

Revise Section 2 (as previously amended) as follows:

Section 2. As part of the written report described in Section 1 of this Resolution, The City Council requests that SDCI and SDOT describe how The City of Seattle and Oak View Group will administer the Arena Access Management Plan for the Seattle Center Arena to achieve the mode-split goals established for the project, and what steps will be taken if the mode-split goals are not met, consistent with the Master Use Permit decision for the project. The report should identify the opportunities for community stakeholders to provide input into the process to administer review and update the Arena Access Management Plan over time.

Add new Section 3 as follows:

Section 3. As part of the written report described in Section 1 of this Resolution, The City Council requests that SDOT identify any gaps in the City's Bicycle Master Plan in the vicinity of the Seattle Center Arena, taking into account SEPA mitigations provided by Oak View Group and planned NODO MAP investments, and identify what additional investments, per the Bicycle Master Plan Implementation Plan, could practicably be made to close any such gaps by the time the Seattle Center Arena begins operations.

Renumber Section 3 as Section 4 and revise as follows:

Section 4~~3~~. The City Council requests that the Executive submit the report described in Section 1, Section 2 and Section 3 ~~and Section 2~~ of this Resolution in writing to all members of Seattle City Council by June 30, 2019. The City Council further requests that during construction of the Seattle Center Arena, the Executive provide ~~a written~~ bi-annual status reports by December 31 and June 30 of each year to ~~all members of the~~ Seattle City Council on any significant changes to the project list, status of the projects, or ~~management of~~ modifications to the Arena Access Management Plan to achieve the mode-split goals established for the project ~~by June 30 of each year until the Seattle Center Arena begins~~ operations.
