

**2015 Fourth Quarter Supplemental Ordinance Summary Detail Table**

| Item                                       | Title/Description  | Amount/FTE |
|--|--|------------|
| <b>Section 1 – Appropriation Increases</b> |  |            |
| 1.1  | Distribution from the McCaw Hall Reserve Fund Cash Balance (Seattle Center, Seattle Center Fund (11410))   | \$325,000  |
|  | <p>This item increases appropriation authority by \$325,000 in the McCaw Hall BCL. This authority is appropriated from the McCaw Hall cash reserve "Rainy Day Fund." The McCaw Hall Operating Board, consisting Seattle Center, Seattle Opera and Pacific Northwest Ballet, annually determine the required balance of reserve fund and disperse extra funding in accordance with the McCaw Hall Operating Agreement approved by Ordinance 121206. In August 2015, the board determined that there were sufficient funds to disperse \$450,000 from this reserve. Of this amount, \$325,000 will be appropriated to Seattle Center to cover 2015 expenses including \$200,000 to replace and upgrade various equipment at McCaw Hall and \$125,000 to be given to the Ballet and Opera directly per the operating agreement. The remaining \$125,000 will be reduced from the McCaw Hall planning reserve thereby increasing the unreserved fund balance of the Seattle Center Fund in 2015.</p> |            |
| 1.2  | Increased Appropriation for Accounting Expenditures Related to Parking Audit (Seattle Center, Seattle Center Fund (11410))   | \$82,000   |
|  | <p>This item increases appropriation authority by \$82,000 in the Administration BCL. This authority is needed due to expenses incurred in 2015 to bring Seattle Center into compliance with audit findings related to parking operations and address requirements for PCI compliance. The audit of parking operations recommended operational changes in how Seattle Center handled cash and reconciled automated transaction information which required more staff hours than anticipated. Seattle Center is unable to absorb these expenditures within its current appropriation but anticipates that strong revenue in other operational areas is available to cover this additional need.</p>   |            |
| 1.3  | Increased Appropriation for Campus Grounds Event Management (Seattle Center, Seattle Center Fund (11410))  | \$300,000  |
|  | <p>This item increases appropriation authority by \$300,000 in the Commercial Events BCL. This authority funds expenses related to new or expanded events on the campus. These events (such as DOTA) have added unanticipated workload to the Event Servicing and Laborer staff and resulted in \$160,000 of additional expense related to Event Service Representatives who manage the event activity on the grounds as well as \$140,000 in additional expense for our Laborer unit who set up as well as clean during and after events. This appropriation increase is funded by campus rent and reimbursable labor revenue generated by Campus activities that was unanticipated in the 2015 Adopted Budget.</p>   |            |
| 1.4  | Increased Appropriation for KeyArena Events Expenditures (Seattle Center, Seattle Center Fund (11410))   | \$100,000  |

| Item | Title/Description  | Amount/FTE |
|------|--|------------|
|      | <p>This item increases appropriation authority by \$100,000 in the KeyArena BCL. This authority funds unbudgeted event expenses at KeyArena that arose during 2015 and could not have reasonably been budgeted during the 2015 budget process. In 2015, Seattle Police Department increased the rate charged to Seattle Center for officers used to ensure guest safety at events. In addition, expenses related to third party security services rose in 2015. Third party security personnel provide services such as bag inspection at the entrances to the facility and stage and backstage access monitoring. In addition, Seattle Center has increased expenditures related to KeyArena event advertising. When out-of-town promoters book events at KeyArena, Seattle Center often acts as a liaison between the promoter and local media by placing advertisements which are later reimbursed by the client. These increased KeyArena expenses are either directly reimbursed by clients via their event contract or covered by other increased revenue at KeyArena.</p> |            |
| 1.5  | <p>New Appropriation for Expenses Related to the Seattle King County Health Clinic (Seattle Center, Seattle Center Fund (11410))</p>   | \$80,000   |
|      | <p>This item increases appropriation authority by \$80,000 in the Community Programs BCL. A change in the production model for the 2015 King County Health Clinic has increased expenditures for Seattle Center. In 2014, Seattle Center hosted the King County Clinic at KeyArena and Remote Area Medical (RAM) directly funded expenditures related to the event. This event, funded by contributing partners and RAM, provided over \$2,300,000 in medical services to 3,400 patients. In 2015, Remote Area Medical will no longer serve as the production entity for the event. As such, Seattle Center, serving as the pass through for agencies that are contributing to the event, will directly fund expenditures related to the event.</p>  |            |
| 1.6  | <p>New Appropriation to Purchase Wi-Fi Microphones (Seattle Center, Seattle Center Fund (11410))</p>   | \$50,000   |
|      | <p>This item increases appropriation authority by \$50,000 in the Campus Grounds BCL. These expenses are related to the purchase, testing and deployment of new wireless microphones used by and for clients on the campus. Recent changes to federal regulations related to wireless frequencies has decreased the bandwidth available for Seattle Center's wireless microphones, intercoms and other audio equipment causing increased unreliability in service to clients. Seattle Center was required to purchase new microphones outside of their normal replacement cycle to address service needs and meet contractual obligations.</p>   |            |
| 1.7  | <p>Increased Appropriation for Seattle Center Marketing Expenditures (Seattle Center, Seattle Center Fund (11410))</p>   | \$55,000   |
|      | <p>This item increases appropriation authority by \$55,000 in the Administration BCL. In 2015, Seattle Center marketing staff increased efforts to activate new sponsorship programs resulting in both increased costs and increased sponsorship revenue for Seattle Center. In addition to increased revenue, some sponsors have made other non-cash contributions including investments in free Wi-Fi service for grounds patrons (Microsoft), installation and maintenance of free cellular phone charging stations (T-Mobile), and additional free amenities and activities such as Free Skate Day during Winterfest (Coca-Cola).</p>  |            |
| 1.8  | <p>New Appropriation for Premium Pay Related to Employee Licensing (Seattle Center, Seattle Center Fund (11410))</p>   | \$68,000   |

| Item | Title/Description  | Amount/FTE |
|------|--|------------|
|      | <p>This item increases appropriation authority by \$68,000 in the Campus Grounds BCL. These expenses are related to a Memorandum of Agreement (MOA), approved by Ordinance 124783 and effective April 1, 2015, with the International Union of Operating Engineers Local 286 which resulted in premium pay for Seattle Center employees who work as HVAC Technicians or Building Operating Engineers (BOE) and possess a Class II Boilers License. Seattle Center is the only department requiring this license because of the nature of its operations. The departments has had difficulty maintaining enough staff with the appropriate license to perform "Watch Stand" shifts required by law due to turnover. The premium pay addresses significant recruiting and retention difficulties for HVAC Technician positions. Seattle Center is unable to absorb the increase of this MOA within its existing budget authority and will receive an additional \$22,667 in General Fund revenue to assist with the additional costs in 2015. The remaining appropriation will come from available fund balance in the Seattle Center Fund. This item was included in the 2016 budget process for ongoing funding.</p>   |            |
| 1.9  | <p>Increased Appropriation for Parking Garage Staffing (Seattle Center, Seattle Center Fund (11410))</p>   | \$100,000  |
|      | <p>This item increases appropriation authority in the Access BCL by \$100,000. This appropriation increase is related to unanticipated staffing expenses for Seattle Center's parking garages. An increased number of intermittent staff has been used in 2015 to ensure efficient patron access to the campus during events during construction around Seattle Center and provide appropriate revenue control as required by the parking audit. The re-engineering of Mercer and Roy St. adjacent to the Mercer Street Garage has altered traffic flows and increased the challenge of ingress and egress of the garage. Seattle Center has relied on increased staffing during the construction and post-construction periods to ease the difficult transition. In 2016, Seattle Center will undertake a capital project to permanently alter the ingress and egress lanes of Mercer Garage to address this problem and return to the budgeted level of intermittent staff usage. Seattle Center has also relied on increased intermittent staff to address findings in a recent parking audit and has seen increased parking revenue collection as a result. The increase in actual parking revenue above 2015 Adopted Budget levels is sufficient to support this appropriation.</p> |            |
| 1.10 | <p>Debt Service support for SDOT trails (Cumulative Reserve Subfund, Cumulative Reserve Subfund - Unrestricted Subaccount (00164))</p>   | \$256,250  |
|      | <p>This item increases appropriation authority by \$256,250 in the CRS-U Support to Transportation BCL. This increase is necessary to reflect the CRS-Unrestricted funds support in paying the final debt service on the 2009 bond issuance supporting trails projects. This spending is offset by King County Proposition 2 proceeds.</p>   |            |
| 1.11 | <p>Boat Moorage Appropriation (Department of Parks and Recreation, Park and Recreation Fund (10200))</p>   | \$130,000  |
|      | <p>This item increases appropriation authority by \$130,000 in the Regional Parks and Strategic OutReach BCL (K440A). This item is necessary to ensure the Department has the necessary appropriation authority to fund the management, operations, and maintenance of both the Lakewood and Leschi moorages. In April of 2015, the Department made the decision to terminate the contract with the current concessionaire and take over management of the moorages beginning October 1, 2015. The Department will operate the moorages until a long-term concessionaire is selected through a competitive RFP process. This change is anticipated to be budget neutral with the Department receiving a like amount of moorage revenues.</p>   |            |
| 1.12 | <p>Employee Loan Appropriation-Rec (Department of Parks and Recreation, Park and Recreation Fund (10200))</p>  | \$195,000  |

In addition, new force investigation and review policies required greater overtime usage, as did efforts related on DOJ-related data projects and compliance audits. | 1.33 | Appropriation Request for General Expense - Water Fund (Seattle Public Utilities, Water Fund (43000))  | \$6,745,000 |

| Item | Title/Description  | Amount/FTE  |
|------|--|-------------|
|      | <p>This item increases the appropriation authority by \$6,745,000 in General Expense BCL for Water Fund. The increase of \$3,500,000 in Water Utilities Taxes Program is necessary to comply with tax law regarding the taxation of revenues. As a provider of retail water services, SPU is required to pay tax on revenues to both the State of Washington and City of Seattle. The increase is due to increased projected retail revenue resulting from increase water consumption. The increase of \$1,750,000 in the Debt Services Program is necessary to cover higher than forecast on refunds. These costs will be more than offset by the long-term savings from the refunds. The increase of \$1,500,000 in General Expense Program is covering the mobilization and operation of Morse Lake Pump Plants in response to the drought. Rates are not impacted due to the increase in unplanned revenue from demand. If this request is not granted, SPU is at risk of not meeting its obligation to pay for Taxes and exceed the budget of WF General Expense BCL.</p> |             |
| 1.34 | <p>Appropriation Increase for DWW Utility Taxes Program in General Expense (Seattle Public Utilities, Drainage and Wastewater Fund (44010))</p>  | \$1,500,000 |
|      | <p>This item increases appropriation authority in the Drainage and Wastewater Utility Taxes Program by \$1,500,000 in the General Expense BCL for Drainage and Wastewater Fund. The increase is necessary to comply with tax law regarding the taxation of revenue. SPU is required to pay tax on revenues to both the State of Washington and City of Seattle. |      | <p>This item increases appropriation authority by \$275,000 in the Administration BCL for the Water Fund. The increase in appropriation is necessary due to additional unexpected license costs (Office365 &amp; IBM) that is necessary for SPU to continue providing the various services it delivers. If the request is not granted, this will cause SPU to have a budget exception on this BCL.</p>   |             |
|      | <p><b>Section 2 – Appropriation Increases with Automatic Carry-Forward Authority</b></p>   |             |
| 2.1  | <p>New Appropriation for KeyArena Leasehold Excise Tax (Seattle Center, Seattle Center Fund (11410))</p>   | \$160,000   |
|      | <p>This item increases appropriation authority in the KeyArena BCL by \$160,000. These costs are related to an audit finding by the Washington State Department of Revenue which revealed that the KeyArena concessionaire is responsible to pay Leasehold Excise Tax to the State of Washington for the years 2011-2014. Because Seattle Center typically pays this tax on behalf of concessionaires, additional appropriation authority is necessary. This item will be reimbursed by the concessionaire.</p>  |             |
| 2.2  | <p>New Appropriation for McCaw Hall Leasehold Excise Tax (Seattle Center, Seattle Center Fund (11410))</p>   | \$70,000    |

SFD construction inspection appointments are currently being scheduled one to two weeks out compared to a target of two to three days. This appropriation increase will improve the appointment wait time by one to two days in 2016.   |            |
| 2.5  | Add Fire Protection Engineer to Fire Marshal's Office (Seattle Fire Department, General Subfund (00100))   | \$120,917  |
|  | This item increases appropriation authority by \$120,917 in the Fire Prevention (F5000) BCL. This item supports the addition of a 1.0 full-time position in the Seattle Fire Department's Fire Marshal's Office (FMO). The Fire Protection Engineer (Fire Protection Egnr) will be responsible for performing architectural plan reviews and shop drawing reviews. The number of both reviews has increased by over 80 percent from 1,766 total plans in 2010 to 3,299 projected total plans reviewed in 2015.
