Budget Action description:

This green sheet would amend the Seattle Department of Transportation's Market to MOHAI CIP page (TC368060) as shown in Attachment A. The amended CIP page revises the description of the project extent to include Western Ave, Bell St, and Westlake Ave N. There are no funding changes included in this green sheet.

The proposed CIP page narrative describes the project extent as Thomas St., 9th Ave, and Bell St. This description was based on a 2016 Neighborhood Street Fund grant application that would have funded elements of the project. Since that time, project proponents have clarified that the desired pedestrian connection between Pike Place Market and the Museum of History and Industry is along Western Ave, Bell St, and Westlake Ave N.
