## Budget Action description:

This green sheet would amend the proposed bill to change the names of the proposed new office and department. The proposed bill reorganizes the Department of Planning and Development (DPD) into (1) a proposed new Office of Planning and Community Development (OPCD) and (2) a new Seattle Department of Construction and Inspections (SDCI).

The purpose of the amendment is to make the names of the proposed new office and department more transparent to the public and less likely to be turned into an acronym.

The following names are recommended:

- Shorten the proposed name of OPCD to the <u>Office of Planning</u>
- Change the proposed name of SDCI to the <u>Building and Inspections Department</u>

## Alternative options:

Tab	Action	Option	Version
29	1	А	1

- OPCD: Office of Community Development\*, Office of Community Planning
- SDCI: Building Department, Development Department, Construction Department, Construction and Inspections Department\*, Development and Inspections Department\*

Note: Because changing the name requires changes throughout the 287 page bill, these changes are not shown in line-in, line-out. If the Council would like to change the names, Central Staff will make the changes to a new bill, with an updated title, and prepare it for introduction.

\* The Executive would prefer to see the names left unchanged; if they are changed, the options with the \* are the preferred alternatives suggested by executive staff.
