Budget Action description:

This green sheet recommends passage of Council Bill 119100 authorizing refinancing to lower interest rates of issued Solid Waste Fund revenue bonds.

This bill authorizes the Director of Finance and Administrative Service to enter into agreements for refunding solid waste bonds when interest rate savings can be captured. The bill amends language in the original bond [Ordinance 121940](#) to take advantage of changes in market interest rates. Solid waste rates are set through 2019 and bond refunding is a reasonable and routine practice to realize debt savings and reduce future rate increases.
