Fire Station 31 Improvements

BCL/Program Name:	Public Safety Facilities - Fire	BCL/Program Code:	A1PS2
Project Type:	Improved Facility	Start Date:	Q1/2014
Project ID:	A1PS207	End Date:	Q2/2018
Location:	1319 N Northgate Way		
Neighborhood Plan:	Not in a Neighborhood Plan	Council District:	5
Neighborhood District:	Northwest	Urban Village:	Aurora-Licton

The Seattle Fire Department's new tillered aerals are longer than the previous ladder trucks and do not fit in the apparatus bays at Fire Station 31. This project will design, permit and construct an expansion to three apparatus bays at Fire Station 31 to accommodate the larger tillered aerial. The approximately 2,000-square-foot addition will extend into the existing apron, which is constructed over the existing basement. This will require the structure to extend ~~two stories into the basement~~ and trigger a reorganization of the functions below ~~the bay~~. ~~This project includes, but is not limited to other operational changes as necessary as a result of the expansion.~~ Coordinated with this work in an adjacent space will be the expansion of bunker storage space, including electrical and mechanical modifications, for improved ventilation and dehumidification of firefighter bunking gear.
