f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities?

If yes, please explain how this legislation may impact vulnerable or historically disadvantaged communities. Using the racial equity toolkit is one way to help determine the legislation's impact on certain communities.

The primary goal of this legislation is to balance the economic opportunity created by short-term rentals with the need to maintain supply of long-term rental housing stock. Dwelling units developed as a residential use are expected to contribute to the City's housing stock rather than contribute to the supply of short-term lodgings for tourists or other temporary stays (i.e. hotels). When those units are converted to short-term rentals, this decreases the supply of residential units available for the City's permanent residents and contributes to the upward pressure on rent. Vulnerable or historical disadvantage

communities are arguably most impacted by lack of housing supply and housing affordability in Seattle. This legislation is focused on addressing that issue
