Community Experiences & Memberships

Help SPU learn about your experiences, connections, and memberships in community.

10. Describe one topic you would like SPU's Customer Review Panel to address.

In my experience as a professional engineer working on new housing in the City of Seattle, I find that existing policies often work against new housing, housing affordability, improved mobility and accessibility, and other significant public interests, in the name of "protecting rate payers" or as a CYA action. The utility should work more cooperatively with bigger picture sustainability, affordability, equity, and resiliency goals.

11. Seattle Public Utilities actively seeks candidates who represent diverse community perspectives. Please describe your experience with SPU's services and programs and the unique perspectives you might be able to contribute in this role.

As a practicing civil engineer for 27 years and a City of Seattle resident for 31 years I am passionate about ensuring that our city is thriving and enduring. I actually work with SPU staff as an applicant or representative of applicants on a regular basis, and have a deep awareness of the actual application and implementation of SPU codes and policies and how they affect larger city planning, community, and infrastructure goals

12. Describe the connections you have in your community. Include any community advocacy, civic engagement, or organizational affiliations

I am a founding member of Clean Lake Union, a partner at Seattle based KPFF Consulting Engineers (the largest private engineering practice based in Seattle), a public school volunteer, a Rainier Scholars volunteer, a Food Lifeline volunteer, and an active, engaged citizen.

13. Is there anything else you would like us to know?
