Budget Action description:

This green sheet would add \$500,000 GSF one-time to the Human Services Department (HSD) for community health facilities.

The Mayor's 2016 Proposed Budget includes \$1.5 million for investments in community health facilities. Similar to how HSD allocates other funding, HSD will develop criteria and a competitive process to allocate this funding. This will allow all the community health facility operators the opportunity to know about this funding and to compete for it.

This green sheet will add one-time \$500,000 bringing the total to \$2 million that would be available for HSD to distribute through a competitive process.

Increased demand for services is being placed on community health facilities due in part to increased Medicaid coverage provided by the Affordable Care Act. Improvements and expansions of facilities are being considered by several organizations in order to provide these services. The City also funds \$7 million a year in primary medical and dental services provided by community health facilities.
