million for tiny home villages and non-congregate shelter (excluding the Rosie's Village relocation cost). If all three amendments were to pass, the 2024 Proposed Budget Adjustments would provide a total of \$18.3 million for Tiny House Villages and non-congregate shelter.

HSD would contract with KCRHA to administer and manage these funds. Council has identified LIHI for this funding and requests that the HSD Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C, to the extent applicable, and contract for these funds as part of the Master Services Agreement between HSD and KCRHA.

Because the \$500,000 added through this amendment were not part of HSD's 2024 base contract amount, these funds will not receive a 7.5% inflationary adjustment and 2% provider pay increase. Council requests that HSD work with KCRHA and LIHI to utilize a portion of the funds for inflationary costs and provider pay increases, recognizing that such an action could have an impact on service levels.

Because the \$500,00 is added to the base contract amount on which future inflationary adjustments for HSD-administered contracts are calculated, this CBA worsens the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium by more than \$500,000. In 2025, it would worsen the deficit by \$519,000 in 2025 and by \$543,000 in 2026.

Add \$200,000 GF to HSD for mental-health resources for frontline community-based crisis responders

SPONSORS

Lisa Herbold

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(200,000)	
Total Budget Balance Effect	\$(200,000)	

DESCRIPTION

This Council Budget Action (CBA) would add \$200,000 GF (one-time) to the Human Services Department (HSD) to provide mental health resources, training, workshops, and/or support to the frontline staff of community-based organizations that comprise the Seattle Community Safety Initiative (SCSI). SCSI, which is led by Community Passageways, is a Black and Brown-led partnership of local organizations that helps respond to and de-escalate shooting incidents and provide support to individuals and families who are directly affected by such incidents. The SCSI’s work focuses on Southwest Seattle, the Rainier Valley, and the Central District, where these incidents disproportionately occur.

Examples of activities that this funding could support include cognitive behavioral therapy, guided meditation, calmness exercises, workshops about wellness practices, and staff retreats that seek to refocus work teams on the mission and impact of their work and its importance to community. Most of the workers who support the SCSI are Black, Indigenous, and People of Color who may also have experienced community-level trauma, and funded activities should be delivered by culturally reflective, conscious, and community aware professionals with experience serving frontline community-based workers. Local organizations with these qualifications include the Washington Therapy Fund Foundation, Good Intentions, and Renewed Essence.

Base funding for SCSI in HSD’s budget does not include any funding for the activities that this CBA describes.

This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

Add \$500,000 GF to HSD to increase the reach of a gun-violence reduction program

SPONSORS

Lisa Herbold

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(500,000)	
Total Budget Balance Effect	\$(500,000)	

DESCRIPTION

This Council Budget Action (CBA) would add \$500,000 GF (one-time) to the Human Services Department (HSD) to increase its current investment in a gun-violence reduction program that is housed in Public Health – Seattle & King County. That program, the Regional Peacekeepers Collective (RPKC), supports a multi-initiative, multi-organization network that provides intervention, prevention, and restoration services including critical incident and hospital-based response, intensive engagement and wrap-around life-affirming care to those most affected by gun violence. Currently, the RPKC’s services are targeted to young (ages 16-24) Black/African American men and boys.

CBA HSD-039-B-001 (2023) provided one-time funding of \$300,000 to support program development and implementation of a gun-violence prevention program that followed the RPKC model but was targeted to men ages 25-50. With the 2023 funding, HSD contracted with RPKC and the Urban League to develop the program and to implement it on a partial-year basis. Ten individuals received service through the expanded program. This CBA provides funding to support the expanded program in 2024.

This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

LEG-003S-A

Request the Executive develop, in consultation with the Council, a process to identify strategies to resolve the projected General Fund (GF) deficit and to inform decisions in the 2025-2026 Proposed Budget

SPONSORS

Andrew Lewis, Tammy Morales, Dan Strauss

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Total Budget Balance Effect	\$0	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Statement of Legislative Intent (SLI) requests that the Executive develop, in consultation with the Council, a process to identify strategies to resolve the projected General Fund (GF) deficit and to inform decisions in the 2025-2026 Proposed Budget.

The process should provide both branches with an opportunity to collaborate on strategies to solve the projected deficit and a shared timeline with agreed upon points for input.

This SLI requests that the City Budget Office (CBO) and Central Staff (CS) collaborate to propose a process to the Council President, the Chair of the Select Budget Committee, and the Mayor's Office by January 19, 2024. The process should outline how the Council and Executive may work together in advance of the Mayor submitting a 2025 Proposed Budget. The process should consider the following:

- 1) A Principals Group that consists of 2-3 Councilmembers appointed in January 2024, executive leadership in the Mayor's Office, and senior leadership from CBO and CS.
- 2) A workgroup of City staff from both branches of government, with technical and subject matter experts to support the process and practices for how access to information would be provided equally to both branches of government in this process.
- 3) An external facilitator with experience facilitating a decision-making process in a technically complex and political environment to facilitate the Principals Group, assist with project management to help evaluate inputs into the process.
- 4) A timeline for meetings of the Principals Group and workgroup, including opportunities for public input and/or Council committee briefings during the process.
- 5) An overview of the expected roles and responsibilities of the Principals Group and the workgroup.

Independent of this process, the Executive will exercise its state law and city policy responsibilities defined in RCW 35.32A and RES 28885 and RES 31954 to develop a 2025-2026 Proposed Budget. Likewise, the Council will exercise its state law and city policy responsibilities defined in the same sources, to deliberate on the Mayor's Proposed Budget and vote on an ordinance adopting the City's 2025 Budget and a resolution endorsing the 2026 Budget. A collaborative process provides an opportunity for a focused look at the City's financial situation and an opportunity to develop a shared set of options for discussion and deliberation.

LEG-800-A

Add \$200,000 GF to LEG for the transition of new Councilmembers elected and appointed in 2023 and 2024

SPONSORS

Tammy Morales

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(200,000)	
Total Budget Balance Effect	\$(200,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$200,000 GF (one-time) to the Legislative Department to support the transition of new Councilmembers elected and appointed in 2023 and 2024, and their staff. Resources may be used for temporary support in Human Resources, Legislative Operations, Information Technology, or Communications, as well as for the training and onboarding of elected officials and their staff.

Temporary support will be provided with existing position authority and no new positions are required to complete this work.

This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

V2

MO-001S-A

Request that the Mayor's Office adopt or revise departmental naming or renaming policies for City-owned properties, streets, and structures

SPONSORS

Debora Juarez, Lisa Herbold, Alex Pedersen, Dan Strauss

DESCRIPTION

This Statement of Legislative Intent would request that the Mayor's Office adopt or revise departmental policies for the naming and renaming of City-owned properties, streets, and structures, so that Indigenous United States military veterans, other Native persons who have served Seattle communities, and historic Indigenous place names are considered as options. These City-owned properties, streets, and structures are owned and managed by departments including, but not limited to, the Department of Neighborhoods, the Department of Finance and Administrative Services, the Department of Parks and Recreation, and the Seattle Department of Transportation. Naming options may be identified in consultation with the Indigenous Advisory Committee and federally recognized tribes.

V2

MO-002S-A

Request that the MO provide quarterly reports regarding activities and performance of the Unified Care Team (UCT), or its successor, and any other collaborating departments that manage the City's response to unsanctioned encampments

SPONSORS

Andrew Lewis, Tammy Morales, Dan Strauss

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Mayor's Office (MO) provide quarterly reports regarding activities and performance of the Unified Care Team (UCT), or its successor, and any other collaborating departments that manage the City's response to unsanctioned encampments.

This request is seeking information similar to what was provided by the Human Services Department (HSD) in response to SLI HSD-301-A-001-2023, with some additional information requested.

The UCT began a transition to a geographic-based approach in 2023, and the King County Regional Homelessness Authority (KCRHA) has also initiated geographic-based outreach. A separate SLI, HSD-008S-A, requests that HSD work with KCRHA to provide quarterly reports on geographic encampment outreach and population-based outreach services performed by contracted providers. Because the UCT and KCRHA's geographic approaches are new, Council would be willing to consider changes to the performance metrics below as needed to best reflect activities and related outcomes.

The reported metrics should convey the performance in the following areas:

1) By region, the number of requests related to encampments in public spaces received through the City's Customer Service Bureau.

2) By region, the number of:

- a. Encampment removals where advance notice of the removal and an offer of shelter for all encampment residents was required under Multi-Departmental Administrative Rule 17-01 (MDAR 17-01) and the Finance and Administrative Departments's Encampment Rule 17-01 (FAS 17-01).
- b. Encampment removals that were considered obstructions and for which advance notice and offers of shelter were not required under MDAR 17-01 and FAS-17-01.
- c. Encampment removals where offers of shelter were made for all encampment residents, even

2024 STATEMENT OF LEGISLATIVE INTENT

though not required under MDAR 17-01 and FAS-17-01.

d. Recreational Vehicle (RV) removals where advance notice of the removal was provided and an offer of shelter for all RV residents was made.

e. RV removals for which advance notice and offer of shelters to all RV residents were not made.

3) By region:

a. The number of offers of shelter extended to encampment residents.

b. The number of offers accepted, resulting in a referral to shelter.

c. The percentage of offers accepted, resulting in a referral to shelter, out of all offers made.

d. Demographics of those referred to shelter or permanent housing.

e. The number of shelter enrollments.

f. The percentage of shelter enrollment, out of all offers made.

g. The number of offers of shelter that were declined, out of all offers made.

h. If possible, the stated reason why offers of shelter were declined.

i. The number of people living in an encampment who were displaced during encampment removals or resolutions.

4) Number of hazardous and unsafe conditions stemming from, and found within, unauthorized encampments and any actions taken to address them, including but not limited to trash and debris mitigation, hygiene stations, sharps disposal containers, and public safety incidents connected with homelessness.

5) Update on the transition to neighborhood teams at the UCT, including:

a. Status update on the hiring of the five Regional Coordinator positions

b. Status update on the launch of other neighborhood teams for North/Northeast, Central, Southwest, Southeast, in addition to the Northwest team launched in 2023.

6) Clear definition of all terms used in the report.

The MO should submit the reports to the Public Assets and Homelessness Committee, or successor committee.

Reports should be submitted by January 31, April 30, July 31, and November 17, 2024. The report due January 31, 2024 should cover activities conducted from October 1 through December 31, 2023.

OED-001-A

Add \$150,000 GF to OED to support a Ballard Ambassador program and \$25,000 to DON to support community safety contracting

SPONSORS

Dan Strauss, Debora Juarez, Sara Nelson

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(175,000)	
Total Budget Balance Effect	\$(175,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$150,000 GF to the Office of Economic Development (OED) to support a new Ambassador program in Downtown Ballard, and \$25,000 GF to the Department of Neighborhoods (DON) to support their work contracting with community-based organizations to provide local public safety programs, including the Ballard community safety coordinator. DON currently contracts with community-based organizations in Ballard, the Chinatown-International District, South Park, and Rainier Beach, but has not had resources to support that contracting. Funding allocated to OED would be provided to an organization with ties to the Ballard business community to assist with a variety of tasks ranging from visitor assistance to outreach with unhoused neighbors, engagement with businesses, and support for Ballard Alliance operations.

This CBA replaces CBA DON-803-A in the Chair's Balancing Package. This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium by \$175,000 a year.

OED-801-A

Add \$150,000 JumpStart Fund to OED for workforce development efforts focused on technological skills

SPONSORS

Tammy Morales, Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(150,000)	
Total Budget Balance Effect	\$(150,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$150,000 JumpStart Fund to the Office of Economic Development (OED) to support a community-based organization that offers workforce training, career counseling, and job placement services focused on developing technological skills for low-income individuals, such as the Filipino Community of Seattle's Innovation Learning Center (ILC). The ILC opened in late 2021 as part of the Filipino Community Village project, which was partially funded by the City's Equitable Development Initiative, to provide access and classes related to computers and other technology for youth, seniors, and low-income individuals. OED has not previously funded the ILC; this CBA allows OED to provide ongoing support for this effort beginning in 2024.

The financial plan for the JumpStart Fund included in the 2024 Proposed Budget Adjustments shows a positive unrestricted fund balance in 2025 and beyond. This CBA will reduce the unrestricted fund balance but based on the current financial plan, this ongoing appropriation can be supported without creating a deficit in the fund in the future.

OED-802-A

Add \$30,000 JumpStart Fund to OED, and change \$120,000 JumpStart Fund in OED from one-time to ongoing, for a virtual Hiring Hall

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(30,000)	
Total Budget Balance Effect	\$(30,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$30,000 JumpStart Fund to the Office of Economic Development (OED) for a virtual Hiring Hall that connects job seekers to union jobs in King County, and changes \$120,000 JumpStart Fund that the Council added for this purpose to the 2023 Adopted and 2024 Endorsed Budgets from one-time to ongoing. This will result in a total of \$150,000 JumpStart Fund annually to support an organization that connects job seekers with union jobs in King County, such as the Martin Luther King, Jr. County Labor Council (MLK Labor).

The virtual Hiring Hall is a joint initiative between MLK Labor and Partners in Employment, a workforce development organization specializing in immigrant worker support. In 2021, OED contracted with MLK Labor to create the virtual Hiring Hall, supported by \$122,000 of Coronavirus Local Fiscal Recovery funds, as part of its Downtown workforce development investments. The Council then appropriated one-time JumpStart funds in the 2023 Adopted and 2024 Endorsed Budgets to continue OED's support for this effort. This CBA is intended to provide ongoing resources for the virtual Hiring Hall.

The financial plan for the JumpStart Fund included in the 2024 Proposed Budget shows a positive unrestricted fund balance in 2025 and beyond. This CBA will reduce the unrestricted fund balance but based on the current financial plan, this ongoing appropriation can be supported without creating a deficit in the fund in the future.

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(50,000)	
Total Budget Balance Effect	\$(50,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$50,000 JumpStart Fund (one-time) to the Office of Economic Development (OED) to support events celebrating Asian culture, food, and community, such as the Chinatown-International District (CID) Night Market. In September 2023, the CID Night Market was canceled due to lack of sponsors and rising costs. This funding is intended to re-establish an event like the CID Night Market to encourage greater economic activity in the neighborhood as it continues to recover from the impacts of the COVID-19 pandemic. OED has not previously provided funding for this purpose.

The financial plan for the JumpStart Fund included in the 2024 Proposed Budget Adjustments shows a positive unrestricted fund balance in 2025 and beyond. This one-time spending will not impact the sustainability of this fund in the future.

OED-804-A

Add \$455,000 GF and 2.0 FTE Grants and Contracts Specialists to OED for administration

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(455,000)	
Total Budget Balance Effect	\$(455,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) adds \$455,000 GF and 2.0 FTE Grants and Contracts Specialists to the Office of Economic Development (OED) for administrative purposes related to OED's JumpStart Economic Revitalization investments. Of this amount, \$405,000 is ongoing and \$50,000 is one-time and is allocated as follows:

- (1) \$80,000 for professional development to support staff retention;
- (2) \$100,000 and \$50,000 (one-time) to implement economic development analytics software; and
- (3) \$225,000 and position authority for 2.0 FTE Grants and Contracts Specialists.

CBA OED-903-A reduces \$545,000 JumpStart Fund and position authority for 2.0 FTE Grants and Contracts Specialists proposed to be added to OED in the 2024 Proposed Budget Adjustments. This CBA restores \$455,000 of that amount and the position authority.

OED's 2024 Proposed Budget Adjustments include \$120,000 for professional development. The net result of this CBA and CBA OED-903-A is a reduction of the proposed expenditure for professional development by \$40,000 annually.

The 2024 Proposed Budget Adjustments also include \$200,000 ongoing to implement economic development analytics software. This CBA and CBA OED-903-A create a net reduction of \$50,000 for analytics software in 2024, and \$100,000 ongoing after 2024.

This CBA changes the source of funds for 2.0 FTE Grants and Contracts Specialists from the JumpStart Fund to GF; funding for these positions is otherwise maintained as proposed.

This GF expenditure is funded by the transfer from the JumpStart Fund to the GF within the administration and evaluation spending category. The financial plan for the JumpStart Fund included in the 2024 Proposed Budget Adjustments shows a positive unrestricted fund balance in 2025 and beyond. This CBA will reduce the unrestricted fund balance but based on the current financial plan, these ongoing appropriations can be supported without creating a deficit in this fund in the future.

2024 STATEMENT OF LEGISLATIVE INTENT

V2

OED-806S-A

Request that OED develop a landscape analysis and a coordinated City approach towards maintaining or increasing childcare supply and access

SPONSORS

Dan Strauss

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Office of Economic Development (OED) work with the Department of Education and Early Learning (DEEL), Human Services Department (HSD), Office of Intergovernmental Relations (OIR), Seattle Parks and Recreation (SPR), the Innovation and Performance Team (IP), and other City departments as appropriate, to develop a landscape analysis of childcare supply and access in Seattle and recommendations for City actions to maintain or increase childcare supply and access.

This SLI is intended to provide transparency and clarity on departmental roles and expectations in developing the “big bet” strategy from the Future of the Seattle Economy (FSE) strategic framework related to childcare. According to OED’s report summarizing stakeholder recommendations for the FSE strategic framework, OED was asked to “evaluate current childcare efforts underway in the region to identify and scale up the most effective strategies.” The report further elaborates on the connection between childcare and economic development, stating:

"Access to affordable, quality childcare is a powerful, inclusive economic development strategy. Not only does it support the growth and development of children receiving care, it also enables the children’s caregivers to support their jobs and career development at the same time. This has a multiplicative effect on the development of the economy."

Additional context for this SLI is that on September 30, 2023, federal subsidies for families and childcare providers under the American Rescue Plan Act expired. And while the Washington State Legislature has provided additional funding for childcare, providers and workers face ongoing challenges to remain in the industry.

OED should coordinate with relevant departments to provide recommendations for targeted interventions or pilot strategies that complement efforts at the regional, state, and federal level to maintain or increase childcare supply and access, building upon previous City efforts and leveraging resources where feasible. These recommendations should (1) be based on a theory of change that

2024 STATEMENT OF LEGISLATIVE INTENT

takes into account the City's ability to impact the childcare crisis and (2) reflect a coordinated City approach towards maintaining or increasing childcare supply and access in Seattle.

To develop the landscape analysis to inform these recommendations, OED should include, but not be limited to, the following:

- A working definition of childcare as it relates to the challenges and gaps in childcare supply and access for Seattle's workers and residents, and an overview of the problem.
- An overview of the barriers faced by childcare businesses and workers, which impact the availability of childcare in Seattle. This should include, but not be limited to, a review of regulations, administrative requirements, and policies that may serve as barriers for childcare providers.
- An overview of efforts at the local, regional, state, and federal levels to maintain or increase childcare supply and access that impact the City.
- A review of City programs, investments, or policies, both past and present, to support childcare businesses in Seattle and an analysis about impact or, at a minimum, lessons learned. This should include, but not be limited to, the Childcare Near You Ordinance (Ordinance 126131), the Imagine Institute program, as well as any technical assistance programs that are available to childcare businesses.
- A review of City programs, investments, or policies, both past and present, to support childcare workers and an analysis about their impact, or at a minimum, lessons learned. This should include, but not be limited to, investments in childcare worker retention bonuses.
- A review of other government projects and opportunities where childcare is mentioned as a necessary strategy to achieve project outcomes, such as transportation infrastructure bills that include childcare supports.
- An overview of comparable jurisdictions' strategies to increase childcare supply and access, and any lessons learned from other jurisdictions.

Departments should request relevant data from the Washington State Department of Children, Youth and Families, and other agencies as appropriate, to fully inform their review of City policies and programs and subsequent recommendations. Additionally, the analysis should recognize and build upon previous reports addressing childcare in Seattle, including but not limited to DEEL's response to 2020 Council Budget Actions DEEL-3-A-2 and OSE-2-D-1, provided to Council in April 2021.

OED should submit the landscape analysis and recommendations to the Economic Development, Technology, and City Light Committee as well as the Neighborhoods, Education, Civil Rights and Culture

OED-807-A

Add \$600,000 JumpStart Fund to OED for public space activation in three neighborhoods outside of Downtown

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(600,000)	
Total Budget Balance Effect	\$(600,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) adds \$600,000 JumpStart Fund (one-time) to the Office of Economic Development (OED) to increase funding for public space activation, including public space improvements, in three neighborhoods outside of the Downtown core. The 2024 Proposed Budget Adjustments include the following one-time appropriations to enhance and activate public space in Downtown as part of the Mayor's Downtown Activation Plan: \$880,000 JumpStart Fund to OED to support programming for public space activation and \$1 million JumpStart Fund to the Seattle Department of Transportation (SDOT) for investments in the public right-of-way to support businesses, residents, and workers. This funding will be used for physical improvements to the public right-of-way as well as street festivals and other temporary activities to attract visitors to Downtown and encourage them to support nearby businesses.

This additional amount is intended to support efforts in other neighborhoods, specifically:

- \$300,000 is for Capitol Hill. OED is requested to consult with SDOT, Office of Planning and Community Development, Office of Sustainability and Environment, Department of Neighborhoods, and Capitol Hill EcoDistrict, to identify uses for this funding.
- \$300,000 is for Rainier Beach and North Rainier/Mount Baker. To identify uses for this funding, OED is requested to consult with (1) the Rainier Beach Action Coalition for Rainier Beach, and (2) SDOT, Department of Finance and Administration, King County Metro, Sound Transit, and the Mount Baker Hub Alliance for North Rainier/Mount Baker.

The financial plan for the JumpStart Fund included in the 2024 Proposed Budget Adjustments shows a positive unrestricted fund balance in 2025 and beyond. This one-time spending will not impact the sustainability of the fund in the future.

2024 STATEMENT OF LEGISLATIVE INTENT

V2

OH-001S-A

Request OH to assess the ability to increase support of the development or acquisition of micro-dwelling units as cost effective, affordable housing.

SPONSORS

Andrew Lewis, Tammy Morales, Dan Strauss, Sara Nelson

DESCRIPTION

This Statement of Legislative Intent requests the Office of Housing (OH), in cooperation with low-income housing providers, assess the ability to increase support of the development or acquisition of micro-dwelling units. These units could provide cost-effective, affordable housing opportunities for individuals with incomes at or below 60 percent of Area Median Income who are unstably housed but do not need additional services.

OH provides loans to both non-profit and for-profit housing developers to acquire existing or construct new affordable housing. Developers submit project proposals to OH for funding through Notice of Funding Availability (NOFA) processes that occur at least once and frequently twice a year.

OH should submit a report on the results of its assessment to the Finance and Housing Committee (or successor committee) by June 3, 2024.

Responsible Council Committee(s): Finance and Housing

DUE DATE: June 3, 2024

2024 STATEMENT OF LEGISLATIVE INTENT

V2

OH-002S-A

Request that OH develop a schedule and process for more frequent submittal of vacancy reports on City-funded housing units

SPONSORS

Alex Pedersen, Andrew Lewis, Sara Nelson

DESCRIPTION

This Statement of Legislative Intent (SLI) requests the Office of Housing (OH) to develop, with input from housing providers, a schedule and process for submittal of more frequent and timely vacancy reports on City-funded housing units. Vacancy reports could be provided on a quarterly basis or at least more frequently than the current annual basis. In addition, OH would determine the frequency by which completed reports would be available to the public, the Council, and the King County Regional Homelessness Authority (KCRHA).

The intent of more frequent reporting is to increase the transparency of vacancy rates at City-funded housing projects in order to spot trends and ensure the City is maximizing occupancy during the affordable housing crisis. Currently, the City as part of its annual performance review of City-funded housing projects collects and reviews the vacancy data of such projects to identify potential issues of concerns and, when concerns are identified, to work with housing providers to address these concerns.

OH should submit a report on the proposed schedule and process for the submittal of vacancy reports to the Finance and Housing Committee, or successor committee, by June 3, 2024.

Responsible Council Committee(s): Finance and Housing

DUE DATE: June 3, 2024

OH-801-A

Add \$50,000 GF to OH to fund a work group to study the operational sustainability needs of non-permanent supportive housing providers

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(50,000)	
Total Budget Balance Effect	\$(50,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$50,000 GF (one-time) to the Office of Housing (OH) to fund a work group to study the operational sustainability needs of non-permanent supportive housing providers, with the goal of working with state, county and other funding partners on short- and long-term solutions to identified issues.

Non-permanent supportive housing providers indicate they continue to experience a variety of sustainability needs as a result of the pandemic. These providers own and develop housing that serves households with incomes at or below 60 percent of Area Median Income (AMI). Further information is needed to understand the nature of the housing providers needs and potential solutions identified by state, county, and other funding partners to address these needs.

OH should submit a report to the Finance and Housing Committee, or successor committee, by June 3, 2024

This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

V1

OH-802-B

Add \$4.6 million JumpStart Fund to OH for the Multifamily Housing and Homeownership Programs

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(4,678,560)	
Total Budget Balance Effect	\$(4,678,560)	

DESCRIPTION

This Council Budget Action (CBA) adds approximately \$4.6 million JumpStart Fund to the Office of Housing (OH). Of the addition, \$4.4 million is for the Multifamily Housing Program and \$246,745 is for the Homeownership Program. The Mayor's 2024 Proposed Budget Adjustments reduced JumpStart funding for these programs. This restores funding in the JumpStart Fund Housing and Services category to the 2024 Endorsed Budget level.

The financial plan for the JumpStart Fund included in the 2024 Proposed Budget Adjustments shows a positive unrestricted fund balance in 2025 and beyond. This CBA will reduce the unrestricted fund balance but based on the current financial plan, this ongoing appropriation can be supported without creating a deficit in this fund in the future.

OIG-001-A

Add \$50,000 GF to OIG for external, independent investigations and reduce proposed funding for the Seattle Police Monitor Reserves by \$50,000 GF in FG

SPONSORS

Lisa Herbold, Alex Pedersen, Debora Juarez

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Total Budget Balance Effect	\$0	

DESCRIPTION

This Council Budget Action (CBA) would add \$50,000 GF to the Office of the Inspector General for Public Safety (OIG) for external independent investigative entities to handle conflict of interest cases when necessary, such as investigations about conduct by the Chief of Police. Ordinance 126628 provides the OIG with authorization to investigate the Chief of Police when necessary, but does not ensure funding to do so. OIG is requested to report to the Public Safety and Human Services Committee, or a successor committee, before May 1, 2024, on whether the addition of \$50,000 is sufficient to pay for the number of conflict of interest cases that are projected to occur before year-end 2024.

This CBA would also reduce proposed funding for the Seattle Police Monitor Reserve by \$50,000 GF in Finance General (FG) to align FG reserves with expected spending.

The FG reserves hold \$875,000 for the Seattle Police Monitor and other yet-to-be-identified accountability agency costs in 2024. The City Budget Office has estimated that Monitor Office spending is unlikely to exceed \$600,000 in 2024. This CBA uses \$50,000 of the remaining \$275,000 in the reserves.

This CBA does not impact the projected ongoing operated deficit in the GF beginning in the 2025-2026 biennium.

OIRA-801-A

Add \$25,000 GF to OIRA for an anti-human trafficking conference

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(25,000)	
Total Budget Balance Effect	\$(25,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$25,000 GF (one-time) to the Office of Immigrant and Refugee Affairs (OIRA) to support a conference on human trafficking that will provide an overview of the problem, barriers to efforts to combat trafficking, and recommendations for policy and programmatic action.

This funding is intended for OIRA to support conference costs through an organization that has experience in either direct services or policy advocacy related to human trafficking, and that can be culturally specific and responsive to vulnerable populations, such as the University of Washington Women’s Center.

The Council requests that the organization hosting the conference encourage attendees speaking non-English primary languages to participate by offering robust interpretation and translation services. Additionally, the organization should provide a report containing the presentations and recommendations from the conference to OIRA, the Seattle Police Department, and the Office of Labor Standards.

This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

ATTACHMENT: No

Add \$200,000 GF to OIRA to support migrants and asylum seekers

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(200,000)	
Total Budget Balance Effect	\$(200,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$200,000 GF (one-time) to the Office of Immigrant and Refugee Affairs (OIRA) to support migrants and asylum seekers. This may include, but not be limited to: public health interventions; housing or shelter support; training for homeless service providers on the unique needs of unhoused migrants and asylum seekers; capacity building for local community organizations that serve immigrants and refugees; and developing a long-term coordinated response to the urgent needs of migrants and asylum seekers.

OIRA should collaborate with the Office of Intergovernmental Relations (OIR), and other departments, as appropriate, to identify and leverage regional, state, and federal sources of funds for these purposes.

Council requests that OIRA initiate work on any contracts related to this CBA immediately so that they can be executed in early 2024.

This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

V2

OLS-801-A

Add \$100,000 JumpStart Fund to OLS to support continued development of a portable paid-time-off policy for domestic workers

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(100,000)	
Total Budget Balance Effect	\$(100,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) adds \$100,000 JumpStart Fund (one-time) to the Office of Labor Standards (OLS) to support continued development of a portable paid-time-off (PTO) policy for domestic workers.

In 2021, the Council adopted Resolution 32028 requesting OLS to collaborate with a community coalition to draft legislation that would create a portable PTO policy for domestic workers. A portable PTO policy would provide domestic workers, who do not accrue meaningful amounts of paid leave because they work short-term jobs, or who do not qualify for mandated paid sick leave because they are hired as independent contractors, with a paid leave benefit that could be flexibly used across multiple hiring entities and jobs. After receiving an extension, OLS plans to submit legislation creating a portable PTO policy to the Council in 2024.

The 2022 Adopted Budget included one-time funding of \$500,000 to OLS to implement a broad range of Domestic Worker Standards Board recommendations, including but not limited to developing a portable PTO policy; the amount was later reduced to \$400,000 following a targeted budget reduction by the Executive. Of this amount, OLS has expended (or encumbered) \$104,000 over the course of 2022 and 2023 on research, community engagement, and language access (e.g., interpretation contracts) related to developing a portable PTO policy for domestic workers. OLS has expended the balance of funds on other domestic worker initiatives, such as outreach materials for the Domestic Workers Ordinance (Seattle Municipal Code 14.23), a model notice of rights and pay information, media placements, and contracts with community organizations for domestic worker organizing.

The proposed one-time funding of \$100,000 to OLS is intended to support continued development of a portable PTO policy as follows:

- \$60,000 for outreach and education to domestic workers and employers who are covered by the Paid Sick and Safe Time (PSST) Ordinance and who may not be aware of existing requirements to provide domestic workers hired as employees with paid leave benefits,
- \$35,000 for consultant research on publicly funded options for portable PTO benefits for domestic workers who are not covered by PSST requirements, and
- \$5,000 for necessary translation and interpretation.

The 2024 Proposed Budget does not include additional funding for this work. Without additional funds, OLS would need to redirect funds from other resources to continue development of the portable PTO policy for domestic workers or forego this work.

The financial plan for the JumpStart Fund included in the 2024 Proposed Budget shows a positive unrestricted fund balance in 2025 and beyond. This one-time spending will not impact the sustainability of the fund in the future.

2024 COUNCIL BUDGET ACTION

V2

OLS-802-A

Add \$137,000 OLS Fund to OLS for staffing costs

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(137,000)	
Other Funds	\$0	
Total Budget Balance Effect	\$(137,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$137,000 Office of Labor Standards (OLS) Fund to OLS for staffing costs. The 2024 Proposed Budget Adjustments increase appropriation authority to OLS by \$137,000 to cover labor costs that reflect the current pay for employees instead of the typical mid-point budgeting. The appropriations are offset by a new 4.5 percent vacancy rate assumption that will require, at minimum, leaving open a vacant investigator position.

As a small office with 36 FTEs and few vacancies, there is limited opportunity for OLS to use salary savings or draw from other parts of the budget to offset salary costs. After step progression adjustments for 2024, most OLS staff will receive compensation above the midpoint funding for each position, with a significant number of step progression staff at the top of their progression due to longer tenures in the office. Many discretionary broadband positions are paid higher than the midpoint rate due to longer tenures, competitive hiring, and efforts to ensure pay equity among similar-situated positions. Salary savings from positions that are below the midpoint are insufficient to cover the deficit.

This CBA increases appropriations to OLS to reduce the vacancy rate and allow the office to meet its projected 2024 labor costs, which would enable the office to better meet its existing workload demands.

As the GF contributes to the OLS Fund, this CBA worsens the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium by \$137,000 a year.

2024 STATEMENT OF LEGISLATIVE INTENT

V2

OPCD-001S-A

Request that OPCD report on opportunities to support the conversion of non-residential buildings to housing

SPONSORS

Andrew Lewis, Lisa Herbold, Tammy Morales, Alex Pedersen

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Office of Planning and Community Development (OPCD) report to Council on (1) existing code requirements that limit the conversion of non-residential buildings, including office buildings, to residential use, and (2) possible incentives to increase the likelihood that non-residential buildings will be converted to residential uses.

The SLI further requests that OPCD prepare legislation for Council consideration to remove code barriers and provide incentives, and complete environmental review on that legislation, as appropriate. OPCD should work with the Seattle Department of Construction and Inspections, the Department of Neighborhoods, the Office of Economic Development, the Office of Housing and the Office of Arts and Culture in the development of the report.

Identifying strategies to support the conversion of non-residential buildings to residential uses, particularly Downtown, is a priority of Mayor Harrell's Downtown Activation Plan. The 2024 Proposed Budget Adjustments for OPCD includes a new term-limited position that is intended to lead this work.

OPCD should submit the report to the Land Use Committee, or successor committee, by May 1, 2024, with environmental review and transmittal of legislation to follow release of the report.

Responsible Council Committee(s): Land Use

DUE DATE: May 1, 2024

2024 STATEMENT OF LEGISLATIVE INTENT

V2

OPCD-002S-A

Request that OPCD and SDCI develop a monitoring and evaluation plan for trees on private property

SPONSORS

Alex Pedersen, Lisa Herbold, Dan Strauss

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Office of Planning of Community Development (OPCD) and Seattle Department of Construction and Inspections (SDCI) develop a plan to monitor and evaluate the impacts of the City's regulations for trees on private property to ensure that they support the City's goals for tree canopy cover, environmental justice, and climate resilience. The Council passed Ordinance 126821 in May 2023 to update these regulations, which went into effect on July 30, 2023.

The City's goals are to strive to achieve at least 30 percent tree canopy cover by 2037 and 40 percent over time; these were adopted by Seattle's 2007 Urban Forest Management Plan and included in the Seattle 2035 Comprehensive Plan. The City's 2021 Tree Canopy Assessment revealed that Seattle's tree canopy cover had decreased from 28.6 percent in 2016 to 28.1 percent in 2021, a net loss equivalent to 255 acres of tree canopy. Further, neighborhoods that experienced greater than average citywide canopy cover loss tended to be those that started with less canopy cover and have been most impacted by racial and economic injustice. The analysis also found that a disproportionate amount of Seattle's tree canopy cover was located in the Neighborhood Residential management unit (which largely aligns with Neighborhood Residential (NR) zones); while it comprised 39 percent of Seattle's land area, it contained nearly half of the city's total canopy cover.

Ordinance 126821 included the following key changes:

- Increasing regulations for smaller trees and requiring replacement of more trees that are removed on lots undergoing development;
- Further restricting tree removal on lots that are developed;
- Establishing a new fee-in-lieu of planting option; and
- Creating a new development area standard in Lowrise, Midrise, commercial and Seattle Mixed zones to simplify SDCI's process for determining whether trees may be removed on lots undergoing development.

These changes are intended to support the City's tree canopy cover target while also taking into consideration other goals related to housing production, environmental equity, and climate resilience.

Staff: Yolanda Ho

Page 1 of 2

2024 STATEMENT OF LEGISLATIVE INTENT

To ensure that the regulations are advancing the City's goals, OPCD and SDCI are requested to develop compliance and effectiveness monitoring processes and to provide regular updates to the public and Council on topics such as, but not limited to: tree removal, replacement trees, preservation of trees on lots undergoing development, tree-related complaints, and the report requested in Attachment 1 to Ordinance 126821 related to the use of the in-lieu fee. These reports should be used to inform evaluation of the regulations and determine if changes should be made to regulations, implementation, or enforcement (see also SLI SDCI-802S-A related to options for improving complaint response times).

This effort should also consider strategies for creating outreach materials to developers and the public that illustrate how different types of projects on various zones could be adapted to preserve trees on site. If additional resources are needed to produce such materials, this should be included with the plan.

As OPCD and SDCI develop a response to this SLI, they should engage with the Urban Forestry Commission, Green New Deal Oversight Board, and the Office of Sustainability and Environment.

OPCD and SDCI should submit the plan to the Land Use Committee, or successor committee, by July 1, 2024.

Responsible Council Committee(s): Land Use

DUE DATE: July 1, 2024

2024 COUNCIL BUDGET ACTION

V2

OPCD-801-A

Add \$130,000 JumpStart Fund to OPCD for community engagement work related to the Seattle Comprehensive Plan major update

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(130,000)	
Total Budget Balance Effect	\$(130,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$130,000 JumpStart Fund (one-time) to the Office of Planning and Community Development (OPCD) for community engagement work related to the Seattle Comprehensive Plan major update and legislation to implement the recommendations of the major update. The Mayor's 2024 Proposed Budget Adjustments cut \$130,000 GF that had been included in OPCD's 2024 Endorsed Budget for the ongoing work to update the Comprehensive Plan. The 2024 Proposed Budget Adjustments assumed most of the work on the Comprehensive Plan major update will be completed in 2023. However, release of the Draft Plan and Draft Environmental Impact Statement (DEIS) have been delayed, and most outreach and engagement related to the Draft Plan and DEIS will now occur in 2024.

Funding for this CBA comes from JumpStart funding allocated by the Council to OPCD in 2023 to support the creation of Community Investment Trusts. Due to a lack of community interest at this time, that funding will not be spent. The financial plan for the JumpStart fund included in the 2024 Proposed Budget shows a positive unrestricted fund balance in 2024 and beyond. This one-time spending will not impact the sustainability of this fund in the future.

OSE-801-A

Add \$30,000 JumpStart Fund to OSE for additional outreach and engagement for the Tree Canopy Equity and Resilience Plan

SPONSORS

Teresa Mosqueda, Tammy Morales

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(30,000)	
Total Budget Balance Effect	\$(30,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$30,000 JumpStart Fund (one-time) to the Office of Sustainability and Environment (OSE) to support additional outreach and engagement for the forthcoming Tree Canopy Equity and Resilience Plan. This will bring the total amount of JumpStart Green New Deal funding for developing the plan to \$180,000, including \$150,000 JumpStart Fund (one-time) appropriated for this purpose in OSE's 2023 Adopted Budget.

To create the forthcoming Tree Canopy Equity and Resilience Plan, OSE intends to engage with City departments and community-based organizations to identify strategies and locations for planting, growing, and maintaining trees on private and public land and in the right-of-way, with a focus on low-canopy neighborhoods in environmental justice priority areas. The plan will build on the findings of the 2021 Tree Canopy Cover Assessment and help the City qualify for future public and private funding opportunities that support the resilience of the tree canopy.

OSE has not yet initiated work on the plan, pending hiring of the Senior Urban Forestry Advisor who will lead plan development, and the department intends to request that the \$150,000 from the 2023 Adopted Budget be carried forward to 2024. This additional appropriation is intended to provide more resources to ensure that the plan is developed with extensive community engagement, with a particular focus on residents in environmental justice priority areas.

The financial plan for the JumpStart Fund included in the 2024 Proposed Budget shows a positive unrestricted fund balance in 2025 and beyond. This CBA will not impact the sustainability of the fund in the future.

V2

OSE-802-A

Add \$50,000 GF to OSE for urban forestry-related community engagement

SPONSORS

Alex Pedersen, Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(50,000)	
Total Budget Balance Effect	\$(50,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$50,000 GF (one-time) to the Office of Sustainability and Environment (OSE) to develop, in collaboration with the City's Urban Forestry Management Team, a citywide urban forestry outreach and communication strategy to increase community care for trees. This should include, but not be limited to, providing information related to regulations, volunteer opportunities, tree care, and incentives. Efforts should prioritize considerations relevant to environmental justice and Native American communities. This is one of the priority items included in Seattle's 2020 Urban Forest Management Plan's Action Agenda.

Several years ago, the City established Trees for Seattle (T4S) as the brand for urban forestry efforts to help coordinate interdepartmental work and communication with the public. This has helped to make it easier for community members to contact City departments about trees and receive information about urban forestry-related events and other relevant information from various departments. However, T4S currently lacks the resources to proactively engage with communities about tree care and stewardship, particularly those who are most impacted by climate and environmental injustice. This funding will allow the City to begin such efforts in 2024.

This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

RET-001-A

Request that SCERS provide a report on sources and uses of City retirement funds and performance of the SCERS II plan

SPONSORS

Alex Pedersen, Debora Juarez, Sara Nelson

DESCRIPTION

2024 STATEMENT OF LEGISLATIVE INTENT

This Statement of Legislative Intent (SLI) requests that the Seattle Employees' Retirement System (SCERS) provide a report encompassing sources and uses of City retirement funds and performance of the SCERS II plan to increase transparency to the public.

The Council requests that SCERS, in consultation with other City departments, if necessary, provide a report to the Council by July 1, 2024, that covers sources and uses of City retirement funds, the performance of the SCERS II plan, and options to merge with the State Public Employees Retirement System.

The report should cover, at a minimum:

I. In graphs covering the SCERS I and SCERS II plans separately, if possible, the sources and uses of retirement funds over the past 10 years including:

A. Sources of funds:

1. City tax dollars / City government contributions toward employee pensions (existing employees and retirees)
2. Employee contributions
3. Investment earnings
4. Any other sources

B. Uses of funds:

1. Payments to beneficiaries
2. Contributions to the retirement fund
3. Asset management/investment fees
4. SCERS administrative costs
5. Any other costs

C. In consultation with other departments if necessary, please include a separate graph showing City payments for firefighter and police officer pensions.

II. Performance of the SCERS II plan, including a calculation of the impact on the plan funding ratio, and the total City cost savings (across all funds), from the SCERS II changes implemented in 2017. The report should also include any recommendations for changes to the SCERS system to meet either of the outcomes of achieving a 100 percent funding ratio sooner than 2042 and/or decreasing City retirement system costs.

SCERS should report to the Finance & Housing Committee, or successor committee, by July 1, 2024.

Add \$1 million GF to SDCI for eviction prevention resources to be administered in conjunction with eviction legal defense contracts

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(1,000,000)	
Total Budget Balance Effect	\$(1,000,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$1 million GF (one-time) to the Seattle Department of Construction and Inspections (SDCI) for rental assistance to be administered in conjunction with eviction prevention legal defense contracts. Funds should be used for households with an active eviction case in the King County Superior Court.

The 2024 Proposed Budget Adjustments appropriate \$2.12 million for tenant services grants and contracts, including eviction prevention. In 2023, grants and contracts were awarded for a range of tenant services including eviction defense, tenant education, direct counseling, and language access. Awardees included the Housing Justice Project, Catholic Community Services - Tenant Law Center, the Tenants Union, Villa Comunitaria, Solid Ground, Be:Seattle, the West African Community Council, Interim Community Development Association, LGBTQ Allyship, and the United Indians of All Tribes. This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

V2

SDCI-802S-A

Request that SDCI provide options to improve complaint response times including off-hour emergency housing and tree cutting complaints

SPONSORS

Alex Pedersen

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Seattle Department of Construction and Inspections (SDCI) provide a report on options for code enforcement staffing models to improve response times and increase staff availability to respond to weekend complaints. The report should identify options and needed resources for improving response times to achieve 2018 performance targets for construction, housing, and land use complaints while achieving same-day or 24-hour response times for emergency housing and tree cutting complaints, including complaints made on weekends.

In 2018 SDCI met most enforcement performance targets. Those targets included responding to non-emergency construction complaints within five days, housing complaints within seven days, and land use complaints within ten days. Since then, the volume of code enforcement complaints; response times to complaints; and the average time to resolve violations, where they have been found, have been increasing. Code enforcement staffing has not kept pace with demand. To date in 2023, the average response time for an initial non-emergency inspection is approximately 64 calendar days. Additionally, since 2020, the number of cases resolved through voluntary compliance, as opposed to enforced compliance, has decreased. SDCI estimates that as many as 12 additional staff would be needed to return to 2018 performance levels. The 2024 Proposed Budget Adjustments include a new TRAO-fee funded position and technology improvements, which may improve complaint response and resolution times.

The report should be submitted to the Land Use Committee, or successor committee, by June 28, 2024.

Responsible Council Committee(s): Land Use

DUE DATE: June 28, 2024

General Fund	\$(50,000)	
Total Budget Balance Effect	\$(50,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) adds \$50,000 GF (one-time) to the Seattle Department of Construction and Inspections (SDCI) to convene a tenant workgroup to develop and recommend strategies to protect the health and well-being of Seattle renters. This could include, but is not limited to, creating a new office dedicated to enforcing current laws and establishing new laws, requirements, and standards related to renters. This should include considering the costs and implementation steps associated with any recommended strategies.

The workgroup will develop a workplan and timelines for providing recommendations to the City Council surrounding the creation, staffing, and funding of a rental housing standards office, including how the office would work in collaboration with community organizations, legal advocates, and other City departments and local agencies to ensure that renters are empowered, protected, and given a voice in shaping their housing rights. The workgroup will examine the scope, enforcement, and staffing needs for this type of office and determine the resources necessary for provision of services that may include: (1) enforcement of current tenant/renter protections; (2) investigation of tenant complaints and needs for additional tenant/renter protections; (3) information and guidance pertaining to the investigative process; (4) referrals and advocacy, including assistance with navigating the judicial system. A recommendation and report by the workgroup would be presented to the successor to the Sustainability and Renters’ Rights Committee by June 1st, 2024.

The workgroup will consist of three renters, appointed by the Seattle Renters’ Commission; two eviction defense attorneys; and two tenant organizers. The workgroup may expand as needed. The workgroup would develop recommendations in consultation with City departments with expertise in tenant issues, including the Seattle Department of Construction and Inspections, the Office for Civil Rights, and the City Attorney’s Office. Of the \$50,000, an amount determined by the workgroup will be allocated to language access and tenant stipends.

SDCI-804S-A

Request that SDCI, in consultation with OPCD and OH, propose a reporting requirement for housing subject to the Rental Registration Inspection Ordinance to collect data on rental rates and other information about the units (e.g., size of unit).

SPONSORS

Alex Pedersen, Lisa Herbold, Tammy Morales

DESCRIPTION

2024 STATEMENT OF LEGISLATIVE INTENT

This Statement of Legislative Intent (SLI) requests that the Seattle Department of Construction and Inspections (SDCI), in consultation with the Office of Housing (OH) and the Office of Planning and Community Development (OPCD), propose a reporting requirement for all residential units subject to the Rental Registration and Inspection Ordinance (RRIO) to collect data on rental rates, vacancy rates, and other information, such as unit size.

Since Dupre + Scott closed their business in 2018, the City has lacked the level of detail needed to understand Seattle’s housing inventory, including the extent of affordable housing that is not subsidized, but still has below market rents - what some refer to as “naturally occurring affordable housing.” Resolution 31870 and Executive Order 2019-02 established the Council and Mayor's intent to monitor and mitigate residential displacement. OPCD commissioned a report by University of California Berkeley's Urban Displacement Project to identify measures to mitigate residential displacement. That report identified (1) a data gap related to naturally occurring affordable housing and (2) the need for regular, internal reporting on indicators to inform timely residential displacement mitigation.

In 2020, Council adopted SLI-OPCD-004-A-001 requesting a report addressing this data gap. The SLI response observes the need for rental data, especially for smaller buildings, which CoStar - the commercial data provider that comes closest to the level of detail formerly provided by Dupre + Scott - does not provide. In response, the City Council passed CB 120325 in 2022, which required reporting of rental housing information for residential units subject to RRIO. However, the Mayor vetoed that bill. The Mayor’s veto letter stated, “[w]hile I do not agree with this legislation’s approach, I agree on the stated goal: we need reliable data. With that in mind...I am calling on private industry to establish a replacement to the now-shuttered Dupre + Scott Apartment Advisors, which was a trusted source that tracked rental housing locally.” Private industry has not established a replacement for Dupre + Scott data.

The report should be provided to the Sustainability and Renters’ Rights Committee, or its successor committee by June 3, 2024.

Responsible Council Committee(s): Sustainability and Renters' Rights

2024 STATEMENT OF LEGISLATIVE INTENT

V2

SDHR-001S-A

Request that SDHR report on implementing a four-day, 32-hour work week for most civil service employees

SPONSORS

Tammy Morales, Lisa Herbold, Teresa Mosqueda

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Seattle Department of Human Resources (SDHR) report on implementing a four-day, 32-hour work week, on a trial or permanent basis, for most civil service employees of The City of Seattle to address gender and racial pay gap issues, improve employee work/life balance and morale, and reduce costs.

An increasing number of public and private employers in the United States and around the globe have adopted a four-day, 32-hour work week, on a trial or permanent basis, that provides the same level of pay and benefits as a conventional 40-hour work week. The goals of the four-day work week often include lowering operations costs, increasing productivity, reducing turnover, and improving employee morale, health, and well-being.

King County has long instituted a 35-hour work week for certain employees. In 2023, San Juan County became the first county in the state to adopt a 32-hour work week (implemented on October 1) for most employees. The change affects about 70 percent of San Juan County's workforce and is managed by the 100/80/100 rule (i.e., 100 percent of pay, for 80 percent of the hours, for 100 percent of the output). San Juan County has stated that the new schedule is intended to support fiscal health, improve employee recruitment and retention, and prioritize islander well-being and has expressed commitment to providing the same quality of service for the public.

This SLI requests SDHR to work in consultation with City departments, stakeholders, public and private employers, and other jurisdictions to (1) develop recommendations for implementing a four-day, 32-hour work week, on a trial or permanent basis, with the same pay and benefits as a 40-hour work week for most civil service employees; (2) provide an implementation plan for adopting such recommendations; and (3) provide accompanying legislation, as appropriate.

In the report, SDHR should address the benefits and tradeoffs of a four-day work week, identify options to mitigate any concerns, and consider impacts on City operations and services, including but not limited to:

Staff: Karina Bull

Page 1 of 2

2024 STATEMENT OF LEGISLATIVE INTENT

- Employee health, well-being, and job satisfaction;
- Recruitment and retention;
- Workforce equity, including impacts on gender and racial pay gaps;
- Workforce productivity, including the potential for a shorter work week to increase productivity and any efficiency measures to prevent reduced productivity (e.g., fewer meetings);
- Impacts on City services, including customer-facing and public safety services;
- Implications for City policies, procedures, rules, and regulations, including overtime thresholds, telework/remote work policy, in-office minimums, compressed workweeks and alternative work schedules;
- System changes necessary to retain the same level of pay, accrual of service credit hours, and City benefits (e.g., vacation, paid sick and safe time);
- Impact on employee benefits under state or federal programs;
- Financial impacts, including but not limited to costs related to overtime, hiring additional staff, developing new software systems, and instituting new policies and procedures; and
- Labor implications.

SDHR should submit the report to the Chair of the Governance, Native Communities and Tribal Governments Committee, or successor committee, by July 1, 2024.

Responsible Council Committee(s): Governance, Native Communities, and Tribal Governments

DUE DATE: July 1, 2024

2024 STATEMENT OF LEGISLATIVE INTENT

V2

SDHR-800S-A

Request that SDHR and CFD report on adding employee gender identity options in the City's Workday Human Resources system

SPONSORS

Debora Juarez

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that Seattle Department of Human Resources (SDHR) and City Finance Department (CFD) report on adding employee gender identity options to the City's Workday Human Resources (Workday) system.

In September 2023, the Office of City Auditor's Workforce Equity in Promotions Audit identified gaps in the City's existing methods for collecting employee gender identity information in the Human Resources Information System (HRIS) which includes three options for gender identity: Male, Female, and Unspecified. The audit concluded that the limited gender categories could prevent opportunities to identify and resolve disparities impacting nonbinary and genderqueer employees; and referenced the directive in Executive Order 2015-02 (supported by Council Resolution 31588) for SDHR to analyze data collection policies relating to sexual orientation and gender identity, including transgender or gender non-conforming people. The audit recommended using the City's transition from HRIS to Workday, a new cloud-based, employee-centered HR software system, as an opportunity to design systems that address gaps and limitations in Citywide data. Workday will allow employees to view and update their personal data and will provide the City with reporting and analytics features.

The City's current design for Workday, scheduled for implementation in early 2024, includes the personal data collection fields "sex", a federally required reporting category, and the additional category of "gender." Presently, "gender" is configured with nine options: Agender, Bigender, Genderfluid, Genderqueer, Man, Woman, Non-Binary, Not Listed, and I do not wish to provide this information. The design does not include Two-spirit, Transgender Man, and Transgender Woman; the omission of these options for gender identity could hinder the City's efforts to evaluate workforce data and improve personnel practices.

SDHR and the CFD have indicated that the requested gender identity options will be added to Workday after initial implementation and that more information on the timing for such changes will be available by summer 2024.

2024 STATEMENT OF LEGISLATIVE INTENT

This SLI requests SDHR and the CFD to provide a report (1) confirming that Workday includes gender identity options for Two-Spirit, Transgender Man, and Transgender Woman or (2) providing an implementation plan for adding these gender identity options to Workday.

If providing an implementation plan, SDHR and CFD may consider the following:

- Input from City departments (e.g., the Department of Finance and Administrative Services, Office for Civil Rights, Office of Employee Ombud, Seattle Information Technology);
- Input from City Commissions (e.g., Seattle LGBTQ Commission);
- Input from external stakeholders (e.g., Lavender Rights Project, Ingersoll Gender Center, Northwest Two Spirit Society, Diversity Alliance of the Puget Sound, and Gender Justice League);
- The City's ability to measure the impact of transmisogyny (i.e., misogyny or prejudice as experienced by transwomen), transmisogynoir (i.e., transmisogyny experienced by Black women), and other forms of anti-trans bias in the workplace with existing gender identity options; and
- The cost and timeline for revising gender identity options in Workday.

SDHR and CFD should submit the report to the Chair of the Governance, Native Communities and Tribal Governments Committee, or successor committee, by July 1, 2024.

Responsible Council Committee(s): Governance, Native Communities, and Tribal Governments

DUE DATE: July 1, 2024

2024 COUNCIL BUDGET ACTION

SDOT-001-A

Add \$1 million Seattle Transportation Benefit District (STBD) Fund in SDOT to contract with King County Metro for Transit Ambassadors on transit service in Seattle and impose a proviso

SPONSORS

Dan Strauss, Lisa Herbold, Andrew Lewis

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(1,000,000)	
Total Budget Balance Effect	\$(1,000,000)	

DESCRIPTION

This Council Budget Action (CBA) would add \$1 million Seattle Transportation Benefit District Fund to the Seattle Department of Transportation (SDOT) to support King County Metro's Transit Center Ambassador Program. This program deploys staff in the field to provide customer support, information, and assistance to transit riders. This funding is intended to support deploying ambassadors on King County bus routes and Seattle Streetcar service in Seattle that connect to Sound Transit stations or serve Downtown Seattle. This funding is intended to fund ambassadors riding the bus to assist operators and customers.

The funding source is the Seattle Transit Measure, under the Emerging Mobility Needs spending category. The intent of this CBA is to provide ongoing funding through the remaining term of the Seattle Transit Measure.

This CBA imposes the following proviso:

"Of the appropriations in the Seattle Department of Transportation's Mobility Operations Budget Summary Level (BO-TR-17003), \$1,000,000 is appropriated solely for King County Metro's Transit Center Ambassador Program, and may be spent for no other purpose."

SDOT-002S-A

Request that SDOT provide initial cost estimates for alternatives to traditional sidewalks in specified locations

SPONSORS

Dan Strauss, Alex Pedersen, Debora Juarez

DESCRIPTION

This Statement of Legislative Intent would request that the Seattle Department of Transportation (SDOT) provide a report identifying preliminary cost estimates for providing alternatives to typical, concrete sidewalks at three locations:

- A) NW 90th St, from Dibble Ave NW to 8th Ave NW.
- B) Dayton Ave N from N 105th St to N 107th St.
- C) Beacon Ave S (east side) from Cheasty Blvd S to S Spokane St.

The Council requests that for each location, SDOT assess the variety of alternative sidewalk options such as were identified in SDOT's response to SLI-SDOT-610-A-001-2023 as appropriate for the location.

SDOT should submit the report to the Transportation and Seattle Public Utilities Committee, or successor committee, by May 1, 2024.

Responsible Council Committee(s): Transportation and Seattle Public Utilities

DUE DATE: May 1, 2024

2024 STATEMENT OF LEGISLATIVE INTENT

SDOT-003S-A

Request that SDOT provide a report on implementing the Ballard-Interbay Regional Transportation System improvements

SPONSORS

Dan Strauss, Debora Juarez, Andrew Lewis

DESCRIPTION

This Statement of Legislative Intent would request that the Seattle Department of Transportation (SDOT) provide a report on SDOT's plans to implement the Ballard-Interbay Regional Transportation System (BIRT) improvements and support state and regional transportation needs. The report should include:

- 1) an inventory of specific projects in the Ballard-Interbay Regional Transportation System report that support state and regional transportation needs;
- 2) identification of funding sources for design of the Ballard and Magnolia bridges replacement projects to make those projects eligible for federal funding;
- 3) an assessment of the needs and levels-of-service required for Port operations; and
- 4) an assessment of BNSF Railway requirements to expand the Dravus St bridge.

SDOT should submit the report to the Transportation and Seattle Public Utilities Committee, or successor committee, by May 1, 2024.

Responsible Council Committee(s): Transportation and Seattle Public Utilities

DUE DATE: May 1, 2024

V2

SDOT-004S-A

Request that SDOT report on community facilities in future light rail station areas

SPONSORS

Tammy Morales, Lisa Herbold, Teresa Mosqueda

DESCRIPTION

This Statement of Legislative Intent requests that the Seattle Department of Transportation (SDOT) inventory and report on low-income housing, human service providers, child-care providers, and other facilities serving vulnerable community members impacted by Sound Transit’s West Seattle Ballard Link Extension (WSBLE) alternatives in the Chinatown/International District and Delridge neighborhoods.

The inventory should be done in consultation with the Office of Housing, Office of Economic Development, Office of Planning and Community Development, Department of Neighborhoods, Human Services Department and other City Departments that contract for those services in order to understand how services can be maintained through the light rail construction process and how service providers can continue to serve their community after construction.

In order to understand opportunities to maximize investments and preserve community benefits, the report should include the location of each facility, details on the services provided, the number of employees and people receiving services, the size of the facility, and the extent of impact of each WSBLE alternative. The report should also discuss how each final WSBLE alternative reflects the goals and objectives the City has laid out in Resolution 32055.

SDOT should report to the Transportation and Seattle Public Utilities Committee, or successor committee, by April 1, 2024.

Responsible Council Committee(s): Transportation and Seattle Public Utilities

DUE DATE: April 1, 2024

2024 STATEMENT OF LEGISLATIVE INTENT

2024 COUNCIL BUDGET ACTION

V1

SDOT- 102-B

Add \$1.5 million Move Seattle Levy Fund to SDOT for the NE 45th St Bridge I-5 Crossing Improvements CIP Project (MC-TR-C122) and add a proviso

SPONSORS

Alex Pedersen, Dan Strauss, Andrew Lewis

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(1,500,000)	
Total Budget Balance Effect	\$(1,500,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) would add \$1.5 million Move Seattle Levy Fund (one-time) to the Seattle Department of Transportation (SDOT) for the NE 45th St Bridge I-5 Crossing Improvements Capital Improvement Program (CIP) project. This project would make pedestrian and bicycle safety improvements on the NE 45th St structure crossing Interstate 5.

The Move Seattle Levy committed to bicycle and pedestrian improvements on the NE 45th corridor between 4th Ave NE and Brooklyn Ave NE. The 2018 update to the Move Seattle Workplan noted that planning and design work for NE 45th was underway as part of the Multimodal Improvements program; however, the workplan identified unsecured funding gaps for fully implementing this program.

Council established the NE 45th St Bridge I-5 Crossing Improvements CIP project in the 2023-2028 Adopted CIP, providing \$1.5 million of Vehicle License Fee funding to complete the project in 2023. Vehicle License Fee revenues were lower than anticipated in 2023, and SDOT did not expend these 2023 appropriations. The 2024-2029 Proposed CIP shows a revised 2023 amount of \$100,000 for this project, but does not identify future funding.

Funding for this CBA is available in 2024 in the Move Seattle Levy Fund balance. SDOT’s current spending plan for Move Seattle does not include future funding for the NE 45th St Bridge I-5 Crossing Improvements CIP project, and SDOT intends to use available fund balance to manage financial risk on projects under construction.

The impact of this CBA on the NE 45th St Bridge I-5 Crossing Improvements CIP Project is shown in Attachment A.

This CBA imposes the following proviso:

"Of the appropriations in the Seattle Department of Transportation's 2024 budget, \$1,500,000 is appropriated solely for the NE 45th St Bridge I-5 Crossing Improvements (MC-TR-C122) project in the 2024-2029 Capital Improvement Program, and may be spent for no other purpose."

Add \$1.4 million Seattle Transportation Benefit District (STBD) Fund to SDOT for the Accessible Mt. Baker Implementation CIP project (MC-TR-C002) and the Seattle Transportation Benefit District – Transit Improvements CIP project (MC-TR-C108)

SPONSORS

Alex Pedersen, Tammy Morales, Andrew Lewis

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(1,400,000)	
Total Budget Balance Effect	\$(1,400,000)	

DESCRIPTION

This Council Budget Action (CBA) would add \$1 million Seattle Transportation Benefit District (STBD) Fund to the Seattle Department of Transportation (SDOT) for the Accessible Mt. Baker Implementation Capital Improvement Program (CIP) project and \$400,000 STBD Fund for the STBD - Transit Improvements CIP project.

The funding for this CBA was identified in the October revenue update, which increased the forecast of sales tax revenue for the Seattle Transit Measure by \$1.4 million. The proposed spending would support transit capital improvements in the Accessible Mt. Baker Implementation CIP project and the Seattle Transportation Benefit District - Transit Improvements CIP Project. The proposed increased capital spending would not exceed the Seattle Transit Measure requirement that at least half of yearly expenditures be used for transit service in 2024.

The Seattle Transit Measure established a maximum annual limit on transit capital improvements. This CBA anticipates passage of companion legislation (CB 120704) to raise this maximum allowable limit from \$15 million to \$16.4 million.

The impact of this CBA on the Accessible Mt. Baker Implementation CIP project is shown in Attachment A. The impact of this CBA on the Seattle Transportation Benefit District - Transit Improvements CIP project is shown in Attachment B.

General Fund	\$0	
Other Funds	\$(2,586,475)	
Total Budget Balance Effect	\$(2,586,475)	

DESCRIPTION

This Council Budget Action (CBA) would recognize the impacts to transportation funds from the Office of Economic and Revenue Forecasts (OERF)/City Budget Office (CBO) October 2023 forecast update. The forecast update's implications for the General Fund and other city funds are included in FG-902-A. In August of each year, the City receives a revenue forecast that is used for the Mayor's budget proposal, followed by a fall update during Council's budget deliberations. Details on the 2024 impacts from the October revenue forecast update for transportation related revenues are listed below by fund:

- **Transportation Fund (13000):** This change decreases Transportation Fund revenues by \$1.4 million in 2024 due to projected decreases in commercial parking tax revenues.
- **Transportation Benefit District Fund (19900):** This change increases Transportation Benefit District Fund revenues by \$936,000 in 2024 due to projected increases in Seattle Transit Measure sales taxes.
- **School Safety Traffic and Pedestrian Improvement (SSTPI) Fund (18500):** This change decreases SSTPI Fund revenues by \$2.1 million in 2024, due to projected decreases in school zone camera revenues.

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(2,380,000)	
Other Funds	\$2,380,000	
Total Budget Balance Effect	\$0	

DESCRIPTION

This Council Budget Action (CBA) adds \$2.4 million GF to the Seattle Department of Transportation (SDOT) to address reduced 2024 transportation revenues identified in the October revenue forecast update and replaces transportation funding sources in two Capital Improvement Program (CIP) projects:

- 1) Replace \$1,030,000 GF for Seattle Transportation Benefit District Fund (Vehicle License Fee) in the Structures Major Maintenance CIP project. The change to the CIP project page is shown in Attachment A.
- 2) Replace \$1,350,000 GF for School Safety Traffic and Pedestrian Improvement Fund (School Zone Cameras) in the Pedestrian Master Plan - School Safety CIP project. The change to the CIP project page is shown in Attachment B.

This CBA assumes the use of existing fund balances to address the lower October revenue forecast of Real Estate Excise Tax (REET) and Commercial Parking Tax in 2024. The City's REET financial policies call for maintaining a \$5 million reserve in both REET I and REET II Capital Fund balances to address revenue fluctuations (Resolution 32075, Policy 12). As a result of the use of fund balance, the REET I and REET II Capital Fund reserve balances in 2024 will be approximately \$3.3 million in each fund.

The reduced 2023 transportation revenues identified in the October revenue forecast update will be addressed as amendments to the 2023 Year-End Supplemental Budget Legislation (CB 120705).

This ongoing program provides for major maintenance and rehabilitation of the City's bridges and structural assets maintained by SDOT's Roadway Structures Division. Examples of improvements that could be funded by this project include: electrical and mechanical upgrades of moveable bridge operating and control systems, repair of concrete and steel structures, and site protection of bridge facilities.

O&M Impacts: This is a capital maintenance project that reduces the need for O&M by improving asset condition.

Pedestrian Master Plan - School Safety

Project No:	MC-TR-C059	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project improves pedestrian and bicycle safety around schools. The work typically includes school zone signing and 20mph flashing beacons; new crosswalks; curb bulbs; crossing beacons and pedestrian signals; new sidewalks and maintenance; traffic calming; changes to traffic circulation around schools; installation of school zone cameras; and school walking route maps. The base level of transportation funding provides improvements at approximately three to four schools per year. The project also funds safe biking and walking education and traffic safety outreach campaigns. Operation of school zone cameras is directly funded from the Seattle Police Department budget.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

2024 STATEMENT OF LEGISLATIVE INTENT

V2

SFD-801S-A

Request that SFD report on the Post Overdose Response Team pilot

SPONSORS

Lisa Herbold

DESCRIPTION

2024 STATEMENT OF LEGISLATIVE INTENT

This Statement of Legislative Intent requests that the Seattle Fire Department (SFD) provide a six-month assessment report on the Post Overdose Response Team (PORT) pilot project. The PORT pilot, which is also known as "Health 99," began in July 2023 with the intent of engaging people who have recently received emergency treatment for a drug overdose, seeking to provide them with services and support. To support the pilot, SFD dedicated one of its three Health One vehicles to the PORT program. Health One provides outreach, transport, and referrals to callers in need of non-emergency medical assistance or who are experiencing behavioral health crises. These services are less specialized than those provided by the PORT, and SFD's ability to provide them is decremented by the PORT pilot.

The report should include six months of data collection and analysis and a statement about whether the PORT program is ongoing and why or why not. The report should provide quantitative data collected by SFD about the activities of the PORT, including:

- (1) The days on which it was in service;
- (2) The call types to which the team responded;
- (3) Whether naloxone was administered and by whom (e.g., SFD responder, Seattle Police Department responder, member of the public, etc.);
- (4) The involvement of PORT responders in connecting patients with services, support, or other resources; and
- (5) Any other reporting dimensions that SFD believes are germane.

The report should provide a detailed analysis of the net cost to SFD of the six-month pilot in excess of resources previously budgeted for the Health One unit and the annualized cost to the department of adding the PORT resource permanently (i.e., restoring Health One to the three-unit service level). The report should also include an analysis of how the decremented Health One service level is likely to have impacted the populations served by that program. SFD may also include any observations or recommendations about the PORT pilot.

The report should be submitted to the Public Safety and Human Services Committee, or successor committee, by April 1, 2024.

Responsible Council Committee(s): Public Safety and Human Services

DUE DATE: April 1, 2024

2024 COUNCIL BUDGET ACTION

V2

SPD-001-A

Add \$222,000 GF to SPD for an OPA Deputy Director position and reduce proposed funding for the Seattle Police Monitor Reserves by \$222,000 GF in FG

SPONSORS

Lisa Herbold, Alex Pedersen, Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Total Budget Balance Effect	\$0	

DESCRIPTION

This Council Budget Action (CBA) would add \$222,000 GF in 2024 to the Office of Police Accountability (OPA) for an existing Deputy Director position that was added in the 2023 Mid-Year Supplemental Ordinance. The 2024 Proposed Budget Adjustments assumed that the position would be funded from 2024 OPA salary savings. After the development and transmittal of the 2024 Proposed Budget Adjustments, the OPA Director indicated that the agency will not have in 2024 sufficient salary savings to cover this position. The Deputy Director is a position that is required by the City's Accountability Ordinance (see ORD 125315) and is currently filled.

This CBA would also reduce proposed funding for the Seattle Police Monitor Reserve by \$222,000 GF in Finance General (FG) to align FG reserves with expected spending.

The FG reserves hold \$875,000 for the Seattle Police Monitor and other yet-to-be-identified accountability agency costs in 2024. The City Budget Office has estimated that Monitor Office spending is unlikely to exceed \$600,000 in 2024. This CBA uses \$222,000 of the remaining \$275,000 in the reserves.

This CBA does not impact the projected ongoing operated deficit in the GF beginning in the 2025-2026 biennium.

2024 STATEMENT OF LEGISLATIVE INTENT

V2

SPD-801S-A

Request that SPD provide quarterly reports on staffing, overtime, finances, and performance metrics

SPONSORS

Lisa Herbold

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Seattle Police Department (SPD) provide quarterly reports to the Public Safety and Human Services (PSHS) Committee, or a successor committee, on police staffing, overtime, finances, and performance metrics, including:

- (1) Staffing data including: (a) the "SPD Sworn Staffing Model;" (b) the "Precinct Staffing Report;" and (c) demographic data on hires and separations.
- (2) Overtime data including two years of actual and planned expenditures at the bureau and program level and accounting for both dollars spent and hours worked.
- (3) Financial data including three years of General Fund expenditures for: (a) salary and benefits; (b) interfund charges; (c) overtime; (d) personnel contracts, including consultants; (e) training and travel, including conferences; and (f) discretionary expenditures.
- (4) Performance data including: (a) 911 call response time metrics; (b) Z-Disposition call handling metrics; and (c) an explanation of how changes to patrol and department staffing have affected SPD's ability to meet its response time and call handling goals.
- (5) An update on the Work Schedule and Timekeeping project (WST), or a successor project, that will allow SPD to fully comply with the overtime and off duty work management recommendations made in the City of Seattle 2016 SPD Overtime Controls Audit.

All data should be submitted consistent with the format used in SPD-001-A-001-2022. Department budget staff should assume that the Committee Chair of the PSHS Committee, or successor committee, will request their presence at a hearing in the second week of the month following submittal of the data.

SPD should submit the reports to the PSHS Committee and Central Staff Director as follows: By February 23 the report should include the 2023 year-end staffing data requested in the first item (1) above. By April 26, and July 24 the reports should address all items (1-5) above. If data for all items (1-5) is not available by the due date, then SPD staff should send on a piecemeal basis any data that is available.

2024 COUNCIL BUDGET ACTION

V2

SPD-901-A

Reduce \$50,000 GF in SPD's Office of Police Accountability for an Affected Person's Program

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$50,000	
Total Budget Balance Effect	\$50,000	

DESCRIPTION

This Council Budget Action (CBA) would reduce \$50,000 GF in the Seattle Police Department's (SPD's) Office of Police Accountability (OPA) to convene a work group to examine the prospect of adding an Affected Person's Program (APP) in Seattle similar to the program in Ontario, Canada. The Council included \$50,000 GF in the 2023 Adopted Budget and \$50,000 GF in the 2024 Endorsed Budget for this purpose (SPD-101-B-001-2023). The Mayor's Office is now leading this work in partnership with the Seattle Police Monitor team and anticipates the monitoring team will complete their review of APPs in other jurisdictions and the potential for an APP in Seattle by December 2023. This project is being supported with existing resources in the Mayor's Office and Seattle Police Monitor budgets, so the year-end supplemental ordinance will reduce the \$50,000 GF from OPA in 2023 and this CBA reduces funding that is no longer needed in 2024. Together, these reductions in 2023 and 2024 would be used to support CBA HSD-801-A-2.

This CBA, together with the associated actions in the year end supplemental ordinance, and HSD-801-A-2, do not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

SPD-902-A

Proviso sworn salary, benefits and overtime for sworn officers

SPONSORS

Lisa Herbold

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Total Budget Balance Effect	\$0	

DESCRIPTION

This CBA imposes a proviso on the Seattle Police Department (SPD) that restricts sworn salary and benefit funding so that it may only be used to pay SPD's recruits and sworn officers, and overtime for the same, until the Council passes a future ordinance.

For the purposes of this proviso, "salary and benefit" purposes include use of funds for benefits such as separation pay or workers' compensation payouts or any other salary-related expenditure. This proviso specifically authorizes expenditure of sworn salary savings on sworn officer overtime.

This CBA imposes the following proviso:

"Of the appropriation in the 2024 budget for the Seattle Police Department, none of the money that is necessary to support sworn salary, benefits, and overtime for 1,131 recruit and sworn officer FTE on an average annual basis may be spent for any other purpose unless authorized by a future ordinance."

V1

SPR-201-B

Add \$30,000 JumpStart Fund to the Rejuvenate Our P-Patches CIP project in SPR to fund a permanent fence at Greg's Garden P-Patch, reduce \$30,000 REET I in the Major Maintenance and Asset Management CIP project, swap funds in the Yesler Crescent Improvements CIP project, and impose a proviso

SPONSORS

Dan Strauss, Alex Pedersen, Andrew Lewis, Sara Nelson

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$0	
Total Budget Balance Effect	\$0	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) would add \$30,000 JumpStart Fund (one-time) in Seattle Parks and Recreation (SPR) to the Rejuvenate Our P-Patches Capital Improvement Program (CIP) project (MC-PR-51001) to fund a permanent fence around Greg's Garden P-Patch located at 14th Ave NW and NW 54th, and would impose a proviso on that funding. Currently, the City pays for a temporary fence that surrounds Greg's Garden P-Patch.

This addition is funded by making changes to two other SPR capital projects:

- Major Maintenance and Asset Management (MC-PR-41001) - reduce \$30,000 Real Estate Excise Tax (REET) I
- Yesler Crescent Improvements (MC-PR-21012) - add \$30,000 REET I; reduce \$30,000 JumpStart Fund

The impact of this CBA on the Rejuvenate Our P-Patches CIP page is shown in Attachment A, the Yesler Crescent Improvements CIP page is shown in Attachment B, and the Major Maintenance and Asset Management CIP page is shown in Attachment C.

The financial plan for REET I included in the 2024 Proposed Budget Adjustments shows a projected deficit in 2025 and beyond. This CBA uses REET one-time and does not impact the projected deficit in the future.

This CBA would impose the following proviso:

"Of the appropriation in Seattle Parks and Recreation's (SPR's) 2024 budget for the Rejuvenate Our P-Patches (MC-PR-51001) project in the 2024-2029 Capital Improvement Program, \$30,000 is appropriated to fund a permanent fence around Greg's Garden P-Patch and may be used for no other purpose."

Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project revitalizes the City's numerous P-Patch Community Gardens and Urban Food Systems program gardens and orchards. Typical projects will improve the paths, improve and construct planting beds and common areas, improve Americans with Disabilities (ADA) access, update aging infrastructure, and related work. The first P-Patch was constructed in 1973, and more have been added over the years. The individual projects will address safety and code requirements, extend the life of the asset, and improve accessibility.

This ongoing project provides funding for asset renewal in parks and recreation facilities citywide, including athletic fields, play areas, swimming pools, trails, buildings, accessibility elements, outdoor infrastructure, and related work. This project also funds integrated asset management to track and forecast long-term asset and maintenance needs. Typical major maintenance improvements may include, but are not limited to renovating buildings, Americans with Disabilities (ADA) access improvements, replacing play area structures, forest, landscape, trail maintenance and improvements, swimming pool repairs, athletic field refurbishment, and installation of energy efficient lighting, and related major maintenance work. These projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, reclaim Parks property, and improve the overall park experience for the public.

SPR-801-A

Add \$80,000 JumpStart Fund to SPR to support community planning costs for the Garfield Super Block Project

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(80,000)	
Total Budget Balance Effect	\$(80,000)	

DESCRIPTION

This Council Budget Action (CBA) adds \$80,000 JumpStart Fund (one-time) to Seattle Parks and Recreation (SPR) to continue support of the community planning costs related to the Garfield Super Block Project. Funds will allow continued work by community project staff leading up to project construction. In addition, funding could be used for: artist stipends, community outreach events, project fundraising, and project management.

The financial plan for the JumpStart Fund included in the 2024 Proposed Budget Adjustments show a positive unrestricted fund balance in 2025 and beyond. This one-time spending will not impact the sustainability of this fund in the future.

2024 STATEMENT OF LEGISLATIVE INTENT

V2

SPU-801S-A

Request that SPU evaluate the Clear Alleys Program in the Chinatown-International District and consider alternative waste removal solutions

SPONSORS

Tammy Morales

DESCRIPTION

2024 STATEMENT OF LEGISLATIVE INTENT

This Statement of Legislative Intent (SLI) requests that Seattle Public Utilities (SPU): 1) evaluate the effectiveness of, and customer satisfaction with, the Clear Alleys Program in the Chinatown-International District (CID), 2) propose short-term recommendations to the Council for program improvements and increasing cleanliness in the CID, and 3) study longer-term alternative waste removal solutions for the CID.

The Clear Alleys Program is intended to reduce the storage of waste containers in public spaces to create safer business districts, reduce illegal activities in alleys, and improve alley access for business activities (e.g., deliveries). In designated business districts, the City's contractors provide pre-paid bag collection service for garbage and recycling at intervals of up to three times per day. The business districts currently included in the Clear Alleys Program are Downtown (including Belltown and the Denny Triangle), Pioneer Square, Columbia City, Capital Hill/Pike/Pine Corridor, and the CID.

The Council requests that SPU's evaluation of the Clear Alleys Program include, at a minimum, an assessment of: a) the pre-paid bag fee amounts and how, for typical customers, they compare to solid waste charges for other customer types and programs; b) the impact to low-income residential customers and the extent to which those customers are using alternative disposal options; and c) the boundaries of the program area and whether it should be extended to include nearby neighborhoods, such as Little Saigon.

With regard to the study of longer-term alternative waste removal solutions for the CID, the Council requests that SPU explore service delivery models in other urban areas, in the United States or internationally, for best practices. The study should include consideration of newer collection technologies, such as underground container systems, and should describe the operational feasibility and financial impacts of implementing those systems.

SPU should report the results of the program evaluation, short-term recommendations, and the longer-term study to the Transportation and Seattle Public Utilities Committee, or successor committee, by August 1, 2024.

Responsible Council Committee(s): Transportation and Seattle Public Utilities

DUE DATE: August 1, 2024

2024 COUNCIL BUDGET ACTION

V1

SPU-802-B

Add \$400,000 GF to OED for expanded cleaning services in the Chinatown-International District, and reduce proposed funding for the Clean City suite of programs by \$400,000 GF in SPU

SPONSORS

Tammy Morales

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Total Budget Balance Effect	\$0	

DESCRIPTION

This Council Budget Action (CBA) adds \$400,000 GF (one-time) to the Office of Economic Development (OED) for providing expanded cleaning services in the Chinatown-International District (CID), and it reduces funding for Seattle Public Utilities' (SPU's) Clean City suite of programs by \$400,000 GF. In the 2024 Proposed Budget Adjustments, SPU has approximately \$19.2 million of appropriations for the citywide suite of clean-up services.

Since the beginning of the pandemic, the CID has been unable to keep up with the pace of necessary cleaning and sanitation services. The intent of this funding is to utilize culturally specific and responsive service providers that have experience working with community stakeholders in the CID for the provision of expanded cleaning services. The expanded cleaning services should, at a minimum, address litter, garbage, sharps, and graffiti in rights-of-way and alleys, and should include a plan for communicating activities and results to the community.

In the 2023 Mid-Year Supplemental, the Council imposed a proviso on \$200,000 of OED's budget for the provision of expanded cleaning services, and OED is currently in the process of executing a contract for these services. The funding provided by this CBA is intended to extend those cleaning services for an additional year.

This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(2,016,226)	
Total Budget Balance Effect	\$(2,016,226)	

DESCRIPTION

This Council Budget Action would add:

- (1) 706,000 GF and 5.0 FTE Strategic Advisor - Audit to the Office of City Auditor (AUD) to increase the City's auditing capacity,
- (2) 583,600 GF (one-time) and \$176,400 GF (ongoing) to the Seattle Information Technology Department (ITD) to implement items described in the Internet for All Seattle Action Plan (per Resolution 31956), and
- (3) \$250,000 GF (one-time) to the Department of Neighborhoods (DON) and \$50,000 GF (one-time) to the Human Services Department (HSD) for community safety investments; and
- (4) \$250,000 GF (one-time) to HSD for the Rainier Valley Food Bank.

This CBA is balanced by reducing the proposed funding for central services' allocations in the Department of Finance and Administrative Services (FAS) by \$1.4 million GF (one-time) and in ITD by \$600,000 GF (one-time).

Auditing Capacity Investments

To increase the City's range of audit topics and City programs and departments that are evaluated, this CBA would add five new Auditor positions, which represents a 50 percent staffing increase. Current staffing levels in AUD only allows for a limited number of audits that are requested or mandated by the City Council. The proposed funding will increase the number of auditors from 7.0 to 12.0 FTEs, allowing the AUD to broaden the range of audit topics and the City programs subject to evaluation, and to

2024 COUNCIL BUDGET ACTION

conduct additional audits based on the office's assessment of subject matter and risks posed to the City. In addition, increased staffing levels will allow AUD to respond in a timelier fashion to Council requests and will help with succession planning by enhancing efficiency during staff transitions.

Given that development of performance auditing skills is a gradual process, the office expects newly hired auditors to reach average levels of productivity in one to two years. The standards required for City audits necessitate qualified staff members who conduct thorough, well-documented, objective, and independent performance audits. The professional development of a performance auditor involves a combination of formal training in these standards and hands-on experience under the guidance of senior auditors. This Council Budget Action assumes a start date of April 1, 2024 for the new positions.

Internet for All Seattle Action Plan Investments

Adopted by the City Council in 2020, RES 31956 established the City Council's goal to implement Internet for All Seattle, a vision of enabling all Seattle Residents to access and adopt broadband internet service that is reliable and affordable. Based on estimates provided by ITD staff, this CBA would add \$583,600 GF (one-time) and \$176,400 GF (ongoing) for several items identified in RES 31956, including: \$300,000 GF (one-time) for a pilot program to provide internet service to one or more of 600 areas identified as under served in Federal Communications Commission broadband mapping data, including matching amounts for grants to internet service providers and program management staff; \$120,000 GF (one-time) for establishing free public Wi-Fi in six cultural community centers and \$176,400 GF (ongoing) to maintain and operate them; \$100,000 GF (one-time) for a referral system, shared resources, train-the-trainer workshops, access to devices and hotspots, and additional partnership for Digital Navigators at community based non-profits; and, \$63,600 GF (one-time) for 0.5 FTE temporary project staff for community engagement of its Affordable Connectivity Program Outreach efforts.

Community Safety Investments

\$300,000 GF (one-time) would support two contracts related to community safety. The 2024 Proposed Budget Adjustments includes \$537,000 GF in HSD for the Seattle Neighborhood Group's (SNG's) Safe Communities program; if this CBA passes, that would bring total funding in HSD for this program in 2024 to \$587,000. This program provides community-based crime prevention education and public safety services, including business outreach and Safe Rental Property workshops. In recent years, annual contract inflation has not kept pace with SNG's wage costs. \$250,000 GF (one-time) to DON would replace expiring funding from King County's Best Starts for Kids program, that supports a contract for Rainer Beach: A Beautiful Safe Place for Youth (ABSPY). ABSPY is an evidence-based, community-led, place-based violence prevention initiative that seeks to reduce youth victimization and crime in the Rainier Beach neighborhood. The funding added in this CBA would be used for positive behavioral interventions and support, restorative justice programming, and additional project staff. The DON 2024 Proposed Budget Adjustments include \$591,000 for contracts related to ABSPY. If this CBA passes, that would bring total funding in HSD for ABSPY to \$791,000 in 2024.

Food Bank Investments

\$250,000 GF (one-time) is intended to support the capital campaign of a new food bank facility (Rainier

2024 COUNCIL BUDGET ACTION

Valley Food Bank). Rainier Valley Food Bank is the busiest food bank in Seattle, and this proposed appropriation would match the current funding level from King County for this capital project. Council has identified the Rainier Valley Food Bank for this funding and requests that the HSD Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C.

Central Services Rate Reductions

These proposed investments totaling \$2 million GF in AUD, ITD, HSD, and DON are balanced by reductions to central services allocations in FAS and ITD. However, since central services rates are supported by rates charged to all City funds, generating \$2 million of GF savings requires reducing the overall rate, which applies to all funds. Specific GF splits between FAS and ITD are \$1.4 million and \$600,000 respectively. According to FAS staff, in order to generate a \$1.4 million GF reduction, the total reduction across all funds would be \$2.8 million. Similarly, in ITD, a \$600,000 GF reduction would require a \$2 million overall reduction across all funds. The following section outlines the impacts of these reductions, as identified by FAS and ITD.

Executive staff provided feedback that is summarized below about the potential impacts of this proposed reduction. The impacts described are substantial and Central Staff does not have enough information to confirm or dispute the impacts to City staffing, operations, and services. The sponsor assumes that in the context of a +\$500 million overall budget for FAS and ITD managed central services the proposed reductions to the Executive's proposed 2024 budget could be absorbed without significant impacts.

FAS Central Service Reduction Impacts:

According to the Department, a \$2.8 million overall reduction for non-labor related central service costs would require a reduction in the City's Fleet, which would significantly impact fire and police related operations. If the Executive chose labor reductions instead of non-labor reductions, a personnel reduction of the same amount would require reducing 18 Full Time Equivalent (FTE) positions. This is in addition to 34 positions being held vacant in order to meet the six percent vacancy rate across the Department that is assumed in the 2024 Proposed Budget Adjustments. According to department staff, this level of reduction would result in layoffs and either a reduction or elimination of certain services.

In addition, according to the Department, these reductions could increase the overall costs to the City if the executive chose to de-centralize core functions and shift the costs out to departments. As an internal service fund intentionally set up as a centralized service to all departments to create consistency and cost efficiencies, FAS' functions are designed to minimize expenses that departments would pay for directly. For example, mechanic services through a vendor are more expensive, private building leases and associated services cost more, building maintenance is more expensive, and the cost of fuel will likely go up if departments are not centrally purchasing it.

The following list of service impacts resulting from this proposed reduction in central services was provided by FAS staff. The list below includes initial considerations, as the Executive will need more time to identify specific central service reductions and impacts of those reductions.

2024 COUNCIL BUDGET ACTION

- Reduce hours or close customer service counters.
- Reduce janitorial services across City buildings and ask departments to manage trash and other cleaning services.
- Reduce maintenance and property management services, including not servicing and repairing fire and police stations, City Hall, and the Seattle Municipal Tower.
- Delayed City fleet maintenance.
- Delayed invoice processing and reduced grant management activities.

ITD Central Service Reduction Impacts:

According to the Department, a \$1.8 million overall labor reduction for IT related central service costs would require a reduction of 11 FTEs, adding to the already reduced levels of staffing in the Department. In 2021 and 2022, ITD abrogated a total of 57 positions, and in 2023 further reduced budgeted staffing by an additional 12 positions to meet the 6 percent vacancy rate. These reductions came at a time when more is required of ITD staff to support the City due to impacts from the pandemic and remote work options, creating increased stress levels among ITD staff. Therefore, would exacerbate the staffing issues described.

The following list of service impacts resulting from this proposed reduction in central services was provided by IT staff. The list below includes initial considerations, as the Executive will need more time to identify specific central service reductions and impacts of those reductions.

- Delays in answering service requests, fixing damaged equipment, or obtaining replacements.
- Reduce Technology Fund Matching funds down to \$320,000 which eliminates the additional General Fund contributions and solely rely on the cable fund contributions to this program. This is one of the few places where just GF funding can be reduced.
- Increase the vacancy rate
- Assume greater risks in the security and compliance areas.
- Reduce support for applications, including maintenance and enhancements.

Once again, Central Staff does not have enough information to confirm or dispute the impacts to City staffing, operations, and services. The sponsor assumes that, in the context of a +\$500 million overall budget for FAS and ITD managed central services the proposed reductions could be absorbed without significant impacts.

This CBA includes a \$4.8 million underspend assumption in 2024 in the Finance & Administrative Services Fund (\$2.8 million) and Information Technology Fund (\$2 million).

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium by \$1.1 million in each year.

DEEL-001-A

Add \$20 million JumpStart Fund to DEEL for K-12 educational supports, prioritizing services that improve mental health outcomes

SPONSORS

Kshama Sawant, Lisa Herbold, Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Other Funds	\$(20,000,000)	
Total Budget Balance Effect	\$(20,000,000)	

DESCRIPTION

This Council Budget Action (CBA) would add \$20 million JumpStart Fund to the Department of Education and Early Learning (DEEL) to expand educational supports at Seattle Public Schools (SPS), prioritizing services that improve mental health outcomes including, but not limited to, school-based mental health counselors and culturally specific and responsive programming from community-based organizations.

In Fall 2022, the City Council allocated \$4.5 million to increase student mental health supports in schools, resulting in five pilot schools receiving up to \$500,000 each through 2025, with two to four more schools anticipated to be added in 2024. Schools were selected in consultation with Public Health – Seattle & King County (PHSKC) based on an evaluation of schools that had elevated mental health needs and that were ready to provide increased services.

Council requests that DEEL work with SPS and PHSKC to develop an investment strategy for these funds, in consultation with community stakeholders including, but not limited to: SPS students, parents, teachers and staff, as well as community-based organizations that work with students furthest from educational justice.

This CBA assumes passage of Council Bill 119950 as amended by amendment 1 or amendment 3 as presented on the November 13 and November 14, 2023, Select Budget Committee agenda. If the bill as amended passes, the rates for all businesses currently subject to the payroll expense tax would be adjusted to increase annual revenues from this tax by at least \$20 million. If Council Bill 119950 does not pass, this CBA cannot move forward.

General Fund	\$0	
Other Funds	\$(40,000,000)	
Total Budget Balance Effect	\$(40,000,000)	

DESCRIPTION

This Council Budget Action (CBA) transfers \$40 million JumpStart Fund to the General Fund and creates a reserve in Finance General (FG) to increase resources available to sustain future wages secured in the City's contract negotiations with the Coalition of City Unions. The intent is to provide an ongoing source of funds to help support the wages and programs and services that the employees within the Coalition of City Unions provide. The funds held in FG would be allocated to the appropriate departments following approval of a new contract for the Coalition.

This CBA assumes passage of Council Bill 119950 as amended by amendment 1 or amendment 2, presented on the November 13 and November 14, 2023, Select Budget Committee agenda. If the bill as amended passes, the rates for all businesses currently subject to the payroll expense tax would be adjusted to increase annual revenues from this tax by at least \$40 million. If Council Bill 119950 does not pass, this CBA cannot move forward.

HSD-004-A

Add \$1.5 million to HSD for behavioral health services, case management and operational costs at existing non-congregate shelters and reduce proposed funding by \$1.5 million for the crime prevention pilot program in SPD

SPONSORS

Kshama Sawant, Lisa Herbold, Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Total Budget Balance Effect	\$0	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

DESCRIPTION

This Council Budget Action (CBA) would add \$1.5 million GF in 2024 (one-time) to the Human Services Department for behavioral health services at existing non-congregate shelters and reduce proposed funding for the Mayor's Crime Prevention Pilot for Closed Circuit Television (CCTV) and Acoustic Gunshot Locator technologies by \$1.5 million in the Seattle Police Department (SPD).

CBA HSD-032-B-001-2023 provided \$2.8 million GF (one-time) in 2023 to the Low-Income Housing Institute (LIHI) for one-time maintenance costs and additional operational needs at eleven existing tiny home villages and one enhanced shelter (Lake Front) with a total of 483 units. HSD contracted with the King County Regional Homelessness Authority (KCRHA) to administer these funds. Of the \$2.8 million, \$273,000 was for one-time costs and the remaining \$2.5 million was for ongoing staffing and services including behavioral health services, case management and other operating costs.

This amendment would add \$1.5 million GF for behavioral health, case management and operating costs at LIHI operated non-congregate shelters. Separately, HSD-814-A provides \$500,000 GF (ongoing) and HSD-003-A provides \$500,000 (one-time) for the same purpose. If all three amendments were to be funded, \$2.5 million would be provided for behavioral health and operating costs for LIHI operated non-congregate shelters. Overall, the 2024 Proposed Budget Adjustments contained \$15.8 million for tiny home villages and non-congregate shelter (excluding the Rosie's Village relocation cost). If all three amendments were to pass, the 2024 Proposed Budget Adjustments would provide \$18.3 million for Tiny Home Villages and non-congregate shelter.

HSD would contract with KCRHA to administer and manage these funds. Council has identified the Low-Income Housing Institute for this funding and requests that the HSD Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C, to the extent applicable, and contract for these funds as part of the KCRHA Master Services Agreement.

Because the \$1.5 million added through this amendment were not part of HSD's 2024 base contract amount, these funds will not receive a 7.5% inflationary adjustment and 2% provider pay increase. Council requests that HSD work with KCRHA and LIHI to utilize a portion of the funds for inflationary costs and provider pay increases, recognizing that such an action could have an impact on service levels.

The total for the Mayor's Crime Prevention Pilot is \$1.8 million and includes a \$280,000 add for Automated License Plate Reader technology. This CBA would reduce the funding by \$1.5 million, retaining the funding for the Automated License Plate Reader technology.

Because this adds one-time funding, this CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium. However, because funds are being used to pay for ongoing expenses, including staff, the organization receiving these funds is likely to pursue City funding in future budget years.

SPD-900-A

Proviso \$1.5 million in SPD for the Crime Prevention Pilot Program (CPPP)

SPONSORS

Teresa Mosqueda

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Total Budget Balance Effect	\$0	

DESCRIPTION

This CBA imposes a proviso on \$1.5 million GF in the Seattle Police Department (SPD) for the portion of the Crime Prevention Pilot Project (CPPP) that would deploy closed-circuit television (CCTV) systems with acoustic gunshot locator system (AGLS) capabilities in one or two selected geographic pilot areas. The 2024 Proposed Budget Adjustments include a total of \$1.78 million GF in SPD for the CPPP.

The Council requests that the Executive, the Office for Civil Rights (OCR) and the Inspector General for Public Safety (OIG) co-prepare a Racial Equity Toolkit (RET) analysis for the Surveillance Impact Report (SIR) for each location that will be submitted to the Council for approval of these technologies, pursuant to the process that the Executive has already created to comply with the Surveillance Ordinance (See ORD 125376). Each RET completed with OCR and OIG should involve targeted community outreach and a public hearing for community input and testimony, that includes invited participation from the Council. The Executive should submit the final RET to the Public Safety and Human Services (PSHS) Committee, or its successor committee, with the SIR documentation, for a review and a committee meeting as required by the Municipal Code. As part of the project evaluation, the Council requests that the RET be updated to reflect lessons learned, including impacts on communities of color. This evaluation should be co-prepared with OCR and OIG.

This Council Budget Action would impose the following proviso:

“Of the appropriation in the 2024 budget for the Seattle Police Department, \$1.5 million is appropriated solely for the crime prevention pilot project utilizing closed-circuit television (CCTV) systems and acoustic gunshot locator system (AGLS) technology and may be spent for no other purpose. Additionally, this funding shall not be spent until authorized by a future ordinance.”

2024 COUNCIL BUDGET ACTION

V2

HSD-813-B

Add \$300,000 GF to HSD to fund comprehensive substance use disorder treatment

SPONSORS

Sara Nelson, Alex Pedersen, Dan Strauss

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(300,000)	
Total Budget Balance Effect	\$(300,000)	

DESCRIPTION

This Council Budget Action (CBA) would add \$300,000 GF (one-time) to the Human Services Department (HSD) to fund comprehensive substance use disorder (SUD) treatment for individuals in Seattle who are experiencing homelessness or housing insecurity, at certified, State-licensed residential and/or intensive outpatient treatment facilities. The treatment facilities would not necessarily be located in Seattle.

This CBA would require HSD to (1) maintain a list of regional facilities that are certified as described above and licensed at the state level; (2) establish a process by which facilities bill HSD for SUD treatment services provided and HSD provides payment from this CBA’s funding allocation; (3) make the names of these facilities, and appropriate contact information, available to all potential referring parties as listed below; and (4) ensure that each facility will accept referrals from all potential referring parties. It is the intent of this CBA that HSD work with Tribal- and Indigenous-led organizations to encourage the inclusion of Tribally operated treatment facilities in the group that is eligible to receive funding and that HSD engage with the same organizations to identify opportunities for future coordination related to SUD treatment as described here.

It would be the responsibility of the referring party to identify the facility or facilities that could immediately accommodate the referral, prioritizing for intake any facility preference that the individual has; contact the facility to alert intake staff of the referral, and arrange transport to that facility. The facility would then invoice HSD consistent with the established process. HSD would work with treatment facilities and other stakeholders to develop protocols for circumstances in which an individual referred for treatment could not be admitted for treatment.

HSD would also work with stakeholders, treatment facilities and other care providers, and other City

2024 COUNCIL BUDGET ACTION

departments including the City Attorney's Office to develop the framework for the administration of these funds and to establish safeguards that ensure their use as intended.

SUD treatment funded by this CBA would be provided by healthcare professionals and licensed social work and addiction counselors. It would include (1) a physical and psychological evaluation; (2) detoxification and stabilization supervised by a medical professional; (3) residential or intensive outpatient rehabilitation including behavioral therapy, counseling, and substance use monitoring; and (4) continuing care (i.e., peer support and regular check-ins with a counselor and/or case manager).

Each facility receiving City funding in a given quarter would submit a quarterly report that would include the number of individuals referred to that facility for SUD treatment under this CBA, by whom or which organization they were referred, how many individuals are currently enrolled for such treatment, and the number of individuals who have completed such treatment in the current calendar year.

An individual's referral for treatment at one of these facilities could be made by any one of the following, when it is the individual's choice to enter SUD treatment as described here:

- A City-contracted housing, homelessness, or diversion service provider outreach worker or case manager
- A member of the City's Unified Care Team
- A staff member of the King County Regional Homelessness Authority
- A first responder

This CBA does not impact the projected ongoing operating deficit in the GF beginning in the 2025-2026 biennium.

HSD-813S-A

Request that HSD provide reports related to funding for substance use disorder treatment

SPONSORS

Sara Nelson, Alex Pedersen, Dan Strauss

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Human Services Department (HSD) provide reports related to 2024 funding allocated in Council Budget Action (CBA) HSD-813-B-1. That CBA provides funding (\$300,000) to support the provision of comprehensive substance use disorder (SUD) treatment to individuals in Seattle who are experiencing homelessness or housing insecurity, at certified, State-licensed facilities. The CBA also describes a role for HSD in the administration of the funding.

HSD should submit a report containing the following information:

- The process by which HSD selected the group of regional treatment facilities that are eligible to receive the funding;
- A description of HSD's engagement with Tribal- and Indigenous-led organizations to encourage the inclusion of Tribally operated treatment facilities, in or adjacent to King County, in the group that is eligible to receive the funding; and a description of the outcomes of that engagement; and
- A description of HSD's engagement with Tribal- and Indigenous-led organizations to identify opportunities for future coordination regarding the provision of treatment as described in CBA HSD-813-B-1; and a description of the outcomes of that engagement.

The report should be submitted by July 1, 2024.

Additionally, this SLI requests that by August 1, 2024 (for the first two quarters of the year) and November 1, 2024 (for the third quarter of the year) HSD report on the balance of funding allocated in CBA HSD-813-B-1, the number of individuals who were referred to SUD treatment according to the CBA's rubric and definitions, and the number of individuals who have completed treatment to date.

All reports should be submitted to the Public Safety and Human Services Committee, or successor committee.

SDOT-006-C

Add \$250,000 GF to SDOT for Ballard Avenue Café Street and Ballard Brewery District Improvements, reduce \$100,000 GF contribution to the Emergency Fund, and impose a proviso

SPONSORS

Dan Strauss, Debora Juarez, Andrew Lewis

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(150,000)	
Other Funds	\$(100,000)	
Total Budget Balance Effect	\$(250,000)	

DESCRIPTION

This Council Budget Action (CBA) would add \$250,000 GF (one-time) to the Seattle Department of Transportation's (SDOT's) Urban Planning program for urban design and pedestrian improvements to Ballard Ave NW and the Ballard Brewery District. This work includes updating Streets Illustrated to add new street functions including "Café Streets" and "People Lanes" as well as design work to complete these types of streetscapes.

This CBA reduces \$100,000 GF (one-time) in Finance General for the transfer to the Emergency Fund. The 2024 Proposed Budget Adjustments increase the contribution to the Emergency Fund by \$8.5 million compared to the 2024 Endorsed Budget. This action will require increasing the contribution to the Emergency Fund in 2025 or 2026 by \$100,000.

This CBA utilizes \$150,000 GF underspend in the Mayor's Office, addressed through an amendment to the 2023 Year-End Supplemental Budget Legislation (CB 120705).

This CBA imposes the following proviso:
"Of the appropriations in the Seattle Department of Transportation's Mobility Operations Budget Summary Level (BO-TR-17003), \$250,000 is appropriated solely for urban design and pedestrian improvements to Ballard Ave and the Ballard Brewery District, and may be spent for no other purpose."

Total Budget Balance Effect	\$(150,000)	

DESCRIPTION

This Council Budget Action (CBA) would add \$150,000 GF (one-time) to the Seattle Department of Transportation's (SDOT's) Urban Planning program and directs \$100,000 within SDOT's existing program budget, for a total of \$250,000, for urban design and pedestrian improvements to Ballard Ave NW and the Ballard Brewery District. This work includes updating Streets Illustrated to add new street functions including "Café Streets" and "People Lanes" as well as design work to complete these types of streetscapes.

This CBA utilizes \$150,000 GF underspend in the Mayor's Office, addressed through an amendment to the 2023 Year-End Supplemental Budget Legislation (CB 120705).

This CBA imposes the following proviso:
"Of the appropriations in the Seattle Department of Transportation's Mobility Operations Budget Summary Level (BO-TR-17003), \$250,000 is appropriated solely for urban design and pedestrian improvements to Ballard Ave and the Ballard Brewery District, and may be spent for no other purpose."

SDOT-101-A

Add \$1.5 million GF and \$80,000 Real Estate Excise Tax to SDOT's Structures Major Maintenance CIP project; and add \$480,000 GF to SDOT for expansion of the School Zone Camera program; reduce contribution to the Seattle City Employees' Retirement System to the actuarial rate.

SPONSORS

Alex Pedersen, Lisa Herbold, Tammy Morales, Sara Nelson

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$26,786	
Other Funds	\$4,088,668	
Total Budget Balance Effect	\$4,115,454	

DESCRIPTION

This Council Budget Action (CBA) would add \$1.5 million GF (one-time) and \$80,000 Real Estate Excise Tax I/II to Seattle Department of Transportation's (SDOT's) Structures Major Maintenance Capital Improvement Program (CIP) project (MC-TR-C112); and would add \$480,000 GF (one-time) to SDOT for expansion of the School Zone Camera program.

The additional funding for the Structures Major Maintenance CIP project would support the recommendations of the September 2020 City Auditor report on SDOT's bridge maintenance program. The report identified an ongoing need for a minimum of \$34 million per year for bridge maintenance, based on an engineering assumption that SDOT's annual bridge maintenance spending should be one percent to three percent of the total replacement cost for SDOT-owned bridges that are over 60 years old. The intent of this CBA is to provide at least \$34 million for bridge maintenance programs in 2024.

The additional funding for the School Zone Camera program would support upfront costs for the deployment of additional school zone cameras. In the 2023 Adopted Budget, the Council directed the Executive to double the number of speed enforcement cameras deployed in school zones from 35 to 70, adding \$1.7 million for this purpose. The Executive declined to spend these appropriations in 2023 and did not include funding for this purpose in the 2024 Proposed Budget.

This CBA would reduce funding for the employer contribution to the Seattle City Employees Retirements System (SCERS) system to match the amounts consistent with the SCERS actuarial finding, resulting in a \$2.0 million GF decrease and a \$4 million decrease to other City funds. As described

Staff: Tom Mikesell

2024 COUNCIL BUDGET ACTION

below, this CBA programs the GF portion of this amount, and \$80,000 from Real Estate Excise Tax (REET) for other purposes.

The City's employee retirement system, of which most non-uniformed City employees are members, is a defined benefit pension program funded by a combination of salary-based employer (i.e., the City) and employee contributions, and investment earnings. At retirement, members are eligible to receive a recurring annual benefit roughly based on their years of service with the City, and a percentage applied to their highest earnings averaged over several years. SCERS staff, who manage the system, are advised by external consultants, including an investment advisor, that provides insight on investment portfolio management, and an actuary that uses employee demographic, economic and investment earnings assumptions approved by the SCERS Board to determine the annual City (employer) contribution rates that would be necessary to ensure retirement balances will be sufficient to make retiree benefit payments now and in the future.

The SCERS Board, which is chaired by the Chair of the Finance & Housing Committee, and includes the Human Resources Director, the City Finance Director, and a mix of retired and active retirement system members, relies on information provided by the contracted actuary to make an annual City employer contribution rate recommendation to the City Council, who ultimately approves the rate by way of adopting the City Budget and a separate resolution, submitted as budget legislation, which affirms the SCERS Board recommendation. The rate is multiplied by active City employee retirement system member salaries to determine the annual budget for total City employer retirement contributions.

Based on available data, at the June 8, 2023 meeting, the SCERS actuary reported that the City's 2024 retirement contribution rate could be reduced to 15.17 percent, while still providing sufficient funding to the retirement system and keeping the system on course to meet 100 percent funded status by 2042. Rather than use that rate, the SCERS Board voted to keep the rate at 15.82 percent, in line with the rate used to calculate the City's contribution funded in the 2023 Adopted Budget. In contrast, the 2024 Proposed Budget Adjustments are built using a City contribution rate of 16.22 percent. This higher rate is a City Budget Office estimate derived early in 2023, prior to when the actuarial results were known.

FG-903-A-1 would reduce the contributions across all affected City funds to the amounts that would be budgeted using the SCERS Board recommended rate of 15.82 percent. This CBA would further reduce the contributions across affected City funds to the amounts that would be budgeted using the SCERS actuary rate of 15.17 percent.

The impact of this CBA on the Structures Major Maintenance CIP Project is shown in Attachment A.

Structures Major Maintenance

Project No:	MC-TR-C112	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides for major maintenance and rehabilitation of the City's bridges and structural assets maintained by SDOT's Roadway Structures Division. Examples of improvements that could be funded by this project include: electrical and mechanical upgrades of moveable bridge operating and control systems, repair of concrete and steel structures, and site protection of bridge facilities.

SDOT- 202-A

Proviso \$150,000 in SDOT for construction of a sidewalk, using alternative construction methods, on the south side of N 87th St from 1st Ave NW to Palatine Ave N

SPONSORS

Dan Strauss, Alex Pedersen, Debora Juarez

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Total Budget Balance Effect	\$0	

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso directing \$150,000 of the appropriations in the Pedestrian Master Plan - New Sidewalks Capital Improvement Program (CIP) project for implementation of alternative sidewalk improvements on the south side of N 87th St from 1st Ave NW to Palatine Ave N.

This CBA imposes the following proviso:
"Of the appropriations in the Seattle Department of Transportation's 2024 budget for the Pedestrian Master Plan - New Sidewalks (MC-TR-C058) project in the 2024-2029 Capital Improvement Program, \$150,000 is appropriated solely for construction of a sidewalk, using alternative construction methods, on the south side of N 87th St from 1st Ave NW to Palatine Ave N, and may be spent for no other purpose."

2024 COUNCIL BUDGET ACTION

V2

SPD-002-A

Add \$4.5 million GF to SPD for a special event staffing premium and to implement an MOU with the Seattle Police Officers Guild and place a proviso

SPONSORS

Lisa Herbold, Debora Juarez, Andrew Lewis

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$(4,500,000)	
Total Budget Balance Effect	\$(4,500,000)	

DESCRIPTION

2024 COUNCIL BUDGET ACTION

This Council Budget Action (CBA) would add \$4.5 million GF in 2024 to the Seattle Police Department (SPD) for a special event staffing premium pursuant legislation that would authorize a Memorandum of Understanding (MOU) between the City and the Seattle Police Officer's Guild (SPOG) on special events, Park Rangers and the Community Assisted Response and Engagement (CARE) Department Dual Dispatch program. A copy of the legislation, the MOU and a Central Staff Memo on the MOU can be found in Attachment 1. Please see the Central Staff Memo for a detailed description and financial analysis of the MOU. The legislation will be on the Council's November 21, 2023, Introduction and Referral Calendar and a final vote is expected in December 2023. This CBA places a proviso on this funding contingent upon the adoption of the legislation.

The MOU would provide SPOG officers who work overtime event shifts with an extra \$225 premium for shifts that occur during the MOU period of Oct 1, 2023 -Jan 2, 2026. The estimated cost for the payment of special event premiums for Oct 1, 2023 -Dec 31, 2023, is \$894,000. The estimated cost each year in 2024 and 2025 is \$3.6 million. The total GF cost for the payment of special event premiums over the period of the MOU (October 1, 2023, through January 2, 2026) is estimated to be \$8,047,350.

The administrative set-up for payment of the special events premium will take through the end of 2023, so SPOG officers will receive payment for 2023 premiums in early 2024. Therefore, 2023 and 2024 funding to cover costs are appropriated in this CBA.

Summary of financial impacts:

Year Cost

2023 \$894,150 (Oct 1-Dec 31)

2024 \$3,576,600

2025 \$3,576,600

Total \$8,047,350

This Council Budget Action would impose the following proviso:

"Of the appropriations in the Seattle Police Department's 2024 budget for the Special Operations Budget Summary Level (SPD 00100-BO-SP-P3400), \$4,500,000 is appropriated solely for special event premiums after the adoption of an MOU between the City of Seattle and SPOG, and may be spent for no other purpose."

MEMORANDUM

To: Seattle City Council
From: Greg Doss, Analyst
Subject: TMP 10048: SPOG MOU on Events, Park Rangers and Dual Dispatch Pilot

In December 2023, the Council will discuss and possibly vote on TMP 10048, which would authorize the Mayor to implement a Memorandum of Understanding (MOU) between the City of Seattle (City) and the Seattle Police Officer’s Guild (SPOG). This memo provides a high-level summary of the MOU, including financial impacts, and identifies next steps. A copy of TMP 10048 can be found in Attachment 1. A copy of the SPOG MOU can be found in Attachment 2.

Summary

This bill would approve an MOU between the City and SPOG for approximately 800 sworn officers and sergeants in the Seattle Police Department (SPD). The MOU would cover the period of October 1, 2023, through January 2, 2026. Table 1 summarizes the key terms of the Memorandum.

Table 1: Key terms of the MOU

Issue	CBA
Dual Dispatch Pilot	Allows the City to conduct a Dual Dispatch Alternative 911 Response Pilot Project for Person Down and Wellness Check calls, beginning in the fall of 2023 and running through 2025, as set forth in the attached MOU. <ul style="list-style-type: none"> It will be the Officer’s responsibility to make the determination as to who will make the initial direct contact (recognizing that an objective of the pilot project is to allow an initial direct contact by the CARE Responder where it is safe and appropriate with the understanding that situations can be dynamic and unpredictable).
Park Rangers	Removes the geographical limitation confining park rangers to Downtown parks. Park rangers may operate in any City park, subject to current restrictions against being armed, having arrest authority and enforcement of the criminal code.
Special Events staffing	Allows the City additional flexibility to use limited commission and non-commission employees to fill special event assignments between January 2, 2024, and January 2, 2026. <ul style="list-style-type: none"> When building a special event staffing plan, SPD may expand its use of Parking Enforcement Officers by filling posts that might otherwise be filled with SPOG members, where legally allowable and within public safety constraints.

Special Events stipend	<p>All covered employees, who earn overtime (1.5x pay) for special events and in accordance with the MOU:</p> <ul style="list-style-type: none"> • October 1st - December 31st, 2023 – All SPOG members who worked special events on overtime will receive an additional stipend of \$225 for each event.¹ • 2024-2025 – Any SPOG member who volunteers for an event to be paid on overtime will receive an additional stipend of \$225 for each event.
-------------------------------	--

Financial Impacts

As shown in the table below, the cost for the payment of special event premiums each year is estimated to be \$3,576,600 (\$225 multiplied by 15,896, representing the average number of special event shifts hours worked on overtime by SPOG members annually). The total GF cost for the payment of special event premiums over the period of the MOU (October 1, 2023, through January 2, 2026) is estimated to be \$8,047,350. SPD is fully supported by the General Fund, so special event premium costs are General Fund costs.

Due to an increasing number of special events, Labor Relations based its cost estimates on current SPOG hours worked. Ideally, incremental / new hours may be assigned to civilians as the department grows its PEO force.

The administrative set-up for payment of the special events premium will take through the end of 2023, so officers will receive payment in early 2024. Therefore, 2023 and 2024 funding to cover costs must be appropriated to SPD in the 2024 Budget (\$4.5 million total).

Table 2: Summary of financial impacts:

Year	Cost
2023 (Oct 1-Dec 31)	\$894,150
2024	\$3,576,600
2025	\$3,576,600
Total	\$8,047,350

Background

The current Collective Bargaining Agreement (CBA) between the City of Seattle and the Seattle Police Officers’ Guild expired on December 31, 2020 (See [ORD 125693](#)). Until a new contract is adopted, the provisions of the expired contract will continue to govern the legal-labor relationship between City and SPOG.

¹ Officers who worked Tier 1-3 events.

In 2021, the City's Labor Relations Policy Committee began the development of contract parameters consistent with the processes established in the Seattle Municipal Code (SMC) [Section 4.04.120](#), and in accordance with the principles expressed in the Accountability Ordinance ([ORD 125315](#)) and City Council [Resolution 31930](#). The City and SPOG began bargaining a new contract in 2022 and continue to negotiate on a number of issues including wages and police accountability.

The Council's authorization of the MOU would allow the City and SPOG to continue to negotiate a multi-year contract while also addressing, outside of contract negotiations, the emergent issues identified in Table 1:

- **Special Events**: Reduced staffing levels in SPD have required the department to fill the majority of police positions at special events through required overtime. SPD staff have indicated that this trend has resulted in a strain on the sworn workforce, particularly newer officers who are often the first group drafted for mandatory special events work. Labor Relations, SPD Command Staff and SPOG believe that the addition of a \$225 fixed-rate premium for special events work would encourage a wider variety and greater number of officers to volunteer for special events shifts. Additionally, the enhanced flexibility to use civilians (limited or non-commissioned staff) would provide greater staffing resources for SPD to use when filling posts that do not require a sworn officer.
- **Park Rangers and Dual Dispatch**: The 2023-2024 Adopted Budget funds the Park Ranger program for an expansion to a total of 28 Rangers, some of whom would work in neighborhood parks, beyond the downtown core, to enhance safety and promote voluntary compliance of park rules. Similarly, the City's CARE Department would eminently begin a Dual Dispatch Pilot that would deploy six new civilian responders as part of specialized City services to help people in crisis. The MOU authorized by TMP 10048 would ensure that these new services are provided with the partnership and support of SPOG.

Implementation:

SPD Command staff issued on October 25, 2023, a SPD Directive consistent with secondary dispatch of the CARE team responders. The Directive requires officers to actively request CARE team members only after arriving and securing the site of a low-risk Person Down or Wellness Check call. The Executive has indicated that simultaneous dispatch of CARE team responders and SPD officers will begin immediately upon Council passage of TMP 10048. Additionally, that secondary dispatch will remain available so officers can summon CARE team responders as necessary, even when they have not been dispatched simultaneously with officers.

Race and Social Justice Implications:

Local governments across the United States have increasingly implemented Alternative Response programs because they promise to help curb racially disparate arrests, incarceration, and other harms that can result from police responses. Populations benefitting from these programs include those disproportionately impacted by state-based harms, particularly Black, Latinx, and Indigenous and other people of color and people with mental health and/or

substance use concerns and disabilities.² New city programs that supplant traditional police response or services with civilian staff, such as those authorized in the MOU, may have a positive impact on vulnerable communities as such services are designed to meet the behavioral and mental health needs of the population being served, and will require fewer touchpoints with sworn officers and therefore may reduce the potential for entry into the criminal legal system.

Next Steps

TMP 10048 will be on the Council's November 21, 2023, Introduction and Referral Calendar. A final vote is expected in December 2023. If TMP 10048 is approved by the Council, the Mayor would have authority to implement the MOU with SPOG.

The Council would also need to approve CBA SPD-001-A-1-2024 to add \$4.5 million GF in appropriation authority to SPD to cover the costs of implementation in 2024, which would include officer backpay for events worked in 2023.

ORDINANCE _____

COUNCIL BILL _____

..title

AN ORDINANCE relating to City employment; authorizing the execution of a Memorandum of Understanding between The City of Seattle and the Seattle Police Officers' Guild; establishing a premium pay for staffing special events and allowing additional flexibility in the City's use of non-commissioned employees to staff special events; commencing a Dual Dispatch Alternative Response Pilot Project; removing the geographical limitation of park rangers to Downtown parks; and ratifying and confirming certain prior acts.

..body

WHEREAS, The City of Seattle (the "City") permits many large festivals and events to take place throughout the year, requiring various levels of police presence to ensure public safety, crowd control, and traffic control; and

WHEREAS, reduced staffing levels in the Seattle Police Department have required the City to fill the majority of required police positions at special events through mandatory overtime; and

WHEREAS, some work at special events does not require the skills of commissioned officers and may be performed by non-commissioned employees; and

WHEREAS, the City and the Seattle Police Officers' Guild (the "Guild") have had in place since April 24, 2008, a Letter of Agreement limiting the geographical scope within which the City may use park rangers in Downtown parks; and

WHEREAS, the City and the Guild have worked collaboratively to establish an Alternative Response Program Pilot in the city of Seattle, allowing for Community Crisis Responders to respond to non-emergency situations; and

WHEREAS, the City and the Guild entered into negotiations, and came to a tentative agreement regarding staffing issues at special events, the City's Dual Dispatch Alternative Response

Pilot Project, and the use of park rangers in City parks, as memorialized in the attached Memorandum of Understanding; and

WHEREAS, the City Council will consider an amendment to the 2024 Budget, currently under review, to cover compensation items authorized in the attached Memorandum of Understanding; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. As requested by the Seattle Human Resources Director and recommended by the Mayor, the Mayor is authorized on behalf of the City to execute a Memorandum of Understanding with the Guild, substantially in the form attached to this ordinance as Attachment 1 and identified as “Memorandum of Understanding Between the City of Seattle and the Seattle Police Officers’ Guild.”

Section 2. Special Event Premium and Staffing Special Events. For Tier 1, Tier 2, and Tier 3 special events that occur between October 1, 2023, and January 1, 2024, all Guild bargaining unit members who work a special event will be paid a special event premium of \$225. The special event premium is a fixed-rate premium that will be paid in addition to any overtime rate otherwise applicable to the hours worked.

For special events that occur between January 2, 2024, and January 2, 2026, all Guild bargaining unit members who volunteer during the volunteer period and who are selected to work special events, as set forth in and in accordance with the attached Memorandum of Understanding, shall be paid a special event premium of \$225 for working a special event. The special event premium is a fixed-rate premium that will be paid in addition to the overtime rate otherwise applicable to the hours worked.

Special event assignments that occur between January 2, 2024, and January 2, 2026, may be filled by limited commissioned/non-commissioned personnel as set forth in the attached Memorandum of Understanding.

Section 3. Dual Dispatch Alternative Response Pilot Project. The City will conduct a Dual Dispatch Alternative Response Pilot Project, beginning in the fall of 2023 and running through 2025, as set forth in the attached Memorandum of Understanding. The goal of the pilot project is to evaluate ways to diversify the City's emergency response options in a collaborative approach with law enforcement. The Memorandum of Understanding sets forth the parameters upon which the City and the Guild have agreed, which will allow the City to conduct the pilot in a safe and effective manner.

Section 4. Park Rangers in City Parks. As set forth in the attached Memorandum of Understanding, the City and the Guild will modify their 2008 Letter of Agreement ("LOA") to remove the geographical limitation confining park rangers to Downtown parks. Park rangers may operate in any City park, subject to the other limitations remaining in the 2008 LOA.

Section 5. Any act consistent with the authority of this ordinance and prior to its effective date is ratified and confirmed.

Section 6. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this ____ day of _____, 2023.

Attachment 1 – Memorandum of Understanding Between the City of Seattle and the Seattle
Police Officers' Guild

MEMORANDUM OF UNDERSTANDING

**Between the City of Seattle
and**

**Attachment 2: MOU with the
Seattle Police Officer's Guild**

The Seattle Police Officer's Guild

The purpose of this Memorandum of Understanding between the City of Seattle (the "City") and the Seattle Police Officer's Guild (the "Guild") is to memorialize agreements reached between the parties to address staffing issues related to special events and the City's planned dual-dispatch pilot project.

RECITALS

1. Special event staffing: The City permits many large festivals and events to take place throughout the year that require some level of police presence to ensure public safety, control crowds and control traffic. Reduced staffing levels in the City's police department have required the City to fill the majority of required police positions at special events through required overtime. To reduce the need for mandatory overtime and to mitigate the additional workload associated with special events, the parties have agreed on a set of staffing procedures and a fixed-rate premium for work at all special events from October 1, 2023, through January 2, 2026. The details of the parties' agreements are set forth in this Memorandum.
2. Dual dispatch alternative response: The City will conduct a pilot project beginning in the fall of 2023 and running through 2025. The goal of the pilot project is to evaluate ways to diversify the City's emergency response options in a collaborative approach with law enforcement. This will allow a dual dispatch of sworn and non-sworn personnel to defined calls for service as set forth in the pilot project. During the pilot, the parties intend to gather data and experience about the safety and effectiveness of permitting unarmed, non-sworn personnel to respond to certain calls, including those that may involve a mental or behavioral health issue. This Memorandum describes the parameters upon which the parties have agreed that will allow the City to conduct the pilot in a safe and effective manner.
3. Park Rangers: The parties have had in place an agreement since April 24, 2008, that limits the geographic scope within which the City can use park rangers to downtown parks. Through this Memorandum, the parties have agreed to remove the downtown parks geographic limitation from the City's use of park rangers, leaving other existing limits on their use and authority in place.

AGREEMENT

Now, therefore, the parties agree as follows:

Special Event Staffing for October 1, 2023 – January 2, 2026

1. For Tier 1, Tier 2 and Tier 3 events that occur from October 1, 2023, through January 1, 2024, all SPOG bargaining unit members who work the special event will be paid a special event premium of \$225. The special event premium is a fixed-rate premium associated with the special event overtime that will be paid in addition to the overtime rate otherwise applicable to the hours worked.
2. For special events that occur between January 2, 2024, and January 2, 2026:
 - a. The determination of the staffing needed for each special event has been made by SPD through its Seattle Police Operations Center ("SPOC"). This consideration takes into account a variety of factors, including without limitation the size and location of the event, the extent to which the event is anticipated to require the skills of commissioned officers as opposed to other non-commissioned employees, any unique circumstances regarding the event that present unique safety issues for officers and/or the community, and the availability of commissioned officers. The parties also recognize i) the need to ensure sufficient staffing for other work that requires the expertise and training of commissioned officers; ii) the value of expanding the pool of officers willing to volunteer for special event work in order to minimize drafting; and iii) the value of creating an incentive for current officers to continue their work at the City.
 - b. SPD, acting through SPOC, will determine both the number of employees needed at the special event and the appropriate mix of commissioned and/or non-commissioned personnel to staff the event. Once a determination as to how many commissioned officers and sergeants are needed, the Department will request volunteers from the SPOG bargaining unit to fill that pre-determined number of commissioned positions needed for the event. While the ultimate staffing determination will be made by SPD, the parties will establish a quarterly meeting to discuss any problems or concerns related to special event staffing. Specific suggestions made by the Guild will be considered in good faith by the City.
 - c. Once the staffing plan for a special event is set, the Department will put out the volunteer opportunities to fully commissioned personnel as described below. All SPOG bargaining unit members who volunteer during the volunteer period and who are selected to work the special event will be paid a special event premium of \$225 for working the special event. The special

- event premium is a fixed-rate premium associated with the special event overtime that will be paid in addition to the overtime rate otherwise applicable to the hours worked.
- Events with more than 60 days' notice, the volunteer period will be open until at least 45 days before the event.
 - Events with between 60 and 45 days' notice, the volunteer period will be open for at least one week.
 - Events with less than 45 days' notice or if there are unanticipated changes to a pre-planned event that require significant additional staff, the Department will determine whether to have a volunteer period and the duration of the volunteer period; provided that the Department will not unreasonably refuse to permit a volunteer period to avoid the special event premium.
- d. If the fully-commissioned positions in the special event staffing plan are not filled by volunteers from the SPOG bargaining unit, each position may be filled by either limited-commission/non-commissioned personnel or, where necessary, the Department may draft uniformed police officers. The determination to use non-commissioned personnel or uniformed police officers for each of the remaining positions shall be made by the Seattle Police Department.
- e. For closed (not open to the public) corporate events or commercial/media/film events, SPOG members may volunteer for overtime at 1.5 times their regular hourly rate of pay. The timeline for volunteering for such events will be determined by SPD following consultation with SPOG. If there are insufficient volunteers, fully-commissioned personnel positions may be contracted out.

Alternate Response Pilot Project

1. The City's Dual Dispatch Alternate Response Pilot Project will involve up to 24 FTE, not including administrative personnel. Positions will be staffed with individuals trained to deal with mental and behavioral health or social welfare issues ("Community Crisis Responders" or "CCRs").
2. Dual dispatch can occur to two types of calls if the information received by the dispatcher indicates the call is nonviolent: 1) person down, and 2) welfare checks on adults where minors are not present and where the adult is not in the driver's seat of a vehicle. During the course of the pilot project, the parties may evaluate

additional call types that may be suitable for dual dispatch and may mutually agree in writing to expand the types of calls covered by this agreement.

3. Dual dispatch means that police and CCR will be dispatched at the same time.
 - a. If the police get there first, they assess the situation. They can take immediate action if they believe it is appropriate or wait for the CCR if reasonable to do so.
 - b. If the CCR gets there first, they wait until an officer has assessed the scene in a manner the officer deems appropriate. It will be the Officer's responsibility to make the determination as to who will make the initial direct contact (recognizing that an objective of the pilot project is to allow an initial direct contact by the CCR where it is safe and appropriate with the understanding that situations can be dynamic and unpredictable). A CCR does not approach unless cleared to do so by the Officer assessing the scene.
 - c. After the call is turned over, the Officer may remain at the scene or leave, at Officer's discretion. While there, the Officer will attempt to keep the scene safe but cannot guarantee the safety of the CCR.
 - d. The Officer holds the discretion to turn the call over to a CCR, and to reinsert into the call. The Officer is the ultimate authority on the call.
 - e. The Officer has the ability to advise the CCR to disregard if the officer's assessment is that the CCR is inappropriate for the call.
4. Dispatching a CCR will not impact the number of officers that are dispatched to the call.
5. The CCR will be responsible for writing a report that will be uploaded into the report writing system utilized by officers so that law enforcement is able to have the follow-up information.
6. SPOG will have at least one representative on the committee that is designing the Pilot Project to work through the operational details of the pilot.
7. Coordination with CCRs is governed by this agreement. Officers will remain obligated to follow the Department's current de-escalation policy (SDPM 8.100). References in that policy to team tactics and additional resources refer to coordination with and use of additional sworn personnel.

- 8. By entering into this Memorandum, neither party is waiving any claims or arguments regarding management rights or the bargaining obligations associated with future alternate response measures the City may seek to pursue.

Park Rangers

- 1. The parties will modify the 2008 Park Ranger LOA to remove the geographical limitation that confines park rangers to downtown parks. Park Rangers may operate in any City of Seattle parks, subject to the other limitations remaining in the LOA. The use of emphasis patrols at parks will continue at the Department’s discretion.

Signed the _____ Day of _____, 2023

2024 COUNCIL BUDGET ACTION

V2

SPD- 200-A

Proviso \$250,000 GF in SPD to reinstitute a contract with Truleo, or similar service provider

SPONSORS

Alex Pedersen, Lisa Herbold, Debora Juarez

BALANCING SUMMARY

Fund	2024 Increase (Decrease)	2025 Increase (Decrease)
General Fund	\$0	
Total Budget Balance Effect	\$0	

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on \$250,000 GF in the Seattle Police Department (SPD) for a contract with Truleo, or similar service provider, to allow systemic, department-wide analyses of body camera audio to improve officer health and community interactions. SPD is requested to initiate work on the contract immediately so that it can be executed in early 2024. SPD held and paid for a contract with Truleo through the 2022-2023 period but cancelled the contract in early 2023. This CBA would require that SPD reinstitute the contract with Truleo or a provider that can deliver similar services.

This Council Budget Action would impose the following proviso:

"Of the appropriations in the Seattle Police Department's 2024 budget for the Technical Services Budget Summary Level (SPD - BO-SP-P8000), \$250,000 is appropriated solely for a contract with Truleo, or a similar service provider, for analyses of officer body camera audio and may be spent for no other purpose."

SEATTLE CITY COUNCIL | POSITION 8

COUNCILMEMBER TERESA MOSQUEDA

From: Budget Chair Teresa Mosqueda
To: Select Budget Committee Members
Date: 11/13/2023
RE: Human Service Provider Pay Inflation Adjustments

Summary:

In July 2019, Seattle City Council passed Ordinance 125865, which required all contracts managed by the City's Human Services Department (HSD) to receive annual inflationary increases. At that time, HSD managed Continuum of Care (COC) contracts for homelessness services funded by the U.S. Department of Housing and Urban Development (HUD). HUD COC contracts were subject to this inflationary requirement when Ordinance 125865 was passed, and in subsequent years until these contracts were moved to the King County Regional Homelessness Authority (KCRHA).

In 2022, KCRHA began to directly administer HUD COC contracts previously managed by HSD. Because KCRHA received funding directly from HUD and not through HSD, these contracts were no longer included in the base of contracts subject to the inflationary requirements in Ordinance 125865. In 2023, Seattle City Council amended the budget to add one-time inflation adjustments to these contracts to maintain equity and support workers at these contracted agencies, and has proposed a similar investment in 2024, but these inflation adjustments are not guaranteed in future years. Note that although one-time funding has helped to sustain services in the short term, inflation is an ongoing need. Failing to address this will present compounding problems within the system as a whole.

While the Council's original intent was for these contracts to receive wage increases under the City's Ordinance, the transfer of COC contracts to KCRHA has resulted in these workers from being left out of wage increases in the City's base budget. Without a specific long-term plan to address wage increases for COC contracts, there will be funding inequities among agencies that provide essential services to Seattle residents solely based on which government agency holds their contract. Human services providers in Seattle and King County all face rising costs of doing business each year. Without inflation adjustments, agency contracts fall short of covering the cost of providing services. The result of failure to adjust fully or at all to cover inflation has had a cumulative effect in this sector, both in terms of workforce due to high vacancy and turnover rates for staff positions, inability to hire and retain a skilled, diverse workforce and operations and maintenance like aging facilities, soaring insurance rates, increases in utilities, food, transportation, and other programmatic necessities. In addition, homeless services and supportive housing providers serve populations who are disproportionately likely to live with disabilities, serious health problems and behavioral health disorders. They often operate 24/7 program models.

All providers in Seattle face rising costs each year, regardless of which government agency holds their contract. Without inflationary adjustments, providers may need to reduce or cut services, capacity, or continue a downward spiral of under-funded programs and staffing shortages.

KCRHA is not able to provide ongoing inflationary adjustments without additional funding from its funders (largely Seattle and King County). HUD does not typically provide inflationary adjustments,

SEATTLE CITY COUNCIL | POSITION 8

COUNCILMEMBER TERESA MOSQUEDA

creating significant unsustainability for these contracts. Proposed amendment HSD-001-A included in the Chair's Balancing Package states that Council's intention is that in 2024 the Office of Intergovernmental Affairs include inflationary adjustments and provider pay increases for CoC contracts in its federal policy agenda and pro-actively seek a congressional appropriation for these purposes. Without a specific plan working to ensure that contracts are adjusted to meet inflation there will be negative and compounding effects on the crisis response system, including further loss of capacity, reduced ability to provide specialized services for people with complex needs, reduced quality of services, and fewer reputable organizations willing to take on insufficient contracts.

Sincerely,

Teresa Mosqueda,

Seattle City Councilmember, Citywide-Position 8

Revenue Stabilization Work Group - Update

ALY PENNUCCI, DEPUTY DIRECTOR AND ERIC MCCONAGHY, ANALYST

SELECT BUDGET COMMITTEE

NOVEMBER 15, 2023

Statement of Legislative Intent (SLI) FG-002-B-001 (2022)

- Expressed the City Council's commitment to work with the Mayor to identify options for making Seattle's tax structure more equitable and generating new revenue for city priorities
- The SLI requested that this work include empaneling a task force of community experts to develop a report listing progressive revenue options

Revenue Stabilization Work Group (RSWG)

- Established in October 2022 in response to SLI FG-002-B-2022
- Included 13 members and two co-chairs who met nine times between October 2022 and August 2023.
- After considering a list of 63 different revenue ideas, the Workgroup created a short list of nine review options for further consideration by the Council and the Mayor:
 1. Changes to the JumpStart Payroll Expense Tax
 2. City-level Capital Gains Tax
 3. High CEO Pay Ratio Tax
 4. Vacancy Tax
 5. Progressive Real Estate Excise Tax
 6. Estate Tax
 7. Inheritance Tax
 8. Congestion Tax
 9. Income Tax

RSWG continued

- Final report was released in August 2023
- Finance and Housing Committee briefing on the final report August 10, 2023.
- At that meeting, Central Staff noted that:
 - Changes to the JumpStart tax and a City-level capital gains tax had legislation ready, making them best positioned to be considered on a shorter timeframe
 - A High CEO Pay Ratio tax may be the other option technically most ready to pursue
 - Chair Mosqueda requested Central Staff prepare for potential consideration of RSW Options 1-3, during the 2023 budget deliberations:
 1. Changes to the JumpStart Payroll Expense Tax
 2. City-level Capital Gains Tax
 3. High CEO Pay Ratio Tax

High CEO Pay Ratio

- Central Staff began analysis to understand options for a Seattle High CEO Pay Ratio Tax
- Areas of inquiry include:
 - Review of similar taxes enacted in other cities: Portland and San Francisco
 - Review data available to help implement and administer the tax
 - Consider options for how to structure a local tax:
 - Surtax on the JumpStart Payroll Expense Tax
 - New stand-alone tax structure with a unique nexus to business activity in Seattle
 - Adapt B&O tax, which requires processes unique to Washington State

Portland's Pay Ratio Surtax

- Applies to publicly traded companies subject to SEC CEO Pay Ratio disclosure
- *Surtax as a percentage of the business tax amount* in addition to Portland's business tax and other taxes
- Business tax rate is 2.6% of adjusted net income
- 10% of business tax amount for companies with CEO-to-median compensation pay ratio of at least 100:1 but less than 250:1
- 25% of business tax amount for companies with CEO-to-median compensation pay ratio of 250:1 or greater

San Francisco's Overpaid Executive Gross Receipts Tax

- Tax on gross receipts attributable to San Francisco (SF) that scales with Executive Pay Ratio in steps that is additional to SF's Gross Receipts Tax and other taxes
- "Executive Pay Ratio" is the ratio of the compensation paid to the Highest Paid Managerial Employee to the median employee compensation
- Highest Paid Managerial Employee is the individual with managerial responsibility in a business function, within or outside SF, who received the most compensation for a tax year
- For calculating the median compensation, an employee is "based in the City" if total working hours in SF exceed the total working hours in any other local jurisdiction
- Rates step with ratio increments of 100:1, example: "greater than 100:1 but less than 200:1"

Ratio	Rate
100:1 to 200:1	0.10%
200:1 to 300:1	0.20%
300:1 to 400:1	0.30%
400:1 to 500:1	0.40%
500:1 to 600:1	0.50%
Greater than 600:1	0.60%

Next Steps

- Continue exploring options to implement a Seattle High CEO Pay Ratio Tax
- Consider the Capital Gains proposal at the November 30 Select Budget Committee meeting (1st briefing up later today)
- Work with the next Council and the Mayor to consider other options identified by the RSWG

Questions?

Fiscal Transparency Legislation

ESTHER HANDY, DIRECTOR

SELECT BUDGET COMMITTEE

NOVEMBER 15, 2023

History

SLI: Leg-322-A-001 (2023)

- Expressed Council's intent to update Resolution 28885 related to the annual budget process through new legislation and request a Central Staff (CS) and Central Budget Office (CBO) workgroup prepare recommendations;
- Eight workgroup recommendations issued June 2023 to:
 - Increase transparency in City budgeting, reporting, and use of City resources;
 - Create sustainable budgets; and
 - Shift second-year budget process goals towards financial monitoring and planning.

Fiscal Note Project

- Best practice research by Central Staff Fiscal Policy Team

Fiscal Transparency Ordinance

Fiscal Transparency ORD

Slide (1 of 3)

Establishes a Fiscal Transparency Program (3.140.010)

- to increase and sustain transparency in City budgeting, reporting, and use of City resources, including historical trends, current performance, and future projections, and to foster sustainable budgets that maintain appropriate service levels and enable City departments, and the contracted partners that deliver City services, to focus on service performance.

Consolidates existing financial reporting information into one code section

- Reports on Past Activities
- Reports on Current Activities
- Reports on Future Fiscal Projections

Establishes requirements for Summary and Fiscal Notes

- Process updates:
 - fiscal notes must be prepared with transmitted bills,
 - updated and re-published prior to final City Council action (new)
 - Updated and republished after final City Council approval (new)
- Template developed and maintained by CBO &CS that must include:
 - Bill Summary
 - Fiscal impact estimates for current year and four future years
 - Meet current information requirements for capital projects and environmental impacts

Fiscal Transparency ORD

Slide (3 of 3)

Updates the duties of the City Budget Office in code

- Adds financial reporting as a responsibility

Updates the CBO Director's authority to transfer between Budget Control Levels mid-year

- Updates allowable transfer between BCLs to 10% of a receiving BCL or \$250,000
- Transfer may never result in a cumulative annual net transfer of more than \$500,000 of appropriation into the budget for any one BCL.

Budget Process Resolution

Budget Process RES

Slide (1 of 3)

Replaces and Supersedes RES 28885 (1994)

- Establishes the City's modified biennial budget process

Defines types of allowable mid-year budget changes, and their cadence

1. Annual Carryforward
 - By April 1 of each year; City departments and offices shall only request to carry forward unspent funds from the previous year's budget if those appropriations are necessary to carry out an essential project or program approved in the previous year's budget.
2. Mid-year and Year-End Supplementals
3. Supplemental Grant Appropriation Bills
 - The Executive may transmit up to three times each year: first quarter, mid-year and year-end supplemental grant bills

Budget Process RES

Slide (2 of 3)

Explores Practices for Planning Reserves

- To increase transparency and a shared ownership of reserve decisions between the Council and Executive, CBO and CS will explore, analyze and provide options to the Select Budget Committee by June 30, 2024, of an approach to brief the Select Labor Committee on labor reserves, prior to budget transmittal and creating an appropriated Risk Reserve for items with confidentiality considerations

Maintains Position List Requirements

- The City will adopt department-wide position lists in each year of the biennium

Defines a Current-Year Financial Reporting Program

- Acknowledges the progress of CBO and City Finance's financial monitoring pilot program
- States intent for CBO and the Office of City Finance to provide mid-year and year-end updates on the performance of all financials by department and budget control level, beginning third quarter 2025.
- Recognizes the pilot program reviews spending variances greater than five percent or \$100,000 and requires a report from CBO by second quarter 2025 proposing reporting thresholds for financial monitoring and timing of the reports submitted to the Council.

Questions?

CITY OF SEATTLE

RESOLUTION _____

..title

A RESOLUTION relating to the City’s annual budget process; updating modified biennial budgeting processes; establishing guidelines for mid-year budget changes; establishing data sharing and reporting requirements; and superseding Resolutions 28885 and 31954.

..body

WHEREAS, chapter 35.32A of the Revised Code of Washington (RCW) provides the framework for adoption of The City of Seattle’s annual budget, further guided by Resolution 28885, adopted in 1994; and

WHEREAS, Resolution 28885 established a modified biennial budget process beginning in 1995; and

WHEREAS, since 1995, every two years the Council and Mayor have adopted a budget for the following year and endorsed a budget for the year following; and

WHEREAS, appropriations have always been adopted on an annual basis under chapter 35.32A RCW; and

WHEREAS; the City process to develop and approve the annual budget in the second year of the modified biennial budget process are similar to the first year of the biennium; and

WHEREAS, in 2020, the City Council and Mayor adopted Resolution 31954, suspending the modified biennial budget process for the 2020-2021 biennium; and

WHEREAS, via Resolution 31954, the Council requested that the City Budget Office (CBO) and the Department of Finance and Administration Services (FAS), in consultation with Council Central Staff, evaluate and report on both the near- and long-term solutions that allow for sufficient and transparent budget planning; and

WHEREAS, the City’s supplemental and carryforward budget processes have broadly utilized RCW 35.32A.060, which allows appropriating funds mid-year to meet the needs of the

1 city “for which insufficient or no appropriations have been made due to causes which
2 could not reasonably have been foreseen at the time of the making of the budget”; and

3 WHEREAS, this broad application of the state budget act has resulted in increasingly time-
4 intensive supplemental and carryforward budget processes; and

5 WHEREAS, the City has limited resources for fiscal analysis, budget monitoring, and preparing
6 plans for how to optimally invest the City’s financial resources to address community
7 needs; and

8 WHEREAS, defined guidelines for mid-year budget changes, that encourage City departments to
9 adhere to their biennial appropriations when possible while also allowing the City to
10 adapt to emerging community needs and circumstances when needed can help the City
11 realize more sustainable service levels; and

12 WHEREAS, in 2023, the Council and the Executive, established new guidelines for the odd-year
13 mid-biennium budget development and review processes that aligns practice to the policy
14 outlined in Resolution 28885; and

15 WHEREAS, Statement of Legislative Intent (SLI) LEG-322-A-001-2023, requested
16 recommendations from a Council Central Staff (CS) and the City Budget Office (CBO)
17 workgroup related to the annual budget process and treatment of General Fund planning
18 reserves; and

19 WHEREAS, Seattle, like all public bodies, grapples with the issue of how to appropriately
20 reserve resources for current year and future needs when there are aspects of
21 confidentiality and/or lack of precise cost information at the time of budgeting and
22 Seattle’s current practice for addressing this issue is through planning reserves, for which
23 there are no formal policies in place; and

1 WHEREAS the response to SLI LEG-322-A-001-2023 includes eight joint recommendations
2 from CS and CBO intended to increase transparency in City budgeting, reporting, and use
3 of City resources; and

4 WHEREAS, adopting a new resolution to guide the City’s budget processes and policies related
5 to the planning reserves will memorialize those recommendations and the new budget
6 processes implemented in the 2023-2024 biennium; NOW, THEREFORE,

7 **BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE**
8 **MAYOR CONCURRING, THAT:**

9 Section 1. Citywide biennial budgeting. A biennium consists of an odd-numbered year
10 and the following even-numbered year (Year 1 and Year 2, respectively). Budget processes for
11 Year 1 and Year 2 occur in the fall preceding each of those years. In the fall preceding the
12 biennium, The City of Seattle will develop and deliberate on a biennial budget consisting of two
13 one-year budgets for all City departments. The City will pass an ordinance adopting balanced
14 appropriations for Year 1 consistent with chapter 35.32A RCW, and will adopt a resolution
15 endorsing appropriations for Year 2, with that is balanced over the two-year period. Starting with
16 the endorsed Year 2 budget, the City Council will consider and approve Year 2’s budget.
17 Expenditure authority will be appropriated at the budget control level.

18 A. For Year 1:

19 1. The Mayor proposes a two-year balanced budget, and then the Council reviews,
20 modifies, and considers adjustments through the Chair of the Select Budget Committee’s
21 balancing package and/or standalone amendments.

1 2. The Council adopts a budget for the first year of the biennium by ordinance and
2 endorses a budget for the second year in the biennium by resolution. The adopted and endorsed
3 budgets will serve as the basis for departments' spending in the biennium.

4 B. For Year 2, the Mayor proposes adjustments to the endorsed budget, and then the
5 Council reviews the adjustments, considers additional adjustments, and adopts a budget for Year
6 2. The adjustments in Year 2 should result in minimal changes.

7 1. Year 2 budget adjustments will address current conditions and updated
8 assumptions that were not foreseen in Year 1. This includes, but is not limited to, adjustments
9 that respond to:

- 10 a. Changes to the revenue forecast necessary to balance the budget;
- 11 b. Changes to assumptions about the cost to deliver City programs and
12 services;
- 13 c. Proposals to carry forward appropriations from Year 1 as necessary to
14 carry out an essential project or program that will not be fully expended in Year 1;
- 15 d. Emergent community needs prioritized by the Mayor and the Council;
- 16 e. A proclaimed civil emergency pursuant to Seattle Municipal Code
17 Chapter 10.02; or
- 18 f. New opportunities to partner with external organizations or other
19 governmental agencies to leverage City investments.

20 2. After transmittal of the Year 2 proposed budget by the Mayor, the Council
21 may request a Select Budget Committee briefing from the Executive on the status of certain
22 initiatives funded in Year 1, such as progress reports on implementation of programs and
23 services newly funded in Year 1.

1 Section 2. Supplemental budget changes

2 A. Definitions

3 1. “Supplemental budget bill” means a bill that proposes to amend the adopted
4 annual budget under the authority provided in chapter 35.32A RCW, such as annual
5 carryforward legislation, mid-year and year-end supplemental budget bills, grant appropriation
6 bills, and standalone budget bills.

7 2. “Standalone supplemental budget and grant bill” means a bill that proposes to
8 amend the annual budget related to a single discrete City program or department, or to
9 appropriate grant funds from a discrete source or a discrete program, or to appropriate multiple
10 grants for a single department.

11 3. “Comprehensive supplemental budget bill” means a bill that proposes to amend
12 the annual budget and that affects several City departments and funds in a single bill, and
13 typically comes to the Council in the following forms:

14 a. Annual carryforward: Requesting that a portion of select department’s
15 unspent prior year budget be reappropriated in the current year to continue or complete a discrete
16 program or project for which the funding was originally provided, but which could not be fully
17 completed in the year it was appropriated.

18 b. Mid-year and year-end supplemental: Making changes across multiple
19 departments to abrogate or decrease any unexpended allowance contained within the budget and
20 reappropriate such unexpended allowances for other functions or programs, and appropriate
21 funds generated through year-end fund reconciliation and revenue forecast updates.

1 c. First quarter, mid-year, and year-end grant acceptance: Authorize
2 spending of those grant funds. Grant appropriations are included within the bill that authorizes
3 the acceptance of grants across multiple departments.

4 B. Process

5 1. Standalone supplemental budget and grant bills. To the extent practicable,
6 standalone supplemental budget and grant bills shall only be requested if necessary to address an
7 emergency need or to comply with the terms of a grantor. The summary and fiscal note, as
8 defined in Seattle Municipal Code Chapter 3.140 shall describe why this proposal necessitates a
9 standalone bill and why the request cannot be considered as part of a mid-year or year-end
10 supplemental bill.

11 2. Comprehensive supplemental budget bills

12 a. Annual carryforward: The Executive may submit carryforward
13 legislation annually, if necessary, by April 1 of each year. City departments and offices shall
14 only request to carry forward unspent funds from the previous year's budget if those
15 appropriations are necessary to carry out an essential project or program approved in the
16 previous year's budget. The Summary and Fiscal Note shall provide a detailed description of the
17 carryforward request, including why the funds were not spent or encumbered in the year they
18 were budgeted.

19 b. Mid-year and year-end supplemental budget bills: The Executive may
20 transmit comprehensive supplemental budget bills up to two times each year: (1) a mid-year
21 supplemental budget bill transmitted to the Council by June 20; and (2) a year-end supplemental
22 budget bill transmitted to the Council by the last Tuesday in September. The Mayor and the
23 Council shall consider requests for amendments to the current year's adopted budget in the

1 supplemental budget process if the requested amendment meets certain criteria. The summary
2 and fiscal note shall describe how:

3 i. The request is necessary to meet the actual expenditures of the
4 city for which insufficient or no appropriations were made in the annual budget due to causes
5 which could not reasonably have been foreseen at the time of the making of the budget and
6 cannot await the next year's budget; and

7 ii. The request is immediately implementable and will endeavor to
8 be fully expended in the year, as practicable as possible, in which the funds are requested; or

9 iii. The request is necessary to reduce or otherwise modify
10 appropriations to address updates to the City's revenue forecast for any City fund; or

11 iv. The request is of a technical nature that does not impact the
12 delivery of City programs or services.

13 c. Supplemental grant appropriation bills: The Executive may transmit
14 comprehensive supplemental grant bills up to three times each year: (1) a first quarter
15 supplemental grant bill; (2) a mid-year supplemental grant bill; and (3) a year-end supplemental
16 grant bill. Supplemental grant appropriation bills will authorize the acceptance and spending of
17 grants not identified at the time the annual budget was adopted.

18 Section 3. Planning reserves. To increase transparency and a shared ownership of reserve
19 decisions between the Council and Executive, the City Budget Office and Central Staff will
20 explore and analyze the following strategies and provide options to the Select Budget Committee
21 by June 30, 2024 for consideration in Year 1 of the 2025-2026 Biennial Budget process to
22 develop:

1 A. An approach to brief the Select Labor Committee on labor reserves as they relate to
2 current negotiations, prior to budget transmittal.

3 B. An appropriated Risk Reserve for the operating budget as a combined reserve for
4 items with confidentiality considerations like labor reserves and reserves for the Judgment &
5 Claims Fund.

6 Section 4. Fees and rates. The City intends to adopt rates and fees only in Year 1. The
7 rate or fee structures may include changes to take effect in Year 2 of a biennium or beyond the
8 biennium. Other rate changes may be made if necessary in the case of emergencies or other
9 unanticipated events.

10 Section 5. Position lists. The City will adopt department-wide position lists. At the time
11 of adopting the Year 1 budget, the Mayor and Council will adopt the Year 1 position list and
12 endorse the Year 2 position list that will be reviewed, adjusted as necessary, and adopted in Year
13 2. The endorsed Year 2 position list will anticipate additions, abrogations, and reclassifications
14 resulting from reorganizations.

15 Section 6. Financial reporting. To increase monitoring of the City's financial position
16 during the year and to develop an additional a tool that informs budget development, the City
17 Budget Office in collaboration with the Office of City Finance will provide mid-year and year-
18 end updates on the performance of all financials by department and budget control level,
19 comparing budget versus actual and narrative descriptions on significant under/over spending
20 within departments beginning third quarter 2025. The Fiscal Transparency Program financial
21 monitoring pilot program will review spending variances greater than five percent or \$100,000.
22 As these reporting thresholds are refined and by second quarter of 2025, the City Budget Office

- 1 will report to the Finance Committee the proposed reporting thresholds for financial monitoring
- 2 and timing of the reports submitted to the Council.

DRAFT

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

..title

AN ORDINANCE relating to the establishment of a Fiscal Transparency Program; requiring periodic and consistent reporting and monitoring of City budgetary, financial, and fiscal policy information to the City Council and the public; adding a new Chapter 3.140 to, and amending Sections 3.14.100 and 5.08.020 of, the Seattle Municipal Code; and requesting that the Code Reviser recodify Chapter 5.08 of the Seattle Municipal Code in Subchapter I of Chapter 3.14.

..body

WHEREAS, a review of state fiscal note practices by the Center for Budget and Policy Priorities finds that preparing fiscal notes for all legislation, projecting long term fiscal impacts of proposed legislation, revising the estimates as needed, and posting fiscal notes online are best practices in the preparation and presentation of fiscal estimates for proposed legislation; and

WHEREAS, the Government Finance Officers Association recommends that “all governments establish a formal set of processes for comparing budget to actual results to monitor financial performance. Budget monitoring should include analysis of a diverse set of indicators to best inform the analysis and facilitate evaluation of a government's overall performance. Establishing and conducting regular budget monitoring provides organizations the opportunity to promptly adjust for any significant variances to ensure continuity of program/service delivery”; and

WHEREAS, the City has a fiscal note practice that describes current-year fiscal impacts that is periodically updated to incorporate new information such as about capital, climate, and race and social justice impacts, to meet the needs of the City and its policy makers; and

1 WHEREAS, the City Budget Office (CBO) launched a new fiscal monitoring program in 2023
2 that engages City departments, including staff from the Office of City Finance and CBO
3 in consistent analysis about budget-to-actual spending; and

4 WHEREAS, the City is projecting a structural General Fund (Fund 00100) deficit of more than
5 \$200 million per year starting in 2025, and regular fiscal monitoring, reporting, and
6 planning will provide an additional tool to assess the City's financial position, aid in
7 addressing projected deficits and make sustainable budget decisions; and

8 WHEREAS, Resolution 31954 requested that the City Budget Office (CBO) and the Department
9 of Finance and Administration Services (FAS), in consultation with Council Central Staff
10 (CS), evaluate and report on both the near- and long-term solutions that allow for
11 sufficient and transparent budget planning; and

12 WHEREAS, Statement of Legislative Intent (SLI) LEG-322-A-001-2023, requested
13 recommendations from a CS and CBO workgroup related to the annual budget process
14 and treatment of General Fund planning reserves; and

15 WHEREAS, the response to the SLI includes eight recommendations from CS and CBO
16 intended to increase transparency in City budgeting, reporting, and use of City resources;
17 NOW, THEREFORE,

18 **BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

19 Section 1. A new Chapter 3.140 is added to the Seattle Municipal Code as follows:

20 **Chapter 3.140 FISCAL TRANSPARENCY PROGRAM**

21 **3.140.010 Establishment and purpose**

22 There is established a Fiscal Transparency Program created by the City Budget Office of the
23 Executive Department. The City Budget Director shall develop and implement the Fiscal

1 Transparency Program, in consultation with the Central Staff Director. The purpose of the Fiscal
2 Transparency Program is to increase and sustain transparency in City budgeting, reporting, and
3 use of City resources, including historical trends, current performance, and future projections,
4 and to foster sustainable budgets that maintain appropriate service levels and enable City
5 departments, and the contracted partners that deliver City services, to focus on service
6 performance.

7 **3.140.020 Definitions**

8 “City Budget Office” means the division of the Executive Department created by Section
9 3.14.100.

10 “Council Central Staff” means the division of the Legislative Department that provides
11 independent and objective policy and fiscal analysis to the City Council and helps facilitate the
12 exchange of information between the City Council, the Executive, and the City Attorney’s
13 Office.

14 “Summary and fiscal note” means a written description of the purpose and potential
15 effects of proposed legislation, including an estimate of the potential expenditure, revenue, and
16 staffing impacts.

17 **3.140.030 Fiscal reporting requirements**

18 To provide for transparent monitoring of the annual budget throughout the year, the Executive
19 shall produce the regular reports listed in this Chapter 3.140 on past, current, and future fiscal
20 performance. Council Central Staff shall review the reports, and it may present analysis to the
21 Finance Committee at the discretion of the Central Staff Director in consultation with the Chair
22 of the Finance Committee.

23 **3.140.040 Reports on past activities**

1 A. Citywide financial condition reports, covering information on the City's financial
2 condition as of the end of the prior fiscal year and historical trends on City financial indicators,
3 to be provided by the Director of Finance beginning September 2022 and biennially thereafter, as
4 required by subsection 3.39.035.J.

5 B. Debt report covering the status of City debts, debt service, debt capacity, and debt
6 guarantees, to be provided by the Director of Finance not less than annually, as required by
7 subsection 3.39.035.H.

8 **3.140.050 Reports on current activities**

9 A. Revenues. Written reports on the performance of all forecasted revenues, to be
10 provided by the Director of the Office of Economic and Revenue Forecasts not less than
11 quarterly as required by subsection 3.44.030.J.

12 B. Cash balances and investments. Cash, investment and interfund loan reports covering
13 the cash position of each City Fund, performance of investments in the common investment
14 portfolio, and the status of all interfund loans authorized by ordinance, to be provided by the
15 Director of Finance not less than quarterly as required by Section 3.39.035.

16 **3.140.060 Reports on future fiscal projections**

17 A. Economic and revenue forecasts. As required by Section 3.44.040, the Director of the
18 Office of Economic and Revenue Forecasts shall provide unofficial economic forecasts both of
19 City revenues and for the Seattle region for the current fiscal year and the next five fiscal years.
20 Each forecast will include three scenarios and assign probabilities to their occurrence: baseline;
21 optimistic; and pessimistic. Forecasts shall be presented to the Economic and Revenue Forecast
22 Council.

1 B. General Fund financial plan. Following the presentation of each economic and revenue
2 forecast, and concurrent with the submittal of the Mayor’s proposed budget for the next year, a
3 financial plan for the City’s General Fund shall be provided to the City Council. Each plan shall:

4 1. Provide estimates of actual revenue and expenditures for the prior year and,
5 revised, and projected revenue and expenditures estimates and expenditures for the prior year,
6 for the current year (including adopted budget and revised estimates), and three future years.

7 2. Be informed by best available data about revenues and spending and include a
8 publicly available table that defines discussion of the assumptions used to make projections.

9 3. Reflect current law or proposed changes in law transmitted with the budget.

10 **3.140.070 Summary and fiscal notes**

11 A. Process. All Council Bills and resolutions shall include a summary and fiscal note.
12 The initial note shall be prepared by the department or office initially proposing the legislation.
13 Updates shall be prepared by Council Central Staff as necessary to reflect the impacts of
14 amendments adopted during the City Council’s deliberations. Summary and fiscal notes will be:

15 1. Published concurrent with the introduction and referral date of the proposed
16 legislation;

17 2. Updated and republished prior to final City Council deliberation on the
18 legislation, as necessary to reflect the impacts of adopted amendments.

19 3. Updated and republished after final City Council approval, if additional
20 amendments are adopted at the time the City Council takes final action on legislation, as
21 necessary to reflect the final Council approved version of legislation.

1 B. Form. A template for summary and fiscal notes will be jointly developed and reviewed
2 biennially or as needed by the Central Staff Director and the City Budget Director, and shall
3 include at a minimum:

4 1. A descriptive summary of the background, effect, and purpose of the proposed
5 legislation;

6 2. Estimates of the current year and four future years of the potential revenue,
7 expenditure, and staffing impacts by City fund of the proposed legislation. Where necessary,
8 impacts to non-General Fund resources may be aggregated into a combined “Other Funds”
9 category.

10 3. Questions and other related content necessary to gather information about
11 capital projects requested in Resolution 31203.

12 4. Questions and other related content necessary to gather information about
13 climate and environmental impacts requested in Resolution 31933.

14 5. Questions and other related content necessary to gather information, studies,
15 and supporting details to fully describe the legislation and its impacts.

16 Section 2. Section 3.14.100 of the Seattle Municipal Code, enacted by Ordinance 123361,
17 is amended as follows:

18 **3.14.100 City Budget Office created—Functions, powers, and authority((=))**

19 There is established a City Budget Office in the Executive Department to direct City budgeting
20 functions and oversee its fiscal policy and financial planning activities unless law or ordinance
21 vests such power elsewhere.

22 The head of the City Budget Office shall be the City Budget Director. The City Budget Director's
23 functions and powers include the following:

1 A. Subject to the City's personnel ordinances and rules, appoint, assign, supervise, and
2 control all officers and employees in the Office;

3 B. Manage the preparation of the proposed budget for the Office, authorize appropriate
4 expenditures, monitor, and carry out the adopted budget, develop and manage programs, and
5 undertake authorized activities;

6 C. Be the Budget Director (~~(as)~~) referenced in (~~(Chapter)~~) chapter 35.32A RCW and
7 prepare the Mayor's proposed budgets for submission to the City Council, giving guidance as
8 appropriate to other City departments, offices, boards, and commissions in the preparation of
9 their proposed budgets;

10 D. Provide strategic financial analysis, including analysis that relates to the use of
11 revenues, debt, long term financial planning, and special trends and events;

12 E. Be the Mayor's agent with regard to the acceptance of Council Bills that have been
13 passed by the City Council and are presented for mayoral action;

14 F. Provide technical assistance, training, and support to City departments in performing
15 financial functions;~~(and)~~

16 G. Perform such other activities as may be assigned by ordinance from time to time~~(-)~~;
17 and

18 H. Provide written expenditure performance reports as required by Resolution XXXX.

19 Section 3. Section 5.08.020 of the Seattle Municipal Code, last amended by Ordinance
20 124921, is amended as follows:

21 **5.08.020 Transfer between budget control levels**

22 A. The City Budget Director may approve only transfers of appropriations that meet all
23 of the following criteria:

1 Section 5. Section 1 of this ordinance shall take effect on January 1, 2024.

2 Section 6. This ordinance shall take effect and be in force 30 days after its approval by
3 the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it
4 shall take effect as provided by Seattle Municipal Code Section 1.04.020.

5 Passed by the City Council the _____ day of _____, 2023,
6 and signed by me in open session in authentication of its passage this _____ day of
7 _____, 2023.

Provider Pay Legislation

JENNIFER LABRECQUE, ANALYST

SELECT BUDGET COMMITTEE

NOVEMBER 15, 2023

2024 Proposed Provider Pay Actions

- **2024 Proposed Budget Adjustments:**
 - \$4.3 million for a two percent increase to human services contracts for purposes of provider pay
- **Council Budget Actions**
 - HSD-809-A: Adds \$324,000 for additional costs related to inflation-adjusted human services provider pay and imposes three provisos
 - HSD-001-A: Adds \$360,000 GF to HSD for a two percent provider pay increase for Continuum of Care (CoC) contracts and imposes a proviso
 - HSD-002-A: Adds \$501,000 for 2024 homelessness service contracts funded through 2023 underspend, with \$112,000 of that for a two percent provider pay increase, and imposes a proviso

Total proposed amount for provider pay in 2024 Budget = \$5.1 million

Provider Pay Legislation

- Requires that any human services contracts that includes appropriated money expressly reserved for the purpose of human services provider pay be used only for wage increases for human services workers
- Requires that wage increases are in addition to any inflationary adjustments
- Establishes contracting and reporting requirements regarding use of such appropriated money
- Adds a new Chapter 20.61 and Section 20.61.010 to the Seattle Municipal Code (SMC)

Provider Pay Legislation – Reporting Requirements

Request an annual report by June 30 from HSD regarding the prior year's contracts that were subject to the legislation. The report must include:

- List of all organizations who accepted funding for human services provider pay and the amount contracted for that purpose
- List of organizations that declined the funding and why
- A narrative on how the funding was used by providers, including which positions had wage increases due in part or whole to the funding
- Description of other fund sources contributing to provider pay increases
- Description of any inflationary adjustment provided to staff, including, if applicable, the extent to which the inflationary adjustments provided under SMC 3.20.060 was used to pay for staff inflationary adjustments

Provisos

- HSD-809-A, HSD-001-A and HSD-002-A impose provisos restricting \$5.1 million in HSD's 2024 budget solely for provider pay increases in addition to inflationary adjustments
- The provisos are necessary to activate the provider pay legislation
- If there is funding for human services provider pay in future years' budgets, whether added by the Executive or Council, a proviso is necessary to activate the requirements found in this legislation

Statement of Legislative Intent

HSD-12S-A requests that HSD submit a report with:

- The process for implementing the requirements of the provider pay legislation in contract negotiations, monitoring and reporting
- The process for integrating wage equity into competitive applications for funding
- Recommendations on other strategies to evaluate provider pay funding that creates minimal administrative burden
- Recommendations for other departments on implementing the legislation and integrating wage equity into competitive application processes

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

..title

AN ORDINANCE relating to human services contracts that include appropriated money expressly reserved for increases to human services contracts for the purpose of human services provider pay; requiring that such appropriated money be used only for wage increases for human services providers that are in addition to inflationary adjustments; establishing contracting and reporting requirements regarding use of such appropriated money; and adding a new Chapter 20.61 and Section 20.61.010 to the Seattle Municipal Code.

..body

WHEREAS, in 2019, the City enacted Ordinance 125865 establishing Seattle Municipal Code Section 3.20.060 to require annual inflationary adjustments for Human Services Department (HSD)-administered human services contracts to reflect actual operating costs (including wages), unless explicitly prohibited by or otherwise incompatible with requirements of the funding source, because the City found that human services agencies have challenges maintaining services due to vacancies, turnover rates, low wages, and increasing costs; and

WHEREAS, the University of Washington published the Wage Equity Study in February 2023; and

WHEREAS, the Wage Equity Study found that holding constant worker characteristics such as education level or age, median annual pay for human services workers in the non-profit sector is 37 percent lower than in non-care industries; and closing a 37 percent wage equity gap would require a 59 percent increase in wages; and

WHEREAS, the Wage Equity Study found that workers who leave the human services industry for a job in a different industry see a net pay increase of seven percent a year later

1 (relative to workers who stay in human services) after accounting for observable worker
2 and employer characteristics; and

3 WHEREAS, the Wage Equity Study included a job evaluation that demonstrated that the gaps
4 revealed in the market analysis between human services workers and workers in other
5 industries do not reflect lower pay because human services work is easier, less skilled, or
6 less demanding than other jobs; and

7 WHEREAS, the Wage Equity Study found that just under half (48 percent) of human services
8 workers in King County were employed in the non-profit sector and much of this work is
9 performed under contracts with local, county, and state governments to deliver services to
10 residents; and

11 WHEREAS, the Wage Equity Study recommended that by 2025 non-profit human services
12 organizations and their governmental and non-governmental funders should increase
13 human services workers' wages by at least seven percent beginning in the next one to two
14 years, in addition to any inflationary adjustment, as this amount represents a starting
15 point for the minimum increase needed immediately to reduce the number of workers
16 leaving human services posts for significantly higher-paying jobs in other industries; and

17 WHEREAS, the Wage Equity Study also recommended that non-profit human services
18 organizations and their governmental and non-governmental funders should make
19 adjustments for inflation separate from wage equity adjustments; and

20 WHEREAS, City Council passed Resolution 32094 in 2023, stating City Council's intent to
21 consider increasing HSD administered contracts by 7 percent by 2025, in addition to
22 inflationary adjustments, for purposes of advancing wage equity in collaboration with
23 other funders; and

1 WHEREAS, Resolution 32094 also acknowledged that other City departments may administer
2 human services contracts and requests those departments to consider wage equity
3 increases and inflationary adjustments when renewing or renegotiating human services
4 contracts, as well as requested a report from the Executive by April 1, 2024 on the total
5 number and amount of human services contracts administered by other departments
6 outside of HSD; and

7 WHEREAS, the 2024 Proposed Budget Adjustments contained an appropriation for a two
8 percent increase for human services provider pay to all HSD-administered contracts
9 receiving a required inflationary adjustment under Seattle Municipal Code Section
10 3.20.060, one contract administered by the Department of Neighborhoods, and eight
11 contracts administered by the Department of Education and Early Learning;

12 NOW, THEREFORE,

13 **BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

14 Section 1. A new Chapter 20.61, consisting of Section 20.61.010, is added to the Seattle
15 Municipal Code as follows:

16 **Chapter 20.61 CONTRACTING BUDGETS**

17 **20.61.010 Provider pay funds for human services contracts**

18 For human services contracts that include appropriated money expressly reserved for increases to
19 human services contracts for the purpose of human services provider pay, such appropriated
20 money:

- 21 A. Shall only be used to increase the wages of human services workers, including the
22 workers hired by both prime contractors and subcontractors; and
23 B. Must be in addition to any inflationary adjustments.

1 Section 2. The Human Services Department shall provide a report to City Council
2 annually by June 30, covering the prior year's contracts that were subject to Seattle Municipal
3 Code Section 20.61.010, including those administered by other departments. The report shall
4 provide information on:

5 A. A list of all organizations whose contracts include appropriated money expressly
6 reserved for human services provider pay, including the prime contracts and their sub-contracted
7 organizations;

8 B. The amount of such appropriated money included in each of the organizations'
9 contracts;

10 C. A list of any organizations that declined such appropriated money and the reason why
11 it was declined;

12 D. A narrative on how such appropriated money was used by providers, including which
13 positions had wage increases due in part or in whole to the appropriated money;

14 E. A description of other funding sources that contributed to human services provider pay
15 increases at contracting organizations during the same time period; and

16 F. A description of inflationary adjustments provided to staff, including the amount of the
17 inflationary adjustment and, if applicable, the extent to which inflationary adjustments provided
18 under Seattle Municipal Code Section 3.20.060 was used to pay for staff inflationary
19 adjustments.

1 Section 3. This ordinance shall take effect and be in force 30 days after its approval by
2 the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it
3 shall take effect as provided by Seattle Municipal Code Section 1.04.020.

4 Passed by the City Council the _____ day of _____, 2023,
5 and signed by me in open session in authentication of its passage this _____ day of
6 _____, 2023.

7 _____
8 President _____ of the City Council

9 Approved / returned unsigned / vetoed this _____ day of _____, 2023.

10 _____
11 Bruce A. Harrell, Mayor

12 Filed by me this _____ day of _____, 2023.

CB 120602: Water Utility Tax Repeal

BRIAN GOODNIGHT, POLICY ANALYST

SELECT BUDGET COMMITTEE

NOVEMBER 15, 2023

Presentation Overview

- City Utility Taxes
- Water Rate Structure
- CB 120602
- Proposed Amendment

City Utility Taxes

Slide (1/4)

- City's authority to impose utility business and occupation taxes derives from the general authority to impose taxes on businesses operating within the city's boundaries
- City imposes utility taxes on the provision of: telecommunications, natural gas, steam, electricity, water, drainage, wastewater, and solid waste
- Public and private service providers are subject to the taxes – taxes are applied upon the utility business itself, not upon the individual utility customers

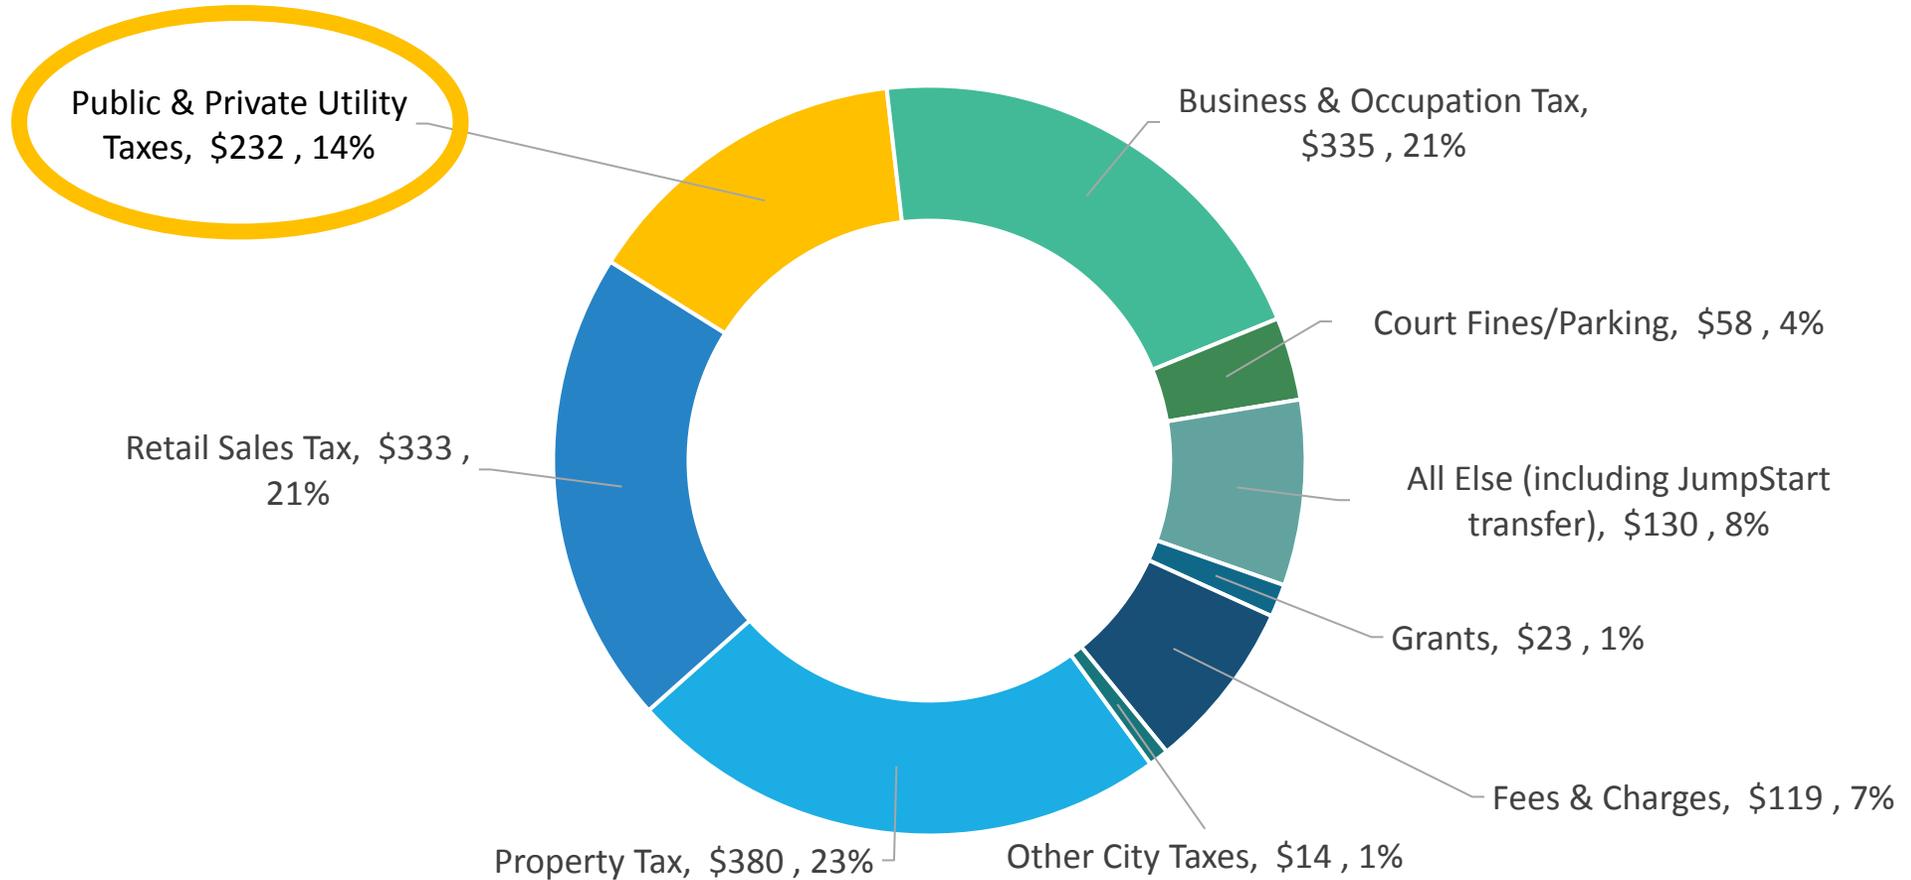

City Utility Taxes

Slide (2/4)

- The taxes are levied on most revenue from retail sales collected by the utilities
 - Wholesale revenues are not subject to the utility tax
- Taxes on the electricity and water utilities apply to business performed both inside and outside of the city
- For example:
 - Seattle Public Utilities (SPU) provides retail water service to certain customers in Burien
 - The revenue SPU generates by providing this service is taxed at the same rate as revenue generated from retail customers within the City of Seattle

City Utility Taxes

2023 Adopted General Fund Revenues by Source (\$ in millions)

Source: 2023 Adopted and 2024 Endorsed Budget Book, Page 52

City Utility Taxes

Slide (4/4)

Seattle City Light

- Electricity: 6.00% *(last adjusted in 1990)*

Seattle Public Utilities

- Drainage: 11.50% *(last adjusted in 2005)*
- Wastewater: 12.00% *(last adjusted in 2005)*
- Water: 15.54% *(last adjusted in 2011)*
- Solid Waste: 14.20% *(last adjusted in 2017)*

Water Rate Structure

Slide (1/4)

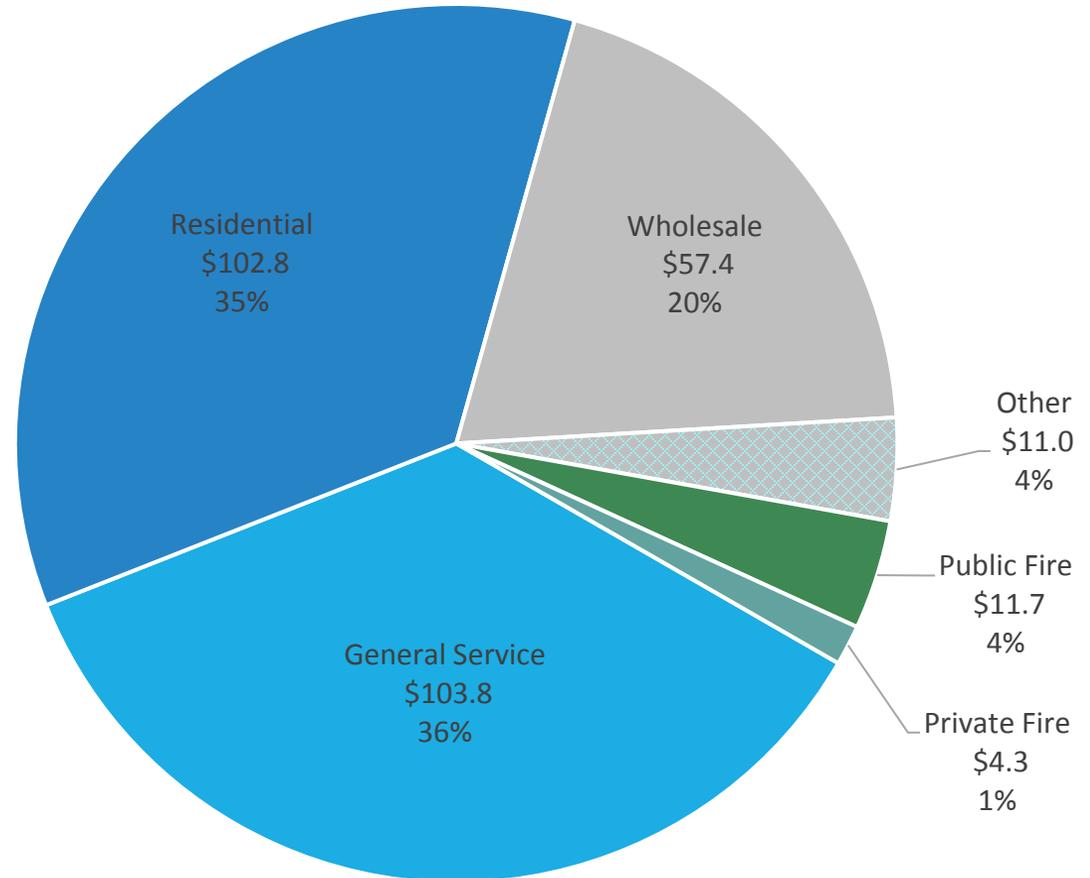

- SPU's first step in the rate setting process is to determine the revenue requirement for the water system
- Revenue requirement is the amount of operating revenue necessary to fund the water system's operating budget and meet its financial targets
- In the simplest terms, when expenses increase, the revenue requirement increases
- Taxes are an operating expense for the water system – including the City's utility tax

Water Rate Structure

SPU derives revenue to support the water system from:

- Retail water rates
 1. Residential
 2. General Service
 3. Private Fire
 4. Public Fire
- Wholesale contracts (with nearby cities and water districts)
- Other miscellaneous non-rate revenue

2022 Operating Revenue (\$ in millions)

Source: Seattle Public Utilities

Water Rate Structure

Slide (3/4)

Retail: SPU uses a complex cost allocation process to distribute costs amongst different customer classes, which are groups of similar customers in terms of demand patterns and cost to provide services. There are 4 retail customer classes:

1. Residential

- Single-family homes and duplexes
- 173,000 accounts (88%)
- 38% of annual retail water usage

2. General Service

- Governmental, industrial, and commercial (includes multi-family residential structures)
- 22,500 accounts (11%)
- 61% of annual retail water usage

Water Rate Structure

Slide (4/4)

3. Private Fire

- Separately-metered connections for fire-protection sprinkler systems

4. Public Fire

- Governmental agencies responsible for providing public fire protection, such as fire hydrants

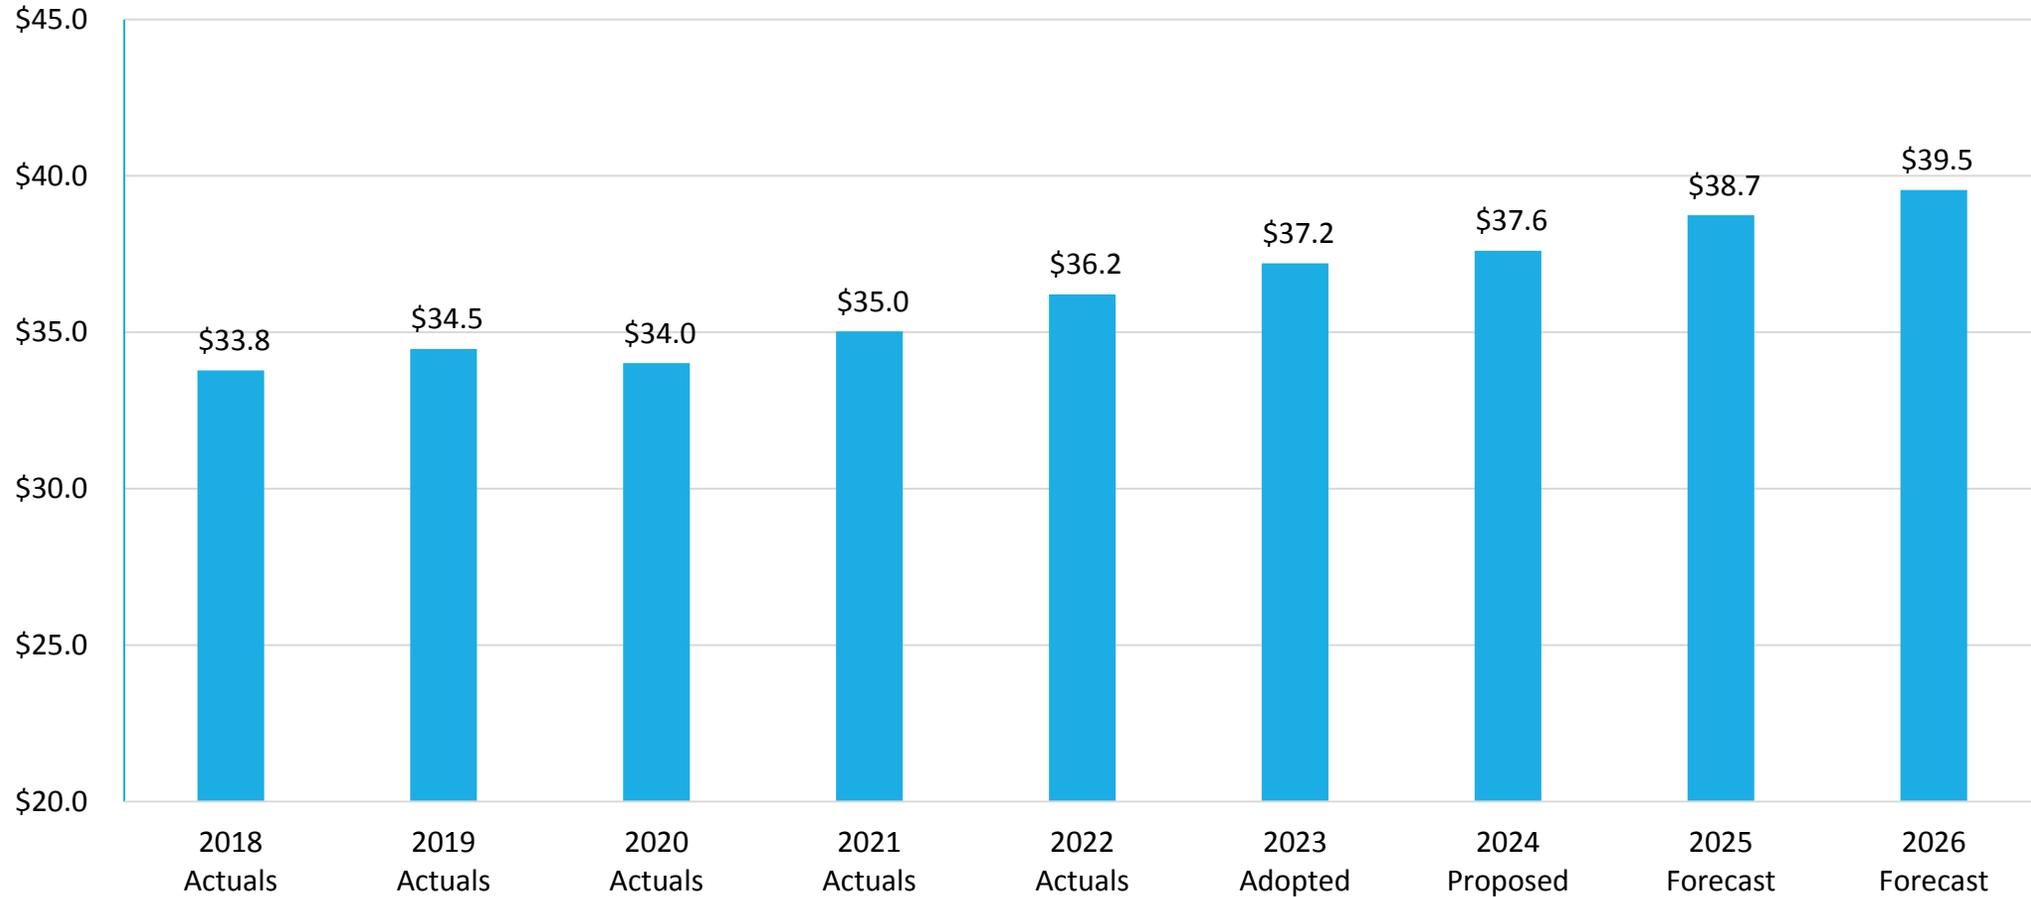

Combined, the Private Fire and Public Fire customer classes make up less than 1% of retail water accounts.

CB 120602

Slide (1/4)

- Amends Section 5.48.050 of Seattle Municipal Code to eliminate the tax on the business of selling or furnishing water
- The repeal would be effective beginning on January 1, 2025

General Fund Revenues from Water Utility Tax (\$ in millions)

- Potential impact of the repeal on different customer classes

	Customer Type	2023 Bill (per month)	Water Tax (per month)	Repeal Savings (annual)
Residential	Median	\$49	\$8	\$91
General Service	Convenience Store	\$114	\$18	\$213
	Small Office Building	\$362	\$56	\$675
	Apartment (90 units)	\$1,368	\$213	\$2,551
	Medium Hotel	\$8,504	\$1,322	\$15,858
	Large Industrial	\$20,538	\$3,192	\$38,299

Source: Seattle Public Utilities

CB 120602

Slide (4/4)

- In September, Council passed Ordinance 126909 establishing retail water rates for 2024 through 2026
- Passage of CB 120602 would reduce SPU's water system operating expenses, thereby reducing the revenue requirement
- For customers to receive a financial benefit of the elimination of the tax, Council would need to adjust the retail water rates for 2025 and 2026
- Councilmember Pedersen has proposed an amendment that would request that SPU transmit legislation proposing revised retail water rates for 2025 and 2026 in recognition of the elimination of the tax

CB 120601 – Capital Gains Excise Tax

TOM MIKESELL, ANALYST

SELECT BUDGET COMMITTEE

NOVEMBER 27, 2023

Background

State capital gains excise tax :

- [Chapter 196, Laws of 2021](#) effective July 25, 2021
- 7 percent tax on the gains from sales of long-term assets above a \$250,000 standard deduction
- Tax proceeds deposited into Education Legacy trust Account and Common School Construction Account
- State Supreme Court upheld the tax in *Quinn v. State of Washington*
- State collected \$840 million in first of the tax.

CB 120601 – Capital Gains Excise Tax

- Same structure as the state tax, with different rate
- Two percent excise tax on gains from the sale of non-exempt capital assets
- Deductions include:
 - \$250,000 standard deduction for single and joint filers
 - Any amounts prohibited from taxation under the state or federal constitution
 - Gains from the sale of a qualified family-owned small business
 - Up to \$100,000 of charitable donations above a \$250,000 minimum qualifying charitable deduction
 - Values of deductions inflated by CPI each year

CB 120601 – Capital Gains Excise Tax

- Gains from transactions involving the following capital assets are exempt:
 - Real estate
 - Retirement accounts
 - Condemnations
 - Livestock, commercial fishing, timber
 - Goodwill from auto dealership
- Administrative cost to be determined through future budget request
 - Recent new taxes ranged from \$600,000 to
- Effective January 1, 2024, with first collections April 2025.

Example

Taxpayer 1: Sold \$1 million of stock in 2024 with original cost basis of \$700,000, for a total net capital gain of \$300,000.

Value of stock sold:	\$1,000,000
<u>Cost basis of stock sold:</u>	<u>\$700,000</u>
Net Capital Gain (2024):	\$300,000
<u>Less: Standard Deduction</u>	<u>(\$250,000)</u>
Taxable Capital Gain	\$50,000
Tax due April 2023@2% rate	\$1,000

Revenue Estimate

Office of Economic and Revenue Forecasts estimated revenues using state collections and forecast data:

- Of the total \$804 million received by the state in 2023, 15.84 percent was filed from Seattle addresses
- 15.84 percent, applied to the State Department of Revenue's forecast for the state capital gains tax, equates to \$19 million of revenue from each 1 percent of tax

Caveats and Risks

- Tax is paid by a very small number of taxpayers
 - State tax: 816 taxpayers had a Seattle address
 - 85 percent of the Seattle total was paid by 163 taxpayers
- Tax base largely consists of sales of equities, which are subject to stock market volatility
- Tax is based on where taxpayer is domiciled, making it avoidable by residents with multiple Washington addresses
- Forecast Office indicates an unusually high degree of uncertainty in the estimate
- Annual revenue from the tax could fluctuate widely above and below the estimates

Budget Considerations

- Assuming a January 1, 2024, effective date, first collections of tax would be April 2025
- 2025 Adopted/2026 Endorsed budget decisions will be finalized in fall 2024, with no additional clarity on revenue estimate
- Budget decisions that rely on this revenue source will be made in the context of this high level of uncertainty

Proposed Amendment

Amendment 1 sponsored by Councilmember Herbold:

- Increase tax rate from 2 percent to 3 percent, to generate revenue to offset portion of General Fund deficit in 2025 and beyond.
