## Qualifications/Background

I am honored to apply to become a member of the Advisory Council on Aging and Disability Services representing the City of Seattle.

I have been very fortunate to have worked for more than 30 years in industries that have afforded me an opportunity to help others in need.

As a Registered Nurse, I have worked both in traditional roles while in the hospital setting as well as nontraditional roles in the research and pharmaceutical industries. Focus areas for me have included; neurology and rehabilitation, cardiology, pulmonology, HIV/AIDS and oncology. My role in the pharmaceutical industry was product safety and included drugs, biologics, vaccines and devices. Advocacy and respect for the patient/subject as a person, and not just a diagnosis, was the common thread for the work that I participated in as a member of the healthcare team.

As a landlord, I have had many experiences working with agencies to provide safe, affordable housing to people in need. One of the most memorable experiences I've had in the housing sector was a time when my husband and I worked hand-in-hand with Seattle Section 8, Plymouth Housing and Seattle Mental Health for a number of years to provide housing for recently discharged patients from a local Seattle Mental Health inpatient facility. The power of that team to accomplish goals for the benefit of others was amazing.

As a Realtor, I am interested in helping families navigate as housing needs change for elders. The idea of aging in place is a good one, not only for the elders but also for the other generations that may also live in a single residence. I hope that I am able to contribute ideas and information from the Senior Real Estate Specialist Council that are helpful to the work that this Advisory Council is doing.

Thank you again for considering me as an addition to this Advisory Council.
