Briefing and Discussion

Presenters: Esther Handy, Director, and Aly Pennucci, Deputy Director, Council Central Staff

D. Approval of Consent Calendar

The Consent Calendar consists of routine budget legislation without proposed amendments. A Councilmember may request that an item be removed from the Consent Calendar and placed on the regular agenda for individual consideration.

1. [CB 120700](#) **AN ORDINANCE relating to acceptance of funding from non-City sources; authorizing the heads of various departments to accept and authorize the expenditure of specified grants, private funding, and subsidized loans and to execute, deliver, and perform corresponding agreements; amending Ordinance 126725, which adopted the 2023 Budget, including the 2023-2028 Capital Improvement Program (CIP); changing appropriations to various departments and budget control levels, and from various funds in the Budget; revising project allocations for certain projects in the 2023-2028 CIP; and ratifying and confirming certain prior acts.**

Supporting Documents:

[Summary and Fiscal Note](#)
[Summary Att A – 2023 Year End Grant Acceptance Detail Table](#)

2. [CB 120688](#) **AN ORDINANCE** relating to City finances; creating a fund for depositing settlement proceeds related to opioid manufacturing, distribution, and dispensing; creating a Budget Summary Level; and ratifying and confirming certain prior acts.
- Supporting Documents:* [Summary and Fiscal Note](#)
[Summary Att 1 - One Washington Memorandum of Understanding between Washington Municipalities](#)
[Summary Att 2 - Executive Order 2023-04 \(Opioid Crisis\)](#)
3. [CF 314527](#) **2023 - 2024 Proposed Mid-Biennial Budget Adjustments.**
- Attachments:* [2023-2024 Proposed Mid-Biennial Budget Adjustments](#)
4. [CF 314528](#) **2024 - 2029 Proposed Capital Improvement Program.**
- Attachments:* [2024-2029 Proposed Capital Improvement Program](#)
5. [CB 120704](#) **AN ORDINANCE** relating to Proposition 1 as approved by Seattle voters in the 2020 general election; authorizing material scope changes to increase the share of Proposition 1 dollars that can be spent on transit capital projects intended to maximize operating efficiency of transit service purchased with Proposition 1 revenues.
- Supporting Documents:* [Summary and Fiscal Note](#)

6. [CB 120684](#) **AN ORDINANCE relating to the electric system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing municipal light and electric power generation, transmission, and distribution system of the City; authorizing the issuance and sale of municipal light and power revenue bonds for the purposes of providing funds to pay part of the cost of carrying out that system or plan, providing for the reserve fund requirement (if necessary), and paying the costs of issuance of the bonds; providing parameters for the Bond Sale Terms including conditions, covenants, and other sale terms; describing the lien of the bonds and authorizing their issuance as either senior lien parity bonds or junior lien bonds; and ratifying and confirming certain prior acts.**

Attachments: [Ex A - Outstanding Parity Bonds](#)
[Ex B - Form of Continuing Disclosure Agreement](#)

Supporting Documents: [Summary and Fiscal Note](#)

7. [CB 120702](#) **AN ORDINANCE relating to taxation; defining the sourcing of gross income arising from the activities of printing, and publishing newspapers, periodicals, or magazines; and modifying, effective January 1, 2024, the definition of printing, and publishing newspapers, periodicals, or magazines in accordance with ESS2B 5199 (2023); and amending Section 5.45.081 of the Seattle Municipal Code.**

Supporting Documents: [Summary and Fiscal Note](#)

8. [CB 120686](#) **AN ORDINANCE relating to the drainage and wastewater system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing drainage and wastewater system; authorizing the issuance and sale of drainage and wastewater revenue bonds in one or more series for the purposes of paying part of the cost of carrying out that system or plan, providing for the reserve requirement, and paying the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; describing the lien of those bonds; and ratifying and confirming certain prior acts.**

Attachments: [Ex A – Outstanding Drainage and Wastewater Parity Bonds](#)
[Ex B – Form of Continuing Disclosure Agreement](#)

Supporting Documents: [Summary and Fiscal Note](#)

9. [CB 120687](#) **AN ORDINANCE relating to the municipal water system of The City of Seattle; amending Ordinance 126716 to increase the authorized principal amount of municipal water system revenue bonds to be issued for the purposes of paying all or part of the cost of carrying out the system or plan of additions and betterments to and extensions of the existing municipal water system; extending the initial authorization date for those bonds; and ratifying and confirming certain prior acts.**

Supporting Documents: [Summary and Fiscal Note](#)

10. [CB 120703](#) **AN ORDINANCE relating to affordable housing; amending Ordinance 126258 to authorize forgiveness of a loan to Community Roots Housing.**

Supporting Documents: [Summary and Fiscal Note](#)

11. [CB 120691](#) AN ORDINANCE relating to the financing of the Central Waterfront Improvement Program; amending Ordinance 123761 to extend the duration of the existing interfund loan to the Central Waterfront Improvement Fund; and increasing the amount of the existing interfund loan.

Supporting Documents: [Summary and Fiscal Note](#)

12. [Res 32115](#) A RESOLUTION approving interest rates set by the Seattle City Employees' Retirement System (SCERS) Board of Administration for 2024.

Supporting Documents: [Summary and Fiscal Note](#)

13. [CB 120680](#) AN ORDINANCE relating to fees and charges for permits and activities of the Seattle Department of Construction and Inspections, related fees by other departments, and technical corrections; adding a new Chapter 22.900I to the Seattle Municipal Code; and amending Sections 22.210.060, 22.900A.010, 22.900A.020, 22.900A.065, 22.900B.010, 22.900B.020, 22.900C.010, 22.900D.010, 22.900D.110, 22.900D.140, 22.900D.160, 22.900E.020, 22.900E.030, 22.900E.050, 22.900F.010, 22.900H.020, 22.900H.050, 22.900H.060, and 22.900H.080 of the Seattle Municipal Code.

Supporting Documents: [Summary and Fiscal Note](#)
[Summary Att A - SDCI Permit Fees and Charges Proposed for 2024](#)

14. [CB 120701](#) AN ORDINANCE relating to the Seattle Department of Transportation; amending Section 11.16.121 of the Seattle Municipal Code to set new limits on parking rates at parking payment devices.

Supporting Documents: [Summary and Fiscal Note](#)

15. [CB 120681](#) AN ORDINANCE relating to the Seattle Fire Department's services and fees; adding, deleting, and revising various Seattle Fire Department permit, inspection, and development-related fees and related provisions; and amending Sections 22.602.045, 22.602.070, and 22.900G.060 of the Seattle Municipal Code.

Supporting Documents: [Summary and Fiscal Note](#)

16. [CB 120682](#) AN ORDINANCE relating to Seattle Parks and Recreation; establishing the 2024 fee schedule for the use of park properties and other park and recreation facilities and services; and superseding previous park and recreation fee schedules.

Attachments: [Att 1 - 2024 SPR Fees and Charges](#)
Supporting Documents: [Summary and Fiscal Note](#)
[Summary Att 1 – Proposed Changes to 2024 Fee Schedule](#)

E. Items Removed from Consent Calendar

F. Items for Individual Consideration

Items 17 - 27: Discussion and Possible Vote

Presenters: Esther Handy, Director, Aly Pennucci, Deputy Director, and Central Staff Analysts, Council Central Staff

17. [Res 32114](#) A RESOLUTION amending Resolution 31334; establishing the City Council's intent to fund the Seattle City Employees' Retirement System as informed by the January 1, 2023 Actuarial Study.

Supporting Documents: [Summary and Fiscal Note](#)
[Amendment 1 to RES 32114](#)

18. [CB 120683](#) **AN ORDINANCE relating to contracting indebtedness; authorizing and providing for the issuance and sale of limited tax general obligation bonds to pay or reimburse all or part of the costs of various elements of the City’s capital improvement program and for other City purposes approved by ordinance and to pay the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; creating the 2024 Multipurpose LTGO Bond Fund; amending Ordinance 123751 (as previously amended by Ordinances 124341 and 124637), Ordinance 124341, Ordinance 124637, Ordinance 124924 (as previously amended by Ordinance 125986), Ordinance 125456, Ordinance 125715 (as previously amended by Ordinance 125986), and Ordinance 126219 (as previously amended by Ordinances 126288 and 126479); and ratifying and confirming certain prior acts.**

Proposed Items for Individual Vote

AGENDA ITEMS 17-26

Items for Individual Vote: Agenda Items 18-21, 23

Discussion or technical amendments only

Agenda Item	CB or RES – Short Title	CB or RES #
18	CB 120683: OCF Multipurpose LTGO Bonds 2024 ORD (discussion only)	Provides authorization to issue up to \$84.2 million of Limited Tax General Obligation (LTGO) Bonds, as assumed in the 2024 Budget and the 2024-2029 Capital Improvement Program (CIP).
19	CB 120679: CBO 2024 Annual Grant Acceptance ORD	Authorizes City Department directors to accept grants and enter into revenue-backed service contracts anticipated as part of the 2024 Budget
20	CB 120685: OCF Municipal Light and Power Omnibus Refunding Bonds 2024 ORD	Authorizes issuance of up to \$400 million of bonds in 2024 to fund \$250 million of capital expenditures for Seattle City Light’s system outlined in the proposed 2024-2029 CIP and fund up to \$150 million of borrowing for potential debt optimization
21	CB 120690: SPR Seattle Park District Interlocal Agreement Amendment ORD	Amend the Interlocal Agreement (ILA) between the City and the Seattle Park District to change the formula used to calculate the inflationary increase for the General Fund appropriation to Parks in 2024 to be a set at 3%. For all future years, the formula reverts back to the existing policy in the in 2025.
23	CB 120689: LEG JumpStart Payroll Expense Tax Deduction Extension	Extend an existing deduction from the Payroll Expense Tax, for three years, that applies to compensation between \$150,000 to \$399,999.99 at non-profit healthcare entities and give the Director authority to adjust that range based on inflation.

Items for Individual Vote: Agenda Item 17

RES 32114: RET ARC for 2024 RES

This resolution memorializes that the City will fund the contribution to the Employee's Retirement Fund at 15.82 percent in 2024, based on the recommendation by the Seattle City Employee Retirement System's Board of Administration.

Amendment 1 (Sponsor: Councilmember Pedersen)

- Would establish the City Council's intent to use, for the City's contributions to the Seattle City Employees Retirement System (SCERS) in the 2024 City Budget, the actuarially required employer contribution rate of 15.17 as calculated by Milliman Inc.
- This would align Council's intent regarding the City contribution with appropriation changes proposed in Council Budget Action SDOT-101-A. That CBA would use the savings from this lower contribution in 2024 to fund bridge and school zone camera investments in 2024.

Items for Individual Vote: Agenda Item 22

CB 120706: LEG Network Company License and Fee ORD

This legislation would require network companies to obtain an annual network company license to operate in Seattle and pay a license fee as an additional source of revenue to recover the costs of network company regulations.

Note: Potential amendments are under development and will be available for briefing and discussion Tuesday 11/14, and committee vote Wednesday 11/15.

Items for Individual Vote: Agenda Item 24

CB 120707: MO CARE Department ORD

This legislation renames the Community Safety and Communication Center (CSCC) to the Community Assisted Response and Engagement (CARE) Department and clarifies the duties of the department and its leader.

Amendment 1 (Sponsors: Chair Mosqueda)

- Amends references to the CARE Department’s purview in the Seattle Municipal Code with respect to public health. It would make explicit that the City’s roles and responsibilities with respect to the development and implementation of public health policies are governed by an Interlocal Agreement with King County.
- The amendment would also retain the “Director” title for the head of the CARE Department.

Items for Individual Vote: Agenda Item 25

CB 120705: CBO 2023 Year-End Supplemental Budget ORD (1/2)

- This legislation is the third comprehensive supplemental budget legislation transmitted by the Executive in 2023, proposing year-end appropriation, position, and capital project changes to meet needs that are assumed to be unforeseeable at the time the 2023 budget was adopted in November 2022.
- There are seven proposed amendments that are necessary to balance councilmember proposed amendments to the 2024 Budget Adoption ORD.

Items for Individual Vote: Agenda Item 25

CB 120705: CBO 2023 Year-End Supplemental Budget ORD (2/2)

7 Proposed Amendments – Proposed for one group/consent vote

#	Sponsor(s)	Title or short description
1	Chair Mosqueda	Reduce funding for Community Investment Trusts by \$250,000 JumpStart Fund in OPCD
2	Chair Mosqueda	Reduce funding for an Affected Person’s Program by \$50,000 GF in SPD's Office of Police Accountability
3	Chair Mosqueda and CM Strauss	Reduce funding for a Recreational Vehicle storage program by \$1 million GF in HSD
4	Chair Mosqueda	Modifies various appropriations within SDOT’s 2023 Adopted Budget to reflect the October 2023 Revenue Forecast update
5	Chair Mosqueda	Reduce lawsuit settlement costs by \$50,000 GF in MO
6	CM Herbold	Add \$50,000 GF to OIG for external, independent investigations and reduce proposed funding for the Seattle Police Monitor Reserves by \$50,000 GF (2023) in FG
7	CM Strauss	Reduce \$150,000 in the Mayor’s Office for a local match for 2023 grant that was not needed

Items for Individual Vote: Agenda Item 26

CB 119950: LEG Increase Payroll Expense Tax

- This Council Bill would increase the rates for all businesses currently subject to the payroll expense tax imposed as provided for in Section 5.38 of the Seattle Municipal Code. This Council Bill would increase the projected revenues from the payroll expense tax by \$195,500
- There are three proposed amendments that relate to two proposed amendments to the 2024 Budget Adoption ORD (DEEL-001-A and FG-501-A).
- All three amendments are sponsored by CM Sawant, CM Herbold, and Chair Mosqueda:
 1. Increase rates to increase annual revenues by at least \$60 million
If this amendment passes amendments 2 and 3 will not proceed.
 2. Increase rates to increase annual revenues by at least \$40 million
 3. Increase rates to increase annual revenues by at least \$20 million

CB 120708

CBO 2024 Budget Adoption ORD

Human Services Contract Increases

The 2024 Proposed Budget Adjustments include inflationary adjustments and provider pay increases for human services contracts

Inflationary Adjustments

- Contracts administered by the Human Services Department (HSD) received a 7.5% inflationary adjustment, as required under Seattle Municipal Code Section (SMC) 3.20.060

Provider Pay Increases

- Contracts in three departments – HSD, Department of Neighborhoods (DON) and Department of Education and Early Learning (DEEL) – received a 2% increase for purposes of human services provider pay

HSD Base Contract Amounts

- The 7.5% inflationary adjustment and 2% provider pay increase in the 2024 Proposed Budget Adjustments were calculated on a total HSD base contract amount of \$209 million.
- This did not include:
 - Continuum of Care (CoC) contracts, which are administered by the King County Regional Homelessness Authority
 - 2023 underspend intended to be used for 2024 contracts
 - One-time funding in the 2023 Adopted Budget

2024 Proposed Adjustments & Council Budget Actions

Items for Individual Vote: Agenda Item 17

RES 32114: RET ARC for 2024 RES

This resolution memorializes that the City will fund the contribution to the Employee's Retirement Fund at 15.82 percent in 2024, based on the recommendation by the Seattle City Employee Retirement System's Board of Administration.

Amendment 1 (Sponsor: Councilmember Pedersen)

- This amendment would establish the City Council's intent to use, for the City's contributions to the Seattle City Employees Retirement System (SCERS) in the 2024 City Budget, the actuarially required employer contribution rate of 15.17 as calculated by Milliman Inc.

This would align Council's intent regarding the City contribution with appropriation changes proposed in Council Budget Action SDOT-101-A. That CBA would use the savings from this lower contribution in 2024 to fund bridge and school zone camera investments in 2024.

Items for Individual Vote: Agenda Item 18

ORD 120683: OCF Multipurpose LTGO Bonds 2024 ORD

This legislation would provide authorization to issue up to \$84.2 million of Limited Tax General Obligation (LTGO) Bonds, as assumed in the 2024 Budget and the 2024-2029 Capital Improvement Program (CIP).

Items for Individual Vote: Agenda Item 19

ORD 120679: CBO 2024 Annual Grant Acceptance ORD

This legislation would authorize City Department directors to accept grants and enter into revenue-backed service contracts anticipated as part of the 2024 Budget.

Amendment 1 (Sponsor: Chair Mosqueda)

- This technical amendment would add the 2024 Budget Adoption Ordinance CB number to Section 1 of CB 120679, the 2024 Annual Grant Acceptance Ordinance.

Items for Individual Vote: Agenda Item 20

CB 120685: OCF Municipal Light and Power Omnibus Refunding Bonds 2024 ORD

This legislation would authorize issuance of up to \$400 million of bonds in 2024 to fund \$250 million of capital expenditures for Seattle City Light’s system outlined in the proposed 2024-2029 CIP and fund up to \$150 million of borrowing for potential debt optimization

Amendment 1 (Sponsor: Chair Mosqueda)

- This technical amendment would update information shown on Exhibit A – Outstanding Parity Bonds for the Municipal Light and Power Refunding Revenue Bonds, 2023B, bond issue. The date and amount were not known until after the Executive transmitted the ordinance to Council for consideration.

These technical corrections would change the “dated date” and fill in the blank on the “Original Par Amount” as shown on Version 2 of the Exhibit A.

Items for Individual Vote: Agenda Item 21

CB 120690: SPR Seattle Park District Interlocal Agreement Amendment ORD

This legislation would amend the Interlocal Agreement (ILA) between the City and the Seattle Park District to change the formula used to calculate the inflationary increase for the General Fund appropriation to Parks in 2024 to be a set at 3%. For all future years, the formula reverts back to the existing policy in the in 2025.

Amendment 1 (Sponsor: Chair Mosqueda)

- This is a technical amendment to Attachment 1 to Council Bill (CB) 120690 to add the CB number, and the Resolution number for the companion Park District Resolution, referenced in the Attachment.

Items for Individual Vote: Agenda Item 22

CB 120706: LEG Network Company License and Fee ORD

This legislation would require network companies to obtain an annual network company license to operate in Seattle and pay a license fee as an additional source of revenue to recover the costs of network company regulations.

No.	Amendment Title	Sponsor
1	Require FAS Director to recommend a reduced fee for marketplace network companies	Herbold
2	Exempt marketplace network companies from coverage	Pedersen
3	Restrict OLS's use of fee revenue to implementing the App-Based Worker Deactivation Rights ORD	Nelson
4	Reduce the fee for network companies to \$0.05 per online order	Nelson
5	Require ordinance to increase the network company license fee	Pedersen
6	Revise requirements to increase transparency and streamline provisions	Herbold
7	Clarify the FAS Director's authority to establish additional license application requirements and network company provisions	Pedersen
8	Establish requirements for OLS's administration of contracts funded by fee revenue	Pedersen

Items for Individual Vote: Agenda Item 23

CB 120689: LEG JumpStart Payroll Expense Tax Deduction Extension

This legislation would extend an existing deduction from the Payroll Expense Tax, for three years, that applies to compensation between \$150,000 to \$399,999.99 at non-profit healthcare entities and give the Director authority to adjust that range based on inflation.

Amendment 1 (Sponsors: Chair Mosqueda)

- This technical amendment would make a correction to the new language that allows the Director to adjust for inflation, making clear that this applies prospectively.

Items for Individual Vote: Agenda Item 24

CB 120707: MO CARE Department ORD

This legislation renames the Community Safety and Communication Center (CSCC) to the Community Assisted Response and Engagement (CARE) Department and clarifies the duties of the department and its leader.

Amendment 1 (Sponsors: Chair Mosqueda)

- Amends references to the CARE Department’s purview in the Seattle Municipal Code with respect to public health. It would make explicit that the City’s roles and responsibilities with respect to the development and implementation of public health policies are governed by an Interlocal Agreement with King County.

The amendment would also retain the “Director” title for the head of the CARE Department.

Items for Individual Vote: Agenda Item 25

CB 120705: CBO 2023 Year-End Supplemental Budget ORD (1/2)

- This legislation is the third comprehensive supplemental budget legislation transmitted by the Executive in 2023, proposing year-end appropriation, position, and capital project changes to meet needs that are assumed to be unforeseeable at the time the 2023 budget was adopted in November 2022.
- There are eight proposed amendments; most are necessary to balance councilmember proposed amendments to the 2024 Budget Adoption ORD.

Items for Individual Vote: Agenda Item 25

CB 120705: CBO 2023 Year-End Supplemental Budget ORD (2/2)

8 Proposed Amendments – Proposed for one group/consent vote

#	Sponsor(s)	Title or short description
1	Chair Mosqueda	Reduce funding for Community Investment Trusts by \$250,000 JumpStart Fund in OPCD
2	Chair Mosqueda	Reduce funding for an Affected Person’s Program by \$50,000 GF in SPD's Office of Police Accountability
3	Chair Mosqueda and CM Strauss	Reduce funding for a Recreational Vehicle storage program by \$1 million GF in HSD
4	Chair Mosqueda	Modifies various appropriations within SDOT’s 2023 Adopted Budget to reflect the October 2023 Revenue Forecast update
5	Chair Mosqueda	Reduce lawsuit settlement costs by \$50,000 GF in MO
6	CM Herbold	Add \$50,000 GF to OIG for external, independent investigations and reduce proposed funding for the Seattle Police Monitor Reserves by \$50,000 GF (2023) in FG
7	CM Strauss	Reduce \$150,000 in the Mayor’s Office for a local match for 2023 grant that was not needed
8	Chair Mosqueda	Create a New Unlimited Tax General Obligation Budget Control Level and Increase Appropriation

Items for Individual Vote: Agenda Item 26

CB 119950: LEG Increase Payroll Expense Tax

- This Council Bill would increase the rates for all businesses currently subject to the payroll expense tax imposed as provided for in Section 5.38 of the Seattle Municipal Code. This Council Bill would increase the projected revenues from the payroll expense tax by \$195,500
- There are three proposed amendments that relate to two proposed amendments to the 2024 Budget Adoption ORD (DEEL-001-A and FG-501-A).
- All three amendments are sponsored by CM Sawant, CM Herbold, and Chair Mosqueda:
 1. Increase rates to increase annual revenues by at least \$60 million
If this amendment passes amendments 2 and 3 will not proceed.
 2. Increase rates to increase annual revenues by at least \$40 million
 3. Increase rates to increase annual revenues by at least \$20 million

Items for Individual Vote

Agenda Item 27: 2025 Budget Adoption ORD

GROUP A: Amendments voted on as a group

Councilmembers may remove a CBA or SLI from the group for:

- Individual discussion and consideration; or
- To substitute a CBA or SLI for an item in the voting group

When to make a request to remove an item:

- After Central Staff describes the group when the Chair calls for requests to remove an item, prior to the Chair calling for a vote on the group.

GROUP B: Amendments for individual vote

Vote Order

Group A

1. **Voting Group** (*all items remaining in voting group*)
2. **CBA**s or **SLI**s pulled from the voting group for individual consideration in alphanumeric order by department

Group B

- All discussed and voted on individually

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to acceptance of funding from non-City sources; authorizing the heads of various departments to accept and authorize the expenditure of specified grants, private funding, and subsidized loans and to execute, deliver, and perform corresponding agreements; amending Ordinance 126725, which adopted the 2023 Budget, including the 2023-2028 Capital Improvement Program (CIP); changing appropriations to various departments and budget control levels, and from various funds in the Budget; revising project allocations for certain projects in the 2023-2028 CIP; and ratifying and confirming certain prior acts.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. For each item in the following table, the head of the listed department is authorized to accept non-City funding from the listed sources below; and to execute, deliver, and perform, on behalf of The City of Seattle, agreements for the purposes described. The funding, when received, shall be deposited in the receiving fund identified to support, or as reimbursement for, either the appropriations set forth in Section 2 of this ordinance or existing appropriations in the receiving department.

Item	Department	Source	Purpose	Fund	Accept
1.1	Department of Neighborhoods	4Culture	The 4Culture Preservation Sustained Support Grant assists with the day-to-day needs of preservation organizations, providing a reliable funding source that promotes stewardship, advocacy, and educational opportunities around historic preservation.	General Fund (00100)	\$11,550

1.2	Department of Neighborhoods	Washington State Department of Archaeology and Historic Preservation	The Certified Local Government Program (CLG) helps local governments toward preserving Washington’s irreplaceable historic and cultural resources as assets for the future. This unique nationwide program of financial and technical assistance was established by the National Historic Preservation Act. In Washington, the CLG program is implemented and administered by the Department of Archaeology and Historic Preservation (DAHP).	General Fund (00100)	\$20,000
1.3	Human Services Department	Washington State DSHS	This state grant provides Care Transitions funding for Area Agency on Aging care coordinators to help transition clients ready for hospital discharge into home and community-based settings.	Human Services Fund (16200)	\$215,554
1.4	Human Services Department	Washington State DSHS	This grant is for Area Agencies on Aging to conduct outreach to provide information about WA Cares including how contributions work, optional exemptions, using benefits, and covered services.	Human Services Fund (16200)	\$157,337
1.5	Human Services Department	Washington State DSHS	Required match for federal American Rescue Plan Act grant for older adult COVID related services.	Human Services Fund (16200)	\$518,197

1.6	Human Services Department	Washington State DSHS	Grant for senior nutrition programs including congregate nutrition, home delivered meals, nutrition education, and senior farmers market nutrition program.	Human Services Fund (16200)	\$477,617
1.7	Human Services Department	Seattle Police Foundation	This grant provides funding for HSD's Victim Support Team to provide support to crime victims in Seattle.	Human Services Fund (16200)	\$35,845
1.8	Law Department	U.S. Department of Transportation National Highway Traffic Safety Administration (NHTSA)	The State Traffic Safety Resource Prosecutor (State TSRP) is a continuing project aimed at reducing impaired driving in Washington State. The State TSRP trains and educates prosecutors, law enforcement, judges, probation staff, legislators, and hearing examiners on topics crucial to impaired driving enforcement. The State TSRP provides experienced litigation assistance in the courtroom, legal memoranda, research assistance and online assistance via the State TSRP website and newsletter	General Fund (00100)	\$210,000

1.9	Executive (Office of Economic Development)	U.S. Dept of Housing and Urban Development	Housing and Urban Development (HUD) Community Project Fund grants provide investment in a wide variety of projects such as housing, homelessness prevention, workforce training, public facilities, parks, resilience planning and other critical infrastructure and services. This grant will support capital improvements to a community hub at the El Barrio project in South Park.	General Fund (00100)	\$1,000,000
1.10	Executive (Office of Economic Development)	U.S. Small Business Administration	Small Business Administration Community Project Funding provides direct grants to community projects. The grant supports development of an entrepreneurial hub at the El Barrio project in South Park, including commercial space improvements, and programs and services to support Latinx and BIPOC entrepreneurs.	General Fund (00100)	\$500,000
1.11	Executive (Office of Emergency Management)	Washington State Military Dept., Emergency Management Division (WA EMD)	The City of Seattle Office of Emergency Management will partner with Historic Seattle to conduct a seismic retrofit of the unreinforced masonry (URM) building Good Shepherd Center- South Annex at 4649 Sunnyside Ave N, Seattle, WA. It is a community hub owned and operated by Historic Seattle, who will be the project manager (subawardee). OEM will be the grant manager.	General Fund (00100)	\$443,937

1.12	Executive (Office of Emergency Management)	City of Tacoma	This fee-for-service agreement will provide additional funding for Puget Sound Resilience Hubs work, complementing existing OEM work on resilience hubs through the Regional Catastrophic Preparedness Grant (RCPG22). There is no additional match requirement, and this funding may in fact be used as additional OEM match to the RCPG22 grant.	General Fund (00100)	\$100,000
1.13	Executive (Office of Immigrant and Refugee Affairs)	Seattle Housing Authority	The Seattle Housing Authority (SHA) provides funding to support the participation of SHA residents in the New Citizen Program.	General Fund (00100)	\$51,652
1.14	Executive (Office of Immigrant and Refugee Affairs)	Department of Social and Health Services	The Department of Social and Health Services (DSHS) provides funding to support the participation of State benefits recipients in the New Citizen Program.	General Fund (00100)	\$865,600
1.15	Executive (Office of Planning and Community Development)	Federal Highway Administration (FHWA)/Washing ton State Department of Transportation (WSDOT)	Funds will be used to support a planning study, including technical studies and community visioning for removing or restructuring SR-99 where it cuts through the South Park neighborhood of Seattle, interrupting local roads and connectivity.	General Fund (00100)	\$1,600,000

1.16	Executive (Office of Planning and Community Development)	State of Washington	This grant is to update and add to the 2020 I-5 Lid Feasibility Study with additional test cases with ramp changes and removals in downtown Seattle and alternative assumptions with regards to parking, expansion of Freeway Park, affordable housing, and commercial real estate (L2021140).	General Fund (00100)	\$200,000
1.17	Executive (Office of Sustainability and Environment)	King Conservation District Number 9	King Conservation District Number 9 is a nonregulatory, special purpose district, with a mission to promote the sustainable use of natural resources through voluntary stewardship in King County.	General Fund (00100)	\$7,000
1.18	Seattle Center	State of Washington	This change request accepts and appropriates \$5,000,000 Move Ahead Washington funding to use in Seattle Center Monorail Station Improvements.	Seattle Center Fund (11410)	\$5,000,000
1.19	Seattle Center	Federal Emergency Management Agency (FEMA)	This change request accepts and appropriates \$3,558,960 to upgrade emergency power at Seattle Center and install a generator in the Armory.	Seattle Center Fund (11410)	\$3,558,960

1.20	Seattle Department of Transportation	FHWA	This grant funding is from the Washington State Department of Transportation (WSDOT) Regional Mobility Grant (RMG) program for the 2023-2025 and 2025-2027 biennia. This grant provides funding to the City of Seattle to improve transit access and implement multimodal corridor improvements on NE 130th St along Roosevelt Way NE and 125th St to connect light rail riders to the future NE 130th St light rail station.	Transportation Fund (13000)	\$9,800,000
1.21	Seattle Department of Transportation	FRA	This grant funding includes \$2,000,000 from the Federal Railroad Administration (FRA) through the Railroad Crossing Elimination (RCE) Program. This item provides funding to continue the City of Seattle's commitment to safety improvements by supporting a feasibility study to evaluate the effect of closing railroad crossings and determine appropriate safety improvements at nearby crossings. This grant will support a feasibility study to evaluate the effect of closing the two S. Holgate Street crossings and determine appropriate safety improvements at nearby crossings.	Transportation Fund (13000)	\$2,000,000

1.22	Seattle Department of Transportation	WSDOT	This grant funding is from the Washington State Department of Transportation (WSDOT) through the Pedestrian & Bicycle Safety Program for fiscal years 2023 - 2025. This item provides funding to enhance the City of Seattle's pedestrian scale lighting in the Chinatown, International District, and Little Saigon neighborhoods.	Transportation Fund (13000)	\$2,556,000
1.23	Seattle Department of Transportation	WSDOT	This grant supports constructing a protected bike lane on Alaskan Way between Virginia St and Broad St.	Transportation Fund (13000)	\$500,000
1.24	Seattle Department of Transportation	U.S. Department of Transportation via Sound Transit	This grant funding was awarded to the Central Puget Sound Regional Transit Authority by the U.S. Department of Transportation through the Strengthening Mobility and Revolutionizing Transportation (SMART) grant program for the federal fiscal year 2023. Sound Transit is awarding the funds to the Seattle Department of Transportation through a sub-award agreement to fund work on the Next Gen Intelligent Transportation System project that enhance safety for community members along Martin Luther King Jr Way South.	Transportation Fund (13000)	\$719,250

1.25	Seattle Department of Transportation	WSDOT	This item provides funding to continue the City of Seattle's commitment to safety improvements by supporting a feasibility study to evaluate the effect of closing railroad crossings and determine appropriate safety improvements at nearby crossings.	Transportation Fund (13000)	\$400,000
1.26	Seattle Department of Transportation	Federal Transit Administration	This project will fund preventive and major maintenance grants to support the Seattle Streetcar System. The first line began operations in 2007 and the second line began operations in 2016. The project contains funds for preventive and major maintenance, vehicle maintenance, and guideway work.	Seattle Streetcar Operations (10800)	\$426,556

1.27	Seattle Department of Transportation	WSDOT	<p>The 2023-2025 Commute Trip Reduction (CTR) formula grant will fund the City's ongoing core transportation demand management (TDM) programs which fulfill the requirements of Washington State CTR law (RCW 70A.15) and the Seattle Municipal Code 25.02. The CTR program is implemented by SDOT's Transportation Options Program and works with the City's large employers to shift commutes away from single occupancy vehicle use, with the goal of mitigating congestion and decreasing greenhouse gas emissions. Transportation Options Group also leverages the funds for the purposes of monitoring large buildings with required Transportation Management Programs (TMPs). The grant funded work includes regulatory monitoring, data gathering and analysis, communications campaigns, and educational programming.</p>	Transportation Fund (13000)	\$1,459,100
------	--	-------	---	--------------------------------	-------------

1.28	Seattle Department of Transportation	FHWA	This grant funding is from the Federal Highway Administration through the Rebuilding American Infrastructure with Sustainability and Equity (RAISE) program for federal fiscal year 2023. This grant will support a funding and implementation plan for "Low-Emission Neighborhoods" across the City of Seattle.	Transportation Fund (13000)	\$1,200,000
1.29	Seattle Fire Department	Department of Homeland Security	The purpose of the Biowatch grant is to provide early detection of a bioterrorism event and helps communities prepare a coordinated response. The combination of detection, rapid notification and response planning helps federal, state and local decision makers take steps to save lives and mitigate damages. The grant may be used for professional services that will be incurred during the extension period. The Department of Homeland Security is the funder for the BioWatch Program.	General Fund (00100)	\$137,458

1.30	Seattle Fire Department	Department of Homeland Security	The Department of Homeland Security's BioWatch Program provides early detection of a bioterrorism event and helps communities prepare a coordinated response. The combination of detection, rapid notification and response planning helps federal, state and local decision makers take steps to save lives and mitigate damage	General Fund (00100)	\$1,893,747
1.31	Seattle Fire Department	Medic One Foundation	The purpose of this grant is to provide funding to purchase a Prestan Adult Diversity Manikin 4-pack with CPR monitor. The Medic One Foundation helps save lives by improving pre-hospital emergency care and training.	General Fund (00100)	\$1,105
1.32	Seattle Fire Department	King County Sheriff's Office (UASI)	Federal grant passthrough from King County Sheriff's Office for aviation drills and training.	General Fund (00100)	\$6,000
1.33	Seattle Fire Department	Department of Homeland Security	The object of the Port Security Grant Program is to provide funding to port authorities, facility operators and state and local agencies for activities associated with implementing Area Maritime Security Plans (AMSPs), facility security plans and other port-wide risk management efforts.	General Fund (00100)	\$223,444

1.34	Seattle Fire Department	Washington State Patrol - Office of the Fire Marshal	The purpose of the Basic Fire Fighter Training Program is to provide training resources. This includes a uniform plan of financial support for modular training options to ensure fire fighters across the state meet a basic level of safe performance and professional development. The State's objective is to ensure that every fire department in the state of Washington has the ability and opportunity to provide their fire fighters with basic fire fighter training that is affordable, accessible, achievable and based on community risk.	General Fund (00100)	\$58,593
1.35	Seattle Fire Department	WA State Dept of Natural Resources and WA State Military Dept - EMD	Multiple government agencies provide support and funding for emergency deployment of highly trained task force members to respond to wildland fires.	General Fund (00100)	\$300,000
1.36	Seattle Fire Department	FEMA through Pierce County Office of Emergency Management	The Urban Search and Rescue (US&R) Program provides support and funding to maintain the readiness of the National Urban Search and Rescue System. US&R Task Force sponsoring agencies are directed to use the funding to meet the following objectives: provide task force administration and management, training, and equipment cache procurement, maintenance and storage.	General Fund (00100)	\$45,000

1.37	Seattle Information Technology Department	Seattle Housing Authority	For Seattle IT, digital equity grants are a cornerstone of the City’s Digital Equity Program. Our vision is for Seattle to be a city where technology’s opportunities equitably empower all residents and communities, especially those who are historically underserved or underrepresented. This funding agreement seeks to support community-driven solutions to achieving digital equity in Seattle.	Information Technology Fund (50410)	\$67,747
1.38	Seattle Information Technology Department	YWCA	For Seattle IT, digital equity grants are a cornerstone of the City’s Digital Equity Program. Our vision is for Seattle to be a city where technology’s opportunities equitably empower all residents and communities, especially those who are historically underserved or underrepresented. This funding agreement seeks to support community-driven solutions to achieving digital equity in Seattle.	Information Technology Fund (50410)	\$70,000
1.39	Seattle Municipal Court	Administrative Office of the Court (State of Washington)	AOC Grant is an ongoing commitment from the State of WA to the Seattle Municipal Court. The grant assist Courts with costs related to Therapeutic Court. Funding cycle is July to June, with funds received crossing city fiscal years.	General Fund (00100)	\$327,779

1.40	Seattle Parks and Recreation	Seattle School District	This funding will be used towards the design, construction, renovation, updates, and establishing ongoing operations, maintenance, and programming of three existing synthetic turf fields.	Park And Recreation Fund (10200)	\$1,000,000
1.41	Seattle Parks and Recreation	Seattle Public Schools	This contract from Seattle Public Schools provides student support at Broadview Thompson within the Extended Learning OPS Master Project (MO-PR-51009), and will be used towards the CLC - McClure MS project (PRR0903). The contract expires 08/31/23.	Park And Recreation Fund (10200)	\$50,000
1.42	Seattle Parks and Recreation	School's Out Washington	This contract from School's Out Washington provides student support at the Community Learning Center at Northgate Elementary School. This is the remaining portion of a reimbursable contract for \$611,900 covering a three year period, from August 2022 - June 2025.	Park And Recreation Fund (10200)	\$492,383
1.43	Seattle Parks and Recreation	King County	This grant from King County supports the Major Maintenance and Asset Management Master project (MC-PR-41001), and will be used towards planning for the phase II work at the existing park. This is a reimbursable grant, requiring a match which the project budget satisfies. The grant expiration date is 6/30/24.	Park And Recreation Fund (10200)	\$150,000

1.44	Seattle Parks and Recreation	Washington State Youth Athletic Facilities Grant	<p>This Washington State Youth Athletic Facilities Grant supports the Soundview Athletic Field Conversion project (MC-PR -41074), and will be used towards converting Soundview Athletic field to synthetic. More specifically, this grant will be used to help renovate a grass playfield in the 10-acre Soundview Park in northwest Seattle. The City will install about 114,000 square feet of multi-purpose, all-weather synthetic turf and field amenities including lights, a looped walking path, bleachers, and seat walls. The City also will improve the storm water, electrical, and irrigation systems. This is a reimbursable grant, requiring a match which the project budget satisfies. The grant expiration date will be determined once a contract is signed.</p>	Park And Recreation Fund (10200)	\$350,000
------	------------------------------	--	---	----------------------------------	-----------

1.45	Seattle Parks and Recreation	Washington State Boating Facilities Program Grant	<p>This Washington State Boating Facilities Program Grant supports the Major Maintenance and Asset Management Master project (MC-PR-41001), and will be used towards the Stan Sayres Boat Ramp Renovation project. More specifically, this grant will be used to redevelop the Stan Sayres boat launch, one of only two public boat launches, on Lake Washington. The project will create four launch lanes and add boarding floats to two piers to create queuing space and make entering and exiting boats easier and will also add grated gangways to connect the piers to the boarding floats, making it safer and easier to access. This is a reimbursable grant, requiring a match which the project budget satisfies. The grant expiration date will be determined once a contract is signed.</p>	Park And Recreation Fund (10200)	\$820,000
------	------------------------------	---	--	----------------------------------	-----------

1.46	Seattle Parks and Recreation	Washington State Recreation and Conservation Office (RCO)	This Washington State RCO grant supports the Major Maintenance and Asset Management Master project (MC-PR-41001), and will be used towards the Garfield Super Block project. More specifically, this grant will be used to complete construction ready design plans, permitting and cultural resources review for Garfield Super Block, located in Seattle’s Central District. The City is working in collaboration with the Garfield Super Block Coalition to plan for new additions and renovations to the park including play structures, sports courts, picnic areas and accessible pathways. This is a reimbursable planning grant, and does not require a match. The grant expiration date will be determined once a contract is signed.	Park And Recreation Fund (10200)	\$248,129
------	------------------------------	---	--	----------------------------------	-----------

1.47	Seattle Parks and Recreation	Washington State Department of Commerce	These two planning grants from the Washington State Department of Commerce support the Municipal Energy Efficiency Program Project (MC-PR-41030) and will be used for an evaluation of South Park Seattle Community Center (\$94,400) and Bitter Lake Community Center (\$78,650) for solar storage. These are reimbursable grants, which do not require a match. The grant expiration dates will be established when contracts are signed.	Park And Recreation Fund (10200)	\$173,050
1.48	Seattle Police Department	Washington State Criminal Justice Training Commission	The Washington State Criminal Justice Training Commission (WSCJTC) provides funds to local law enforcement agencies for the purpose of establishing officer wellness programs.	General Fund (00100)	\$66,931

1.49	Seattle Public Library	Washington State Department of Commerce	This grant will support the purchase and installation of a holds pick-up locker at the Greenwood Branch of The Seattle Public Library. Holds pick-up lockers enhance access to collections, as well as convenience for Library patrons in similar ways to how many businesses and organizations now incorporate a range of new self-service, contactless, or reduced contact services in recent years. This item will bring the total number of holds pick-up lockers at various Library branches to six.	Library Fund (10410)	\$90,210
1.50	Seattle Public Utilities	Washington State Department of Ecology	This item increases appropriation authority by \$958,971 in Seattle Public Utilities Solid Waste Fund Planning and Program Management Division (SU244). This increase will support two new projects: reusable furniture collection at sites within the City and supporting the establishment of a salvaged lumber warehouse.	Solid Waste Fund (45010)	\$958,971

1.51	Seattle Fire Department	Department of Homeland Security /FEMA Through Pierce County Office of Emergency Management	The Urban Search and Rescue (US&R) Program provides support and funding to maintain the readiness of the National Urban Search and Rescue System. US&R Task Force sponsoring agencies are directed to use the funding to meet the following objectives: provide task force administration and management, training, and equipment cache procurement, maintenance and storage. FEMA provides funding for the US&R Task Force (a team of individuals specializing in urban search and rescue, disaster recovery and emergency, triage and medicine) to be deployed to emergency and disaster sites as needed.	General Fund (00100)	\$740,000
1.52	Executive (Office of Sustainability and Environment)	U.S. Department of Agriculture (US Forest Service)	This five-year federal grant funds tree planting and stewardship across priority neighborhoods, youth job training, and restoring forested spaces in parks, near public housing, and public schools.	General Fund (00100)	\$12,000,000
1.53	Seattle Department of Transportation	United States Department of Agriculture	This item provides funding to support the City of Seattle's efforts to engage regional Tribes and community groups to restore City-owned forested parcels.	Transportation Fund (13000)	\$900,000

1.54	Executive (Office of Housing)	Washington State Department of Commerce	The 2023 Supplemental Low Income Home Energy Assistance Program grant from the Washington State Department of Commerce grant provides funding for program administration and delivery of weatherization services to provide cost-effective energy efficiency, and health and safety benefits to eligible low-income households in both single and multi-family dwelling units in the City of Seattle.	Low Income Housing Fund (16400)	\$104,213
1.55	Executive (Office of Housing)	Washington State Department of Commerce	The 2023 Supplemental Low Income Home Energy Assistance Program grant from the Washington State Department of Commerce grant provides funding for program administration and delivery of weatherization services to provide cost-effective energy efficiency, and health and safety benefits to eligible low-income households in both single and multi-family dwelling units in the City of Seattle.	Office of Housing Fund (16600)	\$56,706
Total					\$55,365,621

Section 2. Contingent upon the execution of grant or other funding agreements and receipt of the funds authorized in Section 1 of this ordinance, the appropriations in the 2023 Budget for the following items are increased from the funds shown, as follows:

Item	Department	Fund	Budget Summary Level/BCL Code	CIP Project/ID	Change to 2023 Appropriations
2.1	Department of Neighborhoods	General Fund (00100)	Community Building (00100-BO-DN-I3300)		\$11,550

2.2	Department of Neighborhoods	General Fund (00100)	Community Building (00100-BO-DN-I3300)		\$20,000
2.3	Human Services Department	Human Services Fund (16200)	Leadership and Administration (16200-BO-HS-H5000)		\$15,225
			Promoting Healthy Aging (16200-BO-HS-H6000)		\$200,329
2.4	Human Services Department	Human Services Fund (16200)	Leadership and Administration (16200-BO-HS-H5000)		\$11,113
			Promoting Healthy Aging (16200-BO-HS-H6000)		\$146,224
2.5	Human Services Department	Human Services Fund (16200)	Leadership and Administration (16200-BO-HS-H5000)		\$36,630
			Promoting Healthy Aging (16200-BO-HS-H6000)		\$154,537
			Supporting Affordability and Livability (16200-BO-HS-H1000)		\$327,030
2.6	Human Services Department	Human Services Fund (16200)	Leadership and Administration (16200-BO-HS-H5000)		\$33,817
			Supporting Affordability and Livability (16200-BO-HS-H1000)		\$443,800
2.7	Human Services Department	Human Services Fund (16200)	Supporting Safe Communities (16200-BO-HS-H4000)		\$35,845
2.8	Law Department	General Fund (00100)	Criminal (00100-BO-LW-J1500)		\$210,000
2.9	Executive (Office of Economic Development)	General Fund (00100)	Business Services (00100-BO-ED-X1D00)		\$1,000,000
2.10	Executive (Office of Economic Development)	General Fund (00100)	Business Services (00100-BO-ED-X1D00)		\$500,000

2.11	Executive (Office of Emergency Management)	General Fund (00100)	Office of Emergency Management (00100-BO- EP-10000)		\$443,937
2.12	Executive (Office of Emergency Management)	General Fund (00100)	Office of Emergency Management (00100-BO- EP-10000)		\$100,000
2.13	Executive (Office of Immigrant and Refugee Affairs)	General Fund (00100)	Office of Immigrant and Refugee Affairs (00100- BO-IA-X1N00)		\$51,652
2.14	Executive (Office of Immigrant and Refugee Affairs)	General Fund (00100)	Office of Immigrant and Refugee Affairs (00100- BO-IA-X1N00)		\$865,600
2.15	Executive (Office of Planning and Community Development)	General Fund (00100)	Planning and Community Development (00100-BO- PC-X2P00)		\$1,600,000
2.16	Executive (Office of Planning and Community Development)	General Fund (00100)	Planning and Community Development (00100-BO- PC-X2P00)		\$200,000
2.17	Executive (Office of Sustainability and Environment)	General Fund (00100)	Office of Sustainability and Environment (00100-BO- SE-X1000)		\$7,000
2.18	Seattle Center	Seattle Center Fund (11410)	Monorail Rehabilitation (11410-BC-SC-S9403)	Monorail Improvements (MC-SC- S9403)	\$5,000,000
2.19	Seattle Center	Seattle Center Fund (11410)	Building and Campus Improvements (11410-BC- SC-S03P01)	Armory Rehabilitation (MC-SC- S9113)	\$3,558,960

2.20	Seattle Department of Transportation	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	NE 130th St/NE 125th Corridor Improvements (MC-TR-C123)	\$1,000,000
2.21	Seattle Department of Transportation	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Freight Spot Improvement Program (MC-TR-C047)	\$8,000
2.22	Seattle Department of Transportation	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Pedestrian Master Plan - Crossing Improvements (MC-TR-C061)	\$669,000
2.23	Seattle Department of Transportation	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Next Generation Intelligent Transportation Systems (ITS) (MC-TR-C021)	\$719,250
2.24	Seattle Department of Transportation	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Freight Spot Improvement Program (MC-TR-C047)	\$2,000
2.25	Seattle Department of Transportation	Transportation Fund (13000)	Mobility Operations (13000-BO-TR-17003)		\$364,775
2.26	Seattle Department of Transportation	Transportation Fund (13000)	Mobility Operations (13000-BO-TR-17003)		\$1,200,000
2.27	Seattle Fire Department	General Fund (00100)	Operations (00100-BO-FD-F3000)		\$137,458
2.28	Seattle Fire Department	General Fund (00100)	Operations (00100-BO-FD-F3000)		\$1,893,747
2.29	Seattle Fire Department	General Fund (00100)	Operations (00100-BO-FD-F3000)		\$1,105
2.30	Seattle Fire Department	General Fund (00100)	Operations (00100-BO-FD-F3000)		\$6,000
2.31	Seattle Fire Department	General Fund (00100)	Operations (00100-BO-FD-F3000)		\$223,444

2.32	Seattle Fire Department	General Fund (00100)	Operations (00100-BO-FD-F3000)		\$58,593
2.33	Seattle Fire Department	General Fund (00100)	Operations (00100-BO-FD-F3000)		\$300,000
2.34	Seattle Fire Department	General Fund (00100)	Operations (00100-BO-FD-F3000)		\$45,000
2.35	Seattle Information Technology Department	Information Technology Fund (50410)	Frontline Services and Workplace (50410-BO-IT-D0400)		\$67,747
2.36	Seattle Information Technology Department	Information Technology Fund (50410)	Frontline Services and Workplace (50410-BO-IT-D0400)		\$70,000
2.37	Seattle Municipal Court	General Fund (00100)	Administration (00100-BO-MC-3000)		\$327,779
2.38	Seattle Parks and Recreation	Park And Recreation Fund (10200)	Fix It First (10200-BC-PR-40000)	Major Maintenance and Asset Management (MC-PR-41001)	\$1,000,000
2.39	Seattle Parks and Recreation	Park And Recreation Fund (10200)	Recreation Facility Programs (10200-BO-PR-50000)		\$50,000
2.40	Seattle Parks and Recreation	Park And Recreation Fund (10200)	Recreation Facility Programs (10200-BO-PR-50000)		\$492,383
2.41	Seattle Parks and Recreation	Park And Recreation Fund (10200)	Fix It First (10200-BC-PR-40000)	Major Maintenance and Asset Management (MC-PR-41001)	\$150,000
2.42	Seattle Parks and Recreation	Park And Recreation Fund (10200)	Fix It First (10200-BC-PR-40000)	Soundview Athletic Field Conversion (MC-PR-41074)	\$350,000

2.43	Seattle Parks and Recreation	Park And Recreation Fund (10200)	Fix It First (10200-BC-PR-40000)	Major Maintenance and Asset Management (MC-PR-41001)	\$820,000
2.44	Seattle Parks and Recreation	Park And Recreation Fund (10200)	Fix It First (10200-BC-PR-40000)	Major Maintenance and Asset Management (MC-PR-41001)	\$248,129
2.45	Seattle Parks and Recreation	Park And Recreation Fund (10200)	Fix It First (10200-BC-PR-40000)	Municipal Energy Efficiency Program - Parks (MC-PR-41030)	\$173,050
2.46	Seattle Police Department	General Fund (00100)	Criminal Investigations (00100-BO-SP-P7000)		\$66,931
2.47	Seattle Public Library	Library Fund (10410)	The Seattle Public Library (10410-BO-SPL)		\$90,210
2.48	Seattle Public Utilities	Solid Waste Fund (45010)	Utility Service and Operations (45010-BO-SU-N200B)		\$958,971
2.49	Seattle Fire Department	General Fund (00100)	Operations (00100-BO-FD-F3000)		\$740,000
2.50	Executive (Office of Sustainability and Environment)	General Fund (00100)	Office of Sustainability and Environment (00100-BO-SE-X1000)		\$12,000,000
2.51	Seattle Department of Transportation	Transportation Fund (13000)	Major Maintenance/Replacement (13000-BC-TR-19001)	Urban Forestry Capital Establishment (MC-TR-C050)	\$900,000
Total					\$40,106,821

Unspent funds so appropriated shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance.

CIP Project Allocation modifications for Seattle City Light, Seattle Public Utilities, and the Seattle Department of Transportation in this section shall operate for the purposes of increasing or decreasing the base for the limit imposed by subsection 4(c) of Ordinance 126725.

Section 3. Contingent upon the execution of grant or other funding agreements and receipt of the funds authorized in Section 1 of this ordinance, the following existing appropriations in the 2023 Budget shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance:

Item	Department	Fund	Budget Summary Level/BCL Code	Existing 2023 Appropriations
3.1	Seattle Department of Transportation	Seattle Streetcar Operations (10800)	First Hill Streetcar Operations (10800-BO-TR-12002)	\$298,589
			South Lake Union Streetcar Operations (10800-BO-TR-12001)	\$127,967
3.2	Seattle Department of Transportation	Seattle Streetcar Operations Fund (10800)	First Hill Streetcar Operations (10800-BO-TR-12002)	\$842,215
			South Lake Union Streetcar Operations (10800-BO-TR-12001)	\$360,949

Section 4. Any act consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 5. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

 President _____ of the City Council

Approved / returned unsigned / vetoed this ____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this ____ day of _____, 2023.

Scheereen Dedman, City Clerk

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

No.

Is there financial cost or other impacts of *not* implementing the legislation?

The City would not have available the financial resources that the ordinance accepts.

3.d. Appropriations

This legislation adds, changes, or deletes appropriations.

See Attachment A to this document for additional details.

3.e. Revenues/Reimbursements

This legislation adds, changes, or deletes revenues or reimbursements.

See Attachment A to this document for additional details.

3.f. Positions

This legislation adds, changes, or deletes positions.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

Yes, this legislation impacts a number of departments' 2023 budgets.

b. Is a public hearing required for this legislation?

No

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No

d. Does this legislation affect a piece of property?

No

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities?

Please see Attachment A to this document for additional details.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

Please see Attachment A to this document for additional details.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

Please see Attachment A to this document for additional details.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

Please see Attachment A to this document for additional details.

List attachments/exhibits below:

Summary Attachment A – 2023 Year End Grant Acceptance Detail Table

Item	Department	Source	Description	Fund	Budget Summary Level / BCL Code	Capital Project / ID	Accepted (in Dollars)	Appropriated (in Dollars)
1.1 / 2.1	Department of Neighborhoods	4Culture	This item increases grant-backed appropriation authority by \$11,550 in Department of Neighborhoods, in the General Fund Community Building Budget Control Level (00100-BO-DN-I3300) This annual Preservation Sustained Support Grant from 4Culture, assists with the day-to-day needs of preservation organizations, providing a reliable funding source that promotes stewardship, advocacy, and educational opportunities around historic preservation.	General Fund (00100)	Community Building (00100-BO-DN-I3300)		11,550	11,550
1.2 / 2.2	Department of Neighborhoods	Washington State Department of Archaeology and Historic Preservation	This item increases grant-backed appropriation authority by \$20,000 in Department of Neighborhoods, in the General Fund Community Building Budget Control Level (00100-BO-DN-I3300). This one-time grant from the Washington State Department of Archaeology and Historic Preservation supports preservation of irreplaceable historic and cultural resources as assets for the future.	General Fund (00100)	Community Building (00100-BO-DN-I3300)		20,000	20,000
1.3 / 2.3	Human Services Department	Washington State DSHS	This item increases grant-backed appropriation authority in Human Services Department in the Human Services Fund by \$200,329 in the Promoting Health Aging Budget Control Level (16200-PO-HS-H6000) and \$24,854 in the Leadership & Administration Budget Control Level (16200-PO-HS-H5000). This grant from Washington State DSHS provides state funding for hospital care transitions services. The grant period is 7/1/23-6/30/24.	Human Services Fund (16200)	Leadership and Administration (16200-BO-HS-H5000)		215,554	15,225
1.04 / 2.04	Office of Emergency Management	FEMA via WA State Military Dept., Emergency Mgmt. Div.	This item increases appropriation authority in the Office of Emergency Management BSL by \$3,000 from FEMA Hazard Mitigation Grant Program funds, as a pass-through via WA State Military Department, Emergency Management Division. This project under Presidential Disaster Declaration DR-4539-WA provides funding to retrofit six high voltage transmission towers, and the powerlines they support, to minimize damage and possible cascading collapse of the powerline due to landslides. Proposed project towers are located near WA State Route 530 mileposts 34, 36, and 38.	General Fund (00100)	Promoting Healthy Aging (16200-BO-HS-H6000)		3,000	200,329
1.4 / 2.4	Human Services Department	Washington State DSHS	This item increases grant-backed appropriation authority in Human Services Department in the Human Services Fund by \$146,224 in the Promoting Health Aging Budget Control Level (16200-PO-HS-H6000) and \$11,113 in the Leadership & Administration Budget Control Level (16200-PO-HS-H5000). This grant from Washington State DSHS provides state funding for WA Cares Fund outreach. The grant period is 7/1/23-6/30/24.	Human Services Fund (16200)	Leadership and Administration (16200-BO-HS-H5000)		157,337	11,113
1.07 / 2.07	Seattle City Light	FEMA	This item increases appropriation authority in the SCL Transmission and Distribution BSL by \$54,000 from FEMA Hazard Mitigation Grant Program funds, as a pass-through via WA State Military Department, Emergency Management Division. This project under Presidential Disaster Declaration DR-4539-WA	Light Fund (41000)	Promoting Healthy Aging (16200-BO-HS-H6000)	Transmission Reliability (MC-CL-YT7104)	54,000	146,224

Item	Department	Source	Description	Fund	Budget Summary Level / BCL Code	Capital Project / ID	Accepted (in Dollars)	Appropriated (in Dollars)
			provides funding to retrofit six high voltage transmission towers, and the powerlines they support, to minimize damage and possible cascading collapse of the powerline due to landslides. Proposed project towers are located near WA State Route 530 mileposts 34, 36, and 38.					
1.5 / 2.5	Human Services Department	Washington State DSHS	This item increases grant-backed appropriation authority in Human Services Department in the Human Services Fund by \$154,537 in the Promoting Health Aging Budget Control Level (16200-PO-HS-H6000), \$327,030 in the Supporting Affordability & Livability Budget Control Level (16200-PO-HS-H6000), and \$36,630 in the Leadership & Administration Budget Control Level (16200-PO-HS-H5000). This grant from Washington State DSHS provides the match to the American Rescue Plan Act grant for older adult services. The grant period is 7/1/23-6/30/24.	Human Services Fund (16200)	Leadership and Administration (16200-BO-HS-H5000)		518,197	36,630
1.09	Seattle Department of Transportation	Local Bridge Program	This item accepts a grant award of \$2,502,500 in the Seattle Department of Transportation (SDOT) Transportation Fund Major Maintenance/Replacement Budget Control Level (13000-BC-TR-19001). This is an increase to an existing grant from the Federal Highway Administration (FHWA) through the Local Bridge Program for federal fiscal years 2023-2026. The initial grant was accepted and appropriated in 2022 in Ordinance 126705. This item provides additional grant funding to repair and replace the existing concrete overlay on the S. Spokane Street Viaduct that has visible signs of significant spalling, concrete delamination, and map cracking. There is no matching requirement if funds are obligated prior to September 2026 and a 13.5% matching requirement if obligated after. The grant appropriation request will be submitted in the 2024 budget.	General Fund (00100)	Promoting Healthy Aging (16200-BO-HS-H6000)	Alaskan Way Viaduct Replacement (MC-TR-C066)	2,502,500	154,537
1.10	Seattle Department of Transportation	FHWA	This item accepts a grant award of \$5,480,000 in the Seattle Department of Transportation , Transportation Fund Mobility Capital Budget Control Level (13000-BC-TR-19003). This grant funding is from the Federal Highway Administration through the Congestion Mitigation and Air Quality Grant Program for federal fiscal year 2025. This grant provides funding to the City of Seattle to improve transit access and implement pedestrian and safety improvements along Roosevelt Way NE and 125th St. The grant appropriation request will be submitted in the 2024 budget.	General Fund (00100)	Supporting Affordability and Livability (16200-BO-HS-H1000)	Alaskan Way Viaduct Replacement (MC-TR-C066)	5,480,000	327,030
1.6 / 2.6	Human Services Department	Washington State DSHS	This item increases grant-backed appropriation authority in the Human Services Department by \$33,817 in the Human Services Fund Leadership & Administration Budget Control Level (16200-BO-HS-H5000) and \$443,800 in the Human Services Fund Supporting Affordability & Livability Budget Control Level (16200-BO-HS-H1000). This state grant will provide nutrition programs to older adults. The grant period is 7/1/23-6/30/24.	Human Services Fund (16200)	Leadership and Administration (16200-BO-HS-H5000)		477,617	33,817

Item	Department	Source	Description	Fund	Budget Summary Level / BCL Code	Capital Project / ID	Accepted (in Dollars)	Appropriated (in Dollars)
1.12	Seattle Department of Transportation	FTA	This item accepts up to \$65,000,000 in the Seattle Department of Transportation (SDOT) Transportation Fund Mobility Capital Budget Control Level (13000-BC-TR-19003), contingent upon receipt of final award notice. This grant funding is from the Federal Transit Administration (FTA) through the Section 5309 Fixed Guideway Capital Investment Grants Allocations Small Starts program for federal fiscal year 2023. The grant funding will support the RapidRide J-Line project to implement electric bus rapid transit service between downtown Seattle and the Roosevelt neighborhoods and improve transit capacity, travel time, reliability, and connectivity, while also making related improvements for people walking and bicycling along the corridor.	Transportation Fund (13000)	Supporting Affordability and Livability (16200-BO-HS-H1000)	Arterial Asphalt and Concrete Program (MC-TR-C070)	65,000,000	443,800
1.7 / 2.7	Human Services Department	Seattle Police Foundation	This item increases grant-backed appropriation authority by \$35,845 in Human Services Department in the Human Services Fund Supporting Safe Communities Budget Control Level (16200-PO-HS-H4000). This grant from the Seattle Police Foundation provides funding for the Victim Support Team.	Human Services Fund (16200)	Supporting Safe Communities (16200-BO-HS-H4000)		35,845	35,845
1.8 / 2.8	Law Department	U.S. Department of Transportation National Highway Traffic Safety Administration (NHTSA)	This item increases appropriation authority by \$210,000 in the Criminal BSL (00100-BO-LW-J1500) from the U.S. Department of Transportation National Highway Traffic Safety Administration (NHTSA). This grant continues to support a Traffic Safety Resource prosecutor in the department first established in 2017. This grant covers the period of October 1, 2023 to September 30, 2024 and does not have a matching requirement.	General Fund (00100)	Criminal (00100-BO-LW-J1500)		210,000	210,000
1.9 / 2.9	Office of Economic Development	U.S. Dept of Housing and Urban Development	This item increases grant-backed appropriation authority by \$1,000,000 in the Office of Economic Development, in the General Fund Business Services Budget Control Level (00100-BO-ED-X1D00). This grant is intended to support the El Barrio project in South Park, by providing resources for capital improvements (including new roof, fire suppression) and ADA upgrades to these historic buildings to support a community hub.	General Fund (00100)	Business Services (00100-BO-ED-X1D00)		1,000,000	1,000,000
1.10 / 2.10	Office of Economic Development	U.S. Small Business Administration	This item increases grant-backed appropriation authority by \$500,000 in the Office of Economic Development, in the General Fund Business Services Budget Control Level (00100-BO-ED-X1D00). This grant is intended to support the El Barrio project in South Park, by providing resources to build an entrepreneurial hub in the heart of the commercial district. This includes a development of a commercial kitchen, some commercial space improvements, and programs and services to support Latinx and BIPOC entrepreneurs.	General Fund (00100)	Business Services (00100-BO-ED-X1D00)		500,000	500,000
1.11 / 2.11	Office of Emergency Management	Washington State Military Dept., Emergency	This item increases grant-backed appropriation authority by \$443,937 in the Seattle Office of Emergency Management (OEM) Budget Control Level (BCL): General Fund 00100,	General Fund (00100)	Office of Emergency Management (00100-BO-EP-10000)		443,937	443,937

Item	Department	Source	Description	Fund	Budget Summary Level / BCL Code	Capital Project / ID	Accepted (in Dollars)	Appropriated (in Dollars)
		Management Division (WA EMD)	Budget Summary Level OEM - BO-EP-10000. This grant will provide funding for the City of Seattle Office of Emergency Management to conduct a seismic retrofit of the unreinforced masonry (URM) building Good Shepherd Center- South Annex at 4649 Sunnyside Ave N, Seattle, WA; a community hub owned and operated by Historic Seattle. Historic Seattle will be the project manager (subawardee); OEM will be the grant manager.					
1.12 / 2.12	Office of Emergency Management	City of Tacoma	This item increases revenue backed appropriation authority by \$100,000 in the Seattle Office of Emergency Management (OEM), in Budget Control Level 00100 - OEM - BO-EP-10000. This fee-for-service agreement will provide additional funding for Puget Sound Resilience Hubs work, complementing existing OEM work on resilience hubs through the Regional Catastrophic Preparedness Grant (RCPG22). This funding will support piloting of resilience hub projects within Tacoma neighborhoods, consistent with the RCPG grant regional scope of work. There is no additional match required for this funding, and the completed projects funded by this work may in fact be reported as additional OEM match to the RCPG22 grant.	General Fund (00100)	Office of Emergency Management (00100-BO-EP-10000)		100,000	100,000
1.13 / 2.13	Office of Immigrant and Refugee Affairs	Seattle Housing Authority	This item increases appropriation authority by \$51,652 in the Office of Immigrant and Refugee Affairs (OIRA) General Fund Office of Immigrant and Refugee Affairs Budget Control Level (00100-BO-IA-X1N00) to reflect grant funding from the Seattle Housing Authority (SHA). This grant supports the participation of SHA residents in the New Citizen Program, which provides assistance to income-qualified individuals to apply for naturalization using a case management model. Matching funding is not required. The SHA grant funding is for the calendar year 2023.	General Fund (00100)	Office of Immigrant and Refugee Affairs (00100-BO-IA-X1N00)		51,652	51,652
1.14 / 2.14	Office of Immigrant and Refugee Affairs	Department of Social and Health Services	This item increases appropriation authority by \$865,600 in the Office of Immigrant and Refugee Affairs (OIRA) General Fund Office of Immigrant and Refugee Affairs Budget Control Level (00100-BO-IA-X1N00) to reflect grant funding from the Washington Department of Social and Health Services. This grant supports the participation of State benefits recipients in the New Citizen Program, which provides assistance to income-qualified individuals to apply for naturalization using a case management model. Matching funding is not required. The DSHS grant funding is for state fiscal year 2024 (July 2023 - June 2024).	General Fund (00100)	Office of Immigrant and Refugee Affairs (00100-BO-IA-X1N00)		865,600	865,600
1.15 / 2.15	Office of Planning and Community Development	FHWA/WSDOT	This item increases grant-backed appropriation authority by \$1,600,000 in the General Fund Planning and Community Development budget summary level (00100-BO-PC-X2P00).	General Fund (00100)	Planning and Community Development (00100-BO-PC-X2P00)		1,600,000	1,600,000

Item	Department	Source	Description	Fund	Budget Summary Level / BCL Code	Capital Project / ID	Accepted (in Dollars)	Appropriated (in Dollars)
			This grant funding is from the Reconnecting Communities Pilot Program, a first-of-its-kind initiative to reconnect communities that are cut off from opportunity and burdened by past transportation infrastructure decisions. The grant funding is awarded by the U.S. Federal Highway Administration (FHWA) and will be administered as a pass-through by the Washington State Department of Transportation (WSDOT). The funding will support a planning study, including technical studies and community visioning for removing or restructuring SR-99 where it cuts through the South Park neighborhood, interrupting local roads and connectivity. There is a 20% match requirement to this grant, which OPCD will fulfill through a combination of existing state funding and in-kind staff hours.					
1.16 / 2.16	Office of Planning and Community Development	Washington State	This item increases grant-backed appropriation authority by \$200,000 in the General Fund Planning and Community Development budget summary level (00100-BO-PC-X2P00). This grant funding is from Washington State's multimodal transportation appropriation. The state transportation budget includes a proviso that directs these funds to OPCD. The scope of work is to update and add to the 2020 I-5 Lid Feasibility Study with additional test cases, including ramp changes and ramp removals in downtown Seattle; and alternative assumptions with regards to parking, expansion of Freeway Park, affordable housing, and commercial real estate with a focus on low-income households living and working in the I-5 central Seattle lid study area. The period of performance for this grant is through June 15, 2025. There are no matching requirements.	General Fund (00100)	Planning and Community Development (00100-BO-PC-X2P00)		200,000	200,000
1.17 / 2.17	Office of Sustainability and Environment	King Conservation District Number 9	This item increases the Executive Office of Sustainability & Environment's (OSE - BO-SE-X1000 - Office of Sustainability and Environment BCL) appropriation by \$7,000 to recognize a King Conservation District (KCD) Number 9 grant award. This item provides one-time funds to be spent in 2023 to support the KCD-Seattle Community Partnership (SCP) Grant Review Process to support community leadership in environmental and food justice work. The grant will support community stipends, grant reviewer anti-bias training and interpretation services. There are no matching funds requirements.	General Fund (00100)	Office of Sustainability and Environment (00100-BO-SE-X1000)		7,000	7,000
1.18 / 2.18	Seattle Center	State of Washington	This change request accepts and increases appropriations of \$5,000,000 for the Move Ahead Washington grant in the Seattle Center fund, Monorail Budget Control Level (11410-BC-SC-S9403).	Seattle Center Fund (11410)	Monorail Rehabilitation (11410-BC-SC-S9403)	Monorail Improvements (MC-SC-S9403)	5,000,000	5,000,000

Item	Department	Source	Description	Fund	Budget Summary Level / BCL Code	Capital Project / ID	Accepted (in Dollars)	Appropriated (in Dollars)
			The Seattle Center Monorail station improvements activities will improve station access and accessibility, support a positive passenger experience, and optimize system capacity. Improvements may include and are not limited to raising the station platform, automating the passenger gates at the platform edge and wayfinding.					
1.19 / 2.19	Seattle Center	FEMA	Two Seattle Center facilities, the Armory and the Fisher Pavilion, play a critical role in the city's emergency operations response. The objective of this project is to provide emergency power to the Armory and Fisher Pavilion. The project will remove a 60 years old generator and associated controls located in the Armory and replace it with a new sustainably powered generator capable of supporting emergency functions in both the Armory and Fisher Pavilion. The new sustainable emergency generator will be fueled by solar, wind, fuel cell, and diesel. As a part of this project, we will install new 80kW solar panels and 120kW wind turbines on the roof of the Armory. A 5kW fuel cell system will be installed in the Armory. These sustainable power sources will feed into a 1,106kWh battery storage system that will connect to the generator for use during emergency situations. DERs (Distributed Energy Resources) are used when power and fuel sources to the facilities are cut off. Solar and wind will continue to operate without outside fuel lines and will reduce carbon emissions. Additionally, the generator will have the ability to be diesel powered to improve the reliability and redundancy of the system. Our proposed solution builds resiliency, sustainability, and energy efficiency into the Seattle Center Emergency Operations facilities.	Seattle Center Fund (11410)	Building and Campus Improvements (11410-BC-SC-S03P01)	Armory Rehabilitation (MC-SC-S9113)	3,558,960	3,558,960
1.20 / 2.20	Seattle Department of Transportation	FHWA	This item accepts \$9,800,000 and appropriates a grant award of \$1,000,000 in the Seattle Department of Transportation, Transportation Fund Mobility Capital Budget Control Level (13000-BC-TR-19003), with the remaining programmed to future years in the Capital Improvement Program. This grant funding is from the Washington State Department of Transportation (WSDOT) Regional Mobility Grant (RMG) program for the 2023-2025 and 2025-2027 biennia. This grant provides funding to the City of Seattle to improve transit access and implement multimodal corridor improvements on NE 130th St along Roosevelt Way NE and 125th St. There is a 20% local matching requirement already budgeted in the project.	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	NE 130th St/NE 125th Corridor Improvements (MC-TR-C123)	9,800,000	1,000,000

Item	Department	Source	Description	Fund	Budget Summary Level / BCL Code	Capital Project / ID	Accepted (in Dollars)	Appropriated (in Dollars)
1.21 / 2.21	Seattle Department of Transportation	FRA	This item accepts a grant award of \$2,000,000 in the Seattle Department of Transportation, and appropriates \$8,000 in the Transportation Fund Mobility Capital Budget Control Level (13000-BC-TR-19003). This grant funding is from the Federal Railroad Administration (FRA) through the Railroad Crossing Elimination (RCE) Program for federal fiscal year 2022 . This item provides funding to continue the City of Seattle's commitment to safety improvements by supporting a feasibility study to evaluate the effect of closing railroad crossings and determine appropriate safety improvements at nearby crossings. The funds have a 20% match requirement, which is being satisfied by the corresponding WSDOT grant also seeking acceptance and appropriation in 2023 this legislation.	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Freight Spot Improvement Program (MC-TR-C047)	2,000,000	8,000
1.22 / 2.22	Seattle Department of Transportation	WSDOT	This item accepts a grant award of \$2,556,000, and increases appropriation authority by \$669,000 in the Seattle Department of Transportation, Transportation Fund Mobility Capital Budget Control Level (13000-BC-TR-19003), with the remaining planned in the 2024 CIP. This grant funding is from the Washington State Department of Transportation (WSDOT) through the Pedestrian & Bicycle Safety Program for fiscal years 2023 - 2025. This item provides funding to enhance the City of Seattle's pedestrian scale lighting in the Chinatown, International District, and Little Saigon neighborhoods. This grant has no matching requirement.	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Pedestrian Master Plan - Crossing Improvements (MC-TR-C061)	2,556,000	669,000
1.23	Seattle Department of Transportation	WSDOT	This item accepts a grant award of \$500,000 in the Seattle Department of Transportation, Transportation Fund Mobility Capital Budget Control Level (13000-BC-TR-19003). This is a change in purpose for an existing grant, and the grant funds are from the Washington State Department of Transportation (WSDOT) through the Connecting Washington – Pedestrian & Bicycle State Funding program for the 2023-27 biennia. The initial grant was accepted and appropriated in 2022 in Ordinances 126705 and 126706, respectively, to integrate bicycle and pedestrian facilities around Elliott Bay. The purpose of the grant has since been updated, and this item now provides grant funding to construct a protected bike lane on Alaskan Way to provide a continuous bike facility along Seattle's central waterfront. There is no matching requirement.	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Bike Master Plan - Protected Bike Lanes (MC-TR-C062)	500,000	
1.24 / 2.23	Seattle Department of Transportation	USDOT via Sound Transit	This item accepts and appropriates a grant subaward of \$719,250 in the Seattle Department of Transportation (SDOT) Transportation Fund Mobility-Capital Budget Control Level (13000-BC-TR-19003). This grant funding was awarded to the Central Puget Sound Regional Transit Authority by the U.S. Department of Transportation through the Strengthening	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Next Generation Intelligent Transportation Systems (ITS) (MC-TR-C021)	719,250	719,250

Item	Department	Source	Description	Fund	Budget Summary Level / BCL Code	Capital Project / ID	Accepted (in Dollars)	Appropriated (in Dollars)
			Mobility and Revolutionizing Transportation (SMART) grant program for the federal fiscal year 2023. Sound Transit is awarding the funds to the Seattle Department of Transportation through a subaward agreement to fund work on the Next Gen ITS project. This item provides funding to plan, implement and evaluate new technologies that enhance safety for community members along Martin Luther King Jr. Way South. There is no match requirement.					
1.25 / 2.24	Seattle Department of Transportation	WSDOT	This item accepts \$400,000 and appropriates a grant award of \$2,000 in 2023 in the Seattle Department of Transportation, Transportation Fund Mobility Capital Budget Control Level (13000-BC-TR-19003). This grant funding is from the Washington State Department of Transportation (WSDOT) through the Moving Ahead Washington – Railroad Crossing Grant Program State Match program for federal fiscal year 2022. This item provides funding to continue the City of Seattle's commitment to safety improvements by supporting a feasibility study to evaluate the effect of closing railroad crossings and determine appropriate safety improvements at nearby crossings. This grant has no match requirement.	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	Freight Spot Improvement Program (MC-TR-C047)	400,000	2,000
1.26	Seattle Department of Transportation	FTA	This item accepts a grant for \$298,589 in SDOT's Seattle Streetcar Fund Streetcar Operations - First Hill Budget Control Level (10800-BO-TR-12002) and \$127,967 in SDOT's Seattle Streetcar Fund Streetcar Operations - South Lake Union BCL (10800-BO-TR-12001). This grant funding is from the Federal Transit Administration through the 5307 Urbanized Area Formula Funding Grant Program to maintain the Seattle Streetcar, including preventive and major maintenance, vehicle maintenance, and guideway work. The appropriation for this 2023 grant is included in SDOT's baseline budget; therefore, no appropriation increase is associated with this item.	Seattle Streetcar Operations (10800)	First Hill Streetcar Operations (10800-BO-TR-12002) South Lake Union Streetcar Operations (10800-BO-TR-12001)		426,556	
1.27 / 2.25	Seattle Department of Transportation	WSDOT	This item accepts \$1,459,100 in grant funding and increases appropriation authority by \$364,775 in the Seattle Department of Transportation, in the Transportation Fund Mobility-Operations Budget Control Level (13000-BO-TR-17003). This increase is a necessary part of SDOT's agreement with the Washington State for the Reimbursable Commute Trip Reduction Project. The funding agreement is over three years with 25%, or \$364,775, will be spent in 2023. The remainder of the grant funding will be budgeted in 2024 and 2025.	Transportation Fund (13000)	Mobility Operations (13000-BO-TR-17003)		1,459,100	364,775
1.28 / 2.26	Seattle Department of Transportation	FHWA	This item accepts a grant award and increases appropriation authority by \$1,200,000 in the Seattle Department of Transportation, Transportation Fund Mobility Operations Budget Control Level (13000-BO-TR-17003). This grant	Transportation Fund (13000)	Mobility Operations (13000-BO-TR-17003)		1,200,000	1,200,000

			substance use disorders or other behavioral health needs and engages individuals with community-based therapeutic interventions. There are no matching requirements.					
1.40 / 2.38	Seattle Parks and Recreation	Seattle School District	This item increases appropriation authority by \$1,000,000 in the Seattle Parks and Recreation Department in the Park and Recreation Fund Fix It First Budget Control Level (10200-BC-PR-40000). This request is necessary to support the Major Maintenance Backlog Master Project (MC-PR-41001) and will be used towards the design, construction, renovation, updates, and establishing ongoing operations, maintenance, and programming of three existing synthetic turf fields. Seattle Parks and Recreation (SPR) and the School District have a signed Interlocal Cooperative Agreement regarding this work which formalizes the funding which the School District will reimburse SPR for monies spent on the resurfacing of the playing fields.	Park And Recreation Fund (10200)	Fix It First (10200-BC-PR-40000)	Major Maintenance and Asset Management (MC-PR-41001)	1,000,000	1,000,000
1.41 / 2.39	Seattle Parks and Recreation	Seattle Public Schools	This item increases appropriation authority by \$50,000 in the Seattle Parks and Recreation Department in the Park and Recreation Fund Recreation Facility Programs Budget Control Level (10200-BO-PR-50000). This contract from Seattle Public Schools provides student support at Broadview Thompson within the Extended Learning OPS Master Project (MO-PR-51009), and will be used towards the CLC - McClure MS project (PRR0903). The contract expires 08/31/23.	Park And Recreation Fund (10200)	Recreation Facility Programs (10200-BO-PR-50000)		50,000	50,000
1.42 / 2.40	Seattle Parks and Recreation	School's Out Washington	This item increases appropriation authority by \$492,383 in the Seattle Parks and Recreation Department in the Park and Recreation Fund Recreation Facility Programs Budget Control Level (10200-BO-PR-50000). This School's Out Washington contract supports the Extended Learning OPS Master Project (MO-PR-51009), and will be used towards the CLC - Northgate ES project (PRR0908). This is the remaining portion of a reimbursable contract for \$611,900 covering a three year period, from August 2022 - June 2025.	Park And Recreation Fund (10200)	Recreation Facility Programs (10200-BO-PR-50000)		492,383	492,383
1.43 / 2.41	Seattle Parks and Recreation	King County	This item increases appropriation authority by \$150,000 in the Park and Recreation Fund Fix It First Control Level (10200-BC-PR-40000). This grant from King County supports the Major Maintenance and Asset Management Master project (MC-PR-41001), and will be used towards planning for the phase II work at the existing park. This is a reimbursable grant, requiring a match which the project budget satisfies. The grant expiration date is 6/30/24.	Park And Recreation Fund (10200)	Fix It First (10200-BC-PR-40000)	Major Maintenance and Asset Management (MC-PR-41001)	150,000	150,000
1.44 / 2.42	Seattle Parks and Recreation	Washington State Youth Athletic Facilities Grant	This item increases appropriation authority by \$350,000 in the Seattle Parks and Recreation Department in the Park and Recreation Fund Fix It First Control Level (10200-BC-PR-	Park And Recreation Fund (10200)	Fix It First (10200-BC-PR-40000)	Soundview Athletic Field Conversion (MC-PR-41074)	350,000	350,000

Item	Department	Source	Description	Fund	Budget Summary Level / BCL Code	Capital Project / ID	Accepted (in Dollars)	Appropriated (in Dollars)
			40000). This Washington State Youth Athletic Facilities Grant supports the Soundview Athletic Field Conversion project (MC-PR-41074), and will be used towards converting Soundview Athletic field to synthetic. More specifically, this grant will be used to help renovate a grass playfield in the 10-acre Soundview Park in northwest Seattle. The City will install about 114,000 square feet of multi-purpose, all-weather synthetic turf and field amenities including lights, a looped walking path, bleachers, and seat walls. The City also will improve the storm water, electrical, and irrigation systems This is a reimbursable grant, requiring a match which the project budget satisfies. The grant expiration date will be determined once a contract is signed.					
1.45 / 2.43	Seattle Parks and Recreation	Washington State Boating Facilities Program Grant	This item increases appropriation authority by \$820,000 in the Park and Recreation Fund Fix It First Control Level (10200-BC-PR-40000). This Washington State Boating Facilities Program Grant supports the Major Maintenance and Asset Management Master project (MC-PR-41001), and will be used towards the Stan Sayres Boat Ramp Renovation project. More specifically, this grant will be used to redevelop the Stan Sayres boat launch, one of only two public boat launches, on Lake Washington. The project will create four launch lanes and add boarding floats to two piers to create queuing space and make entering and exiting boats easier and will also add grated gangways to connect the piers to the boarding floats, making it safer and easier to access This is a reimbursable grant, requiring a match which the project budget satisfies. The grant expiration date will be determined once a contract is signed.	Park And Recreation Fund (10200)	Fix It First (10200-BC-PR-40000)	Major Maintenance and Asset Management (MC-PR-41001)	820,000	820,000
1.46 / 2.44	Seattle Parks and Recreation	Washington State RCO	This item increases appropriation authority by \$248,129 in the Park and Recreation Fund Fix It First Control Level (10200-BC-PR-40000). This Washington State RCO grant supports the Major Maintenance and Asset Management Master project (MC-PR-41001), and will be used towards the Garfield Super Block project. More specifically, this grant will be used to complete construction ready design plans, permitting and cultural resources review for Garfield Super Block, located in Seattle's Central District. The City is working in collaboration with the Garfield Super Block Coalition to plan for new additions and renovations to the park including play structures, sports courts, picnic areas and accessible pathways. This is a reimbursable planning grant, and does not require a match. The grant expiration date will be determined once a contract is signed.	Park And Recreation Fund (10200)	Fix It First (10200-BC-PR-40000)	Major Maintenance and Asset Management (MC-PR-41001)	248,129	248,129

1.52/ 2.50	Office of Sustainability and Environment	U.S. Department of Agriculture (U.S. Forest Service)	This item accepts a grant and increases General Fund appropriations by \$12,000,000 in the Office of Sustainability & Environment Budget Control Level (00100-BO-SE-X1000) from the US Forest Service. This grant was enabled by the federal Inflation Reduction Act and aims to create programs and policies that address urban forestry community engagement and planning, tree planting and stewardship, natural area restoration, and youth leadership and job training. Acceptance of this grant will help the City meet its climate justice goals as it relates to developing the tree canopy. Three sunset positions will be created to support the work of this grant including a Grant Initiative Manager (Strategic Advisor 2) , a Community Engagement Coordinator (Planning & Development Specialist, Sr) and a Finance & Data Management Lead (Finance Analyst, Sr). The grant does not require a match.	General Fund (00100)	Sustainability and Environment (00100-BO-SE-X1000)		12,000,000	12,000,000

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to City finances; creating a fund for depositing settlement proceeds related to opioid manufacturing, distribution, and dispensing; creating a Budget Summary Level; and ratifying and confirming certain prior acts.

WHEREAS, the people of the state of Washington, city of Seattle, and other communities have been harmed by entities within the Pharmaceutical Supply Chain who manufacture, distribute, and dispense prescription opioids; and

WHEREAS, local and state governments, through their elected representatives and counsel, have engaged in litigation seeking to hold these entities within the Pharmaceutical Supply Chain of prescription opioids accountable for the damage they have caused to the local and state governments; and

WHEREAS, local and state governments and elected officials share a common desire to abate and alleviate the impacts of harms caused by these entities within the Pharmaceutical Supply Chain and strive to ensure that principles of equity and equitable service delivery are factors considered in the allocation and use of Opioid Funds; and

WHEREAS, certain local and state governments engaged in litigation regarding these matters and will receive funds from entities within the Pharmaceutical Supply Chain; and

WHEREAS, on April 17, 2023, Mayor Bruce Harrell issued Executive Order 2023-04, Addressing the Opioid and Synthetic Drug Crisis in Seattle; and

WHEREAS, the proceeds from legal settlements can be used to support many of the actions and strategies outlined in Executive Order 2023-04 and other strategies and actions designed to combat the opioid

crisis in Seattle; and

WHEREAS, the Mayor and Council wish to create a Fund as a place to accept, track, and appropriate settlement proceeds; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. A new Opioid Settlement Proceed Fund is created in the City Treasury effective immediately, to which revenues may be deposited, and from which associated expenditures may be paid, including, but not limited to, City administration costs for the purposes described in Section 2 of this ordinance.

Section 2. The purpose of the Opioid Settlement Proceed Fund is to address the opioid crisis in Seattle by providing resources to City departments, organizations, and individuals. Permissible uses include:

- Supporting the treatment of opioid use disorder (OUD);
- Supporting people in treatment and recovery from OUD;
- Connecting people who have OUD or are at risk of developing OUD to support they need;
- Addressing the needs of criminal-justice-involved persons with OUD;
- Addressing the needs of pregnant or parenting women and their families, including babies with neonatal abstinence syndrome;
- Preventing over-prescription and ensuring appropriate prescribing and dispensing of opioids;
- Preventing misuse of opioids;
- Preventing overdose deaths and other harms;
- Supporting first responders relating to the opioid epidemic;
- Supporting leadership, planning, and coordination to abate the opioid epidemic;
- Supporting training to abate the opioid epidemic;
- Supporting opioid abatement research; and

- Other uses explicitly permitted by future payments the City receives as a result of settlements with entities within the pharmaceutical supply chain who manufacture, distribute, and dispense prescription opioids.

Section 3. The new Opioid Settlement Proceed Fund shall receive revenues in the form of proceeds related to settlements stemming from lawsuits regarding opioid manufacturing, distribution, sales, and use. The Fund shall receive earnings on its positive balances and pay interest on its negative balances.

Section 4. The Director of Finance shall have responsibility for administering the Opioid Settlement Proceed Fund. The Director of Finance is authorized to create other accounts and subaccounts as may be needed to implement the Fund’s purpose and intent as established by this ordinance.

Section 5. A new Budget Summary Level is created for purposes of distributing settlement proceeds accepted by the City into the Opioid Settlement Proceed Fund. The purpose of the Opioid Settlement Proceed Fund Budget Summary Level is to provide resources for addressing impacts of the opioid crisis in Seattle.

Section 6. Any act consistent with the authority of this ordinance taken prior to its effective date is ratified and confirmed.

Section 7. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2023, and signed by me in open session in authentication of its passage this _____ day of _____, 2023.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2023.

Bruce A. Harrell, Mayor

Filed by me this _____ day of _____, 2023.

Scheereen Dedman, City Clerk

(Seal)

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact:	CBO Contact:
City Budget Office		Adam Schaefer

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to City finances; creating a fund for depositing settlement proceeds related to opioid manufacturing, distribution, and dispensing; creating a Budget Summary Level; and ratifying and confirming certain prior acts.

Summary and Background of the Legislation: Seattle, like many local governments in the United States, has seen severe impacts as a result of manufacturing, distributing and dispensing prescription opioids, including increased addiction, homelessness, overdose, and death.

Local and state governments have litigated claims against the people and businesses involved in the manufacturing, distributing and dispensing of prescription opioids and, in some cases, have negotiated settlement claims as a result of litigation. As the City receives proceeds from these settlements, it is crucial to have a way to track these discrete, purpose-restricted funds.

This legislation establishes a new Fund in the City Treasury specifically for the purpose of receiving, tracking, and appropriating funds from current and future proceeds of opioid litigation. The legislation also restricts the uses of received funds to align with the uses permitted by settlement and other agreements with legal and governmental partners.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? Yes No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? Yes No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No.

Are there financial costs or other impacts of *not* implementing the legislation?
Not implementing this legislation will make it more difficult to monitor a discrete funding source that is legally limited to be used for certain purposes.

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**
The Office of City Finance will administer the Fund and other City departments (most notably the Human Services Department) will be responsible for expending the funds.
- b. Is a public hearing required for this legislation?**
No.
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- d. Does this legislation affect a piece of property?**
No.
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
The opioid crisis in Seattle, like much of the United States, has disproportionately impacted people of color and other historically vulnerable communities. While this legislation that creates a fund is unlikely to have a direct impact on RSJI principles, the proceeds that are spent from the Fund will endeavor to assist people suffering or at risk of suffering from opioid use disorder.
- f. Climate Change Implications**
- 1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No.
 - 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**
No.
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**
N/A

Summary Attachments:

Summary Attachment 1 – One Washington Memorandum of Understanding between Washington Municipalities

Summary Attachment 2 – Executive Order 2023-04 (Opioid Crisis)

ONE WASHINGTON MEMORANDUM OF UNDERSTANDING BETWEEN WASHINGTON MUNICIPALITIES

Whereas, the people of the State of Washington and its communities have been harmed by entities within the Pharmaceutical Supply Chain who manufacture, distribute, and dispense prescription opioids;

Whereas, certain Local Governments, through their elected representatives and counsel, are engaged in litigation seeking to hold these entities within the Pharmaceutical Supply Chain of prescription opioids accountable for the damage they have caused to the Local Governments;

Whereas, Local Governments and elected officials share a common desire to abate and alleviate the impacts of harms caused by these entities within the Pharmaceutical Supply Chain throughout the State of Washington, and strive to ensure that principals of equity and equitable service delivery are factors considered in the allocation and use of Opioid Funds; and

Whereas, certain Local Governments engaged in litigation and the other cities and counties in Washington desire to agree on a form of allocation for Opioid Funds they receive from entities within the Pharmaceutical Supply Chain.

Now therefore, the Local Governments enter into this Memorandum of Understanding (“MOU”) relating to the allocation and use of the proceeds of Settlements described.

A. Definitions

As used in this MOU:

1. “Allocation Regions” are the same geographic areas as the existing nine (9) Washington State Accountable Community of Health (ACH) Regions and have the purpose described in Section C below.
2. “Approved Purpose(s)” shall mean the strategies specified and set forth in the Opioid Abatement Strategies attached as Exhibit A.
3. “Effective Date” shall mean the date on which a court of competent jurisdiction enters the first Settlement by order or consent decree. The Parties anticipate that more than one Settlement will be administered according to the terms of this MOU, but that the first entered Settlement will trigger allocation of Opioid Funds in accordance with Section B herein, and the formation of the Opioid Abatement Councils in Section C.
4. “Litigating Local Government(s)” shall mean Local Governments that filed suit against any Pharmaceutical Supply Chain Participant pertaining to the Opioid epidemic prior to September 1, 2020.

5. “Local Government(s)” shall mean all counties, cities, and towns within the geographic boundaries of the State of Washington.

6. “National Settlement Agreements” means the national opioid settlement agreements dated July 21, 2021 involving Johnson & Johnson, and distributors AmerisourceBergen, Cardinal Health and McKesson as well as their subsidiaries, affiliates, officers, and directors named in the National Settlement Agreements, including all amendments thereto.

7. “Opioid Funds” shall mean monetary amounts obtained through a Settlement as defined in this MOU.

8. “Opioid Abatement Council” shall have the meaning described in Section C below.

9. “Participating Local Government(s)” shall mean all counties, cities, and towns within the geographic boundaries of the State that have chosen to sign on to this MOU. The Participating Local Governments may be referred to separately in this MOU as “Participating Counties” and “Participating Cities and Towns” (or “Participating Cities or Towns,” as appropriate) or “Parties.”

10. “Pharmaceutical Supply Chain” shall mean the process and channels through which controlled substances are manufactured, marketed, promoted, distributed, and/or dispensed, including prescription opioids.

11. “Pharmaceutical Supply Chain Participant” shall mean any entity that engages in or has engaged in the manufacture, marketing, promotion, distribution, and/or dispensing of a prescription opioid, including any entity that has assisted in any of the above.

12. “Qualified Settlement Fund Account,” or “QSF Account,” shall mean an account set up as a qualified settlement fund, 468b fund, as authorized by Treasury Regulations 1.468B-1(c) (26 CFR §1.468B-1).

13. “Regional Agreements” shall mean the understanding reached by the Participating Local Counties and Cities within an Allocation Region governing the allocation, management, distribution of Opioid Funds within that Allocation Region.

14. “Settlement” shall mean the future negotiated resolution of legal or equitable claims against a Pharmaceutical Supply Chain Participant when that resolution has been jointly entered into by the Participating Local Governments. “Settlement” expressly does not include a plan of reorganization confirmed under Title 11 of the United States Code, irrespective of the extent to which Participating Local Governments vote in favor of or otherwise support such plan of reorganization.

15. “Trustee” shall mean an independent trustee who shall be responsible for the ministerial task of releasing Opioid Funds from a QSF account to Participating Local Governments as authorized herein and accounting for all payments into or out of the trust.

16. The “Washington State Accountable Communities of Health” or “ACH” shall mean the nine (9) regions described in Section C below.

B. Allocation of Settlement Proceeds for Approved Purposes

1. All Opioid Funds shall be held in a QSF and distributed by the Trustee, for the benefit of the Participating Local Governments, only in a manner consistent with this MOU. Distribution of Opioid Funds will be subject to the mechanisms for auditing and reporting set forth below to provide public accountability and transparency.

2. All Opioid Funds, regardless of allocation, shall be utilized pursuant to Approved Purposes as defined herein and set forth in Exhibit A. Compliance with this requirement shall be verified through reporting, as set out in this MOU.

3. The division of Opioid Funds shall first be allocated to Participating Counties based on the methodology utilized for the Negotiation Class in *In Re: National Prescription Opiate Litigation*, United States District Court for the Northern District of Ohio, Case No. 1:17-md-02804-DAP. The allocation model uses three equally weighted factors: (1) the amount of opioids shipped to the county; (2) the number of opioid deaths that occurred in that county; and (3) the number of people who suffer opioid use disorder in that county. The allocation percentages that result from application of this methodology are set forth in the “County Total” line item in Exhibit B. In the event any county does not participate in this MOU, that county’s percentage share shall be reallocated proportionally amongst the Participating Counties by applying this same methodology to only the Participating Counties.

4. Allocation and distribution of Opioid Funds within each Participating County will be based on regional agreements as described in Section C.

C. Regional Agreements

1. For the purpose of this MOU, the regional structure for decision-making related to opioid fund allocation will be based upon the nine (9) pre-defined Washington State Accountable Community of Health Regions (Allocation Regions). Reference to these pre-defined regions is solely for the purpose of

drawing geographic boundaries to facilitate regional agreements for use of Opioid Funds. The Allocation Regions are as follows:

- King County (Single County Region)
- Pierce County (Single County Region)
- Olympic Community of Health Region (Clallam, Jefferson, and Kitsap Counties)
- Cascade Pacific Action Alliance Region (Cowlitz, Grays Harbor, Lewis, Mason, Pacific, Thurston, and Wahkiakum Counties)
- North Sound Region (Island, San Juan, Skagit, Snohomish, and Whatcom Counties)
- SouthWest Region (Clark, Klickitat, and Skamania Counties)
- Greater Columbia Region (Asotin, Benton, Columbia, Franklin, Garfield, Kittitas, Walla Walla, Whitman, and Yakima Counties)
- Spokane Region (Adams, Ferry, Lincoln, Pend Oreille, Spokane, and Stevens Counties)
- North Central Region (Chelan, Douglas, Grant, and Okanogan Counties)

2. Opioid Funds will be allocated, distributed and managed within each Allocation Region, as determined by its Regional Agreement as set forth below. If an Allocation Region does not have a Regional Agreement enumerated in this MOU, and does not subsequently adopt a Regional Agreement per Section C.5, the default mechanism for allocation, distribution and management of Opioid Funds described in Section C.4.a will apply. Each Allocation Region must have an OAC whose composition and responsibilities shall be defined by Regional Agreement or as set forth in Section C.4.

3. King County's Regional Agreement is reflected in Exhibit C to this MOU.

4. All other Allocation Regions that have not specified a Regional Agreement for allocating, distributing and managing Opioid Funds, will apply the following default methodology:

a. Opioid Funds shall be allocated within each Allocation Region by taking the allocation for a Participating County from Exhibit B and apportioning those funds between that Participating County and its Participating Cities and Towns. Exhibit B also sets forth the allocation to the Participating Counties and the Participating Cities or Towns within the Counties based on a default allocation formula. As set forth above in Section B.3, to determine the allocation to a county, this formula utilizes: (1) the amount of opioids shipped to the county; (2) the number of opioid deaths that occurred in that county; and (3) the number of people who suffer opioid use disorder in that county. To determine the allocation within a county, the formula utilizes historical federal data showing how the specific Counties and the Cities and Towns within the Counties have

made opioids epidemic-related expenditures in the past. This is the same methodology used in the National Settlement Agreements for county and intra-county allocations. A Participating County, and the Cities and Towns within it may enter into a separate intra-county allocation agreement to modify how the Opioid Funds are allocated amongst themselves, provided the modification is in writing and agreed to by all Participating Local Governments in the County. Such an agreement shall not modify any of the other terms or requirements of this MOU.

b. 10% of the Opioid Funds received by the Region will be reserved, on an annual basis, for administrative costs related to the OAC. The OAC will provide an annual accounting for actual costs and any reserved funds that exceed actual costs will be reallocated to Participating Local Governments within the Region.

c. Cities and towns with a population of less than 10,000 shall be excluded from the allocation, with the exception of cities and towns that are Litigating Participating Local Governments. The portion of the Opioid Funds that would have been allocated to a city or town with a population of less than 10,000 that is not a Litigating Participating Local Government shall be redistributed to Participating Counties in the manner directed in C.4.a above.

d. Each Participating County, City, or Town may elect to have its share re-allocated to the OAC in which it is located. The OAC will then utilize this share for the benefit of Participating Local Governments within that Allocation Region, consistent with the Approved Purposes set forth in Exhibit A. A Participating Local Government's election to forego its allocation of Opioid Funds shall apply to all future allocations unless the Participating Local Government notifies its respective OAC otherwise. If a Participating Local Government elects to forego its allocation of the Opioid Funds, the Participating Local Government shall be excused from the reporting requirements set forth in this Agreement.

e. Participating Local Governments that receive a direct payment maintain full discretion over the use and distribution of their allocation of Opioid Funds, provided the Opioid Funds are used solely for Approved Purposes. Reasonable administrative costs for a Participating Local Government to administer its allocation of Opioid Funds shall not exceed actual costs or 10% of the Participating Local Government's allocation of Opioid Funds, whichever is less.

f. A Local Government that chooses not to become a Participating Local Government will not receive a direct allocation of Opioid Funds. The portion of the Opioid Funds that would have been allocated to a Local Government that is not a Participating Local Government shall be

redistributed to Participating Counties in the manner directed in C.4.a above.

g. As a condition of receiving a direct payment, each Participating Local Government that receives a direct payment agrees to undertake the following actions:

- i. Developing a methodology for obtaining proposals for use of Opioid Funds.
- ii. Ensuring there is opportunity for community-based input on priorities for Opioid Fund programs and services.
- iii. Receiving and reviewing proposals for use of Opioid Funds for Approved Purposes.
- iv. Approving or denying proposals for use of Opioid Funds for Approved Purposes.
- v. Receiving funds from the Trustee for approved proposals and distributing the Opioid Funds to the recipient.
- vi. Reporting to the OAC and making publicly available all decisions on Opioid Fund allocation applications, distributions and expenditures.

h. Prior to any distribution of Opioid Funds within the Allocation Region, The Participating Local Governments must establish an Opioid Abatement Council (OAC) to oversee Opioid Fund allocation, distribution, expenditures and dispute resolution. The OAC may be a preexisting regional body or may be a new body created for purposes of executing the obligations of this MOU.

i. The OAC for each Allocation Region shall be composed of representation from both Participating Counties and Participating Towns or Cities within the Region. The method of selecting members, and the terms for which they will serve will be determined by the Allocation Region's Participating Local Governments. All persons who serve on the OAC must have work or educational experience pertaining to one or more Approved Uses.

j. The Regional OAC will be responsible for the following actions:

- i. Overseeing distribution of Opioid Funds from Participating Local Governments to programs and services within the Allocation Region for Approved Purposes.

- ii. Annual review of expenditure reports from Participating Local Jurisdictions within the Allocation Region for compliance with Approved Purposes and the terms of this MOU and any Settlement.
- iii. In the case where Participating Local Governments chose to forego their allocation of Opioid Funds:
 - (i) Approving or denying proposals by Participating Local Governments or community groups to the OAC for use of Opioid Funds within the Allocation Region.
 - (ii) Directing the Trustee to distribute Opioid Funds for use by Participating Local Governments or community groups whose proposals are approved by the OAC.
 - (iii) Administrating and maintaining records of all OAC decisions and distributions of Opioid Funds.
- iv. Reporting and making publicly available all decisions on Opioid Fund allocation applications, distributions and expenditures by the OAC or directly by Participating Local Governments.
- v. Developing and maintaining a centralized public dashboard or other repository for the publication of expenditure data from any Participating Local Government that receives Opioid Funds, and for expenditures by the OAC in that Allocation Region, which it shall update at least annually.
- vi. If necessary, requiring and collecting additional outcome-related data from Participating Local Governments to evaluate the use of Opioid Funds, and all Participating Local Governments shall comply with such requirements.
- vii. Hearing complaints by Participating Local Governments within the Allocation Region regarding alleged failure to (1) use Opioid Funds for Approved Purposes or (2) comply with reporting requirements.

5. Participating Local Governments may agree and elect to share, pool, or collaborate with their respective allocation of Opioid Funds in any manner they choose by adopting a Regional Agreement, so long as such sharing, pooling, or collaboration is used for Approved Purposes and complies with the terms of this MOU and any Settlement.

6. Nothing in this MOU should alter or change any Participating Local Government's rights to pursue its own claim. Rather, the intent of this MOU is to join all parties who wish to be Participating Local Governments to agree upon an allocation formula for any Opioid Funds from any future binding Settlement with one or more Pharmaceutical Supply Chain Participants for all Local Governments in the State of Washington.

7. If any Participating Local Government disputes the amount it receives from its allocation of Opioid Funds, the Participating Local Government shall alert its respective OAC within sixty (60) days of discovering the information underlying the dispute. Failure to alert its OAC within this time frame shall not constitute a waiver of the Participating Local Government's right to seek recoupment of any deficiency in its allocation of Opioid Funds.

8. If any OAC concludes that a Participating Local Government's expenditure of its allocation of Opioid Funds did not comply with the Approved Purposes listed in Exhibit A, or the terms of this MOU, or that the Participating Local Government otherwise misused its allocation of Opioid Funds, the OAC may take remedial action against the alleged offending Participating Local Government. Such remedial action is left to the discretion of the OAC and may include withholding future Opioid Funds owed to the offending Participating Local Government or requiring the offending Participating Local Government to reimburse improperly expended Opioid Funds back to the OAC to be re-allocated to the remaining Participating Local Governments within that Region.

9. All Participating Local Governments and OAC shall maintain all records related to the receipt and expenditure of Opioid Funds for no less than five (5) years and shall make such records available for review by any other Participating Local Government or OAC, or the public. Records requested by the public shall be produced in accordance with Washington's Public Records Act RCW 42.56.001 *et seq.* Records requested by another Participating Local Government or an OAC shall be produced within twenty-one (21) days of the date the record request was received. This requirement does not supplant any Participating Local Government or OAC's obligations under Washington's Public Records Act RCW 42.56.001 *et seq.*

D. Payment of Counsel and Litigation Expenses

1. The Litigating Local Governments have incurred attorneys' fees and litigation expenses relating to their prosecution of claims against the Pharmaceutical Supply Chain Participants, and this prosecution has inured to the benefit of all Participating Local Governments. Accordingly, a Washington

Government Fee Fund (“GFF”) shall be established that ensures that all Parties that receive Opioid Funds contribute to the payment of fees and expenses incurred to prosecute the claims against the Pharmaceutical Supply Chain Participants, regardless of whether they are litigating or non-litigating entities.

2. The amount of the GFF shall be based as follows: the funds to be deposited in the GFF shall be equal to 15% of the total cash value of the Opioid Funds.

3. The maximum percentage of any contingency fee agreement permitted for compensation shall be 15% of the portion of the Opioid Funds allocated to the Litigating Local Government that is a party to the contingency fee agreement, plus expenses attributable to that Litigating Local Government. Under no circumstances may counsel collect more for its work on behalf of a Litigating Local Government than it would under its contingency agreement with that Litigating Local Government.

4. Payments from the GFF shall be overseen by a committee (the “Opioid Fee and Expense Committee”) consisting of one representative of the following law firms: (a) Keller Rohrback L.L.P.; (b) Hagens Berman Sobol Shapiro LLP; (c) Goldfarb & Huck Roth Riojas, PLLC; and (d) Napoli Shkolnik PLLC. The role of the Opioid Fee and Expense Committee shall be limited to ensuring that the GFF is administered in accordance with this Section.

5. In the event that settling Pharmaceutical Supply Chain Participants do not pay the fees and expenses of the Participating Local Governments directly at the time settlement is achieved, payments to counsel for Participating Local Governments shall be made from the GFF over not more than three years, with 50% paid within 12 months of the date of Settlement and 25% paid in each subsequent year, or at the time the total Settlement amount is paid to the Trustee by the Defendants, whichever is sooner.

6. Any funds remaining in the GFF in excess of: (i) the amounts needed to cover Litigating Local Governments’ private counsel’s representation agreements, and (ii) the amounts needed to cover the common benefit tax discussed in Section C.8 below (if not paid directly by the Defendants in connection with future settlement(s)), shall revert to the Participating Local Governments *pro rata* according to the percentages set forth in Exhibits B, to be used for Approved Purposes as set forth herein and in Exhibit A.

7. In the event that funds in the GFF are not sufficient to pay all fees and expenses owed under this Section, payments to counsel for all Litigating Local Governments shall be reduced on a *pro rata* basis. The Litigating Local Governments will not be responsible for any of these reduced amounts.

8. The Parties anticipate that any Opioid Funds they receive will be subject to a common benefit “tax” imposed by the court in *In Re: National Prescription Opiate Litigation*, United States District Court for the Northern District of Ohio, Case No. 1:17-md-02804-DAP (“Common Benefit Tax”). If this occurs, the Participating Local Governments shall first seek to have the settling defendants pay the Common Benefit Tax. If the settling defendants do not agree to pay the Common Benefit Tax, then the Common Benefit Tax shall be paid from the Opioid Funds and by both litigating and non-litigating Local Governments. This payment shall occur prior to allocation and distribution of funds to the Participating Local Governments. In the event that GFF is not fully exhausted to pay the Litigating Local Governments’ private counsel’s representation agreements, excess funds in the GFF shall be applied to pay the Common Benefit Tax (if any).

E. General Terms

1. If any Participating Local Government believes another Participating Local Government, not including the Regional Abatement Advisory Councils, violated the terms of this MOU, the alleging Participating Local Government may seek to enforce the terms of this MOU in the court in which any applicable Settlement(s) was entered, provided the alleging Participating Local Government first provides the alleged offending Participating Local Government notice of the alleged violation(s) and a reasonable opportunity to cure the alleged violation(s). In such an enforcement action, any alleging Participating Local Government or alleged offending Participating Local Government may be represented by their respective public entity in accordance with Washington law.

2. Nothing in this MOU shall be interpreted to waive the right of any Participating Local Government to seek judicial relief for conduct occurring outside the scope of this MOU that violates any Washington law. In such an action, the alleged offending Participating Local Government, including the Regional Abatement Advisory Councils, may be represented by their respective public entities in accordance with Washington law. In the event of a conflict, any Participating Local Government, including the Regional Abatement Advisory Councils and its Members, may seek outside representation to defend itself against such an action.

3. Venue for any legal action related to this MOU shall be in the court in which the Participating Local Government is located or in accordance with the court rules on venue in that jurisdiction. This provision is not intended to expand the court rules on venue.

4. This MOU may be executed in two or more counterparts, each of which shall be deemed an original, but all of which shall constitute one and the same instrument. The Participating Local Governments approve the use of electronic signatures for execution of this MOU. All use of electronic signatures

shall be governed by the Uniform Electronic Transactions Act. The Parties agree not to deny the legal effect or enforceability of the MOU solely because it is in electronic form or because an electronic record was used in its formation. The Participating Local Government agree not to object to the admissibility of the MOU in the form of an electronic record, or a paper copy of an electronic document, or a paper copy of a document bearing an electronic signature, on the grounds that it is an electronic record or electronic signature or that it is not in its original form or is not an original.

5. Each Participating Local Government represents that all procedures necessary to authorize such Participating Local Government's execution of this MOU have been performed and that the person signing for such Party has been authorized to execute the MOU.

EXHIBIT A

OPIOID ABATEMENT STRATEGIES

PART ONE: TREATMENT

A. TREAT OPIOID USE DISORDER (OUD)

Support treatment of Opioid Use Disorder (OUD) and any co-occurring Substance Use Disorder or Mental Health (SUD/MH) conditions, co-usage, and/or co-addiction through evidence-based, evidence-informed, or promising programs or strategies that may include, but are not limited to, the following:

1. Expand availability of treatment for OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction, including all forms of Medication-Assisted Treatment (MAT) approved by the U.S. Food and Drug Administration.
2. Support and reimburse services that include the full American Society of Addiction Medicine (ASAM) continuum of care for OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction, including but not limited to:
 - a. Medication-Assisted Treatment (MAT);
 - b. Abstinence-based treatment;
 - c. Treatment, recovery, or other services provided by states, subdivisions, community health centers; non-for-profit providers; or for-profit providers;
 - d. Treatment by providers that focus on OUD treatment as well as treatment by providers that offer OUD treatment along with treatment for other SUD/MH conditions, co-usage, and/or co-addiction; or
 - e. Evidence-informed residential services programs, as noted below.
3. Expand telehealth to increase access to treatment for OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction, including MAT, as well as counseling, psychiatric support, and other treatment and recovery support services.
4. Improve oversight of Opioid Treatment Programs (OTPs) to assure evidence-based, evidence-informed, or promising practices such as adequate methadone dosing.
5. Support mobile intervention, treatment, and recovery services, offered by qualified professionals and service providers, such as peer recovery coaches, for persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction and for persons who have experienced an opioid overdose.
6. Support treatment of mental health trauma resulting from the traumatic experiences of the opioid user (e.g., violence, sexual assault, human trafficking, or adverse childhood experiences) and family members (e.g., surviving family members after an overdose

or overdose fatality), and training of health care personnel to identify and address such trauma.

7. Support detoxification (detox) and withdrawal management services for persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction, including medical detox, referral to treatment, or connections to other services or supports.
8. Support training on MAT for health care providers, students, or other supporting professionals, such as peer recovery coaches or recovery outreach specialists, including telementoring to assist community-based providers in rural or underserved areas.
9. Support workforce development for addiction professionals who work with persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction.
10. Provide fellowships for addiction medicine specialists for direct patient care, instructors, and clinical research for treatments.
11. Provide funding and training for clinicians to obtain a waiver under the federal Drug Addiction Treatment Act of 2000 (DATA 2000) to prescribe MAT for OUD, and provide technical assistance and professional support to clinicians who have obtained a DATA 2000 waiver.
12. Support the dissemination of web-based training curricula, such as the American Academy of Addiction Psychiatry's Provider Clinical Support Service-Opioids web-based training curriculum and motivational interviewing.
13. Support the development and dissemination of new curricula, such as the American Academy of Addiction Psychiatry's Provider Clinical Support Service for Medication-Assisted Treatment.

B. SUPPORT PEOPLE IN TREATMENT AND RECOVERY

Support people in treatment for and recovery from OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction through evidence-based, evidence-informed, or promising programs or strategies that may include, but are not limited to, the following:

1. Provide the full continuum of care of recovery services for OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction, including supportive housing, residential treatment, medical detox services, peer support services and counseling, community navigators, case management, and connections to community-based services.
2. Provide counseling, peer-support, recovery case management and residential treatment with access to medications for those who need it to persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction.

3. Provide access to housing for people with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction, including supportive housing, recovery housing, housing assistance programs, or training for housing providers.
4. Provide community support services, including social and legal services, to assist in deinstitutionalizing persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction.
5. Support or expand peer-recovery centers, which may include support groups, social events, computer access, or other services for persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction.
6. Provide employment training or educational services for persons in treatment for or recovery from OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction.
7. Identify successful recovery programs such as physician, pilot, and college recovery programs, and provide support and technical assistance to increase the number and capacity of high-quality programs to help those in recovery.
8. Engage non-profits, faith-based communities, and community coalitions to support people in treatment and recovery and to support family members in their efforts to manage the opioid user in the family.
9. Provide training and development of procedures for government staff to appropriately interact and provide social and other services to current and recovering opioid users, including reducing stigma.
10. Support stigma reduction efforts regarding treatment and support for persons with OUD, including reducing the stigma on effective treatment.

**C. CONNECT PEOPLE WHO NEED HELP TO THE HELP THEY NEED
(CONNECTIONS TO CARE)**

Provide connections to care for people who have – or are at risk of developing – OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction through evidence-based, evidence-informed, or promising programs or strategies that may include, but are not limited to, the following:

1. Ensure that health care providers are screening for OUD and other risk factors and know how to appropriately counsel and treat (or refer if necessary) a patient for OUD treatment.
2. Support Screening, Brief Intervention and Referral to Treatment (SBIRT) programs to reduce the transition from use to disorders.
3. Provide training and long-term implementation of SBIRT in key systems (health, schools, colleges, criminal justice, and probation), with a focus on youth and young adults when transition from misuse to opioid disorder is common.

4. Purchase automated versions of SBIRT and support ongoing costs of the technology.
5. Support training for emergency room personnel treating opioid overdose patients on post-discharge planning, including community referrals for MAT, recovery case management or support services.
6. Support hospital programs that transition persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction, or persons who have experienced an opioid overdose, into community treatment or recovery services through a bridge clinic or similar approach.
7. Support crisis stabilization centers that serve as an alternative to hospital emergency departments for persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction or persons that have experienced an opioid overdose.
8. Support the work of Emergency Medical Systems, including peer support specialists, to connect individuals to treatment or other appropriate services following an opioid overdose or other opioid-related adverse event.
9. Provide funding for peer support specialists or recovery coaches in emergency departments, detox facilities, recovery centers, recovery housing, or similar settings; offer services, supports, or connections to care to persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction or to persons who have experienced an opioid overdose.
10. Provide funding for peer navigators, recovery coaches, care coordinators, or care managers that offer assistance to persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction or to persons who have experienced on opioid overdose.
11. Create or support school-based contacts that parents can engage with to seek immediate treatment services for their child; and support prevention, intervention, treatment, and recovery programs focused on young people.
12. Develop and support best practices on addressing OUD in the workplace.
13. Support assistance programs for health care providers with OUD.
14. Engage non-profits and the faith community as a system to support outreach for treatment.
15. Support centralized call centers that provide information and connections to appropriate services and supports for persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction.
16. Create or support intake and call centers to facilitate education and access to treatment, prevention, and recovery services for persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction.

17. Develop or support a National Treatment Availability Clearinghouse – a multistate/nationally accessible database whereby health care providers can list locations for currently available in-patient and out-patient OUD treatment services that are accessible on a real-time basis by persons who seek treatment.

D. ADDRESS THE NEEDS OF CRIMINAL-JUSTICE-INVOLVED PERSONS

Address the needs of persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction who are involved – or are at risk of becoming involved – in the criminal justice system through evidence-based, evidence-informed, or promising programs or strategies that may include, but are not limited to, the following:

1. Support pre-arrest or post-arrest diversion and deflection strategies for persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction, including established strategies such as:
 - a. Self-referral strategies such as the Angel Programs or the Police Assisted Addiction Recovery Initiative (PAARI);
 - b. Active outreach strategies such as the Drug Abuse Response Team (DART) model;
 - c. “Naloxone Plus” strategies, which work to ensure that individuals who have received naloxone to reverse the effects of an overdose are then linked to treatment programs or other appropriate services;
 - d. Officer prevention strategies, such as the Law Enforcement Assisted Diversion (LEAD) model;
 - e. Officer intervention strategies such as the Leon County, Florida Adult Civil Citation Network or the Chicago Westside Narcotics Diversion to Treatment Initiative;
 - f. Co-responder and/or alternative responder models to address OUD-related 911 calls with greater SUD expertise and to reduce perceived barriers associated with law enforcement 911 responses; or
 - g. County prosecution diversion programs, including diversion officer salary, only for counties with a population of 50,000 or less. Any diversion services in matters involving opioids must include drug testing, monitoring, or treatment.
2. Support pre-trial services that connect individuals with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction to evidence-informed treatment, including MAT, and related services.
3. Support treatment and recovery courts for persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction, but only if these courts provide referrals to evidence-informed treatment, including MAT.

4. Provide evidence-informed treatment, including MAT, recovery support, or other appropriate services to individuals with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction who are incarcerated in jail or prison.
5. Provide evidence-informed treatment, including MAT, recovery support, or other appropriate services to individuals with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction who are leaving jail or prison have recently left jail or prison, are on probation or parole, are under community corrections supervision, or are in re-entry programs or facilities.
6. Support critical time interventions (CTI), particularly for individuals living with dual-diagnosis OUD/serious mental illness, and services for individuals who face immediate risks and service needs and risks upon release from correctional settings.
7. Provide training on best practices for addressing the needs of criminal-justice-involved persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction to law enforcement, correctional, or judicial personnel or to providers of treatment, recovery, case management, or other services offered in connection with any of the strategies described in this section.

E. ADDRESS THE NEEDS OF PREGNANT OR PARENTING WOMEN AND THEIR FAMILIES, INCLUDING BABIES WITH NEONATAL ABSTINENCE SYNDROME

Address the needs of pregnant or parenting women with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction, and the needs of their families, including babies with neonatal abstinence syndrome, through evidence-based, evidence-informed, or promising programs or strategies that may include, but are not limited to, the following:

1. Support evidence-based, evidence-informed, or promising treatment, including MAT, recovery services and supports, and prevention services for pregnant women – or women who could become pregnant – who have OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction, and other measures to educate and provide support to families affected by Neonatal Abstinence Syndrome.
2. Provide training for obstetricians or other healthcare personnel that work with pregnant women and their families regarding treatment of OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction.
3. Provide training to health care providers who work with pregnant or parenting women on best practices for compliance with federal requirements that children born with Neonatal Abstinence Syndrome get referred to appropriate services and receive a plan of safe care.
4. Provide enhanced support for children and family members suffering trauma as a result of addiction in the family; and offer trauma-informed behavioral health treatment for adverse childhood events.

5. Offer enhanced family supports and home-based wrap-around services to persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction, including but not limited to parent skills training.
6. Support for Children's Services – Fund additional positions and services, including supportive housing and other residential services, relating to children being removed from the home and/or placed in foster care due to custodial opioid use.

PART TWO: PREVENTION

F. PREVENT OVER-PRESCRIBING AND ENSURE APPROPRIATE PRESCRIBING AND DISPENSING OF OPIOIDS

Support efforts to prevent over-prescribing and ensure appropriate prescribing and dispensing of opioids through evidence-based, evidence-informed, or promising programs or strategies that may include, but are not limited to, the following:

1. Training for health care providers regarding safe and responsible opioid prescribing, dosing, and tapering patients off opioids.
2. Academic counter-detailing to educate prescribers on appropriate opioid prescribing.
3. Continuing Medical Education (CME) on appropriate prescribing of opioids.
4. Support for non-opioid pain treatment alternatives, including training providers to offer or refer to multi-modal, evidence-informed treatment of pain.
5. Support enhancements or improvements to Prescription Drug Monitoring Programs (PDMPs), including but not limited to improvements that:
 - a. Increase the number of prescribers using PDMPs;
 - b. Improve point-of-care decision-making by increasing the quantity, quality, or format of data available to prescribers using PDMPs or by improving the interface that prescribers use to access PDMP data, or both; or
 - c. Enable states to use PDMP data in support of surveillance or intervention strategies, including MAT referrals and follow-up for individuals identified within PDMP data as likely to experience OUD.
6. Development and implementation of a national PDMP – Fund development of a multistate/national PDMP that permits information sharing while providing appropriate safeguards on sharing of private health information, including but not limited to:
 - a. Integration of PDMP data with electronic health records, overdose episodes, and decision support tools for health care providers relating to OUD.

- b. Ensuring PDMPs incorporate available overdose/naloxone deployment data, including the United States Department of Transportation's Emergency Medical Technician overdose database.
7. Increase electronic prescribing to prevent diversion or forgery.
8. Educate Dispensers on appropriate opioid dispensing.

G. PREVENT MISUSE OF OPIOIDS

Support efforts to discourage or prevent misuse of opioids through evidence-based, evidence-informed, or promising programs or strategies that may include, but are not limited to, the following:

1. Corrective advertising or affirmative public education campaigns based on evidence.
2. Public education relating to drug disposal.
3. Drug take-back disposal or destruction programs.
4. Fund community anti-drug coalitions that engage in drug prevention efforts.
5. Support community coalitions in implementing evidence-informed prevention, such as reduced social access and physical access, stigma reduction – including staffing, educational campaigns, support for people in treatment or recovery, or training of coalitions in evidence-informed implementation, including the Strategic Prevention Framework developed by the U.S. Substance Abuse and Mental Health Services Administration (SAMHSA).
6. Engage non-profits and faith-based communities as systems to support prevention.
7. Support evidence-informed school and community education programs and campaigns for students, families, school employees, school athletic programs, parent-teacher and student associations, and others.
8. School-based or youth-focused programs or strategies that have demonstrated effectiveness in preventing drug misuse and seem likely to be effective in preventing the uptake and use of opioids.
9. Support community-based education or intervention services for families, youth, and adolescents at risk for OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction.
10. Support evidence-informed programs or curricula to address mental health needs of young people who may be at risk of misusing opioids or other drugs, including emotional modulation and resilience skills.
11. Support greater access to mental health services and supports for young people, including services and supports provided by school nurses or other school staff, to

address mental health needs in young people that (when not properly addressed) increase the risk of opioid or other drug misuse.

H. PREVENT OVERDOSE DEATHS AND OTHER HARMS

Support efforts to prevent or reduce overdose deaths or other opioid-related harms through evidence-based, evidence-informed, or promising programs or strategies that may include, but are not limited to, the following:

1. Increase availability and distribution of naloxone and other drugs that treat overdoses for first responders, overdose patients, opioid users, families and friends of opioid users, schools, community navigators and outreach workers, drug offenders upon release from jail/prison, or other members of the general public.
2. Provision by public health entities of free naloxone to anyone in the community, including but not limited to provision of intra-nasal naloxone in settings where other options are not available or allowed.
3. Training and education regarding naloxone and other drugs that treat overdoses for first responders, overdose patients, patients taking opioids, families, schools, and other members of the general public.
4. Enable school nurses and other school staff to respond to opioid overdoses, and provide them with naloxone, training, and support.
5. Expand, improve, or develop data tracking software and applications for overdoses/naloxone revivals.
6. Public education relating to emergency responses to overdoses.
7. Public education relating to immunity and Good Samaritan laws.
8. Educate first responders regarding the existence and operation of immunity and Good Samaritan laws.
9. Expand access to testing and treatment for infectious diseases such as HIV and Hepatitis C resulting from intravenous opioid use.
10. Support mobile units that offer or provide referrals to treatment, recovery supports, health care, or other appropriate services to persons that use opioids or persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction.
11. Provide training in treatment and recovery strategies to health care providers, students, peer recovery coaches, recovery outreach specialists, or other professionals that provide care to persons who use opioids or persons with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction.
12. Support screening for fentanyl in routine clinical toxicology testing.

PART THREE: OTHER STRATEGIES

I. FIRST RESPONDERS

In addition to items C8, D1 through D7, H1, H3, and H8, support the following:

1. Current and future law enforcement expenditures relating to the opioid epidemic.
2. Educate law enforcement or other first responders regarding appropriate practices and precautions when dealing with fentanyl or other drugs.

J. LEADERSHIP, PLANNING AND COORDINATION

Support efforts to provide leadership, planning, and coordination to abate the opioid epidemic through activities, programs, or strategies that may include, but are not limited to, the following:

1. Community regional planning to identify goals for reducing harms related to the opioid epidemic, to identify areas and populations with the greatest needs for treatment intervention services, or to support other strategies to abate the opioid epidemic described in this opioid abatement strategy list.
2. A government dashboard to track key opioid-related indicators and supports as identified through collaborative community processes.
3. Invest in infrastructure or staffing at government or not-for-profit agencies to support collaborative, cross-system coordination with the purpose of preventing overprescribing, opioid misuse, or opioid overdoses, treating those with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction, supporting them in treatment or recovery, connecting them to care, or implementing other strategies to abate the opioid epidemic described in this opioid abatement strategy list.
4. Provide resources to staff government oversight and management of opioid abatement programs.

K. TRAINING

In addition to the training referred to in various items above, support training to abate the opioid epidemic through activities, programs, or strategies that may include, but are not limited to, the following:

1. Provide funding for staff training or networking programs and services to improve the capability of government, community, and not-for-profit entities to abate the opioid crisis.
2. Invest in infrastructure and staffing for collaborative cross-system coordination to prevent opioid misuse, prevent overdoses, and treat those with OUD and any co-occurring SUD/MH conditions, co-usage, and/or co-addiction, or implement other

strategies to abate the opioid epidemic described in this opioid abatement strategy list (e.g., health care, primary care, pharmacies, PDMPs, etc.).

L. RESEARCH

Support opioid abatement research that may include, but is not limited to, the following:

1. Monitoring, surveillance, and evaluation of programs and strategies described in this opioid abatement strategy list.
2. Research non-opioid treatment of chronic pain.
3. Research on improved service delivery for modalities such as SBIRT that demonstrate promising but mixed results in populations vulnerable to opioid use disorders.
4. Research on innovative supply-side enforcement efforts such as improved detection of mail-based delivery of synthetic opioids.
5. Expanded research on swift/certain/fair models to reduce and deter opioid misuse within criminal justice populations that build upon promising approaches used to address other substances (e.g. Hawaii HOPE and Dakota 24/7).
6. Research on expanded modalities such as prescription methadone that can expand access to MAT.

KING COUNTY REGIONAL AGREEMENT

King County intends to explore coordination with its cities and towns to facilitate a Regional Agreement for Opioid Fund allocation. Should some cities and towns choose not to participate in a Regional Agreement, this shall not preclude coordinated allocation for programs and services between the County and those cities and towns who elect to pursue a Regional Agreement. As contemplated in C.5 of the MOU, any Regional Agreement shall comply with the terms of the MOU and any Settlement. If no Regional Agreement is achieved, the default methodology for allocation in C.4 of the MOU shall apply.

**Office of the Mayor****City of Seattle**

Bruce A. Harrell, Mayor

Executive Order 2023-04: Addressing the Opioid and Synthetic Drug Crisis in Seattle

An Executive Order directing City departments to build, invest, and expand the City's public health infrastructure in partnership with other stakeholders to further combat the opioid and synthetic drug crisis.

WHEREAS, opioid use disorder is a leading cause of preventable death in the United States and has caused significant mortality and morbidity in the City of Seattle and King County; and

WHEREAS, the COVID-19 pandemic has exacerbated mental health conditions and economic stressors, which are common risk factors for unsafe opioid use; and

WHEREAS, substance use disorders affect brain function and behaviors that cause negative outcomes for individuals, their social networks and the community; and

WHEREAS, opioids and synthetic drugs, most notably fentanyl and methamphetamine, are highly addictive, cheap, ubiquitous, and deadly; and

WHEREAS, fentanyl is a powerful synthetic opioid, up to 50 times stronger than heroin and 100x stronger than morphine, that can quickly cause respiratory depression and is often mixed with substances to increase euphoric effects; and

WHEREAS, fentanyl can be mixed with many types of substances and is especially dangerous when the person using drugs does not realize that fentanyl may be present as an additive; and

WHEREAS, the Centers for Disease Control and Prevention cites the prevalence of illicitly manufactured fentanyl, also known as non-pharmaceutical fentanyl, including fentanyl analogs, as contributing to the rise in overdose deaths nationwide; and

WHEREAS, from April 2020 to April 2021, 100,306 people died from opioid overdoses in the United States, with two-thirds of those deaths attributed to fentanyl; and

WHEREAS, on April 11, 2023, the Biden Administration designated a fentanyl-laced drug cocktail an "emerging threat" to public safety, the first time in American history that any federal administration has made this declaration and committed to "cracking down on the production, sales and trafficking of illicit fentanyl to help save lives, protect public health, and improve the public safety of our communities;" and

WHEREAS, there were 589 overdose deaths in Seattle in 2022, with the majority attributed to fentanyl and methamphetamines, compared to 342 in 2021, an increase of 72%; and

WHEREAS, in King County, there were 712 fentanyl-involved overdose deaths in 2022, compared to 385 such deaths in 2021, an 85% increase. Methamphetamine-involved deaths increased from 365 in 2021 to 528 in 2022, a 45% increase; and

WHEREAS, in both 2021 and 2022, overdose was the leading cause of unintentional fatal injury in King County; and

WHEREAS, the City will continue to build on its investments delivering care to the most vulnerable and those suffering from substance use disorders. This includes, but is not limited to, LEAD, REACH, and the Regional Homelessness Authority; and

WHEREAS, the City of Seattle will continue its partnership with local, regional, and federal stakeholders to address the public safety and public health impacts opioids and synthetic drug use has on our communities;

NOW, THEREFORE, I, Bruce A. Harrell, Mayor of Seattle, hereby order the following actions to comprehensively address these concerns, to reduce levels of addiction in Seattle and mitigate the harm that it causes to our community, to preserve life, and to disrupt the sale and use of drugs in public places:

- A.** The Seattle Fire Department will launch a pilot expansion of its Health One program to include an overdose response unit dedicated to quickly engaging overdose survivors to increase acceptance of services or referrals for support, providing warm handoffs for opioid treatment through same-day or next-day follow ups to non-transported overdose patients, in coordination with DCHS and its network of community providers.
- B.** In cooperation with King County, the Washington Health Care Authority, Washington State University, Plymouth Housing, the King County Department of Community and Human Services (DCHS), and DCHS's existing contingency management program, the City will launch a new non-clinic based contingency management pilot program that will provide incentives to those enrolling and staying in a substance treatment program to reduce their consumption of synthetic opioids, stimulants, and alcohol. The City may also supplement existing programs. This evidence-based approach has been cited as a highly effective treatment for substance abuse disorders.
- C.** The City will explore funding for and site additional naloxone access locations in areas in the City where overdose rates are highest.
- D.** The City will work to expand access to buprenorphine and methadone in high overdose areas.
- E.** The City will site, explore funding for, and work with the University of Washington Addictions, Drug and Alcohol Institute (UW ADAI), and County partners to establish a post overdose diversion facility where EMS can bring people after non-fatal overdoses to recover, get stabilized on medications, and access resources.

- F. The City will advocate for the legalization of fentanyl testing strips and drug checking services to make this harm reduction strategy more widely available for those struggling with substance abuse disorders.
- G. The City's Department of Education and Early Learning (DEEL) will partner with DCHS and Seattle Public Schools (SPS) around trainings on opioid and synthetic drug use and substance abuse disorders. The City will also offer stipends to Parent Teacher Student Associations (PTSA's) and other nonprofit organizations who organize and host education programs to increase awareness among young people and their parents and guardians around the risks of opioids and synthetic drugs.
- H. The City will convene a workgroup to map out the various local, county and state programs and services available to treat and respond to the opioid and synthetic drug crisis. This time-limited workgroup will be tasked with identifying gaps in our current systems and making recommendations on how to better coordinate a treatment-first approach to reducing substance abuse disorders and overdose rates. The workgroup will also assess ongoing investments and programs to determine what is working well and how existing investments could be expanded to serve more people. The City would consider the recommendations of the workgroup in any decisions it makes for use of Opioid Settlement funds.
- I. Recognizing the harm caused by illegal opioids and synthetic drugs, the Seattle Police Department will prioritize enforcing sales and distribution related crimes to the fullest extent permissible. The City will convene a task force and invite the Seattle City Attorney's Office, King County Prosecuting Attorney's Office, and federal, and state partners, including the United States Attorney for the Western District of Washington, the Drug Enforcement Administration, the Federal Bureau of Investigation, and the Department of Homeland Security, to collaborate on and develop innovative approaches to target dealers and traffickers of illegal drugs.
- J. Finally, in an effort to fully leverage all available resources to support the rebuilding of a healthy Seattle community, the City will seek to pursue additional upcoming Federal investments announced by the Biden Administration on April 11, 2023 in order to expand the prevention, treatment, harm reduction, and recovery support services critical to our region's health.

This Executive Order will be in effect until rescinded or modified by the Mayor.

Any questions regarding this Executive Order should be directed to Dan Eder, Director of Policy, at Dan.Eder@seattle.gov, Office of the Mayor.

Dated this 17th day of April, 2023.

Bruce A. Harrell
Mayor of Seattle

Introduction

The City of Seattle and its more than 13,000 employees build and maintain infrastructure, provide utility service, support the needs of the city’s residents, and create recreational, cultural, and other enriching opportunities. In providing excellent service, these employees use and maintain dozens of city-owned properties, a fleet of vehicles ranging from fire trucks to golf carts, and equipment and facilities necessary to complete the City’s mission.

Budgeting for a large organization with many functions is a crucial and complex process. In order to produce a balanced budget the City relies upon solid forecasts incorporating items which are constantly changing (such as the price of fuel), analyzing economic activity (as it impacts tax revenues, among other budgetary components), and evaluating demand for services (from electric and water utility service, to parking meters, and access to parks/library services).

City of Seattle Budget Process

In its simplest terms, the City budget is proposed by the Mayor (Executive), checked for compliance with the law (City Attorney), and amended and passed by the City Council (Legislative) before returning to the Mayor for their approval and signature.

The City of Seattle utilizes a modified biennial (two-year) budget process in which the City Council approves funding for year one while endorsing the amounts for year two. 2024 is year two of the current biennium and this book is designed to provide updates and discussion on how 2024 funding and service delivery levels differ relative to the 2024 endorsed levels.

The budget itself is composed of two main documents: the operating budget and the capital improvement program (CIP) budget. The operating budget is primarily composed of expenditures required by the City to deliver the day-to-day array of City services. The CIP budget consists of large expenditures on infrastructure and other capital projects.

Charts summarizing the City’s budget process and organization can be found at the end of this section.

Budget Preparation

For 2024, the budget development process differs in that the beginning point for the mid-biennial budget is the 2024 Endorsed Budget.

During this process, the Office of Economic and Revenue Forecasts (OERF), in conjunction with the City Budget Office (CBO) updates and compares the revenue forecasts utilized in the 2024 Endorsed Budget relative to current economic conditions in order to determine if the endorsed budget remains in balance. In addition, costs to maintain current service levels are updated based on factors such as inflation and compared to the revised revenue forecast. If revenues are not sufficient to cover the cost of current services, the City must identify changes to close the gap – either through reductions or increased revenues or a combination of both. If the revenue forecast shows that additional resources are available, then the budget process identifies new or expanded programs to meet the evolving demands for City services. Regardless, the City is required by state law to prepare a balanced budget.

Introduction & Budget Process

Annually, CBO provides guidance to departments regarding budget submissions in early spring. In early June, CBO receives departmental operating budget and CIP submittals, including all position (employee) changes. Mayoral review and evaluation of department submittals takes place through the end of August. CBO, in conjunction with individual departments, then finalizes the operating and CIP budgets. As 2024 is year two of a biennium, the proposed budget updates are not intended to include any significant new budget programs or policy shifts but rather to maintain services levels and make strategic investments where appropriate.

In late September, the Mayor submits the proposed mid-biennial budget updates and CIP to the City Council. In addition to the budget documents, CBO prepares supporting legislation and other related documents.

The City Council then conducts public hearings and holds committee meetings in open session to discuss budget requests with department representatives and CBO staff. Councilmembers then recommend specific budget actions for consideration by their colleagues.

During the budget review process, the City Council may choose to explain its budget actions further by developing statements of legislative intent and budget guidance statements for future budget action. Intent statements describe the Council's expectations in making budget decisions and generally require affected departments to report back to the City Council on results.

After completing the public hearing and deliberative processes the City Council votes to adopt the budget, incorporating its desired budget changes, in late November. The Mayor can choose to approve the Council's budget, veto it, or let it become law without mayoral signature. The Mayor must veto the entire budget or none of it, as there is no line-item veto in Seattle. Copies of budget documents are available for public inspection at the CBO offices, at the Seattle Public Library, and on the Internet at <http://www.seattle.gov/budget>.

During the year, the City may have a need to change the adopted budget to respond to evolving needs. The City makes such changes through supplemental budget appropriation ordinances. A majority of the City Council may, by ordinance, eliminate, decrease, or re-appropriate any unspent appropriations during the year. The City Council, generally with a three-fourths vote, may also increase appropriations from available money to meet necessary expenditures that were not foreseeable earlier. Additional unforeseeable appropriations related to settlement of claims, emergency conditions, or laws enacted since passage of the annual operating budget ordinance require approval by a two-thirds vote of the City Council. Absent such changes, departments are legally required to stay within their annual budget appropriation.

Reader's Guide

This reader's guide describes the structure of the mid-biennial budget book and outlines its content, as it differs from a proposed budget for a new biennium. This budget book is designed to present budget information in an accessible and transparent manner – the way decision-makers consider the various proposals with a focus on how this document and details differ from the 2024 budget endorsed by the City Council.

A companion document, the 2024-2029 Proposed Capital Improvement Program (CIP), identifies expenditures and fund sources associated with the development and rehabilitation of major City facilities/infrastructure, such as streets, parks, utilities, and buildings over the next six years. The CIP also shows the City's financial contribution to projects owned and operated by other jurisdictions or institutions. The CIP fulfills the budgeting and financial requirements of the Capital Facilities Element of Seattle's Comprehensive Plan by providing detailed information on the capacity impact of new and improved capital facilities.

The 2023-2024 Proposed Mid-Biennial Budget Adjustments and 2024-2029 Proposed CIP can also be found online at the City Budget Office's webpage. In addition to PDF files containing the proposed budget adjustments and proposed CIP, the site contains department-customized expenditures and revenues.

The 2023-2024 Proposed Mid-Biennial Budget Adjustments

This document is a description of the proposed mid-biennial spending plan for 2024 as compared to the Council-endorsed 2024 budget. It contains the following elements:

- **Proposed Budget Executive Summary** – A narrative describing the current economy, highlighting key factors relevant in developing the budget document, and how the document maintains a balanced budget and provides for targeted investments for the community;
- **Summary Tables** – a set of tables that inventory and summarize expected revenues and spending for 2024;
- **General Fund Revenue Overview** – a narrative describing the City's General Fund revenues, or those revenues available to support general government purposes, and the factors affecting the level of resources available to support City spending;
- **Selected Financial Policies** – a description of the policies that govern the City's approach to revenue estimation, debt management, expenditure projections, maintenance of fund balances, and other financial responsibilities;
- **Departmental Budgets** – City department-level descriptions of their mid-biennial spending plans as compared to the 2024 Endorsed Budget
- **Appendix** – an array of supporting documents including long-range financial plans, summary of cost allocation factors for internal City services; a summary of position changes by department contained in the 2023-2024 Proposed Mid-Biennial Budget Adjustments; and a glossary.

Departmental Budget Pages: A Closer Look

The budget presentations for individual City departments (including offices, boards, and commissions) constitute the heart of this document. They are organized alphabetically within seven functional clusters:

- Arts, Culture, & Recreation;
- Education & Human Services;
- Livable and Inclusive Communities;
- Public Safety;
- Utilities, Transportation & Environment; and
- Administration.

Each cluster comprises several departments sharing a related functional focus, as shown on the organizational chart following this reader's guide. Departments are composed of one or more budget control levels, which in turn may be composed of one or more programs. Budget control levels are the level at which the City Council makes appropriations.

As indicated, the proposed mid-biennial budget appropriations are presented in this document by department and budget summary level. At the department level, the reader will also see references to the underlying fund sources (General Fund and Other) for the department's budgeted resources. The City accounts for its revenues and expenditures according to a system of funds. In general, funds are established to account for specific revenues and permitted expenditures associated with those revenues. For example, the City's share of motor fuel taxes must be spent on road-related transportation activities and projects, and are accounted for in a fund in the Transportation Fund. Other revenues without statutory restrictions, such as sales and property taxes (except voter-approved property taxes), are available for general purposes and are accounted for in the City's General Fund. For many departments, such as the Seattle Department of Transportation, several funds, including the General Fund, provide the resources and account for the expenditures of the department. For several other departments, the General Fund is the sole source of available resources.

Reader's Guide

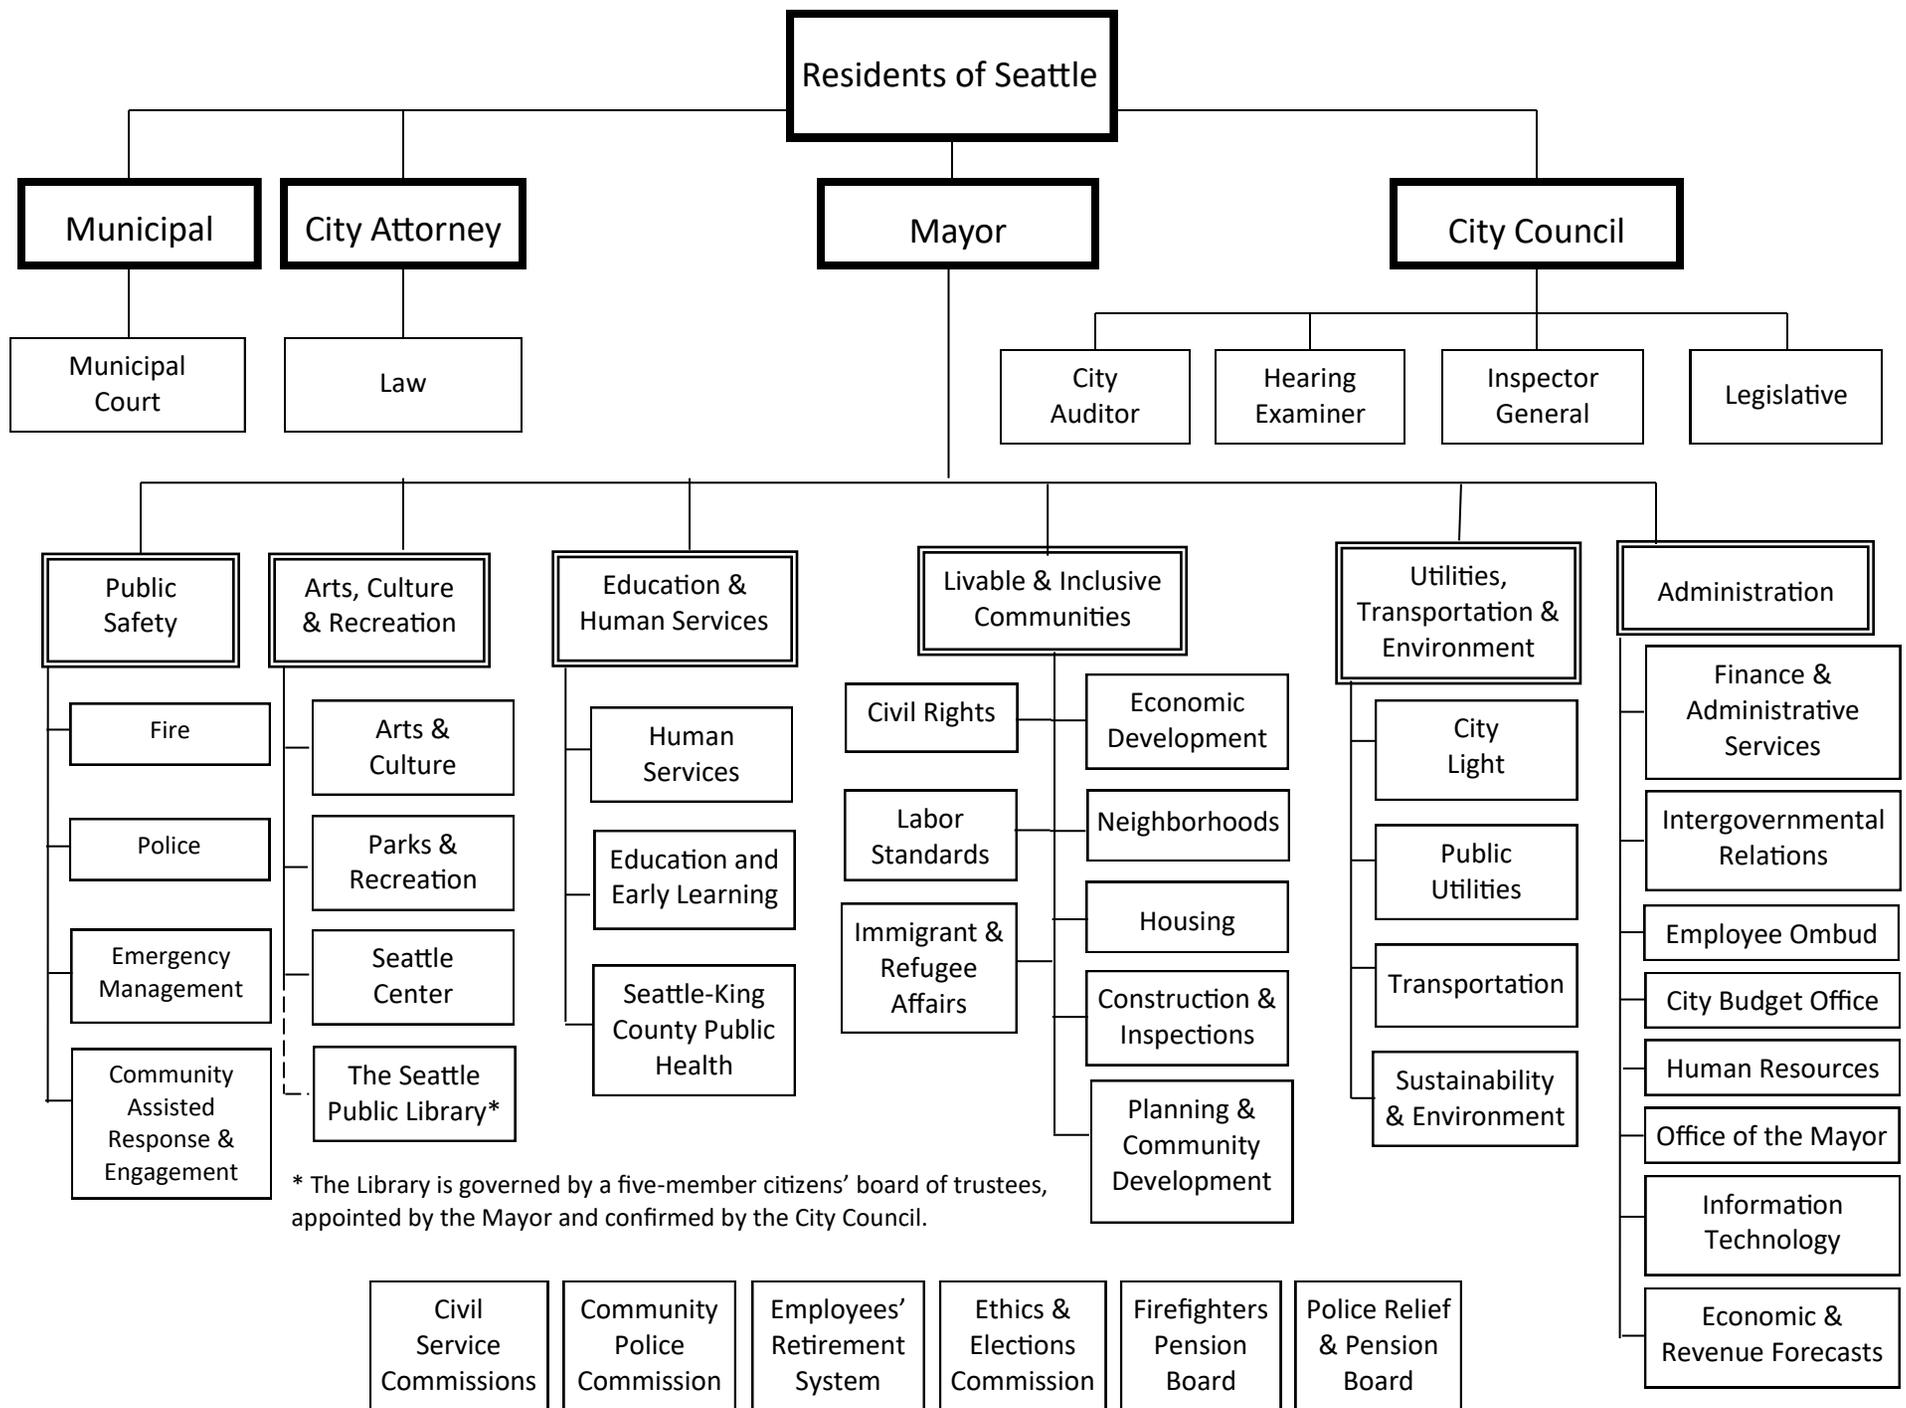

Mid-Biennial Budget Presentations

The mid-biennial budget document differs in the department presentation. In general, this budget document is designed to present department budgets in terms of how they compare to the 2024 Endorsed Budget rather than a detailed, programmatic focus as is presented for a new biennium.

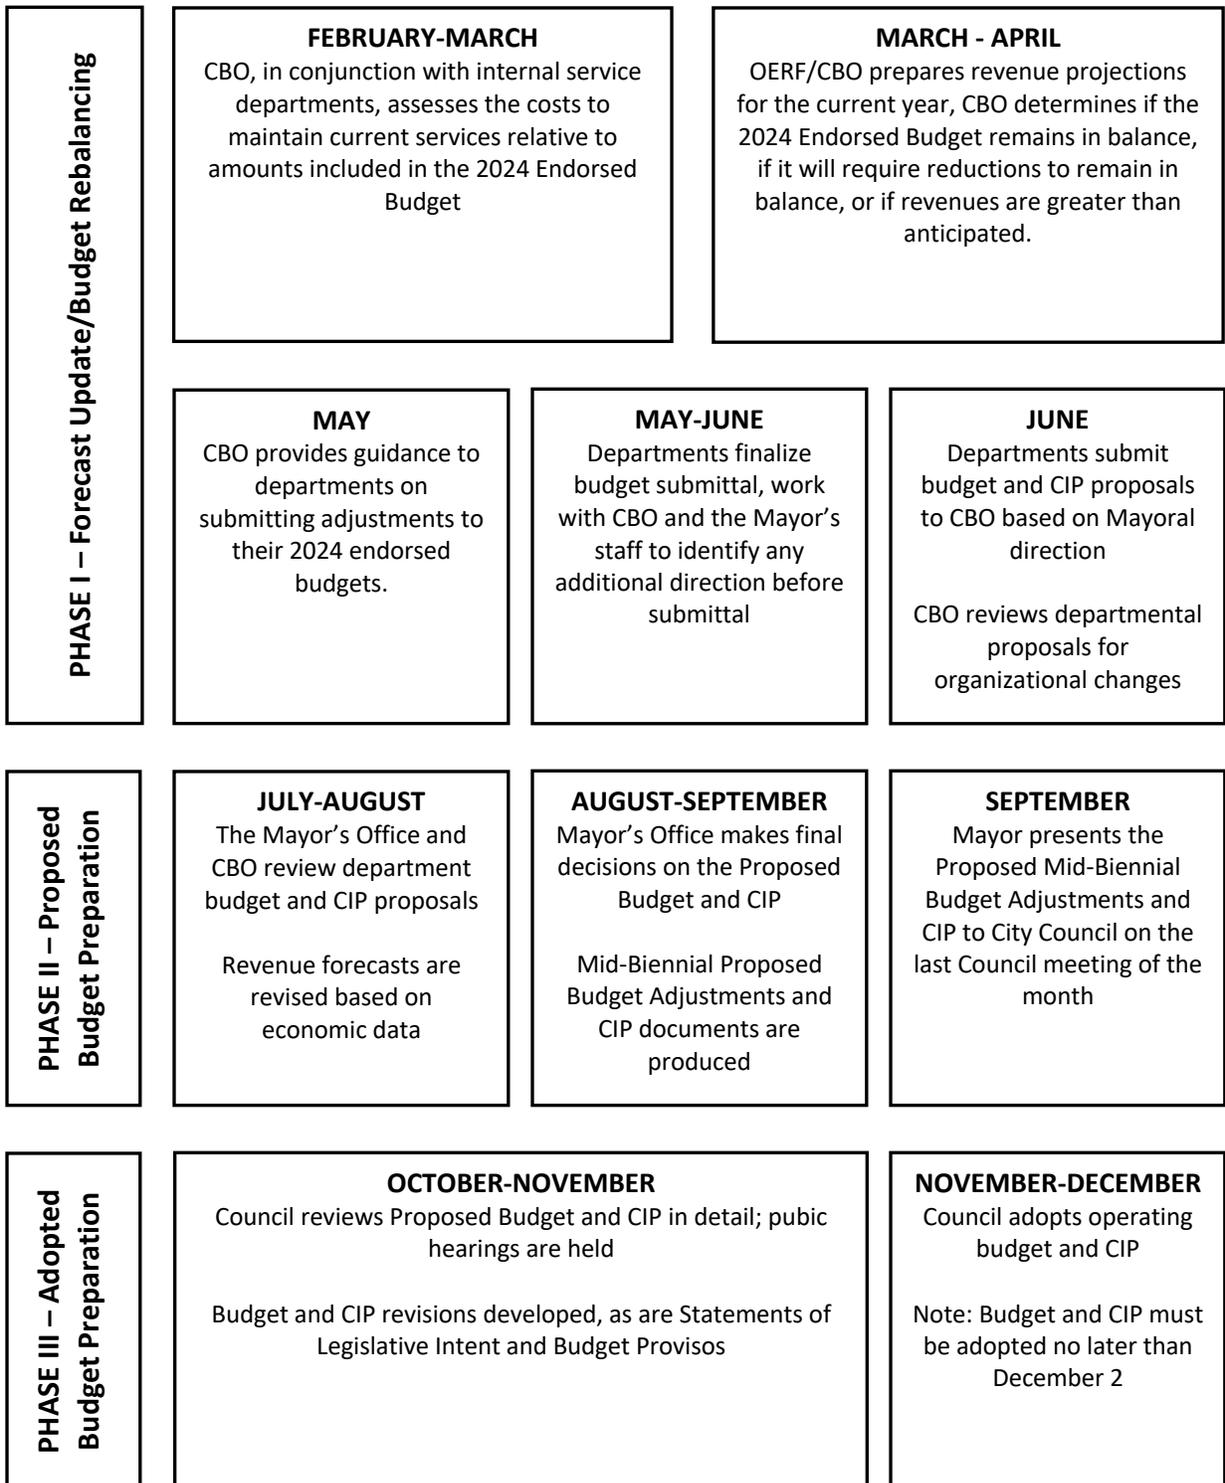

Most department-level budget presentations begin with information on how to contact the department. The department-level budget presentation then goes on to provide a general overview of the department's responsibilities and functions within City government. The next section of the department-level budget presentation provides a numerical and descriptive summary of all of the incremental budget changes included in the 2023-2024 Proposed Mid-Biennial Budget Adjustments, along with a discussion of the anticipated operational and service-level changes that will result. The department-level budget presentation concludes with summary level tables that describe the department's endorsed budget amounts, proposed mid-biennial changes, and updated total for year two of the biennium by Fund and Budget Summary Level. All department, budget control, and program budget presentations include a table summarizing historical and adopted expenditures, as well as proposed appropriations for 2023-2024, are included in the appendix.

A list of all position changes proposed in the budget has been compiled in the appendix. Position modifications include eliminations, additions, reclassifications, and status changes (such as a change from part-time to full-time status), as well as adjustments to departmental head counts that result from transfers of positions between departments.

For information purposes only, an estimate of the number of staff positions to be funded under the 2023-2024 Proposed Mid-Biennial Budget Adjustments appears in the departmental sections of the document at each of the three levels of detail: department, budget control, and program. These figures refer to regular, permanent staff positions (as opposed to temporary or intermittent positions) and are expressed in terms of full-time equivalent employees (FTEs). In addition to changes that occur as part of the budget document, changes may be authorized by the City Council or the Human Resources Director throughout the year, and these changes may not be reflected in the estimate of staff positions presented for 2023-2024. These changes are summarized in the appendix.

Budget Process Diagram - Mid-Biennium

2023-2024 Proposed Mid-Biennial Budget Adjustments Summary

Introduction

Mayor Bruce A. Harrell’s 2023-2024 Proposed Mid-Biennial Budget Adjustments is an update to the 2024 Endorsed Budget, adopted by the Seattle City Council in November 2022. As a mid-biennial update, the proposed adjustments are largely to align the budget with available revenues but otherwise do not make significant citywide shifts in planned expenditures for 2024.

The City of Seattle operates on a biennial budget, with a two-year spending proposal developed every other year. Though a biennial budget represents a two-year plan, in recent practice the City has historically developed a full, new proposed budget annually. The 2023-2024 Proposed Mid-Biennial Budget Adjustments represent a transition from that past practice of significant annual changes to one that instead focuses on the 2024 Endorsed Budget as the primary plan and makes slight modifications where necessary.

The 2023-2024 Proposed Mid-Biennial Budget Adjustments maintain the 2024 Endorsed Budget investments across the One Seattle priority areas established by Mayor Harrell: housing and homelessness, public safety, access to opportunity, healthy communities, climate and environment, safe and reliable transportation, and good government. In this second year of the biennium, the Mayor is addressing unanticipated and significant cost pressures and making targeted, strategic investments in key areas:

- Sustaining critical services;
- Bolstering public safety and public health;
- Investing in workers; and
- Furthering Economic Recovery.

There is more detailed information on these investment areas later in this summary.

Economy and Revenue

The unexpected strength of employment and Gross Domestic Product (GDP) growth in the national and regional Seattle economy in 2023 has avoided the recession predicted last fall and is yielding additional revenues for the City in 2023 and 2024. The 2023-2024 Proposed Mid-Biennial Budget Adjustments assume approximately \$76.2 million additional General Fund revenues over the 2023 Adopted Budget and a smaller \$47.6 million over the 2024 Endorsed Budget. Looking forward, however, the expectation is that the Federal Reserve’s restrictive monetary policy (keeping interest rates high) will remain in place through the first half of next year, slowing overall economic growth, but also continuing to help control inflation. Thus, at this stage, it appears that the Federal Reserve is succeeding in its goal of managing the economy toward a “soft landing,” where inflation is being brought under control, without a significant decrease in GDP or increase in unemployment. Current national projections for the remainder of this year and 2024 are consistent with that expectation. Growth will continue, but at a modest rate, with GDP expected to grow by just 1.5%, when measured in real, inflation-adjusted terms.

Regionally and for the City, like the nation, the regional economy is now expected to avoid a recession. That said, the cooling technology and professional and business services sectors, and the slowing demand for new construction and its effects on construction employment were not fully anticipated last

fall and are a cause for concern, given the higher wages and ancillary economic activity generated by these activities. Nonetheless, while unemployment is expected to trend up modestly as hiring slows, there is no expectation of net job losses as gains in other sectors, such as leisure and hospitality, government, and education and health care have led to a net gain of 11,000 jobs in the Seattle area since January 1, 2023.

These factors as well as general national trends have shifted the longer-term outlook toward slower economic and flatter revenue growth. To illustrate, last fall, the Office of Economic and Revenue Forecasts' regional model anticipated that regional personal income would grow at an average annual rate of about 4% from 2024 through 2028. The most recent forecast projects average income growth closer to 3% over this same period. This pattern of slower growth marks a distinct shift from pre-pandemic trends when the local economy experienced an extended period of robust expansion, driven by strong growth in the technology sector and sustained construction activity in both the commercial and residential sectors.

After years of revenue growth, the COVID-19 public health emergency and related economic downturn resulted in lower City revenues in 2020-2022. As of the fall of 2023, several of the City's revenue streams have still not yet fully rebounded. Simultaneously, though cooling now, generation-high inflation has created significant cost pressures on the City's expenditures, both capital purchases and in labor costs as the City's workforce has also felt the impacts of the increased costs of goods and services. As a result, the latest projections on future revenues and growth in City expenditures indicates that without significant intervention, the City will face a projected \$251 million deficit for the 2025 fiscal year.

Mayor Harrell has taken a multi-faceted approach to addressing this problem:

- In partnership with the City Council Budget Chair Teresa Mosqueda, Mayor Harrell convened the Seattle Revenue Stabilization Work Group in 2022-2023. This group of civic leaders met numerous times over the span of 10 months and issued a final report that recommends City staff examine some expanded or new revenue streams to help mitigate the projected deficit.
- The City Budget Office has started to work with City departments to examine current lines of business to ensure that they are aligned with the priorities and direction of the City's elected leadership.
- Mayor Harrell has emphasized to his direct staff and City departments the importance of identifying and applying for external funding opportunities, including our state and federal partners.

2024 Budget Development Considerations

The City Budget Office provided guidance in early Spring to City Departments that the 2024 Endorsed Budget was balanced and any changes in General Fund-backed spending needed to be paid for with offsetting reductions. Unlike in recent years, given that the budget was balanced as a starting point, departments were not asked to provide target reduction proposals, and were encouraged to work within their 2024 Endorsed budgets whenever possible.

To that end, many departments do not have any changes in their budgets other than adjustments for central costs the City will incur for 2024, such as changes in information technology, human resources, facilities or vehicle maintenance, and Judgement and Claims costs. Additional details on these central changes can be found under the “Unanticipated or Significant Cost Pressures” section below, as well as in department budget chapters. For over half of the departments in the City, budget changes are only related to central costs or are budget neutral, either paid with an offsetting reduction within that department or using funding from a planning reserve established in anticipation of the spending need.

The proposed budget materials also look different this year and have a new name. The department chapters are shorter and focus on the changes to the 2024 Endorsed Budget. Summary tables are moved to a comprehensive appendix. What would historically have been referred to as the “2024 Proposed Budget” is instead referred to as “2023-2024 Proposed Mid-Biennial Budget Adjustments” to reflect that changes to the 2024 Endorsed Budget are limited in scope and scale.

As mentioned above, the August revenue forecast provided much-needed near-term support for the City’s General Fund revenues to keep the budget in balance. This near-term revenue growth in the City’s [August Revenue Forecast](#) also allowed for the General Fund to reduce reliance on the Payroll Expense Tax for general operating support by \$10 million, reducing the amount transferring from the Payroll Expense Tax to the General Fund from \$84 million to \$74 million.

Despite the additional resources available in 2023 and 2024, difficult decisions for this budget were made in the context of the looming \$251 million General Fund deficit that is currently projected for 2025. The City’s elected leaders will face difficult decisions in the upcoming year about how to reduce expenses and/or increase revenues to keep the City’s budget in balance, and decisions for 2024 should be made with this context in mind.

Support from JumpStart Payroll Expense Tax

The JumpStart Payroll Expense Tax (Payroll Expense Tax) was enacted by the City Council in 2020 and has been a critical tool to keep City programs operating during the pandemic and during this post-pandemic recovery stage. In addition to providing for specific areas of new spending, the law that governs the use of the payroll tax proceeds established that beginning in 2023, General Fund support will only continue if revenues fall below a nominal fixed amount. The Mayor’s Office and the City Council worked jointly on a plan to provide for a temporary change in the law regarding General Fund support that allows for transferring payroll tax proceeds to the General Fund to preserve city services and prevent reductions to certain programs over the biennium. The 2023 Adopted and 2024 Endorsed Budget included transfers from the JumpStart Fund of to the General Fund of \$100.6 million in 2023 and \$84.2 million in 2024, however, the ending unreserved General Fund balance in 2022 ended up higher than anticipated by \$34 million and the April revenue forecast showed a decline of \$62.6 million in 2023 and 2024 Payroll Expense Tax revenues. Therefore, the 2023 Revised Budget transfer from the JumpStart Fund to the General Fund will be \$71.0 million.

As a policy matter, the proposed budget adjustments use \$10 million of the 5% revenue stabilization reserve due to lower revenues than anticipated when the 2024 Endorsed Budget was approved. The 2023-2024 Proposed Mid-Biennial Budget Adjustments introduce a few new funds flexibility uses of the payroll tax proceeds, including \$7.4 million for human services provider pay. This use is funded in the

proposed budget adjustments by reducing the transfer to the General Fund to support general government services expenses. Human Service Provider Pay items provide support to community partners that work most directly providing human services, support and outreach to people experiencing homelessness, child care services, and child health and development services.

The proposed budget adjustments maintain the other original spending allotments for JumpStart spending categories envisioned when the Payroll Expense Tax was signed into law, while also transferring \$74.2 million in 2024 to the General Fund in support of general government services, a \$10 million reduction from the endorsed budget. For full details on use of the payroll tax proceeds in the adopted budget, see the Multi-Department Revenue Summary section of the proposed adjustments.

Unanticipated or Significant Cost Pressures

Citywide Central Costs

The 2023-2024 Proposed Mid-Biennial Budget Adjustments include approximately \$19.5 million in budget increases across all funds related to Citywide central costs (including information technology (IT), fleet, facilities, and human resources). These costs are driven by high inflation, replacement costs for areas such as the City's fleet, and ongoing investments in IT infrastructure and security.

The Seattle IT Department will continue funding licensing costs for Geographic Information System, provide extended maintenance, backup and recovery services for existing servers, increased cloud storage services and security services.

Central costs for the Department of Finance and Administrative Services are increased to reflect higher fuel prices, increased contracting costs, and a technical adjustment for labor costs. The budget also refunds six vacant mechanic positions and reflects reclassification of one position to be focused on the Fire Department vehicles.

The Seattle Department of Human Resource's budget will increase by \$1.1 million for a two-year comprehensive review of the Classification Compensation (Class/Comp) Program to inform the scope, process, timeline, and estimated costs for an update to the system. The City's Class/Comp Program is responsible for classifying the City's positions to ensure fair and equitable compensation to employees for work performed. The industry standard for updates to job classifications and compensation is every 3-5 years. This program has not been reviewed since the 1990s and is outdated for current City personnel needs such as technology changes that are not reflected in job descriptions or the difficulty of employees trying to move between departments with specific titles that are tied to just one department, making it hard to understand potential career opportunities around the City. Continuing to delay investments in this space is not tenable as the cost impacts of operating with an outdated system far exceed the investment needed.

Judgment and Claims

The Judgment and Claims Fund provides for the payment of legal claims and suits brought against City government. Per [Resolution 31847](#), the budget level for the Judgment and Claims Fund must be set at

the 90% confidence level of meeting actual expenditures as estimated by the City's actuaries every year. The 2023 Adopted and 2024 Endorsed Budget increased funding for the Judgment and Claims Fund by \$11.3 million and \$6.9 million, respectively. The 2023-2024 Proposed Mid-Biennial Budget Adjustments increase this figure by an additional \$9.3 million based on updated claims and litigation data, which continue to show an extraordinary level of outside counsel and settlement expenses primarily associated with lawsuits resulting from the racial justice protests of 2020.

Open Labor Contracts

The majority of the City's labor contracts are currently up for renewal, which adds considerable uncertainty to the overall budget planning process. Reserves are maintained for this purpose, however, the exact details around the future settlements remain in negotiation at the time of this printing. [Seattle Municipal Code](#) 4.04.120 E requires the City to maintain confidentiality toward ongoing negotiations.

The Mayor continues to express his urgent and good faith commitment to getting a deal done and raising wages for City workers. Despite forecasts showing significant future revenue gaps, our approach will continue to be rooted in our values that every worker deserves a living wage and our gratitude for City employees and the service they provide to Seattle neighbors.

Social Housing PDA Start-up Costs

In early 2023, Seattle voters approved Initiative I-135 which created a new Seattle Social Housing Public Development Agency. The initiative did not include an independent revenue source and requires the City to provide 18 months of start-up costs. The 2023-2024 Proposed Mid-Biennial Budget Adjustments include \$850,000, which reflects the first 12 months of that 18-month requirement.

Sustaining Critical Services

In this second year of the biennium, the primary focus of this budget is in sustaining critical services, and the majority of changes are modifications within existing budget appropriation levels. The proposed mid-biennial budget prioritizes sustaining existing investments in critical services, including one-time investments in shelter and downtown outreach. These investments were increased with one-time funding in response to the pandemic impacts. The proposed mid-biennial budget also largely aligns with the 2024 Endorsed Budget, maintaining critical services within the base budget.

Housing / Homelessness

2023 is the final year of the 2017 Housing Levy. The 2023-2024 Proposed Mid-Biennial Budget Adjustments assume passage of the proposed 2023 Housing Levy by Seattle voters in November 2023. Passage of the new levy would generate an estimated \$88 million for affordable housing in 2024. When added to other funding sources, including \$137 million from the Payroll Expense Tax, the proposed budget adjustments include \$334 million for affordable housing in 2024, a 32% increase from the 2023 Adopted Budget.

In early 2023 Seattle voters approved Initiative I-135 which created a new Seattle Social Housing Public Development Agency. The initiative did not include a revenue source and requires the City to provide 18 months of start-up costs. The 2023-2024 Proposed Mid-Biennial Budget Adjustments include \$850,000, which reflects the first 12 months of that 18-month commitment.

The proposed mid-biennial budget invests \$162 million in homelessness Citywide and continues the City's investments in the King County Regional Homelessness Authority (KCRHA) as it enters its third full year of operations. Of the Citywide total, \$119 million is allocated to the Human Services Department in 2024 for homeless outreach, shelter, services, and administration. Approximately \$106 million (88.5%) of the amount proposed for HSD will be transferred to the KCRHA, this represents a \$9 million (9%) increase in the City's contribution to KCRHA over the 2023 Adopted Budget of \$97 million and a \$6 million (6%) increase over the 2024 Endorsed Budget of \$100 million.

The 2023-2024 Proposed Mid-Biennial Budget Adjustments to the City's investments in KCRHA include \$1 million to relocate a Tiny House Village so that permanent housing can be built on the current site, funding to support required inflationary increases to provider contracts to support wage increases, and an additional \$2.1 million for further increases to human service provider wages.

Most federal funding that was a direct response to the COVID-19 public health emergency has expired or will expire at the end of 2024. This was a known and expected horizon, but creates funding challenges for important services nevertheless. One of Mayor Harrell's top priorities is to ensure that no shelter beds are eliminated. At the Mayor's request, the King County Regional Homelessness Authority (KCRHA) examined its budget and identified program impacts of one-time funding expiring at the end of 2023. These impacts included the potential closure of up to 300 shelter beds. KCRHA has identified funding available within its existing budget to avert these program impacts on a one-time basis, ensuring that no shelter beds close in 2024 due to the expiration of federal funding.

In the fall of 2022, the City launched the Third Avenue Project in partnership with We Deliver Care to address and improve the public safety and order concerns along Third Avenue in Downtown Seattle. We Deliver Care outreach workers establish relationships and earn the trust of individuals while offering care and treatment service to individuals suffering from substance use disorder and using drugs in public places along Third Avenue. The 2023-2024 Proposed Mid-Biennial Budget Adjustments includes an additional year of funding for this program from the City's General Fund.

Safe and Reliable Transportation

The 2023-2024 Proposed Mid-Biennial Budget Adjustments maintain nearly all of the 2024 Endorsed Budget investments in transportation with a continued focus on safety and equity. Continued adverse economic impacts of declining revenues and historically high inflation levels have created significant fiscal constraints for the Seattle Department of Transportation (SDOT) limiting delivering transportation priorities for the City.

Meeting basic transportation needs and commitments, within a context of ongoing financial challenges and funding gaps resulting from declining revenues in the Transportation Fund, requires moving monies within and between transportation funds and funding sources. In addition to filling funding gaps, the budget increases staffing capacity within the Seattle Department of Transportation (SDOT) to meet

these needs and commitments. Changes in the 2023-2024 Proposed Mid-Biennial Budget Adjustments recognize that the 2025-2026 Proposed Budget will be the next opportunity to attempt to solve structural challenges facing SDOT. Consequently, many funding options are one-time, including expanded use of Seattle Transit Benefit District (STBD) funds (Vehicle License fees and Seattle Transit Measure tax) that are being directed to funding First Hill Streetcar operations (a funding gap resulting from a Sound Transit operating subsidy sunset) and basic needs such as bridge maintenance. Nonetheless, the proposed budget supports safe and reliable transportation.

Increased severity of winter storms and ice, and other emergency incidents have had significant impacts on the City's roads and increased the demand for emergency response. The proposed budget includes \$1.5 million to support pothole repair, which is one of the core functions of SDOT in responding to conditions to secure safe passage for City and County services including not only first responders, transit, and other high-priority transport - both commercial and private - as well as the general public. In addition, SDOT is the City's primary responder for emergency events that affect the right-of-way. The City continues to see increasing severity of winter storms and ice, windstorms, traffic incidents, spills, encampment-related incidents, and landslides. Given SDOT's budget has been historically challenged to meet the increasing incidence, severity, and cost to respond, the proposed budget adds \$2 million for this purpose.

Budget adjustments include several changes relating to bridge maintenance including adding \$500,000 to expand SDOT's ability to plan bridge maintenance and deliver more work with SDOT crews and adding \$300,000 to support 3 FTE positions for bridge maintenance using Vehicle License Fees. Also included in the proposed 2024 budget adjustments is authority to spend against four Federal Highway Administration grants that are accepted as part of the 2023 Year End Grant Acceptance legislation, including \$2.5 million for S. Spokane Street Viaduct bridge repair. Facing reductions in bridge maintenance funding in the Real Estate Excise Tax (REET) Fund, SDOT is prioritizing staffing investments now that can build SDOT's capacity to implement complex bridge maintenance activities on improved timelines and realigning planned spending accordingly. REET budget and planning assumptions for the Bridge Painting and Structures Major Maintenance capital projects are reduced by \$2 million in 2024 and \$1.8 million in 2026, deferring some maintenance work in these projects. Even with these reductions, SDOT will meet maintenance work planning expectations without impacting service levels or commitments relating to any grant awards.

Further, the proposed budget includes \$25 million in bond issuance to fund completion of the Alaskan Way Main Corridor project, which has experienced significant impacts on project activities, schedule, work windows, and extended overhead costs due to the concrete strike in late 2021 and early 2022. The concrete strike required significant changes in the project delivery plan and has extended the project's schedule into late 2024. The potential risk of cost overruns has been planned for by the Office of the Waterfront and Civic Projects (OWCP) along with SDOT partners; and Commercial Parking Tax (CPT) funds have been reserved in anticipation of cost increase risks, like the concrete strike, and are available to fund debt service costs.

The 2023-24 Proposed Mid-Biennial Budget Adjustments also contain legislation that will increase minimum and maximum parking charges to reflect city parking policies and climate goals. These rate increases are supported by parking data that shows an increase in the demand for parking throughout the city. The Paid Parking program at SDOT includes the Paid Parking Maintenance Program that pays for the expenses associated with pay stations and Pay-by-Phone services, the application that allows paying

parking fees with a cell phone rather than at the station. Additional detail on the above changes can be found in SDOT's budget chapter.

General Fund Baseline for Parks and Recreation Services

Since the establishment of the Seattle Metropolitan Park District (Park District) in 2014, an interlocal agreement (ILA) between the City and the Park District has set out several responsibilities for both parties. These included a specific baseline of General Fund support for parks and recreation services, commonly referred to as the "General Fund floor," and required the City to allocate General Fund resources to Seattle Parks & Recreation (SPR) in each annual budget at or above that baseline. Currently, the ILA requires the City to adjust that floor for inflation annually using the Consumer Price Index (CPI) for Seattle, which was an unprecedented 7.6% this year. The City and the Park District both have an interest in ensuring the long-term stability of revenues to the park and recreation system and avoiding unilateral termination of this ILA during a challenging fiscal environment. Therefore, the 2023-24 Proposed Mid-Biennial Budget Adjustments includes legislation that amends the ILA and sets the inflation factor for 2024 at 3%, which creates a General Fund floor of \$118 million in 2024. This also aligns SPR's General Fund floor in 2024 with financial policies governing a similar floor in the Seattle Department of Transportation, which uses a 3% inflator. SPR's proposed budget for 2024 includes nearly \$120 million of General Fund, an increase of \$2.1 million above the 2023 Adopted Budget.

Bolstering Public Safety and Public Health

Comprehensive Public Safety continues to be the top priority for Mayor Harrell's Administration. The 2023-2024 Proposed Mid-Biennial Budget Adjustments establish the Community Assisted Response and Engagement (CARE) Department, formerly known as Community Safety and Communications Center (CSCC). The renamed and expanded CARE Department will improve public health and safety by unifying and aligning the City's community-focused, non-police public safety investments and services to address behavioral, substance abuse, and non-emergent, low-risk calls for service, crime victim support, and crime intervention through diversified programs that are equitable, innovative, evidence-based, compassionate, and effective. The 2024 proposed budget adjustments incorporate ongoing funds for the new Dual Dispatch pilot, launched at the end of 2023, consisting of teams of behavioral health professionals that respond to low acuity calls with a mental and behavioral health nexus. In addition, the proposed budget adjustments add planning resources for the department to consider how the City delivers community-focused services unrelated to the criminal justice system. The CARE Department's budget changes for Dual Dispatch are supported by planning reserves that were established in the 2024 Endorsed Budget for alternative response, as well as increased levels of E-911 revenues supporting existing call taker positions.

As the Dual Dispatch program is getting off the ground, the Seattle Police Department (SPD) continues efforts around the recruitment and retention plan, improved branding and marketing materials, and hiring bonuses for new and lateral officers. With record-low numbers of police officers in 2023, the City must use technological support to boost the effectiveness of public safety strategies. Mayor Harrell is reinvesting \$1.8 million of salary savings in the SPD into a new crime prevention pilot to implement automatic license plate readers, CCTV cameras, and acoustic gunshot locator systems to deter criminal behavior and hold offenders accountable. These technologies will be most successful when strategically integrated with SPD's Real Time Crime Center to triage and coordinate patrol/emergency responses to

crime events. These technologies will require an assessment to comply with the City’s surveillance ordinance and approval by the City Council.

In 2012, the City of Seattle and the U.S. Department of Justice (DOJ) entered into a settlement agreement (“Consent Decree”) that requires Seattle to implement reforms to ensure that police services are delivered to the people of Seattle that comply with the Constitution and laws of the United States. On September 7, 2023, the federal court overseeing the Consent Decree found that SPD had sustained full and effective compliance across all of its core commitments under that order with the exception of use of force, force investigation, and force review in large-scale crowd management events. Additionally, the Court ruled that the City had further work to do in the area of accountability. The Court, as did the Monitor in his May 2022 Comprehensive Assessment, again highlighted the lack of officers available to the community as a significant barrier to continued improvement and providing essential core public safety functions.

The proposed budget adjustments include new positions in the three accountability departments. In the Office of Police Accountability (OPA) a Deputy Director position is added to provide internal staffing management and day-to-day investigative capacity, allowing the OPA Director to focus on high level investigation responsibilities and external relationships. A Deputy Director is also added to the Community Police Commission (CPC) to assist in managing the operations of the office, facilitate strategic planning, and ensure the ongoing structural integrity of CPC commission administration and operations. Three new positions are added to the Office of Inspector General for Public Safety for assuming the federal monitor’s oversight and assessment related to the 2012 Consent Decree as well as a half-time Communication and Community Engagement Specialist to provide racial equity expertise in scoping work projects, as well as strategic engagement with community. Communication and Community Engagement Specialist to provide racial equity expertise in scoping work projects, as well as strategic engagement with community.

During the closure of the West Seattle Bridge in 2020, funding was added to support additional Seattle Fire Department operations in West Seattle on a temporary basis. To reduce reliance on use of overtime, this budget adds 24 FTEs to maintain the West Seattle operations and make these temporary services permanent at Fire Station 26 and 37.

In June 2023, the Mayor announced \$27 million investment in efforts to improve addiction treatment. The 2023-2024 Proposed Mid-Biennial Budget Adjustments program resources from the Opioid Settlement Proceed Fund, which is for the City’s portion of settlement proceeds from the state’s settlement agreements with opioid distributors and pharmacies. Funds will be used for several purposes, including drug user health and harm reduction services previously funded with one-time funds, to expand Health One’s Overdose Response Team, and for post-overdose facility services.

In addition, as mentioned above, the 2023-2024 Proposed Mid-Biennial Budget Adjustments also provide for an additional year of funding for the Third Avenue Project, where We Deliver Care outreach workers establish relationships and earn the trust of individuals while offering care and treatment service to people suffering from substance use disorder and using drugs in public places along Third Avenue. Additional details about planned opioid investments and the extension of the Third Avenue Project can be found in the Human Services Department budget chapter.

Investing in Workers

The largest new investments in this year's budget adjustments support the people doing some of the toughest work in Seattle. In total, the 2023-2024 Proposed Mid-Biennial Budget Adjustments provide new funding of over \$23 million to support human services workers and child care workers.

The City of Seattle is the only government entity in our state with a mandate in code ([Seattle Municipal Code \(SMC\) Section 3.20.060](#)) to provide inflationary increases at CPI-W (a government measure of local inflation) to human service provider contracts. In 2023, base contracts were inflated at 7.6% and for 2024, that amount is at 7.5% or over the 2023 Adopted Budget and is supported by the City's General Fund. This amounts to a \$15.7 million inflationary increase over 2023. However, the City is not the only funder of these providers and cannot support this workforce in isolation. In addition to the City's investment, a joint commitment from state, local, and federal governments is needed to ensure that those doing the hardest work can earn a living wage.

In 2023, the University of Washington completed a City-funded wage equity study and Council adopted Resolution 32094 concerning human services provider pay. In the resolution, the Council stated its intent to consider increases to HSD-administered contracts in addition to inflationary adjustments required under the SMC. In response to the study, the Mayor is proposing to add a 2% increase (\$4.2 million) to support increasing pay for human services providers, including those providing support and outreach to people experiencing homelessness. This amount is in addition to the 7.5% 2024 inflationary increase. Because DEEL and DON hold some human services contracts, their budgets include adjustments of approximately \$327,000 and \$12,000, respectively, to align with the HSD inflationary and provider pay increases.

The proposed budget also adds \$2.9 million to support one-time retention bonuses for child care workers. Since 2021, DEEL has invested more than \$8 million in child care workers to provide financial relief for them, which helps mitigate ongoing pandemic impacts to staffing within the industry. These investments help support a critical industry that is a stabilizing force for our City's economy. The funding for both the 2% additional human services wage increase and the child care worker retention bonuses comes from Payroll Expense Tax resources originally slated to help support General Fund operations in the 2024 Endorsed Budget.

The 2023-2024 Proposed Mid-Biennial Budget Adjustments also includes investments in review for the City's Classification and Compensation system which has not been reviewed in over 30 years. Progress in this space will help support retention and attraction of employees, promote pay equity and compliance with pay equity laws, and follow industry best practices. In addition, reserves are maintained to support the outcome of ongoing negotiations for the City's labor contracts. The Mayor continues to express his urgent and good faith commitment to getting a deal done and raising wages for City workers.

Furthering Economic Recovery

Mayor Harrell's budget increases investments in efforts to promote economic resiliency, activate our Downtown, and advance opportunity and equity for all. Investments in this budget sustain and enhance safe, healthy, and thriving communities by increasing funding to implement recommendations in the Future of Seattle Economy report and in supporting the Creative Economy, which was significantly impacted by the pandemic.

Future of Seattle Economy Investments

In 2023 the Office of Economic Development (OED) finalized the Future of Seattle of Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The FSE framework, adopted by the City Council in [Resolution 32099](#), is intended to guide investments in the JumpStart Payroll Expense Tax Economic Revitalization spending category. The report focuses on five key pillars: investing in diverse talent and building our workforce, supporting small, women and minority-businesses, building BIPOC community wealth, investing in neighborhood business districts, and growing businesses and key industries.

The 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate \$11 million of the \$13 million Economic Revitalization Reserve, established in the 2023 Adopted Budget, in alignment with the FSE framework. These appropriations provide \$9.9 million in OED for new items that support commercial affordability, downtown and neighborhood economic recovery, and workforce development. In alignment with the FSE framework, the proposed budget adjustments add dedicated staffing in OED for Community Wealth Building, funded by the Jumpstart Payroll Expense Tax Economic Revitalization Reserve. This position will support interdepartmental coordination and implementation of community wealth building programs, guided by recommendations in the Department of Neighborhood's Generational Wealth Initiative final report, presented to Council in September 2023.

Appropriations from the Economic Revitalization Reserve fund several items to support the Downtown Activation Plan, the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The Downtown Activation Plan's goal of making Seattle's downtown a more vibrant, inclusive, and resilient hub for residents, workers, and visitors aligns with the FSE framework. The proposed budget adjustments make Downtown Activation Plan investments in the Office of Economic Development, the Human Services Department, the Office of Planning and Community Development, and the Seattle Department of Transportation. Downtown Activation Plan investments include: public space activations, supports for small, women and minority owned business, extension of the Third Avenue Project in partnership with We Deliver Care, transformation of the Special Events Office, and right-of-way management. The proposed budget adjustments also provide resources for continued community engagement related to the Downtown Activation Plan, and resources for the development of long-term, transformational program and policy ideas focused on Downtown.

The budget also includes two Downtown Activation Plan investments funded by the Admissions Tax and included in the Office of Arts and Culture budget. These investments are focused on activation of King Street Station and the downtown core as well as extending the Hope Corps grant program with a focus on the downtown.

Support Increased Events at Seattle Center

Due to pandemic related revenue reductions, the 2023 Adopted Budget unfunded 6.75 FTE event related positions with the intention that as events and their associated revenues returned to the campus, the positions would again be necessary to support events and events revenues would be used to refund the positions.

Seattle Center is projecting increased revenues as event activity recovers and as a result this budget includes refunding some positions. The 2023-2024 Proposed Mid-Biennial Budget Adjustments refund two laborer positions and adds a new Event Service Representative position to support an increased level of events at Seattle Center. The budget also includes the elimination of Stage Tech Lead position because the types of events that are returning to campus require more direct cline support and less stage lead work.

Arts and Culture Investments

Due to higher projected Admissions Tax revenues, this budget makes key structural and short-term investments to strengthen Seattle's Creative Economy. These investments include \$1 million in one-time funding for Office of Arts & Culture (ARTS) to partner with the Office of Economic Development (OED) on activation of King Street Station and the Downtown Core. The budget also includes \$1 million in one-time funding to extend Hope Corps with a focus on downtown activations. Hope Corps is a grant program designed to connect under- and unemployed workers in creative industries with career opportunities. ARTS estimates that this budget will support 50-70 creative projects in 2024. The proposed adjustments also include increases to the ARTS' grant programs. The budget adds an ongoing inflationary adjustment of \$257,000 and adds \$650,000 in one-time funding for grant programs to support arts and cultural institutions that have not yet fully recovered from pandemic-caused economic pressures and who are facing the loss of federal funding. Additional details on all the Admissions Tax increases included in the budget can be found in the Office of Arts and Culture budget book section.

Real Estate Excise Tax

Real Estate Excise Tax (REET) is an excise tax imposed on the sale of real property and those revenues fund a portion of the capital investments in the City's Capital Improvement Program (CIP).

Projected REET revenue available for the 2024-2029 Proposed CIP reflects the ongoing impact that elevated interest rates are having on the local real estate market. Actual REET revenue collections in 2022 were lower than forecasted by approximately \$3 million and forecasted REET for 2023 are projected to be \$17.4 million below the 2023 Adopted CIP. For the 2024-2029 Proposed CIP, revenues are projected to be approximately \$61 million lower than 2023-2028 Adopted CIP estimates over the 6-year window. To balance the decreased forecast capital departments were asked to reduce expenditures and reallocate expenditures to later years in the CIP.

The City’s REET policy (Resolution [32075](#)) requires a \$10 million REET fund balance reserve to protect against unexpected downturn in REET revenue collection and forecast. The REET funds continue to maintain the reserve levels established in the policy but could potentially dip into those reserves if the forecast continues to decline in the near term. Additional details on the uses of REET can be found in the Capital Improvement Plan (CIP) overview and in department CIP chapters.

Reserves

The City maintains two financial reserves to draw upon in the event of certain unanticipated expenditure or revenue pressures: the Emergency Fund (EMF) and the Revenue Stabilization Fund (RSF). The EMF is the principal reserve for the City to draw upon when certain unanticipated expenses occur during the fiscal year. During the COVID-19 pandemic and related economic downturn, the City withdrew \$33 million from the EMF over two years, reducing the reserve balance to \$33.7 million at the end of 2021. The 2022 Adopted Budget initiated the five-year rebuilding cycle by contributing \$10 million to the EMF. The 2023 Adopted and 2024 Endorsed Budget included a contribution of \$6.5 million in each year to the EMF, and anticipated contributions of \$15 million in both 2025 and 2026 to rebuild the fund to a projected target balance of \$87 million within the prescribed five-year timespan. The 2023 Year End Supplemental Budget Ordinance and the 2023-2024 Proposed Mid-Biennial Budget Adjustments increase the contributions to EMF by \$8.5 million in each year, reducing the reliance on outyear contributions to refill the reserve and reducing the projected General Fund deficit by \$17 million over the 2025-2026 biennium.

During the COVID-19 pandemic and related economic downturn, the City withdrew \$54.7 million from the RSF, reducing the reserve balance to \$6.0 million at the end of 2021. The RSF, or “Rainy Day Fund,” was recently replenished in 2022 via the 2021 year-end fund balance in the General Fund. The 2023 Adopted and 2024 Endorsed budgets build on this reserve with the maximum contributions under current policy of \$3.6 million in 2023 and \$1.7 million in 2024, to reach an ending fund balance of \$67 million. The 2023-2024 Proposed Mid-Biennial Budget Adjustments add \$2.3 million, to reach an ending fund balance of \$67.6 million. The total amount of reserves in the proposed budget at the end of 2024 is \$141.2 million.

City Utilities

The 2023-2024 Proposed Mid-Biennial Budget Adjustments for both Seattle City Light (SCL) and Seattle Public Utilities (SPU) continue to build on each utility’s six-year Strategic Business Plan. In the provision of essential services to utility customers, each utility maintains a strong commitment to its financial health, affordability, and efficiency in service delivery while meeting all regulatory requirements. SCL’s \$1.5 billion budget makes only minor, primarily technical adjustments to the 2024 Endorsed levels. SPU’s \$1.6 billion budget makes technical adjustments across the three primary funds and includes additional investments in the Trees for Neighborhoods program and Duwamish Valley resilience work.

City of Seattle Race and Social Justice Initiative

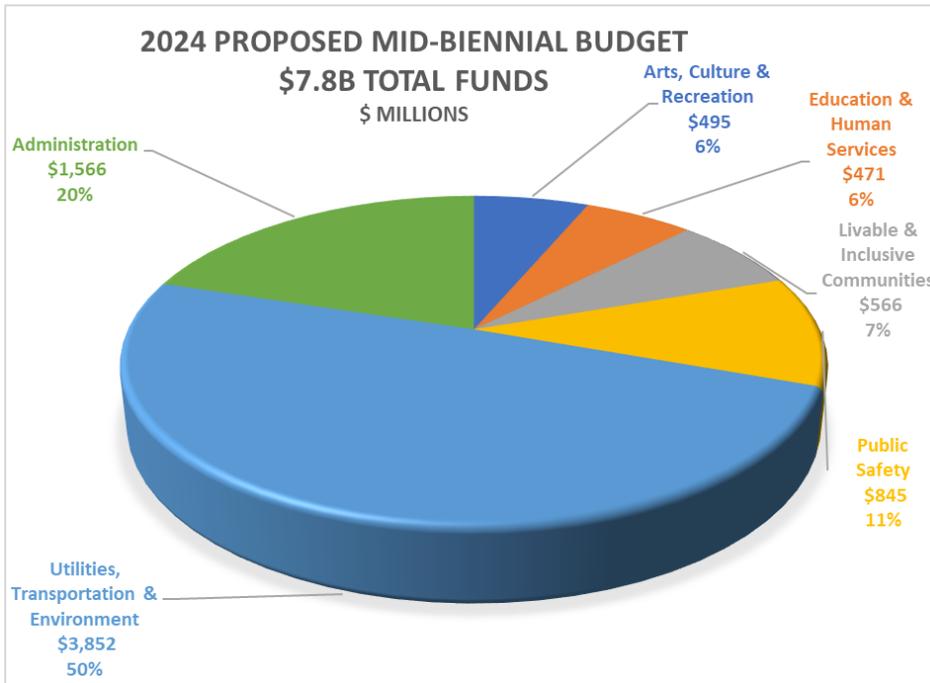

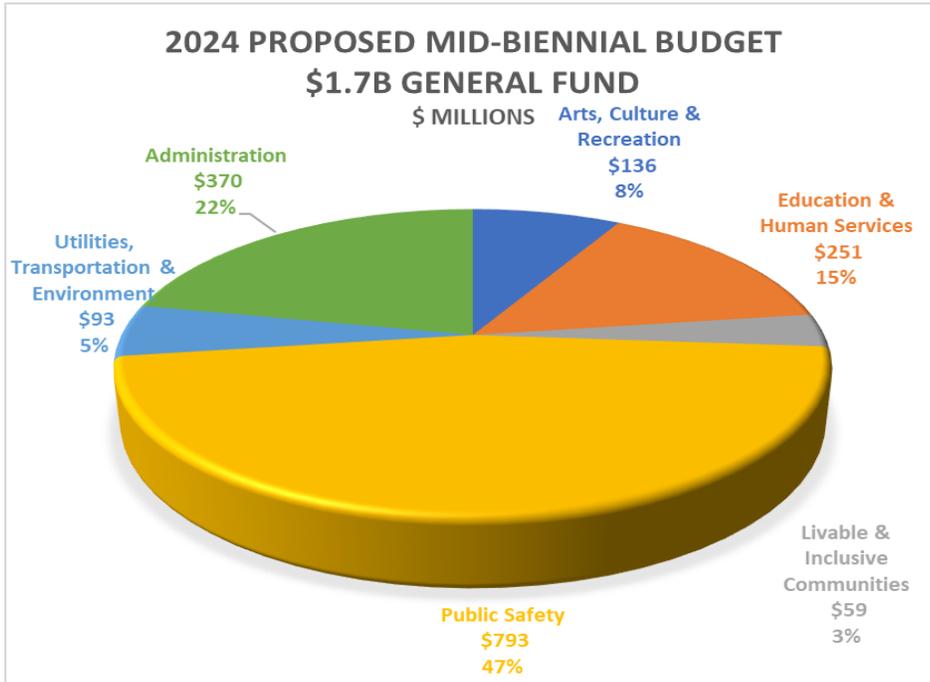

Significant evidence shows that the opportunities a Seattle resident can access, and the quality of life they experience, are both directly related to their race and where they live. People of color and other under-represented groups in the City of Seattle’s workforce face similar issues. To address racial inequities, in 2004 Seattle became the first city in the U.S. to establish a program, the Race and Social Justice Initiative (RSJI), to explicitly eliminate institutional racism. Institutional racism exists when an organization’s programs, policies, and spending work to the benefit of white people and to the detriment of people of color, sometimes unintentionally.

The Office for Civil Rights leads the RSJI in the City and provides support for departments and staff. As part of RSJI, the City uses a Racial Equity Toolkit to guide policy, program, and budget decision-making toward options that actively support positive racial equity outcomes. The City also uses a racial equity lens to develop a workforce that is inclusive of people of color and other marginalized or underrepresented groups at all levels of City employment.

Additionally, each City department has a “Change Team” to support internal transformation. The team – consisting of a group of employees who champion RSJI activities and strengthen a department’s capacity to get more employees involved – facilitates and participates in discussions on race, racism, and strategies to overcome institutional barriers to racial and social equity.

Through CBO’s Change Team, a new tool was created to help City staff identify the extent to which a department’s budgeting process and efforts are equitable and reflective of RSJI principles. The City’s 2023-2024 Proposed Mid-Biennial Budget Adjustments includes a process for City departments to evaluate how they incorporate RSJI in their historic budget development and set a goal for their RSJI efforts based on their assessment using this tool.

**General Fund (GF) transfers are reported in Finance General (Administration) to align with actual appropriations as well as totals in the General Fund Financial Plan (00100); this includes transfers to the Office of Labor Standards, Firefighter's Pension, Police Pension, Seattle Public Library, Seattle Information Technology Department, and Finance & Administrative Services.

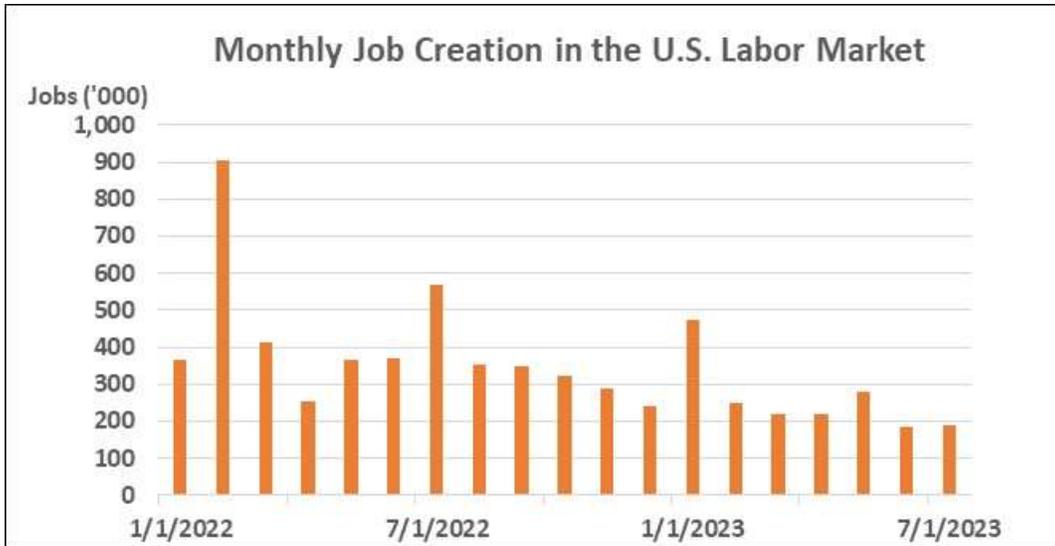

General Fund Revenue Overview

National Economic Conditions and Outlook

In November of last year, at the time the City Council adopted, and the Mayor signed, the 2023-2024 Biennial Budget, the national economic outlook was deteriorating. The U.S. economy had shown significant resiliency, but a dramatic shift in monetary policy was underway and the expectation was that this pivot would put the brakes on the post-pandemic recovery. Job growth had been strong over the first half of 2022, and employment levels had finally reached and just surpassed pre-pandemic levels. The fiscal stimulus provided by the federal government, in combination with the Federal Reserve's initial policy response of easing monetary policy and reducing interest rates, had succeeded in restoring the economy.

However, there was an emerging recognition, or at least concern, that the stimulus had perhaps been too effective, and that the economy had become "overheated", with excess demand driving up prices and fueling wage escalation in the markets still under pressure from supply chain issues and high commodity and energy prices. While down from its June peak of 9.1%, inflation was still running an annual rate of 7.7%. In an effort to bring this price escalation under control quickly, the Federal Reserve had increased interest rates by 3% since June, and an additional 0.5% increase was anticipated in December. The expectation was this aggressive increase in interest rates would induce a brief, but mild, recession during the latter part of 2023 and early 2024. Increasing interest rates would soften demand for major capital purchases and cool private investment that was dependent on access to relatively low-cost capital. In turn, these changes would slow job creation and cool the rapid rate of wage growth, which itself had become a driver of inflation. In particular, the baseline scenario national forecast from S&P Global, incorporated into the City's revenue predictions, anticipated that GDP would decline by 0.5% through the first half of 2023 and that total employment would decline by approximately 2% over this same period. Growth was expected to return in the second half of 2023, but at only modest levels for the near-term. For 2024, GDP was projected to increase by just 1.3%.

These projections proved overly pessimistic, and through the first three quarters of 2023 the national economy has demonstrated tremendous resiliency. Even as interest rates rose, employment continued to expand, with the U.S. economy adding an average of more than 250,000 job per month through June of this year. Job growth has slowed somewhat in the past few months, but this is consistent with the overall goal of cooling the economy, while maintaining some level of growth. The chart below illustrates the recent pattern of job growth at the national level.

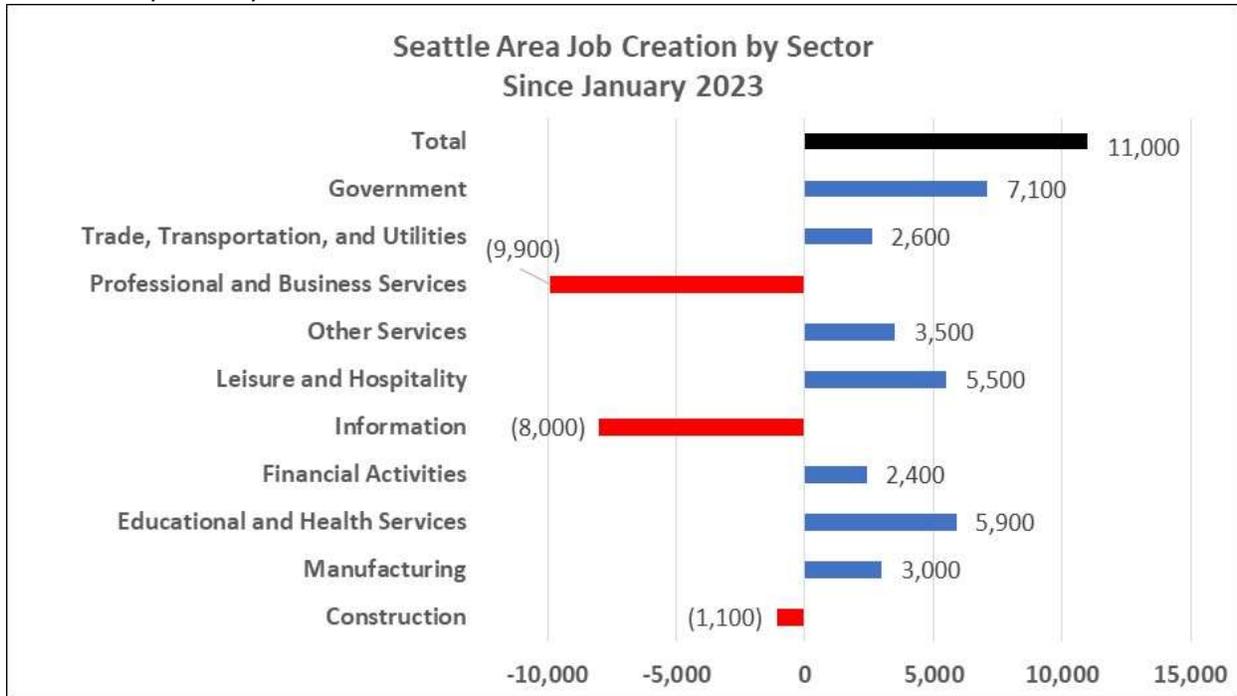

At the same time, inflation measured at the national level has dropped dramatically, reaching an annual rate of just 3.7% in August of this year. “Core inflation”, which excludes price changes in the more volatile areas of food and energy, is running somewhat higher at 4.3%, but has also fallen significantly over the course of the year.

The unexpected strength of the national economy in 2023 has avoided the recession predicted last fall, but looking forward, the expectation is that the Fed’s restrictive monetary policy will remain in place through the first half of next year, slowing overall economic growth at the same time that it continues to help control inflation. Thus, at this stage, it appears that the Federal Reserve is succeeding in its goal of managing the economy toward a “soft landing”. In particular, inflation is being brought under control without a decrease in GDP or an increase in unemployment. Current national projections for the remainder of this year and 2024 are consistent with that expectation. Growth will continue, but at a modest rate, with GDP expected to grow by 1.5%, when measured in inflation-adjusted terms.

Seattle Metropolitan Area Economic Conditions and Outlook

Overall, the Seattle regional economy has tracked the performance seen at the national level. Employment growth has remained relatively strong and regional measures of inflation have fallen significantly over the past 12 months. However, as described below, there are at least two significant factors that have specifically affected the region’s recent economic performance. First, the past year has seen a rather dramatic reversal in the technology sector, which has been a key driver of the region’s post-pandemic recovery. There was early evidence of this correction last fall, as announcements of layoffs were accompanied by declining stock prices and in the following months hiring slowdowns and layoffs became common even among the region’s largest technology employers. While not unique to Seattle, the technology sector has a disproportionate impact on the Seattle region, relative to the nation as a whole. In addition, the slow rates of “return to the office” have meant that overall economic activity in Seattle’s downtown core has been relatively slow to recover. Comparable patterns have been seen across the nation, but Seattle workers have lagged the overall national trends on returning to traditional work locations.

Labor Market. Relative to the economic forecast that underlies the revenue forecasts developed last fall, the regional labor market has outperformed expectations in terms of overall employment. In November of last year, the Office of Economic and Revenue Forecasts (Forecast Office) projected that the regional unemployment rate would average 3.6% in 2023. The most recent forecast, prepared in August, projects that figure to be just 3.0% for 2023. The projections for next year reflect a comparable pattern of improvement. The forecasts from last fall anticipated average regional unemployment would run at 4.2% for 2024. The August revisions now put that estimate at just 3.1%. Rising interest rates have cooled some aspects of the local economy, but have not led to overall job losses. That said, recent hiring patterns have differed significantly by sector. The chart below highlights job changes by sector since January of this year.

Overall, regional job growth has been relatively slow this year. The net addition of 11,000 jobs from January through August represents an increase of just 0.6%, and the growth has been very uneven across sectors. While there has been net job creation in seven of ten sectors, the notable reductions in the Information, Professional & Business Services, and Construction sectors highlight the impacts of the technology sector slowdown and the wider implications of “work from home”. The rapid growth of highly paid technology jobs added significant spending power to the local economy in 2021 and 2022 as the local economy recovered quickly from the pandemic, but clearly that is no longer a driving force of local economic growth. In addition, rapidly falling demand for commercial office space will slow commercial construction activity, and the City has already seen a reduction in issued building permits.

Inflation. Driven in a significant part by strong income growth and the rapidly increasing cost of housing, the regional rate of inflation has been outpacing the national level for much of the post-pandemic period. As of last October, regional inflation was running at annual rate of 8.9%, compared to the national level of 7.7%. The regional forecast developed at that time anticipated that regional price escalation would track with national trends and cool over the last quarter of 2022 and throughout 2023. That forecast was generally accurate, and in fact prices have cooled more rapidly than anticipated. At the time the budget was adopted, the regional forecast projected that inflation would run at 6.3% over

2023, and then fall to 3.4% in 2024. The most recent modeling from the Forecast Office anticipates the annual rate for 2023 will be just 5.7%, and that in 2024 inflation will further cool to 3.1%. A softening in the local residential rental market has been a key factor in these declines, as housing represents about one third of the overall expenditures accounted for in the consumer price index used to measure inflation.

Regional Outlook. Following a stronger than expected performance to date in 2023, the outlook for 2024 anticipates the same general level of subdued growth that had been projected last fall. Like the nation, the regional economy is now expected to avoid a recession, and while unemployment is expected to trend up modestly as hiring slows, there is no expectation of net job losses. That said, the cooling technology sector and the slowing demand for new construction were not fully anticipated last fall, and these factors as well as general national trends have shifted the longer-term outlook toward slower growth. For example, last fall, the Forecast Office’s regional model anticipated that regional personal income would grow at an average annual rate of about 4% from 2024 through 2028. The most recent forecast projects average income growth closer to 3% over this same period. This pattern of slower growth marks a distinct shift from pre-pandemic trends when the local economy experienced an extended period of robust expansion, driven by strong growth in the technology sector and sustained construction activity in both the commercial and residential sectors. The sections that follow highlight how revenue forecasts have changed since last fall and how evolving economic conditions have changed those forecasts over the course of this year.

City Revenue

The following sections describe forecasts for revenue sources supporting the City’s primary operating fund, the General Fund, its primary capital funds – the REET 1 and REET 2 Capital Funds, and six select other funds – the Arts and Culture Fund, Seattle Park District Fund, Sweetened Beverage Tax Fund, the Short-Term Rental Tax Fund, the Transportation Fund, and the JumpStart Payroll Expense Tax Fund.

General Fund Revenue Forecast

Based on the stronger than expected 2023 performance of the regional economy, overall General Fund revenues are projected to increase relative to 2023 Adopted and 2024 Endorsed budget expectations approved in November 2022. As the General Fund revenue table below indicates, the 2023-2024 Proposed Mid-Biennial Budget Adjustments assume approximately \$76.2 million additional revenues over the 2023 Adopted and a smaller \$47.6 million over the 2024 Endorsed budgets. The smaller growth increment in 2024, though due to many factors, signals the trend revealed in the regional forecast for slower growth in the major, economically driven taxes heading into 2024-2028. The 2024 increase includes proposed policy changes added to the forecast since the August General Fund forecast was approved by the City’s Forecast Council on August 10, 2023. These changes include a total reduction to the JumpStart Payroll Expense Tax Fund transfer to the General Fund of \$6.5 million and increases to several fee revenues that total \$3.4 million.

General Fund Revenue, 2022 – 2024, thousands of dollars

Revenue	2022 Actuals	2023 Adopted	2023 Revised	2024 Endorsed	2024 Proposed

Property Tax. Property taxes paid in the current year are based on valuations as of January 1 of the previous year. The revenue forecasts and projected tax rates for 2024 are based on January 1, 2023 valuations. Over the course of this year, the King County assessor has been conducting the research and appraisals needed to retroactively determine those valuations. Overall, real estate valuations have been in decline. The combination of high interest rates, uncertainty about the long-term demand for office space, and cooling residential demand have all contributed to this decline. The impacts of these factors are expected to be reflected in the assessed values that will underlie 2024 tax collections. However, due to the structure of state property tax laws, these changes in the assessed value of existing values will not have a negative impact on City property tax revenues. The cooling residential market has also reduced the forecasts of the value of new construction, which do have some impact on property tax revenues. However, these forecast changes have been small in magnitude, in part because the cost of new construction has been escalating due to inflation, even as the volume of projected demand has been declining. The Proposed Budget Adjustments show an increase of \$1.2 million in 2023 over the adopted budget due to changes in technical assumptions. There is no significant change in 2024 despite the slowing real estate market for the reasons laid out above.

Medic 1/Emergency Medical Services. This county-wide property tax is levied by King County. The City of Seattle receives a distribution of the proceeds equal to the county-wide tax rate multiplied by the City's assessed value (AV). The county-wide tax rate is based on the annual Medic 1/EMS levy amount divided by total King County AV. Thus, the tax rate will increase or decrease respectively when King County AV shrinks or grows faster than the rate of growth of the levy amount. The City's share will, in turn, grow or shrink with the tax rate and whether City AV growth is sufficient to outpace any changes resulting from King County AV changes. The Proposed Budget Adjustments include a decrease of \$2.4 million for 2023 and \$1.6 million for 2024, due to the effect of King County AV growth and decline on the tax rate relative to the growth and decline in City AV in 2023 and 2024.

Retail Sales and Use Tax. Consistent with the overperformance of the regional economy relative to the forecasts developed last fall, the revised estimates for sales tax have been upgraded for 2023 and 2024. An additional \$11.5 million is anticipated for 2023, and an additional \$8.4 million for 2024. While arguably significant in absolute dollar terms, they represent forecast revisions of just 3.5% and 2.5%, respectively. In addition, the new estimates anticipate that retail sales tax will grow just 1.1% between 2023 and 2024, compared to the 2.1% growth projected last fall. Thus, the increased dollar amount for 2024 is driven mainly by the increased base attributable to the stronger than expected 2023 results. The slower rate growth for 2024 is consistent with the observations above about slower long-term growth in the regional economy.

Business and Occupation (B&O) Tax. The forecasts for 2023 and 2024 B&O Tax revenues have also both increased relative to the amounts projected in November of last year. Anticipated revenues are up \$18.8 million for 2023, and \$23.3 million for 2024. These changes represent increases of 5.6% and 6.8%, respectively, relative to the 2023 Adopted and 2024 Endorsed budgets. Again, the region's stronger than anticipated economic performance this year is expected to increase the B&O tax base for 2023, and this higher base will compound to increase 2024 revenues as well. While retail sales and B&O tax tend to move together, the taxes do not apply to exactly the same types of economic activity, so it is not surprising that the B&O revenues have shown stronger relative performance. For example, the slowing construction sector has created a larger drag on sales tax growth than it has on B&O growth.

Utility Business Tax – Private Utilities. This revenue category includes taxes on cable television, telephone service, natural gas, and the central steam heat services provided in the downtown core.

Relative to last fall, revenue forecasts for this category have been increased by \$1.6 million in 2023, and a modest \$254,000 in 2024. The increase for 2023 is driven by three factors: a shift in timing of payments that had been expected in 2022, a colder than expected winter in early 2023, and a slower than anticipated decline in the demand for telephone and cable service, which have been on a long-term downward trend.

Utility Business Tax – Public Utilities. The City levies a tax on most revenue from retail sales collected by City-owned utilities (Seattle City Light and Seattle Public Utilities). Tax rates range from a State-capped 6% on City Light up to a current 15.54% on the City Water utility. Compared to the 2023 Adopted and 2024 Endorsed Budgets, electric tax revenues are up nearly \$3 million in each year due to a colder than expected winter. There are also anticipated increases in revenues from solid waste of \$2.6 million and \$1.5 million in 2023 and 2024, respectively. Sewer tax revenues are expected to decrease by about \$2 million in each year, driven by a downward revision in the County’s projections. On net, the Proposed Budget Adjustments assumes an increase in Public Utilities revenues over the 2023 Adopted and 2024 Endorsed Budgets of \$3.5 million and \$1.8 million, respectively.

Transportation Network Company Tax. In November 2019, Council approved a tax on transportation network companies (TNC), such as Uber and Lyft, effective July 1, 2020. As approved, the tax of \$0.57 per trip is owed for all rides originating in Seattle by TNC’s with more than 1 million rides per calendar quarter. Council reduced the ride threshold to 200,000 rides per quarter effective October 2020, and then the tax rate to \$0.42 per trip effective January 1, 2023. At the start of the COVID-19 pandemic, the demand for rides and the number of drivers fell, significantly reducing TNC tax revenue. The recovery of both demand and supply has been anemic. The Proposed Budget Adjustments assume \$5.3 million in 2023 and \$5.5 million in 2024, a decrease of \$0.5 million and \$1.2 million from the 2023 Adopted and 2024 Endorsed, respectively.

Parking Meters. Revenue from on-street parking meters is forecast to be \$33.1 million in 2023 and \$42.3 million in 2024, a year-over-year increase of \$9.1 million or 27.5%. The 2024 forecast represents an additional \$8.0 million (23.4%) relative to the 2023 Adopted total and an increase of \$2.2 million (5.4%) from the 2024 Endorsed forecast. The year-over-year increase is due mostly to rate changes that the Seattle Department of Transportation implements on a quarterly basis with rates determined by its Performance-Based Parking Program model which sets rates in order to achieve 1-2 open spaces per blockface. In recent years, these rate changes have resulted in many more increases than decreases due to the reset of rates to \$0.50 in all areas in 2020 in response to the COVID-19 pandemic. With the rate changes that took effect in July of 2023, average parking rates have now surpassed pre-pandemic levels for the first time since the reset. Variations in the forecast over time are often due to shifting demand for parking across the city. In recent cycles, neighborhood parking areas have tended to see increasing demand relative to downtown, a trend that has weakened but persisted since the height of the pandemic. In addition to rate changes, the Proposed Budget Adjustments include revenue of \$2.4 million in 2024 for the proposed policy change to increase the minimum and maximum city parking rates. For additional details on planned expenditures of this projected revenue increase, see the Seattle Department of Transportation section of the budget.

Court Fines. The City imposes and collects fines and related fees on various citations, primarily on-street parking and camera enforced red light violations. Relative to the 2023 Adopted and 2024 Endorsed budgets the Proposed Budget Adjustments assume \$1.3 million additional revenue in 2023 and a decrease of \$6.2 million in 2024. The increase in 2023 is likely a one-time bump as it is largely due to the City reinstating referrals to collection of a backlog of citations created when the City suspended referrals

during the COVID-19 pandemic. Through notifications, some people paid prior to referral to collections to avoid penalties and interest charges being added to the fine amount. Fine revenues are reduced in 2024 relative to the 2024 Endorsed forecast due to a downward revision in the citation volumes.

Grant Revenues. Federal, State and local grant revenues can change significantly with the passage of time as departments learn of new grant opportunities and applications are successful. Importantly, grant revenues are by their nature and purpose matched dollar-for-dollar with expenditures across the life of the grant. As such, grants are not providing additional discretionary revenues for allocation through the budget process. The Proposed Budget Adjustments contain an additional \$34.2 million of grant revenues in 2023 relative to the 2023 adopted budget, with roughly half coming in the form of direct federal grants. An additional \$7.0 million is expected in 2024.

Fund Balance Transfers. Changes in fund balance transfer amounts from the 2023 Adopted and 2024 Endorsed budget are predominantly due to changes in transfer amounts from the JumpStart Payroll Expense Tax Fund. By policy, transfers will increase or decrease in 2023 as General Fund revenues decrease or increase plus an amount for administrative support that will remain in future years. The transfer amount in the Proposed Budget Adjustments for 2023 is reduced approximately \$34.0 million from the 2023 Adopted amount – a year-end supplemental is proposed to reduce the transfer amount further by approximately \$4.7 million – and \$6.5 million for 2024 from the 2024 Endorsed amount. For further explanation of the transfer and uses of the payroll expense tax, please see the Budget Overview section of this budget book.

Service Charges and Reimbursements. Total revenues in this category are increasing a net \$2.4 million and \$1.2 million in 2023 and 2024 respectively relative to 2023 Adopted and 2024 Endorsed budget assumptions. While cost allocation revenues (recovery of costs for services within city government) in the General Fund are increasing, as are legal and personnel services revenues, in 2023 and 2024 due to general cost increases for provision of services, revenues from public safety enforcement services are projected to decline due to reduced expectations for and changes in provision of reimbursable services.

Licenses and Permits. The City requires all businesses operating in Seattle to have a business license, and the cost of these licenses operates on a sliding scale that increases with the business' revenues. The current revenue forecasts show an apparent increase of \$4 million in anticipated revenues in 2023, and \$1 million in 2024. However, a significant share of the 2023 increment represents a shift in the timing of payments, rather than a net increase in revenues. The City did not process many of the payments made in December of 2022 until early 2023, which distorts the 2023 totals. That said, the local economic recovery and increasing business revenues have helped drive overall business license revenue above last November's forecast. The \$1 million increment for 2024 reflects this net increase.

Interest Income. The City receives interest earnings on its cash holdings. Elevated cash balances and higher earnings rates have led to increases of \$12.7 and \$12.1 million for 2023 and 2024, respectively, relative to the 2023 Adopted and 2024 Endorsed Budgets. As the Federal Reserve has increased the Federal Funds Rate, the yields on Treasuries and other investments available to the City in accordance with State law have also increased. Overall earnings rate on the City's cash pool are projected to increase by approximately 50 basis points between the 2023 Adopted and 2024 Endorsed budget and the Proposed Budget Adjustments.

Non-General Fund Revenues of Note

In addition to forecasts of General Fund revenues, the Forecast Office and the City Budget Office track and forecast various other revenues that are accounted for in separate funds and that support general government purposes.

REET 1 and REET 2 Capital Funds – Real Estate Excise Tax (REET).

REET revenues are generated by a combined 0.5% tax on all real estate transactions. The sharp increase in interest rates, which has been induced by the Federal Reserve’s monetary tightening, has significantly increased the cost of borrowing and negatively impacted the volume of both residential and commercial real estate transactions. In addition, the shift toward “work from home” has created a great deal of uncertainty about the value of commercial office space. This uncertainty has further dampened the sales of large office properties, which had previously represented a notable share of REET revenues. These dynamics were emerging last fall, but since then the total volume of real estate activity has fallen dramatically. As a result, REET forecasts for both 2023 and 2024 have been significantly reduced. The forecast for 2023 has been reduced by \$17.4 million, from \$68.1 million to \$50.7 million. For 2024, the forecast has been reduced by \$14.7 million, from \$68.6 million to \$53.9 million.

Arts and Culture Fund - Admission Tax.

Relative to the forecast from last November, anticipated admission tax revenues have increased by \$1.2 million per year for both 2023 and 2024. This adjustment reflects an overall increase in the demand for entertainment activities, attributable to both local residents and tourists. This increases the total projected revenues for 2023 and 2024 to \$22.6 million and \$23.4 million, respectively.

Seattle Park District Fund – Property Tax Levy.

In August 2014, voters approved creation of a Metropolitan Park District (MPD). Pursuant to RCW 35.61, the MPD is a legally separate taxing jurisdiction from the City of Seattle, whose property tax levy authority of \$0.75 per \$1,000 assessed value is outside of the City’s statutory rate limit of \$3.60 per \$1,000 assessed value and whose revenues will not be accounted for in the City’s General Fund. The MPD is levying \$118.4 million in 2023 and \$122.5 million in 2024, which have not changed from the 2023-24 Adopted Budget as the amounts are in accordance with the MPD’s spending plan.

Sweetened Beverage Tax Fund. The Sweetened Beverage Tax is a tax of 1.75 cents per ounce of sweetened beverages or the equivalent for condensed syrups distributed into the City of Seattle. Consumption patterns and volumes changed during the COVID-19 restrictions reducing revenues. Although not completely returned to pre-COVID consumption, consumption levels have grown and revenues from the tax have been increasing. The Proposed Budget Adjustments anticipate increases of approximately \$500,000 in 2023 to \$20.9 million and \$550,000 in 2024 to \$21.2 million.

Short-Term Rental Tax Fund.

Effective January 1, 2019, the State legislature authorized the public facilities district that is the Washington State Trade and Convention Center to impose a 7% tax on the sale of or charge made for the furnishing of lodging (including but not limited to any short-term rental). Beginning in 2020 these revenues and associated expenditures were moved from the General Fund to the Short-Term Rental Tax Fund in the City’s accounting system. These revenues were severely affected by the reduction in travel due to COVID-19 concerns in 2020 and 2021 but are now on track to surpass 2019 levels as a result of tourism that has rebounded and remained robust. The Proposed Budget Adjustments anticipate \$10.9

million in 2023 and \$11.8 million in 2024 - \$1.4 million and \$1.7 million over the 2023 Adopted and 2024 Endorsed, respectively.

Transportation Fund - Commercial Parking Tax.

Commercial parking tax revenues continue a steady recovery from the effects of the COVID-19 pandemic, buoyed by a rate increase of 2 percentage points from 12.5% to 14.5%, effective July 2022. Given that the economy has been stronger than expected at the end of 2022 – particularly the leisure and hospitality sector – the Proposed Budget Adjustments anticipate \$48.4 million in 2023 and \$50.2 million in 2024, an increase of \$3.3 million and \$3.2 million over the Adopted and Endorsed, respectively.

JumpStart Payroll Expense Tax Fund.

As of 2023, the City's Payroll Expense tax applies to employee compensation of more than \$174,000 per individual at businesses with a total Seattle-based payroll of more than \$8.1 million. Specific tax rates vary with the level of individual employee's compensation and each company's total Seattle payroll. The City has a very limited history with both forecasting and collecting the resulting tax obligations. The tax was first imposed in 2021, with the first payments not made until January of 2022. Total 2021 tax obligations were approximately \$293 million, but fell to \$253 million in 2022. The majority of the revenues from this tax are generated from relatively few firms, most of which are concentrated in the technology sector. Thus, the reduction in revenue experienced between 2021 and 2022 is directly associated with the overall slowdown in this sector, and particularly in falling stock values, because stock grants represent a notable share of total compensation for many technology workers. At the time that the 2023 and 2024 revenue forecasts were developed last fall, the 2022 revenue results were not yet known. Although some reduction in revenues relative to 2021 was anticipated, actual 2022 collections were significantly lower than expected. When these results were incorporated into revised forecasts for 2023 and 2024 the overall impact was a reduction in anticipated revenues. Relative to the adopted 2023 forecast of \$294 million, the revised figure has been reduced by \$19.5 million to \$274.6 million. Concurrently, the forecast for 2024 has been reduced by \$21.6 million, from \$311.5 million to 289.9 million.

Multi-Department Revenue Summary

JumpStart Payroll Expense Tax

The 2023-2024 Proposed Mid-Biennial Budget Adjustments include \$301 million in appropriation backed by JumpStart Payroll Expense Tax (payroll tax) revenues.

The 2024 Endorsed Budget included an \$84.1 million transfer from the JumpStart Payroll Expense Tax Fund (payroll tax fund) to the City's General Fund to support general operating expenses. 2024 payroll tax revenues were forecasted to be \$311.5 million at the time the budget was passed. However, the 2024 payroll tax revenues are now forecasted to be \$289.9 million. To balance the fund, the proposed budget updates reduce the payroll tax revenue stabilization reserve by \$10 million, reduces the transfer to the General Fund for general operating expenditures by \$10 million, reduces Housing and Services by \$3.7 million and does not allocate \$2 million of the \$13 million economic revitalization reserve that was set up for new programs in 2024.

The amount remaining after the General Fund transfers described above is allocated, with two exceptions, according to the spending plan outlined in Section 5.38.055 of the Seattle Municipal Code (SMC), and amended in Ordinance 126719, which provides temporary flexibility to spend payroll tax proceeds on items deemed by the City Council to not be in alignment with Section 5.38.055 of the SMC.

The proposed budget updates includes legislation amending the Use of Funds Flexibility ordinance to add three items to the list of "exceptions" – items that are permitted to use payroll tax for this limited time but do not ordinarily clearly fall under a permitted category.

One of the permitted uses of payroll tax proceeds is for support to human service providers in the 2024 proposed budget which is being paid for by reducing the General Fund transfer that supports general operating expenses in the General Fund. The payroll tax proceeds available after General Fund transfer totals \$214 million in 2024.

This includes:

Temporary Flexibility, including Human Services Provider Pay: \$11.2 million authorized on a one-time basis in 2024 to support four existing specific investments in the endorsed budget (\$2.8 million) and three proposed new investments that would not otherwise be deemed eligible by current law as payroll tax expenditures. The existing items include a transfer to the Sweetened Beverage Tax Fund to offset decreasing revenues, funding for the Department of Education and Early Learning to support mental health services in schools, funding for the Seattle Department of Construction and Inspections (SDCI) for eviction legal defense, and funding for the Office of Planning and Community Development to support outreach and planning related to Sound Transit 3. The proposed new items include one-time startup costs for the Social Housing Public Development Authority in Finance and Administrative Services, a position in SDCI to support the process for Economic Displacement Relocation Assistance, and Human Services Provider Pay.

Human Services Provider Pay includes \$7.4 million in payroll tax-backed investments in organizations contracted by the City to provide human services, child health and development services, and support and outreach to people experiencing homelessness. These investments include childcare worker support in the Department of Education and Early Learning (DEEL) and investments in pay increases for employees at organizations that provide human services in partnership with the department of Human Services (HSD), DEEL, and the Department of Neighborhoods. The City Council added \$600,000 to HSD's 2022 Adopted Budget for a wage equity study. In 2023, the University of Washington completed the wage equity study and City Council passed Resolution 32094 concerning wage equity for non-profit human services workers. In the resolution Council stated their intent to consider wage equity increases to HSD administered contracts in addition to inflationary adjustments required under Seattle Municipal Code (SMC) Section 3.20.060.

Housing and Services: \$136.5 million in payroll tax-backed investments in affordable housing for low-income households. This funding will support the Office of Housing's work to develop, acquire, preserve, and operate affordable housing and foster affordable homeownership opportunities. In 2024, the funding also supports the Human Services Department's need to relocate Rosie's Village, which is a pre-development cost related to the beginning of work on an affordable housing project on the site. The 2024 Endorsed Budget included \$140.3 million of payroll tax for Housing and Services. In 2024, the budget updates reduce \$4 million from the category in response to the revised revenue projections, this reduction is offset by additional revenue for affordable housing from the 2023 Seattle Housing Levy, pending approval by the voters in November 2023.

Economic Revitalization: \$31.6 million in payroll tax-backed investments are spread across ten City departments to support a wide range of economic development and affordability programs. In 2023, the Office of Economic Development (OED) finalized the Future of the Seattle Economy (FSE) report, which provides a community-informed investment framework for the City to promote inclusive economic growth. City Council passed a resolution in support of this report, Resolution 32099. The proposed budget updates allocate the \$31.6 million of economic revitalization investments in alignment with the FSE report. The proposed budget updates maintain the commitments in the economic revitalization category that were appropriated in the 2024 Endorsed Budget. Of the \$13 million total Economic Revitalization Reserve, OED will use \$9.9 million for new items that support commercial affordability, downtown and neighborhood economic recovery, and workforce development. The budget updates also include funding for a position in the Office of Planning and Community Development for work related to the Downtown Activation Plan. The proposed budget updates include a one-time \$1 million investment in Seattle Department of Transportation for the management of the right-of-way to foster community building, placemaking, and economic vitality in Downtown as part of the Downtown Activation Plan. It also includes a one-time \$300,000 investment in the Department of Neighborhoods for Chinatown-International District community capacity building.

Green New Deal: The proposed budget updates only make technical changes to the 2024 Endorsed Budget for the Green New Deal category. The 2024 Endorsed Budget includes \$20.1 million spread across three City departments for Green New Deal programs and initiatives. Of

this amount, over \$16 million will go to the Office of Sustainability and Environment to support a range of investments in green economy workforce development, building performance and emissions standards, electric vehicles, and environmental justice. Other major investments include nearly \$2 million to the Office of Housing to support residential oil-to-electric heating conversions.

Equitable Development Initiative: The proposed budget updates make no changes to the 2024 Endorsed Budget for the Equitable Development Initiative category. The proposed budget updates provide \$20.5 million to support the Equitable Development Initiative (EDI) in the Office of Planning and Community Development. EDI invests in neighborhoods most impacted by displacement and low access to economic opportunities and aims to expand opportunity, prevent displacement, and build on local cultural assets. The proposed budget updates provide a total of \$25.2 million for EDI grants, including contributions coming from the JumpStart Payroll Expense Tax, Short-Term Rental Tax, and Community Development Block Grant.

Administration and Evaluation: \$7.1 million to support the administration of the payroll tax and evaluation of the programs funded by its proceeds. This amount includes two transfers from the JumpStart Payroll Expense Tax Fund to the General Fund. One of these transfers is \$2.6 million to cover costs not yet quantified through a formal central rate allocation formula, a \$400,000 reduction from the endorsed budget. The other transfer is \$4.3 million to cover specific administrative and evaluation expenses identified in the City Budget Office, Department of Neighborhoods, Office of Economic Development, Office of Sustainability and Environment, Department of Finance and Administrative Services, Seattle Department of Human Resources, and Legislative Department.

Department	Payroll Expense Tax Category	2024 Allocations (\$)

	Citywide Total:	301,031,712

Sweetened Beverage Tax

The proposed budget maintains Sweetened Beverage Tax (SBT) expenditures and programming at the original 2024 Endorsed Budget levels of \$22.4 million. This budget supports ongoing funding for programs such as Fresh Bucks and Healthy Food in Schools at the Office of Sustainability and Environment (OSE), the Childcare Assistance Program (CCAP) at the Department of Education and Early Learning (DEEL), food system support at the Human Services Department (HSD), and Summer of Safety and Food and Fitness programming at Seattle Parks and Recreation (SPR).

Short-Term Rental Tax

The Short-Term Rental Tax (STRT) supports the Equitable Development Initiative (EDI), permanent supportive housing and related debt service. The EDI was established in 2016 to provide investments in neighborhoods that support those most impacted by displacement and low access to opportunity. The program's objectives include advancement of economic opportunity and wealth-building strategies, preventing displacement, and building on local cultural assets. Ordinance 125872 allocates the first \$5 million of STRT to the Office of Planning and Community Development (OPCD) for EDI grants to outside organizations, allocates the next \$2.2 million to debt service, and allocates the next \$3.3 million to the Human Services Department for permanent supportive housing. All of these allocations are included in the proposed budget due to sufficient projected STRT revenues. In addition, the proposed budget shifts \$800,000 of Equitable Development staffing and other costs from the General Fund to Short-Term Rental Tax to relieve pressure on the General Fund given the growth in resources available to EDI. Another \$150,000 of STRT funds a new finance staff person in OPCD to support the EDI.

Transportation Network Company (TNC) Tax

The 2023-2024 Proposed Mid-Biennial Budget Adjustments projects \$5.5 million in 2024 from the Transportation Network Company (TNC) tax. The TNC Tax began collecting revenue in 2021 and has seen a reduction to the anticipated revenue due to a slower rebound of users and the creation of a state led Transportation Network Company tax. Washington State Engrossed Substitute House Bill 2076 preempts the City from Washington State passed ESHB 2076 which creates a state level Transportation Network Company tax and preempts the City from enforcing the TNC Driver Minimum Compensation and TNC Driver Deactivation Rights Ordinances starting on January 1, 2023. ESHB 2076 also reduces the per trip fee from \$0.57/trip to \$0.42/trip effective January 1, 2023.

Accounting for the reduced per trip fee and slow recovery in trip volumes, the 2024 Proposed Budget assumes \$5.5 million of TNC tax revenue in 2024, a 6% reduction over the 2023 Adopted Budget revenue forecast and a 19% reduction over the 2024 Endorsed revenue forecast.

The previously passed Spending Resolution 31914 outlined how the proceeds of the TNC Tax were to be spent, which includes the 2023 preempted components. The City Council approved temporary modifications to the spending resolution for the 2023-24 biennium. The Department of Finance and Administrative Services (FAS) is responsible for the accounting, collection, and enforcement of the tax

and is appropriated \$162,000 in 2024. The Seattle Department of Transportation will receive appropriations of \$6.1 million in 2024 to support ongoing transportation-related work.

City Fiscal Reserve Funds

The State of Washington permits the City to maintain two financial reserves to draw upon in the event of certain unanticipated expenditure or revenue pressures.

Emergency Fund

Under the authority of RCW 35.32A.060, the City maintains the Emergency Fund (EMF) of the General Fund. The EMF is the principal reserve for the City to draw upon when certain unanticipated expenses occur during the fiscal year. Eligible expenses include costs related to storms or other natural disasters. State law limits the amount of money the City can set aside in this reserve to 37.5 cents per \$1,000 of assessed value of property within the city.

Prior to 2017, the City's practice was to fully fund the emergency reserve to this maximum limit. In 2017, the City modified the existing financial policies for the EMF to establish a minimum balance of \$60 million, and to adjust that target balance each year with the rate of inflation. This policy struck a balance between ensuring that resources will be available to address unanticipated expenditures and making resources available to address current needs. In 2022, the City updated its financial policies to define a process for rebuilding the EMF reserve following a significant drawdown of funds, requiring that the EMF be replenished to its target balance within a period of five years.

During the COVID-19 pandemic and related economic downturn, the City withdrew \$31.3 million from the EMF over two years, reducing the reserve balance to \$33.7 million at the end of 2021. The 2022 Adopted Budget initiated the five-year rebuilding cycle by contributing \$10 million to the EMF; the 2023 Adopted Budget funded the annual contribution at \$6.5 million with an additional transfer of \$8.5 million assumed through pending Year-End Supplemental legislation, for a total of \$15 million in 2023. The 2024 Endorsed Budget assumed a contribution of \$6.5 million, and the 2024 proposed adjustments include an additional \$8.5 million, for a total of \$15 million in 2024. Contributions of \$11.5 million in 2025 and \$2.2 million in 2026 would rebuild the fund to a projected target balance¹ of \$87 million within the prescribed five-year timespan.

Revenue Stabilization Fund

Under the authority of RCW 35.21.070, the City maintains a second financial reserve called the Revenue Stabilization Fund (RSF), also known as the Rainy Day Fund. The RSF provides resources for the City to draw upon to maintain City services in the event of a sudden, unanticipated shortfall in revenue due to economic downturns or other factors. City code limits the balance of this reserve to five percent of General Fund tax receipts. Ordinance 123743 requires the City to deposit an amount equivalent to 0.5% of General Fund tax revenues into the RSF, with some limited exceptions. In addition, City policy requires the deposit of 50% of any unplanned year-end fund balance in the General Fund into the RSF. The RSF has a fund balance cap equal to five percent of total annual General Fund tax revenue.

In 2011, following the Great Recession of 2009 and 2010, the City adopted significant RSF funding enhancements via Ordinance 123743, including the required annual deposit of 0.5% of General Fund tax revenues into the RSF. The new policies facilitated the rebuilding of this reserve fund from a low of \$10.5 million in 2010 to \$60.8 million by 2020. Additionally, the policies specified that contributions to the fund are suspended when tax revenues decline and are reduced to 0.25% in the following year.

During the COVID-19 pandemic and related economic downturn, the City withdrew \$54.7 million from the RSF, reducing the reserve balance to \$6.0 million at the end of 2021. The 2022 Adopted Budget called for a \$15.4 million contribution to the RSF as part of a multi-year strategy to rebuild the fund balance to 5% of total annual General Fund tax revenue. However, the 2021 year-end fund balance in the General Fund generated a \$55.7 million mid-year deposit during 2022, which funded the RSF to its cap. Both the 2023 Adopted Budget and the

¹ 2026 anticipated target balance calculated using CPI-U 12 Months Ending June from the August 2023 Revenue Forecast.

2024 Proposed Mid-Biennial Budget Adjustments maintain the RSF at its cap with incremental transfers of \$3.6 million and \$2.3 million, respectively, for a total estimated balance of \$67.6 million at the end of 2024.

City Bond Issuance and Debt Service

In addition to cash resources, the City also uses bonds and property tax levies to fund a variety of capital improvement projects. The City's budget must include funds to pay interest and principal on outstanding and proposed bonds. The City has issued three types of debt to finance its capital improvement programs: unlimited tax general obligation bonds, limited tax general obligation bonds and revenue bonds.

Unlimited Tax General Obligation Bonds

The City may issue Unlimited Tax General Obligation (UTGO) Bonds for capital purposes if a proposition authorizing their issuance is approved by 60% of the voters in an election in which the number of voters exceeds 40% of the voters in the most recent general election. Payment of principal and interest is backed by the "full faith and credit" of the City. This means that the City commits itself to include in its property tax levy an amount that is sufficient to pay principal and interest on the bonds. Property taxes levied to pay debt service on UTGO bonds are not subject to the statutory limits in state law on the taxing authority of local governments, which is why UTGO bonds are "unlimited" (see the "Property Tax" section of the "Revenue Overview" for a description of statutory limits on property tax rates and growth). However, state law does limit the amount of UTGO bonds that can be outstanding at any time to 7.5% of assessed valuation of property in the city: 2.5% for open space and park facilities, 2.5% for utility purposes, and 2.5% for general purposes. As of December 31, 2022, there were approximately \$232.6 million in UTGO bonds outstanding.

Limited Tax General Obligation Bonds

The City Council may authorize the issuance of Limited Tax General Obligation (LTGO) Bonds, also known as Councilmanic bonds, in an amount up to 1.5% of assessed valuation, without a vote of the people. The City pledges its full faith and credit to the payment of principal and interest on LTGO bonds, but this pledge must be fulfilled within the City's statutory property tax limitations. Thus, these are "limited" general obligation bonds. The combination of UTGO bonds issued for general purposes and LTGO bonds cannot exceed 2.5% of assessed property valuation. If LTGO bonds are issued up to the 1.5% ceiling, then UTGO bonds for general purposes are limited to 1% of assessed value.

The City also guarantees debt issued by the Seattle Indian Services Commission and the Museum Development Authority. As of December 31, 2022, the guarantees totaled \$28.84 million in addition to approximately \$727.2 million in LTGO bonds outstanding. Guarantees count against the City's LTGO debt capacity.

Revenue Bonds

Revenue bonds are used to provide financing for the capital programs of City Light and the three other utilities - Water, Drainage and Wastewater, and Solid Waste - which are grouped together in Seattle Public Utilities. The City does not pledge its full faith and credit to the payment of debt service on revenue bonds. Payment of principal and interest on the bonds issued by each utility is derived solely from the revenues generated by the issuing utility. No tax revenues are used to pay debt service.

When revenue bonds are sold, the City commits itself to set fees and charges for the issuing utility that will be sufficient to pay all costs of operations and maintenance, and all payments of principal and interest on the bonds. While the amount of revenue bonds is not subject to statutory limits, the utility's ability to repay debt with interest is a practical constraint.

Forms of Debt Authorized by State Law

Table 1 below summarizes the conditions and limitations that apply to the issuance of the general obligation debt issued by the City.

Table 1: Summary of Conditions and Limitations for City Debt Issuances

Form of Debt	Voter Approval Required	Source of Repayment	Statutory Limitation	Current Limit ¹	Total Debt Outstanding 12-31-22 ¹
Unlimited Tax General Obligation Bonds (UTGO)					
Parks & Open Space	Yes	Property Tax	2.5% of AV	\$7.7 Billion	\$0
Utility	Yes	Property Tax	2.5% of AV	\$7.7 Billion	\$0
General Purposes	Yes	Property Tax	1.0 % of AV ²	\$3.1 Billion	\$233 Million
Limited Tax General Obligation Bonds (LTGO)					
	No	Taxes & Other Revenues	1.5% of AV ²	\$4.6 Billion	\$756 Million ³

¹ As of 12/31/22, assuming the latest certified assessed value of \$308.9 billion, issued on February 1, 2023 for taxes payable in 2023.

² The sum of UTGO and LTGO debt for general purposes cannot exceed 2.5% of assessed valuation.

³ Includes \$28.84 million of PDA debt guarantees.

City Debt Management Policies and Bond Ratings

The use of debt financing by the City is subject to federal and state laws as well as the City's own debt management policies ([Resolution 31553](#)).

The City has earned very high ratings on its bonds as a result of a strong economy and prudent financial practices. The City's UTGO debt is rated Aaa by Moody's Investors Service (Moody's), AAA by Fitch IBCA (Fitch), and AAA by Standard & Poor's (S&P), which are the highest possible ratings. The City's LTGO debt is also rated Aaa by Moody's, AAA by Fitch, and AAA by S&P. In addition, the City's utilities have very high ratings for revenue debt, reflecting sound finances and good management.

2024 Projected Bond Issues

In 2024, the City is authorized to issue approximately \$84.2 million of limited tax general obligation (LTGO) bonds for a variety of purposes. Table 2 lists the financed projects and other details of the financing plan. Bond proceeds will be deposited into the 2024 Tax Exempt and Taxable (if applicable) Multipurpose Bond Funds. City departments responsible for all or portions of projects listed in Table 2 will then draw money from the fund(s) as appropriated to implement the projects. The appropriation authority for spending these bond funds is included in the respective departments' sections of this budget.

Table 2: 2024 Multipurpose LTGO Bond Issuance Costs - Informational Only (\$1,000s)

<i>Project</i>	Capital Cost	Approx. Par Amount (1)	Max. Term	Approx. Rate	Debt Service Adopted 2024	Debt Service Estimated 2025	Debt Service Funding Source

Total	81,699	84,150			4,268	8,627	

(1) Includes 3% for costs of issuance and pricing adjustments.

Table 3: 2024 Multipurpose LTGO Fund Issuance Costs - Informational Only (\$1,000s)

Approximate Par Amount	Issuance Costs & Pricing Adjustments	Approximate 2024 Issuance Cost
\$84,150	3%	\$2,451

2024 Debt Service

In 2024, debt service associated with outstanding LTGO bond issues as well as the planned 2024 bond issuances is expected to be approximately \$119 million. Appropriation authority for debt service costs is included in the respective departments' sections of this budget. The Debt Service Appendix lists debt service amounts by paying fund.

Selected Financial Policies

Through a series of Resolutions and Ordinances, the City has adopted a number of financial policies that are designed to protect the City's financial interests and provide a framework and guidelines for the City's financial practices. For additional information about these policies, please refer to the City of Seattle website: http://www.seattle.gov/financedepartment/financial_policies.htm.

Budgetary Basis

- The City budgets on a modified accrual basis. property taxes, sales taxes, business and occupation taxes, and other taxpayer-assessed revenues due for the current year are considered measurable and available and, therefore, as revenues, even though a portion of the taxes may be collected in the subsequent year. Licenses, fines, penalties, and miscellaneous revenues are recorded as revenues when they are received in cash since this is when they can be accurately measured. Investment earnings are accrued as earned.
- Expenditures are considered a liability when they are incurred. Interest on long-term debt, judgments and claims, workers' compensation, and compensated absences are considered a liability when they are paid.

Appropriations and Execution

- The adopted budget generally makes appropriations for operating expenses at the budget control level within departments, unless the expenditure is from one of the General Fund reserve accounts, or is for a specific project or activity budgeted in the General Subfund category called Finance General. These projects and activities are budgeted individually.
- Capital projects programmed in the CIP are appropriated in the budget at the program or project level. Grant-funded activities are controlled as prescribed by law and federal or state regulations.
- Within the legally adopted budget authorizations, more detailed allocations, as approved by CBO, are recorded in the City's accounting system, called SUMMIT, at the lowest levels of each department's organizational structure and in detailed expenditure accounts. Throughout the budget year, CBO monitors revenue and spending performance against the budget to protect the financial stability of the City.
- In accordance with Washington state law, any unexpended appropriations for operating or ordinary maintenance expenditures automatically lapse at the close of the fiscal year, except for any appropriation continued by ordinance. Unexpended appropriations for capital outlays remaining at the close of the fiscal year are carried forward to the following year, except for any appropriation abandoned by ordinance.

Budget Transfers

The Budget Director may approve, without ordinance, appropriation transfers within a department or agency of up to 10%, and with no more than \$500,000 of the appropriation authority for the particular budget control level or, where appropriate, line item, being increased. In addition, no transfers can reduce the appropriation authority of a budget control level by more than 25%.

Selected Financial Policies

Debt Policies

- The City of Seattle seeks to maintain the highest possible credit ratings for all categories of short- and long-term General Obligation debt that can be achieved without compromising delivery of basic City services and achievement of adopted City policy objectives.
- The City will reserve \$100 million of legal limited tax (councilmanic) general obligation debt capacity, or 12% of the total legal limit, whichever is larger, for emergencies. The 12% reserve is now significantly greater than \$100 million.
- Except in emergencies, net debt service paid from the General Subfund will not exceed 9% of the total General Fund budget. In the long run, the City will seek to keep net debt service at 7% or less of the General Fund budget.

General Fund - Fund Balance and Reserve Policies

- State law allows the City to maintain an emergency reserve at a maximum statutory-authorized level of 37.5 cents per \$1,000 of assessed property value in the city. The City's previous practice had been to fully fund the emergency reserve to this maximum limit. However, over the past several years assessed values have undergone significant growth and are expected to continue at a rate that far outpaces the projected City's revenue growth rate. In 2017 the City modified the existing financial policies for the Emergency Subfund (ESF) to establish a minimum balance of \$60 million, and to adjust that level each year with the rate of inflation. This implies that the ESF would continue to grow, but at somewhat lower rate than under the previous policy. This policy change strikes a balance between ensuring that resources will be available to address unanticipated expenditures and making resources available to address current needs.
- Annual contributions of 0.50% of forecasted tax revenues are automatically made to the Revenue Stabilization Account of the Cumulative Reserve Subfund (commonly referred to as the "Rainy Day Fund").¹ In addition, 50% of any unanticipated excess General Subfund fund balance at year's end is automatically contributed to the Rainy Day Fund. These automatic contributions are temporarily suspended when the forecasted nominal tax growth rate is negative or when the total value of the Rainy Day Fund exceeds 5% of total tax revenues. In addition to the automatic contributions, the City may also make contributions to the Rainy Day Fund via ordinance. Expenditures from the Rainy Day Fund require the approval of a majority of the members of the Seattle City Council and must be informed by the evaluation of out-year financial projections.

Other Citywide Policies

- As part of the Mayor's budget proposal, the Executive develops a revenue estimate that is based on the best available economic data and forecasts.
- The City intends to adopt rates, fees, and cost allocation charges no more often than biennially. The rate, fee, or allocation charge structures may include changes to take effect at

¹ The 0.50% contribution is lowered to 0.25% of forecasted tax revenues for any year immediately following the suspension of contributions as a result of negative nominal tax revenue growth.

Selected Financial Policies

specified dates during or beyond the biennium. Other changes may still be needed in the case of emergencies or other unanticipated events.

- In general, the City will strive to pay for general government current operating expenditures with current revenues, but may use fund balance or other resources to meet these expenditures. Revenues and expenditures will be monitored throughout the year.
- In compliance with State law, no City fund whose purpose is restricted by state or local law shall be used for purposes outside of these restrictions.
- Working capital for the General Fund and operating funds should be maintained at sufficient levels so that timing lags between revenues and expenditures are normally covered without any fund incurring negative cash balances for greater than 90 days. Exceptions to this policy are permitted with prior approval by the City Council.

Mid-Biennial Department Budget Details

2024 is the second year of the City’s biennial budget process. The City Council endorsed departmental funding amounts for 2024 as part of the 2023 Adopted Budget and that Endorsed Budget served as the starting point for the 2024 Budget Process.

Departments were given guidance to work within their 2024 Endorsed Budget amounts unless outside factors, such as inflation, significantly impacted their ability to maintain current service levels.

The following department budget detail pages have been modified to reflect the 2024 Endorsed Budget as the beginning point and presents incremental changes proposed for 2024 as compared to the endorsed funding levels. New for this mid-biennial presentation is a summary table by Budget Summary Level and Fund comparing the 2024 Endorsed and the 2024 Proposed Mid-Biennial Adjustments for the operating budgets. As the capital budget process runs independent of the operating budget and does not have an endorsed budget level, this table does reflects only operating budget funds.

For additional detail on capital budget changes, please refer to the 2024-2029 Capital Improvement Plan document.

Office of Arts and Culture

Gülgün Kayim, Director

(206) 684-7171

<http://www.seattle.gov/arts>/<http://www.seattle.gov/arts>/<http://www.seattle.gov/arts/>

Department Overview

The Office of Arts & Culture (ARTS) builds and strengthens community resilience through investments in arts and culture that support artists and cultural institutions in the city. The Office promotes Seattle as a cultural destination and invests in Seattle’s creative sector to ensure a wide range of high-quality programs, exhibits, and public art are provided throughout the city. In alignment with the City’s Race and Social Justice Initiative (RSJI), ARTS seeks solutions that use race and social justice strategies to drive our investments. Racial equity is central to ARTS and is incorporated into department policies, procedures, and practices. ARTS’s program investments are centered around five key program areas: Cultural Investments, Creative Youth, Cultural Space programs, Art and Cultural Facilities programs, and Public Art. The Office is supported by the 16-member volunteer Seattle Arts Commission appointed by the Mayor and City Council who provide recommendations on the needs of the city’s creative sector.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$(67,035)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the

Office of Arts and Culture

department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

ARTS/OED Collaboration on Downtown Activations

Expenditures \$1,000,000

The City of Seattle projects higher-than-anticipated Admissions Tax revenues that provide an opportunity to make key structural and short-term investments to strengthen Seattle’s creative sector. This item provides one-time funding to the Office of Arts & Culture to partner with the Office of Economic Development (OED) on activation of King Street Station and the Downtown Core. ARTS will activate the King Street Station (KSS) by hosting cultural space, education, and artistic expression events for individual and organization participation. ARTS will focus on developing a larger, more visible footprint in and around King Street Station with a calendar of programming activities such as markets, outdoor events, and concerts.

ARTS will work with OED on ways to bring more art, including murals, performance art, festivals, and temporary public art into the Downtown Core. ARTS will support OED’s work in storefront activation from the perspective of creative sector economic justice by providing BIPOC artists and creative entrepreneurs with technical support focused on building business capacity and sustainability. The proposal includes labor costs for a temporary employee and programmatic funds to work on activations with a focus on creative placemaking. These funds are awarded on a project-by-project basis.

Downtown Hope Corps

Expenditures \$1,000,000

The City of Seattle projects higher-than-anticipated Admissions Tax revenues that provide an opportunity to make key structural and short-term investments to strengthen Seattle’s creative sector. This item supports a one-year extension to the Office of Arts & Culture’s Hope Corps program, with a focus on downtown activations. Hope Corps is a grant program designed to connect under- and unemployed workers in creative industries with career opportunities. ARTS estimates that this budget will support 50-70 creative projects in 2024. Funding for this program extension supports one temporary position as well as grant programming funds.

Increase in Community ARTS Grants

Expenditures \$257,100

The City of Seattle projects higher-than-anticipated Admissions Tax revenues that provide an opportunity to make key structural and short-term investments to strengthen Seattle’s creative sector. This item adds \$257,100 of ongoing funding to Office of Arts & Culture arts and cultural grants programs. This funding will provide a broad adjustment to awards in established grant programs run by the Office and seeks to address the impacts of recent historic inflation. The funds will allow ARTS to adjust grant awards for programs like Centering Art & Racial Equity (C.A.R.E.) which supports arts and culture, heritage and arts services organizations, Youth Arts which supports creative learning opportunities outside school time, and City Artist which supports Seattle-based individual artists and curators in the research, development, and presentation of new creative products.

Investments in Operations and Communications Support

Expenditures \$270,000

The City of Seattle projects higher-than-anticipated Admissions Tax revenues that provide an opportunity to make key structural and short-term investments to strengthen Seattle’s creative sector. This item makes strategic and

Office of Arts and Culture

operational investments in the functional areas of Office of Arts & Culture communications and professional resources. In 2024, this proposal supports hiring a 1-year term-limited web content specialist for content generation and support of the ARTS' externally facing website with a focus on human centered design. This item also restores ongoing funding to the department for staff training and development which was cut during the pandemic.

One-Time Bridge Funding to Support Seattle Arts Community

Expenditures \$650,000

The City of Seattle projects higher-than-anticipated Admissions Tax revenues that provide an opportunity to make key structural and short-term investments to strengthen Seattle's creative sector. This item provides one-time funding to the Office of Arts & Culture arts and cultural grants programs. The funding will be distributed through existing ARTS grant programs and is designed to ameliorate negative pressures on arts and cultural institutions who have not yet fully recovered from pandemic-caused economic pressures and who are facing the loss of federal funding. These grant funds will support efforts to build capacity through planning and strategic investments and meet one-time or short-term financial needs.

One-Time Support for Seattle Center's Folklife and Festal Programming

Expenditures \$763,952

The City of Seattle projects higher-than-anticipated Admissions Tax revenues that provide an opportunity to make key structural and short-term investments to strengthen Seattle's creative sector. This adjustment makes a one-time increase to ARTS' ongoing support of Seattle Center's Festal programming, bringing the total financial support to Seattle Center in 2024 to \$1.2 million. ARTS will reimburse Center for programming costs including funds to support community organizations operating at these cultural festivals and operating costs associated with putting on and marketing these events.

Temporary Graffiti Specialist

Expenditures \$150,000

The City of Seattle projects higher-than-anticipated Admissions Tax revenues that provide an opportunity to make key structural and short-term investments to strengthen Seattle's creative sector. This item adds funding for a two-year temporary position to work with the Mayor's Office on graffiti prevention strategies. This position will lead and enhance the beautification efforts of graffiti art, connect with the graffiti society, and educate, mentor and guide youth to use their time and energy in constructive ways. Reducing graffiti is a priority of the One Seattle initiative and is a key factor in improving Seattle livability.

Proposed Technical

Align King Street Station Programming Budget with Organization Structure

Expenditures -

This budget neutral item transfers appropriation authority from the King Street Station Facilities to King Street Station Programming. This reflects a structural change which took place in 2021 as King Street Station programming was made structurally distinct from the King Street Station facility.

Alignment of ARTS Healthcare Costs

Expenditures -

Office of Arts and Culture

This budget neutral change aligns budget for health care where costs are incurred in the Leadership and Administration budget.

Arts and Culture Fund Balancing Adjustments - Proposed

Revenues	\$2,086,350
----------	-------------

This is a technical item to record a fund balancing entry for the Arts and Culture Fund, which is primarily managed by this department.

Arts and Culture Fund Revenue Adjustment

Revenues	\$1,411,565
----------	-------------

This technical item adjusts revenues for the Arts and Culture Fund.

Correcting Project Balances within Arts & Cultural Programs BSL

Expenditures	-
--------------	---

This item makes a series of net zero transfers of appropriation authority within the Office of Arts & Culture in the Arts & Culture Fund Arts & Cultural Programs Budget Control Level (12400-BO-AR-VA160). The transfers move funds within projects to better align anticipated expenditures within the Arts & Cultural Programs BSL and actual program budgets.

CPI Adjustment for Climate Pledge Arena

Expenditures	\$10,658
Revenues	\$10,658

This item reflects increased revenue from a 10-year contractual agreement between the Office of Arts and Culture and the Climate Pledge Arena for arts programming. As a part of the contract, each year, the amount owed to ARTS increases related to CPI, not to exceed 3%.

Municipal Arts Fund Balancing Adjustment - Proposed

Revenues	\$512,747
----------	-----------

This is a technical item to record a fund balancing entry for the Municipal Arts Fund, which is primarily managed by this department.

Municipal Arts Fund Revenue Adjustment

Revenues	\$1,720,881
----------	-------------

This technical item adjusts revenues for the Municipal Arts Fund.

Transfer Funds within Public Art to Align within Updated Project Structure

Office of Arts and Culture

Expenditures

-

This item transfers \$203,966 of Municipal Arts Funds within the Office of Arts & Culture Municipal Art Budget Summary Level from an old legacy project activity code to its replacement. This technical adjustment will true up budget with expected expenditures.

Seattle Parks and Recreation

AP Diaz, Superintendent

(206) 684-4075

<http://www.seattle.gov/parks/><http://www.seattle.gov/parks/><http://www.seattle.gov/parks/>

Department Overview

Seattle Parks and Recreation (SPR) works with all residents to be good stewards of the environment and to provide safe, welcoming opportunities to play, learn, contemplate, and build community. SPR manages a [6,400+ acre park system of nearly 500 parks](#) and extensive natural areas. SPR provides athletic fields, tennis courts, play areas, specialty gardens, and more than 25 miles of boulevards and 120 miles of trails. The system comprises about 12% of the city's land area. SPR also manages many facilities, including 26 [community centers](#), eight [indoor swimming pools](#), two [outdoor \(summer\) swimming pools](#), three [environmental education centers](#), two [small craft centers](#), four [golf courses](#), an outdoor stadium, and much more. Department employees work hard to develop partnerships with park neighbors, volunteer groups, non-profit agencies, local businesses, the Associated Recreation Council, and Seattle Public Schools to provide access to open spaces, facilities, and programs for all residents.

Seattle Parks and Recreation

Total Incremental Changes	\$(6,995,098)	13.91
Total 2024 Proposed Budget	\$321,544,447	1131.89

Description of Incremental Budget Changes

Baseline

Citywide adjustments for standard cost changes

Expenditures \$2,208,591

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department.

Proposed Operating

Add funding for annual lease escalation

Expenditures -

This item adds appropriation to cover the contractual increases included in the lease agreement for the SPR administrative offices at 300 Elliot Ave. W. The current lease is estimated to increase by a total of approximately \$200,000 in 2024. Because the leased facility primary houses staff in planning and development, accounting, the business services center, and contracting, SPR will fund this increase through an increase in the 2024 overhead rates.

Adjust Unified Care Team budgets and positions

Expenditures -

Position Allocation -

In 2018, SPR formed a 13-person Special Maintenance Team to support the citywide work of responding to the increasing number of unsanctioned encampments and illegal dumping on public property. This body of work has evolved since that time including in 2023, when the team was expanded to support the citywide UCT in partnership with Seattle Department of Transportation (SDOT) and Seattle Public Utilities (SPU). This budget neutral item does not contain any major policy or operational changes related to SPR's UCT work. However, it does consolidate funding supporting this work but currently budgeted across multiple projects to the projects comprising the Special Maintenance Detailed Line of Business. It also reclasses several positions in a budget neutral way to align SPR and SDOT's use of similar titles for similar bodies of work.

Transfer General Fund for waterfront maintenance to Seattle Center

Expenditures \$(100,000)

Seattle Parks and Recreation

This item reduces \$100,000 of General Fund resources that previously supported maintenance of the waterfront. A similar item in Seattle Center's mid-biennium updates transfers this funding to Seattle Center as part of the transition of waterfront maintenance responsibilities approved in 2023.

Add an Equity Advisor

Expenditures	-
Position Allocation	1.00

This item repurposes existing Park District and Park Fund resources to sustain an Equity and Engagement Advisor Strategic Advisor focused on Capital Planning and Facilities Maintenance Line of Business. This role started as a term limited temporary assignment in March 2022. This position will be the third Equity Advisor role embedded in SPR Operating Divisions, joining the two other major divisions (Recreation and Parks and the Environment). Ensuring equity in SPR's delivery of capital projects and our approach to asset management including our facilities is critical especially as we begin to implement the Park District Cycle 2 investments.

Convert part-time Golf Course Groundskeeper positions to one full-time position

Expenditures	-
Position Allocation	(1.00)

This item addresses a workforce equity issue among one of the lowest paid job classifications in the Golf program. It abrogates three vacant part-time Golf Course Groundskeeper positions and increases one part-time Groundskeeper position to full time to increase retention and promote staffing continuity.

Add a Counselor the Seattle Conservation Corps

Expenditures	\$71,530
Revenues	\$71,530
Position Allocation	1.00

This item adds a full time Counselor position to the Seattle Conservation Corps (SCC) to support the case management workload for new and current SCC corps members. The SCC, established in 1986, is a unique SPR program that provides employment and training for people experiencing homelessness. This program gives homeless adults opportunities to train and work in a structured program that provides them with job skills while completing public works projects that benefit our community members and our environment. Cycle 2 of the Park District added funding to expand the number of homeless adults served by the program. The SCC is currently supported by two Counselor positions who provide intensive case management support for corps members. A third counselor position is needed to decrease the caseload per Counselor and increase the quality of services provided. This item is funded by a recurring grant and by reprioritizing existing budget.

Add a position to focus on Integrated Pest Management

Expenditures	-
Position Allocation	0.50

This budget neutral item repurposes an existing vacant Utility Laborer position to create a full-time Environment Analyst Sr. position in the Parks and Environment Division to coordinate departmentwide Integrated Pest Management (IPM) and wildlife management needs. SPR has been meeting the requirements of IPM through various staff, but the work requires a dedicated position given the unique skills and knowledge needed to

Seattle Parks and Recreation

implement best practices across the system. Specifically, this position will focus on improving operation efficiency and effectiveness through staff trainings, and addressing issues with plants, animals, insects, and pathogens that are regulated by local, state, and federal agencies (e.g., protections on heron nesting sites or noxious weed regulations).

Increase Accounting Tech to full time

Expenditures	-
Position Allocation	0.50

This budget neutral item increases an existing Accounting Tech II to full time using existing budget resources to support SPR's expanded employee base. This budget neutral proposal increases an existing part-time Accounting Tech II-BU to full time to support the Department's payroll team. The payroll team currently consists of 2.5 FTE to support payroll need for up to 1,400+ employees throughout the year. The 2023 budget added over more than 100 new positions, this has increased the team's workload, placing significant pressures on the department's ability to correctly pay employees on time.

Right-size capital planning and development staffing

Expenditures	-
Position Allocation	14.00

This item adds 11.0 new FTE and removes a sunset date for 3 existing positions in the capital planning and development function. Cycle 2 of the Park District added significantly more capital dollars to SPR's budget including several complex projects. Because of City Council interest in additional capital projects beyond those in the Mayor's Proposed Cycle 2, SPR elected not to add these positions until final passage of Cycle 2. The new positions are a mix of project planning, coordination, and management (4.0), technical and engineering (4.0), and compliance and reporting (3.0), and are funded through the CIP. They are needed to successfully deliver SPR's expanded capital commitments.

Use one-time Park Fund balance to fund Zoo operating subsidy inflationary increase for 2024 only

Expenditures	\$796,427
--------------	-----------

The Woodland Park Zoo's land and facilities are owned by SPR, and it is operated by the non-profit Woodland Park Zoological Society (WPZS) through a long-term agreement first adopted in 2002 and then renegotiated and adopted in 2022. As part of the new agreement, SPR provides an operating subsidy to WPZS, and this support rises annually with inflation. In 2024, the inflationary increase is approximately \$796,000, for a total operating subsidy of approximately \$9 million in 2024. This item appropriates one-time Park Fund balance to pay for this inflationary increase for 2024 only. See a related item in the incremental changes to SPR's capital budget.

Proposed Capital

Fund Zoo major maintenance inflationary increase

Expenditures	-
--------------	---

The Woodland Park Zoo's land and facilities are owned by SPR, and it is operated by the non-profit Woodland Park Zoological Society through a long-term agreement first adopted in 2002 and then renegotiated and adopted in 2022. As part of the new agreement, SPR provides support for Zoo facility major maintenance, and this support rises annually with inflation. In 2024, the inflationary increase is approximately \$220,000, for a total major maintenance

Seattle Parks and Recreation

Adjust Aquarium debt service

Expenditures	\$(4,335,428)
Revenues	\$(4,335,428)

This technical item adjusts debt service budgets for 2024 to 2029 in the CIP related to the Aquarium expansion project. Specifically, it abandons the expense and revenue that were intended to make debt service payments for Aquarium expansion, but this project is no longer being funded by additional bonds so debt service budget is not necessary. The item trues up the budget to project assumptions made via Ordinance 126874.

Adjust debt service amounts

Expenditures	\$(110,897)
Revenues	\$(8,600)

This item adjusts debt service for various CIP Debt Service Projects to align with the 2024-2029 budget cycle and the updated debt service schedules. Specifically, this adjusts Aquarium Expansion - Debt Service and Rainier Beach Community Center Debt Service from 2024-2029; Golf Capital Improvements from 2024-2028; and Aquarium-Pier 59 Piling Replacement and Aquarium Debt Service in 2024 and 2025.

Adjust Park District and LTGO Bond funding in 2024-2029 CIP

Expenditures	-
--------------	---

This technical change adjusts ongoing funding for various CIP Projects to align with the 2024-2029 budget cycle including the Park District financial plan and planned LTGO bond amounts.

Align labor budget with increased labor costs

Expenditures	-
Position Allocation	(2.34)

This budget neutral technical item aligns labor accounts with actual position cost increases related to 2023 legislative action (Ordinance 126808). To fund these increases, SPR is abrogating three vacant positions (a total of 2.34 FTE), whose work is no longer needed.

Budget neutral position changes

Expenditures	-
Position Allocation	0.25

This budget neutral technical item adjusts expense and revenue budgets to correctly align with position reclassifications and increases an existing position in Aquatics by 0.25 FTE to better reflect the actual use of the position.

Fund balancing technical entry

Revenues	\$(1,792,563)
----------	---------------

This is a technical item to record a fund balancing entry for the Park Fund, Park Mitigation Fund, and King County levy Fund, which are primarily managed by this department.

Seattle Parks and Recreation

Transfer City Hall Park funding out of the operating budget

Expenditures \$(1,000,000)

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. The 2024 Endorsed Budget included \$1 million of this payroll tax funding to support activation and safety improvements to City Hall Park. This item reduces the funding from the operating budget, and a related item transfers it to the capital budget to align with the implementation plan to create safe outdoor spaces in the city's downtown core.

Transfer City Hall Park funding to the capital budget

Expenditures \$1,000,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. The 2024 Endorsed Budget included \$1 million of this payroll tax funding to support activation and safety improvements to City Hall Park. This item transfers the funding from the operating budget to the capital budget, to align with the implementation plan to create safe outdoor spaces in the city's downtown core.

CIP Appropriation and Fund Alignment

Expenditures \$640,000

Revenues \$54,153

This technical change request adds funding in 2029 for various CIP Projects to align with the 2024-2029 budget cycle. It also adjusts, across all six years of the CIP, where \$600,000 of Park Fund revenues associated with field fees are represented in the budget. As the collection of these fees are managed by staff in the athletic program, this item transfers these revenues to the operating budget for better management. Finally, it adds King County levy funding to improve restrooms and playgrounds.

Technical changes to various projects

Expenditures \$85,930

Revenues \$685,930

Position Allocation -

This item includes a variety of technical changes to true up the budget to revenue projections and to align budget with operational plans for 2024. This item adds Park Fund expense and revenue to the Golf program, abandons Park Fund expense and transfers Park Fund revenue related to field fees from the CIP to the operating budget, for better oversight by athletics program staff.

Seattle Center

Marshall Foster, Director

(206) 684-7200

<http://www.seattlecenter.com>/<http://www.seattlecenter.com>/<http://www.seattlecenter.com>/

Department Overview

Seattle Center is home to cultural and educational organizations, sports teams, festivals, community programs (including cultural and community celebrations), and entertainment facilities. Millions of people visit the 74-acre Seattle Center campus annually. Consistently rated as one of the City's top attractions, Seattle Center is a premier urban park whose purpose is to create exceptional events, experiences, and environments that delight and inspire the human spirit and build a stronger community.

Since its creation in 1963, Seattle Center has nurtured artistry and creativity by providing a home for and technical assistance to a wide variety of arts and cultural organizations. These organizations play a critical role in the arts and cultural landscape of the region. Originally created for the World's Fair, the Coliseum, later called KeyArena, was operated by Seattle Center as a public assembly venue for sports and concert events. The new building, now Climate Pledge Arena, is hosting the NHL's newest franchise, the Kraken, as well as the WNBA's Seattle Storm, along with a variety of concerts, family shows, and other events.

Seattle Center is financed by a combination of tax dollars from the City's General Fund and revenue earned from commercial operations. Major sources of commercial revenues include facility rentals, parking fees, long-term leases to for-profit and non-profit organizations, sponsorships, concession sales, and monorail fares.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$244,532

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department.

Proposed Operating

Reinvest Center Revenues to Support Events

Seattle Center

Expenditures	\$368,000
Revenues	\$368,000
Position Allocation	-

Due to pandemic related revenue reductions, the 2023-2024 Adopted Budget unfunded 6.75 FTE event related positions with the intention that as events and their associated revenues returned to the campus, the positions would again be necessary to support events and events revenues would be used to refund the positions.

This item adds \$368,000 from parking revenues due to higher attendance and increased rates. It adds expenditure authority for operating staff due to increased events at Seattle Center. Position changes include re-funding 2.0 Laborers, abrogating a Stage Tech Lead, and adding a new Event Service Representative.

One of the positions unfunded in the 2023-2024 mid-biennium budget was a Stage Tech Lead. Because the types of events returning to the campus are changing, requiring more direct client support and less stage lead work, the budget proposes abrogating the unfunded Stage Tech Lead and adding a new Event Service Representative.

Proposed Capital

2024-2028 REET Reduction

Expenditures	\$(831,639)
--------------	-------------

The REET revenue forecast for the City's 2023-24 Proposed Mid-Biennial Budget Update is insufficient to cover expected costs. REET reductions were identified to mitigate this shortfall in revenues. This item reduces appropriation authority by \$832,000 in 2024, \$500,000 in 2025, \$500,000 in 2026, increases by \$1,400,000 in 2027 and increases by \$4,060,000 in 2028. Center's REET funding goes towards maintenance of many buildings on the campus including the Bagley Wright Theater, Mercer Garage, Fisher Pavilion, the Armory, and other public spaces. The highest impact reductions are to the campus HVAC improvement project, parking garage improvements, maintaining the Armory, and public gathering space improvements.

2027-2028 REET Reduction

Expenditures	-
--------------	---

The updated August REET revenue forecast for the City's 2023-24 Proposed Mid-Biennial Budget Adjustments is insufficient to cover expected costs. REET reductions were identified to mitigate this shortfall in revenues. This item reduces appropriation authority by \$250,000 in 2027 and \$350,000 in 2028 and postpones open space improvement projects for major landscape, paving and lighting improvement projects.

Shift Memorial Stadium Financing to 2025 and 2026

Expenditures	\$(20,442,000)
--------------	----------------

This item shifts bonding for Memorial Stadium from 2024 to 2025 and 2026 to align financing timing with anticipated expenditure needs. This item also includes \$1 million in Real Estate Excise Tax (REET) for salaries, consultants, permitting, and pre-construction work in 2024.

Proposed Technical

McCaw Hall Capital Reserve Balancing Adjustment - Proposed

Revenues	\$(10)
----------	--------

This is a technical item to record a fund balancing entry for the McCaw Hall Capital Reserve Fund, which is primarily managed by this department.

Seattle Center

Non-Capital Carryover - Waterfront Funds

Expenditures	\$700,000
Revenues	\$700,000

This item adds one-time funding for operations and maintenance of the Waterfront. Per the agreement with Seattle Parks Department, unspent Metropolitan Park District Funds from the 2023 budget are allocated to Seattle Center. The responsibility for operating and maintaining Waterfront Park shifted from Seattle Parks and Recreation (SPR) to Seattle Center in mid-2023. There is an offsetting reduction in the SPR budget.

Ongoing Changes from Current Year Legislation

Expenditures	\$1,622,561
Revenues	\$1,485,000
Position Allocation	11.50

This change includes ongoing budget and position changes resulting from current year legislation in 2023, including the Q3 Supplemental Ordinance. Proposed changes included in this item include the HVAC Engineers wage increase, the McCaw Hall General Fund inflation, revenue-backed funding for Bite of Seattle event-related support, reimbursement from SDOT for Monorail youth fares, revenue-backed funding for event-related SPD contracts, and Friends of Waterfront funding for public safety officers.

Positions for Waterfront Operations

Expenditures	-
Position Allocation	6.00

As part of the 2023 budget process, the Council approved the transition of the longer-term responsibilities of Waterfront programming, operations and maintenance, and code compliance/safety from SPR to Seattle Center. This item creates new positions in Center which will support the next phase of Waterfront Park opening in 2024. These positions are funded by Metropolitan Park District Funds transferred from SPR. The positions include 1.0 FTE Gardener, 3.0 FTE Laborers, and 2.0 FTE Installation Maintenance Workers.

Seattle Center and McCaw Hall Fund Balancing Adjustment - Proposed

Revenues	\$(876,291)
----------	-------------

This is a technical item to record fund balancing entries for the Seattle Center Fund and McCaw Hall Fund, which are primarily managed by this department.

Seattle-King County Clinic Support

Expenditures	\$350,000
Revenues	\$350,000

This item adds offsetting revenue and expenses for Seattle Center to support the Seattle-King County Clinic (SKCC). Seattle Arena Company (ArenaCo) is required to reserve and make available use of Climate Pledge Arena for up to 8 consecutive days for SKCC. In 2023 the operational challenges of holding SKCC at the Arena resulted in the clinic being held on the Seattle Center campus. While evaluating the best options for siting SKCC, Seattle Center and ArenaCo reached a temporary agreement which includes \$350,000 per year of financial support from ArenaCo for the clinic in lieu of the City's use of Climate Pledge Arena through 2028.

Seattle Center

Transfer Funds from Parks to Center for Waterfront Operations

Expenditures \$100,000

This item transfers ongoing General Fund support from the SPR budget to support the waterfront maintenance responsibilities that were transferred to Seattle Center. Ordinance 125761 addresses Waterfront Park operation, maintenance, and funding responsibilities, some of which became Seattle Center's responsibility in July 2023.

Seattle Center

Seattle Public Library

Tom Fay, Chief Librarian

(206) 386-4636

<http://www.spl.org><http://www.spl.org><http://www.spl.org/>

Department Overview

Seattle Public Library (SPL), founded in 1891, includes the world-renowned Central Library, 26 neighborhood libraries, and a robust "virtual library" available 24/7 through SPL's popular website and Mobile Services. The Central Library and 26 neighborhood libraries provide essential services such as library collections, computers and Wi-Fi access, meeting rooms and study rooms, along with programs that promote lifelong learning, civic engagement, and economic vitality.

SPL is governed by a five-member Library Board of Trustees, who are appointed by the Mayor and confirmed by the City Council. The Revised Code of Washington (RCW 27.12.240) and the City Charter (Article XII, Section 5) grant the Board of Trustees "exclusive control of Library expenditures for Library purposes." The Library Board adopts an annual Operations Plan in December after the City Council approves SPL's budget appropriation.

Description of Incremental Budget Changes

Baseline

Central Cost Manual Alignment

Expenditures \$51,739

This change request aligns the 2024 baseline budget with the 2024 endorsed central cost manual rates.

Citywide Adjustments for Standard Cost Changes

Expenditures \$503,054

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Capital

REET Incremental Adjustments 2024-2028

Expenditures \$(53,000)

Seattle Public Library

This item adjusts Real Estate Excise Tax (REET) budget authority for the Library’s Major Maintenance capital project over multiple years. REET revenues are used to supplement 2019 Library Levy funding additional building upgrades, such as air conditioning and electrification, for the seismic retrofit projects at Green Lake, University, and Columbia branches. Specifically, this item reduces the budget by \$53,000 in 2024 and reduces the projected budget by \$32,000 in both 2025 and 2026. This item increases the budget in 2027 by \$100,000 with another increase in 2028 by \$290,000. These changes are due to REET revenues projected to fall short of previous estimates.

REET Outyear CIP Adjustment

Expenditures -

This item is a technical adjustment for REET budget authority for the Library’s Major Maintenance capital project, to add \$685,000 in the out-year (2029).

Proposed Technical

Library Revenue Projection Updates

Revenues \$393,088

This item includes General Fund resources transferred from Finance General to support citywide adjustments to central costs, as well as SPL-generated revenues used for SPL operations. Though Library-generated revenues are expected to outpace previous projections, most remain flat or under pre-pandemic levels. For example, private event rentals, parking, and service revenues are outperforming expectations, but are still below pre-pandemic levels. Also, revenues generated by deaccessioning of Library materials have increased year-over-year since the pandemic—a trend that is expected to continue. Some revenues have not performed as initially anticipated, such as print and copy services, and lost materials fees.

Fund Balancing Adjustments - Proposed

Revenues \$1,191,341

This is a technical item to record a fund balancing entry for the 10410, 18100, and 18200 funds, which are primarily managed by this department.

Seattle Public Library

Department of Education and Early Learning

Dwane Chappelle, Director

(206) 233-5118

www.seattle.gov/education

Department Overview

The mission of the Department of Education and Early Learning (DEEL) is to transform the lives of Seattle’s children, youth, and families through strategic investments in education. DEEL advances this mission by investing in equitable education opportunities, high-quality learning environments, and student and family supports. DEEL investments contribute to four department results: (1) families have access to affordable, quality childcare, (2) children are kindergarten-ready, (3) students graduate high school college- and career-ready, and (4) students attain a postsecondary degree, credential, or certificate.

With investments across the prenatal-to-postsecondary continuum, DEEL supports children, youth, and families to address disparities in educational opportunity gaps. By braiding and blending resources from the Families, Education, Preschool, and Promise (FEPP) Levy, the Sweetened Beverage Tax (SBT) fund, the City's General Fund, Washington State’s Early Childhood Education and Assistance Program (ECEAP), and other grants, DEEL operates direct-service programs, contracts with community-based and institutional partners, and provides quality teaching and professional development supports to providers and educators.

Description of Incremental Budget Changes

Baseline

Early Childhood Education and Assistance Program Grant Technical Changes

Expenditures	\$992,675
Revenues	\$1,264,147

This item makes technical adjustments to the state Early Childhood Education and Assistance Program (ECEAP) grant to align revenues with expenditures and to match the 2024 portion of the 2023-2024 and 2024-2025 school year awards. This change request also updates the funding source codes for the new school years.

Upward Bound Grant Technical Changes

Expenditures	\$(1,455)
Revenues	-

This is a technical change to the Upward Bound grant to align revenues with expenditures and to update the 2024 funding source codes associated with the 2023-2024 and 2024-2025 school years.

Department of Education and Early Learning

Citywide Adjustments for Standard Cost Changes

Expenditures \$(84,523)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Align Early Learning Budget to FEPP Levy Plan

Expenditures \$1,000,000

This is a technical change to increase the FEPP Early Learning budget to align with the FEPP Levy spending plan.

Proposed Operating

Child Care Worker Retention Bonus

Expenditures \$2,900,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$11 million is allocated to special exceptions to the spending categories for 2023 and 2024.

This item adds one-time funding backed by payroll tax to DEEL to support retention bonuses for child care workers who work in a licensed childcare facility in the city. In the past few years, DEEL has provided more than \$8 million in retention bonuses to eligible child care workers. These retention bonuses could help stabilize a critical industry by reducing staff turnover and vacancies which are caused, in part, by low overall compensation. Providing accessible, affordable child care is a stabilizing force from which our economy can recover from the lasting economic effects of the COVID-19 pandemic. A portion of these funds (up to 15%) will be used to administer these bonuses to workers.

Human Services Provider Pay Increase for Child Health & Development Contracts

Expenditures \$327,311

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$11 million is allocated to special exceptions to the spending categories for 2023 and 2024.

This item adds ongoing funding backed by payroll tax to DEEL to increase their provider contracts from 4% inflationary adjustment in the 2024 Endorsed Budget to a 7.5% inflationary adjustment, in line with adjustments made to Human Service Department's (HSD) provider contracts. This item also provides an ongoing 2% increase for human services provider pay. These DEEL provider contracts were transferred from HSD to DEEL, and are for birth to three investments that support early childhood health and development, generally for low-income families.

Proposed Technical

Update DEEL FEPP Revenues and Corresponding Expenditures

Expenditures \$600,000

Department of Education and Early Learning

Revenues \$13,990,320

This item adjusts DEEL's FEPP Levy revenues to align with proposed expenditures, align with levy cash flow plan, and recognize changes to tuition and investment earnings. Due to increased revenues from Seattle Preschool Program tuition collection, it also includes a corresponding increase in FEPP Early Learning expenditures.

Ongoing Changes from Current Year

Legislation

Revenues \$(207,500)

This item includes ongoing budget and/or position changes resulting from current year legislation in 2023, including the Q3 Supplemental Ordinance. Specifically, this item reduces appropriation authority related the Casey Grant that DEEL abandoned in 2023, that no longer has revenues associated with it.

Fund Balancing Adjustments - Proposed

Revenues \$(300,000)

This is a technical item to record a fund balancing entry for the 17857 and 17861 funds, which are primarily managed by this department.

Human Services Department

Tanya Kim, Director

(206) 386-1001

<http://www.seattle.gov/humanservices/>

Department Overview

The mission of the Human Services Department (HSD) is to connect people with resources and solutions during times of need, so all Seattle residents can live, learn, work, and take part in strong and healthy communities. HSD contracts with more than 200 community-based human service providers and administers programs to ensure Seattle residents have food and shelter, job opportunities, access to health care, opportunities to gain social and economic independence and success, and many more of life's basic necessities. HSD also serves King County as the Area Agency on Aging. HSD is committed to working with the community to provide appropriate and culturally responsive services.

Through the lens of racial equity, HSD supports programs, initiatives, and policies that address six investment impact areas:

1. Preparing Youth for Success
2. Supporting Affordability and Livability
3. Addressing Homelessness
4. Promoting Public Health
5. Supporting Safe Communities
6. Promoting Healthy Aging

HSD's work is funded by a variety of revenue sources, including federal, state, and inter-local grants, as well as the City's General Fund, Sweetened Beverage Tax Fund, Short Term Rental tax revenues, and the Payroll Expense Tax Fund.

Human Services Department

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures	\$113,471
Revenues	\$(43,201)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Central Cost True Up

Expenditures	-
--------------	---

This item adjusts central cost totals to align with the Central Cost Manual

Proposed Operating

Increase Contract Inflation from 6.7% to 7.5%

Expenditures	\$1,519,370
--------------	-------------

This item adds \$1,519,370 of budget to HSD for provider contract inflation.

Seattle Municipal Code subsection 03.20.06 specifies HSD contracts, with some exceptions, are to be inflated using 100% of the Seattle-Tacoma-Bellevue Area Consumer Price Index for Urban Wage Earners and Clerical Workers, (CPI-W) during the prior 12-month period ending in June of each year and inflated 0% if index change is negative. The annual CPI-W during the prior 12-month period ending in June of 2023 is 7.5%.

This budget change when combined with HSD's budget change titled "Contract Inflation for 2023 Budget Additions" ensures all service provider contracts receive a 7.5% inflationary increase in 2024 as prescribed by Seattle Municipal Code subsection 03.20.060.

The 2024 Endorsed budget included funding to support a 6.7% inflationary increase for HSD's service provider contracts in 2024. The 2023-2024 Proposed Mid-Biennial Budget Adjustments increases the 2024 inflationary rate from 6.7% to 7.5%. The total amount of HSD's budget for contract inflation in 2024 is \$15,709,611.

Contract Inflation for 2023 Budget Additions

Expenditures	\$1,100,799
--------------	-------------

This item adds \$1,100,799 of budget to HSD to provide contract inflation for contracts that were added in the 2023 adopted budget and continue in 2024.

Seattle Municipal Code subsection 03.20.06 specifies HSD contracts, with some exceptions, are to be inflated using 100% of the Seattle-Tacoma-Bellevue Area Consumer Price Index for Urban Wage Earners and Clerical Workers, (CPI-W) during the prior 12-month period ending in June of each year and inflated 0% if index change is negative. The annual CPI-W during the prior 12-month period ending in June of 2023 is 7.5%.

Human Services Department

This budget change when combined with HSD's budget change titled "Increase contract inflation from 6.7% to 7.5%" ensures all service provider contracts receive a 7.5% inflationary increase in 2024 as prescribed by Seattle Municipal Code subsection 03.20.060.

Human Services Provider Pay

Expenditures \$4,189,230

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$11 million is allocated to special exceptions to the spending categories for 2023 and 2024.

The City Council added \$600,000 to HSD's 2022 adopted budget for a wage equity study. In 2023, the University of Washington completed the study and City Council passed Resolution 32094 concerning human services provider pay. In the resolution, the Council stated their intent to consider increases to HSD administered contracts in addition to inflationary adjustments required under Seattle Municipal Code (SMC) Section 3.20.060.

Seattle Municipal Code subsection 03.20.06 specifies HSD contracts, with some exceptions, are to be inflated using 100% of the Seattle-Tacoma-Bellevue Area Consumer Price Index for Urban Wage Earners and Clerical Workers, (CPI-W) during the prior 12-month period ending in June of each year and inflated 0% if index change is negative. The annual CPI-W during the prior 12-month period ending in June of 2023 is 7.5%. This budget item increases HSD's budget by \$4,189,230 to provide an additional 2% increase for HSD administered contracts for Human Services Provider Pay.

One-time extension of We Deliver Care Third Avenue Project

Expenditures \$1,900,000

This item adds \$1,900,000 of one-time General Fund to continue the work of We Deliver Care along Third Avenue in 2024 as part of the Downtown Activation Plan (DAP).

The City launched the Third Avenue Project, in partnership with We Deliver Care, in the fall of 2022 to address and improve public safety on Third Avenue. We Deliver Care outreach workers establish relationships and earn the trust of individuals. They offer care and treatment services to individuals suffering from substance use disorder and using drugs in public places along Third Avenue.

The DAP was announced in June 2023 and outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The DAP details a suite of legislative and regulatory actions and program investments to be undertaken with the goal of making Seattle's downtown a more vibrant, inclusive, and resilient hub for residents, workers, and visitors.

Opioid Settlement Fund Appropriation

Expenditures \$2,217,697

Revenues \$2,217,697

This item increases revenue-backed appropriation authority in Human Services Department in the Opioid Settlement Proceed Fund by \$2,217,697 in the Promoting Public Health Budget Control Level (14510-PO-HS-H7000).

Of the \$2,217,697 of appropriation, \$581,652 is one-time funding for post overdose facility services. The remaining \$1,636,045 of appropriation is on-going; \$163,807 is for Opioid Abatement Council, \$163,807 is for HSD administrative costs, \$470,000 to continue drug user health/harm reduction services previously funded with one-time funds, \$323,976 is to expand Health One's Post Overdose Response Team, and \$515,456 is for post overdose facility services. The investment for post overdose facility services is in concert with the City's planned investments for treatment facilities.

Human Services Department

The Opioid Settlement Proceed Fund is for the City's portion of settlement proceeds from the state's settlement agreements with opioid distributors and pharmacies. The use of the funds is governed by the One Washington Memorandum of Understanding Between Washington Municipalities that mandates participating local governments establish an Opioid Abatement Council (OAC) to oversee Opioid Fund allocation, distribution, expenditures, and dispute resolution.

Pre-development Cost for Mixed Income Housing - Relocation of Tiny Home Village

Expenditures	\$916,000
--------------	-----------

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This item provides funding for pre-development activities to turn a property owned by Sound Transit into mixed-income housing. The RFP to develop the site is expected to be published prior to the end of 2023. This item provides funding to relocate Rosie's Village Tiny House Village (THV), currently located on the property.

Continue Funding for Victim Advocate

Expenditures	\$123,224
--------------	-----------

This item adds \$123,224 in 2024 to maintain victim advocacy staffing of 1 FTE Crime Victim Advocate. This position was previously funded by the Office for Victims of Crime (OVC) federal grant, secured by the Seattle Police Department. The OVC grant is scheduled to sunset in January 2024. This item maintains staffing levels for victim services requirements reinforced in Executive Order 2022-05 which requires all eligible backlogged sexual assault cases be assigned to SPD detectives for investigation.

Replace Data Collection and Reporting Software

Expenditures	\$148,368
Revenues	\$148,368

Funded by Title XIX grant revenue, this item adds appropriation to replace the legacy SQL-based data collection and reporting tool in HSD's Aging and Disability Services Division. The system, associated software, underlying architecture, and coding are all outdated. Currently no significant updates or upgrades can be built to address business needs, including data collection, reporting, visualization, and planning for programming, contracting, and funding.

Human Services Fund Revenue Adjustment

Expenditures	\$2,083,410
Revenues	\$2,083,410

This item makes adjustments to correctly reflect the expected 2024 revenues and expenditures of 28 fund sources, including over 22 grants in the Human Services Fund (16200).

Human Services Department

Proposed Technical

Adjustment for 2024 Annual Action Plan

Expenditures	\$1,027,853
Revenues	\$1,027,853

This item increases HSD's US Department of Housing and Urban Development (HUD) grant amounts in the proposed budget to align with the anticipated actual grant awards in 2024. It increases the anticipated 2024 award amounts by \$643,226 of Community Development Block Grant, \$24,877 of Emergency Solutions Grant, and \$359,750 of the Housing Opportunities for Persons with AIDS Grant. These increases align HSD's 2024 Proposed Mid-Biennial Budget with the City's 2024-2028 Consolidated Plan for Housing and Community Development.

Transfer UCT Admin Budget to Correct Program

Expenditures	-
--------------	---

This item transfers existing budget within HSD for Unified Care Team admin FTEs that were added in the 2023 Adopted Budget. The positions were put in the incorrect budget program, this item transfers them to the correct budget program.

Transfer Budget to King County Regional Homelessness Authority Budget Program

Expenditures	-
--------------	---

This item transfers \$2,933,927 of budget for the Interbay Village and St. Martin de Porris shelter from the City Managed Homelessness Programs budget program to the King County Regional Homelessness Authority budget program. The King County Regional Homelessness Authority currently implements these contracts on behalf of HSD and the amount is included in the City's existing contract with the Authority.

Remove Sunset Dates for Two Victim Advocates

Position Allocation	-
---------------------	---

This item removes the sunset date for two victim advocates in HSD's budget that were added in the 2022 Adopted Budget.

Ongoing Changes from Current Year Legislation

Position Allocation	7.00
---------------------	------

This change includes ongoing position changes resulting from current year legislation in 2023, including the Q3 Supplemental Ordinance.

Transfer HSD Budget to Align with the City's King County Regional Homelessness Authority Contract

Expenditures	-
--------------	---

This item transfers \$811,976 of budget added in 2023 CBA HSD-035-C-001 from the King County Regional Homelessness Authority budget program to the HSD City-Managed Homelessness Budget Program to support outreach directed by the Unified Care Team. This funding was not part of the City's 2023 contract with the King County Regional Homelessness Authority and this item moves the funding out of that budget program.

Correct Title XIX Fund Balance Appropriation Error

Human Services Department

Expenditures \$(244,822)

This item reduces appropriation in the Human Services Fund (16200) and corrects an error related to Title XIX grant balance. The appropriation to use fund balance was included in HSD's budget by error and is not backed by revenue.

Fund Balancing Entry

Revenues \$(12)

This is a technical item to record a fund balancing entry for the 162000 Human Services Fund, which is primarily managed by this department.

Human Services Department

2023-2024 Proposed Mid-Biennial Budget Adjustments - Expenses

Office for Civil Rights

Derrick Wheeler-Smith, Director

(206) 684-4500

<http://www.seattle.gov/civilrights/><http://www.seattle.gov/civilrights/><http://www.seattle.gov/civilrights/>

Department Overview

The Office for Civil Rights (OCR) envisions a city of thriving and powerful communities that fosters shared healing and belonging. The OCR advances civil rights and removes barriers to equity by enforcing illegal discrimination laws in Employment, Housing, Public Places, Fair Contracting, Title VI and ADA Title II in the City of Seattle. We also work to realize the vision of racial equity by leading the City of Seattle's Race and Social Justice Initiative. The Race and Social Justice Initiative (RSJI) is the City of Seattle's long-term commitment to end racism and achieve racial equity in Seattle.

OCR works to achieve equity and advance opportunity in Seattle by:

- developing policies and promoting partnerships to achieve racial equity and social justice;
- enforcing City, state and federal antidiscrimination laws;
- providing free civil rights trainings and technical assistance to businesses and community groups;
- staffing the Seattle Human Rights Commission, Seattle Women's Commission, Seattle Lesbian, Gay, Bisexual, Transgender, and Queer Commission, and the Seattle Disability Commission;
- administering the City of Seattle's Participatory Budgeting process; and
- leading the City's Race and Social Justice Initiative (RSJI). The core focus for RSJI is to eliminate institutional and structural racism within and by the City of Seattle.

Description of Incremental Budget Changes

Baseline

Central Cost Manual Alignment

Expenditures \$(22,235)

This change request aligns the 2024 baseline budget with the 2024 endorsed central cost manual rates.

Citywide Adjustments for Standard Cost Changes

Expenditures \$77,746

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Technical

Participatory Budgeting Positions

Position Allocation -

This item extends the sunset date of three Participatory Budgeting positions in the Office for Civil Rights (OCR), from December 31, 2023 to September 30, 2024. It is anticipated that some participatory budgeting work will need to be continued into 2024. The positions will be funded with underspend from the Participatory Budgeting administrative budget.

Seattle Department of Construction and Inspections

Nathan Torgelson, Director

(206) 684-8600

www.seattle.gov/sdci

Department Overview

The Seattle Department of Construction and Inspections (SDCI) administers City ordinances regulating building construction, the use of land, and housing. It supports key City priorities, including delivering essential City services and building safer, more just communities.

SDCI is responsible for developing and enforcing policies and codes related to public safety, environmental protection, land use, construction and rental housing, including:

- Economic Displacement Relocation Assistance (EDRA) program
- Environmentally Critical Areas Ordinance (ECA)
- Housing and Building Maintenance Code (HBMC)
- Just Cause Eviction Ordinance
- Rental Registration and Inspection Ordinance (RRIO)
- Seattle Building and Residential Codes
- Seattle Condominium and Cooperative Conversion Ordinances
- Seattle Electrical Code
- Seattle Energy Code
- Seattle Grading Code
- Seattle Land Use Code
- Seattle Mechanical Code
- Seattle Noise Ordinance
- Seattle Rental Agreement Regulation Ordinance
- Seattle Shoreline Master Program (SSMP)
- Seattle Tenant Relocation Assistance Ordinance (TRAO)
- Seattle Tree Protection Ordinance
- State Environmental Policy Act (SEPA)
- Stormwater Code
- Side Sewer Code
- Tree Service Provider Registry

SDCI reviews land use and construction-related permits, annually approving more than 53,000 permits and performing approximately 185,000 on-site and 20,000 virtual inspections. SDCI's work includes permit review and community involvement with Master Use Permits (MUPs); shoreline permits and design review; review and approval of permits for construction, mechanical systems, site development, elevators, electrical installation, boilers, furnaces, refrigeration, signs and billboards; field inspections for all construction and trade-related permits; annual maintenance inspections of boilers, elevators, and refrigeration equipment; and home seismic retrofits.

SDCI also enforces compliance with the codes and handles more than 40,000 contacts per year at the Code Compliance Complaint Center.

SDCI operations are funded by a variety of fees and General Fund resources. SDCI must demonstrate that its fees are set to recover no more than the cost of related services. To provide this accountability, SDCI uses cost accounting to measure the full cost of its programs. Each program is allocated a share of departmental administration and other overhead costs to calculate the revenue requirements of the program.

Description of Incremental Budget Changes

Baseline

Central Cost Manual Baseline Adjustment

Expenditures \$344,159

This baseline adjustment aligns SDCI's 2024 baseline budget with the 2023 Adopted Central Cost Manual's 2024 Endorsed Budget amounts. This adjustment is supported by permit fees in SDCI's Construction and Inspections Fund.

Citywide Adjustments for Standard Cost Changes

Seattle Department of Construction and Inspections

Expenditures \$2,012,977

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Economic Displacement Relocation Assistance (EDRA) Staffing

Expenditures \$142,109
Position Allocation 1.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$11 million is allocated to special exceptions to the spending categories for 2023 and 2024. This action adds ongoing budget and position authority for one Code Compliance Analyst and includes \$2,868 for a one-time technology purchase in 2024. This action, funded by payroll tax, increases capacity to meet the higher-than-expected workload from the new Economic Displacement Relocation Assistance (EDRA) program. EDRA provides relocation benefits to qualifying applicants that receive a rent increase of 10% or more. This program, established in July 2022, is experiencing a much higher application rate than anticipated. Appeals and following up on landlord payments also add to the EDRA workload.

Tenant Relocation Assistance Ordinance (TRAO) Expeditor

Expenditures \$158,807
Position Allocation 1.00

The Tenant Relocation Assistance Ordinance (TRAO) helps people transition to new housing when their homes are being redeveloped. The TRAO program provides relocation assistance to low-income households and provides all households with time to search for and relocate to new housing. This item adds ongoing budget and a new full-time position to improve internal TRAO processing and customer service for permitted development that includes a TRAO component. This item also includes budget authority for \$2,868 of one-time technology expenses in 2024. This item is funded by a new TRAO fee established in SDCI's proposed permit fee legislation.

Rental Registrations and Inspections Support

Expenditures \$200,000

This action adds ongoing budget authority for a consultant to provide much needed support for Rental Registration and Inspections Ordinance (RRIO) program enforcement. The consultant will provide added capacity for enforcement mailings, customer service, property research, and negotiation. This item is funded by RRIO program fees in SDCI's Construction and Inspections Fund.

Fee Legislation Revenue Change

Revenues \$1,790,412

SDCI's proposed fee legislation revises most of SDCI's fees and charges beginning on January 1, 2024. The 2024 fee revisions include an inflationary adjustment of 2% and other changes, including a new Tenant Relocation Assistance Ordinance application fee. Some fees, such as Vacant Building Monitoring Program fees and Rental Registration and Inspections Ordinance fees, are adjusted by more than 2% in order to align the fees with current costs. For additional information, please consult SDCI's proposed fee legislation and associated fiscal note.

Seattle Department of Construction and Inspections

Consultant for Green Buildings

Expenditures \$204,000

This action adds one-time budget authority to use revenue from land use penalties to explore changes to green building incentives. Funding will be used to hire a consultant who will create a list of viable strategies and energy efficiency measures, provide cost/benefit analysis of these strategies and measures, estimate carbon emissions reductions associated with each option, and assist with stakeholder outreach. This item is supported by penalty revenues in SDCI's Construction and Inspections Fund.

Add Mechanical Inspector

Expenditures \$186,291
Position Allocation 1.00

The proposed budget adds ongoing budget and position authority for one Mechanical Inspector and includes \$37,868 for one-time vehicle and technology purchases in 2024. This new position increases staff capacity and allows SDCI to respond to workload complexity and demand. SDCI's inspections team has seen a consistent increase in Heat Recovery Ventilators (HRV) systems. HRVs are complex and have triggered an increase in noise reviews, mechanical inspections, and an increase in refrigeration inspections. The inspections team currently has six Mechanical Inspectors. Each inspector makes, on average, 15 to 20 inspection stops daily. Each stop can require multiple inspections, especially for multi-family dwellings. Additionally, the capacity for inspector training has been strained due to demand for inspections, and training is critical due to the increasing complexity of regulations and requirements. Vacation time has been accumulating and request approvals must be carefully analyzed to ensure coverage for daily work. This item is supported by permit fees in SDCI's Construction and Inspections Fund.

Accela Support

Expenditures \$200,000

This item provides additional resources to support SDCI's permitting system (Accela). The additional budget will be used to pay for Accela's Managed Application Services to support ongoing operations and maintenance of the Accela platform and help address the backlog of needed modifications and updates to the permitting system. This item supports several City priorities, including (1) Housing Permitting – Implementing modernized technology will support building critically needed housing faster and provide support to meet the demand of housing permits; (2) Tree Service Provider Registration as required in Ordinance 126554 – This law requires tree service providers to register with the City. This new requirement has put additional demand on the Accela team and has increased the backlog of work. Initial implementation of the tree provider registry has been launched; however, further updates are needed due to Council legislation that was passed in March 2023 (Ordinance 126777) as well as improvements for the tree public notice process and to make enhancements needed based on user feedback; (3) Providing excellent customer service for Accela's 180,000 registered customers who utilize more than 300 different permit and license types. This investment will improve response times to customer problems and streamline the customer experience.

This item is envisioned as a four-year consultant contract for a total cost of \$1.7 million from June 2024 through June 2028. This item is supported by permit fees in SDCI's Construction and Inspections Fund.

Mobile App for Inspections

Expenditures \$195,600

SDCI's inspectors currently perform data entry functions in the office and away from inspection sites. This action adds one-time budget authority in 2024 for the initial discovery phase in the creation of a mobile inspections application. A new mobile app is needed to reduce complexity and redundancy in inspector administrative tasks while significantly increasing efficiency. This item is funded by permit fees in SDCI's Construction and Inspections Fund.

Seattle Department of Construction and Inspections

Add Project Coordinator for Dedicated Contract Management

Expenditures	\$148,905
Position Allocation	1.00

This item adds a new Senior Project Fund and Agreements Coordinator and provides much needed support for SDCI's contracts and agreements. SDCI's contracting and accounting needs have increased significantly in recent years due to the establishment of new programs such as the Economic Displacement and Relocation Assistance program, SDCI's initiative to address unreinforced masonry buildings (URMs), the expansion of tenant services contracts, and implementation of the new City Contract Management System in 2022. This item, which includes a \$2,868 one-time technology cost, is supported by permit fees in SDCI's Construction and Inspections Fund.

SDCI Space Planning

Expenditures	\$605,423
--------------	-----------

This action adds one-time budget authority to redesign two spaces in the Seattle Municipal Tower: the 20th floor Applicant Service Center and the 19th floor hoteling area. These changes are needed to accommodate hybrid work. This item is funded by SDCI's tenant improvements reserve within the Construction and Inspections Fund.

Proposed Technical

Ongoing Changes from Current Year Legislation

Expenditures	\$620,250
Position Allocation	4.00

The appropriations bill for the tree protection ordinance (Ordinance 126825) added budget and position authority for three positions. In addition, the mid-year supplemental budget (Ordinance 126876) added budget and one position to meet the higher-than-expected workload from the Economic Displacement Relocation Assistance program established in Ordinance 126451 and the late fee limit legislation (Ordinance 126823) that passed Council in May of 2023. This technical item makes these four positions and the associated budget ongoing beginning in 2024.

Overhead Technical Adjustment

Expenditures	\$1
--------------	-----

This item adjusts the distribution of indirect overhead expenses across programs in the Seattle Department of Construction and Inspections (SDCI). This adjustment is necessary to account for 2024 budget changes in the following SDCI budget programs: Compliance; Government Policy Safety & Support; Indirect Cost Recovery Offset; Inspections; Land Use Services; Permit Services; and Rental Housing. The adjustment is also necessary to redistribute indirect overhead across SDCI programs in response to proposed changes throughout the department. This is a net-zero budget change.

Construction and Inspections Fund 2024 Revenue Adjustments

Revenues	\$(10,488,284)
----------	----------------

This item adjusts Construction and Inspections Fund revenues to align with the current 2024 revenue forecast. This item does not include revenue changes associated with SDCI's proposed fee changes.

Fund Balancing Entries

Revenues	\$17,238,500
----------	--------------

Seattle Department of Construction and Inspections

This item is a technical adjustment to balance revenues and expenditures for fund 48100, the Construction and Inspections Fund, which is managed by SDCI.

www.seattle.gov/economicdevelopment

Department Overview

The purpose of the Office of Economic Development (OED) is to shape an economically prosperous, diverse, just, and resilient city, with the guiding principle that an inclusive economy is more competitive. OED is committed to building an inclusive economy in the City of Seattle by making strategic investments to break down barriers and unlock access to opportunity, which will generate wealth equitably. OED programs focus on the five key pillars of the community-driven Future of Seattle Economy framework, which the City adopted as policy in Resolution 32099: investing in diverse talent and building our workforce, supporting small, women and minority-businesses, building BIPOC community wealth, investing in neighborhood business districts, and growing businesses and key industries.

Office of Economic Development

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$107,773

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Central Cost Reconciliation

Expenditures -

This item is a budget-neutral reconciliation and alignment of accounts related to Central Costs.

Ongoing Changes from 2023 Current Year Legislation

Expenditures -

This item includes ongoing budget changes resulting from current year legislation in 2023, including the 2023 Year-end Supplemental Budget Ordinance.

Proposed Operating

Support Business Improvement Areas in Equity Business Districts

Expenditures \$850,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This one-time item adds funding to support the creation of business improvement areas (BIAs) in equity business districts that are historically under-resourced and lack the capacity to develop BIAs. This funding builds on investments made in the 2023 Adopted Budget and supports neighborhood business organizations in equity business districts to navigate the multi-year BIA creation process. This item aligns with recommendations made in the "Investing in Neighborhood Business Districts" strategic pillar of the FSE framework.

Retail Analysis and Outreach in Equity Business Districts

Expenditures \$850,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized

Office of Economic Development

the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This one-time item adds funding to support a submarket retail study and consumer analysis in equity business districts, and to support outreach and engagement related to the study. Learnings from the study will be used to inform and support the Seattle Restored program's matchmaking efforts beyond Downtown, and particularly in equity business districts. This item aligns with recommendations made in both the "Investing in Neighborhood Business Districts" and "Supporting Small Business and Women and Minority-Owned Business Enterprises" strategic pillars of the FSE framework.

Evolution of the Seattle Restored Program

Expenditures	\$875,000
Position Allocation	2.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

The Seattle Restored program was initially funded with \$536k of Coronavirus Local Fiscal Recovery funds, and aimed to revive Seattle neighborhoods with creativity and commerce by supporting short-term activations of empty storefronts. The Seattle Restored program currently has a \$1.5 million annual base budget funded by payroll tax funds. This item supports the evolution of this program into a long-term small business support program. This item provides \$625,000 in ongoing funding, and 2 FTE Strategic Advisor 1 positions, to support evolution of the Seattle Restored program, including staffing support for a location and business matchmaking strategy, business recruitment and retention, and implementation of a pilot master leasing strategy. This item also provides \$250,000 in one-time funding to conduct retail analysis and implement a retail strategy. This item aligns with recommendations made in the "Supporting Small Business and Women and Minority-Owned Business Enterprises" strategic pillar of the FSE framework. This item also supports the Downtown Activation Plan, the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic.

Continued Development of the Tenant Improvement Program

Expenditures	\$700,000
--------------	-----------

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides additional funding to support ongoing transformation of the Tenant Improvement (TI) program, including general restructuring of the program to better leverage external grant funding for TI projects, and development more robust TI awards, specifically for businesses that are not yet ready for a TI project award. This item builds upon \$1.2m of payroll tax funding in the 2024 Endorsed Budget. This item aligns with recommendations made in the "Supporting Small Business and Women and Minority-Owned Business Enterprises" strategic pillar of the FSE framework.

Office of Economic Development

Staffing Support for Commercial Affordability and Tenant Improvement Programs

Expenditures	\$125,000
Position Allocation	1.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item adds funding and position authority for 1 FTE Community Development Specialist to support the Commercial Affordability and Tenant Improvement programs. These programs are currently partially staffed on a temporary basis using one-time resources from the Coronavirus Local Fiscal Recovery Fund. These temporary staffing assignments are anticipated to end in 2023. Additional staffing capacity is needed in 2024 to continue to provide project management, adequate oversight and compliance, and continued program development. This item aligns with recommendations made in the "Supporting Small Business and Women and Minority-Owned Business Enterprises" and "Building BIPOC Community Wealth" strategic pillars of the FSE framework.

Community Wealth Building Staffing

Expenditures	\$177,320
Position Allocation	1.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item adds funding and position authority for 1 FTE Strategic Advisor 2 to support OED's convening role in leading community wealth building programs across the City. This position will support interdepartmental coordination and implementation of community wealth building programs, guided by recommendations in the Department of Neighborhood's forthcoming Generational Wealth Initiative final report. Current OED community wealth building strategies include commercial affordability and ownership supports, affordable capital access opportunities, culturally responsive business assistance, and community engagement and neighborhood partnerships. Several of these items are funded in OED's base budget, with additional funding provided in the department's 2023-2024 Proposed Mid-Biennial Budget Adjustments. This item aligns with various recommendations made in the FSE framework, including those within the "Building BIPOC Community Wealth" strategic pillar.

Public Space Activations as part of the Mayor's Downtown Activation Plan

Expenditures	\$880,000
--------------	-----------

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

Office of Economic Development

This one-time item provides funding to support programming for public space activations as part of the Mayor’s Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor’s plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The DAP details a suite of legislative and regulatory actions and program investments to be undertaken with the goal of making Seattle’s downtown a more vibrant, inclusive, and resilient hub for residents, workers, and visitors. This item supports programming for public space activations, in collaboration with other City departments and downtown partners. This item aligns with recommendations made in the “Investing in Neighborhood Business Districts” strategic pillar of the FSE framework.

Support for Long-Range, Transformational Planning as part of the Mayor's Downtown Activation Plan

Expenditures \$500,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This one-time item provides funding to support long-range, transformational planning as part of the Mayor’s Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor’s plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The DAP details a suite of legislative and regulatory actions and program investments to be undertaken with the goal of making Seattle’s downtown a more vibrant, inclusive, and resilient hub for residents, workers, and visitors. The DAP encompasses three timelines: Bold Actions – initiatives that are underway or starting in 2023, Near-term Initiatives – efforts that will happen over the next three years, and Space Needle Thinking – long-range, transformational opportunities. This item provides continued funding to support development of long-range policy and program ideas that will support the ongoing transformation of Downtown.

Continued Community Engagement for the Mayor's Downtown Activation Plan

Expenditures \$150,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This one-time item provides funding for continued community engagement related to the Mayor’s Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor’s plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The DAP details a suite of legislative and regulatory actions and program investments to be undertaken with the goal of making Seattle’s downtown a more vibrant, inclusive, and resilient hub for residents, workers, and visitors. Development of the DAP has incorporated two rounds of community engagement to date. Continued community engagement is necessary to enable ongoing refinement of DAP programming to respond to community-identified priorities related to Downtown.

Office of Economic Development

Ongoing Support for Liberty Project Implementation

Expenditures \$500,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding to support the Liberty Project as part of the Mayor's Downtown Activation Plan. The Liberty Project, in partnership with University of Washington, Seattle University, and Tabor 100, supports small businesses with business consulting and strategy services, finance and accounting services, marketing services, technology services, and contract bid preparation. The Liberty Project began in 2023, with \$425k of one-time funding. This item aligns with recommendations made in the "Supporting Small Business and Women and Minority-Owned Business Enterprises" strategic pillar of the FSE framework. This item also supports the Downtown Activation Plan, the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic.

Develop Career Pathways

Expenditures \$1,500,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding to support various programs in alignment with the Office of Economic Development's workforce development strategic plan, a component of the FSE framework. This item supports programs including: a new Seattle Skill Upgrade Training Grant program, navigation and curriculum development support for IT certification and health licensure programming in the Seattle Youth Employment program (SYEP), and SYEP case management support. This item aligns with recommendations made in the "Investing in Talent and Building our Workforce" strategic pillar of the FSE framework.

Implement Green Economy Strategies

Expenditures \$1,000,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding to implement green economy strategies and investment recommendations developed pursuant to Executive Order 2022-07. These strategies leverage new and existing workforce development programs and resources to strengthen Seattle's green economy and support BIPOC workers. This item aligns with recommendations made in the "Investing in Talent and Building our Workforce" and "Growing Businesses and Key Industries" strategic pillars of the FSE framework.

Office of Economic Development

Construction Apprenticeship Mentorship and Support

Expenditures \$300,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding to support construction apprenticeships leading to achievement of journey-level state, and long-lasting construction careers as part of the Department of Finance and Administrative Services' Priority Hire program. This item aligns with recommendations made in the "Investing in Talent and Building our Workforce" and "Growing Businesses and Key Industries" strategic pillars of the FSE framework.

Maritime and Manufacturing Business Improvement Organization

Expenditures \$250,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item supports development of Maritime and Manufacturing Business Improvement Organization, with the purpose of activating and providing stewardship for manufacturing, maritime, and industrial sector in Seattle. This is informed by the City's adopted Industrial and Maritime Strategy. This item aligns with recommendations made in the "Growing Businesses and Key Industries" strategic pillar of the FSE framework.

Economic Development Analytics Software

Expenditures \$200,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides support for the ongoing development and implementation of economic development analytics software to track business needs from intake through service delivery. This software improves the efficiency of the OED workflow, enables internal collaboration between divisions, and increases OED's capacity to implement recommendations from the FSE framework. This software was initially adopted as part of the departments' COVID-19 pandemic response. This item supports further software development to pivot from an acute response tool to a longer-term customer relationship management solution. This item also supports the Downtown Activation Plan, the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic.

Office of Economic Development

City Resource Navigation

Expenditures	\$115,000
Position Allocation	1.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding and position authority for 1 FTE Program Intake Representative to support the Office of Economic Development Call Center and to provide resource navigation and tracking for small businesses. This position will respond to inbound inquiries and requests for support from business, service providers, and neighborhood business districts. This item aligns with recommendations made in the "Supporting Small Business and Women and Minority-Owned Business Enterprises" strategic pillar of the FSE framework. This item also supports the Downtown Activation Plan, the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic.

Transformation of Special Events Office

Expenditures	\$325,000
Position Allocation	1.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding and position authority for 1 FTE Strategic Advisor 3 to support the transformation of the Special Events Office and implement special events permitting software. The transformation of the Special Events Office will be guided by the strategy outlined in the Special Events Vision and Strategy Report 2020-2025. These strategies will support the ability of the Special Events Office to be more proactive in developing a pipeline of energizing and revitalizing special events for the City, rather than the more reactive stance the City currently takes. This item aligns with recommendations made in the "Supporting Small Business and Women and Minority-Owned Business Enterprises" and "Growing Businesses and Key Industries" strategic pillars of the FSE framework. This item also supports the Downtown Activation Plan, the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic.

Consultant Support for Community Outreach and Grants

Expenditures	\$120,000
--------------	-----------

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

Office of Economic Development

This one-time item adds funding for a consultant contract to advise on community outreach and grant application work related to economic development and some state legislative matters. This item increases OED's capacity to implement recommendations from the FSE report.

Grants and Contracts Staffing

Expenditures	\$350,000
Position Allocation	3.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding for two Grants and Contracts Specialists, and one Community Development Specialist to expand capacity to manage grants and contracts workload. OED anticipates an increase in grants and contracts management workload related to items proposed as part of the 2023-2024 Mid-Biennial Budget Adjustments. Additionally, a portion of current grants and contract work is managed by eight temporary staff funded by one-time Coronavirus Local Fiscal Recovery funds, and these temporary staffing assignments are expected to end in early 2024. This item increases OED's capacity to implement recommendations from the FSE framework.

Professional Development Funding

Expenditures	\$120,000
--------------	-----------

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding to support professional development activities to improve effectiveness of service delivery and improve staff retention. This funding will support travel and attendance to key regional, state, and national conferences, technical training, and other soft skill development. As OED continues to add staff and respond to turnover, this item provides critical funding for staff to grow their networks and professional skills. This item increases OED's capacity to implement recommendations from the FSE framework.

Proposed Technical

Prior-Year Community Development Block Grant Budget Clean-up

Expenditures	\$(1,374,394)
Revenues	\$(363,675)

This technical item reduces budget associated with one-time, prior-year Community Development Block grants (CDBG). This budget erroneously carried forward from 2023 due to data errors in the budgeting system. Additionally, this item corrects funding source coding for the Office of Economic Development \$1,000,000 allocation of 2024 CDBG funding in the proposed budget.

Office of Economic Development

Office of Hearing Examiner

Ryan Vancil, Hearing Examiner

(206) 684-0521

<http://www.seattle.gov/examiner/><http://www.seattle.gov/examiner/><http://www.seattle.gov/examiner/>

Department Overview

The Office of Hearing Examiner is Seattle's quasi-judicial forum for reviewing factual and legal issues raised by the application of City Code requirements to specific people or property. As authorized by the Seattle Municipal Code, the office conducts hearings and decides appeals in cases where members of the public disagree with a decision made by a City agency. Many of the matters appealed to the Hearing Examiner relate to land use and environmental permit decisions and interpretations made by the Seattle Department of Construction and Inspections. The Hearing Examiner also hears appeals in many other subject areas, and makes recommendations to the City Council on rezone petitions, major institution master plans, and other Council land-use actions.

The Hearing Examiner is appointed by the City Council, and Deputy Hearing Examiners are appointed by the Hearing Examiner. Examiners handle all pre-hearing matters, regulate the conduct of hearings, and prepare decisions and recommendations based upon the hearing record and applicable law. The Seattle Municipal Code requires all examiners to be attorneys with training and experience in administrative hearings. The Hearing Examiner also manages an executive assistant to oversee the administrative areas of the office, a legal assistant to assist with hearings and decision preparation, and an administrative specialist to support all other office positions and provide information to the public.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$15,473

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Technical

Hearing Examiner Salary Increase

Expenditures \$20,000

This item is a technical adjustment to add budget for an ongoing salary increase approved by the City Council with the Hearing Examiner's reappointment to a 4-year term. The salary increase was effective March 21, 2023.

Office of Housing

Maiko Winkler-Chin, Director

(206) 684-3727

<http://www.seattle.gov/housing/>

Department Overview

The mission of the Office of Housing (OH) is to build strong and healthy communities and to increase opportunities for people of all income levels to live in our city. OH manages investments from the Seattle Housing Levy and other funding sources to fund the production, preservation, acquisition, and long-term stewardship of affordable housing in Seattle. Additionally, OH supports affordable housing providers and low-income residents, provides home repair and weatherization assistance, funds permanently affordable homeownership opportunities, and leads Citywide planning and policy development on affordable housing issues.

Description of Incremental Budget Changes

Baseline

Ongoing Changes from 2023 Current Year Legislation

Expenditures	\$325,437
Position Allocation	1.00

This item includes ongoing budget and position changes resulting from current year legislation in 2023, including the 2023 Year-end Supplemental Budget Ordinance.

Office of Housing

Citywide Adjustments for Standard Cost Changes

Expenditures \$(562,916)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Central Cost Reconciliation

Expenditures -

This item is a budget-neutral reconciliation and alignment of accounts related to Central Costs.

Fund Source Correction for Payroll Expense Tax-Funded Activities

Expenditures \$(2,291,095)

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This item shifts funding for certain labor costs associated with Payroll Expense Tax program from the General Fund to the Payroll Expense Tax Fund in accordance with fiscal management policies. As a result of this action, all Office of Housing appropriation in the Payroll Expense Tax Fund will be part of the Housing and Services program category. All Office of Housing work associated with payroll tax is to manage and support initiatives within this category.

Tracking for Community Self Determination Fund

Expenditures -

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This budget-neutral item corrects project coding for certain Payroll Expense Tax budget to improve the department's ability to track budget and expenditures related to the Community Self Determination Fund. The codified Payroll Expense Tax Fund spending plan requires that 13% of the Housing and Services category, equal to \$17.6m in 2024, is allocated for community focused acquisition and development of affordable housing, and to support affirmative marketing efforts and development and implementation of community preference plans. This portion of the Housing and Service category is generally referred to as the Community Self Determination Fund.

Proposed Operating

Appropriate Anticipated Revenues from the 2023 Seattle Housing Levy

Expenditures \$88,147,419

Revenues \$97,180,023

This item appropriates anticipated revenues from the 2023 Seattle Housing Levy, in accordance with the levy spending plan prepared by the 2023 Seattle Housing Levy Technical Advisory Committee. In 2024, levy revenues exceed expenditures in anticipation of increased labor costs in the outyears of the levy. Levy revenues also exceed

Office of Housing

expenditures because revenues intended for operating, maintenance, and services (OMS) subsidies are collected over the seven-year levy period, but are intended for OMS expenditures over a 20 year period. This item also makes several technical adjustments to align budget structure with the 2023 Levy.

Contracts Staffing Support

Expenditures	\$116,783
Position Allocation	1.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This item adds 1 FTE Grants and Contracts Specialist to support expanded contract management workload related to Payroll Expense Tax funded programs, and anticipated workload related to 2023 Seattle Housing Levy programs. This position is jointly supported by payroll tax and levy proceeds. This item builds upon mid-year supplemental changes made in 2022 that added position authority for 12.5 FTE to expand the Office of Housing's capacity.

Community Self Determination Fund Staffing Support

Expenditures	\$77,728
Position Allocation	0.50

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This item increases an existing 0.5 FTE Community Development Specialist, Senior to 1 FTE. This position, added in 2022, supports the Community Self Determination Fund, and other efforts to increase the participation of community-based organizations in both multifamily and homeownership development. The codified Payroll Expense Tax Fund spending plan requires that 13% of the Housing and Services category, equal to \$17.6m in 2024, is allocated for community focused acquisition and development of affordable housing, and to support affirmative marketing efforts and development and implementation of community preference plans. This portion of the Housing and Service category is generally referred to as the Community Self Determination Fund. This position is jointly supported by payroll tax and 2023 Housing Levy proceeds.

Fund Source Correction for Workforce Stabilization Fund

Expenditures	-
--------------	---

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This budget-neutral item corrects fund sources to reflect that a portion of the Workforce Stabilization Fund (WSF) program will be supported by revenues from the 2023 Seattle Housing Levy. The WSF, added in the 2023 Adopted Budget, aims to support Permanent Supportive Housing (PSH) and PSH residents by investing in PSH service providers and employees. The WSF supports increased PSH worker wages, as well as other PSH operating, maintenance, and services needs. This change aligns with the Levy planning work of the Technical Advisory Committee.

Office of Housing

Payroll Expense Tax Funded Resident Services

Expenditures -

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This budget neutral-item aligns budget to reflect that a portion of payroll tax funding supports resident services programming. Resident services contribute to the success and stability of residents living in affordable housing, and provide a variety of supports to residents (e.g., programming for food, employment, community events, social and emotional support, or health education). This change aligns with the Levy planning work of the Technical Advisory Committee.

Recurring Grants and Funding Source Alignment

Expenditures -

Revenues \$6,504,414

This item recognizes revenues from various grants that the Office of Housing anticipates receiving in 2024. These grants include: U.S. Department of Energy Bipartisan Infrastructure Law grant, U.S. Department of Housing and Urban Development Renewable Energy Home Heating Conversion grant, U.S. Department of Housing and Urban Development HOME Investment Partnership Program grant, U.S. Department of Housing and Urban Development Community Development Block grant, and Washington State Department of Commerce Weatherization Plus Health grant. This item makes several technical corrections to grants data in the Office of Housing baseline budget to accurately reflect new grants appropriated in 2024.

Transfer Funding to Human Services Department for Rosie's Village Relocation

Expenditures \$(993,000)

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This one-time item transfers payroll tax funding to the Human Services Department to support relocation of the Rosie's Village tiny home site, a pre-development cost for affordable housing that is anticipated to be created on the site.

Payroll Expense Tax Fund Reduction

Expenditures \$(3,685,560)

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This item reduces payroll tax funding from the Office of Housing in order to balance payroll tax budget with available resources.

Office of Housing

Proposed Technical

Fund Source Alignment for Staffing and Operational Support

Expenditures

-

This budget-neutral item aligns fund sources for staffing and operational costs with the Office of Housing (OH) administrative funding methodology. Generally, staffing and operational costs in OH are covered by each fund source in an amount that is proportional to their share of the total OH budget.

Office of Housing

Office of Immigrant and Refugee Affairs

Hamdi Mohamed, Director

(206) 233-3886

www.seattle.gov/iandraffairs

Department Overview

The Office of Immigrant and Refugee Affairs (OIRA) was established in 2012 by Seattle Ordinance 123822 to recognize the importance and need for a stronger relationship and increased accountability between the City of Seattle and immigrant and refugee communities. OIRA serves as the backbone and coordinator of key City efforts across all departments to advance equity and access for immigrants and refugees.

As an office dedicated to serving immigrants refugees, our core values and shared agreements are centered around integrity, humility, communities, innovation, gratitude, respect, accountability, partnership, and transparency. We address the underlying causes of inequities and develop programs and policies that empower our community partners and those they serve.

OIRA serves immigrant and refugee Seattle residents in the areas of language access, immigration legal services, workforce development, and more. OIRA is focused on incorporating community needs and direct feedback in policy decisions and program development while also centering the City's Race and Social Justice Initiative.

Total Incremental Changes	\$1,092,095	0.50
Total 2024 Proposed Budget	\$6,193,114	12.50

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$24,843

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Increase Legal Defense Network Support

Expenditures -
 Position Allocation 0.50

This item modifies an existing 0.5 FTE to make it a full-time 1.0 FTE to manage the Legal Defense Network (LDN) program. OIRA has grant funding and ongoing savings in the LDN budget to support the full-time position. For the past three years OIRA has used underspend to bring this position to full-time capacity. This item is needed to permanently make the position full-time to support the level of work required to manage the program.

Investment in Immigrant and Safety Access Network

Expenditures \$150,000

This item adds ongoing General Fund for the Immigrant Safety and Access Network (ISAN). Building upon the success

Office of Immigrant and Refugee Affairs

of OIRA's Immigrant Family Institute (IFI) program that operated from 2018 to 2020, the ISAN program aims to establish a network of community-based organizations that provide support for immigrant and refugee families who experience disproportionate harm from violence. In 2023, OIRA contracted \$220,000 to 9 community organizations through ISAN. The funding encompassed one-time \$100,000 funding from King County, some underspend from 2022, and the 2023 base budget of \$70,000. This proposal requests \$150,000 of ongoing funding to maintain the ISAN program at its current level of \$220,000.

Seattle Housing Authority Grant for New Citizen Program

Expenditures	\$51,652
Revenues	\$51,652

This item includes revenues and expenditures for a grant received annually from the Seattle Housing Authority (SHA). This grant supports the participation of SHA residents in the New Citizen Program (NCP), which provides assistance to income-qualified individuals to apply for naturalization using a case management model. Over 400 participants were naturalized and became US citizens in 2022 through NCP.

Washington Department of Social and Health Services Grant for New Citizen Program

Expenditures	\$865,600
Revenues	\$865,600

This item includes revenues and expenditures for a grant from the Washington Department of Social and Health Services. This annual grant supports the participation of state benefits recipients in the New Citizen Program (NCP), which provides assistance to income-qualified individuals to apply for naturalization using a case management model. Over 400 participants were naturalized and became US citizens in 2022 through NCP.

Office of Immigrant and Refugee Affairs

Office of Labor Standards

Steven Marchese, Director

(206) 684-5397

www.seattle.gov/laborstandards

Department Overview

The mission of the **Office of Labor Standards (OLS)** is to advance labor standards through thoughtful community and business engagement, strategic enforcement, and innovative policy development, with a commitment to race and social justice. The Office of Labor Standards focuses on the implementation of labor standards for workers that perform work within Seattle city limits. As of September 1, 2023, there are 19 such standards, established through City ordinances.

OLS provides education and technical assistance to the business and worker communities. As a part of these efforts, OLS manages the Community Outreach and Education Fund to foster collaboration between OLS and the community with funds to develop awareness and understanding of the worker rights provided by Seattle's labor standards. The office also manages the Business Outreach and Education Fund which provides technical assistance to small businesses to increase compliance with Seattle's labor standards. The fund emphasizes outreach to small businesses owned by low-income and historically disenfranchised communities who typically are not served by traditional outreach methods.

OLS also provides administrative and policy support to two community boards and commissions: The Labor Standards Advisory Commission and the Domestic Worker Standards Board.

Total 2024 Proposed Budget	\$8,340,493	36.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$(123,184)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Labor Cost Adjustment

Expenditures \$137,293

This item increases appropriation authority by \$137,293 the Office of Labor Standards to (00190)-(OLS-BO-LS-100) for labor costs experienced in FY 2024 and beyond. This item will make the OLS labor budget reflect the current pay for the employees instead of the typical mid-point budgeting. This item is offset by a 4.5% vacancy assumption.

Office of Labor Standards

Classification Adjustment for Administrative Staff Member

Expenditures	\$15,306
Position Allocation	-

This item increases appropriation authority by \$15,306.02 on-going starting in FY 2024 in the Office of Labor Standards to (00190)-(OLS-BO-LS-100) for cost associated with a Seattle Department Human Resources determination that the FY 2023 addition of an Administrative Specialist III is more appropriately classified as an Administrative Staff Assistant.

Vacancy Rate Salary Savings

Expenditures	\$(152,599)
--------------	-------------

This item increases the department's budgeted vacancy rate from 0% to 4.5%, resulting in approximately \$153,000 annually in budget savings, which will offset the Classification Adjustment to Administrative Staff Assistant and Labor Cost Adjustment.

OLS Fund Revenue Updates

Revenues	\$(830,204)
----------	-------------

This item decreases revenue from the General Fund to the Office of Labor Standards fund to reflect the budget changes described above. OLS is using fund balance from 2023, which means the OLS Fund needs a lower General Fund transfer than it did in 2023. This item reduces the General Fund transfer from \$8 million to \$7.1 million.

Proposed Technical

Ongoing Changes from Current Year Legislation

Expenditures	\$8,000
--------------	---------

This is a technical item to reflect the ongoing budget change resulting from current year legislation in 2023, including the Q3 Supplemental Budget Ordinance. This item is for the \$8,000 ongoing costs associated with implementation of the App-Based Worker Paid Sick and Safe Time Ordinance.

Office of Labor Standards Fund Balancing Entry

Revenues	\$715,021
----------	-----------

This is a technical item to record a fund balancing entry for the OLS Department Fund, which are primarily managed by this department. OLS is anticipated to end 2023 with a fund balance of \$1.2 million, which partially offsets their anticipated expenditures in 2024. This entry makes use of that remaining fund balance and, when paired with the General Fund transfer of \$7.1 million, OLS will have the funding needed for approved expenditures in 2024.

Office of Labor Standards

Department of Neighborhoods

Jenifer Chao, Director

(206) 684-0535

www.seattle.gov/neighborhoods

Department Overview

The Seattle Department of Neighborhoods (DON) mission is to strengthen Seattle by engaging all communities. Our work is driven by two North Stars:

1. Put race and equity at the center of all decisions and actions; and
2. Invest in the power of communities to forge their own solutions.

DON provides resources and opportunities that help Seattle residents build strong communities, receive equitable access to government, and improve their quality of life. This is accomplished by centering *relationships* and *investing in community-driven solutions* that *build capacity* for Seattle's communities.

Relationships: Cultivating, building, and sustaining resilient relationships is core to everything we do. It's what allows us to build trust and connections and ensure that all communities have voice, inclusion, and influence in City programs and projects.

Investments: DON invests in people, funding, public spaces, creative innovation, and community advocacy to create systemic change for communities with histories of harm.

Capacity Building: Our work is not short-term or transactional; it is long-term and relational. Our investments and relationships are designed to build and sustain community capacity so that individuals, organizations, and communities grow into their power to shape, influence, and transform the life of their city.

Description of Incremental Budget Changes

Baseline

Health Care Reconciliation

Expenditures -

This item is a budget-neutral reconciliation and alignment of accounts related to Central Costs.

Department of Neighborhoods

Citywide Adjustments for Standard Cost Changes

Expenditures \$68,497

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Technical Adjustment to Incremental Central Cost Manual (CCM) Changes

Expenditures -

This item is a budget-neutral alignment of accounts related to Citywide Adjustments for Standard Cost Changes.

Abrogate One-time Funded Positions

Position Allocation (2.50)

This item reduces position authority supported by one-time funding in the 2023 Adopted Budget. This item abrogates 1 FTE Strategic Advisor 1, 1 FTE Planning and Development Specialist II, and 0.5 FTE Public Relations Specialist, Senior. These one-time positions were added in the 2023 Adopted Budget to support one-time work on the Generational Wealth Initiative report. Recommendations from the Generational Wealth Initiative final report will inform ongoing Citywide Community Wealth Building programs, coordinated by the Office of Economic Development.

Proposed Operating

One-time Implementation support for the Chinatown-International District Neighborhood Strategic Plan

Expenditures \$300,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development.

This one-time item adds payroll tax funding to support implementation of the Chinatown-International District (CID) Neighborhood Strategic Plan. This item provides resources for consulting assistance, community engagement, participant stipends, and other direct implementation costs. This item builds upon previous investments supporting the CID Visioning Advisory Group, a coalition of more than 30 community-based organizations working to build a framework to guide community-centered engagement and investment strategies, and advance the collective self-determination of the CID community. Previous years' budgets have provided funding for different phases of this work, including \$800,000 of one-time funding in the 2022 Adopted Budget.

Increase Funding for Chinatown-International District Public Safety Coordinator

Expenditures \$25,000

This item increases funding for the Chinatown-International District Public Safety Coordinator from \$75,000 to \$100,000. The CID Public Safety Coordinator serves as a trusted liaison and advocate between the City and the

Department of Neighborhoods

community, and supports enhanced transparency, collaboration, and trust with residents, small businesses, and community organizations on issues related to public safety. This item aligns budget for the CID Public Safety Coordinator contract with the amount budgeted for the Ballard and South Park Public Safety Coordinator contracts.

Increase Funding to Support the Administration of the Payroll Expense Tax Oversight Committee

Expenditures \$50,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$7 million is allocated to the evaluation and administration of the Payroll Expense Tax.

This ongoing item, funded with payroll tax via a transfer to the General Fund, provides funding for program expenses necessary to convene and facilitate the Payroll Expense Tax Oversight Committee. This funding will support non-labor costs, including the creation of an annual report, member stipends, and other general support to the board. The 2022 Adopted Budget provided funding for 1 FTE Strategic Advisor 1 to facilitate the PET Oversight Committee, however no non-labor budget was provided at that time.

Human Services Provider Pay Increase for Rainier Beach: A Beautiful Safe Place for Youth

Expenditures \$11,825

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$11 million is allocated to special exceptions to the spending categories for 2023 and 2024.

This item provides a 2% increase for provider pay equity for the Rainier Beach: A Beautiful Safe Place for Youth contract. This contract was transferred to DON from the Human Services Department (HSD), and this adjustment is consistent with adjustments made to HSD contracts.

Increase Vacancy Rate Assumption to 2.7%

Expenditures \$(215,593)

This item increases the Department of Neighborhoods' budgeted vacancy rate from 0% to 2.7%, resulting in approximately \$215k annually in budget savings. This vacancy rate assumption is based on historical vacancy rates for the department, and savings from this item support several items in the department's 2023-24 Proposed Mid-Biennial Budget Adjustments.

Proposed Technical

Internal Department Reorganization

Expenditures -

Position Allocation -

This budget-neutral item makes several organizational changes to the department to improve organizational alignment and financial reporting. This item shifts budget and position authority to align with several new budget programs, including: Strategic Partnerships, Commissions, and Civic Engagement & Leadership Development.

Department of Neighborhoods

Fund Source Correction for Community Innovations Division

Director

Expenditures -

This budget-neutral item shifts funding for the Community Innovations Division Director from the Payroll Expense Tax Fund to the General Fund in accordance with fiscal management policies.

Technical Adjustment to Payroll Expense Tax Fund

Expenditures -

This budget-neutral item makes several adjustments to correct negative budget in certain accounts in the Payroll Expense Tax Fund.

Miscellaneous Technical Adjustments

Expenditures -

This budget-neutral item makes several technical adjustments to reconcile and align accounts, including centralizing budget, correcting negative budget in certain accounts, and reclassifying accounts to align with anticipated actuals.

Department of Neighborhoods

2023-24 Proposed Mid-Biennial Budget Adjustments – Operating Expenses

Office of Planning and Community Development

Rico Quirindongo, Director

(206) 386-1010

<http://www.seattle.gov/opcd>/<http://www.seattle.gov/opcd>/<http://www.seattle.gov/opcd>

Department Overview

The Office of Planning and Community Development (OPCD) was established in December 2015 with a mission of strengthening citywide planning and implementation and ensuring City departments are aligned and coordinated in planning for Seattle’s future development. OPCD coordinates City departments to ensure that development decisions and investments advance equitable growth, consistent with Seattle's Comprehensive Plan. The department is guided by its vision of “an inspiring city, in harmony with nature, where everyone thrives.” In addition to partnering with other City departments, OPCD works closely with community partners and other agencies to implement that vision. During the last five years, OPCD has accomplished a wide range of projects, including annual amendments to the City’s Comprehensive Plan, implementation of legislation to make it easier for property owners to create accessory dwelling units (ADUs) and develop affordable housing; development of new Design Guidelines in six neighborhoods; 130th Street and 145th Street station area planning; industrial and maritime strategy planning; funding 63 community-initiated projects to combat displacement and increase access to opportunity through the Equitable Development Initiative (EDI); and numerous other items.

The director of OPCD serves in the Mayor's various subcabinets to facilitate coordinated decision-making to address policies and investments that support Seattle's BIPOC communities. OPCD works with the Mayor's Office and members of the cabinet to ensure the City's investments support community development objectives and that department priorities are aligned and reflected in policies and budget resources.

OPCD is organized in four divisions: Equitable Development, Long Range Planning, Community Planning, and Land Use Policy. OPCD also has a small urban design group and an Indigenous Planner that work across divisions. OPCD houses two independent commissions: the Seattle Design Commission and the Seattle Planning Commission. OPCD also staffs the Equitable Development Initiative Advisory Board.

Description of Incremental Budget Changes

Baseline

Central Cost Manual Baseline Adjustment

Expenditures -

This budget-neutral adjustment aligns OPCD's baseline budget with the 2024 Endorsed Central Cost Manual.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(28,517)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Remove Comprehensive Plan Funding from Baseline

Expenditures \$(130,000)

Office of Planning and Community Development

This item removes \$130,000 that was added in the 2021 Adopted Budget for the One Seattle Comprehensive Plan major update. The major update was funded in the 2021-2023 budgets through a combination of funding allocations. This budget item remained in OPCD's baseline budget for two additional years to help meet the project's total funding needs. In 2024, the EIS and outreach work will be complete, OPCD will release the final plan for adoption, and the department will begin work on related legislative updates.

Proposed Operating

Short-term Staffing for Economic Revitalization Initiatives

Expenditures	\$169,790
Position Allocation	1.00

The City's 2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The DAP details a suite of legislative and regulatory actions and program investments to be undertaken with the goal of making Seattle's downtown a more vibrant, inclusive, and resilient hub for residents, workers, and visitors. This item provides a 2-year Strategic Advisor 1 position to provide additional planning staff capacity related to the downtown activation plan and downtown planning functions. OPCD's planners are anticipating unprecedented workload demands in 2024 as they work on the Downtown Subarea Plan, the One Seattle Comprehensive Plan, light rail station area planning, and other items. This item provides critical capacity for downtown planning and recovery efforts.

Increase Equitable Development Initiative with Short-Term Rental Tax

Expenditures	\$585,000
--------------	-----------

The August 2023 revenue forecast projects higher Short-Term Rental Tax (STRT) revenues than were projected when the 2024 Endorsed Budget was developed. This item provides additional support for Equitable Development Initiative (EDI) grants. This action brings total STRT EDI grant funding to \$5 million. This item is consistent with Ordinance 125872, which indicates that \$5 million of STRT should be allocated to EDI grants.

Equitable Development Initiative Finance Staffing

Expenditures	\$149,816
Position Allocation	1.00

This item provides one Senior Finance Analyst to address capacity needs in supporting the Equitable Development Initiative (EDI). This new finance staff person will support the EDI division; track EDI awards and improve tracking and reporting systems; provide technical assistance and trainings for EDI staff; provide support for internal staff on grant and contract management; and may provide technical support for external community partners. This item is funded with Short-Term Rental Tax (STRT). Per Ordinance 125872, \$1.069 million of STRT should be allocated to support EDI administration and project management.

Shift Funding Support for EDI Staffing

Expenditures	-
--------------	---

This ongoing item shifts \$800,000 of Equitable Development staffing and other costs from the General Fund to Short-Term Rental Tax to relieve pressure on the General Fund given the growth in resources available to the Equitable Development Initiative.

Community Police Commission

Cali Ellis, Executive Director

(206) 256-5545

<http://www.seattle.gov/policecommission>/<http://www.seattle.gov/policecommission>/<http://www.seattle.gov/policecommission/>

Department Overview

The Office of the Community Police Commission (CPC) is the administrative and policy support entity of the Community Police Commission. The CPC is charged with providing community oversight and input on the police reform efforts that are the subject of a Settlement Agreement between the City and the U.S. Department of Justice regarding police practices. The CPC was made a permanent part of the system of civilian oversight of police in 2017 through legislation ([Ordinance 125315](#)). Membership of the CPC was modified in 2023 ([Ordinance 126860](#)) into a 15-member board appointed by the Mayor, the City Council and the Community Police Commission governs the CPC. Each commissioner serves a three-year term.

The CPC provides an independent forum for dialogue and widespread input on the reform efforts embodied in the Settlement Agreement and Memorandum of Understanding established by the Department of Justice. Ongoing community input is a critical component of achieving and maintaining effective and constitutional policing.

The CPC leverages the ideas, talent, experience and expertise of the people of Seattle to ensure police services:

- fully comply with the Constitution of the United States;
- ensure public and officer safety; and
- promote public confidence in the Seattle Police Department and its officers.

The CPC is charged with fulfilling and prioritizing the responsibilities as specified under the Consent Decree and Memorandum of Understanding and its role includes:

- reviewing and providing input to many city partners on the police accountability system, police services and the Seattle Police Department's policies and practices;
- engaging in community outreach to obtain the perspectives of the community on police-community relations, the police accountability system, police services, policies and practices and providing that input to other City departments;
- maintaining connections with representatives of disenfranchised communities and community groups; and
- advocating for reforms to state law that will enhance public trust and confidence in policing and the criminal justice system.

Community Assisted Response and Engagement

Amy Smith, Chief

www.seattle.gov/care

Department Overview

The Community Assisted Response and Engagement (CARE) department, formerly known as the Community Safety and Communications Center (CSCC), was established as a new department in 2021 to provide timely, accurate, and vital information to the City’s first responders, city service providers, and to the public. Ordinance 126237 transferred the primary 911 center from SPD to CARE, effective June 1, 2021. CARE is home to the primary Seattle 911 call center and is the largest in the Pacific Northwest, both by staff size and volume of calls received, averaging over 800,000 per year. The center employs 153 employees who work 24 hours a day, 365 days a year.

The CARE department seeks to enhance public safety through a pilot Dual Dispatch program that will provide additional behavioral health professionals available to respond to people experiencing non-violent mental health crises or quality of life concerns. To begin with, these unarmed community responders will be directly dispatched with police to priority 3 and priority 4 person down and welfare check call types. In 2022, Seattle 911 data shows a response time consistently longer than one hour to these call types; the department seeks to reduce that response time and to support SPD's ability to respond to more urgent 911 calls swiftly. The vision for this team into the future is to expand to additional call types as deemed appropriate.

Total 2024 Proposed Budget	\$26,583,399	163.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,024,535

Citywide technical adjustments made in the baseline budget phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Increase Operating Budget for improved staffing levels

Expenditures \$1,101,840

This item increases appropriation authority for the CARE department to account for improvements in staffing levels and call response time made over 2022-2023. In 2022, CARE was experiencing a very high vacancy rate and long recruitment and onboarding timelines. The department improved the recruitment, hiring, and training process to hire over 45 new employees in 2023 (representing almost one-third of the department). Additional funding will support the department in maintaining improved staffing minimums and create a new budget baseline.

Community Assisted Response and Engagement

Proposed Operating

Add 3 FTE Emergency Communications Dispatchers

Expenditures	\$355,044
Position Allocation	3.00

This item adds 1.0 FTE 911 Emergency Communications Dispatcher I and 2.0 FTE Dispatcher II in 2024 to the CARE department. Additional call takers will improve the department's ability to answer the City's 911 Emergency line and better enable the CARE department to maintain call-answering standards while utilizing less overtime. The department has relied on overtime to meet call-answering standards and these positions will support the department to meet standards while reducing overtime usage.

Funding for CARE department planning purposes

Expenditures	\$607,000
--------------	-----------

This item increases appropriation authority for the CARE department by \$607,000 to envision and prepare for future needs as the department mandate has grown. A significant focus of the CARE Teams will be to implement community-focused services unrelated to the criminal justice system, non-police efforts designed to build community cohesion, provide opportunities for youth and young adults, strengthen community anchors, and the natural guardians of place. Further expansion of the CARE department is expected in 2024 and beyond to include consolidation of various City efforts. It will focus on the City's non-police and community-based services and solutions to community safety challenges. This funding will provide a staffing study to create a framework for consolidation, establish program evaluation measures, create information collateral, and administrative support.

Proposed Technical

Ongoing funding for Dual Dispatch Program

Expenditures	\$1,812,334
Position Allocation	10.00

This item increases appropriation authority to support the ongoing dual dispatch program in 2024. The Mayor's Office and the City Council have worked collaboratively to envision a dual dispatch program for the City of Seattle. The dual dispatch team responds to low acuity calls with a mental and behavioral health nexus, this provides Seattle community members with additional public safety resources. The program has three teams, which include behavioral health professionals to respond to non-emergency situations. The program has already begun redirecting 911 calls through prioritization and dispatch resources specific to the incident.

Funding was appropriated in Ordinance 120617 for the Dual Dispatch program in 2023, covering the costs of facilities, vehicles, and personnel. This item makes that funding ongoing for 10 full-time positions, including 1 FTE Deputy Director of Alternative Response (Executive 2), 1 FTE Executive Assistant (Exec Asst), 1 FTE Public Information Officer (StratAdvsr1, CL&PS) to provide administrative and policy support. In addition, 7 FTE positions were created for the dual dispatch pilot program - 1 FTE Manager (Manager 2), and 6 FTE First Response Specialists.

Community Assisted Response and Engagement

2023-24 Proposed Mid-Biennial Budget Adjustments - Expenses

Office of Emergency Management

Curry Mayer, Director

(206) 233-5076

<https://www.seattle.gov/emergency-management>
<https://www.seattle.gov/emergency-management>
<https://www.seattle.gov/emergency-management>

Department Overview

The Office of Emergency Management (OEM) is responsible for the city-wide emergency management program. The mission of OEM is, “Bringing people together to reduce the impacts from disasters.” This office has the city-wide responsibility to:

- Facilitate citywide response which includes orchestrating coordination conference calls, managing response actions/activities and physically maintaining and managing the Emergency Operations Center (EOC) to ensure overall unity of effort when responding to emergencies and disasters of all sizes and impacts,
- Manage the City’s comprehensive activities related to emergency planning, preparedness, mitigation, response, and recovery operations,
- Administer trainings and exercises that prepare City responders, volunteers, and the public to respond and recover from disasters, and
- Seek and administer post disaster recovery costs and pre-disaster mitigation grants often totaling into the millions of dollars for the city and its departments.

OEM also focuses substantial effort in preparing the community for disaster through public education, capability-building with community organizations, vulnerable population outreach, limited English proficiency, low income and immigrant and refugee communities.

Seattle Fire Department

Harold D Scoggins, Fire Chief

(206) 386-1400

www.seattle.gov/fire

Department Overview

The Seattle Fire Department (SFD) provides fire protection and prevention, technical rescue, and emergency medical services for the City of Seattle. It deploys engine companies, ladder companies, aid and medic units, rescue companies, and fireboats to mitigate the loss of life and property from fires, medical emergencies, and other disasters. SFD maintains 33 fire stations strategically located within six battalions to provide optimal response times to emergencies. Each battalion serves specific geographic areas in the city: the downtown/Central Area, north and northeast Seattle, northwest Seattle, south and southeast Seattle, and West Seattle.

SFD has a strong record of fire prevention resulting in fewer fires than the national average and of other cities with similar populations. Seattle averages 1.7 fires annually per 1,000 residents, which is significantly lower than the national average of 4.1. Over the past five years, the average number of total structure fires per year in Seattle has been 901. Total fire dollar loss averaged \$20.6 million per year.

SFD provides emergency medical responses, which account for approximately 74% of all SFD emergency calls in Seattle. To respond to the emergency medical demand, all Seattle firefighters are trained as emergency medical technicians (EMTs) to provide basic emergency medical care or basic life support. SFD staffs seven medic units, each with two firefighter-trained paramedics to provide more advanced medical care or advanced life support. Additionally, the department has five full-time and two peak-time aid units staffed by firefighters to provide basic life support citywide.

In 2016, SFD implemented the Low Acuity Alarm Program to reduce non-emergency calls to the 911 system and to provide improved service and care to individuals with non-emergent needs. In 2019, the program was renamed Mobile Integrated Health to better reflect its work, which now includes the Health One multidisciplinary response team of firefighters and case managers. Health One launched in 2019 to respond to individuals immediately in their moment of need and help them navigate the situation - whether they need medical care, mental health care, shelter, or other social services. Currently, core activities of Mobile Integrated Health are high utilizer intervention (individuals and locations), low acuity data and trend analysis, establishing referral partnerships, and alternate treatment/transportation services.

The department also has marine, hazardous materials, high-angle, tunnel, and confined-space rescue teams. In addition, SFD officers and firefighters are members of local and national disaster response teams such as the Federal Emergency Management Agency (FEMA)'s Urban Search and Rescue Task Force and wildland firefighting. SFD's fire prevention efforts include fire code enforcement, building inspections, plan reviews of fire and life safety systems, public education and fire safety programs, regulation of hazardous materials storage and processes, and regulation of places of public assembly and public events to ensure life safety.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$2,398,564

Citywide technical adjustments made in the baseline budget phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Adopt new SFD fee and positions to maintain inspection turnaround time

Expenditures \$300,000

Revenues \$300,000

Position Allocation 2.00

Seattle Fire Department

This item creates a new fee to support SFD's construction-related goal of maintaining timely response and inspection services. In the building permit process, SFD is responsible for permits ranging from phased construction permits to fire alarm permits. In 2020, SFD was identified as causing increased turnaround times in the City's permitting process due to staffing issues. Since then, SFD has decreased the time for processing permits.

This proposal adds \$300,000 in new revenue to support additional staff to maintain this progress. The fee will be used to support a management systems analyst, which will sunset in 2026, to set up business processes and focus on improving SFD's use of Accela, the City's construction permitting software. This body of work will result in efficiencies and end duplicative work within the division. In addition, this item includes 1.0 FTE construction inspector to support the department's response to inspection requests in the field. The new fee and increased staffing will result in maintaining inspection turnaround time.

Paramedic Training Captain

Position Allocation 1.00

This proposal adds 1.0 FTE Fire Captain Paramedic position to the Battalion 3 Medic One program to support the University of Washington Paramedic Training Program. An emergency position was approved in September 2023 and will expire at the end of 2023, and this action will make that position ongoing. The Medic One Foundation will fully fund the costs associated with the position.

Recurring Grant Ordinance

Expenditures \$792,679
Revenues \$792,679

This item reflects grants pending or preliminary awards that will finalize in 2023, which will reimburse the department for expenses beginning in early 2024. A UASI grant provides funding for equipment procurement and training, includes items like structural collapse cutting/breaching equipment and lifting/shoring equipment to support missions within the UASI region. Approximately 48 UASI First Responders will be trained in structural collapse and heavy rescue.

Increase Overtime for additional EMS and Fire Guard Services required for special events

Expenditures \$663,349

This item increases overtime budget in 2024 to account for increased EMS and Fire Guard Services required for special events. The amount of special event activity has increased Citywide and requires more emergency medical and fire guard services. These services are reimbursed by the venue/event promoter and this item corresponds with a projected revenue increase.

Proposed Technical

Add Fire Fighter FTEs to support West Seattle operations

Position Allocation 24.00

This item adds permanent positions to support West Seattle operations. During the closure of the West Seattle Bridge in 2020, funding was added to support additional operations in West Seattle on a temporary basis. During the 2023-2024 Budget process, the City Council added overtime funding to continue these operations after the bridge was reopened. The additional 24 FTEs are needed to make these temporary services permanent at Fire Station 26 and 37. This will allow the Fire Department to increase base staffing to support ongoing operations. Additional funding will be needed in 2025 to purchase a new Ladder truck and provide for recruit training for this higher level of overall staffing.

Seattle Fire Department

Revenue Adjustments

Revenues \$924,609

These are adjustments to base revenues that are not tied to policy or proposed budget decisions. These adjustments are driven by changes in economic and service demand conditions.

Prior Ordinance Position Technical Adjustment

Position Allocation 1.00

An administrative position added in Ordinance 126706 will now be reflected in the ongoing base budget.

Position reorganization to improve reporting structures

Expenditures -

Position Allocation -

This technical adjustment results in a net neutral change to match operational needs by transferring administrative positions between divisions. This change clarifies reporting structures and roles, which should result in administrative duties being accomplished more effectively.

Removal of Sound Transit funded position

Position Allocation (1.00)

This item will remove 1.0 FTE Fire Capt-80 position authorized by Ordinance 126257 in 2020 to coordinate tunnel rescue training and funded by Sound Transit. Effective June 7, 2023, this work was concluded, and this position is no longer required.

Seattle Fire Department

Firefighter's Pension

Steve Brown, Executive Secretary

(206) 625-4355

<http://www.seattle.gov/firepension>

Department Overview

The Firefighters' Pension Fund (FPEN) provides pension and medical benefit services to eligible firefighters, active and retired, and their beneficiaries. FPEN is a closed plan that only covers firefighters who were hired before October 1, 1977. Retiree benefits for firefighters hired more recently are primarily covered through a separate state-managed plan.

Management of firefighter benefits funds transitioned in the 1970s from local to state control. Prior to that time, the City paid into FPEN to provide for firefighter retiree benefits. In March 1970, the state created the Law Enforcement Officers and Fire Fighters Retirement System Plan 1 (LEOFF 1). Seattle firefighters hired between March 1970 and October 1977 enrolled in LEOFF 1, but also received additional benefit coverage through FPEN. As a result, this group of firefighters receives retiree benefits primarily from the state's LEOFF 1 plan, but also any earned increment from the City's FPEN that exceeds LEOFF 1 coverage. Both FPEN and LEOFF 1 closed to new enrollees in October 1977. Firefighters hired after that date enroll in the state's LEOFF 2 plan and do not receive benefits from FPEN.

The Seattle Firefighters' Pension Board is a five-member quasi-judicial body chaired by the Mayor or their designee, which formulates policy, rules on disability applications, and provides oversight of the Firefighters' Pension Fund. Four staff employees of the board handle all of its operational functions. Staff positions associated with Firefighters' Pension Fund are not reflected in the City's position list.

The projections of annual pension and medical benefits, which comprise about 97% of the total annual FPEN budget, are based on the forecasts of an independent actuary. The Firefighters' Pension Fund has two statutory funding sources:

- The first is a component of the City's property tax levy. These revenues are placed in the City's General Fund, which funds the Fire Pension Fund's annual budget.
- The second is the state fire insurance premium tax.

These statutory funding sources are in addition to other smaller funding sources that support the Firefighters' Pension Fund obligations.

The Firefighters' Pension Fund includes two funds: the Fire Pension Fund, which pays current pension, medical, and death benefits; and the Actuarial Account, which was established by [Ordinance 117216](#) in 1994 to accumulate a balance sufficient to pay all future pension liabilities of the fund by 2028.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures **\$1,255**

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Technical

Fund Balancing Adjustment(s) - Proposed

Revenues **\$1,074,901**

This is a technical item to record a fund balancing entry for the Fire Fighters' Pension Fund, which is primarily managed by the Firefighters' Pension Board. Balancing entries are used to capture the use of or contribution to fund balances to explain the differences between expected revenue and expected expenditures. This demonstrates that the fund has sufficient resources, either current expected revenue or existing fund balances, to cover the expected costs. For the FPEN Fund, this item captures a use of fund balance to cover the difference between revenues and expenditures.

Fund Balancing Adjustment(s) - Proposed

Revenues **\$(1,116,000)**

This is a technical item to record a fund balancing entry for the Fire Pension Actuarial Account Fund (61050), which is managed by the Firefighters' Pension Board and the City Budget Office. Balancing entries are used to capture the use of or contribution to fund balances to explain the differences between expected revenue and expected expenditures. This demonstrates that the fund has sufficient resources, either current expected revenue or existing

Firefighter's Pension

fund balances, to cover the expected costs. For the FPEN Actuarial Fund, this item is capturing a contribution to fund balance.

Office of Inspector General for Public Safety

Lisa Judge, Inspector General

(206) 684-3663

<http://www.seattle.gov/oig><http://www.seattle.gov/oig><http://www.seattle.gov/oig>

Department Overview

The Office of Inspector General for Public Safety (OIG) was established in 2017 as part of the City of Seattle’s police accountability system through ([Ordinance 125315](#)). The OIG oversees the management, practices, and policies of the Seattle Police Department (SPD) and Office of Police Accountability (OPA), in order to promote fairness and integrity in the delivery of law enforcement services and in the investigation of police misconduct. These goals are achieved through the issuance of systemic recommendations by OIG, aimed to promote lasting reforms which reflect the values of Seattle’s diverse communities. The ordinance cloaks OIG with the responsibility for ensuring “ongoing fidelity” to reforms under the Consent Decree. Since 2021, monitoring the Consent Decree has been performed by a federal court appointed monitor. In 2023 the city filed a motion, and the Court approved, transferring this activity to OIG.

The summation of OIG’s responsibilities include:

- Conducting performance audits and reviews to ensure the integrity of SPD and OPA processes and operations;
- Reviewing OPA’s intake and investigation of SPD misconduct allegations;
- Evaluating SPD response to incidents involving death, serious injury, serious use of force, mass demonstrations, or other issues of significant public concern, to assess the integrity of SPD investigative processes;
- Conducting reviews mandated by the Accountability Ordinance of: 1) SPD acquisition and use of surveillance technologies ([SMC 14.18](#)) and 2) gathering and use of “intelligence” information by SPD ([SMC 14.12](#));
- Ensuring SPD is meeting its mission to address crime and improve quality of life through the delivery of constitutional, professional, equitable, and effective police services that retain the trust, respect, and support of the community;
- Making recommendations to policymakers aimed at increasing fairness, equity, and integrity in the delivery of SPD services and related criminal justice system processes; and
- Conducting continued oversight of the City and SPD’s fidelity to the Consent Decree, by periodical and permanent assessments of the core areas of consent decree (Bias Free Policing, Stops and Detentions, Use of Force, and Crisis Intervention) as previously performed by the Department of Justice (DOJ) and the Police Monitor Team.

Expenditures \$596,448
Position Allocation 3.50

Office of Inspector General for Public Safety

This change includes ongoing budget and/or position changes resulting from current year legislation in 2023, including the Q3 Supplemental Budget Ordinance. Funding is transferred from the Finance General Department of Justice (DOJ) Settlement Agreement/Police Accountability reserve.

- This technical adjustment adds 3.0 FTE and appropriation authority to OIG as approved in the 2023 Mid-Year Supplemental Budget Ordinance. In 2012 the city and the DOJ entered into a settlement agreement (“Consent Decree”). Since 2012 the Consent Decree has required certain specific actions by the City and SPD. These positions will be assuming the federal monitor's oversight and assessment.
- This technical adjustment adds 0.5 FTE and appropriation authority to OIG as approved in the 2023 Mid-Year Supplemental Budget Ordinance. This Communication and Community Engagement Specialist (strategic advisor) will provide racial equity expertise in scoping work projects, as well as strategic engagement with community.

Law Department

Ann Davison, City Attorney

Civil Division, (206) 684-8200; Criminal Division, (206) 684-7757

<http://www.seattle.gov/cityattorney><http://www.seattle.gov/cityattorney><http://www.seattle.gov/cityattorney>

Department Overview

The department provides legal advice to City officials, represent the City in litigation, and protect the public health, safety, and welfare of the community by prosecuting violations of City criminal and civil ordinances and state law. The three department divisions are described below.

The **Administration Division** provides executive leadership, communications, and operational support for the entire department. It is comprised of the executive leadership team, human resources, finance, media relations, and information technology staff.

The **Civil Division** provides legal counsel and representation to the City's elected and appointed policymakers in litigation at all levels of county, state, federal courts, and administrative agencies. The Civil Division is organized into eight specialized areas of practice: Employment, Environmental Protection, Land Use, Constitutional and Complex Litigation, Government Affairs, Torts, Civil Enforcement, and Contracts & Utilities.

The **Criminal Division** prosecutes misdemeanor crimes in Seattle Municipal Court, provides legal advice to City clients on criminal justice matters, monitors state criminal justice legislation of interest to the City, and participates in criminal justice reform efforts, policy development and management of the criminal justice system. The Criminal Division is comprised of a Prosecution Support Unit, Case Preparation Unit, Domestic Violence Unit (prosecutors and victim advocates), Appeals, Review and Filing Unit, Specialty Courts Unit (Infractions, Mental Health, Veterans' Court, Let Everyone Advance with Dignity (LEAD), and Pre-filing Diversion), and Trial Team Unit.

The **Precinct Liaisons** supports a program where attorneys work in each of the City's police precincts, providing legal advice to police and other City departments. In helping to address a variety of neighborhood and community problems, the precinct liaison attorneys coordinate with the Civil and Criminal divisions with the goal of providing a consistent, thorough, and effective approach.

Seattle Municipal Court

The Honorable Faye R. Chess, Presiding Judge

(206) 684-5600

<http://www.seattle.gov/courts>/<http://www.seattle.gov/courts>/<http://www.seattle.gov/courts>/

Department Overview

As the judicial branch of Seattle City government, the Seattle Municipal Court (SMC or Court) provides a forum to resolve alleged violations of the law in a respectful, independent, and impartial manner. SMC adjudicates misdemeanors, gross misdemeanors, infractions (e.g., traffic and parking tickets, traffic camera violations, and other violations), and civil violations related to building and zoning offenses. The Court has seven elected judges and five appointed magistrates. There are more cases processed here than any other municipal court in the State of Washington.

This is a transformational time at SMC with several change initiatives underway that will advance SMC as the people's court, providing fair, equitable and innovative delivery of justice. Each change initiative aligns with the Court's strategic priorities of:

- building capacity
- evolving services to center those served
- modeling a culture rooted in equity
- streamlining decision making
- engaging staff to develop future leaders today

In 2023, SMC continued realigning its organizational structure into four service areas: Operations, Administrative Services, Court Technology, and Strategy. This structure supports realizing SMC's strategic priorities by making the best use of court resources, eliminating siloed operations and functions, and ensuring court services are easy to navigate. The realignment improves transparency in decision-making and communication throughout the Court.

SMC recognizes undoing institutional racism and ensuring a culture of equity and inclusion requires engagement with community and staff to identify meaningful solutions. In 2023, SMC appointed its first Director of Equity and Engagement who is leading the development of the Court's diversity, equity, inclusion, and community engagement strategic plan and coordinates the Court's Race and Social Justice (RSJ) Change Team. SMC will continue to engage community through its judicial officers, as well as through *In The Community* outreach events. These events bring court services and resources to Seattle neighborhoods and are an opportunity for community members to receive assistance with resolving SMC warrants, learn about options for addressing tickets, help with reinstating their driver's license, and access supportive services through the Community Resource Center.

The Court continues its multi-year project to replace its 30+ year-old legacy municipal court information system, MCIS, with a modern and adaptable case management solution. The new system will streamline court processes, provide a better court user experience, improve the accessibility of court services, make it easier for partners to work collaboratively with the Court, and generate analytics in support of understanding the impact of the broader criminal legal system. User stories and human-centered design inform the business transformation. The project is on track to go-live in early 2024.

Mid-2023, SMC wrapped up its three-year Probation Evolution project, an effort focused on improving client outcomes and minimizing disproportionate impacts probation has on women and people of color. The Court utilized the City's RSJ toolkit and community engagement to guide the changes considered and adopted in this project. Program changes made through this project include more equitable reporting guidelines and noncompliance policy, client-focused case planning and quarterly progress reports designed to highlight client successes and personal goals, and published dashboards on Court website to increase transparency.

Ensuring access to justice for Limited English Proficiency (LEP) and deaf, hard-of-hearing, or deaf-blind (D/HH/DV) individuals remains a priority for the Court. SMC has provided Interpreter Services in 149 languages since 2005,

Seattle Municipal Court

including American Sign Language. Free interpreter services are provided for criminal and civil matters, including court hearings, trials, attorney-client interviews, probation appointments, prosecution witnesses, mental health evaluations, customer service, and translation of court forms and letters.

SMC looks forward to the strategic changes planned for the next year that will advance the court values of service, fairness, equity and inclusion, innovation, excellence, and integrity.

Seattle Police Department

Adrian Diaz, Chief of Police

(206) 684-5577

<http://www.seattle.gov/police>/<http://www.seattle.gov/police>/<http://www.seattle.gov/police>/

Department Overview

The Seattle Police Department (SPD) addresses crime, enforces laws, and enhances public safety by delivering respectful, professional, and dependable police services. SPD divides operations into five precincts. These precincts define east, west, north, south, and southwest patrol areas, with a police station in each area. The department's organizational model places neighborhood-based emergency response services at its core, allowing SPD the greatest flexibility in managing public safety. Detectives in centralized investigative units located at SPD headquarters downtown and elsewhere conduct follow-up investigations of violent and property crimes, and other types of crimes. Other parts of the department function to train, equip, and provide policy guidance, human resources, communications, and technology support to those delivering direct services to the public.

Police Chief Adrian Diaz has committed the department to five focus areas to anchor itself throughout the on-going work around the future of community safety:

- **Re-envisioning Policing** - Engage openly in a community-led process of designing the role the department should play in community safety
- **Humanization** - Prioritize the sanctity of human life in every situation and affirm each individual's worth
- **Reinventing Community Engagement** - Establish true and lasting relationships through respectful interactions in every situation
- **Fiscal Stewardship** - Examine critically every dollar spent to ensure it meaningfully contributes to community safety
- **Employee Wellness and Morale** - Support exceptional police services by ensuring the department recruits and retains the best employees

On September 7, 2023, the federal court overseeing the Consent Decree found that SPD had sustained full and effective compliance across all of its core commitments under that order with the exception of use of force, force investigation, and force review in large-scale crowd management events. Additionally, the Court ruled that the City had further work to do in the area of Accountability. The Court, as did the Monitor in his May 2022 Comprehensive Assessment, again highlighted the lack of officers available to the community as a significant barrier to continued improvement and providing essential core public safety functions.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,298,384

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

SPD Salary Savings

Expenditures \$(1,775,651)

Seattle Police Department

This item cuts \$1.8 million in anticipated sworn salary savings in the Criminal Investigations BSL (BO-SP-P7000) to offset an appropriation increase for a crime prevention pilot project in the Police Department to better align budget with anticipated staffing levels in 2024. This item also makes a net-zero budget adjustment to reallocate \$6.3 million in additional projected salary savings for overtime needed to staff emergency response, investigations, and special operations. Currently, the department estimates the 2024 baseline budget supports approximately 1,131 sworn FTE. The total amount of salary savings in 2024 will be determined by the average monthly filled level.

Crime Prevention Pilot Project

Expenditures \$1,775,000

This item increases appropriation authority in the Technical Services BSL (BO-SP-P8000) by \$1.8 million for project costs associated with implementing a pilot project to leverage technological resources to combat increased gun violence and felony crime in the City of Seattle. This funding will activate automatic license plate readers, CCTV cameras, and acoustic gunshot locator systems on a pilot project basis to deter criminal behavior and hold offenders accountable. With the extreme shortage of police officers, it is essential that the department deploy technological tools to help prevent and suppress violent crime.

Add Deputy Director in the Office of Police Accountability

Position Allocation 1.00

This change adds 1.0 FTE Deputy Director position to the Office of Police Accountability (OPA) unit, funded through anticipated vacancy savings, to attend to OPA's internal people management needs and some day-to-day investigative needs, allowing the OPA Director to focus on high level investigation responsibilities and external relationships. This position will enhance staff achievement and retention by supporting the 30-person department's needs on a day-to-day level. In addition, this role will provide investigative support to the Assistant Director of Investigations and two Investigations Supervisors. An emergency position for this role was approved in 2023, and OPA anticipates having a new Deputy Director on board by Fall of 2023.

Proposed Technical

Recurring Grants Ordinance

Expenditures \$5,683,156
Revenues \$5,683,156
Position Allocation 5.00

This item increases appropriation authority in various BSLs for recurring grant awards anticipated in 2024, including Urban Area Security Initiative (UASI), Internet Crimes Against Children (ICAC), Securing the Cities, and Justice Assistance Grant (JAG) awards. In addition, this item adds 5.0 full-time positions supported by grant funds, including 4 Crime Intelligence Analyst positions in the Fusion Center and 1 position funded by the Securing the Cities Grant to establish a land-based radiological and nuclear detection program.

Ongoing Changes from Current Year Legislation

Expenditures \$1,336,970
Position Allocation 6.00

This change includes ongoing budget and position changes resulting from current year legislation in 2023, including budget associated with the approval of Memorandums of Understanding between the City of Seattle with PROTEC17 (Police Data Technicians) and the Seattle Parking Enforcement Officers Guild, as well as a total of 6.0 full-time positions, including 4 positions to address the ongoing public disclosure workload, 1 position supporting employee retention, management, and development efforts, and 1 Strategic Brand & Marketing Manager.

Seattle Police Department

Senior Accountant Budget Neutral Staffing Realignment

Position Allocation 0.50

This item increases an existing half-time Senior Accountant to full-time. The workload requires a full-time employee in this position and no additional appropriation is required.

Central Cost Manual (CCM) Reconciliation and Alignment

Expenditures -

This item is a budget-neutral reconciliation and alignment of accounts related to Central Costs.

Chartfield Corrections

Expenditures -

This net zero change aligns the budget program, project and account details with expenditures in the 2024 Proposed Budget.

Decrease Funding for School Zone Camera Program

Expenditures \$(1,700,000)

This item reduces the Police Department budget by \$1.7 million in the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund in 2024. This funding was intended to support the development and implementation of an expansion of the School Zone Camera program to double the number of cameras deployed to 70. School zone camera revenues are deposited in the SSTPI Fund and are restricted by Washington State law to support school traffic safety projects, programs for students getting to and from school, and to cover the administrative costs of the School Zone Camera program. The current revenue forecast does not support the expansion project and SPD has agreed with the Seattle Department of Transportation (SDOT) to align the funding for expansion in 2024 with anticipated resources.

Baseline Revenue Adjustment

Revenues \$(1,576,269)

This change reflects updates to baseline revenues.

General Fund Revenue Adjustment

Revenues \$(3,530,294)

This is a technical adjustment to capture centrally-projected and forecast General Fund revenue increments for this department.

Police Relief and Pension

Stephanie Coleman, Executive Secretary

(206) 386-1286

<http://www.seattle.gov/policepension>/<http://www.seattle.gov/policepension>/<http://www.seattle.gov/policepension>

Department Overview

The Police Relief and Pension Fund (PPEN) provides pension and medical benefit services to eligible active and retired police officers and their beneficiaries. PPEN is a closed plan which only covers police officers who were hired before October 1, 1977. Retiree benefits for police officers hired more recently are primarily covered through a separate state-managed plan.

The management of police benefits funds transitioned in the 1970s from local to state control. Prior to that time, the City paid into PPEN to provide for police officer retiree benefits. In March 1970, the State of Washington took over the provision of certain police pensions through Revised Code of Washington (RCW) Section 41.26, the Law Enforcement Officers and Fire Fighters (LEOFF) Plan 1. Seattle police officers hired between March 1970 and October 1977 enrolled in LEOFF 1, but also received additional benefit coverage through PPEN. As a result, this group of police officers receives retiree benefits primarily from the state's LEOFF 1 plan, but also any earned increment from the City's PPEN that exceeds LEOFF 1 coverage. Both PPEN and LEOFF 1 closed to new enrollees in October 1977. Police officers hired after that date enroll in the state's LEOFF 2 plan and do not receive benefits from PPEN.

The Seattle Police Pension Board is a seven-member quasi-judicial body chaired by the Mayor or the Mayor's designee, which formulates policy, rules on disability applications, and provides oversight of the Police Pension Fund. Three staff employees of the board handle all of its operational functions. Staff positions associated with Police Relief and Pension are reflected in the City's position list.

The projections of annual pension and medical benefits, which comprise about 97% of the total annual PPEN budget, are based on the forecasts of an independent actuary. The City's General Fund provides funding for nearly all of PPEN's annual budget that supports the Police Relief and Pension Fund obligations. The Police Pension Fund also has a statutory funding source from police auction proceeds, which contribute a small amount towards the annual budget.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$3,130

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Technical

Fund Balancing Adjustment(s) -- Proposed

Revenues \$4,066,408

This is a technical item to record a fund balancing entry for the Police Relief & Pension Fund (61060), which is primarily managed by the Police Relief & Pension Fund Board. Balancing entries are used to capture the use of or contribution to fund balances to cover the differences between expected revenue and expected expenditures. This demonstrates that the fund has sufficient resources, either current expected revenue or existing fund balances, to cover the expected costs. For the PPEN Fund, this item captures the use of fund balance to cover the difference between revenues and expenditures.

Seattle City Light

Debra Smith, General Manager & CEO

(206) 684-3500

<http://www.seattle.gov/city-light><http://www.seattle.gov/city-light><http://www.seattle.gov/city-light>

Department Overview

Seattle City Light was created by the residents of Seattle in 1902 to provide affordable, reliable, and environmentally sound electric power to the City of Seattle and neighboring suburbs. Owned by the community it serves, City Light is a nationally recognized leader in energy efficiency, renewable resources, and environmental stewardship.

City Light provides electric power to approximately 493,000 residential, business, and industrial customers within a 131-square-mile service area. City Light provides power to the City of Seattle and surrounding jurisdictions, including parts of Shoreline, Burien, Tukwila, SeaTac, Lake Forest Park, Renton, Normandy Park, and areas of unincorporated King County.

City Light is the nation's ninth largest publicly owned electric utility in terms of customers served, and owns about 2,000 megawatts of very low-cost, environmentally responsible, hydroelectric generation capacity. In an average year, City Light produces about 50% of its energy supply with hydroelectric facilities that it owns directly, and purchases 30% through the Bonneville Power Administration (BPA) and 20% from other sources including short-term wholesale purchases.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$2,796,842

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Fish Hatchery Positions, 3.0 FTEs

Position Allocation 3.00

As part of the 2013 Federal Electricity Regulatory Commission License for the Boundary Hydroelectric Project, City Light was required to build and staff a new Native Salmonid Conservation Facility. This item adds three positions to support the facility, which will be completed late in 2023 after nine years in the design and construction phase. The positions were already funded under Ordinance 123940 and are in the current rate path.

Net-Zero Cyber and Physical Security Enhancements

Seattle City Light

Expenditures -

This item reallocates funding to support increased cyber and physical security services needed to protect employees and assets and ensure uninterrupted electricity services. It is a net-zero reprioritization of funds that shifts \$1.7 million into security from other historically underspent contracted services budgets throughout the utility. This funding will enhance the utility's ability to detect and respond to cyber security threats and increase protection of the utility's physical assets.

Technical Adjustments

Expenditures \$(7,394,266)

This technical adjustment includes increases associated with inflation, annual wage increases, inventory adjustments, maintenance, and electrification incentives. Various adjustments to purchased power, debt service, and taxes are also included. These adjustments are consistent with City Light's 2023-2028 Strategic Plan and Adopted 2024 rates.

SCL Revenues 2024

Revenues \$363,246,685

This adjusts revenues to balance expenditures and actual revenues forecasted for 2024.

Proposed Capital

Annual Capital Spending Adjustments

Expenditures \$1,687,713

This annual adjustment reprioritizes funding in the capital program (CIP) and aligns budgets with the most up-to-date information on planned project spending. It includes changes due to the normal refinement of work schedules and the ongoing reprioritization of capital work. This 6-year CIP plan is within the overall amounts in the Adopted 2023-28 CIP plan and is consistent with the strategic plan rate path. This was achieved by identifying offsetting reductions in various projects to accommodate increased spending for strategic initiatives and customer driven work.

Seattle Public Utilities

Andrew Lee, General Manager & CEO

(206) 684-3000

<http://www.seattle.gov/util/>

Department Overview

Seattle Public Utilities (SPU) provides reliable, efficient and environmentally conscious utility services to enhance the quality of life and livability in all communities SPU serves. SPU operates three distinct utilities: Drainage and Wastewater, Solid Waste, and Water. The three utilities each have unique revenue sources and capital improvement projects but share many operations and administration activities within SPU and the City.

Drainage and Wastewater: The Drainage and Wastewater Utility collects and disposes or discharges storm runoff and wastewater from residences, businesses, institutions, and public properties within the City. In addition to handling sewage and storm water runoff, Drainage and Wastewater works with other government agencies and private parties to address Federal EPA-mandated sediment cleanup projects where contamination is linked to storm water or sewage, such as Gas Works Park and the Lower Duwamish Waterway. Drainage and Wastewater systems include approximately 448 miles of separated sanitary sewers, 968 miles of combined sewers, 481 miles of storm drains, 67 pump stations, 82 permitted combined sewer overflow points, 591 storm drain outfalls, 578 water quality structures, 295 drainage flow control facilities, and 38 combined sewer overflow control detention tanks and pipes.

Solid Waste: The Solid Waste Utility collects and processes recycling, compostable, and residential and commercial garbage to promote public health and safety, quality of life, and environmental stewardship. The City owns and operates two transfer stations, two household hazardous waste facilities, a fleet of trucks and heavy equipment, and several closed landfills. The Solid Waste Capital Improvement Plan (CIP) supports the transfer stations, heavy equipment, and post-closure projects on landfills previously used by the City. In addition, SPU contracts with private companies who collect household refuse, compostable material, and recyclables. The companies deliver the material to recycling and composting facilities and to transfer stations for its ultimate processing or disposal. In concert with its waste handling and disposal activities, Solid Waste engages its customers in environmental sustainability programs that promote recycling, composting, and reducing waste generation. Solid Waste also works to keep Seattle clean by targeting illegal dumping and automobile abandonment, graffiti removal, and providing public litter cans and recycling bins across Seattle.

Water: The Water Utility provides reliable, clean, and safe water to more than 1.5 million customers in and around Seattle for consumption and other uses. The water delivery system extends from Edmonds to Des Moines and from Puget Sound to Lake Joy near Duvall. SPU delivers water directly to its customers in Seattle and adjacent areas and provides wholesale water to 21 suburban water utilities and interlocal associations for distribution to their customers. The Water Utility includes over 1,900 miles of pipeline, 30 pump stations, two primary water treatment plants, 11 booster chlorination facilities, three groundwater wells and over 103,000 acres in two watersheds. The Utility builds, operates, and maintains the City's water infrastructure to ensure system reliability, to conserve and enhance the region's environmental resources, and to protect public health and safety. SPU engages the community in conservation efforts to reduce water consumption.

SPU monitors its funds using Council-adopted financial performance metrics developed in advisement with external financial advisors. These metrics include net income, cash balances, cash contributions to CIP, debt service coverage (a measure of revenue available to fulfill annual debt service obligations), and, for the Drainage and Wastewater Fund, debt to asset ratio. Based on these metrics, among other factors, rating agencies have assigned all three of the funds with strong, investment grade bond ratings in line with peer west coast utilities, noting specifically elected officials' commitment to sound financial management and a history of adopting prudent rates. Water bonds are rated AA+ and Aaa, Drainage and Wastewater bonds are rated AA+ and Aa1, and Solid Waste bonds are rated AA+ and Aa3 by S&P and Moody's, respectively. Strong ratings help to minimize borrowing costs and, in turn, customers' bills into the long-term.

Description of Incremental Budget Changes

Baseline

Baseline Adjustments

Expenditures \$(1,033,819)

This item makes baseline adjustments to Seattle Public Utilities' labor budget, removing erroneous ongoing General Fund appropriations.

Seattle Public Utilities

Positions Approved in 2024 Endorsed Budget

Position Allocation 4.00

This item formally adds position authority for four full-time positions added in the 2024 Endorsed. These positions include: 1.0 Aquatic Resources Specialist in Water Planning and Program Management; 1.0 Cultural and Historic Resource Specialist in Watershed Management; 1.0 for Logistics Management, and 1.0 for Ship Canal Water Quality Project Operations.

Technical and Standard Cost Changes

Expenditures \$73,297,441

This item provides new appropriations for the Water Fund, Drainage and Wastewater Fund, Solid Waste Fund, and General Fund for a net increase of approximately \$73.3 million in 2024. These increases cover: revised projections for tax payments, debt service costs, and major service contract; increases for citywide indirect costs; labor and other inflationary adjustments. These changes are consistent with the adopted 2021-2026 SPU Strategic Business Plan as well as current rate ordinances and proposed Water Rates for 2024-26.

Additional Technical and Standard Cost Changes

Expenditures \$2,548,905

This item makes additional labor-related changes to the SPU budget. Actions include adjustments related to reallocated positions and adding additional appropriation to cover newly negotiated labor agreements.

Proposed Operating

Position Add for Facilities Asset Management

Expenditures -
Position Allocation 1.00

This item provides position authority to SPU for one full-time employee, a Strategic Advisor 2, for the Facilities Asset Management Program. This body of work is currently supported by temporary staffing. No new appropriation authority is required. The person hired into this position will lead implementation of SPU's Workforce Facilities Master Plan, including coordination with business groups and project managers, performance evaluation, and financial reporting.

Staffing for Public Hygiene Program

Expenditures -
Position Allocation 3.00

This item provides Seattle Public Utilities position authority for three full-time employees (FTEs) for the Public Hygiene Program, which provides shower trailers, portable toilets, and handwashing stations to serve the unhoused. No new appropriations are required. This body of work is currently performed by temporary staffing. Positions being added comprise a Senior Capital Projects Coordinator and two Maintenance Laborers. These positions will sunset at the end of 2026, in order to allow City policymakers the opportunity to evaluate ongoing needs for this body of work.

Position Add for SPU Human Resources

Expenditures \$53,994
Position Allocation 0.50

Seattle Public Utilities

This item adds a position authority for a half-pocket to SPU for SPU Human Resources. Together with an existing half-pocket, this action will allow SPU to hire a full-time Assistant Management Systems Analyst. This position will serve as a training coordinator and videographer. This change will require an additional \$53,994 in operating appropriation authority, split between the Water, Drainage and Wastewater, and Solid Waste Funds.

Trees for Neighborhoods Program Expansion

Expenditures \$350,000

This change adds \$350,000 in General Fund appropriation authority to SPU for the Trees for Neighborhoods program. The Trees for Neighborhoods program works with residents across Seattle to plant trees around residential homes and schools. This one-time program expansion will support the growth of urban tree canopy cover, especially in high-heat neighborhoods, to improve public health, climate resilience, equity, and neighborhood cohesion across Seattle. Funding would be made available to increase the number of trees planted through the Trees for Neighborhoods program by 300 to 1,300 in 2024; to establish a tree nursery for the program; and develop local workforce opportunities in arboriculture.

Position Adds for Duwamish Valley Resilience Work

Expenditures \$1,126,200

Position Allocation 3.00

This item provides \$1,126,200 in appropriation authority to SPU in the Drainage and Wastewater Fund for three full-time Strategic Advisor 3 positions. These positions will sunset at the close of 2026. These actions are intended to address sea level rise adaptation and flood risks in Duwamish River communities like South Park. The need to accelerate planning efforts for the area was highlighted by the December 2022 King Tide flooding event.

These positions will enable SPU to lead Citywide flood response, infrastructure, and climate adaptation work in the region. These efforts will build on SPU's existing and planned drainage and sewer investments in the area. The positions added through this action will lead Capital Improvement Plan implementation for newly identified and currently planned investments, coordinate funding strategy with outside entities and potential funders, and collaborate with the Duwamish Valley Interdepartmental Team (IDT). These positions will also work directly with the Office of Sustainability and Environment (OSE) and the Office of Planning and Community Development (OPCD).

Proposed Capital

Water Fund Capital Changes

Expenditures \$13,001,310

This item adds \$13,001,310 in capital budget authority to SPU for the Water Fund Core and Shared Capital Improvement Plan (CIP). The primary focus is on asset management for distribution and transmission pipes, water system impacts associated with the various Seattle and regional transportation projects, and upgrades to water system facilities such as hydrants and dam safety improvements. For more, please see the Proposed 2024-2029 Capital Improvement Plan.

Drainage and Wastewater Fund Capital Changes

Expenditures \$29,397,344

This item adds \$29,397,344 in capital budget authority to SPU for the Drainage and Wastewater Fund Core and Shared Capital Improvement Plan (CIP). These changes reflect updated project scopes and timelines on projects related to Seattle's drainage and sewer systems. For more, please see the Proposed 2024-2029 Capital Improvement Plan.

Seattle Public Utilities

Solid Waste Fund Capital Improvements

Expenditures \$14,496,510

This item adds \$14,496,510 capital budget authority to SPU for the Solid Waste Fund Core and Shared Capital Improvement Plan (CIP). Increases are driven by planned options analyses for proposed transfer station maintenance projects, such as rebuilding the South Transfer tipping floor, installing new compactors at North Transfer and system improvements to meet regulatory requirements at both stations. Delays have also shifted work associated with the South Park Landfill project from 2023 to 2024. For more, please see the Proposed 2024-2029 Capital Improvement Plan.

Shared Technology Capital Changes

Expenditures \$2,624,000

This item increases appropriation authority for SPU by \$2,624,000 across the Water, Solid Waste, and Drainage and Wastewater Funds for shared technology capital improvements. Key projects include Customer Contact and Billing projects, as well as various internal enterprise technology solutions for SPU. For more, please see Proposed 2024-2029 Capital Improvement Plan (CIP).

Proposed Technical

SPU Revenue Budgets

Revenues \$(5,339,615)

This item budgets projected 2024 revenues for SPU.

Use of Fund Balance

Revenues \$125,493,252

This technical item accounts for the use of fund balance in balancing revenues against expenditures.

Seattle Public Utilities

2023-24 Proposed Mid-Biennial Budget Adjustment - Expenses

Budget Summary Level	Fund	Budget Process Phase Endorsed	Proposed Changes	Grand Total

Seattle Department of Transportation

Greg Spotts, Director

(206) 684-5000

<http://www.seattle.gov/transportation><http://www.seattle.gov/transportation><http://www.seattle.gov/transportation>

Department Overview

The Seattle Department of Transportation (SDOT) develops, maintains, and operates a transportation system that promotes the safe and efficient mobility of people and goods, and enhances the quality of life, environment, and economy of Seattle and the surrounding region. The City's transportation infrastructure is estimated to be worth approximately \$28 billion, including these major system assets:

- 1,548 lane-miles of arterial streets;
- 2,396 lane-miles of non-arterial streets;
- 2,293 miles of sidewalks;
- 126 bridges;
- 584 stairways;
- 537 retaining walls;
- 2.2 miles of seawalls;
- 1,132 signalized intersections;
- 47.9 miles of multi-purpose trails;
- 2,277 miles of improved sidewalks and median pathways;
- 165 miles of on-street bicycle facilities;
- 39,049 street trees;
- 1,589 pay stations;
- 35,872 curb ramps;
- close to 203,000 signs

The SDOT budget covers three major lines of business:

The **Transportation Capital Improvement Program** includes the major maintenance and replacement of SDOT's capital assets; the program also develops and constructs additions to the City's transportation infrastructure. The program includes the Major Maintenance/Replacement, Major Projects, and Mobility-Capital Budget Summary Levels (BSLs).

Operations and Maintenance covers day-to-day operations and routine maintenance that keep people and goods moving throughout the city, which includes operating the city's movable bridges and traffic signals, cleaning streets, repairing potholes, issuing permits, maintaining trees, and transportation planning and engineering. The five BSLs in this area are: Bridges and Structures; Maintenance Operations; Mobility-Operations; Parking Enforcement; and Right-of-Way Management.

Business Management and Support provides overall policy direction and business support for SDOT and includes the Leadership and Administration and General Expense BSLs.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$328,835

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Debt Financing for Alaskan Way Main Corridor - Concrete Strike Costs

Expenditures \$1,351,875

This item provides additional appropriation for the debt service costs related to Alaskan Way Main Corridor capital project (MC-TR-C072) in the Transportation Fund General Expense Budget Control Level (13000-B0-TR-18002). The proposed budget includes a 2024 debt issuance request for \$25 million to complete construction of the Alaskan Way Main Corridor project. The Teamster's concrete strike in late 2021 and early 2022 has significant impacts on project activities, schedule, work windows, and costs. Adapting the project to the realities of the concrete strike required significant changes in the project delivery plan and has extended the project's schedule into late 2024. The potential risk of cost overruns has been planned for by the Office of the Waterfront and Civic Projects (OWCP) along with SDOT; and Commercial Parking Tax (CPT) funds have been reserved in anticipation of cost risks, like the concrete strike. These reserve CPT funds are available to fund this request.

Seattle Department of Transportation

Bridge Maintenance Investments

Expenditures \$500,365

In 2020, the Seattle Office of City Auditor published an audit report: Seattle Department of Transportation: Strategic Approach to Vehicle Bridge Maintenance is Warranted. There were multiple recommendations in that report including Recommendation 2, which held that SDOT should dedicate bridge maintenance workers to bridge maintenance work. Facing reductions in bridge maintenance funding in the Real Estate Excise Tax Fund, SDOT is prioritizing staffing investments now that can build SDOT's capacity to implement complex bridge maintenance activities on improved timelines. This change adds funding to expand SDOT's ability to plan bridge maintenance and deliver more work with SDOT crews. This change helps offset and support reductions described in the item "Bridge Maintenance Reductions" (see below) by using available Vehicle License Fees to invest in this important work.

Positions for Bridge Maintenance

Expenditures \$300,062

Position Allocation 3.00

SDOT is adding 3.0 FTE new positions in the Roadway Structures Division for bridge maintenance, 1.0 FTE Capital Project Bridge/Structural Program Manager, 1.0 FTE Sr. Bridge Engineer, and 1.0 FTE Administrative Specialist. These positions are in response to the 2020 vehicle bridge maintenance audit conducted by the Office of the City Auditor. The audit recommended that SDOT develop a more strategic approach to vehicle bridge maintenance. This approach is essential to ensure that bridges comply with federal regulations, maintenance work is preventative and proactive rather than reactive, public safety is a priority, and costs are effectively managed. These three positions are necessary to implement these recommendations.

Emergency Events Response

Expenditures \$2,000,000

Revenues \$200,000

This change supports expanded needs in SDOT's Emergency Events program. SDOT is the City's primary responder for emergency events that affect the right-of-way. The City continues to see increasing severity of winter storms and ice, windstorms, traffic incidents, spills, encampment-related incidents, and landslides. It is SDOT's responsibility to respond to these events to secure safe passage for City and County services, including first responders, transit, and other high-priority transport. SDOT's budget has been historically challenged to meet the increasing incidence, severity, and cost to respond. This change will establish \$10,093,510 of ongoing budget (\$1,659,691 General Fund, \$8,433,819 Commercial Parking Tax) to support this work in 2024. Revenues from the General Fund are being partially allocated to support this critical work.

Pay-by-Phone Service Investment

Expenditures \$2,200,000

Revenues \$2,200,000

The Paid Parking program at SDOT includes the Paid Parking Maintenance Program that pays for the expenses associated with pay stations and Pay-by-Phone services, the application that allows paying parking fees with a cell phone rather than at the station. During the pandemic, SDOT reduced its budget in this program to align with reduced demand for these services and is now restoring that budget. Fees based on usage have increased as demand for paid on-street parking returns to pre-pandemic levels, and drivers increasingly use the Pay-by-Phone applications to pay for parking. This critical need is being supported by \$2.2 million of General Fund resources generated by updated parking rate policies and changes to the minimum and maximum parking rates. These rate increases are in-line and supported by parking data that shows an increase in the demand for parking throughout the city.

Seattle Department of Transportation

Pothole Repair Response

Expenditures \$1,500,000

Pothole repair is one of the core functions of SDOT in responding to conditions to secure safe passage for City and County services including not only first responders, transit, and other high-priority transport - both commercial and private - as well as the general public. Increased storm events and aging infrastructure have increased the amount of necessary pothole response within SDOT's target of 72 hours, exceeding existing budget. This item supports SDOT's ability to meet these response times and is supported by Vehicle License Fees that are collected in the Seattle Transportation Benefit District Fund.

Right-of-way investments for the Downtown Activation Plan

Expenditures \$1,000,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. This item will fund activities that support the Downtown Activation Plan (DAP). Through the management of the right-of-way, SDOT activities are part of a broader package that is intended to foster community building, placemaking, and economic vitality. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The DAP details a suite of legislative and regulatory actions and program investments to be undertaken with the goal of making Seattle's downtown a more vibrant, inclusive, and resilient hub for residents, workers, and visitors. Under the DAP, SDOT will work to support restaurant business with load zones for food pick-up and take-out, launch weekend and evening street or alleyway closures for special events and programming, install wayfinding kiosk in the Downtown core to help pedestrians navigate the area, facilitate the proliferation of downtown street eateries, and support public safety improvements like installing new bus shelters, trash receptacles, lighting, etc.

Staffing Investments for Ongoing Commitments

Expenditures -
Position Allocation 8.00

This item expands SDOT staffing with 8.0 FTE, four of which will convert existing temporary staffing to ongoing, permanent positions, and four are new positions. These positions are necessary to continue (or fully resource) important ongoing areas of work across many areas in the Seattle Department of Transportation, including support of the City's 1% for Art Program in the public right-of-way, Transportation Access, Human Resources, Equity, Facilities and Property Management, and Finance. Funding to support these positions is either already included in SDOT's base budget or will be prioritized for these critical departmental functions.

Project Development Position Increase

Position Allocation 1.50

This item establishes 1.5 FTE of ongoing positions in the SDOT's Home Zones program. This program also supports the Stay Healthy Streets program, Aurora Avenue safety projects, and the Safe Routes to School program. A Home Zone is a holistic and cost-effective approach to making residential streets more walkable within a neighborhood. Rooted in successful pedestrian-focused systems from around the world, the Home Zone Program provides an alternative to traditional sidewalks and traffic calming measures. The heart of the program is its community-centered development process. These positions establish ongoing staffing resources that were otherwise supported by temporary assignments, and are critical to implementing public outreach, project identification, project

Seattle Department of Transportation

development, and design of traffic improvements that can include traffic circles, speed humps, and cost-effective walkways coupled with neighborhood activation and beautification. These positions will also support exploring the implementation of low-pollution neighborhoods directed by Mayor Harrell's 2022 Transportation and Climate Justice Executive Order.

The funding change for this investment is captured in "Project Development Position Increase Budget" in this budget document, due to the requirement that positions are incorporated into the operating budget but the funding for this activity is included in the capital project budget.

Seattle Streetcar Operations Funding Transfer

Expenditures -

The 2024 Endorsed Budget included \$10.2 million of commercial parking tax (CPT) support for First Hill and South Lake Union streetcar service. These streetcars are owned by the City of Seattle and operated by King County Metro. CPT and other Transportation Fund revenues are in decline; and Sound Transit's \$5 million annual contribution to First Hill streetcar operations ends in 2023; therefore, the proposed budget replaces this funding with Seattle Transit Measure (STM) funding. Per Ordinance 126115, STM provides funding for Metro-operated transit service as well as transit access programs and transit capital improvements.

School Safety Traffic & Pedestrian Improvement Fund Operating Program Reductions

Expenditures \$(350,000)

The School Safety Traffic & Pedestrian Improvement (SSTPI) Fund saw actual 2022 revenue decline \$4.3 million and projected 2023-2027 revenue decline \$14.6 million as a result of reduced collections of School Zone Automated Camera Enforcement and slower projected growth. This funding supports school traffic and pedestrian safety infrastructure; pedestrian, bicyclist, and driver education campaigns; and the administration of automated camera enforcement in school zones. As a result of this revenue shortfall, delays and reductions to planned investments are necessary. This change reduces the following programs and projects: Road Safety Initiative \$(350,000). The Seattle Police Department (SPD) is responsible for reviewing and issuing camera-based infractions. SPD's capacity to issue infractions is limited by staffing, and continues to be a challenge as SPD is impacted from low staffing.

Proposed Capital

School Safety Traffic & Pedestrian Improvement Fund Capital Program Reductions

Expenditures \$(2,900,000)

The SSTPI Fund traditionally supports school traffic and pedestrian safety infrastructure; pedestrian, bicyclist, and driver education campaigns; and the administration of automated camera enforcement in school zones. The School Safety Traffic & Pedestrian Improvement (SSTPI) Fund saw an actual 2022 revenue decline of \$4.3 million and a projected 2023-2027 revenue decline of \$14.6 million as a result of reduced collections of School Zone Automated Camera Enforcement and slower projected growth. As a result of this revenue shortfall, changes to planned investments are required. These include reductions to the following programs and projects: ADA Curb Ramp Program (\$2.4 million) and BMP - Greenways (\$500,000). While reductions to ADA Curb Ramp Program will delay or defer some projects in these programs the City will continue to meet its obligations. Greenway reductions in this change will be offset by commensurate investments under the Vision Zero project. Please see the 2024-2029 Proposed CIP for more information on these projects.

Note: Some projects above have reduced 2025-2029 CIP Planning assumptions, please see the 2024-2029 Proposed

Seattle Department of Transportation

CIP for full project impacts. Additional capital project operating reductions in this mid-biennium update are included elsewhere in this document ("School Safety Traffic & Pedestrian Improvement Fund Operating Program Reductions").

Bridge Maintenance Reductions

Expenditures \$(1,938,254)

This change reduces spending in the Seattle Department of Transportation's (SDOT) bridge maintenance activities planned in 2024 and 2026 and realigns funding to 2027 and 2028. The Real Estate and Excise Tax (REET) revenue, a source of funding for bridge maintenance activities, saw lowered revenue projections beginning in 2024, requiring budget realignment to balance the REET I and REET II Funds. SDOT is reducing REET budget and planning assumptions in 2024 (\$2 million) and 2026 (\$1.8 million) in the 2024 Budget Update for the Bridge Painting and Structures Major Maintenance capital projects. These reductions will defer some maintenance work in these projects. Even with these reductions, SDOT will meet maintenance work planning without impacting service levels or any commitments the department has made as a result of any grant awards.

Grant Budget Increases

Expenditures \$7,942,500

Revenues \$7,942,500

This change adds budget authority to spend against four Federal Highway Administration grants that were accepted as part of the 2023 Year-End budget legislation: S. Spokane Street Viaduct bridge repair (\$2.5 million), Denny Way Paving (\$1.5 million), Beacon Ave Non-motorized Access Phase 3 project (\$1.1 million), and 130th Link Station Transit & Multimodal Access (\$2.8 million in 2023, total \$5.5 million 2023-2024). These budget increases will be included in the associated capital projects in the Structures Major Maintenance CIP (Spokane St. project), Arterial Asphalt/Concrete Phase 2 CIP, and BMP - Protected Bike Lanes CIP. Please see the 2024-2029 Proposed CIP for more information on these overarching projects.

Alaskan Way Main Corridor - Concrete Strike Delay Costs

Expenditures \$25,000,000

This item provides additional appropriation for the Alaskan Way Main Corridor capital project (MC-TR-C073) in the 2024 Multipurpose LTGO Bond Fund's Office of the Waterfront Budget Control Level (37200-BC-TR-16000). This item is necessary to complete construction of the Alaskan Way Main Corridor project, which has experienced significant impacts on project activities, schedule, work windows, and extended overhead costs due to the Teamster's concrete strike in late 2021 and early 2022. Adapting the project to the realities of the concrete strike required significant changes in the project delivery plan and has extended the project's schedule into late 2024. The potential risk of cost overruns has been planned for by the Office of the Waterfront and Civic Projects (OWCP) along with SDOT partners; and Commercial Parking Tax (CPT) funds have been reserved in anticipation of cost increase risks, like the concrete strike, and are available to fund debt service costs.

Project Development Position Increase Budget

Expenditures \$142,680

This item increases budget to support 1.5 FTE of permanent positions in the Seattle Department of Transportation's (SDOT) Home Zones program. The Home Zone Program also supports the Stay Healthy Streets program, Aurora Avenue safety projects, and the Safe Routes to School program. A Home Zone is a holistic and cost-effective approach to making residential streets more walkable within a neighborhood. Rooted in successful pedestrian-focused systems from around the world, the Home Zone Program provides an alternative to traditional sidewalks

Seattle Department of Transportation

and traffic calming measures. The heart of the program is its community-centered development process. These positions establish permanent staffing resources that were otherwise supported by temporary assignments, and are critical to implementing public outreach, project identification, project development, and design of traffic improvements that can include traffic circles, speed humps, and cost-effective walkways coupled with neighborhood activation and beautification. These positions will also support exploring the implementation of low-pollution neighborhoods directed by Mayor Harrell's 2022 Transportation and Climate Justice Executive Order. Budget is available in SDOT's base budget to continue this important work with permanent positions.

The position authority for this investment is captured in ("Project Development Position Increase") due to the requirement that positions are incorporated into the operating budget but the funding for this activity is included in the capital project budget.

Arts Coordinator Position Increase

Expenditures -

The Seattle Department of Transportation (SDOT) implements public art through various efforts, including developing right-of-way policies and design standards, implementing the SDOT art plan, developing plans and street concept designs, capital project design and delivery, coordinating the complete streets evaluation process for SDOT capital projects, creating public-facing graphics and project documentation, and delivering street furnishings such as benches, wayfinding, and lighting that help SDOT deliver on its goal to create a livable, accessible, and equitable mobility environment. This change transfers temporary budget ongoing to support the 1.0 FTE Public Arts Coordinator in the change item "Staffing Investments for Ongoing Commitments."

Transfer Funding for RapidRide J Project

Expenditures -

This one-time item transfers \$3.5 million of Seattle Transit Measure funds from the Seattle Transportation Benefit District - Transit Improvements project (MC-TR-C108) to the RapidRide J Line project (MC-TR-C013) in order to provide the local match required for the Federal Transportation Authority's \$65 million Small Starts Grant. For more information on the Rapid Ride J project, please see the 2024-2029 Proposed CIP.

Payment in Lieu of Tree Planting

Expenditures \$132,000

Revenues \$132,000

In 2023, the City Council passed Ordinance 126821, which regulates trees on private property and establishes a new payment in lieu (PIL) of tree planting program. This program allows developers to make payments to the City in lieu of planting replacement trees on private property. Revenues from these payments will be used by the Seattle Department of Transportation (SDOT) and the Seattle Parks and Recreation Department to plant replacement trees on public right-of-way. This item places SDOT's share of projected revenues from the first year of the PIL program into the Urban Forestry Capital Establishment project (MC-TR-C050).

Transportation Network Tax Reductions and Transfers

Expenditures -

This item is the companion to item "Sound Transit 3 Project Reduction" in this document. Taken together, these changes make a net-zero transfer of \$750,000 of General Fund from Seattle Department of Transportation to the Transportation Fund for debt service, reduce Waterfront Maintenance by \$250,000 in 2023, defer Seawall Maintenance by \$1,000,000 in 2023, and reduce the Sound Transit 3 project by \$250,000 in 2024. These net reductions are anticipated to have no immediate programmatic impacts. Maintenance budgets in Waterfront

Seattle Department of Transportation

Maintenance and Seawall Maintenance are not needed for any maintenance activities in 2023. Sound Transit 3 reductions are projected to be offset by 2023 salary savings. For any future project needs, all projects will be evaluated as revenues and budget allow.

This item reflects the net-zero transfer of \$750,000 of General Fund from Seattle Department of Transportation to the Transportation Fund for debt service. The source of funding to support debt service is Commercial Parking Tax.

Sound Transit 3 Project Reduction

Expenditures \$(250,000)

This item is the companion to "Transportation Network Tax Reductions and Transfers" in this document. Taken together, these changes make a net-zero transfer of \$750,000 of General Fund from Seattle Department of Transportation to the Transportation Fund for debt service, reduce Waterfront Maintenance by \$250,000 in 2023, defer Seawall Maintenance in 2023, and reduce the Sound Transit 3 project by \$250,000 in 2024. These net reductions are anticipated to have no immediate programmatic impacts. Maintenance budgets in Waterfront Maintenance and Seawall Maintenance are not needed for any maintenance activities in 2023. Sound Transit 3 reductions are projected to be offset by 2023 salary savings. For any future project needs, all projects will be evaluated as revenues and budget allow.

This change reflects the Sound Transit 3 project reduction portion of this action. The source of funding for this reduction is Real Estate Excise Tax II.

This is a companion change as part of the Year End Supplemental budget legislation that also transfers \$750,000 of Real Estate Excise Tax (REET), Transportation Network (TNC) Tax, and Commercial Parking Tax (CPT) between projects in 2023 and 2024, including Structures Major Maintenance and Debt Service. The impact to these projects is net-zero. Debt Service will be supported with CPT in the Transportation Fund, and Structures Major Maintenance will be supported with REET.

Ongoing CIP Corrections and 2029 Spending Estimates

Expenditures \$(299,791)

Revenues -

This item adds spending estimates to the last year of the 2024-2029 Proposed CIP for ongoing capital projects and revises current year and future year planning assumptions in the previous CIP that were made in error.

Proposed Technical

Debt Service Adjustment

Expenditures \$(64,311)

This is a technical change that aligns the Seattle Department of Transportation's (SDOT) anticipated debt service payments with the necessary budget authority to make those payments. SDOT is obligated to pay debt service payments for past project bond issuances, and needs budget to pay for upcoming debt service for new bond issuances. Debt service schedules can adjust slightly based on payment history, refunding activities, and corrections. This change ensures SDOT will pay the most up-to-date debt service schedules anticipated for 2024 payments and beyond.

Debt Service Reduction

Expenditures \$(51,746)

Seattle Department of Transportation

This item is necessary to align the budget with the debt service schedule (2023 bond issuances are now complete, and actual interest payments due in 2023 are lower than originally estimated).

Fund Balancing Entries

Revenues	\$44,681,420
----------	--------------

This technical change captures estimates of the contribution or use of fund balance for Seattle Department of Transportation managed funds.

SLU Streetcar Operations Technical Adjustment

Expenditures	-
Revenues	-

This budget-neutral technical adjustment incorporates a small shift from the services budget to the staffing budget to align the budget with current staffing costs. It also includes a larger shift to account for higher King County Metro service costs.

First Hill Streetcar Operations Technical Adjustment

Expenditures	-
Revenues	-

This budget-neutral technical adjustment incorporates a small shift from the services budget to the staffing budget to align the budget with current staffing costs. It also includes a larger shift to account for higher King County Metro service costs.

Street Use Technical Adjustment

Expenditures	\$832,833
Revenues	\$12,752,158

This technical adjustment aligns the budget with anticipated expenditures in SDOT's Street Use program, which is funded by permit issuance fees, hourly service fees, use and occupation fees, and modification fees.

Ongoing Changes from Current Year Legislation

Expenditures	\$100,000
Position Allocation	57.00

This change trues up the 2023-2024 Proposed Mid-Biennial Budget Adjustment to include current year changes implemented by budget legislation in 2023.

Reconcile Central Cost Budget with the 2024 Endorsed Budget

Expenditures	-
--------------	---

Per the request of "2024 Baseline Budget and General Policies", this change request is to reconcile the City's Central Cost Manual accounts in the 2024 baseline with the 2024 endorsed amount. The associated adjustments on recovery projects are also included. The total budget impact of this change request is net zero.

Seattle Department of Transportation

Annual Capital Budget True-up

Expenditures	\$83,159,798
Revenues	\$50,005,934

This change is an annual true-up between SDOT's 2024-2029 capital spending plan and the 2024-2029 Proposed CIP. The intent of this action is to better align actual spending expectations with the budget every year. This change includes a companion appropriation change as part of the 2023 Year-End Supplemental Budget Legislation that abandons appropriations in the 2023 budget in order to reallocate them to future years when the budget is anticipated to be needed.

Capital Project Technical Adjustments

Expenditures	-
--------------	---

This item adjusts budget accounting fields and cleans up small budget variances to improve administrative tracking and transparency around project funding sources. There is no net budget impact from this item.

SDOT O&M Technical Adjustment

Expenditures	\$(2,047,275)
--------------	---------------

This item updates the Seattle Department of Transportation's (SDOT) budget to support various cost changes and budget transfers related to contract inflation, workgroup reorganizations, and central cost adjustments that align with citywide cost changes that SDOT is required to pay.

Reimbursable Technical Adjustment

Expenditures	\$(2,283,728)
Revenues	\$(1,176,261)

This technical change adjusts revenues and makes budget changes associated with work that is fully reimbursed by grants, partnerships, and other city departments.

2024-2029 Future Year Adjustments

Expenditures	\$26,614,068
Revenues	\$32,959,140

This technical change reconciles 2023 budget adjustments with the 2023-2024 Proposed Mid-Biennial Budget Adjustments that affect the 2024-2029 years of the Capital Improvement Project Program.

Waterfront Bond Timing Adjustments

Expenditures	\$3,713,000
--------------	-------------

This item adjusts the timing of bond issuances for the OWCP in the 2023 Multipurpose LTGO Bond Fund Office of the Waterfront Budget Control Level (13000-BC-TR-16000). This adjustment will move a total of \$3,713,000 in bond appropriation authority from 2023 to 2024 in two capital projects: Alaskan Way Main Corridor (MC-TR-C072) will move \$712,999 from 2023 to 2024 bond issuance, and Overlook Walk/East West Connections (MC-TR-C073) will move \$3,000,000 from 2023 to 2024 bond issuance. This adjustment will help "right size" the bond issuance to better align with projected spending, resulting in interest expense savings. These funds will be appropriated through the 2024 budget.

Seattle Department of Transportation

August Forecast Central Revenue Update

Revenues \$(18,077,686)

This item updates budgeted revenues for centrally forecasted transportation revenue streams to match the August Forecast Update. Included in this change is a reduction in projected revenues for Licensing and permitting, Fees, plan review, and inspection (-\$20.6 million), reduction to automated traffic camera enforcement revenues (-\$2.5 million), offset by increases to projections for Vehicle License Fees, Commercial Parking Tax, and Move Seattle Levy property taxes (\$5 million).

August Forecast SDOT Revenue Update

Revenues \$(722,265)

This item updates budgeted revenues for SDOT-forecasted revenue streams to match the August Forecast Update.

Reduce Transportation Network Tax

Expenditures \$(350,744)

This change reduces unnecessary budget previously allocated to the Transportation Equity Workgroup. This work has been fully funded through Seattle Department of Transportation's (SDOT) administrative overhead program and no longer requires this budget. This change will allow SDOT to allocate this Transportation Network Tax to debt service.

Seattle Department of Transportation

-------------	--	------------	-----------	-------------

The Office of the Waterfront and Civic Projects

Angela Brady, PE, Acting Director

206-684-3115

waterfrontseattle.org

The Office of the Waterfront and Civic Projects is responsible for coordinating the City's waterfront improvement efforts, including project management, design, construction, and financial management. The Office of the Waterfront and Civic Projects is charged with administering the overall program and ensuring that it is managed efficiently and delivers on the adopted Capital Improvement Program for the Central Waterfront.

The projects that make up the Central Waterfront program are included in SDOT's budget and in the budgets of two other City departments (Seattle Parks and Recreation and Finance and Administrative Services). Although there are multiple funding sources and multiple projects within the waterfront improvement program, the program itself includes all the projects listed below.

Seattle Department of Transportation

- Alaskan Way Main Corridor project (MC-TR-C072)
- Overlook Walk and East/West Connections (MC-TR-C073)
- Waterfront Transportation Infrastructure Maintenance (MC-TR-C109)

Seattle Parks and Recreation

- Parks Central Waterfront Piers Rehabilitation (MC-PR-21007)
- Aquarium Expansion (MC-PR-21006)

Department of Finance and Administrative Services

- Pike Place Market PC-1 North Waterfront Entrance project (complete)
- Waterfront Operations and Tribal Interpretive Center (MC-FA-OWMAINT)
- Local Improvement District Administration

In addition, there are funds budgeted in CIP projects for Seattle Public Utilities (SPU) and Seattle City Light (SCL) for utility relocations related to the Central Waterfront program. The Office of the Waterfront and Civic Projects is leading construction activities for these relocations, which in SDOT's budget are combined in a reimbursable project (MO-TR-R043). The Office of Arts and Culture also has funding from the Waterfront program's 1% for Arts contribution.

The Office of the Waterfront and Civic Projects manages two funds that support the administration of the funding related to the projects listed above: the Central Waterfront Improvement Fund, and the Waterfront LID #6751 fund. The Central Waterfront Improvement Fund is a single fund from which multiple departments draw funding resources. The fund tracks the interfund loan and philanthropic funds as well as other revenues. The fund supports certain costs associated with the design and construction of the waterfront improvement program and related costs for City administration, including the Office of the Waterfront and Civic Projects. Appropriations made by the Central Waterfront Improvement Fund are for these purposes. In 2019, the City Council legislated the Waterfront Local

Improvement District (LID) Fund which holds LID assessment payments and LID bonds and pays for expenditures related to the Waterfront Local Improvement District (#6751). The pre-payment, and LID bond issuance occurred in 2021. For more information on LID and project status, visit the [Waterfront Seattle](#) website.

Changes in the 2023-2024 Proposed Mid-Biennial Budget Adjustments and 2024-2029 Capital Improvement Program

The 2023-2024 Proposed Mid-Biennial Budget Adjustments includes several changes including extension of the \$20.3 million interfund loan, funding for servicing a \$25 million bond that will cover costs associated with Concrete Strike Delay on the Alaskan Way Main Corridor project, and a transfer of \$3,713,000 in bond appropriation authority from 2023 to 2024 in two capital projects: Alaskan Way Main Corridor (MC-TR-C072) and Overlook Walk/East West Connections (MC-TR-C073). The Interfund loan extension reflects philanthropic contribution forecasts that remain at the same levels but have been adjusted to reflect changes in collection dates that go into 2025. Regarding Alaskan Way Main Corridor cost escalation, the City is engaging with the State through the legislative process to request their participation in funding costs related to WSDOT scope items. Please see Seattle Department of Transportation section for more budget detail.

Office of Sustainability and Environment

Jessyn Farrell, Director

(206) 615-0817

www.seattle.gov/environment

Department Overview

The Office of Sustainability & Environment (OSE) develops and implements citywide environmental policies and programs that propel Seattle toward a sustainable, equitable, and climate pollution-free future. OSE collaborates with a wide range of stakeholders to develop policies and programs that advance healthy communities and facilitate a just transition from fossil fuels, while prioritizing people and communities most affected by economic, racial, and environmental injustices. OSE’s work focuses on the following areas:

Climate and Environmental Justice: OSE develops policies and conducts research on reducing and addressing the impacts of climate pollution. This includes goal assessment, action planning, community outreach, and performance measurement. OSE coordinates implementation of the Seattle Green New Deal, the One Seattle Climate Justice Agenda, and the Equity and Environment Initiative and plans and implements policies that transition buildings to 100% clean energy and advance zero carbon transportation.

Healthy & Resilient Communities: OSE works with key stakeholders to support sustainable communities. The office administers the Fresh Bucks and Healthy Food in Schools programs to provide equitable access to healthy, affordable, culturally relevant food. OSE also fosters leadership and interdepartmental coordination within the City of Seattle to help maintain, preserve, and restore Seattle’s urban forest.

Citywide Coordination: OSE coordinates interdepartmental efforts to advance a healthy, equitable, and sustainable environment. These efforts include the Duwamish Valley Program, as well as interdepartmental planning around the Green New Deal, urban forestry, and energy efficiency. OSE is responsible for coordinating four prominent Boards and Commissions: the Urban Forestry Commission, the Sweetened Beverage Tax Community Advisory Board, the Environmental Justice Committee, and the Green New Deal Oversight Board.

Description of Incremental Budget Changes

Baseline

Technical Corrections to Assign Program Budgets

Expenditures \$(1,981)

This item makes technical corrections in order to align program budgets within OSE.

Baseline Adjustments

Expenditures \$(595,357)

This item adjust baseline appropriations to remove budget authority related to the Oil Home Heating Tax which was repealed by Council in 2023.

2024 Endorsed Position Adds

Position Allocation 3.00

Office of Sustainability and Environment

This item formally adds position authority for three positions added to OSE in the 2024 Endorsed Budget. Green New Deal PET funding is currently in the OSE base budget to support these positions. These positions will work on green buildings policy and implement changes associated with the planned Building Emissions Performance Standards program under development. These positions will add engineering expertise and staff a help desk to support building owners navigate the new Emissions Performance Standards for Seattle buildings.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$200,036
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

General Fund Reduction for the Environmental Justice Fund

Expenditures	\$(250,000)
--------------	-------------

This item reduces General Fund appropriations for OSE by \$250,000 in the Environmental Justice Fund. The Environmental Justice Fund currently receives \$1,750,000 in Green New Deal Payroll Expense Tax funding for grants, staffing, and administration. Expansions in recent budget years have grown the program from an initial budget of \$250,000. OSE will maintain existing program capacity using Green New Deal Payroll Expense Tax funding.

Position Add for Fresh Bucks Customer Service

Position Allocation	1.00
---------------------	------

This item adds position authority to OSE for an Administrative Specialist II to help address customer service needs for the Fresh Bucks program. The program has grown to cover over 12,000 households, many of whom do not use English as their primary language, and has transitioned to use of an electronic benefit. These changes require specialized customer support which is beyond the capacity of the City's Customer Service Bureau. This position will be funded using existing General Fund dollars within the OSE base.

Position Add for Clean Heat Program

Position Allocation	1.00
---------------------	------

The City's 2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$20 million is allocated to investments in the Green New Deal. This item adds position authority to OSE for a Planning & Development Specialist, Senior, which will sunset in July 2026. This position will support implementation of the Clean Heat Program, integrate City-funded rebates with new federal funding opportunities, and will lead development of a streamlined pilot program. As certain federal funding sources and many oil-to-electric home heating conversions will have been completed by 2026, this body of work is anticipated to be time-limited. No new funding is required for this position.

Position Adds for Climate Justice

Expenditures	-
Position Allocation	2.00

Office of Sustainability and Environment

The City's 2024 Proposed Mid-Biennial Budget Updates appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$20 million is allocated to investments in the Green New Deal. This item adds position authority for 2.0 Planning and Development Specialists and re-programs \$21,000 in existing payroll tax funding to allow OSE to hire an Administrative Staff Assistant into an ongoing pocket. The changes proposed allow the Climate Justice Program to increase administrative and staff capacity for climate justice programming, which has grown from \$250,000 to \$2 million since 2020. The two new Planning and Development Specialists I positions will support grantees, develop and track contracts, and provide technical support and assistance for grant reporting and program evaluation. These staffing additions require no new funding and will utilize existing payroll tax funding.

Proposed Technical

August Revenue Forecast

Revenues	\$(31,000)
----------	------------

This item adjusts OSE's departmental revenue appropriations for 2024 based on the August 2024 revenue forecast.

Office of Sustainability and Environment

Office of the City Auditor

David G. Jones, City Auditor

(206) 233-3801

<http://www.seattle.gov/audit/>

Department Overview

The Office of City Auditor was established by City Charter and serves as Seattle's independent performance audit function. The City Auditor is appointed by the City Council to a four-year term of office. The Office seeks to promote honest, efficient management and full accountability throughout City government. It serves the public interest by providing the City Council, the Mayor, and City employees with accurate information, unbiased analyses, and objective recommendations on how best to use public resources. The Office conducts audits of City departments, programs, grantees and contracts, as well as some non-audit projects. Most of the office's work is performed in response to specific concerns or requests from City Councilmembers, but the City Auditor also independently initiates work to fulfill the office's mission. If resources are available, the City Auditor responds to requests from the Mayor, City departments, and the public.

<http://www.seattle.gov/budgetoffice/>

Department Overview

The City Budget Office (CBO) is responsible for developing and monitoring the City's annual budget, carrying out budget-related functions, overseeing fiscal policy and financial planning activities, policy analysis, and preparing legislation for City Council review. CBO provides strategic analysis relating to the use of revenues, debt, long-term issues, and special events. The office also provides technical assistance, training, and support to City departments in performing financial functions. The Innovation and Performance team is also in CBO, supporting and advancing initiatives by using data, evaluation, and design to solve problems.

Total 2024 Proposed Budget	\$10,023,143	47.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$122,442

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Payroll Expense Tax Evaluation Staff and Capacity

Expenditures \$1,013,647

Position Allocation 2.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$7 million is allocated to the administration and evaluation of the Payroll Expense Tax. This ongoing item adds \$1,013,647 of payroll tax in the General Fund to the Innovation and Performance (IP) team within the City Budget Office for: two evaluation advisors (\$354,647), two-year evaluation consulting services (\$500,000 per year), evaluation design and reporting services (\$60,000), and community outreach (\$40,000) needed to conduct evaluation and reporting on the effectiveness of Payroll Expense Tax programs. With this change, the payroll tax administration budget funds two evaluation advisors for approximately \$200 million in payroll tax funded programs.

City Budget Office

These additional consultant evaluation resources are critical to evaluate the impact of the payroll tax on jobs and the local economy per the Seattle Municipal Code. The funding also supports two staff evaluators and outreach and reporting services, initially proposed in the last budget cycle, to assess the effectiveness of the new programs and ensure that the tax proceeds are allocated to areas that are delivering positive impact to our communities.

This item also provides \$59,000 to increase administrative staffing capacity to fully-fund an existing part-time-funded position in IP. The additional capacity is needed due to the increase in IP staffing related to administration and evaluation of the Payroll Expense Tax.

<http://www.seattle.gov/civil-service-commission>
<http://www.seattle.gov/public-safety-civil-service-commission>
<http://www.seattle.gov/civil-service-commission>

Department Overview

The **Civil Service Commission (CSC)** is the small department that houses two City Charter-mandated commissions, the Seattle Civil Service Commission (CSC) and the Seattle Public Safety Civil Service Commission (PSCSC). The Seattle Municipal Code and Washington law charge both commissions with providing fair and impartial appeal hearings on serious disciplinary decisions and other civil service issues. The CSC conducts appeal hearings of alleged violations of the City's personnel rules, disciplinary actions, and alleged violations of the Personnel Ordinance. The PSCSC oversees and directs a civil service system for sworn personnel of the Seattle Police Department (SPD) and uniformed personnel of the Seattle Fire Department (SFD). The PSCSC also conducts quasi-judicial appeals related to serious disciplinary decisions, examination and testing, and related issues.

Office of Economic and Revenue Forecasts

Ben Noble, Director

(206) 300-6933

<http://www.seattle.gov/economic-and-revenue-forecasts>

Department Overview

In July 2021 via Council Bill 120124, the City Council created the Office of Economic and Revenue Forecasts. The office's responsibilities, as stated in the legislation, are to staff the Economic and Revenue Forecast Council, perform economic and revenue forecasts, conduct special studies at the request of the Forecast Council and provide ad hoc analytical support on economic and revenue estimation for legislative and executive staff consistent with the work program. Such analyses are to be nonpartisan and confidential to the extent allowed by law.

The legislation also established the Economic and Revenue Forecast Council which shall receive and review the general forecasts of local economic activity and the specific forecasts of the revenues that support the City's general government programs and services. The forecasts approved by the Forecast Council by the Director of the Office of Economic and Revenue Forecasts are the official city economic and revenue forecasts and shall serve as the basis for the estimates of revenues used for the Proposed and Adopted budgets as described in RCW 35.32A.030 and 35.32A.040, provided that the Mayor or Council shall have the authority to deviate from the official forecasts as provided in Section 3.44.010. The Forecast Council shall be composed of the Mayor or designee, the Director of Finance, the Council President or designee, and the Chair of the City Council Finance Committee or designee. If the Council President and the Chair of the Council Finance Committee are the same individual, the position held by the Chair of the Council Finance Committee shall be determined by the Council President. The Forecast Council shall select one member to serve as Chair of the Forecast Council annually.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$8,950

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Data Subscription Renewal

Expenditures \$125,100

The City's 2024 Proposed Mid-Biennial Budget appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$7 million is allocated to the evaluation and administration of the Payroll Expense Tax. This appropriation increase is to renew a data subscription administered by the Office of Economic and Revenue Forecasts and used directly in forecasting the Payroll Expense Tax and to support the modeling and forecasting of other significant revenue streams. The initial subscription was entered into to test the value of these data, and they have proven very useful in the forecasting process. This payroll tax increase provides resources to secure a lower 2-year total renewal cost relative to consecutive single-year renewals.

Office of the Employee Ombud

Amarah Khan, Director

(206) 256-5982

<https://www.seattle.gov/ombud><https://www.seattle.gov/ombud><https://www.seattle.gov/ombud>

Department Overview

In 2018 Executive Order 2018-04 created the **Office of Employee Ombud (OEO)** following the recommendations issued by the Anti-Harassment Inter-departmental Team on improving the City's workplace culture. The OEO's mission is to support City employees in all branches of City government in assessing their concerns regarding workplace conduct that may be considered inappropriate; may constitute harassment, discrimination, or retaliation; and/or is in conflict with the City's Personnel Rules, Citywide workplace expectations, and other City policies.

The OEO provides assistance to City employees through a variety of means including conflict management and resolution; clarifying the City's processes and systems for reporting and investigations; facilitating discussions to break down miscommunication; providing the contact for represented employees' unions; and understanding what remedies are available through State or Federal agencies. The OEO also supports employees with referrals to the City's contracted Employees Assistance Program (EAP) for appropriate emotional assistance.

The OEO offers trainings and capacity building to City departments so that practices and behaviors that cause conflict among us can be addressed in a proactive manner. The OEO submits an annual report to the Mayor's Office and City Council that addresses issues extending beyond the experiences of individual employees. The report includes recommendations to clarify the City's Personnel Rules, complaint and investigations systems or trainings, and share information on patterns of inappropriate workplace conduct at the City.

Employees' Retirement System

Jeff Davis, Executive Director

(206) 386-1293

<http://www.seattle.gov/retirement>/<http://www.seattle.gov/retirement>/<http://www.seattle.gov/retirement>/

Department Overview

The Seattle City Employees' Retirement System has two major functions: administration of retirement benefits and management of the assets of the Retirement Fund. Employee and employer contributions, as well as investment earnings, provide funding for the system. Approximately 9,000 active employee members, 3,300 terminated employee members and 7,300 retired employee members participate in the plan.

The provisions of the plan are set forth in [Chapter 4.36](#) of the Seattle Municipal Code. The plan is a "defined benefit plan" which means an employee's salary, years of service, and age at the time of retirement are used to determine the amount of retirement benefits. At retirement, members are given a choice of several payment options to collect their retirement benefit. The Retirement System is led by a seven-member Board of Administration and an Executive Director appointed by the Board.

Please note that the appropriations detailed in the following tables reflect only the costs to administer the system and do not reflect payment of retirement benefits or investment management fees.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$(7,037)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Technical

Adjust 2024 Baseline to SCERS Board Approved Budget

Expenditures \$(19,504)

This item brings the baseline budget into agreement with the 2023 budget approved by the SCERS board.

Salary Adjustment for Reclassifications & Alignment

Expenditures \$200,263

Revenues \$173,722

During 2023, several member service positions are in the process of being reclassified by SDHR (5 titles/11 positions) and certain other positions' wages were aligned with the results of a salary study (9 positions). The result is an increase in salaries and associated costs, which began in 2023. This item adds appropriation to SCERS' budget to cover these costs.

Ethics and Elections Commission

Wayne Barnett, Executive Director

(206) 684-8500

<http://www.seattle.gov/ethics>/<http://www.seattle.gov/ethics>/<http://www.seattle.gov/ethics>/

Department Overview

The Seattle Ethics and Elections Commission (SEEC) helps foster public confidence in the integrity of Seattle city government by providing education, training, and enforcement of the City's Ethics Code, Whistleblower Code, and lobbying regulations. It also promotes informed elections through education, training, and enforcement of the City's Elections Code and Election Pamphlet Code. With the passage of [Initiative 122](#) in November 2015, the Commission now administers and funds the Democracy Voucher Program.

The Commission's work on behalf of the City of Seattle centers around five main lines of business:

Ethics Code: The Commission conducts ethics training for all City of Seattle employees upon request and through the City's New Employee and New Supervisor Orientation programs. It also provides ethics training information for City employees via the City's intranet site. The Commission issues advisory opinions regarding interpretations of the Code of Ethics and also investigates and rules upon alleged violations of the Code. More than thirty years of formal advisory opinions, organized and searchable by topic, are available on the Commission's website.

Whistleblower Code: The Commission helps to protect an employee's right to report improper governmental action and to be free from retaliation as a result of such reporting. The Commission either investigates allegations of improper governmental actions itself or refers allegations to the appropriate agency.

Elections Code and Election Pamphlets Code: The Commission fulfills the public's mandate of full campaign disclosure by:

- training organizations required to report campaign contributions and expenditures in proper reporting procedures;
- auditing campaign reports;
- working with organizations to correct errors; and
- making all campaign finance information available to the public.

Since 1993, the Commission has made summary reports of campaign financing information available to the public, and since 1995, the Commission has published campaign financing information on its website. The Commission also produces voters' pamphlets for City elections and ballot measures. It makes these pamphlets available in several languages and produces a video voters' guide with King County.

Lobbying Regulations: The Commission is charged with administering the City's lobbying regulations. The Commission collects and posts information so that residents know who is lobbying and how much they are being paid to lobby. The Commission also enforces compliance with the lobbying regulations.

Democracy Voucher Program: The Commission administers the Democracy Voucher Program which was approved with the passage of I-122 in November 2015. The primary goal of the program is to provide \$100 in vouchers to eligible Seattle residents so that they can contribute to candidates for City office who qualify to participate in the program.

Department of Finance and Administrative Services

Kiersten Grove, Acting Department Director

(206) 386-0041

<https://www.seattle.gov/finance-and-administrative-services>
<https://www.seattle.gov/finance-and-administrative-services>
<https://www.seattle.gov/finance-and-administrative-services>

Department Overview

The Department of Finance and Administrative Services (FAS) is often the public's first interaction with the City of Seattle, operating as a customer-focused front door that assists with everything from starting a business or paying utilities, to reporting a pothole, requesting public information, or even adopting a new pet. The department's 600-plus employees span across 16 divisions and work behind-the-scenes providing critical functions, like processing payments to 13,000 City employees, managing 120 City facilities—including police and fire stations—and overseeing the City's women- and minority-owned business (WMBE) Program.

Broadly, FAS' work can be split into four categories.

Customer Services - FAS oversees the City's Customer Service Bureau, the Downtown Customer Service Center and the six neighborhood customer service centers located throughout the city. FAS also oversees the City's Title II ADA Program and the Seattle Animal Shelter.

Regulatory Services - FAS ensures that all businesses operating in Seattle are properly licensed and pay the required business and occupation taxes. FAS also oversees Purchasing and Contracting, including the WMBE Program and the Priority Hire Program.

Financial Services - FAS provides Citywide financial direction and cohesive policies to City departments. The autonomous Office of City Finance sits within FAS and consists of five divisions overseeing everything from licensing and tax administration, risk management, the City's debt management, bond issuances, business systems and Citywide payroll.

Operational Services - FAS designs, builds and maintains many City-owned buildings, including Seattle City Hall, the Seattle Municipal Tower, the Justice Center, the Joint Training Facility, 33 neighborhood fire stations and five police stations. FAS also maintains the City's 4,000-vehicle fleet, which includes police patrol cars, fire engines and heavy equipment. Finally, FAS provides Citywide real estate, warehousing and mail distribution services and provides logistical support in the event of an emergency.

Internal service operations in FAS are primarily supported through charges to other City departments and, in some cases such as when the City leases space, by private businesses or individuals. The General Fund supports certain FAS services, including administration of the City's taxes and business licensing services.

In addition to the central FAS services mentioned above there are several budgetary units across the City for which FAS is not directly responsible for staffing or service provision but are housed within the FAS budget. Those units are: Judgment and Claims; Jail Services; Indigent Defense Services; Transit Benefits.

Description of Incremental Budget Changes

Baseline

FAS Project Structure Change

Expenditures	-
Revenues	-

This item maps over the 2024 Endorsed Budget from the current project structure to the proposed new project structure. This change impacts multiple funds, programs, projects, and Budget Summary Levels (BSLs) for the Finance and Administrative Services Department. Additional information is available in the FAS Budget Summary Level section in the budget book appendix.

Labor Inflation

Expenditures	\$4,684,811
Position Allocation	-

This baseline adjustment adds appropriation for compounding labor inflation for 2024. This item impacts several Budget Control Levels (BSLs) across several programs in the Department of Finance and Administrative Services (FAS).

Non-Labor Inflation

Expenditures	\$1,234,393
--------------	-------------

This baseline adjustment adds one-time appropriation to reflect non-labor central costs in the 2024 Endorsed that were not captured during the 2023-24 rate process. This item impacts various Budget Summary Levels (BSLs), categories, accounts and programs.

Cost Increases in Specific Programs

Department of Finance and Administrative Services

Expenditures	\$4,780,326
Revenues	\$(4,131,950)

This baseline adjustment increases appropriation to reflect updated costs in specific program areas and impacts various Budget Summary Levels (BSLs), categories, accounts, and programs. This adjustment is primarily driven by fuel price increases, contract inflation, and increases in outside leasing costs.

Debt Service

Expenditures	\$(3,929,716)
--------------	---------------

This baseline adjustment decreases appropriation to align to the updated debt service schedule on approved capital projects. This item is primarily driven by timing changes to the Human Capital Management system project.

Limited-term Employee Safety Program Compliance

Expenditures	\$186,290
Revenues	\$186,290

This baseline adjustment increases appropriation of existing fund balance to fund one (1.0 FTE) Safety & Health Specialist, Sr, TLT in the Human Resources Division.

Fleet Capital Replacement Costs

Expenditures	\$18,251,138
--------------	--------------

This item increases appropriation in the Fleet Capital Fund for planned fleet capital replacement costs.

Eliminate Capital Operating and Maintenance

Expenditures	\$(1,906,218)
--------------	---------------

This item is a technical change to correct an error in the 2024 Endorsed Budget. This removes the Operating and Maintenance Budget for Capital Development in the FAS Operating Fund.

Technical Adjustment

Expenditures	-
Position Allocation	-

This item is a net neutral adjustment that makes several technical corrections and impacts multiple Finance and Administrative Service BSLs, programs, and projects. This item corrects fund codes, aligns revenue accounts, and makes adjustments to align to the new project structure.

Rate Revenue Update

Revenues	\$6,725,322
----------	-------------

This item adjusts rate revenue due to baseline changes in several Finance and Administrative Services BSLs (BO-FA-0001 Citywide Operational Services, BO-FA-0002 Citywide Admin Services, BO-FA-0003 Office of City Finance, BO-FA-0004 Other FAS Services, BO-FA-0005 Public Services, BO-FA-0006 Leadership & Administration, BO-FA-FLETCAP Fleet Capital Program) to reflect citywide allocation changes.

Revenue Baseline and Account Alignment

Department of Finance and Administrative Services

Revenues \$728,225

This item makes a baseline adjustment to correct baseline and revenue accounts used across multiple programs and BSLs and to correctly match central allocations. This item shifts revenue appropriation from Finance and Administrative Services (BO-FA-0006) Leadership and Administration and (BO-FA-0002) Citywide Admin Services BSLs into the (BO-FA-0001) Citywide Operational Services and (BO-FA-0003) Office of City Finance BSLs. This shift reflects an increase to passport processing revenue, an adjustment to treasury operations revenue, and makes correcting entries needed due to changes within accounts and realignment of revenues.

Removal of One-Time Appropriations

Expenditures -
Revenues \$(1,619,669)

This technical adjustment impacts various categories, accounts and programs in the following Finance and Administrative Services BSLs, (BO-FA-0001) Citywide Operational Services, (BO-FA-0002) Citywide Admin Services, (BO-FA-0003) Office of City Finance, (BO-FA-0005) Public Services and (BO-FA-0006) Leadership & Administration. This item reverses one-time appropriations from the 2024 Endorsed Budget.

Citywide Adjustments for Standard Cost Changes

Expenditures \$5,140,980
Revenues \$(1,818)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department.

Proposed Operating

Fleet Mechanics

Expenditures \$589,947
Revenues -
Position Allocation -

This item adds budget for six existing mechanic positions and the reclassification of one of those positions from Auto Mechanic to Auto Mechanic - Specialist to support the Fire Garage. This item provides additional resources toward meeting preventative maintenance requirements and inspection timelines. All new expenditures will be funded through Fleet's maintenance rates.

Fleet Management Operations

Expenditures \$(32,000)
Revenues \$(32,000)

This item shifts ongoing operating budget from Finance and Administrative Service's motor pool program to fund an increase to the Commercial Driver Licensing Training budget and an increase for Fleet Management's use of the Capital Asset Management software. This results in a net decrease in the Finance and Administrative Services Fund Citywide Operational Services Budget Control Level.

Payroll Expense Tax Audit Positions

Department of Finance and Administrative Services

Expenditures \$293,106

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$7 million is allocated to the evaluation and administration of the Payroll Expense Tax.

This item adds funding for two new tax auditor positions. Over the past six years, the City has added five new taxes without adding tax auditors, leading to a larger scope of audit work with less audit resources. This item will fund two existing positions to support audit compliance with the new Payroll Expense Tax. For each auditor position added, the Office of City Finance estimates that the City will collect an additional \$500,000 in tax revenues.

Seattle Animal Shelter Foster Care Coordinator

Position Allocation 1.00

This item creates a sunsetting Foster Care Coordinator position. The position will be funded by the Seattle Animal Shelter Donation Fund and will sunset on December 31, 2025. The position will be responsible for all aspects of the shelter's foster care program including meeting potential adopters, training, and onboarding new foster care providers, scheduling veterinary exams and surgeries, coordinating medication pick-up and performing all other duties needed to run the shelter's foster care program.

Since 2018, the number of foster care providers has more than doubled to over 300 today. Foster care providers are a vital part of the volunteer network that enables the Seattle Animal Shelter to provide compassionate care for all animals that need services. Until recently, the foster care program has been run by volunteers who typically have day jobs and don't have full access to shelter systems. Currently, there is a temporary position for this role funded by the Seattle Animal Shelter Foundation through mid-2024.

Seattle Animal Shelter Behaviorist

Position Allocation 1.00

This item creates a sunsetting Seattle Animal Shelter Behaviorist position. The position will be funded by the Seattle Animal Shelter Donation Fund and will sunset on December 31, 2025. The behaviorist is responsible for behavioral management, training, and enrichment for animals housed at the shelter and will support staff and volunteer safety training.

Many shelter animals need behavioral management and support. The behaviorist is the first contact for animals entering the shelter. The training and enrichment they provide for animals and their foster care providers leads to better adoptability and live release outcomes, as well as improved staff and volunteer safety.

Social Housing Public Development Authority Start-up Costs

Expenditures \$850,500

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$11 million is allocated to special exceptions to the spending categories for 2023 and 2024.

This item adds Payroll Expense Tax funding for start-up costs related to the Social Housing Public Development Authority created by the passage of the City of Seattle Initiative Measure No. 135. Start-up funding will be used for office space, staffing, supplies, insurance and bonding, legal services per the language of the initiative. In 2023, the PDA is also funded with a \$180,000 grant from the Washington state Department of Commerce and \$20,000 General Fund appropriated in the Seattle City Council's budget.

Department of Finance and Administrative Services

Service Licensing and Information Management (SLIM) System Assessment

Expenditures	\$100,000
Revenues	\$100,000

This item adds funding for a Service Licensing and Information Management (SLIM) System assessment. This funding supports identifying the requirements necessary to migrate 18 regulatory business license workflows from the aging SLIM system into a new long-term solution. This funding backed by the revenue generated by the regulated industries.

For-Hire Accela Modifications

Expenditures	\$600,000
Revenues	-

This item increases budget to support updates and modifications to the Accela system that will be required if the for-hire legislation passes this fall. Seattle IT estimates the modification is expected to cost \$600,000 and take six months to complete. This cost is backed by the projected fee revenue of \$300,000 in 2023 and \$300,000 in 2024.

Short-Term Rental Program Enforcement Support

Expenditures	\$180,023
Revenues	\$203,505
Position Allocation	-

This item adds funding to refund a previously held vacant Licensing Standards Inspector (LSI) position and to reclass an existing LSI position to an LSI Supervisor position to provide increased support for the Short-Term Rental regulatory program workload. The additional resources are needed to increase licensure compliance rates and enforce STR operator compliance to City regulatory and zoning codes. This ongoing increase is supported by the program's regulatory fee revenue.

For-Hire Program Technology Support

Expenditures	\$75,000
Revenues	\$75,000

This item adds funding for increased contract costs for the American Association of Motor Vehicle Administrators (AAMVA) and their technology solution currently used to verify the identity and license status of over 30,000 for-hire drivers in the City of Seattle. This ongoing increase is supported by the program's regulatory fee revenue.

Wheelchair Accessible Fund Appropriation Increase

Expenditures	\$1,400,000
Revenues	\$1,400,000

This item increases appropriation authority for the Wheelchair Accessible Fund (WAS) to support the implementation of Seattle and King County Mobilization of Accessible Rides with Taxis and TNCs (SMART), a dispatch program for wheelchair accessible vehicles that aims to improve access to transportation for community members.

Fund revenues are from a \$0.10 surcharge paid on each transportation network company (TNC), taxicab and flat-rate/for-hire vehicle trip originating within the Seattle city limits. Ordinance 12454 (2014) established the surcharge and the WAS Fund to offset the higher operational costs for owners and operators of wheelchair accessible taxis, helping to ensure the economic sustainability of these services.

Department of Finance and Administrative Services

Judgment and Claims Budget Adjustment

Expenditures	\$9,276,300
Revenues	\$9,276,300

Per Resolution 31847, budget appropriation for the Judgment and Claims Fund must be set at the 90% confidence level of meeting actual expenditures as estimated by the City's actuaries every year. This item increases funding by \$4,705,951 in General Fund transfer and \$4,570,349 in department cost allocations to achieve the 90% confidence level for 2024. This confidence level has significantly increased from assumptions made in the 2024 endorsed budget because the latest actuarial study incorporates claims and litigation data from 2022, which show an extraordinary level of outside counsel and settlement expenses primarily associated with lawsuits resulting from the racial justice protests of 2020.

Proposed Capital

Electronic Procurement System

Expenditures	\$700,000
Revenues	\$700,000

This item increases appropriation authority by \$700,000 in FAS's operating fund for a technology system project to implement a centralized electronic software solution to modernize the city-wide procurement process. This e-procurement software solution will be used in the development, issuance, and evaluation of procurements such as Request for Proposals/Qualifications. In 2022, the City spent approximately \$433 million on purchasing expenses, which included blanket contracts and one-time purchase orders. Using an e-procurement system to rebid future contracts increases the likelihood of multiple bids and more competitive prices, resulting in greater cost savings.

This e-procurement software solution is estimated to cost \$1.2 million with the remaining \$500,000 funded by a Bloomberg grant awarded to the City in 2022.

Rebate Revenues from Seattle City Light

Revenues	\$358,000
----------	-----------

This item recognizes Seattle City Light rebate revenues of \$358,000 in 2024 and \$150,000 in 2025 for use in Municipal Energy Efficiency Projects.

Capital Improvement Program (CIP) Baseline Adjustments

Expenditures	\$(19,802,073)
--------------	----------------

This item aligns the Fire Station 31 (MC-FA-FS31) appropriation with bond issuance in 2023 (\$4.8 million) and moves appropriation from 2024 to 2025 for the Human Capital Management (MC-FA-HCMSYS) project (-\$13.6 million), the Drive Clean Seattle (MC-FA-DRVCLNFLT) project (-\$3 million) and the Electrical Infrastructure Upgrades (MC-FA-ELECTINFRA) project (-9.5 million). In addition, debt service was adjusted to align with the planned bond issuance (-\$1.7 million).

This item also makes baseline and technical adjustments to several Budget Control Levels, moving appropriation forward from 2025 to 2024 for the SMT Elevator Rehabilitation project (MC-FA-SMTELVVRHB) (\$3.17 million), and adding appropriation to 2028 and 2029 for the two ongoing Asset Preservation programs (MC-FA-APSCH1FAC and MC-FA-APSCH2FAC) in the Department of Finance and Administrative Services (FAS) that was technically missed in the 2023-28 CIP budget.

Proposed Technical

Department of Finance and Administrative Services

Align Transportation Network Company (TNC) Tax Administration Appropriation with Tax Revenue

Expenditures \$(188,230)

This item reduces appropriation in the Finance and Administrative Services Department by \$188,230 in the General Fund Office of City Finance Budget Control Level (00100-BO-FA-0003). This change will bring expected expenditures in line with anticipated TNC tax revenues.

Technical Corrections in New Project Structure

Expenditures -

This item reflects a net neutral technical adjustment to update and correct detailed projects within the Finance and Administrative Services Other FAS Services (BO-FA-0004) Budget Summary Level (BSL) due to changes within the new FAS project structure proposed.

Cost of Issuance and Bond Interest Redemption Funds Adjustment

Expenditures \$(636,144)

Revenues \$(323,438)

This budget change is a technical adjustment to the appropriation related the debt service on behalf of the public development authorities and debt service related to the 2010 Build America Bonds in the LTGO Bond Interest and Redemption Fund, a technical adjustment to the UTGO Bond Interest and Redemption Fund adjusting the debt service amount to match actual debt service, and includes appropriation related to the Cost of Issuance for the 2024 LTGO Bond Issuance.

Fund Balancing Adjustments – Proposed

Revenues \$9,046,443

This is a technical item to record a fund balancing entry for the 50300 Finance and Administrative Services Fund, 50321 Fleet Capital Fund, and 12100 Wheelchair Accessible Fund, which are primarily managed by this department.

Department of Finance and Administrative Services

Finance General

Julie Dingley, Director

(206) 615-1962

<http://www.seattle.gov/city-budget-office/>

Department Overview

Finance General is controlled by the City Budget Office and provides a mechanism for allocating General Fund and other central resources to reserve and bond redemption funds, City departments, and certain programs where the City Council, Mayor, or City Budget Office need additional oversight.

Description of Incremental Budget Changes

Proposed Operating

Remove Jumpstart Payroll Expense Tax Economic Revitalization Strategy Implementation Reserve

Finance General

Expenditures \$(13,100,000)

The 2024 Endorsed Budget reserved \$13,100,000 to implement the Jumpstart Payroll Expense Tax Economic Revitalization and Workforce Development strategic plans currently being developed by the Office of Economic Development. This item reduces the reserve as it is being transferred to the Office of Economic Development, the Seattle Department of Transportation, and the Office of Planning and Community Development in the 2023-2024 Proposed Mid-Biennial Budget Adjustments.

Reduce Jumpstart Payroll Expense Tax Transfer for General Operating Expenses

Expenditures \$(10,000,000)

Revenues \$(10,000,000)

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds. The 2024 Endorsed Budget transferred \$84.2 million from payroll tax to general fund to support general operating expenses. This change reduces the payroll tax transfer for general operating expenses to the General Fund by \$10 million, for a total of \$74.2 million.

Reduce Jumpstart Payroll Expense Tax Transfer for Administrative Costs

Expenditures \$(1,005,475)

Revenues \$(1,005,475)

This item reduces appropriation in Finance General that supports administrative costs related to the Jumpstart Payroll Expense Tax (payroll tax). This technical item reflects an update to the total cost for City administrative functions, such as human resources, evaluation, information technology, payroll, accounting and others. This net reduction is for both direct, planned spending, as well as indirect costs not yet captured in the Central Cost Manual. The 2024 Finance General transfer for administrative costs is approximately \$7 million.

Increase Jumpstart Payroll Expense Tax Transfer for Human Services Provider Pay

Expenditures \$4,528,366

Revenues \$4,528,366

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$11 million is allocated to special exceptions to the spending categories for 2023 and 2024. This technical item adds payroll tax appropriation for the portion of the special exceptions items that are appropriated in the General Fund for Human Services Provider Pay. The other Human Services Provider Pay item that is not included in this Finance General change provides \$2.9 million in direct appropriation from payroll tax to DEEL to support child care workers. See the DEEL budget book section for more information.

Accelerate Replenishment of Emergency Fund

Expenditures \$8,500,000

Revenues \$8,500,000

This budget adjustment will increase appropriations in Finance General by \$8,500,000 to transfer additional General Fund to the Emergency Fund (10102). This transfer accelerates the replenishment of the Emergency Fund after it was drawn down during the COVID emergency. The Emergency Fund policy states that the City should make

Finance General

contributions to meet the target fund balance within five years and sooner if practically possible. An additional \$8.5 million is also included in the 2023 Year-End Supplemental Ordinance. With the changes from 2023 and 2024, the General Fund Financial Plan reflects that the City will reach the target fund balance in the Emergency Fund one year sooner than anticipated in the 2023 Adopted Budget, which helps reduce the projected 2025-2026 general fund deficit.

Proposed Technical

Transfer General Fund to the Seattle Information Technology Department

Expenditures \$225,000

This change adds \$225,000 General Fund to Finance General to transfer to the Seattle Information Technology Department (ITD). In the 2024 Endorsed Budget, the Council inadvertently budgeted General Fund for costs related to the Technology Matching Fund directly in ITD; however, ITD receives General Fund through a cash transfer from Finance General. This item corrects that error.

Transfer General Fund to Revenue Stabilization Fund

Expenditures \$553,520

This is a technical adjustment to true-up the General Fund transfer to the Revenue Stabilization Fund, according to policies outlined in SMC 5.80.020 which govern the transfer amount. The total transfer in the 2024 Mid-Biennial Budget Update is \$2,252,224.

Move Trial Court Reserve to Finance General

Expenditures \$798,696

Washington State elected judicial salaries are set by Washington Citizens' on Salaries for Elected Officials. As directed in Ordinance 122112, Seattle Municipal Court (SMC) judicial salaries are set at 95% of the district court. Setting SMC judicial salaries at this level qualifies the city to receive a contribution from the state for one-time improvements. The state's contribution is generally \$150,000 annually and is applied to the Trial Court Improvement Account in Finance General. Ordinance 122112 permits appropriation by annual budget or by separate ordinance, solely to fund allowable SMC related expenditures.

The 6-year Financial Plan for the General Fund has kept a planning reserve for a Trial Court Improvement Account; this reserve is moved to Finance General Reserves as part of the 2023-2024 Mid-Biennial Budget Updates. Outyear costs are expected to increase beyond inflation and will continue to be held in planning reserves on the General Fund financial plan until they can be appropriated through the annual budget process. The 2024 reserve amount is \$798,696.

Transfer General Fund to the School Safety, Traffic and Pedestrian Improvement Fund

Expenditures \$790,000

This item transfers \$1.5 million of General Fund revenue to the School Safety, Traffic and Pedestrian Improvement (SSTPI) Fund. Ordinance 125379 establishes that 20% of revenues collected from red light camera infractions, among other revenues, should be spent for school traffic and pedestrian safety and directly related infrastructure projects; pedestrian, bicyclist, and driver education campaigns; and installation, administrative, enforcement,

Finance General

operations and maintenance costs associated with the school zone fixed automated cameras. These funds have historically been collected in the SSTPI Fund. In November 2018, the City Council temporarily diverted this portion of red light camera infraction revenue to the General Fund in Ordinance 125719 for the years of 2018, 2019, and 2020, given higher than anticipated SSTPI revenues. The restoration of 20% of red light camera infraction revenue was not re-instated in 2021 and 2022 due to error. This transfer corrects the error by contributing the amount of revenue associated with 20% of red light camera infraction revenue in 2021 and 2022 to the SSTPI Fund.

Adjust Recurring Reserves

Expenditures \$1,233,000

The Finance General department pays a variety of recurring costs on behalf of the City each year, related to General Fund payments for election costs, fire hydrant maintenance, street lighting, debt service and other contracts. This item includes baseline budget changes to these recurring reserve amounts to maintain the same level of service. Specifically, this adds \$24,000 GF for an annual payment to the Puget Sound Clean Air Agency for air quality management; \$652,000 GF to increase a recurring reserve for Fire Hydrants; \$83,000 GF for the General Fund's art rental management charges; and \$473,000 GF for invoices related to the State Examiner's Office.

Create New Reserve for Fleet Vendor Maintenance

Expenditures \$1,800,000

This item creates a new reserve in Finance General for \$1,800,000 related to anticipated fleet vendor maintenance costs in the Department of Finance and Administrative Services. Costs were higher than anticipated in 2023. Should the reserve be necessary, this general fund will be transferred to respective department budgets through a 2024 supplemental ordinance.

Transfer General Fund to Judgment and Claims Fund

Expenditures \$4,705,951

Per Resolution 31847, budget appropriation for the Judgment and Claims Fund must be set at the 90% confidence level of meeting actual expenditures as estimated by the City's actuaries every year. This item increases funding to the Judgment and Claims Fund above the 2024 Endorsed by \$4,705,951 to achieve the 90% confidence level for 2024. This confidence level has significantly increased from assumptions made in the 2024 endorsed budget because the latest actuarial study incorporates claims and litigation data from 2022, which show an extraordinary level of outside counsel and settlement expenses primarily associated with lawsuits resulting from the racial justice protests of 2020. The total General Fund transfer in 2024 is \$8,982,255.

Reduce SPD Reserve for Department of Justice Settlement Agreement/Police Accountability

Expenditures \$(191,887)

The 2023-2024 Proposed Mid-Biennial Budget Adjustments reduces the Finance General Reserve for the Department of Justice Settlement Agreement/Police Accountability by \$191,887; these funds are transferring to the Community Police Commission (CPC) for a Deputy Director position. This change, along with other ongoing changes resulting from current year legislation, brings the total reserve to \$885,024 in 2024.

Debt Service Adjustment

Expenditures \$(552,189)

Finance General

This is a technical change request to true up debt service payments for Finance General in the Cumulative Reserve Subfund, the Real Estate Excise Tax Funds, the General Fund and the Short-Term Rental Tax Fund, as well as reduce budget appropriations associated with prior year bond funds. These are technical adjustments to budget the actual amount of debt service.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(1,643,571)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

One-time Use of Office of Labor Standards' Fund Balance

Expenditures \$(1,170,607)

This reduces the General Fund transfer to the Office of Labor Standards (OLS) Fund by \$1,170,607 to reflect OLS' one-time use of fund balance in 2024. The total transfer to OLS in the 2023-2024 Proposed Mid-Biennial Budget Adjustments is \$ 7,147,592.

Ongoing Changes from 2023 Legislation

Expenditures \$(2,184,353)

This change includes ongoing budget and/or position changes resulting from current year legislation in 2023, including the Year End Supplemental Ordinance. Specifically:

- The Alternative 911 Response reserve is reduced by \$1,595,855 in Finance General; there is no reserve remaining. Funds will be budgeted in the newly renamed CARE Department on an ongoing basis.
- The Department of Justice Settlement Agreement/Police Accountability reserve is reduced by \$596,498. These funds will be budgeted in the Office of Inspector General. This change, combined with a separate proposal to transfer \$192,000 of reserve funds to the Community Police Commission, bring the total balance in the Court-appointed Monitor reserve to \$885,024 in 2024.
- The ongoing transfer to the Office of Labor Standards is increased by \$8,000 for a total transfer of \$7,147,592 in 2024, when combined with a separate proposal to use one-time fund balance in 2024.

Account Level Transfers

Expenditures -

This item includes technical, net-zero transfers across various accounts within Finance General to align budget with the accounts where costs will be incurred.

Seattle Department of Human Resources

Kimberly Loving, Director

(206) 684-7999

<http://www.seattle.gov/personnel>/<http://www.seattle.gov/personnel>/<http://www.seattle.gov/personnel>

Department Overview

The **Seattle Department of Human Resources (SDHR)** provides a full scope of HR services to 20 supported departments and establishes Citywide personnel rules and labor policy. In addition, SDHR handles recruitment compliance, employee benefits and some Citywide programs. We also offer select services and consultation within our subject-matter expertise to City departments and the HR community, in partnership with our labor unions and executive departments, for the benefit of our Citywide workforce.

SDHR administers five Personnel Compensation Trust Funds related to employee benefits, the Health Care Fund, Fire Fighters Healthcare Fund, Industrial Insurance Fund, Unemployment Insurance Fund, and Group Term Life Insurance Fund. These funds are managed through Citywide contractual obligations on behalf of employees and City departments. The administering department collects funds from other City departments, which are then paid out to various insurance companies, service providers, and individuals.

Description of Incremental Budget Changes

Baseline

Health Care Fund Revenue Alignment

Revenues -

This item is a technical adjustment that moves the baseline revenue budget for health care premiums to the correct account for tracking and reporting.

Seattle Department of Human Resources

Citywide Adjustments for Standard Cost Changes

Expenditures \$100,725

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Program Adjustment Correction

Expenditures -

This item redistributes the Council Budget Action (CBA) SDHR-901-A-001 budget changes to the impacted BSLs and projects. The CBA rejected proposed budget changes in budget programs PO-HR-N5100, PO-HR-N5500 and PO-HR-N6700 but the decrease was posted as a lump sum in PO-HR-N6400.

Align Position and Employee FTE

Position Allocation -

This item combines three sets of two 0.5 FTE positions, each added incrementally over time, to create three full-time pockets. Each pocket set is the same classification and the same detail project. Currently each set of half-time pockets has an employee assigned to one 0.5 FTE pocket but working full time, with the additional labor and benefits expense covered by keeping the corresponding 0.5 FTE pocket vacant. SDHR will abrogate the vacant pockets and increase the filled pockets to 1.0 FTE to align the position and FTE counts, simplify time sheet coding, clarify vacancy reporting and properly reflect the full-time status of the employees.

Intradepartmental Position Transfers

Expenditures -

Position Allocation -

This item aligns positions and budget to complete the Work Force Equity reorganization approved in the 2023 Adopted Budget. Not all moves were finalized in time to include in the 2023 Adopted and 2024 Endorsed budgets.

Proposed Operating

Citywide Classification and Compensation Program Review

Expenditures \$1,128,000

This item adds \$1,128,000 in one-time funding to perform a comprehensive review of the Citywide Classification and Compensation Program (“program”). This program has not been reviewed since the 1990s and is outdated for current City personnel needs such as technology changes that are not reflected in job descriptions or the difficulty of employees trying to move between departments with specific titles that are tied to just one department, making it hard to understand potential career opportunities around the City This is a two-year initial phase for consultant services and two temporary employees to conduct the review. The review of the program will help SDHR strategically align with City priorities, effectively support retention and attraction of employees, promote pay equity and compliance with pay equity laws, and follow industry best practices.

Seattle Department of Human Resources

Add Police Innovation Recruiting Team Nonlabor Budget

Authority

Expenditures \$30,000

This item adds \$30,000 to the Police Innovation Recruiting Team budget for recruitment related expenses such as career fair materials, job board postings, and law enforcement related recruitment conferences within SDHR, supported by SPD resources. Ordinance 126654 created and funded three positions in SDHR but did not include ongoing funding for recruiting non-labor expenses. The program costs are covered by SPD under the terms of an ongoing interdepartmental agreement between SPD and SDHR.

Staging Environment for Origami Risk Workers' Compensation

Claim Management System

Expenditures \$44,667

This ongoing item funds a staging/testing environment within the workers' compensation claim management system, Origami. This software solution is utilized by the City's workers' compensation program to manage workers' compensation claim data. This improvement will allow system changes to be tested carefully before they go live. This is a companion change request to ITD-308.

Claims Mailing Equipment Lease

Expenditures \$4,700

This ongoing item increases the Industrial Insurance Fund administrative budget to pay for a mail folder/insertor equipment lease. RCWs and WAC require that City of Seattle Worker's Compensation Unit mail payment and claim correspondence in a timely and accurate manner. Failure to do so can negatively affect claim management efficiency and communication of important requests or decisions that impact claim stakeholders and risks statutory penalties. The equipment will increase overall speed and efficiency of the approximately 10,000 annual statutory mailings and reduce manual preparation of the unit's correspondence.

Proposed Technical

Fund Balancing Adjustment(s) - Proposed

Revenues \$102,000

This is a technical item to record a fund balancing entry for the Unemployment Insurance Fund, which is managed by SDHR and CBO.

2024 Health Care Fund Expenditure and Revenue Adjustments

Expenditures \$(17,040,543)

Revenues \$(12,301,155)

This item adjusts the budget for expenditures and expected revenues in the City's health care fund (10112). Total costs including medical, dental and vision claims, plus administrative costs, are estimated to be \$329.8 million in 2024, a decline of \$17.0 million (4.9%) from 2024 Endorsed Budget levels. Meanwhile revenues to the fund, based on prior claims expectations, are expected to be \$343.0 million, representing a \$854,000 increase (0.2%) in department contributions from the 2024 Endorsed Budget but an overall excess of revenue over expenditures of \$13.2million. This excess results in a technical balancing entry, expressed as a negative \$13.2 million revenue change, which when combined with this small positive increase to revenues creates total revenue entries of negative \$12.3 million.

Seattle Department of Human Resources

Industrial Insurance Fund Expenditure and Revenue

Adjustments

Expenditures	\$(848,524)
Revenues	\$(7,018,802)

This item adjusts the budget for expenditures and expected revenues in the City's industrial insurance (workers compensation) fund (10110). Total costs including medical and time-loss claims, plus administrative costs, are estimated to be \$42.4 million in 2024, a decline of \$799,000 (1.9%) from 2024 Endorsed Budget levels. Meanwhile revenues to the fund, based on prior claims expectations, are expected to be \$44.0 million, representing a \$5.4 million decrease (11.0%) in department contributions from the 2024 Endorsed Budget but an overall excess of revenue over expenditures of \$7.0 million. This excess results in a technical balancing entry, expressed as a negative \$1.6 million revenue change, which when combined with the \$5.4 million decrease to revenues creates total revenue entries of negative \$7.0 million.

Intradepartmental budget-neutral balancing

Expenditures	-
--------------	---

This item aligns intradepartmental expenses and balances indirect cost distribution.

Seattle Department of Human Resources

Seattle Information Technology Department

Jim Loter, Interim Chief Technology Officer

(206) 386-0026

<http://www.seattle.gov/seattleIT>

Department Overview

Seattle IT is a trusted partner that provides secure, reliable, and compliant technologies enabling the City to deliver equitable and responsive services to the public.

The Seattle Information Technology Department (Seattle IT) provides strategic direction for and management of the City's information technology resources. Our services include data, telephone, and radio networks; applications and application infrastructure; desktop, mobile, and printing device support; website and digital engagement tools; data centers, servers, storage, and backup; video production and coverage of public meetings; and community support for digital equity, civic technology, and public internet access initiatives. Seattle IT also manages the City's cable fund, designated projects on behalf of the City, other departments, and regional partners.

Seattle IT is organized into eight divisions: Applications; Collaboration and Workplace Technologies; Security and Infrastructure; Project Delivery; Client and Community Engagement; Data Privacy, Accountability, and Compliance; Chief of Staff; and Finance.

Description of Incremental Budget Changes

Baseline

Realigning Revenues to Reflect Post-Rate Changes

Expenditures	\$(679,867)
Revenues	\$(319,434)

This item updates budget and revenues to reflect changes made to Seattle IT's budget after customer rates were finalized during the 2023 budgeting process.

Inflation Adjustments

Expenditures	\$(1,271)
Revenues	\$(1,267)

This item updates budget and revenues to reflect changes made to Seattle IT's budget after customer rates were finalized during the 2023 budgeting process.

Realigning Labor and Maintenance Budget

Expenditures	\$163,023
Revenues	\$163,023

This item realigns budget for Seattle IT's staffing and labor costs where the costs are occurring, and also realigns Seattle IT's funding for annual software maintenance contracts with the projected IT service needs for the proposed budget.

Depreciation, Principal and Interest Adjustments

Expenditures	\$(1,883,726)
Revenues	\$(1,534,069)

This item adjusts the amount and distribution of Seattle IT's depreciation, principal and interest budget based on the debt service schedule and planned spending in the proposed budget resulting in a decrease to budget.

Indirect Costs Adjustments from Budget Changes

Expenditures	\$868,594
Revenues	\$868,594

This item represents the impacts of proposed budget items on Seattle IT's indirect cost model. As funding changes with budget decisions made, it affects the level of indirect cost charges made as levels increase or decrease in changing programs.

Seattle Information Technology Department

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,081,117

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Realigning Baseline Budget Costs

Expenditures \$519,245
Revenues \$3,728,751

This item reflects several changes to the department's baseline budget, including movement of funds between projects and budget to where expenditures are occurring. The largest item, \$480,000, adds in budget for a supplemental change made in 2022 adding direct-billed staff for SPU and SCL.

Adjust Capital Project Outyears

Expenditures \$119,952

This item adjusts capital project outyear budgets to align with the 6-year CIP plan by adding budget to year 2029.

Annualizing Position Adds from 2021 Supplemental Budget

Position Allocation 8.00

This item recognizes 8.0 FTEs that were added during 2021 Year-End Supplemental. The Seattle IT internal budget system recognizes these FTE, but Questica does not.

Proposed Operating

Mobile Inspections Applications for Seattle Department of Construction and Inspections

Expenditures \$195,600
Revenues \$195,600

This item adds one-time budget authority in 2024 for the initial discovery phase in the creation of a mobile inspections application for the Seattle Department of Construction and Inspections. This project will reduce complexity and redundancy in inspector administrative tasks while significantly increasing efficiency. Additional information is in the Seattle Department of Construction and Inspections section of the budget.

Additional Support in SDCI for Accela

Expenditures \$200,000
Revenues \$200,000

This item increases budget to support work in the Seattle Department of Construction and Inspections for ongoing operations and maintenance of the Accela platform. Additional information is in the Seattle Department of Construction and Inspections section of the budget.

Staging Environment for Workers' Compensation Claim

Seattle Information Technology Department

Management System

Expenditures	\$44,667
Revenues	\$44,667

This item funds a staging/testing environment within the workers' compensation claim management system, Origami. This software solution is utilized by the City's workers' compensation program to manage workers' compensation claim data, which includes private/confidential information (i.e. medical documents, financial data, SSN, DOB, etc.). Additional information is in the Seattle Department of Human Resources section of the budget.

Replace Data Collection and Reporting Software in the Human Services Department

Expenditures	\$148,368
Revenues	\$148,368

This item adds appropriation to replace the legacy SQL-based data collection and reporting tool in the Human Services Department's Aging and Disability Services Division. Built around 2000, Data Warehouse is currently supported by IT, but the system and all associated software are outdated, as are the underlying architecture and coding. This is a two-year project ending in 2025 with annual O&M anticipated in 2026. Additional information is in the Seattle Department of Human Services section of the budget.

Electronic Procurement System in the Finance and Administrative Services Department

Expenditures	\$138,186
Revenues	\$138,186

This item increases appropriation authority in the Finance and Administrative Services Department for a technology system project to implement a centralized electronic software solution to modernize the Citywide procurement process. Additional information is in the Finance and Administrative Services section of the budget.

Service Licensing and Information Management (SLIM) System Assessment in FAS

Expenditures	\$97,122
Revenues	\$97,122

This item increases appropriation authority to fund the Service Licensing and Information Management (SLIM) System assessment in the Finance and Administrative Services Department. This funding supports identifying the requirements necessary to migrate 18 regulatory business license workflows from the aging SLIM system into a new long-term solution. Additional information is in the Finance and Administrative Services section of the budget.

Proposed Technical

Funding for Records Retention Project

Revenues	\$1,366,700
----------	-------------

This item adds revenue for the RecordPoint project in the Office of the City Clerk. Budget was added by the City Council in 2023, but not revenues to cover the expenditures. This item will collect revenues for the project through rates charged to departments.

Digital Equity Funding from Seattle Housing Authority

Seattle Information Technology Department

Expenditures	\$75,000
Revenues	\$75,000

This item adds grant funding to Seattle IT to accept reimbursements from the Seattle Housing Authority (SHA) for Digital Equity/Digital Navigators in SHA facilities, which will help residents increase their internet and technology skills.

Adjusting Funding Ratio of Positions Added in the Supplemental Budget

Expenditures	\$374,237
Revenues	\$374,237

This item adjusts the funding distribution of two positions added in the 2021 Year-End Supplemental Budget. Both were initially funded only by department billing, but need to be funded with a split of allocated rates, as are the other positions in the group.

Adding Geographic Information System (GIS) Funding

Expenditures	\$425,000
Revenues	\$425,000

This item adds funding for the Geographic Information System (GIS) which was inadvertently left out of the 2024 Endorsed Budget.

Adding Funding for Servers and Security Services

Expenditures	\$2,960,000
Revenues	\$2,960,000

This item adds funding for increased costs of current services that were inadvertently left out of the 2024 Endorsed Budget. This includes a \$950,000 increase in extended maintenance for servers; \$950,000 for server backup and recovery services; \$550,000 for increased cloud storage services; and \$510,000 for cybersecurity services.

Funding for Utilities Billing Application

Expenditures	\$360,000
Revenues	\$360,000

This item adds \$360,000 in funding for increasing licensing costs for the utilities billing application.

Funding for Seattle Public Utilities License Costs

Expenditures	\$363,500
Revenues	\$363,500

This item adds funding for maintenance and license renewal costs for applications in Seattle Public Utilities.

Correcting a Fund Appropriation Error in Base Budget

Expenditures	\$34,487
Revenues	\$225,000

Seattle Information Technology Department

This item moves \$225,000 from 00100 (General Fund) to 50410 (Seattle IT Operating Fund). As part of Council action in the 2023-24 Adopted Budget, legal budget of \$225,000 was appropriated to support Digital Equity and Technology Matching Fund. Both amounts were incorrectly assigned to fund 00100 and need to be switched to fund 50410.

Funding for Seattle Public Utilities Technology Needs

Expenditures	\$2,624,000
Revenues	\$2,624,000

This item changes appropriation authority in the department's budget with the anticipated Seattle Public Utilities (SPU) budget for IT projects in 2024.

Funding for Seattle City Light's Technology Needs

Expenditures	\$1,387,000
Revenues	\$1,387,000

This item changes appropriation authority in the department's budget with the anticipated Seattle City Light's budget for IT projects in 2024.

Cable Fund Technical Adjustment

Expenditures	\$113,585
Revenues	\$1,484,714

This item adjusts the Cable Television Franchise Fee Fund (10101) budget to reflect the impact of changes with the Seattle Information Technology Operating Fund (50410) involving the use of Franchise Fee revenue.

Remove Affordable Seattle Staff Sunset Date

Position Allocation	-
---------------------	---

This technical change request removes the sunset date for three Coronavirus Local Fiscal Recovery Funds (CLFR)-backed positions supporting the Affordable Seattle platform. The positions were set to sunset in December 2024 when the federal CLFR grant expires. However, starting in 2024, the positions will be funded via Payroll Expense Tax and will continue to support the ongoing maintenance and development of Affordable Seattle platform.

Increasing Positions from Part to Full Time

Position Allocation	1.00
---------------------	------

This item increases two positions from 0.5 FTE to 1.0 FTE. Both positions need full time staff to complete the work assigned.

Seattle Information Technology Department

Office of Intergovernmental Relations

Gael Tarleton, Director

(206) 684-0213

www.seattle.gov/oir

Department Overview

The Office of Intergovernmental Relations (OIR) provides advice and information to, and on behalf of, City elected officials, City departments, and external partners. The primary goal of these efforts is to ensure the City's interests are advanced with regional, state, federal, tribal, and international entities to enable the City to better serve the Seattle community. OIR is also responsible for engaging with other jurisdictions and governmental entities to collaborate and advocate for outcomes that are in the interest of the City and region. OIR implements and manages lobbying contracts and ensures the City's lobbying resources align with the City's strategic advocacy priorities.

Legislative Department

Debora Juarez, Council President

(206) 684-8805

<http://www.seattle.gov/council>/<http://www.seattle.gov/council>/<http://www.seattle.gov/council>

Department Overview

The Legislative Department is comprised of the Seattle City Council, as well as two primary divisions: Central Staff and the Office of the City Clerk. Each division supports various aspects of the Council and works with members of the public and City departments to facilitate and develop effective and responsive public policy. The Council and Legislative Department are part of the legislative branch of government, which also includes the Office of City Auditor, the Office of Hearing Examiner, and the Office of Inspector General for Public Safety. The Council is composed of two at-large and seven district-elected seats for a total of nine, nonpartisan, elected Councilmembers. The City Council establishes city laws; creates, evaluates and approves policies, legislation, and regulations; approves the City's annual operating and capital improvement budgets; and provides oversight to the City's executive departments.

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$(201,054)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department.

Proposed Technical

Add sunset pocket in 2024 for Council human resource support

Position Allocation 1.00

This technical item adds to the 2024 budget a sunset position that was created through a 2023 supplemental budget change. The role of this position is to support the temporary increase in City Council human resource needs, as many Councilmembers and their staff are transitioning through retirements and an election. This position will sunset in 2024, and is funded through existing budget.

Office of the Mayor

Bruce Harrell, Mayor

(206) 684-4000

<http://www.seattle.gov/mayor/>

Department Overview

The Office of the Mayor works to provide leadership to the residents, employees, and regional neighbors of the City of Seattle and to create an environment that encourages ideas, civic discourse, and inclusion for the City's entire diverse population.

In the municipality of Seattle, the Mayor governs the Executive Branch as its chief executive officer. The many legal roles and responsibilities of the Mayor, and those working directly for the Mayor, are prescribed in the City Charter, state statutes and municipal ordinances. Elections for this nonpartisan office are held every four years.

Total 2024 Proposed Budget	\$11,894,072	40.50

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,474,101

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process. Approximately \$1.18 million of this change is attributable to increased Judgment and Claims costs. The Mayor's Office became an eligible payer of Judgment and Claims costs in 2023, as a result of defense costs for litigation related to matters that occurred in 2020.

Technical Adjustment for Central Cost Manual Changes

Expenditures -

This budget-neutral item aligns accounts related to Citywide Adjustments for Standard Cost Changes.

Proposed Operating

2024 Casey Family Programs Grant to Support Public Safety

Expenditures \$500,000

Revenues \$500,000

This one-time item appropriates funds from a Casey Family Programs grant for \$500,000, that will support 3.0 temporary FTE for research, planning, and implementation of programming related to public safety.

Office of the Mayor

2023-24 Mid-Biennium Proposed Budget Adjustments – Operating Expenses

Mid-Biennial Department Budget Summary Level Detail

2024 is the second year of the City's biennial budget process. The City Council endorsed departmental funding amounts for 2024 as part of the 2023 Adopted Budget and that Endorsed Budget served as the starting point for the 2024 Budget Process.

In the Biennial Budget Document, additional departmental details are presented in terms of their budget programs by Budget Summary Levels. In order to place greater emphasis on the proposed budget adjustments relative to the 2024 Endorsed Budget, the mid-biennial budget document presents this budget program detail as a supplemental appendix independent from the departmental pages.

Department of Arts and Culture

ARTS - BO-AR-2VMA0 - Public Art

The purpose of the Public Art Budget Summary Level is to fund the Public Art Program, which develops art pieces and programs for City facilities, and the Artwork Conservation Program, which maintains the City's permanent art collection.

Office for Civil Rights

OCR - BO-CR-X1R00 - Civil Rights

The purpose of the Civil Rights Budget Summary Level is to encourage and promote equal access and opportunity, diverse participation, and social and economic equity in Seattle. OCR works to eliminate discrimination in employment, housing, public accommodations, contracting, and lending in Seattle through enforcement, and policy and outreach activities. In addition, OCR is responsible for directing the Race and Social Justice Initiative, which leads other City departments to design and implement programs that help eliminate institutionalized racism.

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Land Use Services Budget Summary Level:

Land Use Services

The purpose of the Land Use Services Program is to provide land use permitting services to project applicants, City of Seattle departments, public agencies, and residents. Land Use staff provide permit process information and regulatory expertise to inform pre-application construction project design. Land Use staff also review development concepts as part of a developer's permit application. The Land Use review process includes eliciting public input and facilitating public meetings and design review board meetings. It may also include coordination with various city and county agencies, defending project decisions during appeal to the Hearing Examiner or coordinating the department recommendation for a development application through the City Council approval process. These services are intended to ensure that development proposals are reviewed in a fair, reasonable, efficient, and predictable manner, and to ensure that the plans substantially comply with applicable codes, legal requirements, policies, and community design standards.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Land Use Services	21,711,644	23,554,635	23,554,635	24,869,211
Full Time Equivalents Total	82.00	101.00	101.00	103.00

Land Use Services CBA

The purpose of the Land Use Services CBA Program is to display the amount of unallocated Contingent Budget Authority (CBA) in the Land Use Services BSL that has not been accessed. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Land Use Services CBA	-	1,672,241	1,672,241	1,672,241

Seattle Department of Construction and Inspections

SDCI - BO-CI-U2300 - Permit Services

The purpose of the Permit Services Budget Summary Level is to facilitate the review of development plans and processing of permits.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Inspections Budget Summary Level:

Inspections

The purpose of the Inspections Program is to provide timely on-site inspections of property under development at predetermined stages of construction; work closely with project architects, engineers, developers, contractors, and other City of Seattle departments to approve projects as substantially complying with applicable City codes, ordinances, and approved plans; and to issue final approvals for occupancy.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Inspections	27,902,206	27,818,358	27,818,358	29,389,661
Full Time Equivalent Total	114.00	121.00	121.00	123.00

Inspections Services CBA

The purpose of the Inspections Services CBA Program is to display the amount of Contingent Budget Authority (CBA) that has not been accessed within the Inspections BCL for construction inspections and electrical inspections with plan review. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Inspections Services CBA	-	2,726,100	2,726,100	2,726,100

Seattle Department of Construction and Inspections

SDCI - BO-CI-U2400 - Compliance

The purpose of the Compliance Budget Summary Level is to ensure land and buildings are developed, used and maintained according to applicable code standards, reduce deterioration of structures and properties, enforce tenant protections, and support outreach and education for landlords and tenants in coordination with other departments and community organizations.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Compliance	11,772,374	11,041,251	11,022,861	12,139,298
Compliance Resources	-	1,450,000	450,000	450,000
Rental Housing	2,051,934	2,372,008	2,372,008	2,418,132
Total	13,824,308	14,863,259	13,844,869	15,007,430
Full-time Equivalents Total*	53.50	57.00	57.00	60.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Compliance Budget Summary Level:

Compliance

The purpose of the Compliance Program is to investigate and respond to violations of code standards for the development, use, maintenance, and management of land and buildings, facilitate compliance by property owners and other responsible parties, pursue enforcement actions against violators through the legal system, reduce the deterioration of structures and properties to reduce blight, and manage the adoption of administrative rules and response to claims. The program also supports outreach and education for landlords and tenants, working in coordination with other departments and community organizations.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Compliance	11,772,374	11,041,251	11,022,861	12,139,298

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Compliance Resources	-	1,450,000	450,000	450,000

Rental Housing

The purpose of the Rental Housing Program is to improve the quality of the rental housing stock in Seattle and investigate and respond to violations of tenant protection regulations. By registering and inspecting all rental housing properties the program helps ensure key life, health and safety standards are met. The program provides

Seattle Department of Construction and Inspections

assistance to property owners and tenants regarding relocation assistance, just cause eviction, and other duties and responsibilities of owners and tenants.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs Program is to collect and allocate departmental central costs such as pooled costs, paid-time-off, and other City central costs. The costs in this program are allocated to all department programs except the Contingent Budget Authority (CBA) Programs, the Process Improvements & Technology (PI&T) Program, and other programs in Leadership and Administration.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Citywide Indirect Costs	-	26,584,779	27,757,997	29,277,669

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs Program is to lead and support department employees; provide policy guidance and financial stewardship; manage the public disclosure of documents; and oversee relationships with the community, government agencies, and the media. The costs in this program are allocated to all department programs except the Contingent Budget Authority (CBA) Programs, the Process Improvements & Technology (PI&T) Program, and other programs in Leadership and Administration.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				

Seattle Department of Construction and Inspections

Departmental Indirect Costs	3,167	5,006,807	5,006,807	5,156,769
Full Time Equivalents Total	37.00	39.00	39.00	40.00

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Program is to provide support functions for SDCI's primarily fee funded programs: Land Use Services, Permit Services, Inspections; and for the fee-funded portion of the Government Policy, Safety and Support Program. The costs in this program are allocated only to the programs described above.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Divisional Indirect Costs	2,714	3,682,965	3,683,347	4,398,069
Full Time Equivalents Total	27.00	27.00	27.00	27.00

Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery Offset Program is to offset the proportionate share of Citywide Indirect Costs, Departmental Indirect Costs, and Divisional Indirect Costs that allocate to the department's other Budget Summary Level programs as overhead. It is necessary to offset the full cost of indirect cost programs to calculate the budget appropriation and revenue requirements of the related programs.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Indirect Cost Recovery Offset	-	(35,274,551)	(35,274,551)	(38,832,507)

SDCI - BO-CI-U2600 - Government Policy, Safety & Support

The purpose of the Government Policy, Safety & Support Budget Summary Level is to develop and update land use code and technical code regulations, and provide appropriate support for disaster preparation, mitigation, response, and recovery services.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Program Expenditures				
Govt Policy, Safety & Support	2,340,319	2,591,882	2,591,882	2,677,375

SCL - BC-CL-Z - Customer Focused - CIP

The purpose of the Customer Focused - CIP Budget Summary Level is to provide for the capital costs of rehabilitation and replacement of the utility's financial systems and information technology infrastructure, the development and implementation of large software applications, customer service connections, meters, and other customer-driven projects, including large inter-agency projects requiring utility services or relocations. This Budget Summary Level supports capital projects identified in the department's Capital Improvement Plan.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
CUSTOMER AND BILLING	3,689,960	45,000	45,000	-
CUSTOMER IT SYSTEMS	1,690,010	2,264,060	2,848,902	1,655,376
CUSTOMER OTHER	250	-	-	-
LOCAL JURISDICTIONS	14,882,511	15,515,542	15,404,552	15,412,907
SERVICE CONNECTIONS	72,989,806	70,666,166	69,047,121	72,128,830
TRANSPORTATION RELOCATIONS	9,503,522	22,269,838	14,942,304	10,079,018
Total	102,756,059	110,760,607	102,287,879	99,276,131
Full-time Equivalents Total*	181.74	181.74	181.74	181.74

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Customer Focused - CIP Budget Summary Level:

CUSTOMER AND BILLING

The Customer and Billing program provides the funding to support a portion of the customer billing functions at the utility and to fund City Light's customer call center improvement program.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
CUSTOMER AND BILLING	3,689,960	45,000	45,000	-

CUSTOMER IT SYSTEMS

The Customer IT Systems program provides for the capital costs of rehabilitation and replacement of the utility's customer information technology infrastructure, and the development and implementation of large software applications. This program supports capital projects identified in the department's Capital Improvement Plan.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
CUSTOMER IT SYSTEMS	1,690,010	2,264,060	2,848,902	1,655,376

Seattle City Light

CUSTOMER OTHER

The Customer Other program provides funding to support the customer service engineering program and the Neighborhood Voluntary Undergrounding program.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
CUSTOMER OTHER	250	-	-	-
Full Time Equivalents Total	1.00	1.00	1.00	1.00

LOCAL JURISDICTIONS

The Local Jurisdictions program funds the capital costs for projects in local jurisdictions requiring utility services or relocations.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
LOCAL JURISDICTIONS	14,882,511	15,515,542	15,404,552	15,412,907
Full Time Equivalents Total	16.90	16.90	16.90	16.90

SERVICE CONNECTIONS

The Service Connections program funds the capital costs of customer service connections and meters.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
SERVICE CONNECTIONS	72,989,806	70,666,166	69,047,121	72,128,830
Full Time Equivalents Total	148.87	148.87	148.87	148.87

TRANSPORTATION RELOCATIONS

The Transportation Relocations program funds the capital costs for large inter-agency transportation projects requiring utility services or relocations.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
TRANSPORTATION RELOCATIONS	9,503,522	22,269,838	14,942,304	10,079,018
Full Time Equivalents Total	14.97	14.97	14.97	14.97

Seattle City Light

SCL - BO-CL-ADMIN - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide overall management and policy direction for Seattle City Light and to provide core management and administrative services such as communications, finance, human resources, facility management and IT program support. This BSL is also utilized to provide for the general expenses of the utility that are not attributable to a specific organizational unit such as insurance and bond issue costs, legal fees, indirect costs related to employee benefits and PTO, general claims costs, and services provided by the City's internal services departments through the central cost allocation mechanism.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
City Indirect Costs	64,243,961	68,209,422	69,492,861	48,829,388
Current Year Inventory	-	8,000,000	8,000,000	8,000,000
Department GA Indirect Recovery	(65,985,133)	(46,504,967)	(42,865,036)	(49,880,307)
Departmental Indirect Costs	74,200,263	101,688,153	106,269,558	127,961,845
Divisional Indirect	15,951,176	25,576,902	27,683,021	26,970,397
PTO and Benefits Indirect Costs	47,231,278	5,345,103	7,583,557	6,141,602
Total	135,641,546	162,314,613	176,163,960	168,022,924
Full-time Equivalents Total*	558.88	558.88	558.88	558.88

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

City Indirect Costs

The City Indirect Costs program funds the costs for city services that are provided to the utility.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
City Indirect Costs	64,243,961	68,209,422	69,492,861	48,829,388

Current Year Inventory

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Current Year Inventory	-	8,000,000	8,000,000	8,000,000

Department GA Indirect Recovery

The Department General and Administrative Indirect Recovery program offsets the overhead costs applied to the capital programs in the Leadership and Administration BSL.

Seattle City Light

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Department GA Indirect Recovery	(65,985,133)	(46,504,967)	(42,865,036)	(49,880,307)

Departmental Indirect Costs

The Department Indirect Costs program funds departmentwide O&M services that support other programs.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Departmental Indirect Costs	74,200,263	101,688,153	106,269,558	127,961,845
Full Time Equivalents Total	505.53	505.53	505.53	505.53

Divisional Indirect

The Divisional Indirect Costs program funds Administrative and General O&M services in operational divisions.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Divisional Indirect	15,951,176	25,576,902	27,683,021	26,970,397
Full Time Equivalents Total	53.35	53.35	53.35	53.35

PTO and Benefits Indirect Costs

The Pooled Benefits Indirect Costs program funds costs for health and dental insurance, workers compensation, and unemployment insurance contributions.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
PTO and Benefits Indirect Costs	47,231,278	5,345,103	7,583,557	6,141,602

SCL - BO-CL-CUSTCARE - Customer Care

The purpose of the Customer Service Budget Summary Level is to provide customer experience support specific to customer information systems and to implement demand-side conservation measures that offset the need for additional generation resources.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Conservation Expenses	1,344,728	4,099,996	4,157,496	5,037,314
Customer Accounts & Services	42,930,714	48,412,838	49,202,512	49,604,815
Total	44,275,442	52,512,833	53,360,008	54,642,129
Full-time Equivalents Total*	132.15	132.15	132.15	132.15

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle City Light

The following information summarizes the programs in Customer Care Budget Summary Level:

Conservation Expenses

The Conservation Expenses program provides O&M funding for demand-side conservation measures that offset the need for additional generation resources.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Conservation Expenses	1,344,728	4,099,996	4,157,496	5,037,314

Customer Accounts & Services

The Customer Accounts and Services program provides O&M funding for customer experience support.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Customer Accounts & Services	42,930,714	48,412,838	49,202,512	49,604,815
Full Time Equivalent Total	132.15	132.15	132.15	132.15

SCL - BO-CL-DEBTSRVC - Debt Service

The purpose of the Debt Service Budget Summary Level is to meet principal repayment and interest obligations on funds borrowed to meet City Light's capital expenditure requirements.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Debt Service	236,443,796	244,968,395	258,438,138	255,243,609
Total	236,443,796	244,968,395	258,438,138	255,243,609

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle City Light

SCL - BO-CL-PWRSUPPLY - Power Supply O&M

The purpose of the Power Supply O&M Budget Summary Level is to support transportation electrification, solar, and other technologies; implement demand-side conservation measures that offset the need for additional generation resources; and monitor compliance with federal electric reliability standards. The power marketing operations of the utility are also included in this Budget Summary Level.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Purchased Power/Power Supply	328,837,144	313,881,548	344,488,804	344,459,167
Total	328,837,144	313,881,548	344,488,804	344,459,167
Full-time Equivalents Total*	69.95	64.95	69.95	69.95

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SCL - BO-CL-TAXES - Taxes

The purpose of the Taxes Budget Summary Level is to pay City Light's legally required tax payments for state, city, and local jurisdictions. This Budget Summary Level includes funding for franchise contract payments negotiated with local jurisdictions in City Light's service territory.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Taxes	114,013,042	112,006,561	116,765,046	120,555,101
Total	114,013,042	112,006,561	116,765,046	120,555,101

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle City Light

SCL - BO-CL-UTILOPS - Utility Operations O&M

The purpose of the Utility Operations O&M Budget Summary Level is to provide reliable electricity to customers through operation and maintenance of City Light's power production facilities, substations, transmission systems, and overhead and underground distribution systems in a clean, safe, efficient, reliable, and environmentally responsible manner. The utility's energy delivery engineering, power production engineering, generation operations, asset management, power system functions, renewable resource development programs, hydroelectric relicensing, and real estate are also included in this Budget Summary Level.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Distribution O&M	65,647,584	79,144,651	81,073,220	83,644,624
Generation O&M	36,621,495	34,494,351	36,740,779	36,193,283
Transmission O&M	15,932,754	24,341,066	24,611,696	24,283,390
Total	118,201,832	137,980,068	142,425,694	144,121,296
Full-time Equivalents Total*	526.92	526.92	526.92	526.92

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Utility Operations O&M Budget Summary Level:

Distribution O&M

The Distribution Operations and Maintenance program funds the operation and maintenance of City Light's overhead and underground distribution systems.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Distribution O&M	65,647,584	79,144,651	81,073,220	83,644,624
Full Time Equivalents Total	287.08	287.08	287.08	287.08

Generation O&M

The Generation Operations and Maintenance program funds the operation and maintenance of City Light's power production facilities.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Generation O&M	36,621,495	34,494,351	36,740,779	36,193,283
Full Time Equivalents Total	125.63	125.63	125.63	125.63

Transmission O&M

The Transmission Operations and Maintenance program funds the operation and maintenance of City Light's substation and transmission systems.

Seattle City Light

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Transmission O&M	15,932,754	24,341,066	24,611,696	24,283,390
Full Time Equivalent Total	114.21	114.21	114.21	114.21

Seattle Public Utilities

SPU - BC-SU-C110B - Distribution

The purpose of the Distribution Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade the City's water lines, pump stations, and other facilities.

Program Expenditures	2022	2023	2024	2024
	Actuals	Adopted	Endorsed	Proposed
Distribution	27,362,502	39,327,664	51,239,400	44,060,074
Total	27,362,502	39,327,664	51,239,400	44,060,074
Full-time Equivalents Total*	79.00	79.00	79.00	79.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C120B - Transmission

The purpose of the Transmission Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade the City's large transmission pipelines that bring untreated water to the treatment facilities, and convey water from the treatment facilities to Seattle and its suburban wholesale customers' distribution systems.

Program Expenditures	2022	2023	2024	2024
	Actuals	Adopted	Endorsed	Proposed
Transmission	14,025,807	15,411,186	13,625,338	13,522,272
Total	14,025,807	15,411,186	13,625,338	13,522,272
Full-time Equivalents Total*	5.00	5.00	5.00	5.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C130B - Watershed Stewardship

The purpose of the Watershed Stewardship Budget Summary Level, a Capital Improvement Program funded by water revenues, is to implement projects associated with the natural land, forestry, and fishery resources within the Tolt, Cedar, and Lake Youngs watersheds.

Program Expenditures	2022	2023	2024	2024
	Actuals	Adopted	Endorsed	Proposed
Watershed Stewardship	852,699	920,851	325,000	4,885,999
Total	852,699	920,851	325,000	4,885,999
Full-time Equivalents Total*	8.00	8.00	8.00	8.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Public Utilities

SPU - BC-SU-C140B - Water Quality & Treatment

The purpose of the Water Quality & Treatment Budget Summary Level, a Capital Improvement Program funded by water revenues, is to design, construct, and repair water treatment facilities and remaining open-water reservoirs.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Water Quality & Treatment	2,740,588	1,868,171	1,974,993	6,450,289
Total	2,740,588	1,868,171	1,974,993	6,450,289
Full-time Equivalents Total*	14.00	14.00	14.00	14.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C150B - Water Resources

The purpose of the Water Resources Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade water transmission pipelines and promote residential and commercial water conservation.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Water Resources	4,518,599	14,059,143	4,856,686	16,706,188
Total	4,518,599	14,059,143	4,856,686	16,706,188
Full-time Equivalents Total*	12.00	14.00	14.00	16.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C160B - Habitat Conservation Program

The purpose of the Habitat Conservation Budget Summary Level, a Capital Improvement Program funded by water revenues, is to manage projects directly related to the Cedar River Watershed Habitat Conservation Plan.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Habitat Conservation Program	925,022	2,521,380	998,778	3,686,223
Total	925,022	2,521,380	998,778	3,686,223
Full-time Equivalents Total*	15.00	15.00	15.00	15.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Public Utilities

SPU - BC-SU-C230B - New Facilities

The purpose of the New Facilities Budget Summary Level, a Capital Improvement Program funded by solid waste revenues, is to design and construct new facilities to enhance solid waste operations.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
New Facilities	801,200	10,277,811	8,777,476	24,161,970
Total	801,200	10,277,811	8,777,476	24,161,970
Full-time Equivalents Total*	9.00	9.00	9.00	9.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C240B - Rehabilitation & Heavy Equipment

The purpose of the Rehabilitation and Heavy Equipment Budget Summary Level, a Capital Improvement Program funded by solid waste revenues, is to implement projects to repair and rehabilitate the City's solid waste transfer stations and improve management of the City's closed landfills and household hazardous waste sites.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Rehabilitation & Heavy Eqpt	486,288	550,000	1,800,000	2,260,000
Total	486,288	550,000	1,800,000	2,260,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C333B - Protection of Beneficial Uses

The purpose of the Protection of Beneficial Uses Budget Summary Level, a Capital Improvement Program funded by drainage revenues, is to make improvements to the City's drainage system to reduce the harmful effects of storm water runoff on creeks and receiving waters by improving water quality and protecting or enhancing habitat.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Protection of Beneficial Uses	16,504,737	24,530,656	30,404,947	36,683,378
Total	16,504,737	24,530,656	30,404,947	36,683,378
Full-time Equivalents Total*	14.00	14.00	14.00	14.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Public Utilities

SPU - BC-SU-C350B - Sediments

The purpose of the Sediments Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to restore and rehabilitate natural resources in or along Seattle's waterways.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Sediments	3,749,373	5,221,790	11,115,291	10,734,002
Total	3,749,373	5,221,790	11,115,291	10,734,002
Full-time Equivalents Total*	7.00	7.00	7.00	7.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C360B - Combined Sewer Overflows

The purpose of the Combined Sewer Overflow (CSO) Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to plan and construct large infrastructure systems, smaller retrofits, and green infrastructure for CSO Summary.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Combined Sewer Overflows	74,669,303	121,042,446	94,588,146	111,767,108
Total	74,669,303	121,042,446	94,588,146	111,767,108
Full-time Equivalents Total*	30.00	30.00	30.00	30.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C370B - Rehabilitation

The purpose of the Rehabilitation Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to rehabilitate or replace existing drainage and wastewater assets in kind, to maintain the current functionality of the system.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Rehabilitation	36,955,569	52,270,010	50,337,738	61,249,734
Total	36,955,569	52,270,010	50,337,738	61,249,734
Full-time Equivalents Total*	30.00	30.00	30.00	30.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Public Utilities

SPU - BC-SU-C380B - Flooding, Sewer Backup & Landslide

The purpose of the Flooding, Sewer Back-up, and Landslides Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to plan, design and construct systems aimed at preventing or alleviating flooding and sewer backups in the City of Seattle, protecting public health, safety, and property. This program also protects SPU drainage and wastewater infrastructure from landslides, and makes drainage improvements where surface water generated from City rights-of-way contributes to landslides.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Flooding, Sewer Backup & Lndsl	24,854,880	16,680,631	12,657,299	12,202,802
Total	24,854,880	16,680,631	12,657,299	12,202,802
Full-time Equivalents Total*	25.00	25.00	25.00	25.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C410B - Shared Cost Projects

The purpose of the Shared Cost Projects Budget Summary Level, which is a Capital Improvement Program, is to implement the Water, Drainage and Wastewater, and Solid Waste Utility's share of capital improvement projects that receive funding from multiple SPU funds.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Shared Cost Projects	32,361,936	57,866,236	75,014,871	66,241,088
Total	32,361,936	57,866,236	75,014,871	66,241,088
Full-time Equivalents Total*	95.00	95.00	95.00	95.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C510B - Technology

The purpose of the Technology Budget Summary Level, a Capital Improvement Program, is to make use of technology to increase the Water, Drainage and Wastewater, and Solid Waste Utility's efficiency and productivity.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Technology	8,338,718	15,300,000	10,550,000	13,174,000
Total	8,338,718	15,300,000	10,550,000	13,174,000
Full-time Equivalents Total*	41.00	41.00	41.00	41.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Public Utilities

SPU - BO-SU-N000B - General Expense

The purpose of the General Expense Budget Summary Level is to provide for the Utility's general expenses such as debt service, taxes and major contracts.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Budget Reserves	-	13,535,516	14,071,747	14,071,747
Capital Purchases	47,852	391,308	399,135	274,287
Debt Service	204,030,877	175,379,166	176,155,050	233,889,113
Major Contracts	300,687,624	314,731,480	329,717,986	348,539,513
Taxes and Fees	149,063,083	157,676,383	163,983,389	164,962,561
Total	653,829,435	661,713,854	684,327,307	761,737,222
Full-time Equivalents Total*	1.00	1.00	1.00	1.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in General Expense Budget Summary Level:

Budget Reserves

The purpose of the Budget Reserves Program is to appropriate funds to maintain a necessary working reserve for unanticipated expenditures that may develop during the fiscal year. These are important due to the utility need to plan revenue on a six-year horizon.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Budget Reserves	-	13,535,516	14,071,747	14,071,747

Capital Purchases

The purpose of the Capital Purchases Program is to provide appropriation for the utility to purchase equipment that cannot be purchased using bond proceeds.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Capital Purchases	47,852	391,308	399,135	274,287

Debt Service

The purpose of the Debt Service Program is to provide appropriation for new bond issuance costs as well as principal and interest payments on previously issued bonds and loans.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
-------------------------	-------------------------	-------------------------	--------------------------	--------------------------

Seattle Public Utilities

Debt Service	204,030,877	175,379,166	176,155,050	233,889,113
--------------	-------------	-------------	-------------	-------------

Major Contracts

The purpose of the Major Contracts Program is to provide appropriation for large service contracts that SPU has with solid waste contractors and for water and wastewater treatment costs.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Major Contracts	300,687,624	314,731,480	329,717,986	348,539,513
Full Time Equivalents Total	1.00	1.00	1.00	1.00

Taxes and Fees

The purpose of the Taxes Program is to provide appropriation for payment of city and state taxes.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Taxes and Fees	149,063,083	157,676,383	163,983,389	164,962,561

SPU - BO-SU-N100B - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide overall management and policy direction for Seattle Public Utilities and to provide core management and administrative services like finance, human resources, and facility management.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Citywide Indirect Costs	64,918,593	76,206,711	79,281,864	81,107,476
Departmental Indirect Costs	72,724,163	93,100,051	97,500,963	94,789,010
Divisional Indirect Costs	817,293	1,576,751	1,649,308	948,273
Indirect Cost Recovery Offset	(25,029,032)	(22,465,443)	(23,593,182)	(23,723,189)
Paid Time Off Indirect Costs	1,990,146	4,828,182	5,115,753	5,498,546
Pooled Benefits Indirect Costs	10,236,692	7,429,334	7,155,171	4,699,481
Total	125,657,854	160,675,587	167,109,877	163,319,597
Full-time Equivalents Total*	134.10	146.60	146.60	149.10

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle

Seattle Public Utilities

Information Technology Department.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Citywide Indirect Costs	64,918,593	76,206,711	79,281,864	81,107,476

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This may include personnel costs related to department leadership and administration or other administrative costs such as external rent and operating supplies or services.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Departmental Indirect Costs	72,724,163	93,100,051	97,500,963	94,789,010
Full Time Equivalents Total	134.10	142.60	142.60	144.10

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs program is to fund administrative costs generated by sub-departmental units.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Divisional Indirect Costs	817,293	1,576,751	1,649,308	948,273

Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery Offset program is to reflect the adjustment to the Leadership and Administration BSL occurring as a result of the Utility's general and administrative overhead allocation.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Indirect Cost Recovery Offset	(25,029,032)	(22,465,443)	(23,593,182)	(23,723,189)
Full Time Equivalents Total	-	2.00	2.00	3.00

Paid Time Off Indirect Costs

The purpose of the Paid Time Off program is to fund salary and benefit costs associated with City-provided leave benefits such as holiday pay, sick time, vacation time, executive leave or other leave benefits, including termination payouts for vacation and sick leave.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Paid Time Off Indirect Costs	1,990,146	4,828,182	5,115,753	5,498,546

Pooled Benefits Indirect Costs

Seattle Public Utilities

The purpose of the Pooled Benefits program is to fund department costs associated with health and dental insurance, workers compensation, and unemployment insurance contributions.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Pooled Benefits Indirect Costs	10,236,692	7,429,334	7,155,171	4,699,481
Full Time Equivalents Total	-	2.00	2.00	2.00

SPU - BO-SU-N200B - Utility Service and Operations

The purpose of the Utility Service and Operations Budget Summary Level is to fund the direct delivery of essential Customer Service programs and the operating expenses for Pre-Capital Planning & Development, Project Delivery, Drainage and Wastewater, Solid Waste, Water and General Fund programs.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Customer Service	21,890,786	26,943,476	28,305,841	27,566,565
Drainage System	7,764,145	9,787,486	10,166,616	10,489,973

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Utility Service and Operations Budget Summary Level:

Customer Service

The purpose of the Customer Service Program is to provide appropriation to manage and provide customer service support for the direct delivery of programs and services.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
------------------	-----------------	-----------------	------------------	------------------

Seattle Public Utilities

Customer Service	21,890,786	26,943,476	28,305,841	27,566,565
Full Time Equivalents Total	254.00	254.00	254.00	254.00

Drainage System

The purpose of the Drainage System Program is to provide appropriation for maintaining the drainage system, drainage conveyance, stormwater detention and green stormwater infrastructure.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Drainage System	7,764,145	9,787,486	10,166,616	10,489,973
Full Time Equivalents Total	2.00	2.00	2.00	5.00

DWW Facilities & Equip

The purpose of the DWW Facilities and Equipment Program is to provide appropriation for drainage and wastewater operating and decant facilities

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
DWW Facilities & Equip	1,709,482	1,117,803	1,167,430	967,089

DWW System Operations

The purpose of the DWW System Operations Program is to provide appropriation for drainage and wastewater overall system planning, system modeling and analysis, source control, compliance and outreach and education.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
DWW System Operations	24,803,105	34,909,392	35,945,885	36,846,651
Full Time Equivalents Total	1.00	2.00	2.00	3.00

Emergency Response

The Emergency Response Program provides appropriation to procure necessary equipment and provide maintenance and support services in case of emergencies.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Emergency Response	3,670,053	2,570,713	2,673,571	2,889,491

Engineering

The purpose of the Engineering Program is to provide engineering design and support services, construction inspection, and project management services to capital improvement projects and to the managers of facilities.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				

Seattle Public Utilities

Engineering	17,411,413	18,397,443	19,282,176	19,187,024
Full Time Equivalents Total	108.00	111.00	111.00	114.00

Pre-Capital Planning

The purpose of the Pre-Capital Planning Program is to support business case development, project plans, and options analysis. This program will capture all costs associated with a project that need to be expensed during its life cycle, including any post-construction monitoring and landscape maintenance.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Pre-Capital Planning	3,476,311	4,660,732	4,590,000	4,590,000

Solid Waste Facilities & Equip

The purpose of the Solid Waste Facilities & Equipment Program provides appropriation to maintain and support the solid waste facilities and landfills.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Solid Waste Facilities & Equip	5,600,287	5,516,432	5,739,947	6,557,691
Full Time Equivalents Total	1.00	1.00	1.00	1.00

Solid Waste Operations

The purpose of the Solid Waste Operations Program provides appropriation for overall solid waste system planning, operations of the transfer stations, solid waste outreach and management of the Local Hazardous Waste Mitigation Program (LHWMP).

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Solid Waste Operations	36,688,744	46,103,014	47,444,734	45,238,113
Full Time Equivalents Total	97.56	101.56	101.56	101.56

Wastewater System

The Wastewater System Program provides appropriation to maintain wastewater conveyance, pump stations and storage.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Wastewater System	10,631,782	14,886,515	15,614,374	15,011,011
Full Time Equivalents Total	233.05	233.05	233.05	233.05

Water Distribution System

The Water Distribution System Program provides appropriation to maintain water distribution conveyance, pump

Seattle Public Utilities

stations and reservoirs.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Water Distribution System	11,751,995	15,486,113	16,174,810	17,735,620
Full Time Equivalents Total	120.09	120.09	120.09	120.09

Water Facilities & Equipment

The Water Facilities & Equipment Program provides appropriation to maintain water storage facilities.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Water Facilities & Equipment	2,812,012	3,356,103	3,511,640	3,039,087

Water Supply & Transmssn System

The Water Supply and Transmission System Program provides appropriation to operate and maintain the water pipelines, reservoirs and water sheds.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Water Supply & Transmssn System	5,578,703	4,928,233	4,887,853	5,207,598

Water System Operations

The Water System Operations Program provides appropriation to plan and monitor the overall water system and water quality lab, and includes the work for the Cedar River Habitat conservation.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Water System Operations	35,119,652	30,029,858	31,548,142	34,450,193
Full Time Equivalents Total	137.00	137.00	137.00	137.00

Seattle Department of Transportation

SDOT - BC-TR-16000 - Central Waterfront

The purpose of the Central Waterfront Budget Summary Level is to design, manage, and construct improvements to the transportation infrastructure and public spaces along the Central Waterfront.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Central Waterfront	63,938,731	102,752,997	6,894,000	35,607,000
Total	63,938,731	102,752,997	6,894,000	35,607,000
Full-time Equivalents Total*	-	1.00	1.00	1.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Department of Transportation

SDOT - BC-TR-19001 - Major Maintenance/Replacement

The purpose of the Major Maintenance/Replacement Budget Summary Level is to provide maintenance and replacement of roads, trails, bike paths, bridges and structures.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Bridges & Structures	69,012,563	24,588,524	18,325,658	53,395,965
Landslide Mitigation	571,569	429,908	501,908	501,908
Roads	23,051,547	20,112,586	31,960,486	28,432,723
Sidewalk Maintenance	6,494,502	5,443,380	6,994,671	4,994,671
Signs, Signals and Markings	1,349,667	1,762,419	1,801,420	1,801,420
Streetcar Repair	72,723	850,000	-	-
Trails and Bike Paths	966,115	1,958,999	1,911,119	1,911,119
Urban Forestry	(9,265)	258,936	8,936	478,627
Total	101,509,421	55,404,752	61,504,198	91,516,433
Full-time Equivalents Total*	100.25	100.25	100.25	100.25

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Major Maintenance/Replacement Budget Summary Level:

Bridges & Structures

The purpose of Bridges and Structures Program is to provide for safe and efficient use of the city's bridges and structures to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Bridges & Structures	69,012,563	24,588,524	18,325,658	53,395,965
Full Time Equivalents Total	14.75	14.75	14.75	14.75

Landslide Mitigation

The purpose of the Landslide Mitigation Program is to proactively identify and address potential areas of landslide concerns that affect the right-of-way.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Landslide Mitigation	571,569	429,908	501,908	501,908
Full Time Equivalents Total	2.00	2.00	2.00	2.00

Roads

Seattle Department of Transportation

The purpose of the Roads program is to provide for the safe and efficient use of the city's roadways to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Roads	23,051,547	20,112,586	31,960,486	28,432,723
Full Time Equivalents Total	47.00	47.00	47.00	47.00

Sidewalk Maintenance

The purpose of Sidewalk Maintenance Program is to maintain and provide for safe and efficient use of the city's sidewalks to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Sidewalk Maintenance	6,494,502	5,443,380	6,994,671	4,994,671
Full Time Equivalents Total	6.00	6.00	6.00	6.00

Signs, Signals and Markings

The purpose of Signs, Signals and Markings Program is to design, plan and maintain the city's signs, signals, and street, sidewalk markings

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Signs, Signals and Markings	1,349,667	1,762,419	1,801,420	1,801,420
Full Time Equivalents Total	1.00	1.00	1.00	1.00

Streetcar Repair

The purpose of Streetcar Repair program is to repair and maintain the city's streetcar lines to ensure safe, efficient movement of people, goods and services throughout the city.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Streetcar Repair	72,723	850,000	-	-

Trails and Bike Paths

The purpose of Trails and Bike Paths Program is to maintain and provide for safe and efficient use of the city's trails and bike paths to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Trails and Bike Paths	966,115	1,958,999	1,911,119	1,911,119

Seattle Department of Transportation

Full Time Equivalents Total 27.75 27.75 27.75 27.75

Urban Forestry

The Tree and Landscape Maintenance program provides services to implement the citywide Urban Forestry Management Plan through education, stewardship, protection and maintenance of SDOT's green infrastructure assets including trees and landscapes. Arborists, Foresters, and the Landscape Architect provide design guidance, construction management support, citywide policy guidance and implementation including street tree permitting. Urban Forestry field operations provides critical maintenance of more than 40,000 SDOT street use tree assets and emergency response to over 350,000 right-of-way trees. Field operations is also responsible for the maintenance and operation of more than 200 formally landscaped right-of-way areas such as medians along Beacon Avenue South and Sand Point Way NE.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Urban Forestry	(9,265)	258,936	8,936	478,627
Full Time Equivalents Total	1.75	1.75	1.75	1.75

SDOT - BC-TR-19002 - Major Projects

The purpose of the Major Projects Budget Summary Level is to design, manage and construct improvements to the transportation infrastructure for the benefit of the traveling public including freight, transit, other public agencies, pedestrians, bicyclists and motorists.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Alaskan Way Viaduct	1,601,590	-	-	-
First Hill Streetcar	9,334	-	-	-
Mercer West	521	-	-	-
SR-520	1,294,196	1,922,000	1,971,000	1,971,000
Total	2,905,641	1,922,000	1,971,000	1,971,000

The following information summarizes the programs in Major Projects Budget Summary Level:

Alaskan Way Viaduct

The purpose of the Alaskan Way Viaduct and Seawall Replacement Program is to fund the City's involvement in the replacement of the seismically-vulnerable viaduct and seawall. The Alaskan Way Viaduct is part of State Route 99, which carries one-quarter of the north-south traffic through downtown Seattle and is a major truck route serving the city's industrial areas

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
------------------	-----------------	-----------------	------------------	------------------

Seattle Department of Transportation

Alaskan Way Viaduct	1,601,590	-	-	-
Full Time Equivalents Total	23.00	23.00	23.00	23.00

First Hill Streetcar

The purpose of the First Hill Streetcar program is to construct a Streetcar system that connects major medical facilities, Seattle Central College, Seattle University, and mixed income communities to the King Street mobility hub.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
First Hill Streetcar	9,334	-	-	-

Mercer West

The purpose of the Mercer West Program is to use existing street capacity along the west portion of Mercer Street more efficiently and enhance all modes of travel, including pedestrian mobility, and provide an east/west connection between I-5, State Route 99, and Elliott Ave W.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Mercer West	521	-	-	-

SR-520

The purpose of the SR-520 Program is to provide policy, planning and technical analysis support and to act as the City's representative in a multi-agency group working on the replacement of the State Route 520 bridge.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
SR-520	1,294,196	1,922,000	1,971,000	1,971,000
Full Time Equivalents Total	1.50	1.50	1.50	1.50

Seattle Department of Transportation

SDOT - BC-TR-19003 - Mobility-Capital

The purpose of the Mobility-Capital Budget Summary Level is to help maximize the movement of traffic throughout the city by enhancing all modes of transportation including corridor and intersection improvements, transit and HOV improvements, and sidewalk and pedestrian facilities.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Corridor & Intersection Imprv	32,414,400	48,042,051	38,134,038	51,962,066
Freight Mobility	5,542,602	14,721,193	2,807,000	43,769,140
Intelligent Transp System	7,582,142	1,377,719	1,323,096	1,323,095
Neighborhood Enhancements	6,304,743	4,942,558	6,374,295	6,374,504
New Trails and Bike Paths	12,196,718	39,056,330	11,476,952	20,928,952
Sidewalks & Ped Facilities	28,371,053	37,626,160	33,525,037	34,429,718
Transit & HOV	64,997,836	90,419,697	64,302,037	81,745,746
Total	157,409,495	236,185,709	157,942,455	240,533,221
Full-time Equivalents Total*	144.50	161.50	161.50	163.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Mobility-Capital Budget Summary Level:

Corridor & Intersection Imprv

The purpose of the Corridor & Intersection Improvements Program is to analyze and make improvements to corridors and intersections to move traffic more efficiently. Examples of projects include signal timing, left turn signals and street improvements.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Corridor & Intersection Imprv	32,414,400	48,042,051	38,134,038	51,962,066
Full Time Equivalents Total	38.50	39.50	39.50	39.50

Freight Mobility

The purpose of the Freight Mobility Program is to help move freight throughout the city in a safe and efficient manner.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Freight Mobility	5,542,602	14,721,193	2,807,000	43,769,140
Full Time Equivalents Total	4.50	4.50	4.50	4.50

Intelligent Transp System

Seattle Department of Transportation

The purpose of the Intelligent Transportation System (ITS) Program is to fund projects identified in the City's ITS Strategic Plan and ITS Master Plan. Examples of projects include implementation of transit signal priority strategies; installation of closed-circuit television (CCTV) cameras to monitor traffic in key corridors; and development of parking guidance, traveler information and real-time traffic control systems.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Intelligent Transp System	7,582,142	1,377,719	1,323,096	1,323,095
Full Time Equivalents Total	9.25	9.25	9.25	9.25

Neighborhood Enhancements

The purpose of the Neighborhood Enhancements Program is to plan and forecast the needs of specific neighborhoods including neighborhood and corridor planning, development of the coordinated transportation plans, traffic control spot improvements and travel forecasting. The program also constructs minor improvements in neighborhoods based on these assessments.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Neighborhood Enhancements	6,304,743	4,942,558	6,374,295	6,374,504
Full Time Equivalents Total	19.75	19.75	19.75	21.25

New Trails and Bike Paths

The purpose of the New Trails and Bike Paths Program is to construct new trails and bike paths that connect with existing facilities to let users transverse the city on a dedicated network of trails and paths.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
New Trails and Bike Paths	12,196,718	39,056,330	11,476,952	20,928,952
Full Time Equivalents Total	1.00	2.00	2.00	2.00

Sidewalks & Ped Facilities

The purpose of the Sidewalks & Pedestrian Facilities Program is to install new facilities that help pedestrians move safely along the city's sidewalks by installing or replacing sidewalks, modifying existing sidewalks for elderly and handicapped accessibility, and increasing pedestrian lighting.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Sidewalks & Ped Facilities	28,371,053	37,626,160	33,525,037	34,429,718
Full Time Equivalents Total	57.50	60.50	60.50	60.50

Transit & HOV

The purpose of the Transit & HOV Program is to move more people in less time throughout the city.

Expenditures/FTE	2022	2023	2024	2024
-------------------------	-------------	-------------	-------------	-------------

Seattle Department of Transportation

	Actuals	Adopted	Endorsed	Proposed
Transit & HOV	64,997,836	90,419,697	64,302,037	81,745,746
Full Time Equivalents Total	14.00	26.00	26.00	26.00

SDOT - BO-TR-12001 - South Lake Union Streetcar Operations

The purpose of the South Lake Union Streetcar Operations Budget Summary Level is to operate and maintain the South Lake Union Seattle Streetcar.

Program Expenditures	2022	2023	2024	2024
	Actuals	Adopted	Endorsed	Proposed
S Lake Union Streetcar Ops	1,340,142	4,474,986	4,629,820	4,629,820
Total	1,340,142	4,474,986	4,629,820	4,629,820

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-12002 - First Hill Streetcar Operations

The purpose of the First Hill Streetcar Operations Budget Summary Level is to operate and maintain the First Hill Seattle Streetcar.

Program Expenditures	2022	2023	2024	2024
	Actuals	Adopted	Endorsed	Proposed
First Hill Streetcar Ops	6,994,277	9,748,428	9,759,837	9,759,837
Total	6,994,277	9,748,428	9,759,837	9,759,837

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-16000 - Waterfront and Civic Projects

The purpose of the Waterfront and Civic Projects Summary Level is to pay for expenses related to reimbursable design and construction services provided by the Central Waterfront program for other City departments and external partners. Additionally, the BSL provides planning and leadership support for other Civic Projects.

Program Expenditures	2022	2023	2024	2024
	Actuals	Adopted	Endorsed	Proposed
Waterfront and Civic Projects	15,160,154	33,641,776	34,810,833	34,810,833
Total	15,160,154	33,641,776	34,810,833	34,810,833
Full-time Equivalents Total*	-	1.00	1.00	1.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Department of Transportation

SDOT - BO-TR-17001 - Bridges & Structures

The purpose of the Bridges and Structures Budget Summary Level is to maintain the City's bridges and structures which helps provide for the safe and efficient movement of people, goods, and services throughout the City. Additionally, the BSL provides general construction management, engineering support for street vacations, scoping of neighborhood projects, and other transportation activities requiring engineering oversight.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Bridge Operations	4,517,236	4,133,682	4,257,500	4,257,500
Engineering & Ops Support	756,797	1,675,644	1,728,589	888,607
Structures Engineering	1,518,498	1,433,213	1,477,679	1,777,741
Structures Maintenance	7,742,359	9,937,416	10,241,547	9,721,040
Total	14,534,890	17,179,955	17,705,315	16,644,888
Full-time Equivalents Total*	59.00	59.00	59.00	62.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Bridges & Structures Budget Summary Level:

Bridge Operations

The purpose of Bridge Operations is to ensure the safe and efficient operations and preventive maintenance for over 180 bridges throughout the city.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Bridge Operations	4,517,236	4,133,682	4,257,500	4,257,500
Full Time Equivalents Total	17.50	17.50	17.50	17.50

Engineering & Ops Support

The purpose of the Engineering Ops & Support program is to provide engineering support services to other SDOT projects, perform engineering related to bridges and structures, and manage stormwater pollution control.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Engineering & Ops Support	756,797	1,675,644	1,728,589	888,607
Full Time Equivalents Total	3.00	3.00	3.00	3.00

Structures Engineering

The purpose of the Structures Engineering Program is to provide engineering services on all the bridges and structures within the city to ensure the safety of transportation users as they use or move in proximity to these transportation facilities.

Seattle Department of Transportation

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Structures Engineering	1,518,498	1,433,213	1,477,679	1,777,741
Full Time Equivalents Total	3.50	3.50	3.50	6.50

Structures Maintenance

The purpose of the Structures Maintenance Program is to provide for the maintenance of the city's bridges, roadside structures and stairways.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Structures Maintenance	7,742,359	9,937,416	10,241,547	9,721,040
Full Time Equivalents Total	35.00	35.00	35.00	35.00

SDOT - BO-TR-17003 - Mobility Operations

The purpose of the Mobility-Operations Budget Summary Level is to promote the safe and efficient operation of all transportation modes in the city. This includes managing the parking, pedestrian, and bicycle infrastructure; implementing neighborhood plans; encouraging alternative modes of transportation; and maintaining and improving signals and the non-electrical transportation management infrastructure.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Commuter Mobility	19,829,550	19,674,882	20,371,191	20,182,279
Neighborhoods	1,857,364	1,259,959	1,300,528	702,543
Parking & Curbspace	14,254,880	15,044,325	15,429,497	17,048,725
Signs & Markings	5,132,485	4,910,309	5,054,343	5,031,159
Traffic Signals	9,500,877	11,118,107	11,459,777	11,459,777
Transit Operations	27,207,059	44,492,330	46,165,775	46,165,775
Urban Planning	5,488,769	4,444,109	4,325,583	4,325,583
Total	83,270,984	100,944,021	104,106,694	104,915,841
Full-time Equivalents Total*	147.75	153.75	153.75	173.75

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Mobility Operations Budget Summary Level:

Commuter Mobility

The purpose of the Commuter Mobility Program is to provide a variety of services, including enforcement of City commercial vehicle limits, transit coordination, and planning, to increase mobility and transportation options to the residents of Seattle.

Expenditures/FTE	2022	2023	2024	2024
------------------	------	------	------	------

Seattle Department of Transportation

	Actuals	Adopted	Endorsed	Proposed
Commuter Mobility	19,829,550	19,674,882	20,371,191	20,182,279
Full Time Equivalents Total	51.25	53.25	53.25	58.25

Neighborhoods

The purpose of the Neighborhoods Program is to plan and forecast the needs of specific neighborhoods including neighborhood and corridor planning, development of the coordinated transportation plans, traffic control spot improvements and travel forecasting. The program also constructs minor improvements in neighborhoods based on these assessments.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Neighborhoods	1,857,364	1,259,959	1,300,528	702,543
Full Time Equivalents Total	2.50	2.50	2.50	2.50

Parking & Curbspace

The purpose of Parking and Curb Ramp Program is to manage the City's parking resources, maintain and operate pay stations and parking meters for on-street parking, manage curbspace, develop and manage the City's carpool program and Residential Parking Zones.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Parking & Curbspace	14,254,880	15,044,325	15,429,497	17,048,725
Full Time Equivalents Total	32.00	34.00	34.00	34.00

Signs & Markings

The purpose of the Signs & Markings Program is to design, fabricate and install signage, as well as provide pavement, curb and crosswalk markings to facilitate the safe movement of vehicles, pedestrians and bicyclists throughout the city.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Signs & Markings	5,132,485	4,910,309	5,054,343	5,031,159
Full Time Equivalents Total	22.50	22.50	22.50	22.50

Traffic Signals

The purpose of the Traffic Signals Program is to operate the Traffic Management Center that monitors traffic movement within the city and to maintain and improve signals and other electrical transportation management infrastructure.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Traffic Signals	9,500,877	11,118,107	11,459,777	11,459,777

Seattle Department of Transportation

Full Time Equivalents Total	25.25	25.25	25.25	33.25
-----------------------------	-------	-------	-------	-------

Transit Operations

The Purpose of the Transit Operations Program is to purchase Metro Transit service hours on transit routes with at least 65% of the stops within the city of Seattle and transit service to address emerging transportation needs. The program also funds ORCA Opportunity which provides ORCA cards for Seattle Public School, High School and low-income Middle School Students, Seattle Promise scholars, and income-eligible adults and seniors. In addition, the program includes community engagement, training, resources and partnerships to increase transit access for low-income riders. The Transit Operations program revenues support the implementation of City-wide improvements to maximize transit operations.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Transit Operations	27,207,059	44,492,330	46,165,775	46,165,775
Full Time Equivalents Total	3.75	4.75	4.75	5.75

Urban Planning

The Urban Planning Program is comprised of Adaptive Streets, Citywide & Community Planning, GIS, Urban Design, and the Center City Mobility Plan.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Urban Planning	5,488,769	4,444,109	4,325,583	4,325,583
Full Time Equivalents Total	10.50	11.50	11.50	17.50

SDOT - BO-TR-17004 - ROW Management

The purpose of the (Right-of-Way) ROW Management Budget Summary Level is to review projects throughout the city for code compliance for uses of the right-of-way and to provide plan review, utility permit and street use permit issuance, and utility inspection and mapping services.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
St Use Permit & Enforcement	39,945,423	46,547,211	47,974,607	49,842,440
Street Use Contingent Budget	-	1,000,000	1,035,000	1,000,000
Total	39,945,423	47,547,211	49,009,607	50,842,440
Full-time Equivalents Total*	140.25	140.25	140.25	140.25

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in ROW Management Budget Summary Level:

St Use Permit & Enforcement

Seattle Department of Transportation

The purpose of the Street Use Permitting and Enforcement is to review projects throughout the city for code compliance for uses of right-of-way and to provide plan review, utility permit and street use permit issuance, and utility inspection and mapping services.

	2022	2023	2024	2024
Expenditures/FTE	Actuals	Adopted	Endorsed	Proposed
St Use Permit & Enforcement	39,945,423	46,547,211	47,974,607	49,842,440
Full Time Equivalents Total	140.25	140.25	140.25	140.25

Street Use Contingent Budget

The purpose of the Street Use Contingent Budget Program is to display the amount of unallocated Contingent Budget Authority (CBA) in the Right of Way Management BSL that has not been accessed. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

	2022	2023	2024	2024
Expenditures/FTE	Actuals	Adopted	Endorsed	Proposed
Street Use Contingent Budget	-	1,000,000	1,035,000	1,000,000

SDOT - BO-TR-17005 - Maintenance Operations

The purpose of the Maintenance Operations Budget Summary Level is to maintain the City's roadways and sidewalks; maintain, protect and expand the City's urban landscape in the street right-of-way through the maintenance and planting of new trees and landscaping to enhance the environment and aesthetics of the city; and manage and administer street parking rules and regulations in the right-of-way.

Program Expenditures	2022	2023	2024	2024
	Actuals	Adopted	Endorsed	Proposed
Emergency Response	14,733,864	7,855,955	8,095,644	10,095,644
Operations Support	5,861,444	9,962,598	10,145,767	10,095,744
Pavement Management/Repair	13,303,908	17,405,921	17,915,680	19,415,680
Street Cleaning	6,912,302	8,978,039	9,201,492	9,201,492
Tree & Landscape Maintenance	6,078,229	6,604,187	6,794,638	6,894,638
Total	46,889,747	50,806,700	52,153,221	55,703,198
Full-time Equivalents Total*	145.50	163.50	163.50	200.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Maintenance Operations Budget Summary Level:

Emergency Response

The purpose of the Emergency Response Program is to respond to safety and mobility issues such as pavement collapses, severe weather, landslides and other emergencies to make the right-of-way safe for moving people and goods. This program proactively addresses landslide hazards to keep the right-of-way open and safe.

Seattle Department of Transportation

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Emergency Response	14,733,864	7,855,955	8,095,644	10,095,644
Full Time Equivalents Total	19.00	19.00	19.00	19.00

Operations Support

The purpose of the Operations Support Program is to provide essential operating support services necessary for the daily operation of SDOT's equipment and field workers dispatched from three field locations in support of street maintenance activities. These functions include warehousing, bulk material supply and management, tool cleaning and repair, equipment maintenance and repair, project accounting and technical support, and crew supervision.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Operations Support	5,861,444	9,962,598	10,145,767	10,095,744
Full Time Equivalents Total	23.50	41.50	41.50	66.50

Pavement Management/Repair

The purpose of the Pavement Management and Repair Program is to assess the condition of asphalt and concrete pavements and establish citywide paving priorities for annual resurfacing, preservation and maintenance of all streets and adjacent areas such as sidewalks and road shoulders by making spot repairs and conducting annual major maintenance paving and rehabilitation.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Pavement Management/Repair	13,303,908	17,405,921	17,915,680	19,415,680
Full Time Equivalents Total	57.25	57.25	57.25	68.25

Street Cleaning

The purpose of the Street Cleaning Program is to keep Seattle's streets, improved alleys, stairways and pathways clean, safe and environmentally friendly by conducting sweeping, hand-cleaning, flushing and mowing on a regular schedule.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Street Cleaning	6,912,302	8,978,039	9,201,492	9,201,492
Full Time Equivalents Total	22.50	22.50	22.50	22.50

Tree & Landscape Maintenance

The purpose of the Landscape & Tree Maintenance Program is to provide planning, design, construction and construction inspection services for landscape elements of transportation capital projects, as well as guidance to developers on the preservation of city street trees and landscaped sites during construction.

	2022	2023	2024	2024
Expenditures/FTE				

Seattle Department of Transportation

	Actuals	Adopted	Endorsed	Proposed
Tree & Landscape Maintenance	6,078,229	6,604,187	6,794,638	6,894,638
Full Time Equivalents Total	23.25	23.25	23.25	24.25

SDOT - BO-TR-17006 - Parking Enforcement

The purpose of the Parking Enforcement Budget Summary Level is to help manage the right-of-way by enforcing parking regulations, providing traffic control for events and incidents, and performing other related activities.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Parking Enforcement	20,773,599	-	-	-
Total	20,773,599	-	-	-
Full-time Equivalents Total*	120.00	(2.00)	(2.00)	(2.00)

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-18001 - Leadership and Administration

The purpose of the Leadership & Administration Budget Summary Level is to provide executive, community, financial, human resource, technology and business support to the Seattle Department of Transportation.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed

Indirect Cost Recovery Offset	(87,933,786)	(93,137,702)	(94,710,266)	(97,043,975)
Pooled Benefits and PTO	588,532	-	-	(201,972)
Total	(4,454,076)	-	-	-
Full-time Equivalents Total*	232.75	242.25	241.25	249.25

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The Purpose of Citywide Indirect Cost Program is to allocate the City's general service costs to SDOT in a way that benefits the delivery of transportation services to the public.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
------------------	-----------------	-----------------	------------------	------------------

Seattle Department of Transportation

Citywide Indirect Costs 48,424,354 54,096,018 56,788,106 59,211,546

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs Program is to provide departmental leadership and operations support essential to accomplish the mission and goals of the department. The Office of the Director and the Finance & Administration Division are the two divisions included in this program. The Office of the Director oversees and provides strategic leadership and guidance for all the functions, staff, and services of the department, guiding and shaping SDOT's priorities and work plans to attain the vision, mission and goals of the department. In addition to guiding the overall work of the department, the Office of the Director houses the department's Human Resources, Communications, Office of Equity and Economic Inclusion, Emergency Management and Government and Council Relations functions. The Finance and Administration Division supports all SDOT programs, projects, and business activities by providing a wide variety of services, including: financial and accounting services; payroll services; consultant contract and procurement support; management of SDOT's facilities, fleet, radio communications network; assets condition review and management; performance management, data reporting and public dashboards; real property management, acquisition and surplus performance management; claims investigation and legal services; environmental hazardous waste management; safety and employee health support services; and IT project and service coordination.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Departmental Indirect Costs	19,757,432	23,937,510	23,108,941	23,657,982
Full Time Equivalents Total	129.50	139.00	138.00	146.00

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Program is to provide division leadership and unique transportation technical expertise to accomplish the division's goals and objectives in support of the department's mission.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Divisional Indirect Costs	14,709,393	15,104,174	14,813,219	14,376,419
Full Time Equivalents Total	103.25	103.25	103.25	103.25

Indirect Cost Recovery Offset

Indirect Cost Recovery Offset Program includes Department Management Indirect cost recovery and General Expense Indirect Cost Recovery. This program equitably recovers and allocates departmental and general expense indirect cost from all transportation activities and capital projects to fund departmental management and support services essential for delivery of transportation service to the public.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Indirect Cost Recovery Offset	(87,933,786)	(93,137,702)	(94,710,266)	(97,043,975)

Pooled Benefits and PTO

This budget program contains the funding associated with employee leave, time off, and benefit-related costs for Workers' Compensation, healthcare and other centrally distributed benefit costs.

Seattle Department of Transportation

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Pooled Benefits and PTO	588,532	-	-	(201,972)

SDOT - BO-TR-18002 - General Expense

The purpose of the General Expense Budget Summary Level is to pay for general business expenses necessary to the overall delivery of transportation services, such as Judgment and Claims contributions and debt service payments.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Citywide Initiatives	5,266,495	5,526,192	10,218,977	10,218,977
Debt Service	49,154,471	38,211,552	40,429,349	41,665,167
Judgment & Claims	12,796,220	8,550,422	8,721,431	7,320,249
Total	67,217,186	52,288,166	59,369,757	59,204,393

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in General Expense Budget Summary Level:

Citywide Initiatives

The purpose of the Citywide Initiatives program is to support citywide or multi-departmental system or process improvement initiatives.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Citywide Initiatives	5,266,495	5,526,192	10,218,977	10,218,977

Debt Service

The purpose of Debt Service Program is to meet principal repayment and interest obligations on debt proceeds that are appropriated in SDOT's Budget

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Debt Service	49,154,471	38,211,552	40,429,349	41,665,167

Judgment & Claims

The purpose of the Judgement & Claims Program is to represent SDOT's annual contribution to the City's centralized self-insurance pool from which court judgements and claims against the city are paid.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
------------------	-----------------	-----------------	------------------	------------------

Seattle Department of Transportation

Judgment & Claims	12,796,220	8,550,422	8,721,431	7,320,249

Office of Sustainability and Environment

OSE - BO-SE-X1000 - Office of Sustainability and Environment

The purpose of the Office of Sustainability and Environment Budget Summary Level is to coordinate interdepartmental environmental sustainability initiatives, identify and develop next generation policies and programs, and lead the City's climate change action planning to move towards carbon neutrality.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Office of Sustainability and Environment	13,961,251	29,122,634	31,203,231	30,555,929
Total	13,961,251	29,122,634	31,203,231	30,555,929
Full-time Equivalents Total*	31.50	39.50	39.50	46.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Office of the City Auditor

AUD - BO-AD-VG000 - Office of the City Auditor

The purpose of the Office of City Auditor Budget Summary Level is to provide unbiased analyses and objective recommendations to assist the City in using public resources more equitably, efficiently and effectively in delivering services to the public.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Office of the City Auditor	2,522,998	2,276,049	2,304,507	2,303,606
Total	2,522,998	2,276,049	2,304,507	2,303,606
Full-time Equivalents Total*	10.00	10.00	10.00	10.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

City Budget Office

CBO - BO-CB-CZ000 - City Budget Office

The purpose of the City Budget Office Budget Summary Level is to develop and monitor the budget, carry out budget-related functions, oversee financial policies and plans, support and advance Citywide innovation and performance measurement, and provide financial and other strategic analysis.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
City Budget Office	8,737,769	8,215,845	8,887,054	10,023,143
Total	8,737,769	8,215,845	8,887,054	10,023,143

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Civil Service Commissions

CIV - BO-VC-V1 CIV - Civil Service Commissions

The purpose of the Civil Service Commissions Budget Summary Level is to support, advise, and execute the work of two independent commissions, the Public Safety Civil Service Commission (PSCSC) and the Civil Service Commission (CSC). The PSCSC administers entry and promotional civil service exams for ranks in the Seattle Police and Fire departments, and conducts hearings on sworn police and uniformed firefighter employee appeals of discipline and other employment matters. The CSC conducts hearings on employment-related appeals filed by non-PSCSC civil service covered employees, investigates allegations of political patronage in hiring, and advises on the administration of the City’s personnel system.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Civil Service Commissions	609,411	895,020	919,137	887,604
Total	609,411	895,020	919,137	887,604
Full-time Equivalents Total*	2.00	3.00	3.00	3.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Office of Economic and Revenue Forecasts

ERF - BO-ER-10000 - Economic and Revenue Forecasts

The purpose of the Economic and Revenue Forecasts Budget Summary Level is to provide support to the Forecast Council, perform economic and revenue forecasts, conduct special studies at the request of the Forecast Council, and provide ad hoc analytical support on economic and revenue estimation for legislative and executive staff consistent with the work program.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Economic and Revenue Forecasts	559,381	702,468	706,419	840,469
Total	559,381	702,468	706,419	840,469
Full-time Equivalents Total*	3.00	3.00	3.00	3.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Office of the Employee Ombud

OEO - BO-EM-V10MB - Office of Employee Ombud

The purpose of the Office of Employee Ombud (OEO) Budget Summary Level is to support City of Seattle employees in navigating the City's conflict management system, including processes related to harassment, discrimination, and misconduct. OEO provides recommendations to the Mayor and City Council on policies and procedures that can help create an inclusive and respectful workplace environment.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Employee Ombud Office	986,567	1,151,997	1,159,529	1,161,436
Total	986,567	1,151,997	1,159,529	1,161,436
Full-time Equivalent Total*	6.00	6.00	6.00	6.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Employees' Retirement System

RET - BO-RE-R1E00 - Employee Benefit Management

The purpose of the Employees' Retirement Budget Summary Level is to manage and administer retirement assets and benefits.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Employee Benefit Management	8,720,139	10,474,069	10,525,831	10,699,553
Total	8,720,139	10,474,069	10,525,831	10,699,553
Full-time Equivalents Total*	27.00	28.50	30.50	30.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Ethics and Elections Commission

ETH - BO-ET-V1T00 - Ethics and Elections

The purpose of the Ethics and Elections Budget Summary Level is to: 1) audit, investigate, and conduct hearings regarding non-compliance with, or violations of, Commission-administered ordinances; 2) advise all City officials and employees of their obligations under Commission-administered ordinances; and 3) publish and broadly distribute information about the City's ethical standards, City election campaigns, campaign financial disclosure statements, and lobbyist disclosure statements.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Ethics and Elections	1,380,237	1,276,345	1,298,509	1,307,846
Total	1,380,237	1,276,345	1,298,509	1,307,846
Full-time Equivalent Total*	5.90	5.90	5.90	5.90

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

ETH - BO-ET-VT123 - Election Vouchers

The purpose of the Election Voucher Budget Summary Level is to pay costs associated with implementing, maintaining and funding a program for providing one hundred dollars in vouchers to eligible Seattle residents that they can contribute to candidates for City office who qualify to participate in the Election Voucher program enacted by voters in November 2015.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Election Vouchers	667,039	6,735,048	882,245	3,005,184
Total	667,039	6,735,048	882,245	3,005,184
Full-time Equivalent Total*	3.50	3.50	3.50	3.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Department of Finance and Administrative Services

FAS - BC-FA-A1IT - Information Technology

The purpose of the Information Technology Budget Summary Level is to replace, upgrade or maintain FAS information technology systems to meet the evolving enterprise activities of the City.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Information Technology	9,846,064	18,854,023	17,802,230	4,905,823
Summit Re-Impl Dept Cap Needs	817,193	-	-	-

Total	25,535,858	28,892,838	30,189,042	29,904,383
Full-time Equivalents Total*	82.75	81.50	80.50	81.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Chief of Staff

This budget program contains the funding associated with the leadership and accountability of core administrative support to ITD's divisions. These efforts include the oversight of ITD's talent, workforce planning and training, communications, finance, corporate performance, and organizational change management.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Chief of Staff	-	-	-	-

Chief Privacy Office

This budget program provides oversight and guidance required for City Departments to incorporate appropriate privacy and surveillance ordinance compliance practices into City operations with the objective of building public trust and confidence in how we collect and manage the public's personal information.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Chief Privacy Office	-	-	-	-

Seattle Information Technology Department

Full Time Equivalents Total 1.00 - - -

Citywide Indirect Costs

This budget program contains the funding associated with the various overhead costs charged to Seattle IT, including budget and expenses that have been allocated from other City departments.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Citywide Indirect Costs	13,197,802	7,027,634	7,723,031	7,755,102

CTO / Executive Team

This budget program contains the funding associated with the Chief Technology Officer (CTO) and the Seattle IT Executive Team. The CTO sets technology standards and strategies to ensure the City's technology investments are used efficiently and effectively.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
CTO / Executive Team	-	-	-	-

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department including executive, financial, communications, human resources, business support, and strategic planning and analysis services. It also includes the costs for the City's Privacy and Surveillance program.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Departmental Indirect Costs	17,749,254	21,884,867	22,523,094	22,164,150
Full Time Equivalents Total	81.75	81.50	80.50	81.50

Executive Advisor

This budget program contains funding for key administrative support functions including process improvement, governance, interdepartmental service delivery, support for ITD's Racial Social Justice Initiative and community focused technology strategies.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Executive Advisor	-	-	-	-

Indirect Cost Recovery Offset

This budget program is used for the indirect cost recovery of Citywide and Departmental indirect costs incurred by Seattle IT.

	2022	2023	2024	2024
Expenditures/FTE				

Seattle Information Technology Department

	Actuals	Adopted	Endorsed	Proposed
Indirect Cost Recovery Offset	(6,405,296)	-	-	-

Pooled Benefits and PTO

This budget program contains the funding associated with employee leave, time off, and benefit-related costs for Workers' Compensation, healthcare and other centrally distributed benefit costs for Seattle IT staff.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Pooled Benefits and PTO	994,098	(19,663)	(57,083)	(14,869)

ITD - BO-IT-D0200 - Cable Franchise

The purpose of the Cable Fee Support to Information Technology Fund Budget Control Level is to authorize the transfer of resources from the Cable Television Franchise Fund to the Seattle Information Technology Department's Information Technology Fund. These resources are used by the department for a variety of programs consistent with Resolution 30379.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Program Expenditures				
Cable Franchise for Info Tech	5,446,883	6,942,639	7,089,562	7,203,147

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Information Technology Department

ITD - BO-IT-D0600 - Applications

The Applications Services Budget Summary Level designs, develops, and supports application solutions for both individual business and enterprise platform needs. In addition, it advances several IT functions, practices, and services such as vendor management, enterprise architecture, automation, quality assurance and analytics.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Business Applications	21,417,279	25,538,132	25,938,466	27,022,402
Department Initiatives	31,598,412	46,880,141	40,514,603	44,679,497
Platform Applications	20,856,791	24,167,597	24,993,989	26,347,794
Service Modernization	10,768,424	12,257,704	12,599,790	13,080,547
Total	84,640,907	108,843,573	104,046,848	111,130,240
Full-time Equivalents Total*	237.59	274.87	276.87	284.87

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Applications Budget Summary Level:

Business Applications

This budget program contains funding to design, develop, support application solutions that are focused towards individual business needs, in accordance with Citywide architecture and governance. Major business applications include Financial, HRIS, Police & Fire, Customer Care Billing (Utility), and Work Order Asset Management Systems.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Business Applications	21,417,279	25,538,132	25,938,466	27,022,402
Full Time Equivalents Total	52.50	51.50	54.50	54.50

Department Initiatives

This budget program contains funding to citywide or department-specific IT projects and initiatives that are outside the scope of Seattle ITD's Capital Improvement Program (CIP).

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Department Initiatives	31,598,412	46,880,141	40,514,603	44,679,497
Full Time Equivalents Total	75.59	100.12	99.12	107.12

Platform Applications

This budget program contains funding to design, develop, and support solutions for enterprise platform applications and middleware in accordance with Citywide architecture and governance. Major platform applications include GIS & CADD, Permitting, and Customer Relationship Management systems.

Seattle Information Technology Department

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Platform Applications	20,856,791	24,167,597	24,993,989	26,347,794
Full Time Equivalents Total	72.50	79.25	79.25	79.25

Service Modernization

This budget program contains funding to mature and advance essential IT functions, practices and services including vendor management, enterprise architecture, quality assurance, and business intelligence and analytics.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Service Modernization	10,768,424	12,257,704	12,599,790	13,080,547
Full Time Equivalents Total	37.00	44.00	44.00	44.00

ITD - BO-IT-D0800 - Client Solutions

The Client Solutions Budget Summary Level provides account management and support for Seattle IT customers, which includes services that build and mature relationships, support and facilitate strategic planning, guide technology learning and decisions through customer innovation labs, establish standards for Project Management and Business Analysis services for all IT projects, facilitate IT project intake analysis, and support consistent communication and customer service practices across all customer-facing divisions.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Client Solutions	3,931,847	5,281,349	5,474,284	5,859,895
Total	3,931,847	5,281,349	5,474,284	5,859,895
Full-time Equivalents Total*	25.66	24.88	24.88	24.88

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Office of Intergovernmental Relations

OIR - BO-IR-X1G00 - Office of Intergovernmental Relations

The purpose of the Intergovernmental Relations Budget Summary Level is to promote and protect the City's federal, state, regional, tribal, and international interests by providing strategic advice, representation, and advocacy to, and on behalf of, City elected officials on a variety of issues. These include: federal and state executive and legislative actions; issues and events relating to the City's tribal and international relations; and jurisdictional issues involving King County, suburban cities, and regional governmental organizations.

Program Expenditures	2022	2023	2024	2024
	Actuals	Adopted	Endorsed	Proposed
Office of Intergovernmental Relations	3,112,667	3,105,778	3,141,485	3,141,412
Total	3,112,667	3,105,778	3,141,485	3,141,412
Full-time Equivalent Total*	10.00	10.00	10.00	10.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Legislative Department

LEG - BO-LG-G1000 - Legislative Department

The purpose of the Legislative Department Budget Summary Level is to set policy, enact City laws, approve the City's budget, provide oversight of City departments, and support the mission of the Council.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Central Staff	3,789,091	3,916,042	3,929,376	3,953,710
City Clerk	4,090,255	3,995,991	4,022,558	4,048,016
City Council	6,428,578	7,798,831	7,840,942	7,879,007
Total	14,307,924	15,710,864	15,792,875	15,880,733

City of Seattle - 2023-2024 Proposed Mid-Biennial Budget Adjustments

482

Office of the Mayor

MO - BO-MA-X1A00 - Office of the Mayor

The purpose of the Office of the Mayor Budget Summary Level is to provide executive leadership to support City departments, engage and be responsive to residents of the city, develop policy for the City, and provide executive administrative and management support to the City.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Office of the Mayor	7,712,882	10,406,048	9,919,971	11,894,072
Total	7,712,882	10,406,048	9,919,971	11,894,072
Full-time Equivalents Total*	39.50	40.50	40.50	40.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Summary of Position and Full-Time Equivalent (FTE) Changes by Department

The following tables provide a summary of total position and FTE changes by department for 2024. Position counts for a department may exceed FTE counts as position counts tally part-time positions as discrete items.

Summary of Position Changes by Department

The Library's position list is established by the Library Board of Trustees, and positions for the Police and Firefighter Pension funds are set by their respective board members.

2024 Proposed Changes: Includes the position changes in the 2024 Proposed Budget, plus positions that were approved by Council in 2023 supplemental budgets or stand-alone legislation.

Summary of Proposed Departmental Reorganization for the Department of Finance and Administrative Services

The following tables provide a summary of a proposed financial structure reorganization for FAS modifying their project structure in the financial systems

FAS Proposed Project Structure Change

FAS is proposing a new Operations and Maintenance project structure in the 2023-2024 Proposed Mid-Biennial Budget Adjustments. The current project structure is complicated and consists of 38 BSLs for capital and operating as well as several funds. The new structure will decrease the operating BSLs from 27 to 20. This change will provide the following:

- Transparency and intuitive organization
- Improved accounting, reporting and financial management
- Increased flexibility and resilience

Table 1: Existing Project Structure

Existing Project Structure		
BSLs Proposed to Change		
	BSL Code (O&M)	BSL Name
1	BO-FA-BUDCENTR	Leadership and Administration
2	BO-FA-CDCM	Capital Dev and Const Mgmt
3	BO-FA-CITYFINAN	City Finance
4	BO-FA-CITYSVCS	City Services
5	BO-FA-CPCS	City Purchasing and Contracting Services
6	BO-FA-FACILITY	Facilities Services
7	BO-FA-FILELOC	FileLocal Agency
8	BO-FA-FLEETS	Fleet Services
9	BO-FA-OCS	Office of Constituent Services
10	BO-FA-RCCP	Regulatory Compliance and Consumer Protection
11	BO-FA-SAS	Seattle Animal Shelter
12	BO-FA-WATERFRNT	Central Waterfront Improvement Prgm Financial Support
13	BO-FA-WHLCHR	Wheelchair Accessible Services

BSLs Remain Unchanged		
	BSL Code (O&M)	BSL Name
14	BO-FA-FLEETCAP	Fleet Capital Program
15	BO-FA-CJ000	Judgment & Claims Claims
16	BO-FA-DEBTBIRF	Bond Interest and Redemption
17	BO-FA-DEBTISS-L	Debt Issuance Cost - LTGO
18	BO-FA-DEBTUTGO	UTGO Debt Service
19	BO-FA-HSPDA	Historic Seattle PDA

Notes:

¹ Through CBA FG-903-A-001-2023, Council transferred \$1.2 million in JumpStart revenue into the Sweetened Beverage Tax Fund in both 2023 and 2024 to temporarily buffer a shortfall in Sweetened Beverage Tax (SBT) revenue. This action is in response to the November 2022 revenue forecast.

² If the current revenue projection were to remain accurate and no other revenue sources are utilized to supplement SBT revenues, expenditure reductions of this magnitude would be necessary to keep the fund balanced.

³ 2023 Budget Adjustments include 2022 carryforwards.

⁴ Expenditures for 2025-2027 are held at 2024 levels.

¹ Assumes 1% annual growth for both revenues and expenditures 2025-2027.

² Expenditure growth in 2024 represents a one-time increase of \$1.4m in funding for technology improvements paid for by fund balance. 2025 and beyond assume 1% growth on baseline expenditures only.

Notes:

¹ Projected expenditures are aligned with known department needs rather than CBO inflators.

² The Democracy Voucher Program is funded by a voter-approved, ten-year levy that expires December 31, 2025. In this scenario, the program is not renewed, however if another ballot measure is put forth and approved by voters, the program could continue in 2026 and beyond.

Note 1 - Based on the terms of the State and Local Fiscal Recovery Fund grant, Coronavirus Local Fiscal Recovery Funds are required to be obligated by 12/31/2024 and spent by 12/31/2026. Spending for some programs is expected to continue into 2023 and 2024, but funding was appropriated in 2021 and 2022, with outyear funding being carried forward via grant carryforward processes. Projections for outyear spending have not been included in this document.

Note 2 - Several net-zero adjustments were made to the 2023 Budget in supplemental ordinances. Appropriation was decreased in several departments as a result of actual or expected underspend and an equivalent appropriation increase was provided in Finance General. Finance General appropriations support cash transfers to the General Fund to effectuate additional revenue replacement-supported spending. Revenue replacement is one eligible use of CLFR funds.

<i>Ending Unreserved Budgetary Fund Balance</i>	56,279	(8,824)	0	0	0	0	(36,141) ⁴

Notes:

- The CDBG Restricted Revolving Loan Funds represent three distinct funds: the Homebuyer Revolving Loan fund, which in general maintains a steady balance of approx \$500K; the Home Repair Revolving Loan fund, which also generally maintains a balance of approx \$500K; and the Multifamily Revolving Loan Fund, which currently has a balance of \$1.15M that we project to award to a project in 2025.
- Although there is no planning reserve for HSD's Levy-Funded Programs (KCRHA) beginning in 2024, funding for this item remains as a portion of Total Budgetary Expenditures.
- Beginning in 2024, Incentive Zoning Admin Balances are reflected in the Fund 16600 financial plan.
- Negative Ending Unreserved Budgetary Fund Balance in 2028 is the result of outstanding short-term loans anticipated to be repaid in outyears of the financial plan, but for which revenues are not reflected in source of funds assumptions.

<i>Ending Unreserved Budgetary Fund Balance</i>	16,466	2,025	14,786	2,887	2,860	6,467	4,626

Notes:

1. CDBG actuals for 2022 includes a HUD-required reclass of \$756,057 of prior years' revenues.

2. The 2023 Levy Admin Reserve in the planning reserves section represents the fact that the 2023 Levy will bring in \$7,142,857 annually in revenues for staffing/operating. The actual amount needed for this in 2024 is \$5,440,956, leaving a difference of \$1,701,907. The actual amount needed from Levy for staffing/operating costs will increase by inflation each year of the Levy. In the later years of the Levy, the staffing/operating costs are expected to be higher than the annual revenue amount, and at that point we will draw from this reserve to cover the difference.

3. Reserved fund balance to support potential outyear administrative costs to support expanded capacity to meet workload demands.

Notes

1. Early Learning 2022 Actuals and 2023 Encumbrance Carryforward includes one-time resources for Early Learning investments typically funded with Sweetened Beverage Tax and General Fund resources.
2. K-12 2022 Actuals and 2023 Revised Expenditures includes 2020 BIPOC investments, Black Girls Culturally-Specific and Responsive (CSR) programming and Opportunity Promise.
3. 2023 - 2026 K-12 Expenditures are for Opportunity Promise and other K-12 BIPOC investments. Reserves decline over time to offset this expenditure.
4. K-12 BIPOC Commitments Reserve includes remaining funding from 2020 BIPOC commitment and Black Girls CSR.
5. FEPP Levy Commitment reflects the adopted levy plan contribution of \$12M fund balance from the FEL levy undesignated fund balance.
6. Reserve set aside to fund certain Early Learning investments in the case of General Fund shortfalls.

- Notes:**
1. Outyear property tax growth estimated at 1% based on CBO forecast.
 2. Sources of Funding: Families and Education Levy (2011) Fund Balance is based on the adopted levy plan.
 3. 2025-2026 expenditure growth rate aligns with the FEPP implementation and evaluation plan, plus funding for additional administration costs and enhancements for K-12 Culturally Specific and Responsive (CSR) programming and Seattle Promise.
 4. These provide resources to continue programming as outlined in the FEPP Levy Implementation & Evaluation Plan. Any annual underspend is reallocated each year through planning with the FEPP Levy Oversight Committee.
 5. These resources were set aside in the 2021 budget for additional K-12 CSR programming and Seattle Promise, as well as 2022 mid-year supplemental.
 6. These resources were set aside from 2022 underspend for additional programmatic needs for the 2024-25 and 2025-26 school years.
 7. This item brings Early Learning spending back in alignment with the FEPP Levy spending plan. It restores \$1 million in Early Learning's budget that Council reallocated from the 2024 endorsed budget to fund school-based mental health services in 2023.

Notes:

- Annual interest earnings are included in these figures.
- These reserves cover anticipated expenditures from 2024-2028 for both the Seattle Park District Fund and the Park and Recreation Fund (10200). Anticipated retrospective expenditures for 2023 for this fund are accounted for in a planning reserve in the Park and Recreation Fund (10200) financial plan.

Notes:

Legislated changes in 2023 (including carryforward) are reflected in the corresponding funding source/BSL line in the "2023 Legislated" column. Financial plan does not include future CRSSA credits for transit service. "New \$20 VLF Reserve" denotes an opportunity to reaffirm or reprioritize the 2021 community priorities for the first four years of spending on this funding source. Future year expenditure projections are customized for this fund.

Notes:

¹ Beginning Fund Balance for 2022 and 2023 includes valuation of all SPU assets.

² Beginning Budgetary Fund Balance includes reserve totals.

³ Technical Adjustments represent non-budgetary items, including accounting adjustments, that affect budgetary fund balances. These items can be non-budgetary expenditures (e.g. OPEB) or can represent technical revenue or spending adjustments (e.g. accomplishment rates).

¹ External Revenues are expected to grow 2% annually and General Fund Support by 1% annually. For 2025-2027, expenditures are calculated to grow by 1% annually as instructed. However, FAS is experiencing inflationary cost pressures on contracts, capital projects, vendors and supplies >1% and some closer to the CPI of 8.3%.

² There was a realignment between "General Fund Support" and "Revenue from Other City Departments" in the 2024 budget. Payroll charges for General Fund Departments is now charged directly to those departments rather than to Finance General.

³ "Revenues from Other City Departments" for projected years (2025-27) is set to match the difference between total budgetary expenditures (less planned uses of fund balance) and the sum of all other revenue sources. This reflects FAS' rate setting process, which aims to recover 100% of budgetary expenditures.

⁴ External revenues changed in 2024 to account for a variety of revenues not previously identified as external. This category, which previously only included parking revenues, now includes rent of City real estate to private tenants, passport revenues, purchasing rebates, revenue for contracting services provided to Seattle Public Schools, and sales of surplus.

⁵ Due to FAS' new project structure, expenditure categories have changed starting in 2024 to align with new Budget Summary Levels.

⁶ Approved in the Adopted and/or the Proposed Budget.

¹ Revenues from Other City Departments are set to minimize variance from year to year while still bringing in sufficient funds to replace vehicles as planned.

² The \$2m increase in rates from 2024 to 2025 represents both inflation (\$1m) and the addition of approximately 80 vehicles to the City's Fleet (\$1m).

³ Projected expenditures are set to match planned vehicle replacement and are inconsistent from year to year.

⁴ Expenditures for 2024 through 2027 have been adjusted to account for the Q3 Supplemental request for pre-order of SFD apparatus. These adjustments are intended to better reflect the cash flow, as the appropriate

⁵ The Q3 supplemental includes \$32.5 million in appropriation of fund balance for fleet replacement purchases with \$18.6 million specifically appropriated to enter into purchase order agreements for fire apparatus.

To avoid price increases and mitigate long lead times for fire fleet delivery, Fleet Management is placing orders in 2023, but the funds will not be expended until delivery in the out years.

---------------------	-----------------	-----------------	-----------------	------------------	-------------------	-------------------	-------------------

Assumptions:

- ¹Beginning Balance Sheet Fund Balance excludes account 143900 - Prepaid Expenses-Other per CWA's guidance.
- ²Billable Project Revenues: Double budget appropriation for IT Project Management resources that are not assigned to specific Projects.
- ³ITD's Cost of Technology Consumption: ITD's consumption of ITD projects and services. Represents intra-fund (50410) revenue.
- ⁴Non-City Agency Revenues: Revenue collected from Agencies outside of the City of Seattle (e.g., King County).
- ⁵Rates Direct Billed (2022 CIP Carryforward Items): Unspent CIP budget, carried forward from FY 2022 to FY 2023, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).
- ⁶Rates Direct Billed (2022 Operating Carryforward Items): Unspent operating budget, carried forward from FY 2022 to FY 2023, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).
- ⁷One-Time Projects: Reserves for various one-time ITD projects.
- ⁸Expenditures in the out years are reflecting the real debt service schedule in the out years instead of standard inflation per CBO.
- ⁹Current Year Grant/Svc Contract/Capital CFD Revenues: Includes the direct billed revenues to be collected in FY 2023 for CIP (excluding PC-IT-C7050 'Radio Communications CIP'), Encumbrances, Grants, and Special Carryforward budgets.
- ¹⁰Current Year Grant/Svc Contract/Capital Expenditure CFD's: Includes the allocated revenues collected in FY 2022 for CIP (excluding PC-IT-C7050 'Radio Communications CIP'), and Special Carryforward budgets.
- ¹¹Computer Replacement: PC replacements for the Law Department which replaces all of its PCs every five years, versus a portion each year.

Note:

The General Subfund contribution in the 2023 Adopted column reflects an intentional one-time use of \$10.0 million of existing fund balance in place of General Fund contributions in order to manage the size of existing fund balances available for anticipated but as yet undetermined pension adjustments resulting from labor negotiations.

1 Assumes 1% annual growth for both revenues and expenditures 2025-2027.

Cost Allocation Tables:

These tables provide information about how the City allocates internal service costs (i.e. overhead provided by City agencies to other City agencies) to customer agencies.

Central Service Departments and Commissions - 2024 Cost Allocation Factors

Central Service Department	Cost Allocation Factor
City Auditor	Count of audit reports per department over prior two-year period.
City Budget Office	Percent of FTE time spent on cost allocation departments/funds.
Civil Service Commission	Two-year average number of cases by department.
Office of Civil Rights	Enforcement: 2-year average number of cases filed by department. RSJI: 2-year average number of department-specific trainings Policy: 100% General Fund Administration: Applied proportionally to department programs.
Office of Employee Ombud	Budgeted FTE by department.
Office of Intergovernmental Relations	Staff time and assignments by department.
Office of Sustainability and Environment	Management assessment of FTE time on work programs.
Department of Finance and Administrative Services	Various factors and allocations. See Appendix B(1) for details on services, rates, and methodologies.
Seattle Information Technology	Various factors and allocations. See Appendix B(2) for details on services, rates, and methodologies.
Law Department	Two-year average of civil attorney and paralegal service hours by department (excludes hours that are covered by direct billing via MOAs), including proportionate amount of overhead.
Legislative Department	City Clerk's Office based on number of Legislative items; Central Staff and Legislative Assistants on assignments; City Council 100% General Fund or by MOA* and City Clerk based on workload.
Seattle Department of Human Resources	Various factors and allocations. See Appendix B(3) for details on services, factors, and methodologies.
State Examiner (State Auditor)	75% by PeopleSoft data points; 25% by budgeted FTEs.
Emergency Management	Actual expenditure dollar spread.

*Memorandum of Agreement (MOA) on charges

Department of Finance and Administrative Services Billing Methodologies – B(1)

Service Provider	Org	Service Provided	Billing Methodology	Billing Method
Fleet Management Division				
Vehicle Leasing	FAD03	<ul style="list-style-type: none"> Vehicles owned by, and leased from, Fleet Services Vehicles owned directly by Utility Departments 	<ul style="list-style-type: none"> Calculated rate per month per vehicle based on three lease-rate components: 1) vehicle replacement; 2) routine maintenance; and 3) overhead. Charge for overhead only as outlined in MOUs with Utilities. 	Fleets rates.
Motor Pool	FAD04	Daily or hourly rental of City Motor Pool vehicles.	Actual vehicle usage by department per published rates. Rates vary by vehicle type and are based on time usage, with a set minimum and maximum daily charge.	Direct bill.
Vehicle Maintenance	FAD05	<ul style="list-style-type: none"> Vehicle Maintenance labor. Vehicle parts and supplies. 	<ul style="list-style-type: none"> Actual maintenance service hours, not included in the routine maintenance component of the Lease Rate (above). Billed at an hourly rate. Actual vehicle parts and supplies, used in vehicle maintenance services, and not included in the routine maintenance component of the Lease Rate (above). Billed at cost plus a percentage mark-up. 	Direct bill.
Vehicle Fuel	FAD07	Vehicle fuel from City-operated fuel sites or private vendor sites through the Voyager Fuel Card program.	Actual gallons of fuel pumped, billed at cost plus per-gallon mark-up.	Direct bill.
Facility Services				
Property Management Services	FAC03	Office & other building space.	Incorporated with Space Rent rates, which are allocated by square feet occupied by rent schedule.	Space rent rates.
Property Management Services	FAC03	Leased spaces.	Service agreements with commercial tenants, building owners and/or affected departments.	Direct bill.
Real Estate Services	FAC03	Real estate transactions including acquisitions, dispositions, appraisals, etc.	Incorporated with Space Rent rates, which are allocated by square feet occupied by rent schedule.	Space Rent rates.

Glossary

Annual Comprehensive Financial Report of the City (ACFR): The City's audited annual financial statements prepared by the Department of Finance & Administrative Services.

Appropriation: A legal spending authorization granted by the City Council, the City's legislative authority, to make expenditures and/or incur obligations for specific purposes.

Biennial Budget: A budget covering a two-year period. Under state law, a biennium begins with an odd-numbered year.

Budget - Adopted and Proposed: The Mayor submits to the City Council a recommended revenue and expenditure level for all City operations for the coming fiscal year as the Proposed Budget. When the City Council agrees upon the revenue and expenditure levels, the Proposed Budget becomes the Adopted Budget, funds are appropriated, and legal expenditure limits are established.

Budget - Endorsed: The City of Seattle implements biennial budgeting through the sequential adoption of two one-year budgets. When adopting the budget for the first year of the biennium, the Council endorses a budget for the second year. The Endorsed Budget is the basis for a Proposed Budget for the second year of the biennium, and is reviewed and adopted in the fall of the first year of the biennium.

Budget Control Level: The level at which expenditure appropriations are controlled to meet State and City budget law provisions.

Capital Assets: Assets of significant value and having a useful life of at least 10 years or more. Capital assets may also be referred to as "fixed assets."

Capital Improvement Program (CIP): Annual appropriations from specific funding sources are shown in the City's budget for certain capital purposes such as street improvements, building construction, and some kinds of facility maintenance. These appropriations are supported by a six-year allocation plan detailing all projects, fund sources, and expenditure amounts, including many multi-year projects that require funding beyond the one-year period of the annual budget. The allocation plan covers a six-year period and is produced as a separate document from the budget document.

Chart of Accounts: A list of expenditure, revenue, and other accounts describing and categorizing financial transactions.

Community Development Block Grant (CDBG): A U.S. Department of Housing and Urban Development (HUD) annual grant to Seattle and other local governments to support economic development projects, human services, low-income housing, and services in low-income neighborhoods.

Cost Allocation: Distribution of costs based on some proxy for costs incurred or benefits received.

Cumulative Reserve Subfund (CRS): A significant source of ongoing local funding to support capital projects in general government departments. The CRS consists of two accounts: the Capital Projects Account and the Revenue Stabilization Account. The Capital Projects Account has six subaccounts: REET I, REET II, Unrestricted, South Lake Union Property Proceeds, Asset Preservation Subaccount - Fleets and Facilities, and the Street Vacation Subaccount. The Real Estate Excise Tax (REET) is levied on all sales of real estate, with the first .25% of the locally imposed tax going to REET I and the second .25% to REET II. State law specifies how each REET can be spent.

Debt Service: Annual principal and interest payments the City owes on money it has borrowed.

Errata: Adjustments, corrections, and new information sent by departments through the City Budget Office to the City Council during the Council's budget review as an adjunct to the Mayor's Proposed Budget. The purpose is to adjust the Proposed Budget to reflect information not available upon submittal and to correct inadvertent errors.

Full-Time Equivalent (FTE): A term expressing the amount of time for which a position has been budgeted in relation to the amount of time a regular, full-time employee normally works in a year. Most full-time employees (1.00 FTE) are paid for 2,088 hours in a year (or 2,096 in a leap year). A position budgeted to work half-time for a full year, or full-time for only six months, is 0.50 FTE.

Fund: An accounting entity with a set of self-balancing revenue and expenditure accounts used to record the financial affairs of a governmental organization.

Fund Balance: The difference between the assets and liabilities of a particular fund. This incorporates the accumulated difference between the revenues and expenditures each year.

General Fund: A central fund into which most of the City's general tax revenues and discretionary resources are pooled, and which is allocated to support many of the operations of City government. Beginning with the 1997 Adopted Budget, the General Fund was restructured to encompass a number of subfunds, including the General Fund Subfund (comparable to the "General Fund" in prior years) and other subfunds designated for a variety of specific purposes. These subfunds are listed and explained in more detail in department chapters, as well as in the Funds, Subfunds, and Other section of the budget document.

Grant-Funded Position: A position funded 50% or more by a categorical grant to carry out a specific project or goal. Seattle Municipal Code 4.04.030 specifies that "categorical grant" does not include Community Development Block Grant funds, nor any funds provided under a statutory entitlement or distribution on the basis of a fixed formula including, but not limited to, relative population.

Neighborhood Matching Subfund (NMF): A fund supporting partnerships between the City and neighborhood groups to produce neighborhood-initiated planning, organizing, and improvement projects. The City provides a cash match to the community's contribution of volunteer labor, materials, professional services, or cash. The NMF is administered by the Department of Neighborhoods.

Operating Budget: That portion of a budget dealing with recurring expenditures such as salaries, electric bills, postage, printing, paper supplies, and gasoline.

PeopleSoft 9.2: The City's central accounting system managed by the Department of Finance & Administrative Services.

Position/Pocket Number: A term referring to the title and unique position identification number assigned to each position authorized by the City Council through the budget or other ordinances. Positions may have a common title name, but each position has its own unique identification number assigned by the Records Information Management Unit of the Seattle Department of Human Resources at the time position authority is approved by the City Council. Only one person at a time can fill a regularly budgeted position. An exception is in the case of job-sharing, where two people work part-time in one full-time position.

Program: A group of services within a department, aligned by common purpose.

Reclassification Request: A request to change the job title or classification for an existing position. Reclassifications are subject to review and approval by the Classification/Compensation Unit of the Seattle Department of Human Resources and are implemented upon the signature of the Director of Human Resources, as long as position authority has been established by ordinance.

Reorganization: Reorganization refers to changes in the budget and reporting structure within departments.

SUMMIT: The City's former central accounting system managed by the Department of Finance & Administrative Services.

Sunsetting Position: A position funded for only a specified length of time by the budget or enabling ordinance.

TES (Temporary Employment Service): A program managed by the Seattle Department of Human Resources. TES places temporary workers in departments for purposes of filling unanticipated, short-term staffing needs, such as vacation coverage, positions vacant until a regularly-appointed hire is made, and special projects.

Type of Position: There are two types of budgeted positions. They are identified by one of the following characters: **F** for **Full-Time** or **P** for **Part-Time**.

- **Regular Full-Time** is defined as a position budgeted for 2,088 compensated hours per year, 40 hours per week, 80 hours per pay period, and is also known as one full-time equivalent (FTE).
- **Regular Part-Time** is defined as a position designated as part time, and requiring an average of 20 hours or more, but less than 40 hours of work per week during the year. This equates to an FTE value of at least 0.50 and no more than 0.99.

Reader's Guide to the 2024-2029 Proposed Capital Improvement Program

The City of Seattle's 2024-2029 Proposed Capital Improvement Program (CIP) includes an overview, departmental sections, appendices, and a glossary. The overview provides information on the CIP, allocations, funding sources for capital projects, significant initiatives, support for neighborhoods and neighborhood plan projects, and policies guiding the City's capital investments.

Departmental sections comprise most of the CIP document and contain detailed information on each of the capital projects. The following departments have sections in this book: Seattle Parks and Recreation, Seattle Center, Seattle Public Library, Seattle Department of Transportation, Seattle City Light, Seattle Public Utilities, Seattle Information Technology, and Finance and Administrative Services. Appendix A lists new or expanded capital facilities as required by the Growth Management Act. Appendix B lists all projects that will exceed \$5 million with their 2024 appropriation as required by Resolution 31203.

Reading CIP Project Pages

CIP project pages, located in the departmental sections of the CIP, provide the most detailed information about a project. The project pages contain the following information:

Project Type: Projects will have one of three project types: Discrete, Ongoing, or Debt Service. Discrete projects are those with a distinct start and end date and build an individual asset. Ongoing CIP projects are departmental CIP programs that build or maintain a group of similar assets. Debt Service projects show the dedicated funding stream to pay the debt service for a project or group of projects.

Project No.: Unique number identifying a project in the City's financial management system.

Start/End Date: Estimated Start and End year of a discrete project. Projects without a determined start or end date may show as "TBD" or "On Hold." Projects categorized as "Ongoing" in the Project Type field are programmatic and continue year after year, therefore they do not display a Start/End Date.

BCL (Budget Control Level)/Program Code, BCL/Program Name: A grouping of similar projects into department-specific programs. Also reflects the level at which expenditures are controlled to meet state budget law provisions.

Current Project Stage: The current stage of a discrete CIP project during budget planning (August of the budget development year).

Stage 1—Pre-project Development: All master planning, asset planning, and needs identification. Rough order of magnitude cost estimate¹ for CIP budget established at the end of Stage 1.

¹ The City's budget ordinance requires that a project be assigned a CIP ID number before spending may occur on a project. As a result, Stage 1 project cost estimates/budgets are "Rough Order of Magnitude" estimates based on previously constructed projects or high-level cost estimates which use generic assumptions. Departments refine cost estimates at the end of Stage 2.

Stage 2—Initiation, Project Definition & Planning: Define project and create Project Management Plan (or pre-design package) which sets the project baseline (scope, schedule and budget) from which a department measures variance.

Stage 3—Design: 30%-100% design work.

Stage 4—Procurement/Bid: Advertisement, bid review, bid award, and Notice to Proceed.

Stage 5—Construction: All construction activities. (Note: The term *Execution* is used for Seattle Information Technology).

Stage 6—Closeout: Final project closeout items, includes financial closeout.

Project Category: Projects are identified as New Facilities, Improvements to Existing Facilities, or Rehabilitation or Restoration of Existing Facilities. Technology projects, or those that do not fit into the categories above, are identified as New Investments.

Location: Street address, intersection, or general location of a project.

Neighborhood District: The City is divided into 13 neighborhood districts. This field indicates in which (if any) neighborhood district(s), a project is located. Some projects are located in more than one neighborhood district or outside the city and are noted as such.

Council District: The City is divided into seven Council districts. This field indicates in which (if any) council district(s), a project is located. Some projects are located in more than one council district or outside the city and are noted as such.

Total Project Cost: The expected total project cost estimate of a Discrete project. The Total Project Cost includes any “out year” spending (spending outside the current six-year CIP).

Urban Village: This field indicates whether a project is located in an Urban Village, a designated geographic area expected to accommodate future population and job growth, as defined by the Comprehensive Plan’s growth management strategy.

Project Description: Information about the purpose, scope, and history of the project.

Resources: The Resources are sources of money supporting a particular project such as grants, private donations, debt, Real Estate Excise Taxes, etc. The Resources Table lists the project’s revenue sources, life-to-date (LTD) expenditures through the prior year; the current year revised budget (including Adopted Budget, carry-forward balances, abandonments, and supplemental appropriations); proposed/adopted appropriations; and estimated appropriation requests for the remaining five years of the CIP period.

Fund Appropriations/Allocations: This table lists the appropriating funds and the annual appropriation total for that specific project for the current year and adopted budget year.

Financial Planning Strategy: The financial planning strategy section appears on CIP Project Pages for discrete projects that are large enough to be part of the Project Cost Estimate Review and Validation

Process, as described in the CIP Overview. The financial planning strategy discusses the overall funding plan for the life of the project.

Unsecured Funding: The “Unsecured Funding” table shows the portion of the project cost that does not have committed funding. The “Unsecured Funding Strategy” discusses the department’s plan to secure funding for that portion of the project.

O&M Costs (Savings): Description of estimated increases or decreases in operations and maintenance costs as a result of a capital project. “NA” denotes that operations and maintenance costs are not calculated.

Capital Improvement Program

Overview

Capital Improvement Program Purpose

The Capital Improvement Program (CIP) is a six-year financial planning tool that identifies future capital investments and potential strategies for funding those investments. The CIP also satisfies various requirements of cities planning under Washington State's Growth Management Act.

Introduction

The City of Seattle owns and operates a variety of physical assets, ranging from community parks, roadways, bridges, office buildings, libraries, open space, fire stations, maintenance yards, facilities at Seattle Center, and more. The City must properly maintain these assets in order to ensure they are safe, lasting, and provide a welcoming and usable space to serve their intended purposes. The City's utility infrastructure is also included in the CIP, including electric, solid waste, water and wastewater utility assets. The City's capital infrastructure supports City operations, direct public services and programs, and in some cases, provides direct public benefits themselves.

Every year during the annual budget process, the City adopts a six-year CIP, which outlines anticipated investments over that timeframe. The 2024-2029 Proposed CIP totals \$7.7 billion over six years, with approximately \$1.6 billion of that amount designated for the 2024 budget year.

The 2024-2029 Proposed CIP is a compilation of all CIP adjustments made through the Year End Supplemental period for the 2023 Revised budget. This includes all legislative action that occurred in the following periods:

- 2023 Midyear Supplemental budget adjustments,
- 2023 Year-end Supplemental budget adjustments,
- Stand-alone legislation and administrative adjustments made prior to the year-end Supplemental.

All allocation totals listed in this document are the sum of the project adjustments made in the periods listed above.

Capital Planning Policies

The City has historically based capital planning efforts on a set of criteria that help set priorities among potential capital programs. [Resolution 31203](#), adopted in June 2010, set out the following policies to guide the City's capital spending:

- preserve and maintain existing capital assets;
- support the goals of the City's plans;
- support economic development;
- consider external funding possibilities;
- consider revenue-generating possibilities;
- seek regional funding for regional projects;
- pursue cost-saving commitments; and,
- pursue conservation and sustainability investments.

Additional specific considerations include:

- compliance with regulatory requirements;
- coordination between departments and with other jurisdictions; and
- public safety and health.

Project Cost Estimate Review and Validation Process

The 2024-2029 Proposed CIP continues to incorporate the process that was developed in 2019 through the work of the capital department Directors group. This process reflects an improved approach to budgeting for large, discrete CIP projects in early stages of development and provides Council and the public with a better understanding of the risk and uncertainty associated with each of the projects.

The key elements of the process are:

- Discrete projects with an initial rough order of magnitude total project cost estimate over \$10 million will show a range of possible costs rather than an exact dollar estimate.
- Departments will appropriate and budget the estimated cost to reach 100% design, as shown on the CIP Project Page. They will also plan for, and communicate the remaining construction costs by using a midrange “Financial Planning Estimate” for six-year financial planning purposes.
- At the 30% design milestone, the project will be baselined and a total project cost and project schedule will be established. During the next budget cycle (or any subsequent Council action) the department will budget the full total project cost on the CIP Project Page.
- If the baseline total project cost estimate is under \$50 million the project will proceed through capital project delivery process according to historic practice.
- If the 30% baseline total project cost is over \$50 million, the department will initiate a third-party review of the baseline total project cost estimate. The department will bring the results of the third-party cost estimate review to the Project Delivery Executive Committee and/or the Directors’ Capital Committee to determine the next steps.

The Cost Estimate Review and Validation process will be modified according to the findings of the initial pilot projects being used to improve the concept.

Capital Improvement Program Funding

Like all large municipalities, Seattle relies on a variety of sources to pay for capital projects. These include locally generated revenues (taxes, fees, voter-approved levies, utility rates, and user fees), intergovernmental revenues (including state and federal grants), private funding (franchise utilities, philanthropy) and debt issuance. These traditional sources continue to provide the majority of funding for capital facility investments. The City’s level of capital investment is based on the mix and amount of financial resources available to the City.

Debt Financing

The City uses multiple forms of debt to finance large capital projects such as Limited Tax General Obligation Bonds (LTGO) also known as councilmanic bonds, Unlimited Tax General Obligation Bonds (UTGO) or voter-approved bonds, and revenue bonds. Unlike pay-as-you-go sources of funding, the issuance of debt requires revenues in future years to repay the principal and interest expenses. Councilmanic debt is a common financing tool used by the City, but those obligations must be repaid from the same set of limited resources including Real Estate Excise Tax (REET), commercial parking tax (CPT) and General Fund revenues. See the “City Bond Issuance and Debt Service” in the Introduction

section of the 2023-2024 Proposed Mid-Biennial Budget Adjustments for more information on debt financing.

The 2024-2029 Proposed CIP includes approximately \$81.7 million in LTGO bond funding for CIP projects in 2024. The 2024 bonds will finance significant technology, city facility, and fire station projects.

Public Utility Funding

Both Seattle City Light and Seattle Public Utilities fund utility projects with revenues from utility rates. Each utility has adopted financial policies that determine what share of their capital investments are funded through cash, and what share from debt. These policies are designed to balance the portion of current investments that are paid by today's ratepayers, versus future ratepayers who will also benefit from long-term capital investments.

Federal Bipartisan Infrastructure Law (BIL) and Inflation Reduction Act (IRA)

The Bipartisan Infrastructure Law (BIL) provides \$550 billion nationally in new spending on energy and power infrastructure, access to broadband internet, water infrastructure, and other program areas. The majority of this new funding is divided into Formula Grant Programs and Discretionary (Competitive) grants. This federal funding may be disbursed to cities either directly or through state or infrastructure authorities such as transit authorities. Federal agencies responsible for appropriations are continuing to develop program and funding guidelines and implementation of these programs will be staggered over several years. The Inflation Reduction Act (IRA), passed in August 2022, includes \$369 billion in new spending to reduce greenhouse gas emissions, invest in clean energy technologies, and extend subsidies for the Affordable Care Act. The IRA is composed primarily of tax credits to private companies and individuals but includes some funding for granting programs as well.

The Mayor has established a process for review and tracking of grant applications for federal funding. This process involves an Executive Steering Committee composed of key department and Mayor's Office personnel that facilitate coordination, leverage opportunities between programs, provide central vision and direction to the City's BIL efforts, and keeps the Mayor's Office, City Council and other stakeholders updated on the City's progress.

Real Estate Excise Tax (REET)

Funding of the City's general government capital program is highly dependent on revenue from Real Estate Excise Tax (REET), which is an excise tax imposed on the sale of real property. REET is a relatively volatile revenue source that generally tracks closely to local economic activity.

Projected REET revenue for the 2024-2029 Proposed CIP period reflects the ongoing impact that elevated interest rates are having on the local real estate market. Actual REET revenue collections in 2022 were lower than forecasted by approximately \$3 million and forecasted REET for 2023 are projected to be \$17.4 million below the 2023 Adopted CIP. For the 2024-2029 Proposed CIP, revenues are projected to be approximately \$61 million lower than 2023-2028 Adopted CIP estimates over the 6-year window. To balance the decreased forecast capital departments were asked to reduce expenditures and reallocate expenditures to later years in the CIP.

The City's REET policy (Resolution 31952) requires a \$10 million REET fund balance reserve to protect against unexpected downturn in REET revenue collection and forecast. The REET funds continue to maintain the reserve levels established in the policy but could potentially dip into those reserves if the forecast continues to decline in the near term.

The 2024-2029 Proposed CIP uses REET to make investments in a wide variety of asset preservation projects across the City's capital departments, to fund ongoing debt service for large capital investments such as the West Seattle Bridge and Fire Station improvements and provides partnership funding for the rehabilitation of Memorial Stadium at Seattle Center.

Seattle's Recent History – Major Voter-Approved Levies and Capital Projects

In addition to reliance upon general tax sources, Seattle undertook several major capital projects during the last two decades using voter-approved funds and councilmanic debt. Voter-approved capital projects include improvements to Seattle Center and construction of new or expanded community centers and parks, new or remodeled downtown and branch libraries, new or remodeled fire facilities, parks improvements, transportation infrastructure improvements and replacement of the Elliott Bay Seawall. The following is a list of recent property tax levies that are still actively funding projects:

- *The Move Seattle Transportation Levy:* The Move Seattle Levy, a nine-year \$930 million levy was approved by voters in 2015. The proposed budget appropriates \$119.1 million in 2024. Levy proceeds will be used to support safe routes, congestion relief, and maintenance and repairs of the City's bridges and arterial roadways. A major financing strategy in the Move Seattle Levy is the dependence on partnerships—leveraging external resources such as state and federal grants to accomplish transportation projects such as the Madison Bus Rapid Transit (BRT) – RapidRide G Line.
- *Seattle Park District:* The Seattle Park District was passed by voters in 2014, with a goal to provide long term, stable funding to support recreation programming, parks projects and the critical needs for investment in major and ongoing maintenance. 2024 will be the second year of Cycle 2 of the Park District, which is proposed to provide over \$50 million in 2024 for major maintenance and capital projects.
- *The 2019 Library Levy:* A seven-year, \$219 million levy to support, maintain and improve core Library services. Included as part of the levy were resources for the preservation and maintenance of library facilities. The City Librarian and the Library Board of Trustees prepare annual progress reports that show how levy proceeds have been used each year. The levy provides an average of \$3.1 million annually for major maintenance and asset preservation projects; including maintenance necessary for building components such as roofs, floors, finishes, HVAC and mechanical systems. The levy also includes funding for earthquake retrofits at three Carnegie branches.
- *The 2008 Parks and Green Spaces Levy:* A six-year, \$146 million levy to acquire, develop, or restore, existing or new, parks, recreation facilities, cultural facilities, green spaces, playfields, trails, community gardens, and shoreline areas. This levy expired at the end of 2014, and the Seattle Park District is now providing on-going funding to help address major maintenance needs, as well as park development, at the Department of Parks and Recreation (Parks). As of 2023, the 2008 Parks and Green Spaces Levy Fund carried a balance of about \$400,000. Parks expects to fully spend these resources on projects identified in the Levy by the end of 2024.

Funding Dynamics for Significant Future Capital Projects

Given general resource funding challenges, the City will continue to rely on a mix of general government resources and voter-approved funding packages to complete major capital projects and to secure needed funding for basic asset preservation. The City has identified several major priority areas for which significant capital investments will be needed. The following sections describe these priority areas at a high level.

Public Safety Facilities

Planning for the future of Seattle’s public safety facilities is critical to maintaining the high level of service expected of the Seattle Fire Department (SFD) and Seattle Police Department (SPD). Both departments have a number of large capital facility needs, such as improvements to the Fire Station Headquarters and growing capital needs at police facilities. This CIP provides funding for a new Fire Station 31 in North Seattle, as well as continued support of police facility improvements.

Electrifying the City’s Fleet

The Green Fleet Action Plan (GFAP) and Mayoral Executive Orders established the need for a capital program to plan for the future support of rapid electrification of the City’s fleet and also support decarbonizing facilities to promote sustainability. The Drive Clean Seattle program originally funded four major projects to install vehicle charging infrastructure that supports transportation electrification to meet greenhouse gas emission reduction goals for the City. This CIP provides additional funding, propelling the next phase of prioritized projects to include bringing the necessary power upgrades to key fleet locations at both Charles Street and Haller Lake facilities. The power upgrades are needed to support large-scale electric vehicle charging hubs and future facility decarbonization.

Transportation

The City’s existing transportation network faces an extensive backlog of major maintenance. Current funding is insufficient to maintain the City’s roads, bridges, signs, etc. In addition, through a series of long-term planning efforts the City has completed “Master Plans” that identify large potential investments in a transit network, bicycle facilities, freight projects and pedestrian-oriented infrastructure. The \$930 million Move Seattle Levy is addressing critical transportation programs such as safe routes, relief of congested roadways and maintenance and repair programs. The Department is anticipating federal funding through the BIL and IRA bills that will help address some of these needs as well as fund enhancements in transportation electrification aimed at meeting the City’s climate goals.

Waterfront

The City has developed a comprehensive plan for the improvement of Seattle’s central waterfront. The removal of the Alaskan Way Viaduct provides an opportunity to reconnect the City to the waterfront and develop new open space to support the growth and economic development of central Seattle.

Projects

The largest project—the Alaskan Way Main Corridor project—is constructing a new surface street and an adjoining pedestrian promenade, providing access to the waterfront from Pioneer Square to Belltown. The Overlook Walk and East-West Connections project constructs the Overlook Walk, a new accessible connection between the Pike Place Market and the waterfront, and improvements to east-west streets connecting the waterfront and the rest of downtown Seattle. The program also includes projects to reconstruct parks located on piers along the waterfront (Waterfront Park and Pier 62) expand the Seattle Aquarium and expand the Pike Place Market.

Funding

The 2024-2029 Proposed CIP contains a mix of resources to fund these projects and other elements of the overall Waterfront redevelopment. In addition to general government resources in the form of REET, commercial parking tax, and general fund-supported debt, the funding plan calls for significant contributions from a Local Improvement District (LID), philanthropy, and WSDOT. The LID provides that property owners who benefit from the project pay a share of its cost. LID formation was approved in 2019 and will provide \$160 million of funding for the waterfront improvements.

The 2024-2029 Proposed Capital Improvement Program includes an additional \$25 million in project bonding authority for the Alaskan Way Main Corridor Project (MC-TR-C072) to address cost increases related to a concrete driver's strike in 2021-22 and associated project delays. This amount is sized to ensure the completion of the project, and actual final bond issuances may be smaller as the project progresses based on need and potential addition of more State funding.

Protecting and Creating Opportunities for Workers

The City considers not only what capital projects to fund, but also how to deliver them and achieve broader goals for fairness, equity, and opportunity in the community. The Department of Finance and Administrative Services (FAS) leads several policy initiatives to ensure social responsibility and equity in the spending of City capital dollars.

Fair and equitable treatment of workers: FAS monitors and enforces fair and equitable treatment of workers in City construction contracts. In 2013, FAS increased its monitoring and enforcement of wage and labor conditions on City-contracted construction projects, including Office of Housing-financed projects. Funding was provided in 2019 to allow FAS to continue this program, including compliance monitoring for wage and labor violations for relevant projects. It also includes funding to support the Acceptable Worksite program, which trains, teaches and enforces anti-harassment and anti-bullying interventions on City-funded construction projects.

Reduce barriers to construction jobs: The City's spending on major capital investments can help drive employment within the local economy. Construction jobs and related positions offer living-wage jobs that can support individuals and families. The City's Priority Hire program provides training and opportunities for City residents to work on City-funded capital projects. For major capital projects, City contractors are bound by the City's Community Workforce Agreement, which is intended to increase employment for women, people of color and those living in economically distressed areas of the City through establishment of aspirational and mandatory labor hours for the respective groups. In 2017, the Priority Hire program was expanded to include applications from public-private partnership projects with significant City investment such as the Climate Pledge Arena project and the Ocean Pavilion (Seattle Aquarium Expansion) project.

Women and Minority Owned Business (WMBE): The City continues to successfully address contracting equity for minority- and women- owned businesses. In 2011, FAS implemented a Citywide requirement on all public work bids and contracts above \$300,000 called the "Public Works WMBE Inclusion Plan" that continues to effectively encourage and enforce commitments by contractors to use WMBE firms. In 2014, FAS launched prompt pay initiatives, which WMBE firms report as very significant and meaningful for their business cash flow. The objective is to continue to provide WMBE firms with business and technical guidance that helps them compete more successfully for public projects, including better

equipping them to participate on Priority Hire projects. The 2024-29 Proposed CIP adds \$700,000 in new funding and leverages \$500,000 in grant funding to modernize the city-wide procurement process and implement a centralized electronic software solution. This e-procurement software solution aims to improve consistency and provide greater accessibility for a wider swath of vendors to submit bids to the City, increasing opportunities for contract equity.

2024-2029 Proposed Capital Improvement Program Summary

The 2024-2029 Proposed CIP totals \$7.7 billion for six years and includes approximately 464 projects¹. Approximately \$5.1 billion of the six-year total, or 60.6%, are utility projects managed by Seattle City Light (SCL) and Seattle Public Utilities (SPU), and mostly funded by utility rates. The Seattle Department of Transportation’s CIP totals \$1.39 billion (26.3%) over the six-year period, while the remaining departments (Parks and Recreation, Finance and Administrative Services, Seattle Center, Seattle Public Library, and Seattle Information Technology Department) account for approximately \$1.2 billion, or 13.1%, of the six-year CIP.

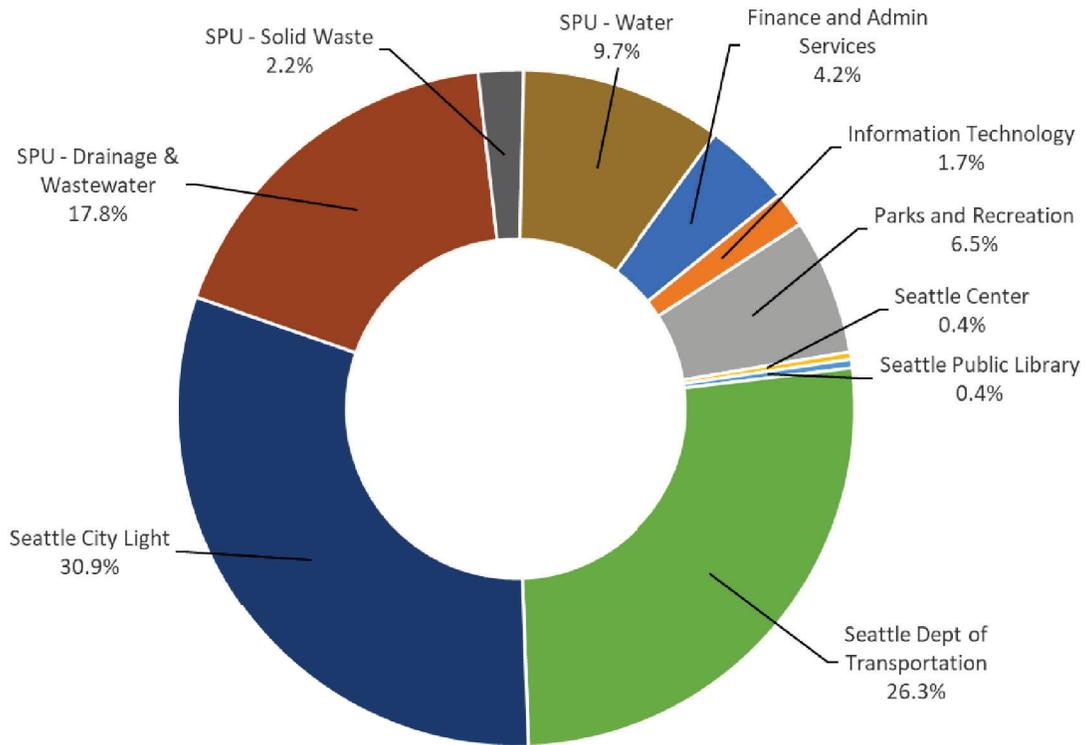

2024-2029 Proposed CIP by Department (000s)

Department	2023 Adopted	2024 Proposed CIP	2025-29 Proposed CIP	2024-2029 Proposed CIP
Finance and Admin Services	47,242	60,036	158,327	218,363
Information Technology	109,466	24,493	76,177	100,671

Subtotal	862,220	873,813	4,249,907	5,123,720
City Total	1,523,038	1,442,611	6,243,461	7,686,073

Note: 2023 Adopted totals are based on the 2023-2028 Adopted CIP. Not all funds above are appropriated; see the 2023 Adopted Budget for a list of capital appropriations by department.

¹ The project total includes all projects with a CIP Project Page in the 2024-2029 Proposed CIP.

2024 Proposed CIP by Department - \$1,443 million

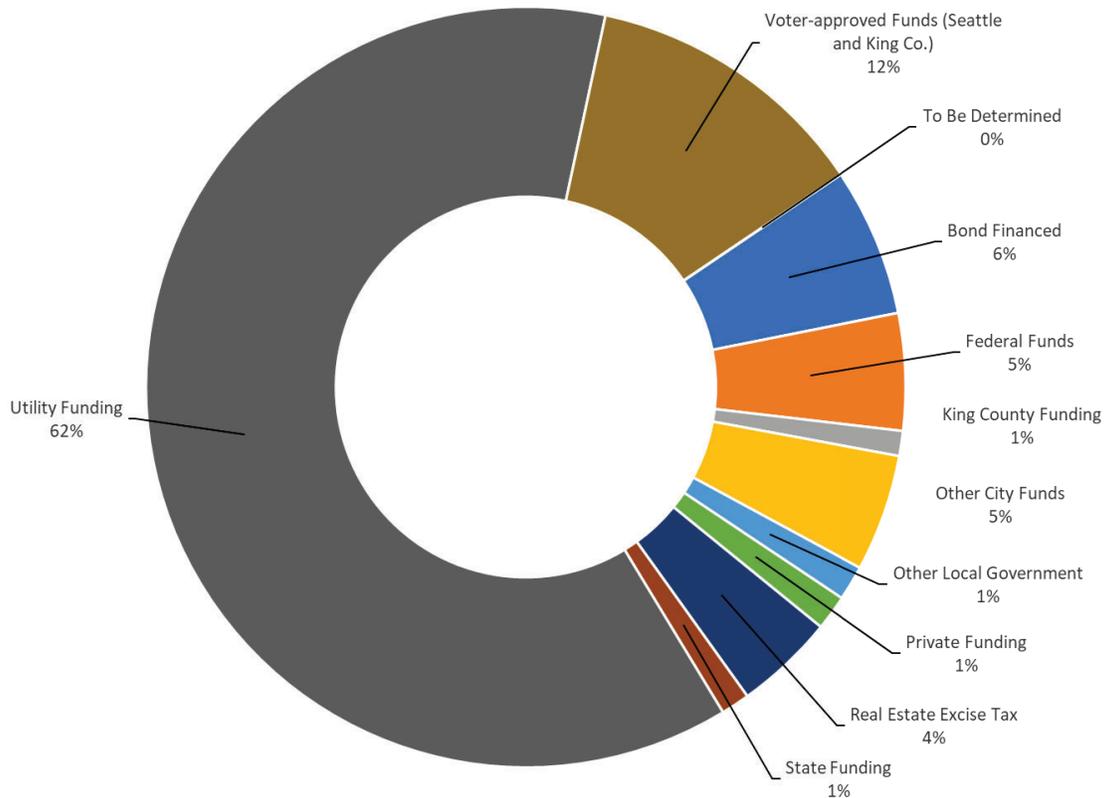

The table below identifies funding sources for the 2024-2029 Proposed CIP by Revenue Source Group

Revenue Source Group	2023 Adopted	2024 Proposed	2025-2029 Proposed CIP	2024-2029 Proposed CIP
Bond Financed	151,454	91,146	280,951	372,097
Federal Funds	60,801	71,712	150,100	221,812
King County Funding	21,105	15,346	17,631	32,977
Other City Funds	81,763	71,806	249,547	321,353
Other Local Government	17,276	21,410	22,544	43,954
Private Funding	59,153	21,504	10,563	32,067
Real Estate Excise Tax	91,520	61,178	390,216	451,395
State Funding	35,601	17,646	58,472	76,118
Utility Funding	852,332	894,941	4,273,191	5,168,132
Voter-approved Funds (Seattle and King Co.)	152,034	175,923	302,668	478,590
To Be Determined	-	0	487,579	487,579
Grand Total	1,523,039	1,442,611	6,243,461	7,686,073

2024-2029 Proposed CIP Revenues (000s)

Note: 2023 Adopted totals are based on the 2023-2028 Adopted CIP.

2024 Proposed CIP by Revenue Source - \$1,443 million

Asset Preservation

The four general government departments in the City’s CIP (Finance and Administrative Services, Seattle Public Library, Seattle Parks and Recreation, and Seattle Center) are responsible for approximately 6.9 million square feet of building space, 2.6 million square feet of parking space, and 240 million square feet of grounds (primarily green space) and multiple work yards. These assets require significant investments in preservation and rehabilitation each CIP period.

For 2024, the City will spend a total of \$22 million from the two Real Estate Excise Tax Funds and an additional \$101 million from various other resources on asset preservation and improvements for general government infrastructure in parks, libraries, civic buildings, and on the Seattle Center campus. The Department of Transportation will spend an additional \$30 million of REET resources and \$261 million of other transportation resources on infrastructure asset preservation and improvements during the 2024 budget period.

Neighborhood Projects

As the City adapts to the impacts of unprecedented growth, and plans for yet further development, a focus on the livability of neighborhoods is essential. The 2024-2029 Proposed CIP reflects this focus, and as highlighted below, supports neighborhood-scale capital investments in several different ways.

Neighborhood Matching Fund

The 2024-2029 Proposed CIP maintains funding to Neighborhood Matching Fund (NMF) grant programs. Several CIP projects, particularly in the Department of Parks and Recreation, include funding from NMF.

The City created the NMF in 1988 to provide funding to Seattle neighborhood groups and organizations for a broad array of neighborhood-initiated improvement, organizing, or planning projects. Many of these projects also support citywide initiatives such as Race and Social Justice, Youth Violence Prevention, Environment and Sustainability, and Neighborhood Planning. Awards range from a few thousand dollars (Small Sparks projects are up to \$5,000, and the Community Partnership Fund projects range from \$5,001 to \$50,000), and NMF funds can cover all phases of a capital project except property acquisition. The NMF program requires a 1:2 match for capital projects, which means all awards leverage other private and public contributions. Matches consist of volunteer labor, donated materials, professional services, or money. The Department of Neighborhoods administers the granting process.

Art and Design Funding for City Capital Projects - 1% for Art Program

The [1% for Art program](#), established by Seattle Municipal Code Chapter 20.32, requires the City deposit 1% of eligible CIP project budgets in the Municipal Arts Fund for the commission, purchase, and installation of artworks throughout Seattle. The Office of Arts and Culture (ARTS) manages the 1% for Art program and the Municipal Arts Fund.

Municipal Art Fund revenues from the 1% for Art program can fluctuate significantly from year-to-year depending on changes in City capital investments. In 2023, the Municipal Art Fund is estimated to receive approximately \$4 million from capital departments for the 1% for Art program, as described below. Actual receipts may vary because of project timing, prior year credits, actual CIP expenditures, and City Council changes to the CIP.

1% for Art Revenues (Estimated)	2024 Proposed
City Light	\$545,161
Seattle Public Utilities	\$1,203,504
Seattle Center	\$0
Parks & Recreation	\$178,233
Transportation	\$700,000
Total	\$2,626,898

Design Commission

Established in 1968, the [Seattle Design Commission](#) advises the Mayor, the City Council and appropriate City departments on design and environmental aspects of the City's CIP. Commission members are appointed by the Mayor for a renewable two-year term. Membership is comprised of two licensed architects, one professional fine artist, one appointee from the Get Engaged program, one lay member, and at least one and no more than two from each of the following categories, for a maximum total of five: professional urban planner, professional environmental or urban designer, landscape architect, and licensed professional engineer. The Design Commission is fully funded with funds from the Cumulative Reserve Fund.

Projects eligible for review include any on-or above-grade structure, including buildings and additions to buildings, bridges, park developments, street furniture, and all similar installations. The Commission reviews below-grade structures such as tunnels, arcades and underground passageways that are regularly visible to the public. Projects reviewed by the Commission must be financed in-whole or in-part with City funds, be on land belonging to the City, or be subject to approval by the City. Commission involvement in capital improvement projects begins as early in the planning process as possible, starting with participation in the consultant selection process and continuing through the many stages of project development. This includes project reviews at the scope briefing or pre-design stage, conceptual design, schematic design, design development, and sometimes construction documents stages.

Background of Capital Improvement Program Policy Drivers

As described above, City investments in capital projects are guided by a set of key policies reflecting the City's values and priorities. These policies shape how the City takes care of buildings and infrastructure, invests in capital projects in areas that have accepted growth as envisioned in the City's Comprehensive Plan, preserves the City's historic buildings, supports sustainable building practices, and ensures that all members of the community have access to the economic opportunities capital projects create. The following section details some of these key policies.

Sustainable Building Policy

In February 2000, the City Council adopted a Sustainable Building Policy for the City of Seattle ([Resolution 30121](#)) which articulated the City's commitment to environmental, economic and social stewardship and set the expectation that new municipal facilities meet established green building standards. Specifically, it called for all new construction and major remodel projects over 5,000 square feet to achieve a LEED Silver rating. When adopted, this policy was the first of its kind in the nation and represented a groundbreaking approach to demonstrating City leadership and transforming the marketplace.

Since 2000, the green building community has experienced exceptional growth in expertise and capacity. Recognizing this change, in 2011 the City passed an updated Sustainable Building Policy ([Resolution 31326](#)). The update represents a comprehensive approach that reflects advances in the green building industry, aligns the policy with the City's increased attention to climate change, addresses a greater range of project types, and ensures that Seattle continues to provide leadership that advances sustainable development in both the public and private sectors. The updated policies include the following requirements.

- For new construction, additions, and major renovation projects 5,000 square feet or greater:
 - The minimum required green building rating is LEED Gold.

- There are minimum requirements for energy and water efficiency, construction waste reductions, and bicycle amenities.
- For tenant improvement projects 5,000 square feet or greater, where the scope includes mechanical, electrical, and plumbing:
 - The minimum required green building rating is LEED Gold.
 - There are minimum requirements for water efficiency and construction waste reductions.
- Completion of a Capital Green checklist is required for projects smaller than 5,000 square feet or those otherwise not eligible for a LEED rating.
- City departments are encouraged to test new approaches and standards, such as the Living Building Challenge and the Sustainable Sites Initiative.
- Annual reporting of performance under the policy is required by March 31st of each year.

Additionally, the resolution directs City departments to evaluate and improve existing standards and processes that relate to tenant improvements, leasing, and site management.

City of Seattle Comprehensive Plan

The Comprehensive Plan is a 20-year vision and roadmap for Seattle’s future. The plan guides City decisions on where to focus development for new jobs and households, how to improve our transportation system, and where to make capital investments such as utilities, sidewalks, and libraries. The Plan is the framework for most of Seattle’s big-picture decisions on how to grow. The latest update of the City’s Comprehensive Plan “[Seattle 2035](#)” was passed by the City Council in October 2016. The City began the process of updating its Comprehensive Plan in 2021 and the work is scheduled to be complete in 2024.

The Comprehensive Plan helped inform the development of the 2024-2029 Proposed CIP as departments have taken special note of capital projects in neighborhoods targeted for substantial growth in the future or that have received substantial growth in the last few years. This effort is intended to make sure areas receiving growth have the appropriate physical infrastructure to accommodate such growth, while balancing the major maintenance of existing facilities, such as power distribution systems, pipes, community centers, swimming pools, libraries, and streets that are located throughout the City, not just in targeted growth areas.

Federal and State Regulatory Requirements

The City’s utilities have several facility projects in their Capital Improvement Programs to meet federal and state regulatory requirements. The City of Seattle must abide by the City’s two National Pollutant Discharge Elimination System (NPDES) permits, one for storm water and one for combined sewer system. The City is required, for example, to invest hundreds of millions of dollars in the combined sewer/storm water system over the next several years to control the number of combined sewer overflows (CSOs) into receiving bodies of water, including Lake Washington and Puget Sound. This is per a CSO Consent Decree with the Environmental Protection Agency (EPA) and the Department of Ecology (DOE), which outlines how the City will become compliant with EPA and DOE regulatory requirements regarding sewage releases from the city conveyance system.

City Light operates its hydroelectric dams and powerhouses under licenses from the Federal Energy Regulatory Commission. Licenses include Settlement Agreements that require City Light to perform protection, mitigation and enhancement activities. City Light is currently completing mitigation under

the current Skagit license (expires in 2025) and is well under way with Boundary License implementation.

City Light also complies with a wide range of permitting requirements and environmental regulations. Examples include the mitigation of soil contamination at former substations, and ongoing environmental mitigation in the Endangered Species Act project. Street-use permits and regulations are a major part of City Light projects that expand and repair the electric distribution system.

Endangered Species Compliance

The Cedar River Watershed Habitat Conservation Plan (HCP) is a 50-year, ecosystem-based plan that was prepared to address the declining populations of salmon, steelhead and other species of fish and wildlife in the Cedar River basin. The HCP was prepared under the Endangered Species Act and is designed both to provide certainty for the City of Seattle's drinking water supply and to protect and restore habitats of 83 species of fish and wildlife that may be affected by the City of Seattle's water supply and hydroelectric operations on the Cedar River. Seattle Public Utilities is continuing to implement its commitments under the HCP, which include downstream habitat protection and restoration, upland forest restoration, logging road decommissioning, and ongoing monitoring. City Light is also acquiring salmon habitat in the Green/Duwamish, Skagit, and Snohomish watersheds.

Americans with Disabilities Act

The United States Department of Justice (DOJ) conducted an audit of select City of Seattle facilities, practices and procedures, in order to assess City compliance with the Americans with Disabilities Act (ADA) and reported its findings to the City. While the City is largely in compliance, there are some elements within facilities that the DOJ has requested that the City update or alter to improve accessibility for individuals with disabilities. The City is working on an update to its ADA Transition Plan that will guide the development of a long-term strategy that manages the City's most critical public-facing ADA deficiencies first and maximizes accessibility to the greatest extent possible.

FAS coordinates and oversees implementation of ADA improvements in certain City facilities, determines and reports compliance to DOJ, and reviews and modifies as needed the facilities design and construction process with regard to the ADA. The City is in the process of moving towards a new approach to ADA improvements in which these improvements are included in ongoing maintenance and other remodeling work.

In order to provide additional proactive monitoring of compliance with ADA standards for new capital projects, the City added staffing dedicated to monitoring ADA compliance of new projects. All capital departments have a specific ADA coordinator and large departments such as Department of Parks and Recreation, SDOT, and FAS have dedicated ADA staffing.

Historic Preservation

Seattle's commitment to historic preservation began with citizen efforts in the 1960s to block the demolition of two of Seattle's oldest neighborhoods—Pike Place Market and Pioneer Square. Both neighborhoods were threatened with proposals that would have irreversibly changed the character of the districts. The Pike Place Market was faced with an Urban Renewal Plan that would have demolished it, while Pioneer Square was threatened with a major roadway project. In 1970, the City Council created the Pioneer Square Preservation District, Seattle's first historic district. Then, in 1971, voters approved

Overview

an initiative to create the Pike Place Market Historical District. In 1973, the City Council adopted a Landmarks Preservation Ordinance to safeguard properties of historic and architectural significance throughout the City. Today, Seattle's Historic Preservation Program encompasses eight historic districts located across the City and more than 400 designated landmarks. The City currently owns or maintains many of those landmarks, including libraries, park buildings, and fire stations.

Parks and Recreation

Overview

Seattle Parks and Recreation (SPR) stewards a thriving and diverse system of parks, natural areas, community centers, boulevards, trails, playgrounds, fields and courts, pools, beaches, and so much more. Our parks and recreation system connects Seattle’s residents and visitors to nature, provides opportunities to stay healthy and improve well-being, and celebrates the vibrancy of our city. Seattle Parks and Recreation also acknowledges and affirms the indigenous Coast Salish as the original caretakers of our landscape, who nurtured and shaped today’s parkland. We honor their legacy with gratitude and appreciation and will safeguard their knowledge and stewardship as enduring treasures to promote community welfare, cultivate inclusive expressions of nature and recreation and commit to land acknowledgment for each ensuing generation.

The 2024 CIP reflects the ongoing increased capital investments proposed in the second six-year funding cycle (Cycle 2) of the Seattle Park District. Cycle 2 prioritizes core major maintenance needs while making critical investments in climate actions, and clean, safe and open parks and facilities. Despite those investments, and like other City departments with significant capital project portfolios, SPR is experiencing unprecedented cost increases stemming from post pandemic economic conditions. In addition to inflationary based cost increases, restarting capital projects put on hold during the pandemic is contributing to funding issues due to timing lags between original project cost estimates and restart dates, which in most cases span multiple years.

Compounding these issues is the declining REET forecast from 2023-2028. The Office of Economic and Revenue Forecasting has estimated a total shortfall of about \$78.4 million over the six-year CIP compared to the 2023-2028 Adopted CIP. For SPR, this resulted in a request to reduce REET by \$20 million in 2023 and 2024 with an add back from 2025 to 2028 of ~\$25 million.

Thematic Priorities

SPR’s Capital Improvement Program (CIP) is focused on promoting healthy people, a thriving environment, and vibrant communities by preserving, enhancing, and expanding the physical assets where all of the people of Seattle can play, learn, contemplate, and build community. As described in the Project Selection Criteria section below, SPR uses criteria including safety, asset preservation, race and social justice, legal obligation, and improvements in efficiency to set priorities for capital projects. Each of these criteria is a direct reflection of SPR’s core values of access, opportunity, sustainability, and equity.

Aligning Capital Investments with Growth and/or Community Planning

Seattle’s Comprehensive Plan, “Seattle 2035,” is a 20-year vision and roadmap for Seattle’s future that guides City decisions on where to build new jobs and housing, how to improve the transportation system and where to make capital investments such as utilities, sidewalks, parks and open space and libraries. The Comprehensive Plan is the framework for most of Seattle’s big-picture decisions on how to grow while preserving and improving our neighborhoods. The plan brings forward race and social equity as foundational core value which SPR also leverages in our capital planning efforts including the department’s Parks and Open Space Plan.

SPR is in the process of updating the six-year Parks and Open Space Plan; last updated in 2017 to be consistent with Seattle 2035 among other planning efforts. The Plan is required by the Washington State Recreation and Conservation Office (RCO) to maintain the City’s eligibility for state grants and funding programs supporting outdoor recreation development and open space acquisition. The planning efforts will continue to focus on developing an accessible and integrated open space and recreation system in Seattle in tandem with any amendments to the City’s Comprehensive Plan.

Aligning Capital Investments to Advance Climate Change Efforts

Seattle's Climate Action Plan provides a framework for meeting Seattle's climate protection goals, including the overarching goal of becoming carbon neutral by 2050. SPR's role involves implementing our Climate Resiliency strategy, maximizing the benefits of the bicycle and pedestrian master plans, meeting building energy plan goals, such as LEED compliance, and working towards urban forest restoration goals, such as those outlined in the Green Seattle Partnership.

SPR is also committed to developing and managing an environmentally sustainable park system. This means using energy and utilities with conservation in mind in all facilities, effectively managing the use of water for irrigation and other purposes, creating efficiently maintained landscapes, and operating clean and safe park facilities.

Investments in Climate Conscious Buildings are included in the current Park District funding cycle (2023-2028) to decarbonize certain SPR facilities, with a goal of decarbonizing half of SPR's community centers by 2028. This funding, which is also being supplemented with \$1 million in 2023 Payroll Expense Tax Green New Deal (GND) resources and significant bond revenues in the later years of the CIP, will support the conversion away from the use of fossil fuel (primarily natural gas) heating systems to systems that rely on electricity primarily generated through hydropower, support charging infrastructure for electric fleet and equipment, electrical service upgrades, and building envelope improvements to meet energy code requirements. In many cases, this work will provide cooling and improved air filtration in facilities, improving adaptiveness to extreme heat and smoke events.

The Park District provides \$2 million in annual seed funding to add decarbonization to the scope for at least six planned renovation projects, and provide match funding to seek external grants. Funding will also provide one solar array per year to be coordinated with the department's existing roof replacement program and reduce the total load to the electrical grid. An additional \$2 million in Park District funding in 2024 will further support these efforts in alignment with the Executive's climate resilience hub strategy (being led by the Office of Sustainability and Environment).

Project Selection Criteria

SPR develops Asset Management Plans (AMP)s to identify and rank necessary major maintenance projects based on specific asset classes (ex. Roofs, athletic fields, play areas, sport courts).

Each class-specific AMP is a set of projects to address facility needs. SPR identifies projects through ongoing condition assessments, consultant studies, work order analyses (to identify key problem areas), and intradepartmental information sharing of facility maintenance issues and needs. SPR is consistently reviewing and updating these AMPs. While SPR's planning staff prepares and coordinates the AMP planning process and documents development, the process involves a collaborative approach throughout the department to develop project scopes and budget estimates.

Projects are prioritized within and between these classes using the following six criteria:

Code Requirements: The project brings a facility or element up to federal, state, and Seattle code requirements (such as ADA, water quality, or fire suppression) or meets other legal requirements.

Life Safety: The project will eliminate a condition that poses an imminent threat of injury. Examples of safety hazards are lack of seismic elements, failing piling, outdated play equipment, emergency management elements, or a documented environmental health hazard.

Facility Integrity: The project will help keep the facility operational and extend its life cycle by repairing, replacing, and renovating systems and elements of the facility, including building envelope (roof, walls, windows), electrical, plumbing, storm and sewer line replacement, and synthetic turf replacement.

Improve Operating Efficiency: The project will result in reduction of operating and maintenance costs including energy and water savings and climate mitigation strategies.

Equity: The project will preserve or enhance an asset which serves low income and racially diverse communities.

Other: Projects that have a unique element (e.g., leverage other funds) and/or are known needs that do not fit the other priorities. Class-specific criteria such as reserved hours (for event/athletic facilities for example) or the presence of related amenities or park classification may also be used to guide prioritization.

Projects are prioritized based on the criteria above along with other more class-specific criteria and funding is budgeted based on their projected spend. Many of our projects take at least two years. Less money is required in the beginning of a discretionary project during the Planning and Design phases than for Construction in the later timeframe, and the budget is planned accordingly. If project timelines shift, funding can be adjusted to align with the revised spending projections.

2024 CIP Highlights

SPR's 2024-2029 CIP budget across all funds is \$93.4 million in 2024 and reflects a wide range of discrete projects and ongoing programs with a mix of funding sources. Of this amount, approximately 53% (~\$51 million) is from Park District resources.¹

Key Changes by Fund

Park District (MPD): The 2024 budget does not make any changes to the 2023-2028 MPD capital spending plan.

Real Estate Excise Tax (REET): The proposed CIP update includes changes to REET allocations from 2023-2028, in an effort to align planned REET expenditures with projected revenues over the life of the CIP. In sum, these changes reduce SPR's REET by \$20 million in 2023 and 2024 with an add back from 2025 to 2028 of approximately \$25 million. Please note that the full scope of changes to SPR's CIP includes updates to the proposed 2024-2029 Proposed CIP and changes to SPR's 2023 capital budget. Both are described below.

The table and narrative below describe the impacts on various elements of the CIP. For many projects, funding is being aligned with updated spending projections and project timelines, thus minimizing impacts on project delivery. However, reductions required to the 2023 budget and to the proposed 2024 capital budget also have potentially greater impacts on certain projects, described below in greater detail. *Note that the changes proposed in the **Ongoing Maintenance** category are minor given either funding realignments or other funding sources supporting these projects, and SPR does not anticipate significant project delivery impacts.*

¹ For the Park District, 2029 and beyond will be determined during Cycle 3 planning (2029-2034), a continuation of current policy direction is assumed in the meantime.

The **Major Maintenance category** includes alignments with spending plans for one project (Terry Pettus) and delays one project (Mount Baker Bathhouse renovation) until 2027. The reductions are necessary to meet the REET targets in 2023 and 2024, and the department feels that they can be managed without significant public impacts. This category also includes reductions to 2027 and 2028 to align with projected REET revenues; these reductions may be revisited in future budget processes based on REET forecasts. Finally, changes to this category also include a reallocation across all six years of the CIP of approximately \$200,000 annually from general major maintenance to support a major maintenance subsidy to the Woodland Park Zoo, which per contractual agreement increases with inflation annually; see the budget book for additional detail on this item.

In the **Community Center category**, funding reductions taken in 2023 and 2025 are replenished from 2026-2028. This includes a realignment of \$5 million in the Lake City Community Center redevelopment project from 2023 to 2025 but note that this leaves enough funding currently estimated to continue planning/design and to remediate the site in the interim prior to the planned construction project in 2025. As with many large capital projects, it is possible that additional funding may be needed as the project moves closer to construction and the scope is better defined in collaboration with the Office of Housing and the developer (not yet selected).

The three planned **Field Conversions** are also impacted by the REET alignments. In the case of athletic field replacements, the small realignment from 2025 to 2026 is not expected to have significant impacts. Magnuson and Queen Anne are not currently planned until the latter half of the six-year CIP cycle, and the department anticipates both projects needing additional funding for both projects. Finally, these changes will delay the conversion of Soundview Playfield to synthetic turf by one year.

There are several changes to the funding for the two **Discrete Projects** including Carkeek Bridge Replacement and Gas Works Remediation.

- Changes to the Carkeek Bridge project budget reflect the actual project timeline given long timelines for BNSF and shoreline permitting. SPR and SDOT continue to monitor the bridge for safety issues and if it is determined that the bridge is unsafe for use, the bridge will be closed.
- The in-water remediation work required at Gas Works Park is now likely to start in 2027. As such, the department has added an additional approximately \$4 million to the outyear appropriations for the project. This change required a rebalancing of outyear funding, shifting funding away from other SPR priorities.

Seattle Parks and Recreation

CIP Project Categories and Projects	2023	2024	2025	2026	2027	2028	2029
Major Maintenance

Other Changes

The 2024-2029 Proposed CIP includes other technical and/or budget neutral adjustments including aligning debt service payments with the actual debt service schedule.

CIP Revenue Sources

Funds for the development of the system and for ongoing asset management come from a variety of sources. The two largest funding sources for Park's capital work are typically the Park District and REET. The majority of the remaining funding comes from Community Development Block Grants, the Central Waterfront Improvement Fund, King County, and General Fund to pay debt service. Other funding includes the 2008 Parks and Green Spaces Levy, and other special fund sources, grants, and private donations.

Seattle Park District

On August 5, 2014 voters in the city of Seattle approved Proposition 1 which created the Seattle Park District. A park district, also called a metropolitan park district, collects property taxes to fund parks and recreation services including park and facility maintenance, recreation facilities and programs, land acquisition, park improvements, and new park development on previously acquired sites. As an ongoing funding source, Seattle Park District property taxes provide more stable funding than time-limited levies allowing SPR to more effectively plan and schedule investments and provide some flexibility when emergencies arise.

Real Estate Excise Taxes (REET)

REET funding is used for asset preservation purposes, including ongoing major maintenance of existing assets and new parks or facilities. Funding has historically fluctuated significantly from year to year depending on changing forecasts and citywide priorities, and SPR tries to prioritize annual allocations on sustaining ongoing programs and investing in assets with the greatest need using an equity lens where possible. Examples of major maintenance programs supported fully or partially by REET depending on annual funding levels include small

irrigation upgrades, trail maintenance, athletic field turf maintenance and improvements, paving restoration, landscape and forest restoration, and others.

2008 Parks and Green Spaces Levy

The 2008 Parks and Green Spaces Levy was a six-year \$145.5 million levy intended to acquire, develop, or restore, existing or new, parks, recreation facilities, cultural facilities, green spaces, playfields, trails, community gardens, and shoreline areas. This levy ended in 2014 but continues to collect revenues on delinquent property taxes. The capital budget does not include any new appropriations of levy funds, and SPR continues to spend down existing appropriations. Remaining appropriation of approximately \$6.6 million includes earmarks for acquisitions and various renovation projects currently underway or near close out.

Summary of Upcoming Budget Issues and Challenges

Escalation and Associated Uncertainty

Like other City departments with significant capital project portfolios, SPR is experiencing unprecedented cost increases stemming from post pandemic economic conditions. Costs for building materials remain escalated due to manufacturing issues, supply chain delays, and raw material shortages. Over the course of 2022, construction costs increased by 6.7% nationally and 4.9% in Seattle, which continues to impact SPR's capital project costs. The department contains costs mostly through the reallocation of savings for completed projects to the extent possible, and through scope and scale changes as needed.

ADA Barrier Removal Schedule

Addressing identified access issues in alignment with the ADA Barrier Removal Schedule (BRS) coupled with SPR's ongoing ADA work exceeds funding available. Based on a conceptual level planning estimate, SPR will need approximately 28 years at the currently planned funding levels to address all of the current BRS-identified barriers; this only addresses the BRS issues, not the total ADA needs across the entire parks and recreation system. The investments towards ADA outlined in the new Park District Cycle reduces the timeline from approximately 48 years to 28 years, which is a significant achievement, but much work remains.

Building Electrification

Executive Order 2021-09 directed OSE and all relevant capital departments (including SPR) to complete the Municipal Building Electrification Strategy by December 2022, "to plan for all municipal buildings to operate without fossil fuel systems and appliances no later than 2035." Even with a significant new investment in this work from the Park District, PET, and bond funding, SPR's inventory of 65 buildings that remain heated by fossil fuels (including 10 pools) will take more time and resources to fully convert to alternative methods of heating and cooling.

Gas Works Park

As part of the annual budget process, the Department updates cost estimates for the remediation work at Gas Work Park based on the ongoing mitigation of the park. The City, Puget Sound Energy (PSE), and the Department of Ecology are responsible for the cleanup of hazardous substances to both the uplands region of the park as well as in water sedimentation, which is coordinated by SPU. The upland work has been complete, and the water remediation is now estimated to begin in 2027.

Specifically, the sediment cleanup is now estimated to start in the fall of 2027, occurring in two in water seasons in 2027/2028 and 2028/2029. Clean up costs are split among the agencies, and SPR's share is expected to cost an estimated \$8 million (2024-2029).

Aquarium Renovation and Expansion

The Ocean Pavilion is currently under construction and is being constructed in four phases in close coordination with the City of Seattle's Office of the Waterfront and the Overlook Walk and East West Connections project. Successfully delivering the projects will allow the new Central Waterfront to open to the public in 2024. To maintain schedule efficiency and mitigate additional cost escalation given COVID-19 global pandemic impacts, the Seattle Aquarium Society (SEAS) requested modifications to the Ocean Pavilion funding agreement and the existing Operations and Management Agreement between SPR and SEAS.

In 2023, SEAS and the City agreed to further OMA amendments that offered SEAS the ability to seek private financing of up to \$67 million to complete the project. To accommodate this arrangement, SEAS requested that the current term of the Operations and Management Agreement (OMA) between the City and SEAS be extended by 10 years along with other modifications. This arrangement was approved by the City Council in August 2023. Construction continues on the project. While SPR is not anticipating any direct budget impacts for 2024, the OMA may be amended or renegotiated at a future date to address various terms and conditions including the new Ocean Pavilion which may involve additional funding support in a future budget process.

8th and Mercer Community Center Development

Project No:	MC-PR-41078	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	New Investment	Location:	Mercer St. and 8th Ave N
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:		Neighborhood District:	
Total Project Cost Range:	14,200 - 21,300	Urban Village:	South Lake Union

This project will plan, design, and construct a new Community Center at Mercer St. and 8th Ave North. This project was approved by City Council as a public benefit in the sale of City-owned property at that location. The developer provides the space (25-year lease with up to 15 additional years through two options) with the City responsible for tenant improvements (estimated at ~\$17 million) and an ongoing commitment to operate the facility.

Activating and Connecting to Greenways

Project No:	MC-PR-21004	BSL Code:	BC-PR-20000
Project Type:	Ongoing	BSL Name:	Building For The Future
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project develops safe, inviting connections between parks and greenways which are residential streets that are dedicated connectors for pedestrians, cyclists, and other non-motorized travel, as identified in the Bicycle and Pedestrian Master Plan documents. Typical improvements include crosswalks, benches, greenway park entrance improvements, non-motorized paths and loops within parks, and related work. Parks will work with the Seattle Department of Transportation (SDOT) to activate and enhance connection points between parks. This project improves safety and access to and from the parks, encourages partnerships with neighborhood and community groups, business, and other stakeholders.

ADA Compliance - Parks

Project No:	MC-PR-41031	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides for accessibility improvements for people of all abilities at a number of parks facilities. Work is prioritized based on a combination of factors including the Citywide Barrier Removal Schedule, parks and facilities with the greatest amount of programming, and race and social equity. Examples of work consist of creating accessible parking and routes to activity areas, adjustments to signage, door closures, restroom fixtures, and other related work. This program is critical for providing access to Seattle Parks and Recreation facilities, parks, and programming to users of all abilities.

Amy Yee Tennis Center Renovation

Project No:	MC-PR-41076	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	2000 Martin Luther King Jr. Way, S.
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 3
Start/End Date:		Neighborhood District:	
Total Project Cost Range:	8,000 - 12,000	Urban Village:	North Rainier

This project provides building envelope and structural upgrades to stabilize Amy Yee Tennis Center. Examples of work includes re-roofing, insulation, structural upgrades, and addressing the building water penetration from the hillside. New court heating and ventilation and lighting replacement would also be implemented if budget allows, in addition to other interior renovations as identified in in the 2019 feasibility study. These improvements would greatly improve the playing experience at the center and reduce the risk of additional deferred maintenance caused by the current roof and walls which have a number of known active leaks.

Aquarium - Pier 59 Piling Replacement and Aquarium Redevelopment Debt Service

Project No:	MC-PR-31002	BSL Code:	BC-PR-30000
Project Type:	Debt Service	BSL Name:	Debt and Special Funding
Project Category:	Rehabilitation or Restoration	Location:	1483 Alaskan Wy
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	2005 - 2025	Neighborhood District:	Downtown
Total Project Cost:	\$36,979	Urban Village:	Downtown

This project supports debt service payments on 20-year Limited Tax General Obligation (LTGO) bonds that were issued in 2005 to pay for the replacement of the entire pier piling system of Pier 59, interior infrastructure improvements, and development of portions of the Aquarium by the Seattle Aquarium Society. The pier and Aquarium work was part of an overall plan to repair and redevelop the Aquarium and the Central Waterfront area, and to construct a new Aquarium entrance, exhibits, and visitor services on a portion of the pier. This work enhanced and extended the useful life of Pier 59 and the Aquarium.

Project Type:	Discrete	BSL Name:	Building For The Future
Project Category:	Rehabilitation or Restoration	Location:	1483 Alaskan WAY
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2015 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$54,040	Urban Village:	Downtown

The Seattle Aquarium is owned by Seattle Parks and Recreation and operated by the non-profit Seattle Aquarium Society (SEAS). SEAS is planning a major expansion to the Aquarium's existing footprint to add new programming and visitor capacity. This project will provide a new Ocean Pavilion that will integrate with improvements made by The Office of the Waterfront along the Central Waterfront. SEAS also intends to make improvements to piers 59 and 60 to improve exhibit space and operations efficiency. Design and construction of the project is led by SEAS and coordinated with City investments by the Parks Department and Office of the Waterfront. This project is part of the overall waterfront improvement program and appropriates City matching funds for SEAS' project. The City provided \$34 million to SEAS for design and construction through a funding agreement authorized by City Council in 2019. In 2022 and 2023, the City and SEAS amended the Funding Agreement and the Operations and Management Agreement to include an additional \$20 million in Ocean Pavilion funding.

The Seattle Aquarium is owned by Seattle Parks and Recreation and operated by the non-profit Seattle Aquarium Society (SEAS). SEAS is planning a major expansion to the Aquarium's existing footprint to add new programming and visitor capacity. This project supports debt service payments on 20-year Limited Tax General Obligation (LTGO) bonds to pay for the Aquarium Expansion project (MC-PR-21006). The Aquarium Expansion project is part of the overall plan to repair and redevelop the Aquarium and the Central Waterfront area.

Aquarium Major Maintenance

Project No:	MC-PR-41004	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	1483 Alaskan WAY
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This ongoing project provides funds for major maintenance at the Aquarium and other related items. Typical projects include seawater pump replacement, tank repairs, energy efficient systems upgrades, exterior decking repairs, Americans with Disabilities (ADA) access improvements, roofing and seismic upgrades, and related work. The facility was constructed in 1980, and a partial addition was installed on Pier 59 portion of the building in 2006. Due to the harsh saltwater environment, Aquarium facilities have a shorter lifespan than similar facilities not located over saltwater. The individual projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, and improve the overall Aquarium experience for the public.

Arboretum North Entry Mitigation

Project No:	MC-PR-61004	BSL Code:	BC-PR-60000
Project Type:	Ongoing	BSL Name:	SR520 Mitigation
Project Category:	Rehabilitation or Restoration	Location:	
Current Project Stage:	N/A	Council District:	Council District 3
Start/End Date:	N/A	Neighborhood District:	
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides funding for new park development of the WSDOT Peninsula. This project is funded from a settlement agreement (GCB 3564) with the Washington State Department of Transportation (WSDOT), which authorizes the City to complete real property transactions and accepts the mitigation contribution toward the Arboretum North Entry Project, such settlement agreement facilitating WSDOT acquiring the required property rights for bidding the SR 520 Portage Bay Bridge Roanoke Lid Project in 2023. This project develops a park at the WSDOT Peninsula (the site of WSDOT's current SR520 field office), including realigning lake Washington Blvd., extending the multi-use trail to the Montlake Lid, and daylighting arboretum creek along with the associated pedestrian/vehicular bridges. The majority of the project will be implemented after WSDOT completes its work, 12/31/2031.

This project renovates the portion of the trail from the former MOHAI parking lot to the western edge of Foster Island. Project elements include upland and wetland restoration, invasive species removal, native plant re-vegetation, and related repairs. This restoration will improve the health of the ecosystem and provide a more enjoyable pedestrian and bicycling experience.

Beach Restoration Program

Project No:	MC-PR-41006	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides for periodic beach renourishment and related work at selected sites throughout the City. Work includes, but is not limited to, laying sand and gravel to replenish beaches that have eroded in recent years and to improve substrate for juvenile salmon habitat. This project supports the Restore Our Waters Strategy to improve Seattle's aquatic environments. Note: this Master Project is not funded in the future CIP; however this ongoing work will continue in future years to be fund out of the Major Maintenance Backlog & Asset Management Master Project.

Emma Schmitz Sea Wall Replacement-2008 Levy

Project No:	MC-PR-16008	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	Rehabilitation or Restoration	Location:	4503 Beach DR SW
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 1
Start/End Date:	2014 - 2024	Neighborhood District:	Southwest
Total Project Cost:	\$1,400	Urban Village:	Not in an Urban Village

This project, funded with 2008 Parks Levy funds redirected from the Seattle Asian Art Museum renovation project, is Seattle Parks' share of the replacement of the seawall which was failing. The Army Corps of Engineers funded a study to determine the best option for replacement or repair of the seawall. The new seawall will minimize the impact on the beach, address rising seawater, and create better contours for the restoration landscaping on the landward portion of the overlook area. Parks and the Army Corps will share the costs of the project (Parks 35% and Army Corps 65%).

Gas Works Park - Remediation

Project No:	MC-PR-31007	BSL Code:	BC-PR-30000
Project Type:	Ongoing	BSL Name:	Debt and Special Funding
Project Category:	Rehabilitation or Restoration	Location:	2101 N Northlake Wy
Current Project Stage:	N/A	Council District:	Council District 4
Start/End Date:	N/A	Neighborhood District:	Lake Union
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project supports the overall cleanup efforts at the Gas Works Park site (including the uplands and sediments), provides ongoing efforts to ensure the measures constructed for remediation of soils at Gas Works Park remain effective. Activities include maintenance and operation of soil cap and other institutional controls; and other related work. All measures of the project must be executed in accordance with the Consent Decree established in 1998, requiring Seattle Parks and Recreation, Puget Sound Energy, and the Department of Ecology to implement a Cleanup Action Plan and subsequent cleanup activities. The ongoing project, in coordination with SPU, supports the overall multi-agency cleanup efforts at Gas Works Park.

Green Lake CC - Evans Pool Roof Replacement & Solar Hot Water

Project No:	MC-PR-41034	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	7201 E Green Lake Dr N
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 6
Start/End Date:	2013 - 2023	Neighborhood District:	Northwest
Total Project Cost:	\$1,672	Urban Village:	Green Lake

This project demolishes the existing 15,130 square foot Evans Pool roof and the 13,625 Community Center roof and replaces them with a rubberized membrane roofing/EPDM system and solar panels to supplement the pool hot water system, seismic improvements, and related work. The flat roof section of the roof will accommodate a 1,000,000 Btu/day system and will help to reduce pool heating costs.

HVAC System Duct Cleaning Program - Large Buildings

Project No:	MC-PR-41028	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides periodic (every two to five years) cleaning of the air ducts in the heating, ventilation, and air conditioning (HVAC) systems in pool natatoriums, community centers, and other Department-owned buildings. This maintenance increases the lifespan of these systems and reduces potential future major maintenance projects.

Improve Dog Off-Leash Areas

Project No:	MC-PR-51002	BSL Code:	BC-PR-50000
Project Type:	Ongoing	BSL Name:	Maintaining Parks and Facilities
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project improves the City's dog off-leash areas, most of which have aging infrastructure. This project will also support new dog off-leash areas as funding is provided. Typical projects will improve Americans with Disabilities (ADA) access, address drainage and erosion issues, update aging infrastructure, and related work. These projects make these off-leash areas make more accessible and safe for parks users.

Irrigation Replacement and Outdoor Infrastructure Program

Project No:	MC-PR-41020	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds engineering and other studies of the Department's park irrigation and outdoor infrastructure systems (e.g., water mains, irrigation and drainage lines, sanitary and storm sewers, electrical utilities, roads, paths, trails, retaining walls, bridges, saltwater piers, and related infrastructure). Specific projects are determined by the studies and operational considerations, along with emergency projects. This project provides conservation benefits by reducing water loss due to leaking systems, allocating water flow more efficiently through improved technology, and implementing other related work. It also extends the useful life of the infrastructure and living assets (i.e., plants), and makes the department more resilient to drought and heat conditions due to climate change.

Lake City Community Center Redevelopment

Project No:	MC-PR-41040	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Improved Facility	Location:	12531 28th Avenue NE
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Council District 5
Start/End Date:		Neighborhood District:	North
Total Project Cost:	\$45,100	Urban Village:	Lake City

This project will replace the current Lake City Community Center with a new facility and perform other related work. The new Lake City Community Center will be more accessible for all users and include improved recreation spaces. The project began with a feasibility study that identified the probable costs associated with a variety of options such as underground parking, gym size, possible childcare rooms and facilities, and number of floors and other recreation spaces.

Magnuson Community Center Improvements

Project No:	MC-PR-41067	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Improved Facility	Location:	7110 62nd AVE NE
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 4
Start/End Date:	2018 - 2024	Neighborhood District:	Northeast
Total Project Cost:	\$4,186	Urban Village:	Not in an Urban Village

This project provides funding for design and renovation of the Magnuson Park Community Center (Building #47) to reconfigure the interior space of the south side of the building for increased programming options. Work on Building #47 will include new mechanical, electrical, and plumbing components, window replacement, hazardous material abatement, and other related work. These improvements will greatly expand programming ability at Magnuson Community Center and make the facility more energy efficient and more comfortable in the summer.

Magnuson Major Maintenance

Project No:	MC-PR-41077	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	7400 Sandpoint Way NE
Current Project Stage:	N/A	Council District:	Council District 4
Start/End Date:	N/A	Neighborhood District:	
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides funds for some of the most pressing building and infrastructure needs at Magnuson Park. Examples of projects include building stabilization and renovation to meet current codes, safety and accessibility improvements to roads and pathways, utility upgrades, and other related work. The individual projects will extend the life of assets, improve life safety, reduce energy costs, and expand access to park amenities.

Start/End Date:	2027 - 2028	Neighborhood District:	Northeast
Total Project Cost:	\$8,320	Urban Village:	Not in an Urban Village

This project converts existing grass to synthetic turf, installs lighting, drainage improvements, and performs related work. Per the Magnuson Park Master Plan, the field is located south of the existing field 6 and west of the existing field 7 and will be reconfigured into field 12. This improvement allows for greater use and scheduling of the playfield for soccer, and other activities.

Major Maintenance and Asset Management

Project No:	MC-PR-41001	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding for asset renewal in parks and recreation facilities citywide, including athletic fields, play areas, swimming pools, trails, buildings, accessibility elements, outdoor infrastructure, and related work. This project also funds integrated asset management to track and forecast long-term asset and maintenance needs. Typical major maintenance improvements may include, but are not limited to renovating buildings, Americans with Disabilities (ADA) access improvements, replacing play area structures, forest, landscape, trail maintenance and improvements, swimming pool repairs, athletic field refurbishment, and installation of energy efficient lighting, and related major maintenance work. These projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, reclaim Parks property, and improve the overall park experience for the public.

Marra-Desimone Park Development

Project No:	MC-PR-16004	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	New Facility	Location:	9026 4th AVE S
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 1
Start/End Date:	2013 - 2024	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$1,915	Urban Village:	Not in an Urban Village

This project provides for development of Marra-Desimone Park, which includes the Marra Farm, Seattle's largest site for urban gardening. It implements elements of the "Long-Range Development Plan for Marra-Desimone Park" (2008), and may include enhancement of the existing farm area, development of community and recreation space on the eastern side of the park, paths, and gateway features. This project is part of the 2008 Parks Levy.

Municipal Energy Efficiency Program - Parks

Project No:	MC-PR-41030	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide Multiple Locations
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides for investment in more energy efficient building systems and other facility efficiency improvements. By making these investments the City expects future savings in utility costs, and significant progress toward carbon neutrality. This program is intended to fund facility retrofit projects identified by energy audits. These projects are identified and worked on in collaboration with the Office for Sustainability and Environment (OSE) and funding varies by year.

Neighborhood Park Acquisitions- 2008 Parks Levy

Project No:	MC-PR-14001	BSL Code:	BC-PR-10000
Project Type:	Ongoing	BSL Name:	2008 Parks Levy
Project Category:	New Facility	Location:	Multiple Locations
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides for acquisition of property to create new urban parklands in Seattle's most densely-developed neighborhoods as identified in Seattle Parks and Recreation's 2006 Gap Analysis. Levy funds are supplemented by grants and funds from other sources and are not expected to be sufficient to complete acquisitions in all the targeted areas. This project is part of the 2008 Parks Levy.

This ongoing program provides funding for small projects identified by the community. Projects are typically under \$50,000 and address small scale requests to resolve emergent issues and/or , major maintenance activities/renovations performed in conjunction with development-oriented Neighborhood Matching Fund (NMF) projects. This program enables the Department to respond quickly to community requests for repairs in neighborhood parks.

New Park Development

Project No:	MC-PR-21003	BSL Code:	BC-PR-20000
Project Type:	Ongoing	BSL Name:	Building For The Future
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project develops new parks on land-banked sites, new acquisition sites, and partnership development sites. Depending on the size, location, and type of park, new elements could include trees and landscaping, paths, plazas, a play area, site furniture, lighting, and other related improvements. Each newly developed park will improve the neighborhood and will have environmental benefits. Funding for this project will also be used to make short-term enhancements to sites with a longer development timeline to reduce the risk of adverse activity and increase the benefit of the site to the surrounding community. This project was formerly known as "Develop 14 New Parks at Land-Banked Sites."

Northwest Native Canoe Center Development

Project No:	MC-PR-15010	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	Improved Facility	Location:	860 Terry AVE N
Current Project Stage:	Stage 3 - Design	Council District:	Council District 3
Start/End Date:	2014 - 2024	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$4,695	Urban Village:	South Lake Union

This project, part of the 2008 Parks Levy Opportunity Fund, develops a carving house which includes a living roof, and installs a carved "Welcome" figure on the beach. The project provides insight into distinctive varieties of Native American culture in a location at Lake Union where Native carvers are safe, and the public is welcome. This is the first phase of a two-building development.

Start/End Date:	2014 - 2024	Neighborhood District:	Southeast
Total Project Cost:	\$646	Urban Village:	Not in an Urban Village

This project, part of the 2008 Parks Levy Opportunity Fund, renovates the play area and basketball courts, installs benches and games tables, prepares P-Patches, and adds rain gardens and bio-swales to address drainage. This project also includes way-finding markers embedded in the walking paths. Renovations improve safety in the park and help the park function better as a neighborhood and community gathering spot.

Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding to support community-initiated improvement or upgrade projects to parks and facilities; with a focus on neighborhoods with a history of racial disparities regarding access to green space and safety from environmental harms. No match is required from community groups applying for this funding. Seattle Parks and Recreation will develop and administer a process by which projects will be selected and funding recommendations made to the Superintendent by the Board of Parks and Recreation Commissioners (BPRC). This funding can be used as seed funding for outside grants and private fundraising, to support initial feasibility work, or implement small responsive improvements in collaboration with communities. This project number was formerly used for the Major Projects Challenge Fund and Equitable Park Development Fund.

Parks Central Waterfront Piers Rehabilitation

Project No:	MC-PR-21007	BSL Code:	BC-PR-20000
Project Type:	Discrete	BSL Name:	Building For The Future
Project Category:	Rehabilitation or Restoration	Location:	Alaskan Way
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2016 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$111,167	Urban Village:	Downtown

The Waterfront Park and Pier 62/63 are public park facilities that provide public access to Elliott Bay and host a range of public events, markets and performances. Both piers need a full seismic upgrade to meet current life safety codes, and Waterfront Park needs significant access improvements. Waterfront Park is envisioned as a flexible public recreation and open space. Pier 62/63 is anticipated to be more heavily programmed, with a flexible activity rink, events, and performances. The Department of Parks and Recreation (DPR) owns the piers, but the Office of the Waterfront will lead the rehabilitation. The Pier 62/63 Phase 1 Rebuild was substantially complete in July 2020 with Pier 62 now operational, the next phase will demolish Pier 63. This project is part of the overall Central Waterfront program. (Interfund Loan will be repaid with Local Improvement District Bonds.)

This ongoing program provides minor capital improvements to low-income area parks throughout the City. Conservation Corps Program staff perform this work, providing training opportunities for low-income, homeless, and other at-risk community members. Program elements include provision of ADA improvements to parks and park restrooms, accessible drinking fountain installation, basketball court construction, bench and picnic table installation, tree purchase and planting, and other small-scale capital projects. Funding is also targeted to projects that can be integrated with other community-identified amenities.

Pathways Park Renovation

Project No:	MC-PR-41073	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	5201 Sand Point Way NE
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Council District 4
Start/End Date:	2020 - 2024	Neighborhood District:	Northeast
Total Project Cost:	\$6,372	Urban Village:	Not in an Urban Village

This project will renovate the eastern portion of Pathways Park to create an inclusive park space for people of diverse abilities. The current play area will be replaced with new play features along a renovated loop pathway with landscape improvements. The project will also include improved and expanded accessible parking, restroom improvements, and related work. This project used to be called Burke-Gilman Playground Park Renovation.

Pavement Restoration Program

Project No:	MC-PR-41025	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds various project activities, including, but not limited to, seal-coats to new pavement to extend its lifespan, pavement patching, sub-grade repairs, overlays to small areas, and repairs associated with pavement failures (e.g., heaving, sinking, cracking, and root invasion). Improvements reduce damage to asphalt, lengthen pavement lifespan, and reduce safety hazards such as uneven pavement.

Public Restroom Renovations

Project No:	MC-PR-41036	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project renovates selected public restrooms for improved ADA access, ventilation, finishes (walls and floors), and security. The renovations also may include reconfigured stalls, new toilets, urinals, and sinks, grab-bars, paint and finishes, and other related work, depending on the needs of a particular site. In some cases, a public restroom may be replaced or reconfigured to allow for non-gender specific accessible use. Public Restrooms are prioritized for work based on the results of condition assessments while also factoring in race and social equity, emergent needs, and the location's status on the BRS schedule. Where priorities align, SPR also makes an effort to combine work at public restrooms with other work on the site. This project was previously named Comfort Station Renovations.

Puget Park - Environmental Remediation

Project No:	MC-PR-31001	BSL Code:	BC-PR-30000
Project Type:	Ongoing	BSL Name:	Debt and Special Funding
Project Category:	Rehabilitation or Restoration	Location:	1900 SW Dawson St
Current Project Stage:	N/A	Council District:	Council District 1
Start/End Date:	N/A	Neighborhood District:	Delridge
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project funds a cleanup action on a portion of Puget Park and on an adjacent related parcel, with participation by four parties involved in the original contamination. The City negotiated a settlement agreement with all parties for funding cleanup costs incurred in the past, as well as future site mitigation costs.

Rejuvenate Our P-Patches

Project No:	MC-PR-51001	BSL Code:	BC-PR-50000
Project Type:	Ongoing	BSL Name:	Maintaining Parks and Facilities
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project revitalizes the City's numerous P-Patch Community Gardens and Urban Food Systems program gardens and orchards. Typical projects will improve the paths, improve and construct planting beds and common areas, improve Americans with Disabilities (ADA) access, update aging infrastructure, and related work. The first P-Patch was constructed in 1973, and more have been added over the years. The individual projects will address safety and code requirements, extend the life of the asset, and improve accessibility.

Saving our City Forests

Project No:	MC-PR-41003	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project restores and maintains Seattle's numerous acres of urban forests. Seattle's trees are aging and inundated with invasive plants, including English ivy, Himalayan blackberry, Scot's broom, and knotweed. This project expands Parks' capacity to restore forest land, and to provide the ongoing monitoring and maintenance work necessary to keep restored areas from being overrun by invasive plants. A healthy urban forest contributes significantly to the health of the environment by cleaning air and water, filtering and retaining storm water, and providing a respite from the built environment.

Smith Cove Park Development

Project No:	MC-PR-21005	BSL Code:	BC-PR-20000
Project Type:	Discrete	BSL Name:	Building For The Future
Project Category:	Improved Facility	Location:	W Galer ST
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:		Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$8,550	Urban Village:	Not in an Urban Village

This project develops a portion of Smith Cove Park located just west of Pier 91 on Elliott Bay. The park will be developed based on a planning and design process for the site that took place in 2016. The project will include renovation to the playfield and development of a new off-leash area; picnic area, and related work primarily on the west side of the park. The improved park will provide waterfront access and ADA accessibility, provide enhanced opportunities for active recreation, and make the park inviting and usable for more people.

Soundview Athletic Field Conversion

Project No:	MC-PR-41074	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Improved Facility	Location:	1590 NW 90th St
Current Project Stage:	Stage 3 - Design	Council District:	Council District 6
Start/End Date:	2022 - 2025	Neighborhood District:	Ballard
Total Project Cost:	\$7,050	Urban Village:	Not in an Urban Village

This project funds construction for a renovated west athletic field at Soundview Playfield. The existing grass playfield will be converted to synthetic turf. Athletic field lighting and on-site storm water retention facilities will be installed and pathways and dugouts will be renovated to improve access for people of all abilities.

South Park Campus Improvements

Project No:	MC-PR-21013	BSL Code:	BC-PR-20000
Project Type:	Discrete	BSL Name:	Building For The Future
Project Category:	Improved Facility	Location:	8319 8th AVE S
Current Project Stage:	Stage 3 - Design	Council District:	Council District 1
Start/End Date:	2019 - 2024	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$8,570	Urban Village:	South Park

This project will implement the South Park Site Plan approved by Seattle Parks and Recreation in March 2018, by renovating and relocating numerous park elements. The site plan calls for the existing play area and wading pool to be demolished and replaced with a new play area and spray park in new locations within the site. The existing grass playfield will be renovated and upgraded with synthetic turf and lighting. The project may also include the replacement of the existing sport courts, installation of a loop trail and planted buffer, new fencing and related work. Partial funding for this project is anticipated from various public and private sources in the forms of grants and donations. Once the project is completed, these improvements will increase safety and site capacity, support more active uses and types of healthy outdoor play, and provide opportunities for programming throughout the year. This project will be bid and constructed in conjunction with South Park Community Center Facility renovation project; which is part of the ongoing Community Center Rehabilitation & Development capital project (MC-PR-41002). This project is funded by public and private sources.

Sport Court Restoration Program

Project No:	MC-PR-41019	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project restores or creates new sport courts throughout the City. The major maintenance focuses on less expensive repairs such as crack repair, color coating, providing new posts, standards, fencing, and other related work. Courts are selected based on staff evaluation of conditions. This program maintains and creates playability and extends the serviceable life of courts.

Trails Renovation Program

Project No:	MC-PR-41026	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project implements a comprehensive trail renovation strategy. Funding addresses trail failures throughout the park system to correct safety problems, prevent further erosion and deterioration, and perform other related work. The project leverages community support by providing technical assistance, training, and materials to district staff and volunteers who are engaged in other trail-related projects. Trail projects that require significant design or permitting will be funded out of the Major Maintenance project.

Urban Forestry - Forest Restoration Program

Project No:	MC-PR-41022	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program develops forest and vegetation management plans, implements restoration projects at sites throughout the City's park system, removes hazardous trees, and performs other related work. Restoration projects, with much of the work being performed by citizen volunteers, may include removal of invasive plants, such as English ivy and Himalayan blackberry, followed by replanting with native plants. Future funding for this program depends on available resources. This project enhances Seattle's urban forest and supports the Green Seattle Partnership to increase overall City tree canopy and the Restore Our Waters Strategy to improve Seattle's aquatic environments.

This ongoing project is a collaborative effort between the City of Seattle, local community organizations, and thousands of volunteers working to restore and actively maintain forested park lands in Seattle. Restoration for each acre typically occurs over multiple years and includes clearing invasive plants, replanting the area with native plants, caring for the plants through establishment, and other related work.

Utility Conservation Program

Project No:	MC-PR-41010	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project implements energy conservation projects in collaboration with Seattle City Light, Seattle Public Utilities, Office of Sustainability and Environment, and Puget Sound Energy. Projects may include lighting, heating, and water use renovations at various facilities throughout the Parks system. These projects result in energy savings and better air and water quality, and support the Climate Protection Initiative by reducing greenhouse gas emissions. The cost of these projects is expected to be recovered within approximately five years through reduced utility costs and rebates from the three utilities. Rebates and other additional resources will be pursued to fund future conservation projects.

Victor Steinbrueck Park Renovation

Project No:	MC-PR-16005	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	Improved Facility	Location:	2001 Western AVE
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2013 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$2,850	Urban Village:	Downtown

This project renovates the existing Victor Steinbrueck Park to help revitalize this park located in the Pike Place Market. Renovations may include new seating, paths and circulation modifications, landscaping, lighting, signage, and related elements. This park is within the boundaries of the Pike Place Historical District. This project is funded in part by the 2008 Parks Levy.

Victor Steinbrueck Parking Envelope

Project No:	MC-PR-41044	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	2001 Western Ave
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:	2017 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$5,000	Urban Village:	Downtown

This project will replace the existing membrane between the westerly portion of Victor Steinbrueck Park and the Unico parking garage below, and other related items. The membrane is a waterproofing layer that keeps stormwater and irrigation that falls on the park from entering the garage below and damaging the concrete structure. The membrane was installed in 1981 when the park was originally constructed on top of the parking garage. These membranes typically last no more than 30 years; the existing membrane has failed and no longer prevents water from entering the garage below. The membrane replacement requires the removal and subsequent replacement of all the park improvements above and the installation of a new drainage system. The new membrane will provide a waterproofed foundation for the associated park renovation project.

Start/End Date:	2028 - 2030	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:		Urban Village:	Not in an Urban Village

This project converts an existing grass athletic field of approximately 135,500 square feet to synthetic turf, replaces lighting, installs drainage improvements, and performs related work. This improvement allows for enhanced use and scheduling of the playfield for soccer, lacrosse, baseball, and other activities. Funding for this project was eliminated from the 6-year CIP in the 2021 Proposed Budget.

West Queen Anne Playfield Conversion

Project No:	MC-PR-41072	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	1901 1st AVE W
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:	2020 - 2028	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$5,667	Urban Village:	Not in an Urban Village

This project will improve playability and increase year-round athletic field capacity at West Queen Anne Playfield. The existing natural turf field will be replaced with a synthetic field, and paths will be re-paved to improve accessibility, along with related work. The new synthetic turf field will expand capacity and play-time in an area of the city with few synthetic turf athletic fields.

Yesler Crescent Improvements

Project No:	MC-PR-21012	BSL Code:	BC-PR-20000
Project Type:	Discrete	BSL Name:	Building For The Future
Project Category:	Improved Facility	Location:	
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:	2019 - 2025	Neighborhood District:	Downtown
Total Project Cost:	\$2,647	Urban Village:	Downtown

This project will support improvements to City Hall Park and Prefontaine fountain to enhance circulation and focus on park activation and preservation. Potential improvements may include pathway renovation, furnishing replacement, lighting upgrades, irrigation renovation and related work, and the potential rebuilding or renovation of the Prefontaine fountain.

Zoo Major Maintenance

Project No:	MC-PR-41005	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	601 N 59TH ST
Current Project Stage:	N/A	Council District:	Council District 6
Start/End Date:	N/A	Neighborhood District:	Northwest
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project preserves the Zoo facilities to enable it to operate efficiently. Typical projects include exhibit renovation or replacement, water, electrical, irrigation, and sewer systems replacement, energy efficient improvements, pavement and grounds restoration, Americans with Disabilities (ADA) access improvements, and related work. The oldest buildings at the Zoo were constructed in the 1930s and others have been built in subsequent decades. The individual projects will address health and safety codes, extend the life of the asset, improve access for all, and improve the overall Zoo experience for the public.

Seattle Center

Overview

Seattle Center is an active civic, arts and family gathering place at the core of our city. More than 30 cultural, educational, sports and entertainment organizations reside on the grounds, together with a broad range of public and community programs, creating thousands of events each year. It is the largest visitor destination in Washington state, attracting an estimated 12 million visits each year to attend arts, sporting, educational, and cultural events and festivals, and to enjoy the grounds and open spaces. There are 24 buildings and three parking garages on the campus. Seattle Center is also a major urban park with lawns, gardens, fountains, a children’s play area, and a variety of plazas and open spaces. The Seattle Center Monorail runs between the Seattle Center campus and downtown Seattle. The City owns the Monorail, which is operated by Seattle Monorail Services on behalf of the City. The Space Needle, the Pacific Science Center, and Seattle Public Schools’ Memorial Stadium and its adjacent parking lot are also part of the campus but are privately owned and operated.

Seattle Center resides on Indigenous lands, the traditional territories of the Coast Salish people. The origins of a civic campus at Seattle Center go back to the 1920s, with Mayor Bertha Landes presiding over the groundbreaking for the Civic Auditorium, Civic Ice Arena, and Civic Field. In the 1930s the Washington State Armory was built. Memorial Stadium was constructed in the 1940s. In the late 1950s and early 1960s the site for the 1962 Seattle World’s Fair was created, expanding the size of the campus to roughly what we know today.

One result today of this long history as a civic gathering place is aging infrastructure. While some facilities have been renovated through individual efforts (McCaw Hall in 2003; the new Seattle Opera at the Center facility in 2018; and Climate Pledge Arena in 2021), the majority remain in need of major renovation and redevelopment, and many of our core campus systems (HVAC, emergency generators) have exceeded their lifespan and are beginning to fail. These facilities are essential to Seattle Center’s safe and effective operation, serving as event venues, sheltering sites, and providing critical services to the campus and the larger City.

As Seattle Center embraces the post-pandemic return of crowded summer festivals and plays an important role supporting the recovery of downtown, now is the time to address these infrastructure needs and ensure it is well-positioned to serve the city’s needs in the coming years. The department’s Capital Improvement Program (CIP) repairs, renews, and redevelops the facilities and grounds of Seattle Center to provide a safe and welcoming place for millions of annual visitors. The CIP helps accomplish Seattle Center’s mission by:

- Preserving campus buildings and infrastructure
- Assessing building systems and developing maintenance and repair schedules
- Maintaining and repairing campus-wide utilities
- Creating and maintaining multi-use public spaces for both free and fee supported events
- Maintaining a large collection of public art
- Upgrading landscape features and public gathering spaces

- Planning for campus improvements and modernization
- Retrofitting buildings for improved energy efficiency
- Removing barriers in buildings, pathways, and public spaces on campus to better serve campus visitors of all abilities

Campus Capital Improvement Program Priorities

Due to lower forecasted projections for REET revenues, this budget includes difficult decisions on what to prioritize over the coming years. Over the last five years, Seattle Center has been maintaining its aging historic 74-acre public campus with an annual average REET allocation of \$9.5M, or close to the \$9M annually recommended for an asset of its size twenty years ago based on the City's 2003 asset preservation study.

In 2024, Seattle Center's CIP REET budget is reduced to \$2,097,000 for capital improvement projects and major maintenance. Due to the significant REET reduction, the CIP includes phasing and postponing some projects. The deferred projects include replacement of turf and equipment for the popular Artists at Play playground, campus repaving, parking garage deck reseal, Food Hall grease interceptor installation, replacement of the Armory heat exchanger, replacement of leaking mechanical fittings throughout the campus, and security bollard repair.

Seattle Center's 2024-2029 CIP focuses on four primary themes:

1. Facilities Conditions and Major Maintenance
2. Major Project Planning
3. Campus Uplift and Modernization
4. Grant Supported Projects

2024-2029 Proposed CIP Highlights

Facilities Condition Assessments and Major Maintenance

Since 2015, Seattle Center's program of facilities condition assessments (FCAs), utilizing specialty consultants, has been a key source of information for identifying current and future capital needs to inform capital investment priorities. We have completed two FCAs and are expediting the remaining FCAs to identify infrastructure most at risk of failure and plan for maintenance solutions. Our recently completed FCAs for roofing/cladding and mechanical systems identified numerous necessary and urgent repairs and replacements, some of which are underway.

The focus of the Center's 2024 REET CIP budget will go towards completing the FCA preliminary engineering work and urgent maintenance projects, the two largest of which are described below:

Bagley Wright Theatre cladding and roofing replacement project

The majority of the remaining 2024 REET CIP budget will be used for the construction of the Bagley Wright Theatre cladding and roofing replacement project. The estimated construction cost for this project came in higher than budgeted. Approximately \$1.6 million is reallocated from other CIP projects to fully fund this project.

Armory office ventilation

Seattle Center will spend \$520,353 of its 2024 CIP budget on updating and expanding ventilation throughout the Armory offices to bring City staff office spaces into compliance with current code standards and post-pandemic best practices.

Completion of Facilities Condition Assessments

Seattle Center will spend 61,000 of its 2024 CIP budget to complete Center’s remaining FCAs, including electrical and plumbing. Once the FCA’s are completed, Center will compile a report outlining our funding needs for repair and replacement over the next decade.

Major Project Planning

Memorial Stadium

The 76-year-old Memorial Stadium is owned by Seattle Public Schools (SPS) on land deeded by the City and is outdated, deteriorated, and in need of redevelopment. The Seattle Public Schools Building Technology Academics & Athletics (BTA V) levy approved by Seattle voters in February 2022 includes \$66.5 million for a basic student athletic stadium. Under a letter of intent signed by SPS and the City in October 2021 and a November 2022 Memorandum of Agreement, the school district and City are collaborating on a plan for a new enhanced stadium. The new facility will transform the heart of Seattle Center with a state-of-the-art stadium that will serve SPS’ needs for athletic events and graduations and also be a major civic venue for arts, cultural, sports, and community events. The new stadium is expected to be constructed and operated by a private operator jointly selected by SPS and the City through a request for proposals.

A design concept for the enhanced stadium has been proposed and is estimated to cost up to \$150 million. In addition to the \$66.5 million SPS levy money and \$4 million from the State capital budget, Seattle Center’s Proposed 2024-2029 CIP includes the City’s expected \$40 million contribution to the Memorial Stadium Redevelopment. Additional funding is proposed to be provided from various private and philanthropic sources. This includes \$1.02 million in 2023, \$1 million REET in 2024. The 2024-2029 CIP also includes \$19 million in bonding split between 2025 and 2026 as well as \$19 million in 2027 of which the funding source has yet to be determined. One Roof Partnership will be responsible for additional funding to complete the project. The SPS Board of Directors, Mayor, and the City Council are anticipated to review and approve implementing agreements in early 2024 followed by a formal design and community engagement process. The new stadium is expected to be complete by the end of 2027.

Seattle Center Warehouse Relocation

The Seattle Center warehouse is currently located below the north stands at Memorial Stadium. The large facility is critical to daily campus operations including maintenance, event production, and campus-wide shipping, receiving, and re-stocking, and it will be demolished when the Stadium is redeveloped. As plans for the Memorial Stadium project progress, Seattle Center will identify a temporary location to house the warehouse's contents and operations during Memorial Stadium construction. Seattle Center is currently evaluating options for temporary space and will likely need to design and construct a temporary structure (or improvements to an existing structure) for this effort. A permanent home for Seattle Center operations is planned as part of the future redeveloped Memorial Stadium.

401 Mercer (Formerly KCTS) Long Range Planning

The full-block parcel at 401 Mercer St. has been in use as the headquarters and primary broadcasting facility for KCTS-9 – now part of Cascade Public Media (CPM) -- which holds a long-term ground lease with the City. In 2022, CPM identified a new headquarters that better suits the organization's needs. In 2022, the City and CPM agreed to amend the lease to allow CPM to move out a year early. The property and the building will be turned over to Seattle Center on December 31, 2023. Seattle Center's long-term plan, which reflects support from community and stakeholder outreach, is to pursue a redevelopment strategy for this property that will generate revenue to support Seattle Center and contribute to the overall vitality of the campus and the neighborhood. Seattle Center does not plan to advance more detailed planning for new uses on the site until the next steps for Memorial Stadium's redevelopment are finalized. In the interim period, Seattle Center intends to use the KCTS building to meet many of its operational uses that will be temporarily displaced by Memorial Stadium construction and is evaluating possible interim uses that will keep the building active and help to fund its ongoing maintenance.

Seattle Center Light Rail Station Planning

The planned Ballard Link Extension project includes two proposed light rail stations serving Seattle Center. Since 2019, Seattle Center has engaged intensively in interdepartmental collaboration and engagement with neighbors and resident organizations to help arrive at a preferred alignment. In anticipation of the Ballard Link Extension Draft Environmental Impact Statement (DEIS) being released at the end of 2024 or early 2025, Center will devote CIP planning funds to support consultant work and staff time to address our most critical concerns, which include noise and vibration impacts to sensitive arts and cultural venues; transportation/access impacts to the campus during construction; and station area planning.

Campus Uplift and Modernization

Fisher Pavilion Plaza Renovation

The Fisher Pavilion Plaza, which occupies the roof above Fisher Pavilion, is an important campus space used for events and day-to-day activities. The roofing and cladding FCA found that the plaza surface and membrane are urgently in need of repairs and partial replacement. Construction of this project is

anticipated to begin in the first quarter of 2024 in order to be completed before the busy event season begins.

Campus-Wide Open Space Plan

In long-range planning for the campus, Seattle Center intends to leverage upcoming major projects including the Memorial Stadium redevelopment, the grant-funded Monorail Station Reconfiguration, the 5G infrastructure project, the Armory generator replacement, and ST3 to uplift public open spaces and improve outdoor lighting. In 2023, Seattle Center engaged a landscape architecture firm to produce concept designs for a campus-wide open space plan that incorporates design interventions in a variety of locations, with a vision that is unified around the Century 21 Master Plan principles. As our major redevelopment projects and departmental strategic plan take shape in the coming months, we will incorporate the concepts from this effort into our scope and budget for future CIP work in 2024-2029.

Seattle Center's Neutral Wireless Infrastructure

Center conducted an RFP process in October 2022 – May 2023 seeking to identify a well-qualified Wireless Infrastructure Provider (WIP) that would be responsible for managing the design, installation, deployment, operation, upgrading/reinvestment, and maintenance of privately owned cellular wireless infrastructure to deliver high-quality service to visitors and pay a fee to Seattle Center. Verizon was selected as the RFP's finalist and contract negotiations are currently underway. Seattle Center expects construction to begin in late 2024/early 2025 with a projected completion by end of 2025. The work will be funded by the WIP. Seattle Center hopes to leverage this work on the street grid to implement other upgrades to the power, utility, and lighting systems, and potentially to upgrade campus paving.

Grant Supported Projects

Monorail Station Reconfiguration

The Seattle Center Monorail Station Improvements project is estimated at more than \$20 million. It is a comprehensive design and construction project that will improve station access and accessibility, support a positive passenger experience, and optimize system capacity. Improvements may include and are not limited to raising the station platform, automating the passenger gates at the platform edge, and wayfinding.

To provide a fully accessible station consistent with Title II of the Americans with Disabilities Act (ADA) as incorporated by Appendix A of 49 CFR 37 and usability by persons with disabilities, the design and construction activities include raising the station concrete platform to be level with the floors of the two monorail train cars, add automated passenger gates at the platform edge to train doors and covered passenger waiting areas, reconfigure the station to remove barriers, make the station main entrance/route from Thomas Street ADA accessible, update and cover queuing area layouts, and provide visual accessibility by using universal symbols and translated signage. The project will improve throughput to regain surge capacity lost in previous years at the Seattle Center Monorail Station. An additional access route from the north may also be included in the scope, pending further study. \$15M

of this project will be funded through a federal grant, while the remaining \$5M will be funded through the Move Ahead Washington allocation.

Armory Generator Replacement

The objective of this project is to provide emergency power to the Armory and Fisher Pavilion, two Seattle Center facilities that play a critical role in the City's emergency operations response. The project will remove a 60-year-old generator and associated controls located in the Armory and replace it with a new, sustainably powered generator capable of supporting emergency functions in both the Armory and Fisher Pavilion. The new sustainable emergency generator will be fueled by solar, wind, and fuel cell, with the ability to run on diesel if conditions require. As a part of this project, we will install new 80kW solar panels and 120kW wind turbines on the roof of the Armory. A 5kW fuel cell system will be installed in the Armory. These sustainable power sources will feed into a 1,106kWh battery storage system that will connect to the generator for use during emergency situations. Our proposed solution builds resiliency, sustainability, and energy efficiency into the Seattle Center Emergency Operations facilities. Most of the budget for this project (75%) will be funded by a FEMA grant while the remaining amount will be funded through REET.

CIP Revenue Sources

Seattle Center's 2024-2029 Proposed CIP is funded from a combination of revenue sources including Real Estate Excise Tax (REET, the primary funding source for 2024-2029), LTGO bond funds, federal grants, and private funds. In the past, other key funding sources for Seattle Center included voter-approved property tax levies, Washington State and King County funds, philanthropic contributions, proceeds from property sales, and private investment. Private investment has always played a key role in Seattle Center's development, with the \$1 billion Climate Pledge Arena renovation as the most recent example.

Summary of Upcoming Budget Issues and Challenges

The biggest challenge facing Seattle Center's CIP is the campus' rapidly aging infrastructure and funding constraints on advancing replacement projects to address it. Completing Seattle Center's Facilities Condition Assessment program this year will be essential to identifying urgent needs for capital renovation and replacement, as well as strategic projects that can improve our operational efficiency and reduce costs in the future. Center anticipates that following the completion of the FCAs in 2024, significant additional funding will be needed for future efforts to preserve and modernize Seattle Center facilities.

ADA Improvements

Project No:	MC-SC-S9302	BSL Code:	BC-SC-S03P01
Project Type:	Ongoing	BSL Name:	Building and Campus Improvements
Project Category:	Rehabilitation or Restoration	Location:	Seattle Center Campus
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	N/A	Urban Village:	Uptown

This ongoing project makes the Seattle Center campus more accessible to people with disabilities. Improvements may include, but are not limited to, assisted listening devices, automatic doors, ramps, signage, seating and other features that accommodate Seattle Center visitors.

Memorial Stadium Redevelopment

Project No:	MC-SC-S9505	BSL Code:	BC-SC-S03P01
Project Type:	Discrete	BSL Name:	Building and Campus Improvements
Project Category:	Improved Facility	Location:	401 5th Ave N.
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Council District 7
Start/End Date:	2023 - 2027	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$40,000	Urban Village:	Uptown

The 76-year-old Memorial Stadium is owned by Seattle Public Schools (SPS) on land deeded by the City and is outdated, deteriorated, and in need of redevelopment. The Seattle Public Schools Building Technology Academics & Athletics (BTA V) levy approved by Seattle voters in February 2022 includes \$66.5 million for a basic student athletic stadium. Under a letter of intent signed by SPS and the City in October 2021 and a November 2022 Memorandum of Agreement, the school district and City are collaborating on a plan for a new enhanced stadium. The new facility will transform the heart of Seattle Center with a state-of-the-art stadium that will serve SPS' needs for athletic events and graduations and also be a major civic venue for arts, cultural, sports, and community events. The new stadium is expected to be constructed and operated by a private operator jointly selected by SPS and the City through a request for proposals. A design concept for the enhanced stadium has been proposed and is estimated to cost up to \$150 million. In addition to the \$66.5 million SPS levy money and \$4 million from the State capital budget, Seattle Center's Proposed 2024-2029 CIP includes the City's expected \$40 million contribution to the Memorial Stadium Redevelopment. Additional funding is proposed to be provided from various private and philanthropic sources.

Unsecured Funding Strategy: The City maintains its commitment to identifying additional partnership funding for the Memorial Stadium Redevelopment project. Seattle Center is working closely with the Mayor's Office, the City Budget Office, and the City Council to develop a funding strategy and will update the final funding strategy in a future CIP.

O&M Impacts: O&M estimates will be further refined in the following CIP after design work is finalized.

Seattle Center Long Range Investment Plan

Project No:	MC-SC-S0703	BSL Code:	BC-SC-S03P01
Project Type:	Ongoing	BSL Name:	Building and Campus Improvements
Project Category:	Improved Facility	Location:	Seattle Center Campus
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	N/A	Urban Village:	Uptown

This project provides for the development and implementation of the Seattle Center Century 21 Master Plan. Work includes, but is not limited to, working with stakeholder groups and consultant teams to identify development alternatives, holding public meetings, developing concept plans, carrying out environmental review and other studies, real estate analysis, developing public and private partnerships, recommending packages of improvements to elected officials, and updating the Master Plan as needed.

Seattle Public Library

Overview

The Seattle Public Library's (Library) facilities include 26 branch libraries and the Central Library, as well as storage and shops space. Library buildings can be divided into five major categories:

1. There are ten buildings designated as historic landmarks, including seven Carnegie-era libraries (built in the early 1900s) and three modern buildings.
2. Eleven branch libraries are either new construction built during primarily in the early 2000s (eight buildings) or non-landmarked buildings developed between the 1950s and the 1970s (three buildings).
3. Five small library branches are essentially storefronts, four of which are part of larger buildings.
4. The Central Library is a 12-story 363,000 square foot building that serves as headquarters and hub of the library system. It houses the bulk of the Library's extensive collection of books and materials (including rare "special collections" in the Level 10 Seattle Room), a 375-seat auditorium, public meeting rooms, a gallery, large public areas for reading and access to 330 public computers, a data center housing system-wide servers, and Library administration.
5. The Maintenance and Operations Center (MOC), which houses the Library's materials distribution system and also serves as the Library's maintenance shop and storage facility.

With passage of the 2019 Library Levy, the Library embarked in 2020 on its current seven-year asset preservation program which includes seismic retrofits at three century-old Carnegie-era branches. The 2019 Library Levy builds off capital investments from two prior efforts. The 2012 Library Levy, which concluded at the end of 2019, provided an essential seven-year funding stream to maintain the five new and 22 updated libraries that had been renovated, expanded, or replaced during the previous systemwide capital program called "Libraries for All" (LFA). The Library's LFA program, which was completed in 2008, had increased the amount of physical space by 80% to a total of over 600,000 square feet, greatly increasing the demands on the Library's major maintenance program.

The Library Major Maintenance program provides ongoing funding for work that preserves or improves building integrity, efficiency and functionality.

Thematic Priorities

The Library's Capital Improvement Program (CIP) projects generally fall into one or more categories: asset preservation, operational efficiency, environmental stability, public service improvements, and safety and security.

Asset Preservation

The overriding priority of the Library's capital program is to extend the useful life of its buildings. As the Library's buildings have all surpassed the ten-year mark since the conclusion of the final Libraries for All bond projects, the buildings require attention to flooring, casework, finishes and restroom fixtures. Major repairs and replacement to roofs, building envelopes, HVAC and other critical building systems, doors, windows, flooring and casework are also examples of asset preservation items funded through

the Library's CIP budget. The 2019 Levy also included additional funding for three Carnegie-era branch seismic retrofits.

Nearly all of the Library's non-IT \$5.2 million 2024 Proposed CIP Levy budget can be predominantly classified as asset preservation work. There are also elements of enhanced safety, improved access, energy efficiency and environmental sustainability. Approximately \$2 million is budgeted for seismic retrofit projects at the University and Columbia branches as indicated in the 2019 voter-approved levy. The balance of non-IT Levy CIP funding will pay for mechanical systems replacement at multiple branches, specifically electrification per Citywide mandate and adding or upgrading heating, ventilation and air-conditioning (HVAC) systems.

The Library's 2024 capital IT infrastructure budget includes \$615,000 to replace both branch and Central network access points, which help network traffic for both patron and staff use.

Progress has been slowed on some major multi-year projects due to supply chain delays and shortages of materials, and those projects may continue into 2024. Those major projects may include the improvements at the Library's maintenance shop and storage site, mechanical systems replacement at both Capitol Hill and Lake City branches, as well as similar work at additional branches to respond to the Citywide electrification mandate (while adding or upgrading heating, ventilation and air-conditioning (HVAC) systems at various branches that do not possess air-conditioning), and the three seismic retrofit projects (Green Lake, University and Columbia).

The iconic Central Library often requires a significant portion of CIP funds, usually distributed over multi-year projects. Historically, larger, complex and challenging projects have been planned and staged sequentially to minimize the impact on Library services to patrons. While there are no new major projects scheduled at the Central Library in 2024, age-related upgrades to its mechanical systems will need to be pursued during the next few years when funding allows.

While the aforementioned projects are essential for preserving the Library's physical assets, many of them also contribute to the Library system's other essential themes: operational efficiency, environmental sustainability, and improved service to the public.

Library Operational Efficiency; Environmental Sustainability; Safety and Security of Public/Staff

The Library delivers direct services to Seattle residents, who expect highly functional and welcoming library buildings. Major maintenance work carried out under these priorities supports:

- upgrades to help the Library reduce operating costs while minimizing impact to the public;
- renovations to enhance the environmental sustainability of Library buildings; and
- repairs and improvements that augment the safety of library facilities (immediate safety concerns and building integrity are highest priority).

Last year's 2023-2028 Adopted Library CIP budget included \$3.5 million of JumpStart Payroll Expense Tax (payroll tax) for decarbonization and electrification efforts at branches to help advance the City's Green New Deal goals, which aims to address the climate crisis and the disparate impacts of climate change on communities of color and those who are economically disadvantaged. In 2023, the Library

began installing air conditioning at both Northeast and Southwest branches using revenues from the payroll tax.

Major Levy-funded IT projects can also be categorized under operational efficiency and service to the public. The 2024-2029 Proposed CIP budget includes \$615,000 in 2024 for upgrading Library networking equipment.

Public Service Improvements

Public service improvements mostly encompass work that enhances the library patron experience, such as Reimagining projects that have been completed over the past few years (Rainier Beach, Lake City, Ballard, Beacon Hill, Highpoint, South Park and Northeast). These projects typically entail increased meeting room space; better connectivity for devices; lowered shelving and improved layout for enhanced sightlines/security/accessibility; and updated carpet, paint and restrooms. There are no projects solely dedicated to public service improvements scheduled for 2024. However, public service improvements are included in both Green Lake and University branches' seismic retrofit scope, and are also being considered concurrent with the other 2019 Levy seismic stability project at Columbia branch. Ultimately, funding will determine the extent of public service improvements for the latter two seismic retrofit projects.

Project Selection Criteria

In selecting major maintenance work to accomplish each year, the Library evaluates the preservation of building integrity, impact on safety to the public and staff, importance of the work to core library building functions, operational efficiency gains (both economic and environmental), and opportunities to improve or preserve service to the public.

The Library conducts condition assessments and updates information based on inspection by the capital program manager and facilities maintenance staff. The Library obtains professional evaluations of roofs, mechanical, HVAC and lighting systems to flag deficiencies and identify areas where the capital program may be able to reduce operating costs. Library public services managers develop proposals to change the functional use of library space. These proposals are evaluated for feasibility, cost and urgency, and capital program staff works with Library services managers to scope alternatives. Public input also plays a role in project planning. The Library senior management team has ultimate responsibility for authorizing and prioritizing functional building modifications.

Many library facilities are open seven days per week during normal (non-pandemic) operations, which requires careful planning and staging of projects to keep libraries open as much as possible while capital improvement work is underway. Flexibility is critical to respond to building issues as they emerge.

CIP Highlights

The Library's 2024-2029 Proposed CIP provides a base level of support for asset management during the period when all buildings have surpassed the ten-year mark from their LFA construction or renovation. The 2019 Library Levy provides a total of \$5.86 million (including Seismic/unreinforced masonry (URM) and IT Capital allocations) in 2024. The Library will receive \$78,000 in base Real Estate Excise Tax (REET) funding, which is tentatively budgeted for the University branch seismic project.

The two largest ongoing projects for the Library's CIP in 2024 are continuing construction related to the Green Lake branch seismic retrofit and the finalization of design and commencement of construction at the University branch seismic retrofit. The ultimate aim of these projects is to complete seismic and accessibility upgrades; a \$1.8 million Washington State Department of Commerce grant assisted in expanding the Green Lake scope to include air-conditioning, electrification, additional ADA access improvements, and a reconfigured elevator. The Library is also pursuing additional external funding sources, including a Federal Emergency Management Agency (FEMA) Hazardous Mitigation grant.

Another major focus of the Library's 2024 (and beyond) major maintenance program continues to be the City's mandate to move away from dependence on non-renewable energy sources and also to provide resilience hubs for residents—cooling and smoke refuge centers for residents during extreme heat and/or wildfire smoke events. With the help of an engineering consultant, the Library has prioritized branches that will be transitioned from fossil fuels, based on immediate maintenance needs, air-conditioning status, years since last remodel and proximity to other Library locations. Of the highest priority locations, the Library has completed conversion of one branch (Broadview), is scheduled to finish another (Capitol Hill) by the end of 2023, and in the process of converting a third (Green Lake, concurrent with seismic work). The Library is exploring and pursuing additional funding options, such as federal grants, to fund projects for the remaining branches.

CIP Revenue Sources

Historically, REET was the primary source of funding for the Library's CIP, with an additional smaller allocation from the General Fund. In 2012, the Library worked with the Mayor and City Council to develop a Library levy proposal that voters approved in August of that year. One of the core areas the levy funds is major maintenance. Upon passage of the 2012 Library Levy, the City shifted most major maintenance funding from REET/General Fund to the levy, which provided a significant increase in major maintenance funding for major maintenance projects. The 2019 Library Levy continues support to preserve the Library's capital assets including significant investments in seismic upgrades for three branches.

Levy funding is insufficient to fully cover costs associated with patron and programmatically-driven renovation projects, significant building infrastructure renovations and adjustments, or replacement of major building systems at the Central Library and larger branches. Since passage of the 2012 Library Levy, REET revenue has continued to provide additional funding for targeted efforts, such as the Library's Reimagining Spaces initiative (which sought to enhance Library physical spaces to better address changing patron and community needs) or large-scale major maintenance requirements not anticipated during the planning of the levy.

REET revenue plays a vital role in supporting projects that are beyond the scope of the Library's levy-funded major maintenance program. For example, while the levy remains the primary funding source for the seismic retrofit projects at Green Lake, Columbia and University branches, supplemental funding is necessary to pursue building upgrades that would be considerably less expensive if performed concurrent with the seismic work. Contingent upon that supplemental funding, those expanded scopes can include the addition of air-conditioning; accessibility upgrades (such as elevators) to increase access for patrons with mobility challenges; mechanical system modernization and electrification for increased energy efficiency and reduced reliance on fossil fuels; and other interior enhancements.

As previously mentioned, the Library, with significant assistance from the City's Office of Sustainability and Environment (OSE), received a \$1.8 million Washington State Department of Commerce grant for the Green Lake branch seismic retrofit. The project scope was expanded to include air-conditioning, electrification (to eliminate reliance on fossil fuels), additional ADA access improvements, and a reconfigured elevator. The Library is continuing to seek outside resources to augment the scope of both University and Columbia branch seismic projects as well.

Additionally, in 2022 the Library, with significant assistance from the City's Office of Emergency Management, has applied for a FEMA Hazardous Mitigation grant to fund air-conditioning for seven non-air-conditioned branches. The Library expects to hear the final funding decision by the end of 2023.

Summary of Upcoming Budget Issues/Challenges; Future Projects on the Horizon

Materials Shortages and Supply Chain Delays

One challenge that was certainly not foreseen prior to 2020 was the adversity posed by the COVID-19 pandemic. The economic disruption stemming from the pandemic skewed supply and demand for both raw materials and services, often forcing reexamination of individual project scope or reprioritization of larger Library projects. For example, costs for the 2023 mechanical system replacement at Northeast and Southwest branches (which included electrification and installation of air-conditioning in two locations which lacked AC) came in several hundred thousand dollars over estimates due to higher cost of equipment and materials, prompting a shift of funds from other projects of lower urgency. While the public health impact of the pandemic has faded, materials shortages and supply chain disruptions seem to be lingering.

Aging Buildings and Infrastructure

Library buildings are among the most intensively-used City facilities in Seattle. Prior to the pandemic, the Central Library hosted over 1.2 million visitors annually, with library branches serving over 3.6 million visitors. The Library's historic landmark buildings have unique features such as brick facades, slate roofs and other details. When undertaking maintenance and repair work, it is essential to use designs and materials consistent with their landmark status – all factors that increase major maintenance costs.

The venerable Central Library is entering its third decade of service during the current seven-year levy; it poses a different set of challenges. A building of Central's size, complexity and intensity of use requires significant annual maintenance to preserve core functionality and continually improve building efficiency. Updating Central's mechanical and HVAC systems to align with current City policy and lessen its carbon footprint will require significant funding beyond the annual Levy major maintenance allocation.

Seismic Preparedness

A 2016 survey conducted by the Seattle Department of Construction and Inspection identified seven URM facilities in the Library's property portfolio requiring seismic retrofit to reduce the risk of injury and loss of life during an earthquake. The survey classified buildings into three categories of vulnerability (critical, high, and medium) with regard to life safety impacts. Three of the seven Library facilities - Green Lake, University and Columbia branches - fell within the high-vulnerability category (with the remainder in the medium-vulnerability category) and the Library Board of Trustees identified those branches as a critical issue to be addressed. The 2019 Library Levy included funding for seismic retrofits of those three Carnegie-era branches for the period between 2020 and 2026.

As the URM projects will necessitate closure of the branches for a year or more, other needed building improvements will be scheduled concurrently. Contingent upon available funding, work may entail roof and envelope restoration; elevator and mechanical system upgrades (including the addition of air-conditioning); interior renovation (including electrical, carpeting, furniture and finishes); and efforts to ensure ADA compliance and equitable access.

Adjusting to a Changing Climate

The Library is also adapting to a changing climate, often working with OSE to identify potential areas for improved energy efficiency and, per mayoral directive, to lessen the Library's reliance on fossil fuels. Eight branches – including most of the Library's landmarked branches, some built a century ago – are not air-conditioned, and rising summer temperatures can lead to closures which impact patrons and Library operations. Funded projects to add air-conditioning are in progress at the Green Lake branch (concurrent with the seismic retrofit), along with Northeast and Southwest branches. Air-conditioning is planned to be added at the University branch concurrent with its seismic retrofit, pending available funding. The Library is exploring logistics and funding options to add air conditioning to the remaining high-use branches, which would increase branch comfort year-round and also allow them to serve as cooling centers during extreme heat events. As mentioned, the Library has previously received funding for decarbonization and electrification efforts through the payroll tax and has also applied for a FEMA grant to fund air-conditioning for seven non-air-conditioned branches.

ADA Improvements - Library

Central Library Infrastructure Improvements

Project No:	MC-PL-B3013	BSL Code:	BC-PL-B3000
Project Type:	Ongoing	BSL Name:	Capital Improvements
Project Category:	Improved Facility	Location:	Central Library 1000 4th Ave
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides for improved infrastructure at the 363,000 square foot Central Library. Central requires substantial infrastructure work to achieve operational efficiency and set the stage for its eventual programmatic re-imagining. Changes to Central also require additional lead time for planning and design, due both to its unique physical configuration/infrastructure and iconic architectural status. Typical improvements may include, but are not limited to, structural and mechanical repairs or improvements, safety and security upgrades, lighting and signage enhancements, and wall and floor surface repairs.

Seattle Department of Transportation

Overview

The Seattle Department of Transportation (SDOT) is responsible for building and maintaining a safe, reliable, efficient, and socially equitable transportation network. In addition, SDOT maintains and improves critical transportation infrastructure of regional, statewide, and national significance in cooperation with external partners. Achieving transportation excellence helps support businesses, improves access to services and opportunity, enhances quality of life, and builds a more sustainable community. This is accomplished by:

- preserving existing transportation infrastructure and using it to its fullest capabilities;
- moving people and goods efficiently and safely, using technology wherever possible to overcome transportation challenges;
- making transit, bicycling, and walking convenient and attractive and reducing reliance on the automobile;
- shaping future transportation improvements that reflect Seattle's role and connections to the region;
- building community trust through engagement and accountability;
- working to eliminate racial disparities and advance equity goals;
- incorporating environmental excellence and climate protection into every decision, project, and program;
- promoting the livability of our neighborhoods and communities;
- guiding investments that contribute to the economic vitality of neighborhood businesses and industries in Seattle and the surrounding region; and
- managing resources wisely with performance measures.

The replacement value of the City's transportation infrastructure is estimated to be approximately \$40 billion. Major system assets include:

- 1,548 lane-miles of arterial streets;
- 2,396 lane-miles of non-arterial streets;
- 126 bridges;
- 584 stairways;
- 537 retaining walls;
- 2.2 miles of seawalls;
- 1,132 signalized intersections;
- 47.9 miles of multi-purpose trails;
- 2,277 miles of improved sidewalks and median pathways;
- 165 miles of on-street bicycle facilities;
- 39,049 street trees;
- 1,589 pay stations;
- 35,872 curb ramps; and
- Around 203,000 signs.

Seattle continues to experience population growth and increasing density. The 2024-2029 Proposed Capital Improvement Program (CIP) emphasizes transportation safety, efficient accessibility to goods and services, and reliable, socially equitable mobility for people of all ages and abilities.

Department of Transportation

Transit projects are on the forefront of sustainable transportation solutions with numerous projects under development, including: RapidRide along Roosevelt Way to enhance bus speed, reliability, and stations, paving, add protected bike lanes, and improve accessibility; the Madison Street Bus Rapid Transit line connecting people to hospitals, schools and universities, and businesses as well as to dozens of bus routes, the Streetcar, and ferry service at the Colman Dock Ferry Terminal.

Ongoing bridge investments continue, with \$48 million funding planned in 2024 for various bridge improvements, including Bridge Painting, Bridge Seismic, Structure Major Maintenance, Bridge Rehabilitation, and Bridge Load Rating. Freight movement improvements will continue with a rebuilt Alaskan Way, Heavy Haul Network Program—East Marginal Way, and citywide spot improvements. SDOT continues to invest in pedestrian and bicycle infrastructure to increase safety for pedestrians, people biking, and people driving by building new protected bike lanes, new sidewalks, and improved street crossings.

In November 2018, SDOT published the Move Seattle Levy (MSL) Workplan, which documented deliverable commitments, delivery plans, schedule assumptions, risk considerations, and spending plans for all 30 Levy subprograms. SDOT has experienced local revenue declines since 2020. The decrease in local revenue necessitated that SDOT pause projects mid-year, do an assessment at the end of 2020, and write and publish a report in early 2021 detailing the impacts on individual programs in the MSL portfolio.

During the second half of 2021, working with the Levy Oversight Committee (LOC), SDOT developed a Workplan Update and list of programs to prioritize in order to make further progress on reaching original 2015 Levy deliverables. As Levy resources have been identified through project savings, SDOT has reallocated Levy funding to prioritized programs in the Workplan Update. The 2024-2029 Proposed CIP incorporates the latest Workplan Update strategy and enables SDOT to deliver on Levy commitments. 2024 is the final year of MSL property tax collections. Some MSL programs will continue to spend carryforward MSL funds in 2025 as projects are completed.

Post-COVID travel behavior and economic activities continue to pose challenges to transportation revenues, including Commercial Parking Tax (CPT), Real Estate Excise Tax (REET), and Transportation Network Company Tax (TNC). A significant portion of the CPT revenue stream has been committed to debt service payments; the reduction in CPT collections requires other funding sources (such as Real Estate Excise Tax revenue and Transportation Network Company Tax) to cover the debt service funding gap. As a result, the Proposed 2024-2029 CIP includes the following REET and CPT reductions:

CIP Projects	2024
MC-TR-C088 - Sound Transit 3	(\$250,000)
MC-TR-C112 - Structures Major Maintenance	(\$1,938,254)
Total	(\$2,188,254)

Another revenue source that has been revised significantly downward is the School Safety Traffic and Pedestrian Improvement Fund (SSTPIF), which collects ticket revenue from fixed automated cameras located near school zones. The \$2.9 million items proposed to be reduced in 2024 are for the following CIP projects:

CIP Projects	2024
MC-TR-C057 - SDOT ADA Program	(\$2,400,000)

2024-2029 Proposed Capital Improvement Program

Department of Transportation

MC-TR-C063 - Bike Master Plan - Greenways	(\$500,000)
Total	(\$2,900,000)

Facing revenue challenges, SDOT is committed to leveraging existing resources and seeking external funding opportunities to continuously improve transportation safety and invest in the highest priority discrete projects. In the 2024-2029 Proposed CIP, the department will receive \$10.5 million in new grant funding for the following improvements:

- \$2,502,500 to support the repair and replacement of the existing concrete overlay on the S. Spokane Street Viaduct,
- \$1,450,000 to improve pavement conditions along Denny Way and extend the useful life of the road,
- \$1,090,000 to support the construction of a protected bike lane along Beacon Ave S., and
- \$5,480,000 to improve transit access and implement pedestrian and safety improvements along Roosevelt Way NE and 125th St (this corridor connects to the future NE 130th Link Station).

The Proposed 2024-2029 CIP is the third year of implementing the Capital Budget adjustment process that realigns the department's six-year CIP budget to the latest project spending plans, which are updated and communicated to Council and the public more frequently than the annual budget. SDOT has made this effort part of an annual synchronization of SDOT's capital budget and spend plan to ensure greater transparency and more up-to-date information on SDOT's Capital Budget programs and projects.

This process involves two interconnected actions. SDOT has identified \$161 million in 14 master projects in current year (2023) capital resources that will not be used prior to the end of 2023. The budgets for these resources would be abandoned in 2023; and \$110 million is now part of the available project funding for the 2024-2029 Proposed CIP. The majority of such budgets are from either grants or partnership funding.

The 2024-2029 Proposed CIP outlines investments in critical transportation infrastructure needs and includes planned spending of \$369.6 million in 2024. Key work includes street paving and resurfacing; building new sidewalks and curb ramps; school safety improvements; implementation of the Bike, Pedestrian, Freight, and Transit Master Plans; investments to facilitate freight mobility; traffic cameras and signals; bridge projects such as bridge replacement, maintenance, and seismic retrofitting; and support for the Waterfront Program. For details, please see the associated explanations below.

Street Paving and Resurfacing: The Proposed CIP includes \$27.4 million for the following ongoing programs:

- \$7.5 million in 2024 for Arterial Major Maintenance (AMM);
- \$17.5 million in 2024 for Arterial Asphalt & Concrete Program Phase II (AAC); and
- \$2.4 million in 2024 for Non-Arterial Street Resurfacing and Restoration (NASRR).

2024-2029 Proposed Capital Improvement Program

Paving is one of the highest prioritized programs emphasized in the latest Move Seattle Levy Workplan Update. The 2024-2029 Proposed CIP adds \$22.9 million Move Seattle Levy funds to AMM (\$6.8 million) and AAC (\$16.1 million) in 2024.

Pedestrian Master Plan Investments: The 2024-2029 Proposed CIP includes five projects that are solely dedicated to advancing the recommendations of the Pedestrian Master Plan (PMP).

- The Pedestrian Master Plan Crossing Improvements project funds pedestrian crossing improvements, primarily focused on crossings near transit stops and on walking routes to school. The Proposed 2024-2029 CIP includes \$5.7 million for this project in 2024.
- The Pedestrian Master Plan New Sidewalks project includes \$6.3 million in 2024 to design and construct new sidewalks. Of the total, \$1.7 million in funding is provided by the School Safety Traffic and Pedestrian Improvement Fund (SSTPIF), which collects ticket revenue from fixed automated cameras located near school zones. This fund was created for school safety infrastructure improvements, school zone camera installation and operation, school zone warning beacon maintenance, school safety program administration, and bicycle and pedestrian safety education. These SSTPIF funds will be used to construct sidewalks within Seattle Public Schools walk zones. The remaining \$4.6 million funding is supported by Move Seattle Levy.
- The Pedestrian Master Plan School Safety project includes \$8.6 million in 2024 for pedestrian improvements in school zones. The project is mainly funded by SSTPIF (\$7.8 million in 2024). These capital improvements may include school zone signing, crosswalk maintenance, curb bulb and curb ramp replacement and maintenance, sidewalk maintenance, and changes to traffic circulation around schools.
- The Pedestrian Master Plan–Stairway Rehabilitation program totals \$1.6 million from Move Seattle Levy and Real Estate Excise Tax (REET) revenues. Stairways provide pedestrian connections to streets throughout Seattle’s hilly neighborhoods. The program rebuilds and rehabilitates stairways to the latest standards, adding proper width, step height, grip rail, landings, and other features required by the Americans with Disabilities Act.
- The SDOT ADA Program includes almost \$12.2 million of local funding to deliver ADA-compliant curb ramps and accessible pedestrian signals. This funding supports the City in meeting the annual ADA curb ramp requirement of 1,250 ramps per year. Of the 2024 funding, \$7.6 million comes from the Move Seattle Levy, \$2.3 million is from REET, and SSTPIF provides the remaining \$2 million and will support the installation of curb ramps near Seattle Public Schools.

The table below shows a summary of the Pedestrian Master Plan investments:

Pedestrian Master Plan Projects	2024
PMP - Crossing Improvements	\$5,742,995
PMP - New Sidewalks	\$6,295,453
PMP - School Safety	\$8,595,680
PMP - Stairway Rehabilitation	\$1,556,062
SDOT ADA Program	\$12,239,528
Total	\$34,429,718

2024-2029 Proposed Capital Improvement Program

Bicycle Master Plan Investments: The Bicycle Master Plan includes three projects specifically focused on advancing the Bike Master Plan recommendations and supporting the Bicycle Master Plan goals of safety, connectivity, ridership, equity and livability.

- The Bike Master Plan Greenways project includes \$3.5 million in 2024 for Neighborhood Greenways to create safer, calmer residential streets by making people walking and biking the priority. Neighborhood Greenways can include speed humps, crosswalks, flashing beacons, signs and pavement markings, and speed limit signs.
- The Bike Master Plan Protected Bike Lanes project includes \$17.4 million in 2024 to provide a space used for bicycles separated from motor vehicles, parking lanes, and sidewalks. Improvements include installing bike lanes separated from general traffic with paint or barriers, bicycle route signing, bike/pedestrian signals, and restructuring trails.
- Bike Master Plan Urban Trails and Bikeways project supports the City’s Urban Trails and Bikeways. Activities include spot improvements, bike parking, and programs that promote safety and encourage riding. The Proposed CIP includes \$1.9 million for this project in 2024.

The table below shows a summary of the Bicycle Master Plan investments:

Bike Master Plan Projects	2024
BMP - Greenways	\$3,551,694
BMP - Protected Bike Lanes	\$17,377,258
BMP - Urban Trails and Bikeways	\$1,911,119
Total	\$22,840,071

In addition to the projects solely dedicated to delivering the Pedestrian and Bicycle Master Plans, there are many SDOT capital projects that indirectly contribute improvements that advance the plans. The table below shows projects that support both the Bike and Pedestrian Master Plans; note that the dollars shown are for 2024 estimated costs and not the entire capital project funding in each case.

Projects that Support the Bike & Pedestrian Master Plan	2024
Aurora Avenue North Safety Improvements	\$4,100,000
Heavy Haul Network Program - East Marginal Way	\$40,655,140
Madison BRT - RapidRide G Line	\$32,333,523
Neighborhood Large Projects	\$3,658,284
North of Downtown Mobility Action Plan	\$1,025,641
Northgate Bridge and Cycle Track	\$2,320,389
Overlook Walk and East-West Connections Project	\$6,250,000
RapidRide Roosevelt	\$39,707,488
Route 40 Transit-Plus Multimodal Corridor	\$12,623,157
Route 44 Transit-Plus Multimodal Corridor	\$105,880
Safe Streets and Roads for All	\$4,393,000

2024-2029 Proposed Capital Improvement Program

Department of Transportation

Sidewalk Safety Repair	\$4,994,671
Transit Corridor Improvements	\$4,054,860
Urban Design Capital Projects	\$250,000
Vision Zero	\$6,647,828
Total	\$163,119,861

Safe Streets and Roads for All is a new CIP project added in the 2023 Mid-Year Supplemental Budget Legislation. It will design and construct a variety of proven countermeasures that are heavily concentrated in our most disadvantaged and disinvested communities. The project scope focuses on low-cost, high-impact safety improvements such as protected bicycle lanes, sidewalks, leading pedestrian internals, marked crosswalks, and traffic calming tools like speed cushions. Additionally, new ADA ramps and accessible pedestrian signals are scoped for approximately 60 signalized intersections. This new CIP has received a \$25.65 million grant from the Federal Highway Administration (FHWA), and \$6.48 million Vehicle License Fees (VLF) will be transferred from Vision Zero to the new CIP as the local matching fund.

Transit Projects:

The 2024-2029 Proposed CIP contains 11 transit projects (including Transit-Plus Multimodal Corridor (TPMC) projects). These TPMC projects redesign major streets with more frequent and reliable buses; and provide updates to improve connectivity and safety for all travelers, whether walking, biking, driving, or taking transit.

The TPMC projects include Madison BRT – RapidRide G Line, Route 7 Transit-Plus Multimodal Corridor (Rainier), Route 44 Transit-Plus Multimodal Corridor (Market/45th), Route 40 Transit-Plus Multimodal Corridor (Fremont/Northgate), RapidRide J Line, and Route 48 Transit-Plus Multimodal Corridor. These projects rely on a variety of Levy, local, and grant funding. Close to the final stage of Move Seattle Levy deliveries, majority of TPMC projects are expected to be completed by the end of 2024, including Delridge Way SW – RapidRide H Line (completed in 2023), Madison BRT – RapidRide G Line, Route 7 Transit-Plus Multimodal Corridor (Rainier), and Route 44 Transit-Plus Multimodal Corridor (Market/45th).

A new TPMC CIP project, NE 130th St/NE 125th Corridor Improvements, was created in the 2023 Mid-Year Supplemental Budget Legislation. This project will establish a new multimodal corridor to connect light rail riders to the future NE 130th St light rail station by improving transit reliability, safety, bus stop amenities, and pedestrian and bicycle accessibility concurrent with the station opening in 2025. The project has received a \$5.48 million grant from FHWA and a \$9.8 million grant from Washington State Department of Transportation (WSDOT).

In addition to the large capital Transit-Plus Multimodal Corridor projects, the CIP contains budget for transit spot improvements throughout Seattle. These spot improvements focus on operational efficiencies (which help reduce travel time and therefore operational costs), safety, and access enhancements (which improve the rider experience while enhancing safe conditions for riders of all abilities). Investments include installing queue jumps, bus-only lanes, in-lane stops/bus bulbs, and bus stop and station access amenities. SDOT also provides support for Sound Transit projects through public engagement, design review, permitting and construction support for transit stations as well as constructing pedestrian and bicycle enhancements and implementing Restricted Parking Zones adjacent to new stations.

2024-2029 Proposed Capital Improvement Program

The table below shows a summary of transit-related investments:

Transit Projects (excluding Streetcar Projects)	2024
3rd Avenue Corridor Improvements	\$3,200,000
Harrison St Transit Corridor	\$500,000
Lynnwood Link Extension	\$65,000
Madison BRT - RapidRide G Line	\$32,333,523
NE 130th St/NE 125th Corridor Improvements	\$3,506,000
RapidRide Roosevelt	\$39,707,488
Route 40 Transit-Plus Multimodal Corridor	\$12,623,157
Route 44 Transit-Plus Multimodal Corridor	\$105,880
Seattle Transportation Benefit District - Transit Improvements	\$11,500,000
Sound Transit 3	\$7,319,346
Transit Corridor Improvements	\$4,054,860
Total	\$114,915,254

Freight Projects:

The Heavy Haul Network Program East Marginal Way project currently has two Segments, North and Central, to maximize grant utilization and deliver safety improvements as quickly as possible. The North Segment reconstructs 2.12 miles of East Marginal Way to heavy haul pavement standards supporting freight traffic, constructs a two-way protected bike lane between South Atlantic and South Spokane Street, and makes signal improvements aimed at increasing safety for people using both modes. The Central Segment reconstructs 0.63 miles of East Marginal Way and creates a shared-use path between South Spokane Street and Diagonal Avenue South. The 2024-2029 Proposed CIP includes a \$40.7 million budget in 2024 for this project; \$39.4 million is from grants or partnership funding, with the remaining \$1.3 million from the REET allocation.

The Proposed CIP also includes \$3.1 million in 2024 (funded by \$1.5 million Move Seattle Levy and \$1.6 million grants) for the Freight Spot Improvement project. These smaller-scale vital freight spot improvements include pavement repairs in industrial areas, turning radius adjustments, and other sign and operational improvements to facilitate movement of freight throughout the city. Funding allocation varies year to year based on planned projects.

The table below shows a summary of the Freight Master Plan investments, including all funds supporting these projects:

Freight Master Plan Projects	2024
Freight Spot Improvement Program	\$3,114,000
Heavy Haul Network Program - East Marginal Way	\$40,655,140
Total	\$43,769,140

Bridge & Structures Projects:

2024-2029 Proposed Capital Improvement Program

Department of Transportation

The City owns 126 bridges and maintaining all of them in appropriate condition is a major challenge. The Bridge Rehabilitation program in the 2024-2029 Proposed CIP explores the feasible rehabilitation and replacement options for the long-term future of 10 bridges. There is also funding set aside for the improvement of pedestrian and bicycle safety on or near City-owned bridges. The Move Seattle Levy also provides funding for the next phase in the Bridge Seismic program. Eleven bridges are being evaluated as part of the current bridge seismic retrofit program; these bridges are located throughout the city. The 2024-2029 Proposed CIP also includes \$7.5 million in 2024 for the Bridge Painting program, which is a critical asset preservation project for the City’s 20 structural steel bridges.

\$11 million is appropriated for the Structures Major Maintenance program in 2024; the budget includes \$2 million from the new \$10 Vehicle License Fee increase that adopted by the City Council in November 2022. This program provides funding for major maintenance and rehabilitation of the City's bridges and structural assets, including: electrical and mechanical upgrades of moveable bridge operating and control systems, repair of cracks and maintenance of concrete and steel structures, and site protection of bridge facilities.

In addition to the ongoing bridge programs, the West Seattle Bridge Repair Project is expected to be completed in 2024, as the package of Reconnect West Seattle mitigation projects and bridge close-out activities finish the remaining work after the bridge reopening in 2022.

Besides bridges, SDOT also maintains more than 600 retaining walls throughout Seattle. The 2024-2029 Proposed CIP includes \$212,000 in funding for small scale retaining wall repairs throughout the city.

Bridge & Structures	2024
Bridge Load Rating	\$273,288
Bridge Painting Program	\$7,499,516
Bridge Rehabilitation and Replacement Phase II	\$2,923,251
Bridge Seismic - Phase III	\$26,015,579
Hazard Mitigation Program - Areaways	\$404,000
Retaining Wall Repair and Restoration	\$212,000
Structures Major Maintenance	\$11,133,941
West Seattle Bridge Immediate Response	\$4,681,500
Total	\$53,143,075

Seattle Waterfront Capital Projects:

There are four major capital projects in the SDOT budget related to the downtown waterfront. These projects were created in response to the 2001 Nisqually Earthquake that damaged the WSDOT SR-99 Viaduct on the Seattle Waterfront and made the structure vulnerable to failure in a future seismic event. Subsequent analysis of the viaduct showed the Elliott Bay Seawall timbers were deteriorating and could similarly fail during a seismic event. A decision to replace the viaduct with a tunnel for SR 99 was subsequently made by WSDOT, and Seattle voters approved funding to replace the Elliott Bay Seawall. Since both projects would dramatically affect the waterfront, in 2012, the City Council adopted the Waterfront Concept Design, Framework Plan and Strategic plan to guide restoration of a surface street along the waterfront and numerous public improvements aimed at both improving transportation and creating new public spaces for residents and visitors to enjoy.

2024-2029 Proposed Capital Improvement Program

The Elliott Bay Seawall Project was completed in 2017. WSDOT opened the tunnel and demolished the old viaduct structure and restored waterfront access, part of which is constructed as part of the Alaskan Way Viaduct Replacement Project. Viaduct removal cleared the way for the Alaskan Way Main Corridor transportation project, which began in 2019. Work also began on the East-West Connections Project, including the Overlook Walk in 2021. The Seattle Department of Parks and Recreation is funding additional projects under construction, including the Aquarium Expansion and rehabilitating two piers established as public parks (led by the Office of the Waterfront and Civic Projects), and the 2023 budget proposal includes a Facilities and Administrative Services project for a Waterfront Operations & Tribal Interpretive Center building including property acquisition and rehabilitation.

The Alaskan Way Viaduct Replacement Project includes SDOT's costs related to design review, permitting issuance and administration, and construction support and acceptance of WSDOT-funded projects. The WSDOT-funded improvements include the SR-99 Bored Tunnel (which opened to traffic in February 2019), demolition of the Viaduct structure, improvements to reconnect the street grid at the north and south tunnel portals, and the Battery Street Tunnel Decommissioning. The Alaskan Way Main Corridor and the Overlook Walk and East-West Connection projects are led by the Office of the Waterfront and Civic Projects. The Alaskan Way Main Corridor project began work in 2019 and includes the design and construction of the Alaskan Way/Elliott Way surface street, a 2-way bike facility, and the adjoining pedestrian promenade along the waterfront along with several east-west connections that are primarily funded by WSDOT (e.g., the Marion Street Pedestrian Bridge). Elliot Way opened in Spring 2023. Alaskan Way and the Promenade remain in construction with substantial completion is slated for mid-2025. The 2024 budget proposal includes a request for \$25 million in bonding authority to address costs related to schedule extensions due to a 5-month concrete strike in 2021-22 and delays related to the COVID-19 pandemic. The City is engaging with the Washington Legislature to share costs related to these events.

The Overlook Walk and East-West Connections projects include the Overlook Walk which provides pedestrian connections between the waterfront and the Aquarium and Pike Place Market. Construction of the East-West Connection projects began in 2021 with the start of the Union Street Pedestrian Bridge project, which has now been completed. The Pike/Pine project construction began in early 2023, and Pioneer Square work is set to begin in late 2023. The Overlook Walk began construction in earnest in 2022, with substantial completion anticipated in early 2025.

CIP Revenue Sources

Multiple funding sources support the Transportation CIP, including:

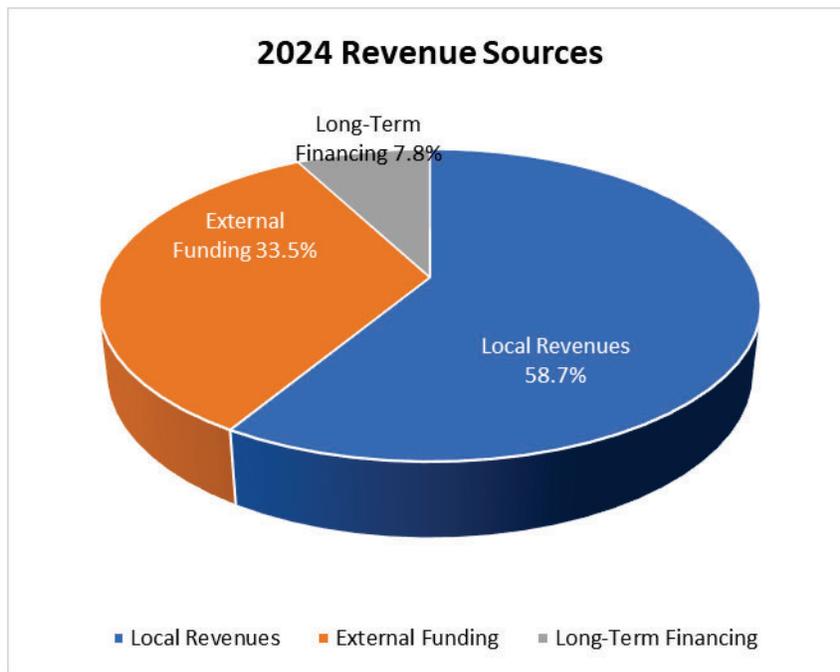

- Move Seattle Levy;
- Gas Tax;
- Multimodal funds;
- Real Estate Excise Tax;
- Commercial Parking Tax;
- Vehicle License Fees;
- Long-term financing (general obligation bonds);
- JumpStart Payroll Expense Tax (payroll tax);
- Public Works Trust Fund Loans;

2024-2029 Proposed Capital Improvement Program

Department of Transportation

- Sales Tax;
- Street vacation revenues;
- School Safety and Pedestrian funds;
- Landscape Conservation & Local Infrastructure Program;
- Waterfront Local Improvement District (LID) assessment tax;
- Street use fees;
- Property sale proceeds;
- Federal and state grants; and
- Funds from various funding partners, such as Sound Transit, the Port of Seattle and the Washington State Department of Transportation.

In 2024 the SDOT Proposed CIP budget is \$369.6 million, funded from the following sources:

Local Revenues

Local funding sources for the Transportation CIP include Move Seattle Levy proceeds, Gas Tax, Multimodal funds, Cumulative Reserve Real Estate Excise Tax (REET) I & II, Commercial Parking Tax, Vehicle License Fees, JumpStart Payroll Expense Tax (payroll tax), School Safety Traffic and Pedestrian Improvement (SSTPI) funds, voter-approved sales tax from the Seattle Transit Measure, and Landscape Conservation & Local Infrastructure Program (LCLIP) revenues. These revenues are for programs that improve or maintain the City’s transportation system or to provide local matching funds to SDOT’s funding partners on large capital projects.

Thematic Priorities

2024-2029 Proposed Capital Improvement Program

SDOT's vision for Seattle is a thriving, equitable community powered by dependable transportation. The organization's mission is to deliver a transportation system that provides safe and affordable access to places and opportunities. To accomplish this, SDOT prioritizes services and capital projects based on the core principles in the City's 10-Year Strategic Vision for Transportation - Move Seattle. The goal of the strategic vision is to organize actions around SDOT's core values:

1. **Equity** – We believe transportation must meet the needs of communities of color and those of all incomes, abilities, and ages. Our goal is to partner with our communities to build a racially equitable and socially just transportation system.
2. **Safety** – We believe everyone should be able to move safely throughout the City. Our goal is to create safe transportation environments and eliminate serious and fatal crashes in Seattle.
3. **Mobility** – We believe transportation choices are critical to access opportunity. Our goal is to build, operate, and maintain an accessible transportation system that reliably connects people, places, and goods.
4. **Sustainability** – We believe environmental health should be improved for future generations through sustainable transportation. Our goal is to address the climate crisis through a sustainable, resilient transportation system.
5. **Livability** – We believe transportation is essential to support daily life. Our goal is to manage our streets and sidewalks to enrich public life and improve community health.
6. **Excellence** – We believe in exceeding the expectations of the communities we serve. Our goal is to build an SDOT team committed to excellence and equipped with skills to meet the challenges of today and tomorrow.

Transportation projects are initiated through numerous methods including planning processes (modal, subarea, neighborhood planning), preservation, operations and safety needs assessment, regulatory requirements, and elected official direction.

Community members have significant input in development of all SDOT plans through public engagement processes. Seattle's Pedestrian, Bicycle, Transit and Freight Advisory Boards are also consulted regularly to provide input on project/program needs. Since 2016, the Move Seattle Levy Oversight Committee has reviewed SDOT's program and project priorities and financial plans, and made recommendations to the Department, the Mayor, and City Council on the allocation of resources. Representatives from SDOT regularly meet with the Oversight Committee, to provide updates and solicit input on the allocation of resources. Prior to 2016, the Bridging the Gap Oversight Committee performed the same advisory function. Starting in 2022, a Transportation Equity Framework being codeveloped with a Transportation Equity Workgroup will influence decisions and investments as well.

Many factors can affect SDOT's project and funding decisions, including regulatory requirements, State and federal law (such as the Americans with Disabilities Act), and construction seasons. Opportunities to leverage the City's limited funding with grants or coordinating projects with other agencies can also affect SDOT's decisions on project prioritization and schedule.

In every case, SDOT strives to implement the City's policy goals laid out in Seattle's Comprehensive Plan and individual policy initiatives such as Complete Streets, the Race and Social Justice Initiative, Vision Zero, and the Climate Action Plan. SDOT's 10 Year Strategic Transportation Plan, modal plans, and subarea plans provide an overall framework for implementing these goals.

23rd Avenue Corridor Improvements

Project No:	MC-TR-C037	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	23rd AVE S/E John ST/Rainier AVE S
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 3
Start/End Date:	2013 - 2022	Neighborhood District:	Central
Total Project Cost:	\$62,478	Urban Village:	23rd & Union-Jackson

This multi-phase project will reconstruct sidewalks, enhance the pedestrian environment, reconstruct pavement, upgrade signalized intersections, upgrade controller cabinets to meet transit signal priority (TSP) needs, and accommodate Intelligent Transportation Systems (ITS) upgrades. Activities include the following: install ITS to provide travel time information; install fiber communication as needed along the corridor to relay information back to the Traffic Management Center; and install poles for support of future trolley wires in two gap segments of the trolley network. The project will also include design and construction of a 3-lane cross section (with 4 lanes at isolated intersections) between John Street and Rainier Ave South, as well as a greenway facility on a parallel street to facilitate north-south bicycle travel. Phases 1 and 2 are complete. The Vision Zero Phase 3 of the project will construct new traffic signals, parking modifications, new curb ramps, traffic calming, speed reduction, pedestrian safety, and transit stop improvements.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

35th Avenue SW Paving

Project No:	MC-TR-C099	BSL Code:	BC-TR-19001
Project Type:	Discrete	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	35th Ave. SW from SW Morgan St to SW Roxbury
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 1
Start/End Date:	2023 - 2025	Neighborhood District:	Delridge
Total Project Cost:	\$35,000	Urban Village:	West Seattle Junction

This project will resurface and reconstruct 35th Ave. SW from SW Morgan St. to SW Roxbury St.

Unsecured Funding:	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total
To Be Determined	-	-	-	35,000	-	-	-	-	35,000
Total:	-	-	-	35,000	-	-	-	-	35,000

Unsecured Funding Strategy: Funding for this project was not included as part of the Levy to Move Seattle paving commitments; the project is also not likely to rank highly for grant funding. Funding for this project may depend upon identification of new/incremental revenue sources.

O&M Impacts: This is a capital maintenance project that reduces the need for O&M by bringing assets to a new or like new condition.

3rd Avenue Corridor Improvements

Project No:	MC-TR-C034	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	3rd AVE
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This project makes multimodal improvements for the Third Avenue transit corridor in downtown Seattle, specifically focused on bus stop, streetscape, and transit streetpriority improvements, e.g. installation of Third Avenue and Denny Way transit only signal, on Third Avenue between S. Jackson Street and Denny Way.

Accela Permitting System

Project No:	MC-TR-C001	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project will migrate SDOT permitting operations from the Hansen 7 system to the new Citywide Accela permitting platform. The vision for Accela is to create a fully integrated permitting system that provides an online, all in one place experience for Seattle customers and staff. Once the initial migration is complete, this project will provide ongoing funding for routine system improvements as well as periodic major upgrades needed to stay current with changing technology.

Resources	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total
Street Use Fees	-	(4,251)	1,000	-	-	-	1,000	-	(2,251)
Street Vacations - SVF	89	311	-	-	-	-	-	-	400
User Fees	18,085	9,644	-	1,000	-	-	-	-	28,728
Total:	18,174	5,703	1,000	1,000	-	-	1,000	-	26,877
Fund Appropriations / Allocations *	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total
Transportation Fund	18,174	5,703	1,000	1,000	-	-	1,000	-	26,877
Total:	18,174	5,703	1,000	1,000	-	-	1,000	-	26,877

O&M Impacts: Maintenance for the permitting system is paid for via a central cost allocation from Seattle IT and then recovered against SDOT projects through overhead allocations. The \$1M annual budget after 2021 represents a sinking fund for eventual system replacement.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Accessible Mt. Baker Implementation

Project No:	MC-TR-C002	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 3
Start/End Date:	2017 - 2024	Neighborhood District:	East District
Total Project Cost:	\$5,510	Urban Village:	Madison-Miller

The project will transform the Mt. Baker station area into a safer and comfortable place for people to walk, bike, and make transit connections; and for the Mt. Baker Town Center to take root and flourish. In addition to prioritizing walking and biking, the project will maintain transit and freight reliability and create more predictable conditions for people driving.

Alaskan Way Main Corridor

Project No:	MC-TR-C072	BSL Code:	BC-TR-16000
Project Type:	Discrete	BSL Name:	Central Waterfront
Project Category:	New Facility	Location:	Various
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2013 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$374,355	Urban Village:	Multiple

This project designs and constructs the rebuilt Alaskan Way/Elliott Way surface streets and the adjoining pedestrian promenade along the Seattle waterfront following the demolition of the Alaskan Way Viaduct. The State of Washington has built a deep bore tunnel to replace the Alaskan Way Viaduct and has relocated State Route 99 into the tunnel. The City of Seattle is responsible for the Alaskan Way/Elliott Way surface street and the promenade. The project also includes replacement of and improvements to four key connections impacted by the Viaduct removal: Seneca Street, Columbia Street, and the Marion Street and Lenora Street pedestrian bridges. This project is part of the larger waterfront improvement program. Construction of these improvements began in 2019.

O&M Impacts: This project replaces aging infrastructure along the Central Waterfront providing an O&M benefit. It also builds new infrastructure for several City departments. The maintenance of the new public open space and pedestrian promenade will be funded primarily with Metropolitan Park District funds set-aside for this purpose. Transportation infrastructure capital elements are planned to be maintained through the proposed Waterfront Transportation Infrastructure Maintenance project, MC-TR-109.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Alaskan Way Viaduct Replacement

Project No:	MC-TR-C066	BSL Code:	BC-TR-19002
Project Type:	Discrete	BSL Name:	Major Projects
Project Category:	New Facility	Location:	Alaskan Way
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2001 - 2024	Neighborhood District:	Multiple
Total Project Cost:	\$101,229	Urban Village:	Multiple

This project funds the City's involvement in the replacement of the Alaskan Way Viaduct with the bored tunnel hybrid alternative and is partnership with the Washington Department of Transportation. Replacement of this structure enhances overall safety, as this structure is seismically vulnerable. In prior years, this project included design of the Central Seawall and Waterfront Improvements. For transparency purposes, the Seawall and Waterfront work was moved into three independent capital projects: Elliott Bay Seawall (MC-TR-C014), Alaskan Way Main Corridor (MC-TR-C066), and Overlook Walk and East-West Connections (MC-TR-C073).

Arterial Asphalt & Concrete Program Phase II

Project No:	MC-TR-C033	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

The Arterial Asphalt and Concrete Program maintains Seattle's arterial streets through resurfacing and reconstruction projects. The Department uses a pavement management system to track the condition of arterial street pavement, to develop maintenance needs and establish priorities, and to select the streets to be rehabilitated each year. This project improves the quality and condition of the City's arterials.

Arterial Major Maintenance

Project No:	MC-TR-C071	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project repairs and/or replaces deteriorated pavement on arterial streets. Arterial Major Maintenance paving work typically spans one to three city blocks. It allows the City to respond quickly and cost effectively to pavement issues that are too large to be addressed with a pothole repair but too small to be efficiently contracted. Project prioritization is based on pavement condition; cost; transit, bicycle, pedestrian and freight use; traffic volume; coordination opportunities; complaints and claims; and geographic balance across the city. The work extends the service life of existing pavement structures.

Aurora Avenue North Safety Improvements

Project No:	MC-TR-C118	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Aurora Avenue North
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Multiple
Start/End Date:	2022 - 2037	Neighborhood District:	Multiple
Total Project Cost:	\$51,400	Urban Village:	Multiple

This project will design and construct improvements along the Aurora Avenue North corridor. This project seeks to improve safety, mobility, and accessibility for all travelers. Improvements may include new sidewalks, transit improvements, medians/access management, lighting, signalized crossings, and potential roadway channelization changes.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Bike Master Plan - Greenways

Project No:	MC-TR-C063	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program creates routes on residential streets that are optimized for safer and more comfortable walking and biking for people of all ages and abilities. Typical improvements include curb ramps, speed humps, crosswalks, median islands, shared lane markings, stop signs, traffic signals, pavement and sidewalk repair, and wayfinding signs. The goals of the program are to design streets with lower vehicle speeds and volumes; to increase the number of people walking and biking on residential streets; and to improve walking and biking access to schools, trails, parks, transit and neighborhood businesses.

Bike Master Plan - Protected Bike Lanes

Project No:	MC-TR-C062	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program implements the Seattle Bicycle Master Plan. Typical improvements may include installing protected bike lanes, bike lanes and sharrows, bicycle route signing, completing key links in the urban trails network, adding bicycle/pedestrian signals to complete the network, and reconstructing key sections of the trails. The goals of the program are to increase bicycle safety and access while reducing bicycle crashes. This program includes funding for street improvement and trail construction and is consistent with the focus in the City's Transportation Strategic Plan (TSP) on encouraging walking and biking. Life-to-date actuals may include the BMP spot improvements, Urban Trails, and Neighborhood Greenways, which were previously combined with this project's budget.

Bridge Painting Program

Project No:	MC-TR-C007	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Citywide, Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing asset preservation program provides for the periodic painting of the City's steel structures that are maintained by the Roadway Structures Division. The painting cycle is initially determined by applying Federal Highway Administration standards for coating life and is supplemented by annual physical inspections to assess the rate of deterioration.

Bridge Rehabilitation and Replacement Phase II

Project No:	MC-TR-C039	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This asset preservation program funds major bridge rehabilitation or bridge replacement. The current program, funded by the Levy to Move Seattle, is focused on planning studies. The objective of these bridge planning studies is to identify if bridges should be rehabilitated or replaced, providing planning-level cost estimates to allow for the City to develop a funding plan for the future rehabilitation or replacement of these bridges.

Bridge Seismic - Phase III

Project No:	MC-TR-C008	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

The program prioritizes and implements seismic retrofits to bridges based on seismic vulnerability. Concept level analysis and evaluation is performed to develop a retrofit strategy and cost estimate. As funding allows, retrofit design and construction phases are implemented. If full funding is not available, seismic retrofits are scaled to the appropriate funding level that would still provide improvements in the bridge structure's seismic resiliency. As part of the evaluation process a cost-benefit assessment is made to determine if replacing the structure is a more appropriate course of action than retrofitting the structure. 16 bridges, 11 which are fully funded through construction and 5 to a concept design level, are part of the current phase of the program which is funded by the Levy to Move Seattle.

Total Project Cost:	\$2,441	Urban Village:	Multiple

This project will advance the program planning and concept designs for Seattle's RapidRide and Transit-Plus Multimodal Corridor Expansion program. In order to deliver the corridor improvements, this work includes assessment and development of corridor design, detailed line and network ridership forecasting, capital cost estimates, traffic and environmental analysis, modal integration, and funding plans.

Burke-Gilman Trail Extension

Project No:	MC-TR-C044	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Various
Current Project Stage:	Stage 3 - Design	Council District:	Council District 6
Start/End Date:	1995 - 2025	Neighborhood District:	Ballard
Total Project Cost:	\$40,072	Urban Village:	Ballard

This project extends the Burke-Gilman Trail from its current terminus at Eighth Avenue NW to Golden Gardens Park. The segment from Eighth Avenue NW to 11th Avenue NW was constructed in 2001. The Ballard Locks to NW 60th Street segment was constructed in 2005. The NW 60th Street to Golden Gardens segment was constructed in 2008. The "Missing Link" segment from 11th Avenue NW to the Ballard Locks was planned for construction in 2011 and 2012 but has been delayed due to ongoing litigation.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Center City Gateway and South Michigan Street Intelligent Transportation Systems (ITS)

Project No:	MC-TR-C012	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	S Spokane ST/Western Ave/E Marginal Way/Stewart
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2015 - 2023	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$16,647	Urban Village:	Not in an Urban Village

The project will install traffic cameras, upgraded signals, vehicle detection devices and fiber communication in the Center City Gateway ITS and South Michigan Street ITS projects. The project will also construct an ITS corridor along Denny Way between Western Ave and Stewart including traffic signal modifications and closed-circuit television cameras, a dynamic message sign and ADA compliant ramps. A robust and reliable Intelligent Transportation System ensures that all modes of transportation can move through the City in a safe and sustainable manner.

Culture Connector

Project No:	MC-TR-C040	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Various
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:		Neighborhood District:	Multiple
Total Project Cost:	\$237,085	Urban Village:	Multiple

The Culture Connector (formerly the Center City Connector) is a 1.27-mile segment of the Seattle Streetcar that will link the South Lake Union and First Hill Streetcar lines, creating a system that will connect over a dozen Seattle neighborhoods in Seattle's Center City. The project includes procurement of up to ten additional streetcars and design and construction of track and guideway; station shelters and platforms; overhead contact system; traction power substation; storage facility expansion; roadway and drainage; ADA curb ramps; curb space management; and urban streetscape. The project was put on indefinite pause in July 2020 in response to Citywide budget shortfalls caused by Covid-19.

Unsecured Funding Strategy: SDOT will continue to work with the Mayor's office and City Council to determine the future of the project.

O&M Impacts: The Culture Connector would combine the two existing lines into a single Streetcar network. SDOT is currently working in collaboration with King County Metro on an operation plan for a single line. We expect to have an estimate of annual operating costs when the Center City Connector project reaches 30% design.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Debt Service - REET II

Project No:	MO-TR-D006	BSL Code:	BO-TR-18002
Project Type:	Debt Service	BSL Name:	General Expense
Project Category:	Rehabilitation or Restoration	Location:	N/A
Current Project Stage:	N/A	Council District:	Not Applicable
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:		Urban Village:	Not in an Urban Village

The project funds REET debt service for portions of the following projects: Alaskan Way Viaduct/Seawall (MC-TR-C006), Alaskan Way Main Corridor (MC-TR-C072), West Seattle Bridge Immediate Response (MC-TR-C110), and Fremont Bridge Approaches (TC365790, no new Project ID because project completed prior to 2018).

Delridge Way SW - RapidRide H Line

Project No:	MC-TR-C042	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Delridge AVE
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 1
Start/End Date:	2016 - 2023	Neighborhood District:	Delridge
Total Project Cost:	\$57,346	Urban Village:	Not in an Urban Village

This project improves pavement conditions, enhances safety, and improves traffic operation for all modes. The project will add transit lanes and improve transit speed and reliability. It includes protected bike lanes, sidewalk improvements, and amenities for walkers and transit riders along the corridor. It will streamline traffic operations and improve Multimodal connections between transit, freight, pedestrians and general-purpose vehicles. The project is also a partnership between SDOT, SPU and SCL to upgrade utilities along the corridor in conjunction with the transportation work.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Fauntleroy Way SW Boulevard

Project No:	MC-TR-C046	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Fauntleroy WAY SW/35th AVE SW/SW Alaska ST
Current Project Stage:	Stage 3 - Design	Council District:	Council District 1
Start/End Date:		Neighborhood District:	Southwest
Total Project Cost:	\$2,927	Urban Village:	West Seattle Junction

This project transforms Fauntleroy Way SW into a boulevard. The project elements include: a planted median, signature lighting fixtures, a protected bicycle facility, a pedestrian zone with sidewalks and planting areas including street trees, pedestrian lighting, potential stormwater infrastructure and art, as well as safety improvements for crossing movements for all modes. These safety improvements include bicycle and pedestrian crossings, signals, reconfigured intersections and bulbs, and pavement improvements. This project is on-hold pending Sound Transit decision on the West Seattle Extension alignment and does not have an expected Completion Date as a result.

Financial Planning Strategy: A combination of LCLIP, STM, and NODO local funding (\$3M) combined with \$4.2M of FHWA funding has been identified for the Design funding.

O&M Impacts:

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Hazard Mitigation Program - Areaways

Project No:	MC-TR-C035	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Pioneer Square

This ongoing asset preservation program funds ongoing inspection and repair/reconstruction of areaways to reduce risks to City facilities and the general public. Areaways are usable space, generally in the street right-of-way, constructed under sidewalks between the building foundation and street wall. Typical improvements include, but are not limited to, repairs to an existing areaway or filling an areaway in order to eliminate the asset. Current work focuses on safety improvements of historic areaways in Pioneer Square.

Hazard Mitigation Program - Landslide Mitigation Projects

Project No:	MC-TR-C015	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project enables SDOT to address and repair landslide concerns that affect the right-of-way. The Landslide Mitigation Program provides SDOT with staff and resources to identify and prioritize landslide concerns, to undertake reconnaissance engineering and geotechnical studies of problem areas, and to make repairs at the highest priority locations, usually where landslide concerns have caused the roadway to be partially or completely closed.

Heavy Haul Network Program - East Marginal Way

Project No:	MC-TR-C090	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	E Marginal WAY
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2016 - 2027	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$79,286	Urban Village:	Not in an Urban Village

This program supports freight mobility by funding roadway improvements on the Heavy Haul Network (Ordinance 124890) to meet the needs of freight transported on our streets between Port facilities, rail yards, and industrial businesses. The initial project under this Program is the E Marginal Way Corridor Improvement project, which will be a multi-phase project. Phase I constructs a separated bicycle/pedestrian facility between S Atlantic St and Spokane St. Phase II includes roadway reconstruction, signal and ITS enhancements and safety measures to reduce conflicts between freight and non-motorized users. The Port of Seattle, through Memorandum of Understanding, is to provide partnership funding.

Note: The project title changed from "Heavy Haul Network Program" to "Heavy Haul Network Program - East Marginal Way"

Unsecured Funding Strategy: SDOT plans to pursue a \$20M federal RAISE grant and anticipates a \$5.5M contribution from the Port of Seattle. SDOT is reviewing funding options for the remaining.

O&M Impacts: This is a capital maintenance project that reduces the need for O&M by improving asset condition. Since it also builds new assets, SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Highland Park Intersection Improvements

Project No:	MC-TR-C100	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Highland Park Way SW and SW Holden ST
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 1
Start/End Date:	2019 - 2022	Neighborhood District:	Southwest
Total Project Cost:	\$3,554	Urban Village:	Not in an Urban Village

This project would mitigate collision and congestion issues at the intersection of Highland Park Way SW and SW Holden St. There are currently two alternatives being considered for this work. One alternative would be installing a new traffic signals, sidewalks, curb ramps and marked crosswalks. SDOT estimates the cost of this alternative at \$3M. The other alternative would install a roundabout at this intersection. After advancing design of the roundabout, we now know that significant grading is needed to accommodate the roundabout and avoid new safety issues. This has pushed the cost estimate to \$7.3M. The name of this project has been changed from Highland Park Roundabout to Highland Park Intersection Improvements. The name change occurred as part of the second quarter 2019 Supplemental Amendment-Attachment A.

Start/End Date:	2013 - 2024	Neighborhood District:	Multiple
Total Project Cost:	\$166,921	Urban Village:	Multiple

This project will include concept design and environmental review of high-capacity transit and multimodal improvements in the Madison corridor between Alaskan Way and Martin Luther King Jr. Way, connecting the Central Area with the First Hill, Downtown, and Waterfront neighborhoods. The project is identified as a priority in the Transit Master Plan. The purpose is to improve transit capacity, travel time, reliability, connectivity, comfort, visibility, and legibility in the Madison corridor. The project title was previously "Madison Street Bus Rapid Transit".

Magnolia Bridge Replacement Project

Project No:	MC-TR-C083	BSL Code:	BC-TR-19002
Project Type:	Discrete	BSL Name:	Major Projects
Project Category:	New Facility	Location:	15th Ave NW and Magnolia Way W.
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:		Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$10,030	Urban Village:	Ballard-Interbay Northend

The environmental analysis for replacing this bridge evaluated several possible alternatives including rehabilitation of the existing structure. In 2007, an environmental assessment was published and described the preferred alternative, a new bridge south of and adjacent to the existing bridge. The Type, Size, and Location (TS&L) Report was completed in 2007, selecting a concrete box girder supported on flared columns as the appropriate structure type for this new bridge. The Levy to Move Seattle provided limited funds to conduct a plan study that would evaluate a more cost effective alternative than a "1-to-1" replacement. Even with the reduced cost for pursuing an alternative option than a full replacement, total project cost and a funding strategy to move the project forward is unclear. The project is currently on hold.

NE 43rd Street Improvements

Project No:	MC-TR-C074	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	NE 43rd ST
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 4
Start/End Date:	2017 - 2020	Neighborhood District:	Northeast
Total Project Cost:	\$5,085	Urban Village:	University District

This project will implement streetscape and pedestrian improvements on NE 43rd Street between Brooklyn Ave NE and 15th Ave NE to improve access to the Link Light Rail station, which is scheduled to open in 2021. The project will transform the operation of NE 43rd St between Brooklyn Ave NE and University Way NE to one-way westbound transit-only travel and between University Way NE and 15th Ave NE to one-way westbound, all vehicle travel. The roadway will be optimized for pedestrians with a curb-less roadway section, widened sidewalks, pedestrian illumination, bio retention, and rain gardens. A protected bike lane will be provided for eastbound bike traffic and westbound bicycle traffic will share the travel lane with westbound traffic. The project is scheduled to begin construction in the summer of 2020.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

This program enhances the safety, quality and condition of the pedestrian and neighborhood environments. Typical improvements may include, but are not limited to, sidewalk construction, repairs and replacement, installation of curb bulbs or other traffic calming devices, and improvements to crosswalks. The projects are funded by the Move Seattle transportation levy and it is a triennial program. The projects funded are identified by the community and the Move Seattle Oversight Committee.

Neighborhood Parks Street Fund - Your Voice, Your Choice

Project No:	MC-TR-C022	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program identifies projects estimated less than \$100,000 that are prioritized through participatory budgeting in each of the 7 council districts. Typical improvements may include, but are not limited to, sidewalk construction, repairs and replacement, installation of curb bulbs or other traffic calming devices, and improvements to crosswalks. The program enhances the safety, quality, and condition of the pedestrian and neighborhood environments. This project was formerly known as "NPSF Neighborhood Parks Street Fund" and "NSF/CRS Neighborhood Program."

New Traffic Signals

Project No:	MC-TR-C020	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project installs new traffic signals or significant capital improvements to existing signals to improve traffic flow, reduce the frequency and severity of traffic collisions, and support pedestrian, bicycle or transit activity. Location choices are based upon pedestrian, bicycle, and vehicle volumes; school, senior citizen, and handicapped accessible crossing requirements; transit speed and reliability; and collisions frequency criteria.

Non-Arterial Street Resurfacing and Restoration

Project No:	MC-TR-C041	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project repairs and/or replaces deteriorated asphalt pavement and/or concrete panels on non-arterial streets. Project locations are chosen annually based upon the degree of deterioration as confirmed by Department staff field observations, citizen service requests, claims, and potential City liability. High priority is given to non-arterial streets used by transit, in areas with heavy pedestrian and bicycle traffic, and which serve business and industry.

Total:	5,424	6,325	1,026	1,026	1,026	1,026	1,026	1,026	17,902

Unsecured Funding Strategy: SDOT will pursue bonds or other short-term loans, such as an inter-fund loan, to resolve potential funding deficits.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Northgate Bridge and Cycle Track

Project No:	MC-TR-C030	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 4
Start/End Date:	2013 - 2021	Neighborhood District:	North
Total Project Cost:	\$56,154	Urban Village:	Northgate

This project will construct pedestrian and bicycle improvements to enhance access to the planned Sound Transit Light Rail station at Northgate. The improvements include a pedestrian and bike bridge over I-5 and a multi-use path along 1st Avenue NE; that was complete in 2021. The stream mitigation work will continue through 2024 and is currently in the design phase.

Northlake Retaining Wall

Project No:	MC-TR-C102	BSL Code:	BC-TR-19001
Project Type:	Discrete	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Northlake Way @ Stone Way
Current Project Stage:	Stage 3 - Design	Council District:	Council District 4
Start/End Date:	2019 - 2028	Neighborhood District:	Not in a Neighborhood District
Total Project Cost Range:	41,130 - 50,270	Urban Village:	Fremont

This project will replace the Northlake Retaining Wall, which is a 452-foot-long lakefront timber structure that was constructed in 1951 and is located at the north end of Lake Union adjacent to North Northlake Avenue. The wall currently shows signs of advanced deterioration, overstress, and some sections of structural failure. This presents a significant risk to public safety given the right-of-way supported by the wall, the private structures directly outshore and adjacent to the wall, and the close proximity of overhead power lines and subsurface utility infrastructure.

Total:	-	-	-	23,398	-	-	-	-	23,398

Financial Planning Strategy: The estimated cost to reach the 100% design level is \$4,000,000, \$2,000,000 of which will be funded by LTGO bonds. The remaining \$2,000,000 needed to reach 100% of design will be funded with Street Vacations proceeds.

At 30% design, SDOT will reevaluate the total project cost and the financial planning strategy for the remaining costs of the project, which will include local funding, debt financing, and grant funding.

O&M Impacts: There will be ongoing operations and maintenance (O&M) costs for SDOT to maintain the retaining wall after full replacement. The estimate is \$50,000/year over the 75-year design life of the structure which includes labor (maintenance, engineering, and inspection) and non-labor (materials). This would be added to the Bridge/Structures Maintenance O&M budget. An O&M BIP will be submitted along with subsequent BIPs for the final design phases in the future.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Overlook Walk and East-West Connections Project

Project No:	MC-TR-C073	BSL Code:	BC-TR-16000
Project Type:	Discrete	BSL Name:	Central Waterfront
Project Category:	New Investment	Location:	Multiple
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2013 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$199,339	Urban Village:	Downtown

Removing the Alaskan Way Viaduct provides the opportunity for the City to improve key connections between the downtown core and the waterfront. The specific east/west streets targeted for improving connections include: Bell Street, King Street, Main Street, Pike Street, Pine Street, Railroad Way, Union Street, Washington Street, and Yesler Way. In addition to these east/west street connections, the waterfront improvement program also includes Overlook Walk, which will provide a pedestrian-oriented connection between the waterfront, the Aquarium and Pike Place Market with ADA access, views, and public open spaces. This project is part of the overall waterfront improvement program. This project includes funding from the Waterfront Local Improvement District.

Pedestrian Master Plan - Crossing Improvements

Project No:	MC-TR-C061	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program implements the Pedestrian Master Plan. Typical improvements may include the installation of new marked crosswalks, curb bulbs, pedestrian signals, curb ramps, and pedestrian lighting. The goals of the program are to reduce the number and severity of crashes involving pedestrians; make Seattle a more walkable city for all through equity in public engagement, service delivery, accessibility, and capital investments; develop a pedestrian environment that sustains healthy communities and supports a vibrant economy; and raise awareness of the important role of walking in promoting health and preventing disease.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Unsecured Funding Strategy: SDOT will evaluate deliverables, prioritize and scale projects to the extent feasible, and continue to pursue grant and partnership opportunities to resolve potential funding deficits. Funding for this program beyond 2024 is dependent upon a future voter approved levy.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Pedestrian Master Plan - New Sidewalks

Project No:	MC-TR-C058	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project enhances the pedestrian environment in Seattle's neighborhoods by dedicating funding to construct new sidewalks. The New Sidewalk Program draws funding from the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund to improve sidewalks and the pedestrian environment near schools. Additional funding is drawn from other sources to pay for new sidewalk construction near frequent transit routes.

Pedestrian Master Plan - School Safety

Project No:	MC-TR-C059	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project improves pedestrian and bicycle safety around schools. The work typically includes school zone signing and 20mph flashing beacons; new crosswalks; curb bulbs; crossing beacons and pedestrian signals; new sidewalks and maintenance; traffic calming; changes to traffic circulation around schools; installation of school zone cameras; and school walking route maps. The base level of transportation funding provides improvements at approximately three to four schools per year. The project also funds safe biking and walking education and traffic safety outreach campaigns. Operation of school zone cameras is directly funded from the Seattle Police Department budget.

Pedestrian Master Plan - Stairway Rehabilitation

Project No:	MC-TR-C031	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program implements the Pedestrian Master Plan. This sub-program, Stairway Rehabilitation, funds projects to rebuild and/or rehabilitate stairways to current standards, including but not limited to: adding proper width, step height, grip rail, landings, and other features required by the Americans with Disabilities Act.

RapidRide C & D Line Improvements

Project No:	MC-TR-C106	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Investment	Location:	Various
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2021 - 2024	Neighborhood District:	Multiple
Total Project Cost:	\$2,300	Urban Village:	Multiple

This project will deliver additional transit spot improvements aimed at improving travel time and reliability along RapidRide C&D lines, in preparation for Light Rail extensions into the West Seattle and Ballard neighborhoods. These projects make changes to SDOT-owned infrastructure, including streets and signals, and will result in adjustments to signal and street operations. Due to Sound Transit Board realignment decisions in August 2021, SDOT no longer anticipates \$12M investment in RapidRide C&D Lines in 2021 and 2022. The CIP Budget was revised in 2022 to reflect the new project schedule.

Resources	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total

This project will provide a high-quality transit service connecting Downtown Seattle with the neighborhoods of Belltown, South Lake Union, Eastlake, and University District. This project also includes protected bike lane, streetscape, intersection and traffic signal improvements and improving accessibility including ADA-compliant curb ramps. This project was formerly titled RapidRide Roosevelt.

Revive I-5 Project Support

Project No:	MC-TR-C124	BSL Code:	BC-TR-19002
Project Type:	Discrete	BSL Name:	Major Projects
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Citywide
Start/End Date:	2023 - 2032	Neighborhood District:	Multiple
Total Project Cost:	\$5,500	Urban Village:	Multiple

"Revive I-5 Preserving a Vital Freeway" is a State of Washington project where dozens of preservation projects are planned to revive Interstate 5 in King and Snohomish counties. The State's Revive I-5 projects will include pavement repair and full replacement, expansion joints, and seismic work to strengthen bridges against earthquakes. The City of Seattle will support the State's efforts by installing transit priority measures and other operational improvements on City streets, that may include dedicated bus priority lanes, new signal improvements and communication systems. The City will also support this effort with commute trip reduction programs, real-time support for signal timing changes, transportation operations monitoring, and communication of real-time traffic conditions and incident response.

Safe Streets and Roads for All

Project No:	MC-TR-C125	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Citywide, Multiple
Start/End Date:	2023 - 2027	Neighborhood District:	Multiple
Total Project Cost:	\$32	Urban Village:	Multiple

This project will design and construct a variety of proven countermeasures that are heavily concentrated in our most disadvantaged and disinvested communities. The project focuses on low-cost, high-impact safety improvements such as protected bicycle lanes, sidewalks, leading pedestrian internals, marked crosswalks, and traffic calming tools like speed cushions. Additionally, new ADA ramps and accessible pedestrian signals are scoped for approximately 60 signalized intersections.

Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project will maintain and improve Seattle’s designated shoreline street ends. There are currently 142 shoreline street ends throughout Seattle. Shoreline street ends are community assets, which provide the opportunity for residents and visitors to experience and enjoy Seattle’s shorelines. This project improves public access, protects unique views, and enhances habitat to create long-lasting assets.

Sidewalk Safety Repair

Project No:	MC-TR-C025	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project rehabilitates sidewalks damaged by street trees or where there are serious safety concerns as evidenced by claims, service requests, and potential City liability. The project includes opportunities for public/private partnerships with citizens, property owners, and businesses. Asset management principles are used to guide repair needs and establish priorities for maintaining the sidewalk (or walkway), curbs, curb ramps, and in some cases, a filler strip between the sidewalk and curb.

O&M Impacts: This project provides SDOT support to Sound Transit, who will own the light rail asset. SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Sound Transit North Link

Project No:	MC-TR-C027	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Various
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2011 - 2024	Neighborhood District:	Multiple
Total Project Cost:	\$1,770	Urban Village:	Multiple

This project provides design review, permitting, and construction support services for the Sound Transit North Link project (University District to Northgate). The 4.3-mile line includes stations at Northgate, the Roosevelt neighborhood, and the University District.

SPU Drainage Partnership - Broadview Pedestrian Improvements

Project No:	MC-TR-C036	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 5
Start/End Date:	2016 - 2022	Neighborhood District:	Northwest
Total Project Cost:	\$8,950	Urban Village:	Bitter Lake Village

This project funding will be used to install pedestrian improvements as part of SPU's larger Broadview Sewer and Drainage Improvement project. The Broadview sewer system was built in the 1950's and cannot handle the combination of additional flow from the homes and business that have developed since then and the additional storm water that is entering the system from downspouts directly connected to the sewer system as well as additional storm water entering through deteriorated pipes. This area is also lacking conventional sidewalks and would benefit from pedestrian improvements. The overall project goal is to reduce the potential for sewer backups and surface flooding for the Broadview neighborhood while improving the pedestrian environments.

SPU Drainage Partnership - South Park

Project No:	MC-TR-C054	BSL Code:	BC-TR-19001
Project Type:	Discrete	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	TBD
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 1
Start/End Date:	2016 - 2023	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$9,999	Urban Village:	South Park

This funding will be used to partner with SPU's South Park Drainage Improvement projects. SPU is planning to install a pump station to control flooding in the South Park area. However, that alone will not control flooding. Many streets in the area are in poor condition and don't have a street drainage collection system. This funding will allow SPU and SDOT to partner to install the needed collection systems and repair the deteriorated roads.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges. For SDOT, the annual O&M cost to support new City-owned and maintained infrastructure built by the next major phase of the SR-520 program is estimated at \$56,000. The SR-520 program will also replace existing City infrastructure, such as new street and sidewalk pavement, which will reduce SDOT annual O&M costs in the near term.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Structures Major Maintenance

Project No:	MC-TR-C112	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides for major maintenance and rehabilitation of the City's bridges and structural assets maintained by SDOT's Roadway Structures Division. Examples of improvements that could be funded by this project include: electrical and mechanical upgrades of moveable bridge operating and control systems, repair of concrete and steel structures, and site protection of bridge facilities.

Thomas Street Redesigned

Project No:	MC-TR-C105	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Thomas St. from 5th Ave N to Dexter Ave N
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2020 - 2023	Neighborhood District:	
Total Project Cost:	\$6,225	Urban Village:	Uptown

Thomas St Redefined will implement planned improvements between Taylor Ave N and Dexter Ave N, and along Taylor Ave N adjacent to the Seattle City Light Substation. Phase 1 includes all required Seattle City Light frontage improvements adjacent to the substation, a new multiuse path with landscape buffers, a dedicated pedestrian sidewalk with significant landscaping, new street trees, new pedestrian lighting, new street lighting and interim improvements of a bike lane and plaza between 5th Ave N and Taylor Ave N. Phase 2 will transform the interim improvements into permanent improvements.

O&M Impacts: This CIP supports urban forestry staff to maintain landscapes installed by SDOT capital projects.

Vision Zero

Project No:	MC-TR-C064	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

Seattle’s Vision Zero initiative is aimed at ending traffic deaths and serious injuries on city streets by 2030 through street design, education, engagement, and partnership. At the core of the international Vision Zero movement is the belief that no loss of life is acceptable; that humans make mistakes; and that cities should design a system that accounts for imperfection so that when a crash occurs, it doesn’t result in death or injury. This program approaches the challenge of fatal and serious injury crashes from the angle of redesigning streets to emphasize safety, predictability, multimodal mobility, and the potential for human error. It will complete 12-15 corridor safety projects over 9 years to improve safety for all travelers on our highest injury streets. In addition, Vision Zero is focused on taking a proactive, systemwide approach to move toward a safer system for all.

Unsecured Funding Strategy: SDOT will evaluate deliverables, prioritize and scale projects to the extent feasible, and continue to pursue grant and partnership opportunities to resolve potential funding deficits. Funding for this program beyond 2024 is dependent upon a future voter approved levy.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Water Structures

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Waterfront Transportation Infrastructure Maintenance

Project No:	MC-TR-C109	BSL Code:	BC-TR-16000
Project Type:	Ongoing	BSL Name:	Central Waterfront
Project Category:	Rehabilitation or Restoration	Location:	Central Waterfront
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

The Waterfront Seattle program is reconstructing existing transportation infrastructure, Alaskan Way and Elliott Way as well as other streets and bridges. It is also building new transportation infrastructure: the Union Street Pedestrian Bridge, Overlook Walk and Pine Street connector. Each of these program elements includes transportation assets such as pavement, sidewalks, ADA ramps, signs, signals, markings and landscapes that will need on-going maintenance to remain safe and in a state of good repair.

This program is a capital infrastructure maintenance program to keep the new and rebuilt assets in a state of good repair, consistent with long-term maintenance commitments made by the City. It is also intended that this program set aside funds for future asset replacement or rehabilitation as necessary.

Resources	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total

Unsecured Funding Strategy: Funding for this project may depend upon the availability of grants or identification of new/incremental revenue sources.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

West Seattle Bridge Immediate Response

Project No:	MC-TR-C110	BSL Code:	BC-TR-19001
Project Type:	Discrete	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	West Seattle Bridge Spanning the Duwamish
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2020 - 2024	Neighborhood District:	Greater Duwamish
Total Project Cost Range:	159,170 - 224,711	Urban Village:	Not in an Urban Village

This CIP funds the West Seattle Bridge Program, including broad community engagement efforts and the Reconnect West Seattle multimodal strategy. The capital delivery components include emergency repairs and bridge stabilization work, high bridge and low bridge rehabilitation, low bridge improvements, and high bridge replacement planning. In parallel, this CIP funds a broad multimodal capital strategy (Reconnect West Seattle) to accommodate cross-Duwamish travel that formerly used the high bridge in partnership with King County Metro, Sound Transit, WSDOT, Washington State Ferries, BNSF, the Port of Seattle, other state and federal agencies, private mobility providers, large employers, and the general public.

Resources	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total

Total:	111,817	41,689	4,682	-	-	-	-	-	158,188

Financial Planning Strategy: SDOT and CBO continue to evaluate the funding strategy for the repair and replacement of the West Seattle Bridge. The initial funding will be LTGO bonds, with the debt service paid for by Real Estate Excise Tax. SDOT will work to identify potential partnership funding.

O&M Impacts: O&M Costs are still being evaluated.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Seattle City Light

Overview

Seattle City Light (City Light) is a municipally owned electric utility that operates as a department of the City of Seattle. The utility serves a population of approximately 955,000 people living in a 131 square-mile area, which includes the City of Seattle and several adjoining jurisdictions. To serve these customers, City Light owns, maintains, and operates a multi-billion-dollar physical plant. The physical plant includes:

- A power generation system consisting of seven hydroelectric plants on the Pend Oreille, Skagit, Cedar, and Tolt rivers with a combined capacity of approximately 2,000 megawatts.
- 667 miles of high-voltage transmission lines.
- A distribution system with 16 major substations and more than 2,500 miles of overhead and underground cable.
- A state-of-the-art System Operations Center coordinating the City's electric system.
- Billing and metering technology tracking over 482,000 accounts.

City Light's Capital Improvement Program (CIP) is the vehicle for repairing, upgrading, and expanding this infrastructure. With planned spending of \$2.75 billion over the 2024-2029 timeframe, the CIP funds a variety of safety improvements, mitigation activities, and licensing requirements. Funding for the CIP comes primarily from retail electricity sales, sales of surplus power on the wholesale market, and the sale of revenue bonds. Federal and state grant funding is also an expected source in this timeframe.

Thematic Priorities

The CIP underpins City Light's core mission of providing customers with affordable, reliable, and environmentally responsible energy services. The CIP reflects ongoing operational priorities as well as new business strategies identified in the utility's 2023-2028 Strategic Plan update. The update continues work on the five business strategies first described in the 2022-2026 Strategic Plan:

1. Improve the Customer Experience

City Light is focused on engaging with our customers and helping employees see the impact of their actions from the customers' perspective. We are making investments to enhance accessibility, offer new program choices, and better meet our customers' diverse needs.

2. Create Our Energy Future

Creating our energy future involves responsibly growing demand for clean energy through electrification, investing in access to low-cost carbon-free renewable power, and building and maintaining a smart, resilient, flexible, dynamic, and reliable grid infrastructure. Past budgets added significant funding for electrification and grid modernization in anticipation of federal and state infrastructure grant opportunities.

3. Develop Workforce and Organizational Agility

Our industry is transforming quickly, and so are our customers' needs. City Light is building an organization that is nimble, adaptive, and responsive by investing in strong change management, workforce development, and new technology resources.

4. Ensure Financial Stewardship and Affordability

To deliver rates that are affordable for all, City Light is leaning into strong fiscal management and new pricing options to help customers manage their energy bills through efficient use of City Light's products and services.

5. We Power

“We Power” refers to our core mission as a utility – to provide our customers with affordable, reliable, and environmentally responsible energy services. Critical CIP efforts funded in past budgets include Skagit Relicensing and the Accelerated Pole Replacement Program; both initiatives continue in the 2024-2029 Budget.

Notable CIP areas that advance our 2023-2028 Strategic Plan Update and core planning and operational needs include:

Investments to Create Our Energy Future

The CIP includes funding for projects to advance Seattle’s transition away from fossil fuels to achieve a zero-carbon city. Grid modernization investments will update and modernize the distribution system to improve resiliency, add flexibility, and maintain reliability. Projects supporting electrification include large-scale maritime electrification projects, as well as ongoing expansion of electric vehicle charging infrastructure and customer incentive programs. Green energy resource growth will enable projects to develop distributed generation (solar, wind, etc.), energy storage, demand-side management, and other distributed energy resource (DER) technology. Under the Utility Next program, City Light will pursue and leverage grant matching funds for federal and state stimulus dollars to accelerate work across our business strategies.

Technology, Data and Cyber Security

Improvements are planned for various foundational technology systems that underpin our system operations and customer interactions. Investments include an expanded customer self-service portal, upgraded advanced meter infrastructure, and improved customer metering and billing systems to provide a better service experience for customers. Upgrades to the Geospatial Information System (GIS) and the Outage Management System (OMS) will facilitate new energy technologies as part of grid transformation. A major upgrade of the Work and Asset Management System (WAMS) is also in the initial planning stages. To safeguard our technology assets and harden against cyber threats, advanced developments in cyber security programs, technology governance, and operations are funded.

Hydroelectric Project Relicensing

The federal license for the Skagit River Hydroelectric Project, a series of three dams that produces approximately 20% of City Light’s owned generation capacity, expires in 2025. Renewing the license with FERC also means reviewing the safety, cost, environmental, and cultural impacts of the continued operation of the project. Since 2020, City Light has been collaborating with local partners to develop an application for a new license that will last for the next 30-50 years. The license will include requirements around protecting the environment and the culture of the watershed and its surrounding communities. In addition, the South Fork Tolt Hydroelectric Project is also up for FERC license renewal in 2027. For the Boundary Hydroelectric Project, various protection, mitigation, and enhancement activities are needed to fulfill requirements mandated by its 2014 FERC license and settlement agreement.

Transmission & Distribution Infrastructure Maintenance

Reliable energy delivery requires proactive maintenance of transmission and distribution assets. The utility has accelerated the pace of pole replacements due to a critical need to replace deteriorating poles that are essential for reliability as well as public safety. Other major program investments include expansion of the network distribution system in the north downtown area to realize systemwide benefits from the new Denny Substation, as well as replacement of failing underground cables.

Preserving Hydroelectric Generation Assets

Preservation of Seattle’s legacy hydroelectric generation facilities is accomplished through prudent investments and proactive maintenance. Planned enhancements include a wide range of dam safety investments; an improved outage management system; long-term planning for small legacy hydroelectric projects such as Cedar Falls; improvements of ancillary systems and facilities such as powerhouse systems; plant automation; and cyber and physical security investments.

Workforce, Facilities and Fleets

Supporting an agile workforce requires a work environment conducive to productivity, collaboration, and innovation. A major restacking project funds renovation of office space in the Seattle Municipal Tower to improve ergonomics, modify workspaces to accommodate modern technology and collaboration, and reduce the utility’s footprint in the downtown core. Similarly, strategic fleet investments are replacing aging vehicles with electric-powered alternatives that are greener and more efficient.

Race and Social Justice

City Light is committed to leading with equity and prioritizing investments in ways that deliver value to underserved and under-represented communities. The utility is actively engaged in the Citywide effort to rebuild Seattle as a city that is racially just, equitable, and inclusive. In developing and executing the CIP, work groups seeking incremental funding participated in an equity lab with City Light’s RSJ Change Team to seek diverse perspectives and identify opportunities to incorporate social justice work into implementation plans. City Light will work to prioritize positive outcomes and reverse historic inequities for underserved communities, including Black, Indigenous, and people of color as well as immigrants, refugees, persons experiencing low incomes, English language learners, youth, and seniors. This includes prioritizing the electrification of public transit to deliver better air quality and other health benefits to historically underserved communities. Other benefits include a focus on job creation and economic activity with an emphasis on historically excluded populations.

Project Selection Criteria

City Light’s planning process is designed to ensure project funding meets customers’ current and future needs, and to position the utility to meet current and future strategic and operational challenges. Project ideas come from throughout City Light. Members of each of the utility’s organizational lines of business (e.g., power supply, transmission and distribution, fleets, facilities, electrification, technology, and customer service) prioritize capital spending and then submit recommended projects through a centralized capital budgeting system.

For any new capital project with a total cost exceeding \$1 million, utility staff complete an intake to document the project expectations, rationale, and a cost-benefit analysis of alternatives.

Availability of funding and labor resources limits the CIP, and to balance overall needs within these constraints, City Light may rescope, reschedule, or defer projects in the six-year CIP.

2024-2029 Adopted CIP Highlights

The 2024-2029 Adopted CIP outlines \$2.75 billion in capital spending over six years for power supply, transmission, distribution, external projects, and central utility needs.

2024-2029 Adopted CIP Summary of Allocations by Program

Budget Program/SubProgram	2024	2025	2026	2027	2028	2029

A selection of projects from each program follows.

Central Utility Projects

Projects in this program provide for centralized billing and customer service systems, financial and information technology systems, and vehicle fleets and facilities that are not part of the power generating plant (e.g., equipment shops, service centers, and maintenance yards). This program also includes City Light’s work on transportation electrification.

For 2024, there is \$35 million in funding for 12 projects in Central Utility. Highlights include:

- Office Furniture and Equipment Replacement (MC-CL-XF9103): \$12,245,553
This ongoing project funds renovations of office space and capital replacement of office equipment, including modular office workstations, conference room ensemble furniture, flexible group workspaces, and major office machines. Improvements will enhance worker safety, with improved light, airflow, and ergonomics, as well as enhance productivity and team collaboration. This project also supports the City’s Space Reduction Pilot, which aims to reduce the utility’s footprint in the downtown core by 25% to achieve cost efficiencies.
- Equipment Fleet Replacement (MC-CL-XF9101): \$8,689,545
This ongoing project funds the purchase of light-duty and heavy-duty mobile equipment fleet vehicles. This includes replacement of specialized fleet vehicles for electric utility use, as well as enhancements and additions of green alternatives such as electric powered vehicles.
- Transportation Electrification (MC-CL-XF9239): \$5,054,509
This ongoing project develops electrification infrastructure to support light-duty, medium-duty, and heavy-duty electric vehicles as well as ferry and port systems. Efforts support electrified public transit, fleet electrification, and electric vehicle charging.

2024-2029 Proposed Capital Improvement Program

- New Technology (MC-CL-ZF9980): \$4,858,337

This ongoing technology program will establish foundational technology for the modernization of the grid and ensure the improvement of operational technology. These initiatives were outlined to ensure we are supporting the best practices and needs of the utility.

Distribution

Projects in this program include improvements to City Light’s distribution substations, relays, feeders, network distribution systems, overhead and underground radial distribution systems, service connections, customer meters, operational technology, and other facilities and assets related to the distribution system.

For 2024, there is \$262 million included for 52 projects in Distribution. Highlights include:

- Overhead Equipment Replacements (MC-CL-YR8351): \$47,229,182

This ongoing project replaces overhead distribution equipment nearing the end of its usable life, is overloaded, or no longer has an available supply of spare parts. These items include, but are not limited to, poles, cross-arms, transformers, and open-wire secondaries.

- Underground Equipment Replacements (MC-CL-YR8353): \$28,939,035

This ongoing project replaces and improves underground electrical system equipment that is failing or approaching the end of its useful life. This project enhances distribution system reliability, avoiding unplanned outages or interruption of service due to equipment failure.

- Medium Overhead and Underground Services (MC-CL-ZS8366): \$22,701,098

This ongoing project funds engineering and installation of radial electric power service connections with medium-sized power requirements of 50 KVA to 2.5 MVA and 26 kV. The cost of this work is generally reimbursed by the requesting customer.

- Pole Attachments (MC-CL-YR8452): \$17,109,850

This ongoing project funds preparing poles for the attachment of communication infrastructure owned by other entities. The construction costs associated with this work are typically fully reimbursable and attachments generate ongoing revenues through pole attachment rental fees.

- Network Additions and Services – Broad Street Substation (MC-CL-ZS8363): \$9,637,434

This ongoing project funds electrical service connections, capacity additions, and related improvements in response to customer service requests within the Broad Street network area. The project also funds replacement or installation of network transformers, network protectors and specialty transformers, or in-building vault retrofits or other short-duration system improvement needs that may be identified during construction.

- Software Replacement Strategy (MC-CL-YD9969): \$8,300,755

This project funds the upgrade or replacement of key applications and systems as part of the Utility Technology Portfolio. Timely upgrades and replacements ensure that technology and enterprise level software resources are kept up to date, are fully functional and continue to deliver more benefits and technology automations to internal and external customers.

- Network Additions and Services – First Hill, Massachusetts, Union, & University (MC-CL-ZS8364): \$8,203,782

This ongoing project provides electrical service connections and related improvements in response to customer service requests within the First Hill, Massachusetts, Union, and University District network areas. The project performs capacity additions work associated with service connections to customers, including condominiums, office buildings, medical facilities, hotels, and commercial and apartment buildings. The project also replaces or installs network transformers, network protectors,

and specialty transformers, and performs short-duration system improvement work identified during operations, including retrofitting in-building vaults.

- Small Overhead and Underground Services (MC-CL-ZS8367): \$7,838,888
This ongoing project funds engineering and installation of radial electric power service connections with small size power requirements of less than 50 KVA and 26 kV. The cost of this work is generally reimbursed by the requesting customer.
- Denny Substation – Network (MC-CL-YN8404): \$6,995,334
This ongoing project funds network system work in the Denny Substation network area. Work may include design and construction, engineering design at the substation network interface, and underground conversion of streetlights, traffic signals, and telecom and fiber optic systems.
- Substation Equipment Improvements (MC-CL-YS7752): \$6,326,367
This ongoing project adds, replaces, and upgrades substation equipment, particularly substation electrical and control equipment. The project also funds the installation of remote control and monitoring of substation equipment from the System Control Center, which facilitates faster response time to correct system instability or outages. This work maintains and improves system reliability, permits compliance with high voltage and environmental regulations, and ensures safe work sites.
- Substation Breaker Replacements & Reliability Additions (MC-CL-YS7779): \$5,656,009
This ongoing project funds the review of City Light's inventory of approximately 400 transmission and distribution voltage circuit breakers. It determines which have the greatest wear, gas or oil leaks, maintenance cost, and service stress. It prioritizes replacement of circuit breakers with highest risk of failure.
- Large Overhead and Underground Services (MC-CL-ZS8365) \$5,334,725
This ongoing project provides large size electric power service connections from City Light's distribution system to the customer's meter for power requirements of greater than 3 MVA and 26 kV radial services. Most of this related work is billable to the customer. The project allows City Light to provide service to new customers in a safe, reliable, timely and cost-effective manner, fulfilling its commitment to be a customer- and community-focused organization.
- Relaying Improvements (MC-CL-YS7753): \$5,275,481
This ongoing project replaces protective relays to ensure system reliability by protecting the rest of the distribution system from potentially cascading effects if one part fails to operate properly. It upgrades relay technology, allowing remote control and documentation of system events, which enhances the detection and management of equipment problems.

External Projects

Projects in this program respond to requests from local jurisdictions to relocate distribution services from overhead to underground systems per the terms of franchise agreements; maintain and upgrade the streetlight system; relocate utility infrastructure in response to major transportation projects; and provide capital improvements in response to other customer-requested service needs.

For 2024, the CIP includes \$25 million in funding for nine External Projects. Highlights include:

- Local Transportation Driven Relocations (MC-CL-ZT8369): \$9,357,917
This ongoing project funds relocation of electrical lines to accommodate or take advantage of transportation-related projects, street vacations, or other projects initiated by outside agencies such as SDOT, WSDOT, or suburban municipalities. Work includes modifications to the distribution system, including replacement or modifications of line segments, poles, and underground facilities. Some costs may be reimbursable by the requesting outside agencies.

2024-2029 Proposed Capital Improvement Program

- Streetlight Arterial, Residential and Flood (MC-CL-ZL8378): \$7,197,038
This ongoing project funds streetlights and floodlights requested by various taxing jurisdictions and other customers. Lights may be provided in public right of way and on private property, for either public or private benefit.
- Transportation Streetlights (MC-CL-ZL8377): \$5,600,558
This ongoing project funds relocation of streetlights displaced by City of Seattle transportation projects.
- LED Streetlight Conversion Program (MC-CL-ZL8441) \$2,250,095
This project is the second-generation replacement of LED luminaires and will be deployed with a controls system to replace all cobra-head streetlights. The project is expected to achieve an additional 20% annual energy savings and prevent 2,720 metric tons of carbon from being released into the atmosphere. Included in this project will be a color temperature reduction to 3000K to improve customer reports of discomfort glare. This project continues the work originally chartered in 2009 to upgrade all City-owned streetlights to LED, which achieved an estimated annual 40% energy savings and avoided 5,446 metric tons of carbon released into the atmosphere. Since then, the LED industry has matured, and the original fixtures are no longer a benchmark of efficiency and are nearing the end of life.

Power Supply

Projects in this program include energy efficiency, environmental claims, improvements to dams, generators, powerhouses, as well as compliance work to meet federal licensing and environmental mitigation requirements for hydroelectric dams. Rebuilds or replacements of major power production equipment are sequenced to reduce the impact to power generation and to minimize fluctuations in the annual amount of capital spending.

For 2024, the CIP includes \$109 million in funding for 32 projects in Power Supply. Highlights include:

- Energy Efficiency (MC-CL-WC2250) \$31,341,969
This ongoing project funds energy efficiency programs at City Light.
- Boundary – Licensing Mitigation (MC-CL-XB6987): \$14,482,067
This ongoing project implements protection, mitigation, and enhancement measures required by the terms and conditions of the Boundary Hydroelectric Project license issued by FERC in 2013. The license allows for the continued operation of the project, City Light's largest generating station producing approximately 25% to 40% of the utility's power supply.
- Environmental Claims (MC-CL-WC3133) \$11,309,818
This ongoing project funds all environmental liability clean-up and remediation work on City Light-owned and non-owned properties, whether voluntary or ordered by state or federal environmental regulating agencies.
- Boundary Powerhouse – Unit 52 Generator Rebuild (MC-CL-XB6535): \$10,116,189
This project funds rewinding and refurbishing of the Boundary Powerhouse Unit 52 generator and upgrades its fire-suppression system. Work may also include mechanical upgrades or installations of seal rings, wicket gates, and diagnostic equipment. This programmatic maintenance helps extend the useful life of the generator.
- Skagit Minor Emergent (MC-CL-XS6405): \$7,586,413
This ongoing project provides funding for emergent capital improvement needs for various facilities at the Skagit Project. This project also funds small scheduled capital projects with cost estimates of less than \$25,000.
- Skagit Facilities Plan (MC-CL-XS6520): \$5,108,377

2024-2029 Proposed Capital Improvement Program

This project implements a comprehensive facility plan to optimize buildings and structures at two Skagit town sites. The project preserves essential facilities that support SCL's power production needs, and retains important civic, cultural, and historic features in keeping with the historic preservation requirements of the Skagit FERC Licensing agreement. The project will reduce operational costs by dismantling and removing surplus facilities that require significant on-going maintenance.

- Skagit – Relicensing (MC-CL-XS6986): \$3,590,415
This ongoing project provides support of the relicensing activities for the Skagit River Hydroelectric Project, including support of staff, environmental studies, documentation, and consultation. Relicensing work began in 2019. The current FERC license for the Skagit Project expires in 2025. City Light submitted the final license application to FERC in April 2023, but work continues to refine the details of proposed protection, mitigation, and enhancement measures.
- Gorge Crane Rehabilitation (MC-CL-XS6639): \$3,261,231
This project refurbishes or replaces mechanical and electrical systems for the Gorge powerhouse crane and will provide safety upgrades to comply with current code. The Gorge powerhouse crane has never undergone a major refurbishment. The three Gorge generating units are planned for overhauls within the next 10 years and will require a reliable crane. The crane control system is being modernized to allow for better control and accuracy.
- Skagit License 1995 (MC-CL-WC3125): \$2,500,000
This project funds the License Settlement Agreement for the 1995 Skagit License including activities such as fisheries, wildlife, North Cascades Environmental Learning Center, recreation, Skagit ROW vegetation management, erosion, plant propagation, historic properties, archaeological MOAs, Powerhouse National Pollutant Discharge Elimination Systems (NPDES), aesthetics agreement and visual quality, and salmon studies.
- Boundary Minor Emergent (MC-CL-XB6401): \$2,253,605
This ongoing project provides financial coverage for emergent capital projects, specifically related to Boundary facilities. These projects are, by definition, unforeseeable, unscheduled, unpredictable, and occur on a first-come, first-serve basis.
- Boundary Generation Step-up Transformer Upgrade (MC-CL-XB6493): \$2,208,172
This project replaces six existing step-up transformers at Boundary Dam and funds the purchase of a seventh transformer to keep as a spare in inventory due to long lead times for these specialized parts. This project helps avoid prolonged loss of generation due to forced outage.
- Tolt Relicensing (MC-CL-XC6985): \$2,002,803
The South Fork Tolt Hydroelectric Project (the Project) FERC License expires in July 2029. Without a license the project cannot be legally operated. This project funds the preparation of necessary documentation to be filed with the FERC by June 2027 to either acquire a new operating license for the project or decommission it. The FERC relicensing process will require preparing and filing a Notice of Intent (NOI), Preliminary Application Document (PAD), and Preliminary and Final License applications. The PAD, which is due in 2024, will be a substantial document requiring consultant assistance and additional City Light staff resources. Work began in 2021 to prepare the PAD and start the relicensing process. The main study phase of relicensing will occur in 2025 and 2026, which will require consultant and agency support for studies, reporting, and preparation of the final license application due in 2027. If City Light were to decide to cease operating the project instead of relicensing it, a Decommissioning Application would need to be filed, which requires many of the same elements and funding to complete this work.

Transmission

Projects in this program fund refurbishment and expansion of utility-owned high-voltage transmission infrastructure that transports electricity from generation facilities to City Light’s service territory, as well as within the service territory.

For 2024, the CIP budget includes \$15 million for six projects in Transmission. Highlights include:

- Transmission Line Inductors (MC-CL-YT8461): \$8,164,159
This project addresses the issue of increased electric transmission congestion load growth in the Puget Sound area. The project funds the installation of inductors or phase shifting transformers, which curtail the flow of power through the Seattle area, while improving customer and asset strengths and maintaining reliability.
- Transmission Tower Refurbishment (MC-CL-YT7130): \$3,795,104
This ongoing project funds programmatic painting and refurbishment of approximately 1,700 steel transmission tower structures. Metal transmission towers have a long life if properly maintained, while replacements are disruptive and can cost more than \$2 million per tower.
- Transmission Reliability (MC-CL-YT7104): \$2,250,226
This ongoing project funds replacement and improvement of transmission structures and conductors. This work may include engineering, construction, and related work, as well as minor improvements to overhead or underground transmission system assets to improve reliability.

CIP Revenue Sources

Approximately 60% of the CIP is funded through the sale of revenue bonds, based on financial policies set forth in Resolution 31187. The remaining 40% is funded by revenues from retail electric rates, wholesale sales, direct customer billings for service connections and other customer requested work, and assorted fees. Federal and state grant funding are also anticipated funding sources in this six-year timeframe; these funds will be added to the CIP as the grants are approved.

Summary of Upcoming Budget Issues and Challenges

Budget Issues

City Light’s strategic plan commitment to hold rate increases to levels resembling inflation limits CIP spending to the amounts previously identified in the adopted six-year plan. This means that change requests with new funding needs must be offset with reductions elsewhere in the CIP.

The Undergrounding Program does not include the funding needed to make substantial progress on this body of work. Supply chain and staffing constraints have exacerbated the long lead times needed to design and replace underground cabling. Therefore, funding is being shifted to offset other critical capital funding needs until a more focused effort can resume on undergrounding. For instance, City Light is working on policies and funding approaches to re-evaluate the program going forward and anticipates significant customer outreach once policy and funding options have been presented to the Mayor’s Office and City Council. Ultimately, resources will need to be assigned to increase replacement of failing underground cables. There may be future rate impacts associated with adequately funding the undergrounding work in the future.

The six-year CIP does not currently include all costs associated with relicensing of the Skagit Hydroelectric Project. Costs are expected to be significant and at this time there is not sufficient

information to project these costs and include them in the spending plan. Implementation of a new FERC license will likely have future rate impacts.

Challenges

There are several challenges that will transform our business over the next decade:

- *New technologies are transforming how people use electricity.* Commercialization of energy technologies poses a potential risk to City Light. New options and products for controlling consumption, generating, and storing electricity will impact how customers interact with their local utility. Utilities must continue to evolve and to develop their products and services to best serve shifting customer needs and expectations.
- *Declining retail energy consumption and electrification.* Advances in energy efficiency have reduced consumer energy demand, particularly for those with access to modern energy efficient technology and dwellings. Due in part to energy efficient building codes and new technologies, today's multifamily units consume approximately half as much energy as older single-family homes. At the same time, electrification of buildings and transportation promises to increase demand for electricity, reinforcing the critical need for grid investments that will be required to effectively serve this new demand. This changing landscape calls for managing impacts to rates while also understanding and compensating for inequities in access to green, cost-saving technologies.
- *Impact of retirements and legacy practices.* As more employees become eligible for retirement and workflows are not documented or digitized, City Light risks the loss of institutional memory, costly service interruptions, and a potential impact to service delivery. Capital technology investments need to encompass broader project scopes that include more process standardizations and automations, as well as robust organizational change management activities to facilitate the workforce's adoption of new processes and tools.
- *Climate change continues, and clean energy is more valuable than ever.* Weather pattern changes affect reservoir levels and seasonal energy consumption, leading to increasing volatility of energy supply and demand. Since 1910, City Light has provided its customers with reliable, affordable, and environmentally responsive clean energy. As the utility continues this tradition and plans for the future, it must account for growing power supply demands from its customers, while prioritizing emission reductions and ensuring an equitable clean energy transition for all customers served.

Future Projects/What is on the Horizon

- Demand for transportation and building electrification continues to grow and will support multiple policy commitments as well as Mayoral and City Council priorities. The need to support large scale commercial electrification includes maritime applications including WSDOT ferries, the Port of Seattle, various types of commercial ships, trucking, and multiple large-scale district energy electrification projects as well as building code and Building Energy Performance Standards, which will drive significant building electrification load increases.
- Support of the Sound Transit Light Rail expansion will require significant investment to relocate and reroute City Light infrastructure to accommodate.
- City Light is also working to support King County in meeting reliability standards for its West Point Treatment Plant and this may require a significant future investment.
- The transition to the new 5G network is driving a large number of requests for attachment space on poles. The impact of 5G deployment will touch nearly every pole in City Light's distribution system and will provide a growing stream of rental revenue.

Advanced Metering Infrastructure

Project No:	MC-CL-ZS8426	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2015 - 2023	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$102,219	Urban Village:	Not in an Urban Village

The first phase of this project replaced approximately 400,000 meters with Smart Meters. The second phase of this project funds the replacement of approximately 25,000 remaining meters with Smart Meters allowing two-way communication between Seattle City Light and its customers, residential or commercial. Smart Meters continuously record and transmit consumption data to the utility. They also automate meter reading, increase customer service, heighten billing capacity, reduce energy consumption, improve outage restoration efficiency, and support rate structure flexibility. Implementation of the project positions the utility to comply with North American Electric Reliability Corporation (NERC) and Federal Energy Regulatory Commission (FERC) programs and requirements.

Boundary - Level 6 Deck Stabilization

Project No:	MC-CL-XB6604	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Boundary Rd, Metaline, WA 99153
Current Project Stage:	Stage 6 - Closeout	Council District:	Outside City of Seattle
Start/End Date:	2017 - 2023	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$2,980	Urban Village:	Not in an Urban Village

This project installs a new system of rock bolts and other forms of rock anchors to improve the structural stability of the Level 6 Deck on Boundary Dam. This portion of the dam is attached to and supported by the adjacent rock. Inspections revealed a weakness in the current attachments and use of the deck by heavy equipment is restricted until these improvements are made. This project also includes stabilization of rock blocks in the powerhouse machine hall.

Boundary - Licensing Mitigation

Project No:	MC-CL-XB6987	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	New Investment	Location:	10382 Boundary Rd, Metaline, WA 99153
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project implements Protection, Mitigation and Enhancement measures (PME) required by the terms and conditions of a settlement agreement and new license to be issued by the Federal Energy Regulatory Commission (FERC). The license allows for the continued operation of the Boundary Hydroelectric Project, Seattle City Light's largest generating station producing approximately 25 to 40% of the City's power supply.

Boundary Control Room Alarm System Replacement

Project No:	MC-CL-XB6637	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Boundary Rd, Metaline, WA 99153
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Outside City of Seattle
Start/End Date:	2019 - 2028	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$1,056	Urban Village:	Not in an Urban Village

This project replaces the system of alarms and annunciator panels in the Boundary Control room with a modern system that integrates with the current automation system. Alarms will be routed to PH Operator terminals where information will be displayed as to the nature of the alarm. Due to the large number of circuits that will need to be replaced, this project will be implemented in phases over several years.

Boundary Facilities Master Plan

Project No:	MC-CL-XB6642	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	System Wide
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project installs a new system of rock bolts and other forms of rock anchors to improve the structural stability of the Level 6 Deck on Boundary Dam. This portion of the dam is attached to and supported by the adjacent rock. An inspection revealed a weakness in the current attachments and use of the deck by heavy equipment is restricted until these improvements are made.

Start/End Date:	2017 - 2025	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$44,255	Urban Village:	Not in an Urban Village

This project provides the rewinding and refurbishing of the Unit 51 generator to extend its useful life, which is part of a programmatic series of projects to maintain the Utility's aging generators. It also replaces the carbon dioxide fire-suppression system with a water sprinkler system to enhance worker safety. If technology is sufficiently advanced, it may also include a rotor-mounted scanner or other diagnostic equipment.

Boundary Station Service Transformer Replacement

Project No:	MC-CL-XB6627	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Boundary Rd, Metaline, WA 99153
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Outside City of Seattle
Start/End Date:	2019 - 2028	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$13,345	Urban Village:	Not in an Urban Village

This project replaces two aging station service transformers at Boundary. It is assumed that they will be specified and procured together but installed in two sequential years. Station service transformers provide power to the powerhouse, dam and service area. It is likely that the rating of the transformers will need to be increased to accommodate load increases associated with the addition of new circuits in the powerhouse for automation, controls and machine monitoring.

Boundary Sump Pump Drive Replacement

Project No:	MC-CL-XB6633	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Boundary Rd, Metaline, WA 99153
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2019 - 2024	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$537	Urban Village:	Not in an Urban Village

This project replaces and modernizes drive systems for sump pump at Boundary powerhouse. Portions of Boundary powerhouse are below the level of the tailrace and there is a reliance on a series of sump pumps to keep the powerhouse dry. Projects to replace the sump pumps are completed, and now the drive systems for each pump need to be replaced and modernized.

Cedar Falls Powerhouse - Unit 5/6 Generator Protective Relay

Project No:	MC-CL-XC6450	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	19901 Cedar Falls Rd SE, North Bend, WA 98045
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2007 - 2024	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$3,840	Urban Village:	Not in an Urban Village

This project upgrades the present generator protection for Units 5 and 6, which lacks some basic protection elements to protect it from abnormal frequency and voltages. Upgrading and reconfiguring the protective relays is critical to preparing the new Cedar Falls substation for operation. This project replaces existing protective relays, upgrades the generator protection packages, and replaces the electrical and mechanical lockout relays. The project permits City Light to comply with the North American Electric Reliability Council (NERC) and the Western Electricity Coordinating Council (WECC) regional requirements for maintaining the generator in-service during system disturbances.

Center City Connector Streetcar City Light

Project No:	MC-CL-ZT8470	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	Rehabilitation or Restoration	Location:	City Wide
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2015 - 2024	Neighborhood District:	Multiple
Total Project Cost:	\$854	Urban Village:	Multiple

This project provides power relocations & service for the proposed SDOT Center City Connector Streetcar project. City Light has buried primary distribution power cables, some of which are encased in old clay tile ducts, which do not meet current standards, and are unlikely to be able to withstand the forces generated by the streetcar's operation. Any streetcar alignment to be built across such old facilities would likely need a reinforced roadbed for SCL facilities to withstand the additional weight.

CenTrio Electrification

Project No:	MC-CL-ZS8510	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	New Investment	Location:	System Wide
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 2
Start/End Date:	2022 - 2023	Neighborhood District:	Downtown
Total Project Cost:		Urban Village:	Downtown

This project funds the plan, design, procurement, construction, and commission of large City Light capital investment projects to deliver infrastructure required to meet electrification of CenTrio, a franchise utility that delivers steam for heating of multiple downtown buildings in Seattle.

O&M Impacts:

Communications Improvements

Project No:	MC-CL-YD9009	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides funding for unforeseen emergent and critical work on City Light's communications systems to replace communications components due to failure, changing regulatory and security requirements, and requests from customers or other agencies. This project enhances flexibility to address emergent communication systems problems.

Dallas Ave. 26 kV Crossing

Project No:	MC-CL-YR8322	BSL Code:	BC-CL-Y
Project Type:	Discrete	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	Dallas Ave S
Current Project Stage:	Stage 3 - Design	Council District:	Council District 2
Start/End Date:	2005 - 2027	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$16,753	Urban Village:	South Park

This project reinstalls two 26kV feeders across the Duwamish River. This crossing backs up the Cambridge Corridor Crossing, providing redundant power supply to the area along East Marginal Way South. The area has many large industrial accounts.

Dam Safety Part 12 Improvements

Project No:	MC-CL-XB6626	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Improved Facility	Location:	System Wide
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides the support analysis and data required to meet FERC regulations. City Light must demonstrate that the dams are monitored and engineering improvements are based on current climate conditions, most current engineering standards, and the appropriate devices, instrumentation, and tools. Activities may include Skagit bulkhead, Boundary new instrumentation, Diablo & Gorge GPS System, Boundary instrumentation, Boundary Part 12 Implementation and Skagit Part 12 Implementation.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project installs fiber cable and equipment to all City Light dams, substations and service centers to create a secure, reliable, fast and redundant digital communications system for operations command and control. The fiber infrastructure provides a secure path for power distribution system control and dispatch, Energy Management System data, and other City Light communications. This project also supports Substation Automation, Distribution Automation, Distributed Generation, and automated meter reading projects.

Distribution Automation

Project No:	MC-CL-YR8425	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project automates radial distribution feeders, which includes installation of equipment to provide remote control of operations of switches on power lines and gather real time data on conditions in distribution power lines. The installation of strategically placed switches provides the ability to automatically perform outage restoration, shift blocks of load to maximize efficiencies of feeders, and reconfigure the feeder grid. Typical operation involves remotely detecting that a feeder fault has occurred, locating the damaged portion of the feeder between two remote controlled line switches, isolating the damaged portion of the feeder by opening appropriate remote controlled line switches, and re-energizing undamaged portions of the feeder via the primary feeder source and one or more backup sources using automatically controlled tie switches.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project plans, builds, deploys, and provides ongoing management of an enterprise document management system that effectively and efficiently captures, secures, shares, and distributes digital and paper-based documents and reports. The project streamlines collaboration, automates routine tasks, and lowers costs related to creation, management, and storage of business documents. The project provides the governance and audit capabilities needed to minimize the risks and costs associated with regulatory and legal compliance.

Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds the implementation of City Light's public electric vehicle charging pilot project. This project will deploy 26 public EV fast chargers within the service area, at both City-owned property and private sites. City Light owns and installs the charging infrastructure. This program allows customers access to carbon-neutral electricity that customers are demanding, better utilize current utility assets, and contribute to the Clean, Renewable-Powered City initiative and the aggressive goals of the Drive Clean Seattle Initiative.

Endangered Species Act Mitigation

Project No:	MC-CL-XP6990	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Outside City of Seattle
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project funds work that protects and restores fisheries habitat in the Skagit and Tolt river basins. It implements the Endangered Species Act (ESA) Program for recovery of listed fish species that are potentially affected by City Light projects. The project includes land purchase, restoration, assessment, and management. The project reduces the likelihood of third party lawsuits under ESA and the reopening of claims by Federal agencies, e.g. the U.S. Fish and Wildlife Service, seeking additional measures to protect and restore the listed species.

Energy Management System Upgrade

Project No:	MC-CL-YD9979	BSL Code:	BC-CL-Y
Project Type:	Discrete	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System Wide
Current Project Stage:	Stage 5 - Execution (IT Only)	Council District:	Citywide
Start/End Date:	2020 - 2023	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$1,789	Urban Village:	Not in an Urban Village

This project funds the upgrade to maintain the City Light vendor supported Energy Management System (EMS) for Supervisory Control and Data Acquisition (SCADA) for power system operation that is current with industry technology, cyber security and regulatory compliant for highly available and reliable system operation. The EMS Replacement Project was deployed in 2016 with a planned investment objective to maintain current vendor support with software and hardware.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project funds both planned and emergent needs for facility modifications, real estate development & maintenance, equipment replacements, upgrades to office spaces and workspaces, life/safety modifications and components, addressing environmental and remediation concerns, and reducing energy consumption. A major component shall include infrastructure maintenance and construction of a building which involves several activities, which may vary depending on the project's scope, but typically includes developing a building design inclusive of architectural, structural, electrical, plumbing, and mechanical systems. The project shall also support the design process necessary to plan capital works, such as architect and other consultants to develop plans and specifications that meet the project's functional and aesthetic requirements.

Gorge Crane Rehabilitation

Project No:	MC-CL-XS6639	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 121 State Highway 20
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Outside City of Seattle
Start/End Date:	2021 - 2027	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$17,171	Urban Village:	Not in an Urban Village

This project refurbishes or replaces mechanical and electrical systems for the Gorge powerhouse cranes and will provide safety upgrades to comply with current code. The Gorge powerhouse crane has never undergone a major refurbishment. The three Gorge generating units are planned for overhauls within the next ten years, and will require a reliable crane. The crane control system is being modernized to allow for better control and accuracy.

Gorge U21-24 overhauls

Project No:	MC-CL-XS6640	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 121 State Highway 20
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Outside City of Seattle
Start/End Date:	2023 - 2030	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$37,789	Urban Village:	Not in an Urban Village

This project overhauls Gorge units 21 - 24. The final scope of work will be determined during project chartering, but is expected to include replacing the stator winding, stator core, and excitation system. Refurbishment is expected for rotor components and other mechanical components. Planning is currently forecast to start in 2022 which would mean construction on the first unit would likely begin in 2025.

Hydro Project Spill Containment

Project No:	MC-CL-XP6530	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Outside City of Seattle
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Outside City of Seattle

This ongoing project funds upgrades to generating plants that will either prevent oil spills through process improvements and equipment replacement, or provide additional containment capacity for accidental spills. These upgrades will include replacing oil filled transformers with dry-type transformers, building larger containment basins around oil filled equipment, reconfiguring powerhouse sumps, installing oil/water separators, and replacing greased valve bushings with greaseless bushings.

Interbay Substation - Development

Project No:	MC-CL-YS7756	BSL Code:	BC-CL-Y
Project Type:	Discrete	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	17th Ave West
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:	2022 - 2028	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$589	Urban Village:	Ballard-Interbay Northend

This project plans, designs, and constructs a 26 kV substation in the Interbay area. This project installs 2-100 MVA transformers into a facility large enough to accommodate a third transformer at the site if required in the future. The project adds to the distribution network and provides a new path for power to the area. It provides assurance to the developers who are interested in projects in the South Lake Union district that City Light will be able to serve their needs reliably.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project funds replacement and improvement of the Utility's information technology infrastructure. This infrastructure provides applications, data storage, and print services to the utility, and supports activities and applications including Microsoft Outlook, remote connectivity, electronic communications and recording of power marketing transactions (E-tagging), the City InWeb and network, common and City Light applications, UNIX services, and infrastructure change management. Components purchased by this project include servers, network and communications equipment, disk storage, and application and operating system software. Infrastructure is upgraded or replaced based upon a combination of factors, such as maintenance schedules, equipment warranties, availability of vendor support, Gartner recommendations, application growth, and security demands.

The ongoing project updates or replaces information security systems that are at high risk of failure. The project enhances vulnerability and intrusion detection as well as response capabilities and procedures. The project provides (by way of illustration but not limitation) for implementation of systems to replace or upgrade firewalls, routers, switches, operating systems, intrusion detection capabilities, security information and event management, Linux patching procedures, Dynamic Host Configuration Protocol server, Domain Name System server, internal vulnerability scanning, and physical security cameras and networks for City Light locations.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides large size electric power service connections from City Light's distribution system to the customer's meter for power requirements of greater than 3 MVA and 26 kV radial services. The project allows City Light to provide service to new customers in a safe, reliable, timely and cost effective manner as a means to fulfill its commitment to be a customer and community-focused organization. The cost of some of this work is generally reimbursed by the requesting customer.

Current Project Stage:	N/A	Council District:	Council District 7, Council District 1
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

The ongoing program will plan, design, procure, construct, and commission large City Light capital investment projects to deliver infrastructure required to meet electrification, environmental justice, and/or sustainability goals and mandates and customer demand associated with Maritime Transportation (MARTEP). MARTEP Projects stem from public and private maritime transportation efforts to transition from emission-based energy sources to City Light electrical service and that requires City Light to design and construct new infrastructure.

Massachusetts Street Substation - Networks

Project No:	MC-CL-YN8202	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	1555 Utah Ave S
Current Project Stage:	N/A	Council District:	Council District 2
Start/End Date:	N/A	Neighborhood District:	Greater Duwamish
Total Project Cost:	N/A	Urban Village:	Greater Duwamish

The ongoing project increases Massachusetts Street Substation network capacity. It funds a programmatic approach for comprehensive management of underground network assets serving customers in Pioneer Square and the area bounded by University Street, Third Avenue, Terrace Street, and the Freeway. The project funds completion of engineering design and analysis and construction work required to improve and enhance the network system supporting existing and neat future network customers in the areas. This project defers the need date for a new network substation until no further capacity is available from Union Street and the other network substations. It provides sufficient and reliable electrical capacity for the growing power needs of City Light customers.

Network Hazeltine Upgrade

Project No:	MC-CL-YN8129	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project upgrades City Light's remote vault monitoring capability for the Digital Grid system (formerly Hazeltine system). The project consists of substation receivers, workstations, applications, server pairs and alarm PCs. The project provides remote monitoring of network transformers, protectors, vaults, and supports daily utility operations. The project enhances the network monitoring capability by allowing a real time alarm and an event generated from the field to be processed and sent to the alarm PCs of an abnormal electrical component or environmental condition occurrence. The most crucial alarm PC is situated in the System Control Center where it is monitored by with Power Dispatchers 24/7.

Network Maintenance Hole and Vault Rebuild

Project No:	MC-CL-YN8130	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project repairs or replaces damaged electrical manholes, vaults and ducts located in the street right of way within the Downtown Central and Pioneer Square business districts. The project provides reliable and safe electrical service to the network, and enhances safety for City Light crews and the public by reducing the large backlog of old or damaged electrical facilities.

Start/End Date:	2015 - 2023	Neighborhood District:	Downtown
Total Project Cost:	\$69,024	Urban Village:	Downtown

This project provides upgrades to the Customer Information System known as the Utility Self Service Portal that serves customers of both Seattle Public Utilities and City Light. This project empowers the customer to utilize real-time, self-serve options that improves engagement between the utilities and customers, enhances web presence, and enables both customer-facing and internal process efficiencies.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides electrical lines from substations to customers' property lines. This project builds new and replaces old line segments, relocates lines for construction clearances and may replace rotten and damaged poles in the distribution system. This work is driven by specific customer projects, for their direct benefit, to identify and upgrade feeders that are affected before the new load from those projects comes online. City Light is reimbursed by the customers for this work.
