

Amendment C Version 1 to CB 120645 - MO Public Safety and Health Response to the Opioid
Crisis ORD

Sponsor: Councilmember Nelson

Striking prioritization of officers with CIT training

Effect: This amendment would strike a provision asking that SPD prioritize the use of officers with 40 or more hours of crisis intervention team (CIT) training. This removal of this provision would allow any officer regardless of their CIT training to respond to these crimes.

Amend Section 3 of CB 120645 as follows;

**3.28.141 Policies governing arrests for knowing possession of a controlled substance and
use of a controlled substance in a public place**

* * *

~~((M. Based on officer availability, location, and deployment limitations, SPD shall seek to prioritize use of officers who have received at least 40 hours of crisis intervention team (CIT) training when enforcing the crimes described in subsection 3.28.141.A.))~~
