

**CITY OF SEATTLE**  
**ORDINANCE** 126711  
**COUNCIL BILL** 120436

AN ORDINANCE relating to the Seattle Fire Department’s services and fees; adding and revising various Seattle Fire Department permit, inspection, and plan review fees and related provisions; and amending Sections 22.602.045, 22.602.050, and 22.602.070 of the Seattle Municipal Code.

WHEREAS, the Seattle Fire Code establishes standards intended to preserve lives and protect property, and is also known as Subtitle VI of the Seattle Building and Construction Codes; and

WHEREAS, the Seattle Fire Department provides permitting, inspections, plan review and certification services to support enforcement of Seattle Fire Code safety standards; and

WHEREAS, the City seeks to maintain wishes to maintain or improve cost recovery for the provision of fire prevention services related to specific permitted activities and construction-related inspections and plan reviews; NOW, THEREFORE,

**BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

Section 1. Section 22.602.045 of the Seattle Municipal Code, last amended by Ordinance 126522, is amended as follows:

**22.602.045 Fees**

\* \* \*

B. The fees for the following special event permits are established in Schedule B. See Table B for 22.602.045.

<sup>a</sup> **Late Fee Applied.** Schedule B permit applications for permits 1102-H, 2500 FM, 2511, ~~((3190,))~~ 8020, 8206, 8207-VH, and 8208 that are received by the Seattle Fire Department fewer than ten calendar days prior to the event, not counting the day of the event for which they apply, shall be assessed a late fee in addition to the permit fee. The late fee shall be equal to 50 percent of the original permit fee. Applications received three or fewer business days prior to the event may not be processed and the permit may not be issued. Payment for Schedule B permit renewals, where allowed, which is received more than 30 calendar days but fewer than 91 calendar days past the permit expiration date shall be equal to 1.25 times the renewal fee. The renewal permit will be valid for only one year from the expiration date of the prior permit. Permits for which no renewal payment has been received within 90 calendar days following the permit expiration date will be cancelled. Permits that have been cancelled may be reinstated, effective from the expiration date, if the permit holder pays a late penalty of 1.5 times the fee for an original permit within 180 days of the expiration date. Thereafter, any person whose permit has been cancelled shall not be allowed to reinstate the cancelled permit, but shall be required to submit a new permit application and pay a late penalty of 1.5 times the fee for an original permit. Note: new applications for permits 8206 (all types) and 2500-LPG are not subject to late fees; the renewal process for these annual permits does include late fees and if permits are not renewed timely, late fees related to the renewal will be applied as described above in this footnote a.

<sup>b</sup> **Late Fee Applied.** Applications for temporary, non-renewable Schedule B permits ~~((numbered from))~~ 1102-FE, 2503 to 2505.4, 3201, 3201-CTY, 3201-SFD, ~~((and from))~~ 7801.1 to 7802, and 8207-FE that are received by the Seattle Fire Department fewer than 30 calendar days prior to the event, not counting the day of the event for which they apply, shall be assessed a late fee in addition to the permit fee and any applicable time charge. The late fee shall be equal to 50 percent of the original permit fee. Applications received three or fewer business days prior to the event may not be processed and the permit may not be issued.

**c Fireworks Permits.** An application for a fireworks permit shall be made in writing to the fire code official at least 30 calendar days in advance of the display. At the time the permit application is submitted, the fire code official shall be consulted regarding requirements for standby fire apparatus.

C. The fees for the following special hazards permits are established in Schedule C. See Table C for 22.602.045.

### Special Hazards Permits

Fees for special hazards permits are established in Schedule C (See Table C for 22.602.045). In some cases these fees are based on the quantity of hazardous material stored and/or handled at the site and the relative risk posed by each material.

#### 1. Definitions:

a. “Quantity Range Number,” as established in the Quantity Range Table below, is a number between 1 and 2 that is assigned to a hazard category based upon the amount of hazardous material located at the site.

**QUANTITY RANGE TABLE**

<b>QUANTITY RANGE NUMBER</b>	<b>SOLIDS (Pounds)</b>	<b>LIQUIDS (Gallons)</b>	<b>GASES (Cubic Feet)</b>
1	0—550	0—55	0—1,000
1.25	>550—5,500	>55—550	>1,000—5,000
1.5	>5,500—27,500	>550—2,750	>5,000—50,000
1.75	>27,500—55,000	>2,750—5,500	>50,000—100,000
2	>55,000	>5,500	>100,000

b. “Assigned Risk Factor,” as established below, is a number between 1 and 1.5 assigned to each hazard class and category of hazardous material indicating the relative hazard posed by materials in that hazard category and the potential nature of controls required by the Fire Code.

Hazard Class	Assigned Risk Factor	Hazard Class	Assigned Risk Factor
Aerosol products	1.3	<b>Organic peroxides</b>	
Cellulose nitrate	1.3	Unclassified	1.5
Combustible fiber	1.2	Class I	1.4
<b>Combustible liquids</b>		Class II	1.3
Class II	1.2	Class III	1.2
Class III-A	1.1	Class IV	1.0
Class III-B	1.0		
<b>Compressed gases</b>		<b>Oxidizers</b>	
Highly toxic	1.5	Class 4	1.5
Pyrophoric	1.4	Class 3	1.4
Flammable	1.4	Class 2	1.2
Unstable	1.4	Class 1	1.1
Oxidizing	1.4	Pyrophoric liquids and solids	1.3
Toxic	1.3	Toxic liquids and solids	1.2
Corrosive	1.3	<b>Unstable (reactive) liquids and solids</b>	
Corrosive Liquids and Solids	1.1	Class 4	1.5
Cryogenic Fluids	1.3	Class 3	1.4
Explosives	1.5	Class 2	1.3
Fireworks	1.4	Class 1	1.0
Flammable liquids, Class I	1.4	<b>Water-reactive materials</b>	
Flammable solids	1.3	Class 3	1.5
Highly toxic liquids and solids	1.5	Class 2	1.3
Magnesium	1.3	Class 1	1.0

- 1 c. "Fixed permit cost" is the minimum cost for the Seattle Fire Department to
- 2 issue a hazardous material permit. The fixed permit cost is (~~(\$288)~~) \$311.

1 d. “Base permit fee” is determined by multiplying the sum of the products of the  
2 quantity range number and assigned risk factor for each hazard class by the fixed permit cost and  
3 is represented by the following equation:

$$4 \text{ Base permit fee} = [\Sigma (Q_1)(R_1) + (Q_2)(R_2) \dots] [F]$$

5 Where: Q = The quantity range number.

6 R = The assigned risk factor.

7 F = The fixed permit cost of (~~(\$288)~~) \$311.

8 When an individual material has multiple hazards, only the hazard presented by the  
9 hazard class that has been assigned the highest risk factor shall be considered in the fee  
10 calculation.

11 Example:

12 XYZ Company stores 50 gallons of gasoline and 200 gallons of 50% nitric acid.  
13 Gasoline is classified as a Class I flammable liquid, which has an assigned risk factor of 1.4.  
14 Nitric acid (50%) is classified as both a corrosive liquid and a Class 2 oxidizer. Because 50%  
15 nitric acid presents two separate hazards (corrosive and Class 2 oxidizer) only the Class 2  
16 oxidizer hazard is considered in the fee calculation because it has an assigned risk factor of 1.2  
17 compared to the 1.1 risk factor assigned to corrosives.

$$18 \text{ Base permit fee} = [(1)(1.4)_{\text{flammable}} + (1.25)(1.2)_{\text{Class 2 oxidizer}}] [(\text{~~($288)~~) } \underline{\$311}]$$

$$19 \text{ Base permit fee} = (\text{~~($835.20)~~) } \underline{\$901.09}$$

20 **Special Hazards Permit Fees**  
21 **Effective (~~(March 1, 2022)~~) January 1, 2023**

<sup>1</sup> **Schedule C** fee worksheet-based permits shall be renewed at one-half the permit origination fee or ~~(\$288)~~ \$311, which is the minimum renewal fee, whichever is greater.

<sup>2</sup> This temporary permit is valid for six months and is issued to a facility placed under a long-term compliance plan while the facility works towards full compliance with the Code. The fee is calculated to be half of the annual permit fee of the annual permit that will be issued to the facility once compliance is achieved. This permit cannot be renewed but additional 1070 permits can be issued as needed to cover the entire compliance plan period.

<sup>3</sup> This permit is valid for 24 months and is renewed on a biannual basis.
