Matt Trueblood

Construction professional with 8+ years of experience managing large scale, ground up commercial projects. A track record of using technical expertise, analytical thinking, and excellent communication skills to identify issues keep projects moving forward during critical phases of construction. Strong negotiation skills, experienced in construction best practices, organized, and detail oriented.

Experience

Senior Manager - Field Operations/Sustainable Living Innovations, Seattle, WA December 2022 - Current

- Responsible for the deployment of SLI's panelized building system for two large-scale projects, 303 Battery (15-story, 112 units) and DESC (5-story 124 units), in Seattle.
- Created and implemented QAQC plans for SLI's system new building technology.
- Managed schedule and cost for the construction phase of each project, including a solar array of over 600 panels installed on the building's façade.

Constructability Manager/Sustainable Living Innovations, Seattle, WA - August 2021 – December 2022

- Responsible for reviewing fabrication documents to catch errors upstream of field erection of panelized system.
- Worked across departments to identify and solve design and fabrication issues with SLI's panelized building technology. This included directly managing the construction teams responsible for implementation of SLI's product, which totaled \$120 Million of project costs across two jobsites.

Assistant Superintendent/Sellen Construction, Seattle, WA - January 2019 – July 2021

- Responsible for the site development, utilities, and infrastructure for a 25-story commercial office building in downtown Bellevue, WA.
- Led the planning and execution from start to finish of a \$250 Million, 17-story commercial office building in downtown Seattle. Created and managed schedule and the subcontractors that were accountable for delivering their work on time.
- Created safety programs that were 100% digital during COVID-19 to keep the jobsite functioning as it needed to in a pen and paper free environment.
- Maintained quality control of materials received and work installed for all phases of construction.

Senior Project Engineer/Sellen Construction, Seattle, WA - January 2015 – December 2018

- Coordinated between design and field teams across all scopes on three high rise commercial projects in Seattle. These projects totaled \$380 Million in project costs.
- Responsible for writing RFIs, reviewing submittals, cost management, writing subcontracts, change order management during construction.

Skills
