

Amendment A Version #1 to CB 121190 – 2026 Stormwater Code Update

Sponsor: Councilmember Rivera

Additional performance metrics recital

Effect: This amendment would add one recital to the bill describing current performance tracking and stating Seattle Public Utilities' commitment to exploring additional stormwater performance metrics.

1. Insert a new Recital 13, as follows:

Recital 13. Seattle Public Utilities currently tracks performance for a variety of its activities and issues quarterly progress reports in alignment with its Strategic Business Plan, and it uses the progress reports in determining needed improvements and potential solutions. The department is committed to improving this practice by exploring additional performance metrics to highlight how its stormwater policies and actions support improving water quality and address the negative effects of stormwater runoff.

2. Renumber remaining recitals, as appropriate.
