Amendment D1: Fremont Neighborhood Plan Policy F-P13

Primary Sponsor: Councilmember O'Brien

Background:

Seattle's Comprehensive Plan includes neighborhood plan goals and policies that help to guide City action in relation to its urban villages. Many of these goals and policies date back to a neighborhood planning process from the late 1990s. Others have been updated through other planning processes.

The Fremont neighborhood plan uniquely includes a policy (F-P13) that seeks to guide development in an adjacent urban village – Wallingford. F-P13 states:

F-P13 In the area where the Wallingford Urban Village end the Fremont Planning Area overlap (the area bounded by Stone Way on the east, N. 45th Street on the north, Aurora Avenue North on the west and N. 40th Street on the south) maintain the character and integrity of the existing single-family zoned areas by maintaining current single-family zoning on properties meeting the locational criteria for single-family zones.

This duplicates the policy guidance provided by Wallingford policy W-P1 which states:

W-P1 Protect the character and integrity of Wallingford single-family areas.

Alongside legislation to amend the land use code and rezone areas to implement the Mandatory Housing Affordability citywide, the City Council is considering a Bill (CB 119443) that would amend the Comprehensive Plan to expand the boundaries of urban villages and to update neighborhood plan goals and policies to reflect a citywide interest in supporting opportunities for affordable housing throughout urban villages. Amendments to the text of neighborhood plan goals and policies would shift the emphasis of the policies to supporting the physical character of lower-density areas, rather than the single-family use of areas in the urban village.

CB 119443 proposes to amend policies F-P13 and W-P1. In the edits to F-P13, reference to the area within the Wallingford urban village is proposed to be deleted, thereby refocusing the policy to areas in Fremont. However, the Fremont urban village does not include any single-family areas, which means that the proposed new policy F-P13 would inaccurately represent the character of the Fremont urban village.

This amendment, instead of amending policy F-P13, deletes it. Policies in the Wallingford Neighborhood Plan that discuss the character of the area between Stone Way and Aurora Avenue North between N 45th Street and N 40th Street, including policy W-P1 (with amendments similar to those proposed for F-P13), would continue to provide guidance regarding the City's intent for the character of this area.
