

Till it all goes away-Written and Performed by Naa Akua

Till it goes away 4x

Some got a fixed fixation

You know on death

Leaving the land of living to the land of rest

My chest lifts heart skips and I'm all out of breath

I do my best with this game called chess

Knights, kings, and queens

Prioritize your means, mans made to bleed

Cries, yells, and screams

Rebel then repel from life's major themes

Cu Cu Cuz it's whatever you believe in

Whatever keeps you dreaming, whatever keeps you breathing?

Whatever keeps you feening, whatever keeps you leaning?

To the right course of course not the tail but the horse

You're the boss with the torch, nothing less nothing more

Do your best to endure

Write a check, run a mile, be a rep for a cure

Mere mortals to this portal nothing seems abnormal

Then the sun beams light here today gone tomorrow

Till it goes away 5x

It all goes away but never goes to waste

Funny about living it's all about the chase

Envision us just beautiful decay

Beautiful a waits with every breaking day

Man I'm back to the base

Back to my pace head bowed I shall give all the praise

Mercy is a blessing when your eyes are still awake

And I'm stable to debate, not obnoxious to their traits

I got options on my plate, obstacles give way

When you're opting for a change

I change my position

Renamed my petition

I am the mission glitchin' for a fixin'

Repetition brings friction, I hope many listen

Contribute to my addiction

My pen my pad

The fuel that keeps me kicking

I'm amused I'm consumed

Dropping jewels to feed your children

I promote healthier living

With the tools that I've been giving, we put mistakes into remission

Reminiscing about the past, pay attention to the future

Our lives bear art sway it to good usage

Till it goes away (fades out repeated)
