Budget Action description:

This green sheet would amend C.B. 118533 as described below and then pass C.B. 118533 as amended. C.B. 118533 would increase the allocation of Admission Tax revenues to the Arts Account beginning in 2016 and establish a goal of further increasing the Arts Account funding after 2016.

Increased 2016 Arts Account Funding:

Admission Tax revenues are a flexible revenue source that may be used for any municipal purpose. However, the City has adopted policies by ordinance requiring that no less than 75 percent of Admission Tax revenues must be used to invest in Seattle's arts and cultural community through the City's Arts Account; and the balance (25 percent) must be placed in the General Subfund (GSF).

This bill would increase the Arts Account's share of Admissions Tax revenues to 80 percent in 2016 (adding \$406,000 more in 2016 to the Arts Account than a 75 percent allocation) and decrease the GSF's share to 20 percent (reducing the GSF's funding in 2016 by \$406,000).

This green sheet would make no amendment to these provisions.

Goal for Future Arts Account Funding:

In summary, the amendments would indicate that the City intends through future action to increase the Arts Account allocation to 90 percent in 2017 and to 100 percent in 2018.

The proposed legislation "establishes the goal of dedicating 100 percent of the Admission Tax revenue to the Office of Arts and Culture, if the City's financial condition remains strong and revenue growth is sufficient to offset the resulting loss of General Fund resources." The proposed legislation would achieve this goal through "a phased approach that increases the share of Admissions Tax revenues dedicated to Arts in graduated steps so as to minimize the General Fund impact in any given year." This would allow for future step increases through future legislation after considering the overall impact on the General Fund.

This green sheet would maintain the goal of future increases in the allocation of Admission Tax revenues to the Arts Account, but the goal would be amended to add specificity. Attachment 1 to this budget action shows the amendments to be made.
