SPR's proposed budget allocates \$125 million of General Fund in 2025 and \$132.4 million in 2026 to support SPR's existing parks and recreation services and lines of business (excluding program transfers from other departments). This appropriation maintains the General Fund floor requirement set by the interlocal agreement (ILA) between the City of Seattle and the Park District. Since the establishment of the Park District in 2014, the ILA includes a specific baseline of General Fund support for parks and recreation services, commonly referred to as the "General Fund floor," and requires the City to allocate General Fund resources to SPR in each annual budget at or above that baseline. The ILA currently requires the City to adjust that floor for inflation annually using the Consumer Price Index (CPI) for Seattle, which for 2024 was 4.5%, which equates to a General Fund Floor in 2025 of \$123.5 million and \$127.2 million in 2026.

General Fund Reductions to Address Shortfall

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in the following ways:

- Shifting \$8.8 million in Park District funding to cover core programming previously supported by General Fund, by using excess Park District interest income one-time (\$2.4 million), reducing Park District-funded capital budgets (\$3.9 million), and shifting planned debt payments to align with current project schedules

Seattle Parks and Recreation

(\$2.5 million).

- Reducing \$1.5 million in General Fund programming ongoing.
- Shifting \$1 million of programming previously supported by General Fund to other fund sources ongoing, including the Arts and Culture Fund (funded by Admissions Tax proceeds) and the Payroll Expense Tax.

Fee Increases to Support Park and Recreation Fund

Annual wage increases and market adjustments exceeded planning reserves for SPR, particularly in the Park Fund. The proposed budget takes a balanced approach to ensuring Park Fund sustainability without impactful reductions to services valued by community. As such, fee increases were identified to mitigate this shortfall, specifically for community center room rentals, aquatics services and programs, special event facilities, Amy Yee Tennis Center (AYTC), athletic fields, and for revocable use permits.

Through these increases, SPR anticipates bringing in an additional \$3.3 million in revenue in 2025, a portion of which (about \$865,000) will be used to support additional expenses including additional staffing and scholarship funds for aquatics and AYTC.

Investing in Mayoral Priorities

The proposed budget also includes funding for Mayoral priorities related to youth mental health, downtown activation, homelessness, and graffiti abatement. Specifically:

- The Mayor's Youth Mental Health Investment Strategy includes \$15 million of Payroll Expense Tax funding in both 2025 and 2026 between the Department of Education and Early Learning and SPR for youth mental health prevention, early intervention, and treatment. SPR is proposing to invest \$500,000 one-time and \$600,000 ongoing in 2025 and 2026. The one-time resources in 2025 funds the design, creation and implementation of an online "Youth Connector" platform by and for teens to improve mental health supports and program awareness and reduce barriers to access. This investment improves awareness, navigation and access to Seattle youth programs including career exploration, community service, education, Seattle mentors, recreational programs, scholarships and discounts, and mental health supports. The ongoing funding supports programming and partnerships at Red Barn Ranch to invest in youth mental health by providing opportunities for youth to access rural nature experiences at Red Barn Ranch, a SPR-owned property in rural King County.
- The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. DAP focuses on actions that bring more housing and amenities – ensuring Downtown is more than just a great place to go to work, but also a place where residents can afford to live, learn, shop, play, and so much more. SPR is proposing to invest \$1.3 million in 2025 and \$2.3 million in 2026 to reimagine and revitalize Westlake Plaza, which could include the removal of the out-of-commission fountain, stage renovation, and other needed upgrades to make the area safe and inviting.
- The Unified Care Team (UCT) brings together more than a dozen city departments and partners for a coordinated, strategic, and data-driven approach to ensuring Seattle's public spaces, sidewalks, and streets remain open and accessible to all. The UCT coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The City is proposing to expand services provided by UCT from 5 to 7 days a week, which represents adding 6 staff to SPR as well as an increased budget for nonlabor expenses such as disposal of materials.
- The Mayor's One Seattle Graffiti Plan, announced in October 2022, contains six major pillars intended to beautify Seattle and address a surge in graffiti through new strategies and increased budget investments. One strategy of the plan is to combine all resources available city-wide for graffiti removal teams. In support of this strategy, the proposed budget includes a transfer of graffiti abatement resources from Seattle Public Utilities (SPU) to SPR, including SPU's Graffiti Rangers, a dedicated team responsible for inspection, assessments, dispatch, compliance, and graffiti abatement across various city assets.

Seattle Parks and Recreation

Other Changes

The budget also includes funding for various capital projects, and technical adjustments to the operating budget, such as internal service cost changes and annual wage and market adjustment increases.

Total 2025 Proposed Budget	\$339,397,652	1139.70
-----------------------------------	----------------------	----------------

Description of Incremental Budget Changes

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures	\$17,123,113
--------------	--------------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Seattle Parks and Recreation

Citywide Adjustments for Standard Cost Changes

Expenditures	\$5,005,149
--------------	-------------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

CDBG Baseline Adjustment

Expenditures	\$(808,000)
Revenues	-

This item removes baseline federal Community Development Block Grant (CDBG) funding from SPR's Parks Upgrade Program Capital Project which supports the Seattle Conservation Corps, a job-training program for formerly homeless adults. For the 2025-2026 Proposed Budget, the administration removed CDBG funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects. See companion item in Proposed Capital section.

Remove One-Time Zoo Inflation Adjustment

Expenditures	\$(796,427)
--------------	-------------

This item removes one-time authority in 2024 related to inflationary adjustment for the Zoo operations.

Remove One-Time Garfield Super Block Add

Expenditures	\$(80,000)
--------------	------------

This item removes one-time authority in 2024 related to planning funds for Garfield Super Block Project.

Proposed Operating

Arts in Parks Shift to Admissions Tax

Expenditures	-
Position Allocation	-

The 2025-2026 Proposed Budget includes appropriations out of the Arts and Culture Fund to three City departments which have arts and culture-related spending. The proposed budget includes legislation to broaden the uses of Admissions Tax from the Arts and Culture Fund. The Office of Arts and Culture, Seattle Center and Seattle Parks and Recreation (SPR) budgets use Admissions Tax to support arts and culture spending.

In SPR, the budget preserves the Arts in the Parks program by shifting \$436,000 from the General Fund to the Arts and Culture Fund. Through this program, artists and art organizations activate park spaces throughout the City. SPR coordinates planning and scheduling of Arts in Parks, as well as provides grants to support artists and arts organizations to perform.

Downtown Buskers Shift to Admissions Tax

Expenditures	-
--------------	---

The 2025-2026 Proposed Budget includes appropriations out of the Arts and Culture Fund to three City departments which have arts and culture-related spending. The proposed budget includes legislation to broaden the uses of Admissions Tax from the Arts and Culture Fund. The Office of Arts and Culture, Seattle Center and Seattle Parks and

Seattle Parks and Recreation

Recreation (SPR) budgets use Admissions Tax to support arts and culture spending.

In SPR, the budget preserves the downtown buskers program by shifting about \$224,000 from the General Fund to the Arts and Culture Fund. This program coordinates and funds performers such as musicians and performance artists to perform in and activate downtown parks.

Teen Performing Arts Program Shift to Admissions Tax

Expenditures	-
--------------	---

The 2025-2026 Proposed Budget includes appropriations out of the Arts and Culture Fund to three City departments which have arts and culture-related spending. The proposed budget includes legislation to broaden the uses of Admissions Tax from the Arts and Culture Fund. The Office of Arts and Culture, Seattle Center and Seattle Parks and Recreation (SPR) budgets use Admissions Tax to support arts and culture spending.

In SPR, the budget preserves the downtown buskers program by shifting about \$224,000 from the General Fund and Park and Recreation Fund to the Arts and Culture Fund. This program coordinates and funds performers such as musicians and performance artists to perform in and activate downtown parks.

Center City Activation Shift to Payroll Expense Tax

Expenditures	-
--------------	---

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. In addition, the proposed budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development.

This ongoing item shifts \$186,000 from the General Fund to the Payroll Expense Tax Fund to preserve and continue center city park activations in partnership with the Associated Recreation Council, which is also experiencing unprecedented inflationary pressures. Specifically, this item supports about 10,000 contracted concierge hours at greater downtown parks such as Pioneer Square, City Hall, Denny, Hing Hay, Cal Anderson, and Hoa Mai parks.

Reduce Parks and Natural Areas Maintenance

Expenditures	\$(590,749)
Position Allocation	(5.69)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. This ongoing item reduces baseline funding for the maintenance of parks and natural areas by approximately 1%, which includes removing 7 laborer and one supported employment positions in 2025. There will be minimal impact on overall maintenance and SPR will endeavor to minimize impacts during peak season when these part-time positions would typically supplement year-round staff.

Reduce Leadership and Administration Staffing

Expenditures	\$(492,211)
Position Allocation	(3.75)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces staff levels in three department leadership and support teams including Policy and Performance, Communications and Business Systems and Customer Service Unit. Two of these units are also supported by Park District funding. Specifically, this item removes a Manager 3, an Administrative Specialist II, and a Customer Service Representative, reduces two other full-time positions to half-time, and increases one 0.75 FTE to full-time. As a result, response times to

Seattle Parks and Recreation

customers and SPR's ability to meet performance goals established in Cycle 2 of the Park District may be reduced.

Reduce Outdoor Park Activation

Expenditures	\$(245,095)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. The budget removes a senior Recreation Program Specialists and reduces SPR's Outdoor Park Activation nonlabor programming funding by 40% from about \$340,000 to \$200,000, which will result in fewer resources allocated to activate and program outdoor spaces outside the greater downtown area. Specifically, this item removes recently planned expansions from Cycle 2 of the Seattle Park District, bringing the budget back to Cycle 1 levels of funding for activation in parks not in the city's downtown core.

Consolidate Community Granting Programs

Expenditures	\$(200,000)
--------------	-------------

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. This ongoing item consolidates two community granting programs, Recreation for All and Get Moving, into one program and reduces the amount of grant funding available for community-based groups by about 33%, from \$600,000 to \$400,000. The two programs serve similar populations and for similar purposes, which is to provide grants to groups to provide culturally relevant health- and fitness-focused programs for under resourced communities or where health and enrichment disparities are prevalent. In 2023, the two programs awarded approximately \$440,000 in grants, which resulted in groups providing 3,000 hours of engagement and serving approximately 10,000 participants.

Reduce Environmental Programming Starting in 2026

Expenditures	-
Revenues	-
Position Allocation	(7.35)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. The budget makes an ongoing reduction to SPR's Environmental Programming line of business by 50% or about \$1 million beginning in 2026. The department will seek public-private partnerships to operate the Discovery Park Visitor Center & Environmental Learning Center and provide programming at Discovery Park and Carkeek Park to mitigate any service disruptions from this budget reduction. As a result, this item includes a staffing reduction in 2026 of 7.35 FTE, representing 9 positions.

Utility Costs Shift to King County Levy

Expenditures	-
--------------	---

This item shifts \$1.1 million of King County Levy funding from supporting debt service for the Golf Capital Improvements project to the Parks and Facilities Maintenance and Repairs budget in order to fund the increased utility costs across the department, such as drainage fees.

One-Time Use of Park District Interest Earnings

Expenditures	-
--------------	---

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected

Seattle Parks and Recreation

Citywide costs. General Fund reductions were identified to mitigate this shortfall. SPR's proposed budget reflects a realignment of General Fund and Park District resources to achieve General Fund savings while retaining core operating services. This item shifts \$2.4 million of core department expenses from the General Fund to the Park District Fund on a one-time basis in 2025 only. This shift is supported by higher than anticipated interest earnings in the Park District Fund.

Realign Park District Funding

Expenditures	-
--------------	---

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. SPR's proposed budget reflects a realignment of General Fund and Park District resources to achieve General Fund savings while retaining core operating services. This change reflects shifting \$6.4 million in 2025 and \$6.8 million in 2026 of expenses from the General Fund to the Park District Fund. See companion items in the Proposed Capital section.

One Seattle Graffiti Initiative Consolidation

Expenditures	\$2,594,469
Position Allocation	11.00

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item transfers Seattle Public Utilities (SPU) Graffiti Abatement program to SPR, including all 7 Graffiti Ranger positions, an administrative position, an Executive 2, and budget for supplies, facility leases, and vehicles. This transfer will provide for the consolidation of citywide graffiti abatement services under the One Seattle Graffiti Initiative at SPR, which achieves approximately \$495,475 in General Fund savings related to SPU's overhead rate. The One Seattle Graffiti Initiative abates graffiti on city-owned and privately-owned property.

To successfully implement this program, this item also adds a Manager 1 and Administrative Staff Assistant who will provide oversight and operational support. This item also adds one-time \$350,000 of General Fund appropriation to extend an external contract for graffiti abatement services through 2025, which SPU previously held. See companion item in SPU's Budget Book chapter.

Expand Unified Care Team to 7 Day Coverage

Expenditures	\$882,822
Position Allocation	6.00

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The 2025-2026 Proposed Budget expands services provided by the UCT from 5 to 7 days per week. This item adds about \$882,000 in 2025 and \$1.1 million in 2026 ongoing which represents an increase in 6 staff to SPR, and an increase in nonlabor expenses such as disposal of materials. The added positions include two teams of two laborers, which will remove trash and hazardous items, and a Manager 1 and a Strategic Advisor 1 positions for management support and oversight.

Increase to Zoo Operating Costs

Expenditures	\$800,000
--------------	-----------

This ongoing item adjusts the baseline budget for the Woodland Park Zoo's operating and maintenance payments in recognition of the contractual inflationary increases required annually as part of the Master Operating Agreement with Woodland Park Zoological Society.

Seattle Parks and Recreation

Youth Mental Health - Nature Access and Programming

Expenditures	\$600,000
--------------	-----------

The Mayor's Youth Mental Health Investment Strategy includes \$15 million of Payroll Expense Tax funding in both 2025 and 2026 between the Department of Education and Early Learning and Seattle Parks and Recreation (SPR) for youth mental health prevention, early intervention, and treatment. This ongoing item uses Payroll Expense Tax proceeds to support programming and partnerships at Red Barn Ranch to invest in youth mental health.

Red Barn Ranch, a SPR-owned property in rural King County, provides the opportunity for youth to access rural nature experiences. The goal of this initiative is to improve the mental and physical health outcomes of Seattle and King County youth by connecting elementary, middle, and high school students with the outdoors. Facilitated day and overnight trips by partners offering equine, community gardening, trails building, and environmental restoration programs address nature deficit among youth in historically underserved communities.

Youth Mental Health - Online Youth Connector

Expenditures	\$500,000
--------------	-----------

The Mayor's Youth Mental Health Investment Strategy includes \$15 million of Payroll Expense Tax funding in both 2025 and 2026 between the Department of Education and Early Learning and Seattle Parks and Recreation (SPR) for youth mental health prevention, early intervention, and treatment. This one-time item uses Payroll Expense Tax proceeds to design, create and implement an online "Youth Connector" platform by and for teens to improve mental health supports and program awareness and reduce barriers to access. This investment improves awareness, navigation and access to Seattle youth programs including career exploration, community service, education, Seattle mentors, recreational programs, scholarships and discounts, and mental health supports. SPR will maintain the platform in outyears using existing budget.

Transfer Public Hygiene Station Funding from SPU to SPR

Expenditures	\$585,000
--------------	-----------

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item transfers ongoing General Fund appropriations for hygiene stations (portable toilets and/or handwashing stations) from Seattle Public Utilities' (SPU) Public Hygiene Program to SPR, achieving approximately \$250,000 in ongoing General Fund savings related to SPU's overhead rate. This funding will be used to fund portable toilets in busy parks. SPU will continue to operate and staff the wider Public Hygiene Program including up to three hygiene trailers with shower facilities, providing services to the unsheltered and minimally housed. See corresponding item in SPU's Budget Book chapter.

Community Services Block Grant Appropriation

Expenditures	-
Revenues	\$810

This item adjusts baseline resources from the Washington State Department of Commerce's Community Services Block Grant based on the supplemental state appropriation. The state grant increased by \$810, from \$276,112 to \$276,922, and supports SPR's Seattle Conservation Corps, a job-training program for homeless adults.

Increase Fees for Aquatics Programs and Services, and add to Swim Safety Equity Fund

Expenditures	\$412,000
Revenues	\$1,412,000
Position Allocation	1.00

Seattle Parks and Recreation

This item increases fees for swim lessons, drop-in swimming, and pool rentals. These fee changes, which bring aquatics fees closer to alignment with market rate fees, are expected to generate approximately \$1.4 million of additional revenue ongoing. The fee increases are to help partially offset the impacts of cost increases associated with the Collective Bargaining Agreements passed by City Council. To reduce barriers to access as a result of the fee increases, SPR will continue to offer reduced fees for those who are income-eligible as well as other free or low-cost aquatics opportunities through Swim Seattle initiative, such as free workshops to support children and their families in becoming comfortable swimmers and water-safe.

About \$412,000 of the revenues generated by the fee increases will augment the Swim Safety Equity Fund, fund premium pay for certified aquatics instructors who teach lessons, and will fund two additional part-time positions, an Assistant Aquatic Center Coordinator and Senior Lifeguard, to support aquatics operations for revenue generation.

Increase Fees for Revocable Use Permits

Expenditures	\$259,790
Revenues	\$675,780
Position Allocation	0.25

This item increases revocable use permit (RUP) fees which SPR charges to third-parties for short-term or ongoing nonpark use of park land, which are expected to generate approximately \$675,000 of additional revenue in 2025 and \$560,000 in 2026. The fee increases are to help partially offset the impacts of cost increases associated with the Collective Bargaining Agreements passed by City Council. This item also includes an increase in expenditures for a staffing change—increasing a Real Property Agent position from part-time to full-time—as well as nonlabor budget supporting department property management and permit efforts.

Increase Fees for Athletic Fields

Expenditures	\$106,678
Revenues	\$422,604

This item increases athletic field fees for adults and youth which are expected to generate approximately \$422,000 of additional revenue in 2025 and \$940,000 in 2026. The fee increases, which bring youth field usage fees closer to alignment with market rates, are to help partially offset the impacts of cost increases associated with the Collective Bargaining Agreements passed by City Council. This item also increases non-labor expenditures to account for increased banking fee costs. SPR continues to offer free open field times for community drop-in play without having to reserve or pay for the fields.

Increase Fees for Special Events

Expenditures	\$76,449
Revenues	\$314,969

This item increases fees for special events and use permits by about 4%, and at a greater percentage for specific items such as premium picnic shelters and special amenity rental facilities such as the buildings at Magnuson. These changes are expected to generate approximately \$315,000 of additional revenue in 2025 and \$250,000 in 2026. The fee increases are to help partially offset the impacts of cost increases associated with the Collective Bargaining Agreements passed by City Council and to align with inflationary increases. This item also increases non-labor expenditures to account for increased banking fee costs. SPR continues to offer granting programs to support activities serving frontline communities.

Increase Fees for Amy Yee Tennis Center (AYTC), and create AYTC Scholarship Fund

Expenditures	\$11,000
--------------	----------

Seattle Parks and Recreation

Revenues \$360,000

This item increases tennis fees for adult, youth and court rentals at the Amy Yee Tennis Center (AYTC) which are expected to generate approximately \$360,000 of additional revenue in 2025 and \$450,000 in 2026. The fee increases, which bring AYTC fees closer to alignment with market rate fees, are to help partially offset the impacts of cost increases associated with the Collective Bargaining Agreements passed by City Council. To reduce barriers to access, \$11,000 (3% of anticipated revenue) is earmarked for a new AYTC Scholarship Fund.

Increase Fees for Community Center Rentals

Revenues \$130,000

This item increases rental fees by approximately 5% for community center rooms, kitchens, and gyms, and related staff and booking fees which are expected to generate approximately \$130,000 of additional revenue ongoing. The fee increases are to help partially offset the impacts of cost increases associated with the Collective Bargaining Agreements passed by City Council and to align with inflationary increases. SPR continues to offer granting programs to support activities serving frontline communities.

Proposed Capital

Align Green Lake Community Center and Evans Pool Renovation Debt to Schedule

Expenditures \$(56,000,000)

This item shifts \$56 million in planned bond funding for the planning design and construction of a substantially renovated Green Lake Community Center and Evans Pool from 2025 to 2026, to align with current project schedule. A companion item adjusts the annual debt service payments funded by the Park District.

Align Lake City Community Center Project Debt to Schedule

Expenditures \$(28,000,000)

This item shifts \$28 million of planned bond funding for the Lake City Community Center rebuild from 2025 to 2026, to align with current project schedule. A companion item adjusts the annual debt service payments funded by the Park District to align with the current project schedule.

Align Queen Anne Community Center Renovation Debt to Schedule

Expenditures \$(16,900,000)

This item shifts \$16.9 million in planned bond funding for the planning design and construction of a substantially renovated Queen Anne Community Center from 2025 to 2026, to align with current project schedule. A companion item adjusts the annual debt service payments funded by the Park District.

Align 8th & Mercer Community Center Project Debt to Schedule

Expenditures \$(17,000,000)

This item shifts \$17 million in planned bond funding for tenant improvements within the 8th & Mercer Community Center from 2025 to 2026 due to project delays. A companion item adjusts the annual debt service payments funded by the Park District to reflect the change in project schedule.

Remove Out-Year Debt for Facility Decarbonization

Expenditures -

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected

Seattle Parks and Recreation

Citywide costs. General Fund reductions were identified to mitigate this shortfall. This proposal removes \$18.3 million in planned bond funding for decarbonization of SPR facilities in 2027. A companion item adjusts the annual debt service payments funded by the Park District and reallocates resources to other core operating services to achieve General Fund Savings.

SPR's budget maintains a \$2 million annual Park District investment for facility decarbonization and has been building decarbonization efforts into the scope and budget of major capital projects. As a result, SPR anticipates minimal impact from this item.

Adjust Park District-Funded Debt Service and Reallocate to Core Services and Priority Projects

Expenditures \$(2,538,000)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. SPR's proposed budget reflects a realignment of General Fund and Park District resources to achieve General Fund savings while retaining core operating services.

This item reflects \$2.5 million in 2025 and \$3.2 million in 2026 of Park District-funded capital reductions for planned debt service, shifting these resources to the operating budget to support core department services previously funded by the General Fund. Specifically, this reflects:

- Shifting 8th & Mercer Community Center planned bond funding out by one year, due to project delays
- Shifting Green Lake Community Center and Evans Pool renovation planned bond funding out by one year, to align resources with current project schedule
- Eliminating out-year planned bond funding for Facility Decarbonization

This item also reflects shifting Park District funding held for planned debt service to other priority projects, due to updated timelines for planned bond issuance for two major community center projects. Specifically, this item also reflects:

- Shifting \$1.3 million in 2025 in planned debt service for the Queen Anne Community Center renovation to help fund the West Queen Anne Playfield conversion project, due to the community center project delay.
- Shifting \$937,000 in 2025 and \$1.2 million in 2026 in planned debt service payments for Lake City Community Center rebuild to fund the Soundview Athletic Field project, due to the community center project delay.

See companion items previously discussed in this section.

Reduce Major Maintenance and Asset Preservation

Expenditures \$(2,456,235)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. SPR's proposed budget reflects a realignment of General Fund and Park District resources to achieve General Fund savings while retaining core operating services.

This item reflects a 10% reduction to SPR's Capital Major Maintenance and Asset Preservation Program, shifting these resources to the operating budget to support core department services previously funded by the General Fund. About \$2 million of this total reduction, representing about 7% of the base budget, is ongoing, with \$500,000 in reductions occurring only one-time in 2025 to align resources to project schedules. As a result of this reduction, SPR will revise the scope and scale of major maintenance projects planned for 2025.

Reduce the COMMUNITY Fund

Expenditures \$(1,000,000)

Seattle Parks and Recreation

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. SPR's proposed budget reflects an ongoing realignment of General Fund and Park District resources to achieve General Fund savings while retaining core operating services.

This item reflects a 27% reduction to SPR's CommUNITY Fund, shifting these resources to the operating budget to support core department services previously funded by the General Fund. The CommUNITY Fund, previously called the Major Projects Challenge Fund, was increased from \$1.5 million to \$2.5 million in 2023 as part of Cycle 2 of the Park District, and this item removes the expansion bringing the capital budget back to \$1.5 million. Funding for the two staff positions to engage with and support community throughout the CommUNITY Fund process are retained on the operating side of the budget. As a result of this reduction, there will be fewer granting dollars available for community-directed improvements to parks and facilities.

Reduce Park Land Acquisition Funding

Expenditures	\$(440,000)
--------------	-------------

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. SPR's proposed budget reflects a realignment of General Fund and Park District resources to achieve General Fund savings while retaining core operating services.

This change reflects a 30% reduction to SPR's New Park Acquisition Program, shifting these resources to the operating budget to support core department services previously funded by the General Fund. The item retains \$1 million annual investment for acquisition, which will allow SPR to leverage grant opportunities and to support other low-cost priority acquisitions such as park additions. As a result of this reduction, SPR could acquire less land for future park development.

Revitalize Westlake Plaza

Expenditures	\$1,391,936
--------------	-------------

This one-time item provides about \$1.4 million in 2025 and \$2.3 million in 2026 of Payroll Expense Tax proceeds to support revitalization of Westlake Plaza as part of the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. Specifically, this item funds a revitalization of Westlake Plaza which could include removal of out-of-commission fountain, stage renovation, an electrical systems upgrade, repairs to paving and trip hazards, among other improvements.

Continue Funding Seattle Conservation Corps with CDBG

Expenditures	\$808,000
Revenues	\$808,000

For the 2025-2026 Proposed Budget, the administration removed Community Development Block Grant (CDBG) funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects. In SPR, restores baseline CDBG funding to continue supporting the Seattle Conservation Corps' Parks Upgrade Program. The Seattle Conservation Corps uses public- and privately-funded construction and maintenance projects, including those funded by CDBG in the Parks Upgrade Program, to provide homeless adults with employment opportunities in a supportive environment.

Add Landscape Conservation and Local Infrastructure Program Capital Project

Expenditures	\$500,000
Revenues	\$500,000

Seattle Parks and Recreation

This proposal adds Landscape Conservation and Local Infrastructure Program (LCLIP) funding to SPR and creates a new capital project. As part of the original 2013 LCLIP legislation outlining programming assumptions, the funding beginning in 2025 transfers from supporting Seattle Department of Transportation investments to supporting SPR parks and infrastructure investments for the next ten years. The LCLIP program allows cities to receive a portion of future county property tax revenue for local infrastructure investments if they implement a program to obtain regional Transferable Development Rights (TDR). Current legislation outlines that projects eligible for LCLIP funding must be located in South Lake Union or Downtown Seattle.

The overall purpose of LCLIP and Regional TDR Programs is to preserve farm and forest land by transferring development capacity from these lands to cities, and generate funds for local infrastructure projects in the communities where the additional development capacity is located.

Increase to Community Center Pre-Electrification Efforts

Expenditures	\$195,000
--------------	-----------

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item uses payroll tax funding to fund projects associated with the city's Municipal Energy Electrification Program. This item specifically funds SPR's Pre-Electrification Program, which supports efforts to prepare community centers for decarbonization by first shrinking energy use intensity through energy conservation interventions such as use of LEDs, advanced lighting controls, and destratification fans for air mixing.

Adjust Outyear CIP Funding

Expenditures	-
Revenues	-

This technical item adds funding to the 2029 and 2030 out-years for various capital projects to align with the 2025-2030 Proposed CIP.

Proposed Technical

Budget Neutral Project Changes

Expenditures	\$3,416,863
Revenues	\$4,423,522

This technical item includes a variety of technical changes to true up the budget to revenue projections and to align budget with operational plans for 2025. This item adds Park Fund expenses and revenue to the Golf program, among other technical changes

Park District Changes to Align the 6 Year Financial Plan

Expenditures	\$2,881,486
Revenues	-

This technical change request aligns the 2025 and 2026 Proposed Budget with the adopted 2023-2028 MPD Financial Plan. It also includes two adjustments the start of planned operations and maintenance expenses related to two proposed capital program reductions.

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures	\$37,736
--------------	----------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market

Seattle Parks and Recreation

Adjustments, as outlined in the agreements between the City and Local 77 bargaining units, for personnel costs included in this department's budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Final Adjustments for Standard Cost Changes

Expenditures	\$(1,640,293)
--------------	---------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Budget Neutral Position Changes

Expenditures	-
Position Allocation	-

This technical change adjusts expense and revenue budgets within projects to correctly align the budgets and accounts with position reclassifications done outside of the previous budget process and/or APEX/SAM adjustments, and other technical position changes.

Fund Balancing Adjustment

Revenues	\$2,841,656
----------	-------------

This is a technical item to record fund balancing entries for the Park and Recreation Fund, Park District Fund, and King County Parks Levy Fund, which are primarily managed by this department.

Capital Indirect Cost Recovery Alignment

Expenditures	\$(900,000)
--------------	-------------

This technical change request adjusts SPR's indirect cost recoveries related to staff who charge to capital programs to offset approximately \$900,000 in associated park fund expenses.

Park District Revenue Alignment to Spend Plan and Interest Earnings

Revenues	\$9,352,958
----------	-------------

This change updates revenue projections for the Seattle Park District Fund to align with the Park District Cycle 2 Spending Plan, in addition to recognizing projected interest earnings.

Seattle Center

Marshall Foster, Director

(206) 684-7200

<http://www.seattlecenter.com/>

Department Overview

Seattle Center is home to cultural and educational organizations, sports teams, festivals, community programs (including cultural and community celebrations), and entertainment facilities. Millions of people visit the 74-acre Seattle Center campus annually. Consistently rated as one of the City's top attractions, Seattle Center is a premier urban park whose purpose is to create exceptional events, experiences, and environments that delight and inspire the human spirit and build a stronger community.

Since its creation in 1963, Seattle Center has nurtured artistry and creativity by providing a home for and technical assistance to a wide variety of arts and cultural organizations. These organizations play a critical role in the arts and cultural landscape of the region. Originally created for the World's Fair, the Coliseum, later called KeyArena, was operated by Seattle Center as a public assembly venue for sports and concert events. The new building, now Climate Pledge Arena, is hosting the NHL's newest franchise, the Kraken, as well as the WNBA's Seattle Storm, along with a variety of concerts, family shows, and other events.

Seattle Center is financed by a combination of tax dollars from the City's General Fund and revenue earned from commercial operations. Major sources of commercial revenues include facility rentals, parking fees, long-term leases to for-profit and non-profit organizations, sponsorships, concession sales, and monorail fares.

Budget Snapshot

Seattle Center

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for Seattle Center. The department will continue to serve as the state's largest visitor destination for artistic, cultural and sporting events. Visitors can frequent large scale events, such as Bumbershoot and the Northwest Folklife Festival, and also attend community festivals and celebrations such as Festàl. The campus hosts the city's legacy artistic and cultural institutions, Seattle Opera at McCaw Hall and Seattle Rep at the Bagley Wright Theater, alongside newer attractions, such as the Chihuly Museum of Glass. Climate Pledge Arena features the Kraken and world headlining performance artists.

While these events and activities draw significant revenue for the city, Seattle Center will continue maintaining campus grounds and their unique features for the casual visitor. Seattle Center will also continue to serve its critical role in providing emergency shelter during adverse weather events and implementing the annual Seattle/King County Clinic public health event, which saw nearly 3,000 patients receive free medical and dental care for its tenth iteration in 2024.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made by shifting costs to the department's revenue-backed operating fund, reclassifying or underfilling vacant positions to achieve administrative efficiencies, eliminating the Bumbershoot workforce development program, decreasing General Fund support for the Waterfront, and raising parking, event space and facility rental fees to bring them more in line with market rates.

Seattle Center is also benefitting from an expansion of the City's use of Admissions Tax revenue from the Office of Arts and Culture. In 2019, Seattle Center started receiving Admissions Tax revenue support to help fund the Festàl series of community festivals. The proposed budget includes legislation to broaden the uses of Admissions Tax from the Arts and Culture Fund, and accordingly Seattle Center will shift approximately \$1 million from the General Fund to be funded with Admissions Tax revenue, specifically for the Northwest Folklife Festival, cultural administration staffing, and to fully support Festàl. Admissions Tax revenue will also fund the annual Winterfest celebration, which allows Seattle Center to redirect earned revenues to other revenue-generating purposes.

Seattle Center anticipates earned revenue to rise substantially during the next biennium by nearly \$3 million (11.7%). Parking and monorail receipts, leases for the major cultural institutions, concession and food receipts from the Armory, reimbursable labor for community and commercial events, and other sources will bring Seattle Center closer to achieving pre-pandemic revenue levels. These increases are attributable to rising visitor volumes as well as proposed increases to parking and facility fees. Parking in particular among all revenue streams is expected to grow the most over the biennium (20.8%), and the proposed budget includes parking staffing enhancements to meet this need.

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$4,907,354

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$395,121

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Add Event Booking Representative

Expenditures \$120,980
 Position Allocation 1.00

This item adds an Event Booking Representative to provide support in sales, marketing, contract management, and other event-related activities. This position replaces a long-term intermittent employee who held these responsibilities for several decades. This item is funded via revenues generated from facility and parking fees, concession proceeds, and other sources.

Seattle Center

Winterfest Support

Expenditures \$240,116

The 2025-2026 Proposed Budget includes appropriations out of the Arts and Culture Fund to three City departments which have arts and culture-related spending. The proposed budget includes legislation to broaden the uses of Admissions Tax from the Arts and Culture Fund. The Office of Arts and Culture, Seattle Center and Seattle Parks and Recreation budgets use Admissions Tax to support arts and culture spending.

Winterfest is Seattle Center's annual five-week festival encompassing live shows at the Seattle Armory, the Fountain of Light, and other attractions. The budget for Winterfest was substantially decreased in 2019 for General Fund savings. Seattle Center has been funding the event since 2021 using higher than projected revenues. This item reinstates budget for the event with Admissions Tax revenue.

Alternative Funding for Folklife Festival

Expenditures -

This budget-neutral item shifts \$381,711 in funding for the Northwest Folklife Festival, Seattle Center's free, four-day, multicultural, intergenerational Festival held on Seattle Center grounds, from the General Fund to be funded with Admissions Tax revenue. This change will not affect programming.

Alternative Funding for Festál

Expenditures -

Festál, Seattle Center's series of 24 cultural festivals produced in partnership with numerous community organizations, has received support from Admissions Tax revenue from the Office of Arts and Culture since 2019. This item increases the level of support from the Admissions Tax. The revenue side of the budget reflects this change.

Alternative Funding for Cultural Administration

Expenditures -

This budget neutral item shifts funding for Seattle Center Cultural Administration staff, including a Manager and a Cultural Programs Specialist from General Fund to the Admissions Tax. These staff coordinate, procure and manage Festál events.

FIFA Coordinator

Expenditures \$265,049

The proposed budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding for a coordinator position to provide leadership and support in preparation for the City's participation in the 2026 FIFA World Cup games, which will have a significant impact on economic activity.

Update Seattle Center Parking Staffing

Expenditures \$123,708

Position Allocation 1.00

Parking needs and revenue have been increasing in the post-COVID era. This item provides support for parking staff by restoring two supervisor positions eliminated in the 2010 Adopted Budget via reclassifying two Parking Attendants; adding one Parking Attendant; increasing budget for training and succession planning; and augmenting wages for a Transportation Manager to ensure internal equity with identical classifications.

Seattle Center

Shift Funding for Campus Positions

Expenditures	-
--------------	---

This item shift funding for six positions (Dining Room Attendants, Janitors, Laborers and Security Officers) from General Fund to Seattle Center Fund subject to operational needs and available earned revenue. This results in \$491,449 in General Fund savings without decreasing services for Seattle Center's main campus.

Guest Services Staffing Changes

Expenditures	\$15,419
Position Allocation	(1.00)

This item decreases two part-time positions and reclassifies one part-time position to a full time Manager in Guest Services, and shifts \$145,191 in funding from General Fund to Seattle Center Fund. This reduction and reclassification reflect the diminished need for regular admissions-related work since the closure of Key Arena.

Reclassify Strategic Advisor Position

Expenditures	\$(45,714)
Position Allocation	-

This item reclassifies a Strategic Advisor 3 position to a Strategic Advisor 2 position with job duties in development and grant writing. This achieves General Fund savings of \$107,547 due to the reduced cost of the position and shifting funding for the position to Seattle Center Fund.

Reclassify Executive Assistant to Administrative Staff Assistant

Expenditures	\$(30,419)
Position Allocation	-

This item achieves General Fund savings by reclassifying an Executive Assistant to an Administrative Staff Assistant. This position supports the Programs and Events Division. The change enhances staffing consistency across the department.

Remove Support for Bumberworks

Expenditures	\$(150,000)
--------------	-------------

This item removes Payroll Expense Tax support for Seattle Center's Bumbershoot Festival workforce development program (Bumberworks). First funded in last year's Adopted Budget, this program involves about 20 youth or young adults in hands-on training in music festival production and other skills.

Remove General Fund from Waterfront

Expenditures	\$(100,000)
--------------	-------------

This item removes General Fund support for maintenance at Pier 62. Seattle Center is responsible for operations, maintenance and public safety for the Waterfront, and receives Metropolitan Park District funding from Seattle Parks and Recreation for this purpose.

Seattle Center

Increase Budget for Strategic Advisors

Expenditures \$98,016

This item increases budget to support a change in responsibilities for two Strategic Advisor positions in the Capital Projects and Planning workgroup. These positions have accrued enhanced responsibilities due to staff retirements and other personnel changes. This item is funded via revenues generated from facility and parking fees, concession proceeds, and other sources.

Momentum Software Licensing

Expenditures \$50,000

Seattle Center utilizes Momentum software for event scheduling and billing. This item increases budget to accommodate a planned rise in the licensing fee. This item is funded by revenues generated from facility and parking fees, concession proceeds, and other sources.

Proposed Capital

Monorail Improvements at Westlake Station

Expenditures \$350,000

The proposed budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses one-time payroll tax funding for schematic design for a Westlake Station upgrade and ADA accessibility improvements. The purpose is to evaluate options to reconfigure the Westlake Station side of the Monorail path, including redesign of the area where train right-of-way paths constrict, to allow for the trains to run independently at all times.

Municipal Energy Electrification Program - Armory and McCaw Hall

Expenditures \$195,000

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item uses payroll tax funding to fund projects associated with the Municipal Energy Electrification Program (MEEP). This funding will support the LED Lighting Program at the Seattle Armory and McCaw Hall. For more information, see Proposed 2025-2030 Capital Improvement Program.

McCaw Hall Capital Reserve Fund

Expenditures \$(19,990)

Revenues \$(20,000)

This item updates expenditures and revenues for the McCaw Hall capital reserve fund and revises the outyear budget allocations. The negative balances reflect a correction to the baseline budget.

Update Memorial Stadium Revenue & Expense to LTGO Bond Funds

Expenditures \$(648,900)

This item shifts revenue and expenditure appropriation for the redevelopment of Memorial Stadium at Seattle Center from the 2025 Limited Tax General Obligation (LTGO) Taxable Bond Fund and other funding to \$9 million of 2026 and \$29 million 2027 LTGO Bond proceeds. An interfund loan of \$9.3 million backed by Real Estate Excise Tax proceeds will be issued to Seattle Center in 2025 to meet initial costs of the project. The loan will subsequently be paid back using the LTGO Bond proceeds. This item also includes a technical correction to debt service to match the updated issuances in 2026 and 2027.

Seattle Center

The City's investment will be part of a public-private partnership, including \$66.5 million from the Seattle Public Schools district (SPS) approved by Seattle voters in the BTA V levy last February, philanthropic contributions, and, potentially, investments by private entities.

Proposed Technical

Update Campus Fund Earned Revenue

Revenues	\$3,062,808
----------	-------------

This change request updates Seattle Center's revenue budget from various sources. Approximately 60% to 80% of campus expenditures are funded by earned revenue from leases, parking, event reimbursements, and other miscellaneous sources. Seattle Center is also increasing minimum rates for contract parking and facility fees to align with current market rates.

Update Waterfront Operating Budget

Expenditures	\$590,649
Revenues	\$(4,989,071)

This technical item makes adjustments to fixed funding amounts from Metropolitan Park District and Friends of Waterfront for operations, maintenance and public safety at the Waterfront. The budget includes administration, laborers, gardeners, security staffing, equipment, grounds materials and supplies, and other associated costs. This item also makes a technical correction as Metropolitan Park District funds have been mistakenly included in Seattle Center's budget as revenue and not an interdepartmental transfer.

Applied Benefits for Waterfront Staff

Expenditures	\$(1,987,896)
--------------	---------------

This technical item is needed to offset the applied benefits (Paid Time Off, Workers Compensation, Unemployment, Healthcare) included in the Waterfront budget.

Allocate Central Costs to McCaw Hall and Waterfront

Expenditures	\$(466,974)
--------------	-------------

This item achieves General Fund savings by reallocating internal services costs for McCaw Hall to the McCaw Hall Fund, and for Waterfront to the Metropolitan Park District Fund; the Waterfront budget change is also reflected in the Update Waterfront Operating Budget item. These internal service costs encompass rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, and Seattle Department of Human Resources.

Reclassify Security Officer to Security Programs Specialist at Waterfront Park

Position Allocation	-
---------------------	---

This revenue-backed item reclassifies a Security Officer to a Security Program Specialist. Seattle Center is responsible for operations, maintenance and public safety at the Waterfront, and the complement of security staff at the Waterfront requires an on-site supervisory presence. This position oversees 17 Security Officers and 3 Senior Security Officers.

Seattle Center

Climate Pledge Revenue Share Increase

Expenditures \$700,000

This revenue-backed item increases budget authority to pay Climate Pledge Arena (ArenaCo) its share of 2024 Parking Revenue per the negotiated agreement governing profits from Parking Operations. The revenue sharing estimates have elevated due to Climate Pledge Arena events and higher demand.

Add Operating Expenses for 5th & Mercer Building

Expenditures \$381,084

This revenue-backed item increases budget authority for operations and maintenance at the 5th and Mercer building. The building was formerly leased by KCTS (Cascade Public Media). Operating expenses, previously paid by the lessee, are now paid by Seattle Center which in turn is reimbursed via new short-term leases.

Colorcraft Building Lease Increase

Expenditures \$97,257

This item increases budget authority to accommodate anticipated raised rental costs for the building ("Colorcraft") located adjacent to Seattle Center at 621 Second Avenue North, Seattle Washington. Seattle Center uses the Colorcraft building for office space, a metal fabrication shop, electrical shop, carpenter shop, and paint shop.

Building Emissions Performance Standard (BEPS) Assessment

Expenditures \$50,000

This item increases budget authority to comply with the City of Seattle's Building Emissions Performance Standard (BEPS) climate law. The law focuses on emissions reduction or "decarbonization" which requires owners of nonresidential and multifamily buildings in Seattle to improve their buildings through strategies such as increasing energy efficiency and upgrading to zero emissions equipment.

Campus Signage Maintenance

Expenditures \$(96,549)

This item decreases budget authority for expenses related to campus electric signage, including warranty costs, internet fees, small repairs and the license used to manage the campus Wi-Fi network.

Update McCaw Fund Earned Revenue

Revenues \$(188,659)

This change request updates the earned revenue projection for McCaw Hall at Seattle Center.

Update McCaw Fund Expenditures

Expenditures \$(2,458,660)

This item aligns expenditures for McCaw Hall with expected revenue, and results in decreasing appropriations in General Fund and the department's operating fund.

Seattle Center

Update Interfund Loan Payment

Expenditures	\$965,116
--------------	-----------

Seattle Center acquired an interfund loan of \$4.6 million in 2019 to mitigate revenue loss related to the Key Arena closure, and received an additional \$13.4 million for COVID-era tenant rent abatements, all to be paid back by 2033 via earned revenue. This item increases budget authority to align appropriations with the repayment schedule. Annual payments on debt service total \$1.5 million in 2025 and \$1.575 million in 2026.

Federal Transit Authority Formula Fund Grants for 2025/2026

Expenditures	\$(76,459)
Revenues	\$(76,459)

This revenue-backed item adjusts appropriations for a federal formula grant from the Federal Transit Administration funding preventative maintenance for the Monorail.

Reconciliation of Pooled Benefits

Expenditures	\$1,446,554
--------------	-------------

This item reconciles the Indirect Account for Pooled Benefits. These changes are technical in nature and do not affect services to the public.

Ongoing Changes from Current Year Legislation

Position Allocation	6.00
---------------------	------

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance. This includes the addition of six Security Officers to service the Waterfront. These positions were originally scheduled to be included in the 2025 budget to coincide with the opening of the new Overlook Walk; they were instead added to supplemental legislation, because the Overlook Walk opened ahead of schedule in 2024.

Final Adjustments for Standard Cost Changes

Expenditures	\$(136,683)
--------------	-------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Fund Balancing

Revenues	\$(266,802)
----------	-------------

This is a technical item to record a fund balancing entry for the Seattle Center Fund which is primarily managed by this department.

Employee Benefits	2,611,089	(5,673,183)	(4,188,114)	(4,232,732)

Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery program is to recover costs associated with indirect programs within Leadership and Administrative BSL from the department's direct cost programs.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Indirect Cost Recovery Offset	(608,148)	4,764,055	(803,430)	(843,125)

Seattle Public Library

Tom Fay, Chief Librarian

(206) 386-4636

<http://www.spl.org>

Department Overview

Seattle Public Library (SPL), founded in 1891, includes the world-renowned Central Library, 26 neighborhood libraries, and a robust "virtual library" available 24/7 through SPL's popular website and Mobile Services. The Central Library and 26 neighborhood libraries provide essential services such as library collections, computers and Wi-Fi access, meeting rooms and study rooms, along with programs that promote lifelong learning, civic engagement, and economic vitality.

SPL is governed by a five-member Library Board of Trustees, who are appointed by the Mayor and confirmed by the City Council. The Revised Code of Washington (RCW 27.12.240) and the City Charter (Article XII, Section 5) grant the Board of Trustees "exclusive control of Library expenditures for Library purposes." The Library Board adopts an annual Operations Plan in December after the City Council approves SPL's budget appropriation.

Budget Snapshot

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Seattle Public Library. The department will continue to maintain consistent operating hours, offer a robust physical and electronic collection, and invest in community programs, while also engaging in national efforts such as providing access to banned books and advocating with lawmakers to address sharply escalating costs for digital materials.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in the areas of information technology and library materials; the department also increased its staff vacancy rate savings and used accumulated fund balance savings to address the shortfall.

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$9,137,061

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,248,372

Revenues \$166,187

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the

Seattle Public Library

department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Final Adjustments for Standard Cost Changes

Expenditures	\$(308,216)
--------------	-------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Library Materials Reduction

Expenditures	\$(350,000)
Revenues	\$(350,000)

Physical material reductions include modest decreases to magazine and newspaper subscriptions, reference books, DVDs and Blu-Ray Discs, and adult fiction audio and printed materials. SPL will initiate the first year of a three-year phase-out of music CDs from its collection. SPL will also end its subscription to the ProQuest database due to its escalating cost and utilization. Seattle residents can continue accessing ProQuest via the King County Library System.

Information Technology Reduction

Expenditures	\$(100,000)
Revenues	\$(100,000)

As a result of continuous improvement programs started in 2022, SPL can decrease its budget for information technology accessories such as cabling. SPL is also updating its cost model for redundant equipment replacement, which will achieve efficiencies and result in savings. SPL will forgo purchases of new hybrid meeting carts while retaining maintenance and services for carts currently in ten branch locations. SPL will also consolidate e-mail-based patron notification and marketing capabilities to a more cost-effective platform without impacting customer service.

Increase Vacancy Savings Rate

Expenditures	\$(390,000)
Revenues	\$(390,000)

In the post-COVID crisis period, SPL has budgeted an approximately 4% staff vacancy rate. This item increases the budgeted staff vacancy rate to 5.5% to capture additional General Fund savings and prevent service-level reductions. SPL will prioritize positions essential to keeping open hours at library branches and maintaining 2019 levy operations commitments.

Use of Library Levy Fund Balance

Expenditures	-
Revenues	\$(1,900,000)

This item uses accumulated fund balance with the 2012 and 2019 levies, involving a revenue reduction to the Library operating fund reflecting a General Fund reduction, and reappropriation of levy funds. This one-time use of fund balance allows SPL to avoid service-level reductions in 2025 and 2026.

Seattle Public Library

Proposed Technical

Revenue Adjustments

Revenues	\$9,867,804
----------	-------------

This item reflects projected increased revenue for parking, fines and fees, printing and space rentals. 2025 will mark the first year since the outset of COVID-19 that total-Library generated revenue levels are projected to return to pre-pandemic levels. This item also aligns levy property tax revenues and interest earnings for 2025 and 2026 with SPL's long-term financial plan.

Fund Balancing

Expenditures	\$(172,169)
--------------	-------------

This is a technical adjustment to bring the beginning balance for the 2019 Levy Fund into alignment with the spending plan associated with the voter approved 2019 Library Levy, in addition to net cost impacts associated with a labor bargaining agreement.

Revenue Fund Balancing

Revenues	\$5,926,557
----------	-------------

This is a technical item to record a fund balancing entry for the 2012 Library Levy Fund and 2019 Library Levy Fund, which are primarily managed by this department.

Department of Education and Early Learning

Dwane Chappelle, Director

(206) 233-5118

<http://www.seattle.gov/education>

Department Overview

The mission of the Department of Education and Early Learning (DEEL) is to transform the lives of Seattle's children, youth, and families through strategic investments in education. DEEL advances this mission by investing in equitable education opportunities, high-quality learning environments, and student and family supports. DEEL investments contribute to four department results: (1) families have access to affordable, quality childcare, (2) children are kindergarten-ready, (3) students graduate high school college- and career-ready, and (4) students attain a postsecondary degree, credential, or certificate.

With investments across the prenatal-to-postsecondary continuum, DEEL supports children, youth, and families to address disparities in educational opportunity gaps. By braiding and blending resources from the Families, Education, Preschool, and Promise (FEPP) Levy, the Sweetened Beverage Tax (SBT) fund, the City's General Fund, Washington State's Early Childhood Education and Assistance Program (ECEAP), and other grants, DEEL operates direct-service programs, contracts with community-based and institutional partners, and provides quality teaching and professional development supports to providers and educators.

Department of Education and Early Learning

Budget Overview

DEEL implements its mission to support Seattle’s children by leveraging its funding from the Families Education Preschool and Promise (FEPP) Levy; the City’s General Fund; Sweetened Beverage Tax (SBT) revenues; federal, state, and private grants; and partnerships with other City departments. The final year of the current FEPP levy programming runs through the 2025-2026 School Year. This budget reflects an alignment with the funding levels as described in the FEPP Implementation and Evaluation (I&E) plan and adjusts FEPP Levy funding to sustain some programming through the end of the 2025-2026 School Year. Because FEPP Levy expires at the end of 2025, the budget shows a significant reduction in revenues and expenditures in 2026. DEEL is actively engaged in planning for the levy renewal and a future budget will include a proposed levy renewal plan.

DEEL’s 2025-26 Proposed Budget includes funding for the Mayor’s Youth Mental Health Investment Strategy that was implemented in 2024. This initiative includes the integration of school-based mental health counselors and culturally specific programming provided by community-based organizations. The effort is part of a broader, multi-faceted city-wide strategy aimed at addressing youth mental health needs. This strategy ensures that services are culturally responsive, community-focused, evidence-based, and guided by the needs of youth and their families.

The General Fund revenue forecast for the City’s 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, General Fund programming for Culturally Sensitive and Responsive Programming, Restorative Justice, Mental Health, and some administrative costs are shifted from the General Fund to the FEPP Levy, Families and Education Levy, and Payroll Expense Tax.

Due to an ongoing reduction of Sweetened Beverage Tax (SBT) revenues, DEEL identified reductions starting in 2026 to their SBT funded programs, including to the Development Bridge Contract, the ParentChild+ Contract, and the SBT portion for the Child Care Health Program.

Department of Education and Early Learning

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$2,475,825

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$299,224

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Remove 2024 One-Time Adds

Expenditures \$(10,543,000)

This is a technical change to remove one-time budget adds from the baseline budget. The adjustments include removing \$2.9 million General Fund childcare worker payments, \$1 million Payroll Expense Tax funded K-12 Mental Health, \$500,000 Families, Education, Preschool, and Promise (FEPP) Levy funded K-12 Mental Health, \$2 million in FEPP funded K-12 Culturally Specific and Responsive programming, \$143,000 General Fund K-12 Culturally Specific and Responsive after school programming, and \$4 million in FEPP funded for Seattle Promise equity enhancements.

Youth Mental Health Baseline Alignment

Expenditures \$(20,000,000)

This item makes a technical change to align DEEL's baseline budget with current law for allowable uses of the Payroll Expense Tax funding.

Proposed Operating

General Fund Leadership and Administration Reduction

Expenditures \$(13,389)

This item reflects a 1% reduction to DEEL's General Fund leadership and administration budget and will result in General Fund savings to help address the City's forecasted General Fund deficit.

K-12 Sustain Educator Diversity

Expenditures \$750,000

This item uses FEPP Levy fund balance to sustain K-12 Educator Diversity programming provided in partnership with Seattle Public Schools and six community-based organizations through the end of the FEPP Levy (2025-26 School Year). This partnership focuses on increasing the number of BIPOC educators in Seattle Public Schools through recruitment, retention, and professional development activities.

Department of Education and Early Learning

K-12 Sustain Summer Learning

Expenditures \$1,000,000

This item uses FEPP levy fund balance to sustain Summer Learning Programming provided by 15 community-based organizations to over 1,000 students through the end of the FEPP Levy (2025-26 School Year). These funds directly support summer programming with enhanced or expanded academic, enrichment, and college and career readiness opportunities for Seattle-based K-12 youth disproportionately impacted by inequities in education including learning loss and disengagement. Learning loss and disengagement are more pronounced due to impacts of the COVID pandemic.

K-12 Sustain Youth Leadership

Expenditures \$392,914

This item uses FEPP levy fund balance to sustain K-12 Youth Leadership programming provided by six partner community-based organizations through the end of the FEPP Levy (2025-26 School Year). This partnership focuses on improving academic outcomes for historically underserved youth of color, immigrant and refugee youth disproportionately affected by systemic inequities through identity-affirming cultural education programming.

Post-Secondary Sustain Path to UW

Expenditures \$386,000

This item uses FEPP levy fund balance to sustain the Path to UW program through the end of the FEPP Levy (2025-26 school year). The Path to UW program provides access to transfer supports from dedicated advisors for Seattle Promise students as they continue their academic journey from Seattle Promise to the University of Washington.

Shift Administration Costs to FEPP Levy

Expenditures -

This budget-neutral item shifts \$397,000 in administrative labor costs from the General Fund to the FEPP Levy. This shift does not have a programmatic impact on DEEL's administrative capacity.

Shift Culturally Sensitive and Responsive Programming to FEPP Levy

Expenditures -

This budget-neutral item shifts \$875,000 for K-12 programs at community-based organizations that support Black Girls, LGBTQ+, Youth Leadership, and Educator Diversity from the General Fund to the FEPP levy. This transfer does not have a programmatic impact.

Shift Mental Health Programming to Payroll Expense Tax

Expenditures \$(500,000)

This item reduces \$500,000 General Fund for mental health supports. This programming will be incorporated in the Mayor's Mental Health Initiative funded with the Payroll Expense Tax.

Shift Restorative Justice Programming to FEL Levy

Expenditures \$(800,000)

This item shifts \$800,000 for Restorative Justice programming at Seattle Public Schools to the FEL levy in 2025. This shift does not have a programmatic impact and results in General Fund savings.

Department of Education and Early Learning

Sustain Post-Secondary Seattle Promise

Expenditures

-

This item uses FEPP Levy fund balance to sustain Seattle Promise programming, including equity enhancements. Seattle Promise enrollment is expected to exceed original FEPP Implementation and Evaluation plan estimates by nearly 600 students (67%). This additional appropriation will ensure DEEL has adequate resources to fully fund programming through its contract with Seattle Colleges for all Seattle Promise students in the final two school years of the FEPP Levy.

Youth Mental Health Funding Alignment

Expenditures

\$13,900,000

The Mayor's Youth Mental Health Investment Strategy, announced in June 2024, includes \$15 million of Payroll Expense Tax funding in both 2025 and 2026 between the Department of Education and Early Learning (\$13.9 million) and Seattle Parks and Recreation (\$1.1 million) for youth mental health prevention, early intervention, and treatment. Some of these investments may shift to the next levy, if approved by voters, in the 2026-2027 school year. This one-time item uses Payroll Expense Tax proceeds for the following initiatives:

Reach Out - \$560,000 in 2025 and 2026

This program focuses on preventing and early identification of youth mental health challenges by bridging the gap between the mental health needs of Seattle's youth and the limited availability of professional mental health resources. It also provides resources and training for parents, caregivers, and trusted adults to support youth in distress.

Telehealth Services - \$3.86 million in 2025, \$3.62 million in 2026

These services offer evidence-based online therapy for youth aged 13 to 24, along with support and resources for parents and guardians. These services include scheduled, one-on-one therapy sessions with qualified mental health professionals and interactive tools to support skill-building and individual well-being between sessions.

In Person Mental Health Supports - \$7.6 million in 2025, \$8.3 million in 2026

To expand access to mental health services, DEEL is also increasing in-person mental health support through existing School-Based Health Centers (SBHCs). Public Health Seattle King County (PHSKC) is adding an additional mental health clinician and a mental health coordinator at all SBHC sites at 21 middle and high schools, and providing system-wide mental health clinical consultation, training, and evaluation through partnerships.

In Person Community Hub. In alignment with Mental Health Supports, services include in person care to middle and high school students who are not served by School Based Health Centers. Programming will ensure that students have access to care during out of school time and during summer months. Services will also include expanding access to youth mental health care through community providers.

Universal Screening - \$1.5 million in 2025 and 2026

This service expands mental health screening in Seattle Public Schools to include high school students. Programming includes screening, brief intervention and referral to treatment and is designed to screen students periodically to proactively check-in on mental health, substance abuse and other dimensions of well-being.

Administration and Evaluation - \$380,000 in 2025, \$420,000 in 2026

This includes staffing and support to manage implementation, reporting, and evaluation of the Comprehensive Mental Health Initiative.

Department of Education and Early Learning

Early Learning Sweetened Beverage Tax Reduction

Expenditures

-

Due to an ongoing reduction in SBT revenues that was included in the City's August revenue forecast, DEEL identified reductions to their SBT-funded programs in 2026 that includes the following: 1) Transfers 1.5 FTE coaches to FEPP to align with workload changes; 2) reduces the Developmental Bridge Contract by 9%; 3) reduces the ParentChild+ Contract by 7%; and 4) reduces the SBT portion of the Child Care Health Program by 14%. SBT programming is not impacted in 2025 due to the one-time use of SBT reserves.

Proposed Technical

Early Learning FEPP Spending Plan Alignment

Expenditures	\$5,357,260
Revenues	\$2,205,000
Position Allocation	2.00

This item increases the Early Learning FEPP budget in 2025 and reduces it in 2026 to align with the 7-year Spending Plan included in the FEPP Implementation and Evaluation (I&E) Plan that was adopted by ordinance in 2018. The spending plan is based on levy revenue projections and program needs. The current FEPP levy expires in 2026; if the levy is renewed, the budget will be updated to reflect the new spending plan.

Two positions are added to support the planned expansion of the Seattle Preschool Program, which is expected to serve 2,500 students by the final year of the levy. These positions include an Early Education Specialist that monitors the contract and provides oversight of preschool providers and a Human Services Coordinator that is responsible for enrollment.

ECEAP Grant Award Increase

Expenditures	\$500,945
Revenues	\$500,945

This revenue-backed item increases DEEL's appropriation from additional funds received from the state's Early Childhood Education and Assistance Program (ECEAP). This is a recurring grant and this amount provides appropriation for DEEL in 2025 and 2026.

FEPP Levy Revenue

Revenues	\$3,013,468
----------	-------------

This item modifies FEPP Levy revenues in 2025 and 2026 to align with anticipated revenues in 2025 and 2026 and makes an adjustment to reflect ongoing investment earnings.

Final Adjustments for Standard Cost Changes

Expenditures	\$(69,104)
--------------	------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Department of Education and Early Learning

K-12 FEPP Spending Plan Alignment

Expenditures	\$669,551
--------------	-----------

This item increases the K-12 FEPP budget in 2025 and reduces it in 2026 to align with the 7-year Spending Plan included in the FEPP Implementation and Evaluation (I&E) Plan that was adopted by ordinance in 2018. The spending plan is based on levy revenue projections and program needs. The current FEPP levy expires in 2026; if the levy is renewed, the budget will be updated to reflect the new spending plan.

Leadership and Administration FEPP Spending Plan Alignment

Expenditures	\$100,000
--------------	-----------

This item increases the Leadership and Administration FEPP budget in 2025 and reduces it in 2026 to align with the 7-year Spending Plan included in the FEPP Implementation and Evaluation (I&E) Plan that was adopted by ordinance in 2018. The spending plan is based on levy revenue projections and program needs. The current FEPP levy expires in 2026; if the levy is renewed, the budget will be updated to reflect the new spending plan.

Ongoing Changes from Current Year Legislation

Position Allocation	1.00
---------------------	------

This item includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance.

Post-Secondary FEPP Levy Spending Plan Alignment

Expenditures	\$(142,553)
--------------	-------------

This item makes technical adjustments to align the budget with the Families, Education, Preschool and Promise Levy Implementation & Evaluation Plan. The plan includes a 7-year program budget summary and is based on cost model projections that include non-labor inflation, labor cost changes, and other programmatic changes.

Upward Bound Grant Award Increase

Expenditures	\$20,753
Revenues	\$20,753

This item increases appropriation authority to reflect an increase in the federal Upward Bound grant. The Upward Bound program serves high school students from low-income families and the goal of the program is to increase the rate at which participants complete secondary education and enroll in and graduate from institutions of post-secondary education.

Human Services Department

Tanya Kim, Director

(206) 386-1001

<https://www.seattle.gov/human-services>

Department Overview

The mission of the Human Services Department (HSD) is to connect people with resources and solutions during times of need, so all Seattle residents can live, learn, work, and take part in strong and healthy communities. HSD contracts with more than 200 community-based human service providers and administers programs to ensure Seattle residents have food and shelter, access to health care, opportunities to gain social and economic independence and success, and many more of life's basic necessities. HSD also serves King County as the Area Agency on Aging. HSD is committed to working with the community to provide appropriate and culturally responsive services.

Through the lens of racial equity, HSD supports programs, initiatives, and policies that address six investment impact areas:

1. Preparing Youth for Success
2. Supporting Affordability and Livability
3. Addressing Homelessness
4. Promoting Public Health
5. Supporting Safe Communities
6. Promoting Healthy Aging

HSD's work is funded by a variety of revenue sources, including federal, state, and inter-local grants, as well as the City's General Fund, Sweetened Beverage Tax Fund, Short Term Rental tax revenues, and the Payroll Expense Tax Fund.

Human Services Department

Budget Overview

The General Fund revenue forecast for the City's 2025 and 2026 Proposed budgets is insufficient to cover expected costs. While the 2025 and 2026 Proposed Budget increases the Human Services Department's overall General Fund budget compared to the 2024 Adopted Budget, some General Fund reductions were identified to mitigate this shortfall in revenues. Taken together the reductions strive to minimize the impact to direct service levels.

The 2025 and 2026 Proposed Budget for the Human Services Department (HSD) is \$364.7 million in 2025 and \$377.2 million in 2026. This is a 6.9% increase in 2025 above HSD's 2024 Adopted Budget and a 3.4% increase in 2026 above HSD's 2025 Proposed Budget. The proposed budget prioritizes investments in the areas of addressing homelessness, advancing community safety, and streamlining public health.

To support existing direct service providers, the proposed budget includes funding for inflationary increases for HSD's service provider contracts in 2025 (\$9.8 million) and 2026 (\$16.8 million).

The proposed budget for the Human Services Department includes \$128 million in 2025 and \$134.8 million in 2026 for addressing homelessness which equates to a 12% increase in 2025 and a 17% increase in 2026 compared to 2024 funding levels. HSD's homelessness budget is 71% of the citywide homelessness budget in 2025 (\$180.2 million total) and 70% of the citywide homelessness budget in 2026 (\$192.4 million in total).

For addressing homelessness, the proposed budget includes \$3.2 million of new ongoing investments to sustain the City's shelter capacity, \$2.6 million of new funding for an enhanced shelter in 2025 which will further expand in 2026 to provide additional behavior health services to those in need, and \$300k to expand the efforts of the City's Unified Care Team for which HSD coordinates outreach and referrals to shelter for people experiencing homelessness.

Starting in 2025, \$11.5 million of funding for homelessness outreach and prevention services will be managed by the City's Homelessness Division instead of the King County Regional Homelessness Authority (KCRHA) like previous years. After accounting for the operational change, the proposed budget adds funding for KCRHA in 2025 and 2026. It adds \$6.7 million in 2025, equating to a total of \$104.6 million for KCRHA in 2025, and adds an additional \$5.9 million in 2026 for a total of \$110.5 million for KCHRA in 2026.

HSD's proposed budget advances community safety. HSD's Supporting Safe Communities Budget Summary Level is \$61.9 million in 2025 and \$63.6 million in 2026; it includes investments managed by HSD's Homelessness Division and investments managed by HSD's Safe and Thriving Communities (STC) Division. STC manages the department's investments in community safety and violence prevention programs. The proposed budget includes \$8.15 million of new ongoing investments to support safe communities: \$2 million for human trafficking, \$4.25 million to address gun violence in schools and protect youth, and \$1.9 million in ongoing funding to sustain the Third Avenue Project's work conducting outreach and engagement along the Third Avenue corridor in the downtown core, previously funded with one-time funding.

Additionally, the proposed budget maintains existing investment levels in public health programming and streamlines the public health investments in HSD. It transfers \$5.6M of public health related investments to the Public Health Budget Summary Level that were previously in other HSD Budget Summary Levels, for a total investment of \$25 million in 2025. The City is continuing to expand Mobile Integrated Health program, SFD will add an additional team to the Post Overdose Team (H99) to conduct patient follow-up and recovery system navigation. It is the intention of the executive to add 2 counselor positions in HSD to support the Mobile Integrated Health expansion.

Human Services Department

Description of Incremental Budget Changes

Baseline

One-time Items Removed from Baseline Budget

Expenditures	\$(10,744,520)
Revenues	\$(730,020)

The item removes one-time revenue and expenditure budget appropriated in the 2024 Adopted Budget from the 2025-2026 Proposed base budget:

- \$992k General Fund for food and meal programs: \$650k for an emergency food fund, \$300k for meal providers, \$42k for senior meal programs.
- \$2.6M General Fund for homelessness programs administered by the KCRHA: \$500k for behavioral health services, \$100k for relocation of Rosie's Tiny Home Village, \$500k for contract inflation and provider pay, and \$1.5 million for RV parking and storage.
- \$5.14M General Fund for community safety programs: \$2 million for Public Defender Association for the Let Everyone Advance with Dignity (LEAD) and CoLEAD programs, \$1.9 million for the Third Avenue Project, \$500k for a gun violence reduction program, \$240k for a dedicated phone line for crisis prevention and intervention services for first responders, \$200k for mental health resources for crisis responders, \$200k for pre-filing diversion, and \$100k for survivors of police violence.
- \$450k General Fund for programs addressing gender-based violence
- \$800k General Fund for programs supporting public health: \$500k for behavioral health services for the Latino community and \$300k for comprehensive substance use disorder treatment.
- \$582k for opioid response backed by Opioid Settlement Fund revenue
- \$148k for data system replacement, backed by prior year grant revenue

Additionally, this item does not add budget for one-time reductions implemented in the 2023-24 budget process:

- \$100k for food program evaluation
- \$177k for youth development programs
- \$125k for Seattle Neighborhood Group community safety program
- \$1.8M to expand the Mobile Crisis Team program

Contract inflation

Expenditures	\$9,854,756
--------------	-------------

The Seattle Municipal Code (3.20.060) currently requires an annual inflationary adjustment based on the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for 12 months ending in June. For 2025, this is 4.4% increase and for 2026 it is an additional 3% increase on HSD's provider contracts.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures	\$8,875,792
--------------	-------------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Human Services Department

Reverse Bargained Annual Wage and Market Wage Increases to Base Budget from the Human Services Fund (16200) Budget

Expenditures \$(4,819,809)

This item removes the budget added to the Human Services Fund (16200) in the baseline item titled "Bargained Annual Wage and Market Wage Increases to Base Budget". The budget added in this change request was not tied to a revenue source and overstates the budget in the Human Services Fund (16200). The budget for the annual wage increases for HSD employees is included in HSD's base budget and other change requests that are backed by revenue.

Correction to Baseline Revenues

Expenditures \$192,577

Revenues \$192,577

This item corrects the budget in the Human Services Fund by removing negative "use of fund balance" revenue lines and zeroing out negative retirement account lines without a funding source. These lines were part of the baseline budget related to the reduction in the retirement account in the 2024 Adopted Budget.

Community Development Block Grant (CDBG) Baseline Adjustment

Expenditures \$(4,947,431)

Revenues \$(4,947,432)

This item removes HSD CDBG baseline amounts in all agency services and retains CDBG in baseline for administration.

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,334,052

Revenues \$603,150

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Open an Enhanced Shelter

Expenditures \$2,256,000

Funding in 2025 (combined with existing base funding) will support the opening of an enhanced shelter and shifts funding and bed capacity currently at the Pearl Warren Building in the Chinatown-International District (Navigation Center), for an enhanced shelter in a new location that will support a total of 60 shelter units.

In 2026, the amount for the enhanced shelter increases to \$5,278,466. The increased level of funding will deepen and expand wrap-around services and provide robust behavioral health services. The services will include access to mental health and substance use disorder treatment services, crisis assistance, and access to basic needs. The enhanced shelter will prioritize services for unsheltered homeless adults who are living with significant un/under-treated challenges related to behavioral health and substance use disorders.

Human Services Department

Add \$1 million for Tiny House Villages

Expenditures	\$1,000,000
--------------	-------------

This item adds \$1 million in ongoing funding to address an operating gap in the City's Tiny House Village (THV) investments, which provides ongoing funding for operating and behavioral health services that were previously funded through one-time investments and ensures existing THVs remain open.

Add Ongoing Funding for Shelter Previously Supported with COVID-19 Relief Funds

Expenditures	\$2,200,000
--------------	-------------

Since 2022, \$2.2 million of funding for Africatown's Benu shelter with 150 beds serving African American men was funded with Coronavirus Relief Funds that expire in December 2024. This item adds \$2.2 million of ongoing funding to sustain the shelter and bed capacity into future years.

Community Development Block Grant (CDBG) for Homelessness Shelters

Expenditures	\$3,178,870
--------------	-------------

Revenues	\$3,178,870
----------	-------------

For the 2025-2026 Proposed Budget, the administration removed CDBG funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects.

This item continues \$3,150,000 of CDBG for homeless shelter services. Consistent with prior years, the funding will be included in the City's contract with the King County Regional Homelessness Authority.

Expand Unified Care Team Shelter Referrals to Weekends

Expenditures	\$308,074
--------------	-----------

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The 2025-2026 Proposed Budget expands services provided by the UCT from 5 to 7 days per week.

This item adds \$308,074 to allow for up to two shelter programs to offer extended intake hours. This would allow the UCT to be able to make referrals to shelter on weekends.

Ongoing Funding for the Unified Care Team Director

Expenditures	\$210,000
--------------	-----------

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The 2025-2026 Proposed Budget expands services provided by the UCT from 5 to 7 days per week.

This item adds \$210,000 for the UCT Director to oversee the interdepartmental workgroup tasked with resolving encampments and ensuring public spaces are accessible Citywide. In previous years this position was funded on a one-time basis with HSD's base budget.

Unified Care Team Administrative Positions

Expenditures	\$279,070
--------------	-----------

Position Allocation	2.00
---------------------	------

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness,

Human Services Department

removes trash and debris from encampments, and restores public spaces.

This item adds budget and 2 FTE to HSD for positions supporting the Unified Care Team that were previously funded with one-time funding in the Finance and Administrative Services Department budget:

- 1 Admin Spec III that provides high-level program and customer support by receiving, researching and responding to routine inquiries about unauthorized encampments.
- 1 Admin Staff Analyst that develops responses to complex inquiries and complaints regarding unauthorized homeless encampments and the City's homelessness programs and response efforts, supports UCT leadership through communications and proactive community messaging, and identifies recommendations on policy changes.

One Seattle Outreach

Expenditures	\$150,000
--------------	-----------

This item provides ongoing funding for the One Seattle Outreach (OS Outreach) program, currently piloted with one-time resources. OS Outreach is a component of the Downtown Activation Plan (DAP) that aims to engage individuals who are living on the street or otherwise in need of support services.

The goal of the OS Outreach program is to build relationships with people to facilitate connections to resources that improve their stability and well-being. The program works primarily in high-traffic areas of Downtown Seattle, connecting with individuals who face homelessness, substance use issues, struggle with affordability or are otherwise in need of support services.

Align Shelter & Village Lease Budget to Actual Lease Costs

Expenditures	\$(195,055)
--------------	-------------

This item reduces HSD's budget by \$195,055 to align HSD's actual shelter lease budget to actual costs. This reduction does not impact existing homeless shelter programs but instead right-sizes the line item to actual costs.

Reduce Funding for Administration

Expenditures	\$(85,210)
--------------	------------

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces funding for administration in the City's contract with the with the King County Regional Homelessness Authority (KCRHA) by \$85,210.

Addressing Gun Violence in Schools

Expenditures	\$4,250,000
--------------	-------------

Position Allocation	1.00
---------------------	------

This item adds \$4.25 million to support school-based violence intervention specialists, expand safe passage programs, expand case management for students most impacted by gun violence, and establish a family resource fund for those participating in case management.

Commercial Sexual Exploitation Interventions

Expenditures	\$2,000,000
--------------	-------------

Position Allocation	5.00
---------------------	------

This item adds funding to provide support for survivors of commercial sexual exploitation and sex worker interventions, including providing appropriate community-based support resources and advocates for systems navigation.

Human Services Department

Ongoing Funding for the Third Avenue Project (TAP)

Expenditures	\$1,900,000
--------------	-------------

This item adds ongoing funding to continue the Third Avenue Project (TAP) in 2025. TAP was previously funded on a one-time basis. This program has operated since late 2022 and addresses public safety concerns in the 3rd Avenue community.

Remove Budget for Strategic Advisor for Public Safety Systems Improvement

Expenditures	\$(199,274)
--------------	-------------

This item reduces funding for a Strategic Advisor position budgeted in 2023 for systems improvements supporting HSD's safety portfolio. This position is vacant.

Eliminate General Fund Support for Health Home Program

Expenditures	\$(424,507)
--------------	-------------

This item removes \$424,507 from the Health Home program. The Health Home program, launched in 2017, coordinates care and services for Medicaid beneficiaries who have chronic health conditions. City general funds were included to help launch and stabilize the pilot. In 2024, the program revenue became self-sustaining by meeting their target caseloads, allowing for the removal of general fund support.

Opioid Settlement Fund Appropriation Increase

Expenditures	\$209,801
--------------	-----------

Revenues	\$256,904
----------	-----------

This item increases the Opioid Settlement Fund appropriation in HSD by \$209,803.

It adds \$93,483 in ongoing funding for:

- Administration (\$13.5k)
- Opioid Abatement Council (\$13.5k)
- HSD staffing costs to support Health One, the Seattle Fire Department's Mobile Integrated Health response unit (\$45.5k)
- Contract inflation for Drug User Health Services (\$20.5k)

This item also adds one-time budget of \$116,318 to cover the cost of an FTE in HSD Director's Office to lead public health-related work. The proposed budget change titled "Bargained Annual Wage and Market Wage Increases to Base Budget" central change request adds appropriation of \$47,103 in 2025 and \$62,671 of Opioid Settlement Funds. The revenue for that change is included in this item.

Community Development Block Grant (CDBG) for a Community Facilities Request for Proposal (RFP)

Expenditures	\$1,705,116
--------------	-------------

Revenues	\$1,705,116
----------	-------------

For the 2025-2026 Proposed Budget, the administration removed CDBG funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects.

This item adds \$1,705,116 of CDBG funds to continue funding for community facilities. HSD plans to establish an annual RFP process where Seattle's human service agencies can apply for capital funding on a predictable cycle that is equitable and transparent.

Human Services Department

Community Development Block Grant (CDBG) for Minor Home Repair

Expenditures	\$500,000
Revenues	\$500,000

For the 2025-2026 Proposed Budget, the administration removed CDBG funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects.

This item adds \$500,000 of CDBG funds to continue the Minor Home Repair Program that preserves affordable housing and prevents loss of housing units specifically for low-income seniors and people with disabilities.

Eliminate Funding for Legal Counsel for Youth and Children

Expenditures	\$(123,662)
--------------	-------------

This budget item eliminates funding for Legal Counsel for Youth and Children to provide homeless youth free legal assistance. The City of Seattle currently provides approximately half of the overall funding for this program. An estimated 49% of the funding for the program would remain, funded by other funders.

Eliminate Funding for Public Benefits Legal Assistance

Expenditures	\$(49,901)
--------------	------------

This item eliminates funding for a public benefits legal assistance program which provides direct legal representation, advice and counsel to single adults and families who have received an adverse decision regarding denial, termination, reduction or overpayment of state public assistance. HSD funds a small portion (9%) of the overall program. The program is currently run by Solid Ground.

Eliminate Funding for United Way Tax Prep Assistance

Expenditures	\$(100,000)
--------------	-------------

This item removes \$100,000 from HSD's budget that currently funds United Way of King County free tax preparation services for low- and moderate-income households.

Reduce funding to Support Administration for HSD's Youth and Family Empowerment Division

Expenditures	\$(107,420)
--------------	-------------

This item eliminates administrative funding set aside for language access, community engagement and professional development for the Youth and Family Empowerment Division.

Reduce Support for Information and Assistance Community Living Connections

Expenditures	\$(150,000)
--------------	-------------

This item reduces \$150,000 or 9.5% of total funding for Aging and Disability Services' budget for Information and Assistance Community Living Connections which is first point-of-contact call center services that navigate and guide older adults and caregivers to resources and programs that enable them to age in their homes and communities.

Reduction to Youth and Young Adults for Success Portfolio

Expenditures	\$(250,000)
--------------	-------------

This item is a 5% reduction to Supporting Youth and Young Adults for Success portfolio, which funds community agencies to provide preemployment skill building and mentorship. The \$250,000 is currently unallocated in 2024 and the proposed reduction would not impact service levels in 2025.

Human Services Department

Eliminate Funding for Technical Assistance Program for Community Organizations

Expenditures \$(215,000)

This item eliminates funding for technical assistance to a cohort of eight community organizations currently provided by Communities Rise. It does not directly impact human service delivery.

Eliminate General Fund Support for Food System Support & Food Evaluations

Expenditures \$(120,000)

This item eliminates general fund support for food and meals evaluation and community engagement which will reduce HSD's ability to understand program impact and best meet community needs.

Eliminate Unallocated Budget for Community Facilities

Expenditures \$(259,066)

This item eliminates \$259,066 of General Fund in the Community Facilities budget program. This budget has been used to fund community facilities projects in prior years but was unallocated in 2024. The 2025 budget supports \$3.6 million for Community Facilities programs.

Position Reduction to Protection and Advocacy Program Support

Expenditures \$(93,000)

Position Allocation (0.75)

This item reduces \$93,000 and 0.75 FTE from HSD's budget for a Senior Grants and Contract Specialist position in HSD's Aging and Disability Services Division. The position is currently vacant.

Reduce General Fund Support for Aging and Disability Services Case Management

Expenditures \$(1,100,000)

This item reduces Aging and Disability Services Case Management's in-house labor budget by \$1.1 million. The costs will be shifted and funded with Washington State Department of Social and Health Services Title XIX grant funds. HSD will continue to meet its obligation to provide Medicaid case management services to elderly, chronically ill, and disabled persons, who are at risk of institutionalization. This reduction can be absorbed in 2025 and 2026 without impacting service levels.

Reduce Unallocated Preparing Youth for Success Budget

Expenditures \$(70,000)

In 2024, these funds were used as a one-time investment and are unallocated in 2025.

Reduction to Aging Network Discretionary Budget

Expenditures \$(100,000)

This item reduces \$100,000 from HSD's Aging Network discretionary budget. The Aging Network's discretionary budget funds case managers who conduct face-to-face assessments and develop care plans for adults aged 55 and older who are not eligible for Medicaid Long-Term Services. These costs will be shifted and funded with Washington State DSHS Senior Citizen Services Act and Older Americans Act grant funds.

Human Services Department

Remove Budget for Vacant Senior Planning and Development Specialist Position

Expenditures \$(174,524)

Eliminates funding (\$174,524 GF ongoing) for a new Senior Planning and Development Specialist supporting the Youth and Family Empowerment (YFE) Division. The position is vacant.

Reduction to Sweetened Beverage Tax Funding for Culturally Nourishing Foods Programs in 2026

Expenditures -

Due to an ongoing annual reduction of approximately \$1.0 million in Sweetened Beverage Tax (SBT) revenues that was included in the City's August revenue forecast, this item when combined with the item titled "Reduction to Sweetened Beverage Tax Funding for Food Bags for Childcare Providers in 2026" reduces approximately 8% of the department's SBT funding in 2026. SBT revenues and expenditures in 2025 are not impacted with this change.

This item removes \$353,784 in 2026 for Culturally Nourishing Foods which provides contract funding for groceries, meals, transportation, and nutrition education.

Reduction to Sweetened Beverage Tax Funding for Food Bags for Childcare Providers in 2026

Expenditures -

Due to an ongoing annual reduction of approximately \$1.0 million in Sweetened Beverage Tax (SBT) revenues that was included in the City's August revenue forecast, this item, when combined with the item titled "Reduction to Sweetened Beverage Tax Funding for Culturally Nourishing Foods Programs in 2026" reduces approximately 8% of the department's SBT funding in 2026. SBT revenues and expenditures in 2025 are not impacted with this change.

This item reduces \$80,000 in SBT funds in 2026, eliminating HSD funding for produce bags for in-home family childcare providers (aka Farm to Child Care pilot). The produce bags enhance the food already provided through HSD's ongoing Child Care Nutrition Program (CCNP).

Reduce General Fund Support for Federal Grants Management Unit

Expenditures \$(179,690)

This item reduces the general fund support for HSD's Federal Grants Management Unit by \$179,690. HSD will use existing Community Development Block Grant appropriation to cover these costs.

Remove Budget for Vacant Senior Buyer Position

Expenditures \$(104,801)

This item reduces the general fund budget of \$104,801 for a Senior Buyer position in the Human Services Department. The position is vacant.

Shift Budget for Administrative Staff Analyst

Expenditures \$(96,906)

This item reduces \$96,906 of general fund supporting a portion of an Administrative Staff Analyst in the Leadership & Administration Budget Summary Level. HSD has identified other funding in the base budget that can replace the general fund. There is no staffing impact resulting from this change.

Human Services Department

Adjustment to Human Services Fund Revenue Backed Appropriation

Expenditures	\$9,317,074
Revenues	\$9,317,074

This item adds revenue backed budget appropriation of \$9,317,074 in 2025 and \$9,606,354 in 2026 to reflect the anticipated award amounts of over 16 grants HSD will receive and increases to other ongoing revenue sources.

Proposed Technical

Ongoing Changes from Current Year Legislation

Position Allocation	25.00
---------------------	-------

This change includes ongoing position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance. It continues:

- 19 full-time positions for the Unified Care Team: 5 Strategic Advisor I positions, acting as Regional Coordinators, and 14 Counselor positions will support the Unified Care Team's geographic approach to outreach with unsheltered individuals connecting them with shelter and other resources.
- 2 full-time positions in the Human Services Department to support HSD's homelessness portfolio: 1 Sr. Grants & Contracts Specialist and 1 Executive Assistant.
- 4 full-time grant funded positions in the Human Services Department: 1 Sr. Grants and Contracts Specialist and 3 Counselor positions. These positions are funded by increased ongoing revenue from the TXIX grant.

Final Adjustments for Standard Cost Changes

Expenditures	\$181,152
Revenues	\$9,724

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Internal Position Transfers

Position Allocation	-
---------------------	---

This item transfers positions between multiple budget programs in HSD to correctly align the FTE authority with the location of the budget for the position.

Redirect Budget for Position on Loan to the Mayor's Office

Expenditures	-
--------------	---

This item transfers \$205k of budget from the Promoting Public Health Budget Summary Level to the Leadership and Administration Budget Summary Level for an Operations Manager position on loan to the Mayor's Office.

Transfer AWI Appropriation to Align with Positions

Expenditures	-
--------------	---

This item transfers appropriation added in the change titled "Bargained Annual Wage and Market Wage Increases to Base Budget". This transfer moves budget into the correct Budget Summary Level based to align with HSD positions.

Human Services Department

Transfer Budget for Aging and Disability Services Division Director to Healthy Aging Budget Summary Level

Expenditures -

This item transfers \$217k of budget for the Aging and Disability Services Division director from the Supporting Affordability and Livability Budget Summary Level to the Promoting Healthy Aging Budget Summary Level.

Transfer budget for HSD Homelessness Director

Expenditures -

This item transfers \$235k of budget for the Director of Homelessness from the Leadership & Administration Budget Summary Level to the Addressing Homelessness Budget Summary Level.

Transfer Budget to Align Youth Investment Budget

Expenditures -

This item is a technical adjustment which transfers of \$276k from the Promoting Public Health Budget Summary Level and \$309k from the Supporting Affordability and Livability Budget Summary Level to the Preparing Youth for Success Budget Summary Level for proper alignment of youth investments in HSD's portfolio.

Transfer Crisis Response Team to Seattle Police Department

Expenditures \$(670,105)

This item transfers \$670,105 of General Fund budget in the Supporting Safe Communities BSL to Seattle Police Department. This funding will be utilized for pay for the Crisis Responders hired within SPD as City employees. This work was formerly contracted to a community-based organization, DESC, but has now been moved in-house into SPD.

Reallocate Contract Inflation Added in Error

Expenditures \$(894,844)

This item removes \$894,844 of unallocated funds from HSD's Aging and Disability Services Division's budget that was added erroneously in prior years for contract inflation.

Homelessness Division Budget Realignment

Expenditures -

Revenues -

The 2025-2026 Proposed Budget expands HSD's Homelessness Division by transferring funds from the King County Regional Homelessness Authority (KCRHA) back to the City and growing the existing team of 11 FTEs to 33 FTEs. This was first accomplished in the 2024 supplemental budget and is continued in the Proposed Budget. The Proposed Budget repurposes 1 HSD FTE and adds 21 FTEs to continue HSD's Homelessness Division structure established in 2024. The new structure is required to assume direct oversight of prevention and outreach investments transferred back to the City from the KCRHA and to implement the expansion of Unified Care Team. Base budget is used to fund the additional FTEs, along with increased funding for administration from the Housing Levy.

Within HSD's Addressing Homelessness Budget Summary Level this change:

- Transfers \$7.3 million of budget for outreach from the KCHRA budget program to City Managed Budget Program to fund contracts (\$5.8M) and to fund 14 FTE Counselors (\$1.5M) for the Unified Care Team.
 - Transfers \$2.8 million of budget for prevention from the KCHRA budget program to City Managed Budget Program to for prevention services contracts (\$2.7M) and for contract administration (\$231K).
- Transfers \$1.3M of Housing Levy budget funding from the KCRHA budget program to the City Managed budget program for contracted services.

Human Services Department

Public Health Budget Realignment

Expenditures -

This item is a technical adjustment that centralizes funding for public health related programs in the Human Services Department into the Promoting Public Health Budget Summary Level.

General Fund Budget Adjustment

Expenditures -

This item adjusts the baseline General Fund budget in the Human Services Department to align with department operations. Primary changes impacting budget summary levels include:

- \$770k transfer from the Preparing Youth for Success Budget Summary Level to the Supporting Affordability Budget Summary Level based to align allocation of labor budget in the Youth and Family Empowerment division.
- Reallocation of labor budget and changes to vacancy assumptions in the Safe and Thriving Communities, Leadership and Administration, and Homelessness divisions.

Human Services Fund Budget Adjustment

Expenditures \$(1)

Revenues \$(1)

Adjustment to the Human Services Fund base budget to correct and align the 2025-2026 Proposed Budget with HSD's current allocation of costs for labor, operating, and contracts to revenue sources.

Opioid Settlement Fund Alignment

Expenditures -

Revenues -

This item transfers base Opioid Settlement Fund budget in the Human Services Department to align with implementation in 2025 and 2026. There is no change to the budget summary level.

Fund Balancing Entry for the Human Services Fund

Revenues -

This is a technical item to record a fund balancing entry for the 16200 Human Services Fund, which is primarily managed by the Human Services Department.

Fund Balancing Entry for the Opioid Settlement Fund

Revenues \$4,430

This is a technical item to record a fund balancing entry for the 14510 Opioid Settlement Fund, which is primarily managed by the Human Services Department.

Human Services Department

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Addressing Homelessness Budget Summary Level:

City-Managed Homelessness Programs

The purpose of the City-Managed Homelessness Programs Budget Program is to provide funding for homeless services and provider contracts managed directly by the City and not under the purview of the King County Regional Homelessness Authority.

Human Services Department

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
City-Managed Homelessness Programs	3,615,040	10,129,230	15,836,431	16,358,994
Full Time Equivalents Total	2.00	2.00	-	-

Contract Oversight and Administration

The purpose of the Contract Oversight and Administration budget program is to fund staff responsible for managing contracts and outcomes with the City's homelessness providers, including the City's contract with the King County Regional Homelessness Authority.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Contract Oversight and Administration	535,014	1,245,052	1,933,069	1,977,603
Full Time Equivalents Total	3.00	3.00	8.00	8.00

Unified Care Team

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. HSD's role for the UCT is to coordinate shelter referrals for the Unified Care Team and provide administrative support.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Unified Care Team	1,990,519	2,456,936	5,812,963	6,034,925
Full Time Equivalents Total	9.00	9.00	32.00	32.00

Homelessness Prevention and Support

The purpose of the Homelessness Prevention and Support Program is to provide outreach and support services to homeless individuals and prevention programs which assist those at risk of homelessness so they remain housed. This budget program is no longer in use as of the 2021 Proposed Budget.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Homelessness Prevention and Support	-	-	-	-

Human Services Department

King County Regional Homelessness Authority

The purpose of the King County Regional Homelessness Authority budget program is to provide funding to support the operations and programs of organization responsible for supporting those experiencing homelessness in the Seattle/King County region.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
King County Regional Homelessness Authority	88,286,481	109,281,471	104,562,178	110,451,398

Navigation Team

The purpose of the Navigation Team program is to coordinate a response to unauthorized homeless encampments by referring individuals to safe sleeping programs and addressing the environmental issues in the encampment areas. This budget program is no longer in use as of the 2021 proposed budget.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Navigation Team	-	-	-	-

Shelters & Housing

The purpose of the Shelters and Housing Program is to support homeless individuals in moving to permanent housing through temporary safe sleeping spaces and supportive housing programs. This budget program is no longer in use as of the 2021 Proposed Budget.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Shelters & Housing	-	-	-	-

HSD - BO-HS-H4000 - Supporting Safe Communities

The purpose of the Supporting Safe Communities Budget Summary Level is to support programs that help reduce instances of individuals experiencing trauma, violence, and crisis.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Advocacy	-	-	-	-
Community Safety	33,802,221	36,138,155	38,484,764	39,612,681

Human Services Department

*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here				

The following information summarizes the programs in Supporting Safe Communities Budget Summary Level:

Advocacy

The purpose of the Advocacy Program is to provide survivors of domestic violence and sexual assault with client-centered services to support their safety. This budget program is no longer in use as of the 2021 proposed budget.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Advocacy	-	-	-	-

Community Safety

The purpose of the Community Safety Program is to support youth and adults at risk of involvement with the criminal justice system through violence prevention, intervention and re-entry supports to foster successful transitions to adulthood and safe communities.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Community Safety	33,802,221	36,138,155	38,484,764	39,612,681
Full Time Equivalents Total	4.50	4.50	1.00	1.00

Gender-Based Violence Services

The purpose of the Mayor's Office on Domestic Violence & Sexual Assault (MODVSA) is to support individuals, families, and communities to obtain safety and stability, ensure access to critical services, build community support to end abuse and violence and to hold those that cause harm accountable.

Human Services Department

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Gender-Based Violence Services	14,269,663	16,108,344	15,258,811	15,604,696

Prevention & Intervention

The purpose of the Prevention and Intervention Program is to support survivors and those at risk of domestic violence and sexual assault with education and therapeutic services to maintain their safety. This budget program is no longer in use as of the 2021 proposed budget.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Prevention & Intervention	-	-	-	-

Safe Communities Division Administration

The purpose of the Safe Communities Division Administration Program is to provide leadership, contract administration, and strategic planning support for the City's safety work.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Safe Communities Division Administration	2,404,055	2,698,693	3,514,874	3,653,372
Full Time Equivalents Total	17.00	17.00	20.00	20.00

Support Services

The purpose of the Supportive Services Program is to provide services to survivors of domestic violence and sexual assault including shelter, housing, support groups, and legal services. This budget program is no longer in use as of the 2021 proposed budget.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Support Services	-	-	-	-

Victim Advocacy

The purpose of the Victim Advocacy Program is to provide direct support to survivors of gender-based violence through coordination with the Seattle Police Department, legal system navigation, and social services support to maintain their safety.

Human Services Department

Office for Civil Rights

Derrick Wheeler-Smith, Director

(206) 684-4500

<http://www.seattle.gov/civilrights/>

Department Overview

The Office for Civil Rights (OCR) envisions a city of thriving and powerful communities that fosters shared healing and belonging. The OCR advances civil rights and removes barriers to equity by enforcing illegal discrimination laws in Employment, Housing, Public Places, Fair Contracting, Title VI and ADA Title II in the City of Seattle. We also work to realize the vision of racial equity by leading the City of Seattle's Race and Social Justice Initiative. The Race and Social Justice Initiative (RSJI) is the City of Seattle's long-term commitment to end racism and achieve racial equity in Seattle.

OCR works to achieve equity and advance opportunity in Seattle by:

- developing policies and promoting partnerships to achieve racial equity and social justice;
- enforcing City, state and federal antidiscrimination laws;
- providing free civil rights trainings and technical assistance to businesses and community groups;
- staffing the Seattle Human Rights Commission, Seattle Women's Commission, Seattle Lesbian, Gay, Bisexual, Transgender, and Queer Commission, and the Seattle Disability Commission;
- administering the City of Seattle's Participatory Budgeting process; and
- leading the City's Race and Social Justice Initiative (RSJI). The core focus for RSJI is to eliminate institutional and structural racism within and by the City of Seattle.

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office for Civil Rights (OCR). The department will continue to invest in programs for civil rights enforcement and policy analysis, city commissions, and the City's Race and Social Justice Initiative.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made to OCR's grant programs and outreach and engagement programming.

Total 2025 Proposed Budget	\$7,863,947	35.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$(5,125)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$646,339

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Office for Civil Rights

Transfer to Create Commissions Division

Expenditures	-
Position Allocation	-

This budget-neutral item transfers budget authority from the Race and Social Justice (RSJI) Division, Policy Division and Leadership and Administration Division to the Commissions Division; this also transfers two Strategic Advisors from the RSJI Division and two Planning and Development Specialists from the Policy Division. The Commissions Division supports the Seattle Human Rights, Seattle Disabilities, Seattle Women's and Seattle LGBTQ Commissions, and performs research and analysis related to commissions' work.

Proposed Operating

Final Adjustments for Standard Cost Changes

Expenditures	\$(123,362)
--------------	-------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Grant Programming Adjustment

Expenditures	\$(550,000)
--------------	-------------

This item reduces the Collective Network: Community Alternatives to Incarceration and Policing grant program by \$490,000. The program, budgeted at \$516,000, will continue to provide resources for community-based organizations supporting alternatives to addressing harm created by the criminal legal system. Initially funded with one-time resources, each grant cycle has focused on a different theme; past themes include black transgender and gender diverse communities (2021), and community-owned responses to domestic violence (2023).

This item also eliminates dedicated budget for the Racial Equity Fund (\$60,000). The Racial Equity Fund grant program provides small grants for technical assistance and capacity support. OCR has not made any awards the last two years. The Racial Equity Fund strategies and technical support continues under the Collective Network grant program; with each request for proposals, OCR offers technical assistance to all applicants that have an operating budget of \$2 million or less.

Outreach and Engagement Adjustment

Expenditures	\$(90,000)
--------------	------------

The item will decrease by half funding for consultants to engage with higher barrier community members and community organizations that develop programs to address and improve living experiences for such populations; it will also reduce funding for data collection and analysis. OCR will continue to conduct listening sessions with individuals who are unhoused, housing insecure, or may be struggling with substance use to help identify high-barrier communities' needs and priorities and bring them into the policymaking process.

This item also reduces support for Race and Social Justice Initiative-related outreach and events by \$5,000 or one-third; the department may explore partnerships with other departments or sponsorships with private funders.

Office for Civil Rights

Proposed Technical

Remove Unfunded Title VI Coordinator Position

Position Allocation (0.50)

This item removes position authority for a part time Title VI Coordinator position. This position, added in the 2021 Adopted Budget, has remained unfilled and was unfunded in the 2023 Adopted Budget. OCR's Enforcement Division has incorporated Title VI compliance and monitoring related to acceptance of federal funds into its work program.

Remove Participatory Budgeting Sunsetting Positions

Position Allocation (3.00)

OCR's role in the Participatory Budgeting process officially ends effective December 2024. The projects have been identified and the work has transitioned to City departments with projects. This item is a technical change to remove the sunsetting positions.

General Fund Revenue Adjustment

Revenues \$1,000

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

General Fund Revenue Adjustment

Revenues \$89,539

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Office for Civil Rights

Appropriations by Budget Summary Level and Program

OCR - BO-CR-X1R00 - Civil Rights

The purpose of the Civil Rights Budget Summary Level is to encourage and promote equal access and opportunity, diverse participation, and social and economic equity in Seattle. OCR works to eliminate discrimination in employment, housing, public accommodations, contracting, and lending in Seattle through enforcement, and policy and outreach activities. In addition, OCR is responsible for directing the Race and Social Justice Initiative, which leads other City departments to design and implement programs that help eliminate institutionalized racism.

Seattle Department of Construction and Inspections

Nathan Torgelson, Director

(206) 684-8600

<http://www.seattle.gov/sdci>

Department Overview

The Seattle Department of Construction and Inspections (SDCI) administers City ordinances regulating building construction, the use of land, and housing. It supports key City priorities, including delivering essential City services and building safer, more just communities.

SDCI is responsible for developing and enforcing policies and codes related to public safety, environmental protection, land use, construction and rental housing, including:

- Economic Displacement Relocation Assistance (EDRA) program
- Environmentally Critical Areas Ordinance (ECA)
- Housing and Building Maintenance Code (HBMC)
- Just Cause Eviction Ordinance
- Rental Registration and Inspection Ordinance (RRIO)
- Seattle Building and Residential Codes
- Seattle Condominium and Cooperative Conversion Ordinances
- Seattle Electrical Code
- Seattle Energy Code
- Seattle Grading Code
- Seattle Land Use Code
- Seattle Mechanical Code
- Seattle Noise Ordinance
- Seattle Rental Agreement Regulation Ordinance
- Seattle Shoreline Master Program (SSMP)
- Seattle Tenant Relocation Assistance Ordinance (TRAO)
- Seattle Tree Protection Ordinance
- State Environmental Policy Act (SEPA)
- Stormwater Code
- Side Sewer Code
- Tree Service Provider Registry

SDCI reviews land use and construction-related permits, annually approving more than 55,000 permits and performing approximately 240,000 on-site and 10,000 virtual inspections. SDCI's work includes permit review and community involvement with Master Use Permits (MUPs); shoreline permits and design review; review and approval of permits for construction, mechanical systems, site development, elevators, electrical installation, boilers, furnaces, refrigeration, signs and billboards; field inspections for all construction and trade-related permits; annual maintenance inspections of boilers, elevators, and refrigeration equipment; and home seismic retrofits.

SDCI also enforces compliance with the codes and handles approximately 40,000 contacts per year at the Code Compliance Complaint Center.

SDCI operations are funded by a variety of fees and General Fund resources. SDCI must demonstrate that its fees are set to recover no more than the cost of related services. To provide this accountability, SDCI uses cost accounting to measure the full cost of its programs. Each program is allocated a share of departmental administration and other overhead costs to calculate the revenue requirements of the program.

Seattle Department of Construction and Inspections

Budget Overview

Building permitting volume has changed since the end of the 2010s, when permitting volumes and valuations reached record levels. An uncertain economic climate and higher interest rates have dampened development nationwide. The City of Seattle continues to see steady permitting activity for smaller projects; however, building valuations have decreased. In addition, regulatory changes at the state and local level have impacted permitting applications and permitting revenues. The number of Master Use Permit (MUP) applications are substantially decreasing due to State and Local exemptions from Design Review and SEPA review. The 2024 projected MUP application volumes are expected to be 65% lower than 2019 levels. In addition, construction permit applications are projected to be 20% lower across the same period.

Through August 2024, the Seattle Department of Construction and Inspections (SDCI) generated \$1.7 billion in intake valuation and has issued permits totaling \$1.7 billion in project valuation. SDCI anticipates an additional \$1.5 billion in intake valuation for the rest of 2024.

Except for Code Compliance and Land Use Code Development, SDCI is primarily fee supported and its fees and charges are necessary to fund its permitting and inspections operations. Per state law and Seattle Municipal Code, all fees collected by SDCI for processing and inspecting permits are used for that purpose, and the fee structure is established accordingly.

Due to declining permitting activity and revenues in SDCI's Construction and Inspections Fund, the 2025-2026 Proposed Budget sunsets 20 positions earlier than previously planned and defunds an additional 9 positions to align the budget with the volume of anticipated work. The Mayor's budget proposal includes a 6.5% annual inflationary fee adjustment so that fees recover the costs of permitting and inspections. Proposed budget legislation also includes an increase in value-based building development plan review and permit fees and an increase in permit and inspection certificate fees for boilers, pressure vessels, and elevator equipment.

The proposed budget maintains core services for the Seattle Department of Construction and Inspections and continues to fund tenant services, rental assistance payments and eviction defense. SDCI will also continue staffing the code compliance complaint center, responding to reports of vacant buildings, and developing policies to help unreinforced masonry buildings survive the next earthquake.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services in a context of less General Fund, budget adjustments were made in the following areas:

Seattle Department of Construction and Inspections

- The tenant services budget is reduced by \$811,000 and the remaining \$1.76 million budget is shifting from General Fund to the Payroll Expense Tax. A portion of this budget will be used for rental assistance payments.
- A General Fund electrical contractor enforcement position is being shifted to permit fees to align with the current scope of the position.
- A vacant position that was added in the 2024 Adopted Budget is removed.
- Several items that are currently funded with General Fund are being shifted to eligible permit fees for various reasons.

Seattle Department of Construction and Inspections

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$10,730,642

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$3,120,373

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

2025 Baseline Adjustment to Remove One-Time Items

Expenditures \$(1,905,895)

This item includes budget adjustments to eliminate one-time changes in the 2024 Adopted Budget. These items include: removal of \$1 million for rental assistance; removal of \$50,000 to convene a tenant workgroup; removal of \$605,423 for workspace planning; removal of \$204,000 for a green buildings consultant; and removal of \$46,472 one-time IT and fleet costs associated with positions added in the 2024 Adopted Budget. This item also makes a budget-neutral change that shifts \$455,000 of costs for tenant services contracts from the Payroll Expense Tax Fund to the General Fund. The net impact of these changes is a \$595,000 reduction to the General Fund, a \$455,000 reduction to the Payroll Expense Tax Fund, and an \$855,895 reduction in the Construction and Inspections Fund.

2025 Baseline Adjustment to Correct Budget Program and Account

Expenditures -

This budget-neutral action adjusts SDCI's budget into the correct program and account codes.

Proposed Operating

Staffing Changes

Expenditures \$(5,016,775)

Position Allocation (20.00)

This item decreases appropriation authority by \$5,016,775 in 2025 and \$5,194,856 in 2026 due to changes in the regulatory environment and a decline in permitting activity. SDCI will sunset 20 positions in early 2025 that had been scheduled to sunset at the end of 2025. This item also reduces the appropriations for nine regular ongoing positions; however, SDCI is maintaining the associated position authority to facilitate rapid future staffing increases in the event of an increase in building permitting activity. These positions are all funded by building and land use revenues in the Construction and Inspections Fund.

Seattle Department of Construction and Inspections

2025-2026 Fee Legislation Revenue Change

Revenues \$7,598,200

This action aligns revenues in SDCI's 2025-2026 Proposed Budget with SDCI's proposed fee bills. The fee proposal revises most of SDCI's fees and charges beginning on January 1, 2025 and again on January 1, 2026. These fee revisions include an annual inflationary adjustment of 6.5% in order to bring fees closer to a rate that recovers the costs of permitting work. The fee proposal also includes an increase in value-based building development plan review and permit fees, technical and language changes, and an increase in permit and inspection certificate fees for boilers, pressure vessels, and elevator equipment. In 2026, the anticipated revenue increase is \$8,885,239.

Reduce Tenant Services Funding and Shift Remaining Funding to Payroll Tax

Expenditures \$(811,000)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces the General Fund tenant services budget by \$811,000 and shifts the remaining \$1,758,015 tenant services budget from General Fund to Payroll Expense Tax. The proposed budget allocates \$133 million in Payroll Expense Tax proceeds in 2025 to support housing. The payroll tax will be used to continue support for tenant services and eviction legal defense contracts and this budget includes \$527,000 for rental assistance payments.

Shift Funding for Electrical Contractor Enforcement Position

Expenditures -

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This action shifts \$241,041 in 2025 and \$252,375 in 2026 from the General Fund to the Construction and Inspections Fund. This Senior Electrical Inspector position was originally added by Council in 2020 and funded with General Fund with the intent that the position would issue fines and penalties. However, this position's work has evolved to be a collaborator with the State in identifying issues with electrical contractors at job sites. SDCI will continue this valuable work by shifting the funding from General Fund to Electrical Permit fees because the work is assisting enforcement at job sites with active electrical permits.

Remove Vacant Position Added in 2024 Budget

Expenditures \$(158,775)

Position Allocation (1.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This action reduces General Fund appropriation authority by removing a vacant Code Compliance Analyst position. This position was added in the 2024 Adopted Budget and was intended to support the Economic Displacement Relocation Assistance (EDRA) program, but the position was never filled. The result is a General Fund decrease of \$158,775 in 2025 and \$165,126 in 2026.

Transition URM Program Manager to Fees

Expenditures -

This item completes a funding transition for the Unreinforced Masonry (URM) Program Manager. When this position was added to SDCI's 2022 Adopted Budget, the plan was to gradually transition funding from General Fund to permit fees as the URM program matures. Therefore, this item shifts \$162,719 in 2025 and \$170,817 in 2026.

Seattle Department of Construction and Inspections

Align Code Compliance Director Funding with Current Duties

Expenditures -

This action shifts \$104,025 in 2025 and \$108,186 in 2026 from the General Fund to the Construction and Inspections Fund by aligning the Compliance Director's labor costs to reflect the nature of the position and currently performed executive duties. Furthermore, this change ensures that all of SDCI's positions at the Director level are funded consistently within the department.

Change Funding Source for Non-Billable Costs

Expenditures -

This item shifts \$61,010 in 2025 and \$63,879 in 2026 from the General Fund to the Construction and Inspections Fund by shifting non-billable licensing and inspections work from General Fund to permit and license fees. In addition, this action shifts \$269,669 in 2025 and \$306,628 in 2026 from the General Fund to the Construction and Inspections Fund by realigning the budget due to a departmental reorganization. This shift occurs because the Public Resource Center is transferring from the Land Use Services BSL to the new Customer Success BSL.

Transfer Side Sewer Program to SPU

Expenditures	\$(2,572,093)
Revenues	\$(2,671,759)
Position Allocation	(10.00)

This item reduces SDCI's position authority by 10 full-time employees. These positions are being transferred to Seattle Public Utilities (SPU) for the Side Sewer Program; thus, the appropriation authority associated with these 10 employees and the anticipated revenues from the work they perform are also being adjusted. SDCI has been performing this work for SPU due to a service level agreement which has been in effect since 2003 but is going to sunset in 2025. This change is intended to promote consistent interpretation, application, and enforcement of the side sewer code. It is also expected to ensure protection of SPU drainage and wastewater infrastructure. For additional information, please consult the SPU section of the proposed budget.

Oracle Enterprise Management Migration

Expenditures \$615,367

Seattle IT is planning to upgrade or migrate its two Oracle Enterprise Content Management (ECM) platforms to the cloud. This project is mandatory and is driven by the upcoming end of support for the current technology stack and software in December 2026. Multiple departments, including SDCI, are funding this item in Seattle IT. This one-time item increases SDCI's appropriation authority by \$615,367 in 2025 and \$900,208 in 2026. This item is funded by permit fees in SDCI's Construction and Inspections Fund.

Organizational Redesign in Response to Permitting Audit

Expenditures	-
Position Allocation	-

This budget-neutral action transfers existing appropriation authority and positions and creates new Budget Summary Levels (BSLs), Programs, and Master Projects. The existing appropriation authority and positions in Land Use Services and Permit Services are transferring into two newly created BSLs: Land Use and Engineering and Customer Success. In addition, the existing appropriation authority and positions in the Process Improvements & Technology BSL is transferring to two newly created BSLs: Process Improvements and Technology Investments. This action is necessary to implement a department-wide organizational redesign in response to the City's 2023 permitting audit.

Proposed Technical

Seattle Department of Construction and Inspections

Overhead Technical Adjustment

Expenditures	\$1,083,098
--------------	-------------

This action adjusts the distribution of indirect overheard expenses across programs in SDCI. This adjustment is necessary to account for proposed budget changes and organizational redesign in multiple budget programs. The adjustment is also necessary to redistribute central cost adjustments and indirect overhead across SDCI programs in response to proposed changes throughout the department. This item decreases 2025 General Fund appropriations by \$141,504 and \$149,870 in 2026; it also increases Construction and Inspection Fund appropriations by \$1,224,602 in 2025 and \$1,232,968 in 2026.

Stratification of the Permit Process Leader Classification

Expenditures	\$79,522
Position Allocation	-

This technical adjustment accounts for increased labor costs due to the stratification of the Permit Process Leader (PPL) title that was approved by Council in Ordinance 127960 (the fourth quarter 2023 employment ordinance). Seattle Department of Human Resources (SDHR) facilitated the adjustments in response to SDCI's request for the stratification of the PPL title to a series. This appropriation increase is entirely within SDCI's Construction and Inspections Fund.

Inflationary Adjustment

Expenditures	\$10,086
--------------	----------

This technical item provides a 3.5% inflationary adjustment for staffing costs funded by the Unrestricted Cumulative Reserve Fund. These costs are associated with the Tenant Relocation Assistance Ordinance. The inflationary increase in 2026 is \$15,396.

Final Adjustments for Standard Cost Changes

Expenditures	\$(1,431,491)
--------------	---------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Construction and Inspections Fund 2024 Revenue Adjustments

Revenues	\$6,719,043
----------	-------------

This item adjusts Construction and Inspections Fund revenues to align with the current 2025 and 2026 revenue forecast. This item does not include revenue changes associated with SDCI's fee changes for 2025-2026 Fee Legislation.

General Fund Revenue Adjustment

Revenues	\$85,000
----------	----------

This technical adjustment increases penalty fee revenue going to the General Fund based on actual revenues received in 2023.

Fund Balancing Entry

Seattle Department of Construction and Inspections

Revenues \$(6,302,516)

This item is a technical adjustment to balance revenues and expenditures for fund 48100, the Construction and Inspections Fund, which is managed by SDCI.

Appropriations by Budget Summary Level and Program

SDCI - BO-CI-U2000 - Land Use & Engineering Services

The purpose of the Land Use & Engineering Services Budget Summary Level is to provide a comprehensive review of development plans and to process land use and building permits.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Land Use	-	-	6,066,801	6,293,979
Land Use & Engineering Services CBA	-	-	3,923,387	3,923,387
Permit & Engineering	-	-	33,778,956	34,839,418
Total	-	-	43,769,144	45,056,784
Full-time Equivalents Total*	-	-	137.00	137.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Land Use & Engineering Services Budget Summary Level:

Land Use

The purpose of the Land Use Program is to provide discretionary permit review for Master Use Permits and advise on land use policy and technical matters for all permit reviews.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Land Use	-	-	6,066,801	6,293,979
Full Time Equivalents Total	-	-	31.00	31.00

Land Use & Engineering Services CBA

The purpose of the Land Use & Engineering Services CBA Program is to display the amount of unallocated Contingent Budget Authority (CBA) in the Land Use & Engineering Services BSL that has not been accessed. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Land Use Services Budget Summary Level:

Land Use Services

The purpose of the Land Use Services Program is to provide land use permitting services to project applicants, City of Seattle departments, public agencies, and residents. Land Use staff provide permit process information and regulatory expertise to inform pre-application construction project design. Land Use staff also review development concepts as part of a developer's permit application. The Land Use review process includes eliciting public input and facilitating public meetings and design review board meetings. It may also include coordination with various city and county agencies, defending project decisions during appeal to the Hearing Examiner or coordinating the department recommendation for a development application through the City Council approval process. These services are intended to ensure that development proposals are reviewed in a fair, reasonable, efficient, and predictable manner, and to ensure that the plans substantially comply with applicable codes, legal requirements, policies, and community design standards.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs Program is to collect and allocate departmental central costs such as pooled costs, paid-time-off, and other City central costs. The costs in this program are allocated to all department programs except the Contingent Budget Authority (CBA) Programs, the Process Improvements & Technology (PI&T) Program, and other programs in Leadership and Administration.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Indirect Costs	-	29,299,116	30,705,528	31,925,265

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs Program is to lead and support department employees; provide policy guidance and financial stewardship; manage the public disclosure of documents; and oversee relationships with the community, government agencies, and the media. The costs in this program are allocated to all department programs except the Contingent Budget Authority (CBA) Programs, the Process Improvements & Technology (PI&T) Program, and other programs in Leadership and Administration.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed

Office of Economic Development

Markham McIntyre, Director

(206) 684-8090

<http://www.seattle.gov/economicdevelopment>

Department Overview

The purpose of the Office of Economic Development (OED) is to shape an economically prosperous, diverse, just, and resilient city, with the guiding principle that an inclusive economy is more competitive. OED is committed to building an inclusive economy in the City of Seattle by making strategic investments to break down barriers and unlock access to opportunity, which will generate wealth equitably. OED programs focus on the five key pillars of the community-driven Future of Seattle Economy framework, which the City adopted as policy in Resolution 32099: investing in diverse talent and building our workforce, supporting small, women and minority-businesses, building BIPOC community wealth, investing in neighborhood business districts, and growing businesses and key industries.

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office of Economic Development. The department will continue to invest in the Future of Seattle Economy (FSE) framework. The FSE report, finalized in 2023 and adopted as City policy in Resolution 32099, provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget prioritizes strategies and programs that deliver direct impact and that leverage external funding sources, while maintaining operational and staffing capacity necessary to implement these programs. The proposed budget will allow the department to support programming in all five pillars of the FSE framework, and focuses funding in: supporting small, women, and minority-owned businesses; creating BIPOC community wealth, investing in neighborhood business districts, and growing business and key industries.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in several areas. The proposed budget focuses reductions on scalable programs that allow the department to continue delivering services to community even at reduced funding levels such as grant making programs. Additionally, the proposed budget focuses reductions in workforce development programs, allowing time for the City to complete a cross-departmental assessment of its workforce investments to ensure these investments advance the City's workforce goals and provide desired

Office of Economic Development

outcomes. The impact of these reductions is mitigated by continued investment in workforce development programs by regional partners.

Office of Economic Development

Description of Incremental Budget Changes

Baseline

Remove One-Time Items

Expenditures \$(18,136,499)

Approximately 49% of the Office of Economic Development's 2024 Adopted Budget was added as one-time funding to reflect the department's ongoing development of the Future of Seattle Economy framework in 2022 and 2023. That framework, which OED completed in 2023, was adopted as City policy in Resolution 32099 in 2023. This item removes one-time funding for the commercial affordability program (\$6.8 million), small business development capital (\$2.8 million), Downtown and neighborhood economic recovery program (\$2.6 million), Downtown Activation Plan initiatives (\$2.1 million), Seattle Restored programming (\$1.1 million), Business Improvement Areas program (\$850,000), Business Technical Assistance program (\$800,000), Chinatown-International District supports (\$450,000), miscellaneous administrative supports (\$370,000) and Seattle Jobs Center program (\$250,000). Several of these items are proposed to be partially restored and made ongoing in the 2025-2026 Proposed Budget.

Remove One-Time Community Development Block Grant Funding

Expenditures \$(1,000,000)

Revenues \$(1,000,000)

For the 2025-2026 Proposed Budget, the Executive removed Community Development Block Grant (CDBG) funds from departments' baseline budgets and reviewed department proposals for use of the federal grant funds for facilities and public services projects. This item removes CDBG funding from the Office of Economic Development's baseline budget. The Tenant Improvement Program invests in a business' infrastructure for growth and sustainability to help businesses stay in their neighborhoods. This item is proposed to be partially restored in the proposed budget.

Miscellaneous Technical Corrections

Expenditures -

This budget-neutral item makes several technical adjustments to budget at the budget program, detail project, and account levels to align with anticipated actuals.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$1,019,881

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$120,923

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Office of Economic Development

Proposed Operating

Ongoing Support for Business Community Ownership Fund

Expenditures \$2,500,000

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for the Business Community Ownership Fund (BCOF) program. This program was previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the program ongoing. The 2024 Adopted Budget included \$3.5 million one-time for this program, while the ongoing funding is \$2.5 million. The BCOF aims to address commercial displacement, empowering small businesses with long-term affordability and ownership of their own commercial spaces to keep them rooted in Seattle neighborhoods or provide a pathway to return to neighborhoods. This is a partnership with the Office of Economic Development and Grow America, which matches City funds dollar-for-dollar through financing and grants.

Ongoing Support for Capital Access Program

Expenditures \$2,450,000

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for the Capital Access Program (CAP). This program was previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the program ongoing. The 2024 Adopted Budget included \$2.75 million one-time for this program, while the ongoing funding is \$2.45 million. CAP aims to empower underserved businesses by dismantling financial barriers and promoting equitable access to capital. Specifically, CAP provides subsidized financial products leveraging programs offered by Washington State and provides tailored technical support services to businesses.

Ongoing Support for Commercial Affordability Programs

Expenditures \$2,431,756

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for Commercial Affordability programs. These programs were previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the programs ongoing. Specifically, this item provides \$1.5m for the Tenant Improvement Fund and \$1 million for Seattle Restored. The 2024 Adopted Budget included \$3.8 million one-time for these programs. The Tenant Improvement Program invests in a business' infrastructure for growth and sustainability to help businesses stay in their neighborhoods. Seattle Restored activates vacant storefronts through creativity and commerce and is scaling up a matchmaking strategy and supporting downtown retail strategy.

Ongoing Support for Neighborhood Capacity Programs

Expenditures \$2,067,705

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses

Office of Economic Development

payroll tax funding to provide ongoing support for Neighborhood Capacity programs. These programs were previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the programs ongoing. The proposed budget includes \$2.5 million for Neighborhood Capacity programming including the Only in Seattle program and Business Improvement Area supports. The 2024 Adopted Budget included approximately \$5 million in one-time funding for these programs. This item will support business district organizational capacity to foster comprehensive placemaking and place-keeping activities, including the exploration and creation of new business improvement areas.

Ongoing Support for Technical Assistance Programs

Expenditures	\$800,000
--------------	-----------

The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for technical assistance (TA) programs. These programs were previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the programs ongoing. Business TA is a fundamental component of equitable economic development, creating pathways to growth for entrepreneurs who historically have limited access to the resources and capital needed to establish, manage crisis, stabilize operations, and expand. This item will support several technical assistance programs including business operations and development consulting, digital sales access, legal assistance, and in-language business navigation consulting.

Community Development Block Grant Funding for Tenant Improvement Program

Expenditures	\$500,000
Revenues	\$500,000

For the 2025-2026 Proposed Budget, the Executive removed Community Development Block Grant (CDBG) funds from departments' baseline budgets and reviewed department proposals for use of the federal grant funds for facilities and public services projects. This item allocates CDBG funding to the Office of Economic Development to support the Tenant Improvement Fund program.

Increase Special Events Staffing

Expenditures	\$325,000
Position Allocation	2.00

The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for two additional positions, one Strategic Advisor 1 and one Administrative Staff Assistant, supporting the Special Events function within the Office of Economic Development. This item is necessary to align capacity on the Special Events team with demand for special events permits. This increased staffing is also necessary to respond to anticipated increased demand in the biennium, including for events related to the 2026 World Cup.

Ongoing Support for Language Access and Outreach

Expenditures	\$200,000
--------------	-----------

The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for language access and outreach supports. These costs were previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the costs ongoing. This item will support equitable communication and outreach strategies for economic development programs, services, and resources provided by the City and partners.

Office of Economic Development

One-Time Support for Enhanced Downtown Services as part of the Mayor's Downtown Activation Plan

Expenditures \$1,500,000

The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This one-time item provides \$1.5 million in 2025 and 2026 to support the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. Specifically, this item will allow the department to partner with a neighborhood business organization in Downtown to support cleaning and safety staff, providing supplemental services including litter removal, alley cleaning, graffiti removal, a safe walk service, and outreach to businesses.

One-Time Support for the Mayor's Downtown Activation Plan

Expenditures \$1,011,432

The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This one-time item provides approximately \$1 million in 2025 and \$575,000 in 2026 to support the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. Specifically, this item will support public space activations, public space improvements, and a centralized DAP communications strategy.

One-Time Support for South Downtown Initiatives as part of the Mayor's Downtown Activation Plan

Expenditures \$250,000

The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This one-time item provides \$250,000 in 2025 and 2026 to support the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. Specifically, this item provides funding for consultant contracts to support South Downtown intergovernmental work, which will include regular convenings of senior-level officials from local, regional, and state-level agencies to align and accelerate major public redevelopments that these agencies are undertaking. This external facilitation is an essential complement to the City's staffing in the Office of Economic Development and the Office of Planning and Community Development supporting initiatives in South Downtown, and supports the unique opportunity to add residential capacity as well as other development in the neighborhood.

Westlake Park Revitalization Planning and Activations as part of the Mayor's Downtown Activation Plan

Expenditures \$250,000

This one-time item provides funding to support planning and activations related to the Westlake Park revitalization as part of the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. This item complements Westlake Park revitalization efforts funded in the proposed budget for Seattle Parks and Recreation.

Workforce Development Strategic Realignment

Expenditures \$(2,716,655)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were also identified to facilitate this transfer to mitigate the General Fund shortfall. This ongoing item reduces external workforce development programs and

Office of Economic Development

services and realigns the department's focus around sector-specific strategies that support key industry work. Remaining funding, in partnership with King County, will enhance the ability of the Workforce Development Council of Seattle-King County to serve as the regional workforce development backbone organization.

Align Green Economy Programming with Available Resources

Expenditures	\$(500,000)
--------------	-------------

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. This ongoing item reduces funding for Green Economy programming within the Key Industries and Workforce Development program. The Office of Economic Development (OED) retains \$500,000 for Green Economy programs to support economic and workforce development strategies identified in the Green Economy Vision and the Citywide Climate Careers Strategy. OED will work with external partners and other City departments to support new programs, policies, and resources to recruit clean energy technology businesses to Seattle, grow new clean technology startup businesses in Seattle, and ensure equitable access to clean energy technology careers in alignment with the Future of Seattle Economy framework and the Mayor's Downtown Activation Plan.

Abrogate One-Time Funded Positions

Position Allocation	(1.50)
---------------------	--------

This item removes one-time funded positions related to the Generational Wealth Initiative that were transferred to the Office of Economic Development (OED) from the Department of Neighborhoods in the 2024 Mid-Year Supplemental Budget. OED retains funding and position authority for a Strategic Advisor 2 position to support the departments convening role in leading community wealth building programs across the City. The remaining position will support interdepartmental coordination and implementation of community wealth building programs, guided by recommendations in the Department of Neighborhood's Generational Wealth Initiative final report.

Proposed Technical

Ongoing Changes from Current Year Legislation

Position Allocation	1.50
---------------------	------

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance.

August General Fund Revenue Adjustment

Revenues	\$60,000
----------	----------

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Final Adjustments for Standard Cost Changes

Expenditures	\$(45,192)
--------------	------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Office of Hearing Examiner

Ryan Vancil, Hearing Examiner

(206) 684-0521

<http://www.seattle.gov/examiner/>

Department Overview

The Office of Hearing Examiner is Seattle's quasi-judicial forum for reviewing factual and legal issues raised by the application of City Code requirements to specific people or property. As authorized by the Seattle Municipal Code, the office conducts hearings and decides appeals in cases where members of the public disagree with a decision made by a City agency. Many of the matters appealed to the Hearing Examiner relate to land use and environmental permit decisions and interpretations made by the Seattle Department of Construction and Inspections. The Hearing Examiner also hears appeals in many other subject areas, and makes recommendations to the City Council on rezone petitions, major institution master plans, and other Council land-use actions.

The Hearing Examiner is appointed by the City Council, and Deputy Hearing Examiners are appointed by the Hearing Examiner. Examiners handle all pre-hearing matters, regulate the conduct of hearings, and prepare decisions and recommendations based upon the hearing record and applicable law. The Seattle Municipal Code requires all examiners to be attorneys with training and experience in administrative hearings. The Hearing Examiner also manages an executive assistant to oversee the administrative areas of the office, a legal assistant to assist with hearings and decision preparation, and an administrative specialist to support all other office positions and provide information to the public.

Budget Snapshot

Budget Overview

The 2025-2026 Proposed Budget maintains support to the Office of Hearing Examiner (HXM) and preserves the services provided by the Hearing Examiner to members of the public and the City Council. Technical adjustments have been made to bring the proposed budget into alignment with an Annual Wage Increase, and other citywide adjustments to internal service costs.

Office of Hearing Examiner

Incremental Budget Changes

Office of Hearing Examiner

	Dollars	FTE
2024 Adopted Budget	1,218,519	5.00

Total 2025 Proposed Budget	\$1,314,214	5.00

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$110,737

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Proposed Operating

Increase Filing Fees Revenue

Revenues \$3,500

This item anticipates increased revenues of approximately \$3,500 by raising filing fees from \$85 to \$120 in the Office of Hearing Examiner (HXM) the General Fund Office of Hearing Examiner - Revenue Budget Control Level (00100-BR-HX-REVENUE). Historically, the Hearing Examiner has raised fees at various intervals to support cost recovery and address inflation. The last fee increase was implemented in 2013.

Office of Hearing Examiner

Proposed Technical

Citywide Adjustments for Standard Cost Changes

Expenditures \$(24,353)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Final Adjustments for Standard Cost Changes

Expenditures \$(10,689)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Ongoing Changes from Current Year Legislation

Expenditures \$20,000

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance and contains a technical adjustment to add budget for an ongoing salary increase approved by the City Council with the Hearing Examiner's reappointment to a 4-year term. The salary increase was effective retroactive to March 21, 2023.

Office of Hearing Examiner

Expenditure Overview

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Appropriations				
HXM - BO-HX-V1X00 - Office of the Hearing Examiner

Office of Housing

Maiko Winkler-Chin, Director

(206) 684-3727

<http://www.seattle.gov/housing/>

Department Overview

The mission of the Office of Housing (OH) is to build strong and healthy communities and to increase opportunities for people of all income levels to live in our city. OH manages investments from the Seattle Housing Levy and other funding sources to fund the production, preservation, acquisition, and long-term stewardship of affordable housing in Seattle. Additionally, OH supports affordable housing providers and low-income residents, provides home repair and weatherization assistance, funds permanently affordable homeownership opportunities, and leads Citywide planning and policy development on affordable housing issues.

Budget Snapshot

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office of Housing (OH). Investments funded by the 2023 Housing Levy and other housing specific funding sources are maintained according to fund financial planning and Levy modeling. Additionally, the proposed budget uses accumulated administrative fund balances to support multifamily capital production and expanded staffing capacity for the department's finance and budget functions. The department's overall proposed budget of \$342 million is increasing by approximately \$3 million relative to the 2024 Adopted Budget; Payroll Expense Tax funded investments are offset by increases in other funding sources. The proposed budget continues investments in all program areas, including: multifamily lending, homeownership supports, home repair and weatherization programs, asset management, and departmental administrative costs.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund and other reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in several areas. The proposed budget focuses reductions in areas that will have minimal impact on community, such as continuing to hold positions vacant. Additionally, the proposed budget aligns scalable programs, such as multifamily rental and homeownership capital programs, with available resources.

Office of Housing

Description of Incremental Budget Changes

Baseline

Remove One-Time Items

Expenditures	\$(50,000)
Revenues	\$19,752,463

This item removes one-time funding added in the 2024 Adopted Budget for a work group to study sustainability needs of non-permanent supportive housing providers and removes one-time fund balancing entries. The removal of one-time fund balancing entries is reflected as an increase to revenues to the Low Income Housing Fund and the Office of Housing Fund.

Baseline Technical Adjustments to Community Development Block Grant Funding

Expenditures	\$657,000
Revenues	-

For the 2025-2026 Proposed Budget, the Executive removed Community Development Block Grant (CDBG) funds from departments' baseline budgets and reviewed department proposals for use of the federal grant funds for facilities and public services projects. This item removes \$160,972 of CDBG entitlement funding from the Office of Housing's baseline budget. This funding supports administrative and labor costs associated the department's management of CDBG revolving loan funds. This item backfills this funding with other housing specific fund sources to reflect that the department will incur these administrative costs regardless of whether CDBG entitlement funding is received. This \$160,972 of CDBG entitlement funding is proposed to be restored in the "Community Development Block Grant Funding for Administrative Support" incremental change item discussed below. Additionally, this item aligns non-labor budget for CDBG revolving loan funds with anticipated actuals.

Miscellaneous Technical Corrections

Expenditures	-
--------------	---

This budget-neutral item makes several technical adjustments to budget at the account level to align with anticipated actuals and provide detailed account coding for budget previously coded to default expenditures accounts. This item also shifts \$25 million of baseline budget associated with the Workforce Stabilization Fund from the Multifamily Lending budget program to the Asset Management budget program to align detailed budget coding with the accounting coding used for program expenditures. This change does not reflect a change in budget amount from the 2024 Adopted Budget for any program in the department.

Remove Erroneous Ongoing Budget

Expenditures	\$(906)
--------------	---------

This item corrects an erroneous Council Budget Action (CBA) from the 2024 Adopted Budget, which modified the employer contribution rate for Seattle City Employees Retirement System. The 2024 Proposed Budget included no ongoing General Fund (GF) budget for the Office of Housing, however GF budget was not fully removed at the account level due. When this CBA was centrally entered, GF budget was identified in pension accounts and adjusted accordingly. This item removes ongoing GF budget from OH to reflect that no ongoing costs in the department are supported by the GF.

Office of Housing

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures	\$1,219,174
--------------	-------------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$(129,507)
--------------	-------------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Add Budget Manager in Finance Unit

Expenditures	\$184,703
Position Allocation	1.00

This ongoing item adds funding and position authority for a Budget Manager (1.0 FTE Manager 1). The Office of Housing budget has grown by over 550% in the last decade, however the Finance Unit has not expanded since 2013. The Budget Manager will support budget development, tracking, and management. This additional staffing capacity will allow the department's Finance Director to refocus on policy, planning, and strategic initiatives. This item is funded using administration fund balance from the 2016 Housing Levy, which is projected to cover these labor costs for six to seven years. Ongoing funding for this position could be contemplated as part of the next Housing Levy renewal in 2030.

Add Community Development Specialist in Asset Management Unit

Expenditures	\$90,542
Position Allocation	1.00

The proposed budget allocates \$133 million in Payroll Expense Tax proceeds in 2025 to support housing. This ongoing item uses payroll tax and 2023 Housing Levy funding to add funding and position authority in the Asset Management unit (1.0 FTE Community Development Specialist). This position will support asset management for Office of Housing (OH) funded units, ensuring ongoing affordability and compliance of units. This additional staffing capacity is necessary to maintain reasonable units-to-staff ratio in the Asset Management division. This item is funded with net-new 2023 Housing Levy funding and payroll tax offset by an equivalent reduction in payroll tax funded multifamily capital.

Add Administrative Staffing Support

Expenditures	\$72,241
Position Allocation	1.00

The proposed budget allocates \$133 million in Payroll Expense Tax proceeds in 2025 to support housing. This ongoing item uses payroll tax and 2023 Housing Levy funding to add funding and position authority for administrative support (1.0 FTE Administrative Specialist II). This position will rotate through the Office of Housing to support the areas of highest need at any given time. For example, in January and February the position will support

Office of Housing

the contracts unit, in May and June the position will support production of the department's annual reports, and in September and October the position will support the Notice of Funding Availability process. This additional staffing capacity is necessary to maintain administrative support currently covered by temporary staff. This item is funded with net-new 2023 Housing Levy funding and payroll tax offset by an equivalent reduction in payroll tax funded multifamily capital.

Inflationary Adjustments for Agency Support Programs

Expenditures	\$416,714
--------------	-----------

The proposed budget allocates \$133 million in Payroll Expense Tax proceeds in 2025 to support housing. This ongoing item uses payroll tax and 2023 Housing Levy funding to provide inflationary adjustments to agency support programs. Financial modeling for the 2023 Housing Levy assumed inflationary adjustments for agency support programs and this item aligns budget authority with those assumptions. Inflationary adjustments for payroll tax funded agency supports are offset by an equivalent reduction in payroll tax funded multifamily capital.

Use Mandatory Housing Affordability Administrative Fund Balances to Support Multifamily Capital

Expenditures	\$7,000,000
Revenues	\$7,000,000

This one-time item increases budget for multifamily capital production by \$7 million in 2025 and by \$5 million in 2026, supported by Mandatory Housing Affordability (MHA) administrative fund balances. The Office of Housing has historically transferred MHA administrative fund balance to multifamily capital production whenever a significant balance has accumulated.

Community Development Block Grant Funding for Administrative Support

Expenditures	-
Revenues	\$160,972

For the 2025-2026 Proposed Budget, the Executive removed Community Development Block Grant (CDBG) funds from departments' baseline budgets and reviewed department proposals for use of the federal grant funds for facilities and public services projects. This item adds CDBG funding to support administrative and labor costs associated the department's management of CDBG revolving loan funds. This increase is offset by a removal of non-grant backed funding proposed to be added in the "Baseline Technical Adjustments to Community Development Block Grant Funding" incremental change item discussed above.

Dissolve Community Development Block Grant Revolving Loan Funds

Expenditures	\$(657,000)
--------------	-------------

This ongoing item reduces budget for the Multifamily Capital and Homeownership Community Development Block Grant (CDBG) revolving loan funds (RLFs) to reflect elimination of these RLFs. The Office of Housing currently manages three CDBG RLFs: Multifamily Capital, Homeownership, and Home Repair. CDBG RLFs use program income from previously awarded CDBG projects make new awards in each program area. OH maintains a robust Home Repair RLF, but is unable to quickly award funding in the Multifamily Capital and Homeownership RLFs given challenging eligibility and compliance requirements. OH will work in coordination with the Human Services Department Federal Grants Management Unit to dissolve these RLFs in 2025 and remaining funding will be reallocated to an eligible CDBG project.

Office of Housing

Hold Positions Vacant to Realize Payroll Expense Tax Savings

Expenditures \$(497,047)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. This ongoing item reduces labor budget in the payroll tax fund to reflect that the Office of Housing will hold three position vacant, including an Equity Advisor (Senior Community Development Specialist) in the Policy and Planning unit, a Multifamily Lender (Community Development Specialist) in the Multifamily Lending unit, and an Asset Management position (Community Development Specialist) in the Asset Management unit. These positions, added in 2022, have not yet been filled and holding the positions vacant will not require reallocation of workload.

Reduce Payroll Expense Tax Funding for Homeownership Capital

Expenditures \$(1,750,000)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. This ongoing item reduces payroll tax funding for homeownership capital production. The Office of Housing anticipates that projects currently in the homeownership capital pipeline will not be ready for funding for two to three years. Given the status of projects, this reduction is not anticipated to impact homeownership capital production in the biennium. To maintain adequate funding for anticipated homeownership capital projects, \$1,750,000 of payroll tax funding will be reprioritized from multifamily capital to homeownership capital beginning in the 2027-2028 biennium.

Reduce Payroll Expense Tax Funding for Multifamily Capital

Expenditures \$(7,596,229)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. This ongoing item reduces payroll tax funding for multifamily capital production by approximately \$7.6 million in 2025 and by approximately \$1.6 million in 2026. The impact of this reduction is offset by the one-time use of \$7 million in 2025 and \$5 million in 2026 of administrative fund balances from Mandatory Housing Affordability revenues for multifamily capital production per year in the proposed budget.

Fund Source Alignment for Staffing and Operational Support

Expenditures \$(836,551)

This item aligns fund sources for staffing and operational costs with the Office of Housing (OH) administrative funding methodology. Generally, staffing and operational costs in OH are covered by each fund source in an amount that is proportional to their share of the total OH budget. This item decreases the Office of Housing fund's share of administrative costs, and increases the Payroll Expense Tax fund's share of administrative cost with an offsetting reduction to payroll tax funded multifamily capital production.

Office of Housing

Proposed Technical

Previously Approved Funding for Database Upgrade Project

Expenditures \$275,000

This one-time item adds \$275,000 in 2025 to support remaining costs associated with the Office of Housing's database upgrade project. Funding for the prior years' portion of this project were approved and appropriated in the 2022 Mid-Year Supplemental Budget. This item is necessary to appropriate remaining funding for this project and is supported by reserves for this purpose in the Office of Housing fund.

Align Budget for Pre-Development Costs with Anticipated Actuals

Expenditures \$735,000

This one-time technical item adds \$735,000 for pre-development costs supported by 2023 Housing Levy administrative funds. This item is necessary to align budget authority with anticipated actuals. The 2023 Housing Levy includes \$10 million for pre-development costs and the Office of Housing remains on track to spend no more than that amount over the seven year levy period.

Adjust Project Coding for Payroll Expense Tax Funded Multifamily Capital

Expenditures -

The proposed budget allocates \$133 million in Payroll Expense Tax proceeds in 2025 to support housing. This ongoing, net-zero, technical item corrects detail project level coding to ensure accurate tracking of payroll tax funding intended for multifamily capital preservation. This item does not change how the department would otherwise allocate payroll tax funding in the multifamily program between new production and preservation of existing units.

Align Community Self Determination Fund Allocation

Expenditures -

The proposed budget allocates \$133 million in Payroll Expense Tax proceeds in 2025 to support housing. This ongoing, net-zero, technical item corrects detail project level coding to reflect that the Office of Housing intends to allocate 13%, approximately \$17.6 million, of payroll tax funding within the multifamily capital program to support the Community Self Determination Fund (CSDF). The CSDF program aims to reduce barriers for community-based organizations (CBOs) to enter the affordable housing sector, particularly for those CBOs that have historically been excluded from the industry.

Align Mandatory Housing Revenues with Anticipated Actuals

Revenues \$(28,750,000)

This ongoing technical item reduces revenue assumptions for the Mandatory Housing Affordability program from \$51 million to approximately \$22.3 million to reflect updated projections and expectations for the biennium.

Final Miscellaneous Technical Adjustments

Expenditures -

This budget-neutral item makes several technical adjustments to budget at the project and account level to align with anticipated actuals.

Office of Housing

Align and Correct Weatherization Revenues

Expenditures	\$3,886,167
Revenues	\$3,886,167

This one-time technical item increases expenditure and revenue budget in the weatherization program to reflect anticipated grants to be accepted during 2025. All weatherization grants will be accepted in supplemental budgets in 2025. Additionally, this item makes several technical corrections to remove prior year funding source codes and to update funding source codes used to track interdepartmental revenues from Seattle City Light.

Final Adjustments for Standard Cost Changes

Expenditures	\$70,547
--------------	----------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Fund Balancing Adjustments

Revenues	\$10,361,505
----------	--------------

This is a technical item to record a fund balancing entry for the Low Income Housing Fund (16400) and the Office of Housing Fund (Fund 16600), which are primarily managed by this department.

Office of Housing

Office of Immigrant and Refugee Affairs

Hamdi Mohamed, Director

(206) 233-3886

www.seattle.gov/iandraffairs

Department Overview

The Office of Immigrant and Refugee Affairs (OIRA) was established in 2012 by Seattle Ordinance 123822 to recognize the importance and need for a stronger relationship and increased accountability between the City of Seattle and immigrant and refugee communities. OIRA serves as the backbone and coordinator of key City efforts across all departments to advance equity and access for immigrants and refugees.

As an office dedicated to serving immigrants refugees, OIRA's core values and shared agreements are centered around integrity, humility, communities, innovation, gratitude, respect, accountability, partnership, and transparency. OIRA address the underlying causes of inequities and develop programs and policies that empower community partners and those they serve.

OIRA serves immigrant and refugee Seattle residents in the areas of language access, immigration legal services, workforce development, and more. OIRA is focused on incorporating community needs and direct feedback in policy decisions and program development while also centering the City's Race and Social Justice Initiative.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Department Support				
General Fund Support	5,462,339	6,241,007	6,224,830	6,570,612

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for OIRA. The department will continue to invest in programs such as the Legal Defense Network, the New Citizen Campaign, the New Citizen Program, the Immigrant Safety and Access Network, the Language Access program, and the Ready to Work program. Due to the General Fund forecast for the City's 2025-26 Proposed Budget being insufficient to cover all anticipated Citywide costs, budget alignments were made to reduce OIRA's budget for an intern, reduce some of their position underspend costs, and distribute their language access subscription cost to all departments who use the language access tool.

OIRA's core services will allow OIRA to respond to issues affecting immigrants and refugees in the region, including assisting recent migrant arrivals with translation, legal, and social services.

Total 2025 Proposed Budget	\$6,367,057	12.50

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$225,557

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$54

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Office of Immigrant and Refugee Affairs

Removal of 2024 One-Time Adds

Expenditures	\$(225,000)
--------------	-------------

This item removes \$225,000 of one-time General Fund added in the 2024 Adopted Budget to support a conference on human trafficking.

Remove CDBG From Baseline

Expenditures	\$(650,200)
Revenues	\$(650,200)

For the 2025-2026 Proposed Budget, the Executive removed Community Development Block Grant funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects.

This item was restored and increased in the Proposed Budget. See corresponding item "CDBG Ready To Work Continuation."

Proposed Operating

Align Workforce Development Position Budget

Expenditures	\$(37,150)
--------------	------------

This item decreases expenditures by \$37,150 Payroll Expense Tax ongoing to align salary budget for the Workforce Policy and Partnerships Manager position with actual costs. The position was added in the 2023 budget, and the actual cost of the position is less than what was added in the budget. There are no programmatic impacts to this reduction.

CDBG Ready To Work Continuation

Expenditures	\$700,000
Revenues	\$700,000

For the 2025-2026 Proposed Budget, the administration removed Community Development Block Grant funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects.

In OIRA, the budget provides \$700,000 to support the Ready To Work (RTW) program which was created by the City of Seattle in 2015 to empower and support immigrants and refugees in overcoming barriers on their journey to economic stability, quality jobs, and integration into life in Seattle.

See corresponding item "Remove CDBG From Baseline."

Eliminate Intern Budget

Expenditures	\$(16,850)
--------------	------------

This item decreases expenditures by \$16,850 General Fund ongoing to eliminate the intern program. OIRA has hired an intern the past three years to provide opportunities for immigrant youth to integrate into the workforce.

Transfer Language Access Program Costs

Expenditures	\$(25,000)
--------------	------------

Office of Immigrant and Refugee Affairs

This item decreases expenditures by \$25,000 General Fund ongoing to reflect the transfer of the subscription costs for the city's centralized translation tool from OIRA to IT central costs. There are no programmatic impacts from this reduction.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(14,872)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

New Citizenship Program Fund Source Update

Expenditures \$6,397

Revenues \$6,397

This item updates the funding source for two annual grants received to support the New Citizen Program (NCP). The NCP partners with 10 community-based organizations located through Seattle and King County to help low-income immigrants and refugees become US citizens.

Expenditure Overview

Office of Labor Standards

Steven Marchese, Director

(206) 684-5397

www.seattle.gov/laborstandards

Department Overview

The mission of the Office of Labor Standards (OLS) is to advance labor standards through thoughtful community and business engagement, strategic enforcement, and innovative policy development, with a commitment to race and social justice. The Office of Labor Standards focuses on the implementation of labor standards for workers that perform work within Seattle city limits. As of January 1, 2025, there are 19 such standards, established through City ordinances:

- **Paid Sick and Safe Time Ordinance** requires employers with one or more full-time equivalent employees to provide paid sick and safe time;
- **Fair Chance Employment Ordinance** restricts how employers can use conviction and arrest records during the hiring process and course of employment;
- **Minimum Wage Ordinance** establishes a minimum hourly wage that increases each year based on rates set by ordinance and adjusted for the rate of inflation;
- **Wage Theft Ordinance** requires employers to provide written notice of employment information and pay all compensation due by reason of employment (including wages and tips) on a regular pay day;
- **Secure Scheduling Ordinance** establishes scheduling requirements for covered retail and food service establishments to provide schedule predictability and increased access to hours;
- **Domestic Workers Ordinance** provides protections for domestic workers and establishes a Domestic Workers Standards Board; and
- **Commuter Benefits Ordinance** requires employers to provide commuter benefits on a pre-tax basis.
- **Independent Contractor Protections Ordinance** requires commercial hiring entities to provide certain pre-contract disclosures, payment disclosures, and requiring timely payment of contracts.
- **Cannabis Employee Job Retention Ordinance** requires certain employers to take certain actions to reduce job insecurity in the cannabis industry.

Four ordinances protect the rights of hotel workers:

- **Hotel Employee Safety Protections Ordinance** requires employers to take certain steps to prevent and report violent and harassing conduct by guests and to support employees who report this conduct;
- **The Protecting Hotel Employees from Injury Ordinance** limits the workload of employees who clean hotel rooms to reduce the frequency and occurrence of injuries associated with room cleaning;
- **The Improving Access to Medical Care for Hotel Employees Ordinance** requires employers to provide employees working in large hotels with increased access to medical care; and
- **The Hotel Employees Job Retention Ordinance** requires employers to take certain actions to reduce job insecurity in the hospitality industry.

Three ordinances protect the rights of app-based workers:

- **App-Based Worker Paid Sick and Safe Time Ordinance** establishes paid sick and safe time protections for certain app-based workers.
- **App-Based Worker Minimum Payment Ordinance** establishing minimum pay requirements, and transparency and flexibility standards for certain app-based workers.
- **App-Based Worker Deactivation Rights Ordinances** establishes protections against certain deactivations from the platforms of covered companies, among other rights.

OLS is also responsible for the administration of three additional temporary ordinances that grant protections to

Office of Labor Standards

certain workers during the COVID-19 civil emergency. These three laws are enforceable until late 2025:

- **Paid Sick and Safe Time for Gig Workers**, requiring covered transportation network and food delivery network companies to provide paid sick and safe time to gig workers during, and for 180 days following the conclusion of, the COVID-19 civil emergency.
- **Premium Pay for Gig Workers**, requiring covered food delivery network companies to provide premium pay to gig workers.
- **Grocery Employee Hazard Pay**, requiring certain grocery businesses to pay hazard pay to employees during the civil emergency.

OLS provides education and technical assistance to the business and worker communities. As a part of these efforts, OLS manages the **Community Outreach and Education Fund** to foster collaboration between OLS and the community with funds to develop awareness and understanding of the worker rights provided by Seattle's labor standards. The office also manages the **Business Outreach and Education Fund** which provides technical assistance to small businesses to increase compliance with Seattle's labor standards. The fund emphasizes outreach to businesses owned by low-income and historically disenfranchised communities who typically are not served by traditional outreach methods.

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office of Labor Standards (OLS) at a reduced scale to realign with available resources. OLS will continue to promote labor standards through outreach, education, and technical assistance. OLS will continue to collect and analyze data on labor standards enforcement, develop labor standards policies, and administer and enforce the City of Seattle labor ordinances.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made to OLS. The Business Outreach and Education Fund will be funded with \$500,000 after a reduction of \$100,000. The Community Outreach and Education Fund will be fully funded at \$1,500,000 in 2025 and will receive \$1,000,000 in 2026 after a \$500,000 reduction. The enforcement team and outreach team will receive a reduction of 3 positions. The general operating expenses for communications and outreach activities will receive \$152,000 after reductions of \$216,000. These reductions will realign the OLS budget with available resources for the 2025-2026 Proposed Budget.

Lastly, the 2025-2026 Proposed Budget make several technical adjustments to the OLS budget including an annual wage increase for staff, increased costs for internal central services, and the removal of one-time items from the previous year's budget.

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$694,934

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Office of Labor Standards

Citywide Adjustments for Standard Cost Changes

Expenditures	\$192,528
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Reversal of one-time adds

Expenditures	\$(625,000)
--------------	-------------

This item reverses \$600,000 in Payroll Expense Tax funding for the App-Based Deactivation Rights Ordinance (\$500,000) and Domestic Worker Standards Board (\$100,000). This item also reverses \$25,000 in General Fund support for set-up costs for the App-Based Worker Minimum Payment Ordinance in 2023.

Proposed Operating

Remove Planning & Development Specialist Position

Expenditures	\$(155,627)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item removes a vacant, full-time Planning & Development Specialist II (Labor Standards Engagement Specialist) position to realign with available resources. The position is responsible for direct outreach and education on the City's 19 labor standards as well as oversight of some of the Department's Business Outreach and Education Fund and Community Outreach and Education Fund contracts. Four Labor Standards Engagement Specialists will remain in OLS to continue this work.

Remove Strategic Advisor Position

Expenditures	\$(184,703)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item removes a vacant, full-time Strategic Advisor position to realign with available resources. This position is responsible for providing a variety of data collection, cleaning, and analysis functions for the Office of Labor Standards, specifically for App-Based Worker positions. OLS will reprioritize workloads to address the critical data analysis work and will defer the other expanded work this position would have completed for app-based worker laws.

Remove Civil Rights Analyst Position

Expenditures	\$(158,958)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item removes a vacant, full-time Civil Rights Analyst (Investigator) position to realign with available resources. This position is responsible for conducting labor standards investigating and resolving complaints of violations of labor standards. After the first quarter of 2025, nine investigators will remain in OLS to continue the work of investigations.

Office of Labor Standards

Defund Civil Rights Analyst Position

Expenditures \$(125,154)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item defunds a Civil Rights Analyst (Investigator) position. OLS will maintain funding for quarter 1 of 2025 and then this position will be unfunded. This position is responsible for conducting investigations and resolving complaints of violations of labor standards. After the first quarter of 2025, nine investigators will remain in OLS to continue the work of investigations.

Restoration of General Operating Expense Reduction

Expenditures \$87,810

This item restores ongoing funding beginning in 2025 for OLS' operating expense appropriation that was reduced in FY 2023 for only the 2023 and 2024 Adopted Budgets.

Reduce General Operating Expense Budget

Expenditures \$(215,810)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces OLS' general operating expense appropriation by \$215,810 in the 2025-2026 Proposed Budget to realign with available resources. This reduction will result in fewer investments in outreach, communication, and enforcement and OLS will shift to lower-cost and no-cost activities. The budget maintains \$152k for general operating expenses after the reduction.

Reduction to Business Outreach and Education Fund

Expenditures \$(100,000)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces the Business Outreach and Education Fund (BOEF) by \$100,000 to realign with available resources. OLS will continue to administer the BOEF with smaller awards or less contracts. The total amount budgeted for the Business Outreach and Education Fund is \$500,000.

Reduction to Community Outreach and Education Fund, On-going

Expenditures -

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces the Community Outreach and Education Fund (COEF) by \$250,000 on-going starting in 2026 to realign with available resources. The COEF is reduced in 2026 instead of both 2025 and 2026, to avoid service disruptions in contracts that have already been awarded for 2025. To realize the savings needed through the biennium, OLS will see a larger decrease in 2026 with an on-going \$250,000 reduction starting in 2026, and a separate budget item for a one-time \$250,000 reduction starting in 2026. OLS will continue to administer the COEF with smaller awards or less contracts. The total amount budgeted for the Community Outreach and Education Fund is \$1,500,000 in 2025 and \$1,000,000 in 2026.

Office of Labor Standards

Reduce Community Outreach and Education Fund, One-Time

Expenditures

-

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces the Community Outreach and Education Fund (COEF) by \$250,000 on-going starting in 2026 to realign with available resources. The COEF is reduced in 2026 instead of both 2025 and 2026, to avoid service disruptions in contracts that have already been awarded for 2025. To realize the savings needed through the biennium, OLS will see a larger decrease in 2026 with an on-going \$250,000 reduction starting in 2026, and a separate budget item for a one-time \$250,000 reduction starting in 2026. OLS will continue to administer the COEF with smaller awards or less contracts. The total amount budgeted for the Community Outreach and Education Fund is \$1,500,000 in 2025 and \$1,000,000 in 2026.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures

\$(26,714)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

OLS Fund Revenue Updates

Revenues

\$(316,784)

This item decreases revenue from the General Fund to the Office of Labor Standards fund to reflect the budget changes described above. OLS is using fund balance from 2024, which offsets some of the 2025 General Fund transfer.

The following information summarizes the programs in Office of Labor Standards Budget Summary Level:

Business Outreach & Education

The purpose of the Business Outreach and Education program is to facilitate assistance and outreach to small businesses owned by low-income and historically disenfranchised communities, who typically are not served by traditional outreach methods, to increase awareness and compliance with Seattle's labor standards.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Business Outreach & Education	672,252	600,000	500,000	500,000

Community Outreach & Education

The purpose of the Community Outreach and Education program is to strengthen the collaboration between OLS and the community by funding community-based organizations and enhancing their capacity to increase awareness and understanding of Seattle's labor standards among populations and industries with low-wage jobs and that experience high-incidents of workplace violations including: female-identifying workers, workers of color, immigrant and refugee workers, LGBTQ workers, workers with disabilities, veterans and youth workers.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed

Department of Neighborhoods

Jenifer Chao, Director

(206) 684-0535

<http://www.seattle.gov/neighborhoods>

Department Overview

The Seattle Department of Neighborhoods (DON) mission is to strengthen Seattle by engaging all communities. Our work is driven by two North Stars:

1. Put race and equity at the center of all decisions and actions; and
2. Invest in the power of communities to forge their own solutions.

DON provides resources and opportunities that help Seattle residents build strong communities, receive equitable access to government, and improve their quality of life. This is accomplished by centering *relationships* and *investing in community-driven solutions that build capacity* for Seattle's communities.

Relationships: Cultivating, building, and sustaining resilient relationships is core to everything we do. It's what allows us to build trust and connections and ensure that all communities have voice, inclusion, and influence in City programs and projects.

Investments: DON invests in people, funding, public spaces, creative innovation, and community advocacy to create systemic change for communities with histories of harm.

Capacity Building: Our work is long-term and relational. Our investments and relationships are designed to build and sustain community capacity so that individuals, organizations, and communities grow into their power to shape, influence, and transform the life of their city.

Department of Neighborhoods

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Department of Neighborhoods (DON). The department will continue to invest in community building programs such as P-Patch Community Gardening and People's Academy for Community Engagement. Additionally, the department will continue to invest in outreach and engagement programs, including contracting with Community Liaisons for project-specific outreach, maintaining Community Engagement Coordinator staffing focused on specific geographic areas in the City, and supporting other City departments outreach and engagement needs with the Equity and Engagement Advisor program. The proposed budget also continues investments in Community Grants programs such as the Neighborhood Matching Fund and the Food Equity Fund.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in several areas. The proposed budget focuses reductions in areas that will have minimal impact on community, including identifying organizational efficiencies, eliminating vacant positions, and aligning scalable grant programs with available resources. Additionally, the proposed budget focuses on expanding interdepartmental outreach and engagement agreements with other City departments, increasing General Fund revenues from other department managed funds.

Department of Neighborhoods

Description of Incremental Budget Changes

Baseline

Remove One-Time Items

Expenditures \$(500,000)

This item removes one-time funding for Chinatown-International District Capacity Building (\$300,000), Payroll Expense Tax Oversight Committee Evaluation and Annual Reporting (\$100,000), and Resident Assembly for Space Needle Thinking (\$100,000). The Executive anticipates carrying forward unspent funding for the Chinatown-International District Capacity Building into 2025.

Miscellaneous Technical Corrections

Expenditures -

This budget-neutral item makes several technical adjustments to account-level budget to align with anticipated actuals and adjustments to budget program coding to reflect departmental reorganization.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$1,284,173

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$160,825

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Expand Interdepartmental Outreach and Engagement Agreements

Expenditures \$381,427

Revenues \$678,600

This ongoing item increases expenditure budget and revenues to reflect an expansion of the Equity and Engagement Advisors (EEA) program. As part of the EEA program, the Department of Neighborhoods (DON) partners with City departments to provide outreach and engagement services on specific projects and programs. Departments reimburse DON on a per hour basis for the cost of the program. In 2024, DON provides EEA services to the Seattle Department of Transportation and Seattle Public Utilities. Beginning in 2025, DON will expand the EEA program by providing services to the Human Services Department, Seattle Parks and Recreation, and Seattle City Light. This item increases revenues to the General Fund from funds managed by these partner departments. The portion of increased revenues that exceed EEA program costs will support departmental overhead costs in DON that are currently supported by non-revenue backed General Fund budget.

Department of Neighborhoods

Redirect Vacant Position to the Equity and Engagement Advisor Program

Expenditures \$(160,962)

Position Allocation -

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item transfers a vacant Strategic Advisor 1 position (1 FTE) from the People's Academy for Civic Engagement program to the Equity and Engagement Advisor (EEA) program and eliminates associated labor budget for the position. Labor costs for the position in the EEA program will be covered by new interdepartmental revenues and appropriation authority anticipated in the "Expand Interdepartmental Outreach and Engagement Agreements" item discussed above.

Redirect One-Time Funded Position to the Equity and Engagement Advisor Program

Position Allocation -

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item transfers a Strategic Advisor 1 position from the Generational Wealth Initiative (GWI) program to the Equity and Engagement Advisor (EEA) program. This position was previously funded with one-time budget associated with the GWI program. GWI programming was transferred to the Office of Economic Development in the 2024 Mid-Year Supplemental Budget. Labor costs for the position in the EEA program will be covered by new interdepartmental revenues and appropriation authority anticipated in the "Expand Interdepartmental Outreach and Engagement Agreements" item discussed above.

Increase Staffing for the Equity and Engagement Advisors Program

Position Allocation 1.00

This ongoing item adds one Strategic Advisor 1 position in the Equity and Engagement Advisors program and reflects an expansion of the Equity and Engagement Advisors (EEA) program. This item is a position only change. Labor costs for the position in the EEA program will be covered by new interdepartmental revenues and appropriation authority anticipated in the "Expand Interdepartmental Outreach and Engagement Agreements" item discussed above.

Reduce Neighborhood Matching Fund Awards

Expenditures \$(208,177)

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item reduces funding available for Neighborhood Matching Fund (NMF) awards, resulting in 4-6 fewer awards each year to community-led projects. The NMF program retains approximately \$2.8 million in funding, with approximately \$2 million available for awards each year.

Reduce Food Equity Fund Awards

Expenditures -

Due to an ongoing annual reduction of approximately \$1.0 million in Sweetened Beverage Tax (SBT) revenues that was included in the City's August revenue forecast, this item reduces approximately 8% of the department's SBT funding in 2026. SBT revenues and expenditures in 2025 are not impacted with this change. This ongoing item reduces funding available for Food Equity Fund (FEF) awards beginning in 2026, resulting in 3-5 fewer awards each year to community-led projects. The FEF program will retain approximately \$2.8 million in funding in 2026, with approximately \$1.9 million available for awards.

Department of Neighborhoods

Eliminate Payroll Expense Tax Oversight Committee Staff Position

Expenditures	\$(200,781)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund and other reductions were identified to mitigate this shortfall in revenues. This ongoing item removes a vacant Senior Planning & Development Specialist position (1 FTE) which was intended to manage the Payroll Expense Tax Oversight Committee, and eliminates associated labor and program budget for the committee.

Align Food Equity Fund Staffing

Expenditures	\$(69,683)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item removes a vacant Senior Planning & Development Specialist position in the Food Equity Fund (FEF) program and redirects associated labor budget in the Sweetened Beverage Tax (SBT) Fund to realize General Fund efficiencies. A portion of labor costs for the department's Community Grants Manager and a Senior Grants and Contracts Specialist are shifted from General Fund to the SBT Fund to reflect that a portion of these positions time supports the FEF program. Additionally, SBT Fund budget is redirected to increase the amounts available for awards and program expenses. This item also makes several net-zero, account level adjustments within the FEF program to align budget with anticipated actuals.

Remove Vacant Position in the Community Innovations Division

Expenditures	\$(175,530)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item removes a Manager 2 position in the Community Innovation division, and eliminates associated labor budget. This change reflects reorganization within the department, including merging of the Community Innovations programming into the Community Investments division, transferring Generational Wealth Initiative programming to the Office of Economic Development, and eliminating the Payroll Expense Tax Oversight Committee.

Remove Vacant Community Partnerships Division Staffing

Expenditures	\$(111,025)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item removes an Administrative Staff Assistant position in the Community Partnerships Division, and eliminates the associated labor budget. Administrative support for the Community Partnerships Division will be provided by reallocating a portion of an Administrative Staff Assistant position elsewhere in the department.

Department of Neighborhoods

Eliminate Vacant Position in the Major Institutions and Schools Program

Expenditures	\$(96,660)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item removes an Administrative Specialist II position in the Major Institutions and Schools (MIS) program, and eliminates associated labor budget. Administrative support to the MIS program is covered by an Administrative Assistant elsewhere in the department.

Reduce Staffing for Early Community Outreach for Design Review

Position Allocation	(1.00)
---------------------	--------

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item removes a Strategic Advisor 1 position supporting the Early Community Outreach for Design Review (ECODR) program. This item is a position-only change reflecting that this was an unfunded position and labor costs were previously supported using vacancy savings. Support for the ECODR program will be covered by staff in the Major Institutions and Schools program.

Proposed Technical

Align Food Equity Fund Staffing with Anticipated Actuals by Fund

Expenditures	\$(307,916)
Position Allocation	-

This ongoing, technical item transfers two Planning and Development Specialist II positions from the Neighborhood Matching Fund (NMF) program to the Food Equity Fund (FEF) program, and removes associated labor budget in the General Fund. This item also removes labor budget in the General Fund for a 0.5 FTE Administrative Specialist II position. In the 2021 Adopted Budget, these positions were redeployed from the NMF program to the FEF program and labor costs were shifted from the General Fund to the Sweetened Beverage Tax Fund. Since 2021, labor costs for these positions are paid from the General Fund, and the department then bills the Sweetened Beverage Tax Fund. This item eliminates double appropriation of labor budget for these positions and will allow the department to pay labor costs for these positions directly from the Sweetened Beverage Tax Fund. This change also reduces General Fund revenues by an equivalent amount; revenue changes are included in the "April General Fund Revenue Adjustment" item.

Increase Revenues from Fee Adjustments

Revenues	\$34,000
----------	----------

This ongoing item increases General Fund revenues in the Department of Neighborhoods (DON) to reflect annual fee increases in the Historic Preservation (HP) program and the Major Institutions and Schools (MIS) program. These fee increases are set by ordinance and are included in the Seattle Department of Construction Inspections Annual Fee Ordinance. Fees for the HP program are increased from \$161,500 to \$181,500, and fees for the MIS program are increased from \$50,000 to \$64,000. These fees are increased annual and reflect changes to the Consumer Price Index.

Department of Neighborhoods

Reduce Vacancy Assumption

Expenditures	-
--------------	---

This budget-neutral technical item reduces DON's vacancy assumption to 1% by reallocating budget from non-labor accounts to labor accounts.

Department Reorganization

Expenditures	-
--------------	---

Position Allocation	-
---------------------	---

This budget-neutral item makes several organizational changes to the department to improve organizational alignment and financial reporting. This item renames three budget programs: 1) the Strategic Partnerships budget program is renamed as the Equity and Engagement Advisors budget program; 2) the Re-imagination and Recovery budget program is renamed as the Community Capacity Building budget program; and 3) the Civic Engagement and Leadership Development budget program is renamed as the People's Academy for Civic Engagement budget program. Additionally, this item transfers one Strategic Advisor 1 position from the Community Liaisons budget program to the Departmental Indirect Costs budget program, and transfer one Strategic Advisor 1 position from the Community Capacity Building budget program to the Equity and Engagement Advisors budget program.

Ongoing Changes from Current Year Legislation

Expenditures	\$41,600
--------------	----------

Revenues	\$41,600
----------	----------

Position Allocation	(1.50)
---------------------	--------

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance.

Final Adjustments for Standard Cost Changes

Expenditures	\$(247,294)
--------------	-------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

April General Fund Revenue Adjustment

Revenues	\$387,668
----------	-----------

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

August General Fund Revenue Adjustment

Revenues	\$(657,876)
----------	-------------

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Appropriations by Budget Summary Level and Program

DON - BO-DN-I3100 - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide executive, community, financial, human resource, technology and business support to the Department of Neighborhoods.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Indirect Costs	3,036,146	3,244,088	3,155,918	3,334,417
Departmental Indirect Costs	2,429,564	2,459,449	3,131,959	3,258,516
Total	5,465,710	5,703,538	6,287,876	6,592,932
Full-time Equivalents Total*	20.00	18.00	19.00	19.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle Information Technology Department.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Indirect Costs	3,036,146	3,244,088	3,155,918	3,334,417

Department of Neighborhoods

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This may include personnel costs related to department leadership and administration or other administrative costs such as external rent and operating supplies or services.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Departmental Indirect Costs	2,429,564	2,459,449	3,131,959	3,258,516
Full Time Equivalents Total	20.00	18.00	19.00	19.00

DON - BO-DN-I3300 - Community Building

The purpose of the Community Building Budget Summary Level is to deliver technical assistance, support services, and programs in neighborhoods to strengthen local communities, engage residents in neighborhood improvement, leverage resources, and complete neighborhood-initiated projects.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Civic Engagement & Leadership Development	-	393,210	(1)	(1)

Department of Neighborhoods

Community Safety

The purpose of the Community Safety program is to support the City of Seattle's commitment to being a safe, vibrant, and interconnected city that ensures all residents can live safely and securely.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Community Safety	862,092	964,429	940,429	940,429

Equity and Engagement Advisors

The purpose of the Equity & Engagement Advisors program is to provide contracted services to City departments, acting as their Equity and Engagement Advisors to ensure that equity is prioritized in City policies, programs, projects, and services. This involves collaborating closely with City Departments to identify and address barriers to participation within programs and shaping policies and procedures accordingly. They also offer guidance, coordination, and support for inclusive community outreach efforts, with a particular focus on enhancing equitable engagement in communities most affected by the City's growth, infrastructure needs, and historical injustices.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Equity and Engagement Advisors	-	-	1,453,865	1,520,448
Full Time Equivalents Total	-	-	12.00	12.00

Historic Preservation

The purpose of the Historic Preservation Program is to provide technical assistance, outreach, and education to the general public, owners of historic properties, government agencies, and elected officials to identify, protect, rehabilitate, and re-use historic properties

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed

Full Time Equivalents Total	7.00	7.00	7.00	7.00

Major Institutions and Schools

The purpose of the Major Institutions and Schools Program is to coordinate community involvement in the development, adoption, and implementation of Major Institution Master Plans, and to facilitate community involvement in school re-use and development.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Major Institutions and Schools	243,167	213,383	150,781	158,794
Full Time Equivalents Total	2.00	3.00	1.00	1.00

Department of Neighborhoods

Participatory Budgeting (Your Voice Your Choice)

The purpose of the Participatory Budgeting (Your Voice Your Choice) Program is to provide a process in which Seattle residents democratically decide how to spend a portion of the City's budget.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Participatory Budgeting (Your Voice Your Choice)	95,671	-	-	-
Full Time Equivalents Total	1.00	-	-	-

People's Academy for Community Engagement (PACE)

The purpose of the People's Academy for Community Engagement (PACE) Program is to provide leadership development and skill building of emerging leaders in a multicultural, participatory adult learning environment where participants learn hands-on strategies for community building, inclusive engagement, and accessing governments from experts in the field

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
People's Academy for Community Engagement (PACE)	37,910	-	162,425	174,775
Full Time Equivalents Total	-	-	1.00	1.00

P-Patch Community Gardening

The purpose of the P-Patch Community Gardening Program is to provide community gardens, gardening space, and related support to Seattle residents while preserving open space for productive purposes, particularly in high-density communities

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
P-Patch Community Gardening	788,984	807,820	909,405	948,451
Full Time Equivalents Total	6.00	6.00	6.00	6.00

Re-imagination and Recovery

The purpose of the Re-imagination and Recovery program is to provide transformational, people-centered programming and services informed by data and best practices that enhance and expand government support in under-served communities.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Re-imagination and Recovery	2,117,267	1,072,805	313,012	331,462

Office of Planning and Community Development

Rico Quirindongo, Director

(206) 386-1010

<http://www.seattle.gov/opcd/>

Department Overview

The Office of Planning and Community Development (OPCD) was established in December 2015 with a mission of strengthening citywide planning and implementation and ensuring City departments are aligned and coordinated in planning for Seattle's future development. OPCD coordinates City departments to ensure that development decisions and investments advance equitable growth, consistent with Seattle's Comprehensive Plan. The department is guided by its vision of "an inspiring city, in harmony with nature, where everyone thrives." In addition to partnering with other City departments, OPCD works closely with community partners and other agencies to implement that vision. During the last five years, OPCD has accomplished a wide range of projects, including annual amendments and an in-progress major update to the City's Comprehensive Plan; implementation of legislation to help activate downtown such as conversion of office buildings to housing, flexibility for downtown street level uses, and micro-housing regulations; industrial and maritime strategy planning; funding more than 77 community-initiated projects to combat displacement and increase access to opportunity through the Equitable Development Initiative (EDI); and numerous other items.

The director of OPCD serves in the Mayor's various subcabinets to facilitate coordinated decision-making regarding policies and investments that support Seattle's BIPOC communities. OPCD works with the Mayor's Office and members of the cabinet to ensure the City's investments support community development objectives and that department priorities are aligned and reflected in policies and budget resources.

OPCD is organized in four divisions: Equitable Development, Long Range Planning, Community Planning, and Land Use Policy & Strategic Initiatives. OPCD also has an Indigenous Planner that works across divisions. OPCD houses two independent commissions: the Seattle Design Commission and the Seattle Planning Commission. OPCD also staffs the Equitable Development Initiative Advisory Board.

Office of Planning and Community Development

Budget Overview

OPCD's 2025-2026 Proposed Budget increases funding for the Equitable Development Initiative and continues to invest in the 10-year major update of the City's Comprehensive Plan. Other priority items include subarea plan development, Sound Transit 3 staffing, community and long-range planning, and monitoring affordable housing and displacement. Because the City's General Fund revenues are less than forecasted, OPCD's proposed budget includes funding changes as well as staffing and administrative efficiencies that streamline operations while maintaining OPCD's core functions.

The Equitable Development Initiative

The Equitable Development Initiative (EDI) continues to be an important and growing program within OPCD, serving as a key inclusive growth strategy for marginalized communities in Seattle most at risk of physical and cultural displacement. The EDI program is coordinated and led by OPCD and guided by an implementation plan and financial investment strategy developed in collaboration with community members and staff from the Office of Housing (OH), Department of Neighborhoods (DON), Office of Economic Development (OED), Office of Arts and Culture (ARTS), Mayor's Office (MO), and City Budget Office (CBO). It is also informed by an external advisory board representing impacted communities. In 2017, the City Council identified the initial five projects for the EDI program. The program has grown to more than 77 community-based projects today. Support for each of these projects includes a mix of capacity building and capital development funding, which can include funds for site acquisition. The proposed budget includes \$28.26 million for EDI in 2025. Of that amount, \$26.6 million is for grants and program implementation (\$21.43 million Payroll Expense Tax and \$5.13 million Short-Term Rental Tax). The EDI budget also includes \$608,000 Payroll Expense Tax and \$1.1 million Short-Term Rental Tax for EDI staffing. The total EDI budget represents a \$1.135 million increase in funding compared to 2024. In 2026, the proposed EDI budget is \$29.3 million (\$23.1 million Payroll Expense Tax and \$6.3 million Short-Term Rental Tax).

The EDI program was initially funded with \$16 million in one-time proceeds from the sale of surplus property known as the Civic Square Block. The Washington State Legislature passed the Short-Term Rental Tax (STRT) in the 2018 legislative session and therefore, since 2019, the EDI program has also been funded with STRT revenues. In July 2019, the City Council passed Ordinance 125872, which created a new fund for STRT and directed that \$5 million from this fund be dedicated annually to EDI projects; additional STRT funds EDI staffing.

The most recent expansion of EDI occurred in the 2022 Adopted Budget with the additional allocation of \$14.3 million from the Payroll Expense Tax. In addition to grant awards, the baseline budget from this funding source supports staffing to help the EDI team administer its funding and projects as well as to provide technical assistance to community organizations. This tax was imposed via Ordinance 126108, which was approved by the City Council in July 2020.

In prior years, the EDI budget included \$430,000 of Community Development Block Grant (CDBG) funding for EDI grants. This funding was removed in the 2025 baseline as part of a Citywide reprogramming of CDBG funds.

The ongoing funding of the Equitable Development Initiative through the Payroll Expense Tax and Short-Term Rental Tax means that City investments in these community-driven projects and land acquisitions will provide a lasting legacy for Seattle and its BIPOC community members.

Planning

One of the core functions of OPCD is to serve as the steward of the City's Comprehensive Plan, a 20-year vision and roadmap for Seattle's future. The Comprehensive Plan guides City decisions about where to accommodate and plan for new jobs and residences, how to improve the transportation system, and where to make capital investments such as utilities, sidewalks, and parks. It provides a framework to guide most of Seattle's big-picture decisions on

Office of Planning and Community Development

how to manage growth to achieve environmental sustainability, racial equity, shared prosperity, and healthy and vibrant neighborhoods.

The Washington State Growth Management Act (GMA) requires that cities undertake a major review and update of their comprehensive plans every 10 years. Under the GMA, comprehensive plans must accommodate the growth that is anticipated over the next 20 years. OPCD is currently leading a multi-department effort to update the growth strategy for the planning period extending to 2044, during which the city anticipates growing to nearly one million people while adding more than 150,000 jobs. The new comprehensive plan, which we are calling the One Seattle Plan, will also be updated to reflect new and ongoing priorities like climate change and racial equity. The One Seattle Plan will be completed by the end of 2024 and transmitted to Council for adoption in 2025. Parallel to this work, OPCD is developing a multi-phase package of zoning changes to implement the plan and create new opportunities for housing and density in neighborhoods across the city. The first allocation of funding for this work was in the 2021 Adopted Budget, which added \$130,000 in one-time resources for OPCD to work on an Environmental Impact Study and engage in community outreach to support the next major update to the Comprehensive Plan. Additional funding was included in the 2022, 2023, and 2024 budgets. The proposed budget expands this effort with a \$350,000 allocation of Payroll Expense Tax for work on a Supplemental Environmental Impact Statement to study additional land use changes in Regional and Urban Centers.

OPCD leads the Sound Transit 3 West Seattle Ballard Link Extensions (WSBLE) Planning Work Group, one of seven work groups in the Citywide WSBLE Work Plan to advance key policy discussions, draft recommendations for City leadership related to station location decisions, develop conceptual plans for stations, and undertake City-led community planning at station areas. 2025 work plan activities fall into four main categories: 1) advancing station design; 2) engaging in station area planning; 3) carrying out the City's Federal Transit Administration transit-oriented development pilot grant of \$1.75 million; and 4) coordinating with Sound Transit's Joint Development program. Early planning is underway in the Maritime and Industrial station areas that include SODO, Smith Cove, Interbay, and Ballard. Station area planning for Delridge and Chinatown International District continues through the South Delridge community planning process and coordinated South Downtown Hub with Sound Transit. The 2023 Adopted Budget included \$162,000 to fund one term-limited position (through 2025) to support City work on WSBLE-related items. The proposed budget makes this position permanent, as work on ST3 is anticipated to continue for the foreseeable future.

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$994,428

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Office of Planning and Community Development

Citywide Adjustments for Standard Cost Changes

Expenditures	\$368,014
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Removal of One-Time Items

Expenditures	\$(180,000)
--------------	-------------

This item removes \$130,000 of Payroll Expense Tax that was added by Council as one-time funding for community engagement work related to the Seattle Comprehensive Plan in the 2024 Adopted Budget; it also removes Payroll Expense Tax amounts of \$50,000 in 2025 and an additional \$350,000 in 2026 for regional subarea plans as described in the 2023 Adopted Budget.

Removal of CDBG from Baseline Budget

Expenditures	\$(430,000)
Revenues	\$(430,000)

For the 2025-2026 Proposed Budget, the Executive removed Community Development Block Grant funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects. This item removes \$430,000 of Community Development Block Grant funding from OPCD's baseline budget. In prior years, this funding was allocated for Equitable Development Initiative grants.

Remove Funding for Duwamish Valley Coordinator

Expenditures	\$(162,722)
--------------	-------------

This item reduces the funding for a three-year sunset position added in the 2022 Adopted Budget. This Duwamish Valley Coordinator position supported implementation of the Duwamish Valley Action Plan and was funded by General Fund. This position is being transferred to Seattle Public Utilities.

Baseline Data Correction

Expenditures	-
--------------	---

This budget-neutral item adjusts baseline data at the account level.

Proposed Operating

Increase the Equitable Development Initiative Grant Award Budget

Expenditures	\$1,676,839
--------------	-------------

The proposed budget allocates \$22 million in Payroll Expense Tax (payroll tax) proceeds in 2025 to the Equitable Development Initiative. This item uses payroll tax funding to increase OPCD's Equitable Development Initiative grant award budget by \$1.68 million in 2025 and another \$2.68 million in 2026. This brings total EDI payroll tax funding in the 2025 Proposed Budget to \$22,040,000, including \$607,518 for labor costs. In 2026, total EDI payroll tax funding is \$23,069,907, including \$632,103 of labor costs.

Office of Planning and Community Development

Fund Equitable Development Initiative Staff with Short-Term Rental Tax

Expenditures

-

This budget-neutral item changes the funding source for a project manager position on the Equitable Development Initiative (EDI) team. The 8-person EDI team manages a current portfolio of more than 77 projects totaling approximately \$120 million. This item replaces \$174,522 of Payroll Expense Tax with Short Term Rental Tax.

Right-Size Planning and Development Specialist Staffing

Expenditures

\$(349,044)

Position Allocation

(2.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services, this item removes two Planning & Development Specialist Senior positions in OPCD.

After this adjustment, OPCD's Land Use Policy and Strategic Initiatives division will have four permanent full-time employees and a sunset position for Downtown Activation. The division will continue to work on land use regulation and growth management issues, including housing policy, zoning implementation, and special projects.

This adjustment also reduces the number of policy staff supporting the Seattle Planning Commission, which will have 2.5 full-time employees in 2025, including a director, a policy analyst, and half-time administrative support. The Seattle Planning Commission advises elected officials and City departments on land use, transportation, housing, and related plans, programs and policies.

Administrative Efficiencies

Expenditures

\$(35,000)

Position Allocation

(0.50)

In order to achieve business process efficiencies and General Fund cost savings, this item consolidates OPCD's administrative functions. Instead of having three administrative positions supporting the office in four half-time roles, this consolidation and reorganization assigns an existing 1.0 FTE for board and commission administrative support, and an existing 0.5 FTE for office-wide administrative support. The impact of this adjustment is an overall 0.5 FTE position reduction.

Comprehensive Plan Environmental Review

Expenditures

\$350,000

The proposed budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to conduct additional environmental review to support proposed zoning changes within existing Regional and Urban Centers with the goal of allowing more height and development capacity for housing. These changes were not included in the original Environmental Impact Statement (EIS) scoping document for the major update of the City's Comprehensive Plan that is currently underway. The Supplemental EIS (SEIS) will provide the necessary environmental review for different increased height and density scenarios. The SEIS will build on the One Seattle Plan EIS and will analyze potential impacts of any proposed changes, including land use and urban form (bulk, shade, shadow) as well as citywide and local transportation impacts.

Office of Planning and Community Development

Extend Position Sunset Dates

Expenditures	-
Position Allocation	-

This item extends sunset dates for four positions in order to continue work that has been extended or is otherwise ongoing. No additional appropriation authority is included because the funding for the first three positions is included in OPCD's baseline budget and the fourth position is unfunded. The positions are as follows:

- (1) An urban centers planner -This 3-year Payroll Expense Tax funded position was added in the 2023 Adopted Budget to work on subarea plans. These plans, which are necessary in order to be eligible for future Puget Sound Regional Council funds, are currently anticipated to be adopted in 2027. Position hiring was delayed until September 2023. This item extends the sunset date for two years (through 2027).
- (2) An equitable transit-oriented development strategist - This 3-year payroll tax funded position was added in the 2023 Adopted Budget to work with Sound Transit on light rail station area planning. Because Sound Transit light rail expansion is anticipated to continue indefinitely, this item removes the sunset date and makes the position permanent.
- (3) A downtown activation planner position - This 2-year payroll tax funded position was added in the 2024 Adopted Budget to promote economic revitalization. This staffer is currently working on site activation for the World Cup, land use changes and residential development south of the Dearborn light rail station, and the Lid I-5 reconnecting communities project. This item extends the sunset date for two years (through 2027).
- (4) An engagement and communication position - This 3-year unfunded position was added by Council in the 2022 Adopted Budget to support the comprehensive plan. OPCD needs to continue this position to work on zoning and subarea plan communications. OPCD has been utilizing grant funding to pay for this position but the grant funding is no longer available. This item extends the sunset date for two years (through 2026).

Proposed Technical

Ongoing Changes from Current Year Legislation

Position Allocation	(1.00)
---------------------	--------

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance. This item reflects the transfer of a position to Seattle Public Utilities that was included in Ordinance 127068 (the Mid-Year Supplemental Ordinance).

Final Adjustments for Standard Cost Changes

Expenditures	\$(95,715)
--------------	------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Community Police Commission

Bessie Marie Scott, Acting Executive Director

(206) 256-5545

<http://www.seattle.gov/policecommission/>

Department Overview

The Office of the Community Police Commission (CPC) is the administrative and policy support entity of the Community Police Commission. The CPC is charged with providing community oversight and input on the police reform efforts that are the subject of a Settlement Agreement between the City and the U.S. Department of Justice regarding police practices. The CPC was made a permanent part of the system of civilian oversight of police in 2017 through legislation ([Ordinance 125315](#)). Membership of the CPC was modified in 2023 (Ordinance 126860) into a 15-member board appointed by the Mayor, the City Council and the Community Police Commission governs the CPC. Each commissioner serves a three-year term.

The CPC provides an independent forum for dialogue and widespread input on the reform efforts embodied in the Settlement Agreement and Memorandum of Understanding established by the Department of Justice. Ongoing community input is a critical component of achieving and maintaining effective and constitutional policing.

The CPC leverages the ideas, talent, experience and expertise of the people of Seattle to ensure police services:

- fully comply with the Constitution of the United States;
- ensure public and officer safety; and
- promote public confidence in the Seattle Police Department and its officers.

The CPC is charged with fulfilling and prioritizing the responsibilities as specified under the Consent Decree and Memorandum of Understanding and its role includes:

- reviewing and providing input to many city partners on the police accountability system, police services and the Seattle Police Department's policies and practices;
- engaging in community outreach to obtain the perspectives of the community on police-community relations, the police accountability system, police services, policies and practices and providing that input to other City departments;
- maintaining connections with representatives of disenfranchised communities and community groups; and
- advocating for reforms to state law that will enhance public trust and confidence in policing and the criminal justice system.

Community Police Commission

Budget Overview

The City's 2025 – 2026 Proposed Budget maintains core services for the Community Police Commission. The department will continue to invest in programs such as providing community oversight and input on the police reform efforts that are the subject of a Settlement Agreement between the City and the U.S. Department of Justice regarding police practices.

The General Fund revenue forecast for the City's 2025 – 2026 Proposed Budget are insufficient to cover expected costs. General Fund reductions were identified to mitigate this shortfall in revenues. The Community Police Commission (CPC) budget provides a 6% reduction to personnel expenditures. The budget is also adjusted for minor Citywide technical changes which are described below.

Incremental Budget Changes

Community Police Commission

	Dollars	FTE
2024 Adopted Budget	2,112,770	10.00
Baseline		
Citywide Adjustments for Standard Cost Changes	(4,880)	-
Bargained Annual Wage and Market Wage Increases to Base Budget	175,931	-
Net-zero reallocation of non-labor accounts.	-	-
Proposed Operating		
Assume a Vacancy Rate of 10%	(146,426)	-
Proposed Technical		
Final Adjustments for Standard Cost Changes	(5,208)	-
Total Incremental Changes	\$19,417	-
Total 2025 Proposed Budget	\$2,132,187	10.00

Community Police Commission

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$(4,880)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$175,931

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Net-zero reallocation of non-labor accounts.

Expenditures -

Net-zero reallocation of non-labor accounts.

Proposed Operating

Assume a Vacancy Rate of 10%

Expenditures \$(146,426)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. The ongoing item increases the Community Police Commission vacancy rate assumption by 10%, which reduces the General Fund budget and will result in the department holding vacancies as turnover occurs.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(5,208)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Community Assisted Response and Engagement

Amy Barden, Chief

(206) 477-8300

<http://www.seattle.gov/care>

Department Overview

The Community Assisted Response and Engagement (CARE) department, formerly known as the Community Safety and Communications Center (CSCC), was established as a new department in 2021 to provide timely, accurate, and vital information to the City's first responders, city service providers, and to the public. Ordinance 126237 transferred the primary 911 center from SPD to CARE, effective June 1, 2021. Since the transition, the department has continued working to establish itself as an independent city department, resource internal ongoing needs, and explore integrating non-uniformed and alternate resources for dispatch. CARE is home to the primary Seattle 911 call center and is the largest in the Pacific Northwest, both by staff size and volume of calls received, averaging over 800,000 per year. The department employs 186 employees and is open 24 hours a day, 365 days a year.

The CARE department seeks to enhance public safety through CARE Response Teams that will provide additional behavioral health professionals available to respond to people experiencing non-violent mental health crises or quality of life concerns. These unarmed community responders are dual-dispatched with police to priority 3 and priority 4 person down and welfare check call types. CARE Response Teams are also requested by police officers and sometimes deal with "on view" incidents. In 2022, Seattle 911 data shows a response time consistently longer than one hour to these call types; the department seeks to reduce that response time and to support SPD's ability to respond to more urgent 911 calls swiftly. The vision for CARE Response Teams into the future is to expand to additional call types and primary dispatch without officers as appropriate.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Department Support				
General Fund Support	22,114,049	26,343,050	32,402,649	35,941,800

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The City of Seattle continues to maintain its commitments to public safety investments in the budget. In 2024, the CARE department's 911 Center has been focused on responding to emergency calls. While the department has begun to see improvements in recruitment and retention, it has not reached full staffing of its 127 designated call taker, dispatcher, and supervisor positions. Overall, the 911 Center continues to see improvements in call response metrics including improving answering time for the non-emergency line.

Community Assisted Response and Engagement

CARE continues implementing the Mayor's Office and City Council's vision of diversified response by expanding the CARE Response Teams with 21 additional staff members available to respond to emerging community concerns. In 2025, the department will be adding two positions, one focused on public disclosure and one focused on the coordinating City's Restoration work. Due to the City's economic forecast, CARE strives to control spending while maintaining the best services for residents. CARE's budget recognizes vacancy savings to meet reduction targets and to align resources with their forecasted staffing.

Community Assisted Response and Engagement

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$3,584,889

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$523,930

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Add Public Disclosure Officer

Expenditures \$199,271

Position Allocation 1.00

This item adds \$199,270 and adds 1 FTE Strategic Advisor 2 as a Public Disclosure Officer. This position will have a wide range of responsibilities and will focus on public disclosure requests (PDR's) as the sole Public Disclosure Officer for CARE. As the department continues to expand as the City's third public safety department, CARE will receive many more PDR's and needs a position to primarily focus on this large workload.

Add Public Safety UCT Manager

Expenditures \$215,760

Position Allocation 1.00

This item adds \$215,760 and adds 1 FTE Strategic Advisor 3 position to serve as the Seattle Restoration Director. This position will focus on will bringing together departments in addressing placed-based public safety concerns, similar to how the existing Unified Care Team effectively and systematically addresses unsheltered persons living in encampments. The team administered by the Seattle Restoration Director will coordinate short- and long-term public safety interventions, the connection of individuals to services to address underlying needs and reduce criminal conduct, and environmental changes and activation strategies. The Seattle Restoration Director will closely coordinate with law enforcement, City departments, service providers, and community, business, and City stakeholders.

Aligning CARE budget to vacancy rate

Expenditures \$(296,300)

This item decreases appropriation by \$296,300 in 2025 and \$306,900 in 2026 to align CARE department's budget with its anticipated vacancy rate. The department has improved recruitment and retention rates since 2022 but continues to maintain a vacancy rate due to natural rate of attrition. This change will not impact hiring but will ensure the department's budget is aligned with vacancy rate.

Community Assisted Response and Engagement

Proposed Technical

CARE Team Expansion

Expenditures \$1,500,000

This item increases appropriation authority by \$1,500,000 in 2025 and \$3,533,832 in 2026 to support the ongoing expansion costs of the CARE Response Teams. CARE Response Teams have already been assisting with 911 calls through prioritization and dispatching them to the incident. This expansion will allow the CARE team to offer city-wide coverage, increased hours of service of the program, and to better focus first response resources on the situations where they are most needed.

In August 2024, funding was appropriated in Ordinance 127068 for CARE Response Team expansion, covering the costs of facilities, vehicles, and personnel. This item makes that funding ongoing for 21 full-time positions, (9 Community Crisis Responder 1's, 9 Community Crisis Responder 2's, and 3 Community Crisis Responder Supervisors). To do this requires an additional 9 vehicles (8 Ford Explorer PIU's, 1 ADA Van), equipment such as radios, uniforms, computers, facilities, supplies for distribution, and other on-going costs. The position pockets are part of the Ongoing Changes from Current Year Legislation change request.

Ongoing Changes from Current Year Legislation

Position Allocation 21.00

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance. These positions were appropriated in Ordinance 127068 for the expansion in 2024 of CARE Response Teams. This item makes adds ongoing pockets 21 FTEs, (9 Community Crisis Responder 1's, 9 Community Crisis Responder 2's, and 3 Community Crisis Responder Supervisors). The funding for these positions is appropriated in CARE Team expansion.

Final Adjustments for Standard Cost Changes

Expenditures \$332,049

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Office of Emergency Management

Curry Mayer, Director

(206) 233-5076

<https://www.seattle.gov/emergency-management>

Department Overview

The Office of Emergency Management (OEM) is responsible for the city-wide emergency management program. The mission of OEM is, "We partner with the community to prepare for, respond to, mitigate the impacts of, and recover from disasters." This office has the city-wide responsibility to:

- Facilitate citywide response which includes orchestrating coordination conference calls, managing response actions/activities and physically maintaining and managing the Emergency Operations Center (EOC) to ensure overall unity of effort when responding to emergencies and disasters of all sizes and impacts,
- Manage the City's comprehensive activities related to emergency planning, preparedness, mitigation, response, and recovery operations,
- Administer trainings and exercises that prepare City responders, volunteers, and the public to respond and recover from disasters, and
- Seek and administer post disaster recovery costs and pre-disaster mitigation grants often totaling into the millions of dollars for the city and its departments.

OEM has adopted a whole community approach to educating the public. They do this by adapting preparedness curriculum to each audience, building relationships with community organizations, and focusing engagement on vulnerable populations such as those with limited English proficiency (LEP), low income, and immigrant and refugee communities.

Budget Snapshot

Office of Emergency Management

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office of Emergency Management (OEM). The Office will continue to invest in programs supporting OEM's mission of providing emergency management services to the city. As part of preparing the City for all types of emergencies, the 2025-2026 Proposed Budget includes \$30,000 in the City Budget Office to conduct a review of other emergency management offices. This review will evaluate OEM's funding, multijurisdictional framework, and organizational structure in comparison to peer cities, specifically those on the West Coast, as well as to nationwide best practices.

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in the following areas: reduction to travel and training budget; transitioning to King County's WebEOC software; and removing 1.25 FTE.

Incremental Budget Changes

Office of Emergency Management

	Dollars	FTE
2024 Adopted Budget	2,922,504	15.00

Eliminate WebEOC Software License	(45,000)	-
Remove 1.0 FTE Strategic Advisor 1 Providing Community Engagement	(174,600)	(1.00)
Proposed Technical		
Final Adjustments for Standard Cost Changes	(79,717)	-
Total Incremental Changes	\$114,653	(1.25)
Total 2025 Proposed Budget	\$3,037,157	13.75

Office of Emergency Management

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures	\$288,946
--------------	-----------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$160,324
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Reduce Travel and Training Budget

Expenditures	\$(10,000)
--------------	------------

This item decreases appropriation authority by \$10,000 in OEM's travel and training budget, reducing their staff travel and training budget by 80%, from \$12,500 to \$2,500. This will result in reduced OEM participation in professional development organizations, trainings and conferences, including ongoing Big City Emergency Managers meetings and the Emerging Leaders program, as well as other emergency management professional organizations such as the Washington State Emergency Management Association (WSEMA), International Association of Emergency Managers (IAEM), and Washington Partners in Emergency Preparedness. This will limit OEM's access to innovative strategies and new peer reviews best practices.

Reduce Full-Time Administrative Support to Part-Time

Expenditures	\$(25,300)
Position Allocation	(0.25)

This item decreases appropriation authority by \$25,300 and reduces 0.25 FTE from 1.0 FTE Administrative Specialist II position to 0.75 FTE. This proposal results in a reduction in hours, from full-time to a part-time, 30 hours per week position. As the only administrative staff support in OEM, there will be reduced capacity to support Emergency Operations Center (EOC) readiness and activations, department purchasing and facility maintenance, response to public inquiries about disaster preparedness classes, and Community Engagement team support.

Eliminate WebEOC Software License

Expenditures	\$(45,000)
--------------	------------

This item decreases appropriation authority by \$45,000 for the current Web-based Emergency Operations Center (WebEOC) incident management platform. To create efficiencies and generate cost savings, OEM will transition to using King County's Office of Emergency Management's WebEOC at no cost, with minimal to limited loss of functionality anticipated. The WebEOC system allows internal and external stakeholders to communicate with the

Office of Emergency Management

Emergency Operations Center and exchange information and resources during emergencies.

Remove 1.0 FTE Strategic Advisor 1 Providing Community Engagement

Expenditures \$(174,600)

Position Allocation (1.00)

This item decreases appropriation authority by \$174,600 and reduces 1.0 FTE Strategic Advisor 1 position providing community engagement on disaster education to vulnerable communities. This reduces OEM's capacity to provide disaster skills trainings to the public and community-based organizations, such as developing and conducting youth camps with schools and community centers. There will be fewer OEM newsletter publications on emergency preparedness and hazard awareness for the public, a curtailment of engagement work with small businesses, and reduced capacity for tsunami preparedness activity development and conduct. OEM will maintain one Strategic Advisor III position as the community engagement manager and one Strategic Advisor 1 position to coordinate community engagement activities.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(79,717)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Seattle Fire Department

Harold D Scoggins, Fire Chief

(206) 386-1400

<http://www.seattle.gov/fire>

Department Overview

The Seattle Fire Department (SFD) provides fire protection and prevention, technical rescue, and emergency medical services for the City of Seattle. It deploys engine companies, ladder companies, aid and medic units, rescue companies, and fireboats to mitigate the loss of life and property from fires, medical emergencies, and other disasters. SFD maintains 33 fire stations strategically located within six battalions to provide optimal response times to emergencies. Each battalion serves specific geographic areas in the city: the downtown/Central Area, north and northeast Seattle, northwest Seattle, south and southeast Seattle, and West Seattle.

SFD has a strong record of fire prevention resulting in fewer fires than the national average and of other cities with similar populations. Seattle averages 1.4 fires annually per 1,000 residents, which is significantly lower than the national average of 4.5. Over the past five years, the average number of total structure fires per year in Seattle has been 1,025. Total fire dollar loss averaged \$19.6 million per year.

SFD provides emergency medical responses, which account for approximately 74% of all SFD emergency calls in Seattle. To respond to the emergency medical demand, all Seattle firefighters are trained as emergency medical technicians (EMTs) to provide basic emergency medical care or basic life support. SFD staffs eight medic units, each with two firefighter-trained paramedics to provide more advanced medical care or advanced life support. Additionally, the department has five full-time and two peak-time aid units staffed by firefighters to provide basic life support citywide.

In 2016, SFD implemented the Low Acuity Alarm Program to reduce non-emergency calls to the 911 system and to provide improved service and care to individuals with non-emergent needs. In 2019, the program was renamed Mobile Integrated Health to better reflect its work, which now includes the Health One multidisciplinary response team of firefighters and case managers. Health One launched in 2019 to respond to individuals immediately in their moment of need and help them navigate the situation - whether they need medical care, mental health care, shelter, or other social services. Currently, core activities of Mobile Integrated Health are high utilizer intervention (individuals and locations), low acuity data and trend analysis, establishing referral partnerships, and alternate treatment/transportation services.

The department also has marine, hazardous materials, high-angle, tunnel, and confined-space rescue teams. In addition, SFD officers and firefighters are members of local and national disaster response teams such as the Federal Emergency Management Agency (FEMA)'s Urban Search and Rescue Task Force and wildland firefighting. SFD's fire prevention efforts include fire code enforcement, building inspections, plan reviews of fire and life safety systems, public education and fire safety programs, regulation of hazardous materials storage and processes, and regulation of places of public assembly and public events to ensure life safety.

Seattle Fire Department

Budget Overview

The 2025-26 Proposed Budget for the Seattle Fire Department (SFD) increases investments in hiring and training of firefighters and paramedics in the face of historically high vacancy levels. As the City faces General Fund constraints, SFD has aligned their budget to reflect current staffing levels and projects higher than usual vacancies in the upcoming year. In addition, the department will reduce overtime allocations across various divisions to achieve spending constraints.

SFD's vacancies remain higher than normal, and this indicates it will be difficult for SFD to meet minimum daily staffing levels over the biennium. SFD expects some level of unit outages to continue due to these staffing shortages and is working to mitigate the impact. To address high vacancies, this budget includes investments for SFD to train an additional 20 recruits on top of the 60 recruits in their base budget. Also, to address the high level of vacancies among paramedics, additional training slots are funded in 2025 and 2026.

SFD will have ongoing funding to support the dangerous building abatement program adopted during the midyear supplemental in 2024. This will allow the department to contract with vendors to demolish or perform other related services such as installation of fencing around the property that have been identified as derelict and unsafe. The City is going to make one-time investments to replace Basic Life Support (BLS) Automated External Defibrillators (AEDs) and Advanced Life Support (ALS) LifePaks nearing their expiration date. In addition, this budget includes investments to continue the expansion of the Mobile Integrated Health (MIH) Program with the goal of increasing service delivery, expanding operational hours, and adding new lines of capacity for the team.

This budget further aligns SFD's resources with the department's operational needs. To increase institutional knowledge of processing and managing injury and illness claims, the department will explore converting one uniform position pocket into a civilian position pocket. Lastly, SFD has revised various fees and charges to cover the cost of service and to support the SFD Fire Prevention Division.

Total Incremental Changes	\$44,987,632	0.50
Total 2025 Proposed Budget	\$327,562,647	1204.85

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$32,326,052

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Seattle Fire Department

Citywide Adjustments for Standard Cost Changes

Expenditures \$9,438,663

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Align overtime budget with vacancy rate

Expenditures \$(1,000,000)

This item reduces appropriation by \$1 million in 2025 and 2026 for overtime. SFD has been experiencing a high number of vacancies due to various factors and this item aligns the overtime budget with current and forecasting staffing levels by recognizing \$1 million in potential budget savings in 2025 and 2026. SFD's staffing shortages will remain high until positions are filled and thus SFD may experience some level of unit outages that will result in overtime savings.

Department-wide Overtime Savings

Expenditures \$(400,000)

This item reduces appropriation by \$400,000 in 2025 and 2026 for SFD. Savings will be produced by reducing overtime activities across various divisions but will not impact the delivery of emergency services provided to the community.

Civilianize Disability Officer

Expenditures \$(47,290)

Position Allocation -

This item decreases appropriation by \$47,290 in SFD's Human Resources Division by replacing a uniform position pocket with a civilian position pocket to accomplish the job duties of the Disability Officer. Currently, the position rotates every two years between uniformed staff. Institutional knowledge of processing and managing injury and illness claims would increase due to longer retention of personnel beyond the typical two years of the uniform position. The current annual compensation, including overtime, is \$198,000 annually. A professional staff equivalent, which would be a Senior Personnel Specialist. Mid-point annual compensation is \$150,000. Further exploration and conversation with labor partners need to happen.

Human Resources Overtime Reduction

Expenditures \$(10,000)

This item decreases appropriation by \$10,000 in SFD's Human Resources Division. Overtime costs will be reduced due to centralization of recruitment and outreach efforts, which historically were spread amongst multiple personnel and without singular oversight by a workforce development adviser. SFD hired a workforce development adviser, and the person is actively managing and auditing overtime costs for recruitment and outreach. Strategic and intentional planning and execution will result in less diffuse and spread-out overtime costs.

Seattle Fire Department

Major Equipment Funding

Expenditures	\$3,000,000
--------------	-------------

This item provides one-time funding for Basic Life Support (BLS) Automated External Defibrillators (AEDs) and Advanced Life Support (ALS) LifePaks. These items are nearing their expiration date and will need to be replaced next year. In 2025, SFD will need approximately \$2.3 million to replace the ALS LifePaks and \$700,000 to replace the BLS AEDs.

Add funding for 20 additional Fire Fighter recruits

Expenditures	\$2,059,325
--------------	-------------

This item adds \$2,059,325 for hiring and training 20 additional recruits in 2025 and in 2026. SFD continues to experience a high vacancy rate and projects it to remain high in 2025 until the positions are filled. The additional fire fighter recruits will allow SFD to keep up with attrition and reduce the overall vacancy count. This is in addition to the funding for 60 recruits already in the SFD base budget.

Add funding for additional paramedic students

Expenditures	\$722,400
--------------	-----------

This item adds \$722,400 in 2025 and \$1,204,000 in 2026 for 5 additional paramedic student training. SFD continues to experience a high vacancy rate within paramedic ranks and projects it to remain at elevated levels in 2025 and 2026. This funding will allow SFD to keep up with attrition and reduce vacancies. This is in addition to the funding for 5 recruits in the SFD base budget for paramedic training.

Mobile Integrated Health Program Expansion

Expenditures	\$458,482
--------------	-----------

Position Allocation	.50
---------------------	-----

This item adds \$458,482 in 2025 and \$1,206,953 in 2026 to continue the expansion of the Mobile Integrated Health (MIH) Program with the goal of increasing service delivery, expanding operational hours, and adding new lines of capacity for the team. This new investment would add an additional team to the Post Overdose Team (H99) to conduct patient follow-up and recovery system navigation. A follow-up component to the Post-Overdose Response Team is critical because most of the essential next steps on clients' road to recovery and stability do not happen without direct team involvement. Since the initial dose of buprenorphine lasts 24-48 hours, without follow-up there is a high likelihood of relapse. To provide additional support to the overall MIH program, a 0.5 FTE Administrative Specialist will be added in 2025 and 1 FTE Administrative Lieutenant position will be added in 2026. The proposed changes transition the MIH program from a relatively flat structure to one with more diversification, both in terms of personnel and in specialized program areas.

Basic Life Support Transport Billing

Expenditures	\$5,000
--------------	---------

Revenues	\$313,905
----------	-----------

This item increases appropriation by \$5,000 in SFD to contract with a vendor to start billing insurance companies, Medicaid, and Medicare for Basic Life Support (BLS) transports performed by SFD. SFD contracts BLS transportation, i.e., non-life-threatening ambulance services, to American Medical Response (AMR), a private contractor. When AMR cannot provide ambulances, SFD aid cars are used in a backup capacity to transport patients to the emergency room. It is estimated to bring in over \$300,000 in new revenues to support emergency medical services. Individual patients will not be billed, only insurance companies, Medicaid, and Medicare will be billed.

Seattle Fire Department

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(2,665,000)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Dangerous Building Abatement

Expenditures \$500,000

Revenues \$500,000

This item increases appropriation by \$5,000 in SFD to contract with a vendor to start billing insurance companies, Medicaid, and Medicare for Basic Life Support (BLS) transports performed by SFD. SFD contracts BLS transportation, i.e., non-life-threatening ambulance services, to American Medical Response (AMR), a private contractor. When AMR cannot provide ambulances, SFD aid cars are used in a backup capacity to transport patients to the emergency room. It is estimated to bring in over \$300,000 in new revenues to support emergency medical services. Individual patients will not be billed, only insurance companies, Medicaid, and Medicare will be billed.

SFD Revenue Submittal

Revenues \$(118,753)

This item provides the revenue adjustments to align with updated inflation and demand forecasts. It includes the new revenues associated with the dangerous building abatement services, basic life support transport billings, and projection for a renewal of the King County Medic One/EMS Levy.

Overtime Budget-related AWI

Expenditures \$600,000

This item increases appropriation by \$600,000 for 2025 and 2026 in SFD. In 2023, SFD added ongoing staffing costs associated with the permanent operation of resources that were implemented temporarily during the closure of the West Seattle Bridge. During the AWI calculations this ongoing funding was not incorporated in original calculations, this additional funding addresses that oversight.

SFD - BO-FD-F3000 - Operations

The purpose of the Operations Budget Summary Level is to provide emergency and disaster response capabilities for fire suppression, emergency medical needs, hazardous materials, weapons of mass destruction, and search and rescue. In addition, reduce injuries by identifying and changing practices that place firefighters at greater risk and provide communication services.

Firefighter's Pension

Alaina Gill, Executive Secretary

(206) 625-4355

<http://www.seattle.gov/firepension/>

Department Overview

The Firefighters' Pension Fund (FPEN) provides pension and medical benefit services to eligible firefighters, active and retired, and their beneficiaries. FPEN is a closed plan that only covers firefighters who were hired before October 1, 1977. Retiree benefits for firefighters hired more recently are primarily covered through a separate state-managed plan.

Management of firefighter benefits funds transitioned in the 1970s from local to state control. Prior to that time, the City paid into FPEN to provide for firefighter retiree benefits. In March 1970, the state created the Law Enforcement Officers and Fire Fighters Retirement System Plan 1 (LEOFF 1). Seattle firefighters hired between March 1970 and October 1977 enrolled in LEOFF 1, but also received additional benefit coverage through FPEN. As a result, this group of firefighters receives retiree benefits primarily from the state's LEOFF 1 plan, but also any earned increment from the City's FPEN that exceeds LEOFF 1 coverage. Both FPEN and LEOFF 1 closed to new enrollees in October 1977. Firefighters hired after that date enroll in the state's LEOFF 2 plan and do not receive benefits from FPEN.

The Seattle Firefighters' Pension Board is a five-member quasi-judicial body chaired by the Mayor or his/her designee, which formulates policy, rules on disability applications, and provides oversight of the Firefighters' Pension Fund. Four staff employees of the board handle all of its operational functions. Staff positions associated with Firefighters' Pension Fund are not reflected in the City's position list.

The projections of annual pension and medical benefits, which comprise about 97% of the total annual FPEN budget, are based on the forecasts of an independent actuary. The Firefighters' Pension Fund has two statutory funding sources:

- The first is a component of the City's property tax levy. These revenues are placed in the City's General Fund, which funds the Fire Pension Fund's annual budget.
- The second is the state fire insurance premium tax.

These statutory funding sources are in addition to other smaller funding sources that support the Firefighters' Pension Fund obligations. The Firefighters' Pension Fund includes two funds: the Fire Pension Fund, which pays current pension, medical, and death benefits; and the Actuarial Account, which was established by [Ordinance 117216](#) in 1994 to accumulate a balance sufficient to pay all future pension liabilities of the fund by 2028.

Firefighter's Pension

Budget Overview

The Firefighters' Pension Fund (FPEN) receives almost all of its revenue from the City's General Fund. FPEN's expenditures pay the legally mandated pension and medical benefits, including long-term care, to eligible retired firefighters and qualified beneficiaries. Most of FPEN's retirees are represented by either Local 27 (firefighters' union) or Local 2898 (fire chiefs' union) and their total pension benefits are increased annually with a cost-of-living adjustment equal to the negotiated annual wage increases (AWI) for the active union members at the Seattle Fire Department and then offset by benefits paid by the state's Law Enforcement Officers and Fire Fighters (LEOFF 1) pension plan which has its own annual growth rate.

In November 2016, Council passed Ordinance 125190 which requires an actuarially determined level payment amount from the City to the FPEN Fund each year to cover pension benefit costs. Any remaining difference between the payment amount and actual pension benefit costs is transferred to the Actuarial Account for FPEN's future pension obligations. The account is invested in a portfolio managed by the Department of Finance and Administrative Services (FAS). The 2025-2026 Proposed Budget assumes an annual rate of return of 5.5% on the investment portfolio and that the returns are continuously reinvested.

The 2025 Proposed Budget increases \$3.4 million (14.9%) from the 2024 Adopted Budget. Budget appropriations for 2026 increase \$1.01 million (3.8%). As described below, this biennium's appropriations have undergone some "right-sizing" across pension and medical and long-term care expenditure accounts to better capture expected annual costs in each account. As usual, the budget includes amounts to make the required transfer to the Actuarial Account to achieve the City's goal to fully fund all future pension liability for the fund by the end of 2028.

Firefighter's Pension

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures	\$(17,176)
--------------	------------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Final Adjustments for Standard Cost Changes

Expenditures	\$(16,052)
--------------	------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

FPEN Revenue and Expenditure Adjustments

Expenditures	\$3,466,121
Revenues	\$3,432,893

This item adjusts expenditure and revenue amounts in the Firefighters' Pension Fund to meet the projected costs for pension, medical and long-term care costs in 2025 and 2026. In 2025, it increases total costs approximately \$3.4 million from the 2024 Adopted Budget. \$3.1 million of this change is attributable to steady medical and long-term care cost increases. Higher medical and long-term care costs are expected as eligible firefighters and fire chiefs covered by this closed pension plan increase in age. Pension payment amounts have increased due to the wage agreements for Local 27 firefighters and 2898 fire chiefs. Despite this increase, appropriations for pension payments have declined in the 2025-2026 Proposed Budget, reflecting an adjustment of the appropriations back to annually expected payment amounts rather than amounts containing an excess used to build up fund balance sufficient in 2024 to meet the one-time retroactive pension payment costs that came with the union wage agreements. Additionally, and offsetting the \$1.1 million pension appropriation decrease just described, the required annual transfer to the FPEN Actuarial Account has increased approximately \$1.4 million.

Actuarial Account Transfer

Revenues	-
----------	---

This item provides the corresponding entries for the annual contribution from the Firefighters' Pension Fund (61040) to the Firefighters' Actuarial Fund (61050). This transfer amount of \$2.54 million in 2025 and \$2.62 million in 2026 is made with the goal of fully funding all remaining pension liability of the fund by the end of 2028.

Office of Inspector General for Public Safety

Lisa Judge, Inspector General

(206) 684-3663

<http://www.seattle.gov/oig>

Department Overview

The Office of Inspector General for Public Safety (OIG) was established in 2017 as part of the City of Seattle's police accountability system through [Ordinance 125315](#). OIG's purpose is to oversee the management, practices, training, supervision, and policies of the Seattle Police Department (SPD) and Office of Police Accountability (OPA) in order to promote fairness and integrity in the delivery of law enforcement services and in the investigation of police misconduct. OIG's responsibilities include:

- Ensuring SPD is meeting its mission to address crime and improving quality of life through the delivery of constitutional, professional, and effective police services that retain the trust, respect, and support of the community;
- Consent Decree monitoring duties and increased oversight responsibilities related to use of force, crowd management, supervision, response to persons in crisis, bias and disparity, and related areas of concern to assure ongoing fidelity to the principles underlying the Consent Decree, *United States of America v. City of Seattle* (USDC No. 2:12-cv-01282-JLR);
- Increased review obligations related to SPD acquisition and use of surveillance technology (pursuant to Seattle Municipal Code Chapter 14.18.060);
- Conducting performance audits and reviews to ensure the integrity of SPD and OPA processes and operations; Reviewing OPA's intake and investigation of SPD misconduct allegations;
- Evaluating SPD response to incidents involving death, serious injury, serious use of force, mass demonstrations, or other issues of significant public concern to assess the integrity of SPD investigative processes;
- Responding to emerging policy projects from council members, community and other key stakeholders;
- Maintaining and promoting use of a hotline and other technologies to receive anonymous reports from the public and City employees; and
- Making recommendations to policymakers aimed at increasing fairness, equity, and integrity in the delivery of SPD services and related criminal justice system processes.

To fulfill these responsibilities, OIG has five operational functions: audit, policy, investigations, standards and compliance, and strategic leadership to include operations and administration, guided by an overarching goal to work toward a sustainable, accountable law enforcement system.

Office of Inspector General for Public Safety

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office of Inspector General. The department will continue to invest in programs to oversee the management, practices, training, supervision, and policies of the Seattle Police Department (SPD) and Office of Police Accountability (OPA) and promote fairness and integrity in the delivery of law enforcement services and in the investigation of police misconduct.

The General Fund revenue forecast for the City's 2025 – 2026 Proposed Budget are insufficient to cover expected costs. General Fund reductions were identified to mitigate this shortfall in revenues. The Office of Inspector General (OIG) budget provides a 2% reduction through non-personnel line items such as consultant services, supplies, travel, and equipment/software that will not impact their daily operations. The budget is also adjusted for minor Citywide technical changes which are described below.

Incremental Budget Changes

Office of Inspector General for Public Safety

	Dollars	FTE
2024 Adopted Budget	4,700,174	22.50
Baseline		
Citywide Adjustments for Standard Cost Changes	195,944	-
Bargained Annual Wage and Market Wage Increases to Base Budget	432,837	-
Proposed Operating		
Reduce Non-labor Accounts to Meet Budget Reductions	(95,325)	-
Proposed Technical		
Final Adjustments for Standard Cost Changes	(23,936)	-
Total Incremental Changes	\$509,520	-
Total 2025 Proposed Budget	\$5,209,694	22.50

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$195,944

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Office of Inspector General for Public Safety

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$432,837

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Proposed Operating

Reduce Non-labor Accounts to Meet Budget Reductions

Expenditures \$(95,325)

This item reduces the OIG non-labor budget for consultant services, supplies, travel, and equipment/software. This reduction is 2% of the OIG baseline budget and should not impact department operations.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(23,936)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Department Overview

The department provides legal advice to City officials, represent the City in litigation, and protect the public health, safety, and welfare of the community by prosecuting violations of City criminal and civil ordinances and state law. The three department divisions are described below.

The **Administration Division** provides executive leadership, communications, and operational support for the entire department. It is comprised of the executive leadership team, human resources, finance, media relations, and information technology staff.

The **Civil Division** provides legal counsel and representation to the City's elected and appointed policymakers in litigation at all levels of county, state, federal courts, and administrative agencies. The Civil Division is organized into eight specialized areas of practice: Employment, Environmental Protection, Land Use, Constitutional and Complex Litigation, Government Affairs, Torts, Civil Enforcement, and Contracts & Utilities.

The **Criminal Division** prosecutes misdemeanor crimes in Seattle Municipal Court, provides legal advice to City clients on criminal justice matters, monitors state criminal justice legislation of interest to the City, and participates in criminal justice reform efforts, policy development and management of the criminal justice system. The Criminal Division is comprised of a Prosecution Support Unit, Case Preparation Unit, Domestic Violence Unit (prosecutors and victim advocates), Appeals, Review and Filing Unit, Specialty Courts Unit (Infractions, Mental Health, Veterans' Court, Let Everyone Advance with Dignity (LEAD), and Pre-filing Diversion), and Trial Team Unit.

The **Precinct Liaisons** supports a program where attorneys work in each of the City's police precincts, providing legal advice to police and other City departments. In helping to address a variety of neighborhood and community problems, the precinct liaison attorneys coordinate with the Civil and Criminal divisions with the goal of providing a consistent, thorough, and effective approach.

Budget Snapshot

Budget Overview

Law Department

The City's 2025 – 2026 Proposed Budget maintains core services for the Law Department. The department will continue to invest in programs such as prosecution of misdemeanors, advise on legal matters, and provide legal counsel to the City's elected and appointed policymakers in litigation at all levels.

The General Fund revenue forecast for the City's 2025 – 2026 Proposed Budget are insufficient to cover expected costs. General Fund reductions were identified to mitigate this shortfall in revenues. The Law Department provides a 1.4% reduction in the Civil and Criminal Divisions by removing funding for 3.0 FTE attorney positions. Two baseline technical changes increase the department's ongoing budget. One item includes inflation for the Memorandum of Agreement with King County for the Regional Domestic Violence Firearms Enforcement Unit. The other item a paralegal to support the collection of delinquent accounts and is funded by Seattle City Light.

The budget is also adjusted for minor Citywide and departmental technical changes.

Incremental Budget Changes

Law Department

	Dollars	FTE
2024 Adopted Budget	40,780,772	209.80

Total 2025 Proposed Budget	\$45,559,667	209.80

Law Department

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures	\$1,560,469
--------------	-------------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures	\$3,543,406
--------------	-------------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Law Baseline Adjustments

Expenditures	-
--------------	---

This technical change corrects issues of funding between projects and Divisions. It corrects errors associated with funds coded to Memorandum of Agreements which are no longer in place. It also provides detail to centralized changes associated with the City Council change to adjust pension contributions by departments. These changes have no net financial impact.

Inflation for the Firearms Surrender Memorandum of Agreement with King County

Expenditures	\$47,025
--------------	----------

In 2017, the City entered into a six-year MOA with King County to standup and staff a regional unit to enhance public safety and public health with effective processing, service and enforcement of Protection Orders and Orders to Surrender Weapons. This adjustment reflects the inflationary adjustments to the MOA which haven't increased since 2023.

Seattle City Light Memorandum of Agreement - Paralegal

Expenditures	\$141,274
--------------	-----------

Revenues	\$141,274
----------	-----------

This item increases appropriation authority by \$141,273 in the Civil Budget Control Level. This appropriation increase is revenue backed by funding provided by Seattle City Light (via MOA) and will support a Paralegal-Law to assist with collections monies associated with past-due accounts. This is a continuation of contract position from the Department of Human Resources included in the mid-year supplemental in 2024.

Proposed Operating

Remove Funding for Two Civil Division Assistant City Attorneys

Law Department

Expenditures \$(433,754)

This item removes funding for two 1.0 FTE Assistant City Attorneys in the Civil Division Employment and Contracts/Utilities Sections. This change reduces capacity to provide guidance and advice to elected officials and departments. This may also lead to an increase in costs to departments and/or the Judgment and Claims fund as they may need to contract with outside attorneys to perform the work that is time-sensitive and cannot be delayed as a result of fewer attorneys in the City Attorney's Office.

The position authority is retained to allow flexibility in hiring and address emergency legal needs as required.

Remove Funding for One Specialty Court Unit Prosecutor

Expenditures \$(181,842)

Following the closure of Community Court at the Seattle Municipal Court this item eliminates funding for one prosecutor in the Specialty Court Unit (SCU) of the Criminal Division. This unit houses a team of attorneys who utilize alternative approaches to the traditional prosecutorial approach. The SCU team handles cases in cases in Mental Health Court, Veteran's Treatment Court and LINC (Legal Intervention and Network of Care). SCU also handles both traffic and non-traffic infractions, parking citations, animal control violations, impounds and other non-criminal violations. This reduction will lower the caseload capacity for attorneys of these alternative case types. Four prosecutors remain in SCU along with the Unit Supervisor.

The position authority is retained to allow flexibility in hiring and address emergency legal needs as required.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(187,474)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Criminal Case Management System Licensing Costs

Expenditures \$185,000

The Law Department has been collaborating with the Information Technology Department (ITD) to develop a new Criminal Case Management System (CCMS). This item funds \$185,000 in ongoing licensing and maintenance costs associated with contracted vendor Justice Nexus.

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures \$104,791

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and Local 77 bargaining units, for personnel costs included in this department's budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Seattle Municipal Court

The Honorable Faye R. Chess, Presiding Judge

(206) 684-5600

<http://www.seattle.gov/courts/>

Department Overview

As the judicial branch of Seattle City government, the Seattle Municipal Court (SMC or Court) provides a forum to resolve alleged violations of the law in a respectful, independent, and impartial manner. SMC adjudicates misdemeanors, gross misdemeanors, infractions (e.g., traffic and parking tickets, traffic camera violations, and other violations), and civil violations related to building and zoning offenses. The Court has seven elected judges and five appointed magistrates. There are more cases processed here than any other municipal court in the State of Washington.

This is a transformational time at SMC with several change initiatives underway that will advance SMC as the people's court, providing fair, equitable and innovative delivery of justice. Each change initiative aligns with the Court's strategic priorities of:

- building capacity
- evolving services to center those served
- modeling a culture rooted in equity
- streamlining decision making
- engaging staff to develop future leaders today

In 2024, SMC completed realignment its organizational structure into four service areas: Operations, Administrative Services, Court Technology, and Strategy. This structure supports realizing SMC's strategic priorities by making the best use of court resources, eliminating siloed operations and functions, and ensuring court services are easy to navigate. The realignment improves transparency in decision-making and communication throughout the Court. In late 2023, SMC judges unanimously approved a sustainable governance structure memorialized in a governance playbook that outlines the operating agreements of the court, establishes the process by which these agreements may be changed, and documents decision-making authority. This was developed in partnership with the National Center for State Courts. In 2024, the court launched a project governance structure to ensure a clear and consistent process for requesting, submitting, vetting, and approving projects and system enhancements to ensure alignment with court policy and strategy.

SMC recognizes undoing institutional racism and ensuring a culture of equity and inclusion requires engagement with community and staff to identify meaningful solutions. In 2024, SMC continued to engage community through its judicial officers, as well as through Community Relief events. These events bring court services and resources to Seattle neighborhoods and are an opportunity for community members to receive assistance with resolving SMC warrants, learn about options for addressing tickets, help with reinstating their driver's license, and access supportive services through the Community Resource Center. In May 2024, SMC hosted its first Law Day event, welcoming over 40 high school students to the court to learn about the branches of City government, explore court careers, and participate in mock trials.

The Court successfully launched its new technology systems in March 2024, the culmination of a multi-year project to replace a 30+ year-old legacy municipal court information system, MCIS. User stories and human-centered design informed the business transformation. The court continues to implement components of the system deferred to ensure an on-schedule launch as well as key data exchanges with system partners.

Ensuring access to justice for Limited English Proficiency (LEP) and deaf, hard-of-hearing, or deaf-blind (D/HH/DV) individuals remains a priority for the Court. SMC has provided Interpreter Services in 149 languages since 2005, including American Sign Language. Free interpreter services are provided for criminal and civil matters, including

Seattle Municipal Court

court hearings, trials, attorney-client interviews, probation appointments, prosecution witnesses, mental health evaluations, customer service, and translation of court forms and letters.

SMC looks forward to the strategic changes planned for the next year that will advance the court values of service, fairness, equity and inclusion, innovation, excellence, and integrity.

Budget Overview

The City's 2025 – 2026 Proposed Budget maintains core services for the Seattle Municipal Court. The department will continue to invest in programs to adjudicate misdemeanors, gross misdemeanors, infractions (e.g., traffic and parking tickets, traffic camera violations, and other violations), and civil violations related to building and zoning offenses.

The General Fund revenue forecast for the City's 2025 – 2026 Proposed Budget are insufficient to cover expected costs. General Fund reductions were identified to mitigate this shortfall in revenues. The Court provides a 0.7% reduction of \$361,203 including 3.0 FTE Administrative Specialist positions.

The Court realigned its organizational structure in 2024 into four areas of Operations, Administrative Services, Court Technology and Strategy, as summarized in the Department Overview. Through net-zero budget changes, all labor and non-labor appropriations are moved from the Court Compliance Budget Summary Level (BSL) into the Court Operations and Administrations BSL's.

The budget is also adjusted for minor Citywide and departmental technical changes which include support for maintaining the new case management system, one-time support for organizational realignment with the new software, and ongoing grant funding to sustain a staff member for therapeutic courts.

Total Incremental Changes	\$2,946,931	(1.00)
Total 2025 Proposed Budget	\$46,226,911	200.85

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$(1,038,964)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Seattle Municipal Court

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures	\$4,114,563
--------------	-------------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Proposed Operating

Customer Service Staff Reduction

Expenditures	\$(361,203)
Position Allocation	(3.00)

The General Fund revenue forecast is insufficient to cover expected costs. General Fund reductions were identified to mitigate this shortfall in revenues. This eliminates three vacant Administrative Specialist II positions in the Court Operations division. At this time, existing court staff are able to absorb this work.

Grant Backed Funding for Therapeutic Court Position

Position Allocation	1.00
---------------------	------

The Washington State Administrative Office of the Court (AOC) has ongoing, permanent funding available for courts of limited jurisdiction for Therapeutic Courts. The Court is a member of the group that will be receiving annual distributions. This change request makes permanent the Mental Health Court Community Support Specialist, who connects clients with mental health and/or substance use disorder to services and get them the support they need as they address their court obligations.

Case Management Software Contract

Expenditures	\$246,351
--------------	-----------

This item increases appropriation for the ongoing Operating and Maintenance costs of the new case management system including mandated annual upgrades. The Court retired its legacy case management system in 2024. The new case management system (MCIS 2.0/C-Track) will need ongoing upgrades to keep the system current and able to interact with other enterprise systems.

Therapeutic Court Grant

Expenditures	\$165,000
Revenues	\$165,000

This is grant funding from the Washington State Administrative Office of the Court for the new grant starting in July of 2025. This grant will continue to support a 1.0 FTE Strategic Advisor I, a nonprofit service provider contract, supplies, training and seminar travel, and recovery support costs. It serves Seattle Municipal Court participants identified with substance use disorders or other behavioral health needs and engages individuals with community-based therapeutic interventions. There are no matching requirements.

Seattle Municipal Court

School Zone Camera Expansion

Expenditures	\$125,000
Position Allocation	1.00

The School Zone Camera program is a joint program between the Seattle Department of Transportation (SDOT), Seattle Police Department (SPD), and SMC that installs and operates automated enforcement cameras and processes citations for 30 cameras intended to enforce speed limits in school zones at 19 camera locations at 18 schools.

This item expands the program, installing 37 new cameras at 18 additional locations, intending to be operational by fall 2025. This expansion will nearly double the total number of existing locations that have automated school zone camera enforcement. Revenue from ticket payments will be used to offset operating and citation processing costs in SDOT, SPD, and SMC, and support fund balance in the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund to help prevent the need for future reductions to school safety and pedestrian improvement projects. The budget changes for SPD and SDOT operating, and citation processing costs associated with this expansion are included in their respective Budget Book sections. Please see these sections for more information about these impacts.

Trial Court Improvement Account Funding to Support Organizational Realignment

Expenditures	\$104,222
Position Allocation	-

This change request reduces the Trial Court Improvement Account (TCIA) fund balance and allocates one-time resources to SMC to advance their organization transformation in support of the new case management system and extending a sunset position initiated in 2024. The court is changing the organization and internal administrative systems to support the new case management system.

Parking Fine Increase

Revenues	\$4,900,000
----------	-------------

Under their authority granted by State law, Seattle Municipal Court judges have increased fines for parking citations, to take effect January 1, 2025. These fine amounts have not changed since 2011. The changes align these fines with inflation and approach parity with similar U.S. cities. In total, this change will add an estimated \$4.9 million in General Fund revenues from parking citations. The increase is roughly 50% across the board where fines of \$29 will increase to \$43; fines of \$44 will increase to \$65; fines of \$47 will increase to \$69; fines of \$53 will increase to \$78.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures	\$(707,834)
--------------	-------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Seattle Municipal Court

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures \$260,125

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and Local 77 bargaining units, for personnel costs included in this department's budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Judicial Salary Technical Adjustment

Expenditures \$39,671

Washington State elected judicial salaries are set by Washington Citizens' on Salaries for Elected Officials. As directed in Ordinance 122112, SMC judicial salaries are set at 95% of the district court. A salary schedule has been set and a wage increase was mandated for increase effective July 1, 2024. Setting SMC judicial salaries at this level qualifies the city to receive a contribution from the state for one-time improvements. The state's contribution is generally \$150,000 annually and is applied to the Trial Court Improvement Account in Finance General. Ordinance 122112 permits appropriation by annual budget or by separate ordinance, solely to fund allowable SMC related expenditures.

Consolidation of Half-time to Full-time Positions

Position Allocation -

As part of the Court reorganization prompted by case management system changes, SMC is consolidating eight part-time positions into four full-time FTE. This is a net-zero cleanup change. SMC has filled these as full-time positions using the other 0.5 FTE salary savings to fund a 1.0 FTE. Truing up the positions will provide a more accurate view of open/vacant positions.

Seattle Municipal Court

Appropriations by Budget Summary Level and Program

SMC - BO-MC-2000 - Court Operations

The purpose of the Court Operations Budget Summary Level is to hold hearings and address legal requirements for defendants and others, help defendants understand the Court's expectations, and assist them in successfully complying with court orders. Some proceedings are held in formal courtrooms and others in magistrate offices, with the goal of providing timely resolution of alleged violations of City ordinances and misdemeanor crimes committed within the Seattle city limits.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Court Operations	17,735,127	17,683,258	23,607,387	24,918,707
Total	17,735,127	17,683,258	23,607,387	24,918,707

Seattle Police Department

Sue Rahr, Interim Chief

(206) 684-5577

<https://www.seattle.gov/police/>

Department Overview

The Seattle Police Department (SPD) prevents crime, enforces laws, and supports quality public safety by delivering respectful, professional, and dependable police services. SPD operates within a framework that divides the city into five geographical areas called “precincts”. These precincts define east, west, north, south, and southwest patrol areas, with a police station in each area. The department's organizational model places neighborhood-based emergency response services at its core, allowing SPD the greatest flexibility in managing public safety. Detectives in centralized investigative units located at SPD headquarters downtown and elsewhere conduct follow-up investigations into violent and property crimes, and other types of crimes. Other parts of the department function to train, equip, and provide policy guidance, human resources, communications, and technology support to those delivering direct services to the public.

Interim Chief of Police Sue Rahr has committed the department to five focus areas to anchor itself throughout the on-going work around the future of community safety:

- **Re-envisioning Policing** - Engage openly in a community-led process of designing the role the department should play in community safety
- **Humanization** - Prioritize the sanctity of human life in every situation and affirm each individual's worth
- **Reinventing Community Engagement** - Establish true and lasting relationships through respectful interactions in every situation
- **Fiscal Stewardship** - Examine critically every dollar spent to ensure it meaningfully contributes to community safety
- **Employee Wellness and Morale** - Support exceptional police services by ensuring the department recruits and retains the best employees

On September 7, 2023, the federal court overseeing the Consent Decree found that SPD had sustained full and effective compliance across all of its core commitments under that order with the exception of use of force, force investigation, and force review in large-scale crowd management events. Additionally, the Court ruled that the City had further work to do in the area of Accountability. The Court, as did the Monitor in his May 2022 Comprehensive Assessment, again highlighted the lack of officers available to the community as a significant barrier to continued improvement and providing essential core public safety functions.

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Seattle Police Department (SPD). The budget makes multiple investments to improve the capacity for SPD to respond to community needs and deliver services efficiently. The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in SPD to align budget with staffing projections. SPD continues to anticipate salary savings from officer attrition in 2025 and 2026, therefore salary savings from 23 officer vacancies are proposed to be realized to help address the City's budget shortfall.

Staffing Levels

For the past four years, SPD had more officer vacancies through resignations and retirements than it has been able to hire. The budget makes continued investments in the recruitment and retention plan that was established in 2022 by sustaining funding for recruiting professionals, improving branding and marketing materials, and maintaining hiring bonuses for new and lateral officers.

As part of the department's broader recruitment and retention efforts, this budget continues to support sworn officers by adding additional support and specialist roles that are not law enforcement officers to perform administrative and non-emergency functions. These roles play a vital role in creating public safety and ensuring officers can focus on situations where their skills and experience are needed most. This budget expands and increases the roles of civilian SPD employees, including redeploying 2.0 FTE Parking Enforcement Officers to expand capacity for reviewing automated traffic cameras, adding 7.0 FTE investigative support staff to assist SPD detectives with homicide, robbery, sexual assault, and gun crime investigations by processing court filings, case files, and other urgent materials, and adding 21.0 FTE in the Real Time Crime Center to triage and coordinate emergency responses.

Equipment and Technology

The budget supports investments and improvements to many of SPD's equipment and technology projects to enhance evidence collection, identification of offenders, and increase case clearance rates. The Technology Assisted Crime Prevention Pilot Project is designed to address gun violence, human trafficking, and other persistent felony crimes where it is geographically concentrated. This project will deploy CCTV cameras at specific locations and upgrade the capabilities and staffing of the Real Time Crime Center to triage and coordinate emergency responses and support criminal case investigations.

These investments are strategically integrated with the crime prevention pilot included in the 2023-2024 Adopted Mid-Biennial Budget Adjustments to leverage the technological resources previously approved. Having real-time, accurate information in one place helps increase reliability regarding the location of victims and suspects – enabling

Seattle Police Department

quicker aid and safer apprehension. Given SPD's staffing shortage, these investments are part of a holistic strategy to provide SPD officers additional tools and resources to perform their work.

Programmatic and Administrative Improvements

This budget makes specific administrative investments to enable SPD to operate more efficiently in the provision of high-quality public safety services. These changes include aligning grant appropriations with actual awards received, as well as transferring recruitment and retention positions from the Seattle Department of Human Resources to the SPD, maintaining a transfer approved by Council in a standalone ordinance in 2024 ([CB 120766](#)).

In addition, this budget provides additional resources to SPD's Crisis Response Team (CRT) by adding Community Crisis Responders to SPD's co-responder program. These individuals will conduct post-incident follow-up (both criminal and non-criminal), Extreme Risk Protection Order screening, care coordination for community members, and respond to in-progress incidents involving persons in crisis. These positions were originally contracted through the Downtown Emergency Service Center (DESC), and subsequently added as emergency positions in 2024.

Seattle Police Department

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$46,943,703

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$8,261,553

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Chartfield Corrections

Expenditures -

This net zero change makes adjustments to correct budget program, project and account details for items in the 2025 Proposed Budget.

One-Time Budget Changes

Expenditures \$(973,125)

Revenues \$(49,725)

This item includes budget adjustments for one-time changes such as the Crime Prevention Technology Pilot and Special Event Shift Premiums in the 2024 Adopted Budget.

Align Recurring Grants With Actual Awards

Expenditures \$(1,207,591)

Revenues \$(1,207,591)

This item removes appropriations for the FY23 Patrick Leahy Bulletproof Vest Partnership, FY23 Community Policing Development, FY23 Law Enforcement Mental Health & Wellness Program, and FY23 Smart Policing grants. These grants were included in the 2024 Adopted Budget based on estimated awards, but ultimately were not awarded to SPD.

Proposed Operating

Overtime for Emphasis Patrols

Expenditures \$10,000,000

This item adds one-time funding in 2025 for increased overtime patrol for emphasis patrols. SPD continues to experience officer staffing shortages and relies on overtime to deliver essential public safety services. This funding will support efforts to curb violent criminal behavior through proactive policing in areas where crime is

Seattle Police Department

concentrated. The City Auditor's office published an audit report in July citing a study of Seattle that found between four and five percent of street segments accounted for 50 percent of annual reported crime incidents over a 14-year period.

Real Time Crime Center

Expenditures \$2,048,467

Position Allocation 21.00

This change increases appropriation authority by \$2M in 2025 and \$3.7M in 2026 and adds ongoing position authority for 21.0 FTE Real Time Crime Center (RTCC) Analyst positions – 12.0 FTE in 2025 and 9.0 FTE in 2026. These positions will allow the department to establish a fully staffed Real Time Crime Center. The 2024 Adopted Budget includes funding for a Closed-Circuit Television (CCTV) Crime Prevention Technology Pilot Project to leverage technological resources to address increased gun violence, human trafficking, and felony crime at specific locations where it is concentrated. This pilot program will be most successful when strategically integrated with a RTCC, which will use the information from the Crime Prevention Pilot technologies to triage and coordinate patrol/emergency responses to crime events.

Scheduling and Timekeeping Software

Expenditures \$1,895,363

This item adds \$1.9 million for the procurement, implementation, and maintenance of a scheduling and timekeeping system to provide for better management of staff resources in the department and help align with the City's new Workday timekeeping system implemented in 2024. Of this amount, \$0.7 million is ongoing, and \$1.2 million in 2025 and \$1.0 million in 2026 is one-time funding for labor and vendor costs.

Automated School Zone Camera Expansion

Expenditures \$1,199,836

This item adds revenue-backed funding in the Seattle Police Department's School Zone Camera Program and redirects two existing Parking Enforcement Officers to support program expansion. The School Zone Camera program is a joint program between the Seattle Department of Transportation (SDOT), the Seattle Municipal Court (SMC), and SPD that installs and operates automated enforcement cameras and processes citations for 30 cameras intended to enforce speed limits in school zones at 19 camera locations (18 schools).

The program is expanding by installing 37 new cameras at 18 additional locations, intending to be operational by fall 2025. This expansion will nearly double the total number of existing locations that have automated school zone camera enforcement. Funding from the School Safety Traffic & Pedestrian Improvement fund will cover vendor payments for the additional cameras and SPD labor costs for citation review.

Investigative Support Positions

Expenditures \$1,091,333

Position Allocation 14.00

This item increases appropriation authority by \$1.1M in 2025 and \$2.3M in 2026 and adds ongoing position authority for 7.0 FTE investigative support positions in 2025 and another 7.0 FTE in 2026. Four emergency positions were created in August 2024 with the emergency authority for these positions expiring on December 31, 2024. These positions will assist SPD Detectives with homicide, robbery, and gun crime investigations. Hiring these positions will allow SPD to expand capacity and increase support for Detectives and Officers to complete thorough, precise, and timely documentation for criminal investigations, including pulling criminal histories, requesting 911 recordings, releasing information to a prosecutor, and more.

Seattle Police Department

Implement CCTV at Additional Locations

Expenditures \$425,000

This item adds funding for the implementation of closed-circuit television (CCTV) cameras at additional locations where gun violence, human trafficking, or persistent felony crime is concentrated. These technology systems will only be used in public places, such as sidewalks, streets, and parks to mitigate privacy concerns.

Reallocate Salary Savings for Overtime Needs

Expenditures -

This item makes a net-zero budget adjustment to reallocate \$4.2 million in 2025 and \$1.2 million in 2026 in additional projected salary savings for overtime needed to staff emergency response, investigations, and special operations. Due to ongoing sworn staffing shortages, SPD has been dependent on overtime hours to meet the current demand for public safety and violence prevention services.

Remove Support For SPD's Mounted Patrol Unit

Expenditures \$(230,030)

This item eliminates General Fund support of the department's Mounted Patrol Unit (MPU), including 1.0 FTE Equipment & Facilities Coordinator, three unbudgeted part-time temporary maintenance laborers, and associated operating costs. Sworn positions currently assigned to the MPU will continue to be funded by the General Fund but will be reassigned elsewhere in the department.

SPD General Fund Reduction

Expenditures \$(4,270,000)

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover expected costs. General Fund reductions were identified to mitigate this shortfall in revenues. This item reduces the budget by 1%, or \$4.3 million. Currently, SPD estimates the department's 2025-2026 baseline budget supports 1,123 FTE. To achieve the reduction, 23.0 FTE police officer positions will be held vacant for the full duration of the target period. The total amount of salary savings in both 2025 and 2026 will be determined by the average monthly filled level. Based on SPD's current and projected sworn staffing levels, the department is confident the full cut target is achievable.

Add 2.0 FTE Civilian Investigators in OPA

Expenditures \$369,412

Position Allocation 2.00

This item adds two full-time civilian investigators in the Office of Police Accountability (OPA), as provided by the new Seattle Police Officers Guild (SPOG) Collective Bargaining Agreement (CBA). OPA is currently budgeted for nine sworn investigators and two civilian investigators. Civilian investigators help maintain efficient complaint processing, including high-quality investigations. Additional civilian investigators will move Seattle closer to realizing directives from the Police Accountability Ordinance and the federal consent decree by empowering civilian oversight and building community trust. With these additions, OPA will have four civilian investigators and three civilian supervisors who oversee and manage investigations, for a total of seven civilians.

OPA General Fund Reduction

Expenditures \$(441,439)

Position Allocation (2.00)

Seattle Police Department

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover expected costs. General Fund reductions were identified to mitigate this shortfall in revenues. This item reduces OPA's budget by 8%, or \$0.4 million. To achieve this, OPA is reducing 1.0 FTE Administrative Specialist II and 1.0 FTE Communications Manager. These reductions will likely result in delays responding to media inquiries, as well as fewer social media updates and published newsletters. In addition, this item reduces department vehicles from four to three, and also reduces OPA's overtime budget by roughly two-thirds, resulting in fewer community outreach and education events which often take place off-hours but is not expected to cause delays in investigations due to the addition of two investigator positions.

Proposed Technical

Ongoing Changes from Current Year Legislation

Expenditures	\$2,067,935
--------------	-------------

Position Allocation	2.35
---------------------	------

This change includes ongoing budget and position changes resulting from current year legislation in 2024, including the transfer of full-time public disclosure positions from SPD to OPA, the abrogation of a 0.65 FTE grant-funded position, \$1,000,000 to maintain expansion of SPD officer recruitment advertisement placements in 2025, and \$500,000 to maintain the City's commitments set forth in the Mayor's Executive Order regarding Sexual Assault Unit (SAU) reform, as well as to execute the recommendations made by the Advisory Panel. In addition, this change transfers ongoing budget and position authority for 3.0 FTE Recruitment and Retention positions from the Seattle Department of Human Resources to SPD. These three positions were originally created as part of the Recruitment & Retention Initiative item in the 2022 budget (Ordinance 126654, Section 3) and assigned to SDHR. The positions were subsequently transferred to SPD in 2024 in a standalone SPD Recruitment and Retention Ordinance (Ordinance 127026).

Add 5.0 FTE Community Crisis Responders

Expenditures	\$700,091
--------------	-----------

Position Allocation	5.00
---------------------	------

This item adds position authority to convert 4.0 FTE Community Crisis Responders II and 1.0 FTE Community Crisis Responder Supervisor to permanent positions, and transfers funding from the Human Services Department to SPD to support the ongoing work. These Mental Health Professional (MHP) positions were originally contracted through the Downtown Emergency Service Center (DESC) to work closely with SPD. Five MHP emergency positions were created in April 2024 with the emergency authority for these positions expiring on December 31, 2024. These positions conduct post-incident follow-up (both criminal and non-criminal), Extreme Risk Protection Order screening, care coordination for community members, and respond to in-progress incidents involving persons in crisis.

Sunset Date Extensions

This item extends sunset dates for the following positions approved in the 2023 Mid-Year Supplemental: 1.0 Strategic Brand & Marketing Manager, 1.0 Performance Management position, and 2.0 Public Disclosure positions. The Strategic Brand & Marketing Manager and Performance Management positions are both funded by SPD's recruitment and retention project and are critical links in SPD's recruitment and retention efforts. The Public Disclosure positions are funded with savings from position vacancies and are necessary to keep up with SPD's growing backlog of public disclosure requests (PDRs) that continues to grow.

Remove Unawarded Grants

Expenditures	\$(276,150)
--------------	-------------

Revenues	\$(276,150)
----------	-------------

Seattle Police Department

This item removes appropriation for five grants that were previously accepted and appropriated in the 2024 Adopted Budget: COPS Community Policing Development – De-Escalation, Port Security Grant Program, High Intensity Drug Trafficking Area, SPD Impaired Driving Training Grant, and Target Zero Grant.

Final Adjustments for Standard Cost Changes

Expenditures \$(5,538,942)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

General Fund Revenue Adjustment

Revenues \$4,542,958

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Seattle Police Department

Police Relief and Pension

Stephanie Coleman, Executive Secretary
(206) 386-1286

<http://www.seattle.gov/policepension/>

Department Overview

The Police Relief and Pension Fund (PPEN) provides pension and medical benefit services to eligible active and retired police officers and their beneficiaries. PPEN is a closed plan which only covers police officers who were hired before October 1, 1977. Retiree benefits for police officers hired more recently are primarily covered through a separate state-managed plan.

Management of police benefits funds transitioned in the 1970s from local to state control. Prior to that time, the City paid into PPEN to provide for police officer retiree benefits. In March 1970, the State of Washington took over the provision of certain police pensions through Revised Code of Washington (RCW) Section 41.26, the Law Enforcement Officers and Fire Fighters (LEOFF) Plan 1. Seattle police officers hired between March 1970 and October 1977 enrolled in LEOFF 1, but also received additional benefit coverage through PPEN. As a result, these police officers receive retiree benefits primarily from the state's LEOFF 1 plan, but also any earned increment from the City's PPEN that exceeds LEOFF 1 coverage. Both PPEN and LEOFF 1 closed to new enrollees in October 1977. Police officers hired after that date enroll in the state's LEOFF 2 plan and do not receive benefits from PPEN.

The Seattle Police Pension Board is a seven-member quasi-judicial body chaired by the Mayor or the Mayor's designee, which formulates policy, rules on disability applications, and provides oversight of the Police Pension Fund. Three staff employees of the board handle all of its operational functions. Staff positions associated with Police Relief and Pension are reflected in the City's position list.

Annual pension and medical benefits projections, which comprise about 97% of the total annual PPEN budget, are based on the forecasts of an independent actuary. The City's General Fund provides funding for nearly all of PPEN's annual budget that supports the Police Relief and Pension Fund obligations. PPEN also has a statutory funding source from police auction proceeds, which contribute a small amount towards the annual budget.

Police Relief and Pension

Budget Overview

The Police Relief and Pension Fund (PPEN) pays legally mandated pension and medical benefits, including long-term care, to eligible retired police officers and qualified beneficiaries. The total pension benefits for PPEN members are increased annually through locally negotiated cost of living adjustments (COLA) and local inflation. These increases are then offset by the benefits paid by the state's LEOFF 1 pension plan which has its own annual growth rate.

Most of PPEN's retirees are represented by either the Seattle Police Management Association (SPMA) or the Seattle Police Officer's Guild (SPOG).

The 2025-2026 Proposed Budget includes adjustments to retiree medical and long-term care, pension, and administrative support costs with total budgets of \$22.46 million in 2025 and \$22.52 million in 2026. These are a - 16.0% reduction in 2025 from the 2024 Adopted Budget and a 0.23% increase in 2026 from 2025. Adjustments to appropriations for medical and long-term care reflect actuarial valuation estimates, which anticipate medical and long-term care costs will increase over the next several years due to PPEN's aging membership and annual trend rates for medical and long-term care costs. Pension appropriations incorporate the pension payment effects from annual wage increases in concluded labor agreements, but are reduced relative to previous years' appropriated amounts.

The Proposed Budget also includes reductions in General Fund transfers relative to the 2024 Adopted Budget totaling approximately \$13.25 million over the biennium. This two-year reduction has the intended effect of reducing fund balance to a more appropriate level. General Fund contributions in 2027 will resume full coverage, without support from fund balances. The 2025 Proposed Budget further includes appropriation increases relative to the 2024 Adopted Budget of approximately \$278,000 for centrally adjusted administrative and staff labor costs.

Incremental Budget Changes

Police Relief and Pension

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures	\$107,314
--------------	-----------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$27,994
--------------	----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Fund Balancing Adjustment(s)

Expenditures	\$(4,409,040)
--------------	---------------

Revenues	\$(4,283,779)
----------	---------------

These adjustments provide for a reduction in fund balances over the 2025-2026 biennium by reducing the General Fund transfer to the Police Pension Fund, while also adjusting expenditures to meet expected pension, medical, long-term care and administrative costs. This two-year reduction intentionally draws on existing fund balance in place of General Fund contributions in order to manage the size of the Police Relief and Pension fund balances. Balances had grown in anticipation of needing resources to pay for retroactive pension payment costs tied to the labor agreements negotiated between the police unions and the City of Seattle.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures	\$(10,047)
--------------	------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Seattle City Light

Dawn Lindell, General Manager & CEO

(206) 684-3500

<https://www.seattle.gov/city-light>

Department Overview

Seattle City Light was created by the residents of Seattle in 1902 to safely provide affordable, reliable, and environmentally sound electric power to the City of Seattle and neighboring suburbs. Owned by the community it serves, City Light is a nationally recognized leader in energy efficiency, renewable resources, and environmental stewardship.

City Light provides electric power to approximately 503,000 residential, business, and industrial customers within a 131-square-mile service area. City Light serves the City of Seattle and surrounding jurisdictions, including parts of Shoreline, Burien, Tukwila, SeaTac, Lake Forest Park, Renton, Normandy Park, and areas of unincorporated King County.

City Light is the nation's ninth largest publicly owned electric utility in terms of customers served. On average, City Light produces about 50% of its energy through the six hydroelectric dams that it owns and operates with additional sourced hydroelectric and renewable energy from Bonneville Power Administration and marketplace purchases.

Budget Overview

The Seattle City Light [2025-2030 Strategic Plan Update](#) and associated rate path were approved by Council in September 2024, and the 2025-2026 Proposed Budget reflects the strategic priorities outlined in this plan. In keeping with the department's commitment to financial health and affordability, proposed changes are primarily net-zero reprioritizations necessary to support the strategic priorities and outcomes described in the approved plan.

Cost drivers in the utility's operating budget include power purchases, increases due to growing electrification, inflationary cost pressures, and an increasingly complex physical and regulatory environment. To minimize the

Seattle City Light

impact of these increases, the utility reviewed spending and took reductions in several areas including consulting, supplies, and travel and training.

City Light's capital program increases by 6.5% (\$30 million) in 2025 and 15% (\$65 million) in 2026 to accommodate growth in several areas. These include substation power transformer replacements, critical IT and security investments, Georgetown Steam Plant maintenance, and Sound Transit 3 revenue-backed work. Also, to enhance public safety, \$1 million annually was added from the General Fund to the streetlighting capital budget to support adding new lights in areas experiencing higher crime rates.

To support the capital program and other eligible City Light costs, the 2025-2026 Proposed Budget anticipates a 2025 bond issue of approximately \$300 million.

Retail revenues are the primary source of revenue for City Light. Retail revenues are expected to increase significantly as demand for electricity increases, fueled by electrification of buildings and transportation as the City progresses on climate commitments. Retail revenues also reflect a rate increases and a temporary Rate Stabilization Account (RSA) surcharge that went into effect in January 2024 after the RSA was depleted. The RSA is a cash reserve that supplements wholesale revenues, which are currently projected to be below forecast due to lower-than-expected precipitation and snowpack as well as higher-than-expected energy prices in the wholesale market.

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$17,479,680

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Seattle City Light

Proposed Operating

Purchased Power

Expenditures	\$72,423,776
--------------	--------------

This item adds funding for increasing costs of power and transmission from City Light's contract with the Bonneville Power Administration, as well as increases in purchases from the wholesale market. In addition, to meet anticipated load growth and comply with new emissions regulations, this item supports adding new long-term contracted renewable energy resources.

Reduce Volatility in Power Supply Costs

Expenditures	\$1,160,447
Position Allocation	2.00

This item adds two positions and \$1.2 million to support growth in two areas: the first is to prepare for and ensure that there is transmission system capacity to deliver additional clean electricity to the service territory as electricity demands increase due to vehicle and building electrification, and the second is to analyze and prepare for new opportunities in emergent day-ahead energy markets.

Support Customer Adoption of Transportation and Building Electrification

Expenditures	\$414,508
Position Allocation	2.00

This item adds two positions to support distribution planning and power systems automation, and to support physical infrastructure and technology systems to adequately and safely support increased load from customers due to increasing vehicle and building electrification. Recent state and federal clean energy legislation provides incentives for customers to electrify homes, businesses, and vehicles, accelerating the transition (building electrification load, for example, is growing three times faster than assumed in the previous forecast). In addition, Seattle's recently adopted Building Emissions Performance Standard will prompt significant electrification investments in commercial and multifamily properties in the coming years.

Enhance Response to Environmental Change

Expenditures	\$1,479,769
Position Allocation	2.00

This request adds \$1.5 million and two positions to fund emergent needs in vegetation management and cybersecurity. Contract costs for vegetation management have been increasing and this adjustment provides funding at a level that maintains the multi-year tree trimming cycle. Funding will also go to clearing tree canopy near transmission lines that have become a wildfire threat with climate change. The 2.0 FTE adds are in cybersecurity and will help address the increasing cyber risk the utility faces, including developing a cyber security governance structure, risk framework, process improvements, and the operational capabilities needed to safeguard critical technology and ensure compliance with regulatory frameworks including the North American Electric Reliability Corporation (NERC) Cyber Security Standards.

Operations and Maintenance Reductions

Expenditures	\$(2,297,095)
--------------	---------------

To balance the incremental spending increases, a review of all non-labor O&M budgets identified funds for redeployment. Reductions are taken throughout the department where there was underspend in 2023, including consulting, travel and training, and supplies.

Seattle City Light

Proposed Capital

Utility Technology Roadmap

Expenditures	\$4,407,333
--------------	-------------

This adjustment establishes an ongoing CIP budget for the Utility Technology Roadmap program that gradually ramps up over time to keep up with technology needs across the utility. This area of utility operations continues to grow as software updates and critical IT projects that are essential to the utility's operating and business needs (like Cybersecurity, Grid Modernization, an Enterprise Document Management) are required.

Distributed Energy Resources

Expenditures	\$1,680,000
--------------	-------------

This adjustment does two things: it augments program management resources to oversee an expanded portfolio of energy efficiency programs to cost-effectively meet our energy efficiency targets and provide a least-cost resource to the utility; and it provides funding for a limited-scale Community Solar Program.

Georgetown Steam Plant

Expenditures	-
--------------	---

This item funds the repair of the entire exterior envelope at the Georgetown Steam Plant as it is the best way to ensure the concrete walls do not degrade further and increase expense. The exterior wall repair will be supervised by City Light staff, third party subject matter experts, and a design engineer to verify compliance with codes and specifications. The funding for this project begins in 2026 and total project cost is estimated to be \$12 million when complete.

Sound Transit 3

Expenditures	\$3,175,000
Position Allocation	2.00

This item adds two positions and additional resources necessary to meet required timelines with the Sound Transit Light Rail Extensions. This project supports the expansion of the regional transit system by reconfiguring the City Light distribution system to accommodate Sound Transit facilities and provide electrical service to the rail extensions. It is fully revenue-backed. This request addresses the need for the addition of a dedicated team of both sunset and permanent roles to support the project ramp up and the ongoing project management.

Annual Capital Spending Adjustments

Expenditures	\$23,362,903
Position Allocation	1.00

The CIP Overview request details changes in the CIP related to the normal refinement of work schedules and the ongoing reprioritization of capital work. The proposed 6-year Capital Improvement Program plan is within the overall amounts in the Adopted 2024-2029 CIP plan and is consistent with the adopted strategic plan rate path. The 2025-2030 CIP plan was achieved by identifying offsetting reductions and project deferrals in the proposed CIP plan to accommodate increased spending to meet strategic priorities, fund new projects and align funding with historical spending. Also included in the proposal is offsetting revenue reimbursements for any increases in customer-driven work.

Seattle City Light

Proposed Technical

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures \$19,193,223

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments for personnel costs included in this department's budget, as agreed on by the City and Local 77 bargaining units. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Final Adjustments for Standard Cost Changes

Expenditures \$(1,992,853)

These technical adjustments reflect changes to costs for cross-departmental services, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare.

Technical Changes

Expenditures \$29,252,703

This technical adjustment includes increases associated with inflation, AWI, inventory adjustments, maintenance, and customer incentives for electrification. In addition, various adjustments to purchased power, debt service, and taxes are represented. These adjustments are consistent with the 2025-2030 Strategic Plan and proposed rates.

SCL Revenues 2025-26

Revenues \$172,831,734

This technical adjustment reflects incremental revenue impacts coming from a higher forecast for retail sales, approved rate increases, revenues netted from wholesale market transactions and transfers from the construction fund.

PTO and Benefits Indirect Costs	(1,984,689)	6,141,602	1,191,503	3,914,568

Seattle City Light

SCL - BO-CL-CUSTCARE - Customer Care

The purpose of the Customer Service Budget Summary Level is to provide customer experience support specific to customer information systems and to implement demand-side conservation measures that offset the need for additional generation resources.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Conservation Expenses	3,890,480	5,037,314	9,732,494	11,194,319
Customer Accounts & Services	45,378,192	49,408,739	59,465,851	60,993,128
Total	49,268,673	54,446,053	69,198,345	72,187,447
Full-time Equivalents Total*	132.15	132.15	132.15	132.15

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Customer Care Budget Summary Level:

Conservation Expenses

The Conservation Expenses program provides O&M funding for demand-side conservation measures that offset the need for additional generation resources.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Conservation Expenses	3,890,480	5,037,314	9,732,494	11,194,319

Customer Accounts & Services

The Customer Accounts and Services program provides O&M funding for customer experience support.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Customer Accounts & Services	45,378,192	49,408,739	59,465,851	60,993,128
Full Time Equivalents Total	132.15	132.15	132.15	132.15

SCL - BO-CL-DEBTSRVC - Debt Service

The purpose of the Debt Service Budget Summary Level is to meet principal repayment and interest obligations on funds borrowed to meet City Light's capital expenditure requirements.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Debt Service	244,968,394	255,243,609	248,088,787	259,008,143
Total	244,968,394	255,243,609	248,088,787	259,008,143

Seattle City Light

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SCL - BO-CL-PWRSUPPLY - Power Supply O&M

The purpose of the Power Supply O&M Budget Summary Level is to support transportation electrification, solar, and other technologies; implement demand-side conservation measures that offset the need for additional generation resources; and monitor compliance with federal electric reliability standards. The power marketing operations of the utility are also included in this Budget Summary Level.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Purchased Power/Power Supply	368,876,302	344,349,303	417,829,443	456,037,112
Total	368,876,302	344,349,303	417,829,443	456,037,112
Full-time Equivalents Total*	64.95	69.95	71.95	74.95

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SCL - BO-CL-TAXES - Taxes

The purpose of the Taxes Budget Summary Level is to pay City Light's legally required tax payments for state, city, and local jurisdictions. This Budget Summary Level includes funding for franchise contract payments negotiated with local jurisdictions in City Light's service territory.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Taxes	114,856,449	120,555,101	131,104,154	134,369,021
Total	114,856,449	120,555,101	131,104,154	134,369,021

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SCL - BO-CL-UTILOPS - Utility Operations O&M

The purpose of the Utility Operations O&M Budget Summary Level is to provide reliable electricity to customers through operation and maintenance of City Light's power production facilities, substations, transmission systems, and overhead and underground distribution systems in a clean, safe, efficient, reliable, and environmentally responsible manner. The utility's energy delivery engineering, power production engineering, generation operations, asset management, power system functions, renewable resource development programs, hydroelectric relicensing, and real estate are also included in this Budget Summary Level.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Distribution O&M	75,133,584	83,242,592	90,547,664	93,451,464
Generation O&M	39,696,284	36,044,181	50,522,431	53,053,735
Transmission O&M	22,396,269	24,159,233	30,260,778	31,122,975

Seattle City Light

Total	137,226,138	143,446,005	171,330,872	177,628,173
Full-time Equivalents Total*	526.92	526.92	530.92	530.92
*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here				

The following information summarizes the programs in Utility Operations O&M Budget Summary Level:

Distribution O&M

The Distribution Operations and Maintenance program funds the operation and maintenance of City Light's overhead and underground distribution systems.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Distribution O&M	75,133,584	83,242,592	90,547,664	93,451,464
Full Time Equivalents Total	287.08	287.08	291.08	291.08

Generation O&M

The Generation Operations and Maintenance program funds the operation and maintenance of City Light's power production facilities.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Generation O&M	39,696,284	36,044,181	50,522,431	53,053,735
Full Time Equivalents Total	125.63	125.63	125.63	125.63

Transmission O&M

The Transmission Operations and Maintenance program funds the operation and maintenance of City Light's substation and transmission systems.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Transmission O&M	22,396,269	24,159,233	30,260,778	31,122,975
Full Time Equivalents Total	114.21	114.21	114.21	114.21

SCL - BO-CL-V - Environmental Affairs O&M

The purpose of the Environmental Affairs O&M Budget Summary Level is to help the utility generate and deliver energy in an environmentally responsible manner. This Budget Summary Level also supports the utility's renewable resource development programs, hydro relicensing, and real estate.

Program Expenditures	2023	2024	2025	2026

Seattle Public Utilities

Andrew Lee, General Manager & CEO

(206) 684-3000

<http://www.seattle.gov/util/>

Department Overview

Seattle Public Utilities (SPU) provides reliable, efficient and environmentally conscious utility services to enhance the quality of life and livability in all communities SPU serves. SPU operates three distinct utilities: Drainage and Wastewater, Solid Waste, and Water. These three utilities or Lines of Business maintain separate revenue sources, separate enterprise funds, and unique capital improvement projects, but share other capital projects and technology as well as common operations and administration.

Drainage and Wastewater: The Drainage and Wastewater Utility collects and disposes or discharges storm runoff and wastewater from residences, businesses, institutions, and public properties within the City. In addition to handling sewage and storm water runoff, Drainage and Wastewater works with other government agencies and private parties to address Federal EPA-mandated sediment cleanup projects where contamination is linked to storm water or sewage, such as Gas Works Park and the Lower Duwamish Waterway. Drainage and Wastewater systems include approximately 448 miles of separated sanitary sewers, 968 miles of combined sewers, 481 miles of storm drains, 67 pump stations, 82 permitted combined sewer overflow points, 591 storm drain outfalls, 578 water quality structures, 295 drainage flow control facilities, and 38 combined sewer overflow control detention tanks and pipes.

Solid Waste: The Solid Waste Utility collects and processes recycling, compostable, and residential and commercial garbage to promote public health and safety, quality of life, and environmental stewardship. The City owns and operates two transfer stations, two household hazardous waste facilities, a fleet of trucks and heavy equipment, and several closed landfills. The Solid Waste Capital Improvement Plan (CIP) supports the transfer stations, heavy equipment, and post-closure projects on landfills previously used by the City. In addition, SPU contracts with private companies who collect household refuse, compostable material, and recyclables. The companies deliver the material to recycling and composting facilities and to transfer stations for its ultimate processing or disposal. In concert with its waste handling and disposal activities, Solid Waste engages its customers in environmental sustainability programs that promote recycling, composting, and reducing waste generation. Solid Waste also works to keep Seattle clean by providing public litter cans and recycling bins across Seattle.

Water: The Water Utility provides reliable, clean, and safe water to more than 1.5 million customers in and around Seattle for consumption and other uses. The water delivery system extends from Edmonds to Des Moines and from Puget Sound to Lake Joy near Duvall. SPU delivers water directly to its customers in Seattle and adjacent areas and provides wholesale water to 21 suburban water utilities and interlocal associations for distribution to their customers. The Water Utility includes over 1,900 miles of pipeline, 30 pump stations, two primary water treatment plants, 11 booster chlorination facilities, three groundwater wells, and the Tolt and Cedar River watersheds (including over 103,000 acres of restricted-access, protected forestland). The Utility builds, operates, and maintains the City's water infrastructure to ensure system reliability, to conserve and enhance the region's environmental resources, and to protect public health and safety. SPU engages the community in conservation efforts to reduce water consumption.

Through these Lines of Business, SPU also manages a body of **General Fund** (GF) funded work. This includes the Clean City program, including litter abatement, illegal dumping remediation, and above-ground rodent control. General Fund supported services include services for the unsheltered and minimally housed, which includes Clean City programs like the Encampment Bag ("Purple Bag") Program and Clean City RV Remediation, as well as the Public Hygiene program providing public-access shower trailers. Other SPU GF-funded work includes maintaining survey markers throughout Seattle, standardizing construction specifications and planning documents, and maintaining engineering records for the City. The GF also funds SPU's Trees for Seattle Program, which works to maintain and increase the urban tree canopy in Seattle.

Seattle Public Utilities

SPU monitors its funds using Council-adopted financial performance metrics developed with external financial advisors. These metrics include net income, cash balances, cash contributions to CIP, debt service coverage (a measure of revenue available to fulfill annual debt service obligations), and, for the Drainage and Wastewater Fund, debt to asset ratio. Based on these metrics, coupled with SPU's strong leadership, rating agencies have assigned all three SPU enterprise funds strong, investment grade bond ratings in line with peer west coast utilities, noting elected officials' commitment to sound financial management and a history of adopting prudent rates. Strong ratings help to minimize borrowing costs and, in turn, customers' bills over the long-term.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Department Support				
General Fund Support	22,721,888	26,705,037	26,664,045	27,689,783

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The Mayor's 2025-26 Proposed Budget for SPU is \$1.6 billion in 2025 and \$1.7 billion in 2026. The proposed budget increases operations and maintenance (O&M) appropriations (including General Fund supported work) by \$20 million in 2025 and by \$45 million in 2026. This includes SBP-endorsed investments in utility services, infrastructure, environment, and enhanced customer support. It also includes staff resources and funding for directly operating the Tolt Water Treatment Facility and staffing for side sewer permitting (including position transfers from the Seattle Department of Construction and Inspections or SDCI). Graffiti Abatement services and staff are transferred to SPR to better coordinate Citywide graffiti abatement efforts currently split across multiple departments. Altogether, increased O&M spending supports a net 60 new positions at SPU (10 of them transferred from SDCI).

SPU's proposed capital appropriations for 2025 are \$25 million lower than 2024, though up \$50 million between 2025 and 2026. These largely reflect shifts in timing for major capital programs, as well as new SBP-related investments. More detail on each line of business follows. For more information, please see the 2025-2030 Proposed Capital Improvement Program.

The proposed budget for SPU reflects the priorities laid out in the 2025-2030 Strategic Business Plan (SBP), which was approved by the City Council in early September 2024. The proposed budget also reflects current and endorsed utility rates. For 2025-2030, the SBP endorses a combined average annual rate increase of 4.7%.

Seattle Public Utilities

Drainage and Wastewater Highlights

The 2025 Proposed Budget increases Operating and Maintenance (O&M) in appropriations for Drainage and Wastewater by \$39 million in 2025 and \$37 million in 2026. These changes include funding for engineering staff, consultant support, and technical changes related to taxes and fees, debt service, major service contracts, central costs, and labor-related changes.

The 2025-2030 Proposed CIP reduces the Drainage and Wastewater capital expenditures in 2025 by \$26 million compared to 2024 and then increases them by \$40 million in 2026. Total Drainage and Wastewater CIP appropriations are \$231 million in 2025 and \$267 million in 2026. This reflects updated project timelines and scopes. Major programming includes continued support for the Ship Canal Water Quality Project, the South Park Water Quality Facility, the Protection of Beneficial Uses program (which includes stream culvert replacement and floodplain reconnection efforts), and efforts to reduce sewer backups, flooding, and landslides. The Drainage and Wastewater CIP also supports several shared technology projects such as cybersecurity updates, knowledge-based solutions for project control, and financial management tools.

Drainage and Wastewater activities are funded by ratepayers. In September, the City adopted new Drainage and Wastewater Rates for 2025 to 2027 which are consistent with rates endorsed in the 2025-2030 Strategic Business Plan. Sewer rates will increase by 5.0% in 2025, 2026, and 2027, while drainage rates will grow by 5.0% in 2025 and 2026 and by 5.1% in 2027. SPU sewer rates include contractually obligated King County treatment rates that are passed through to customers.

Water Highlights

The 2025-26 Proposed Budget increases Water Fund O&M expenditures by \$9 million in 2025 and \$12 million in 2026. This covers staffing increases, consultant support, and shared administrative expenditures. These changes also cover increased labor costs, tax payments, debt service, and other inflationary costs.

The 2025-2030 Proposed CIP increases Water Fund capital appropriations in 2025 by \$10 million in 2025 and \$22 million in 2026. Total CIP appropriations for Water are \$150 million in 2025 and \$171 million in 2026. Changes largely reflect updated project timelines. Key capital expenditures include continuing asset management investments, such as rehabilitation and replacement of distribution system infrastructure like mains, valves, hydrants, and meters, as well as water system infrastructure improvements related to transportation projects. The latter includes projects like the Levy to Move Seattle, seismic upgrades for critical infrastructure following the 2018 water system seismic study, and dam safety projects.

Water operations are funded by ratepayers. Retail customers provide around 75% of the Water Fund's operating revenues, with roughly equal revenues coming from residential and commercial users. Wholesale customers – districts and agencies who purchase water from SPU – provide most of the remaining operating revenues, while small amounts are generated by non-rate fees and other sources. Retail water rates, in effect through 2026, are currently set to increase by 2.0% in both 2025 and 2026.

Solid Waste Highlights

The 2025-26 Proposed Budget decreases Solid Waste O&M appropriations by \$28.5 million in 2025 and by a further \$5 million in 2026. O&M costs include labor costs including for new positions, shared utility-wide administrative costs, and updated projections for taxes, debt service, and major service contract payments.

Compared to the 2024, the proposed CIP expenditures for Solid Waste are just \$307,863 higher in 2025 and \$7.6 million lower in 2026. Total Solid Waste CIP appropriations for 2025 are \$31 million (for 2026, \$24 million). For Solid Waste, major projects include cleanup of the historic South Park Landfill and South Transfer Station operational improvements.

Solid Waste operations are funded primarily by charges to residents and businesses, based on the amounts of garbage. Solid Waste Rates for 2025 are set to increase by 2.5%. A new rate ordinance is scheduled to be introduced to the City Council next year, which will legislate rates for 2026 through 2028, in line with the recently passed 2025-

Seattle Public Utilities

2030 Strategic Business Plan.

General Fund

For general government services, the 2025-26 Proposed Budget provides SPU \$28.1 million in GF appropriations for 2025, and \$29.5 million in 2026. Over \$20 million supports general cleaning, hygiene, and litter abatement services across Seattle. This includes the Clean City Program and support for the Unified Care Team operations. Many Clean City and hygiene services support the unsheltered and minimally housed populations, such as the Encampment Bag Program, RV Remediation, and the Public Hygiene Program for shower trailers and restroom facilities.

The 2025-26 Proposed Budget includes certain changes to General Fund programming in SPU. Changes include:

- Establishing an SPU-owned “One Seattle” tree nursery.
- Expanding the Unified Care Team (UCT) operations to help cover weekend service.

In addition, the Proposed Budget makes two programmatic transfers from SPU to the Seattle Department of Parks and Recreation (SPR), both of which also result in net GF reductions due to reduced overhead and administration costs:

- Clean City Graffiti abatement services, including nine (9.0) full-time employees, are transferred to SPR in order to consolidate Citywide graffiti abatement services under the One Seattle Graffiti Initiative.
- A portion of SPU’s hygiene services budget is being transferred to SPR in order to improve public restroom access in parks.

More information on these changes is shared in the SPR Proposed Budget sections. For more on SPU’s budget changes, including non-General Fund and capital changes, see below.

Seattle Public Utilities

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

For Seattle Public Utilities, these changes are included under the budget actions labeled "Technical Changes."

Reversal of 2024 One-Time Budget Change

Expenditures	\$416,000
--------------	-----------

This is a baseline change that reverses a one-time Council Amendment from the 2024 Adopted Budget, which had transferred funding from SPU to the Office of Economic Development.

Technical Changes (Labor, Indirect Costs, Tax Payments, Debt Service, and Major Service Contracts)

Expenditures	\$7,860,646
--------------	-------------

This item adjusts the appropriations for the Water Fund, Drainage and Wastewater Fund, Solid Waste Fund, and General Fund for technical changes. These include revised citywide indirect costs, labor-related increases (including wage increases), other inflation-related cost increases, as well as revised projections for taxes, debt service, and major service contract payments.

These adjustments and the SPU budget overall are consistent with the 2025-2030 Strategic Business Plan as well as with 2025-2027 Drainage & Wastewater Rates recently approved by Council.

Technical Changes II (Citywide Indirect Costs)

Expenditures	\$7,336,187
--------------	-------------

This item further adjusts appropriations for the Water Fund, Drainage and Wastewater Fund, Solid Waste Fund, and General Fund to cover additional charges for citywide indirect costs.

Proposed Operating

Strategic Business Plan Endorsed Investments in Infrastructure and Essential Services

Expenditures	\$811,189
--------------	-----------

Position Allocation	10.00
---------------------	-------

This item increases appropriation authority across the Water, Drainage and Wastewater, and Solid Waste Funds and adds five full-time employees in 2025 and five in 2026. These changes support operations and maintenance (O&M) for key utility services and infrastructure. These include staffing increases for the Project Delivery and Engineering Branch in the Drainage and Wastewater division, the Project Controls Group, and O&M engineers for capital project support. This item also increases appropriations for implementation of the Waste Prevention Strategic Plan, acoustic leak detection testing for the East Side Supply Pipeline, compactor maintenance at the North and South Transfer Stations, increased pavement restoration costs incurred during water system maintenance, and O&M costs for

Seattle Public Utilities

Water Transmission System corridor improvements to surface-level facilities.

Strategic Business Plan Endorsed Investments in Human Resources and Ratepayer Services

Expenditures	\$1,972,973
Position Allocation	7.00

This item increases appropriation authority across the Water, Drainage and Wastewater, and Solid Waste Funds and adds position authority for seven full-time employees in 2025. These items provide for Strategic Business Plan endorsed investments in human resources, internal resourcing, and enhanced services for ratepayers. These include staffing and funding for: Phase III Side Sewer Assistance Program investments for lining and repairing side sewers for eligible low-income customers; Human Resources investments in technology, recruitment, training, and staff development; and a full-time transfer station scale attendant. Funding also covers consultant costs for payment platform enhancements and system automation and an arc-flash risk analysis mandated by Occupational Health and Safety Administration (OSHA) regulations.

Strategic Business Plan Endorsed Investments in Sustainability and Protection of the Natural Environment

Expenditures	\$1,804,171
Position Allocation	6.00

This item increases appropriation authority across the Water, Drainage and Wastewater, and Solid Waste Funds and adds position authority for six full-time employees. These appropriations cover investments to reduce waste and pollution and better protect Seattle's water, drainage, and wastewater systems. This includes staffing adds (and associated budget increases) for food waste prevention compliance, the Zero Waste initiative, focus-area planning for the Shape Our Water Initiative (improving resilience of drainage and wastewater systems), Arbor Heights sewer capacity work (addressing an existing consent decree), and SPU facility electrification. Funding is also increased for sampling and monitoring per National Pollutant Discharge Elimination System (NPDES) requirements. Furthermore, appropriations will also cover efforts to better manage or reduce solid waste collections across several sectors (including multifamily residential, the construction sector, and the Natural Yard Care program).

Strategic Business Plan Endorsed Investments in Enhanced Utility Business Practices

Expenditures	\$2,781,712
Position Allocation	21.00

This item increases appropriation authority across the Water, Drainage and Wastewater, and Solid Waste Funds and adds position authority for 13 full-time employees in 2025 and eight FTE in 2026. These positions are intended to address goals laid out by the 2025-2030 Strategic Business Plan around strengthening core business practices. This includes staffing for an in-house pipe-lining crew, operations and maintenance for new capital assets (such as the Ship Canal Water Quality Project, the South Park Pump Station, and the Pearl Street Combined Sewer Overflow), 2026 staffing increases for water service line replacement crews, and additional asset management, fleet management, and contracting support.

Moving Tolt Water Treatment Facility Operations In-House

Expenditures	\$3,836,949
Position Allocation	21.00

This item increases appropriation authority in the Water Fund and provides position authority for 21 full-time employees. This change allows SPU to directly operate the Tolt Water Treatment Facility. Operations are currently managed by a contractor under a Design-Build-Operate contract initiated in 1997. The contract is scheduled to expire in 2026, and the contractor has signaled their desire to end the contract early. With this change, SPU would directly operate and maintain the facility 24 hours per day, 365 days per year, while meeting federal and state

Seattle Public Utilities

regulatory requirements. This transition will require hiring staff in areas such as operations, maintenance and management.

Side Sewer Permitting in Seattle Public Utilities

Expenditures	-
Position Allocation	18.00

This item increases position authority in SPU by 18 full-time employees. Ten of these positions are being transferred from the Seattle Department of Construction and Inspections (SDCI). This change will allow SPU to directly administer side sewer permitting for both new developments and repairs or replacements of existing side sewers. Currently, SDCI oversees side sewer permitting and inspections under a service level agreement (SLA) with SPU in effect since 2003. This change is intended to promote consistent interpretation, application, and enforcement of the side sewer code. It is also expected to better ensure protection of SPU drainage and wastewater infrastructure. This change should be seamless to the customer and result in timely and more efficient service. See also the 2025-26 Proposed Budget section for SDCI.

Funding for a One Seattle Tree Nursery

Expenditures	\$680,020
Position Allocation	1.00

This item adds \$388,000 in General Fund appropriation in 2025 and \$304,000 in 2026. It also adds \$292,020 in 2025 and \$228,510 in 2026 in Drainage and Wastewater Fund appropriations as well as position authority for one full-time employee. These changes will allow SPU to establish and maintain a publicly owned tree nursery with the initial capacity of 500 trees. This effort would support Seattle's tree canopy, equity, climate resilience, and stormwater management goals. Site selection criteria would include capacity for future expansion. Funding is intended to cover design and site construction, general operations, and equipment, as well as a green jobs training program which would provide maintenance and career learning opportunities in the arboriculture field. The position being added would support nursery operations work, seek external grants, and lead interdepartmental tree pest readiness and response work.

Unified Care Team Expansion

Expenditures	\$85,000
--------------	----------

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The 2025-2026 Proposed Budget expands services provided by the UCT from five to seven days per week.

This item adds \$85,000 GF to Seattle Public Utilities for weekend vendor-provided cleanup and solid waste disposal activities. The vendor will only perform exterior cleaning of encampments on weekends.

Transfer of Hygiene Station Budget and Operations to Seattle Parks and Recreation

Expenditures	\$(835,000)
--------------	-------------

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item transfers GF budget for hygiene stations (portable toilets and handwashing stations) from SPU to SPR, resulting in a net \$250,000 General Fund reduction due to reduced overhead and administration costs. This will allow Parks to site hygiene stations in City parks, enhancing the City's ability to site hygiene stations and providing wider access to restroom facilities. SPU will continue to operate and staff the wider Public Hygiene Program including up to three hygiene trailers with shower facilities, providing services to the unsheltered and minimally housed. A corresponding item increases General Fund appropriations in the Department of Parks and Recreation (SPR) by \$585,000.

Seattle Public Utilities

One Seattle Graffiti Initiative Consolidation

Expenditures	\$(3,089,944)
Position Allocation	(9.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item transfers GF budget and position authority for nine full-time employees to Seattle Parks and Recreation (SPR). This transfer includes seven of SPU's Graffiti Rangers, as well as an administrative position and an Executive 2. This transfer effectuates a consolidation of citywide graffiti abatement services under the One Seattle Graffiti Initiative at SPR. The net effect of this transfer is a \$495,475 GF savings.

Proposed Capital

Drainage and Wastewater Fund Capital Budget Changes

Expenditures	\$(6,444,760)
--------------	---------------

This item adjusts appropriations for the Drainage and Wastewater Fund to align with the Proposed 2025-2030 Capital Improvement Program. The Drainage and Wastewater Line of Business maintains a network of sewer and drainage systems throughout the City of Seattle. These assets include sanitary sewers, combined sewers, pump stations, force mains, Combined Sewer Overflow (CSO) points and tanks, storm drains, catch basins, ditches, culverts, water quality structures, drainage flow control facilities, and green stormwater infrastructure. These appropriations cover ongoing capital expenditures for major projects including the Ship Canal Water Quality Project, the South Park Water Quality Facility, Pipe Rehabilitation and Pump Station Improvement projects, as well as compliance with regulatory or legal requirements.

For more information, please see Proposed 2025-2030 Capital Improvement Program.

Solid Waste Fund Capital Budget Changes

Expenditures	\$(2,645,833)
--------------	---------------

This item adjusts appropriations for the Solid Waste Fund to align with the Proposed 2025-2030 Capital Improvement Program. The Solid Waste Line of Business collects and disposes solid waste generated within the City of Seattle. It also manages city-owned infrastructure including two transfer stations, one recycling and re-use facility, two household hazardous waste facilities, trucks and heavy equipment, and five closed landfill sites. Key investments funded in this Proposed CIP include: the South Transfer Station Facility Redevelopment, cleanup of the South Park Landfill, a compactor replacement at the North Transfer Station, and floor replacement at the South Transfer Station.

For more information, please see 2025-2030 Proposed Capital Improvement Program.

Water Fund Capital Budget Changes

Expenditures	\$5,238,370
--------------	-------------

This item adjusts appropriations for the Water Fund to align with the Proposed 2025-2030 Capital Improvement Program. The Water Line of Business provides drinking water to over 1.5 million people throughout Seattle and surrounding areas. It also manages city-owned infrastructure including the Cedar and South Fork Tolt watersheds, water treatment plants, treated water storage, pump stations, hydrants, and transmission and distribution system pipelines.

Key investments funded in this Proposed CIP include water system improvements associated with transportation projects, operational and regional facility construction, seismic upgrades to reservoirs and other infrastructure,

Seattle Public Utilities

replacement of the Bitter Lake Reserve floating cover, and South Fork Tolt Dam relicensing under the Federal Energy Regulatory Commission (FERC) (a joint effort with Seattle City Light).

For more, please see 2025-2030 Proposed Capital Improvement Program.

Technology-Related Capital Budget Changes

Expenditures \$2,818,950

This item provides for appropriations across the Water, Drainage and Wastewater, and Solid Waste Funds for shared Technology Capital Improvement Program activities. These appropriations cover investments in financial management and internal controls, cybersecurity, improved enterprise asset management, project controls, as well as Strategic Business Plan-endorsed investments in Advanced Metering Infrastructure, upgraded Customer Care and Billing, implementation of centralized data architecture and design, and enhanced enterprise content management.

For more information, please 2025-2030 Proposed Capital Improvement Program.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(4,686,694)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures \$1,482,989

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and Local 77 bargaining units, for personnel costs included in Seattle Public Utilities' budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Ongoing Changes from Current Year Legislation

Position Allocation 1.00

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance.

SPU Revenues

Revenues \$(133,187,421)

This item budgets SPU's projected revenues for 2025 and 2026.

Fund Balancing

Revenues \$137,887,889

This is at technical item that budgets use of fund balance for balancing purposes.

Appropriations by Budget Summary Level and Program

SPU - BC-SU-C110B - Distribution

The purpose of the Distribution Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade the City's water lines, pump stations, and other facilities.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Distribution	39,504,960	44,060,074	53,469,435	65,718,787
Total	39,504,960	44,060,074	53,469,435	65,718,787
Full-time Equivalents Total*	79.00	79.00	79.00	79.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C120B - Transmission

The purpose of the Transmission Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade the City's large transmission pipelines that bring untreated water to the treatment facilities, and convey water from the treatment facilities to Seattle and its suburban wholesale customers' distribution systems.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Transmission	11,030,191	13,522,272	11,915,442	25,265,759
Total	11,030,191	13,522,272	11,915,442	25,265,759
Full-time Equivalents Total*	5.00	5.00	5.00	5.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C130B - Watershed Stewardship

The purpose of the Watershed Stewardship Budget Summary Level, a Capital Improvement Program funded by water revenues, is to implement projects associated with the natural land, forestry, and fishery resources within the Tolt, Cedar, and Lake Youngs watersheds.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Watershed Stewardship	874,742	4,885,999	2,878,358	4,956,409
Total	874,742	4,885,999	2,878,358	4,956,409
Full-time Equivalents Total*	8.00	8.00	8.00	8.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Public Utilities

SPU - BC-SU-C140B - Water Quality & Treatment

The purpose of the Water Quality & Treatment Budget Summary Level, a Capital Improvement Program funded by water revenues, is to design, construct, and repair water treatment facilities and remaining open-water reservoirs.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Water Quality & Treatment	2,016,104	6,450,289	1,426,186	10,237,252
Total	2,016,104	6,450,289	1,426,186	10,237,252
Full-time Equivalents Total*	14.00	14.00	14.00	14.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C150B - Water Resources

The purpose of the Water Resources Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade water transmission pipelines and promote residential and commercial water conservation.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Water Resources	5,977,112	16,706,188	19,510,912	15,270,762
Total	5,977,112	16,706,188	19,510,912	15,270,762
Full-time Equivalents Total*	14.00	18.00	16.00	16.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C160B - Habitat Conservation Program

The purpose of the Habitat Conservation Budget Summary Level, a Capital Improvement Program funded by water revenues, is to manage projects directly related to the Cedar River Watershed Habitat Conservation Plan.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Habitat Conservation Program	4,440,200	3,686,223	1,570,811	5,738,262
Total	4,440,200	3,686,223	1,570,811	5,738,262
Full-time Equivalents Total*	15.00	15.00	15.00	15.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C230B - New Facilities

Seattle Public Utilities

The purpose of the New Facilities Budget Summary Level, a Capital Improvement Program funded by solid waste revenues, is to design and construct new facilities to enhance solid waste operations.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
New Facilities	2,348,048	24,161,970	21,015,121	16,138,520
Total	2,348,048	24,161,970	21,015,121	16,138,520
Full-time Equivalents Total*	9.00	9.00	9.00	9.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C240B - Rehabilitation & Heavy Equipment

The purpose of the Rehabilitation and Heavy Equipment Budget Summary Level, a Capital Improvement Program funded by solid waste revenues, is to implement projects to repair and rehabilitate the City's solid waste transfer stations and improve management of the City's closed landfills and household hazardous waste sites.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Rehabilitation & Heavy Eqpt	206,824	2,260,000	397,000	807,000
Total	206,824	2,260,000	397,000	807,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C333B - Protection of Beneficial Uses

The purpose of the Protection of Beneficial Uses Budget Summary Level, a Capital Improvement Program funded by drainage revenues, is to make improvements to the City's drainage system to reduce the harmful effects of storm water runoff on creeks and receiving waters by improving water quality and protecting or enhancing habitat.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Protection of Beneficial Uses	15,553,200	36,683,378	30,377,663	58,904,106
Total	15,553,200	36,683,378	30,377,663	58,904,106
Full-time Equivalents Total*	14.00	14.00	14.00	14.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C350B - Sediments

The purpose of the Sediments Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to restore and rehabilitate natural resources in or along Seattle's waterways.

Seattle Public Utilities

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Sediments	5,579,626	10,734,002	13,421,604	13,177,974
Total	5,579,626	10,734,002	13,421,604	13,177,974
Full-time Equivalents Total*	7.00	7.00	7.00	7.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C360B - Combined Sewer Overflows

The purpose of the Combined Sewer Overflow (CSO) Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to plan and construct large infrastructure systems, smaller retrofits, and green infrastructure for CSO Summary.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Combined Sewer Overflows	84,101,627	111,767,108	92,097,937	92,151,870
Total	84,101,627	111,767,108	92,097,937	92,151,870
Full-time Equivalents Total*	30.00	30.00	30.00	30.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C370B - Rehabilitation

The purpose of the Rehabilitation Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to rehabilitate or replace existing drainage and wastewater assets in kind, to maintain the current functionality of the system.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Rehabilitation	44,013,182	61,249,734	43,888,034	43,146,299
Total	44,013,182	61,249,734	43,888,034	43,146,299
Full-time Equivalents Total*	30.00	30.00	30.00	30.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C380B - Flooding, Sewer Backup & Landslide

The purpose of the Flooding, Sewer Back-up, and Landslides Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to plan, design and construct systems aimed at preventing or alleviating flooding and sewer backups in the City of Seattle, protecting public health, safety, and property. This program also protects SPU drainage and wastewater infrastructure from landslides, and makes drainage improvements where surface water generated from City rights-of-way contributes to landslides.

Seattle Public Utilities

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Flooding, Sewer Backup & Lndsl	15,174,406	12,202,802	10,958,377	20,757,436
Total	15,174,406	12,202,802	10,958,377	20,757,436
Full-time Equivalents Total*	25.00	25.00	25.00	25.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C410B - Shared Cost Projects

The purpose of the Shared Cost Projects Budget Summary Level, which is a Capital Improvement Program, is to implement the Water, Drainage and Wastewater, and Solid Waste Utility's share of capital improvement projects that receive funding from multiple SPU funds.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Shared Cost Projects	29,639,865	66,241,088	96,192,575	79,666,341
Total	29,639,865	66,241,088	96,192,575	79,666,341
Full-time Equivalents Total*	95.00	95.00	95.00	95.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C510B - Technology

The purpose of the Technology Budget Summary Level, a Capital Improvement Program, is to make use of technology to increase the Water, Drainage and Wastewater, and Solid Waste Utility's efficiency and productivity.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Technology	4,884,428	13,174,000	12,868,950	10,050,000
Total	4,884,428	13,174,000	12,868,950	10,050,000
Full-time Equivalents Total*	41.00	41.00	41.00	41.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BO-SU-N000B - General Expense

The purpose of the General Expense Budget Summary Level is to provide for the Utility's general expenses such as debt service, taxes and major contracts.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Budget Reserves	-	14,071,747	13,527,541	14,068,274

Seattle Public Utilities

Capital Purchases	11,431	274,287	279,772	285,368
Debt Service	166,056,193	233,889,113	197,193,058	195,929,821
Major Contracts	328,965,288	348,535,371	374,325,527	393,930,147
Taxes and Fees	161,468,083	164,962,561	173,117,142	180,026,050
Total	656,500,996	761,733,080	758,443,041	784,239,660
Full-time Equivalents Total*	1.00	1.00	1.00	1.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in General Expense Budget Summary Level:

Budget Reserves

The purpose of the Budget Reserves Program is to appropriate funds to maintain a necessary working reserve for unanticipated expenditures that may develop during the fiscal year. These are important due to the utility need to plan revenue on a six-year horizon.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Budget Reserves	-	14,071,747	13,527,541	14,068,274

Capital Purchases

The purpose of the Capital Purchases Program is to provide appropriation for the utility to purchase equipment that cannot purchased using bond proceeds.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Capital Purchases	11,431	274,287	279,772	285,368

Debt Service

The purpose of the Debt Service Program is to provide appropriation for new bond issuance costs as well as principal and interest payments on previously issued bonds and loans.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Debt Service	166,056,193	233,889,113	197,193,058	195,929,821

Major Contracts

The purpose of the Major Contracts Program is to provide appropriation for large service contracts that SPU has with solid waste contractors and for water and wastewater treatment costs.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Major Contracts	328,965,288	348,535,371	374,325,527	393,930,147

Seattle Public Utilities

Full Time Equivalents Total	1.00	1.00	1.00	1.00
-----------------------------	------	------	------	------

Taxes and Fees

The purpose of the Taxes Program is to provide appropriation for payment of city and state taxes.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Taxes and Fees	161,468,083	164,962,561	173,117,142	180,026,050

SPU - BO-SU-N100B - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide overall management and policy direction for Seattle Public Utilities and to provide core management and administrative services like finance, human resources, and facility management.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Indirect Costs	75,910,185	81,106,532	77,557,530	81,960,662
Departmental Indirect Costs	79,402,827	94,313,122	108,165,217	115,042,803
Divisional Indirect Costs	767,651	944,331	900,688	934,466
Indirect Cost Recovery Offset	(25,124,162)	(23,723,189)	(25,473,650)	(27,004,625)
Paid Time Off Indirect Costs	1,140,701	5,416,133	5,154,616	5,229,827
Pooled Benefits Indirect Costs	10,699,887	4,684,696	1,977,079	2,028,582
Total	142,797,089	162,741,625	168,281,479	178,191,714
Full-time Equivalents Total*	146.60	151.10	154.10	155.10

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle Information Technology Department.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Citywide Indirect Costs	75,910,185	81,106,532	77,557,530	81,960,662

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This may include personnel costs related to department leadership and administration or other administrative costs such as external rent and operating supplies or services.

Expenditures/FTE	2023	2024	2025	2026
------------------	------	------	------	------

Seattle Public Utilities

	Actuals	Adopted	Proposed	Proposed
Departmental Indirect Costs	79,402,827	94,313,122	108,165,217	115,042,803
Full Time Equivalents Total	142.60	145.10	149.10	150.10

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs program is to fund administrative costs generated by sub-departmental units.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Divisional Indirect Costs	767,651	944,331	900,688	934,466

Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery Offset program is to reflect the adjustment to the Leadership and Administration BSL occurring as a result of the Utility's general and administrative overhead allocation.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Indirect Cost Recovery Offset	(25,124,162)	(23,723,189)	(25,473,650)	(27,004,625)
Full Time Equivalents Total	2.00	4.00	3.00	3.00

Paid Time Off Indirect Costs

The purpose of the Paid Time Off program is to fund salary and benefit costs associated with City-provided leave benefits such as holiday pay, sick time, vacation time, executive leave or other leave benefits, including termination payouts for vacation and sick leave.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Paid Time Off Indirect Costs	1,140,701	5,416,133	5,154,616	5,229,827

Pooled Benefits Indirect Costs

The purpose of the Pooled Benefits program is to fund department costs associated with health and dental insurance, workers compensation, and unemployment insurance contributions.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Pooled Benefits Indirect Costs	10,699,887	4,684,696	1,977,079	2,028,582
Full Time Equivalents Total	2.00	2.00	2.00	2.00

SPU - BO-SU-N200B - Utility Service and Operations

The purpose of the Utility Service and Operations Budget Summary Level is to fund the direct delivery of essential Customer Service programs and the operating expenses for Pre-Capital Planning & Development, Project Delivery, Drainage and Wastewater, Solid Waste, Water and General Fund programs.

Seattle Public Utilities

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed

<i>*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here</i>				

The following information summarizes the programs in Utility Service and Operations Budget Summary Level:

Customer Service

The purpose of the Customer Service Program is to provide appropriation to manage and provide customer service support for the direct delivery of programs and services.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Customer Service	22,246,598	27,408,576	30,187,900	31,357,341
Full Time Equivalents Total	254.00	254.00	254.00	254.00

Drainage System

The purpose of the Drainage System Program is to provide appropriation for maintaining the drainage system, drainage conveyance, stormwater detention and green stormwater infrastructure.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Drainage System	7,756,778	10,442,950	10,172,376	10,583,923
Full Time Equivalents Total	2.00	5.00	24.00	24.00

Seattle Public Utilities

DWW Facilities & Equip

The purpose of the DWW Facilities and Equipment Program is to provide appropriation for drainage and wastewater operating and decant facilities

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
DWW Facilities & Equip	1,701,368	966,277	1,058,387	1,225,362
Full Time Equivalents Total	-	-	-	1.00

DWW System Operations

The purpose of the DWW System Operations Program is to provide appropriation for drainage and wastewater overall system planning, system modeling and analysis, source control, compliance and outreach and education.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
DWW System Operations	31,092,998	36,675,752	37,826,507	39,089,798
Full Time Equivalents Total	2.00	3.00	8.00	9.00

Emergency Response

The Emergency Response Program provides appropriation to procure necessary equipment and provide maintenance and support services in case of emergencies.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Emergency Response	6,249,362	2,889,150	2,922,210	3,038,373

Engineering

The purpose of the Engineering Program is to provide engineering design and support services, construction inspection, and project management services to capital improvement projects and to the managers of facilities.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Engineering	16,522,428	19,106,822	21,470,023	22,479,555
Full Time Equivalents Total	111.00	114.00	118.00	123.00

Pre-Capital Planning

The purpose of the Pre-Capital Planning Program is to support business case development, project plans, and options analysis. This program will capture all costs associated with a project that need to be expensed during its life cycle, including any post-construction monitoring and landscape maintenance.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Pre-Capital Planning	6,741,201	4,584,551	5,669,114	5,315,990

Seattle Public Utilities

Solid Waste Facilities & Equip

The purpose of the Solid Waste Facilities & Equipment Program provides appropriation to maintain and support the solid waste facilities and landfills.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Solid Waste Facilities & Equip	6,126,450	6,539,966	7,437,292	7,728,738
Full Time Equivalents Total	1.00	1.00	2.00	2.00

Solid Waste Operations

The purpose of the Solid Waste Operations Program provides appropriation for overall solid waste system planning, operations of the transfer stations, solid waste outreach and management of the Local Hazardous Waste Mitigation Program (LHWMP).

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Solid Waste Operations	41,796,322	44,721,616	48,463,131	50,399,005
Full Time Equivalents Total	101.56	101.56	96.56	96.56

Wastewater System

The Wastewater System Program provides appropriation to maintain wastewater conveyance, pump stations and storage.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Wastewater System	12,137,262	14,939,731	16,546,289	17,151,704
Full Time Equivalents Total	233.05	233.05	242.05	242.05

Water Distribution System

The Water Distribution System Program provides appropriation to maintain water distribution conveyance, pump stations and reservoirs.

	2023	2024	2025	2026

Seattle Department of Transportation

Greg Spotts, Director

(206) 684-5000

<http://www.seattle.gov/transportation>

Department Overview

The Seattle Department of Transportation (SDOT) develops, maintains, and operates a transportation system that promotes the safe and efficient mobility of people and goods, and enhances the quality of life, environment, and economy of Seattle and the surrounding region. The City's transportation infrastructure is estimated to be worth approximately \$28 billion, including these major system assets:

- 1,548 lane-miles of arterial streets;
- 2,396 lane-miles of non-arterial streets;
- 2,293 miles of sidewalks;
- 134 bridges;
- 534 stairways;
- 537 retaining walls;
- 2.2 miles of seawalls;
- 1,159 signalized intersections;
- 57.1 miles of multi-purpose trails;
- 2,301 miles of improved sidewalks and median pathways;
- 172 miles of on-street bicycle facilities;
- 41,000 street trees;
- 1,448 pay stations;
- 44,602 curb ramps;
- close to 205,000 signs

The SDOT budget covers three major lines of business:

The **Transportation Capital Improvement Program** includes the major maintenance and replacement of SDOT's capital assets; the program also develops and constructs additions to the City's transportation infrastructure. The program includes the Major Maintenance/Replacement, Major Projects, Mobility-Capital, Central Waterfront, and Capital General Expense Budget Summary Levels (BSLs).

Operations and Maintenance covers day-to-day operations and routine maintenance that keep people and goods moving throughout the city, which includes operating the city's movable bridges and traffic signals, cleaning streets, repairing potholes, issuing permits, maintaining trees, and transportation planning and engineering. The seven BSLs in this area are: South Lake Union Streetcar Operations; First Hill Streetcar Operations; Waterfront and Civic Projects; Bridges and Structures; Maintenance Operations; Mobility-Operations; and Right-of-Way Management.

Business Management and Support provides overall policy direction and business support for SDOT and includes the Leadership and Administration and General Expense BSLs.

Seattle Department of Transportation

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Department Support				
General Fund Support	56,039,809	58,935,410	55,062,486	57,234,021

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The 2025-2026 Proposed Budget for the Seattle Department of Transportation (SDOT) highlights the challenge of meeting increasing demand for transportation safety and services with limited funding resources. Driving factors for reduced transportation investments include the expiration of the Levy to Move Seattle at the end of 2024 and declining or flat projected revenues for 2025 and 2026. With fewer financial resources available, SDOT will focus on capital project delivery for existing work and commitments made in the levy. Less will be spent on maintenance and preservation of assets (roads, bridges, transit, pedestrian and bike facilities), while innovations and system enhancements will be delayed to a future time when more resources are available. This slowing of maintenance and asset preservation work will affect transportation safety, mobility of goods and services, and climate and environmental goals. Ordinance 127053, passed by City Council in July 2024, placed a new transportation levy on the November 2024 ballot. Passage of this measure will inform and require major adjustments to the proposed budget that may include the restoration of programs or projects with reduced funding in this budget.

Significant reductions to the SDOT budget stem largely from the loss of levy proceeds in 2025 (described in greater detail in following pages), as well as General Fund reductions. These reductions include:

- The Levy to Move Seattle, totaling \$930 million over 9 years (\$103 million per year), which expires at the end of 2024. Levy proceeds funded ongoing maintenance, operations, and new transportation projects.
- SDOT's General Fund budget allocation will be reduced by \$9 million annually, beginning in 2025. This represents an 8% reduction to total General Fund budget over the beginning 2025 baseline budget. While the amount of SDOT's General Fund will be reduced, SDOT will maintain the lower limit of General Fund appropriations established in the Levy to Move Seattle authorizing legislation for the 2025-2026 biennium.
- Transportation specific revenues such as Gas Tax, automated traffic enforcement camera fines, and Commercial Parking Tax continue to either decline or remain flat, outstripped by increasing costs for myriad transportation activities that, in many cases, exceed general inflation (more information about transportation-specific revenue and cost projections can be found in the Appendix for individual Fund Financial Plans).

With the small amount of funding from the Levy to Move Seattle remaining to complete the original 9-year levy plan

Seattle Department of Transportation

into 2025 and beyond, SDOT must rebalance investment levels across the department to ensure critical ongoing programs remain supported. While almost no program areas remain fully funded to 2024 levels, the proposed budget prioritizes the following areas of service to maintain core functions for the transportation system:

- Base operational functions like signals, paint, and signage;
- Bridge operations;
- Paving, bike lane, and transit improvement maintenance;
- School, pedestrian and traveler safety programs, including the Vision Zero program;
- Emergency and weather response activities;
- Street use permitting and inspection functions;
- American Disabilities Act infrastructure and other regulatory requirements.

Without a levy, SDOT must reduce spending in many program areas, some significantly. The following programmatic areas will see the largest dollar reductions in this proposed budget:

- New mobility initiatives;
- New sidewalks;
- Bridge seismic reinforcement planning and construction;
- Urban trails and bikeway expansion;
- New protected bike lanes;
- Neighborhood greenway investments, and;
- Small neighborhood projects.

Additional actions that will be taken by SDOT to preserve as much funding as possible for priority programs while supporting existing staffing levels include:

- Department-wide reductions to administrative functions and internal support programs;
- Holding vacant positions open and evaluating critical position needs including management-level staffing and overall staffing counts;
- Reductions in general service levels across many non-critical programs;
- Reevaluating investments in bus transit initiatives for post-covid travel patterns; and
- Reductions to programmatic and reserve funding levels for streetcar operations and future transit planning.

As the proposed budget continues to center organizational values under difficult funding circumstances, some activities will be expanded either through self-generating revenues or because they are identified as Mayoral priorities. These include:

- **Automated Enforcement Program Expansion:** SDOT's School Zone Camera Program, which operates 30 cameras that provide enforcement for speeding violations in school zones, will more than double the number of enforcement cameras in operation, bringing 37 new cameras (18 locations) online by the start of the 2025 school year. This expansion is intended to increase safety around Seattle schools, with projected increases of fine revenues of \$4.2 million in 2025 and \$10.3 million in 2026. These revenues will help re-establish reduced financial reserves and support the continuation of school safety infrastructure investments like sidewalks and crosswalks in and around schools, which would otherwise see further reductions without this program expansion.
- **Unified Care Team Expansion:** The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The proposed budget expands services provided by the UCT from 5 to 7 days per week, adding \$1.4 million to the SDOT budget in 2025 and 2026, and 3.0 FTE to support this expansion.
- **Street Use Fee Increase:** SDOT's use, occupancy, and citation fees have not been updated since 2019; therefore, the proposed budget includes legislation to update the fees to reflect a 25.8% inflationary increase. In addition, the proposed budget includes a 2.4% increase in permit issuance, renewal rates, and hourly service rates to adjust fees for inflation. These fees were last adjusted at the beginning of 2024. These changes will help advance the City's goal of achieving cost recovery for permitting activities and help

Seattle Department of Transportation

Seattle residents and businesses in the form of managing right-of-way, activating public space, and leveraging development and utility restoration efforts.

- **Seattle Transit Measure (STM)/Sound Transit 3 (ST3):** Sound Transit 3 is the largest infrastructure program in Seattle’s history. Its high-capacity transit investments, including the mega-projects of West Seattle Link Extension (WSLE) and Ballard Link Extension (BLE), will be transformational. City staffing is critical to ensuring on-time project delivery while ensuring compliance with relevant statutes and codes and upholding the 2018 Partnering Agreement. The proposed budget includes \$5.2 million in 2025 and \$6.8 million in 2026 to fund approximately 51 additional staff in various departments. These funds are appropriated in the “Finance General” department budget pending the development of a detailed staffing plan.

Description of Incremental Budget Changes

Baseline

Revenue Technical Changes

Revenues -

This change adds technical adjustments to the Seattle Department of Transportation's baseline revenue to align it with the 2024 Adopted Budget's revenue amounts.

Revenue Forecast Correction

Revenues \$(5,238,103)

This change adjusts total baseline revenue forecasts for Seattle Department of Transportation (SDOT)-driven projections for reimbursable revenues, transportation-specific revenues, and financial system corrections to match the 2024 Adopted Budget's starting point.

Reversal of One-Time Budget Items

Expenditures \$(18,469,567)

This change reverses one-time budget items that were included in the Adopted 2024 Budget and establishes a corrected baseline budget for the proposed budget.

Paid Parking Program Technical Corrections

Expenditures \$2,950,000

This technical change corrects errors in budget for the Seattle Department of Transportation's Paid Parking Program, establishing ongoing funding that was inadvertently identified as one-time support in the 2024 Adopted Budget.

Citywide Adjustments for Standard Cost Changes

Seattle Department of Transportation

Expenditures \$7,469,773

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$7,353,357

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Proposed Operating

Realigning Core Operating Services after Levy to Move Seattle

Expenditures \$(24,085,875)

This change captures numerous reductions to operating projects in the Proposed 2025-26 Budget to realign Seattle Department of Transportation's (SDOT's) operating budget to reflect the highest priority investments with the expiration of the Levy to Move Seattle on December 31st, 2024 and loss of associated tax revenues beginning in 2025. Because the Levy to Move Seattle largely supported capital projects, operating program realignment in this budget action largely represents a transfer of operating revenues to support critical capital functions that would be otherwise underfunded with the loss of the Levy to Move Seattle. These changes include the following 5 funds and impacts in 2025 and 2026:

- General Fund (-\$830,000 in 2025, -\$860,000 in 2026)
- Levy to Move Seattle Fund (-\$12.4 million in 2025, -\$12.8 million in 2026)
- Transportation Fund (-\$8.2 million in 2025 and -\$8.5 million in 2026)
- School Safety Traffic and Pedestrian Improvement Fund (-\$120,000 in 2025 and -\$130,000 in 2026)
- Transportation Benefit District Fund (-\$2.5 million in 2025 and -\$2.6 million in 2026)

This change captures numerous reductions to operating projects in the proposed budget, realigning SDOT's operating budget to reflect the highest priority investments with the expiration of the Levy to Move Seattle in 2024 and loss of associated property tax proceeds beginning in 2025. Because the Levy largely supported capital projects, operating program realignment in this budget action largely represents a transfer of operating revenues to support critical capital functions that would be otherwise underfunded with the loss of the Levy. These changes by fund include:

- General Fund (-\$830,000 in 2025, -\$860,000 in 2026)
- Move Seattle Levy Fund (-\$12.4 million in 2025, -\$12.8 million in 2026)
- Transportation Fund (-\$8.2 million in 2025 and -\$8.5 million in 2026)
- School Safety Traffic and Pedestrian Improvement Fund (-\$120,000 in 2025 and -\$130,000 in 2026)
- Transportation Benefit District Fund (-\$2.5 million in 2025 and -\$2.6 million in 2026)

Forty-five projects are impacted by the above reductions, including but not limited to: Administrative programs and management; Bridges and Structure operating maintenance programs; Citywide & Community Planning program; Urban Forestry program; and Pothole Repair Program. Overall impacts of reductions to these programs will result in reduced service levels. In some cases, however, budget reductions identified here are mitigated by restored funding in other areas to maintain total funding levels (such as for Pothole Repair, which will not see total reduced funding levels because of this change).

Seattle Department of Transportation

School Speed Zone Safety Camera Expansion

Revenues \$4,200,000

The School Zone Camera program is a joint program between the Seattle Department of Transportation (SDOT), Seattle Police Department (SPD), and the Seattle Municipal Court (SMC) that installs and operates automated enforcement cameras and processes citations for 30 cameras intended to enforce speed limits in school zones at 19 camera locations (18 schools).

This item expands the program, installing 37 new cameras at 18 additional locations, intending to be operational by fall 2025. This expansion will nearly double the total number of existing locations that have automated school zone camera enforcement. There are no installation costs identified in SDOT for 2025; SDOT installation costs were included in the 2024 Adopted Budget. The projected revenue from camera expansion to the School Safety, Traffic and Pedestrian Improvement (SSTPI) Fund is \$4.2 million in 2025 and \$10.3 million in 2026. Revenue will be used to offset operating and citation processing costs in SDOT, SPD, and SMC, and to support healthy fund balances in the SSTPI Fund that reduce the risk of future reductions to school safety and pedestrian improvement projects due to revenue variability. The budget changes for SPD and SMC operating and citation processing costs associated with this expansion are included in their respective Budget Book sections. Please see these sections for more information about these impacts.

Unified Care Team Expansion

Expenditures \$1,429,558

Position Allocation 3.00

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores access to public spaces. This item adds \$1.4 million of General Fund resources and 3.0 FTE in SDOT to expand SDOT's team to provide additional services under the UCT program. This funding will support a mix of labor costs in SDOT as well as contracted support to expand UCT-related services from 5 to 7 days a week.

Street Use Fee Legislation

Revenues \$6,679,000

The proposed budget includes legislation that increases street use fines and fees to keep pace with inflation. SDOT's fees for occupying the right-of-way for non-transportation purposes have not been adjusted since 2019. SDOT's hourly fees were last increased in 2024. This item brings fees in-line with changes in the Consumer Price Index. This revenue change is ongoing. For more information, please consult the associated Council Bill that adjusts SDOT's street use fees.

Downtown Activation Plan - Central Waterfront Grand Opening

Expenditures \$250,000

This one-time item provides funding to support the Central Waterfront Grand Opening as part of the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The Central Waterfront program will reach completion of all construction elements in 2025.

Seattle Transit Measure Alignment - Operating

Expenditures \$(8,061,813)

This one-time change decreases appropriations associated with the Seattle Transit Measure (STM) to reflect the

Seattle Department of Transportation

current spending plan for 2025 and 2026. The total reduction is \$8.06 million in 2025 and \$871,642 in 2026. This item includes a \$3,633,000 contribution to Finance General in 2025 for Sound Transit 3 staffing and another \$3,675,000 in 2026. A companion item increases the SDOT Capital Improvement Program for the STM to reflect the complete STM spending plan.

Seattle Transit Measure Support for Streetcar Operations

Expenditures

-

This one-time item exchanges \$10.2 million of funding for Streetcar Operations from Commercial Parking Tax revenues in the Transportation Fund for Seattle Transit Measure revenues in the Transportation Benefit District Fund. This transfer allows SDOT to maintain streetcar operations while preserving funding needed to support debt service payments in the Transportation Fund. Please see the "Debt Service Technical Adjustment" change and the "Reduce Transportation Network Company Tax for Debt Service" change for more detail on the total impact of these changes.

General Fund Program Reductions

Expenditures

\$(5,453,579)

The General Fund revenue forecast for the City's proposed budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. In the Seattle Department of Transportation (SDOT), this item reduces General Fund resources in the amount of \$5.5 million in 2025 and \$6.1 million in 2026, ongoing, across 30 SDOT programs that are funded in whole or in part with General Fund revenues. Highlighted program reductions from this change include but are not limited to Signal Maintenance (-\$1 million), Preventative Maintenance (-\$790,000), Bridge and Structures Maintenance (-\$690,000), Transportation Operations Center (-\$440,000), and Street Cleaning Services (-\$370,000). These reductions do not change funding levels from non-General Fund sources in these projects and represent less than 8% reduction for any one project's total budget.

Street Surface Maintenance Reductions

Expenditures

\$(1,143,048)

This change reduces the Street Cleaning Program by \$250,000 in the Transportation Fund and the Surface Maintenance Program by \$893,000 in the Transportation Benefit District Fund. With the expiration of the Levy to Move Seattle in 2024 and loss of associated property tax proceeds in 2025, this change comprises part of a transfer of resources from these programs to the 2025-2030 Proposed CIP to provide additional funding to support Transit Corridor Improvements and Protected Bike Lane investments.

Proposed Capital

Realigning Core CIP Services after Levy to Move Seattle

Expenditures

\$12,701,395

This item captures numerous transfers, increases, and reductions to capital projects in the 2025-2030 Proposed CIP to realign the Seattle Department of Transportation's (SDOT's) capital budget to reflect the highest priority investments with the expiration of the Levy to Move Seattle in 2024 and loss of associated property tax proceeds beginning in 2025. These changes by funds include:

- General Fund (\$1.0 million)
- Move Seattle Fund (-\$540,000)
- Transportation Fund (\$9.4 million)
- School Safety Traffic and Pedestrian Improvement Fund (\$400,000)
- Transportation Benefit District Fund (\$2.7 million)
- REET II Capital Fund (-\$340,000)

Seattle Department of Transportation

Within these funds, 60 CIP projects are impacted. Projects prioritized for replacement funding after the loss of the Levy to Move Seattle include but are not limited to: Sidewalk Safety Repair; SDOT ADA Curb Ramp Program; Pedestrian Master Plan - Crossing Improvements; Vision Zero Safety Program, and Arterial Major Maintenance. Highlighted projects that will see reductions over baseline 2024 CIP funding include but are not limited to: Accela Permitting System Program; Pedestrian Master Plan - New Sidewalk program; Pedestrian Master Plan - School Safety Program; Bike Master Plan - Greenways, and Transit Corridor Improvements. In some cases, reductions are a return to historical spending levels, and do not represent a long-term reduction to funding (like school safety improvements), following one-time increases in 2024.

Protected Bike Lanes and Transit Corridor Improvement Investments

Expenditures	\$8,122,376
--------------	-------------

During the development of the proposed budget, the Seattle Department of Transportation (SDOT) identified a series of additional CIP investment priorities, including additional funding for Bike Master Plan - Protected Bike Lanes and Transit Corridor Improvements, funded through a combination of Transportation Fund, Transportation Benefit District Fund, and REET II Capital Fund resources. The funding made available for these investments is supported by a combination of reductions in these Funds to street maintenance activities, revenues generated by the automated "block-the-box" camera enforcement pilot program and increases to Street Use fees.

Bridge Seismic Program Funding

Expenditures	\$4,000,000
--------------	-------------

This item adds \$4 million of Levy to Move Seattle funding to the Bridge Seismic Retrofit - Phase III program (CIP Project MC-TR-C090) in 2025 in the 2025-2030 Proposed CIP. This program contains a list of 16 seismic retrofit programs evaluated and planned through the life of the Levy to Move Seattle. Bridge seismic retrofits are typically high-cost projects that are susceptible to external cost inflation and increased costs discovered during project design. The program requires additional funding to complete the planned list of bridge seismic projects. This funding is made available by the Levy to Move Seattle Fund through levy project savings.

East Marginal Way North Segment Funding

Expenditures	\$4,500,000
--------------	-------------

This item adds \$4.5 million of Levy to Move Seattle funding to the East Marginal Way North Segment component of the Heavy Haul Network Program (CIP Project MC-TR-C090) in 2025 in the 2025-2030 Proposed CIP to cover a funding shortfall preventing the completion of the project. The Seattle Department of Transportation (SDOT) is making improvements along the north segment of the corridor – between S. Atlantic St. and S. Spokane St. The improvements will reconstruct the roadway along this freight corridor to support truck loads with an expected lifetime of 50 years. The project will also construct a protected bike lane, including rebuilding the existing traffic signal at S. Hanford St. and adding a new signal at S. Horton St. to provide protected crossings for cyclists. This additional funding is necessary due to the need to relocate and modify existing rail yard track and is made available through project savings in the Levy to Move Seattle Fund.

Seattle Transit Measure Alignment - Capital

Expenditures	\$4,620,915
--------------	-------------

This item aligns capital budget appropriations with the current Seattle Transit Measure spending plan. This item includes a \$144,085 adjustment to fund a Finance General appropriation in 2025 for Sound Transit 3 staffing as well as a \$1,529,752 adjustment in 2026. A companion item decreases STM operating appropriations to reflect the complete STM spending plan.

Seattle Department of Transportation

Proposed Technical

Reduce Transportation Network Company Tax for Debt Service

Expenditures

-

This change reduces total debt service payment budget supported by Transportation Network Company Tax in the General Fund in the amount of \$6.2 million in 2025 and ongoing and replaces it with Commercial Parking Tax in the Transportation Fund for the same amount. Please see the "Debt Service Technical Adjustment" change and the "Seattle Transit Measure Support for Streetcar Operations " change for more detail on the total impact of these changes.

Debt Service Technical Adjustment

Expenditures

\$1,867,871

This technical adjustment aligns the Seattle Department of Transportation's (SDOT's) anticipated debt service obligations with projected debt service schedules for the Proposed 2025-2026 Budget. This item adds \$1.9 million in 2025 and reduces \$9.5 million in 2026, supported by general tax revenues in the General Fund (adding \$210,000 in 2025 and reducing \$5.6 million in 2026), and Commercial Parking Tax revenues in the Transportation Fund (adding \$1.7 million in 2025 and reducing \$3.9 million in 2026).

These changes reflect both an updated debt service schedule with reduced debt service obligations beginning in 2026, as well as shift in debt service funding obligations from General Fund to the Transportation Fund for the repayment of debt obligations. This transfer facilitates General Fund reductions required due to reduced overall General Fund revenues without significantly impacting SDOT's program delivery. Please see the "Reduce Transportation Network Company Tax for Debt Service" change and the "Seattle Transit Measure Support for Streetcar Operations " change for more detail on the total impact of these changes.

Revenue Technical Adjustment - Central April Revenue Forecast

Revenues

\$525,930

This change updates 2025 baseline revenues for adjustments made in the April Central Revenue Forecast.

Revenue Technical Adjustment - Central August Revenue Forecast

Revenues

\$(2,477,625)

This change updates 2025 baseline revenues for adjustments made in the April Central Revenue Forecast.

Revenue Technical Adjustment - SDOT Revenue Projections

Revenues

\$(110,415,987)

This change corrects SDOT-forecasted revenue projections for numerous transportation revenue sources, including reimbursable revenues, forecasted transportation-specific revenues, interest, and cost center revenues to align with baseline 2025 revenue projections. This is a companion change to centrally-forecasted revenue updates.

Paid Parking Incremental Revenue

Expenditures

-

This change allocates \$600,000 of General Fund dedicated incremental parking revenue anticipated to be generated from historical changes to minimum and maximum parking rates established in the Adopted 2024 Budget. These funds are projected to be available in 2026 and will fund the Seattle Department of Transportation's (SDOT's) Paid Parking - Pay by Phone program.

Seattle Department of Transportation

First Hill Streetcar Operations Technical Adjustment

Expenditures	\$(325,831)
Revenues	\$146,215

This technical adjustment decreases appropriations for First Hill Streetcar operations. Adjustments are needed due to ORCA fare and contribution revenue offsets against King County Metro billings, inflationary increases, annual wage increases, and market adjustments.

SLU Streetcar Operations Technical Adjustment

Expenditures	\$(211,134)
Revenues	\$(146,215)

This technical adjustment decreases appropriations for South Lake Union Streetcar operations. Adjustments are needed due to ORCA fare and contribution revenue offsets against King County Metro billings, inflationary increases, annual wage increases, and market adjustments.

Street Use Technical Adjustment

Expenditures	\$2,718,015
Revenues	\$3,451,745

This technical adjustment aligns the budget with anticipated expenditures and revenues in SDOT's Street Use program, which is funded by permit issuance fees, hourly service fees, use and occupation fees, and modification fees. This item does not include revenue changes associated with SDOT's street use fee legislation.

Operations and Maintenance Technical Adjustments

Expenditures	\$20,942,981
--------------	--------------

This item adjusts centralized budget changes for the Seattle Department of Transportation (SDOT) to reflect true-up activities in 5 Funds:

- General Fund (\$1.7 million in 2025 and \$1.8 million in 2026)
- Levy to Move Seattle Fund (\$370,000 in 2025 and \$320,000 in 2026)
- Transportation Fund (\$16.5 million in 2025 and \$13.0 million in 2026)
- School Safety, Traffic and Pedestrian Improvement Fund (\$330,000 in 2025 and \$340,000 in 2026)
- Transportation Benefit District Fund (\$2.0 million in 2025 and \$4.1 million in 2026)

These changes combine alignment for non-labor contract inflation, changes in the indirect cost recovery rates associated with the expiration of the Levy to Move Seattle, non-labor central cost impacts not already factored into central cost changes elsewhere in this budget, and labor inflation not already factored into Annual Wage Increase changes elsewhere in this budget. All net increases to budget in this change are either offset by reductions elsewhere in this budget or supported by fund balance in their respective funds.

Reimbursable Technical Adjustments

Expenditures	\$2,019,198
Revenues	\$(794,855)

This technical change adds \$2.0 million in 2025 and \$4.1 million in 2026 of reimbursable funding in the Transportation Fund to support activities across 26 projects in the Seattle Department of Transportation (SDOT), and trues up revenue budgets, reflected by a \$790,000 reduction reimbursable revenues. These funds for reimbursable

Seattle Department of Transportation

activities are available from a number of sources, including revenues generated by SDOT cost centers, interdepartmental agreements, or partnerships with agencies external to the city.

Technical CIP Adjustments - 2025

Expenditures	\$(286,305,332)
Revenues	\$(21,651,829)

This technical change reduces unneeded budget authority and budget authority backed by unrealized revenues from 2024, corrects reimbursable budgets, and various small corrections in the 2025 budget year for the 2025-2030 Proposed CIP.

Technical CIP Adjustments - 2026-2027

Expenditures	-
--------------	---

This technical change reduces unneeded budget authority and budget authority backed by unrealized revenues from 2024, corrects reimbursable budgets, and various small corrections in the 2025 budget year for the 2025-2030 Proposed CIP.

Technical CIP Adjustments - 2030 Ongoing CIP

Expenditures	-
Revenues	-

This technical change adds \$27.5 million to capital project spending in the 2030 planning year for the 2025-2030 Proposed CIP. These programs are identified as "ongoing" capital projects, such as capital project maintenance, that spend annual appropriations and have no specified end date. This item is an annual change adding planned spending assumptions to the last year of the CIP. Please see the 2025-2030 Proposed CIP for more information regarding ongoing CIP programs and the 2025-2030 out-year spending plan.

Capital Out-Year Adjustments

Expenditures	\$5,124,911
Revenues	\$5,124,911

This technical adjustment recognizes changes to future planning amounts for capital projects adjusted during the 2024 year.

REET II Debt Service Capital Budget Alignment

Expenditures	\$(1,246,502)
--------------	---------------

This item realigns debt service payment budgets, supported by the Real Estate Excise Tax II funding source, with the correct Budget Summary Level and system coding guidelines in the Capital Improvement Plan, and adjusts budgets to match the annual updates provided by the City's debt service schedule.

Waterfront Bond Timing Adjustments

Expenditures	\$10,713,000
--------------	--------------

This change adjusts the timing of bond issuances and appropriations for the Office of the Waterfront and Civic Projects from 2024 to 2025. This technical adjustment will move a total of \$10,713,000 in bond appropriation authority from 2024 to 2025 in two capital projects: Alaskan Way Main Corridor (MC-TR-C072) will move \$7,713,000 and Overlook Walk/East West Connections (MC-TR-C073) will move \$3,000,000. This adjustment will help "right

Seattle Department of Transportation

size" the bond issuance to better align with projected spending, resulting in interest expense savings.

Final Adjustments for Standard Cost Changes

Expenditures	-
--------------	---

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures	\$3,074,288
--------------	-------------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and Local 77 bargaining units, for personnel costs included in this department's budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Fund Balancing Entries

Revenues	\$(12,510,809)
----------	----------------

This technical change captures estimates of the contribution or use of fund balance for Seattle Department of Transportation managed funds.

Appropriations by Budget Summary Level and Program

SDOT - BC-TR-16000 - Central Waterfront

The purpose of the Central Waterfront Budget Summary Level is to design, manage, and construct improvements to the transportation infrastructure and public spaces along the Central Waterfront.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Central Waterfront	94,323,167	35,607,000	11,213,000	600,000
Total	94,323,167	35,607,000	11,213,000	600,000
Full-time Equivalents Total*	1.00	1.00	1.00	1.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BC-TR-19001 - Major Maintenance/Replacement

The purpose of the Major Maintenance/Replacement Budget Summary Level is to provide maintenance and replacement of roads, trails, bike paths, bridges and structures.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Bridges & Structures	22,151,191	54,995,965	14,461,789	7,181,041
Landslide Mitigation	400,614	501,908	476,813	517,750
Roads	23,473,618	28,432,723	13,872,734	25,311,000
Sidewalk Maintenance	5,105,427	4,994,671	5,036,761	5,096,000
Signs, Signals and Markings	2,428,949	1,801,420	1,190,456	1,095,000
Streetcar Repair	29,562	-	-	-

Urban Forestry	553,010	478,627	774,831	475,000
Total	55,936,106	93,116,434	35,813,388	39,675,791
Full-time Equivalents Total*	100.25	100.25	100.25	100.25

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Major Maintenance/Replacement Budget Summary Level:

Bridges & Structures

The purpose of Bridges and Structures Program is to provide for safe and efficient use of the city's bridges and structures to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

Seattle Department of Transportation

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Bridges & Structures	22,151,191	54,995,965	14,461,789	7,181,041
Full Time Equivalents Total	14.75	14.75	14.75	14.75

Landslide Mitigation

The purpose of the Landslide Mitigation Program is to proactively identify and address potential areas of landslide concerns that affect the right-of-way.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Landslide Mitigation	400,614	501,908	476,813	517,750
Full Time Equivalents Total	2.00	2.00	2.00	2.00

Roads

The purpose of the Roads program is to provide for the safe and efficient use of the city's roadways to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Roads	23,473,618	28,432,723	13,872,734	25,311,000
Full Time Equivalents Total	47.00	47.00	47.00	47.00

Sidewalk Maintenance

The purpose of Sidewalk Maintenance Program is to maintain and provide for safe and efficient use of the city's sidewalks to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Sidewalk Maintenance	5,105,427	4,994,671	5,036,761	5,096,000
Full Time Equivalents Total	6.00	6.00	6.00	6.00

Signs, Signals and Markings

The purpose of Signs, Signals and Markings Program is to design, plan and maintain the city's signs, signals, and street, sidewalk markings

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Signs, Signals and Markings	2,428,949	1,801,420	1,190,456	1,095,000
Full Time Equivalents Total	1.00	1.00	1.00	1.00

Streetcar Repair

Seattle Department of Transportation

The purpose of Streetcar Repair program is to repair and maintain the city's streetcar lines to ensure safe, efficient movement of people, goods and services throughout the city.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Streetcar Repair	29,562	-	-	-

Trails and Bike Paths

The purpose of Trails and Bike Paths Program is to maintain and provide for safe and efficient use of the city's trails and bike paths to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Trails and Bike Paths	1,793,734	1,911,119	4	-
Full Time Equivalents Total	27.75	27.75	27.75	27.75

Urban Forestry

The Tree and Landscape Maintenance program provides services to implement the citywide Urban Forestry Management Plan through education, stewardship, protection and maintenance of SDOT's green infrastructure assets including trees and landscapes. Arborists, Foresters, and the Landscape Architect provide design guidance, construction management support, citywide policy guidance and implementation including street tree permitting. Urban Forestry field operations provides critical maintenance of more than 40,000 SDOT street use tree assets and emergency response to over 350,000 right-of-way trees. Field operations is also responsible for the maintenance and operation of more than 200 formally landscaped right-of-way areas such as medians along Beacon Avenue South and Sand Point Way NE.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Urban Forestry	553,010	478,627	774,831	475,000
Full Time Equivalents Total	1.75	1.75	1.75	1.75

SDOT - BC-TR-19002 - Major Projects

The purpose of the Major Projects Budget Summary Level is to design, manage and construct improvements to the transportation infrastructure for the benefit of the traveling public including freight, transit, other public agencies, pedestrians, bicyclists and motorists.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Alaskan Way Viaduct	610,647	-	-	-
SR-520	1,590,634	1,971,000	1,640,985	125,000
Total	2,201,281	1,971,000	1,640,985	125,000
Full-time Equivalents Total*	24.50	24.50	24.50	24.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Department of Transportation

The following information summarizes the programs in Major Projects Budget Summary Level:

Alaskan Way Viaduct

The purpose of the Alaskan Way Viaduct and Seawall Replacement Program is to fund the City's involvement in the replacement of the seismically-vulnerable viaduct and seawall. The Alaskan Way Viaduct is part of State Route 99, which carries one-quarter of the north-south traffic through downtown Seattle and is a major truck route serving the city's industrial areas

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Alaskan Way Viaduct	610,647	-	-	-
Full Time Equivalents Total	23.00	23.00	23.00	23.00

SR-520

The purpose of the SR-520 Program is to provide policy, planning and technical analysis support and to act as the City's representative in a multi-agency group working on the replacement of the State Route 520 bridge.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
SR-520	1,590,634	1,971,000	1,640,985	125,000
Full Time Equivalents Total	1.50	1.50	1.50	1.50

SDOT - BC-TR-19003 - Mobility-Capital

The purpose of the Mobility-Capital Budget Summary Level is to help maximize the movement of traffic throughout the city by enhancing all modes of transportation including corridor and intersection improvements, transit and HOV improvements, and sidewalk and pedestrian facilities.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Corridor & Intersection Imprv	41,096,908	54,862,066	45,230,560	45,587,663
Freight Mobility	6,059,165	43,769,140	6,090,000	828,000
Intelligent Transp System	2,940,111	1,323,095	1,070,057	479,000
Neighborhood Enhancements	5,991,773	6,374,504	1,956,289	1,975,382
New Trails and Bike Paths	16,308,192	20,928,952	5,622,542	5,622,376
Sidewalks & Ped Facilities	34,033,669	34,429,719	17,674,452	18,033,842
Transit & HOV	65,275,688	81,745,746	43,286,506	35,507,528
Total	171,705,507	243,433,222	120,930,406	108,033,791
Full-time Equivalents Total*	161.50	163.00	163.00	163.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Mobility-Capital Budget Summary Level:

Corridor & Intersection Imprv

Seattle Department of Transportation

The purpose of the Corridor & Intersection Improvements Program is to analyze and make improvements to corridors and intersections to move traffic more efficiently. Examples of projects include signal timing, left turn signals and street improvements.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Corridor & Intersection Imprv	41,096,908	54,862,066	45,230,560	45,587,663
Full Time Equivalents Total	39.50	39.50	39.50	39.50

Freight Mobility

The purpose of the Freight Mobility Program is to help move freight throughout the city in a safe and efficient manner.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Freight Mobility	6,059,165	43,769,140	6,090,000	828,000
Full Time Equivalents Total	4.50	4.50	4.50	4.50

Intelligent Transp System

The purpose of the Intelligent Transportation System (ITS) Program is to fund projects identified in the City's ITS Strategic Plan and ITS Master Plan. Examples of projects include implementation of transit signal priority strategies; installation of closed-circuit television (CCTV) cameras to monitor traffic in key corridors; and development of parking guidance, traveler information and real-time traffic control systems.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Intelligent Transp System	2,940,111	1,323,095	1,070,057	479,000
Full Time Equivalents Total	9.25	9.25	9.25	9.25

Neighborhood Enhancements

The purpose of the Neighborhood Enhancements Program is to plan and forecast the needs of specific neighborhoods including neighborhood and corridor planning, development of the coordinated transportation plans, traffic control spot improvements and travel forecasting. The program also constructs minor improvements in neighborhoods based on these assessments.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Neighborhood Enhancements	5,991,773	6,374,504	1,956,289	1,975,382
Full Time Equivalents Total	19.75	21.25	21.25	21.25

New Trails and Bike Paths

The purpose of the New Trails and Bike Paths Program is to construct new trails and bike paths that connect with existing facilities to let users transverse the city on a dedicated network of trails and paths.

Seattle Department of Transportation

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
New Trails and Bike Paths	16,308,192	20,928,952	5,622,542	5,622,376
Full Time Equivalents Total	2.00	2.00	2.00	2.00

Sidewalks & Ped Facilities

The purpose of the Sidewalks & Pedestrian Facilities Program is to install new facilities that help pedestrians move safely along the city's sidewalks by installing or replacing sidewalks, modifying existing sidewalks for elderly and handicapped accessibility, and increasing pedestrian lighting.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Sidewalks & Ped Facilities	34,033,669	34,429,719	17,674,452	18,033,842
Full Time Equivalents Total	60.50	60.50	60.50	60.50

Transit & HOV

The purpose of the Transit & HOV Program is to move more people in less time throughout the city.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Transit & HOV	65,275,688	81,745,746	43,286,506	35,507,528
Full Time Equivalents Total	26.00	26.00	26.00	26.00

SDOT - BC-TR-19004 - Capital General Expense

The purpose of the Debt and Special Funding Budget Summary Level is to meet debt service obligations on funds borrowed to meet the Seattle Department of Transportation's capital expenditure requirements.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Capital Debt Service	-	-	6,985,811	6,547,877
Total	-	-	6,985,811	6,547,877

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-12001 - South Lake Union Streetcar Operations

The purpose of the South Lake Union Streetcar Operations Budget Summary Level is to operate and maintain the South Lake Union Seattle Streetcar.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
S Lake Union Streetcar Ops	3,115,439	4,628,688	4,419,771	4,539,220
Total	3,115,439	4,628,688	4,419,771	4,539,220

Seattle Department of Transportation

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-12002 - First Hill Streetcar Operations

The purpose of the First Hill Streetcar Operations Budget Summary Level is to operate and maintain the First Hill Seattle Streetcar.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
First Hill Streetcar Ops	9,242,318	9,758,277	9,435,601	9,765,625
Total	9,242,318	9,758,277	9,435,601	9,765,625

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-16000 - Waterfront and Civic Projects

The purpose of the Waterfront and Civic Projects Summary Level is to pay for expenses related to reimbursable design and construction services provided by the Central Waterfront program for other City departments and external partners. Additionally, the BSL provides planning and leadership support for other Civic Projects.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Waterfront and Civic Projects	37,445,472	34,804,912	36,331,169	37,341,951
Total	37,445,472	34,804,912	36,331,169	37,341,951
Full-time Equivalents Total*	1.00	1.00	1.00	1.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-17001 - Bridges & Structures

The purpose of the Bridges and Structures Budget Summary Level is to maintain the City's bridges and structures which helps provide for the safe and efficient movement of people, goods, and services throughout the City. Additionally, the BSL provides general construction management, engineering support for street vacations, scoping of neighborhood projects, and other transportation activities requiring engineering oversight.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Bridge Operations	4,277,946	4,243,350	4,666,612	4,825,331
Engineering & Ops Support	893,319	886,345	1,278,413	1,317,938
Structures Engineering	1,643,051	1,772,606	1,842,382	1,899,475
Structures Maintenance	8,260,860	9,696,569	6,255,915	6,388,849
Total	15,075,177	16,598,871	14,043,322	14,431,593

Seattle Department of Transportation

Full-time Equivalents Total*	59.00	62.00	62.00	62.00
*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here				

The following information summarizes the programs in Bridges & Structures Budget Summary Level:

Bridge Operations

The purpose of Bridge Operations is to ensure the safe and efficient operations and preventive maintenance for over 180 bridges throughout the city.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Bridge Operations	4,277,946	4,243,350	4,666,612	4,825,331
Full Time Equivalents Total	17.50	17.50	17.50	17.50

Engineering & Ops Support

The purpose of the Engineering Ops & Support program is to provide engineering support services to other SDOT projects, perform engineering related to bridges and structures, and manage stormwater pollution control.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Engineering & Ops Support	893,319	886,345	1,278,413	1,317,938
Full Time Equivalents Total	3.00	3.00	3.00	3.00

Structures Engineering

The purpose of the Structures Engineering Program is to provide engineering services on all the bridges and structures within the city to ensure the safety of transportation users as they use or move in proximity to these transportation facilities.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Structures Engineering	1,643,051	1,772,606	1,842,382	1,899,475
Full Time Equivalents Total	3.50	6.50	6.50	6.50

Structures Maintenance

The purpose of the Structures Maintenance Program is to provide for the maintenance of the city's bridges, roadside structures and stairways.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Structures Maintenance	8,260,860	9,696,569	6,255,915	6,388,849
Full Time Equivalents Total	35.00	35.00	35.00	35.00

Seattle Department of Transportation

SDOT - BO-TR-17003 - Mobility Operations

The purpose of the Mobility-Operations Budget Summary Level is to promote the safe and efficient operation of all transportation modes in the city. This includes managing the parking, pedestrian, and bicycle infrastructure; implementing neighborhood plans; encouraging alternative modes of transportation; and maintaining and improving signals and the non-electrical transportation management infrastructure.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Commuter Mobility	17,556,864	20,132,623	18,464,975	19,027,435
Neighborhoods	1,691,036	701,313	605,717	626,401
Parking & Curbspace	14,106,772	17,020,950	18,253,247	19,382,348
Signs & Markings	4,937,441	5,020,278	4,886,670	5,025,520
Traffic Signals	10,469,155	11,906,180	10,571,173	10,861,222
Transit Operations	36,004,029	47,157,900	41,131,097	50,042,407
Urban Planning	4,616,160	4,463,811	3,028,711	3,094,727
Total	89,381,457	106,403,056	96,941,590	108,060,060
Full-time Equivalents Total*	153.75	173.75	173.75	173.75

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Mobility Operations Budget Summary Level:

Commuter Mobility

The purpose of the Commuter Mobility Program is to provide a variety of services, including enforcement of City commercial vehicle limits, transit coordination, and planning, to increase mobility and transportation options to the residents of Seattle.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Commuter Mobility	17,556,864	20,132,623	18,464,975	19,027,435
Full Time Equivalents Total	53.25	58.25	58.25	58.25

Neighborhoods

The purpose of the Neighborhoods Program is to plan and forecast the needs of specific neighborhoods including neighborhood and corridor planning, development of the coordinated transportation plans, traffic control spot improvements and travel forecasting. The program also constructs minor improvements in neighborhoods based on these assessments.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Neighborhoods	1,691,036	701,313	605,717	626,401
Full Time Equivalents Total	2.50	2.50	2.50	2.50

Seattle Department of Transportation

Parking & Curbspace

The purpose of Parking and Curb Ramp Program is to manage the City's parking resources, maintain and operate pay stations and parking meters for on-street parking, manage curbspace, develop and manage the City's carpool program and Residential Parking Zones.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Parking & Curbspace	14,106,772	17,020,950	18,253,247	19,382,348
Full Time Equivalents Total	34.00	34.00	34.00	34.00

Signs & Markings

The purpose of the Signs & Markings Program is to design, fabricate and install signage, as well as provide pavement, curb and crosswalk markings to facilitate the safe movement of vehicles, pedestrians and bicyclists throughout the city.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Signs & Markings	4,937,441	5,020,278	4,886,670	5,025,520
Full Time Equivalents Total	22.50	22.50	22.50	22.50

Traffic Signals

The purpose of the Traffic Signals Program is to operate the Traffic Management Center that monitors traffic movement within the city and to maintain and improve signals and other electrical transportation management infrastructure.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Traffic Signals	10,469,155	11,906,180	10,571,173	10,861,222
Full Time Equivalents Total	25.25	33.25	33.25	33.25

Transit Operations

The Purpose of the Transit Operations Program is to purchase Metro Transit service hours on transit routes with at least 65% of the stops within the city of Seattle and transit service to address emerging transportation needs. The program also funds ORCA Opportunity which provides ORCA cards for Seattle Public School, High School and low-income Middle School Students, Seattle Promise scholars, and income-eligible adults and seniors. In addition, the program includes community engagement, training, resources and partnerships to increase transit access for low-income riders. The Transit Operations program revenues support the implementation of City-wide improvements to maximize transit operations.

Expenditures/FTE	2023	2024	2025	2026
-------------------------	-------------	-------------	-------------	-------------

Seattle Department of Transportation

	Actuals	Adopted	Proposed	Proposed
Transit Operations	36,004,029	47,157,900	41,131,097	50,042,407
Full Time Equivalents Total	4.75	5.75	5.75	5.75

Urban Planning

The Urban Planning Program is comprised of Adaptive Streets, Citywide & Community Planning, GIS, Urban Design, and the Center City Mobility Plan.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Urban Planning	4,616,160	4,463,811	3,028,711	3,094,727
Full Time Equivalents Total	11.50	17.50	17.50	17.50

SDOT - BO-TR-17004 - ROW Management

The purpose of the (Right-of-Way) ROW Management Budget Summary Level is to review projects throughout the city for code compliance for uses of the right-of-way and to provide plan review, utility permit and street use permit issuance, and utility inspection and mapping services.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
St Use Permit & Enforcement	40,051,984	49,690,857	52,917,466	54,703,402
Street Use Contingent Budget	-	1,000,000	1,000,000	1,035,000
Total	40,051,984	50,690,857	53,917,466	55,738,402
Full-time Equivalents Total*	140.25	140.25	140.25	140.25

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in ROW Management Budget Summary Level:

St Use Permit & Enforcement

The purpose of the Street Use Permitting and Enforcement is to review projects throughout the city for code compliance for uses of right-of-way and to provide plan review, utility permit and street use permit issuance, and utility inspection and mapping services.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
St Use Permit & Enforcement	40,051,984	49,690,857	52,917,466	54,703,402
Full Time Equivalents Total	140.25	140.25	140.25	140.25

Street Use Contingent Budget

The purpose of the Street Use Contingent Budget Program is to display the amount of unallocated Contingent Budget Authority (CBA) in the Right of Way Management BSL that has not been accessed. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

Seattle Department of Transportation

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Street Use Contingent Budget	-	1,000,000	1,000,000	1,035,000

SDOT - BO-TR-17005 - Maintenance Operations

The purpose of the Maintenance Operations Budget Summary Level is to maintain the City's roadways and sidewalks; maintain, protect and expand the City's urban landscape in the street right-of-way through the maintenance and planting of new trees and landscaping to enhance the environment and aesthetics of the city; and manage and administer street parking rules and regulations in the right-of-way.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Emergency Response	7,463,495	10,079,610	8,839,489	9,129,170
Operations Support	11,562,018	10,067,744	12,001,767	12,293,176
Pavement Management/Repair	15,086,602	19,393,187	17,755,891	18,220,986
Street Cleaning	8,521,764	9,183,630	7,293,949	7,443,994
Tree & Landscape Maintenance	7,560,368	6,875,938	6,633,346	6,787,603
Total	50,194,246	55,600,109	52,524,442	53,874,929
Full-time Equivalents Total*	163.50	200.50	203.50	203.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Maintenance Operations Budget Summary Level:

Emergency Response

The purpose of the Emergency Response Program is to respond to safety and mobility issues such as pavement collapses, severe weather, landslides and other emergencies to make the right-of-way safe for moving people and goods. This program proactively addresses landslide hazards to keep the right-of-way open and safe.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Emergency Response	7,463,495	10,079,610	8,839,489	9,129,170
Full Time Equivalents Total	19.00	19.00	19.00	19.00

Operations Support

The purpose of the Operations Support Program is to provide essential operating support services necessary for the daily operation of SDOT's equipment and field workers dispatched from three field locations in support of street maintenance activities. These functions include warehousing, bulk material supply and management, tool cleaning and repair, equipment maintenance and repair, project accounting and technical support, and crew supervision.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Operations Support	11,562,018	10,067,744	12,001,767	12,293,176

Seattle Department of Transportation

Full Time Equivalents Total	41.50	66.50	69.50	69.50
-----------------------------	-------	-------	-------	-------

Pavement Management/Repair

The purpose of the Pavement Management and Repair Program is to assess the condition of asphalt and concrete pavements and establish citywide paving priorities for annual resurfacing, preservation and maintenance of all streets and adjacent areas such as sidewalks and road shoulders by making spot repairs and conducting annual major maintenance paving and rehabilitation.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Pavement Management/Repair	15,086,602	19,393,187	17,755,891	18,220,986
Full Time Equivalents Total	57.25	68.25	68.25	68.25

Street Cleaning

The purpose of the Street Cleaning Program is to keep Seattle's streets, improved alleys, stairways and pathways clean, safe and environmentally friendly by conducting sweeping, hand-cleaning, flushing and mowing on a regular schedule.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Street Cleaning	8,521,764	9,183,630	7,293,949	7,443,994
Full Time Equivalents Total	22.50	22.50	22.50	22.50

Tree & Landscape Maintenance

The purpose of the Landscape & Tree Maintenance Program is to provide planning, design, construction and construction inspection services for landscape elements of transportation capital projects, as well as guidance to developers on the preservation of city street trees and landscaped sites during construction.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Tree & Landscape Maintenance	7,560,368	6,875,938	6,633,346	6,787,603
Full Time Equivalents Total	23.25	24.25	24.25	24.25

SDOT - BO-TR-17006 - Parking Enforcement

The purpose of the Parking Enforcement Budget Summary Level is to help manage the right-of-way by enforcing parking regulations, providing traffic control for events and incidents, and performing other related activities.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Parking Enforcement	-	-	-	-
Total	-	-	-	-
Full-time Equivalents Total*	(2.00)	(2.00)	(2.00)	(2.00)

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Department of Transportation

SDOT - BO-TR-18001 - Leadership and Administration

The purpose of the Leadership & Administration Budget Summary Level is to provide executive, community, financial, human resource, technology and business support to the Seattle Department of Transportation.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Indirect Costs	52,345,753	59,209,641	52,110,963	54,760,827
Departmental Indirect Costs	20,946,108	23,493,193	23,186,983	23,972,363
Divisional Indirect Costs	17,656,700	14,272,094	15,963,246	16,485,320
Indirect Cost Recovery Offset	(84,083,056)	(97,043,975)	(90,429,694)	(94,387,012)
Pooled Benefits and PTO	1,419,028	(454,402)	(831,498)	(831,498)
Total	8,284,533	(523,450)	-	-
Full-time Equivalents Total*	241.25	249.25	249.25	249.25

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The Purpose of Citywide Indirect Cost Program is to allocate the City's general service costs to SDOT in a way that benefits the delivery of transportation services to the public.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Indirect Costs	52,345,753	59,209,641	52,110,963	54,760,827

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs Program is to provide departmental leadership and operations support essential to accomplish the mission and goals of the department. the Office of the Director and the Finance & Administration Division are the two divisions included in this program. The Office of the Director oversees and provides strategic leadership and guidance for all the functions, staff, and services of the department, guiding and shaping SDOT's priorities and work plans to attain the vision, mission and goals of the department. In addition to guiding the overall work of the department, the Office of the Director houses the department's Human Resources, Communications, Office of Equity and Economic Inclusion, Emergency Management and Government and Council Relations functions. The Finance and Administration Division supports all SDOT programs, projects, and business activities by providing a wide variety of services, including: financial and accounting services; payroll services; consultant contract and procurement support; management of SDOT's facilities, fleet, radio communications network; assets condition review and management; performance management, data reporting and public dashboards; real property management, acquisition and surplus performance management; claims investigation and legal services; environmental hazardous waste management; safety and employee health support services; and IT project and service coordination.

Seattle Department of Transportation

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Departmental Indirect Costs	20,946,108	23,493,193	23,186,983	23,972,363
Full Time Equivalents Total	138.00	146.00	146.00	146.00

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Program is to provide division leadership and unique transportation technical expertise to accomplish the division's goals and objectives in support of the department's mission.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Divisional Indirect Costs	17,656,700	14,272,094	15,963,246	16,485,320
Full Time Equivalents Total	103.25	103.25	103.25	103.25

Indirect Cost Recovery Offset

Indirect Cost Recovery Offset Program includes Department Management Indirect cost recovery and General Expense Indirect Cost Recovery. This program equitably recovers and allocates departmental and general expense indirect cost from all transportation activities and capital projects to fund departmental management and support services essential for delivery of transportation service to the public.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Indirect Cost Recovery Offset	(84,083,056)	(97,043,975)	(90,429,694)	(94,387,012)

Pooled Benefits and PTO

This budget program contains the funding associated with employee leave, time off, and benefit-related costs for Workers' Compensation, healthcare and other centrally distributed benefit costs.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Pooled Benefits and PTO	1,419,028	(454,402)	(831,498)	(831,498)

SDOT - BO-TR-18002 - General Expense

The purpose of the General Expense Budget Summary Level is to pay for general business expenses necessary to the overall delivery of transportation services, such as Judgment and Claims contributions and debt service payments.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Initiatives	5,526,192	10,218,977	10,200,000	10,557,000
Debt Service	38,024,935	41,665,167	33,353,028	21,241,558
Judgment & Claims	8,800,745	7,320,249	8,143,507	9,035,407
Total	52,351,871	59,204,393	51,696,535	40,833,965

Seattle Department of Transportation

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in General Expense Budget Summary Level:

Citywide Initiatives

The purpose of the Citywide Initiatives program is to support citywide or multi-departmental system or process improvement initiatives.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Citywide Initiatives	5,526,192	10,218,977	10,200,000	10,557,000

Debt Service

The purpose of Debt Service Program is to meet principal repayment and interest obligations on debt proceeds that are appropriated in SDOT's Budget

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Debt Service	38,024,935	41,665,167	33,353,028	21,241,558

Judgment & Claims

The purpose of the Judgement & Claims Program is to represent SDOT's annual contribution to the City's centralized self-insurance pool from which court judgements and claims against the city are paid.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Judgment & Claims	8,800,745	7,320,249	8,143,507	9,035,407

The Office of the Waterfront and Civic Projects

Angela Brady, PE, Acting Director

206-684-3115

waterfrontseattle.org

The Office of the Waterfront and Civic Projects (OWCP) is responsible for coordinating the City's waterfront improvement efforts, including project management, design, construction, and financial management. The Office of the Waterfront and Civic Projects is charged with administering the overall program and ensuring that it is managed efficiently and delivers on the adopted Capital Improvement Program for the Central Waterfront.

The projects that make up the Central Waterfront program are included in the budgets of three City departments (SDOT, Seattle Parks and Recreation, and Finance and Administrative Services). Although there are multiple funding sources and multiple projects within the waterfront improvement program, the program itself includes the projects listed below:

Seattle Department of Transportation

- Alaskan Way Main Corridor project (MC-TR-C072)
- Overlook Walk and East/West Connections (MC-TR-C073)
- Waterfront Transportation Infrastructure Maintenance (MC-TR-C109)

Seattle Parks and Recreation

- Parks Central Waterfront Piers Rehabilitation (MC-PR-21007)
- Aquarium Expansion (MC-PR-21006)

Department of Finance and Administrative Services

- Pike Place Market PC-1 North Waterfront Entrance project (complete)
- Waterfront Operations and Tribal Interpretive Center (MC-FA-OWMAINT) – (managed by FAS)
- Local Improvement District Administration – (managed by FAS)

In addition, there are funds budgeted in CIP projects for Seattle Public Utilities (SPU) and Seattle City Light (SCL) for utility relocations related to the Central Waterfront program. The Office of the Waterfront and Civic Projects is leading construction activities for these relocations, which in SDOT's budget are combined in a reimbursable project (MO-TR-R043). The Office of Arts and Culture also has funding from the Waterfront program's 1% for Arts contribution.

The Office of the Waterfront and Civic Projects manages two funds that support the administration of the funding related to the projects listed above: the Central Waterfront Improvement Fund, and the Waterfront LID #6751 fund. The Central Waterfront Improvement Fund is a single fund from which multiple departments draw funding resources. The fund tracks the interfund loan and philanthropic funds as well as other revenues. The fund supports certain costs associated with the design and construction of the waterfront improvement program and related costs for City administration, including the Office of the Waterfront and Civic Projects. Appropriations made by the Central Waterfront Improvement Fund are for these purposes. In 2019, the City Council legislated the Waterfront Local Improvement District (LID) Fund which holds LID assessment payments and LID bonds and pays for expenditures related to the Waterfront Local Improvement District (#6751). The pre-payment, and LID bond issuance occurred in 2021. For more information on LID and project status, visit the Waterfront Seattle website.

Budget Overview

In 2025, the City will open to the public all the projects included in the redevelopment Seattle's central waterfront. The projects include the opening of the Overlook Walk connecting Pike Place Market to the waterfront promenade, completing the Alaskan Way Main Corridor project which is a multimodal transportation project that includes pedestrian walkways, bicycle lanes, and roadway, and completion of Waterfront Park at Pier 58.

Changes in the 2025-2026 Proposed Biennial Budget and 2025-2030 Proposed Capital Improvement Program

The 2025-2026 Proposed Budget includes a transfer of \$10,713,000 in bond appropriation authority from 2024 to 2025 in two capital projects to better align with updated expenditure timelines: Alaskan Way Main Corridor (MC-TR-C072) and Overlook Walk/East West Connections (MC-TR-C073).

The 2025-2030 Proposed Capital Improvement Program includes the final bonding authority for the Alaskan Way Main Corridor Project (MC-TR-C072) and Overlook Walk and East-West Connection Project (MC-TR-C073). This amount is sized to ensure the completion of the project, and actual final bond issuances may be smaller as the project progresses based on need and potential addition of more State funding.

Office of Sustainability and Environment

Jessyn Farrell, Director

(206) 615-0817

<http://www.seattle.gov/environment>

Department Overview

The Office of Sustainability & Environment (OSE) develops and implements citywide environmental policies and programs that propel Seattle toward a sustainable, equitable, and climate pollution-free future. OSE collaborates with a wide range of stakeholders to develop policies and programs that advance healthy communities and facilitate a just transition from fossil fuels, while prioritizing people and communities most affected by economic, racial, and environmental injustices. OSE's work focuses on the following areas:

Climate and Environmental Justice: The City of Seattle aims to reduce total core greenhouse gas emissions 58% by 2030 and to become totally carbon neutral by 2050. OSE spearheads policies and programs for achieving these goals, including transitioning buildings to 100% clean energy, advancing zero carbon transportation, and investing in green jobs. In this role, OSE coordinates implementation of the Seattle Green New Deal, the One Seattle Climate Justice Agenda, and the Equity and Environment Initiative.

Healthy & Resilient Communities: OSE works with key stakeholders to support sustainable communities. The office administers the Fresh Bucks and Healthy Food in Schools programs to provide equitable access to healthy, affordable, culturally relevant food. OSE also fosters leadership and interdepartmental coordination within the City of Seattle to help maintain, preserve, and restore Seattle's urban forest.

Citywide Coordination: OSE coordinates interdepartmental efforts to advance a healthy, equitable, and sustainable environment. These efforts include the Duwamish Valley Program, as well as interdepartmental planning around the Green New Deal, urban forestry, and energy efficiency. OSE is responsible for coordinating four prominent Boards and Commissions: the Urban Forestry Commission, the Sweetened Beverage Tax Community Advisory Board, the Environmental Justice Committee, and the Green New Deal Oversight Board.

Budget Snapshot

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Office of Sustainability and Environment

Budget Overview

The Mayor's 2025-26 Proposed Budget continues OSE's core missions of advancing citywide climate and environment policy and programs and promoting healthy and resilient communities. This includes continued work coordinating the Seattle Green New Deal, continued work managing Citywide food policy, and extensive work funded by federal and state grants.

The proposed budget prioritizes investments across all program areas, meeting required regulatory functions, and adding external funding for local climate change initiatives as large opportunities become available at the state and federal level. Funding for most programming remains level for 2025 and 2026 with increases to address higher labor and internal services costs. Reductions relative to 2024 are focused on Payroll Expense Tax-funded activities, with the bulk of this change reflecting the expiration of \$4.0 million of one-time Payroll Expense Tax (payroll tax) adds.

General Fund and Sweetened Beverage Tax Programming

The Proposed Budget appropriates \$8.5 million in General Fund to OSE in 2025 and \$8.7 million in 2026. Sweetened Beverage Tax (SBT) appropriations are set at \$6.3 million in 2025 and \$6.4 million in 2026. General Fund appropriations at OSE will continue to support the bulk of OSE's staffing and administration, including core base support for Citywide environment policy and planning. For Sweetened Beverage Tax, over \$5 million annually will continue to support the Fresh Bucks voucher program for fresh fruits and vegetables. Remaining SBT programming includes Healthy Food in Schools – a healthy snack program supporting Seattle Public Schools – and food policy, including coordination of the Sweetened Beverage Tax Community Advisory Board or CAB.

Continued Green New Deal Programming

OSE will continue its role coordinating Citywide actions supporting the Seattle Green New Deal as well as facilitating the Green New Deal Oversight Board, whose recommendations inform budget decisions. The Proposed Budget allocates \$18.25 million in payroll tax-supported funding to the Green New Deal across several city departments. Of this amount, \$12.0 million in 2025 and \$12.2 million in 2026 is appropriated in OSE. Citywide climate initiatives are also supported by over \$35 million in state and federal grants awarded since 2023.

For OSE, this continued payroll tax-Green New Deal (GND) programming in 2025-26 includes:

- \$7.5 million for Clean Buildings and the Building Emissions Performance Standards (BEPS) program, including \$5 million for the Clean Buildings Accelerator, which provides technical assistance and funding to low-income building owners to help comply with revised City and State regulations.
- \$800,000 for Clean Heat Program rebates, which provide \$2,000 rebates to up to 400 households annually for converting homes from oil to electric heating sources.
- \$1,000,000 for Clean Energy Apprenticeships in coordination with Finance and Administrative Services (FAS) and the Office of Economic Development's priority hire initiatives.
- \$500,000 for Duwamish Valley Program Youth Leadership funding, providing awards to neighborhood organizations for job training, volunteer opportunities, and recreational programming.
- \$500,000 for urban forestry, including \$300,000 for greening industrial zones in the Duwamish Area, as well as staffing and policy coordination for tree planting efforts.
- \$1,050,000 for the Environmental Justice Fund.

Green New Deal funding for 2025 and 2026 also includes programming in other City departments. These items comprise:

- \$1,851,688 in 2025 and \$1,500,000 in 2026 for the Municipal Energy Efficiency Program (MEEP). In 2025, \$1,461,688 of this funding is allocated to Finance and Administrative Services (FAS), and \$195,000 each to

Office of Sustainability and Environment

Seattle Center and Seattle Parks and Recreation. OSE manages and coordinates MEEP, which supports energy retrofits in municipally owned buildings, many of them (such as those managed by Center, Parks, and Seattle Public Library) public-facing.

- \$1.8 million for the Office of Housing (OH) to fully fund oil-to-electric home heating conversions for low-income households under the Clean Heat Program and in coordination with OSE.
- \$841,250 in 2025 and \$1.8 million in 2026 in FAS for debt service costs of EV charging stations for facility build-outs.
- \$1.6 million in 2025 and \$1.8 million in 2026 to support the City's commitment to Seattle Transit 3 (ST3). This will fund ST3 staffing and planning efforts around West Seattle and Ballard Link Extensions. Of this, \$1.4 million in 2025 and \$1.6 million in 2026 will be set aside in Finance General. Another \$186,000 in 2025 and \$198,000 in 2026 will continue funding existing ST3 staffing at the Office of Planning and Community Development. These investments are in line with commitments made by the City of Seattle's 2019 Green New Deal Resolution (Res 31895), which committed the City to reducing transportation emissions and making transit widely accessible.

In addition, pilot funding appropriated in the 2023-24 budget for Indigenous Sustainability Projects is in the process of being encumbered by OSE with partner organizations. Once encumbered, these funds will support key climate sustainability investments with Tribes through 2026, addressing commitments made by Mayor Harrell during the 2023 Seattle Tribal Nations Summit.

For more on non-OSE actions, please see Budget Book sections for the departments named above. More information on OSE-specific changes is presented in the following pages.

Description of Incremental Budget Changes

Baseline

Removal of One-Time Items from Department Baseline

Expenditures \$(4,057,398)

This item removes items from the department's baseline budget that were funded as one-time items in the 2024 Adopted Budget. This includes one-time appropriations for Payroll Expense Tax funded investments in the Seattle Green New Deal, Building Emissions Performance Standards, and Urban Forestry, as well as a small General Fund appropriation that supported the Tree Canopy Report completed in 2024.

Office of Sustainability and Environment

Technical Change to BEPS Compliance and Language Access Baseline Budget

Expenditures \$135,000

This change increases Payroll Expense Tax appropriation authority for OSE. This action trues up funding for compliance and language access for the Building Emissions Performance Standards (BEPS) program. The amount restored here was incorrectly flagged as one-time appropriations during the 2023 budget process.

Citywide Adjustments for Standard Cost Changes

Expenditures \$795,576

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$847,344

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Technical Corrections to Assign Account Codes

Expenditures -

This item makes technical corrections in order to align account budgets within OSE.

Accounting Update for IT Costs

Expenditures -

This item makes a net-zero change to update the account code being charged for IT costs at OSE.

Proposed Operating

Cut City Funding, Transition Heavy Duty EV Incentives to Other Entities

Expenditures \$(900,000)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. Budget reductions were identified to mitigate this shortfall. These actions include reductions to Payroll Expense Tax-funded programming in order to provide resources for core City functions funded by the General Fund.

This item reduces Payroll Expense Tax appropriation authority in OSE by reducing city funding for Heavy Duty Electric Truck incentives. These efforts have comprised a pilot program launched in 2023 which focused on the Duwamish Valley. This pilot aimed to fund point of sale rebates for new electric trucks, buses, or vans. This has been intended to incentivize the deployment of more electric heavy-duty vehicles in the Duwamish Valley (e.g., drayage trucks, school buses, and other fleets) while addressing cost barriers, spurring rapid adoption, and reducing harmful diesel pollution in highly exposed communities.

Office of Sustainability and Environment

This innovative pilot program has led to new engagement and investment from other Port affiliated organizations. It is anticipated that this work will transition to another entity who can scale up the program with state and federal resources. Of the original \$1 million in ongoing allocation for this program, OSE will retain \$100,000 to ensure continued support for Seattle's Transportation Electrification Blueprint, Mayor Harrell's Transportation and Climate Justice Executive Order, and intragovernmental coordination.

Align BEPS IT Budget with Actuals

Expenditures \$(551,871)

This item makes reductions to Payroll Expense Tax-funded programming in OSE to help address the City's forecasted revenue shortfall for 2025 and 2026. This reduction will achieve savings by aligning OSE's budget for BEPS technology solutions with actual projected spending needs.

Reduce OSE Workforce and Small Business Investments in Duwamish Valley

Expenditures \$(400,000)

This item makes reductions to Payroll Expense Tax-funded programming in OSE to help address the City's forecasted revenue shortfall for 2025 and 2026. This action reduces funding currently used to support OSE's workforce development and small business assistance efforts in the Duwamish Valley. OSE's role in place-based support for small businesses in the South Park and Georgetown neighborhoods, including marketing and financial assistance, will shrink, as will OSE's funding for place-based workforce development strategies in the area.

Despite these reductions, small business support will continue to be available from the Office of Economic Development. In addition, OSE will continue clean energy workforce development efforts (including but not exclusive to South Park and Georgetown), such as Clean Energy Apprenticeship funding and workforce development related to Clean Buildings and BEPS work.

OSE will also continue to lead and manage a large portfolio of investments in the Duwamish Valley including:

- \$500,000 annually for Youth Leadership and Programming
- \$300,000 annually for greening and tree planting
- \$2.5 million in continued one-time Duwamish Valley Program spending (awarded by Ord 126675), an effort that includes support community supportive spaces such as the South Park Neighborhood Center and Georgetown Community Spaces

OSE's Duwamish Valley Program work will also continue to include work funded by external grants and continued collaboration with Seattle Public Utilities' on their Duwamish Valley Resiliency program which aims to address flood risk mitigation and other climate change vulnerabilities.

Restore Baseline Environmental Justice Fund Funding

Expenditures \$250,000

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item uses payroll tax funding to restore the Environmental Justice (EJ) Fund baseline to \$1,050,000. This change restores the EJ Fund baseline to \$1,050,000 (including the Duwamish River Opportunity Fund or DROF, proposed for consolidation, below), in line with 2022 funding levels. This will allow the fund to continue supporting a wide variety of climate and environmental justice organizations.

The EJ Fund awards grants to a wide variety of community-led projects that improve environmental conditions and advance environmental justice for communities most impacted by pollution, environmental degradation, and climate change. Since its launch in 2018, the EJ Fund has awarded over \$2.6 million to 43 community-based organizations over five grant cycles. These organizations are led by or are in partnership with communities of color

Office of Sustainability and Environment

impacted by environmental injustice.

Until 2021, the Environmental Justice Fund was funded at \$250,000, using General Fund dollars. Funding was increased to \$800,000 in 2022 based on recommendations by the Equitable Communities Initiative. The 2023 Adopted Budget continued that expansion using payroll tax, with Council further expanding funding (one-time) to \$2 million. The 2024 Adopted cut the program's \$250,000 continuing General Fund budget. With the removal of the one-time Council adds from 2023, the EJ Fund and DROF combined would drop to \$800,000, instead of the \$1,050,000 provided with this budget action.

Add Climate Data Impact Analysis and Reporting Capacity

Expenditures	\$100,000
--------------	-----------

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item adds funding to OSE to increase departmental capacity for climate impact data analysis and reporting, including urban forestry. Funding will help OSE implement new tools to measure Seattle's progress on key climate indicators and inform citywide coordination around policies addressing climate change, energy transition, and urban forestry.

In 2025-2026, this funding will address urban forestry data and reporting priorities. These projects will integrate urban forestry data and information, which is currently dispersed across multiple reports, maps, and interfaces, into a single, publicly available technology resource. This tool will better track Seattle's urban forest over time in response to changing environmental conditions and ongoing management.

Ongoing funding will also support continual climate and urban forestry data surveillance. Funding would also help maintain and enhance other Citywide climate data tools managed by OSE, such as the One Seattle Climate Portal, and will support development of new policies like the updated Seattle Climate Action Plan.

Consolidate Duwamish River Opportunity Fund and Environmental Justice Fund

Expenditures	-
--------------	---

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item is a budget neutral change for OSE's payroll tax-GND funding which will consolidate the Duwamish River Opportunity Fund (DROF) and the Environmental Justice (EJ) Fund. Together with a separate item adding \$250,000 to the EJ Fund budget, this will result in a streamlined \$1,050,000 grant program serving OSE's core mission around sustainability and environmental justice

The combined Environmental Justice Fund will continue to invest in community-led projects led by and for communities disproportionately impacted by environmental issues and climate change. This budget neutral efficiency measure will streamline grantmaking led by OSE and continue to allow for investment in place-based, community-led efforts in the Duwamish Valley through the EJ Fund. Consolidation will help reduce application burdens on potential awardees -- many of whom currently apply (and receive funding from) both programs -- and help OSE more efficiently maximize existing staff capacity supporting these award processes.

Although many DROF awards currently support groups active in the climate and environmental justice space, some current awardees may be made ineligible by narrowing award criteria to these areas. OSE and the City will seek to ensure these organizations are given ample time to re-focus their grant applications and direct them towards other potential City or external awards.

Office of Sustainability and Environment

Proposed Technical

Ongoing Changes from Current Year Legislation

Position Allocation	1.00
---------------------	------

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance.

Final Adjustments for Standard Cost Changes

Expenditures	\$(63,683)
--------------	------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Revenue Update (April Forecast)

Revenues	\$43,877
----------	----------

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Revenue Update (August Forecast)

Revenues	\$490,304
----------	-----------

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Office of the City Auditor

David G. Jones, City Auditor

(206) 233-3801

<http://www.seattle.gov/audit/>

Department Overview

The Office of City Auditor was established by City Charter and serves as Seattle's independent performance audit function. The City Auditor is appointed by the City Council to a four-year term of office.

The Office of City Auditor seeks to promote honest, efficient management and full accountability throughout City government. It serves the public interest by providing the City Council, the Mayor and City employees with accurate information, unbiased analyses and objective recommendations on how best to use public resources.

The Office of City Auditor conducts audits of City departments, programs, grantees and contracts, as well as some non-audit projects. Most of the office's work is performed in response to specific concerns or requests from City Councilmembers, but the City Auditor also independently initiates work to fulfill the office's mission. If resources are available, the City Auditor responds to requests from the Mayor, City departments and the public.

Through its work, the Office of City Auditor answers the following types of questions:

- Are City of Seattle programs being carried out in compliance with applicable laws and regulations, and is accurate information furnished to the City Council and Mayor on these programs?
- Do opportunities exist to eliminate inefficient use of public funds and waste?
- Are programs achieving desired results?
- Are there better ways to achieve program objectives at lower costs?
- Are there ways to improve the quality of service without increasing costs?
- What emerging or key issues should the City Council and Mayor consider?

Budget Overview

The 2025-2026 Proposed Budget maintains all services for the Office of the City Auditor. This proposed budget increases the department's budget by about 10% from 2024 and includes technical adjustments to reflect changes to internal service costs and annual wage and market wage increases.

Office of the City Auditor

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$243,270

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$5,298

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(6,801)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Department Overview

The City Budget Office (CBO) is responsible for developing and monitoring the City's annual budget, carrying out budget-related functions, overseeing fiscal policy and financial planning activities, policy analysis, and preparing legislation for City Council review. CBO provides strategic analysis relating to the use of revenues, debt, long-term issues, and special events. The office also provides technical assistance, training, and support to City departments in performing financial functions. The Innovation and Performance team is also in CBO, supporting and advancing initiatives by using data, evaluation, and design to solve problems.

Budget Overview

The 2025-2026 Proposed Budget maintains core services for the City Budget Office. The department will continue to invest in programs such as developing and monitoring the City's \$8 billion annual budget, forecasting special revenues and supporting innovative data and analysis across the City departments.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall by increasing the City Budget Office vacancy rate assumption. In addition to technical adjustments to reflect central changes, the proposed budget includes one-time funding for both an emergency management assessment and a payroll tax evaluation in 2025.

Total 2025 Proposed Budget	\$9,882,164	44.00

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$945,165

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$169,715

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

City Budget Office

Proposed Operating

Conduct Emergency Management Assessment

Expenditures \$30,000

As part of preparing the City for all types of emergencies, the 2025-2026 Proposed Budget includes \$30,000 in one-time funding in the City Budget Office to conduct a review of other emergency management offices. This review will evaluate the Office of Emergency Management's funding, multijurisdictional framework, and organizational structure in comparison to peer cities, specifically those on the West Coast, as well as to nationwide best practices.

Payroll Expense Tax Evaluation

Expenditures \$100,000

The proposed budget allocates \$10 million to support the administration of the Payroll Expense Tax and the evaluation of the programs it funds. Administrative expenses are budgeted in the General Fund and are supported by a transfer from the Payroll Tax Fund to Finance General. In lieu of a Payroll Tax Oversight Committee (Chapter 3.35), the City will hire a consultant to provide an evaluation of: 1) the services and programs supported by the Payroll Expense Tax (Chapter 5.38); 2) the Payroll Expense Tax impacts on the number of jobs and businesses in the City; and 3) other data that directly relates to measuring the impact of the tax on the City's economy. In addition to pulling administrative data to evaluate services and programs, the consultant will engage with existing oversight bodies that monitor programs and services supported by the tax such as the Small Business Advisory Council, KCRHA's Implementation or Governing Boards, Housing Levy Oversight Committee, Equitable Development Initiative Advisory Board, and the Green New Deal Oversight Board.

Transfer Position to ITD for Affordable Seattle Program

Expenditures \$(202,507)

Position Allocation (1.00)

This item transfers 1.0 FTE from the City Budget Office to the Department of Information Technology (ITD) in order to support the Affordable Seattle Program. The item transfers \$202,507 in 2025 and \$213,155 in 2026 from CBO to ITD to support an existing payroll tax-funded position and consolidate the program administration in ITD. Affordable Seattle is a city supported program that makes it easier for residents to sign up for benefits ranging from discounts on their utility payments to two years of free college through the Mayor's Seattle Promise College Tuition Program. The program was launched with federal COVID response funds to support economic revitalization and better connect residents to support services, and the program is now sustained with payroll tax resources.

Vacancy Rate Increase

Expenditures \$(59,247)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing change increases the City Budget Office's vacancy rate assumption by 1%, which reduces its General Fund budget by \$59,247 to fund other General Fund core services. This change may result in the department holding vacancies open longer before refilling positions but will not impact the department's capacity to deliver core services.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(60,073)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Civil Service Commissions

Andrea Scheele, Executive Director

(206) 233-7118

<http://www.seattle.gov/civil-service-commission>

<https://www.seattle.gov/public-safety-civil-service-commission>

Department Overview

The **Civil Service Commissions Department (CIV)** is the department that houses two City Charter-mandated commissions, the Seattle Civil Service Commission (CSC) and the Seattle Public Safety Civil Service Commission (PSCSC). The Seattle Municipal Code and Washington law require the commissions to provide fair and impartial appeal hearings on serious disciplinary decisions and other civil service issues. The CSC conducts appeal hearings of alleged violations of the City's personnel rules, disciplinary actions, and alleged violations of the Personnel Ordinance. The PSCSC directs the civil service system for sworn personnel of the Seattle Police Department (SPD) and uniformed personnel of the Seattle Fire Department (SFD). The PSCSC also conducts appeals related to serious disciplinary decisions, examination and testing, and other civil service issues.

Budget Snapshot

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

The City's 2025-2026 Proposed Budget returns the Fire and Police Exams unit from the Seattle Department of Human Resources back to CIV, as had been the historical organization prior to 2002. This action will simplify the City's organizational structure so that CIV will be the sole department developing and administering entry-level and promotional civil service exams. This aligns the roles and responsibilities of CIV and authority of the Public Safety Civil Service Commission. Otherwise, CIV will maintain its core services at its current levels, as required by City Charter, municipal code, and State law.

The 2025-2026 Proposed Budget makes technical adjustments to the CIV budget including an annual wage increase for staff and increased costs for internal central services.

Total 2025 Proposed Budget	\$2,505,942	9.00

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$89,524

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(22,608)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Civil Service Commissions

Proposed Operating

Transfer Fire & Police Exams Unit from SDHR to CIV

Expenditures	\$1,503,117
Position Allocation	6.00

This item transfers 6 full-time positions and the associated budget in SDHR's Fire and Police Exams Unit including one Manager 2, General Govt, three Personnel Analyst, Sr, and two Personnel Analysts to CIV. This transfer aligns the core duties of the department to develop and administer entry-level and promotional civil service exams with their direct management of the Fire and Police Exams Unit. CIV will have direct management of the staff in the unit and reduce the interdepartmental coordination needed with SDHR by transferring the unit. This change is designed to increase quality and efficiency in the police examination and application process while maintaining accountability.

Space Modifications

Expenditures	\$60,200
--------------	----------

This item appropriates one-time funding of \$60,200 for necessary modifications to CIV's office space to accommodate the addition of 6.0 FTE being transferred from SDHR to CIV.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures	\$(5,825)
--------------	-----------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Office of Economic and Revenue Forecasts

Jan Duras, Interim Director

(206) 390-1567

<http://www.seattle.gov/economic-and-revenue-forecasts>

Department Overview

In July 2021 via Council Bill 120124, the City Council created the Office of Economic and Revenue Forecasts. The office's responsibilities, as stated in the legislation, are to staff the Economic and Revenue Forecast Council, perform economic and revenue forecasts, conduct special studies at the request of the Forecast Council and provide ad hoc analytical support on economic and revenue estimation for legislative and executive staff consistent with the work program. Such analyses are to be nonpartisan and confidential to the extent allowed by law.

The legislation also established the Economic and Revenue Forecast Council which shall receive and review the general forecasts of local economic activity and the specific forecasts of the revenues that support the City's general government programs and services. The forecasts approved by the Forecast Council by the Director of the Office of Economic and Revenue Forecasts are the official city economic and revenue forecasts and shall serve as the basis for the estimates of revenues used for the Proposed and Adopted budgets as described in RCW 35.32A.030 and 35.32A.040, provided that the Mayor or Council shall have the authority to deviate from the official forecasts as provided in Section 3.44.010. The Forecast Council shall be composed of the Mayor or designee, the Director of Finance, the Council President or designee, and the Chair of the City Council Finance Committee or designee. If the Council President and the Chair of the Council Finance Committee are the same individual, the position held by the Chair of the Council Finance Committee shall be determined by the Council President. The Forecast Council shall select one member to serve as Chair of the Forecast Council annually.

Budget Overview

The 2025-2026 Proposed Budget for the Office of Economic and Revenue Forecasts (OERF) fluctuates year-to-year due to the renewal cycle of its forecast data subscriptions and grows with the associated inflationary effects on its services, wages, and central costs. Accordingly, the Proposed Budget decreases 10.3% in 2025 and increases 21.6% in 2026.

Total Incremental Changes	\$(86,593)	-
Total 2025 Proposed Budget	\$749,118	3.00

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$57,470

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Biennial Reduction in Forecast Data Subscription Renewal

Expenditures \$(125,100)

On a biannual cycle, the Office of Economic and Revenue Forecasts (ERF) maintains data subscriptions for use in forecasting the economy and City revenues. This item reduces appropriations \$125,000 in 2025 as the "off-year" in the renewal cycle. This amount is again included in ERF's 2026 Proposed budget.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(18,106)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Office of Economic and Revenue Forecasts

Proposed Operating

Final Adjustments for Standard Cost Changes

Expenditures \$(857)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Office of the Employee Ombud

Amarah Khan, Director

(206) 256-5982

<https://www.seattle.gov/ombud>

Department Overview

In 2018 Executive Order 2018-04 created the **Office of Employee Ombud (OEO)** following the recommendations issued by the Anti-Harassment Inter-departmental Team on improving the City's workplace culture. The OEO's mission is to support City employees in all branches of City government in assessing their concerns regarding workplace conduct that may be considered inappropriate; may constitute harassment, discrimination, or retaliation; and/or is in conflict with the City's Personnel Rules, Citywide workplace expectations, and other City policies.

The OEO provides assistance to City employees through a variety of means including conflict management and resolution; clarifying the City's processes and systems for reporting and investigations; facilitating discussions to break down miscommunication; providing the contact for represented employees' unions; and understanding what remedies are available through State or Federal agencies. The OEO also supports employees with referrals to the City's contracted Employees Assistance Program (EAP) for appropriate emotional assistance.

The OEO offers trainings and capacity building to City departments so that practices and behaviors that cause conflict among us can be addressed in a proactive manner. The OEO submits an annual report to the Mayor's Office and City Council that addresses issues extending beyond the experiences of individual employees. The report includes recommendations to clarify the City's Personnel Rules, complaint and investigations systems or trainings, and share information on patterns of inappropriate workplace conduct at the City.

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office of Employee Ombud (OEO). The department will maintain full staffing levels and will continue the current levels of support to the City of Seattle employees, including conflict management.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. OEO will readjust expenditures in their lease space costs, to reflect current expenses for the office space.

Office of the Employee Ombud

Incremental Budget Changes

Office of the Employee Ombud

Total 2025 Proposed Budget	\$1,234,561	6.00

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$121,534

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(38,984)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Align Lease Cost

Expenditures \$(41,000)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces appropriation authority by \$41,000 in the Office of Employee Ombud Budget Control Level (BO-EM-V10MB). This item reduces the budgeted amount for lease costs to align with the current expenditures for the office space for the Office of Employee Ombud.

Office of the Employee Ombud

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$38,795

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Employees' Retirement System

Jeff Davis, Executive Director

(206) 386-1293

<http://www.seattle.gov/retirement/>

Department Overview

The Seattle City Employees' Retirement System has two major functions: administration of retirement benefits and management of the assets of the Retirement Fund. Employee and employer contributions, as well as investment earnings, provide funding for the system. Approximately 9,800 active employee members, 3,600 terminated employee members and 7,700 retired employee members participate in the plan.

The provisions of the plan are set forth in [Chapter 4.36](#) of the Seattle Municipal Code. The plan is a "defined benefit plan" which means an employee's salary, years of service, and age at the time of retirement are used to determine the amount of retirement benefits. At retirement, members are given a choice of several payment options to collect their retirement benefit. The Retirement System is led by a seven-member Board of Administration and an Executive Director appointed by the Board.

Beginning in 2025, SCERS will also manage the City's Deferred Compensation Program, previously administered by the Seattle Department of Human Resources.

Please note that the appropriations detailed in the following tables reflect only the costs to administer the two benefit systems and do not reflect payment of benefits or investment management fees.

Budget Overview

The Seattle City Employees' Retirement System (SCERS) relies on the long-term health of its assets to sustain its long-term financial obligations to SCERS members. The long-term health of SCERS is measured by the annual January 1 funding status, a percentage that represents the value of the asset portfolio over the reserves needed to pay retirement benefits to employees.

Employees' Retirement System

As of January 1, 2024, SCERS net assets are valued at \$4.0 billion with a 75.8% funded status. This is an increase from 75.7% in 2023. SCERS funding status has generally increased steadily since 2010 due to changes SCERS has made to positively impact the funding status over the long-term.

Annual Contributions: The plan's actuaries determine an "annual required contribution" (ARC) into SCERS so its assets grow in tandem with pension costs, which rise as new employees join SCERS, wages increase, and retirees live longer. In 2023 SCERS and the City enhanced the plan by revising its ARC calculation so SCERS will be fully funded after a fixed 30-year period beginning January 1, 2013 and ending January 1, 2043. The annual required contribution is composed of two parts: employee contributions, which are established by the City's labor agreements, and employer contributions. Employer contribution amounts are reflected in departmental budgets throughout the 2025 Proposed Budget.

Investment Return Assumption: In January 2014, SCERS decreased its long-term investment return assumption from 7.75% to 7.50% in anticipation of slower asset growth over the next 30 years. In January 2020, SCERS decreased this assumption to 7.25% and in January 2023, SCERS decreased the assumption further to 6.75%. This assumption raised the ARC so the plan relies more on employee and employer contributions that are based on salaries, which are less volatile than the investment returns affected by portfolio experience and the economy.

Asset Smoothing: SCERS implemented an asset smoothing policy in 2011 to protect the funded status from volatile year-to-year swings by recognizing annual investment return gains and losses evenly over five years. This policy results in gradual changes in the ARC so the City's contribution is more stable.

Pension Plan for New Employees Hired On or After January 1, 2017: The City began evaluating plan changes in 2012 to reduce the cost of the plan for employees and the City, thereby enhancing SCERS' fiscal stability over the long run, while still maintaining an adequate retirement benefit for employees. In 2016, the City and labor unions agreed, and Council approved, a new defined benefit plan (SCERS II) for new employees hired on or after January 1, 2017. SCERS II has a similar structure to the existing plan (SCERS I).

Under SCERS II, there is an estimated 3.8% combined savings for annual employer and employee contributions. Members of the new plan will contribute 7% of their salary toward their retirement benefit, compared to 10.03% under SCERS I. Given the lower contributions into the plan, the new SCERS II plan will provide a retirement benefit lower than the SCERS I plan, but consistent with the design of the current SCERS I plan. The SCERS II benefit will still provide City retirees with an adequate retirement income when combined with Social Security.

The 2025 Proposed Budget for the management of SCERS includes total appropriation increases of \$5,190,147. This increase consists of adjustments to bring the budget in line with the SCERS Board's approved 2025-2026 budget; a transfer of the management of the City's deferred compensation program from the Seattle Department of Human Resources (SDHR); and annual adjustments for internal City service costs and wage increases. The Board approved budget also addresses the need to upgrade SCERS's Pension Administration System.

Total 2025 Proposed Budget	\$15,984,716	33.50

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$852,900

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$364,734

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Employees' Retirement System

Proposed Operating

Decrease SCERS Administrative Baseline Budget to SCERS Board Approved Budget

Expenditures	\$(514,463)
Revenues	\$4,587,147

This item brings the 2025 Baseline budget into agreement with the 2025 budget approved by the SCERS Board.

SCERS Pension Administration System Upgrade

Expenditures	\$4,000,000
--------------	-------------

This item increases appropriation by \$4,000,000 to support an upgrade to SCERS's Pension Administration System. The current system version is no longer supported and the vendor will no longer offer hosting services. This is a project placeholder as SCERS completes its options analysis. There is not a "do nothing" option, leaving SCERS to either upgrade to the vendor's cloud based system or take over hosting services. Both options will be a 12 to 24 month implementation project. SCERS's Board of Administration approved a \$8.0 million project placeholder, spread evenly over 2025 and 2026.

2025 Deferred Compensation Baseline Budget

Expenditures	\$698,016
Revenues	\$698,016
Position Allocation	3.00

This item transfers the City's Deferred Compensation (DC) Program from SDHR to SCERS. SCERS and SDHR agree that there is a strong business case for this change. Aligning SCERS and the DC program creates opportunities for future business efficiencies, including in member communications, knowledge, and retirement processes. SCERS and the DC program are similar City benefits that focus on financial security for city employees, and both are important components of employees' overall retirement planning process.

Proposed Technical

Fund Balancing Adjustment

Revenues	\$43,249
----------	----------

This is a technical item to record a fund balancing entry for the Employees' Retirement Fund.

SCERS GASB 87 Net-Zero Change

Expenditures	-
--------------	---

GASB 87 was implemented in 2022 by the City of Seattle and changed the expense account coding of SCERS's office space rental expense from account 542010 to account 560100. This item corrects the account number for this expense with a net-zero effect on total budget.

Final Adjustments for Standard Cost Changes

Expenditures	\$(72,775)
--------------	------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Ethics and Elections Commission

Wayne Barnett, Executive Director

(206) 684-8500

<http://www.seattle.gov/ethics/>

Department Overview

The Seattle Ethics and Elections Commission (SEEC) helps foster public confidence in the integrity of Seattle city government by providing education, training, and enforcement of the City's Ethics Code, Whistleblower Code, and lobbying regulations. It also promotes informed elections through education, training, and enforcement of the City's Elections Code. With the passage of [Initiative 122](#) in November 2015, the Commission now administers and funds the Democracy Voucher Program.

The Commission's work on behalf of the City of Seattle centers around five main lines of business:

Ethics Code: The Commission conducts ethics training for all City of Seattle employees upon request and through the City's New Employee and New Supervisor Orientation programs. It also provides ethics training information for City employees via the City's intranet site. The Commission issues advisory opinions regarding interpretations of the Code of Ethics and also investigates and rules upon alleged violations of the Code. More than thirty years of formal advisory opinions are available on the Commission's website.

Whistleblower Code: The Commission helps to protect an employee's right to report improper governmental action and to be free from retaliation as a result of such reporting. The Commission either investigates allegations of improper governmental actions itself or refers allegations to the appropriate agency.

Elections Code: The Commission fulfills the public's mandate of full campaign disclosure by:

- training organizations required to report campaign contributions and expenditures in proper reporting procedures;
- auditing campaign reports;
- working with organizations to correct errors; and
- making all campaign finance information available to the public.

Since 1993, the Commission has made summary reports of campaign financing information available to the public, and since 1995, the Commission has published campaign financing information on its website. The Commission also produces a video voters' guide with King County and the Seattle Channel.

Lobbying Regulations: The Commission is charged with administering the City's lobbying regulations. The Commission collects and posts information so that residents know who is lobbying and how much is being spent on lobbying activities. The Commission also enforces compliance with the lobbying regulations.

Democracy Voucher Program: The Commission administers the Democracy Voucher Program which was approved with the passage of I-122 in November 2015. The program provides \$100 in vouchers to eligible Seattle residents so that they can contribute to candidates for City office who qualify to participate in the program.

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$201,819

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(29,877)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Ethics and Elections Commission

Democracy Voucher Revenue Adjustment

Revenues -

The Democracy Voucher Program began receiving funding in 2016 and the ten-year initiative was funded through 2025. This technical adjustment removes funding for 2026.

Proposed Operating

Final Adjustments for Standard Cost Changes

Expenditures \$(15,478)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Proposed Technical

Align Labor Budget with Actuals

Expenditures \$70,000

This item annualizes the 2024 Supplemental Budget provision of \$70,000 for Ethics and Elections Commission labor costs. This adjustment addresses shortfalls that were previously absorbed with vacancy savings and therefore never incorporated into the base budget, leading to year-end budget exceptions in both 2022 and 2023. This item aligns the budget with actual labor costs which have increased over the past several years due to reclassifications, raises, and higher-than-anticipated part-time labor costs.

Bi-Annual Election Year Technical Adjustment

Expenditures \$7,200,000

This bi-annual increase funds the Democracy Voucher Program for the 2025 election cycle. It provides a total of \$7.2 million in additional funding for candidate voucher payments. In 2025, the citywide races for Mayor, City Attorney and two Council positions will be on the ballot. This is one-time funding for 2025 only and is funded by existing and planned levy revenues.

Technical Adjustment to Annual Contribution to/Use of Fund Balance

Revenues \$7,260,042

This is a technical item to balance revenues and expenditures for the funds managed by this department.

Ethics and Elections Commission

Appropriations by Budget Summary Level and Program

ETH - BO-ET-V1T00 - Ethics and Elections

The purpose of the Ethics and Elections Budget Summary Level is to: 1) audit, investigate, and conduct hearings regarding non-compliance with, or violations of, Commission-administered ordinances; 2) advise all City officials and employees of their obligations under Commission-administered ordinances; and 3) publish and broadly distribute information about the City's ethical standards, City election campaigns, campaign financial disclosure statements, and lobbyist disclosure statements.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Ethics and Elections	1,329,232	1,303,105	1,469,527	1,544,691

Department Overview

Department of Finance and Administrative Services (FAS) Overview

The Department of Finance and Administrative Services (FAS) is often the public's first interaction with the City of Seattle, operating as a customer-focused front door that assists with everything from starting a business or paying utilities, to reporting a pothole, requesting public information, or even adopting a new pet. The department's 500-plus employees span across 10 divisions and work behind-the-scenes providing critical functions, like managing 120 City facilities including police and fire stations, overseeing the City's neighborhood customer service centers and Customer Service Bureau and making sure minority-owned businesses can equitably compete for City contracts.

Broadly, FAS' work can be split into three categories.

Customer Services

FAS oversees the City's Customer Service Bureau, the Downtown Customer Service Center and the six neighborhood customer service centers located throughout the city. Over the phone, online and in person, customers can get information, request services, pay bills, resolve problems, and voice opinions. The department also oversees the Find It, Fix It app, which operates similar to a 311 line for the City. In addition, FAS oversees the City's efforts to comply with Title II of the Americans with Disabilities Act. Finally, through the Seattle Animal Shelter, FAS advocates for animal welfare, reunites lost animals with their owners and finds suitable owners to adopt homeless animals.

Regulatory Services

FAS ensures that all businesses operating in Seattle are properly licensed and pay the required business and occupation taxes. FAS issues regulatory licenses for certain business types including taxis, transportation network companies and for-hire vehicles, adult entertainment venues, door-to-door salespeople, short-term rentals, recreational cannabis establishments and trade shows—and enforces requirements related to those licenses. FAS also monitors certain types of businesses to increase consumer safety and ensure proper charges for services. This includes setting rate caps for tows on private property, as well as ensuring that consumers are not overcharged due to an inaccurate device, such as a gas pump or a supermarket scanner or scale. FAS also enforces animal-related ordinances, including the investigation of animal cruelty, neglect, and abuse. As the central coordinator for City purchasing and contracting, FAS establishes policies and procedures to ensure fair competition for City-funded procurements and oversees programs to ensure everyone in the community has equitable access to compete for contracts and work on City-funded projects. These efforts include the Citywide women- and minority-owned business (WMBE) program, which works to support equitable access to city contracting opportunities for women- and BIPOC-owned businesses. FAS also administers the City's Priority Hire program to increase employment within the construction trades among women, people of color and those living in economically distressed ZIP codes.

Operational Services

FAS designs, builds and maintains many City-owned buildings, including Seattle City Hall, the Seattle Municipal Tower, the Justice Center, the Joint Training Facility, 33 neighborhood fire stations and five police stations. When departments need to acquire property or when the City no longer has a purpose for a property, FAS is responsible for managing the acquisition or disposition of the property. FAS also maintains the City's 4,000-vehicle fleet, which includes police patrol cars, fire engines and heavy equipment. FAS's budget is split into the following 10 divisions:

Public Facing Divisions

- **Consumer Protection** regulates 21 specific business types including short-term rentals, adult

Department of Finance and Administrative Services

entertainment, cannabis businesses, taxis, for-hire or TNC vehicles and others to protect consumers.

- **Customer Service** leads the City's 311 phone service and serves constituents through its Customer Service Bureau and neighborhood customer service centers.
- **Purchasing and Contracting** manages bids, public works and contracting needs. The division also supports the City's race and social justice initiative by expanding contracting equity for women- and minority-owned businesses and supporting labor equity on City construction projects.
- **Seattle Animal Shelter** promotes safety and animal welfare by enforcing animal laws, operating sheltering and adoption programs, managing a spay and neuter clinic and providing care and services for over 5,000 animals annually.

Internal Facing Divisions

- **Accounting and Budget Services** provides everything from budget oversight to financial planning for FAS, other small departments, and City executive offices to create transparent, understandable financial reports.
- **Capital Development** plans, designs, and builds City structures, facilities and workspaces in a manner that is fiscally responsible, environmentally sustainable and responsibly compliant with equal access for all.
- **Facility Operations** manages and maintains more than 120 public structures, including offices, parking garages, maintenance shops and police and fire stations.
- **Fleet Management** leads the procurement, maintenance and fueling for the City's 4,000-plus vehicle fleet, providing safe, cost-effective services and environmentally sustainable transportation for City employees.
- **Human Resources** partners with FAS' diverse group of divisions to support recruitment, hiring, compensation and classification, and performance management in a way that is equitable and fosters a respectful, collaborative, and safe work environment.
- **Real Estate and Planning Services** manages citywide real estate portfolio development. The team acquires, disposes of and leases real property for public purposes. The team also collaborates with City departments on real estate transactions and coordinates department emergency planning.

Across divisions, the **Directors Office** provides leadership and coordination and oversees policy and equity, the Americans with Disabilities Title II program and the public disclosure program.

Internal service operations in FAS are primarily supported through charges to other City departments and, in some cases such as when the city leases space, by private businesses or individuals. FAS also collects certain fees specifically to pay for its services, such as the Seattle Animal Shelter Spay and Neuter Clinic, pet licensing, the Weights and Measures program and for-hire driver licenses.

The Office of City Finance (OCF) Overview

The Office of City Finance (OCF) is an autonomous independent office within FAS. OCF is responsible for the financial operations of the City of Seattle. Working in partnership with the City's Budget Director, OCF oversees the City's financial control functions and enterprise reporting responsibilities. City Finance, which includes approximately 160 employees, manages enterprise-wide transaction programs and is comprised of the following divisions: Citywide Accounting and Payroll Services, Treasury Services, Risk Management and Claims Processing, License and Tax Administration, Business Systems, Debt Management and Policy and Partnerships. OCF also supports the City Council and its staff by providing financial information and technical expertise as they develop financial policies. The City Finance Director, a member of the Mayor's Cabinet, serves on the board of the City's retirement systems and is a voting member of the City's Economic and Revenue Forecast Council. Most of the work of OCF is funded by the FAS Operating Fund. The General Fund supports administration of the City's taxes and business licensing services.

The Office of City Finance divisions are as follows:

- **License and Tax Administration** manages the city's taxes, including Business & Occupation (B&O) and the Payroll Expense Tax, the city business licensing process and collects more than \$500 million in annual fees and taxes from 100,000 commercial enterprises doing business in the city.
- **Treasury Services** receives, processes, reconciles, and distributes the City's funds. Treasury also collects debts and monitors cash flow to ensure City operations, like utilities and payroll, are funded. They are the

Department of Finance and Administrative Services

legal stewards of the City's cash assets.

- **Business Systems** manages Citywide business processes and software to support financial activities across the organization, including PeopleSoft and Workday, as well as across multiple jurisdictions in Western Washington.
- **Citywide Accounting and Payroll** prepares the City's Annual Comprehensive Financial Report and other reports required by the State and Federal government to facilitate transparency in the City's 420,000 plus annual transactions. The division also implements standard accounting practices and manages all payroll.
- **Risk Management** reviews City contracts to specify appropriate insurance levels, advises City departments on how to reduce or avoid loss, adjusts claims for damages filed and administers all City insurance policies and the City's self-insurance program.

Organizational Structure

In addition to the central FAS services mentioned above there are several budgetary units across the City for which FAS is not directly responsible for staffing or service provision but are housed within the FAS budget. For these areas FAS works with the City Budget Office to facilitate resource requests and financial plans when required. Those units are:

- **Judgment and Claims**, which provides for the payment of legal claims and suits brought against the City government and is now part of the Office of City Finance.
- **Jail Services**, which provides for the booking, housing, transporting, and guarding of City inmates who are adults charged with or convicted of misdemeanor crimes alleged to have been committed within city limits.
- **Indigent Defense Services**, which secures legal defense services, as required by state law, for indigent people facing criminal charges in Seattle Municipal Court.
- **Transit Benefits**, which pays for the transit benefits offered to City employees and is part of the Office of City Finance

Department of Finance and Administrative Services

Budget Overview

As an internal services department, the Department of Finance and Administrative Services (FAS) supports all City departments through its fleets, facilities, customer service, finance, contracting and purchasing functions. FAS bills many of its functions to other City departments through central rates and allocations. FAS also performs general government functions, like business licensing and tax collection, consumer protection, parking meter collections, and operation of the Seattle Animal Shelter, which are funded directly in the General Fund. The Office of City Finance (OCF) is included in the FAS budget but acts as an independent office within FAS and reports up a separate chain of management.

The City's 2025-2026 Proposed Budget maintains core services for the Department of Finance and Administrative Services. The department will continue to invest in its core divisions including Fleet Maintenance and Capital Replacement, Facilities Operations and Maintenance, Purchasing and Contracting, Customer Service, Accounting and Budget Services, Consumer Protection Regulatory Programs, and the Seattle Animal Shelter. The proposed budget also adds two new positions and temporary program support for the licensing and enforcement of the Network Company labor standards for app-based workers (Ordinance 126953).

In capital investments, FAS's Proposed 2025-30 Capital Improvement Program (CIP) includes new funding for critical asset preservation projects within the City's downtown core and projects at facilities across the city. Funding will support capital needs at the Seattle Municipal Tower, City Hall Plaza, Seattle Animal Shelter, and various facilities supporting emergency response citywide. The proposed CIP also adds funding to the Waterfront Operations and Tribal Interpretive Center project at the Bakun Building, which was purchased in 2023 to be the waterfront operations office and provide a cultural space for the Muckleshoot Indian Tribe. For more information, see the Department of Finance and Administrative Services 2025-30 Proposed Capital Improvement Program (CIP).

The Office of City Finance will continue investments in License and Tax Administration, Risk Management, Treasury Services, and provide centralized Accounting and Payroll services. The investment of five additional positions and funding in OCF's Business Systems Division will support the City's transition to Workday, the new human resources management system and provide permanent system and user support post implementation.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified in some departments to mitigate this shortfall in revenues. To help alleviate pressure on the General Fund, the budget also makes reductions in department specific operating funds. To preserve critical City services due to the deficit, General Fund and FAS operating fund adjustments were made in the following areas of FAS's 2025-26 Proposed Budget:

Department of Finance and Administrative Services

The proposed budget includes operations reductions across several FAS divisions to align with available resources. These reductions include changes to Accounting and Budget Services, Facility Operations, Real Estate and Planning Services, Fleet Maintenance and Capital Replacement, and Purchasing and Contracting. Some labor reductions were taken by removing vacant positions to reflect current staffing levels and reclassing positions to reflect evolving business needs. Other labor reductions were made possible by redistributing workload and may reduce capacity for centralized services and support to other city departments. The budget includes reducing 5 positions in FAS.

FAS also made non-labor budget adjustments including reducing funding for professional services contracts, community organization contracts, staff training, paper and other supplies. The proposed budget includes a temporary pause on investments made into the City's electric vehicle capital replacement program and the sale of underutilized fleet equipment. Revenue adjustments in the proposed budget adjust fees at city-owned parking facilities and various fees at the Seattle Animal Shelter to support program cost recovery.

Office of City Finance:

The proposed budget includes operational reductions across several OCF divisions to align with available resources. Some labor reductions were taken by removing vacant positions to reflect current staffing levels. Other labor

Department of Finance and Administrative Services

reductions were made possible by redistributing workload and reevaluating business processes to create efficiencies. OCF also made budget adjustments based on efficiencies achieved in its non-labor expenses that will have minimal impact on operations including reducing systems licensing costs and refining contract commitments based on current needs. The budget includes reducing 22 positions in OCF.

Other Budgetary Issues

Addressing Extraordinary Civil Litigation Expenses

Costs to the City associated with civil claims and litigation have risen in response to a nationwide trend of increasingly expensive settlements and judgments. At the same time, a handful of extraordinary claims and lawsuits involving the City is expected to lead to high one-time expenses in 2025 and 2026. The 2025 Proposed Budget reflects the need to meet these higher expenses.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$(222,075)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Correcting baseline appropriations to Judgment and Claims

Expenditures \$(7,906,796)

Revenues \$(7,906,796)

This item corrects the baseline budget for Judgment and Claims by removing one-time appropriations of \$7,906,796.

2025 Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$3,403,748

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments revised, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2026 Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures -

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments revised, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Fleet Replacement Adjustments

Expenditures \$(6,971,618)

This item decreases appropriation authority in the Fleet Capital Fund to reflect the anticipated lower volume of vehicle replacements.

Department of Finance and Administrative Services

Reversal of One-Time Items

Expenditures	\$(3,835,680)
Revenues	\$(11,502,039)

This technical adjustment impacts various categories, accounts and programs across the Department of Finance & Administrative Services. This item reverses one-time 2024 appropriations from the 2025 Endorsed Budget for Accela system modifications needed due to regulatory program changes, Wheelchair Accessible Fund expenses for the new dispatch system, Social Housing PDA start-up costs, and other one-time expenditures.

Central Costs Alignment

Expenditures	\$1,077,006
--------------	-------------

This item makes adjustments to reflect increases in centrally allocated costs including workers compensation claims, healthcare premiums, and ITD and SDHR allocations.

Increased Utility Rates

Expenditures	\$225,490
--------------	-----------

This item increases appropriation to reflect increased utility costs across the Department of Finance & Administrative Services.

Baseline Revenue

Revenues	\$7,103,375
----------	-------------

This item reflects adjustments to the Department of Finance & Administrative Services (FAS)'s rate revenue and external revenues resulting from FAS' baseline cost adjustments.

Proposed Operating

Pause Premiums for Electric Vehicle Replacement

Revenues	\$(2,090,433)
----------	---------------

This item decreases rate revenue by \$2.1 million in FAS's Fleet Capital Program. This item temporarily reduces rates paid by other city departments by removing the premium added to vehicle replacement rates that allows fossil fuel powered vehicles to be replaced with electric equivalents. FAS will continue to purchase electric vehicles according to the fleet replacement schedule using the Fleet Capital Fund balance already collected. FAS will resume collecting premiums in 2027 with an additional increase to over four years to account for the pause.

Consumer Protection Division Adjustments

Expenditures	\$(221,473)
Position Allocation	(1.00)

This item removes the Deputy Division Director position from the Consumer Protection Division (CPD) and decreases the budget accordingly. This position has been unfilled since March of 2023 and CPD has adjusted its organizational structure to accommodate staffing needs.

Department of Finance and Administrative Services

Network Company Licensing Implementation

Expenditures	\$488,554
Position Allocation	2.00

This item creates two full-time positions and increases appropriation authority by \$488,553 in 2025 and \$304,397 in 2026 in the Consumer Protection Division. The positions include a new 1.0 FTE Licensing and Standards Inspector (LSI) position and a new 1.0 FTE Customer Service Representative (CSR) to execute additional licensing, customer service and enforcement resources required to implement the Network Company ordinance and meet the legislative and policy intent outlined in Ordinance 126953 (2023).

These positions will be funded by network company licensing fees in future years as part of the cost of maintaining the service. This request also includes continuation of the temporary consultant support for half of 2025 to assist with data mapping and bridging the gap between the IT developer and program needs.

Real Estate and Planning Services Reductions

Expenditures	\$(185,742)
--------------	-------------

This item decreases appropriation in the Department of Finance and Administrative Services Real Estate and Planning Services (REPS) Division to align budget with current staffing costs. This item also includes a reduction to the professional services budget.

Central Costs Inflation

Expenditures	\$744,430
--------------	-----------

This item increases appropriation in the Department of Finance & Administrative Services to reflect anticipated inflation of central services costs.

Purchasing and Contracting Division Adjustments

Expenditures	\$(122,333)
Revenues	\$300,000
Position Allocation	(1.00)

This item reduces staffing by one full-time administrative support position and decreases budget accordingly. This item aligns staffing levels with available resources and redistribute this body of work among remaining staff. In addition to the position change, this item recognizes \$300,000 in revenues from increased rebate revenues.

Realign Resources in Public Works Contracting

Expenditures	\$(167,311)
Position Allocation	(1.00)

This item reduces staffing by one full-time Assistant Capital Projects Coordinator position in the City Public Works contracting program and reduces the corresponding budget. This proposal would align staffing levels with available resources and redistribute this body of work among remaining staff.

Priority Hire Program Adjustments

Expenditures	\$(495,000)
--------------	-------------

Department of Finance and Administrative Services

This item aligns funding across several Priority Hire programs with available resources. The adjustments include reducing contract support for the Labor Equity Program by 34% and the Construction Training and Clean Energy Jobs program by 24%. This reduction impacts community organizations supporting underrepresented groups in construction that provide job training and placement services.

Systems Development Support and Various Non-Labor Adjustments

Expenditures	\$(506,555)
--------------	-------------

This item aligns budget with available resources across FAS divisions and impacts staff training, supplies, certification, compliance, hardware, software and consultant dollars for periodic audits.

Adjustments in Various Centralized Operations

Expenditures	\$(71,000)
Revenues	\$600,000

This item decreases the budget for citywide paper costs and anticipates one-time revenues of \$600,000 from the sale of underutilized fleet equipment. This proposal limits the amount of paper FAS purchases and distributes to City departments to encourage use of digital platforms, reduce paper waste, and reduce costs related to storage and transport. This proposal includes selling two pieces of large fleet equipment no longer meeting operational needs.

Support Services Adjustments

Expenditures	\$(439,717)
--------------	-------------

This item aligns budget with available resources across FAS support services and discontinues funding for one position and reduces support for FAS policy efforts, the ADA program and the Public Disclosure Request (PDR) program. There is minimal impact expected from this proposal as the body of work has been absorbed by other staff and the remaining support funding is adequate for meeting program needs.

Capital Development Operational Adjustments

Expenditures	\$(117,819)
Position Allocation	(1.00)

This item reduces Capital Development staffing by one full-time administrative support position, reclassifies one executive position to a Painter Crew Chief, and decreases budget to align with these changes. This item aligns staffing with operational needs and available resources across multiple divisions.

Operations Strategic Support Adjustments

Expenditures	\$(216,143)
Position Allocation	(1.00)

This item reduces staffing by one full-time position providing operations strategic support across multiple divisions in the Department of Finance and Administrative Services (FAS) and decreases the budget to align with this change. The position has been vacant since December 2023 and the workload has been redistributed amongst existing staff.

City Light Rebates for the Municipal Energy Efficiency Project

Expenditures	\$413,973
--------------	-----------

This item increases General Fund appropriation to FAS for the Municipal Energy Efficiency Program (MEEP). These appropriations are backed by Seattle City Light rebates claimed by projects funded through MEEP. City Light rebates are deposited in the General Fund with the intention that these resources be used to support additional energy

Department of Finance and Administrative Services

retrofits in City facilities.

Treasury Services Staffing Alignment

Expenditures	\$(378,573)
Position Allocation	(2.00)

This item reduces staffing by two full-time positions in Treasury Services and decreases budget accordingly in alignment with available resources. The positions are vacant, and the body of work has been redistributed amongst remaining staff.

Remittance Processing Process Update

Expenditures	\$(479,943)
Position Allocation	(5.00)

This item eliminates manual remittance processing of incoming checks and payments to the city, reduces staffing by five full-time positions, and reduces budget accordingly in Treasury Services. Remittance processing will be contracted out to a financial services provider at a lower cost and greater efficiency.

Treasury Cashier Staffing Adjustments

Expenditures	\$(436,696)
Position Allocation	(3.00)

This item reduces staffing by three full-time Treasury Cashier positions and decreases the budget accordingly. Treasury Services conducted efficiency work in 2023 to streamline work processes, allowing the staffing adjustments.

Business Systems Staffing Alignment

Expenditures	\$(205,436)
Revenues	\$(179,549)
Position Allocation	(1.00)

This item reduces staffing by one full-time position in the Department of Finance and Administrative Services Business Systems Division supporting FileLocal. This position is vacant and it has been determined that this level of service is no longer required for the body of work.

Citywide Accounting and Payroll Staffing Alignment

Expenditures	\$(429,038)
Position Allocation	(3.00)

This item reduces staffing by three full-time positions in Citywide Accounting and Payroll and decreases budget accordingly in alignment with available resources. The positions are vacant, and the body of work has been redistributed amongst remaining staff.

Remove Sunsetting Coronavirus Local Relief Fund (CLFR) Support Position

Position Allocation	(1.00)
---------------------	--------

This item removes one full-time position in the Department of Finance and Administrative Services Citywide

Department of Finance and Administrative Services

Accounting supporting Coronavirus Local Relief Fund (CLFR) reporting. This is a CLFR-funded position scheduled to sunset 12/31/2024, so there is no budgetary impact.

License & Tax Administration Staffing Alignment

Expenditures	\$(360,432)
Position Allocation	(3.00)

This item reduces staffing by three full-time positions in the Department of Finance and Administrative Services License and Tax Administration Division and decreases the budget accordingly in alignment with available resources. The positions are vacant, and the body of work has been redistributed amongst remaining staff.

License & Tax Administration Staffing Adjustment

Expenditures	\$(177,424)
Position Allocation	(1.00)

This item reduces staffing by one full-time position in the Department of Finance and Administrative Services License & Tax Administration Division and decreases budget accordingly. The Education and Communications Advisor role was originally formed several years ago when the City implemented new taxes, including the Payroll Expense Tax. The peak workload from the implementation of these taxes is now completed and this level of service is no longer needed. Any remaining workload can be absorbed by existing staff.

Licensing Costs Reduction

Expenditures	\$(7,300)
--------------	-----------

This item decreases the budget for the claims management system licensing costs in alignment with reduced staffing in claims processing and limits on licenses to other departments.

Risk Management Staffing Adjustments

Expenditures	\$(404,957)
Position Allocation	(2.50)

This item reduces staffing by two full-time positions and one part-time position in the Department of Finance and Administrative Services Risk Management Division and decreases the budget accordingly in alignment with available resources. Risk Management currently has a staff of nine and the body of work will be redistributed amongst remaining staff.

Staffing for Ongoing Workday System Support

Expenditures	-
Position Allocation	5.00

This item makes five emergency positions approved in 2024 become permanent starting 2025 and increases appropriation authority by \$1,572,000 in 2026 in the Department of Finance and Administrative Services Business Systems Division. In 2025, the position costs will be covered by the CIP project. This item provides ongoing operations and maintenance support post-implementation for the City's new human resources management system, Workday.

Automatic Data Processing (ADP) Contract Costs Reduction

Expenditures	\$(300,000)
--------------	-------------

Department of Finance and Administrative Services

This item decreases appropriation authority by \$300,000 in 2025 and 2026 in the Department of Finance and Administrative Services to align to the reduced ADP contract commitment as certain functions are transitioned to the new human resources management system.

Tax System Improvements Budget Adjustment

Expenditures	\$(200,000)
--------------	-------------

This item decreases appropriation authority by \$200,000 in 2025 in the Department of Finance and Administrative Services. This item is a one-time reduction of the non-labor budget intended for migrating tax data from a legacy system to a new system. This reduction will be offset by available CIP funding and there are no anticipated operational impacts.

Business Improvement Areas (BIA) Technology Support

Expenditures	\$500,000
--------------	-----------

This one-time item adds \$500,000 in both 2025 and 2026 to support technology costs to transition BIA assessments from a legacy software system to the department's modern system. Additionally, this item supports BIA technology adjustments to better fit the needs of BIA customers.

Transit Benefit Fund Adjustments

Expenditures	\$192,273
Revenues	\$192,273

This item increases appropriation authority in the Finance & Administrative Services Department's Transit Benefit Fund to reflect new employee transit use trends given the city's hybrid work policy. It also defines funding needed to continue the Vanpool and Washington State Ferry 100% subsidy and allocates funding for transit pass administration integration necessitated by the citywide Workday transition.

Jail Services Contract Increase

Expenditures	\$1,922,379
--------------	-------------

The City has a long-term inter-local agreement (ILA) with King County to provide jail services for the City's misdemeanants through 2030. The ILA provides that a new base rate is calculated every five years and given booking restrictions related to COVID-19, the reset for 2022 was delayed. During negotiations with King County, the reset parameters and lifting of booking restrictions with a bed floor average daily population (ADP) from 195 down to 135 was agreed upon for 2025 and 2026. An increase of \$1.9 million in 2025 and \$2.7 million in 2026 provide for this reset and the annual inflators to cover the City's contract obligation.

Public Defense Contract Increase

Expenditures	\$504,107
--------------	-----------

The City has an inter-local agreement (ILA) with King County to provide for indigent defense services for the City's misdemeanants. The current ILA is through 2027 with an extension provision allowing for mutual agreement of an additional five years (through 2032). This item increases appropriation public defense services due to anticipated inflation as per the ILA.

SCORE Inter-local Agreement for Jail Services

Expenditures	\$2,839,550
--------------	-------------

In 2024, the City Council approved the Executive to execute an inter-local agreement (ILA) with South Correctional

Department of Finance and Administrative Services

Entity (SCORE) for the provision of jail services. A pilot program is expected to begin in 2025 once clear policies and procedures are developed. Generally, SCORE will be used for misdemeanants arrested for offenses that fall outside of the current King County jail booking restrictions and are medically cleared. This appropriation amount assumes the use of 20 beds for an average daily population for 2025 and 2026.

Increasing appropriation to Judgment and Claims

Expenditures	\$4,288,410
Revenues	\$4,288,410

This item increases appropriation to Judgment and Claims by \$4,288,410 in 2025 and \$8,119,835 in 2026 to reflect expectations of the long run cost trend.

One-time appropriation to Judgment and Claims to cover excess risks

Expenditures	\$14,100,000
Revenues	\$14,100,000

Per Resolution 31847, budget appropriation for the Judgment and Claims Fund must be set at the 90% confidence level of meeting actual expenditures as estimated by the City's actuaries every year. This item adds a one-time appropriation of \$14,100,000 to Judgment and Claims to achieve the 90% confidence level for 2025. Recent actuarial estimates have been driven to a new high by the extraordinary and growing expenses the fund has incurred since 2021 but are expected to moderate in the next few years.

Animal Shelter Fee Adjustments

Revenues	\$150,000
----------	-----------

This item anticipates increased revenues of approximately \$150,000 by raising licensing and veterinary fees to help recover costs for Seattle Animal Shelter (SAS) services. SAS last increased license fees in 2019 and veterinary fees in 2018. These increases make the fees comparable to other local options for the services. SAS retains the ability to waive fees for community members in need.

Increase Parking Revenues

Revenues	\$600,000
----------	-----------

This item anticipates increased revenues of \$600,000 by raising parking rates at the Seattle Municipal Tower (SMT) and SeaPark garages. The rates would be adjusted in several ways to bring rates closer to area market and industry standards. The adjustments include the following:

- Increase hourly rates by 25% in all hourly rate schedules including the current evening parking rates.
- Implement a special event parking rate to attract stadium parkers for events hosted at T-Mobile Park and Century Link Fields.
- Implement a Friday 'Early Bird' Parking Special \$15.00 to attract drivers from other facilities.
- Increase monthly parking rates by 25% for reserved parking.

Regulatory Fee Increase for Recycling Licenses

Revenues	\$59,400
----------	----------

This item anticipates increased revenues of approximately \$59,000 by increasing the annual regulatory fee to license companies that collect and process recyclable materials from \$105 to \$500. This adjustment aligns the licensing fees with the cost of regulating recycling businesses and ensuring they are collecting, processing, disposing, or recycling solid waste as appropriate by law. The fee was established in 2006 and has not been raised since.

Department of Finance and Administrative Services

False Alarm Fee Revenue Changes

Revenues \$(1,000,000)

This item reduces false alarm fee revenues by \$1,000,000 due to a change in the types of false alarms the Seattle Police Department will respond to.

Proposed Capital

Funding Asset Preservation Projects in Downtown

Expenditures \$1,500,000

This item increases appropriation for the Department of Finance and Administrative Services fund and adds Real Estate Excise Tax (REET) funding to address two critical projects in city-owned facilities in the downtown core: \$1.5 million to replace the Seattle Municipal Tower (SMT) water pump and \$3.5 million to replace the SeaPark parking garage elevators.

The water pump allows water to be available above the 16th floor of SMT and is needed for both sprinkler and fire hose operations as well as basic access to water for tenants. The current pump has been in place for over 30 years and is at the end of life. A failure of the pump would leave the building unoccupiable. The SeaPark elevators are 10 years past their end of life, and the failure of the elevators would make the parking garage inaccessible and would lead to costly emergency repairs.

Funding Asset Preservation Projects Citywide

Expenditures \$2,200,000

This item adds Real Estate Excise Tax (REET) funding to address critical roof replacement needs at city-owned and operated facilities outside of the downtown core. This funding supports replacing critical city facility roofs. At more than 20 years old, each of these roofs have leaked in the recent past, causing damage to the buildings and the equipment within. These buildings support critical City services, including emergency response capabilities.

Installation of Waterproof Membrane at City Hall Plaza

Expenditures -

This item creates a new CIP Project: City Hall Plaza in the Department of Finance and Administrative Services. This project will be Limited Tax General Obligation (LTGO) bond financed for \$15 million to install a waterproof membrane below City Hall Plaza and permanently repair the ongoing leaking issue. The debt service will be paid with REET revenues.

The City Hall Plaza functions as a roof for the lower-level lobby and includes the Boards and Commissions conference room, archives, and utility areas. When it rains, there are significant water leaks causing damage to building systems and the building structure. These leaks disrupt the use of the lower-level lobby as a severe weather shelter and have caused the electrical gear providing power to several building systems to fail. In 2022 and 2023, FAS spent about \$200K in repairs due to these leaks. This repair is designed, permitted and ready for construction. Delay of this project potentially results in increased costs to implement and rising ongoing repair costs.

City Hall Plaza Debt Service

Expenditures -

Department of Finance and Administrative Services

This item creates a new CIP Project: City Hall Plaza Debt Service in the Department of Finance and Administrative Services. This project will fund \$3.7 million for debt service related to the City Hall Plaza project.

Waterfront Operations and Tribal Interpretive Center Adjustments

Expenditures \$4,454,521

This item amends CIP Project: Waterfront Operations and Tribal Interpretive Center in the Department of Finance and Administrative Services to increase appropriation by \$4.226 million, financed by Limited Tax General Obligation (LTGO) bonds. Total appropriation also supports the anticipated debt service payment.

The Bakun Building was purchased in 2023 to be the waterfront operations office and provide a cultural space for the Muckleshoot Indian Tribe. The funds remaining after purchase do not support a design that would serve both the Seattle Center, responsible for operations of the Waterfront, and the Muckleshoot Indian Tribe's respective needs. The additional funding will address substantial alterations that are necessary for building occupancy.

The project is intended to provide dedicated space to house the staff for on-going maintenance and operations for Waterfront Park. The project also fulfills the City's permitting commitments to the Muckleshoot Tribe for construction of the Elliot Bay Seawall to provide 10,000 square feet in a building along the Waterfront for a Tribal Interpretive Center rent free in perpetuity. The Tribe has indicated that this project could fulfill the conditions of the permit agreement.

Workday Human Capital Management System Adjustments

Expenditures \$(21,756,895)

This item decreases 2025 bonding costs for the Workday Human Capital Management System project in the Department of Finance and Administrative Services. Due to project timing, bonding costs have shifted from 2025 to 2024, and the overall amount of bonding needed has been reduced. The project is currently estimated to cost \$50.2 million, which is \$10.8 million under the previous total project cost estimate.

The City is transitioning to the new human resources management system, Workday. Implementation of the Workday project is being conducted in multiple phases. The first phase is the initial rollout of Workday in 2024, allowing for the City to move from the existing HRIS platform. The second phase of the implementation will begin after Workday is opened to users, and open enrollment and payroll fiscal year-end work is complete.

Seattle Animal Shelter Electrical System Improvements

Expenditures \$857,646

This item adds \$858,000 in Real Estate Excise Tax (REET) funding to support facility electrical improvements at the Seattle Animal Shelter. The funding will be used to address ongoing electrical problems at the facility that have disrupted shelter operations, including medical procedures and other veterinary services.

Municipal Energy Electrification Program (MEEP)

Expenditures \$1,461,688

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item uses payroll tax funding to fund projects associated with the Municipal Energy Electrification Program.

For the Department of Finance and Administrative Services, this funding supports a variety of projects across the City's facilities. This funding includes \$1.5 million in spending for 2025 and 2026. For 2025, it also includes \$351,688 to reimburse the program for Seattle City Light rebates claimed by MEEP projects since 2018 and deposited to the General Fund. For more information, see Proposed 2025-2030 Capital Improvement Program.

Department of Finance and Administrative Services

Proposed Technical

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures	\$576,758
--------------	-----------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and Local 77 bargaining units, for personnel costs included in this department's budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Bonds Cost of Issuance Update

Expenditures	\$1,350,000
--------------	-------------

This item is a technical adjustment to update Cost of Issuance for Refunding the 2014 and 2015 UTGO Bonds.

Capital Improvement Program (CIP) Baseline Adjustments

Expenditures	\$1,282,857
Revenues	\$1,200,000

This item makes baseline and technical adjustments to several Budget Control Levels in the Department of Finance and Administrative Services' Capital Improvement Program (CIP).

1. Transfer 2025 and 2026 budget appropriation in completed project Fire Station 31 Improvements (MC-FA-FS31IMP) to the Seattle Animal Shelter Facilities project (MC-FA-SASFAC).
2. Add 2030 budget appropriation to the two ongoing Asset Preservation programs MC-FA-APSCH1FAC and MC-FA-APSCH2FAC.
3. Add reimbursable appropriation to the two ongoing FAS Project Delivery Services programs (\$1.2 million annually to MC-FA-CTYPDS for 2025 through 2030 and \$3.5 million annually to MC-FA-FASPDS for 2028 through 2030).
4. Align the Fire Station 31 Replacement (MC-FA-FS31) appropriation with the 2024 bond issuance in (\$19.509 million) by moving \$6.5 million of appropriation to 2025.
5. Move \$4.019 million of bond appropriation from 2024 to 2025 for the Human Capital Management (MC-FA-HCMSYS) project.
6. move \$12.0 million of 2025 bond appropriation to 2026 (\$7.0 million) and 2027 (\$5 million) for the Electrical Infrastructure Upgrades project (MC-FA-ELECTINFRA) to align with the spend plan.
7. In 2025, reinstate \$2 million of bond appropriation to the SMT Elevator project (MC-FA-SMTELVHRB) abandoned in error in 2022.
8. In 2025-2029, abandon \$1,416,680 of debt service appropriation (30010) within the Fire Station Improvement Debt Service (MC-FA-FSDEBTSV) project to align with the bond issuance and updated debt service estimates. In 2030, increase \$6,673,836 of debt service appropriation (30010) within the Fire Station Improvement Debt Service (MC-FA-FSDEBTSV) project to align with the bond issuance and updated debt service estimates.

Cost of Issuance and Bond Interest Adjustment

Expenditures	\$(1,100,907)
Revenues	\$16,543,451

The UTGO Debt Service updates are for bonds that are managed by the Office of Finance and those funds stem from UTGO issuances (like Utility from Utilities). The Cost of Issuance (COI) updates are an estimate for any costs associated with the issuance of LTGO Bonds.

Department of Finance and Administrative Services

Final Adjustments for Standard Cost Changes

Expenditures \$(833,357)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Rate Revenue Adjustments

Revenues \$(8,865,755)

This item makes various rate revenue adjustments to reflect changes to City-wide allocations resulting from the Department of Finance and Administrative Services FAS 2025-26 proposals.

Contract Inflation

Expenditures \$2,185,990

This item increases appropriation across the Department of Finance & Administrative Services to reflect inflation associated with various contracts.

Program Operations Cost Adjustment

Expenditures \$425,648

This item increases appropriation in the Department of Finance & Administrative Services to reflect anticipated increases for specific programs across the department including fuel and vehicle maintenance.

Debt Service Adjustments

Expenditures \$(3,624,280)

This item decreases appropriation in the Department of Finance & Administrative Services to reflect updates to debt service payments including new issuances, re-issuances, and adjustments due to fluctuation of the debt schedule.

August General Fund Revenue Adjustment

Revenues \$605,421

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

April General Fund Revenue Adjustment

Revenues \$(297,325)

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Labor Inflation in Central Rates Funded Programs

Expenditures \$4,124,783

Department of Finance and Administrative Services

This item increases appropriation across the Department of Finance & Administrative Services to reflect labor inflation commensurate with cost-of-living adjustments in labor contracts for FAS' rate-funded programs.

Labor Inflation in Direct Budget Programs

Expenditures	\$861,199
--------------	-----------

This item increases appropriation across the Department of Finance & Administrative Services to reflect labor inflation commensurate with cost-of-living adjustments in labor contracts for FAS' non-rate-funded programs.

AWI Adjustment for 2023-24 in Non-rate Programs

Expenditures	\$252,584
--------------	-----------

This item increases appropriation across the Department of Finance & Administrative Services (FAS) to reflect the cost-of-living adjustments in 2023 and 2024 that exceeded the assumed inflation at the time it was budgeted in FAS's non-rate-funded programs.

AWI Adjustment for 2023-24 in Rate-funded Programs

Expenditures	\$1,108,388
--------------	-------------

This item increases appropriation across the Department of Finance & Administrative Services (FAS) to reflect the cost-of-living adjustments in 2023 and 2024 that exceeded the assumed inflation at the time it was budgeted in FAS's rate-funded programs.

Market Adjustments to 2026 Wages

Expenditures	-
--------------	---

This item increases appropriation in the Department of Finance & Administrative Services to reflect the compounding market adjustments to 2026 wages in labor union contracts.

Fund Balancing Adjustments – Proposed

Revenues	\$9,297,343
----------	-------------

This is a technical item to record a fund balancing entry for the 50300 Finance and Administrative Services Fund, 50321 Fleet Capital Fund, 67600 FileLocal Agency Fund, 15260 Animal Shelter Donation Fund, and 12100 Wheelchair Accessible Fund, which are primarily managed by this department.

Department of Finance and Administrative Services

Expenditure Overview

Appropriations	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
FAS - BC-FA-A1IT - Information Technology

Summit Re-Impl Dept Cap Needs	379,975	-	-	-

FAS - BC-FA-ADAIMPR - ADA Improvements

The purpose of the ADA Improvements - FAS Budget Summary Level is to update or modify facilities for compliance with the standards contained in the American with Disabilities Act.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
ADA Improvements	749,853	600,000	1,367,000	2,423,000
Total	749,853	600,000	1,367,000	2,423,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Department of Finance and Administrative Services

FAS - BC-FA-APSCH1FAC - Asset Preservation - Schedule 1 Facilities

This purpose of the Asset Preservation - Schedule 1 Facilities Budget Summary Level is to provide for long term preservation and major maintenance to the Department of Finance and Administration's schedule 1 facilities. Schedule 1 facilities consist of existing and future office buildings located in downtown Seattle, including but not limited to City Hall, the Seattle Municipal Tower and the Justice Center. Typical improvements may include, but are not limited to, energy efficiency enhancements through equipment replacement, upgrades/repairs to heating/ventilation/air conditioning systems, upgrades/repairs to electrical systems, upgrades/repairs to fire suppression systems, roof repairs or replacement, and structural assessments and repairs. This work ensures the long-term preservation of the operational use of the facilities.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Asset Preserv_Sch 1 Facilities	10,887,831	8,485,333	6,652,000	6,652,000
Total	10,887,831	8,485,333	6,652,000	6,652,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-APSCH2FAC - Asset Preservation - Schedule 2 Facilities

This purpose of the Asset Preservation - Schedule 2 Facilities Budget Summary Level is to provide for long term preservation and major maintenance to the Department of Finance and Administration's schedule 2 facilities. Schedule 2 facilities comprise existing and future structures, shops and yard located throughout Seattle, including but not limited to City vehicle maintenance facilities at Haller Lake and Charles Street, Finance and Administrative Services shops located at Airport Way S., fire stations, police precincts including the animal shelter, and other FAS managed facilities used for City Services. Typical improvements may include, but are not limited to, energy efficiency enhancements through equipment replacement, upgrades/repairs to heating/ventilation/air conditioning systems, upgrades/repairs to electrical systems, upgrades/repairs to fire suppression systems, roof repairs or replacement, and structural assessments and repairs. This work ensures the long-term preservation of the operational use of the facilities.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Asset Preserv_Sch 2 Facilities	3,601,168	1,954,000	5,912,000	5,487,000
Total	3,601,168	1,954,000	5,912,000	5,487,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-EXTPROJ - FAS Oversight-External Projects

The purpose of the FAS Oversight-External Projects Budget Summary Level is to provide a structure for debt financing projects, including information technology projects, for City departments that lack their own capital program.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
FAS Oversight - External Proj	600,836	1,500,000	1,875,661	1,256,473
Total	600,836	1,500,000	1,875,661	1,256,473

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Department of Finance and Administrative Services

FAS - BC-FA-FASPDPS - FAS Project Delivery Services

The purpose of the FAS Project Delivery Services Budget Summary Level is to execute capital projects in general government facilities.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
FAS Project Delivery Services	11,624,332	3,500,000	4,700,000	4,700,000
Total	11,624,332	3,500,000	4,700,000	4,700,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-GARDENREM - Garden of Remembrance

The purpose of the Garden of Remembrance Budget Summary Level is to provide City support for replacing components of the memorial located at the Benaroya Concert Hall.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Garden of Remembrance	16,359	32,757	33,000	33,957
Total	16,359	32,757	33,000	33,957

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-GOVTFAC - General Government Facilities - General

The purpose of the General Government Facilities - General Budget Summary Level is to execute capital projects in general government facilities.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
General Govt Facilities	11,620,462	2,432,500	13,341,417	14,707,540
Total	11,620,462	2,432,500	13,341,417	14,707,540

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-NBHFIRE - Neighborhood Fire Stations

The purpose of the Neighborhood Fire Stations Budget Summary Level is to replace and renovate fire stations and other emergency response facilities as part of the Fire Facilities and Emergency Response Levy program.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Department of Finance and Administrative Services

FAS - BO-FA-FLEETCAP - Fleet Capital Program

The purpose of the Fleet Capital Program Budget Summary Level is to manage City of Seattle Fleet Replacement, including the purchase and disposal of vehicles owned by the Department of Finance and Administrative Services (FAS) and the administration of the Fleet Replacement Capital Reserve.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Fleet Capital Program	26,468,276	32,859,976	25,888,358	18,100,078
Total	26,468,276	32,859,976	25,888,358	18,100,078

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BO-FA-FLEETS - Fleet Services

The purpose of the Fleet Services Budget Summary Level is to provide fleet vehicles to City departments, assess and implement environmental initiatives related to both the composition of the City's fleet and the fuels that power it, actively manage and maintain the fleet, procure and distribute fuel, and operate a centralized motor pool. The goal of these functions is to create and support an environmentally responsible and cost-effective Citywide fleet that helps all City departments carry out their work as efficiently as possible.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Motorpool	647,569	-	-	-
Vehicle Fueling	9,825,545	-	-	-
Vehicle Leasing	1,718,242	-	-	-
Vehicle Maintenance	25,787,856	-	-	-
Total	37,979,213	-	-	-
Full-time Equivalents Total*	126.00	-	-	-

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Fleet Services Budget Summary Level:

Motorpool

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed

FAS - BO-FA-INDGTDEF - Indigent Defense Services

The purpose of the Indigent Defense Services Budget Summary Level is to secure legal defense services, as required by State law, for indigent people facing criminal charges in Seattle Municipal Court. Funding is also provided for a pilot program offering civil legal representation to indigent defendants.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Indigent Defense Services	10,854,434	13,606,474	14,110,581	14,130,745
Total	10,854,434	13,606,474	14,110,581	14,130,745

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BO-FA-JAILSVCS - Jail Services

The purpose of the Jail Services Budget Summary Level is to provide for the booking, housing, transporting, and guarding of City inmates. The jail population, for which the City pays, are adults charged with or convicted of misdemeanor crimes alleged to have been committed within the Seattle city limits.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Jail Services	19,562,017	22,439,147	27,201,076	28,074,920
Total	19,562,017	22,439,147	27,201,076	28,074,920

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Department of Finance and Administrative Services

FAS - BO-FA-JR000 - Judgment & Claims Litigation

The purpose of the Litigation Expenses Budget Summary Level is to pay anticipated, pending or actual judgments, claims payments, advance claims payments, and litigation expenses incurred while defending the City from judgments and claims. The Litigation Expenses Budget Summary Level is supported by the Judgment/Claims Fund of the General Fund.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
GF Expenses	7,575,889	7,053,814	7,053,814	7,053,814
GF Judgments	23,200,778	21,297,023	23,866,958	21,598,383
Utility Expenses Reimbursable	114,337	2,468,932	2,468,932	2,468,932

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Finance General

Dan Eder, Interim Director

(206) 615-1962

<http://www.seattle.gov/city-budget-office/>

Department Overview

Finance General is controlled by the City Budget Office and provides a mechanism for allocating General Fund and other central resources to reserve and bond redemption funds, City departments, and certain programs where the City Council, Mayor, or City Budget Office need additional oversight.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Department Support				
General Fund Support	218,637,416	228,289,672	239,737,090	224,324,233
Other Funding - Operating	111,615,215	113,736,233	326,783,729	266,317,502
Total Operations	330,252,631	342,025,905	566,520,819	490,641,735
Total Appropriations	330,252,631	342,025,905	566,520,819	490,641,735

Budget Overview

Finance General serves as a central repository for ongoing City costs; including General Fund contributions to the operations of City departments, debt service payments made from centrally-managed funds and contributions to outside organizations. It also provides a mechanism to hold appropriations temporarily until the City determines the appropriate managing department; to execute complex transfers of funds; to act as a contingency reserve to respond to unpredictable situations; and, to cover costs that vary with economic conditions.

Finance General is the mechanism to transfer General Fund resources to the following departments:

- Seattle Public Library;
- Office of Labor Standards;
- Police Pension;
- Fire Pension;
- Finance and Administrative Services; and
- Information Technology.

Total 2025 Proposed Budget	\$566,520,819	-

Description of Incremental Budget Changes

Baseline

Removal of One-Time Items

Expenditures \$(10,493,980)

This technical modification removes one-time revenues, expenditures and fund balancing entries from the 2025-2026 baseline budget for Finance General.

Finance General Project and Org Budget Clean-up

Expenditures \$1,856

This item changes budgetary data in the City's Questica budget development system to align with how expenditures occur in the accounting system. Recurring reserves were rounded to the nearest thousand resulting in minor changes to the budget overall.

Align Baseline Contributions to Stabilization Funds to Financial Plans

Expenditures \$(2,976,596)

Revenues \$(2,976,596)

This adjustment aligns the 2025 and 2026 General Fund contribution to the Revenue Stabilization Fund and Emergency Fund to the financial plans for each fund during the baseline budget phase.

Align Payroll Expense Tax Transfers for Baseline Assumptions

Expenditures \$(85,253,126)

Revenues \$(85,253,126)

This item adjusts the Payroll Expense Tax (PET) transfer to General Fund and to the Sweetened Beverage Tax Fund to a baseline assumption in advance of proposed budget planning leaving only a baseline amount for ongoing administrative costs. The final PET transfer has been included in Operating changes for Finance General.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$7,325,159

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions,

Finance General

for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor. This increase supports cash transfers to the Seattle Public Library, Office of Labor Standards, Police and Fire Pension Funds to support their increased needs.

Baseline Alignment of Utility Reserves

Expenditures	\$820,000
--------------	-----------

This item increases budget authority to pay General Fund costs related to increases in street lighting and fire hydrant costs in 2025 and 2026. This change reflects early estimates during the baseline budget process.

Reduce Fleet Vendor Maintenance Reserve

Expenditures	\$(1,300,000)
--------------	---------------

This item reduces the General Fund reserve related to fleet vendor maintenance costs in 2025 and 2026. The amount held in Finance General reserve is for unanticipated costs to the General Fund as a result of higher expected costs. FAS has adjusted the expected forecast of these costs as well as the proportion that should be attributed to the General Fund. The remaining reserve for these costs is \$500,000 in both 2025 and 2026.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$594,707
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process. The amount in Finance General also includes appropriations in the General Fund to transfer resources to City departments that do not spend funds directly out of the General Fund.

Proposed Operating

Align General Fund Contribution for Seattle Public Library and Office of Labor Standards

Expenditures	\$(2,019,233)
--------------	---------------

This item adjusts General Fund contributions to the Seattle Public Library Fund and Office of Labor Standards Fund to account for budgetary decisions made during the Proposed Budget process. It includes reductions for budgetary changes as well as adjustment to account for use of fund balance or other revenues to these funds. The total General Fund contribution to the Office of Labor Standards Fund is \$7.3 million in 2025 and \$8.2 million in 2026. The total General Fund contribution to the Seattle Public Library Fund is \$64.4 million in 2025 and \$71.5 million in 2026.

Align Payroll Expense Tax Contribution to General Fund for Administrative Costs

Expenditures	\$2,543,317
Revenues	\$2,543,317

This item increases the Payroll Expense Tax contribution to the General Fund for administrative costs related to the fund and for the evaluation of programs funded by Payroll Expense Tax proceeds. As part of this increase, approximately \$775,000 of the contribution will support an increase to the Tax Rebate Interest Reserve in Finance General. See related change Increase Reserve for Tax Rebate Interest. This increase also provides resources to the General Fund for an anticipated PET evaluation and overall administration of the tax across direct service and central service departments. The 2025-26 Proposed Budget increases the total amount of Payroll Tax for administration and evaluation from approximately \$7 million to \$9.6 million.

Finance General

Continue Community Roots Loan Payment Forgiveness

Expenditures \$333,333

This item continues the \$333,000 Payroll Expense Tax (PET) Fund transfer to General Fund to support the forgiveness of the General Fund loan provided to Community Roots Housing (CRH) for 2025 and 2026. In 2020, the City provided a \$1 million GF supported, three-year loan to CRH to help mitigate the financial impacts of the COVID-19 pandemic. In 2024, the City forgave the first year's repayment and used PET funding to backfill revenue to the General Fund. The proposed budget forgives the remaining loan payments in 2025 and 2026 and backfills the General Fund with PET revenue.

Create 2026 World Cup Planning and Operations Reserve

Expenditures \$2,000,000

In 2026, Seattle will host several World Cup matches. The City of Seattle is working with the local organizing committee on the reimbursement of costs incurred by the City to prepare for and provide support during the matches. This item creates a reserve using Payroll Expense Tax proceeds for economic development to cover any costs that are not fully reimbursed or deemed ineligible for reimbursement.

Create Enhanced Public Safety Streetlight Reserve

Expenditures \$1,000,000

This item provides \$1,000,000 annually to install new streetlights in areas experiencing high crime rates to enhance public safety.

Create Sound Transit 3 Staffing Reserve

Expenditures \$5,219,974

This adjustment creates Payroll Expense Tax-Green New Deal (PET-GND) and Seattle Transportation Benefit District (STBD) reserves in Finance General for projected staffing costs associated with Sound Transit 3 (ST3) implementation in 2025 and 2026, demonstrating the City's partnership and commitment to Sound Transit. This funding is being held in reserve pending finalization of a staffing plan. Total funding is \$5.2 million in 2025 and \$6.8 million in 2026. The STBD funding is \$3.78 million in 2025 and \$5.2 million in 2026 and one-time for the biennium. It will come from sales tax contributions from the Seattle Transit Measure. The PET-GND funding is \$1.4 million in 2025 and \$1.6 million in 2026 and is ongoing. Currently, 28 staff across multiple departments dedicate all or part of their time to the ST3 program. This reserve would fund approximately 51 additional staff in multiple departments to support on schedule delivery of ST3 projects while ensuring compliance with relevant statutes and codes and upholding the 2018 Partnering Agreement. Sound Transit 3 is the largest infrastructure program in Seattle's history. Its high-capacity transit investments, including the mega-projects of West Seattle Link Extension (WSLE) and Ballard Link Extension (BLE), will occur over the next four years as projects move from planning phases to final design, permitting, and construction.

Gambling Tax - Fully Exempt Non-Profit Raffles and Bingo Games

Revenues \$(100,000)

This item reduces gambling tax revenues by \$100,000 because of eliminating the 5% tax on 50/50 raffles and bingo games operated by non-profits.

Finance General

Final Alignment of Street Lighting Reserves

Expenditures \$300,000

Finance General holds a General Fund reserve to pay for general City streetlights. While this item was adjusted during the baseline phase, additional appropriation is required to align to final Seattle City Light rate and billing estimations. The 2025 and 2026 cost increases are mainly due to overall increases in the maintenance and capital replacement costs of streetlights. The total streetlight support is estimated to be \$15.5 million in 2025 and \$16.7 million in 2026.

Increase 2026 Elections Reserve for Implementation of Ranked Choice Voting

Expenditures -

In November 2022, Seattle voters approved a ballot measure to use Ranked Choice Voting (RCV) in Primary Elections for City of Seattle offices, including the Mayor, City Attorney, and City Council. The August 2027 Primary will be the first election using RCV. King County has notified the City of necessary implementation and ongoing election costs associated with this change. This adjustment creates a \$1.2 million reserve in 2026 for anticipated King County costs related to implementing ranked choice voting which are paid by Finance General. In 2027, this funding will be used to pay for increase election costs associated with RCV.

Increase Appropriation for Citywide Insurance Costs

Expenditures \$3,700,000

Finance General holds the reserve used to pay Citywide insurance premiums. Premiums have trended higher in recent years, driven by volatility in the excess liability insurance market. Accordingly, further growth is built into the budget for 2025 and 2026, which totals \$19 million and \$22 million, respectively.

Increase Election Reserve for Social Housing I-137 Election Cost

Expenditures \$1,500,000

This item increases the City's election costs reserve in anticipation of a special election in early 2025 related to Social Housing I-137. The estimated cost of this election is higher than August primary and November general election costs due to the limited number of government agencies who participate, reducing the spread of election costs among affected jurisdictions.

Increase Judgment and Claims General Fund Contribution

Expenditures \$14,100,000

Per Resolution 31847, budget appropriation for the Judgment and Claims Fund must be set at the 90% confidence level of meeting actual expenditures as estimated by the City's actuaries every year. This item adds a one-time appropriation of \$14,100,000 to Judgment and Claims to achieve the 90% confidence level for 2025. Recent actuarial estimates have been driven to a new high by the extraordinary and growing expenses the fund has incurred since 2021 but are expected to moderate in the next few years.

Increase Puget Sound Clean Air Agency Reserve

Expenditures \$56,000

This item increases the reserve for the City's Puget Sound Clean Air Agency annual assessment. The City is billed annually for a "supplemental income" assessment as per RCW 70A.15.1590 for air quality management in our region. The City's portion of the supplemental income is based on a formula using population and assessed valuation of taxable property, as defined by the Washington State Clean Air Act (RCW 70A.15.1600) and is paid by the General Fund. The estimated assessment is \$877,000 in 2025 and \$927,000 in 2026.

Finance General

Increase Reserve for Tax Rebate Interest

Expenditures	\$775,000
--------------	-----------

The City of Seattle as a tax collector has an obligation to provide interest on tax refunds due to overpayment and/ or audit findings. The use of this reserve has steadily increased as the City has implemented new taxes with complex payment requirements. A portion of this growth is directly attributable to the implementation of the Payroll Expense Tax. In 2025 and 2026, the reserve for these payments is being increased by \$775,000 per year backed by increased contributions from the Payroll Expense Tax (PET) to the General Fund. During this time, CBO will monitor actual refunds by tax type to determine the proportional share between the General Fund and PET.

Payroll Expense Tax Contribution to General Fund

Expenditures	\$287,000,000
Revenues	\$287,000,000

The City's 2025-2026 Proposed Budget appropriates approximately \$233 million in 2025 and \$239 million in 2026 in Payroll Expense Tax (PET) proceeds to departments. This item transfers PET revenue above department programmed expenses to the General Fund to support general operating expenses. In 2025, the total transfer is \$287 million which includes \$85 million in one-time 2023 fund balance and \$202 million for expected 2025 revenue collections above programming. The expected PET transfer is \$223 million in 2026.

Reduce High Barrier Working Group Reserve

Expenditures	\$(400,000)
--------------	-------------

In 2019, then Mayor Jenny Durkan convened the High Barrier Individuals Working Group, an interagency group including King County, in response to heightened community conversations around public safety and individuals repeatedly caught in a cycle of criminal justice, social services and community incidents. The group developed four new pilot programs to address these issues including the 'West Wing' proposal. The proposal appropriated \$2 million capital (REET unrestricted) and \$400K in on-going operating costs in 2020 in Finance General for a comprehensive place-based treatment center at the King County Jail. The project has been repeatedly delayed due to COVID and the current use of the West Wing space as a shelter run by DESC. The shelter was to move to SODO, but that large scale project was rejected by the CID. The King County Budget Office does not have any assumptions in the 2025 proposed budget related to this project. The City General Fund reserve is being reduced to redirect resources to other priorities. The \$2 million REET reserve was lapsed at the end of 2023 and returned to fund balance.

Reduce Reserve for City Hall Security

Expenditures	\$(490,000)
--------------	-------------

Finance General was holding an annual reserve for implementation and operational costs as a result of City Hall security upgrades. After an investigation of ongoing needs, evaluation of required capital improvements, and existing budget, the Department of Finance and Administration (FAS) determined that it could make required changes within existing budget authority. This appropriation was from the FAS Fund - 50300.

Shift Gambling Tax from Quarterly to Annual Filing

Revenues	\$(325,000)
----------	-------------

This item captures the reduction of tax revenue of \$325,000 in 2025 resulting from a shift from quarterly to annual filing for gambling taxes. This administrative change is under the authority of the City Finance Director and will result in reduced manual tax return processing. Payments for annually filed obligations are not due until April of the following year, meaning this process change will permanently shift revenue collections forward one year and no revenues will be collected in 2025.

Finance General

Transfer Funding from Trial Court Improvement Account Reserve to Seattle Municipal Court

Expenditures \$(104,222)

This change request reduces the Trial Court Improvement Account fund balance in Finance General and allocates one-time resources to the Seattle Municipal Court (SMC) in 2025 for a finance and budget consultant to advance their organization transformation in support of the new case management system. The court is recasting their organization and its internal administrative systems to support the new case management system. Finance General holds \$150,000 for SMC each year plus any prior year balance. This transfers \$104,222 of the 2025 balance. A change to appropriation authority is listed in the SMC budget section.

Proposed Technical

Align Arena Payment Reserve with August Revenue Forecast

Expenditures \$1,082,000

This adjustment aligns appropriations from the General Fund, Arts and Culture Fund, and Transportation Fund with the anticipated rental adjustment payments related to the Seattle Arena Company, LLC Agreement in 2025 and 2026. The total estimated payment amounts are based on the August Revenue Forecast, totaling \$15.1 million in 2025 and \$14.5 million in 2026.

Align General Fund Contribution for Fire and Police Pension Departments

Expenditures \$(1,585,518)

This item is the final alignment of General Fund need for these departments based on estimated operating costs and available fund balance in the department specific funds for 2025 and 2026. General Fund transfers to the pension funds occur monthly during the fiscal year. The total contribution to the Firefighters' Pension Fund in 2025 and 2026 is \$25.2 million and \$25.5 million, respectively. The total contribution to the Police Relief and Pension Fund in 2025 is \$16.1 million and in 2026 is \$15.8 million.

Align Debt Service Appropriations with 2025 and 2026 Assumptions

Expenditures \$(177,578)

Finance General debt service reserves for various funds have been updated to reflect anticipated needs in 2025 and 2026. These amounts are updated annually based on former and current project debt service requirements.

Final Alignment of Emergency Fund and Revenue Stabilization Fund Contributions

Expenditures \$407,443

Revenues \$407,443

This adjustment aligns the Emergency Fund and Revenue Stabilization Fund contributions from General Fund related to the August Revenue Forecast updates. The total contribution amounts to the Emergency Fund are \$12.7 million and \$2.4 million in 2025 and 2026, respectively. For the Revenue Stabilization Fund, the 2025 contribution is \$1.1 million and the 2026 contribution is \$2.4 million.

Final Adjustments for Standard Cost Changes

Expenditures \$536,378

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Finance General

Fund Balancing Entries

Revenues \$(19,822,650)

This is a technical item to record a fund balancing entry for the General Fund, Payroll Tax Fund, Sweetened Beverage Tax Fund, Short-Term Rental Tax Fund, Real Estate Excise Tax Funds, Emergency Fund, Revenue Stabilization Fund, and Bond Funds which are multi-departmental Funds without a primary custodian department.

Appropriations by Budget Summary Level and Program

FG - BO-FG-2QA00 - Appropriation to Special Funds

The purpose of the Appropriation to Special Funds Budget Summary Level is to appropriate General Fund and other centrally managed resources, several of which are based upon the performance of certain City revenues, to bond redemption or special purpose funds. These appropriations are implemented as operating transfers to the funds or accounts they support.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Appropriation to Special Funds	279,597,558	280,202,072	496,541,667	416,286,477
Total	279,597,558	280,202,072	496,541,667	416,286,477

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FG - BO-FG-2QD00 - General Purpose

The purpose of the General Purpose Budget Summary Level is to provide appropriation authority to those programs for which there is no single appropriate managing department, or for which there is Council and/or Mayor desire for additional budget oversight.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
General Purpose	50,655,074	61,823,833	69,979,152	74,355,258
Total	50,655,074	61,823,833	69,979,152	74,355,258

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Department of Human Resources

Kimberly Loving, Director

(206) 684-7999

<http://www.seattle.gov/personnel/>

Department Overview

The Seattle Department of Human Resources (SDHR) is responsible for centrally setting the strategic direction for human resources services: identifying, hiring, and retaining the City's dynamic, diverse workforce, as well as developing and administering a compensation and benefits program to create a quality employee experience. SDHR also provides core human resources (HR) support services to all City employees. SDHR operations:

- create greater HR accountability and collaboration citywide so that consistent, cost-effective services are provided to all employees;
- provide full-service HR to 20 supported departments;
- ensure a culture of respect and dignity for all employees;
- develop consistent policies, improved services, and programs that enhance the workforce;
- provide executive recruitment and succession planning services.

SDHR establishes Citywide personnel rules; offers strategic consultative assistance to departments, policymakers and employees; and ensures department staff and managers receive information and resources required to meet business needs and legal requirements such as leave administration.

The **Director's Office** establishes Citywide personnel rules; offers strategic consultative assistance to departments, policymakers, and employees; provides internal fiscal management and budget development; and spearheads Citywide Human Resources policies and programs in partnership with the multi-departmental Human Resources Leadership Team (HRLT).

Citywide Shared Administrative Services administers Citywide quality and cost-effective employee benefits, including health care and workers' compensation; provides Citywide safety, classification/compensation and Workforce Analytics & Reporting services; and handles absence management.

Citywide Labor Relations develops and implements labor relations strategies in collaboration with labor management teams across the City and develops training in coordination with HR systems administration and operations, while bargaining the impacts of management strategy and philosophy with labor partners.

Citywide Human Resources Investigations Unit and Learning & Development HRIU responds to and thoroughly investigates employee allegations of harassment, discrimination, retaliation, and harassment-related misconduct in a manner which reflects an acknowledgement of the historical limitations of the employment law; utilizes the organizational alignment of the L&D Team's training resources and Cornerstone platform to provide proactive response to building a positive workplace culture across the City; provides employee compliance training resources and support; and the career development opportunities offered by L&D aim to encourage a culture of innovation, positively impact retention rates, and develop future City leaders.

Human Resources Service Delivery provides HR support to executive offices and direct HR services to 20 departments; strategic alignment with department HR leaders and staff; and a consistent network for HR practitioners across the City; provides talent recruitment to executive offices and direct recruitment to 20 departments; manages the NEO Gov software platform for Talent Management strategic alignment with department HR leaders and staff; provides a City focused standard for talent engagement, selection, and staffing accountability for equitable outcomes through the Talent, Experience, Alignment branded model of equitable recruiting practices.

Personnel Compensation Trust Funds

Seattle Department of Human Resources

The Seattle Department of Human Resources (SDHR) administers five Personnel Compensation Trust Funds related to employee benefits. These funds are managed through Citywide contractual obligations on behalf of employees and City departments. The administering department collects funds from other City departments, which are then paid out to various insurance companies, service providers, and individuals.

Health Care Fund: contains the revenues and expenses related to the City's medical, dental and vision insurance programs; Flexible Spending Account program; Employee Assistance Program; COBRA continuation coverage; and other healthcare related items. The City is self-insured for both the Aetna and Kaiser medical plans, the vision plan, and one dental plan and carries insurance for the remaining dental plan.

Fire Fighters Health Care Fund: was created to track fire fighter employee contributions previously held within the larger Health Care Fund. Fire fighter premium collections are distributed directly to the trust that provides fire fighters' healthcare.

Industrial Insurance Fund: captures the revenues and expenditures associated with the City's Workers' Compensation and Safety programs. Since 1972, the City of Seattle has been a self-insured employer as authorized under state law. The Industrial Insurance Fund receives payments from City departments to pay for these costs and related administrative expenses. Overall costs include fees levied by the Washington State Department of Labor and Industries, reinsurance premiums, and administrative costs to manage the program.

Unemployment Insurance Fund: contains the revenues and expenditures associated with the City's unemployment benefit and administration costs. The City is a self-insured employer with respect to unemployment insurance.

Group Term Life Insurance Fund: contains the revenues and expenses related to the City's group term life insurance, long-term disability insurance, and accidental death and dismemberment insurance plans.

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Seattle Department of Human Resources. SDHR will continue to:

- Continue to provide full HR services for the 20 supported departments;
- Administer employee benefits, leave, and workers' compensation Citywide;
- Administer centralized system for recruitment and selection of employees;

Seattle Department of Human Resources

- Manage HR compliance, policy, and legislation requirements;
- Develop and administer system for classification of positions, wages, and reporting and analytics of employee data;
- Maintain centralized employee functions including Human Resources and Investigations Unit (HRIU), employee grievances, collective bargaining, and labor relations;

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made to streamline services and focus on core HR services within the City.

In the 2025-2026 Proposed Budget, SDHR will eliminate three divisions or programs including the Learning and Development Division, the Workforce Development Unit, and the Equity Performance Management Program. The elimination of the Learning and Development Unit means that SDHR will convert the trainings and orientations to an online course instead of in person, SDHR will transition to an advisory role with departments as they identify their own training and development needs. The elimination of the Workforce Development Unit means that SDHR will transition to an advisory role in workforce development and will transfer mentorship and internship, and responsibilities to each department. The elimination of the Equity Performance Management Program means that SDHR will transition supported departments using the current Equity Performance Management system for employee performance reviews to a lower-cost alternative. SDHR will scale the Workforce Equity Unit and Benefits Unit. SDHR will also reduce temporary labor funding. SDHR has worked with departments to identify ways to streamline or create efficiencies and enhancements in services and will transfer the Fire and Police Exams Unit to the Civil Service Commission and transfer the Deferred Compensation Unit to the Retirement Department.

Other 2025-2026 Proposed Budget Adjustments:

Several additional baseline and operational adjustments are included in the proposed budget:

- adjust appropriation for changes to central costs including internal services, health care, retirement, and workers' compensation charges;
- align the personnel budget with actual costs;
- adjust the Annual Wage Increase (AWI);
- remove one-time budget authority; and
- include net-neutral budget changes for reorganization or consolidation of programs and projects.

Personnel Compensation Trust Funds

The following provides a summary of each of the five individual funds that comprise the Personnel Compensation Trust Funds and are administered by SDHR.

Health Care Fund: Total City health care costs including medical, dental and vision care, plus administration costs, are estimated to increase to \$360.4 million in 2025 and \$381.3 million in 2026. Growth in medical claims in 2025 and 2026 is projected at 9.3% and 5.8% respectively due to typical trends in medical costs plus current inflationary pressures, particularly facing inpatient services and specialty drugs. The 2025-2026 Proposed Budget assumes an estimate of approximately 11,950 regular and 220 benefits-eligible temporary employees enrolled in healthcare.

Fire Fighters Health Care Fund: Firefighter payments remain level at \$2.0 million in the 2025-2026 Proposed Budget.

Industrial Insurance Fund: The 2025 Proposed Budget reflects increased expenditures in the Industrial Insurance Fund of 25.9%, or \$11 million, relative to the 2024 Adopted Budget. For 2026, the increase is 5.2% or \$2.8 million. The year over year increase in expenditures is due principally to an adjusted outlook for pensionable claims (catastrophic injuries for which Labor & Industry collects a large sum to seed a pension fund for the claimant). In 2023, 13 such claims totaled \$10.3 million, more than three times recent yearly averages. This trend appears to be driven by presumption (that injury is due to the workplace) under State law, which has been expanded in favor of claimants by law makers in recent years. Meanwhile, the cost of medical care is also driving up expenses for typical medical claims, which are expected to increase by nearly 47%. Time loss claims are projected to decrease slightly, by

Seattle Department of Human Resources

5%, after peaking during the COVID pandemic. The increase in revenues (26.1% in 2025 and 5.4% in 2026) to the fund, which are collections from City departments, reflects these trends plus the need to recover reserves used to pay for excess pensionable claims in 2023.

Unemployment Insurance Fund: The 2025-2026 Proposed Budget for unemployment insurance expenses increases appropriations relative to the 2024 Adopted Budget in anticipation of increased claims activity and per claimant costs. As departments adjust program spending and positions down to align with available resources in the 2025-2026 Proposed Budget, and as wages from concluded bargaining work their way into the City's claims payments, total costs are expected to increase.

Group Term Life Insurance Fund: Total costs in the fund are expected to increase in the 2025-2026 Proposed Budget, based on growth in participants and premium costs.

Seattle Department of Human Resources

Description of Incremental Budget Changes

Baseline

Remove One-time Budget Authority

Expenditures	\$(1,255,864)
Revenues	\$14,723,914

This item reverses a Payroll Expense Tax-funded TLT position ending December 31, 2024 and funding for a two-year Citywide Classification and Compensation Review project.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures	\$2,352,379
--------------	-------------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$437,496
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Eliminate Citywide Learning & Development Division

Expenditures	\$(863,828)
Position Allocation	(4.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item eliminates the Learning & Development division of SDHR, including 2 Strategic Advisor 1 Exempt positions and 2 Sr. Training & Education Coordinator positions. All Citywide training and development currently provided by HR will be administered at the department level moving forward. SDHR will transition to an advisory role that will continue to assist departments with identifying training needs, recommending resources, and maintaining SharePoint site with tools, templates, and best practices.

Eliminate Workforce Development Unit

Expenditures	\$(485,573)
Position Allocation	(2.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item eliminates SDHR's Workforce Development unit, including the tuition reimbursement program and two positions (a Strategic Advisor and a Personnel Analyst). SDHR will transition to an advisory role, assisting departments with administering mentorship and internship programs.

Seattle Department of Human Resources

Eliminate Equity Performance Management Program

Expenditures	\$(468,181)
Position Allocation	(2.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item eliminates SDHR's Equity Performance Management Program, including two full-time positions in SDHR's Shared Admin Services and Service Delivery division. This item also reduces two positions (a Management Systems Analyst and a Strategic Advisor). SDHR will terminate the online E3 employee performance management program in favor of a lower-cost paper-based alternative. SDHR will no longer centrally oversee employee performance management for departments within its portfolio, however, it will continue to partner with them to ensure timely completion and adherence to records management and personnel rules.

Remove Workforce Equity Director & Workforce Equity Advisor Positions

Expenditures	\$(371,115)
Position Allocation	(1.50)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item removes 1.5 full-time positions in the Workforce Equity division of SDHR, including one Executive 2 position and one part-time Strategic Advisor 1 position and associated appropriation. SDHR will transition to an advisory Workforce Equity role, and the Workforce Equity Strategic Plan will be administered at the department level.

Remove Benefits Lead Personnel Analyst Supervisor Position

Expenditures	\$(195,492)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item removes one full-time Benefits Lead (Personnel Analyst Supervisor) position and associated appropriation in the Shared Admin Services division of SDHR.

Reduce SDHR Temp Labor Funding

Expenditures	\$(106,142)
--------------	-------------

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces the temporary and contract labor to realign with available resources.

Transfer Deferred Comp Unit from SDHR to RET

Expenditures	\$(559,751)
Revenues	\$(698,016)
Position Allocation	(3.00)

This item transfers 3 full-time positions in SDHR's Deferred Compensation Unit; one Manager1 Exempt, one Personnel Analyst, Sr, and one Personnel Analyst; to RET. It also transfers appropriation authority in the amount \$560k from SDHR to the Employees' Retirement System, including \$52k of non-labor budget. This transfer will align employee retirement benefits within one department to create efficiencies and optimize the employee experience.

Seattle Department of Human Resources

Transfer Fire & Police Exams from SDHR to CIV/PSCSC

Expenditures	\$(1,503,117)
Position Allocation	(6.00)

This item transfers 6 full-time positions and the associated budget in SDHR's Fire and Police Exams Unit including one Manager 2, General Govt, three Personnel Analyst, Sr, and two Personnel Analysts to the Civil Service Commissions. This transfer aligns the core functions of CIV to develop and administer entry-level and promotional civil service exams. CIV will have direct management of the staff in the unit and reduce the interdepartmental coordination needed with SDHR by transferring the unit.

Proposed Technical

2025-2026 Health Care Fund Expenditure and Revenue Adjustments

Expenditures	\$30,590,669
Revenues	\$17,435,946

This item adjusts the budget for expenditures and expected revenues in the City's health care fund (10112). Total costs including medical, dental and vision claims, plus administrative costs, are estimated to be \$360.4 million in 2025, an increase of \$30.6 million (9.3%) from 2024 Adopted Budget levels. Meanwhile revenues to the fund, based on prior claims expectations, are expected to be \$367.1 million, representing a \$24.1 million increase (7.0%) in department contributions from the 2024 Adopted Budget and an overall excess of revenue over expenditures of \$6.7 million. This excess results in a technical balancing entry, which has the effect of reducing the \$24.1 million increase to the \$17.4 million displayed immediately above, with the remaining \$6.7 million being assumed as an addition to the Health Care fund's balance.

Group Term Life Fund Revenue and Expenditure Adjustments

Expenditures	\$392,119
Revenues	\$392,119

This item increases revenues and expenditures in the Group Term Life, Long-Term Disability, and Accidental Death and Dismemberment Insurance Fund in response to current and projected growth in employee enrollment and premium costs. Costs are expected to continue their steady rise over the last few years, increasing approximately \$392,000 to \$7.1 million in 2025 and to \$7.2 million in 2026 from approximately \$6.7 million in the 2024 Adopted Budget.

Industrial Insurance Fund Expenditure and Revenue Adjustments

Expenditures	\$10,978,092
Revenues	\$9,408,899

This item adjusts the budget for expenditures and expected revenues in the City's industrial insurance (workers compensation) fund (10110). Total costs including medical and time-loss claims, plus administrative costs, are estimated to be \$53.4 million in 2025, an increase of \$11 million (25.9%) from 2024 Adopted Budget levels. Meanwhile revenues to the fund, based on prior claims expectations, are expected to be \$55.4 million, representing a \$11.5 million increase (26.1%) in department contributions from the 2024 Adopted Budget but an overall excess of revenue over expenditures of \$2.0 million. This excess results in a technical balancing entry, which has the effect of reducing the \$11.5 million increase to the \$9.4 million displayed immediately above, with the remaining \$2.0 million being assumed as an addition to the Industrial Insurance fund's balance.

Seattle Department of Human Resources

Revenue and Expenditure Adjustments

Expenditures	\$1,465,121
Revenues	\$1,465,121

This item adjusts revenues and expenditures in the Unemployment Insurance Fund (10111) to meet expected costs. Projected increases of \$1.46 million in 2025 and \$1.13 million in 2026 anticipate increased claims as departments adjust programs and positions to meet 2025-26 budget requirements.

Final Adjustments for Standard Cost Changes

Expenditures	\$(151,289)
--------------	-------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Budget-neutral alignment

Expenditures	-
--------------	---

This item eliminates unnecessary indirect cost balancing entries.

Technical change to reallocate baseline budget to reflect current trends and internal transfers

Expenditures	-
--------------	---

This technical adjustment reallocates SDHR's baseline budget to reflect more recent trends as well as internal movement. Total labor and total non-labor do not change, and the impact to the general fund is negligible.

Allocate Retirement Adjustment to Projects

Expenditures	-
--------------	---

This technical CR allocates the 2024 retirement adjustments down to the project level.

Ongoing Changes from Current Year Legislation

Expenditures	\$(400,985)
Position Allocation	(2.00)

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance.

This change transfers ongoing budget and position authority for 3.0 FTE Recruitment and Retention positions from the Seattle Department of Human Resources to the Seattle Police Department and adds 1.0 FTE to SDHR, for a net reduction of 2.0 FTE. The three positions being transferred to SPD were originally created as part of the Recruitment & Retention Initiative item in the 2022 budget (Ordinance 126654, Section 3) and assigned to SDHR. The positions were subsequently transferred to SPD in 2024 in a standalone SPD Recruitment and Retention Ordinance (CB 120766). The additional position added to SDHR is in the Fire and Police Exams Unit and is incorporated in the unit transfer to CIV.

Seattle Information Technology Department

Rob Lloyd, Chief Technology Officer

(206) 386-0026

<http://www.seattle.gov/seattleIT>

Department Overview

Seattle IT is a trusted partner that provides secure, reliable, and compliant technologies enabling the City to deliver equitable and responsive services to the public.

The Seattle Information Technology Department (Seattle IT) provides strategic direction for and management of the City's information technology resources. Our services include data, telephone, and radio networks; applications and application infrastructure; desktop, mobile, and printing device support; website and digital engagement tools; data centers, servers, storage, and backup; video production and coverage of public meetings; and community support for digital equity, civic technology, and public internet access initiatives. Seattle IT also manages the City's cable fund, designated projects on behalf of the City, other departments, and regional partners.

Seattle IT is organized into eight divisions: Applications; Collaboration and Workplace Technologies; Security and Infrastructure; Project Delivery; Client and Community Engagement; Data Privacy, Accountability, and Compliance; Chief of Staff; and Finance.

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

As an internal service department, Seattle IT provides services to other City departments that in turn fund Seattle IT's budget. The City's 2025-2026 Proposed Budget maintains core services for Seattle IT. The department will continue current service levels in cybersecurity, applications, infrastructure, public records disclosure coordination, City IT governance and administration, client solutions, and the Affordable Seattle program.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated

Seattle Information Technology Department

Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in the following areas.

Reductions of 25% to the IT project delivery program, device support and replacement program, and the service desk are the most significant changes in the proposed budget. The combined decreases the department budget by \$5.5 million, and reduces a total of 29 positions. Service desk call wait times will likely increase and may potentially double, and staff will be using older computers and experiencing slower response to IT support needs. The City's financial constraints are expected to lead to fewer IT projects generally; however the reduction to the project delivery program will require managing existing resources differently for remaining project portfolio.

ITD is also taking reductions less impactful to customer departments, leading to \$17.9 million in budget reductions. In order to achieve this the department will increase its personnel vacancy rate to 8%, assume retirements, reduce department project budget, reduce temporary staffing budget, and reduce the operations and maintenance contracts currently held. Impacts from these reductions will be felt by Seattle IT, and additional pressure will be applied to manage with fewer resources.

In addition to the City's shortfall, revenues from cable subscription fees continue to decline as fewer people use traditional cable television. In order to balance the Cable Television Franchise Fund, \$2 million and 6 positions are reduced from the Seattle Channel program. This will reduce programming down to basic City Council and Executive coverage, resulting in a noticeable change to service levels. The City will need to minimize overlapping coverage requests when scheduling programming.

As the City's coordinator and supplier of all technology needs, Seattle IT also manages the budget for external needs like Microsoft licensing, sever and storage, police technology like body worn cameras, Adobe, Oracle and many other services and software. These costs are increasing by \$8.4M in the proposed budget with the largest portion (\$2.1M) related to fees for the regional public safety radio network.

The proposed budget also includes many technical adjustments and Citywide changes, including \$17.2 million related to contract and wage increase agreements. Two capital IT projects were approved in the proposed budget: a \$5.6 million upgrade and transition to the cloud of two Oracle Enterprise Content Management systems; and a \$1.9 million project for SPD to use for a timekeeping, leave and scheduling system.

Description of Incremental Budget Changes

Baseline

Remove 2024 One-Time Items

Expenditures	\$(4,613,711)
Revenues	\$(1,941,094)

This item includes budget adjustments for one-time changes in the 2024 Adopted Budget, including removal of a Council add of \$1 million for the RecordPoint project, and a \$2.5 million transfer from the radio reserve to the General Fund.

Baseline Technical Adjustments

Expenditures	\$(7,426,058)
Revenues	\$1,115,703

This item fixes a budgeting error that inadvertently added labor increases before they were under agreement, and makes minor changes to the baseline budget, including \$55,000 for Video Voter's guide funding, and removing \$14,000 for SPD internal operating initiatives.

Seattle Information Technology Department

Inflation Adjustments

Expenditures	\$6,208,280
Revenues	\$6,208,271

This item updates ITD's base budget for inflation factors, to provide budget for increasing costs. The City Budget Office provides ITD inflation assumptions for items such as wage adjustments, health care and retirement.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$(117,907)
--------------	-------------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures	\$1,941,549
Revenues	\$1,934,064

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Labor and Maintenance Budget Realignment

Expenditures	\$2,326,828
Revenues	\$2,326,836

This item realigns budget for Seattle IT's staffing and labor costs where the costs are occurring, and also realigns Seattle IT's funding for annual software maintenance contracts with the projected IT service needs for the proposed budget.

Realign Post-Rate Revenue Changes

Expenditures	\$(297,522)
Revenues	\$(137,372)

This item updates budget and revenues to reflect changes made to Seattle IT's budget after customer rates were finalized during the 2024 budgeting process.

Updates to the Counts Used to Cost Department IT Budgets

Expenditures	\$(736,052)
Revenues	\$(736,050)

This baseline change updates the counts (of devices, licenses, employees, etc) used in Seattle IT's various cost recovery methodologies to better reflect current IT usage across the City.

Seattle Information Technology Department

Depreciation, Principal and Interest True-Up

Expenditures	\$725,929
Revenues	\$725,497

This item adjusts the amount and distribution of Seattle IT's depreciation, principal and interest budget based on the debt service schedule and planned spending in the proposed budget.

Adjust Capital Projects Outyears

Expenditures	-
Revenues	\$10,950,064

This item adds bond and department billing revenue to Seattle IT's fund for planned capital budget projects, and adjusts capital project outyear budgets to align with the six-year CIP plan by adding budget to year 2030.

Cable Fund Technical Adjustments

Expenditures	\$(1,574,080)
Revenues	\$(1,574,081)

This item adjusts the Cable Television Franchise Fee Fund budget, reducing the cable fund to match the reductions taken to the Seattle Channel needed to balance the fund in the proposed budget,

Proposed Operating

Reduction to the Project Delivery Program

Expenditures	\$(2,453,119)
Revenues	\$(2,454,444)
Position Allocation	(12.00)

Due to City financial constraints, the proposed budget includes a reduction to ITD's project delivery team by 25%, \$2.45 million and 12 FTEs (six Information Technology Professional - Bs; two Information Technology Professional - As; one Strategic Advisor 1, IT; one Strategic Advisor 2, one Strategic Advisor 3; and one Executive 2). This team serves as the staffing on IT projects in the City, providing project management and business analyst support among several other lines of support. This reduction anticipates a reduction in IT projects in the City due to overall budget reductions and may result in ITD managing available resources differently. The team maintains approximately a staff of 36 and nearly \$7.5 million.

Reduction to the Device Support Program

Expenditures	\$(2,004,420)
Revenues	\$(2,005,568)
Position Allocation	(11.00)

Due to City financial constraints, the proposed budget includes a reduction to ITD's device support program by 25%, \$2 million and 11 FTEs (nine Information Technology Professional - Cs and two Information Technology Professional - Bs). This program provides a number of services to the City, but primarily serves as the computer replacement staff and equipment. This reduction will require ITD to realign the services the program is able to provide, including less frequent replacement of aging technology and capacity to respond to service requests. This program maintains approximately a staff of 33 and \$6 million.

Seattle Information Technology Department

Reduction to the City IT Service Desk

Expenditures	\$(997,119)
Revenues	\$(997,764)
Position Allocation	(6.00)

Due to City financial constraints, the proposed budget includes a reduction to ITD's service desk by 25%, \$1 million and 6 FTEs (six Information Technology Systems Analysts). The service desk provides the City's staff center for staff having technology issues or needs, which can come through the online ticket system or direct calls into the service phone center. This reduction will impact the service desk's overall ability to respond to requests, including call wait times potentially growing from three to ten minutes, and slower issue resolution. This team maintains approximately a staff of 18 and \$3 million.

Reduction to Salaries Budget with Higher Vacancy Rate and Retirement Assumption

Expenditures	\$(4,374,222)
Revenues	\$(4,310,371)

Due to City financial constraints, the proposed budget includes a reduction to ITD's salary budget of \$4.3 million. The department's staffing vacancy rate assumption will increase to 8%, currently at 6%, and assumes 11 retirements over 2025 and 2026. This item reduces budget without directly impacting other departments, however the department will have to manage to this, likely reducing services in areas unknown until implemented.

Reduction to Discretionary Budgets Departmentwide

Expenditures	\$(8,075,833)
Revenues	\$(8,075,954)
Position Allocation	(2.00)

Due to City financial constraints, the proposed budget includes a reduction to ITD's discretionary budgets across the department by \$8 million and 2 FTEs (two Information Technology Professional - As). This reduction includes \$3.9 million of SDOT project budget unused in recent budgets, \$2.8 million of temporary employee budget, and \$1.2 million of other budget reductions. Reducing these items will restrict flexibility in ITD's budget, but will not likely impact other departments and customers.

Reduction to Operational Maintenance Agreements and Contracting Budgets

Expenditures	\$(3,203,145)
Revenues	\$(3,203,145)

Due to City financial constraints, the proposed budget includes a reduction to ITD's operational maintenance agreements and contracting budgets by \$3.2 million. ITD reviewed the contracts and agreements held and proposed a reduction to defund ones analyzed to be capable of existing staff to perform, or other ways to operate without them moving forward. This item will further reduce flexibility within the department, but should not impact other departments or customers.

Reduction to Applications to Support Inflation-Driven Maintenance Budget Increases

Expenditures	\$(2,236,801)
Revenues	\$(2,234,576)

ITD is the City's coordinator for technology services, including external software providers, many of which have grown in cost and continue to rise above inflation in cases. This item reduces the software maintenance expenditures by \$2.2 million in order to help the impact of some of these cost increases listed elsewhere in the ITD proposed budget. These software costs may require refunding this reduction in a future budget.

Seattle Information Technology Department

Reduction to Seattle Channel Cable Funded Programming

Expenditures	\$(1,601,206)
Revenues	\$(1,601,570)
Position Allocation	(6.00)

The City's revenues from cable television subscriptions continues to decline, leading to reductions needed to keep the Cable Television Franchise Fund in balance in the proposed budget. This item reduces Seattle Channel services by \$1.6 million and 6 FTEs (three Video Specialist IIs; one Information Technology Professional - B; one Strategic Advisor 2, Exempt; and one Strategic Advisor 2, CSPI&P). Programming will be reduced to Council and Executive meetings and events, along with reductions to capital expenses needing to be absorbed within underspend.

Additional Budget for Adobe and Enterprise Agreements

Expenditures	\$1,678,250
Revenues	\$1,678,250

This funds \$1.7 million in additional budget for increased annual renewals related to the city's Adobe and Microsoft Enterprise agreements. These contracts have seen higher than anticipated growth after the pandemic, after years of smaller increases.

Additional Budget for Department-Specific Technologies

Expenditures	\$1,892,595
Revenues	\$1,892,595

This item adds \$1.9M for increased maintenance budget for department-specific technologies, including software supporting body worn cameras, Oracle for the utilities, and timekeeping software for SFD.

Additional Budget for Permitting and Geospatial Platforms

Expenditures	\$801,000
Revenues	\$801,000

This item for \$800,000 funds increases in the O&M costs for the City's Accela permitting software, and for mapping GIS services.

Additional Budget for Records Renewals

Expenditures	\$700,000
Revenues	\$700,000

This item funds \$700,000 for the annual license renewals for City records systems, including the RecordPoint project underway, and systems used by the City's public records team.

Additional Budget for Cybersecurity Renewals

Expenditures	\$597,000
Revenues	\$597,000

This item funds \$600,000 in O&M for cybersecurity services software the City uses to defend itself from cyber attacks, for both items unintentionally left out of the previous budget, and new items to the City.

Seattle Information Technology Department

Additional Budget for Technical Infrastructure Renewals

Expenditures	\$475,000
Revenues	\$475,000

This item for \$475,000 funds annual license renewals related to technical infrastructure, including server backup services and virtual computer access.

Continue the Affordable Seattle Program

Expenditures	\$116,989
Revenues	\$(255,960)

This item increases Payroll Expense Tax funding of \$416,000 in 2025 and \$429,000 in 2026 to support the Affordable Seattle Program and CiviForm application to replace funding from CLFR funds that expire in 2024. This funding is offset by reductions from the ITD fund, resulting in an overall increase to the program of \$117,000 annually. This increase enables the Affordable Seattle Program to continue at its current staffing and program level, as well as additional technical and consulting services. The Affordable Seattle Program and CiviForm application are proven to decrease the cost to live in Seattle and increase economic revitalization of the most vulnerable communities.

Transferring Staff from CBO to ITD for Affordable Seattle Program

Expenditures	\$208,699
Revenues	\$(12,359)
Position Allocation	1.00

This item transfers one position and budget currently working on the Affordable Seattle Program within the City Budget Office to unite with the larger team housed within Seattle IT. The proposal would shift the allocated staffing budget for the 1.0 FTE (Strategic Advisor 2, Exempt) through Payroll Expense Tax to Seattle IT and align budget with actual staff cost.

PSERN Operator Increase

Expenditures	\$1,723,969
Revenues	\$575,906

This item increases funding by \$1.7M to pay the Public Safety Emergency Radio Network (PSERN) operator, which serves as the region's emergency radio service. PSERN began operations in 2024 and adopted a rate plan which grows annually, and the City will need to budget for the incremental amount each year.

Proposed Capital

Enterprise Content Management Oracle Cloud Migration

Expenditures	\$1,758,191
Revenues	\$1,758,191

This \$5.6M project over three years will move and upgrade two Oracle Enterprise Content Management (ECM) platforms to the cloud, which serves departments across the City for critical applications such as the permitting system, utility assistance program, electronic document management system, Seattle City Light's customer online application, and AP/procurement systems. The current ECM versions will no longer be supported after 2026, the upgrade will also bring the system technically up to date, and create efficiencies including reduced cost for future upgrades.

Seattle Information Technology Department

Time Tracking, Leave and Scheduling for the Seattle Police Department

Expenditures	\$1,905,363
Revenues	\$1,905,363

This item adds \$1.9M for the procurement, implementation, and maintenance of a scheduling and timekeeping system to provide for better management of staff resources in the department and help align with the City's new time keeping Workday system implemented in 2024.

Reduction to Replacements of Seattle Channel Capital Equipment

Expenditures	\$(372,484)
Revenues	\$(372,484)

This item is described in the Reduction to Seattle Channel Cable Funded Programming budget change, and serves as the capital portion of the reductions needed, reallocating \$372,000 in this equipment replacement program to other funding needs. The City's revenues from cable television subscriptions continues to decline, leading to reductions needed to keep the Cable Television Franchise Fund in balance in the proposed budget.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures	\$(333,383)
--------------	-------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures	\$11,218,918
--------------	--------------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and Local 77 bargaining units, for personnel costs included in this department's budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Indirect Cost Adjustment from Budget Changes

Expenditures	\$(131,869)
Revenues	\$(131,866)

This item represents the impacts of 2023-2024 budget items on Seattle IT's indirect cost model. As funding changes with budget decisions made, it affects the level of indirect cost charges made as levels increase or decrease in changing programs.

Seattle Information Technology Department

Reducing Accela Permitting Sunset Positions

Expenditures	\$(661,405)
Revenues	\$(662,053)
Position Allocation	(4.00)

In the 2023 Adopted and 2024 Endorsed Budget, four FTEs (three Information Technology Professional - Bs, and one Information Technology Professional - A) were added to Seattle IT's Accela permitting program. These positions will sunset in 2024, and this item reduces the positions and budget from the program.

Ongoing Changes from Current Year Legislation

Position Allocation	(23.00)
---------------------	---------

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance. For ITD, this item removes 23 positions funded by Coronavirus Local Fiscal Recovery, which ends in 2024.

Operating Impacts of Capital Adjustments

Expenditures	\$(645,941)
Revenues	\$(645,941)

This item reflects the operating impacts of the bond changes being made in the 2025 budget. As a result of the Telecommunications CIP adjustment moving bond issuance budget from 2024 and into 2025, this change request adjusts principal and interest costs on the proposed bond issuances.

Telecom Redesign Project Shift in Bond Issuance

Expenditures	\$3,460,000
Revenues	\$3,460,000

This item moves \$3.5 million of bond funding to the telecom redesign project in 2025, that was previously planned for 2024. The project has been delayed because of staffing and technology changes, and these budget changes reflect the revised spending plan.

Maintenance Funding for SPU-Specific Items

Expenditures	\$454,644
Revenues	\$454,644

This item for \$455,000 funds maintenance costs for SPU-specific annual renewal costs.

Add Maintenance Budget for Oracle ECM Upgrade

Expenditures	-
Revenues	-

This item starts in 2026 for \$127,000 and will support increased maintenance costs related to the Oracle Enterprise Content Management project that is moving those systems to the cloud.

Seattle Information Technology Department

Add Maintenance Budget for SPD's Time Keeping, Leave and Scheduling Software

Expenditures	-
Revenues	-

This item will support O&M costs related to the SPD time keeping, leave and scheduling software for \$704,000 starting in 2026.

SPU Technology Budget Adjustment

Expenditures	\$(305,000)
Revenues	\$(305,000)

This item changes appropriation authority for the anticipated Seattle Public Utilities (SPU) budget for IT projects in 2025 and 2026. This change aligns budget with forecasted spending plan.

Seattle City Light Technology Budget Adjustment

Expenditures	\$(4,815,000)
Revenues	\$(4,815,000)

This item changes appropriation authority for the anticipated Seattle City Light's budget for IT projects in 2025 and 2026. This change will align budget with the forecasted spending plan.

Appropriations by Budget Summary Level and Program

ITD - BC-IT-C0700 - Capital Improvement Projects

The Capital Improvement Projects Budget Summary Level provides support for citywide or department-specific IT projects and initiatives within Seattle IT's Capital Improvement Program (CIP).

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Application Services CIP	17,471,232	4,829,660	1,905,363	-
Citywide IT Initiatives CIP	313,260	-	1,758,191	2,571,508
Communications CIP	11,456,964	8,702,477	6,110,000	3,235,000
Enterprise Compute Services CIP	4,349,331	5,135,000	6,360,000	6,845,000
Fiber Enterprise Initiatives CIP	2,779,247	4,701,534	4,842,581	4,987,858
Programmatic Initiatives CIP	45,352	-	-	-
Radio Communications CIP	2,118,257	760,891	-	-
Seattle Channel CIP	264,719	363,463	-	-
Total	38,798,361	24,493,025	20,976,134	17,639,366

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Capital Improvement Projects Budget Summary Level:

Application Services CIP

This budget program contains Capital Improvement Program (CIP) funding associated with developing, implementing and enhancing various software applications used by City departments.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Application Services CIP	17,471,232	4,829,660	1,905,363	-

Citywide IT Initiatives CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with a portfolio of capital IT initiatives. Projects in this program may support multiple departments.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide IT Initiatives CIP	313,260	-	1,758,191	2,571,508

Communications CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with ongoing design, acquisition, replacement and upgrading of software, infrastructure and major hardware for the City's data, communications and telephonic systems which may include switches, and or connectivity infrastructure.

Seattle Information Technology Department

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Communications CIP	11,456,964	8,702,477	6,110,000	3,235,000

Enterprise Compute Services CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement, and upgrading of server and storage systems.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Enterprise Compute Services CIP	4,349,331	5,135,000	6,360,000	6,845,000

Fiber Enterprise Initiatives CIP

This budget program (formerly Technology Engineering & Project Management CIP) contains the Capital Improvement Program (CIP) funding associated with major maintenance and installation of a high-speed fiber-optic communication network for the City and its external fiber partners.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Fiber Enterprise Initiatives CIP	2,779,247	4,701,534	4,842,581	4,987,858

Programmatic Initiatives CIP

This budget program contains the Capital Improvement Program (CIP) funding for one-time Seattle IT Programmatic Initiatives including the acquisition and development of a new data center, the remodeling of Seattle IT space in the Seattle Municipal Tower, and the acquisition of new technology management tools.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Programmatic Initiatives CIP	45,352	-	-	-

Radio Communications CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement and upgrading of software and hardware for the City of Seattle's portion of the King County Regional 800 MHz radio system.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Radio Communications CIP	2,118,257	760,891	-	-

Seattle Channel CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement and upgrading of the cablecasting and production systems for the Seattle Channel.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Seattle Channel CIP	264,719	363,463	-	-

Seattle Information Technology Department

ITD - BO-IT-D0100 - Leadership and Administration

The Leadership and Administration Budget Summary Level provides executive, community, financial, human resource, and business support to Seattle IT.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Chief of Staff	-	-	-	-
Chief Privacy Office	-	-	-	-
Citywide Indirect Costs	13,909,681	8,316,392	6,580,025	7,043,528

Pooled Benefits and PTO	(1,173,638)	(165,742)	(69,810)	(51,191)
Total	26,964,129	30,221,208	27,441,343	28,794,291
Full-time Equivalents Total*	80.50	81.50	80.50	80.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Chief of Staff

This budget program contains the funding associated with the leadership and accountability of core administrative support to ITD's divisions. These efforts include the oversight of ITD's talent, workforce planning and training, communications, finance, corporate performance, and organizational change management.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Chief of Staff	-	-	-	-

Chief Privacy Office

This budget program provides oversight and guidance required for City Departments to incorporate appropriate privacy and surveillance ordinance compliance practices into City operations with the objective of building public trust and confidence in how we collect and manage the public's personal information.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Chief Privacy Office	-	-	-	-

Citywide Indirect Costs

This budget program contains the funding associated with the various overhead costs charged to Seattle IT, including budget and expenses that have been allocated from other City departments.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Indirect Costs	13,909,681	8,316,392	6,580,025	7,043,528

Seattle Information Technology Department

CTO / Executive Team

This budget program contains the funding associated with the Chief Technology Officer (CTO) and the Seattle IT Executive Team. The CTO sets technology standards and strategies to ensure the City's technology investments are used efficiently and effectively.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
CTO / Executive Team	-	-	-	-

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department including executive, financial, communications, human resources, business support, and strategic planning and analysis services. It also includes the costs for the City's Privacy and Surveillance program.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Departmental Indirect Costs	21,132,226	22,070,559	20,931,128	21,801,953
Full Time Equivalents Total	80.50	81.50	80.50	80.50

Executive Advisor

This budget program contains funding for key administrative support functions including process improvement, governance, interdepartmental service delivery, support for ITD's Racial Social Justice Initiative and community focused technology strategies.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Executive Advisor	-	-	-	-

Indirect Cost Recovery Offset

This budget program is used for the indirect cost recovery of Citywide and Departmental indirect costs incurred by Seattle IT.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Indirect Cost Recovery Offset	(6,904,140)	-	-	-

Pooled Benefits and PTO

This budget program contains the funding associated with employee leave, time off, and benefit-related costs for Workers' Compensation, healthcare and other centrally distributed benefit costs for Seattle IT staff.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Pooled Benefits and PTO	(1,173,638)	(165,742)	(69,810)	(51,191)

Seattle Information Technology Department

ITD - BO-IT-D0200 - Cable Franchise

The purpose of the Cable Fee Support to Information Technology Fund Budget Control Level is to authorize the transfer of resources from the Cable Television Franchise Fund to the Seattle Information Technology Department's Information Technology Fund. These resources are used by the department for a variety of programs consistent with Resolution 30379.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Cable Franchise for Info Tech	6,399,192	7,203,147	5,629,067	5,825,238
Total	6,399,192	7,203,147	5,629,067	5,825,238

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

ITD - BO-IT-D0300 - Technology Infrastructure

The Technology Infrastructure Budget Summary Level develops, maintains, and manages core IT services including communications and data networks, data center and cloud computing infrastructure, and database systems.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Business Advancement Team	-	-	-	-
Communications Infrastructure	4,341,189	4,190,560	4,191,830	4,746,384
Database Systems	2,890,395	2,765,355	2,883,842	2,909,432
Enterprise Computing	755,199	202,509	194,074	209,092
Enterprise Services	3,480,399	3,353,590	4,116,661	4,320,057
Infrastructure Tools	4,194,131	4,878,463	5,133,525	6,038,068
Middleware	2,375,830	2,813,198	3,554,849	3,699,430
Network Operations	6,989,592	8,291,448	7,513,179	7,761,745
Radio Management	5,666,985	6,220,355	5,569,046	5,904,818
Systems Engineering	4,240,768	5,359,884	4,881,535	6,137,067

Windows Systems	10,815,187	12,816,774	13,148,502	14,000,367
Total	57,576,714	65,950,075	65,128,251	70,320,311
Full-time Equivalents Total*	118.00	118.00	118.00	118.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Technology Infrastructure Budget Summary Level:

Business Advancement Team

This budget program contains funding to support project planning and delivery support for ITD operating projects. This program includes business analysts and project managers.

Seattle Information Technology Department

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Business Advancement Team	-	-	-	-

Communications Infrastructure

This budget program contains funding to provide data center services as well as costs for major moves, additions, or changes to communication network infrastructure.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Communications Infrastructure	4,341,189	4,190,560	4,191,830	4,746,384
Full Time Equivalents Total	3.00	3.00	3.00	3.00

Database Systems

This budget program contains funding associated with maintenance and direct labor costs for database administrators and data architecture. This includes installing and upgrading database structures, controlling and monitoring access to databases, and backing up and restoring databases.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Database Systems	2,890,395	2,765,355	2,883,842	2,909,432
Full Time Equivalents Total	10.25	10.25	10.25	10.25

Enterprise Computing

This budget program contains the funding associated with providing and managing public cloud services for Seattle IT customers.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Enterprise Computing	755,199	202,509	194,074	209,092

Enterprise Services

This budget program contains the funding associated with Seattle IT's messaging support and identity management services.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Enterprise Services	3,480,399	3,353,590	4,116,661	4,320,057
Full Time Equivalents Total	9.00	9.00	9.00	9.00

Infrastructure Tools

This budget program contains funding for major system controls, switches and components to support the technology infrastructure system operations.

Seattle Information Technology Department

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Infrastructure Tools	4,194,131	4,878,463	5,133,525	6,038,068
Full Time Equivalents Total	13.00	13.00	13.00	13.00

Middleware

This budget program contains funding to support translation layers that enable communication between an operating platform and applications running on that platform.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Middleware	2,375,830	2,813,198	3,554,849	3,699,430
Full Time Equivalents Total	12.00	12.00	12.00	12.00

Network Operations

This budget program contains funding for the design, operations, and maintenance of the City's fiber optic, wireless, and data networks, including City's internet access.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Network Operations	6,989,592	8,291,448	7,513,179	7,761,745
Full Time Equivalents Total	14.00	14.00	14.00	14.00

Radio Management

This budget program contains funding for maintenance of the City's emergency radio and dispatch systems including radios, pagers, and radio towers, base stations microwave and the fiber network for all the City's radio operations. The program also provides radio programming, installation and maintenance to City Departments and external partners.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Radio Management	5,666,985	6,220,355	5,569,046	5,904,818
Full Time Equivalents Total	10.00	10.00	10.00	10.00

Systems Engineering

This budget program contains funding associated with core computing services Seattle IT provides its customers, including the backup, recovery, and storage of customer data.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Systems Engineering	4,240,768	5,359,884	4,881,535	6,137,067
Full Time Equivalents Total	5.50	5.50	5.50	5.50

Seattle Information Technology Department

Telephone Engineering

This budget program contains funding for the design, maintenance and operations of the City's consolidated telephone systems.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Telephone Engineering	11,827,038	15,057,938	13,941,206	14,593,850
Full Time Equivalents Total	17.00	17.00	17.00	17.00

Windows Systems

This budget program contains funding associated with the centralized hosting, management and support of Windows applications.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Windows Systems	10,815,187	12,816,774	13,148,502	14,000,367
Full Time Equivalents Total	24.25	24.25	24.25	24.25

ITD - BO-IT-D0400 - Frontline Services and Workplace

The Frontline Services and Workplace Budget Summary Level develops, maintains, and manages all client support services, including incident resolution, end-user equipment and software deployment, device maintenance, operating system configuration and management, digital tools that enable everyday work, public-facing communications software development, and support. This Budget Summary Level also includes the Seattle Channel as the public-facing entity of the department and the Broadband and Community Technology programs.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Community Technology and Broadband	1,558,636	1,651,292	1,479,098	1,522,882
Digital Workplace	13,562,381	13,722,899	15,073,908	15,702,432
Frontline Digital Services	40,120,445	34,426,113	31,977,687	32,431,851
Total	55,241,462	49,800,303	48,530,693	49,657,165
Full-time Equivalents Total*	152.75	152.75	129.75	129.75

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Frontline Services and Workplace Budget Summary Level:

Community Technology and Broadband

This budget program contains the funding associated with the Community Technology Services team and the Technology Matching Fund. The Technology Matching Fund provides grants to community-based organizations for projects centered on improving digital equity.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Community Technology and Broadband	1,558,636	1,651,292	1,479,098	1,522,882
Full Time Equivalents Total	5.00	5.00	5.00	5.00

Seattle Information Technology Department

Digital Workplace

This budget program contains funding to enable digital tools and capabilities for the City's workforce including SharePoint, Office 365 Collaboration, Windows Enterprise, Process Automation, eDiscovery, and Mobility.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Digital Workplace	13,562,381	13,722,899	15,073,908	15,702,432
Full Time Equivalents Total	17.50	17.50	17.50	17.50

Frontline Digital Services

This budget program contains funding to develop, maintain, and manage client support services, including incident resolution, end-user equipment and software deployment, device maintenance, operating system configuration and management, digital tools that enable everyday work, and public-facing communications software development and support. Major services include Seattle Channel, Solutions Desk, Desktop Support, IT Asset Management, Computer Lifecycle and IT Service Management.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Frontline Digital Services	40,120,445	34,426,113	31,977,687	32,431,851
Full Time Equivalents Total	130.25	130.25	107.25	107.25

ITD - BO-IT-D0500 - Digital Security & Risk

The Digital Security and Risk Budget Summary Level provides security and risk mitigation services for the City's computing environments, and develops, applies, and monitors compliance with technology policies and procedures. This Budget Summary Level also includes the department's Emergency Management team.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Digital Security & Risk	7,017,352	8,190,242	8,491,693	8,501,054
Total	7,017,352	8,190,242	8,491,693	8,501,054
Full-time Equivalents Total*	16.00	16.00	16.00	16.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Information Technology Department

ITD - BO-IT-D0600 - Applications

The Applications Services Budget Summary Level designs, develops, and supports application solutions for both individual business and enterprise platform needs. In addition, it advances several IT functions, practices, and services such as vendor management, enterprise architecture, automation, quality assurance and analytics.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Business Applications	26,354,894	26,957,845	29,188,018	29,867,227
Department Initiatives	25,436,903	44,588,214	33,598,552	30,723,968
Platform Applications	22,559,675	26,242,308	26,932,643	27,878,936

Office of Intergovernmental Relations

Mina Hashemi, Director

(206) 684-0213

www.seattle.gov/oir

Department Overview

The Office of Intergovernmental Relations (OIR) provides advice and information to, and on behalf of, City elected officials, City departments, and external partners. The primary goal of these efforts is to ensure the City's interests are advanced with regional, state, federal, tribal, and international entities to enable the City to better serve the Seattle community. OIR is also responsible for engaging with other jurisdictions and governmental entities to collaborate and advocate for outcomes that are in the interest of the City and region. OIR implements and manages lobbying contracts and ensures the City's lobbying resources align with the City's strategic advocacy priorities.

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office of Intergovernmental Relations. The department will continue to invest in all areas of services supporting regional, state, federal, tribal, and international affairs. The proposed budget makes baseline adjustments to align budget with membership dues increases, departmental staffing levels, internal service cost changes, and annual wage and market adjustment increases.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in scalable service areas that allow the department to continue delivering services at reduced funding levels. Specifically, the proposed budget eliminates one of the department's two International Affairs Directors.

Description of Incremental Budget Changes

Baseline

Align Labor and Memberships Budget with Anticipated Actuals

Expenditures \$137,944

This ongoing baseline item adds \$137,944 in 2025, and \$167,161 in 2026 to align labor and memberships budget with anticipated actuals. Historically, the Office of Intergovernmental Relations (OIR) budget has assumed no vacancy rate and salary savings have been used to support salaries above midpoint and increases in membership dues above budgeted expectations. Over the 2023-2024 biennium, OIR has reached full staffing and no longer accrues salary savings to support these costs. This item aligns baseline budget for labor based on current staffing level and for memberships based on anticipated dues increases in both years of the biennium.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$214,799

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Office of Intergovernmental Relations

Citywide Adjustments for Standard Cost Changes

Expenditures \$7,367

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Reduce Funding for International Affairs Portfolio

Expenditures \$(190,389)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This ongoing item eliminates funding for one position on the International Affairs team. In 2024, this body of work is managed by two staff members. Beginning in 2025, this work will be managed by one staff member.

Proposed Technical

Technical Adjustment to Align Budget with Anticipated Actuals

Expenditures -

This ongoing, budget-neutral item makes an account-level transfer to reflect that Tribal Affairs work is managed by a consultant contract. In the base budget, Tribal Affairs work is budgeted in labor accounts.

August General Fund Revenue Adjustment

Revenues \$41,598

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Final Adjustments for Standard Cost Changes

Expenditures \$(12,820)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Legislative Department

Sara Nelson, Council President

(206) 684-8809

<http://www.seattle.gov/council/>

Department Overview

The Legislative Department is comprised of the Seattle City Council, as well as two primary divisions: Central Staff and the Office of the City Clerk. Each division supports various aspects of the Council and works with members of the public and City departments to facilitate and develop effective and responsive public policy. The Council and Legislative Department are part of the legislative branch of government, which also includes the Office of City Auditor, the Office of Hearing Examiner, and the Office of Inspector General for Public Safety.

The Council is composed of two at-large and seven district-elected seats for a total of nine, nonpartisan, elected Councilmembers. In November 2023, seven district Councilmembers were elected to a four-year term beginning in 2024. Two at-large Councilmembers are elected to align with the election for a four-year term with the Mayor and City Attorney election in 2021. This approach staggers the district and at-large elections two years apart. In 2024, one at-large position was appointed to the Council as a resignation replacement. A special election in November 2024 will determine the Councilmember for the last year of this term in 2025.

The City Council establishes City laws; creates, evaluates and approves policies, legislation, and regulations; approves the City's annual operating and capital improvement budgets; and provides oversight to the City's executive departments. Each Councilmember has a staff of legislative assistants who assist in this work.

Central Staff provides policy and budget analysis for Councilmembers and their staffs, as well project management related to City Council consultant contracts. The Office of the City Clerk advances principles of open government and inclusive access through effective facilitation of the legislative process and transparent, accountable stewardship of public information and the official record, including City Council proceedings and legislation. The City Clerk serves as ex-officio elections administrator and filing officer. The office manages the City's Boards and Commissions Registry Program; coordinates public records disclosure requests; and provides information technology, administrative and operational support to the Legislative Department.

Communications and Human Resources/Finance teams are also a part of the Legislative Department. Communications staff assist Councilmembers and the Council as a whole in communicating values, goals and issues to the public by providing marketing and public relations services, including website and social media management, strategic media relations and public affairs work. Human Resources/Finance staff provide employee relations, talent acquisition, employee development, performance management, benefits administration services, finance, budget, accounting, and payroll for the Legislative Department and the Office of City Auditor.

Legislative Department

Budget Overview

The 2025-2026 Proposed Budget maintains core services for the Legislative Department. This proposed budget increases the department's budget by 8% from 2024, and it includes technical adjustments to bring the department's baseline budget into alignment with internal service cost changes and annual wage and market adjustment increases.

The General Fund revenue forecast for the budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in the following areas: an increase in vacancy rate assumption by 1% resulting in a reduction of approximately \$165,500 in ongoing General Fund salary appropriation.

Incremental Budget Changes

Legislative Department

	Dollars	FTE
2024 Adopted Budget	21,022,811	101.50

Total 2025 Proposed Budget	\$22,764,475	101.50

Legislative Department

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$2,012,536

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$263,749

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Remove One-Time Council Staff Transition Funding

Expenditures \$(200,000)

This item removes one-time funding that was appropriated to assist with elected officials and staff transitions for 2024, due to the high number of transitions.

Proposed Operating

Increase Vacancy Rate by 1%

Expenditures \$(165,579)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item increases the Legislative Department's vacancy rate assumption by 1%, which reduces its General Fund budget and could result in the department temporarily holding vacancies when and where they become available.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(169,042)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Office of the Mayor

Bruce A. Harrell, Mayor

(206) 684-4000

<http://www.seattle.gov/mayor/>

Department Overview

The Office of the Mayor works to provide leadership to the residents, employees, and regional neighbors of the City of Seattle and to create an environment that encourages ideas, civic discourse, and inclusion for the City's entire diverse population.

In the municipality of Seattle, the Mayor governs the Executive Branch as its chief executive officer. The many legal roles and responsibilities of the Mayor, and those working directly for the Mayor, are prescribed in the City Charter, state statutes and municipal ordinances. Elections for this nonpartisan office are held every four years.

Budget Overview

The 2025-2026 Proposed Budget maintains core services for the Office of the Mayor. The proposed budget includes technical adjustments to align the department's budget with internal service cost changes and annual wage and market adjustment increases.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in the Office of the Mayor to increase the vacancy rate assumption by 1% resulting in an ongoing reduction of approximately \$70,000.

Total 2025 Proposed Budget	\$15,131,822	40.50

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$848,166

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$2,592,531

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Increase Vacancy Rate by 1%

Expenditures \$(69,380)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item increases the Office of the Mayor's vacancy rate assumption to 1%, which reduces General Fund budget and could result in the department temporarily holding vacancies when and where they become available.

Office of the Mayor

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(105,263)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

¹ In January of 2024, the Mayor instituted a hiring freeze for most non-public safety departments. The hiring freeze is estimated to save \$14.3 million in labor expenditures in 2024.

Notes:

¹ Through CBA FG-903-A-001-2023, Council transferred \$1.2 million in JumpStart revenue into the Sweetened Beverage Tax Fund in both 2023 and 2024 to temporarily buffer a shortfall in Sweetened Beverage Tax (SBT) revenue. This action is in response to the November 2022 revenue forecast.

² 2024 Legislated and Revised expenditures include carryforwards.

¹The City is working with the Local Organizing Committee to identify CIP Projects that will be necessary as preparation for the 2026 World Cup, which is expected to bring a significant number of visitors to the region and have notable impacts on infrastructure. These one-time funds will be appropriated through the supplemental budget process in 2025.

² Street Vacation Fees are based on various economic factors related to site development. While the City does attempt to estimate Street Vacation Fee revenue based on preliminary site development, the fee can be delayed up to a few years. To account for the uncertainty, the City may hold planning reserves until more information is known on the underlying project.

<i>Ending Unreserved Budgetary Fund Balance</i>	0	0	0	0	0	0	0

¹The decreased Department Contributions in the 2024 Revised are due to the planned cancellation of certain department payments into the fund in October-December of 2024, totalling \$53.3 million. Such a cancellation of payments is often called a "health care holiday" and is the method by which fund surpluses, accumulated due to the over estimation of enrollments or general excess revenue above expenditures, are returned to departments. For more details on the 2024 health care holiday, see the budget overview.

---------------------	-----------------	-----------------	-----------------	------------------	------------------	-------------------	-------------------

- Notes:
1. The Golf reserve reflects excess revenues earned by the Golf program to be appropriated in subsequent budget year via a supplemental budget change.
 2. The SPU Reservoir reserve holds anticipated property use fee expenses related to the joint use of SPU and SPR properties.
 3. The financial plan carries a modest cash flow reserve to maintain financial stability in the face of one time unforeseen and unbudgeted expense or revenue issues.
 4. The financial plan carries a Capital Revenue Reserve for capital projects where reimbursements for grant-related expenses are not received until a future year.
 5. These reserves covered anticipated expenditures in 2023 for both the Park and Recreation Fund and the Seattle Metropolitan Park District Fund (19710). In 2025 - 2028 these reserves cover anticipated expenditures in only the Park and Recreation Fund.
 6. This reserve reflects temporary rental income on the landbanked site that will be used for future site development or remediation work.
 7. This reserve was held to cover the Aquatics subsidy resulting from the COVID-19 pandemic (2023-2025).
 8. This reserve was held to cover one time costs related to the operating agreement with the Zoo.

Notes:

¹ The Democracy Voucher Program is funded by a voter-approved, ten-year levy that expires December 31, 2025. In this scenario, the program is not renewed. However if another ballot measure is put forth and approved by voters, the program could continue in 2026 and beyond.

Notes:

1. The CDBG Restricted Revolving Loan Funds represent three distinct funds: Multifamily Revolving Loan Fund, the Homebuyer Revolving Loan Fund, and the Home Repair Revolving Loan Fund. The proposed budget eliminates the Multifamily and Homebuyer Revolving Loan Funds. The reserve amount in 2025 reflects the current total balance for all three funds. The reserve amount in 2026 reflects the current balance for the Home Repair Revolving Loan Fund only.
2. The Multifamily and Homeownership Capital Fund planning reserve is a balancing entry to reflect that any remaining unreserved fund balance in the Low-Income Housing Fund will be reallocated to multifamily or homeownership capital awards.

Notes:

1. The 2023 Levy Admin Reserve in the planning reserves will cover anticipated labor cost increases in the outyears of the Levy. The amount of revenue generated by the Levy is constant in each year. Actual labor costs are less than collected revenues in the beginning years of the Levy and are more than collected revenues in the final years of the Levy.

Notes:

1. Outyear property tax growth estimated at 1% based on CBO forecast.
2. Sources of Funding: Families and Education Levy (2011) Fund Balance is based on the adopted levy plan.
3. These provide resources to continue programming as outlined in the FEPP Levy Implementation & Evaluation Plan. Any annual underspend is reallocated each year through planning with the FEPP Levy.
4. These resources were set aside from 2022 underspend for additional programmatic needs for the 2024-25 and 2025-26 school years.
5. These are resources from 2023 underspend for additional programmatic needs for the 2024-25 and 2025-26 school years.
6. Seattle Promise Reserve funds increasing enrollment and support services based on projected increases in demand.
7. Levy Renewal Contingency is available to reduce the future levy size and/or transition services no longer supported by the levy.

Notes:

¹ Historic beginning fund balances are the cash balance on January 1 of that year.

² Out year assumptions represent forecasted cash flows in the utility's Financial Planning Model which is used to evaluate City Light rate impacts, potential financial performance of the utility.

³ Revenues include bond sales.

¹ Beginning Fund Balance is cash balance at the beginning of the year.

² Technical Adjustments represent non-budgetary items, including accounting adjustments, that affect budgetary fund balances. These items can be non-budgetary expenditures (e.g. OPEB) or can represent technical revenue or spending adjustments (e.g. accomplishment rates).

³ The Water Fund targets an ending operating cash balance of \$110 million per year.

¹ Assumes 2% annual growth for both revenues and expenditures 2027-2028, excluding Capital Improvements, which remain static, and planned uses of fund balance.

² "Revenues from Other City Departments" for projected years (2027-28) is set to match the difference between total budgetary expenditures (less planned uses of fund balance) and the sum of all other revenue sources. This reflects FAS' rate setting process, which aims to recover 100% of budgetary expenditures.

³ Due to FAS' new project structure, expenditure categories have changed starting in 2024 to align with new Budget Summary Levels.

⁴ 2024 revised Capital Improvements revenue reflects anticipated billing of \$24.7 million for capital projects FAS executes on behalf of other departments.

⁵ An assumed \$1.5m use of fund balance is built into each of 2027 and 2028.

¹ Revenues from Other City Departments are set to minimize variance from year to year while still bringing in sufficient funds to replace vehicles as planned.

² Revenues from Other City Departments are based on the replacement model's projections of future collections. 2027-2028 revenues include a premium to recover for the proposed two-year rate holiday.

³ Projected expenditures are set to match planned vehicle replacements and are inconsistent from year to year.

⁴ \$24.9 million of the encumbered funds are for Fire apparatus that will not be delivered or paid for until 2027. This is reflected in the 2027 projected spend.

⁵ All fund balance reserved for future vehicle replacements.

⁶ Updating the financial plan to align with the vehicle replacement model, which includes anticipated salvage revenue.

⁷ This row tracks the cumulative salvage revenue in the reserves as it does not automatically carry forward in the financial plan.

Information Technology Fund (50410)

Amounts in \$1,000s	2023 Actuals	2024 Adopted	2024 Revised	2025 Proposed	2026 Proposed	2027 Projected	2028 Projected
---------------------	-----------------	-----------------	-----------------	------------------	------------------	-------------------	-------------------

Assumptions:

¹Beginning Balance Sheet Fund Balance/Ending Balance Sheet Adjustment exclude account 143900 - Prepaid Expenses-Other per CWA's guidance.

²Billable Project Revenues: Double budget appropriation for IT Project Management resources that are not assigned to specific Projects.

³ITD's Cost of Technology Consumption: ITD's consumption of ITD projects and services. Represents intra-fund (50410) revenue.

⁴Non-City Agency Revenues: Revenue collected from Agencies outside of the City of Seattle (e.g., King County).

⁵Rates Direct Billed (2023 CIP Carryforward Items): Unspent CIP budget, carried forward from FY 2023 to FY 2024, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).

⁶Direct Billed (2023 Grants Carryforward): Unspent FCC Grant budget, carried forward from FY 2023 to FY 2024, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).

⁷Rates Direct Billed (2023 Operating Carryforward Items): Unspent operating budget, carried forward from FY 2023 to FY 2024, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).

⁸One-Time Projects: Reserves for various one-time ITD projects.

⁹Expenditures in the out years are reflecting the real debt service schedule in the out years instead of standard inflation per CBO.

¹⁰Current Year Grant/Svc Contract/Capital CFD Revenues: Includes the direct billed revenues to be collected in FY 2024 for CIP (excluding PC-IT-C7050 'Radio Communications CIP'), Encumbrances, Grants, and Special Carryforward budgets.

¹¹Current Year Grant/Svc Contract/Capital Expenditure CFD's: Includes the allocated revenues collected in FY 2023 for CIP (excluding PC-IT-C7050 'Radio Communications CIP'), and Special Carryforward budgets.

¹²Computer Replacement: PC replacements for the Law Department which replaces all of its PCs every five years, versus a portion each year.

Central Service Departments and Commissions – 2025-2026 Cost Allocation Factors

Central Service Department	Cost Allocation Factor
City Auditor	Count of audit reports per department over prior two-year period.
City Budget Office	Percent of FTE time spent on cost allocation departments/funds.
Civil Service Commission	Five-year average number of cases by department.
Office of Civil Rights	Enforcement: 2-year average number of cases filed by department. RSJI: Budgeted FTE by department. Policy: 100% General Fund Administration: Applied proportionally to department programs.
Office of Employee Ombud	Budgeted FTE by department.
Office of Intergovernmental Relations	Staff time and assignments by department.
Office of Sustainability and Environment	Management assessment of FTE time on work programs.
Law Department	Two-year average of civil attorney and paralegal service hours by department (excludes hours that are covered by direct billing via MOAs), including proportionate amount of overhead.
Legislative Department	City Clerk's Office based on number of Legislative items; Central Staff and Legislative Assistants on assignments; City Council 100% General Fund or by MOA.
State Examiner (State Auditor)	75% by PeopleSoft data points; 25% by budgeted FTEs.
Emergency Management	Actual operating expenditure dollar spread.

Adjustments from 2025-2026 Budget Factors:

- Civil Service Commission – Updated table to show that we use a rolling five year average due to the low number of cases per year. CBO has been using a five-year average for several cycles but the table was not updated.
- Office for Civil Rights RSJI Budget – For 2025-26, the RSJI budget will be split using 2024 Adopted Budget FTEs. The RSJI team has experienced historic vacancy rates over the last two years and saw a large reduction in the number of trainings being held in 2022-23 because of COVID and priority shifts. This training measure is not an accurate depiction of how the budget was being used. The department is shifting the RSJI focus away from a training-based approach to business to supporting RSJI needs of the City with project management, technical assistance, leadership trainings (cohorts), train the trainer programs, the RSJI Summit and IDT support for new RSJI charter. Currently, there are no historical measures for this type of work in OCR. Since their work affects all employees to some extent, Budgeted FTEs will be used until factors can be collected and applied.

Glossary

Annual Comprehensive Financial Report of the City (ACFR): The City's audited annual financial statements prepared by the Department of Finance & Administrative Services.

Appropriation: A legal spending authorization granted by the City Council, the City's legislative authority, to make expenditures and/or incur obligations for specific purposes.

Biennial Budget: A budget covering a two-year period. Under state law, a biennium begins with an odd-numbered year.

Budget - Adopted and Proposed: The Mayor submits to the City Council a recommended revenue and expenditure level for all City operations for the coming fiscal year as the Proposed Budget. When the City Council agrees upon the revenue and expenditure levels, the Proposed Budget becomes the Adopted Budget, funds are appropriated, and legal expenditure limits are established.

Budget - Endorsed: The City of Seattle implements biennial budgeting through the sequential adoption of two one-year budgets. When adopting the budget for the first year of the biennium, the Council endorses a budget for the second year. The Endorsed Budget is the basis for a Proposed Budget for the second year of the biennium, and is reviewed and adopted in the fall of the first year of the biennium.

Budget Control Level: The level at which expenditure appropriations are controlled to meet State and City budget law provisions.

Capital Assets: Assets of significant value and having a useful life of at least 10 years or more. Capital assets may also be referred to as "fixed assets."

Capital Improvement Program (CIP): Annual appropriations from specific funding sources are shown in the City's budget for certain capital purposes such as street improvements, building construction, and some kinds of facility maintenance. These appropriations are supported by a six-year allocation plan detailing all projects, fund sources, and expenditure amounts, including many multi-year projects that require funding beyond the one-year period of the annual budget. The allocation plan covers a six-year period and is produced as a separate document from the budget document.

Chart of Accounts: A list of expenditure, revenue, and other accounts describing and categorizing financial transactions.

Community Development Block Grant (CDBG): A U.S. Department of Housing and Urban Development (HUD) annual grant to Seattle and other local governments to support economic development projects, human services, low-income housing, and services in low-income neighborhoods.

Cost Allocation: Distribution of costs based on some proxy for costs incurred or benefits received.

Cumulative Reserve Subfund (CRS): A significant source of ongoing local funding to support capital projects in general government departments. The CRS consists of two accounts: the Capital Projects Account and the Revenue Stabilization Account. The Capital Projects Account has six subaccounts: REET I, REET II, Unrestricted, South Lake Union Property Proceeds, Asset Preservation Subaccount - Fleets and Facilities, and the Street Vacation Subaccount. The Real Estate Excise Tax (REET) is levied on all sales of real estate, with the first .25% of the locally imposed tax going to REET I and the second .25% to REET II. State law specifies how each REET can be spent.

Debt Service: Annual principal and interest payments the City owes on money it has borrowed.

Errata: Adjustments, corrections, and new information sent by departments through the City Budget Office to the City Council during the Council's budget review as an adjunct to the Mayor's Proposed Budget. The purpose is to adjust the Proposed Budget to reflect information not available upon submittal and to correct inadvertent errors.

Glossary

Full-Time Equivalent (FTE): A term expressing the amount of time for which a position has been budgeted in relation to the amount of time a regular, full-time employee normally works in a year. Most full-time employees (1.00 FTE) are paid for 2,088 hours in a year (or 2,096 in a leap year). A position budgeted to work half-time for a full year, or full-time for only six months, is 0.50 FTE.

Fund: An accounting entity with a set of self-balancing revenue and expenditure accounts used to record the financial affairs of a governmental organization.

Fund Balance: The difference between the assets and liabilities of a particular fund. This incorporates the accumulated difference between the revenues and expenditures each year.

General Fund: A central fund into which most of the City's general tax revenues and discretionary resources are pooled, and which is allocated to support many of the operations of City government. Beginning with the 1997 Adopted Budget, the General Fund was restructured to encompass a number of subfunds, including the General Fund Subfund (comparable to the "General Fund" in prior years) and other subfunds designated for a variety of specific purposes. These subfunds are listed and explained in more detail in department chapters, as well as in the Funds, Subfunds, and Other section of the budget document.

Grant-Funded Position: A position funded 50% or more by a categorical grant to carry out a specific project or goal. Seattle Municipal Code 4.04.030 specifies that "categorical grant" does not include Community Development Block Grant funds, nor any funds provided under a statutory entitlement or distribution on the basis of a fixed formula including, but not limited to, relative population.

Neighborhood Matching Subfund (NMF): A fund supporting partnerships between the City and neighborhood groups to produce neighborhood-initiated planning, organizing, and improvement projects. The City provides a cash match to the community's contribution of volunteer labor, materials, professional services, or cash. The NMF is administered by the Department of Neighborhoods.

Operating Budget: That portion of a budget dealing with recurring expenditures such as salaries, electric bills, postage, printing, paper supplies, and gasoline.

PeopleSoft 9.2: The City's central accounting system managed by the Department of Finance & Administrative Services.

Position/Pocket Number: A term referring to the title and unique position identification number assigned to each position authorized by the City Council through the budget or other ordinances. Positions may have a common title name, but each position has its own unique identification number assigned by the Records Information Management Unit of the Seattle Department of Human Resources at the time position authority is approved by the City Council. Only one person at a time can fill a regularly budgeted position. An exception is in the case of job-sharing, where two people work part-time in one full-time position.

Program: A group of services within a department, aligned by common purpose.

Reclassification Request: A request to change the job title or classification for an existing position. Reclassifications are subject to review and approval by the Classification/Compensation Unit of the Seattle Department of Human Resources and are implemented upon the signature of the Director of Human Resources, as long as position authority has been established by ordinance.

Reorganization: Reorganization refers to changes in the budget and reporting structure within departments.

SUMMIT: The City's former central accounting system managed by the Department of Finance & Administrative Services.

Sunsetting Position: A position funded for only a specified length of time by the budget or enabling ordinance.

TES (Temporary Employment Service): A program managed by the Seattle Department of Human Resources. TES places temporary workers in departments for purposes of filling unanticipated, short-term staffing needs, such as vacation coverage, positions vacant until a regularly-appointed hire is made, and special projects.

Glossary

Type of Position: There are two types of budgeted positions. They are identified by one of the following characters: **F** for **Full-Time** or **P** for **Part-Time**.

- **Regular Full-Time** is defined as a position budgeted for 2,088 compensated hours per year, 40 hours per week, 80 hours per pay period, and is also known as one full-time equivalent (FTE).
- **Regular Part-Time** is defined as a position designated as part time, and requiring an average of 20 hours or more, but less than 40 hours of work per week during the year. This equates to an FTE value of at least 0.50 and no more than 0.99.

Reader's Guide to the 2025-2030 Proposed Capital Improvement Program

The City of Seattle's 2025-2030 Proposed Capital Improvement Program (CIP) includes an overview, departmental sections, appendices, and a glossary. The overview provides information on the CIP, allocations, funding sources for capital projects, significant initiatives, support for neighborhoods and neighborhood plan projects, and policies guiding the City's capital investments.

Departmental sections comprise most of the CIP document and contain detailed information on each of the capital projects. The following departments have sections in this book: Seattle Parks and Recreation, Seattle Center, Seattle Public Library, Seattle Department of Transportation, Seattle City Light, Seattle Public Utilities, Seattle Information Technology, and Finance and Administrative Services. Appendix A lists new or expanded capital facilities as required by the Growth Management Act. Appendix B lists all projects that will exceed \$5 million with their 2025 appropriation as required by Resolution 31203.

Reading CIP Project Pages

CIP project pages, located in the departmental sections of the CIP, provide the most detailed information about a project. The project pages contain the following information:

Project Type: Projects will have one of three project types: Discrete, Ongoing, or Debt Service. Discrete projects are those with a distinct start and end date and build an individual asset. Ongoing CIP projects are departmental CIP programs that build or maintain a group of similar assets. Debt Service projects show the dedicated funding stream to pay the debt service for a project or group of projects.

Project No.: Unique number identifying a project in the City's financial management system.

Start/End Date: Estimated Start and End year of a discrete project. Projects without a determined start or end date may show as "TBD" or "On Hold." Projects categorized as "Ongoing" in the Project Type field are programmatic and continue year after year, therefore they do not display a Start/End Date.

BCL (Budget Control Level)/Program Code, BCL/Program Name: A grouping of similar projects into department-specific programs. Also reflects the level at which expenditures are controlled to meet state budget law provisions.

Current Project Stage: The current stage of a discrete CIP project during budget planning (August of the budget development year).

Stage 1—Pre-project Development: All master planning, asset planning, and needs identification. Rough order of magnitude cost estimate¹ for CIP budget established at the end of Stage 1.

¹ The City's budget ordinance requires that a project be assigned a CIP ID number before spending may occur on a project. As a result, Stage 1 project cost estimates/budgets are "Rough Order of Magnitude" estimates based on previously constructed projects or high-level cost estimates which use generic assumptions. Departments refine cost estimates at the end of Stage 2.

Stage 2—Initiation, Project Definition & Planning: Define project and create Project Management Plan (or pre-design package) which sets the project baseline (scope, schedule and budget) from which a department measures variance.

Stage 3—Design: 30%-100% design work.

Stage 4—Procurement/Bid: Advertisement, bid review, bid award, and Notice to Proceed.

Stage 5—Construction: All construction activities. (Note: The term *Execution* is used for Seattle Information Technology).

Stage 6—Closeout: Final project closeout items, includes financial closeout.

Project Category: Projects are identified as New Facilities, Improvements to Existing Facilities, or Rehabilitation or Restoration of Existing Facilities. Technology projects, or those that do not fit into the categories above, are identified as New Investments.

Location: Street address, intersection, or general location of a project.

Neighborhood District: The City is divided into 13 neighborhood districts. This field indicates in which (if any) neighborhood district(s), a project is located. Some projects are located in more than one neighborhood district or outside the city and are noted as such.

Council District: The City is divided into seven Council districts. This field indicates in which (if any) council district(s), a project is located. Some projects are located in more than one council district or outside the city and are noted as such.

Total Project Cost: The expected total project cost estimate of a Discrete project. The Total Project Cost includes any “out year” spending (spending outside the current six-year CIP).

Urban Village: This field indicates whether a project is located in an Urban Village, a designated geographic area expected to accommodate future population and job growth, as defined by the Comprehensive Plan’s growth management strategy.

Project Description: Information about the purpose, scope, and history of the project.

Resources: The Resources are sources of money supporting a particular project such as grants, private donations, debt, Real Estate Excise Taxes, etc. The Resources Table lists the project’s revenue sources, life-to-date (LTD) expenditures through the prior year; the current year revised budget (including Adopted Budget, carry-forward balances, abandonments, and supplemental appropriations); proposed/adopted appropriations; and estimated appropriation requests for the remaining five years of the CIP period.

Fund Appropriations/Allocations: This table lists the appropriating funds and the annual appropriation total for that specific project for the current year and adopted budget year.

Financial Planning Strategy: The financial planning strategy section appears on CIP Project Pages for discrete projects that are large enough to be part of the Project Cost Estimate Review and Validation

Process, as described in the CIP Overview. The financial planning strategy discusses the overall funding plan for the life of the project.

Unsecured Funding: The “Unsecured Funding” table shows the portion of the project cost that does not have committed funding. The “Unsecured Funding Strategy” discusses the department’s plan to secure funding for that portion of the project.

O&M Costs (Savings): Description of estimated increases or decreases in operations and maintenance costs as a result of a capital project. “NA” denotes that operations and maintenance costs are not calculated.

Capital Improvement Program

Overview

Capital Improvement Program Purpose

The Capital Improvement Program (CIP) is a six-year financial planning tool that identifies future capital investments and potential strategies for funding those investments. The CIP also satisfies various requirements of cities planning under Washington State's Growth Management Act.

Introduction

The City of Seattle owns and operates a variety of physical assets, ranging from community parks, roadways, bridges, office buildings, libraries, open space, fire stations, maintenance yards, facilities at Seattle Center, and more. The City must properly maintain these assets in order to ensure they are safe, lasting, and provide a welcoming and usable space to serve their intended purposes. The City's utility infrastructure is also included in the CIP, including electric, solid waste, water and wastewater utility assets. The City's capital infrastructure supports City operations, direct public services and programs, and in some cases, provides direct public benefits themselves.

Every year during the annual budget process, the City adopts a six-year CIP, which outlines anticipated investments over that timeframe. The 2025-2030 Proposed CIP totals \$8.1 billion over six years, with approximately \$1.26 billion of that amount designated for the 2025 budget year.

The 2025-2030 Proposed CIP is a compilation of all CIP adjustments made through the Year End Supplemental period for the 2024 Revised budget. This includes all legislative action that occurred in the following periods:

- 2024 Midyear Supplemental budget adjustments,
- 2024 Year-end Supplemental budget adjustments,
- Stand-alone legislation and administrative adjustments made prior to the year-end Supplemental.

All allocation totals listed in this document are the sum of the project adjustments made in the periods listed above.

Capital Planning Policies

The City has historically based capital planning efforts on a set of criteria that help set priorities among potential capital programs. [Resolution 31203](#), adopted in June 2010, set out the following policies to guide the City's capital spending:

- preserve and maintain existing capital assets;
- support the goals of the City's plans;
- support economic development;
- consider external funding possibilities;
- consider revenue-generating possibilities;
- seek regional funding for regional projects;
- pursue cost-saving commitments; and,
- pursue conservation and sustainability investments.

Additional specific considerations include:

- compliance with regulatory requirements;
- coordination between departments and with other jurisdictions; and
- public safety and health.

Project Cost Estimate Review and Validation Process

The 2025-2030 Proposed CIP continues to incorporate the process that was developed in 2019 through the work of the capital department Directors group. This process reflects an improved approach to budgeting for large, discrete CIP projects in early stages of development and provides Council and the public with a better understanding of the risk and uncertainty associated with each of the projects.

The key elements of the process are:

- Discrete projects with an initial rough order of magnitude total project cost estimate over \$10 million will show a range of possible costs rather than an exact dollar estimate.
- Departments will appropriate and budget the estimated cost to reach 100% design, as shown on the CIP Project Page. They will also plan for, and communicate the remaining construction costs by using a midrange “Financial Planning Estimate” for six-year financial planning purposes.
- At the 30% design milestone, the project will be baselined and a total project cost and project schedule will be established. During the next budget cycle (or any subsequent Council action) the department will budget the full total project cost on the CIP Project Page.
- If the baseline total project cost estimate is under \$50 million the project will proceed through capital project delivery process according to historic practice.
- If the 30% baseline total project cost is over \$50 million, the department will initiate a third-party review of the baseline total project cost estimate. The department will bring the results of the third-party cost estimate review to the Project Delivery Executive Committee and/or the Directors’ Capital Committee to determine the next steps.

The Cost Estimate Review and Validation process will be modified according to the findings of the initial pilot projects being used to improve the concept.

Capital Improvement Program Funding

Like all large municipalities, Seattle relies on a variety of sources to pay for capital projects. These include locally generated revenues (taxes, fees, voter-approved levies, utility rates, and user fees), intergovernmental revenues (including state and federal grants), private funding (franchise utilities, philanthropy) and debt issuance. These traditional sources continue to provide the majority of funding for capital facility investments. The City’s level of capital investment is based on the mix and amount of financial resources available to the City.

Debt Financing

The City uses multiple forms of debt to finance large capital projects such as Limited Tax General Obligation Bonds (LTGO) also known as councilmanic bonds, Unlimited Tax General Obligation Bonds (UTGO) or voter-approved bonds, and revenue bonds. Unlike pay-as-you-go sources of funding, the issuance of debt requires revenues in future years to repay the principal and interest expenses. Councilmanic debt is a common financing tool used by the City, but those obligations must be repaid from the same set of limited resources including Real Estate Excise Tax (REET), commercial parking tax (CPT) and General Fund revenues. See the “City Bond Issuance and Debt Service” in the Introduction

section of the 2025-2026 Proposed Mid-Biennial Budget Adjustments for more information on debt financing.

The 2025-2030 Proposed CIP includes approximately \$65.3 million in 2025 LTGO bond issuances and related costs for CIP projects. The 2025 bonds will finance significant technology, city facility, and fire station projects.

Public Utility Funding

Both Seattle City Light and Seattle Public Utilities fund utility projects with revenues from utility rates. Each utility has adopted financial policies that determine what share of their capital investments are funded through cash, and what share from debt. These policies are designed to balance the portion of current investments that are paid by today's ratepayers, versus future ratepayers who will also benefit from long-term capital investments.

Federal Bipartisan Infrastructure Law (BIL) and Inflation Reduction Act (IRA)

The Bipartisan Infrastructure Law (BIL) provides \$550 billion nationally in new spending on energy and power infrastructure, access to broadband internet, water infrastructure, and other program areas. The majority of this new funding is divided into Formula Grant Programs and Discretionary (Competitive) grants. This federal funding may be disbursed to cities either directly or through state or infrastructure authorities such as transit authorities. Federal agencies responsible for appropriations are continuing to develop program and funding guidelines and implementation of these programs will be staggered over several years. The Inflation Reduction Act (IRA), passed in August 2022, includes \$369 billion in new spending to reduce greenhouse gas emissions, invest in clean energy technologies, and extend subsidies for the Affordable Care Act. The IRA is composed primarily of tax credits to private companies and individuals but includes some funding for granting programs as well.

The Mayor has established a process for review and tracking of grant applications for federal funding. This process involves an Executive Steering Committee composed of key department and Mayor's Office personnel that facilitate coordination, leverage opportunities between programs, provide central vision and direction to the City's BIL efforts, and keeps the Mayor's Office, City Council and other stakeholders updated on the City's progress.

Real Estate Excise Tax (REET)

Funding of the City's general government capital program is highly dependent on revenue from Real Estate Excise Tax (REET), which is an excise tax imposed on the sale of real property. REET is a relatively volatile revenue source that generally tracks closely to local economic activity.

Projected REET revenue for the 2025-2030 Proposed CIP period reflects the ongoing impact that elevated interest rates are having on the local real estate market. Actual REET revenue collections in 2023 were lower than forecasted by nearly \$1 million and forecasted REET for 2024 are projected to be \$4.9 million more than the 2024 Adopted CIP. For the 2025-2030 Proposed CIP, revenues are projected to be approximately \$5.5 million more than 2024-2029 Adopted CIP estimates over the 6-year window. The increase in the REET revenue forecast, in conjunction with updates to REET projects financed with debt, has primarily allowed.

The City's REET policy (Resolution 31952) requires a \$10 million REET fund balance reserve to protect against unexpected downturn in REET revenue collection and forecast. The Adopted 2024-2029 CIP necessitated the use of the REET fund balance reserve due to significant revenue shortfalls. For the

2025-2030 Proposed CIP, the fund balance reserve is replenished due to the increase in projected revenues and updates to bond issuances that are backed by REET.

The 2025-2030 Proposed CIP uses REET to make investments in a wide variety of asset preservation projects across the City's capital departments, to fund ongoing debt service for large capital investments such as Fire Station improvements and Tribal Interpretative Center, and to provide partnership funding for the rehabilitation of Memorial Stadium at Seattle Center.

Seattle's Recent History – Major Voter-Approved Levies and Capital Projects

In addition to reliance upon general tax sources, Seattle undertook several major capital projects during the last two decades using voter-approved funds and councilmanic debt. Voter-approved capital projects include improvements to Seattle Center and construction of new or expanded community centers and parks, new or remodeled downtown and branch libraries, new or remodeled fire facilities, parks improvements, transportation infrastructure improvements and replacement of the Elliott Bay Seawall. The following is a list of recent property tax levies that are still actively funding projects:

- *The Move Seattle Transportation Levy:* The Move Seattle Levy, a nine-year \$930 million levy was approved by voters in 2015, and expires at the end of 2024. The proposed budget appropriates \$20.5 million in 2025, as investments funded by the levy wind down. Levy proceeds will be used to support safe routes, congestion relief, and maintenance and repairs of the City's bridges and arterial roadways. A major financing strategy in the Move Seattle Levy is the dependence on partnerships—leveraging external resources such as state and federal grants to accomplish transportation projects such as the Madison Bus Rapid Transit (BRT) – RapidRide G Line. These will continue as long as levy funds remain to close out these projects.
- *Seattle Park District:* The Seattle Park District was passed by voters in 2014, with a goal to provide long term, stable funding to support recreation programming, parks projects and the critical needs for investment in major and ongoing maintenance. 2025 will be the third year of Cycle 2 of the Park District, a six-year funding cycle, which is proposed to provide over \$50 million in 2025 for major maintenance and capital projects.
- *The 2019 Library Levy:* A seven-year, \$219 million levy to support, maintain and improve core Library services. Included as part of the levy were resources for the preservation and maintenance of library facilities. The City Librarian and the Library Board of Trustees prepare annual progress reports that show how levy proceeds have been used each year. The levy provides an average of \$3.1 million annually for major maintenance and asset preservation projects; including maintenance necessary for building components such as roofs, floors, finishes, HVAC and mechanical systems. The levy also includes funding for earthquake retrofits at three Carnegie branches.
- *The 2008 Parks and Green Spaces Levy:* A six-year, \$146 million levy to acquire, develop, or restore, existing or new, parks, recreation facilities, cultural facilities, green spaces, playfields, trails, community gardens, and shoreline areas. This levy expired at the end of 2014, and the Seattle Park District is now providing on-going funding to help address major maintenance needs, as well as park development, at the Seattle Parks and Recreation (SPR). As of 2024, the 2008 Parks and Green Spaces Levy Fund carried a balance of about \$104,000. SPR expects to fully spend these resources on projects identified in the Levy by the end of 2024.

Funding Dynamics for Significant Future Capital Projects

Given general resource funding challenges, the City will continue to rely on a mix of general government resources and voter-approved funding packages to complete major capital projects and to secure needed funding for basic asset preservation. The City has identified several major priority areas for which significant capital investments will be needed. The following sections describe these priority areas at a high level.

Public Safety Facilities

Planning for the future of Seattle's public safety facilities is critical to maintaining the high level of service expected of the Seattle Fire Department (SFD) and Seattle Police Department (SPD). Both departments have a number of large capital facility needs, such as improvements to the Fire Station Headquarters and growing capital needs at police facilities. This CIP provides funding for a new Fire Station 31 in North Seattle, as well as continued support of police facility improvements.

Electrifying the City's Fleet

The Green Fleet Action Plan (GFAP) and Mayoral Executive Orders established the need for a capital program to plan for the future support of rapid electrification of the City's fleet and also support decarbonizing facilities to promote sustainability. The Drive Clean Seattle program originally funded four major projects to install vehicle charging infrastructure that supports transportation electrification to meet greenhouse gas emission reduction goals for the City. This CIP provides continues funding the next phase of prioritized projects, including the necessary power upgrades to key fleet locations at both Charles Street and Haller Lake facilities. The power upgrades are needed to support large-scale electric vehicle charging hubs and future facility decarbonization.

Transportation

The City's existing transportation network faces an extensive backlog of major maintenance. Current funding is insufficient to maintain the City's roads, bridges, signs, etc. In addition, through a series of long-term planning efforts the City has compiled the previously named "modal plans" into one Seattle Transportation Plan that identifies large potential investments in a transit network, bicycle facilities, freight projects and pedestrian-oriented infrastructure. The \$930 million Levy to Move Seattle is addressing critical transportation programs such as safe routes, relief of congested roadways and maintenance and repair programs, but expires at the end of 2024. This budget reflects the expiration of the Levy to Move Seattle, reprioritizing base department funding to maintain critical infrastructure and services without levy funding. The Department is anticipating federal funding through the BIL and IRA bills that will help address some of these needs.

Waterfront

In 2025, the City will open to the public all the projects included in the redevelopment Seattle's central waterfront. The projects include the opening of the Overlook Walk connecting Pike Place Market to the waterfront promenade, completing the Alaskan Way Main Corridor project which is a multimodal transportation project that includes pedestrian walkways, bicycle lanes, and roadway, and completion of Waterfront Park at Pier 58.

Funding

The 2025-2030 Proposed Capital Improvement Program includes the final bonding authority for the Alaskan Way Main Corridor Project (MC-TR-C072) and Overlook Walk and East-West Connection Project (MC-TR-C073). This amount is sized to ensure the completion of the project, and actual final bond issuances may be smaller as the project progresses based on need and potential addition of more State funding.

Protecting and Creating Opportunities for Workers

The City considers not only what capital projects to fund, but also how to deliver them and achieve broader goals for fairness, equity, and opportunity in the community. The Department of Finance and Administrative Services (FAS) leads several policy initiatives to ensure social responsibility and equity in the spending of City capital dollars.

Fair and equitable treatment of workers: FAS monitors and enforces fair and equitable treatment of workers in City construction contracts. In 2013, FAS increased its monitoring and enforcement of wage and labor conditions on City-contracted construction projects, including Office of Housing-financed projects. Funding was provided in 2019 to allow FAS to continue this program, including compliance monitoring for wage and labor violations for relevant projects. It also includes funding to support the Acceptable Worksite program, which trains, teaches and enforces anti-harassment and anti-bullying interventions on City-funded construction projects.

Reduce barriers to construction jobs: The City's spending on major capital investments can help drive employment within the local economy. Construction jobs and related positions offer living-wage jobs that can support individuals and families. The City's Priority Hire program provides training and opportunities for City residents to work on City-funded capital projects. For major capital projects, City contractors are bound by the City's Community Workforce Agreement, which is intended to increase employment for women, people of color and those living in economically distressed areas of the City through establishment of aspirational and mandatory labor hours for the respective groups. In 2017, the Priority Hire program was expanded to include applications from public-private partnership projects with significant City investment such as the Climate Pledge Arena project and the Ocean Pavilion (Seattle Aquarium Expansion) project.

Women and Minority Owned Business (WMBE): The City continues to successfully address contracting equity for minority- and women- owned businesses. In 2011, FAS implemented a Citywide requirement on all public work bids and contracts above \$300,000 called the "Public Works WMBE Inclusion Plan" that continues to effectively encourage and enforce commitments by contractors to use WMBE firms. In 2014, FAS launched prompt pay initiatives, which WMBE firms report as very significant and meaningful for their business cash flow. The objective is to continue to provide WMBE firms with business and technical guidance that helps them compete more successfully for public projects, including better equipping them to participate on Priority Hire projects. In 2024, FAS began efforts to modernize the city-wide procurement process and implement a centralized electronic software solution. This e-procurement software solution aims to improve consistency and provide greater accessibility for a wider swath of vendors to submit bids to the City, increasing opportunities for contract equity.

2025-2030 Proposed Capital Improvement Program Summary

The 2025-2030 Proposed CIP totals \$8.1 billion for six years and includes approximately 478 projects¹. Approximately \$5.6 billion of the six-year total (71.4%) are utility projects managed by Seattle City Light (SCL) and Seattle Public Utilities (SPU), and mostly funded by utility rates. The Seattle Department of Transportation's CIP totals \$1.1 billion (14.%) over the six-year period, while the remaining departments (Parks and Recreation, Finance and Administrative Services, Seattle Center, Seattle Public Library, and Seattle Information Technology Department) account for approximately \$1.2 billion (14.6%) of the six-year CIP.

2025-2030 Proposed CIP by Department (000s)

Department	2024 Adopted	2025 Proposed CIP	2026-2030 Proposed CIP	2025-2030 Proposed CIP
Finance and Admin Services	60,036	61,021	156,496	217,516
Information Technology	24,493	20,976	81,643	102,619
Parks and Recreation	93,451	80,660	642,730	723,390
Seattle Center	5,073	16,757	101,417	118,174
Seattle Public Library	5,937	8,375	10,032	18,407
Seattle Dept of Transportation	384,308	176,584	955,260	1,131,843
Subtotal	573,298	364,372	1,947,576	2,311,949
City-owned Utilities				
Seattle City Light	446,028	482,746	2,599,701	3,082,447
SPU - Drainage & Wastewater	257,486	231,072	1,307,787	1,538,859
SPU - Solid Waste	31,072	31,380	86,688	118,069
SPU - Water	139,227	149,537	880,346	1,029,883
Subtotal	873,813	894,734	4,874,523	5,769,257
City Total	1,447,111	1,259,106	6,822,099	8,081,205

Note: 2024 Adopted totals are based on the 2024-2029 Adopted CIP. Not all funds above are appropriated; see the 2024 Adopted Budget for a list of capital appropriations by department.

¹ The project total includes all projects with a CIP Project Page in the 2025-2030 Proposed CIP.

2025 Proposed CIP by Department - \$1,259 million

Overview

The table below identifies funding sources for the 2025-2030 Proposed CIP by Revenue Source Group

Revenue Source Group	2024 Adopted	2025 Proposed	2026-2030 Proposed CIP	2025-2030 Proposed CIP
Bond Financed	90,297	52,438	246,659	299,097
Federal Funds	69,708	43,741	62,550	106,291
King County Funding	4,719	1,300	6,500	7,800
Other City Funds	75,793	106,815	422,444	529,259
Other Local Government	21,410	5,935	20,505	26,440
Private Funding	22,707	2,741	18,276	21,017
Real Estate Excise Tax	60,841	66,213	439,468	505,681
State Funding	21,038	9,180	54,226	63,407
Utility Funding	903,175	896,634	4,874,862	5,771,496
Voter-approved Funds (Seattle and King Co.)	177,423	74,109	266,608	340,716
To Be Determined	-	-	410,000	410,000
Grand Total	1,447,111	1,259,106	6,822,099	8,081,205

Note: 2025 Adopted totals are based on the 2024-2029 Adopted CIP.

2025-2030 Proposed CIP Revenues (000s)

Proposed CIP by Revenue Source - \$1,259 million

2025-2030 Proposed Capital Improvement Program

Asset Preservation

The four general government departments in the City's CIP (Finance and Administrative Services, Seattle Public Library, Seattle Parks and Recreation, and Seattle Center) are responsible for approximately 6.9 million square feet of building space, 2.6 million square feet of parking space, and 240 million square feet of grounds (primarily green space) and multiple work yards. These assets require significant investments in preservation and rehabilitation each CIP period.

For 2025, the City will spend a total of \$16.1 million from the two Real Estate Excise Tax Funds and an additional \$78.7 million from various other resources on asset preservation and improvements for general government infrastructure in parks, libraries, civic buildings, and on the Seattle Center campus. With the expiration of the Levy to Move Seattle at the end of 2024, the Department of Transportation will spend \$15.5 million of REET resources and \$161 million of other transportation resources on infrastructure asset preservation and improvements during the 2025 budget period.

Neighborhood Projects

As the City adapts to the impacts of unprecedented growth, and plans for yet further development, a focus on the livability of neighborhoods is essential. The 2025-2030 Proposed CIP reflects this focus, and as highlighted below, supports neighborhood-scale capital investments in several different ways.

Neighborhood Matching Fund

The 2025-2030 Proposed CIP maintains funding to [Neighborhood Matching Fund](#) (NMF) grant programs. Several CIP projects, particularly in Seattle Parks and Recreation, include funding from NMF.

The City created the NMF in 1988 to provide funding to Seattle neighborhood groups and organizations for a broad array of neighborhood-initiated improvement, organizing, or planning projects. Many of these projects also support citywide initiatives such as Race and Social Justice, Youth Violence Prevention, Environment and Sustainability, and Neighborhood Planning. Awards range from a few thousand dollars (Small Sparks projects are up to \$5,000, and the Community Partnership Fund projects range from \$5,001 to \$50,000), and NMF funds can cover all phases of a capital project except property acquisition. The NMF program requires a 1:2 match for capital projects, which means all awards leverage other private and public contributions. Matches consist of volunteer labor, donated materials, professional services, or money. The Department of Neighborhoods administers the granting process.

Art and Design Funding for City Capital Projects - 1% for Art Program

The [1% for Art program](#), established by Seattle Municipal Code Chapter 20.32, requires the City deposit 1% of eligible CIP project budgets in the Municipal Arts Fund for the commission, purchase, and installation of artworks throughout Seattle. The Office of Arts and Culture (ARTS) manages the 1% for Art program and the Municipal Arts Fund.

Municipal Art Fund revenues from the 1% for Art program can fluctuate significantly from year-to-year depending on changes in City capital investments. In 2025, the Municipal Art Fund is estimated to receive approximately \$2.4 million from capital departments for the 1% for Art program, as described below. Actual receipts may vary because of project timing, prior year credits, actual CIP expenditures, and City Council changes to the CIP.

1% for Art Revenues (Estimated)	2025 Proposed
City Light	\$284,811
Seattle Public Utilities	\$1,366,879
Seattle Center	\$14,000
Parks & Recreation	\$190,000
Transportation	\$561,600
Total	\$2,417,290

Design Commission

Established in 1968, the [Seattle Design Commission](#) advises the Mayor, the City Council and appropriate City departments on design and environmental aspects of the City's CIP. Commission members are appointed by the Mayor for a renewable two-year term. Membership is comprised of two licensed architects, one professional fine artist, one appointee from the Get Engaged program, one lay member, and at least one and no more than two from each of the following categories, for a maximum total of five: professional urban planner, professional environmental or urban designer, landscape architect, and licensed professional engineer. The Design Commission is fully funded with funds from the Cumulative Reserve Fund.

Projects eligible for review include any on-or above-grade structure, including buildings and additions to buildings, bridges, park developments, street furniture, and all similar installations. The Commission reviews below-grade structures such as tunnels, arcades and underground passageways that are regularly visible to the public. Projects reviewed by the Commission must be financed in-whole or in-part with City funds, be on land belonging to the City, or be subject to approval by the City. Commission involvement in capital improvement projects begins as early in the planning process as possible, starting with participation in the consultant selection process and continuing through the many stages of project development. This includes project reviews at the scope briefing or pre-design stage, conceptual design, schematic design, design development, and sometimes construction documents stages.

Background of Capital Improvement Program Policy Drivers

As described above, City investments in capital projects are guided by a set of key policies reflecting the City's values and priorities. These policies shape how the City takes care of buildings and infrastructure, invests in capital projects in areas that have accepted growth as envisioned in the City's Comprehensive Plan, preserves the City's historic buildings, supports sustainable building practices, and ensures that all members of the community have access to the economic opportunities capital projects create. The following section details some of these key policies.

Sustainable Building Policy

In February 2000, the City Council adopted a Sustainable Building Policy for the City of Seattle ([Resolution 30121](#)) which articulated the City's commitment to environmental, economic and social stewardship and set the expectation that new municipal facilities meet established green building standards. Specifically, it called for all new construction and major remodel projects over 5,000 square feet to achieve a LEED Silver rating. When adopted, this policy was the first of its kind in the nation and represented a groundbreaking approach to demonstrating City leadership and transforming the marketplace.

Since 2000, the green building community has experienced exceptional growth in expertise and capacity. Recognizing this change, in 2011 the City passed an updated Sustainable Building Policy ([Resolution 31326](#)). The update represents a comprehensive approach that reflects advances in the green building industry, aligns the policy with the City's increased attention to climate change, addresses a greater range of project types, and ensures that Seattle continues to provide leadership that advances sustainable development in both the public and private sectors. The updated policies include the following requirements.

- For new construction, additions, and major renovation projects 5,000 square feet or greater:
 - The minimum required green building rating is LEED Gold.
 - There are minimum requirements for energy and water efficiency, construction waste reductions, and bicycle amenities.
- For tenant improvement projects 5,000 square feet or greater, where the scope includes mechanical, electrical, and plumbing:
 - The minimum required green building rating is LEED Gold.
 - There are minimum requirements for water efficiency and construction waste reductions.
- Completion of a Capital Green checklist is required for projects smaller than 5,000 square feet or those otherwise not eligible for a LEED rating.
- City departments are encouraged to test new approaches and standards, such as the Living Building Challenge and the Sustainable Sites Initiative.
- Annual reporting of performance under the policy is required by March 31st of each year.

Additionally, the resolution directs City departments to evaluate and improve existing standards and processes that relate to tenant improvements, leasing, and site management.

City of Seattle Comprehensive Plan

The Comprehensive Plan is a 20-year vision and roadmap for Seattle's future. The plan guides City decisions on where to focus development for new jobs and households, how to improve our transportation system, and where to make capital investments such as utilities, sidewalks, and libraries. The Plan is the framework for most of Seattle's big-picture decisions on how to grow. The latest update of the City's Comprehensive Plan "[Seattle 2035](#)" was passed by the City Council in October 2016. The City began the process of updating its Comprehensive Plan in 2021 and the work is scheduled to be complete in 2024.

The Comprehensive Plan helped inform the development of the 2024-2029 Proposed CIP as departments have taken special note of capital projects in neighborhoods targeted for substantial growth in the future or that have received substantial growth in the last few years. This effort is intended to make sure areas receiving growth have the appropriate physical infrastructure to

accommodate such growth, while balancing the major maintenance of existing facilities, such as power distribution systems, pipes, community centers, swimming pools, libraries, and streets that are located throughout the City, not just in targeted growth areas.

Federal and State Regulatory Requirements

The City's utilities have several facility projects in their Capital Improvement Programs to meet federal and state regulatory requirements. The City of Seattle must abide by the City's two National Pollutant Discharge Elimination System (NPDES) permits, one for storm water and one for combined sewer system. The City is required, for example, to invest hundreds of millions of dollars in the combined sewer/storm water system over the next several years to control the number of combined sewer overflows (CSOs) into receiving bodies of water, including Lake Washington and Puget Sound. This is per a CSO Consent Decree with the Environmental Protection Agency (EPA) and the Department of Ecology (DOE), which outlines how the City will become compliant with EPA and DOE regulatory requirements regarding sewage releases from the city conveyance system.

City Light operates its hydroelectric dams and powerhouses under licenses from the Federal Energy Regulatory Commission. Licenses include Settlement Agreements that require City Light to perform protection, mitigation and enhancement activities. City Light is currently completing mitigation under the current Skagit license (expires in 2025) and is well under way with Boundary License implementation.

City Light also complies with a wide range of permitting requirements and environmental regulations. Examples include the mitigation of soil contamination at former substations, and ongoing environmental mitigation in the Endangered Species Act project. Street-use permits and regulations are a major part of City Light projects that expand and repair the electric distribution system.

Endangered Species Compliance

The Cedar River Watershed Habitat Conservation Plan (HCP) is a 50-year, ecosystem-based plan that was prepared to address the declining populations of salmon, steelhead and other species of fish and wildlife in the Cedar River basin. The HCP was prepared under the Endangered Species Act and is designed both to provide certainty for the City of Seattle's drinking water supply and to protect and restore habitats of 83 species of fish and wildlife that may be affected by the City of Seattle's water supply and hydroelectric operations on the Cedar River. Seattle Public Utilities is continuing to implement its commitments under the HCP, which include downstream habitat protection and restoration, upland forest restoration, logging road decommissioning, and ongoing monitoring. City Light is also acquiring salmon habitat in the Green/Duwamish, Skagit, and Snohomish watersheds.

Americans with Disabilities Act

The United States Department of Justice (DOJ) conducted an audit of select City of Seattle facilities, practices and procedures, in order to assess City compliance with the Americans with Disabilities Act (ADA) and reported its findings to the City. While the City is largely in compliance, there are some elements within facilities that the DOJ has requested that the City update or alter to improve accessibility for individuals with disabilities. The City is working on an update to its ADA Transition Plan that will guide the development of a long-term strategy that manages the City's most critical public-facing ADA deficiencies first and maximizes accessibility to the greatest extent possible.

FAS coordinates and oversees implementation of ADA improvements in certain City facilities, determines and reports compliance to DOJ, and reviews and modifies as needed the facilities design and construction process with regard to the ADA. The City is in the process of moving towards a new approach to ADA improvements in which these improvements are included in ongoing maintenance and other remodeling work.

In order to provide additional proactive monitoring of compliance with ADA standards for new capital projects, the City added staffing dedicated to monitoring ADA compliance of new projects. All capital departments have a specific ADA coordinator and large departments such as Seattle Parks and Recreation, SDOT, and FAS have dedicated ADA staffing.

Historic Preservation

Seattle's commitment to historic preservation began with citizen efforts in the 1960s to block the demolition of two of Seattle's oldest neighborhoods—Pike Place Market and Pioneer Square. Both neighborhoods were threatened with proposals that would have irreversibly changed the character of the districts. The Pike Place Market was faced with an Urban Renewal Plan that would have demolished it, while Pioneer Square was threatened with a major roadway project. In 1970, the City Council created the Pioneer Square Preservation District, Seattle's first historic district. Then, in 1971, voters approved an initiative to create the Pike Place Market Historical District. In 1973, the City Council adopted a Landmarks Preservation Ordinance to safeguard properties of historic and architectural significance throughout the City. Today, Seattle's Historic Preservation Program encompasses eight historic districts located across the City and more than 400 designated landmarks. The City currently owns or maintains many of those landmarks, including libraries, park buildings, and fire stations.

Parks and Recreation

Section 1: Overview

Seattle Parks and Recreation (SPR) stewards a thriving and diverse system of parks, natural areas, community centers, boulevards, trails, playgrounds, fields and courts, pools, beaches, and so much more. This system has a rich history extending back to the establishment of Seattle's first park, Denny Park, in the 1880's and plays an important role in keeping Seattle a dynamic and connected community as the city continues to grow and change. Our parks and recreation system connects Seattle's residents and visitors to nature, provides opportunities to stay healthy and improve well-being, and celebrates the vibrancy of our city.

The 2025-2030 Proposed Capital Improvement Project (CIP) reflects several realignments of capital programs to meet decreased General Fund resources. It also makes adjustments to other planned debt issuance based on project timelines. The capital budget does not reflect any programmatic changes to Real Estate Excise Tax (REET) and includes several technical adjustments. In addition to the changes, SPR is also experiencing unprecedented cost increases stemming from post-pandemic economic conditions such as inflationary cost increases. Also, some capital projects put on hold during the pandemic are seeing cost increases not only due to inflation, but also because of the timing lags between original project cost estimates and restart dates, which in most cases span multiple years.

Section 2: Thematic Priorities

SPR's Proposed CIP is focused on promoting healthy people, a thriving environment, and vibrant communities by preserving, enhancing, and expanding the physical assets where all of the people of Seattle can play, learn, contemplate, and build community. As described in the Project Selection Criteria section, SPR uses criteria including safety, asset preservation, race and social justice, legal obligation, and improvements in efficiency to set priorities for capital projects. Each of these criteria is a direct reflection of SPR's core values of access, opportunity, sustainability, and equity.

Aligning Capital Investments with Growth and/or Community Planning

Seattle's Comprehensive Plan, "Seattle 2035," is a 20-year vision and roadmap for Seattle's future that guides City decisions on where to build new jobs and housing, how to improve the transportation system and where to make capital investments such as utilities, sidewalks, parks and open space and libraries. The Comprehensive Plan is the framework for most of Seattle's big-picture decisions on how to grow while preserving and improving our neighborhoods. The plan brings forward race and social equity as a foundational core value which SPR also leverages in our capital planning efforts including the department's Parks and Open Space Plan.

In 2024, SPR updated the six-year Parks and Open Space Plan. The Plan is required by the Washington State Recreation and Conservation Office (RCO) to maintain the City's eligibility for state grants and funding programs supporting outdoor recreation development and open space acquisition. The planning efforts will continue to focus on developing an accessible and integrated open space and recreation system in Seattle in tandem with any amendments to the City's Comprehensive Plan. SPR and the city's Office of Planning and Community Development meet regularly to ensure alignment between the two departments' efforts.

Aligning Capital Investments to Advance Climate Change Efforts

Seattle's Climate Action Plan provides a framework for meeting Seattle's climate protection goals, including the overarching goal of becoming carbon neutral by 2050. SPR's role involves implementing our Climate Resiliency strategy, maximizing the benefits of the bicycle and pedestrian master plans, meeting building energy plan goals, such as LEED compliance, and working towards urban forest restoration goals, such as those outlined in the Green Seattle Partnership.

SPR is also committed to developing and managing an environmentally sustainable park system. This means using energy and utilities with conservation in mind in all facilities, effectively managing the use of water for irrigation and other purposes, creating efficiently maintained landscapes, and operating clean and safe park facilities.

Investments in Climate Conscious Buildings are included in the current Seattle Metropolitan Park District (Park District) funding cycle (Cycle 2 from 2023-2028) to decarbonize certain SPR facilities. This funding will support the conversion away from the use of fossil fuel (primarily natural gas) heating systems to systems that rely on electricity primarily generated through hydropower, support charging infrastructure for electric fleet and equipment, electrical service upgrades, and building envelope improvements to meet energy code requirements. In many cases, this work will provide cooling and improved air filtration in facilities, improving adaptiveness to extreme heat and smoke events.

The Park District provides \$2 million in annual seed funding to support adding decarbonization to at least six planned renovation projects over the course of Cycle 2 and to provide match funding to seek external grants. Funding will also provide one solar array per year to be coordinated with the department's existing roof replacement program and reduce the total load to the electrical grid.

Section 3: Project Selection Criteria

SPR develops Asset Management Plans (AMP) to identify and rank necessary major maintenance projects based on specific asset classes (e.g., roofs, athletic fields, play areas, sport courts).

Each class-specific AMP contains a set of projects to address facility needs. SPR identifies projects through ongoing condition assessments, consultant studies, work order analyses (to identify key problem areas), and intradepartmental information-sharing of facility maintenance issues and needs. SPR is consistently reviewing and updating its AMPs. While SPR's planning staff prepares and coordinates the AMP planning process and documents development, the process involves a collaborative approach throughout the department to develop project scopes and budget estimates.

Projects are prioritized within and between these classes using the following six criteria:

- **Code Requirements:** The project brings a facility or element up to federal, state, and Seattle code requirements (such as ADA, water quality, or fire suppression) or meets other legal requirements.
- **Life Safety:** The project will eliminate a condition that poses an imminent threat of injury. Examples of safety hazards are lack of seismic elements, failing piling, outdated play equipment, emergency management elements, or a documented environmental health hazard.
- **Facility Integrity:** The project will help keep the facility operational and extend its life cycle by repairing, replacing, and renovating systems and elements of the facility, including building envelope (roof, walls, windows), electrical, plumbing, storm and sewer line replacement, and synthetic turf replacement.
- **Improve Operating Efficiency:** The project will result in the reduction of operating and maintenance costs including energy and water savings and climate mitigation strategies.
- **Equity:** The project will preserve or enhance an asset which serves low-income and racially diverse communities.

- **Other:** Projects that have a unique element (e.g., leverage other funds) and/or have known needs that do not fit the other priorities. Class-specific criteria such as reserved hours (for event/athletic facilities, for example) or the presence of related amenities or park classification may also be used to guide prioritization.

Projects are prioritized based on the criteria above along with other more class-specific criteria, and funding is budgeted based on projected spend. Many projects take at least three years. Less money is required at the beginning of a discretionary project during the Planning and Design phases than for Construction and the budget is planned accordingly. If project timelines shift, funding is adjusted to align with the revised spending projections.

Section 4: 2025-2030 CIP Highlights

SPR's 2025-2030 Proposed CIP budget across all funds is \$81 million in 2025 and reflects a wide range of discrete projects and ongoing programs with a mix of funding sources. Of this amount, 57% or about \$46 million is from Park District revenues.¹

The Proposed CIP reflects a number of realignments of Park District capital resources to the operating side of the Park District to support sustainability of parks and recreation services given projected ongoing shortfalls in operating revenues, particularly in the General Fund. The Proposed CIP also readjusts the timing of Park District Cycle 2 funding for three planned community center renovations based on project schedules. The Proposed CIP adjust golf debt service assumptions, adds the first year of Landscape Conservation and Local Infrastructure Program funding to support parks and recreation investments, and includes one-time investments to support the Mayor's Downtown Activation Plan and the City's Green New Deal. Finally, the Proposed CIP does not make any adjustments to REET beyond technical changes to align with the citywide debt schedule and the addition of funding to the outyears of the CIP.

Park District CIP Reductions

- **Major Maintenance and Asset Management (\$2.5 million):** The Proposed CIP reduces the number and scope of asset management projects, and the department will continue to assess strategies to meet the performance commitments for number of major maintenance projects completed in the various asset categories as described in the Park District Cycle 2 Ramp Up and Reporting Plan. Beginning in 2026, this reduction is proposed to be \$2 million annually.
- **Park CommUNITY Fund (\$1 million):** The Proposed CIP scales back the resources available to this initiative to Park District Cycle 1 levels for the Major Projects Challenge Fund (this fund's predecessor), which retains annual \$1.5 million capital budget. The two staff positions added in 2022 to engage with and support community throughout these processes are also retained and are reflected on the operating side of the budget.
- **Acquisitions (\$400,000):** The Proposed CIP reduces funding in the Acquisitions line of business, which retains annual \$1 million budget to leverage grant and Conservation Futures Tax funding opportunities to continue SPR's greenspace acquisition program and to support other low-cost priority acquisitions such as park additions and recreation easements.

¹ For the Park District, funding for CIP beginning in 2029 will be determined during Cycle 3 planning, therefore a continuation of current policy direction is assumed in this proposed CIP the meantime. Cycle 3 is anticipated to be 2029-2034.

- **Decarbonization Debt (\$1.4 million starting in 2027):** The Proposed CIP reallocates debt financing for decarbonization efforts to support ongoing operations of the parks and recreation system. This proposal retains the baseline investment of \$2 million included in the Park District Cycle 2 plan while the department continues to work with the Office of Sustainability and the Environment (OSE), Office of Intergovernmental Relations (OIR) and others to seek outside funding for these efforts.

Community Center Capital Investments and Planned Debt Service

The Proposed CIP makes one-time adjustments to planned debt issuance and repayment plans for the Green Lake, 8th and Mercer, Queen Anne, and Lake City Community Center projects based on current project schedules. As a result of shifting out planned debt issuance, the Proposed CIP reallocates Park District funds previously intended for debt repayment to other priorities:

- The combined savings of approximately \$2.5 million in 2025 and \$3.2 million in 2026 from the Green Lake and 8th and Mercer community center projects will be used to cover core operating expenses that are experiencing revenue shortfall.
- About \$1.3 million in 2025 from the Queen Anne community center renovation project will be used to help support the West Queen Anne Playfield conversion project.
- About \$973,000 in 2025 and \$1.2 million in 2026 from the Lake City community center rebuild project will be used to support a one-time shortfall in the Soundview Athletic Field conversion project, further discussed in Section 6.

Golf Debt Service

The Proposed CIP includes other technical and budget neutral adjustments including aligning debt service payments with the actual debt service schedule for golf. The budget also includes an adjustment to the funding source for annual debt service payments for prior year Golf capital improvements since the Golf Program's revenues are now stable and able to cover its capital debt repayments. The King County Levy funds that have been supporting golf debt will be redirected to support unbudgeted and increased utility costs across the department.

Landscape Conservation and Local Infrastructure Funding

The Proposed CIP adds Landscape Conservation and Local Infrastructure Program (LCLIP) funding and creates a new capital project. This funding source has been supporting transportation investments for the last ten years, and for the next ten years beginning in 2025, it will support parks and recreation investments as outlined in the original 2013 LCLIP legislation programming assumptions. The LCLIP program allows cities to receive a portion of future county property tax revenue for local infrastructure investments if they implement a program to obtain regional Transferable Development Rights (TDR). The overall purpose of LCLIP and Regional TDR Programs is to preserve farm and forest land by transferring development capacity from these lands to cities and generate funds for local infrastructure projects in the communities where the additional development capacity is located. Current legislation outlines that projects eligible for LCLIP funding must be located in South Lake Union or Downtown.

Downtown Activation Plan Investments

The Proposed CIP includes \$1.3 million in 2025 and \$2.2 million in 2026 of Payroll Expense Tax proceeds to support revitalization of Westlake Plaza as part of the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. Specifically, this item funds a revitalization of Westlake Plaza which could include removal of out-of-commission fountain, stage renovation, an electrical systems upgrade, and repairs to paving and trip hazards, among other investments.

Green New Deal

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to support Green New Deal efforts citywide. SPR's Proposed CIP adds \$195,000 in payroll tax funding to support community center pre-electrification efforts, as part of the city's Municipal Energy Efficiency Program. This program supports efforts to prepare community centers for decarbonization by first shrinking energy use intensity through energy conservation interventions such as use of LEDs, advanced lighting controls, and destratification fans for air mixing.

Section 5: CIP Revenue Sources

Funds for the development of the system and for ongoing asset management come from a variety of sources. The two largest funding sources for Park's capital work are typically the Park District and REET. The majority of the remaining funding comes from Community Development Block Grants, the Central Waterfront Improvement Fund, Payroll Expense Tax, King County Levy. Other funding includes the 2008 Parks and Green Spaces Levy, and other special fund sources, grants, and private donations.

Seattle Park District

On August 5, 2014, voters in the city of Seattle approved Proposition 1 which created the Seattle Park District. A park district, also called a metropolitan park district, collects property taxes to fund parks and recreation services including park and facility maintenance, recreation facilities and programs, land acquisition, park improvements, and new park development on previously acquired sites. As an ongoing funding source, Seattle Park District property taxes provide more stable funding than time-limited levies allowing SPR to more effectively plan and schedule investments and provide some flexibility when emergencies arise. An updated Seattle Park District Financial Plan was approved for 2023-2028 (Cycle 2) in November 2022, and amended by the Park District Board in November 2023.

Real Estate Excise Taxes (REET)

REET funding is used for asset preservation purposes, including ongoing major maintenance of existing assets and new parks or facilities. Funding has historically fluctuated significantly from year to year depending on changing forecasts and citywide priorities, and SPR tries to prioritize annual allocations on sustaining ongoing programs and investing in assets with the greatest need using an equity lens where possible. Examples of major maintenance programs supported fully or partially by REET depending on annual funding levels include small irrigation upgrades, trail maintenance, athletic field turf maintenance and improvements, paving restoration, landscape and forest restoration, and others.

Payroll Expense Tax

The Payroll Expense Tax, passed by City Council in 2020, has a proscribed list of uses for its revenues. SPR's Proposed CIP includes using proposals to use payroll tax revenues to support building electrification as part of the City's Green New Deal program, and for revitalizing Westlake Plaza to spur economic development in downtown as part of the Mayor's Downtown Activation Plan.

Section 6: Summary of Upcoming Budget Issues and Challenges

Escalation and Associated Uncertainty

Like other City departments with significant capital project portfolios, SPR continues to experience cost increases stemming from post-pandemic economic conditions. The department contains costs mostly through the reallocation of savings for completed projects to the extent possible, and through scope and scale changes as needed.

A recent example includes the Soundview Athletic Field Turf Conversion Project where SPR anticipates an approximate \$3.2 million shortfall in the project. Originally delayed due to the COVID-19 pandemic, this REET-funded project was further delayed by a year due to projected REET revenue shortfalls. Delays have led to inflationary increases and the project as scoped is anticipated to cost more than is currently budgeted. Therefore, the Proposed CIP shifts about \$2.2 million in Park District CIP funding originally set aside for debt service payments and operating costs from the Lake City Community Center Project—which are not needed in 2025 and 2026 due to project delivery timelines—to Soundview. SPR also anticipates escalation pressures on the community center renovation projects planned in Cycle 2.

ADA Barrier Removal Schedule

Addressing identified access issues in alignment with the ADA Barrier Removal Schedule (BRS) coupled with SPR's ongoing ADA work exceeds funding available. Based on a conceptual planning estimate, SPR will need approximately 27 years at the currently planned funding levels to address all of the current BRS-identified barriers, which only addresses the BRS issues, not the total ADA needs across the entire parks and recreation system. The investments towards ADA outlined in the Park District Cycle 2 reduces the timeline from 47 years to 27 years, which is a significant achievement, but much work remains.

Building Electrification

Executive Order 2021-09 directed OSE and all relevant capital departments, including SPR, to complete a Municipal Building Electrification Strategy “to plan for all municipal buildings to operate without fossil fuel systems and appliances no later than 2035.” In addition to the \$2 million annual Park District investment in climate conscious buildings, SPR is coordinating with OSE and OIR to leverage City funds to address SPR's inventory of 65 buildings that remain heated by fossil fuels (including 10 pools).

Woodland Park Zoo

Per the updated Master Operating Agreement with Woodland Park Zoological Society (Zoo), the annual operating and maintenance support and capital major maintenance support the city is contractually obligated to pay the Zoo 100% of inflation according to the June-to-June change in the Consumer Price Index-All Urban Consumers (CPI-U). Once the annual inflation is calculated, SPR addresses the increases within allocated REET resources annually, which could impact the project scope or delivery of other REET-funded CIP projects.

Section 7: Future Projects/What is on the Horizon

Gas Works Park

As part of the annual budget process, the Department updates cost estimates for the remediation work at Gas Work Park based on the ongoing mitigation of the park. The City, Puget Sound Energy (PSE), and the Washington State Department of Ecology are responsible for the cleanup of hazardous substances to both the uplands region of the park as well as in water sedimentation, which is coordinated by Seattle Public Utilities. The upland work has been complete, and the water remediation is now estimated to begin in 2029.

8th and Mercer Community Center Development

Project No:	MC-PR-41078	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	New Investment	Location:	Mercer St. and 8th Ave N
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:		Neighborhood District:	
Total Project Cost Range:	14,200 - 21,300	Urban Village:	South Lake Union

This project will plan, design, and construct a new Community Center at Mercer St. and 8th Ave North. This project was approved by City Council as a public benefit in the sale of City-owned property at that location. The developer provides the space (25-year lease with up to 15 additional years through two options) with the City responsible for tenant improvements (estimated at ~\$17 million) and an ongoing commitment to operate the facility.

Activating and Connecting to Greenways

Project No:	MC-PR-21004	BSL Code:	BC-PR-20000
Project Type:	Ongoing	BSL Name:	Building For The Future
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project develops safe, inviting connections between parks and greenways which are residential streets that are dedicated connectors for pedestrians, cyclists, and other non-motorized travel, as identified in the Bicycle and Pedestrian Master Plan documents. Typical improvements include crosswalks, benches, greenway park entrance improvements, non-motorized paths and loops within parks, and related work. Parks will work with the Seattle Department of Transportation (SDOT) to activate and enhance connection points between parks. This project improves safety and access to and from the parks, encourages partnerships with neighborhood and community groups, business, and other stakeholders.

Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides for accessibility improvements for people of all abilities at a number of parks facilities. Work is prioritized based on a combination of factors including the Citywide Barrier Removal Schedule, parks and facilities with the greatest amount of programming, and race and social equity. Examples of work consist of creating accessible parking and routes to activity areas, adjustments to signage, door closures, restroom fixtures, and other related work. This program is critical for providing access to Seattle Parks and Recreation facilities, parks, and programming to users of all abilities.

Amy Yee Tennis Center Renovation

Project No:	MC-PR-41076	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	2000 Martin Luther King Jr. Way, S.
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 3
Start/End Date:		Neighborhood District:	
Total Project Cost Range:	8,000 - 12,000	Urban Village:	North Rainier

This project provides building envelope and structural upgrades to stabilize Amy Yee Tennis Center. Examples of work includes re-roofing, insulation, structural upgrades, and addressing the building water penetration from the hillside. New court heating and ventilation and lighting replacement would also be implemented if budget allows, in addition to other interior renovations as identified in the 2019 feasibility study. These improvements would greatly improve the playing experience at the center and reduce the risk of additional deferred maintenance caused by the current roof and walls which have a number of known active leaks.

Aquarium - Pier 59 Piling Replacement and Aquarium Redevelopment Debt Service

Project No:	MC-PR-31002	BSL Code:	BC-PR-30000
Project Type:	Debt Service	BSL Name:	Debt and Special Funding
Project Category:	Rehabilitation or Restoration	Location:	1483 Alaskan Wy
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	2005 - 2025	Neighborhood District:	Downtown
Total Project Cost:	\$36,979	Urban Village:	Downtown

This project supports debt service payments on 20-year Limited Tax General Obligation (LTGO) bonds that were issued in 2005 to pay for the replacement of the entire pier piling system of Pier 59, interior infrastructure improvements, and development of portions of the Aquarium by the Seattle Aquarium Society. The pier and Aquarium work was part of an overall plan to repair and redevelop the Aquarium and the Central Waterfront area, and to construct a new Aquarium entrance, exhibits, and visitor services on a portion of the pier. This work enhanced and extended the useful life of Pier 59 and the Aquarium.

Aquarium Expansion

Project No:	MC-PR-21006	BSL Code:	BC-PR-20000
Project Type:	Discrete	BSL Name:	Building For The Future
Project Category:	Rehabilitation or Restoration	Location:	1483 Alaskan WAY
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2015 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$54,040	Urban Village:	Downtown

The Seattle Aquarium is owned by Seattle Parks and Recreation and operated by the non-profit Seattle Aquarium Society (SEAS). SEAS is planning a major expansion to the Aquarium's existing footprint to add new programming and visitor capacity. This project will provide a new Ocean Pavilion that will integrate with improvements made by The Office of the Waterfront along the Central Waterfront. SEAS also intends to make improvements to piers 59 and 60 to improve exhibit space and operations efficiency. Design and construction of the project is led by SEAS and coordinated with City investments by the Parks Department and Office of the Waterfront. This project is part of the overall waterfront improvement program and appropriates City matching funds for SEAS' project. The City provided \$34 million to SEAS for design and construction through a funding agreement authorized by City Council in 2019. In 2022 and 2023, the City and SEAS amended the Funding Agreement and the Operations and Management Agreement to include an additional \$20 million in Ocean Pavilion funding.

Aquarium Major Maintenance

Project No:	MC-PR-41004	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	1483 Alaskan WAY
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This ongoing project provides funds for major maintenance at the Aquarium and other related items. Typical projects include seawater pump replacement, tank repairs, energy efficient systems upgrades, exterior decking repairs, Americans with Disabilities (ADA) access improvements, roofing and seismic upgrades, and related work. The facility was constructed in 1980, and a partial addition was installed on Pier 59 portion of the building in 2006. Due to the harsh saltwater environment, Aquarium facilities have a shorter lifespan than similar facilities not located over saltwater. The individual projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, and improve the overall Aquarium experience for the public.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides funding for new park development of the WSDOT Peninsula. This project is funded from a settlement agreement (GCB 3564) with the Washington State Department of Transportation (WSDOT), which authorizes the City to complete real property transactions and accepts the mitigation contribution toward the Arboretum North Entry Project, such settlement agreement facilitating WSDOT acquiring the required property rights for bidding the SR 520 Portage Bay Bridge Roanoke Lid Project in 2023. This project develops a park at the WSDOT Peninsula (the site of WSDOT's current SR520 field office), including realigning lake Washington Blvd., extending the multi-use trail to the Montlake Lid, and daylighting arboretum creek along with the associated pedestrian/vehicular bridges. The majority of the project will be implemented after WSDOT completes its work, 12/31/2031.

This project renovates the portion of the trail from the former MOHAI parking lot to the western edge of Foster Island. Project elements include upland and wetland restoration, invasive species removal, native plant re-vegetation, and related repairs. This restoration will improve the health of the ecosystem and provide a more enjoyable pedestrian and bicycling experience.

This ongoing project provides for periodic beach renourishment and related work at selected sites throughout the City. Work includes, but is not limited to, laying sand and gravel to replenish beaches that have eroded in recent years and to improve substrate for juvenile salmon habitat. This project supports the Restore Our Waters Strategy to improve Seattle's aquatic environments. Note: this Master Project is not funded in the future CIP; however this ongoing work will continue in future years to be fund out of the Major Maintenance Backlog & Asset Management Master Project.

Community Center Rehabilitation & Development

Project No:	MC-PR-41002	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding for improvements at all parks and recreation community centers. Typical improvements include renovation, upgrades, or replacement of major building systems, roof and building envelopes, seismic upgrades, painting, energy efficient lighting and other environmentally sustainable building components, Americans with Disabilities (ADA) access improvements, and related work. In some instances, facilities will be replaced or remodeled to improve programming space. The individual projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, improve the overall community center experience for the public, and meet today's and future recreation needs.

Emma Schmitz Sea Wall Replacement-2008 Levy

Project No:	MC-PR-16008	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	Rehabilitation or Restoration	Location:	4503 Beach DR SW
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 1
Start/End Date:	2014 - 2024	Neighborhood District:	Southwest
Total Project Cost:	\$1,508	Urban Village:	Not in an Urban Village

This project, funded with 2008 Parks Levy funds redirected from the Seattle Asian Art Museum renovation project, is Seattle Parks' share of the replacement of the seawall which was failing. The Army Corps of Engineers funded a study to determine the best option for replacement or repair of the seawall. The new seawall will minimize the impact on the beach, address rising seawater, and create better contours for the restoration landscaping on the landward portion of the overlook area. Parks and the Army Corps will share the costs of the project (Parks 35% and Army Corps 65%).

This ongoing project supports the overall cleanup efforts at the Gas Works Park site (including the uplands and sediments), provides ongoing efforts to ensure the measures constructed for remediation of soils at Gas Works Park remain effective. Activities include maintenance and operation of soil cap and other institutional controls; and other related work. All measures of the project must be executed in accordance with the Consent Decree established in 1998, requiring Seattle Parks and Recreation, Puget Sound Energy, and the Department of Ecology to implement a Cleanup Action Plan and subsequent cleanup activities. The ongoing project, in coordination with SPU, supports the overall multi-agency cleanup efforts at Gas Works Park.

Green Lake CC - Evans Pool Roof Replacement & Solar Hot Water

Project No:	MC-PR-41034	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	7201 E Green Lake Dr N
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 6
Start/End Date:	2013 - 2024	Neighborhood District:	Northwest
Total Project Cost:	\$1,672	Urban Village:	Green Lake

This project demolishes the existing 15,130 square foot Evans Pool roof and the 13,625 Community Center roof and replaces them with a rubberized membrane roofing/EPDM system and solar panels to supplement the pool hot water system, seismic improvements, and related work. The flat roof section of the roof will accommodate a 1,000,000 Btu/day system and will help to reduce pool heating costs.

Total Project Cost:	N/A	Urban Village:	Multiple

This project provides for acquisition of properties to fill gaps in existing public ownership and preserve continuity in existing public ownership. The project scope targets acquisitions in the following designated green spaces: Arroyos Natural Area, East Duwamish Greenbelt, Northeast Queen Anne Greenbelt, Ravenna Woods, Thornton Creek Watershed, and West Duwamish Greenbelt. Levy funds are supplemented by grants and funds from other sources for these acquisitions. This project is part of the 2008 Parks Levy.

HVAC System Duct Cleaning Program - Large Buildings

Project No:	MC-PR-41028	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides periodic (every two to five years) cleaning of the air ducts in the heating, ventilation, and air conditioning (HVAC) systems in pool natatoriums, community centers, and other Department-owned buildings. This maintenance increases the lifespan of these systems and reduces potential future major maintenance projects.

Improve Dog Off-Leash Areas

Project No:	MC-PR-51002	BSL Code:	BC-PR-50000
Project Type:	Ongoing	BSL Name:	Maintaining Parks and Facilities
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project improves the City's dog off-leash areas, most of which have aging infrastructure. This project will also support new dog off-leash areas as funding is provided. Typical projects will improve Americans with Disabilities (ADA) access, address drainage and erosion issues, update aging infrastructure, and related work. These projects make these off-leash areas make more accessible and safe for parks users.

Irrigation Replacement and Outdoor Infrastructure Program

Project No:	MC-PR-41020	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds studies, renovation, and upgrades for the Department's park irrigation and outdoor infrastructure systems (e.g., water mains, irrigation and drainage lines, sanitary and storm sewers, electrical utilities, roads, paths, trails, retaining walls, bridges, saltwater piers, and related infrastructure). Specific projects are determined by the studies and operational considerations, along with emergency projects. This project provides conservation benefits by reducing water loss due to leaking systems, allocating water flow more efficiently through improved technology, and implementing other related work. It also extends the useful life of the infrastructure and living assets (i.e., plants), and makes the department more resilient to drought and heat conditions due to climate change.

Loyal Heights Community Center Renovation

Project No:	MC-PR-41038	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	2101 N 77th ST
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Council District 6
Start/End Date:		Neighborhood District:	Ballard
Total Project Cost:	\$30,971	Urban Village:	Not in an Urban Village

This project renovates the building including interior space renovations, roof replacement, ADA improvements, seismic upgrades, window glazing, major systems improvements and related work. Combined, these renovations make the building safer, more efficient, and more accessible for users.

Magnuson Community Center Improvements

Project No:	MC-PR-41067	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Improved Facility	Location:	7110 62nd AVE NE
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 4
Start/End Date:	2018 - 2024	Neighborhood District:	Northeast
Total Project Cost:	\$4,186	Urban Village:	Not in an Urban Village

This project provides funding for design and renovation of the Magnuson Park Community Center (Building #47) to reconfigure the interior space of the south side of the building for increased programming options. Work on Building #47 will include new mechanical, electrical, and plumbing components, window replacement, hazardous material abatement, and other related work. These improvements will greatly expand programming ability at Magnuson Community Center and make the facility more energy efficient and more comfortable in the summer.

Magnuson Major Maintenance

Project No:	MC-PR-41077	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	7400 Sandpoint Way NE
Current Project Stage:	N/A	Council District:	Council District 4
Start/End Date:	N/A	Neighborhood District:	
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides funds for some of the most pressing building and infrastructure needs at Magnuson Park. Examples of projects include building stabilization and renovation to meet current codes, safety and accessibility improvements to roads and pathways, utility upgrades, and other related work. The individual projects will extend the life of assets, improve life safety, reduce energy costs, and expand access to park amenities.

Magnuson Park Athletic Field 12 Conversion

Project No:	MC-PR-41064	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Improved Facility	Location:	7400 Sand Point Way NE
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 4
Start/End Date:	2027 - 2029	Neighborhood District:	Northeast
Total Project Cost:	\$10,320	Urban Village:	Not in an Urban Village

This project converts existing grass to synthetic turf, installs lighting, drainage improvements, and performs related work. Per the Magnuson Park Master Plan, the field is located south of the existing field 6 and west of the existing field 7 and will be reconfigured into field 12. This improvement allows for greater use and scheduling of the playfield for soccer, and other activities.

Major Maintenance and Asset Management

Project No:	MC-PR-41001	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding for asset renewal in parks and recreation facilities citywide, including athletic fields, play areas, swimming pools, trails, buildings, accessibility elements, outdoor infrastructure, and related work. This project also funds integrated asset management to track and forecast long-term asset and maintenance needs. Typical major maintenance improvements may include, but are not limited to renovating buildings, Americans with Disabilities (ADA) access improvements, replacing play area structures, forest, landscape, trail maintenance and improvements, swimming pool repairs, athletic field refurbishment, and installation of energy efficient lighting, and related major maintenance work. These projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, reclaim Parks property, and improve the overall park experience for the public.

Marra-Desimone Park Development

Project No:	MC-PR-16004	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	New Facility	Location:	9026 4th AVE S
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 1
Start/End Date:	2013 - 2024	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$1,915	Urban Village:	Not in an Urban Village

This project provides for development of Marra-Desimone Park, which includes the Marra Farm, Seattle's largest site for urban gardening. It implements elements of the "Long-Range Development Plan for Marra-Desimone Park" (2008), and may include enhancement of the existing farm area, development of community and recreation space on the eastern side of the park, paths, and gateway features. This project is part of the 2008 Parks Levy.

Municipal Energy Efficiency Program - Parks

Project No:	MC-PR-41030	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide Multiple Locations
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides for investment in more energy efficient building systems and other facility efficiency improvements. By making these investments the City expects future savings in utility costs, and significant progress toward carbon neutrality. This program is intended to fund facility retrofit projects identified by energy audits. These projects are identified and worked on in collaboration with the Office for Sustainability and Environment (OSE) and funding varies by year.

Total Project Cost:	N/A	Urban Village:	Multiple

This project provides for acquisition of property to create new urban parklands in Seattle's most densely-developed neighborhoods as identified in Seattle Parks and Recreation's 2006 Gap Analysis. Levy funds are supplemented by grants and funds from other sources and are not expected to be sufficient to complete acquisitions in all the targeted areas. This project is part of the 2008 Parks Levy.

This ongoing program provides funding for small projects identified by the community. Projects address small scale requests to resolve emergent issues and/or major maintenance activities or renovations performed in conjunction with development-oriented Neighborhood Matching Fund (NMF) projects. This program enables the Department to respond quickly to community requests for repairs in neighborhood parks.

New Park Development

Project No:	MC-PR-21003	BSL Code:	BC-PR-20000
Project Type:	Ongoing	BSL Name:	Building For The Future
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project develops new parks on land-banked sites, new acquisition sites, and partnership development sites. Depending on the size, location, and type of park, new elements could include trees and landscaping, paths, plazas, a play area, site furniture, lighting, and other related improvements. Each newly developed park will improve the neighborhood and will have environmental benefits. Funding for this project will also be used to make short-term enhancements to sites with a longer development timeline to reduce the risk of adverse activity and increase the benefit of the site to the surrounding community. This project was formerly known as "Develop 14 New Parks at Land-Banked Sites."

Northwest Native Canoe Center Development

Project No:	MC-PR-15010	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	Improved Facility	Location:	860 Terry AVE N
Current Project Stage:	Stage 3 - Design	Council District:	Council District 3
Start/End Date:	2014 - 2025	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$4,695	Urban Village:	South Lake Union

This project, part of the 2008 Parks Levy Opportunity Fund, develops a carving house which includes a living roof, and installs a carved "Welcome" figure on the beach. The project provides insight into distinctive varieties of Native American culture in a location at Lake Union where Native carvers are safe, and the public is welcome. This is the first phase of a two-building development.

The project provides a contingency for Opportunity Fund projects on a case-by-case basis, subject to Department recommendations. General costs applicable to all projects, such as interest on borrowed funds, may be paid from this project. Specific projects will be authorized and funded through separate legislative action. This project is part of the 2008 Parks Levy.

Othello Park Improvements

Project No:	MC-PR-15011	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	Improved Facility	Location:	4351 S Othello ST
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 2
Start/End Date:	2014 - 2024	Neighborhood District:	Southeast
Total Project Cost:	\$646	Urban Village:	Not in an Urban Village

This project, part of the 2008 Parks Levy Opportunity Fund, renovates the play area and basketball courts, installs benches and games tables, prepares P-Patches, and adds rain gardens and bio-swales to address drainage. This project also includes way-finding markers embedded in the walking paths. Renovations improve safety in the park and help the park function better as a neighborhood and community gathering spot.

Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding to support community-initiated improvement or upgrade projects to parks and facilities; with a focus on neighborhoods with a history of racial disparities regarding access to green space and safety from environmental harms. No match is required from community groups applying for this funding. Seattle Parks and Recreation administers a process by which projects will be selected and funding recommendations made to the Superintendent by the Board of Parks and Recreation Commissioners (BPRC). This funding can be used as seed funding for outside grants and private fundraising, to support initial feasibility work, or implement small responsive improvements in collaboration with communities. This project number was formerly used for the Major Projects Challenge Fund and Equitable Park Development Fund.

Parks Central Waterfront Piers Rehabilitation

Project No:	MC-PR-21007	BSL Code:	BC-PR-20000
Project Type:	Discrete	BSL Name:	Building For The Future
Project Category:	Rehabilitation or Restoration	Location:	Alaskan Way
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2016 - 2025	Neighborhood District:	Downtown
Total Project Cost:	\$111,167	Urban Village:	Downtown

The Waterfront Park and Pier 62/63 are public park facilities that provide public access to Elliott Bay and host a range of public events, markets and performances. Both piers need a full seismic upgrade to meet current life safety codes, and Waterfront Park needs significant access improvements. Waterfront Park is envisioned as a flexible public recreation and open space. Pier 62/63 is anticipated to be more heavily programmed, with a flexible activity rink, events, and performances. The Department of Parks and Recreation (DPR) owns the piers, but the Office of the Waterfront will lead the rehabilitation. The Pier 62/63 Phase 1 Rebuild was substantially complete in July 2020 with Pier 62 now operational, the next phase will demolish Pier 63. This project is part of the overall Central Waterfront program. (Interfund Loan will be repaid with Local Improvement District Bonds.)

Parks LCLIP Improvements

Project No:	MC-PR-21017	BSL Code:	BC-PR-20000
Project Type:	Ongoing	BSL Name:	Building For The Future
Project Category:	New Investment	Location:	
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project supports park and infrastructure improvements, renovations, and other related items within the Downtown and South Lake Union areas. Funding for this project is supported by the Landscape Conservation and Local Infrastructure Program (LCLIP) revenue.

In 2013, the LCLIP legislation created a revenue stream to fund streetscape, recreation, and open space improvements. Revenues are spent on South Lake Union and Downtown projects based on the proportion of transfer of development rights (TDR) generated in these. The LCLIP is a joint effort between King County and the City of Seattle, with King County collecting funds and then distributing them to the City. SDOT received the first allocation for LCLIP revenues from 2015 through the end of 2024. SPR will receive LCLIP revenue from 2025-2034, at which point it switches back to SDOT for 2035-2039.

Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides minor capital improvements to low-income area parks throughout the City. Conservation Corps Program staff perform this work, providing training opportunities for low-income, homeless, and other at-risk community members. Program elements include provision of ADA improvements to parks and park restrooms, accessible drinking fountain installation, basketball court construction, bench and picnic table installation, tree purchase and planting, and other small-scale capital projects. Funding is also targeted to projects that can be integrated with other community-identified amenities.

Total Project Cost:	\$6,372	Urban Village:	Not in an Urban Village

This project will renovate the eastern portion of Pathways Park to create an inclusive park space for people of diverse abilities. The current play area will be replaced with new play features along a renovated loop pathway with landscape improvements. The project will also include improved and expanded accessible parking, restroom improvements, and related work. This project used to be called Burke-Gilman Playground Park Renovation.

Pavement Restoration Program

Project No:	MC-PR-41025	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds various project activities, including, but not limited to, seal-coats to new pavement to extend its lifespan, pavement patching, sub-grade repairs, overlays to small areas, and repairs associated with pavement failures (e.g., heaving, sinking, cracking, and root invasion). Improvements reduce damage to asphalt, lengthen pavement lifespan, and reduce safety hazards such as uneven pavement.

Public Restroom Renovations

Project No:	MC-PR-41036	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project renovates selected public restrooms for improved ADA access, ventilation, finishes (walls and floors), and security. The renovations also may include reconfigured stalls, new toilets, urinals, and sinks, grab-bars, paint and finishes, and other related work, depending on the needs of a particular site. In some cases, a public restroom may be replaced or reconfigured to allow for non-gender specific accessible use. Public Restrooms are prioritized for work based on the results of condition assessments while also factoring in race and social equity, emergent needs, and the location's status on the BRS schedule. Where priorities align, SPR also makes an effort to combine work at public restrooms with other work on the site. This project was previously named Comfort Station Renovations.

Puget Park - Environmental Remediation

Project No:	MC-PR-31001	BSL Code:	BC-PR-30000
Project Type:	Ongoing	BSL Name:	Debt and Special Funding
Project Category:	Rehabilitation or Restoration	Location:	1900 SW Dawson St
Current Project Stage:	N/A	Council District:	Council District 1
Start/End Date:	N/A	Neighborhood District:	Delridge
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project funds a cleanup action on a portion of Puget Park and on an adjacent related parcel, with participation by four parties involved in the original contamination. The City negotiated a settlement agreement with all parties for funding cleanup costs incurred in the past, as well as future site mitigation costs.

Rejuvenate Our P-Patches

Project No:	MC-PR-51001	BSL Code:	BC-PR-50000
Project Type:	Ongoing	BSL Name:	Maintaining Parks and Facilities
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project revitalizes the City's numerous P-Patch Community Gardens and Urban Food Systems program gardens and orchards. Typical projects will improve the paths, improve and construct planting beds and common areas, improve Americans with Disabilities (ADA) access, update aging infrastructure, and related work. The first P-Patch was constructed in 1973, and more have been added over the years. The individual projects will address safety and code requirements, extend the life of the asset, and improve accessibility.

Saving our City Forests

Project No:	MC-PR-41003	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project restores and maintains Seattle's numerous acres of urban forests. Seattle's trees are aging and inundated with invasive plants, including English ivy, Himalayan blackberry, Scot's broom, and knotweed. This project expands Parks' capacity to restore forest land, and to provide the ongoing monitoring and maintenance work necessary to keep restored areas from being overrun by invasive plants. A healthy urban forest contributes significantly to the health of the environment by cleaning air and water, filtering and retaining storm water, and providing a respite from the built environment.

Smith Cove Park Development

Project No:	MC-PR-21005	BSL Code:	BC-PR-20000
Project Type:	Discrete	BSL Name:	Building For The Future
Project Category:	Improved Facility	Location:	W Galer ST
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:		Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$8,550	Urban Village:	Not in an Urban Village

This project develops a portion of Smith Cove Park located just west of Pier 91 on Elliott Bay. The park will be developed based on a planning and design process for the site that took place in 2016. The project will include renovation to the playfield and development of a new off-leash area; picnic area, and related work primarily on the west side of the park. The improved park will provide waterfront access and ADA accessibility, provide enhanced opportunities for active recreation, and make the park inviting and usable for more people.

South Park Campus Improvements

Project No:	MC-PR-21013	BSL Code:	BC-PR-20000
Project Type:	Discrete	BSL Name:	Building For The Future
Project Category:	Improved Facility	Location:	8319 8th AVE S
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 1
Start/End Date:	2019 - 2025	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$8,720	Urban Village:	South Park

This project will implement the South Park Site Plan approved by Seattle Parks and Recreation in March 2018, by renovating and relocating numerous park elements. The site plan calls for the existing play area and wading pool to be demolished and replaced with a new play area and spray park in new locations within the site. The existing grass playfield will be renovated and upgraded with synthetic turf and lighting. The project may also include the replacement of the existing sport courts, installation of a loop trail and planted buffer, new fencing and related work. Partial funding for this project is anticipated from various public and private sources in the forms of grants and donations. Once the project is completed, these improvements will increase safety and site capacity, support more active uses and types of healthy outdoor play, and provide opportunities for programming throughout the year. This project will be bid and constructed in conjunction with South Park Community Center Facility renovation project; which is part of the ongoing Community Center Rehabilitation & Development capital project (MC-PR-41002). This project is funded by public and private sources.

Sport Court Restoration Program

Project No:	MC-PR-41019	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project restores, renovates, or creates new sport courts throughout the City. Restoration focuses on less expensive repairs such as crack repair, color coating, providing new posts, standards, fencing, and other related work. Renovation includes more in-depth work up to and including reconstruction when deemed necessary. Courts are selected based on staff evaluation of conditions. This program maintains and creates playability and extends the serviceable life of courts.

Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project implements a comprehensive trail renovation strategy. Funding addresses trail failures throughout the park system to correct safety problems, prevent further erosion and deterioration, and perform other related work. The project leverages community support by providing technical assistance, training, and materials to district staff and volunteers who are engaged in other trail-related projects. Trail projects that require significant design or permitting will be funded out of the Major Maintenance project.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program develops forest and vegetation management plans, implements restoration projects at sites throughout the City's park system, removes hazardous trees, and performs other related work. Restoration projects, with much of the work being performed by volunteers, may include removal of invasive plants, such as English ivy and Himalayan blackberry, followed by replanting with native plants. Future funding for this program depends on available resources. This project enhances Seattle's urban forest and supports the Green Seattle Partnership to increase overall City tree canopy and the Restore Our Waters Strategy to improve Seattle's aquatic environments.

Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project is a collaborative effort between the City of Seattle, local community organizations, and thousands of volunteers working to restore and actively maintain forested park lands in Seattle. Restoration for each acre typically occurs over multiple years and includes clearing invasive plants, replanting the area with native plants, caring for the plants through establishment, and other related work.

Utility Conservation Program

Project No:	MC-PR-41010	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project implements energy conservation projects in collaboration with Seattle City Light, Seattle Public Utilities, Office of Sustainability and Environment, and Puget Sound Energy. Projects may include lighting, heating, and water use renovations at various facilities throughout the Parks system. These projects result in energy savings and better air and water quality, and support the Climate Protection Initiative by reducing greenhouse gas emissions. The cost of these projects is expected to be recovered within approximately five years through reduced utility costs and rebates from the three utilities. Rebates and other additional resources will be pursued to fund future conservation projects.

Victor Steinbrueck Park Renovation

Project No:	MC-PR-16005	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	Improved Facility	Location:	2001 Western AVE
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2013 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$2,850	Urban Village:	Downtown

This project renovates the existing Victor Steinbrueck Park to help revitalize this park located in the Pike Place Market. Renovations may include new seating, paths and circulation modifications, landscaping, lighting, signage, and related elements. This park is within the boundaries of the Pike Place Historical District. This project is funded in part by the 2008 Parks Levy.

Victor Steinbrueck Parking Envelope

Project No:	MC-PR-41044	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	2001 Western Ave
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2017 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$5,000	Urban Village:	Downtown

This project will replace the existing membrane between the westerly portion of Victor Steinbrueck Park and the Unico parking garage below, and other related items. The membrane is a waterproofing layer that keeps stormwater and irrigation that falls on the park from entering the garage below and damaging the concrete structure. The membrane was installed in 1981 when the park was originally constructed on top of the parking garage. These membranes typically last no more than 30 years; the existing membrane has failed and no longer prevents water from entering the garage below. The membrane replacement requires the removal and subsequent replacement of all the park improvements above and the installation of a new drainage system. The new membrane will provide a waterproofed foundation for the associated park renovation project.

Start/End Date:	2029 - 2031	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$5,140	Urban Village:	Not in an Urban Village

This project converts an existing grass athletic field of approximately 135,500 square feet to synthetic turf, replaces lighting, installs drainage improvements, and performs related work. This improvement allows for enhanced use and scheduling of the playfield for soccer, lacrosse, baseball, and other activities. Funding for this project was eliminated from the 6-year CIP in the 2021 Proposed Budget.

West Queen Anne Playfield Conversion

Project No:	MC-PR-41072	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	1901 1st AVE W
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:	2020 - 2028	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$7,003	Urban Village:	Not in an Urban Village

This project will improve playability and increase year-round athletic field capacity at West Queen Anne Playfield. The existing natural turf field will be replaced with a synthetic field, and paths will be re-paved to improve accessibility, along with related work. The new synthetic turf field will expand capacity and play-time in an area of the city with few synthetic turf athletic fields.

Zoo Major Maintenance

Project No:	MC-PR-41005	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	601 N 59TH ST
Current Project Stage:	N/A	Council District:	Council District 6
Start/End Date:	N/A	Neighborhood District:	Northwest
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project preserves the Zoo facilities to enable it to operate efficiently. Typical projects include exhibit renovation or replacement, water, electrical, irrigation, and sewer systems replacement, energy efficient improvements, pavement and grounds restoration, Americans with Disabilities (ADA) access improvements, and related work. The oldest buildings at the Zoo were constructed in the 1930s and others have been built in subsequent decades. The individual projects will address health and safety codes, extend the life of the asset, improve access for all, and improve the overall Zoo experience for the public.

Seattle Center

1. Overview

Seattle Center is an active civic, arts and family gathering place adjacent to our downtown. More than 30 cultural, educational, sports and entertainment organizations reside on the grounds of the 74-acre campus providing a broad range of public and community programs and hosting thousands of events. Seattle Center is the most visited arts and cultural destination in the state, attracting an estimated 10 million visitors each year who attend arts, sporting, educational, and cultural events and festivals, and enjoy the grounds and open spaces. There are 24 buildings and three parking garages on the campus. Seattle Center is also a major urban open space offering 40 acres of lawns, gardens, fountains, a children's play area, and a variety of plazas. The Seattle Center Monorail runs between the Seattle Center campus and the heart of downtown. The City owns the Monorail, which is operated by Seattle Monorail Services on the City's behalf. The Space Needle, the Pacific Science Center, and Seattle Public Schools' Memorial Stadium and its adjacent parking lot are also part of the campus but are separately owned and operated.

Seattle Center resides on Indigenous lands, the traditional territories of the Coast Salish people. The origins of a civic campus at Seattle Center go back to the 1920s, with Mayor Bertha Landes presiding over the groundbreaking for the Civic Auditorium, Civic Ice Arena, and Civic Field, which established the beginnings of our current campus. In the 1930s, the Washington State Armory was built. Memorial Stadium was constructed in the 1940s. In the late 1950s and early 1960s, surrounding properties were assembled to create the site for the 1962 Seattle World's Fair, expanding the size of the campus to roughly what it is today.

One result of this long, piecemeal history is that Seattle Center's infrastructure, facilities and grounds are now aging and increasingly at risk of failure. While some facilities have been renovated through individual efforts (McCaw Hall in 2003; Seattle Opera at the Center in 2018; and Climate Pledge Arena in 2021), the majority of the campus and the buildings Seattle Center operates remain in need of major renovation and redevelopment. Many of our core campus systems (HVAC, emergency generators) have exceeded their lifespan. As a result, more systems are beginning to fail, and we are seeing a marked increase in costly emergency repairs. Re-investment in these facilities is essential to Seattle Center's safe and effective operation, as they serve not only as venues for arts, cultural and sporting events, but also as sheltering sites, providing critical services to the larger City in the event of a civil emergency.

The department's Capital Improvement Program (CIP) repairs, renews, and redevelops the facilities and grounds of Seattle Center to provide a safe and welcoming place for millions of annual visitors. The CIP helps accomplish Seattle Center's mission by:

- Preserving campus buildings and infrastructure
- Assessing building systems and developing maintenance and repair schedules
- Maintaining and repairing campus-wide utilities
- Creating and maintaining multi-use public spaces for free and fee-supported events

- Maintaining a large collection of public art
- Upgrading landscape features and public gathering spaces
- Planning for campus improvements and modernization
- Retrofitting buildings for improved energy efficiency
- Removing barriers in buildings, pathways, and public spaces on campus to better serve visitors of all ages and abilities

Going into the 2025-2030 CIP Budget, we are looking ahead to the start of construction at Memorial Stadium in 2025 and hosting the 2026 FIFA Fan Fest as part of the World Cup. As the City's premiere cultural space and venue for large events, Seattle Center's physical condition will be increasingly important to how well the City supports its arts and cultural sector and continues to support the recovery of Seattle's downtown. The CIP investments proposed here will be critical to ensure Seattle Center is well-positioned to serve our city in the coming years.

2. Thematic Priorities

Seattle Center's capital projects program continues its focus on 4 primary themes for 2025-2030:

1. Major Asset Preservation Projects
2. Major Project Planning and Partnership Opportunities
3. Campus Uplift and Modernization Projects
4. Grant Supported Projects

Major Asset Preservation Projects

Over the last five years, Seattle Center has been maintaining its aging historic 74-acre public campus with an annual average REET allocation of \$9.5 million. When accounting for inflation, this is substantially less than what is needed to maintain an asset of its size.

Seattle Center has recently completed a series of Facility Condition Assessments (FCAs). These studies will define our priority investment in asset maintenance and replacement for the major existing systems on campus, including:

- Roofing assessment of all major facilities
- Cladding and fenestration assessment of selected facilities
- Mechanical systems
- Electrical systems
- Plumbing and piping
- Water features (including the iconic Seattle Center International Fountain)
- Elevators
- Campus bollards

Between 2025-2030 Seattle Center will invest \$50.6 million of REET for major asset preservation, including plans to spend nearly \$29.5 million to design and construct the replacements and repairs identified in the FCAs as most critically needed for facility safety and reliability. Because our REET allocation is not sufficient to keep pace with all needed replacements and repairs across the campus, the most urgent projects will be prioritized. Seattle Center intends to invest the remaining \$21.1 million of REET in projects to upgrade public spaces across the campus to meet public needs and support our core lines of business.

Major Project Planning and Partnership Opportunities

Memorial Stadium

The 77-year-old Memorial Stadium is owned and operated by Seattle Public Schools (SPS) on land deeded by the City and is outdated, deteriorated, and in need of redevelopment. The Seattle Public Schools Building Technology Academics & Athletics (BTA V) levy approved by Seattle voters in February 2022 contains \$66.5 million for a basic student athletic stadium. Under a letter of intent signed by SPS and the City in October 2021 and a November 2022 Memorandum of Agreement, the School District and City are collaborating on a plan for a new enhanced stadium. The new facility will help transform the heart of Seattle Center with a state-of-the-art stadium that will serve SPS' needs for athletic events and graduations and be a major civic venue for other arts, cultural, sports, and community events as well.

In June 2023, following a Request for Proposals, the Mayor and School Superintendent agreed to negotiate with One Roof Stadium Partnership (One Roof) to develop an enhanced stadium jointly. In 2024, Seattle Center, SPS and One Roof reached an important milestone by aligning on key project terms. In addition to the \$66.5 million SPS levy money and \$3.95 million from the State capital budget, Seattle Center's Proposed 2025-2030 CIP includes the \$38 million balance of the City's planned \$40 million contribution to the Memorial Stadium Redevelopment. One Roof will be responsible for private fundraising to generate the additional funding to complete the project. The City's funding needed to start construction in 2025 has been identified through a proposed interfund loan necessary to be able to complete negotiations for the new stadium and formalize commitments to advance the project. The interfund loan will be repaid with bond proceeds from a 2026 bond issuance. REET will pay the debt service on the bonds. The SPS Board of Directors, Mayor, and the City Council are anticipated to review and approve implementing agreements by the end of 2024. The new stadium is expected to be complete by the end of 2027.

Seattle Center Warehouse Relocation

The Seattle Center warehouse is currently located below the north stands at Memorial Stadium. This large facility is critical to daily campus operations including maintenance, event production, and campus-wide shipping, receiving, and re-stocking, and it will be demolished when the Stadium is redeveloped. In 2024, Seattle Center began a project to temporarily relocate its storage and operations for the duration of construction and will continue this work into early

2025 to be fully relocated out of Memorial Stadium in time for Stadium demolition to begin. A permanent home for Seattle Center operations is included as part of the future redeveloped Memorial Stadium.

5th and Mercer Block (Formerly KCTS) Long Range Planning

In early 2024, Cascade PBS (formerly KCTS-9) moved to a new headquarters on First Hill and turned over its former broadcasting facility to the City, per mutually agreed terms of its 40-year ground lease agreement. The building and its full block parcel at the corner of 5th Ave. N. and Mercer St. are now owned, operated, and maintained by Seattle Center. Seattle Center's long-term plan, which reflects support from community and stakeholder outreach, is to pursue a redevelopment strategy for this property that will generate revenue to support Seattle Center and contribute to the overall vitality of the campus and the neighborhood. In the interim period, Seattle Center intends to use portions of the KCTS building to meet operational needs displaced by Memorial Stadium construction. Seattle Center has also entered a one-year partnership with Office of Economic Development (OED) to activate the building and support Seattle's creative economy while offsetting some of the building's operating costs.

Seattle Center Light Rail Station Planning

The planned Ballard Link Extension project includes two proposed light rail stations serving Seattle Center. Since 2019, Seattle Center has engaged intensively in interdepartmental collaboration and engagement with neighbors and resident organizations to help arrive at a preferred alignment. In anticipation of the Ballard Link Extension DEIS being released at the end of 2024 or early 2025, Center will devote CIP planning funds to support staff time and/or consultant work to address our most critical concerns, which include noise and vibration impacts to sensitive arts and cultural venues; transportation/access impacts to the campus during construction; and station area planning.

Thomas Street Partnership

Thomas Street is the busiest pedestrian corridor of the campus and offers a unique opportunity for investment at a major gateway connecting Seattle Center to the north downtown community. Seattle Center is preparing to issue an RFP seeking a partner to envision a new use and reinvestment in the aging gift shop building on Thomas Street, to potentially add new attractions, and to enhance the pedestrian experience on Thomas Street. This project will build on the ADA enhancements in design for the Seattle Center Monorail Station (see below).

Campus Uplift and Modernization Projects

Seattle Center Eco-District

Seattle Center, working closely with Seattle City Light (SCL) and Office of Sustainability and Environment, has set a goal to pursue full-scale decarbonization of the 74-acre campus. This would be a landmark opportunity to reduce the City's carbon emissions, create a district-scale model for decarbonization, and re-invest in critical, aging campus infrastructure. To this end,

Seattle Center recently completed two technical studies of options to replace the aging campus HVAC infrastructure with an eco-district approach that transitions Seattle Center off fossil fuels and supports City-wide electrification efforts. Seattle Center, SCL, and OSE are collaborating to pursue federal and state funding toward this vision.

Campus-Wide Open Space Plan

In long-range planning for the campus, Seattle Center intends to leverage upcoming major projects including the Memorial Stadium redevelopment, the grant-funded Monorail Station Reconfiguration, the 5G infrastructure project, the Armory generator replacement, and ST3 to uplift public open spaces and improve outdoor lighting. In 2023, Seattle Center engaged a landscape architecture firm to produce concept designs for a campus-wide open space plan that incorporates design interventions in a variety of locations, with a vision that is unified around the Century 21 Master Plan principles. As our major redevelopment projects and departmental strategic plan take shape, we will incorporate the concepts from this effort into our scope and budget for future CIP work in 2025-2030.

Seattle Center's Neutral Wireless Infrastructure

Seattle Center conducted an RFP process in October 2022 – May 2023 seeking to identify a well-qualified Wireless Infrastructure Provider (WIP) that would be responsible for managing the design, installation, deployment, operation, upgrading/reinvestment, and maintenance of privately owned cellular wireless infrastructure to deliver high-quality service to visitors and pay a fee to Seattle Center. Verizon was selected as the RFP's finalist and contract negotiations are currently underway. Seattle Center expects construction to begin in early 2025 with a projected completion by end of 2026. The work will be funded by the WIP. Seattle Center hopes to leverage this work on the street grid to implement other upgrades to the power, utility, and lighting systems, and potentially to upgrade campus paving.

Grant Supported Projects

Monorail Station Reconfiguration (\$23 million)

The Seattle Center Monorail Station Improvements project, estimated at \$23 million, will provide for a fully accessible station consistent with ADA Title II. Total project funding comprises \$15 million from the FTA All Stations Accessibility Program (ASAP), \$5 million from Move Ahead Washington, and \$3 million from Puget Sound Regional Council. Conceptual design is underway, GC/CM contracting has been approved and procurement has started. Design and preconstruction will begin in early 2025. We anticipate construction to occur between July 2026 (following World Cup) and December 2027.

Armory Generator Replacement (\$4.8 million)

This project will update emergency power systems for the Armory and Fisher Pavilion, two Seattle Center facilities that play a critical role in the City's sheltering and emergency response. The project will remove a 60-year-old generator and associated controls located in the Armory

and replace it with a new, sustainably powered generator capable of supporting emergency functions in both the Armory and Fisher Pavilion. Our proposed solution builds resiliency, sustainability, and energy efficiency into the Seattle Center Emergency Operations facilities. Most of the budget for this project (75%) will be funded by a \$3.6 million FEMA grant while the remaining amount will be funded by REET. Seattle Center began design in 2024, with construction anticipated to begin in 2025.

3. Project Selection Criteria

For each budget cycle, a broad cross-section of Seattle Center staff members engages in the process of identifying the highest priority asset preservation and improvement needs on the campus. This includes staff members who maintain facilities, rent facilities to clients, provide technical support for events, manage parking and public assembly facilities, and manage capital projects. Projects are prioritized around a set of criteria, including public and staff safety, regulatory requirements, failing building systems, asset preservation, reducing operating costs and/or increasing revenue potential, leveraging non-City funds and partnerships, and race and social justice. Center's Campus & Armory Operating Board and the McCaw Hall Operating Board have played central roles in identifying and prioritizing capital needs in the facilities they oversee. The Seattle Center Director of Facilities, Planning, and Operations works together with the Director of Finance and Administration and the Seattle Center Director to review the staff recommendations for prioritizing projects across the campus within funding targets provided.

4. 2025-2030 CIP Highlights

The Center's CIP prioritizes funding to address needs identified in the latest phase of facility condition assessments (FCAs), including roofs, mechanical infrastructure, and the International Fountain. The CIP also includes funding for asset preservation investments in McCaw Hall and the Monorail, guided by the McCaw Hall Capital Renewal/Major Maintenance Plan and the Seattle Center Monorail Transit Asset Management (TAM) Plan and Capital and Major Maintenance Program (CMMP) Plan. In 2025, Seattle Center's CIP REET budget is \$5,292,900 for capital improvement projects and major maintenance. Seattle Center's Capital Projects team will prioritize using this funding in the coming year to address deferred maintenance priorities, provide match to advance key grant-funded projects, and plan for major capital work needed in the future.

Highlights of asset preservation investments at Seattle Center in 2025-2030 will include:

ADA Improvements – In 2025, Seattle Center expects to exhaust the balance of remaining funds from this master project on Barrier Removal Schedule (BRS) projects including the Armory 4th Floor restroom upgrades. Seattle Center has about 36% of its BRS projects remaining and intends to continue working toward a fully accessible campus.

Armory – In 2025-2030, our priorities include replacing the failing Armory generator with a new larger generator that will extend emergency power to the Fisher Pavilion (75% of project funding comes from a FEMA grant); completion of upgrades to HVAC in our office spaces; adding a grease interceptor for the Armory Food and Event Hall, and investing in tenant improvements to upgrade our food and beverage program.

General Site Improvements – Priorities within this master project include continued restoration of the International Fountain’s 30-year-old major piping, valves, and control systems, and asphalt overlays to refresh campus pedestrian pathways.

McCaw Hall – Annual REET I allocations for McCaw Hall asset preservation are matched 100 percent by the resident tenants of McCaw Hall, the Seattle Opera and Pacific Northwest Ballet, to carry out the McCaw Hall Capital Renewal/Major Maintenance Plan, under the direction of the McCaw Hall Operating Board.

Monorail Renovation – Federal Transit Administration grant funds and local matching funds are allocated to continue implementation of the Seattle Center Monorail Transit Asset Management Plan and Capital and Major Maintenance Program Plan for renovation of the Monorail trains, guideways, and stations. Seattle Center is investing \$23 million in station accessibility upgrades funded by grants from FTA ASAP, Move Ahead Washington, and Puget Sound Regional Council, with project completion targeted in 2027.

Open Space Restoration and Repair – Renovation of public open spaces in 2025 will include approximately \$950,000 invested in construction of a temporary warehouse and operations center to support Seattle Center events and campus operations while the new Memorial Stadium – including new dedicated space for Seattle Center operations -- is under construction. Beyond 2025, Seattle Center will invest in the restoration/replacement of Artists at Play playground equipment and making phased lighting and placemaking improvements across the campus.

Parking Repairs and Improvements – An ongoing program of major maintenance on the garages will continue with repairs addressing elevator failures and other issues at the Mercer Garage and 5th Ave N. Garage.

Roof Replacements – Priority roof repairs include McCaw Hall, SIFF, the Central Utility Plant, and Phase II of the Bagley Wright Theatre. Additional roof repairs identified in the FCA will be completed by Seattle Center staff and outside contractors as necessary.

Utility Infrastructure – Renovation of campus utility infrastructure in 2025-2030 includes campus-wide mechanical and electrical system improvements prioritized in the FCA, advancing repairs to the Central Utility Plant cooling towers that supply cooling to 10 buildings across the campus, and completing ventilation improvements in multiple facilities.

5. CIP Revenue Sources

Seattle Center's Proposed 2025-2030 CIP is funded from a combination of revenue sources, including Real Estate Excise Tax (REET, the primary funding source for 2025-2030), LTGO bond funds, and state and federal grants. The Center is proposing an inter-fund loan in 2025 to bridge financing for Memorial Stadium Redevelopment. The loan will be repaid in full when the City receives 2026 LTGO bond proceeds, tentatively scheduled for mid-2026. In the past, other key funding sources for Seattle Center included voter-approved property tax levies, Washington State and King County funds, philanthropic contributions, proceeds from property sales, and private investment. Private investment has always played a key role in Seattle Center's development, with the \$1.15 billion Climate Pledge Arena renovation as the latest example.

6. Summary of Upcoming Budget Issues and Challenges

The biggest challenge facing Seattle Center's CIP is that available funding has not kept pace with the need for rapidly aging infrastructure, which can lead to costly emergency repairs. In spring 2024, for example, the unexpected failure of the Central Utility Plant cooling tower piping during record high seasonal temperatures required an emergency repair project (costing nearly \$200,000 to date) to ensure the system could maintain comfortable temperatures to McCaw Hall, the Exhibition Hall, and Seattle Repertory Theater along with other facilities. Though a temporary workaround was implemented and successful until the repair was completed, Seattle Center would have been financially responsible for canceled events, as well as potential reputational issues for lack of confidence in the state of facilities for future bookings.

Our completed FCAs and decarbonization studies indicate that significant additional funding will be needed for future efforts to preserve and modernize Seattle Center facilities. This need will likely outstrip what is realistically available using conventional funding sources such as REET and may require other revenue sources.

7. Future Projects on the Horizon

Capital Repairs and Improvements: As Seattle looks forward to welcoming the global community to the FIFA World Cup in June 2026, Seattle Center will play a critical role in hosting the FIFA Fan Fest event, where nine viewing parties are anticipated each with crowds as large as our largest typical summer events. We have been working to prioritize a list of capital improvements needed to make the event a safe and welcoming experience through investments in the infrastructure and appearance of our campus to attract more events that showcase Seattle and generate economic activity. The prioritized list under discussion represents a total investment of \$2.76 million in 2025-2026 outside of the proposed CIP for the following repairs and improvements:

- Security bollard repair and installation
- Electrical infrastructure upgrades to serve large events
- International Fountain plumbing, lighting and sound system repairs and upgrades
- Benches, tables, and chairs for campus open spaces

- Lawn restoration at first-tier lawns: Mural Amphitheater, Fisher Green, and Fountain Lawn
- Lawn restoration at second-tier lawns: PNB, McCaw Hall, Seattle Children's Theatre, Broad Street Green, Space Needle, Pacific Science Center

Seattle Center 10-Year Vision and Action Plan: In 2024, Seattle Center and the Seattle Center Foundation kicked off an exciting process to create a 10-year Vision and Action Plan. The effort over the next nine months will incorporate research and stakeholder engagement, incorporate best practices from cultural campuses from around the world, and will result in an action plan for Seattle Center's future. While this is not yet a thematic priority in the 2025 CIP, we anticipate that decisions and momentum coming from the Vision and Action Plan will guide capital project planning and funding strategies in the coming years.

ADA Improvements

Project No:	MC-SC-S9302	BSL Code:	BC-SC-S03P01
Project Type:	Ongoing	BSL Name:	Building and Campus Improvements
Project Category:	Rehabilitation or Restoration	Location:	Seattle Center Campus
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	N/A	Urban Village:	Uptown

This ongoing project makes the Seattle Center campus more accessible to people with disabilities. Improvements may include, but are not limited to, assisted listening devices, automatic doors, ramps, signage, seating and other features that accommodate Seattle Center visitors.

Total Project Cost:	N/A	Urban Village:	Uptown

This project provides for the implementation of the McCaw Hall Capital Renewal/Asset Preservation Plan under the direction of the McCaw Hall Operating Board. The plan identifies asset preservation investments in the facility. Funding comes from the City and from the two resident tenants of McCaw Hall, Seattle Opera and Pacific Northwest Ballet.

Memorial Stadium Redevelopment

Project No:	MC-SC-S9505	BSL Code:	BC-SC-S03P01
Project Type:	Discrete	BSL Name:	Building and Campus Improvements
Project Category:	Improved Facility	Location:	401 5th Ave N.
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Council District 7
Start/End Date:	2023 - 2027	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$40,000	Urban Village:	Uptown

The 77-year-old Memorial Stadium is owned by Seattle Public Schools (SPS) on land deeded by the City and is outdated, deteriorated, and in need of redevelopment. The Seattle Public Schools Building Technology Academics & Athletics (BTA V) levy approved by Seattle voters in February 2022 contains \$66.5 million for a basic student athletic stadium. Under a letter of intent signed by SPS and the City in October 2021 and a November 2022 Memorandum of Agreement, the School District and City are collaborating on a plan for a new enhanced stadium. The new facility will transform the heart of Seattle Center with a state-of-the-art stadium that will serve SPS' needs for athletic events and graduations and be a major civic venue for arts, cultural, sports, and community events.

In June 2023 following a Request For Proposals, the Mayor and School Superintendent agreed to enter into negotiations with One Roof Stadium Partnership (One Roof) to jointly develop an enhanced stadium. In 2024, Seattle Center, SPS and One Roof reached an important milestone by aligning on key project terms. In addition to the \$66.5 million SPS levy money and \$3.95 million from the State capital budget, Seattle Center's Proposed 2025-2030 CIP includes the balance of the City's planned \$40 million contribution to the Memorial Stadium Redevelopment. One Roof will be responsible for private fundraising to generate the additional funding to complete the project. The City's funding needed to start construction in 2025 has been identified through a proposed interfund loan necessary to be able to complete negotiations for the new stadium and formalize commitments to advance the project. The SPS Board of Directors, Mayor, and the City Council are anticipated to review and approve implementing agreements by the end of 2024. The new stadium is expected to be complete by the end of 2027. The Executive will create legislation to authorize a second interfund loan in 2026 to address any cashflow requirements of the project. The interfund loan authorized in 2026 will be repaid with 2027 bond proceeds.

Unsecured Funding Strategy: The City maintains its commitment to identifying additional partnership funding for the Memorial Stadium Redevelopment project. Seattle Center is working closely with the Mayor's Office, the City Budget Office, and the City Council to develop a funding strategy and will update the final funding strategy in a future CIP.

O&M Impacts: O&M estimates will be further refined in the following CIP after design work is finalized.

Memorial Stadium Redevelopment - Debt Service

Project No:	MC-SC-S9506	BSL Code:	BC-SC-S03P01
Project Type:	Ongoing	BSL Name:	Building and Campus Improvements

Monorail Improvements

Project No:	MC-SC-S9403	BSL Code:	BC-SC-S9403
Project Type:	Ongoing	BSL Name:	Monorail Rehabilitation
Project Category:	Rehabilitation or Restoration	Location:	Seattle Center Monorail System
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	N/A	Urban Village:	Uptown

This project provides for the renovation of the Seattle Center Monorail, including the two trains, the two stations and the guideways that run in between. The City operates the Monorail through its contractor, Seattle Monorail Services. Monorail improvements may include, but are not limited to, floor replacement, door refurbishment, renovation of pneumatic and electrical systems and other train components, guideway renovation, and station upgrades.

Skatepark Relocation

Project No:	MC-SC-S1901	BSL Code:	BC-SC-S03P01
Project Type:	Discrete	BSL Name:	Building and Campus Improvements
Project Category:	Rehabilitation or Restoration	Location:	Seattle Center Campus
Current Project Stage:		Council District:	Council District 7
Start/End Date:	2018 - 2020	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$1,201	Urban Village:	Uptown

This project provides for the replacement of the former Seattle Center Skatepark at a new location on a closed portion of Broad Street, just east of the main Seattle Center campus. The former skatepark was within the footprint of the Arena construction project. ArenaCo, the developer of the Arena, is contributing to the cost of the skatepark replacement.

Seattle Public Library

Overview

The Seattle Public Library's facilities include 26 branch libraries and the Central Library, as well as storage and shops space. Library buildings can be divided into five major categories:

1. There are ten buildings designated as historic landmarks, including seven Carnegie-era libraries (built in the early 1900s) and three modern buildings.
2. Eleven branch libraries are either new construction built during primarily in the early 2000s (eight buildings) or non-landmarked buildings developed between the 1950s and the 1970s (three buildings).
3. Five small library branches are essentially storefronts, four of which are part of larger buildings.
4. The Central Library is a 12-story 363,000 square foot building that serves as headquarters and hub of the library system. It houses the bulk of the Library's extensive collection of books and materials (including rare "special collections" in the Level 10 Seattle Room), a 375-seat auditorium, public meeting rooms, a gallery, large public areas for reading and access to 330 public computers, a data center housing system-wide servers, and Library administration.
5. The Maintenance and Operations Center (MOC), which houses the Library's materials distribution system and also serves as the Library's maintenance shop and storage facility.

With passage of the 2019 Library Levy, the Library embarked in 2020 on its current seven-year asset preservation program which includes seismic retrofits at century-old Carnegie-era branches. The 2019 Library Levy builds off capital investments from two prior efforts. The 2012 Library Levy, which concluded at the end of 2019, provided an essential seven-year funding stream to maintain the five new and 22 updated libraries that had been renovated, expanded or replaced during the previous systemwide capital program called "Libraries for All" (LFA). The Library's LFA program, which was completed in 2008, had increased the amount of physical space by 80% to a total of over 600,000 square feet, greatly increasing the demands on the Library's major maintenance program.

The Library Major Maintenance program provides ongoing funding for work that preserves or improves building integrity, efficiency and functionality.

Thematic Priorities

The Library's Capital Improvement Program (CIP) projects generally fall into one or more categories: asset preservation, operational efficiency, environmental stability, public service improvements, and safety and security.

Asset Preservation

The overriding priority of the Library's capital program is to extend the useful life of its buildings. As the Library's buildings have all surpassed the ten-year mark since the conclusion of the final Libraries for All bond projects, the buildings require attention to flooring, casework, finishes and restroom fixtures. Major repairs and replacement to roofs, building envelopes, HVAC and other critical building systems, doors, windows, flooring and casework are also examples of asset preservation items funded through

2025-2030 Proposed Capital Improvement Program

the Library's CIP budget. The 2019 Levy also included additional funding for Carnegie-era branch seismic retrofits.

Nearly all of the Library's \$7.98 million 2025 Proposed CIP Levy budget can be predominantly classified as asset preservation work. There are also elements of enhanced safety, improved access, energy efficiency and environmental sustainability. The \$7.98 million 2025 CIP budget includes \$3.5 million for seismic retrofit projects at the University and Columbia branches as indicated in the 2019 voter-approved levy. The balance of non-IT Levy CIP funding will pay for mechanical systems replacement at multiple branches, specifically electrification per Citywide mandate and adding or upgrading heating, ventilation and air-conditioning (HVAC) systems.

Progress continues to be slowed on some major multi-year projects due to supply chain delays and shortages of materials, and those projects may continue into 2025; a recent example was the months-long wait for a Green Lake branch replacement elevator. Other projects that may be at risk for delays include the improvements at branches to respond to the Citywide electrification mandate (while adding or upgrading heating, ventilation and air-conditioning (HVAC) systems at various branches that do not possess air-conditioning), and the additional seismic retrofit projects (University and Columbia).

The iconic Central Library often requires a significant portion of CIP funds, usually distributed over multi-year projects. Historically, larger, complex and challenging projects have been planned and staged sequentially to minimize the impact on Library services to patrons. While there are no new major projects scheduled at the Central Library in 2025, age-related upgrades to its mechanical systems will need to be pursued during the next few years when funding allows.

While the aforementioned projects are essential for preserving the Library's physical assets, many of them also contribute to the Library system's other essential themes: operational efficiency, environmental sustainability, and improved service to the public.

Library Operational Efficiency; Environmental Sustainability; Safety and Security of Public/Staff

The Library delivers direct services to Seattle residents, who expect highly functional and welcoming library buildings. Major maintenance work carried out under these priorities supports:

- upgrades to help the Library reduce operating costs while minimizing impact to the public;
- renovations to enhance the environmental sustainability of Library buildings; and
- repairs and improvements that augment the safety of library facilities (immediate safety concerns and building integrity are highest priority).

Public Service Improvements

Public service improvements mostly encompass work that enhances the library patron experience, such as Reimagining Spaces projects that have been completed over the past several years (Rainier Beach, Lake City, Ballard, Beacon Hill, Highpoint, South Park and Northeast). These projects have typically entailed increased meeting room space; better connectivity for devices; lowered shelving and improved layout for enhanced sightlines/security/accessibility; and updated carpet, paint and restrooms. There are no projects solely dedicated to public service improvements scheduled for 2025. However, public service improvements were included in the Green Lake branch project, are planned for the University branch seismic retrofit scope, and are also being considered concurrent with the seismic stability project

2025-2030 Proposed Capital Improvement Program

at Columbia branch as well. Ultimately, funding will determine the extent of public service improvements for the latter two seismic retrofit projects.

Project Selection Criteria

In selecting major maintenance work to accomplish in a typical year, the Library evaluates the preservation of building integrity, impact on safety to the public and staff, importance of the work to core library building functions, operational efficiency gains (both economic and environmental), and opportunities to improve or preserve service to the public.

The Library conducts condition assessments and updates information based on inspection by the capital program manager and facilities maintenance staff. The Library obtains professional evaluations of roofs, mechanical, HVAC and lighting systems to flag deficiencies and identify areas where the capital program may be able to reduce operating costs. Library public services managers develop proposals to change the functional use of library space. These proposals are evaluated for feasibility, cost and urgency, and capital program staff works with Library services managers to scope alternatives. Public input also plays a role in project planning. The Library senior management team has ultimate responsibility for authorizing and prioritizing functional building modifications.

Many library facilities are open seven days per week during normal operations, which requires careful planning and staging of projects to keep libraries open as much as possible while capital improvement work is underway. Flexibility is critical to respond to building issues as they emerge.

CIP Highlights

The Library's 2025-2030 Proposed CIP provides a base level of support for asset management during the period when all buildings have surpassed the ten-year mark from their LFA construction or renovation. The 2019 Library Levy provides a total of \$7.98 million (including seismic/unreinforced masonry (URM) allocations) in 2025. The Library will receive \$386,000 in base Real Estate Excise Tax (REET) funding, which is tentatively budgeted for the University branch seismic project.

Two significant capital projects will be continuing in 2025 - the multi-year, multimillion dollar seismic retrofits at century-old Carnegie branches (University and Columbia). The University project will be publicly bid in late 2024 and construction will continue throughout 2025. Planning and design will continue for Columbia in 2025, though as construction inflation has risen sharply since passage of the 2019 levy, further progress (including construction) will be contingent upon securing adequate outside funding. Additional multi-year endeavors include the largest Library IT Infrastructure project, the Integrated Library System (ILS) Replacement. The ILS manages procurement of collection materials and patron access to the Library's physical and digital collections. The \$4 million ILS project began with planning and development in 2023 and will continue through 2027. Library IT is also continuing a \$1.3 million 2024 project to replace Library branch switches, which help direct network traffic for both patron and staff use.

Notably, the Library was awarded \$5.28 million from Federal Emergency Management Agency (FEMA) in June 2024 to fund air-conditioning for five non-air-conditioned branches (University, Columbia, West

2025-2030 Proposed Capital Improvement Program

Seattle, Queen Anne and Fremont). The grant was initially submitted in 2022, with substantial assistance from the City's Office of Emergency Management (OEM). The University allocation will be incorporated into the overall seismic retrofit/electrification budget for that project. However, significant construction inflation continued between the time of the application submission and notice of grant award, so it is very likely the remaining four branches will require supplemental resources to fulfill their funding needs.

The FEMA grant projects align with the City's mandate to move away from dependence on non-renewable energy sources and also to provide resilience hubs for residents—cooling and smoke refuge centers for residents during extreme heat and/or wildfire smoke events. With the help of an engineering consultant, the Library has prioritized branches that will be transitioned from fossil fuels, based on immediate maintenance needs, air-conditioning status, years since last remodel and proximity to other Library locations. Of the highest priority locations, the Library has completed conversion of two branches (Broadview and Capitol Hill), is scheduled to finish another (Green Lake) by the end of summer 2024, and will begin a fourth in early 2025 (University, concurrent with seismic work). The Library is evaluating the sequence to begin the FEMA electrification/HVAC projects at Columbia, West Seattle, Queen Anne and Fremont.

Additionally, the Library (with assistance from the City's Office of Sustainability and Environment (OSE)) has applied for a \$1.8 million Washington State Department of Commerce grant to assist in funding the University seismic retrofit, with expanded scope to include air-conditioning, electrification, improved ADA access improvements and a new elevator. The Library is also awaiting the outcome of other federal funding opportunities for the University and Columbia seismic retrofit projects.

CIP Revenue Sources

Historically, REET was the primary source of funding for the Library's CIP, with an additional smaller allocation from the General Fund. In 2012, the Library worked with the Mayor and City Council to develop a Library levy proposal that voters approved in August of that year. One of the core areas the levy funds is major maintenance. Upon passage of the 2012 Library Levy, the City shifted most major maintenance funding from REET/General Fund to the levy, which provided a significant increase in major maintenance funding for major maintenance projects. The 2019 Library Levy continues support to preserve the Library's capital assets including significant investments in seismic upgrades for three branches.

Levy funding is insufficient to fully cover costs associated with patron and programmatically-driven renovation projects, significant building infrastructure renovations and adjustments, or replacement of major building systems at the Central Library and larger branches. Since passage of the 2012 Library Levy, REET revenue has continued to provide additional funding for targeted efforts, such as the Library's Reimagining Spaces initiative (which sought to enhance Library physical spaces to better address changing patron and community needs) or large-scale major maintenance requirements not anticipated during the planning of the levy.

REET revenue plays a vital role in supporting projects that are beyond the scope of the Library's levy-funded major maintenance program. For example, while the levy remains the primary funding source for the seismic retrofit projects at Green Lake, Columbia and University branches, supplemental funding

is necessary to pursue building upgrades that would be considerably less expensive if performed concurrent with the seismic work. Contingent upon that supplemental funding, those expanded scopes can include the addition of air-conditioning; accessibility upgrades (such as elevators) to increase access for patrons with mobility challenges; mechanical system modernization and electrification for increased energy efficiency and reduced reliance on fossil fuels; and other interior enhancements. The Library's \$386,000 2025 REET allocation will fund seismic retrofit and electrification work at University branch.

As previously mentioned, the Library received a \$1.8 million Washington State Department of Commerce grant for the Green Lake branch seismic retrofit, and has applied for another \$1.8 million grant for the University retrofit. The Library is active in pursuing federal grants as well (the aforementioned \$5.28 million FEMA grant to fund air-conditioning for five non-air-conditioned branches - University, Columbia, West Seattle, Queen Anne and Fremont).

Summary of Upcoming Budget Issues/Challenges; Future Projects on the Horizon

Aging Buildings and Infrastructure

Library buildings are among the most intensively-used City facilities in Seattle. Prior to the pandemic, the Central Library hosted over 1.2 million visitors annually, with library branches serving over 3.6 million visitors. The Library's historic landmark buildings have unique features such as brick facades, slate roofs and other details. When undertaking maintenance and repair work, it is essential to use designs and materials consistent with their landmark status – all factors that increase major maintenance costs.

The venerable Central Library is now entering its third decade of service; it poses a different set of challenges. A building of Central's size, complexity and intensity of use requires significant annual maintenance to preserve core functionality and continually improve building efficiency. At least two major areas of concern will require significant funding beyond the annual Levy major maintenance allocation: (1) updating Central's mechanical and HVAC systems to align with current City policy and lessen its carbon footprint, and (2) replacement of Central's unique custom curtain wall, comprised of thousands of diamond-shaped windows. Additionally, Central's spaces may need to be reimaged in the coming years to better serve patrons and the Library's evolving operational and security needs.

The retrofit/upgrade of vertical transportation is another potentially expensive set of projects on the Library's horizon, for both branches with elevators and Central (which has both elevators and escalators). Elevators and escalators have a life cycle and building codes often change to meet new safety measures.

Seismic Preparedness

A 2016 survey conducted by the Seattle Department of Construction and Inspection identified seven URM facilities in the Library's property portfolio requiring seismic retrofit to reduce the risk of injury and loss of life during an earthquake. The survey classified buildings into three categories of vulnerability (critical, high, and medium) with regard to life safety impacts. Three of the seven Library facilities - Green Lake, University and Columbia branches - fell within the high-vulnerability category (with the remainder in the medium-vulnerability category) and the Library Board of Trustees identified those branches as a critical issue to be addressed. The 2019 Library Levy included funding for seismic retrofits of those three Carnegie-era branches.

As the URM projects necessitate closure of the branches for a year or more, other needed building improvements can be scheduled concurrently. Contingent upon available funding, work may entail roof and envelope restoration; elevator and mechanical system upgrades (including the addition of air-conditioning); interior renovation (including electrical, carpeting, furniture and finishes); and efforts to ensure ADA compliance and equitable access.

Adjusting to a Changing Climate

The Library is also adapting to a changing climate, often working with OSE to identify potential areas for improved energy efficiency and, per mayoral directive, to lessen the Library's reliance on fossil fuels. Several branches – including most of the landmarked branches, some built a century ago – are not air-conditioned, and rising summer temperatures can lead to closures which impact patrons and Library operations. The Library continues to explore logistics and funding options to add air conditioning to high-use branches that currently lack air-conditioning, which would increase branch comfort year-round and also allow those branches to serve as cooling centers during extreme heat events. The Library has previously received funding for decarbonization and electrification efforts through the payroll expense tax, and received a 2024 FEMA grant to partially fund air-conditioning for five non-air-conditioned branches.

Materials Shortages and Supply Chain Delays

One challenge that was certainly not foreseen prior to 2020 was the adversity posed by the COVID-19 pandemic. The economic disruption stemming from the pandemic skewed supply and demand for both raw materials and services, often forcing reexamination of individual project scope or reprioritization of larger Library projects. For example, costs for the 2023 mechanical system replacement at Northeast and Southwest branches (which included electrification and installation of air-conditioning in two locations which lacked AC) came in several hundred thousand dollars over estimates due to higher cost of equipment and materials, prompting a shift of funds from other projects of lower urgency. While the public health impact of the pandemic has faded, construction materials shortages and supply chain disruptions seem to be lingering. Two recent examples would be months-long delays in procuring both an elevator for the Green Lake branch retrofit and HVAC equipment for Capitol Hill (a project since completed).

ADA Improvements - Library

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides for improved infrastructure at the 363,000 square foot Central Library. Central requires substantial infrastructure work to achieve operational efficiency and set the stage for its eventual programmatic re-imagining. Changes to Central also require additional lead time for planning and design, due both to its unique physical configuration/infrastructure and iconic architectural status. Typical improvements may include, but are not limited to, structural and mechanical repairs or improvements, safety and security upgrades, lighting and signage enhancements, and wall and floor surface repairs.

O&M Impacts:

Seattle Department of Transportation

Overview

The Seattle Department of Transportation (SDOT) is responsible for building and maintaining a safe, reliable, efficient, and socially equitable transportation network. In addition, SDOT maintains and improves critical transportation infrastructure of regional, statewide, and national significance in cooperation with external partners. Achieving transportation excellence helps support businesses, improves access to services and opportunities, enhances quality of life, and builds a more sustainable community. This is accomplished by:

- preserving existing transportation infrastructure and using it to its fullest capabilities;
- moving people and goods efficiently and safely, using technology wherever possible to overcome transportation challenges;
- making transit, bicycling, and walking convenient and attractive and reducing reliance on the automobile;
- shaping future transportation improvements that reflect Seattle's role and connections to the region;
- building community trust through engagement and accountability;
- working to eliminate racial disparities and advance equity goals;
- incorporating environmental excellence and climate protection into every decision, project, and program;
- promoting the livability of our neighborhoods and communities;
- guiding investments that contribute to the economic vitality of neighborhood businesses and industries in Seattle and the surrounding region; and
- managing resources wisely with performance measures.

The replacement value of the City's transportation infrastructure is estimated to be approximately \$40 billion. Major system assets include:

- 1,548 lane-miles of arterial streets;
- 2,396 lane-miles of non-arterial streets;
- 134 bridges;
- 534 stairways;
- 572 retaining walls;
- 2.2 miles of seawalls;
- 1,159 signalized intersections;
- 57.1 miles of multi-purpose trails;
- 2,301 miles of improved sidewalks and median pathways;
- 172 miles of on-street bicycle facilities;
- 41,000 street trees;
- 1,448 pay stations;
- 44,602 curb ramps; and
- Around 205,000 signs.

Levy to Move Seattle

SDOT's 2025-2026 Proposed Budget, including the 2025-2030 Proposed Six-Year Capital Improvement Program (CIP) signifies a marked change from our past budget and CIP due to the expiration of the Levy

2025-2030 Proposed Capital Improvement Program

to Move Seattle. In almost all cases, the Levy to Move Seattle was never planned for our 2025 CIP budgets as the term of the Levy expires at the end of 2024. As a result, the 2025-2030 Proposed CIP is smaller in sum and scale, reflecting a reduced capital budget without levy funding.

As SDOT prepared for the expiration of the Levy to Move Seattle, the Department engaged in a difficult but intentional effort to reimagine the SDOT of the future without a transportation levy, while upholding organizational values and the Mayor's One Seattle vision.

The guiding principles were to preserve service levels in safety and maintenance programs as much as possible, while also centering equity for both our community and our workforce, and to remain responsive to our community. We prioritized regulatory responsibilities and legally required services, as well as financial commitments to local, state, and federal funding partners.

To ensure sufficient funding to fulfill the Levy to Move Seattle commitments, the 2025-2030 Proposed CIP adds \$8,500,000 to the following two high-priority projects.

CIP Projects	2025
Bridge Seismic - Phase III	\$4,000,000
Heavy Haul Network Program - East Marginal Way	\$4,500,000
Total	\$8,500,000

Continuing to Provide Core Services

The 2025-2030 CIP includes planned resources that continue delivery of services to keep people and goods moving safely. The focus is on maintaining assets in their current state and replacing assets only when they fail.

The 2025-2030 Proposed CIP outlines investments in critical transportation infrastructure needs and includes planned spending of \$176.6 million in 2025. Key work includes street paving and resurfacing; building new curb ramps; school safety improvements; implementation of the Bike, Pedestrian, Freight, and Transit Master Plans; investments to facilitate freight mobility; traffic cameras and signals; bridge projects such as bridge replacement, maintenance, and seismic retrofitting; and support for the Waterfront Program. For details, please see the associated explanations below.

Street Paving and Resurfacing: The 2025-2030 Proposed CIP includes \$13.9 million in 2025 for the following programs:

- \$6.8 million for Arterial Major Maintenance,
- \$5.2 million for Arterial Asphalt & Concrete Program Phase II, and
- \$1.9 million for Non-Arterial Street Resurfacing and Restoration.

Pedestrian Master Plan Investments: The 2025-2030 Proposed CIP includes four projects that are solely dedicated to advancing the recommendations of the Pedestrian Master Plan (PMP).

- The Pedestrian Master Plan Crossing Improvements project funds pedestrian crossing improvements, primarily focused on crossings near transit stops and on walking routes to school. The 2025-2030 Proposed CIP includes \$3.6 million for this project in 2025.

2025-2030 Proposed Capital Improvement Program

Department of Transportation

- The Pedestrian Master Plan School Safety project includes \$4.1 million in 2025 for pedestrian improvements in school zones. These capital improvements may include school zone signing, crosswalk maintenance, curb bulb and curb ramp replacement and maintenance, sidewalk maintenance, and changes to traffic circulation around schools.
- The Pedestrian Master Plan–Stairway Rehabilitation program totals \$0.7 million. Stairways provide pedestrian connections to streets throughout Seattle’s hilly neighborhoods. The program rebuilds and rehabilitates stairways to the latest standards, adding proper width, step height, grip rail, landings, and other features required by the Americans with Disabilities Act (ADA).
- The SDOT ADA Program includes \$9.3 million of local funding to deliver ADA-compliant curb ramps and accessible pedestrian signals. This funding supports the City in meeting the annual ADA curb ramp requirement of 1,250 ramps per year.

The table below shows a summary of the Pedestrian Master Plan investments:

Pedestrian Master Plan Projects	2025
PMP - Crossing Improvements	\$3,615,308
PMP - School Safety	\$4,059,480
PMP - Stairway Rehabilitation	\$746,469
SDOT ADA Program	\$9,253,195
Total	\$17,674,452

Bicycle Master Plan Investments:

The Bike Master Plan Protected Bike Lanes project includes \$5.6 million in 2025 to provide dedicated right-of-way separation projects for people riding bikes. While our current program is primarily and heavily funded by the Levy to Move Seattle, SDOT must continue to make investments to maintain and develop key safety infrastructure for bicycles even in a more resource-constrained budget. We will continue to look at how to prioritize this work in our budget going forward regardless of our funding levels.

In addition to the projects solely dedicated to delivering the Pedestrian and Bicycle Master Plans, there are many SDOT capital projects that indirectly contribute improvements that advance the plans. The table below shows projects that support both the Bike and Pedestrian Master Plans; note that the dollars shown are for 2025 estimated costs and not the entire capital project funding in each case.

Projects that Support the Bike & Pedestrian Master Plan	2025
Aurora Avenue North Safety Improvements	\$4,750,000
Heavy Haul Network Program - East Marginal Way	\$4,500,000
North of Downtown Mobility Action Plan	\$1,025,641
Northgate Bridge and Cycle Track	\$500,000
Overlook Walk and East-West Connections Project	\$3,000,000

2025-2030 Proposed Capital Improvement Program

Department of Transportation

RapidRide Roosevelt	\$34,133,981
Route 40 Transit-Plus Multimodal Corridor	\$1,751,777
Safe Streets and Roads for All	\$10,016,750
Sidewalk Safety Repair	\$5,036,761
Transit Corridor Improvements	\$2,500,000
Vision Zero	\$5,442,938
Total	\$72,657,848

Transit Projects:

The 2025-2030 Proposed CIP contains six transit projects including Transit-Plus Multimodal Corridor (TPMC) projects. These TPMC projects redesign major streets with more frequent and reliable buses; and provide updates to improve connectivity and safety for all travelers, whether walking, biking, driving, or taking transit. The TPMC projects include Route 40 Transit-Plus Multimodal Corridor (Fremont/Northgate), RapidRide J Line (formally known as RapidRide Roosevelt), and NE 130th St/NE 125th Corridor Improvements. These projects rely on a variety of Levy, local, and grant funding.

In addition to the large capital TPMC projects, the CIP contains budget for transit spot improvements throughout Seattle. These spot improvements focus on operational efficiencies (which help reduce travel time and therefore operational costs), safety, and access enhancements (which improve the rider experience while enhancing safe conditions for riders of all abilities). Investments include installing queue jumps, bus-only lanes, in-lane stops/bus bulbs, and bus stop and station access amenities. SDOT also provides support for Sound Transit projects through public engagement, design review, permitting and construction support for transit stations as well as constructing pedestrian and bicycle enhancements and implementing Restricted Parking Zones adjacent to new stations.

The table below shows a summary of transit-related investments:

Transit Projects	2025
NE 130th St/NE 125th Corridor Improvements	\$5,879,999
RapidRide J	\$34,133,981
Route 40 Transit-Plus Multimodal Corridor	\$1,751,777
Seattle Transportation Benefit District - Transit Improvements	\$13,120,946
Sound Transit 3	\$8,656,133
Transit Corridor Improvements	\$2,500,000
Total	\$66,042,836

Freight Projects:

The Heavy Haul Network Program East Marginal Way project currently has two Segments, North and Central, to maximize grant utilization and deliver safety improvements as quickly as possible. The North Segment reconstructs 2.12 miles of East Marginal Way to heavy haul pavement standards supporting freight traffic, constructs a two-way protected bike lane between South Atlantic and South Spokane Street, and makes signal improvements aimed at increasing safety for people using both modes. The Central Segment reconstructs 0.63 miles of East Marginal Way and creates a shared-use path between

Department of Transportation

South Spokane Street and Diagonal Avenue South. The 2025-2030 Proposed CIP adds a \$4.5 million Levy to Move Seattle budget in 2025 for this project.

The Proposed CIP also includes \$1.6 million in 2025 for the Freight Spot Improvement project. These smaller-scale vital freight spot improvements include pavement repairs in industrial areas, turning radius adjustments, and other sign and operational improvements to facilitate movement of freight throughout the city. Funding allocation varies year to year based on planned projects.

The table below shows a summary of the Freight Master Plan investments, including all funds supporting these projects:

Freight Master Plan Projects	2025
Freight Spot Improvement Program	\$1,590,000
Heavy Haul Network Program - East Marginal Way	\$4,500,000
Total	\$6,090,000

Bridge & Structures Projects:

The City owns 134 bridges and maintaining all of them in appropriate condition is a major challenge. The 2025-2030 Proposed CIP adds \$4.0 million Move Seattle Levy funding for the next phase in the Bridge Seismic program. The 2025-2030 Proposed CIP also includes \$3.9 million in 2025 for the Bridge Painting program, which is a critical asset preservation project for the City's 20 structural steel bridges.

Another \$4.9 million is appropriated for the Structures Major Maintenance program in 2025. This program provides funding for major maintenance and rehabilitation of the City's bridges and structural assets, including: electrical and mechanical upgrades of moveable bridge operating and control systems, repair of cracks and maintenance of concrete and steel structures, and site protection of bridge facilities.

Besides bridges, SDOT also maintains more than 600 retaining walls throughout Seattle. The 2025-2030 Proposed CIP includes \$212,000 in funding for small scale retaining wall repairs throughout the city.

Bridge & Structures	2025
Bridge Load Rating	\$273,288
Bridge Painting Program	\$3,923,019
Bridge Rehabilitation and Replacement Phase II	\$500,001
Bridge Seismic - Phase III	\$4,000,000
Hazard Mitigation Program - Areaways	\$383,800
Retaining Wall Repair and Restoration	\$212,000
Structures Major Maintenance	\$4,916,791
Total	\$14,208,899

2025-2030 Proposed Capital Improvement Program

Seattle Waterfront Capital Projects:

There are four major capital projects in the SDOT budget related to the downtown waterfront. These projects were created in response to the 2001 Nisqually Earthquake that damaged the WSDOT SR-99 Viaduct on the Seattle Waterfront and made the structure vulnerable to failure in a future seismic event. Subsequent analysis of the viaduct showed the Elliott Bay Seawall timbers were deteriorating and could similarly fail during a seismic event. A decision to replace the viaduct with a tunnel for SR 99 was subsequently made by WSDOT, and Seattle voters approved funding to replace the Elliott Bay Seawall. Since both projects would dramatically affect the waterfront, in 2012, the City Council adopted the Waterfront Concept Design, Framework Plan and Strategic plan to guide restoration of a surface street along the waterfront and numerous public improvements aimed at both improving transportation and creating new public spaces for residents and visitors to enjoy.

The Elliott Bay Seawall Project was completed in 2017. WSDOT opened the tunnel and demolished the old viaduct structure and restored waterfront access as part of the Alaskan Way Viaduct Replacement Project. Viaduct removal cleared the way for the Alaskan Way Main Corridor transportation project, which began in 2019 and includes the Alaskan Way surface street, a new Elliott Way, and a pedestrian promenade. Work also began on the East-West Connections Project, including the Overlook Walk pedestrian bridge in 2021. The Seattle Department of Parks and Recreation is funding additional projects under construction, including the Aquarium Expansion and rehabilitating public parks at Pier 58 and Pier 62 established as public parks (led by the Office of the Waterfront and Civic Projects).

The Alaskan Way Main Corridor project began work in 2019 and includes the design and construction of the Alaskan Way/Elliott Way surface street, a 2-way bike facility, and the adjoining pedestrian promenade along the waterfront along with several east-west connections that are primarily funded by WSDOT (e.g., the Marion Street Pedestrian Bridge). Elliot Way opened in Spring 2023. Alaskan Way and the Promenade remain in construction with substantial completion slated for mid-2025. The 2025 budget proposal includes a previously planned of \$10.7 million in bonding authority that was shifted from 2024 to 2025 to align with project timing and costs.

The Overlook Walk and East-West Connections projects include the Overlook Walk which provides pedestrian connections between the waterfront and the Aquarium and Pike Place Market. Construction of the East-West Connection projects began in 2021 with the start of the Union Street Pedestrian Bridge project, which has now been completed. The Pike/Pine project construction began in early 2023, and Pioneer Square work began in late 2023 – substantial completion for both projects is anticipated in late 2024. The Overlook Walk began construction in earnest in 2022, with substantial completion anticipated in late 2024.

Grant Funding

SDOT is committed to leveraging existing resources and seeking external funding opportunities to continuously improve transportation safety and invest in the highest priority discrete projects. In the 2025-2030 Proposed CIP, the Department adds \$20.2 million in new grant funding for three projects. The new grants were accepted in the 2024 Mid-Year Supplemental Budget and will support the following project design or construction in 2025 and 2026.

- \$8,600,000 to support the mill and overlay of the asphalt pavement on Roosevelt Way, between NE 92nd St and 15th Ave NE.

- \$9,900,000 to improve pavement conditions along E Marginal Way S, between 1st Ave S and 16th Ave S.
- \$1,689,239 to advance the conceptual designs of the Aurora Avenue N Safety and Transit Access Improvements project.

New CIP - Debt Service CRS-REET

The 2025-2030 Proposed CIP creates a new CIP, MC-TR-C126 Debt Service CRS-REET. This will realign the Real Estate Excise Tax (REET) backed debt service payment budgets with the correct capital Budget Summary Level. The proposed \$7.0 million budget in 2025 matches the annual updates provided by the City's debt service schedule.

FIFA World Cup Impacts

Seattle is serving as a host city for the FIFA 2026 World Cup, for which it will host six games, with an expected influx of more than one million non-Seattle residents for the event and more than five billion expected viewers. SDOT has a key role to play in the execution of a successful event, including working with stadiums and key event spaces to facilitate the safe movement of people and goods through the downtown and to and from events. The exact nature of the final work required to support FIFA is unknown **and will be sized to align with available budget and schedule.**

CIP Revenue Sources

In 2025 the SDOT Proposed CIP budget is \$176.7 million, funded from the following sources:

Local Revenues

- Levy to Move Seattle, which expires at the end of 2024;

2025-2030 Proposed Capital Improvement Program

- Gas Tax;
- Multimodal funds;
- Real Estate Excise Tax;
- Commercial Parking Tax;
- Vehicle License Fees;
- Long-term financing (general obligation bonds);
- JumpStart Payroll Expense Tax (payroll tax);
- Public Works Trust Fund Loans;
- Sales Tax;
- Street vacation revenues;
- School Safety and Pedestrian funds;
- Landscape Conservation & Local Infrastructure Program;
- Waterfront Local Improvement District (LID) assessment tax;
- Street use fees;
- Property sale proceeds;

External Funding

- Federal and state grants; and
- Funds from various funding partners, such as Sound Transit, King County Metro, the Port of Seattle and the Washington State Department of Transportation.

Thematic Priorities

SDOT's vision for Seattle is a thriving, equitable community powered by dependable transportation. The organization's mission is to deliver a transportation system that provides safe and affordable access to places and opportunities. To accomplish this, SDOT prioritizes services and capital projects based on the core principles in the City's 10-Year Strategic Vision for Transportation - Move Seattle. The goal of the strategic vision is to organize actions around SDOT's core values:

1. **Equity** – We believe transportation must meet the needs of communities of color and those of all incomes, abilities, and ages. Our goal is to partner with our communities to build a racially equitable and socially just transportation system.
2. **Safety** – We believe everyone should be able to move safely throughout the City. Our goal is to create safe transportation environments and eliminate serious and fatal crashes in Seattle.
3. **Mobility** – We believe transportation choices are critical to access opportunity. Our goal is to build, operate, and maintain an accessible transportation system that reliably connects people, places, and goods.
4. **Sustainability** – We believe environmental health should be improved for future generations through sustainable transportation. Our goal is to address the climate crisis through a sustainable, resilient transportation system.
5. **Livability** – We believe transportation is essential to support daily life. Our goal is to manage our streets and sidewalks to enrich public life and improve community health.

6. **Excellence** – We believe in exceeding the expectations of the communities we serve. Our goal is to build an SDOT team committed to excellence and equipped with skills to meet the challenges of today and tomorrow.

Transportation projects are initiated through numerous methods including planning processes (modal, subarea, neighborhood planning), preservation, operations and safety needs assessment, regulatory requirements, and elected official direction.

Community members have significant input in the development of all SDOT plans through public engagement processes. Seattle's Pedestrian, Bicycle, Transit and Freight Advisory Boards are also consulted regularly to provide input on project/program needs. Since 2016, the Levy to Move Seattle Oversight Committee has reviewed SDOT's program and project priorities and financial plans, and made recommendations to the Department, the Mayor, and City Council on the allocation of resources. Representatives from SDOT regularly meet with the Oversight Committee, to provide updates and solicit input on the allocation of resources. Prior to 2016, the Bridging the Gap Oversight Committee performed the same advisory function. Developed in 2022, the Transportation Equity Framework codeveloped with the Transportation Equity Workgroup helps drive decisions and investments as well.

Many factors can affect SDOT's project and funding decisions, including regulatory requirements, state and federal law (such as the Americans with Disabilities Act), and construction seasons. Opportunities to leverage the City's limited funding with grants or coordinating projects with other agencies can also affect SDOT's decisions on project prioritization and schedule.

In every case, SDOT strives to implement the City's policy goals laid out in Seattle's Comprehensive Plan and individual policy initiatives such as Complete Streets, the Race and Social Justice Initiative, Vision Zero, and the Climate Change Response Framework. SDOT's 10 Year Strategic Transportation Plan, modal plans, subarea plans, and Asset Management Strategy provide an overall framework for implementing these goals.

23rd Avenue Corridor Improvements

Project No:	MC-TR-C037	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	23rd AVE S/E John ST/Rainier AVE S
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 3
Start/End Date:	2013 - 2024	Neighborhood District:	Central
Total Project Cost:	\$61,284	Urban Village:	23rd & Union-Jackson

This multi-phase project will reconstruct sidewalks, enhance the pedestrian environment, reconstruct pavement, upgrade signalized intersections, upgrade controller cabinets to meet transit signal priority (TSP) needs, and accommodate Intelligent Transportation Systems (ITS) upgrades. Activities include the following: install ITS to provide travel time information; install fiber communication as needed along the corridor to relay information back to the Traffic Management Center; and install poles for support of future trolley wires in two gap segments of the trolley network. The project will also include design and construction of a 3-lane cross section (with 4 lanes at isolated intersections) between John Street and Rainier Ave South, as well as a greenway facility on a parallel street to facilitate north-south bicycle travel. Phases 1 and 2 are complete. The Vision Zero Phase 3 of the project will construct new traffic signals, parking modifications, new curb ramps, traffic calming, speed reduction, pedestrian safety, and transit stop improvements.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

35th Avenue SW Paving

Project No:	MC-TR-C099	BSL Code:	BC-TR-19001
Project Type:	Discrete	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	35th Ave. SW from SW Morgan St to SW Roxbury
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 1
Start/End Date:	2023 - 2025	Neighborhood District:	Delridge
Total Project Cost:	\$35,000	Urban Village:	West Seattle Junction

This project will resurface and reconstruct 35th Ave. SW from SW Morgan St. to SW Roxbury St.

Unsecured Funding Strategy: Funding for this project was not included as part of the Levy to Move Seattle paving commitments; the project is also not likely to rank highly for grant funding. Funding for this project may depend upon identification of new/incremental revenue sources.

O&M Impacts: This is a capital maintenance project that reduces the need for O&M by bringing assets to a new or like new condition.

3rd Avenue Corridor Improvements

Project No:	MC-TR-C034	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	3rd AVE
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This project makes multimodal improvements for the Third Avenue transit corridor in downtown Seattle, specifically focused on bus stop, streetscape, and transit streetpriority improvements, e.g. installation of Third Avenue and Denny Way transit only signal, on Third Avenue between S. Jackson Street and Denny Way.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Accela Permitting System

Project No:	MC-TR-C001	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project will migrate SDOT permitting operations from the Hansen 7 system to the new Citywide Accela permitting platform. The vision for Accela is to create a fully integrated permitting system that provides an online, all in one place experience for Seattle customers and staff. Once the initial migration is complete, this project will provide ongoing funding for routine system improvements as well as periodic major upgrades needed to stay current with changing technology.

O&M Impacts: Maintenance for the permitting system is paid for via a central cost allocation from Seattle IT and then recovered against SDOT projects through overhead allocations.

Accessible Mt. Baker Implementation

Project No:	MC-TR-C002	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 3
Start/End Date:	2017 - 2025	Neighborhood District:	East District
Total Project Cost:	\$6,510	Urban Village:	Madison-Miller

The project will transform the Mt. Baker station area into a safer and comfortable place for people to walk, bike, and make transit connections; and for the Mt. Baker Town Center to take root and flourish. In addition to prioritizing walking and biking, the project will maintain transit and freight reliability and create more predictable conditions for people driving.

Alaskan Way Main Corridor

Project No:	MC-TR-C072	BSL Code:	BC-TR-16000
Project Type:	Discrete	BSL Name:	Central Waterfront
Project Category:	New Facility	Location:	Various
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2013 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$399,625	Urban Village:	Multiple

This project designs and constructs the rebuilt Alaskan Way/Elliott Way surface streets and the adjoining pedestrian promenade along the Seattle waterfront following the demolition of the Alaskan Way Viaduct. The State of Washington has built a deep bore tunnel to replace the Alaskan Way Viaduct and has relocated State Route 99 into the tunnel. The City of Seattle is responsible for the Alaskan Way/Elliott Way surface street and the promenade. The project also includes replacement of and improvements to four key connections impacted by the Viaduct removal: Seneca Street, Columbia Street, and the Marion Street and Lenora Street pedestrian bridges. This project is part of the larger waterfront improvement program. Construction of these improvements began in 2019.

O&M Impacts: This project replaces aging infrastructure along the Central Waterfront providing an O&M benefit. It also builds new infrastructure for several City departments. The maintenance of the new public open space and pedestrian promenade will be funded primarily with Metropolitan Park District funds set-aside for this purpose. Transportation infrastructure capital elements are planned to be maintained through the Waterfront Transportation Infrastructure Maintenance project, MC-TR-C109.

Alaskan Way Viaduct Replacement

Project No:	MC-TR-C066	BSL Code:	BC-TR-19002
Project Type:	Discrete	BSL Name:	Major Projects
Project Category:	New Facility	Location:	Alaskan Way
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2001 - 2025	Neighborhood District:	Multiple
Total Project Cost:	\$99,099	Urban Village:	Multiple

This project funds the City's involvement in the replacement of the Alaskan Way Viaduct with the bored tunnel hybrid alternative and is partnership with the Washington Department of Transportation. Replacement of this structure enhances overall safety, as this structure is seismically vulnerable. In prior years, this project included design of the Central Seawall and Waterfront Improvements. For transparency purposes, the Seawall and Waterfront work was moved into three independent capital projects: Elliott Bay Seawall (MC-TR-C014), Alaskan Way Main Corridor (MC-TR-C066), and Overlook Walk and East-West Connections (MC-TR-C073).

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Arterial Asphalt & Concrete Program Phase II

Project No:	MC-TR-C033	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

The Arterial Asphalt and Concrete Program maintains Seattle's arterial streets through resurfacing and reconstruction projects. The Department uses a pavement management system to track the condition of arterial street pavement, to develop maintenance needs and establish priorities, and to select the streets to be rehabilitated each year. This project improves the quality and condition of the City's arterials.

Arterial Major Maintenance

Project No:	MC-TR-C071	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project repairs and/or replaces deteriorated pavement on arterial streets. Arterial Major Maintenance paving work typically spans one to three city blocks. It allows the City to respond quickly and cost effectively to pavement issues that are too large to be addressed with a pothole repair but too small to be efficiently contracted. Project prioritization is based on pavement condition; cost; transit, bicycle, pedestrian and freight use; traffic volume; coordination opportunities; complaints and claims; and geographic balance across the city. The work extends the service life of existing pavement structures.

Unsecured Funding Strategy: This program is evaluated annually for continuation of REET funding, based on fund availability. Funding for this program beyond 2024 is dependent upon a future voter approved levy.

O&M Impacts: This is a capital maintenance project that reduces the need for O&M by improving asset condition.

Aurora Avenue North Safety Improvements

Project No:	MC-TR-C118	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Aurora Avenue North
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Multiple
Start/End Date:	2022 - 2037	Neighborhood District:	Multiple
Total Project Cost:	\$54,498	Urban Village:	Multiple

This project will design and construct improvements along the Aurora Avenue North corridor. This project seeks to improve safety, mobility, and accessibility for all travelers. Improvements may include new sidewalks, transit improvements, medians/access management, lighting, signalized crossings, and potential roadway channelization changes.

Total:	1,879	6,920	5,568	6,371	34,300	-	-	-	55,037

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Bike Master Plan - Greenways

Project No:	MC-TR-C063	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program creates routes on residential streets that are optimized for safer and more comfortable walking and biking for people of all ages and abilities. Typical improvements include curb ramps, speed humps, crosswalks, median islands, shared lane markings, stop signs, traffic signals, pavement and sidewalk repair, and wayfinding signs. The goals of the program are to design streets with lower vehicle speeds and volumes; to increase the number of people walking and biking on residential streets; and to improve walking and biking access to schools, trails, parks, transit and neighborhood businesses.

Unsecured Funding Strategy: SDOT will evaluate deliverables, prioritize and scale projects to the extent feasible, and continue to pursue grant and partnership opportunities to resolve potential funding deficits. Funding for this program beyond 2024 is dependent upon a future voter approved levy.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Bike Master Plan - Protected Bike Lanes

Project No:	MC-TR-C062	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program implements the Seattle Bicycle Master Plan. Typical improvements may include installing protected bike lanes, bike lanes and sharrows, bicycle route signing, completing key links in the urban trails network, adding bicycle/pedestrian signals to complete the network, and reconstructing key sections of the trails. The goals of the program are to increase bicycle safety and access while reducing bicycle crashes. This program includes funding for street improvement and trail construction and is consistent with the focus in the City's Transportation Strategic Plan (TSP) on encouraging walking and biking. Life-to-date actuals may include the BMP spot improvements, Urban Trails, and Neighborhood Greenways, which were previously combined with this project's budget.

This ongoing asset preservation program provides for the periodic painting of the City's steel structures that are maintained by the Roadway Structures Division. The painting cycle is initially determined by applying Federal Highway Administration standards for coating life and is supplemented by annual physical inspections to assess the rate of deterioration.

Bridge Rehabilitation and Replacement Phase II

Project No:	MC-TR-C039	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This asset preservation program funds major bridge rehabilitation or bridge replacement. The current program, funded by the Levy to Move Seattle, is focused on planning studies. The objective of these bridge planning studies is to identify if bridges should be rehabilitated or replaced, providing planning-level cost estimates to allow for the City to develop a funding plan for the future rehabilitation or replacement of these bridges.

Bridge Seismic - Phase III

Project No:	MC-TR-C008	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

The program prioritizes and implements seismic retrofits to bridges based on seismic vulnerability. Concept level analysis and evaluation is performed to develop a retrofit strategy and cost estimate. As funding allows, retrofit design and construction phases are implemented. If full funding is not available, seismic retrofits are scaled to the appropriate funding level that would still provide improvements in the bridge structure's seismic resiliency. As part of the evaluation process a cost-benefit assessment is made to determine if replacing the structure is a more appropriate course of action than retrofitting the structure. 16 bridges, 11 which are fully funded through construction and 5 to a concept design level, are part of the current phase of the program which is funded by the Levy to Move Seattle.

Unsecured Funding Strategy: The program prioritizes and implements seismic retrofits to bridges based on seismic vulnerability. Conceptual analysis and evaluation is performed to develop a retrofit strategy and cost estimate. As funding allows, retrofit design and construction phases are implemented. If full funding is not available, seismic retrofits are scaled to the appropriate funding level that still provide improvements in the bridge structure's seismic resiliency. As part of the evaluation process, a cost-benefit assessment is made to determine if replacing the structure is a more appropriate course of action than retrofitting the structure. 16 bridges, of which 11 are fully funded through construction and 5 to a concept design level, are part of the current phase of the program which is funded by the Levy to Move Seattle.

O&M Impacts: This is a capital maintenance project that reduces the need for O&M by improving asset resilience to seismic events.

BRT Concepts Design

Project No:	MC-TR-C010	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital

Total Project Cost:	\$2,441	Urban Village:	Multiple

This project will advance the program planning and concept designs for Seattle's RapidRide and Transit-Plus Multimodal Corridor Expansion program. In order to deliver the corridor improvements, this work includes assessment and development of corridor design, detailed line and network ridership forecasting, capital cost estimates, traffic and environmental analysis, modal integration, and funding plans.

Burke-Gilman Trail Extension

Project No:	MC-TR-C044	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Various
Current Project Stage:	Stage 3 - Design	Council District:	Council District 6
Start/End Date:	1995 - 2025	Neighborhood District:	Ballard
Total Project Cost:	\$40,072	Urban Village:	Ballard

This project extends the Burke-Gilman Trail from its current terminus at Eighth Avenue NW to Golden Gardens Park. The segment from Eighth Avenue NW to 11th Avenue NW was constructed in 2001. The Ballard Locks to NW 60th Street segment was constructed in 2005. The NW 60th Street to Golden Gardens segment was constructed in 2008. The "Missing Link" segment from 11th Avenue NW to the Ballard Locks was planned for construction in 2011 and 2012 but has been delayed due to ongoing litigation.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Center City Gateway and South Michigan Street Intelligent Transportation Systems (ITS)

Project No:	MC-TR-C012	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	S Spokane ST/Western Ave/E Marginal Way/Stewart
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2015 - 2024	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$16,647	Urban Village:	Not in an Urban Village

The project will install traffic cameras, upgraded signals, vehicle detection devices and fiber communication in the Center City Gateway ITS and South Michigan Street ITS projects. The project will also construct an ITS corridor along Denny Way between Western Ave and Stewart including traffic signal modifications and closed-circuit television cameras, a dynamic message sign and ADA compliant ramps. A robust and reliable Intelligent Transportation System ensures that all modes of transportation can move through the City in a safe and sustainable manner.

Culture Connector

Project No:	MC-TR-C040	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Various
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:		Neighborhood District:	Multiple
Total Project Cost:	\$460,000	Urban Village:	Multiple

The Culture Connector (formerly the Center City Connector) is a 1.27-mile segment of the Seattle Streetcar that will link the South Lake Union and First Hill Streetcar lines, creating a system that will connect over a dozen Seattle neighborhoods in Seattle's Center City. The project includes procurement of up to ten additional streetcars and design and construction of track and guideway; station shelters and platforms; overhead contact system; traction power substation; storage facility expansion; roadway and drainage; ADA curb ramps; curb space management; and urban streetscape. The project was put on indefinite pause in July 2020 in response to Citywide budget shortfalls caused by Covid-19.

Unsecured Funding Strategy: SDOT will continue to work with the Mayor's office and City Council to determine the future of the project.

O&M Impacts: The Culture Connector would combine the two existing lines into a single Streetcar network. SDOT is currently working in collaboration with King County Metro on an operation plan for a single line. We expect to have an estimate of annual operating costs when the Center City Connector project reaches 30% design.

This project improves pavement conditions, enhances safety, and improves traffic operation for all modes. The project will add transit lanes and improve transit speed and reliability. It includes protected bike lanes, sidewalk improvements, and amenities for walkers and transit riders along the corridor. It will streamline traffic operations and improve Multimodal connections between transit, freight, pedestrians and general-purpose vehicles. The project is also a partnership between SDOT, SPU and SCL to upgrade utilities along the corridor in conjunction with the transportation work.

Fauntleroy Way SW Boulevard

Project No:	MC-TR-C046	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Fauntleroy WAY SW/35th AVE SW/SW Alaska ST
Current Project Stage:	Stage 3 - Design	Council District:	Council District 1
Start/End Date:		Neighborhood District:	Southwest
Total Project Cost:	\$2,927	Urban Village:	West Seattle Junction

This project transforms Fauntleroy Way SW into a boulevard. The project elements include: a planted median, signature lighting fixtures, a protected bicycle facility, a pedestrian zone with sidewalks and planting areas including street trees, pedestrian lighting, potential stormwater infrastructure and art, as well as safety improvements for crossing movements for all modes. These safety improvements include bicycle and pedestrian crossings, signals, reconfigured intersections and bulbs, and pavement improvements. This project is on-hold pending Sound Transit decision on the West Seattle Extension alignment and does not have an expected Completion Date as a result.

O&M Impacts:

Freight Spot Improvement Program

Project No:	MC-TR-C047	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project includes small scale mobility improvements to the City's street system to improve connections between port facilities, railroad intermodal yards, industrial businesses, the regional highway system, and the first and last miles in the supply chain. Project types include turning radius adjustments, channelization changes, left-turn improvements, and signage to direct freight to destinations and alert drivers to steep grades or sharp turns.

Unsecured Funding Strategy: Funding for this program beyond 2024 is dependent upon a future voter approved levy.

O&M Impacts: This is a capital maintenance project that reduces the need for O&M by improving asset condition.

Georgetown to South Park Trail

Project No:	MC-TR-C096	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Various
Current Project Stage:	Stage 4 - Procurement/Bid	Council District:	Multiple
Start/End Date:	2018 - 2025	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$12,891	Urban Village:	South Park

This project will create a walkable, bikeable path uniting the Georgetown and South Park neighborhoods. The path will enhance walkability between Georgetown and South Park's historic Main Streets. Funding covers preliminary engineering, design, and outreach.

Unsecured Funding Strategy: Current funding provides for preliminary engineering, design and outreach. SDOT will evaluate the project for future funding opportunities following the preliminary planning and design phase.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Graham Street Station

Project No:	MC-TR-C082	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	MLK between Graham and Morgan
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Council District 2
Start/End Date:		Neighborhood District:	Southeast
Total Project Cost:	\$10,000	Urban Village:	Columbia City

This project funds the City's portion of an infill light rail station on the Sound Transit Central Link line near Martin Luther King Jr. Way South at South Graham Street, between the existing Columbia City and Othello Stations. The station would be in the northern portion of the MLK at Holly St Residential Urban Village. Funding from the Move Seattle Levy package is used to leverage a future partnership with Sound Transit.

O&M Impacts: This project provides SDOT support to Sound Transit, who will own the light rail asset. SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Harrison St Transit Corridor

Project No:	MC-TR-C119	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Harrison St between Fairview Ave and 5th Ave
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Council District 7
Start/End Date:	2023 - 2028	Neighborhood District:	Lake Union
Total Project Cost Range:	- - -	Urban Village:	South Lake Union

Rebuild Harrison St and improve connecting transit corridors to serve high-frequency bus routes and significantly increased pedestrian activity. Primary project elements include roadway upgrades such as repaving and rechannelization, traffic signal upgrades and transit signal priority, transit stops, real-time information signage for transit, trolleywire infrastructure, and enhanced pedestrian realm improvements.

Financial Planning Strategy: A combination of LCLIP, STM, and NODO local funding (\$3M) combined with \$4.2M of FHWA funding has been identified for the Design funding.

O&M Impacts:

Hazard Mitigation Program - Areaways

Project No:	MC-TR-C035	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Pioneer Square

This ongoing asset preservation program funds ongoing inspection and repair/reconstruction of areaways to reduce risks to City facilities and the general public. Areaways are usable space, generally in the street right-of-way, constructed under sidewalks between the building foundation and street wall. Typical improvements include, but are not limited to, repairs to an existing areaway or filling an areaway in order to eliminate the asset. Current work focuses on safety improvements of historic areaways in Pioneer Square.

Heavy Haul Network Program - East Marginal Way

Project No:	MC-TR-C090	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	E Marginal WAY
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2016 - 2027	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$100,045	Urban Village:	Not in an Urban Village

This program supports freight mobility by funding roadway improvements on the Heavy Haul Network (Ordinance 124890) to meet the needs of freight transported on our streets between Port facilities, rail yards, and industrial businesses. The initial project under this Program is the E Marginal Way Corridor Improvement project, which will be a multi-phase project. Phase I constructs a separated bicycle/pedestrian facility between S Atlantic St and Spokane St. Phase II includes roadway reconstruction, signal and ITS enhancements and safety measures to reduce conflicts between freight and non-motorized users. The Port of Seattle, through Memorandum of Understanding, is to provide partnership funding.

Note: The project title changed from "Heavy Haul Network Program" to "Heavy Haul Network Program - East Marginal Way"

Unsecured Funding Strategy: SDOT plans to pursue a \$20M federal RAISE grant and anticipates a \$5.5M contribution from the Port of Seattle. SDOT is reviewing funding options for the remaining.

O&M Impacts: This is a capital maintenance project that reduces the need for O&M by improving asset condition. Since it also builds new assets, SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Highland Park Intersection Improvements

Project No:	MC-TR-C100	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Highland Park Way SW and SW Holden ST
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 1
Start/End Date:	2019 - 2025	Neighborhood District:	Southwest
Total Project Cost:	\$4,138	Urban Village:	Not in an Urban Village

This project would mitigate collision and congestion issues at the intersection of Highland Park Way SW and SW Holden St. There are currently two alternatives being considered for this work. One alternative would be installing a new traffic signals, sidewalks, curb ramps and marked crosswalks. SDOT estimates the cost of this alternative at \$3M. The other alternative would install a roundabout at this intersection. After advancing design of the roundabout, we now know that significant grading is needed to accommodate the roundabout and avoid new safety issues. This has pushed the cost estimate to \$7.3M. The name of this project has been changed from Highland Park Roundabout to Highland Park Intersection Improvements. The name change occurred as part of the second quarter 2019 Supplemental Amendment-Attachment A.

SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Madison BRT - RapidRide G Line

Project No:	MC-TR-C051	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Madison ST/Alaskan Way/Martin Luther King Junior W
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 3
Start/End Date:	2013 - 2025	Neighborhood District:	Multiple
Total Project Cost:	\$191,474	Urban Village:	Multiple

This project will include concept design and environmental review of high-capacity transit and multimodal improvements in the Madison corridor between Alaskan Way and Martin Luther King Jr. Way, connecting the Central Area with the First Hill, Downtown, and Waterfront neighborhoods. The project is identified as a priority in the Transit Master Plan. The purpose is to improve transit capacity, travel time, reliability, connectivity, comfort, visibility, and legibility in the Madison corridor. The project title was previously "Madison Street Bus Rapid Transit".

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Magnolia Bridge Replacement Project

Project No:	MC-TR-C083	BSL Code:	BC-TR-19002
Project Type:	Discrete	BSL Name:	Major Projects
Project Category:	New Facility	Location:	15th Ave NW and Magnolia Way W.
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:		Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$10,030	Urban Village:	Ballard-Interbay Northend

The environmental analysis for replacing this bridge evaluated several possible alternatives including rehabilitation of the existing structure. In 2007, an environmental assessment was published and described the preferred alternative, a new bridge south of and adjacent to the existing bridge. The Type, Size, and Location (TS&L) Report was completed in 2007, selecting a concrete box girder supported on flared columns as the appropriate structure type for this new bridge. The Levy to Move Seattle provided limited funds to conduct a plan study that would evaluate a more cost effective alternative than a "1-to-1" replacement. Even with the reduced cost for pursuing an alternative option than a full replacement, total project cost and a funding strategy to move the project forward is unclear. The project is currently on hold.

NE 130th St/NE 125th Corridor Improvements

Project No:	MC-TR-C123	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Council District 5
Start/End Date:	2023 - 2026	Neighborhood District:	Northeast
Total Project Cost:	\$19,780	Urban Village:	

This project will establish an east-west multimodal corridor to connect people to the future NE 130th St light rail station by implementing transit reliability, safety, access, bus stop amenities, and pedestrian and bicycle improvements. The project area includes NE 130th St from approximately 1st Ave NE to 5th Ave NE including the NE 130th St I-5 overpass, Roosevelt Way NE from 130th St to 10th Ave NE, and NE 125th St from 10th Ave NE to Lake City Way NE.

Unsecured Funding Strategy: SDOT is pursuing multiple partnership agreements with other transit agencies as well as federal and state grant opportunities.

O&M Impacts:

NE 43rd Street Improvements

Project No:	MC-TR-C074	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	NE 43rd ST
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 4
Start/End Date:	2017 - 2020	Neighborhood District:	Northeast
Total Project Cost:	\$5,085	Urban Village:	University District

This project will implement streetscape and pedestrian improvements on NE 43rd Street between Brooklyn Ave NE and 15th Ave NE to improve access to the Link Light Rail station, which is scheduled to open in 2021. The project will transform the operation of NE 43rd St between Brooklyn Ave NE and University Way NE to one-way westbound transit-only travel and between University Way NE and 15th Ave NE to one-way westbound, all vehicle travel. The roadway will be optimized for pedestrians with a curb-less roadway section, widened sidewalks, pedestrian illumination, bio retention, and rain gardens. A protected bike lane will be provided for eastbound bike traffic and westbound bicycle traffic will share the travel lane with westbound traffic. The project is scheduled to begin construction in the summer of 2020.

Neighborhood Parks Street Fund - Your Voice, Your Choice

Project No:	MC-TR-C022	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program identifies projects estimated less than \$100,000 that are prioritized through participatory budgeting in each of the 7 council districts. Typical improvements may include, but are not limited to, sidewalk construction, repairs and replacement, installation of curb bulbs or other traffic calming devices, and improvements to crosswalks. The program enhances the safety, quality, and condition of the pedestrian and neighborhood environments. This project was formerly known as "NPSF Neighborhood Parks Street Fund" and "NSF/CRS Neighborhood Program."

New Traffic Signals

Project No:	MC-TR-C020	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project installs new traffic signals or significant capital improvements to existing signals to improve traffic flow, reduce the frequency and severity of traffic collisions, and support pedestrian, bicycle or transit activity. Location choices are based upon pedestrian, bicycle, and vehicle volumes; school, senior citizen, and handicapped accessible crossing requirements; transit speed and reliability; and collisions frequency criteria.

Unsecured Funding Strategy: SDOT will evaluate deliverables, prioritize and scale projects to the extent feasible, and continue to pursue grant and partnership opportunities to resolve potential funding deficits. Funding for this program beyond 2024 is dependent upon a future voter approved levy.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Next Generation Intelligent Transportation Systems (ITS)

This project will design and implement upgrades to the Traffic Management Center (TMC); implement expansion of real-time information such as traffic cameras, sensors, and travel time to support major construction projects; deploy Dynamic Messaging Signs (DMS) at key decision points to provide real-time information such as incidents, travel times, bridge opening notices, and planned construction and event information; and install dynamic signal timing (self-adjusting traffic signal timing based on traffic volume on key corridors around the major construction projects).

Non-Arterial Street Resurfacing and Restoration

Project No:	MC-TR-C041	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project repairs and/or replaces deteriorated asphalt pavement and/or concrete panels on non-arterial streets. Project locations are chosen annually based upon the degree of deterioration as confirmed by Department staff field observations, citizen service requests, claims, and potential City liability. High priority is given to non-arterial streets used by transit, in areas with heavy pedestrian and bicycle traffic, and which serve business and industry.

O&M Impacts: This is a capital maintenance project that reduces the need for O&M by improving asset condition.

North of Downtown Mobility Action Plan

Project No:	MC-TR-C101	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Rehabilitation or Restoration	Location:	Seattle Center
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Lake Union
Total Project Cost:	N/A	Urban Village:	Uptown

This project will construct transportation related improvements in the North Downtown area in support of the Seattle Center Arena Redevelopment project. The City is also partnering with the Port of Seattle to improve movement of cargo and other modes on city streets, including 15th Ave W/Elliott Ave W/Mercer St corridor areas around Seattle Center.

Unsecured Funding Strategy: SDOT will pursue bonds or other short-term loans, such as an inter-fund loan, to resolve potential funding deficits.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Northgate Bridge and Cycle Track

Project No:	MC-TR-C030	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 4
Start/End Date:	2013 - 2025	Neighborhood District:	North
Total Project Cost:	\$56,154	Urban Village:	Northgate

This project will construct pedestrian and bicycle improvements to enhance access to the planned Sound Transit Light Rail station at Northgate. The improvements include a pedestrian and bike bridge over I-5 and a multi-use path along 1st Avenue NE; that was complete in 2021. The stream mitigation work will continue through 2025 and is currently in the construction phase.

Northlake Retaining Wall

Project No:	MC-TR-C102	BSL Code:	BC-TR-19001
Project Type:	Discrete	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Northlake Way @ Stone Way
Current Project Stage:	Stage 3 - Design	Council District:	Council District 4
Start/End Date:	2019 - 2028	Neighborhood District:	Not in a Neighborhood District
Total Project Cost Range:	41,130 - 50,270	Urban Village:	Fremont

This project will replace the Northlake Retaining Wall, which is a 452-foot-long lakefront timber structure that was constructed in 1951 and is located at the north end of Lake Union adjacent to North Northlake Avenue. The wall currently shows signs of advanced deterioration, overstress, and some sections of structural failure. This presents a significant risk to public safety given the right-of-way supported by the wall, the private structures directly outshore and adjacent to the wall, and the close proximity of overhead power lines and subsurface utility infrastructure.

Resources	LTD Actuals	2024 Revised	2025	2026	2027	2028	2029	2030	Total
LTGO Bond Proceeds	2,275	1,628	-	-	-	-	-	-	3,903
Total:	2,275	1,628	-	-	-	-	-	-	3,903

2021 West Seattle Bridge Repair LTGO Bond Fund	275	1,628	-	-	-	-	-	-	1,903
Total:	2,275	1,628	-	-	-	-	-	-	3,903

Financial Planning Strategy: The estimated cost to reach the 100% design level is \$4,000,000, \$2,000,000 of which will be funded by LTGO bonds. The remaining \$2,000,000 needed to reach 100% of design will be funded with Street Vacations proceeds.

At 30% design, SDOT will reevaluate the total project cost and the financial planning strategy for the remaining costs of the project, which will include local funding, debt financing, and grant funding.

O&M Impacts: There will be ongoing operations and maintenance (O&M) costs for SDOT to maintain the retaining wall after full replacement. The estimate is \$50,000/year over the 75-year design life of the structure which includes labor (maintenance, engineering, and inspection) and non-labor (materials).

Overlook Walk and East-West Connections Project

Project No:	MC-TR-C073	BSL Code:	BC-TR-16000
Project Type:	Discrete	BSL Name:	Central Waterfront
Project Category:	New Investment	Location:	Multiple
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2013 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$199,339	Urban Village:	Downtown

Removing the Alaskan Way Viaduct provides the opportunity for the City to improve key connections between the downtown core and the waterfront. The specific east/west streets targeted for improving connections include: Bell Street, King Street, Main Street, Pike Street, Pine Street, Railroad Way, Union Street, Washington Street, and Yesler Way. In addition to these east/west street connections, the waterfront improvement program also includes Overlook Walk, which will provide a pedestrian-oriented connection between the waterfront, the Aquarium and Pike Place Market with ADA access, views, and public open spaces. This project is part of the overall waterfront improvement program. This project includes funding from the Waterfront Local Improvement District.

Total:	113,686	83,059	3,000	-	-	-	-	-	199,746

O&M Impacts: This project includes a mix of upgrading existing streets and building new infrastructure. O&M for new public open spaces, such as the Overlook Walk will be funded by the Metropolitan Park District. Transportation infrastructure capital elements are planned to be maintained through the proposed Waterfront Transportation Infrastructure Maintenance project, MC-TR-C109.

Pedestrian Master Plan - Crossing Improvements

Project No:	MC-TR-C061	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program implements the Pedestrian Master Plan. Typical improvements may include the installation of new marked crosswalks, curb bulbs, pedestrian signals, curb ramps, and pedestrian lighting. The goals of the program are to reduce the number and severity of crashes involving pedestrians; make Seattle a more walkable city for all through equity in public engagement, service delivery, accessibility, and capital investments; develop a pedestrian environment that sustains healthy communities and supports a vibrant economy; and raise awareness of the important role of walking in promoting health and preventing disease.

Total Project Cost:	N/A	Urban Village:	Multiple

This project enhances the pedestrian environment in Seattle's neighborhoods by dedicating funding to construct new sidewalks. The New Sidewalk Program draws funding from the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund to improve sidewalks and the pedestrian environment near schools. Additional funding is drawn from other sources to pay for new sidewalk construction near frequent transit routes.

* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Unsecured Funding Strategy: Funding for this program beyond 2024 is dependent upon a future voter approved levy.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Pedestrian Master Plan - School Safety

Project No:	MC-TR-C059	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project improves pedestrian and bicycle safety around schools. The work typically includes school zone signing and 20mph flashing beacons; new crosswalks; curb bulbs; crossing beacons and pedestrian signals; new sidewalks and maintenance; traffic calming; changes to traffic circulation around schools; installation of school zone cameras; and school walking route maps. The base level of transportation funding provides improvements at approximately three to four schools per year. The project also funds safe biking and walking education and traffic safety outreach campaigns. Operation of school zone cameras is directly funded from the Seattle Police Department budget.

Unsecured Funding Strategy: Funding for this program beyond 2024 is dependent upon a future voter approved levy.

O&M Impacts: This is a capital maintenance project that reduces the need for O&M by improving asset condition.

RapidRide C & D Line Improvements

Project No:	MC-TR-C106	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Investment	Location:	Various
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2021 - 2025	Neighborhood District:	Multiple
Total Project Cost:	\$2,300	Urban Village:	Multiple

This project will deliver additional transit spot improvements aimed at improving travel time and reliability along RapidRide C&D lines, in preparation for Light Rail extensions into the West Seattle and Ballard neighborhoods. These projects make changes to SDOT-owned infrastructure, including streets and signals, and will result in adjustments to signal and street operations. Due to Sound Transit Board realignment decisions in August 2021, SDOT no longer anticipates \$12M investment in RapidRide C&D Lines in 2021 and 2022. The CIP Budget was revised in 2022 to reflect the new project schedule.

This project will provide a high-quality transit service connecting Downtown Seattle with the neighborhoods of Belltown, South Lake Union, Eastlake, and University District. This project also includes protected bike lane, streetscape, intersection and traffic signal improvements and improving accessibility including ADA-compliant curb ramps. This project was formerly titled RapidRide Roosevelt.

Revive I-5 Project Support

Project No:	MC-TR-C124	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Citywide
Start/End Date:	2023 - 2032	Neighborhood District:	Multiple
Total Project Cost:	\$5,500	Urban Village:	Multiple

"Revive I-5: Preserving a Vital Freeway" is a State of Washington project with dozens of preservation projects planned to revive Interstate 5 in King and Snohomish counties. The State's Revive I-5 projects will include pavement repair and full replacement, expansion joints, and seismic work to strengthen bridges against earthquakes. The City of Seattle will support the State's efforts by installing transit priority measures and other operational improvements on City streets, that may include dedicated bus priority lanes, new signal improvements and communication systems. The City will also support this effort with commute trip reduction programs, real-time support for signal timing changes, transportation operations monitoring, and communication of real-time traffic conditions and incident response.

Resources	LTD Actuals	2024 Revised	2025	2026	2027	2028	2029	2030	Total

Unsecured Funding Strategy: SDOT plans to compete for FTA and WSDOT grants, as well as work with regional partners to secure funding.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Route 44 Transit-Plus Multimodal Corridor

Project No:	MC-TR-C078	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2019 - 2024	Neighborhood District:	Multiple
Total Project Cost:	\$19,641	Urban Village:	Multiple

This project will implement speed and reliability improvements along the Route 44 corridor. This project seeks to improve and make reliable the connection between the University of Washington, Wallingford, and Ballard. The project may add bus lanes, pedestrian improvements, channelization changes, signal modifications, transit signal priority, and new adaptive signals.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Route 48 Transit-Plus Multimodal Corridor

Project No:	MC-TR-C107	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2021 - 2024	Neighborhood District:	Central
Total Project Cost:	\$2,138	Urban Village:	Multiple

This project will make transit speed and reliability and access improvements along the Rt 48 corridor. This is the 7th of seven transit corridor projects included in the Levy to Move Seattle's Transit-Plus Multimodal Corridor Program.

Route 7 Transit-Plus Multimodal Corridor Project

Project No:	MC-TR-C053	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Rainier AVE
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 3
Start/End Date:	2016 - 2024	Neighborhood District:	Multiple
Total Project Cost:	\$8,560	Urban Village:	Multiple

This project, in partnership with King County Metro, will make street improvement on Rainier Ave which could include key features: dedicated bus lanes and queue jumps; and improvements to crossings and transit connections to help people access transit safely.

Total Project Cost:	\$32,147	Urban Village:	Multiple

This project will design and construct a variety of proven countermeasures that are heavily concentrated in our most disadvantaged and disinvested communities. The project focuses on high-impact safety improvements such as an upgraded bicycle facility, sidewalks, leading pedestrian intervals, upgraded ADA ramps, accessible pedestrian push button signals, marked crosswalks, and traffic calming tools like speed cushions.

Sidewalk Safety Repair

Project No:	MC-TR-C025	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project rehabilitates sidewalks damaged by street trees or where there are serious safety concerns as evidenced by claims, service requests, and potential City liability. The project includes opportunities for public/private partnerships with citizens, property owners, and businesses. Asset management principles are used to guide repair needs and establish priorities for maintaining the sidewalk (or walkway), curbs, curb ramps, and in some cases, a filler strip between the sidewalk and curb.

Unsecured Funding Strategy: Funding for this program beyond 2024 is dependent upon a future voter approved levy.

O&M Impacts: This is a capital maintenance project that reduces the need for O&M by improving asset condition.

Signal Major Maintenance

Project No:	MC-TR-C026	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project addresses major work related to the basic infrastructure at traffic signals such as poles, span wires, mast arms, wiring, equipment interconnectivity, video equipment and cabinets to improve and upgrade the traffic signal system. The project also is used for replacement of signal cabinets. The expected life of a signal is 30 years; currently there are more than 1,100 signals within the City.

Sound Transit - East Link

Project No:	MC-TR-C004	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2011 - 2025	Neighborhood District:	Multiple
Total Project Cost:	\$993	Urban Village:	Multiple

This project provides design review, permitting, and construction support services for the Sound Transit East Link Extension project. It will provide a connection from the Eastside to downtown Seattle, Sea-Tac Airport and the University of Washington. Ten stations will serve Seattle, Mercer Island, Bellevue, Bel-Red and Overlake in Redmond.

SPU Drainage Partnership - Broadview Pedestrian Improvements

Project No:	MC-TR-C036	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 5
Start/End Date:	2016 - 2024	Neighborhood District:	Northwest
Total Project Cost:	\$9,044	Urban Village:	Bitter Lake Village

This project funding will be used to install pedestrian improvements as part of SPU's larger Broadview Sewer and Drainage Improvement project. The Broadview sewer system was built in the 1950's and cannot handle the combination of additional flow from the homes and business that have developed since then and the additional storm water that is entering the system from downspouts directly connected to the sewer system as well as additional storm water entering through deteriorated pipes. This area is also lacking conventional sidewalks and would benefit from pedestrian improvements. The overall project goal is to reduce the potential for sewer backups and surface flooding for the Broadview neighborhood while improving the pedestrian environments.

SPU Drainage Partnership - South Park

Project No:	MC-TR-C054	BSL Code:	BC-TR-19001
Project Type:	Discrete	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	TBD
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 1
Start/End Date:	2016 - 2024	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$8,901	Urban Village:	South Park

This funding will be used to partner with SPU's South Park Drainage Improvement projects. SPU is planning to install a pump station to control flooding in the South Park area. However, that alone will not control flooding. Many streets in the area are in poor condition and don't have a street drainage collection system. This funding will allow SPU and SDOT to partner to install the needed collection systems and repair the deteriorated roads.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges. For SDOT, the annual O&M cost to support new City-owned and maintained infrastructure built by the next major phase of the SR-520 program is estimated at \$56,000. The SR-520 program will also replace existing City infrastructure, such as new street and sidewalk pavement, which will reduce SDOT annual O&M costs in the near term.

Structures Major Maintenance

Project No:	MC-TR-C112	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides for major maintenance and rehabilitation of the City's bridges and structural assets maintained by SDOT's Roadway Structures Division. Examples of improvements that could be funded by this project include: electrical and mechanical upgrades of moveable bridge operating and control systems, repair of concrete and steel structures, and site protection of bridge facilities.

Thomas Street Redesign

Project No:	MC-TR-C105	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Thomas St. from 5th Ave N to Dexter Ave N
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2020 - 2026	Neighborhood District:	
Total Project Cost:	\$10,491	Urban Village:	Uptown

Thomas St Redefined will implement planned improvements between Taylor Ave N and Dexter Ave N, and along Taylor Ave N adjacent to the Seattle City Light Substation. Phase 1 includes all required Seattle City Light frontage improvements adjacent to the substation, a new multiuse path with landscape buffers, a dedicated pedestrian sidewalk with significant landscaping, new street trees, new pedestrian lighting, new street lighting and interim improvements of a bike lane and plaza between 5th Ave N and Taylor Ave N. Phase 2 will transform the interim improvements into permanent improvements.

Unsecured Funding Strategy: Funding for this program beyond 2024 is dependent upon a future voter approved levy.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Urban Design Capital Projects

Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project includes funding transferred from other capital projects for trees and landscaping costs. This project is necessary to allow for capital projects to close in a timely way, but to ensure support to complete the three-year establishment for trees and associated planting installed by the project. This project also includes funding from fees paid by developers for the Payment in Lieu of tree planting program established in Ordinance 126821.

Vision Zero

Project No:	MC-TR-C064	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

Seattle's Vision Zero initiative is aimed at ending traffic deaths and serious injuries on city streets by 2030 through street design, education, engagement, and partnership. At the core of the international Vision Zero movement is the belief that no loss of life is acceptable; that humans make mistakes; and that cities should design a system that accounts for imperfection so that when a crash occurs, it doesn't result in death or injury. This program approaches the challenge of fatal and serious injury crashes from the angle of redesigning streets to emphasize safety, predictability, multimodal mobility, and the potential for human error. It will complete 12-15 corridor safety projects over 9 years to improve safety for all travelers on our highest injury streets. In addition, Vision Zero is focused on taking a proactive, systemwide approach to move toward a safer system for all.

O&M Impacts: This is a capital maintenance project that reduces the need for O&M by improving asset condition.

Waterfront Transportation Infrastructure Maintenance

Project No:	MC-TR-C109	BSL Code:	BC-TR-16000
Project Type:	Ongoing	BSL Name:	Central Waterfront
Project Category:	Rehabilitation or Restoration	Location:	Central Waterfront
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

The Waterfront Seattle program is reconstructing existing transportation infrastructure, Alaskan Way and Elliott Way as well as other streets and bridges. It is also building new transportation infrastructure: the Union Street Pedestrian Bridge, Overlook Walk and Pine Street connector. Each of these program elements includes transportation assets such as pavement, sidewalks, ADA ramps, signs, signals, markings and landscapes that will need ongoing maintenance to remain safe and in a state of good repair. This program is a capital maintenance program to keep the new and rebuilt assets in a state of good repair, consistent with long-term maintenance commitments made by the City. It is also intended that this program set aside funds for future asset replacement or rehabilitation as necessary.

Resources	LTD Actuals	2024 Revised	2025	2026	2027	2028	2029	2030	Total

Unsecured Funding Strategy: Funding for this project may depend upon the availability of grants or identification of new/incremental revenue sources.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

West Seattle Bridge Immediate Response

Project No:	MC-TR-C110	BSL Code:	BC-TR-19001
Project Type:	Discrete	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	West Seattle Bridge Spanning the Duwamish
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2020 - 2025	Neighborhood District:	Greater Duwamish
Total Project Cost Range:	134,217 - 158,888	Urban Village:	Not in an Urban Village

This CIP funds the West Seattle Bridge Program, including broad community engagement efforts and the Reconnect West Seattle multimodal strategy. The capital delivery components include emergency repairs and bridge stabilization work, high bridge and low bridge rehabilitation, low bridge improvements, and high bridge replacement planning. In parallel, this CIP funds a broad multimodal capital strategy (Reconnect West Seattle) to accommodate cross-Duwamish travel that formerly used the high bridge in partnership with King County Metro, Sound Transit, WSDOT, Washington State Ferries, BNSF, the Port of Seattle, other state and federal agencies, private mobility providers, large employers, and the general public.

Total:	117,714	16,044	-	-	-	-	-	-	133,759

Financial Planning Strategy: SDOT and CBO continue to evaluate the funding strategy for the repair and replacement of the West Seattle Bridge. The initial funding will be LTGO bonds, with the debt service paid for by Real Estate Excise Tax. SDOT will work to identify potential partnership funding.

O&M Impacts: O&M Costs are still being evaluated.

Seattle City Light

Overview

Seattle City Light (City Light) is a municipally owned electric utility that operates as a department of the City of Seattle. The utility serves a population of approximately 961,000 people living in a 131 square-mile area, which includes the city of Seattle and several adjoining jurisdictions. To serve these customers, City Light owns, maintains, and operates a multi-billion-dollar physical plant. The physical plant includes:

- A power generation system consisting of seven hydroelectric plants on the Pend Oreille, Skagit, Cedar, and Tolt rivers with a combined capacity of approximately 2,000 megawatts.
- 667 miles of high-voltage transmission lines.
- A distribution system with 16 major substations and more than 2,500 miles of overhead and underground cable.
- A state-of-the-art System Operations Center coordinating the City's electric system.
- Billing and metering technology tracking over 493,000 accounts.

City Light's Capital Improvement Program (CIP) is the vehicle for repairing, upgrading, and expanding this infrastructure. With planned spending of \$3 billion over the 2025-2030 timeframe, the CIP funds a variety of maintenance work and improvements to infrastructure assets, safety improvements, mitigation activities, and licensing requirements. Funding for the CIP comes primarily from retail electricity sales, sales of surplus power on the wholesale market, customer connection fees, and the sale of revenue bonds. Federal and state grant funding is also an expected source in this timeframe.

Thematic Priorities

The CIP supports City Light's core mission of providing customers with affordable, reliable, and environmentally responsible energy services. The CIP considers ongoing operational priorities and business strategies reflected in the utility's 2025-2030 Strategic Plan update. This includes our commitment to developing our workforce; identifying cost-saving opportunities; investing in infrastructure; incorporating new technologies; and enhancing cyber security. It also includes bold initiatives to meet the challenges ahead, like technology expansions that integrate renewable energy and demand response programs to reduce strain on the grid.

The update continues work on the five business strategies first described in the 2022-2026 Strategic Plan:

1. Improve the Customer Experience

City Light is focused on engaging with our customers and helping employees see the impact of their actions from the customers' perspective. We are making investments to enhance accessibility, offer new program choices, and better meet our customers' diverse needs.

2. Create Our Energy Future

Creating our energy future involves responsibly growing demand for clean energy through electrification, investing in access to low-cost carbon-free renewable power, and building and maintaining a smart, resilient, flexible, dynamic, and reliable grid infrastructure. Past budgets added significant funding for electrification and grid modernization in anticipation of federal and state infrastructure grant opportunities.

3. Develop Workforce and Organizational Agility

Our industry is transforming quickly, and so are our customers' needs. City Light is building an organization that is nimble, adaptive, and responsive by investing in strong change

2025-2030 Adopted Capital Improvement Program

management, workforce development, and new technology resources.

4. Ensure Financial Stewardship and Affordability

To deliver rates that are affordable for all, City Light is leaning into strong fiscal management and new pricing options to help customers manage their energy bills through efficient use of City Light’s products and services.

5. We Power

“We Power” refers to our core mission as a utility – to provide our customers with affordable, reliable, and environmentally responsible energy services. Critical CIP efforts funded in past budgets include Skagit Relicensing and the Accelerated Pole Replacement Program; both initiatives continue in the 2025-2030 Budget.

Notable CIP areas that advance our 2025-2030 Strategic Plan Update and core planning and operational needs include:

Investments to Create Our Energy Future

The CIP includes funding for projects to advance Seattle’s transition away from fossil fuels to achieve a zero-carbon city. Grid modernization investments will update and modernize the distribution system to improve resiliency, add flexibility, and maintain reliability. Projects supporting electrification include large-scale maritime electrification projects, as well as ongoing expansion of electric vehicle charging infrastructure and customer incentive programs. Green energy resource growth will enable projects to develop distributed generation (solar, wind, etc.), energy storage, demand-side management, and other distributed energy resource (DER) technology. Under the Utility Next program, City Light will pursue and leverage grant matching funds for federal and state stimulus dollars to accelerate work across our business strategies.

Technology, Data and Cyber Security

The Utility Technology Roadmap has improvements planned for many foundational technology systems that underpin our system operations and customer interactions. In the initial years, City Light will complete the investments in upgrades to critical systems that support operations, outage management, and the move to a Unified GIS platform. The upgrades of the Geospatial Information System (GIS), Outage Management System (OMS), and the Energy Management System (EMS) will prepare us for the new energy technologies as part of grid transformation. The major upgrade of the Work and Asset Management System (WAMS) is active and will commence a multi-phased approach to moving functions to the cloud with the Work and Asset Cloud application, inventory management, operational device management and ultimately the mobile workforce. Data architecture and related initiatives are foundational for the entire Utility Technology Roadmap. To safeguard our technology assets and harden against cyber threats, advanced developments in cyber security programs, technology governance, and operations are funded. These initial years are preparing for the new systems to support the distributed energy resources, starting with the application for customer DER interconnection requests (DER Interconnection tool), then expanding to management of the distributed energy resources (DERMS), and ultimately to implement systems that support managing the distribution Supervisory Control and Data Acquisition (SCADA) and the advanced distribution management capabilities (ADMS).

Hydroelectric Project Relicensing

The federal license for the Skagit River Hydroelectric Project, a series of three dams that produces approximately 20% of City Light’s owned generation capacity, expires in 2025. Renewing the license with FERC also means reviewing the safety, cost, environmental, and cultural impacts of the continued operation of the project. Since 2020, City Light has been collaborating with local partners to develop an

application for a new license that will last for the next 30-50 years. The license will include requirements around protecting the environment and the culture of the watershed and its surrounding communities. In addition, the South Fork Tolt Hydroelectric Project is also up for FERC license renewal in 2027. For the Boundary Hydroelectric Project, various protection, mitigation, and enhancement activities are needed to fulfill requirements mandated by its 2014 FERC license and settlement agreement.

Transmission & Distribution Infrastructure Maintenance

Reliable energy delivery requires proactive maintenance of transmission and distribution assets. The utility has accelerated the pace of pole replacements due to a critical need to replace deteriorating poles that are essential for reliability as well as public safety. Other major program investments include expansion of the network distribution system in the north downtown area to realize systemwide benefits from the Denny Substation, as well as replacement of failing underground cables.

Preserving Hydroelectric Generation Assets

Preservation of Seattle's legacy hydroelectric generation facilities is accomplished through prudent investments and proactive maintenance. Planned enhancements include a wide range of dam safety investments; an improved outage management system; long-term planning for small legacy hydroelectric projects such as Cedar Falls; improvements of ancillary systems and facilities such as powerhouse systems; plant automation; and cyber and physical security investments.

Workforce, Facilities and Fleets

Supporting an agile workforce requires a work environment conducive to productivity, collaboration, and innovation. A major restacking project continues renovation of office space in the Seattle Municipal Tower to improve ergonomics, modify workspaces to accommodate modern technology and collaboration, and reduce the utility's footprint in the downtown core. Similarly, strategic fleet investments are replacing aging vehicles with electric-powered alternatives that are greener and more efficient.

Race and Social Justice

City Light is committed to leading with equity and prioritizing investments in ways that deliver value to underserved and under-represented communities. The utility is actively engaged in the Citywide effort to rebuild Seattle as a city that is racially just, equitable, and inclusive. In developing and executing the CIP, work groups seeking incremental funding participated in an equity lab with City Light's RSJ Change Team to seek diverse perspectives and identify opportunities to incorporate social justice work into implementation plans. City Light will work to prioritize positive outcomes and reverse historic inequities for underserved communities, including Black, Indigenous, and people of color as well as immigrants, refugees, persons experiencing low incomes, English language learners, youth, and seniors. This includes prioritizing the electrification of public transit to deliver better air quality and other health benefits to historically underserved communities. Other benefits include a focus on job creation and economic activity with an emphasis on historically excluded populations.

Project Selection Criteria

City Light's planning process is designed to ensure project funding meets customers' current and future needs, and to position the utility to meet current and future strategic and operational challenges. Project ideas come from throughout City Light. Members of each of the utility's organizational lines of business (e.g., power supply, transmission and distribution, fleets, facilities, electrification, technology, and customer service) prioritize capital spending and then submit recommended projects through a centralized capital budgeting system.

2025-2030 Adopted Capital Improvement Program

For any new capital project with a total cost exceeding \$1 million, utility staff complete an intake to document the project expectations, rationale, and a cost-benefit analysis of alternatives. Availability of funding and labor resources limits the CIP, and to balance overall needs within these constraints, City Light may rescope, reschedule, or defer projects in the six-year CIP.

2025-2030 Adopted CIP Highlights

The 2025-2030 Adopted CIP outlines \$3 billion in capital spending over six years for power supply, transmission, distribution, external projects, and central utility needs.

2025-2030 Adopted CIP Summary of Allocations by Program

Budget Program/Sub-Program	2025	2026	2027	2028	2029	2030
Central Utility Projects	32,014,896	47,230,207	47,240,499	35,760,847	34,018,998	40,534,549
Finance and IT Systems	4,597,037	14,313,026	17,643,476	11,194,485	8,781,000	14,833,400
Fleets & Facilities	27,417,860	32,917,181	29,597,023	24,566,362	25,237,998	25,701,149
Distribution	284,251,462	299,109,390	302,682,438	314,003,635	327,536,187	327,865,945
Distribution Other	32,318,728	28,806,648	30,163,456	35,992,775	38,637,335	33,076,681
Network	21,782,321	24,417,940	24,175,343	22,915,656	25,430,233	26,311,011
Radial	115,049,193	123,681,678	121,596,570	121,513,389	121,478,231	121,209,710
Service Connections	84,748,147	91,761,366	88,356,614	96,751,302	107,586,769	111,062,273
Substations	30,353,073	30,441,758	38,390,456	36,830,513	34,403,619	36,206,270
External Projects	32,279,534	34,274,135	35,584,550	32,178,537	25,816,502	26,228,785
Local Jurisdictions	19,760,132	22,759,106	24,571,269	18,943,503	13,547,313	13,835,810
Transportation Relocations	12,519,402	11,515,029	11,013,281	13,235,034	12,269,189	12,392,975
Power Supply	131,273,199	133,212,610	129,623,035	118,321,628	143,296,853	127,017,121
Boundary	34,790,086	30,919,826	40,120,616	44,125,363	59,594,466	41,124,912
Conservation & Environmental	49,577,261	49,814,383	48,856,806	49,193,739	52,791,257	55,456,700
Power Supply Other	1,199,460	1,113,087	830,165	1,163,651	1,156,854	1,044,412
Skagit	36,829,485	42,797,184	33,235,584	16,043,007	20,388,393	19,268,259
Cedar Falls- Tolt	8,876,907	8,568,131	6,579,864	7,795,868	9,365,882	10,122,838
Transmission	2,926,614	3,054,787	2,821,207	3,954,481	4,066,706	4,267,290
Transmission	2,926,614	3,054,787	2,821,207	3,954,481	4,066,706	4,267,290
Grand Total	482,745,705	516,881,130	517,951,729	504,219,129	534,735,245	525,913,690

A selection of projects from each program follows.

Central Utility Projects

Projects in this program provide for centralized billing and customer service systems, financial and information technology systems, and vehicle fleets and facilities that are not part of the power generating plant (e.g., equipment shops, service centers, and maintenance yards). This program also includes City Light's work on transportation electrification.

For 2025, there is \$32 million in funding for 13 projects in Central Utility. Highlights include:

- **Equipment Fleet Replacement (MC-CL-XF9101): \$11,189,953**
This ongoing project funds the purchase of light-duty and heavy-duty mobile equipment fleet vehicles. This includes replacement of specialized fleet vehicles for electric utility use, as well as enhancements and additions of green alternatives such as electric powered vehicles.

2025-2030 Adopted Capital Improvement Program

- Facilities Improvements (MC-CL-XF9103): \$9,146,020
This ongoing project funds renovations of office space and capital replacement of office equipment, including modular office workstations, conference room ensemble furniture, flexible group workspaces, and major office machines. Improvements will enhance worker safety, with improved light, airflow, and ergonomics, as well as enhance productivity and team collaboration. This project also supports the City's Space Reduction Pilot, which aims to reduce the utility's footprint in the downtown core by 25% to achieve cost efficiencies.
- Transportation Electrification (MC-CL-XF9239): \$6,595,821
This ongoing project develops electrification infrastructure to support light-duty, medium-duty, and heavy-duty electric vehicles as well as ferry and port systems. Efforts support electrified public transit, fleet electrification, and electric vehicle charging.
- New Technology (MC-CL-ZF9980): \$2,988,961
This ongoing technology program will establish foundational technology for the modernization of the grid and ensure the improvement of operational technology. These initiatives were outlined to ensure we are supporting the best practices and needs of the utility.

Distribution

Projects in this program include improvements to City Light's distribution substations, relays, feeders, network distribution systems, overhead and underground radial distribution systems, service connections, customer meters, operational technology, and other facilities and assets related to the distribution system.

For 2025, there is \$284 million included for 48 projects in Distribution. Highlights include:

- Overhead Equipment Replacements (MC-CL-YR8351): \$40,143,043
This ongoing project replaces overhead distribution equipment nearing the end of its usable life, is overloaded, or no longer has an available supply of spare parts. These items include but are not limited to poles, cross-arms, transformers, and open-wire secondaries.
- Medium Overhead and Underground Services (MC-CL-ZS8366): \$35,155,522
This ongoing project funds engineering and installation of radial electric power service connections with medium-sized power requirements of 50 KVA to 2.5 MVA and 26 kV. The cost of this work is generally reimbursed by the requesting customer.
- Underground Equipment Replacements (MC-CL-YR8353): \$27,945,369
This ongoing project replaces and improves underground electrical system equipment that is failing or approaching the end of its useful life. This project enhances distribution system reliability, avoiding unplanned outages or interruption of service due to equipment failure.
- Distribution System Replacements (MC-CL-YR8333): \$26,760,428
This ongoing project replaces underground and overhead equipment nearing the end of its usable life, is overloaded, or is required due to load growth. Replacement items may include but are not limited to poles, vaults, transformers, switches, cables, and all necessary apparatus for the distribution system.
- Software Replacement Strategy (MC-CL-YD9969): \$16,439,495
This project funds the upgrade or replacement of key applications and systems as part of the Utility Technology Portfolio. Timely upgrades and replacements ensure that technology and enterprise level software resources are kept up to date, are fully functional and continue to deliver more benefits and technology automations to internal and external customers.

- Pole Attachments (MC-CL-YR8452): \$14,084,510
This ongoing project funds preparing poles for the attachment of communication infrastructure owned by other entities. The construction costs associated with this work are typically fully reimbursable and attachments generate ongoing revenues through pole attachment rental fees.
- Small Overhead and Underground Services (MC-CL-ZS8367): \$8,285,761
This ongoing project funds engineering and installation of radial electric power service connections with small size power requirements of less than 50 KVA and 26 kV. The cost of this work is generally reimbursed by the requesting customer.
- Substation Breaker Replacements & Reliability Additions (MC-CL-YS7779): \$8,064,560
This ongoing project funds the review of City Light's inventory of approximately 400 transmission and distribution voltage circuit breakers. It determines which have the greatest wear, gas or oil leaks, maintenance cost, and service stress. It prioritizes replacement of circuit breakers with highest risk of failure.
- Network Additions and Services – Broad Street Substation (MC-CL-ZS8363): \$6,986,505
This ongoing project funds electrical service connections, capacity additions, and related improvements in response to customer service requests within the Broad Street network area. The project also funds replacement or installation of network transformers, network protectors and specialty transformers, or in-building vault retrofits or other short-duration system improvement needs that may be identified during construction.
- Network Services (MC-CL-ZS8370): \$6,785,776
This ongoing project funds a programmatic approach for comprehensive management of underground network services assets for network distribution areas in the core central business district of Seattle, as well as the University District area. This project provides service specific electrical and civil facilities for new services and increased loads in these areas.
- Network Systems (MC-CL-YN8630): \$6,544,102
This ongoing project funds a programmatic approach for comprehensive management of underground network systems assets serving network distribution areas in the core central business district of Seattle, as well as the University District area. This project enhances network reliability and provides sufficient service capacity for the growing power needs of these areas.
- Substation Equipment Improvements (MC-CL-YS7752): \$6,519,878
This ongoing project adds, replaces, and upgrades substation equipment, particularly substation electrical and control equipment. The project also funds the installation of remote control and monitoring of substation equipment from the System Control Center, which facilitates faster response time to correct system instability or outages. This work maintains and improves system reliability, permits compliance with high voltage and environmental regulations, and ensures safe work sites.
- Grid Modernization (MC-CL-YD9510): \$6,370,702
This project funds installation of technology and equipment to modernize the distribution grid, including distribution system sensors, automated and remote switches, and demand response systems. This project implements the Grid Modernization Plan and Roadmap, which describes the work needed to build a next-generation electric grid that can flexibly and cost-effectively absorb demand growth from electrification of buildings and transportation.
- Network Additions and Services – First Hill, Massachusetts, Union, & University (MC-CL-ZS8364): \$6,054,618
This ongoing project provides electrical service connections and related improvements in response to customer service requests within the First Hill, Massachusetts, Union, and University District network areas. The project performs capacity additions work associated with service connections to customers, including condominiums, office buildings, medical facilities, hotels, and commercial and

apartment buildings. The project also replaces or installs network transformers, network protectors, and specialty transformers, and performs short-duration system improvement work identified during operations, including retrofitting in-building vaults.

External Projects

Projects in this program respond to requests from local jurisdictions to relocate distribution services from overhead to underground systems per the terms of franchise agreements; maintain and upgrade the streetlight system; relocate utility infrastructure in response to major transportation projects; and provide capital improvements in response to other customer-requested service needs.

For 2025, the CIP includes \$32.3 million in funding for nine External Projects. Highlights include:

- Streetlight Arterial, Residential and Flood (MC-CL-ZL8378): \$10,686,959
This ongoing project funds streetlights and floodlights requested by various taxing jurisdictions and other customers. Lights may be provided in public right of way and on private property, for either public or private benefit.
- Overhead and Underground Relocations (MC-CL-ZT8369): \$7,754,690
This ongoing project funds relocation of electrical lines to accommodate or take advantage of transportation-related projects, street vacations, or other projects initiated by outside agencies such as SDOT, WSDOT, or suburban municipalities. Work includes modifications to the distribution system, including replacement or modifications of line segments, poles, and underground facilities. Some costs may be reimbursable by the requesting outside agencies.
- Transportation Streetlights (MC-CL-ZL8377): \$6,637,776
This ongoing project funds relocation of streetlights displaced by City of Seattle transportation projects.
- Sound Transit 3 (MC-CL-ZT8467): \$4,307,564
This project provides the engineering and construction of relocated and/or new City Light facilities required for two new light rail lines and related transit facilities from downtown Seattle to Ballard and West Seattle, approved in November 2017 as part of the Sound Transit 3 initiative. City Light activities include engineering and construction of electric power feeder relocations and upgrades, power services for the planned light rail lines, and various other tasks.
- Streetlight LED Conversion Program (MC-CL-ZL8441): \$2,238,582
This project is the second-generation replacement of LED luminaires and will be deployed with a controls system to replace all cobra head streetlights. The project is expected to achieve an additional 20% annual energy savings and prevent 2,720 metric tons of carbon from being released into the atmosphere. Included in this project will be a color temperature reduction to 3000K to improve customer reports of discomfort glare. This project continues the work originally chartered in 2009 to upgrade all City-owned streetlights to LED, which achieved an estimated annual 40% energy savings and avoided 5,446 metric tons of carbon released into the atmosphere. Since then, the LED industry has matured, and the original fixtures are no longer a benchmark of efficiency and are nearing the end of life.

Power Supply

Projects in this program include energy efficiency, environmental claims, improvements to dams, generators, powerhouses, as well as compliance work to meet federal licensing and environmental mitigation requirements for hydroelectric dams. Rebuilds or replacements of major power production equipment are sequenced to reduce the impact to power generation and to minimize fluctuations in the annual amount of capital spending.

For 2025, the CIP includes \$131 million in funding for 32 projects in Power Supply. Highlights include:

- Energy Efficiency (MC-CL-WC2250): \$32,723,090
This ongoing project funds energy efficiency programs at City Light.
- Skagit – Relicensing (MC-CL-XS6986): \$16,458,041
This ongoing project supports the relicensing activities for the Skagit River Hydroelectric Project, including support of staff, environmental studies, documentation, and consultation. Relicensing work began in 2019. The current FERC license for the Skagit Project expires in 2025. City Light submitted the final license application to FERC in April 2023, but work continues to refine the details of proposed protection, mitigation, and enhancement measures.
- Boundary Powerhouse – Unit 52 Generator Rebuild (MC-CL-XB6535): \$13,453,959
This project funds rewinding and refurbishing of the Boundary Powerhouse Unit 52 generator and upgrades its fire-suppression system. Work may also include mechanical upgrades or installations of seal rings, wicket gates, and diagnostic equipment. This programmatic maintenance helps extend the useful life of the generator.
- Environmental Claims (MC-CL-WC3133) \$11,314,991
This ongoing project funds all environmental liability clean-up and remediation work on City Light-owned and non-owned properties, whether voluntary or ordered by state or federal environmental regulating agencies.
- Boundary – Licensing Mitigation (MC-CL-XB6987): \$8,904,939
This ongoing project implements protection, mitigation, and enhancement measures required by the terms and conditions of the Boundary Hydroelectric Project license issued by FERC in 2013. The license allows for the continued operation of the project, City Light's largest generating station producing approximately 25% to 40% of the utility's power supply.
- Gorge Crane Rehabilitation (MC-CL-XS6639): \$6,612,040
This project refurbishes or replaces mechanical and electrical systems for the Gorge powerhouse crane and will provide safety upgrades to comply with current code. The Gorge powerhouse crane has never undergone a major refurbishment. The three Gorge generating units are planned for overhauls within the next 10 years and will require a reliable crane. The crane control system is being modernized to allow for better control and accuracy.
- Skagit Minor Emergent (MC-CL-XS6405): \$6,187,018
This ongoing project provides funding for emergent capital improvement needs for various facilities at the Skagit Project. This project also funds small scheduled capital projects with cost estimates of less than \$25,000.
- Tolt Relicensing (MC-CL-XC6985): \$6,164,989
The South Fork Tolt Hydroelectric Project FERC License expires in July 2029. Without a license the project cannot be legally operated. This project funds the preparation of necessary documentation to be filed with the FERC by June 2027 to either acquire a new operating license for the project or decommission it. The FERC relicensing process will require preparing and filing a Notice of Intent (NOI), Preliminary Application Document (PAD), and Preliminary and Final License applications. The PAD, which was due in 2024, will be a substantial document requiring consultant assistance and additional City Light staff resources. Work began in 2021 to prepare the PAD and start the relicensing process. The main study phase of relicensing will occur in 2025 and 2026, which will require consultant and agency support for studies, reporting, and preparation of the final license application due in 2027. If City Light were to decide to cease operating the project instead of relicensing it, a Decommissioning Application would need to be filed, which requires many of the same elements and funding to complete this work.

2025-2030 Adopted Capital Improvement Program

- Skagit License 1995 (MC-CL-WC3125): \$5,411,265
This project funds the License Settlement Agreement for the 1995 Skagit License including activities such as fisheries, wildlife, North Cascades Environmental Learning Center, recreation, Skagit ROW vegetation management, erosion, plant propagation, historic properties, archaeological MOAs, Powerhouse National Pollutant Discharge Elimination Systems (NPDES), aesthetics agreement and visual quality, and salmon studies.

Transmission

Projects in this program fund refurbishment and expansion of utility-owned high-voltage transmission infrastructure that transports electricity from generation facilities to City Light’s service territory, as well as within the service territory.

For 2025, the CIP budget includes \$2.9 million for six projects in Transmission. Highlights include:

- Transmission Reliability (MC-CL-YT7104): \$2,149,662
This ongoing project funds replacement and improvement of transmission structures and conductors. This work may include engineering, construction, and related work, as well as minor improvements to overhead or underground transmission system assets to improve reliability.
- Transmission Inter-Agency (MC-CL-YT7105): \$449,569
This ongoing project provides demand-driven improvements to City Light's transmission system, including reimbursable transmission work and relocations of transmission equipment to meet customer, other utility, agency, and regulatory requirements. It permits City Light to meet its duties to relocate facilities at the request of other agencies.

CIP Revenue Sources

Approximately 60% of the CIP is funded through the sale of revenue bonds, based on financial policies set forth in Resolution 31187. The remaining 40% is funded by revenues from retail electric rates, wholesale sales, direct customer billings for service connections and other customer requested work, and assorted fees. Federal and state grant funding are also anticipated funding sources in this six-year timeframe; these funds will be added to the CIP as the grants are approved.

Summary of Upcoming Budget Issues and Challenges

Budget Issues

City Light’s strategic plan commitment to hold rate increases to levels resembling inflation limits CIP spending to the amounts previously identified in the adopted six-year plan. This means that change requests with new funding needs must be offset with reductions elsewhere in the CIP.

The Undergrounding Program does not include all the funding needed to make substantial progress on this body of work. Supply chain and staffing constraints have exacerbated the long lead times needed to design and replace underground cabling. Therefore, funding is being shifted to offset other critical capital funding needs until a more focused effort can resume on undergrounding. For instance, City Light is working on policies and funding approaches to re-evaluate the program going forward and anticipates significant customer outreach once policy and funding options have been presented to the Mayor's Office and City Council. Ultimately, resources will need to be assigned to increase replacement of failing underground cables. There may be future rate impacts associated with adequately funding the undergrounding work in the future.

The Final License Application for the Skagit Hydroelectric Project was filed with the federal government in April 2023, and it reflects the input of the many agencies and organizations who have been engaged in this process since 2019. Final license approval and costs are still pending. Because it is still under negotiation, this budget proposal does not include costs explicitly associated with fulfilling the terms of a new Skagit license.

Inflation of materials and labor costs continues to be significant. Material costs are driving increased capital costs, and supply chain issues make maintaining inventory challenging and costly.

Wages are increasing, which should meaningfully reduce vacancy rates and allow City Light to better meet customer timelines and complete backlogged work. With compensation below other public utilities in the area, City Light has struggled with a high vacancy rate, with key areas such as engineering and line crews seeing vacancy rates in the double digits. Understaffing has led to long processing times and untenable levels of overtime.

Challenges

There are several challenges that will transform our business over the next decade:

- *New technologies are transforming how people use electricity.* Commercialization of energy technologies poses a potential risk to City Light. New options and products for controlling consumption, generating, and storing electricity will impact how customers interact with their local utility. Utilities must continue to evolve and to develop their products and services to best serve shifting customer needs and expectations.
- *Declining retail energy consumption and electrification.* Advances in energy efficiency have reduced consumer energy demand, particularly for those with access to modern energy efficient technology and dwellings. Due in part to energy efficient building codes and new technologies, today's multifamily units consume approximately half as much energy as older single-family homes. At the same time, electrification of buildings and transportation promises to increase demand for electricity, reinforcing the critical need for grid investments that will be required to effectively serve this new demand. This changing landscape calls for managing impacts to rates while also understanding and compensating for inequities in access to green, cost-saving technologies.
- *Impact of retirements and legacy practices.* As more employees become eligible for retirement and workflows are not documented or digitized, City Light risks the loss of institutional memory, costly service interruptions, and a potential impact on service delivery. Capital technology investments need to encompass broader project scopes that include more process standardizations and automations, as well as robust organizational change management activities to facilitate the workforce's adoption of new processes and tools.
- *Climate change continues, and clean energy is more valuable than ever.* Weather pattern changes affect reservoir levels and seasonal energy consumption, leading to increasing volatility of energy supply and demand. Since 1910, City Light has provided its customers with reliable, affordable, and environmentally responsive clean energy. As the utility continues this tradition and plans for the future, it must account for growing power supply demands from its customers, while prioritizing emission reductions and ensuring an equitable clean energy transition for all customers served.

Future Projects/What is on the Horizon

- Demand for transportation and building electrification continues to grow and will support multiple policy commitments as well as Mayoral and City Council priorities. The need to support large scale commercial electrification includes maritime applications (including WSDOT ferries, the Port of Seattle, various types of commercial ships, trucking, and multiple large-scale district energy electrification projects) as well as building code and Building Energy Performance Standards, which will drive significant building electrification load increases.
- Support of the Sound Transit Light Rail expansion will require significant investment to relocate and reroute City Light infrastructure.
- As our world and environment change, the grid must keep up. Updating grid infrastructure, integrating renewable energy resources, and accommodating new technologies will ensure the grid is reliable, resilient to impacts from climate change, and secure from cyberattacks.
- City Light's Distributed Energy Resource Management System (DERMS) is an essential technology for establishing a grid that supports the two-way exchange of energy between the utility and our customers. This will allow us to manage the operation of distributed energy resources such as solar panels, wind turbines, and energy storage systems, all of which are key to decarbonizing the energy sector. It will also manage the charging and discharging of electric vehicles and other energy storage systems, supporting both vehicle and building electrification and enhancing grid stability.
- Seattle is serving as a host city for the FIFA 2026 World Cup, for which it will host six games, with an expected influx of more than one million non-Seattle residents for the event and more than five billion expected viewers. City Light has key roles to play in the execution of a successful event, including working with stadiums and key event spaces to fully invest in energy efficiency; designing and constructing any necessary services to support power needs for key facilities and electric vehicle chargers; ensuring reliable continuous operations to key event spaces and corridors; and planning for and making necessary upgrades to street lighting for key event corridors. The exact nature of the final work required to support FIFA is unknown but is expected to be handled through existing staff and reimbursable capital investments funded by the requestors.

Advanced Metering Infrastructure

Project No:	MC-CL-ZS8426	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2015 - 2023	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$102,358	Urban Village:	Not in an Urban Village

The first phase of this project replaced approximately 400,000 meters with Smart Meters. The second phase of this project funds the replacement of approximately 25,000 remaining meters with Smart Meters allowing two-way communication between Seattle City Light and its customers, residential or commercial. Smart Meters continuously record and transmit consumption data to the utility. They also automate meter reading, increase customer service, heighten billing capacity, reduce energy consumption, improve outage restoration efficiency, and support rate structure flexibility. Implementation of the project positions the utility to comply with North American Electric Reliability Corporation (NERC) and Federal Energy Regulatory Commission (FERC) programs and requirements.

Boundary - Level 6 Deck Stabilization

Project No:	MC-CL-XB6604	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Boundary Rd, Metaline, WA 99153
Current Project Stage:	Stage 6 - Closeout	Council District:	Outside City of Seattle
Start/End Date:	2017 - 2023	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$2,953	Urban Village:	Not in an Urban Village

This project installs a new system of rock bolts and other forms of rock anchors to improve the structural stability of the Level 6 Deck on Boundary Dam. This portion of the dam is attached to and supported by the adjacent rock. Inspections revealed a weakness in the current attachments and use of the deck by heavy equipment is restricted until these improvements are made. This project also includes stabilization of rock blocks in the powerhouse machine hall.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project implements Protection, Mitigation and Enhancement measures (PME) required by the terms and conditions of a settlement agreement and new license to be issued by the Federal Energy Regulatory Commission (FERC). The license allows for the continued operation of the Boundary Hydroelectric Project, Seattle City Light's largest generating station producing approximately 25 to 40% of the City's power supply.

Boundary Control Room Alarm System Replacement

Project No:	MC-CL-XB6637	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Boundary Rd, Metaline, WA 99153
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Outside City of Seattle
Start/End Date:	2019 - 2028	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$1,478	Urban Village:	Not in an Urban Village

This project replaces the system of alarms and annunciator panels in the Boundary Control room with a modern system that integrates with the current automation system. Alarms will be routed to PH Operator terminals where information will be displayed as to the nature of the alarm. Due to the large number of circuits that will need to be replaced, this project will be implemented in phases over several years.

Boundary Powerhouse - Unit 51 Generator Rebuild

Project No:	MC-CL-XB6351	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	10382 Boundary Rd, Metaline, WA 99153
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2017 - 2027	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$45,897	Urban Village:	Not in an Urban Village

This project provides the rewinding and refurbishing of the Unit 51 generator to extend its useful life, which is part of a programmatic series of projects to maintain the Utility's aging generators. It also replaces the carbon dioxide fire-suppression system with a water sprinkler system to enhance worker safety. If technology is sufficiently advanced, it may also include a rotor-mounted scanner or other diagnostic equipment.

Boundary Station Service Transformer Replacement

Project No:	MC-CL-XB6627	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Boundary Rd, Metaline, WA 99153
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Outside City of Seattle
Start/End Date:	2019 - 2028	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$14,146	Urban Village:	Not in an Urban Village

This project replaces two aging station service transformers at Boundary. It is assumed that they will be specified and procured together but installed in two sequential years. Station service transformers provide power to the powerhouse, dam and service area. It is likely that the rating of the transformers will need to be increased to accommodate load increases associated with the addition of new circuits in the powerhouse for automation, controls and machine monitoring.

Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds a programmatic approach for comprehensive management of underground network assets serving customers in the Belltown and Denny Regrade areas. The project enhances network reliability and provides sufficient service capacity for the growing electrical power needs of the Denny Triangle and potentially a portion of South Lake Union area.

Building Envelope Upgrades

Project No:	MC-CL-XF9072	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	System Wide
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project replaces or restores exterior moisture and thermal barrier components of buildings such as roofing and insulation systems, exterior siding and cladding systems, windows and exterior doors. This project allows for the proactive replacement of building exteriors in order to avert costly structural damage and prevent the growth of toxic mold inside wall cavities and ceiling spaces that can easily render a building uninhabitable. The project also enhances operational efficiency by mitigating emergency repairs which disrupt utility operations.

Cedar Falls Powerhouse - Unit 5/6 Generator Protective Relay

Project No:	MC-CL-XC6450	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	19901 Cedar Falls Rd SE, North Bend, WA 98045
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2007 - 2024	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$5,872	Urban Village:	Not in an Urban Village

This project upgrades the present generator protection for Units 5 and 6, which lacks some basic protection elements to protect it from abnormal frequency and voltages. Upgrading and reconfiguring the protective relays is critical to preparing the new Cedar Falls substation for operation. This project replaces existing protective relays, upgrades the generator protection packages, and replaces the electrical and mechanical lockout relays. The project permits City Light to comply with the North American Electric Reliability Council (NERC) and the Western Electricity Coordinating Council (WECC) regional requirements for maintaining the generator in-service during system disturbances.

Cedar Falls Substation & Bank 6 Replacement

Project No:	MC-CL-XC6573	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Cedar Falls
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2018 - 2024	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$22,227	Urban Village:	Outside City of Seattle

This project replaces the 60-year-old Bank 6 power step up transformer at Cedar Falls. Bank 6 provides the connection between Cedar Falls Generating Units 5 and 6 and the transmission system. The transformer is approaching the end of its useful life and the goal of this project is to replace it during a planned outage before it fails.

Center City Connector Streetcar City Light

Project No:	MC-CL-ZT8470	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	Rehabilitation or Restoration	Location:	City Wide
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2015 - 2024	Neighborhood District:	Multiple
Total Project Cost:	\$854	Urban Village:	Multiple

This project provides power relocations & service for the proposed SDOT Center City Connector Streetcar project. City Light has buried primary distribution power cables, some of which are encased in old clay tile ducts, which do not meet current standards, and are unlikely to be able to withstand the forces generated by the streetcar's operation. Any streetcar alignment to be built across such old facilities would likely need a reinforced roadbed for SCL facilities to withstand the additional weight.

Distribution Automation

Project No:	MC-CL-YR8425	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project automates radial distribution feeders, which includes installation of equipment to provide remote control of operations of switches on power lines and gather real time data on conditions in distribution power lines. The installation of strategically placed switches provides the ability to automatically perform outage restoration, shift blocks of load to maximize efficiencies of feeders, and reconfigure the feeder grid. Typical operation involves remotely detecting that a feeder fault has occurred, locating the damaged portion of the feeder between two remote controlled line switches, isolating the damaged portion of the feeder by opening appropriate remote controlled line switches, and re-energizing undamaged portions of the feeder via the primary feeder source and one or more backup sources using automatically controlled tie switches.

This project plans, builds, deploys, and provides ongoing management of an enterprise document management system that effectively and efficiently captures, secures, shares, and distributes digital and paper-based documents and reports. The project streamlines collaboration, automates routine tasks, and lowers costs related to creation, management, and storage of business documents. The project provides the governance and audit capabilities needed to minimize the risks and costs associated with regulatory and legal compliance.

Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds the implementation of City Light's public electric vehicle charging pilot project. This project will deploy 26 public EV fast chargers within the service area, at both City-owned property and private sites. City Light owns and installs the charging infrastructure. This program allows customers access to carbon-neutral electricity that customers are demanding, better utilize current utility assets, and contribute to the Clean, Renewable-Powered City initiative and the aggressive goals of the Drive Clean Seattle Initiative.

Endangered Species Act Mitigation

Project No:	MC-CL-XP6990	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Outside City of Seattle
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project funds work that protects and restores fisheries habitat in the Skagit and Tolt river basins. It implements the Endangered Species Act (ESA) Program for recovery of listed fish species that are potentially affected by City Light projects. The project includes land purchase, restoration, assessment, and management. The project reduces the likelihood of third party lawsuits under ESA and the reopening of claims by Federal agencies, e.g. the U.S. Fish and Wildlife Service, seeking additional measures to protect and restore the listed species.

This ongoing project funds both planned and emergent needs for facility modifications, real estate development & maintenance, equipment replacements, upgrades to office spaces and workspaces, life/safety modifications and components, addressing environmental and remediation concerns, and reducing energy consumption. A major component shall include infrastructure maintenance and construction of a building which involves several activities, which may vary depending on the project's scope, but typically includes developing a building design inclusive of architectural, structural, electrical, plumbing, and mechanical systems. The project shall also support the design process necessary to plan capital works, such as architect and other consultants to develop plans and specifications that meet the project's functional and aesthetic requirements.

Gorge Crane Rehabilitation

Project No:	MC-CL-XS6639	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 121 State Highway 20
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Outside City of Seattle
Start/End Date:	2021 - 2027	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$16,305	Urban Village:	Not in an Urban Village

This project refurbishes or replaces mechanical and electrical systems for the Gorge powerhouse cranes and will provide safety upgrades to comply with current code. The Gorge powerhouse crane has never undergone a major refurbishment. The three Gorge generating units are planned for overhauls within the next ten years, and will require a reliable crane. The crane control system is being modernized to allow for better control and accuracy.

Gorge U21-24 overhauls

Project No:	MC-CL-XS6640	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 121 State Highway 20
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Outside City of Seattle
Start/End Date:	2023 - 2030	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$7,209	Urban Village:	Not in an Urban Village

This project overhauls Gorge units 21 - 24. The final scope of work will be determined during project chartering, but is expected to include replacing the stator winding, stator core, and excitation system. Refurbishment is expected for rotor components and other mechanical components. Planning is currently forecast to start in 2022 which would mean construction on the first unit would likely begin in 2025.

Total Project Cost:	N/A	Urban Village:	Outside City of Seattle

This ongoing project funds upgrades to generating plants that will either prevent oil spills through process improvements and equipment replacement, or provide additional containment capacity for accidental spills. These upgrades will include replacing oil filled transformers with dry-type transformers, building larger containment basins around oil filled equipment, reconfiguring powerhouse sumps, installing oil/water separators, and replacing greased valve bushings with greaseless bushings.

Interbay Substation - Development

Project No:	MC-CL-YS7756	BSL Code:	BC-CL-Y
Project Type:	Discrete	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	17th Ave West
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:	2022 - 2028	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$931	Urban Village:	Ballard-Interbay Northend

This project plans, designs, and constructs a 26 kV substation in the Interbay area. This project installs 2-100 MVA transformers into a facility large enough to accommodate a third transformer at the site if required in the future. The project adds to the distribution network and provides a new path for power to the area. It provides assurance to the developers who are interested in projects in the South Lake Union district that City Light will be able to serve their needs reliably.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project funds replacement and improvement of the Utility's information technology infrastructure. This infrastructure provides applications, data storage, and print services to the utility, and supports activities and applications including Microsoft Outlook, remote connectivity, electronic communications and recording of power marketing transactions (E-tagging), the City InWeb and network, common and City Light applications, UNIX services, and infrastructure change management. Components purchased by this project include servers, network and communications equipment, disk storage, and application and operating system software. Infrastructure is upgraded or replaced based upon a combination of factors, such as maintenance schedules, equipment warranties, availability of vendor support, Gartner recommendations, application growth, and security demands.

The ongoing program will plan, design, procure, construct, and commission large City Light capital investment projects to deliver infrastructure required to meet electrification, environmental justice, and/or sustainability goals and mandates and customer demand associated with Maritime Transportation (MARTEP). MARTEP Projects stem from public and private maritime transportation efforts to transition from emission-based energy sources to City Light electrical service and that requires City Light to design and construct new infrastructure.

Massachusetts Street Substation - Networks

Project No:	MC-CL-YN8202	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	1555 Utah Ave S
Current Project Stage:	N/A	Council District:	Council District 2
Start/End Date:	N/A	Neighborhood District:	Greater Duwamish
Total Project Cost:	N/A	Urban Village:	Greater Duwamish

The ongoing project increases Massachusetts Street Substation network capacity. It funds a programmatic approach for comprehensive management of underground network assets serving customers in Pioneer Square and the area bounded by University Street, Third Avenue, Terrace Street, and the Freeway. The project funds completion of engineering design and analysis and construction work required to improve and enhance the network system supporting existing and neat future network customers in the areas. This project defers the need date for a new network substation until no further capacity is available from Union Street and the other network substations. It provides sufficient and reliable electrical capacity for the growing power needs of City Light customers.

Network Hazeltine Upgrade

Project No:	MC-CL-YN8129	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project upgrades City Light's remote vault monitoring capability for the Digital Grid system (formerly Hazeltine system). The project consists of substation receivers, workstations, applications, server pairs and alarm PCs. The project provides remote monitoring of network transformers, protectors, vaults, and supports daily utility operations. The project enhances the network monitoring capability by allowing a real time alarm and an event generated from the field to be processed and sent to the alarm PCs of an abnormal electrical component or environmental condition occurrence. The most crucial alarm PC is situated in the System Control Center where it is monitored by with Power Dispatchers 24/7.

Overhead Outage Replacements

Project No:	MC-CL-ZS8350	BSL Code:	BC-CL-Z
Project Type:	Ongoing	BSL Name:	Customer Focused - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project supports the capitalized portion of work resulting from unplanned, non-emergency, overhead outages. These outages result from events, such as storms, accidents, and equipment failures. The project funds permanent storm repairs and construction of new infrastructure to bypass failing equipment. The project ensures that customers' electric power is restored as quickly as possible.

This project provides the infrastructure required to install the basic control network and integrate existing, major control systems for a Skagit wide network controls program, to be located at each of the Skagit facilities. This project improves monitoring and control of the Skagit facilities, reduces maintenance and potential outages, and reduces cost and time of maintenance and outages. This project incorporates features that lead to enhanced data acquisition that is part of the NERC requirements.

Ross Dam - AC/DC Distribution System Upgrade

Project No:	MC-CL-XS6373	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 128 State Highway 20
Current Project Stage:	Stage 3 - Design	Council District:	Outside City of Seattle
Start/End Date:	2005 - 2030	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$25,126	Urban Village:	Not in an Urban Village

This project upgrades aging AC electrical distribution system at Ross Dam with a new electrical distribution system. It installs conduit, ducting, distribution panels and wire. It improves the 4 kV system, improves lighting, and provides improvements on top of the dam including a center substation room, emergency generator, valve houses, and a 130-volt battery bank. New conduit and conductors improve reliability of spillgate operations and other dam operations requiring electric power. New electrical equipment, new lighting, and the addition of emergency lighting allow staff greater operational flexibility, safety, and efficiency.

Security Improvements

Project No:	MC-CL-YD9202	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project plans, designs and implements projects, improving the physical security of City Light critical facilities, in order to mitigate unauthorized access and criminal activities that could cause significant system damage, power outages, and other related disruptions to the electrical system. The project reduces the risk of sabotage, vandalism, theft, and terrorism that can result in the loss of valuable infrastructure for generation and distribution of power. The project also reduces risk of noncompliance with North American Reliability Council (NERC) 1200 Standards to improve security at critical facilities that house command and control systems. It enhances reliability of the power system, reduces the risk of lost revenues, and reduces the jeopardy to public safety and emergency response due to loss of lifeline services such as medical services, water and wastewater systems, communications, law enforcement, banking, transportation system, etc.

Skagit - Relicensing

Project No:	MC-CL-XS6986	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	New Investment	Location:	Newhalem Creek Rd, Marblemount, WA 98267
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Outside City of Seattle

This ongoing project supports the relicensing activities for the Skagit River Hydroelectric Project, including support of staff, environmental studies, documentation, and consultation. Relicensing work began in 2019. The current FERC license for the Skagit Project expires in 2025. City Light submitted the final license application to FERC in April 2023, but work continues to refine the details of proposed protection, mitigation, and enhancement measures.

Skagit Facilities Plan

Project No:	MC-CL-XS6520	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Newhalem Creek Rd, Marblemount, WA 98267
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Outside City of Seattle

This project implements a comprehensive facility plan to optimize buildings and structures at two Skagit town sites. The project preserves essential facilities that support SCL's power production needs, and retains important civic, cultural, and historic features in keeping with the historic preservation requirements of the Skagit FERC Licensing agreement. The project will reduce operational costs by dismantling and removing surplus facilities that require significant on-going maintenance.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides funding for structural improvements to existing facilities at Skagit, both residential and commercial. It replaces lights, windows, and HVAC systems, insulates buildings, and performs related work. The project dramatically reduces the amount of energy expended to keep structures warm or cool depending upon the season.

Skagit Powerhouses - Install Protection Relays

Project No:	MC-CL-XS6415	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	500 Newhalem Creek Rd, Marblemount, WA 98267
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project enhances generating reliability by adding protective relays to generating systems at the Ross, Diablo, and Gorge plants, whose generator protective relays do not meet present IEEE Standards. The project funds the addition of microprocessor relays to the existing system, certain auxiliary protective equipment, and modifies the design of the existing protection system to upgrade functionality. This will limit the potential for damage when surges and faults occur in transmission lines due to lightning strikes, load rejections, and other unexpected events.

Solar Microgrid for Resilience

Project No:	MC-CL-XF9238	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	New Investment	Location:	TBD
Current Project Stage:	Stage 6 - Closeout	Council District:	TBD
Start/End Date:	2016 - 2023	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$4,660	Urban Village:	Not in an Urban Village

This project provides construction of an islandable microgrid located at a City of Seattle designated emergency shelter such as a community center, where a solar photovoltaic (PV) system coupled with an appropriately-sized battery energy storage system will be installed. The project provides backup power to support critical emergency facilities and services during extended power outages when electricity distribution facilities are down due to a catastrophic event, such as an earthquake, severe windstorm (or associated flooding), fire or landslide. The Washington State Dept. of Commerce will grant the utility approximately half of the funding to cover the costs for this project.

Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2017 - 2022	Neighborhood District:	Multiple
Total Project Cost:	\$620	Urban Village:	Multiple

This project increases the capacity of City Light power distribution systems to serve increased power requirements projected for Sound Transit's Link system. Initial upgrades will be in the Capitol Hill Sound Transit Station area. Construction there may be underway in 2017. Other areas projected to need power distribution system upgrades include area between the International District Station and Lake Washington, the University of Washington Station area, areas in the Rainier valley, and some areas along the proposed Lynnwood Link line.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides the engineering and construction of relocated and/or new City Light facilities required for two new light rail lines and related transit facilities from downtown Seattle to Ballard and West Seattle, approved in November 2017 as part of the Sound Transit 3 initiative. City Light activities include engineering and construction of electric power feeder relocations and upgrades, power services for the planned light rail lines, and various other tasks. Sound Transit’s plans will require City Light work through several future budget cycles.

Project No:	MC-CL-ZT8471	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	Rehabilitation or Restoration	Location:	City Wide
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2015 - 2025	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$12,306	Urban Village:	Outside City of Seattle

This project supports Sound Transit's Lynnwood Link, which will extend from the Northgate Transit Center at 5th Ave NE & NE 100th Street to our service area boundary at NE 200th Street, near the I-5 Right of Way. This project will include 100 blocks of relocations, a significant fraction of which will convert lines from overhead to underground. The project will install two feeders for each of the light rail line's traction power stations and upgrade the radial system's capacity where needed to serve the new load. The low and medium power service connections for the line's stations will be handled through the existing service projects.

State Route 520 Bridge Relocations

Project No:	MC-CL-ZT8435	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	Rehabilitation or Restoration	Location:	SR 520 / Lake Washington
Current Project Stage:	Stage 5 - Construction	Council District:	Citywide
Start/End Date:	2017 - 2029	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$3,440	Urban Village:	Not in an Urban Village

This project provides relocation and installation of power service infrastructure, such as feeder extensions, to support WSDOT's replacement of the State Route 520 Bridge from Montlake to I-5. This project is projected to be fully reimbursable by WSDOT.

Stormwater Compliance

Project No:	MC-CL-YD9236	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	City Wide
Current Project Stage:	N/A	Council District:	
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds the installation of lighted canopies and the associated drainage improvements that are necessary to bring City Light into compliance with the current rules and regulations. As a result of a City wide storm water audit and several surprise inspections from the Department of Ecology, it was discovered that there are several areas where measures are needed to bring City Light’s storm water protection program into compliance. Some of our facilities drain directly to Superfund sites and the successful implementation of a compliant storm water system not only reduces our liability in the short term, but it has a direct impact on the amount of funding we may be ordered to provide for the cleanup of current and future Superfund sites. Currently, City Light stores raw materials (gravel, cold mix, backfill material, vegetative matter), salvage material (wire, metal products, electronics, transformers, poles) and warehouse materials (timbers, unfinished metal, galvanized poles) outside, where product can leach into the drainage systems.

Streetlight LED Conversion Program

Project No:	MC-CL-ZL8441	BSL Code:	BC-CL-Z
Project Type:	Ongoing	BSL Name:	Customer Focused - CIP
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project is the second-generation replacement of LED luminaires and will be deployed with a controls system to replace all cobrahead streetlights. The project is expected to achieve an additional 20% annual energy savings and prevent 2,720 metric tons of carbon from being released into the atmosphere. Included in this project will be a color temperature reduction to 3000K to improve customer reports of discomfort glare. This project continues the work originally chartered in 2009 to upgrade all City-owned streetlights to LED, which achieved an estimated annual 40% energy savings and avoided 5,446 metric tons of carbon released into the atmosphere. Since then, the LED industry has matured, and the original fixtures are no longer a benchmark of efficiency and are nearing the end of life.

Substation Automation

Project No:	MC-CL-YS8424	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project replaces and upgrades substation automation systems, including Remote Terminal Units (RTU) and annunciators, in each of City Light's fourteen substations, and upgrades equipment at two substations annually. The project reduces the likelihood and length of system outages due to failure as the current equipment is wearing out and cannot be replaced in kind because the equipment is no longer manufactured. The project also enhances energy efficiency, and reduces the probability of fines from appropriate governing bodies if loss of a substation, due to equipment failure, causes instability of the western interconnection grid and/or loss of load.

Substation Breaker Replacements and Reliability Additions

Project No:	MC-CL-YS7779	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides the review of City Light's inventory of approximately 400 transmission and distribution voltage circuit breakers. It determines which have the greatest wear, gas or oil leaks, maintenance cost, and service stress. It replaces those circuit breakers with the priority given to those with the highest risk of failure.

Substation Transformer Replacements

Project No:	MC-CL-YS7776	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	2136 N 163rd St, Shoreline
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides the review of power transformers at substations and determines dissolved gas concentration, insulation aging, oil leaks, maintenance cost, service stress, and fault interrupting history. The project replaces transformers prioritized by those with the highest risk of failure, or those presenting substation capacity limits. The project enhances system reliability by replacing aging substation transformers before they fail in service.

System Control Center System Map Board Replacement

Project No:	MC-CL-ZF9985	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	New Investment	Location:	System Control Center
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Multiple
Start/End Date:	2023 - 2025	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:		Urban Village:	Not in an Urban Village

This project funds the update to the existing system map board in the System Control Center (SCC). Currently, the SCC has a manual system map board that is no longer supported by the vendor, is outdated, and failing. Replacement parts are no longer available. The current map board was created in 1995 and is well beyond its service life. This equipment is a critical tool for the SCC to monitor the electric transmission and distribution systems while making decisions that impact the safety of our employees, the public, and our infrastructure. The benefits from updating to an electronic map board are substantial and will enable a significant reduction in the potential for human error. A modern map board is updated digitally and provides real-time updates generated from our Energy Management System (EMS).

O&M Impacts:

Tolt Relicensing

Project No:	MC-CL-XC6985	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Tolt River Dam
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

The South Fork Tolt Hydroelectric Project FERC License expires in July 2029. Without a license the project cannot be legally operated. This project funds the preparation of necessary documentation to be filed with the FERC by June 2027 to either acquire a new operating license for the project or decommission it. The FERC relicensing process will require preparing and filing a Notice of Intent (NOI), Preliminary Application Document (PAD), and Preliminary and Final License applications. The PAD, which was due in 2024, will be a substantial document requiring consultant assistance and additional City Light staff resources. Work began in 2021 to prepare the PAD and start the relicensing process. The main study phase of relicensing will occur in 2025 and 2026, which will require consultant and agency support for studies, reporting, and preparation of the final license application due in 2027. If City Light were to decide to cease operating the project instead of relicensing it, a Decommissioning Application would need to be filed, which requires many of the same elements and funding to complete this work.

This ongoing project builds or replaces communications infrastructure consisting of fiber optic rings, digital microwave, telephone networks, and two-way radio systems. This project provides City Light with command and control capabilities for the operation of the electrical system. This project ensures the safe, reliable, and efficient operation of the system and positions City Light to meet the Federal Energy Regulatory Commission's vital communications systems requirements.

Underground Customer Driven Capacity Additions

Project No:	MC-CL-YR8360	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides electrical lines from substations to customers' property lines. This project builds new and replaces old underground line segments, and may replace rotten and damaged poles in the distribution system that have underground facilities beneath them. This work is driven by specific customer projects, for their direct benefit, to identify and upgrade feeders that are impacted before the new load from those projects comes online. City Light is reimbursed by the customers for this work.

Start/End Date:	2018 - 2023	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$1,291	Urban Village:	Not in an Urban Village

This project provides funding for a Vegetation Management Compliance System for planning, tracking, and necessary documentation required to meet WECC and NERC Vegetation Management compliance requirements. These requirements are a WECC recommendation from the 2017 WECC Audit. Auditors noted that SCL was the only utility of its size to not automate Vegetation Management compliance work.

This ongoing project funds alterations that preserve workplace efficiency. The project focuses on adapting exterior work spaces and interior building elements to support business process improvements for occupant work groups. Interior systems improvements could include flooring replacements, interior remodeling, computer network cabling upgrades, uninterruptible power systems and computer flooring. Exterior system improvements could include fencing, security systems, paving and striping, and exterior building components.

Seattle Public Utilities

Drainage and Wastewater

Overview

Seattle Public Utilities (SPU) maintains the network of sewer and drainage systems throughout the City of Seattle. These systems include approximately:

- 448 miles of sanitary sewers
- 968 miles of combined sewers
- 67 Pump Stations
- 5.5 miles of wastewater force mains
- 82 City-owned and permitted Combined Sewer Overflow points
- 38 Combined Sewer Overflow control detention tanks/pipes
- 481 miles of storm drains / 591 storm drain outfalls
- 24,733 catch basins
- 65 miles of ditches, 128 miles of culverts
- 30 miles of stream channel (49 creeks, 6 of which are salmon bearing)
- 9 acres of green stormwater infrastructure
- 17 detention/treatment ponds
- 295 drainage flow control facilities
- 578 water quality structures

The Drainage and Wastewater (DWW) CIP is the vehicle for rehabilitating, replacing, improving, and expanding this infrastructure, as well as constructing projects that protect, conserve, and enhance our region's environmental resources. Planned spending in the DWW CIP is approximately \$1.54 billion over the next six years, from 2025-2030.

Thematic Priorities/Project Selection Criteria

Collective priorities for SPU's DWW line of business, as expressed in the Strategic Business Plan, reflect values consistently expressed by customers and community: affordability, sustainability, and equity. SPU is committed to leading with equity and working in partnership with communities and employees to create a just and sustainable future.

Specific priorities of the DWF CIP are:

- Replacing failing assets;
- Constructing facilities that reduce the frequency of flooding and sewer backups for customers;
- Improving water quality and environmental habitats by reducing stormwater pollution and sewage overflows; and
- Providing adequate workforce facilities for our employees.

Projects in the DWW CIP are guided by various federal regulations, city policies, and long-term planning documents (e.g., the Plan to Protect Seattle’s Waterways and asset management plans). Additional direction for SPU’s capital improvement program come from our 2025-2030 Strategic Business Plan, which outlined new investments, cost savings, and a retail rate path for the six-year period and grew out of SPU’s efforts to provide greater rate predictability for customers while making important investments for the future. In addition to candidate capital projects identified from these planning documents, projects are identified from external projects, opportunities, emergencies, and other unexpected events. Projects are prioritized based on the following:

- **Public Health, Safety & Environment:** The overriding priority for the DWW is maintaining public health and safety by providing or improving services to customers and decreasing our impact on the environment. Examples of highly ranked projects in this category include the Drainage Capacity program, Sanitary Sewer Overflow Capacity program, South Park Water Quality Facility, and Protection of Beneficial Uses program which includes stream culvert replacement, floodplain reconnection efforts and water quality improvement projects.
- **Infrastructure Reliability & Risk:** How a project addresses infrastructure conditions or vulnerabilities. Examples of highly ranked projects in this category include the Pipe Rehabilitation and Pump Station improvement programs.
- **Regulatory, Mandates, Legal Agreements:** The City of Seattle/SPU must comply with State and Federal regulatory requirements including the Clean Water Act (CWA) and the Consent Decree that was entered in court on July 3, 2013, between the City, the U.S. Environmental Protection Agency (EPA), and the U.S. Department of Justice (DOJ). The two most significant regulatory drivers associated with the CWA are the National Pollutant Discharge Elimination System (NPDES) Waste Discharge Permit (aka NPDES CSO Permit) and the NPDES Phase I Municipal Stormwater Permit (aka NPDES MS4 Permit). This ranking category considers the degree to which the project is driven by Federal, State, and local laws, permit and regulatory requirements, and consent decrees, as well as by legal agreements with public and private parties and the specific mandates of the City Council and Mayor. Examples of highly ranked projects in this category include the Ship Canal Water Quality Project, CSO Retrofits, South Park Water Quality Facility, and Natural Drainage System (NDS) Partnering Program.
- **External Drivers and Opportunities:** SPU’s responsiveness to, or engagement with, the projects of other Departments or Jurisdictions, or opportunities to provide multiple benefits, address service equity, or reduce ratepayer costs through outside funding opportunities. Examples of highly ranked projects in this category include the Transportation Agency projects through SDOT’s former Bridging the Gap and anticipated future Levy to Move Seattle and Sound Transit.

2025-2030 Proposed Capital Improvement Plan

SPU – Drainage and Wastewater

To aid SPU in making responsible decisions on behalf of ratepayers, prioritized projects must then be justified through a business case process that establishes that a problem or opportunity is timely and important and that the proposed solution is superior to other alternatives based on a triple bottom line analysis (economic, environmental, and social) of life-cycle benefits and costs. The process also recognizes that a project may be a “must do” project (e.g., required by regulations). The need for any given projects or programs is documented in a business case document and must be approved by the SPU General Manager and Asset Management Committee or CIP Board.

CIP Highlights

2025-2030 Proposed Drainage and Wastewater Fund CIP by BCL (\$'s in '000s; total may not sum due to rounding)

BCL	2025	2026	2027	2028	2029	2030	Total
BC-SU-C333B - Protection of Beneficial Uses	30,378	58,904	76,125	72,394	48,198	23,450	309,449

BC-SU-C510B - Technology	5,791	4,322	4,322	4,322	4,321	4,322	27,399
Total	231,072	266,966	296,934	256,294	243,011	244,582	1,538,859

Protection of Beneficial Uses: This program makes improvements to the City’s drainage system to reduce the harmful effects of stormwater runoff on creeks and receiving water bodies and preserve the storm water conveyance function of our creeks through stream culvert repair and rehabilitation. The program includes projects to meet regulatory requirements, primarily NDS Partnering Program projects (a key component of Seattle’s Plan to Protect Seattle’s Waterways) which improves water quality with green stormwater infrastructure (GSI) approaches, while also partnering with SDOT to provide mobility improvements and streetscape enhancements. The program also includes projects that are part of the SPU and Council created GSI in Urban Villages Program, helping SPU grow approaches for partnering with other agencies, developers, and community-based organization to install GSI at the lowest costs moment. Stream culvert and floodplain storage efforts, including the Longfellow Flood Storage project, are exploring win-win partnerships with Seattle Parks and Recreation.

Sediments: The City of Seattle is a Potentially Responsible Party (PRP) for cleanup liabilities for contaminated sediments at the Lower Duwamish Waterway Superfund Site, the Harbor Island Superfund Site (East Waterway), and Gas Works Park due to alleged historic contributions from Combined Sewer Overflows (CSO), storm drain discharges, and other City-owned facilities. The city

2025-2030 Proposed Capital Improvement Plan

continues to work with the EPA, the Washington State Department of Ecology, King County, and other PRPs on cleanup studies, design, and construction. The Sediments program provides funding for studies and analysis for cleanup of contaminated sediment sites in which the City is a participant, engineering design, construction of actual cleanup of contaminated sites, and liability allocation negotiations. The study phase of sediment remediation projects often requires multiple years before specific cleanup actions are defined.

For the Lower Duwamish Waterway, EPA decided the cleanup remedy in 2014 and engineering design has been underway. Duwamish Waterway remediation construction is scheduled to begin October 2024. The East Waterway study phase was completed in 2023 and EPA decided their cleanup actions in their Interim Record of Decision release in May 2024. Similarly, Ecology decided the required cleanup actions at Gas Works Park in 2024. Current program projections reflect costs associated with cleanup design and construction adjacent to Gas Works Park, Duwamish Waterway Sediment Remediation, East Waterway Remediation, and ongoing studies at other sites.

Combined Sewer Overflows: This program consists of projects that are mandated by State and Federal regulations to control combined sewer overflows (CSOs) into the City's receiving waters. During heavy rainfall events, the combination of stormwater (about 90 percent of the volume) and sewage may exceed the capacity of the combined sewer system (CSS) and overflow into our waterways – causing a combined sewer overflow (CSO). CSOs spill a mixture of raw sewage and stormwater into local waterways at 85 outfalls throughout the city. These spills violate water quality standards, create unacceptable risk to public health, contaminate sediment and habitats for endangered species, and pollute the Puget Sound.

Annual CSOs have been reduced from a range of 20-30 billion gallons per year by both the city and the County in 1970 to about 1 billion gallons per year today. The City's overflows account for approximately 100-200 million gallons per year. SPU currently does not meet regulatory mandates that limit CSOs to one untreated overflow per outfall location per year. SPU is required by State and Federal law to achieve control of CSOs by 2030. The LTCP, also called the Plan to Protect Seattle's Waterways, was approved by regulators in May 2015. In June 2024, an agreement in principle was reached to modify the Consent Decree. The Consent Decree modifications require completion of construction of all CSO reduction projects by December 2037. CSOs must be proven to be controlled one year after completion of construction; therefore, SPU is now required to achieve control of CSOs by 2038. Continuing investments in CSO control will enable SPU to achieve regulatory compliance.

Projects in the CSO Program include large infrastructure projects (e.g., storage structures, pipes, tunnels, wet weather treatment plants, stormwater separation, pump stations, etc.), smaller retrofits, construction of Green Stormwater Infrastructure (GSI) for CSO control, and development and implementation of regulatory required plans such as the Plan to Protect Seattle's Waterways. The largest project in the DWW CIP is the Ship Canal Water Quality Project (SCWQP). The SCWQP consists of a 2.7-mile-long, approximately 18-foot-diameter tunnel that, when completed, will capture and store approximately 75 million gallons of sewage and stormwater flows from Ballard, Fremont, Wallingford, and Queen Anne.

Planning is underway and will continue through the coming years for additional CSO reduction efforts to meet CSO Consent Decree compliance date requirements. SPU currently expects to spend approximately \$354 million over the next six years on CSO reduction projects. The majority of this spending is associated with the SCWQP, a joint project with King County to control CSOs into the Lake

2025-2030 Proposed Capital Improvement Plan

Washington Ship Canal and Salmon Bay. Currently the project is estimated at \$710 million at an 80% confidence.

Rehabilitation: This program consists of projects that repair, rehabilitate, or replace existing drainage and wastewater assets to maintain or improve current functionality levels. Assets that are addressed include:

- pump station structures, force mains, airlift conversions, major mechanical, ventilation and electrical components;
- drainage facilities including water quality structures, flow control structures and large surface water facilities; and
- drainage and wastewater conveyance pipes and structures (catch basins, maintenance holes and sandboxes).

Work within this program is critical to meeting SPU's Consent Decree target of less than four sanitary sewer overflows per 100 miles of sewer pipe bi-annually. Individual projects are defined by the type and method of rehabilitation and/or replacement including emergency rehabilitation, no-dig pipe lining rehabilitation by crews or contract, full mainline dig pipe replacement by contract, dig point pipe and structure rehabilitation by crews or contract, pump station repairs or replacement by crew or contract, and force main repairs or replacement by contract.

This Proposed Capital Improvement Plan includes a new drainage facility project to rehabilitate and/or replace water quality structures, flow control structures and large surface water facilities by crew or contractor, as well as a drainage pipe rehabilitation program to replace and repair drainage pipes and conveyance structures.

Flooding, Sewer Back-up, and Landslides: This program is responsible for preventing and alleviating flooding and sewer backups in the City of Seattle, with a primary focus on the protection of public health, safety, and property. The program area is focused on planning, design, and construction of new pipes, ditches, culverts, detention facilities, and GSI that control and/or convey storm runoff to the ultimate discharge locations of creeks, lakes, and Puget Sound. This program also involves protecting SPU's drainage and wastewater infrastructure in landslide prone areas from impending small landslides and providing drainage improvements where surface water generated from the City right-of way is contributing to slope instability and/or small landslides. Lastly, this program also includes sewer capacity projects that reduce sewer backups and help lower the risk of exceeding the Consent Decree target of four sanitary sewer overflows per 100 miles of sewer pipe per year. Major projects in this program include the 12th Avenue drainage project, the South Park Conveyance project, and the South Park Water Quality and Pump Station project. The South Park Water Quality Facility is a regulatory commitment within the Plan to Protect Seattle's Waterways.

Shared Cost Projects and Technology Projects: Projects in these BCLs are cross-funded by multiple SPU ratepayer funds. Project pages for these activities are not displayed in this section. For individual project pages, please see section **"Shared and Technology Projects."**

Shared Cost Projects cover capital improvement projects which typically benefit multiple lines of business (e.g., the Water LOB and the Drainage and Wastewater LOB).

SPU – Drainage and Wastewater

Shared Cost Projects for Drainage and Wastewater include Move Seattle, Center City Connector Streetcar, Washington Dept. of Transportation's 520 and stream culvert replacement work, and Sound Transit Link Light Rail. This BCL also includes funding for SPU Facility Improvements such as the Seattle Municipal Tower restacking project, South Operations Center, and a new dewatering facility near the South Transfer Station. Other programs in this BCL include DWW Heavy Equipment Purchases, 1% for the Arts, and several smaller projects.

Technology: The Technology capital portfolio is managed in seven program areas as identified by our SPU Strategic Technology Plan (SSTP) effort. These are intended to provide a department-wide view of technology investments to address SPU's strategic, business, and City-wide priorities. These areas are:

- Digitalization
- Customer
- Cyber
- Work & Asset Management
- Data & Analytics
- Program Delivery
- Technology Management

Investments in 2025 address several of SPU's key initiatives, including:

- Financial Management and Internal Controls
- Operational Excellence and Performance Management
- An Easy and Engaged Customer Experience
- Data-driven Decision Support
- Improved Enterprise Asset Management
- Project Delivery/Project Controls
- CC&B upgrade preparation
- Cybersecurity Emphasis

In 2025, SPU will continue focusing its technology spending on the highest priority business needs. Over the course of 2025-2030 the SPU Strategic Technology Plan (SSPT), top strategic priority projects will include:

- Deploying Advanced Metering Infrastructure
- Upgrading Customer Care and Billing (CC&B)
- Implementation of a Centralized Data Architecture & Design
- Development of a Digital Twin for Utilities
- Enterprise Content Management (ECM)

CIP Revenue Sources

The DWW CIP is financed through revenue bonds, a combination of low interest State and Federal loans, operating cash, and a small portion through capital grants or capital contributions in kind. Financial

2025-2030 Proposed Capital Improvement Plan

policies adopted by Council and embedded within revenue bond covenants require that non-debt sources of funds (operating cash, grants, contributions) comprise at least 25% of the portfolio over a four-year period.

For the 2025-2030 period, SPU has secured low interest SRF loans from the State Department of Ecology and WIFIA loans from the EPA to fund the majority of the Ship Canal Water Quality Project, with the balance funded through operating cash. The remaining projects will be funded through revenue bonds and operating cash. SPU will continue to seek out additional SRF and WIFIA loans where appropriate, as well as Public Works Trust Fund (PWTF) and Remedial Action Grants for sediments cleanup.

Summary of Upcoming Budget Issues and Challenges

Like utilities worldwide, SPU must prepare for and respond to complex challenges, such as climate change, pollution, earthquakes, and unpredictable material and labor costs, as they provide for public health and deliver environmental services. We strive to support and work with communities in long-lasting and meaningful ways. The biggest challenge for DWW will be continuing to manage priority projects while still complying with regulatory requirements from the EPA and the Washington State Department of Ecology (DOE) - all within the financial limitations of the Fund.

The City negotiated a Consent Decree among the City, the EPA, and the DOJ for compliance with the CWA and State regulations. The Consent Decree was entered in court on July 3, 2013, and an agreement has been reached to modify the Consent Decree. This proposed modification helps ensure that the City's remaining required investments in combined sewer infrastructure (that reduces pollution in our local waters) can be adapted for climate change, aligns with the Strategic Business Plan's rate path, works with other agencies and departments, and prioritizes efforts in historically underserved neighborhoods. The proposed modification extends the City's deadline for completing remaining sewer overflow investments to 2037. While the City will have accomplished at least 88% of the planned frequency and volume reductions from the original 2013 consent decree by 2027, the new deadline will help us deliver our remaining investments as part of a predictable rate path. The Consent Decree also includes requirements to implement a Capacity Management, Operations and Maintenance (CMOM) Program, which drives operations and maintenance spending and CIP spending in the Rehabilitation Program. Additionally, an NPDES permit for stormwater includes requirements to help protect local waterways and the Puget Sound from damaging pollutants and excessive runoff. This increased regulatory emphasis on protecting and improving water quality has resulted in the need for the city to make substantial investments in water quality treatment, detention, CSO retrofits, pipe and pump station rehabilitation, and inflow/infiltration reduction.

- Water Quality Treatment: This focuses on removing pollutants and can be accomplished through GSI or the use of technology such as specialized media filters. GSI is the use of green solutions to help reduce untreated overflows by allowing stormwater to infiltrate slowly into the ground, cutting the volume of stormwater entering the system, and providing water quality treatment through natural processes as the polluted runoff comes in contact with the soil and vegetation.
- Detention: This focuses on storing stormwater and/or sewage during a rainfall event and can be accomplished through detention ponds (for stormwater), GSI (for stormwater), floodplain reconnection (for stormwater), or underground tanks or tunnels (for both wastewater and stormwater). Detention can be added to the drainage system to offset the impacts of larger storms that overwhelm the conveyance capacity of the combined sewer system resulting in backups of sewage, localized flooding, and releases of untreated sewage.

2025-2030 Proposed Capital Improvement Plan

- CSO and Drainage Facility Retrofits: This focuses on optimizing existing collection, pumping and storage systems, using low-cost repairs and modifications to reduce pollution to waterways and/or improve flow control benefits.
- Pipe and Pump Station Rehabilitation: This consists of repairing, rehabilitating, or replacing existing gravity sewer and drainage pipes and structures, wastewater pump stations, and/or force mains that have deficiencies or have reached the end of their useful life.
- Inflow/Infiltration Reduction: This focuses on addressing parts of the system where there are direct stormwater connections to the sanitary sewer system which can be directed to a separated stormwater system. Infiltration reduction focuses on filling in cracks in sewer lines that allow groundwater to enter the system. By reducing inflow/infiltration, it is possible to reduce the frequency and volume of SSOs and sewer backups.

Other challenges DWW faces in meeting its obligations:

- 1) **Addressing public expectations**: It is challenging to address public expectations around our basic service level programs, such as flooding and system capacity. Funding levels for these programs are less than needed, but unable to be increased at this time due to the demand on our budget from regulatory requirements. The separated drainage and wastewater systems are either at capacity during storm events or lacking the fundamental infrastructure at various locations across the City. The impacts can range from very serious (basement sewer back-ups) to nuisance (limited street or yard flooding) issues.
- 2) **Construction Costs**: Market conditions and increasing costs of building large (drainage and wastewater) infrastructure in dense urban areas continue to put pressure on the portfolio.
- 3) **Climate Change**: Increasing rainfall intensities resulting from climate change are increasing pressure on existing drainage and wastewater infrastructure leading to increased CSOs and driving the need for larger solutions and additional system improvements. SPU assets also have risks related to sea level rise along the marine shoreline of the city.
- 4) **King County Regional Treatment and Disposal rate increase impact**: In 1958, a regional sewage treatment agency, the Municipality of Metropolitan Seattle (“Metro”), was formed to provide a regional solution to water quality problems. The City, rather than expanding its own treatment facilities, entered into a contract with Metro for sewage treatment. Metro operates three major regional wastewater treatment plants, two smaller local treatment plants, and four combined sewer overflow (“CSO”) treatment facilities, along with an extensive regional interceptor system to route sewage to the plants and stop untreated discharges into Lake Washington and other bodies of water. Metro and King County (the “County”) were merged in 1994. Since then, the County has been responsible for sewage treatment and disposal and has entered into a long-term contract with local sewage agencies, including the City, which remain responsible for their own local collection and transmission lines. The County currently provides services to 37 entities, including cities (including the City), sewer districts, and others. The County finances the capital and operating costs of its sewage treatment and disposal system, including projects from the Regional Wastewater Services Plan, with capacity charges to new customers and

wholesale charges to the City and other component agencies, all of which are established by the County Council pursuant to the current agreement. Currently, the City's share of the County's wholesale charge revenue is approximately 40%, and SPU passes this wholesale charge on to the City's Drainage and Wastewater System ratepayers. Future County increases in rates may impact the funding allocation available for SPU services.

Future Projects/What is on the horizon

Over the next 10 years the DWW CIP will be driven largely by regulatory requirements, major transportation projects, and Operations Crew Facilities. Major projects include the completion of the Ship Canal Water Quality Project, sediment remediation, and other projects necessary under the LTCP/Plan to Protect Seattle's Waterways, including right-of-way bioretention through the NDS Partnering Program, and South Park water quality facility. With the implementation of the Seattle Transportation Plan, DWW CIP will look for partnering opportunities that will allow SPU to stretch dollars further.

Supplementing in the near-term and looking beyond 2030, SPU is in the process of developing a community-centered plan to guide investments in integrated utility infrastructure for the next 50 years ([Shape Our Water Plan](#)). Through this planning effort, SPU will identify the partnerships, programs, and projects that will improve the performance and resilience of our drainage and wastewater systems while optimizing social and environmental co-benefits for the city. This planning is part of building a better Seattle by providing drainage and wastewater services that are affordable, safe, green, and just in a climate uncertain future.

Beneficial Uses Program

Project No:	MC-SU-C3317	BSL Code:	BC-SU-C333B
Project Type:	Ongoing	BSL Name:	Protection of Beneficial Uses
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project develops drainage related projects to improve the water quality, stream function and habitat in the streams and receiving waters of Seattle. These projects are part of SPU's NPDES Permit reporting for structural stormwater controls. Projects include green and gray water quality treatment approaches, and stream floodplain and habitat restoration to reduce flooding and associated culvert replacements to protect public safety.

Resources	LTD Actuals	2024 Revised	2025	2026	2027	2028	2029	2030	Total

Creek Culvert Replacement Program

Project No:	MC-SU-C3314	BSL Code:	BC-SU-C333B
Project Type:	Ongoing	BSL Name:	Protection of Beneficial Uses
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides for the repair and replacement of creek culverts that are part of SPU's critical drainage infrastructure. Creek culvert management includes assessing structural condition and risk, and fish passage barriers. Sequencing sites is based on a combination of priority and factors such as readiness to proceed, ability to address other drainage needs (e.g., flooding, maintenance), potential partnerships, synergies with other projects and availability of funding.

CSO Facility Retrofit

Project No:	MC-SU-C3611	BSL Code:	BC-SU-C360B
Project Type:	Ongoing	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project retrofits, upgrades, and modifies existing Combined Sewer Overflows (CSO) reduction facilities in Seattle CSO basins. Retrofit projects cost-effectively optimize and maximize existing system operation to minimize CSOs to the greatest extent possible, reducing long term CSO storage needs. This project assists in achieving state and Federal regulations to control combined sewer overflows (CSOs) into the City's receiving waters.

Drainage Capacity Program

Project No:	MC-SU-C3802	BSL Code:	BC-SU-C380B
Project Type:	Ongoing	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides flood control and local drainage and wastewater projects to improve system capacity or increase the existing level of service. Candidate projects are identified through DWW investigations, claims, complaints, studies, and prior planning. Drainage “spot” projects and small landslides prevention projects are also included within this program. The Localized Flood Control Program improves Drainage and Wastewater levels of service.

Total Project Cost:	N/A	Urban Village:	Multiple

This project is for planning and implementation of projects that are mandated by State and Federal regulations to control combined sewer overflows (CSOs) into the City's receiving waters. Projects in the CSO Program include large infrastructure projects (e.g., storage structures, pipes, tunnels, wet weather treatment plants, stormwater separation, pump stations, etc.), construction of Green Stormwater Infrastructure (GSI) for CSO control, and development and implementation of regulatory required plans such as the Long Term Control Plan.

Green Stormwater Infrastructure Program

Project No:	MC-SU-C3610	BSL Code:	BC-SU-C360B
Project Type:	Ongoing	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides construction of Green Stormwater Infrastructure (GSI) as a component of combined sewer overflow (CSO) reduction within the uncontrolled CSO basins. Work includes roadside bioretention and the RainWise program. RainWise provides financial incentives to private property owners within our uncontrolled CSO basins for construction of properly sized and installed raingardens or cisterns. The program supports the City's current regulatory strategy for compliance with CSO National Pollutant Discharge Elimination System (NPDES) permit.

GSI for Protection of Beneficial Uses

Project No:	MC-SU-C3316	BSL Code:	BC-SU-C333B
Project Type:	Ongoing	BSL Name:	Protection of Beneficial Uses
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides construction of Green Stormwater Infrastructure (GSI) and associated gray infrastructure to decrease polluted runoff entering Seattle's waterways while providing substantial environmental and community benefits. Implementation pathways include SPU-led projects, co-development with other agencies such as SPR and SDOT, community partnership and private developer partnerships. Utility-led projects included in this master project include the Natural Drainage Systems Partnering Program, identified in Seattle's Plan to Protect Seattle's Waterways (the Long Term Control Plan requirement within our Consent Decree), and the Council created GSI in Urban Villages Program which will deliver multi-purpose green infrastructure projects in urban villages and urban centers through community partnerships and development synergies. Partnership programs include RainWise, RainCity and the GSI Beyond Code Program

Long Term Control Plan

Project No:	MC-SU-C3604	BSL Code:	BC-SU-C360B
Project Type:	Ongoing	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project supports the ongoing implementation of SPU's Combined Sewer Overflow (CSO) Reduction Long Term Control Plan (LTCP) in accordance with SPU's National Pollutant Discharge Elimination System (NPDES) permit and the Federal CSO Control Policy. On May 1, 2012, the Environmental Protection Agency/Department of Justice issued a draft Consent Decree to the City of Seattle which requires the development and submission of a Long-Term Control Plan for approval by May 30, 2015. It further stipulates that all CSO Control Measures are to be constructed as expeditiously as practicable, and in no event later than December 31, 2030. The Consent Decree also allows the City to propose storm water control project(s) as part of an Integrated Plan, in addition to the CSO Control Measures. The LTCP identified projects and programs to reduce the number and volume of CSOs, meet receiving water quality standards, and protect designated beneficial uses. The LTCP includes flow characterization, monitoring, and hydraulic modeling; development of CSO control alternatives; development of control alternatives that takes into consideration costs and performance; operational plan revisions; public participation; implementation schedule; and post-construction monitoring.

Outfall Rehabilitation Program

Project No:	MC-SU-C3708	BSL Code:	BC-SU-C370B
Project Type:	Ongoing	BSL Name:	Rehabilitation
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides rehabilitation of outfalls throughout Seattle Public Utilities service area. Typical improvements may include, but are not limited to, repair, rehabilitation or replacement of outfall structures. This project will investigate the condition of each of the outfalls and complete an options analysis, followed by design, construction, and closeout activities.

Pipe Renewal Program

Project No:	MC-SU-C3710	BSL Code:	BC-SU-C370B
Project Type:	Ongoing	BSL Name:	Rehabilitation
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

SPU operates and maintains approximately 1,423 miles of wastewater conveyance (combined and separated) pipe. Typical improvements include, but not limited to, spot or point repairs of existing sewer pipe, full dig replacement, cured-in-place pipe liners, conveyance structures replacement, and other wastewater conveyance infrastructure improvements. This ongoing program repairs, replaces, rehabilitates and renews the conveyance system by SPU crews and various contracting construction projects.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides for improvements and upgrades to the 68 SPU-owned wastewater pump stations and force mains. Typical improvements may include, but are not limited to, replacement of existing pump station assets including pumps, motors, and valves, and installation of new assets such as SCADA systems, generators, and emergency plugs. This project enhances and extends the useful life of the existing pump stations which protects water quality.

Sanitary Sewer Overflow Capacity

Project No:	MC-SU-C3804	BSL Code:	BC-SU-C380B
Project Type:	Ongoing	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program is designed to improve sanitary sewer service to Seattle customers by addressing current and projected capacity limitations of the wastewater system through capital project improvements. Such improvements may include demand management measures such as infiltration and inflow (I/I) reduction, increased conveyance capacity, and individual customer measures such as installation of backflow preventers or grinder pumps to reduce the risk that customers will experience backups of sewage into their homes and businesses during storm events.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program provides for City of Seattle participation in cleanup of contaminated sediment sites at multiple locations across Seattle for which the City's drainage and wastewater utilities may have some liability. Typical phases of such projects include preliminary studies and analyses, preliminary engineering for actual cleanup efforts, and liability allocation negotiations. This program enhances the natural environment of Seattle and addresses both State and Federal regulatory agency requirements.

Ship Canal Water Quality Project

Project No:	MC-SU-C3614	BSL Code:	BC-SU-C360B
Project Type:	Discrete	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	West Ship Canal
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2014 - 2030	Neighborhood District:	Multiple
Total Project Cost:	\$640,000	Urban Village:	Multiple

The City of Seattle (the City) has prepared a comprehensive strategy, called The Plan to Protect Seattle's Waterways (the Plan) to reduce overflows and discharge of pollutants from combined sewers and the storm drain system. The City must control sewer discharges to protect public health, the environment, to comply with the Clean Water Act, the United States District Court Consent Decree, and State regulations. On May 29, 2015, the City submitted the plan to EPA and Ecology for approval. The largest project identified in the Plan is the Ship Canal Water Quality Project. This project is a joint project between SPU and King County to design and construct a storage tunnel to capture Combined Sewer Overflows for 5 SPU outfalls and two King County outfalls. The tunnel will be 2.7 miles long and run from Wallingford to Ballard. The tunnel will be approximately 18 feet in diameter and have a storage volume of about 30 million gallons. The purpose of the project is to bring all seven outfalls into compliance with the State's control standard of one untreated overflow per year per outfall on a 20-year moving average. Note all City/County funding allocations are for informational purposes, only. Actual resource allocations will be determined through ongoing project governance agreements and interagency coordination between the City and King County.

Resources	LTD Actuals	2024 Revised	2025	2026	2027	2028	2029	2030	Total

South Park Stormwater Program

Project No:	MC-SU-C3806	BSL Code:	BC-SU-C380B
Project Type:	Discrete	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	698 S Riverside DR
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 1
Start/End Date:	2006 - 2027	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$134,876	Urban Village:	Greater Duwamish

This program constructs a pump station (PS), a water quality facility (WQF), and additional drainage conveyance in South Park. The PS will allow the existing storm drain outfall to drain the system when the tide is high and will support future drainage projects. The WQF will treat most stormwater flows from the basin, reducing pollutant loading to the Duwamish. Excessive flows will bypass the WQF and be pumped directly to the river. This program was formerly titled "South Park Pump Station."

Resources	LTD Actuals	2024 Revised	2025	2026	2027	2028	2029	2030	Total

Thornton Confluence Improvement

Project No:	MC-SU-C3811	BSL Code:	BC-SU-C380B
Project Type:	Discrete	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	Thornton Creek
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2008 - 2019	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$7,907	Urban Village:	Not in an Urban Village

This project provides creek realignment, floodplain excavation, culvert replacement, and riparian plantings at the confluence of the north and south branches of Thornton Creek. SPU has acquired a number of flood prone properties in this area over the last decade. Using these properties, this project increases culvert capacity, floodplain area and flood storage, and provides stream habitat benefits. The project will help alleviate flooding and reduce maintenance at Meadowbrook Pond.

Seattle Public Utilities

Solid Waste

Overview

Seattle Public Utilities (SPU) collects and disposes of solid waste generated within the City of Seattle. To fulfill this responsibility, the City owns and manages the following significant infrastructure:

- Two transfer stations;
- One recycling and re-use facility;
- Two household hazardous waste facilities;
- A fleet of trucks and heavy equipment; and
- Three closed landfills previously used by the City, plus assistance to Seattle Parks on two other closed landfills.

The Solid Waste Fund (SWF) Capital Improvement Plan (CIP) is the planning tool for rehabilitating, replacing, improving, and expanding infrastructure, as well as constructing projects that protect, conserve, and enhance our region's environmental resources. Planned spending in the SWF CIP is approximately \$119 million over the next six years, from 2025 through 2030.

Major anticipated projects include:

- South Transfer Station Facility Redevelopment.
- Cleanup of the historic South Park Landfill at the South Park Development Project.
- North Transfer Station Compactor Replacement.
- South Transfer Station Floor Replacement.

These projects comprise approximately 46% of the SWF CIP. Other significant projects include the Waste Removal project at the Midway Landfill, Drainage & Wastewater Improvements at the Transfer Stations, replacement of two compactors at the South Transfer Station, and SPU's annual equipment investment.

Thematic Priorities

The SWF places a high priority on managing environmental issues and addressing regulatory requirements related to current and historic solid waste facilities while protecting employees and customer health and safety.

- Managing environmental issues and regulations: SPU is required to improve former landfill sites and act as necessary when conditions change. For example, SPU monitors underground gas levels at these sites. When increased gas levels are detected, SPU implements improvements to extract excess gas or otherwise mitigate the environmental impacts. State-led improvements to Interstate 5 also requires SPU to modify landfill infrastructure in the right-of-way, as do Sound Transit projects that impact the Midway Landfill. Additionally, the new transfer stations are designed to reduce the environmental impacts of existing stations on neighboring communities.

Project Selection Criteria

SPU identifies candidate capital projects from several sources – planning (e.g., comprehensive plans, program plans), external projects and opportunities, and emergencies or other unexpected events. Under SPU's Asset Management System, projects must be justified through a business case process that establishes that a problem or opportunity is timely and important and that the proposed solution is

2025-2030 Proposed Capital Improvement Program

superior to alternatives based on a triple bottom line analysis (economic, environmental, and social) of life-cycle benefits and costs. The process also recognizes that a project may be a “must do” project (e.g., required by regulations).

Prioritization of SPU projects are based on the following set of criteria:

- **Regulatory Mandates, Legal Agreements:** The degree to which the project is driven by Federal, State, and local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties. Examples of highly ranked projects in this category include the South Park Development project and Kent Highlands and Midway Landfills programs.
- **External Drivers:** SPU’s involvement with projects led by other departments or jurisdictions, or by specific mandates of the Mayor or City Council. An example of a project in this category is the 1% for Arts program.
- **Infrastructure:** How a project addresses infrastructure conditions or vulnerabilities. An example of a highly ranked project in this category is the tipping floor replacement at the South Transfer Station.
- **Level of Service:** The importance of this project in providing or improving services to customers and neighbors. An example of a highly ranked project in this category is the replacement of two compactors at the transfer stations.
- **Other Factors:** Other important factors include high net present value or cost-effectiveness, social or environmental benefits that were not otherwise recognized, a project already in progress or near completion, limited time opportunity, demonstration projects, community visibility, or outside funding.

Every project is rated against each criterion. Criteria are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each LOB, with reviews by key internal stakeholders. The ranking scheme and criteria are the same for all LOBs and are approved by the SPU General Manager/CEO and Asset Management Committee. Project priority rankings are used to clarify and document which projects are most important and why, to help determine which projects at the margin will be included, excluded or deferred from the CIP, and which projects should receive priority attention if a staff or financial resource constraint should arise.

CIP Highlights

2025-2030 Proposed Solid Waste Fund CIP by BSL

(In '000s; total may not sum due to rounding)

Budget Summary Level	2025	2026	2027	2028	2029	2030	Total
New Facilities	21,015	16,139	16,405	11,161	15,737	1,407	81,864
Rehabilitation and Heavy Eqpt	397	807	909	409	309	554	3,385
Shared Cost Projects	8,424	5,353	2,668	2,513	2,309	2,471	23,738
Technology	1,544	1,508	1,508	1,508	1,507	1,508	9,082
Grand Total	31,380	23,806	21,490	15,591	19,863	5,939	118,069

New Facilities: This program includes the planning, design, and construction of new facilities to enhance solid waste operations. SPU will continue to implement its Solid Waste Facilities Master Plan. The key project drivers of the New Facilities budget are the South Park Development (landfill cleanup) and the South Transfer Station operational improvements projects.

Rehabilitation and Heavy Equipment: This program includes design and construction of projects that repair and/or upgrade solid waste facilities other than the transfer stations. The key drivers of this budget level are the Midway project and new funding for the Solid Waste Comprehensive Plan Update as required by the Washington State Department of Ecology.

Shared Cost Projects and Technology Projects: Projects in these BCLs are cross-funded by multiple SPU ratepayer funds. Project pages for these activities are not displayed in this section. For individual project pages, please see section “**Shared and Technology Projects.**”

For the Solid Waste CIP, a key driver within the Shared Costs BCL is heavy equipment purchases. This covers estimated fleet (trucks) and heavy equipment needs for transfer station operations.

For an overview of SPU’s **Technology** projects, please see the SPU Drainage and Wastewater overview (Technology BCL section).

CIP Revenue Sources

Much of the SWF CIP is funded through bond proceeds and current cash contributions, the mix of which is determined by SWF financial policies, the overall financial health of the SWF, and the best value and equity to ratepayers. SPU issued debt in 2014, 2015, and 2016. SPU is not planning any SWF bond issuances and will use current cash contributions and existing cash on hand to pay for the CIP. Cash contributions to construction and repayment of debt come from rate-based charges to customers whose solid waste services are handled by the City’s solid waste infrastructure and programs.

SPU also actively seeks grants, low-interest loans, and other funding sources whenever possible and prudent. The Solid Waste Utility is currently in the middle of a capital-intensive historic landfill remediation process and the South Recycling Center project. These projects are the primary drivers of CIP spending and have required rate increases for financing.

2025-2030 Proposed Capital Improvement Program

Summary of Upcoming Budget Issues and Challenges

Solid Waste faces logistical and financial issues as it reconstructs its primary facilities and addresses site cleanup efforts.

- Logistics: SWF is focusing on developing the South Recycling Center and must continue to use the site for trailer parking and household hazardous waste collection during construction.
- Financial Challenges: Developing the South Recycling Center along with site remediation efforts puts considerable short-term financial strain on the SWF. While the SWF is funding and building these major projects, it is working to address environmental stewardship by encouraging waste reduction and recycling, which results in declining demand for services.

Future Projects/What is on the Horizon

Once the South Park Landfill cleanup work and South Transfer Station operational improvements are completed, SPU will begin a thorough planning process to guide the future redevelopment of the South Transfer Station campus. The planning will take broader City needs into consideration before selecting a redevelopment scenario. Spending for the future development will be better defined over the next 3-5 years.

Kent Highlands

Project No:	MC-SU-C2402	BSL Code:	BC-SU-C240B
Project Type:	Ongoing	BSL Name:	Rehabilitation & Heavy Equipment
Project Category:	Improved Facility	Location:	Kent Highlands
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program funds compliance activities related to the Kent Highlands landfill closure project. These activities include environmental studies to demonstrate the effectiveness of the Kent Highlands landfill closure project, as well as various landfill improvements. The environmental studies are required under the existing Consent Decree with the State Department of Ecology and validate that current environmental controls are effective and reduce the likelihood of additional capital or O&M expenditures. The landfill improvements include replacement of existing flares, drainage improvements, groundwater protection, water treatment and mitigating earthquake risks associated with steep slopes.

Midway Landfill

Project No:	MC-SU-C2403	BSL Code:	BC-SU-C240B
Project Type:	Ongoing	BSL Name:	Rehabilitation & Heavy Equipment
Project Category:	Improved Facility	Location:	Kent
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program funds compliance activities related to the Midway landfill closure project. These activities include environmental studies to demonstrate the effectiveness of the Midway landfill closure project. The studies are required under the existing Consent Decree with the State Department of Ecology and validate that current environmental controls are effective and reduce the likelihood of additional capital or O&M expenditures. The flare improvements are also a regulatory requirement. To ensure that SPU maintains regulatory compliance, a smaller flare or new technology will be required as the landfill ages and methane concentrations change over time. The largest effort under this program is the Midway landfill improvement project that funds removal of waste in the WSDOT Right of Way to allow construction of two additional lanes on I-5 and the Sound Transit Federal Way Link project. This is a joint project involving Sound Transit, WSDOT and SPU it is regulated by the Department of Ecology under a Consent Decree Amendment.

Miscellaneous Station Improvement

Project No:	MC-SU-C2303	BSL Code:	BC-SU-C230B
Project Type:	Ongoing	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides modifications, upgrades, and wear replacement for the two new City Transfer Stations. The new facilities will require periodic capital upgrades and replacement to extend the useful life of these assets. Examples of this work include replacement of the wear surface on the STS tipping floor, replacement of the large refuse compactors and replacement of HVAC/Life Safety components.

Resources	LTD Actuals	2024 Revised	2025	2026	2027	2028	2029	2030	Total

North Transfer Station Rebuild

Project No:	MC-SU-C2306	BSL Code:	BC-SU-C230B
Project Type:	Discrete	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	N. 34th St.
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 4
Start/End Date:		Neighborhood District:	Lake Union
Total Project Cost:	\$111,015	Urban Village:	Not in an Urban Village

The project constructs a new North Recycling and Disposal Station to replace the existing, aging facility. The new facility will meet customer and employee needs, regulatory requirements, and waste management goals for at least the next 50 years. Safety, operational, and capacity concerns at the existing transfer station necessitate building a new facility. The new facility will benefit the public by providing reliable transfer of solid waste from the City and preventing the accumulation of waste and unsanitary conditions within the City.

South Park Development

Project No:	MC-SU-C2304	BSL Code:	BC-SU-C230B
Project Type:	Discrete	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	8100 2nd Ave S
Current Project Stage:	Stage 3 - Design	Council District:	Council District 1
Start/End Date:	2007 - 2027	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$22,377	Urban Village:	Greater Duwamish

This project studies, plans, designs and constructs remediation of the historic South Park Landfill site to minimize environmental impacts. SPU owns a portion of the site on which the landfill once operated, and was a historic operator of the landfill at one time. This project will meet the requirements of a Consent Decree with the Washington Department of Ecology for remediation of the historic South Park Landfill. This project is tied to the STS 2 project and some redesign of remedial elements will be required and along with the other scope changes mentioned previously, construction has been further delayed to 2026.

Resources	LTD Actuals	2024 Revised	2025	2026	2027	2028	2029	2030	Total

South Recycling Center

Project No:	MC-SU-C2302	BSL Code:	BC-SU-C230B
Project Type:	Discrete	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	8100 2nd AVE S
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 1
Start/End Date:	2006 - 2027	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$43,202	Urban Village:	Greater Duwamish

SPU postponed South Transfer Station phase construction and a smaller project is proceeding to complete cleanup work at the old South Park Landfill. SPU decided to postpone development plans (including the construction of the recycling facility) to allow a more holistic evaluation of future needs and job opportunities that best support our zero-waste vision. A recycling facility may still be included in the future plans, but partial development of the site at this time could severely limit what we can do in the future. The scope of the project has been reduced to only include the remediation of the South Park Landfill (required under a Consent Decree), minimal operational improvements, and a path along 5th Avenue to mitigate the street vacation at the new South Transfer Station. The reduced STS2 project will be designed during 2021-2022 and constructed in 2023.

Future site development plans will happen over the next 5 years in a parallel process.

Seattle Public Utilities

Water

Overview

SPU delivers an average of approximately 124 million gallons of drinking water per day to 1.5 million people and businesses in Seattle and 18 surrounding cities and water districts, plus the Cascade Water Alliance. The water system infrastructure includes:

- The Cedar and South Fork Tolt supply sources, including over 103,000 acres of forested land.
- Three groundwater wells.
- Two primary water treatment plants.
- 11 booster chlorination facilities.
- 325 million gallons of treated water storage.
- 30 pump stations.
- Over 1,900 miles of transmission and distribution system pipelines.
- Almost 200,000 meters and service connections.
- More than 17,000 distribution system valves.
- About 19,000 hydrants.
- Monitoring and control systems; and,
- Various buildings and other related facilities.

In addition to replacing and improving the supply, treatment, transmission and distribution systems, the Water capital program includes investments in watershed stewardship projects, Cedar River Watershed Habitat Conservation Plan implementation, water conservation programs, vehicles, heavy equipment, and technology.

Planned spending in the Water Capital Improvement Program (CIP) is \$1,030 million over the next six years. Major projects include:

- Water system improvements associated with transportation projects, including Move Seattle; East Marginal Way Heavy Haul Corridor and Roosevelt Eastlake Rapid Ride.
- Operational and Regional Facility construction.
- Seismic upgrades of the Eastside and Riverton Reservoirs, the Magnolia Tank, the Trenton Standpipe, and the Cedar River Pipeline in Renton.
- Replacing the floating cover at Bitter Lake Reservoir with a new 21 MG partially buried circular prestressed concrete tank.
- Long-term planning for the Cedar River Water Supply with Seattle City Light; and
- Relicensing the South Fork Tolt Dam under the Federal Energy Regulatory Commission with Seattle City Light.

The 2025-2030 Proposed CIP also includes ongoing core actions, such as improving distribution and transmission system infrastructure like water mains, valves, meters, steel storage tanks, and pump stations; watershed stewardship and conservation programs; and facilities, vehicles, and heavy equipment investments. In addition, it includes funding for seismic improvements to SPU's water distribution and transmission system, based on SPU's recently completed water system seismic study as well as meeting federally regulated dam safety requirements at the South Fork Tolt Dam.

SPU funds Water LOB capital projects through a combination of cash and debt financing. The primary source of cash and debt repayment funds come from the sale of water charged to retail and wholesale customers in the region.

2025-2030 Proposed Capital Improvement Program

Thematic Priorities

The overarching goal of the Water CIP is to ensure that the water system is properly maintained, upgraded, and expanded to reliably deliver high-quality, safe drinking water to customers, protect the environment, and comply with regulations. The primary themes driving the CIP in the next six years are asset preservation, health and human safety, environmental sustainability, and race and social justice.

- SPU is committed to making **asset preservation** investments to create or enhance operational efficiency. SPU uses asset management principles to determine the timing of rehabilitation or replacement of its infrastructure. Projects that fall into this category vary, ranging from water main replacement related to transportation projects to rehabilitation of steel storage facilities.
- SPU's commitment to **health and human safety** is also addressed through SPU's reservoir covering projects. Consistent with Ordinance 120899 and required by state regulators, SPU has completed replacement of its open finished drinking water reservoirs with underground structures that will improve water quality and system security. Additionally, SPU will complete construction of a new floating cover on the Lake Forest Park reservoir and will begin construction of a new partially buried concrete tank at the Bitter Lake reservoir location to replace the existing floating covers that have reached the end of their useful life. Finally, as a result of a recently completed seismic study, two reservoirs— Roosevelt and Volunteer – will remain uncovered and are disconnected from the drinking water system, filled with treated water, and available for emergency storage needs after major emergencies such as earthquakes.
- SPU is committed to **environmental sustainability**. This can best be seen in SPU's responsibilities as outlined in the 50-year Habitat Conservation Plan (HCP), an agreement between local, state, and federal agencies. The HCP seeks to ensure the long-term ecological integrity of the Cedar River Watershed, which supplies the majority of the City's drinking water. It simultaneously addresses the needs of protected wildlife species in and along the Cedar River. Investments in the regional conservation and low-income conservation programs also help in management of our natural resources, while helping customers reduce their utility bills.
- SPU is also committed to **race and social justice**. One example of this commitment is the Low-Income Water Conservation Program. This ongoing program provides water use efficiency resources to the City's low-income customers to implement water conservation measures. Typical improvements consist of installing water-efficient fixtures, primarily low water use toilets, but also faucet aerators and common-area efficient clothes washers.

Project Selection Criteria

SPU identifies candidate capital projects from several sources – planning (e.g., comprehensive plans such as the 2019 Water System Plan, program plans, and asset management plans), external projects and opportunities (such as transportation projects), and emergencies or other unexpected events. Under SPU’s Asset Management approach, projects must be justified through a business case process that establishes that a problem or opportunity is timely and important, and that the proposed solution is superior to alternatives based on a triple bottom line analysis (economic, environmental, and social) of life cycle costs and benefits. The process also recognizes that a project may be a “must do” project (e.g., required by regulation). Projects may also be externally driven. Typically, SPU lacks control over the timing of externally driven projects.

SPU prioritizes capital projects across three tiers, Priorities 1, 2 and 3, with 1 being the most important and critical.

Priority rankings are based on the following set of criteria:

- **Regulatory Mandates, Legal Agreements:** The degree to which a project is driven by federal, state, and local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties. Examples of highly ranked projects in this category include the reservoir covering programs, the Cedar River Habitat Conservation Program, and the South Fork Tolt relicensing project.
- **External Drivers:** SPU’s responsiveness to, or engagement with, projects of other Departments or Jurisdictions, and the specific mandates of the City Council and Mayor. Examples of highly ranked projects in this category include SR 520 Rest of the West phase and Roosevelt Eastlake Rapid Ride.
- **Infrastructure:** How a project addresses infrastructure conditions or vulnerabilities. Examples of highly ranked projects in this category include the Watermain Rehabilitation, Distribution System Improvements and Tank Improvements programs.
- **Level of Service:** The importance of a project in providing or improving services to customers. Examples of highly ranked projects in this category include the Water Infrastructure – New Taps and Service Renewals programs.
- **Other Factors:** Other important factors include high net present value or cost-effectiveness, social or environmental benefits not otherwise captured, a project already in progress or near completion, limited time opportunity, demonstration projects, community visibility, or outside funding.

Every project is rated against each criterion. Criteria ratings are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each Line of Business (LOB), with review by key internal stakeholders. The ranking scheme and criteria are the same for all LOBs and are approved by the SPU GM/CEO, Asset Management Committee and/or Capital Improvement Plan Board. In addition, regional projects that are cost shared with SPU’s wholesale customers are vetted annually through the Seattle

Water System Operating Board, which is a board of representatives who have certain limited authority over policy and operational matters as they affect the Seattle Regional Water Supply System. Project priority rankings are used to clarify and document which projects are most important (and why), to help determine which projects at the margin will be included or excluded (or deferred) from the CIP, and which projects should receive priority attention if a staff or financial resource constraint should arise.

CIP Spending by Major Category

(In '000s; total may not sum due to rounding)

Water Fund	2025	2026	2027	2028	2029	2030	Total
Distribution	53,469	65,719	81,717	69,499	72,091	86,119	428,616
Transmission	11,915	25,266	28,567	43,779	31,320	26,355	167,202
Watershed Stewardship	2,878	4,956	1,853	2,233	2,731	1,062	15,713
Water Quality & Treatment	1,426	10,237	22,680	23,274	32,785	1,888	92,291
Water Resources	19,511	15,271	11,882	8,842	9,636	20,595	85,736
Habitat Conservation Program	1,571	5,738	4,081	2,972	1,195	649	16,207
Shared Cost Projects	53,232	39,807	25,299	20,502	34,680	23,960	197,480
Technology	5,534	4,221	4,221	4,221	4,221	4,221	26,639
Grand Total	149,537	171,215	180,301	175,322	188,659	164,849	1,029,883

Distribution: Projects and programs in this category relate to rehabilitation and improvements to the City's water mains and appurtenances, water storage tanks, pump stations, and other facilities that are part of the system that distributes treated water throughout the City of Seattle and to retail customers outside of the City.

Decreases in the **Distribution BCL** in 2025 relative to the 2024-2029 CIP are primarily due to shifting watermain rehabilitation projects to later years in the 6-year capital plan.

Transmission: The purpose of this program category is to rehabilitate and improve the City's large transmission pipelines that bring untreated water to the treatment facilities and convey treated water from the treatment facilities to Seattle and to other local utilities that purchase a portion of SPU's supply for their customers.

Transmission BCL in 2025 is stable. Increases in 2025-2029 are caused by initiation of the new transmission system seismic improvements program.

2025-2030 Proposed Capital Improvement Program

Watershed Stewardship: Projects and programs in this category improve protection of our sources of drinking water, provide habitat protection and restoration, sustain the environment, and enhance environmental quality, both locally and regionally. Most of the projects in this program category are located within the Cedar and Tolt River municipal watersheds.

- The Cedar River Municipal Watershed is 90,638 acres of land owned by the City of Seattle and provides about 65% of the drinking water used by 1.5 million people in the greater Seattle area supplied by SPU. The City of Seattle is required by law to maintain a clean drinking water supply. To that end, the City restricts public access and management is guided by a Habitat Conservation Plan. The Cedar River Watershed is an unfiltered surface water supply which produces some of the best water in the world.
- The South Fork Tolt River Watershed is the second supply watershed in SPU's freshwater supply system and provides roughly 35% of SPU's drinking water supply. Located in the foothills of the Cascades in east King County, it first came on-line in 1964, and since 1989 has also supported a small Seattle City Light hydro-electric facility. The South Fork Tolt Municipal Watershed is approximately 12,000 acres, two-thirds of which are owned and managed by the City of Seattle. The Tolt Treatment Facilities, which includes filtration, can provide up to 120 million gallons of drinking water per day.

Increases in the **Watershed Stewardship BCL** in 2025 are primarily due to delays to replace failing culverts with larger fish passable culverts at road crossings in the South Fork Tolt Watershed. The new crossings will satisfy State regulatory requirements for fish passage. In addition to providing fish passage, this program will reduce the potential for excessive sedimentation, catastrophic infrastructure (i.e. forest road) failure, and impacts to drinking water quality.

Water Quality and Treatment: The purpose of this program category is to construct, rehabilitate or improve water treatment facilities, and cover the remaining open water reservoirs. State and federal drinking water regulations and public health protection are key drivers of investments in this program category. To comply with regulations, SPU has invested hundreds of millions of dollars in building two new primary treatment facilities and covering two and burying five reservoirs that contain already treated water that is distributed directly to Seattle retail and wholesale customers for drinking purposes.

The focus in the **Water Quality & Treatment BCL** is completion of the Lake Forest Park Reservoir floating cover replacement, and in later CIP years, the Bitter Lake Reservoir Project. The plan for the Bitter Lake Reservoir is construction of a new 21 MG partially buried circular prestressed concrete tank instead of the new floating cover previously considered. Construction of the Lake Forest Park Reservoir replacement cover was completed in 2022, and the Bitter Lake Reservoir Project is targeted to begin construction in 2026.

Water Resources: The purpose of this program category is to manage our water resources to meet anticipated demands and in-stream flow requirements – the amount of water provided to the river to support aquatic habitat, wetlands, riparian vegetation, and water quality – and to promote residential and commercial water conservation. The requirements for in-stream flows are detailed in agreements with state and federal agencies and include provisions for minimum stream flows in the Cedar and South Fork Tolt Rivers. Examples of the types of projects in this category include the Dam Safety Program,

Sockeye Broodstock Weir and other improvements associated with the hatchery and fish ladder, and relicensing of the South Fork Tolt Dam to secure ongoing operations of that water supply source.

Increases in the **Water Resources BCL** in 2025 are due to dam safety projects such as the Tolt Early Warning System Upgrade and Tolt Debris Boom, which are both required to comply with the Federal Energy Regulatory Commission (FERC). Increases in outyears of the 6-year CIP are also due to FERC relicensing requirements at the South Fork Tolt Dam, on which SPU will be partnering with Seattle City Light.

Habitat Conservation Program: This program category includes projects and programs directly related to implementation of the Cedar River Watershed Habitat Conservation Plan. The Habitat Conservation Plan benefits the utility and ratepayers by providing legal certainty under the Endangered Species Act for the City’s continued operations within the Cedar River Watershed. The Habitat Conservation Program requires SPU to invest \$100 million over 50 years, with \$60 million in the first decade, on approximately 30 capital projects and 60 O&M activities in three areas: management of in-stream flows for people and fish, forest and land conservation activities, and mitigation for the blockage of salmon and steelhead fish as they return to the Cedar River to spawn. The Water Fund’s CIP projects in this area are grouped into eight categories: road improvements and decommissioning, stream and riparian restoration, upland forest restoration, Landsburg fish passage, Cedar River sockeye hatchery, improvements to the Ballard Locks for fish passage and water conservation, fish habitat protection and restoration in the lower Cedar River below the municipal watershed boundary, and evaluation of Cedar Permanent Dead Storage in Chester Morse Lake.

Increases in the **Habitat Conservation Program BCL** in 2025 are tied to the Downstream Fish Habitat Program in the implementation of stream restoration projects in close coordination with King County. Decreases in 2025-2029 are the result of the transitioning of the that Program along with watershed road decommissioning and fish passage programs to the Watershed Stewardship BCL (see notes under C130 – Watershed Stewardship). These programs were previously all under the City’s Cedar River Habitat Conservation Program (HCP) and are close to meeting the City’s commitments in these program areas.

Shared Cost Projects and Technology Projects: Projects in these BCLs are cross-funded by multiple SPU ratepayer funds. Project pages for these activities are not displayed in this section. For individual project pages, please see section “**Shared and Technology Projects.**”

For the Water Line of Business, key **Shared Cost Projects** include Move Seattle, Alaskan Way Viaduct and Seawall Replacement, and Heavy Equipment Purchases.

Changes to the Shared Cost Projects BCL for Water since the 2024-2029 CIP are primarily due shifting timelines for the East Marginal Way Heavy Haul Corridor and the Roosevelt Eastlake Rapid Ride which shift projected spending beyond the scope of this 6-year CIP. Heavy equipment purchases to modernize SPU’s fleet also contribute to increases.

For an overview of SPU’s **Technology** projects, please see the SPU Drainage and Wastewater overview (Technology BCL section).

CIP Revenue Sources

2025-2030 Proposed Capital Improvement Program

SPU's Water CIP is funded largely by Water ratepayers. About 75% of the Water Fund's Operating revenues come from retail ratepayers, split approximately evenly between residential and commercial customers. Another 20% of the Water Fund's overall revenues come from wholesale purveyors who serve surrounding jurisdictions. The remaining 5% consists of non-rate revenue, which include such items as tap fees received. SPU issues bonds, serviced by ratepayers, which in the current period covers 60% of the CIP, with the remainder funded by available cash, including rate payer revenue.

SPU actively seeks grants, low interest loans, and other funding sources whenever possible. And, as mentioned above, SPU also receives payments from developers that are intended to offset the cost of installing new taps when they connect newly constructed buildings to SPU watermain. These "tap fees" are a volatile revenue source, trending with the construction-related sectors of the economy.

Summary of Upcoming Budget Issues and Challenges

These important issues create financial challenges and opportunities for the Water Fund in the future.

Water Conservation: The City of Seattle, Seattle residents and businesses, and Seattle's wholesale water partners have worked together to reduce water consumption. As a result, consumption has declined since the 1980's and is projected to flatten out. In 2021, consumption was 30% below the peak of 1984, despite serving a larger population. Seattle currently has some of the lowest per capita water consumption in the nation. While this accomplishment helps contribute to a sustainable future for the region, it puts financial pressure on the utility because fixed costs, including the costs of the CIP, need to be distributed across fewer units of water sold. This trend also puts pressure on SPU management and employees to deliver services as efficiently as possible. In the future, it may also influence water rate design.

Transitioning from Major Projects toward Asset Management: The Water Fund is transitioning from a period of building large capital projects, in response to regulatory requirements, to a time of physical infrastructure rehabilitation. Past investments include water treatment facilities for the Tolt and Cedar water supplies, coverings for seven open reservoirs in response to federal/state regulations, construction of a second pipeline for the Tolt system, and investments to meet federal requirements embodied in the Cedar River Watershed Habitat Conservation Plan. These investments helped secure the supply and distribution of high-quality drinking water and provide appropriate stewardship of the watersheds consistent with federal and state requirements.

The City of Seattle is now better positioned than many water utilities in the nation in terms of regulatory compliance. Residents, businesses and rate payers will benefit from these investments for years to come. Although the focus will shift from major projects to physical infrastructure rehabilitation, the utility will be paying debt service over the next several budget cycles on the bonds that were issued for these major projects. Against the backdrop of these trends, the 2023-2028 Water CIP has been developed to:

- Provide for water system modifications associated with various Seattle and regional transportation projects.
- Recognize the need to invest in the water system's resiliency in a major earthquake event and continue with strategic investments to reduce risk.

2025-2030 Proposed Capital Improvement Program

- Preserve the transmission and distribution systems through careful investment in aging infrastructure renewal,
- Provide stewardship of the watersheds, to ensure a reliable source of high-quality drinking water.
- Comply with federal and state regulations governing water quality, system reliability, and habitat protection in the watersheds in which SPU operates; and
- Prioritize projects to deliver on infrastructure and regulatory requirements within the limited resources of the Water Fund.

Future Projects/What is on the Horizon

The Water CIP has completed a multi-decade period of investments in major infrastructure projects. These projects have positioned SPU to meet drinking water quality and environmental regulations. Projects have included the Tolt and Cedar Water Treatment Facilities, Tolt Pipeline 2, Reservoir Covering Program, the Cedar River Watershed HCP, the Chester Morse Lake Pump Plant Project, and a new Water Quality Laboratory. SPU has also made a major reinvestment in the Supervisory Control and Data Acquisition System which is used to monitor and control the regional and retail water system. However, these investments have also led to increasing debt service payments that constrain future budgets.

The 6-year CIP funds the work to invest in critical projects allowing continued reliable service of drinking water to the region’s 1.5 million customers. Emphasis will be on asset management-based rehabilitation and replacement of distribution system infrastructure (e.g., mains, valves, hydrants, meters), as well as water system infrastructure improvements related to transportation projects, such as the Move Seattle Levy, seismic upgrades for critical infrastructure following the 2018 water system seismic study, and dam safety projects.

Ballard Locks Improvements

Project No:	MC-SU-C1606	BSL Code:	BC-SU-C160B
Project Type:	Discrete	BSL Name:	Habitat Conservation Program
Project Category:	Improved Facility	Location:	NW 54th St 30th Ave NW
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 6
Start/End Date:	2000 - 2025	Neighborhood District:	Ballard
Total Project Cost:	\$603	Urban Village:	Ballard-Interbay Northend

This project provides improvements at the Ballard Locks to upgrade conditions for salmon. Improvements are focused on conserving the amount of freshwater needed to operate the locks to reduce the demand for freshwater from the Cedar River and increase the availability of freshwater for salmon. This project is a requirement of the Cedar River Habitat Conservation Plan (HCP).

Cathodic Protection

Project No:	MC-SU-C1208	BSL Code:	BC-SU-C120B
Project Type:	Ongoing	BSL Name:	Transmission
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program installs corrosion protection systems that prevent external corrosion of water transmission pipelines located in Seattle and throughout King County. The cathodic protection systems extend the life of buried pipelines made of ductile iron, steel, and concrete cylinder pipe.

Resources	LTD Actuals	2024 Revised	2025	2026	2027	2028	2029	2030	Total

Cedar Bridges

Project No:	MC-SU-C1307	BSL Code:	BC-SU-C130B
Project Type:	Ongoing	BSL Name:	Watershed Stewardship
Project Category:	Improved Facility	Location:	Cedar River Watershed
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program replaces aging bridges and related structures, such as abutments, asphalt approaches, and guardrails in the Cedar River Watershed. This project improves aging bridge assets on priority roads in the watershed transportation system to provide City employees, City contractors, and visitors with safe and adequate access to City water supply and hydroelectric assets while minimizing and reducing environmental impacts over time. Work in this program area also maintains compliance with state laws, safety and environmental regulations, and tribal access agreements including Washington Department of Natural Resources (WDNR) forest practice regulations, and Washington Department of Health (DOH) Watershed Protection Plan regulations.

Resources	LTD Actuals	2024 Revised	2025	2026	2027	2028	2029	2030	Total

Dam Safety

Project No:	MC-SU-C1506	BSL Code:	BC-SU-C150B
Project Type:	Ongoing	BSL Name:	Water Resources
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program maintains the safety of SPU's water supply dams in the Cedar River and South Fork Tolt River Municipal Watersheds and the in-town reservoir dams. Typical improvements may include, but are not limited to, upgrades to the dams' failure warning systems, spillways, outlet works, piping, and other civil, mechanical, and structural systems. This program ensures the continuing safe functioning, operation and monitoring of SPU's water supply dams and associated facilities per Federal Energy Regulatory Commission (FERC), state and local regulations, and SPU requirements to prevent loss of life and/or property damage and loss of SPU's ability to deliver reliable drinking water supply to its customers.

Distribution Infrastructure

Project No:	MC-SU-C1138	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides funding for modifications and relocations of existing Distribution System assets resulting from third party project impacts to Distribution System infrastructure located in the right-of-way or on public property. The costs are recovered from third parties and primarily other public utilities and agencies through Memorandums of Agreement and standard charges. This program covers all Distribution System modifications and relocations that are funded by third parties excluding Water main Extension project projects. The benefit of this project is accommodation of third party development by relocating or modifying existing Distribution System infrastructure, while retaining a Distribution System that continues to provide cost effective service to the ratepayer.

Distribution System Improvements

Project No:	MC-SU-C1128	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program improves service reliability, pressure, capacity, and fire flow in the City's water distribution system. Typical improvements may include, but are not limited to, booster pump station installation, creation of new service zones, and tank elevation or replacement, as well as additional water main pipelines and pressure reducing valves. These improvements to service levels meet Washington Department of Health (DOH) regulations and SPU's Distribution System Pressure Policy to provide greater than 20 psi service pressure. These improvements provide higher flow of water for fire protection which improves public safety and results in smaller and shorter fires.

Distribution System In-Line Gate Valve

Project No:	MC-SU-C1136	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program replaces line valves in the water distribution system throughout the City of Seattle that fail or are obsolete due to age or lack of replacement parts. The replacement of these gate valves extends the useful life of the water main and restores the performance of the water distribution system. This ongoing program also adds valves within the system to enhance system performance, enhance operational control, and reduce the number of customers whose service is interrupted during a water main shut down.

Distribution System Seismic Improvements

Project No:	MC-SU-C1139	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program upgrade critical distribution facilities that are seismically vulnerable and will remain functional after a major earthquake. Facilities that will be upgraded include water storage reservoirs and tanks, pump stations, pipelines and support facilities. The upgrades are scheduled to occur over a 50-year plus time frame.

Downstream Fish Habitat

Project No:	MC-SU-C1607	BSL Code:	BC-SU-C160B
Project Type:	Discrete	BSL Name:	Habitat Conservation Program
Project Category:	Improved Facility	Location:	Cedar River Watershed
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2008 - 2026	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$23,937	Urban Village:	Not in an Urban Village

This project provides protection and restoration of fish habitat along the lower Cedar River, below the City's municipal watershed boundary at the Landsburg Dam and includes both acquisition of habitat lands and habitat restoration on the main stem of the Cedar River. This project is a requirement of the Cedar River Habitat Conservation Plan (HCP).

Instream Flow Management Studies

Project No:	MC-SU-C1608	BSL Code:	BC-SU-C160B
Project Type:	Ongoing	BSL Name:	Habitat Conservation Program
Project Category:	Improved Facility	Location:	Cedar River Watershed
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program provides research and monitoring to examine the effects of instream flows on salmon species in the Cedar River. This ongoing program monitors flow compliance, verifies accretion flows downstream of Landsburg, improves flow-switching criteria, and develops a better understanding of relationships between stream flow and aquatic habitat. This ongoing program is a requirement of the Cedar River Habitat Conservation Plan (HCP).

Regional Water Conservation

Project No:	MC-SU-C1504	BSL Code:	BC-SU-C150B
Project Type:	Ongoing	BSL Name:	Water Resources
Project Category:	Improved Facility	Location:	Citywide and Regional
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides customer incentives for residential, commercial, institutional, and industrial water efficiency capital improvements. Typical examples include, but are not limited to, water efficient toilets and urinals, clothes washers, landscape irrigation devices, upgrades in industrial process water, and replacing water-cooled equipment with air-cooled versions. The program benefits both existing and future ratepayers. Water conservation provides low-cost options for meeting potential challenges from climate change, managing Seattle's drinking water resources, and customer efficiency and potential cost savings on water bills.

Seattle Direct Water Conservation

Project No:	MC-SU-C1505	BSL Code:	BC-SU-C150B
Project Type:	Ongoing	BSL Name:	Water Resources
Project Category:	Improved Facility	Location:	Citywide and Direct Service
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides water use efficiency resources to the City's low-income customers to implement water conservation measures authorized by Ordinance 120532, adopted in 2001, and supplements funding provided under SPU's Regional Water Conservation project (C1504). Typical improvements consist of, but are not limited to, installing water-efficient fixtures, such as aerating showerheads and faucets, low water use toilets and efficient clothes washers.

Stream & Riparian Restoration

Project No:	MC-SU-C1602	BSL Code:	BC-SU-C160B
Project Type:	Ongoing	BSL Name:	Habitat Conservation Program
Project Category:	Improved Facility	Location:	Cedar River Watershed
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program provides stream and riparian restoration in the Cedar River Watershed, including large woody debris placement, riparian conifer under-planting, and culvert replacement for fish passage and peak storm flows. This program is a requirement under the Cedar River Habitat Conservation Plan (HCP).

Tank Improvements

Project No:	MC-SU-C1134	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program implements water quality, seismic, and other improvements to steel water tanks in Seattle. Functional water tanks are essential to public health protection as they assure that the distribution system is under pressure at all times, even when pump stations or control valves malfunction. Depressurization of the water system may result in siphoning back contaminants from faulty private systems and from the ground into the water pipes.

Tolt Bridges

Project No:	MC-SU-C1308	BSL Code:	BC-SU-C130B
Project Type:	Ongoing	BSL Name:	Watershed Stewardship
Project Category:	Improved Facility	Location:	Tolt River Watershed
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	2004 - 2020	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project replaces aging bridges and related structures, such as abutments, asphalt approaches, and guardrails in the Cedar River Watershed. This project improves aging bridge assets on priority roads in the watershed transportation system to provide City employees, City contractors, and visitors with safe and adequate access to City water supply and hydroelectric assets while minimizing and reducing environmental impacts over time. Work in this project also maintains compliance with state laws, safety and environmental regulations, and tribal access agreements including Washington Department of Natural Resources (WDNR) forest practice regulations, and Washington Department of Health (DOH) Watershed Protection Plan regulations.

Water Infrastructure-Hydrant Replace/Relocate

Project No:	MC-SU-C1110	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program renews or replaces existing hydrants in the City's water distribution system. In general, hydrant renewal or replacement may occur as a result of hydrant malfunction, catastrophic failure due to vehicle damage, or to meet SPU criticality criteria such as spacing, location, cost, opportunity projects, or flow and pressure problems. This program improves access to fire hydrants for the Seattle Fire Department (SFD) and helps to reduce the damage as a result of fire by locating fire hydrants in alternate or additional locations.

Water Infrastructure-New Hydrants

Project No:	MC-SU-C1112	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program installs new hydrants in the City's water distribution system. In general, new hydrants are installed to meet service requests made by private property owners and to comply with Washington Administrative Code (WAC) or Seattle Fire Department (SFD) requirements. This program also helps to reduce the damage as a result of fire by locating new fire hydrants throughout the City's direct service area.

Water Infrastructure-New Taps

Project No:	MC-SU-C1113	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program installs new drinking water services throughout the City of Seattle. This project provides new connections to existing water mains with no interruption of service to adjacent existing customers, and the installation of metered water service lines from the new tap to the new customer's property lines. This program meets City responsibility for new service connections in the Seattle Municipal Code (SMC) to provide reliable drinking water supply to customers.

Water Supply Flexibility Program

Project No:	MC-SU-C1507	BSL Code:	BC-SU-C150B
Project Type:	Ongoing	BSL Name:	Water Resources
Project Category:	New Investment	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program improves water system performance, reliability, and flexibility during severe weather events, supply and infrastructure emergencies, as well as enhancing environmental performance for fish and supporting regulatory and policy compliance in these areas. Project improvements include Tolt Reservoir Temperature and the Overflow Dike in Chester Morse Lake, and may include but are not limited to, dam integrity and alternatives to improved crest control, reservoir water temperature, and water quality management. In addition, the S. Fork Tolt Dam is up for relicensing under the Federal Energy Regulatory Commission (FERC), which expires July 19, 2029. The relicensing process will take 5-7 years depending on the relicensing approach taken with Seattle City Light and FERC. Seattle City Light is the Tolt Dam license holder and will lead the relicensing effort but significant support from SPU is anticipated. Both utilities (SPU/SCL) are establishing CIP numbers budgeted for the relicensing process.

Watermain Rehabilitation

Project No:	MC-SU-C1129	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Regional
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program replaces or rehabilitates existing water mains in Seattle. Replacements occur when leaks and breaks become too frequent and the cost of ongoing repairs is no longer cost effective. The benefits of this program can include improved service reliability, fire flow, water quality and lower maintenance costs. These benefits vary depending on the specific water main and site conditions.

Watershed Road Improvements/Decommissioning

Project No:	MC-SU-C1601	BSL Code:	BC-SU-C160B
Project Type:	Ongoing	BSL Name:	Habitat Conservation Program
Project Category:	Improved Facility	Location:	Cedar River Watershed
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program provides forest road improvements and decommissioning in the Cedar River Watershed. The purpose of this program is to reduce the delivery of sediment into the waterways in the watershed to protect both aquatic habitat and water quality. This program is a requirement under the Cedar River Watershed Habitat Conservation Plan (HCP).

Seattle Public Utilities

Shared & Technology Projects

1% for Arts

Project No:	MC-SU-C4118	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	New Investment	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding for Seattle Public Utilities' 1% for Arts contribution. Eligibility is determined at the individual project level with payment occurring from this project. Funds contributed to the 1% for Arts project allow for the commission, purchase, and installation of art on City-owned properties that is accessible to the public. The Municipal Arts Plan, which is prepared annually, describes the status of ongoing art projects and establishes the scope of work and allocations for new art projects.

Alaskan Way Viaduct & Seawall Replacement Program

Project No:	MC-SU-C4102	BSL Code:	BC-SU-C410B
Project Type:	Discrete	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2001 - 2027	Neighborhood District:	Multiple
Total Project Cost:	\$87,522	Urban Village:	Multiple

This project relocates, replaces, and protects water infrastructure affected by the replacement of the Alaskan Way Viaduct and Seawall. This project encompasses many sub-projects which are collectively known as the Alaskan Way Viaduct and Seawall Replacement project (AWVSR project). The Washington State Department of Transportation (WSDOT) is the lead for the SR-99 replacement, while the City of Seattle is the lead on development of the waterfront public space, implementation of the new surface Alaskan Way, and design and construction of the seawall.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides applications, upgrades and data management tools in support of SPU's work and asset management projects. This project includes a planned upgrade to Maximo, as well as work required to include new asset categories to be managed in the system including facilities and Solid Waste LOB assets. Several new and updated technology solutions designed to enhance the efficiency and effectiveness of drinking water, sewer, drainage, and solid waste operations are planned. Activities within this project aim to further enhance safety and improve responsiveness of SPU's utility operations.

Heavy Equipment Purchases

Project No:	MC-SU-C4116	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	New Investment	Location:	Various
Current Project Stage:	N/A	Council District:	Not Applicable
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides SPU staff with new and replacement heavy equipment required by SPU crews to perform their work. This equipment transports work crews and tools to job sites and supports the safe and efficient replacement, repair, and maintenance of infrastructures. It also build the infrastructure and telematics system needed to implement a fleet of electric vehicles to reduce SPU's use of fossil fuels and support the City's Drive Clean Seattle Fleet initiative.

Integrated Control Monitoring Program

Project No:	MC-SU-C4108	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Not Applicable
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides for electronic and mechanical system upgrades as required at various City facilities. The drinking water Supervisory Control and Data Acquisition (SCADA) system was installed in 2005 throughout King County. System components include, but are not limited to, treatment/flow/pressure sensors, remote control pumps/valves used in the conveyance and quality of drinking water and the delivery of water to fire hydrants, also known as "fire flow". The project also provides engineering design and civil construction at drainage and wastewater infrastructure monitoring sites. The data produced at these sites is used by operations to predetermine combined sewer overflows (CSO) and engineering modeling and forecasting. The improvements supplied by this project decrease CSO violations in compliance with the City's NPDES (National Pollutant Discharge Elimination System) permit. Typical improvements include trenching and conduit from power/Telco pole to above ground SCADA cabinet to field monitoring instrumentation. This work will occur at 150 CSS sites.

Meter Replacement

Project No:	MC-SU-C4101	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds replacement of existing water meters when they fail or become obsolete. Meters measuring up to two inches are replaced when they stop running. Meters measuring three inches or more are repaired when possible, but are replaced when repair costs exceed replacement costs. Accurate water meters ensure that customers are billed fairly for the water they use. Since water meters also are used to bill customers for their wastewater discharges, 48 percent of the funding is allocated to the Drainage and Wastewater line of business.

Move Seattle

Project No:	MC-SU-C4119	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds assessments, repairs, and improvements to SPU's utility infrastructure at sites prioritized by regional transportation agencies for mobility improvements. The majority of the projects are Seattle Department of Transportation (SDOT) led, but may also include transportation agency work with implementation led by others. Mobility improvements include bridge, roadway, and pedestrian and bicycle safety improvements. SPU assesses the condition of its utility infrastructure at the transportation project sites and either integrates improvement needs into the agency led project construction documents, or directly implements repairs and improvements. SDOT prioritization and funding of sites has been primarily through transportation levy's including "Move Seattle" and "Bridging the Gap Program".

Operational Facility - Construction

Project No:	MC-SU-C4106	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing facilities project renovates, rehabilitates, replaces existing buildings, and constructs new facilities at various locations within the city limits to address deficiencies, failures, and functional changes in the SPU Lines of Business. Land acquisition is included for priority areas identified in the Facilities Master Plan. Typical improvements include, but are not limited to, roof replacements, exterior wall or cladding replacements, and improvements to administrative office space, crew and shop space, lighting, heating and ventilation systems, and facilities structures. These improvements increase the useful life of the facilities, preserve the value of the assets, and provide a safe working environment.

Operations Control Center

Project No:	MC-SU-C4105	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	2700 Airport Way South
Current Project Stage:	N/A	Council District:	Council District 2
Start/End Date:	N/A	Neighborhood District:	Greater Duwamish
Total Project Cost:	N/A	Urban Village:	Greater Duwamish

This ongoing facilities project renovates, rehabilitates, replaces existing buildings, and constructs new facilities at the Operations Control Center located at 2700 Airport Way South to improve the efficiency and effectiveness of the field crews delivering utility services to customers. Typical improvements include, but are not limited to, roof and other exterior replacements, improvements to public spaces, office and crew spaces and lighting, and heating and ventilation systems. These improvements increase the useful life of the facility, preserve the value of the asset, and provide a safe work and public space environment.

This ongoing project funds projects that mitigate undesirable impacts and take advantage of opportunities generated by Washington State Department of Transportation (WSDOT) capital improvement projects on highways throughout the City, but excluding the Central Waterfront (which is held within C4102) . Work may include, but is not limited to, physically protecting the infrastructure during the transportation construction process, repairing and replacing damaged infrastructure, and improving existing infrastructure to meet higher standards. Project sites include State Route 520.

This ongoing project provides technology applications and application upgrades in support of improvements to project delivery and performance. In 2024 we completed development of an Enterprise Project Management System, replacement of the Engineering Support Contract Payments system, and SPU's share of costs for the City's central financial system upgrades. Future projects may include development of new Enterprise Resource Planning systems such as HR provisioning and financial reporting. This project will result in an improved ability to plan and deliver projects on schedule and within budget.

This ongoing project will provide new and improved technology applications and accompanying data management tools to support the gathering, monitoring, tracking and analysis of science and engineering information. Several planned projects include replacement of obsolete regulatory compliance tracking applications, upgrading the Water Quality Lab Information Systems, upgrades to field monitoring equipment, and the integration of SCADA data with other data systems. This project enhances SPU's ability to control water quality and comply with environmental and health regulations.

Finance and Administrative Services

Overview

The Finance and Administrative Services (FAS) Capital Improvement Program (CIP) is the department's blueprint for planning, replacing, maintaining, remodeling and upgrading FAS-managed facilities and IT infrastructure. These assets are used by City departments and certain nonprofit organizations that serve the public to deliver critical services to Seattle residents.

FAS' proposed CIP includes appropriations for ongoing capital programs and discrete, one-time capital projects with multi-year durations. Multi-year projects are identified by multiple priorities, including City goals (e.g., greenhouse gas reduction, public safety, improved ADA access), code compliance, severity of system deficiencies and impact to tenant department operations. Planned schedules and funding commitments for these types of multi-year projects are typically made every year in conjunction with the annual budget process. The six-year FAS 2025-2030 CIP includes approximately \$217.5million in funding for new and existing projects and programs.

Thematic Priorities

FAS is responsible for the operation and maintenance of approximately 3.2 million square feet of building space throughout the city, including municipal courts, police and fire facilities, shops and fleet maintenance facilities, high-rise office space in the civic core, parking garages and some of the City's community-based public service facilities. FAS' capital investments either improve or enhance the operational capacity of these mission-critical facilities and systems. FAS' CIP addresses the following priorities:

- **Life and safety issues** – High priority is given to projects intended to ensure continuity of service at facilities that provide emergency or other essential services (e.g., replacing generators near the end of their useful lives at essential facilities such as police or fire stations); projects that mitigate potential threats to human life and safety, such as mold and lead abatement; and structural failures and other hazardous conditions in building interiors.
- **Federal, state and local requirements** – FAS must consider regulatory requirements in assessing capital needs when replacing existing, failing systems in FAS-managed facilities. One example is the Washington Administrative Code requirement to upgrade fire alarm panels and install fire sprinklers when substantial alterations are made while upgrading or modernizing an existing building. Substantial alterations may also require facility improvements mandated by the Americans with Disabilities Act (ADA), which meet the City's dual goals of compliance with federal requirements and provision of equitable access.
- **Race and Social Justice Initiative (RSJI)** – FAS manages the City's Women- and Minority-owned Business (WMBE) Program and integrates the City's social equity contracting requirements into all aspects of the execution of CIP projects. WMBE vendors, construction contractors and subcontractors may be contracted for design and construction work, furthering the City's goal to promote contracting with WMBE businesses. FAS develops and works within inclusion plan guidelines for consultant, contracting and purchasing work. Additionally, FAS utilizes Priority Hire, a community workforce agreement (CWA) and apprenticeship rule for construction contracts over \$5 million to further FAS' compliance with the City's RSJI objectives.
- **Sustainability** – Several City sustainability policies, the Seattle building codes and new City and State clean building regulations guide FAS to focus on reducing environmental impacts from owning and

operating City buildings and vehicles. Efforts focus on cost-effective measures to reduce energy use while shifting away from fossil fuels. FAS will continue to address new sustainability efforts, such as the “Green Fleet Action Plan” and pathways towards compliance with the City of Seattle Building Emissions Performance Standard by proposing additional projects to reduce energy use and greenhouse gas emissions.

- **Asset preservation** – As authorized in Ordinance 121642, FAS dedicates annual funding in the CIP to support the replacement of existing building systems, guided by strict policies to ensure those funds are used exclusively to preserve, extend, or replace failing and existing components such as roofs, windows, structures, electrical capacity, boilers, or other systems at the end of their useful lives.

Aligning Capital Investments with Growth and/or Community Planning

FAS’ 2025-2030 adopted CIP focuses primarily on preserving existing City assets, decarbonizing building systems and expanding electric vehicle (EV) charging infrastructure for the City fleet. The FAS Asset Preservation Program spans across the city to preserve the real property assets within communities. EV and decarbonization investments are critical to achieving the City’s transportation electrification strategy and emissions reduction goals. FAS’ CIP also demonstrates a commitment to support the operational growth and capacity challenges of our public safety departments; this includes the Fire Station 31 replacement and multiple smaller projects supporting fire and police facilities.

Project Selection Criteria

For projects to be considered for inclusion in the FAS CIP, they must fit the priority themes above and adhere to the capital and asset preservation policies adopted in Resolution 31203. Projects typically fall into two categories: projects that improve or enhance operational effectiveness or projects that preserve the City’s capital assets. FAS solicits requests from its tenant departments for facilities related projects that create or enhance operational effectiveness, vets them for timeliness and appropriateness and evaluates each request on its own merit. FAS also seeks Executive direction regarding projects that increase departments’ operational capacity and other areas of opportunity to consider when planning the City’s CIP priorities.

Asset preservation work is planned on a six-year cycle and evaluated for specific project development and execution. Every year, FAS revises the list of facility asset preservation projects that must be addressed. This list is compiled from asset management data generated by building condition assessments, energy audits, performance metrics and other capital planning studies. Elements that extend the useful life of improvements, increase tenant comfort and reduce utility bills are integrated into existing projects where feasible. The last Facility Condition Assessment report, published in 2020, indicated a need of \$70 million in 2025, growing to \$400 million by 2050 for asset preservation. The Proposed CIP includes \$62.4 million for asset preservation from 2025-2030.

2025-2030 CIP Highlights:

FAS’ 2025-2030 Proposed CIP includes new critical investments, endorsed ongoing programs and funding adjustments over six years, focusing on asset preservation of FAS properties and infrastructure, and improvements to public safety facilities. Below are specific programs and discrete capital projects with funding adjustments:

- **Asset Preservation – Schedule 1** – This Asset Preservation program supports the downtown core facilities of the Seattle Municipal Tower (SMT), Seattle City Hall and the Justice Center. The CIP adds \$1.5 million to replace the SMT water pump, which allows water to be available above the 16th floor of SMT and is needed for both sprinkler and fire hose operations as well as basic access to water for tenants. The current pump has been in place for over 30 years and is at the end of life. A failure of the pump would leave the building unoccupiable. This investment also includes \$3.5 million to replace the SeaPark parking garage elevators, which are 10 years past their end of life. Failure of the elevators would make the parking garage inaccessible and would lead to costly emergency repairs.
- **Asset Preservation – Schedule 2** – This Asset Preservation program supports all FAS-owned and operated facilities outside of the downtown core. This investment supports replacing critical City facility roofs. At more than 20 years old, each of these roofs are at the end of life and have leaked in the recent past, causing damage to the buildings and the equipment within. These buildings support critical City services, including emergency response capabilities. The CIP adds \$2.6 million over two years to address roof replacement.
- **Waterfront Operations and Tribal Interpretive Center (Bakun Building)** – The Bakun Building was purchased in 2023 to be the Waterfront Operations office and provide a cultural space for the Muckleshoot Indian Tribe. The funds remaining after purchase do not support a design that would serve both the Seattle Center, responsible for operations of the Waterfront, and the Muckleshoot Indian Tribe’s respective needs. The CIP adds \$4.2 million in bond financing to address substantial alterations that are necessary for building occupancy. The project is intended to provide dedicated space to house the staff for on-going maintenance and operations for Waterfront Park. The project also fulfills the City’s permitting commitments to the Muckleshoot Tribe from the construction of the Elliot Bay Seawall to provide 10,000 square feet in a building along the Waterfront for a Tribal Interpretive Center rent free in perpetuity. The Tribe has indicated that this project could fulfill the conditions of the permit agreement.
- **City Hall Plaza** – starting in 2026 – The City Hall Plaza functions as a roof for the lower-level lobby, including the “Red Room,” Boards and Commissions conference room, archives and utility areas. Rainfall leads to significant water leaks causing damage to building systems and the building structure. These leaks disrupt the use of the Red Room as a severe weather shelter and have caused electrical gear that provides power to several building systems to fail. In 2022 and 2023, FAS spent about \$200K in repairs due to these leaks. The CIP adds \$15 million in bond financing to support a permanent repair to install a waterproof membrane below the plaza. This repair is designed, permitted and ready for construction. Delay of this project will result in increased costs to implement later and continued O&M repair costs.
- **Seattle Animal Shelter** – The shelter operations and services include animal control, licensing, outreach and education, ownership support, surrender prevention, veterinary services, adoption, low cost spay and neuter, and volunteer and foster care program management. It is the only shelter operating in the city and occupies an approximately 10,000 square foot facility. The CIP adds \$858,000 to support facility electrical improvements and will be used to address ongoing electrical problems at the facility that have disrupted shelter operations, including medical procedures and other veterinary services.

CIP Revenue Sources

The 2025-2030 adopted CIP is primarily funded by Limited Tax General Obligation (LTGO) bonds, REET I and space rent charges paid by City departments. LTGO bond funding is used to fund projects such as the Seattle Municipal Tower Elevator Rehabilitation, City Hall Plaza, the Waterfront Operations and Tribal Interpretative Center, and the Human Capital Management System replacement. The related debt service is funded by the rates charged by FAS to City departments and REET I. REET I funds are focused on specific facility improvement needs, such as Earthquake Preparedness, the Animal Shelter and Fire Station 31 debt service.

Summary of Upcoming Budget Issues and Challenges

FAS' most pressing long term CIP budget issues are primarily driven by the age and condition of many City-owned buildings, federal, state, and local code requirements, and City sustainability goals. Below are specific programs and projects related to FAS budget challenges:

- **Asset Preservation** – The FAS Asset Preservation Program, created by Ordinance 121642, dedicates funds derived from space rent to replace building systems in over one hundred City buildings inside and outside of the downtown core. The Asset Preservation Program has historically received \$4 million in funding annually from space rent charges. This funding level is \$12 million short of the annual amount FAS' model suggests is adequate to address deficiencies and deferred major maintenance work. An additional resource challenge is the number of vacant project manager positions that FAS is actively working to fill in order to complete projects.
- **Building, Energy and Land Use Codes and City Sustainability Goals** – FAS' efforts will play a major role in achieving the City's sustainability and environmental goals. FAS must continue to provide reliable, compliant and structurally sound facilities for City departments to use and the public to access. These investments require FAS to evaluate and incorporate strategies to achieve code compliance, energy efficiency and accessibility in the operations, maintenance and infrastructure improvements of its buildings. New City and State clean building regulations will require expensive retrofits and extensive staff support. Early investment will allow gradual increases in capital investment to avoid an extreme funding and staffing need in the future.

Future Projects/What Is on the Horizon

City facilities must be accessible, reliable, well-maintained and responsive to the needs of operating departments to ensure the safety and delivery of critical services to customers. FAS utilizes the Facility Condition Assessment report to help prioritize major maintenance and infrastructure project needs. FAS faces an ongoing challenge in adequately funding these needed asset preservation and major maintenance requirements at the City's aging facilities including the Seattle Municipal Tower, Seattle Fire Department (SFD) Headquarters and multiple FAS shops and yards. Additionally, the FAS portfolio will be subject to increasingly stringent City and State clean building performance laws, which will require significant capital investment in the future to fully decarbonize the FAS portfolio.

ADA Improvements - FAS

Project No:	MC-FA-ADAIMPFAS	BSL Code:	BC-FA-ADAIMPR
Project Type:	Ongoing	BSL Name:	ADA Improvements
Project Category:	Improved Facility	Location:	FAS facilities
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project is the FAS Americans with Disabilities Act (ADA) ongoing program that will address specific ADA improvements and upgrades at various FAS-owned and operated facilities. Past work has included reconfiguration of restrooms, meeting rooms and other spaces, reconfiguration of facility amenities, such as drinking fountains and various public access routes to sites, buildings, and public spaces. Future funding allows FAS to implement its long-term strategy that resolves the most critical public-facing ADA deficiencies first and maximizes accessibility to the greatest extent possible.

Total Project Cost:	N/A	Urban Village:	Downtown

This ongoing program provides for long-term preservation and major maintenance to the FAS schedule 1 facilities. Schedule 1 facilities are comprised of existing and future office buildings located in downtown Seattle, including but not limited to City Hall, the Seattle Municipal Tower and the Justice Center. Typical improvements may include, but are not limited to, energy efficiency enhancements through equipment replacement, upgrades/repairs to heating/ventilation/air conditioning systems, upgrades/repairs to electrical systems, upgrades/repairs to fire suppression systems, roof repairs or replacement, and structural assessments and repairs. This work ensures the long-term preservation of the operational use of the facilities.

This project provides predesign, design and construction services for developing or reconfiguring space and other adjacent functions in the downtown Civic Campus. Work may include, but is not limited to, working with project sponsors to catalog space and equipment needs, energy efficiency improvements, developing planning options, developing project cost estimates and construction. Work may also include analysis of how vacated space in other facilities might be utilized for other City uses.

Total Project Cost:	\$15,000	Urban Village:	Downtown

Install a waterproof membrane roof below City Hall Plaza, which includes removing the existing paving and hardscape and exposing the structural deck below the hardscape and plantings, installing a new membrane roofing system and replacing plaza hardscape and plantings to match existing. The restoration project will remove selected building wall veneer and all hardscape, softscape, fixtures and underlying materials down to the structure throughout the plaza, stairs and fountain. A continuous membrane waterproofing system with flashing and drain mat will be provided, and landscape materials will be replaced in kind.

Drive Clean Seattle Fleet Electric Vehicle Infrastructure

Project No:	MC-FA-DRVCLNFLT	BSL Code:	BC-FA-GOVTFAC
Project Type:	Discrete	BSL Name:	General Government Facilities - General
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2016 - 2025	Neighborhood District:	Multiple
Total Project Cost:	\$14,682	Urban Village:	Multiple

This project funds FAS' capital work efforts towards meeting the Drive Clean Seattle (DCS) initiative, a comprehensive transportation electrification strategy to transition Seattle's transportation sector from reliance on fossil fuels to the maximal use of clean, carbon-neutral electricity. Work will include but is not limited to, the design, permitting and construction of electric vehicle charging stations at various locations such as fire stations, police precincts, shops and yards and downtown core properties to support transition of City fleet vehicles to EV. Future work will support expansion of DC fast charging hubs to support on-demand charging.

Energy Efficiency for Municipal Buildings

Project No:	MC-FA-ENEFFMBLD	BSL Code:	BC-FA-EXTPROJ
Project Type:	Ongoing	BSL Name:	FAS Oversight-External Projects
Project Category:	Improved Facility	Location:	Multiple City facilities
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project funds energy efficiency work across City facilities, managed by the Office of Sustainability and Environment (OSE), in support of the City's goal to achieve a 20% reduction in building energy use by the year 2020. OSE will implement a package of energy efficiency projects, as well as continue a suite of O&M improvements, program management, measurement and tracking, and building assessments. The energy efficiency upgrades are expected to generate utility rebates paid by Seattle City Light and Puget Sound Energy, to be deposited into the General Subfund. Work may include but is not limited to, building tune-ups, facility improvements, building energy upgrades, and energy efficiency measures.

Total Project Cost:	N/A	Urban Village:	Multiple

This project was formerly named the Customer Requested Tenant Improvement Program.

This ongoing program provides pass-through budget authority for FAS to provide capital and public works, as requested by FAS' Facility Operations division, at facilities that are managed or leased by FAS. Typical improvements may include, but are not limited to, tenant space remodels, security system upgrades and equipment replacement. Other project types include architectural and engineering services such as conceptual planning, design alternative development and preliminary cost estimating. Typical preliminary design and engineering work includes, but is not limited to, pre-design and analysis of project alternatives, cost estimates, test to fit studies, preliminary schedule development, engineering studies and code compliance, site development planning, and conceptual design and financial analysis of capital improvements options in conjunction with FAS and CIP priorities, programs, and initiatives.

This project provides funding for FAS to implement Seattle Information Technology (SIT) proposals to replace existing FAS IT systems that are at the end of their useful lives, accommodate new programmatic and operational needs, and allow the department to function efficiently. FAS coordinates development and implementation of these proposals with SIT. Specific projects include replacing FAS' department-wide budget system and assessing and replacing FAS' Capital Projects Information Management System.

Fire Station 31 Temporary Station

Project No:	MC-FA-FS31IMP	BSL Code:	BC-FA-PSFACFIRE
Project Type:	Discrete	BSL Name:	Public Safety Facilities Fire
Project Category:	New Facility	Location:	1319 N Northgate Way
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 5
Start/End Date:	2019 - 2026	Neighborhood District:	Northwest
Total Project Cost:	\$7,219	Urban Village:	Aurora Licton Springs

This project provides resources to provide an interim location for Fire Station 31. The project includes leasing an interim site for the fire station, providing tents and trailers to house the fire fighters and equipment, and identifying a site for a permanent fire station.

Garden of Remembrance			
Project No:	MC-FA-GARDENREM	BSL Code:	BC-FA-GARDENREM
Project Type:	Ongoing	BSL Name:	Garden of Remembrance
Project Category:	Rehabilitation or Restoration	Location:	1301 3rd Ave.
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This ongoing project provides an annual contribution (including increases for inflation) to a capital renewal fund for the Garden of Remembrance, located next to Benaroya Hall, per an agreement with Benaroya Hall Music Center (BHMC), a private, non-profit affiliate of the Seattle Symphony. This project pays for major maintenance and replaces garden installations including, but not limited to, irrigation equipment, landscaping, electrical/lighting fixtures, and mechanical water features. The project is managed by the BHMC and is displayed within FAS' CIP for informational purposes only.

Human Capital Management System

Project No:	MC-FA-HCMSYS	BSL Code:	BC-FA-A11T
Project Type:	Discrete	BSL Name:	Information Technology
Project Category:	New Investment	Location:	700 5th Ave
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2021 - 2026	Neighborhood District:	
Total Project Cost:	\$50,179	Urban Village:	Downtown

This technology project funds the planning, design and replacement of the aging Human Resource Information System (HRIS), which includes the Citywide payroll and benefits system, with a new Human Capital Management (HCM) system. The timing of this project is critical for the Citywide HR, timekeeping and payroll system, which is no longer supported. The project, which is expected to be completed in 2025, was approved by the Enterprise Oversight Board (EOB) in February 2020 and will be managed out of the Office of City Finance Business Systems division, with funding and partnership from Seattle Department of Human Resources (SHR) and Seattle IT (ITD).

Request for Client Facilities Services (RPS)

Project No:	MC-FA-CTYPDS	BSL Code:	BC-FA-FASPDS
Project Type:	Ongoing	BSL Name:	FAS Project Delivery Services
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project was formerly known as FAS Project Delivery Services.

This ongoing program provides pass-through budget authority for FAS to provide design and construction management services, as requested by City departments outside of FAS. Typical work may include, but is not limited to, the following services: predesign, programming, master planning, conceptual planning, architectural and engineering design and construction administration. FAS proposes to use the second and third quarterly supplemental budget process to "right size" the pass-through budget authority for this project. This approach allows FAS to meet the present needs of departments that have funding for their projects and is consistent with year-end accounting and budgetary requirements.

Seattle Municipal Tower Chiller Plant Replacement

Project No:	MC-FA-SMTCHLRPL	BSL Code:	BC-FA-APSCH1FAC
Project Type:	Discrete	BSL Name:	Asset Preservation - Schedule 1 Facilities
Project Category:	Rehabilitation or Restoration	Location:	700 Fifth AVE
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 7
Start/End Date:	2018 - 2022	Neighborhood District:	Downtown
Total Project Cost:	\$18,000	Urban Village:	Downtown

This project replaces the chiller plant in the Seattle Municipal Tower (SMT). The project will require a multi-year execution plan to allow for permitting, design, procurement and construction to occur during the windows of opportunity when cooling is not required. This highly technical, complex construction effort is a once-in-a generation endeavor. With a dwindling supply of spare parts for maintenance and repairs, it is no longer feasible to defer this critical work, and delaying the project would put FAS at risk of not being able to provide essential cooling to City of Seattle offices and other building tenants. Project costs shown here are exclusive of \$1 million expended on preliminary work on this project in 2018. Those funds are included in the Asset Preservation - Schedule 1 Facilities project (MC-FA-APSCH1FAC).

Seattle Municipal Tower Elevator Rehab

Project No:	MC-FA-SMTELVHRB	BSL Code:	BC-FA-APSCH1FAC
Project Type:	Discrete	BSL Name:	Asset Preservation - Schedule 1 Facilities
Project Category:	Rehabilitation or Restoration	Location:	700 Fifth AVE
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2019 - 2025	Neighborhood District:	Downtown
Total Project Cost:	\$28,500	Urban Village:	Downtown

This project will improve the operation, reliability, and system performance of the Seattle Municipal Tower (SMT) elevators. The work will bring the SMT elevators to current building codes and into compliance with Americans with Disabilities Act (ADA) requirements. This project is envisioned to be a multi-year effort that must be phased to minimize impacts on SMT ongoing building operations, and on the approximately 4,000 City staff who work in the building and the public who visit the SMT to access City services.

This ongoing project preserves or extends the useful life or operational capacity and provides for improvements to FAS-owned police facilities including, but not limited to, the East Precinct, the North Precinct, the West Precinct, the Mounted Patrol Facility, the Harbor Patrol Facility, the K-9 Facility, and other police facilities. Typical work may include, but is not limited to, upgrades to heating, ventilation, air conditioning upgrades, equipment replacement, siting, pre-design, test-to-fit analyses, and structural assessments and repairs. These improvements support police service by extending the operational life of old police facilities, complying with regulatory requirements, or addressing capacity problems.

SLIM Replacement

Project No:	MC-FA-SLIMREPL	BSL Code:	BC-FA-A11T
Project Type:	Discrete	BSL Name:	Information Technology
Project Category:	New Investment	Location:	700 5th AVE
Current Project Stage:	Stage 5 - Execution (IT Only)	Council District:	Multiple
Start/End Date:	2022 - 2025	Neighborhood District:	Multiple
Total Project Cost:	\$10,000	Urban Village:	Multiple

The Seattle License Information System (SLIM) manages the issuance and renewal of business licenses and the collection of revenue from fees and taxes. It houses our B&O tax information, Admissions Tax, Commercial Parking Tax, Firearms and Ammunition Tax, Gambling Tax and Utilities Taxes. SLIM is outdated and needs to be upgraded as it and can no longer adequately meet the needs of expanding business license, tax collection, and enforcement processes. The SLIM Replacement will eventually be part of the City's tax system built by Revenue Solutions Inc (RSI), which is called RPE (Revenue Premier Enterprise) which currently houses the Payroll Expense Tax, TNC tax, Sweetened Beverage Tax, and any other small taxes since 2017/2018; it also houses the Central Waterfront LID (Local Improvement District) and some of the BIAs (Business Improvement Districts). The project currently has \$4.8 million in funding for basic requirements gathering. This planning work continues but the project won't be fully launched until additional funding is identified in the future. The total project cost is estimated at \$10 million and ongoing operating and maintenance costs are estimated at \$1.5 million.

Waterfront Operations and Tribal Interpretive Center

Project No:	MC-FA-OWMAINT	BSL Code:	BC-FA-GOVTFAC
Project Type:	Discrete	BSL Name:	General Government Facilities - General
Project Category:	New Facility	Location:	1426 Alaskan Way
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:	2023 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$17,226	Urban Village:	Downtown

This project holds budget to acquire the Integrus (Bakun) building located on the new Alaskan Way at Pike Street Hillclimb from WSDOT to provide for a facility to house the dedicated staff team for on-going maintenance and operations of the Waterfront Park. This building is located approximately 600 feet from the new maintenance area being provided under the Overlook Walk for vehicle storage and other maintenance activities. The building would also fulfill the City's permitting commitments to the Muckleshoot Tribe for construction of the Elliott Bay Seawall to provide space in a building along the Waterfront for a Tribal Interpretive Center rent free in perpetuity. The Tribe has indicated their interest in the space and that it could fulfill the conditions of the permit. The building was purchased in 2023 for \$8.7 million.

Information Technology

Overview

Seattle Information Technology (Seattle IT) serves the City as a trusted partner, providing secure, reliable, and compliant technologies that enable the City to deliver equitable and responsive services to the public.

Seattle IT solutions are categorized into two major types: infrastructure and major business systems. The City's technology services are delivered on top of these assets— cybersecurity and resilience; network infrastructure and radio support; data, voice, and video communications; systems and storage; data administration; business applications for productivity and collaboration; computing and mobile devices; public television coverage and production; digital and web services; and print device support. Additionally, Seattle IT administers a number of divisions, functions, and services under its authorities in city code to effectively set and support the City's use of information and communications technologies. Among these are IT disaster readiness and business resumption; IT portfolio, product, and project management to maximize the success of the City's investments in change initiatives; digital equity and inclusion; privacy and engagement; technology strategy and support; and supporting the City's response to open records request via search and logging tools.

Seattle IT's Capital Improvement Program (CIP) supports major maintenance, improvements, replacements, and decommissioning of and to the City's technology assets, as well as the planning and implementation of new solutions. Seattle IT's 2025-2030 Proposed CIP budget is \$107 million.

Thematic Priorities

Seattle IT's priorities are:

- **Responsive City Services** – Seattle IT is aligning the City's technology investments with the Cared for and Housed, Connected and Resilient, Healthy and Safe, and departmental priorities identified. Seattle IT adjusts its plans and the City's long-term technology investments to remain consistent in each CIP update.
- **Cybersecurity and Resilience** – Seattle IT ensures secure, resilient, and compliant operations that meet the needed outcomes of City departments.
- **Productivity and Collaboration** – Seattle IT ensures the City implements, maintains, and deprecates the business solutions that maximizes the capabilities of its people.
- **Informing, Supporting, and Engaging the Public** – Seattle IT delivers programs for the City to assist residents in gaining equitable access to technology, open government, City data, and – in partnership with other departments and offices – services and supportive resources.

Project Selection Criteria

STEP 1: Identification of Technology Needs and Opportunities

On a rolling basis throughout the year, as well as during the budget planning process, opportunities for technology investments are identified. Input comes from:

- Customer department requests and requirements, including technology plan alignment to department strategic plans
- Seattle IT Strategic Plan
- Technology roadmaps that are updated annually
- Asset replacement schedules
- Coordination with vendor partners and coalitions

This step includes development of initial cost estimates and other resource requirements, potential timing, and dependencies. At the completion of this step, potential projects are added to the Citywide IT project portfolio for tracking and consideration through Seattle IT's project gate review process.

STEP 2: Identification of CIP and Non-Discretionary Projects

As part of the gate review process, items identified in Step 1 are filtered to determine if they are (1) CIP-appropriate or not and (2) discretionary or not. Criteria for determining if they are CIP appropriate or not include:

- Overall dollar value
- Timeframe of implementation (e.g., multi-year project)
- Lifespan of investment
- Investment in/preservation of long-term infrastructure
- The nature of the acquisition (e.g., goods, services, etc.)

Criteria for determining if they are non-discretionary include:

- Legally mandated (e.g., debt service, federal or state law/regulation changes, court orders, etc.)
- Urgent security or risk mitigation needs (e.g., major system failure, major security breach)
- Reimbursable services to others (e.g., Seattle IT manages a regional fiber consortium where the partners contract with/through us to get work done)

Projects determined to be non-discretionary are automatically moved forward for inclusion in Seattle IT's initial CIP and budget proposal. Discretionary projects proceed to Step 3. Regardless of discretionary status, project requests complete the gate review process to validate they have the appropriate governance, value, and security, privacy, and project planning.

STEP 3: Prioritization of CIP-Appropriate Discretionary Projects

In this step, proposed investments are screened to determine if they are a match for Seattle IT's maintenance/upgrade/replacement programs within the CIP. Investments such as these tend to be smaller in scale (less than \$250,000), "like for like" replacements (e.g., old equipment replaced by new equipment with little to no functionality change), etc. These projects are rated by program managers based on criteria tailored to each program and implemented as annual funding allows.

Larger capital investments which are best implemented on a stand-alone basis due to the size and complexity of the project are evaluated and ranked separately based on the following criteria:

- Asset preservation/replacement/maintenance
- Product lifecycles

- Legal requirements/mandates
- Security/risk mitigation
- Efficiency/effectiveness improvements/resource savings and return on investment
- Reimbursable from other sources (other depts. or outside entities, grants, reserves)
- Dependencies (on other products, equipment, etc.; also on staff/resource availability/long-term supportability)
- Internal customer demands (including capacity) – including Mayoral/Council/Mayor’s IT Subcabinet priority
- External customer demands – public, businesses, etc.
- External drivers (vendor changes, regional commitments, etc.)
- Key future trend/forward-looking/pro-active

2025-2030 CIP Highlights

An overview of Seattle IT’s Proposed 2025-2030 CIP budget is provided in the following table:

CIP Program Name	2025-2030 Proposed	Planned Spending
Ongoing CIP Programs		
Computing Services Architecture	\$42,647,000	Routine equipment replacement and upgrades for servers, storage, and facility infrastructure.
Data & Telephone Infrastructure	\$21,137,525	Network equipment related to Unified Communication System and ongoing capital support, and routine equipment replacement and upgrades.
Fiber-Optic Communication Installation & Maintenance	\$31,323,796	Fiber installation and maintenance.
Discrete Projects		
Apps Dev-Public Safety	\$1,905,363	Develop and implement work scheduling software applications used by the Seattle Police Department (SPD) and the Seattle Fire Department (SFD).
ECM Upgrade	\$5,604,987	Upgrade/migrate the Oracle Enterprise Content Management (ECM) platforms to the cloud.
Department Total	\$102,618,671	

CIP Revenue Sources

Seattle IT’s CIP has been funded through a variety of revenue sources, including:

- **Rates and Allocations:** There are multiple services within the department that are cost-allocated based on a percentage of use for the service provided or billed directly to a department based on the actual cost of time and labor or quantity of materials provided. Seattle IT's budget also includes some projects that are funded using proceeds from general obligation bonds. Rates and allocations provide the funds to repay the debt service on these bonds.
- **State and Federal Grants:** Federal and state grants have been used to finance system replacements and new capabilities. In some cases, Seattle IT has been the direct recipient of the funds; in others, Seattle IT has managed grant-funded projects for customers. The use of grant funding for the Seattle IT CIP has been intermittent.
- **Cable Franchise Fees:** Seattle IT collects cable franchise fee revenues that are set in franchise agreements with the cable providers. Some of this revenue has been used to fund the CIP program which supports the Seattle Channel. Cable Fees have historically provided less than 1% of Seattle IT's CIP program.
- **Bonds & Future Bond Proceeds:** Seattle IT utilizes funding from City bond sale proceeds to implement significant capital projects in the CIP. Rates and allocations typically provide the funds to repay the debt service on these bonds.
- **Use of Fund Balance:** Seattle IT may use existing fund balance or planned carryforward to implement some projects in its CIP.

Summary of Upcoming Budget Issues and Challenges

Cybersecurity— The evolving nature and sophistication of threats to the City's infrastructure and operations necessitates proactive, strategic, and well-resourced defenses. Threats, driven by both criminal and state actors, are amplified by the rapid development of new technologies and the increasing reliance on interconnected digital systems. To address these challenges, Seattle IT and the Seattle Office of Emergency Management will collaborate closely to strengthen cybersecurity investments through rigorous preparedness exercises.

The CIP advances the City's capabilities in identifying, protecting, detecting, responding to, and recovering from cyber threats. These efforts extend across all City departments and the Federal critical infrastructure areas the City has exposure in: communications, dams, emergency services, energy, government services and facilities, transportation, and water and wastewater systems. To ensure robust protection, the City's "Security by Design" model must be applied with unwavering rigor across all departments, applications, hardware, vendors, and technology solutions.

This approach also includes ensuring compliance with key regulatory and security standards such as the Department of Justice's Criminal Justice Information Services (CJIS), the North American Electric Reliability Corporation (NERC), and the Federal Energy Regulatory Commission (FERC), as well as meeting requirements related to insurance, audits, and bonding. Additionally, Seattle IT will maintain close alignment with state and federal cybersecurity efforts, including participation in programs such as the National Threat Assessment Center (NTAC), Targeted Violence and Terrorism Prevention (TVTP),

Joint Cyber Defense Collaborative (JCDC), and the National Threat Evaluation and Reporting Program, to further strengthen the City's defenses and benefit the community.

Hybrid Workforce— The shift of the City's workforce to a hybrid-remote mode continues to require investments for adaptation of infrastructure, systems, and services. Specifically, departments are extending software and hardware solutions that require securing a more distributed technology environment. The City's virtual private network infrastructure was enhanced during the pandemic and will require ongoing investment to serve the larger remote population of City staff at the performance levels observed as needed. Similarly, the City's PC replacement program funding must still be adjusted to funding laptops as the standard versus the less costly desktop standard used previously. In addition, logistics related to asset management, device support, mobile device management, and equipment deployment to hybrid workers are being transitioned to a maintain state after the rapid steps taken during mid-pandemic. Finally, the Unified Communications system implemented as the pandemic hit was based on a pre-pandemic assumptions and use cases. Those needs are now different and incorrect—e.g., conference rooms technologies, leading pre-pandemic vendor mix, and prevalence of fixed deskside telephones. Staff is adjusting the long-term CIP plans for data, voice, and video to post-pandemic telecommunications needs.

Business Resilience, Disaster Recovery, and Preparedness— A major consideration as we invest in all programs and technologies is the need for business resilience and disaster recovery capabilities. This is based on Seattle's regional risk for natural and cyber disasters. Our reliance on technology and communications systems continues to grow and, while our capital investment projects deliver new functionalities, government services are critical infrastructure to the life and safety of the community. This extends to the tools, systems, and information used by City employees— from Priority 1 responders, to line crews, to the Mayor and City Council. The costs that come when planning that work are balanced into capital investment projects based on risk. As we continue to plan our capital program, we will need to account for a more robust disaster recovery investment or be prepared to accept the risks.

IT Strategic Planning and Lifecycle Management— Planning the City's IT investments strategically allows the City to maximize its capabilities for best amount of funding; avoid competing investments, staffing, and systems; and minimize risks and failures. The rate of change and sales forces in technology feed a natural appetite to buy many solutions that do not connect and that cause interoperability and spending problems in large organizations.

Seattle IT will be working with City departments to rationalize the City technology portfolio, set the software strategy for forward direction (on-premise, platform-based development, COTS/SaaS), and to sweep deprecated technologies, over the next two years. In parallel, the IT service catalog must be updated to narrow and/or bring to current version the myriad solutions in the City. For some software solutions, they aren't secure and must be mitigated. For others, better software solutions are available at better costs.

Privacy and Public Records Management— The City is confronted with the challenge of preserving the privacy of members of the public who interact with the City and the requirements for transparency and disclosure outlined in the State of Washington's Public Records Act. The City collects and uses a vast and

expanding amount of data on a regular basis. It is necessary that the City minimize the number of platforms and services that collect public data, be mindful and intentional about the amount of data collected, and be consistent about retaining that data in repositories that can be accessed and searched in response to public records requests. The proliferation of data sources and repositories requires a constant evolution in the training and tooling used by Public Disclosure Officers, and requires all City employees to understand the City's commitments to data privacy and public records.

Future Projects/What is on the Horizon

Seattle IT has identified several initiatives and issues which will need to be addressed at some point in the future.

Infrastructure Systems Direction— Seattle IT's CIP contains sufficient funding to cover routine replacement of core infrastructure— e.g., switches, mid-range servers, etc. Occasionally, larger value, intermittent replacements require additional funding.

Seattle IT staff are working on three horizontal strategic and tactical decisions for the City: (1) possible unification of the systems and storage stack with the advent of mixed on-premise, hyperconverged, and serverless technologies; (2) setting the City's converged direction on its systems architecture and standard with industry changes in virtualization licensing; and (3) the City's approach to multi-cloud architecture, optimization, and spend for the next five years. The shift from capital to operating spend will require a new cost allocation model to correctly manage use and spend, along with how Seattle IT can best optimize the City's costs and value.

Major System Replacements— Seattle IT became responsible for planning and managing the lifecycles of the City's major business systems with IT consolidation. However, there is no long-term replacement sinking fund for this purpose. Replacement and upgrades for systems owned and operating by Seattle Public Utilities and Seattle City Light are generally funded out of the utilities' CIPs with Seattle IT acting as the service provider. Other major business systems lack sufficient financial capacity. Seattle IT will evaluate and propose possible models for starting a technology replacements sinking fund.

800 MHz Radio Network Program

Project No:	MC-IT-C3550	BSL Code:	BC-IT-C0700
Project Type:	Ongoing	BSL Name:	Capital Improvement Projects
Project Category:	New Investment	Location:	700 5th Ave / Various
Current Project Stage:	N/A	Council District:	Council District 3
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This project funds the upgrades and replacement of software and hardware for the City of Seattle's portion of the King County Regional 800 MHz radio system. The 800 MHz radio system provides the communication infrastructure required for public safety operations such as 911, Medic One, Fire and Police.

Resources	LTD Actuals	2024 Revised	2025	2026	2027	2028	2029	2030	Total
Internal Service Fees and Allocations, Outside Funding Partners	23,456	1,640	-	-	-	-	-	-	25,096

O&M Impacts: This CIP project represents ongoing capital purchases to support our operating shared services projects. Ongoing impacts are built into Seattle IT's budget.

Applications Development - Public Safety

Project No:	MC-IT-C6307	BSL Code:	BC-IT-C0700
Project Type:	Ongoing	BSL Name:	Capital Improvement Projects
Project Category:	New Investment	Location:	700 5th AVE
Current Project Stage:	N/A	Council District:	Council District 3
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This project provides funds to develop and implement software applications used by the Seattle Police Department (SPD) and the Seattle Fire Department (SFD). The applications will improve personnel oversight and deployment, in addition to enhancing the accessibility and quality of SPD and SFD data. These applications will support ongoing efforts to achieve improved transparency and compliance.

Permit System Integration

Project No:	MC-IT-C6305	BSL Code:	BC-IT-C0700
Project Type:	Discrete	BSL Name:	Capital Improvement Projects
Project Category:	New Investment	Location:	700 5th AVE
Current Project Stage:	Stage 5 - Execution (IT Only)	Council District:	Council District 3
Start/End Date:	2017 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$6,952	Urban Village:	Downtown

This project provides funding to develop, implement, support a cross-department platform for the City’s regulatory oversight. The platform will provide internal and external stakeholders with streamlined processes and accessibility. In addition, the project seeks to automate labor-intensive processes while establishing tracking and reporting of performance metrics.

Appendix A: New or Expanded Capital Facilities

Seattle Center				
Project ID	Project Name	Project Description	Location	2025 Budget*
MC-SC-S9505	Memorial Stadium Redevelopment	<p>The 77-year-old Memorial Stadium is owned by Seattle Public Schools (SPS) on land deeded by the City and is outdated, deteriorated, and in need of redevelopment. The Seattle Public Schools Building Technology Academics & Athletics (BTA V) levy approved by Seattle voters in February 2022 contains \$66.5 million for a basic student athletic stadium. Under a letter of intent signed by SPS and the City in October 2021 and a November 2022 Memorandum of Agreement, the School District and City are collaborating on a plan for a new enhanced stadium. The new facility will transform the heart of Seattle Center with a state-of-the-art stadium that will serve SPS' needs for athletic events and graduations and be a major civic venue for arts, cultural, sports, and community events.</p> <p>In June 2023 following a Request For Proposals, the Mayor and School Superintendent agreed to enter into negotiations with One Roof Stadium Partnership (One Roof) to jointly develop an enhanced stadium. In 2024, Seattle Center, SPS and One Roof reached an important milestone by aligning on key project terms. In addition to the \$66.5 million SPS levy money and \$3.95 million from the State capital budget, Seattle Center's Proposed 2025-2030 CIP includes the balance of the City's planned \$40 million contribution to the Memorial Stadium Redevelopment. One Roof will be responsible for private fundraising to generate the additional funding to complete the project. The City's funding needed to start construction in 2025 has been identified through a proposed interfund loan necessary to be able to complete negotiations for the new stadium and formalize commitments to advance the project. The SPS Board of Directors, Mayor, and the City Council are anticipated to review and approve implementing agreements by the end of 2024. The new stadium is expected to be complete by the end of 2027. The Executive will create legislation to authorize a second interfund loan in 2026 to address any cashflow requirements of the project. The interfund loan authorized in 2026 will be repaid with 2027 bond proceeds.</p>	401 5th Ave N.	\$ 9,000

Seattle City Light				
Project ID	Project Name	Project Description	Location	2025 Budget (000s)
MC-CL-XB6351	Boundary Powerhouse - Unit 51 Generator Rebuild	This project provides the rewinding and refurbishing of the Unit 51 generator to extend its useful life, which is part of a programmatic series of projects to maintain the Utility's aging generators. It also replaces the carbon dioxide fire-suppression system with a water sprinkler system to enhance worker safety. If technology is sufficiently advanced, it may also include a rotor-mounted scanner or other diagnostic equipment.	10382 Boundary Rd, Metaline, WA 99153	\$ 500

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- XB6353	Boundary Powerhouse - Unit 54 Generator Rebuild	This project provides rewinding and refurbishing of the Boundary Powerhouse Unit 54 generator and upgrades the fire-suppression system. Work may also include mechanical upgrades or installations of seal rings, wicket gates, and diagnostic equipment. This programmatic maintenance helps extend the useful life of the generator.	10382 Boundary Rd, Metaline, WA 99153	\$ 1,426
MC-CL- XB6493	Boundary Powerhouse Generator Step-up Transformer Replacement	This project replaces six existing step-up transformers at Boundary Dam and funds the purchase of a seventh transformer to keep as a spare in inventory due to long lead times for these specialized parts. This project helps avoid prolonged loss of generation due to forced outage.	10382 Boundary Rd, Metaline, WA 99153	\$ 500
MC-CL- XB6535	Boundary Powerhouse - Unit 52 Generator Rebuild	This project provides rewinding and refurbishing of the Boundary Powerhouse Unit 52 generator and upgrades its fire-suppression system. Work may also include mechanical upgrades or installations of seal rings, wicket gates, and diagnostic equipment. This programmatic maintenance helps extend the useful life of the generator.	Boundary Rd, Metaline, WA 99153	\$ 13,454
MC-CL- XB6566	Boundary - DC Battery System & Charge Modernization	This project replaces the multiple existing DC battery systems at Boundary.	Boundary Rd, Metaline, WA 99153	\$ 818
MC-CL- XB6627	Boundary Station Service Transformer Replacement	This project replaces two aging station service transformers at Boundary. It is assumed that they will be specified and procured together but installed in two sequential years. Station service transformers provide power to the powerhouse, dam and service area. It is likely that the rating of the transformers will need to be increased to accommodate load increases associated with the addition of new circuits in the powerhouse for automation, controls and machine monitoring.	Boundary Rd, Metaline, WA 99153	\$ 4,286
MC-CL- XC6573	Cedar Falls Substation & Bank 6 Replacement	This project replaces the 60-year-old Bank 6 power step up transformer at Cedar Falls. Bank 6 provides the connection between Cedar Falls Generating Units 5 and 6 and the transmission system. The transformer is approaching the end of its useful life and the goal of this project is to replace it during a planned outage before it fails.	Cedar Falls	\$ 524
MC-CL- XF9238	Solar Microgrid for Resilience	This project provides construction of an islandable microgrid located at a City of Seattle designated emergency shelter such as a community center, where a solar photovoltaic (PV) system coupled with an appropriately-sized battery energy storage system will be installed. The project provides backup power to support critical emergency facilities and services during extended power outages when electricity distribution facilities are down due to a catastrophic event, such as an earthquake, severe windstorm (or associated flooding), fire or landslide. The Washington State Dept. of Commerce will grant the utility approximately half of the funding to cover the costs for this project.	TBD	\$ 102
MC-CL- XS6307	Newhalem Creek Hydroelectric Project Decommissioning	This project funds the decommissioning of the Newhalem Creek Hydroelectric Project. This project comprises coordination with the Federal Energy Regulatory Commission (FERC) and intervenors in the process to surrender the license for the Newhalem Creek Hydroelectric Project, as well the planning, design, and decommissioning of the facilities.	500 Newhalem Creek Rd, Marblemo unt, WA 98267	\$ 1,287

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- XS6373	Ross Dam - AC/DC Distribution System Upgrade	This project upgrades aging AC electrical distribution system at Ross Dam with a new electrical distribution system. It installs conduit, ducting, distribution panels and wire. It improves the 4 kV system, improves lighting, and provides improvements on top of the dam including a center substation room, emergency generator, valve houses, and a 130-volt battery bank. New conduit and conductors improve reliability of spillgate operations and other dam operations requiring electric power. New electrical equipment, new lighting, and the addition of emergency lighting allow staff greater operational flexibility, safety, and efficiency.	Milepost 128 State Highway 20	\$ 2,545
MC-CL- XS6564	Ross - Exciters 41- 44	This project replaces the excitation systems for the four Ross generating units.	Ross Powehous e	\$ 187
MC-CL- XS6639	Gorge Crane Rehabilitation	This project refurbishes or replaces mechanical and electrical systems for the Gorge powerhouse cranes and will provide safety upgrades to comply with current code. The Gorge powerhouse crane has never undergone a major refurbishment. The three Gorge generating units are planned for overhauls within the next ten years, and will require a reliable crane. The crane control system is being modernized to allow for better control and accuracy.	Milepost 121 State Highway 20	\$ 6,612
MC-CL- XS6640	Gorge U21-24 overhauls	This project overhauls Gorge units 21 - 24. The final scope of work will be determined during project chartering, but is expected to include replacing the stator winding, stator core, and excitation system. Refurbishment is expected for rotor components and other mechanical components. Planning is currently forecast to start in 2022 which would mean construction on the first unit would likely begin in 2025.	Milepost 121 State Highway 20	\$ 122
MC-CL- YR8322	Dallas Ave. 26 kV Crossing	This project reinstalls two 26kV feeders across the Duwamish River. This crossing backs up the Cambridge Corridor Crossing, providing redundant power supply to the area along East Marginal Way South. The area has many large industrial accounts.	Dallas Ave S	\$ 2,936
MC-CL- YS7756	Interbay Substation - Development	This project plans, designs, and constructs a 26 kV substation in the Interbay area. This project installs 2-100 MVA transformers into a facility large enough to accommodate a third transformer at the site if required in the future. The project adds to the distribution network and provides a new path for power to the area. It provides assurance to the developers who are interested in projects in the South Lake Union district that City Light will be able to serve their needs reliably.	17th Ave West	\$ 91
MC-CL- YT7125	Denny Substation Transmission Lines	This project provides work associated with the design and construction of new transmission lines to support the new Denny Substation. This expansion would divide the existing Pine to Broad Street transmission line into two transmission lines to improve system reliability and resiliency.	System Wide	\$ 153
MC-CL- YT8461	Transmission Line Inductor Installation	This project addresses the issue of increased electric transmission congestion load growth in the Puget Sound Area. The project funds the installation of inductors or phase shifting transformers which curtail the flow of power through the Seattle area, while improving customer and asset strengths and maintaining reliability.	System Wide	\$ 104
MC-CL- ZL8481	Seattle Waterfront Streetlight Installation	This project funds new streetlights in the Seattle Waterfront area. The redevelopment of the Seattle Waterfront follows the Alaskan Way Viaduct replacement and is led by the Office of the Waterfront.	1312 Western AVE	\$ 197

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL-ZT8307	Alaskan Way Viaduct and Seawall Replacement - Utility Relocations	This project provides relocation of electric distribution infrastructure associated with the replacement of the Alaskan Way Viaduct and improvements to the Seawall and Central Waterfront.	SR 99 / Battery St	\$	43
MC-CL-ZT8435	State Route 520 Bridge Relocations	This project provides relocation and installation of power service infrastructure, such as feeder extensions, to support WSDOT's replacement of the State Route 520 Bridge from Montlake to I-5. This project is projected to be fully reimbursable by WSDOT.	SR 520 / Lake Washington	\$	411
MC-CL-ZT8471	Sound Transit Lynnwood - City Light	This project supports Sound Transit's Lynnwood Link, which will extend from the Northgate Transit Center at 5th Ave NE & NE 100th Street to our service area boundary at NE 200th Street, near the I-5 Right of Way. This project will include 100 blocks of relocations, a significant fraction of which will convert lines from overhead to underground. The project will install two feeders for each of the light rail line's traction power stations and upgrade the radial system's capacity where needed to serve the new load. The low and medium power service connections for the line's stations will be handled through the existing service projects.	City Wide	\$	3

Seattle Department of Transportation

Project ID	Project Name	Project Description	Location	2025 Budget (000s)
MC-TR-C013	RapidRide J Line	This project will provide a high-quality transit service connecting Downtown Seattle with the neighborhoods of Belltown, South Lake Union, Eastlake, and University District. This project also includes protected bike lane, streetscape, intersection and traffic signal improvements and improving accessibility including ADA-compliant curb ramps. This project was formerly titled RapidRide Roosevelt.	VARIOUS	\$ 34,134
MC-TR-C030	Northgate Bridge and Cycle Track	This project will construct pedestrian and bicycle improvements to enhance access to the planned Sound Transit Light Rail station at Northgate. The improvements include a pedestrian and bike bridge over I-5 and a multi-use path along 1st Avenue NE; that was complete in 2021. The stream mitigation work will continue through 2025 and is currently in the construction phase.	Multiple	\$ 500
MC-TR-C072	Alaskan Way Main Corridor	This project designs and constructs the rebuilt Alaskan Way/Elliott Way surface streets and the adjoining pedestrian promenade along the Seattle waterfront following the demolition of the Alaskan Way Viaduct. The State of Washington has built a deep bore tunnel to replace the Alaskan Way Viaduct and has relocated State Route 99 into the tunnel. The City of Seattle is responsible for the Alaskan Way/Elliott Way surface street and the promenade. The project also includes replacement of and improvements to four key connections impacted by the Viaduct removal: Seneca Street, Columbia Street, and the Marion Street and Lenora Street pedestrian bridges. This project is part of the larger waterfront improvement program. Construction of these improvements began in 2019.	VARIOUS	\$ 7,713

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-TR-C073	Overlook Walk and East-West Connections Project	Removing the Alaskan Way Viaduct provides the opportunity for the City to improve key connections between the downtown core and the waterfront. The specific east/west streets targeted for improving connections include: Bell Street, King Street, Main Street, Pike Street, Pine Street, Railroad Way, Union Street, Washington Street, and Yesler Way. In addition to these east/west street connections, the waterfront improvement program also includes Overlook Walk, which will provide a pedestrian-oriented connection between the waterfront, the Aquarium and Pike Place Market with ADA access, views, and public open spaces. This project is part of the overall waterfront improvement program. This project includes funding from the Waterfront Local Improvement District.	Multiple	\$ 3,000
MC-TR-C079	Route 40 Transit-Plus Multimodal Corridor	This project will design and construct transit speed and reliability improvements and upgraded bus stop passenger facilities. Improvements to the route, which connects Downtown, South Lake Union, Fremont, Ballard, and Northgate, will support conversion to RapidRide service by partner agency King County Metro.	Various	\$ 1,752
MC-TR-C087	SR-520 Project	This project provides policy, planning, and technical analysis support to the Washington Department of Transportation's SR-520 project. This regional project includes the replacement of the SR-520 bridge with a six-lane bridge, new freeway interchanges at Montlake Boulevard and Lake Washington Boulevard, and other improvements.	SR-520	\$ 1,641
MC-TR-C088	Sound Transit 3	This program funds the City of Seattle's support for and coordination with Sound Transit on the West Seattle and Ballard Link Extensions. Work includes review of planning, environmental, and design materials, as well as permit review for the projects.	VARIOUS	\$ 8,653
MC-TR-C090	Heavy Haul Network Program - East Marginal Way	This program supports freight mobility by funding roadway improvements on the Heavy Haul Network (Ordinance 124890) to meet the needs of freight transported on our streets between Port facilities, rail yards, and industrial businesses. The initial project under this Program is the E Marginal Way Corridor Improvement project, which will be a multi-phase project. Phase I constructs a separated bicycle/pedestrian facility between S Atlantic St and Spokane St. Phase II includes roadway reconstruction, signal and ITS enhancements and safety measures to reduce conflicts between freight and non-motorized users. The Port of Seattle, through Memorandum of Understanding, is to provide partnership funding.	E Marginal WAY	\$ 4,500
MC-TR-C118	Aurora Avenue North Safety Improvements	Note: The project title changed from "Heavy Haul Network Program" to "Heavy Haul Network Program - East Marginal Way" This project will design and construct improvements along the Aurora Avenue North corridor. This project seeks to improve safety, mobility, and accessibility for all travelers. Improvements may include new sidewalks, transit improvements, medians/access management, lighting, signalized crossings, and potential roadway channelization changes.	Aurora Avenue North	\$ 5,568
MC-TR-C123	NE 130th St/NE 125th Corridor Improvements	This project will establish an east-west multimodal corridor to connect people to the future NE 130th St light rail station by implementing transit reliability, safety, access, bus stop amenities, and pedestrian and bicycle improvements. The project area includes NE 130th St from approximately 1st Ave NE to 5th Ave NE including the NE 130th St I-5 overpass, Roosevelt Way NE from 130th St to 10th Ave NE, and NE 125th St from 10th Ave NE to Lake City Way NE.	(blank)	\$ 5,880

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-TR-C124	Revive I-5 Project Support	"Revive I-5: Preserving a Vital Freeway" is a State of Washington project with dozens of preservation projects planned to revive Interstate 5 in King and Snohomish counties. The State's Revive I-5 projects will include pavement repair and full replacement, expansion joints, and seismic work to strengthen bridges against earthquakes. The City of Seattle will support the State's efforts by installing transit priority measures and other operational improvements on City streets, that may include dedicated bus priority lanes, new signal improvements and communication systems. The City will also support this effort with commute trip reduction programs, real-time support for signal timing changes, transportation operations monitoring, and communication of real-time traffic conditions and incident response.	Citywide	\$ 550
MC-TR-C125	Safe Streets and Roads for All	This project will design and construct a variety of proven countermeasures that are heavily concentrated in our most disadvantaged and disinvested communities. The project focuses on high-impact safety improvements such as an upgraded bicycle facility, sidewalks, leading pedestrian intervals, upgraded ADA ramps, accessible pedestrian push button signals, marked crosswalks, and traffic calming tools like speed cushions.	Citywide	\$ 10,017

Seattle Parks and Recreation

Project ID	Project Name	Project Description	Location	2025 Budget (000s)
MC-PR-21005	Smith Cove Park Development	This project develops a portion of Smith Cove Park located just west of Pier 91 on Elliott Bay. The park will be developed based on a planning and design process for the site that took place in 2016. The project will include renovation to the playfield and development of a new off-leash area; picnic area, and related work primarily on the west side of the park. The improved park will provide waterfront access and ADA accessibility, provide enhanced opportunities for active recreation, and make the park inviting and usable for more people.	W Galer ST	\$ 1,000
MC-PR-41040	Lake City Community Center Redevelopment	This project will replace the current Lake City Community Center with a new facility and perform other related work. The new Lake City Community Center will be more accessible for all users and include improved recreation spaces. The project began with a feasibility study that identified the probable costs associated with a variety of options such as underground parking, gym size, possible childcare rooms and facilities, and number of floors and other recreation spaces.	12531 28th Avenue NE	\$ 2,163
MC-PR-41071	Green Lake Community Center & Evans Pool Substantial Alteration	This project will provide a comprehensive renovation of Green Lake Community Center and Evans pool to extend the life of the facility and update it to meet current programming needs, building code compliance, standards, and other related items.	7201 E Green Lake DR N	\$ 521
MC-PR-41072	West Queen Anne Playfield Conversion	This project will improve playability and increase year-round athletic field capacity at West Queen Anne Playfield. The existing natural turf field will be replaced with a synthetic field, and paths will be re-paved to improve accessibility, along with related work. The new	1901 1st AVE W	\$ 1,336

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

synthetic turf field will expand capacity and play-time in an area of the city with few synthetic turf athletic fields.

MC-PR-41074	Soundview Athletic Field Conversion	This project funds construction for a renovated west athletic field at Soundview Playfield. The existing grass playfield will be converted to synthetic turf. Athletic field lighting and on-site storm water retention facilities will be installed and pathways and dugouts will be renovated to improve access for people of all abilities.	1590 NW 90th St	\$ 6,173
MC-PR-41075	Carkeek Park Bridge Replacement Project	This project replaces and removes the existing pedestrian bridge that provides access to the beach at Carkeek Park and other related items. Examples of work include but are not limited to installing new bridge foundations, columns, and decking, improvements to the parking lot and walkways to ensure accessibility, and repair of parking lots and roadways that may be impacted by construction traffic.	950 NW Carkeek Park Road	\$ 2,704
MC-PR-41076	Amy Yee Tennis Center Renovation	This project provides building envelope and structural upgrades to stabilize Amy Yee Tennis Center. Examples of work includes re-roofing, insulation, structural upgrades, and addressing the building water penetration from the hillside. New court heating and ventilation and lighting replacement would also be implemented if budget allows, in addition to other interior renovations as identified in the 2019 feasibility study. These improvements would greatly improve the playing experience at the center and reduce the risk of additional deferred maintenance caused by the current roof and walls which have a number of known active leaks.	2000 Martin Luther King Jr. Way, S.	\$ 6,000

Seattle Public Utilities

Project ID	Project Name	Project Description	Location	2025 Budget (000s)
MC-SU-C1418	Reservoir Covering-Lake Forest	This project addresses the need for a new cover on Lake Forest Park Reservoir once it has reached the end of its useful life. The project will evaluate options for a new cover, including replacing the existing floating Hypolan cover with a similar design. A new cover will be designed and constructed to maintain and improve the water quality protection and security enhancement functions of the existing cover.	Lake Forest Park	\$ 6
MC-SU-C1419	Reservoir Covering-Bitter Lake	This project addresses the need for a new cover on Bitter Lake Reservoir once the existing floating cover has reached the end of its useful life. Replacing the existing structure with a new hard covered structure within the same footprint will be one of the options considered. A new cover will be designed and constructed to improve and maintain the water quality protection and security enhancement functions of the existing cover.	N 143rd St and Linden Ave N	\$ 820
MC-SU-C1607	Downstream Fish Habitat	This project provides protection and restoration of fish habitat along the lower Cedar River, below the City's municipal watershed boundary at the Landsburg Dam and includes both acquisition of habitat lands and habitat restoration on the main stem of the Cedar River. This project is a requirement of the Cedar River Habitat Conservation Plan (HCP).	Cedar River Watershed	\$ 500

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-SU-C2302	South Recycling Center	SPU postponed South Transfer Station phase construction and a smaller project is proceeding to complete cleanup work at the old South Park Landfill. SPU decided to postpone development plans (including the construction of the recycling facility) to allow a more holistic evaluation of future needs and job opportunities that best support our zero-waste vision. A recycling facility may still be included in the future plans, but partial development of the site at this time could severely limit what we can do in the future. The scope of the project has been reduced to only include the remediation of the South Park Landfill (required under a Consent Decree), minimal operational improvements, and a path along 5th Avenue to mitigate the street vacation at the new South Transfer Station. The reduced STS2 project will be designed during 2021-2022 and constructed in 2023.	8100 2nd AVE S	\$ 6,562
MC-SU-C2304	South Park Development	<p>Future site development plans will happen over the next 5 years in a parallel process.</p> <p>This project studies, plans, designs and constructs remediation of the historic South Park Landfill site to minimize environmental impacts. SPU owns a portion of the site on which the landfill once operated, and was a historic operator of the landfill at one time. This project will meet the requirements of a Consent Decree with the Washington Department of Ecology for remediation of the historic South Park Landfill. This project is tied to the STS 2 project and some redesign of remedial elements will be required and along with the other scope changes mentioned previously, construction has been further delayed to 2026.</p>	8100 2nd AVE S	\$ 1,840
MC-SU-C3614	Ship Canal Water Quality Project	The City of Seattle (the City) has prepared a comprehensive strategy, called The Plan to Protect Seattle's Waterways (the Plan) to reduce overflows and discharge of pollutants from combined sewers and the storm drain system. The City must control sewer discharges to protect public health, the environment, to comply with the Clean Water Act, the United States District Court Consent Decree, and State regulations. On May 29, 2015, the City submitted the plan to EPA and Ecology for approval. The largest project identified in the Plan is the Ship Canal Water Quality Project. This project is a joint project between SPU and King County to design and construct a storage tunnel to capture Combined Sewer Overflows for 5 SPU outfalls and two King County outfalls. The tunnel will be 2.7 miles long and run from Wallingford to Ballard. The tunnel will be approximately 18 feet in diameter and have a storage volume of about 30 million gallons. The purpose of the project is to bring all seven outfalls into compliance with the State's control standard of one untreated overflow per year per outfall on a 20-year moving average. Note all City/County funding allocations are for informational purposes, only. Actual resource allocations will be determined through ongoing project governance agreements and interagency coordination between the City and King County.	West Ship Canal	\$ 85,828

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-SU-C3806	South Park Stormwater Program	This program constructs a pump station (PS), a water quality facility (WQF), and additional drainage conveyance in South Park. The PS will allow the existing storm drain outfall to drain the system when the tide is high and will support future drainage projects. The WQF will treat most stormwater flows from the basin, reducing pollutant loading to the Duwamish. Excessive flows will bypass the WQF and be pumped directly to the river. This program was formerly titled "South Park Pump Station."	698 S Riverside DR	\$ 7,242
MC-SU-C4102	Alaskan Way Viaduct & Seawall Replacement Program	This project relocates, replaces, and protects water infrastructure affected by the replacement of the Alaskan Way Viaduct and Seawall. This project encompasses many sub-projects which are collectively known as the Alaskan Way Viaduct and Seawall Replacement project (AWVSR project). The Washington State Department of Transportation (WSDOT) is the lead for the SR-99 replacement, while the City of Seattle is the lead on development of the waterfront public space, implementation of the new surface Alaskan Way, and design and construction of the seawall.	Various	\$ 192
MC-SU-C4130	Streetcar Related Projects	This project plans and relocates SPU assets that will be impacted by the SDOT-led First Hill Streetcar project and related streetcar projects, which will connect major employment centers on First Hill to the regional light rail system stations on Capitol Hill and in the International District. It is currently in the construction phase.	Various	\$ 4,412

*Amounts in thousands of dollars.

Seattle Center

Project ID: MC-SC-S9505

Project Title: Memorial Stadium Redevelopment

Location: Seattle Center

2024 Proposed Budget: 9,000,000

The 77-year-old Memorial Stadium is owned by Seattle Public Schools (SPS) on land deeded by the City and is outdated, deteriorated, and in need of redevelopment. The Seattle Public Schools Building Technology Academics & Athletics (BTA V) levy approved by Seattle voters in February 2022 contains \$66.5 million for a basic student athletic stadium. Under a letter of intent signed by SPS and the City in October 2021 and a November 2022 Memorandum of Agreement, the School District and City are collaborating on a plan for a new enhanced stadium. The new facility will transform the heart of Seattle Center with a state-of-the-art stadium that will serve SPS' needs for athletic events and graduations and be a major civic venue for arts, cultural, sports, and community events.

Description:

In June 2023 following a Request For Proposals, the Mayor and School Superintendent agreed to enter into negotiations with One Roof Stadium Partnership (One Roof) to jointly develop an enhanced stadium. In 2024, Seattle Center, SPS and One Roof reached an important milestone by aligning on key project terms. In addition to the \$66.5 million SPS levy money and \$3.95 million from the State capital budget, Seattle Center's Proposed 2025-2030 CIP includes the balance of the City's planned \$40 million contribution to the Memorial Stadium Redevelopment. One Roof will be responsible for private fundraising to generate the additional funding to complete the project. The City's funding needed to start construction in 2025 has been identified through a proposed interfund loan necessary to be able to complete negotiations for the new stadium and formalize commitments to advance the project. The SPS Board of Directors, Mayor, and the City Council are anticipated to review and approve implementing agreements by the end of 2024. The new stadium is expected to be complete by the end of 2027. The Executive will create legislation to authorize a second interfund loan in 2026 to address any cashflow requirements of the project. The interfund loan authorized in 2026 will be repaid with 2027 bond proceeds.

1% for Art: A program administered by the Office of Arts and Culture (ARTS) that sets aside one percent of eligible City capital improvement project funds for the commission, purchase, and installation of artworks.

2000 Parks Levy (“Neighborhood Parks, Green Spaces, Trails, and Zoo Levy”): A \$198.2 million, eight-year levy lid lift passed by Seattle voters in November 2000. The levy is designed to fund more than 100 park, open space, and recreation projects throughout the city.

2008 Parks Levy (“Parks and Green Spaces Levy”): A \$145.5 million, six-year levy lid lift passed by Seattle voters in November 2008. The levy was designed to fund park and green space acquisition, capital expansion and renovation of parks, and park facilities throughout the city.

Americans with Disabilities Act (ADA): A comprehensive civil rights law for people with disabilities passed by the federal government in 1990.

Allocation: The expenditure amount planned for a project or service that requires additional legislative action, or “appropriation,” before expenditures are authorized.

Appropriation: A legal authorization granted by the City’s legislative authority (the City Council) to make expenditures and incur obligations for specific purposes.

Asset Preservation (also known as Major Maintenance): Capital improvement projects that involve major repairs or rehabilitation of existing City facilities.

Capital Improvement Program (CIP): Annual appropriations from specific funding sources are shown in the City’s budget for certain capital purposes, such as street improvements, building construction, and some types of facility maintenance. The CIP is a six-year allocation plan presented as a document separate from the Budget that details all projects, fund sources, and expenditure amounts including many multi-year projects that require funding beyond the one-year period of the annual Budget.

Capital Projects Funds: Funds with resources set aside to acquire or construct major capital facilities that allow the monitoring of revenues and expenditures of authorized voter approved and Councilmanic bonds and levies.

Capital Projects Passing the \$5 million threshold (Appendix B): Pursuant to the 1999 settlement agreement in *CLEAN, et. al v. City of Seattle*, the City has adopted policies regarding public notification when capital projects cross certain spending thresholds. Resolution 31203 updated those policies to require a list of all Capital Projects for which the City has cumulatively spent more than \$5 million with the adoption of the current annual Budget be published as an appendix to the Capital Improvement Program.

Community Development Block Grant (CDBG): An annual grant to Seattle and other local governments from the U.S. Department of Housing and Urban Development to support economic development projects, housing and services in low-income neighborhoods.

Comprehensive Drainage Plan: A Citywide drainage management program for capital improvements and ongoing maintenance. It establishes a monitoring program and identifies measures to control flooding and pollution, such as regulatory controls and public education.

Cumulative Reserve Fund (CRF): A source of ongoing local funding to support capital projects in general government departments. The CRF consists of two accounts: The Capital Projects Account and the Revenue Stabilization Account. The Capital Projects Account has three Funds: REET I Capital Projects Fund, REET II Capital Projects Fund, and the Unrestricted Cumulative Reserve Fund.

Design Build Operate (DBO): A non-conventional approach to implementation of major capital projects, wherein a single vendor is responsible for design, construction, and long-term operation of a facility.

Debt Service: Annual principal and interest payments that local government owes on money that it has borrowed.

Endangered Species Act (ESA): Legislation passed by the federal government in 1973 to conserve the ecosystems upon which endangered species depend upon and to conserve and recover listed species.

Fire Facilities and Emergency Response Levy: A \$167 million, eight-year levy lid lift, approved by voters in November 2003. The Levy includes funds for more than 40 projects to upgrade, renovate, or replace most of the City's fire stations, construct new support facilities for the Fire Department, construct a new Emergency Operations Center and Fire Alarm Center, procure two new fireboats and rehabilitate an existing one.

Fund Balance: The difference between the assets and liabilities of a fund. This incorporates the difference between the revenues and expenditures each year.

General Fund: A central fund into which most of the City's general tax revenues and discretionary resources are pooled and allocated to support many of the operations of City government. General Fund dollars appear in the CIP in two places: the General Fund contribution to the Cumulative Reserve Fund (if any) and appropriations to capital projects from a department's operating budget.

Geographic Information System (GIS): A tool that enables users to analyze and understand the spatial relationships among things that exist and occur in a location. The results of geographic analysis can be communicated with maps and/or reports.

Growth Management Act (GMA): Passed by the state legislature in 1990, the Growth Management Act encourages strategic land use planning and provides protection for environmentally sensitive areas.

Habitat Conservation Plan (HCP): A 50-year commitment by the City and Seattle Public Utilities to protect and restore the Cedar River Watershed.

Leadership in Energy and Environmental Design (LEED): A green building rating system for new and existing commercial, institutional, and multi-family residential buildings that evaluates environmental performance from a "whole building" perspective. There are four rating levels: Bronze, Silver, Gold, and Platinum.

Levy Lid Lift: An increase in regular property taxes for a general or designated purpose—for example, the 2008 Parks Levy.

Levy to Move Seattle: A nine-year, \$930 million-dollar levy passed by voters in November 2015. The levy provides funding to improve safety for all travelers, maintain streets and bridges, and invest in reliable, affordable travel options.

Limited Tax General Obligation (“LTGO” or “Councilmanic”) Bonds: Bonds that are issued by the City Council without voter approval. The debt service on these bonds is typically repaid from existing general government revenues or from revenues generated by the project(s) financed with the bonds.

Major Maintenance: See “Asset Preservation” above.

Municipal Art Plan: A plan prepared by the Office of Arts and Culture that establishes budgets for new 1% for Art program projects and describes the status of existing projects.

Neighborhood Matching Subfund (NMF): A fund administered by the Department of Neighborhoods to provide money to Seattle neighborhood groups and organizations for neighborhood-initiated improvement, organizing, or planning projects. The community’s contribution of volunteer labor, materials, professional services or cash is “matched” by cash from the fund.

Operating Budget: The portion of a budget that deals with recurring expenditures such as salaries, electric bills, postage, printing, paper supplies, and gasoline.

Public Works Trust Fund: A low-interest state revolving loan fund designed to help local governments with the repair, replacement, and rehabilitation of public works infrastructure.

REET I and REET II: The Real Estate Excise Tax (REET) is levied on all sales of real estate with the first 0.25% of the locally imposed tax going to REET I and the second 0.25% for REET II.

Seattle Metropolitan Park District: In August 2014, voters passed a ballot measure creating the Seattle Metropolitan Park District. The goal of the park district is to provide long-term, stable funding to support recreation programming, parks projects and the critical needs for investment in major and ongoing maintenance.

Unlimited Tax General Obligation (“UTGO” or “voted”) Bonds: Bonds issued after receiving approval by 60% of the voters in an election with at least 40% voter turnout. The debt service on these bonds is repaid from additional (“excess”) property tax revenues that voters approve as part of the bond measure.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the Seattle Transportation Benefit District; authorizing material scope changes to City of Seattle Proposition 1 to expand uses of revenues.

WHEREAS, City of Seattle Ordinance 123397 established the Seattle Transportation Benefit District (STBD)

for preserving and maintaining transportation infrastructure; implementing elements of the Seattle Transportation Strategic Plan and other planning documents; investing in bicycle, pedestrian, freight mobility, and transit enhancements; and providing people with choices to meet their mobility needs; and

WHEREAS, Revised Code of Washington (RCW) 36.73.160 requires the STBD to adopt a policy to address material changes to a project's cost, scope, and schedule; and

WHEREAS, in STBD Resolution 3, the Governing Board of the STBD approved a material change policy that addresses the procedures for approving changes to project cost, scope, and schedule; and

WHEREAS, in STBD Resolution 12, the Governing Board of the STBD submitted a ballot measure ("STBD Proposition 1") to the qualified electors of the STBD to authorize up to a 0.1 percent sales and use tax, and an annual vehicle license fee of up to an additional \$60 per registered vehicle with a \$20 rebate for low-income individuals, for the purposes of funding King County Metro Transit service in Seattle; and

WHEREAS, on November 4, 2014, STBD Proposition 1 was approved by a majority of qualified electors of the STBD; and

WHEREAS, by Ordinance 125070, The City of Seattle assumed the rights, powers, immunities, functions, and obligations of the STBD as authorized under RCW 36.74.030; and

WHEREAS, on June 25, 2018, by Ordinance 125606, the Seattle City Council authorized material scope changes to STBD Proposition 1, including provisions to provide transit passes to Seattle Public School students and authorizing funding for capital improvements that improve transit speed and reliability; and

WHEREAS, in Ordinance 126115, The City submitted a ballot measure (“the Seattle Transit Measure”) to the qualified electors of the City of Seattle to authorize a sales and use tax increase for the purposes of supporting transit service benefitting Seattle residents, including frequent transit network maintenance and associated capital improvements; low-income fare programs; and transportation needs related to COVID-19 recovery and the West Seattle Bridge closure; and

WHEREAS, on November 3, 2020, City of Seattle Proposition 1 (the Seattle Transit Measure) was approved by a majority of qualified electors, and its tax expires April 1, 2027; and

WHEREAS, The City of Seattle wants to improve access to the transit system, expand the capacity of the transit system, and improve the speed and reliability of transit service to meet its growing population; and

WHEREAS, since the passage of the Seattle Transit Measure in 2020, the City is adding more than 3,000 bus trips each week within Seattle and paying for more than 140,000 annual service hours to make bus service more reliable and increase access to frequent bus service; and

WHEREAS, since the passage of the Seattle Transit Measure, the City has continued to partner with the Central Puget Sound Regional Transit Authority (Sound Transit) on its high-capacity transit investments in the City of Seattle, including the West Seattle Link Extension (WSLE) and Ballard Link Extension (BLE); and together these two projects represent the largest infrastructure program in Seattle’s history; and

WHEREAS, the City has a critical role in supporting these Sound Transit projects through their planning, design, permitting, and construction phases; and

WHEREAS, the City will directly deliver planning documents and transit access projects to complement Sound

Transit investments in the City of Seattle; and

WHEREAS, on April 23, 2024, Seattle City Council unanimously approved SDOT’s Seattle Transportation Plan, which included a separate planning element for transit and specifically mentioned a partnership with Sound Transit to support delivery of future Link light rail expansions as a “key move”; and

WHEREAS, the expansion and partnership are best served by a change in project scope; and

WHEREAS, pursuant to Section 5 of Ordinance 126115, the Seattle Transit Advisory Board will review and provide comment on the proposed change of scope; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. After a public hearing conducted in accordance with Revised Code of Washington 36.73.160 and pursuant to the material change policy adopted by Seattle Transportation Benefit District (STBD) Resolution 3, later subsumed by The City of Seattle, the scope of the project authorized by the Seattle Transit Measure is expanded to allow its revenues to fund:

A. Staffing resources to support and complete The City of Seattle’s agreements and requirements necessary for implementation of the Sound Transit 3 program, including but not limited to dedicated and part-time staff to support project planning, permitting, and delivery of Sound Transit projects in Seattle; and

B. Third-party funding contributions to deliver The City of Seattle’s Preferred Alternative for the West Seattle Link Extension and Ballard Link Extension.

Section 2. This ordinance shall take effect as provided by Seattle Municipal Code Sections 1.04.020 and 1.04.070.

Passed by the City Council the _____ day of _____, 2024, and signed by me in open session in authentication of its passage this _____ day of _____, 2024.

President _____ of the City Council

Approved returned unsigned / vetoed this _____ day of _____, 2024.

SUMMARY and FISCAL NOTE

Department:	Dept. Contact:	CBO Contact:
SDOT	Bill LaBorde	Christie Parker

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the Seattle Transportation Benefit District; authorizing material scope changes to City of Seattle Proposition 1 to expand uses of revenues.

Summary and Background of the Legislation:

Pursuant to the STBD material change policy, this ordinance expands the scope of the Seattle Transit Measure (STM) to allow its revenues to be used on the following items:

- Staffing to support and complete the City of Seattle’s agreements and requirements to implement the Sound Transit 3 program, including but not limited to staff to support project planning, permitting, and delivery of Sound Transit projects in Seattle; and
- Third-party funding contributions to deliver the City of Seattle’s Preferred Alternative for the West Seattle Link Extension and Ballard Link Extension.

In addition to this increased flexibility to fund Sound Transit 3, the Seattle Transit Measure will continue to fund King County Metro transit service hours, improve low-income access to transit, support the Transportation Equity Program, and fund transit capital improvements.

Background: The Seattle Transportation Benefit District (STBD) was created in 2010 to allow the City to raise revenue to preserve and maintain transportation infrastructure, improve public safety, implement projects in SDOT’s planning documents and provide people with transportation choices, including public transit.

In 2020 a proposition was placed before Seattle voters authorizing a 0.15 percent increase in the sales and use tax. This tax increase, currently referred to as the “Seattle Transit Measure,” funds transit and transit-related transportation programs in Seattle, including frequent transit network maintenance and associated capital improvements; low-income fare programs; and transportation needs related to COVID-19 recovery and the West Seattle Bridge closure. The tax increase sunsets on April 1, 2027.

As King County Metro has recovered from the COVID-19 pandemic, SDOT has been unable to increase its service hour investment in King County Metro due to Metro staffing and other constraints. This is expected to change over the remaining two years of the measure. However, other constraints limited SDOT from launching new programming which has resulted in funding being available for this purpose. In addition, transportation needs related to COVID-19 recovery and the West Seattle Bridge closure have been addressed. As a result of these changes, SDOT is requesting material scope changes to Proposition 1 to explicitly allow these funds to also be used for Sound Transit 3 work.

Sound Transit 3 is the largest infrastructure program in Seattle’s history. Its high-capacity transit investments, including the mega-projects of West Seattle Link Extension (WSLE) and Ballard Link Extension (BLE), will occur over the next 15 years as projects move from planning phases to final design, permitting, and construction. The City team will oversee and support project delivery. This project offers tremendous opportunity for transformation of our transportation system, but also potential for significant construction and other impacts to existing communities. The combined projects will include more than 12 miles of new light rail track, more than 13 new or expanded stations, a new light-rail only downtown tunnel, and two over-water crossings. The \$54 billion, 25-year plan received 54 percent approval overall in King, Snohomish, and Pierce counties in 2016. Seattle voters overwhelmingly approved the ballot measure with almost 70 percent support for the measure. Staffing is critical to supporting on-schedule delivery of ST3 projects while ensuring compliance with relevant statutes and codes and upholding the 2018 Partnering Agreement.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation have financial impacts to the City? ☐ Yes ☒ No

This legislation does not have direct financial impacts to the City. The material change will expand allowable uses of existing funding to include ST3 staffing. Appropriations for ST3 staffing are included in the Mayor’s 2025-2026 Proposed Budget.

This legislation does not create any new positions. Any necessary new positions will be included in a future legislative action.

3.d. Other Impacts

Does the legislation have other financial impacts to The City of Seattle, including direct or indirect, one-time or ongoing costs, that are not included in Sections 3.a through 3.c? If so, please describe these financial impacts.

No.

If the legislation has costs, but they can be absorbed within existing operations, please describe how those costs can be absorbed. The description should clearly describe if the absorbed costs are achievable because the department had excess resources within their existing budget or if by absorbing these costs the department is deprioritizing other work that would have used these resources.

N/A

Please describe any financial costs or other impacts of *not* implementing the legislation.

ST3's high-capacity transit investments—including the mega-projects of West Seattle Link Extension (WSLE) and Ballard Link Extension (BLE)—offer tremendous opportunity to transform regional mobility and expand access to housing, jobs, and other destinations for Seattle community members. The City has critical roles to support these projects that, if fully resourced and realized, will facilitate project delivery, maximize public benefit, and minimize harm to existing communities. In the next four years, as WSLE and BLE move from their planning phases to final design, permitting, and construction, the City will oversee an enormous volume of work to support on time and on budget project delivery. Without additional staffing resources dedicated to the City's ST3 program, the City could potentially negatively impact the ST3 project schedules and overall delivery timelines due to workload volumes exceeding current staff capacities.

4. OTHER IMPLICATIONS

a. Please describe how this legislation may affect any departments besides the originating department.

The current interdepartmental ST3 City Team, managed by the SDOT Sound Transit Program, includes approximately 20 dedicated full-time staff, as well as limited part-time capacity from staff across 20 City departments. The final staffing plan is under development; therefore, the impact to other departments is currently being evaluated.

b. Does this legislation affect a piece of property? If yes, please attach a map and explain any impacts on the property. Please attach any Environmental Impact Statements, Determinations of Non-Significance, or other reports generated for this property.

No.

c. Please describe any perceived implication for the principles of the Race and Social Justice Initiative.

i. How does this legislation impact vulnerable or historically disadvantaged communities? How did you arrive at this conclusion? In your response please consider impacts within City government (employees, internal programs) as well as in the broader community.

There is a long history of large infrastructure projects perpetuating disparate impacts to communities of color and low-income populations in Seattle. The ST3 City Team is working with Sound Transit to ensure that the WSLE and BLE projects avoid disparate impacts and bring equitable benefits to communities. Our agencies are advancing equitable outcomes through the development and application of a multi-year joint agency Racial Equity Toolkit for the WSLE and BLE projects.

- ii. **Please attach any Racial Equity Toolkits or other racial equity analyses in the development and/or assessment of the legislation.**

N/A

- iii. **What is the Language Access Plan for any communications to the public?**

N/A

d. Climate Change Implications

- i. **Emissions: How is this legislation likely to increase or decrease carbon emissions in a material way? Please attach any studies or other materials that were used to inform this response.**

Expanding mass transit service benefits everyone by offering a less carbon-intensive means of travel, which decreases air and water pollution. Reliable transit service and a comprehensive transit network are key to reducing greenhouse gas emissions in Seattle, a city where transportation is the number one source of emissions. The Seattle Transit Measure and ST3 are key strategies for reducing the city's emissions in the transportation sector.

- ii. **Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

Sound Transit and its partner services provide tangible environmental benefits for the region's growing communities, including Seattle. Sound Transit's 2022 Sustainability Progress Report showed that passengers taking Sound Transit avoided nearly 194,000 tons of greenhouse gas emissions annually.

- e. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)? What mechanisms will be used to measure progress towards meeting those goals?**

N/A

5. CHECKLIST

- ☒ **Is a public hearing required?**
- ☐ **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required?**
- ☐ **If this legislation changes spending and/or revenues for a fund, have you reviewed the relevant fund policies and determined that this legislation complies?**
- ☐ **Does this legislation create a non-utility CIP project that involves a shared financial commitment with a non-City partner agency or organization?**

6. ATTACHMENTS

Summary Attachments: None.

Amendment 1 to CB 120887 - STBD Material Change

Sponsor: Councilmember Strauss

Technical Amendment

Effect: This amendment removes reference to a public hearing on the proposed change to the Seattle Transportation Benefit District material change policy. Legal review has determined that no separate public hearing on this legislation is required. The Select Budget Committee held two public hearings on the 2025 Budget on October 16 and November 12, 2024.

Amend Section 1 as follows:

Section 1. ~~After a public hearing conducted in accordance with Revised Code of Washington 36.73.160 and pursuant~~Pursuant to the material change policy adopted by Seattle Transportation Benefit District (STBD) Resolution 3, later subsumed by The City of Seattle, the scope of the project authorized by the Seattle Transit Measure is expanded to allow its revenues to fund:

A. Staffing resources to support and complete The City of Seattle’s agreements and requirements necessary for implementation of the Sound Transit 3 program, including but not limited to dedicated and part-time staff to support project planning, permitting, and delivery of Sound Transit projects in Seattle; and

B. Third-party funding contributions to deliver The City of Seattle’s Preferred Alternative for the West Seattle Link Extension and Ballard Link Extension.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE amending Ordinance 126955, which adopted the 2024 Budget; changing appropriations to various departments and budget control levels, and from various funds in the Budget; and ratifying and confirming certain prior acts.

WHEREAS, the Office for Civil Rights managed the implementation of a Participatory Budgeting process to determine investments of \$27.25 million with the goals of directly investing in Black, Indigenous, and other communities of color consistent with applicable law, and increasing the ownership and participation of Seattle residents in solutions to the city's pressing needs; and

WHEREAS, community members during the Participatory Budgeting process developed and co-designed 18 proposals within the five priority investment areas of Housing and Physical Spaces, Mental Health, Youth and Children, Economic Development, and Crisis and Wellness, from nearly 500 submitted ideas; and

WHEREAS, ranked-choice voting of the 18 proposals was opened from October 10 through November 12, 2023, resulting in the selection of six proposals, including 1) Native Youth: Past, Present, and Future (\$7.2 million), for a Duwamish-oriented community center; 2) People Not Police Crisis Response Team (\$2 million), for mental health professionals to serve as first responders to mental health crises; 3) Housing Support (\$2 million), for housing navigation and assistance services for people experiencing homelessness or housing instability; 4) Public Restrooms (\$7.2 million), for staffing and maintenance of public restrooms and hygiene facilities; 5) Urban Farming and Food Equity (\$7 million), for green spaces and access to fresh food, local business ownership, and farming education; 6) Housing Support

for Youth (\$1.85 million), for connecting youth and young adults to supportive housing or rental assistance; and

WHEREAS, in January 2024, the Office for Civil Rights convened an interdepartmental team comprised of community representatives and City staff from the Community Assisted Response and Engagement Department, the Human Services Department, the Department of Neighborhoods, the Office of Planning and Community Development, the Office of Sustainability and Environment, and Seattle Parks and Recreation to explore how the six proposals could be implemented; and

WHEREAS, the aforementioned City Departments have developed projects based on the proposals and are now prepared for implementation, requiring appropriations from Finance General to the respective departments; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. The appropriations for the following items in the 2024 Adopted Budget are modified, as follows:

Item	Department	Fund	Budget Summary Level	Amount
1.1	Finance General	General Fund (00100)	General Purpose (BO-FG-2QD00)	(\$27,250,000)
	Community Assisted Response and Engagement Department	General Fund (00100)	Community Assisted Response and Engagement (BO-CS-40000)	\$2,000,000
	Department of Neighborhoods	General Fund (00100)	Community Grants (BO-DN-I3400)	\$7,000,000
	Human Services Department	General Fund (00100)	Addressing Homelessness (BO-HS-H3000)	\$3,850,000
	Executive (Office of Planning and Community Development)	General Fund (00100)	Planning and Community Development (BO-PC-X2P00)	\$7,200,000
Total				(\$7,200,000)

Section 2. Consistent with RCW 35.32A.050, unexpended appropriations from Section 1 of this ordinance are

reappropriated as follows:

Item	Department	Fund	Budget Summary Level	CIP Project Name	Additional Budget Appropriation
2.1	Seattle Parks and Recreation	General Fund (00100)	Fix It First (BC-PR-40000)	Major Maintenance and Asset Management (MC-PR-41001)	\$7,200,000
Net Change					\$7,200,000

Section 3. Any act consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 4. This ordinance shall take effect as provided by Seattle Municipal Code Sections 1.04.020 and 1.04.070.

Passed by the City Council the _____ day of _____, 2024, and signed by me in open session in authentication of its passage this _____ day of _____, 2024.

President _____ of the City Council

SUMMARY and FISCAL NOTE

Department:	Dept. Contact:	CBO Contact:
Office for Civil Rights	Sage Leibenson	Alan Lee

1. BILL SUMMARY

Legislation Title: AN ORDINANCE amending Ordinance 126955, which adopted the 2024 Budget; changing appropriations to various departments and budget control levels, and from various funds in the Budget; and ratifying and confirming certain prior acts.

Summary and Background of the Legislation

In 2021 the Office for Civil Rights (OCR) selected the Participatory Budgeting Project to run a community-led process to determine how to allocate \$27.25 million in resources with a focus on directly investing in Black, Indigenous, and People of Color communities consistent with applicable laws. OCR managed the Participatory Budgeting proposal development and selection process, entailing eighteen proposals within five community-identified priority areas from almost 500 submitted ideas; voting concluded in November 2023, with six projects selected for implementation. The six projects include the following:

- CARE Team Expansion (\$2 million): expansion of first responders for mental health crises.
- Public Restroom Access (\$7.2 million): operation of designated public restrooms with attendants to increase public access.
- Urban Farming and Food (\$7 million): activate public greenspaces for community-led agricultural sites and provide capacity-building activities for small scale farmers and food producers.
- Native Youth: Past Present Future (\$7.2 million): creation of community-owned and operated community center for Native youth.
- Enhanced Homelessness Navigation (\$2 million): augment Regional Access Points work in Coordinated Entry.
- Youth and Young Adult Emergency Shelter Capital (\$1.85 million): provision of flexible funds to emergency shelter for capital improvements.

OCR subsequently convened an interdepartmental team to coordinate implementation plans with city departments. This legislation transfers funding from Finance General, where the funds have been held in reserves, to the departments responsible for implementing the projects.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project?

☒ Yes ☐ No

Project Name:	Master Project I.D.:	Project Location:	Start Date:	End Date:	Total Project Cost Through 2029:
Major Maintenance and Asset Management	MC-PR-410001	Citywide	1/1/2025	12/31/29	\$7,200,000

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation have financial impacts to the City?

☒ Yes ☐ No

3.a. Appropriations

☒ This legislation adds, changes, or deletes appropriations.

Fund Name and Number	Dept	Budget Control Level Name/Number*	2024 Appropriation Change	2025 Estimated Appropriation Change
General Fund 00100	FG	General Purpose (BO-FG-2QD00)	(\$27,250,000)	
General Fund 00100	CARE	Community Assisted Response and Engagement (BO-CS-40000)	\$2,000,000	
General Fund 00100	DON	Community Grants (BO-DN-I3400)	\$7,000,000	
General Fund 00100	HSD	Addressing Homelessness (BO-HS-H3000)	\$3,850,000	
General Fund 00100	OPCD	Planning and Community Development (BO-PC-X2P00)	\$7,200,000	
General Fund 00100	SPR	Fix It First (BC-PR-40000)	\$7,200,000	
TOTAL			\$0	

*See budget book to obtain the appropriate Budget Control Level for your department.

Appropriations Notes: All appropriations are one-time and not ongoing.

3.b. Revenues/Reimbursements

☐ This legislation adds, changes, or deletes revenues or reimbursements.

3.c. Positions

☐ This legislation adds, changes, or deletes positions.

3.d. Other Impacts

Does the legislation have other financial impacts to The City of Seattle, including direct or indirect, one-time or ongoing costs, that are not included in Sections 3.a through 3.c? If so, please describe these financial impacts.

No

If the legislation has costs, but they can be absorbed within existing operations, please describe how those costs can be absorbed. The description should clearly describe if the absorbed costs are achievable because the department had excess resources within their existing budget or if by absorbing these costs the department is deprioritizing other work that would have used these resources.

This legislation transfers already appropriated funds from Finance General to departments for implementation and provision of the services. These projects align with existing bodies of work.

Please describe any financial costs or other impacts of *not* implementing the legislation.
If this legislation is not implemented, the projects would not move forward.

4. OTHER IMPLICATIONS

- a. Please describe how this legislation may affect any departments besides the originating department.**

This legislation appropriates funds to the CARE Department, Seattle Parks and Recreation, the Human Services Department, the Office of Planning and Community Development, and the Department of Neighborhoods.

- b. Does this legislation affect a piece of property? If yes, please attach a map and explain any impacts on the property. Please attach any Environmental Impact Statements, Determinations of Non-Significance, or other reports generated for this property.**
Parks and Recreation will site hygiene stations at up to three parks, initially at Freeway, Hing Hay, and Cal Anderson parks.

- c. Please describe any perceived implication for the principles of the Race and Social Justice Initiative.**

- i. How does this legislation impact vulnerable or historically disadvantaged communities? How did you arrive at this conclusion? In your response please consider impacts within City government (employees, internal programs) as well as in the broader community.**

The primary goal of this Participatory Budgeting effort is to invest directly in Black, Indigenous, and People of Color (BIPOC) communities; this effort is in response to the killings of George Floyd and others in the Black community. Community stakeholders engaged in the Participatory Budgeting process determined priority investment areas of Housing and Physical Spaces, Mental Health, Youth and Children, Economic Development, and Crisis and Wellness.

- ii. **Please attach any Racial Equity Toolkits or other racial equity analyses in the development and/or assessment of the legislation.**

A Racial Equity Toolkit was not used.

- iii. **What is the Language Access Plan for any communications to the public?**

OCR and other Departments use their current Language Access Plans for communications.

d. Climate Change Implications

- i. **Emissions: How is this legislation likely to increase or decrease carbon emissions in a material way? Please attach any studies or other materials that were used to inform this response.**

No

- ii. **Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

No

- e. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)? What mechanisms will be used to measure progress towards meeting those goals?**

Project outcomes are described in the table below. Departments will provide reporting on project performance.

Department	Outcomes
DPR	Increased access to public restrooms by reducing barriers associated with inappropriate use and cleanliness,
	Reduction of public health hazards related to lack of bathroom access.
SCD	Improved responses to 911 calls with a mental and behavioral health nexus.
	Improved client outcomes through equipping responders with tools, techniques and knowledge using an informed and culturally responsive approach.
	Significant reassignment of uniformed police officers from non-life threatening mental health crises to emergencies necessitating a law enforcement response.
DON	Increased community access to food production sites and fresh produce grown at those sites.
	Economic development for new and beginning small-scale farmers and food producers.
OPCD	Creation of center that fosters belonging and connection for community and Native youth.
	Preservation of Indigenous culture.
	Youth empowerment and community resiliency.
HSD (Project 1)	Improvement of the homelessness system's throughput from street or shelter to housing.
	Assistance to more individuals experiencing homelessness.
	Improved utilization of youth and young adult homelessness services.

HSD (Project 2)	Greater service capacity for youth and young adults.
--------------------	--

5. CHECKLIST

- ☐ Is a public hearing required?
- ☐ Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required?
- ☐ If this legislation changes spending and/or revenues for a fund, have you reviewed the relevant fund policies and determined that this legislation complies?
- ☐ Does this legislation create a non-utility CIP project that involves a shared financial commitment with a non-City partner agency or organization?

Summary Attachments: None

Amendment 1 Version 2 to CB 120893 – CBO PB Implementation ORD

Sponsor: Councilmember Hollingsworth

Co-sponsors: Councilmember Moore and Councilmember Woo

Provide arts and cultural grants and fund youth activities

Effect: This amendment would appropriate \$4.7 million to the Office of Arts and Culture to provide grants to support arts and cultural preservation programs focusing on historically marginalized communities. This amendment would appropriate \$315,000 to the Human Services Department for contracted youth activities via specifically identified entities in 2025. This amendment would amend the title of the ordinance to include reference to provisos added in Section 3.

This amendment would decrease Participatory Budgeting appropriations to Seattle Parks and Recreation (SPR) by \$5.0 million. The original Participatory Budgeting proposal would have directed \$7.2 million to SPR to implement a public restroom access project involving purchase of mobile restroom units and staffing at new and existing restroom facilities. This amendment would appropriate \$2.2 million to SPR to implement an alternate and/or scaled down project improving public restrooms.

Consistent with Washington State Constitution requirements, these amendments, including the amendment to the title, would not change the scope and object of the ordinance.

Amend the title to CB 120893 as follows:

AN ORDINANCE amending Ordinance 126955, which adopted the 2024 Budget; changing appropriations to various departments and budget control levels, and from various funds in the Budget, imposing provisos; and ratifying and confirming certain prior acts.

Amend Section 1 of CB 120893 as follows:

Section 1. The appropriations for the following items in the 2024 Adopted Budget are modified, as follows:

Item	Department	Fund	Budget Summary Level	Amount
1.1	Finance General	General Fund (00100)	General Purpose (BO-FG-2QD00)	(\$27,250,000)
<u>1.2</u>	Community Assisted Response and Engagement Department	General Fund (00100)	Community Assisted Response and Engagement (BO-CS-40000)	\$2,000,000
<u>1.3</u>	Department of Neighborhoods	General Fund (00100)	Community Grants (BO-DN-I3400)	\$7,000,000
<u>1.4</u>	Human Services Department	General Fund (00100)	Addressing Homelessness (BO-HS-H3000)	\$3,850,000
<u>1.5</u>	Executive (Office of Planning and Community Development)	General Fund (00100)	Planning and Community Development (BO-PC-X2P00)	\$7,200,000
<u>1.6</u>	<u>Executive (Office of Arts and Culture)</u>	<u>General Fund (00100)</u>	<u>Funding Programs & Partnership (BO-AR-VA162)</u>	<u>\$4,685,000</u>
<u>1.7</u>	<u>Human Services Department</u>	<u>General Fund (00100)</u>	<u>Preparing Youth for Success (BO-HS-H2000)</u>	<u>\$315,000</u>
Total				<u>(((\$7,200,000)) \$(2,200,000))</u>

Unspent funds so appropriated in items 1.2, 1.3, 1.4, 1.5, 1.6, and 1.7 shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance.

Amend Section 2 of CB 120893 as follows:

Section 2. Consistent with RCW 35.32A.050, unexpended appropriations from Section 1 of this ordinance are reappropriated as follows:

Item	Department	Fund	Budget Summary Level	CIP Project Name	Additional Budget Appropriation
2.1	Seattle Parks and Recreation	General Fund (00100)	Fix It First (BC-PR-40000)	Major Maintenance and Asset Management (MC-PR-41001)	(((\$7,200,000)) <u>\$2,200,000</u>
Net Change					(((\$7,200,000)) <u>\$2,200,000</u>

Unspent funds so appropriated in item 2.1 shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance.

Add a new Section 3 to CB 120893 as follows, and renumber subsequent sections as needed:

Section 3. This ordinance imposes two provisos as follows:

“Of the appropriations in the Office of Arts and Culture (ARTS) 2024 general fund budget, \$4,685,000 is appropriated solely for funding to support individuals or organizations seeking to activate spaces, provide programming, or create media focused on arts, culture, history, or heritage relating to historically disadvantaged communities, including Black communities, consistent with applicable law and may not be used for any other purpose. The intent of the Council, to the greatest extent possible, is for ARTS to award \$1,000,000 annually for this purpose over a four year period beginning in 2025, and the remainder for this purpose in the fifth year.”

“Of the appropriations in the Human Services Department's (HSD's) 2024 general fund budget in the Preparing Youth for Success Budget Summary Level (HSD-BO-HS-H2000), \$315,000 is appropriated solely to award funding for the following youth activities programming to contribute to violence prevention, and may be spent for no other purpose:

\$25,000 for Avela;

\$25,000 for Hip-Hop is Green;

\$50,000 for Rise Above;

\$25,000 for Holgate Church Afterschool Program – Student & Family Support;

\$15,000 for Colored Girls Garden Club;

\$25,000 for The Good Foot;

\$25,000 for Seattle Central Little League;

\$25,000 for First State Golf Club;

\$25,000 for Northwest Greyhounds;

\$25,000 for Boys & Girls Club Rotary Girls Basketball Team;

\$25,000 for The Breakfast Group; and

\$25,000 for the Seattle Theatre Group – STG AileyCamp.

The intent of the Council, to the greatest extent possible, is for HSD to make one-time awards to the above listed entities in the above listed amounts for 2025. The Council has identified the above listed entities for this funding and requests that the HSD Director waive the

Tamaso Johnson
Select Budget Committee
11/13/2024
D1

requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection
3.20.050.C.”

Amendment 2 to CB 120893 – CBO PB Implementation ORD

Sponsor: Councilmember Hollingsworth

Co-sponsors: Councilmember Moore and Councilmember Woo

Increase funding for outreach and engagement and homeowner stabilization services to homeowners in communities at high risk of displacement

Effect: This amendment would appropriate \$3.0 million to the Office of Housing (OH) to provide funding for outreach and engagement and homeowner stabilization services to increase homeownership retention in communities at high risk of displacement. OH would contract with community-based organizations who have experience providing outreach and engagement services to homeowners in need of such services. This funding may be used to assist homeowners with incomes up to 100% of area median income (AMI) who face high costs of home repairs, property taxes, utility costs, and other costs that may prevent homeowners from funding needed services that allow them to remain stably housed. This amendment would amend the title of the ordinance to include reference to a proviso added in Section 3.

This amendment would decrease Participatory Budgeting appropriations to the Department of Neighborhoods (DON) by \$3.0 million. The original Participatory Budgeting proposal would have appropriated \$7.0 million to DON for an urban food and farming project. This amendment would appropriate \$4.0 million to DON to implement a scaled down version of the urban food and farming project.

Consistent with Washington State Constitution requirements, these amendments, including the amendment to the title, would not change the scope and object of the ordinance.

Amend the title to CB 120893 as follows:

AN ORDINANCE amending Ordinance 126955, which adopted the 2024 Budget; changing appropriations to various departments and budget control levels, and from various funds in the Budget, imposing a proviso; and ratifying and confirming certain prior acts.

Amend Section 1 of CB 120893 as follows:

Section 1. The appropriations for the following items in the 2024 Adopted Budget are modified, as follows:

Item	Department	Fund	Budget Summary Level	Amount
1.1	Finance General	General Fund (00100)	General Purpose (BO-FG-2QD00)	(\$27,250,000)
<u>1.2</u>	Community Assisted Response and Engagement Department	General Fund (00100)	Community Assisted Response and Engagement (BO-CS-40000)	\$2,000,000
<u>1.3</u>	Department of Neighborhoods	General Fund (00100)	Community Grants (BO-DN-I3400)	(\$7,000,000) <u>\$4,000,000</u>
<u>1.4</u>	Human Services Department	General Fund (00100)	Addressing Homelessness (BO-HS-H3000)	\$3,850,000
<u>1.5</u>	Executive (Office of Planning and Community Development)	General Fund (00100)	Planning and Community Development (BOPCX2P00)	\$7,200,000
<u>1.6</u>	<u>Executive (Office of Housing)</u>	<u>General Fund (00100)</u>	Homeownership and Sustainability (BO-HU-2000)	<u>\$3,000,000</u>
Total				(\$7,200,000)

Unspent funds so appropriated in items 1.2, 1.3, 1.4, 1.5, and 1.6 shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance.

Add a new Section 3 to CB 120893 as follows, and renumber subsequent sections as needed:

Section 3. This ordinance imposes a proviso as follows:

“Of the appropriations in the Office of Housing’s 2024 general fund budget for the Homeownership and Sustainability Summary Level (OH-BO-HU-2000), \$3,000,000 is

Tamaso Johnson
Select Budget Committee

appropriated solely for outreach and engagement, and homeowner stabilization services in communities at high risk of displacement and may not be used for any other purpose.”

Amendment 3 to CB 120893 – CBO PB Implementation ORD

Sponsor: Councilmember Hollingsworth

Co-sponsors: Councilmember Moore and Councilmember Woo

Support young adult day center

Effect: This amendment would proviso \$2.0 million of the Participatory Budgeting appropriations to the Human Services Department (HSD) to fund a young adult day center. This amendment would also proviso the remaining \$1.9 million of Participatory Budgeting appropriations to HSD to be used for youth and young adult shelter capital improvements. This amendment would amend the title of the ordinance to include reference to a proviso added in Section 3.

The original Participatory Budgeting proposal would have directed a total of \$3.9 million to HSD, to be passed through to the King County Regional Homelessness Authority (KCRHA) for two distinct homelessness related projects: \$2.0 million for enhanced homelessness navigation services, and \$1.9 million for youth shelter capital improvements. This amendment would remove funding from the enhanced homelessness navigation services project, but retain funding for the youth shelter capital improvements project.

Consistent with Washington State Constitution requirements, these amendments, including the amendment to the title, would not change the scope and object of the ordinance.

Amend the title to CB 120893 as follows:

AN ORDINANCE amending Ordinance 126955, which adopted the 2024 Budget; changing appropriations to various departments and budget control levels, and from various funds in the Budget, imposing a proviso; and ratifying and confirming certain prior acts.

Add a new Section 3 to CB 120893 as follows, and renumber subsequent sections as needed:

Section 3. This ordinance imposes a proviso as follows:

“Of the appropriations in the Human Services Department’s (HSD’s) 2024 general fund budget, \$2,000,000 is appropriated solely for contracted services for a day shelter providing supports to young adults experiencing or at risk of homelessness and may not be used for any other purpose. The Council has identified the Urban League of Metropolitan Seattle for this funding and requests that the HSD Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C. It is the intent of the Council that, to the greatest extent possible: this funding would support the Urban League of Metropolitan Seattle in its operation of a day shelter focused on youth between 18 and 25 years old; Urban League of Metropolitan Seattle would provide services such as connection to resources and social services, counseling, meals, computer and internet access, help with resumes and job finding, and shower facilities; and this funding would support operating costs for the day shelter for three years starting in 2025 at a funding level of approximately \$667,000 annually.

Of the appropriations in the Human Services Department’s (HSD’s) 2024 general fund budget, \$1,985,000 is appropriated solely for capital repairs and/or improvements to existing shelters serving youth and/or young adults, in accordance with HSD’s Participatory Budgeting proposal for this purpose and may not be used for any other purpose.”

Amendment 4 to CB 120893 – CBO PB Implementation ORD

Sponsor: Councilmember Hollingsworth

Co-sponsors: Councilmember Moore and Councilmember Woo

Modify recitals

Effect: This amendment would modify the bill recitals to reflect additional Council funding priorities for Participatory Budgeting funds.

Amend the recitals to CB 120893 as follows:

WHEREAS, the Office for Civil Rights managed the implementation of a Participatory

Budgeting process to determine investments of \$27.25 million with the goals of directly investing in historically disadvantaged communities, including Black, Indigenous, and other communities of color consistent with applicable law, and increasing the ownership and participation of Seattle residents in solutions to the city's pressing needs; and

WHEREAS, the aforementioned City Departments have developed projects based on the proposals and are now prepared for implementation, requiring appropriations from

Finance General to the respective departments; ~~((NOW, THEREFORE,))~~ and

WHEREAS, the Council has identified additional pressing needs in historically disadvantaged communities, including Black communities and other communities of color related to cultural preservation, homeownership preservation, and assistance to youth experiencing or at risk of homelessness, and intends to fund supplementary projects to address these needs supported by Participatory Budgeting funds, consistent with applicable law; NOW, THEREFORE,

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE adopting a budget, including a capital improvement program and position modifications, for The City of Seattle for 2025; and creating positions exempt from civil service; all by a 2/3 vote of the City Council.

WHEREAS, in accordance with RCW 35.32A.030, the Mayor submitted a proposed budget for 2025 to the City Council; and

WHEREAS, the Mayor submitted a list of proposed position modifications as part of the 2025 Proposed Budget; and

WHEREAS, by Resolution 24964, the City Council adopted the concept of implementing the City's Capital Improvement Program through appropriations in a budget adopted annually to the greatest extent feasible; and

WHEREAS, the proposed budget for 2025 includes certain appropriations for capital programs that are described in the 2025-2030 Proposed Capital Improvement Program; and

WHEREAS, the City's 2025-2030 Capital Improvement Program, in conjunction with the Capital Facilities, Utilities, and Transportation Elements of the Comprehensive Plan, is in accordance with the State Growth Management Act; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1.

A. In accordance with RCW 35.32A.050, the City Council has modified the proposed budget submitted by the Mayor.

B. The appropriations for the budget control levels in Attachment A to this ordinance, as restricted by the budget provisos included in Clerk File (C.F.) 314539, are adopted as the City’s annual budget for 2025. If a budget proviso refers to a City Council committee, and a committee by that name ceases to exist, the reference shall be to the successor committee with policy oversight of the same subject matter area.

C. The appropriation for each budget control level in Attachment A to this ordinance may be used only for the purpose listed in Attachment A for that budget control level, unless transferred pursuant to Seattle Municipal Code (SMC) Sections 3.14.210-240. Use of any amount of any appropriation restricted by one or more of the provisos in C.F. 314539 for any purpose other than that stated, or for any purpose expressly excluded, or in violation of any condition specified by proviso, whether by transfer pursuant to SMC 3.14.220 or by any other means, is prohibited.

D. In addition to each budget control level in Attachment A to this ordinance, any budget control level created by a previous budget, for which appropriations remain that have not lapsed, is part of the 2025 budget and the un-lapsed appropriations for that budget control level are subject to the restrictions in subsection 1.C of this ordinance. These un-lapsed appropriations continue to be subject to any provisos previously placed on them that have yet to be removed or satisfied.

E. The funds appropriated in each budget control level are available to first satisfy any obligations incurred by contract, including but not limited to satisfaction of any bond obligation, contractual indemnity provision, or lease obligation.

F. Unspent funds for the following Budget Control Levels, appropriated by subsection 1.B of this ordinance, shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance:

Department	Fund	Budget Program	Budget Summary Level/BCL Code
Executive (Office of Housing)	14500 - Payroll Expense Tax	Homeownership	Homeownership & Sustainability (14500-BO-HU-2000)

Executive (Office of Housing)	16400 - Low Income Housing Fund	N/A	Homeownership & Sustainability (16400-BO-HU-2000)
Executive (Office of Housing)	14500 - Payroll Expense Tax	Multifamily Lending	Multifamily Housing (14500-BO-HU-3000)
Executive (Office of Housing)	16400 - Low Income Housing Fund	N/A	Multifamily Housing (16400-BO-HU-3000)

G. The revenue estimates for 2025 contained in the Mayor’s 2025 Proposed Budget, filed in C.F. 314537, as modified by the changes of the City Council in C.F. 314539, are adopted.

Section 2. The “CIP Project Pages” of the 2025-2030 Proposed Capital Improvement Program submitted by the Mayor, filed in C.F. 314538, as modified by the changes of the City Council in C.F. 314539, are adopted as the City’s six-year Capital Improvement Program (CIP).

Section 3.

A. The officer and employee position modifications in Attachment B to this ordinance, including the creation of some positions exempt from civil service, are adopted effective January 1, 2025.

B. The City, by enacting Ordinance 127079, established a position list effective as of January 1, 2024. Subsection 3.A of this ordinance modifies that list. It is anticipated that the Seattle Department of Human Resources will submit a proposed list of the City’s regular positions for each department or office as of January 1, 2025 to the City Council for possible action in 2025. The proposed list should reflect: (i) the modifications made in subsection 3.A of this ordinance that take effect on January 1, 2025; (ii) the reclassifications of regular positions made by the Human Resources Director from January 1, 2024, through December 31, 2024; and (iii) the creation, modification, or abrogation of regular positions, by ordinance, that took effect from January 1, 2024, through December 31, 2024.

Section 4.

A. Subject to the conditions in Section 1 of this ordinance, the appropriation of money in the budget

adopted by this ordinance, for a budget control level that includes a program or project assigned a project identification number in the 2025-2030 Adopted CIP, constitutes authority for the designated City department, commission, or office (after compliance with the State Environmental Policy Act) to acquire personal property; obtain options to acquire real property; negotiate to acquire right-of-way and other real property interests; prepare plans and designs; demolish, construct, or make improvements; and obtain any ancillary services, including, without limitation, planning, engineering, design, appraisal, escrow, title insurance, construction, inspection, environmental audits, and remediation appraisals or other reviews; all in order to carry out the project or program substantially as described in the 2025-2030 Adopted CIP. Each department may obtain the authorized services or property using City staff or by contract as authorized in subsection 4.J of this ordinance. If projects or programs are identified in the 2025-2030 Adopted CIP to be carried out by other entities wholly or in part with City funds, the appropriation constitutes authority to provide such funds to such other entities for such purposes, subject to applicable laws and ordinances.

B. None of the appropriations in the 2025 Adopted Budget may be spent on capital projects or programs unless the projects or programs are specifically identified and assigned a project identification number in the 2025-2030 Adopted CIP or are added to the 2025-2030 Adopted CIP by a future amending ordinance.

C. Without future Council authorization by ordinance, expenditures in 2025 on any project or program identified and assigned a project identification number in the 2025-2030 Adopted CIP for Seattle City Light, Seattle Public Utilities, or the Seattle Department of Transportation, other than expenditures pursuant to unspent capital appropriations carried forward from 2024 into 2025 in accordance with RCW 35.32A.080 and allocated to the same project or program, shall not exceed by more than \$1,000,000 the amount shown as the Appropriations Total in the 2025 column for that project or program in the Adopted CIP, as that amount may be amended by ordinance. The City Budget Office shall certify to the Chair of the City Council Budget Committee a list of those unspent capital appropriations not subject to the expenditures restriction imposed by this subsection by May 1, 2025, and shall also file the list with the City Clerk. The list shall include the project

identification number and the dollar amount by project or program not subject to the expenditure restriction, at minimum.

D. Moneys appropriated from funds, accounts, and subaccounts in which are deposited the proceeds derived from the issuance of bonded obligations shall be expended only in accordance with the terms, conditions, and restrictions of ordinances authorizing such obligations and establishing the respective funds.

E. The 2025-2030 Adopted CIP is part of the 2025 Adopted Budget and identifies, among other projects, those capital projects funded wholly or in part from the proceeds of the taxes authorized in RCW 82.46.010 and/or RCW 82.46.035, and/or from the proceeds of bonds, for the repayment of which tax revenues under RCW 82.46.010 and/or RCW 82.46.035 have been pledged. Such taxes are intended to be in addition to other funds that may be reasonably available for such capital projects.

F. The portions of the 2025-2030 Adopted CIP pertaining to Seattle City Light and Seattle Public Utilities, as those portions of the 2025-2030 Adopted CIP may be amended from time to time, are adopted as systems or plans of additions to, and betterments and extensions of, the facilities, physical plants, or systems of Seattle City Light and Seattle Public Utilities, respectively.

G. The Director of Finance and Administrative Services and the City's Director of Finance are authorized to draw and pay the necessary warrants or checks and to make any necessary transfers among funds and accounts.

H. Except as limited by this section or by Section 1 of this ordinance or by any other ordinance, the funds appropriated in the 2025 Adopted Budget are subject to transfer for use with other projects as provided in SMC Sections 3.14.210-240.

I. The Mayor, or, at the Mayor's request, the head of the department that is designated to carry out a project for and on behalf of The City of Seattle, is authorized to submit applications as may be deemed appropriate to the United States of America, or any of its departments, and the State of Washington, or any of its departments, for financial assistance in carrying out the authorized projects included in the 2025-2030

Adopted CIP; to make for and on behalf of the City all assurances, promises, representations, and consent to suit, and/or covenants to comply with any applicable regulations of the United States relating to implementation of the projects; to act in connection with the applications as the authorized representative of the City; to provide additional information as may be required; and to prepare plans for implementation of terms and conditions as may accompany financial assistance, provided that the submission of an application shall not result in the making of a contract, in incurring of any indebtedness, or in the acceptance of moneys imposing any duties or obligations upon the City except as is authorized by this or another ordinance.

J. The Director of Transportation, the Superintendent of Parks and Recreation, the Director of the Office of Arts and Culture, the General Manager and Chief Executive Officer of City Light, the General Manager and Chief Executive Officer of Seattle Public Utilities, the Director of the Department of Finance and Administrative Services, the City Librarian, the Chief Technology Officer, and the Director of the Seattle Center Department are authorized to negotiate for and enter into non-public works contracts, within their appropriation authority, to obtain property and services authorized in Section 4 of this ordinance to carry out those capital projects and programs included in the 2025-2030 Adopted CIP and assigned to their respective departments or offices.

Section 5. The Mayor and the City Council find that the General Fund's 2025 contribution to the Park and Recreation Fund exceeds the requirements established in Article XI, Section 3 of the City Charter.

Section 6. Pursuant to the requirements of Ordinance 117216, Ordinance 118814, Ordinance 122293, Ordinance 122859, Ordinance 123459, Ordinance 124057, Ordinance 124640, and Ordinance 125190, the City in subsection 1.B of this ordinance and Attachment A to this ordinance appropriates to the Firefighters' Pension Fund ("the Fund") \$26,470,724, of which \$25,168,305 comes from General Fund resources. No beneficiary of the Fund has a vested contractual right to the appropriation of the foregoing amount or any amount appropriated by the City to the Fund.

The Mayor and the City Council, under the authority granted by RCW 41.16.060, find that the General

Fund's 2025 contribution to the Fund is equal to \$0.084 per \$1,000 of assessed value and provides, in accordance with the 2024 Actuarial Report on the condition of the Fund received from a qualified actuary dated May 31, 2024, together with other amounts appropriated by the City for the Fund, an amount equal to or greater than the estimated demands on the fund for 2025 and maintains the actuarial soundness of the Fund as it prevents recording a positive net pension obligation for the Fund.

The Mayor and the City Council find that the amount appropriated by this ordinance is appropriated for the purpose of keeping the Fund flexible and maintaining its integrity and actuarial soundness. The Mayor and City Council also find that such amount is reasonable for the purposes established in the ordinances listed at the beginning of this section, and that such amount bears a material relation to the successful operation of the Fund.

Section 7. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 8. This ordinance shall take effect on January 1, 2025.

Passed by a 2/3 vote of all the members of the City Council the _____ day of _____, 2024, and signed by me in open session in authentication of its passage this _____ day of _____, 2024.

President _____ of the City Council

Approved returned unsigned / vetoed this ____ day of _____, 2024.

Position Modifications for the 2025 Budget

The following is the list of position modifications for the 2025 Proposed Budget that take effect January 1, 2025.

The modifications result from budget actions that eliminate positions, create new positions, change the status of a position, and reclassify positions. Numbers in parentheses are reductions. The figures in the column labeled "Number" represent net position modifications, by Position Status, as a result of changes contained in the 2025 Proposed Budget.

SUMMARY and FISCAL NOTE

Department:	Dept. Contact:	CBO Contact:
City Budget Office		Adam Schaefer

1. BILL SUMMARY

Legislation Title: AN ORDINANCE adopting a budget, including a capital improvement program and position modifications, for The City of Seattle for 2025; and creating positions exempt from civil service; all by a 2/3 vote of the City Council.

Summary and Background of the Legislation: This ordinance adopts The City of Seattle's 2025 Budget, which includes the 2025-2030 Capital Improvement Program (CIP) and position modifications for fiscal year 2025. This legislation is submitted annually to adopt The City of Seattle's budget for the next fiscal year.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☒ Yes ☐ No

Please see the 2025-2030 Proposed/Adopted Capital Improvement Program for project pages and details.

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation have financial impacts to the City? ☒ Yes ☐ No

Please see the 2025 Proposed/Adopted Budget for appropriations, revenues, and positions.

3.d. Other Impacts

Does the legislation have other financial impacts to The City of Seattle, including direct or indirect, one-time or ongoing costs, that are not included in Sections 3.a through 3.c? If so, please describe these financial impacts.

Please see the Budget, CIP, and report of position modifications for detailed information regarding the financial and long-term implications of this legislation.

If the legislation has costs, but they can be absorbed within existing operations, please describe how those costs can be absorbed. The description should clearly describe if the absorbed costs are achievable because the department had excess resources within their existing budget or if by absorbing these costs the department is deprioritizing other work that would have used these resources.

Please describe any financial costs or other impacts of *not* implementing the legislation. RCW 35.32A.050 states that, “Not later than thirty days prior to the beginning of the ensuing fiscal year the City Council shall, by ordinance, adopt the budget submitted by the Mayor as modified by the City Council.” This legislation is the mechanism by which the Seattle City Council adopts the final budget for the City of Seattle.

4. OTHER IMPLICATIONS

- a. Please describe how this legislation may affect any departments besides the originating department.**

All City departments are affected by this legislation. All City departments are aware of the nature of the impact.

- b. Does this legislation affect a piece of property? If yes, please attach a map and explain any impacts on the property. Please attach any Environmental Impact Statements, Determinations of Non-Significance, or other reports generated for this property.**

No.

- c. Please describe any perceived implication for the principles of the Race and Social Justice Initiative.**

Please see the RSJI summary section for an overview and individual department/program descriptions for detailed description of how the Budget impacts Race and Social Justice Initiative principles.

- d. Climate Change Implications**

- i. Emissions: How is this legislation likely to increase or decrease carbon emissions in a material way? Please attach any studies or other materials that were used to inform this response.**

Individual programs and initiatives are described in detail in the Budget and CIP.

- ii. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle’s resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

Individual programs and initiatives are described in detail in the Budget and CIP.

- e. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program’s desired goal(s)? What mechanisms will be used to measure progress towards meeting those goals?**

New and expanded programs are described in detail in the Budget and CIP.

5. CHECKLIST

- ☒ **Is a public hearing required?**
The City Council’s Select Budget Committee will hold public hearings on October 16 and November 12, 2024.
- ☐ **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required?**
- ☒ **If this legislation changes spending and/or revenues for a fund, have you reviewed the relevant fund policies and determined that this legislation complies?**
- ☐ **Does this legislation create a non-utility CIP project that involves a shared financial commitment with a non-City partner agency or organization?**

6. ATTACHMENTS

Summary Attachments: None.

2025 Budget Adoption Ordinance (CB 120905)
Amendment Group A: Proposed Consent Amendment Package

	CBA / SLI #	Title	Sponsor*	Pg.
1	ARTS-001-A-1	Transfer \$224,000 Arts and Culture Fund (2025) and \$224,000 Arts and Culture Fund (2026) from SPR to ARTS and increase appropriations and revenue by \$224,000 (2025) Park and Recreation Fund and \$224,000 Park and Recreation Fund (2026) to SPR for Downtown Buskers	Budget Committee	8

ARTS-001-A

Transfer \$224,000 Arts and Culture Fund (2025) and \$224,000 Arts and Culture Fund (2026) from SPR to ARTS and increase appropriations and revenue by \$224,000 (2025) Park and Recreation Fund and \$224,000 Park and Recreation Fund (2026) to SPR for Downtown Buskers

SPONSORS

Budget Committee

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations to the Office of Arts and Culture (ARTS) by \$224,000 Arts and Culture Fund in 2025 and \$224,000 Arts and Culture Fund in 2026, decrease proposed appropriations to Seattle Parks and Recreation (SPR) by \$224,000 Arts and Culture Fund in 2025 and \$224,000 in 2026, and increase both appropriations and revenues to SPR by \$224,000 Park and Recreation Fund in 2025 and \$224,000 Park and Recreation Fund in 2026 for Downtown Buskers. This CBA would reflect the existing requirement that admissions tax revenues are appropriated to the Arts and Culture Fund and to ARTS and ARTS' commitment to further allocate admission tax revenues to SPR through reimbursement to the Park and Recreation Fund. This CBA would not change the amount of support for this program from the allocation included in the 2025-2026 Proposed Budget. It would reflect the Council's decision not to pass the admissions tax legislation transmitted as part of the 2025-2026 Proposed Budget that would have allowed direct appropriations of admissions tax in the Arts and Culture Fund to departments other than ARTS.

This Council Budget Action (CBA) would increase appropriations to the Office of Arts and Culture (ARTS) by \$382,000 Arts and Culture Fund in 2025 and \$401,000 Arts and Culture Fund in 2026, decrease proposed appropriations to Seattle Center (CEN) by \$382,000 Arts and Culture Fund in 2025 and \$401,000 Arts and Culture Fund in 2026, and increase both expenditures and revenues by \$382,000 Seattle Center Fund in 2025 and \$401,000 Seattle Center Fund in 2026 to CEN for Folklife. It would reflect the existing requirement that admissions tax revenues are appropriated to the Arts and Culture Fund and to ARTS as well as ARTS' commitment to further allocate revenues to CEN through reimbursement to the Seattle Center Fund. This CBA would not change the amount of support for this program from the allocation included the 2025-2026 Proposed Budget. It would reflect the Council's decision not to pass the admissions tax legislation transmitted as part of the 2025-2026 Proposed Budget that would have allowed direct appropriations of admissions tax in the Arts and Culture Fund to departments other than ARTS.

2025-2026 COUNCIL BUDGET ACTION

V2

ARTS-007-A

Increase ARTS by \$100,000 JumpStart Fund (2025) for HopeCorps for the Ballard Brewery District

SPONSORS

Dan Strauss, Tanya Woo

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$(100,000)	\$0
Total Budget Balance Effect	\$(100,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Office of Arts and Culture (ARTS) by \$100,000 JumpStart Fund in 2025 (one-time) to support murals in and around the Ballard brewery district through the HopeCorps program. The Ballard Brewery district is a concentration of breweries located in the Ballard neighborhood with over a dozen breweries within an approximate one-mile radius between NW Market Street, 17th Ave. NW, NW 46th St., and 8th Ave. NW.

HopeCorps is an ARTS program started in 2021 to support economic recovery for Seattle's creative workforce by connecting under- and unemployed artists, creative workers, and culture keepers with career opportunities that contribute to the well-being of Seattle. Since 2021, the City has invested \$3.75 million in HopeCorps through more than 60 projects such as free workshops, murals, community meals, and media campaigns. The 2025-2026 Proposed Budget would add \$356,000 for HopeCorps in Chinatown International District, Little Saigon, King Street Station, Union Street Plaza, and Pioneer Square. CBA ARTS-009-A would add an additional \$250,000 for HopeCorps in Capitol Hill.

This one-time spending will not impact the long-term sustainability of the JumpStart fund in the future, but will reduce the near-term JumpStart Fund balance.

CARE-001S-A

Request reporting from CARE on Call Center staffing and operations

SPONSORS

Maritza Rivera, Cathy Moore, Robert Kettle

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Community Assisted Response and Engagement (CARE) Department provide quarterly written reports to the Public Safety Committee, the first report due no later than March 31, 2025, on staffing levels and operational updates for the Call Center, to include the following: response times for emergency calls; response times for non-emergency calls; current call-taker position vacancies; estimated time to fill identified vacancies; and, call-taker turnover year-to-date. This SLI would also request that the CARE Department create and maintain a regularly updated publicly accessible online dashboard, no later than March 31, 2025, providing information on the Call Center, to include details of response times for emergency, and non-emergency calls, and call volumes for emergency and non-emergency calls.

Responsible Council Committee(s): Public Safety

DUE DATE: March 31, 2025

2025-2026 COUNCIL BUDGET ACTION

V1

CBO-001-A

Errata Corrections to the Proposed Budget and CIP

SPONSORS

Budget Committee

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$(1,000,000)	\$(941,915)
Total Budget Balance Effect	\$(1,000,000)	\$(941,915)

DESCRIPTION

This Council Budget Action (CBA) would correct errors in appropriations and revenues for the 2025-2026 Proposed Budget. Also, this CBA would correct several project pages in the 2025 – 2030 Proposed Capital Improvement Program (CIP). The City Budget Office (CBO) and Central Staff identified these errata after transmittal to the City Council.

Only transactions that correct appropriations or revenues that were included in the 2025-2026 Proposed Budget are included in the Summary of Dollar Effect tables above. Discrete corrections to appropriations and revenues are shown in separate transactions in the Transaction table below.

The corrections included in this CBA by department include:

Seattle Department of Transportation (SDOT) 1: Restore \$1,000,000 Transportation Fund to Arborist Services in 2025 and 2026. The baseline budget was inadvertently reduced by \$1,000,000 in 2025 and 2026. This action would restore baseline level funding for Arborist Services while reducing reserves in the Transportation Fund.

SDOT 2: Correct the Budget Summary Level (BSL) description in Attachment A (Appropriations by Budget Control Level) to the 2025 Budget Adoption Ordinance (CB 120905) for the SDOT Capital General Expense BSL to correctly reference the title of the BSL to read "The purpose of the Capital General Expense Budget Summary Level is to meet debt service obligations on funds borrowed to meet the Seattle Department of Transportation's capital expenditure requirements."

SDOT 3: Reduce Transportation Fund appropriations and revenues to zero for the Waterfront and Civic Projects BSL (BO-TR-16000) in the 2026 Proposed Budget. This reimbursable budget authority will not be required in 2026 as the project nears completion. The budget adjustment should have been included in the development of the Proposed Budget as part of the baseline.

2025-2026 COUNCIL BUDGET ACTION

Amended CIP Project Pages:

See Attachment 1. The amended CIP Project Pages are ordered as shown in the list below. Corrections are shown in red. Deletions are struck through and additions are underlined.

Finance and Administrative Services (FAS)
 Energy Efficiency for Municipal Buildings (MC-FA-ENEFFMBLD).
 Seattle Public Utilities (SPU)
 1% for Arts (MC-SU-C4118)
 Alaskan Way Viaduct & Seawall Replacement Program (MC-SU-C4102)

CBO-002-A

Increase SDCI by \$1.24 million Construction & Inspections Fund (2025) and 11.0 FTE, increase Seattle IT by \$1.0 million JumpStart Fund (2025) and 12.0 FTE, increase FAS by \$891,000 FAS Fund (2025) and 12.5 FTE, and increase DON, FAS, and SDHR by \$706,000 GF (2025) and 8.0 FTE for a six-month restoration of positions subject to layoff; and impose provisos

SPONSORS

Budget Committee

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(705,847)	\$0
Other Funds	\$(3,141,138)	\$0
Total Budget Balance Effect	\$(3,846,985)	\$0

DESCRIPTION

This Council Budget Action (CBA) would make the following changes:

- (1) Increase proposed appropriations in the Seattle Department of Construction and Inspections (SDCI) by \$1.24 million Construction and Inspections Fund in 2025 (one-time) and increase position authority by 11.0 FTE for the six-month restoration of 14 positions (including three unfunded positions with sustained position authority) subject to layoff;
- (2) Increase proposed appropriations in Seattle Information Technology (Seattle IT) by \$1.0 million JumpStart Fund in 2025 (one-time) and increase position authority by 12.0 FTE for the six-month restoration of 12 positions subject to layoff;
- (3) Increase proposed appropriations in Finance and Administrative Services (FAS) by \$891,000 Finance and Administrative Services Fund in 2025 (one-time) and increase position authority by 12.5 FTE for the six-month restoration of 13 positions subject to layoff;
- (4) Increase proposed appropriations in the Department of Neighborhoods (DON), FAS, and Seattle Department of Human Resources (SDHR) by a total of \$706,000 GF in 2025 (one-time) and increase position authority by a total of 8.0 FTE for the six-month restoration of eight positions subject to layoff; and
- (5) Impose a proviso on each of the department's 2025 budget to restrict use of the funds to retaining these positions.

2025-2026 COUNCIL BUDGET ACTION

This version of the CBA reflects removal of 5.0 FTE (total of seven positions) that are now vacant:

- SDCI, 1.0 FTE Permit Specialist Supervisor (#10005942) and two unfunded positions Land Use Planner II (#10004368) and Land Use Planner III (#10005730);
- FAS, 1.0 FTE Senior Accountant (#10007149);
- SDHR, 1.0 FTE Management Systems Analyst (#10005785); and
- Seattle Parks and Recreation, 1.0 FTE Administrative Specialist II-BU (#00019936) and 1.0 FTE Senior Recreation Program Specialist (#10007716)

The provisos on a portion of each of the six department's 2025 Proposed Budget would restrict use of the increased appropriations.

This CBA would impose the following provisos:

"Of the appropriation in the 2025 Budget for the Seattle Department of Construction and Inspection's Land Use & Engineering Services Budget Summary Level (SDCI-BO-CI-U2000), \$1,236,822 is appropriated solely for retaining any combination of the following positions: Land Use Planner II (#10003705), Land Use Planner III (#10005732, #10005733, #10005936, #10005937, #10006798, #10006800, #10006801, #10006802, #10006803, #10006804, #10006806, #10006807), and Land Use Planner IV (#10006808) and may be spent for no other purpose."

"Of the appropriation in the 2025 Budget for Seattle Information Technology's Frontline Services and Workplace Budget Summary Level (ITD-BO-IT-D0400), \$920,624 is appropriated solely for retaining any combination of the following positions: Information Technology Professional C-BU (#00015680, #00023001, #00024970, #00025133, #00025973, #10002225, #10002700, #10006190, #10006948) and Information Technology Systems Analyst (#00017293, #00019233) and may be spent for no other purpose."

"Of the appropriation in the 2025 Budget for Seattle Information Technology's Applications Budget Summary Level (ITD-BO-IT-D0600), \$92,353 is appropriated solely for retaining the following position: Strategic Advisor 1, Information Technology (#10006743) and may be spent for no other purpose."

"Of the appropriation in the 2025 Budget for the Finance and Administrative Services' Citywide Operational Services Budget Summary Level (FAS-BO-FA-0001), \$63,582 is appropriated solely for retaining the following position: Administrative Staff Analyst (#10002511) and may be spent for no other purpose."

"Of the appropriation in the 2025 Budget for the Finance and Administrative Services' Office of City Finance Budget Summary Level (FAS-BO-FA-0003), \$631,556 is appropriated solely for retaining any combination of the following positions: Strategic Advisor 2, Exempt (#10002917), Strategic Advisor 2, Info Technology (#10006923), Accounting Tech II (#00010735), Claims Adjuster-FAS (#00018653), Treasury Cashier (#10005172, #10003521), Treasury Cashier, Senior (#00010720), Remittance Proc Tech, Senior (#00010728), Remittance Proc Tech (#00020815), Accounting Tech III-BU (#00010723), and Admin Spec 1-BU (#00025934) and may be spent for no other purpose."

"Of the appropriation in the 2025 Budget for the Finance and Administrative Services' Citywide Admin Services Budget Summary Level (FAS-BO-FA-0002), \$117,780 is appropriated solely for retaining either or both of the following positions: Admin Spec II-BU (#00017842) and Capital Projects Coordinator, Assistant (#00017446) and may be spent for no other purpose."

2025-2026 COUNCIL BUDGET ACTION

“Of the appropriation in the 2025 Budget for the Finance and Administrative Services’ Leadership and Administration Budget Summary Level (FAS-BO-FA-0006), \$166,187 is appropriated solely for funding healthcare benefits for any of the following positions: Administrative Staff Analyst (#10002511), Strategic Advisor 2, Exempt (#10002917), Strategic Advisor 2, Info Technology (#10006923), Accounting Tech II (#00010735), Claims Adjuster-FAS (#00018653), Treasury Cashier (#10005172, #10003521), Treasury Cashier, Senior (#00010720), Remittance Proc Tech, Senior (#00010728), Remittance Proc Tech (#00020815), Accounting Tech III-BU (#00010723), Admin Spec 1-BU (#00025934), Admin Spec II-BU (#00017842) and Capital Projects Coordinator, Assistant (#00017446) and may be spent for no other purpose.”

“Of the appropriation in the 2025 Budget for the Department of Neighborhoods’ Community Building Budget Summary Level (DON- BO-DN-I3300), \$92,353 is appropriated solely for retaining the following position: Strategic Advisor 1, Exempt (#10006367) and may be spent for no other purpose.”

“Of the appropriation in the 2025 Budget for the Seattle Department of Human Resources’ HR Services Budget Summary Level (SDHR-BO-HR-N6000), \$525,728 is appropriated solely for retaining any combination of the following positions: Personnel Analyst Supervisor (#00024064), Strategic Advisor 1, General Government (#00016561), Strategic Advisor 1, Exempt (#10005532, #10006865), Training & Education Coordinator, Senior (#00019183), and Personnel Analyst (#10005688) and may be spent for no other purpose.”

The financial plans for the Construction and Inspections Fund, JumpStart Fund, and Finance and Administrative Services Fund included in the 2025-2026 Proposed Budget show a positive unrestricted fund balance in 2026 and beyond. The one-time spending in this CBA would not impact the sustainability of these funds in the future.

The one-time spending in this CBA would not impact the projected ongoing operating GF deficit in the 2027-2028 biennium.

CBO-002S-A

Request that CBO collaborate with SDHR to report on developing or enhancing programs for City employees subject to layoff

SPONSORS

Budget Committee

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the City Budget Office (CBO) collaborate with the Seattle Department of Human Resources (SDHR) to report on developing or enhancing programs related to employment or other opportunities for City employees subject to layoff. This SLI relates to CBO-002-A-2, which would provide a six-month restoration of City positions subject to layoff in the Department of Neighborhoods, Finance and Administrative Services, Seattle Department of Construction and Inspections, SDHR, and Seattle Information Technology.

SDHR currently administers the following programs for employees subject to layoff:

- Project Hire job referral program for civil service employees,
- Reinstatement list for civil service employees,
- Learning and skill building opportunities,
- Employee Assistance Program services, and
- Continued healthcare coverage under the Consolidated Omnibus Budget Reconciliation Act (COBRA).

This SLI requests CBO to work with SDHR to (1) further develop or enhance programs for City employees subject to layoff, (2) propose a timeline and implementation plan, and (3) provide accompanying policies or legislation, as appropriate.

CBO and SDHR are encouraged to consider a wide variety of enhancements, including but not limited to clearly describing the Project Hire program criteria and nomination process; expanding coverage of the Project Hire and reinstatement list to exempt employees; broadening the scope of job referrals in the Project Hire program; and increasing visibility and notice of layoff programs and career transition resources.

Responsible Council Committee(s): Finance, Native Communities & Tribal Governments

DUE DATE: June 2, 2025

2025 STATEMENT OF LEGISLATIVE INTENT

V2

CBO-003S-A

Request that CBO report on past budget underspend and grants

SPONSORS

Sara Nelson

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the City Budget Office (CBO) provide a report on historical underspend from 2018 through 2023, organized by fund and department. The report should analyze and identify the specific reasons for the underspend, and where appropriate (e.g. affordable housing), identify reforms and process improvements to expend appropriations more expeditiously.

This SLI would also request that CBO and Central Staff collaborate on a process that uses information from the twice-yearly budget-to-actual reports requested of CBO and the Office of City Finance in Resolution 32116, and other budget monitoring systems used by the Executive, to demonstrate the need for additional appropriations in comprehensive supplemental budget requests, including the annual carryforward legislation, the mid-year supplemental budget legislation, and the year-end supplemental budget legislation. This process should analyze budget savings during the year as a way to streamline requests for additional appropriations.

Finally, this SLI would request that CBO develop a searchable and sortable database of outstanding City contracts and grants (exclusive of EDI awards) as of December 31, 2024, encompassing the three departments with the largest portfolio of grants to non-profit providers. At a minimum, this database must include: (1) the contracting/granting City agency; (2) the date the item was originated; (3) the amount of the item; (4) the name of the receiving organization; (5) the contract/grant deliverables; and (6) any performance measures listed in the contract/grant.

Responsible Council Committee(s): Governance, Accountability, & Economic Development

DUE DATE: July 31, 2025

2025 STATEMENT OF LEGISLATIVE INTENT

V1

CBO-004S-A

Request that CBO and SCERS analyze an early retirement incentive for City employees

SPONSORS

Budget Committee

DESCRIPTION

This Statement of Legislative Intent requests that the City Budget Office (CBO) work with the Seattle City Employees Retirement System (SCERS) to evaluate the financial and operational impacts of providing an early retirement incentive to City employees. As the City enters a period of slower growth, such an incentive could be a useful tool for managing transitions in the City's workforce.

Responsible Council Committee(s): Finance, Native Communities & Tribal Governments

DUE DATE: June 2, 2025

2025-2026 COUNCIL BUDGET ACTION

V2

CBO-902-A

Replace GF and JumpStart Fund appropriations with increased REET revenue to balance the impacts of the October revenue forecast update

SPONSORS

Budget Committee

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$1,042,414	\$1,468,000
Other Funds	\$(1,042,414)	\$(1,468,000)
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would replace \$7.9 million of GF and JumpStart Fund appropriations with Real Estate Excise Tax (REET) Capital Funds within Seattle Department of Transportation, Seattle Parks and Recreation, Department of Finance and Administrative Services, and Seattle Center's Capital Improvement Program (CIP) portfolios to reflect the increased REET revenue in the October revenue forecast update.

The impact of this CBA on the Pedestrian Master Plan - School Safety CIP project is shown in Attachment A. The impact of this CBA on the Major Maintenance and Asset Management CIP project is shown in Attachment B. The impact of this CBA on the Municipal Energy Efficiency Program - Parks CIP project is shown in Attachment C. The impact of this CBA on the Energy Efficiency for Municipal Buildings CIP project is shown in Attachment D. The impact of this CBA on the Municipal Energy Efficiency Program CIP project is shown in Attachment E.

Pedestrian Master Plan - School Safety

Project No:	MC-TR-C059	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project improves pedestrian and bicycle safety around schools. The work typically includes school zone signing and 20mph flashing beacons; new crosswalks; curb bulbs; crossing beacons and pedestrian signals; new sidewalks and maintenance; traffic calming; changes to traffic circulation around schools; installation of school zone cameras; and school walking route maps. The base level of transportation funding provides improvements at approximately three to four schools per year. The project also funds safe biking and walking education and traffic safety outreach campaigns. Operation of school zone cameras is directly funded from the Seattle Police Department budget.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding for asset renewal in parks and recreation facilities citywide, including athletic fields, play areas, swimming pools, trails, buildings, accessibility elements, outdoor infrastructure, and related work. This project also funds integrated asset management to track and forecast long-term asset and maintenance needs. Typical major maintenance improvements may include, but are not limited to renovating buildings, Americans with Disabilities (ADA) access improvements, replacing play area structures, forest, landscape, trail maintenance and improvements, swimming pool repairs, athletic field refurbishment, and installation of energy efficient lighting, and related major maintenance work. These projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, reclaim Parks property, and improve the overall park experience for the public.

Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides for investment in more energy efficient building systems and other facility efficiency improvements. By making these investments the City expects future savings in utility costs, and significant progress toward carbon neutrality. This program is intended to fund facility retrofit projects identified by energy audits. These projects are identified and worked on in collaboration with the Office for Sustainability and Environment (OSE) and funding varies by year.

Energy Efficiency for Municipal Buildings

Project No:	MC-FA-ENEFMBLD	BSL Code:	BC-FA-EXTPROJ
Project Type:	Ongoing	BSL Name:	FAS Oversight-External Projects
Project Category:	Improved Facility	Location:	Multiple City facilities
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project funds energy efficiency work across City facilities, managed by the Office of Sustainability and Environment (OSE), in support of the City's goal to achieve a 20% reduction in building energy use by the year 2020. OSE will implement a package of energy efficiency projects, as well as continue a suite of O&M improvements, program management, measurement and tracking, and building assessments. The energy efficiency upgrades are expected to generate utility rebates paid by Seattle City Light and Puget Sound Energy, to be deposited into the General Subfund. Work may include but is not limited to, building tune-ups, facility improvements, building energy upgrades, and energy efficiency measures.

2025-2026 COUNCIL BUDGET ACTION

V1

CEN-001-A

Increase CEN by \$250,000 JumpStart Fund (2025) and \$250,000 JumpStart Fund (2026) for Bumbershoot Workforce Development Program

SPONSORS

Budget Committee

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$(250,000)	\$(250,000)
Total Budget Balance Effect	\$(250,000)	\$(250,000)

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Seattle Center (CEN) by \$250,000 JumpStart Fund in 2025 and \$250,000 JumpStart Fund in 2026 for the Bumbershoot Workforce Development Program (BWDP) in conjunction with the annual Bumbershoot Arts and Music Festival held at the Seattle Center.

The 2025-2026 Proposed Budget would not continue the 2024 one-time support of \$150,000 JumpStart Fund and \$100,000 Arts and Culture Fund for the BWDP. Ending City support would not necessarily end the program. The program without sufficient support would reduce or eliminate stipends or even institute tuition fees, but could continue.

The total annual budget of BWDP is approximately \$480,000. Costs for administration, instructional wages and other costs of approximately \$230k in 2024 are static, whereas \$250k in program expenses (stipend payments, internship wages and other participant support costs) are scalable. Third Stone, the City's non-profit Bumbershoot partner, is actively seeking grants and private donations. Third Stone successfully garnered state funding in the past and hope to achieve that again in 2025.

The financial plan for the JumpStart Fund included in the 2025-2026 Proposed Budget shows a positive unrestricted fund balance in 2027 and beyond. This CBA would reduce the unrestricted fund balance but based on the current financial plan, this ongoing appropriation can be supported without creating a deficit in this fund in the future.

General Fund	\$(424,560)	\$(441,543)
Other Funds	\$424,560	\$441,543
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to Seattle Center (CEN) by \$425,000 GF in 2025 and \$442,000 GF in 2026 and decrease proposed appropriations to CEN by \$425,000 Arts and Culture Fund in 2025 and \$442,000 Arts and Culture Fund in 2026 for Festal in CEN. This CBA would reverse the proposal in the 2025-2026 Proposed Budget to use admissions tax rather than GF to support cultural administration staff, reflecting the October revenue forecast that decreased admissions tax projections, but maintaining the overall amount of support proposed in the 2025-2026 Proposed Budget.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$442,000.

2025-2026 COUNCIL BUDGET ACTION

V1

CIV-001-A

Increase CIV by \$312,000 GF (2025) and \$331,000 GF (2026) and 1.0 FTE Senior Personnel Analyst for an annual firefighter exam process

SPONSORS

Budget Committee

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(311,708)	\$(331,484)
Total Budget Balance Effect	\$(311,708)	\$(331,484)

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to Civil Service Commissions (CIV) by \$312,000 GF in 2025 and \$331,000 GF in 2026 and increase position authority by 1.0 FTE Senior Personnel Analyst for an annual firefighter exam process. The increased appropriations would cover necessary labor and non-labor expenses.

Currently, CIV conducts an entry-level firefighter exam every two years. CIV is responsible for organizing pre-application workshops, managing the application process, and responding to applicant inquiries, many of which require individualized assistance. The entry-level firefighter exam is the City's largest hiring process, attracting between 3,700 and 7,500 applicants. In 2022, the exam resulted in an eligible roster of 1,624 candidates who were subject to further evaluation by the Seattle Fire Department (SFD). Ultimately, SFD aims to hire and train 60-80 recruits per year.

This CBA would provide CIV with the necessary resources to conduct an entry-level firefighter exam on a yearly basis. The proposed appropriations would fund the addition of one position to support the exam process and resources to cover space rental in a conference center and hiring a consultant/exam vendor.

The goal of an annual firefighter exam is for SFD to have a refreshed list of eligible candidates every year to increase candidate response rates and result in a greater volume of recruits hired on a permanent basis. Under the current cadence of entry-level testing every two years, SFD observes a lower response and interest from candidates during the second year of the eligibility register's use. On average, SFD permanently hires about 73 percent of each recruitment class (i.e., about 57 firefighters).

SFD vacancies are higher than normal. SFD has position authority for 1,111 uniformed members. The current vacancy rate is 11.1 percent (i.e., 123 vacancies), partially due to the recent addition of 24 FTE to maintain operations at Fire Stations 26 and 37 in West Seattle. On average, the vacancy rate is about 7.7 percent. In 2023, SFD experienced 96 firefighter separations, including SFD recruits who did not

2025-2026 COUNCIL BUDGET ACTION

graduate from recruit school and SFD firefighters who separate from service, typically due to retirement. This shortfall means that firefighters must work additional shifts on an overtime basis to meet minimum staffing levels. This CBA aims to restore SFD's firefighter staffing level to its historic norm.

This CBA would worsen the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$331,000.

2025-2026 COUNCIL BUDGET ACTION

V1

DEEL-001-A

Increase DEEL by \$500,000 Families and Education Levy (2025) for Child Care Assistance Program

SPONSORS

Rob Saka

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$(500,000)	\$0
Total Budget Balance Effect	\$(500,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Department of Education and Early Learning (DEEL) by \$500,000 Families and Education Levy (FEL) Fund in 2025 (one-time) for the Child Care Assistance Program (CCAP).

CCAP helps families living within Seattle city limits pay for the cost of child care for children one month to 12 years of age, for households below 94 percent of the State Median Income.

Since mid-2023, CCAP has had a waitlist. As of September 2024, the waitlist consisted of 386 families. The 2025 Proposed Budget would slightly increase CCAP's subsidies for families not participating in the Seattle Preschool Program to \$4.5 million, and does not propose additional funding to address the waitlist. This CBA would reduce the estimated 2025 waitlist by approximately 25 percent.

The Families and Education Levy (FEL) was approved by voters in 2011 and was replaced by the Families, Education, Preschool and Promise (FEPP) Levy in 2018. At the end of 2025, the FEL Fund is anticipated to have an unreserved fund balance of \$847,000. DEEL intends to retire the FEL Fund and transfer all remaining FEL fund balance to the FEPP Levy Fund by the end of 2025. This CBA combined with the FEL fund balance usage in CBA-002-A-2 would result in a remaining FEL fund balance of \$204,000.

Consistent with this CBA, the Families and Education Levy (FEL) has a stated purpose to contribute to the academic success of Seattle's children, and identifies access for low-income families to high quality childcare among its core strategies. By adopting this CBA, Council is authorizing the appropriation of unreserved FEL fund balance to a program that qualifies as an Education Support Service according to Section 6 of Ordinance 123567.

DEEL-002-A

Increase DEEL by \$143,000 GF (2025) for after-school and summer learning programs grounded in ethnic studies, shift \$143,000 from GF to Families and Education Levy for Parent-Child Plus, and impose a proviso

SPONSORS

Tammy Morales

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$(143,000)	\$0
Total Budget Balance Effect	\$(143,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Department of Education and Early Learning (DEEL) by \$143,000 GF in 2025 (one-time), and impose a proviso on that funding, to contract with an organization that provides after-school and summer learning programs grounded in ethnic studies for middle school students, such as El Centro de la Raza's Roberto Maestas After School Program.

The funding is intended to support programs that emphasize activities that allow students to understand and embrace their own cultural backgrounds and learning needs, develop cultural confidence as learners, provide services to family members supporting students in their academic success, and provide academic support for maintaining appropriate grade level skillsets.

In order to balance this General Fund appropriation, this CBA would also shift \$143,000 in funding for the Parent-Child Plus Program from General Fund to the Families and Education Levy (FEL). The Families and Education Levy (FEL) was approved by voters in 2011 and was replaced by the Families, Education, Preschool and Promise (FEPP) Levy in 2018. At the end of 2025, the FEL Fund is anticipated to have an unreserved fund balance of \$847,000. DEEL intends to retire the FEL Fund and transfer all remaining FEL fund balance to the FEPP Levy Fund by the end of 2025. This CBA combined with the FEL fund balance usage in CBA-001-A-1 would result in a remaining FEL fund balance of \$204,000.

This CBA would impose the following proviso:

"Of the appropriations in the Department of Education and Early Learning's 2025 budget for the K-12 Programs Budget Summary Level (DEEL-BO-EE-IL200), \$143,000 is appropriated solely for after-school and summer learning programs grounded in ethnic studies for middle school students, and may be spent for no other purpose."

DON-001-A

Increase DON by \$208,000 GF (2025) and \$228,000 GF (2026) for the Neighborhood Matching Fund

SPONSORS

Maritza Rivera

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(208,177)	\$(227,808)
Total Budget Balance Effect	\$(208,177)	\$(227,808)

DESCRIPTION

This Council Budget Action would increase appropriations to the Department of Neighborhoods (DON) by \$208,000 GF in 2025 and \$228,000 GF in 2026 for the Neighborhood Matching Fund (NMF). It would restore the reduction proposed in the 2025-2026 Proposed Budget. As stated by DON, the NMF was created to provide matching dollars for neighborhood improvement, organizing, or projects developed and implemented by community members. Central to NMF is the community match which requires awardees to match their award with contributions from the community whether as volunteer time, donated materials, donated professional services, or cash. Neighborhood groups, community organizations, informal groups, and business groups who want to do a project to build stronger community connections are encouraged to apply. All applicant groups must be open and inclusive, actively engage diverse community members, and be significantly composed of people who live and/or work in Seattle. The CBA would make a total of \$2.3 million available for these purposes each year.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$228,000.

General Fund	\$(125,000)	\$(125,000)
Total Budget Balance Effect	\$(125,000)	\$(125,000)

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations to the Department of Neighborhoods (DON) by \$125,000 GF in 2025 and \$125,000 GF in 2026 to support a community safety coordinator for Capitol Hill. Community safety coordinators fulfill a variety of roles related to community safety in neighborhoods. These efforts include, but are not limited to, engaging with businesses, neighborhood organizations, residents, and City departments to foster relationships, organizing and supporting public safety efforts in the neighborhood, coordinating events and activities, and sharing and distributing public safety information. DON currently allocates \$100,000 GF each for ongoing contracts for community safety coordinators in Ballard, South Park, and Chinatown-International District. DON-004-A would increase funding for those contracts to \$125,000 annually. This CBA would add support for Capitol Hill to also hold such a contract.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$125,000.

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations to the Department of Neighborhoods (DON) by \$156,000 GF in 2025 and \$164,000 GF in 2026 and 1.0 FTE Planning and Development Specialist II on an ongoing basis to support coordination and outreach regarding community organizing, mutual aid, and de-escalation efforts. This position would serve an information provision and coordinating role, helping with things such as providing residents with information about how to help their neighbors in crisis, best practices for de-escalating conflict, how to coordinate mutual aid efforts, and connecting residents with organizations or community members already doing such work. The City does not currently have an individual who provides such coordinating and support services to residents who would like to learn how to best assist their neighbors.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$164,000.

2025 STATEMENT OF LEGISLATIVE INTENT

V1

FAS-004S-A

Request that FAS report on implementing a comprehensive responsible contractor policy for City contracts

SPONSORS

Dan Strauss

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Department of Finance and Administrative Services (FAS) report on implementing a comprehensive responsible contractor policy for City contracts.

The City has legislated a variety of requirements in the Seattle Municipal Code for City contracts, including but not limited to equality in contracting (Chapter 20.42); nondiscriminatory provision of benefits (Chapter 20.45); and commitment to engaging in fair and responsible business practices (Chapter 20.46). In Chapter 20.46, contractors are prohibited from engaging in “unfair business practices,” which are limited to criminal or systematic deceptive, fraudulent, or abusive acts under state and federal consumer laws.

This SLI requests FAS to work in consultation with the City Attorney’s Office, stakeholders, and other jurisdictions to (1) develop contract requirements that expand upon existing legal obligations and require a comprehensive commitment to responsible business practices, (2) provide an implementation plan for adopting such requirements, and (3) provide accompanying legislation, as appropriate.

When developing additional contract requirements, FAS should consider model policies, such as the Sound Transit Responsible Contractor Policy, and the following criteria:

- Demonstrated compliance with local, state, and federal labor standards;
- Employee compensation that supports workforce equity and is at or above the prevailing or living wage;
- Provision of workforce benefits, such as health insurance and compensated days off;
- Prioritization of worker safety and promotion of training opportunities to improve the quality of the workforce;
- Provision of a worker complaint and grievance procedure;
- Respect for the right of employees to bargain collectively and commitment to remaining neutral in labor organizing drives;
- Established labor harmony agreement; and
- Support for environmental and energy efficiency policies.

2025 STATEMENT OF LEGISLATIVE INTENT

FAS may consider whether certain criteria are appropriate for specific types of contracts, such as those for projects valued above \$373,000 and requiring a request for proposal or request for qualification process.

Responsible Council Committee(s): Finance, Native Communities & Tribal Governments

DUE DATE: April 1, 2025

2025-2026 COUNCIL BUDGET ACTION

V1

FG-101-A

Increase FG by \$2.5 million GF (2025) and \$2.5 million GF (2026) for Seattle Chinese Garden capital improvements

SPONSORS

Dan Strauss, Rob Saka, Tanya Woo

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(2,500,000)	\$(2,500,000)
Total Budget Balance Effect	\$(2,500,000)	\$(2,500,000)

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations to Finance General (FG) by \$2.5 million GF in 2025 and \$2.5 million GF in 2026 (one-time) for capital improvements to continue implementation of the Seattle Chinese Garden's master plan. The Seattle Chinese Garden is a public garden located on the campus of South Seattle College that was established in 1999 through a partnership between the City and its sister city, Chongqing, China.

This CBA does not impact the projected ongoing operating GF deficit in the 2027-2028 biennium.

General Fund	\$(16,886,616)	\$(25,181,484)
Other Funds	\$13,129,251	\$20,333,717
Total Budget Balance Effect	\$(3,757,365)	\$(4,847,767)

DESCRIPTION

This Council Budget Action (CBA) recognizes the impacts to the General Fund (GF) and other non-transportation funds from the Office of Economic and Revenue Forecasts (OERF)/City Budget Office (CBO) October 2024 forecast update. In August of each year, the City receives a revenue forecast that is used for the Mayor's budget proposal, followed by a fall update during Council's budget deliberations. Details on the 2025 and 2026 impacts from the October revenue forecast update are listed below by fund:

- General Fund (00100): This change decreases GF revenues by \$16.9 million in 2025 and by \$25.2 million in 2026 due to decreases in property tax, retail sales tax, business and occupation tax, private utility taxes and parking fees.
- JumpStart Fund (14500): This change increases JumpStart Fund revenues by \$10.5 million in 2025 and \$14.6 million in 2026 due to increases in payroll expense tax revenues.
- Real Estate Excise Tax I and II Funds (30010/30020): This change increases combined Real Estate Excise Tax Fund I/II revenues by \$2.6 million in 2025 and \$5.5 million in 2026 due to increases in taxable property sales.
- Arts & Culture Fund (12400): This change decreases Arts & Culture Fund revenues by \$530,000 in 2025 and \$550,000 in 2026 due to decreases in admissions tax revenues.
- Short Term Rental Tax Fund (12200): This change increases Short Term Rental Tax Fund revenues by \$618,000 in 2025 and \$771,000 in 2026 due to increases in short term rental tax revenues.

V1

HSD-001-A

Increase HSD by \$1.9 million Low-Income Housing Fund (2025) and \$1.9 million Low-Income Housing Fund (2026) for homelessness prevention services

SPONSORS

Cathy Moore, Tammy Morales

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations to the Human Services Department (HSD) by \$1.9 million in 2025 and \$1.9 million in 2026 from the Low-Income Housing Fund investment earnings to be used for homelessness prevention services, which include rent payments and rent arrears.

The Seattle Housing Levy Administrative and Financial Plan for Program Years 2024-2026, adopted by City Council in 2024, requires that investment earnings from the Rental Preservation and Production Program be used to fund the Homelessness Prevention and Housing Stability Program. Eligible uses include rent payments, rent or utility arrears, security and utility deposits, other move-in costs and transportation assistance. Households must be at or below 50% AMI to qualify and must be at risk of homelessness and have been determined to have a housing crisis. In addition to the funds added through this CBA, the 2025-2026 Proposed Budget provides \$2.4 in 2023 Housing Levy funding and \$2.4 million GF for homelessness prevention.

This CBA is one-time for 2025 and 2026, as investment earnings fluctuate by year and future amounts are not known. This CBA does not impact the projected ongoing operating GF deficit in the 2027-2028 biennium.

2025-2026 COUNCIL BUDGET ACTION

V2

HSD-002-A

Increase HSD by \$3.2 million GF (2025) and \$2.7 million GF (2026) to support the start-up and operations of two new non-congregate shelters

SPONSORS

Budget Committee

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(3,200,000)	\$(2,678,000)
Total Budget Balance Effect	\$(3,200,000)	\$(2,678,000)

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Human Services Department (HSD) by \$3.2 million in 2025 (one-time) and \$2.7 million in 2026 (ongoing) to fund the start-up and operational costs for up to two new non-congregate shelters, such as tiny house villages (THVs), or net new beds at existing non-congregate shelters. Council's intent is to reserve a portion of the new units created through this CBA for unsheltered people in high impact areas.

Funding would include:

- \$1.9 million for start-up costs in 2025.
- \$650,000 of one-time funding in 2025; this assumes that new shelters or new beds will become operational in July 2025, so that only a half year of operating costs will be incurred.
- \$2.7 million in ongoing funding in 2026; this assumes a full year of operating costs and incorporates a 3% increase over what a full year of 2025 costs would have been, consistent with the projected 3% inflationary adjustment for HSD administered contracts in 2026.

The CBA assumes that it will take six months for non-congregate shelters or new units to become operational. The funding in this CBA can be used for any type of non-congregate shelter. Non-congregate shelter operational costs for THVs range from a low of \$22,000 to a high of \$56,000, per unit, with an average per unit cost of \$35,000. Operational costs depend on a number of factors, including the type of project, lease costs, needs and acuity of population being served and on-site services offered. Master leasing an apartment building for shelter could cost around \$45,000 a unit, including all services. As such, the number of units possible with this funding ranges from 48-122, with 77 using the average cost of \$35,000 per unit for THVs. There are other longer-term cost considerations as well. For example, THVs are sometimes located on sites that are only temporarily available - such as vacant land that will eventually be developed - and need their relocation costs to be covered in order to continue operations at another site.

2025-2026 COUNCIL BUDGET ACTION

The City of Seattle currently provides an estimated \$29 million in funding for at least 19 non-congregate shelters, including 17 THVs. This Council Budget Action would provide funding for two additional non-congregate shelters.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$2.7 million

HSD-003-A

Increase HSD by \$129,000 GF (2025) and \$129,000 GF (2026) to fully restore funding for legal services for homeless youth

SPONSORS

Budget Committee

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(128,608)	\$(128,608)
Total Budget Balance Effect	\$(128,608)	\$(128,608)

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Human Services Department (HSD) by \$129,000 GF in 2025 and \$129,000 GF in 2026 for legal services for homeless youth. Council has identified the organization Legal Counsel for Youth and Children for this funding and requests that the HSD Director waive the requirements of subsection 3.20.050.B, as authorized by subsection 3.20.050.C.

The 2025-2026 Proposed Budget eliminated \$124,000 in funding to Legal Counsel for Youth and Children to provide legal services for homeless youth. This CBA fully restores that amount and provides a 4.4 percent inflationary adjustment over the 2024 contract amount that would have been applied had this funding remained in HSD's proposed 2025-2026 base budget.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$129,000.

2025-2026 COUNCIL BUDGET ACTION

V1

HSD-004-B

Increase HSD by \$1.25 million GF (2025) and \$1.25 million GF (2026) for food banks, meal programs, and culturally nourishing foods

SPONSORS

Dan Strauss, Joy Hollingsworth, Tanya Woo

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(1,250,000)	\$(1,250,000)
Total Budget Balance Effect	\$(1,250,000)	\$(1,250,000)

DESCRIPTION

This Council Budget Action (CBA) adds \$1 million GF (ongoing) and \$250,000 GF (one-time) in 2025 and \$1 million GF (ongoing) and \$250,000 GF (one-time) in 2026 to the Human Services Department (HSD) for one or more of the following purposes: 1) food, staffing, and operational expenses for food banks; 2) meal provider programs, including in-person, to-go, and delivery; and 3) the Culturally Nourishing Foods Program.

There were three one-time allocations in the 2024 Adopted Budget for food and nutrition programs, totaling \$992,000, that were not part of the 2025-2026 Proposed Budget. Those were: \$650,000 for food banks; \$300,000 for meal providers; and \$42,000 for senior meal programs. Additionally, the 2025-2026 Proposed Budget reduced funding for the Culturally Nourishing Foods Program by \$350,000. In addition to this CBA, HSD-011-A provides \$250,000 for capital needs for the Rainier Valley Food Bank and HSD-010-A-B provides \$250,000 for equipment, supplies and capital facilities improvements to increase meal provider service capacity. If all three CBAs were to pass, total food and nutrition investments in HSD's 2025-2026 Proposed Budget would increase from \$24.1 million to \$25.9 million in 2025 and from \$24.4 million to \$25.9 million in 2026.

Council requests that HSD submit a report, after awards are made, that details what organizations received the funding in this CBA and the amounts received.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$1 million.

Increase HSD by \$168,000 GF (2025) and \$168,000 GF (2026) for transitional housing programs

SPONSORS

Robert Kettle

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(168,000)	\$(168,000)
Total Budget Balance Effect	\$(168,000)	\$(168,000)

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations to the Human Services Department (HSD) by \$168,000 GF in 2025 and \$168,000 GF in 2026 for a transitional housing program. Council has identified Uplift Northwest for this funding and requests that the HSD Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C.

Uplift Northwest's Transitional Housing Program operates out of the Kasota building located in Belltown and currently leases 47 units in the building from a private landlord. This funding would support Uplift Northwest's operating costs, which include the cost of leasing these units along with providing the supportive services necessary to transition the residents into long-term and permanent housing solutions. Council also requests that the Human Services Department work with Uplift Northwest to explore options for acquiring the Kasota building.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$168,000.

2025 STATEMENT OF LEGISLATIVE INTENT

V1

HSD-007S-A

Request that HSD and OH provide a report on Good Neighbor Agreements

SPONSORS

Robert Kettle, Sara Nelson

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Human Services Department (HSD) and the Office of Housing (OH), working with the King County Regional Homelessness Authority (KCRHA), provide a report on Good Neighbor Agreements (GNA). For the purpose of this SLI, GNAs are agreements that are designed to proactively manage relationships with neighboring community stakeholders, including residents and businesses, related to a physical location that 1) provides affordable housing to any population, including Permanent Supportive Housing or 2) provides services to people experiencing homelessness, such as but not limited to, day centers and shelters.

The report should include the following information:

- 1) Describe HSD, OH and KCRHA's current practices regarding GNAs for City-funded projects, including:
 - a) the specific types of city-funded projects for which a GNA is required; b) what, if any, minimum standards are required for all GNAs; c) the length of time that a GNA is required for a project (for example, one year versus on-going)
- 2) Describe the types of issues that existing GNAs are designed to address
- 3) Describe any relevant legal limitations to requiring providers to address illegal or disruptive behavior happening both internally and externally to the building, for example on the sidewalk or right of way.
- 4) Describe how those limitations can be overcome based on best practices. For example, does pro-active outreach for medication management or other types of substance abuse treatment reduce GNA-related issues?
- 5) Describe best practices for GNAs based on local, state and national research, including recommended best practices for regularly reaching out to neighborhood residents to understand and pro-actively address concerns (for example via community meetings, a survey, etc.).
- 6) Assess the option of requiring GNA longer than one year for OH-funded projects (the current standard) and describe any cost or other impacts to consider in doing so
- 7) Recommend a consistent set of standards that the City should incorporate into all GNAs and specify what types of projects should be subject to a GNA.
- 8) Provide a plan and timeline for incorporating the recommended set of standards into existing and new provider contracts for implementation no earlier than January 1, 2026. The report should detail any challenges, and how to address them, related to amending existing contracts in order to integrate this recommended set of standards.
- 9) Recommend a plan for monitoring and enforcing provider compliance with GNA standards as incorporated into their contracts.

2025 STATEMENT OF LEGISLATIVE INTENT

Background on Current GNA practices

The Human Services Department (HSD) requires that providers who operate services such as shelters, day centers and transitional housing to use good neighbor agreements. HSD contracts for these services, which transferred to KCRHA in 2022, include such agreements as a required performance standard. Agreements vary by project and are informed by local community input.

The Office of Housing (OH) requires a good neighborhood agreement for the first year of operations of all affordable housing projects, including but not limited to Permanent Supportive Housing. In addition, OH loan documents require each project's management plan to describe their community relations plans and processes for resolving neighborhood complaints. OH Asset management staff reviews management plans as the project is becoming operational to make sure the plan addresses all the provisions required in their loan agreement. Organizations are required to provide OH with any changes to their management plans on an annual basis.

HSD should submit the reports to the Chair of the Housing and Human Services Committee by July 30, 2025.

Responsible Council Committee(s): Housing and Human Services

DUE DATE: July 30, 2025

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(4,000,000)	\$0
Total Budget Balance Effect	\$(4,000,000)	\$0

DESCRIPTION

This Council Budget Action would increase proposed appropriations to the Human Services Department (HSD) by \$4,000,000 GF in 2025 (one-time) for capital needs related to providing services for homeless youth and young adults. Council has identified YouthCare for this funding and requests that the HSD Director waive the requirements of subsection 3.20.050.B, as authorized by subsection 3.20.050.C.

YouthCare intends to use this funding for its Constellation Center project. The Constellation Center is being developed in partnership with Community Roots Housing. It will have 84 units of affordable housing, along with an 18,000 square foot space for workforce development programs and other social services, including classrooms, office, meeting rooms, a computer lab, and a café. In 2021, the Office of Housing provided a \$9 million award to Community Roots Housing for the affordable housing portion of the project. In 2020 and 2021, the Human Services Department provided \$1.5 million in funding for the workforce development space through its capital facilities program. YouthCare has identified a remaining \$10 million gap related to tenant improvements for the workforce development space, which this CBA would partially address. The project is anticipated to break ground in 2025.

This CBA does not impact the projected ongoing operating GF deficit in the 2027-2028 biennium.

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(250,000)	\$0
Total Budget Balance Effect	\$(250,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations to the Human Services Department (HSD) by \$250,000 GF in 2025 (one-time) for the purpose of purchasing equipment and vehicles and making facilities improvements necessary to increase meal providers' service capacity. Council has identified the Meals Partnership Coalition for this funding and requests that the HSD Director waive the requirements of subsection 3.20.050.B, as authorized by subsection 3.20.050.C.

In addition to this CBA, HSD-004-B-1 provides \$1.25 million for food banks, meal providers and culturally nourishing foods and HSD-011-A-1 provides \$250,000 for capital needs for the Rainier Valley Food Bank. If all three CBAs were to pass, total food and nutrition investments in HSD's 2025-2026 Proposed Budget would increase from \$24.1 million to \$25.9 million in 2025 and from \$24.4 million to \$25.9 million in 2026.

This CBA does not impact the projected ongoing operating GF deficit in the 2027-2028 biennium.

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(250,000)	\$0
Total Budget Balance Effect	\$(250,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations to the Human Services Department (HSD) by \$250,000 GF in 2025 to support capital improvements at the Rainier Valley Food Bank. The Rainier Valley Food Bank is trying to raise a total of \$17 million to renovate and expand its existing facility. Council has identified the Rainier Valley Food Bank for this funding and requests that the HSD Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C.

In addition to this CBA, HSD-004-B provides \$1.25 million for food banks, meal programs and the Culturally Nourishing Foods Program and HSD-010-A-B provides \$250,000 for equipment, supplies and capital facilities improvements to increase meal provider service capacity. If all three CBAs were to pass, total food and nutrition investments in the 2025-2026 Proposed Budget in HSD would increase from \$24.1 million to \$25.9 million in 2025 and from \$24.4 million to \$25.9 million in 2026.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$250,000.

2025-2026 COUNCIL BUDGET ACTION

V1

HSD-012-A

Increase HSD by \$250,000 JumpStart Fund (2025) and \$250,000 JumpStart Fund (2026) for Seattle Youth Employment Program

SPONSORS

Tammy Morales

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$(250,000)	\$(250,000)
Total Budget Balance Effect	\$(250,000)	\$(250,000)

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Human Services Department (HSD) by \$250,000 JumpStart Fund in 2025 and \$250,000 Jump Start Fund in 2026 for increased support for participants in the Seattle Youth Employment Program (SYEP).

The Seattle Youth Employment Program (SYEP) supports young people (ages 16 to 24) from qualifying-income households and communities that experience racial, social, and economic disparities. The program's goal is to increase youth and young adults' ability to pursue careers that pay well and are meaningful to them.

The 2024 Adopted Budget included \$250,000 for the Office of Economic Development (OED) to provide wraparound support and curriculum/content development for the "Learn and Earn" programming. The funding through OED paid for a portion of two temporary HSD staff, a Content and Curriculum Specialist and an Admin Specialist position.

The 2025-2026 Proposed Budget would retain HSD's funding for SYEP at \$2.4 million, but reduce the funding from OED's budget. The proposed reduction would result in the Admin Specialist position transitioning back into a seasonal position, and the Content and Curriculum Specialist being let go. This CBA would restore the \$250,000 in HSD directly to continue staffing at the 2024 level.

The financial plan for the JumpStart Fund included in the 2025-2026 Proposed Budget shows a positive unrestricted fund balance in 2026 and beyond. This CBA will reduce the unrestricted fund balance but based on the current financial plan, this ongoing appropriation can be supported without creating a deficit in this fund in the future.

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(51,897)	\$(51,897)
Total Budget Balance Effect	\$(51,897)	\$(51,897)

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations to the Human Services Department (HSD) by \$52,000 GF in 2025 and \$52,000 GF in 2026 to provide direct legal representation, advice and counsel to single adults and families who have received an adverse decision regarding denial, termination, reduction or overpayment of state public assistance. Council has identified Solid Ground for this funding and requests that the HSD Director waive the requirements of subsection 3.20.050.B, as authorized by subsection 3.20.050.C.

The 2025-2026 Proposed Budget eliminated \$50,000 in funding to Solid Ground for legal services for adults receiving an adverse benefit decision. This CBA fully restores that amount, and provides a 4.4 percent inflationary adjustment over the 2024 contract amount that would have been applied had this funding remained in HSD's proposed 2025-2026 base budget.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$52,000, as it uses one-time resources to fund an ongoing investment.

2025-2026 COUNCIL BUDGET ACTION

V1

HSD-026-B

Increase HSD by \$470,000 GF (2025) and \$470,000 GF (2026) for recovery support services

SPONSORS

Sara Nelson, Maritza Rivera, Cathy Moore

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(470,000)	\$(470,000)
Total Budget Balance Effect	\$(470,000)	\$(470,000)

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations in the Human Services Department (HSD) by \$470,000 GF in 2025 and \$470,000 GF in 2026 to support recovery support services by one or more providers for individuals with severe opioid use disorder. The services could include, but are not limited to, contingency management, access to on-demand Medication for Opioid Use Disorder (MOUD) treatment, such as mobile telehealth consultations for Sublocade, and peer navigation training. This CBA would replace HSD-026-A that was in the Chair's Balancing Package.

Contingency management is an evidence-based treatment method administered by substance use disorder (SUD) professionals that incentivizes sobriety through small rewards. One step in the recovery process could be for participants to utilize medication assisted treatment, which could include methadone, buprenorphine, or Sublocade, long-acting form of buprenorphine. Peer navigators, people who have been successful in the recovery process, can help others experiencing similar situations and can effectively extend the reach of treatment beyond the clinical setting into the everyday environment. The 2025-2026 Proposed Budget also funds a variety of opioid-related activities with approximately \$1.9 million annually in opioid lawsuit settlement funds.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$470,000.

HSD-027-A

Proviso \$2 million GF in HSD for supports for commercial sexual exploitation

SPONSORS

Cathy Moore, Maritza Rivera, Tanya Woo

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on \$2,000,000 GF in the Human Services Department (HSD) for:

- 1) 1.0 FTE commercial sexual exploitation (CSE) Victim Advocate in HSD to partner with the Seattle Police Department (SPD) on diversion to direct services and supports and coordinate CSE work between SPD and community-based CSE service providers contracting to partner with SPD on diversion to direct services and supports for persons being commercially sexually exploited;
- 2) appropriate emergency assistance funds for CSE work by HSD CSE victim advocates and community-based service providers who are working in partnership with SPD on diversion to direct services and supports;
- 3) contract(s) with community-based advocates to provide supports for persons being commercially sexually exploited, to include collaboration with SPD on diversion supports and services;
- 4) contract(s) to provide immediate bed expansion with existing 'receiving center'(s) for persons who are being commercially sexually exploited;
- 5) contract(s) to establish a new 'receiving center' for persons who are being commercially sexually exploited.

It is the intent of the Council that, to the greatest extent possible:

- 1) procurement of funding subject to this proviso shall be conducted on an expedited basis to provide additional CSE supports as soon as is reasonably possible within existing HSD procurement policies;
- 2) contracts with community-based CSE advocates will ensure that they are available around the clock to provide survivor supports and collaborate with SPD, and organizations awarded funding for this purpose have experience working with law enforcement on diversion services and provision of CSE supports; and,
- 3) receiving centers funded through this source will be accessible around the clock.

2025-2026 COUNCIL BUDGET ACTION

This Council Budget Action would impose the following proviso:

"Of the appropriations in the Human Services Department's (HSD's) 2025 general fund budget, \$2.0 million is appropriated solely for the following purposes:

- 1) 1.0 FTE commercial sexual exploitation (CSE) Victim Advocate in HSD to partner with the Seattle Police Department (SPD) on diversion to direct services and supports and coordinate CSE work between SPD and community-based CSE service providers contracting to partner with SPD on diversion to direct services and supports for persons being commercially sexually exploited;
- 2) appropriate emergency assistance funds for CSE work by HSD CSE victim advocates and community-based service providers who are working in partnership with SPD on diversion to direct services and supports;
- 3) contract(s) with community-based advocates to provide supports for persons being commercially sexually exploited, to include collaboration with SPD on diversion supports and services;
- 4) contract(s) to provide immediate bed expansion with existing 'receiving center'(s) for persons who are being commercially sexually exploited;
- 5) contract(s) to establish a new 'receiving center' for persons who are being commercially sexually exploited.

It is the intent of the Council that, to the greatest extent possible:

- 1) procurement of funding subject to this proviso shall be conducted on an expedited basis to provide additional CSE supports as soon as is reasonably possible within existing HSD procurement policies;
- 2) contracts with community-based CSE advocates will ensure that they are available around the clock to provide survivor supports and collaborate with SPD, and organizations awarded funding for this purpose have experience working with law enforcement on diversion services and provision of CSE supports; and,
- 3) receiving centers funded through this source will be accessible around the clock."

General Fund	\$(250,000)	\$(250,000)
Total Budget Balance Effect	\$(250,000)	\$(250,000)

DESCRIPTION

This Council Budget Action (CBA) increases the Human Services Department (HSD) by \$250,000 GF in 2025 and \$250,000 GF in 2026 for culturally-specific services to address gender-based violence in Latinx and/or Spanish-speaking communities. The Council has identified Consejo Counseling and Referral Services for this funding and requests that the HSD Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C. This CBA imposes a proviso on \$250,000 GF in 2025 for contracted services with Consejo Counseling and Referral Services for culturally and linguistically-appropriate services to address gender-based violence in the Latinx community.

This Council Budget Action would impose the following proviso:

"Of the appropriations in the Human Services Department's (HSD's) 2025 budget for the Gender-Based Violence Services Budget Summary Level (PO-HAS-H4500), \$250,000 is appropriated solely for contracted culturally-specific services to address gender-based violence in Latinx and/or Spanish-speaking communities to be provided by Consejo Counseling and Referral Services. The Council has identified Consejo Counseling and Referral Services for this funding and requests that the HSD Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C."

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$250,000.

2025 STATEMENT OF LEGISLATIVE INTENT

V2

HSD-031S-A

Request that HSD report on sobering center needs

SPONSORS

Maritza Rivera, Sara Nelson

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Human Services Department (HSD) report on various dimensions of a potential future sobering center in Seattle. The report shall include:

- A data-informed recommendation about best-practices for the design and operation of a sobering center;
- Analysis of the feasibility of such a sobering center being used to address individuals arrested under Seattle's drug possession laws; this analysis should include an evaluation of the number of individuals who would need to be sent to a sobering facility, and the feasibility for such a facility to be secure; that evaluation should include collaboration with Seattle Police Department where appropriate;
- Discussion of HSD's involvement in the Seattle-based sobering center being planned by King County; and,
- Analysis of any opportunity to use the King County sobering center to meet Seattle's needs.

Sobering centers serve people experiencing homelessness or housing precarity by providing them an indoor place to rest, typically overnight. Many shelters will not accept individuals who are or who seem intoxicated, who may be incontinent due to intoxication, or who may become argumentative or aggressive when they become sober. Individuals may also have other behavioral-health issues with symptoms that shelter operators mistakenly associate with intoxication or substance use disorder (SUD). Sobering centers can be a last-resort indoor place of refuge for individuals facing a complex set of challenges.

Individuals who are severely intoxicated cannot give informed consent to connection with SUD treatment resources, which could include assignment to a case manager, medication-assisted treatment (MAT) such as buprenorphine administration, and entry into inpatient treatment. When an individual regains sufficient sobriety to give informed consent while at a sobering center, an opportunity is created to connect that individual not only with needed treatment but with additional assistive resources.

The Dutch Shisler Sobering Center ("KC Sobering Center"), which was funded by King County and operated through a contract with Pioneer Human Services, left its longtime rented Boren Avenue location in 2019 when the building was sold. At that time, the KC Sobering Center served over 1,500 per year, providing health-supervised shelter for up to 80 individuals per night. Following the Center's closure at that location, King County briefly secured sequential temporary locations for its operation, but at this time there is no permanent sobering center operating in Seattle. Without a sobering center, first responders sometimes transport individuals to hospital Emergency Departments to rest and recover overnight. In 2021 King County expressed intent to direct \$3.8 million in COVID-19 federal

2025 STATEMENT OF LEGISLATIVE INTENT

funding to establish a new sobering center in Seattle. King County Department of Community and Human Services (DCHS) has indicated that as of late October, 2024 they are in final stages of review of a proposal to site a new sobering center in Seattle. DCHS has stated that they are coordinating with HSD and the Mayor's office on these plans and anticipate the center opening in 2025.

The report should be submitted to the Housing and Human Services Committee and the Central Staff Director by June 30, 2025.

Responsible Council Committee(s): Housing and Human Services

HSD-037-A

Increase HSD by \$1.0 million GF (2025) for Chinatown-International District public safety efforts

SPONSORS

Tanya Woo, Dan Strauss, Robert Kettle

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(1,000,000)	\$0
Total Budget Balance Effect	\$(1,000,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Human Services Department (HSD) budget by \$1.0 million GF in 2025 (one-time) to support public safety improvement efforts in the Chinatown International District (CID) neighborhood as follows:

- 1) The Council has identified We Deliver Care for \$500,000 of this funding and requests that the HSD Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C. The Council intends funding to be provided to We Deliver Care to support contracted public safety improvement services in the Little Saigon areas of the CID including de-escalation and incident stabilization, overdose reversal interventions, services referrals, and supports to local businesses with public safety concerns; and,
- 2) The Council intends, to the greatest extent possible, for \$500,000 to be procured to one or more community-based organization(s) for public safety engagement efforts in the CID, with a focus on de-escalation and other public safety enhancement efforts to mitigate safety concerns for CID seniors commuting, and youth and travelling to school in the CID, to be provided by organizations such as the International District Emergency Center and/or We Deliver Care.

This CBA does not impact the projected ongoing operating GF deficit in the 2027-2028 biennium.

2025-2026 COUNCIL BUDGET ACTION

V1

ITD-001-A

Increase Seattle IT by \$1.6 million GF (2025) and \$1.6 million GF (2026) and 6.0 FTE to restore Seattle Channel operations, and increase \$100,000 GF (2025) and \$100,000 GF (2026) for the Seattle Channel Maintenance and Upgrade CIP project

SPONSORS

Budget Committee

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(1,701,206)	\$(1,748,899)
Other Funds	\$0	\$0
Total Budget Balance Effect	\$(1,701,206)	\$(1,748,899)

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations to Seattle Information Technology (Seattle IT) by \$1.6 million GF in 2025 and \$1.6 million GF in 2026, and add 6.0 FTE positions to restore operations and non-governmental programming for the Seattle Channel. This CBA would also increase \$100,000 GF in 2025 and \$100,000 GF in 2026 for the Seattle Channel Maintenance and Upgrade (MC-IT-C4400) Capital Improvement Program (CIP) project which is used to maintain, replace, and upgrade technical and production systems.

The operations and activities of the Seattle Channel are funded by revenues raised from franchise fees assessed on cable providers' gross revenues. In recent years, cable franchise fee revenues have been declining, and they are projected to continue declining in future years. In recognition of this decline, the 2025-2026 Proposed Budget would make reductions to the Seattle Channel's staffing and budget. The proposed budget would reduce the operating budget from approximately \$3.2 million in 2024 to about \$1.7 million in 2025, and it would reduce staffing from 13.0 FTE in 2024 to 7.0 FTE in 2025. Although this is a reduction of 6.0 FTE, the proposal would impact seven City employees due to a job-sharing arrangement for one of the positions. The proposed budget would also zero out funding for the Seattle Channel Maintenance and Upgrade CIP project, which was projected to have a budget of around \$400,000 annually.

This CBA would fully restore the operating budget and staffing for the Seattle Channel in 2025 and 2026 to allow for the continuation of the station's full array of governmental and non-governmental programming. The CBA would also partially restore funding for the Seattle Channel's CIP project.

The one-time spending in this CBA does not impact the projected ongoing operating GF deficit in the 2027-2028 biennium.

2025-2026 COUNCIL BUDGET ACTION

V2

LAW-001-A

Increase LAW by \$182,000 GF (2025) and \$192,000 GF (2026) to fund one Specialty Court Unit Prosecutor

SPONSORS

Robert Kettle

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(182,000)	\$(192,000)
Total Budget Balance Effect	\$(182,000)	\$(192,000)

DESCRIPTION

This Council Budget Action would increase appropriations in the City Attorney's Office (LAW) by \$182,000 GF in 2025 and \$192,000 GF in 2026 to fund one Prosecutor in the Specialty Court Unit of the Criminal Division. The Specialty Court Unit handles cases in Mental Health Court, Veteran's Treatment Court, and the Legal Intervention and Network of Care, as well as various non-criminal infractions and other violations. LAW has stated that staff reductions to Prosecutors in this section of the Criminal Division will reduce timely response to criminal referrals and may reduce the ability to implement recently passed criminal justice legislation to the extent that it involves potential diversion opportunities in a Specialty Court.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$192,000.

LAW-002-A

Increase LAW by \$434,000 GF (2025) and \$458,000 GF (2026) for two Assistant City Attorneys in the Employment and Contract/Utilities Sections of the Civil Division, decrease \$434,000 GF appropriations to Judgement and Claims Fund (2025) and \$458,000 GF appropriations to Judgement and Claims Fund (2026)

SPONSORS

Robert Kettle

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations in the City Attorney's Office (LAW) by \$434,000 GF in 2025 and \$458,000 GF in 2026 to fund two Assistant City Attorneys in the Employment and Contract/Utilities Sections of the Civil Division. This CBA would reduce GF appropriations to the Judgement and Claims Fund by \$434,000 in 2025 and \$458,000 in 2026. Funding for these positions would otherwise have been eliminated in the 2025-2026 Proposed Budget. These positions provide guidance and legal advice to departments and elected officials on matters related to employment and labor issues, and contracting and utilities, respectively. Though there would be immediate cost savings generated by staffing reductions in the Civil Division in the 2025-2026 Proposed Budget, LAW believes that continued demand for the legal services these positions currently provide may necessitate the retention of private outside counsel by the City to provide advice and/or representation normally undertaken by Civil Division attorneys, at a higher cost to the City than funding these positions.

LAW-003-A

Decrease LAW revenue by \$500,000 GF (2025) and \$528,000 GF (2026), decrease HSD by \$500,000 GF (2025) and \$528,000 GF (2026) for contracted services, and impose a proviso

SPONSORS

Sara Nelson

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would decrease revenue in the City Attorney's Office (LAW) by \$500,000 GF in 2025 and \$528,000 GF in 2026, and decrease appropriations from the Human Services Department (HSD) by \$500,000 GF in 2025 and \$528,000 GF in 2026 for contracted diversion services. This CBA would impose a proviso on \$500,000 GF in 2025 in LAW to pay the cost of 2.0 FTE Prosecutors and 0.5 FTE Paralegal exclusively to provide coordination for the Law Enforcement Assisted Diversion (LEAD) program. These positions in LAW are currently funded through an arrangement where HSD contracts funding to an outside organization doing diversion services, then that organization contracts with LAW to pay for the positions. This CBA would streamline the funding path for these positions in LAW by removing the appropriate funds from HSD's budget and allowing LAW to fund them directly with existing expense authority.

This Council Budget Action would impose the following proviso:

"Of the appropriations in the 2025 budget for the City Attorney's Office 2025, \$500,000 is appropriated solely to pay the cost of 2.0 FTE Prosecutors and 0.5 FTE Paralegal exclusively to provide coordination for the Law Enforcement Assisted Diversion (LEAD) program."

2025 STATEMENT OF LEGISLATIVE INTENT

V1

MO-001S-A

Request that the MO provide quarterly reports regarding activities and performance of the Unified Care Team (UCT), and any collaborating departments that manage the City's response to unsanctioned encampments

SPONSORS

Budget Committee

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Mayor's Office (MO) provide quarterly reports regarding activities and performance of the Unified Care Team (UCT), and any collaborating departments that manage the City's response to unsanctioned encampments.

This request is seeking information similar to what was provided by the Human Services Department (HSD) in response to the UCT Reporting SLI included in Resolution 32129, which adopted the Statements of Legislative Intent for the 2024 Adopted Budget. After the first quarterly report is submitted, the Mayor's Office and the Chair of the Housing and Human Services Committee will work together on any revisions needed to better meet City Council's reporting needs.

The reported metrics should convey the performance in the following areas:

- 1) By region, the number of requests related to encampments in public spaces received through the City's Customer Service Bureau.
- 2) By region, the number of:
 - a. Active encampment sites (snapshot of the last Friday of the quarter)
 - b. Number of resolutions where offers of shelter were made by resolution categories:
 - Advanced Notice
 - Immediate Hazard/Obstruction
 - Outreach Led (baseline data for 2024)
 - Recreational Vehicle (RV) Remediations
 - c. Unique sites where at least one encampment resolution or RV Remediation occurred during the reporting period
 - d. A list of sites with the most UCT actions (in order to show repopulation activity).
- 3) By region:
 - a. The number of offers of shelter extended.
 - b. The number of offers accepted, resulting in a referral to shelter.
 - c. Demographics of those referred to shelter.
 - d. The number of confirmed shelter enrollments, representing the minimum number of people enrolled in shelter following a referral due to HMIS-related challenges.
 - e. The number of offers of shelter that were declined, out of all offers extended.
 - f. If possible, the stated reason why offers of shelter were declined.

2025 STATEMENT OF LEGISLATIVE INTENT

- 4) Information on hazardous conditions and responses taken to mitigate harm, including:
 - a. Number of active encampment sites where hazardous and unsafe conditions are identified, such as hazardous materials, large amounts of debris, mobility impacts, and proximity to waterways (snapshot of the last Friday of the quarter)
 - b. A summary of actions taken to mitigate harm, including trash mitigation and hygiene stations, sharps disposal containers.
 - c. Data on fire & public safety incidents with a confirmed nexus with encampments or homelessness.
- 5) Breakdown of UCT actions (trash mitigation, immediate hazard/obstructions, RV Remediations, Advanced Notice) by weekend versus weekday and region.
- 6) Update on:
 - a. Status update on hiring of the 14 Counselor positions
 - b. Overview of the challenges & successes each neighborhood team is seeing.
- 7) Clear definition of all terms used in the report.

The MO should submit the reports to the Chair of the Housing and Human Services Committee. Reports should be submitted by February 14, 2025, May 16, 2025, August 15, and Nov 14, 2025. The report due February 14, 2025 should cover activities conducted from October 1 through December 31, 2024.

DUE DATE: June 30, 2025

2025-2026 COUNCIL BUDGET ACTION

V2

OED-001-A

Increase OED by \$800,000 JumpStart Fund (2025) and \$800,000 JumpStart Fund (2026) for the Storefront Repair Fund

SPONSORS

Sara Nelson

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$(800,000)	\$(800,000)
Total Budget Balance Effect	\$(800,000)	\$(800,000)

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Office of Economic Development (OED) by \$800,000 JumpStart Fund in 2025 and \$800,000 Jump Start Fund in 2026 to restore the Storefront Repair Fund.

OED's Storefront Repair Fund was created in 2022 in response to the increasing incidents of broken windows, doors, and other property damage faced by Seattle's small businesses. The program was one of seven public safety recommendations provided to City leadership in 2022 and drew inspiration from the pilot program launched by the City of San Francisco. Leveraging the framework from the COVID-19 Small Business Stabilization Fund, the program utilized one-time American Rescue Plan (ARP) funding.

This CBA would restore ongoing funding for the program, and is intended to relieve the financial burden on small business owners while promoting a better public realm experience for communities, connecting small businesses with their respective SPD Crime Prevention Coordinators and providing other public safety guidance to businesses.

Council expects that any grants awarded to businesses for storefront repair would be provided in exchange for an appropriate public benefit.

The financial plan for the JumpStart Fund included in the 2025-2026 Proposed Budget shows a positive unrestricted fund balance in 2026 and beyond. This CBA will reduce the unrestricted fund balance but based on the current financial plan, this ongoing appropriation can be supported without creating a deficit in this fund in the future.

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$(150,000)
Total Budget Balance Effect	\$0	\$(150,000)

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Office of Economic Development (OED) by \$150,000 GF in 2026 to provide support for the Capitol Hill neighborhood business district. Funding would be provided to one or more organizations with ties to the Capitol Hill business community to assist with a variety of tasks, including but not limited to capacity building for the establishment or expansion of a business improvement area, engaging with businesses and property owners, visitor assistance, or outreach with unhoused neighbors.

In 2024, OED's Adopted Budget included \$4.9 million in non-labor costs for neighborhood business districts. This funding was used for neighborhood retail analyses, public space activations, grants for neighborhood-based non-profit organizations for post-pandemic recovery, and for exploring business improvement areas in equity districts. The 2025 Proposed Budget includes \$2 million in non-labor expenditures, and OED has stated that the focus of ongoing investments in neighborhood capacity building will be on supporting existing and potential business improvement areas (BIAs).

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$150,000.

OED-006S-A

Request that OED report on an inventory and assessment of all business outreach and technical assistance the City provides across departments

SPONSORS

Tammy Morales

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Office of Economic Development (OED) report on an inventory and assessment of all business outreach or technical assistance the City provides, across departments.

The City currently funds business outreach in a number of departments across the City, including but not limited to: OED, Department of Neighborhoods (DON), the Office of Sustainability and Environment (OSE), Seattle Department of Transportation (SDOT), Seattle City Light (SCL), Seattle Public Utilities (SPU), and the Office of Labor Standards (OLS), among many others. Council requests that OED, in collaboration with the Mayor's Office and the City Budget Office (CBO), survey every City department to understand our investments in business technical assistance and outreach. For each department's investments in business outreach or technical assistance, the report should include, but not be limited to, the following information:

- Description of programs, services and staffing providing business outreach or assistance in 2024 and proposed to be funded in 2025;
- Actual or anticipated program costs, including staffing, for 2024 and 2025;
- List of funded organizations with level of funding in 2024 and 2025, and descriptions of how those organizations work with businesses;
- Number of businesses assisted in 2024, and anticipated to be assisted in 2025;
- Number and percentage of BIPOC-owned businesses assisted in 2024, and anticipated to be assisted in 2025;
- Number and percentage of women-owned businesses assisted in 2024, and anticipated to be assisted in 2025;
- Geographic distribution of businesses assisted in 2024, and anticipated to be assisted in 2025, by Council District and specific neighborhoods where available; and
- Description of impact on businesses served (e.g. measurements of success, qualitative feedback).

This SLI would provide Council with information on the full array of assistance and outreach that the City provides to businesses from all departments, and the impacts of this outreach and assistance on different neighborhoods and businesses. Such information is intended to inform future decision-making and investments in business outreach and technical assistance, to encourage collaboration between departments, and to understand if there are neighborhoods that are underserved in this area.

2025-2026 COUNCIL BUDGET ACTION

V1

OEM-101-A

Increase OEM by \$35,000 GF (2025) and \$35,000 GF (2026) for travel, training and administrative support

SPONSORS

Robert Kettle

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(35,000)	\$(35,000)
Total Budget Balance Effect	\$(35,000)	\$(35,000)

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations to the Office of Emergency Management (OEM) by \$35,000 GF in 2025 and \$35,000 GF in 2026 to restore two reductions made in the 2025-2026 Proposed Budget, consisting of (1) a \$10,000 reduction in OEM's travel and training budget, and (2) a \$25,000 reduction that would decrease a 1.0 FTE Administrative Specialist position from full time to three-quarters time. The \$10,000 reduction would represent an 80 percent reduction in the department's travel and training budget and the \$25,000 reduction would reduce OEM's only administrative staff support position.

ATTACHMENT: No

TRANSACTIONS - ONGOING

2025 STATEMENT OF LEGISLATIVE INTENT

V2

OEM-102S-A

Request that OEM report on city-wide emergency preparedness training, and recognize OEM's key role among Seattle's public safety departments

SPONSORS

Robert Kettle

DESCRIPTION

This Statement of Legislative Intent (SLI) would: (1) request that the Office of Emergency Management (OEM) collect information and produce a report on the emergency preparedness trainings offered by City of Seattle departments, the Seattle Public School District (SPS) and the Port of Seattle (Port); and (2) state the Council's intent that OEM be recognized as a key part of Seattle's public safety infrastructure, and should be reflected as such in its administration and oversight.

The Council recognizes OEM's unique role in coordinating the training and emergency preparedness efforts of City of Seattle departments, as well as outside partners like SPS and the Port. The Council requests that OEM: (1) survey City departments and outside partners to determine how emergency preparedness curriculum is developed and training is executed within each organization, and (2) prepare a report that compares current practices with the best national and international practices, including how OEM interacts with its partners, and makes recommendations for systemic improvements.

The Council supports the proposed add of \$30,000 to the City Budget Office (CBO) to conduct an Emergency Management Assessment, including the review of OEM's funding, multijurisdictional framework, and organizational structure in comparison to peer cities. The Council recognizes OEM as a critical facilitator with City departments and other organizations, developing cross jurisdiction emergency preparedness plans, disaster mitigation measures, and response protocols, as well as operating the Emergency Operations Center during planned and unplanned events and incidents. The Council requests that the Executive consider these factors, and that the CBO study contemplates changes that would ensure that OEM is provided with adequate budget resources, sufficient independence and appropriate Mayoral oversight needed to complete its mission.

OEM should submit the report to the Chair of the Public Safety Committee and the Central Staff Director.

2025 STATEMENT OF LEGISLATIVE INTENT

V1

OH-001S-A

Request that OH produce a Seattle Housing Investment Plan that takes a comprehensive look at all affordable housing investments by the City for 2025-2030

SPONSORS

Budget Committee

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Office of Housing (OH) produce a Seattle Housing Investment Plan that takes a comprehensive look at all affordable housing investments by the City, updates the production targets, and reviews the underlying funding models for the main sources of funding used to develop affordable housing for the years 2025-2030. These funding sources include the 2023 Housing Levy, Payroll Expense Tax (PET)/JumpStart, and Mandatory Housing Affordability (MHA) funds. The time period for this modeling coincides with the length of the 2023 Housing Levy which runs through 2030.

The result of this work will be a housing strategy that establishes clear targets for the next five years (2025-2030) for each of the programs supported by the Office of Housing, including: the Rental Production and Preservation Program, and the Homeownership and Sustainability Program. The targets for each program should include: number of units, and household Area Median Income (AMI) level to be served by the units, broken down by 30-50 percent AMI, 50-80 percent AMI, 80-100 percent AMI, and so forth. It is the intent that the targets related to AMI served will be achieved over the five-year period. In addition, it is the intent that efforts be made to increase the number of family-sized units (i.e. two- and three-bedroom units) over the five-year period.

Annual progress toward achieving the established targets will be included in OH's annual Investment Report, which is submitted to the City Council by June 30th of each year. Information to be provided in the annual report includes but is not limited to: number of units, income level served, unit size and geographic location of units. This information will be provided along with the 20-year housing growth targets for the City that are included in the Housing Appendix of the City's Comprehensive Plan, which include the amount of housing needed by income levels. Pairing these two pieces of information together will allow the City to monitor its progress towards achieving its targets and meeting overall housing needs.

The City's policies and priorities for all of the City's affordable housing funding will continue to reside in the Housing Levy Administration and Financial Plan and the Housing Funding Policies, approved by Council in 2024. The Proposed Comprehensive Plan also includes broader strategies related to the production and preservation of housing to meet not only the needs of low-income households where the need is greatest, but households across the income spectrum in an effort to ensure that everyone in Seattle has "housing that meets their needs."

V1

OH-002-A

Increase OH by \$3.4 million JumpStart Fund (2026) for the Homeownership Capital Production Program

SPONSORS

Cathy Moore, Rob Saka

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$0	\$(3,400,000)
Total Budget Balance Effect	\$0	\$(3,400,000)

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Office of Housing (OH) by \$3.4 million JumpStart Fund in 2026 for the Homeownership Capital Production Program. There is a total of \$13 million annually in the Proposed 2025 and 2026 Budgets for the Homeownership Capital Production Program, including \$5 million annually of JumpStart funding. The Executive reduced the annual JumpStart funding for this program by \$1.7 million in the Proposed 2025 and 2026 Budgets because the projects in the homeownership program pipeline are not anticipated to need this funding until 2027. This CBA provides \$3.4 million of funding in 2026 that would be available to fund homeownership projects either in 2026 or more likely in 2027. Funds that are not used in 2026 will automatically carry forward to 2027.

ATTACHMENT: No

OH-003-A

Proviso \$100,000 JumpStart Fund in OH to support pre-development costs for housing in the Central District

SPONSORS

Joy Hollingsworth

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on \$100,000 of JumpStart Fund in the Office of Housing to support predevelopment costs for housing in the Central District.

This Council Budget Action would impose the following proviso:

"Of the appropriations in the Office of Housing's 2025 budget for the Multi-Family Housing Budget Summary Level (OH-BO-HU-3000), \$100,000 is appropriated solely for pre-development costs for housing in the Central District and may be spent for no other purpose."

ATTACHMENT: No

2025 STATEMENT OF LEGISLATIVE INTENT

V1

OH-004S-A

Request that OH explore use of bonds and master leasing for development of affordable housing

SPONSORS

Dan Strauss

DESCRIPTION

This Statement of Legislative Intent would request that the Office of Housing (OH) explore the use of excess bonding capacity and master leasing for the development of affordable housing. OH should examine how King County has recently proposed such strategies to support the development of affordable housing through King County Council Motion 2024-0279.

Among other things, this should include a review of the Regional Workforce Housing Initiative Implementation Plan called for in Motion 2024-0279, expected to be published by March 31, 2025, and an analysis of any barriers, legal or otherwise, to the City of Seattle implementing similar policy choices.

This analysis should include an analysis of how the City can leverage its credit and debt capacity to secure affordable housing, including whether it is able to utilize a master lease structure whereby the City would execute a master lease, effectively guaranteeing debt service on whatever debt instrument works best (e.g., bonds, agency loan, bank loan, etc.). While the City would be obliged to meet the monthly master lease payments, such payments could be partially or completely offset by rental revenue from subleasing. This should be done with the goal of understanding if the City of Seattle is able to utilize the credit of the City through a master lease that would enable the city to obtain permanent financing at rates that lock in affordable rents.

2025-2026 COUNCIL BUDGET ACTION

V1

OIR-001-A

Increase OIR by \$190,000 GF (2025) and \$201,000 GF (2026) to restore funding for the International Affairs Portfolio

SPONSORS

Budget Committee

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(190,389)	\$(200,509)
Total Budget Balance Effect	\$(190,389)	\$(200,509)

DESCRIPTION

This Council Budget Action would increase proposed appropriations to the Office of Intergovernmental Relations (OIR) by \$190,000 GF in 2025 and \$201,000 GF in 2026 to restore funding for the International Affairs Portfolio.

In the 2024 Adopted Budget, OIR was funded for 2.0 FTE Strategic Advisor 2 to support two Director positions in the International Affairs Portfolio. The 2025-2026 Proposed Budget would remove funding for one of these positions.

This CBA would restore funding for the second Director position to maintain OIR's capacity for special projects, curation of international engagement opportunities based on City priorities, and travel with the Mayor on international trips. Since the unfunded position is currently filled, OIR's work in this area would continue without interruption.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$201,000.

ATTACHMENT: No

TRANSACTIONS - ONGOING

2025-2026 COUNCIL BUDGET ACTION

V1

OLS-001-A

Increase OLS by \$100,000 OLS Fund (2025) and \$600,000 OLS Fund (2026) for the Business Outreach and Education Fund and Community Outreach and Education Fund

SPONSORS

Dan Strauss

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(100,000)	\$(600,000)
Other Funds	\$0	\$0
Total Budget Balance Effect	\$(100,000)	\$(600,000)

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Office of Labor Standards (OLS) by \$100,000 OLS Fund in 2025 and \$600,000 OLS Fund in 2026 for the Business Outreach and Education Fund (BOEF) and Community Outreach and Education Fund (COEF). Of this amount, \$100,000 in both 2025 and 2026 is for the BOEF. In 2026, the COEF would receive \$500,000. This CBA would fully restore reductions to these funds included in the 2025-2026 Proposed Budget.

The BOEF facilitates assistance and outreach to small businesses owned by low-income and historically disenfranchised communities, who typically are not served by traditional outreach methods, to increase awareness and compliance with Seattle's labor standards by contracting with community-based organizations. In 2024, the BOEF was budgeted for \$600,000. The 2025-2026 Proposed Budget would have cut \$100,000 annually from the BOEF. With this CBA, the 2024 funding level of \$600,000 would be restored for both 2025 and 2026.

The COEF builds capacity among, and partnership with, community-based organizations (CBOs) who are contracted to increase workers' knowledge of Seattle labor standards rights through methods that are community centered, culturally relevant and accessible, and language specific. Contracted CBOs also provide intake, counseling, complaint resolution, and referral services to workers. In 2024, the COEF was budgeted for \$1.5 million. Contracting for the COEF takes place every other year, with the most recent contracts covering the 2024 and 2025 biennium. To avoid impacting the 2024-2025 contracts, the 2025-2026 Proposed Budget does not make changes to the COEF budget in 2025. In 2026, the 2025-2026 Proposed Budget would cut \$250,000 of ongoing funding for the COEF, and \$250,000 of one-time funding for the COEF, which would represent a deferred cut to the 2025 COEF budget. With this CBA, the 2024 and 2025 funding levels of \$1.5 million would be restored for 2026.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$600,000.

OLS-002-A

Increase OLS by 3.0 FTE to restore position authority

SPONSORS

Dan Strauss

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase position authority in the Office of Labor Standards (OLS) by 1.0 FTE Planning & Development Specialist II (Labor Standards Engagement Specialist), 1.0 FTE Strategic Advisor I (Data Analyst), and 1.0 FTE Civil Rights Analyst (Investigator). These positions were proposed to be abrogated in the 2025-2026 Proposed Budget. No additional funding is allocated for these positions, which are currently vacant.

As of the end of 2024, OLS has position authority for 43.0 FTE and funding for 36.0 FTE. The 2025-2026 Proposed Budget provides funding to support 32.0 FTE after the 1st Quarter 2025. OLS has position authority for 7.0 unfunded FTE that were added in the 2024 budget in anticipation of revenues from the Network Company Fee. That fee will go into effect in 2025, and first payments will be due at the end of the first quarter of 2026. With this CBA, OLS would retain position authority for 43.0 FTE, with funding for 32.0 FTE after the end of the 1st Quarter 2025.

The Planning & Development Specialist II position, if funded, would be responsible for direct outreach and education on the City's 19 labor standards, as well as oversight of some of OLS's outreach fund contracts. Four Labor Standards Engagement Specialists are currently doing this work for OLS. Costs for this position in 2025, if funded, would be \$156,000.

The Strategic Advisor I position, if funded, would be responsible for providing a variety of data collection, cleaning and analysis functions for app-based worker regulations. Costs for this position in 2025, if funded, would be \$185,000.

The Civil Rights Analyst position, if funded, would be responsible for investigating and resolving complaints of violations of labor standards. By the end of 2025, there will be nine investigators in OLS doing this work. Costs for this position in 2025, if funded, would be \$159,000.

General Fund	\$0	\$0
Other Funds	\$(300,000)	\$0
Total Budget Balance Effect	\$(300,000)	\$0

DESCRIPTION

This Council Budget Action would increase proposed appropriations to the Office of Planning and Community Development (OPCD) by \$300,000 JumpStart Fund in 2025 (one-time) to support the development of a Regional Growth Center Plan for the new Ballard Regional Center. OPCD's budget includes funding for the development of regional plans for the six existing Regional Growth Centers in the city. This funding would allow for the development of a plan for Ballard, which is proposed to become a Regional Growth Center under the One Seattle Comprehensive Plan. Total budget for the project is estimated to be \$400,000, with work continuing through 2027.

This one-time spending will not impact the long-term sustainability of the JumpStart fund in the future, but will reduce the near-term JumpStart Fund balance.

Tammy Morales

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(384,044)	\$(403,398)
Total Budget Balance Effect	\$(384,044)	\$(403,398)

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations to the Office of Planning and Community Development (OPCD) by \$384,000 GF in 2025 and \$403,000 GF in 2026 and add 2.0 FTE Planning and Development Specialist, Senior and 0.5 FTE Admin Staff Assistant to restore staffing for the Seattle Planning Commission, Seattle Design Commission, and Land Use Policy and Strategic Initiatives division. These positions were proposed to be abrogated in the 2025-2026 Proposed Budget.

The Planning and Development Specialist, Senior position (1.0 FTE) within the Land Use Policy and Strategic Initiatives division is currently vacant. With the restoration of this position, there would be 7.0 FTE in the Land Use Policy and Strategic Initiatives division.

The second Planning and Development Specialist, Senior position (1.0 FTE) supports the work of the Seattle Planning Commission. That position is currently filled, and the incumbent would remain to support the Commission's review of major planning projects, including the One Seattle Plan update to the Comprehensive Plan. With the restoration of this position, the Seattle Planning Commission would have 3.5 FTE to support its work.

The final position is an Administrative Staff Assistant (0.5 FTE) to the Seattle Design Commission. That position is also currently filled. The incumbent provides administrative support to the Seattle Design Commission. With the restoration of this position, the Seattle Design Commission would have 3.0 FTE to support its work.

With the restoration of these 2.5 FTE, OPCD would have a total of 50.5 FTE.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$403,000.

V2

OPCD-003S-A

Request that OPCD report on strategies to attract food retailers to food deserts

SPONSORS

Rob Saka

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Office of Planning and Community Development (OPCD) work with the Office of Economic Development (OED) and the Office of Sustainability and Environment (OSE) report on best practices and strategies for attracting food retailers to food deserts.

The report should include information on siting and size requirements for different categories of grocery stores. The report should also include information about how the City's zoning supports or precludes new grocery stores from opening in different parts of the city, and particularly the food deserts in Council District 1's Duwamish Valley and Delridge, and changes that could be made to better attract food retailers to food deserts.

General Fund	\$0	\$0
Other Funds	\$(400,000)	\$(400,000)
Total Budget Balance Effect	\$(400,000)	\$(400,000)

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations to the Office of Sustainability and Environment (OSE) by \$400,000 JumpStart Fund in 2025 and \$400,000 JumpStart Fund in 2026 to restore funding for Duwamish Valley green workforce development efforts and small business support that would be eliminated in the 2025-2026 Proposed Budget. Of this amount, \$200,000 is to support ongoing partnerships and initiatives that align with the Citywide Clean Energy Workforce Development Strategy (Executive Order 2022-07) and the Office of Economic Development's Economic Revitalization Strategy. The remaining \$200,000 is to support small and industrial businesses in South Park and Georgetown with technical assistance, marketing support, and financial advice to address impacts of current strains on businesses in these two communities. Funding for these purposes was originally included in the 2022 Adopted Budget.

The financial plan for the JumpStart Fund included in the 2025-2026 Proposed Budget shows a positive unrestricted fund balance in 2027 and beyond. This CBA will reduce the unrestricted fund balance but based on the current financial plan, this ongoing appropriation can be supported without creating a deficit in this fund in the future.

2025-2026 COUNCIL BUDGET ACTION

V1

SDCI-001-A

Increase SDCI by \$50,000 GF (2025) to convene a tenant workgroup on strategies to protect the health and well-being of Seattle renters

SPONSORS

Tammy Morales

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(50,000)	\$0
Total Budget Balance Effect	\$(50,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Seattle Department of Construction and Inspections (SDCI) by \$50,000 GF in 2025 (one-time) to convene a tenant workgroup to develop and recommend strategies to protect the health and well-being of Seattle renters. This could include, but is not limited to, creating a new office dedicated to enforcing current laws and establishing new laws, requirements, and standards related to renters.

This CBA for a one-time increase does not impact the projected ongoing operating GF deficit in the 2027-2028 biennium.

General Fund	\$0	\$0
Other Funds	\$(355,000)	\$(355,000)
Total Budget Balance Effect	\$(355,000)	\$(355,000)

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations to the Seattle Department of Construction and Inspections (SDCI) by \$355,000 JumpStart Fund in 2025 and \$355,000 Jumpstart Fund in 2026 to increase funding for tenant services grants and contracts to \$2.1 million.

The 2025-2026 Proposed Budget would appropriate \$1.8 million Jumpstart Fund in 2025 and \$1.8 million Jumpstart Fund in 2026 for tenant services grants and contracts. The 2024 Adopted Budget appropriated \$2.6 million to SDCI for contracts and grants with tenant services organizations that provide education for landlords and tenants on the City's regulations, outreach, case management, eviction legal defense, and other services for tenants and landlords.

The financial plan for the JumpStart Fund included in the 2025-2026 Proposed Budget shows a positive unrestricted fund balance in 2027 and beyond. This CBA would reduce the unrestricted fund balance but based on the current financial plan, this ongoing appropriation can be supported without creating a deficit in this fund in the future.

2025 STATEMENT OF LEGISLATIVE INTENT

V1

SDCI-003S-A

Request that SDCI, in consultation with HSD, report on utilization of RRIO for proactive eviction prevention

SPONSORS

Cathy Moore

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Seattle Department of Construction and Inspections (SDCI), in consultation with the Human Services Department (HSD), report to the Council on options for using the Rental Registration and Inspection Ordinance (RRIO) registry process to allow registrants to opt-in to early assistance for tenants who are at risk of eviction. The report should (1) identify opportunities to leverage RRIO to serve as a resource for rental property owners to access City-funded tenant services, including mediation, and dispute resolution, case management, and rental assistance for tenants who are in arrears on rent or utility payments; and (2) estimate technology, staffing, and overhead costs for effectuating those opportunities.

The RRIO program was established in 2012 to help ensure that rental properties meet basic standards for maintenance and habitability. Owners must register residential rental properties within the city. Registered properties are subject to inspection by the City or by a privately commissioned and certified RRIO inspector every five to ten years. In 2023 the RRIO program was reviewed by the City Auditor who published "Understanding Seattle's Housing Market Shift from Small to Large Rental Properties: A Rental Registration and Inspection Ordinance Program Audit," which made several recommendations for program improvements.

Responsible Council Committee(s): Housing and Human Services

DUE DATE: July 31, 2025

2025-2026 COUNCIL BUDGET ACTION

V1

SDHR-001-A

Increase SDHR by \$371,000 GF (2025) and \$389,000 GF (2026) and 1.5 FTE to restore the Workforce Equity Division

SPONSORS

Tammy Morales

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(371,115)	\$(389,271)
Total Budget Balance Effect	\$(371,115)	\$(389,271)

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Seattle Department of Human Resources (SDHR) by \$371,000 GF in 2025 and \$389,000 GF in 2026 and increase position authority by 1.0 FTE Executive 2 and 0.5 FTE Strategic Advisor 1 to restore the Workforce Equity Division. This division is proposed for elimination in the 2025-2026 Proposed Budget.

The City established the Workforce Equity Division in 2016 to manage the Workforce Equity Initiative: the City's commitment to eliminating racial disparities and achieving equity for City employees. The division oversees the 2024-2029 Workforce Equity Strategic Plan, implements the Office of City Auditor recommendations for improving internal promotion practices; co-leads the Workforce Equity and Advisory Committee (WEPAC) with the Office of Civil Rights; and engages in other efforts to support the City's broader Race and Social Initiative.

The 2025-2026 Proposed Budget would eliminate the Workforce Equity Division by abrogating two positions and funding for non-labor expenses; and moving the two remaining positions to the HR Business Operations Division. SDHR's administration of the Workforce Equity Initiative would shift to an advisory role and the Workforce Equity Strategic Plan would be administered at the department level.

This CBA would restore the positions proposed for abrogation, 1.0 FTE Executive 2 for the Director position and 0.5 FTE Strategic Advisor 1 for the Program Advisor position, and \$24,000 for non-labor expenses (e.g., training, conferences, supplies, and equipment). SDHR would maintain centralized oversight of the Workforce equity initiatives, establishing strategic direction and working with senior City leaders to ensure that departments are making meaningful progress toward equity goals.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$389,000 per year.

2025-2026 COUNCIL BUDGET ACTION

V1

SDOT-001-A

Increase SDOT by \$177 million Transportation Levy Fund (2025) and \$192 million Transportation Levy Fund (2026) for implementation of the levy; create 28 CIP projects; decrease SDOT by \$7 million Transportation Fund (2025) and \$7 million Transportation Fund (2026); add 72.0 FTE; and acknowledge anticipated Transportation Levy revenue

SPONSORS

Rob Saka, Dan Strauss

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$16,264,428	\$2,457,883
Total Budget Balance Effect	\$16,264,428	\$2,457,883

DESCRIPTION

This Council Budget Action (CBA) provides appropriations and position authority to implement the Transportation Levy (approved by voters on November 5, 2024). This CBA would increase appropriations to the Seattle Department of Transportation (SDOT) by \$177 million Transportation Levy Fund in 2025 and \$192 million Transportation Levy Fund in 2026 to implement levy programs, and it would identify six-year capital spending in the Capital Improvement Program (CIP). This CBA would also reduce appropriations by \$7 million Transportation Fund in 2025 and \$7 million Transportation Fund in 2026 for SDOT programs that would be backfilled by the Transportation Levy. This CBA adds 72.0 FTE in SDOT in 2025, and it endorses an additional 44.0 FTE in 2026.

This CBA is consistent with the Executive's presentation on levy implementation to the Select Budget Committee on October 22, 2024. The \$7 million reduction in Transportation Fund in 2025 and 2026 is the net result of reversing two proposals in the 2025-2026 Proposed Budget, listed as "Street Surface Maintenance Reductions" and "Protected Bike Lanes and Transit Corridor Improvement Investments." These programs would receive funding from the Transportation Levy Fund instead of the Transportation Fund.

This CBA establishes 28 new CIP projects. A summary table of the new CIP projects, including the project descriptions and Budget Summary Levels, is included in Attachment A.

A summary of the 2025-2030 spending adjustments to CIP projects, by fund, is included in Attachment B.

A summary of the 2025 and 2026 positions included in this CBA is included in Attachment C.

2025-2026 COUNCIL BUDGET ACTION

This CBA also reflects revenue from the Transportation Levy, anticipated to be \$187 million in 2025 and \$189 million in 2026. Levy funds will be deposited and appropriated out of the Transportation Levy Fund. Levy funds not expended in 2025-2026 will remain in fund balance and used to support levy projects and programs in future years.

Summary of New CIP Projects in CBA SDOT-001-A-1

Attachment A

Project ID	Project Name	Description	Budget Summary Level
MO-TR-C144	Good Governance & Equitable Implementation	This project will provide auditing and professional services support for the Levy Oversight Committee, support public outreach on property tax relief programs, and investigate and propose comprehensive and long-range strategies to invest in Seattle's bridge, pavement and sidewalk infrastructure, including the establishment of a Transportation Funding Task Force per Resolution 32145.	Mobility Operations
MO-TR-C139	Expanded Tree Program	This project will help to support Urban Forestry with such activities as planting, maintaining and expanding tree species diversity.	Maintenance Operations
MO-TR-C138	Electrification	This project will support transportation electrification including Seattle City Light's expansion of electric vehicle charging stations to libraries, community centers and parks; and support partnerships and pursue grants that help electrify the transportation system.	Mobility Operations
MO-TR-C136	Bridge Planning	This project will advance planning and design in preparation to seek funding partnerships for future replacement of the 1st Ave S Bridge over Argo Railyard, 4th Ave S Bridge over Argo Railyard, West Dravus Street over Railyard, NE 45th Street Viaduct Central Span, Magnolia Bridge Replacement Alternatives Cost Estimate updates.	Mobility Operations
MO-TR-C128	Bike Lane Maintenance	This project will maintain existing protected bike lanes with regular sweeping and barrier repair.	Mobility Operations
MO-TR-C127	Better Bike Barriers	This project will amend existing bike lanes with stronger safety treatments such as hardened barriers or buffer areas.	Mobility-Capital
MC-TR-C154	Neighborhood-Initiated Safety Partnership Program	This project will construct neighborhood-initiated and co-created projects, focusing on community priorities across all districts with an emphasis on equity . This could include safety and mobility enhancements like new sidewalks, crossings and transit access, all developed through engagement with communities.	Mobility-Capital
MC-TR-C153	Neighborhood Scale Traffic Safety Programs	This project will address community priorities for neighborhood scale traffic safety improvements. This could include safety and mobility enhancements like traffic calming, new sidewalks, crossings, and transit access.	Mobility-Capital
MC-TR-C152	Transit Passenger Safety	This project will invest in strategies that increase transit rider safety and security , including physical improvements and transit and public safety personnel services in coordination with King County Metro, Sound Transit, and/or other transit agencies.	Mobility-Capital
MC-TR-C151	Transit Improvements & Access to Light Rail	This project will make transit improvements on streets with high-ridership bus routes with a focus in equity priority areas, build access projects to Link light rail stations, advance key connections to future Link light rail stations in coordination with partner agencies, and make access improvements to ST3 light rail stations and future Sound Transit system expansion.	Mobility-Capital
MC-TR-C150	RapidRide R Line	This project will support and enhance King County Metro's RapidRide R Line project, including projects and programs that support connections in and around Rainier Valley, mitigation and engagement.	Mobility-Capital
MC-TR-C149	N 130th St - Bitter Lake to Haller Lake	This project will repave N 130th St between 1st Ave NW and I-5 with a safety redesign to better connect people to the future 130th Street Link Station. The project could include protected bike lanes, crossing improvements, trees, sidewalk reconstruction, and transit priority.	Mobility-Capital

Project ID	Project Name	Description	Budget Summary Level
MC-TR-C148	People Streets and Wayfinding Maintenance	This project will provide maintenance for existing activation projects and the citywide wayfinding system.	Mobility-Capital
MC-TR-C147	People Streets and Public Spaces Capital	This project will design, implement and co-create People Street Projects to activate business districts and community spaces, with a focus on high equity priority areas. Improvements could include redesigned streets, seating, wayfinding, lighting, and activation.	Mobility-Capital
MC-TR-C146	Pedestrian Lighting	This project will support the installation of pedestrian lighting leading to transit stops, including through partnership with other projects.	Mobility-Capital
MC-TR-C145	3rd Ave Revitalization, Long-Term Vision and Coordination	This project will invest in Downtown with near-term maintenance and placemaking improvements, construction coordination, and advancement of a longer-term vision for 3rd Ave.	Mobility-Capital
MC-TR-C143	Port Connection to I-90/I-5	This project will implement spot or corridor improvements connecting Port of Seattle facilities through SODO to Interstate 90 and/or Interstate 5.	Mobility-Capital
MC-TR-C142	Leary Way Industrial Zone Safety Improvements	This project will implement spot or corridor improvements connecting Maritime, Manufacturing and Logistics (MML) Zones within the Ballard Interbay Northend Manufacturing and Industrial Center (BINMIC) to Interstate 5 and/or State Route 99.	Mobility-Capital
MC-TR-C141	Heavy Haul Network Program	This project will work in partnership with the Port of Seattle to update the Heavy Haul Network agreement, and identify and pave streets that carry the heaviest truck traffic.	Mobility-Capital
MC-TR-C140	Freight Program	This project will make transportation improvements that support freight movement including supporting trucks delivering goods and providing services.	Mobility-Capital
MC-TR-C137	Low Pollution Neighborhoods	This project will advance low pollution neighborhood projects including developing a toolbox focused at reducing air pollution, especially in areas most impacted by climate change. Tools will include creation of Healthy Streets, improvements to getting around neighborhoods without a vehicle, electrification, low-emissions goods delivery and micro-mobility programs.	Mobility-Capital
MC-TR-C135	Structural Preservation	This project will implement preventative maintenance for the City's bridges, making timely preservation-focused treatments and repairs.	Major Maintenance/ Replacement
MC-TR-C134	Ship Canal Electrical/Mechanical - University	This project will upgrade electrical and mechanical systems on the University Bridge.	Major Maintenance/ Replacement
MC-TR-C133	Ship Canal Electrical/Mechanical - Fremont	This project will upgrade electrical and mechanical systems on the Fremont Bridge.	Major Maintenance/ Replacement
MC-TR-C132	Ship Canal Electrical/Mechanical - Ballard	This project will upgrade electrical and mechanical systems on the Ballard Bridge.	Major Maintenance/ Replacement
MC-TR-C131	Seawall Phase II	This project will advance planning and design in preparation to seek funding partnerships for future replacement of the Elliot Bay Seawall, Phase II.	Major Maintenance/ Replacement
MC-TR-C130	Bridge Structural Repairs - Magnolia	This project will make structural repairs on the Magnolia Bridge, including potential type/size/location studies for replacement, seismic improvements, and/or improving emergency access to Magnolia.	Major Maintenance/ Replacement
MC-TR-C129	Bridge Structural Repairs - Ballard	This project will make structural repairs on the Ballard Bridge, including potential pedestrian improvements.	Major Maintenance/ Replacement

Summary of CIP Project spending adjustments in CBA SDOT-001-A by Fund

Attachment B

Capital Project	2025	2026	2027	2028	2029	2030
10399 - Transportation Levy Fund	\$ 154,998,637	\$ 166,554,623	\$ 156,698,920	\$ 184,297,658	\$ 180,317,323	\$ 176,317,331

Description of Transportation Levy Position Requests - CBA SDOT-001-A-1

Attachment C

2025 position adjustments would be made in the 2025 Adopted Budget

2026 position adjustments would be included in the 2026 Endorsed Budget and may be reconsidered as part of 2026 budget deliberations

	Group	Position	FTE	Description / Primary Support
2025 Budget Add Positions - 72.0 FTE	Capital Projects	Civil Engineer, Associate	1.0	Project engineer and lead roadway/grading/drainage designer
	Capital Projects	Civil Engineer, Associate	1.0	Project engineer and lead multi-modal designer
	Capital Projects	Strategic Advisor 1	1.0	Project manager focused on roadway structures and AAC
	Capital Projects Division	Civil Engineer Specialist, Associate	1.0	Construction inspection to minimize consultants
	Capital Projects Division	Civil Engineer, Associate	1.0	Lead civil/sidewalk/corridor designer
	Capital Projects Division	Civil Engineer, Senior	1.0	Project engineer on bridges and structures
	Capital Projects Division	Civil Engineer, Senior	1.0	Project engineer for non-bridges and structures
	Capital Projects Division	Civil Engineering Specialist, Supervisor	1.0	Construction engineer on multiple projects
	Comms/PDD	Public Relations Specialist, Senior	1.0	Outreach/communications support for crew delivered projects
	Director's Office	Public Relations Specialist, Senior	2.0	Develop and manage communications and public outreach
	PCL	Personnel Specialist, Senior	1.0	Converts TLT for hiring
	Policy & Planning	Strategic Advisor 2	1.0	Develops new engagement strategies for long-term planning
	Policy & Planning	Transportation Planner, Associate	1.0	Central Seattle planning and engagement
	Policy & Planning	Transportation Planner, Associate	1.0	North Seattle planning and engagement
	Policy & Planning	Transportation Planner, Senior	1.0	South Seattle planning and engagement
	Policy & Planning	Transportation Planner, Senior	1.0	Low-pollution neighborhood program
	Policy & Planning	Transportation Planner, Senior	1.0	People, Streets, Public Spaces capital program
	Procurement	Management Systems Analyst, Senior	1.0	Converts TLT for procurement
	Project Development	Capital Projects Coordinator, Senior	1.0	Support large corridor projects (RRR, 130th, etc.)
	Project Development	Civil Engineer Specialist, Associate	1.0	Plan review and inspection for ADA
	Project Development	Civil Engineer Specialist, Associate	1.0	Supports ADA
	Project Development	Civil Engineer, Assistant	1.0	Project scoping schematics for 30/60/90% and final design
	Project Development	Civil Engineer, Assistant	1.0	Planning and design for better bike barrier projects
	Project Development	Civil Engineer, Associate	1.0	Project scoping schematics for 30/60/90% and final design
	Project Development	Civil Engineer, Senior	1.0	Supervisory functions during crew construction
	Project Development	Strategic Advisor 3	1.0	Crew coordination, manages crew delivery pipeline for sidewalks
	Project Development	Transportation Planner, Associate	1.0	Supports NISPP
	Project Development	Transportation Planner, Associate	1.0	Support large corridor projects (RRR, 130th, etc.)
	Project Development	Transportation Planner, Associate	1.0	Support accelerated sidewalks
	PSMD	Asphalt Paving Crew Chief	1.0	Asphalt sidewalk crew chief
	PSMD	Asphalt Raker	3.0	Installing new asphalt walkways and low cost sidewalks
	PSMD	Asphalt Raker, Senior	2.0	Installing new asphalt walkways and low cost sidewalks
	PSMD	Equipment Operator, Senior	2.0	Installing new asphalt walkways and low cost sidewalks
	PSMD	Maintenance Laborer, Senior	4.0	Support multiple crew-delivered projects (e.g., better bike barriers, bike lanes, guard rails, etc.)
	PSMD	Manager II	1.0	New sidewalk crew construction manager
	PSMD	Manager III	1.0	Manage the crew coordination unit in PEMS
	PSMD	Traffic Marking Lead Worker	3.0	Support multiple crew-delivered projects (e.g., better bike barriers, bike lanes, guard rails, etc.)
	PSMD	Traffic Signs and Markings Crew Chief I	1.0	Support multiple crew-delivered projects (e.g., better bike barriers, bike lanes, guard rails, etc.)
	PSMD	Traffic Signs and Markings Crew Chief II	1.0	Support multiple crew-delivered projects (e.g., better bike barriers, bike lanes, guard rails, etc.)
	Roadway Structures	Bridge Electrician	1.0	Ship canal electrical/mechanical replacement projects
	Roadway Structures	Carpenter Crew Chief	1.0	Supports Bridge Preventative Maintenance program
	Roadway Structures	Management Systems Analyst, Senior	1.0	Supports Bridge Preventative Maintenance program
	ROWUF	Arborist	1.0	Supports Expanded Tree Program
	ROWUF	Construction Maintenance Equipment Operator	2.0	PBL Electrified sweeping
	Street Use	Planning and Development Specialist II	1.0	FIFA / DAP/ 3rd Ave support
	Transit and Mobility	Transportation Planner, Associate	1.0	Plan review assess critical access needs at the curb
	Transit and Mobility	Transportation Planner, Senior	2.0	Staff the climate and electrification program
	Transportation Operations	Civil Engineer Specialist, Assistant III	1.0	Layout for channelization/signing improvements for crews
	Transportation Operations	Civil Engineer Specialist, Associate	1.0	Layout for channelization/signing improvements for crews

	Group	Position	FTE	Description / Primary Support
	Transportation Operations	Civil Engineer Specialist, Associate	1.0	FIFA / special events support
	Transportation Operations	Civil Engineer, Assistant III	1.0	Signal design, plan development, technical analysis, and modeling.
	Transportation Operations	Civil Engineer, Assistant III	1.0	Creates new signal timing for projects
	Transportation Operations	Civil Engineer, Assistant III	1.0	Signal design, plan development, technical analysis, and modeling.
	Transportation Operations	Civil Engineer, Associate	1.0	Creates new signal timing for projects
	Transportation Operations	Civil Engineer, Associate	1.0	Project review for impacts to traffic operations
	Transportation Operations	Civil Engineer, Associate	1.0	Signal design, plan development, technical analysis, and modeling.
	Transportation Operations	Civil Engineer, Associate	1.0	Layout lead for channelization/signing improvements
	Transportation Operations	Management Systems Analyst	1.0	Data management for ITS assets
	Transportation Operations	Strategic Advisor 1	1.0	Signal electrician apprenticeship lead
	Transportation Operations	Transportation Planner, Senior	1.0	Senior Planner for freight modal projects
Potential Add in 2026 - 44.0 FTE	Accounting	Accountant, Sr	1.0	Grants and partnership accounting
	Accounting	Strategic Advisor 1	1.0	Additional support on project costs accounting
	Asset and Performance Management	Civil Engineer Specialist, Associate	1.0	Support in data entry, onboarding of new assets, conducting geospatial analyses to support project delivery
	Capital Projects Division	Environmental Analyst, Senior	1.0	Environmental compliance lead for Capital Projects
	Capital Projects Division	Sr. Real Property Agent	1.0	Perform and review appraisals and acquisition of property rights
	FAD Division Management	Information Technology Programmer Analyst	1.0	Supports the Transportation Technology Plan
	Finance	Project Funding and Agreement Coordinator, Senior	1.0	Additional support on grant reporting
	Policy and Planning	Transportation Planner, Associate	1.0	Supports the transportation funding task force
	Project Development Division	Public Relations Specialist, Senior	1.0	Supports the NISPP
	PSMD	Asphalt Paving Crew Chief	1.0	This Crew Chief will oversee crew installing new Asphalt Sidewalks
	PSMD	Asphalt Raker	3.0	Installing new asphalt walkways and low cost sidewalks
	PSMD	Asphalt Raker, Senior	7.0	Installing new asphalt walkways and low cost sidewalks
	PSMD	Civil Engineer, Associate	1.0	This position designs ADA ramps for Levy projects that trigger ADA ramps .
	PSMD	Equipment Operator, Senior	4.0	Installing new asphalt walkways and low cost sidewalks
	PSMD	Maintenance Laborer, Senior	5.0	Support multiple crew-delivered projects (e.g., better bike barriers, bike lanes, guard rails, etc.)
	PSMD	Traffic Marking Lead Worker	2.0	Support multiple crew-delivered projects (e.g., better bike barriers, bike lanes, guard rails, etc.)
	ROWUF	Arboriculturist	1.0	Supports the arborist position that will develop the Expanded Tree Program
	ROWUF	Arborist	1.0	Supports CIP in the planning for new trees and establishment costs
	ROWUF	Landscape Architect	1.0	Provides oversight and plan review for CIP
	Street Use	Civil Engineering Specialist, Supervisor	1.0	Additional leadership and support for the Construction Coordination and Mobility Management workgroup
	Transit and Mobility	Transportation Planner, Senior	1.0	Plan review for levy projects that have a transit or related components
	Transportation Operations	Civil Engineer, Senior	1.0	Lead project development to advance modal element project and implementation plans
	Transportation Operations	Civil Engineer, Senior	1.0	Lead project review and approval of all projects with changes in traffic operations
	Transportation Operations	Civil Engineer, Senior	1.0	Lead design of Traffic Signal Modifications, Civil Improvements, and Channelization/Signing Improvements

2025 COUNCIL BUDGET ACTION

V1

SDOT-002-A

Proviso \$89 million Transportation Levy Fund in SDOT until authorized by future Council action

SPONSORS

Rob Saka, Dan Strauss

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on half (\$89 million) of the Transportation Levy Fund appropriations in the Seattle Department of Transportation's (SDOT's) budget contemplated in CBA SDOT-001-A. The proviso would prohibit spending until authorized by future Council action. The intent of this proviso is to have SDOT proactively engage the Council in the development of detailed spending plans for Transportation Levy programs.

Council anticipates that the Transportation Levy spending plans will consider: Rainier Ave S traffic safety improvements, priority delivery of new sidewalks, Graham and Chinatown International District engagement on light rail stations, neighborhood greenway projects, and pedestrian connection projects.

This CBA would impose the following proviso:

"No more than \$89,000,000 of the Transportation Levy Fund (10399) appropriations in the 2025 budget for the Seattle Department of Transportation (SDOT) may be spent until authorized by future Council action. Council anticipates that such authorization would be granted after SDOT has proactively engaged the Council in the development of detailed spending plans for Transportation Levy programs."

ATTACHMENT: No

2025-2026 COUNCIL BUDGET ACTION

V1

SDOT-003-A

Increase SDOT by \$5 million (2025 and 2026) Transportation Fund and by \$2 million (2025 and 2026) Transportation Levy Fund for a new Council District Fund; create a new Council District Fund (MC-TR-C155) CIP project; replace \$2 million (2025 and 2026) Transportation Levy Fund with Transportation Fund in the SDOT ADA Program CIP project; and impose a proviso

SPONSORS

Rob Saka, Dan Strauss

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$(6,979,328)	\$(7,008,203)
Total Budget Balance Effect	\$(6,979,328)	\$(7,008,203)

DESCRIPTION

This Council Budget Action (CBA) would result in a net increase of appropriations to the Seattle Department of Transportation (SDOT) of \$7 million Transportation Fund in 2025 and \$7 million Transportation Fund in 2026 to create a new Council District Fund Capital Improvement Program (CIP) project. This funding would be made available by CBA SDOT-001-A.

To address spending restrictions on a portion of these funds, this CBA would replace \$2 million of Transportation Levy Fund in 2025 and in 2026 (included in CBA SDOT-001-A) with \$2 million of Transportation Fund in the SDOT ADA Program (MC-TR-C057) CIP project. This \$2 million represents block-the-box and transit-lane camera enforcement revenue that is restricted to disability access programs and improvements, such as the SDOT ADA Program. This transfer makes \$2 million available for the Council District Fund. As a result, the Council District Fund CIP project would consist of \$5 million Transportation Fund and \$2 million Transportation Levy Fund in 2025, with the same amounts in 2026.

The intent of the Council District Fund is to fund neighborhood-scale traffic safety improvements and other district transportation priorities at the direction of the Council. This CBA would impose a proviso prohibiting spending of the Council District Fund until authorized by future Council action. Depending on the specific project proposals, future Council action may authorize spending within the Council District Fund CIP project or may consider transferring appropriations to other programs for implementation if warranted.

This CBA identifies funding for 2025 and 2026 only, and future budget actions would be required to continue the program beyond 2026. The Council District Fund CIP Page reflects unsecured funding of \$7 million per year for the program in 2027-2030.

2025-2026 COUNCIL BUDGET ACTION

The CIP page for the new Council District Fund is shown in Attachment A. A summary of the cumulative impacts of CBA SDOT-001-A and CBA SDOT-003-A to the SDOT ADA Program CIP project is shown in Attachment B.

This CBA would impose the following proviso:

"In addition to the restrictions imposed in Section 4(c) of the ordinance adopting a 2025 budget and any other restrictions imposed by law, none of the money appropriated in the 2025 budget for the Seattle Department of Transportation for the Council District Fund project, Project ID MC-TR-C155, in the 2025-2030 Capital Improvement Program may be spent until authorized by future Council action."

2025 COUNCIL BUDGET ACTION

V1

SDOT-004-A

Proviso \$2 million in SDOT for transit and roadway improvements on Delridge Ave SW

SPONSORS

Rob Saka

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on \$2 million of appropriations in the Seattle Department of Transportation's (SDOT's) budget to make improvements to Delridge Way SW near the SW Holly St right-of-way to allow for left-turn ingress and egress from adjoining properties, including the Refugee and Immigrant Family Center Bilingual Preschool. These improvements would resolve access conflicts with the operation of the Delridge RapidRide service. It is the Council's expectation that SDOT shall deliver these improvements, and that SDOT will begin project development and implementation no later than August 1, 2025.

This CBA would impose the following proviso:

"Of the appropriations in the 2025 budget for the Seattle Department of Transportation's Transit Corridor Improvements (MC-TR-C029) CIP project, \$2 million is appropriated solely for improvements to Delridge Way SW near the SW Holly St right-of-way to allow for left-turn ingress and egress from adjoining properties, including the Refugee and Immigrant Family Center Bilingual Preschool, and may be spent for no other purpose."

ATTACHMENT: No

2025 COUNCIL BUDGET ACTION

V1

SDOT-005-A

Proviso \$175,000 in SDOT to implement parallel-only parking changes at Duwamish Head

SPONSORS

Rob Saka

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on \$175,000 of appropriations in the Seattle Department of Transportation's (SDOT's) budget to convert angled on-street parking on Harbor Ave SW at Duwamish Head to parallel-only parking, and to restore parallel-only parking to Alki Ave SW adjacent to this location.

This CBA would impose the following proviso:

"Of the appropriations in the 2025 budget for the Seattle Department of Transportation's Mobility Operations Budget Summary Level (BO-TR-17003), \$175,000 is appropriated solely for conversion of angled on-street parking on Harbor Ave SW at Duwamish Head to parallel-only parking and restoration of parallel-only parking to Alki Ave SW at Duwamish Head, and may be spent for no other purpose."

ATTACHMENT: No

2025-2026 COUNCIL BUDGET ACTION

V1

SDOT-006-A

Increase SDOT by \$1.18 million GF (2025) and decrease School Safety Traffic and Pedestrian Improvement Fund by \$1.18 million GF (2025) for speed enforcement cameras, and impose a proviso

SPONSORS

Rob Saka, Dan Strauss

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$(1,181,000)	\$0
Total Budget Balance Effect	\$(1,181,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations in the Seattle Department of Transportation (SDOT) by \$1.18 million GF in 2025 to support deployment of automated traffic enforcement cameras for non-school zone speed enforcement. This CBA would impose a proviso to prohibit spending until authorized by future Council action.

Council anticipates that the Executive will engage the Council in developing a deployment plan for non-school zone speed enforcement cameras, identify any budgetary transfer of the identified \$1.18 million GF to impacted departments (including the Seattle Police Department and Seattle Municipal Court) that may be required to implement this program, and transmit any necessary legislation for the Council's consideration and future authorization of spending. The Council anticipates that the deployment of speed enforcement cameras will prioritize installation on Alki Ave SW and Harbor Ave SW.

Notwithstanding Seattle Municipal Code Section 5.82.010 and Section 1 of Ordinance 125206, this CBA would reduce the GF contribution of red-light camera revenue to the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund by \$1.18 million in 2025. The SSTPI Fund has sufficient fund balance to account for the reduced revenue.

This CBA would impose the following proviso:

"Notwithstanding Seattle Municipal Code Section 5.82.010 and Section 1 of Ordinance 125206, of the General Fund appropriations in the 2025 budget for the Seattle Department of Transportation's Mobility Operations Budget Summary Level (BO-TR-17003), \$1,180,000 is appropriated solely for deployment of automated traffic enforcement cameras and may be spent for no other purpose. Furthermore, none of the money so appropriated may be spent until authorized by future Council action."

SDOT-008-A

Proviso \$1 million Seattle Transit Measure funds in SDOT for Transit Ambassadors

SPONSORS

Budget Committee

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on \$1 million of Seattle Transit Measure appropriations in the Seattle Department of Transportation's (SDOT's) budget to support King County Metro's Transit Center Ambassador Program. Funding will support ambassadors on King County bus routes in Seattle and Seattle Streetcar service. The ambassadors will provide customer support, information, and assistance to transit riders. Seattle Transit Measure funding is eligible to support this purpose under the transit measure's Emerging Mobility Needs spending category.

This CBA imposes the following proviso:

"Of the Seattle Transit Measure appropriations in the 2025 budget for the Seattle Department of Transportation's Mobility Operations Budget Summary Level (BO-TR-17003), \$1,000,000 is appropriated solely for King County Metro's Transit Center Ambassador Program, and may be spent for no other purpose."

Other Funds	\$(247,517)	\$(751,543)
Total Budget Balance Effect	\$(247,517)	\$(751,543)

DESCRIPTION

This Council Budget Action (CBA) would decrease revenues to the Seattle Department of Transportation (SDOT) by \$248,000 in 2025 and \$752,000 in 2026 to recognize the impacts to transportation funds from the Office of Economic and Revenue Forecasts (Forecast Office)/City Budget Office (CBO) October 2024 forecast update. The forecast update's implications for the General Fund and other City funds are included in FG-901-A. In August of each year, the City receives a revenue forecast that is used for the Mayor's budget proposal, followed by a fall update during Council's budget deliberations. Details on the 2025 and 2026 impacts from the October revenue forecast update for transportation related revenues are listed below by fund:

- 1) Transportation Benefit District Fund (19900): This change decreases Transportation Benefit District Fund revenues by \$652,000 in 2025 and \$1.16 million in 2026 due to projected decreases in Seattle Transit Measure sales taxes; and
- 2) School Safety Traffic and Pedestrian Improvement (SSTPI) Fund (18500): This change increases SSTPI Fund revenues by \$405,000 in 2025 and \$415,000 in 2026, due to projected increases in school zone camera revenues.

2025 COUNCIL BUDGET ACTION

V2

SPD-101-A

Proviso SPD sworn salary, benefits, and overtime

SPONSORS

Robert Kettle

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on the Seattle Police Department (SPD) that restricts sworn salary and benefit funding so that it may only be used to pay SPD's recruits and sworn officers, and overtime for the same, until the Council passes a future ordinance.

For the purposes of this proviso, "salary and benefit" purposes include use of funds for benefits such as separation pay, workers' compensation payouts or any other salary-related expenditure. This proviso specifically authorizes expenditure of sworn salary savings on sworn officer overtime.

This CBA imposes the following proviso:

"Of the appropriation in the 2025 budget for the Seattle Police Department, none of the money that is necessary to support sworn salary, benefits, and overtime for 1,041 recruit and sworn officer FTE on an average annual basis may be spent for any other purpose unless authorized by a future ordinance."

2025-2026 COUNCIL BUDGET ACTION

V2

SPD-102-A

Increase SPD by 1.0 FTE Strategic Advisor 3 to oversee its participation in the 30x30 Initiative

SPONSORS

Rob Saka, Cathy Moore

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase position authority in the Seattle Police Department (SPD) by 1.0 FTE Strategic Advisor 3 to oversee department investments and programs that align with the national 30x30 Initiative. The position would be funded in 2025 and 2026 with salary savings that accrue from vacant, funded civilian positions within the department. Therefore, no additional appropriation authority is provided to support the position.

The Council intends for this position to support and align with the SPD Chief's ongoing efforts. The position is intended to maximize efficiencies across various functionalities in furtherance of the 30x30 Initiative's* goals, and to strengthen public safety by increasing representation of women in policing. Specific duties should include, but not be limited to:

- Reporting directly to the Chief of Police or command staff;
- Serve as a member of any steering committee or board related to the 30x30 Initiative;
- Partner and coordinate with the Seattle Police Women's Alliance, a nonprofit affinity group, to ensure that SPD's implementation of the 30x30 Initiative supports the identified needs and priorities of women officers and command staff;
- Assist in the development of recruiting efforts targeted to women;
- Assist in the development and coordination of women-only training classes for sworn SPD officers, with topics to include shooting, defensive tactics, the Incident Command System (ICS) approach, leadership, and more;
- Participate in the development of policies that are anticipated to have particular or discrete impact on women officers, such as those concerning parental leave, uniforms, and equipment;
- Establish an SPD Women's Peer Support Team, which is intended to be a venue for women officers at SPD to candidly and confidentially discuss their specific experiences;
- Coordinate surveys of women officers at SPD to understand the issues they face and their satisfaction with SPD's ongoing actions and investments consistent with the 30x30 Initiative;
- Coordinate and submit to the Council the information requested in ORD 127026 on a bi-annual basis; and

2025-2026 COUNCIL BUDGET ACTION

- Present to the Council, within four months of hiring the position in this CBA, a high-level workplan for the next 18 months, including a request for additional programmatic resources for funding in a supplemental budget or as part of the annual budget.

*Background: The 30x30 Initiative is a national initiative to advance the representation and experiences of women in policing in agencies across the United States. The initiative, which was launched in 2021, is a national coalition of police leaders, researchers, and professional organizations that share the common goals of: (1) increasing the representation of women in police recruit classes to 30 percent by 2030; and (2) ensuring that police policies and culture intentionally support the success of qualified women officers throughout their careers.

2025-2026 COUNCIL BUDGET ACTION

V2

SPD-103-A

Increase SPD by 2.0 FTE Parking Enforcement Officer (PEO) Supervisor positions for PEO training

SPONSORS

Budget Committee

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase position authority in the Seattle Police Department (SPD) by 2.0 FTE Parking Enforcement Officer (PEO) Supervisor positions to serve as dedicated training positions for the PEO Unit. The positions would be funded in 2025 and 2026 with salary savings that accrue from vacant, funded civilian positions in the department. Therefore, no additional appropriation authority is provided to support the positions.

SPD staff have indicated that: (1) the PEO unit's capacity to train new PEOs is currently limiting the number of candidates that can complete SPD's hiring process; and (2) two dedicated PEO training positions would allow SPD to admit into the backgrounding process more candidates, as the department would have confidence that it has the back-end capacity to handle more frequent training classes.

New, dedicated training positions would need to be negotiated as part of the collective bargaining process with both the PEO and PEO Supervisor unions. PEOs currently provide the department's basic PEO training while serving in an out-of-class PEO Supervisor role. Therefore, this CBA adds two PEO Supervisor positions to serve as dedicated trainers. Although ultimately, the exact position type would be determined through the collective bargaining process, and it is possible that the department may reclassify the positions through the city's Classification and Compensations process.

Background: In recent years, the City has had difficulty staffing the PEO Unit. Since 2020, the PEO Unit has carried approximately 20 vacant positions among its 104 PEO positions, 12 PEO Supervisor positions and two Manager positions.

2025 STATEMENT OF LEGISLATIVE INTENT

V2

SPD-103S-A

Request that SPD report on its Parking Enforcement Officer hiring process

SPONSORS

Budget Committee

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Seattle Police Department (SPD) report on how it will address ongoing vacancy issues in the Parking Enforcement unit by streamlining its current step-heavy, process-intensive hiring process, and providing recommendations on changes that could be made to attract and retain Parking Enforcement Officers (PEOs).

SPD staff have created a hiring group consisting of PEO Field Training Officers (FTOs), PEO managers, and Human Resources personnel, to identify potential changes to the hiring process, which currently requires candidates to complete seven steps over a six-month period. This SLI would ensure that the department's current reform process is reviewed by the Council.

Background: In recent years, the City has had difficulty staffing the PEO Unit. Since 2020, the PEO Unit has carried approximately 20 vacant positions among its 104 PEO positions, 12 PEO Supervisor positions, and two Manager positions.

SPD should submit the report to the Chair of the relevant committee and the Central Staff Director.

Responsible Council Committee(s): Public Safety

DUE DATE: June 1, 2025

2025-2026 COUNCIL BUDGET ACTION

V2

SPD-105-A

Increase SPD by \$10 million GF (2026) for overtime

SPONSORS

Robert Kettle

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$(10,000,000)
Total Budget Balance Effect	\$0	\$(10,000,000)

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations in the Seattle Police Department (SPD) by \$10 million GF in 2026 to make ongoing a proposed one-time increase of \$10 million for overtime in 2025. The 2025-2026 Proposed Budget would add \$10 million in 2025 only for overtime to fund emphasis patrols, sick leave backfill, and established minimum staffing levels at SPD. The \$10 million proposed increase in 2025 was made to sync the 2025 budget with expected spending levels, which are projected to mirror spending levels in 2024. Without continuing the \$10 million increase into 2026, SPD would have to severely curtail its overtime spending, or the Executive and Council would need to add more funding in 2026.

This CBA is offset by CBA SPD-904-A-2, which reduces \$6.5 million in 2025 and \$6.5 million in 2026 for sworn salary savings that would accrue because SPD's salary budget is funded at a greater level than is necessary to support SPD's current and projected number of recruits, sworn officers and the addition of 30 net new officers through 2026.

V1

SPD-106-A

Increase SPD by \$200,000 GF (2025) and \$16,000 GF (2026) to expand the Closed-Circuit Television pilot on Aurora

SPONSORS

Cathy Moore

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(200,000)	\$(16,000)
Total Budget Balance Effect	\$(200,000)	\$(16,000)

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations in the Seattle Police Department (SPD) by \$200,000 GF in 2025 and \$16,000 GF in 2026 to expand the Closed-Circuit Television (CCTV) pilot that was approved for Aurora Avenue in Ordinance 127110. The 2025-2026 Proposed Budget would fund the original Aurora pilot site south to 95th Street and north to 130th Street. This CBA would provide funding to extend the pilot site further south to 85th Street and further north to 145th Street, which is consistent with the boundaries established by amendment to ORD 127110.

2025 STATEMENT OF LEGISLATIVE INTENT

V2

SPD-108S-A

Request that SPD provide quarterly reports on staffing, overtime, and performance metrics.

SPONSORS

Budget Committee

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Seattle Police Department (SPD) provide quarterly reports to the Public Safety Committee on police staffing, overtime and performance metrics, including:

- (1) Staffing data including: (a) the "SPD Sworn Staffing Model"; (b) the "Precinct Staffing Report"; and (c) demographic data on hires and separations;
- (2) Overtime data including two years of actual and planned expenditures at the bureau and program level and accounting for both dollars spent and hours worked; and
- (3) Performance data including: (a) 911 call response time metrics; (b) Z-Disposition call handling metrics; and (c) an explanation of how changes to patrol and department staffing have affected SPD's ability to meet its response time and call handling goals.

All data should be submitted consistent with the format used in SPD-801S-A-2-2023. Department budget staff should assume that the Chair of the Public Safety Committee will request their presence at a hearing in the second week of the month following submittal of the data.

SPD should submit the reports to the Public Safety Committee and Central Staff Director as follows: By February 21, the report should include the 2024 year-end staffing data requested in the first item (1) above. By April 25 and July 25, the reports should address all items (1-3) above. If data for all items (1-3) is not available by the due date, then SPD staff should send on a piecemeal basis any data that is available.

Responsible Council Committee(s):

DUE DATE: February 21, 2025

2025-2026 COUNCIL BUDGET ACTION

V2

SPD-904-A

Decrease SPD by \$6.5 million GF (2025) and \$6.5 million GF (2026) to adjust sworn salary funding

SPONSORS

Budget Committee

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$6,500,000	\$6,500,000
Total Budget Balance Effect	\$6,500,000	\$6,500,000

DESCRIPTION

This Council Budget Action (CBA) would decrease appropriations to the Seattle Police Department (SPD) by \$6.5 million GF in 2025 and \$6.5 million GF in 2026 to adjust sworn salary funding so that it does not exceed the funding needed to support all recruits, student officers, fully trained officers, and the addition of 30 net new officers by 2026. The \$6.5 million in unnecessary funding in each year is repurposed to fund the \$10 million add in 2026 to the overtime budget that is reflected in SPD-105-A-2, and for other public safety purposes.

Background: City Budget Office (CBO) and SPD staff have indicated that SPD will need 1,041 funded FTE to support all of its recruit and sworn positions in 2025, and to hire an additional 15 officers above attrition. The difference between what is funded (1,076 FTE), and what is needed for existing staff and 15 net new hires (1,041 FTE) is a total of 35 FTE or approximately \$6.5 million in salary savings. This salary savings is currently unprogrammed in SPD's budget and is available for other uses. The 2026 Staffing Plan is overbudgeted by \$6.5 million for the same underlying reason.

2025-2026 COUNCIL BUDGET ACTION

V1

SPR-002-A

Increase SPR by \$1.5 million REET I Capital Fund (2025) to convert a ballfield infield at Garfield Playfield to turf

SPONSORS

Joy Hollingsworth

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$(1,500,000)	\$0
Total Budget Balance Effect	\$(1,500,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to Seattle Parks and Recreation (SPR) by \$1.5 million Real Estate Excise Tax I (REET I) Capital Fund in 2025 to convert a 60-foot ballfield's infield at Garfield Playfield to turf in the Major Maintenance and Asset Management (MC-PR-41001) Capital Improvement Program (CIP) project.

This CBA would fund conversion of a 60-foot ballfield's infield at Garfield Playfield to synthetic turf, and may include but not be limited to, lighting and additional updates to the dugouts and backstop, and any accessibility improvements. This CBA is intended to increase playing options for youth softball, supporting safe, accessible, and quality play for users on a year-round basis including during inclement weather. Limiting the conversion to the infield is intended to expedite the timeline of this project at a lower cost than converting the entire field. Other examples of infield conversions include Rainier Playfield and Garfield Baseball field #1.

Converting the entire softball field is estimated to cost over \$10 million. While the overall cost of an infield conversion is lower, the cost per square foot is slightly higher than a full conversion due to additional efforts to ensure appropriate functioning of the entire field and improvements that do not benefit from the economy of scale inherent to a large field conversion. Converting the infield to turf commits the City to replacing the synthetic turf every 10-12 years, a capital investment estimated to cost between \$300,000-\$500,000 or more depending on the size and condition of the field.

The financial plan for the Real Estate Excise Tax (REET) I Capital Projects Fund included in the 2025-2026 Proposed Budget shows a positive unrestricted fund balance in 2025 and beyond. This CBA may reduce the unrestricted fund balance but based on the current financial plan, this one-time appropriation can be supported without creating a deficit in this fund in 2025 and beyond.

The impact of this Council Budget Action on the Major Maintenance and Asset Management CIP page is shown in Attachment A.

Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding for asset renewal in parks and recreation facilities citywide, including athletic fields, play areas, swimming pools, trails, buildings, accessibility elements, outdoor infrastructure, and related work. This project also funds integrated asset management to track and forecast long-term asset and maintenance needs. Typical major maintenance improvements may include, but are not limited to renovating buildings, Americans with Disabilities (ADA) access improvements, replacing play area structures, forest, landscape, trail maintenance and improvements, swimming pool repairs, athletic field refurbishment, and installation of energy efficient lighting, and related major maintenance work. These projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, reclaim Parks property, and improve the overall park experience for the public.

2025-2026 COUNCIL BUDGET ACTION

V1

SPR-003-A

Increase SPR by \$775,000 Metropolitan Park District Fund (2025) for capital costs and community staffing costs for the Garfield Super Block Park Project

SPONSORS

Joy Hollingsworth

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$(775,000)	\$0
Total Budget Balance Effect	\$(775,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to Seattle Parks and Recreation (SPR) by \$775,000 Metropolitan Park District Fund in 2025, \$75,000 for community staffing costs and \$700,000 for capital costs for the Garfield Super Block Park Project in the Major Maintenance and Asset Management (MC-PR-41001) Capital Improvement Program (CIP) project.

The Garfield Super Block Project is a full renovation project that will address the unfinished portion of the 2005 Garfield Super Block Master Plan. City and grant funding from multiple sources will cover \$9.4 million of the planned project. The \$700,000 in additional funding could be used to support a redesigned “front porch” plaza with picnic shelter(s), a new ramp in the southeast corner, site furnishings throughout the park along the renovated walkway, a decorative and sensory water feature, and a parkour course.

The \$75,000 for community staffing will be used to support planning and design and related outreach and coordination between the community group, the City, and the Park Foundation. Funding has been provided in the past for community staffing. The intent was that the need to fund staffing would lessen as the project moved closer to construction. The project is expected to begin construction in Quarter 1 2025.

The financial plan for the Seattle Metropolitan District Fund included in the 2025-2026 Proposed Budget shows a positive unrestricted fund balance in 2025 and beyond. This CBA will reduce the unrestricted fund balance but based on the current financial plan, this one-time appropriation can be supported without creating a deficit in this fund in 2025.

2025-2026 COUNCIL BUDGET ACTION

V1

SPR-004-A

Increase SPR by \$1.5 million REET I Capital Projects Fund (2025) for a turf conversion of the softball field at Fairmount Park

SPONSORS

Rob Saka

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$(1,500,000)	\$0
Total Budget Balance Effect	\$(1,500,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to Seattle Parks and Recreation (SPR) by \$1.5 million Real Estate Excise Tax I (REET I) Capital Fund in 2025 for the turf conversion of the softball infield at Fairmont Park in the Major Maintenance and Asset Management (MC-PR-41001) Capital Improvement Project (CIP).

Fairmount Park in West Seattle has two youth playfields: a grass/dirt softball field and grass soccer field. This CBA would fund conversion of the softball infield from dirt to synthetic turf, including lighting and additional updates to the dugouts and backstop, and accessibility improvements. This CBA is intended to increase playing options for youth softball and baseball; and support safe, accessible, and quality play for users on a year-round basis, including during inclement weather.

Converting the infield is intended to expedite the timeline of this project and incur a lower cost than converting the entire field. Other infield conversions include Rainier playfield, Garfield baseball field #1, and Lower Woodland #1; an infield conversion at Ballard Playground is currently under construction. Converting the entire softball field at Fairmount Park would cost \$8 to \$10 million. While the overall cost of an infield conversion is lower, the cost per square foot is slightly higher than a full conversion due to additional efforts to ensure appropriate functioning of the entire field and improvements that do not benefit from the economies of scale of a larger field conversion. As with any field conversion, SPR would be committed to replacing the infield's synthetic turf every 10 to 12 years, a capital investment estimated to cost between \$300,000 to \$500,000 or more depending on the size and condition of the field. SPR renovates grass fields on a longer cycle, every 30-50 years.

The financial plan for the Real Estate Excise Tax (REET) I Capital Projects Fund included in the 2025-2026 Proposed Budget shows a positive unrestricted fund balance in 2026 and beyond. This CBA may reduce the unrestricted fund balance but based on the current financial plan, this one-time appropriation can be supported without creating a deficit in this fund in 2025.

The impact of this CBA on the Major Maintenance and Asset Management CIP is shown in Attachment A.

Major Maintenance and Asset Management

Project No:	MC-PR-41001	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding for asset renewal in parks and recreation facilities citywide, including athletic fields, play areas, swimming pools, trails, buildings, accessibility elements, outdoor infrastructure, and related work. This project also funds integrated asset management to track and forecast long-term asset and maintenance needs. Typical major maintenance improvements may include, but are not limited to renovating buildings, Americans with Disabilities (ADA) access improvements, replacing play area structures, forest, landscape, trail maintenance and improvements, swimming pool repairs, athletic field refurbishment, and installation of energy efficient lighting, and related major maintenance work. These projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, reclaim Parks property, and improve the overall park experience for the public.

2025-2026 COUNCIL BUDGET ACTION

V1

SPR-005-A

Increase SPR by \$150,000 Unrestricted Cumulative Reserve Subfund (2025) to fund studies and analyses necessary to develop a future Portal Park

SPONSORS

Robert Kettle

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$(150,000)	\$0
Total Budget Balance Effect	\$(150,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to Seattle Parks and Recreation (SPR) by \$150,000 Unrestricted Cumulative Reserve Fund in 2025 (one-time) to fund studies and analyses necessary for developing properties at 1st Avenue and Battery Street for a future Portal Park.

The properties comprising a potential Portal Park could include a 60,000 square foot parcel owned by the Seattle Department of Transportation (SDOT) that is the site of the former opening for the Battery Street Tunnel; a 7,200 square foot parcel owned by Seattle City Light (SCL) that is currently being used as a parking lot; and a multifamily parcel owned by a community organization.

The City has already developed a section of the SDOT parcel as “Portal Porch,” an 1,800 square foot public plaza space located at the northern corner of the wider Battery Street Tunnel portal site. The remainder of the SDOT parcel to the southwest of Portal Porch is fenced off and maintained as a grassed slope for the interim.

This CBA is intended to fund initial evaluation of the site’s opportunities and constraints (e.g., exploration of the slope and access to views, possible pathways through the park) along with due diligence activities (e.g., soil boring to test quality and stability of soil), property appraisals for sale or transfer to SPR, and other studies, planning or design work to inform plans for park acquisition and development.

The financial plan for the Unrestricted Cumulative Reserve Subfund included in the 2025-2026 Proposed Budget shows a positive unrestricted fund balance in 2026 and beyond. This one-time spending would not impact the sustainability of this fund in the future.

SPR-007-A

Increase SPR by \$700,000 Park and Recreation Fund (2026) for graffiti abatement services performed by a community-based organization

SPONSORS

Sara Nelson

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$0	\$(700,000)
Total Budget Balance Effect	\$0	\$(700,000)

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to Seattle Parks and Recreation (SPR) in 2026 by \$700,000 Parks and Recreation Fund for graffiti abatement services that will be provided under contract with a community organization such as Uplift Northwest. The City has contracted with Uplift Northwest since 2023 to provide additional capacity to address graffiti in the city that supplements the work performed by City graffiti abatement staff. Funding for this contracted work is included in the 2025 Proposed Budget but was not included in the 2026 Proposed Budget due to the need to reduce GF expenditures.

The financial plan for the Parks and Recreation Fund included in the 2025-2026 Proposed Budget shows a positive unrestricted fund balance in 2026 but a negative fund balance in 2027 and beyond. This CBA will reduce the unrestricted fund balance and, based on the current financial plan, this ongoing appropriation would create a deficit in this fund in 2027 and beyond.

SPR-008-A

Proviso \$25,000 in SPR's Public Restroom Renovations (MC-PR-41036) CIP project to paint a mural on the bathroom at Cal Anderson Park

SPONSORS

Joy Hollingsworth

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on \$25,000 of Public Restroom Renovations (MC-PR-41036) CIP project funds in Seattle Parks and Recreation (SPR) to fund the painting of a mural on the bathroom at Cal Anderson Park to discourage the defacing of this bathroom. It is the Council's intent that the mural would reflect the cultural history of the neighborhood.

This Council Budget Action would impose the following proviso:

"Of the appropriations in Seattle Parks and Recreation's 2025 budget for the Public Restroom Renovations (MC-PR-41036) CIP project in the 2025-2030 Capital Improvement Program, \$25,000 is appropriated solely for painting the bathroom at Cal Anderson Park and may be spent for no other purpose."

Proviso \$20,000 in SPR's Major Maintenance and Asset Management (MC-PR-41001) CIP project to support improvements at First Hill Park

SPONSORS

Joy Hollingsworth

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on \$20,000 of the Major Maintenance and Asset Management (MC-PR-41001) Capital Improvement Program (CIP) project funds in Seattle Parks and Recreation (SPR) to fund improvements at First Hill Park. This funding would be used to make repairs to the sprinkler and irrigation system, landscape improvements, and other improvements to address damage that has been caused due to the inappropriate use of this park in recent years.

This Council Budget Action would impose the following proviso:

"Of the appropriations in Seattle Parks and Recreation's 2025 budget for the Major Maintenance and Asset Management (MC-PR-41001) project in the 2025-2030 Capital Improvement Program, \$20,000 is appropriated solely for improvements at First Hill Park and may be spent for no other purpose."

General Fund	\$0	\$0
Other Funds	\$(100,000)	\$(100,000)
Total Budget Balance Effect	\$(100,000)	\$(100,000)

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Seattle Parks and Recreation (SPR) by \$100,000 Metropolitan Park District (MPD) Fund in 2025 and \$100,000 MPD Fund in 2026 for enhanced programming at existing late-night programming for teens operated by SPR.

SPR strives to have Late Night programs that reflect the desires and needs of teens in the communities in which this programming is offered. The additional funding would allow SPR to provide enhanced programming at existing Late Night programs which could include health and fitness activities, music or cooking classes, etc.

General Fund	\$0	\$0
Other Funds	\$(150,000)	\$(150,000)
Total Budget Balance Effect	\$(150,000)	\$(150,000)

DESCRIPTION

This Council Budget Action (CBA) would increase appropriations in Seattle Public Utilities (SPU) by \$150,000 Solid Waste Fund (SWF) in 2025 and \$150,000 SWF in 2026 to fund programming that prevents textile waste and offers opportunities to refugee and immigrant women.

The funding should be used to support an organization that supports refugee and immigrant women in overcoming barriers to employment and diverts waste from Seattle's waste disposal system, such as the Refugee Artisan Initiative.

The Refugee Artisan Initiative has received funding from SPU in the past through SPU's Waste-Free Communities Matching Grant program that supports community-initiated and led waste prevention projects. The grant program's next two-year funding cycle is scheduled to open in January 2025 and the department has \$200,000 to award.

The financial plan for the Solid Waste Fund included in the 2025-2026 Proposed Budget shows a positive unrestricted fund balance in 2026 and beyond. This one-time spending will not impact the sustainability of this fund in the future.

V1

HSD-002-B

Increase HSD by \$3.2 million GF (2025) and \$2.7 million GF (2026) to support the start-up and operations of two new Tiny House Villages and impose a proviso

SPONSORS

Cathy Moore, Rob Saka, Tanya Woo

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(3,200,000)	\$(2,678,000)
Total Budget Balance Effect	\$(3,200,000)	\$(2,678,000)

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Human Services Department (HSD) by \$3.2 million in 2025 (one-time) and \$2.7 million in 2026 (ongoing) to fund the start-up and operational costs for up to two new Tiny House Villages (THV). Funding would be limited exclusively to THV projects utilizing tiny houses, such as those produced by Sound Foundations NW. Other project types, such as THVs containing pallet shelters or shelters utilizing non-congregate buildings, would not be eligible for funding under this CBA. Council's intent is to reserve a portion of the new units created through this CBA for unsheltered people in high impact areas that consistently have substantial encampments as substantiated by Unified Care Team data, such as Downtown, Little Saigon, Lake City, or Crown Hill at Carkeek.

Funding would include:

- \$1.9 million for start-up costs in 2025, related to site infrastructure, permitting, and the cost of the tiny house village units.
- \$650,000 of one-time funding in 2025; this assumes that projects will become operational in July 2025, so that only a half year of operating costs will be incurred.
- \$2.7 million in ongoing funding in 2026; this assumes a full year of operating costs and incorporates a 3% increase over what a full year of 2025 costs would have been, consistent with the projected 3% inflationary adjustment for HSD administered contracts in 2026.

The CBA assumes that it will take six months for a THV shelter to become operational. This provides time to issue a Request for Proposals, review and select the winning proposal, negotiate a contract, secure a site and complete any necessary permitting. Operational costs for THVs range from a low of \$22,000 to a high of \$56,000, with an average cost of \$35,000. Operational costs depend on a number of factors, including lease costs, needs and acuity of population being served, and on-site services offered. As such, the number of units possible with this funding ranges from 48-122, with 77 using the average cost of \$35,000 per unit for THVs. There are other cost longer-term considerations as well. For example, THVs are often located on sites that are only temporarily available - such as vacant land that will eventually be developed - and need their relocation costs to be covered in order to continue operations at another site.

2025-2026 COUNCIL BUDGET ACTION

The City of Seattle currently provides an estimated \$29 million in funding for at least 19 non-congregate shelters, including 17 THVs.

This CBA would impose the following proviso:

"Of the appropriations in the Human Service Department's budget for Addressing Homelessness (HSD - BO-HS-H3000 - Addressing Homelessness), \$3.2 million is appropriated solely for the start-up and operations of two new Tiny House Villages utilizing only tiny house units, such as those built by Sound Foundations NW."

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$2.7 million.

V1

CARE-101S-A

Request CARE create Community Crisis Responder public data dashboard and request reporting on Seattle Restoration Program

SPONSORS

Maritza Rivera, Robert Kettle, Sara Nelson

DESCRIPTION

This Council Budget Action (CBA) would request that the Community Assisted Response and Engagement (CARE) Department, by no later than June 30, 2025:

1) Create a publicly accessible ongoing online dashboard to be regularly updated providing information on Community Crisis Responder (CCR) teams, to include details of CCR dispatches, responses, resolutions, and other relevant outcome data.

- Thorough data collection was one of the goals of the dual dispatch pilot program, with the intent that it would help guide program development. A year after that program's launch, little data is available regarding (1) the specific benefits that CARE response provided, from the perspective of those who received that response; and (2) CARE's service integration with partner agencies.

- This requested dashboard would provide the much needed information to show CARE's progress and outcomes as it expands.

2) Provide a written report to the Public Safety Committee describing the priorities and goals of the Seattle Restoration Program, and information about the role and responsibilities of the new Director position in this program.

- The Seattle Restoration Program Director will oversee the new Downtown Activation Team (DAT), adding a public safety focus to the existing Downtown Activation Plan (DAP) while leveraging the contributions of various City departments. This position was included in the Executive's 2025-2026 Proposed Budget, and it has been filled.

- Since this program is new and the position has been filled, more details on the program as a whole and its relationships with Unified Care Team (UCT) and the DAP should be reported to the Public Safety committee no later than June 30th, 2025.

Responsible Council Committee(s): Public Safety

DUE DATE: June 30, 2025

2025-2026 COUNCIL BUDGET ACTION

V1

CEN-004-A

Increase CEN by 2.0 FTE Gardener positions for Waterfront Park

SPONSORS

Robert Kettle, Joy Hollingsworth, Dan Strauss

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase Seattle Center (CEN) by 2.0 FTE Gardener positions to expand maintenance of Waterfront Park along with the completion and opening more areas of Waterfront Park in 2025. This CBA would not increase or modify appropriations to support the FTE increase. Instead, CEN would reallocate proposed appropriations in the Waterfront Budget Summary Level in order to fund these positions. If hired by the end of the first quarter of 2025, these positions would cost \$180,000 in 2025 and \$237,000 in 2026. CEN currently employs 1 FTE Senior Gardener and 1 FTE Gardener to maintain Waterfront Park.

HSD-032-A

Increase HSD by \$319,000 GF (2025) and \$330,000 GF (2026) and 2.0 FTE for Mobile Integrated Health team expansion

SPONSORS

Dan Strauss, Rob Saka, Robert Kettle

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(319,000)	\$(330,000)
Total Budget Balance Effect	\$(319,000)	\$(330,000)

DESCRIPTION

This Council Budget Action (CBA) increases appropriations to the Human Services Department by \$319,000 GF in 2025 and \$330,000 GF in 2026 and 2.0 FTE Senior Counselors to support expansion of the Mobile Integrated Health (MIH) team. This expansion of the MIH program will increase service delivery, expand operational hours, and add new lines of capacity for the team. This new investment would add an additional team to the Post Overdose Team (H99) to conduct patient follow-up and recovery system navigation. This is funded by a reserve set aside for this purpose by the Executive.

This CBA worsens the projected ongoing operating deficit in the GF beginning in the 2027-2028 biennium by \$\$330,000.

V1

HSD-038S-A

Request that the HSD report on a landscape analysis and an implementation plan for addressing gun violence in Seattle schools

SPONSORS

Sara Nelson, Maritza Rivera, Cathy Moore

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Human Services Department (HSD) report on a landscape analysis and an implementation plan for addressing gun violence in Seattle schools.

In response to recent gun violence in Seattle schools, the 2025-2026 Proposed Budget includes \$4.25 million and 1.0 FTE to support school-based violence intervention specialists, expand safe passage programs, expand case management for students most impacted by gun violence, and establish a family resource fund for those participating in case management. Seattle Public Schools has also made additional investments in public safety, such as hiring a new executive director of safety and security. According to HSD, the City's investments will be deployed at 11 pilot schools, chosen based on a multi-departmental collaboration led by the Mayor's Office, with reference to data from the Seattle Police Department (SPD), Seattle Public Schools (SPS), and the Office of the Superintendent of Public Instruction (OSPI). HSD will lead work on developing contracts to distribute funding to the schools. Ongoing meetings between HSD, SPS, and potential providers are informing the scale of resources needed at each school for various strategies.

This SLI is intended to provide transparency and clarity on City investments addressing gun violence in Seattle schools, including the interrelationship of the proposed new investment and the Seattle Community Safety Initiative or other current City programs that address gun violence in schools, and the basis for proposed additional investment in any currently funded program area. The report should include, but not be limited to, the following:

1. A landscape analysis that provides:
 - a. An overview of efforts and investments at the local, regional, state, and federal levels that address gun violence in Seattle schools.
 - b. An overview of comparable jurisdictions' strategies to address gun violence in schools, and any lessons learned from other jurisdictions that are being applied to the proposed new investments.
 - c. A review of City programs, investments, or policies, both past and present, related to addressing gun violence in schools, and an analysis about impact or, at a minimum, lessons learned that are being applied to the proposed new investment.

2025 STATEMENT OF LEGISLATIVE INTENT

2. An implementation plan, financial plan, and additional program information for the proposed new investment addressing gun violence in Seattle schools, which includes but is not limited to:
- a. Specific activities to be funded by the investments
 - b. A breakdown of anticipated costs for those activities
 - c. Anticipated program deliverables and outcomes;
 - d. Performance metrics that will be used to evaluate the initiative's effectiveness; and
 - e. The process by which HSD will coordinate with other departments, jurisdictions, and agencies in implementing and evaluating these investments.

2025 STATEMENT OF LEGISLATIVE INTENT

V1

ITD-002S-A

Request that the Executive collaborate with the City Council to establish an advisory workgroup to explore alternative financing and operating models for the Seattle Channel to ensure its long-term sustainability

SPONSORS

Dan Strauss

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Executive collaborate with the City Council to establish an advisory workgroup to explore alternative financing and operating models for the Seattle Channel in recognition of declining cable franchise fee revenues.

In 1997, responsibility for the City's municipal television station moved from the Seattle Public Library to the City's technology group that would later become Seattle Information Technology (Seattle IT). In early 2001, Mayor Paul Schell and Councilmember Jim Compton created the Seattle Commission on Electronic Communication that was charged with developing a short-term and long-term vision and direction for the City of Seattle's television station and website in order to increase public awareness, understanding, and participation in government, community, and cultural affairs. The fourteen-member volunteer Commission was composed of experts from local for-profit and non-profit media, the University of Washington, and local area technology companies. The Commission held meetings every two weeks over a six-month period and delivered its final report containing thirty-one recommendations for the future of the City's television station and website in December 2001. In 2002, the City's television station relaunched under the Seattle Channel moniker with a new mission to inform and engage Seattleites in the governmental, civic, and cultural affairs of the city.

The operations and activities of the Seattle Channel are funded by revenues raised from franchise fees assessed on cable television providers' gross revenues. Cable franchise fees have been declining for a number of years, likely due to customers switching away from traditional cable television service towards streaming options. Similar to the reimagining that occurred in 2001, this financing challenge presents an opportunity for the City to utilize outside experts to ensure the long-term sustainability of the Seattle Channel and its robust array of award-winning programming.

This SLI expresses the Council's commitment to work with the Executive to establish a Seattle Channel Advisory Workgroup that will assist in charting the next era in the evolution of the Seattle Channel. The Council intends the Workgroup to be composed of members with professional or research experience associated with the media, arts, finance, or news industries. The Chair of the Finance, Native Communities & Tribal Governments Committee (Finance Committee) in consultation with the Chair of the Parks, Public Utilities, and Technology Committee will work with the Mayor to select Workgroup members and to facilitate regularly occurring meetings to assist the Workgroup in accomplishing its goals. It is anticipated that the Workgroup will be composed of seven members: the Seattle IT Chief Technology Officer, or their designee, and six appointed members. The Workgroup will be advised by Seattle Channel staff. The Mayor and the Chair of the Finance Committee will each appoint three of the appointed members.

2025 STATEMENT OF LEGISLATIVE INTENT

In addition to other research activities, the Workgroup should explore the operating and financing models of other government access television stations inside and outside of Washington State for creative ideas for managing the City's declining cable franchise fee revenues.

It is envisioned that the Workgroup will generate recommendations addressing, at a minimum, the following areas:

- Financing - donations, sponsorships, advertising, grants, subscriptions, etc.
- Governance - remaining a City owned and operated service, operating as a non-profit or independent entity, or establishing state, county, regional partnerships, etc.
- Operations - partnerships with other governmental entities, establishing a consortium to create operating efficiencies, etc.

The Workgroup will be requested to deliver recommendations to the Council and the Mayor by no later than June 30, 2025. The Workgroup will dissolve upon delivering its final recommendations.

Responsible Council Committee(s): Finance, Native Communities & Tribal Governments

DUE DATE: June 30, 2025

2025 STATEMENT OF LEGISLATIVE INTENT

V1

MO-003S-A

Request a report from MO on a comprehensive Recreational Vehicle strategy

SPONSORS

Rob Saka, Joy Hollingsworth, Robert Kettle

DESCRIPTION

This Statement of Legislative Intent requests that the Mayor's Office (MO) take the lead on developing a report on a comprehensive Recreational Vehicle (RV) strategy. The strategy should be developed in partnership with the King County Regional Homelessness Authority (KCRHA) and departments participating in the Unified Care Team (UCT), including the Human Services Department (HSD), Seattle Department of Transportation (SDOT), Seattle Parks and Recreation (SPR), and Seattle Public Utilities (SPU).

The report should provide answer the following information:

- 1) Current approach to addressing RVs, including:
 - a. An overview of RV Remediation efforts, including departments involved and description of their roles;
 - b. Current programming and services efforts to help RV residents transition to housing;
 - c. A description of the unique needs of RV residents and challenges in addressing RV sites; and
 - d. Best and promising practices, and emerging trends, that have shown success in other jurisdictions across the state or country.
- 2) Recommendations addressing the following issues:
 - a. Programmatic approaches, policy changes and/or legislative changes that could:
 - i) make a measurable and more visible impact in the reduction of lived-in RVs on the city right of way; and
 - ii) better connect RV residents with housing and services;
 - b. How the City could best target its resources to specific geographic areas with the highest concentrations of lived-in RVs.
 - c) The recommendations should only include proposals that can be implemented within a year or less after being authorized by the Mayor and City Council. The recommendations should not include proposals that the City is incapable of implementing within a year, due to known limitations, such as officer staffing shortages.

2025 STATEMENT OF LEGISLATIVE INTENT

3) Recommendations on:

- a. Potential expansion of funding to specifically address what it would take to
 - i) make a measurable and more visible impact in the reduction of lived-in RVs on the city right way; and
 - ii) better connect RV residents with housing and services.
- b. Cost estimates for implementing recommendations, including:
 - i) For each recommendation, a low, medium and high cost option
 - ii) For each recommendation, the anticipated outcomes by low, medium and high cost option

The MO should submit the reports to the Chair of the Housing and Human Services Committee by September 1, 2025.

Responsible Council Committee(s): Housing and Human Services

2025 COUNCIL BUDGET ACTION

V1

OED-007-A

Proviso \$200,000 JumpStart Fund in OED for neighborhood business districts

SPONSORS

Rob Saka, Cathy Moore, Tammy Morales

DESCRIPTION

This Council Budget Amendment would impose a proviso of \$200,000 JumpStart Fund in the Office of Economic Development (OED) for purposes of small business support to historically under-resourced equity business districts that do not anticipate establishing a Business Improvement Area (BIA) in the next two years. Examples of such neighborhoods may include, but not be limited to: South Park, Georgetown, Highland Park, Beacon Hill, or Lake City. OED may initiate a competitive process for distribution of these funds.

In 2024, OED's Adopted Budget included \$4.9 million in non-labor costs for neighborhood business districts. This funding was used for neighborhood retail analyses, public space activations, grants for neighborhood-based non-profit organizations for post-pandemic recovery, and for exploring business improvement areas in equity districts. The 2025 Proposed Budget includes \$2 million in non-labor expenditures, and OED has stated that the focus of ongoing investments in neighborhood capacity building will be on supporting existing and potential business improvement areas (BIAs).

Council intends for this proviso to repurpose funding that otherwise would not be appropriated in the 2025 Proposed Budget for neighborhood business districts or BIA development.

This Council Budget Action would impose the following proviso:

“Of the appropriation in the 2025 budget for the Office of Economic Development (OED), \$200,000 JumpStart Fund that is not already appropriated to support neighborhood business districts and business improvement areas is appropriated solely for additional support to neighborhood business districts that have been historically under-resourced and do not anticipate being able to establish a Business Improvement Area (BIA) before the end of 2027, and may be spent for no other purpose.”

2025 STATEMENT OF LEGISLATIVE INTENT

V1

OED-008S-A

Request that OED provide a mid-year status update on the programs offered under the “Generating Wealth in Communities of Color” pillar

SPONSORS

Sara Nelson, Joy Hollingsworth, Tanya Woo

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Office of Economic Development (OED) report on a mid-year status update of the programs offered under OED's “Generating Wealth in Communities of Color” strategic pillar, including but not limited to the Business Community Ownership Fund, Capital Access Program, and the Tenant Improvement Fund.

The 2025-2026 Proposed Budget for OED continues to primarily advance strategies identified in the Future of the Seattle Economy (FSE) strategic framework, which was adopted by Council in Resolution 32099. The FSE framework includes five strategic pillars:

1. Investing in Talent and Building our Workforce
2. Supporting Small Business and Women- and Minority-Owned Business Enterprises
3. Generating Wealth in Communities of Color
4. Investing in Neighborhood Business Districts
5. Growing Businesses and Key Industries

The mid-year status report on investments in the Generating Wealth in Communities of Color pillar should include but not be limited to:

- Available funding for the year for each program;
- Number of applications received for each program to date;
- Number of awards and amounts of each award, either awarded with 2025 funding, or anticipated to be awarded by the end of 2025;
- Geographic distribution of awards distributed or anticipated in 2025; and
- Any information available to better understand anticipated demand in 2026.

Such information is intended to inform future decision-making and investments in programs that fall under the Generating Wealth in Communities of Color pillar, and to understand where further investments would be most impactful.

V1

SDCI-004S-A

Request that SDCI provide a report on tree-related data, enforcement, and the payment-in-lieu program

SPONSORS

Cathy Moore, Tammy Morales, Tanya Woo

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Seattle Department of Construction and Inspections (SDCI) report to the Council the following information related to the implementation of Ordinance 126821 since it went into effect on July 30, 2023:

- How many trees have been removed from lots under development, the reason for tree removal, and the tiers of removed trees;
- Information regarding the presence, condition, size, and species of trees present on a site before and after construction of the project, including the zone in which trees are being removed, aggregated both by zone and Citywide;
- Information regarding replacement trees planted off-site, including condition, size, and species;
- Number and location, including zone, of still active projects either vested or otherwise subject to Seattle Municipal Code regulations in place prior to the regulations made effective by Ordinance 126821;
- Number of people who reported tree removal complaints for each approved removal;
- Number of and total amount of penalties imposed and total amount of penalties collected;
- For the payment-in-lieu (PIL) program, work with the Seattle Department of Transportation and Seattle Parks and Recreation as needed to provide:
 - Number of permit applicants that used the PIL option; payment amounts; total payments collected; and City costs related to tree planting and establishment.
 - Total amount of funds expended from PIL received and where those funds have been expended for tree planting and establishment.

PIL information should be provided to Council by May 1, 2025.

SDCI should also provide in the report an approach for collecting information regarding the number of alternative site plans to retain trees that SDCI receives and whether each alternative plan was incorporated, partially incorporated, or unused in the final project plan. SDCI should include whether there are costs associated with the collection of such information.

Responsible Council Committee(s): Land Use

V1

SDOT-105S-A

Request that SDOT provide a report on the pothole repair program and performance indicators for potholes and roadway conditions

SPONSORS

Rob Saka, Maritza Rivera, Robert Kettle

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Seattle Department of Transportation (SDOT) provide a report on the pothole repair program. The report should describe how SDOT identifies, prioritizes and repairs potholes. In addition, the report should describe the key performance indicators along with the objectives and key results that SDOT uses to evaluate pothole incidents and roadway conditions. The report should also describe any notable trends and insights pertaining to SDOT's pothole repair program, together with relevant industry best practices.

2025 STATEMENT OF LEGISLATIVE INTENT

V1

SPD-110S-A

Request that SPD report on officer recruitment and retention

SPONSORS

Rob Saka, Joy Hollingsworth, Robert Kettle

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Seattle Police Department (SPD) create and report on a strategic plan that would ensure that the department meets the goals of its Hiring and Retention Initiative. The plan should:

1. Set forth an overarching strategy and define an implementation approach that would best position the department to recruit and hire 300-500+ additional police officers and restore officer staffing levels to pre-Covid levels of 1400+ deployable officers;
2. Describe with specificity, a durable and cohesive approach that addresses how the department could effectively achieve its recruitment and hiring goals, broken out by both new recruits and lateral hires, and outlines specific strategies, concrete steps, and detailed best practices the department should employ in both the near-term and long-term;
3. Define specific objectives and key results, goals, and anticipated milestones to allow the department to meet its officer recruitment and hiring targets in a defined timeline, and removing barriers to hiring qualified candidates – ensuring that each listed goal is sufficiently specific, measurable, ambitious, achievable, relevant, and time-bound; and
4. Identify and describe benchmarks, metrics and key performance indicators, and a detailed plan to achieve those metrics in a manner that is consistent with the data and anecdotal information collected on hiring, recruitment, and retention to date.

SPD should submit the report to the Chair of the relevant committee and the Central Staff Director.

Responsible Council Committee(s): Public Safety

DUE DATE: September 1, 2025

2025 STATEMENT OF LEGISLATIVE INTENT

V1

SPD-112S-A

Request that SPD report on LEAD (Let Everyone Advance with Dignity) database integration

SPONSORS

Cathy Moore, Rob Saka, Maritza Rivera

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Seattle Police Department (SPD) report on: (1) the use of data sharing platforms that would allow SPD's Computer Aided Dispatch (CAD) and Data Analytics Platform (DAP) systems to exchange information, where legally possible, with the database maintained by LEAD (Let Everyone Advance with Dignity); and (2) present a plan and timeline to integrate the systems to allow for the sharing of information on LEAD participants and program operations.

Background: The City Council requested in SLI-38-2-A-1-2019 that SPD and Seattle Information Technology work with LEAD to identify a database that would allow SPD and LEAD to record and exchange information on LEAD clients. In subsequent Council Budget Actions, the LEAD database was funded, built, and is now used in the field by LEAD staff. However, the LEAD database does not exchange vital client information with SPD systems and police officers cannot currently query their in-car mobile data computers to determine whether a detained subject may be a LEAD client. Such a determination would allow SPD to contact LEAD case managers to facilitate pre-arrest diversion.

SPD should submit the report to the relevant committee and the Central Staff Director.

Responsible Council Committee(s): Public Safety

DUE DATE: March 3, 2025

2025-2026 COUNCIL BUDGET ACTION

V1

SPL-001-A

Increase SPL by \$30,000 GF (2025) for library materials

SPONSORS

Tanya Woo, Rob Saka, Cathy Moore

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(30,000)	\$0
Other Funds	\$0	\$0
Total Budget Balance Effect	\$(30,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase the Seattle Public Library (SPL) by \$30,000 GF in 2025 (one-time) for physical library materials with the intention to prevent planned cuts to spending on magazine and newspaper subscriptions, and reference books. The 2025-2026 Proposed Budget would include a \$10,000 (9 percent) annual reduction in newspaper and magazine subscriptions and a \$5,000 (14 percent) annual reduction in reference book purchases.

SPL does not track nor have access to demographic information for patrons by use or type. However, SPL staff know from experience that lower income groups and older adult populations on fixed incomes depend on the library to provide physical access to informational and recreational materials. Reductions to physical formats such as magazine and newspaper subscriptions will create a disproportionate impact on patrons who may not have access to technology.

SPL employs an equity-informed approach when considering reductions to titles (newspapers, magazines, books, etc.) and quantities. Even if a title is not removed, fewer quantities of a title could result in less access. Additionally, Non-English language materials, including printed books and newspapers, are more expensive than their English counterparts—meaning that the impact of a budget cut to those materials is comparatively amplified. The reductions in the Proposed Budget would not only reduce contemporary access for resources to impacted communities, but also leave a permanent gap in historic coverage that impacts retrospective research for all communities, with periodicals and news being a key source of historic record.

This CBA is funded by GF dollars originally included in CBO-002-A-1 to delay layoffs of City staff. CBO 002-A-1 would have provided \$87,000 from one-time GF balance and position authority for a six-month restoration of 1.0 FTE Management Systems Analyst in the Seattle Department of Human Resources that was proposed for layoff in the 2025-2026 Proposed Budget. This proposal has been removed from the Balancing Package because the position is currently vacant; the revised CBA is CBO-002-A-2. This CBA does not impact the projected ongoing operating GF deficit in the 2027-2028 biennium.

Total Budget Balance Effect	\$(316,000)	\$(186,000)

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to Seattle Parks and Recreation (SPR) by \$434,000 Metropolitan Park District (MPD) in 2025 (one-time) and \$564,000 MPD in 2026 (one-time), \$186,000 Park and Recreation Fund in 2025 (one-time) and \$186,000 Park and Recreation Fund in 2026 (one-time), \$130,000 GF in 2025 (one-time) for a total of \$1.5 million over the biennium for the turf conversion of a softball infield at Lower Woodland Park in the Major Maintenance and Asset Management Capital Improvement Project (CIP) (MC-PR-41001).

Lower Woodland Park near Green Lake has five baseball/softball fields: one synthetic turf field and four grass fields. This CBA would fund the conversion of one softball infield from grass/dirt to synthetic turf, including additional updates to the dugouts and backstop, and any accessibility improvements. This CBA is intended to increase playing options for youth softball and support safe, accessible, and quality play for users on a year-round basis, including during inclement weather.

Converting the infield is intended to expedite the timeline of this project and incur a lower cost than converting the entire field. Other infield conversions include Rainier playfield, Garfield baseball field #1, and Lower Woodland #1; an infield conversion at Ballard Playground is currently under construction. For comparison, converting the entirety of Lower Woodland Park softball field #4 would cost \$3 to \$3.2 million. While the overall cost of an infield conversion is lower, the cost per square foot is slightly higher than a full conversion due to additional efforts to ensure appropriate functioning of the entire field and improvements that do not benefit from the economies of scale in a larger conversion. As with any field conversion, SPR would be committed to replacing this infield's synthetic turf every 10 to 12 years, a capital investment estimated to cost between \$300,000 to \$500,000 or more depending on the size and condition of the field. SPR renovates grass fields on a longer cycle, every 30 to 50 years.

2025-2026 COUNCIL BUDGET ACTION

To fund this capital project, this CBA relies on the following resources:

(1) Decrease appropriations in SPR's Park Land Acquisition and Leverage Fund CIP (MC-PR-21001) by \$434,000 MPD in 2025 (one-time) and \$564,000 MPD in 2026 (one-time). This reduction would result in fewer resources to acquire land for parks and cover associated costs (e.g., due diligence environmental reviews, appraisals, remediation, demolition) for park development. Remaining resources would be \$868,000 in 2025 and \$778,000 in 2026, including \$300,000 annually for the King County Conservation Futures Tax program providing 100% match for the purchase price of acquisitions meeting certain equity criteria.

(2) Make use of \$186,000 available fund balance in 2025 and \$186,000 available fund balance in 2026 in the Park and Recreation Fund. This fund balance is available by changes to the proposed Balancing Package. In the proposed Balancing Package, SPR 006-A-1 would have provided ongoing funding from one-time Park and Recreation Fund balance and position authority to fully restore 1.34 Laborer that were proposed for layoff in the 2025-2026 Proposed Budget. This proposal has been removed from the Balancing Package because the incumbent employees are no longer subject to layoff. SPR is holding two equivalent (vacant) positions in different park districts to transfer the incumbent employees in 2025.

(3) Make use of \$130,000 from one-time GF balance available in 2025 in the 2025-2026 Proposed Budget. In the proposed Balancing Package, CBO 002-A-1 would have provided funding from one-time GF balance and position authority for a six-month restoration of 1.0 FTE Administrative Specialist II and 1.0 FTE Senior Recreation Program Specialist that were proposed for layoff in the 2025-2026 Proposed Budget. This proposal has been removed from the Balancing Package because both positions are currently vacant; the revised CBA is CBO-002-A-2.

The proposed one-time investments in this CBA would not impact the sustainability of the MPD Fund or the Park and Recreation Fund, nor would it increase the projected ongoing operating GF deficit in the 2027-28 biennium beyond the amount reflected in CBO-002-A-2.

The impact of this CBA on the Major Maintenance and Asset Management CIP is shown in Attachment A and the impact of this CBA on the Park Land Acquisition and Leverage Fund CIP is shown in Attachment B.

Major Maintenance and Asset Management

Project No:	MC-PR-41001	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding for asset renewal in parks and recreation facilities citywide, including athletic fields, play areas, swimming pools, trails, buildings, accessibility elements, outdoor infrastructure, and related work. This project also funds integrated asset management to track and forecast long-term asset and maintenance needs. Typical major maintenance improvements may include, but are not limited to renovating buildings, Americans with Disabilities (ADA) access improvements, replacing play area structures, forest, landscape, trail maintenance and improvements, swimming pool repairs, athletic field refurbishment, and installation of energy efficient lighting, and related major maintenance work. These projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, reclaim Parks property, and improve the overall park experience for the public.

2025 STATEMENT OF LEGISLATIVE INTENT

V1

SPR-014S-A

Request that SPR report on the timeline for redeveloping the Lake City Community Center

SPONSORS

Cathy Moore, Maritza Rivera, Tanya Woo

DESCRIPTION

This Statement of Legislative Intent (SLI) would request the Seattle Parks and Recreation (SPR) to report on the timeline for redeveloping the Lake City Community Center. The 2025-2026 Proposed Budget would shift \$28 million of planned bond funding for the redevelopment of the Lake City Community Center from 2025 to 2026 to align with the project schedule, allowing additional time for refinement of timelines, scope, and costs.

In 2022, the Metropolitan Park District (MPD) Board funded redevelopment of the Lake City Community Center in the second cycle of the MPD spending plan, which was also included in the 2023 Adopted Budget. In 2023, the Lake City Community Center closed after sustaining significant fire damage.

SPR and the Seattle Office of Housing (OH) are partnering to redevelop the site with the goal of co-locating a new community center with affordable housing. SPR would continue to own and operate the redeveloped Lake City Community Center and, subject to Council approval, the City would provide the land to a selected development team through a ground lease with a term of up to 99 years. The affordable housing created through this process would be income-restricted to households earning up to 50 percent and 60 percent of the Area Median Income, depending on household size.

Currently, SPR and OH are conducting a Request for Proposals (RFP) process inviting developers to submit proposals for constructing the building shell and core of the new community center with affordable rental housing above. The City's timeline anticipates designation of the development team for this phase of the project by March 31, 2025. For the next phase, SPR may hire the selected development team to design the community center and construct the tenant improvements under a separate contract or issue a Request for Qualifications for a design team and bid the construction of the tenant improvements separately.

This SLI requests SPR to provide a report with a complete timeline for redevelopment of the Lake City Community Center including but not limited to milestone dates, identification of potential timeline impacts, and plans to mitigate delays.

Responsible Council Committee(s): Parks, Public Utilities & Technology

DUE DATE: July 1, 2025

2025-2026 COUNCIL BUDGET ACTION

V1

SPU-002-A

Increase SPU by \$50,000 GF in 2025 (one-time) for deep cleaning at lived-in Recreational Vehicle sites

SPONSORS

Rob Saka, Joy Hollingsworth, Robert Kettle

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$(50,000)	\$0
Total Budget Balance Effect	\$(50,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase appropriation authority to Seattle Public Utilities by \$50,000 GF (one-time) in 2025 for the purposes of increasing the number of deep cleanings of sites with lived-in Recreational Vehicles. Areas with the highest concentrations of lived-in RVs should be prioritized for deep cleaning services provided through this CBA.

SPU currently offers two types of cleaning related to Recreational Vehicle sites. Geo Cleans at RV sites focus on removing visible trash from the right-of-way (ROW). Deep cleaning goes further by involving unhoused individuals in organizing or approving the removal of bulky personal belongings, ensuring ROW and sidewalk accessibility. This approach is more a time-consuming, intensive and expensive process than Geo Cleans. SPU estimates that they would spend about \$125,000 on deep cleans in 2025. This CBA would bring anticipated funding up to \$175,000. The result would be one additional deep cleaning shift of 2-6 hours per month. Generally, 1-2 sites are addressed during a deep cleaning shift.

This CBA is funded by GF dollars originally included in CBO-002-A-1 to delay layoffs of City staff. CBO 002-A-1 would have provided \$87,000 from one-time GF balance and position authority for a six-month restoration of 1.0 FTE Management Systems Analyst in the Seattle Department of Human Resources that was proposed for layoff in the 2025-2026 Proposed Budget. This proposal has been removed from the Balancing Package because the position is currently vacant; the revised CBA is CBO-002-A-2. This CBA does not impact the projected ongoing operating GF deficit in the 2027-2028 biennium.

2025 COUNCIL BUDGET ACTION

V1

SPU-008-A

Proviso \$238,000 GF in SPU for sanitation services in Little Saigon

SPONSORS

Budget Committee

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on \$238,000 GF in Seattle Public Utilities (SPU) for sanitation services in Little Saigon.

The intent of the proviso is to ensure the continuation of sanitation services in 2025 that are currently being provided by a contractor in Little Saigon. The current contract is funded by the Chinatown-International District Business Improvement Area (CIDBIA) which received City funding through the Downtown Activation Plan in 2024, and the contractor's services include litter abatement, needles and sharps cleanup, graffiti abatement, and bulky item removal. The CIDBIA intends to include the Little Saigon neighborhood in future iterations of the BIA, which would reduce the need for additional outside funding.

In the 2025 Proposed Budget, SPU has approximately \$19 million of appropriations for clean-up services citywide.

This CBA would impose the following proviso:

"Of the General Fund appropriation in Seattle Public Utilities' 2025 budget for the Utility Service and Operations Budget Summary Level (SPU-BO-SU-N200B), \$238,000 is appropriated solely for providing sanitation services in the Little Saigon neighborhood and may be spent for no other purpose."

2025-2026 COUNCIL BUDGET ACTION

V1

ARTS-010-B

Proviso \$100,000 admissions tax (2025) in ARTS for cultural planning

SPONSORS

Tammy Morales, Rob Saka, Joy Hollingsworth

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on \$100,000 admissions tax in the Office of Arts and Culture (ARTS) in 2025 for cultural planning. The cultural planning efforts would help ARTS evaluate the strengths, resources, and overall status of the arts and cultural landscape in Seattle. The intent is for these efforts to provide a comprehensive picture of the creative economy in Seattle and mapping of Seattle's arts and cultural assets, including wages and strategies to keep artists in Seattle. It would inform ARTS' identification of key priorities and programming and establish an ongoing role for community stakeholders in guiding these Citywide investments. In 2024, ARTS engaged in an internal strategic planning process and would use this work to frame an external facing cultural planning process to gauge the status of the creative economy so that ARTS can partner with community to develop a broader vision and set of goals and objectives. Community members have expressed strong interest in participating more in the allocation of and investment decisions of these resources and the cultural planning process would support such a process to program resources. The 2025-2026 Proposed Budget included \$2.5 million in admissions tax funds for the Downtown Activation Plan. This proviso would require that \$100,000 of that funding is used for cultural planning.

2025-2026 COUNCIL BUDGET ACTION

This CBA would impose the following proviso:

"Of the appropriation in the Office of Arts and Culture's 2025 budget for the Arts and Cultural Programs Budget Summary Level (BO-AR-VA160) for Downtown Activation Plan initiatives, \$100,000 is appropriated solely for cultural planning and may be used for no other purpose."

ATTACHMENT: No

2025 STATEMENT OF LEGISLATIVE INTENT

V1

ARTS-011S-A

Request that ARTS create citywide and municipal arts plans

SPONSORS

Maritza Rivera, Tanya Woo, Sara Nelson

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Office of Arts and Culture (ARTS) provide a citywide plan for arts and culture and a new municipal arts plan.

Citywide art plan:

The Council requests that ARTS work with all City departments that receive funding for purposes related to arts and culture to collaborate on a plan that would govern arts and cultural investments across the City. This Citywide plan would address admissions tax, General Fund, and JumpStart funding. 1% for Arts/public art funding would be covered by the municipal arts plan described below. The intent of the plan is to create a framework by which ARTS serves as a central repository of information about how arts funding across the departments is being spent, both by ARTS and by other departments. The Council requests that ARTS collaborate with other departments to set Citywide goals for arts and cultural programming and investments. The plan should include data and outcomes for each department program and investment.

Municipal arts plan:

The City's 1% for Arts program requires that appropriations for construction projects include an amount equal to one percent of the estimated cost of each project to support public works of art. Expenditure of these and additional funds used for public art are guided by a municipal arts plan. Seattle Municipal Code Section 20.32.040.A requires that ARTS "[p]repare, adopt and amend with the Mayor's approval a plan and guidelines to carry out the City's art program, which shall include, but not be limited to a method or methods for the selection of artists or works of art and for placement of works of art." Since 2016, the municipal arts plan has not included a narrative description that includes the following information:

- Describe new projects public arts funding will support;
- Compare the size and number of new projects to the size and number of projects funded since 2015;
- Explain how ARTS conducts outreach and community engagement, particularly to communities of color who are underrepresented in the arts and culture sector; and
- Provide an annual balance of unprogrammed funds carried over since 2015.

The Council requests that ARTS provide the information described above in its municipal arts plan in 2025.

CARE-102S-A

Request CARE and HSD report on potential LEAD transfer

SPONSORS

Cathy Moore, Rob Saka, Robert Kettle

DESCRIPTION

This Council Budget Action (CBA) would request that the Community Assisted Response and Engagement (CARE) Department coordinate with the Human Services Department (HSD) to provide a written report to the Public Safety Committee, by no later than April 1, 2025, describing a plan to transfer contract administration and oversight of the City's contract for Law Enforcement Assisted Diversion (LEAD) program from HSD to CARE. This report should include information on the feasibility, cost, and anticipated timeline of shifting LEAD contract administration to CARE from HSD, and any other relevant information on considerations necessary to ensure continuity of LEAD services and case management coordination.

Responsible Council Committee(s): Public Safety

FG-105S-A

Request that Central Staff develop legislation to impose a digital advertising excise tax

SPONSORS

Tammy Morales, Rob Saka, Cathy Moore

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that Council Central Staff develop legislation that would impose a five percent tax on digital advertising services, or ads on a digital interface, including banner advertising, search engine advertising, interstitial advertising, and other comparable advertising services. A digital interface is any type of software, including a website, part of a website, or application, that a user is able to access. Legislation responsive to this SLI should be provided to the Finance, Native Communities, & Tribal Governments Committee no later than June 30, 2025.

Responsible Council Committee(s): Finance, Native Communities & Tribal Governments

DUE DATE: June 30, 2025

2025 COUNCIL BUDGET ACTION

V1

HSD-024-A

Proviso \$350,000 in HSD for a seasonal winter weather shelter in District 5

SPONSORS

Cathy Moore, Sara Nelson, Tanya Woo

DESCRIPTION

This Council Budget Amendment would impose a proviso of \$350,000 on the Human Services Department (HSD) for purposes of funding a seasonal winter shelter in District 5. Council's intent is that King County Regional Homelessness Authority (KCRHA) underspend from its 2024 Master Services Agreement with HSD be utilized for this CBA.

KCRHA would administer this funding and should seek proposals in a manner that allowed for timely opening of the shelter in winter 2025. Funding should be used for proposals that meet the following criteria: 1) a seasonal weather shelter open continuously during winter months (ideally from November - March); 2) at a facility with capacity to also be used as an enhance day shelter; and 3) with a provider that has demonstrated expertise with coordinated entry into permanent housing, such as Lake City Partners.

During severe winter weather (such as extreme cold or snow) KCRHA partners with the City to open temporary severe weather shelters at City Hall and the Seattle Center. These severe weather shelters are usually open for a period of a few days to a week and close once the severe weather event is over. There are currently no severe weather shelters available in North Seattle. There are no seasonal weather shelters, open continuously during the winter months, anywhere in Seattle. KCRHA anticipates utilizing \$900,000 annually in 2025 and 2026 for purposes of responding to severe weather events, including severe winter weather, severe heat and poor air quality due to smoke.

This CBA would impose the following proviso:

"Of the appropriations in the Human Service Department's budget for Addressing Homelessness (HSD - BO-HS-H3000 - Addressing Homelessness), \$350,000 is appropriated solely for a seasonal winter weather shelter, open continuously through the winter, in District 5. This proviso will be removed if HSD provides a report to the Chair of the Housing and Human Services Committee demonstrating this CBA has been funded by another source, such as 2024 KCRHA underspend."

HSD-035-A

Increase HSD by \$315,000 JumpStart Fund one-time (2025) for youth violence prevention activities, decrease SPR by \$315,000 JumpStart Fund one-time (2025) for youth connector, and impose a proviso

SPONSORS

Joy Hollingsworth, Tanya Woo, Sara Nelson

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase the Human Services Department (HSD) by \$315,000 JumpStart Fund one-time in 2025 for youth violence prevention activities. This CBA would decrease Seattle Parks and Recreation (SPR) by \$315,000 JumpStart Fund one-time in 2025 for planned 'Youth Connector' work. This CBA would impose a proviso on \$315,000 JumpStart Fund in the Human Services Department (HSD) in 2025 to fund specific organizations engaging in youth activities programming.

This Council Budget Action would impose the following proviso:

"Of the appropriations in the Human Services Department's (HSD's) 2025 Payroll Expense Tax budget, \$315,000 is appropriated solely to award funding for the following youth activities programming to contribute to violence prevention, and may be spent for no other purpose:

\$25,000 for Avela;

\$25,000 for Hip-Hop is Green;

\$50,000 for Rise Above;

\$25,000 for Holgate Church Afterschool Program – Student & Family Support;

\$15,000 for Colored Girls Garden Club;

\$25,000 for The Good Foot;

\$25,000 for Seattle Central Little League;

\$25,000 for First State Golf Club;

\$25,000 for Northwest Greyhounds;

\$25,000 for Boys & Girls Club Rotary Girls Basketball Team;

\$25,000 for The Breakfast Group; and,

\$25,000 for the Seattle Theatre Group - STG AileyCamp.

The Council has identified the above listed entities for this funding and requests that the HSD Director waive the requirements of Seattle Municipal Code subsection 3.20.050.B, as authorized by subsection 3.20.050.C.

HSD-039-A

Increase HSD by \$527,000 JumpStart Fund (2025) and \$527,000 JumpStart Fund (2026) for homelessness prevention services and decrease SDCI by \$527,000 JumpStart Fund (2025) and \$527,000 JumpStart Fund (2026) for tenant services

SPONSORS

Cathy Moore, Maritza Rivera, Sara Nelson

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Human Services Department (HSD) by \$527,000 JumpStart Fund in 2025 and \$527,000 JumpStart Fund in 2026 and decrease appropriations to the Seattle Department of Construction and Inspections (SDCI) by \$527,000 JumpStart Fund in 2025 and \$527,000 JumpStart Fund in 2026. This would transfer funds from SDCI to HSD.

The 2025-2026 Proposed Budget would appropriate \$1.76 million to SDCI for tenant services, of which \$527,000 would be used for rent arrears through contracts with organizations that provide eviction legal defense. This action transfers the rent arrears appropriation to HSD to cover rent arrears with the intent that disbursement be made upon notification of eviction settlement and upon the household remaining housed.

2025 STATEMENT OF LEGISLATIVE INTENT

V1

HSD-040S-A

Request that HSD report on how best to distribute rental assistance to ensure maximum distribution to households at risk of homelessness or eviction or currently homeless or in eviction proceedings

SPONSORS

Cathy Moore, Tammy Morales, Robert Kettle

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that prior to issuing a Request for Proposals (RFP) for Homelessness Prevention services that the Human Services Department (HSD) submit a report to the Council with the following information:

- A description of research on best practices regarding identifying and targeting households most at risk for homelessness for prophylactic as well as immediate need rental assistance.
- An explanation of how the approach in the RFP incorporates identified best practices.
- The results of a racial equity toolkit regarding deployment of rental assistance, which should include an analysis of the costs and benefits of deploying rental assistance through multiple community-based organizations (CBOs) as compared to a single large organization, such as United Way. The analysis should include potential strategies to have a single organization administer funding while preserving access to rental assistance funding for communities served by CBOs.
- A description of outcome data that will be collected for organizations receiving rental assistance funds.
- A timeline for releasing the RFP.

Background: Homeless prevention contracts were transferred to the King County Regional Homelessness in 2022, along with other homeless service contracts. In mid-2024, the Executive announced that the contracts would be transitioned back to HSD, beginning in fall of the same year. Currently, HSD contracts with eleven community-based organizations for rental assistance. In 2025, the total annual contract amounts are anticipated to be \$4.6 million, with \$2.4 million from the general fund and \$2.2 million from the Housing Levy (another approximately \$200,000 of Housing Levy dollars is used to cover administrative costs associated with deploying the funds). Additionally, HSD will receive investment earnings from the Housing Levy Rental Production and Preservation fund balances that must be used as rental assistance, as required in the Housing Levy Administrative and Financial (A&F Plan) Plan adopted by Council in 2024.

The A&F Plan also provides the requirements for eligible households and use of funds for any homelessness prevention services funded by the Housing Levy. Eligible uses include rent payments, rent or utility arrears and security deposits.

DUE DATE: June 30, 2025

2025-2026 COUNCIL BUDGET ACTION

V1

HSD-041-A

Increase HSD by \$3.3 million JumpStart Fund (2025) for rental assistance

SPONSORS

Cathy Moore, Rob Saka, Tammy Morales

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$(3,300,000)	\$0
Total Budget Balance Effect	\$(3,300,000)	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriation to the Human Services Department (HSD) by \$3.3 million JumpStart Fund in 2025 (one-time) for homelessness prevention through rental assistance.

In 2025, the total annual contract amounts for rental assistance are anticipated to be \$4.6 million. Additionally, HSD will receive investment earnings from the Housing Levy Rental Production and Preservation fund balances that must be used as rental assistance, as required in the Housing Levy Administrative and Financial (A&F Plan) Plan adopted by Council in 2024. That amount is anticipated to be \$1.9 million in 2025 (see HSD-001-A-1). With this CBA total appropriations for rental assistance in 2025 would be \$10 million.

Funding for this proposal would be drawn from fund balance in the JumpStart Fund. This fund balance is a one-time revenue source. This one-time spending will not impact the long-term sustainability of the JumpStart Fund in the future but will reduce the near-term fund balance. In addition, using the available fund balance for current needs means that it will not be available to address a situation in which JumpStart revenues fall short of forecast, or to address the year-to-year growth in costs associated with programs and services funded by JumpStart revenues. These were the specific purposes for which the Executive had designated the available fund balance.

Increase HSD by \$250,000 JumpStart Fund (2025) for Housing Connector and decrease FG by \$250,000 JumpStart Fund (2025) for World Cup preparation

SPONSORS

Cathy Moore, Rob Saka, Tanya Woo

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Human Services Department (HSD) by \$250,000 JumpStart Fund in 2025 (one-time) for expansion of a pilot to develop a centralized, real-time system to identify affordable residential rental vacancies for persons at risk of homelessness. This CBA would reduce proposed appropriations to Finance General (FG) by \$250,000 JumpStart Fund in 2025 for World Cup preparation and support. The 2025 - 2026 Proposed Budget establishes a reserve for City-incurred costs related to hosting World Cup matches.

Council has identified Housing Connector for this funding and requests that the HSD Director waive the requirements of subsection 3.20.050.B, as authorized by subsection 3.20.050.C.

This CBA does not impact the projected ongoing operating GF deficit in the 2027-2028 biennium.

HSD-043-A

Proviso \$29.5 million in funding for shelters serving people experiencing homelessness

SPONSORS

Cathy Moore, Maritza Rivera

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action would impose a proviso on \$29.5 million GF in the Human Services Department's (HSD) Addressing Homelessness BSL (HSD-BO-HS-3000). This amount is equivalent to six months of HSD GF funding for contracts for shelters for people experiencing homelessness; those contracts are administered by the King County Regional Homelessness Authority. The total appropriations for shelter contracts funded with GF in 2025 is \$59 million, so this CBA would impose a proviso on all but \$29.5 million of HSD's Addressing Homelessness BSL. The proviso would be lifted when HSD submits a report providing data on current shelter contract requirements regarding proactive outreach for substance abuse disorder treatments and Good Neighbor Agreements (GNAs).

This Council Budget Action would impose the following proviso:

"\$29.5 million of the money appropriated in the 2025 budget for the Human Service Department's (HSD) Addressing Homelessness BSL (HSD-BO-HS-3000) may not be spent for shelter contracts, until HSD has provided a report to the Chair of the Housing and Human Services Committee, that addresses the following questions regarding existing 2025 shelter contracts:

- 1) Do contracts require shelter providers to include a plan to proactively address substance use disorder (including via regular offers of medication assistance, mobile health clinic access, and assistance accessing treatment)? Is renewal of a contract contingent on the existence of such a plan? Is renewal contingent on compliance with this plan? How is compliance monitored?
- 2) Do contracts require a Good Neighbor Agreement that is in existence for the life of the project?
- 3) Are contract renewals contingent on documented compliance with the Good Neighbor Agreement?
- 4) What, if any, minimum standards are included in the contract regarding the parameters of Good Neighbor Agreements?
- 5) Do contracts require providers to engage with community members via regular community meetings, surveys, etc. to identify areas of concern by community members?
- 6) How is community input regarding provider compliance with GNAs gathered?

2025 STATEMENT OF LEGISLATIVE INTENT

V1

OH-005S-A

Request OH to provide quarterly vacancy data reports on city-funded rental housing projects

SPONSORS

Cathy Moore, Maritza Rivera, Sara Nelson

DESCRIPTION

This Statement of Legislative Intent (SLI) would request the Office of Housing (OH) to provide the City Council with quarterly vacancy data reports on city-funded rental housing projects. The initial report would be due on April 1, 2025.

OH currently reviews vacancy information for the over 350 City-funded rental housing buildings containing over 18,000 units, as part of an annual reporting requirement for such buildings. This review is done as part of OH's asset management functions. When needed, OH staff work with other public funding entities from King County, the State Department of Commerce, and the Washington State Housing Finance Commission to address issues identified in the annual reports. In addition, OH has created a committee to discuss strategies to engage providers with particularly troubled projects. Finally, OH is working on improvements to vacancy reporting including collaborating with other public funders to improve the statewide web based annual reporting system (WBARS) that tracks project level performance data including vacancy rates. Modifications are being made to WBARS to track vacancy data even more accurately.

DUE DATE: April 1, 2025

2025 COUNCIL BUDGET ACTION

V1

OH-007-A

Proviso \$7 million in OH for operating, maintenance, and services funding for Permanent Supportive Housing projects

SPONSORS

Cathy Moore, Maritza Rivera

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on funds equivalent to six months of Office of Housing (OH) funding for operating, maintenance and services (OMS) contracts for Permanent Supportive Housing (PSH). The total appropriations for OMS PSH contracts in 2025 is \$14 million, so this CBA would impose a proviso on all but \$7 million of OH's Multi-Family Housing Budget Summary Level (BSL). The proviso would be lifted when OH submits a report providing data on current contract requirements regarding pro-active outreach for substance abuse disorder treatments and Good Neighbor Agreements (GNAs).

This Council Budget Action would impose the following proviso:

"\$7 million of the money appropriated in the 2025 budget for the Office of Housing's Multifamily Housing Budget Summary Level (OH-BO-HU-3000) may not be spent for operating, maintenance and services contracts for Permanent Supportive Housing (PSH) projects, until the Office of Housing has provided a report to the Chair of the Housing and Human Services Committee, or successor Committee, that addresses the following questions regarding existing 2025 PSH contracts:

- 1) Do contracts require PSH providers to include a plan to proactively address substance use disorder (including via regular offers of medication assistance, mobile health clinic access, and assistance accessing treatment)? Is renewal of a contract contingent on the existence of such a plan? Is renewal contingent on compliance with this plan? How is compliance monitored?
- 2) Do contracts require a Good Neighbor Agreement that is in existence for the life of the project?
- 3) Are contract renewals contingent on documented compliance with the Good Neighbor Agreement?
- 4) What, if any, minimum standards are included in the contract regarding the parameters of Good Neighbor Agreements?
- 5) Do contracts require providers to engage with community members via regular community meetings, surveys, etc. to identify areas of concern by community members?
- 6) How is community input regarding provider compliance with GNAs gathered?"

2025 COUNCIL BUDGET ACTION

V1

OPCD-004-A

Proviso \$350,000 JumpStart Fund in OPCD for a Supplemental Environmental Impact Statement for the Comprehensive Plan

SPONSORS

Tammy Morales, Cathy Moore, Joy Hollingsworth

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on \$350,000 JumpStart Fund in the Office of Planning and Community Development (OPCD) for a Supplemental Environmental Impact Statement (SEIS) to the One Seattle Comprehensive Plan to study changes in Regional Centers and Urban Centers to consider additional density in those areas and to ensure that alternatives studied under the SEIS consider strategies to promote homeownership.

The 2025-2026 Proposed Budget for OPCD adds \$350,000 in JumpStart Payroll Expense Tax funds for development of an SEIS. The SEIS is intended to "support proposed zoning changes within existing Regional and Urban Centers with the goal of allowing more height and development capacity for housing." These changes were not part of the scope for the One Seattle Comprehensive Plan EIS, scheduled to be released in December 2024, and were therefore not analyzed. Many Urban Centers include areas where residents have owned their homes for decades, sometimes for generations. The proviso would require that any such SEIS identify where legacy homeowners reside and study alternatives that improve homeownership opportunities, including strategies to support legacy homeowners in staying in their homes, support homeowners in redeveloping their property if they desire, and support homeownership in new multifamily projects.

This CBA would impose the following proviso:

"Of the appropriation in the 2025 budget for the Office of Planning and Community Development's (OPCD's) Planning Budget Summary Level (PO-PC-X2P00), \$350,000 is appropriated solely to be used for the purpose of retaining a consultant or consultants to prepare a Supplemental Environmental Impact Statement (SEIS) to study zoning changes within Regional and Urban Centers, and other related changes OPCD determines should be studied. If it is determined that an SEIS is warranted based on the probable environmental impacts of those changes, OPCD shall contract for consultant assistance to prepare the SEIS. The appropriation may not be used for any other purpose.

2025 COUNCIL BUDGET ACTION

If OPCD determines that an SEIS is necessary for the zoning changes they are considering, the SEIS must include, but is not limited to:

1. A definition of legacy homeowner, and an analysis of where legacy homeowners reside in relation to the areas studied for rezoning under the SEIS;
2. At least one alternative that includes strategies to support legacy homeowners interested in staying in their homes;
3. At least one strategy to support homeowners in redeveloping their property if they desire; and
4. At least one strategy that incorporates tools to increase homeownership in multifamily zones and development.

The areas of study 2-4 identified above may be combined into one alternative or studied separately."

ATTACHMENT: No

2025 STATEMENT OF LEGISLATIVE INTENT

V1

OPCD-005S-A

Request that OPCD develop a plan to support small business economic development through the Equitable Development Initiative

SPONSORS

Cathy Moore, Maritza Rivera

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Office of Planning and Community Development (OPCD) work with the Equitable Development Initiative Advisory Board (EDIAB) and the Office of Economic Development (OED) to develop and report to Council on a plan to 1) expand the eligibility of Equitable Development Initiative (EDI) funding specifically for small business development, support, and ownership through programs such as the Tenant Improvement Fund, the Business Community Ownership Fund, and others; and 2) support the creation of spaces designed to meet the needs of future small business tenants in EDI projects. The Council's intent is to support the growth of businesses owned by Black, Brown, and BIPOC, immigrants, and refugees to advance economic mobility and opportunity and prevent commercial displacement. Council requests that OPCD transmit its report by June 2nd, 2025 and provide a briefing to the Land Use Committee prior to issuance of any Request for Proposals (RFP) for EDI funding in 2025.

Background

The EDI program was developed to fund community-initiated and community-led equitable capital development projects in communities facing the risk of displacement. It funds projects that address more than one of the following six drivers of equity:

1. Advance economic mobility and opportunity;
2. Prevent residential, commercial, and cultural displacement;
3. Build on local cultural assets;
4. Promote transportation mobility and connectivity;
5. Develop healthy and safe neighborhoods; and
6. Enable equitable access to all neighborhoods.

To date, the EDI program has supported 75 unique, equitable development projects with grants of approximately \$116.5 million awarded over nine award cycles, including a dozen projects that provide space for small businesses as part of mixed-use buildings, often at the ground floor of low-income housing developments. Other EDI projects support economic development activities, such as workforce development programs or small business support. Projects that do not include commercial space are instead providing space for culturally relevant arts and culture programs, human services, health care, community-building, community open space, and other programs to maintain and support communities at risk of displacement.

2025 STATEMENT OF LEGISLATIVE INTENT

In the 2022 budget, the Council adopted SLI OED-011-A-001 asking OED, the Office of Housing (OH) and OPCD develop a plan to coordinate community investments. That report, contained in Clerk File (CF) 322498 has resulted in regular meetings between the three departments where they identify shared priorities and opportunities to leverage multiple and distinct City funding sources for equitable development projects.

In the summer of 2024, through Ordinance 127036, the Council requested that OPCD provide a status report on each project funded by the EDI program and results of a program evaluation. The report, contained in CF 323183, stated that approximately ten percent of EDI project sponsors who responded to a survey, were interested in more support for small businesses through policy and funding changes to increase economic opportunities for their communities.

OPCD intends to undertake a strategic planning process in 2025 that will engage grantees and program stakeholders on ways to turn recommendations for program improvements into actions and strategies that best support inclusive growth and anti-displacement in Seattle, particularly for marginalized communities most at risk.

DUE DATE: June 2, 2025

2025-2026 COUNCIL BUDGET ACTION

V1

SCL-001-A

Proviso \$1 million Light Fund in SCL for Pinehurst Underground Cable Replacement

SPONSORS

Cathy Moore, Rob Saka, Tanya Woo

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on \$1 million of Light Fund in Seattle City Light (SCL) to fund the survey, condition assessment and preliminary estimates for the replacement of aging underground power cables in the Pinehurst area. SCL would undertake this work in 2025 to inform a future underground cable reliability construction project and the related budget needs. SCL estimates that \$1 million in funding would be needed for this effort in 2025 with work likely continuing into 2026 along with a funding carry-forward.

The Pinehurst area is diverse and has experienced severe power outages resulting from failing underground power cables. The Mayor proposes Comprehensive Plan and associated zoning changes as part of the One Seattle Major Update that could result in significantly increased density, if adopted. If densities in the Pinehurst area do increase, then this cable replacement becomes even more critical to providing reliable power to the area.

SCL has prioritized the replacement of underground power cables in the utility's service areas based on power outage data and customer feedback. Currently, Pinehurst, Capitol Hill, and View Ridge are among SCL's underground service areas where the utility needs to replace old systems of underground cables, but these areas aren't scheduled for system rebuilds in the next two years. Magnolia & Queen Anne are the next areas SCL currently plans to replace underground systems in, because those neighborhoods are where SCL has the greatest number of power outages due to the aging systems. A proviso of \$1 million in the Underground Equipment Replacements CIP Project for Pinehurst would not delay or negatively impact the work for other areas.

This Council Budget Action would impose the following proviso: "Of the appropriations in the Seattle City Light's 2025 budget for the Seattle City Light's Underground Equipment Replacements CIP project (MC-CL-YR8353), \$1 million is appropriated solely for the survey, condition assessment and preliminary estimates for the replacement of failing underground power cables in the Pinehurst area and may be spent for no other purpose."

2025-2026 COUNCIL BUDGET ACTION

V1

SDCI-005-A

Increase SDCI by \$456,000 JumpStart Fund (2025) and \$456,000 JumpStart Fund (2026) to restore tenant services; and reduce OED by \$456,000 JumpStart Fund (2025) and \$456,000 JumpStart Fund (2026) for Downtown Activation Plan activation, intergovernmental coordination, and Metropolitan Improvement District support

SPONSORS

Tammy Morales, Joy Hollingsworth, Cathy Moore

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Other Funds	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would increase proposed appropriations to the Seattle Department of Construction and Inspections (SDCI) by \$206,000 JumpStart Fund in 2025 and \$250,000 GF in 2025 and by \$206,000 JumpStart Fund in 2026 and \$250,000 GF in 2026, for a total of \$456,000 in 2025 and \$456,000 in 2026 to increase funding for tenant services grants and contracts.

The CBA would also decrease proposed appropriations to the Office of Economic Development (OED) by \$206,000 JumpStart Fund in 2025 and \$250,000 GF in 2025 and by \$206,000 JumpStart Fund in 2026 and \$250,000 GF in 2026, for a total of \$456,000 in 2025 and \$456,000 in 2026. Decreased appropriations to OED would partially reduce funding for Downtown Activation Plan (DAP) activities, including Westlake Park activation, South Downtown Intergovernmental coordination, and support to the Metropolitan Improvement District (MID).

The 2024 Adopted Budget appropriated \$2.5 million to SDCI for contracts and grants with tenant services organizations that provide education for landlords and tenants on the City's regulations, outreach, case management, eviction legal defense, and other services for tenants and landlords. The 2025-2026 Proposed Budget would appropriate \$1.8 million to SDCI for tenant services grants and contracts.

This CBA, together with SDCI-002-A, which would increase proposed tenant services appropriations by \$355,000 JumpStart Fund in 2025 and \$355,000 JumpStart Fund in 2026, would restore tenant services funding to 2024 baseline levels.

2025 COUNCIL BUDGET ACTION

V1

SDCI-006-A

Proviso appropriations in SDCI for tenant services grants and contracts

SPONSORS

Cathy Moore, Maritza Rivera, Rob Saka

DESCRIPTION

This Council Budget Action (CBA) would impose two provisos on all appropriations to the Seattle Department of Construction and Inspections' (SDCI's) Compliance Budget Summary Level (SDCI-BO-CI-U2400-Compliance) for tenant services grants and contracts. The second proviso related to eviction legal defense limits spending consistent with federal and state indigent defense standards. The 2025-2026 Proposed Budget would appropriate \$1.8 million to SDCI for tenant services grants and contracts.

This CBA would impose the following provisos:

"Of the appropriations for tenant services grants and contracts in the Seattle Department of Construction and Inspections' Compliance Budget Summary Level (SDCI-BO-CI-U2400-Compliance), all appropriations are solely for education of tenants and landlords on landlord tenant law, staffing a live tenant hotline, referrals for and assistance with securing rental assistance, mediation, interpretation services, and eviction legal defense and may be spent for no other purposes."

"The appropriation for tenant services grants and contracts in the Seattle Department of Construction and Inspections' Compliance Budget Summary Level (SDCI-BO-CI-U2400-Compliance) for eviction defense legal proceedings is limited to clients with incomes at or below 200% of the federal poverty level and may be used for no other purpose. Income verification confirmation must be submitted quarterly to SDCI."

2025-2026 COUNCIL BUDGET ACTION

V1

SDOT-101-A

Eliminate Unsecured Funding (2030) in SDOT for the Culture Connector CIP project

SPONSORS

Robert Kettle, Rob Saka, Cathy Moore

FINANCIAL SUMMARY

Fund	2025 Increase (Decrease)	2026 Increase (Decrease)
General Fund	\$0	\$0
Total Budget Balance Effect	\$0	\$0

DESCRIPTION

This Council Budget Action (CBA) would remove reference to \$410 million of unsecured funding in 2030 for the Seattle Department of Transportation's (SDOT's) Culture Connector Capital Improvement Program (CIP) project (MC-TR-C040). The impact of this CBA on the Culture Connector CIP page is shown in Attachment A. This CBA anticipates that the Executive will work to resolve any outstanding grant obligations related to the project, propose the abandonment of existing capital appropriations for the project in separate legislation, and work towards removing the Culture Connector from the CIP.

The Culture Connector (also known as the Center City Streetcar) would connect the South Lake Union Streetcar with the First Hill Streetcar through a 1.3 mile alignment in Downtown Seattle. The project was halted in 2018 due to concerns over cost escalation and design specifications. SDOT most recently reassessed the project in 2023 and identified a project cost estimate of \$410 million, which included \$74 million for utility relocation and \$90 million for structural upgrades to bridges, areaways, and roads to bear the weight of streetcar operations. The \$410 million cost estimate is reflected in the Culture Connector CIP Page as Unsecured Funding in 2030, and no appropriations are included in the 2025-2030 Proposed CIP.

ATTACHMENT: Yes

Culture Connector

Project No:	MC-TR-C040	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Various
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:		Neighborhood District:	Multiple
Total Project Cost:	\$460,000	Urban Village:	Multiple

The Culture Connector (formerly the Center City Connector) is a 1.27-mile segment of the Seattle Streetcar that will link the South Lake Union and First Hill Streetcar lines, creating a system that will connect over a dozen Seattle neighborhoods in Seattle's Center City. The project includes procurement of up to ten additional streetcars and design and construction of track and guideway; station shelters and platforms; overhead contact system; traction power substation; storage facility expansion; roadway and drainage; ADA curb ramps; curb space management; and urban streetscape. The project was put on indefinite pause in July 2020 in response to Citywide budget shortfalls caused by Covid-19.

To Be Determined	-	-	-	-	-	-	-	410,000	410,000
Total:	-	-	-	-	-	-	-	410,000	410,000

Unsecured Funding Strategy: SDOT will continue to work with the Mayor's office and City Council to determine the future of the project.

O&M Impacts: The Culture Connector would combine the two existing lines into a single Streetcar network. SDOT is currently working in collaboration with King County Metro on an operation plan for a single line. We expect to have an estimate of annual operating costs when the Center City Connector project reaches 30% design.

2025 STATEMENT OF LEGISLATIVE INTENT

V1

SDOT-102S-B

Request that SDOT provide a plan for terminating South Lake Union Streetcar service, decommissioning South Lake Union Streetcar assets, and identifying alternative South Lake Union transit options

SPONSORS

Rob Saka, Cathy Moore, Robert Kettle

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Executive provide a plan for terminating South Lake Union Streetcar service and decommissioning South Lake Union Streetcar assets. The plan should identify the administrative and legislative steps necessary to terminate service, including any actions to conclude partnership, advertising, and operating agreements related to the South Lake Union Streetcar. The plan should also identify the administrative and legislative steps necessary to decommission and dispose of South Lake Union Streetcar assets, including the South Lake Union Streetcar maintenance base, trolley vehicles, tracks, and traction power infrastructure. The SLI response should include a timeline for termination of service and decommissioning, and it should identify any costs associated with these actions.

In addition, the SLI response should document the availability and performance characteristics of existing transit service and the future expansion of transit service serving South Lake Union, including RapidRide J service, the future Sound Transit light rail station near Denny Way, and anticipated impacts and significant multi-year disruptions to South Lake Union Streetcar service due to light rail construction. The SLI response should explore utilizing Seattle Transit Measure funds currently used to support the South Lake Union Streetcar operations to purchase additional King County Metro bus service serving South Lake Union as a means to transition from streetcar service to other transit alternatives.

2025 STATEMENT OF LEGISLATIVE INTENT

V1

SDOT-104S-B

Request that SDOT provide a report on the performance measures and evaluation criteria used for consideration of bus-only lanes

SPONSORS

Sara Nelson, Rob Saka, Robert Kettle

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Seattle Department of Transportation (SDOT) provide a report documenting the performance measures and evaluation criteria that SDOT uses when considering bus-only lanes on SDOT corridor projects outside of Regional Centers. The report should use SDOT's experience on the Route 40 and RapidRide R projects as examples to describe SDOT's decision-making regarding bus-only lanes in these locations.

The report should detail the specific evaluation criteria used, such as: existing transit ridership and projected transit ridership after the bus-lanes are installed, expected travel time savings (using non-aggregated, local data), improved transit speed and reliability, impact on general traffic capacity and congestion (using local data), and freight access and mobility considerations. The report should describe the environmental and economic impacts considered, such as impacts to adjoining small businesses, net impact to carbon emissions including potential vehicle idling time, and neighborhood construction impacts. Using this data, the report should then identify how SDOT predicts the anticipated performance of bus-only lanes, how SDOT measures the delivered outcomes after deployment, and any measures SDOT may take to mitigate potential underperformance.

The report should also identify SDOT's current understanding of mobility priorities for bus-only lanes given current commuting patterns in a post-pandemic environment.

2025 COUNCIL BUDGET ACTION

V1

SDOT-107-B

Proviso \$1 million Transportation Levy Fund in SDOT for transit security services

SPONSORS

Rob Saka, Maritza Rivera, Robert Kettle

DESCRIPTION

This Council Budget Action (CBA) would impose a proviso on \$1 million of Transportation Levy appropriations in the Seattle Department of Transportation's (SDOT's) budget in 2025 for Transit Passenger Safety, as identified in CBA SDOT-001-A. The proviso would restrict funding to provide for transit security services and transit police. The intent of this proviso is to provide targeted deployment of security personnel to specific hot-spots and known problem areas, such as 3rd Avenue in Downtown Seattle.

The Transportation Levy spending plan (Attachment A to Ordinance 127053) identified \$9 million over the 8-year term of the levy for Transit Passenger Safety, described as "Invest[ments] in strategies that increase transit rider safety and security, including transit and public safety personnel services in coordination with King County Metro, Sound Transit, and/or other transit agencies." This Transportation Levy funding is separate and distinct from the Seattle Transit Measure, which provides funding for additional transit service, supports increased access to transit, and addresses emerging mobility needs.

This CBA would impose the following proviso:

"Of the Transportation Levy appropriations included in the 2025 budget for the Seattle Department of Transportation, \$1,000,000 is appropriated solely for transit security and transit police, and may be used for no other purpose."

ATTACHMENT: No

2025 STATEMENT OF LEGISLATIVE INTENT

V1

SDOT-107S-A

Request that SDOT provide a report on implementing transit security improvements, services, and policy

SPONSORS

Rob Saka, Maritza Rivera, Robert Kettle

DESCRIPTION

This Statement of Legislative Intent (SLI) requests that the Seattle Department of Transportation (SDOT) provide a report detailing the City's past efforts and future plans to implement transit security improvements and services to benefit transit riders and operators while riding transit. The report should describe how SDOT partners with King County Metro to support more King County Metro Police, as well as plans to ensure there are more social workers, security services, and transit ambassadors serving transit riders in Seattle. The report should describe the anticipated uses of available funding, including the Seattle Transit Measure and the Transportation Levy.

The report should identify the jurisdictional boundaries between the City and transit agencies in addressing transit safety concerns. The report should identify the regional governing bodies that establish transit safety policy and the City's representation/participation in these forums. The report should describe the City's internal efforts to address public safety coordination between SDOT, the Seattle Police Department, and any other affected departments. The report should document and disclose the actual reported and any suspected security and safety incidents occurring on King County Metro and Sound Transit service that runs through Seattle from 2023 through 2025 (as 2025 data is available), broken out by quarter, and broken out by the type of security and safety incident such as assaults, robberies/thefts, hate crimes, brandishing a weapon, etc.

The SLI response should 1) compare the adopted policies, protocols, and implementation approaches of King County Metro and Sound Transit with regard to the safety and security of transit riders and operators, and 2) specifically note any variances in the respective policies, protocols, and implementation approaches for each. The SLI response should develop a proposal for consideration in the 2026 budget for a leadership position to a) coordinate the City's work on transit passenger and operator safety while riding and operating transit, and b) engage with transit partners in aligning regional transit safety and security policies and protocols. The SLI response should provide for improved public transparency and help drive consistency in the City's efforts to enhance transit safety and address transit security disparities.

2025 STATEMENT OF LEGISLATIVE INTENT

V1

SPD-109S-A

Request that SPD study childcare options for sworn employees

SPONSORS

Cathy Moore, Rob Saka, Maritza Rivera

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Seattle Police Department (SPD) engage with a consultant to study childcare options for SPD employees, as recommended by the Chief and in accordance with the goals of the 30x30 Initiative. The study should examine childcare options that:

- (1) Provide flexible drop-off and pick-up times to accommodate irregular work hours;
- (2) Provide round-the-clock services to accommodate varying shift schedules;
- (3) Establish a City-run facility, or locate community-run facilities that could secure spots for SPD families; and
- (4) Identify SPD families or friends that are interested in developing in-home childcare businesses.

It is the Council's intent that SPD notify all members of the Public Safety Committee when the consultant is hired and when the consultant's study is complete. No other reporting is required by this SLI.

*Background: The 30x30 Initiative is a national initiative to advance the representation and experiences of women in policing in agencies across the United States. The initiative, which was launched in 2021, is a national coalition of police leaders, researchers, and professional organizations that share the common goals of: (1) increasing the representation of women in police recruit classes to 30 percent by 2030; and (2) ensuring that police policies and culture intentionally support the success of qualified women officers throughout their careers.

2025 STATEMENT OF LEGISLATIVE INTENT

V1

SPD-111S-A

Request that SPD report on automated sound enforcement technology

SPONSORS

Rob Saka, Cathy Moore, Robert Kettle

DESCRIPTION

This Statement of Legislative Intent (SLI) would request that the Seattle Police Department (SPD) collaborate with vendors that produce automated vehicle noise enforcement technology to report on (1) how the technology works to combat illegal vehicle noise through the use of camera and microphone systems that detect and measure sound pressure; and (2) policy considerations of using the technology, including how SPD would determine which Seattle neighborhoods could benefit from the technology. The report should identify:

- (1) The feasibility of using the automated sound enforcement technology, and potential limitations for deployment, including placement of cameras where industrial or other environmental noise could interfere with the technology;
- (2) The potential to use automated sound enforcement technology to combat illegal street racing;
- (3) Whether SPD would use the technology in a manner that differentiates enforcement for (a) vehicles that were manufactured to create high noise levels such as certain types of motorcycles, (b) vehicles that were modified to create additional exhaust noise, (c) vehicles that are in temporary disrepair (e.g., broken mufflers); or vehicles that play extremely loud music;
- (4) SPD recommendations on whether the technology should be used for non-vehicle enforcement (e.g., loud music in parks or beaches);
- (5) Impacts to vulnerable communities based on SPD's recommended use of automated vehicle noise enforcement technology;
- (6) SPD recommendations on where the City might deploy automated vehicle noise enforcement technology, to include areas that are acutely affected by noise complaints and violations such as Harbor Ave or Alki Beach in West Seattle; and
- (7) State and City code changes that are required for deployment of automated vehicle noise enforcement technology.

SPD should submit the report to the relevant committee and the Central Staff Director.

Responsible Council Committee(s): Public Safety

DUE DATE: July 15, 2025
