Agenda

- Washington, D.C. Update
- Appropriations Update
- Federal Funding
 - Bipartisan Infrastructure Law
 - Inflation Reduction Act
 - Earmarks
- Federal Goals
- Federal Engagement
- Political Landscape
- Questions

Washington, D.C. Update

- **Speaker Update** – Since taking over as Speaker, Rep. Mike Johnson has struggled to pass significant legislation largely due to the razor-thin majority he presides over.
- **Government Funding** – Members continue work on FY 2024 appropriations but have made limited progress due to policy differences.
- **Border Deal** – In February, the Senate voted down a \$118 billion spending package providing funding for Ukraine, Israel, and Taiwan while making changes to U.S. immigration and border policy. Instead, the Senate advanced a \$95 million stand-alone supplemental funding package with aid for Ukraine and Israel.
- **Reauthorizations** – Congress continues work on the Farm Bill and Federal Aviation Administration (FAA) reauthorizations. While progress has been made, members have required multiple extensions to provide them with additional runway. The FAA reauthorization was extended this week through May 10th.

Appropriations Update

- On February 27, President Biden met with leadership to discuss government funding. All sides agreed that they would work to avoid a shutdown despite differences that have prevented progress on appropriations.
- Following that meeting, the House and Senate passed another Continuing Resolution on February 29th, extending the shutdown deadline until **March 8** for the Agriculture-FDA, Energy and Water, MilCon-VA, Transportation-HUD, Interior-Environment, and Commerce-Justice-Science spending bills. It is expected that these bills will be approved next week.
- Funding for the remaining six bills expires on **March 22**.
- If Congress fails to reach an agreement by April 30, a 1% across-the-board cut is slated to take effect per the 2023 debt ceiling deal.

Appropriations Update

- Included in the pending appropriations bills are several Community Project Funding/Congressionally Directed Spending requests for the City of Seattle:
 - \$3 million – South Park Drainage Improvements (Interior) – Murray/Cantwell
 - \$1.95 million – Civilian Assisted Response & Engagement (CARE) Department (CJS) – Jayapal/Smith
 - \$1.3 million – Seattle Public Library University Branch Seismic Structural Upgrade (DHS-FEMA) – Jayapal
 - \$1 million – South Park Passive House Multifamily Development (THUD) – Jayapal
- Congress must pass a budget for the City to receive funding for the projects included in the bills.
- In anticipation of FY 2025 bills, members have already begun soliciting Community Project Funding/Congressionally Directed Spending requests.

Federal Funding

- **Bipartisan Infrastructure Law and Inflation Reduction Act:**
 - Awards since May 2022: ~\$95,000,000 (several awards spread over multiple years)
 - Total # awards: 21 awards
- **Earmarks (Congressionally Directed Spending / Community Project Funding)**
 - FY23 awards: \$5,058,000
 - FY24 applications: ~\$7,200,000

Bipartisan Infrastructure Law & Inflation Reduction Act Implementation

- **Bipartisan Infrastructure Law (also known as Infrastructure Investment & Jobs Act)**
 - Signed into law on November 15, 2021.
 - Provides \$1.2 trillion over 5 years in infrastructure spending, including \$550 billion in new spending.
- **Inflation Reduction Act**
 - Signed into law on August 16, 2022.
 - Authorizes \$400 billion in spending on climate investments, while also lowering health care and energy costs.
 - Expands preexisting clean energy tax credits so local governments are now eligible.
 - Credits cover solar, wind, and batteries.
