

EXHIBIT G

HCP REQUIREMENTS

1. The Lessee shall immediately notify the State of new locations of Permit species covered in the Incidental Take Permit (ITP) that are discovered within the leased Premises covered by the Habitat Conservation Plan (HCP), including, but not limited to: locations of occupied murrelet habitat; spotted owl nest sites; wolves; grizzly bears; nests, communal roosts, or feeding concentrations of bald eagles; peregrine falcon nests; Columbian white-tailed deer; Aleutian Canada geese; and Oregon silverspot butterflies. In all circumstances notification must occur within a 24 hour time period.
2. Upon locating any live, dead, injured, or sick specimens of any listed species covered by the ITP within the leased Premises the Lessee shall immediately notify the State. In all circumstances notification must occur within a 24 hour time period. Lessee may be required to take certain actions to help the State safeguard the wellbeing of any live, injured or sick specimens of any listed species discovered, until the proper disposition of such specimens can be determined by the State.
3. Lessee shall refer to ITP number PRT-812521 (a copy of the ITP is located for reference in the region office) in all correspondence and reports concerning Permit activities.
4. All applicable provisions of the ITP and this schedule must be presented and clearly explained by Lessee to all authorized officers, employees, contractors, or agents of Lessee conducting authorized activities on the Property. Any questions Lessee may have about the ITP should be directed to the State.

Optional

5. *Specify any requirements needed, due to the presence of known species of concern.*

None known at this time.
