Issue Identification

STEP 2 OCT 15 - OCT 21

Council Budget Actions & Statements of Legislative Intent

STEP 3 OCT 28 - OCT 30

*Public Hearing #2
Oct 27 | 5:30 p.m.*

Balancing Package

STEP 4 NOV 10

Committee Vote: Chair's Package + Amendments

STEP 5 NOV 18 - NOV 19

Council Vote

STEP 6 NOV 23

Balancing Package [Step 4]

Presentation of Balancing Package: Agenda

- Overview
- Proposed changes by investment area
 - I. Economic Recovery
 - II. Health & Safety
 - III. Housing
 - IV. Resources
 - V. Budget Legislation

Up Next:

Committee Vote [Step 5]

- Vote on Balancing Package and Amendments: Nov 18 + 19
- Councilmember proposals to amend the Balancing Package are **due by 5 p.m. on Thursday, November 12.**
 - Proposals must be self-balancing.
 - Any required legislation needs to be introduced and referred to the Budget Committee by Monday, November 16.

Overview of Balancing Package

- Resolve starting shortfall of \$8.8 m
- Increase use of GF by \$68.2
 - \$25.9 m of net new GF investments
 - \$20.6 m to resolve shortfalls in three funds
(*Sweetened Beverage Tax, Commercial Parking Tax, and School Zone Camera Fund*)
 - Remainder to emergency reserves
- Reprograms about \$83 m of Mayor's proposed spending
- Increase Emergency Reserves by \$32 m

Fiscal Reserves

Balancing Package by Investment Areas

Category	Proposed Investments in Balancing Package*
Economic Recovery	\$55.1 million
Health & Safety	\$79.6 million
Housed	\$11.5 million

**New investments are supported by (1) new revenues (GF and REET from the Nov Revenue Update; STBD); and (2) reprogramming the Mayor's proposed spending to support Council priorities*

Economic Recovery:

IA. Effective Government Services

\$46.9 million

- \$2.18 million GF to restore positions proposed for budgetary layoffs in HSD, OED, OPCD, SDOT, and SFD;
- \$150,000 GF to Create an Independent Economics and Forecasting Office
- \$32 million GF to Emergency Fund (*amount not included in \$46.9 m total*)
- \$60,000 GF to LEG to supplement a King County survey on countywide human service wage inequities
- \$150,000 GF to LEG to fund transportation impact fee studies
- SLI: OED Report on construction impacts mitigation program for small businesses
- SLI: SCERS Report on sources and uses of City retirement funds and performance of the SCERS II plan
- SLI: SDOT provide monthly reporting on the West Seattle Bridge Immediate Response program

Economic Recovery:

IA. Effective Government Services (cont'd)

\$46.9 million

- \$24.8 million of STBD Fund to SDOT to implement voter approved Proposition 1
- \$9 million of GF to SDOT for debt service to backfill for the reduced 2021 Commercial Parking Tax revenue forecast
- \$9 million GF to the School Safety Traffic and Pedestrian Improvement Fund to backfill for the reduced 2021 School Zone Camera revenue forecast
- \$1.6 million GF to SFD to restore recruit class and testing cuts
- SLI: Request SPL open curbside pickup and return at all branches
- SLI: SPU to prepare a scope of work to analyze wastewater treatment plans and potential governance structure changes
- SLI: FAS report on small business Business and Occupation tax relief options businesses

Economic Recovery:

IB. Infrastructure Investments

\$8.2 million

- SDOT Investments:
 - \$777,000 of REET I for the Thomas Street Redesign
 - \$500,000 of REET I for the Route 44 TransitPlus Multimodal Corridor
 - \$5.2 million of REET I for the Georgetown to South Park Trail
 - \$943,000 of REET I Capital Projects Fund for the Route 7 TransitPlus Multimodal Corridor Project
 - \$400,000 of GF for the Bike Master Plan Protected Bike Lanes
 - \$4 million (REET I, REET II, and General Fund) for the Bridge Load Rating CIP Project

Health & Safety:

IIA. Climate

\$.4 million

- SLI: Request that the Executive recommend strategies for consolidating urban forestry functions
- \$132,000 GF to OSE for the Green New Deal Advisor position
- \$150,000 GF and 1.0 FTE to OSE for Energy Benchmarking and Building TuneUps
- \$140,000 GF to OSE for the Climate Policy Advisor position
- SLI: Request SPU to explore an expansion of the Tree Ambassador program

Health & Safety:

IIB. Food Access

\$1.8 million

- SLI: FAS report on potential space for a food bank in Belltown
- SLI: Request that HSD carry forward unspent funding for senior congregate meal programs to 2021
- SLI: OED develop strategies to support farmers markets
- \$1.8 million to OSE for the Fresh Bucks program (\$500k of SBT monies, \$1 million GF)

Health & Safety:

IIC. Health Services

\$2.1 million

- \$80,000 GF to HSD for commercial sexual exploitation services
- \$1.12 million GF to HSD for drug user health services and impose a proviso
- \$200,000 GF to HSD to increase harm reduction programs and impose a proviso
- \$383,000 GF to SFD to fund Automated External Defibrillators, Lucas Devices, and Ballistic Sets
- \$141,000 GF and 1.0 FTE to SFD to fund a Consulting Nurse
- \$150,000 GF and 1.0 FTE to SFD to fund a Crisis Counselor

Health & Safety:

IID. Equitable Access

\$2.8 million

- SLI: Add Internet for All section in the 2021 Adopted Budget Book
- \$550,000 of 2011 FEL to DEEL for a study and onetime programmatic funding for Black girls and young women and Black queer and trans youth
- \$130k GF to add position in DON to staff a new Indigenous Advisory Council
- \$1.6 m to HSD to increase services at agencies specializing in American Indian and Alaska Native populations
- \$60,358 GF to HSD for Age Friendly Seattle
- \$46,800 GF to HSD to provide safe services at a cultural center serving the Native and Indigenous community

Health & Safety:

IID. Equitable Access (cont'd)

\$2.8 million

- \$33,000 GF to HSD and \$67,000 GF to DEEL for programs supporting Native and Indigenous children and families
- SLI: Request that the Executive participate in a work group regarding implementation of the 2019 Racial Equity Toolkit (RET) report
- \$190,000 GF to OIRA for the Legal Defense Network
- \$100,000 GF to SDOT for a Public Life Study of Capitol Hill
- SLI: Request SPR to design and place signage at Licton Springs

Health & Safety:

IIE. Community-led Investments

\$59.1 million

- \$30 million GF to restore funding for the Strategic Investment Fund
- Proviso \$30 million for the Equitable Communities Initiative
- \$18 million GF to a Participatory Budgeting Process and impose a proviso *(in addition to \$12 million for PB Process added by reductions to SPD's budget)*
- \$10 million to HSD for community-led public safety investments, and impose a proviso
- \$1.08 million GF to restore funding in OCR for community-based organizations providing alternatives to or addressing harm created by the criminal justice system

Health & Safety:

IIF. Finding Alternatives to Policing

\$13.4 million

- \$550,000 GF to DEEL for a restorative justice pilot program
- \$75,000 GF to DON for a South Park safety coordinator
- SLI: Request that HSD provide a report on demand and costs for citywide diversion program by August 2, 2021
- \$65,000 GF to OIG for Sentinel Event Review
- \$479.976 GF to SFD + HSD for Health One expansion
- SLI: Request SPD to provide the reports requested in Ordinance 126148 and Resolution 31962
- SLI: Request SPD to provide reports on its overtime use
- SLI: Request SPD to provide monthly reports on police staffing

Health & Safety:

IIF. Finding Alternatives to Policing (cont'd)

\$13.4 million

- SLI: Request SPD to report on traffic stops
- SLI: Request SPD to report on cost effectiveness of using PEOs for special events, contracted sporting events, and flagging
- SLI: Request SPD to report on 911 call response times
- Proviso on SPD and request out-of-order layoffs of 35 SPD Officers (any savings would support for Participatory Budgeting process)
- Cut \$6.1 million GF from SPD for vacancy savings, add \$6.1 million GF for Participatory Budgeting process
- Cut \$3.7 million GF from SPD for overtime savings, add \$3.7 million GF for Participatory Budgeting process
- Impose a proviso on \$5 million GF in SPD for potential salary savings (any savings would support for Participatory Budgeting process)

Health & Safety:

IIF. Finding Alternatives to Policing (cont'd)

\$13.4 million

- Abrogate 93 police officer positions in SPD
- Cut \$175,000 GF from SPD for travel and training, add \$175,000 GF to FG Reserves for Participatory Budgeting process
- Cut \$300,000 GF from SPD for discretionary purchases, add \$300,000 GF to Finance General Reserves, and impose a proviso
- Cut \$450,000 GF from SPD for contracted mental health providers (MHPs), add \$1.5 million to HSD for 11 additional MHPs
- Impose a proviso on SPD regarding Harbor Patrol functions.
- Create new Community Safety and Communications Center
- SLI: 911 Call Center

Housed:

IIIA. Outreach

\$2.6 million

- \$1,068,000 GF to HSD to increase homelessness outreach services
- Repurpose 8.0 FTE for a new Homeless Outreach and Provider Ecosystem
- \$1,000,000 GF to HSD for mobile crisis teams
- \$109,187 GF 1.0 TLT FTE in HSD for grants and contracts administration
- \$286,000 GF to SPU to expand the Encampment Trash program to 13 additional sites
- \$100,000 GF to SPU for a publicly accessible sink program

Housed:

IIB. Shelter & Prevention

\$5.6 million

- \$2,800,000 GF to HSD to expand tiny home villages
- \$1,400,000 GF to HSD for a temporary tiny home village
- \$655,000 GF to HSD to support 24hour operations at basic shelters
- \$750,000 GF to HSD to increase funding to maintain rapid rehousing caseloads
- Proviso to restrict \$400,000 GF in HSD for homelessness prevention services for families with school-age children

Housed:

IIC. Renter Protections

\$1.1 million

- \$34,000 GF to HSD to fully fund the landlord liaison program
- \$99,033 GF and 1 FTE Housing and Zoning Technician to SDCI for tenant outreach and Property Owner and Tenant Assistance Group staffing
- \$500,000 GF to SDCI for tenant outreach, education, organizing, and other services
- SLI: Report by SDCI on transferable rental histories
- SLI: Report by SDCI on standard residential lease terms
- \$460,000 GF to SDCI for eviction legal defense

Housed:

IIID. Housing

\$2.2 million

- \$200,000 of fund balance in OH to fund the Home and Hope Program
- \$1.7 million GF to OH for property acquisition and feasibility study for Aurora Commons Redevelopment Project
- \$200,000 of fund balance to OH for the Home for Good Program
- \$100,000 GF to OH for predevelopment costs for property in the Central Area
- Proviso: \$30,000 in OPCD for the Comprehensive Plan Environmental Impact Statement
- Proviso: \$100,000 in OPCD for Comprehensive Plan outreach and engagement in 2021
- SLI: Report by SDCI on permit processing times
- SLI: Report by SDCI and OH on Mandatory Housing Affordability Program production

IV. Resources for the balancing package

- Amend and pass amended CB 119910, the 3rd quarter 2020 supplemental appropriations ordinance, revising the 2020 budget
- Eliminate Census Strategic Advisor and cut \$155,095 from DON
- Cut \$500,000 SBT from DON (*add to OSE for Fresh Bucks Program*)
- Recognize the City Budget Office's November 2020 forecast update
- Cut \$2 million GF from HSD for the Joint Community Safety Interdepartmental Team Recommendations
- Cut \$164,000 GF from OED for the Creative Industry Policy Advisor position
- Proviso \$200,000 GF in SPD for 2020 recruit signing bonuses
- Cut \$50,000 in REET I funding in SPR for Magnuson Park pool feasibility study

IV. Resources - 3rd Qtr Supplemental

- Several technical corrections
- Cut \$1.4 million originally appropriated to fund a Community Health Engagement Location (CHEL). Used in 2021 for:
 - \$1.12 million for health services for drug users
 - \$200,000 for Harm Reduction Programs
 - \$80,000 for Commercial Sexual Exploitation Services
- Cut \$500,000 for the Mayor's Community Safety Work Group. Balancing package includes funding to support the work group through the ECI.
- Cut \$1.7 million from Seattle Police Department salary savings from greater than expected officer 2020 attrition. Used in 2021 for Participatory Budgeting

IV. Resources - 3rd Qtr Supplemental

- Cut \$10 million from HSD, that would otherwise lapse, for community led public safety investments. The balancing package restores the \$10 million to HSD's budget for the same purpose.
- Swap \$6.3 million between the Transportation Fund and the REET II Capital Fund to address the anticipated 2020 Commercial Parking Tax shortfall
- Swap \$3 million for between the Revenue Stabilization Fund (RSF) and General Fund to increase the RSF's 2021 starting balance from \$3 million to \$6 million.
- Add \$1.05 million GF to address the anticipated \$1.05 million 2020 Short-term Rental Tax shortfall identified in the City Budget Office's November 2020 revenue forecast.

Net Balance Effect	\$(2,181,714)	
Total Budget Balance Effect	\$(2,181,714)	

Budget Action Description:

This Council Budget Action (CBA) would add \$2.18 million GF to restore 17 positions proposed for budgetary layoffs in Human Services Department (HSD), Office of Economic Development (OED), Office of Planning and Community Development (OPCD), Seattle Department of Transportation (SDOT), and the Seattle Fire Department (SFD). For all listed positions at OED, OPCD, and SFD, and two positions at HSD, the 2021 Proposed Budget would eliminate both the funding and the pockets for the positions. For all listed positions at SDOT and one position at HSD, the 2021 Proposed Budget would eliminate the funding for the positions but retain the pockets. Maintenance of City services was contemplated in the JumpStart Seattle spending plan adopted through Resolution 31957 and informed by a stakeholder process. Layoffs, especially those that are seniority-based, can disproportionately impact younger workers and people of color.

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
CW	001	A	002

This CBA would also impose a proviso on a portion of each of the listed department's 2021 budget to restrict use of the funds to retaining the positions.

"Of the appropriation in the 2021 Budget for the Human Services Department's HSD-BO-HS-H2000 BSL, \$86,542 is appropriated solely for retaining an Administrative Specialist 1-BU (#00019425) position and may be spent for no other purpose."

"Of the appropriation in the 2021 Budget for the Human Services Department's HSD-BO-HS-H5000 BSL, \$164,356 is appropriated solely for retaining either or both of the following positions: an Finance Analyst, Assistant (#00023616) position and an Management Systems Analyst, Assistant (#10002529) position and may be spent for no other purpose."

"Of the appropriation in the 2021 Budget for the Office of Economic Development's OED-BO-ED-Admin BSL, \$152,953 is appropriated solely for retaining a Strategic Advisor 2, Exempt / Strategy & Performance Advisor (#00024288) position and may be spent for no other purpose."

"Of the appropriation in the 2021 Budget for the Office of Economic Development's OED-BO-ED-X1D00 BSL, \$155,755 is appropriated solely for retaining a Strategic Advisor 2, Exempt / Nightlife Business Advocate (#10006049) position and may be spent for no other purpose."

"Of the appropriation in the 2021 Budget for the Office of Planning and Community Development's OPCD-BO-PC-X2P00 BSL, \$172,707 is appropriated solely for retaining a Strategic Advisor3, Exempt (#10005832) position and may be spent for no other purpose."

"Of the appropriation in the 2021 Budget for the Seattle Department of Transportation's SDOT-BC-TR-19001 BSL, \$222,890 is appropriated solely for retaining either or both of the following positions: an Asphalt Paving CC, Assistant (#00008616) position and an Asphalt Raker, Senior (#00008614) position and may be spent for no other purpose."

"Of the appropriation in the 2021 Budget for the Seattle Department of Transportation's SDOT-BO-TR-17003 BSL, \$98,151 is appropriated solely for retaining an Engineering Aide (#00007736) position and may be spent for no other purpose."

"Of the appropriation in the 2021 Budget for the Seattle Department of Transportation's SDOT-BO-TR-18001 BSL, \$910,235 is appropriated solely for retaining any combination of the following positions: Executive 2 (#00008348) position, Labor Relations Coordinator (#00012005) position, Res & Eval Assistant-BU (#00022523) position, Space Planner (#00007693) position, Strategic Advisor 1, General Government (#10004402) position, and Strategic Advisor 2, Finance, Budget, and Accounting (#10005232) position and may be spent for no other purpose."

"Of the appropriation in the 2021 Budget for the Seattle Fire Department's SFD-BO-FD-F5000 BSL, \$116,799 is appropriated solely for retaining an Administrative Staff Assistant / Reception & Administrative Support Unit (#00006631) position and may be spent for no other purpose."

"Of the appropriation in the 2021 Budget for the Seattle Fire Department's SFD-BO-FD-F1000 BSL, \$101,326 is appropriated solely for retaining a Training & Education Coord, Assistant-BU / Medic 2 Program (#00018041) position and may be spent for no other purpose."

2021 Seattle City Council Statement of Legislative Intent

Council Budget Action: Agenda

Tab	Action	Option	Version
FAS	002	B	001

Budget Action Title: Request that FAS provide a report on small business Business and Occupation tax relief options

Ongoing: No Has Attachment: No

Primary Sponsor: Andrew Lewis

Council Members: Tammy Morales, Dan Strauss

Staff Analyst: Tom Mikesell

Date		Total	LH	TM	KS	AP	DJ	DS	AL	TM	LG
	Yes	0									
	No	0									
	Abstain	0									
	Absent	0									

Statement of Legislative Intent:

This Statement of Legislative Intent requests that the Department of Finance and Administrative Services (FAS) provide a report on options to provide Business and Occupation tax relief to small business. The report should quantify tax revenue impacts and FAS administrative costs for options that target relief based on at least the following criteria: annual taxable income, number of full time equivalent (FTE) positions, and business type by North American Industrial Classification System category. The report should provide for scalability based on alternative decisions about applicability of each of these criteria. The report should include options that consider any combination of waivers, credits, and minimum taxation threshold changes, and should allow for comparison of options based on administrative costs and level of tax relief provided. Finally, the report should include implementation timelines, beginning from passage of authorizing legislation, for each option.

The City Council requests that this report be provided to the Finance and Housing Committee by July 1, 2021

Responsible Council Committee(s):

Finance & Housing

Date Due to Council: July 1, 2021

Summary of Dollar Effect

See the following pages for detailed technical information

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$150,000	
Net Balance Effect	\$(150,000)	
Total Budget Balance Effect	\$(150,000)	

Budget Action Description:

This Council Budget Action would add \$150,000 GF to Finance General (FG) as a reserve for partial year costs of establishing an independent economic and forecasting office through separate legislation. The funding is intended to be combined with personnel costs for positions currently included in the City Budget Office budget in 2021 to support the initial setup and partial year costs of an independent economic and forecasting office. Similar to the King County Office of Economic and Financial Research and the Washington State Economic Revenue Forecast Council staff, this office would provide confidential economic and tax research and resources to the Council and Mayor. Further, it would independently develop economic and revenue forecast information and present forecast results to the Mayor and Council and the same time, establishing a level playing field for receiving this information.

Legislation establishing the office will be introduced separately, and the new office's final operating

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
FG	001	A	002

budget, including staffing and other operating considerations, will be based on the body of work included in that legislation. To restrict use of funds pending passage of legislation establishing the office, this budget action would impose two provisos on appropriations to CBO and FG in the budget. The action would impose the following provisos:

"Of the appropriation in the 2021 Budget for the City Budget Office (CBO), \$330,000 may not be spent until an ordinance is created approving the establishment of an independent forecasting office."

"Of the appropriation in the 2021 Budget for Finance General (FG), \$150,000 may not be spent until an ordinance is created approving the establishment of an independent forecasting office."

Budget Action Description:

This budget action would cut \$10,345,000 from the 2021 Finance General (FG) Budget for the proposed Equitable Communities Initiative and adds \$32 million in FG for a transfer to the City's Emergency Fund in 2021.

2021 Seattle City Council Budget Action

FG	006	A	001

After accounting for \$19.8 million of spending from the Emergency Fund for direct COVID-19 relief efforts in 2020, the 2021 Proposed Budget would deplete the Emergency Fund from \$47.1 million to a nearly zero (\$60,643) balance in 2021. This budget action would replenish the Emergency Fund balance to \$31.1 million in 2021, replenishing the majority of the funds used to support the programs and services agreed to for the Joint COVID-19 relief plan in 2020 and 2021 (see the Central Staff Citywide COVID-19 Response Issue Identification memo presented on the October 21, 2020, Select Budget Committee agenda for more information about the Joint-COVID-19 relief plan).

General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$150,000	
Net Balance Effect	\$(150,000)	
Total Budget Balance Effect	\$(150,000)	

Budget Action Description:

This Council Budget Action would add \$150,000 GF to the Legislative Department to fund continued development of transportation impact fees. The appropriation would be used to develop required studies to support and inform a program or programs of transportation impact fees. Transportation impact fees are authorized by State law pursuant to the Growth Management Act (GMA) and enabling authority for Transportation Benefit Districts (TBDs). Among other things, required studies would identify bridge maintenance projects eligible for investment from revenues generated by TBD-authorized impact fees and provide the basis for setting sustainable rate levels for these impact fees.

The Council established the intent to further consider transportation impact fees through Ordinance 126115 in July 2020 and docketed any associated Comprehensive Plan changes for consideration through Resolution 31970 in September 2020. The Legislative Department has an existing contract with a consultant to develop a GMA-authorized transportation impact fee program. Approximately, \$80,000

Statement of Legislative Intent:

This Statement of Legislative Intent requests that the Office of Economic Development (OED) collaborate with the Seattle Department of Transportation (SDOT) to propose a strategy for funding and distributing financial assistance to small businesses that are adversely impacted during the construction of City-led transportation projects, with the goal of establishing a program in OED by late 2021 or 2022. The proposed strategy should include: potential eligibility criteria for recipients; funding options; a Racial Equity Toolkit analysis; and other relevant considerations.

OED and SDOT should submit a response to the Community Economic Development Committee and the Central Staff Director by August 2, 2021.

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) requests that the Seattle Employees' Retirement System (SCERS) provide a report encompassing sources and uses of City retirement funds and performance of the SCERS II plan to increase transparency to the public.

The Council requests that SCERS, in consultation with other City departments if necessary, provide a report to the Council by July 1, 2021 that covers sources and uses of City retirement funds, the performance of the SCERS II plan, and options to merge with the State Public Employees Retirement System..

The report should cover, at a minimum:

I. In graphs covering the SCERS I and SCERS II plans separately, if possible, the sources and uses of retirement funds over the past 10 years including:

A. Sources of funds:

1. City tax dollars / City government contributions toward employee pensions (existing employees and retirees)
2. Employee contributions
3. Investment earnings
4. Any other sources

B. Uses of funds:

1. Payments to beneficiaries
2. Contributions to the retirement fund
3. Asset management/investment fees
4. SCERS administrative costs
5. Any other costs

C. In consultation with other departments if necessary, please include a separate graph showing City

payments for firefighter and police officer pensions.

II. Performance of the SCERS II plan, including a calculation of the impact on the plan funding ratio, and the total City cost savings (across all funds), from the SCERS II changes implemented in 2017. The report should also include any recommendations for changes to the SCERS system to meet either of the outcomes of achieving a 100 percent funding ratio sooner than 2042 and/or decreasing City retirement system costs.

III. Identification of options to merge all or a portion of the City retirement system with the Washington State Public Employees' Retirement System. These options should include a high level assessment of fiscal and administrative implications where applicable.

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) requests that the Seattle Department of Transportation (SDOT) provide monthly reporting to the Council regarding the West Seattle Bridge Immediate Response (MC-TR-C110) CIP Project, which includes the West Seattle Bridge repair or replacement and the Reconnecting West Seattle program. With the Mayoral Proclamation of Civil Emergency for the West Seattle Bridge (CF 321750), the Mayor directed SDOT to report monthly to City Council on uses of the emergency powers.

The Council requests that SDOT's report include spending and progress on:

- (1) West Seattle Bridge activities
 - (a) Emergency repairs or response
 - (b) Monitoring and testing of structural stability
 - (c) Shoring and stabilization activities
 - (d) Bridge repair or replacement planning and design
 - (e) Bridge repair or replacement construction
- (2) Lower Spokane Swing Bridge
 - (a) Bridge repairs
 - (b) Bridge strengthening and enhancements
- (3) Maintenance of other bridges in the corridor
- (4) Reconnecting West Seattle program spending
 - (a) Transit service investments
 - (b) Capital projects to support transit
 - (c) Park and ride facilities
 - (d) Support for waterborne service
 - (e) Traffic management improvements
 - (f) Non-motorized facility improvements

Expenditures	\$24,784,685	
Net Balance Effect	\$8,618,946	
Total Budget Balance Effect	\$8,618,946	

Budget Action Description:

This Council Budget Action would add \$24.8 million of appropriations from the Seattle Transportation Benefit District (STBD) Fund to the Seattle Department of Transportation (SDOT) to implement the Proposition 1 transit funding measure that was approved by Seattle voters on November 3, 2020. Proposition 1 authorized a 0.15 percent sales tax for transit service and related transportation programs as described in Ordinance 126115. This funding partially replaces the 2014 voter-approved measure for

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
SDOT	500	A	001

transit service that expires on December 31, 2020, which enacted a 0.1 percent sales tax and a \$60 vehicle license fee.

In addition to this Council Budget Action, the 2021 Proposed Budget included \$7.3 million of appropriations related to the ramp down of transit service for the expiring 2014 measure. Together, this proposal would authorize a total of \$32 million for the implementation of transit service and related transportation programs in 2021.

The anticipated 2021 spending includes:

- 1) \$21 million for transit service purchases,
- 2) \$5 million for emerging needs and West Seattle mobility,
- 3) \$3 million for youth ORCA opportunity transit passes,
- 4) \$2 million for essential worker transit passes, and
- 5) \$1 million for administration, including staffing.

This Council Budget Action anticipates \$33.4 million of revenue in 2021 from the 0.15 percent sales tax. The tax is expected to be in place by April 1, 2021.

This Council Budget Action has a net balancing effect of \$8.6 million. This funding would carry forward as fund balance in the STBD Fund to support transit program spending over the 6 year term of Proposition 1, and it would provide a reserve in the event that future sales tax revenues do not grow at the same pace as operational expenses.

This Council Budget Action would also convert two expiring positions to permanent positions to provide for continued staffing of SDOT's transit program. These position adjustments include:

1) Converting an expiring Strategic Advisor 2 position to a permanent position. This position manages and oversees the overall transit program and budget, including negotiating service investments with Metro transit. This position is currently scheduled to sunset on December 31, 2021.

2) Converting a term-limited Strategic Advisor 1 position to a permanent position. This position supported the Transportation Equity Agenda and oversees the low-income access to transit program. The position is currently scheduled to expire on December 31, 2020.

The Executive will propose stand alone legislation to enact the 0.15 percent sales tax after the November vote has been certified.

Net Balance Effect	\$9,000,000	
Total Budget Balance Effect	\$0	

Budget Action Description:

This Council Budget Action would add \$9 million of General Fund to the Seattle Department of Transportation (SDOT) to pay for debt service and would reduce SDOT's Transportation Fund expenditures for debt service by a corresponding amount. The General Fund revenue would backfill for the revised 2021 Commercial Parking Tax (CPT) revenue forecast provided by the City Budget Office

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
SDOT	900	A	001

(CBO).

CBO's revised revenue forecast included a \$9.6 million reduction of CPT in 2021. This Council Budget Action anticipates passage of BLG-002-B-001 (amended Third Quarter 2020 Supplemental Appropriations Ordinance) to offset \$600,000 of 2020 CPT expenditures which would provide additional Transportation Fund balance in 2021. Together, these actions would fully offset the projected 2021 CPT reduction.

General Fund Revenues	\$0	
General Fund Expenditures	\$1,565,317	
Net Balance Effect	\$(1,565,317)	
Total Budget Balance Effect	\$(1,565,317)	

Budget Action Description:

This Council Budget Action (CBA) would add \$1.6 million GF to the Seattle Fire Department (SFD) to restore full funding for the 2021 recruit class and to continue funding for annual firefighter testing.

The 2021 Proposed Budget would reduce \$1,345,825 GF in funding for pre-employment testing, recruitment, salaries and benefits, personal protective equipment, and other operating costs associated with 20 firefighter recruits on a one-time basis. The change would cut the annual recruit class size from 60 recruits to 40. Additionally, the 2021 Proposed Budget would reduce \$219,492 GF in overtime funding associated with administering firefighter written exams. The reduction would defer the application period and entry level firefighter written and oral exams by one year.

This CBA would restore both of these reductions. SFD has been experiencing above average attrition of

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
SFD	003	A	002

firefighter personnel in 2020 and SFD expects to be carrying 75 vacancies at the end of 2021 and will have 412 firefighters eligible for retirement. If increased separations continue, it could require SFD to meet minimum operational staffing requirement through an increased use of overtime. Should this occur, it may lead to firefighter fatigue and potentially affect morale and job performance.

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) would request the Seattle Public Library (SPL) to consider opening, if safe and sustainable, all branch libraries for either curbside pickup and return services or in-branch service at 25% capacity (per Safe Start Phase 2) until the end of the COVID-19 civil emergency. Currently, curbside pickup is being offered at nine locations (Central Library, Ballard, Broadview, Douglass-Truth, High Point, Lake City, Rainier Beach, Greenwood, and Northeast branches), with services being planned for the Beacon Hill and Southwest branches in early November and the possibility of the Columbia branch by year-end.

SPL has indicated it is currently reviewing how to safely and effectively add services in consideration of the Governor's guidance related to opening in-building services for patrons. It is a priority for the Library to provide services at as many branches as possible, and they are working to do so through a combination of reopened libraries and curbside services.

The Council appreciates SPL's efforts to provide services as safely as possible to patrons, and this SLI expresses the Council's support and preference for SPL to expand the established practice of curbside pickup and return to all branches.

Statement of Legislative Intent:

The purpose of this Statement of Legislative Intent is to have Seattle Public Utilities (SPU) begin an effort to evaluate and analyze the regional wastewater treatment system that serves the City of Seattle, including its operations, improvement plans, and governance structure.

The Council desires to keep utility rates as affordable as possible and recognizes that higher rates can have a disproportionate impact on lower-income residents. At the end of the evaluation process, the Council hopes to receive recommendations from SPU for improving environmental quality and maximizing ratepayer value.

The Council requests that SPU provide a report to the Council by June 30, 2021 with a proposed scope of work, approach, and evaluation of whether the work can be done within SPU's 2021 Adopted Budget (or, if applicable, what additional funding would be needed and by when) for conducting an evaluation of the recommendations of King County's Clean Water Plan and analyzing alternative approaches for treating the City's wastewater. At a minimum, the scope of work should address the following:

- An exploration of alternatives, including governance changes, to accomplish the goals of the Clean Water Plan.
- A third-party assessment of King County's planning approach and technical work performed as the basis for the recommendations proposed in the Clean Water Plan.
- An assessment of the impact of Clean Water Plan recommendations on historically disadvantaged communities that have borne disproportionate environmental and social impacts.
- The development and analysis of alternative approaches to wastewater treatment, such as innovative technologies and distributed approaches that support resiliency, that have not been thoroughly analyzed in the Clean Water Plan. SPU should emphasize the development of alternatives that have the potential to achieve greater environmental and equity outcomes with similar or lower costs.

2021 Seattle City Council Statement of Legislative Intent

Council Budget Action: Agenda

Tab	Action	Option	Version
SPU	001	A	002

- An identification and analysis of the feasibility, costs, and benefits of governance changes to the ownership and management of the King County regional wastewater system, including the potential separation of the West Point service area from the regional system.

BACKGROUND

King County provides wastewater treatment services for 34 jurisdictions, 17 cities and 17 local sewer utilities, in King, Snohomish, and Pierce counties. As one of these jurisdictions, the City of Seattle owns and operates its own collection system that carries wastewater and stormwater flows to the County's regional system for treatment and disposal.

The City has a long-term agreement with the County for this service, with the current contract in effect until July 2036. To pay for this wastewater treatment service, the County charges the City a treatment rate that is based on the County's monthly rate and the number of customers that the City serves. To recoup these costs, the City factors the cost of treatment into the rates that are charged to its utility customers, or ratepayers.

The County is currently developing a Clean Water Plan to guide its future water quality investments through the year 2060. The Plan will amend King County's Regional Wastewater Services Plan, which has been guiding the operation and development of its wastewater infrastructure and activities since 1999.

The County anticipates publishing a Draft Environmental Impact Statement for its Clean Water Plan in 2021 for public review and comment, and the Clean Water Plan will be published for County Council review in Q4 2021.

SDOT	007	B	001

SDOT's work on the MLK Jr Way S bicycle (Rainier Ave S to S Henderson St) is currently paused. SDOT estimates that this project will require \$2.8 million for design and \$6.7 million for construction.

The impact of this Council Budget Action on the Bike Master Plan - Protected Bike Lanes CIP page is shown in Attachment A.

Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program implements the Seattle Bicycle Master Plan. Typical improvements may include installing protected bike lanes, bike lanes and sharrows, bicycle route signing, completing key links in the urban trails network, adding bicycle/pedestrian signals to complete the network, and reconstructing key sections of the trails. The goals of the program are to increase bicycle safety and access while reducing bicycle crashes. This program includes funding for street improvement and trail construction and is consistent with the focus in the City's Transportation Strategic Plan (TSP) on encouraging walking and biking. The Accelerated Move Seattle Levy - Lid Lift Revenues represent spending that is in excess of available levy funds; consequently, Move Seattle appropriations are reduced in future years so that the total Move Seattle funding and expenditures are balanced over the nine years of the levy. LTD actuals may include the BMP spot improvements, Urban Trails, and Neighborhood Greenways, which were previously combined with this project's budget.

Unsecured Funding Strategy: SDOT will evaluate deliverables, prioritize and scale projects to the extent feasible, and continue to pursue grant and partnership opportunities to resolve potential funding deficits. Funding for this program beyond 2024 is dependent upon a future voter approved levy.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Budget Action Description:

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
SDOT	008	B	001

This Council Budget Action would add \$4 million of Real Estate Excise Tax (REET) and General Fund to the Seattle Department of Transportation (SDOT) for the Bridge Load Rating (MC-TR-C006) CIP Project.

The City Auditor's 2020 Bridge Maintenance Report identified four SDOT programs as routine maintenance programs, including:

- (1) the Structures Engineering program in the Bridges & Structures BSL;
- (2) the Structures Maintenance program in the Bridges & Structures BSL;
- (3) the Bridge Load Rating (MC-TR-C006) CIP Project, and;
- (4) the Bridge Painting Program (MC-TR-007) CIP Project.

The City Auditor's report identified a minimum need for annual bridge maintenance based on a minimum one percent of total replacement cost of the fixed asset which is estimated at \$34 million per year. The 2021 Proposed Budget includes a total of \$12 million in 2021 for these four bridge maintenance programs.

This Council Budget Action utilizes REET I, REET II, and General Fund identified in the City Budget Office's November revenue update. Expenditure of REET funds is restricted to CIP projects only. The additional funding for the Bridge Load Rating CIP Project would allow SDOT to inventory the condition of additional bridge assets and respond to the recommendations of the City Auditor's report.

The impact of this Council Budget Action on the Bridge Load Rating CIP page is shown in Attachment A.

The City Auditor's 2020 Bridge Maintenance Report is available at:

http://www.seattle.gov/Documents/Departments/CityAuditor/auditreports/2020_03_SeattleBridges_FinalReport.pdf

This program rates bridges for safe load-carry capacity as part of a federally mandated program. The work on this project, performed by both City staff and consultants, ensures public safety. Due to new load rating standards issued by the FHA on November 13, 2013 for Specialized Hauling Vehicles (SHV), additional funding was added to the program as part of the 2015-2020 Proposed CIP. The requested funding needed to meet these new standards was provided in 2019; however, shortly after signing the FAST ACT in 2015, FHWA submitted a 2016 memo that required bridge load ratings to consider Emergency Vehicles if they are at least one road-mile access to and from the National Network of highways. The program is currently assessing whether additional funding beyond 2021 will be needed to meet this mandate.

Statement of Legislative Intent:

This Statement of Legislative Intent requests that the Executive, Urban Forestry Commission (UFC), and Urban Forestry Interdepartmental Team evaluate models for consolidating the City's urban forest management functions and, based on this evaluation, make recommendations on how changes could be implemented. Currently, there are nine City departments that have a role in managing Seattle's urban forest:

- OSE coordinates citywide policy development, updates the Urban Forest Management Plan and monitors its implementation, and provides administrative support for the UFC;
- Seattle Department of Transportation (SDOT) manages trees in the public right-of-way.
- Department of Finance and Administrative Services, Seattle Center, Seattle Parks and Recreation, and Seattle Public Utilities (SPU) manage trees on their property;
- SPU engages community in urban forest stewardship on both private property and in the right-of-way;
- Seattle City Light maintains trees near power lines;
- Seattle Department of Construction and Inspections (SDCI) and the Office of Planning and Community Development develop policies and plans; and
- SDCI enforces regulations for trees on private property.

Specifically, the evaluation should consider whether to transfer staff and regulatory authority from SDCI and SDOT to another department or office in order to improve Seattle's urban forest, particularly in regards to the removal of trees. The recommendations should: (1) include a potential timeline for implementation; (2) consider staff involved in policy development, permitting and inspections, maintenance, community engagement, and stewardship; (3) identify code amendments needed to effectuate any changes; and (4) provide an estimate of costs, including potential savings, for implementing the proposed reorganization.

General Fund Revenues	\$0	
General Fund Expenditures	\$132,000	
Net Balance Effect	\$(132,000)	
Total Budget Balance Effect	\$(132,000)	

Budget Action Description:

This Council Budget Action adds \$132,000 GF to the Office of Sustainability and Environment (OSE) to support the Green New Deal Advisor position (1.0 FTE Strategic Advisor 1). In September 2019, the Council passed Ordinance (ORD) 125926, establishing the Green New Deal Oversight Board (Board) and creating an interdepartmental team to implement climate actions. In addition to providing administrative support to the Board, this position is responsible for coordinating the City's internal strategy to reduce climate pollutants, helping to achieve the goals identified in the Green New Deal for Seattle (Resolution 31895), adopted in August 2019. The Council added this position and funding in the 2020 Adopted Budget, but it was not filled due to the hiring freeze implemented in March 2020 in response to the economic crisis caused by the COVID-19 pandemic. The 2021 Proposed Budget would eliminate funding for the position, but retains \$40,000 GF that may be used for financial hardship stipends for Board members.

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
OSE	002	A	002

Hiring the Green New Deal Advisor will allow appointments to move forward for the Board, which is intended to provide the Council and Mayor with recommendations for how to implement the actions identified in the Green New Deal for Seattle, which are intended to accelerate the transition away from fossil fuels to renewable energy while centering communities that have historically been most harmed by racial, economic, and environmental injustices. Further, the Board is also expected to provide recommendations on how to allocate the portion of new payroll expense tax revenues (9 percent or an estimated \$20 million) intended for Green New Deal investments in 2022.

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$150,000	
Net Balance Effect	\$(150,000)	
Total Budget Balance Effect	\$(150,000)	

Budget Action Description:

This Council Budget Action adds \$150,000 GF and 1.0 FTE Senior Planning and Development Specialist to the Office of Sustainability and Environment (OSE) to support compliance and enforcement activities for the Energy Benchmarking and Building Tune-Ups programs. Funding for these activities would mostly be eliminated in the 2021 Proposed Budget, though it retains \$45,000 GF for a contract to provide limited technical assistance to building owners/operators.

The Energy Benchmarking program (Ordinance (ORD) 123226, adopted January 2010, and ORD 123993, adopted September 2012) requires building owners of multifamily and commercial properties 20,000 square feet or larger, excluding those used primarily for industrial manufacturing purposes, to annually track and report building energy efficiency performance. The Building Tune-Ups program (ORD 125002, adopted March 2016) requires building owners of commercial facilities 50,000 square feet or

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
OSE	003	A	002

larger that are subject to the Energy Benchmarking program to conduct tune-ups to identify and correct operational and maintenance deficiencies every five years. On average, these measures can reduce building energy use by 10 to 15 percent.

This funding will maintain the compliance and enforcement activities for both programs and support a staff member to provide technical assistance to building owners and review submissions for the Building Tune-Ups program. OSE anticipates that fines from the Energy Benchmarking and Building Tune-Ups programs could generate up to \$140,000 GF in revenues, of which approximately \$110,000 GF would be used to improve energy efficiency in affordable housing facilities.

Budget Action Description:

This Council Budget Action would add \$140,000 GF to the Office of Sustainability and Environment (OSE) for the Climate Policy Advisor position (1.0 FTE Strategic Advisor 2). This position is not funded in the 2021 Proposed Budget.

The Climate Policy Advisor oversees implementation of the Climate Action Plan and measures progress towards its goals. Additionally, this position is responsible for developing and implementing a Climate Impact Assessment Toolkit (Executive Order 2018-01), creating policies to support green jobs as part of the economic recovery, evaluating racial equity impacts of building decarbonization, and establishing Building Performance Standards.

In September 2020, the Council adopted Resolution 31933, which will add a required assessment of

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
OSE	004	A	002

potential climate impacts and climate resilience to the City's Summary and Fiscal Note that accompanies all legislation beginning on January 1, 2021. This climate-related analysis is intended to be informed by the more thorough quantitative and qualitative greenhouse gas emissions evaluation that will be required by the Climate Impact Assessment Toolkit for major capital projects and purchasing decisions. Initial work on the toolkit continued through early 2019, but progress has since been stalled due to staff turnover. With this funding, OSE would be expected to move forward with finalizing development of the toolkit and a pilot testing phase with select departments.

Statement of Legislative Intent:

Seattle Public Utilities (SPU) manages and operates the Tree Ambassador program in partnership with the Seattle Department of Transportation and the non-profit organization Forterra. The program engages volunteers to develop and lead neighborhood tree walks and encourages tree stewardship through work parties to help care for trees and landscapes in the public right-of-way.

The Tree Ambassador program is part of the larger Trees for Seattle effort that is operated by the same partnership and also includes the Trees for Neighborhoods program that provides free trees, associated materials, and training to Seattle residents. The 2021 Proposed Budget for the Trees for Seattle program includes 1.8 FTE and approximately \$681,000 of funding, split between the General Fund, SPU funds, and Seattle City Light funds.

The Council requests that SPU, in consultation with other City departments if necessary, provide a report to the Council by March 15, 2021 that evaluates the opportunities and constraints of expanding the Tree Ambassador program. The report should address:

- Training volunteers to become resident arborists who can perform basic tree maintenance, such as pruning;
- Educating volunteers and the public on tree protection policies;
- Enlisting volunteers to help inventory trees in their neighborhoods;
- Increasing the number of sites that can be supported by the Tree Ambassador program;
- Prioritizing racial equity and environmental justice in program expansion efforts;
- Other expansion opportunities to enhance Seattle's urban forest, such as expanding the Trees for Neighborhoods program; and
- Staff and funding necessary to implement proposed expansion efforts.

Statement of Legislative Intent:

This Statement of Legislative Intent requests that the Department of Finance and Administrative Services (FAS) assess publicly-owned property in Belltown or the surrounding area that could accommodate the Puget Sound Labor Agency's (PSLA) food bank. The PSLA is currently located in the Labor Temple, which is in the process of being sold to a new owner. This request asks FAS to report back by March 31, whether there are any publicly-owned facilities that could accommodate the food bank, either temporarily or long-term.

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) would request that the Human Services Department (HSD) carry forward any unspent 2020 funding from the Asian Counseling and Referral Services' (ACRS) Senior Congregate Meals contract into the 2021 Budget for the same purpose.

ACRS acts as fiscal sponsor for nine Senior programs: the Vietnamese Senior Association, Lao Senior Association, Hmong Senior Association, Seattle Korean Elder Association, Korean Senior Club, Duoc Su Temple, Kent Bhutanese Group, Samoan Wellness Group, and Club Bamboo. The 2020 Adopted Budget included \$402,142 contracted to ACRS to support congregate meals and certain cultural activities for the seniors served by these programs. However due to the social distancing required by COVID-19, many of those funds could not be used for their intended purpose. This SLI would request that HSD (1) carry forward any unspent funds from the 2020 contract as part of the 2020 Carry Forward Ordinance and (2) use these funds to supplement the ACRS Senior Congregate Meal programs contract in 2021, currently funded at \$393,289.

Statement of Legislative Intent:

This Statement of Legislative Intent requests that the Office of Economic Development (OED), Seattle Department of Transportation (SDOT), Seattle Fire Department (SFD), Seattle Parks and Recreation (Parks), Office of Sustainability and Environment (OSE), and Department of Neighborhoods (DON) draft legislation for Council consideration that would implement changes to code and business practices, including the creation of a master farmers market permit and lower permit fees, to reduce barriers for farmers markets. This should include updating and formalizing Multi-Departmental Administrative Rules 09-01, related to a pilot strategy for permitting farmers markets in the public right-of-way and on Parks' property, and evaluate whether additional staff support for farmers markets is necessary. In addition, OED, SDOT, SFD, Parks, OSE, and DON should conduct a racial equity analysis on any proposed changes.

OED, SDOT, SFD, Parks, OSE, and DON should submit the materials and/or a progress report to the Community Economic Development Committee and the Central Staff Director by June 30, 2021.

Budget Action Description:

This Council Budget Action adds \$1.8 million to the Office of Sustainability and Environment (OSE) for the Fresh Bucks program, which provides eligible residents with vouchers worth \$480 annually (\$40 per month) to purchase fruits and vegetables at participating Seattle farmers markets, neighborhood grocers, and Safeway stores. The amount is comprised of \$1.3 million GF and \$500,000 of Sweetened Beverage Tax (SBT) proceeds.

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
OSE	005	B	001

This funding allows OSE to provide vouchers to all 3,364 people on the waitlist for the current benefit period plus another 236 people, for a total of 3,600 additional participants that will receive benefits from January to December 2021. OSE is currently serving over 9,000 participants, who began the Fresh Bucks program in June 2020 and will receive an extended benefit until December 2021 (benefit period would normally end in May 2021) in response to the COVID-19 pandemic. The 2021 Proposed Budget would fund the Fresh Bucks program with nearly \$5.3 million, comprised primarily of SBT revenues, with a small amount of GF support and funding directly provided by the State for the SNAP match program.

General Fund Revenues	\$0	
General Fund Expenditures	\$1,120,000	
Net Balance Effect	\$(1,120,000)	
Total Budget Balance Effect	\$(1,120,000)	

Budget Action Description:

This budget action would add \$1,120,000 to the Human Services Department (HSD) budget to contract with Public Health – Seattle and King County (PHSKC) for drug user health services.

This budget action would add these funds to HSD to contract with PHSKC for services recommended by the 2016 Heroin and Prescription Opiate Addiction Task Force for active drug users in existing low barrier programs with the goal to reduce overdoses and fatal overdoses as well as increase the health of people who use substances.

This budget action is funded by a \$1.4 million reduction to Finance General in the 2020 3rd Quarter Supplemental effectuated by CBA BLG-002-B-001. These funds were appropriated in the 2018 and 2019 Adopted Budgets for a Community Health Engagement Location (CHEL), but have not yet been spent. The cut will be used in the 2021 Budget for the following investments: \$1.12 million for health services for

General Fund Expenditures	\$200,000	
Net Balance Effect	\$(200,000)	
Total Budget Balance Effect	\$(200,000)	

Budget Action Description:

This Council Budget Action would add \$200,000 GF to the Human Services Department's (HSD's) 2021 budget to increase services and harm reduction programs at social service agencies that serve people who use drugs daily, such as Aurora Commons, the Hepatitis Education Project, and REACH. The proposed increase would allow social service providers to expand hours, increase staff, expand to additional locations, provide peer and community outreach, implement good neighbor agreements for syringe pickup, provide participant incentives, explore Medicaid reimbursement for services, and make safety improvements. The expansion of these services would build on recommendations of the Heroin and Prescription Opiate Addiction Task Force and subsequent requests from collaborative groups, such as Just Access to Health.

This budget action is funded by a \$1.4 million reduction to Finance General in the 2020 3rd Quarter Supplemental effectuated by CBA BLG-002-B-001. These funds were appropriated in the 2018 and 2019

Budget Action Description:

This Council Budget Action (CBA) would add \$383,000 GF to the Seattle Fire Department (SFD) to fund Automated External Defibrillators (AEDs), Lucas Devices, and Ballistic Sets.

AEDs are used to provide an electrical shock in cases of life-threatening cardiac arrhythmias which lead to sudden cardiac arrest. Lucas Devices provide chest compressions (CPR) when it is unsafe for Emergency Medical System crews to do so. Ballistic Sets protect firefighters and paramedics at scenes of violence and allow them to quickly enter these scenes to rescue highly vulnerable patients.

Local 27, SFD's largest fire fighter union, has indicated that the department is underfunded to maintain and replace its complement of AEDs. Union representatives have also indicated that maintaining a properly working AED on every apparatus is one of the most important things needed to save lives in the

Budget Action Description:

This Council Budget Action would add \$141,000 GF and 1.0 FTE to the Seattle Fire Department (SFD) to fund a Consulting Nurse to assist with dispatching at the SFD 911 Fire Alarm Center.

When a call comes into Seattle's 911 Center, a call taker screens the call to determine whether fire, medical, or public safety services are needed. If fire or medical services are needed, the call is transferred to the Fire Alarm Center, where a trained firefighter answers the calls, determines what services are needed, and then dispatches the appropriate SFD responders. A consulting nurse would help triage incoming calls, provide medical advice, and help dispatch determine what kind of services would be needed.

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) would request that the City Budget Office include a new section called "Internet For All" in the 2021 Adopted Budget Book chapter on the Information Technology Department (ITD). The new section should report the unanimous passage of Resolution 31956 by the City Council in July 2020 and the Executive's presentation to City Council of its Action Plan in September 2020. It should also note that the next report from ITD to the Council's Transportation & Utilities Committee will be in the first quarter of 2021. That report will summarize progress on initial strategies to increase access and adoption of affordable and reliable internet service including setting up dashboards to track results.

Budget Action Description:

This budget action would add \$550,000 from the fund balance of the 2011 Families and Education Levy to the Department of Education and Early Learning (DEEL) for a study and one-time programmatic funding for culturally responsive, identify-affirming programs for Black girls and young women and Black

Tab	Action	Option	Version
DEEL	001	A	002

queer and trans youth.

Two distinct bodies of work are intended to be funded:

1) Up to \$175,000 is intended for DEEL to perform a study that, at a minimum, identifies gaps in the programming available to support Black girls and young women and Black queer and trans youth, determines strategies for addressing those gaps, and makes recommendations on appropriate programming opportunities. The recommendations should address programming for the one-time funds made available through this budget action, as well as recommendations for an ongoing source of funding.

The Council requests that the findings and recommendations of the study be provided to Council, either through a written report or a presentation at the Governance and Education Committee, by May 31, 2021.

2) The remaining funds should be used by DEEL to administer and provide one-time programming for Black girls and young women and Black queer and trans youth based on the strategies and recommendations identified in the study.

ADDITIONAL INFORMATION

In June 2020, the Executive announced a new \$5 million investment in mentoring programs for Black, Indigenous, and People of Color youth, primarily funded by fund balance from the 2011 Families and Education Levy. The Executive has awarded about half of the funds thus far and is working with the Our Best Advisory Council on finalizing the spending plans for the remaining funds. The remaining investments are tentatively focused on activities such as virtual learning support, social emotional support, family engagement, and educator diversity.

Budget Action Description:

This Council Budget Action would add one Planning and Development Specialist II position and \$130,350 to support a new Indigenous Advisory Council to be created in 2021. This advisory council would advise elected officials, including Councilmembers and the Mayor, about issues relevant to urban Native populations and how the City can better serve that population. It would not replicate the work of the existing Seattle Indian Services Commission, which is a public development authority that advocates for housing and human services funding for programs that serve urban Natives.

General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$1,661,200	
Net Balance Effect	\$(1,661,200)	
Total Budget Balance Effect	\$(1,661,200)	

Budget Action Description:

This Council Budget Action would add \$1,661,200 GF in one-time funding to the Human Services Department's (HSD's) 2021 budget to increase homeless services at an agency that specializes in serving American Indians and Alaska Natives (AIAN) who are experiencing homelessness, such as the Chief Seattle Club. This includes the following allotment of funding:

\$703,318 for day center programs,
 \$680,000 for homelessness prevention,
 \$77,882 for homelessness outreach,
 \$125,000 for services to survivors of domestic violence and sexual assault, and
 \$75,000 for a pilot to serve indigenous people re-entering after incarceration.

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
HOM	017	A	002

AIAN are disproportionately represented among those experiencing homelessness in King County, comprising over 15 percent of the homeless population but less than one percent of the overall population. The 2021 Proposed Budget would continue HSD's contracts with four organizations that target services to AIAN who experience homelessness (i.e., Chief Seattle Club, United Indians of All Tribes Foundation, Seattle Indian Health Board, and Seattle Indian Center), including nearly \$2.3 million for the Chief Seattle Club. This proposal would increase that funding.

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$60,358	
Net Balance Effect	\$(60,358)	
Total Budget Balance Effect	\$(60,358)	

Budget Action Description:

This budget action would add \$60,358 ongoing GF to the Human Services Department's 2021 budget for the Age Friendly Seattle program for contracts and administration. The 2020 Adopted Budget included \$603,466 for this program and the 2021 Proposed Budget cuts \$60,358, or 10.0 percent of the program funding. This budget action provides funding to restore programming that would otherwise be postponed, such as creation of the on-line older adult/memory loss training for staff in Cornerstone and launch of the age-friendly business initiative. The action also restores the funding for printing outreach materials, and translation and interpretation services for virtual and in-person events.

This Council Budget Action would impose the following budget proviso:

"Of the appropriation in the 2021 budget for the Human Services Department's Promoting Healthy Aging Budget Summary Level, \$60,358 is appropriated solely for Age Friendly Seattle and may be spent for no

General Fund Expenditures	\$100,000	
Net Balance Effect	\$(100,000)	
Total Budget Balance Effect	\$(100,000)	

Budget Action Description:

This budget action would add \$33,000 one-time GF to the Human Services Department (HSD) to fund foster care support for native and indigenous children and families, such as the services provided by United Indians of All Tribes (UIAT). It would also add \$67,000 one-time GF to the Department of Education and Early Learning (DEEL) for a preschool program serving Native and Indigenous children, such as the Daybreak Star Preschool.

The funding would (1) support increasing the pre-school from two rooms to three to support culturally responsive remote learning spaces and (2) fund programs which recruit additional foster families and ensure that available foster homes remain licensed. This action would increase HSD contracts with UIAT in 2021 from \$887,182 to \$920,182 and would increase DEEL contracts with UIAT in 2021 from \$304,290 to \$371,290.

	Absent	0									

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) requests that representatives from the Office for Civil Rights (OCR), the Mayor's Office, and members of the City's Race and Social Justice Initiative (RSJI) network participate in a work group that the Council will convene to review and determine how to implement remaining report recommendations from the Racial Equity Toolkit (RET) conducted on the structure and functions of OCR. Council Central Staff and staff from the Council committee that has jurisdiction over OCR will lead and staff the work group.

In the fall of 2017, the Council passed Ordinance 125470, creating additional protections for the OCR director, including requiring just cause for removal and consultation with commissions and staff before appointments. The ordinance also asked OCR to conduct and complete an RET on OCR's permanent structure; leadership appointment or designation; and duties and responsibilities. It asked that OCR include OCR staff, City departments, community members, anti-racist community-based agencies, and partner agencies. The Council asked for the RET after discussion of concerns from City employees and the community at large regarding the design and structure of the OCR, including whether community and City employee concerns about OCR could be addressed through some degrees of separation or OCR's independence from the Executive branch. The RET team issued a report (the "RET report") with recommendations in August 2019.

Since the preliminary discussion about OCR's structure began in 2017, both the Executive and Council have added staff and resources to OCR's budget to address concerns regarding understaffing, need for outreach staff, and the need for additional RSJI staff. The remaining items in the RET report address the underlying structure of the office and ability to advocate for equity and anti-racism. Recommendation 3 from the RET report was to establish an independent community oversight board. Recommendation 5 from the RET report was to ordain and invest in strengthening RSJI. The Council intends that the work group that this SLI would form will build on the work already completed by the RET team in the RET report regarding how to increase independence from the Executive, including answering questions and investigating topics that the RET team was not able to complete given its time limitations.

This SLI requests that the Council-convened work group assess the status of the RET report

2021 Seattle City Council Statement of Legislative Intent

Council Budget Action: Agenda

Tab	Action	Option	Version
OCR	002	A	002

recommendations (particularly 3 and 5), consider which parts of the recommendations are ripe for implementation, and outline the steps needed to move forward with implementing those recommendations. The SLI requests that the work group provide the following deliverables to the Chair of the Council committee with jurisdiction over OCR:

By March 31, 2021: Detail which parts of recommendations 3 and 5 are ready to move forward, and what is needed (i.e., legislation, funding, etc.) to implement the recommendations.

By June 30, 2021: Draft ordinances and/or cost estimates as may be needed to implement the changes.

General Fund Revenues	\$0	
General Fund Expenditures	\$190,000	
Net Balance Effect	\$(190,000)	
Total Budget Balance Effect	\$(190,000)	

Budget Action Description:

This proposal would add \$190,000 one-time GF to OIRA for the Legal Defense Network to restore City funding to 2020 levels. The Legal Defense Network was established in 2017 by Seattle and King County to provide support to immigrants and refugees impacted by changes to Federal laws. In 2020, total funding was \$1,810,000, with \$1,000,000 provided by the City and \$810,000 provided by the County. The 2021 Proposed Budget reduces the City's contribution to \$810,000, which would reduce total funding for the program to \$1,630,000.

General Fund Revenues	\$0	
General Fund Expenditures	\$100,000	
Net Balance Effect	\$(100,000)	
Total Budget Balance Effect	\$(100,000)	

Budget Action Description:

This Council Budget Action would add \$100,000 of General Fund to the Seattle Department of Transportation (SDOT) for a neighborhood-focused public life study of Capitol Hill to be delivered in partnership with one or more community organizations, such as the Capitol Hill EcoDistrict. This funding is intended to support community engagement, community-based design, planning, and visioning efforts for Capitol Hill. Previously, Council authorized \$150,000 for this purpose in the 2020 Adopted Budget using anticipated Transportation Network Company Tax proceeds which have not materialized in 2020.

A public life study seeks to evaluate and characterize the use of public space (i.e., how public space is being used and by whom) to provide insight into how design, activation, social behavior, built environment, and urban form influence public activity. SDOT's 2018 Public Life Study evaluated 108 block faces across the city, including four locations in Capitol Hill.

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This budget action would cut \$30 million from the 2021 Finance General (FG) reserves budget for the proposed Equitable Communities Initiative and add \$30 million GF to FG reserves for a Strategic Investment Fund to address displacement. This fund will support strategic investment in areas at high risk of displacement or in areas of low access to opportunity that present unique opportunities for transformational equitable development. This would include areas with significant planned public investment like light rail station areas and parks, where increased access to opportunities will likely also increase displacement pressure. This fund will focus on sites and projects with the potential to achieve multiple community benefit outcomes through mixed-use and mixed-income development that creates opportunities for housing, affordable commercial and cultural space, public open space, and childcare.

A \$30 million appropriation to the Strategic Investment Fund was included in the 2020 Adopted Budget,

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
FG	002	B	001

but is proposed to be cut in Council Bill 119910, the 3rd Quarter 2020 Supplemental Appropriations ordinance. This budget action would re-appropriate this amount in the 2021 budget.

This budget action also reimposes a budget proviso that was in the 2020 Adopted Budget, as follows:

"None of the money appropriated in the 2021 budget for the Finance General Reserve Strategic Investment Fund may be spent until authorized by future ordinance. Council anticipates that such authority will not be granted until the Executive submits a proposed spending plan for this Fund."

Total Budget Balance Effect	\$0	

Budget Action Description:

This Council Budget Action (CBA) would place a proviso on \$30 million of General Fund in Finance General (FG) for the Equitable Communities Initiative, and changes the appropriation from ongoing to one-time. The 2021 Proposed Budget allocated \$100 million to an Equitable Communities Initiative, reserving these funds to implement recommendations from the Equitable Communities task force, which "will focus on up-stream investments for Black, Indigenous, and people of color (BIPOC) communities to address disparities and make meaningful changes that can be measured by community progress." The Council intends that these funds should be allocated towards investments that reflect alignment between the Task Force's recommendations and recommendations from the Participatory Budgeting process.

The Council intends \$30 million to go towards the Equitable Communities Initiative and these funds include \$500,000 to "develop [a] robust facilitation process and to convene community for the purpose of providing recommendations to alternative public safety models and new investments in the BIPOC

community," as described in Section 5.8 of Attachment A to the Third Quarter Supplemental ordinance. This CBA imposes the following proviso:

"Of the appropriation in the 2021 budget for Finance General Reserves, \$30,000,000 is appropriated solely to fund the Equitable Communities Initiative and actions recommended to the City by the Equitable Communities Task Force and may be spent for no other purpose. Furthermore, none of the money so appropriated may be spent until authorized by future ordinance. The Council anticipates that such authority will not be granted until the Executive submits to the Council a plan for spending the funds that describes how the allocations were informed by and reflect alignment between recommendations from the Task Force and the Participatory Budgeting process's recommendations."

Total Budget Balance Effect	\$0	

Budget Action Description:

This budget action would cut \$18.03 million from the 2021 Finance General (FG) reserves budget for the proposed Equitable Communities Initiative and add \$18.03 million GF to FG reserves for a Participatory Budgeting process and would place a proviso on those funds. Up to \$1 Million would be allocated to community-based organizations and City Departments to run the participatory budgeting process, including: contracting with community organizations for capacity-building activities; community-led community engagement that includes engaging membership organizations and community organizations; convening and supporting a steering committee to guide the process; marketing of the initiative; assisting with project research; proposal development; and contracting with successful projects. An additional \$500,000 would be allocated to support the development of a civilian crisis response and social services triage system app to make it easier to find, pay, and support community service providers and healers. The remaining funding would be allocated to successful project proposals for

implementation of community safety strategies.

This budget action also imposes a proviso, as follows:

“Of the appropriation in the 2021 budget for Finance General Reserves, \$18,025,000 is appropriated solely to run the Participatory Budgeting Process, implement actions recommended to the City from the Participatory Budgeting process, and to develop a civilian crisis response and social services triage system app and may be spent for no other purpose. Furthermore, none of the money so appropriated may be spent until authorized by future ordinance. Council anticipates that such authority will not be granted until the Executive submits to the Council a plan for spending the funds.”

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This budget action would cut \$10,000,000 from the 2021 Finance General budget for the proposed Equitable Communities Initiative and add \$10,000,000 to the Human Services Department (HSD) for community-led public safety programs that were not funded in the proposed budget.

Ordinance 126148 appropriated \$4,000,000 for community-led investments such as the Seattle's Community Safety Initiative and \$10,000,000 for scaling up community-led organizations, including technical support and capacity building to increase public safety in the 2020 Budget. According to the Mayor's office, the \$4,000,000 investment will be distributed to community organizations in 2020, however the process to distribute the \$10,000,000 investment will not be completed by the end of 2020 and the appropriation will lapse.

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
HSD	008	A	002

CBA BLG-002-B-001 would cut \$10,000,000 from HSD's 2020 budget for community-led investments in community safety that will not be distributed in 2020 and adds the funding back for the same purpose in the 2021 Budget. The Council expects that HSD will continue to develop a spending plan so investments can be made immediately in 2021.

This Council Budget Action would impose the following budget proviso:

"Of the appropriations in the 2021 budget for the Human Service Department's (HSD's) Supporting Safe Communities (HSD-BO-HS-H4000) Budget Summary Level, \$10 million is appropriated solely for community-led efforts to scale up organizations to increase public safety through technical support, capacity building, and expansion of capacity (including HSD's associated administrative costs) and may be spent for no other purpose, notwithstanding powers provided to the Mayor by Section 3 of the Proclamation of Civil Emergency dated March 3, 2020. These funds are intended to support the Council's re-imagining of community safety work. Furthermore, none of the money so appropriated may be spent until the City Council approves by ordinance a proposed spending plan submitted by HSD to the Public Safety and Human Services committee and the City Council Central Staff Director."

General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This budget action would cut \$550,000 GF from Finance General proposed for the Equitable Communities Initiative and add \$550,000 GF to the Department of Education and Early Learning (DEEL) for a restorative justice pilot program at a limited number of Seattle schools.

The funding is intended to support the initial setup and first year of programming of a multi-year pilot program for schools, in partnership with community organizations, to implement restorative justice practices as an alternative to punitive discipline practices. The funding would allow the schools and community partners to provide restorative justice coordinators or teams that would facilitate schoolwide trainings for teachers and students to build and strengthen relationships, address behavioral issues in a culturally responsive and trauma-informed way, and assist with conflict resolution and de-escalation. The Council intends for all Seattle schools and their partners to be eligible to apply for funding, even if they

2021 Seattle City Council Budget Action

Tab	Action	Option	Version
DEEL	002	B	001

have prior experience with restorative justice programming.

The Council requests that DEEL examine restorative justice programs that may already be operating in Seattle to inform the development of its competitive procurement process for pilot program funding. In recent years, King County's Best Starts for Kids and Public Health - Seattle & King County's Zero Youth Detention have funded restorative justice programs. Additionally, Cleveland High School uses a portion of its City education levy award to fund restorative justice coordinators.

Total Budget Balance Effect	\$(75,000)	

Budget Action Description:

This Council Budget Action would add \$75,000 GF to the Department of Neighborhoods (DON) to continue the work of the South Park Public Safety Coordinator in 2021. This position was the top priority recommendation in the 2017 South Park Public Safety Taskforce Report funded by the City Council. The report recommended a bilingual resident to coordinate community public safety efforts in South Park, working with the South Park Safety Partners. The position was funded in the 2020 DON budget.

Current priorities include facilitating community safety dialogue around South Park's experience around policing and alternatives to police in South Park; street and safety concerns due to the West Seattle Bridge closure, business district concerns, and youth engagement. Recent work includes coordinating Crime Prevention Through Environmental Design work in youth art murals and a Clean Streets Initiative; community support during COVID; neighborhood walks; and facilitating and distributing a neighborhood newsletter in English, Spanish and Vietnamese.

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) would request that the Human Services Department (HSD) provide a report to City Council determining the funding needed to meet the City's "commitment to ensuring that law enforcement pre-arrest diversion programs, such as Law Enforcement Assisted Diversion/Let Everyone Advance with Dignity (LEAD), receive public funding sufficient to accept all priority qualifying referrals citywide," as stated in Resolution 31916. The report should include (1) forecasts of the number and type of priority qualifying referrals, including social referrals with or without law enforcement and arrest referrals, (2) estimates of the funding necessary to support pre-arrest diversion services for those referrals citywide in 2021, 2022, and 2023, and (3) a description of how the Executive will incorporate the findings in the 2022 Proposed Budget.

The SLI would request that HSD engage or coordinate with the LEAD Policy Coordinating Group to prepare the report and that HSD submit the report to the Public Safety and Human Services Committee and the Central Staff Director by August 2, 2021.

Budget Action Description:

This Council Budget Action (CBA) would add \$65,000 GF to the Office of the Inspector General for Public Safety (OIG) to support its Sentinel Event Review (SER) of the George Floyd and Black Lives Matter demonstrations in the summer of 2020.

Under Ordinance 125315, the OIG is authorized to conduct a SER when the SPD has had significant negative interactions with the public. Examples of SPD sentinel events include officer-involved shootings, mass use of chemical weapons during protests, fatal vehicle pursuits, and other incidents that negatively impact individual safety, community well-being, and public trust in SPD.

This CBA will provide funding for compensation to support community involvement as the OIG systemically analyzes root causes for the uses of force in the summer demonstrations. Funding will also support community engagement expenses related to conducting effective outreach across various

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) would request that the Seattle Police Department (SPD) provide (1) monthly reports on its use of overtime; and (2) reports that provide updates on SPD's progress in implementing recommendations from the City Auditor's SPD overtime and special events reports.

The first monthly overtime report should be submitted on January 20, 2021 and include overtime data (actuals and planned) following the format submitted to Council Central Staff every August. The reports that provide a status update on the City Auditor's overtime and special events reports should be submitted on May 1, 2021 and August 1, 2021 and include the following:

- (1) A list of the ten officers who earned the most overtime that month;
- (2) A list of the top three units that worked the most overtime that month;
- (3) A status report on the implementation of the Work Scheduling and Timekeeping system, which will help prevent payroll errors, alert staff to instances of policy non-compliance and improve SPD's payroll and overtime monitoring;
- (4) A list of the special events for which SPD reconciled Event Summary Form overtime data with event overtime hours recorded in the payroll system;
- (5) A list of the special events for which SPD compared special events billing with overtime actuals for each event;
- (6) A report on the aggregate off-duty hours worked by officers, including whether the hours were monitored and approved by SPD management;
- (7) The frequency and types of payroll queries conducted to ensure that overtime use complies with SPD policies and to identify potential anomalies that might include:
 - Overtime hours worked without supervisory approval;
 - Overtime hours that exceed the maximum number of allowable work in a day;
 - Overtime hours recorded for one day but in excess of 24 hours;
 - Duplicate hours; and
 - Hours in excess of compensatory time thresholds;
- (8) A report of the audits and reviews SPD conducted of the sections and individuals with the top ten percent of overtime worked, including supporting payroll documentation; and

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) would request that the Seattle Police Department (SPD) provide monthly staffing reports that are submitted in the format established by SLI SPD-13-A-2 from 2020. The reports should begin on January 20, 2021, and include:

- (1) The "SPD Sworn Staffing Model;"
- (2) The "Precinct Staffing Report;" and
- (3) Demographic data on hires and separations.

All reports should be submitted to the Chair of the Public Safety and Human Services Committee and the Central Staff Director.

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) would request that the Seattle Police Department (SPD) provide a report on July 1, 2021 on the demographics collected for traffic stops, including: (1) stops made for criminal and non-criminal purposes; and (2) racial disparities as requested in Ordinance 125358.

This SLI would also request that SPD provide a separate report on November 1, 2021, that makes recommendations on training and policy changes, consistent with the Consent Decree, to address bias and racial disparities found in the requested traffic stop report.

All reports should be submitted to the Chair of the Public Safety and Human Services Committee and the Central Staff Director.

Budget Action Title: Impose a proviso on SPD and request out-of-order layoffs of 35 SPD Officers

Ongoing: No Has Budget Proviso: Yes

Has CIP Amendment: No Has Attachment: No

Primary Sponsor: Lisa Herbold

Council Members: Tammy Morales, Kshama Sawant, Dan Strauss, Lorena González

Staff Analyst: Greg Doss

Council Bill or Resolution:

Date		Total	LH	TM	KS	AP	DJ	DS	AL	TM	LG
	Yes	0									
	No	0									
	Abstain	0									
	Absent	0									

Budget Action Description:

This Council Budget Action (CBA) would impose a proviso that would restrict the Seattle Police Department (SPD) from spending \$2,500,000 GF and it would request that SPD complete 35 officer layoffs by July 1, 2021 consistent with the out-of-order layoff provisions of Public Safety Civil Service Commission (PSCSC) Rule 15b using the principles outlined in Resolution 31962.

Ordinance 126148 imposed provisos that withheld appropriation authority that would be realized through additional attrition of 30 FTEs and the layoffs of 70 FTEs. The effect of this change in 2020 would be to reduce funding used to support sworn staffing by 100 FTE, from 1,422 FTE to 1,322 FTE. At the time of this writing, it is expected that SPD is likely to realize the additional attrition, but SPD will not implement the layoffs anticipated in the proviso in Ordinance 1261489 due to requirements around collective bargaining.

SPD expects that it will be able to fill no more than an average of 1,357 FTE in 2021. The proviso imposed by this CBA would restrict funding and requests 35 out-of-order layoffs of sworn personnel to ensure that the department can fill no more than 1,322 FTE. This would reduce the size of the Seattle Police Department's (SPD) sworn force from its 2020 funded levels by 100 FTEs, the same number of FTEs that were to have been reduced through attrition and layoffs in Ordinance 126148.

In adopting the proviso in this Council Budget Action the Council requests that the SPD Chief and the Director of the City's Office of Labor relations immediately petition the PSCSC to authorize 35 out-of-order layoffs in accordance with the principles identified in Resolution 31962. Layoffs shall not be made in any other manner.

It is the Council's intent that a future, separate ordinance will transfer cost savings that result from these 2021 layoffs will be transferred to Finance General Reserves, and impose a proviso that restricts the use of

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
SPD	008	A	002

such funding for the sole purpose of implementing the actions recommended to the City from the Participatory Budgeting Process.

This Council Budget Action would impose the following proviso:

“Of the appropriation in the 2021 budget for the Seattle Police Department, \$2,500,000 may not be spent until authorized by future ordinance. The Council requests that the Chief of the Seattle Police Department and the Director of the City’s Office of Labor relations immediately petition the Public Safety Civil Service Commission to authorize 35 out-of-order layoffs in accordance with the principles identified in Resolution 31962.”

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This Council Budget Action (CBA) would cut \$6.1 million GF in salary savings for 43 sworn positions that the Seattle Police Department (SPD) will be unable to fill in 2021. The funding would be transferred to Finance General Reserves and the CBA would impose a proviso that would dedicate the funds to support community recommendations identified through a participatory budgeting process.

The 2021 Proposed Budget would fund 1,400 FTE to support its sworn force. Due to higher-than-normal attrition, SPD's staffing plan projects that the department will fill no more than 1,357 FTE in 2021. The cost savings from salary savings from the 43 expected vacancies is \$6.1 million.

SPD's staffing plan shows that the department will continue to hire new recruits and that the number of fully trained officers will approximate 2019 levels by the end of 2022. In the meantime, this action would

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
SPD	009	A	002

restrict SPD from using the \$6.1 million to fund overtime for patrol augmentation that could be used to mitigate vacancies among the 911 responder force.

Should additional currently unanticipated vacancies affect SPD's 911 responder force, the Department would need to 1) answer fewer 911 calls or respond more slowly to 911 calls; or 2) backfill 911 officer vacancies through the transfer of officers from investigative or specialty units. In September 2020, Interim Chief Diaz made such a transfer by moving 100 officers into 911 response.

The Council has expressed a desire to reduce the number of 911 calls that are handled by armed officers and instead rely on alternative responses such as the Fire Department's Health One unit or independent community providers that are better equipped to address issues of homelessness, mental illness, and other non-criminal matters.

This Council Budget Action imposes the following proviso:

"Of the appropriation in the 2021 budget for Finance General Reserves, \$6.1 million is appropriated solely to implement actions recommended to the City from the Participatory Budgeting process and may be spent for no other purpose. Furthermore, none of the money so appropriated may be spent until authorized by future ordinance. Council anticipates that such authority will not be granted until the Executive submits to the Council a plan for spending the funds in accordance with the Participatory Budgeting recommendations."

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This Council Budget Action would cut \$3.7 million GF in Seattle Police Department (SPD) overtime funding that is not expected to be used in 2021 due to COVID-19 related changes in service demands. The Council Budget Action would add the \$3.7 million to Finance General Reserves and impose a proviso that would dedicate the funds to support community recommendations identified through a participatory budgeting process.

The cut would reduce SPD's 2021 overtime budget by \$3.7 million from \$24.9 million to \$21.2 million, which is the same funding level for SPD's revised 2020 overtime budget. In July 2020, SPD indicated its intent to reduce its overtime budget by \$8.6 million to a total of \$21.2 million. SPD planned to achieve the reduction by limiting expenditures on emphasis patrols, staffing of special events and sports, traffic and parking enforcement, community engagement activities, and some internal training. SPD further

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

SPD	010	A	002

indicated that events cancellations and a reduction in need for services (e.g., traffic patrols) would allow SPD to realize savings in areas where it would normally have higher expenditures.

This Council Budget Action would impose the following proviso:

“Of the appropriation in the 2021 budget for Finance General Reserves, \$3.7 million is appropriated solely to implement actions recommended to the City from the Participatory Budgeting process and may be spent for no other purpose. Furthermore, none of the money so appropriated may be spent until authorized by future ordinance. Budget Action Title: Impose a proviso on \$5 million GF in SPD for potential salary savings

Ongoing: No Has Budget Proviso: Yes

Has CIP Amendment: No Has Attachment: No

Primary Sponsor: Lorena González

Council Members: Lisa Herbold, Tammy Morales

Staff Analyst: Greg Doss

Council Bill or Resolution:

Date		Total	LH	TM	KS	AP	DJ	DS	AL	TM	LG
	Yes	0									
	No	0									
	Abstain	0									
	Absent	0									

Budget Action Description:

This Council Budget Action (CBA) would impose a proviso on \$5 million GF in the Seattle Police Department's (SPD's) budget until a future authorization is passed by the Council.

The salary funding for sworn personnel in the 2021 Proposed Budget is based on projections that assume 114 new hires and 90 separations, which are collectively referred to as "staffing projections." Recent history has shown that SPD's staffing projections do not always precisely match actual staffing. In the last few years, SPD has realized significant salary savings because it did not make its hiring targets or had more officers separate than anticipated in the staffing projections. This CBA assumes that SPD will in 2021 realize up to \$5 million in sworn salary savings due to differences between staffing projections and actual staffing. If SPD does not realize as much as \$5 million in salary savings, then it is the intent of the Council to pass legislation during 2021 lifting this proviso.

It is also the Council's intent to pass on a monthly or periodic basis legislation during 2021 that transfers up to \$5 million in accrued salary savings to Finance General and then to restrict this funding so that it may only be used to address recommendations made through Community's Participatory Budgeting process. As any such transfer or transfers are made, the Council will adjust accordingly the spending restriction imposed by this proviso.

Council Central Staff will analyze the monthly staffing reports requested in Statement of Legislative Intent SPD-003-A-002 to determine whether SPD is accruing any salary savings.

This Council Budget Action would impose the following proviso:

"Of the appropriation in the 2021 budget for the Seattle Police Department, \$5 million may not be spent

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$1,000,000	
Net Balance Effect	\$(1,000,000)	
Total Budget Balance Effect	\$(1,000,000)	

Budget Action Description:

This Council Budget Action (CBA) would transfer \$450,000 GF from the Seattle Police Department (SPD) to the Human Services Department (HSD) to fund existing contracts with five Mental Health Professionals (MHPs) who work as part of the SPD Crisis Response Unit (CRU). The action would also add \$1.0 million in contract funding to HSD to support the addition of 11 MHPs to the SPD CRU, and imposes a proviso.

SPD currently has one CRU unit, consisting of one MHP and one officer, in each of its five precincts. The teams respond to individuals experiencing both chronic and acute behavioral health issues. When responding to calls involving such issues, the 911 calls most often classified as 'disturbances' in which callers have voiced concerns about the words, actions, or behaviors of those in crisis. When CRU is responding to these types of calls, the primary role of the officer is to ensure overall 'scene safety' and

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
SPD	015	B	001

then defer to the MHP's for verbal engagement. SPD has indicated that there are many 911 calls that would benefit from a CRU response, but the department does not currently have the staffing resources to expand its CRU call response.

This Council Budget Action imposes the following proviso:

"Of the appropriation in the 2021 budget for the Seattle Police Department (SPD), \$500,000 may not be spent until the Chair of the Council's Public Safety Committee files a certification with the City Clerk that SPD has provided a report that contains an analysis and recommendations on the issues identified in Executive Order 2020-10 Section 2B(i)(ii), with particular attention paid to a process that would allow mental health providers to respond without officers to 911 calls that identify persons in crisis or suffering from mental health related issues."

Budget Action Description:

This Council Budget Action would impose a proviso that restricts the Seattle Police Department (SPD) from spending \$550,000 GF until it provides a report that meets the requirements of Resolution 31962 regarding the SPD Harbor Patrol and functions that might be transferred to the Seattle Fire Department. The Council requests that SPD submit a report no later than May 24, 2021.

This Council Budget Action imposes the following proviso:

“Of the appropriation in the 2021 budget for the Seattle Police Department’s Harbor Patrol, \$550,000 may not be spent until further Council authorization.”

General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$521,983	
Net Balance Effect	\$(521,983)	
Total Budget Balance Effect	\$(521,983)	

Budget Action Description:

This Council Budget Action (CBA) would recommend passage of Council Bill (CB) ____ to establish a new Community Safety and Communications Center (CSCC) January 1, 2021 within the Executive Department. The legislation would transfer the 911 Communications Center from the Seattle Police Department (SPD) to the CSCC effective January 1, 2021 and the Parking Enforcement Officers (PEO) unit from SPD to the CSCC effective June 1, 2021. It would impose a proviso providing temporary appropriation authority under the existing SPD Budget Service Level for the Parking Enforcement Officers unit only until June 1, 2021, unless the Council passes a new ordinance that revises the transfer of appropriations and position authority. Delaying the PEO transfer to June 1 reflects the need to define an appropriate organizational structure within the CSCC and to define new internal and intra-departmental procedures, some of which may be subject to bargaining.

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
SPD	500	B	001

This CBA would create five new positions: a director for the CSCC (as described below) and four human resource and finance FTEs. The CBA would also request a report from the executive by March 31, 2021 on providing PEOs access to the Seattle Department of Transportation's car charging stations and providing a detailed estimate of additional staff and budget that would be required to support the potential expansion of the PEOs' responsibilities as follows: managing traffic at lighted intersections, red light camera and school zone enforcement, response to non-injury collisions, response to and reporting on minor thefts and car-break-ins, and traffic control. (Note that CBA SPD-005-B-1 would also request a report from SPD on the cost of using PEOs or other non-SPD officers for traffic control during special events, contracted sporting events and flagging.)

The legislation would create the position of Director of the CSCC to be appointed by the Mayor, subject to confirmation by the City Council. The Director's position would be classified as an Executive 3 and would be subject to reappointment and reconfirmation every four (4) years.

The Mayor's 2021 Proposed Budget package includes CB 119935, which would create a Seattle Emergency Communications Center effective January 1, 2021, the primary function of which would be to operate the City's primary 911 call center, which would be transferred from SPD. The package also includes CB 119934, which would transfer the PEO unit to the Seattle Department of Transportation. CB 119938, which would pass the 2021 Adopted Budget, includes associated appropriations and position transfers to complete the two transfers.

This budget action would impose the following proviso:

"This CBA would establish a June 1, 2021 date for the transfer of the PEO unit from the SPD to the new CSCC and would impose a proviso providing temporary appropriation authority under the existing Budget Service Level for the PEO unit until that date. After June 1, the appropriation authority would revert to the CSCC unless Council passes a new ordinance that revises the transfer of appropriations and position authority."

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$1,068,000	
Net Balance Effect	\$(1,068,000)	
Total Budget Balance Effect	\$(1,068,000)	

Budget Action Description:

This Council Budget Action would add \$1,068,000 GF to the Human Services Department's (HSD's) 2021 budget to expand homelessness outreach and engagement services and provide flexible financial assistance for serving people experiencing unsheltered homelessness. These funds would be in addition to the \$9.4 million in the 2021 Proposed Budget that supports homelessness outreach citywide and the \$1.3 million that would support the City's Unsheltered Outreach and Response Team.

Of the \$1,068,000 GF this action would add to the Human Services Department's (HSD's) 2021 proposed budget, \$618,000 GF would support a contract to provide homelessness outreach services City-wide using a neighborhood-specific approach that allows outreach workers to develop relationships with unsheltered individuals over an extended period of time. To the degree possible, outreach workers providing services through this contract should be reflective of the communities to be served, including

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
HOM	004	B	001

Black, Indigenous, and People of Color (BIPOC) individuals who have lived experience of homelessness; have specific training related to mental and behavioral health and substance use disorder treatment; assess eligibility for and facilitate connections to housing programs and other services; support good neighbor agreements, community security and safety, and community clean-up activities; serve as liaisons to businesses, Business Improvement Associations (BIAs), and community members and organizations; and provide services on the behalf of BIAs or in collaboration with organizations that serve as program managers for BIAs. It would be expected that two outreach workers are assigned to the Lake City neighborhood, two workers to northwest Seattle, one worker to West Seattle and South Park, and one worker to the Rainier Valley.

The remaining \$450,000 of the \$1,068,000 GF would be used by all homelessness outreach and engagement agencies to provide assistance to individuals experiencing unsheltered homelessness, including but not limited to flexible financial assistance, case management, behavioral health services, and housing navigation. The total of \$1,068,000 corresponds to the funding provided by the Council for these services in 2020 through CB 119942.

This budget action would impose the following provisos:

"Of the appropriations in the Human Services Department's 2021 Budget for the Addressing Homelessness Budget Summary Level (HSD-BO-HS-H3000) in the General Fund (00100), \$200,000 is appropriated solely to increase homelessness outreach services in northwest Seattle, and may be spent for no other purpose."

"Of the appropriations in the Human Services Department's 2021 Budget for the Addressing Homelessness Budget Summary Level (HSD-BO-HS-H3000) in the General Fund (00100), \$100,000 is appropriated solely to increase homelessness outreach services in the West Seattle and South Park neighborhoods, and may be spent for no other purpose."

"Of the appropriations in the Human Services Department's 2021 Budget for the Addressing Homelessness Budget Summary Level (HSD-BO-HS-H3000) in the General Fund (00100), \$98,000 is appropriated solely to increase homelessness outreach services in the Rainier Valley, and may be spent for no other purpose."

"Of the appropriations in the Human Services Department's 2021 Budget for the Addressing Homelessness Budget Summary Level (HSD-BO-HS-H3000) in the General Fund (00100), \$220,000 is appropriated solely to increase homelessness outreach services the Lake City neighborhood, and may be spent for no other purpose."

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This Council Budget Action would replace the Unsheltered Outreach and Response Team included in the Human Services Department's (HSD's) 2021 Proposed Budget with the Homelessness Outreach and Provider Ecosystem (HOPE). In addition, the budget action would state legislative intent for the use of more than \$26 million in Emergency Solutions Grant COVID (ESG-CV) funds in the 2021 Proposed Budget.

In 2020, more than 600 shelter beds have been relocated to or established in hotels utilizing a combination of City and County funding. The use of hotels has deintensified existing shelter programs and created non-congregate shelter opportunities for people experiencing unsheltered homelessness. This budget action would state the Council's intention for the use of ESG-CV funds in HSD's 2021 Proposed Budget, as follows:

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
HOM	005	C	001

"ESG-CV funds in HSD's 2021 Proposed Budget should prioritize funding eligible expenses related to maintenance of shelter capacity purchased by the city as of November 23, 2020, including beds located in hotels, should those expenses exceed other available resources designated or appropriated for that purpose. Funds should not be expended to increase shelter, rapid re-housing, or homelessness diversion capacity if sufficient funding to maintain current programs is not available."

This action would repurpose the 8.0 FTEs proposed for the Unsheltered Outreach and Response Team. The repurposed staff would constitute the new HOPE team. HOPE would oversee and support community-based agencies contracted to provide homelessness outreach, and City staff would coordinate litter picks, trash removal, provision of sanitation and hygiene services, storage or retrieval of personal property, and, when circumstances require, relocation or removal of property. The team would act within the parameters of a framework developed between the Mayor, Council, residents of Seattle, and those who are living outside. The framework, as emailed to Council offices on October 26, 2020, states the following:

(1) United front: Mayor, Councilmembers, and service providers lend their support to a common framework, and will prioritize available resources to implement these principles in practice.

(2) Plan of action: We commit to do the most we can under current conditions and the capacity of our provider network with new, significant, one-time resources, intending to earn support across the spectrum of stakeholders for this approach. Because of City of Seattle and King County investments, we expect a significant amount of permanent supportive housing to come on-line over the next year to help individuals who are chronically homeless. We commit to collaborate with providers to address capacity issues that may impact the ability to undertake the work that is planned for 2021, bearing in mind the need for expertise to work with culturally defined populations and people with complex behavioral health challenges.

(3) Set expectations: many if not most people living unsheltered in Seattle, including many who are longstanding residents as well as others who were last housed outside Seattle, will remain in that situation over the next year.

(4) Principles:

- In addition to supporting current resources, relocate at least 425 additional people from unsafe conditions on the streets into safe lodging (e.g., temporary hotels and enhanced shelters), through outreach that leads to placement in lodging appropriate to the needs of the individual given available resources.
- Focus lodging offers towards unsheltered people who face a variety of barriers to accessing lodging and permanent housing, a group that is disproportionately Black and Indigenous and disabled; and in situations with significant impact on individuals who are unsheltered, neighborhoods and the city as a whole (public safety; impact on struggling businesses and vulnerable neighborhoods; individual and public health, including COVID-19 vulnerability; public disorder).
- In recognition that our city cannot currently offer enough placements, the City will continue to make efforts to assist individuals camped in public spaces for the near term to care for themselves, connect with available supports, access hygiene and trash removal, while working to minimize negative impacts on them and on surrounding businesses and communities.
- The City will continue to advocate for additional resources at the regional, state, and federal level, but Seattle does not have, and will not have, sufficient lodging or permanent housing placements to match all or most of those living unsheltered over the next 15 months. There may be circumstances in which moving people is necessary, even in a pandemic, but in those limited cases such activity should be

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
HOM	005	C	001

planned and implemented with great care and alternative workable living arrangements made available.

(5) Consistent messaging:

- COVID requires an approach that promotes and protects public health. Since the beginning of March and in response to the COVID-19 outbreak, the City has primarily focused on conducting outreach and suspended scheduled encampment removals to limit the spread of the COVID -19 virus except in the most extreme circumstances. This approach is likely to continue through 2021.
- The only successful way to reduce the prevalence of people living unsheltered is to afford people access to lodging, housing and services that match their circumstances (attention to initial placement). For some, this is solely a matter of affordability with minimal supports, while for others this is a matter of affordability accompanied by appropriate support services to facilitate retention of housing over a longer period of time.
- Appropriate lodging for a particular person means accommodation that is accessible, adequate, and consistent with basic standards of shelter or housing, including support for hygiene, sanitation, food preparation, security, peace, privacy and dignity; and without barriers that could result in the individual being turned away or excluded.

(6) Outreach

- The Mayor, Council and providers commit to a transparent, accountable and collaborative co-design of a street to housing program that utilizes the temporary COVID-resources and on-going City funding for temporary lodging and permanent housing and is inclusive of other stakeholders, such as community associations and businesses. We recognize that time is of the essence, particularly as a result of COVID-19, the challenges for businesses in recovering from COVID economic impacts and the arrival of fall/winter weather. We agree to work together expeditiously, and in good faith with the common goal of housing unsheltered people.
- The City will continue to commit millions of dollars to address trash removal, hygiene, health promotion and harm reduction (sharps containers, health outreach in coordination with Public Health)
- The City concurs that removals will not be the first response and will collaborate with providers to address obstructions and behavior through thoughtful and respectful dialogue and problem-solving, engaging both unsheltered and housed residents, addressing specific neighborhood needs and priorities.

(7) Lodging and Housing

- The City will work with providers to coordinate, screen and match individuals based on the Emergency Solutions Grant (ESG) and HUD requirements identifying the best lodging and permanent housing resource for their situation and needs. Lodging and housing availability will be transparent and known to those doing actual outreach and screening work, insisting on race equity, ensuring resources do not skew disproportionately toward white individuals or people with few barriers.
- The staffing model for hotel programs must be realistic in light of the complex behavioral health needs of many participants, and the lack of available alternative sites or programs to meet their needs.

Budget Action Description:

This budget action would add \$286,000 GF to Seattle Public Utilities (SPU) to expand the Encampment Trash program to 13 additional sites and would request that the expansion begin by adding unserved encampments in South Seattle.

The funding includes \$17,000 per additional site to cover the cost of supplies and the collection and disposal of waste. The remaining \$65,000 is intended to fund an additional 0.5 FTE of temporary labor for contractor oversight and program administration. SPU does not need additional position authority for the temporary labor.

BACKGROUND

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
SPU	003	A	002

The Encampment Trash program provides weekly collection and disposal of garbage, bulky items, and hazardous materials at select Unsanctioned Homeless Encampments. The program currently services 17 sites at any given time, and in 2019 it provided garbage collection to 26 different encampments throughout the year. The program also distributes purple bags on a weekly basis and performs on-call garbage collection.

The 2021 Proposed Budget includes \$388,202 for SPU to provide services at up to 17 sites at any given time.

Net Balance Effect	\$(100,000)	
Total Budget Balance Effect	\$(100,000)	

Budget Action Description:

This budget action would add \$100,000 GF to Seattle Public Utilities (SPU) to develop and implement a publicly-accessible sink program.

The Council requests that SPU make funding available, potentially through a grant program, to community groups and private property owners for the provision of publicly-accessible sinks. In order to increase access to hygiene and handwashing facilities for all residents in need of services, the Council intends for the sinks to be distributed as equally as possible throughout the city.

SPU is also requested to provide technical assistance to the recipients of the funds to assist them with overcoming implementation barriers and to aid them in deploying the sinks. Some of the potential implementation barriers that SPU should evaluate and assist with, if necessary, include: sink design, including durability; regulatory issues, including greywater disposal; accessibility, including Americans

with Disabilities Act compliance; and appropriate siting.

These sinks are intended to supplement the 15 handwashing stations that the City has deployed as part of the Public Hygiene program since the start of the public health emergency. The 2021 Proposed Budget includes approximately \$6.3 million GF for the Public Hygiene program as a whole, and about \$1.5 million of that amount is attributable to hygiene stations that provide portable toilets and handwashing stations.

Net Balance Effect	\$(2,800,000)	
Total Budget Balance Effect	\$(2,800,000)	

Budget Action Description:

This Council Budget Action would add \$2,800,000 GF to the Human Service Department's (HSD's) 2021 budget to increase the number of tiny home villages, which would include \$1,200,000 of one-time startup funds and \$1,600,000 of on-going operational funds. Assuming one-time startup costs of \$600,000 and on-going operational costs of \$800,000 for a 40 unit tiny home village, this would create two new tiny home villages that are supported by the City through a contract with a homelessness services agency.

General Fund Revenues	\$0	
General Fund Expenditures	\$655,000	
Net Balance Effect	\$(655,000)	
Total Budget Balance Effect	\$(655,000)	

Budget Action Description:

This Council Budget Action would add \$655,000 GF to the Human Services Department's (HSD's) 2021 budget to allow basic shelters that have transitioned to 24-hour services during the COVID-19 pandemic to continue doing so. During the pandemic, 171 basic shelter beds located in church spaces began allowing 24-hour access to the beds. This proposal would provide the funds necessary to continue longer operations for locations where the host church commits to allowing the extended access indefinitely.

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$750,000	
Net Balance Effect	\$(750,000)	
Total Budget Balance Effect	\$(750,000)	

Budget Action Description:

This Council Budget Action would add \$750,000 GF (one-time) to the Human Services Department's (HSD's) 2021 budget to increase funding for rapid re-housing services for families experiencing homelessness. The 2021 Proposed Budget would provide nearly \$18 million for rapid re-housing. Of that, \$9.4 million is the City's ongoing GF support for rapid re-housing contracts and nearly \$9 million would be new one-time Emergency Solutions Grant (ESG) funds that are intended to expand service to a larger number of households, especially those that will receive non-congregate shelter in hotel rooms that will be leased with one-time ESG funds. The funds provided by this budget action would supplement the \$9.4 million in on-going base funding for rapid re-housing, on top of the one-time expansion of services using ESG funds, to allow contracted agencies that serve families to maintain their existing caseloads in 2021. Approximately half of the funds would be intended for agencies operating rapid re-housing programs for families that also have culturally-relevant expertise or serve populations

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
HOM	014	A	002

disproportionately affected by homelessness.

Due to the economic impacts of the COVID-19 pandemic, homelessness services agencies report that households enrolled in rapid re-housing programs have required substantially longer to exit the program. In recent years, households have required an average of 10 months of support in City-supported rapid re-housing programs. The expansion of rapid re-housing with ESG funds assumes that households will require 12 months of assistance. However, the 2021 Proposed Budget only provides a cost of living adjustment for the on-going rapid re-housing contracts, which would not accommodate longer enrollment periods and could result in serving fewer households.

This proposed action would impose the following proviso:

"Of the appropriations in the Human Services Department's 2021 Budget for the Addressing Homelessness Budget Summary Level (HSD-BO-HS-H3000) in the General Fund (00100), \$750,000 is appropriated solely to supplement existing contracts for rapid re-housing programs in order to maintain their caseloads and provide support for a longer duration, and may be spent for no other purpose."

	Yes	0									
	No	0									
	Abstain	0									
	Absent	0									

Budget Action Description:

This Council Budget Action would impose a proviso on \$400,000 GF in the Human Services Department's (HSD's) 2021 budget. This proviso would restrict \$400,000 of homelessness prevention and rental assistance to be used to serve households with children. As called for in the Joint COVID Relief Plan, the 2021 Proposed Budget includes \$10 million for HSD for homelessness services (\$8 million for homelessness prevention and rental assistance and \$2 million to maintain modifications in emergency shelters to increase social distancing). This action would specify that a portion of the Joint COVID Relief Plan homelessness prevention funding should support households with children to ensure that online learning would not be disrupted.

This action would impose the following proviso:

"Of the appropriations in the Human Services Department's 2021 Budget for the Addressing Homelessness Budget Summary Level (HSD-BO-HS-H3000) in the Human Services Fund (00100), \$400,000 is appropriated solely to provide homelessness prevention and rental assistance for households with children, and may be spent for no other purpose."

General Fund Revenues	\$0	
General Fund Expenditures	\$34,000	
Net Balance Effect	\$(34,000)	
Total Budget Balance Effect	\$(34,000)	

Budget Action Description:

This budget action would add \$34,000 GF to the Human Services Department's (HSD's) 2021 budget to increase funding for a landlord liaison program, such as the Housing Connector. The Housing Connector connects individuals who may otherwise experience homelessness with housing options that have reduced and waived screening criteria, such as disregarding a past eviction, in order to prevent those households from experiencing homelessness or shorten their period of time experiencing homelessness. The 2021 Proposed Budget would provide \$436,712 GF to the Housing Connector and an additional \$250,000 of one-time Emergency Solutions Grant (ESG) funding to temporarily add two FTEs to increase its services as the City makes a large increase in rapid re-housing services using ESG funds. The proposed increase in funds would provide the full amount of base funding for the Housing Connector's initial contract with HSD.

This action would impose the following proviso:

Net Balance Effect	\$(99,033)	
Total Budget Balance Effect	\$(99,033)	

Budget Action Description:

This budget action would add position authority for 1.0 FTE Housing and Zoning Technician and \$99,033 GF in appropriation authority to the Seattle Department of Construction and Inspections (SDCI) Compliance Budget Control Level to improve outreach and education and facilitate implementation of tenant protection regulations.

SDCI's Property Owner and Tenant Assistance (POTA) Group helps administer regulations related to tenant protections. As part of the 2020 Adopted Budget, the Council added 1 FTE Housing and Zoning Technician to address complaints and requests for service. That position was not filled by SDCI, and salary savings from that position are proposed to be used by the Mayor to address the projected 2021 GF revenue shortfall.

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
SDCI	001	A	002

Due to the COVID-19 pandemic, resolution of complaints and requests for service have been delayed. The current average number of days to resolve complaints involving the POTA group increased from approximately 58 days in 2019 to 68 days in 2020. The Council anticipates that requests for service will further increase when the pandemic residential eviction moratorium is lifted.

Budget Action Description:

This Council Budget Action would add \$500,000 GF to the Seattle Department of Construction and Inspections (SDCI) for tenant outreach, education, organizing and other services.

The 2021 Proposed Budget would appropriate \$615,000 for tenant services grants. Those grants fund services such as tenant education, eviction defense, case management, and tenant counseling. Grantees in 2020, include, but are not limited to, the Housing Justice Project, Interim CDA, Solid Ground, LGBTQ Allyship, the Tenants Union, and United Indians of All Tribes. The 2020 Adopted Budget appropriated \$905,000, \$290,000 of which were one-time appropriations. The Council anticipates an increased demand for tenant services in 2021 with the potential lifting of the pandemic-related residential eviction moratorium.

Statement of Legislative Intent:

This Statement of Legislative Intent would request that the Seattle Department of Construction and Inspections report to the Sustainability and Renters' Rights Committee on (1) a proposed design for an administrative structure and (2) an estimate of associated costs for the City to maintain transferable rental history background check reports.

The information in the report would inform legislation establishing a structure to allow rental histories to be transferrable. This would allow prospective tenants who have paid for a background check to reuse the results for each house or apartment for which they make an application. It would also allow the City to set policy for what is and is not acceptable content for a background check. For example, the Council may choose to allow renters to remove attempted evictions that were not upheld by the court from their rental histories.

General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$460,000	
Net Balance Effect	\$(460,000)	
Total Budget Balance Effect	\$(460,000)	

Budget Action Description:

This Council Budget Action would add \$460,000 GF to the Seattle Department of Construction and Inspections to contract with a renter eviction defense organization, such as the Housing Justice Project (HJP) of the King County Bar Association, to provide free legal defense for any renter facing eviction in Seattle.

The HJP indicates that there are about 1,200 eviction court filings each year in Seattle, not counting un-filed evictions or pre-eviction notices. A \$460,000 appropriation would fund approximately four eviction defense attorneys or three attorneys and one support staff.

The Housing Justice Project estimates a 56 percent overall success rate since 2019 in keeping tenants housed, up from less than 24 percent two years ago when the Council began funding eviction legal defense. Studies indicate that evictions could increase in 2021 as pandemic-related eviction moratoria

Budget Action Description:

This Budget Action adds \$200,000 of fund balance from the Office of Housing's (OH's) Operating Fund to continue support of the Home and Hope Program. This program works to accelerate the development of affordable housing in conjunction with early childhood education centers, health clinics, or other community uses, on underutilized, public or tax-exempt sites. The City has provided \$200,000 in annual funding for this program since 2017. The Mayor's proposed 2021 budget did not include funding for this

Budget Action Description:

This Council Budget Action would provide funding of \$1.7 million GF to OH for the following purposes: \$1.5 million for property acquisition and \$200,000 for a feasibility study for the proposed Aurora Commons Redevelopment Project. The property that would be acquired is on Aurora Avenue. It is proposed to be redeveloped to include: low income housing, service space for the Aurora Commons community organization, and co-location of a health clinic. The total purchase price for the property is \$3.35 million. Additional funds are being sought from other sources to secure all of the funding needed to purchase the property.

program began implementation this Fall. The existing funding is expected to serve 70 to 100 individuals in 2020 and 2021. The program was originally intended to assist individuals who 1) are age 50 or older; 2) have income limited to federal disability benefits, specifically Supplemental Security Income or Social Security Disability Insurance, that is no more than \$1,000 per month; and 3) are at risk of, or currently experiencing, homelessness as a result of transitioning from State assistance to lower paying Federal assistance.

The program was expanded to assist individuals living in shelters to secure housing. The program provides up to one -year of rental assistance and light case management services. Funding would be increased to serve more people who will be eligible for this program.

Budget Action Description:

This Council Budget Action would add \$100,000 in GF to the Office of Housing to fund pre-development costs for property in the Central District. The property that would be acquired is proposed to be used in the short term as shelter but in the long term would be redeveloped as affordable housing.

It is the Council's expectation that the City will assist with the acquisition of this property through existing City programs, such as the Office of Housing's Acquisition and Preservation Program. If needed, the Council will amend the Levy Administrative and Financial Plan to provide additional authority to support this acquisition. In addition, the Council intends that the shelter be prioritized for use by single adults.

Budget Action Title: Proviso \$30,000 in OPCD for the Comprehensive Plan Environmental Impact Statement

Ongoing: No Has Budget Proviso: Yes

Has CIP Amendment: No Has Attachment: No

Primary Sponsor: Teresa Mosqueda

Council Members: Tammy Morales, Debora Juarez, Dan Strauss, Andrew Lewis, Lorena González

Staff Analyst: Lish Whitson

Council Bill or Resolution:

Date		Total	LH	TM	KS	AP	DJ	DS	AL	TM	LG
	Yes	0									
	No	0									
	Abstain	0									
	Absent	0									

Budget Action Description:

This Council Budget Action would place a proviso on \$30,000 in the Office of Planning and Community Development's (OPCD's) budget to ensure that certain issues are studied in an Environmental Impact Statement (EIS), if an EIS is required for the next major Comprehensive Plan update. Any EIS would study a range of alternatives. OPCD expects to use these funds to contract with a consultant to prepare the EIS. The proviso requires that the contract with an EIS consultant provides for:

- (1) Analysis of a growth alternative addressing additional housing capacity and diversity - including duplexes, triplexes, fourplexes, and row houses - in areas of the city currently zoned primarily for single-family houses;
- (2) Development of strategies to minimize displacement of low-income residents and communities of color; and
- (3) Analysis of an alternative name for single-family areas and single-family zones, such as Neighborhood Residential, if an alternative name has not already been adopted.

The proviso would read:

"Of the appropriation in the Office of Planning and Community Development (OPCD), \$30,000 is appropriated to be used for solely for the purpose of retaining a consultant or consultants to prepare an Environmental Impact Statement (EIS), if it is determined by OPCD that an EIS is warranted based on the probable impacts of the next major Comprehensive Plan update. If required, OPCD shall contract for consultant assistance to prepare an EIS in 2021. The appropriation may not be used for any other purpose. If OPCD determines that an EIS is necessary for the next major update, the EIS must include, but is not

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
OPCD	001	A	002

limited to:

1. At least one growth alternative that provides additional housing capacity and housing type diversity in single-family areas.
2. At least one growth alternative that uses other strategies to minimize displacement of low-income residents and communities of color.
3. At least one growth alternative that studies an alternative name for single-family zones, such as Neighborhood Residential, if an alternative name has not already been adopted.

The areas of study 1-3 identified above may be combined into one alternative or studied separately. In developing the EIS scope, the Office should consider other actions to increase residential building capacity, such as those listed in RCW 36.70A.600."

Background:

Seattle's Comprehensive Plan is a 20-year vision and roadmap for Seattle's future growth. A major update is undertaken every eight years. The City's next Comprehensive Plan update is currently scheduled to be adopted by June 2024. OPCD began conducting pre-planning in 2020 and will formally launch the Comprehensive Plan update process in 2021.

The Comprehensive Plan's "Urban Village Strategy" for growth, adopted in 1994, concentrates jobs, housing, and services into four categories of urban villages. It has been the guiding strategy for Comprehensive Plans in Seattle ever since. Of all the areas that allow residential uses in Seattle, 25 percent allows for multifamily residential development, while 75 percent is zoned primarily for single-family detached houses.

Seattle has seen unprecedented growth over the last decade, adding more than 120,000 residents since 2010 - and this trend is expected to continue. Since 2006, over 80 percent of Seattle's growth has occurred in urban centers and villages. Only 5 percent of new housing units in Seattle from 2010 to 2017 were built in areas zoned Single-family. Even as the population of Seattle has increased significantly, the population density in some single-family areas has decreased.

Statement of Legislative Intent 29-4-B-1-2019 requested that "OPCD, DON, and OCR prepare a racial equity analysis of Seattle's strategy for accommodating growth" as part of "pre-planning work in anticipation of the next major update to the Comprehensive Plan." The racial equity toolkit is expected to provide policy options to increase the equity of Seattle's growth strategy and address the legacy of discrimination and exclusion in Seattle's public policies and investments, in particular the inequity inherent in the City's Single-family zoning. In 2019, Washington State House Bill 1923 amended the Revised Code of Washington to encourage cities to adopt additional methods to accommodate residential growth.

Environmental review would likely be required for any policy options to promote greater economic and racial diversity across Seattle's communities by allowing greater housing flexibility in Seattle's current single-family zones. This proviso would require that these topics be studied, if an EIS is prepared for the next major Comprehensive Plan update.

Council Bill or Resolution:

Date		Total	LH	TM	KS	AP	DJ	DS	AL	TM	LG
	Yes	0									
	No	0									
	Abstain	0									
	Absent	0									

Budget Action Description:

This Budget Action would impose a proviso on appropriations in the Office of Planning and Community Development's (OPCD) budget proposed for outreach and engagement work regarding the next major Comprehensive Plan update. The 2021 Proposed Budget appropriates \$100,000 GF for this purpose. The proviso will be lifted after OPCD presents its work plan, including plans for a Racial Equity Toolkit, to the Land Use and Neighborhoods Committee.

Under the Washington State Growth Management Act, the City is required to update its Comprehensive Plan every eight years. The next major update is due in 2024. The Urban Village Strategy for growth was adopted as a foundation of the Comprehensive Plan in 1994 and has been the guiding strategy for comprehensive plans in Seattle ever since. The purpose of the urban village strategy is to concentrate growth in "urban villages" and "urban centers" where jobs, transit and services are readily available.

In the 26 years since adoption of the first Comprehensive Plan, Black, Indigenous and People of Color communities throughout the city have been displaced from areas like the Central District. Data suggests that this is largely driven by a lack of housing options, particularly in areas with high access to opportunity north of the Ship Canal, in the face of unanticipated growth. Coupled with restrictions on development capacity, this has led to gentrification of areas such as the Central District, Chinatown-International District, Beacon Hill, Columbia City, and Delridge.

In 2018, the Council adopted Statement of Legislative Intent (SLI) 29-4-B-1-2018, which requested that "OPCD, DON, and OCR prepare a racial equity analysis of Seattle's strategy for accommodating growth" as part of "pre-planning work in anticipation of the next major update to the Comprehensive Plan."

The Executive has provided a response to the SLI, but has not yet presented its proposed community

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

OPCD	002	A	002

outreach and engagement work program to the Council.

This Council Budget Action would impose the following budget proviso:

"None of the money appropriated in the 2021 budget for the Office of Planning and Community Development for outreach and engagement regarding the next major update to the Comprehensive Plan may be spent unless the Chair of the Council's Land Use and Neighborhoods committee, or the successor committee with purview over the Office of Planning and Community Development, files a certification with the City Clerk that the Office of Planning and Community Development, the Department of Neighborhoods, and the Office for Civil Rights have briefed the committee on their work plan for Comprehensive Plan outreach and engagement, including a racial equity toolkit."

Statement of Legislative Intent:

This Statement of Legislative Intent would request that the Seattle Department of Construction and Inspections (SDCI) provide quarterly reports to the Land Use and Neighborhoods (LUN) Committee on progress towards meeting goals for processing (1) simple/medium complexity construction permit applications, (2) complex construction permit applications, and (3) Master Use Permits. The report shall use definitions for simple/medium and complex construction permit applications reported to the Mayor and shall detail average calendar days from permit intake to permit issuance and the percentage of projects, by category, receiving an initial plan review within target time periods.

A baseline report would be due January 15, 2021. Reports covering the prior quarter would be due to the LUN Committee within two weeks following the close of each quarter with the first quarterly report due no later than April 15, 2021.

Responsible Council Committee(s):

Statement of Legislative Intent:

This Statement of Legislative Intent would request that the Seattle Department of Construction and Inspections (SDCI) and the Office of Housing (OH) report to the Council's Finance and Housing Committee on payment and performance to-date under the Mandatory Housing Affordability program.

This reporting is consistent with the requirements of Ordinance 125108, which states, "[i]f the Council determines that developers of projects, other than smaller projects and projects inside of the Downtown and South Lake Union Urban Centers, favor the payment option, the Council will consider raising payment amounts to avoid a bias towards payment, consistent with statutory authority. Units produced under the mandatory housing affordability program provided in Chapter 23.58C shall be measured as net new units. Existing rent- and income-restricted affordable units demolished for development subject to the program are subtracted from the target production."

The report should (1) detail the option selected at the Master Use Permit stage for all projects, (2) distinguish smaller projects and those located inside the Downtown and South Lake Union Urban Centers from all other projects, and (3) quantify the percentage of larger projects outside of the Downtown and South Lake Union Urban Centers that selected performance (i.e. development of affordable units in the project) versus those that selected to make an in-lieu payment.

This report is in addition to the annual Incentive Zoning and Mandatory Housing Affordability Report provided by the Office of Housing.

General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This Council Budget Action (CBA) recommends amending and passage as amended of Council Bill (CB) 119910, the 3rd Quarter 2020 Supplemental Appropriations Ordinance. CB 119910 would amend the 2020 Adopted Budget to provide expenditure authority to use the grants in the 3rd Quarter Grant Acceptance Ordinance (CB 119909) and to modify appropriations for other purposes in various City departments. It also makes several reductions to permitted 2020 expenditures, increasing starting fund balances available for the 2021 budget. The net impact on 2020 appropriations in the 3rd Quarter Supplemental Ordinance is a reduction of approximately \$11.3 million, of which approximately \$10.1 million is from the General Fund.

In addition to several technical corrections, this CBA would make the following substantive amendments to CB 119910, the proposed 2021 3rd Quarter Supplemental Ordinance:

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
BLG	002	B	001

- Cut \$1.4 million originally appropriated in the 2018 and 2019 Adopted Budgets and carried forward into 2020, but not yet spent, to fund a Community Health Engagement Location (CHEL). The balancing package uses these funds for the following investments: \$1.12 million for health services for drug users (HSD 009-A-002), \$200,000 for Harm Reduction Programs (HSD-050-A-002), and \$80,000 for Commercial Sexual Exploitation Services (HSD-007-A-002).
- Cut \$500,000 programmed for the Mayor's Community Safety Work Group for facilitation and engagement to provide input into the Mayor's proposed Equitable Communities Initiative and public safety changes. The balancing package includes \$30 million for the Equitable Communities Initiative (FG-003-A-001); that funding can be used to support the work group.
- Cut \$1.7 million from Seattle Police Department salary savings from greater than expected officer attrition to support Council's public safety initiatives in the balancing package.
- Cut \$10 million from the Human Services Department (HSD), that would otherwise lapse, for community led public safety investments. The balancing package will restore the \$10 million to HSD's budget for the same purpose (see HSD-009-B-001).
- Swap \$6.3 million between the Transportation Fund and the REET II Capital Fund. This swap would fully address the anticipated \$5.7 million 2020 Commercial Parking Tax shortfall identified in the City Budget Office's November 2020 revenue forecast. The swap would also free up \$600,000 of Transportation Fund balance to partially offset the 2021 Commercial Parking Tax revenue shortfall.
- Swap \$3 million for participatory budgeting between the Revenue Stabilization Fund (RSF) and General Fund to increase the RSF's 2021 starting balance from \$3 million to \$6 million.
- Add \$1.05 million GF to the Office of Planning and Community Development in place of Short-term rental tax proceeds. This swap would fully address the anticipated \$1.05 million 2020 Short-term Rental Tax shortfall identified in the City Budget Office's November 2020 revenue forecast.

Net Balance Effect	\$155,095	
Total Budget Balance Effect	\$155,095	

Budget Action Description:

This Council Budget Action would cut a proposed new permanent Strategic Advisor 1 position and \$155,095 from the Department of Neighborhoods (DON) that was intended to support outreach and engagement related to results from the 2020 U.S. Census. This action would allow a current position within the Department to sunset at the end of 2020.

Budget Action Description:

This budget action recognizes the results from the City Budget Office's November 2020 forecast update. In September of each year, Council receives a revenue forecast with the Mayor's budget proposal, followed by a fall update typically received in November. The November 2020 update indicates a \$36 million GF increase in 2020 and a \$32.6 million GF increase in 2021. These increases are due to improved projections in Property Taxes, Sales Taxes and Business & Occupation Taxes, which more than offset a downward adjustment to parking fees in 2021.

Non-General Fund revenue changes include a \$2.6 million decrease in Short Term Rental Tax revenues, which are collected in the Short Term Rental Fund, a \$15.3 million decrease in Commercial Parking Tax revenues to the Transportation Fund, a \$9.2 million decrease in School Zone Camera revenues to the School Zone Camera Fund, a \$15.7 million increase in Real Estate License Tax revenues, and a \$2.3 million increase in Seattle Transportation District Vehicle License Fees in 2020.

Budget Action Description:

This Council Budget Action cuts \$164,000 GF (one-time) from the Office of Economic Development (OED) for the Creative Industry Policy Advisor position (1.0 FTE Strategic Advisor 2), which is currently vacant. The position was added to the 2020 Adopted Budget to support the implementation of OED's Creative Industry sector strategy with marketing, stakeholder management, and policy research and development. This action will delay hire of the position until 2022.

Budget Action Title: Proviso \$200,000 GF in SPD for 2020 recruit signing bonuses

Ongoing: No Has Budget Proviso: Yes

Has CIP Amendment: No Has Attachment: No

Primary Sponsor: Teresa Mosqueda

Council Members:

Staff Analyst: Greg Doss

Council Bill or Resolution:

Date		Total	LH	TM	KS	AP	DJ	DS	AL	TM	LG
	Yes	0									
	No	0									
	Abstain	0									
	Absent	0									

Budget Action Description:

This Council Budget Action (CBA) imposes a proviso on the Seattle Police Department (SPD) that restricts \$200,000 so that it may only be used to fulfill SPD's contractual obligations to pay the recruit signing bonuses that were obligated in 2019 and 2020 pursuant to Council Ordinance 125784.

Ordinance 125784 authorized recruit signing bonuses that were provided to new hires until June 30, 2020. The signing bonuses were distributed in two parts, the first half upon hire and the second half at the completion of the employee's first year. The \$200,000 is the balance needed to pay the new hires for the second half of the hiring bonuses.

This Council Budget Action contains a proviso:

"Of the appropriation in the 2021 budget for the Seattle Police Department, \$200,000 is appropriated solely for contractually obligated recruit signing bonuses and may be spent for no other purpose."

Budget Action Description:

This budget action recommends passage of Council Bill (CB) 119911. This legislation would repeal Ordinance 126149 that authorized spending \$57 million from the City's Emergency Fund (EMF) for COVID relief efforts and replaces it with a bill that reflects the 2020 spending agreed to in the compromise between the Council and the Mayor to spend a total of \$45 million for COVID-19 relief efforts in 2020 and 2021. Specifically, CB 119911 authorizes spending \$19.9 million from the EMF in 2020 on COVID-19 relief, with an additional \$3.4 million supported by Community Development Block Grant monies. The 2021 Proposed Budget includes an additional \$22 million of proposed spending to fulfill the agreement for this compromise plan.

General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

The budget action would recommend passage of Council Bill (CB) 119913, which modifies the Seattle Department of Construction and Inspections' (SDCI) fee ordinance. CB 119913 would make corrective and technical adjustments to fees charged by SDCI for regulatory services. Fees collected by SDCI for regulatory services are charged for recovering the cost of providing those services and are, generally, not fungible.

This bill would decrease fees charged for certain types of electrical, mechanical and refrigeration permit services and increase fees charged for reviews by the Department of Neighborhoods (DON), which SDCI collects. Fees collected for DON services include reviews associated with development of sites with potential landmark structures, development of major institutions, and applications for development standard departures for public schools.

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
BLG	007	A	001

The net effect in 2021 of the proposed modifications would be an approximately \$430,000 decrease in revenue to the Construction and Inspections Fund and an approximately \$30,000 increase in revenue to the General Fund.

Total Budget Balance Effect	\$0	

Budget Action Description:

This Council Budget Action recommends adoption of Resolution 31975. This resolution authorizes the City to provide a reduced level of GF support to Seattle Parks and Recreation (SPR) in 2021 due to the demanding economic circumstances caused by the COVID-19 pandemic. The Mayor's proposed reductions in GF support to SPR would result in the City being unable to meet the baseline GF allocation required by the Interlocal Agreement (ILA) between the City and the Seattle Park District. In 2021, the baseline amount would be \$103 million. The Mayor's 2021 Proposed Budget would provide \$97 million of GF support. The ILA permits the Council to provide less GF support if the Council (1) determines that a natural disaster or exigent economic circumstance prevents the City from maintaining the required level of GF support and (2) adopts a resolution with $\frac{3}{4}$ approval affirming this circumstance.

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This budget action recommends passage of CB 119915, Seattle Public Utilities' (SPU) drainage treatment rate passthrough ordinance. This CB would adjust SPU's drainage rates for 2021 to account for an increase in the King County wastewater treatment charge and a decrease in wastewater volumes.

In October 2018, Council passed Ordinance 125686 establishing drainage rates for 2019 through 2021. These rates incorporated the King County wastewater treatment rate that was in effect for 2019 and 2020. King County typically increases its treatment rate every other year, however, necessitating an adjustment of the City's drainage rate for 2021. Of the total amount that SPU pays to King County for wastewater treatment, approximately six percent of the cost is attributed to the drainage system based on stormwater from combined basins in the city that flows to treatment plants.

In addition to the King County wastewater treatment rate increase, however, the overall volume of

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
BLG	010	A	001

wastewater has decreased throughout the city since the beginning of the pandemic. This lower volume has therefore reduced the forecast for treatment costs attributable to the drainage system for 2021.

The adjustment proposed in this bill would decrease the treatment portion of drainage rates and bring the total average drainage rate increase for 2021 to 7.4 percent. This increase is below the 8.0 percent increase for 2021 that was expected by SPU and Council at the time that rates were adopted for 2019 through 2021.

SPU estimates that passage of this bill would decrease 2021 drainage revenue by approximately \$259,000 and General Fund revenue by approximately \$30,000.

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This budget action recommends passage of CB 119916, Seattle Public Utilities' (SPU) wastewater treatment rate passthrough ordinance. This CB would adjust Seattle Public Utilities' (SPU) wastewater rates for 2021 to account for an increase in the King County wastewater treatment charge.

In October 2018, Council passed Ordinance 125685 establishing wastewater rates for 2019 through 2021. These rates incorporated the King County wastewater treatment rate that was in effect for 2019 and 2020. King County typically increases its treatment rate every other year, however, necessitating an adjustment of the City's wastewater rate for 2021.

The adjustment proposed in this bill would increase the treatment portion of wastewater rates by approximately 4.6 percent, bringing the total wastewater rate increase for 2021 to 7.3 percent. This increase is consistent with the expectations of SPU and the Council at the time that rates were adopted

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
BLG	011	A	001

for 2019 through 2021.

SPU estimates that passage of this bill would increase 2021 wastewater revenue by approximately \$7.9 million, which would be used to pay King County treatment charges, and General Fund revenues by approximately \$943,000. If the Council does not pass this bill, SPU would still be liable for the increased King County treatment rate charges, but the City would not be fully recovering the cost from ratepayers.

Budget Action Description:

This budget action recommends passage of CB 119917, Seattle Center's facility fee and contracting ordinance. This CB would modify the Seattle Center Fee Range Schedule by increasing the minimum event day fees for the Armory and increasing the maximum event day fees for McCaw Hall.

The legislation would also make a number of adjustments to provide the Seattle Center Director with more contracting flexibility in recognition of the economic effects of the pandemic. The proposed changes include:

- Allowing the Director to enter into events-related service agreements (e.g., ticketing services, catering, concessionaires) for 10-year terms, rather than 5-year terms;
- Increasing the risk of potential loss amount for the Director to enter into agreements where Seattle

Center is a promoter or co-promoter of events from \$50,000 to \$100,000.

Additionally, for 2021 and 2022 only, the Director would be allowed to:

- Extend the term of food and beverage service agreements for two additional years;
- Waive up to \$25,000 in use fees and charges to incentivize the hosting of events at Seattle Center.

Lastly, the legislation would repeal Chapter 17.20 of the Seattle Municipal Code which relates to Veterans Hall that was demolished as part of the construction of McCaw Hall.

Budget Action Description:

This budget action recommends passage of CB 119918, Seattle Center's operating interfund loan ordinance. This CB would amend Ordinance 125717, passed in November 2018, to authorize a revolving interfund loan of up to \$18 million from the REET II Capital Projects Fund. The loan is anticipated to be repaid by 2033 from revenues associated with the reopening of the arena and the return of public events and commerce on the campus.

The interfund loan authorized by Ordinance 125717 had a limit of \$5 million and was primarily intended to support Seattle Center operations during the redevelopment of the arena. Seattle Center has maxed out the loan authority granted by the prior authorization.

In addition to the financial impacts of the arena redevelopment, Seattle Center continues to be significantly impacted by the pandemic and its associated prohibition on public gatherings. Seattle

Center's 2021 Proposed Budget relies upon \$11.8 million of loan proceeds that would be authorized by this legislation.

The City's Debt Management Policy Advisory Committee voted on October 14, 2020 recommending that the City approve of the interfund loan that would be authorized by this legislation.

Budget Action Description:

This budget action recommends passage of CB 119919, Finance and Administrative Services' (FAS) 2021 limited tax general obligation bonds ordinance.

This legislation would provide the legal authorization to issue up to \$212.7 million of bonds in 2021, to fund projects in the 2021 Proposed Budget and the Proposed 2021-2026 Capital Improvement Program (CIP) and includes \$6 million of financing to assist the Pike Place Market in addressing revenue shortfalls resulting from the COVID-19 crisis. This loan will not be dispersed until bonds are issued and the City and Market finalize a lending agreement.

The City's Debt Management Policy Advisory Committee voted on October 14, 2020 recommending that the City approve the bonds that would be authorized by this legislation.

Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This budget action recommends passage of CB 119920, Seattle City Light (SCL) electric system omnibus bond defeasance ordinance. This legislation would authorize the Director of Finance to approve and implement defeasance plans for outstanding electric system (City Light) revenue bonds and to call applicable bonds for redemption. The intent of the authorization is to allow the City to effectively replace higher interest rate debt with lower interest rate debt, thereby saving the City and its ratepayers money.

Until a 2017 change in federal tax law, the City was able to perform a similar type of refinancing more directly, by depositing the proceeds of lower interest rate bonds into an escrow account for the redemption of higher interest rate debt. This legislation would authorize a new "debt optimization" process that uses available cash to fund the escrow account instead. In instances where that cash would otherwise have gone toward capital projects, the City would sell new lower interest rate bonds to fund the capital projects.

Total Budget Balance Effect	\$0	

Budget Action Description:

This budget action recommends passage of CB 119922, Seattle Public Utilities' (SPU) 2021 drainage and wastewater system bond ordinance. This CB would amend Ordinance 125454, passed in November 2017, as amended by Ordinance 125712, passed in November 2018, to authorize up to \$500 million of 30-year fixed-rate bonds to support the City's drainage and wastewater system.

Up to \$150 million would be used for debt optimization, a process that would be authorized by a separate piece of proposed budget legislation, CB 119923, the Drainage and Wastewater Omnibus Bond Defeasance ordinance.

The other \$350 million would be used to fund capital expenditures. Of this amount, \$192 million has already been issued in the form of a U.S. Environmental Protection Agency Water Infrastructure Finance and Innovation Act loan for the Ship Canal Water Quality project. The remaining \$158 million of bond

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
BLG	017	A	001

proceeds would support approximately 24 months of construction activity. SPU estimates the annual debt service on the \$158 million of bonds to be about \$8 million, beginning in 2022.

The City's Debt Management Policy Advisory Committee voted on October 14, 2020 recommending that the City approve the loans and bonds that would be authorized by this legislation.

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This Council Budget Action recommends passage of CB 119947, which would authorize a \$25 million interfund loan from the Information Technology Fund to the Transportation Fund. The loan would be repaid by December 31, 2024. The City Budget Office (CBO) affirms that the Information Technology Fund has available resources to cover the loan, and the anticipated combined interest due over the four-year term is \$1,147,170.

This proposed interfund loans would provide short-term financing in support of general Seattle Department of Transportation (SDOT) operations. This is intended to help SDOT avoid further 2021 budget reductions as the economy is anticipated to recover from the COVID-19 recession over the next four years. Absent the loan, SDOT would be forced to make additional budget reductions in 2021, including additional cuts to programs and staff which would lead to discontinuity of services and institutional knowledge/capacity.

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
BLG	022	C	001

The Transportation Fund financial plan includes principal and interest payments to retire the proposed loan by 2024. If Transportation Fund revenues do not recover as projected, SDOT will need to reduce future budget proposals accordingly to preserve funding to repay the interfund loan; this could mean absorbing reductions in projects and/or personnel costs for the next several years.

Total Budget Balance Effect	\$0	

Budget Action Description:

This budget action recommends passage of Council Bill 119928, legislation that would amend the Seattle Municipal Code to require all receipts from the admission tax be deposited directly into the Arts and Culture Fund rather than into the General Fund. Because 100 percent of admissions tax revenue is dedicated by ordinance to the Office of Arts and Culture, this legislation would remove an unneeded administrative step of transferring funds from the General Fund into the Arts and Culture Fund.

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This budget action recommends adoption of Resolution 31976, which would update outdated language and modify financial policies related to the Arts and Culture Fund to require that the Office of Arts and Culture (ARTS) maintain a reserve equivalent to 20 percent of the Arts and Culture Fund's annual operating expenses.

Currently, appropriations for ARTS for the current year are based on admissions tax revenues from two years prior, which allows ARTS two years of lead time to address unexpected revenue issues. For example, appropriations in the 2021 Proposed Budget are based upon actual admissions tax revenues from 2019. However, given the impacts of COVID-19 on current revenue collection, adoption of Resolution 31976 would allow ARTS to shift to concurrently funding its budget beginning in 2022. This shift can mitigate the impacts of revenue loss from COVID-19 in 2020 and 2021 by effectively "skipping" those years of revenue and budgeting for 2022 with anticipated 2022 revenue, when revenues are

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
BLG	024	A	001

forecasted to improve. Revenues collected in 2020 and 2021 would instead be used to build the reserve in the Arts and Culture Fund. To provide cushion previously provided by the two-year lag, this legislation increases the reserve from \$400,000 annually to 20 percent of operating expenses.

Budget Action Description:

This budget action recommends passage of CB 119929, Seattle Center's parking rates ordinance. This CB would amend the Seattle Center parking regulations to specify that the monthly parking program is for designated hours only, to establish an enforcement fee for exceeding those designated hours, and to modify the volume discount percentage. The legislation would also increase the maximum fees for the premium parking program and for parking enforcement. For example, the maximum surcharge for not paying a parking charge within 14 days is increased from \$20 to \$30. Lastly, the legislation would align the department's online customer transaction fee with citywide rules established in SMC 5.22.020.

Budget Action Description:

This budget action recommends passage of CB 119930, which would authorize a change in the Seattle Department of Transportation's (SDOT's) Levy to Move Seattle funding levels for the designated spending categories established in the levy.

The 2015 voter-approved Levy to Move Seattle (authorized by Ordinance 124796) established three spending categories (Safe Routes, Congestion Relief, and Maintenance and Repair) for levy proceeds with designated cumulative funding amounts over the nine year term of the measure. While the Levy to Move Seattle funding remains relatively stable, other transportation revenue sources have declined with the response to the COVID-19 pandemic and resulting economic recession. SDOT leverages the Levy to Move Seattle funds with these other transportation revenues to deliver a portfolio of Move Seattle projects. In response to the overall reduction of total funding for these Move Seattle projects, SDOT has proposed revisions to the Levy to Move Seattle spending categories to deliver a revised Move Seattle

2021 Seattle City Council Budget Action

project portfolio reflected in the 2021-2026 Capital Improvement Program.

Adjusting the Levy to Move Seattle spending categories would require the Council's approval by ordinance. The Levy to Move Seattle Oversight Committee reviewed this proposal at their October 6, 2020 meeting and provided written comment to the Council (letter dated October 19, 2020) in support of the proposal.

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This legislation would amend SMC 5.39.050 to decrease the applicability threshold for the Transportation Network Company (TNC) tax from 1,000,000 trips per quarter to 200,000 trips per quarter.

In December of 2019, Council passed Ordinance 125971, imposing a new tax of \$0.57 per trip provided by any TNC which reported over 1,000,000 trips in the previous quarter. At the time of passage, both Uber and Lyft were meeting this threshold and the anticipated revenues from the tax were \$8.9 million in 2020 and \$19.9 million in 2021. Due to COVID-19, the number of TNC trips has decreased dramatically; and no company is meeting the current threshold. Therefore, no TNC tax revenue has been collected in 2020. It is anticipated that with the change of the applicability threshold, the tax would generate \$5.0 million in 2021, consistent with assumptions in the 2021 Proposed Budget.

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This budget action recommends adoption of Resolution 31977 that would provide City Council approval of the 2021 interest rates on member contributions set by the SCERS Board of Administration on August 13, 2020. The Board reviews and adjusts the interest rates annually, based on market conditions. The new interest rates for 2021 will grow member contribution balances on all contributions received after December 11, 2011 at an annual compounding rate of 2.04 percent. The annual rate prior to this change is 3.07 percent.

This change lowers the Retirement Fund's costs and incrementally lowers the system's normal cost. These impacts are estimated along with other factors in the retirement system's periodic actuarial valuations

General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This budget action recommends adoption of Resolution 31978 that affirms that the City will fully fund the actuarially required contribution (ARC) to the Employee's Retirement Fund in 2021. As determined by an independent actuary using a set of assumption about member demographics and investment earnings, the ARC is the annual contribution to the Retirement Fund that the City must make to meet the objective of a 100% funded retirement plan (benefits sufficient funds to pay current and future benefits) by 2042.

The combined required contribution rate for 2021 is 25.56 percent (down from 25.79% in 2020). The City's portion of the combined contribution rate for 2021 is 16.10 percent of regular payroll into SCERS (down from 16.14 percent in 2020).

The 2021 Proposed Budget includes the amounts necessary to fully fund the ARC to the Employee Retirement Fund in 2021.

Attachment A

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

..title

AN ORDINANCE relating to the organization of City government; creating an Office of Emergency Management; repealing Sections 10.02.045 and 10.020.047 of the Seattle Municipal Code; adding Sections 3.15.040 and 3.15.042 to the Seattle Municipal Code; amending Ordinance 118617; and adopting revised Emergency Management Fund – General Trust Fund Policies.

..body

WHEREAS, throughout the summer, Seattle residents have taken to the streets to protest the unjust murders of Black Americans, including George Floyd and Breonna Taylor, and the shooting of Jacob Blake; all of these individuals experienced violent and lethal force at the hands of the police; and

WHEREAS, in response to this local and national civil rights reckoning, community members and civic leaders, including the Mayor and members of the City Council, have committed to a holistic review and community-led discussion around the effectiveness of the current way that community safety is provided in Seattle; and

WHEREAS, the shared vision for reimagining Seattle’s system of community safety recognizes the importance of providing alternatives to armed police officer response, including civilian and community-based services and solutions; and

WHEREAS, based on community input, the Mayor and the City Council will pursue the transfer of certain functions out of the Seattle Police Department, including Emergency Management, 9-1-1 Dispatch, and Parking Enforcement; and

WHEREAS, these transfers, taken in total, aim to reflect community expectations of the equitable delivery of City services, elevate emergency planning, improve the

1 coordination of calls-for-service, increase civilian and community-based dispatch
2 options, and bolster public trust and confidence in a reimagined system of community
3 safety; and

4 WHEREAS, emergency management is a core City function necessary to manage emergency
5 planning, preparedness, mitigation, response, and recovery on behalf of the City and in
6 collaboration with community, regional, state, and federal partners; and

7 WHEREAS, as a national best practice, the Emergency Management Accreditation Program
8 (EMAP) recommends establishing an independent Office of Emergency Management as
9 a department directly overseen by the executive; and

10 WHEREAS, as an independent City office, the charge of the Office of Emergency Management
11 remains the same as the central coordinating agency for the development of, training to,
12 and maintenance of the state required all-hazard Seattle Comprehensive Emergency
13 Management Plan, the Seattle Hazard Identification and Vulnerability Analysis, the
14 Seattle All Hazard Mitigation Plan, Seattle Disaster Recovery Framework, Departmental
15 Continuity of Operations Plans, and many incident-specific action plans, checklists, and
16 protocols; and

17 WHEREAS, it will continue to be critical for the Office of Emergency Management to work
18 closely with City departments, non-profit agencies, hospitals, schools, the military, state
19 and regional partners, and to expand partnership throughout Seattle's diverse community
20 when developing emergency management plans; NOW, THEREFORE,

21 **BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

22 Section 1. Sections 10.02.045 and 10.02.047 of the Seattle Municipal Code, enacted by
23 Ordinance 124849, are repealed:

~~((10.02.045 Director of the Office of Emergency Management~~

~~There shall be a Director of the Office of Emergency Management who shall be appointed by the Mayor. The Director shall be responsible for the organization, administration, and operation of the City's emergency management organization and program.~~

~~10.02.047 Office of Emergency Management~~

~~There shall be an Office of Emergency Management to oversee implementation of the City wide emergency management program including, but not limited to, hazard identification and consequence analysis, capability assessment, hazard mitigation, emergency planning, training, exercising, community preparedness, operational readiness, disaster response and recovery coordination, and partnership building. The Office of Emergency Management shall be the coordinating agency to ensure City wide compliance with local, state, and federal laws, regulations, and guidelines relating to emergency preparedness including the adoption of the national incident management system.))~~

Section 2. New Sections 3.15.040 and 3.15.042 are added to the Seattle Municipal Code as follows:

3.15.040 Office of Emergency Management

There is created within the Executive Department an Office of Emergency Management (OEM) responsible to partner with the community to prepare for, respond to, mitigate the impacts of, and recover from disasters and to be the coordinating agency to ensure Citywide compliance with local, state and federal laws, regulations and guidelines relating to emergency preparedness. The objectives and functions of the Office of Emergency Management ~~are to ensure that the City meets the national and international Emergency Management Accreditation Program (EMAP) standards and remain in compliance with chapter 38.52 RCW, chapters 118-09 and 118-30~~

~~WAC, the Disaster Mitigation Act of 2000, and the Post-Katrina Emergency Management Reform Act~~ and include the following tasks and activities~~functions~~:

A. Preparing the community for disaster through the management of volunteers, public education, and capability-building with community organizations, vulnerable population outreach, limited English proficiency, low income, and immigrant and refugee communities;

B. Studying and understanding the consequences of the numerous hazards facing the city of Seattle, and using hazard knowledge to inform mitigation of~~mitigate~~ known hazards through planning and investments to lessen disaster impacts and/or harden critical facilities and systems;

C. Coordinating the development, testing, validation, and maintenance of all plans and procedures to guide all aspects of the City's emergency management program such as including the all-hazard Seattle Comprehensive Emergency Management Plan (CEMP). The major components of the CEMP will, at minimum, include a hazard and consequence analysis, an emergency operations plan, a mitigation plan, a disaster recovery framework, and any other plans or programs necessary to comply with state and federal laws and regulation. The Mayor shall submit proposed amendments to the CEMP for review and approval by resolution,~~as described in Section 10.02.050, the Seattle Hazard Identification and Vulnerability Analysis, the Seattle All Hazard Mitigation Plan, Seattle Disaster Recovery Framework, Departmental Continuity of Operations Plans, an OEM Strategic Plan, and many incident-specific action plans, checklists, and protocols;~~

D. Ensuring Training City responders, managed volunteers, and the community ~~are~~ trained to emergency plans and to their roles and responsibilities in an emergency, as well as conducting routine exercises to ensure personnel and systems are routinely practicing such roles;

E. Managing and maintaining the City's emergency response system to ensure coordination for both in-person and remote operations. This includes ensuring that: the City's Emergency Operations Center (EOC) and the Joint Information Center are operationally ready at all times; EOC responders are identified and trained; and all supporting infrastructure and equipment are maintained;

F. Following a federal declaration of disaster, coordinating the collection of information including damage, impacts, and costs incurred by City departments to obtain reimbursement or grant money under the Robert T. Stafford Disaster Relief and Emergency Assistance Act or other Federal laws on behalf of City departments; and

G. Overseeing the City's Emergency Management organization, including performing the duties as described in Section 10.02.060 and other functions as may be prescribed by ordinance.

3.15.042 Director of the Office of Emergency Management

A. Appointment, term, and removal

The Director of the Office of Emergency Management (OEM) shall be appointed by the Mayor and subject to confirmation by a majority vote of City Council. The Director may be removed by the Mayor upon filing a statement of reasons therefor with the City Council.

B. Duties. The Director of OEM shall be the head of OEM, shall be responsible for the administration of the City's emergency management organization and program, and shall:

1. Develop and manage all functions and responsibilities of OEM.

2. Hire, supervise, and discharge OEM staff.

3. ~~Provide advice~~Report to the Mayor and City Council on the city's emergency preparedness and recommend actions to better prepare the city and community at large for emergencies.

4. Ensure Citywide compliance with local, state, and federal laws, regulations, and guidelines relating to emergency preparedness including the adoption of the national incident management system.

Section 3. Ordinance 118617, last amended by Ordinance 125492, is amended as follows:

Section 1. There is hereby created in the General Trust Fund an Emergency Management Fund, into which shall be deposited financial contributions received by the City from federal, state and local governments and private entities to reimburse the City for costs incurred as a result of declared disasters; to reimburse the City for costs incurred for mitigation projects to lessen the impact of future disasters; to compensate the City for administrative costs of the recovery effort; and to assist the City in specialized programs and other disaster management activities. Cash balances in the Emergency Management Fund shall be invested and shall accrue interest until expended.

Section 2. The ((~~Police Department~~)) Office of Emergency Management is authorized to apply for the transfer of funds from the Emergency Management Fund received for the purposes outlined in Section 1, and the ((~~Chief of Police~~)) Director of the Office of Emergency Management is authorized to expend funds received through such transfers to facilitate the enhancement of emergency management activities following the ((~~Standard Operating Procedures attached hereto as Exhibit A~~)) Emergency Management Fund Policies. All the necessary appropriations for disbursement of funds in the Emergency Management Fund are hereby made and authorized. The ((~~Chief of Police~~))

Director of the Office of Emergency Management will report annually to the Mayor and City Council the total of all monies received from such sources and an accounting of how the funds were expended.

Section 3. The Director of Finance and Administrative Services is authorized to pay the necessary warrants upon vouchers certified by the ((~~Chief of Police~~)) Director of the Office of Emergency Management, or the ((~~Chief's~~)) Director's designee, on the Emergency Management Fund.

* * *

Section 4. Emergency Management Fund Policies, adopted by Ordinance 118617, are revised and adopted as contained in Attachment A to this ordinance.

Section 5. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020,
and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

Summary of Dollar Effect

See the following pages for detailed technical information

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This legislation would amend the Transportation Network Company (TNC) Deactivation Rights Ordinance (Ordinance 125976) to delay the effective date until July 1, 2021 or later; and reduce TNC coverage to companies reporting "200,000 or more trips" in the City in the last quarter.

In November 2019, Council passed the TNC Deactivation Rights Ordinance to establish protections for drivers against unwarranted deactivations; procedures for a neutral deactivation appeal process; and authority for the Office of Labor Standards (OLS) to contract with a Driver Resolution Center to represent drivers in arbitration proceedings and conduct outreach.

To address the uncertainty of funding from the TNC tax established by Seattle Municipal Code (SMC) 5.39 and reduced TNC trip volume during the COVID-19 emergency, OLS proposes amending the TNC Deactivation Rights Ordinance to delay the effective date and lower the threshold for TNC coverage.

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
BLG	034	A	001

The effective date would change from October 1, 2020 to the later of (1) July 1, 2021 if the City Budget Office (CBO) has certified to the City Clerk that the City has collected "sufficient revenues" from the TNC tax to fund implementation of the TNC Deactivation Rights Ordinance or (2) 60 days following such certification. "Sufficient revenues" would include (1) fixed costs of approximately \$1.4 million in the Department of Finance and Administrative Services to implement the TNC tax and \$500,000 in OLS to implement the TNC Deactivation Rights Ordinance; and (2) funding for the Driver Resolution Center (DRC).

The threshold for TNC coverage would change from companies reporting "more than 1 million trips" in the City in the last quarter to "200,000 or more trips" in the City in the last quarter. This threshold would align with TNC coverage requirements in the TNC Minimum Compensation Ordinance and a proposed amendment to the TNC tax.

	2021 Increase (Decrease)	2022 Increase (Decrease)
General Fund		
General Fund Revenues	\$0	
General Fund Expenditures	\$0	
Net Balance Effect	\$0	
Total Budget Balance Effect	\$0	

Budget Action Description:

This budget action recommends passage of Council Bill 119939, known as the “long” property tax ordinance. The long property tax ordinance is one of the two ordinances required to levy property taxes for collection in 2021. This bill fixes the rates and/or amounts of property taxes to be levied, and levies the taxes.

This bill increases the regular non-voted levy by 1 percent for taxes to be collected in 2021, adds the allowance for new construction and other allowable amounts, and specifies the dollar amounts to be collected for the special purposes of voter-approved property tax measures. This bill also levies the excess levy property taxes to pay debt service on voter-approved bond measures.

RCW 84.55 limits the increase in regular property tax that the City can collect, based on the previous year’s regular property tax multiplied by a “limit factor.” The City is generally required to use the lesser of 101 percent, or 100 percent plus the “implicit price deflator” (IPD) (the measure of inflation that applies to property tax calculations), as the limit factor. If the IPD is less than 1 percent, and the Council finds, by

2021 Seattle City Council Budget Action

Council Budget Action: Agenda

Tab	Action	Option	Version
BLG	037	A	001

supermajority vote, a substantial need to use 101 percent as the limit factor, then the City can use 101 percent as the limit factor.

The IPD for 2021 is 0.64 percent. Because the IPD is less than 1 percent, and due to significant revenue losses projected into 2021 and additional costs resulting from the health and economic effects of the corona virus pandemic, CB 119939 includes a finding of substantial need to use 101 percent as the tax limit factor.

The total anticipated property tax revenue collected in 2021 under this bill would be about \$576.9 million.

Budget Action Description:

This budget action recommends passage of Council Bill (CB) 119940 that would reflect changes in the regular property taxes in terms of dollars and percentages. This does not include "refund fund levy," or additional taxes resulting from new construction, construction of wind turbine facilities classified as personal property, improvements to property, or an increase in the value of state-assessed property. It is a companion to the ordinance authorizing Seattle's property tax levies, commonly known as the "Long Property Tax Ordinance."

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE authorizing, in 2020, acceptance of funding from non-City sources; authorizing the Mayor or Mayor's designee to accept specified grants, private funding, and subsidized loans and to execute, deliver, and perform corresponding agreements; and ratifying and confirming certain prior acts.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. The Mayor or the Mayor's designee is authorized to accept the following non-City funding from the grantors listed below; and to execute, deliver, and perform, on behalf of The City of Seattle, agreements for the purposes described below. The funds, when received, shall be deposited in the receiving funds identified below to support future appropriations, or in support of, or as reimbursement for, the corresponding appropriations set forth in the ordinance introduced as Council Bill 119910.

Item	Department	Grantor	Purpose	Fund	Amount
1.1	Human Services Department	Department of Housing and Urban Development's Emergency Solutions Grant	This item accepts \$3,000,000 of a \$26,000,000 award for the Department of Housing and Urban Development's Emergency Solutions Grant provided as part of the Federal Coronavirus Aid, Relief, and Economic Security (CARES) Act for Coronavirus Disease 2019 ("COVID-19") emergency response. The remaining \$23,000,000 of the award is accepted and appropriated in the 2021 Proposed Budget.	Human Services Fund (16200)	\$3,000,000

1.2	Executive (Office of Immigrant and Refugee Affairs)	Washington State Department of Social and Human Services	This item accepts \$670,000 in the Office of Immigrant and Refugee Affairs from the Washington State Department of Social and Human Services (DSHS). This award from DSHS is renewed annually, to support case-management-based naturalization assistance for low-income immigrant applicants. This award covers July 2020 - June 2021. Matching funding is not required, but is already budgeted from the General Fund and matching grant funds from the Seattle Housing Authority.	General Fund (00100)	\$670,000
1.3	Seattle Public Utilities	King County Flood Control District	This item authorizes Seattle Public Utilities (SPU) to accept Subregional Opportunity Funds from the King County Flood Control District in the amount of \$2,763,262 over the full life of the award to reimburse SPU for construction costs for stormwater control improvements in the Broadview neighborhood where SPU is designing and constructing a supplemental conveyance system to reduce flooding.	Drainage and Wastewater Fund (44010)	\$2,763,262
1.4	Seattle Police Department	WA State Military Department, Emergency Management Division	This item accepts Emergency Management Performance Grant (EMPG) funds from the Washington State Military Department and the U.S. Department of Homeland Security. The Emergency Management Performance Grant (EMPG) for federal fiscal year 2020 provides funding to support Seattle's Office of Emergency Management (OEM), thereby significantly strengthening the City's ability to deal with natural disasters and other emergencies.	General Fund (00100)	\$409,882

1.5	Seattle Police Department	Federal Emergency Management Agency	This funding from the Federal Emergency Management Agency supports a structural seismic retrofit of an affordable housing facility (Bremer Apartments). This project is to be completed in partnership with Capitol Hill Housing (CHH), the non-profit managing the building.	General Fund (00100)	\$3,719,417
1.6	Executive (Office of Planning and Community Development)	FTA	The Pilot Program for TOD Planning provides funding to local communities to integrate land use and transportation planning in new fixed guideway and core capacity transit project corridors. This is a grant that would primarily pay the Office of Planning and Community Development to do land use planning for the light rail line from Ballard to West Seattle. Some of the money could support Seattle Department of Transportation staff involved with this effort.	General Fund (00100)	\$1,750,000
1.7	Seattle Parks and Recreation	Washington State Department of Commerce	The purpose of this grant is to provide funding through the Community Services Block Grant under the CARES Act to support response and recovery efforts for COVID-19.	Park and Recreation Fund (10200)	\$239,393
1.8	Seattle Police Department	WA State Military Department, Emergency Management Division	This funding from the WA State Military assists state, local, and tribal emergency management activities supporting the prevention of, preparation for, and response to the ongoing COVID-19 public health emergency.	General Fund (00100)	\$140,390
Total					\$12,692,344

Section 2. Any act consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by

Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by
me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2020.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
City Budget Office		Caleb Wagenaar/3-9228

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE authorizing, in 2020, acceptance of funding from non-City sources; authorizing the Mayor or Mayor's designee to accept specified grants, private funding, and subsidized loans and to execute, deliver, and perform corresponding agreements; and ratifying and confirming certain prior acts.

Summary and background of the Legislation: This ordinance proposes the acceptance of grants and/or private funds or donations from various agencies and organizations.

During the course of a year, City departments receive grant awards or opportunities for other funding resources that are not anticipated in the Adopted Budget. The City Budget Office formally accepts these funds by compiling departmental grants acceptances and similar agreements in separate ordinances second, third, and fourth quarter of the year. The attached ordinance contains grant-related requests received for the third quarter of 2020.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☒ Yes ☐ No

Appropriation change (\$):	General Fund \$		Other \$	
	2020	2021	2020	2021
	\$0		\$0	
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	2020	2021	2020	2021
	\$6,679,689		\$6,002,655	
Positions affected:	No. of Positions		Total FTE Change	
	2020	2021	2020	2021

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No.

Is there financial cost or other impacts of *not* implementing the legislation?

The City would not have available the financial resources that the ordinance accepts.

3.d. Appropriations

☐ This legislation adds, changes, or deletes appropriations.

Appropriations Notes: Appropriations related to items in this ordinance are identified in a companion supplemental ordinance.

3.e. Revenues/Reimbursements

☒ This legislation adds, changes, or deletes revenues or reimbursements.

See Attachment A to this document for additional details.

3.f. Positions

☐ This legislation adds, changes, or deletes positions.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

Yes, this legislation impacts a number of departments' 2020 budget. The budget appropriation contained in this legislation allow departments to continue programs that for various reasons planned spending was not completed during the calendar year.

b. Is a public hearing required for this legislation?

No

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

No

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No

e. Does this legislation affect a piece of property?

No

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities?

Please see Attachment A to this document for any RSJI implications.

- g. If this legislation includes a new initiative or a major programmatic expansion:
What are the specific long-term and measurable goal(s) of the program? How will
this legislation help achieve the program's desired goal(s)?**

Please see Attachment A to this document for additional details.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE amending Ordinance 126000, which adopted the 2020 Budget, including the 2020-2025 Capital Improvement Program (CIP); changing appropriations to various departments and budget control levels, and from various funds in the Budget; adding new CIP projects and revising project allocations for certain projects in the 2020-2025 CIP; creating positions; modifying positions; and ratifying and confirming certain prior acts; all by a 3/4 vote of the City Council.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. The appropriations for the following items in the 2020 Adopted Budget are reduced from the funds shown below:

Item	Department	Fund	Budget Summary Level/ BCL Code	Amount
1.1	Department of Finance and Administrative Services	Central Waterfront Improvement Fund (35900)	Central Waterfront Improvement Program Financial Support (35900-BO-FA-WATERFRNT)	(\$2,100,000)
1.2	Finance General	General Fund (00100)	Reserves (00100-BO-FG-2QD00)	(\$762,500)
1.3	Finance General	General Fund (00100)	Reserves (00100-BO-FG-2QD00)	(\$700,000)
1.4	Finance General	General Fund (00100)	Reserves (00100-BO-FG-2QD00)	(\$30,000,000)
1.5	Finance General	General Fund (00100)	Appropriation to Special Funds (00100-BO-FG-2QA00)	(\$690,751)
1.6	Seattle Department of Transportation	General Fund (00100)	Mobility Operations (00100-BO-TR-17003)	(\$350,000)
1.7	Seattle Parks and Recreation	Park and Recreation Fund (10200)	Departmentwide Programs (10200-BO-PR-30000)	(\$78,625)

			Parks and Open Space (10200-BO-PR-40000)	(\$41,900)
			Recreation Facility Programs (10200-BO-PR-50000)	(\$1,440,000)
			Golf Programs (10200-BO-PR-60000)	(\$912,454)
			Leadership and Administration (10200-BO-PR-20000)	(\$835,553)
1.8	Law Department	General Fund (00100)	Criminal (00100-BO-LW-J1500)	(\$97,032)
Total				(\$38,008,815)

Section 2. In order to pay for necessary costs and expenses incurred or to be incurred in 2020, but for which insufficient appropriations were made due to causes that could not reasonably have been foreseen at the time of making the 2020 Budget, appropriations for the following items in the 2020 Budget are increased from the funds shown, as follows:

Item	Department	Fund	Budget Summary Level/ BCL Code	Amount
2.1	Finance and Administrative Services	Unrestricted Cumulative Reserve Fund (00164)	Central Waterfront Improvement Program Financial Support (00164-BO-FA-WATERFRNT)	\$1,787,841
2.2	Department of Neighborhoods	General Fund (00100)	Community Building (00100-BO-DN-I3300)	\$120,000
2.3	Finance General	Unrestricted Cumulative Reserve Fund (00164)	Appropriation to Special Funds (00164-BO-FG-2QA00)	\$2,124,263
2.4	Finance General	Unrestricted Cumulative Reserve Fund (00164)	Appropriation to Special Funds (00164-BO-FG-2QA00)	\$312,159
2.5	Human Services Department	General Fund (00100)	Promoting Public Health (00100-BO-HS-H7000)	\$150,000
2.6	Human Services Department	General Fund (00100)	Preparing Youth for Success (00100-BO-HS-H2000)	\$250,000

2.7	Executive (Office of Housing)	Low Income Housing Fund (16400)	Multifamily Housing (16400-BO-HU-3000)	\$715,000
2.8	Executive (Office of Housing)	Office of Housing Fund (16600)	Leadership and Administration (16600-BO-HU-1000)	\$200,000
2.9	Seattle Center	General Fund (00100)	Campus (00100-BO-SC-60000)	\$75,000
2.10	Seattle Department of Transportation	Transportation Fund (13000)	Maintenance Operations (13000-BO-TR-17005)	\$800,000
2.11	Seattle Fire Department	General Fund (00100)	Operations (00100-BO-FD-F3000)	\$543,288
2.12	Seattle Information Technology Department	Information Technology Fund (50410)	Leadership and Administration (50410-BO-IT-D0100)	\$3,720,252
2.13	Seattle Information Technology Department	Information Technology Fund (50410)	Leadership and Administration (50410-BO-IT-D0100)	\$4,075,557
2.14	Seattle Parks and Recreation	Seattle Park District Fund (19710)	Leadership and Administration (19710-BO-PR-20000)	\$779,602
2.15	Seattle Parks and Recreation	General Fund (00100)	Cost Center Maintenance and Repairs (00100-BO-PR-10000)	\$300,000
2.16	Seattle Department of Human Resources	Industrial Insurance Fund (10110)	Industrial Insurance Services (10110-BO-HR-INDINS)	\$1,356,553
2.17	Seattle Department of Human Resources	General Fund (00100)	HR Services (00100-BO-HR-N6000)	\$105,751
2.18	Executive (City Budget Office)	General Fund (00100)	City Budget Office (00100-BO-CB-CZ000)	\$60,000
2.19	Finance General	General Fund (00100)	Reserves (00100-BO-FG-2QD00)	\$13,660,398
Total				\$31,135,664

Section 3. In order to pay for necessary costs and expenses incurred or to be incurred in 2020, but for which insufficient appropriations were made due to causes that could not reasonably have been foreseen at the time of making the 2020 Budget, appropriations for the following items in the 2020 Budget, which are backed by

revenues, are increased from the funds shown, as follows:

Item	Department	Fund	Budget Summary Level/ BCL Code	Amount
3.1	Department of Finance and Administrative Services	Finance and Administrative Services Fund (50300)	Facilities Services (50300-BO-FA-FACILITY)	\$120,000
3.2	Department of Finance and Administrative Services	Finance and Administrative Services Fund (50300)	Facilities Services (50300-BO-FA-FACILITY)	\$4,300,000
3.3	Finance General	General Fund (00100)	Reserves (00100-BO-FG-2QD00)	\$1,356,553
3.4	Seattle Information Technology Department	Information Technology Fund (50410)	Technology Infrastructure (50410-BO-IT-D0300)	\$400,000
3.5	Seattle Information Technology Department	Information Technology Fund (50410)	Leadership and Administration (50410-BO-IT-D0100)	\$3,925,819
3.6	Seattle Police Department	General Fund (00100)	Patrol Operations (00100-BO-SP-P1800)	\$618,000
3.7	Seattle Police Department	General Fund (00100)	Special Operations (00100-BO-SP-P3400)	\$150,000
3.8	Seattle Police Department	General Fund (00100)	Special Operations (00100-BO-SP-P3400)	\$40,096
3.9	Seattle Police Department	General Fund (00100)	Criminal Investigations (00100-BO-SP-P7000)	\$113,000
3.10	Seattle Police Department	General Fund (00100)	Criminal Investigations (00100-BO-SP-P7000)	\$58,000
3.11	Seattle Police Department	General Fund (00100)	Criminal Investigations (00100-BO-SP-P7000)	\$62,000
3.12	Seattle Police Department	General Fund (00100)	Criminal Investigations (00100-BO-SP-P7000)	\$11,000
3.13	Seattle Police Department	General Fund (00100)	Criminal Investigations (00100-BO-SP-P7000)	\$37,000
3.14	Seattle Police Department	General Fund (00100)	Criminal Investigations (00100-BO-SP-P7000)	\$6,247
3.15	Seattle Police Department	General Fund (00100)	Criminal Investigations (00100-BO-SP-P7000)	\$15,000
3.16	Seattle Police Department	General Fund (00100)	Criminal Investigations (00100-BO-SP-P7000)	\$16,000

3.17	Seattle Police Department	General Fund (00100)	Criminal Investigations (00100-BO-SP-P7000)	\$62,000
3.18	Seattle Police Department	General Fund (00100)	Criminal Investigations (00100-BO-SP-P7000)	\$21,500
3.19	Seattle Police Department	General Fund (00100)	Criminal Investigations (00100-BO-SP-P7000)	\$19,412
3.20	Seattle Police Department	General Fund (00100)	Special Operations (00100-BO-SP-P3400)	\$42,064
3.21	Seattle Police Department	General Fund (00100)	Special Operations (00100-BO-SP-P3400)	\$355,000
3.22	Seattle Police Department	General Fund (00100)	Special Operations (00100-BO-SP-P3400)	\$450,000
3.23	Law Department	General Fund (00100)	Civil (00100-BO-LW-J1300)	\$15,000
3.24	Law Department	General Fund (00100)	Civil (00100-BO-LW-J1300)	\$392,019
Total				\$12,585,710

Section 4. Contingent upon the execution of the grant or other funding agreement authorized in Section 1 of the ordinance introduced as Council Bill 119909, the appropriations for the following items in the 2020 Budget are increased from the funds shown, as follows:

Item	Department	Fund	Budget Summary Level/ BCL Code	Amount
4.1	Human Services Department	Human Services Fund (16200)	Addressing Homelessness (16200-BO-HS-H3000)	\$3,000,000
4.2	Executive (Office of Immigrant and Refugee Affairs)	General Fund (00100)	Office of Immigrant and Refugee Affairs (00100-BO-IA-X1N00)	\$670,000
4.3	Executive (Office of Planning and Community Development)	General Fund (00100)	Planning and Community Development (00100-BO-PC-X2P00)	\$1,750,000
4.4	Seattle Parks and Recreation	Park And Recreation Fund (10200)	Seattle Conservation Corps (10200-BO-PR-70000)	\$239,393
4.5	Seattle Police Department	General Fund (00100)	Chief of Police (00100-BO-SP-P1000)	\$140,390
4.6	Seattle Police Department	General Fund (00100)	Chief of Police (00100-BO-SP-P1000)	\$409,882

4.7	Seattle Police Department	General Fund (00100)	Chief of Police (00100-BO-SP-P1000)	\$3,719,417
Total				\$9,929,082

Unspent funds so appropriated shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance.

Section 5. The appropriations for the following items in the 2020 Adopted Budget are modified, as follows:

Item	Department	Fund	Budget Summary Level/ BCL Code	Additional Budget Appropriation
5.1	Executive (Office of Planning and Community Development)	General Fund (00100)	Planning and Community Development (00100-BO-PC-X2P00)	(\$250,000)

		Seattle Park District Fund (19710)	Building For The Future (19710-BC-PR-20000)	(\$2,800,000)	Smith Cove Park Development (MC-PR-21005)	((\$5,442)) <u>\$2,642</u>
Total				(\$19,732,337)		

Section 7. To pay for necessary capital costs and expenses incurred or to be incurred, but for which insufficient appropriations were made due to causes that could not reasonably have been foreseen at the time the 2020 Budget was adopted, appropriations in the 2020 Adopted Budget and project allocations in the 2020-2025 Adopted Capital Improvement Program are increased as follows:

Item	Department	Fund	Budget Summary Level/BCL Code	Additional Budget Appropriation	CIP Project Name	Allocation (in \$000's)
7.1	Department of Finance and Administrative Services	REET I Capital Fund (30010)	Asset Preservation - Schedule 1 Facilities (30010-BC-FA-APSCH1FAC)	\$340,000	Asset Preservation - Schedule 1 Facilities (MC-FA-APSCH1FAC)	((\$3,604)) <u>\$3,941</u>

			Asset Preservation - Schedule 2 Facilities (30010-BC-FA-APSCH2FAC)	\$340,000	Asset Preservation - Schedule 2 Facilities (MC-FA-APSCH2FAC)	(((\$4,291)) <u>\$4,631</u>
7.2	Seattle Department of Transportation	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	\$363,500	Transit Corridor Improvements (MC-TR-C029)	(((\$7,035)) <u>\$7,399</u>
7.3	Seattle Department of Transportation	General Fund (00100)	Mobility-Capital (00100-BC-TR-19003)	\$350,000	Neighborhood Traffic Control Program (MC-TR-C019)	(((\$0)) <u>\$350</u>
7.4	Seattle Public Library	2019 Library Levy Fund (18200)	Capital Improvements (18200-BC-PL-B3000)	\$511,000	Library Major Maintenance (MC-PL-B3011)	(((\$4,190)) <u>\$4,701</u>
Net Change				\$1,904,500		

Allocation modifications for the Seattle Department of Transportation in this section shall operate for the purposes of increasing or decreasing the base for the limit imposed by subsection 4(c) of Ordinance 126000.

Section 8. Appropriations in the 2020 Adopted Budget and project allocations in the 2020-2025 Adopted

Capital Improvement Program, which are backed by revenues, are modified as follows:

Item	Department	Fund	Budget Summary Level/ BCL Code	BCL Appropriation Change	CIP Project Name	Allocation (in \$000's)
8.1	Seattle Center	Unrestricted Cumulative Reserve Fund (00164)	Monorail Rehabilitation (00164-BC-SC-S9403)	\$169,421	Monorail Improvements (MC-SC-S9403)	(((\$2,806)) <u>2,976</u>
8.2	Seattle Department of Transportation	Transportation Fund (13000)	Mobility-Capital (13000-BC-TR-19003)	\$5,100,000	Delridge Way SW - RapidRide H Line (MC-TR-C042)	(((\$10,535)) <u>15,635</u>
Total				\$5,269,421		

Section 9. Appropriations in the 2020 Adopted Budget and project allocations in the 2020-2025 Adopted Capital Improvement Program are modified as follows:

Item	Department	Fund	Budget Summary Level/ BCL Code	Additional Budget Appropriation	CIP Project Name	Allocation (in \$000's)
9.1	Department of Finance and Administrative Services	REET I Capital Fund (30010)	Public Safety Facilities Fire (30010-BC-FA-PSFACFIRE)	(\$327,896)	Fire Station 5 (MC-FA-FS5)	(((\$1,037)) <u>\$709</u>
	Seattle Department of Transportation	REET I Capital Fund (30010)	Mobility-Capital (30010-BC-TR-19003)	\$327,896	King Street Station Tenant Improvements (MC-TR-C049)	(((-\$324)) <u>\$4</u>

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
City Budget Office	Caleb Wagenaar (3-9228)	Ben Noble (4-8160)

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE amending Ordinance 126000, which adopted the 2020 Budget, including the 2020-2025 Capital Improvement Program (CIP); changing appropriations to various departments and budget control levels, and from various funds in the Budget; adding new CIP projects and revising project allocations for certain projects in the 2020-2025 CIP; abrogating positions; modifying positions; and ratifying and confirming certain prior acts; all by a 3/4 vote of the City Council.

Summary and background of the Legislation: This Council Bill proposes several adjustments to the 2020 Adopted Budget.

The City Budget Office compiles departmental requests for spending adjustments to the Adopted Budget into a quarterly Supplemental Ordinance for review and approval by the City Council. These quarterly bills accomplish the following:

- Adjusts appropriation authority to Budget Control Levels approved in the Adopted Budget or subsequent legislation;
- Appropriates funding backed by new revenue sources, such as grants and private donations;
- Adjusts the Adopted Capital Improvement Program;
- Makes changes to departments position authority; and
- Adjusts for unanticipated actual and projected revenues.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? X Yes No

Note: Please see Attachment A to this document.

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? X Yes No

Appropriation change (\$):	General Fund \$		Other \$	
	Operating 2020	Capital 2020	Operating 2020	Capital 2020
	\$193,734	\$100,000	\$12,876,407	(\$10,955,914)

Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	Operating 2020	Capital 2020	Operating 2020	Capital 2020
	\$0	\$0	\$0	\$0
Positions affected:	No. of Positions		Total FTE Change	
	2020	2021	2020	2021
	4.0		4.0	

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

Yes, some items in this ordinance represent costs increases to departments in order for them to accomplish the desired objectives as stated in Attachment A to this document.

Is there financial cost or other impacts of *not* implementing the legislation?

The same objectives could not be achieved without this legislation.

3.d. Appropriations

X This legislation adds, changes, or deletes appropriations.

See Attachment A to this document

3.e. Revenues/Reimbursements

 This legislation adds, changes, or deletes revenues or reimbursements.

A companion bill accepts the new revenues appropriated by this bill.

3.f. Positions

X This legislation adds, changes, or deletes positions.

See Attachment A to this document

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

Yes, this legislation impacts a number of departments' 2020 budgets. The budget appropriation contained in this legislation allow departments to continue programs that for various reasons planned spending was not completed during the calendar year.

b. Is a public hearing required for this legislation?

No

- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No
- e. **Does this legislation affect a piece of property?**
No
- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities?**
Please see Attachment A to this document for any RSJI implications.
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**
Please see Attachment A to this document.

List attachments/exhibits below:

Summary Attachment A – 2020 Third Quarter Supplemental Ordinance Summary Detail Table

2020 Third Quarter Supplemental Ordinance Summary Detail Table

Item #	Title	Description	Amount/FTE
Section 1 – Appropriation Decreases – Operating Budgets			
1.1	Abandon Incorrect Appropriation for City’s LID Assessment Payments (Department of Finance and Administrative Services)	This amendment decreases the appropriation to the Central Waterfront Improvement Program Financial Support BSL in the Central Waterfront Fund (35900) by \$2.1 million. This amendment corrects an error adopted during the 2020 budget process, when this appropriation was incorrectly added to the Central Waterfront Fund for the City’s portion of the Waterfront LID Assessment Payments. This change removes this appropriation and corresponding amendments in FAS and Finance General adds the appropriation in the correct fund.	(\$2,100,000)
1.2	Reduce High Barrier Reserve (Finance General)	This item decreases appropriations in the Finance General department Reserve Budget Summary Level (00100-BO-FG-2QD00) by \$762,500. Appropriations were added during the 2020 Budget for High Barrier Workgroup projects, including \$400,000 for operating costs associated with the West Wing of the King County Jail, \$212,000 for a rapid reentry pilot and \$149,500 for a case conferencing pilot. The facility will not be completed this year and operating costs are not expected to be incurred until mid-2021. The reentry and case conferencing pilots were not initiated given dynamic and evolving criminal justice events and issues.	(\$762,500)
1.3	Remove Seattle Storm Relocation Reserve (Finance General)	This item reduces appropriations in the Reserves Budget Summary Level of Finance General (00100-BO-FG-2QD00) by \$700,000. The 2020 Adopted Budget included \$2.6 million in Finance General to compensate the Seattle Storm for their relocation while construction on the Arena at Seattle Center is being completed. In 2020, only \$1.9 million of this total is needed.	(\$700,000)
1.4	Abandon Appropriations from Mercer Megablock Reserve (Finance General)	This item reduces appropriations by \$30 million in the Reserves Budget Summary Level of Finance General (00100-BO-FG-2QD00). These flexible resources are needed to sustain critical City services in the 2020 Revised Budget and 2021 Proposed Budget.	(\$30,000,000)

Item #	Title	Description	Amount/FTE
1.5	Reduce Finance General Federal Coronavirus Relief Fund Appropriation (Finance General)	This reduces appropriations from the Finance General Appropriations to Special Funds Budget Summary Level (00100-BO-FG-2QA00). These are Federal Coronavirus Relief Funds which were appropriated to Finance General temporarily in Council Bill 119824. These funds will be used to support identified departmental activities, subject to Federal requirements prior to funding expiration at the end of 2020. This is necessary to facilitate compliance with COVID-19-related public health measures.	(\$690,751)
1.6	Emergent Mobility Initiatives: Transfer General Fund to Neighborhood Traffic Control (Seattle Department of Transportation)	This item decreases appropriation authority in the amount of \$350,000 from the Mobility Operations BSL (with offsetting increase to the Mobility Capital BSL). This is necessary as the Council Budget Action appropriating these funds (SDOT 23-B-1) was coded to the incorrect project. This change is a technical fix to restore funding to the correct project. The funding, which comes from Transportation Network Company (TNC) tax revenues in the General Fund, is for the Home Zone Pilot program. This is the Operating side of the transfer. The other side of this action is an appropriation increase in the Mobility Capital BSL and the Neighborhood Traffic Control Program capital project (MC-TR-C019). The Change Request for the Capital side is SDOT-CT23.	(\$350,000)
1.7	2020 Park Fund Savings – Rd 2 (Seattle Parks and Recreation)	This item decreases appropriation authority by \$3,308,532 in Seattle Parks and Recreation's operating fund (10200) in the following BSL's: (\$1,440,000) in Recreation Facility Programs (BO-PR-50000); (\$912,454) in Golf Programs (BO-PR-60000); (\$853,553) in Leadership and Administration (BO-PR-20000); (\$78,625) in Departmentwide Programs (BO-PR-30000); and (\$41,900) in Parks and Open Space (BO-PR-40000). Seattle Parks and Recreation is estimating a \$19.2 million revenue loss due to COVID-19 in the department's operating fund (10200). As such, this item reduces expenditures in SPR lines of business most impacted by closures and includes recognition of vacancy savings from a citywide hiring freeze, temporary labor savings, and other non-labor savings to partially address the revenue shortfall.	(\$3,308,532)

Item #	Title	Description	Amount/FTE
1.8	Abandon 2017-2018 and 2018-2019 Grant Appropriations (Law Department)	This item decreases appropriation authority by \$97,032 in the Criminal BCL. This authority is unused authority related to two years of Washington State Traffic Safety grants. \$15,532 of authority is excess appropriation because the employee working on this program was not enrolled in the pension program during the grant period so it could not be billed to the state. The remainder is related to a PeopleSoft calculation error that resulted in the carryforward of authority that was no longer available. None of this authority is backed by revenue.	(\$97,032)
Section 2 – Appropriation Increases – Operating Budgets			
2.1	Appropriate City's LID Assessment Payments (Finance and Administrative Services)	This amendment increases the appropriation from the Cumulative Reserve Subfund – Unrestricted (00164) to the Central Waterfront Improvement Program Financial Support BSL by \$1,787,841 (00164-BO-FA-WATERFRNT). This amendment correctly appropriates the funds needed to pay the City's portion of the Waterfront LID Assessments.	\$1,787,841
2.2	Space to Host Community Based Organizations (Department of Neighborhoods)	This item increases appropriation authority by \$120,000 in the Community Building BSL. Seattle King County Black Lives Matter in coordination with the City of Seattle and Seattle King County Public Health will lease a space for the following phased purposes. 1.Direct services as outlined in their proposal 2.Service coordination location 3.Potential night shelter/day resource and hygiene center.	\$120,000
2.3	Transfer CRS-U to Parks Fund (Finance General)	This item increases Cumulative Reserve Subfund appropriations in the Appropriations to Special Fund Budget Summary Level (00164-BO-FG-2QA00) by \$2,124,263. These funds will be transferred to the Parks and Recreation Fund in support of the Woodland Park Zoo Night Exhibit Renovation CIP project. This item is a technical transfer funding swap; the cost of the project remains the same. The corresponding third quarter supplemental 2020 budget change is in Seattle Parks and Recreation Capital program.	\$2,124,263

Item #	Title	Description	Amount/FTE
2.4	Correcting Appropriation from CBA FAS 6-1-A – Reducing City LID Assessment Payments (Finance General)	<p>This item increases Cumulative Reserve Subfund appropriations in the Appropriations to Special Fund Budget Summary Level (00164-BO-FG-2QA00) by \$312,159 and transfers resources to the General Fund.</p> <p>This is a technical adjustment to Council Budget Action FAS 6-B-1 which incorrectly appropriated and amended the City’s portion of the Waterfront LID Assessment payment.</p>	\$312,159
2.5	Flu Vaccine Funding (Human Services Department)	<p>This item increases appropriation authority by \$150,000 in the Promoting Public Health BSL. These federal Coronavirus Relief Funds will be used to support King County Public Health with a Flu Vaccination effort to ensure local hospitals have adequate capacity to treat COVID-19 patients. These funds must be used before the end of 2020 and are for restricted purposes. The appropriations are being reduced from Finance General and transferred to various other departments in the third quarter supplemental. This expense is necessary to facilitate compliance with COVID-19-related public health measures.</p>	\$150,000
2.6	Reentry Workgroup Strategies (Human Services Department)	<p>This item increases appropriation authority by \$250,000 to the Preparing Youth for Success BSL in the Human Services Department for the Reentry Workgroup Strategies project. This funding was transferred to HSD from OCR in 2019. It was not spent in 2019, and is needed in 2020 to implement the project. Following the recommendations of the City’s Reentry Workgroup, this funding will be used for a pilot program to resettle Indigenous people to their communities after incarceration.</p>	\$250,000
2.7	O&M Subsidy Authority for New Projects (Executive (Office of Housing))	<p>This item increases authority in the Multifamily Housing BSL by \$715,000 to allow OH to make O&M subsidy payments to new housing projects that have come online in 2020.</p>	\$715,000

Item #	Title	Description	Amount/FTE
2.8	Authority for Home & Hope Contract Fund Swap (Executive (Office of Housing))	This item increases authority by \$200,000 in the Leadership & Administration BSL to allow for OH administrative fund balance to cover the carryforward portion of the Enterprise Home & Hope contract, rather than the originally intended General Fund.	\$200,000
2.9	CRF Building Reopening (Seattle Center)	This item adds \$75,000 General Fund appropriation to the Campus BSL to support changes required to ensure safe operations at the Seattle Center campus. These funds must be used before the end of 2020 and are for restricted purposes. The appropriations are being reduced from Finance General and transferred to various other departments in the third quarter supplemental. This expense is necessary to facilitate compliance with COVID-19-related public health measures.	\$75,000
2.10	Correction to 2020 Reduction – Slurry Sealing (Seattle Department of Transportation)	This item corrects an error in SDOT 2020 Reduction 119, where \$800,000 of appropriation was reduced from the Transportation Fund (13000). Sufficient budget is not available to support this reduction. This item restores the appropriation and an offsetting reduction will be managed administratively.	\$800,000
2.11	West Seattle Bridge Closure Response Funding (Seattle Fire Department)	This item increases appropriation authority by \$543,288 in the Operations BSL. The funds will be used to support the resource enhancements added in the West Seattle community to provide fire, medical, and other services. The resources have been added to mitigate the impacts of the West Seattle Bridge closure. The City is repurposing funds from the Seattle IT Payroll Integration project.	\$543,288
2.12	2019 ITD True Up (Seattle Information Technology Department)	This item increases appropriation authority by \$3,720,252 in the Leadership & Administration BSL. Seattle IT has performed a rate reconciliation of the 2019 budgeted shared services operating costs comparing revenues collected to actual expenditures. Seattle IT will rebate the amount that remains unspent from the 2019 revenue collection. This item provides Seattle IT with the needed legal appropriation to refund savings to departments from the 2019 rate reconciliation.	\$3,720,252

Item #	Title	Description	Amount/FTE
2.13	Transfer General Fund to Finance General(Seattle Information Technology Department)	This item increases appropriation authority by \$4,075,557 in the Leadership & Administration BSL. It adds one-time appropriation authority to BO-IT-D0100 Leadership and Administration for Seattle IT to transfer \$4,075,557 to Finance General. This total is the entire amount of General Fund being transferred due to CIP abandonment in the Third Quarter Supplemental.	\$4,075,557
2.14	Park District Revenue Reconciliation (Seattle Parks and Recreation)	This item increases appropriation authority by \$779,602 within the Seattle Park District Fund (19710) to transfer cash to the Park and Recreation Fund (10200) within the Leadership and Administration BSL (BO-PR-20000). In 2017 a final revenue transfer from the Park District Fund to the now closed Parks Capital Fund (33140) was inadvertently missed by the Citywide Accounting team, thereby creating a negative fund balance in the Parks Capital Fund. In 2018, as part of the conversion to Summit 9.2, the Parks Capital Fund was consolidated into the Park Fund, creating a fund balance liability in the Park and Recreation Fund. This fund transfer is necessary to correct the fund balance in the Park and Recreation Fund (10200) by transferring revenue from the Seattle Park District Fund (19710).	\$779,602
2.15	CRF Reopening Costs (Seattle Parks and Recreation)	This item increases appropriation authority by \$300,000 in the General Fund (00100). These are Federal Coronavirus Relief Funds which were appropriated to Finance General temporarily in Council Bill 119824. These funds must be used before the end of 2020 and are for restricted purposes. The appropriations are being reduced from Finance General and transferred to various other departments in the third quarter supplemental. This expense is necessary to facilitate compliance with COVID-19-related public health measures.	\$300,000

Item #	Title	Description	Amount/FTE
2.16	Industrial Insurance Pension Payout (Seattle Department of Human Resources)	This item increases appropriation authority by \$1,356,553 in the Industrial Insurance Services BSL (Fund 10110). These funds will be transferred to the General Fund (Fund 00100) and combined with an existing Finance General reserve amount of \$350,000 to pay two workers' compensation pension payouts as received from the Washington State Department of Labor & Industries. Pension claim payouts are infrequent and often large, so are not budgeted on an annual basis in departmental budgets. Rather, reserves are kept in Finance General and the Industrial Insurance (Workers Compensation) Fund and are appropriated via supplemental as necessary.	\$1,356,553
2.17	Federal CRF Bill – Rethink Benefits (Seattle Department of Human Resources)	This item increases appropriation authority by \$105,751 to the BO-HR-N6000 HR Services BSL. This expense is necessary to facilitate compliance with COVID-19-related public health measures to allow the Seattle Department of Human Resources to contract with Rethink Services in 2020 and provide City employees with access to family support services for tele-work and remote learning during the COVID-19 pandemic. These funds must be used before the end of 2020 and are for restricted purposes. The appropriations are being reduced from Finance General and transferred to various other departments in the third quarter supplemental.	\$105,751
2.18	Federal Coronavirus Relief Fund Staff Support for CBO (Executive (City Budget Office))	This item increases appropriations in the City Budget Office Budget Summary Level (00100-BO-CB-CZ000) to fund temporary staff support using the Federal Coronavirus Relief funding. These funds must be used before the end of 2020 and are for restricted purposes. The appropriations are being reduced from Finance General and transferred to various other departments in the third quarter supplemental. This expense is necessary to facilitate compliance with COVID-19-related public health measures.	\$60,000
2.19	Sweetened Beverage Tax 2019 Balance Transfer	This item increases appropriations in the Finance General department Reserve Budget Summary Level (00100-BO-FG-2QD00) by \$13,660,398 to allow for the transfer of Sweetened Beverage Tax from the General Fund to the Sweetened Beverage Tax Fund (00155). This cash transfer was authorized in this amount in Ordinance 126063, but appropriation authority is also needed to execute the transfer.	\$13,660,398

Item #	Title	Description	Amount/FTE
Section 3 – Appropriation Increases – Operating Budgets – Revenue Backed			
3.1	DON BLM Building Lease Additional Appropriation Request (Department of Finance and Administrative Services)	This request increases appropriation authority in FAS Facility Services (BO-FA-FACILITY) by \$120,000 for new schedule 3 building lease executed by Department of Neighborhoods for a Black Lives Matter facility. Seattle King County Black Lives Matter in coordination with the City of Seattle and Seattle King County Public Health will lease a space for the following phased purposes. 1.Direct services as outlined in their proposal 2.Service coordination location 3.Potential night shelter/day resource and hygiene center. This lease will continue into 2021.	\$120,000
3.2	FAS Coronavirus Relief Fund (CRF) Allocation (Department of Finance and Administrative Services)	This item increases appropriation by \$4,300,000 in the Facilities Services (BO-FA-FACILITY) BSL in the Department of Finance and Administration. This increase is necessary to facilitate compliance with COVID-19-related public health measures, including personal protective equipment (PPE), protective screens and other supplies related to the City's response to the COVID-19 crisis and safe operating plans. Funding for this is provided by Coronavirus Relief Funds currently held in the General Fund, which will be transferred to the Finance and Administrative Services Fund.	\$4,300,000
3.3	Increase Workers Compensation Appropriations (Finance General)	This item increases appropriations in the Reserve Budget Summary Level of Finance General (00100-BO-FG-2QD00) by \$1,356,553. The appropriations are backed by funds being transferred into the General Fund from the Industrial Insurance Fund (10110). Combined with the existing Finance General budget of \$350,000, these funds are used for two workers' compensation pension payouts as received from the Washington State Department of Labor & Industries. Pension claim payouts are infrequent and often large, so are not budgeted on an annual basis in departmental budgets. Rather, reserves are kept in Finance General and the Industrial Insurance (Workers Compensation) Fund and are appropriated via supplemental as necessary. The appropriation out of the Industrial Insurance Fund for the transfer can be found in Supplemental item 2.16.	\$1,356,553

Item #	Title	Description	Amount/FTE
3.4	Puget Sound Emergency Radio Network Support Add (Seattle Information Technology Department)	This item increases appropriation authority by \$400,000 in the Technology Infrastructure BSL. This request is necessary to provide ongoing Seattle IT support to the Puget Sound Emergency Radio Network (PSERN) project. Without this supplemental, the Seattle IT will not have the appropriation authority to pursue this effort through the end of 2020. This item does not request City revenues as Seattle IT's PSERN-related costs are directly billed to King County.	\$400,000
3.5	Additional CRF for Computers for Teleworkers (Seattle Information Technology Department)	This item increases appropriation authority by \$3,925,819 in the Leadership & Administration BSL. This request is necessary to purchase and deploy devices for telework needs. Finance General will transfer \$2,512,734 to Seattle IT to fund a portion of the device deployment. This expense is necessary to facilitate compliance with COVID-19-related public health measures.	\$3,925,819
3.6	Seattle Housing Authority (SHA) Agreement for Community Police Team (Seattle Police Department)	This item increases appropriation authority by \$618,000 in the Patrol Operations BSL from Seattle Housing Authority (SHA). This item provides funding for salary and benefits for four existing Police-Officer Patrol positions that provide police services to selected public housing projects managed by SHA. The proactive police services provided under this contract are vitally important to public safety and the quality of life enjoyed by SHA residents and nearby Seattle residents and businesses. The term of this contract runs from January 1, 2020 to December 31, 2020. The positions supported by these resources will sunset if funding is discontinued and alternate sources cannot be identified.	\$618,000
3.7	MOU for Services Provided to SODO Business Improvement Area (Seattle Police Department)	This item increases appropriation authority by \$150,000 in the Special Operations BSL from the SODO Business Improvement Area. This item provides funding to enhance police presence and to help further provide for safety and protection of the public, businesses, and property owners within the SODO BIA boundaries. The term of this contract runs from January 1, 2020 to December 31, 2020. There are no matching or capital improvement projects associated with this item.	\$150,000

Item #	Title	Description	Amount/FTE
3.8	MOU for Services Provided to Sound Transit (Seattle Police Department)	This item increases appropriation authority by \$40,096 in the Special Operations BSL from Sound Transit. This item provides funding for supplementary traffic control near the Capitol Hill Light Rail Station. Additional traffic control support is necessary on 3 specific weekends as a result of service disruption caused by construction in the DSTT for the “tie-in” East Link Project tracks. The term of this contract runs concurrently with the event: January 4, 2020 – March 15, 2020. There are no matching or capital improvement projects associated with this item.	\$40,096
3.9	Registered Sex Offender and Kidnapping Offender Address Verification Program (Seattle Police Department)	This item increases appropriation authority by \$113,000 in the Criminal Investigations BSL from the King County Sheriff’s Officer under the Registered Sex Offender and Kidnapping Offender Address Verification Program. This funding will be used to verify the address and residency of all registered sex and kidnapping offenders under RCW 9A.44.130; investigate failure to register cases and score unrated offenders; improve public safety by establishing a greater presence and emphasis in Seattle neighborhoods; and increase immediate and direct contact with registered sex and kidnapping offenders in their jurisdiction. The contract term runs from July 1, 2020 to June 30, 2021. There are no matching or capital improvement projects associated with this item.	\$113,000
3.10	Drug Enforcement Administration Task Force (Seattle Police Department)	This item increases appropriation authority by \$58,000 in the Criminal Investigations BSL from the U.S. Department of Justice. This funding reimburses SPD for costs of detective overtime associated with the investigation of drug cases. The purpose of this work is to disrupt and interdict the flow of illegal drugs into the City. There are no matching requirements or capital improvement projects associated with this item.	\$58,000

Item #	Title	Description	Amount/FTE
3.11	Safe Streets Task Force (Seattle Police Department)	This item increases appropriation authority by \$62,000 in the Criminal Investigations BSL from the Federal Bureau of Investigation (FBI). This funding reimburses SPD for overtime spent while working with the FBI to identify, disrupt, and dismantle existing and emerging violent criminal enterprises and gangs in King County, as well as other individuals and groups whose criminal activity negatively impacts the Puget Sound area. There are no matching requirements or capital improvement projects associated with this item.	\$62,000
3.12	Puget Sound Joint Terrorism Task Force (Seattle Police Department)	This item increases appropriation authority by \$11,000 in the Criminal Investigations BSL from the Federal Bureau of Investigation (FBI). This funding reimburses SPD for overtime associated with working with the FBI on international and domestic terrorism investigations. There are no matching requirements or capital improvement projects associated with this item.	\$11,000
3.13	Pacific Northwest Fugitive Apprehension Task Force (Seattle Police Department)	This item increases appropriation authority by \$37,000 in the Criminal Investigations BSL from the U.S. Department of Justice. This funding reimburses SPD for costs of overtime associated with apprehending violent fugitives. There are no matching requirements or capital improvement projects associated with this item.	\$37,000
3.14	Pacific Northwest Innocence Lost Task Force (Seattle Police Department)	This item increases appropriation authority by \$6,247 in the Criminal Investigations BSL from the Federal Bureau of Investigation. This funding reimburses SPD for costs of overtime spent pursuing cases of domestic sex trafficking of children in the United States. There are no matching requirements or capital improvement projects associated with this item.	\$6,247
3.15	ATF Puget Sound Regional Gun Task Force (Seattle Police Department)	This item increases appropriation authority by \$15,000 in the Criminal Investigations BSL from the U.S. Department of Justice. This funding reimburses SPD for costs of detective overtime spent in connection with the Puget Sound Regional Gun Task Force. The Regional Gun Task Force is focused on increasing the ability of law enforcement to trace shell casings and firearms used in crimes and thus identify shooters and take them off the streets. There are no matching requirements or capital improvement projects associated with this item.	\$15,000

Item #	Title	Description	Amount/FTE
3.16	Seattle Prosecutor Murder (SEPROM) Task Force (Seattle Police Department)	This item increases appropriation authority by \$16,000 in Criminal Investigations BSL from the Federal Bureau of Investigation. This funding reimburses SPD for overtime spent while investigating the homicide of Assistant U.S. Attorney Thomas Wales. This task force includes FBI agents, SPD detectives, and prosecutors from both the King County Prosecutor's Office and the Department of Justice. There are no matching requirements or capital improvement projects associated with this item.	\$16,000
3.17	Organized Crime Drug Enforcement Task Force (Seattle Police Department)	This item increases appropriation authority by \$62,000 in the Criminal Investigations BSL from the Drug Enforcement Agency. This funding reimburses SPD for costs spent in connection with Organized Crime Drug Enforcement Task Force. This task force works to mount a comprehensive attack and reduce the supply of illegal drugs in the United States and diminish the violence and other criminal activity associated with the drug trade. There are no matching requirements or capital improvement projects associated with this item.	\$62,000
3.18	Puget Sound Regional Violent Crimes Task Force (Seattle Police Department)	This item increases appropriation authority by \$21,500 in the Criminal Investigations BSL from the Federal Bureau of Investigation (FBI). This funding reimburses SPD for costs spent in connection with the Puget Sound Regional Violent Crimes Task Force. There are no matching requirements or capital improvement projects associated with this item.	\$21,500
3.19	Electronic Crimes Task Force (Seattle Police Department)	This item increases appropriation authority by \$19,412 in the Criminal Investigations BSL from the U.S. Secret Service. This funding reimburses SPD for costs spent in connection with the Electronic Crimes Task Force. This task force includes agents from the U.S. Secret Service, SPD detectives and other local law enforcement agencies. There are no matching requirements or capital improvement projects associated with this item.	\$19,412

Item #	Title	Description	Amount/FTE
3.20	DNR Reimbursement for “Can of Worms” Removal (Seattle Police Department)	This item increases appropriation authority by \$42,064 in the Special Operations BSL. In February 2020, SPD Harbor Patrol paid for the contracted removal of a derelict boat known as the “Can of Worms” from Lake Washington near Adams Beach. Through the Derelict Vessel Removal Program, the WA Department of Natural Resources has reimbursed SPD for the cost of the removal.	\$42,064
3.21	Interagency Agreement for West Seattle Bridge (Seattle Police Department)	This item increases appropriation authority by \$355,000 in the Special Operations BSL from the Seattle Department of Transportation (SDOT). This item provides funding for supplementary traffic enforcement of the Lower Spokane Street bridge as SDOT works to implement a long-term traffic control plan during the bridge closure. The term of this contract runs from April 18, 2020 to March 31, 2021. There are no matching or capital improvement projects associated with this item.	\$355,000
3.22	MOU for Services Provided to Downtown Business Improvement Area (DBIA) (Seattle Police Department)	This item increases appropriation authority by \$450,000 in the Special Operations BSL from the Downtown Business Improvement Area (DBIA). This item provides funding to enhance police presence and to help further provide for safety and protection of the public, businesses, and property owners within the DBIA boundaries. The term of this contract runs from July 1, 2020 to June 30, 2021. There are no matching or capital improvement projects associated with this item.	\$450,000
3.23	Appropriation for Code Reviser MOA Increase (Law Department)	This item increases appropriation authority by \$15,000 in the Civil BCL. This appropriation increase is revenue backed by funding provided by the Legislative Department (via MOA) and supports the creation of a Code Reviser in the City Attorney’s Office.	\$15,000
3.24	Appropriation for East Waterway MOA (Law Department)	This item increases appropriation authority by \$392,019 in the Civil BCL. This funding is revenue backed by an MOA with Seattle City Light and Seattle Public Utilities to provide legal work related to the East Waterway allocation process and related matters. Ongoing funding for this item has been included in the 2021-22 Proposed Budget. This project is expected to last through 2022.	\$392,019

Item #	Title	Description	Amount/FTE
Section 4 – Appropriation Increases – Operating Budgets – Backed by Grant Revenues			
4.1	Grant Acceptance and Appropriation for HUD COVID Emergency Solutions Grant (Human Services Department)	This item accepts \$3,000,000 of a \$26,000,000 award for the Department of Housing and Urban Development’s Emergency Solutions Grant provided as part of the Federal CARES Act for COVID-19 emergency response. The remaining \$23,000,000 of the award is accepted and appropriated in the 2021 Proposed Budget.	\$3,000,000
4.2	DSHS 2020-21 Award (Executive (Office of Immigrant and Refugee Affairs))	This item increases appropriation authority by \$670,000 in the Office of Immigrant and Refugee Affairs (OIRA) BSL to reflect grant funding from the Washington State Department of Social and Human Services (DSHS). This award from DSHS is renewed annually, to support case-management-based naturalization assistance for low-income immigrant applicants. This award covers July 2020 – June 2021. Matching funding is not required, but it is already budgeted from GF and matching grant funds from the Seattle Housing Authority.	\$670,000
4.3	Accept and Appropriate FTA Grant for Transit-Oriented Development Planning (Executive (Office of Planning and Community Development))	This item increases appropriation authority by \$1,750,000 in the Planning and Community Development BCL (BO-PC-X2P00) and accepts a grant from the Federal Transit Administration. The grant is for “Fiscal Year 2020 Transit Oriented Development Planning Projects: Pilot Program for Transit-Oriented Development (TOD) Planning”. This grant funding was awarded to OPCD in mid-2020. The purpose of the grant is to conduct planning for the light rail line from Ballard to West Seattle. There is no budgetary match required.	\$1,750,000
4.4	Accept Community Services Block Grant Funding (Seattle Parks and Recreation)	The purpose of this grant is to provide funding through the Community Services Block Grant under the Coronavirus Aid Relief and Economic Security Act (CARES Act) to support response and recovery efforts for COVID-19. Funding will be used to support the Seattle Conservation Corps work training program for homeless adults. Funding is received up front. The grant expires on September 30, 2020.	\$239,393

Item #	Title	Description	Amount/FTE
4.5	Emergency Management Performance Grant COVID-19 Supplemental (Seattle Police Department)	This item increases appropriation authority by \$140,390 in the Chief of Police BSL from the Washington State Military Department, Emergency Management Division. This funding will be used to hire a consultant to facilitate the activities to address the city's COVID-19 after action findings and to inform improvements in our planning, operations, coordination. The term of the grant runs from January 27, 2020 to December 31, 2021. There is a \$147,968 matching requirement for this item, which will be met by resources in the OEM budget. There are no capital improvement projects associated with this item.	\$140,390
4.6	Emergency Management Performance Grant (Seattle Police Department)	This item increases appropriation authority by \$409,882 in the Chief of Police BSL from the Washington State Military Department and the U.S. Department of Homeland Security. The Emergency Management Performance Grant (EMPG) for federal fiscal year 2020 provides funding to support Seattle's Office of Emergency Management (OEM), thereby significantly strengthening the City's ability to deal with natural disasters and other emergencies. This grant supports three existing positions: two Strategic Advisor IIs and one Administrative Staff Assistant. The term of this grant runs from June 1, 2020 through August 31, 2021. Positions supported by this grant will sunset if funding is discontinued and alternative sources of funding cannot be identified. This grant has a 50% matching requirement that is met by resources in the OEM budget. There are no capital improvement projects associated with this item.	\$409,882

Item #	Title	Description	Amount/FTE
4.7	Pre-Disaster Mitigation Grant (Seattle Police Department)	This item increases appropriation authority by \$3,719,417 in the Chief of Police BSL from the Federal Emergency Management Agency (FEMA). The Pre-Disaster Mitigation Grant (PDMG) provides funding to support 75% of the cost of a structural seismic retrofit on an affordable housing facility. Capitol Hill Housing (CHH), a partner organization of the Office of Housing, intends to retrofit the Bremer Apartments, a three-story unreinforced masonry wall (URM) building that is vulnerable to earthquake damage. The life safety retrofit will protect 49 units of affordable living space and the people who reside there. Grant reimbursement for eligible work on the seismic retrofit will be passed through to CHH. OEM will receive grant reimbursement to offset the costs of managing the grant. The term of this grant runs from October 1, 2018 through April 1, 2022. This grant has a 25% matching requirement that is met by Capitol Hill Housing.	\$3,719,417
Section 5 – Appropriation Transfers – Operating Budgets			
5.1	Transfer funding from OPCD to OSE for Environmental Justice Fund (Executive (Office of Planning and Community Development & Executive (Office of Sustainability and Environment))	This item transfers \$250,000 of appropriation authority from the Planning and Community Development BCL (BO-PC-X2P00) to the Office of Sustainability and Environment BCL (BO-SE-X1000). The 2020 Equitable Development Initiative (EDI) Request for Proposals (RFP) includes environmental justice as an outcome, and to achieve that outcome while maximizing funds available from other departments, OPCD is partnering with OSE's Environmental Justice Fund. OSE will release a \$500,000 (\$250,000 from OSE and \$250,000 from OPCD) RFP in 2020 with the goal of reducing health disparities through food sovereignty and healing that aligns with EDI equity drivers.	\$0

Item #	Title	Description	Amount/FTE
5.2	2020 Use GF Reserve – Rd 2 (Seattle Parks and Recreation)	This item increases appropriation authority by \$7,000,000 in the General Fund (00100) and decreases appropriation authority by \$7,000,000 in the Park and Recreation Fund (10200) resulting in a net zero funding transfer of appropriation authority within the following Budget Summary Levels: Cost Center Maintenance and Repairs (BO-PR-10000), Leadership and Administration (BO-PR-20000), Departmentwide Programs (BO-PR-30000), Parks and Open Space (BO-PR-40000), and Recreation Facility Programs (BO-PR-50000). These funds were held in a reserve following the first round of COVID-19 related General Fund reductions to help offset revenue losses in the department's operating fund (10200). Seattle Parks and Recreation is now estimating those revenue losses will total \$19.2 million in 2020 due to facility closures.	\$0
5.3	2020 MPD Operating Fund Savings – Rd2 (Seattle Parks and Recreation)	This item reduces appropriation authority by \$1,569,000 in the Park and Recreation Fund (10200) and increases appropriation authority by \$700,000 within the Park District Fund (19710) to realign expenses across the following Budget Summary Levels: (\$0) in Cost Center Maintenance and Repairs (BO-PR-10000); (\$736,000) in Recreation Facility Programs (BO-PR-50000); (\$113,000) in Departmentwide Programs (BO-PR-30000); and (\$20,000) in Parks and Open Space (BO-PR-40000). Similar to the Park Fund, the Park District will have operating savings from vacancies, temporary labor, and other non-labor expenses due to facility closures; this is estimated at \$869,000 and will be realigned to support expenditures previously covered by Park Fund revenues that are not being received due to COVID-19. In addition, this item appropriates a \$700,000 fund balance in the Park District Fund due to 2019 underspend which will also be used to support expenditures previously covered by Park Fund revenues. SPR is estimating a \$19.2 million revenue loss in the department's operating fund (10200) in 2020 due to COVID-19.	(\$869,000)

Item #	Title	Description	Amount/FTE
5.4	2020 MPD Capital Transfer to 10200 Operating (adj 1) – Rd2 (Seattle Parks and Recreation)	This item reduces appropriation authority by \$5,282,468 in the Park and Recreation Fund (10200) and increases appropriation authority by \$5,282,468 million in the Park District Fund (19710) resulting in a net-zero change across the following Budget Summary Levels: Parks and Facilities Maintenance and Repairs (BO-PR-10000), Leadership and Administration (BO-PR-20000), Departmentwide Programs (BO-PR-30000), Recreation Facility Programs (BO-PR-50000), and Golf Programs (BO-PR-60000). This change realigns Park District capital resources to support expenditures previously covered by Park Fund revenues that are not being received due to facility closures. SPR is estimating a \$19.2 million revenue loss in the department's operating fund (10200) in 2020. The 2020 Third Quarter Supplemental Ordinance includes a corresponding reduction to Park District funded projects in SPR's Capital Improvement Plan.	\$0
5.5	Grant Appropriation Corrections (Seattle Police Department)	In Q4 2018 (CB 119430), SPD received appropriation authority for several grant items, three of which were mistakenly associated with the incorrect BSL. This transfer would correct the following errors: 1) Urban Areas Security Initiative FY18: \$1,563,907 moving from P1000 (Chief of Police) to P3400 (Special Ops) 2) Human Trafficking FY18: \$600,000 moving from P3400 (Special Ops) to P7000 (Criminal Investigations) 3) Opioid Grant FY18: \$900,000 moving from P1000 (Chief of Police) to P1601 (Departmental Indirect Costs)	\$0
5.6	One Center City-West Seattle Access STP grant Transfer (Seattle Department of Transportation)	This item transfers appropriation authority of \$1,500,000 from the Mobility Operations BSL to the West Seattle Bridge Immediate Response Project. This grant will support the West Seattle Access and will provide funding for programmatic work to expand Transportation Demand Management programs which may include customized outreach, marketing campaigns (with emphasis to emerging center city access challenges related to COVID-19 response and West Seattle Bridge extended closure), not to be used for other West Seattle Bridge Activities. Period of performance of this grant is July 24, 2020 through December 31, 2024 and requires match of \$202,500.	(\$1,702,500)

Item #	Title	Description	Amount/FTE
5.7	Transfer CRF Funding Between FAS BSLs (Department of Finance and Administrative Services)	The item transfers \$1,100,146 in funding for from the Leadership and Administration BSL (BO-FA-BUDCENTR) to Facility Operations (BO-FA-FACILITY) in the Department of Finance and Administration (FAS). This appropriation was added to the FAS budget in the second quarter supplemental process and this transfer moves the funding to the BSL in which the expenses will occur. The original funding source for this was Coronavirus Relief Funds.	\$0
5.8	Community Engagement for alternatives to public safety and new investments (Seattle Police Department & Department of Neighborhoods)	This item transfers appropriation authority in the amount of \$500,000 from SPD's Leadership and Administration BSL to Department of Neighborhoods Community Building BSL. Funding will be used to develop robust facilitation process and to convene community for the purpose of providing recommendations to alternative public safety models and new investments in the BIPOC community.	\$0
Section 6 – Appropriation Decrease – Capital Budgets			
6.1	Signal Major Maintenance: Reverse Double Appropriated Mitigation Funds (Seattle Department of Transportation)	This item decreases appropriation authority by \$239,736 in the Major Maintenance/Replacement BSL. This item corrects an inadvertent doubling of appropriation originally entered in the 2019 Q2S (item 8.14). The original amount was for the Signal Major Maintenance project to add appropriation for funds provided to SDOT by the WSCC as a part of the conditions for issuing the Master Use Permit.	(\$239,736)
6.2	Technical Abandonment of 2019 Supplemental Action (Seattle Department of Transportation)	This item abandons appropriation that was modified as part of the 2019 4th Quarter Supplemental Budget Ordinance, to align the 2020 Adopted budget with the 2020-2025 Capital Improvement Program.	(\$1,000,000)

Item #	Title	Description	Amount/FTE
6.3	Capital Project Legislative Changes (Seattle Department of Transportation)	This item decreases appropriation authority by \$1,173,000 in the Mobility Capital BSL (BC-TR-19003). This item is necessary to carry out a larger effort related to Executive and Council actions. Council Bill 119825 enacted reductions for four projects: Thomas Street Redesign, Market to MOHAI, Fortson Square Redevelopment, and Sand Point Sidewalks (within the Pedestrian Master Plan Sidewalk Projects). After passage, Council restored these reductions in Council Bill 119818, the second quarter supplemental bill. Subsequent to these actions, the Mayor vetoed Council Bill 119825 and thus, the restoration of the reductions actually increased appropriation overall. The veto of Council Bill 119825 was overridden, restoring the original budget reductions for these projects, returning appropriation levels to those first intended by Council. The action in this third quarter supplemental will reenact the original reductions to the four projects but will restore funding for two of the projects, Fortson Square and PMP Sidewalk Projects, with REET II funds. The result from all of these actions is Thomas Street Redesign and Market to MOHAI will have a net appropriation decrease and Fortson Square and PMP Sidewalk Projects will remain at their previously adopted levels, albeit with a different funds.	(\$1,173,000)
6.4	Data Analytics Platform-SPD Abandonment (Seattle Information Technology Department)	This item decreases appropriation authority in the amount of \$498,789 in the IT Capital Improvement Project (BC-IT-C0700) BSL. The SPD Data Analytics Platform project (MC-IT-C9502) is complete. The remaining legal appropriation is no longer needed because the project came in under budgeted costs. Scope was not reduced. Revenue rebates will be processed for the General Fund. This is already accounted for in General Fund balancing.	(\$498,789)
6.5	Data & Telephones Abandonment (Seattle Information Technology Department)	This item decreases appropriation authority in the amount of \$820,946 in the IT Capital Improvement Project (BC-IT-C0700) BSL. The implementation of a citywide Unified Communications (UC) system has resulted in a decreased need for legacy telephone system hardware replacement. This reduction represents the excess budget for telephone hardware that will not be needed based on the spend plan and replacement hardware being purchased under UC. There are no revenue impacts.	(\$820,946)

Item #	Title	Description	Amount/FTE
6.6	Criminal Justice Information System Technical Abandonment (Seattle Information Technology Department)	This technical change decreases appropriation authority in the amount of \$18,631 in the IT Capital Improvement Project (BC-IT-C0700) BSL. The MCIS project is bond funded. However, when the initial bonds were issued for the project, the final issuance ended up being slightly less than the legal adopted appropriation. The 2017 adopted appropriation was \$2,518,631 and the final bond issuance was only \$2.5 million. This reduction is abandoning the \$18,631 of unfunded legal budget. There are no revenue impacts.	(\$18,631)
6.7	Apps Dev-DPR Abandonment (Seattle Information Technology Department)	This item decreases appropriation authority in the amount of \$1,390,588 in the IT Capital Improvement Project (BC-IT-C0700) BSL. The Parks Budget System Replacement project is forecast to end significantly under budget. Abandoning this excess budget will free up funding for the City. Revenue rebates will be processed for the General Fund through Finance General. This rebate is already accounted for in General Fund balancing.	(\$1,390,588)
6.8	SPD Body Worn Video Abandonment (Seattle Information Technology Department)	This item decreases appropriation authority in the amount of \$1,463,304 in the IT Capital Improvement Project (BC-IT-C0700) BSL. The SPD Body Worn Video project (MC-IT-C9300) is complete. There were grant and match components, which have been fully expended and reconciled. The remaining legal appropriation in the project is from non-grant funds and is no longer needed. Revenue rebates will be processed for the General Fund and are already accounted for in General Fund balancing.	(\$1,463,304)
6.9	Apps Dev-Public Safety Abandonment (Seattle Information Technology Department)	This item decreases appropriation authority in the amount of \$860,151 in the IT Capital Improvement Project (BC-IT-C0700) BSL. This abandonment reflects the remaining appropriation balances in public safety projects that are either complete (SPD RMS) or not moving forward (SFD Payroll Integration). Revenue rebates will be processed for the General Fund.	(\$860,151)

Item #	Title	Description	Amount/FTE
6.10	Apps Dev- SDOT Technical Change (Seattle Information Technology Department)	This technical change decreases appropriation authority in the amount of \$766,667 in the IT Capital Improvement Project (BC-IT-C0700) BSL. The SDOT PACT project is complete. In 2019, Seattle IT retained \$766,667 of legal appropriation within this project to rebate revenues to SDOT. However, after receiving guidance from accounting, it was determined that legal expenditure appropriation was not needed to process the rebate and the remaining \$766,667 of legal budget should be abandoned. There are no revenue impacts, as the rebate to SDOT was already processed in 2019.	(\$766,667)
6.11	Fiber Install and Maintenance Abandonment (Seattle Information Technology Department)	This item decreases appropriation authority in the amount of \$3,547,865 in the IT Capital Improvement Project (BC-IT-C0700) BSL. The Fiber Install & Maintenance project (MC-IT-C3600) was established to construct and maintain fiber networks throughout the city. Over the years, unused appropriation has carried forward and accumulated in this project. A recent analysis of projected spend on fiber networks resulted in a decreased need for the excess carryforward appropriation. This body of work is direct billed, therefore there are no revenue impacts.	(\$3,547,865)
6.12	SRI Side Systems Abandonment (Seattle Information Technology Department)	This item decreases appropriation authority in the amount of \$1,522,178 in the IT Capital Improvement Project (BC-IT-C0700) BSL. Of the total revenue amount, \$1,315,859 is bond and \$80,770 is General Fund. The SRI Side Systems project (MC-IT-C6308) was established to work on the citywide SRI Implementation effort. This project is now complete, and the remaining project appropriation is no longer needed. Revenue rebates will be processed for the General Fund. This rebate is accounted for in General Fund balancing.	(\$1,522,178)

Item #	Title	Description	Amount/FTE
6.13	Seattle Channel Maint & Upgrade Abandonment (Seattle Information Technology Department)	This item decreases appropriation authority in the amount of \$222,977 in the IT Capital Improvement Project (BC-IT-C0700) BSL. Due to projected revenue decreases in the Cable Television Franchise Fund, the 2019 carryforward appropriation in the Seattle Channel Maintenance & Upgrade project (MC-IT-C4400) is being abandoned to help mitigate this funding shortage. The corresponding \$222,977 of revenues already collected from the Cable Television Franchise Fund will be rebated to the Cable Television Franchise Fund.	(\$222,977)
6.14	Technology Management Tools Abandonment (Seattle Information Technology Department)	This technical change decreases appropriation authority in the amount of \$165,687 in the IT Capital Improvement Project (BC-IT-C0700) BSL. As part of the 2019-2020 budget cycle, Seattle IT transferred all appropriation relating to the Technology Management Tools project (MC-IT-C9500) out of our CIP projects and into the corresponding O&M projects. This remaining appropriation was inadvertently left behind and is now no longer needed. There are no revenue impacts.	(\$165,687)
6.15	Next Generation Data Center Technical Change (Seattle Information Technology Department)	This technical change decreases appropriation authority in the amount of \$357,422 in the IT Capital Improvement Project (BC-IT-C0700) BSL. As part of the 2018 budget cycle, Seattle IT moved all appropriation for maintenance items out of our CIP projects and into the corresponding O&M projects. This remaining appropriation in the NGDC project (MC-IT-C9503) was inadvertently left behind and is now no longer needed. There are no revenue impacts.	(\$357,422)
6.16	Technical Correction to Abandon Funding in Aquarium CIP Project (Seattle Parks and Recreation)	This item abandons \$401,926 from the Fix It First-CIP BSL (BC-PR-40000) to correct the budget for the Aquarium Major Maintenance Project (MC-PR-41004). The error occurred as part of the conversion to Summit 9.2 and resulted in the accrued budget amount of \$401,926 at the end of 2017 inadvertently being carried over in 2018 and subsequent years even though it was actually paid out in 2017. This item is a technical correction.	(\$401,926)

Item #	Title	Description	Amount/FTE
6.17	2020 MPD Capital Transfer to 10200 Operating (adj 2) – Rd2 (Seattle Parks and Recreation)	This item reduces appropriation authority by \$5,282,568 in the Seattle Park District Fund (19710), amending the following projects in SPR’s Capital Improvement Plan: (\$2,800,000) in Smith Cove Park Development (MC-PR-21005) within the Building for the Future BSL (BC-PR-21000); (\$1,000,000) in Queen Anne Turf Field Replacement (MC-PR-41072) within the Fix It First BSL (BC-PR-41000); and (\$1,482,468) in Major Maintenance Backlog and Asset Management (MC-PR-41001) within the Fix It First BSL (BC-PR-41000). These reductions reflect capital savings from project delays due to COVID-19 public health restrictions and the transfer of these resources to SPR’s operating budget to support expenditures previously covered by Park Fund revenues that are not being received due to facility closures. SPR is estimating a \$19.2 million revenue loss due in the department’s operating fund (10200) due to COVID-19 in 2020. See item 5.14 which captures the corresponding operating changes.	(\$5,282,468)
Section 7 – Appropriation Increase – Capital Budgets			
7.1	Additional Asset Preservation Funding for City Buildings (Department of Finance and Administrative Services)	This item adds \$340,000 of appropriation to both the Asset Preservation 1 and Asset Preservation 2 BSLs in the Department of Finance and Administrative Service (FAS), for a total appropriation increase of \$680,000. This funding is necessary to fund immediate asset preservation needs in City buildings, including repair of damage caused during the ongoing marches and protests. The funding for this increase is provided by Real Estate Excise Tax 1 (REET 1).	\$680,000
7.2	Transit Corridor Improvements: Increase Reimbursable Authority (Seattle Department of Transportation)	This item increases appropriation authority by \$363,500 in the Mobility Capital BSL. This request is necessary to add reimbursable authority from King County Metro for signed agreements totaling \$363,500.	\$363,500

Item #	Title	Description	Amount/FTE
7.3	Neighborhood Traffic Control: Transfer General Fund from Emergent Mobility Initiatives (Seattle Department of Transportation)	This item increases appropriation authority in the amount of \$350,000 in the Mobility Capital BSL (the other side of an appropriation decrease in the Mobility Operations BSL). This is necessary as the Council Budget Action appropriating these funds (SDOT 23-B-1) was coded to the incorrect project. This change is a technical fix to restore funding to the correct project. The funding, which comes from Transportation Network Company tax revenues in the General Fund, is for the Home Zone Pilot program. This is the Capital side of the transfer. The Change Request for the Operating side is SDOT-OT13.	\$350,000
7.4	IT Infrastructure Operating to Capital Budget Transfer (Seattle Public Library)	This item increases appropriation authority by \$511,000 in the Capital Improvements Division (BC-PL-B3000) in Fund 18200. This is a technical correction to reflect the second part of a budget neutral transfer from an operating BCL to a Capital BCL. The operating BCL was reduced in the Q2 supplemental, but the increase to the capital BCL was inadvertently left out of the Q2 Supplemental Budget. This transfer is necessary as the funding is for an IT wireless network project which is a capital project, rather than an operating expense.	\$511,000
Section 8 – Appropriation Increase – Capital Budgets – Revenue Backed			
8.1	Monorail Funding Appropriation Adjustment (Seattle Center)	This item increases appropriation authority by \$169,421 in the Monorail Rehabilitation BSL. This item is a technical correction to fix an error from the 2017 award where the amount appropriated was less than the revenue award. This increase will provide the authority for those funds to be spent and then submitted for reimbursement.	\$169,421
8.2	Delridge Multimodal Corridor: Increase SPU & SCL Reimbursable Authority (Seattle Department of Transportation)	This item increases appropriation authority by \$5,100,000 in the Mobility-Capital BSL. This action adds appropriation for work to be reimbursed by Seattle Public Utility (\$1,500,000) and Seattle City Light (\$3,600,000). This utility work is a necessary part of the Delridge Multimodal Corridor project, which is projected to start construction in July 2020. Construction MOA for SPU is attached and the SCL is currently being routed for final signatures.	\$5,100,000

Item #	Title	Description	Amount/FTE
Section 9 – Appropriation Transfers – Capital Budgets			
9.1	King Street Station Project Overage Transfer (Department of Finance and Administrative Services & Seattle Department of Transportation)	This item transfers appropriation authority of \$327,896 from the Public Safety Facilities Fire BSL in FAS to the Mobility Capital BSL in SDOT. This request is necessary to cover final project costs in excess of existing budget so the King Street Station Tenant Improvements project can be closed. This transfers uses REET 1 appropriation in the existing Fire Station 5 project, and does not cause any reduction in project scope.	\$0
9.2	Net Zero Transfer for JTF Fall Protection (Department of Finance and Administrative Services)	This item transfers \$415,000 in appropriation between the Fire Station 5 project (MC-FA-FS5) and Asset Preservation Schedule 2 (MC-FA-APSCH2FAC) in the Department of Finance and Administrative Services. This project, which is currently in construction, will bring the fall protection at the Joint Training Facility in line with state safety requirements, allowing the fire department to resume using this critical prop. The transfer corrects a previous error in where the joint training facility work was budgeted and does not reduce the scope of the Fire Station 5 project.	\$0
9.3	West Seattle Bridge PSRC STP Grant Transfer (Seattle Department of Transportation)	This item transfers appropriation authority in the amount of \$2,000,000 from the Major Maintenance/Replacement BSL and \$1,702,500 from the Mobility Operations BSL to the Major Maintenance/Replacement BSL. This transfer includes two items as the \$1,702,500 is being transferred from an O&M project via SDOT-OG18. This transfer is needed to appropriate grant funding and match within the newly established West Seattle Bridge Immediate Response CIP, as the grant and match were temporarily appropriated within other master projects. This transfer is needed in order to being critical programmatic and planning work for the West Seattle Bridge project. This grant has already been accepted and appropriated through special legislation via Ordinance 126107.	\$1,702,500

Item #	Title	Description	Amount/FTE
9.4	Thomas St Redesigned: Transfer LCLIP funds from BMP Greenways (Seattle Department of Transportation)	This item transfers appropriation authority in the amount of \$1,100,000 between Bike Master Plan – Greenways (MC-TR-C063) and Thomas Street Redesigned (MC-TR-C105) in the Mobility-Capital BSL. This is necessary to move Landscape Conservation and Local Infrastructure Program (LCLIP) funds into the Thomas Street Redesigned CIP project, which was initially budgeted in the Bike Master Plan Greenways project as the Thomas St CIP was not established at the time. Council budget action (CBA) SDOT-912-A-1 established the Thomas St CIP and the funding associated with it.	\$0
9.5	Thomas St Redesigned: Transfer LCLIP funds from NODO Mobility Action Plan (Seattle Department of Transportation)	This item transfers appropriation authority in the amount of \$990,000 from the North of Downtown Mobility Action Plan Project (MC-TR-C101) to the Thomas Street Redesigned CIP Project (MC-TR-C105) in the Mobility-Capital BSL. This is necessary to move Landscape Conservation and Local Infrastructure Program (LCLIP) funds into the Thomas Street Redesigned CIP project, which was initially budgeted in the North of Downtown Mobility Action Plan as the Thomas St CIP was not established at the time. Council budget action (CBA) SDOT-912-A-1 established the Thomas St CIP and the funding associated with it.	\$0
9.6	Overlook Walk Bond type change (Seattle Department of Transportation)	This request changes the type of LTGO bond for the Overlook Walk and East-West Connections project from Taxable to Tax-Exempt debt. There is no change in funding amount.	\$0

Item #	Title	Description	Amount/FTE
9.7	Capital Project Transfers (Seattle Department of Transportation)	This item transfers appropriation authority in the amount of \$2,847,566 from the Transportation Fund to the REET II Fund within the same Mobility Capital BSL (BC-TR-19003). This item is necessary to carry out a larger effort related to Executive and Council actions. Council Bill 119825 enacted reductions for four projects: Thomas Street Redesign, Market to MOHAI, Fortson Square Redevelopment, and Sand Point Sidewalks (within the Pedestrian Master Plan Sidewalk Projects). After passage, Council restored these reductions in Council Bill 119818, the second quarter supplemental bill. Subsequent to these actions, the Mayor vetoed Council Bill 119825 and thus, the restoration of the reductions actually increased appropriation overall. The veto of Council Bill 119825 was overridden, restoring the original budget reductions for these projects, returning appropriation levels to those first intended by Council. The action in this third quarter supplemental will reenact the original reductions to the four projects but will restore funding for two of the projects, Fortson Square and PMP Sidewalk Projects, with REET II funds. The result from all of these actions is Thomas Street Redesign and Market to MOHAI will have a net appropriation decrease and Fortson Square and PMP Sidewalk Projects will remain at their previously adopted levels, albeit with a different funds.	\$0
9.8	SPD ICV/MDT & Work Schedule & Timekeeping Appropriation Transfer (Seattle Information Technology Department)	This item transfers appropriation authority in the amount of \$947,108 from the Public Safety Tech Equipment project (MC-IT-C9301) to the Apps Dev-Public Safety project (MC-IT-C6307) within the IT Capital Improvement Project (BC-IT-C0700) BSL. This transfer is needed to cover additional, unforeseen expenses facing the SPD Work Schedule & Timekeeping (WST) project. After the initial planning phase for this project, it was discovered that WST had more complex requirements than originally accounted for and additional appropriation is needed to complete the project. The SPD In-Car Video and SPD MDT Replacement projects are forecast to be completed under-budget. Funding will be a mixture of LTGO Bonds and funds already collected from SPD.	\$0

Item #	Title	Description	Amount/FTE
9.9	Transfer Funding Within Woodland Park Zoo Night Exhibit CIP Project (Seattle Parks and Recreation)	This item transfers appropriation authority in the amount of \$2,124,263 from the Cumulative Reserve Subfund (00164) to the Park and Recreation Fund (10200) within the Fix it First-CIP BSL (BC-PR-40000). This change will allow the Parks Department to better monitor interest earnings within the Woodland Park Zoo Night Exhibit Renovation project (MC-PR-41046). To support the appropriation transfer in 2020, this item, along with item 2.3, transfers cash from CRS-U to the Park Fund.	\$0
9.10	Add Beach Maintenance Trust Fund for Be'er Sheva (Seattle Parks and Recreation)	This item increases appropriation authority by \$250,000 from the Beach Maintenance Trust Fund (70200) and decreases appropriation authority by \$250,000 from the General Fund (00100) within the Beach Restoration Program (MC-PR-41006) and Fix It First Budget Summary Level (BC-PR-40000) in SPR's Capital Improvement Program. In the 2020 Second Quarter Supplemental, the City Council added General Fund to SPR to fund this new project. Due to COVID-19 and declining General Fund revenue, this item will instead fund the new project using resources from the Beach Maintenance Trust Fund. The Beach Maintenance Trust Fund may be used to support shoreline improvement projects as defined in Section 5 of the Shoreline Park Improvement Fund Settlement Agreement (Ordinance 115496) and per the definition of "Projects" in the contract definitions. SPR has determined that Be'er Sheva Park is an eligible shoreline improvement project.	\$0
9.11	Gasworks Park Remediation Correction (Seattle Parks and Recreation)	This item transfers \$154,000 of appropriation authority from the 2008 Parks Levy (BC-PR-10000) to the Debt and Special Funding BSL (BC-PR-30000). This is a technical adjustment to correct a mistake in the 2020 Second Quarter Supplemental which erroneously named the Gasworks Park Play Area Renovation Master Project (MC-PR-16002) instead of the Gas Works Park – Remediation Project (MC-PR-31007).	\$0

Item #	Title	Description	Amount/FTE
9.12	Technical Fund Transfer Between Projects (Seattle Parks and Recreation)	This item implements a technical, net-zero transfer of funds between two master projects within the Fix It First BSL (BC-PR-410000), replacing Park District (19710) funds with Real Estate Excise Tax 2 (30020) in the Major Maintenance Backlog and Asset Management project (MC-PR-41001) and replacing Real Estate Excise Tax 2 funds with Park District funds in the Queen Anne Turf Field Replacement project. The 2020 Third Quarter Supplemental includes a corresponding reduction of these Park District funds within the Queen Anne Turf Field Replacement project as part of a larger MPD funding realignment due to the COVID-19 pandemic.	\$0
Section 10 – Position Adds			
10.1	SMC – A1 MCIS 2.0 TLT Business Analysts (Seattle Municipal Court)	This is a technical add of Municipal Court Information System (MCIS) temporary positions transferred from the Seattle IT Department to the Seattle Municipal Court. The employees will continue to work on the MCIS 2.0 replacement project, which is scheduled to come on line in 2022. The positions will be paid for by the MCIS/technology bond fund. These positions are sunset at the end of the project.	4.0
Section 11 – Position Modifications			
11.1	Transfer of Seven Positions from ITD to SPU (Seattle Public Utilities)	This item transfers seven full-time positions from the Seattle Information Technology Department (ITD) to Seattle Public Utilities (SPU). These staff support technology deemed operational to SPU and as a result, should be located in that department. There will be no funding change for this in 2020.	7.0
	ITD to SPU Position Transfer for Operational Technology (Seattle Information Technology Department)	This item transfers seven full-time positions from the Seattle Information Technology Department (ITD) to Seattle Public Utilities (SPU). These staff support technology deemed operational to SPU and as a result, should be located in that department. There will be no funding change for this in 2020.	(7.0)

Legislation Text

File #: CB 119911, Version: 1

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE amending Ordinance 126000, which adopted the 2020 Budget; repealing Ordinance 126149; making appropriations from the Emergency Fund and General Fund for public assistance during the COVID-19 civil emergency; and ratifying and confirming certain prior acts; all by a 3/4 vote of the City Council.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Ordinance 126149 is repealed.

Section 2. In order to pay for expenses and obligations to eliminate or lessen the immediate threats to lives, public health, and safety resulting from the COVID-19 epidemic and to address the economic impacts caused by the COVID-19 epidemic that could not have been anticipated at the time of making the 2020 Budget, appropriations for the following items in the 2020 Budget are increased from the funds shown, as follows:

<u>Item</u>	<u>Department</u>	<u>Fund</u>	<u>Budget Summary</u> <u>Level/BCL Code</u>	<u>Amount</u>
2.1	Finance General	Emergency Fund (10102)	Appropriation to Special Funds (10102-BO-FG-2QA00)	\$19,852,567
2.2	Executive (Office of Economic Development)	General Fund (00100)	Business Services (00100-BO-ED-X1D00)	\$2,700,000
2.3	Department of Education and Early Learning	General Fund (00100)	Early Learning (00100-BO-EE-IL100)	\$2,400,000
2.4	Human Services Department	General Fund (00100)	Addressing Homelessness (00100-BO-HS-H3000)	\$3,000,000
2.5	Executive (Office of Housing)	General Fund (00100)	Homeownership & Sustainability (00100-BO-HU-2000)	\$350,000

2.8	Finance and Administrative Services	General Fund (00100)	Finance and Administrative Services (City Finance (00100-BO-FA-CITYFINAN)	\$200,000
Grand Total				\$43,102,567

Unspent funds so appropriated shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance.

Section 2. The appropriations in Section 1 of this ordinance shall be subject to the following provisos:

A. Of the funding appropriated to the Office of Economic Development's Business Services (BO-ED-X1D00) Budget Summary Level in the 2020 Adopted Budget, \$2.7 million of the funds shall be used to address the economic hardship small business owners and their employees, and nonprofit organizations and their employees, experience due to loss of business income, grant funding reductions, layoffs and reduced work hours for a significant percentage of this workforce as a result of the COVID-19 crisis and may be used for no other purpose. The Council intends that this funding will be allocated as follows:

1. \$2.5 million to provide financial assistance to small business owners or operators and nonprofit organizations, with preference to brick and mortar small businesses, that would be used to reduce the economic hardship caused by COVID-19 crisis and assist small businesses and nonprofit organizations to comply with public health guidelines, thereby protecting the local economy by reducing the number of businesses or nonprofits that are permanently closed and jobs permanently lost due to the short- and long-term economic impacts caused by

COVID-19.

2. \$200,000 to provide training, referral services, and technical assistance to support businesses, including assistance in preparing applications for federal or state loans or grants that provide direct financial assistance to small businesses to prepare such businesses for the road to recovery.

3. The Council further intends that:

- a. Up to \$10,000 in financial assistance may be provided to any single eligible small business owner or nonprofit organization under this proviso.
- b. Assistance should be prioritized for businesses and nonprofit organizations who commit to not reducing wages and benefits provided prior to the COVID-19 emergency, and for business and nonprofit organizations who have historically, or recently, been unable to access other forms of assistance through state or federal programs available to support businesses, including businesses owned by Black, Indigenous, and people of color and those with limited English proficiency, and businesses in the creative industry. Any awards to those in the creative industry should be made in partnership with advocates in the creative industry sphere.
- c. For purposes of this proviso, an eligible “small business” is defined as a business with 25 or fewer full time equivalent employees (FTEs) and an eligible “nonprofit organization” is a nonprofit with 25 or fewer FTEs that provides community services that protect or enhance the health, safety, environment, or general welfare of people who live or work in Seattle.
- d. The Executive should develop eligibility criteria for small businesses who have been economically impacted by the COVID-19 crisis and for whom such assistance will provide economic benefits to the public by saving or creating jobs, moderating impacts to local tax

revenue by supporting continue operations of small businesses and ensuring that businesses can modify operations as necessary to comply with public health guidance. Criteria should include consideration of equitably distributing financial assistance to small businesses and nonprofit organizations located in neighborhoods across Seattle. Further, businesses that have previously received financial assistance from the City's Small Business Stabilization Fund are not eligible for additional assistance.

B. Of the funding appropriated to the Department of Education and Early Learning's Early Learning (BO-EE-IL100) Budget Summary Level in the 2020 Adopted Budget, \$2.4 million of the funds shall be used to address the economic hardship child care providers and their employees experience due to loss of income, layoffs and reduced work hours for a significant percentage of this workforce as a result of the COVID-19 crisis and may be used for no other purpose. The Council intends that:

1. Up to \$10,000 in financial assistance may be provided to (1) any single eligible family child care provider and (2) other licensed child care providers that adhere to labor laws and has a commitment to labor harmony, under this proviso.
2. Up to \$500 in financial assistance may be provided to any single eligible family, friends, and neighbors (FFN) child care provider under this proviso.
3. Assistance should be prioritized for child care providers who commit to not reducing wages and benefits provided prior to the COVID-19 emergency, and for providers who have historically, or recently, been unable to access other forms of assistance through state or federal programs available to support businesses.
4. For purposes of this ordinance (1) family child care is generally defined as licensed child care for mixed-age children and youth (0-12 years) provided by individuals operating in residential homes; and (2) FFN child care is generally defined as an individual who is exempt from child care licensing requirements and provides in-home child care. FFN providers include

grandparents, aunts and uncles, elders, older siblings, friends, neighbors, and others who help families by providing child care.

5. The Executive should develop eligibility criteria for child care providers who have been economically impacted by the COVID-19 crisis and for whom such assistance will provide economic benefits to the public by saving or creating jobs, providing essential child care services as people return to work, and ensuring that child care providers can modify operations as necessary to comply with public health guidance.

C. Of the funding appropriated to the Human Services Department's Addressing Homelessness (BO-HS-H3000) Budget Summary Level in the 2020 Adopted Budget, \$3 million of the funds shall be used to address housing insecurity by supporting the ongoing service and operation costs of shelter providers. Eligible service and operating costs can include, but are not limited to: personal protective equipment, overtime or premium pay for staff, food service, or cleaning supplies.

D. Of the funding appropriated to the Office of Housing's Homeownership & Sustainability (BO-HU-2000) Budget Summary Level in the 2020 Adopted Budget, \$350,000 of the funds shall be used for mortgage counseling and foreclosure prevention programs, including costs for housing counselors, legal aid, service coordination, and direct financial assistance. The Council intends that the City will partner with CBOs that have a history of trust and success in reaching low-income communities, including experience reaching those who are traditionally marginalized or typically face barriers to enrolling in assistance programs, such as, but not limited to, language barriers, and other historically marginalized communities.

E. Of the funding appropriated to the Office of Immigrant and Refugee Affairs' (BO-IA-X1N00) Budget Summary Level in the 2020 Adopted Budget, \$8.3 million shall be for (1) direct financial assistance to Seattle's low-income immigrant and refugee workers and households who have experienced the economic impacts caused by the COVID-19 crisis, and (2) to advise potential recipients of this

temporary financial assistance to ensure it will not impact the recipients eligibility for, or result in loss of, any other income-tested benefits; and may be used for no other purpose. Furthermore, \$700,000 shall be for programs and services that provide language access support for low-income people who need help accessing and understanding federal, state and local assistance programs and may be spent for no other purpose. The Council intends the following:

1. Prior to the expenditure of any funds for direct financial assistance, the Executive will partner with CBOs who have a history of trust and success in reaching immigrant and refugee communities to provide such assistance, such as the organizations who worked with the City to distribute emergency grocery vouchers.
- 2 Assistance should include direct cash assistance, including pre-paid debit or credit cards, or other services to assist with basic living expenses. The maximum amount of financial assistance provided per individual will not exceed \$1,000.
3. CBOs will determine the eligibility, including criteria to confirm income eligibility, prioritizing those who experience structural or institutional barriers to accessing support from the government (e.g. language barriers, risk of deportation), are ineligible for other federal or state emergency assistance, or are receiving such assistance in a limited or delayed manner that does not meet their needs, or those who have had or whose families have had adverse health impacts from COVID. Requests for documentation of eligibility should comply with Seattle Municipal Code Section 4.18.015, should not impose an unnecessary burden on those applying for assistance, and should not unnecessarily delay the approval and distribution process.

G. Of the funding appropriated to the Office of Sustainability and Environment's Office of Sustainability and Environment (BO-SE-X1000) Budget Summary Level in the 2020 Adopted Budget, \$5.6 million shall be used to continue and expand the Emergency Grocery Voucher program

to allow more people participating in existing City programs to be served by this program and may be used for no other purpose. Existing City programs include, but are not limited to: Fresh Bucks, Utility Discount Program, Early Childhood Education and Assistance Program, Child Care Assistance Program, and the portion of the Seattle Preschool Program and the Pathway to Seattle Preschool Program that provide services to households that qualify for free tuition.

The Council intends that vouchers will be made available for use at grocery stores participating in the existing Emergency Grocery Voucher program and expanded to include other community grocers and farmers markets. The Council intends that the Executive will work with CBOs that currently enroll people in the Fresh Bucks program to expand the use of vouchers by identifying culturally appropriate neighborhood grocers to participate in the voucher program.

H. Of the funding appropriated to the Department of Finance and Administrative Services (FAS) City Finance (BO-FA-CITYFINAN) Budget Summary Level in the 2020 Adopted Budget, \$200,000 shall be used to implement and administer the payroll tax authorized in Ordinance 126108. This will ensure that proceeds from the payroll tax are collected and available to extend funding in 2021 for the COVID relief programs and services described in this ordinance and to replenish the Emergency Fund.

Section 3. Any action consistent with the authority of this ordinance taken prior to its effective date is ratified and confirmed.

Section 4. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by a 3/4 vote of all the members of the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this

____ day of _____, 2020.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
CBO/LEG		Adam Schaefer / 4-8358

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE amending Ordinance 126000, which adopted the 2020 Budget; repealing Ordinance 126149; making appropriations from the Emergency Fund and General Fund for public assistance during the COVID-19 civil emergency; and ratifying and confirming certain prior acts; all by a 3/4 vote of the City Council.

Summary and background of the Legislation: This legislation amends the 2020 Adopted Budget to provide relief to people and small businesses in Seattle suffering from the COVID-19 pandemic and resulting economic downturn. It repeals an earlier appropriations bill and appropriates money to assure sufficient fiscal reserves will be available for use in 2021, as the pandemic and its impacts are anticipated to be felt well into the year.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☐ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☒ Yes ☐ No

Appropriation change (\$):	General Fund \$		Other \$	
	2020	2021	2020	2021
	\$23,250,000		(\$37,147,433)	
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	2020	2021	2020	2021
Positions affected:	No. of Positions		Total FTE Change	
	2020	2021	2020	2021

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No.

Is there financial cost or other impacts of *not* implementing the legislation?

The City may not have sufficient fiscal reserves to assist people and small businesses suffering from the impacts of the COVID-19 pandemic in 2021.

3.a. Appropriations

X This legislation adds, changes, or deletes appropriations.

Finance General	Emergency Fund (10102)	Appropriation to Special Funds (10102-BO-FG-2QA00)	\$19,852,567
Executive (Office of Economic Development)	General Fund (00100)	Business Services (00100-BO-ED-X1D00)	\$2,700,000
Department of Education and Early Learning	General Fund (00100)	Early Learning (00100-BO-EE-IL100)	\$2,400,000
Human Services Department	General Fund (00100)	Addressing Homelessness (00100-BO-HS-H3000)	\$3,000,000
Executive (Office of Housing)	General Fund (00100)	Homeownership & Sustainability (00100-BO-HU-2000)	\$350,000
Executive (Office of Immigrant and Refugee Affairs)	General Fund (00100)	Office of Immigrant and Refugee Affairs (00100-BO-IA-X1N00)	\$9,000,000
Executive (Office of Sustainability & Environment)	General Fund (00100)	Office of Sustainability and Environment (00100-BO-SE-X1000)	\$5,600,000
Finance and Administrative Services	General Fund (00100)	Finance and Administrative Services (City Finance (00100-BO-FA-CITYFINAN)	\$200,000
Grand Total			\$43,102,567

Is this change one-time or ongoing?

While this is a one-time appropriation, the 2021 Proposed Budget will contain additional funds to be used for similar purposes in 2021.

Appropriations Notes: Any appropriated funds that are unspent in 2020 will carry forward to be used for similar purposes in 2021.

3.b. Revenues/Reimbursements

_____ This legislation adds, changes, or deletes revenues or reimbursements.

Revenue/Reimbursement Notes: Emergency Fund will be repaid with revenues generated from the new payroll tax. These revenues are anticipated in 2021.

3.c. Positions

_____ This legislation adds, changes, or deletes positions.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

Yes, appropriations are adjusted for the Office of Economic Development, the Department of Education and Early Learning, Human Services Department, Office of Housing, Office of Immigrant and Refugee Affairs, Office of Sustainability and Environment, and Department of Finance and Administrative Services.

b. Is a public hearing required for this legislation?

No.

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

No.

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

e. Does this legislation affect a piece of property?

No.

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

This legislation will provide funding to assist low income households (disproportionately represented by people of color), immigrant and refugee households, and small businesses significantly impacted by the COVID-19 pandemic. The loss of employment, health impacts, etc. related to the COVID-19 pandemic are having significant impacts for these households and businesses. State and Federal assistance is inadequate to meet the immediate needs and therefore the City must step in to provide resources to assist. This legislation will also preserve fiscal reserves for 2021 to meet need that is anticipated then.

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the 2021 Budget; authorizing Department directors to accept anticipated future grants and enter into revenue-backed service contracts to support appropriations in the 2021 Budget. WHEREAS, most grants to City departments are accepted in the quarterly supplemental budget ordinances, but

several are recurring and are assumed to be renewed in the annual budget; and

WHEREAS, grant appropriations typically carry forward unspent appropriation, backed by the revenue previously received; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Attachment A to this ordinance lists approximate appropriation amounts in the 2021 Budget (introduced as Council Bill _____) that are backed by anticipated future grants and service contracts. The Directors of City Departments listed in Attachment A are authorized to accept grants or revenue-backed service contracts consistent with the appropriations listed. Unspent funds so appropriated shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance.

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2020.

Monica Martinez Simmons, City Clerk

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
City Budget Office		Katherine Tassery/206-615-0703

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the 2021 Budget; authorizing Department directors to accept anticipated future grants and enter into revenue-backed service contracts to support appropriations in the 2021 Budget.

Summary and background of the Legislation: This bill authorizes City Department directors to accept grants and enter into revenue-backed service contracts anticipated as part of the 2021 Budget. Several departments routinely receive reliable funds from federal and state governments and other sources. The 2021 Budget relies on these revenues to back appropriations. Additionally, the appropriations backed by these sources will carry forward to subsequent budget years until exhausted.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes ___X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes ___X No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No.

Is there financial cost or other impacts of *not* implementing the legislation?
Not authorizing directors to accept these grants would impact the resources available to the City in 2021.

3.a. Appropriations

___ **This legislation adds, changes, or deletes appropriations.**

Appropriations Notes: The 2021 Budget contains appropriations backed by the anticipated grants authorized in this bill.

3.b. Revenues/Reimbursements

X This legislation adds, changes, or deletes revenues or reimbursements.

Revenue/Reimbursement Notes: See Attachment A to the ordinance for a list of all of the revenues anticipated as a result of this legislation.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

Several City Departments are authorized to accept future revenue as a result of this legislation.

b. Is a public hearing required for this legislation?

No.

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

No.

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

e. Does this legislation affect a piece of property?

No.

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

The revenues anticipated in this bill support a wide variety of City programs.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

N/A

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to fees and charges for permits and activities of the Seattle Department of Construction and Inspections, related fees by other departments, and technical corrections; amending Sections 22.900C.010, 22.900D.090, 22.900D.100, 22.900D.150, and 22.900G.010 of the Seattle Municipal Code (SMC); and repealing Section 22.900E.060 of the SMC.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 22.900C.010 of the Seattle Municipal Code, last amended by Ordinance 125982, is amended as follows:

22.900C.010 Land use fees

* * *

Table C-1 for 22.900C.010-LAND USE FEES	
A. MASTER USE PERMIT, ENVIRONMENTAL CRITICAL AREAS, CITY COUNCIL, APPROVALS	
Hours worked beyond those covered by minimum will be charged the Land Use hourly rate, unless at time of invoice.	
Type of Land Use Review	Minimum Fee
General-first 10 hours of review	Land Use Hourly × 10
Low-Income Housing-first 24 hours of review ¹	Land Use Hourly × 10
1. Administrative conditional uses (ACUs) ACUs for community centers, child care centers, adult religious facilities, and public and private libraries in single-family and multi-family zones shall for the first 20 hours. Additional hours shall be charged at the Land Use hourly rate. This except ACU only, or an ACU combined with a variance application.	
2. Design Review The minimum fee for Administrative Design Review, Master Planned Comm Design Review is \$3,940. The minimum fee for full Design Review is \$7,880, which covers the subsection 15 of this Table C-1 for 22.900C.010 for fees related to Design Review for Tree Prote	
3. Environmental reviews (SEPA), including projects with more than one addressed site.	

4. Environmentally critical areas (ECA)	
a. Environmentally Critical Areas variance ²	
b. ECA Exception	
c. Environmentally Critical Areas Administrative Conditional Use	
5. Shoreline permits	
a. Substantial development permits	
b. Variances ² and conditional uses	
6. Short subdivisions ³ ; refer to subsection 10 of Table D-2 for 22.900D.010 for additional fees t	
7. Special exceptions	
8. Variances ² Variances for community centers, childcare centers, adult care centers, private sch and private libraries in single-family and multi-family zones shall be charged a minimum fee of \$ Additional hours shall be charged at the Land Use hourly rate. This exception applies if the appli variance combined only with an ACU application.	
9. Type II land use approvals such as, but not limited to, planned community/residential develop and other Type II approvals that are not categorized otherwise in this Table C-1 for 22.900C.010	
10. The minimum fee for Council conditional uses, Rezones, Public Projects, and all other Type shall be \$7,880, which covers the first 20 hours of review.	
11. Full subdivisions ⁴ ; refer to subsection 10 of Table D-2 for 22.900D.010 for additional fees t	
12. Reserved	
13. Reserved	
B. MISCELLANEOUS HOURLY LAND USE REVIEWS, RESEARCH, AND OTHER SE	
Hours worked beyond those covered by minimum will be charged the Land Use hourly rate, unles time of invoice.	
Type of Land Use Review	Minimum Land Use Review Fee
14. Concurrency	Reserved
15. Design Review for Tree Protection ⁵	
a. Design review required by Section 25.11.070 25.11.080 to protect exceptional tree if no other are required	Land Use Hourly × 10
b. Design review elected by applicant for tree p	Land Use Hourly × 10
16. Other Environmentally Critical Area (ECA) and site visit under Chapter 25.09 or Chapter 23 but not limited to:	Land Use Hourly × 1
a. ECA review for Wetlands, Fish, & Wildlife Conservation Areas on land use or construction charged on an hourly basis	

b. Review to determine Environmentally Critical for Wetlands and Riparian Corridor and Shoreline charged on an hourly basis	
c. Other miscellaneous ECA reviews, inspection required by code or as a condition of approval shall be charged on an hourly basis	
17. Early design guidance	Land Use Hourly × 10
18. Establishing use for the record: Refer to subsection D-2 for 22.900D.010 for additional fees that may apply to this permit type	Land Use Hourly × 2
19. Extensions of Type IV Council Land Use Development	Land Use Hourly × 2
20. Land Use Code Interpretations ⁶	Land Use Hourly × 10
21. Letters for detailed zoning analysis or permit	Land Use Hourly × 4
22. Lot Boundary Adjustment, Temporary Use > subsection 10 of Table D-2 for 22.900D.010 for that may apply to this permit type	Land Use Hourly × 5
23. Major Institution - review of annual plan	Land Use Hourly × 6
24. Major phased development permit - minor amendment	Land Use Hourly × 2
25. Neighborhood planning	Reserved
26. Noise survey review and variance	See Table F-2 for 22.900F.020, Noise Fees
27. Open space remainder lots and surplus state	Land Use Hourly × 4
28. Pre-application conference ⁷	Land Use Hourly × 2
29. Property Use and Development Agreement (amendment)	Land Use Hourly × 2
30. Public benefit feature review	Land Use Hourly × 2
31. Renewals	Land Use Hourly × 2
32. Revisions other than shoreline revisions	Land Use Hourly × 1
33. School use and school development advisory reviews	Land Use Hourly × 10
34. Shoreline exemptions	Land Use Hourly × 1
35. Shoreline permit revisions not due to required	Land Use Hourly × 2
36. Special accommodation	Land Use Hourly × 2
37. Structural building overhangs and areaways component	Land Use Hourly × 2

38. Tree and Vegetation Restoration Review in minimum threshold where SEPA is not required restoration (subsection 25.09.070.E.1.b)	Land Use Hourly × 2
39. Street Improvement Exceptions on a Land Use	Land Use Hourly × 2
40. Hazardous Tree Removal	Land Use Hourly × 1
41. Zoning Coaching	Land Use Hourly × 1
C. NON-HOURLY LAND USE FEES	
Type of Land Use Review	Fee
((41)) 42. Curb cuts as a separate component	
a. Single-family residential	\$94.65 each
b. Other than single-family residential	\$187.15 each
((42)) 43. File Management	SDCI Base Fee × 1
a. Placing projects on hold at applicant request	
b. Splitting or combining projects	
((43)) 44. Intake appointments for land use review for each occurrence	SDCI Base Fee × 1
((44)) 45. Notice. All notice is charged based up occurrence. ⁸	
a. Land use information bulletin (GMR notice)	SDCI Base Fee × 1
b. Posting large sign or placards	\$143.10
c. Mailed notice	SDCI Base Fee per 500 pieces of mail or portions thereof
d. DJC decision publication	\$224.50
e. Neighborhood newspaper publication	Rate charged by newspaper
f. Public meeting room rental	\$144.20
((45)) 46. Rebuild Letters	
a. With research	SDCI Base Fee × 1
b. Without research	\$48.40
((46)) 47. Records research by the Public Resources	SDCI Base Fee × 1
((47)) 48. Recording Fees, for LBA or Short Sub	Rate charged by King County ⁹
((48)) 49. Shoreline Extensions	SDCI Base Fee × 1
((49. Zoning Coaching))	((SDCI Base Fee × 1))

Footnotes to Table C-1 for 22.900C.010: ¹ For purposes of these land use fees, low-income housing is defined as "housing, low income" in Section 23.84A.016; and (2) where at least 50 percent of the structure on the site is committed to low-income housing use for at least 20 years. ² The single variance applies whether the project requires one or multiple variances. ³ Includes short subdivisions in environmentally critical areas. ⁵ This fee applies if design review is required and the application has no other review under Items 1-14. ⁶ The fees for interpretation of 25.21, 25.22, 25.24, and 25.30 shall be collected by the Director of the Department of Neighborhoods. The conference fee covers a one-hour conference and one hour of research and/or follow-up review time of two hours. Additional pre-application review time will be charged at the Land Use hourly rate. ⁸ Additional notice may be given in circumstances including but not limited to the following: reissues; reposting of the land use review or environmental signs; new component reviews added subsequent to revised decisions; and changes to the scope of the project. ⁹ Recording fees will be charged the same as by King County at the time of document recording.

Section 2. Section 22.900D.090 of the Seattle Municipal Code, last amended by Ordinance 125982, is amended as follows:

22.900D.090 Permit fees for mechanical equipment and systems, other than boilers and pressure vessels and refrigeration systems

* * *

Table D-8 for 22.900D.090 - PERMIT FEES FOR MECHANICAL EQUIPMENT	
Type of Installation	Fee
Forced air, gravity-type, or floor furnace, gas or oil burner, heat pump, recessed wall heater or floor heater, wall furnace, circulating heater or woodstove insert including ducts and burners attached thereto	((((\$148.20)) \$118.55 per unit
New gas or oil burners and newly installed used gas or oil burners ¹	\$148.20 per unit
Appliance vents Class A, B, BW, or L if installed separately	\$117.50 per unit
Mechanical air-moving systems	See Table D-2 for 22.900D.010
Appliances or equipment or other work not classified in the above categories, or for which no other fee is listed	Hourly at the SDCI hourly rate. Minimum of 1/2 hour
Footnote to Table D-8 for 22.900D.090 ¹ See Table D-12 for 22.900D.110 for rates for burners	

Section 3. Section 22.900D.100 of the Seattle Municipal Code, last amended by Ordinance 125982, is amended as follows:

22.900D.100 Refrigeration equipment and systems

* * *

Table D-10 for 22.900D.100 - REFRIGERATION PERMIT FEES ¹	
Type or Size of System/Equipment	Fee
Basic fee²	(((\$69.85)) <u>\$55.90</u>
Additional installation fee per compressor	
0-5 tons	\$69.85
6-25 tons	\$141.85
26-100 tons	\$265.65
101-500 tons	\$374.65
Over 500 tons	\$455.10
Repair and alteration (value of work)	
\$0 - \$1,000	\$69.85
\$1,001 - \$5,000	\$101.60
\$5,001 - \$10,000	\$175.70
Over \$10,000	\$173.55 plus \$69.85 each \$5,000 or fraction the of valuation above \$10,000
Footnotes to Table D-10 for 22.900D.100 ¹ Where the application for permit shows horsepower rather than cooling tonnage, the fees of this table shall apply at a rate of one horsepower equals one ton of cooling capacity. ² The basic fee applies to new installations, repairs, and alterations.	

Section 4. Section 22.900D.150 of the Seattle Municipal Code, last amended by Ordinance 125982, is amended as follows:

22.900D.150 Electrical permit fees

	60-125A	1/2 × base fee
	150A & less	3/4 × base fee
	400A	plan review required
4. Connections, Devices, and Branch Circuits ²		
a. Connections		Fee

Light outlet, switches, dimmers, receptacles, luminaires, residential-type fans	\$2.15 each
Track lighting or multi-outlet assembly	\$2.15 for each
b. Devices and Branch Circuits	Fee
Non-electrical furnace	\$17.15 each
Dedicated appliances & utilization circuits (cord and plug or direct wired):	
(15-50A) Ranges, water heaters, etc.	\$17.15 each
Floodlight ³	\$7.80 each
Sign circuit (required for commercial spaces)	\$44.20 each

5. Transformer Installations³	Fee
Up to 300 VA	\$7.80
300 VA to 6 KVA	\$17.15
7 KVA to 15 KVA	\$52.50
16 KVA to 45 KVA	$1/2 \times \text{base fee}$
46 KVA to 112.5 KVA	$3/4 \times \text{base fee}$
≥ 113 KVA	$1 \times \text{base fee}$
6. Motor Installations	Fee
Up to 1/3 HP	\$7.80
1/3 HP to 3/4 HP	\$17.15
1 HP to 3 HP	\$25.70
4 HP to 5 HP	\$33.40
6 HP to 20 HP	$1/4 \times \text{base fee}$
21 HP to 50 HP	$1/2 \times \text{base fee}$
≥ 51 HP	$3/4 \times \text{base fee}$
7. Electrical Furnaces and Heaters	Fee
Up to 2 KW	\$7.80

2 KW to 5 KW	\$17.15
6 KW to 15 KW	\$22.10
16 KW to 30 KW	$1/4 \times \text{base fee}$
31 KW to 100 KW	$1/2 \times \text{base fee}$
$\geq 101 \text{ KW}$	$3/4 \times \text{base fee}$
8. Low-voltage and Communication Systems	Fee
a. Low-voltage systems ⁵ - sound systems, security systems, fire alarms, nurse call, industrial controls, and similar	Requires sep each system
Control unit	\$13.35 each
Device (activating, horn, alarm, etc.)	\$2.15 each
Control systems (> 100 volts) shall be based on the feeder schedule.	

b. Communications systems ⁶ - voice cable, data cable, coaxial cable, fiber optics, and similar	The maximum
Control unit	\$13.35
Outlet	\$2.15 each
9. Special Events	
a. Inspections occurring during normal business hours - Hourly at the SDCI hourly rate; minimum 1/2 hour	
b. Inspections occurring outside normal business hours - Hourly at the SDCI hourly rate; minimum 1 1/2 hour	

10. Inspection s for which no other fee is listed; including but not limited to Condition al Work and "Get Started" permits	Fee
Each	Hourly at the minimum 1/2
11. Renewable Energy Systems (photovolt aic, wind power generation , etc.)	Fee
0 KW to 7.7 KW	3/4 × base fe
> 7.7 KW to 26 KW	1 × base fee
Over 26 KW	Plan review
12. Size overcurre nt protection for Electrical Vehicle (EV) charging stations	

Select fee for each charger to be installed.	Charging Station Level 2A (120-240 V)	Charging Station Level 3
15 TO 25 AM P CH G STA TION	\$17.05	$1/4 \times \text{base fee}$
30 TO 50 AM P CH G STA TION	\$35.70	$1/4 \times \text{base fee}$
60 TO 125 AM P CH G STA TION	$1/2 \times \text{base fee}$	$1/2 \times \text{base fee}$

150 TO 225 AM P CH G STA TIO N	$\frac{3}{4} \times \text{base fee}$	$1 \times \text{base fee}$
250 TO 400 AM P CH G STA TIO N	Requires plan review.	Requires plan review.
OV ER 450 AM P CH G STA TIO N	Requires plan review.	Requires plan review.
13. Selective Coordination Study Review - SDCI hourly rate, 1 hour minimum

((22.900E.060 Registration of special inspectors

~~A. The fee for the initial examination of an applicant for registration as a registered special inspector, including the special inspector certificate of registration, shall be charged at the rate of 1.5 times the base fee.~~

~~B. Special inspectors who wish to be registered for additional categories shall take an examination for each new category. The fee for each additional examination shall be charged at the rate of one times the base fee.~~

~~C. The fee for renewal of a special inspector certificate of registration covering one or more types of inspection for which the registrant has been qualified is \$60.50.~~

~~D. The fee for a special inspector to repeat an examination shall be charged at the rate of one times the base fee.))~~

Section 6. Section 22.900G.010 of the Seattle Municipal Code, last amended by Ordinance 125704, is amended as follows:

22.900G.010 Fees for Department of Neighborhoods review

The following fees shall be collected by the Director of the Department of Neighborhoods and deposited in the General Fund unless otherwise specified.

A. Certificate of ~~((Approval Fees))~~ approval fees. There is a charge for a certificate of approval as required by all applicable ordinances for the construction or alteration of property in a designated special review district, Landmark, Landmark District, or historic district of \$25 for construction costs of \$1,500 or less, plus \$10 for each additional \$5,000 of construction costs, up to a maximum fee of \$20,000, except that the maximum fee for a certificate of approval shall be \$4,000 if for construction or alteration involving: a structure and retaining some portion of that structure; or a new or existing structure including housing financed, in whole or in part, by public funding; or a new or existing structure that elects the MHA performance option according

to Sections 23.58B.050 or 23.58C.050. If an applicant applies for a certificate of approval for the preliminary design of a project and later applies for a certificate of approval for a subsequent phase or phases of the same project, a fee shall only be charged for the first application. There is an additional charge of \$25 for a certificate of use approval in the Pioneer Square Preservation District, the Pike Place Market Historical District, and the International Special Review District.

B. Special (~~(Valuation Program for Historic Properties)~~) valuation program for historic properties.

There is a charge of \$250 for review by the Seattle Landmarks Preservation Board of applications for special tax valuation for historic properties pursuant to the Historic Property Act (chapter 84.26 RCW (~~(Chapter 84.26~~))). A fee for Board review of proposed alterations to historic properties shall be charged according to the schedule of fees set forth in subsection 22.900G.010.A (~~((Certificate of Approval Fees))~~).

C. Public School Citizen Advisory Committee (~~(Fees)~~) fees. There is a charge of (~~(\$100)~~) \$123 an hour for convening and staffing School Use Citizen Advisory Committees and School Departure Citizen Advisory Committees.

D. Major Institution Citizen Advisory Committee (~~(Fees)~~) fees. The fee for convening and staffing of Citizen Advisory Committees for the routine annual review of approved master plans and/or the review of master plan amendments is (~~(\$100)~~) \$123 an hour. The fee for convening and staffing of Citizen Advisory Committees for new master plans and for amendments to master plans is (~~(\$100)~~) \$123 an hour.

E. Environmental (SEPA) review of projects. Review of referrals pursuant to subsections 25.05.675.H.2.c and 25.05.675.H.2.d by the City Historic Preservation Officer is charged at (~~(\$288)~~) \$394 an hour.

F. Landmark reviews. Review of a building, site, or object's eligibility as a Seattle landmark pursuant to subsection 25.05.800.B or upon request is charged at (~~(\$288)~~) \$394 an hour.

G. Requests for reviewing character structure TDP sending sites in the Pike/Pine Conservation Overlay District. The Department of Neighborhoods' hourly review fee is (~~(\$288)~~) \$394 an hour for determining

whether a character structure may, if requested by a property owner, be added to the list of character structures in the Seattle Department of Construction and Inspections Director's Rule promulgated according to Section 23.73.005.

Section 7. Sections 1 through 6 of this ordinance shall take effect on January 1, 2021.

Section 8. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
SDCI	Shane Muchow/206-684-7396	Christie Parker / 206-684-5211

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to fees and charges for permits and activities of the Seattle Department of Construction and Inspections, related fees by other departments, and technical corrections; amending Sections 22.900C.010, 22.900D.090, 22.900D.100, 22.900D.150, and 22.900G.010 of the Seattle Municipal Code (SMC); and repealing Section 22.900E.060 of the SMC.

Summary and background of the Legislation:

This legislation revises a portion of SDCI's fees and charges beginning on January 1, 2021. The majority of SDCI's fees and charges were last revised effective January 1, 2020 based on the City of Seattle's Annual Wage Increase (AWI) for 2020, which was estimated at 4%. The proposed 2021 fee revisions include changes to electrical, refrigeration and furnace fees. SDCI has determined these cost centers have sufficient revenue streams warranting a decrease in fee levels. SDCI is also making a technical change to correct the placement of an existing fee, the Zoning Coaching fee, from Non-Hourly Land Use Fee to Miscellaneous Hourly Land Use Reviews, Research and Other Services. Finally, this legislation repeals an out-of-date Special Inspectors application registration fee.

SDCI is primarily fee-supported and its fees and charges are necessary to support SDCI's permitting operations. All fees collected by SDCI for processing SDCI's permits are used for that purpose, and the fee structure is reflective of the Seattle Municipal Code requirements to recover the cost of providing the permitting service. Similarly, other fees are set to recover the costs of certain code enforcement activities. This legislation will help ensure that the fees that SDCI collects are in line with the services provided.

Additionally, SDCI is making legislative changes on behalf of the Department of Neighborhoods (DON) for fees they collect which are located in Title 22. These changes include fee increases to align with SDCI's Land Use Hourly rate as well as CPI adjustments to fees that have not been adjusted for over 10 years. These changes will not have a revenue impact to SDCI. See response to Question 4.a.

Attachment A to this Summary and Fiscal Note, "SDCI Permit Fee and Charges proposed for 2021" provides a summary of all SDCI fees affected by this proposed ordinance, and proposed changes for 2021. Prior to proposing this legislation, these fees were reviewed to determine whether the cost of providing the service warrants a fee change, if improvements to the fee structure are necessary, or if new fees are required.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Appropriation change (\$):	General Fund \$		Other \$	
	2021	2022	2021	2022
	\$0	\$0	\$0	\$0
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	2021	2022	2021	2022
	\$30,220	\$30,220	(\$430,000)	(\$428,719)
Positions affected:	No. of Positions		Total FTE Change	
	2021	2022	2021	2022
	0	0	0	0

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No.

Is there financial cost or other impacts of *not* implementing the legislation?

Not implementing this legislation as proposed would create a situation where the revenues SDCI collects through fees would exceed the cost of providing permitting services.

3.a. Appropriations

☐ This legislation adds, changes, or deletes appropriations.

3.b. Revenues/Reimbursements

☒ This legislation adds, changes, or deletes revenues or reimbursements.

SDCI Anticipated Revenue/Reimbursement Resulting from this Legislation:

Fund Name and Number	Dept	Revenue Source	2021 Estimated Change in Revenue
Construction and Inspections Fund (48100)	SDCI	Boiler	\$0
Construction and Inspections Fund (48100)	SDCI	Building Development	\$0
Construction and Inspections Fund (48100)	SDCI	Electrical	(\$170,000)
Construction and Inspections Fund (48100)	SDCI	Elevator	\$0
Construction and Inspections Fund (48100)	SDCI	Land Use	\$0
Construction and Inspections Fund (48100)	SDCI	Noise	\$0
Construction and Inspections Fund (48100)	SDCI	Other Miscellaneous	\$0
Construction and Inspections Fund (48100)	SDCI	Refrigeration & Furnace	(\$260,000)
Construction and Inspections Fund (48100)	SDCI	Signs	\$0
Construction and Inspections Fund (48100)	SDCI	Site Review & Development	\$0
TOTAL			(\$430,000)

DON Anticipated Revenue/Reimbursement Resulting from this Legislation:

Fund Name and Number	Dept	Revenue Source	2021 Estimated Change in Revenue
General Fund (00100)	DON	Major Institutions Fees	\$6,900
General Fund (00100)	DON	MUP/SEPA Fees	\$23,320
TOTAL			\$30,220

Is this change one-time or ongoing?

On-going.

3.c. Positions

☐ This legislation adds, changes, or deletes positions.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

Yes. The legislation adjusts fees in Title 22 for the Department of Neighborhoods. Adjustments include an increase to the hourly project review fees charged by Historic Preservation staff from \$288 to \$394 to align with SDCI's current Land Use Review hourly

fee and to better capture the true cost of staff time incurred by DON. DON also increases the hourly fees charged by the Major Institutions/Schools team from \$100 to \$123 to account for CPI adjustments over the past 10+ years (the last fee increase was implemented in January 2009). The proposed changes will not have a revenue impact to SDCI.

b. Is a public hearing required for this legislation?

No.

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

No.

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

e. Does this legislation affect a piece of property?

No.

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

By regularly reviewing fees, SDCI is able to ensure that the fees it sets appropriately cover the costs of the services it provides. After a thorough review and discovery of efficiencies in processes, SDCI is able to reduce fees in the proposed programs, making the application and permitting process more affordable to the community. Reducing permit fees in electrical, refrigeration and furnace will positively impact communities of color and historically disadvantaged communities, many of whom are small business owners. The DON increases do not result in a disproportionate or disparate impact for any customer, including customers from vulnerable or historic disadvantaged communities.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

This legislation does not include a new initiative or major programmatic expansion.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the Department of Parks and Recreation; establishing the 2021-2022 fee schedule for the use of park properties and other park and recreation facilities and services; and superseding previous park and recreation fee schedules.

WHEREAS, on November 25, 2019, the Seattle City Council approved Ordinance 125984, which established the 2020 fee schedule for the use of park properties and other park and recreation facilities and services and superseded previous park and recreation fee schedules; and

WHEREAS, the City Council wishes to adopt a 2021-2022 Seattle Parks and Recreation Fee Schedule effective January 1, 2021; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Effective January 1, 2021, the Superintendent of the Department of Parks and Recreation is authorized to charge the fees substantially in the form set forth in the 2021-2022 “Seattle Parks and Recreation Fee Schedule,” attached as Attachment 1 to this ordinance. All prior Seattle Parks and Recreation fee schedules are superseded.

Section 2. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if

not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by
me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2020.

Monica Martinez Simmons, City Clerk

SEATTLE PARKS AND RECREATION FEES AND CHARGES

AUTHORITY AND GENERAL PROVISIONS

- **Authority**

Fees and charges are necessary to provide financial support to the Seattle Parks and Recreation (the Department) for the operation and maintenance of programs, facilities, and park grounds. The revenue generated by these fees constitutes only a portion of funds required for operating and maintaining the Park System. All fees collected from park and recreation activities and concessions are used exclusively for the Park System, as these funds are deposited in the Park and Recreation Fund, not the City General Fund. Fees and charges are proposed each year by the Department as a part of the annual budget process. Both the Mayor and City Council review and, by ordinance, authorize the Department to collect these fees and charges.

- **General Provisions**

The Superintendent of the Seattle Parks and Recreation is authorized to establish a fee for requested uses not included in this schedule, keeping the Mayor and the City Council advised thereof. The Superintendent of the Seattle Parks and Recreation is authorized, as provided in Seattle Municipal Code (SMC) Chapter 18.28, to waive or reduce any fees in this Schedule.

The Superintendent of the Seattle Parks and Recreation is authorized, as provided in SMC Chapter 18.28, to establish experimental rates, and to engage in special promotional and marketing activities to enhance Departmental programs. These include, but are not limited to, use of 2 for 1 coupons, 50% discount coupons and free admission days for children. Discounts for Senior Adults (age 65 and over) vary per program. These types of activities may occur at various Department facilities throughout the year.

The Superintendent of the Seattle Parks and Recreation is authorized, as provided in SMC Section 18.24.010, to operate for fee parking without recourse to commercial or private operators such parking lots under the Department's jurisdiction as are deemed desirable with the concurrence of the City Council by resolution as to location and fee schedule, consistent with provisions of RCW 35.86.010 and 35.86.040 which so permit such owner operation.

The Superintendent of the Seattle Parks and Recreation is authorized, as provided in SMC Chapters 18.04 and 18.28, to approve the free use of Department facilities by the Associated Recreation Council, recognized recreation advisory councils, and other organizations that are open to the public, that further Department goals and programs, and that apply any proceeds to Park and Recreation services.

In addition to the fees and charges identified herein, the user may be required to pay any additional Department costs resulting from such use, and to pay a reasonable portion of the City's costs for traffic control and police services when the user's event requires them. Cancellation of reservations for Parks and Recreation facilities or services may result in loss of payment or a service charge (see Appendix D). For further information, contact Seattle Parks and Recreation at (206) 684-4075.

Fees contained in this Fee Schedule shall not apply to permits issued pursuant to SMC Chapter 15.35 "Filming."

STAFFING FEES

Rentals are required to have at least one staff in attendance. If additional staff are required due to the nature of the event or the anticipated attendance, a fee of \$30.00 will be multiplied by the number of staff required for the event. Additionally, staff rates increase 1½ times per hour on holidays.

Staffing fees are applicable at:

- Tateuchi Community Room
- Shoseian Tea House
- West Seattle Stadium
- Interbay Stadium
- Lower Woodland #1 Field, when using scoreboard
- Gymnasium rentals
- Boathouse, Bathhouse, Shelterhouse, and Pumphouse Rentals
- Magnuson Park (Event attendants)
- Park Area Ceremonies (Ceremony attendants) – Additional staff fees will be charged when wedding or ceremony is large and/or complex

ADMISSION FEES

QUICK CARDS

- **Seattle Parks and Recreation “Quick Cards”**

This reusable card features a barcode and photo of the participant. It allows fast, easy, self-service access to a variety of selected fee-based or free programs (recreational swims, fitness swims, weight room access, teen centers, etc.) at various facilities. This non-refundable, non-transferrable card can be reloaded, renewed, or added with new features/programs as desired or as they become available. There is a \$5.00 replacement fee for lost or stolen cards. For further information, call the Business Service Center at (206) 684-5177.

GOLF COURSES

- **Interbay, Jackson, Jefferson and West Seattle Golf Courses**

The Superintendent of the Seattle Parks and Recreation is authorized to establish all greens fees and all other golf facility or service fees (including, but not limited to, driving range, carts, cars, play cards, lessons, and room rentals) consistent with and subject to the contract entered into with Premier Golf Centers, LLC (Premier), as authorized by separate ordinance. Golf program fees will be prominently posted at all times in each clubhouse. Call the following for further information:

Interbay	(206) 285-2200
Jackson	(206) 363-4747
Jefferson	(206) 762-4513
West Seattle	(206) 935-5187

- **Green Lake Pitch & Putt**

Green Lake Pitch & Putt is operated through a concessions contract. Therefore, fees for participation at this facility are not governed by City Ordinance. You may contact Green Lake Pitch & Putt directly at (206) 632-2280, or the Business Resources Unit of the Seattle Parks and Recreation at (206) 684-8008, to obtain specific information related to this facility.

SEATTLE AQUARIUM

- **Aquarium Fees**

All admissions, services rendered or sales made to the public or otherwise at the Aquarium (including, but not limited to, admission fees, annual memberships, rentals, education program fees, and discounts/other programs) will be established by the Seattle Aquarium Society (“SEAS”), consistent with and subject to City Ordinance 123205 and Article 13 of the Seattle Aquarium Operations and Management Agreement. You may contact the Seattle Aquarium directly at (206) 386-4300 to obtain further information or by visiting their web page at “seattleaquarium.org”.

VOLUNTEER PARK CONSERVATORY

- **Weddings / Photography Permits**

Weddings and special ceremonies may be scheduled (see page 29) and/or Photography Permits (to be used outside of public hours) may be obtained (see page 33) through the Parks Event Scheduling unit by calling (206) 684-4081.

- **Admissions Fee**

2021	2022	<i>Note: Classroom sessions scheduled during open hours <u>must</u> be scheduled in advance. Contact the Conservatory for scheduling and fee information.</i>
\$4.00	\$4.00	Adult/Senior Admission Fee

- **Public/Private School Group Rate for Grades K through 12**

Organized groups of children attending an educational institution with grades K through 12 are entitled to this group fee during the regular school year, if advance reservations are made (a minimum of two weeks’ notice is required for advanced reservations). Group rates are not extended to colleges, universities, or day-care facilities.

One responsible adult is required for every group of students, as indicated in the following ratios:

1:5 for grades K – 2 2:24 for grades 7 – 8
1:10 for grades 3 – 6 1:24 for grades 9 - 12

2021	2022	
\$25.00	\$25.00	Group rate for pre-registered educational K-12 groups of 25 students; includes up to 5 adults chaperoning the group
\$12.50	\$12.50	Add for each additional group size of 1 to 12 students

• Annual Pass

Annual family/dual passes include unlimited admission, during regular operating hours, for all members of an immediate family living in the same household, defined as two adults (guardians) and their children. The Dual pass also allows a parent pass holder to bring an adult guest, when the second parent pass holder is not present. Individual, Student, and Photographer annual passes include unlimited admission, during regular operating hours, for the person whose name appears on the pass. ID may be required upon entry.

2021	2022	Annual passes are valid for 12 months from date of purchase
\$20.00	\$20.00	Annual Pass, Individual
\$30.00	\$30.00	Family/Dual Annual Pass
\$15.00	\$15.00	Annual Pass, Student (with current ID)
\$75.00	\$75.00	Annual Pass, Photographer

• Guided Tours

The Japanese Garden Advisory Council, in cooperation with Unit 86 of the Arboretum Foundation, provides sponsor-guided tours of the Garden. Fees are established by the Advisory Council and may be obtained by calling (206) 684-4725.

• Meeting Rooms

NOTE: Rentals of the Tateuchi Community Room and the Shoseian Tea House are located within and administered through the Seattle Japanese Garden. There are use restrictions due to the quiet contemplative nature of the garden as well culture considerations in the Tateuchi Community Room.

Rentals of the Tateuchi Community Room and the Shoseian Tea House do not include access to the garden; therefore, admission fees are required for garden access.

Tateuchi Community Room

2021	2022	
\$35.00	\$35.00	Small Room

- **Aquatic Facility Rental Fees**

General Swimming Pool Rentals (other than Competitive Sports)

2021	2022	
\$30.25	\$30.25	Non-refundable booking fee required for all rentals in addition to hourly rates.
\$200.00	\$200.00	Damage deposit for all rentals where equipment is brought into the facility.
\$31.00	\$31.00	Hourly lifeguard staff costs (per lifeguard), in addition to pool rental fee (staff rates increase 1½ times per hour on holidays)

\$94.75	\$94.75	Indoor pool or half of Rainier Beach Pool (either the lap pool or the leisure pool) rental cost per hour when pool is scheduled to be closed to the public, plus staff costs. <i>Calculation for a per lane rental rate when entire pool is used = dividing the cost per hour by the number of lanes and rounding up to the next whole dollar.</i>
\$47.50	\$47.50	Hourly indoor pool rate for shallow end only in bulkhead pools when deep end is in use. This fee applies to Madison and Medgar Evers aquatic facilities.
\$315.25	\$315.25	Indoor Pool rental, per hour, when pool is scheduled to be open to the public, plus staff costs
\$147.25	\$147.25	Colman Pool rental, per hour, plus staff costs (exclusive use) Note: Colman Pool is an 8 lane, 50-meter pool with a slide
\$157.75	\$157.75	Mounger Pool or Rainier Beach Pool rental, per hour, plus staff costs (exclusive use, including all pools & slide)

Swimming Pools – Competitive Sports Rentals

2021	2022	<i>(see notes on following page for more information)</i>
\$30.25	\$30.25	Non-refundable booking fee required for all rentals in addition to hourly rates.
\$200.00	\$200.00	Damage deposit for all rentals where equipment is brought into the facility.
\$31.00	\$31.00	Hourly lifeguard staff costs (per lifeguard), in addition to pool rental fee (staff rates increase 1½ times per hour on holidays)
\$89.50	\$89.50	Beginning Swim Team for youth – introductory beginning level, per hour for all lanes, offered at a reduced price to encourage use by new youth competitive sports programs. <i>Pricing offered on a quarterly basis at which time swimmers advance to standard rates.</i> ^A
\$115.75	\$115.75	Indoor competitive sports rental (between 6am-8pm) cost per hour when pool is scheduled to be closed to the public, plus staff costs. ^{A,B}
\$58.00	\$58.00	Hourly indoor competitive sports (between 6am-8pm) rate for shallow end only in bulkhead pools when deep end is in use, plus staff costs. This fee applies to Madison and Medgar Evers aquatic facilities. ^B
\$105.25	\$105.25	Indoor competitive sports rental (between 8pm-6am) cost per hour when pool is scheduled to be closed to the public, plus staff costs. ^{A,B}
\$49.25	\$49.25	Hourly indoor competitive sports (between 8pm-6am) rate for shallow end only in bulkhead pools when deep end is in use, plus staff costs. This fee applies to Madison and Medgar Evers aquatic facilities. ^B
\$231.25	\$231.25	Indoor pool competitive sports rental or Swim Meet, per hour, when pool is scheduled to be open to the public, plus staff costs. ^B

\$200.25	\$200.25	Colman Pool competitive sports rental, per hour, plus staff costs (exclusive use) Note: Colman Pool is an 8 lane, 50-meter pool with a slide. ^B
----------	----------	--

^A NOTE: Calculation for a “per lane” rental rate when entire pool is used = dividing the cost per hour by the number of lanes and rounding up to the next whole dollar.

^B NOTE: “Competitive sports” rates apply to swim teams, masters, and water polo.

NOTE: Individuals and groups desiring to use swimming pools will be expected to pay the cost of staffing in addition to program rates established. Staff rates increase 1½ times per hour on holidays.

NOTE: Rates also apply to Metro or King County League swim meets for events that do not include a Seattle Public School. Events that include a team from a Seattle Public School are covered under the Joint Use Agreement and are not charged a swim meet fee. Staff fees are additional (staff rates increase 1½ times per hour on holidays).

NOTE: There is an hourly flat-rate charge for competitive meets, with no additional percentage charges for the event (no percentage collected for entry fees and heat sheet sales).

NOTE: Swim meet entry fees and sale of heat sheets are included in base fee for each event.

NOTE: Permit Application Fee as established in **Use Permits** section of Fees and Charges ordinance will apply plus 10% of gross revenue for **all Admissions and Swim Meet Concessions** (food/drink, t-shirts, goggles, etc). Additional insurance and/or permits may be required.

NOTE: Deck or lobby rentals priced as small room under Class C room rentals.

NOTE: Bulkhead pool rentals during public hours are limited to lap pool or shallow pool, not both, unless specific fees are charged.

Timing System Rental

2021	2022	
\$400.00	\$400.00	Minimum 4-hour use
\$100.00	\$100.00	Each additional hour
\$31.00/hr	\$31.00/hr	Additional staff charge for delivery, set up, operation and clean-up (staff rates increase 1½ times per hour on holidays).

Note: The timing system is available for rentals at most Seattle Parks and Recreation swimming pools. Some limitations may apply.

Special Use Fees

2021	2022	
10% of gross sales on Parks property	10% of gross sales on Parks property	If, in the course of the activity/event, charges are levied for admission, sales, concessions, or entry fees, the user will be subject to a minimum charge of 10% of the gross receipts.
\$1.00	\$1.00	Water Slide Use Fee per person for recreation swims over one hour in length; no charge if one hour or less.

\$2.00 – 50.00	\$2.00 – 50.00	Supplemental Special Event fee (indoor or outdoor), depending on event, such as open water swim, dive-in movies, jazz night, etc.
\$15.00	\$15.00	Dog Swim Special Event – <i>scheduled immediately prior to preventative maintenance closure. Limited to dogs only in the pool. No charge for spectators.</i>
\$0.25	\$0.25	Coin Operated Locker
\$0.50	\$0.50	Towel use, each
Market Value	Market Value	All merchandise sold at Mounger Pool will be at market value. Merchandise may vary throughout the season. NOTE: While this is a “City fee” at Mounger Pool, this fee is collected by the Associated Recreation Council at all other pools.

Special Provisions

Colman and Mounger Pools:

Admission fees to these facilities are charged to all persons entering pool area, even if not swimming (except parents watching children in lesson programs). Use of the pools, decks and picnic areas is part of the overall recreation opportunity; pool capacity is based on use of this area.

- **Special Programs**

Super Deluxe Birthday Party Package

A complete birthday party package at pools includes one-hour shared use in a section or portion of the pool, a one-hour party immediately following your water time in a designated party space (room, deck, or lobby), lifeguards, one pre-packaged juice, paper products and party goodie bags for each enrolled child. (Food items not included.) NOTE: Booking Fee does not apply to this program when operated during public business hours, and is not for exclusive use nor rental). Maximum party size is 20 children and 20 adults. Adults are included in the party package without charge as spectators and/or as in-water assistants for children who are weak swimmers, under height, or below age requirement. Adult in charge of party is responsible for all clean-up of party areas at the end of the program.

2021	2022	
\$273.25	\$273.25	Minimum package fee – for a party of 10 children
\$13.25	\$13.25	Additional fee – per child

- **Sports Organizations’ Use Permits**

Sports organizations’ events, such as jamborees and tournaments, shall be subject to regular Use Permit charges. *See permit fee details on pages 31-33.*

- **Seattle Parks and Recreation Outdoor Tennis Courts**

Where a participant entry fee for tournaments or a fee for lessons is charged, 10% of gross receipts are to be paid to the Department in addition to the charges noted below. All persons who instruct tennis for a fee on Department courts must schedule according to court availability with the Scheduling Office, obtain the appropriate permit and pay the required fees. They must also successfully complete the Department’s Tennis Instructor’s Certification program and show proof of certification before a permit will be issued.

Tennis Reservations (4 or less players)

2021	2022	Scheduled based on availability.
\$8.00	\$8.00	1 hour, court rental, Adult play
\$13.00	\$13.00	1 hour, court rental, Private School
\$6.00	\$6.00	1 hour, court rental, Youth play

NOTE: *See “Amy Yee Tennis Center” on page 6 for Indoor Tennis fee rates.*

- **Outdoor Volleyball Courts**

Outdoor Volleyball Reservations

2021	2022	Scheduled based on availability.
\$8.00	\$8.00	1 hour, court rental, Adult play
\$8.00	\$8.00	1 hour, court rental, Private School

Facility Rentals

COMMUNITY MEETING ROOMS AND GYMNASIUMS

- Locations and Sizes**

The Department charges rental fees (according to the classifications of usage) for the use of social/meeting rooms and/or kitchens and/or gymnasiums at: *(see Appendix A for a listing of facility telephone numbers)*

Meeting room and gymnasium space is available only during times Department and Advisory Council programs are not scheduled. Uses are determined by classification A or C as defined below:

Class A Use: Non-Commercial Use, for the general public, scheduled during operating hours. No admission fee, vendor fee and/or donation is requested or received.

Class A use is reserved for advertised, non-commercial, public events/meetings that are for the general public and are scheduled during hours of operation. (If scheduled outside normal facility operating hours, see Class C use.)

Class C Use: All other rentals and Class A rentals scheduled outside of regular operating hours

NOTE: *An event will be considered advertised if it has been announced in the local paper, through mass mailing, radio or social media announcements, posters throughout the community, posted in or distributed through the community center*

• Hourly Room and Gymnasium Rental Fees

NOTE: A non-refundable \$30.25 booking fee per site is required for ALL rentals in addition to the hourly rates. An additional charge is required for staff and the use of certain types of equipment, subject to availability at the facility. (See page 19 for definitions of “Class A” & “Class C”)

50% discount of Shelter and/or Table fees	50% discount of Shelter and/or Table fees	Discount of “Picnic Reservation Fees” and Camp Long Shelters as found in Fees and Charges, plus \$75 use permit application fee.

PERMITS

USE PERMITS

Use Permits authorize non-department groups to utilize Seattle Parks and Recreation property for special events (i.e., runs, boating, concerts, day camps, community festivals, rallies, commercials, etc.). Additional charges may apply to cover direct cost of special services/requests.

• General Provisions

NOTE: Insurance shall be required when the planned event or any structure, activity or feature thereof presents a significant risk of liability or loss for the City, its officers, or for the applicant, due to personal injury or property damage. The insurance requirement shall not apply to events where the sole activity consists of expression protected by the First Amendment and does not involve the use of any structures, vehicles, equipment, apparatus or machinery that creates a significant risk of personal injury or property damage. In addition, an application fee will be collected upon formal written application. This fee is non-refundable, except when the Department denies a request.

2021	2022	
\$50.00	\$50.00	Application fee – First Amendment Events, including political activities.
\$75.00	\$75.00	Standard Application fee – Use Permits (i.e., runs, boating, concerts, day camps, community festivals, rallies, seasonal concession permits, etc.)
\$30.00	\$30.00	Booth fee – As part of a special event, a charge of \$30.00 per booth or 10% of gross sales, whichever is greater.
10% of gross sales on Parks property	10% of gross sales on Parks property	<u>For events OPEN to the general public without restriction:</u> If, in the course of the activity/event, charges are levied for admission, entry fees, sales of goods or services, food or beverages, the user will be subject to a percentage of sales fee. For an activity/event open to the general public without restriction and without ticket or fee required for admission, this percentage of sales will equal 10% of the gross receipts for those items not free. 10% fees are due within 10 days of the expiration of the permit.
The greater of 10% of gross sales on Parks property or \$5,000	The greater of 10% of gross sales on Parks property or \$5,000	<u>For events that RESTRICT general public access:</u> For events that restrict or limit access to the general public through the use of controlled entry points the percentage of sales fee shall be set at \$5,000.00 per day minimum or 10% of the gross receipts for those items not free, whichever is greater. In these cases, the percentage of sales applies to all admissions, registration fees or tickets, including those not purchased on Parks property collected before during or after the event. This minimum percentage of sales fee will be added to the park use reservation and must be paid in advance with all fees due prior to permitting. When sales generate additional fees, those fees are due within 10 days of the expiration of the permit.

The greater of 10% of gross sales on Parks property or \$10,000	The greater of 10% of gross sales on Parks property or \$10,000	<p><u>For events that EXCLUDE general public access:</u></p> <p>For events that exclude the general public because the event is private in nature and restricted to a specific group or invited attendees, the percentage of sales fee shall be set at \$10,000.00 per day minimum or 10%, whichever is greater. In these cases, the percentage of sales fee applies to all admissions, registration fees or tickets, including those not purchased on Parks property collected before during or after the event. These fees apply to all days of event set up, event execution and event break down while the event area is restricted to the general public.</p> <p>This minimum will be added to the park use reservation and must be paid in advance with all fees due prior to permitting. When sales generate additional fees, those fees are due within 10 days of the expiration of the permit.</p>
\$25.00	\$25.00	Load/Unload fee, per vehicle – for short-term access into non-parking areas or those areas accessed through a locked gate or bollard.
\$95.00	\$95.00	Utility hook-up fee – for any utility hook-up performed by Department personnel.
\$75.00	\$75.00	Alcohol use permit fee
\$75.00	\$75.00	Supplemental Late Application Fee – for requests submitted less than 6 working days before event. (Fee does not apply to First Amendment events)
\$100.00	\$100.00	Per surface (advertising banner, canopy/tent wall, sign, vehicle surface, inflatables, other) per day – for posting signage (including signage that contains both commercial and non-commercial elements) in a park in conjunction with a park use permit.
\$15.00	\$15.00	*Hourly use fee for Triangles, Circles, Squares, Pocket parks, Boulevards, and the Burke Gilman Trail
\$25.00	\$25.00	*Hourly use fee for Downtown & Neighborhood parks
\$35.00	\$35.00	*Hourly use fee for Community, Natural, Special Use and Recreation Area parks
\$175.00	\$175.00	**Parking area use fee – 25 or fewer spaces blocked per day
\$225.00	\$225.00	**Parking area use fee – 26-50 spaces blocked per day
\$575.00	\$575.00	**Parking area use fee – 51 or more spaces blocked per day

* Hourly use fee for Park Use Permits for all events except those constitutionally protected or those events covered under separate agreement. Contact Event Management office at 684-4081 for further information.

** Parking area use fees apply to designated parking areas in some parks that the Parks Department deems necessary to reserve for events.

- **Permits and Agreements for Activity Permits**

In order to provide positive activation to parks, needed amenities for park users and services that enhance the park experience or provide applicable opportunities that the Department does not provide, agreements and permits are periodically issued to interested parties and organizations and small businesses. Permits are mandatory for doing business in a park. NOTE: Rating criteria emphasis is put on WMBE businesses and those businesses are encouraged to register in the City’s WMBE database. Activities must align with the Department mission and goals. Activity (Fitness and Nature Education) opportunities are advertised on the Department website year-round.

2021	2022	<i>All fees are payable in advance at the time the permit is purchased.</i>
\$75.00	\$75.00	Permit Administrative fee – Activities (Fitness & Education classes) operating less than ten (10) hours per week with fewer than 35 participants at any time.
\$75.00	\$75.00	Monthly (per park) Permit fee – Activities (Fitness or Education) operating, but not vending in the Parks with fewer than 35 participants and less than ten (10) hours per week operating in a park.

• Use of Park Facilities for Filming/Photography

NOTE: Regular permit fees apply to below charges, including late permit fee.

Commercial filming and photography for advertising within the City of Seattle is covered under the Seattle Filming Ordinance. All of the information that you need about filming in Seattle can be found in the Seattle Film Manual, located online at <http://www.seattle.gov/filmandmusic/film/film-permits>

2021	2022	
\$30.00	\$30.00	Per 4-hour block of time, per park, for commercial filming/photography (wedding photos, graduation photos, etc.). NOTE: Fees for Garden Sites may be higher, depending upon time of year and/or days requested.

• First Amendment Vending

Persons may apply for a permit to vend merchandise that is inherently expressive or in which a political, religious, philosophical or ideological message is inextricably intertwined. Such “First Amendment Vending” is governed by regulations adopted by the Seattle Parks and Recreation. When conducted on a park drive or boulevard, First Amendment Vending is subject to a base permit fee of seventy-five dollars (\$75.00) for a monthly site permit. When conducted within a park, First Amendment Vending is subject to a monthly base permit fee of seventy-five dollars (\$75.00). Questions concerning the First Amendment Vending Regulations may be directed to the Parks Concessions Coordinator at 233-0063.

• Construction Plan Review

The Seattle Parks and Recreation (SPR) charges a fee of \$128 per hour for our cost of construction plan reviews, including review of development plans from both private and public entities that affect park property. This SPR fee is in addition to the fee currently charged by the Department of Planning and Development (DPD), excluding Public Works projects which are requested for review outside the DPD review process. The DPD fee includes elements to reimburse DPD, Seattle Public Utilities (SPU), the Department of Health, and Seattle Department of Transportation (SDOT), for the plan

review work done by their staff. For further information, please contact the Parks Planning & Development section at 206-684-4860.

PERMITS FOR NON-PARK USES of PARK PROPERTY (Revocable Use Permits or RUPs)

• General Provisions & Fees

Revocable Permits to Use or Occupy Park Property, commonly called Revocable Use Permits, are issued by the Superintendent of Parks and Recreation, under authority of Seattle Municipal Code (SMC) 18.12.042, 18.12.045, and 18.12.275, for various short-term or on-going (i.e., Limited Term or Continuing Use, respectively) **non-park uses** of public land under the control of the Seattle Parks and Recreation. **Permits are revocable upon thirty (30) days' notice** or immediately upon failure of the Permittee to comply with the terms and conditions of the Permit. **Unauthorized use of park property**, including failure to apply for and obtain a Revocable Use Permit, **is unlawful and subject to enforcement** actions or other remedies as specified in SMC 18.30 or other applicable law.

In accordance with the Policy on Non-Park Uses of Park Lands, as endorsed by City Council Resolution 29475, it is the policy of the Seattle Parks and Recreation to **limit authorized non-park uses of park land to the fullest extent practicable**. Fees and conditions set for Revocable Use Permits **are intended to discourage private, non-park uses of park lands**; encourage the elimination of encroachments; and promote private and public cooperation in maintenance of park lands in a manner consistent with a public park-like character.

Consideration of any permit application requires payment of an Application Fee, unless City action to a public right-of-way resulted in inaccessibility from other than park property. The **Application Fee is non-refundable**. Issuance of a permit requires payment of a Permit Fee which is:

- a **fixed daily fee** (i.e., **Limited Term permit fee**); and/or
- calculated in accordance with a **formula (Continuing Use permit fee)**; or
- a **minimum** permit fee.

Application Fees and Permit Fees are set periodically by ordinance. Under exceptional circumstances, the Superintendent of Parks and Recreation may waive or reduce the Revocable Use Permit Fee, in accordance with criteria established by SMC 18.28.030 or SMC 18.28.040. Creek restoration projects proposed by other City departments are specifically exempted from permit fees of any kind as the City recognizes these projects as valuable enhancements to its parks and recreation assets. In determining whether the Permit Fee should be **waived or reduced**, the Superintendent shall be guided by:

- The benefit to the public and the direct benefit to the park system;
- The frequency and/or amount of usage requested;
- The effect on and fairness to other park users;
- Consistency with policies underlying the fee schedule and SMC Chapter 18; and
- The consequences of denying the request.

The Superintendent may authorize the **acceptance of permanent physical improvements**, such as constructed improvements or landscaping, as compensation in lieu of the Permit Fee in those circumstances where the proposed in lieu compensation can be shown to be equal to, or greater, in value than the calculated or set amount of the Permit Fee, provided that the Superintendent shall not

accept such in lieu compensation where the improvement is inconsistent with the City's health, safety or aesthetic standards, the mission or policy of the Parks Department, or conveys any message that is not adopted by the City.

Waiver or reduction of the Permit Fee **does not necessarily waive or reduce other fees, charges, requirements, or obligations** in connection with issuance of a Revocable Use Permit including Application Fee, Inspection Fee, processing charges, insurance or indemnity requirements, or restoration requirements.

Limited Term Permit Fee

Limited Term permits may be issued for necessary uses of park property for brief periods of time, generally expected to be **limited to ninety (90) days or less**; however, Limited Term permits may be issued for uses expected to continue beyond ninety (90) days. **Examples of activities** for which Limited Term permits may be issued include removal of encroachments, installation of landscaping consistent with Department guidelines, utility installations, and temporary access.

The Limited Term permit fee will be **charged at a daily rate from the date the permit is issued or the date the use or occupancy of park property began, whichever is earlier**, until the activity is completed and all conditions of the permit, including restoration of any damage to park land, have been satisfied. If seasonal factors, such as planting conditions or construction prohibitions, warrant a delay between the time the use or occupancy of park property is completed and the time the restoration is completed, no Permit Fee shall be charged for the interim period, unless the park land is unavailable for the use or enjoyment of the public.

If a Revocable Use Permit is issued for a use of park land that is expected to continue for a limited period of time, such as a Limited Term permit, but for a **period exceeding ninety (90) days**, the fee shall be the daily rate set for Limited Term permits for the first ninety (90) days; the fee for the period exceeding ninety (90) days shall be calculated in accordance with the Continuing Use permit fee.

Under no circumstances shall a Limited Term permit fee be converted to a lesser fee due to extension of the anticipated completion date of the permitted activity. If upon inspection it is determined that the permit conditions have not been satisfied, charges for additional daily fees at the same rate shall accrue until conditions have been satisfied.

Continuing Use Permit Fee

Continuing Use permit fees shall be charged for **uses expected to continue for an extended period of time, generally beyond ninety (90) days (e.g., encroachments or other non-park uses that will not be corrected or eliminated within a ninety (90) day period)**. Continuing Use permit fees shall be calculated using a **formula** based on land **Value**, **Area** of use, a **Barrier** factor, and a **Rate** of return (**V x A x B x R**).

The **Value** of the park land used shall be determined by calculating the average of the **assessed value** per square foot of the benefited property and the assessed values per square foot of **comparable** (i.e., similarly zoned, having similar amenities such as waterfront or view), nearby (within a distance not to exceed 1,000 feet) **non-park properties**.

The **Area** shall be the total of the square footage of park land actually used or occupied for non-park purposes and/or the square footage of park land that is subject to a barrier to public use and/or enjoyment.

The **Barrier Factor** is a multiplier of 1 or less than 1, representing the extent of barrier to public use and enjoyment, as set by the following scale. If two or more Barrier Factors may apply, the greater factor shall apply.

Factor: **1.00** Full use and/or occupancy of area, preventing public use or occupancy of the area (e.g., a private structure); or creation of a physical barrier denying public use or access to the area (e.g., a fence or hedge);

.70 Creation of a perceptual barrier by improvements or actions that capture the public space for private use (e.g., paving, shrubbery, other plantings);

.35 Private landscaping or other improvements on park land that violate, exceed, or are inconsistent with established design guidelines or reasonable standards intended to preserve the public park-like character of park lands (e.g., private access drive or walkway in excess of standard; private lighting or safety railings that exceed a security function).

The **Rate** of return (i.e., land capitalization rate) is set at 10%.

Continuing Use permit fees for permit **periods of less than twelve (12) months are payable in full prior to permit issuance**. Continuing use permit fees for permit periods anticipated to continue for twelve (12) months or more may be pro-rated and annualized and payable in advance for such annualized date as the Department shall establish. If the permit period is shorter than anticipated, the permit fees paid in advance shall be prorated for the time used and over-payment shall be refunded, except in the case of revocation due to Permittee's failure to comply with the terms and conditions of the permit, in which case no refund shall be given. **Permits for utility installations, such as electrical, natural gas, or telephone service, shall be charged as Limited Term permits**, based on the permit period necessary for installation.

There is no Permit Fee charged for Limited Term permits of ninety (90) days or less issued expressly to allow the removal or elimination of an encroachment onto park land.

There is no Permit Fee charged for certain non-park uses of park land which may be allowable by property right, such as driveway access from the roadway portion of a park boulevard if access is not available from any other right-of-way, or pedestrian walkway from a public sidewalk to the abutting private property, if such uses comply with established design guidelines or reasonable standards intended to preserve the public park-like character of park lands.

Revocable Use Permit FEE SCHEDULE

2021	2022	
\$200	\$200	Application Fee (non-refundable; includes one (1) on-site inspection and two (2) hours of staff time for reviewing and processing application)
\$200	\$200	Inspection and/or Monitoring, per hour (Application fee includes one on-site inspection. Additional on-site charges at \$200.00 per hour may be assessed, for on-site inspections and/or monitoring, if specified in the Permit or if necessary in the Department's judgment, due to Applicant's or Permittee's action(s), or failure to comply with the terms and conditions of the permit.)
\$250	\$250	Limited Term Permit, per day, OR \$325.00 minimum, whichever is greater
Formula	Formula	Continuing Use Permit, determined by formula ($V \times A \times B \times R$) OR \$650.00 minimum, whichever is greater
\$130	\$130	Processing Charges, per hour (costs of staff time in excess of two (2) hours to review and process permit applications; payable prior to permit issuance.)

VIEW TREE PRUNING PERMIT

Private Citizens may apply for a permit if they wish to hire a qualified, bonded tree service firm to perform view tree pruning which is not normally done as part of the Department tree maintenance program along its designated viewpoints and scenic drives. The request for this permit must be submitted in writing to the Manager of our Citywide Horticulture Unit. Three site inspections by a Department Landscape Supervisor will be performed: the first inspection to review the request and make a determination of allowed pruning, the second (if the request is approved) during the proposed work to ensure compliance with the permit, and a final inspection for satisfaction of all permit specifications.

2021	2022	
\$50.00	\$50.00	Application fee, non-refundable. Must be submitted with the written request for a View Tree Pruning Permit.
\$100.00	\$100.00	Permit fee, due upon issuance of the View Tree Pruning Permit
\$100.00	\$100.00	Bond from tree service firm must be submitted prior to work. The tree service firm is also required to submit proof of insurance in a minimum amount of \$1,000,000 bodily injury liability and \$5,000 property damage.
\$80.00	\$80.00	Forester staff time (per hour) required for public communications, site visits, and designated paperwork.

PROMOTIONAL & MARKETING FEE WAIVERS & REDUCTIONS

The Superintendent of the Seattle Parks and Recreation is authorized, as provided in SMC 18.28.020, to waive or reduce entry or use fees from those contained in an approved fee schedule in conjunction with the promotion and marketing of Park and Recreation programs.

EXAMPLES OF FEE WAIVERS & REDUCTIONS

Authorized activities include, but are not limited to, the following arrangements:

1. **Sponsored days:** A sponsored day or activity for which a sponsor pays the Department a fixed fee, a matching amount, or supplies advertising, service, or other benefit. In exchange, the Department provides free public entry use of the facility, or free or reduced entry for a certain segment of the public (e.g., children under 12, senior citizens, anyone donating clothing or food for a drive for those in need); for a special group of the public (e.g., participants in a community parade); or to the first entrants up to a specified number.
2. **Bonus and prizes:** The Department may distribute to users or entrants an item supplied by the sponsor (e.g., a button, a balloon, literature, an item of apparel, or a donated prize for an achievement).
3. **Combination tickets:** The Superintendent may issue a combination ticket for use of multiple City facilities or participation in multiple City events. A combination ticket may also take the form of a reciprocal discount or credit. For example, presentation of a ticket stub or coupon from an aquarium in another city may entitle the holder to a credit on admission to the Seattle Aquarium when a receipt for paid entry to Seattle's Aquarium entitles the holder to like privileges in the facility of the other city. In those cases, where a combination ticket is authorized, combining multiple events and facilities:
 - o The combined ticket price may be less than the amount that would be paid for each entry or event singly;
 - o The combined ticket shall expire within a time period after the ticket's sale or first usage, with said period to be determined by the Superintendent of the Seattle Parks and Recreation or his or her designee; and
 - o The City and any other participant organizations shall apportion the revenue from the combined sale by a ratio or formula.
4. **Discount Coupons:** A coupon allowing two people to enter for the price of one person, or the coupon holder to enter at a reduced rate. Coupons may be offered through a sponsor who makes a payment to the City or who provides special advertising in return. For example, the coupon may accompany an advertisement in a widely distributed publication for tourists, which contains similar coupons for other attractions. The Department may also use coupons as a way of reaching out to a group or segment of the citizenry, who would not attend or use the facility at the established fee.

5. **Prepaid Passes:** During special hours or otherwise, admission may be sold to a tour company, the organizer of a convention, or an association at an aggregate fee for all members and the participants may be granted entry, either as a group or individually, at the hours or on the days authorized by presenting a ticket or other indication of pre-payment.
6. **Departmental Free or Half-Price Days:** “Senior citizens’ days” may be offered during which time people over a minimum age are admitted free; a free day may be provided for the public to see and enjoy an exhibit financed through a bond issue or by a public fund-raising drive; on a “Kids’ Day” or “Neighborhood Day,” admission may be free for children and low income adults; a free golf lesson day for kids may be provided; or free swimming day at our pools may be provided.
7. **Promotional Purposes:** The Department may offer extended evening hours or special discounts during specific periods in the year to encourage high attendance at our park facilities. Some examples include, but are not limited to, the following:
 - (a) Extended Aquarium hours and special discounts during the summer.
 - (b) Extended special discount for swimming fees during the summer.

APPENDIX D – Parks Department Refund Policy

Department Policy & Procedure

Subject: Refund Policy (for community centers, swimming pools, small craft centers and other recreational providers)		Number 060-P 7.16
		Effective 1/9/2013
		Supersedes 3/15/2001
Approved: A <u>current</u> , approved, signed copy of this policy can be found on the Seattle Parks web site, located at: http://www.seattle.gov/parks/reservations/feesandcharges/refunds.htm	Department: Parks and Recreation & The Associated Recreation Council	Page 1 of 3

SUMMARY

For community centers, swimming pools, small craft centers, outdoor spaces, sports fields and other recreation providers, it is the policy of Seattle Parks and Recreation and the Associated Recreation Council that:

- *A full refund will be issued for any program, activity, or reservation that is cancelled for any reason by the Department or the Associated Recreation Council.*
- *Any person who registers for a PROGRAM and who requests a refund before the second class session may receive a prorated refund minus a service charge.*
- *Any person who registers for an ACTIVITY and who requests a refund 14 days or more before its start, may receive a refund minus a service charge.*
- *Any person who schedules a STANDARD RENTAL of a recreation facility and who cancels at least 15 days in advance is entitled to a partial refund.*
- *Any person who schedules a rental of a SPECIAL AMENITY FACILITY and who cancels at least 90 days in advance is entitled to a partial refund.*
- *Any person who reserves a SPORTS FIELD must provide 14 days advance notice of cancellation to be entitled to a full refund.*
- *ADULT SPORTS LEAGUES may receive a partial refund if the cancellation notice is received prior to the league starting and if a replacement team is found.*

Portions of this summary will be included in printed materials where applicable with reference to encourage customers to read the entire policy for specific information. This policy is Appendix D to the adopted Fees and Charges Ordinance for Seattle Parks and Recreation.

1.0 DEFINITIONS:

“Activity” is the term applied to a day camp, school-age or preschool care, trip, overnight camp or special event operated by Seattle Parks and Recreation or Associated Recreation Council or other authorized providers.

“Booking Fee” is an established fee found in the adopted Fees and Charges Ordinance for Seattle Parks and Recreation as a requirement when requesting a facility rental.

D APPENDIX

“ARC” is the Associated Recreation Council operating programs at Seattle Parks and Recreation facilities under a Master Use Agreement with the City of Seattle.

“Cancellation” is a case in which the Department does not operate a program as originally planned and/or scheduled and results in a refund to the customer without a service charge applied.

“Damage Deposit” is an established fee found in the adopted Fees and Charges Ordinance for Seattle Parks and Recreation usually required as a deposit for facility rentals.

“Fees and Charges” are City fees adopted by City Council as a City of Seattle Ordinance establishing fees and charges for Seattle Parks and Recreation.

“Program” is the term for a series of classes which may include swimming instruction, youth sports, ARC recreation classes or other similar recreation class series.

“Refund” is the direct payment of money or a credit to a customer account. If payment was made by cash or check, a refund will be processed through the Accounting office and may take approximately three weeks. If payment is made through credit card, the refund will be processed within 48 hours of the request.

“Transfer” is the process of withdrawing from one program and enrolling in a different program.

2.0 PROGRAM

2.1 CANCELLATION: It is the policy of Seattle Parks and Recreation and Associated Recreation Council to make a full refund to participants who register for a class, camp, special event or program that is canceled by the Department or Advisory Council for any reason.

2.2 CANCELLATION OF ONE SESSION: In the event of an unplanned cancellation of a single session of a program, that class will be rescheduled whenever possible. If it cannot be rescheduled, the participant will receive a refund.

2.3 DROPPING A PROGRAM BEFORE SECOND SESSION: A participant may be issued a refund if he/she withdraws from a program, and notifies the program coordinator, prior to the second class session. The facility will retain the pro-rated class fee plus a service charge of \$5.00 or 10% of the fee, whichever is greater.

2.4 DROPPING A PROGRAM AFTER SECOND SESSION: If a participant withdraws from a program after the second session of a series, no refund will be given.

3.0 ACTIVITY

3.1 BEFORE, AFTERSCHOOL, AND PRESCHOOL CHILD CARE PROGRAMS: A participant may be issued a refund, less the deposit amount for the activity, if he/she withdraws from a before and/or after school, or preschool child care program if he/she notifies the program coordinator at least fourteen (14) days prior to the beginning date of the program. No refunds will be made for requests received less than fourteen (14) days prior to the beginning of the program. For School Aged Care and preschool program days canceled by the Department due to weather related circumstances, NO credit/refund will be issued for the first two canceled days over the course of the school year. A credit will be issued for the 3rd or additional canceled days.

3.2 DAY CAMPS, OVERNIGHT CAMPS, TRIPS AND EVENTS REFUND: A participant may be issued a refund, less the deposit amount, if he/she withdraws from a youth or teen camp, an overnight camp, trip or event, and notifies the program coordinator at least fourteen (14) days prior to the beginning date of the camp. No refunds will be made for

D APPENDIX

requests received within fourteen (14) days prior to the beginning of the camp. No refunds will be made for food, supplies, or materials fees.

4.0 STANDARD RENTAL

- 4.1 FACILITY RENTALS: Standard Recreation Facility Rental to include Community Centers, Pools, Environmental Learning Centers.
- 4.2 A renter may be issued a refund for a cancelled rental, minus the application booking fee and a cancellation service charge using the following timetable:

31+ days notice of cancellation	Booking Fee, plus \$50 fee is retained by Dept
15-30 days notice of cancellation	Booking Fee, plus 50% of the rental fee is retained by Dept. Damage deposit is refunded.
14 days or less notice of cancellation	No refund given

5.0 SPECIAL AMENITY FACILITIES

- 5.1 FACILITY RENTALS: Special Amenity Facilities include Alki Bathhouse, Golden Gardens Bathhouse, Mount Baker Rowing and Sailing Center, Dakota Place Park Building, Pritchard Bathhouse, Ward Springs Pumphouse, Cal Anderson Shelterhouse and other identified facilities.
- 5.2 A renter may be issued a refund for a cancelled rental, minus the application booking fee and a cancellation service charge using the following timetable:

181+ days notice of cancellation	Booking Fee, plus \$50 fee is retained by Dept
180-91 days notice of cancellation	Booking Fee, plus Damage Deposit is retained by Dept
90 days or less notice of cancellation	No refund given

6.0 SPORTS FIELDS

- 6.1 Field cancellations must be made at least 14 days in advance of usage to get a full refund or credit.
- 6.2 If the Department closes a field for any reason, or if lights do not operate as expected, or if there is a conflict in the scheduled use of a field, a full refund or credit for the missed use will be provided.

7.0 ADULT SPORTS LEAGUES

If a team drops from league play after the deposit is paid and before the final payment is due, a refund will be issued only if a team is found to take the place of the team that wishes to drop from league play. Parks will retain a service charge of the greater of the deposit or 10% of the league fee. No refunds will be issued after the final payment is made and/or final schedules are drawn.

8.0 MERCHANDISE AND FOOD

We are unable to issue refunds for clothing, personal items, supplies or food items, unless there is a product defect. Exchanges may be made for defective products.

D APPENDIX

9.0 EXCEPTIONS

No refund is available for some designated programs, activities or services, which may include deposits for registration, regattas, rentals, outdoor events, ceremonies or picnics. Information on any specific exception is available from Parks and Recreation staff prior to payment or purchase.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
Seattle Parks and Recreation	Amy Williams/684-4135	Anna Hurst/733-9317

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to Seattle Parks and Recreation; establishing the 2021-2022 fee schedule for the use of park properties and other park and recreation facilities and services; and superseding previous park and recreation fee schedules.

Summary and background of the Legislation: SPR's fees and charges provide financial support for SPR programs, facilities, and park grounds. The SPR Fee Schedule transmitted by this legislation does not include any fee changes in 2021 or 2022. The only changes include a small number of minor grammatical corrections.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
This legislation does not have any other indirect financial impacts.

Is there financial cost or other impacts of *not* implementing the legislation?
The legislation is required to allow the department to assess program and facility fees in order to generate the revenues necessary to support a portion of Park Fund expenses.

3.b. Revenues/Reimbursements

 x This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from this Legislation:

Fund Name and Number	Dept	Revenue Source	2021 Estimated Revenue	2022 Estimated Revenue
Park Fund: 10200	SPR	Use Fees	\$40,289,974	\$40,289,974
TOTAL				

Is this change one-time or ongoing?

There are no revenue changes associated with the legislation.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

No, this legislation does not directly affect any other department.

b. Is a public hearing required for this legislation?

A public hearing is not required.

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

This legislation does not affect a piece of property.

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No, a notice in either publication is not required.

e. Does this legislation affect a piece of property?

This legislation does not affect a piece of property.

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

An approach for all park programs and facilities has been developed that ranges from free (high community value) to varying recoveries of costs (high personal value). Social equity is built into that pricing to ensure that there is access to a range of programs and activities. SPR also prioritizes recreational scholarships in Park District planning which supplement fee pricing at pools and fields.

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

This legislation is not proposing a new initiative or major programmatic expansion.

List attachments/exhibits below:

Legislation Text

File #: CB 119915, **Version:** 1

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to drainage services of Seattle Public Utilities; adjusting drainage rates to pass through changes to treatment rates charged by King County; amending Section 21.33.030 of the Seattle Municipal Code to reflect the adjusted rates; and amending Section 21.76.040 of the Seattle Municipal Code to adjust credits to low-income drainage customers.

WHEREAS, Resolution 31760, adopted on November 13, 2017, adopted the 2018-2023 Strategic Business

Plan Update for Seattle Public Utilities, which guides utility investments, service levels, and rate paths through 2023; and

WHEREAS, Seattle Public Utilities' drainage rates are based on the sum of the treatment rate and system rate and are designed to pass through the drainage share of the rates King County charges for its wastewater treatment services as part of the treatment rate applicable to drainage services; and

WHEREAS, Ordinance 125686 established drainage rates for 2019 through 2021 based on the then current King County wastewater treatment charge of \$45.33; and

WHEREAS, King County Council adopted a new wastewater treatment rate of \$47.37 per residential customer equivalent per month effective January 1, 2021, which is an increase of 4.5 percent over the existing treatment rate; and

WHEREAS, the increase in King County treatment rates will increase drainage treatment expense; and

WHEREAS, quarantine measures to combat the COVID-19 pandemic have lowered Seattle Public Utilities' utilization of treatment services; and

WHEREAS, lower utilization of treatment services is expected to have a larger effect on drainage treatment

costs than the increase in the King County treatment rate; and

WHEREAS Seattle Public Utilities expects that adopted 2021 drainage rates are higher than what is necessary to pay for drainage treatment expense, taxes on treatment revenue, discounts to low-income customers, and stormwater facility incentive program credits; and

WHEREAS, subsection 21.33.030.D.1 of the Seattle Municipal Code allows drainage treatment rates to be adjusted by ordinance at any time in response to changes in the King County wastewater rates; and

WHEREAS, drainage credits for qualified low-income customers, not billed directly by Seattle Public Utilities, are based on typical residential bills, and credits for such customers need to be revised to reflect the changes in the drainage rates; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Subsection 21.33.030.D of the Seattle Municipal Code, which section was last amended by Ordinance 125686, is amended as follows:

21.33.030 Drainage service charges and drainage rates - Schedule - Exemptions

* * *

D. Drainage rates used in the calculation of drainage service charges shall be the sum of the treatment rate and the system rate, as follows:

1. Treatment rate. The "treatment rate" shall be the rate required to pay the drainage share of "treatment cost" which is the cost of wastewater treatment, interception and disposal service, and any associated costs necessary to meet Drainage and Wastewater Fund policies. The treatment rate shall be the amount obtained when (a) the projected drainage treatment cost for each rate category is divided by (b) the projected number of billing units in each rate category and the result is multiplied by ~~((448))~~ 117.4 percent to cover the costs of taxes, low income rate assistance, and other allowances. The projected treatment cost shall be the treatment cost anticipated for the upcoming calendar year, which may include an adjustment to reflect the difference, whether positive or negative, between the drainage share of expected total treatment cost for the current year and the total drainage service charge revenues attributable to the treatment rate expected for the current year. The treatment rate is designed to pass through cost changes driven by King County and may be adjusted by ordinance at any time in response to such charges.

2. System rate. The "system rate" shall be the rate required to fund the expense associated with operating, maintaining, and constructing the City's surface and stormwater management system, including any share of combined sanitary and

stormwater system expense assigned to drainage.

3. The rate categories and the corresponding annual drainage rates are as follows:

4. SPU shall provide a ten percent reduction in the drainage service charge for parcels containing new or remodeled commercial buildings that, after July 27, 2003, install and utilize rainwater harvesting systems that meet the performance requirement that the systems are sized to use the amount of rain that falls on the roofs of such buildings during a one year, 24-hour storm event. A system that involves indoor uses of rainwater must be permitted by Seattle-King County Department of Health to qualify for the rate reduction. A system that relies solely on the capture and indoor use of rainwater shall qualify for the drainage service charge reduction only if the system is sized to meet the performance requirement stated above. Qualifying for the drainage service charge reduction does not relieve the property owner from the obligation to comply with applicable stormwater and drainage code requirements for the buildings and site.

5. Effective November 7, 2008, open space properties or parcels shall be charged only for the area of impervious surface and at the rate under which the parcel is classified using the total parcel acreage.

* * *

Section 3. Subsection 21.76.040.A of the Seattle Municipal Code, which section was last amended by Ordinance 125985, is amended as follows:

21.76.040 Rate discounts

A. Drainage, wastewater, and water. Certified low-income residential utility customers ("Certified customers") will receive rate discounts (or credits) in the following amounts:

1. Wastewater. Certified customers billed directly for Seattle Public Utilities wastewater services will receive a rate discount equal to 0.5 times the total current wastewater volume charge. Certified customers who pay for wastewater services indirectly through rent shall receive the following rate credits based on dwelling type and consistent with Section 21.76.050:

Effective date	Single-family and duplex dwellings	Multifamily dwellings
January 1, 2018	\$28.94 per month	\$20.20 per month
January 1, 2019	\$31.13 per month	\$21.72 per month
January 1, 2020	\$33.43 per month	\$23.32 per month
January 1, 2021	\$34.96 per month	\$24.39 per month

At the time of a change to the wastewater volume charge described in Section 21.28.040, the Director of Seattle Public Utilities shall calculate new credits for certified customers who pay for wastewater services indirectly through rent. The rate credit for single-family and duplex customers shall be 0.5 times the wastewater volume charge multiplied by 430 cubic feet (4.3 CCF), which is typical single-family residential sewer billed consumption. The rate credit for multifamily dwelling customers shall be 0.5 times the wastewater volume charge multiplied by 3.0 CCF, which is typical multifamily sewer billed consumption.

2. Drainage. Certified customers residing inside The City of Seattle shall receive the following rate credits for drainage services based on dwelling type:

(Effective Date	Single-Family	Duplex	Multifamily
January 1, 2018	\$20.03 per month	\$10.02 per month	\$2.14 per month
January 1, 2019	\$21.53 per month	\$10.77 per month	\$2.30 per month
January 1, 2020	\$23.24 per month	\$11.62 per month	\$2.49 per month
January 1, 2021	\$25.02 per month	\$12.51 per month	\$2.68 per month))

Effective Date	Single-Family	Duplex	Multifamily
January 1, 2020	\$23.24 per month	\$11.62 per month	\$2.49 per month
January 1, 2021	\$25.00 per month	\$12.50 per month	\$2.68 per month

3. Water. Certified customers billed directly for Seattle Public Utilities water services shall receive a rate discount equal to 0.5 times the total current commodity and base service charges. Certified customers who pay for water services indirectly through their rent shall receive the following rate credits based on dwelling type and consistent with Section 21.76.050:

Effective Date	Single-family and duplex dwellings	Multifamily dwellings
----------------	------------------------------------	-----------------------

January 1, 2017	\$20.56 per month	\$12.38 per month
January 1, 2018	\$21.15 per month	\$12.38 per month
January 1, 2019	\$21.86 per month	\$12.38 per month
January 1, 2020	\$22.85 per month	\$12.50 per month

* * *

Section 4. This ordinance does not affect any existing right acquired or liability or obligation incurred under the sections amended or repealed in this ordinance or under any rule or order adopted under those sections, nor does it affect any proceeding instituted under those sections.

Section 5. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 6. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
Seattle Public Utilities	Vas Duggirala/3-7153	Akshay Iyengar/4-0716

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title:

AN ORDINANCE relating to drainage services of Seattle Public Utilities; adjusting drainage rates to pass through changes to treatment rates charged by King County; amending Section 21.33.030 of the Seattle Municipal Code to reflect the adjusted rates; and amending Section 21.76.040 of the Seattle Municipal Code to adjust credits to low-income drainage customers.

Summary and background of the Legislation: The Council in 2018 approved legislation increasing drainage rate by an average of 8.0% in 2019 and 2020, and 7.6% in 2021. This ordinance would reduce the 2021 approved rate increase to 7.4% because estimated expenses to treat wastewater and stormwater at King County treatment plans have been revised downward.

Two counteracting events prompted the lower forecast. First, King County last spring authorized a 4.5% increase to the treatment rate charged to customers of its wastewater treatment system, including SPU, effective January 1, 2021. Treatment expense is based on wastewater volumes as measured by sewer meters. SPU assigns 6.05% of this volume to the drainage utility, and the remainder to the wastewater utility, based on estimated stormwater flows from Combined Sewer Overflow basins to treatment plants. Of total drainage rate revenues, six percent goes to treatment expense, taxes incurred on treatment expense revenue, and a portion of low-income discounts and stormwater facility incentive credits allocated to treatment.

Second, the Covid-19 pandemic and measures enacted to combat it have reduced wastewater demand. This is particularly true for office buildings, retail, restaurants, industrial facilities, and other commercial enterprises, where demand has fallen 20% to 30% below forecast. The drop in commercial wastewater demand and a negative outlook on business activity recovery led to a reduced forecast for treatment utilization through at least the end of 2021.

Despite the increase to King County's treatment rate, the magnitude of the demand reduction means the rates authorized by the SMC are estimated to over-recover treatment and related expenses. SPU is proposing to reduce the adopted rates, from a currently codified 7.6% average increase to 7.4%. This rate reduction proposal is also lower than previously estimated 2021 rate forecasts due strong financial performance and SPU cost efficiencies in 2019 and 2020, in addition to lower treatment expense. The proposed 2021 rates for a large single-family lot of 5,000 sq. ft. are 5% lower than the estimate from the 2018-2023 Strategic Business Plan (2017) and 1% lower than the 2019-2021 Drainage and Wastewater Rate Study (2018).

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes ___X_ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___X_ Yes ___ No

Appropriation change (\$):	General Fund \$		Other \$	
	2021	2022	2021	2022
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	2021	2022	2021	2022
	(\$30,274)	(\$258,729)	(\$30,274)	(\$258,927)
Positions affected:	No. of Positions		Total FTE Change	
	2021	2022	2021	2022

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No.

Is there financial cost or other impacts of *not* implementing the legislation?
SPU may over-collect from drainage customers.

3.b. Revenues/Reimbursements

X This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from this Legislation:

Fund Name and Number	Dept	Revenue Source	2021 Revenue	2022 Estimated Revenue
00100	General	Utility Tax (Drainage)	(\$30,274)	(\$30,274)
45010	SPU	Drainage Revenues	(\$258,729)	(\$258,729)
TOTAL			(\$289,003)	(\$289,003)

Is this change one-time or ongoing?
One-time. SPU expects to submit drainage rates for 2022, 2023, and 2024 in mid-2021.

Revenue/Reimbursement Notes:

Legislation would reduce drainage revenues of the Drainage and Wastewater Fund by - \$258,729. Utility Tax in turn paid by the Drainage and Wastewater Fund to the General Fund on drainage revenues would drop -\$30,274.

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**
Several City departments incur drainage fees on properties owned by the City, within City limits. The impacted departments include, but are not limited to: Seattle Center, the City Budget Office, Seattle City Light, the Department of Neighborhoods, the Seattle Department of Transportation, the Seattle Fire Department, the Department of Finance and Administrative Services, the Department of Parks and Recreation, the Seattle Police Department, Seattle Public Utilities, and the Seattle Public Library.
- b. Is a public hearing required for this legislation?**
No.
- c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No.
- d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- e. Does this legislation affect a piece of property?**
No.
- f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
This legislation will lower rates currently adopted in the SMC and commensurately reduce Utility Discount Program rate assistance provided.
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**
No.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to wastewater services of Seattle Public Utilities; adjusting wastewater rates to pass through changes to treatment rates charged by King County; amending Sections 21.28.040 of the Seattle Municipal Code to reflect the adjusted rates; and amending Section 21.76.040 of the Seattle Municipal Code to adjust credits to low-income wastewater customers.

WHEREAS, Resolution 31760, adopted on November 13, 2017, adopted the 2018-2023 Strategic Business

Plan Update for Seattle Public Utilities, which guides utility investments, service levels, and rate paths through 2023; and

WHEREAS, Seattle Public Utilities' wastewater rates are based on the sum of the treatment rate and system rate and are designed to pass through the drainage share of the rates King County charges for its wastewater treatment services as part of the treatment rate applicable to drainage services; and

WHEREAS, Ordinance 125685 established wastewater rates for 2019 through 2021 based on the then current King County wastewater treatment charge of \$45.33; and

WHEREAS, King County Council adopted a new wastewater treatment rate of \$47.37 per residential customer equivalent per month effective January 1, 2021, which is an increase of 4.5 percent over the existing treatment rate; and

WHEREAS, subsection 21.33.030.D.1 of the Seattle Municipal Code allows wastewater treatment rates to be adjusted by ordinance at any time in response to changes in the King County wastewater rates; and

WHEREAS, adopted wastewater treatment rates will not provide sufficient revenues to pay the increased treatment costs; and

WHEREAS, wastewater credits for qualified low-income customers, not billed directly by Seattle Public Utilities, are based on typical residential bills, and credits for such customers need to be revised to reflect the changes in the wastewater rates; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Subsection 21.28.040.B of the Seattle Municipal Code, which section was last amended by Ordinance 125685, is amended as follows:

21.28.040 Wastewater volume charge

* * *

B. The wastewater volume rate shall be the sum of the treatment rate and the system rate, as follows:

1. Treatment rate. The "treatment rate" shall be the rate required to pay the wastewater share of "treatment cost," which is the cost of wastewater treatment, interception and disposal services, and any associated costs required to meet Drainage and Wastewater Fund financial policies. The treatment rate shall be the amount obtained when (a) the projected wastewater treatment cost is divided by (b) the projected billed wastewater consumption, each for the next calendar year, and the result is multiplied by ~~((118.7 percent in 2019))~~ 118.7 percent in 2020 and 116.4 percent in 2021 and thereafter to cover the costs of taxes and low-income rate assistance. The projected treatment cost shall be the treatment cost anticipated for the upcoming calendar year, which may include an adjustment to reflect the difference, whether positive or negative, between the total expected treatment cost for the current year and the total wastewater volume charge revenues attributable to the treatment rate expected for the current year. The treatment rate is designed to pass through cost changes driven by King County and may be adjusted by ordinance at any time in response to such charges.

2. System rate. The "system rate" shall be the rate required to pay the cost of carrying and discharging all wastewater and any wastewater-funded share of stormwater into the City sewerage system, as presently maintained and operated and as may be added to, improved, and extended.

3. The wastewater volume rate per CCF shall be in accordance with the following schedule:

	(Effective Jan. 1, 2018	Effective Jan. 1, 2019	Effective Jan. 1, 2020	Effective Jan. 1, 2021
Treatment Rate	\$8.34	\$8.84	\$8.84	\$8.84
System Rate	\$5.12	\$5.64	\$6.71	\$7.42

Wastewater Volume Rate	\$13.46	\$14.48	\$15.55	\$16.26))
------------------------	---------	---------	---------	-----------

	<u>Effective Jan. 1, 2020</u>	<u>Effective Jan. 1, 2021</u>
Treatment Rate	\$8.84	\$9.25
System Rate	\$6.71	\$7.42
Wastewater Volume Rate	\$15.55	\$16.67

* * *

Section 3. Subsection 21.76.040.A of the Seattle Municipal Code, which section was last amended by Ordinance 125985, is amended as follows:

21.76.040 Rate discounts

A. Drainage, wastewater, and water. Certified low-income residential utility customers ("Certified customers") will receive rate discounts (or credits) in the following amounts:

1. Wastewater. Certified customers billed directly for Seattle Public Utilities wastewater services will receive a rate discount equal to 0.5 times the total current wastewater volume charge. Certified customers who pay for wastewater services indirectly through rent shall receive the following rate credits based on dwelling type and consistent with Section 21.76.050:

<u>(Effective date</u>	<u>Single-family and duplex dwellings</u>	<u>Multifamily dwellings</u>
January 1, 2018	\$28.94 per month	\$20.20 per month
January 1, 2019	\$31.13 per month	\$21.72 per month
January 1, 2020	\$33.43 per month	\$23.32 per month
January 1, 2021	\$34.96 per month	\$24.39 per month))
<u>Effective date</u>	<u>Single-family and duplex dwellings</u>	<u>Multifamily dwellings</u>
January 1, 2020	\$33.43 per month	\$23.32 per month
January 1, 2021	\$35.85 per month	\$25.01 per month

At the time of a change to the wastewater volume charge described in Section 21.28.040, the Director of Seattle Public Utilities shall calculate new credits for certified customers who pay for wastewater services indirectly through rent. The rate credit for single-family and duplex customers shall be 0.5 times the wastewater volume charge multiplied by 430 cubic feet (4.3 CCF), which is typical single-family residential sewer billed consumption. The rate credit for multifamily dwelling customers shall be 0.5 times the wastewater volume charge multiplied by 3.0 CCF, which is typical multifamily sewer billed consumption.

2. Drainage. Certified customers residing inside The City of Seattle shall receive the following rate credits for

drainage services based on dwelling type:

Effective Date	Single-Family	Duplex	Multifamily
January 1, 2018	\$20.03 per month	\$10.02 per month	\$2.14 per month
January 1, 2019	\$21.53 per month	\$10.77 per month	\$2.30 per month
January 1, 2020	\$23.24 per month	\$11.62 per month	\$2.49 per month
January 1, 2021	\$25.02 per month	\$12.51 per month	\$2.68 per month

3. Water. Certified customers billed directly for Seattle Public Utilities water services shall receive a rate discount equal to 0.5 times the total current commodity and base service charges. Certified customers who pay for water services indirectly through their rent shall receive the following rate credits based on dwelling type and consistent with Section 21.76.050:

Effective Date	Single-family and duplex dwellings	Multifamily dwellings
January 1, 2017	\$20.56 per month	\$12.38 per month
January 1, 2018	\$21.15 per month	\$12.38 per month
January 1, 2019	\$21.86 per month	\$12.38 per month
January 1, 2020	\$22.85 per month	\$12.50 per month

* * *

Section 4. This ordinance does not affect any existing right acquired or liability or obligation incurred under the sections amended or repealed in this ordinance or under any rule or order adopted under those sections, nor does it affect any proceeding instituted under those sections.

Section 5. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 6. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
Seattle Public Utilities	Vas Duggirala/3-7153	Akshay Iyengar/4-0716

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title:

AN ORDINANCE relating to wastewater services of Seattle Public Utilities; adjusting wastewater rates to pass through changes to treatment rates charged by King County; amending Sections 21.28.040 of the Seattle Municipal Code to reflect the adjusted rates; and amending Section 21.76.040 of the Seattle Municipal Code to adjust credits to low-income wastewater customers.

Summary and background of the Legislation:

King County last spring approved an ordinance authorizing a 4.5% increase to the treatment rate charged to customers, including SPU. The higher rate is effective January 1, 2021. This ordinance would modify the treatment portion of SPU wastewater rates that customers pay to cover wastewater treatment expenses.

SPU is proposing a 2021 wastewater treatment rate of \$16.68/CCF which incorporates the County's treatment rate increase. The proposed treatment rate matches that in the 2019-2021 Drainage and Wastewater Rate Study and is a 7.3% increase over the 2020 wastewater rate of \$15.55/CCF. Currently adopted rates do not include any treatment adjustment, only a 4.6% increase to \$16.26/CCF to cover growing system costs. This legislation would allow SPU to collect enough revenue to cover the increase in treatment expense.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☒ Yes ☐ No

Appropriation change (\$):	General Fund \$		Other \$	
	2021	2022	2021	2022
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	2021	2022	2021	2022
	+\$942,835	+\$1,024,522	+\$7,856,959	+\$8,537,683

Positions affected:			Total FTE Change	
	2021	2022	2021	2022

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No.

Is there financial cost or other impacts of *not* implementing the legislation?

Not implementing this legislation would hinder the Drainage and Wastewater Fund from fully recovering wastewater treatment costs, the balance of which would need to be funded by decreasing liquidity. The reduction to expected revenue would lower the Fund's expected Debt Service Coverage ratio, which along with reduced liquidity, could lower the Fund's debt ratings and increase the cost of borrowing as the Fund manages through a period of increased capital investment and debt stress to fulfill Consent Decree obligations.

3.b. Revenues/Reimbursements

X This legislation adds, changes, or deletes revenues or reimbursements.
Anticipated Revenue/Reimbursement Resulting from this Legislation:

Fund Name and Number	Dept	Revenue Source	2021 Estimated Revenue	2022 Estimated Revenue
00100 General Fund	SPU	Utility Tax (Wastewater)	\$942,835	\$1,024,522
45010	SPU	Wastewater Revenue	\$7,856,959	\$8,537,683
TOTAL			\$8,799,794	\$9,562,205

Is this change one-time or ongoing?

One-time. SPU expects to submit wastewater rates for 2022, 2023, and 2024 in mid-2021.

Revenue/Reimbursement Notes:

Modifications to wastewater rates and discounts authorized by this legislation are expected to increase Drainage and Wastewater Fund revenues by +\$7,856,959 to pay for increased treatment expense and taxes incurred on the additional revenue. Utility Tax paid by the Drainage and Wastewater Fund to the General Fund would increase +\$942,835 on the higher revenue level, with the remainder of the additional revenue paid to wastewater treatment providers and State taxes.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

Several City departments incur wastewater expense. The impacted departments include, but are not limited to: Seattle Center, the City Budget Office, Seattle City Light, the Department of Neighborhoods, the Seattle Department of Transportation, the Seattle Fire Department, the

Department of Finance and Administrative Services, the Department of Parks and Recreation, the Seattle Police Department, Seattle Public Utilities, and the Seattle Public Library.

b. Is a public hearing required for this legislation?

No.

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

No.

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

e. Does this legislation affect a piece of property?

No.

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

This legislation will increase the cost of living and operating a business in Seattle, and would have a disproportionately high impact on customers who use more water including large families and restaurants, and on lower income customers as the same utility bill is a higher percentage of their income than for higher income customers. SPU is in a long-term process of addressing affordability issues through the Accountability and Affordability Strategic Plan and the Strategic Business Plan.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

No.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to facilities at Seattle Center; modifying the Seattle Center Fee Range Schedule and the general terms and conditions for events at Seattle Center from which the Seattle Center Director is authorized to set fees and the general terms, conditions, and guidelines for use of Seattle Center facilities and property; amending Section 17.16.015 of the Seattle Municipal Code (SMC) to provide for adoption of future general terms and conditions for events at Seattle Center by ordinance; amending SMC 17.16.020 to increase the term for event-related service agreements; amending SMC 17.16.030 to grant temporary authority to modify food and beverage service leases due to the impacts of COVID-19 and correct the reporting requirements for in-kind contributions; and repealing SMC Chapter 17.20 providing for use and operation of Veterans Hall, which facility was demolished as part of the renovation of the adjacent Marion Oliver McCaw Hall.

WHEREAS, due to COVID-19, on March 11, 2020, Governor Jay Inslee prohibited all gatherings of 250 or more in western Washington; and

WHEREAS, Seattle Center serves to create exceptional events, experiences, and environments and does so by bringing people together; and

WHEREAS, many of Seattle Center's tenants, resident organizations, and clients have cancelled events, reduced operations, or closed, all of which resulted in significant negative financial impacts; and

WHEREAS, reopening of Seattle Center will require those entities to implement steps to ensure the safety of staff, patrons, and guests, incurring additional expenses while at the same time anticipating uncertain reopening timelines, and reduced attendance and participation at events; and

WHEREAS, Seattle Center's success is dependent upon the success of its tenants, resident organizations, and clients; and

WHEREAS, additional measures need to be taken to address the impact of COVID-19; and

WHEREAS, temporarily increasing the flexibility of the Seattle Center Director to anticipate and respond to the challenges that will be faced with reopening of the campus will assist in enabling the success of Seattle Center; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. The Seattle Center Fee Range Schedule, last amended by Ordinance 125701, is amended effective January 1, 2021, as shown in Attachment A1 to this ordinance. Effective January 1, 2021, the fee range schedule shown in Attachment A to this ordinance is adopted.

Section 2. The Terms and Conditions for Events at Seattle Center, last adopted by Ordinance 124628, are amended effective January 1, 2021, as shown in Attachment B1 to this ordinance. Effective January 1, 2021, the terms and conditions shown in Attachment B to this ordinance are adopted.

Section 3. Section 17.16.015 of the Seattle Municipal Code, last amended by Ordinance 125199, is amended as follows:

17.16.015 Use fee schedule, terms and conditions established

The Seattle Center Director is authorized to charge and collect fees for the use of certain Seattle Center facilities, services, and equipment for Events, as established in ~~((a fee schedule))~~ the Seattle Center Fee Range Schedule as adopted, from time to time, by ordinance. Additionally, the Director is authorized to condition such use on compliance with certain general terms, conditions, rules, and guidelines promulgated by the Director, consistent with the ~~((“))~~ Terms and Conditions for Events at Seattle Center ~~((“(Attachment B to Ordinance 124628)))~~ adopted, from time to time, by ordinance. Once adopted by ordinance, the Seattle Center Fee Range Schedule and the Terms and Conditions for Events at Seattle Center shall remain in effect until repealed or amended by a subsequent ordinance.

Section 4. Section 17.16.020 of the Seattle Municipal Code, last amended by Ordinance 124628, is amended as follows:

17.16.020 Event-related service agreements ~~((:))~~

The Director is authorized as specified in the ((“)) Terms and Conditions for Events at Seattle Center ((“~~Attachment B to the Ordinance introduced as Council Bill 124628~~”)) to enter into agreements with terms of up to ((~~five~~)) ten years with caterers, concessionaires, and other providers of event-related services. The Director is authorized to execute and deliver, for and on behalf of the City, all documents ((~~he or she~~)) the Director shall deem necessary or appropriate in connection with any such agreements authorized in this ((~~section~~)) Section 17.16.020. The authority in this ((~~section~~)) Section 17.16.020 is limited as follows:

A. The Director shall consult with the City Attorney prior to entering into any such agreement and shall use a form of agreement prepared with the assistance and advice of the City Attorney; and

B. The total term of any new agreement shall not exceed ((~~five~~)) ten years in duration.

Section 5. Section 17.16.030 of the Seattle Municipal Code, last amended by Ordinance 124628, is amended as follows:

17.16.030 Seattle Center lease agreements ((:))

The Seattle Center Director is hereby authorized, for and on behalf of The City of Seattle, to negotiate and ((~~to~~)) execute ((~~, for and on the behalf of The City of Seattle,~~)) lease agreements and to modify existing lease agreements for the use and occupancy of spaces within or on Seattle Center grounds or under the management of the Seattle Center for uses that are not Events, and to execute all other necessary documents in connection therewith((; ~~Provided,~~)) provided that:

A. Any lease agreement shall be in a standard form of agreement prepared with the assistance or advice of the City Attorney, or on a non-standard form contingent upon prior consultation with the City Attorney regarding the differences between the standard form and the non-standard form; and,

B. Lease agreements for food and beverage services in the Armory and on the Seattle Center campus shall be for a term of no more than ten years and lease agreements for all other locations on the Seattle Center grounds shall be for a term of no more than five years without prior approval of the City Council by ordinance; ((;)) provided, however, that the Seattle Center Director may enter into new leases for the same property with

the same tenant upon different terms and conditions from a previous lease for the same property; and provided, however, that until December 31, 2022, the Seattle Center Director is authorized to modify the covenants and conditions and extend the term of any food and beverage service lease agreement for up to two additional years without prior approval of the City Council by ordinance; and

C. The basic rent for Seattle Center lease agreements shall be at a rate that is commensurate with the quality of the space and prevailing market rates for similar property in the vicinity of Seattle Center. The Seattle Center Director is authorized to accept in-kind contributions of services for the City's benefit in order to offset all or a portion of any cash rent due from not-for-profit organizations or any other entities as the Director deems reasonable; any such services to be accepted shall be specifically identified in the lease agreement along with a statement as to the amount of cash rent offset for such services.

~~((The Seattle Center is authorized to accept in-kind contributions of services for the City's benefit in order to offset all or a portion of any cash rent due from not-for-profit organizations or any other entities as the Director deems reasonable; any such services to be accepted shall be specifically identified in the office space lease agreement along with a statement as to the amount of cash rent offset for such services.))~~

D. One or more parking spaces in Seattle Center parking facilities may, but need not, be provided to Seattle Center tenants in conjunction with such lease for no added consideration under new lease agreements, and under amendments of existing lease agreements, for such added cash rent or in-kind services for the City's benefit as the Director deems reasonable, taking into consideration the parking rates established pursuant to ~~((~~ Ordinance 112572, as now or hereafter amended.) Chapter 17.19.

E. The authority in this ~~((section))~~ Section 17.16.030 does not apply to: (1) agreements allowing the use of Seattle Center space for Events or (2) the use and occupancy of facilities described in the ~~((“))~~ Terms and Conditions for Events at Seattle Center, ~~((“ (Attachment B to the Ordinance introduced as Council Bill 118229).))~~

Section 6. Chapter 17.20 of the Seattle Center Municipal Code, last amended by Ordinance 104281, is

repealed:

~~((Chapter 17.20 SEATTLE CENTER VETERANS HALL~~

~~17.20.010 Use of building.~~

~~The Seattle Center Director is authorized to permit under his supervision and control, at such times as the same is not required for other public purposes, the use and occupancy of the building adjacent to the Opera House, known as the Seattle Center Veterans Hall, by posts of the Grand Army of the Republic, camps of the United Spanish War Veterans, posts of the Veterans of Foreign Wars, posts of the American Legion, chapters of the Disabled American Veterans of the World War, the 91st Division Association A.E.F. of Washington, the Second Washington and 161st Infantry Association, the Seattle Branch No. 32, Canadian Legion, the Ladies of the Grand Army of the Republic, the Daughters of Union Veterans of the Civil War, the Fleet Reserve Association, Branch Eighteen, Seattle Club No. 8, Navy Mothers Clubs of America, Seattle Detachment Marine Corps League, and all other veterans' organizations nationally chartered by the Congress of the United States and organizations auxiliary to the foregoing: provided, however, that organizations of veterans shall be given preference in such use and occupancy over such auxiliary organizations; provided, further, that such use and occupancy shall not extend to the ground floor of the building.~~

~~17.20.020 Division of operating costs.~~

~~The organizations using or occupying the Seattle Center Veterans Hall pursuant to the provisions of Section 17.20.010, shall jointly furnish, at their own cost and expense, all such operating services (excluding steam heat, water and electric service, but including janitor, telephone, gas, watchman's or other similar service) as they may require, subject, however, to the approval of the Seattle Center Director. Each such organization shall pay its proportionate share of the total of such cost and expense, said share to bear the same proportion of such total cost as the number of times the building is used per month by such organization bears to the total number of times per month the building is used; provided, however, that in the event that any organization requires any service not required by the other organizations, it shall furnish such service at its sole cost and expense. The~~

~~actual amounts of such shares shall be fixed by the Seattle Center Director whose determination thereof shall be final.~~

~~17.20.030 Adoption of rules-Revocation of use permit.~~

~~In the administration of the building, the Seattle Center Director is authorized to make, adopt and enforce, all reasonable rules and regulations necessary for the proper and orderly use of the building by the organizations mentioned in Section 17.20.010, and in the event of the violation of any of such rules or regulations or of the failure to pay its proportionate share of the cost of the operating services referred to in Section 17.20.020 by any of the organizations, the Director is authorized to revoke its permit to use and occupy the building, and to expel such organization therefrom.~~

~~17.20.040 Advisory Board.~~

~~There is created an Advisory Board to advise and assist the Seattle Center Director in the administration of the Seattle Center Veterans Hall (except the ground floor thereof), the Board to consist of five (5) persons, each of whom shall be a member in good standing of one (1) of the organizations or associations mentioned in Section 17.20.010, not more than two (2) of whom, however, shall be members of the same post, camp, chapter or unit. The members of the Board shall be appointed as follows: One (1) each by the Mayor, the Seattle Center Director and the City Council, and two (2) by a majority of the commanders or heads of the organizations or associations mentioned in Section 17.20.010, in meeting assembled. Each member of the Board shall serve for a period of five (5) years, unless sooner removed, except that the five (5) members first appointed shall serve one (1), two (2), three (3), four (4) and five (5) years, respectively; the length of service of each of the members to be determined by lot at the first meeting of the Board. Each member of the Board may be removed at the pleasure of the authority appointing him. Upon a vacancy by death, resignation, disability or removal, or the expiration of the term of office of any member, his successor shall be appointed by the authority which appointed him; provided, that the Board, by majority vote of its remaining members, may fill such vacancy by election of a temporary appointee, who shall serve until such vacancy be filled by regular appointment. The~~

~~Board shall annually select a chairman and a secretary from its members.))~~

Section 7. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

Attachment A: Seattle Center Fee Range Schedule

Effective January 1, 2021

Facility	Use Fee Ranges Standard/Government Agency Events		Use Fee Ranges Spectator Events ⁴			
	EVENT DAY FEE ^{1 & 2 & 7}		Higher of: EVENT DAY FEE ⁷ PERCENTAGE OF NET GROSS SALES ³			
	MINIMUM	MAXIMUM	MINIMUM	MAXIMUM	MINIMUM	MAXIMUM
Armory Loft	\$600	\$5,000	NA	NA	NA	NA
Rooms 2 & 3 & 4	\$300	\$2,000	NA	NA	NA	NA
Rooms 1A & 1B	\$200	\$1,000	NA	NA	NA	NA
Exhibition Hall	\$2,500	\$9,000	\$1,000	\$9,000	NA	NA
Fisher Pavilion	\$2,500	\$9,000	\$1,500	\$7,000	NA	NA
International Fountain Pavilion	\$450	\$5,000	NA	NA	NA	NA
Armory Atrium	\$1,000	\$10,000	\$1,000	\$10,000	5%	15%
Marion Oliver McCaw Hall	\$3,000	\$10,000	\$3,000	\$12,000	5.5%	15%
Facility Surcharge						
McCaw Hall			Up to \$6 per ticket or per paid admission for all promoters			
Other Facilities			Up to \$6 per ticket or per paid admission for all promoters			

NOTES:

- Full Day Move-In/Out:** The Director may reduce the use fee for move-in and/or move-out on the days preceding and following an Event to as low as half the price of an Event day.
- Partial day Move-In/Out:** The Director may reduce the use fee to as low as one quarter of the use fee for an Event day for move-in and move-out when only a small portion of the day is used.
- Net Gross Sales:** Net Gross Sales means the total amount of money received or receivable from the sale of admission tickets to a Spectator Event, less any applicable City Admission Tax, City B & O Tax, State Revenue Tax and Washington State Athletic Commission Tax due in connection with such Event, as substantiated by a certified box office statement.
- Use Fee Ranges for Spectator Events:** Licensee must pay the higher of the Event day fee or the percentage of Net Gross Sales. The Event day fee and the percentage of Net Gross Sales shall be set within the ranges established by the minimums and maximums set forth above in accordance with the Terms and Conditions for Events at Seattle Center. For example, a rental of the McCaw Hall Auditorium may be set within these ranges to be the higher of an Event day fee set at \$3,700 versus 9% of Net Gross Sales for the event.
- For 2nd day and succeeding days of events:** The Director may negotiate and reduce the use fee for the second and succeeding days of multi-day uses.
- High Value Dates:** The Director may charge premium rates of up to 50% more than the maximum Event day fee listed above for Events in any Facility on dates the Director designates as High Value Dates. A “High Value Date” means a holiday or a date on which Seattle Center is already hosting a major campus-wide event. Examples of High Value Dates include but are not limited to New Year’s Eve, the date of the Pride Festival, the date of the Seafair Torchlight Parade, or the date of the St. Patrick’s Day Dash.
- Definitions.** Any capitalized word or phrase that is not defined in this Attachment shall have the meaning given in S.M.C 17.16.005 or in the Terms and Conditions for Events at Seattle Center.

Attachment B: Terms and Conditions for Events at Seattle Center

Effective January 1, 2021

1.DIRECTOR'S AUTHORITY

The Director shall prepare facility use agreements for Events and Event-related services at the Seattle Center for overall terms of not more than five years, with the approval of the City Attorney and the guidance of the Risk Manager and the City Budget Director, and in accordance with all applicable City of Seattle ordinances and policies. Facility use agreements with terms in excess of two years shall be subject to review by the City Budget Director.

The Director shall promulgate rules and guidelines containing regulations and standards for the application of fees, charges, and terms and conditions of use for Seattle Center facilities that are consistent with the policies expressed herein.

2.DEFINITIONS

- a. "Concession Fee" means a fee charged either as a percentage of sales or at a flat rate for the right to sell merchandise and/or food and beverages at an Event.
- b. "Consumer Show" means an Event open to the public in which businesses sell or sample their products to consumers, and for which a ticket or entrance fee is required.
- c. "Exhibit Show" means a ticketed or non-ticketed Event in which audiences view a static display of things, articles, or images. An Exhibit Show may include elements in which seated audiences view a demonstration or performance related to the static display.
- d. "Facility" means a room, building, or outdoor space at Seattle Center that can be rented by the public.
- e. "Government Agency Event" means an Event of any agency of the federal government, any department of the State of Washington, any municipal corporation or corporation chartered by a municipality, or any other special or general purpose unit of local government in the State of Washington.
- f. "Seattle Center Productions Event" means an Event for which Seattle Center is the sole or partial financial sponsor and controls some aspect of the production.
- g. "Spectator Event" means any Event open to the public and held in the Exhibition Hall, Fisher Pavilion, Armory, Marion Oliver McCaw Hall, or on the Seattle Center grounds, where admission to the Event's principal activity is ticketed or an admission fee is required, except for trade or Consumer Shows, private meetings, conventions, or Exhibit Shows.

- h. “Standard Event” means any Event that is not a Spectator Event or Government Agency Event, including but not limited to Consumer Shows, private meetings, conventions, Exhibit Shows and non-ticketed Events.
- i. “Use Period” means the time specified in the agreement as the inclusive times for user’s use of a specified Facility on a specified day, including any portion of the immediately following day into which the inclusive time extends as established in the use agreement.

3.CLIENT USE OF FACILITIES

- a. **USE FEES:** The Director is authorized to establish from time to time a schedule of facility use fees (the “Rate Card”) for applicable Seattle Center facilities, consistent with Attachment A, “the Seattle Center Fee Range Schedule,” and taking into account the following City policies: (i) that the Rate Card shall be administered the same to any entity that qualifies to use a Seattle Center facility; and (ii) that fees be competitive in the marketplace and be anticipated to return reasonable revenue to Seattle Center relative to operational costs. The Rate Card may set fees according to event type, size of venue, or on any other basis consistent with the Seattle Center Fee Range Schedule and with the above policy.

Director may negotiate fees for intermittent use of miscellaneous facilities and portions of facilities that are not identified in the Attachment A: Seattle Center Fee Range Schedule, based on the policies described above, and taking into consideration market conditions and other legitimate business concerns.

A separate use fee will be charged for each Use Period. Use fees shown on a Rate Card are minimum use fees. Where percentages of net gross sales apply above a minimum use fee, the Director may negotiate a maximum use fee. In-kind consideration such as complimentary tickets, or services such as guest appearances, may be negotiated as part of the overall consideration for use of a Facility. The Director shall promulgate a Complimentary Ticket Use Policy governing the use of complimentary tickets which shall be consistent with the City of Seattle Ethics Code.

- b. **FACILITY SURCHARGES:** The Director is authorized to collect an additional use fee to be known as a Facility Surcharge on all Spectator Events and Consumer Shows based on the number of tickets sold (or on the number of paid admissions, if tickets are not used), and to establish a schedule of per-ticket or per-paid-admission rates consistent with Attachment A: Seattle Center Fee Range Schedule. The basis for computing the Facility Surcharge may include complimentary tickets or admissions if such complimentary tickets or admissions exceed 10% of sellable capacity for the Event, in which case the Facility Surcharge shall be payable for those complimentary tickets or admissions that exceed 10% of sellable capacity. The Director shall promulgate guidelines governing the application of the Facility Surcharge, which guidelines shall be based on costs incurred or service provided by the City.

- c. **USE FEE PAYMENTS:** The full amount of the use fee is due prior to the Event for Standard Events; an executed purchase order is required prior to the Event for Government Agency Events. For Spectator Events, a deposit is due prior to the Event with the remainder due at settlement for the Event. Money paid to the City shall be in the form of legal tender of the United States of America. Goods and services with a wholesale value that is equal to or greater than the use fee may be accepted in partial or full payment, subject to City of Seattle purchasing rules.

The Director is authorized to determine due dates for the return of signed use agreements and for payments, including installment payments, that take into consideration the fiscal responsibility of Seattle Center and sound business practices including the reasonable amount of time that is needed to re-let a space if a deadline is not met; the financial history of repeat clients; the time needed to set up the space without incurring additional labor costs and the time needed for the user to return the use agreement with the initial payment.

- d. **CONTINGENCY DEPOSIT:** In addition to the use fee, the Director may require a deposit(s) to be paid prior to an Event to cover some portion of the estimated labor, parking fees, equipment charges, services, damage or other incidental charges anticipated to be incurred during the Event, or as partial security for payment-in-full of all Event-related expenses. Any portion of the deposit remaining after deductions are made to pay a user's Event expenses shall be refunded to the user. The Director may waive this deposit(s) based on a history of reliable payment by a user or lack of charges incurred during past Events of that user.
- e. **CANCELLATION FEES:** The Director may assess reasonable cancellation fees for Events or portions of Events that are cancelled within a certain time period prior to the Event as specified in the use agreement. In determining whether to assess a cancellation fee, the Director shall employ sound business practices including the time characteristically needed to book a new Event in the same type of space; the user's past Event history; and the financial consequences to Seattle Center if the Event is cancelled.
- f. **TRANSFER FEES:** To accommodate users' needs and maintain good business relationships, and subject to availability, Seattle Center may permit users to change contracted Event dates and/or spaces when doing so does not have a negative financial impact on Seattle Center. A transfer fee may be charged if the request is made close to the time of the Event.
- g. **ORIGINATION FEES:** The Director may assess Origination Fees defined as fees based on industry standards for the right to take photographs, broadcast a performance live, or make a video and/or audio recording at an Event at Seattle Center. The Director may accept the user's promotion of Seattle Center in partial or full payment of the Origination Fee provided that the value of the promotion is equal to or exceeds the value of the Origination Fee.

- h. **CATERING:** The Director may collect fees for catering services provided to guests at Events in facilities at Seattle Center. For Seattle Center Productions Events, the Director may include this fee as part of Seattle Center’s Event sponsorship. The Director may enter into catering agreements with terms of up to ten years, giving one or more caterers the right to provide catering services to Seattle Center clients in conjunction with such clients’ events in Seattle Center Facilities, in accordance with Seattle Municipal Code (SMC) 17.16.020. These catering rights may or may not be exclusive depending on the specific Facility.

- i. **FOOD AND BEVERAGE CONCESSIONS:** The Director may collect Concessions Fees for sales of food and beverages by users of spaces not subject to an exclusive food and beverage concession agreement, unless the Event is a food fair. The Director shall establish guidelines with a table of charges based on the number of concession stands, the expected attendance and an estimated per capita expenditure by guests at the Event, as well as based on market competitiveness. The Director may combine this charge with other charges and fees.

The Director may enter into concession agreements with terms of up to ten years, giving the concessionaire the exclusive right to sell such food and beverages at Events in specific facilities, and/or to the public at specified locations on the Seattle Center grounds, in accordance with SMC 17.16.020.

- j. **PROGRAM AND NOVELTY CONCESSIONS:** The Director may collect Concession Fees at any Event at which users or their agents sell programs and novelty items. The fee shall not apply to exhibitors at an exhibit show who have contracted for booth space from the user. The Director may combine this charge with other charges and fees.

The Director may enter into concession agreements with terms of up to ten years, giving the concessionaire the exclusive right to sell program and novelty items at Spectator Events in specific facilities, and/or to the public at specified locations on the Seattle Center grounds, in accordance with SMC 17.16.020.

- k. **REFUNDS:** The Director may refund fees to make amends to dissatisfied users for failures in service by Seattle Center or Event vendors or for such other reasons as the Director may determine are fair and reasonable.

l. **OPERATIONAL TERMS:**

- 1) **Services and Equipment:** Certain services and equipment will be provided by Seattle Center on the day(s) of an Event in consideration of use fees paid. These services are specified in the use agreement or listed in the applicable Facility Addenda that shall be attached to the use agreement.

Certain other services and equipment may be required or made available for an additional charge, which shall be described in addenda to the use agreement. The charges in these addenda shall be based on the Director’s

assessment of competitive fees in the marketplace and anticipated revenue generation for Seattle Center relative to the operational costs of buying, maintaining and replacing equipment and of supplying services.

The Director may enter into service provider agreements with terms of not more than ten years in accordance with SMC 17.16.020, securing event-related services at rates favorable to the City and under provisions requiring the services to be performed in a professional manner that accommodates the needs of both the Seattle Center and any user who uses these services.

- 2) **Cleaning Between Performances:** For the safety of attendees to an Event, and to maintain Seattle Center's standards of appearance for the Facility, the Director may require users to pay for cleaning between multiple performances on the same day.
- 3) **Hours of Use:** The Director may determine the hours of the day that an Event may be open at Seattle Center.
- m. **SPECIAL CONDITIONS:** The Director is authorized to vary from the established Rate Card only for sound business purposes and only if such variance is available to any user. The reasons for variance shall be contained in Seattle Center rules and guidelines, be in the City's best interest, and be related to the stated goals for Seattle Center, including generating revenue. The Director may negotiate terms and conditions for use that combine use fees with other charges and sources of revenue related to an Event; may waive fees or portions of fees; and negotiate terms that create benefits for Seattle Center in addition to use fees.

The Director is authorized to waive up to \$25,000 of use fees, facility surcharges and/or other charges per Standard Event or Spectator Event for facility use agreements completed through December 31, 2022.

4. CENTER PRODUCTIONS EVENTS

The Director is authorized to negotiate and enter into agreements to sponsor Events at Seattle Center. These Events shall comply with the Department's public programming guidelines. The City's financial support for the Event shall be based on the relevancy of the Event to the goals contained in the Seattle Center Vision Statement and Public Programming Strategic Plan, and on availability of appropriate resources. Approval by the City Budget Director is required for agreements where the City's financial support exceeds \$25,000. Application for status as a Seattle Center Productions Event is open to everyone. Seattle Center shall determine whether to sponsor the Event as a Seattle Center Production and the terms and conditions of such sponsorship.

5. EVENTS CO-PROMOTED BY SEATTLE CENTER

The Director is authorized to negotiate and enter into agreements as a co-promotion partner for Events in any Facility. For these Events, all sources of Event revenue and Event-

related expenses may be shared with the co-promoter. Co-promotion decisions shall be made judiciously for sound business reasons with the intent of achieving Seattle Center goals, increasing use of the facilities and maximizing revenue for the City. Approval by the City Budget Director is required for agreements where the City's risk for potential loss, excluding the cost of facility rental, exceeds \$100,000.

6. EVENTS PROMOTED BY SEATTLE CENTER

The Director is authorized to enter into agreements as a promoter of Events in any Facility. For these Events, City shall retain all sources of Event revenue and shall be responsible for all Event-related expenses. Decisions to self-promote Events shall be made judiciously for sound business reasons with the intent of achieving Seattle Center goals, increasing use of the facilities and maximizing revenue for the City. Approval by the City Budget Director is required for agreements where the City's risk for potential loss exceeds \$100,000.

Attachment B1: Terms and Conditions for Events at Seattle Center (markup)

Effective January 1, ((2019)) 2021

1.DIRECTOR'S AUTHORITY

The Director shall prepare facility use agreements for Events and Event-related services at the Seattle Center for overall terms of not more than five years, with the approval of the City Attorney and the guidance of the Risk Manager and the City Budget Director, and in accordance with all applicable City of Seattle ordinances and policies. Facility use agreements with terms in excess of two years shall be subject to review by the City Budget Director.

The Director shall promulgate rules and guidelines containing regulations and standards for the application of fees, charges, and terms and conditions of use for Seattle Center facilities that are consistent with the policies expressed herein.

2.DEFINITIONS

- a. "Concession Fee" means a fee charged either as a percentage of sales or at a flat rate for the right to sell merchandise and/or food and beverages at an Event.
- b. "Consumer Show" means an Event open to the public in which businesses sell or sample their products to consumers, and for which a ticket or entrance fee is required.
- c. "Exhibit Show" means a ticketed or non-ticketed Event in which audiences view a static display of things, articles, or images. An Exhibit Show may include elements in which seated audiences view a demonstration or performance related to the static display.
- d. "Facility" means a room, building, or outdoor space at Seattle Center that can be rented by the public.
- e. "Government Agency Event" means an Event of any agency of the federal government, any department of the State of Washington, any municipal corporation or corporation chartered by a municipality, or any other special or general purpose unit of local government in the State of Washington.
- f. "Seattle Center Productions Event" means an Event for which Seattle Center is the sole or partial financial sponsor and controls some aspect of the production.
- g. "Spectator Event" means any Event open to the public and held in the Exhibition Hall, Fisher Pavilion, Armory, Marion Oliver McCaw Hall, or on the Seattle Center grounds, where admission to the Event's principal activity is ticketed or an admission

fee is required, except for trade or Consumer Shows, private meetings, conventions, or Exhibit Shows.

- h. “Standard Event” means any Event that is not a Spectator Event or Government Agency Event, including but not limited to Consumer Shows, private meetings, conventions, Exhibit Shows and non-ticketed Events.
- i. “Use Period” means the time specified in the agreement as the inclusive times for user’s use of a specified Facility on a specified day, including any portion of the immediately following day into which the inclusive time extends as established in the use agreement.

3.CLIENT USE OF FACILITIES

- a. **USE FEES:** The Director is authorized to establish from time to time a schedule of facility use fees (the “Rate Card”) for applicable Seattle Center facilities, consistent with Attachment A, “the Seattle Center Fee Range Schedule,” and taking into account the following City policies: (i) that the Rate Card shall be administered the same to any entity that qualifies to use a Seattle Center facility; and (ii) that fees be competitive in the marketplace and be anticipated to return reasonable revenue to Seattle Center relative to operational costs. The Rate Card may set fees according to event type, size of venue, or on any other basis consistent with the Seattle Center Fee Range Schedule and with the above policy.

Director may negotiate fees for intermittent use of miscellaneous facilities and portions of facilities that are not identified in the Attachment A: Seattle Center Fee Range Schedule, based on the policies described above, and taking into consideration market conditions and other legitimate business concerns.

A separate use fee will be charged for each Use Period. Use fees shown on a Rate Card are minimum use fees. Where percentages of net gross sales apply above a minimum use fee, the Director may negotiate a maximum use fee. In-kind consideration such as complimentary tickets, or services such as guest appearances, may be negotiated as part of the overall consideration for use of a Facility. The Director shall promulgate a Complimentary Ticket Use Policy governing the use of complimentary tickets which shall be consistent with the City of Seattle Ethics Code.

- b. **FACILITY SURCHARGES:** The Director is authorized to collect an additional use fee to be known as a Facility Surcharge on all Spectator Events and Consumer Shows based on the number of tickets sold (or on the number of paid admissions, if tickets are not used), and to establish a schedule of per-ticket or per-paid-admission rates consistent with Attachment A: Seattle Center Fee Range Schedule. The basis for computing the Facility Surcharge may include complimentary tickets or admissions if such complimentary tickets or admissions exceed 10% of sellable capacity for the Event, in which case the Facility Surcharge shall be payable for those complimentary tickets or admissions that exceed 10% of sellable capacity. The Director shall

promulgate guidelines governing the application of the Facility Surcharge, which guidelines shall be based on costs incurred or service provided by the City.

- c. **USE FEE PAYMENTS:** The full amount of the use fee is due prior to the Event for Standard Events; an executed purchase order is required prior to the Event for Government Agency Events. For Spectator Events, a deposit is due prior to the Event with the remainder due at settlement for the Event. Money paid to the City shall be in the form of legal tender of the United States of America. Goods and services with a wholesale value that is equal to or greater than the use fee may be accepted in partial or full payment, subject to City of Seattle purchasing rules.

The Director is authorized to determine due dates for the return of signed use agreements and for payments, including installment payments, that take into consideration the fiscal responsibility of Seattle Center and sound business practices including the reasonable amount of time that is needed to re-let a space if a deadline is not met; the financial history of repeat clients; the time needed to set up the space without incurring additional labor costs and the time needed for the user to return the use agreement with the initial payment.

- d. **CONTINGENCY DEPOSIT:** In addition to the use fee, the Director may require a deposit(s) to be paid prior to an Event to cover some portion of the estimated labor, parking fees, equipment charges, services, damage or other incidental charges anticipated to be incurred during the Event, or as partial security for payment-in-full of all Event-related expenses. Any portion of the deposit remaining after deductions are made to pay a user's Event expenses shall be refunded to the user. The Director may waive this deposit(s) based on a history of reliable payment by a user or lack of charges incurred during past Events of that user.
- e. **CANCELLATION FEES:** The Director may assess reasonable cancellation fees for Events or portions of Events that are cancelled within a certain time period prior to the Event as specified in the use agreement. In determining whether to assess a cancellation fee, the Director shall employ sound business practices including the time characteristically needed to book a new Event in the same type of space; the user's past Event history; and the financial consequences to Seattle Center if the Event is cancelled.
- f. **TRANSFER FEES:** To accommodate users' needs and maintain good business relationships, and subject to availability, Seattle Center may permit users to change contracted Event dates and/or spaces when doing so does not have a negative financial impact on Seattle Center. A transfer fee may be charged if the request is made close to the time of the Event.
- g. **ORIGINATION FEES:** The Director may assess Origination Fees defined as fees based on industry standards for the right to take photographs, broadcast a performance live, or make a video and/or audio recording at an Event at Seattle Center. The Director may accept the user's promotion of Seattle Center in partial or

full payment of the Origination Fee provided that the value of the promotion is equal to or exceeds the value of the Origination Fee.

- h. **CATERING:** The Director may collect fees for catering services provided to guests at Events in facilities at Seattle Center. For Seattle Center Productions Events, the Director may include this fee as part of Seattle Center's Event sponsorship. The Director may enter into catering agreements with terms of up to ~~((five))~~ ten years, giving one or more caterers the right to provide catering services to Seattle Center clients in conjunction with such clients' events in Seattle Center Facilities, in accordance with Seattle Municipal Code (SMC) 17.16.020. These catering rights may or may not be exclusive depending on the specific Facility.

- i. **FOOD AND BEVERAGE CONCESSIONS:** The Director may collect Concessions Fees for sales of food and beverages by users of spaces not subject to an exclusive food and beverage concession agreement, unless the Event is a food fair. The Director shall establish guidelines with a table of charges based on the number of concession stands, the expected attendance and an estimated per capita expenditure by guests at the Event, as well as based on market competitiveness. The Director may combine this charge with other charges and fees.

The Director may enter into concession agreements with terms of up to ~~((five))~~ ten years, giving the concessionaire the exclusive right to sell such food and beverages at Events in specific facilities, and/or to the public at specified locations on the Seattle Center grounds, in accordance with SMC 17.16.020.

- j. **PROGRAM AND NOVELTY CONCESSIONS:** The Director may collect Concession Fees at any Event at which users or their agents sell programs and novelty items. The fee shall not apply to exhibitors at an exhibit show who have contracted for booth space from the user. The Director may combine this charge with other charges and fees.

The Director may enter into concession agreements with terms of up to ~~((five))~~ ten years, giving the concessionaire the exclusive right to sell program and novelty items at Spectator Events in specific facilities, and/or to the public at specified locations on the Seattle Center grounds, in accordance with SMC 17.16.020.

- k. **REFUNDS:** The Director may refund fees to make amends to dissatisfied users for failures in service by Seattle Center or Event vendors or for such other reasons as the Director may determine are fair and reasonable.

l. **OPERATIONAL TERMS:**

- 1) **Services and Equipment:** Certain services and equipment will be provided by Seattle Center on the day(s) of an Event in consideration of use fees paid. These services are specified in the use agreement or listed in the applicable Facility Addenda that shall be attached to the use agreement.

Certain other services and equipment may be required or made available for an additional charge, which shall be described in addenda to the use agreement. The charges in these addenda shall be based on the Director's assessment of competitive fees in the marketplace and anticipated revenue generation for Seattle Center relative to the operational costs of buying, maintaining and replacing equipment and of supplying services.

The Director may enter into service provider agreements with terms of not more than ~~((five))~~ ten years in accordance with SMC 17.16.020, securing event-related services at rates favorable to the City and under provisions requiring the services to be performed in a professional manner that accommodates the needs of both the Seattle Center and any user who uses these services.

- 2) Cleaning Between Performances: For the safety of attendees to an Event, and to maintain Seattle Center's standards of appearance for the Facility, the Director may require users to pay for cleaning between multiple performances on the same day.
 - 3) Hours of Use: The Director may determine the hours of the day that an Event may be open at Seattle Center.
- m. SPECIAL CONDITIONS: The Director is authorized to vary from the established Rate Card only for sound business purposes and only if such variance is available to any user. The reasons for variance shall be contained in Seattle Center rules and guidelines, be in the City's best interest, and be related to the stated goals for Seattle Center, including generating revenue. The Director may negotiate terms and conditions for use that combine use fees with other charges and sources of revenue related to an Event; may waive fees or portions of fees; and negotiate terms that create benefits for Seattle Center in addition to use fees.

The Director is authorized to waive up to \$25,000 of use fees, facility surcharges and/or other charges per Standard Event or Spectator Event for facility use agreements completed through December 31, 2022.

4. CENTER PRODUCTIONS EVENTS

The Director is authorized to negotiate and enter into agreements to sponsor Events at Seattle Center. These Events shall comply with the Department's public programming guidelines. The City's financial support for the Event shall be based on the relevancy of the Event to the goals contained in the Seattle Center Vision Statement and Public Programming Strategic Plan, and on availability of appropriate resources. Approval by the City Budget Director is required for agreements where the City's financial support exceeds \$25,000. Application for status as a Seattle Center Productions Event is open to everyone. Seattle Center shall determine whether to sponsor the Event as a Seattle Center Production and the terms and conditions of such sponsorship.

5. EVENTS CO-PROMOTED BY SEATTLE CENTER

The Director is authorized to negotiate and enter into agreements as a co-promotion partner for Events in any Facility. For these Events, all sources of Event revenue and Event-related expenses may be shared with the co-promoter. Co-promotion decisions shall be made judiciously for sound business reasons with the intent of achieving Seattle Center goals, increasing use of the facilities and maximizing revenue for the City. Approval by the City Budget Director is required for agreements where the City's risk for potential loss, excluding the cost of facility rental, exceeds (~~(\$50,000)~~) \$100,000.

6. EVENTS PROMOTED BY SEATTLE CENTER

The Director is authorized to enter into agreements as a promoter of Events in any Facility. For these Events, City shall retain all sources of Event revenue and shall be responsible for all Event-related expenses. Decisions to self-promote Events shall be made judiciously for sound business reasons with the intent of achieving Seattle Center goals, increasing use of the facilities and maximizing revenue for the City. Approval by the City Budget Director is required for agreements where the City's risk for potential loss exceeds (~~(\$50,000)~~) \$100,000.

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to facilities at Seattle Center; modifying the Seattle Center Fee Range Schedule and the general terms and conditions for events at Seattle Center from which the Seattle Center Director is authorized to set fees and the general terms, conditions, and guidelines for use of Seattle Center facilities and property; amending Section 17.16.015 of the Seattle Municipal Code (SMC) to provide for adoption of future general terms and conditions for events at Seattle Center by ordinance; amending SMC 17.16.020 to increase the term for event-related service agreements; amending SMC 17.16.030 to grant temporary authority to modify food and beverage service leases due to the impacts of COVID-19 and correct the reporting requirements for in-kind contributions; and repealing SMC Chapter 17.20 providing for use and operation of the Veterans Hall, which facility was demolished as part of the renovation of the adjacent Marion Oliver McCaw Hall.

Summary and background of the Legislation: Seattle Center regularly adjusts various facility fees and facility charges for its commercial event facilities. The fees for events are structured within ranges, identified in the Seattle Center Fee Range Schedule. This biennial process differs from others in that the COVID-19 pandemic which has shuttered the event and live entertainment industries in recent months has brought a great deal of uncertainty into the near future of Seattle Center's event forecast. In addition to the regular updating of facility fees and charges, Seattle Center is proposing additional adjustments that provide the Director temporary increased flexibility to meet the unique demands Seattle Center is currently facing. These adjustments will allow the Director to respond to not only the immediate challenges, but also the changing and evolving business environment anticipated over the next few years. Specifically, the legislation achieves six items.

- Updates Facility Use Fees
- Extends from 5 years to 10 year the length of agreements the Director may enter into for event related service agreements
- Temporarily authorizes the Director to waive up to \$25,000 in fees and charges per spectator or standard event to help mitigate COVID-19 impacts.
- Temporarily authorizes the Director to modify existing food and beverage service agreements to help mitigate COVID-19 impacts.
- Increases the amount of risk of potential loss the Seattle Center Director is authorized to undertake without approval of the City Budget Director for Seattle Center co-promoted or promoted events from \$50,000 to \$100,000
- Repeals an out of date section of the SMC for a facility which no longer exists

Facility Fee Update

This legislation updates the facility use fees for event facilities. The existing event fee ranges provides the Director with discretion to raise or lower fees if the current event market supports the change. When the Director becomes aware of market factors that will allow facility rental rates to be raised and still be competitive, a new rate schedule will be published. Alternatively, if economic conditions change for the worse, or if research indicates that a target client group is not being attracted, the Director may revise the rate schedule to lower fees within the adopted ranges in order to attract and retain business.

Event Related Service Agreements

Seattle Center utilizes a variety of vendors, such as ticketing services, catering, concessionaires, and caterers, and technology services to help support the various events which occur at Seattle Center. These agreements are currently limited to terms of up to five years. This legislation extends the length of agreement the Director may enter to ten years. This increase is necessary to 1) address the reduced business opportunities available to vendors due to the closure of KeyArena by allowing them to amortize their investments over a longer term agreement and 2) given the increased business risk due to the COVID-19 pandemic, it is reasonable to provide a longer term to allow these vendors to benefit from a business relationship with Seattle Center.

Temporary Authority to Extend Term of Food and Beverage Agreements

This legislation proposes giving the Seattle Center Director the temporary authority to extend the term of food and beverage service agreements entered into under the Director's existing authority for up to two additional years. The purpose of this is to recognize that a significant period of time for many of our Armory agreements have passed while the facility itself was closed. Many of these tenants are small businesses with agreements of no more than ten years. The ability to modify the agreement to allow for up to two additional years will allow these tenants needed stability if appropriate as they resume operations when Seattle Center resumes operations.

Temporary Fee Waiver Authority

The event industry has been negatively impacted by the COVID-19 pandemic. The fluctuating guidance concerning the size of gatherings that will be allowed coupled with the public's current wariness regarding attending large gatherings has created great uncertainty with the risk level event promoters are willing to take. Seattle Center recognizes the risk being taken by these promoters and is proposing temporary authority to provide some incentive to hold events when appropriate. While Seattle Center will adhere to the Facility Use Fees proposed in this legislation, it is beneficial for the Director to have the flexibility to provide an incentive when deemed appropriate. To help incentivize event promoters to begin hosting events at Seattle Center again, this legislation authorizes the Director to provide, at his discretion a waiver of up to \$25,000 of use fees, facility surcharges or other fees. This option, which will only be in effect

through December 31, 2022, will help mitigate the promoter's risk in a post-COVID world and provide Seattle Center one additional tool to incentivize promoters to utilize its facilities.

Co-Promoted and Self Promoted Events

The Director is currently authorized to enter into agreements as a promoter or co-promoter of events. For these events, the City either shares (for co-promoted events) or retains all sources of event revenue and is responsible for or shares all event-related expenses. Decisions to self-promote or co-promote events are made with the intent of achieving Seattle Center goals, increasing use of the facilities, and maximizing revenue for the City. Approval of the City Budget Director is currently required for agreements where the City's risk for potential loss exceeds \$50,000. That risk cap has been increased to \$100,000.

Facility Removal

This legislation repeals section 17.20.010 which addresses the Seattle Center Veteran's Hall. This facility was demolished as part of the construction of McCaw Hall. When McCaw Hall opened in 2003, this section was not removed despite the fact the facility had been razed.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No

Is there financial cost or other impacts of *not* implementing the legislation?

Not implementing this legislation could have negative financial impacts to Seattle Center. The authority to add time to event related service providers makes Seattle Center a more attractive client to our vendors. With an extended timeframe from which vendors can recoup their upfront investments, vendors have more stability which can allow Seattle Center to negotiate agreements with more favorable financial terms. The temporary fee waiver authority which allow Seattle Center to waive up to a total of \$25,000 in fees will incentivize event promoters to bring events to Seattle Center. Without this temporary authority, it will be more difficult to attract events given the elevated risk for promoters as COVID related restrictions create a higher level of uncertainty. Finally, the temporary authority for the Director to amend agreements with tenants will help address the potential loss of tenants operating in a much different environment as Seattle Center reopens with new operating

guidelines in order to ensure the health and safety of our patrons, employees, and the tenants themselves.

3.b. Revenues/Reimbursements

X This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from this Legislation:

Fund Name and Number	Dept	Revenue Source	2020 Revenue	2021 Estimated Revenue
Seattle Center Fund – 11410	Seattle Center	Facility Fees	\$1,062,266	\$379,999
Seattle Center McCaw Hall Fund – 11430	Seattle Center	Facility Fees	\$352,314	\$389,140
Seattle Center McCaw Hall Fund – 11430	Seattle Center	Facility Surcharge	\$182,978	\$287,475
TOTAL			\$1,597,558	\$1,056,614

Is this change one-time or ongoing?

This change is ongoing.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

No other departments are affected.

b. Is a public hearing required for this legislation?

No.

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

No.

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

e. Does this legislation affect a piece of property?

No.

- f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**

Providing the Department with the temporary authority to waive costs to incentivize holding events at Seattle Center will increase opportunity for smaller event producers from a wide range of communities that might not have been able to hold events due to financial constraints.

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**

This legislation does not include a new initiative or major programmatic expansion.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the financing of Seattle Center's operations; amending Ordinance 125717, which authorized an interfund loan; authorizing the loan of funds in the amount of \$18,000,000 from the REET II Capital Projects Fund to the Seattle Center Fund to support the operations of Seattle Center during the COVID-19 crisis; and providing for the repayment thereof.

WHEREAS, Seattle Municipal Code subsection 5.06.030.C requires City Council approval by ordinance of any interfund loan for a duration of more than 90 days; and

WHEREAS, in the normal course of business the City may temporarily lend cash between funds to maintain required balances; and

WHEREAS, the Director of Finance and the City Budget Director have determined that this interfund loan request is consistent with the Debt Management Policies adopted by Resolution 31553; and

WHEREAS, there is sufficient cash in the REET II Capital Projects Fund to support an interfund loan of up to \$18,000,000 through December 31, 2033, and still meet regular budgeted operating needs; and

WHEREAS, funds loaned by the REET II Capital Projects Fund to the Seattle Center Fund to support Seattle Center operations are anticipated to be repaid from revenues associated with the new Seattle Center arena upon its completion and opening and the return of public events and commerce at the Seattle Center campus after society recovers from the COVID-19 pandemic; and

WHEREAS, in 2018, Ordinance 125717 authorized the Director of Finance to make a revolving loan of up to \$5,000,000 principal and interest from the Unrestricted Cumulative Reserve Fund to the Seattle Center Fund to support Seattle Center operations during the temporary closure of KeyArena; and

WHEREAS, the City did not anticipate a global pandemic striking public health and the economy, requiring a prohibition of large events and gatherings for public health's sake; and

WHEREAS, events and gatherings at the Seattle Center campus are essential to Seattle Center operations and finances; and

WHEREAS, Seattle Center's financial challenge is now much larger than at the time Ordinance 125717 was passed; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Ordinance 125717 is hereby amended as follows:

Section 1. The City Council finds that there is no viable alternative to meet a core City objective, and therefore the Director of Finance is authorized to make a revolving loan of up to ~~(((\$5,000,000))~~ \$18,000,000 principal and interest outstanding from the ~~((Unrestricted Cumulative Reserve Fund))~~ REET II Capital Projects Fund to the Seattle Center Fund to ~~((support))~~ provide financing for Seattle Center operations during the ~~((temporary closure of Key Arena))~~ COVID-19 crisis. The loan is to be repaid no later than December 31, ~~((2026))~~ 2033, with interest on the loan at the rate of return of the City's Consolidated ~~((Cash))~~ Cash Pool. The entire principal and interest amount of the loan drawn is intended to be repaid with revenues associated with ~~((the new))~~ Seattle Center ~~((arena upon its completion and opening))~~ operations.

Section 2. The Director of Finance may effectuate the loan authorized in Section 1 of this ordinance by transferring cash from the ~~((Unrestricted Cumulative Reserve Fund))~~ REET II Capital Projects Fund to the Seattle Center Fund, or by carrying the Seattle Center Fund in a negative cash position, in an amount not to exceed ~~(((\$5,000,000))~~ \$18,000,000 until no later than December 31, ~~((2026))~~ 2033. The Director of Finance is further authorized to establish, and modify if necessary from time to time, a repayment plan and schedule.

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if

not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by
me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2020.

Monica Martinez Simmons, City Clerk

(Seal)

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
Seattle Center	Michael Katz / 206-684-7360	William Chen / 206-233-7274

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

- 1. Legislation Title:** AN ORDINANCE relating to the financing of Seattle Center's operations; amending Ordinance 125717, which authorized an interfund loan; authorizing the loan of funds in the amount of \$18,000,000 from the REET II Capital Projects Fund to the Seattle Center Fund to support the operations of Seattle Center during the COVID-19 crisis; and providing for the repayment thereof.
- 2. Summary and background of the Legislation:** This legislation authorizes an interfund loan of up to \$18,000,000 from the REET II Capital Projects Fund to the Seattle Center Fund to support Seattle Center operations during the COVID-19 crisis. In 2018, Ordinance 125717 authorized an interfund loan to the Seattle Center Fund to support Seattle Center operations during the temporary closure of KeyArena while it is being redeveloped. This earlier ordinance did not anticipate a global pandemic would strike during the repayment timeframe, necessitating a citywide, and indeed statewide and beyond, stay-at-home orders and a prohibition on large events and gatherings. The loss of events and gatherings at the Seattle Center campus means the loss of Seattle Center's revenue generating means both directly through event rental revenues and indirectly through parking, Monorail, and concessions revenues. Furthermore, tenants of Seattle Center facilities like vendors in the Armory or arts and culture non-profits like the Pacific Northwest Ballet and the Children's Theater lose their revenues without visitors to campus and their means to pay rent.

The loss of operating revenue during the COVID-19 crisis would harm operations and maintenance if not supplemented by outside financial support. The financial challenge facing Seattle Center is now much greater than before, and requires a larger response, both internally in the form of operating reductions and externally in the form of General Fund support and a larger interfund loan. Seattle Center has identified further reductions included in the 2021 Proposed Budget, beyond what was already planned in response to the transition to life after KeyArena. Seattle Center is also receiving General Fund support totaling \$9 million between 2020 and 2021. This legislation amends the interfund loan to increase the maximum loan amount and extends the repayment timeframe

When the COVID-19 crisis is under control and the public can safely gather without risking outbreaks, events can resume and with them Seattle Center's revenue streams. Seattle Center will use operating revenues to repay the loan by December 31, 2033.

2. CAPITAL IMPROVEMENT PROGRAM

- a. Does this legislation create, fund, or amend a CIP Project?** ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

- a. Does this legislation amend the Adopted Budget? ☐ Yes ☒ No
- b. Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No.
- c. Is there financial cost or other impacts of *not* implementing the legislation?
Yes. The Seattle Center Fund would end in a negative cash position for greater than the allowed 90 days. Additionally, lack of financial support would materially impact Seattle Center's ability to maintain its assets and operate as usual during the COVID-19 crisis.

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?
No.
- b. Is a public hearing required for this legislation?
No.
- c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?
No.
- d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?
No.
- e. Does this legislation affect a piece of property?
No.
- f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities?
N/A.
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?
N/A.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to contracting indebtedness; authorizing and providing for the issuance and sale of limited tax general obligation bonds to pay all or part of the costs of various elements of the City's capital improvement program and for other City purposes approved by ordinance, to provide one or more loans to the Pike Place Market Preservation and Development Authority for the financing of certain improvements, and to pay the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; creating the 2021 Multipurpose LTGO Bond Fund (Taxable); and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle, Washington (the "City"), has determined that it is in its best interest that

certain capital projects (as identified in this ordinance, the "Projects") be financed by the issuance of

limited tax general obligation bonds of the City in a principal amount not to exceed \$212.7 million; and

WHEREAS, pursuant to a memorandum of understanding with the Pike Place Market Preservation and

Development Authority (the "PPMPDA"), the City has agreed to make one or more loans (the

"PPMPDA Loan(s)") in an aggregate amount not to exceed \$6.0 million to be used to support capital

improvements to the PPMPDA, to be financed through the issuance of the City's limited tax general

obligation bonds. Proceeds of the Bonds will be loaned to PPMPDA pursuant to one or more written

loan agreements authorized herein to be negotiated and executed upon issuance of the associated bonds;

and

WHEREAS, the series of bridges and roadways comprising the West Seattle Bridge have suffered severe

structural damage and will require significant funding to prevent collapse and to perform such

engineering and design work as may be necessary or desirable to determine whether and how to repair

or replace all or a portion of the West Seattle Bridge, and the City is in need of funds to pay this

extraordinary and unforeseen cost; and

WHEREAS, RCW 39.36.020 authorizes the City to incur indebtedness without the assent of the voters of the City so long as such indebtedness does not result in a total nonvoted indebtedness of the City in excess of 1.5% of the value of taxable property within the City as computed in accordance with RCW 39.36.030; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** As used in this ordinance, the following capitalized terms shall have the following meanings.

“**Authorized Denomination**” means \$5,000 or any integral multiple thereof within a maturity of a Series, or such other minimum authorized denominations as may be specified in the applicable Bond Documents.

“**Beneficial Owner**” means, with regard to a Bond, the owner of any beneficial interest in that Bond.

“**Bond**” means one of the limited tax general obligation bonds issued pursuant to this ordinance.

“**Bond Counsel**” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“**Bond Documents**” means, with respect to any Series of the Bonds, (a) this ordinance (including any amendatory or supplemental ordinances); (b) the authenticated bond form; and (c) the written agreement(s) setting forth the Bond Sale Terms and additional terms, conditions, or covenants pursuant to which such Bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance), (iii) a bond indenture, fiscal agent or paying agent agreement, or the State fiscal agency contract, and (iv) a direct purchase or continuing covenant agreement.

“**Bond Purchase Contract**” means a written offer to purchase a Series of the Bonds pursuant to certain Bond Sale Terms, which offer has been accepted by the City in accordance with this ordinance. In the case of a

competitive sale, the Purchaser's bid for a Series, together with the official notice of sale and Pricing Certificate confirming the Bond Sale Terms, shall comprise the Bond Purchase Contract.

"Bond Redemption Fund" means the City's General Bond Interest and Redemption Fund, previously created by Ordinance 112112 and established and to be used for the payment of the principal of, premium, if any, and interest on the Bonds.

"Bond Register" means the books or records maintained by the Bond Registrar for the purpose of registering ownership of each Bond.

"Bond Registrar" means the Fiscal Agent (unless the Director of Finance appoints a different person to act as bond registrar with respect to a particular Series), or any successor bond registrar selected in accordance with the Registration Ordinance.

"Bond Sale Terms" means the terms and conditions for the sale of a Series of the Bonds approved by the Director of Finance consistent with the parameters set forth in Section 4, including the maximum principal amount, date or dates, denominations, interest rate or rates (or mechanism for determining the interest rate or rates), payment dates, final maturity, redemption rights, price, and other terms, conditions or covenants. In connection with a negotiated sale or private placement, the Bond Sale Terms shall be set forth in a Bond Purchase Contract; in connection with a competitive sale, the Bond Sale Terms shall be set forth in a Pricing Certificate.

"Book-Entry Form" means a fully registered form in which physical bond certificates are registered only in the name of the Securities Depository (or its nominee), as Registered Owner, with the physical bond certificates held by and immobilized in the custody of the Securities Depository (or its designee), where the system for recording and identifying the transfer of the ownership interests of the Beneficial Owners in those Bonds is neither maintained by nor the responsibility of the City or the Bond Registrar.

"City" means The City of Seattle, Washington, a municipal corporation duly organized and existing under the laws of the State.

“City Council” means the City Council of the City, as duly and regularly constituted from time to time.

“Code” means the Internal Revenue Code of 1986, or any successor thereto, as it has been and may be amended from time to time, and regulations thereunder.

“Continuing Disclosure Agreement” means, for each Series sold in an offering subject to federal securities regulations requiring a written undertaking to provide continuing disclosure, a continuing disclosure agreement entered into pursuant to Section 14, in substantially the form attached as Exhibit B.

“DTC” means The Depository Trust Company, New York, New York.

“Director of Finance” means the Director of the Finance Division of the Department of Finance and Administrative Services of the City, or any other officer who succeeds to substantially all of the responsibilities of that office.

“Fiscal Agent” means the fiscal agent of the State, as the same may be designated by the State from time to time, or such other fiscal agent as the City may hereafter appoint.

“Government Obligations” means, unless otherwise limited in the Bond Documents for a particular Series of the Bonds, any government obligation as that term is defined in RCW 39.53.010, as now in effect or as may hereafter be amended.

“Issue Date” means, with respect to a Bond, the initial date on which that Bond is issued and delivered to the initial Purchaser in exchange for its purchase price.

“Letter of Representations” means the Blanket Issuer Letter of Representations between the City and DTC dated October 4, 2006, as it may be amended from time to time, or an agreement with a substitute or successor Securities Depository.

“MSRB” means the Municipal Securities Rulemaking Board.

“Omnibus Refunding Ordinance” means Ordinance 125457, passed by the City Council on November 20, 2017, authorizing the issuance of general obligation refunding bonds (as such ordinance may be amended from time to time), or any other ordinance passed in the future, pursuant to which the Bonds (or any

Series of the Bonds) are designated as “refundable bonds.”

“Owner” means, without distinction, the Registered Owner and the Beneficial Owner of a Bond.

“PPMPDA” means the Pike Place Market Preservation and Development Authority, a public development authority of the City formed and operating under RCW 35.21.730-759.

“PPMPDA Loan(s)” means one or more loans to the PPMPDA for the purpose of undertaking certain capital improvements to the Pike Place Market and related facilities.

“Pricing Certificate” means a certificate executed by the Director of Finance as of the pricing date confirming the Bond Sale Terms for the sale of a Series of Bonds to the Purchaser in a competitive sale, in accordance with the parameters set forth in Section 4.

“Projects” means the various elements of the City’s capital improvement program identified in Exhibit A, attached hereto and by this reference made a part hereof.

“Purchaser” means the entity or entities who have been selected by the Director of Finance in accordance with this ordinance to serve as underwriter, purchaser or successful bidder in a sale of any Series.

“Rating Agency” means any nationally recognized rating agency then maintaining a rating on a Series of the Bonds at the request of the City.

“Record Date” means, unless otherwise defined in the Bond Documents, in the case of each interest or principal payment date, the Bond Registrar’s close of business on the 15th day of the month preceding such interest or principal payment date. With regard to redemption of a Bond prior to its maturity, the Record Date shall mean the Bond Registrar’s close of business on the day prior to the date on which the Bond Registrar sends the notice of redemption to the Registered Owner(s) of the affected Bonds.

“Registered Owner” means, with respect to a Bond, the person in whose name that Bond is registered on the Bond Register. For so long as a Series of the Bonds is in Book-Entry Form under a Letter of Representations, the Registered Owner of such Series shall mean the Securities Depository.

“Registration Ordinance” means Ordinance 111724, establishing a system of registration for the

City's bonds and other obligations pursuant to Seattle Municipal Code Chapter 5.10, as that chapter now exists or may hereafter be amended.

"Rule 15c2-12" means Rule 15c2-12 promulgated by the SEC under the Securities Exchange Act of 1934, as amended.

"SEC" means the United States Securities and Exchange Commission.

"Securities Depository" means DTC, any successor thereto, any substitute securities depository selected by the City, or the nominee of any of the foregoing. Any successor or substitute Securities Depository must be qualified under applicable laws and regulations to provide the services proposed to be provided by it.

"Series" means a series of the Bonds issued pursuant to this ordinance.

"State" means the State of Washington.

"Tax Credit Subsidy Bond" means any Taxable Bond that is designated by the City as a tax credit bond pursuant to the Code, and which is further designated as a "qualified bond" under Section 6431 or similar provision of the Code, and with respect to which the City is eligible to claim a Tax Credit Subsidy Payment.

"Tax Credit Subsidy Payment" means a payment by the federal government with respect to a Tax Credit Subsidy Bond.

"Tax-Exempt Bond" means any Bond the interest on which is intended on the Issue Date to be excludable from gross income for federal income tax purposes.

"Taxable Bond" means any Bond the interest on which is not intended on the Issue Date to be excludable from gross income for federal income tax purposes.

"Term Bond" means any Bond that is issued subject to mandatory redemption prior to its maturity in periodic mandatory redemption payments in accordance with Section 7(b) of this ordinance.

Section 2. **Authorization of Bonds.** The City is authorized to borrow money on the credit of the City and issue limited tax general obligation bonds evidencing indebtedness in the maximum principal amount stated in Section 4 to pay all or part of the costs of the Projects (which costs may include capitalized interest, if

necessary); to make the PMPDA Loan(s) as described herein; for other City purposes approved by ordinance; and to pay the costs of issuance of the Bonds. The Bonds may be issued in one or more Series and may be combined with other general obligation bonds (including refunding bonds) authorized separately. The Bonds shall be designated limited tax general obligation bonds, shall be numbered separately, and shall have any name, year and Series or other label as deemed necessary or appropriate by the Director of Finance.

Section 3. **Manner of Sale of the Bonds.** The Director of Finance may provide for the sale of each Series by competitive sale, negotiated sale, limited offering, or private placement. The Purchaser of each Series shall be chosen through a selection process acceptable to the Director of Finance. The Director of Finance is authorized to specify a date and time of sale and a date and time for the delivery of each Series; in the case of a competitive sale, to provide an official notice of sale including bid parameters and other bid requirements and to provide for the use of an electronic bidding mechanism; to provide for and determine matters relating to the forward or delayed delivery of the Bonds, if deemed desirable; and to specify other matters in his or her determination necessary, appropriate, or desirable in order to carry out the sale of each Series. Each Series must be sold on Bond Sale Terms consistent with the parameters set forth in Section 4.

Section 4. **Appointment of Designated Representative; Bond Sale Terms.**

(a) **Designated Representative.** The Director of Finance is appointed to serve as the City's designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and this ordinance.

(b) **Parameters for Bond Sale Terms.** The Director of Finance is authorized to approve on behalf of the City Bond Sale Terms for the sale of the Bonds in one or more Series and, in connection with each such sale, to execute a Bond Purchase Contract (or, in the case of a competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with the following parameters:

(i) **Maximum Principal Amount.** The maximum aggregate principal amount of all Series

of the Bonds authorized by this ordinance may not exceed \$212.7 million.

(ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance, which Issue Date may not be later than December 31, 2023.

(iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

(iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, unless otherwise provided in the applicable Bond Documents. One or more rates of interest shall be established for each maturity of each Series of the Bonds, which rate or rates may be fixed or variable. The net interest cost for any fixed rate Series may not exceed a rate of 10% per annum.

(v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director of Finance, which shall include payment at the maturity of each Bond, in mandatory redemption installments applicable to Term Bonds, and otherwise in accordance with any redemption or tender provisions set forth in the Bond Documents.

(vi) **Final Maturity.** Each Bond shall mature no later than 31 years after its Issue Date.

(vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption provisions, as determined by the Director of Finance, consistent with Section 7 and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as being subject to optional redemption prior to its maturity. Any Tax-Exempt Bond that is subject to optional redemption prior to maturity must be callable on at least one or more dates occurring not more than 10½ years after the Issue Date, consistent with Section 7(a).

(B) **Mandatory Redemption.** The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity in mandatory redemption installment payments of principal, consistent with Section 7(b).

(C) **Extraordinary Redemption.** The Director of Finance may designate any Bond

as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent with Section 7(c).

(viii) **Price.** The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in his or her judgment, the price that produces the most advantageous borrowing cost for the City for that Series consistent with the parameters set forth herein and in any applicable bid documents.

(ix) **Other Terms and Conditions.**

(A) **Debt Capacity and Limitations.** A Series of the Bonds may not be issued if it would cause the indebtedness of the City to exceed the City's legal debt capacity on the Issue Date of such Series.

(B) **Reasonably Expected Life.** As of the Issue Date of each Series, the Director of Finance must find to his or her satisfaction that the average expected life of the capital facilities to be financed with the proceeds (or allocable share of proceeds) of that Series exceeds the weighted average maturity of such Series (or share thereof allocated to financing those capital facilities).

(C) **Additional Terms, Conditions, and Agreements.** The Bond Sale Terms for any Series may provide for bond insurance or for any other credit enhancement as the Director of Finance may find necessary or desirable. The Bond Sale Terms may include such additional terms, conditions, and covenants as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of any of the Bonds), provisions for the conversion of interest rate modes, provisions for the reimbursement of a credit enhancement provider, and requirements to give notice to or obtain the consent of a credit enhancement provider. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants.

(D) **Tax Status of the Bonds.** The Director of Finance may designate any Series of the Bonds as Tax-Exempt Bonds, Taxable Bonds, or Tax Credit Subsidy Bonds, consistent with Section 13.

Section 5. **Bond Registrar; Registration and Transfer of Bonds.**

(a) **Registration and Bond Registrar.** The Bonds shall be issued only in registered form as to both principal and interest and shall be recorded on the Bond Register. The Fiscal Agent is appointed to act as Bond Registrar for each Series of the Bonds, unless otherwise determined by the Director of Finance.

(b) **Transfer and Exchange of Bonds.** The Bond Registrar shall keep, or cause to be kept, sufficient books for the registration and transfer of the Bonds, which shall be open to inspection by the City at all times. The Bond Register shall contain the name and mailing address of the Registered Owner of each Bond and the principal amount and number of each of the Bonds held by each Registered Owner.

The Bond Registrar is authorized, on behalf of the City, to authenticate and deliver Bonds transferred or exchanged in accordance with the provisions of the Bonds and this ordinance, to serve as the City's paying agent for the Bonds and to carry out all of the Bond Registrar's powers and duties under this ordinance and the Registration Ordinance.

The Bond Registrar shall be responsible for its representations contained in the Bond Registrar's certificate of authentication on the Bonds. The Bond Registrar may become an Owner of Bonds with the same rights it would have if it were not the Bond Registrar and, to the extent permitted by law, may act as depository for and permit any of its officers or directors to act as members of, or in any other capacity with respect to, any committee formed to protect the rights of Owners.

Bonds surrendered to the Bond Registrar may be exchanged for Bonds in any Authorized Denomination of an equal aggregate principal amount and of the same Series, interest rate and maturity. Bonds may be transferred only if endorsed in the manner provided thereon and surrendered to the Bond Registrar. Any exchange or transfer shall be without cost to an Owner or transferee. The Bond Registrar shall not be obligated to exchange or transfer any Bond during the period between the Record Date and the corresponding interest

payment or principal redemption date.

(c) **Securities Depository; Book-Entry Form.** Unless otherwise determined by the Director of Finance, the Bonds initially shall be issued in Book-Entry Form and registered in the name of the Securities Depository. The Bonds so registered shall be held fully immobilized in Book-Entry Form by the Securities Depository in accordance with the provisions of the Letter of Representations. Neither the City nor the Bond Registrar shall have any responsibility or obligation to participants of the Securities Depository (or the persons for whom they act as nominees) with respect to the Bonds regarding the accuracy of any records maintained by the Securities Depository (or its participants) of any amount in respect of principal of or interest on the Bonds, or any notice that is permitted or required to be given to Registered Owners hereunder (except such notice as is required to be given by the Bond Registrar to the Securities Depository). Registered ownership of a Bond initially held in Book-Entry Form, or any portion thereof, may not be transferred except: (i) to any successor Securities Depository; (ii) to any substitute Securities Depository appointed by the City or such substitute Securities Depository's successor; or (iii) to any person if the Bond is no longer held in Book-Entry Form.

Upon the resignation of the Securities Depository from its functions as depository, or upon a determination by the Director of Finance to discontinue utilizing the then-current Securities Depository, the Director of Finance may appoint a substitute Securities Depository. If the Securities Depository resigns from its functions as depository and no substitute Securities Depository can be obtained, or if the Director of Finance determines not to utilize a Securities Depository, then the Bonds shall no longer be held in Book-Entry Form and ownership may be transferred only as provided herein.

Nothing herein shall prevent the Bond Sale Terms from providing that a Series of the Bonds shall be issued in certificated form without utilizing a Securities Depository, and that the Bonds of such Series shall be registered as of their Issue Date in the names of the Owners thereof, in which case ownership may be transferred only as provided herein.

(d) **Lost or Stolen Bonds.** In case any Bond shall be lost, stolen or destroyed, the Bond Registrar

may authenticate and deliver a new bond or bonds of like amount, date, tenor, and effect to the Registered Owner(s) thereof upon the Registered Owner(s)' paying the expenses and charges of the City in connection therewith, and upon filing with the Bond Registrar evidence satisfactory to the Bond Registrar that such bond or bonds were actually lost, stolen or destroyed and of Registered Ownership thereof, and upon furnishing the City with indemnity satisfactory to both.

Section 6. **Payment of Bonds.**

(a) **Payment.** Principal of and interest on each Bond shall be payable in lawful money of the United States of America on the dates and in the amounts as provided in the Bond Documents applicable to that Series. No Bonds of any Series shall be subject to acceleration under any circumstances.

(b) **Bonds Held In Book-Entry Form.** Principal of and interest on each Bond held in Book-Entry Form shall be payable in the manner set forth in the Letter of Representations.

(c) **Bonds Not Held In Book-Entry Form.** Interest on each Bond not held in Book-Entry Form shall be payable by electronic transfer on the interest payment date, or by check or draft of the Bond Registrar mailed on the interest payment date to the Registered Owner at the address appearing on the Bond Register on the Record Date. The City, however, shall not be required to make electronic transfers except pursuant to a request by a Registered Owner in writing received at least ten days prior to the Record Date and at the sole expense of the Registered Owner. Principal of each Bond not held in Book-Entry Form shall be payable upon presentation and surrender of the Bond by the Registered Owner to the Bond Registrar.

Section 7. **Redemption and Purchase of Bonds.**

(a) **Optional Redemption.** All or some of the Bonds of any Series may be subject to redemption prior to their stated maturity dates at the option of the City at the times and on the terms set forth in the applicable Bond Documents.

(b) **Mandatory Redemption.** All or some of the Bonds of any Series may be designated as Term Bonds, subject to mandatory redemption in principal installment payments, as set forth in the applicable Bond

Documents. If not redeemed or purchased at the City's option prior to maturity, Term Bonds (if any) must be redeemed, at a price equal to one hundred percent of the principal amount to be redeemed plus accrued interest, on the dates and in the years and principal amounts set forth in the applicable Bond Documents.

If the City optionally redeems or purchases a Term Bond prior to its maturity, the principal amount of that Term Bond so redeemed or purchased (irrespective of its redemption or purchase price) shall be credited against the remaining mandatory redemption installment payments in the manner directed by the Director of Finance. In the absence of direction by the Director of Finance, credit shall be allocated to each mandatory redemption installment payment for that Bond on a *pro rata* basis.

(c) **Extraordinary Redemption.** All or some of the Bonds of any Series may be subject to extraordinary optional or extraordinary mandatory redemption prior to maturity, upon the occurrence of an extraordinary event, at the prices, in the principal amounts, and on the dates, all as set forth in the applicable Bond Documents.

(d) **Selection of Bonds for Redemption; Partial Redemption.** If fewer than all of the outstanding Bonds of a Series are to be redeemed at the option of the City, the Director of Finance shall select the maturity or maturities to be redeemed. If less than all of the principal amount of a maturity of the selected Series is to be redeemed, if such Series is held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected for redemption by the Securities Depository in accordance with the Letter of Representations. If the Series is not then held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected by the Bond Registrar using such method of random selection as the Bond Registrar shall determine. All or a portion of the principal amount of any Bond that is to be redeemed may be redeemed in any applicable Authorized Denomination. If less than all of the outstanding principal amount of any Bond is redeemed, upon surrender of that Bond to the Bond Registrar there shall be issued to the Registered Owner, without charge, a new Bond (or Bonds, at the option of the Registered Owner) of the same Series, maturity, and interest rate in any Authorized Denomination in the aggregate principal amount to remain outstanding.

(e) **Purchase.** The City reserves the right and option to purchase any or all of the Bonds at any time at any price acceptable to the City plus accrued interest to the date of purchase.

Section 8. **Notice of Redemption; Rescission of Notice.** Unless otherwise set forth in the applicable Bond Documents, the City must cause notice of any intended redemption of Bonds to be given not less than 20 nor more than 60 days prior to the date fixed for redemption by first-class mail, postage prepaid, to the Registered Owner of any Bond to be redeemed at the address appearing on the Bond Register on the Record Date, and the requirements of this sentence shall be deemed to have been fulfilled when notice has been mailed as so provided, whether or not it is actually received by the Owner of any Bond. Interest on Bonds called for redemption shall cease to accrue on the date fixed for redemption unless the Bond or Bonds called are not redeemed when presented pursuant to the call.

In the case of an optional or extraordinary optional redemption, the notice may state that the City retains the right to rescind the redemption notice and the related redemption of Bonds by giving a notice of rescission to the affected Registered Owners at any time on or prior to the scheduled redemption date. Any notice of redemption that is rescinded by the Director of Finance shall be of no effect, and the Bonds for which the notice of redemption has been rescinded shall remain outstanding.

Section 9. **Failure to Pay Bonds.** If any Bond is not paid when properly presented at its maturity or redemption date, the City shall be obligated to pay interest on that Bond at the same rate provided on that Bond from and after its maturity or redemption date until that Bond, principal, premium, if any, and interest, is paid in full or until sufficient money for its payment in full is on deposit in the Bond Redemption Fund and that Bond has been called for payment by giving notice of that call to the Registered Owner of that Bond.

Section 10. **Form and Execution of Bonds.** The Bonds shall be typed, printed, or reproduced in a form consistent with the provisions of this ordinance and State law; shall be signed by the Mayor and Director of Finance, either or both of whose signatures may be manual or in facsimile; and the seal of the City or a facsimile reproduction thereof shall be impressed or printed thereon.

Only Bonds bearing a certificate of authentication in substantially the following form (with the designation, year, and Series of the Bonds adjusted consistent with this ordinance), manually signed by the Bond Registrar, shall be valid or obligatory for any purpose or entitled to the benefits of this ordinance: “This Bond is one of the fully registered The City of Seattle, Washington, [Limited Tax General Obligation Bonds], [Year] [Series], described in [this ordinance].” The authorized signing of a certificate of authentication shall be conclusive evidence that the Bond so authenticated has been duly executed, authenticated, and delivered and is entitled to the benefits of this ordinance.

If any officer whose manual or facsimile signature appears on a Bond ceases to be an officer of the City authorized to sign bonds before the Bond bearing his or her manual or facsimile signature is authenticated or delivered by the Bond Registrar or issued by the City, that Bond nevertheless may be authenticated, delivered, and issued and, when authenticated, issued, and delivered, shall be as binding on the City as though that person had continued to be an officer of the City authorized to sign bonds. Any Bond also may be signed on behalf of the City by any person who, on the actual date of signing of the Bond, is an officer of the City authorized to sign bonds, although he or she did not hold the required office on the Issue Date of that Series of the Bonds.

Section 11. **Pledge of Taxes.** For so long as any of the Bonds are outstanding, the City irrevocably pledges to include in its budget and levy taxes annually within the constitutional and statutory tax limitations provided by law without a vote of the electors of the City on all of the taxable property within the City in an amount sufficient, together with other money legally available and to be used therefor, to pay when due the principal of and interest on the Bonds. The full faith, credit, and resources of the City are pledged irrevocably for the annual levy and collection of those taxes and the prompt payment of that principal and interest.

Section 12. **Refunding or Defeasance of Bonds.**

(a) **Bonds Designated as Refundable Bonds.** Each Series of the Bonds is hereby designated as a Series of “Refundable Bonds” for purposes of the Omnibus Refunding Ordinance.

(b) **Refunding; Defeasance.** The City may issue refunding bonds pursuant to the laws of the State

or use money available from any other lawful source (i) to pay when due the principal of (including premium, if any) and interest on any Bond, or any portion thereof, included in a refunding or defeasance plan (the “Defeased Bonds”); (ii) to redeem and retire, release, refund, or defease the Defeased Bonds; and (iii) to pay the costs of such refunding or defeasance. If money and/or Government Obligations maturing at a time or times and in an amount sufficient (together with known earned income from the investment thereof) to redeem and retire, release, refund, or defease the Defeased Bonds in accordance with their terms is set aside in a special trust fund or escrow account irrevocably pledged to such redemption, retirement, or defeasance (the “Trust Account”), then all right and interest of the Owners of the Defeased Bonds in the covenants of this ordinance and in the funds and accounts pledged to the payment of such Defeased Bonds, other than the right to receive the funds so set aside and pledged, thereafter shall cease and become void. Such Owners thereafter shall have the right to receive payment of the principal of and interest or redemption price on the Defeased Bonds from the Trust Account. After establishing and fully funding such a Trust Account, the Defeased Bonds shall be deemed to be no longer outstanding, and the Director of Finance may then apply any money in any other fund or account established for the payment or redemption of the Defeased Bonds to any lawful purpose.

(c) **Notice of Defeasance or Refunding.** Unless otherwise specified in the applicable Bond Documents, notice of refunding or defeasance shall be given, and selection of Bonds for any partial refunding or defeasance shall be conducted, in the manner set forth in this ordinance for the redemption of Bonds.

Section 13. **Federal Tax Matters.** The Bond Documents may include such additional terms and covenants relating to federal tax matters as the Director of Finance deems necessary or appropriate, including the following:

(a) **Tax-Exempt Bonds.** For each Series of the Bonds issued as Tax-Exempt Bonds, the City covenants that it will take all actions consistent with the terms of such Series, as set forth in this ordinance and the applicable Bond Documents, that are reasonably within its power and necessary to prevent interest on that Series from being included in gross income for federal income tax purposes. The City further covenants that it

will neither take any action nor make or permit any use of gross proceeds of such Series (or other funds of the City treated as gross proceeds of such Series) at any time during the term of such Series that will cause interest on such Series to be included in gross income for federal income tax purposes. The City also covenants that, to the extent the arbitrage rebate requirement of Section 148 of the Code is applicable to any Series issued as Tax-Exempt Bonds, it will take all actions necessary to comply (or to be treated as having complied) with that requirement in connection with that Series (including the calculation and payment of any penalties that the City may elect to pay as an alternative to calculating rebatable arbitrage and the payment of any other penalties if required under Section 148 of the Code) to prevent interest on such Series from being included in gross income for federal income tax purposes.

(b) **Taxable Bonds; Tax Credit Subsidy Bonds.** For each Series of the Bonds issued as Taxable Bonds or as Tax Credit Subsidy Bonds, the Director of Finance is authorized to make provision in the Bonds and other Bond Documents, to execute additional written agreements, and to make additional covenants on behalf of the City, all as he or she may deem necessary or appropriate in order to obtain, maintain, and administer such tax status. In the case of Tax Credit Subsidy Bonds, such additional covenants and agreements may include (without limiting the generality of the foregoing) those necessary in order for the City (i) to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of such Tax Credit Subsidy Bonds, and (ii) to ensure that such Series otherwise becomes and remains eligible for tax benefits under the Code.

Section 14. **Official Statement; Continuing Disclosure.**

(a) **Preliminary Official Statement.** The Director of Finance and other appropriate City officials are directed to cause the preparation of and review the form of a preliminary official statement in connection with each sale of one or more Series to the public. For the sole purpose of the Purchaser's compliance with paragraph (b)(1) of Rule 15c2-12, the Director of Finance is authorized to deem that preliminary official statement final as of its date, except for the omission of information permitted to be omitted by Rule 15c2-12.

The City approves the distribution to potential purchasers of the Bonds of a preliminary official statement that has been deemed final in accordance with this subsection.

(b) **Final Official Statement.** The City approves the preparation of a final official statement for each sale of one or more Series of the Bonds to be sold to the public in the form of the preliminary official statement with such additions, modifications and amendments as the Director of Finance deems necessary or desirable, and further authorizes the Director of Finance to execute and deliver such final official statement to the Purchaser. The City authorizes and approves the distribution by the Purchaser of that final official statement to purchasers and potential purchasers of the Bonds.

(c) **Undertaking to Provide Continuing Disclosure.** To meet the requirements of paragraph (b)(5) of Rule 15c2-12, as applicable to a participating underwriter for a Series of the Bonds, the Director of Finance is authorized to execute a written Continuing Disclosure Agreement with respect to that Series, in substantially the form attached as Exhibit B.

Section 15. **2021 Multipurpose LTGO Bond Funds Created; Deposit and Use of Proceeds.** The 2021 Multipurpose LTGO Bond Fund (Tax-Exempt) has been previously created in the City Treasury. In addition, if such fund has not been previously created by another ordinance, the 2021 Multipurpose LTGO Bond Fund (Taxable) is hereby created in the City Treasury. Unless otherwise provided in the Bond Sale Terms, the principal proceeds and net premium, if any, received from the sale and delivery of any Series of the Bonds sold as Tax-Exempt Bonds shall be paid into or allocated to the 2021 Multipurpose LTGO Bond Fund (Tax-Exempt), or in such funds, accounts, or subaccounts of the City Treasury as the Director of Finance may designate, and used for the purposes described in Section 2. Unless otherwise provided in the Bond Sale Terms, the principal proceeds and net premium, if any, received from the sale and delivery of any Series of the Bonds sold as Taxable Bonds shall be paid into or allocated to the 2021 Multipurpose LTGO Bond Fund (Taxable), or in such funds, accounts, or subaccounts of the City Treasury as the Director of Finance may designate, and used for the purposes described in Section 2. The Director of Finance may use the principal proceeds and net

premium, if any, of any Series to pay for costs of issuance of that Series, and the Director of Finance also may incur and account for costs of issuance that are not included as part of the bond proceeds and net premium, including but not limited to any underwriter's discount.

The Director of Finance may (i) establish and transfer proceeds of the Bonds among funds, accounts, or subaccounts in the City Treasury, or (ii) make interfund loans pursuant to Seattle Municipal Code Section 5.06.030 to or from other City accounts or funds, all on terms he or she may deem necessary, appropriate, or desirable to carry out the purposes of this ordinance and consistent with the Bond Sale Terms. Enactment of this ordinance authorizes the transfer of amounts from the 2021 Multipurpose LTGO Bond Fund (Tax-Exempt) and the 2021 Multipurpose LTGO Bond Fund (Taxable) to other funds in order to carry out the purposes of this ordinance.

There has previously been created and established in the City Treasury the Bond Redemption Fund. Net premium and accrued interest received from the sale and delivery of a Series of the Bonds that is not necessary for the purposes described in Section 2, if any, shall be paid or allocated into the Bond Redemption Fund prior to the first debt service payment date with respect to that Series.

Until needed to pay the Project expenses and the costs described herein, the City may invest principal proceeds of any Series of the Bonds temporarily in any authorized investment, and the investment earnings shall be deposited in such funds, subfunds, accounts and subaccounts as may be designated by the Director of Finance. Earnings subject to a federal tax or rebate requirement may be withdrawn from any such fund or account and used for those tax or rebate purposes.

The Director of Finance may pay principal of and interest on a Series of the Bonds with any proceeds of that Series (including interest earnings thereon) remaining after applying such proceeds to the purposes set forth in Section 2, or after the City Council has determined that the expenditure of such Bond proceeds for those purposes is no longer necessary or appropriate.

Section 16. **General Authorization.** In addition to the specific authorizations in this ordinance, the

Mayor and the Director of Finance and each of the other appropriate officers of the City is each authorized and directed to do everything as in his or her judgment may be necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance. In particular and without limiting the foregoing:

(a) The Director of Finance, in his or her discretion and without further action by the City Council, (i) may issue requests for proposals to provide underwriting services or financing facilities (including liquidity or credit support), and may execute engagement letters with underwriters and other financial institutions (including providers of liquidity or credit support) based on responses to such requests, (ii) may select and make decisions regarding the Bond Registrar, fiscal or paying agents, and any Securities Depository for each Series of the Bonds; and (iii) may take such actions on behalf of the City as are necessary or appropriate for the City to designate, qualify, or maintain the tax-exempt treatment with respect to any Series issued as Tax-Exempt Bonds, to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of any Series issued as Tax Credit Subsidy Bonds, and to otherwise receive any other federal tax benefits relating to any Series of the Bonds that are available to the City; and

(b) The Mayor and Director of Finance are independently authorized (i) to execute and deliver any and all contracts or other documents as are consistent with this ordinance and for which the City's approval is necessary or to which the City is a party (including but not limited to agreements with escrow agents; refunding or defeasance trustees; liquidity or credit support providers; bond insurers; underwriters; lenders or other financial institutions; the Bond Registrar and any other fiscal or paying agents; counterparties to interest rate swap, cap, floor, or similar agreements; and custodians); and (ii) to negotiate, execute, and deliver such other contracts or documents incidental to the issuance and sale of a Series of the Bonds; the establishment of the initial interest rate or rates on a Bond; or the tender, purchase, remarketing, or redemption of a Bond, as may in his or her judgment be necessary or appropriate.

(c) In addition and without limiting the foregoing, the Mayor and Director of Finance are

independently authorized to negotiate, execute, and deliver any and all contracts or other documents in form and substance acceptable to the Mayor and Director of Finance, that are necessary or desirable to effectuate the making of one or more loans to the PPMPDA for the sole purpose of undertaking capital improvements to the Pike Place Market and related public facilities and to otherwise ensure that the proceeds of the Bonds are applied to the purposes set forth in a written loan agreement to be executed in connection with each such loan in such form as may be agreed upon by the parties, consistent with this ordinance. This authorization expressly includes the authority to set interest rates and other terms of such loans (which may be different than the interest rates and corresponding terms of the bonds) and to include such additional terms, conditions, or covenants as may be necessary or desirable, in the judgment of the Mayor or Director of Finance, to protect the taxpayers of the City and to provide assistance to support the public purposes of the PPMPDA.

Section 17. **Severability**. The provisions of this ordinance are declared to be separate and severable. If a court of competent jurisdiction, all appeals having been exhausted or all appeal periods having run, finds any provision of this ordinance to be invalid or unenforceable as to any person or circumstance, such offending provision shall, if feasible, be deemed to be modified to be within the limits of enforceability or validity. However, if the offending provision cannot be so modified, it shall be null and void with respect to the particular person or circumstance, and all other provisions of this ordinance in all other respects, and the offending provision with respect to all other persons and all other circumstances, shall remain valid and enforceable.

Section 18. **Ratification of Prior Acts**. Any action taken after passage of this ordinance but prior to its effective date that is consistent with the authority of this ordinance is ratified, approved, and confirmed.

Section 19. **Headings**. Section headings in this ordinance are used for convenience only and shall not constitute a substantive portion of this ordinance.

Section 20. **Effective Date.** This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

EXHIBIT B

FORM OF CONTINUING DISCLOSURE AGREEMENT

The City of Seattle, Washington (the “City”) makes the following written undertaking (the “Undertaking”) for the benefit of the Owners of the City’s Limited Tax General Obligation Bonds, [Year][Series] (the “Bonds”), for the sole purpose of assisting the underwriter in meeting the requirements of paragraph (b)(5) of Rule 15c2-12 (the “Rule”), as applicable to a participating underwriter for the Bonds. Capitalized terms used but not defined below shall have the meanings given in Ordinance _____ (the “Bond Ordinance”).

(a) Undertaking to Provide Annual Financial Information and Notice of Listed Events.

The City undertakes to provide or cause to be provided, either directly or through a designated agent, to the Municipal Securities Rulemaking Board (the “MSRB”), in an electronic format as prescribed by the MSRB, accompanied by identifying information as prescribed by the MSRB:

(i) Annual financial information and operating data of the type included in the final official statement for the Bonds and described in subsection (b) of this section (“annual financial information”). The timely filing of unaudited financial statements shall satisfy the requirements and filing deadlines pertaining to the filing of annual financial statements under subsection (b), provided that audited financial statements are to be filed if and when they are otherwise prepared and available to the City.

(ii) Timely notice (not in excess of 10 business days after the occurrence of the event) of the occurrence of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of

1 proposed or final determinations of taxability, Notice of Proposed Issue (IRS Form 5701 – TEB)
2 or other material notices or determinations with respect to the tax status of the Bonds, or other
3 material events affecting the tax status of the Bonds; (7) modifications to rights of holders of the
4 Bonds, if material; (8) Bond calls (other than scheduled mandatory redemptions of Term Bonds),
5 if material, and tender offers; (9) defeasances; (10) release, substitution, or sale of property
6 securing repayment of the Bonds, if material; (11) rating changes; (12) bankruptcy, insolvency,
7 receivership or similar event of the City, as such “Bankruptcy Events” are defined in the Rule;
8 (13) the consummation of a merger, consolidation, or acquisition involving the City or the sale of
9 all or substantially all of the assets of the City other than in the ordinary course of business, the
10 entry into a definitive agreement to undertake such an action or the termination of a definitive
11 agreement relating to any such actions, other than pursuant to its terms, if material; (14)
12 appointment of a successor or additional trustee or the change of name of a trustee, if material;
13 (15) incurrence of a financial obligation of the City, if material, or agreement to covenants, events
14 of default, remedies, priority rights, or other similar terms of a financial obligation of the City, any
15 of which affect holders of the Bonds, if material; and (16) any default, event of acceleration,
16 termination event, modification of terms, or other similar event under the terms of a financial
17 obligation of the City, any of which reflect financial difficulties.

18 For purposes of this Undertaking, the term “financial obligation” shall mean a debt
19 obligation; derivative instrument entered into in connection with, or pledged as security or a source
20 of payment for, an existing or planned debt obligation; or a guarantee of either a debt obligation
21 or a derivative instrument entered into in connection with, or pledged as security or a source of
22 payment for, an existing or planned debt obligation. The term “financial obligation” does not

1 include municipal securities as to which a final official statement has been provided to the MSRB
2 consistent with the Rule.

3 (iii) Timely notice of a failure by the City to provide required annual financial
4 information on or before the date specified in subsection (b) of this section.

5 (b) Type of Annual Financial Information Undertaken to be Provided. The annual
6 financial information that the City undertakes to provide in subsection (a) of this section:

7 (i) Shall consist of (1) annual financial statements of the City prepared in
8 accordance with applicable generally accepted accounting principles applicable to governmental
9 units (except as otherwise noted therein), as such principles may be changed from time to time and
10 as permitted by applicable state law; (2) a statement of outstanding general obligation debt of the
11 City; (3) the assessed value of the property within the City subject to ad valorem taxation; and
12 (4) ad valorem tax levy rates and amounts and percentages of taxes collected;

13 (ii) Shall be provided not later than the last day of the ninth month after the end
14 of each fiscal year of the City (currently, a fiscal year ending December 31), as such fiscal year
15 may be changed as required or permitted by state law, commencing with the City's fiscal year
16 ending December 31, 20__; and

17 (iii) May be provided in a single document or multiple documents, and may be
18 incorporated by specific reference to documents available to the public on the Internet website of
19 the MSRB or filed with the Securities and Exchange Commission.

20 (c) Amendment of Undertaking. This Undertaking is subject to amendment after the
21 primary offering of the Bonds without the consent of any Owner or holder of any Bond, or of any
22 broker, dealer, municipal securities dealer, participating underwriter, rating agency or the MSRB,
23 under the circumstances and in the manner permitted by the Rule, including:

1 (i) The amendment may only be made in connection with a change in
2 circumstances that arises from a change in legal requirements, change in law, or change in the
3 identity, nature, or status of the City, or type of business conducted by the City;

4 (ii) The Undertaking, as amended, would have complied with the requirements
5 of the Rule at the time of the primary offering, after taking into account any amendments or
6 interpretations of the Rule, as well as any change in circumstances; and

7 (iii) The amendment does not materially impair the interests of holders, as
8 determined either by parties unaffiliated with the City (e.g., bond counsel or other counsel familiar
9 with federal securities laws), or by an approving vote of bondholders pursuant to the terms of the
10 Bond Ordinance at the time of the amendment.

11 The City will give notice to the MSRB of the substance (or provide a copy) of any
12 amendment to this Undertaking and a brief statement of the reasons for the amendment. If the
13 amendment changes the type of annual financial information to be provided, the annual financial
14 information containing the amended financial information will include a narrative explanation of
15 the effect of that change on the type of information to be provided.

16 (d) Beneficiaries. This Undertaking shall inure to the benefit of the City and any
17 Owner of Bonds, and shall not inure to the benefit of or create any rights in any other person.

18 (e) Termination of Undertaking. The City's obligations under this Undertaking shall
19 terminate upon the legal defeasance, prior redemption, or payment in full of all of the Bonds. In
20 addition, the City's obligations under this Undertaking shall terminate if those provisions of the
21 Rule that require the City to comply with this Undertaking become legally inapplicable in respect
22 of the Bonds for any reason, as confirmed by an opinion of nationally recognized bond counsel or

1 other counsel familiar with federal securities laws delivered to the City, and the City provides
2 timely notice of such termination to the MSRB.

3 (f) Remedy for Failure to Comply with Undertaking. As soon as practicable after the
4 City learns of any material failure to comply with this Undertaking, the City will proceed with due
5 diligence to cause such noncompliance to be corrected. No failure by the City or other obligated
6 person to comply with this Undertaking shall constitute a default in respect of the Bonds. The sole
7 remedy of any Owner of a Bond shall be to take such actions as that Owner deems necessary,
8 including seeking an order of specific performance from an appropriate court, to compel the City
9 or other obligated person to comply with this Undertaking.

10 (g) Designation of Official Responsible to Administer Undertaking. The Director of
11 Finance of the City (or such other officer of the City who may in the future perform the duties of
12 that office) or his or her designee is the person designated, in accordance with the Bond Ordinance,
13 to carry out this Undertaking of the City in respect of the Bonds set forth in this section and in
14 accordance with the Rule, including, without limitation, the following actions:

15 (i) Preparing and filing the annual financial information undertaken to be
16 provided;

17 (ii) Determining whether any event specified in subsection (a)(ii) has occurred,
18 assessing its materiality, where necessary, with respect to the Bonds, and preparing and
19 disseminating any required notice of its occurrence;

20 (iii) Determining whether any person other than the City is an “obligated
21 person” within the meaning of the Rule with respect to the Bonds, and obtaining from such person
22 an undertaking to provide any annual financial information and notice of listed events for that
23 person in accordance with the Rule;

1 (iv) Selecting, engaging and compensating designated agents and consultants,
2 including but not limited to financial advisors and legal counsel, to assist and advise the City in
3 carrying out this Undertaking; and

4 (v) Effecting any necessary amendment of the Undertaking.

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to contracting indebtedness; authorizing and providing for the issuance and sale of limited tax general obligation bonds to pay all or part of the costs of various elements of the City’s capital improvement program and for other City purposes approved by ordinance, to provide one or more loans to the Pike Place Market Preservation and Development Authority for the financing of certain improvements, and to pay the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; creating the 2021 Multipurpose LTGO Bond Fund (Taxable); and ratifying and confirming certain prior acts.

Summary and background of the Legislation:

This legislation provides the legal authorization to issue up to \$212.7 million of Limited Tax General Obligation Bonds, as assumed in the 2021 Proposed Budget and the Proposed 2021-2026 Capital Improvement Program (CIP) and includes \$6 million of financing to assist the Pike Place Market in addressing revenue shortfalls resulting from the COVID-19 crisis. This loan will not be dispersed until bonds are issued and the City and Market finalize a lending agreement.

Although the Budget and CIP make specific assumptions about the use of debt financing for a certain share of the CIP, separate authorization for the issuance of bonds is technically required.

This bond sale is anticipated to occur in early 2021. The bond proceeds will support a share of the City’s general government capital program for about 12 months.

The bond sizing is based on the proposed budget and current cash-flow projections. The bond proceeds will also be used to pay issuance costs.

The City’s Capital Improvement Program (CIP) identifies debt financing for certain projects and the City’s budget appropriates the associated debt service. The following table provides details of this bond issue.

2021 Multipurpose LTGO Bond Issue (\$1000's)

(1) Includes 3% for costs of issuance and pricing adjustments.
(2) Receipts from additional 2.5% commercial parking taxes.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
FAS and various operating departments with projects being financed by this bond issue.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No.
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- e. **Does this legislation affect a piece of property?**
No.
- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
N/A
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the electric system of The City of Seattle; providing for the defeasance of the claim or lien of certain of the City's outstanding electric system revenue bonds and payment of the administrative costs of such defeasance; providing for and authorizing the purchase of certain obligations and for the use and application of the money derived from those investments; authorizing the execution of a defeasance trust agreement to establish a defeasance escrow; authorizing the call for redemption prior to their maturity of those outstanding bonds that are to be defeased; and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle (the "City") owns, maintains, and operates a municipal light and electric power generation, transmission, and distribution system (the "Light System"), which Light System has from time to time required various additions, improvements, betterments, and extensions; and

WHEREAS, the City has previously authorized and issued, and may from time to time in the future authorize and issue, electric system revenue bonds having a charge and lien on the Net Revenue of the Light System prior and superior to any other charges whatsoever ("Parity Bonds"), which are designated as defeasible under this ordinance (the "Defeasible Bonds"); and

WHEREAS, it is advantageous to the City and its ratepayers to provide for the application of available Net Revenue or other available funds (other than proceeds of Tax-Advantaged Bonds) to defease outstanding Defeasible Bonds whenever the Director of Finance determines that such defeasance will achieve a long-term cost savings or other benefit to the City or its ratepayers, all as permitted under chapter 39.53 RCW; and

WHEREAS, the City has determined that it is in the best interest of the City and its ratepayers to authorize, subject to the provisions of this ordinance, the Director of Finance to carry out the defeasance and

redemption of all or any portion of the Defeasible Bonds and to pay the administrative costs of carrying out the defeasance of those Defeasible Bonds; and

WHEREAS, pursuant to the authority delegated in this ordinance, the Director of Finance from time to time will receive, review and adopt a plan (a “Defeasance Plan”) to defease selected maturities (or partial maturities) of certain series of those Defeasible Bonds, which selected series and maturities (or partial maturities) will be identified in the Defeasance Plan, and to carry out the defeasance and redemption of any Defeasible Bonds as the Director of Finance may deem in the best interests of the City and its ratepayers; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** As used in this ordinance, the following capitalized terms shall have the meanings set forth below:

“Acquired Obligations” means Government Obligations maturing or having guaranteed redemption prices at the option of the holder at such time or times as may be required to provide funds sufficient to carry out the Defeasance Plan, and satisfying the requirements of the Defeased Bond Documents relating to the Defeased Bonds included in that Defeasance Plan. For purposes of this definition, eligible “Government Obligations” for inclusion in a Defeasance Plan shall be determined in accordance with the applicable Defeased Bond Documents.

“Bond Counsel” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“City” means The City of Seattle, Washington, a municipal corporation duly organized and existing under the laws of the State.

“City Council” means the City Council of the City, as duly and regularly constituted from time to time.

“Code” means the Internal Revenue Code of 1986, or any successor thereto, as it has been and may be amended from time to time, and regulations thereunder.

“Defeasance Plan” means the plan approved by the Director of Finance pursuant to the delegation set forth herein to accomplish the defeasance and redemption of the identified Defeasible Bonds. Each Defeasance Plan must identify the maturities (or partial maturities) and series of Defeasible Bonds to be defeased and redeemed thereby, and must provide for their defeasance and/or redemption, substantially as follows, with such additional detail and adjustments to be set forth in the Defeasance Trust Agreement as the Director of Finance may deem necessary or desirable:

(a) The City shall deposit available Net Revenue of the Light System, and such other money (other than proceeds of Tax-Advantaged Bonds) as may be included in the plan by the Director of Finance, into a defeasance escrow or trust account held by the Defeasance Trustee;

(b) Upon receipt of a certification or verification by a certified public accounting firm or financial advisor that the amounts deposited with it will be sufficient to accomplish the defeasance and redemption as described in such Defeasance Trust Agreement, the Defeasance Trustee shall invest such escrow deposits in the Acquired Obligations specified therein (unless directed in the Defeasance Trust Agreement to hold such deposits uninvested) and shall establish a beginning cash balance; and

(c) As further directed in the Defeasance Trust Agreement, the Defeasance Trustee shall apply the amounts received as interest on and maturing principal of such Acquired Obligations (together with any cash balance in the defeasance trust account) to call, pay, and redeem those Defeasible Bonds on the dates and times identified in the plan, and (if so directed) to pay the administrative costs of carrying out the foregoing.

If the Director of Finance serves as the Defeasance Trustee, the Director of Finance shall approve a written Defeasance Plan (which need not be set forth in a Defeasance Trust Agreement) providing that the escrow funds are to be held separate and apart from all other funds of the City and are to be applied substantially as set forth above.

“Defeasance Trust Agreement” means an escrow or trust agreement between the City and a Defeasance Trustee as described in Section 3(d) of this ordinance.

“Defeasance Trustee” means the Director of Finance, or a financial institution selected by the Director of Finance, serving in the capacity of Defeasance Trustee or escrow agent under a Defeasance Trust Agreement.

“Defeased Bond Documents” means (a) the ordinance(s) authorizing the issuance of the Defeased Bonds; (b) the authenticated bond form; and (c) the written agreement(s) setting forth the terms, conditions, or covenants pursuant to which such bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance), (iii) a bond indenture or a fiscal agent or paying agent agreement (other than the State fiscal agency contract), and (iv) a direct purchase or continuing covenant agreement.

“Defeased Bonds” means those Defeasible Bonds identified in a Defeasance Plan in accordance with this ordinance.

“Defeasible Bonds” means each series of Parity Bonds that have been designated, or may in the future be designated, as defeasible under this ordinance, including: (a) each series of Outstanding Parity Bonds listed in Exhibit A; and (b) each series of Future Parity Bonds designated by the City as Defeasible Bonds.

“Director of Finance” means the Director of the Finance Division of the Department of Finance and Administrative Services of the City, or any other officer who succeeds to substantially all of the responsibilities of that office.

“Government Obligations” means, unless otherwise defined in the Defeased Bond Documents, any government obligation as that term is defined in RCW 39.53.010, as now in effect or as may be hereafter amended.

“Gross Revenues” means (a) all income, revenues, receipts and profits derived by the City through the ownership and operation of the Light System; (b) the proceeds received by the City directly or indirectly from the sale, lease or other disposition of any of the properties, rights or facilities of the Light System; (c) Payment Agreement Receipts, to the extent that such receipts are not offset by Payment Agreement Payments; and (d) the investment income earned on money held in any fund or account of the City, including any bond

redemption funds and the accounts therein, in connection with the ownership and operation of the Light System. Gross Revenues do not include: (i) insurance proceeds compensating the City for the loss of a capital asset; (ii) income derived from investments irrevocably pledged to the payment of any defeased bonds payable from Gross Revenues; (iii) investment income earned on money in any fund or account created or maintained solely for the purpose of complying with the arbitrage rebate provisions of the Code; (iv) any gifts, grants, donations or other funds received by the City from any State or federal agency or other person if such gifts, grants, donations or other funds are the subject of any limitation or reservation imposed by the donor or grantor or imposed by law or administrative regulation to which the donor or grantor is subject, limiting the application of such funds in a manner inconsistent with the application of Gross Revenues hereunder; (v) the proceeds of any borrowing for capital improvements (or the refinancing thereof); and (vi) the proceeds of any liability or other insurance (excluding business interruption insurance or other insurance of like nature insuring against the loss of revenues).

“Net Revenue” means, for any period, Gross Revenue less Operating and Maintenance Expense.

“Omnibus Defeasance Ordinance” means this ordinance (as it may be amended from time to time) or any other ordinance of the City passed in the future, authorizing the defeasance and redemption of Defeasible Bonds.

“Operating and Maintenance Expense” means all reasonable charges incurred by the City in causing the Light System to be operated and maintained in good repair, working order and condition, including but not limited to all operating expenses under applicable generally accepted accounting principles included in the annual audited financial statements of the Light System, except those excluded in this definition. Operating and Maintenance Expense does not include: (a) extraordinary, nonrecurring expenses of the Light System or any judgments or amounts to be paid in settlement of claims against the Light System, (b) non-cash expenses relating to a mark-to-market treatment of energy-related contracts, (c) any costs or expenses (including interest expense) for new construction, replacements, or renewals of Light System property, (d) Deferred Hydroelectric

Project Relicensing Costs, the High Ross Capital Payments, or other similar payments under any agreement for the development or licensing of a capital improvement or asset, under which agreement the City agrees to make periodic payments in respect of its share of the capital expense, (e) any allowance for depreciation, amortization, or similar recognitions of non-cash expense items made for accounting purposes only (including non-cash pension expense), (f) any taxes levied by or paid to the City (or payments in lieu of taxes) upon the properties or earnings of the Light System, or (g) any obligation authorized pursuant to ordinance or resolution specifically excluding the payment of such obligation from Operating and Maintenance Expense.

“Outstanding Parity Bonds” means those outstanding Parity Bonds identified in Exhibit A. When used in reference to a particular date or series of Parity Bonds, Outstanding Parity Bonds shall mean those Parity Bonds (including any Parity Bonds issued subsequent to the date of this ordinance) that are outstanding as of that date or as of the issue date of such series.

“Parity Bond Fund” means the special fund of the City known as the Seattle Municipal Light Revenue Parity Bond Fund established within the Light Fund pursuant to Ordinance 92938 for the purpose of paying and securing the payment of principal of and interest on Parity Bonds (including Parity Payment Agreement Payments) and, *from and after the Parity Covenant Date, payments under Parity Reimbursement Obligations*.

“Parity Bonds” means electric system revenue obligations payable solely from the Parity Bond Fund having a charge and lien on the Net Revenue of the Light System prior and superior to any other charges whatsoever.

“Light Fund” means the special fund of the City of that name heretofore created and established by the City Council.

“Light System” means the municipal light and power generation, transmission, and distribution system now belonging to or which may hereafter belong to the City.

“Tax-Advantaged Bond” means any bond or other financial obligation issued by the City, (a) the interest on which is intended on its issue date to be excludable from gross income for federal income tax

purposes, or (b) that is designated by the City as a tax credit bond pursuant to the Code, and which is further designated as a “qualified bond” under Section 6431 (or substantively similar provision of the Code), and with respect to which the City is eligible to claim a tax credit subsidy payment in respect of interest on the obligation.

Section 2. **Finding With Respect to Defeasance.** The City Council hereby finds that the irrevocable deposit of money and securities with a Defeasance Trustee, verified or certified as to sufficiency in accordance with a Defeasance Plan approved pursuant to this ordinance, will discharge and satisfy the obligations of the City as to the Defeased Bonds identified therein, including all pledges, charges, trusts, covenants, and agreements under the applicable Defeased Bond Documents. Immediately upon such deposit, the Defeased Bonds identified in such Defeasance Plan shall be defeased and shall no longer be deemed to be outstanding under the applicable Defeased Bond Documents.

The City Council finds and determines that it is in the best interest of the City and its taxpayers that the City carry out a Defeasance Plan approved by the Director of Finance as provided for in this ordinance and hereby ratifies and approves any such Defeasance Plan.

Section 3. **Defeasance of the Defeased Bonds.**

(a) **Approval of Defeasance Plan; Appointment of Defeasance Trustee.** The Director of Finance is authorized and directed to select a Defeasance Trustee and to negotiate, execute, and deliver a Defeasance Trust Agreement setting forth a Defeasance Plan for each series of Defeasible Bonds (or portion thereof) to be defeased and redeemed pursuant to this ordinance, in accordance with subsection (d) of this section. Multiple Defeasance Plans may be combined in a single Defeasance Trust Agreement. The Defeasance Plan shall be carried out, and the money on deposit in the defeasance escrow shall be applied, in accordance with this ordinance, the respective Defeased Bond Documents, the Defeasance Trust Agreement, and the laws of the State.

(b) **Acquisition of Acquired Obligations.** To the extent practicable and desirable, the Defeasance

Plan shall provide for the Defeasance Trustee's purchase of Acquired Obligations, bearing such interest and maturing as to principal and interest in such amounts and at such times so as to provide, together with a beginning cash balance, if necessary, for the timely payment of the amounts required to be paid by the Defeasance Plan. The Acquired Obligations shall be listed and more particularly described in a schedule attached to the Defeasance Trust Agreement, but are subject to substitution as set forth in subsection (c) below.

(c) **Substitution of Acquired Obligations.** The City reserves the right at any time to substitute cash or other Government Obligations (as defined in the applicable Defeased Bond Documents) for the Acquired Obligations if the City obtains a verification by a nationally recognized independent certified public accounting firm reasonably acceptable to the Defeasance Trustee confirming that the payments of principal of and interest on the substitute obligations, if paid when due, together with the cash to be held by the Defeasance Trustee, will be sufficient to carry out the Defeasance Plan. If the applicable Series of Defeased Bonds were issued as Tax-Advantaged Bonds, then prior to such substitution, the City must also obtain an opinion from Bond Counsel to the effect that the disposition and substitution or purchase of such securities will not cause adverse federal tax consequences as to any such Defeased Bonds that were issued as Tax-Advantaged Bonds (except to the extent that the City has opted to forego any available tax credit subsidy payment in connection with the original defeasance) and that such disposition and substitution or purchase is in compliance with the applicable statutes and regulations. Any surplus money resulting from the sale, transfer, other disposition or redemption of the Acquired Obligations and the substitutions therefor shall be released from the trust estate and may be used for any lawful City purpose.

(d) **Defeasance Trust Agreement.** The Director of Finance is authorized to execute one or more Defeasance Trust Agreements with one or more Defeasance Trustees, setting forth the duties, obligations, and responsibilities of the Defeasance Trustee in connection with carrying out the applicable Defeasance Plan. Each Defeasance Trust Agreement and Defeasance Plan must, among other things: (1) identify the Defeasible Bonds to be defeased and redeemed thereby; (2) contain the elements set forth in the definition of Defeasance Plan set

forth in this ordinance, including authorizing and directing the Defeasance Trustee to use the money deposited with it to purchase the Acquired Obligations (or substitute obligations) and to apply such money along with the maturing principal of and interest on such obligations to make the payments required to be made by the Defeasance Plan; and (3) provide for the giving of notices of defeasance and redemption, as required under the Defeased Bond Documents. The Defeasance Trust Agreement may additionally provide for the payment of the costs of administering the Defeasance Plan (including without limitation, all necessary and proper fees, compensation, and expenses of the Defeasance Trustee and all other costs incidental to the setting up of the escrow to accomplish the Defeasance Plan), and for such other related matters as the Director of Finance may deem necessary or expedient.

Section 4. **Redemption of the Defeased Bonds**. The Director of Finance is authorized on behalf of the City to take such actions as may be necessary or convenient to call the Defeased Bonds for redemption. Such call for redemption of the Defeased Bonds shall identify the Defeased Bonds, redemption dates and redemption prices (expressed as a percentage of the stated principal amount) and shall be irrevocable after the effective date of the Defeasance Trust Agreement. The dates on which the Defeased Bonds are to be called for redemption shall be, in the judgment of the Director of Finance, the earliest practical dates on which those Defeased Bonds may be called for redemption following the effective date of the Defeasance Trust Agreement. The proper City officials are authorized and directed to give or cause to be given such notices as required, at the times and in the manner required pursuant to the Defeased Bond Documents, in order to carry out the Defeasance Plan.

Section 5. **Outstanding Parity Bonds Declared Defeasible**. All outstanding Parity Bonds that have previously been, or may in the future be, designated as “Refundable Bonds” under Ordinance 125460, passed by the City Council on November 20, 2017 and signed by the Mayor on November 22, 2017, as amended by Ordinance 125987, passed by the City Council on November 25, 2019 (as amended, the “Omnibus Refunding Ordinance”), as it may be further amended from time to time, are declared to be Defeasible Bonds

under this ordinance.

Section 6. **General Authorization.** In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance and each of the other appropriate officers of the City is each authorized and directed to do everything as in their judgment may be necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance.

Section 7. **Severability.** The provisions of this ordinance are declared to be separate and severable. If a court of competent jurisdiction, all appeals having been exhausted or all appeal periods having run, finds any provision of this ordinance to be invalid or unenforceable as to any person or circumstance, such offending provision shall, if feasible, be deemed to be modified to be within the limits of enforceability or validity. However, if the offending provision cannot be so modified, it shall be null and void with respect to the particular person or circumstance, and all other provisions of this ordinance in all other respects, and the offending provision with respect to all other persons and all other circumstances, shall remain valid and enforceable.

Section 8. **Ratification of Prior Acts.** Any action taken consistent with the authority of this ordinance, after its passage but prior to the effective date, is ratified, approved, and confirmed.

Section 9. **Section Headings.** Section headings in this ordinance are used for convenience only and shall not constitute a substantive portion of this ordinance.

Section 10. **Effective Date.** This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by
me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2020.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
FAS	Michael Van Dyck 206-619-0393	Caleb Wagenaar (206) 733-9228

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the electric system of The City of Seattle; providing for the defeasance of the claim or lien of certain of the City’s outstanding electric system revenue bonds and payment of the administrative costs of such defeasance; providing for and authorizing the purchase of certain obligations and for the use and application of the money derived from those investments; authorizing the execution of a defeasance trust agreement to establish a defeasance escrow; authorizing the call for redemption prior to their maturity of those outstanding bonds that are to be defeased; and ratifying and confirming certain prior acts.

Summary and background of the Legislation: As part of its duty to manage debt for the City and its utilities, FAS actively monitors opportunities to reduce the interest rates on outstanding debt. One strategy for doing so involves using cash to pre-fund an escrow (a “defeasance escrow”) established to repay the debt on the scheduled payment dates. This legislation authorizes the deposit, from time to time, of Light System revenues in a defeasance escrow held by a bank for the purpose of paying debt service on, and eventually redeeming at maturity, high-interest rate outstanding bonds. The intent is to save the City and its ratepayers money by reducing its debt service costs.

In the past, issuers of municipal bonds were allowed to refund (refinance) their high interest rate outstanding tax-exempt bonds prior to their call dates (“advance refunding”) by depositing the proceeds of new lower-interest rate tax-exempt bonds into a defeasance escrow for the redemption of those bonds. This enabled cities to trade high interest rate debt for lower interest rate debt, thereby reducing their interest costs. However, the 2017 Tax Cuts and Jobs Act eliminated the ability to do this on a tax-exempt basis, thereby reducing the savings available to the local government.

An alternative strategy (“Debt Optimization”) for capturing the maximum amount of savings for the local government is to use available cash, rather than proceeds of tax-exempt bonds, to fund the defeasance escrow. This may also require reallocating proceeds of new tax-exempt bonds to pay for the capital purposes that would otherwise have been paid with cash. Using a Debt Optimization strategy, FAS can manage the aggregate debt portfolio so that the new debt does not increase the overall debt burden and does not extend the term of outstanding debt. Debt Optimization has the net result of replacing higher interest rate debt with lower interest rate debt, which, of course, reduces overall interest costs for the issuer (and its rate payers).

2. IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
This legislation lowers debt service costs for City Light and is administered by FAS.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No.
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- e. **Does this legislation affect a piece of property?**
No.
- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
N/A
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the electric system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing municipal light and electric power generation, transmission, and distribution system of the City; authorizing the issuance and sale of municipal light and power revenue bonds for the purposes of providing funds to pay part of the cost of carrying out that system or plan, providing for the reserve fund requirement (if any), and paying the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; describing the lien of the bonds and authorizing their issuance as either senior lien parity bonds or junior lien bonds; and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle (the “City”) owns, operates, and maintains a municipal light and electric power generation, transmission, and distribution system (the “Light System”) which Light System has from time to time required various additions, improvements, betterments, and extensions; and

WHEREAS, the City needs to acquire and construct certain additions, improvements, and betterments to and extensions of the Light System (the “Plan of Additions”) as described in this ordinance, and needs to borrow funds to pay a portion of the costs of carrying out such Plan of Additions; and

WHEREAS, the City currently has outstanding certain municipal light and power revenue bonds (as identified in Exhibit A, the “Outstanding Parity Bonds”) having a charge and lien upon Gross Revenues of the Light System available after payment of Operating and Maintenance Expense (“Net Revenue”) prior and superior to all other charges whatsoever; and

WHEREAS, pursuant to the Outstanding Parity Bond ordinances, the City reserved the right to issue additional municipal light and power revenue bonds (“Future Parity Bonds”) having a lien and charge on Net Revenue of the Light System on parity with the lien and charge of the Outstanding Parity Bonds, upon

satisfaction of certain conditions (the “Parity Conditions”); and

WHEREAS, pursuant to the Outstanding Parity Bond Ordinances, the City also reserved the right to issue additional municipal light and power revenue bonds or other obligations having a lien and charge on Net Revenue of the Light System that is junior and subordinate to the lien and charge of the Outstanding Parity Bonds (the “Junior Lien Bonds”); and

WHEREAS, after due consideration, the City has determined that it is in the best interest of the City and its ratepayers to authorize, subject to the provisions of this ordinance, the issuance and sale of municipal light and power revenue bonds as either Parity Bonds or Junior Lien Bonds to pay part of the cost of the Plan of Additions, to provide for the reserve fund requirement (if any), and to pay the costs of issuance of those bonds; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** As used in this ordinance, the following capitalized terms shall have the meanings set forth below.

“**Accreted Value**” means with respect to any Capital Appreciation Bond (a) as of any Valuation Date, the amount determined for such Valuation Date in accordance with the applicable Bond Documents, and (b) as of any date other than a Valuation Date, the sum of (i) the Accreted Value on the preceding Valuation Date and (ii) the product of (A) a fraction, the numerator of which is the number of days having elapsed from the preceding Valuation Date and the denominator of which is the number of days from such preceding Valuation Date to the next succeeding Valuation Date, calculated based on the assumption that Accreted Value accrues during any semiannual period in equal daily amounts on the basis of a year of twelve 30-day months, and (B) the difference between the Accreted Values for such Valuation Dates.

“**Adjusted Net Revenue**” means Net Revenue, less any deposits into the Rate Stabilization Account and plus any withdrawals from the Rate Stabilization Account. In calculating Net Revenue, the City may include the Tax Credit Subsidy Payments the City expects to receive from the federal government in respect to

the interest on any Tax Credit Subsidy Bonds (or with respect to which the federal government will provide direct payments). In a Parity Certificate, Adjusted Net Revenue is subject to further adjustment as set forth in Section 18(a)(ii). In a Junior Lien Coverage Certificate, Adjusted Net Revenue is subject to further adjustment as set forth in Section 18(b)(ii).

“Alternate Reserve Security” means Qualified Insurance or a Qualified Letter of Credit that is used by the City to satisfy part or all of the Reserve Fund Requirement, and that is not cancelable on less than five years’ notice.

“Annual Debt Service” means, with respect to either Parity Bonds (or a series of Parity Bonds) (**“Annual Parity Bond Debt Service”**) or Junior Lien Bonds (or a series of Junior Lien Bonds) (**“Annual Junior Lien Debt Service”**), as applicable, the sum of the amounts required in a calendar year to pay the interest due in such calendar year (excluding interest to be paid from the proceeds of the sale of bonds), the principal of Serial Bonds maturing in such calendar year, and the Sinking Fund Requirements for any Term Bonds due in such calendar year. Additionally, for purposes of this definition:

(a) **Calculation of Interest Due - Generally.** Except as otherwise provided below, interest shall be calculated based on the actual amount of accrued, accreted, or otherwise accumulated interest that is payable in respect of the relevant series of Parity Bonds or Junior Lien Bonds, as applicable, taken as a whole, at the rate or rates set forth in the applicable Bond Documents.

(b) **Capital Appreciation Bonds.** The principal and interest portions of the Accreted Value of Capital Appreciation Bonds becoming due at maturity or by virtue of a Sinking Fund Requirement shall be included in the calculations of accrued and unpaid and accruing interest or principal in such manner and during such period of time as is specified in the Bond Documents applicable to such Capital Appreciation Bonds.

(c) **Variable Interest Rate Bonds.**

(i) **Assumed Interest on Variable Interest Rate Parity Bonds.** The amount of interest deemed to be payable on any series of Parity Bonds that are Variable Interest Rate Bonds shall be calculated on

the assumption that the interest rate on those bonds is equal to the rate that is 90% of the average RBI during the four calendar quarters ending at least 15 days preceding the quarter in which the calculation is made. ***Upon the Parity Covenant Date, the following sentence shall replace the immediately preceding sentence: The amount of interest deemed to be payable on any series of Parity Bonds that are Variable Interest Rate Bonds shall be calculated on the assumption that the interest rate on those bonds is equal to the highest 12-month rolling average of the SIFMA Municipal Swap Index over the preceding ten years. And, upon the Second Parity Covenant Date, a five-year look-back period shall be substituted for the ten-year period referenced in the immediately preceding sentence.***

(ii) **Assumed Interest on Variable Interest Rate Junior Lien Bonds.** The amount of interest deemed to be payable on any series of Junior Lien Bonds that are Variable Interest Rate Bonds shall be calculated on the assumption that the interest rate on those bonds is equal to the highest 12-month rolling average (ending with the month preceding the date of the calculation) of the SIFMA Municipal Swap Index over the preceding five years.

(d) **Interest on Bonds with Respect to Which a Payment Agreement is in Force.** In general, debt service on any bonds (Parity Bonds or Junior Lien Bonds, as applicable) with respect to which a Payment Agreement is in force shall be based on the net economic effect on the City expected to be produced by the terms of the applicable Bond Documents and the terms of the Payment Agreement. For example, if the net effect of the Payment Agreement on a series of bonds otherwise bearing interest at a variable interest rate is to produce an obligation bearing interest at a fixed rate, the relevant series of bonds shall be treated as fixed rate bonds. And if the net effect of the Payment Agreement on a series of bonds otherwise bearing interest at a fixed interest rate is to produce an obligation bearing interest at a variable interest rate, the relevant series of bonds shall be treated as Variable Interest Rate Bonds.

Accordingly, the amount of interest deemed to be payable on any series of Parity Bonds (or Junior Lien Bonds, as applicable) with respect to which a Payment Agreement is in force shall be an amount equal to the

amount of interest that would be payable at the rate or rates stated in or determined pursuant to the applicable Bond Documents, plus Payment Agreement Payments, minus Payment Agreement Receipts. For the purposes of calculating as nearly as practicable Payment Agreement Receipts and Payment Agreement Payments under a Payment Agreement that includes a variable rate component determined by reference to a pricing mechanism or index that is not the same as the pricing mechanism or index used to determine the variable rate interest component on the series of bonds to which the Payment Agreement is related, it shall be assumed that: (i) the fixed rate used in calculating Payment Agreement Payments will be equal to 105% of the fixed rate specified by the Payment Agreement, and (ii) the pricing mechanism or index specified by the Payment Agreement is the same as the pricing mechanism or index specified by the applicable Bond Documents. Notwithstanding the other provisions of this definition, the City shall not be required to (but may in its discretion) take into account in determining Annual Debt Service the effects of any Payment Agreement that has a term of ten years or less.

(e) **Parity Payment Agreements; Junior Lien Payment Agreements.** For any period during which Payment Agreement Payments under a Parity Payment Agreement (or Junior Lien Payment Agreement, as applicable) are taken into account in determining Annual Debt Service on the related Parity Bonds (or Junior Lien Bonds, as applicable) under subsection (d), no additional debt service shall be taken into account with respect to that Parity Payment Agreement (or a Junior Lien Payment Agreement, as applicable). However, for any period during which Payment Agreement Payments are not taken into account under subsection (d) because the Parity Payment Agreement (or Junior Lien Payment Agreement, as applicable) is not then related to any outstanding Parity Bonds (or Junior Lien Bonds, as applicable), payments on that Payment Agreement shall be taken into account by assuming:

(i) **If City is Obligated to Make Payments Based on Fixed Rate.** If the City is obligated to make Payment Agreement Payments based on a fixed rate and the Qualified Counterparty is obligated to make payments based on a variable rate index, it shall be assumed that payments by the City will be based on the assumed fixed payor rate, and that payments by the Qualified Counterparty will be based on a rate equal to

the average rate determined by the variable rate index specified by the Payment Agreement during the four calendar quarters preceding the quarter in which the calculation is made.

(ii) **If City is Obligated to Make Payments Based on Variable Rate Index.** If the City is obligated to make Payment Agreement Payments based on a variable rate index and the Qualified Counterparty is obligated to make payments based on a fixed rate, it shall be assumed that payments by the City will be based on a rate equal to the average rate determined by the variable rate index specified by the Payment Agreement during the four calendar quarters preceding the quarter in which the calculation is made, and that the Qualified Counterparty will make payments based on the fixed rate specified by the Payment Agreement.

(f) **Balloon Bonds.** *Upon the Parity Covenant Date, the following sentence shall become effective: In calculating Annual Debt Service for any series of Parity Bonds, the City may in its discretion treat the debt service requirements with respect to Parity Bonds that are Balloon Bonds (including principal of and interest on such bonds at the applicable rate or rates) as being amortized in approximately equal annual installments over a period equal to the longer of 30 years or the remaining term of such series of Parity Bonds.*

In calculating Annual Debt Service for any series of Junior Lien Bonds, the City may in its discretion treat the debt service requirements with respect to Junior Lien Bonds that are Balloon Bonds (including principal of and interest on such bonds at the applicable rate or rates) as being amortized in approximately equal annual installments over a period equal to the longer of 30 years or the remaining term of such series of Junior Lien Bonds.

(g) **Adjustments for Defeased Bonds.** For purposes of determining compliance with the rate covenants set forth in Sections 17(a)(ii) and 17(b)(ii), calculating the Reserve Fund Requirement, and making coverage ratio calculations in connection with the delivery of a Parity Certificate or Junior Lien Coverage Certificate, Annual Debt Service shall be adjusted as set forth in Section 20(d).

(h) **Reimbursement Obligations.** If any payment under a Parity Reimbursement Obligation is then

due and payable, or is then reasonably expected to become due and payable, the reasonably estimated amount and timing of such payment, calculated in accordance with applicable generally accepted accounting principles and as reflected in the annual financial statements of the Light System, shall be included in calculating Annual Debt Service for purposes of delivering a Parity Certificate. If any payment under a Parity Reimbursement Obligation, an Intermediate Lien Reimbursement Obligation, or a Junior Lien Reimbursement Obligation is then due and payable, or is then reasonably expected to become due and payable, the reasonably estimated amount and timing of such payment, calculated in accordance with applicable generally accepted accounting principles and as reflected in the annual financial statements of the Light System, shall be included in calculating Annual Junior Lien Debt Service for purposes of delivering a Junior Lien Coverage Certificate.

“Authorized Denomination” means \$5,000 or any integral multiple thereof within a maturity of a Series, or such other minimum authorized denominations as may be specified in the applicable Bond Documents.

“Average Annual Debt Service” means, for purposes of calculating the Reserve Fund Requirement with respect to all Parity Bonds outstanding at the time of calculation, the sum of the Annual Parity Bond Debt Service remaining to be paid to the last scheduled maturity of the applicable Parity Bonds, divided by the number of years such Parity Bonds are scheduled to remain outstanding.

“Balloon Bonds” means any series of either Parity Bonds or Junior Lien Bonds, as applicable, the aggregate principal amount (including Sinking Fund Requirements) of which becomes due and payable in any calendar year in an amount that constitutes 25% or more of the initial aggregate principal amount of such series.

“Beneficial Owner” means, with regard to a Bond, the owner of any beneficial interest in that Bond.

“Bond” means a municipal light and power revenue bond issued pursuant to this ordinance.

“Bond Counsel” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“Bond Documents” means (a) (i) with respect to any Series of the Bonds, this ordinance (including any amendatory or supplemental ordinances), (ii) with respect to a series of Parity Bonds other than a Series of the Bonds, the applicable Parity Bond Ordinance(s), and (iii) with respect to any Junior Lien Bonds other than a Series of the Bonds, the applicable Junior Lien Bond Ordinance(s); (b) the authenticated bond form; and (c) the written agreement(s) setting forth the Bond Sale Terms and additional terms, conditions, or covenants pursuant to which such bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance), (iii) a bond indenture or a fiscal agent or paying agent agreement (other than the State fiscal agency contract), and (iv) a direct purchase or continuing covenant agreement.

“Bond Owners’ Trustee” means a bank or trust company organized under the laws of the State, or a national banking association, appointed in accordance with Section 24(e) of this ordinance to act as trustee on behalf of the owners, from time to time, of either the outstanding Parity Bonds or the outstanding Junior Lien Bonds, as the case may be.

“Bond Purchase Contract” means a written offer to purchase a Series of the Bonds pursuant to certain Bond Sale Terms, which offer has been accepted by the City in accordance with this ordinance. In the case of a competitive sale, the Purchaser’s bid for a Series, together with the official notice of sale and a Pricing Certificate confirming the Bond Sale Terms, shall comprise the Bond Purchase Contract.

“Bond Register” means the books or records maintained by the Bond Registrar for the purpose of registering ownership of each Bond.

“Bond Registrar” means the Fiscal Agent (unless the Director of Finance appoints a different person to act as bond registrar with respect to a particular Series), or any successor bond registrar selected in accordance with the Registration Ordinance.

“Bond Sale Terms” means the terms and conditions for the sale of a Series of the Bonds approved by the Director of Finance consistent with the parameters set forth in Section 5, including the maximum principal

amount, date or dates, denominations, interest rate or rates (or mechanism for determining the interest rate or rates), payment dates, final maturity, redemption rights, price, and other terms, conditions or covenants. In connection with a negotiated sale or private placement, the Bond Sale Terms shall be set forth in a Bond Purchase Contract; in connection with a competitive sale, the Bond Sale Terms shall be set forth in a Pricing Certificate.

“Book-Entry Form” means a fully registered form in which physical bond certificates are registered only in the name of the Securities Depository (or its nominee), as Registered Owner, with the physical bond certificates held by and “immobilized” in the custody of the Securities Depository or its designee, where the system for recording and identifying the transfer of the ownership interests of the Beneficial Owners in those Bonds is neither maintained by nor the responsibility of the City or the Bond Registrar.

“Capital Appreciation Bond” means any Parity Bond or Junior Lien Bond, all or a portion of the interest on which is compounded and accumulated at the rates or in the manner, and on the dates, set forth in the applicable Bond Documents, and is payable only upon redemption or on the maturity date of such Capital Appreciation Bond. A Parity Bond or a Junior Lien Bond that is issued as a Capital Appreciation Bond, but which later converts to an obligation on which interest is paid periodically, shall be a Capital Appreciation Bond until the conversion date and thereafter shall no longer be a Capital Appreciation Bond, but shall be treated as having a principal amount equal to its Accreted Value on the conversion date. For purposes of (a) receiving payment of the redemption premium, if any, on a Capital Appreciation Bond that is redeemed prior to maturity, or (b) computing the principal amount of Parity Bonds (or Junior Lien Bonds, a applicable) held by the Owner of a Capital Appreciation Bond in connection with any notice, consent, request, or demand pursuant to this ordinance or for any purpose whatsoever, the principal amount of a Capital Appreciation Bond shall be deemed to be its Accreted Value at the time that such notice, consent, request, or demand is given or made.

“CIP” means the portion or portions of the “2020-2025 Capital Improvement Program” adopted by the City in Ordinance 126000 relating to the Light System, together with those portions of any previously adopted

capital improvement program of the City relating to the Light System, as the CIP may be amended, updated, supplemented, or replaced from time to time by ordinance.

“City” means The City of Seattle, Washington, a municipal corporation duly organized and existing under the laws of the State.

“City Council” means the City Council of the City, as duly and regularly constituted from time to time.

“Code” means the Internal Revenue Code of 1986, or any successor thereto, as it has been and may be amended from time to time, and regulations thereunder.

“Conservation Plan” means the Conservation Potential Assessment 2016 of the City with respect to the Light System endorsed by the City Council in Resolution 31631, adopted January 11, 2016, as that plan may be amended, updated, supplemented or replaced from time to time, to the extent that funds are appropriated by the City therefor.

“Construction Account” means such fund, subfund or account within the Light Fund as may be designated from time to time by the Director of Finance for the payment of costs of the Plan of Additions.

“Continuing Disclosure Agreement” means, for each Series that is sold in an offering subject to federal securities regulations requiring a written undertaking to provide continuing disclosure, a continuing disclosure agreement entered into pursuant to Section 22 in substantially the form attached as Exhibit B.

“Deferred Hydroelectric Project Relicensing Costs” means certain costs required by the Federal Energy Regulatory Commission to be incurred as a condition of the renewal of licenses for the Light System’s hydroelectric projects, which costs are treated in the same manner as capital expenditures.

“Director of Finance” means the Director of the Finance Division of the Department of Finance and Administrative Services of the City, or any other officer who succeeds to substantially all of the responsibilities of that office.

“DTC” means The Depository Trust Company, New York, New York.

“Event of Default” has the meaning given in Section 24. A “Parity Bond Event of Default” shall refer

to those Events of Default relating to nonpayment of Parity Bonds, or defaults in respect of the Parity Bond covenants set forth herein and in the applicable Parity Bond Documents giving rise to remedies available to the owners of Parity Bonds. A “Junior Lien Bond Event of Default” shall refer to those Events of Default relating to nonpayment of Junior Lien Bonds, or in respect of the Junior Lien Bond covenants set forth herein and in the applicable Junior Lien Bond Documents giving rise to remedies available to the owners of Junior Lien Bonds.

“Fiscal Agent” means the fiscal agent of the State, as the same may be designated by the State from time to time.

“Future Junior Lien Bonds” means, with reference to any Series designated as Junior Lien Bonds, any revenue obligations of the Light System issued or entered into after the Issue Date of such Series, the payment of which constitutes a charge and lien upon Net Revenue equal in priority with the charge and lien upon such revenue for the payment of the amounts required to be paid into the Junior Lien Debt Service Fund to pay and secure payment of the Junior Lien Bonds (including Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations), in accordance with the priority of payment set forth in Section 14. Future Junior Lien Bonds may include Junior Lien Payment Agreements issued in compliance with the Junior Lien Additional Bonds Test.

“Future Parity Bond Ordinance” means any ordinance passed by the City Council providing for the issuance and sale of a series of Future Parity Bonds, and any other ordinance amending or supplementing the provisions of any such ordinance.

“Future Parity Bonds” means, with reference to any Series designated as Parity Bonds, any revenue obligations of the Light System issued or entered into after the Issue Date of such Series, the payment of which constitutes a charge and lien upon Net Revenue equal in priority with the charge and lien upon such revenue for the payment of the amounts required to be paid into the Parity Bond Fund and the Reserve Fund to pay and secure payment of the Parity Bonds (including Parity Payment Agreements), in accordance with Section 14. Future Parity Bonds may include Parity Payment Agreements and any other obligations issued in compliance

with the Parity Conditions.

“Government Obligations” means, unless otherwise limited in the Bond Documents for a particular Series of the Bonds, any government obligation as that term is defined in RCW 39.53.010, as now in effect or as may hereafter be amended.

“Gross Revenues” means (a) all income, revenues, receipts and profits derived by the City through the ownership and operation of the Light System; (b) the proceeds received by the City directly or indirectly from the sale, lease or other disposition of any of the properties, rights or facilities of the Light System; (c) Payment Agreement Receipts, to the extent that such receipts are not offset by Payment Agreement Payments; and (d) the investment income earned on money held in any fund or account of the City, including any bond redemption funds and the accounts therein, in connection with the ownership and operation of the Light System. Gross Revenues do not include: (i) insurance proceeds compensating the City for the loss of a capital asset; (ii) income derived from investments irrevocably pledged to the payment of any defeased bonds payable from Gross Revenues; (iii) investment income earned on money in any fund or account created or maintained solely for the purpose of complying with the arbitrage rebate provisions of the Code; (iv) any gifts, grants, donations or other funds received by the City from any State or federal agency or other person if such gifts, grants, donations or other funds are the subject of any limitation or reservation imposed by the donor or grantor or imposed by law or administrative regulation to which the donor or grantor is subject, limiting the application of such funds in a manner inconsistent with the application of Gross Revenues hereunder; (v) the proceeds of any borrowing for capital improvements (or the refinancing thereof); and (vi) the proceeds of any liability or other insurance (excluding business interruption insurance or other insurance of like nature insuring against the loss of revenues).

“High Ross Agreement” means the agreement dated as of March 30, 1984, between the City and Her Majesty the Queen in Right of the Province of British Columbia relating to the City’s High Ross Dam.

“High Ross Capital Payments” means the deferred portion of the annual capital payments required to

be made by the City under Section 5 of the High Ross Agreement, representing the annual cost that would have been incurred by the City for the construction of the High Ross Dam.

“Intermediate Lien Reimbursement Obligation” means any payment or reimbursement obligation incurred under a written agreement entered into in connection with a series of Parity Bonds or to obtain Qualified Insurance or a Qualified Letter of Credit, under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue junior in rank to the lien and charge upon such Net Revenue required to be paid into the Parity Bond Fund to pay and secure the payment of the Parity Bonds, but senior to the lien and charge upon such Net Revenue required to be paid into the Junior Lien Debt Service Fund to pay and secure the payment of the Junior Lien Bonds. For purposes of determining percentages of ownership of Bonds under this ordinance or under any Bond Documents, Intermediate Lien Reimbursement Obligations shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Intermediate Lien Reimbursement Obligations.

“Issue Date” means, with respect to a Bond, the initial date on which that Bond is issued and delivered to the initial Purchaser in exchange for its purchase price.

“Junior Lien Additional Bonds Test” means the conditions set forth in Section 18(b) for issuing additional Junior Lien Bonds (including Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations).

“Junior Lien Bond” means, generally, any bond or obligation secured by a lien and charge on Net Revenue that is junior and subordinate to the lien and charge of the Parity Bonds and Intermediate Lien Reimbursement Obligations, but prior and superior to other liens and charges, in accordance with the priority of payment set forth in Section 14. The term Junior Lien Bond may refer to (a) any Bond of a Series issued pursuant to this ordinance that is so designated by the Director of Finance upon satisfaction of the Junior Lien Additional Bonds Test; (b) any Future Junior Lien Bond; (c) any Junior Lien Payment Agreement; and (d) any Junior Lien Reimbursement Obligation.

“Junior Lien Bond Documents” means those Bond Documents applicable to a series of Junior Lien Bonds.

“Junior Lien Bond Ordinance” means this ordinance, and any other ordinance passed by the City Council in the future authorizing the issuance and sale of any Future Junior Lien Bonds, including any ordinance amending or supplementing the provisions of any Junior Lien Bond Ordinance.

“Junior Lien Coverage Certificate” means a certificate delivered pursuant to Section 18(b)(ii), for purposes of satisfying the Junior Lien Additional Bonds Test in connection with the issuance of Future Junior Lien Bonds.

“Junior Lien Debt Service Fund” means the special fund of the City known as the Seattle Municipal Light Revenue Junior Lien Debt Service Fund established within the Light Fund pursuant to Ordinance 125459 for the purpose of paying and securing the principal of and interest on Junior Lien Bonds and securing obligations under Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations.

“Junior Lien Payment Agreement” means any Payment Agreement, which is entered into in compliance with the Junior Lien Additional Bonds Test, and under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required to be paid into the Junior Lien Debt Service Fund to pay and secure the payment of the Junior Lien Bonds in accordance with Section 14. For purposes of determining percentages of ownership of Junior Lien Bonds under this ordinance or under any Bond Documents, Junior Lien Payment Agreements shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Junior Lien Payment Agreement.

“Junior Lien Reimbursement Obligation” means any reimbursement obligation incurred under a written reimbursement agreement (or similar agreement) entered into in connection with a series of Junior Lien Bonds to obtain Qualified Insurance or a Qualified Letter of Credit, under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank with the lien and charge upon

such Net Revenue required to be paid into the Junior Lien Debt Service Fund to pay and secure the payment of the Junior Lien Bonds. For purposes of determining percentages of ownership of Junior Lien Bonds under this ordinance or under any Bond Documents, Junior Lien Reimbursement Obligations shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Junior Lien Reimbursement Obligations.

“Letter of Representations” means the Blanket Issuer Letter of Representations between the City and DTC dated October 4, 2006, as it may be amended from time to time, or an agreement with a substitute or successor Securities Depository.

“Light Fund” means the special fund of the City of that name heretofore created and established by the City Council.

“Light System” means the municipal light and power generation, transmission, and distribution system now belonging to or which may hereafter belong to the City.

“Maximum Annual Debt Service” means, with respect to Parity Bonds (or Junior Lien Bonds, as applicable) the maximum amount of Annual Debt Service that shall become due in the current calendar year or in any future calendar year with respect to those Parity Bonds (or Junior Lien Bonds, as applicable) that are outstanding as of the calculation date.

“MSRB” means the Municipal Securities Rulemaking Board.

“Net Revenue” for any period means Gross Revenues less Operating and Maintenance Expense.

“Omnibus Refunding Ordinance” means Ordinance 125460, passed by the City Council on November 20, 2017, as amended by Ordinance 125987, passed by the City Council on November 25, 2019, authorizing the issuance of refunding bonds (as such ordinance may be further amended from time to time) or any other ordinance of the City passed in the future, pursuant to which the Bonds (or any Series of the Bonds) are designated as Refundable Bonds.

“Operating and Maintenance Expense” means all reasonable charges incurred by the City in causing

the Light System to be operated and maintained in good repair, working order and condition, including but not limited to all operating expenses under applicable generally accepted accounting principles included in the annual audited financial statements of the Light System, except those excluded in this definition. Operating and Maintenance Expense does not include: (a) extraordinary, nonrecurring expenses of the Light System or any judgments or amounts to be paid in settlement of claims against the Light System, (b) non-cash expenses relating to a mark-to-market treatment of energy-related contracts, (c) any costs or expenses (including interest expense) for new construction, replacements, or renewals of Light System property, (d) Deferred Hydroelectric Project Relicensing Costs, the High Ross Capital Payments, or other similar payments under any agreement for the development or licensing of a capital improvement or asset, under which agreement the City agrees to make periodic payments in respect of its share of the capital expense, (e) any allowance for depreciation, amortization, or similar recognitions of non-cash expense items made for accounting purposes only (including non-cash pension expense), (f) any taxes levied by or paid to the City (or payments in lieu of taxes) upon the properties or earnings of the Light System, or (g) any obligation authorized pursuant to ordinance or resolution specifically excluding the payment of such obligation from Operating and Maintenance Expense.

“Outstanding Junior Lien Bonds” means, with reference to a particular Series of Junior Lien Bonds issued pursuant to this ordinance, those Junior Lien Bonds that are outstanding as of the Issue Date of such Series.

“Outstanding Parity Bonds” means those outstanding Parity Bonds identified in Exhibit A. When used in reference to a particular date or series of Parity Bonds, Outstanding Parity Bonds shall mean those Parity Bonds (including any Parity Bonds issued subsequent to the date of this ordinance) that are outstanding as of that date or as of the issue date of such series.

“Owner” means, without distinction, the Registered Owner and the Beneficial Owner of a Bond.

“Parity Bond” means, generally, any bond or obligation secured by a lien and charge on Net Revenue that is prior and superior to any other liens or charges whatsoever, in accordance with the priority of payment

set forth in Section 14. The term Parity Bond may refer to: (a) the Outstanding Parity Bonds identified in Exhibit A; (b) each Series of the Bonds designated by the Director of Finance as a Series of Parity Bonds upon satisfaction of the Parity Conditions; (c) any Future Parity Bonds; and (d) any Parity Payment Agreement entered into upon satisfaction of the Parity Conditions.

“Parity Bond Documents” means those Bond Documents applicable to a series of Parity Bonds.

“Parity Bond Fund” means the special fund of the City known as the Seattle Municipal Light Revenue Parity Bond Fund established within the Light Fund pursuant to Ordinance 92938 for the purpose of paying and securing the payment of principal of and interest on Parity Bonds (including Parity Payment Agreement Payments) and, *from and after the Parity Covenant Date, payments under Parity Reimbursement Obligations.*

“Parity Bond Ordinance” means any ordinance passed by the City Council providing for the issuance and sale of any Series of Parity Bonds, and any other ordinance amending or supplementing the provisions of any Parity Bond Ordinance.

“Parity Certificate” means a certificate delivered pursuant to Section 18(a)(ii) for purposes of satisfying the Parity Conditions in connection with the issuance of Future Parity Bonds.

“Parity Conditions” means, (a) for purposes of establishing that a Series of the Bonds may be issued on parity with the Parity Bonds outstanding as of the Issue Date of such Series, the conditions for issuing Future Parity Bonds set forth in the Parity Bond Ordinances relating to those Parity Bonds that are then outstanding; and (b) for purposes of issuing Future Parity Bonds on parity with a Series of the Bonds, the conditions described in the preceding clause (a) together with the conditions set forth in Section 18(a).

“Parity Covenant Date” means the earlier of (a) the date on which the City has obtained consents of the requisite percentage (as set forth in Section 23(b)) of Registered Owners of the Parity Bonds then outstanding, in accordance with the provisions of the applicable Outstanding Parity Bond Documents; or (b) the date on which all of the following Outstanding Parity Bonds have been redeemed or defeased: Municipal Light and Power Revenue Bonds, 2010A (Taxable Build America Bonds - Direct Payment); Municipal Light and

Power Improvement and Refunding Revenue Bonds, 2010B; Municipal Light and Power Revenue Bonds, 2010C (Taxable Recovery Zone Economic Development Bonds - Direct Payment); Municipal Light and Power Improvement and Refunding Revenue Bonds, 2011A; Municipal Light and Power Improvement Revenue Bonds, 2011B (Taxable New Clean Renewable Energy Bonds - Direct Payment); Municipal Light and Power Improvement and Refunding Revenue Bonds, 2012A; Municipal Light and Power Improvement Revenue Bonds, 2012C (Taxable New Clean Renewable Energy Bonds - Direct Payment); Municipal Light and Power Improvement and Refunding Revenue Bonds, 2013; Municipal Light and Power Improvement and Refunding Revenue Bonds, 2014; and Municipal Light and Power Revenue Bonds, 2015A.

“Parity Payment Agreement” means a Payment Agreement that is entered into in compliance with the Parity Conditions and under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required to be paid into the Parity Bond Fund and the Reserve Fund to pay and secure the payment of principal of and interest on Parity Bonds in accordance with Section 14. For purposes of determining percentages of ownership of Parity Bonds under this ordinance or under any Bond Documents, Parity Payment Agreements shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Parity Payment Agreement.

“Parity Reimbursement Obligation” means any payment or reimbursement obligation incurred under a written agreement entered into in connection with a series of Parity Bonds or to obtain Qualified Insurance or a Qualified Letter of Credit (other than Qualified Insurance or a Qualified Letter of Credit obtained to satisfy all or part of the Reserve Fund Requirement), under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank to the lien and charge upon such Net Revenue required to be paid into the Parity Bond Fund to pay and secure the payment of the principal of and interest on the Parity Bonds. Parity Reimbursement Obligations accruing as a result of a mandatory tender for purchase of Parity Bonds shall be excluded from the calculation of Annual Debt Service for all purposes. For purposes of

determining percentages of ownership of Parity Bonds, Parity Reimbursement Obligations shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Parity Reimbursement Obligations.

“Payment Agreement” means a written agreement entered into by the City and a Qualified Counterparty, as authorized by any applicable laws of the State, for the purpose of managing or reducing the City’s exposure to fluctuations or levels of interest rates, or for other interest rate, investment, or asset or liability management purposes, and which provides for (i) an exchange of payments based on interest rates, ceilings, or floors on such payments; (ii) options on such payments; (iii) any combination of the foregoing; or (iv) any similar device. A Payment Agreement may be entered into on either a current or forward basis. A Payment Agreement must be entered into in connection with (or incidental to) the issuance, incurring, or carrying of particular bonds, notes, bond anticipation notes, commercial paper, or other obligations for borrowed money (which may include leases, installment purchase contracts, or other similar financing agreements or certificates of participation in any of the foregoing).

“Payment Agreement Payments” means the amounts periodically required to be paid by the City to a Qualified Counterparty pursuant to a Payment Agreement.

“Payment Agreement Receipts” means the amounts periodically required to be paid by a Qualified Counterparty to the City pursuant to a Payment Agreement.

“Permitted Investments” means any investments or investment agreements permitted for the investment of City funds under the laws of the State, as amended from time to time.

“Plan of Additions” means the system or plan of additions to and betterments and extensions of the Light System adopted by ordinance, including but not limited to the CIP, the Conservation Plan, the High Ross Capital Payments and the Deferred Hydroelectric Project Relicensing Costs. The Plan of Additions includes all amendments, updates, supplements or replacements to the CIP, the Conservation Plan, the High Ross Capital Payments and the Deferred Hydroelectric Project Relicensing Costs, all of which shall automatically constitute

amendments to the Plan of Additions upon approval by ordinance. The Plan of Additions includes the purchase and installation of all materials, supplies, appliances, equipment (including but not limited to data processing hardware and software and conservation equipment) and facilities, the acquisition of all permits, licenses, franchises, property and property rights, other capital assets and all engineering, consulting and other professional services and studies (whether performed by the City or by other public or private entities) necessary or convenient to carry out the Plan of Additions. The Plan of Additions also may be modified to include other improvements without amending the CIP, the Conservation Plan, the High Ross Capital Payments and the Deferred Hydroelectric Project Relicensing Costs, if the City determines by ordinance that those amendments or other improvements constitute a system or plan of additions to or betterments or extensions of the Light System.

“Pricing Certificate” means a certificate executed by the Director of Finance as of the pricing date confirming the Bond Sale Terms for the sale of a Series of the Bonds to the Purchaser in a competitive sale, in accordance with the parameters set forth in Section 5.

“Professional Utility Consultant” means the independent person(s) or firm(s) selected by the City having a favorable reputation for skill and experience with electric systems of comparable size and character to the Light System in such areas as are relevant to the purposes for which they were retained.

“Purchaser” means the entity or entities who have been selected by the Director of Finance in accordance with this ordinance to serve as underwriter, purchaser or successful bidder in a sale of any Series of the Bonds.

“Qualified Counterparty” means a party (other than the City or a person related to the City) who is the other party to a Payment Agreement and who is qualified to act as the other party to a Payment Agreement under any applicable laws of the State.

“Qualified Insurance” means any municipal bond insurance policy, surety bond, or similar credit enhancement device, issued by any insurance company licensed to conduct an insurance business in any state

of the United States, by a service corporation acting on behalf of one or more such insurance companies, or by any other financial institution, the provider of which, as of the time of issuance of such credit enhancement device, is rated in one of the two highest rating categories (without regard to gradations within such categories) by at least two nationally recognized rating agencies.

“Qualified Letter of Credit” means any letter of credit, standby bond purchase agreement, or other liquidity facility issued by a financial institution for the account of the City in connection with the issuance of any Parity Bond or Junior Lien Bond, which institution maintains an office, agency or branch in the United States and, as of the time of issuance of such instrument, is rated in one of the two highest rating categories (without regard to gradations within such categories) by at least two nationally recognized rating agencies.

“Rate Stabilization Account” means the account of that name previously established in the Light Fund pursuant to Ordinance 121637.

“Rating Agency” means any nationally recognized rating agency then maintaining a rating on a Series of the Bonds at the request of the City.

“RBI” means *The Bond Buyer Revenue Bond Index* or comparable index, or, if no comparable index can be obtained, 80% of the interest rate for actively traded 30-year United States Treasury obligations.

“Record Date” means, unless otherwise defined in the Bond Documents, in the case of each interest or principal payment date, the Bond Registrar’s close of business on the 15th day of the month preceding such interest or principal payment date. With regard to redemption of a Bond prior to its maturity, the Record Date shall mean the Bond Registrar’s close of business on the day prior to the date on which the Bond Registrar sends the notice of redemption to the Registered Owner(s) of the affected Bonds.

“Refundable Bonds” means the Refundable Parity Bonds and the Refundable Junior Lien Bonds.

“Refundable Junior Lien Bonds” means any outstanding Junior Lien Bonds that are eligible to be refunded pursuant to the Omnibus Refunding Ordinance.

“Refundable Parity Bonds” means any outstanding Parity Bonds that are eligible to be refunded

pursuant to the Omnibus Refunding Ordinance.

“Refunding Junior Lien Bonds” means Future Junior Lien Bonds that satisfy the applicable Junior Lien Additional Bonds Test and are issued pursuant to the Omnibus Refunding Ordinance (or a Future Junior Lien Bond ordinance) for the purpose of refunding any Refundable Junior Lien Bonds.

“Refunding Parity Bonds” means Future Parity Bonds that satisfy the applicable Parity Conditions and are issued pursuant to the Omnibus Refunding Ordinance (or another Future Parity Bond Ordinance) for the purpose of refunding any Refundable Parity Bonds.

“Registered Owner” means, with respect to a Bond, the person in whose name that Bond is registered on the Bond Register. For so long as a Series of the Bonds is in Book-Entry Form under a Letter of Representations, the Registered Owner of such Series shall mean the Securities Depository.

“Registration Ordinance” means Ordinance 111724 establishing a system of registration for the City’s bonds and other obligations pursuant to Seattle Municipal Code Chapter 5.10, as that chapter now exists or may hereafter be amended.

“Reserve Fund” means the special fund of the City known as the Municipal Light and Power Bond Reserve Fund established as a separate account within the Light Fund pursuant to Ordinance 71917, as amended, to secure the payment of Parity Bonds.

“Reserve Fund Requirement” means, for any Series of Bonds designated as Parity Bonds, the Reserve Fund Requirement established in the Bond Sale Terms for that Series and any other Series issued as part of a single “issue” of Parity Bonds, consistent with Section 15. For any Series of Future Parity Bonds, the Reserve Fund Requirement means the requirement specified for that Series in the Bond Sale Terms associated with that issue. The aggregate Reserve Fund Requirement for all Parity Bonds shall be the sum of the Reserve Fund Requirements for each Series of Parity Bonds. For purposes of this definition, “issue” means all Series of Parity Bonds issued and sold pursuant to a common set of Bond Sale Terms. For the purposes of calculating the Reserve Fund Requirement only, the City shall deduct from Annual Debt Service the Tax Credit Subsidy

Payments the City is scheduled to claim from the federal government in respect of the interest on a Series of Parity Bonds that are Tax Credit Subsidy Bonds (or with respect to which the federal government is otherwise scheduled to provide direct payments).

“Rule 15c2-12” means Rule 15c2-12 promulgated by the SEC under the Securities Exchange Act of 1934, as amended.

“SEC” means the United States Securities and Exchange Commission.

“Second Parity Covenant Date” means the earlier of (a) the date on which the City has obtained consents of the requisite percentage (as set forth in Section 23(b)) of Registered Owners of the Parity Bonds then outstanding, in accordance with the provisions of the applicable Outstanding Parity Bond Documents; or (b) the date on which all of the following Outstanding Parity Bonds have been redeemed or defeased: Municipal Light and Power Revenue Bonds, 2010A (Taxable Build America Bonds - Direct Payment); Municipal Light and Power Improvement and Refunding Revenue Bonds, 2010B; Municipal Light and Power Revenue Bonds, 2010C (Taxable Recovery Zone Economic Development Bonds - Direct Payment); Municipal Light and Power Improvement and Refunding Revenue Bonds, 2011A; Municipal Light and Power Improvement Revenue Bonds, 2011B (Taxable New Clean Renewable Energy Bonds - Direct Payment); Municipal Light and Power Improvement and Refunding Revenue Bonds, 2012A; Municipal Light and Power Improvement Revenue Bonds, 2012C (Taxable New Clean Renewable Energy Bonds - Direct Payment); Municipal Light and Power Improvement and Refunding Revenue Bonds, 2013; Municipal Light and Power Improvement and Refunding Revenue Bonds, 2014; Municipal Light and Power Revenue Bonds, 2015A; Municipal Light and Power Revenue Bonds, 2016A (Taxable New Clean Renewable Energy Bonds - Direct Payment); Municipal Light and Power Refunding Revenue Bonds, 2016B; Municipal Light and Power Improvement and Refunding Revenue Bonds, 2016C; and Municipal Light and Power Improvement and Refunding Revenue Bonds, 2017C.

“Securities Depository” means DTC, any successor thereto, any substitute securities depository

selected by the City, or the nominee of any of the foregoing. Any successor or substitute Securities Depository must be qualified under applicable laws and regulations to provide the services proposed to be provided by it.

“Serial Bond” means any Parity Bond or Junior Lien Bond maturing in a specified year, for which no Sinking Fund Requirements are mandated.

“Series” means a series of the Bonds issued pursuant to this ordinance.

“SIFMA Municipal Swap Index” means the Securities Industry and Financial Markets Association (“SIFMA”) Municipal Swap Index, calculated and published by Bloomberg and overseen by SIFMA’s Municipal Swap Index Committee, or a substantially similar recognized market successor index representing a seven-day market index comprised of certain high-grade tax-exempt variable rate demand obligations.

“Sinking Fund Account” means (a) with respect to Parity Bonds, any account created in the Parity Bond Fund to amortize the principal or make mandatory redemptions of Parity Bonds that are Term Bonds; and (b) with respect to Junior Lien Bonds, any account created in the Junior Lien Debt Service Fund to amortize the principal or make mandatory redemptions of Junior Lien Bonds that are Term Bonds.

“Sinking Fund Requirement” means, for any calendar year, the principal portion (and required redemption premium, if any) of any Term Bond that is required to be purchased, redeemed, paid at maturity, or paid into any Sinking Fund Account for such calendar year, as established in the applicable Bond Documents.

“State” means the State of Washington.

“State Auditor” means the office of the Auditor of the State or such other department or office of the State authorized and directed by State law to make audits.

“Tax Credit Subsidy Bond” means any Taxable Bond that is designated by the City as a tax credit bond pursuant to the Code and as a “qualified bond” under Section 6431 or similar provision of the Code, and with respect to which the City is eligible to claim a Tax Credit Subsidy Payment.

“Tax Credit Subsidy Payment” means a payment by the federal government with respect to a Tax Credit Subsidy Bond.

“Tax-Exempt Bond” means any Parity Bond or Junior Lien Bond, the interest on which is intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“Taxable Bond” means any Parity Bond or Junior Lien Bond, the interest on which is not intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“Term Bond” means any Parity Bond or Junior Lien Bond that is issued subject to mandatory redemption in periodic Sinking Fund Requirements prior to its maturity date.

“Valuation Date” means, with respect to any Capital Appreciation Bond, the date or dates, determined as set forth in the applicable Bond Documents, on which specific Accreted Values are assigned to that Capital Appreciation Bond.

“Variable Interest Rate” means any interest rate that fluctuates during the stated term of a bond (or during a stated period during which the bond is designated as a Variable Interest Rate Bond), whether due to a remarketing, a market index reset, or other mechanism set forth in the applicable Bond Documents. The Bond Documents for any Series of the Bonds bearing interest at a Variable Interest Rate shall set forth: (a) the available method(s) of computing interest (the “interest rate modes”); (b) the particular period or periods of time (or manner of determining such period or periods of time) for which each value of such Variable Interest Rate (or each interest rate mode) shall remain in effect; (c) provisions for conversion from one interest rate mode to another and for setting or resetting the interest rates; and (d) the time or times upon which any change in such Variable Interest Rate (or any conversion of interest rate modes) shall become effective.

“Variable Interest Rate Bond” means, for any period of time, any Parity Bond or Junior Lien Bond that bears interest at a Variable Interest Rate during that period. A bond shall not be treated as a Variable Interest Rate Bond if the net economic effect of (a) interest rates on a particular series of Parity Bonds (or Junior Lien Bonds, as applicable), as set forth in the applicable Bond Documents, and (b) either (i) interest rates on another series of Parity Bonds (or Junior Lien Bonds, as applicable) issued at substantially the same time, or (ii) a Payment Agreement related to that particular series, in either case, is to produce obligations that bear interest at

a fixed interest rate. Any Parity Bond or Junior Lien Bond with respect to which a Payment Agreement is in force shall be treated as a Variable Interest Rate Bond if the net economic effect of the Payment Agreement is to produce an obligation that bears interest at a Variable Interest Rate.

Section 2. **Adoption of Plan of Additions.** The City specifies, adopts and orders the Plan of Additions to be carried out as generally provided for in the documents comprising the Plan of Additions. The estimated cost of the Plan of Additions, as nearly as may be determined, is declared to be approximately \$2.2 billion, of which approximately \$350 million is expected to be financed from proceeds of the Bonds and investment earnings thereon.

Section 3. **Authorization of Bonds; Due Regard Finding.**

(a) **The Bonds.** The City is authorized to issue municipal light and power revenue bonds payable from the sources described in Section 13 and secured as either Parity Bonds or Junior Lien Bonds, as determined by the Director of Finance in accordance with Section 5. The Bonds may be issued in one or more Series in a maximum aggregate principal amount not to exceed the amount stated in Section 5, for the purposes of: (a) paying a part of the cost of carrying out the Plan of Additions; (b) providing for the Reserve Fund Requirement (if necessary); (c) capitalizing interest on (if necessary) and paying costs of issuance; and (d) carrying out other Light System purposes approved by ordinance. The Bonds may be issued in one or more Series and may be combined with other municipal light and power revenue bonds authorized separately. The Bonds shall be designated municipal light and power revenue bonds, shall be numbered separately and shall have any name, year, and Series or other label as deemed necessary or appropriate by the Director of Finance. Any Series of the Bonds designated as Junior Lien Bonds shall bear a designation clearly indicating that such Bonds are Junior Lien Bonds.

(b) **City Council Finding.** The City Council hereby finds that, in creating the Parity Bond Fund, the Reserve Fund, and the Junior Lien Debt Service Fund (collectively, the “Bond Funds”), and in fixing the amounts to be paid into those funds in accordance with this ordinance and the parameters for the Bond Sale

Terms set forth in Section 5, the City Council has exercised due regard for the cost of operation and maintenance of the Light System, and is not setting aside into such Bond Funds a greater amount than in the judgment of the City Council, based on the rates established from time to time consistent with Section 17(a)(ii), will be sufficient, in the judgment of the City Council, to meet all expenses of operation and maintenance of the Light System and to provide the amounts previously pledged for the payment of all outstanding obligations payable out of Gross Revenues and pledged for the payment of the Bonds. Therefore, the City Council hereby finds that the issuance and sale of the Bonds is in the best interest of the City and is in the public interest.

Section 4. **Manner of Sale of the Bonds.** The Director of Finance may provide for the sale of each Series by competitive sale, negotiated sale, limited offering, or private placement, and may select and enter into agreements with remarketing agents or providers of liquidity with respect to Variable Interest Rate Bonds. The Purchaser of each Series shall be chosen through a selection process acceptable to the Director of Finance. The Director of Finance is authorized to specify a date and time of sale and a date and time for the delivery of each Series; in the case of a competitive sale, to provide an official notice of sale including bid parameters and other bid requirements, and to provide for the use of an electronic bidding mechanism; to provide for and determine matters relating to the forward or delayed delivery of the Bonds, if deemed desirable; and to specify such other matters and take such other action as in his or her determination may be necessary, appropriate, or desirable in order to carry out the sale of each Series. Each Series must be sold on Bond Sale Terms consistent with the parameters set forth in Section 5.

Section 5. **Appointment of Designated Representative; Bond Sale Terms.**

(a) **Designated Representative.** The Director of Finance is appointed to serve as the City's designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and this ordinance.

(b) **Parameters for Bond Sale Terms.** The Director of Finance is authorized to approve, on behalf of the City, Bond Sale Terms for the sale of the Bonds in one or more Series, and in connection with each such

sale, to execute a Bond Purchase Contract (or, in the case of a competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with the following parameters:

- (i) **Maximum Principal Amount.** This ordinance authorizes the issuance of Bonds in a maximum aggregate principal amount of not to exceed \$350 million.
- (ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance. The initial Issue Date (without restricting any reissuance date with respect to a Series of Variable Interest Rate Bonds) may not be later than December 31, 2023.
- (iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.
- (iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, whichever is later, unless otherwise provided in the applicable Bond Documents. Each Series of the Bonds shall bear interest at one or more fixed interest rates or Variable Interest Rates. The net interest cost for any fixed rate Series may not exceed a rate of 10% per annum. The Bond Documents for any Series may provide for multiple interest rates and interest rate modes, and may provide conditions and mechanisms for the Director of Finance to effect a conversion from one mode to another. Nothing in this ordinance shall be interpreted to prevent the Bond Documents for any Series from including a provision for adjustments to interest rates during the term of the Series upon the occurrence of certain events specified in the applicable Bond Documents.
- (v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director of Finance, which shall include payment at the maturity of each Bond; in accordance with any Sinking Fund Requirements applicable to Term Bonds; and otherwise in accordance with any redemption or tender provisions.
- (vi) **Final Maturity.** Each Bond shall mature no later than 40 years after its Issue Date.
- (vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption and

tender provisions, as determined by the Director of Finance in the Director's discretion, consistent with Section 8 and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as subject to optional redemption prior to its maturity. Any Bond that is subject to optional redemption prior to maturity must be callable on at least one or more date(s) occurring not more than 10½ years after the Issue Date, consistent with Section 8(a).

(B) **Mandatory Redemption.** The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity on the dates and in principal payment amounts set forth in Sinking Fund Requirements, consistent with Section 8(b).

(C) **Extraordinary Redemption.** The Director of Finance may designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent with Section 8(c).

(D) **Tender Options.** The Director of Finance may designate any Variable Interest Rate Bond as subject to tender options, as set forth in the applicable Bond Documents.

(viii) **Price.** The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in his or her judgment, the price that produces the most advantageous borrowing cost for the City for that Series, consistent with the parameters set forth herein and in any applicable bid documents.

(ix) **Other Terms and Conditions.**

(A) **Expected Life of Capital Facilities.** As of the Issue Date of each Series, the Director of Finance must find to his or her satisfaction that the average expected life of the capital facilities to be financed with the proceeds (or allocable share of proceeds) of that Series exceeds the weighted average maturity of such Series (or share thereof allocated to financing those capital facilities).

(B) **Satisfaction of Parity Conditions or Junior Lien Additional Bonds Test.** For each Series of the Bonds, the Director of Finance must designate each Series of the Bonds as a series of either Parity Bonds or Junior Lien Bonds. For a Series to be designated as Parity Bonds, the Director of Finance must find to his or her satisfaction that, as of the Issue Date, the Parity Conditions have been met or satisfied so that such Series is permitted to be issued as Parity Bonds. For a Series to be designated as Junior Lien Bonds, the Director of Finance must find to his or her satisfaction that, as of the Issue Date, the Junior Lien Additional Bonds Test has been met or satisfied so that such Series is permitted to be issued as Junior Lien Bonds.

(C) **Additional Terms, Conditions, and Agreements.** The Bond Sale Terms for any Series may provide for Qualified Insurance, a Qualified Letter of Credit or other liquidity facility, Intermediate Lien Reimbursement Obligation, Junior Lien Reimbursement Obligation, or any other Payment Agreement as the Director of Finance may find necessary or desirable, and may include such additional terms, conditions, and covenants as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of any of the Bonds), provisions for the conversion of interest rate modes, provisions for the reimbursement of a credit enhancement provider or Qualified Counterparty, and requirements to give notice to or obtain the consent of a credit enhancement provider or a Qualified Counterparty. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants.

(D) **Parity Bond Reserve Fund Requirement.** The Bond Sale Terms for any Series of Parity Bonds must establish the Reserve Fund Requirement for such Series and must set forth the method for satisfying any such requirement, consistent with Section 15 and the Parity Conditions. The Reserve Fund Requirement for any such Series may not be set at a level that would cause the aggregate Reserve Fund Requirement to exceed the least of (1) 125% of Average Annual Debt Service on all Parity Bonds outstanding, (2) Maximum Annual Debt Service on all Parity Bonds outstanding, or (3) 10% of the proceeds of the

outstanding Parity Bonds.

(E) **Tax Status of the Bonds.** The Director of Finance may designate any Series of the Bonds as Tax-Exempt Bonds, Taxable Bonds, or Tax Credit Subsidy Bonds, consistent with Section 21.

Section 6. **Bond Registrar; Registration and Transfer of Bonds.**

(a) **Registration and Bond Registrar.** The Bonds shall be issued only in registered form as to both principal and interest and shall be recorded on the Bond Register. The Fiscal Agent is appointed to act as Bond Registrar for each Series of the Bonds, unless otherwise determined by the Director of Finance.

(b) **Transfer and Exchange of Bonds.** The Bond Registrar shall keep, or cause to be kept, sufficient books for the registration and transfer of the Bonds, which shall be open to inspection by the City at all times. The Bond Register shall contain the name and mailing address of the Registered Owner of each Bond and the principal amount and number of each of the Bonds held by each Registered Owner.

The Bond Registrar is authorized, on behalf of the City, to authenticate and deliver Bonds transferred or exchanged in accordance with the provisions of the Bonds and this ordinance, to serve as the City's paying agent for the Bonds, and to carry out all of the Bond Registrar's powers and duties under this ordinance and the Registration Ordinance.

The Bond Registrar shall be responsible for its representations contained in the Bond Registrar's certificate of authentication on the Bonds. The Bond Registrar may become an Owner of Bonds with the same rights it would have if it were not the Bond Registrar and, to the extent permitted by law, may act as depository for and permit any of its officers or directors to act as members of, or in any other capacity with respect to, any committee formed to protect the rights of Owners.

Bonds surrendered to the Bond Registrar may be exchanged for Bonds in any Authorized Denomination of an equal aggregate principal amount and of the same Series, seniority, interest rate, and maturity. Bonds may be transferred only if endorsed in the manner provided thereon and surrendered to the Bond Registrar. Any exchange or transfer shall be without cost to an Owner or transferee. The Bond Registrar shall not be obligated

to exchange or transfer any Bond during the period between the Record Date and the corresponding interest payment or principal redemption date.

(c) **Securities Depository; Book-Entry Form.** Unless otherwise determined by the Director of Finance, the Bonds initially shall be issued in Book-Entry Form and registered in the name of the Securities Depository. The Bonds so registered shall be held fully immobilized in Book-Entry Form by the Securities Depository in accordance with the provisions of the Letter of Representations. Neither the City nor the Bond Registrar shall have any responsibility or obligation to participants of the Securities Depository or the persons for whom they act as nominees with respect to the Bonds regarding the accuracy of any records maintained by the Securities Depository or its participants of any amount in respect of principal of or interest on the Bonds, or any notice that is permitted or required to be given to Registered Owners hereunder (except such notice as is required to be given by the Bond Registrar to the Securities Depository). Registered ownership of a Bond initially held in Book-Entry Form, or any portion thereof, may not be transferred except: (i) to any successor Securities Depository; (ii) to any substitute Securities Depository appointed by the City or such substitute Securities Depository's successor; or (iii) to any person if the Bond is no longer held in Book-Entry Form.

Upon the resignation of the Securities Depository from its functions as depository, or upon a determination by the Director of Finance to discontinue utilizing the then-current Securities Depository, the Director of Finance may appoint a substitute Securities Depository. If the Securities Depository resigns from its functions as depository and no substitute Securities Depository can be obtained, or if the Director of Finance determines not to utilize a Securities Depository, then the Bonds shall no longer be held in Book-Entry Form and ownership may be transferred only as provided herein.

Nothing herein shall prevent the Bond Sale Terms from providing that a Series of the Bonds shall be issued in certificated form without utilizing a Securities Depository, and that the Bonds of such Series shall be registered as of their Issue Date in the names of the Owners thereof, in which case ownership may be transferred only as provided herein.

(d) **Lost or Stolen Bonds.** In case any Bond shall be lost, stolen or destroyed, the Bond Registrar may authenticate and deliver a new bond or bonds of like amount, date, tenor, and effect to the Registered Owner(s) thereof upon the Registered Owner(s)' paying the expenses and charges of the City in connection therewith and upon filing with the Bond Registrar evidence satisfactory to the Bond Registrar that such bond or bonds were actually lost, stolen or destroyed and of Registered Ownership thereof, and upon furnishing the City with indemnity satisfactory to both.

Section 7. **Payment of Bonds.**

(a) **Payment.** Each Bond shall be payable in lawful money of the United States of America on the dates and in the amounts as provided in the Bond Documents for that Series. Principal of and interest on each Bond designated as a Parity Bond shall be payable solely out of the Parity Bond Fund. Principal of and interest on each Bond designated as a Junior Lien Bond shall be payable solely out of the Junior Lien Debt Service Fund. The Bonds shall not be general obligations of the City. No Bonds of any Series shall be subject to acceleration under any circumstances.

(b) **Bonds Held In Book-Entry Form.** Principal of and interest on each Bond held in Book-Entry Form shall be payable in the manner set forth in the Letter of Representations.

(c) **Bonds Not Held In Book-Entry Form.** Interest on each Bond not held in Book-Entry Form shall be payable by electronic transfer on the interest payment date, or by check or draft of the Bond Registrar mailed on the interest payment date to the Registered Owner at the address appearing on the Bond Register on the Record Date. The City, however, shall not be required to make electronic transfers except pursuant to a request by a Registered Owner in writing received at least ten days prior to the Record Date and at the sole expense of the Registered Owner. Principal of each Bond not held in Book-Entry Form shall be payable upon presentation and surrender of the Bond by the Registered Owner to the Bond Registrar.

Section 8. **Redemption and Purchase of Bonds.**

(a) **Optional Redemption.** All or some of the Bonds of any Series may be subject to redemption

prior to their stated maturity dates at the option of the City at the times and on the terms set forth in the applicable Bond Documents.

(b) **Mandatory Redemption.** All or some of the Bonds of any Series may be designated as Term Bonds, subject to mandatory redemption in Sinking Fund Requirements, as set forth in the applicable Bond Documents. If not redeemed or purchased at the City's option prior to maturity, Term Bonds (if any) must be redeemed, at a price equal to one hundred percent of the principal amount to be redeemed, plus accrued interest, on the dates and in the years and Sinking Fund Requirements as set forth in the applicable Bond Documents. If the City optionally redeems or purchases a Term Bond prior to maturity, the principal amount of that Term Bond that is so redeemed or purchased (irrespective of its redemption or purchase price) shall be credited against the remaining Sinking Fund Requirements for that Term Bond in the manner as directed by the Director of Finance. In the absence of direction by the Director of Finance, credit shall be allocated to the remaining Sinking Fund Requirements for that Term Bond on a *pro rata* basis.

(c) **Extraordinary Redemption.** All or some of the Bonds of any Series may be subject to extraordinary optional or extraordinary mandatory redemption prior to maturity upon the occurrence of an extraordinary event at the prices, in the principal amounts, and on the dates, all as set forth in the applicable Bond Documents.

(d) **Selection of Bonds for Redemption; Partial Redemption.** If fewer than all of the outstanding Bonds of a Series are to be redeemed at the option of the City, the Director of Finance shall select the maturity or maturities to be redeemed. If less than all of the principal amount of a maturity of the selected Series is to be redeemed and such Series is held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected for redemption by the Securities Depository in accordance with the Letter of Representations. If the Series is not then held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected by the Bond Registrar using such method of random selection as the Bond Registrar shall determine. All or a portion of the principal amount of any Bond that is to be redeemed may be redeemed in any applicable Authorized

Denomination. If less than all of the outstanding principal amount of any Bond is redeemed, upon surrender of that Bond to the Bond Registrar there shall be issued to the Registered Owner, without charge, a new Bond (or Bonds, at the option of the Registered Owner) of the same Series, seniority, maturity, and interest rate in any Authorized Denomination in the aggregate principal amount to remain outstanding.

(e) **Purchase.** The City reserves the right and option to purchase any or all of the Bonds at any time at any price acceptable to the City plus accrued interest to the date of purchase.

Section 9. **Notice of Redemption; Rescission of Notice.** Unless otherwise set forth in the applicable Bond Documents, the City must cause notice of any intended redemption of Bonds to be given not less than 20 nor more than 60 days prior to the date fixed for redemption by first-class mail, postage prepaid, to the Registered Owner of any Bond to be redeemed at the address appearing on the Bond Register on the Record Date, and the requirements of this sentence shall be deemed to have been fulfilled when notice has been mailed as so provided, whether or not it is actually received by the Owner of any Bond. Interest on Bonds called for redemption shall cease to accrue on the date fixed for redemption unless the Bond or Bonds called are not redeemed when presented pursuant to the call.

In the case of an optional or extraordinary optional redemption, the notice may state that the City retains the right to rescind the redemption notice and the related redemption of Bonds by giving a notice of rescission to the affected Registered Owners at any time on or prior to the scheduled redemption date. Any notice of redemption that is rescinded by the Director of Finance shall be of no effect, and the Bonds for which the notice of redemption has been rescinded shall remain outstanding.

Section 10. **Failure to Pay Bonds.** If any Bond is not paid when properly presented at its maturity or redemption date, the City shall be obligated to pay, solely from the sources pledged to that Bond in this ordinance, interest on that Bond at the same rate provided on that Bond from and after its maturity or redemption date until that Bond, principal (including redemption premium, if any) and interest, is paid in full or until sufficient money for its payment in full is on deposit in the Parity Bond Fund (if such Bond is a Parity

Bond) or the Junior Lien Debt Service Fund (if such Bond is a Junior Lien Bond) and that Bond has been called for payment by giving notice of that call to the Registered Owner of that Bond. The exercise of remedies of Owners of the Bonds are limited as set forth in Section 24.

Section 11. **Form and Execution of Bonds.** The Bonds shall be typed, printed or reproduced in a form consistent with the provisions of this ordinance and State law; shall be signed by the Mayor and Director of Finance, either or both of whose signatures may be manual or in facsimile; and the seal of the City or a facsimile reproduction thereof shall be impressed or printed thereon.

Only Bonds bearing a certificate of authentication in substantially the following form (with the designation, year, and Series adjusted consistent with this ordinance), manually signed by the Bond Registrar, shall be valid or obligatory for any purpose or entitled to the benefits of this ordinance: “This Bond is one of the fully registered The City of Seattle, Washington, Municipal Light and Power [Improvement] Revenue Bonds, [Year], [Series and/or Seniority, if applicable], described in [this ordinance].” Junior Lien Bonds shall also bear the words “Junior Lien” in their name in the foregoing certificate of authentication. The authorized signing of a certificate of authentication shall be conclusive evidence that the Bond so authenticated has been duly executed, authenticated, and delivered and is entitled to the benefits of this ordinance.

If any officer whose manual or facsimile signature appears on a Bond ceases to be an officer of the City authorized to sign bonds before the Bond bearing the officer’s manual or facsimile signature is authenticated or delivered by the Bond Registrar or issued by the City, that Bond nevertheless may be authenticated, delivered and issued and, when authenticated, issued and delivered, shall be as binding on the City as though that person had continued to be an officer of the City authorized to sign bonds. Any Bond also may be signed on behalf of the City by any person who, on the actual date of signing of the Bond, is an officer of the City authorized to sign bonds, although he or she did not hold the required office on the Issue Date of that Series of the Bonds.

Section 12. **Construction Account; Deposit of Proceeds.** The principal proceeds of the sale of each Series of the Bonds (other than amounts necessary to pay accrued interest (if any), to pay costs of issuance, and

to provide for the Reserve Fund Requirement with respect to a Series of Parity Bonds) shall be deposited into the Construction Account (or such other fund or account as may be directed by the Director of Finance) to be used for the purposes set forth in Section 3. Until needed for such purposes, the City may invest principal proceeds and interest thereon temporarily in any Permitted Investments, and the investment earnings may, as determined by the Director of Finance, be either (a) retained in the Construction Account to be spent for the purposes of that account, or (b) deposited into the Parity Bond Fund or Junior Lien Debt Service Fund, as applicable.

Section 13. **Security for the Bonds; Designation as Parity Bonds or Junior Lien Bonds.** The Bonds shall not constitute general obligations of the City, the State or any political subdivision of the State or a charge upon any general fund or upon any money or other property of the City, the State or any political subdivision of the State not specifically pledged by this ordinance.

(a) **Parity Bonds.** Each Series of the Bonds that is designated as Parity Bonds shall be a special limited obligation of the City payable from and secured solely by Gross Revenues available after payment of Operating and Maintenance Expense (“Net Revenue”) and by money in the Parity Bond Fund and the Reserve Fund. Net Revenue is pledged to make the payments into the Parity Bond Fund and the Reserve Fund required by Sections 14 and 15, which pledge shall constitute a lien and charge upon such Net Revenue prior and superior to all other charges whatsoever. Each Series of the Bonds designated as Parity Bonds shall be issued on parity with the Outstanding Parity Bonds and all Future Parity Bonds, without regard to date of issuance or authorization and without preference or priority of right or lien.

(b) **Junior Lien Bonds.** Each Series of the Bonds that is designated as Junior Lien Bonds shall be a special limited obligation of the City payable from and secured solely by Net Revenue and by money in the Junior Lien Debt Service Fund. Net Revenue is pledged to make the payments into the Junior Lien Debt Service Fund required by Sections 14 and 16, which pledge shall constitute a lien and charge upon such Net Revenue (i) subordinate only to the payments to be made (A) into the Parity Bond Fund in respect of the

principal of and interest on the Outstanding Parity Bonds and Parity Payment Agreements, (B) in respect of reimbursement obligations arising under Alternate Reserve Securities, and (C) in respect of obligations arising under Intermediate Lien Reimbursement Obligations, and (ii) prior and superior to all other charges whatsoever. Each Series of the Bonds designated as Junior Lien Bonds shall be issued on parity with the lien and charge of any then outstanding Junior Lien Bonds and all Future Junior Lien Bonds, without regard to date of issuance or authorization and without preference or priority of right or lien. Nothing in this ordinance prevents the City from issuing revenue bonds or other obligations which are a charge or lien upon Net Revenue subordinate to the payments required to be made into the Junior Lien Debt Service Fund and the Reserve Fund, and any subfund, account, or subaccount within the foregoing funds.

Section 14. **Priority Expenditure of Gross Revenues; Flow of Funds**. Gross Revenues shall be deposited as received in the Light Fund and used for the following purposes only, in the following order of priority:

- (a) To pay the Operating and Maintenance Expense of the Light System;
- (b) To make, when due, all payments into the Parity Bond Fund required to be made in order to pay the interest on and principal of all Parity Bonds, including all Parity Bond Sinking Fund Requirements, all net payments under Parity Payment Agreements, *and, from and after the Parity Covenant Date, to make all payments required to be made (if any) in respect of Parity Reimbursement Obligations;*
- (c) To make all payments required to be made (if any) into the Reserve Fund necessary to satisfy the Reserve Fund Requirement, to make all payments (if any) required to be made under Section 15(c)(i)(B) into a special account within the Light Fund for the replacement of an Alternate Reserve Security as to which the City has received a notice of cancellation, *and, from and after the Parity Covenant Date, to pay any reimbursement obligations under any Alternate Reserve Security;*
- (d) To make all payments required to be made (if any) in respect of Intermediate Lien Reimbursement Obligations;

(e) To make all payments into the Junior Lien Debt Service Fund required to be made in order to pay the interest on and principal of all Junior Lien Bonds, including all net payments under Junior Lien Payment Agreements and all Junior Lien Reimbursement Obligations, when due;

(f) To make all required payments into any revenue bond redemption fund created to pay and secure the payment of the principal of and interest on any revenue bonds or short-term obligations of the City having a charge and lien upon Net Revenue subordinate to the lien thereon for the payment of the principal of and interest on the Parity Bonds and the Junior Lien Bonds; and

(g) Without priority, for any of the following purposes: to retire by redemption or purchase any outstanding revenue bonds or revenue obligations of the Light System; to make necessary additions, betterments, repairs, extensions, and replacements of the Light System; to pay City taxes or other payments in lieu of taxes payable from Gross Revenues; to make deposits to the Rate Stabilization Account; or for any other lawful Light System purpose.

Section 15. **Parity Bond Fund; Reserve Fund.** The special funds of the City known as the Parity Bond Fund and the Reserve Fund have been previously created and shall be maintained as special funds for the sole purpose of paying the principal (including redemption premium, if any) of and interest on the Parity Bonds as the same shall become due. The Director of Finance may create subfunds, accounts, or subaccounts in the Parity Bond Fund and the Reserve Fund to pay or secure the payment of Parity Bonds as long as the maintenance of such subfunds, accounts, or subaccounts does not conflict with the rights of the owners of the Parity Bonds. Principal (including redemption premium, if any) of and interest on the Parity Bonds shall be payable solely out of the Parity Bond Fund.

(a) **Required Payments Into the Parity Bond Fund and Reserve Fund.** So long as any Parity Bonds (including any Parity Payment Agreements) are outstanding, the City shall set aside and pay out of Net Revenue certain fixed amounts, without regard to any fixed proportion, namely:

(i) Into the Parity Bond Fund, on or prior to the respective dates on which such payments

shall become due and payable, an amount sufficient, together with other money on deposit therein, to pay the interest (including net payments due on Parity Payment Agreements) on and principal (including any Sinking Fund Requirements) of the Parity Bonds as the same shall become due; and

(ii) Into the Reserve Fund, an amount necessary to provide for the Reserve Fund Requirement within the time and manner required by this ordinance and the Bond Sale Terms.

To meet the required payments to be made into the Parity Bond Fund and the Reserve Fund, the Director of Finance may transfer any money from any funds or accounts of the City legally available therefor, except bond redemption funds, refunding escrow funds, or defeasance funds. The Director of Finance may provide for the purchase, redemption or defeasance of any Parity Bonds by the use of money on deposit in any subfund, account, or subaccount in the Parity Bond Fund or Reserve Fund, so long as the money remaining in those subfunds, accounts, or subaccounts is sufficient to satisfy the required deposits with respect to the remaining Parity Bonds.

(b) **Parity Bond Fund.** The Parity Bond Fund has been previously created for the sole purpose of paying the principal of and interest on the Parity Bonds as the same shall become due. Each Series of the Bonds designated as Parity Bonds shall be payable (including principal, Sinking Fund Requirements, redemption premium (if any), and interest) out of the Parity Bond Fund. Money in the Parity Bond Fund shall, to the fullest extent practicable and reasonable, be invested and reinvested at the direction of the Director of Finance solely in, and obligations deposited in such accounts shall consist of, Permitted Investments. Earnings on money and investments in the Parity Bond Fund shall be deposited in and used for the purposes of that fund.

(c) **Reserve Fund.** The Reserve Fund has been previously created for the purpose of securing the payment of the principal of and interest on all Parity Bonds (including all net payments due under any Parity Payment Agreements, if any). Money held in the Reserve Fund shall, to the fullest extent practicable and reasonable, be invested and reinvested at the direction of the Director of Finance solely in, and obligations deposited in such accounts shall consist of, Permitted Investments. Earnings on money and investments in the

Reserve Fund shall be deposited in that fund and credited against amounts required to be deposited therein until the Reserve Fund is fully funded, and thereafter such earnings shall be deposited in the Parity Bond Fund.

(i) **Reserve Fund Requirement.** The Bond Sale Terms for each Series of the Bonds shall establish the amount (if any) to be added to the aggregate Reserve Fund Requirement for such Series, and the method for providing for such incremental addition to the Reserve Fund deposit, subject to the following:

(A) In connection with the issuance of Future Parity Bonds, the City shall provide the amounts required for deposit into the Reserve Fund (1) at one time on the Issue Date, or (2) in periodic deposits of Net Revenue (or any other legally available source of funds), so that by five years from the date of such Future Parity Bonds there will have been paid into the Reserve Fund an amount that, together with the money already on deposit therein, will be at least equal to the Reserve Fund Requirement for the Parity Bonds scheduled to be outstanding at the end of that five-year period.

(B) The City may obtain one or more Alternate Reserve Securities for specific amounts required to be paid into the Reserve Fund. The amount available to be drawn upon under each such Alternate Reserve Security shall be credited against the amounts needed to satisfy the Reserve Fund Requirement. In the event of receipt of any notice of cancellation of an Alternate Reserve Security, the City shall (and, in preparation for the expiration of any such Alternate Reserve Security in accordance with its terms, the City may) either: (1) obtain a substitute Alternate Reserve Security in the amount necessary to satisfy the Reserve Fund Requirement on the date any such cancellation (or expiration) becomes effective, or (2) create a special account in the Light Fund and deposit therein amounts necessary to replace the Alternate Reserve Security upon its expiration or cancellation. In the case of receipt of a notice of cancellation, such periodic deposits are to be made on or before the 25th day of each of the 60 calendar months succeeding receipt of such notice, in an amount equal to 1/60th of the amount necessary (together with other money and investments then on deposit in the Reserve Fund) to satisfy the expected Reserve Fund Requirement on the date such cancellation shall become effective, taking into account scheduled redemptions of Parity Bonds and

disregarding any incremental additional amounts that may become necessary due to the issuance of Future Parity Bonds subsequent to the date of such notice of cancellation. Such amounts shall be transferred from Net Revenue available in the Light Fund after making provision for the required payments into the Parity Bond Fund, in accordance with Section 14. Amounts on deposit in such special account are preliminarily earmarked for the replacement of such Alternate Reserve Security and shall not be available to pay debt service on Parity Bonds or for any other purpose of the City, and shall be transferred to the Reserve Fund on the effective date of any cancellation or expiration of the Alternate Reserve Security to make up the deficiency caused thereby. In the event that the Reserve Fund is completely depleted and all Alternate Reserve Securities have been fully drawn, the amounts in that special account may be withdrawn and treated as Gross Revenues available to be used in accordance with the flow of funds set forth in Section 14. If and when a substitute Alternate Reserve Security having a sufficient value or policy limit is obtained, amounts held in that special account may be transferred back to the Light Fund and treated as Gross Revenues available to be used in accordance with the flow of funds set forth in Section 14.

(C) If the amount on deposit in the Reserve Fund is less than the Reserve Fund Requirement (taking into account the five-year period referred to in paragraph (A) of this subsection), the City shall transfer to the Reserve Fund money in an amount sufficient to restore the Reserve Fund to the Reserve Fund Requirement within 12 months after the date of such deficiency. The City shall transfer such amount first from Net Revenue available in accordance with the priority of payment in Section 14, and only thereafter from money in any construction fund or account established with respect to any issue of Parity Bonds, first taking money from the unrestricted portion thereof, then taking money from the restricted portion thereof. If the amount in the Reserve Fund is greater than the Reserve Fund Requirement, then and only then may the City withdraw such excess from the Reserve Fund and deposit such excess in the Light Fund.

(ii) **Use of Reserve Fund to Refund Parity Bonds.** If any Parity Bonds are to be refunded, the money set aside in the Reserve Fund to secure the payment of such Parity Bonds may be used to retire such

Parity Bonds, or may be transferred to any reserve fund or account which may be created to secure the payment of any bonds issued to refund such Parity Bonds, as long as the money left remaining in the Reserve Fund is at least equal, together with all Alternate Reserve Securities, to the Reserve Fund Requirement.

(iii) **Use of Reserve Fund to Pay Debt Service.** If the money in the Parity Bond Fund is insufficient to meet maturing installments of either interest on or principal of and interest on the Parity Bonds (including net amounts payable under any Parity Payment Agreements), such deficiency shall be made up from the Reserve Fund by the withdrawal of money or proceeds of Alternate Reserve Securities, as the case may be. Any deficiency created in the Reserve Fund by reason of any such withdrawal or claim against an Alternate Reserve Security shall then be made up out of Net Revenue or out of any other legally available funds of the City.

(iv) **Withdrawals From Reserve Fund.** Money in the Reserve Fund may be withdrawn by the City for any lawful purpose as long as the aggregate of any money and Alternate Reserve Securities remaining on deposit in the Reserve Fund is at least equal to the Reserve Fund Requirement for the Parity Bonds then outstanding. The City reserves the right to substitute one or more Alternate Reserve Securities for money previously deposited in the Reserve Fund and to withdraw such excess to the extent described in the preceding sentence. Any withdrawals from subaccounts within the Reserve Fund shall be made on a *pro rata* basis, except when the terms of an Alternate Reserve Security require all cash and investments in the Reserve Fund to be withdrawn before any draw or claim is made on the Alternate Reserve Security, or unless the City receives an opinion of Bond Counsel to the effect that such *pro rata* withdrawal is not required to maintain the federal tax benefits (if any) of any then outstanding Parity Bonds issued as Tax-Exempt Bonds or Tax Credit Subsidy Bonds. If multiple Alternate Reserve Securities are on deposit in the Reserve Fund, draws on such Alternate Reserve Securities shall be made on a *pro rata* basis.

Section 16. **Junior Lien Debt Service Fund.**

(a) **Use of Fund.** The Junior Lien Debt Service Fund has previously been created for the sole

purpose of paying the principal (including redemption premium, if any) of and interest on the Junior Lien Bonds as the same shall become due. The Junior Lien Debt Service Fund shall consist of a Principal and Interest Account and such additional subfunds, accounts, or subaccounts as the Director of Finance may find it necessary or convenient to create in order to pay or secure the payment of Junior Lien Bonds, as long as the maintenance of such subfunds, accounts, or subaccounts does not conflict with the rights of the owners of the Junior Lien Bonds or the Parity Bonds.

Each Series of the Bonds designated as Junior Lien Bonds shall be payable (including principal, Sinking Fund Requirements, redemption premium (if any), and interest) out of the Junior Lien Debt Service Fund. Money in the Junior Lien Debt Service Fund shall, to the fullest extent practicable and reasonable, be invested and reinvested at the direction of the Director of Finance solely in, and obligations deposited in such accounts shall consist of, Permitted Investments. Earnings on money and investments in the Junior Lien Debt Service Fund shall be deposited in and used for the purposes of that fund.

(b) **Required Payments Into the Junior Lien Debt Service Fund.** So long as any Junior Lien Bonds (including any Junior Lien Payment Agreements) are outstanding, the City shall set aside and pay out of Net Revenue certain fixed amounts, without regard to any fixed proportion, namely, into the Principal and Interest Account of the Junior Lien Debt Service Fund, on or prior to the respective dates on which such payments shall become due and payable, an amount sufficient, together with other money on deposit therein, to pay the interest on and the principal of the Junior Lien Bonds, including net payments due on Junior Lien Payment Agreements and all payments under Junior Lien Reimbursement Obligations, as the same shall become due. To meet the required payments to be made into the Junior Lien Debt Service Fund, the Director of Finance may transfer any money from any funds or accounts of the City legally available therefor, except the Parity Bond Fund, the Reserve Fund, other bond redemption funds, refunding escrow funds, or defeasance funds. The Director of Finance may provide for the purchase, redemption or defeasance of any Junior Lien Bonds by the use of money on deposit in any subfund, account, or subaccount in the Junior Lien Debt Service

Fund, so long as the money remaining in those subfunds, accounts, or subaccounts is sufficient to satisfy the required deposits with respect to the remaining Junior Lien Bonds.

Section 17. **Bond Covenants.**

(a) **Parity Bond Covenants.** The City covenants with the Owner of each Bond that is designated as a Parity Bond, for so long as such Bond remains outstanding, as follows:

(i) **Sale or Disposition of the Light System.**

(A) The City may dispose of all or substantially all of the Light System only if the City simultaneously causes all of the Parity Bonds to be, or be deemed to be, no longer outstanding.

(B) Except as provided below, the City will not dispose of any part of the Light System in excess of 5% of the value of the net utility plant of the Light System in service unless prior to such disposition: (1) there has been filed with the Director of Finance a certificate of a Professional Utility Consultant stating that such disposition will not impair the ability of the City to comply with the rate covenant set forth in Section 17(a)(ii), in which the Professional Utility Consultant may make those assumptions permitted in delivering a Parity Certificate under Section 18(a); or (2) provision is made for the payment, redemption or other retirement of a principal amount of Parity Bonds equal to the greater of the following amounts: (I) an amount which will be in the same proportion to the net principal amount of Parity Bonds then outstanding (defined as the total principal amount of Parity Bonds then outstanding less the amount of cash and investments in the Parity Bond Fund) that Gross Revenues for the twelve preceding months attributable to the part of the Light System being sold or disposed of bears to the total Gross Revenues for such period; or (II) an amount which will be in the same proportion to the net principal amount of Parity Bonds then outstanding that the book value of the part of the Light System being sold or disposed of bears to the book value of the entire Light System immediately prior to such sale or disposition.

(C) Notwithstanding the foregoing, the City may dispose of any portion of the Light System that has become unserviceable, inadequate, obsolete, worn out or unfit to be used, or no longer

necessary for, material to, or useful in the operation of the Light System.

(D) If the ownership of all or part of the Light System is transferred from the City through the operation of law, the City shall reconstruct or replace the transferred portion using any proceeds of the transfer unless the City Council determines that such reconstruction or replacement is not in the best interests of the City and the Owners of the Parity Bonds, in which case any proceeds shall be used to purchase, defease, or redeem Parity Bonds prior to maturity.

(ii) **Rates and Charges.** The City will establish from time to time and maintain such rates for electric energy as will maintain the Light System in sound financial condition and provide sufficient revenues to pay all Operating and Maintenance Expense, to pay into the Parity Bond Fund the amounts that are required by this ordinance to be applied to the payment of the principal of and interest on the Parity Bonds until the Parity Bonds shall have been paid in full, and to pay all bonds, warrants, and indebtedness for which any revenues of the Light System shall have been pledged.

(iii) **Operation and Maintenance of the Light System.** The City will operate the properties of the Light System in an efficient manner and at a reasonable cost; will maintain, preserve and keep, or cause to be maintained, preserved and kept, the properties of the Light System and every part and parcel thereof in good repair, working order and condition; and from time to time will make or cause to be made all necessary and proper repairs, renewals and replacements thereto so that at all times the business carried on in connection therewith will be properly and advantageously conducted.

(iv) **Books and Financial Statements.** The City will keep and maintain proper books of account for the Light System in accordance with generally accepted accounting principles applicable to governmental utilities; will generally adhere to the uniform system of accounts prescribed by the State Auditor's Office and the Federal Energy Regulatory Commission (if any); and will prepare, on or before 120 days after the end of each calendar year, *and, upon the Second Parity Covenant Date, on or before 180 days after the end of each calendar year*, annual financial statements showing reasonable detail, including a balance

sheet, an income statement, and a statement of cash flows or other such statement. Copies of such financial statements shall be placed on file in the office of the Director of Finance and shall be open to inspection at any reasonable time by any owner of any Parity Bonds. A copy of such financial statements shall be sent to any owner of Parity Bonds upon request in writing setting forth the name and address to which such financial statements may be sent.

(b) **Junior Lien Bond Covenants.** The City covenants with the Owner of each Bond that is designated as a Junior Lien Bond, for so long as such Bond remains outstanding, as follows:

(i) **Sale or Disposition of the Light System.** The City may dispose of all or substantially all of the Light System only if the City simultaneously causes all of the Junior Lien Bonds to be, or be deemed to be, no longer outstanding. The City will not dispose of any part of the Light System in excess of 5% of the value of the net utility plant of the Light System in service except upon compliance with the covenant set forth in Section 17(a)(i)(B), above. Notwithstanding the foregoing, the City may dispose of any portion of the Light System that has become unserviceable, inadequate, obsolete, worn out or unfit to be used, or no longer necessary, material to, or useful in the operation of the Light System.

(ii) **Rates and Charges.** The City will establish from time to time and maintain such rates for electric energy as will maintain the Light System in sound financial condition and provide sufficient revenues to pay all Operating and Maintenance Expense; to pay into the Parity Bond Fund the amounts that are required by this ordinance to be applied to the payment of the principal of and interest on the Parity Bonds until the Parity Bonds shall have been paid in full; to pay into the Junior Lien Debt Service Fund the amounts that are required by this ordinance to be paid into such fund, in accordance with the priority of payment set forth in Section 14, until the Junior Lien Bonds (including Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations) shall have been paid in full; and to pay all other bonds, warrants, and indebtedness for which any revenues of the Light System shall have been pledged.

(iii) **Operation and Maintenance of the Light System.** The City will operate the properties

of the Light System in an efficient manner and at a reasonable cost; will maintain, preserve and keep, or cause to be maintained, preserved and kept, the properties of the Light System and every part and parcel thereof in good repair, working order and condition; and from time to time will make or cause to be made all necessary and proper repairs, renewals, and replacements thereto so that at all times the business carried on in connection therewith will be properly and advantageously conducted.

(iv) **Books and Financial Statements.** The City will keep and maintain proper books of account for the Light System in accordance with generally accepted accounting principles applicable to governmental utilities; will generally adhere to the uniform system of accounts prescribed by the State Auditor's Office and the Federal Energy Regulatory Commission (if any); and will prepare, on or before 180 days after the end of each calendar year, annual financial statements showing reasonable detail, including a balance sheet, an income statement, and a statement of cash flows or other such statement. Copies of such financial statements shall be placed on file in the office of the Director of Finance and shall be open to inspection at any reasonable time by any owner of any Junior Lien Bonds. A copy of such financial statements shall be sent to any owner of Junior Lien Bonds upon request in writing setting forth the name and address to which such financial statements may be sent.

Section 18. **Additional Bonds.**

(a) **Future Parity Bonds.** The City reserves the right to issue Future Parity Bonds (which term includes Parity Payment Agreements) for any lawful purpose of the City's Light System if the Parity Conditions are met and complied with as of the date of issuance of such Future Parity Bonds, or as of the effective date of the Parity Payment Agreement, as appropriate.

If the Parity Conditions are met and complied with, then payments into the Parity Bond Fund with respect to such Future Parity Bonds shall rank equally with the payments out of Net Revenue required to be made into the Parity Bond Fund by this ordinance. Nothing set forth herein shall prevent the City from (i) issuing revenue bonds or other obligations that are a charge upon Net Revenue junior and inferior to the

payments required to be made therefrom into the Parity Bond Fund for the payment of the Parity Bonds, provided that such subordinate bonds may not be subject to acceleration under any circumstances; or (ii) issuing Refunding Parity Bonds to refund maturing Parity Bonds of the City for the payment of which money is not otherwise available.

(i) **Parity Conditions.** The Parity Conditions are as follows:

(A) No deficiency may then exist in the Parity Bond Fund or in any of the accounts therein; and

(B) Provision must be made to satisfy the Reserve Fund Requirement for all Parity Bonds then outstanding plus any additional amount required in connection with the issuance and sale of the proposed Future Parity Bonds (if any) in accordance with Section 15(c); and

(C) There must be on file with the City a Parity Certificate as described in subsection (a)(ii), below. If the proposed Future Parity Bonds (or any portion thereof) are to be issued for the purpose of refunding outstanding Parity Bonds and the Annual Debt Service on the refunding portion of the proposed Future Parity Bonds is not more than \$5,000 greater than the Annual Debt Service on the Parity Bonds to be refunded thereby, then no Parity Certificate shall be required as to that portion issued for refunding purposes. If the requirements of the preceding sentence are not satisfied, Refunding Parity Bonds may alternatively be issued upon delivery of a Parity Certificate.

(ii) **Parity Certificate.** A Parity Certificate required by subsection (a)(i) may be provided by either the Director of Finance or by a Professional Utility Consultant, as follows:

(A) A Parity Certificate may be prepared by the Director of Finance, demonstrating that the amount of Adjusted Net Revenue in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed series of Future Parity Bonds (the “Base Period”) was not less than 125% of Maximum Annual Debt Service in any future calendar year on all Parity Bonds then outstanding and the proposed series of Future Parity Bonds. For the purposes of a Parity Certificate delivered under this

subsection (A), the Director of Finance shall reflect in his or her certificate any adjustment in the rates, fees, and charges for the services of the Light System that will become effective at any time prior to or within six months after the delivery of the proposed Future Parity Bonds, by including in the amount of Adjusted Net Revenue the amount that he or she estimates would have been collected in the Base Period if such new rates, fees, and charges had been in effect for the entire Base Period.

(B) A Parity Certificate may be prepared by a Professional Utility Consultant, demonstrating that the amount of Adjusted Net Revenue (which may be further adjusted as provided in paragraphs (1) through (5) below) in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed Series of Future Parity Bonds (the “Base Period”) is not less than 125% of the amount of Maximum Annual Debt Service on all Parity Bonds and the proposed series of Future Parity Bonds in any future calendar year on all Parity Bonds then outstanding and the proposed series of Parity Bonds. For the purposes of a certificate delivered under this subsection (a)(ii), Adjusted Net Revenue may be further adjusted by the Professional Utility Consultant using any or all of the following methods reflecting the conditions and requirements as may be appropriate to the circumstances:

(1) If the purpose for which the proposed Future Parity Bonds are being issued is to acquire operating electric utility properties having an earnings record, the Professional Utility Consultant shall estimate the effect on Adjusted Net Revenue for the Base Period of the acquisition of such electric utility properties and the integration thereof into the Light System, and shall further adjust Adjusted Net Revenue for the Base Period to give effect to such estimate. Any such estimate shall be based upon the operating experience and records of the City and upon any available financial statements and records relating to the earnings of such electric utility properties to be acquired.

(2) If any changes to rates, fees, or charges imposed by the City on sales of power, energy, or other services furnished by the Light System, which were not in effect during the entire Base Period, have been adopted by the City Council and are in effect on the date of sale of the proposed Future

Parity Bonds (or effective date of the proposed Parity Payment Agreement) or are to go into effect not later than 12 months after such date, the Professional Utility Consultant may, if such changes resulted in increases in such rates, fees, or charges, and shall, if such changes resulted in reductions in such rates, fees, or charges, further adjust Adjusted Net Revenue for the Base Period to reflect any change in such Adjusted Net Revenue that would have occurred if the changed rates, fees, or charges had been in effect during the entire Base Period.

(3) If the purpose for which the proposed Future Parity Bonds are being issued is to acquire or construct generation or transmission facilities required to furnish or make available to the Light System additional power and energy, or transmission facilities required to enable the City to sell additional power and energy, the Professional Utility Consultant may further adjust Adjusted Net Revenue for the Base Period by (I) deducting the amount of the estimated increase in Operating and Maintenance Expense resulting from the acquisition or construction of such facilities in their first year of full operation, (II) adding any additional revenues to be derived from the sale or transmission of such additional power and energy pursuant to executed power sales contracts, and (III) adding an amount equal to the estimated cost of the power and energy which would have been replaced or displaced by such facilities had such additional power and energy in excess of the power and energy to be sold pursuant to paragraph (2), above, been used in the Light System during the Base Period.

(4) If any customers were added to the Light System during the Base Period or thereafter (and prior to the date of the Professional Utility Consultant's certificate), Adjusted Net Revenue may be further adjusted as if such added customers were customers of the Light System during the entire Base Period.

(5) If extensions of or additions to the Light System (not described in paragraph (3) above) are in the process of construction on the date of the Professional Utility Consultant's certificate, or if the proceeds of the proposed Future Parity Bonds are to be used to acquire or construct extensions of or additions to the Light System (not described in paragraph (3) above), Adjusted Net Revenue

for the Base Period may be further adjusted by adding any additional revenues not included in the preceding paragraphs that will be derived from such additions and extensions, and deducting the estimated increase in Operating and Maintenance Expense resulting from such additions and extensions.

In rendering any Parity Certificate under this subsection (a)(ii)(B), the Professional Utility Consultant may rely upon the following documents, which shall be attached to the Parity Certificate: financial statements of the Light System, certified by the Director of Finance, showing income and expenses for the period upon which the same are based and a balance sheet as of the end of such period; financial statements certified by the Office of the State Auditor of the State (or any successor thereto); or financial statements certified by a certified public accountant for as much of such period as any examination by such accountant has been made and completed. If two or more of such statements are inconsistent with each other, the Professional Utility Consultant shall rely on the statements certified by the Director of Finance.

(b) **Future Junior Lien Bonds.** The City reserves the right to issue Future Junior Lien Bonds (which term includes Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations) for any lawful purpose of the City's Light System if the Junior Lien Additional Bonds Test is met and complied with as of the date of issuance of such Future Junior Lien Bonds, or as of the effective date of the Junior Lien Payment Agreement or Junior Lien Reimbursement Obligation, as appropriate.

If the Junior Lien Additional Bonds Test is met and complied with, then payments into the Junior Lien Debt Service Fund with respect to such Future Junior Lien Bonds shall rank equally with the payments out of Net Revenue required to be made into the Junior Lien Debt Service Fund by this ordinance. Nothing set forth herein shall prevent the City from (i) issuing revenue bonds or other obligations that are a charge upon Net Revenue junior and inferior to the payments required to be made therefrom into the Junior Lien Debt Service Fund for the payment of the Junior Lien Bonds, provided that such subordinate bonds may not be subject to acceleration under any circumstances; or (ii) issuing Refunding Junior Lien Bonds for the purpose of refunding outstanding Junior Lien Bonds to fund or refund maturing Junior Lien Bonds of the City for the payment of

which money is not otherwise available.

(i) **Junior Lien Additional Bonds Test.** The Junior Lien Additional Bonds Test is as follows:

(A) No deficiency may then exist in the Junior Lien Debt Service Fund or in any of the accounts therein; and

(B) No default may have occurred that is then continuing with respect to any then outstanding Parity Bonds or Junior Lien Bonds; and

(C) There must be on file with the City a Junior Lien Coverage Certificate as described in subsection (b)(ii), below. If the proposed Future Junior Lien Bonds (or any portion thereof) are to be issued for the purpose of refunding outstanding Junior Lien Bonds and the Annual Debt Service on the refunding portion of the proposed Future Junior Lien Bonds is not more than \$5,000 greater than the Annual Debt Service on the Junior Lien Bonds to be refunded thereby, then no Junior Lien Coverage Certificate shall be required as to that portion issued for refunding purposes. If the requirements of the preceding sentence are not satisfied, Refunding Junior Lien Bonds may alternatively be issued upon delivery of a Junior Lien Coverage Certificate.

(ii) **Junior Lien Coverage Certificate.** A Junior Lien Coverage Certificate required by subsection (b)(i) may be provided by either the Director of Finance or by a Professional Utility Consultant, as follows:

(A) A Junior Lien Coverage Certificate may be prepared by the Director of Finance, demonstrating that the amount of Adjusted Net Revenue in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed Series of Future Junior Lien Bonds (the “Base Period”) was not less than 115% of Maximum Annual Debt Service in any future calendar year on all Parity Bonds, Intermediate Lien Reimbursement Obligations (if any), and Junior Lien Bonds then outstanding plus the proposed Series of Future Junior Lien Bonds. For the purposes of a Junior Lien Coverage Certificate delivered

under this subsection (A), the Director of Finance shall reflect in his or her certificate any adjustment in the rates, fees, and charges for the services of the Light System that will become effective at any time prior to or within six months after the delivery of the proposed Future Junior Lien Bonds, by including in the amount of Adjusted Net Revenue the amount that he or she estimates would have been collected in the Base Period if such new rates, fees, and charges had been in effect for the entire Base Period.

(B) A Junior Lien Coverage Certificate may be prepared by a Professional Utility Consultant, demonstrating that the amount of Adjusted Net Revenue (which may be further adjusted as provided in subsection (a)(ii)(B)(1) through (5), above) in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed Series of Future Junior Lien Bonds (the “Base Period”) not less than 115% of Maximum Annual Debt Service in any future calendar year on all Parity Bonds and Junior Lien Bonds then outstanding plus the proposed Series of Future Junior Lien Bonds.

Section 19. **Rate Stabilization Account.** The City may at any time deposit in the Rate Stabilization Account Net Revenue and any other money received by the Light System and available to be used therefor. Thereafter, the City may withdraw any or all of the money from the Rate Stabilization Account for inclusion in Adjusted Net Revenue for any applicable year of the City. Such deposits or withdrawals may be made up to and including the date 90 days after the end of the applicable year for which the deposit or withdrawal will be included as Adjusted Net Revenue.

Section 20. **Refunding or Defeasance of Bonds.**

(a) **Bonds Designated as Refundable Bonds.** Each Series of the Bonds is hereby designated as a Series of “Refundable Bonds” for purposes of the Omnibus Refunding Ordinance.

(b) **Refunding; Defeasance.** The City may issue refunding bonds pursuant to the laws of the State or use money available from any other lawful source (i) to pay when due the principal (including redemption premium, if any) of and interest on any Bond, or any portion thereof, included in a refunding or defeasance plan (the “Defeased Bonds”); (ii) to redeem and retire, release, refund, or defease the Defeased Bonds; and (iii) to

pay the costs of such refunding or defeasance. If money and/or Government Obligations maturing at a time or times and in an amount sufficient (together with known earned income from the investment thereof) to redeem and retire, release, refund, or defease the Defeased Bonds in accordance with their terms is set aside in a special trust fund or escrow account irrevocably pledged to such redemption, retirement or defeasance (the “Trust Account”), then all right and interest of the Owners of the Defeased Bonds in the covenants of this ordinance and in Net Revenue and the funds and accounts pledged to the payment of such Defeased Bonds, other than the right to receive the funds so set aside and pledged, thereafter shall cease and become void. Such Owners thereafter shall have the right to receive payment of the principal or redemption price of and interest on the Defeased Bonds from the Trust Account. After establishing and fully funding such a Trust Account, the Defeased Bonds shall be deemed no longer outstanding and the Director of Finance may then apply any money in any other fund or account established for the payment or redemption of the Defeased Bonds to any lawful purpose.

(c) **Notice of Defeasance or Refunding.** Unless otherwise specified in the applicable Bond Documents, notice of refunding or defeasance shall be given, and selection of Bonds for any partial refunding or defeasance shall be conducted, in the manner set forth in this ordinance for the redemption of Bonds.

(d) **Annual Debt Service Calculation Adjustments for Defeased Bonds.** If the refunding or defeasance plan provides (i) that the Defeased Bonds (or the refunding bonds issued to redeem those Defeased Bonds) are to be secured by money and/or Government Obligations pending the redemption of the Defeased Bonds, and (ii) that certain money and/or Government Obligations are pledged irrevocably for the redemption of the Defeased Bonds, then only the debt service on such Bonds as are not Defeased Bonds (and any refunding bonds, the payment of which is not so secured by the refunding plan) shall be included in the calculation of Annual Debt Service.

Section 21. **Federal Tax Matters.** The Bond Documents may include such additional terms and covenants relating to federal tax matters as the Director of Finance deems necessary or appropriate, including

the following:

(a) **Tax-Exempt Bonds.** For each Series of the Bonds issued as Tax-Exempt Bonds, the City covenants that it will take all actions, consistent with the terms of such Series as set forth in this ordinance and the applicable Bond Documents, that are reasonably within its power and necessary to prevent interest on that Series from being included in gross income for federal income tax purposes. The City further covenants that it will neither take any action nor make or permit any use of gross proceeds of that Series (or other funds of the City treated as gross proceeds of that Series) at any time during the term of such Series that will cause interest on such Series to be included in gross income for federal income tax purposes. The City also covenants that, to the extent the arbitrage rebate requirement of Section 148 of the Code is applicable to any Series issued as Tax-Exempt Bonds, it will take all actions necessary to comply (or to be treated as having complied) with that requirement in connection with that Series (including the calculation and payment of any penalties that the City may elect to pay as an alternative to calculating rebatable arbitrage and the payment of any other penalties if required under Section 148 of the Code) to prevent interest on such Series from being included in gross income for federal income tax purposes.

(b) **Taxable Bonds; Tax Credit Subsidy Bonds.** For each Series of the Bonds issued as Taxable Bonds or as Tax Credit Subsidy Bonds, the Director of Finance is authorized to make provision in the Bonds and other Bond Documents, to execute additional written agreements, and to make additional covenants on behalf of the City, all as he or she may deem necessary or appropriate in order to obtain, maintain, and administer such tax status. In the case of Tax Credit Subsidy Bonds, such additional covenants and agreement may include (without limiting the generality of the foregoing) those necessary in order for the City (i) to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of such Tax Credit Subsidy Bonds, and (ii) to ensure that such Series otherwise becomes and remains eligible for tax benefits under the Code.

Section 22. **Official Statement; Continuing Disclosure.**

(a) **Preliminary Official Statement.** The Director of Finance and other appropriate City officials are directed to cause the preparation of and review the form of a preliminary official statement in connection with each sale of one or more Series to the public. For the sole purpose of the Purchaser's compliance with paragraph (b)(1) of Rule 15c2-12, the Director of Finance is authorized to deem that preliminary official statement final as of its date, except for the omission of information permitted to be omitted by Rule 15c2-12. The City approves the distribution to potential purchasers of the Bonds of a preliminary official statement that has been deemed final in accordance with this subsection.

(b) **Final Official Statement.** The City approves the preparation of a final official statement for each sale of one or more Series to be sold to the public in the form of the preliminary official statement, with such additions, modifications and amendments as the Director of Finance deems necessary or desirable, and further authorizes the Director of Finance to execute and deliver such final official statement to the Purchaser. The City authorizes and approves the distribution by the Purchaser of that final official statement to purchasers and potential purchasers of the Bonds.

(c) **Undertaking to Provide Continuing Disclosure.** To meet the requirements of paragraph (b)(5) of Rule 15c2-12, as applicable to a participating underwriter for a Series of the Bonds, the Director of Finance is authorized to execute a written Continuing Disclosure Agreement with respect to that Series, in substantially the form attached as Exhibit B.

Section 23. **Supplemental or Amendatory Bond Documents.** This ordinance and the other applicable Bond Documents for any Series of the Bonds may not be supplemented or amended in any respect subsequent to the Issue Date of such Series, except in accordance with and subject to the provisions of this section.

(a) **Amendments Without Bond Owners' Consent.** From time to time and at any time, without the consent of or notice to the owners of any Parity Bonds or Junior Lien Bonds, the City may supplement or amend the Bond Documents applicable to any Series of the Bonds for any of the purposes set forth in this

subsection (a). Any such supplement or amendment may be passed, adopted, or otherwise approved in writing by the City, without requiring the consent of the registered owners of any Parity Bonds or Junior Lien Bonds, but may become effective only upon receipt by the City of an opinion of Bond Counsel to the effect that such supplement or amendment is permitted by the terms of this ordinance. The City shall deliver a copy of any such supplement or amendment to each Rating Agency prior to its passage, adoption, or approval (as applicable) by the City. The types of supplements and amendments permitted under this subsection (a) are as follows:

(i) To add to any Parity Bond Documents (or to any Junior Lien Bond Documents, as applicable) additional covenants and agreements that do not adversely affect the interests of the owners of any Parity Bonds (or, as to Junior Lien Bond Documents, the interests of the owners of any Junior Lien Bonds) then outstanding, or to surrender any right or power reserved to or conferred upon the City in any Bond Documents.

(ii) To cure any ambiguities or to cure, correct, or supplement any defective provision in any Bond Documents, in regard to matters or questions arising under such Bond Documents, as the City may deem necessary or desirable and not inconsistent with this ordinance, and which do not materially adversely affect the interests of the owners of any Parity Bonds or Junior Lien Bonds then outstanding.

(iii) To make such changes as may be necessary to permit the Bonds to be held in registered certificate form or in Book-Entry Form, as the case may be, and to make similar amendments or modifications of a technical nature.

(b) **Amendments Permitted Upon Bond Owners' Consent.**

(i) **Parity Bond Documents.** With the consent of the registered owners representing not less than 60% in aggregate principal amount of the Parity Bonds then outstanding, the City may pass, adopt, or otherwise provide its written approval of any supplement or amendment to add to, change, or eliminate any provision of the Bond Documents applicable to a Series of the Bonds designated as Parity Bonds in any manner other than a supplement or amendment effecting a change described in subsection (c)(i).

(ii) **Junior Lien Bond Documents.** With the consent of the registered owners representing

not less than 60% in aggregate principal amount of the Junior Lien Bonds then outstanding, the City may pass, adopt, or otherwise approve in writing any supplement or amendment to add to, change, or eliminate any provision of the Bond Documents applicable to a Series of the Bonds designated as Junior Lien Bonds in any manner other than a supplement or amendment effecting a change described in subsection (c)(ii).

(c) Amendments Prohibited Except Upon Unanimous Consent.

(i) Amendments to Parity Bond Documents. Nothing contained in this section shall permit or be construed as permitting an amendment or supplement that would:

(A) Except upon consent from the registered owners of or on behalf of all Parity Bonds so affected, extend the fixed maturity of any Parity Bond, reduce the rate of interest on any Parity Bond (other than a change in interest rate permitted under the applicable Parity Bond Documents then in effect), extend the times of payment of interest from their respective due dates, reduce the principal amount of any Parity Bond, or reduce any redemption premium; or

(B) Except upon consent from the registered owners of or on behalf of all of the Parity Bonds then outstanding, reduce the percentage of ownership required under subsection (b)(i), above, to approve any supplement or amendment.

(ii) Amendments to Junior Lien Bond Documents. Nothing contained in this section shall permit or be construed as permitting an amendment or supplement that would:

(A) Except upon consent from the registered owners of or on behalf of all Junior Lien Bonds so affected, extend the fixed maturity of any Junior Lien Bond, reduce the rate of interest on any Junior Lien Bond (other than a change in interest rate permitted under the applicable Junior Lien Bond Documents then in effect), extend the times of payment of interest from their respective due dates, reduce the principal amount of any Junior Lien Bond, or reduce any redemption premium; or

(B) Except upon consent from the registered owners of or on behalf of all of the Junior Lien Bonds then outstanding, reduce the percentage of ownership required under subsection (b)(ii),

above, to approve any supplement or amendment.

(d) **Notice and Consents.** If at any time the City passes, adopts, or otherwise approves in writing a supplement or amendment for any of the purposes requiring consent under subsection (b) or (c) of this section, it shall provide a notice to each registered owner and to each Rating Agency briefly summarizing the nature of the proposed supplement or amendment and stating that a copy of such supplement or amendment is on file at the office of the City Clerk. It shall not be necessary to obtain consent to or approval of the particular form of any proposed supplement or amendment, but it shall be sufficient if the consent shall approve the substance thereof. For purposes of determining whether consents representing the requisite percentage of principal amount of Parity Bonds or Junior Lien Bonds have been obtained, the Accreted Value of Capital Appreciation Bonds shall be deemed to be the principal amount.

(e) **Effect of Amendment or Supplement.** Upon the effective date of any amendment or supplement to any Bond Documents, such Bond Documents shall be deemed to be amended and modified in accordance with such amendment or supplement. Thereafter, the respective rights, duties, and obligations of the City under the applicable Bond Documents shall be determined, exercised, and enforced subject in all respects to such supplement or amendments, and all the terms and conditions of any such supplement or amendment shall be deemed to be a part of the terms and conditions of those Bond Documents for any and all purposes. The effective dates of such amendments and supplements shall be as follows:

(i) An amendment and supplement permitted under subsection (a) shall become effective immediately upon (A) the passage, adoption, or other approval of such amendment or supplement (or upon the effective date of such document as stated therein, if any), and (B) the delivery of the required opinion of Bond Counsel stating that such amendment or supplement is permitted under this ordinance.

(ii) A supplement or amendment permitted under subsection (b) or (c) shall become effective on the date on which the City has received the written consents of the requisite percentage of registered owners. If the requisite percentage of registered owners of Parity Bonds or Junior Lien Bonds, as applicable, have given

their consent to any such amendment or supplement, no owner of any Bond shall have any right (i) to object to the passage, adoption, or approval of such supplement or amendment, (ii) to object to any of the terms and provisions contained therein or the operation thereof, (iii) in any manner to question the propriety of the passage, adoption, or approval thereof, (iv) to enjoin or restrain the City, or any authorized official thereof, from passing, adopting, or otherwise approving the same, or (v) to enjoin or restrain the City, any authorized official thereof, or the Bond Registrar from taking any action pursuant to the provisions thereof.

(f) **Notation on Bonds.** Any Bonds executed and delivered after the effective date of any amendment or supplement that is passed, adopted, or otherwise approved in writing pursuant to this section may include a notation as to any matter provided for in such amendment or supplement. The City may, in its discretion, prepare and deliver replacement bonds, modified to reflect any such amendment or supplement, to the registered owner(s) thereof upon surrender of the original bonds for cancellation.

Section 24. **Defaults and Remedies.**

(a) **Parity Bond Events of Default.** Each of the following shall constitute an Event of Default with respect to the Bonds designated as Parity Bonds, except as set forth in subsection (c) of this section:

(i) If a default is made in the payment of the principal (including Sinking Fund Requirements and any redemption premium thereon, if any) of or interest on any Parity Bond when the same shall become due and payable; or

(ii) If the City defaults in the observance and performance of any other of the Parity Bond covenants, conditions, or agreements on the part of the City set forth in this ordinance or the applicable Parity Bond Documents (except as otherwise provided herein or in such Parity Bond Documents) and such default or defaults shall have continued for a period of six months (the “cure period”) after the City shall have received from the registered owners of not less than 25% in principal amount of the Parity Bonds then outstanding (or from a Bond Owners’ Trustee duly appointed as set forth in subsection (e), below) a written notice specifying and demanding the cure of such default. However, if such default is one that cannot be completely remedied

within the cure period, it shall not be an Event of Default with respect to the Parity Bonds, so long as the City has taken active steps within the cure period to remedy the default and is diligently pursuing such remedy.

(b) **Junior Lien Bond Events of Default.** Each of the following shall constitute an Event of Default with respect to the Bonds designated as Junior Lien Bonds, except as set forth in subsection (c) of this section:

(i) If a default is made in the payment of the principal (including Sinking Fund Requirements and any redemption premium thereon, if any) of or interest on any Junior Lien Bond when the same shall become due and payable; or

(ii) If the City defaults in the observance and performance of any other of the Junior Lien Bond covenants, conditions, or agreements on the part of the City set forth in this ordinance or the applicable Junior Lien Bond Documents (except as otherwise provided herein or in such Junior Lien Bond Documents) and such default or defaults shall have continued for a period of six months (the “cure period”) after the City shall have received from the registered owners of not less than 25% in principal amount of the Junior Lien Bonds then outstanding (or from a Bond Owners’ Trustee duly appointed as set forth in subsection (e), below) a written notice specifying and demanding the cure of such default. However, if such default is one which cannot be completely remedied within the cure period, it shall not be an Event of Default with respect to the Bonds as long as the City has taken active steps within the cure period to remedy the default and is diligently pursuing such remedy.

(c) **Exceptions.** Notwithstanding anything in this section to the contrary, the failure of the City or any obligated person to comply with a Continuing Disclosure Agreement shall not constitute an Event of Default, and the sole remedy of any holder of any Parity Bond or Junior Lien Bond, as applicable, shall be to seek an order of specific performance from an appropriate court to compel the City to comply with the Continuing Disclosure Agreement. For purposes of determining whether an Event of Default has occurred and is continuing with respect to the rate covenant set forth in Section 17(a)(ii) or (b)(ii), if such covenant is met for

any fiscal year, it shall be deemed to have been met for all prior fiscal years.

(d) **Remedies; No Acceleration.** In the case of a Parity Bond Event of Default, an owner of a Parity Bond shall have the remedies set forth in Section 10 and in the applicable Parity Bond Documents. *Upon the Second Parity Covenant Date, the rights and remedies of the owners from time to time of Parity Bonds shall be limited by subsection (e), below.* In the case of a Junior Lien Bond Event of Default, the owner of a Junior Lien Bond shall have the remedies set forth in Section 10 and in the applicable Junior Lien Bond Documents, as limited by subsection (e), below. Nothing contained in this ordinance shall, in any event or under any circumstance, be deemed to authorize the acceleration of the maturity of principal on the Bonds, and the remedy of acceleration is expressly denied to the registered owners of the Bonds under any circumstances including, without limitation, upon the occurrence and continuance of an Event of Default.

(e) **Bond Owners' Trustee.** *The provisions of this subsection shall become effective with respect to Parity Bonds only upon the Second Parity Covenant Date.* The provisions of this subsection shall become effective immediately with respect to Bonds issued as Junior Lien Bonds. A Bond Owners' Trustee appointed in the manner provided in this section, and each successor thereto, is declared to be a trustee for all of the owners of the Parity Bonds (in the case of a Parity Bond Event of Default) or the owners of the Junior Lien Bonds (in the case of a Junior Lien Bond Event of Default), as applicable, and is empowered to exercise all the rights and powers herein conferred on the Bond Owners' Trustee.

(i) **Appointment of Bond Owners' Trustee; Removal.** Upon the occurrence and continuance of an Event of Default described in subsection (a) of this section, the registered owners of 25% in principal amount of the then outstanding Parity Bonds (or upon the occurrence and continuance of an Event of Default described in subsection (b) of this section, the registered owners of 25% in principal amount of the then outstanding Junior Lien Bonds, if such default is one described in subsection (b) of this section) may appoint a Bond Owners' Trustee by an instrument or concurrent instruments in writing signed by such registered owners (or by their duly authorized attorneys-in-fact) and delivered to such Bond Owners' Trustee, with notification of

such appointment given to the City. That appointment shall become effective immediately upon acceptance thereof by the Bond Owners' Trustee. The entity acting as Bond Owners' Trustee may be removed at any time, and a successor Bond Owners' Trustee may be appointed, by the registered owners of more than 50% in principal amount of the Parity Bonds (in the case of a Parity Bond Event of Default) or 50% in principal amount of the Junior Lien Bonds (in the case of a Junior Lien Bond Event of Default), as applicable, by an instrument or concurrent instruments in writing signed and acknowledged by such registered owners or by their duly authorized attorneys-in-fact.

(ii) **Cure of Event of Default.** If the Bond Owners' Trustee furnishes to the City a certificate stating that, in its sole judgment, an Event of Default that has occurred has been cured, such Event of Default shall be conclusively deemed to be cured, and the City, the Bond Owners' Trustee, and the registered owners of the Parity Bonds or Junior Lien Bonds, as applicable, shall be restored to the same rights and position which they would have held if no Event of Default had occurred.

(iii) **Suits at Law or in Equity.** Upon the occurrence of an Event of Default and during the continuance thereof, the Bond Owners' Trustee in its discretion may (and, upon the written request of the registered owners of not less than 25% in principal amount of the Parity Bonds (or Junior Lien Bonds, as applicable) then outstanding, shall) take such steps and institute such suits, actions, or other proceedings, all as it may deem appropriate for the protection and enforcement of the rights of the registered owners of the Parity Bonds (or Junior Lien Bonds, as applicable), to collect any amounts due and owing to or from the City, or to obtain other appropriate relief, and may enforce the specific performance of any covenant, agreement or condition contained in this ordinance or set forth in any of the applicable Bond Documents.

Any action, suit or other proceedings instituted by the Bond Owners' Trustee hereunder shall be brought in its name as the Bond Owners' Trustee and all such rights of action upon or under any of the Parity Bonds or the provisions of this ordinance may be enforced by the Bond Owners' Trustee without the possession of any of those Parity Bonds and without the production of the same at any trial or proceedings relative thereto except

where otherwise required by law.

(iv) **Effect of Appointment of Bond Owners' Trustee.** Any suit, action, or proceeding instituted by the Bond Owners' Trustee shall be brought for the ratable benefit of all of the owners of the Parity Bonds (or Junior Lien Bonds, as applicable), subject to the provisions of this ordinance. The respective owners, by taking and holding the same, shall be conclusively deemed irrevocably to appoint the Bond Owners' Trustee the true and lawful trustee of the respective owners, with authority to institute any such action, suit or proceeding; to receive as trustee and deposit in trust any sums becoming distributable on account of those Parity Bonds; to execute any paper or documents for the receipt of money; and to do all acts with respect thereto that the owner himself or herself might have done in person. Nothing herein shall be deemed to authorize or empower the Bond Owners' Trustee to consent to accept or adopt, on behalf of any owner of the Parity Bonds, any plan of reorganization or adjustment affecting the Parity Bonds (or Junior Lien Bonds, as applicable) or any right of any registered owner thereof, or to authorize or empower the Bond Owners' Trustee to vote the claims of the registered owners thereof in any receivership, insolvency, liquidation, bankruptcy, reorganization or other proceeding to which the City is a party.

(v) **Bond Owners' Direction of Proceedings.** By an instrument or concurrent instruments in writing executed and delivered to the Bond Owners' Trustee, the owners of more than 50% in aggregate principal amount of the Parity Bonds (or Junior Lien Bonds, as applicable) then outstanding shall be entitled to control and direct the enforcement of all rights and remedies granted to the owners (or the Bond Owners' Trustee for the benefit of the owners) under the applicable Parity Bond Documents. Notwithstanding the foregoing, the Bond Owners' Trustee shall have the right to decline to follow any such direction which in the opinion of the Bond Owners' Trustee, in reasonable reliance on advice of counsel, would be unjustly prejudicial to owners not parties to such direction.

(vi) **Limitation on Remedies; Limitations on Individual Actions.** It is understood and intended that no owner of a Parity Bond, in the case of a Parity Bond Event of Default (or owner of a Junior

Lien Bond, in the case of a Junior Lien Bond Event of Default) shall have any right in any manner whatever by its action to affect, disturb, or prejudice the security pledged in this ordinance or the rights of any other owners, or to enforce any right under the applicable Bond Documents or applicable law except in the manner provided in this section, and that all proceedings at law or in equity to enforce any such right shall be instituted, had, and maintained in the manner herein provided and for the equal and ratable benefit and protection of all owners of the Parity Bonds (or Junior Lien Bonds, as applicable), subject to the provisions of this ordinance.

(vii) **Limitations on Individual Actions.** No owner of a Parity Bond (or Junior Lien Bond, as applicable) shall have any right to institute any action, suit or proceeding at law or in equity for the enforcement of same unless (A) such owner previously shall have given to the Bond Owners' Trustee written notice of the occurrence of an Event of Default; (B) the owners of more than 50% in aggregate principal amount of the then outstanding Parity Bonds (in the case of a Parity Bond Event of Default) or 50% in aggregate principal amount of the then outstanding Junior Lien Bonds (in the case of a Junior Lien Bond Event of Default) shall have made a written request to the Bond Owners' Trustee to exercise the powers granted above or to institute such suit, action, or proceeding in its own name; (C) such owners shall have tendered to the Bond Owners' Trustee reasonable indemnity against the costs, expenses and liabilities to be incurred in compliance with such request; and (D) the Bond Owners' Trustee shall have refused or omitted to comply with such request for a period of 60 days after such written request shall have been received by, and said tender of indemnity shall have been made to, the Bond Owners' Trustee. The conditions set forth in (A) through (D) in the preceding sentence are hereby declared to be conditions precedent to the exercise by any owner of a Parity Bond (in the case of a Parity Bond Event of Default) or owner of a Junior Lien Bond (in the case of a Junior Lien Bond Event of Default) of any remedy under the applicable Bond Documents or under applicable law.

(viii) **Duties and Obligations of Bond Owners' Trustee.** The Bond Owners' Trustee shall not be liable except for the performance of such duties as are specifically set forth herein. During any period in which an Event of Default has occurred and is continuing as to the Parity Bonds (or the Junior Lien Bonds, as

applicable) the Bond Owners' Trustee shall exercise such of the rights and powers vested in it hereby, and shall use the same degree of care and skill in its exercise, as a prudent person would exercise or use under the circumstances in the conduct of his or her own affairs. The Bond Owners' Trustee shall have no liability for any act or omission to act hereunder except for the Bond Owners' Trustee's own negligent action, its own negligent failure to act or its own willful misconduct. The duties and obligations of the Bond Owners' Trustee shall be determined solely by the express provisions of this ordinance, and no implied powers, duties or obligations of the Bond Owners' Trustee shall be read into this ordinance. The Bond Owners' Trustee shall not be required to expend or risk its own funds or otherwise incur individual liability in the performance of any of its duties or in the exercise of any of its rights or powers as the Bond Owners' Trustee, except as may result from its own negligent action, its own negligent failure to act or its own willful misconduct. The fees and expenses of the Bond Owners' Trustee shall be borne by the owners of the Parity Bonds (or Junior Lien Bonds, as applicable) and not by the City. A Bond Owners' Trustee may require such security and indemnity as may be reasonable against the costs, expenses and liabilities that may be incurred in the performance of its duties. The Bond Owners' Trustee shall not be bound to recognize any person as a registered owner of any Parity Bond (or Junior Lien Bond, as applicable) until his or her title thereto, if disputed, has been established to its reasonable satisfaction. The Bond Owners' Trustee may consult with counsel, and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it hereunder in good faith and in accordance with the opinion of such counsel. The Bond Owners' Trustee shall not be answerable for any neglect or default of any person, firm or corporation employed and selected by it with reasonable care.

Section 25. **General Authorization.** In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance and each of the other appropriate officers of the City are each authorized and directed to do everything as in his or her judgment may be necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance. In particular and without limiting the foregoing:

(a) The Director of Finance, in his or her discretion and without further action by the City Council, (i) may issue requests for proposals to provide underwriting services or financing facilities (including, without limitation, Qualified Insurance, a Qualified Letter of Credit, or other credit support or liquidity facility) and may execute engagement letters and other agreements with underwriters and other financial institutions (including providers of liquidity or credit support) based on responses to such requests; (ii) may select and make decisions regarding the Bond Registrar, fiscal or paying agents, and any Securities Depository for each Series of the Bonds; (iii) may take any and all actions necessary or convenient to provide for the conversion of interest rate modes for any Series in accordance with the applicable Bond Documents; and (iv) may take such actions on behalf of the City as are necessary or appropriate for the City to designate, qualify, or maintain the tax-exempt treatment with respect to any Series issued as Tax-Exempt Bonds, to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of any Series issued as Tax Credit Subsidy Bonds, and to otherwise receive any other federal tax benefits relating to any Series of the Bonds that are available to the City; and

(b) Each of the Mayor and the Director of Finance are each separately authorized to execute and deliver (i) any and all contracts or other documents as are consistent with this ordinance and for which the City's approval is necessary or to which the City is a party (including but not limited to agreements with escrow agents, refunding or defeasance trustees, liquidity or credit support providers, providers of Qualified Insurance or Alternate Reserve Securities, remarketing agents, underwriters, lenders or other financial institutions, fiscal or paying agents, Qualified Counterparties, custodians, and the Bond Registrar); and (ii) such other contracts or documents incidental to the issuance and sale of any Series of the Bonds; the establishment of the interest rate or rates on a Bond; or the conversion, tender, purchase, remarketing, or redemption of a Bond, as may in the judgment of the Mayor or Director of Finance, as applicable, be necessary or appropriate.

Section 26. **Severability**. The provisions of this ordinance are declared to be separate and severable. If a court of competent jurisdiction, all appeals having been exhausted or all appeal periods having run, finds

any provision of this ordinance to be invalid or unenforceable as to any person or circumstance, such offending provision shall, if feasible, be deemed to be modified to be within the limits of enforceability or validity. However, if the offending provision cannot be so modified, it shall be null and void with respect to the particular person or circumstance, and all other provisions of this ordinance in all other respects, and the offending provision with respect to all other persons and all other circumstances, shall remain valid and enforceable.

Section 27. **Ratification of Prior Acts**. Any action taken consistent with the authority of this ordinance after its passage but prior to its effective date is ratified, approved and confirmed.

Section 28. **Section Headings**. Section headings in this ordinance are used for convenience only and shall not constitute a substantive portion of this ordinance.

Section 29. **Effective Date**. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2020.

EXHIBIT B

FORM OF CONTINUING DISCLOSURE AGREEMENT

The City of Seattle, Washington (the “City”) makes the following written undertaking (the “Undertaking”) for the benefit of the Owners of the City’s Municipal Light and Power Revenue Bonds, [Year] [Series] (the “Bonds”), for the sole purpose of assisting the underwriter for the Bonds in meeting the requirements of paragraph (b)(5) of Rule 15c2-12 (the “Rule”), as applicable to a participating underwriter for the Bonds. Capitalized terms used but not defined below shall have the meanings given in Ordinance _____ (the “Bond Ordinance”).

(a) Undertaking to Provide Annual Financial Information and Notice of Listed Events.

The City undertakes to provide or cause to be provided, either directly or through a designated agent, to the Municipal Securities Rulemaking Board (the “MSRB”), in an electronic format as prescribed by the MSRB, accompanied by identifying information as prescribed by the MSRB:

(i) Annual financial information and operating data regarding the Municipal Light and Power System (the “Light System”) of the type included in the final official statement for the Bonds and described in subsection (b) of this section (“annual financial information”). The timely filing of unaudited financial statements shall satisfy the requirements and filing deadlines pertaining to the filing of annual financial statements under subsection (b), provided that audited financial statements are to be filed if and when they are otherwise prepared and available to the City.

(ii) Timely notice (not in excess of 10 business days after the occurrence of the event) of the occurrence of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notice of Proposed Issue (IRS Form 5701 – TEB) or other material notices

1 or determinations with respect to the tax status of the Bonds, or other material events affecting the tax
2 status of the Bonds; (7) modifications to rights of holders of the Bonds, if material; (8) Bond calls
3 (other than scheduled mandatory redemptions of Term Bonds), if material, and tender offers;
4 (9) defeasances; (10) release, substitution, or sale of property securing repayment of the Bonds, if
5 material; (11) rating changes; (12) bankruptcy, insolvency, receivership or similar event of the City, as
6 such “Bankruptcy Events” are defined in the Rule; (13) the consummation of a merger, consolidation,
7 or acquisition involving the City or the sale of all or substantially all of the assets of the City other than
8 in the ordinary course of business, the entry into a definitive agreement to undertake such an action or
9 the termination of a definitive agreement relating to any such actions, other than pursuant to its terms,
10 if material; (14) appointment of a successor or additional trustee or the change of name of a trustee, if
11 material; (15) incurrence of a financial obligation of the City, if material, or agreement to covenants,
12 events of default, remedies, priority rights, or other similar terms of a financial obligation of the City,
13 any of which affect holders of the Bonds, if material; and (16) any default, event of acceleration,
14 termination event, modification of terms, or other similar event under the terms of a financial obligation
15 of the City, any of which reflect financial difficulties.

16 For purposes of this Undertaking, the term “financial obligation” shall mean a debt
17 obligation; derivative instrument entered into in connection with, or pledged as security or a source of
18 payment for, an existing or planned debt obligation; or a guarantee of either a debt obligation or a
19 derivative instrument entered into in connection with, or pledged as security or a source of payment
20 for, an existing or planned debt obligation. The term “financial obligation” does not include municipal
21 securities as to which a final official statement has been provided to the MSRB consistent with the
22 Rule.

23 (iii) Timely notice of a failure by the City to provide required annual financial
24 information on or before the date specified in subsection (b) of this section.

1 (b) Type of Annual Financial Information Undertaken to be Provided. The annual
2 financial information and operating data that the City undertakes to provide in subsection (a) of this
3 section:

4 (i) Shall consist of (1) annual financial statements of the Light System prepared in
5 accordance with applicable generally accepted accounting principles applicable to governmental units
6 (except as otherwise noted therein), as such principles may be changed from time to time and as
7 permitted by applicable state law; (2) a statement of outstanding Parity Bonds, Junior Lien Bonds (if
8 any), and any other bonded indebtedness secured by Net Revenue of the Light System; (3) debt service
9 coverage ratios for the then-Outstanding Parity Bonds, Junior Lien Bonds (if any) and any other bonded
10 indebtedness secured by Net Revenue of the Light System; (4) sources of Light System power and the
11 MWh produced by those sources; and (5) the average number of customers, revenues, and energy sales
12 by customer class;

13 (ii) Shall be provided not later than the last day of the ninth month after the end of
14 each fiscal year of the City (currently, a fiscal year ending December 31), as such fiscal year may be
15 changed as required or permitted by state law, commencing with the City's fiscal year ending
16 December 31, 20__; and

17 (iii) May be provided in a single document or multiple documents, and may be
18 incorporated by specific reference to documents available to the public on the Internet website of the
19 MSRB or filed with the Securities and Exchange Commission.

20 (c) Amendment of Undertaking. This Undertaking is subject to amendment after the
21 primary offering of the Bonds without the consent of any Owner or holder of any Bond, or of any
22 broker, dealer, municipal securities dealer, participating underwriter, rating agency or the MSRB,
23 under the circumstances and in the manner permitted by the Rule, including:

1 (i) The amendment may only be made in connection with a change in
2 circumstances that arises from a change in legal requirements, change in law, or change in the identity,
3 nature, or status of the City, or type of business conducted by the City;

4 (ii) The Undertaking, as amended, would have complied with the requirements of
5 the Rule at the time of the primary offering, after taking into account any amendments or interpretations
6 of the Rule, as well as any change in circumstances; and

7 (iii) The amendment does not materially impair the interests of holders, as
8 determined either by parties unaffiliated with the City (e.g., bond counsel or other counsel familiar
9 with federal securities laws), or by an approving vote of bondholders pursuant to the terms of the Bond
10 Ordinance at the time of the amendment.

11 The City will give notice to the MSRB of the substance (or provide a copy) of any amendment
12 to this Undertaking and a brief statement of the reasons for the amendment. If the amendment changes
13 the type of annual financial information to be provided, the annual financial information containing
14 the amended financial information will include a narrative explanation of the effect of that change on
15 the type of information to be provided.

16 (d) Beneficiaries. This Undertaking shall inure to the benefit of the City and any Owner
17 of Bonds, and shall not inure to the benefit of or create any rights in any other person.

18 (e) Termination of Undertaking. The City's obligations under this Undertaking shall
19 terminate upon the legal defeasance, prior redemption, or payment in full of all of the Bonds. In
20 addition, the City's obligations under this Undertaking shall terminate if those provisions of the Rule
21 that require the City to comply with this Undertaking become legally inapplicable in respect of the
22 Bonds for any reason, as confirmed by an opinion of nationally recognized bond counsel or other
23 counsel familiar with federal securities laws delivered to the City, and the City provides timely notice
24 of such termination to the MSRB.

1 (f) Remedy for Failure to Comply with Undertaking. As soon as practicable after the City
2 learns of any material failure to comply with this Undertaking, the City will proceed with due diligence
3 to cause such noncompliance to be corrected. No failure by the City or other obligated person to comply
4 with this Undertaking shall constitute a default in respect of the Bonds. The sole remedy of any Owner
5 of a Bond shall be to take such actions as that Owner deems necessary, including seeking an order of
6 specific performance from an appropriate court, to compel the City or other obligated person to comply
7 with this Undertaking.

8 (g) Designation of Official Responsible to Administer Undertaking. The Director of
9 Finance of the City (or such other officer of the City who may in the future perform the duties of that
10 office) or his or her designee is the person designated, in accordance with the Bond Ordinance, to carry
11 out this Undertaking of the City in respect of the Bonds set forth in this section and in accordance with
12 the Rule, including, without limitation, the following actions:

13 (i) Preparing and filing the annual financial information undertaken to be
14 provided;

15 (ii) Determining whether any event specified in subsection (a)(ii) has occurred,
16 assessing its materiality, where necessary, with respect to the Bonds, and preparing and disseminating
17 any required notice of its occurrence;

18 (iii) Determining whether any person other than the City is an “obligated person”
19 within the meaning of the Rule with respect to the Bonds, and obtaining from such person an
20 undertaking to provide any annual financial information and notice of listed events for that person in
21 accordance with the Rule;

22 (iv) Selecting, engaging and compensating designated agents and consultants,
23 including but not limited to financial advisors and legal counsel, to assist and advise the City in carrying
24 out this Undertaking; and

25 (v) Effecting any necessary amendment of the Undertaking.

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the electric system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing municipal light and electric power generation, transmission, and distribution system of the City; authorizing the issuance and sale of municipal light and power revenue bonds for the purposes of providing funds to pay part of the cost of carrying out that system or plan, providing for the reserve fund requirement (if any), and paying the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; describing the lien of the bonds and authorizing their issuance as either senior lien parity bonds or junior lien bonds; and ratifying and confirming certain prior acts.

Summary and background of the Legislation: This legislation provides the legal authorization to issue up to \$200 million of bonds in 2021 to fund a portion of capital expenditures for Seattle City Light's system, as set forth by the 2020-2025 capital plan. This legislation also authorizes up to \$150 million of additional borrowing for potential debt optimization. Debt optimization involves replacing high interest debt with low interest debt to reduce overall interest costs – without increasing the debt burden or extending the term of outstanding debt.

Although the budget, capital plan and rates make specific assumptions about the use of debt financing for a certain share of the capital program, separate authorization for the issuance of bonds is technically required.

A City Light bond sale for \$200 million of fixed rate debt is anticipated to occur in August 2021. The bond proceeds combined with internally generated funds will support City Light's capital program for about one year. The bond proceeds will also be used to make a deposit to the bond reserve fund and to pay issuance costs. Bonds would have a maximum maturity of 30 years. No debt service payments are expected in 2021.

Major projects supported by the bond issue include: Boundary Licensing Mitigation, Alaskan Way Viaduct and Seawall Replacement Utility Relocations and the replacement of overhead and underground distribution equipment. For further information about City Light's capital projects, please see the 2020-2025 capital plan.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
This legislation affects FAS, who coordinates the issuance of the bonds.
- b. **Is a public hearing required for this legislation?**
No
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No
- e. **Does this legislation affect a piece of property?**
No
- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
None/No
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**
No

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the drainage and wastewater system of The City of Seattle; amending Ordinance 125454, as amended by Ordinance 125712, to increase the authorized principal amount of drainage and wastewater revenue bonds to be issued for the purposes of paying all or part of the cost of carrying out the system or plan of additions and betterments to and extensions of the existing drainage and wastewater system; extending the initial authorization date of those bonds; and ratifying and confirming certain prior acts.

WHEREAS, by Ordinance 125454, passed on November 20, 2017, The City of Seattle, Washington (the “City”), provided for the issuance of not to exceed \$210,000,000 principal amount of Drainage and Wastewater System Bonds (the “Bonds”) for the purposes of paying all or part of the cost of carrying out the Plan of Additions, providing for the Reserve Requirement for the Parity Bonds, and issuing and selling the Bonds; and

WHEREAS, by Ordinance 125712, passed on November 19, 2018, the City amended Ordinance 125454 (as amended, the “Amended 2018 DWW Bond Ordinance”), to increase the authorized principal amount of drainage and wastewater revenue bonds in order to take advantage of a loan made available from the U.S. Environmental Protection Agency through the Water Infrastructure Finance and Innovation Act (“WIFIA”) program, and made certain other necessary technical amendments to take advantage of the WIFIA Program; and

WHEREAS, on April 24, 2020, the City issued its \$192,181,651 par amount Drainage and Wastewater System Improvement Revenue Bond, 2020A (Ship Canal Water Quality Project - N18106WA) to evidence the loan from the WIFIA Program and \$157,818,349 remains available for issuance under the Amended

2018 DWW Bond Ordinance; and

WHEREAS, the City deems it desirable to further amend the Amended Ordinance to increase the authorized principal amount of drainage and wastewater revenue bonds and to extend the date by which such bonds must be issued; NOW THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** The definitions of capitalized terms set forth in the recitals to this ordinance are incorporated by this reference. The meaning of capitalized terms used and not otherwise defined in this ordinance shall be as set forth in Ordinance 125454, as amended by Ordinance 125712 (the “Amended 2018 DWW Bond Ordinance”).

Section 2. **Amendment to Section 2 of the Amended 2018 DWW Bond Ordinance.** Section 2 of Ordinance 125454, last amended by Ordinance 125712, is amended as follows:

Section 2. **Adoption of Plan of Additions.** The City specifies, adopts and orders the Plan of Additions to be carried out as generally provided for in the documents comprising the Plan of Additions. The estimated cost of the Plan of Additions, as near as may be determined, is declared to be \$1,279,666,000, of which approximately ((
\$350,000,000)) \$500,000,000 is expected to be financed from proceeds of the Bonds and investment earnings thereon.

Section 3. **Amendments to Section 5 of the Amended 2018 DWW Ordinance.** Section 5 of Ordinance 125454, last amended by Ordinance 125712, is amended as follows: **Section 5. Appointment of Designated Representative; Bond Sale Terms.**

(a) **Designated Representative.** The Director of Finance is appointed to serve as the City’s designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and this ordinance.

(b) **Parameters for Bond Sale Terms.** The Director of Finance is authorized to

approve, on behalf of the City, Bond Sale Terms for the sale of the Bonds in one or more Series, and, in connection with each such sale, to execute a Bond Purchase Contract (which, in the case of a Series sold to the United States Environmental Protection Agency (“US EPA”), may be in the form of a loan agreement with the US EPA under the Water Infrastructure Finance and Innovation Act (“WIFIA”) program, or, in the case of a Series sold at competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with the following parameters:

(i) **Maximum Principal Amount.** The maximum aggregate principal amount of all Series of the Bonds authorized by this ordinance is not to exceed \$((350)) 500 million.

(ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance. The initial Issue Date (without restricting any conversion or reissuance date with respect to a Series of Variable Interest Rate Bonds and without restricting the dates of any draws on any Series of the Bonds structured as draw-down obligations) may be no later than December 31, ((2021)) 2023.

(iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

(iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, whichever is later, unless otherwise provided in the Bond Documents. Each Series of the Bonds shall bear interest at one or more fixed interest rates or at Variable Interest Rates. The net interest cost for any fixed rate Series may not exceed a rate of 10% per annum. The Bond Documents for any Series may provide for multiple interest rates and interest rate modes,

and may provide conditions and mechanisms for the Director of Finance to effect a conversion from one mode to another. Nothing in this ordinance shall be interpreted to prevent the Bond Documents for any Series from including a provision for adjustments to interest rates during the term of the Series upon the occurrence of certain events specified in the applicable Bond Documents.

(v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director of Finance, which shall include payment at the maturity of each Bond, in accordance with any Sinking Fund Requirements applicable to Term Bonds, and otherwise in accordance with any redemption or tender provisions.

(vi) **Final Maturity.** Each Bond shall mature no later than 40 years after its Issue Date.

(vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption and tender provisions, as determined by the Director of Finance in his or her discretion, consistent with Section 8 and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as subject to optional redemption prior to its maturity. Any Tax-Exempt Bond that is subject to optional redemption prior to maturity must be callable on at least one or more dates occurring not more than 10½ years after the Issue Date, consistent with Section 8(a).

(B) **Mandatory Redemption.** The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity on the dates and in principal payment amounts set forth in Sinking Fund Requirements, consistent with Section 8(b).

(C) **Extraordinary Redemptions.** The Director of Finance may designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent with Section 8(c).

(D) **Tender Options.** The Director of Finance may designate any Variable Interest Rate Bond as subject to tender options, as set forth in the applicable Bond Documents.

(viii) **Price.** The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in his or her judgment, the price that produces the most advantageous borrowing cost for the City, consistent with the parameters set forth herein and in any applicable bid documents.

(ix) **Other Terms and Conditions.**

(A) **Expected Life of Capital Facilities.** As of the Issue Date of each Series, the Director of Finance must additionally find to his or her satisfaction that the average expected life of the capital facilities to be financed with the proceeds (or allocable share of proceeds) of that Series must exceed the weighted average maturity of such Series (or share thereof) allocated to financing those capital facilities.

(B) **Parity Conditions Satisfied.** As of the Issue Date of each Series, the Director of Finance must find that the Parity Conditions have been met or otherwise satisfied, so that such Series is permitted to be issued as Parity Bonds.

(C) **Additional Terms, Conditions, and Agreements.** The Bond Sale Terms for any Series may provide for Bond Insurance, a Reserve Security, Qualified Letter of Credit, credit enhancement, or for any other Payment Agreement as the Director of Finance may find necessary or desirable. The Bond Sale Terms for any Series may

provide for multiple interest rate modes and may include provisions for conversion from any interest rate mode to any other mode. To that end, the Bond Sale Terms may include such additional terms, conditions, and covenants as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of the Bonds), provisions for the conversion of interest rate modes, provisions for the reimbursement of a credit enhancement provider or Qualified Counterparty, and requirements to give notice to or obtain the consent of a credit enhancement provider or a Qualified Counterparty. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants. In addition and without limiting any of the foregoing, the Bond Purchase Agreement setting forth the Bond Sale Terms for any one or more Series of the Bonds may take the form of a WIFIA Loan Agreement with the US EPA and may provide for such additional terms, conditions and covenants as may be required by US EPA and as are not inconsistent with other provisions of this ordinance.

(D) Reserve Requirement. The Bond Sale Terms must establish whether the Series is to be treated as Covered Parity Bonds and must establish the method of providing for the Reserve Requirement, consistent with Section 15.

(E) Tax Status of the Bonds. The Director of Finance may determine that any Series of the Bonds may be designated or qualified as Tax-Exempt Bonds, Taxable Bonds or Tax Credit Subsidy Bonds, consistent with Section 22.

Section 4. **General Authorization.** In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance and each of the other appropriate officers of the City are each authorized and directed to do everything as in his or her judgment may be necessary, appropriate, or desirable in order to

carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance.

Section 5. **Severability**. The provisions of this ordinance are declared to be separate and severable. If a court of competent jurisdiction, all appeals having been exhausted or all appeal periods having run, finds any provision of this ordinance to be invalid or unenforceable as to any person or circumstance, such offending provision shall, if feasible, be deemed to be modified to be within the limits of enforceability or validity. However, if the offending provision cannot be so modified, it shall be null and void with respect to the particular person or circumstance, and all other provisions of this ordinance in all other respects, and the offending provision with respect to all other persons and all other circumstances, shall remain valid and enforceable.

Section 6. **Ratification of Prior Acts**. Actions taken consistent with this ordinance, after its passage but prior to the effective date, are ratified, approved, and confirmed.

Section 7. **Section Headings**. Section headings in this ordinance are used for convenience only and shall not constitute a substantive portion of this ordinance.

Section 8. **Effective Date**. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

Jenny A. Durkan, Mayor

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the drainage and wastewater system of The City of Seattle; amending Ordinance 125454, as amended by Ordinance 125712, to increase the authorized principal amount of drainage and wastewater revenue bonds to be issued for the purposes of paying all or part of the cost of carrying out the system or plan of additions and betterments to and extensions of the existing drainage and wastewater system; extending the initial authorization date of those bonds; and ratifying and confirming certain prior acts.

Summary and background of the Legislation:

This legislation amends Ordinance 125454 and 125712 by increasing borrowing authority for the Drainage and Wastewater Fund for the purposes of financing the Capital Improvement Program and for potential defeasance/optimization purposes. Debt optimization involves replacing high interest debt with low interest debt to reduce overall interest costs – without increasing the debt burden or extending the term of outstanding debt.

Although the budget, capital plan and rates make specific assumptions about the use of debt financing for a certain share of the capital program, separate authorization for the issuance of bonds is technically required.

A Drainage and Wastewater bond sale for \$500 million of fixed rate debt is anticipated to occur in mid-2021. This include \$350 million of new money (of which \$192 million was already issued in the form of an EPA Water Infrastructure Finance and Innovation Act loan) and up to \$150 million for debt optimization. The bond proceeds combined with internally generated funds will support the Drainage and Wastewater capital program for about one year. The bond proceeds will also be used to make a deposit to the bond reserve fund and to pay issuance costs. Bonds would have a maximum maturity of 30 years. No debt service payments are expected in 2021. Debt optimization involves replacing high interest debt with low interest debt to reduce overall interest costs – without increasing the debt burden or extending the term of outstanding debt.

Major projects supported by the bond issue include: combined sewer overflows, rehabilitation, flooding and sewer backups, and projects related to Move Seattle. For further information about the Drainage and Wastewater capital projects, please see the 2020-2025 capital plan.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
This legislation affects FAS, who coordinates the issuance of the bonds.
- b. **Is a public hearing required for this legislation?**
No
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No
- e. **Does this legislation affect a piece of property?**
No
- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
None/No

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the drainage and wastewater system of The City of Seattle; providing for the defeasance of the claim or lien of certain of the City's outstanding drainage and wastewater system revenue bonds and payment of the administrative costs of such defeasance; providing for and authorizing the purchase of certain obligations and for the use and application of the money derived from those investments; authorizing the execution of a defeasance trust agreement to establish a defeasance escrow; authorizing the call for redemption prior to their maturity of those outstanding bonds that are to be defeased; and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle (the "City") owns, maintains, and operates a system of sanitary sewerage and storm and surface water drainage as part of Seattle Public Utilities (the "Drainage and Wastewater System"), which Drainage and Wastewater System has from time to time required various additions, improvements, betterments, and extensions; and

WHEREAS, the City has previously authorized and issued, and may from time to time in the future authorize and issue, drainage and wastewater system revenue bonds having a charge and lien on the Net Revenue of the Drainage and Wastewater System prior and superior to any other charges whatsoever ("Parity Bonds"), which are designated as defeasible under this ordinance (the "Defeasible Bonds"); and

WHEREAS, it is advantageous to the City and its ratepayers to provide for the application of available Net Revenue or other available funds (other than proceeds of Tax-Advantaged Bonds) to defease outstanding Defeasible Bonds whenever the Director of Finance determines that such defeasance will achieve a long-term cost savings or other benefit to the City or its ratepayers, all as permitted under chapter 39.53 RCW; and

WHEREAS, the City has determined that it is in the best interest of the City and its ratepayers to authorize,

subject to the provisions of this ordinance, the Director of Finance to carry out the defeasance and redemption of all or any portion of the Defeasible Bonds and to pay the administrative costs of carrying out the defeasance of those Defeasible Bonds; and

WHEREAS, pursuant to the authority delegated in this ordinance, the Director of Finance from time to time will receive, review and adopt a plan (a “Defeasance Plan”) to defease selected maturities (or partial maturities) of certain series of those Defeasible Bonds, which selected series and maturities (or partial maturities) will be identified in the Defeasance Plan and to carry out the defeasance and redemption of any Defeasible Bonds as the Director of Finance may deem in the best interests of the City and its ratepayers; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** As used in this ordinance, the following capitalized terms shall have the meanings set forth below:

“**Acquired Obligations**” means Government Obligations maturing or having guaranteed redemption prices at the option of the holder at such time or times as may be required to provide funds sufficient to carry out the Defeasance Plan, and satisfying the requirements of the Defeased Bond Documents relating to the Defeased Bonds included in that Defeasance Plan. For purposes of this definition, eligible “Government Obligations” for inclusion in a Defeasance Plan shall be determined in accordance with the applicable Defeased Bond Documents.

“**Bond Counsel**” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“**City**” means The City of Seattle, Washington, a municipal corporation duly organized and existing under the laws of the State.

“**City Council**” means the City Council of the City, as duly and regularly constituted from time to time.

“**Code**” means the Internal Revenue Code of 1986, or any successor thereto, as it has been and may be

amended from time to time, and regulations thereunder.

“Defeasance Plan” means the plan approved by the Director of Finance pursuant to the delegation set forth herein to accomplish the defeasance and redemption of the identified Defeasible Bonds. Each Defeasance Plan must identify the maturities (or partial maturities) and series of Defeasible Bonds to be defeased and redeemed thereby, and must provide for their defeasance and/or redemption, substantially as follows, with such additional detail and adjustments to be set forth in the Defeasance Trust Agreement as the Director of Finance may deem necessary or desirable:

(a) The City shall deposit available Net Revenue of the Drainage and Wastewater System, and such other money (other than proceeds of Tax-Advantaged Bonds) as may be included in the plan by the Director of Finance, into a defeasance escrow or trust account held by the Defeasance Trustee;

(b) Upon receipt of a certification or verification by a certified public accounting firm or financial advisor that the amounts deposited with it will be sufficient to accomplish the defeasance and redemption as described in such Defeasance Trust Agreement, the Defeasance Trustee shall invest such escrow deposits in the Acquired Obligations specified therein (unless directed in the Defeasance Trust Agreement to hold such deposits uninvested) and shall establish a beginning cash balance; and

(c) As further directed in the Defeasance Trust Agreement, the Defeasance Trustee shall apply the amounts received as interest on and maturing principal of such Acquired Obligations (together with any cash balance in the defeasance trust account) to call, pay, and redeem those Defeasible Bonds on the dates and times identified in the plan, and (if so directed) to pay the administrative costs of carrying out the foregoing.

If the Director of Finance serves as the Defeasance Trustee, the Director of Finance shall approve a written Defeasance Plan (which need not be set forth in a Defeasance Trust Agreement) providing that the escrow funds are to be held separate and apart from all other funds of the City and are to be applied substantially as set forth above.

“Defeasance Trust Agreement” means an escrow or trust agreement between the City and a

Defeasance Trustee as described in Section 3(d) of this ordinance.

“Defeasance Trustee” means the Director of Finance, or a financial institution selected by the Director of Finance, serving in the capacity of Defeasance Trustee or escrow agent under a Defeasance Trust Agreement.

“Defeased Bond Documents” means (a) the ordinance(s) authorizing the issuance of the Defeased Bonds; (b) the authenticated bond form; and (c) the written agreement(s) setting forth the terms, conditions, or covenants pursuant to which such bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance), (iii) a bond indenture or a fiscal agent or paying agent agreement (other than the State fiscal agency contract), and (iv) a direct purchase or continuing covenant agreement.

“Defeased Bonds” means those Defeasible Bonds identified in a Defeasance Plan in accordance with this ordinance.

“Defeasible Bonds” means each series of Parity Bonds that have been designated, or may in the future be designated, as defeasible under this ordinance, including: (a) each series of Outstanding Parity Bonds listed in Exhibit A; and (b) each series of Future Parity Bonds designated by the City as Defeasible Bonds.

“Director of Finance” means the Director of the Finance Division of the Department of Finance and Administrative Services of the City, or any other officer who succeeds to substantially all of the responsibilities of that office.

“Drainage and Wastewater Fund” means the fund created by Ordinance 84390 and later renamed by Ordinance 114155, into which is paid the Gross Revenue of the Drainage and Wastewater System.

“Drainage and Wastewater System” means the drainage and wastewater system of the City, including the sanitary sewerage and storm and surface water drainage systems, as it now exists (except properties, interests, and rights under the jurisdiction of the City’s Parks and Recreation Department, Seattle Center Department, Seattle Public Utilities Water System, City Light Department, and Department of Finance and Administrative Services), and all additions thereto and betterments and extensions thereof at any time made,

together with any utility systems of the City hereafter combined with the Drainage and Wastewater System. The Drainage and Wastewater System shall not include any separate utility system that may be created, acquired or constructed by the City as provided in the Defeased Bond Documents.

“Government Obligations” means, unless otherwise defined in the Defeased Bond Documents, any government obligation as that term is defined in RCW 39.53.010, as now in effect or as may be hereafter amended.

“Gross Revenue” means (a) all income, revenues, receipts and profits derived by the City through the ownership and operation of the Drainage and Wastewater System; (b) the proceeds received by the City directly or indirectly from the sale, lease or other disposition of any of the properties, rights or facilities of the Drainage and Wastewater System; (c) Payment Agreement Receipts, to the extent that such receipts are not offset by Payment Agreement Payments; and (d) the investment income earned on money held in any fund or account of the City, including any bond redemption funds and the accounts therein, in connection with the ownership and operation of the Drainage and Wastewater System. Gross Revenue does not include: (a) income derived from investments irrevocably pledged to the payment of any defeased bonds payable from Gross Revenue; (b) investment income set aside for or earned on money in any fund or account created or maintained solely for the purpose of complying with the arbitrage rebate provisions of the Code; (c) any gifts, grants, donations or other funds received by the City from any State or federal agency or other person if such gifts, grants, donations or other funds are the subject of any limitation or reservation imposed by the donor or grantor or imposed by law or administrative regulation to which the donor or grantor is subject, limiting the application of such funds in a manner inconsistent with the application of Gross Revenue hereunder; (d) the proceeds of any borrowing for capital improvements (or the refinancing thereof); (e) the proceeds of any liability or other insurance, including but not limited to insurance proceeds compensating the City for the loss of a capital asset, but excluding business interruption insurance or other insurance of like nature insuring against the loss of revenues; (f) general *ad valorem* taxes, excise taxes and special assessments (other than ULID Assessments), including

interest and penalties thereon; and (g) earnings of any separate utility system that may be created, acquired, or constructed by the City in accordance with the provisions for a separate system in the Defeased Bond Documents.

“Net Revenue” means, for any period, Gross Revenue less Operating and Maintenance Expense.

“Omnibus Defeasance Ordinance” means this ordinance (as it may be amended from time to time) or any other ordinance of the City passed in the future, authorizing the defeasance and redemption of Defeasible Bonds.

“Operating and Maintenance Expense” means all expenses incurred by the City in causing the Drainage and Wastewater System to be operated and maintained in good repair, working order and condition, including without limitation: (a) deposits, premiums, assessments or other payments for insurance, if any, on the Drainage and Wastewater System; (b) payments into pension funds; (c) State-imposed taxes; (d) amounts due under Contract Resource Obligations in accordance with the provisions of the Defeased Bond Documents; (e) payments made to another person or entity for treatment or disposal of sewage or other commodity or service; and (f) payments with respect to any other expenses of the Drainage and Wastewater System that are properly treated as Operating and Maintenance Expense under generally accepted accounting principles applicable to municipal corporations, including payments (other than payments out of proceeds of Parity Bonds or other obligations not issued to pay current expenses of the Drainage and Wastewater System) into reasonable reserves for items of operating or maintenance expense the payment of which is not immediately required. Operating and Maintenance Expense does not include: depreciation, amortization, or other similar recognitions of non-cash expense items made for accounting purposes only; taxes levied or imposed by the City, or payments in lieu of City taxes; payments of claims or judgments; or capital additions or capital replacements of the Drainage and Wastewater System.

“Outstanding Parity Bonds” means those outstanding Parity Bonds identified in Exhibit A. When used in reference to a particular date or series of Parity Bonds, Outstanding Parity Bonds shall mean those

Parity Bonds (including any Parity Bonds issued subsequent to the date of this ordinance) that are outstanding as of that date or as of the issue date of such series.

“Parity Bond Account” means the Drainage and Wastewater Revenue Bond Account, 1990, created by Ordinance 115098 in the Drainage and Wastewater Fund for the purpose of paying and securing payment of the principal of and interest on Parity Bonds.

“Parity Bonds” means drainage and wastewater system revenue obligations payable solely from the Parity Bond Account having a charge and lien on the Net Revenue of the Drainage and Wastewater System prior and superior to any other charges whatsoever.

“Tax-Advantaged Bond” means any bond or other financial obligation issued by the City, (a) the interest on which is intended on its issue date to be excludable from gross income for federal income tax purposes, or (b) that is designated by the City as a tax credit bond pursuant to the Code, and which is further designated as a “qualified bond” under Section 6431 (or substantively similar provision of the Code), and with respect to which the City is eligible to claim a tax credit subsidy payment in respect of interest on the obligation.

Section 2. **Finding With Respect to Defeasance.** The City Council hereby finds that the irrevocable deposit of money and securities with a Defeasance Trustee, verified or certified as to sufficiency in accordance with a Defeasance Plan approved pursuant to this ordinance, will discharge and satisfy the obligations of the City as to the Defeased Bonds identified therein, including all pledges, charges, trusts, covenants, and agreements under the applicable Defeased Bond Documents. Immediately upon such deposit, the Defeased Bonds identified in such Defeasance Plan shall be defeased and shall no longer be deemed to be outstanding under the applicable Defeased Bond Documents.

The City Council finds and determines that it is in the best interest of the City and its taxpayers that the City carry out a Defeasance Plan approved by the Director of Finance as provided for in this ordinance and hereby ratifies and approves any such Defeasance Plan.

Section 3. **Defeasance of the Defeased Bonds.**

(a) **Approval of Defeasance Plan; Appointment of Defeasance Trustee.** The Director of Finance is authorized and directed to select a Defeasance Trustee and to negotiate, execute, and deliver a Defeasance Trust Agreement setting forth a Defeasance Plan for each series of Defeasible Bonds (or portion thereof) to be defeased and redeemed pursuant to this ordinance, in accordance with subsection (d) of this section. Multiple Defeasance Plans may be combined in a single Defeasance Trust Agreement. The Defeasance Plan shall be carried out, and the money on deposit in the defeasance escrow shall be applied, in accordance with this ordinance, the respective Defeased Bond Documents, the Defeasance Trust Agreement, and the laws of the State.

(b) **Acquisition of Acquired Obligations.** To the extent practicable and desirable, the Defeasance Plan shall provide for the Defeasance Trustee's purchase of Acquired Obligations, bearing such interest and maturing as to principal and interest in such amounts and at such times so as to provide, together with a beginning cash balance, if necessary, for the timely payment of the amounts required to be paid by the Defeasance Plan. The Acquired Obligations shall be listed and more particularly described in a schedule attached to the Defeasance Trust Agreement, but are subject to substitution as set forth in subsection (c) below.

(c) **Substitution of Acquired Obligations.** The City reserves the right at any time to substitute cash or other Government Obligations (as defined in the applicable Defeased Bond Documents) for the Acquired Obligations if the City obtains a verification by a nationally recognized independent certified public accounting firm reasonably acceptable to the Defeasance Trustee confirming that the payments of principal of and interest on the substitute obligations, if paid when due, together with the cash to be held by the Defeasance Trustee, will be sufficient to carry out the Defeasance Plan. If the applicable Series of Defeased Bonds were issued as Tax-Advantaged Bonds, then prior to such substitution, the City must also obtain an opinion from Bond Counsel to the effect that the disposition and substitution or purchase of such securities will not cause adverse federal tax consequences as to any such Defeased Bonds that were issued as Tax-Advantaged Bonds

(except to the extent that the City has opted to forego any available tax credit subsidy payment in connection with the original defeasance) and that such disposition and substitution or purchase is in compliance with the applicable statutes and regulations. Any surplus money resulting from the sale, transfer, other disposition or redemption of the Acquired Obligations and the substitutions therefor shall be released from the trust estate and may be used for any lawful City purpose.

(d) **Defeasance Trust Agreement.** The Director of Finance is authorized to execute one or more Defeasance Trust Agreements with one or more Defeasance Trustees, setting forth the duties, obligations, and responsibilities of the Defeasance Trustee in connection with carrying out the applicable Defeasance Plan. Each Defeasance Trust Agreement and Defeasance Plan must, among other things: (1) identify the Defeasible Bonds to be defeased and redeemed thereby; (2) contain the elements set forth in the definition of Defeasance Plan set forth in this ordinance, including authorizing and directing the Defeasance Trustee to use the money deposited with it to purchase the Acquired Obligations (or substitute obligations) and to apply such money along with the maturing principal of and interest on such obligations to make the payments required to be made by the Defeasance Plan; and (3) provide for the giving of notices of defeasance and redemption, as required under the Defeased Bond Documents. The Defeasance Trust Agreement may additionally provide for the payment of the costs of administering the Defeasance Plan (including without limitation, all necessary and proper fees, compensation, and expenses of the Defeasance Trustee and all other costs incidental to the setting up of the escrow to accomplish the Defeasance Plan), and for such other related matters as the Director of Finance may deem necessary or expedient.

Section 4. **Redemption of the Defeased Bonds.** The Director of Finance is authorized on behalf of the City to take such actions as may be necessary or convenient to call the Defeased Bonds for redemption. Such call for redemption of the Defeased Bonds shall identify the Defeased Bonds, redemption dates and redemption prices (expressed as a percentage of the stated principal amount) and shall be irrevocable after the effective date of the Defeasance Trust Agreement. The dates on which the Defeased Bonds are to be called for

redemption shall be, in the judgment of the Director of Finance, the earliest practical dates on which those Defeased Bonds may be called for redemption following the effective date of the Defeasance Trust Agreement. The proper City officials are authorized and directed to give or cause to be given such notices as required, at the times and in the manner required pursuant to the Defeased Bond Documents, in order to carry out the Defeasance Plan.

Section 5. **Outstanding Parity Bonds Declared Defeasible**. All outstanding Parity Bonds that have previously been, or may in the future be, designated as “Refundable Bonds” under Ordinance 125455, passed by the City Council on November 20, 2017 and signed by the Mayor on November 22, 2017 (the “Omnibus Refunding Ordinance”), as it may be amended from time to time, are declared to be Defeasible Bonds under this ordinance.

Section 6. **General Authorization**. In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance and each of the other appropriate officers of the City is each authorized and directed to do everything as in their judgment may be necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance.

Section 7. **Severability**. The provisions of this ordinance are declared to be separate and severable. If a court of competent jurisdiction, all appeals having been exhausted or all appeal periods having run, finds any provision of this ordinance to be invalid or unenforceable as to any person or circumstance, such offending provision shall, if feasible, be deemed to be modified to be within the limits of enforceability or validity. However, if the offending provision cannot be so modified, it shall be null and void with respect to the particular person or circumstance, and all other provisions of this ordinance in all other respects, and the offending provision with respect to all other persons and all other circumstances, shall remain valid and enforceable.

Section 8. **Ratification of Prior Acts**. Any action taken consistent with the authority of this ordinance, after its passage but prior to the effective date, is ratified, approved, and confirmed.

Section 9. **Section Headings.** Section headings in this ordinance are used for convenience only and shall not constitute a substantive portion of this ordinance.

Section 10. **Effective Date.** This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

FAS	Michael Van Dyck 206-619-0393	Caleb Wagenaar (206) 733-9228

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the drainage and wastewater system of The City of Seattle; providing for the defeasance of the claim or lien of certain of the City’s outstanding drainage and wastewater system revenue bonds and payment of the administrative costs of such defeasance; providing for and authorizing the purchase of certain obligations and for the use and application of the money derived from those investments; authorizing the execution of a defeasance trust agreement to establish a defeasance escrow; authorizing the call for redemption prior to their maturity of those outstanding bonds that are to be defeased; and ratifying and confirming certain prior acts.

Summary and background of the Legislation: As part of its duty to manage debt for the City and its utilities, FAS actively monitors opportunities to reduce the interest rates on outstanding debt. One strategy for doing so involves using cash to pre-fund an escrow (a “defeasance escrow”) established to repay the debt on the scheduled payment dates. This legislation authorizes the deposit, from time to time, of Drainage and Wastewater System revenues in a defeasance escrow held by a bank for the purpose of paying debt service on, and eventually redeeming at maturity, high-interest rate outstanding bonds. The intent is to save the City and its ratepayers money by reducing its debt service costs.

In the past, issuers of municipal bonds were allowed to refund (refinance) their high interest rate outstanding tax-exempt bonds prior to their call dates (“advance refunding”) by depositing the proceeds of new lower-interest rate tax-exempt bonds into a defeasance escrow for the redemption of those bonds. This enabled cities to trade high interest rate debt for lower interest rate debt, thereby reducing their interest costs. However, the 2017 Tax Cuts and Jobs Act eliminated the ability to do this on a tax-exempt basis, thereby reducing the savings available to the local government.

An alternative strategy (“Debt Optimization”) for capturing the maximum amount of savings for the local government is to use available cash, rather than proceeds of tax-exempt bonds, to fund the defeasance escrow. This may also require reallocating proceeds of new tax-exempt bonds to pay for the capital purposes that would otherwise have been paid with cash. Using a Debt Optimization strategy, FAS can manage the aggregate debt portfolio so that the new debt does not increase the overall debt burden and does not extend the term of outstanding debt. Debt Optimization has the net result of replacing higher interest rate debt with lower interest rate debt, which, of course, reduces overall interest costs for the issuer (and its rate payers).

2. IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
This legislation lowers debt service costs for SPU and is administered by FAS.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No.
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- e. **Does this legislation affect a piece of property?**
No.
- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
N/A
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the solid waste system of The City of Seattle; providing for the defeasance of the claim or lien of certain of the City's outstanding solid waste system revenue bonds and payment of the administrative costs of such defeasance; providing for and authorizing the purchase of certain obligations and for the use and application of the money derived from those investments; authorizing the execution of a defeasance trust agreement to establish a defeasance escrow; authorizing the call for redemption prior to their maturity of those outstanding bonds that are to be defeased; and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle ("City") owns, maintains, and operates a solid waste collection, transportation, and disposal system as part of Seattle Public Utilities ("Solid Waste System"), which Solid Waste System has from time to time required various additions, improvements, betterments, and extensions; and

WHEREAS, the City has previously authorized and issued, and may from time to time in the future authorize and issue, solid waste system revenue bonds having a charge and lien on the Net Revenue of the Solid Waste System prior and superior to any other charges whatsoever ("Parity Bonds"), which are designated as defeasible under this ordinance ("Defeasible Bonds"); and

WHEREAS, it is advantageous to the City and its ratepayers to provide for the application of available Net Revenue or other available funds (other than proceeds of Tax-Advantaged Bonds) to defease outstanding Defeasible Bonds whenever the Director of Finance determines that such defeasance will achieve a long-term cost savings or other benefit to the City or its ratepayers, all as permitted under chapter 39.53 RCW; and

WHEREAS, the City has determined that it is in the best interest of the City and its ratepayers to authorize,

subject to the provisions of this ordinance, the Director of Finance to carry out the defeasance and redemption of all or any portion of the Defeasible Bonds and to pay the administrative costs of carrying out the defeasance of those Defeasible Bonds; and

WHEREAS, pursuant to the authority delegated in this ordinance, the Director of Finance from time to time will receive, review, and adopt a plan (“Defeasance Plan”) to defease selected maturities (or partial maturities) of certain series of those Defeasible Bonds, which selected series and maturities (or partial maturities) will be identified in the Defeasance Plan, and to carry out the defeasance and redemption of any Defeasible Bonds as the Director of Finance may deem in the best interests of the City and its ratepayers; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** As used in this ordinance, the following capitalized terms shall have the meanings set forth below:

“Acquired Obligations” means Government Obligations maturing or having guaranteed redemption prices at the option of the holder at such time or times as may be required to provide funds sufficient to carry out the Defeasance Plan, and satisfying the requirements of the Defeased Bond Documents relating to the Defeased Bonds included in that Defeasance Plan. For purposes of this definition, eligible “Government Obligations” for inclusion in a Defeasance Plan shall be determined in accordance with the applicable Defeased Bond Documents.

“Bond Counsel” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“City” means The City of Seattle, Washington, a municipal corporation duly organized and existing under the laws of the State.

“City Council” means the City Council of the City, as duly and regularly constituted from time to time.

“Code” means the Internal Revenue Code of 1986, or any successor thereto, as it has been and may be

amended from time to time, and regulations thereunder.

“Defeasance Plan” means the plan approved by the Director of Finance pursuant to the delegation set forth herein to accomplish the defeasance and redemption of the identified Defeasible Bonds. Each Defeasance Plan must identify the maturities (or partial maturities) and series of Defeasible Bonds to be defeased and redeemed thereby, and must provide for their defeasance and/or redemption, substantially as follows, with such additional detail and adjustments to be set forth in the Defeasance Trust Agreement as the Director of Finance may deem necessary or desirable:

(a) The City shall deposit available Net Revenue of the Solid Waste System, and such other money (other than proceeds of Tax-Advantaged Bonds) as may be included in the plan by the Director of Finance, into a defeasance escrow or trust account held by the Defeasance Trustee;

(b) Upon receipt of a certification or verification by a certified public accounting firm or financial advisor that the amounts deposited with it will be sufficient to accomplish the defeasance and redemption as described in such Defeasance Trust Agreement, the Defeasance Trustee shall invest such escrow deposits in the Acquired Obligations specified therein (unless directed in the Defeasance Trust Agreement to hold such deposits uninvested) and shall establish a beginning cash balance; and

(c) As further directed in the Defeasance Trust Agreement, the Defeasance Trustee shall apply the amounts received as interest on and maturing principal of such Acquired Obligations (together with any cash balance in the defeasance trust account) to call, pay, and redeem those Defeasible Bonds on the dates and times identified in the plan, and (if so directed) to pay the administrative costs of carrying out the foregoing.

If the Director of Finance serves as the Defeasance Trustee, the Director of Finance shall approve a written Defeasance Plan (which need not be set forth in a Defeasance Trust Agreement) providing that the escrow funds are to be held separate and apart from all other funds of the City and are to be applied substantially as set forth above.

“Defeasance Trust Agreement” means an escrow or trust agreement between the City and a

Defeasance Trustee as described in Section 3(d) of this ordinance.

“Defeasance Trustee” means the Director of Finance, or a financial institution selected by the Director of Finance, serving in the capacity of Defeasance Trustee or escrow agent under a Defeasance Trust Agreement.

“Defeased Bond Documents” means (a) the ordinance(s) authorizing the issuance of the Defeased Bonds; (b) the authenticated bond form; and (c) the written agreement(s) setting forth the terms, conditions, or covenants pursuant to which such bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance), (iii) a bond indenture or a fiscal agent or paying agent agreement (other than the State fiscal agency contract), and (iv) a direct purchase or continuing covenant agreement.

“Defeased Bonds” means those Defeasible Bonds identified in a Defeasance Plan in accordance with this ordinance.

“Defeasible Bonds” means each series of Parity Bonds that have been designated, or may in the future be designated, as defeasible under this ordinance, including: (a) each series of Outstanding Parity Bonds listed in Exhibit A; and (b) each series of Future Parity Bonds designated by the City as Defeasible Bonds.

“Director of Finance” means the Director of the Finance Division of the Department of Finance and Administrative Services of the City, or any other officer who succeeds to substantially all of the responsibilities of that office.

“Government Obligations” means, unless otherwise defined in the Defeased Bond Documents, any government obligation as that term is defined in RCW 39.53.010, as now in effect or as may be hereafter amended.

“Gross Revenue” means (a) all income, revenues, receipts, and profits derived by the City through the ownership and operation of the Solid Waste System; (b) Payment Agreement Receipts, to the extent that such receipts are not offset by Payment Agreement Payments; and (c) the investment income earned on money held in any fund or account of the City, including any bond redemption funds and the accounts therein, in connection

with the ownership and operation of the Solid Waste System. Gross Revenue does not include: (a) income derived from investments irrevocably pledged to the payment of any defeased bonds payable from Gross Revenue; (b) investment income set aside for or earned on money in any fund or account created or maintained solely for the purpose of complying with the arbitrage rebate provisions of the Code; (c) any gifts, grants, donations, or other funds received by the City from any State or federal agency or other person if such gifts, grants, donations, or other funds are the subject of any limitation or reservation imposed by the donor or grantor or imposed by law or administrative regulation to which the donor or grantor is subject, limiting the application of such funds in a manner inconsistent with the application of Gross Revenue hereunder; (d) the proceeds of any borrowing for capital improvements (or the refinancing thereof); (e) the proceeds of any liability or other insurance, including but not limited to insurance proceeds compensating the City for the loss of a capital asset, but excluding business interruption insurance or other insurance of like nature insuring against the loss of revenues; and (f) the earnings of any separate utility system acquired or constructed by the City in accordance with the provisions for a separate system in the Defeased Bond Documents.

“Maintenance and Operation Expenses” means all expenses incurred by the City in causing the Solid Waste System to be operated and maintained in good repair, working order, and conditions, including without limitation: (a) deposits, premiums, assessments or other payments for insurance (other than payments out of proceeds of Parity Bonds), if any, on the Solid Waste System; (b) payments into pension funds; (c) State-imposed taxes; (d) amounts due under Contract Resource Obligations in accordance with the provisions of the Defeased Bond Documents; (e) payments made to any other person or entity for the collection, transportation, treatment, or disposal of solid waste or other commodity or service related to the Solid Waste System; and (f) payments with respect to any other expenses of the Solid Waste System that are properly treated as operation and maintenance expenses under generally accepted accounting principles. Maintenance and Operation Expenses does not include any depreciation, amortization, or other similar recognitions of non-cash expense items made for accounting purposes only; taxes levied or imposed by the City or payments in lieu of City taxes;

payments of claims or judgments; or capital additions or capital replacement.

“Net Revenue” means, for any period, Gross Revenue less Maintenance and Operation Expense.

“Omnibus Defeasance Ordinance” means this ordinance (as it may be amended from time to time) or any other ordinance of the City passed in the future, authorizing the defeasance and redemption of Defeasible Bonds.

“Outstanding Parity Bonds” means those outstanding Parity Bonds identified in Exhibit A. When used in reference to a particular date or series of Parity Bonds, Outstanding Parity Bonds shall mean those Parity Bonds (including any Parity Bonds issued subsequent to the date of this ordinance) that are outstanding as of that date or as of the issue date of such series.

“Parity Bond Account” means the Solid Waste System Revenue Bond Account, created in the Solid Waste Fund by Ordinance 118975 for the purpose of paying and securing payment of the principal of and interest on Parity Bonds.

“Parity Bonds” means solid waste system revenue obligations payable solely from the Parity Bond Account having a charge and lien on the Net Revenue of the Solid Waste System prior and superior to any other charges whatsoever.

“Solid Waste Fund” means the “Garbage Collection and Disposal Fund” of the City created by Ordinance 90379 and subsequently renamed the “Solid Waste Fund.”

“Solid Waste System” means the entire solid waste collection, transportation, and disposal system of the City, created by Ordinance 90379, as amended, together with all additions thereto and betterments and extensions thereof at any time made, acquired, or constructed, together with any other utility systems of the City hereafter combined with the Solid Waste System. The Solid Waste System shall not include any separate utility system acquired or constructed by the City pursuant to the Defeased Bond Documents.

“Tax-Advantaged Bond” means any bond or other financial obligation issued by the City, (a) the interest on which is intended on its issue date to be excludable from gross income for federal income tax

purposes, or (b) that is designated by the City as a tax credit bond pursuant to the Code, and which is further designated as a “qualified bond” under Section 6431 (or substantively similar provision of the Code), and with respect to which the City is eligible to claim a tax credit subsidy payment in respect of interest on the obligation.

Section 2. **Finding with Respect to Defeasance.** The City Council hereby finds that the irrevocable deposit of money and securities with a Defeasance Trustee, verified or certified as to sufficiency in accordance with a Defeasance Plan approved pursuant to this ordinance, will discharge and satisfy the obligations of the City as to the Defeased Bonds identified therein, including all pledges, charges, trusts, covenants, and agreements under the applicable Defeased Bond Documents. Immediately upon such deposit, the Defeased Bonds identified in such Defeasance Plan shall be defeased and shall no longer be deemed to be outstanding under the applicable Defeased Bond Documents.

The City Council finds and determines that it is in the best interest of the City and its taxpayers that the City carry out a Defeasance Plan approved by the Director of Finance as provided for in this ordinance and hereby ratifies and approves any such Defeasance Plan.

Section 3. **Defeasance of the Defeased Bonds.**

(a) **Approval of Defeasance Plan; Appointment of Defeasance Trustee.** The Director of Finance is authorized and directed to select a Defeasance Trustee and to negotiate, execute, and deliver a Defeasance Trust Agreement setting forth a Defeasance Plan for each series of Defeasible Bonds (or portion thereof) to be defeased and redeemed pursuant to this ordinance, in accordance with subsection (d) of this section. Multiple Defeasance Plans may be combined in a single Defeasance Trust Agreement. The Defeasance Plan shall be carried out, and the money on deposit in the defeasance escrow shall be applied, in accordance with this ordinance, the respective Defeased Bond Documents, the Defeasance Trust Agreement, and the laws of the State.

(b) **Acquisition of Acquired Obligations.** To the extent practicable and desirable, the Defeasance

Plan shall provide for the Defeasance Trustee's purchase of Acquired Obligations, bearing such interest and maturing as to principal and interest in such amounts and at such times so as to provide, together with a beginning cash balance, if necessary, for the timely payment of the amounts required to be paid by the Defeasance Plan. The Acquired Obligations shall be listed and more particularly described in a schedule attached to the Defeasance Trust Agreement, but are subject to substitution as set forth in subsection (c) of this section.

(c) **Substitution of Acquired Obligations.** The City reserves the right at any time to substitute cash or other Government Obligations (as defined in the applicable Defeased Bond Documents) for the Acquired Obligations if the City obtains a verification by a nationally recognized independent certified public accounting firm reasonably acceptable to the Defeasance Trustee confirming that the payments of principal of and interest on the substitute obligations, if paid when due, together with the cash to be held by the Defeasance Trustee, will be sufficient to carry out the Defeasance Plan. If the applicable Series of Defeased Bonds were issued as Tax-Advantaged Bonds, then prior to such substitution, the City must also obtain an opinion from Bond Counsel to the effect that the disposition and substitution or purchase of such securities will not cause adverse federal tax consequences as to any such Defeased Bonds that were issued as Tax-Advantaged Bonds (except to the extent that the City has opted to forego any available tax credit subsidy payment in connection with the original defeasance) and that such disposition and substitution or purchase is in compliance with the applicable statutes and regulations. Any surplus money resulting from the sale, transfer, other disposition, or redemption of the Acquired Obligations and the substitutions therefor shall be released from the trust estate and may be used for any lawful City purpose.

(d) **Defeasance Trust Agreement.** The Director of Finance is authorized to execute one or more Defeasance Trust Agreements with one or more Defeasance Trustees, setting forth the duties, obligations, and responsibilities of the Defeasance Trustee in connection with carrying out the applicable Defeasance Plan. Each Defeasance Trust Agreement and Defeasance Plan must, among other things: (1) identify the Defeasible Bonds

to be defeased and redeemed thereby; (2) contain the elements set forth in the definition of Defeasance Plan set forth in this ordinance, including authorizing and directing the Defeasance Trustee to use the money deposited with it to purchase the Acquired Obligations (or substitute obligations) and to apply such money along with the maturing principal of and interest on such obligations to make the payments required to be made by the Defeasance Plan; and (3) provide for the giving of notices of defeasance and redemption, as required under the Defeased Bond Documents. The Defeasance Trust Agreement may additionally provide for the payment of the costs of administering the Defeasance Plan (including without limitation, all necessary and proper fees, compensation, and expenses of the Defeasance Trustee and all other costs incidental to the setting up of the escrow to accomplish the Defeasance Plan), and for such other related matters as the Director of Finance may deem necessary or expedient.

Section 4. **Redemption of the Defeased Bonds.** The Director of Finance is authorized on behalf of the City to take such actions as may be necessary or convenient to call the Defeased Bonds for redemption. Such call for redemption of the Defeased Bonds shall identify the Defeased Bonds, redemption dates, and redemption prices (expressed as a percentage of the stated principal amount) and shall be irrevocable after the effective date of the Defeasance Trust Agreement. The dates on which the Defeased Bonds are to be called for redemption shall be, in the judgment of the Director of Finance, the earliest practical dates on which those Defeased Bonds may be called for redemption following the effective date of the Defeasance Trust Agreement. The proper City officials are authorized and directed to give or cause to be given such notices as required, at the times and in the manner required pursuant to the Defeased Bond Documents, in order to carry out the Defeasance Plan.

Section 5. **Outstanding Parity Bonds Declared Defeasible.** All outstanding Parity Bonds that have previously been, or may in the future be, designated as “Refundable Bonds” under Ordinance 125461, passed by the City Council on November 20, 2017, and signed by the Mayor on November 22, 2017 (“Omnibus Refunding Ordinance”), as it may be amended from time to time, are declared to be Defeasible

Bonds under this ordinance.

Section 6. **General Authorization.** In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance, and each of the other appropriate officers of the City, are each authorized and directed to do everything as in their judgment may be necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance.

Section 7. **Severability.** The provisions of this ordinance are declared to be separate and severable. If a court of competent jurisdiction, all appeals having been exhausted or all appeal periods having run, finds any provision of this ordinance to be invalid or unenforceable as to any person or circumstance, such offending provision shall, if feasible, be deemed to be modified to be within the limits of enforceability or validity. However, if the offending provision cannot be so modified, it shall be null and void with respect to the particular person or circumstance, and all other provisions of this ordinance in all other respects, and the offending provision with respect to all other persons and all other circumstances, shall remain valid and enforceable.

Section 8. **Ratification of Prior Acts.** Any action taken consistent with the authority of this ordinance, after its passage but prior to its effective date, is ratified, approved, and confirmed.

Section 9. **Section Headings.** Section headings in this ordinance are used for convenience only and shall not constitute a substantive portion of this ordinance.

Section 10. **Effective Date.** This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by
me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the solid waste system of The City of Seattle; providing for the defeasance of the claim or lien of certain of the City’s outstanding solid waste system revenue bonds and payment of the administrative costs of such defeasance; providing for and authorizing the purchase of certain obligations and for the use and application of the money derived from those investments; authorizing the execution of a defeasance trust agreement to establish a defeasance escrow; authorizing the call for redemption prior to their maturity of those outstanding bonds that are to be defeased; and ratifying and confirming certain prior acts.

Summary and background of the Legislation: As part of its duty to manage debt for the City and its utilities, FAS actively monitors opportunities to reduce the interest rates on outstanding debt. One strategy for doing so involves using cash to pre-fund an escrow (a “defeasance escrow”) established to repay the debt on the scheduled payment dates. This legislation authorizes the deposit, from time to time, of Solid Waste System revenues in a defeasance escrow held by a bank for the purpose of paying debt service on, and eventually redeeming at maturity, high-interest rate outstanding bonds. The intent is to save the City and its ratepayers money by reducing its debt service costs.

In the past, issuers of municipal bonds were allowed to refund (refinance) their high interest rate outstanding tax-exempt bonds prior to their call dates (“advance refunding”) by depositing the proceeds of new lower-interest rate tax-exempt bonds into a defeasance escrow for the redemption of those bonds. This enabled cities to trade high interest rate debt for lower interest rate debt, thereby reducing their interest costs. However, the 2017 Tax Cuts and Jobs Act eliminated the ability to do this on a tax-exempt basis, thereby reducing the savings available to the local government.

An alternative strategy (“Debt Optimization”) for capturing the maximum amount of savings for the local government is to use available cash, rather than proceeds of tax-exempt bonds, to fund the defeasance escrow. This may also require reallocating proceeds of new tax-exempt bonds to pay for the capital purposes that would otherwise have been paid with cash. Using a Debt Optimization strategy, FAS can manage the aggregate debt portfolio so that the new debt does not increase the overall debt burden and does not extend the term of outstanding debt. Debt Optimization has the net result of replacing higher interest rate debt with lower interest rate debt, which, of course, reduces overall interest costs for the issuer (and its rate payers).

2. IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

This legislation lowers debt service costs for SPU and is administered by FAS.

- b. Is a public hearing required for this legislation?**
No.
- c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No.
- d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- e. Does this legislation affect a piece of property?**
No.
- f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
N/A
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the municipal water system of The City of Seattle; amending Ordinance 125713 to increase the authorized principal amount of municipal water system revenue bonds to be issued for the purposes of paying all or part of the cost of carrying out the system or plan of additions and betterments to and extensions of the existing municipal water system; extending the initial authorization date for those bonds; and ratifying and confirming certain prior acts.

WHEREAS, by Ordinance 125713, passed on November 19, 2018, (the “2018 Water Bond Ordinance”) The City of Seattle, Washington (the “City”), provided for the issuance of not to exceed \$68.1 million principal amount of Municipal Water System Bonds (the “Bonds”) for the purposes of paying all or part of the cost of carrying out the Plan of Additions, providing for the Reserve Requirement for the Parity Bonds, and issuing and selling the Bonds; and

WHEREAS, the City has not yet issued any of the bonds authorized by the 2018 Water Bond Ordinance, but has since that time accumulated additional capital needs, as reflected in the adopted Capital Improvement Plan previously approved by Council, that are expected to arise during 2021 and which will exceed the amount originally authorized in 2018; and

WHEREAS, the City deems it desirable to increase the authorized principal amount of municipal water system revenue bonds to provide funding for the water system’s current capital needs and to extend date by which such bonds must be issued; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** The definitions of capitalized terms set forth in the recitals to this ordinance are incorporated by this reference. The meaning of capitalized terms used and not otherwise defined in this

ordinance shall be as set forth in Ordinance 125713.

Section 2. **Amendment to Section 2 of Ordinance 125713.** Section 2 of Ordinance 125713 is amended as follows:

Section 2. **Adoption of Plan of Additions.** The City specifies, adopts, and orders the Plan of Additions to be carried out as generally provided for in the documents comprising the Plan of Additions. The estimated cost of the Plan of Additions, as near as may be determined, is declared to be \$531,000,000, of which approximately ((~~\$68.1~~)) \$280 million is expected to be financed from proceeds of the Bonds and investment earnings thereon.

Section 3. **Amendments to Section 5 of Ordinance 125713.** Section 5 of Ordinance 125713 is amended as follows:

Section 5. Appointment of Designated Representative; Bond Sale Terms.

(a) **Designated Representative.** The Director of Finance is appointed to serve as the City's designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and this ordinance.

(b) **Parameters for Bond Sale Terms.** The Director of Finance is authorized to approve, on behalf of the City, Bond Sale Terms for the sale of the Bonds in one or more Series, and, in connection with each such sale, to execute a Bond Purchase Contract (or, in the case of a competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with the following parameters:

(i) **Maximum Principal Amount.** The maximum aggregate principal amount of all Series of the Bonds authorized by this ordinance is not to exceed ((~~\$68.1~~)) \$280 million.

(ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance. The initial Issue Date (without restricting any reissuance date with respect to a

Series of Variable Interest Rate Bonds) may be no later than December 31, ((2021)) 2023.

(iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

(iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, whichever is later, unless otherwise provided in the Bond Documents. Each Series of the Bonds shall bear interest at one or more fixed interest rates or at Variable Interest Rates. The net interest cost for any fixed rate Series may not exceed a rate of 10% per annum. The Bond Documents for any Series may provide for multiple interest rates and interest rate modes, and may provide conditions and mechanisms for the Director of Finance to effect a conversion from one mode to another. Nothing in this ordinance shall be interpreted to prevent the Bond Documents for any Series from including a provision for adjustments to interest rates during the term of the Series upon the occurrence of certain events specified in the applicable Bond Documents.

(v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director of Finance, which shall include payment at the maturity of each Bond, in accordance with any Sinking Fund Requirements applicable to Term Bonds, and otherwise in accordance with any redemption or tender provisions.

(vi) **Final Maturity.** Each Bond shall mature no later than 40 years after its Issue Date.

(vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption and tender provisions, as determined by the Director of Finance in the Director's discretion, consistent with Section 8 and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as subject to optional redemption prior to its maturity. Any Bond that is subject to optional redemption prior to maturity must be callable on at least one or more dates occurring not more than 10½ years after the Issue Date, consistent with Section 8(a).

(B) Mandatory Redemption. The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity on the dates and in principal payment amounts set forth in Sinking Fund Requirements, consistent with Section 8(b).

(C) Extraordinary Redemptions. The Director of Finance may designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent with Section 8(c).

(D) Tender Options. The Director of Finance may designate any Variable Interest Rate Bond as subject to tender options, as set forth in the applicable Bond Documents.

(viii) Price. The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in his or her judgment, the price that produces the most advantageous borrowing cost for the City, consistent with the parameters set forth herein and in any applicable bid documents.

(ix) Other Terms and Conditions.

(A) Expected Life of Capital Facilities. As of the Issue Date of each Series, the Director of Finance must additionally find to his or her satisfaction that the average expected life of the capital facilities to be financed with the proceeds (or allocable share of proceeds) of that Series must exceed the weighted average maturity of such Series (or share thereof) allocated to financing those capital facilities.

(B) Parity Conditions Satisfied. As of the Issue Date of each Series, the Director of Finance must find that the Parity Conditions have been met or otherwise satisfied, so that such Series is permitted to be issued as Parity Bonds.

(C) Additional Terms, Conditions, and Agreements. The Bond Sale Terms for any Series may provide for Bond Insurance, a Reserve Security, Qualified Letter of Credit, credit

enhancement, or for any other Payment Agreement as the Director of Finance may find necessary or desirable. The Bond Sale Terms for any Series may provide for multiple interest rate modes and may include provisions for conversion from any interest rate mode to any other mode. To that end, the Bond Sale Terms may include such additional terms, conditions, and covenants as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of the Bonds), provisions for the conversion of interest rate modes, provisions for the reimbursement of a credit enhancement provider or Qualified Counterparty, and requirements to give notice to or obtain the consent of a credit enhancement provider or a Qualified Counterparty. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants.

(D) **Reserve Requirement.** The Bond Sale Terms must establish whether the Series is to be treated as Covered Parity Bonds and must establish the method of providing for the Reserve Requirement, consistent with Section 15.

(E) **Tax Status of the Bonds.** The Director of Finance may determine that any Series of the Bonds may be designated or qualified as Tax-Exempt Bonds, Taxable Bonds or Tax Credit Subsidy Bonds, consistent with Section 22.

Section 4. **General Authorization.** In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance and each of the other appropriate officers of the City are each authorized and directed to do everything as in their judgment may be necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance.

Section 5. **Severability.** The provisions of this ordinance are declared to be separate and severable. If a court of competent jurisdiction, all appeals having been exhausted or all appeal periods having run, finds any provision of this ordinance to be invalid or unenforceable as to any person or circumstance, such offending

provision shall, if feasible, be deemed to be modified to be within the limits of enforceability or validity. However, if the offending provision cannot be so modified, it shall be null and void with respect to the particular person or circumstance, and all other provisions of this ordinance in all other respects, and the offending provision with respect to all other persons and all other circumstances, shall remain valid and enforceable.

Section 6. **Ratification of Prior Acts.** Actions taken consistent with this ordinance, after its passage but prior to the effective date, are ratified, approved, and confirmed.

Section 7. **Section Headings.** Section headings in this ordinance are used for convenience only and shall not constitute a substantive portion of this ordinance.

Section 8. **Effective Date.** This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
FAS/SPU	Michael Van Dyck / 4-8347 Maria Coe / 3-7905	S. Reddy / 5-1232 A. Iynegar / 4-0716

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the municipal water system of The City of Seattle; amending Ordinance 125713 to increase the authorized principal amount of municipal water system revenue bonds to be issued for the purposes of paying all or part of the cost of carrying out the system or plan of additions and betterments to and extensions of the existing municipal water system; extending the initial authorization date for those bonds; and ratifying and confirming certain prior acts.

Summary and background of the Legislation:

This legislation amends Ordinance 25713 by increasing borrowing authority for the Water Fund for the purposes of financing the Capital Improvement Program and for potential defeasance/optimization purposes. Debt optimization involves replacing high interest debt with low interest debt to reduce overall interest costs – without increasing the debt burden or extending the term of outstanding debt.

Although the budget, capital plan and rates make specific assumptions about the use of debt financing for a certain share of the capital program, separate authorization for the issuance of bonds is technically required.

A Water bond sale for \$280 million of fixed rate debt is anticipated to occur in mid-2021. This would include up to \$130 million of new money and \$150 million for debt optimization. The new money bond proceeds combined with internally generated funds will support the Waters capital program for about one year. The bond proceeds will also be used to make a deposit to the bond reserve fund and to pay issuance costs. Bonds would have a maximum maturity of 30 years. No debt service payments are expected in 2021. Debt optimization involves replacing high interest debt with low interest debt to reduce overall interest costs – without increasing the debt burden or extending the term of outstanding debt.

Major projects supported by the bond issue include: transmission and distribution, water quality and treatment, and projects related to Move Seattle. For further information about the Water capital projects, please see the 2020-2025 capital plan.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
This legislation affects FAS, who coordinates the issuance of the bonds.
- b. **Is a public hearing required for this legislation?**
No
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No
- e. **Does this legislation affect a piece of property?**
No
- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
None/No
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**
No

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the municipal water system of The City of Seattle; providing for the defeasance of the claim or lien of certain of the City's outstanding water system revenue bonds and payment of the administrative costs of such defeasance; providing for and authorizing the purchase of certain obligations and for the use and application of the money derived from those investments; authorizing the execution of a defeasance trust agreement to establish a defeasance escrow; authorizing the call for redemption prior to their maturity of those outstanding bonds that are to be defeased; and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle (the "City") owns, maintains, and operates a municipal water system as part of Seattle Public Utilities (the "Municipal Water System"), which Municipal Water System has from time to time required various additions, improvements, betterments, and extensions; and

WHEREAS, the City has previously authorized and issued, and may from time to time in the future authorize and issue, water system revenue bonds having a charge and lien on the Net Revenue of the Water System prior and superior to any other charges whatsoever ("Parity Bonds"), which are designated as defeasible under this ordinance (the "Defeasible Bonds"); and

WHEREAS, it is advantageous to the City and its ratepayers to provide for the application of available Net Revenues or other available funds (other than proceeds of Tax-Advantaged Bonds) to defease outstanding Defeasible Bonds whenever the Director of Finance determines that such defeasance will achieve a long-term cost savings or other benefit to the City or its ratepayers, all as permitted under chapter 39.53 RCW; and

WHEREAS, the City has determined that it is in the best interest of the City and its ratepayers to authorize, subject to the provisions of this ordinance, the Director of Finance to carry out the defeasance and

redemption of all or any portion of the Defeasible Bonds and to pay the administrative costs of carrying out the defeasance of those Defeasible Bonds; and

WHEREAS, pursuant to the authority delegated in this ordinance, the Director of Finance from time to time will receive, review and adopt a plan (a “Defeasance Plan”) to defease selected maturities (or partial maturities) of certain series of those Defeasible Bonds, which selected series and maturities (or partial maturities) will be identified in the Defeasance Plan, and to carry out the defeasance and redemption of any Defeasible Bonds as the Director of Finance may deem in the best interests of the City and its ratepayers; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** As used in this ordinance, the following capitalized terms shall have the meanings set forth below:

“**Acquired Obligations**” means Government Obligations maturing or having guaranteed redemption prices at the option of the holder at such time or times as may be required to provide funds sufficient to carry out the Defeasance Plan, and satisfying the requirements of the Defeased Bond Documents relating to the Defeased Bonds included in that Defeasance Plan. For purposes of this definition, eligible “Government Obligations” for inclusion in a Defeasance Plan shall be determined in accordance with the applicable Defeased Bond Documents.

“**Bond Counsel**” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“**City**” means The City of Seattle, Washington, a municipal corporation duly organized and existing under the laws of the State.

“**City Council**” means the City Council of the City, as duly and regularly constituted from time to time.

“**Code**” means the Internal Revenue Code of 1986, or any successor thereto, as it has been and may be amended from time to time, and regulations thereunder.

“Defeasance Plan” means the plan approved by the Director of Finance pursuant to the delegation set forth herein to accomplish the defeasance and redemption of the identified Defeasible Bonds. Each Defeasance Plan must identify the maturities (or partial maturities) and series of Defeasible Bonds to be defeased and redeemed thereby, and must provide for their defeasance and/or redemption, substantially as follows, with such additional detail and adjustments to be set forth in the Defeasance Trust Agreement as the Director of Finance may deem necessary or desirable:

- (a) The City shall deposit available Net Revenue of the Municipal Water System, and such other money (other than proceeds of Tax-Advantaged Bonds) as may be included in the plan by the Director of Finance, into a defeasance escrow or trust account held by the Defeasance Trustee;
- (b) Upon receipt of a certification or verification by a certified public accounting firm or financial advisor that the amounts deposited with it will be sufficient to accomplish the defeasance and redemption as described in such Defeasance Trust Agreement, the Defeasance Trustee shall invest such escrow deposits in the Acquired Obligations specified therein (unless directed in the Defeasance Trust Agreement to hold such deposits uninvested) and shall establish a beginning cash balance; and
- (c) As further directed in the Defeasance Trust Agreement, the Defeasance Trustee shall apply the amounts received as interest on and maturing principal of such Acquired Obligations (together with any cash balance in the defeasance trust account) to call, pay, and redeem those Defeasible Bonds on the dates and times identified in the plan, and (if so directed) to pay the administrative costs of carrying out the foregoing.

If the Director of Finance serves as the Defeasance Trustee, the Director of Finance shall approve a written Defeasance Plan (which need not be set forth in a Defeasance Trust Agreement) providing that the escrow funds are to be held separate and apart from all other funds of the City and are to be applied substantially as set forth above.

“Defeasance Trust Agreement” means an escrow or trust agreement between the City and a Defeasance Trustee as described in Section 3(d) of this ordinance.

“Defeasance Trustee” means the Director of Finance, or a financial institution selected by the Director of Finance, serving in the capacity of Defeasance Trustee or escrow agent under a Defeasance Trust Agreement.

“Defeased Bond Documents” means (a) the ordinance(s) authorizing the issuance of the Defeased Bonds; (b) the authenticated bond form; and (c) the written agreement(s) setting forth the terms, conditions, or covenants pursuant to which such bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance), (iii) a bond indenture or a fiscal agent or paying agent agreement (other than the State fiscal agency contract), and (iv) a direct purchase or continuing covenant agreement.

“Defeased Bonds” means those Defeasible Bonds identified in a Defeasance Plan in accordance with this ordinance.

“Defeasible Bonds” means each series of Parity Bonds that have been designated, or may in the future be designated, as defeasible under this ordinance, including: (a) each series of Outstanding Parity Bonds listed in Exhibit A; and (b) each series of Future Parity Bonds designated by the City as Defeasible Bonds.

“Director of Finance” means the Director of the Finance Division of the Department of Finance and Administrative Services of the City, or any other officer who succeeds to substantially all of the responsibilities of that office.

“Government Obligations” means, unless otherwise defined in the Defeased Bond Documents, any government obligation as that term is defined in RCW 39.53.010, as now in effect or as may be hereafter amended.

“Gross Revenue” means (a) all income, revenues, receipts and profits derived by the City through the ownership and operation of the Municipal Water System; (b) the proceeds received by the City directly or indirectly from the sale, lease or other disposition of any of the properties, rights or facilities of the Municipal Water System; (c) Payment Agreement Receipts, to the extent that such receipts are not offset by Payment Agreement Payments; and (d) the investment income earned on money held in any fund or account of the City,

including any bond redemption funds and the accounts therein, in connection with the ownership and operation of the Municipal Water System. Gross Revenue does not include: (a) income derived from investments irrevocably pledged to the payment of any defeased bonds payable from Gross Revenue; (b) investment income set aside for or earned on money in any fund or account created or maintained solely for the purpose of complying with the arbitrage rebate provisions of the Code; (c) any gifts, grants, donations, or other funds received by the City from any State or federal agency or other person if such gifts, grants, donations or other funds are the subject of any limitation or reservation imposed by the donor or grantor or imposed by law or administrative regulation to which the donor or grantor is subject, limiting the application of such funds in a manner inconsistent with the application of Gross Revenue hereunder; (d) the proceeds of any borrowing for capital improvements (or the refinancing thereof); (e) the proceeds of any liability or other insurance, including but not limited to insurance proceeds compensating the City for the loss of a capital asset, but excluding business interruption insurance or other insurance of like nature insuring against the loss of revenues; (f) general ad valorem taxes, excise taxes and special assessments (other than ULID Assessments), including interest and penalties thereon; and (g) earnings of any separate utility system that may be created, acquired, or constructed by the City in accordance with the provisions for a separate system in the Defeased Bond Documents.

“Municipal Water System” means the water system of the City as it now exists, and all additions thereto and betterments and extensions thereof at any time made, together with any utility systems of the City hereafter combined with the Municipal Water System. The Municipal Water System shall not include any separate utility system that may be created, acquired, or constructed by the City as provided in the Defeased Bond Documents.

“Net Revenue” means, for any period, Gross Revenue less Operating and Maintenance Expense.

“Omnibus Defeasance Ordinance” means this ordinance (as it may be amended from time to time) or any other ordinance of the City passed in the future, authorizing the defeasance and redemption of Defeasible

Bonds.

“Operating and Maintenance Expense” means all expenses incurred by the City in causing the Municipal Water System to be operated and maintained in good repair, working order and condition, including without limitation: (a) deposits, premiums, assessments or other payments for insurance, if any, on the Municipal Water System; (b) payments into pension funds; (c) State-imposed taxes; (d) amounts due under Contract Resource Obligations in accordance with the provisions of the Defeased Bond Documents; (e) payments made to another person or entity for the receipt of water supply or transmission or other commodity or service; and (f) payments with respect to any other expenses of the Municipal Water System that are properly treated as Operating and Maintenance Expense under generally accepted accounting principles applicable to municipal corporations, including payments (other than payments out of proceeds of Parity Bonds or other obligations not issued to pay current expenses of the Municipal Water System) into reasonable reserves for items of operating or maintenance expense the payment of which is not immediately required. Operating and Maintenance Expense does not include: depreciation, amortization, or other similar recognitions of non-cash expense items made for accounting purposes only including non-cash pension expense; taxes levied or imposed by the City or payments in lieu of City taxes; payments of claims or judgments; or capital additions or capital replacements of the Municipal Water System.

“Outstanding Parity Bonds” means those outstanding Parity Bonds identified in Exhibit A. When used in reference to a particular date (or in reference to a particular series of Parity Bonds), Outstanding Parity Bonds shall mean those Parity Bonds, including any Parity Bonds issued subsequent to the date of this ordinance, that are outstanding as of that date (or as of the issue date of the referenced series of Parity Bonds).

“Parity Bond Account” means the Water Revenue Parity Bond Account created by Ordinance 116705 in the Water Fund for the purpose of paying and securing payment of the principal of and interest on Parity Bonds.

“Parity Bonds” means water system revenue obligations payable solely from the Parity Bond Account

having a charge and lien on the Net Revenue of the Municipal Water System prior and superior to any other charges whatsoever.

“Tax-Advantaged Bond” means any bond or other financial obligation issued by the City, (a) the interest on which is intended on its issue date to be excludable from gross income for federal income tax purposes, or (b) that is designated by the City as a tax credit bond pursuant to the Code, and which is further designated as a “qualified bond” under Section 6431 (or substantively similar provision of the Code), and with respect to which the City is eligible to claim a tax credit subsidy payment in respect of interest on the obligation.

“Water Fund” means the fund of that name into which is paid the Gross Revenue of the Municipal Water System.

Section 2. **Finding With Respect to Defeasance.** The City Council hereby finds that the irrevocable deposit of money and securities with a Defeasance Trustee, verified or certified as to sufficiency in accordance with a Defeasance Plan approved pursuant to this ordinance, will discharge and satisfy the obligations of the City as to the Defeased Bonds identified therein, including all pledges, charges, trusts, covenants, and agreements under the applicable Defeased Bond Documents. Immediately upon such deposit, the Defeased Bonds identified in such Defeasance Plan shall be defeased and shall no longer be deemed to be outstanding under the applicable Defeased Bond Documents.

The City Council finds and determines that it is in the best interest of the City and its taxpayers that the City carry out a Defeasance Plan approved by the Director of Finance as provided for in this ordinance and hereby ratifies and approves any such Defeasance Plan.

Section 3. **Defeasance of the Defeased Bonds.**

(a) **Approval of Defeasance Plan; Appointment of Defeasance Trustee.** The Director of Finance is authorized and directed to select a Defeasance Trustee and to negotiate, execute, and deliver a Defeasance Trust Agreement setting forth a Defeasance Plan for each series of Defeasible Bonds (or portion thereof) to be

defeased and redeemed pursuant to this ordinance, in accordance with subsection (d) of this section. Multiple Defeasance Plans may be combined in a single Defeasance Trust Agreement. The Defeasance Plan shall be carried out, and the money on deposit in the defeasance escrow shall be applied, in accordance with this ordinance, the respective Defeased Bond Documents, the Defeasance Trust Agreement, and the laws of the State.

(b) **Acquisition of Acquired Obligations.** To the extent practicable and desirable, the Defeasance Plan shall provide for the Defeasance Trustee's purchase of Acquired Obligations, bearing such interest and maturing as to principal and interest in such amounts and at such times so as to provide, together with a beginning cash balance, if necessary, for the timely payment of the amounts required to be paid by the Defeasance Plan. The Acquired Obligations shall be listed and more particularly described in a schedule attached to the Defeasance Trust Agreement, but are subject to substitution as set forth in subsection (c) below.

(c) **Substitution of Acquired Obligations.** The City reserves the right at any time to substitute cash or other Government Obligations (as defined in the applicable Defeased Bond Documents) for the Acquired Obligations if the City obtains a verification by a nationally recognized independent certified public accounting firm reasonably acceptable to the Defeasance Trustee confirming that the payments of principal of and interest on the substitute obligations, if paid when due, together with the cash to be held by the Defeasance Trustee, will be sufficient to carry out the Defeasance Plan. If the applicable Series of Defeased Bonds were issued as Tax-Advantaged Bonds, then prior to such substitution, the City must also obtain an opinion from Bond Counsel to the effect that the disposition and substitution or purchase of such securities will not cause adverse federal tax consequences as to any such Defeased Bonds that were issued as Tax-Advantaged Bonds (except to the extent that the City has opted to forego any available tax credit subsidy payment in connection with the original defeasance) and that such disposition and substitution or purchase is in compliance with the applicable statutes and regulations. Any surplus money resulting from the sale, transfer, other disposition or redemption of the Acquired Obligations and the substitutions therefor shall be released from the trust estate and

may be used for any lawful City purpose.

(d) **Defeasance Trust Agreement.** The Director of Finance is authorized to execute one or more Defeasance Trust Agreements with one or more Defeasance Trustees, setting forth the duties, obligations, and responsibilities of the Defeasance Trustee in connection with carrying out the applicable Defeasance Plan. Each Defeasance Trust Agreement and Defeasance Plan must, among other things: (1) identify the Defeasible Bonds to be defeased and redeemed thereby; (2) contain the elements set forth in the definition of Defeasance Plan set forth in this ordinance, including authorizing and directing the Defeasance Trustee to use the money deposited with it to purchase the Acquired Obligations (or substitute obligations) and to apply such money along with the maturing principal of and interest on such obligations to make the payments required to be made by the Defeasance Plan; and (3) provide for the giving of notices of defeasance and redemption, as required under the Defeased Bond Documents. The Defeasance Trust Agreement may additionally provide for the payment of the costs of administering the Defeasance Plan (including without limitation, all necessary and proper fees, compensation, and expenses of the Defeasance Trustee and all other costs incidental to the setting up of the escrow to accomplish the Defeasance Plan), and for such other related matters as the Director of Finance may deem necessary or expedient.

Section 4. **Redemption of the Defeased Bonds.** The Director of Finance is authorized on behalf of the City to take such actions as may be necessary or convenient to call the Defeased Bonds for redemption. Such call for redemption of the Defeased Bonds shall identify the Defeased Bonds, redemption dates and redemption prices (expressed as a percentage of the stated principal amount) and shall be irrevocable after the effective date of the Defeasance Trust Agreement. The dates on which the Defeased Bonds are to be called for redemption shall be, in the judgment of the Director of Finance, the earliest practical dates on which those Defeased Bonds may be called for redemption following the effective date of the Defeasance Trust Agreement. The proper City officials are authorized and directed to give or cause to be given such notices as required, at the times and in the manner required pursuant to the Defeased Bond Documents, in order to carry out the

Defeasance Plan.

Section 5. **Outstanding Parity Bonds Declared Defeasible**. All outstanding Parity Bonds that have previously been, or may in the future be, designated as “Refundable Bonds” under Ordinance 125714, passed by the City Council on November 19, 2018 and signed by the Mayor on November 26, 2018 (the “Omnibus Refunding Ordinance”), as it may be amended from time to time, are declared to be Defeasible Bonds under this ordinance.

Section 6. **General Authorization**. In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance and each of the other appropriate officers of the City is each authorized and directed to do everything as in their judgment may be necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance.

Section 7. **Severability**. The provisions of this ordinance are declared to be separate and severable. If a court of competent jurisdiction, all appeals having been exhausted or all appeal periods having run, finds any provision of this ordinance to be invalid or unenforceable as to any person or circumstance, such offending provision shall, if feasible, be deemed to be modified to be within the limits of enforceability or validity. However, if the offending provision cannot be so modified, it shall be null and void with respect to the particular person or circumstance, and all other provisions of this ordinance in all other respects, and the offending provision with respect to all other persons and all other circumstances, shall remain valid and enforceable.

Section 8. **Ratification of Prior Acts**. Any action taken consistent with the authority of this ordinance, after its passage but prior to the effective date, is ratified, approved, and confirmed.

Section 9. **Section Headings**. Section headings in this ordinance are used for convenience only and shall not constitute a substantive portion of this ordinance.

Section 10. **Effective Date**. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it

shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by
me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

Jenny A. Durkan, Mayor

FAS	Michael Van Dyck 206-619-0393	Caleb Wagenaar (206) 733-9228

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the municipal water system of The City of Seattle; providing for the defeasance of the claim or lien of certain of the City’s outstanding water system revenue bonds and payment of the administrative costs of such defeasance; providing for and authorizing the purchase of certain obligations and for the use and application of the money derived from those investments; authorizing the execution of a defeasance trust agreement to establish a defeasance escrow; authorizing the call for redemption prior to their maturity of those outstanding bonds that are to be defeased; and ratifying and confirming certain prior acts.

Summary and background of the Legislation: As part of its duty to manage debt for the City and its utilities, FAS actively monitors opportunities to reduce the interest rates on outstanding debt. One strategy for doing so involves using cash to pre-fund an escrow (a “defeasance escrow”) established to repay the debt on the scheduled payment dates. This legislation authorizes the deposit, from time to time, of Water System revenues in a defeasance escrow held by a bank for the purpose of paying debt service on, and eventually redeeming at maturity, high-interest rate outstanding bonds. The intent is to save the City and its ratepayers money by reducing its debt service costs.

In the past, issuers of municipal bonds were allowed to refund (refinance) their high interest rate outstanding tax-exempt bonds prior to their call dates (“advance refunding”) by depositing the proceeds of new lower-interest rate tax-exempt bonds into a defeasance escrow for the redemption of those bonds. This enabled cities to trade high interest rate debt for lower interest rate debt, thereby reducing their interest costs. However, the 2017 Tax Cuts and Jobs Act eliminated the ability to do this on a tax-exempt basis, thereby reducing the savings available to the local government.

An alternative strategy (“Debt Optimization”) for capturing the maximum amount of savings for the local government is to use available cash, rather than proceeds of tax-exempt bonds, to fund the defeasance escrow. This may also require reallocating proceeds of new tax-exempt bonds to pay for the capital purposes that would otherwise have been paid with cash. Using a Debt Optimization strategy, FAS can manage the aggregate debt portfolio so that the new debt does not increase the overall debt burden and does not extend the term of outstanding debt. Debt Optimization has the net result of replacing higher interest rate debt with lower interest rate debt, which, of course, reduces overall interest costs for the issuer (and its rate payers).

2. IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
This legislation lowers debt service costs for SPU and is administered by FAS.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No.
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- e. **Does this legislation affect a piece of property?**
No.
- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
N/A
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

CITY OF SEATTLE
ORDINANCE _____
COUNCIL BILL _____

AN ORDINANCE relating to Admission Tax revenue; amending Section 5.40.120 of the Seattle Municipal Code.

WHEREAS, Ordinance 121006 reorganized the Seattle Arts Commission (SAC) into a new Executive

department, the Office of Arts and Cultural Affairs (now called the Office of Arts & Culture (ARTS)); recreated SAC as an advisory body; set forth duties of ARTS and SAC, and the budget role of SAC; and affirmed ARTS use of 20 percent of the City's Admission Tax revenues; and

WHEREAS, Ordinance 123155 increased the portion of the Admission Tax revenue directed to ARTS from 20 percent to 75 percent, and established these revenues, rather than General Fund resources, as the key source for ARTS funding; and

WHEREAS, Ordinance 123155 clarified that the City Council's dedication of a portion of the City's Admission Tax revenues to arts and culture was intended to provide a "relatively stable, reliable and dedicated revenue stream to fund [ARTS] core programs"; and

WHEREAS, Ordinance 125496 allocated all Admission Tax revenue to ARTS; and

WHEREAS, Ordinance 125672 added payment of the City's rent adjustment obligation to Seattle Arena Company, LLC to the purposes for which Admission Tax revenue would be appropriated; and

WHEREAS, Ordinance 125695 clarified that payment of the City's contractual obligations is not the only purpose for which Admission Tax revenue would be appropriated; and

WHEREAS, for simplicity of administration, depositing Admission Tax receipts where the great majority of the revenues will be spent, namely the Arts and Culture Fund, would be best;

NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 5.40.120 of the Seattle Municipal Code, last amended by Ordinance 125695, is amended as follows:

5.40.120 Receipts to ((General)) Arts and Culture Fund

A. Beginning January 1, ((2018)) 2022, all receipts from the admission tax levied in this Chapter 5.40 shall be deposited into the ((General)) Arts and Culture Fund.

B. Admission tax revenue in the ((General)) Arts and Culture Fund shall be annually appropriated:

1. To the Office of Arts and Culture to support the following purposes:

- a. Arts-related programs and one-time capital expenditures that keep artists living, working, and creatively challenged in Seattle;
 - b. Initiatives and programs to build community through the arts and create opportunities for the public to intersect with artists and their work;
 - c. Initiatives and programs that provide art opportunities for youth in and out of school;
- and

2. For payment of the City's rent adjustment obligations to Seattle Arena Company, LLC or its permitted successors and assigns under the Lease Agreement (Arena at Seattle Center) between The City of Seattle and Seattle Arena Company, LLC, Attachment 1 to Ordinance 125669 (as may be amended or modified in accordance with its terms) (the "Arena Lease"), and only to the extent that such annual appropriation does not exceed the total admission tax revenues generated through operations of the arena at the Seattle Center for that calendar year, minus the amount of the Rent Adjustment Threshold for Admission Tax revenues identified in Article III, Section 6 of the Arena Lease.

* * *

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by
me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2020.

Monica Martinez Simmons, City Clerk

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
City Budget Office		William Chen/206-233-7274

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to Admission Tax revenue; amending Section 5.40.120 of the Seattle Municipal Code.

Summary and background of the Legislation: Admission Tax is currently received into the General Fund and is appropriated to the Office of Arts & Culture (ARTS) based on the total collected two years prior to the current budget year. This change would simplify administration of Admission Tax as ARTS' operating revenue by receipting Admission Tax directly into the Arts and Culture Fund. ARTS will also move to budgeting Admission Tax funds within the same year of collection, bringing ARTS/Arts and Culture Fund/Admission Tax administrative methodology in line with how other funds, like the General Fund, are budgeted, appropriated, and spent.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No

Is there financial cost or other impacts of *not* implementing the legislation?
No

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
No
- b. **Is a public hearing required for this legislation?**
No

- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**

No

- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**

No

- e. **Does this legislation affect a piece of property?**

No

- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**

This legislation is a change in administrative procedure that simplifies and clarifies the financial situation of the Arts and Culture Fund and Admission Tax revenues. It does not affect programmatic policies or funding of programs.

- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

Not applicable.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to Seattle Center parking charges; amending Section 17.19.010 of the Seattle Municipal Code (SMC) to modify terms of the monthly parking program and permits issued to short-term premises licensees, increase parking enforcement fees and maximum price for the premium parking program, adjust Special Parking charges, and revise online customer transaction fees to align with SMC 5.22.020.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 17.19.010 of the Seattle Municipal Code, last amended by Ordinance 125700, is amended as follows:

17.19.010 Seattle Center parking charges

A. Authorization to (~~((Establish Charges))~~) establish charges. The Seattle Center Director may establish, by rules adopted pursuant to Chapter 3.02, (~~((of the Seattle Municipal Code, Regular and Special))~~) regular and special charges for the use of parking facilities operated by the Seattle Center Department, whether or not located within the bounds of the Seattle Center as defined by Ordinance 90160. All parking charges shall be inclusive of any taxes.

B. Regular charges. The regular Seattle Center parking (“Regular Parking”) charges shall be composed of two types of charges: daily charges and monthly charges. Regular Parking charges shall apply to all vehicles (including vehicles displaying disabled permits) unless the vehicle qualifies for a Special Parking charge pursuant to this Section 17.19.010 or rules adopted under this Section 17.19.010. The Regular Parking charge shall be prorated commensurate with the size and number of parking space(s) required by vehicles, such as motorcycles, mopeds, buses, and other over- or undersized vehicles.

1. Daily parking. Daily charges shall be determined by the Director with consideration for demand and shall not be less than \$1 for the first hour of parking nor greater than \$45 for any 12-hour period.

2. ~~((Monthly))~~ Designated-hours monthly parking. Monthly parking charges shall be not less than \$85 nor greater than \$250 for a monthly parking permit, valid on a space-available basis for designated hours. The monthly parking charge may be prorated when a monthly parking permit is purchased for only a portion of a month, in accordance with rules adopted under this Section 17.19.010.

C. Special Parking charges. At the discretion of the Seattle Center Director or the Director's designee, special Seattle Center parking ("Special Parking") charges may be established as follows:

1. Monthly parking discounts. For the simultaneous purchase, not for resale at a profit, of ten or more monthly parking permits for a given month, a discounted charge equal to not less than ~~((75))~~ 60 percent of the monthly parking charge.

2. Parking scrip. For the ~~((simultaneous))~~ purchase of a parking scrip, not for resale at a profit, a discounted charge equal to not less than ~~((75))~~ 60 percent of the Regular Parking charge therefor.

3. Premium parking program. For the privilege of participating in the Seattle Center Facility premium parking program (under which a non-designated parking space in such garage is reserved for the participant), a charge of not more than ~~((75))~~ \$100 for the period of time coinciding with the event. ~~((reservation plus a service charge of the greater of \$25 or one percent of each parking order.))~~

4. In excess of 12 hours. For parking in excess of 12 hours, up to a total of 24 hours, a fee equal to each 12-hour applicable event or non-event parking charge for the designated location.

5. Parking coupons. For the privilege of having the Seattle Center Department honor parking coupons, a charge per event as follows: If the Seattle Center Department incurs any costs for the production of the parking coupons or any incremental staffing costs due to their use, then the greater of the Regular Parking charges that would apply to the parking of all vehicles for which the parking coupons are used plus the incremental staffing costs and actual production costs incurred by the Seattle Center Department, or a charge of

not less than \$1, nor more than \$45 for the period of time coinciding with the event plus a service charge of the greater of \$25 or one percent of each parking order. For purposes of this subsection 17.19.010.C.5, a “parking coupon” is a coupon authorized in advance by the Seattle Center Director or the Director’s designee, containing at a minimum the limitations, conditions, and instructions specified by the Director or the Director’s designee, that is distributed by the sponsor of an event or activity expected to require the use of parking facilities operated by the Seattle Center Department, and that is surrendered by the driver of a vehicle at a parking facility operated by the Seattle Center Department in lieu of payment at the time of parking there.

6. Short-term premises licensees. For the purchase of a permit issued to short-term premises licensees for use of Seattle Center parking facilities for a specified duration, a charge of not less than \$15 and not more than \$45 (~~(per day)~~) for any 12-hour period.

7. Other parking charges

a. For the replacement of a lost monthly parking access card, a charge of not less than \$5 and not more than \$15.

b. For a purchase of monthly parking after the close of the announced monthly parking sales period, a charge of \$15.

c. For the online customer transaction fee, (~~(for the purchase of monthly parking,)~~) a charge (~~((of not more than \$5 and not less than \$3))~~) consistent with Section 5.22.020.

d. For a lost parking facility entry ticket, an amount of not more than twice the 12-hour fee in place at time of entry.

e. For exceeding the designated hours limitation for designated-hours monthly parking, a fee equal to each 12-hour applicable event or non-event parking charge for the designated location.

D. Permits for parking without charge. At the discretion of the Seattle Center Director, parking permits may be issued, without charge, to individuals providing uncompensated service to the Seattle Center Department or to the Seattle Center Advisory Commission, to any officer or employee of The City of Seattle or

other governmental entity, or to any person in order to facilitate any contractor engaged in a construction or demolition project at Seattle Center, to enhance public safety, or to align with the Department's race and social justice goals.

E. When parking charges due and payable. All parking charges imposed pursuant to this Section 17.19.010 shall be due and payable in advance or as of the commencement of the use of the subject parking area except when (1) a short-term premises licensee has contracted to pay for parking fees as part of the Seattle Center Licensing Agreement, (2) a parking coupon is used, pursuant to subsection 17.19.010.C.5, (3) a client is invoiced for parking charges and pays according to standard Seattle Center invoicing provisions, or (4) automated parking equipment installed in the parking facility prohibits exiting the facility unless proof of payment is provided.

F. Enforcement of parking charges. A parking surcharge equal to no more than ~~((Five Dollars (\$5.00)))~~ \$10 shall be due and payable whenever the applicable parking charge has not been paid at or before the time such parking charge became due and payable. An additional parking surcharge equal to no more than ~~((Twenty Dollars (\$20.00)))~~ \$30 shall be due and payable whenever the applicable parking charge or the first surcharge has not been paid within ~~((fourteen (14)))~~ 14 days after the time the parking charge became due and payable. At the discretion of the Director, the Department may allow all or a portion of the parking surcharges collected by an agent to be retained by the agent in exchange for said agent's collection and remittance of the parking charge to the Seattle Center.

G. ~~((Nonpublic Parking Use of Parking Facilities))~~ Non-public use of parking facilities. The Seattle Center Director or such official's designee is hereby authorized to execute, on behalf of the City, licensing agreements for the use of all or a portion of a parking facility for a client's exclusive use for such times as such facility is not required for public parking or in use by contract made pursuant to a specific ordinance, at a discounted charge equal to not less than ~~((fifty (50)))~~ 50 percent of the ~~((Nonevent))~~ non-event charge therefor.

Section 2. Section 1 of this ordinance shall take effect January 1, 2021.

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to Seattle Center parking charges; amending Section 17.19.010 of the Seattle Municipal Code (SMC) to modify terms of the monthly parking program and permits issued to short-term premises licensees, increase parking enforcement fees and maximum price for the premium parking program, adjust Special Parking charges, and revise online customer transaction fees to align with SMC 5.22.020.

Summary and background of the Legislation:

This legislation amends the Seattle Municipal Code to modify the terms of the monthly parking program to clarify that monthly parking is for designated hours only, establishes an enforcement fee when those hours are exceeded and adjusts the maximum volume discount for the purchase of monthly parking permits. The legislation also increases the parking enforcement fees and raises the maximum price for the premium parking program to align with the premium parking fee that will be used at Climate Pledge Arena. Additionally, the legislation modifies various Special Parking charges and adjusts the permit fees for short-term premise licenses, so they are based on a 12-hour use period like the regular parking fees and aligns the online transaction fees with the requirements of SMC 5.22.020.

The monthly parking programs changes are primarily being requested to address issues related to residential parking near Seattle Center. As rents and associated parking fees near Seattle Center increase, some members of the public have purchased monthly parking at Seattle Center rather than utilize parking options at their place of residence. This practice of treating Seattle Center parking spaces like a personal garage has reduced availability of parking for event patrons and is not the intent of the monthly parking program. The legislation clarifies that monthly parking is for designated hours use only and establishes an enforcement fee if the limitations are not respected. The remainder of the changes are to better align Seattle Center's parking policies with the current parking program and rates and with city-wide policies regarding online transaction fees.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

No.

Is there financial cost or other impacts of *not* implementing the legislation?

The most significant impact of not implementing the legislation would be a reduction in the number of parking spaces available for public use for events and the continuation of some internal inconsistencies in parking policies as well inconsistencies with current city policies regarding online transaction fees.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

No

b. Is a public hearing required for this legislation?

No

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

No

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No

e. Does this legislation affect a piece of property?

No

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

There are no perceived implications for the principles of the Race and Social Justice Initiative. Parking information is provided on the Seattle Center website. Questions are addressed by both Transportation Services staff and Customer Service staff and translation assistance is available upon request.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to adjusting the nine-year Move Seattle Levy appropriation amounts for Levy core categories established by Ordinance 124796, the Levy to Move Seattle; all by a $\frac{3}{4}$ vote of the City Council.

WHEREAS, in 2015, Ordinance 124796 submitted to the qualified electors of the City a property tax levy for the purpose of raising up to \$930,000,000 over nine years for transportation improvement purposes; and

WHEREAS, Section 6 of Ordinance 124796 established aggregate nine-year Levy proceeds appropriation amounts for each Levy core category; and

WHEREAS, Section 6 of Ordinance 124796 states, “The nine-year appropriation amounts of Levy Proceeds for each core category established in this Section 6 may be changed by up to ten percent of the amount listed for each core category by separate ordinance, after the Levy Oversight Committee has been given an opportunity to comment”; and

WHEREAS, Section 6 further states, “The nine-year appropriations amount of Levy Proceeds for each core category established in this Section 6 may be changed by more than ten percent of the amount listed for each core category by a $\frac{3}{4}$ vote of City Council;” and

WHEREAS, the COVID-19 pandemic and associated decline in revenues have resulted in the need for significant shifts across the Seattle Department of Transportation budgets; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. The Seattle Department of Transportation is authorized to make the following proposed appropriation changes across Move Seattle Levy (“Levy”) categories:

- (a) Safe Routes category.
 - a. Original nine-year appropriation amount: \$207,000,000
 - b. Proposed nine-year appropriation amount: \$240,821,530
 - c. Percent change in appropriation: +16.3%
- (b) Congestion Relief category.
 - a. Original nine-year appropriation amount: \$303,000,000
 - b. Proposed nine-year appropriation amount: \$285,669,270
 - c. Percent change in appropriation: -5.7%
- (c) Maintenance and Repair category.
 - a. Original nine-year appropriation amount: \$420,000,000
 - b. Proposed nine-year appropriation amount: \$397,774,822
 - c. Percent change in appropriation: -5.3%

Section 2. The appropriation changes to the three Levy core categories listed in Section 1 of this ordinance are reflected in the SDOT 2021 Proposed Budget and the 2021-2026 Proposed Capital Improvement Program.

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by a 3/4 vote of all the members of the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact / Phone:	CBO Contact / Phone:
SDOT	David Conway / 206.684.5016	Aaron Blumenthal / 206.233.2656

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to adjusting the nine-year Move Seattle Levy appropriation amounts for Levy core categories established by Ordinance 124796, the Levy to Move Seattle; all by a $\frac{3}{4}$ vote of the City Council.

Summary and Background of the Legislation:

Ordinance 124796, which authorized a public vote in 2015 for and established the guidelines controlling the Move Seattle Levy, requires a separate ordinance (after the Levy Oversight Committee has been given an opportunity to comment) to transfer nine-year appropriations up to ten percent (10%) between the three Levy core categories—Safe Routes, Congestion Relief, and Maintenance and Repair. Ord. 124796 § 6, 2015.

With the unanticipated COVID-19 pandemic and associated economic downturn, resulting in significant revenue declines, the Seattle Department of Transportation (SDOT) is required to make reductions to several projects within the Move Seattle Portfolio. These reductions, included in the 2021-2022 Proposed Budget and the 2021-2026 Capital Improvement Program, result in SDOT having to move Levy funds across the Levy core categories. The revenues from the Move Seattle Levy are, however, relatively stable; current projections show a total nine-year aggregate revenue amount of \$924,265,621. The Levy was authorized to raise up to \$930,000,000 in aggregate over the nine-year period. *Id.* § 2.

Additionally, project and program cost estimates, schedules, and funding sources have changed since the beginning of the Levy, resulting in SDOT needing to continue to balance priorities. For instance, the Lander Street grade separation project (part of the Congestion Relief category) is expected to only use \$10M in Levy funds, compared to the initial \$20M estimate.

This ordinance authorizes the adjustment of the original nine-year estimated appropriation amounts between the three Levy core categories.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

No.

Is there financial cost or other impacts of *not* implementing the legislation?

Yes. SDOT will face programmatic impacts if this legislation is not implemented. SDOT will need to add and reduce different programs to align the budgets to the original three Levy core category amounts.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

No.

b. Is a public hearing required for this legislation?

No.

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

No.

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

e. Does this legislation affect a piece of property?

No.

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

Not applicable.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

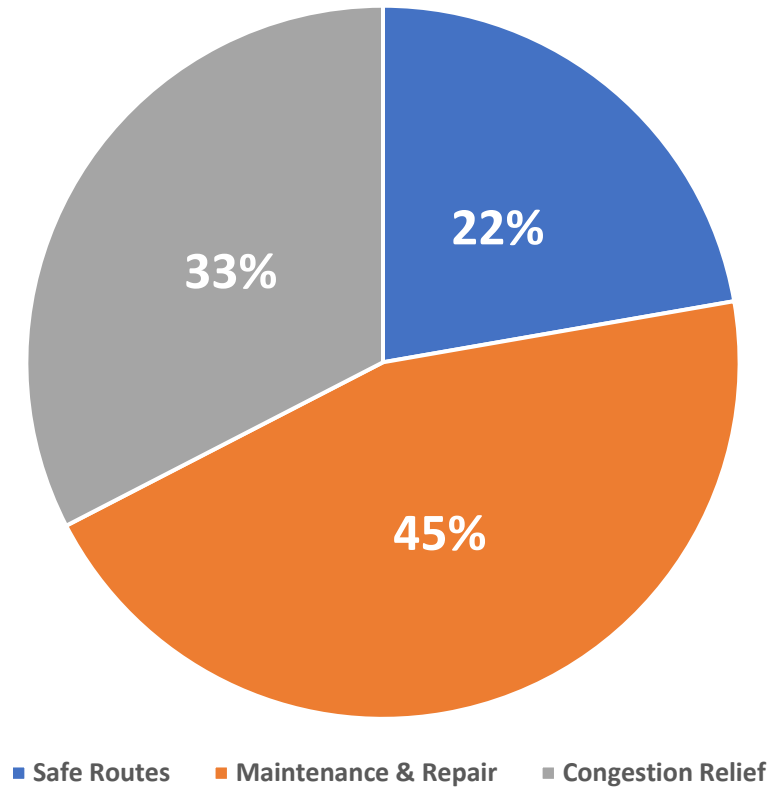

Not applicable.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to taxation; amending the transportation network company tax threshold for number of trips under Section 5.39.050 of the Seattle Municipal Code.

WHEREAS, on November 29, 2019, the Seattle City Council passed Ordinance 125971 to add a new Chapter

5.39 to the Seattle Municipal Code to impose a tax on transportation network companies (TNCs)

beginning July 1, 2020; and

WHEREAS, under Section 5.39.050 as it currently reads, no tax shall be due from a TNC that reports fewer

than 1,000,000 trips that originate in Seattle in the prior calendar quarter; and

WHEREAS, on March 11, 2020, the World Health Organization announced that the novel coronavirus (COVID

-19) is officially a global pandemic; and

WHEREAS, on February 29, 2020, the Washington Governor issued Proclamation 20-05, proclaiming a state

of emergency for all counties throughout the state of Washington in response to new cases of COVID-

19; and

WHEREAS, on March 3, 2020, Mayor Durkan issued a Proclamation of Civil Emergency declaring a civil

emergency within the City of Seattle based on the confirmed spread of COVID-19 in King County and

the resulting deaths and illness; and

WHEREAS, the COVID-19 crisis and the state of emergency continue and are causing severe harm to the

economy and are significantly decreasing the number of TNC trips that originate in the City of Seattle;

and

WHEREAS, as a result of the decrease in trips, it is likely that an unexpected number of TNCs will fall below the threshold in section 5.39.050 and not owe any tax, thereby causing a decrease in expected TNC tax revenues; and

WHEREAS, a reduction of TNC tax revenues will prevent the City from providing the programs and services described in Ordinance 125971 and other programs needed to help counteract the economic and health impacts caused by the COVID-19 emergency; and

WHEREAS, to reduce the loss of TNC tax revenues, the Seattle City Council intends to amend Section 5.39.050 to change the threshold for tax periods beginning in 2021 from 1,000,000 in the prior calendar quarter to 200,000 in the prior calendar quarter; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 5.39.050 of the Seattle Municipal Code, enacted by Ordinance 125971, is amended as follows:

5.39.050 Tax threshold

~~((No))~~ For the period July 1, 2020 through December 31, 2020, no tax shall be due under Section 5.39.030 for a calendar quarter from a TNC that reports fewer than 1,000,000 trips that originate in Seattle in the prior calendar quarter. For periods after December 31, 2020 no tax shall be due under Section 5.39.030 for a calendar quarter from a TNC that reports fewer than 200,000 trips that originate in Seattle in the prior calendar quarter.

Any TNC below ~~((this))~~ the threshold shall complete and file a return and declare no tax due on the return. The TNC shall enter on the tax return the number of trips originating in Seattle even though no tax may be due.

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by
me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

Jenny A. Durkan, Mayor

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
Mayor's Office	Kylie Rolf / 4-9281	Arushi Kumar / 4-0225

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to taxation; amending the transportation network company (TNC) tax threshold for number of trips under Section 5.39.050 of the Seattle Municipal Code.

Summary and background of the Legislation: In November 2019, the City passed Ordinance 125971, creating Seattle Municipal Code Chapter 5.39, to generate revenue to invest in, among other things, a driver resolution center to provide services to TNC drivers. This ordinance imposes a tax on transportation network companies providing 1,000,000 or more trips per quarter or more on a per-trip basis. The ordinance went into effect on July 1, 2020.

This legislation changes the threshold by which the City's tax on transportation network company (TNC) rides is imposed from 1,000,000 rides per operator per quarter to 200,000 rides per operator per quarter, effective January 1, 2021.

Given the significant drop in trips and the anticipated gradual trip recovery, a change in the trip threshold for TNC coverage is needed to affect the purpose of this ordinance. The amendment alters the trip threshold from "more than 1,000,000 trips" to "200,000 or more trips" in the last quarter. This trip threshold matches the recently transmitted TNC Minimum Compensation Ordinance and the companion amendments seen in the TNC Driver Deactivation Rights Ordinance, SMC 14.32.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes **X** No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes **X** No

Appropriation change (\$):	General Fund \$		Other \$	
	2021	2022	2021	2022
	-	-	-	-
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	2021	2022	2021	2022
	\$5,022,448	\$11,491,112	-	-

Positions affected:	No. of Positions		Total FTE Change	
	2021	2022	2021	2022
	-	-	-	-

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No.

Is there financial cost or other impacts of *not* implementing the legislation?
No.

3.b. Revenues/Reimbursements

X This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from this Legislation:

Fund Name and Number	Dept	Revenue Source	2021 Revenue	2022 Estimated Revenue
General Fund - 00100		Seattle TNC Tax	\$5,022,448	\$11,491,112
TOTAL				

Is this change one-time or ongoing?
This is an ongoing change.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
The Department of Finance and Administrative Services (FAS) will administer the tax. The uses of proceeds from the tax are discussed in [Resolution 31914](#), which passed as a companion to the original tax ordinance.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No.
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- e. **Does this legislation affect a piece of property?**
No.

- f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**

The amendment allows for sufficient revenue generation to implement the TNC Driver Deactivation Rights Ordinance (DRO), Ordinance 125976 creating Seattle Municipal Code Chapter 14.32, which provided deactivation rights to TNC drivers. TNCs classify these drivers as independent contractors and represent that they are exempt from existing minimum labor standards established by federal, state, and local law. A large number of those drivers are immigrants and people of color who have taken on debt or invested their savings to purchase and/or lease vehicles to provide TNC services.

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the organization of City government; creating an Office of Emergency Management; repealing Sections 10.02.045 and 10.020.047 of the Seattle Municipal Code; adding Sections 3.15.040 and 3.15.042 to the Seattle Municipal Code; amending Ordinance 118617; and adopting revised Emergency Management Fund - General Trust Fund Policies.

WHEREAS, throughout the summer, Seattle residents have taken to the streets to protest the unjust murders of Black Americans, including George Floyd and Breonna Taylor, and the shooting of Jacob Blake; all of these individuals experienced violent and lethal force at the hands of the police; and

WHEREAS, in response to this local and national civil rights reckoning, community members and civic leaders, including the Mayor and members of the City Council, have committed to a holistic review and community-led discussion around the effectiveness of the current way that community safety is provided in Seattle; and

WHEREAS, the shared vision for reimagining Seattle's system of community safety recognizes the importance of providing alternatives to armed police officer response, including civilian and community-based services and solutions; and

WHEREAS, based on community input, the Mayor and the City Council will pursue the transfer of certain functions out of the Seattle Police Department, including Emergency Management, 9-1-1 Dispatch, and Parking Enforcement; and

WHEREAS, these transfers, taken in total, aim to reflect community expectations of the equitable delivery of City services, elevate emergency planning, improve the coordination of calls-for-service, increase

civilian and community-based dispatch options, and bolster public trust and confidence in a reimagined system of community safety; and

WHEREAS, emergency management is a core City function necessary to manage emergency planning, preparedness, mitigation, response, and recovery on behalf of the City and in collaboration with community, regional, state, and federal partners; and

WHEREAS, as a national best practice, the Emergency Management Accreditation Program (EMAP) recommends establishing an independent Office of Emergency Management as a department directly overseen by the executive; and

WHEREAS, as an independent City office, the charge of the Office of Emergency Management remains the same as the central coordinating agency for the development of, training to, and maintenance of the state required all-hazard Seattle Comprehensive Emergency Management Plan, the Seattle Hazard Identification and Vulnerability Analysis, the Seattle All Hazard Mitigation Plan, Seattle Disaster Recovery Framework, Departmental Continuity of Operations Plans, and many incident-specific action plans, checklists, and protocols; and

WHEREAS, it will continue to be critical for the Office of Emergency Management to work closely with City departments, non-profit agencies, hospitals, schools, the military, state and regional partners, and to expand partnership throughout Seattle's diverse community when developing emergency management plans; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Sections 10.02.045 and 10.02.047 of the Seattle Municipal Code, enacted by Ordinance 124849, are repealed:

~~((10.02.045 Director of the Office of Emergency Management~~

~~There shall be a Director of the Office of Emergency Management who shall be appointed by the Mayor. The Director shall be responsible for the organization, administration, and operation of the City's emergency~~

~~management organization and program.~~

10.02.047 Office of Emergency Management

~~There shall be an Office of Emergency Management to oversee implementation of the City-wide emergency management program including, but not limited to, hazard identification and consequence analysis, capability assessment, hazard mitigation, emergency planning, training, exercising, community preparedness, operational readiness, disaster response and recovery coordination, and partnership building. The Office of Emergency Management shall be the coordinating agency to ensure City-wide compliance with local, state, and federal laws, regulations, and guidelines relating to emergency preparedness including the adoption of the national incident management system.))~~

Section 2. New Sections 3.15.040 and 3.15.042 are added to the Seattle Municipal Code as follows:

3.15.040 Office of Emergency Management

There is created within the Executive Department an Office of Emergency Management (OEM) responsible to partner with the community to prepare for, respond to, mitigate the impacts of, and recover from disasters. The objectives and functions of the Office of Emergency Management are to ensure that the City meets the national and international Emergency Management Accreditation Program (EMAP) standards and remain in compliance with chapter 38.52 RCW, chapters 118-09 and 118-30 WAC, the Disaster Mitigation Act of 2000, and the Post-Katrina Emergency Management Reform Act and include the following functions:

A. Preparing the community for disaster through the management of volunteers, public education, and capability-building with community organizations, vulnerable population outreach, limited English proficiency, low income, and immigrant and refugee communities;

B. Studying and understanding the consequences of the numerous hazards facing the city of Seattle, and using hazard knowledge to mitigate known hazards through planning and investments to lessen disaster impacts and/or harden critical facilities and systems;

C. Coordinating the development, testing, validation, and maintenance of all plans and procedures to

guide all aspects of the City's emergency management program including the all-hazard Seattle Comprehensive Emergency Management Plan, as described in Section 10.02.050, the Seattle Hazard Identification and Vulnerability Analysis, the Seattle All Hazard Mitigation Plan, Seattle Disaster Recovery Framework, Departmental Continuity of Operations Plans, an OEM Strategic Plan, and many incident-specific action plans, checklists, and protocols;

D. Ensuring City responders, managed volunteers, and the community are trained to emergency plans and to their roles and responsibilities in an emergency, as well as conducting routine exercises to ensure personnel and systems are routinely practicing such roles;

E. Managing and maintaining the City's emergency response system to ensure coordination for both in-person and remote operations. This includes ensuring that: the City's Emergency Operations Center (EOC) and the Joint Information Center are operationally ready at all times; EOC responders are identified and trained; and all supporting infrastructure and equipment are maintained;

F. Following a federal declaration of disaster, coordinating the collection of information including damage, impacts, and costs incurred by City departments to obtain reimbursement or grant money under the Robert T. Stafford Disaster Relief and Emergency Assistance Act or other Federal laws on behalf of City departments; and

G. Overseeing the City's Emergency Management organization, including performing the duties as described in Section 10.02.060 and other functions as may be prescribed by ordinance.

3.15.042 Director of the Office of Emergency Management

A. Appointment, term, and removal

The Director of the Office of Emergency Management (OEM) shall be appointed by the Mayor and subject to confirmation by a majority vote of City Council. The Director may be removed by the Mayor upon filing a statement of reasons therefor with the City Council.

B. Duties. The Director of OEM shall be the head of OEM, shall be responsible for the administration of

the City's emergency management organization and program, and shall:

1. Develop and manage all functions and responsibilities of OEM.
2. Hire, supervise, and discharge OEM staff.
3. Provide advice to the Mayor and City Council on the city's emergency preparedness and recommend actions to better prepare the city and community at large for emergencies.
4. Ensure Citywide compliance with local, state, and federal laws, regulations, and guidelines relating to emergency preparedness including the adoption of the national incident management system.

Section 3. Ordinance 118617, last amended by Ordinance 125492, is amended as follows:

Section 1. There is hereby created in the General Trust Fund an Emergency Management Fund, into which shall be deposited financial contributions received by the City from federal, state and local governments and private entities to reimburse the City for costs incurred as a result of declared disasters; to reimburse the City for costs incurred for mitigation projects to lessen the impact of future disasters; to compensate the City for administrative costs of the recovery effort; and to assist the City in specialized programs and other disaster management activities. Cash balances in the Emergency Management Fund shall be invested and shall accrue interest until expended.

Section 2. The ~~((Police Department))~~ Office of Emergency Management is authorized to apply for the transfer of funds from the Emergency Management Fund received for the purposes outlined in Section 1, and the ~~((Chief of Police))~~ Director of the Office of Emergency Management is authorized to expend funds received through such transfers to facilitate the enhancement of emergency management activities following the ~~((Standard Operating Procedures attached hereto as Exhibit A))~~ Emergency Management Fund Policies. All the necessary appropriations for disbursement of funds in the Emergency Management Fund are hereby made and authorized. The ~~((Chief of Police))~~ Director of the Office of Emergency Management will report annually to the Mayor and City Council the total of all monies received from such sources and an accounting of how the funds were expended.

Section 3. The Director of Finance and Administrative Services is authorized to pay the necessary warrants upon vouchers certified by the ((Chief of Police)) Director of the Office of Emergency Management, or the ((Chief's)) Director's designee, on the Emergency Management Fund.

* * *

Section 4. Emergency Management Fund Policies, adopted by Ordinance 118617, are revised and adopted as contained in Attachment A to this ordinance.

Section 5. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

Attachment A - Emergency Management Fund - General Trust Fund Policies

EMERGENCY MANAGEMENT FUND – GENERAL TRUST FUND POLICIES

PURPOSE: The Emergency Management Fund – General Trust Fund has been created for the following specific purposes: to reimburse the City for costs incurred as a result of declared disasters; to reimburse the City for costs incurred for mitigation projects to lessen the impact of future disasters; to compensate the City for administrative costs of recovery efforts; and to assist the City in specialized programs and other disaster management activities.

POLICY: By adopting an ordinance (Ordinance 118617, amended by Ordinance _____) establishing a separate Fund and providing for the appropriation of funds received by the Office of Emergency Management, the Mayor and City Council have enabled the department to deposit and disburse non-City funds as noted above. It is the department's policy to ensure that all expenditures are reasonably based, clearly justified, and made in accordance with law.

EXPENDITURE GUIDELINES: Funds not transferred to other City other departments may be encumbered for the full range of emergency management activities including:

1. Training or travel;
2. Operating supplies;
3. Miscellaneous minor or major capital equipment;
4. Miscellaneous computer software or hardware;
5. Emergency expense authorizations as required;
6. Salary costs for temporary positions;
7. Consulting services.

DISBURSEMENT PROCEDURES: Expenditures will conform to existing City fiscal procedures and the requirements of the funding sources. Requests will be initiated for funding

from the Emergency Management Fund via a form "1.5" or travel/training request. The request will be submitted to the Director of the Office of Emergency Management for approval. The Director of the Office of Emergency Management will approve the request if appropriate, and stamp the Emergency Management Fund number on the request. Upon approval by the Director of the Office of Emergency Management, the request will be forwarded to the Department of Finance and Administrative Services and the purchase will be made following standard City purchasing procedures.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
Mayor's Office	Julie Kline / 256-6232	Kara Main-Hester / 684-8746

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the organization of City government; creating an Office of Emergency Management; repealing Sections 10.02.045 and 10.020.047 of the Seattle Municipal Code; adding Sections 3.15.040 and 3.15.042 to the Seattle Municipal Code; amending Ordinance 118617; and adopting revised Emergency Management Fund – General Trust Fund Policies.

Summary and background of the Legislation: This legislation creates a new Office of Emergency Management (OEM) in the Executive Department by adding new sections to the Seattle Municipal Code. Like other Executive Department directors, the director of OEM will be nominated by the Mayor and confirmed by the City Council. The primary functions of the office will be to spearhead the City's planning for and response to disasters, including the operation of the Emergency Operations Center.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes ___X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes ___X No

The Office of the Emergency Management will be staffed by 15.0 FTEs. The appropriation (\$2,483,750) and position changes to support this are included in the 2021 Proposed Budget.

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

In 2021, the City Budget Office will work with the new department, the Seattle Police Department, and the shared services departments (Seattle Department of Human Resources, Department of Finance and Administrative Services and Seattle Information Technology Department) to ensure that allocated rates are appropriately assigned.

Is there financial cost or other impacts of *not* implementing the legislation?

No.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
The legislation impacts the Seattle Police Department, where Emergency Management functions are currently housed.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No.
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- e. **Does this legislation affect a piece of property?**
No.
- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
The creation of an independent Office of Emergency Management followed a review and discussion around the current functions that police oversee. This review recognized the importance of non-police led solutions to a range of incidents. A civilian Office of Emergency Management fills a vital role in convening and collaborating with multiple departments, external governmental and non-governmental agencies and the community, and successful emergency management programs must retain their ability to be neutral, impartial, and effective arbitrators. This transfer will increase the community's willingness to trust, engage, and work with the Office of Emergency Management.
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to transportation network company drivers; amending Section 14.32.040 of the Seattle Municipal Code to change the Transportation Network Company (TNC) coverage trip threshold; and amending the effective date of Ordinance 125976.

WHEREAS, in November 2019, the Seattle City Council passed Ordinance 125971 to add a new Chapter 5.39 to the Seattle Municipal Code that would impose a tax on transportation network companies (TNCs) beginning July 1, 2020, the purpose of which was to generate revenue to invest in affordable housing near transit, transportation and transit investments, and a driver resolution center to provide services to TNC drivers; and

WHEREAS, Chapter 5.39 imposed a tax on transportation network companies providing 1,000,000 trips per quarter or more on a per-ride basis and went into effect on July 1, 2020;

WHEREAS, also in November 2019, The City of Seattle (“City”) passed Ordinance 125976 creating Seattle Municipal Code Chapter 14.32, which will provide deactivation rights to Transportation Network Company (TNC) drivers and will establish the ability of the Office of Labor Standards to contract with a Driver Resolution Center to provide driver resolution services; and

WHEREAS, Seattle Municipal Code Chapter 14.32 applies to transportation network companies providing more than 1,000,000 trips per quarter or on a per-ride basis and their affiliated drivers, and will go into effect on October 1, 2020; and

WHEREAS, on March 11, 2020, the World Health Organization announced that the novel coronavirus (COVID-19) is officially a global pandemic; and

WHEREAS, on February 29, 2020, the Washington Governor issued Proclamation 20-05, proclaiming a state of emergency for all counties throughout the state of Washington in response to new cases of COVID-19; and

WHEREAS, on March 3, 2020, Mayor Durkan issued a Proclamation of Civil Emergency declaring a civil emergency within the City of Seattle based on the confirmed spread of COVID-19 in King County and the resulting deaths and illness; and

WHEREAS, the COVID-19 crisis and the state of emergency continue and are causing severe harm to the economy and are significantly decreasing the number of TNC trips that originate in the City of Seattle; and

WHEREAS, due to the significant impact of COVID-19, the number of TNC trips conducted within the City of Seattle dropped from 6,836,378 combined trips in Quarter 2 of 2019 to less than 1,000,000 combined trips in Quarter 2 of 2020; and

WHEREAS, establishing a reasonable standard for the deactivations of TNC drivers as well as access to a neutral Deactivation Appeals Process in which unwarranted deactivations may be challenged will help ensure that thousands of drivers who provide vital transportation services in Seattle will be able enjoy a small measure of job security; and

WHEREAS, the drop in trips substantially impacted the available revenue with which to fund activities related to implementing Seattle Municipal Code Chapter 14.32, including funding the positions and activities necessary to support effective implementation, outreach, education and enforcement by the Office of Labor Standards and investing in the Driver Resolution Center; and

WHEREAS, the City remains committed to establishing protections against unwarranted deactivations for TNC drivers despite the reduction in available revenue to fund the implementation of Seattle Municipal Code Chapter 14.32; and

WHEREAS, given these circumstances, an effective date of October 1, 2020 for Seattle Municipal Code

Chapter 14.32, is impracticable; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 14.32.040 of the Seattle Municipal Code, enacted by Ordinance 125976, is amended as follows:

14.32.040 TNC coverage

A. TNCs that report ~~((greater than 1,000,000))~~ 200,000 or more trips that originate in the City per the most recent quarterly report under Section 6.310.540 are covered under this Chapter 14.32.

B. Separate entities that form an integrated enterprise shall be considered a single TNC under this Chapter 14.32. Separate entities will be considered an integrated enterprise and a single TNC under this Chapter 14.32 where a separate entity controls the operation of another entity. The factors to consider include, but are not limited to:

1. Degree of interrelation between the operations of multiple entities;
2. Degree to which the entities share common management;
3. Centralized control of labor relations; and
4. Degree of common ownership or financial control over the entities.

Section 2. Section 5 of Ordinance 125976 is amended as follows:

Section 5. Section 2 of this ordinance shall take effect on ~~((October 1, 2020))~~ July 1, 2021, provided the City Budget Office has certified to the City Clerk that the City has collected sufficient revenues under Chapter 5.39 of the Seattle Municipal Code to fund the implementation of this ordinance. If the City Budget Office has not filed such certification by July 1, 2021, Section 2 of this ordinance shall take effect 60 days following such certification.

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by

Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by
me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
Office of Labor Standards	Jeneé Jahn, 6-5426	Arushi Kumar, 4-0225

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to transportation network company drivers; amending Section 14.32.040 of the Seattle Municipal Code to change the Transportation Network Company (TNC) coverage trip threshold; and amending the effective date of Ordinance 125976.

Summary and background of the Legislation: In November 2019, the City passed Ordinance 125971, creating Seattle Municipal Code Chapter 5.39, to generate revenue to invest in, among other things, a driver resolution center to provide services to TNC drivers. This ordinance imposes a tax on transportation network companies providing 1,000,000 or more trips per quarter or more on a per-trip basis. The ordinance went into effect on July 1, 2020.

In November 2019, the City passed the TNC Driver Deactivation Rights Ordinance (DRO), Ordinance 125976, creating Seattle Municipal Code Chapter 14.32, which provided deactivation rights to TNC drivers. The TNC Driver Deactivation Rights Ordinance (DRO) applies to TNCs providing more than 1 million trips per quarter and has a current effective date of October 1, 2020. The ordinance requires the Office of Labor Standards (OLS) to engage in administrative rulemaking, contract with neutral arbitrator(s) who will perform deactivation arbitration proceedings, and contract with a Driver Resolution Center (DRC) to represent drivers in deactivation proceedings as well as conduct outreach and education. As set forth in the fiscal note for the ordinance, the DRC and OLS implementation costs are to be funded through the TNC tax, SMC 5.39.

Amendment to Effective Date. Because the TNC tax applies only to TNCs who provide more than 1 million trips per quarter, projected revenues have been severely reduced due to the COVID-19-related drop in TNC trip volume. By way of illustration, trips fell from 6.8 million in Quarter 2 2019 to 811,950 in Quarter 2 2020. In the first quarter since the tax's effective date, there have been no qualifying taxpayers and no revenue generated. Due to the lack of funding, OLS will be unable to implement the DRO by October 1, 2020. The revenue shortfall and the infeasibility of the effective date necessitates a change to the effective date of the ordinance to account for the slower generation and inherent uncertainty of revenue generation. The ordinance delays the effective date until July 1, 2021 provided the City Budget Office has certified to the City Clerk that the City has collected sufficient revenues under Chapter 5.39 of the Seattle Municipal Code to fund the implementation of this ordinance. If the City Budget Office has not filed such certification by July 1, 2021, the ordinance will take effect 60 days following such certification.

Amendment to TNC Coverage Trip Threshold. Given the significant drop in trips and the anticipate gradual trip recovery, a change in the trip threshold for TNC coverage is needed to effect the purpose of this ordinance. The amendment alters the trip threshold from “more than 1,000,000 trips” to “200,00 or more trips” in the last quarter. This trip threshold matches the recently transmitted TNC Minimum Compensation Ordinance and the companion amendments seen in the TNC Tax, SMC 5.39.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

No. The amendments do not have financial impacts to the City of Seattle.

Is there financial cost or other impacts of *not* implementing the legislation?

Due to the impacts of COVID-19 on capacity and funding, the City is unable to implement the ordinance by the current effective date, including rulemaking, contracting with one or more neutral arbitrators to conduct arbitration proceedings, and contracting with the Driver Resolution Center. Should this legislation not be implemented, OLS would be required to complete rulemaking and contract with neutral arbitrator(s), but would be without the necessary funding and capacity to do so. Further, while contracting with a DRC is permissive, core goals of the ordinance would be unrealized if the City does not contract with the DRC. Accordingly, failure to amend the ordinance would result in significant statutory and financial obligations that OLS would not be resourced to complete.

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?
No.
- b. Is a public hearing required for this legislation?
No.
- c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?
No.

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

e. Does this legislation affect a piece of property?

No.

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

The amendments allow for sufficient time and revenue generation to implement this ordinance. The underlying ordinance establishes deactivation rights for TNC drivers. TNCs represent that their business models rely on TNC drivers being classified as independent contractors, and that they are exempt from existing minimum labor standards established by federal, state, and local law. In 2018, the King County Department of Licensing issues 31,676 TNC driver permits. A large number of those drivers are immigrants and people of color who have taken on debt or invested their savings to purchase and/or lease vehicles to provide TNC services. TNC drivers are subject to TNC companies' policies that can be unilaterally changed so they can be deactivated or terminated for a variety of reasons. The TNCs frequently deactivate drivers with limited review of those deactivations. Establishing a reasonable standard for the deactivations of TNC drivers as well as cost-free access to an arbitration process in which unwarranted deactivations may be challenged will help ensure that thousands of drivers, particularly drivers who are immigrants or people of color, and who provide vital transportation services in Seattle will be able to enjoy a small measure of job security. The ordinance requires that notices that are provided by OLS be made available in "English and other languages."

OLS has extensive experience developing materials in other languages and working with community partners to ensure that translations are appropriate for the particular demographic groups in impacted communities. OLS intends to provide translations based on the specific demographics of the TNC driver community, as established through available data and consultation with driver and community-based organizations. Further, through the request for proposal process, OLS is committed to ensuring that the DRC provides its services in an accessible manner.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to taxation; providing relief from taxation of cancellation of indebtedness as income on persons engaging in business in Seattle; and amending Section 5.45.090 of the Seattle Municipal Code.

WHEREAS, on March 11, 2020, the World Health Organization announced that the novel coronavirus (COVID-19) is officially a global pandemic; and

WHEREAS, on February 29, 2020, the Governor of the state of Washington issued Proclamation 20-05, proclaiming a state of emergency for all counties throughout the state of Washington in response to new cases of COVID-19; and

WHEREAS, these actions are appropriate for public health reasons, but result in severe economic impacts on the economies of the United States of America and Seattle; and

WHEREAS, in response to the economic fallout of the global pandemic, the 116th Congress of the United States passed the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”), an economic stimulus bill; and

WHEREAS, under the CARES Act, the Small Business Administration (SBA), in consultation with the Department of the Treasury, administers the Paycheck Protection Program (PPP) for economic relief; and

WHEREAS, under Section 1102 of the CARES Act, PPP authorizes loans designed to provide a direct incentive for small businesses to keep their workers on the payroll; and

WHEREAS, under Section 1102 of the CARES Act, the SBA will forgive repayment of the PPP loans if all

employee retention criteria are met and the funds are used for eligible expenses; and

WHEREAS, under Section 1105(i) of the CARES Act, cancellation of indebtedness is excluded from gross income for purposes of the Internal Revenue Code; and

WHEREAS, under Chapter 5.45 of the Seattle Municipal Code, cancellation of indebtedness would be included in gross income for purposes of the Seattle Business License Tax; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 5.45.090 of the Seattle Municipal Code, last amended by Ordinance 125996, is amended as follows:

5.45.090 Exemptions

The provisions of this Chapter 5.45 and the licensing requirement in Section 5.55.030 shall not apply to the following:

* * *

CC. This Chapter 5.45 shall not apply to any person with respect to the value proceeding or accruing from relief from debt or other legal obligation, that:

1. Does not otherwise qualify for an exemption or deduction under this Chapter 5.45;
2. Is received directly from the United States government, the state of Washington or any of its municipal corporations or political subdivisions, or a federally recognized Indian tribe located at least partially within the geographical boundaries in the state of Washington, except that the relief from debt or other legal obligation may also be received from a private entity under circumstances where, in exchange for providing the relief, the private entity receives some form of direct financial benefit from any of these government entities;
3. Is provided to address the impacts of conditions giving rise to an official proclamation of a national emergency by the president of the United States or an official proclamation of a state of emergency by the Governor of this state.

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if

not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by
me in open session in authentication of its passage this _____ day of _____, 2020.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
CBO/FAS	Joseph Cunha/	Dave Hennes/4-0537

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to taxation; providing relief from taxation of cancellation of indebtedness as income on persons engaging in business in Seattle; and amending Section 5.45.090 of the Seattle Municipal Code.

Summary and background of the Legislation: In response to the economic fallout of the global pandemic, the 116th Congress of the United States passed an economic stimulus bill, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). Under section 1102 of the CARES Act the Small Business Administration (SBA), in consultation with the Department of the Treasury, administers the Paycheck Protection Program (PPP) for economic relief, which provides loans designed to provide a direct incentive for small businesses to keep their workers on the payroll. Also under Section 1102 of the CARES Act, the SBA will forgive repayment of the PPP loans if all employee retention criteria are met and the funds are used for eligible expenses. Under Section 1105(i) of the CARES Act, cancellation of indebtedness is excluded from gross income for purposes of the Internal Revenue Code, but under Chapter 5.45 of the Seattle Municipal Code, cancellation of indebtedness is not excluded from gross income for purposes of the Seattle Business License Tax. This ordinance exempts this income from taxation for purposes of the Seattle Business License Tax.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

The 2020 Adopted Budget and subsequent General Fund revenue forecasts do not include any additional revenues related to the PPP loan program. Thus, from a budget perspective, there is no change in revenue. This legislation has no further direct or indirect costs for the City.

Is there financial cost or other impacts of *not* implementing the legislation?

If not implemented, the amounts involved in the cancellation of indebtedness would be subject to taxation for all those qualifying small businesses. The revenue effect of this

legislation is not known as the amount subject to cancelation of indebtedness for Seattle businesses and the business by business apportionment of this income is not known.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
No
- b. **Is a public hearing required for this legislation?**
No
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No
- e. **Does this legislation affect a piece of property?**
No
- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
This legislation would serve to reduce the income subject to taxation relative to current law for small businesses receiving PPP loans and qualifying for cancelation of indebtedness during the pandemic. It is unknown how many of these businesses are owned by or employ or serve individuals from vulnerable or historically disadvantaged communities.
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**

Legislation Text

File #: CB 119939, **Version:** 1

CITY OF SEATTLE
ORDINANCE _____
COUNCIL BILL _____

AN ORDINANCE relating to the levy of property taxes; fixing the rates and/or amounts of taxes to be levied, and levying the same upon all taxable property, both real and personal, in The City of Seattle, to finance the departments and activities of City government and to provide for the general obligation bond interest and redemption requirements for the year beginning on the first day of January 2021; and ratifying and confirming certain prior acts; and, by a vote of a majority plus one of the Seattle City Council, finding a substantial need to use, and providing for the use of, 101% as the regular property tax limit factor.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. General Municipal and Firefighters' Pension.

A. There is levied a tax on all taxable property, both real and personal, within The City of Seattle and subject to taxation under the laws of the State of Washington in the amount of \$946,639,680, which is calculated as \$3.60 per \$1,000 of estimated assessed value of all taxable property in the city. This tax is levied for the purpose of raising revenue to finance the various departments and activities of the municipal government of The City of Seattle for the fiscal (calendar) year 2021. The following sentence is provided for information only. This levy has been calculated at the following dollar rates per \$1,000 of assessed value: \$3.375 for general municipal purposes as allowed by RCW 84.52.043 (which includes up to \$0.225 for the Firemen's Pension Fund as allowed by RCW 41.16.060); and \$0.225 for general municipal purposes and the Firemen's Pension Fund as allowed by RCW 41.16.060. This levy includes an amount of \$100,000 or the highest lawful amount as the King County Assessor may certify, whichever is higher, to recover amounts refunded within the preceding 12 months. This levy also includes an amount of \$99,845,955 for transportation purposes in accordance with Ordinance 124796; an amount of \$3,000,000 for election vouchers funding

purposes in accordance with Resolution 31601 and Seattle Municipal Code Sections 2.04.600-696; an amount of \$41,428,571 for low-income housing purposes in accordance with Ordinance 125028; an amount of \$87,626,590 for education purposes in accordance with Ordinance 125604; and an amount of \$30,674,777 for library maintenance and services in accordance with Ordinance 125809.

B. If the total of the amounts of taxes stated in subsection 1.A or the total of the tax rate stated in subsection 1.A would be in excess of any maximum allowed by law, then such taxes shall be reduced to the maximum amount allowed. The maximum amount allowed by law includes the maximum amount of regular property taxes approved by vote of the people of The City of Seattle pursuant to RCW 84.55.050. For purposes of this subsection, the maximum amount of regular property taxes is determined by the King County Assessor as follows. First, the Assessor determines the amount of regular City property taxes that could be levied for collection in 2021 had the voters approved none of the levy lid lift measures submitted pursuant to RCW 84.55.050, Seattle Municipal Code Sections 2.04.600-696, and Ordinances 124796, 125028, 125604, and 125809. This amount is computed by the Assessor by multiplying the amount of general purpose regular property taxes levied for collection in 2020 by a limit factor. The limit factor is the lesser of 101 percent or 100 percent plus the rate of inflation, unless, pursuant to RCW 84.55.0101, the Council finds that there is a substantial need to use and approves the use of 101 percent as the regular property tax limit factor. Second, the Assessor adds the levy for tax refunds authorized by RCW 84.68.040, RCW 84.69.180, and RCW 84.55.070; plus the allowance authorized by RCW 84.55.010 for new construction, increases in assessed value due to construction of electric generation wind turbine facilities classified as personal property, improvements to property, and any increase in the assessed value of state-assessed property. Then, to that total amount is added the five dollar amounts set forth in the last sentence of subsection 1.A authorized for 2021 collection in the approvals given by the voters of the City pursuant to RCW 84.55.050 and those enumerated ordinances.

Section 2. Pursuant to RCW 84.55.0101, and in the face of significant revenue losses projected into 2021 and additional costs resulting from the health and economic effects of the corona virus pandemic, the City

Council finds that there is a substantial need to use and approves the use of 101% as the regular property tax limit factor for regular property taxes to be collected in 2021.

Section 3. Voter-approved excess taxes for bonds. In addition, a further tax is levied to raise revenue to provide for the interest on and redemption of voter-approved general obligation bonds for the fiscal year 2021 in the amount of \$22,764,200. This tax is applicable to all taxable property within The City of Seattle.

Section 4. The several provisions of this ordinance are declared to be separate and severable and the invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance, or the invalidity of the application thereof to any person, property, or circumstance, shall not affect the validity of the remainder of this ordinance or the validity of its application to other persons, property, or circumstances.

Section 5. Any act pursuant to the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 6. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
CBO	Dave Hennes/4-0537	Dave Hennes/4-0537

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the levy of property taxes; fixing the rates and/or amounts of taxes to be levied, and levying the same upon all taxable property, both real and personal, in The City of Seattle, to finance the departments and activities of City government and to provide for the general obligation bond interest and redemption requirements for the year beginning on the first day of January 2021; and ratifying and confirming certain prior acts; and, by a vote of a majority plus one of the Seattle City Council, finding a substantial need to use, and providing for the use of, 101% as the regular property tax limit factor.

Summary and background of the Legislation: This ordinance imposes the City's property tax for 2021 to pay for City government activities and for general obligation bond interest and redemption.

RCW 84.55.010 provides that the City may, with a simple majority vote of the Council, levy a property tax increase equal to inflation but not greater than a 1% increase over the prior year's regular property tax collection. If inflation is lower than 1%, the law requires a majority plus one vote, with a finding of substantial need, to have a tax increase exceed inflation to the maximum of 1%. Inflation is measured by the implicit price deflator for the United States published in September. In most years, the inflation rate will exceed 1%. This year the rate prior to revision is 0.64%. Thus, the attached Bill contains, and the Council will need to make a finding of substantial need with approval by a majority plus one vote to provide for the use of 101% as the regular property tax limit factor. The Council may not increase regular property taxes above 1% without a vote of the people.

Other than the 1% increase in the regular non-voted current expense property tax levy proposed in the attached Bill, the same 1% increase is applied to the Move Seattle Transportation levy lid lift, the Families, Education, Preschool and Promise levy lid lift and the Library Services levy lid lift per the terms of their respective ordinances. All other lid lifts are flat amounts year over year. No existing lid lifts expired in 2020 and no new lid lifts were added. Altogether, these changes result in an overall increase from 2020 of \$5,015,567, which does not include changes in the excess levy for redemption of general obligation bonds, the "refund fund levy" or additional taxes resulting from new construction, construction of wind turbine facilities classified as personal property, improvements to property, or increases in the value of state-assessed property.

It also does not include levy amounts for the Metropolitan Parks District (MPD). Pursuant to RCW 35.61, the MPD is a legally separate taxing jurisdiction from the City of Seattle, whose property tax levy authority of \$0.75 per \$1,000 assessed value is outside of the City's statutory rate limit of \$3.60 per \$1,000 assessed value. The MPD began collecting tax revenues in the

2016 tax collection year.

Additionally, this ordinance includes a levy of \$22,764,200 for interest on and redemption of voter-approved general obligation bonds for the fiscal year 2021, an increase of \$2,450 from the amount levied for collection in 2020. This amount includes payment amounts against the Libraries and Seawall bonds.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Appropriation change (\$):	General Fund \$		Other \$	
	2020	2021	2020	2021
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	2020	2021	2020	2021
	\$0	7,861,962	\$0	2,159,874
Positions affected:	No. of Positions		Total FTE Change	
	2020	2021	2020	2021

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

Yes, please see c) immediately below.

Is there financial cost or other impacts of *not* implementing the legislation?

Without this legislation, no **increase** in property tax revenue, other than that resulting from the voted levy lid lift, new construction, improvements to property, construction of wind turbine facilities classified as personal property, and any increase in the value of state-assessed property, may be authorized. The cost of not implementing this legislation is the 1% increase over the 2020 current expense levy, Families, Education, Preschool and Promise levy lid lift, Move Seattle Transportation levy lid lift and Library Services levy lid lift, estimated to be \$10.0 million. If not passed, the County Assessor will levy the same amounts (general expense and levy lid lifts) as levied for the 2020 tax collection year plus any newly voter-approved levy lid lifts, amounts resulting from new construction, improvements to property, construction of wind turbine facilities classified as personal property, and any increase in the value of state-assessed property.

3.a. Appropriations

☐ This legislation adds, changes, or deletes appropriations.

3.b. Revenues/Reimbursements

☒ This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from this Legislation:

Fund Name and Number	Dept	Revenue Source	2020 Revenue	2021 Estimated Revenue
00100 General Fund	General Fund	Property Tax	\$282,648,982	\$291,581,254

TOTAL			\$565,826,750	\$576,921,347

Revenue/Reimbursement Notes:

3.c. Positions

☐ This legislation adds, changes, or deletes positions.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

See the “Anticipated Revenue” Table above for affected departments.

b. Is a public hearing required for this legislation?

Yes. Public hearings will take place on October 6, 2020 and October 21, 2020.

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

No.

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

e. Does this legislation affect a piece of property?

No.

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

The revenues generated through the property tax, both general expense and levy lid lifts for particular purposes, support a broad range of government services, many of which support vulnerable or historically disadvantaged communities. This legislation has no policy or program implementation ramifications affecting vulnerable or historically disadvantaged communities beyond providing the underlying funding that supports City programs. Increases in taxes may disproportionately affect low-income individuals.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

CITY OF SEATTLE
ORDINANCE _____
COUNCIL BILL _____

AN ORDINANCE authorizing the levy of regular property taxes by The City of Seattle for collection in 2021, representing an increase above the regular property taxes levied for collection in 2020; and ratifying and confirming certain prior acts.

WHEREAS, to increase regular property taxes, RCW 84.55.120, as approved by the voters of the State of Washington in "Referendum 47" on November 4, 1997, requires the City to enact a separate ordinance indicating the change in taxes from the previous year in terms of percentage and total amount; and

WHEREAS, The City of Seattle proposes to make its regular property tax levy for collection in 2021 in the amount reflected in the companion ordinance to this bill, which is commonly known as the "Long Property Tax Ordinance"; and

WHEREAS, the Long Property Tax Ordinance for 2021 authorizes an increase above the amount of regular property taxes levied for collection in 2020; and

WHEREAS, pursuant to RCW 84.55.120, after proper notice was given, the City Council held public hearings on October 6, 2020 and October 27, 2020, to consider The City of Seattle's 2021 budget and the regular property tax levy to support it; and

WHEREAS, notice of the City Council's consideration of this ordinance has been provided in the usual manner for other proposed City ordinances; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Regular property taxes for collection in 2021 are authorized in the amount reflected in the ordinance introduced as Council Bill 119939. Not including increases resulting from the addition of new

construction, construction of wind turbine facilities classified as personal property, improvements to property, and any increase in the value of state-assessed property, the regular property tax levy for 2021 collection represents an increase above regular property taxes levied for collection in 2020 (excluding the "refund fund levy" in both instances) of \$5,015,567, which is a 0.92 percent increase. These regular property tax levies for collection in 2020 and 2021 include regular property tax "levy lid lifts" previously approved by the voters of The City of Seattle.

Section 2. Any act consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
CBO	Dave Hennes/4-0537	Dave Hennes/4-0537

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE authorizing the levy of regular property taxes by The City of Seattle for collection in 2021, representing an increase above the regular property taxes levied for collection in 2020; and ratifying and confirming certain prior acts.

Summary and background of the Legislation: This legislation, commonly known as the “Short Property Tax Ordinance” reflects changes in the regular property taxes in terms of dollars and percentages. It is a companion to the ordinance authorizing Seattle’s property tax levies, commonly known as the “Long Property Tax Ordinance.”

Since the approval of Referendum 47 in November 1997, state law has required that taxing jurisdictions adopt, by a majority of their legislative body, a separate ordinance authorizing regular property tax increases, other than increases due to certain excluded assessed property values identified below. The ordinances must show the authorized increase in terms of both dollars and percentages. Due to the exclusion of increases due to new construction, construction of wind turbine facilities classified as personal property, improvements to property, the value of state-assessed property, and refund adjustments to the levy amount, the actual year-over-year change in the City’s regular levy will differ from the calculated change in this legislation. Seattle’s Long Property Tax legislation, which is the authorizing legislation for the City’s property tax levy, provides a more detailed description of Seattle’s actual property tax levy and revenues.

Due to the 1 percent increase in the regular non-voted property tax levy, the “Move Seattle” Transportation levy lid lift, the Families, Education, Pre-School and Promise lid lift and the Library Services levy lid lift proposed in the attached Bill, the City of Seattle’s 2020 levy for collection in 2021 represents an increase of \$5,015,567 (0.92%) from 2020. As noted above, this does not include the “refund fund levy,” or additional taxes resulting from new construction, construction of wind turbine facilities classified as personal property, improvements to property, or an increase in the value of state-assessed property.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

Please see the Fiscal Note to the 2021 Long Property Tax Ordinance, which authorizes the City's actual property tax levies.

Is there financial cost or other impacts of *not* implementing the legislation?

Please see the Fiscal Note to the 2021 Long Property Tax Ordinance, which authorizes the City's actual property tax levies.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

See the Summary above and the "Anticipated Revenue" table in the companion Fiscal Note for the Long Property Tax Ordinance for affected departments.

b. Is a public hearing required for this legislation?

Yes. Public hearings will take place on October 6, 2020 and October 27, 2020.

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

No.

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

e. Does this legislation affect a piece of property?

No.

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

The revenues generated through the property tax, both general expense and levy lid lifts for particular purposes, support a broad range of government services, many of which support vulnerable or historically disadvantaged communities. This legislation has no policy or program implementation ramifications affecting vulnerable or historically disadvantaged communities beyond providing the underlying funding that supports City programs. Increases in property tax levies may disproportionately affect low-income taxpayers.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s). N/A

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the financing of the Seattle Department of Transportation; authorizing the loan of funds in the amount of \$25,000,000 from the Information Technology Fund to the Transportation Fund to support essential transportation programs.

WHEREAS, the COVID-19 pandemic and associated decline in revenues has resulted in the

need for significant cuts to programs across the Seattle Department of Transportation budgets; and

WHEREAS, the Seattle Department of Transportation is expected to continue to provide

essential services and programs while taking significant reductions in 2021; and

WHEREAS, Seattle Municipal Code subsection 5.06.030.C requires City Council approval by ordinance of any

interfund loan for a duration of 90 days or more; and

WHEREAS, in the normal course of business the City may temporarily lend cash between funds to maintain

required balances; and

WHEREAS, the Director of Finance and the City Budget Director have determined that this interfund loan

request is consistent with the Debt Management Policies adopted by Resolution 31553; and

WHEREAS, there is sufficient cash in the Information Technology Fund to support a primary interfund loan of

up to \$25 million through December 31, 2024 and still meet regular budgeted operating needs; and

WHEREAS, funds loaned by the Information Technology Fund to the Transportation Fund are to be repaid

from future fund balances in the Transportation Fund beginning in 2022; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. The City Council finds that there is no viable alternative to meet a core City objective, and

therefore the Director of Finance is authorized to make a revolving loan of up to \$25,000,000 principal and interest outstanding from the Information Technology Fund to the Transportation Fund, to provide financing for expenditures related to essential transportation programs. The loan is to be repaid no later than December 31, 2024, with interest on the loan at the rate of return of the City's Consolidated Cash Pool. The entire principal and interest amount of the loan drawn is intended to be repaid with fund balances from the Transportation Fund.

Section 2. The Director of Finance may effectuate the loan authorized in Section 1 of this ordinance by transferring cash from the Information Technology Fund to the Transportation Fund, or by carrying the Transportation Fund in a negative cash position, in an amount not to exceed \$25,000,000 until no later than December 31, 2024 or until repayment with fund balances from the Transportation Fund, whichever is earlier. The Director of Finance is further authorized to establish, and modify if necessary, from time to time, a repayment plan and schedule.

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its passage this _____ day of _____, 2020.

President _____ of the City Council

Approved by me this _____ day of _____, 2020.

Jenny A. Durkan, Mayor

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
SDOT	Scott Clarke/206.615.0723	Aaron Blumenthal/206.233.2656

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title:

AN ORDINANCE relating to the financing of the Seattle Department of Transportation; authorizing the loan of funds in the amount of \$25,000,000 from the Information Technology Fund to the Transportation Fund to support essential transportation programs.

Summary and background of the Legislation:

This legislation authorizes a total of \$25 million in an interfund loan to allow SDOT to continue to provide essential programs. The loan will come from the Information Technology Fund (\$20m) and the Transportation Benefit District Fund (\$5m).

The loan assures SDOT's Transportation Fund remains balanced in 2021 and allows SDOT to continue to deliver essential services and programs. The Transportation Fund is anticipated to have positive fund balances beginning in 2022 and will therefore be able to begin paying back the loan at that time. The repayment of the loan will be complete no later than the end of 2024. The loan is a multi-year bridge financing mechanism meant to mitigate the programmatic impacts from the revenue shortfalls caused by the COVID-19 pandemic and associated economic downturn.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? __ Yes __x__ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? __ Yes __x__ No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

Loan interest costs will be incurred and paid back from future balances in the Transportation Fund.

Is there financial cost or other impacts of *not* implementing the legislation?

Yes. If this loan were not authorized, SDOT would need to further cut services and programs. As part of the 2021 Budget Process, SDOT made significant program reductions, including to voter-approved commitments such as the Move Seattle Portfolio. This loan allows SDOT to continue basic programs in the Move Seattle Levy and other programs.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
Yes, FAS-Finance.
- b. **Is a public hearing required for this legislation?**
No
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION authorizing an exception to the level of General Fund support to Seattle Parks and Recreation by a 3/4 vote of the City Council.

WHEREAS, Section 3.3 of the interlocal agreement establishing the Seattle Park District authorized by City of Seattle Ordinance 124468 establishes that the City will provide a minimum level of General Fund support to Seattle Parks and Recreation; and

WHEREAS, pursuant to Section 3.3 of the interlocal agreement a 3/4 vote from the City Council may suspend this minimum level of General Fund support in the event of a natural disaster or exigent economic circumstances; and

WHEREAS, factoring in annual inflation of the Consumer Price Index, this level of General Fund support for 2021 totals \$103,676,509; and

WHEREAS, the World Health Organization (WHO) has declared that COVID-19 disease is a global pandemic, and has raised the health emergency to the highest level requiring dramatic interventions to disrupt the spread of this disease; and

WHEREAS, King County and The City of Seattle continue phased recovery from this pandemic, with restrictions on gathering size and business operations anticipated to continue the unprecedented shortfall in tax revenues experienced in 2020 into 2021; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE THAT:

Section 1. The current global pandemic and associated exigent economic circumstances prevent the City Council from maintaining the minimum level of General Fund support to Seattle Parks and Recreation in 2021.

Adopted by a 3/4 vote of all the members of the City Council the _____ day of _____, 2020, and signed by me in open session in authentication of its adoption this _____ day of _____, 2020.

President _____ of the City Council

Filed by me this _____ day of _____, 2020.

1. BILL SUMMARY

Legislation Title: A RESOLUTION authorizing an exception to the level of General Fund support to Seattle Parks and Recreation by a 3/4 vote of the City Council.

Summary and background of the Legislation: Section 3.3 of the interlocal agreement establishing the Seattle Park District authorized by City of Seattle Ordinance 124468 establishes that the City will provide a minimum level of General Fund support to Seattle Parks and Recreation. Pursuant to Section 3.3 of the interlocal agreement, a 3/4 vote from the City Council may suspend this minimum level of General Fund support in the event of a natural disaster or exigent economic circumstances. If inflated with the Consumer Price Index as specified in the interlocal agreement, the minimum General Fund support for 2021 totals \$103,676,509.

The World Health Organization (WHO) has declared that COVID-19 disease is a global pandemic, and has raised the health emergency to the highest level requiring dramatic interventions to disrupt the spread of this disease. King County and The City of Seattle continue phased recovery from this pandemic, with restrictions on gathering size and business operations that have resulted in an unprecedented shortfall in tax revenues in 2020, which are expected to continue into 2021.

As such, this legislation allows the City Council to waive the minimum level of General Fund support to Seattle Parks and Recreation in 2021.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes ☒ No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No, this legislation does not have unanticipated short or long-term costs.

Is there financial cost or other impacts of *not* implementing the legislation?

If the legislation is not implemented, the level of General Fund relief provided by the Seattle Park District during this pandemic would be diminished.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
No.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No.
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- e. **Does this legislation affect a piece of property?**
No.
- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
This is a technical piece of legislation that does not have any direct equity impacts.
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**
This legislation does not introduce a new initiative or program expansion.

List attachments/exhibits below: None.

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION modifying financial policies for the Arts and Culture Fund and superseding Resolution 31507.

WHEREAS, in 2011, the City Council and Mayor established financial policies for the Arts Account of the General Subfund in Resolution 31327; and

WHEREAS, in June 2013, the Office of Arts and Cultural Affairs submitted a written report and made recommendations to update those financial policies; and

WHEREAS, in 2014, the City Council and Mayor amended financial policies for the Arts Account of the General Subfund in Resolution 31507; and

WHEREAS, later in 2014, the City Council and Mayor renamed the Office of Arts and Cultural Affairs to the Office of Arts and Culture in Ordinance 124539; and

WHEREAS, in late 2017, the City's accounting systems and restructures were reimplemented, which led to the Arts Account of the General Subfund becoming the Arts and Culture Fund by Ordinance 125492; and

WHEREAS, the Mayor and City Council wish now to modify the financial policies governing the Arts and Culture Fund and to remove outdated references to the former name of the office and account; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE MAYOR CONCURRING, THAT:

Section 1. Resolution 31507 is superseded.

Section 2. The Mayor and Council adopt the modified financial policies governing the Arts and Culture

Fund by Attachment A to this resolution.

Adopted by the City Council the _____ day of _____, 2020, and signed by
me in open session in authentication of its adoption this _____ day of _____, 2020.

President _____ of the City Council

The Mayor concurred the _____ day of _____, 2020.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2020.

Monica Martinez Simmons, City Clerk

Attachment A - Arts and Culture Fund Financial Policies

CITY OF SEATTLE ARTS & CULTURE FUND FINANCIAL POLICIES

1. Retention of Admission Tax revenues: The Office of Arts & Culture (ARTS) shall establish an operating reserve equivalent to 20% of Arts & Culture Fund annual operating expenses using Admission Tax revenues deposited into the Arts & Culture Fund for the sole use of ARTS. This reserve shall be retained to address any short-term fluctuations in Admission Tax revenues that undermine ARTS' ability to fund those programs and activities outlined in Seattle Municipal Code (SMC) Section 5.40.120.
2. Timing and reserve amount: The reserve fund balance should have a balance equivalent to 20% of Arts & Culture Fund annual operating expenses budgeted for a given year. If the operating reserve drops below the minimum reserve amount, it shall be replenished within a 2-year time period. The reserve will be adjusted annually with the budget.
3. Use of the reserve: The reserve shall be maintained solely for the purposes of supporting ARTS programs outlined in SMC 5.40.120 and shall not be used or directed to any other program or account.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
City Budget Office		William Chen/206-233-7274

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: A RESOLUTION modifying financial policies for the Arts and Culture Fund and superseding Resolution 31507.

Summary and background of the Legislation:

This resolution adopts updates to the Arts and Culture Fund financial policies: (1) removal of outdated references to the former name of the Office of Arts & Culture (ARTS) and the Arts and Culture Fund, and (2) increasing the size of the minimum operating reserve.

In 2014, the City Council and Mayor renamed the Office of Arts and Cultural Affairs to the Office of Arts and Culture in Ordinance 124539. In 2017, the City’s accounting systems and restructures were reimplemented, which lead to the Arts Account of the General Subfund becoming the Arts and Culture Fund by Ordinance 125492. This resolution would update the Arts and Culture Fund’s financial policies to refer to the office’s and fund’s new names.

Increasing the size of the minimum operating reserve is necessary to provide ARTS with an adequate financial cushion to weather future economic downturns. Current policy is to appropriate Admission Tax to ARTS based on the latest actuals for Admission Tax revenues received by the City, which are finalized two years after receipt. During the COVID-19 crisis, this policy has given ARTS two years’ lead time to plan its response to try to balance necessary reductions in spending with minimizing impacts to the vulnerable communities ARTS serves.

To reduce impacts further, the City will shift to a policy of concurrent-year funding of ARTS with Admission Tax revenues in the year they are received starting in 2022, when hopefully economic activity will be returning. This approach is similar to how the General Fund is budgeted—with concurrent year revenues. This change allows ARTS to “skip over the bad years” of 2020 and 2021 Admission Tax revenues, but with the caveat that ARTS would no longer have two years’ lead time with future downturns. To balance that out, ARTS needs to build up a significantly larger reserve in the Arts and Culture Fund to provide a cushion for sudden losses in Admission Tax revenue.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes **X** No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes ___X No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No.

Is there financial cost or other impacts of *not* implementing the legislation?

Not implementing this legislation would leave ARTS more vulnerable to severe budget cuts in the event of future economic downturns.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

No.

b. Is a public hearing required for this legislation?

No.

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

No.

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

e. Does this legislation affect a piece of property?

No.

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

The updated fund policy significantly increases the size of the Arts and Culture Fund operating reserve in order to safeguard against future economic downturns. This change will provide ARTS a financial cushion needed to plan a response to downturns and ease a transition to lower spending if needed. Given that much of ARTS' programming serves historically disadvantaged communities, the financial safeguard also reduces the impact of economic downturns on those same communities.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

N/A

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION approving interest rates set by the Seattle City Employees' Retirement System (SCERS) Board of Administration for 2021.

WHEREAS, the Seattle City Employees' Retirement System (SCERS) currently pays interest on employee contributions at an annual rate of 5.75 percent (compounded annually) for contributions made before December 31, 2011, and 2.92 percent (also compounded annually) for employee contributions made after that date; and

WHEREAS, Seattle Municipal Code Section 4.36.505 provides that “[n]othing in this Section 4.36.505 shall be construed to limit the right of the Board, subject to approval of the City Council, to make changes in rates of interest whenever the Board deems it necessary or advisable”; and

WHEREAS, the SCERS Board of Administration, at its August 13, 2020 meeting, voted to adjust the annual interest rate for 2021 on all contributions received after December 11, 2011 to 2.04 percent (compounded annually); and

WHEREAS, the SCERS Board intends to review and adjust this rate annually, based on market conditions;

NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE MAYOR

CONCURRING, THAT:

Section 1. The City Council approves the 2021 credit interest rate adopted by the SCERS Board of Administration of 2.04 percent (compounded annually) on all member contributions received after December 31, 2011. Member contributions received on or before December 31, 2011, will continue to accrue credit

interest at a rate of 5.75 percent (also compounded annually). These rates will apply at the beginning of the first full pay period of 2021.

Adopted by the City Council the _____ day of _____, 2020, and signed by
me in open session in authentication of its adoption this _____ day of _____, 2020.

President _____ of the City Council

The Mayor concurred the _____ day of _____, 2020.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
RET	Paige Alderete/206-601-8469	Dave Hennes / 206-684-0537

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: A RESOLUTION approving interest rates set by the Seattle City Employees' Retirement System (SCERS) Board of Administration for 2021.

Summary and background of the Legislation:

Per Seattle Municipal Code 4.36.505.F, this resolution provides City Council approval of the 2021 interest rates on member contributions set by the SCERS Board of Administration.

Under the policy enacted by the SCERS Board, in 2021, contributions received on or before December 31, 2011 will earn 5.75% annual interest, compounded annually. Contributions received after that date will earn 2.04% interest, also compounded annually. The Board reviews and adjusts the post-2011 interest rates annually, based on a policy target of the average yield on 30-year U.S. Treasury Bonds for the immediately preceding June 1 to May 31 period.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes ☒ No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

This legislation has no direct financial implications for City appropriations, revenues, or positions. However, the new interest rates for 2021 will grow member contribution balances a bit more slowly than the historical average, lowering the Retirement Fund's costs and incrementally lowering the system's normal cost. These impacts are estimated along with other factors in the retirement system's periodic actuarial valuations.

Is there financial cost or other impacts of *not* implementing the legislation?

The proposed change reflects a small decrease in market interest rates in the last year. Not implementing the legislation would not recognize the action taken by the SCERS Board of Administration or the practice of the last several years. Inaction would leave the rate at the 2020 level.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
This legislation affects all SCERS members, who are employed across the City but has no effect on departmental costs.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No.
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- e. **Does this legislation affect a piece of property?**
No.
- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
No perceived impact on vulnerable or historically disadvantaged communities.
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**
Not applicable.

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION amending Resolution 31334; establishing the City Council's intent to fund the Seattle City Employees' Retirement System (SCERS) in accordance with the January 1, 2020 Actuarial Study. WHEREAS, the City provides and manages a defined-benefit pension for its non-uniformed employees to

serve as a source of retirement income, along with Social Security; and

WHEREAS, the City Council previously declared, in Resolution 31334, its intention to fully fund the

actuarially required contribution amounts into the pension system, including a plan to amortize the system's unfunded liability in 30 or fewer years; and

WHEREAS, the January 1, 2020 valuation study performed by the Seattle City Employees' Retirement System (SCERS) actuary identified a change in the contribution rate necessary to fully fund the system; NOW,

THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE MAYOR

CONCURRING, THAT:

Section 1. Resolution 31334, last amended by Resolution 31688, is amended as follows:

Section 1. The City will fully fund its actuarially required contributions to SCERS in the 2012 Adopted Budget and thereafter. The City will base its contribution rate on a five-year smoothed asset valuation as described in the most recent actuarial report, and the rate will be sufficient to amortize the system's unfunded liabilities in 30 or fewer years.

Section 2. To that end, the ((2017)) 2021 Adopted Budget will include sufficient appropriation for the City to pay ((15.29%)) 16.10 percent of regular (non-overtime) payroll into SCERS. This is

greater than the employee contribution (~~((of 10.03%))~~) rates into the system. It brings the combined contribution to (~~((25.26%))~~) 25.56 percent, which is the actuarially required amount for (~~((2017))~~) 2021 as described in the January 1, (~~((2016,))~~) 2020 Actuarial Valuation.

Section 3. The City endorses the actuarial assumptions and methods adopted by the SCERS Board of Administration, utilized beginning with the January 1, 2011, valuation, and modified by the Board as a result of the actuary's investigation of the system's experience from (~~((2010))~~) 2014 through (~~((2013))~~) 2017. These include:

- A. The entry age normal actuarial cost method;
- B. An investment return rate of (~~((7.50%))~~) 7.25 percent;
- C. A five-year smoothed method for asset valuation;
- D. Generational mortality tables that take future life expectancy improvements into account;
- E. Expected average membership growth of 0.5(~~((%)~~) percent per year; and
- F. Other economic and demographic assumptions as described in the valuation.

Section 4. Each year, and in the event the SCERS Board of Administration should wish to change its actuarial assumptions and methods, the City requests that the Board consult with the Mayor and the City Council by the tenth day of July regarding the impacts of such changes on funding requirements, as described in (~~((SMC))~~) Seattle Municipal Code subsection 4.36.550.A, to allow sufficient time to make budget preparations.

Section 5. The City will update its contribution rate to SCERS annually to a level not less than the actuarial required contribution for that year as determined by the most recent valuation. The City may elect to exceed the required contribution rate in any given year in the interest of funding stability or to amortize the system's unfunded liability in fewer than 30 years.

Section 6. Beginning with the January 1, 2013, Actuarial Valuation and thereafter, the amortization period is closed and fixed. That is to say, the amortization rate should be sufficient to

retire the system's unfunded liability over the period 2013-2042. Since closed amortizations can generate excessive contribution rate volatility in the second half of the period, the Council may consider re-opening the amortization period after 15 years. At any time, the SCERS Board and its actuary may recommend additional amortization layers and/or separate amortization periods for any new unfunded liabilities or surpluses generated after January 1, 2013.

Adopted by the City Council the _____ day of _____, 2020, and signed by
me in open session in authentication of its adoption this _____ day of _____, 2020.

President _____ of the City Council

The Mayor concurred the _____ day of _____, 2020.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2020.

Monica Martinez Simmons, City Clerk

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
RET	Paige Alderete/206-601-8469	Dave Hennes / 206-684-0537

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: A RESOLUTION amending Resolution 31334; establishing the City Council's intent to fund the Seattle City Employees' Retirement System (SCERS) in accordance with the January 1, 2020 Actuarial Study.

Summary and background of the Legislation:

Per Seattle Municipal Code 4.36.505.A, this resolution provides City Council approval of the 2021 actuarially required contribution set by the SCERS Board of Administration. The combined required contribution rate for 2021 is 25.56 percent (down from 25.79% in 2020). The City's portion of the combined contribution rate for 2021 is 16.10 percent of regular payroll into SCERS (down from 16.14 percent in 2020).

This approval is in accordance with City Council's previous Resolution 31334, which states its intention to fully fund the actuarially required contribution amounts into the pension system.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes ___X___ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes ___X___ No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

This legislation does not adjust appropriations, revenues, or positions. The 2021 contribution rate is captured through approval of the budget.

Is there financial cost or other impacts of *not* implementing the legislation?

Not implementing the full actuarially required contribution in 2021 would go against Council Resolution 31334, would place greater cost burden on the City and potentially members in future years to fund the pension system, and not meeting the required contribution would be reflected on the System's financial audit, valuation, and the City's CAFR.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
This legislation affects the City's contribution rate into the pension system.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No
- e. **Does this legislation affect a piece of property?**
No
- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
No perceived impact on vulnerable or historically disadvantaged communities
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**
Not applicable.

Introduction

The City of Seattle and its more than 12,000 employees build and maintain infrastructure, provide utility service, support the needs of the city's residents, and create recreational, cultural, and other enriching opportunities. In providing excellent service, these employees use and maintain dozens of city-owned properties, a fleet of vehicles ranging from fire trucks to golf carts, and equipment and facilities necessary to complete the City's mission.

Budgeting for a large organization with many functions is a crucial and complex process. A proposed budget requires solid forecasts on commodities (such as the price of fuel), economic strength (as it impacts tax revenues, among other budgetary components), and demand for services (from parking meters to libraries to police officers to disc golf courses).

This book is designed to provide clear and accurate information on the budgetary process, estimated revenue streams, and a basic description of departmental needs and spending.

City of Seattle Budget Process

In its simplest terms, the City budget is proposed by the Mayor (Executive), checked for compliance with the law (City Attorney), and amended and passed by the City Council (Legislative) before returning to the Mayor for his or her approval and signature. The budget itself is composed of two main documents: an operating budget and a capital improvement program (CIP) budget. The CIP budget consists of large expenditures on infrastructure and other capital projects. The operating budget is primarily composed of expenditures required by the City to deliver the day-to-day array of City services.

Charts summarizing the City's budget process and organization can be found at the end of this section.

Budget Preparation

The budgeting process begins early each year as departments assess needs and budget forecasters work to estimate revenues and costs. Operating budget preparation is based on the establishment of a current services or "baseline" budget. Current services is what it sounds like – continuing programs and services the City provided in the previous year, in addition to previous commitments that will affect costs in the next year, such as a voter-approved levy for new park facilities, as well as labor agreements and changes in health care, insurance, and cost-of-living- adjustments for City employees.

During the budget preparation period, the City Budget Office (CBO) makes two General Fund revenue forecasts, one in April and one in August. Both are used to determine whether the City's projected revenues are sufficient to meet the projected costs of the current services budget. If revenues are not sufficient to cover the cost of current services, the City must identify changes to close the gap – either through reductions or increased revenues or a combination of both. If the revenue forecast shows that additional resources are available, then the budget process identifies new or expanded programs to meet the evolving demands for City services. Regardless, the City is required by state law to prepare a balanced budget.

In May, departments prepare and submit Budget Memos to CBO for analysis and mayoral consideration. The Mayor's Office reviews and provides direction to departments on the Budget Memos, giving direction on items they should include in their formal budget submittal. In early June, CBO receives departmental

Introduction & Budget Process

operating budget and CIP submittals, including all position (employee) changes. Mayoral review and evaluation of department submittals takes place through the end of August. CBO, in conjunction with individual departments, then finalizes the operating and CIP budgets.

In late September, the Mayor submits the proposed budget and CIP to the City Council. In addition to the budget documents, CBO prepares supporting legislation and other related documents.

After the Mayor submits the proposed budget and CIP, the City Council conducts public hearings. The City Council also holds committee meetings in open session to discuss budget requests with department representatives and CBO staff. Councilmembers then recommend specific budget actions for consideration by their colleagues.

During the budget review process, the City Council may choose to explain its budget actions further by developing statements of legislative intent and budget guidance statements for future budget action. Intent statements describe the Council's expectations in making budget decisions and generally require affected departments to report back to the City Council on results.

After completing the public hearing and deliberative processes the City Council votes to adopt the budget, incorporating its desired budget changes, in late November. The Mayor can choose to approve the Council's budget, veto it, or let it become law without mayoral signature. The Mayor must veto the entire budget or none of it, as there is no line-item veto in Seattle. Copies of budget documents are available for public inspection at the CBO offices, at the Seattle Public Library, and on the Internet at <http://www.seattle.gov/budget>.

During the year, the City may have a need to change the adopted budget to respond to evolving needs. The City makes such changes through supplemental budget appropriation ordinances. A majority of the City Council may, by ordinance, eliminate, decrease, or re-appropriate any unspent appropriations during the year. The City Council, generally with a three-fourths vote, may also increase appropriations from available money to meet necessary expenditures that were not foreseeable earlier. Additional unforeseeable appropriations related to settlement of claims, emergency conditions, or laws enacted since passage of the annual operating budget ordinance require approval by a two-thirds vote of the City Council. Absent such changes, departments are legally required to stay within their annual budget appropriation.

Reader's Guide

This reader's guide describes the structure of the 2021 Proposed Budget book and outlines its content. The budget book is designed to present budget information in an accessible and transparent manner – the way decision-makers consider the various proposals. It is designed to help residents, media, and City officials more easily understand and participate in the budget deliberations.

A companion document, the 2021-2026 Proposed Capital Improvement Program (CIP), identifies expenditures and fund sources associated with the development and rehabilitation of major City facilities, such as streets, parks, utilities, and buildings over the next six years. The CIP also shows the City's financial contribution to projects owned and operated by other jurisdictions or institutions. The CIP fulfills the budgeting and financial requirements of the Capital Facilities Element of Seattle's Comprehensive Plan by providing detailed information on the capacity impact of new and improved capital facilities.

The 2021 Proposed Budget and 2021-2026 Proposed CIP can also be found online at the City Budget Office's webpage. In addition to PDF files containing the Proposed Budget and Proposed CIP, the site contains department-customized expenditures and revenues.

The 2021 Proposed Budget

This document is a description of the proposed spending plan for 2021. It contains the following elements:

- **Proposed Budget Executive Summary** – A narrative describing the current economy, highlighting key factors relevant in developing the budget document, and how the document addresses the Mayor's priorities;
- **Summary Tables** – a set of tables that inventory and summarize expected revenues and spending for 2021;
- **General Fund Revenue Overview** – a narrative describing the City's General Fund revenues, or those revenues available to support general government purposes, and the factors affecting the level of resources available to support City spending;
- **Selected Financial Policies** – a description of the policies that govern the City's approach to revenue estimation, debt management, expenditure projections, maintenance of fund balances, and other financial responsibilities;
- **Departmental Budgets** – City department-level descriptions of significant policy and program changes from the 2020 Adopted Budget, the services provided, and the spending levels proposed to attain these results;
- **Appendix** – an array of supporting documents including Cost Allocation, a summary of cost allocation factors for internal City services; a summary of position changes by department contained in the 2021 Proposed Budget; and a glossary.

Reader's Guide

Departmental Budget Pages: A Closer Look

The budget presentations for individual City departments (including offices, boards, and commissions) constitute the heart of this document. They are organized alphabetically within seven functional clusters:

- Arts, Culture, & Recreation;
- Education, Health & Human Services;
- Neighborhoods & Development;
- Public Safety;
- Utilities & Transportation;
- Administration; and
- Funds and Funding Sources.

Each cluster, with the exception of the last, comprises several departments sharing a related functional focus, as shown on the organizational chart following this reader's guide. Departments are composed of one or more budget control levels, which in turn may be composed of one or more programs. Budget control levels are the level at which the City Council makes appropriations.

The cluster "Funds and Funding Sources" is comprised of sections that do not appear in the context of department chapters, including the General Fund Revenue Table, Cumulative Reserve Funds, Fiscal Reserve Funds, Community Development Block Grant Funding Source, and other administrative funds. A summary of the City's general obligation debt is also included in this section.

As indicated, the proposed budget appropriations are presented in this document by department, budget control level, and program. At the department level, the reader will also see references to the underlying fund sources (General Fund and Other) for the department's budgeted resources. The City accounts for all of its revenues and expenditures according to a system of funds. In general, funds are established to account for specific revenues and permitted expenditures associated with those revenues. For example, the City's share of Motor Vehicle Fuel taxes must be spent on road-related transportation activities and projects, and are accounted for in a fund in the Transportation Fund. Other revenues without statutory restrictions, such as sales and property taxes (except voter-approved property taxes), are available for general purposes and are accounted for in the City's General Fund. For many departments, such as the Seattle Department of Transportation, several funds, including the General Fund, provide the resources and account for the expenditures of the department. For several other departments, the General Fund is the sole source of available resources.

Reader's Guide

Budget Presentations

Most department-level budget presentations begin with information on how to contact the department. The department-level budget presentation then goes on to provide a general overview of the department's responsibilities and functions within City government, as well as a summary of the department's overall budget. A narrative description of the issues impacting the department's 2021 Proposed Budget then follows. The next section of the department-level budget presentation provides a numerical and descriptive summary of all of the incremental budget changes included in the 2021 Proposed Budget, along with a discussion of the anticipated operational and service-level changes that will result. The department-level budget presentation concludes with summary level tables that describe the department's overall expenditures and revenues by type as well as by budget control level and program. All department, budget control, and program level budget presentations include a table summarizing historical and adopted expenditures, as well as proposed appropriations for 2021.

A list of all position changes proposed in the budget has been compiled in the appendix. Position modifications include eliminations, additions, reclassifications, and status changes (such as a change from part-time to full-time status), as well as adjustments to departmental head counts that result from transfers of positions between departments.

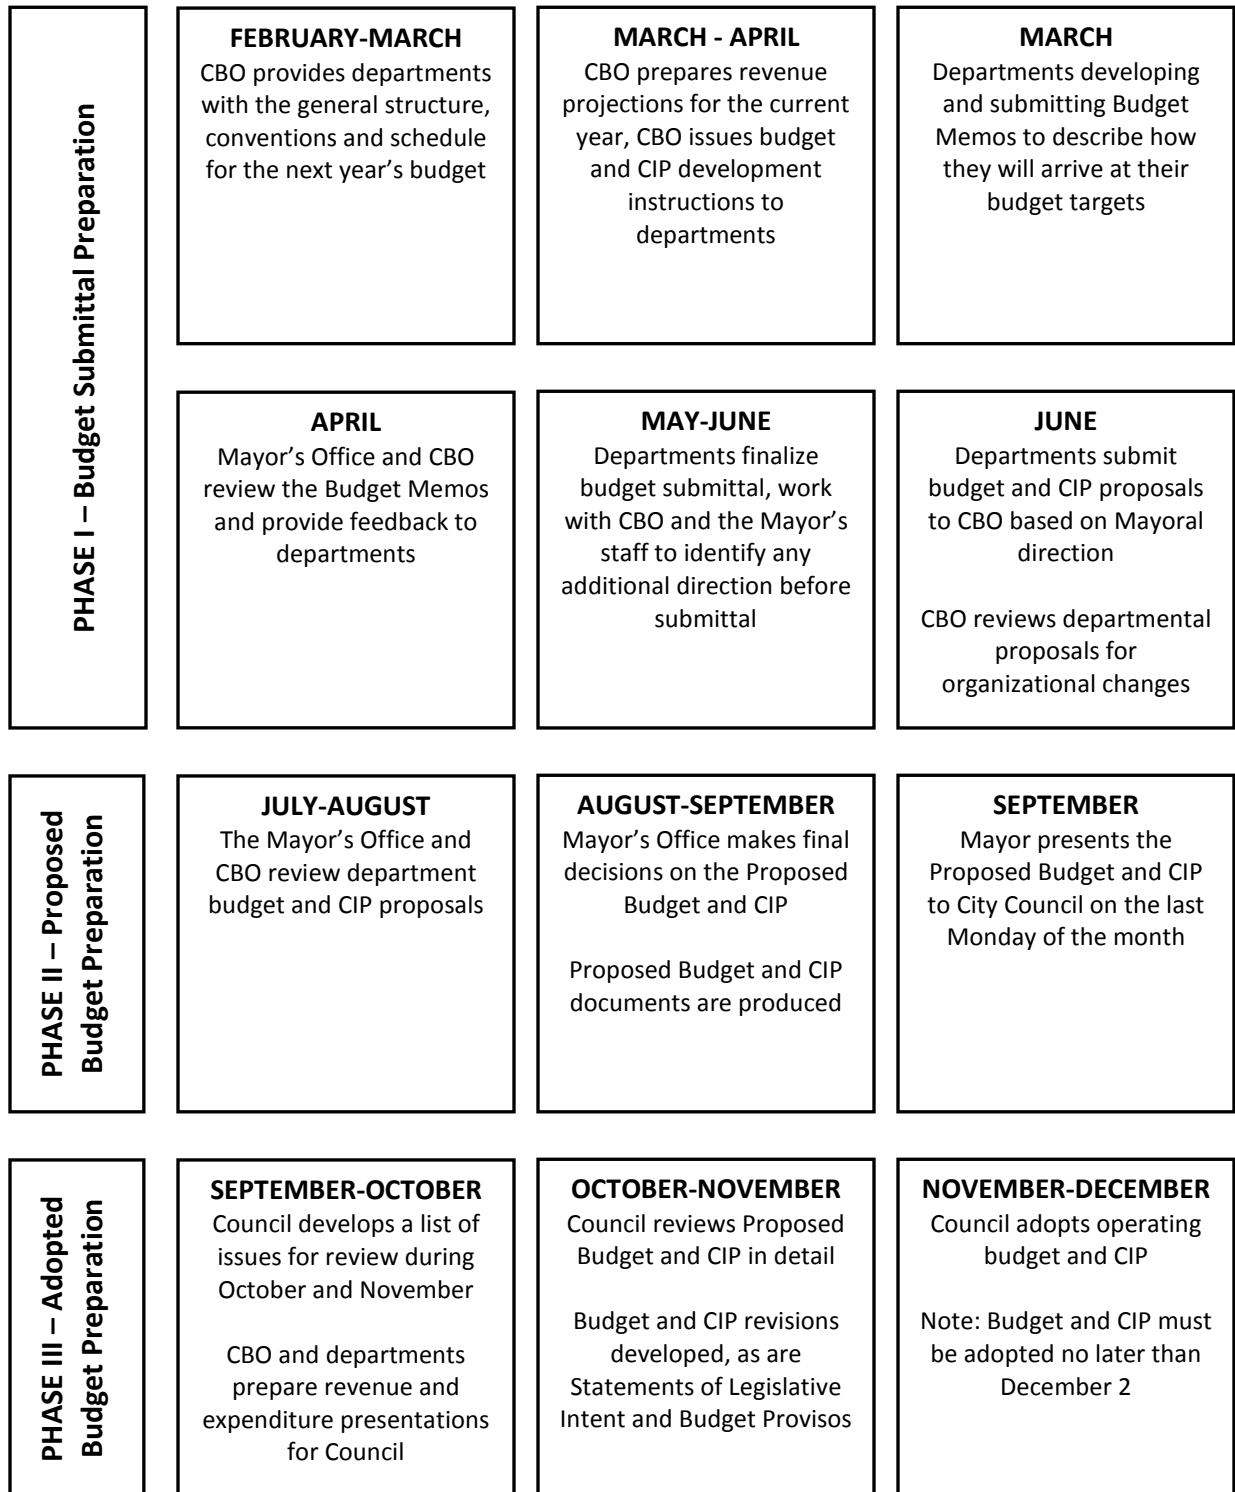

For information purposes only, an estimate of the number of staff positions to be funded under the 2021 Proposed Budget appears in the departmental sections of the document at each of the three levels of detail: department, budget control, and program. These figures refer to regular, permanent staff positions (as opposed to temporary or intermittent positions) and are expressed in terms of full-time equivalent employees (FTEs). In addition to changes that occur as part of the budget document, changes may be authorized by the City Council or the Human Resources Director throughout the year, and these changes may not be reflected in the estimate of staff positions presented for 2021. These changes are summarized in the appendix.

Where relevant, departmental sections include a statement of projected revenues for the years 2020 through 2022.

* The Library is governed by a five-member citizens' board of trustees, appointed by the Mayor and confirmed by the City Council.

Budget Process Diagram

2021 Proposed Budget Executive Summary

Introduction

Mayor Durkan's 2021 Proposed Budget reflects the ongoing financial challenges created by the historic events of 2020. The public health crisis created by the COVID-19 pandemic has resulted in an economic slowdown of nearly unprecedented magnitude. The negative impact to City revenues has been sharp and steep, and comes at the same time the public health crisis and associated recession have created an increased demand for basic City services. The City has taken affirmative measures to contain the spread of the virus, and to provide basic lifeline supports to those who have lost their jobs or otherwise been adversely affected by the deepening recession. The state and federal governments have provided significant financial assistance to the City as it has stepped into these roles, but the City has also been forced both to cut its overall budget and reprioritize its spending in response.

At the same time, the murders of George Floyd, Breonna Taylor and so many, many more have renewed and invigorated a fight for racial justice that rightfully demands a response to centuries of discrimination and oppression. This fight has put a sharp focus on the role that government and law enforcement have played in perpetuating and perpetrating oppression and violence against Black, Indigenous and People of Color (BIPOC) communities. This fight has also drawn attention to the historic underinvestment by government in the infrastructure and services that support BIPOC communities. The 2021 Proposed Budget reflects initial steps toward addressing these historic failings, including reductions in the budgets of the Seattle Police Department and the Seattle Municipal Court, initial funding for a public process to address the future of the City's approach to law enforcement, and a new, ongoing financial commitment to support investments in BIPOC communities. These and other proposals are described at a summary level in the remainder of this overview section, and then more fully detailed in the department-level chapters that follow.

The Local Economy and Impacts on City Revenue

Before continuing with a summary of the major funding changes included in the 2021 Proposed Budget, we begin with a description of the economic and revenue impacts experienced in 2020 and predicted for 2021. Washington Governor Jay Inslee first declared a public health emergency in February 2020, and followed in March with a statewide Stay Home – Stay Healthy Order. Mayor Durkan acted in response to the initial COVID-19 outbreak on a comparable timeline, declaring a city-wide Civil Emergency on March 3, 2020. Such actions, and the social distancing measures imposed by these declarations and orders, were essential for public health, but the impacts to the local, regional and ultimately national economy have been dramatic.

The Local Economy

The economic downturn caused by the COVID-19 pandemic ended the longest period of economic growth in the nation's history, which had lasted almost 11 years. We are now experiencing what may prove to be the deepest, and hopefully shortest, recession since World War II. By the close of 2020, the national economy is expected to have shrunk by slightly more than 6% and shed nearly 8 million jobs. The impacts on the local economy will be comparable. Before the onset of the crisis, the local unemployment rate was about 3%. At its peak in April, the figure had spiked to just over 16%. That rapid

2021 Proposed Budget Executive Summary

a decline in employment is without precedent. The unemployment rate has now “stabilized” at about 8.5% in Seattle, and about 10% both statewide and nationally. However, full recovery will take many years.

Moreover, this recovery will take much longer for some sectors of the economy than others. In recent years, growth in the technology sector has driven a rapid expansion of the overall local economy, with sectors such as construction, hospitality and retail sales all feeling the positive impact of the employment boom in technology and online purchasing. The current recession has ended this period of rapid growth but has affected individual sectors very differently. For example, while employment has declined significantly in the manufacturing, retail trade, information, and financial sectors, the most dramatic impacts have been felt in the leisure, hospitality and construction sectors, which accounted for 40% of the jobs lost regionally. Travel restrictions and health concerns have decimated Seattle’s tourism business, and there is initial evidence that Seattle’s long-term construction boom has come to an end. While the volume of newly requested construction permits has remained strong, the value of those permits has declined. In particular, the average monthly value of permits issued declined by 38% for the first seven months of 2020 compared to the same period last year. While current construction activity is being driven by commitments made and projects initiated before the crisis, future activity and employment will depend on whether the general economic growth drives further demand for office space and residential units.

Looking forward, the diversity of Seattle’s economy should help its path to recovery once the public health risks abate. Some forecasts indicate that local employment could return to pre-COVID-19 levels in two to three years. One key risk in that forecast is how COVID-19 will impact the tourism and travel sector over the coming months and years. Seattle is directly dependent on this sector for local employment in hotels, restaurants and retail businesses but, through Boeing, our local economy is also indirectly affected by the national and international demand for air travel, including both business and leisure trips. The 737 Max program has already suffered significant production slowdowns, and Boeing is considering whether to consolidate its production of the 787 Dreamliner, which could lead to a significant drop in local aerospace employment.

Another general risk that is specific to Seattle is whether COVID-19 will have an impact on the pattern and geography of future economic growth in the region. For example, a shift to online work could decrease the demand for downtown office space and the service businesses supported by downtown employment. Similarly, remote work could increase the demand for suburban homes, at the expense of residential construction in Seattle’s neighborhoods and downtown core.

Impact on City Revenues

The City’s revenues are a direct reflection of local economic conditions. Tax revenues, particularly Sales Taxes and Business and Occupation (B&O) Taxes, are driven by local economic activity. Furthermore, local economic activity drives the City’s “earned” revenues, those paid as fees for the services provided by departments such as Seattle Center, Seattle Parks and Recreation, the Seattle Department of Construction and Inspections, and the utility rates paid to Seattle City Light (SCL) and Seattle Public Utilities (SPU). COVID-19 has driven a decline in all these revenues.

2021 Proposed Budget Executive Summary

Sales tax revenue declined by 15% in the first six months of 2020 compared to the same period in the previous year. Sales tax revenue for 2020 as a whole is expected to decline by 16 to 21%. B&O Tax revenues are generally more stable than Sales Tax revenues because they are collected from a broader base of the economy. Nonetheless the impacts here have also been dramatic because the impacts of COVID-19 have been so widespread. The B&O revenue payments for the first two quarters of 2020 are 12.8% lower than in the same period last year. While this is slightly less dramatic than the impact on Sales Tax revenues, these losses are still significant. By year end, B&O tax revenues are expected to be down by as much as 19.5% compared to 2019.

The overall impacts on the City's General Fund revenues, which include both the Sales and B&O taxes have been dramatic. Before COVID-19, anticipated General Fund revenues totaled \$1.4 billion for 2020. Although the City Budget Office had not prepared a 2021 forecast before the onset of the virus, recent trends of 4-5% growth would have pushed that total above \$1.45 billion. Current 2021 forecasts for that same set of revenues total just \$1.28 billion, a decline of \$120 million relative to 2020. Furthermore, if we consider other revenues that support general government activities, such as the admission tax, the soda tax and the Real Estate Excise Tax, there is an additional decline of approximately \$65 million. [Fortunately], there is, however, a significant new source of revenue that could offset these losses in the overall revenues for General Government services. Beginning in 2021 the City will begin to collect a Payroll Tax, applied to jobs that pay more than \$150,000 per year. This new tax is projected to generate \$214 million in 2021, and thus can offset much of the revenue declines relative to 2020. There is risk and uncertainty in the forecast of this new Payroll Tax, as we have only an estimate of the applicable tax base and no direct experience in collecting a Payroll Tax from the city's employment base. In better times, the reserves held in the City's Rainy Day Fund, technically known as the Revenue Stabilization Fund, would provide a source to "backfill" resources if actual collections did not meet the forecast. However, these resources have been depleted by the current crisis, and only \$5 million will remain to protect against this risk.

However, as described in the rest of this summary and detailed in the pages that follow, the revenue side of the story only captures a portion of the overall financial challenge. The City's underlying costs will grow from 2020 to 2021, driven by general inflation and the City's contractual obligations to its unionized workforce. The COVID-19 pandemic and resulting economic downturn has led to increased demand for basic supports such as food assistance and shelter, and the City will continue its efforts to step up to meet at least some share of these overwhelming needs. Moreover, the Mayor's Proposed 2021 Budget takes an initial step to address the historic underinvestment in BIPOC communities and includes \$100 million in new funding for this specific purpose. To balance this additional spending and address the revenue shortfalls described above, the budget reflects reductions of more than \$75 million in General Fund appropriations and relies upon \$52.5 million of one-time resources from the Rainy Day and Emergency Funds. This will leave just \$5 million in the Rainy Day Fund and will fully exhaust the Emergency Fund by the end of 2021. This will leave the City susceptible to further financial shocks, and could force immediate reductions in planned spending if revenues fall short or new emergency costs emerge.

2021 Proposed Budget Executive Summary

Approach to Developing the 2021 Budget

The sections below provide additional detail about the changes to individual City departments, highlighting both areas of additional expenditure and specific spending reductions. The sections are organized to highlight Mayor Durkan's policy priorities for 2021 and how they are reflected in the budget. In approaching the development of this budget, the City Budget Office was aware of these priorities and considered how to balance the available resources to meet them. Spending reductions were necessary, but when departments were asked to develop potential specific proposals an emphasis was placed on minimizing the impact to critical, basic services and to both preserve and expand the ongoing services and capital investments provided to BIPOC communities. In addition, reductions in General Fund support to departments were also informed by their ability to draw upon other resources, such as voter-approved levies, to mitigate the impacts of General Fund reductions. The flexibility proved beneficial in managing reductions to the Seattle Public Library, the Department of Education and Early Learning, the Seattle Department of Transportation, and Seattle Parks and Recreation. The overall approach to balancing also reflected a specific sensitivity toward impacts on the City's work force. To the extent possible, we have sought to reduce labor expenses through voluntary attrition -- holding positions vacant as workers resign or retire -- rather than layoffs. .

Sustaining the City Response to the COVID-19 Pandemic

In 2020, the City took immediate and dramatic steps to address the COVID-19 pandemic, this included measures to contain the virus and also to mitigate its impacts, including the financial hardships created by unemployment and lost business opportunities. While the level of federal support offered in 2020 is not expected to continue next year, the 2021 Proposed Budget dedicates a mix of City, state and federal dollars to continue many of the measures implemented this year. Included in this funding is \$22 million for 2021 that the Mayor and Council agreed to in August 2020 as part of a \$45 million overall package of additional COVID-19 relief for both 2020 and 2021. On-going services will, for example, include:

- Enhanced resources are provided to continue operation of the existing shelter system in a manner that reduces COVID-19 risk by reducing the number of individuals served at any specific facility and operating the facilities with appropriate social distancing and risk mitigation measures.
- An additional \$23 million in Federal Emergency Services Grant (ESG) will be spent on temporary non-congregate shelter to rapidly expand the short-term housing opportunities available for those living unsheltered. This will build upon a \$3 million allocation of ESG resources for this same purpose for latter part of 2020.
- Additional funding of \$2.75 million will support the ongoing operations of new shelter facilities with a capacity for 125 individuals that are planned for opening in late 2020.
- The program established in 2020 to provide expanded hygiene facilities and mobile shower services to those living unsheltered will continue for 2021. This will require \$6 million of General Fund support, because the City cannot assume the current FEMA support will continue.
- An additional \$8 million of General Fund resources will be provided for rental assistance.
- Mortgage counseling services will be supported by a new \$350,000 investment in 2021, consistent with the amount added for 2020.

2021 Proposed Budget Executive Summary

- The grocery voucher food assistance program now being implemented by the Office of Sustainability and Environment, and partially supported by revenues from the City's tax on sweetened beverages, will be supplemented in 2021 with \$3.4 million from the package of COVID-19 relief funding. Even before the COVID-19 crisis hit, the City had increased funding for the program operations in 2020. This new higher level of base funding will continue and now be further enhanced by this additional investment from the Council and Mayor's two-year package of COVID-19 relief.
- Additional funding of \$5 million will be provided to ensure that the City's current drive-up COVID-19 testing sites operate next year, even if federal and/or state support is not provided.
- Seattle Parks and Recreation will provide childcare and supports for elementary-aged children at 19 community center locations, as well establish teen resource hubs at seven of these facilities.

If additional state and federal funding for COVID-19 response and relief is provided later in 2020 or in 2021, the City may have the opportunity to expand this programming and provide additional support to those whose lives have been most disrupted by the virus.

New Investments to Prioritize Equity

From both a financial and policy perspective the most significant element of Mayor Durkan's Proposed 2021 Budget is \$100 million of dedicated, ongoing spending to invest in Black, Indigenous, and Communities of Color (BIPOC) communities. The specific form that these investments will take has not been prescribed in the budget. Instead, the City will establish a community-led Equitable Investment Task Force to identify and recommend appropriate spending priorities. This funding is explicitly designed to be additive to the City's existing programs that support BIPOC communities. For example, the 2021 Proposed Budget continues support for the City's Equitable Development Initiative (EDI). EDI is designed to provide opportunities to build community wealth and invest public dollars in ways that enhance community's capacity to develop and implement projects that can become long-standing community assets. The budget adds scarce General Fund resources to this program to backfill for dedicated revenues that were to come from the City's new tax on short-term rental properties. The COVID-19 pandemic has dramatically reduced those revenues, but not the City's commitment to the initiative.

Community Safety and Re-Imagining Policing in Seattle

Throughout the summer of 2020, Seattle residents took to the streets to protest the unjust murders of Black Americans like George Floyd and Breonna Taylor and the shooting of Jacob Blake; all of these individuals experienced violent and lethal force at the hands of police officers. For years, Seattle has been making progress to expand alternatives to arrest and incarceration and has increased investments in community-based programs that address the root causes of crime and violence. Important reforms required by the federal consent decree have led to progress by the Seattle Police Department (SPD), including a substantial decrease in use of force involving people in crisis and the implementation and advancement of community outreach programs. However, there is still a long way to go in both reforming the Department and building community trust. Communities are not only protesting race-based disparities in interactions with SPD, but the systemic racism built into government.

2021 Proposed Budget Executive Summary

The City recognizes the need to increase transparency and accountability with SPD and its budget, functions, and the policymaking process. To begin this work, the City will create an Inter-Departmental Team (IDT) to conduct a thorough analysis of 9-1-1 calls and all functions of the Seattle Police Department to ensure the department can continue to swiftly respond to Priority One and Two calls while transitioning calls that result from homelessness, behavioral health issues, or substance use problems to organizations outside of law enforcement. Throughout this effort, the City's guiding principle will be creating a system that does not disproportionately criminalize Black people and other communities of color and does not criminalize people for experiencing the effects of institutional failures. Righting the wrongs of American history will not happen overnight, but the City will endeavor every day to embrace this seminal moment in history to create true and lasting change. Additional funding in the amount of \$2 million has been set aside in the Human Services Department in a proposed new Safe and Thriving Communities Division to provide initial funding for recommendations that may come from the work of the IDT and the input it gathers in consulting with various community stakeholders.

Even as the IDT begins its work, the 2021 Proposed Budget for the Seattle Police Department outlines a solid first step in reinventing policing and reimagining community safety. The budget reduces the size of SPD's sworn force, transfers functions from SPD that are better performed in a more civilianized practice, and makes short-term reductions to SPD's budget in response to the COVID-19 pandemic. In particular:

- The Seattle Police Department was budgeted for 1,422 sworn officers in the 2020 Adopted budget, but will only be funded for 1,400 in 2021. The IDT referenced above will work in the fall of 2020 and into early 2021 to assess the appropriate force size for the long run.
- SPD's Parking Enforcement unit and its 120 employees will be transferred to the Seattle Department of Transportation.
- The Office of Emergency Management, which coordinates the City's efforts to prepare for, respond to, and recover from disasters and emergencies, will be moved out of SPD and become an independent office.
- The existing 9-1-1 Communications Center, currently housed in SPD, will also be transferred out into its own independent, stand-alone unit. As non-sworn, community-based alternative responses to calls are developed, the 9-1-1 Communications Center, now to be called the Seattle Emergency Communications Center, will be crucial in dispatching those responses.
- The 2021 budget will make permanent the transfer of the Seattle Police Department's Victim Advocacy Team to the Human Services Department (HSD). This transfer was initially made by the City Council in the 2020 2nd Quarter Supplemental Budget Ordinance. This team is comprised of 11 FTEs and a budget of \$1.25 million. These resources will be added to the proposed new Safe and Thriving Communities Division in HSD.

The 2021 Proposed Budget expands activities pertaining to sustainment of the federal consent decree, reinforcing implemented reforms and investing additional resources to expand the capacity of both the Office of Professional Accountability and the Office of the Inspector General for Public Safety.

However, the reform efforts represented in the Proposed 2021 Budget are not limited to changes related to SPD. In addition, there are funding modifications for both the Seattle Municipal Court (SMC) and the City's relationship with King County for the provision of jail services. Responding to the recommendations of an outside assessment of SMC's current probation services, the Court has proposed a significant restructuring of this function. SMC will reorganize probation services to transform pretrial justice by reducing in-person day reporting and moving to a collaborative Community Court

2021 Proposed Budget Executive Summary

model; and reduce traditional post-sentence supervision to focus on higher risk charges. The redesign reduces the SMC budget by \$1.4 million and cuts probation staff by 13 positions (a 25% staffing reduction). In support of this new approach, the budget adds \$100,000 for the Court to contract with a non-profit for a case manager equipped to make culturally appropriate referrals to community-based agencies which will support clients in services with the goal of long-term self-sufficiency outside the court system.

With respect to jail services, the City and County are working to complete an agreement that would redirect a share of the resources now spent on jail operations toward community-based supports that can reduce the use of jail. The goal is to increase community-based support for disproportionately incarcerated communities through investment in programs lowering the risk of any involvement with the criminal justice system. The plan is to have the County and City work collaboratively with representatives from the affected communities to allocate these resources. As part of this agreement, the County and City will also establish a process for ongoing monitoring of jail operations with the aim of providing appropriate services and care for those who are incarcerated.

Highlights of Necessary Budget Reductions and Use of Fiscal Reserves

To balance the investments described in the sections above and address the revenue shortfalls created by the COVID-19 pandemic and resulting economic downturn, the 2021 Proposed Budget will reduce spending across the City, shift funding sources to support essential functions, and draw down some of the City's fiscal reserves. The most significant of these budget actions include:

- A wage freeze in 2021 for the City's unrepresented, broad-band salaried employees, including strategic advisors, managers and executives. This will save approximately \$6 million across the City, including \$2 million of General Fund resources, relative to the 2.9% pay increase that had otherwise been planned for 2021.
- Maintaining position vacancies as employees choose to leave the City and reducing discretionary spending for consultants, travel, and training will save approximately \$30 million in General Fund resources and an additional \$46 million in expenditures from other City funding sources.
- General Fund support to The Seattle Public Library (SPL) will be reduced by 10%, or \$5.8 million. The impacts of this reduction will be partially offset by using Library Levy resources that would have been used to expand hours and programming to support base operations. For planning and budgetary purposes, the budget assumes that the SPL will not resume full operations until July of 2021, and reduced operations during the first half of the year will also provide some financial savings.
- Seattle Parks and Recreation (SPR) is managing a significant reduction in its overall revenues, including an \$11.4 million (10%) reduction in its General Fund support, \$10.5 million reduction in revenues earned from user fees, and a \$19.3 million reduction in Real Estate Excise Tax (REET), which supports capital investments at SPR. Capital resources from the Park District will be shifted to support operations and minimize the operational impacts associated with the reduced revenues. Nonetheless, there will be significant operational impacts.

2021 Proposed Budget Executive Summary

- Five of the City's 26 community centers will be closed in 2021. These closures will provide an opportunity to complete planned capital projects, but will also provide some operational savings.
 - Of the City's 10 pools, only four will remain in operation during 2021.
 - Due to facility closures and reduced capacity due to COVID, there will be a significant decrease in indoor recreation opportunities. SPR hopes to mitigate this by providing outdoor recreation opportunities where possible.
 - SPR staff are being redeployed to support new outdoor recreational programming that will be designed as alternatives to the indoor opportunities that are not available under COVID-19 restrictions.
 - Overall, SPR has assumed that full operations will not resume until mid-year 2021, due to these restrictions.
 - In addition to the operational impacts, the proposed budget significantly reduces major maintenance spending across nearly all of SPR's ongoing capital programs.
- The Seattle Department of Transportation (SDOT) is managing financial pressures from both sides. The pressure is created by a combination of declining revenues (General Fund, Real Estate Excise Tax, and transportation-specific revenues) and unexpected spending pressures (COVID-19 response, emergency snow and ice response from winter 2020, protests, and the failure of the West Seattle Bridge). The total 2021 funding gap of \$85 million will be addressed through \$60 million in spending reductions and a \$25 million interfund loan.
 - Seattle's Human Services Department (HSD) will see an increase in total funding. As highlighted in the earlier section regarding COVID-19 response, there will be increased investments in shelter services and rental assistance. Additional funding will also continue some one-time investments made in 2020. At the same time, 2021 will mark a turning point in the City's approach to funding services for those living without shelter. HSD's budget for addressing homelessness will reflect the establishment of the King County Regional Homelessness Authority (KCRHA) in 2021. Once operational, KCRHA will provide homeless services which have historically been managed by the Human Services Department.

Fiscal Reserves. The actions highlighted above will not be sufficient to balance the General Fund for 2021, and additional resources from the General Fund's fiscal reserves will be needed to fully support the proposed 2021 General Fund spending. The City entered 2020 with approximately \$126 million combined in the Rainy Day and Emergency Funds, which constitute the General Fund's fiscal reserves. To make up for 2020 revenue shortfalls, and to support the first half of the \$45 million, 2-year COVID-19 relief plan, these reserves will be depleted by almost \$70 million in 2020. An additional \$52.5 million will be needed in 2021, leaving just \$5 million available going forward. This is a thin margin in the context of the current uncertainties, but it is difficult to balance the very real pressures to address the current crises while also planning for unknown future risks. If circumstances increase financial pressure on the City over the coming year, quick action would be needed to shift resources from some share of the activities proposed for funding in 2021. With the most easily identified discretionary spending now having been eliminated from the budget, such a reprioritization could be very difficult, forcing the reduction in important City services and/or a reduction in personnel costs that could force layoffs. To avoid such risks in the future, it is important to replenish the General Fund's fiscal reserves once the current crises have abated and we return to a pattern of growing revenues.

2021 Proposed Budget Executive Summary

Impacts to the City's Utilities. The City's two utilities, Seattle City Light (SCL) and Seattle Public Utilities (SPU), have also had to respond to the impacts of the COVID-19 pandemic and resulting economic downturn. SCL is managing a reduction in revenues associated with a decline in energy demand driven by the current recession. Reductions in operational and capital expenditures will be needed in response, but SCL will continue to prioritize the replacement of aging poles, which have been identified as a potential safety and reliability risk, and its forward-looking investments in support of transportation electrification. For SPU, revenue impacts have been less significant, as reductions in commercial demand have been offset by increased residential demand. Nonetheless, SPU has delayed development of the Utility's Strategic Business Plan to better understand the implications of the COVID-19 pandemic, and shifted its immediate priorities to address the current public health crisis. Both utilities will forego planned rate increases in 2021, SCL freezing rates at 2020 levels and SPU doing the same for water. The utilities have also taken steps to provide financial relief to customers who have encountered difficulty in paying their bills, expanding outreach and enrollment for the Utility Discount Program, and offering deferred payment plans for those who need this relief.

Race and Social Justice Initiative (RSJI)

Introduction

This chapter provides background and context for [Race and Social Justice Initiative \(RSJI\)-related budget additions throughout the 2021 Proposed Budget](#).

RSJI is a Citywide effort to end institutionalized racism and race-based gaps in City government. A key component of achieving this goal is the examination of City policies, projects, initiatives and budget decisions to determine how each item impacts different demographic groups in Seattle. Launched in 2004, Seattle was the first U.S. city to undertake an effort that focused explicitly on institutional racism. Since then, King County, and other cities – including Minneapolis, Madison, and Portland – have all established their own equity initiatives. RSJI’s long-term goals are to change the underlying system that creates race-based disparities and to achieve racial equity, as well as to:

- End racial disparities within City government so there is fairness in hiring and promotions, greater opportunities in contracting, and equitable services to all residents;
- Strengthen outreach and public engagement, changing existing services using Race and Social Justice best practices, and improving immigrant and refugee access to City services; and
- Lead a collaborative, community-wide effort to eliminate racial inequity in education, criminal justice, environmental justice, health and economic success.

RSJI works to eliminate racial and social disparities across key indicators of success in Seattle including: arts and culture, criminal justice, education, environment, equitable development, health, housing, jobs, and service equity.

Mayoral Direction

Soon after her inauguration, Mayor Jenny A. Durkan signed an [Executive Order](#) reaffirming the City's commitment to RSJI and a focus to apply a racial equity lens on actions relating to: 1) affordability, 2) education, 3) criminal justice, 4) environmental justice, 5) transportation equity, 6) labor equity, 7) women and minority business contracting equity, 8) removing internal structural and institutional barriers for City employees, and 9) arts and culture equity. The Executive Order also charged the Mayor’s Office to oversee and coordinate a review of the City’s current implementation of the RSJI and directed department directors, personnel within the Mayor’s Office, as well as the Mayor herself, to participate in implicit bias training.

Consideration of Race and Social Justice in the Mayor’s Office

Each City department has a “Change Team” – a group of employees that supports RSJI activities and strengthens a department’s capacity to get more employees involved. The team facilitates and participates in discussions on race and racism. These discussions increase individual and group understanding of how racism and other marginalizing factors affect equity and service provision.

Consistent with established practice since the launch of RSJI, all 2021 budget adjustments were screened for RSJ impacts. Departments used the City’s Racial Equity Toolkit (RET) or other tools to assess

Race and Social Justice Initiative (RSJI)

direct and indirect results of their proposals, and this analysis was then utilized in the decision-making process within CBO and the Mayor's Office.

Race and Social Justice Impacts in the 2021 Proposed Budget

Despite the economic downturn and uncertainty with the revenue forecast for 2021, significant departmental reductions, minimizing negative impacts on RSJ was a high priority in developing the 2021 Proposed Budget. Departments like the Office for Civil Rights and the Office of Immigrant and Refugee Affairs took much smaller reductions than other departments. In addition, funding was prioritized for investments that would increase RSJ.

This section highlights specific examples of RSJI considerations in the 2021 Proposed Budget changes.

Taskforce for Investments in the Black, Indigenous and People of Color (BIPOC) Community

\$100 million of ongoing funding is reserved in the Finance General section of the 2021 Proposed Budget for allocation by a taskforce planned to begin in the fall of 2020. The taskforce will focus on investments in the following categories:

- Education opportunity
- Inclusive economy
- Land acquisition/community wealth building
- Climate justice and Green New Deal
- Community safety
- Community supports (safety net)

These funds are an ongoing, annual commitment to this community. After the taskforce recommendations are finalized, the Council will appropriate the funds to the departments responsible for delivery of service.

DEPARTMENT OF EDUCATION AND EARLY LEARNING

Prenatal to 3 Grant Program

Based on a recommendation from the Sweetened Beverage Community Advisory Board (CAB), this item adds one-time Sweetened Beverage Tax (SBT) funding of \$1.5 million for a new pre-natal to 3 years old grant program for community-based organizations. DEEL will work closely with the CAB and King County Best Starts for Kids (BSK) to develop the grant program. Some gaps in prenatal-to-3 services have been identified through the BSK work. The CAB may consider identifying ongoing SBT funding in the 2022 budget process.

Childcare Resources and Referrals

The Mt Baker Allen Family Center is a community resource center co-located with 95 units of permanent supportive and permanently affordable housing in Southeast Seattle. The Center serves families living in or near poverty with a wide array of community-based services and support to shorten and prevent family homelessness and to strengthen vulnerable families, including childcare resources and referrals. This item continues funding for the childcare referral, parent coaching, and other training services. The 2020 Adopted Budget included funding for these services in the Human Services Department budget.

Race and Social Justice Initiative (RSJI)

SEATTLE ETHICS AND ELECTIONS COMMISSION

Democracy Voucher Increase

This increase funds the Democracy Voucher program for the 2021 election cycle. It provides the funding needed for voucher payments of up to \$6.8 million, voucher printing and mailing costs, and temporary staffing increases for voucher processing and outreach work. The Democracy Voucher program allows all Seattle residents to participate in the process regardless of their income level. In 2021, the Mayor, City Council positions #8 and #9 (citywide) and the City Attorney will be on the ballot. This is one-time funding for 2021 only.

DEPARTMENT OF FINANCE AND ADMINISTRATIVE SERVICES

Secure Affordable Housing Site

This action will increase appropriation authority by \$250,000 in the Department of Finance and Administrative Services for operations and maintenance costs for the Office of Housing's Rainer site (formerly the Mount Baker UW Laundry site). In the long term, this site will be used to provide affordable housing and a community hub in the Mount Baker area. More access to affordable housing will help historically underserved populations in the area impacted by rising cost of living in Mt Baker.

Expanded Use of the Wheelchair Accessible Services Fund

This action increases the Department and Finance and Administrative Services budget for the City's Wheelchair Accessible Services Fund by \$1.14 million. Fund revenues are from a surcharge paid on each transportation network company, taxicab and for-hire vehicle trip originating within the Seattle city limits. This proposal anticipates expanding access to wheelchair-accessible taxis helping those who rely on wheelchairs or other mobility-assisted devices in their daily lives. This could also increase business for wheelchair accessible taxis that are driven or operated by people of color.

HUMAN SERVICES DEPARTMENT

Crisis Connections One Call

This item provides ongoing funding for what was originally a one-time 2019-2020 investment in the One Call single diversion portal operated by the nonprofit organization Crisis Connections.

Generations with Pride Senior Program

This item provides ongoing funding for what was originally a one-time \$180,000 investment to support Generations Aging with Pride, a senior center on Capitol Hill serving the LGBTQ community.

Legal Services for DVSA Survivors

This item provides ongoing funding for what was originally one-time funding for legal representation for survivors of sexual violence. This legal support defends the civil rights and wishes of sexual violence survivors regardless of the criminal and civil judicial systems' procedures and responses. This legal support includes protecting the privacy rights of survivors.

Mt. Baker Family Resource Center

This item continues support for what was originally one-time funding for the Mt. Baker Allen Family Center project. This a community resource center co-located with 95 units of permanent supportive and permanently affordable housing in Southeast Seattle. The Center serves families living in or near poverty with a wide array of community-based services and support to shorten and prevent family homelessness and to strengthen vulnerable families.

Critical Incident Community Responders

Race and Social Justice Initiative (RSJI)

This item makes ongoing the City's one-time 2020 investment in Community Critical Incident Responders, a program operated by the nonprofit Community Passageways. This intervention was developed jointly between HSD and the Seattle Police Department in response to several shootings in the early part of 2020 as a community-based solution to mitigate and prevent shootings.

DEPARTMENT OF NEIGHBORHOODS

This item continues funding for leased space appropriated in the 2020 3rd Quarter Supplemental Budget Ordinance. Seattle King County Black Lives Matter, in coordination with the City of Seattle and Seattle & King County Public Health, will lease a space for delivery of direct services and the coordination of targeted services toward communities who are disproportionately impacted by the COVID-19 public health crisis. Services will be focused on Black LGBTQIA, non-binary youth and youth adults and other youth and young adults.

SEATTLE OFFICE FOR CIVIL RIGHTS

Title VI Compliance

This item adds a half-time position to the Office of Civil Rights (OCR) to implement, monitor, and ensure citywide compliance with Title VI federal grant requirements. Title VI of the Civil Rights Act of 1964 prohibits discrimination under any program or activity receiving federal financial assistance on the basis of race, national origin, and color. Over time, protected classes such as sex, age, and disability were added. Previously, OCR had a dedicated part-time position for Title IV compliance, but the position was abrogated in 2011, and work was reassigned to existing staff. Since then, staff have not had sufficient capacity to meet the demands of the work.

Race and Social Justice Summit

This item adds funding to OCR's budget for the City's annual Race and Social Justice Summit. Previously, OCR has received funding from the Office of Arts and Culture. The budget adds funding to OCR to ensure a stable funding source for this important work. The summit is open to both City employees and community members.

OFFICE OF LABOR STANDARDS

Transportation Network Company Fare Share Program

The Office of Labor Standards (OLS) is responsible for enforcing ordinances related to the Minimum Compensation and Deactivation of Transportation Network Company (TNC) drivers. TNCs classify these drivers as independent contractors and represent that they are exempt from existing minimum labor standards established by federal, state, and local law. A large number of those drivers are immigrants and people of color who have taken on debt or invested their savings to purchase and/or lease vehicles to provide TNC services.

The 2021 Proposed Budget includes the creation of two full-time positions on the OLS enforcement team, as well as appropriations for the outreach and implementation of the TNC ordinances. A new investigator will be responsible for investigating violations of and enforcing the City's labor standards and ordinances, particularly as they relate to TNC drivers and other gig workers. The new enforcement strategist will be responsible for developing case management strategies and investigative approaches for the department's enforcement team, particularly as they relate to the multiple new worker protection ordinances, some of which are the first of their kind in the nation.

Race and Social Justice Initiative (RSJI)

OFFICE OF PLANNING AND COMMUNITY DEVELOPMENT

General Fund Support to Equitable Development Initiative

The Equitable Development Initiative (EDI) was established in 2016 to provide investments in neighborhoods that support those most affected by displacement and low access to opportunity. The program's objectives include advancement of economic opportunity and wealth-building strategies, preventing displacement, and building on local cultural assets.

The EDI program is coordinated by the Office of Planning and Community Development and is guided by an external community advisory board representing impacted communities. EDI is normally supported by \$5 million in revenues from the Short-Term Rental Tax (STRT). The 2021 Proposed Budget provides \$3.1 million of General Fund resources to replace Short-Term Rental Tax revenues which are declining due to the COVID crisis. This funding is one-time and budget-neutral to maintain the \$5 million annual funding level.

OFFICE OF SUSTAINABILITY & ENVIRONMENT

Sustainable Communities

The 2021 Proposed Budget includes \$3.4 million in the Office of Sustainability & Environment to continue a program through the first quarter of 2021 for emergency grocery vouchers to Seattle families in need. The proposed budget also continues the Fresh Bucks Voucher program which provides assistance to those who struggle to afford healthy food. Both these programs provide critical assistance, especially during the COVID-19 pandemic, to Seattle residents with limited incomes and to predominantly BIPOC communities.

Environmental Equity

Despite the difficult budgetary environment, the proposed budget maintains existing programs and initiatives that further environmental equity with a particular focus on predominantly BIPOC and low-income communities. These initiatives include the Equity & Environment Initiative and the Environmental Justice Fund which center policy and programming on the communities most affected by environmental injustice. Also maintained in the proposed budget is the Duwamish Valley Program which addresses healthy environment, parks and open space, community capacity, economic opportunity, mobility and transportation, affordable housing, and public safety in the South Park and Georgetown neighborhoods.

SEATTLE DEPARTMENT OF HUMAN RESOURCES

Equal Employment Opportunity Compliance

The Seattle Department of Human Resources (SDHR) is responsible for implementing, monitoring, and ensuring that the City of Seattle is compliant with Equal Employment Opportunity and Affirmative Action Program federal grant requirements. Increased funding includes support for a half-time coordinator as well as software required to meet the mandated federal requirements for Title VI and other federal funding.

Language Premium Pay

The City of Seattle is developing a premium pay policy for employees who are assigned to perform bilingual, interpretive, and/or translation review services for the City. SDHR will add a half-time position in the Workforce Equity division to serve as a subject matter expert to departments to help determine employee eligibility for language access service assessment, identify and track bilingual service

Race and Social Justice Initiative (RSJI)

assignments, and manage data regarding bilingual service assignments and employee language proficiency.

SEATTLE FIRE DEPARTMENT

Health One Expansion

This item funds an expansion of the Health One program. These funds will support a second team of two firefighters and one case manager to respond to EMS calls that do not require emergency department transportation (low-acuity calls), to divert patients to appropriate destinations. A second team will enable the program to fully cover core operating hours during weekdays when critical partner services are open, and grow geographic coverage beyond Pioneer Square and Downtown to South Seattle, Ballard and the University District.

Low-acuity conditions affect some of the most vulnerable members of the community. A significant portion of patients are experiencing homelessness, with members of historically disadvantaged communities being more likely to experience homelessness than the general population. Expanding Health One will improve the program's reach and effectiveness.

SEATTLE MUNICIPAL COURT

Probation Services Reorganization

Seattle Municipal Court will reorganize probation services to transform pretrial justice by reducing in-person day reporting and moving to a collaborative Community Court model. It will also reduce traditional post-sentence supervision to focus on higher risk charges. The redesign reduces budget by \$1.4 million and cuts probation staff by 13 positions (25% staffing reduction).

There are many contributing factors that lead to racial disproportionality in the criminal legal system. These include the Seattle Police Department's arrest decisions and the Seattle City Attorney's decisions on what cases to prosecute. The Court acknowledges disproportionality exists and are committed to reducing disproportionality in how it works with and affects individuals. In 2019, the Court asked the Vera Institute of Justice to examine the impact of probation policies and practices on racial equity and gender equity as well as client success and well-being. Their analysis and review of best practices informs the redesigned approach, and the Court's commitment to working with partners across the system to reduce racial disproportionality

SEATTLE PARKS AND RECREATION

The financial shortfalls caused by the COVID-19 pandemic affect both the level of General Fund support and the earned revenues for Seattle Parks and Recreation (SPR). As a result of these funding decreases, SPR had to make significant reductions in the 2021 Proposed Budget. SPR prioritized preserving discrete projects in BIPOC communities as well as services and projects in underserved neighborhoods. Instead, SPR is making significant cuts in its major maintenance program to allow other capital projects to move forward such as the community center stabilization projects at locations in South Seattle and land banked site development at Little Saigon, North Rainier and South Park.

SEATTLE PUBLIC UTILITIES

Public Hygiene Program

During 2020, Seattle Public Utilities (SPU) launched a comprehensive public hygiene program for the unsheltered population. As of fall 2020, three mobile hygiene trailers with shower facilities, as well as 15 hygiene stations with portable toilets and handwashing units, have been set up throughout Seattle.

Race and Social Justice Initiative (RSJI)

This program was expedited as an emergency response to the COVID-19 pandemic, given the closures of community centers and other hygiene facilities; it also serves the goals of the Council's 2019 budget add for mobile public hygiene facilities.

The 2021 Proposed Budget funds this program on an ongoing basis by dedicating \$6.3 million in SPU to maintain and expand these public hygiene investments. Although this program provides critical needs related to the pandemic, it also provides for ongoing, unmet hygiene and public health needs for Seattle's unsheltered population. In doing so, it expands the City's services for a population that is disproportionately BIPOC, endures significant economic insecurity, and experiences health inequities. These investments bring homelessness-related spending at SPU to over \$12 million in 2021.

Summary Charts and Tables

Summary Charts and Tables

Expenditure Summary

(In thousands of dollars)

	2019 Actuals		2020 Adopted Budget		2021 Proposed Budget

*FAS excludes bond funds (20130, 20139 and 20140) and Business Improvement Area funds (BIAs) which are not budgeted.

**For departments that receive General Fund (GF) transfers from Finance General (FG), the GF amount is shown in the department receiving the transfer instead of FG. These departments include: the Office of Labor Standards, Firefighters' Pension, Police Pension, Seattle Public Library and Finance & Administrative Services.

General Fund Revenue Overview

City Revenue Sources and Fund Accounting System

The City of Seattle budget authorizes annual expenditures for services and programs for Seattle residents. State law authorizes the City to raise revenues to support these expenditures. There are four main sources of revenues. First, taxes, license fees, and fines support activities typically associated with City government, such as police and fire services, parks, and libraries. Second, certain City activities are partially or completely supported by fees for services, regulatory fees, or dedicated property tax levies. Examples of City activities funded in-whole or in-part with fees include certain facilities at the Seattle Center, recreational facilities, and building inspections. Third, City utility services (electricity, water, drainage and wastewater, and solid waste) are supported by charges to customers for services provided. Finally, grant revenues from private, state, or federal agencies support a variety of City services, including social services, street and bridge repair, and targeted police services.

The City accounts for all revenues and expenditures within a system of accounting entities called “funds.” The City maintains numerous funds. The use of multiple funds is necessary to ensure compliance with state budget and accounting rules and is desirable to promote accountability for specific projects or activities. For example, the City of Seattle has a legal obligation to ensure revenues from utility use charges are spent on costs specifically associated with providing utility services. As a result, each of the City-operated utilities has its own fund. For similar reasons, expenditures of revenues from the City’s various property tax levies are accounted for in separate funds. As a matter of policy, several City departments have separate funds. For example, the operating revenues and expenditures associated with those revenues for the City’s parks are accounted for in the Park and Recreation Fund. The City also maintains separate funds for debt service and capital projects, as well as pension trust funds, including the Employees’ Retirement Fund, the Fireman’s Pension Fund, and the Police Relief & Pension Fund. The City holds these funds in a trustee capacity, or as an agent, for current and former City employees.

The City’s primary fund is the General Fund. The majority of resources for services typically associated with the City, such as police and fire or libraries and parks are received into and spent from one of two funds of the City’s general government operation: the General Fund for operating resources and the Cumulative Reserve Fund for capital resources.

All City revenue sources are directly or indirectly affected by the performance of the local, regional, national, and even international economies. For example, revenue collections from sales, business and occupation, and utility taxes, fluctuate significantly as economic conditions affecting personal income, construction, wholesale and retail sales, and other factors in the Puget Sound region change. The following sections describe the current outlook for the local and national economies, and present greater detail on forecasts for revenues supporting the General Fund and the Cumulative Reserve Fund.

National Economic Conditions and Outlook

The National Bureau of Economic Research (NBER) officially announced on June 8 that a recession began in the U.S. after the economy peaked in February 2020. The 128-month long expansion from June 2009 to February 2020 is the longest on record (since 1854), it is followed by the deepest but most likely also the shortest recession since World War II. Based on the IHS Markit forecast from July, in 2020 real GDP is expected to fall by 6.1% and payroll employment by 7.9 million jobs; the unemployment rate peaked

Revenue Overview

at 14.4% in April 2020. For comparison, in 2009 the real GDP declined by 2.5% and the economy lost 5.9 million jobs; the unemployment rate peaked at 10.6% in January 2010.

Recovery will take years. In the Wall Street Journal Economic Forecasting Survey of 63 economists from August, the median forecast predicts real GDP will reach its 2019 Q4 level in 2022 Q1. In a global survey of 606 CEOs, conducted in June 2020 by The Conference Board, just 11% of CEOs expected a fast V-shaped recovery, while 42% predicted a gradual U-shaped recovery, 32% an L-shaped recovery, and 16% a double-dip W-shaped recovery. And according to a Bank of America Global Fund Manager Survey from early August, just 17% of the 181 participants expected a V-shaped recovery, 31% anticipated a slower U-shaped recovery, and 37% of fund managers predicted a W-shaped recovery.

In response to the economic downturn, the Federal Reserve lowered its benchmark interest rate to 0% to 0.25% in March 2020 and returned to aggressive quantitative easing, increasing its balance sheet by more than \$3 trillion. The U.S. Congress has passed an enormous \$2.2 trillion economic stimulus Coronavirus Aid, Relief and Economic Security (CARES) Act authorizing cash payments, extra unemployment benefits, relief for businesses, support for the health care sector, and state and local government support.

Revenue Overview

Figure 2. U.S. Total Nonfarm Payroll Employment

Seattle Metropolitan Area Economic Conditions and Outlook

Labor Market The regional economy has in the last decade considerably outperformed the U. S. economy in income and employment growth. In February 2020, the seasonally adjusted unemployment rate for the Seattle MSA was just 3.0%, compared to 3.8% for Washington and 3.5% for the U.S. As a result of the stay-at-home orders imposed in March and April, the unemployment rate increased rapidly nationwide and peaked in April 2020, reaching 16.1% in the Seattle MSA, 16.3% in Washington and 14.7% in the U.S. Since then, it has declined somewhat, but in July 2020 it was still highly elevated: 8.5% in the Seattle MSA, 10.3% in Washington and 10.2% in the U.S. The magnitude and the speed at which the job losses occurred is really unprecedented, as shown in Figure 3. Even though the situation improved in the last couple of months, job losses even now exceed the deepest point of the Great Recession.

Figure 3. Recession Job Losses in U.S. and Seattle MSA

Although virtually all sectors in the Seattle region have seen employment increase in the decade after the Great Recession, the principal driver of growth has been high-technology business. Strong growth in the technology sector has spurred growth in professional and business services, as well as leisure and

Revenue Overview

hospitality services and health care. Employment growth at these businesses boosted the demand for office space and housing in the city, spurring a construction boom. Payroll employment in the Seattle MSA peaked in February 2020, reaching 2.075 million jobs.

Seattle recovered from both the 1990 and the 2007 recessions much earlier than the U.S. The 2001 recession, after the collapse of the dotcom bubble, hit the region harder and the recovery took much longer. So far, the path of overall employment recovery from the 2020 recession is very similar on the regional and national level. A closer look at the industry sectors in Figure 4 shows where the effects differ considerably. As of July 2020, regional employment in manufacturing, retail trade, information, financial, professional and business services remains deep below February peak levels. These sectors were in general affected much less and they accounted for almost half of the employment in the Seattle MSA, but only for a quarter of the employment decline. On the other hand, regional employment in construction and leisure and hospitality services declined significantly more and is also recovering slower than on the national level. Representing just 16% of total regional employment, the two sectors accounted for 40% of jobs lost and have not recovered yet.

Figure 4. Change in Employment by Industry in U.S. and Seattle MSA: February 2020 to July 2020

Construction activity is highly cyclical, with periods of strong growth often followed by steep downturns. Seattle experienced a prolonged construction boom in the last ten years. The value of building permits issued by Seattle Department of Construction & Inspections (DCI) increased from on average \$1.82 billion every year between 2000 and 2009 to on average \$3.33 billion every year between 2011 and 2019. As shown in Figure 5, investors appear to be taking a wait and see approach during the pandemic, resulting in a decline in the average monthly value of permits issued. This declined by 38% for the first seven months of 2020 compared to the same period last year, and by about 32% compared to the average for the first seven months of 2015 to 2019. For comparison, after the first seven months in 2009

Revenue Overview

and in 2010, the average monthly value of permits issued was down 27% and 33% year-over-year respectively.

Figure 5. Average Monthly Value of Building Permits Issued by Seattle city

Inflation The Great Recession pushed inflation into negative territory in 2009, the first time in 54 years that consumer prices had declined on an annual basis. During the subsequent recovery, inflation has remained subdued, with the U.S. Consumer Price Index for All Urban Consumers (CPI-U) averaging 1.8% per year over the period 2010-2019. Lower consumer demand due to the COVID-19 pandemic put significant downward pressure on prices, the U.S. CPI-U increased by just 1.0% during the 12-month period ending July 2020. Inflation is expected to recover in 2021 and average 2.1% in the next five years.

Local inflation tends to track national inflation because commodity prices and national economic conditions are key drivers of local prices. Seattle inflation has, however, been running higher in recent years due to the region's high housing price inflation. From 2011 to 2019, Seattle CPI-U has grown on average 2.2% each year, compared to 1.8% for the U.S. CPI-U. Average annual housing inflation for this period was 3.9% for Seattle and 2.3% for the U.S. This trend will very likely continue, since the pandemic has increased demand in the housing market, resulting in rising home prices. After a drop to 1.5% in 2020, Seattle area CPI-U inflation is expected to continue to track higher than national inflation and average 2.3% in the next few years.

Regional Economic Outlook The regional economy and its labor force are well diversified, and with a large share of technology and e-commerce sector employment, the Seattle area has the potential for healthy employment growth once the current problems subside.

Based on the August CBO regional economic forecast, Seattle MD payroll employment is expected to decline in 2020 by 5.9% in the faster recovery scenario and 7.4% in the slower recovery scenario. The recovery will be gradual and take years: the 2019 Q4 peak is reached in the faster recovery scenario in

Revenue Overview

2022 Q4, and in the slower recovery scenario only in 2023 Q4. This would still be a quicker recovery than after the 2007 recession, when employment took five and half years to recover.

Figure 6. Payroll Employment Growth, Seattle MD

Personal income per capita is predicted to drop from its peak by 1.8% in the faster recovery scenario and by 6.9% in the slower recovery scenario before resuming growth in 2022.

Figure 7. Per Capita Personal Income, Seattle MD

There are several sources of uncertainty and downside risk for the local economy, both in the short- and long-run. Boeing is still struggling to get the 737 MAX approved to resume service after being grounded in March 2019. In addition, the collapse in demand for travel and canceled orders have led Boeing to consider whether to consolidate its two 787 assembly lines, in Washington and South Carolina, into a

Revenue Overview

single location. Closing the assembly line in Everett where Boeing employs 30,000 workers would have large negative consequences not just for the local aerospace industry, but the local economy as a whole.

Prosperity in the leisure and hospitality sector, local hotels and restaurants, is closely tied to tourism, conventions and cruises. The travel and hospitality industry is a major employer in the region, it is facing a slow recovery from the pandemic, and the long term effects are hard to foresee, given how much they depend on consumers' perception of how safe it is to engage in these activities.

The outlook for the construction sector depends largely on the extent to which employers shift to work from home and the resulting drop in demand for new office space. In addition, there are signs that the pandemic might increase demand for living in the suburbs rather than densely populated city cores, slowing down multifamily housing construction in city centers.

Finally, the payroll expense tax that the Seattle City Council passed in July will add to business costs, possibly slow down the employment recovery, and make Seattle less attractive relative to other cities in the region. Amazon has recently revealed a plan to accommodate 25,000 employees in Bellevue in the next few years, up from 15,000 announced in February. The company said there are no new projects planned for Seattle. This follows the company's decision to sublease rather than occupy the Rainier Square Tower and might suggest an Eastside shift over the next several years. If a regional payroll tax is adopted at a level comparable to the one in JumpStart Seattle, labor demand and job growth will very likely be negatively affected in the whole region.

Revenue Overview

City Revenue

The following sections describe forecasts for revenue supporting the City's primary operating fund, the General Fund, its primary capital funds – the Cumulative Reserve Funds, and two select other funds – the Sweetened Beverage Tax Fund and the Short-Term Rental Tax Fund.

General Fund Revenue Forecast

Expenses paid from the General Fund are supported primarily by taxes. As Figure 8 illustrates, the most significant revenue source is the property tax.

Figure 8. 2021 Proposed General Fund Revenue Forecast by Source - \$1,496.3 Million

Figure 9 illustrates tax revenue growth compared to inflation. 2021 includes the new Payroll tax.

Figure 9. City of Seattle Tax Revenue Growth, 1991-2022

Revenue Overview

Property Tax

Property tax is levied primarily on real property owned by individuals and businesses. Real property consists of land and permanent structures, such as houses, offices, and other buildings. In addition, property tax is levied on various types of personal property, primarily business machinery and equipment. Under Washington State law, property taxes are levied by governmental jurisdictions in accordance with annual growth and total rate limitations.

Assessed Value (AV) -- Seattle AV growth for the 2020 tax collection year slowed significantly from 14.53% in 2019 to 4.97% in 2020. Growth is expected to slow even further to 2.39% and -9.89% respectively for 2021 and 2022 tax collection years. These decreases in AV will lead to increases in the tax rates and decreases in the amount of revenue the City will receive from the Medic 1/Emergency Medical Services levy (see below).

Figure 11. Seattle Total Assessed Value

New Construction -- In addition to the allowed annual maximum 1% levy growth, state law permits the City to increase its regular levy in the current year by an amount equivalent to the previous year's tax rate times the value of property constructed or remodeled within the last year, as determined by the assessor. The City is receiving \$9.6 million in additional levy revenues from new construction in 2020 based on \$4.66 billion in new construction added to the tax roll. The 2021 Proposed Budget assumes a decrease in new construction value to \$3.39 billion in 2021. These new construction volumes are projected to generate \$7.2 million in 2021 revenue.

Revenue Overview

Figure 12. Seattle New Construction Property Tax Revenue

The 2021 Proposed Budget assumes 1% growth plus new construction. The forecast for the 2021 Proposed Budget's General Fund (General Purpose) portion of the City's property tax is a downwardly revised \$274.7 million in 2020 and \$285.7 million in 2021. Additionally, the City is levying approximately \$264.7 million for voter-approved lid lifts in 2020, and \$268.1 million in 2021. All levy lid lift proceeds are accounted for in other funds than the City's General Fund. Finally, the City is levying \$22.7 million in 2020 and 2021 to pay debt service on voter-approved bond measures.

Seattle Parks District. In August 2014, voters approved creation of a Metropolitan Park District (MPD). Pursuant to RCW 35.61, the MPD is a legally separate taxing jurisdiction from the City of Seattle, whose property tax levy authority of \$0.75 per \$1,000 assessed value is outside of the City's statutory rate limit of \$3.60 per \$1,000 assessed value and whose revenues will not be accounted for in the City's General Fund. The MPD, per its 6-year spending plan (2015-2020), is levying approximately \$53.3 million in 2020 and \$54.6 million in 2021, the first year under its second 6-year plan (2021-2026).

Medic 1/Emergency Medical Services. Voters in November 2019 approved a 6-year (2020-2025 collection years) renewal of the Medic 1/EMS levy at \$0.265 per \$1,000 of AV. Seattle's share of this revenue is based on Seattle's assessed value multiplied by the County rate. These revenues are recorded in the General Fund and expended by the Seattle Fire Department. This generates a revised \$66.1 million in 2020 and \$68.3 million in revenue in 2021.

Figure 13 shows the different jurisdictions whose rates make up the total property tax rate imposed on Seattle property owners, as well as the components of the City's 2020 property tax.

Revenue Overview

Components of City's Property Tax Levy for 2020
(tax rate = \$2.22 per \$1,000 assessed value)

Revenue Overview

Retail Sales and Use Tax

The retail sales and use tax (sales tax) is imposed on the sale of most goods and certain services in Seattle. The tax is collected from consumers by businesses which, in turn, remit the tax revenue to the state. The state sends the City its share of the collections each month.

The current sales tax rate in Seattle is 10.1%. The rate was increased to 10.1% on April 1, 2017 by the addition of a voted increase of 0.5% for the Regional Transit Authority (Sound Transit). This followed an increase from 9.5% to 9.6% on April 1, 2015, when a 0.1% sales tax levy for the Seattle Transportation Benefit District was added. Seattle voters approved that increase in November 2014.

The basic sales tax rate of 10.1% is a composite of separate rates for several jurisdictions as shown in Figure 14. The City of Seattle's portion of the overall rate is 0.85%. In addition, Seattle receives a share of the revenue collected by the 0.1% King County Criminal Justice Levy. Revenue collected by the Seattle Transportation Benefit District is used to make transportation improvements in Seattle.

Figure 14. Sales and Use Tax Rates in Seattle, 2019

Sales tax revenue has grown and contracted with the local economy's ups and downs. Of the City's four major taxes, the sales tax is the most volatile because it is the most sensitive to changing economic conditions. Over half of sales tax revenue comes from retail trade and construction activity, which are very sensitive to changing economic conditions.

Seattle's sales tax base grew rapidly in the late 1990s, driven by a strong national economy, expansion at Boeing in 1996-1997, and the stock market and technology booms. The recession that followed the bursting of the stock market bubble and the September 11, 2001 terrorist attacks ushered in three successive years of declining revenue. This was followed by four years of healthy growth, 2004–2007, led by a surge in construction activity. That expansion ended in 2008 with the onset of the Great Recession, which caused the largest contraction in the sales tax base in more than 40 years. In a period of five quarters beginning with the third quarter 2008, the sales tax base shrunk by 18.2%. The decline was led by a steep drop in construction along with falling sales in almost every industry.

Revenue Overview

After hitting bottom in 2010, Seattle's sales tax base has rebounded strongly, with construction leading the way. Other fast-growing industries include motor vehicle and parts retailing, e-commerce retailing, professional, scientific and technical services, accommodation, and food services. Over the 2011-2018 period sales tax revenue increased on average at an average rate of 8.4% per year.

Sales tax revenue has declined by 15.0% in the first six months of 2020 compared to the same period in the previous year. The biggest decline took place in tax revenue from leisure and hospitality services which fell by 54.6%. The construction sector declined by 13.4% and the trade services sector only by 1.5%, thanks to online sales. Revenue from the rest of the services was lower by 10.1%. The second half of 2020 should see a gradual improvement, but sales tax revenue for the whole year 2020 is still expected to be 16.3% lower year-over-year in the faster recovery scenario and 21.2% in the slower recovery scenario (see Figure 15).

Figure 15. Annual Growth of Retail Sales Tax Revenue

Business and Occupation Tax

Seattle's principal business tax is the business and occupation (B&O) tax, which is levied on the gross receipts of most business activity that takes place in the city. The B&O tax has a small business threshold of \$100,000, which means businesses with taxable gross receipts below \$100,000 are exempt from the tax. Between January 1, 2008 and January 1, 2016, the City's B&O tax also included a square footage tax that was complementary to the gross receipts tax. The square footage tax was implemented to offset an expected revenue loss from state mandated changes in the allocation and apportionment of B&O income. Included in B&O tax revenue are tax refunds, audit payments, and penalty and interest payments for past-due tax obligations.

The City levies the gross receipts tax at different rates on different types of business activity, as indicated in Figure 16. Most types of business activity, including manufacturing, retailing, wholesaling, and printing and publishing, are subject to a tax of 0.222% on taxable gross receipts. Services and transporting freight for hire are taxed at a rate of 0.427%. In 2017 and 2018, the City increased B&O tax rates to the maximum allowed under state law. The increase took place in two steps, a roughly two percent increase on January 1, 2017 and an increase of approximately one percent on January 1, 2018. In addition, the special 0.15% rate for international investment management services was eliminated on January 1, 2017.

Revenue Overview

Figure 16. Seattle Business and Occupation Tax Rates, 2016 – 2020

	2016	2017	2018-present
Wholesaling, Retail Sales and Services	0.215%	0.219%	0.222%
Manufacturing, extracting	0.215%	0.219%	0.222%
Printing, publishing	0.215%	0.219%	0.222%
Service, other	0.415%	0.423%	0.427%
International investment management	0.150%	NA	NA

Other things being equal, the B&O tax base is more stable than the retail sales tax base. The B&O base is broader than the sales tax base, which does not cover most services. In addition, the B&O tax is less reliant than the sales tax on the relatively volatile construction and retail trade sectors, and it is more dependent upon the relatively stable service sector.

B&O revenue growth has mirrored the growth of the local economy. B&O receipts have fluctuated with the economy's ups-and-downs, rising rapidly during the late-1990s stock market and dot-com boom and the housing bubble of the mid-2000s, going flat from 2001–2004 during the previous decade's first recession, and falling sharply during the Great Recession (see Figure 17). During the Great Recession the B&O tax base lost 16.8% of its value between first quarter 2008 and second quarter 2010.

Figure 17. Annual Growth of B&O Tax Revenue

B&O tax revenue has grown at a healthy pace during the recovery from the Great Recession. Over the 2011-2018 period, revenue increased on average at a 7.2% annual rate. Growth was weak in 2013 because of a drop in the revenue from audit activity and an increase in refund payments, not because of a weakening of tax base growth. Industries growing rapidly during the recovery have been construction, information, real estate, management of companies and enterprises, food services, and accommodation.

The B&O revenue payments for the first two quarters of 2020 are 12.8% lower than in the same period last year. Tax revenue for the whole year 2020 it is expected to decrease by 17.1% in the faster recovery

Revenue Overview

scenario and 19.5% in the slower recovery scenario. A one-time drop in revenue is expected in 2020 as a result of HB 1059, which changes the due date for annual payments from January 31 to April 15 beginning with 2020 obligations. Since January and February payments are accrued to 2020, but April and May payments are accrued to 2021, this delay in due date lowers the forecasted growth rate for the 2020 B&O tax revenue by roughly 1.5%.

Utility Business Tax - Private Utilities

The City levies a tax on the gross income derived from sales of utility services by privately owned utilities within Seattle. These services include telephone, steam, cable communications, natural gas, and refuse collection for businesses.

Natural gas prices remain low. The City levies a 6% utility business tax on gross sales of natural gas and on sales of steam which has natural gas as an energy source. The bulk of revenue from the natural gas tax is received from Puget Sound Energy (PSE). PSE's natural gas rates are approved by the Washington Utilities and Transportation Commission (WUTC). Another tax is levied on consumers of gas delivered by private brokers. It is also assessed at 6% on gross sales. Spot prices, those paid for delivery in the following month, continue to be low. Temperatures play a key role in gas related revenues and are inversely related to natural gas usage and subsequent tax receipts.

Telecommunications tax revenues continue to decline. The utility business tax is levied on the gross income of telecommunication firms at a rate of 6%. Revenue from traditional land-line services has been on a steady decline. This was counteracted by the increasing prevalence of mobile/wireless phones. While new smartphone users have added to the wireless tax revenue base, the increased use of data and internet services which are not taxable have caused declines in the revenue streams.

As more and more wireless phone users are using the devices for data transmission instead of voice or text applications, and telecom companies change their rate plans to respond to this consumer behavior, the City may continue to see tax revenue declines. Some recent court decisions have altered what types of wireless phone calls the City can tax; the City may no longer assess a tax on interstate and international phone calls. There are continued pressures on this revenue stream.

Cutting the cord is affecting Cable Tax revenues. The City has franchise agreements with cable television companies operating in Seattle. Under the current agreements, the City levies a 10% utility tax on the gross subscriber revenues of cable TV operators, which accounts for about 90% of the operators' total revenue. The City also collects B&O taxes on miscellaneous revenues not subject to the utility tax. The imposition of a 4.4% franchise fee makes funds available for cable-related public access purposes. This franchise fee is deposited into the City's Cable Television Franchise Fund. Cable revenues have been declining year over year for some time. Increased competition from satellite and streaming services appear to be taking customers away from traditional cable providers. That is expected to continue and will be a drag on revenues.

Utility Business Tax - Public Utilities

The City levies a tax on most revenue from retail sales collected by City-owned utilities (Seattle City Light and Seattle Public Utilities). Tax rates range from a State-capped 6% on City Light up to a current 15.54% on the City Water utility. The COVID-induced recession is having a small impact on commercial revenues for the utilities, while residential usage is resilient.

Revenue Overview

Other Notable Taxes

Admission Tax. The City imposes a 5% tax on admission charges to most Seattle entertainment events, the maximum allowed by state statute. This revenue source is highly sensitive to swings in attendance at athletic events. It is also dependent on economic conditions, as people's ability and desire to spend money on entertainment is influenced by the general prosperity in the region. The recession has almost completely wiped out admissions tax revenues since March of 2020. The forecast is for a slow recovery in 2021. Beginning in 2022, all admissions tax revenues will be receipted into the Arts & Culture Fund. The Office of Arts and Culture section of this document provides further detail on the office's use of Arts Account revenue from the admission tax and the implementation of this change.

New Heating Oil Tax delayed. Effective September 1, 2020, Council imposed a \$0.236 per gallon tax on heating oil service providers for every gallon of heating oil sold and delivered within Seattle. Council has delayed implementation until July of 2021. This tax is estimated to generate \$800,000 in 2021. The revenues primarily support low-income household oil furnace conversion programs administered by the Office of Sustainability and Environment.

New Transportation Network Company Tax. In November 2019, Council approved a tax on transportation network companies (TNC), such as Uber and Lyft, effective July 1, 2020. The tax of \$0.57 per trip is owed for all rides originating in Seattle by TNC's with more than 1 million rides per calendar quarter. Council has reduced the ride threshold to 200,000 rides per quarter effective in October 2020. The first proceeds are not expected until the first quarter of 2021. This tax is estimated to raise \$5.0 million in 2021.

Licenses and Permits

The City requires individuals and companies conducting business in Seattle to obtain a City business license. In addition, some business activities, such as taxi cabs and security systems, require additional licenses referred to as professional and occupational licenses. The City also assesses fees for public-safety purposes and charges a variety of fees for the use of public facilities and rights-of-way.

In 2005 the City instituted a two-tier business license fee structure. The cost of a license, which had been \$80 per year for all businesses, was raised to \$90 for businesses with worldwide revenues of more than \$20,000 per year and lowered to \$45 for businesses with worldwide revenues less than \$20,000 per year. The City increased the fees for 2015 license renewals to \$110 and \$55, respectively. To provide funding for additional police officers, new business license fee structure took effect for 2017 licenses. Fees increased for businesses that have a taxable income (reported for B&O tax purposes) greater than \$500,000. Fees for all other businesses remain at 2016 levels until 2020. Fee increases were being phased in over a three-year period, 2017–2019, and will increase with inflation annually thereafter.

Figure 18. Business License Fee Schedule, 2016 – 2021

Taxable income	2016*	2017	2018	2019	2020	2021
Less than \$20,000	\$55	\$55	\$55	\$55	\$56	\$56
\$20,000 - \$500,000	\$110	\$110	\$110	\$110	\$113	\$114
\$500,000 - \$2 mil.	\$110	\$480	\$480	\$500	\$511	\$515
\$2 mil. - \$5 mil.	\$110	\$1,000	\$1,000	\$1,200	\$1,227	\$1,238
More than \$5 mil.	\$110	\$1,000	\$2,000	\$2,400	\$2,455	\$2,476

Revenue Overview

*2016 fee is based on worldwide gross income, not taxable income.

Parking Meters/Traffic Permits

As part of the overall response to the Corona virus, the City suspended on-street parking rates as of April 4, 2020. On July 13 the system was restarted with rates set at \$0.50 per hour and are anticipated to increase gradually at intervals as occupancy levels increase with the recovery into 2021. Overall 2020 revenue losses, relative to the 2020 Adopted Budget are anticipated to be on the order of 70%, or about \$28 million. In addition to expectations for rate growth by neighborhood, forecasts for 2021 are also trying to anticipate the loss or additions of paid parking spaces as the Department of Transportation attempts to respond to changing demands on city streets and curb space.

Street Use and Traffic Permits. Traffic-related permit fees, such as meter hood service, commercial vehicle load zone, truck overload, gross weight and other permits are projected to generate revenues of approximately \$5.6 million in 2020 and \$5.5 million in 2021. These are revised down from approximately \$6.5 million in the 2020 Adopted Budget.

Court Fines

Typically, between 50% and 60% of court fine revenues collected by the Seattle Municipal Court are from parking citations written by Seattle Police Department parking enforcement (PEOs) and traffic officers. Fines from photo enforcement in selected intersections and school zones now comprise approximately 35-45% of revenues and 5-10% comes from traffic and other non-parking related citations.

Total 2020 General Fund fines revenues are expected to decrease in the 2021 Proposed Budget to \$15.6 million from \$27.1 million in the 2020 Adopted Budget. 2021 revenues are projected to increase to \$22.4 million. Of this total, Red light camera enforcement revenues (i.e., non-school zone cameras) are anticipated to be \$3.3 million in 2020 and \$3.6 million in 2021. These amounts are fully recognized in the General Fund. In 2021, per the City Council's action for 2018-20 to suspend the prior requirement of transferring 20% of red-light camera revenues to the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund, an estimated \$700,000 is transferred to the SSTPI Fund, bringing the total Red Light Camera revenues to approximately \$4.3 million. Non-camera fine revenues are projected at approximately \$18.8 million in 2021, which is down from 2019 actual receipts of \$23.8 million but an increase from the \$12.4 million expected in 2020.

The 2021 Proposed Budget revises downward school zone camera revenue for 2020 from \$10.6 million to \$2.9 million. This revision is due to school closures with the onset of the Corona virus and delayed implementation of 10 new cameras at 6 schools. 2021 revenues assume in-person instruction and activation of the new cameras effective January 1, 2021. The forecast for 2021 revenues is \$13.2 million. School zone camera revenues are accounted for in the School Safety Traffic and Pedestrian Improvement Fund.

Interest Income

Through investment of the City's cash pool in accordance with state law and the City's own financial policies, the General Fund receives interest and investment earnings on cash balances attributable to several of the City's funds that are affiliated with general government activities. Many other City funds are independent, retaining their own interest and investment earnings. Interest and investment income

Revenue Overview

to the General Fund varies widely, subject to significant fluctuations in cash balances and changes in earnings rates dictated by economic and financial market conditions. Rates fell further with the Federal Reserve's actions as a result of the recession. This revenue will remain reduced for the foreseeable future.

Revenue from Other Public Entities

Washington State shares revenues with Seattle. The State of Washington distributes a portion of tax and fee revenue directly to cities. Specifically, portions of revenues from the State General Fund, liquor receipts (both profits and excise taxes), and motor vehicle fuel excise taxes, are allocated directly to cities. Revenues from motor vehicle fuel excise taxes are dedicated to street maintenance expenditures and are deposited into the City's Transportation Fund. Revenues from the other taxes are deposited into the City's General Fund.

Criminal Justice revenues are stable. The City receives funding from the State for criminal justice programs. The State provides these distributions out of its General Fund. These revenues are allocated on the basis of population and crime rates relative to statewide averages. These revenues have been affected by State budget changes in the recent past and, while not expected, could be affected in future budgets out of Olympia.

Marijuana related revenues are being shared with local jurisdictions. As part of the State's 2016 budget, marijuana related tax revenues are being shared with local jurisdictions for public safety purposes. The state has adopted a complicated allocation of these revenues, but in general only those cities in counties that have legalized marijuana sales will receive excise tax distributions based on both their jurisdictions proportion of marijuana related sales as well as a per capita basis. Because this is a relatively new revenue stream with a growing tax base, the forecast is imprecise.

State budget restores liquor related revenues to cities. Cities in the state of Washington typically receive two liquor related revenues from the State. One is related to the liquor excise tax on sales of spirits and the other is a share in the State Liquor and Cannabis Board's profits accrued from the operation from their monopoly on spirits sales. The State no longer holds the monopoly in liquor sales in the state due to the passing of Initiative 1183 in November of 2011. The initiative guaranteed the cities would continue to receive distributions in an amount equal to or greater than what they received from liquor board profits prior to the implementation of the initiative as well as an additional \$10 million to be shared annually. There was no guarantee concerning liquor excise taxes. In recent budgets the State has eliminated, on a temporary basis, the sharing of liquor excise taxes. The most recent State budget has restored fully the excise tax funding to cities.

Service Charges and Reimbursements

Internal service charges reflect current administrative structure. In 1993, the City Council adopted a resolution directing the City to allocate a portion of central service expenses of the General Fund to City utilities and certain other departments not supported by the General Fund. The intent is to allocate a fair share of the costs of centralized general government services to the budgets of departments supported by revenues that are largely self-determined. These allocations are executed in the form of payments to the General Fund from these independently supported departments. More details about these cost allocations and methods are detailed in the Cost Allocation section of this budget.

Revenue Overview

Interfund Transfers

Interfund transfers. Occasionally, transfers from departments to the General Fund take place to pay for specific programs that would ordinarily be executed by a general government department or to capture existing unreserved fund balances. A detailed list of these transfers is included in the General Fund revenue table found in the Funds and Other section. This includes the transfer of school zone camera revenues described under Court Fines above.

In adopting the 2020 Budget, it is the intent of the City Council and the Mayor to authorize the transfer of unencumbered, unreserved fund balances from the funds listed in the Finance General revenue table to the General Fund.

Cumulative Reserve Fund – Real Estate Excise Tax

The Cumulative Reserve Fund resources are used primarily for the maintenance and development of City general government capital facilities. These purposes are supported mainly by revenues from the Real Estate Excise Tax (REET), but also, to a lesser degree, by the proceeds from certain property sales and rents, street vacation revenues, General Fund transfers, and interest earnings on fund balances.

The REET is levied by the City at a rate of 0.5% on sales of real estate measured by the full selling price. Because the tax is levied on transactions, the amount of revenue that the City receives from REET is determined by both the volume and value of transactions.

Figure 19. REET Revenues

Sweetened Beverage Tax Fund

On June 5, 2017, the City Council approved the Sweetened Beverage Tax (SBT) effective January 1, 2018. Distributors of sweetened beverages are liable for the tax of \$0.0175 per fluid ounce of sweetened

Revenue Overview

beverage distributed into the city of Seattle for final sale to the consumer. The 2021 Proposed Budget includes revenues of \$15.4 million in 2020 revised downward from \$24.3 million in the 2020 Adopted Budget. Restaurant consumption is anticipated to increase somewhat in 2021, increasing these revenues to \$20.7 million. Sweetened beverages include sodas, energy drinks, sweetened juices and teas, sport drinks and ready-to-drink coffee drinks. Revenues will be used to fund educational and food access programs primarily through the Department of Education and Early Learning (DEEL), the Human Services Department (HSD) and the Office of Sustainability and Environment (OSE). Beginning in 2020 these revenues and associated expenditures are moved from the General Fund to the Sweetened Beverage Tax Fund in the City's accounting system.

Short-Term Rental Tax Fund

Effective January 1, 2019, the State legislature authorized the public facilities district that is the Washington State Trade and Convention Center to impose a 7% tax on the sale of or charge made for the furnishing of lodging (including but not limited to any short-term rental). The proceeds generated from short-term rental charges in Seattle are distributed to the City of Seattle to support community-initiated equitable development and affordable housing programs. These revenues have been severely affected by the significant reduction in travel due to COVID-19 concerns. The 2021 Proposed Budget assumes 2020 revenues decline from \$10.5 million to \$3.7 million. Some growth is anticipated in 2021 to \$7.3 million. Beginning in 2020 these revenues and associated expenditures are moved from the General Fund to the Short-Term Rental Tax Fund in the City's accounting system.

Multi-Department Revenue Summary

In recent years, the City of Seattle has implemented new dedicated revenues for specific purposes in multiple departments. The revenues and expenditures for these multi-department revenues are summarized in the financial plan section of the budget, and additional detail on the expenditure changes in the 2021 Proposed Budget is included below.

This section includes a summary of the following revenues:

Short-Term Rental Tax

Sweetened Beverage Tax

Transportation Network Company Tax

Community Development Block Grant (federal grant used in multiple departments)

Short-Term Rental Tax

The Short-Term Rental Tax (STRT) supports the Equitable Development Initiative (EDI), supportive housing and debt service. The Equitable Development Initiative (EDI) was established in 2016 to provide investments in neighborhoods that support those most impacted by displacement and low access to opportunity. The program's objectives include advancement of economic opportunity and wealth-building strategies, preventing displacement, and building on local cultural assets. Ordinance 125872 states that the Office of Planning and Community Development (OPCD) should receive an annual STRT allocation of \$5 million annually to provide EDI grants to outside organizations. However, short-term rental tax revenues are in decline due to the COVID-19 pandemic and will drop from about \$10.5 million annually to \$7.35 million in 2021. Therefore, the proposed budget utilizes \$3.14 million of General Fund revenues to supplement a \$1.86 million allocation of STRT in OPCD's budget for EDI grants. In addition, the proposed budget allocates \$3.3 million of STRT for permanent supportive housing investments in the Human Services Department and \$2 million for debt service payments on low-income housing.

Sweetened Beverage Tax

Sweetened Beverage Tax (SBT) revenues are expected to partially rebound in 2021 after a large decline in 2020. In 2021, SBT revenues are expected to come in at \$20.8 million. Although this revenue forecast remains lower than 2019 collections by over \$3 million, the Proposed Budget largely maintains SBT-funded programming at existing levels. The budget also includes a one-time \$1.5 million increase to DEEL's budget for a new grant program for community organizations providing prenatal-to-3-year-old services. This program comes out of a recommendation from the SBT Community Advisory Board (CAB). DEEL will work closely with the CAB on implementation of the grant program. The Fresh Bucks program, which was expanded in 2020, will maintain this expansion on a permanent basis. Moreover, grant programming for community healthy food access will be consolidated in the Department of Neighborhoods (DON) which will launch the Healthy Fund Food program that was put on hold through 2020.

Transportation Network Company (TNC) Tax

On September 19, 2019, Mayor Jenny A. Durkan announced a proposed tax on rides with Transportation Network Companies (TNCs) that originate in the City of Seattle. Legislation submitted with the 2020 Proposed Budget exacted the tax, adopted a spending plan for the proceeds, appropriated 2020 revenues, and enacted driver protections. The City Council passed this legislation in November 2019. In 2020, projected revenues from the tax have been severely reduced due to the COVID-19 crisis-related drop in TNC trip volume. Trips fell from 6.8 million in Quarter 2, 2019, to 811,950 in Quarter 2, 2020. In the first quarter since the tax's effective date, there were no qualifying taxpayers and therefore no revenue generated. Given the significant drop in trips and the anticipated gradual trip recovery, projected revenues from the tax are uncertain. The anticipated 2021 revenue is down 75% from the original forecast. This revenue estimate assumes the taxpayer eligibility threshold is changed via proposed ordinance from 1,000,000 or more rides in the prior quarter down to 200,000 or more rides in the prior quarter.

In the 2021 Proposed Budget, the Department of Finance and Administrative Services (FAS) is responsible for maintaining the accounting and tax infrastructure necessary to implement and enforce the tax. The Office of Labor Standards (OLS) is responsible for enforcing the TNC Minimum Compensation and Deactivation ordinances. OLS will also receive appropriations to stand up the Dispute Resolution Center (DRC), pending CBO certification of sufficient tax revenues. Finally, the Seattle Department of Transportation will receive an appropriation of \$1,500,000, pending the City collecting enough revenue to: 1) fund fixed costs for TNC tax implementation and administration in FAS and OLS; 2) pay back loans for 2020 expenditures, and; 3) fund the DRC.

Community Development Block Grant (CDBG)

Funding Source Overview

In 2017, as part of the implementation of a new enterprise-wide financial management system, the Community Development Block Grant (CDBG) Fund (17810) was dissolved and budget was distributed to various other funds in alignment with the direct fund model. The Human Services Department is the City department which acts as custodian for all grants from the U.S. Department of Housing and Urban Development, including CDBG funding. However, CDBG is a relatively flexible funding source and is used by many City departments.

Budget Overview

In the 2021 Adopted Budget, CDBG funds are distributed to departments and projects as detailed on the following page. All projects are subject to federal CDBG eligibility requirements, and for some projects final eligibility has not yet been determined. The 2021 project plan now includes an investment in the services provided by the Mt. Baker Family Center, as well as a note that funds supporting services previously provided by HSD will now be part of the City's contribution to the King County Regional Homelessness Authority.

Department	Title	2021 CDBG
HSD	Human Services Admin & Planning	\$1,203,841
	Homeless Services (KCHRA subrecipient grants)	\$3,151,628
	Homeless Services (KCHRA admin)	\$24,600
	Mt Baker Family Resource Center	\$345,502
	Minor Home Repair	\$449,917
	HSD Total	\$5,175,488
OH	Home Repair Revolving Loan Program, including activity delivery costs (staffing)	Revolving Loan Fund balance (minimum \$255,462)
	Homebuyer Assistance Revolving Loan Program	Revolving Loan Fund balance
	Office of Housing Admin & Planning	\$160,972
	Rental Housing Preservation and Development Revolving Loan Program	RLF balance (minimum \$490,278)
	OH Total	\$160,972
OED	Small Business Support	\$1,363,675
	COVID-19 Round 3 Small Business Grants	\$1,000,000
	OH Total	\$2,363,675
OIRA	Ready to Work Program	\$650,200
OPCD	Equitable Development Initiative	\$430,000
Parks	Seattle Conservation Corp Park Upgrades	\$808,000
Total		\$9,588,335

Expected resources 9,588,335

Balance **\$0**

City Fiscal Reserve Funds

The State of Washington permits the City to maintain two financial reserves to draw upon in the event of certain unanticipated expenditure or revenue pressures.

Emergency Fund

Under the authority of RCW 35.32A.060, the City maintains the Emergency Fund (EMF) of the General Fund. The EMF is the principal reserve for the City to draw upon when certain unanticipated expenses occur during the fiscal year. Eligible expenses include costs related to storms or other natural disasters. State law limits the amount of money the City can set aside in this reserve to 37.5 cents per \$1,000 of assessed value of property within the city.

Prior to 2017, the City's practice had been to fully fund the emergency reserve to this maximum limit. In 2017, the City modified the existing financial policies for the EMF to establish a minimum balance of \$60 million, and to adjust that minimum each year with the rate of inflation. This policy struck a balance between ensuring that resources will be available to address unanticipated expenditures and making resources available to address current needs.

Due to the 2020 COVID-19 pandemic and related economic downturn, the City's revenue forecasts are significantly reduced from prior expectations. Additionally, the City will continue to realize significant expenses to address the emergency into 2021. Due to the magnitude of the ongoing emergency, it will not be possible the City to meet the fund balance requirements for the Emergency Fund in the near future. City policy was amended in 2020 to require that the City return to making contributions as soon as is practically possible after a severe event requiring deep spending from the reserve.

In response to the ongoing COVID-19 emergency, the City anticipates withdrawing \$19.8 million from the EMF during 2020. For the 2021 Proposed Budget, the City draws \$47.1 million from the EMF, reducing the reserve balance to \$0.1 million in 2021.

Revenue Stabilization Fund

Under the authority of RCW 35.21.070, the City maintains a second financial reserve called the Revenue Stabilization Fund (RSF), also known as the Rainy Day Fund. The RSF provides resources for the City to draw upon to maintain City services in the event of a sudden, unanticipated shortfall in revenue due to economic downturns or other factors. City code limits the balance of this reserve to five percent of General Fund tax receipts. Ordinance 123743 requires the City to deposit an amount equivalent to 0.5% of General Fund tax revenues into the RSF, with some limited exceptions. In addition, City policy requires the deposit of 50% of any unplanned year-end fund balance in the General Fund into the RSF. The RSF has a fund balance cap equal to five percent of total annual General Fund tax revenue.

The City adopted significant RSF funding enhancements in 2011 via Ordinance 123743, including the required annual deposit of 0.5% of General Fund tax revenues into the RSF. These changes enabled the City to rebuild the Rainy-Day Fund reserves that had been spent down in 2009 and 2010 in the midst of the Great Recession. The new policies facilitated the rebuilding of this reserve fund from a low of \$10.5 million in 2010 to \$60.8 million by 2020. Additionally, the policies specified that contributions to the fund are suspended when tax revenues decline and are reduced to 0.25% in the following year.

In response to 2020 COVID-19 pandemic and related economic downturn, the City anticipates withdrawing \$29.0 million from the RSF in 2020. The 2021 Proposed Budget draws \$25.7 million from the RSF, reducing the reserve balance to \$6.0 million in 2021.

City Bond Issuance and Debt Service

In addition to cash resources, the City also uses bonds and property tax levies to fund a variety of capital improvement projects. The City's budget must include funds to pay interest and principal on outstanding and proposed bonds. The City has issued three types of debt to finance its capital improvement programs: unlimited tax general obligation bonds, limited tax general obligation bonds and revenue bonds.

Unlimited Tax General Obligation Bonds

The City may issue Unlimited Tax General Obligation (UTGO) Bonds for capital purposes if a proposition authorizing their issuance is approved by 60% of the voters in an election in which the number of voters exceeds 40% of the voters in the most recent general election. Payment of principal and interest is backed by the "full faith and credit" of the City. This means that the City commits itself to include in its property tax levy an amount that is sufficient to pay principal and interest on the bonds. Property taxes levied to pay debt service on UTGO bonds are not subject to the statutory limits in state law on the taxing authority of local governments, which is why UTGO bonds are "unlimited" (see the "Property Tax" section of the "Revenue Overview" for a description of statutory limits on property tax rates and growth). However, state law does limit the amount of UTGO bonds that can be outstanding at any time to 7.5% of assessed valuation of property in the city: 2.5% for open space and park facilities, 2.5% for utility purposes, and 2.5% for general purposes. As of December 31, 2019, there were approximately \$263 million in UTGO bonds outstanding.

Limited Tax General Obligation Bonds

The City Council may authorize the issuance of Limited Tax General Obligation (LTGO) Bonds, also known as Councilmanic bonds, in an amount up to 1.5% of assessed valuation, without a vote of the people. The City pledges its full faith and credit to the payment of principal and interest on LTGO bonds, but this pledge must be fulfilled within the City's statutory property tax limitations. Thus, these are "limited" general obligation bonds. The combination of UTGO bonds issued for general purposes and LTGO bonds cannot exceed 2.5% of assessed property valuation. If LTGO bonds are issued up to the 1.5% ceiling, then UTGO bonds for general purposes are limited to 1% of assessed value.

The City also guarantees debt issued by the Pike Place Market Preservation and Development Authority, the Seattle Indian Services Commission, the Seattle Chinatown/International District Preservation and Development Authority, and the Museum Development Authority. As of December 31, 2019, the guarantees totaled \$36.3 million out of \$820.5 million outstanding LTGO debt. Guarantees count against the City's LTGO debt capacity.

Revenue Bonds

Revenue bonds are used to provide financing for the capital programs of City Light and the three other utilities - Water, Drainage and Wastewater, and Solid Waste - which are grouped together in Seattle Public Utilities. The City does not pledge its full faith and credit to the payment of debt service on revenue bonds. Payment of principal and interest on the bonds issued by each utility is derived solely from the revenues generated by the issuing utility. No tax revenues are used to pay debt service.

When revenue bonds are sold, the City commits itself to set fees and charges for the issuing utility that will be sufficient to pay all costs of operations and maintenance, and all payments of principal and interest on the bonds. While the amount of revenue bonds is not subject to statutory limits, the utility's ability to repay debt with interest is a practical constraint.

Forms of Debt Authorized by State Law

Table 1 below summarizes the conditions and limitations that apply to the issuance of the general obligation debt issued by the City.

Table 1: Summary of Conditions and Limitations for City Debt Issuances

Form of Debt	Voter Approval Required	Source of Repayment	Statutory Limitation	Current Limit ¹	Outstanding 12-31-19 ¹
Unlimited Tax General Obligation Bonds (UTGO)					
Parks & Open Space	Yes	Property Tax	2.5% of AV	\$6.1 Billion	\$0
Utility	Yes	Property Tax	2.5% of AV	\$6.1 Billion	\$0
General Purposes	Yes	Property Tax	1.0 % of AV ²	\$2.9 Billion	\$262 Million
Limited Tax General Obligation Bonds (LTGO)					
	No	Taxes and Other Revenues	1.5% of AV ²	\$3.7 Billion	\$774 Million ³

¹ As of 12/31/19, assuming the latest certified assessed value of \$244.9 billion, issued on February 25, 2019 for taxes payable in 2019.

² The sum of UTGO and LTGO debt for general purposes cannot exceed 2.5% of assessed valuation.

³ Includes \$36.3 million of PDA debt guarantees.

City Debt Management Policies and Bond Ratings

The use of debt financing by the City is subject to federal and state laws as well as the City's own debt management policies ([Resolution 31553](#)).

The City has earned very high ratings on its bonds as a result of a strong economy and prudent financial practices. The City's UTGO debt is rated Aaa by Moody's Investors Service, AAA by Fitch IBCA, and AAA by Standard & Poor's (S&P), which are the highest possible ratings. The City's LTGO debt is rated Aaa by Moody's, AAA by Fitch, and AAA by S&P. In addition, the City's utilities have very high ratings for revenue debt, reflecting sound finances and good management.

2021 Projected Bond Issues

In 2021, the City expects to issue approximately \$206 million of limited tax general obligation (LTGO) bonds for a variety of purposes. Table 2 lists the financed projects and other details of the financing plan. Bond proceeds will be deposited into the 2021 Tax Exempt and Taxable Multipurpose Bond Funds. City departments responsible for all or portions of projects listed in Table 2 will then draw money from this fund as appropriated to implement the projects. The appropriation authority for using these bond funds are in the respective departments' sections of this budget.

Table 2: 2021 Multipurpose LTGO Bond Issuance Costs - Informational Only (\$1,000s)

<i>Project</i>	Capital Cost	Approx. Par Amount (1)	Max. Term	Approx. Rate	Debt Service Adopted 2021	Debt Service Estimated 2022	Debt Service Funding Source

2021 Debt Service

In 2021, debt service associated with outstanding LTGO bond issues as well as the planned 2021 bond issuances is expected to be approximately \$103.9 million. Appropriation authority for debt service costs are in the respective departments' sections of this budget. The Debt Service Appendix lists debt service amounts by paying fund.

Selected Financial Policies

Through a series of Resolutions and Ordinances, the City has adopted a number of financial policies that are designed to protect the City's financial interests and provide a framework and guidelines for the City's financial practices. For additional information about these policies, please refer to the City of Seattle website: http://www.seattle.gov/financedepartment/financial_policies.htm.

Budgetary Basis

- The City budgets on a modified accrual basis. Property taxes, sales taxes, business and occupation taxes, and other taxpayer-assessed revenues due for the current year are considered measurable and available and, therefore, as revenues, even though a portion of the taxes may be collected in the subsequent year. Licenses, fines, penalties, and miscellaneous revenues are recorded as revenues when they are received in cash since this is when they can be accurately measured. Investment earnings are accrued as earned.
- Expenditures are considered a liability when they are incurred. Interest on long-term debt, judgments and claims, workers' compensation, and compensated absences are considered a liability when they are paid.

Appropriations and Execution

- The adopted budget generally makes appropriations for operating expenses at the budget control level within departments, unless the expenditure is from one of the General Fund reserve accounts, or is for a specific project or activity budgeted in the General Subfund category called Finance General. These projects and activities are budgeted individually.
- Capital projects programmed in the CIP are appropriated in the budget at the program or project level. Grant-funded activities are controlled as prescribed by law and federal or state regulations.
- Within the legally adopted budget authorizations, more detailed allocations, as approved by CBO, are recorded in the City's accounting system, called SUMMIT, at the lowest levels of each department's organizational structure and in detailed expenditure accounts. Throughout the budget year, CBO monitors revenue and spending performance against the budget to protect the financial stability of the City.
- In accordance with Washington state law, any unexpended appropriations for operating or ordinary maintenance expenditures automatically lapse at the close of the fiscal year, except for any appropriation continued by ordinance. Unexpended appropriations for capital outlays remaining at the close of the fiscal year are carried forward to the following year, except for any appropriation abandoned by ordinance.

Budget Transfers

The Budget Director may approve, without ordinance, appropriation transfers within a department or agency of up to 10%, and with no more than \$500,000 of the appropriation authority for the particular budget control level or, where appropriate, line item, being increased. In addition, no transfers can reduce the appropriation authority of a budget control level by more than 25%.

Selected Financial Policies

Debt Policies

- The City of Seattle seeks to maintain the highest possible credit ratings for all categories of short- and long-term General Obligation debt that can be achieved without compromising delivery of basic City services and achievement of adopted City policy objectives.
- The City will reserve \$100 million of legal limited tax (councilmanic) general obligation debt capacity, or 12% of the total legal limit, whichever is larger, for emergencies. The 12% reserve is now significantly greater than \$100 million.
- Except in emergencies, net debt service paid from the General Subfund will not exceed 9% of the total General Fund budget. In the long run, the City will seek to keep net debt service at 7% or less of the General Fund budget.

General Fund - Fund Balance and Reserve Policies

- State law allows the City to maintain an emergency reserve at a maximum statutory-authorized level of 37.5 cents per \$1,000 of assessed property value in the city. The City's previous practice had been to fully fund the emergency reserve to this maximum limit. However, over the past several years assessed values have undergone significant growth and are expected to continue at a rate that far outpaces the projected City's revenue growth rate. In 2017 the City modified the existing financial policies for the Emergency Subfund (ESF) to establish a minimum balance of \$60 million, and to adjust that level each year with the rate of inflation. This implies that the ESF would continue to grow, but at somewhat lower rate than under the previous policy. This policy change strikes a balance between ensuring that resources will be available to address unanticipated expenditures and making resources available to address current needs.
- Annual contributions of 0.50% of forecasted tax revenues are automatically made to the Revenue Stabilization Account of the Cumulative Reserve Subfund (commonly referred to as the "Rainy Day Fund").¹ In addition, 50% of any unanticipated excess General Subfund fund balance at year's end is automatically contributed to the Rainy Day Fund. These automatic contributions are temporarily suspended when the forecasted nominal tax growth rate is negative or when the total value of the Rainy Day Fund exceeds 5% of total tax revenues. In addition to the automatic contributions, the City may also make contributions to the Rainy Day Fund via ordinance. Expenditures from the Rainy Day Fund require the approval of a majority of the members of the Seattle City Council and must be informed by the evaluation of out-year financial projections.

Other Citywide Policies

- As part of the Mayor's budget proposal, the Executive develops a revenue estimate that is based on the best available economic data and forecasts.
- The City intends to adopt rates, fees, and cost allocation charges no more often than biennially. The rate, fee, or allocation charge structures may include changes to take effect at

¹ The 0.50% contribution is lowered to 0.25% of forecasted tax revenues for any year immediately following the suspension of contributions as a result of negative nominal tax revenue growth.

Selected Financial Policies

specified dates during or beyond the biennium. Other changes may still be needed in the case of emergencies or other unanticipated events.

- In general, the City will strive to pay for general government current operating expenditures with current revenues, but may use fund balance or other resources to meet these expenditures. Revenues and expenditures will be monitored throughout the year.
- In compliance with State law, no City fund whose purpose is restricted by state or local law shall be used for purposes outside of these restrictions.
- Working capital for the General Fund and operating funds should be maintained at sufficient levels so that timing lags between revenues and expenditures are normally covered without any fund incurring negative cash balances for greater than 90 days. Exceptions to this policy are permitted with prior approval by the City Council.

Office of Arts and Culture

Randy Engstrom, Director

(206) 684-7171

<http://www.seattle.gov/arts/>

Department Overview

The Office of Arts & Culture (ARTS) envisions a city driven by creativity that provides the opportunity for everyone to engage in diverse arts and cultural experiences. The office promotes Seattle as a cultural destination and invests in Seattle's arts and cultural sector to ensure the City provides a wide range of high-quality programs, exhibits and public art. ARTS includes eight programs: Cultural Partnerships, Communications and Outreach, Equity and Youth, Cultural Facilities Operations, Public Art, Artwork Conservation, Administrative Services, and Cultural Space. These programs are supported by two funding sources: the Arts and Culture Fund, which is funded through the City's admission tax revenues, and the Municipal Arts Fund, which is supported by the 1% for Arts contributions from Capital Projects.

The **Cultural Partnerships** Program invests in cultural organizations, youth arts programs, individual artists and community groups to increase residents' access to arts and culture, and to promote a healthy cultural sector in the city. The Cultural Partnerships program offers technical assistance and provides grants to arts and cultural organizations throughout the city.

The **Communications and Outreach** Program works to ensure greater community access to arts and culture through annual forums and award programs by showcasing community arts exhibits and performances at City Hall and King Street Station, and by developing materials to promote Seattle as a creative capital. This program also works on innovative ways to reach out to communities about the opportunities of the department.

The **Cultural Space** Program provides resources to fund the development of new cultural spaces, the retention of crucial cultural anchors, and physical space improvements in existing cultural institutions. The program exists to preserve, create and activate cultural square footage in the city of Seattle; to work with artists and arts organizations to strengthen their role in charting the future of their creative spaces; and to work with developers and builders to incorporate arts and culture into new projects.

The **Cultural Facilities Operations** Program (formerly named the Langston Hughes Performing Arts Institute Program) provides operational support for Langston Hughes Performing Arts Institute, a cultural facility that provides rental spaces and technical assistance, and that works in partnership with LANGSTON, a non-profit organization, to present classes, performing arts academies, programs and events, with the goal of providing quality cultural programs with educational components that meet the needs of the African American community. This program also supports the operation and programming of the King Street Station. This includes a rotating gallery opened to the public. Programming is submitted by the community and reviewed by a community advisory group. This program also provides technical assistance to applicants and selected programs.

The **Equity and Youth** Program invests in teaching artists, educators and organizations that are working toward a stronger more vibrant creative youth culture. ARTS does this through funding, professional development, school and community arts partnerships, arts education initiatives (The Creative Advantage), and career-connected learning in the arts and creative industries. The program also supports arts and cultural learning and events for our city's young people.

The **Public Art** Program integrates artists and their ideas in the design of City facilities, manages the City's portable artworks collection and incorporates art in public spaces throughout Seattle. This program is funded through the 1% for Art program, which by ordinance requires eligible City capital projects to contribute 1% of their budgets to the Municipal Arts Fund for the commission, purchase and installation of public artworks.

Office of Arts and Culture

The **Artwork Conservation** Program supports the City of Seattle's Public Art investment in permanent art. This program provides professional assessment, conservation, repair, and routine and major maintenance of artwork for the City's approximately 400-piece permanently sited art collection.

The **Administrative Services** Program provides executive management and support services for the office; engages in Citywide initiatives; supports the Seattle Arts Commission (a 16-member advisory board that advises the office), the Film and Music Commission (a 21-member advisory board), Mayor, and City Council on arts programs and policy; and promotes the role of the arts in economic development, arts education for young people, and cultural tourism. Funding within this program also covers basic department overhead costs, including office space, human resources, and IT.

Budget Snapshot

Budget Overview

The Office of Arts & Culture (ARTS) is funded by Admission Tax revenue and the 1% for Art Program. This funding supports arts-related programs and capital expenditures to keep artists living and working in Seattle, builds community through arts and cultural events and the placement of public art, and increases arts opportunities for youth. ARTS commits to an anti-racist work practice that centers the creativity and leadership of people of color – those most impacted by structural racism – to move toward systems that benefit us all.

In 2020 and 2021, ARTS' Admission Tax budget is based on revenue collected two years prior (e.g. 2020's budget is based on the amount of Admission Tax collected in 2018). The lack of events in 2020 due to COVID-19 meant that the department would face very steep cuts for 2021-2022 to manage the revenue losses that would hit the Arts and Culture Fund in 2022. To address this shortfall, beginning in 2022, ARTS' Admission Tax budget will switch from appropriating based on revenue collections two years prior to appropriating based on projected collections in the same year as the City receives them. This change greatly reduces the size of the cuts needed for the Arts and Culture Fund to maintain a positive balance, assuming events return in 2022. Shifting to concurrent year funding will also bring Arts and Culture Fund budgeting practice in line with that of the General Fund.

This shift also means the Arts and Culture Fund operating reserve must increase in size to provide an adequate cushion for future downturns when the revenue shortfall will be experienced immediately and there will not be two years' lead time to develop a response. The 2021 Proposed Budget includes legislation to revise the Arts and Culture Fund financial policies to specify a larger reserve that scales as ARTS' budget changes.

In the post-COVID-19 world, Admission Tax revenue is expected to be lower in the coming years than previously projected. Along with the rest of the City, ARTS will need to do less operationally to maintain fiscal balance. The 2021 Proposed Budget reduces ARTS' Admission Tax expenditures by \$1.5 million relative to the 2020 Adopted Budget. To minimize impacts on the community, ARTS undertook a thorough and democratic process relying on discussion with staff, who are closest to the marginalized communities ARTS focuses on serving, and sought community feedback in designing this package of reductions.

Office of Arts and Culture

Description of Incremental Budget Changes

Baseline

Adjustment for One-Time Budget Changes

Expenditures	\$(83,587)
Revenues	\$1,498,709

This item includes budget adjustments for one-time changes in the 2020 Adopted Budget: on the expenditures side, \$50,000 support for an African American museum; \$50,000 for expanding Coyote Central to the Lake City neighborhood; \$15,000 support for free online access to Seattle's historical resources; and a \$31,413 cut (a three-month delay on hiring) to a communications position. The one-time revenue changes were a contribution to the Municipal Arts Fund balance (\$1,743,285), use of \$144,576 in Arts and Culture Fund balance, and \$50,000 each of General Fund moneys transferred to the Arts and Culture Fund for the African American museum and Coyote Central expansion spending.

Baseline Adjustments for Personnel Costs

Expenditures	\$77,874
--------------	----------

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime and temporary labor. There is no increase assumed from 2021 to 2022. This does not include a 2021 salary increase for non-represented Executives, Managers and Strategic Advisors.

Proposed Operating

Activations Reductions

Expenditures	\$(70,751)
--------------	------------

This is a 65 percent reduction in support for unplanned arts and culture opportunities or pilot programming.

Art in Parks Reduction

Expenditures	\$(237,069)
Revenues	\$(237,069)

This item eliminates the budget for the Art in Parks program. ARTS works with Seattle Parks and Recreation (SPR) to support activations of park spaces through arts and cultural activities proposed and implemented by local artists and community. SPR provides funding for these small grants and ARTS administers the grants. Due to COVID-19 budget impacts, SPR will not be able to support these grants so the program will be eliminated for 2021.

City Artists Project Reduction

Expenditures	\$(180,000)
--------------	-------------

This reduction recognizes a shift in timing of grants that would have happened in 2021 but occurred 2020 instead. In 2020, ARTS used budget savings to issue grants to artists (known as "City Artists") that normally would have been granted in 2021. The goal was to get funding into vulnerable communities earlier during a crisis. Because these grants were issued in 2020, the 2021 funding is not needed.

Office of Arts and Culture

Creative Advantage O&M Reduction

Expenditures \$(88,500)

This change is a 14 percent reduction to the Creative Advantage program, an arts education initiative in partnership with Seattle Public Schools. This item includes reduced funding for external evaluation, professional development for classroom educators and teaching artists, panel costs to add partners to the Community Arts Partner roster, travel and conference costs, and a small reduction for schools to partner with arts organizations.

Creative Industries Reductions

Expenditures \$(62,500)

This item reduces the Creative Industries budget by 42 percent and will impact the Seattle Music Commission's Career-Days event, the Office of Film and Music's "The Mixer" networking event, and the Northwest Folklife's (NWFL) career-connected learning pilot program. NWFL is expected to fill in this \$25,000 gap (a 13 percent decrease) with fundraising.

Cultural Facilities Fund Reductions

Expenditures \$(500,000)

This item reduces the Cultural Facilities Fund grant program from \$1,000,000 to \$500,000. ARTS will not be holding a Cultural Facilities Fund Grant funding round in 2021 because very few community organizations indicated an interest in applying for capital improvement funds at this time.

Cultural Partnerships Reduction

Expenditures \$(2,051)

This item will reduce panelist stipends.

Funding for Custodial Services

Expenditures \$74,336

This item funds custodial services for the ARTS office and public space at King Street Station. Sanitation of the office and public space is critical, especially in a public health crisis.

History Link Support Reduction

Expenditures \$(45,000)

This item reduces funding for the cultural organization History Link from \$50,000 to \$5,000, an amount commensurate with other comparably sized cultural organizations that receive ARTS funding.

King Street Station Programming and Facilities Reduction

Expenditures \$(45,000)

This item reduces expenditures for new King Street Station programming. In part, these reductions are made possible by the closure of the facility due to COVID-19. By staggering the programming calendar, and because of the extensive closure in 2020 and 2021 due to COVID-19, pre-selected programs will extend into 2022, and reduce the need for funding to select new programs.

Office of Arts and Culture

King Street Station Security

Expenditures \$(20,000)

This item reduces funding for a security contractor. ARTS was able to negotiate new security contract at a lower rate.

Langston Hughes Facility Operating Reductions

Expenditures \$(15,896)

This reduction only impacts Langston Hughes Performing Arts Institute (LHPAI) facilities management. All programming at LHPAI is funded and operated by nonprofit partner Langston.

Langston Organization Support Reduction

Expenditures \$(40,000)

This item reduces funding to Langston from \$400,000 to \$360,000. The non-profit Langston was established to fund and create programming for the Langston Hughes Performing Arts Institute (LHPAI). The partnership established in 2018 between ARTS and Langston to create programming for LHPAI was based on the expectation that Langston would start to receive less funding once it was established and able to begin fundraising.

Leadership and Administration Reductions

Expenditures \$(150,000)

This item reduces funding for general office support and flexible resources by 32 percent. This reduction includes elimination of professional development funds to support employee training in the department.

Neighborhood and Community Arts Reduction

Expenditures \$(52,000)

This item eliminates funding for the Neighborhood & Community Arts (NCA) grant program. This program supports recurring festivals or events that promote arts and cultural participation, celebrate diversity, build community connections, and enhance the visibility of neighborhoods or cultural communities through arts and culture. The groups supported by NCA could also be eligible for grants like the Department of Neighborhoods' Neighborhood Matching Fund.

NHL Annual Art Investment

Expenditures \$175,000

Revenues \$175,000

As part of the agreement signed with the City, NHL Seattle will provide \$175,000 annually for arts and cultural purposes on Seattle Center campus. These funds will support the activation of the campus, and specifically the area around the Arena, with cultural activity. ARTS will partner with Seattle Center and the Uptown Cultural District to develop specific plans for the funding.

Professional Development Reductions

Expenditures \$(22,700)

This item reduces funding for professional development for City staff and community partners who work with the Youth Development program by 30 percent.

Office of Arts and Culture

Recurring Events

Expenditures \$(12,000)

This item is a 17 percent reduction to funds that support the Mayor's Arts Awards, Out to Lunch Summer Concert series, and Visit Seattle.

Reduction to Internal City Equity Projects

Expenditures \$(23,500)

This item is a 24 percent reduction in funding for partnerships with other City departments that build racial equity in areas such as the environment, community engagement, community development and workforce. ARTS prioritized funding for community programs over funding for internal City projects. Funding for the Creative Equity Fund, which supports BIPOC-led organizations implementing community-centered, arts and culture-based strategies to dismantle structural racism, will be maintained in full.

Seattle Together COVID-19 Response Position Support

Expenditures \$66,922

This item adds funding to support a temporary position housed at Department of Neighborhoods (DON) that will work on the Seattle Together program. The Seattle Together project is a COVID-19 recovery initiative aimed at fostering belonging in the city and is vital to the long-term economic and social recovery of our region. DON and ARTS are partnering on this project.

Shift of Funding of Public Art Program Manager

Expenditures \$19,440

Position Allocation -

This item shifts funding for a Manager 1 position from Admission Tax revenue to 1% for Art revenue and increases the position from 0.5 FTE to 1.0 FTE. This item also reduces an Art Program Specialist position from 1.0 FTE to 0.5 FTE. These changes result in a net savings of \$62,038 to the Arts and Culture Fund and an increase in spending of \$81,478 out of the Municipal Arts Fund. The Manager 1 will oversee the Public Art Program as well as programming at the ARTS @ King Street Station space. 10 percent of the funding for the position will remain in the Cultural Space BSL to reflect the share of the position's time devoted to work outside of the Public Art program.

VERA Support Reduction

Expenditures \$(5,000)

This item reduces ARTS funding for the Vera Project (VERA) by 10 percent. VERA is an all-ages music and arts venue.

Proposed Technical

Operating Revenue

Revenues \$(2,012,463)

This item adjusts revenues to align with 2021 projections.

Office of Arts and Culture

Shift of Funding of City's RSJI Summit

Expenditures \$(20,000)

This item reduces funding for the City's internal RSJI Summit. Funding for the RSJI Summit is no longer needed in Office of Arts and Culture because funding will be added for it in Office for Civil Rights.

Citywide Adjustments for Standard Cost Changes

Expenditures \$31,306

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Seattle Parks and Recreation

Jesús Aguirre, Superintendent

(206) 684-4075

<http://www.seattle.gov/parks/>

Department Overview

Seattle Parks and Recreation (SPR) works with all residents to be good stewards of the environment and to provide safe, welcoming opportunities to play, learn, contemplate, and build community. SPR manages a [6,400-acre park system of over 485 parks](#) and extensive natural areas. SPR provides athletic fields, tennis courts, play areas, specialty gardens, and more than 25 miles of boulevards and 120 miles of trails. The system comprises about 12% of the city's land area. SPR also manages many facilities, including 26 [community centers](#), eight [indoor swimming pools](#), two [outdoor \(summer\) swimming pools](#), four [environmental education centers](#), two [small craft centers](#), four [golf courses](#), an outdoor stadium, and much more. The Woodland Park Zoological Society operates the zoo and the Seattle Aquarium Society operates the City-owned Seattle Aquarium; both receive financial support from the City.

Department employees work hard to develop partnerships with park neighbors, volunteer groups, non-profit agencies, local businesses, and Seattle Public Schools to effectively respond to increasing requests for use of Seattle's park and recreation facilities. Perhaps the most significant partnership is with the Associated Recreation Council (ARC) which provides child care and supports recreation programs at SPR-owned facilities, including community centers and small craft centers. ARC, a non-profit organization, also supports and manages the recreation advisory councils. These advisory councils are made up of volunteer community members who advise SPR's staff on recreation programming at community centers and other facilities. This collaborative relationship with ARC enables the department to offer quality child care and a wide range of recreation programs to the public.

SPR's funding is a combination of tax dollars from the City's General Fund, Seattle Park District funds, Real Estate Excise Tax and revenue from a variety of other sources including grants, user fees and rental charges. Funding for new parks facilities historically came from voter-approved levies. In 2014, Seattle voters approved the formation of a new taxing district known as the Seattle Park District. Property taxes collected by the Seattle Park District provide funding for City parks and recreation including maintaining parklands and facilities, operating community centers and recreation programs, and developing new neighborhood parks on previously acquired sites.

Budget Snapshot

	2019 Actuals	2020 Adopted	2021 Proposed
Department Support			
General Fund Support	98,783,882	104,345,820	97,262,592

Budget Overview

COVID-19 Reductions

The 2021 Proposed Budget was developed in the midst of the COVID-19 pandemic creating a high degree of uncertainty of the economic impacts during development of the budget. Seattle Parks and Recreation (SPR) had to make many assumptions about the state of the crisis in 2021 including which facilities will be reopened and what services and programs will be offered throughout the year. Revenue forecasts provided by SPR and the City Budget Office informed the scale of reductions considered in this budget proposal. Notably, the Proposed Budget includes:

- \$10.6 million of revenue losses in the Park and Recreation Fund, of which \$4.1 million will be offset through funding realignments within the Seattle Park District Fund and \$6.4 million with reduced spending;
- \$11.4 million of General Fund reductions, of which \$8.9 million will be offset through funding realignments within the Seattle Park District Fund, \$1.3 million with reduced spending, and \$1.2 million by shifting debt service payments to the Real Estate Excise Tax (REET) Capital Fund; and
- \$19.3 million in reductions in REET funds.

These numbers do not include other technical changes unrelated to the COVID-19 pandemic.

The majority of SPR's cuts will impact the 6-year Capital Improvement Program; this reflects an effort to preserve operational services. In 2021, across all funds, operating reductions total \$9.7 million and capital reductions total \$29.8 million. Operating reductions primarily reflect savings associated with COVID-19 closures and reduced programming.

Ongoing capital reductions to the Park District and REET funds will result in a number of project deferrals and increase the life-cycle demand on capital assets. Following adoption of the 2021 budget, SPR will update its asset preservation plan and identify opportunities to reinstate funding to some projects and programs; this could include funding from the next 6-year cycle of the Park District spending plan (2022-2027). These reductions will place a burden on the next cycle of the Park District to restore some of these cuts, which already had a number of future commitments that are not fully funded such as the Green Lake Community Center and the new Mercer Community Center tenant improvements.

SPR's 2021 Proposed Budget reflects an effort to preserve discrete projects in BIPOC communities and to prioritize services and projects in underserved neighborhoods. Taking these cuts allows other capital projects to move forward such as the community center stabilization projects at locations in South Seattle as well as land banked site development at Little Saigon, North Rainier and South Park. It also helps the department avoid making operational cuts that would significantly affect service to the public.

The 2021 Proposed Budget also includes legislation authorizing the City Council to suspend the minimum General Fund requirement in 2021 per section 3.3 of the interlocal agreement establishing the Seattle Park District (Ordinance 124468) due to the COVID-19 pandemic. Section 3.3 of the interlocal agreement allows the City Council to lift the minimum General Fund requirement in the event of a natural disaster or exigent economic circumstance.

Operating Assumptions

SPR's revenue projections assume the City will be in Phase 3 beginning in 2021. As a result, certain facilities, programs, and events will be limited to avoid large gatherings (at the time of budget development Phase 3 was defined as fewer than 50 people at a time; the State recently updated Phase 3 to fewer than 10 people at a time which could result in greater revenue losses than is forecasted in the Proposed Budget). The 2021 Proposed Budget assumes pool operations will be limited to 4 of 10 pools: Rainier Beach, Southwest, Meadowbrook, and Medgar Evers. In addition, 5 community centers will be closed all year to align with planned stabilization projects: Hiawatha,

Seattle Parks and Recreation

Jefferson, Magnuson, South Park and Queen Anne. The Parks Department intends to redeploy staff impacted by these pool and community center closures to support a new outdoor recreation program which will be piloted in 2021; this pilot program will leverage existing partnerships and resources to expand outdoor, community-based recreation programming and will help mitigate services that may not be allowable due to construction and Phase 3 public health restrictions. SPR is also using its facilities to provide full-day childcare for elementary students at 19 sites and teen resource hubs at 7 locations.

The proposed budget does not assume any layoffs in 2021, allowing SPR to retain a diverse workforce with specialized skills. Instead, Parks will continue to hold vacancies and reduce the use of temporary and seasonal labor commiserate with programming reductions due to COVID-19.

For more details on specific changes to SPR's 2021 Proposed Budget and 2021-2026 Capital Improvement Program (CIP), please see the Proposed Changes section of these budget book pages and the accompanying CIP Proposed Budget Book pages.

Description of Incremental Budget Changes

Baseline

Baseline Adjustment for Inflation

Expenditures \$283,608

This item increases SPR's General Fund contribution to reflect an inflationary increase in SPR's annual operating commitment to the Zoo. The 2021 Proposed Budget moves this General Fund and all remaining General Fund support for the Zoo to the Park District; see Proposed Operating Changes for more details.

Baseline Revenue Adjustments

Revenues \$30,988,370

This item adjusts SPR's baseline revenues across funds to remove one-time changes from the 2020 Adopted Budget and make technical adjustments to align with updated forecasts for the 2021 Proposed Budget.

Adjustment for One-Time Budget Changes

Expenditures \$(1,520,000)

Revenues \$(429,852)

This item includes budget adjustments for one-time changes in the 2020 Adopted Budget:

- (\$70,000) one-time King County Parks Levy funding for City Hall Park Activation;
- (\$150,000) one-time General Fund for youth development added in Council Green Sheet SPR-8-A-1 to provide funding for American Indian and Alaska Native Youth Development;
- (\$300,000) one-time Sweetened Beverage Tax funding added in Council Green Sheet OSE-2-D-1 to add water bottle filling stations at community centers; and
- (\$1,000,000) one-time Park Fund resources to cover utility rate increases.

Citywide Adjustments for Standard Cost Changes

Expenditures \$2,020,932

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle

Seattle Parks and Recreation

Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures	\$2,278,818
--------------	-------------

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime and temporary labor. There is no increase assumed from 2021 to 2022. This does not include a 2021 salary increase for non-represented Executives, Managers and Strategic Advisors.

Baseline CIP Adjustment

Expenditures	\$290,000
--------------	-----------

This technical CIP adjustment applies Council changes made during 2019 to the out years, including 2021, for the following projects within SPR's Capital Improvement Program: Aquarium Expansion Project, Comfort Station Renovations, and Play Area Renovations. This item establishes the baseline budget for which 2021 Proposed Changes will be applied.

SPR Project Structure Changes

Expenditures	-
--------------	---

The 2021 Proposed Budget reflects technical changes to SPR's budget project structure to simplify budget development and monitoring. These changes are budget and fund neutral.

To improve SPR's ability to develop and manage the operating budget, the current project structure is streamlined by eliminating the Cost Center Budget Summary Level (BSL) along with other minor modifications to existing BSLs. The proposed changes to the project structure benefit budget, accounting, and divisional finance staff by eliminating complex expenditure allocations.

Proposed Operating

General Fund Balancing: Capital Budget Realignment

Expenditures	\$(407,627)
--------------	-------------

This change reduces SPR's ongoing General Fund contribution to better align the budget for four positions to where the work is occurring. These positions were previously funded by the General Fund but will now instead be charged to projects in Parks' Capital Improvement Program.

General Fund Balancing: Leadership and Administration Efficiencies

Expenditures	\$(142,570)
--------------	-------------

This item makes an ongoing reduction to SPR's General Fund contribution by reducing the department's non-labor budget by 19% across the Policy, Finance, and Human Resource Divisions.

General Fund Balancing: Park Maintenance Division Efficiencies

Expenditures	\$(250,000)
--------------	-------------

Seattle Parks and Recreation

This item makes an ongoing reduction to SPR's General Fund contribution by reducing the department's budget by 1-2% across non-labor accounts within the Park Maintenance Division.

General Fund Balancing: Facility Maintenance Division Efficiencies

Expenditures \$(250,372)

This item makes an ongoing reduction to SPR's General Fund contribution by reducing the department's budget by 1-2% across non-labor accounts within the Facility Maintenance Division (\$100,000) and reducing the division's budget for temporary labor (\$150,000). SPR will mitigate the loss of temporary labor by using Seattle Conservation Corps members to support skilled craft work as available.

General Fund Balancing: Realign Volunteer Programs Unit

Expenditures \$(144,035)

Position Allocation (1.00)

This proposal achieves ongoing General Fund savings by abrogating a vacant Volunteer Coordinator Supervisor position from the three-person Volunteer Programs Unit. This team provides volunteer recruitment and management support for the department and will be consolidated under other existing supervisory resources within the department.

General Fund Balancing: Alki Community Center

Expenditures \$(100,000)

Alki Community Center is currently designated as a full-service community center, though its primary uses are for licensed childcare and early learning. This proposal achieves ongoing savings by converting Alki from a full-service community center to a childcare and preschool hub. This change will allow ARC and DEEL to continue providing preschool and before/after-school programs out of the center and will move most other programs such as special events and recreation programming to an adjacent gym. Savings will come from reduced labor costs associated with a small reduction in non-childcare programming.

General Fund Balancing: Park District Realignment

Expenditures \$(1,183,442)

The 2021 Proposed Budget reflects an ongoing realignment of General Fund and Park District resources to achieve General Fund savings while retaining core operating services. The proposed budget shifts \$8.9 million in General Fund operating costs to the Park District. See below for details:

Operating Savings from Park District (\$1,183,442)

- Captures operational and maintenance savings associated with land-banked site development work that was delayed in the first round of COVID-related budget reductions in 2020. Because the sites have not been developed, they do not need the level of maintenance required for a developed park.

Capital Savings from Park District (\$7,716,558)

- Park Land Acquisition and Leverage Fund (\$1,512,816)
- Major Projects Challenge Fund (\$1,810,253)
- Major Maintenance Backlog and Asset Management (\$4,393,489)

Seattle Parks and Recreation

These Park District savings will fund costs associated with SPR's annual operating commitment to the Zoo as well as Aquatics that were previously supported by the General Fund. For more information on the reductions to SPR's capital projects please see the Proposed Capital Changes section of SPR's budget book pages.

Park Fund Balancing: COVID-19 Impacts and Park District Realignment

Expenditures \$(884,634)

Revenues \$(4,137,046)

The Parks Department is estimating a \$10.5 million revenue loss in the Park Fund in 2021 due to extended facility closures and programming reductions associated with the COVID-19 pandemic. This item includes a technical adjustment to transfer \$6.4 million of those revenues and expenditure reductions into a new "COVID Planning 2021" Budget Program in the Park Fund. This new program will allow SPR to keep track of their targeted underspend while maintaining some flexibility to restore funding to divisional budgets should programming be able to resume in 2021.

The remaining \$4.1 million of revenue and expenditure reductions will be funded with Park District resources including Park District operating savings (\$884,634) and a funding realignment with SPR's Capital Improvement Program (\$3.2 million). See below for details.

Operating Savings from Park District (\$884,634)

- Initiative 1.3 Savings Our Forest (\$175,703): holds two maintenance laborer vacancies within the Natural Area Crew
- Initiative 3.3 Better Programs for Young People - Seattle's Future (\$330,789): holds two vacancies and pauses work on the Youth Quality Assessment Program
- Initiative 3.6 Put the Arts in Parks (\$283,141): retains funding for select activities and holds vacant one Admin Spec 1 position
- Initiative 4.11 Urban Parks Partnership (\$95,000): reduces a portion of the funding provided to Urban Park partners commiserate with expected program reductions due to COVID-19

Capital Savings from Park District (\$3,252,412)

- Replaces Park District funding from the Waterfront Piers Rehabilitation with a combination of Real Estate Excise Tax and Beach Maintenance Trust Fund revenues. Please see the Proposed Capital Changes section of SPR's budget book pages for more details on the capital impacts associated with this change.

Proposed Capital

Feasibility Study for Pool at Magnuson Park

Expenditures \$50,000

This item adds \$50,000 to the existing Magnuson Park Community Center Improvements project and expands its scope to include a feasibility and needs assessment for a recreational pool at Magnuson Park.

General Fund Balancing: Park District Realignment

Expenditures \$(7,716,558)

The 2021 Proposed Budget includes an ongoing realignment of General Fund and Park District resources to achieve General Fund savings while retaining core operating services. This change reflects \$7.7 million of capital reductions in SPR's Capital Improvement Program associated with this funding realignment:

- Reduce Park Land Acquisition and Leverage Fund by \$1,512,816: This change reduces SPR's acquisition efforts and instead focuses on expanding greenbelts and natural areas that have lower acquisition costs and

Seattle Parks and Recreation

allow SPR to leverage Conservation Futures Tax Funding. It also sustains staffing to continue relationships with property owners and outside agencies to leverage other opportunities to create public open space partnerships.

- Reduce Major Project Challenge Fund by \$1,810,253: The Major Project Challenge Fund (MPCF) was funded in the first cycle of the Park District. By the end of 2020, all feasibility studies funded by the MPCF are anticipated to be complete. SPR had already begun exploring possible alternatives to the MPCF model to be considered in the next cycle of the Park District; this option will instead redirect that funding to offset General Fund expenses on an ongoing basis.
- Reduce Major Maintenance Backlog and Asset Management by \$4,393,489: This change reduces SPR's funding for capital asset preservation, shifting these resources to the operating budget to support preventative maintenance previously funded by the General Fund. This reduction means SPR will be able to take on fewer major maintenance projects in 2021.

General Fund Balancing: Shift Debt Service Payments to REET

Expenditures \$494

The 2021 Proposed Budget shifts approximately \$1.2 million of ongoing debt service payments for the Rainier Beach Community Center from the General Fund to the Real Estate Excise Tax I (REET I). This adjustment is budget neutral across funds. The balance of \$494 corrects a rounding error.

REET Balancing: Align Gasworks Park Remediation Funding with Puget Sound Energy Spending Plan

Expenditures \$(570,000)

This budget proposal reduces funding to the Gas Works Park - Remediation Project in 2021 and adjusts future year appropriation amounts to align with revised spending estimates from Puget Sound Energy.

REET Balancing: Debt Finance Aquarium Contribution

Expenditures \$295,481

This item adjusts the funding strategy for the remainder of the City's obligation for the Aquarium Expansion project. Due to the COVID-19 pandemic, there is excessive strain on the City's funding sources, especially REET revenues that fund the Aquarium project. This changes the project from cash financing to debt financing with LTGO Bonds issued over the next two to three years. The debt service will be paid by REET.

REET Balancing: Delay Athletic Field Conversions

Expenditures \$(5,952,000)

Due to reductions in Real Estate Excise Tax (REET) revenues resulting from the COVID-19 pandemic, the 2021 Proposed Budget identifies a number of REET-funded projects that will be delayed or deferred within SPR's Capital Improvement Program. This proposal delays the project schedule for playfield conversion projects which SPR has identified as a lower priority than field replacements and other asset preservation projects. Magnuson Park Athletic Field 12 will be delayed to 2028 and West Magnolia Playfield South will be delayed to 2030.

REET Balancing: Reduce Funding to Ongoing Programs

Expenditures \$(7,057,000)

Due to the significant shortfall in Real Estate Excise Tax (REET) revenues resulting from the COVID-19 pandemic, the 2021 Proposed Budget identifies a number of REET-funded projects that will be delayed or deferred within SPR's Capital Improvement Program (CIP). This proposal eliminates or reduces REET funding in the following ongoing programs:

Seattle Parks and Recreation

- Funding eliminated in 6-year CIP: Comfort Station Renovations, Boiler and Mechanical System Replacement, Ballfield Lighting Replacement, Roof & Building Envelope, Play Area Safety, Electrical System Replacement, Environmental Remediation, Sport Court Restoration, Ballfields – Minor Capital Improvements
- One to three year budget reductions: Irrigation Replacement and Outdoor Infrastructure, Pavement Restoration, Utility Conservation, ADA Compliance, Urban Forestry, Neighborhood Response, Landscape Restoration, Trails Renovation, Play Area Renovations, Athletic Field Replacements

In addition, this item reduces funding in the Major Maintenance Backlog and Asset Management program in 2021 and 2022 and in each year of the Community Center Rehabilitation & Development program, eliminating REET funding in that program entirely beginning in 2023.

The Parks Department maintains a commitment to asset preservation. As such, reductions above were prioritized consistent with SPR's asset management criteria which include: (1) code requirements, (2) life safety, (3) facility integrity, (4) improved operational efficiency, (5) other unique elements such as leveraged funds and (6) equity. Following adoption of the 2021 Proposed Budget, SPR will update its Asset Management Plan to inform the reinstatement of many of these programs as funding returns in future years.

REET Balancing: Out Year CIP Changes

Expenditures -

Due to the significant shortfall in Real Estate Excise Tax (REET) revenues resulting from the COVID-19 pandemic, this proposal makes additional reductions to SPR's REET funding contribution in the out years of the department's 6-year Capital Improvement Program. Specifically, this change:

- reduces funding in 2024 for the West Queen Anne Playfield Conversion project (formerly named Queen Anne Turf Field Replacement) by \$6 million which will delay work to 2027; and
- adjusts funding within the Major Maintenance Backlog Capital Project resulting in a net change of (\$12,167,561) between 2023-2026.

Park Fund Balancing: Park District Realignment

Expenditures -

The 2021 Proposed Budget amends the funding sources for the Parks Central Waterfront Piers Rehabilitation project (MC-PR-21007). These changes do not impact the current schedule to complete the Waterfront project in 2024. This proposal reduces \$3.2 million from the capital project to support base operating costs in 2021. A combination of Real Estate Excise Tax (\$1.7 million) and Beach Maintenance Trust Fund (\$1.5 million) is being added to SPR's budget to backfill the Park District funding. Please see the corresponding operating change to reduce Park Fund and increase Park District resources by \$3.2 million in SPR's operating budget in the Proposed Operating Changes section of these budget book pages.

Waterfront Funding Plan Adjustments - Piers

Expenditures \$(9,100,000)

This item amends the funding plan for the Parks Central Waterfront Piers Rehabilitation project by shifting the timing of funding from the LID-Central Waterfront Fund and from the Central Waterfront Improvement Fund. Due to the COVID-19 pandemic, resolution of appeals as part of the Waterfront LID process has been delayed, and other sources of revenue have also seen changes. These changes allow the Waterfront program to continue to make progress to completion in 2024 and is budget neutral within the 6-year CIP.

Add Park Land Acquisition CFT Funding

Seattle Parks and Recreation

Expenditures	\$300,000
Revenues	\$300,000

The 2021 Proposed Budget adds \$300,000 of ongoing funding in the Park Fund to support the Park Land Acquisition project. This additional \$1,800,000 total over the 6 years is supported by resources from the King County Conservation Futures tax (CFT).

Proposed Technical

Add Soundview Athletic Field Conversion Project

Expenditures	-
--------------	---

This proposal adds the Soundview Playfield Conversion Project to the 2021-2026 CIP. This project was delayed due to the COVID-19 pandemic in 2020.

REET I and II Technical Adjustment

Expenditures	-
--------------	---

This is a net zero technical adjustment that is necessary to balance the REET I & II capital funds.

Use of Fund Balance

Revenues	\$1,454,769
----------	-------------

This is a technical item to balance revenues and expenditures for the funds managed by this department.

Park Maintenance District Realignment

Expenditures	-
--------------	---

This item reflects budget neutral funding transfers to implement a reorganization of the park maintenance districts. The 2021 Proposed Budget splits up the two largest park maintenance districts, Southeast and Central West, increasing the total number of park maintenance districts from 6 to 8. This change will right-size the ratio of supervisors to staff across all districts and result in better management oversight.

Project Budget Adjustments

Expenditures	-
--------------	---

This technical item adjusts revenue and expense budgets for various projects and is budget neutral across funds.

HRIS Reconciliation

Expenditures	\$(174,498)
Position Allocation	-

This proposal adjusts expense and revenue budgets across SPR programs to correctly align funds with position reclassifications done outside of the previous budget process, APEX/SAM adjustments, and a technical true-up of 2020 AWI impacts on the capital planning division that resulted in a net reduction in the Park Fund.

Fund Balancing - Operating

Expenditures	\$835,746
--------------	-----------

Seattle Parks and Recreation

The 2020 Adopted Budget allocated \$1,000,000 from the Park Fund to pay for utility cost increases; this was one-time funding which has been removed in the proposed baseline budget and is being partially transferred to the Park District through this change. This item also includes small technical adjustments to balance costs in the Park Fund, General Fund, and Park District.

Fund Balancing - Capital

Expenditures	\$(5,795,306)
Revenues	\$(7,450,000)

This change includes technical corrections to SPR's Capital Improvement Program (CIP) including:

- Defer Park District funding for the Lake City Community Center to 2022; this funding was added as a placeholder by the City Council assuming funding would be included in the next cycle of the Park District which has been delayed by one year.
- Shift funding from 2023 to 2021 for the Waterfront Piers Rehabilitation Project to align the budget with SPR's 6-year financial plan for the Seattle Park District.
- Reduce funding for the Saving Our City Forests project in the out years to align with a 2019-2020 Adopted Budget adjustment that shifted Seattle Park District capital funds to operating.
- Reconcile debt payments in the out years for Pier 59.
- Adjust capital revenues to remove one-time resources.

Adjust Community Learning Center Funding

Expenditures	\$(485,666)
Revenues	\$(485,666)

The 2021 Proposed Budget reduces SPR's revenue and expenditures in the Park Fund associated with Community Learning Centers; this change is a technical adjustment to align the budget with distribution changes from the Families, Education, Preschool, and Promise levy and Seattle Public Schools.

Seattle Parks and Recreation

Expenditure Overview

Appropriations	2019 Actuals	2020 Adopted	2021 Proposed
SPR - BC-PR-10000 - 2008 Parks Levy			
30010 - REET I Capital Fund	1,916,478	-	-
30020 - REET II Capital Fund	96	-	-

M&R Shops Crews	11,069,287	12,005,708	21,084,080
M&R Specialty Crews	5,100,970	5,119,913	8,098,666
Total	38,372,635	43,429,682	69,060,104
Full-time Equivalents Total*	163.44	170.67	473.25

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Parks and Facilities Maintenance and Repairs Budget Summary Level:

CIP Cost Recovery Offset

The purpose of the CIP Cost Recovery Offset Budget Program Level is to recover costs associated with indirect programs within the Parks and Facilities Maintenance and Repairs BSL from the direct cost capital programs. This program does not fully recover Parks and Facilities Maintenance and Repairs BSL costs.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
CIP Cost Recovery Offset	-	-	(1,039,841)

M&R Grounds Crews

Seattle Parks and Recreation

The purpose of the M&R Grounds Crews Budget Program Level is to provide custodial, landscape, and forest maintenance and restoration services.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
M&R Grounds Crews	22,202,379	26,304,061	40,917,200
Full Time Equivalents Total	76.53	80.01	260.03

M&R Shops Crews

The purpose of the M&R Shops Crews Budget Program Level is to repair and maintain park buildings and infrastructure so that park users can have safe, structurally sound, and attractive parks and recreational facilities.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
M&R Shops Crews	11,069,287	12,005,708	21,084,080
Full Time Equivalents Total	55.86	56.36	147.50

M&R Specialty Crews

The purpose of the M&R Specialty Crews Budget Program Level is to provide centralized management of natural areas and developed parks including forest restoration, urban forestry, wildlife management, trails, and grass and turf management.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
M&R Specialty Crews	5,100,970	5,119,913	8,098,666
Full Time Equivalents Total	31.05	34.30	65.72

SPR - BO-PR-20000 - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide executive, community, financial, human resource, technology, and business support to the department.

Program Expenditures	2019	2020	2021
	Actuals	Adopted	Proposed
Citywide Indirect Costs	13,269,457	12,121,935	12,864,138
COVID Planning 2021	-	-	6,420,480
Departmental Indirect Costs	11,043,514	12,257,138	12,285,719
Divisional Indirect Costs	8,245,144	9,110,939	8,623,464
Indirect Cost Recovery Offset	(3,742,031)	-	-
Indirect Cost Recovery Offset	-	(3,879,094)	(4,083,616)
Pooled Benefits	3,139,669	2,612,301	3,144,933
Total	31,955,751	32,223,220	39,255,118
Full-time Equivalents Total*	118.54	120.59	120.51

Seattle Parks and Recreation

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services, Seattle Information Technology Department, and the Department of Human Resources.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Citywide Indirect Costs	13,269,457	12,121,935	12,864,138

COVID Planning 2021

The purpose of the COVID Planning 2021 Budget Program Level is to temporarily hold the consolidated Park Fund (10200) expenditure and revenue savings from extended COVID-19 impacts in 2021. The corresponding appropriation and revenue savings are moved out of operating divisions into this Budget Program, representing a one year plan to address financial impacts from the pandemic on the Park Fund (10200).

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
COVID Planning 2021	-	-	6,420,480

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs Budget Program Level is to provide executive, financial, communications, human resources and business support and strategic planning an analysis to the departments.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Departmental Indirect Costs	11,043,514	12,257,138	12,285,719
Full Time Equivalents Total	77.05	78.10	78.10

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Budget Program Level is to provide managerial and administrative support for operating divisions. The Budget Program also provides planning and development support to develop new park facilities, and make improvements to existing park facilities to benefit the public.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed

Seattle Parks and Recreation

Divisional Indirect Costs	8,245,144	9,110,939	8,623,464
Full Time Equivalents Total	41.49	42.49	42.41

Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery program is to recover costs associated with indirect programs within Leadership and Administrative BSL from the department's direct cost programs. This program does not fully recover Leadership and Administration BSL costs.

	2019 Actuals	2020 Adopted	2021 Proposed
Expenditures/FTE			
Indirect Cost Recovery Offset	(3,742,031)	(3,879,094)	(4,083,616)

Pooled Benefits

The purpose of the Pooled Benefits program is to fund department costs associated with health and dental insurance, workers compensation, and unemployment insurance contributions.

	2019 Actuals	2020 Adopted	2021 Proposed
Expenditures/FTE			
Pooled Benefits	3,139,669	2,612,301	3,144,933

SPR - BO-PR-30000 - Departmentwide Programs

The purpose of the Department-Wide Services Budget Summary Level is to provide management and operations of services that span across multiple lines of business within Seattle Parks and Recreation such as partner relationship management, emergency operations, security services, , athletic and event scheduling, and the Seattle Conservation Corps.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Departmentwide Other	1,556,295	1,514,086	1,632,370
Partnerships - Departmentwide	4,847,484	5,217,525	6,941,534
Seattle Conservation Corps	-	-	4,230,948

Seattle Center

Robert Nellams, Director

(206) 684-7200

<http://www.seattlecenter.com/>

Department Overview

Seattle Center is home to cultural and educational organizations, sports teams, festivals, community programs (including cultural and community celebrations), and entertainment facilities. Millions of people visit the 74-acre Seattle Center campus annually. Consistently rated as one of the City's top attractions, Seattle Center is a premier urban park whose purpose is to create exceptional events, experiences, and environments that delight and inspire the human spirit and build a stronger community.

The history of Seattle Center dates back to a time well before it existed as a City department in its current form. Prior to the 1850s, the land on which Seattle Center sits was a part of a Native American trail which was later occupied by the David Denny family and eventually donated to the City of Seattle. In 1927, the new Civic Auditorium, now Marion Oliver McCaw Hall, and Arena, now the newly rebuilt Opera Center, were constructed with funding from a levy and a contribution from a local business owner. In 1939, a large military Armory was constructed. In 1948, the Memorial Stadium was built and the Memorial Wall was added in 1952. Finally, in 1962, the community pulled together these facilities and added new structures to host the Seattle World's Fair/Century 21 Exposition. At the conclusion of the fair, the City took ownership of most of the remaining facilities and campus grounds to create Seattle Center. Since its creation in 1963, Seattle Center has nurtured artistry and creativity by providing a home for and technical assistance to a wide variety of arts and cultural organizations. These tenants play a critical role in the arts and cultural landscape of the region.

Originally created after the World's Fair, Seattle Center operated the Coliseum. Later, this facility was renamed KeyArena. Seattle Center operated this major public assembly venue on the campus for sports and concert events. Now Seattle Center is undergoing major changes with the renovation of the Arena, which began in 2019. Following an RFP process, the City selected Oak View Group (OVG)/Seattle Arena Company (ArenaCo) to renovate the Arena using private funding. When the building reopens in 2021, ArenaCo will operate the building. The new building will be capable of hosting both NHL hockey and NBA basketball, and will continue to house the WNBA's Seattle Storm as well as a variety of concerts, family shows, and other events.

Seattle Center is financed by a combination of tax dollars from the City's General Fund and revenue earned from commercial operations. Major sources of commercial revenues include facility rentals, parking fees, long-term leases to non-profit organizations, sponsorships, food sales, and monorail fares.

Due to the size and importance of commercial revenues, Seattle Center confronts many of the same market factors that other businesses do. Changing consumer preferences, fluctuating demand, and the many options customers have in terms of discretionary spending all influence the financial performance of Seattle Center. Seattle Center's situation is also unique in that it must meet the simultaneous financial challenges of competition with other facilities that host events; the presence on campus of long-term, non-profit tenants; and the need to balance its public and private event offerings.

Seattle Center

Budget Snapshot

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The public health precautions needed to help fight COVID-19 have made holding public events impossible. This has deeply impacted Seattle Center's revenues which are largely generated from events and other commercial activities. Seattle Center is also in the middle of a major transition as the Seattle Arena Company redevelops the Seattle Center campus's largest venue, KeyArena, into a new world-class sports and entertainment facility, now named the Climate Pledge Arena.

To help Seattle Center transition to a future without arena operations, the Council authorized an interfund loan in 2019 to help carry Seattle Center through to the time when the new arena is open and paying rent to the City. Due to COVID-19, Seattle Center's financial challenge is now much greater than before, so the 2021 Proposed Budget includes legislation to increase the size of Seattle Center's interfund loan from \$5 million to \$18 million and extend the repayment period from 2026 to 2033. After the arena opens, Seattle Center will use operating revenue from arena rent, increased sponsorships, parking receipts, Monorail revenues, and lease and rental fees to repay the loan.

The 2021 Proposed Budget also includes \$2.6 million in General Fund support for Seattle Center. Without this funding, Seattle Center will be unable to pay the loan back. Seattle Center will also make ongoing spending reductions of around \$1.3 million in the 2021 Budget. These reductions are largely staffing reductions that have been planned as part of the arena transition. Since 2018, Seattle Center has reduced annual spending by about \$8 million related to the closure of KeyArena.

Seattle Center's 2021-2026 Capital Improvement Program (CIP) is focused on renovating basic infrastructure, such as addressing the ADA Barrier Removal Schedule in a variety of locations across the campus and replacing roofs for the Cornish Playhouse, Seattle Children's Theatre, and the International Fountain Pavilion; preparing for the Climate Pledge Arena opening in fall of 2021; and renovating International Fountain and DuPen Fountain. See Seattle Center's 2021-2026 Proposed CIP Overview for more information on capital projects.

Total Incremental Changes	\$(5,766,930)	(8.80)
Total 2021 Proposed Budget	\$42,799,533	216.43

Description of Incremental Budget Changes

	<u>Baseline</u>
Adjustment for One-Time Budget Changes	
Expenditures	\$(600,000)
Revenues	\$341,424

Seattle Center

This item includes budget adjustments for one-time changes in the 2020 Adopted Budget: \$600,000 for consultant services to ensure financial safeguards around the new arena's construction are maintained; and a \$340,000 revenue contribution to the McCaw Hall fund based on last year's revenue and spending projection.

Baseline Adjustments for Personnel Costs

Expenditures	\$578,160
--------------	-----------

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime and temporary labor. There is no increase assumed from 2021 to 2022. This does not include a 2021 salary increase for non-represented Executives, Managers and Strategic Advisors.

Proposed Operating

Reorganization Staffing Changes

Expenditures	\$(803,633)
Position Allocation	(8.80)

This item adjusts staffing levels to reflect a restructured departmental operation without the arena as a City staffed facility. ArenaCo, a private company, will be operating the new facility when it opens. The changes are primarily eliminations of vacant positions as well as reclassifications of several positions to reflect a reallocation of duties. When the City leased the arena to a private operator, some City positions assigned to that facility were eliminated while others were reassigned to Seattle Center campus operations. The department has completed a comprehensive review of staffing needs now that Center will no longer operate the facility, and this change implements the final phase of the staffing plan.

Reductions to Enable Loan Repayment

Expenditures	\$(474,107)
--------------	-------------

This item reflects the reductions needed to support repayment of Seattle Center's interfund loan. These reductions include reducing public events production, travel and conference funding, bringing fire system testing in-house, and other staffing reductions. Seattle Center received approval of an interfund loan in the 2019 Budget to fund a planned deficit related to the closure of KeyArena. The business impacts of the COVID-19 crisis have greatly increased the amount of the department's projected deficit. These further reductions are needed to keep Seattle Center's costs at a level such that future revenues are sufficient to repay the loan. This item includes unfunding two positions that will be abrogated in the 2022 budget.

Operating Funding Swap

Expenditures	-
--------------	---

This item shifts appropriation authority in the amount of \$2.6 million within the Campus BSL from the Seattle Center Fund to the General Fund. This change is needed in 2021 to keep Seattle Center's interfund loan at a size it can repay given the impacts of COVID-19 on events and gatherings. This one-time funding swap, an expansion in Seattle Center's interfund loan, and spending reductions are the three-pronged strategy to maintain positive balances in Seattle Center funds until events return to campus.

Seattle Center

Employee Team Support

Expenditures \$10,000

This item adds funding to support two employee teams. \$5,000 will be used to support the ongoing work of Seattle Center's Race and Social Justice Change Team and the Seattle Center Racial Equity Cohort. These groups are dedicated to identifying and helping eliminate institutional racism in the department. The other \$5,000 will fund work for a safety consultant to support the work of Seattle Center's Safety Committee. Seattle Center has used this committee to identify remedies for safety concerns for staff and the public across the campus. In lieu of a Safety Officer, these funds can fund some consultant services to assist with team's increasingly important work.

Event Management System Licensing

Expenditures \$50,000

This item adds funding for the licensing costs of a new Event Management System which is being deployed in 2020. The system Seattle Center currently uses is 25 years old and is beginning to fail. The current system was built by Seattle Center staff who have since retired and is challenging to support. This system is utilized for a variety of event management functions such as contracting, billing, and managing work orders from various work groups within the department.

McCaw Hall Operating Adjustment

Expenditures \$(2,066,834)

Revenues \$1,050,000

The McCaw Hall Operating Board, which consists of representatives from Seattle Center, the Pacific Northwest Ballet and Seattle Opera, jointly operate the facility. These adjustments align McCaw Hall funding levels with projected operational needs for the upcoming biennium. Operational needs are expected to slightly decline, however utility usage in the building has exceeded what has been budgeted and this proposal adjusts for those needs as well.

Parking Management System Licensing

Expenditures \$30,000

This item adds funding for the annual licensing fee for Seattle Center's new Parking Management System. The system currently being used contains components that are no longer supported by the manufacturer. The new system controls the automated ingress/egress systems, allows for receipt of payment, and is needed to synchronize with the new parking system that the private operator of Climate Pledge Arena, ArenaCo, will use.

Rental Rate Fee Increase

Revenues \$20,000

This item adjusts the projected facility fee revenue Seattle Center expects to realize as a result of adjusting its rental fee schedule, an increase of \$20,000 in 2021. Historically, Seattle Center has adjusted these fees every two years, and this adjustment is expected to produce a larger revenue increase in 2022 of \$125,000, when events return to a healthier level. The goal of this exercise is to adjust for increased operating costs for the various facilities as well as adjusting for market rate changes. Seattle Center aims to remain competitive in the commercial event marketplace and periodically adjusting rates allows for revenue maximization while staying competitive with other facilities.

Proposed Capital

Seattle Center CIP Alignment

Expenditures \$(2,529,420)

Revenues \$155,000

Seattle Center

This item adjusts the CIP budget to align with projections of available funds. Adjustments from the baseline in 2021 include:

- Reduced Armory Rehabilitation maintenance by \$1.1 million. Money would have been used for Armory tenant and interior public space improvements. Needs include Grease Exhaust system, Freight Elevator, restrooms, emergency generator, and other items included in Facility Condition Assessment.
- Reduced Open Space Restoration and Repair by \$727,000. Impacts include delaying Fisher Pavilion roof replacement from 2021 to 2023 and deferring Mercer Street Landscaping in front of new Seattle Opera building to prioritize DuPen Fountain and campus lighting upgrades.
- Reduced Public Gathering Space Improvements by \$426,000. This reduction will limit funds for Arena project management time and pause plans for a new campus entryway marker on Thomas St.
- Reduced \$50,000 Fisher Pavilion Asset Preservation funding for upgrades to the facility.
- Reduced \$50,000 Site Signage funding for repairs or updates to aging and obsolete signage.
- Reduced \$633,000 from the McCaw Hall Capital Reserve to reflect Seattle Center and McCaw Hall tenants' (Pacific Northwest Ballet and the Seattle Opera) agreement to pause contributions to and spending from the capital maintenance fund in 2020 and 2021.
- \$430,000 added for Utility Infrastructure for campus sewer line renovation.

Proposed Technical

Lease Renewal Cost Increase

Expenditures \$26,275

This item funds the increase of a lease the department has on a building offsite which houses workspaces for maintenance staff including painters, plumbers and metal fabricators.

McCaw Hall Technical Adjustments

Expenditures \$(298,500)

This item makes three technical changes related to funding for McCaw Hall. First, it removes the 2021 REET contribution to the McCaw Hall Capital Reserve Fund to reflect the agreement reached in 2020 between Seattle Center, the Pacific Northwest Ballet, and Seattle Opera to forgo the annual contribution due to the financial constraints brought on by the COVID-19 pandemic. Contributions will resume in 2022. Second, this proposal adjusts the annual debt payments to align with the payment schedule. Finally, it adjusts General Fund contributions to McCaw Hall to align with the assumed annual contributions in the upcoming biennium. Seattle Center has an operating agreement with the Seattle Opera and Pacific Northwest Ballet to jointly operate the building. As laid out in the agreement, Seattle Center is required to provide a certain amount of General Fund to support the operations.

Operating Revenue

Revenues \$(6,697,805)

This item adjusts revenues to align with projections for 2021. Revenues are projected to decrease because Seattle Center is unable to host events due to the COVID-19 public health restrictions.

Surface Water Management Fees

Expenditures \$100,000

This item is for increased King County Surface Water Management fees. These fees have increased over the rate of inflation, including a 50 percent increase in 2018, without any budgetary adjustments by the department. This proposal brings the budget for these fees up to the level Seattle Center has been paying King County.

Seattle Center

Technical Title Specific Pay Adjustments

Expenditures \$129,141

In 2019, the City reached agreement with most of the City's labor groups on a new, three-year labor contract. Included in that contract were adjustments to pay, including the Annual Wage Increase (AWI) adjustments. For two labor groups at Seattle Center, the Plumbers and Emergency Services Unit, there were other wage adjustments specific to those job titles above AWI. As those final adjustments were negotiated so late in the process, the exact adjustments were not available in time for inclusion in the 2020 Adopted Budget. This item adjusts what was included in the budget with what the final agreement cost impacts are.

Citywide Adjustments for Standard Cost Changes

Expenditures \$81,987

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Campus Budget Summary Level:

Access

The purpose of the Access Program is to provide the services needed to assist visitors in coming to and traveling from the campus, while reducing congestion in adjoining neighborhoods. Program services include operating parking services, maintaining parking garages, managing the Seattle Center Monorail, and encouraging use of alternate modes of transportation.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Access	1,293,948	1,335,314	1,383,950

Seattle Center

Full Time Equivalents Total	9.71	9.71	9.71
-----------------------------	------	------	------

Campus Grounds

The purpose of the Campus Grounds Program is to provide gathering spaces and open-air venues in the City's urban core. Program services include landscape maintenance, security patrols and lighting, litter and garbage removal, recycling operations, hard surface and site amenities maintenance, management of revenues associated with leasing spaces, and food service operations at the Armory.

	2019 Actuals	2020 Adopted	2021 Proposed
Expenditures/FTE			
Campus Grounds	12,967,585	15,618,940	15,487,514
Full Time Equivalents Total	124.00	126.50	122.75

Commercial Events

The purpose of the Commercial Events Program is to provide the spaces and services needed to accommodate and produce a wide variety of commercial events, both for profit and not for profit, and sponsored and produced by private and community promoters.

	2019 Actuals	2020 Adopted	2021 Proposed
Expenditures/FTE			
Commercial Events	2,239,125	2,085,328	2,143,533
Full Time Equivalents Total	11.38	11.38	10.38

Community Programs

The purpose of the Community Programs Program is to produce free and affordable programs that connect diverse cultures, create learning opportunities, honor community traditions, and nurture artistry, creativity, and engagement.

	2019 Actuals	2020 Adopted	2021 Proposed
Expenditures/FTE			
Community Programs	2,958,429	2,606,770	2,352,929
Full Time Equivalents Total	17.38	16.38	16.13

Cultural Facilities

The purpose of the Cultural Facilities Program is to provide spaces for performing arts and cultural organizations to exhibit, perform, entertain, and create learning opportunities for diverse local, national, and international audience.

	2019 Actuals	2020 Adopted	2021 Proposed
Expenditures/FTE			
Cultural Facilities	386,254	301,153	307,541
Full Time Equivalents Total	3.38	3.38	3.38

Festivals

Seattle Center

The purpose of the Festivals Program is to provide a place for the community to hold major festival celebrations.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Festivals	851,821	1,396,872	1,437,040
Full Time Equivalents Total	13.03	13.03	13.03

CEN - BO-SC-65000 - McCaw Hall

The purpose of the McCaw Hall Budget Summary Level is to operate and maintain McCaw Hall.

Program Expenditures	2019	2020	2021
	Actuals	Adopted	Proposed
Debt Service	121,000	121,000	121,500
McCaw Hall	5,907,485	5,832,016	3,568,411
Total	6,028,485	5,953,016	3,689,911
Full-time Equivalents Total*	36.25	36.25	36.25

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in McCaw Hall Budget Summary Level:

Debt Service

The purpose of the Debt Program is to provide payments and collect associated revenues related to the debt service for McCaw Hall.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Debt Service	121,000	121,000	121,500

McCaw Hall

The purpose of the McCaw Hall Program is to operate and maintain McCaw Hall.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
McCaw Hall	5,907,485	5,832,016	3,568,411
Full Time Equivalents Total	36.25	36.25	36.25

Seattle Center

CEN - BO-SC-66000 - KeyArena

The purpose of the KeyArena Budget Summary Level is to manage and operate the KeyArena. Included in this category are all operations related to sports teams playing in the arena, along with concerts, family shows, and private meetings.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
KeyArena	-	-	-
Total	-	-	-
Full-time Equivalents Total*	5.00	-	-

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

CEN - BO-SC-69000 - Leadership and Administration

The purpose of the Leadership & Administration Budget Summary Level is to provide executive, community, financial, human resource, technology and business support to the department.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
CIP Indirect Costs	263,402	-	-
Citywide Indirect Costs	2,417,242	3,294,891	3,362,614

Employee Benefits	1,638,496	4,891,528	4,964,908
Indirect Cost Recovery Offset	654,562	(5,880,822)	(5,880,822)
Total	10,692,707	9,386,070	8,615,847
Full-time Equivalents Total*	-	-	(3.80)

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

CIP Indirect Costs

The purpose of the CIP Indirect Costs Program is to provide the management, oversight and support of Seattle Center's Capital Improvement Program.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
CIP Indirect Costs	263,402	-	-

Seattle Center

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle Information Technology Department

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Citywide Indirect Costs	2,417,242	3,294,891	3,362,614

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This includes financial, human resource, technology, and business support necessary to provide effective delivery of the Department's services.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Departmental Indirect Costs	5,161,463	5,222,077	4,361,667
Full Time Equivalents Total	-	-	(3.80)

Divisional Indirect

The purpose of the Divisional Indirect Costs Indirect program is to fund administrative costs generated by sub-departmental units, including the management and oversight of Seattle Center's maintenance operations which span multiple work units and budget programs.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Divisional Indirect	557,542	1,858,396	1,807,481

Employee Benefits

The purpose of the Employee Benefits program is to fund salary and benefit costs associated with city provided leave benefits such as holiday pay, sick time, vacation time, executive leave or other leave benefits, including termination payouts for vacation and sick leave, health and dental insurance, workers compensation, and unemployment insurance contributions.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Employee Benefits	1,638,496	4,891,528	4,964,908

Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery program is to recover costs associated with indirect programs within Leadership and Administrative BSL from the department's direct cost programs.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Indirect Cost Recovery Offset	654,562	(5,880,822)	(5,880,822)

Seattle Public Library

Marcellus Turner, Executive Director and Chief Librarian

(206) 386-4636

<http://www.spl.org>

Department Overview

The Seattle Public Library, founded in 1891, includes the world-renowned Central Library, 26 neighborhood libraries, a robust "virtual library" available 24/7 through the Library's popular website and a Mobile Services division. While the Central Library supports library services for downtown residents and workers, it is also the hub for planning and developing systemwide programs and services. In addition, the Central Library provides critical computer and Wi-Fi access for people without internet service, as well as community meeting rooms and an auditorium for cultural and educational programs. The 26 neighborhood libraries provide services and programs close to where people live, go to school and work, and serve as neighborhood anchors for lifelong learning, civic engagement, and economic vitality.

In 2019, The Seattle Public Library (SPL) hosted nearly five million in-person visitors and circulated 12.6 million items. There were more than 12,000 attendees at the Library's adult learning programs, such as English as a Second Language classes, adult education tutoring, and Ready to Work programs. STEM-focused Summer of Learning activities attracted nearly 34,000 attendees and over 1,200 homework help sessions were hosted by the Library to support student success.

The Library is governed by a five-member Library Board of Trustees, who are appointed by the Mayor and confirmed by the City Council. Board members are eligible to serve two five-year terms. The Revised Code of Washington (RCW 27.12.240) and the City Charter (Article XII, Section 5) grant the Board of Trustees "exclusive control of Library expenditures for Library purposes." The Library Board adopts an annual Operations Plan in December after the City Council approves the Library's budget appropriation.

Budget Snapshot

	2019 Actuals	2020 Adopted	2021 Proposed
Department Support			
General Fund - Operating	55,084,045	58,883,540	54,301,685

Capital Support			
Other Funding - Capital	5,223,998	4,768,000	9,237,000
Total Capital	5,223,998	4,768,000	9,237,000
Total Appropriations	91,334,079	86,231,851	86,911,995

Seattle Public Library

Budget Overview

The City is projecting significant revenue losses due to the economic impacts of COVID-19. As a result, the 2021 Proposed Budget includes reductions for most departments across the City. Owing to this considerable economic strain, the General Fund cannot support The Seattle Public Library (SPL) at the same level for 2021. The SPL budget includes a General Fund reduction of \$5.8 million or 10% of the SPL General Fund support (7.4% of SPL's total operating budget). The SPL budget is approximately 63% General Fund, 36% 2019 Library Levy, and 1% from Library-generated revenues, which include a parking garage at the Central Library, space rentals for private events, print and copy services and lost material fees.

Library operations have been significantly impacted by COVID-19. All SPL branches closed indefinitely in March 2020 as the pandemic emerged. Since then, the Central Library and a number of branches have opened for Curbside Pickup Service and/or book returns, with remaining staff working in the other branches to process materials for Curbside Pickup and Mobile Services or offering virtual services, programming and online customer services. In addition, five branches are providing public access to restrooms to help support the insecurely housed. Although there is much uncertainty on what impact COVID-19 will have in 2021, the budget assumes that Library facilities will not fully reopen to the public for in-person services until July 2021.

Because the General Fund cannot support the SPL at the same level, the 2021 Proposed Budget will shift limited and specific expenses from the General Fund to the 2019 Library Levy to mitigate program and operating reductions. Because of the temporary closure of Library facilities due to COVID-19, some 2019 Library Levy funding that was budgeted in 2021 to expand hours, add an at-risk youth specialist, and to expand play and learn programming will be redirected to offset a portion of reductions to baseline open hours at Library locations. In total, \$1.36 million in 2019 Library Levy funding will be redirected for this purpose. The Library Board of Trustees will determine how best to address the impacts of the General Fund reduction with a focus on equity as promised to voters.

The SPL budget also includes a cumulative \$1.4 million reduction to physical materials, digital collection purchases, and staffing in support of the physical collection. In addition, \$1.35 million is cut from travel and training, technology, building and facility maintenance, and other operational functions such as Finance, Accounting, Human Resources, Event Services and Marketing.

Description of Incremental Budget Changes

Baseline

Technical Adjustment for CCM Baseline

Seattle Public Library

Expenditures \$(131,909)

This is a technical change to align the budget to central IT, HR, and FAS rates.

Baseline Adjustments for Personnel Costs

Expenditures \$1,051,826

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime and temporary labor. There is no increase assumed from 2021 to 2022.

Proposed Operating

Recruitment & Administrative Reductions

Expenditures \$(174,000)

This item includes administrative and human resources staffing reductions. This item also includes reductions to the office supply and program support non-labor budgets. The SPL will reduce office supply budget by 10% and take further reductions to program support and other non-labor resources.

Reduce Library Communications and Marketing Support

Expenditures \$(100,000)

This item reduces the General Fund budget for marketing and communications. The base non-labor budget including levy resources for marketing and communication is \$215,000. This item is a 46% reduction to the base budget.

Reduction to Events Services Personnel

Expenditures \$(157,500)

Private event bookings at the Central Library have been severely impacted by the COVID-19 pandemic. This is expected to continue into 2021 as it is anticipated that libraries will remain closed for the first half of the year. When reopening is allowed it is expected that it will take some time for the events industry to return to pre-pandemic levels. As a result, the SPL is reducing the budget and staffing for Events Services.

Staff Training Reduction

Expenditures \$(117,000)

This item reduces the General Fund travel and training budget for non-represented staff. The base budget for travel and training, including represented staff is \$164,000. This item is a 71% reduction to the travel and training budget.

Modifications to Library Operations

Expenditures \$(3,082,000)

On March 14, 2020 all Seattle libraries closed to combat the spread of COVID-19 as it emerged as a global pandemic. In response to a dramatic increase in public interest of digital resources, The Seattle Public Library quickly adapted to a virtual service model by enhancing digital offerings, transitioning educational and cultural programs to virtual formats, and providing chat and phone information services through telework models.

A systemwide reopening team went to work planning a safe and phased offering of in-person services. This resulted in the launch of contact-free Curbside Service and book returns, as well as resuming limited Mobile Services, which

Seattle Public Library

provides access to senior housing facilities, preschools serving low-income families, encampments serving people experiencing homelessness, and other patrons with mobility and access concerns. The Library has also been providing safe and sanitary public restroom access at five locations, seven days a week.

The budget assumes the Library will continue providing expanded digital programs and services, Curbside Service, book returns, public restroom access, and Mobile Services in 2021, until Library buildings reopen. The Library will continue to look for ways to add patron-requested services permitted under public health guidelines.

Because the General Fund can no longer support Library operations at the same level, this budget includes a General Fund reduction of \$5.8 million. Library has determined that \$3.1 million of this reduction will come from its budget for operating hours. With much uncertainty around COVID-19, the budget assumes that for planning purposes that facilities will not reopen until July 2021. When buildings do reopen, some locations will operate with reduced hours.

The Library believes multiple funding sources are necessary to deliver core Library information services to the public in unprecedented times. To help offset this cut, the Library will redirect \$1.36 million of 2019 Library Levy dollars originally allocated to expanded hours and programming in 2021. Those dollars will be used to support base operating hours when libraries reopen. The Library Board of Trustees will determine how best to achieve those savings and address impacts of the General Fund reduction with a focus on equity as promised to voters. The final approved plan will be reflected in the 2021 Library Operations Plan.

Reduction to Library Digital Collection Purchases

Expenditures \$(139,000)

This item reduces the General Fund Budget for the digital collection in the following areas:

Databases (\$67,000)

E-periodicals (\$18,000)

E-books and E-audiobooks (\$55,000)

Streaming Media (\$138,000)

\$138,000 in accumulated 2012 Library Levy fund balance will be used to offset the streaming media reduction for 2021. Use of digital materials has continued to grow with demand increasing by 24% between 2018 and 2019, and by 26% during the first four months of the pandemic. The base budget for the digital collection, including General Fund and levy resources, is \$4.3 million. The impact of this is a 6% reduction to the digital collection budget in 2021.

Reduction to Physical Collection Purchases

Expenditures \$(531,000)

This item includes a reduction to the physical materials collection including, CDs and DVDs, print, audio, and serial collections. As patron use has shifted toward electronic formats during the pandemic, the Library has re-balanced the baseline books and materials budget to account for this change. This reduction will result in a smaller, but more developed collection of print and physical materials. The base budget for the physical collection is \$3.5 million, including General Fund and levy resources. This reduction reflects a 15% reduction to the budget for physical materials.

Reduction to Circulation Support Personnel

Expenditures \$(588,000)

This item reduces personnel who support circulation of the physical books and materials. Due to the budget reduction to the physical collection, the staff that support the physical circulation will also be reduced. The base budget for staffing for circulation, which reflects the movement and access to materials across 27 locations, is \$8.7 million, including General Fund and levy resources. This item reflects a 7% reduction to the base budget.

Seattle Public Library

Reduction to Computer Equipment and Personnel

Expenditures \$(293,000)

This item includes a reduction to IT personnel, while also cutting public and staff computing purchases, and eliminating the budget for Adobe Creative Suite software.

Reduction to Library Building Maintenance & Reduce Facilities Personnel

Expenditures \$(348,000)

This item includes the elimination of facilities support personnel and a \$150,000 reduction to facilities non-labor maintenance by reducing the frequency of maintenance services at Central Library and neighborhood branches.

Reduction to Finance & Accounting Personnel

Expenditures \$(170,000)

This item reduces the budget for finance and accounting personnel and eliminates two positions. The base budget for finance and accounting including levy resources is \$1.1 million, and this is a 15% reduction to the base budget.

Proposed Capital

Real Estate Excise Tax (REET) Reduction

Expenditures \$(360,000)

The SPL capital budget includes 2019 Library Levy and REET resources. The 2019 Library Levy includes \$50.9 million directed toward capital projects over the levy period. REET funding supplements the levy funding for major maintenance projects including seismic retrofits to Carnegie-era branches. Because of projected declines in REET revenue, the REET resources dedicated to these projects is reduced.

Transfer of Levy-funded IT Infrastructure Projects from Operating to Capital

Expenditures \$2,000,000

This is a budget neutral transfer of previously-planned Library IT infrastructure work from operating to capital, all supported by the 2019 voter-approved Library Levy. From 2021 through 2026, the Library Levy CIP will increase appropriation authority by \$7,489,000 to fund various IT infrastructure work and replacement of the Library's Integrated Library System (ILS), while making a commensurate reduction in the Library Programs and Services Division in Fund 18200 over that same timeframe (2021-2026). This transfer is necessary as the expenditure represents a capital project, rather than an operating expense.

Proposed Technical

Fund 18200 Beginning Balance Technical Adjustment

Expenditures \$647,000

This is a technical adjustment to bring the budget for Fund 18200 into alignment with the spending plan for the voter approved 2019 Library Levy.

Library Revenues

Revenues \$(4,261,855)

Seattle Public Library

Library generated revenues are expected to decrease due to COVID-19, the recession, and the slow recovery from COVID-19. SPL is projecting declines in parking fees, event rentals, lost material fees, and other miscellaneous revenues. This item also reflects the decrease in the transfer of General Fund resources to the SPL operating fund to reflect a 10% reduction in General Fund support. This item also reflects the increase in levy revenue in 2021.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$343,727
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

SPL-Balancing

Revenues	\$5,119,999
----------	-------------

This is a technical item to balance revenues and expenditures for the Funds managed by this department.

Appropriations by Budget Summary Level and Program

SPL - BC-PL-B3000 - Capital Improvements

The purpose of The Seattle Public Library Major Maintenance Budget Summary Level is to provide major maintenance to Library facilities, which include the Central Library and all branch libraries, to help ensure building integrity and improve functionality for patrons and staff.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Capital Improvements	5,223,998	4,768,000	9,237,000
Total	5,223,998	4,768,000	9,237,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPL - BO-PL-B1ADM - Administrative/Support Service

The purpose of the Administrative Services Program is to support the delivery of library services to the public.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Administrative Services	467,809	10,273,835	10,770,314
Business Office	4,734,547	-	(170,000)
Event Services	496,650	-	(157,500)
FAC Services	8,432,821	1,743,000	1,395,000
Total	14,131,827	12,016,835	11,837,814

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Administrative/Support Service Budget Summary Level:

Administrative Services

The purpose of the Administrative Services Program is to support the delivery of library services to the public.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Administrative Services	467,809	10,273,835	10,770,314

Business Office

Seattle Public Library

The purpose of the Business Office Program is to support the delivery of administrative services.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Business Office	4,734,547	-	(170,000)

Event Services

The purpose of the Events Services Program is to support Library-hosted as well as private events and programs in order to make Library facilities and meeting rooms more available to the public.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Event Services	496,650	-	(157,500)

FAC Services

The purpose of the FAC Services Program is to maintain and secure the Library's buildings and grounds so that library services are delivered in safe, secure, clean, well-functioning and comfortable environments.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
FAC Services	8,432,821	1,743,000	1,395,000

SPL - BO-PL-B2CTL - Chief Librarian's Office

The purpose of the Chief Librarian's Office is to provide leadership for the Library in implementing the policies and strategic direction set by the Library Board of Trustees, and in securing the necessary financial resources to operate the Library in an effective and efficient manner. The Chief Librarian's Office serves as the primary link between the community and the Library, and integrates community needs and expectations with Library resources and policies.

Program Expenditures	2019	2020	2021
	Actuals	Adopted	Proposed
Chief Librarian's Office	705,754	516,178	493,615
Total	705,754	516,178	493,615

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPL - BO-PL-B4PUB - Library Program and Services

The purpose of the Library Programs and Services Division is to provide services, materials, and programs that benefit and are valued by Library patrons. Library Programs and Services provides technical and collection services and materials delivery systems to make Library resources and materials accessible to all patrons.

Seattle Public Library

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Collections and Access	18,359,127	6,530,000	5,083,630
Information Technology	5,652,597	1,980,000	1,682,909
Public Services	38,197,617	56,495,799	54,971,550
Total	62,209,341	65,005,799	61,738,089
<i>*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here</i>			

The following information summarizes the programs in Library Program and Services Budget Summary Level:

Collections and Access

The purpose of the Collection and Access Services Program is to make library books, materials, databases, downloadable materials, and the library catalog available to patrons and to provide a delivery system that makes Library materials locally available.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Collections and Access	18,359,127	6,530,000	5,083,630

Information Technology

The purpose of the Information Technology Program is to provide public and staff technology, data processing infrastructure and services.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Information Technology	5,652,597	1,980,000	1,682,909

Public Services

The purpose of the Library Programs and Services Program is to administer public services, programs, and collection development and access.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Public Services	38,197,617	56,495,799	54,971,550

SPL - BO-PL-B5HRS - Human Resources

The purpose of Human Resources is to provide responsive and equitable services, including human resources policy development, recruitment, classification and compensation, payroll, labor and employee relations, volunteer services, and staff training services so that the Library maintains a productive and well-supported work force.

Seattle Public Library

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Human Resources	2,107,720	2,338,142	2,111,839
Total	2,107,720	2,338,142	2,111,839

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPL - BO-PL-B7STR - Institutional & Strategic Advancement

The purpose of the Institutional and Strategic Advancement division is to provide planning and support functions, including strategic analysis, government relations, community partnerships and external and internal communication, to help the City Librarian shape the strategic direction, work and culture of the Library in pursuit of its mission. The division ensures that the public is informed about services and programs offered by the Library.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Institutional & Strategic Adva	1,982,438	1,586,897	-
Institutional & Strategic Advancement	-	-	1,493,638
Total	1,982,438	1,586,897	1,493,638

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Institutional & Strategic Advancement Budget Summary Level:

Institutional & Strategic Adva

The purpose of the Institutional & Strategic Advancement Program is to assist in the administration of Library operations and play an essential role in shaping the strategic direction, work and culture of the Library.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Institutional & Strategic Adva	1,982,438	1,586,897	-

Institutional & Strategic Advancement

The purpose of the Institutional & Strategic Advancement Program is to assist in the administration of Library operations and play an essential role in shaping the strategic direction, work and culture of the Library.

Department of Education and Early Learning

Dwane Chappelle, Director

(206) 233-5118

www.seattle.gov/education

Department Overview

The mission of the Department of Education and Early Learning (DEEL) is to transform the lives of Seattle's children, youth, and families through strategic investments in education. DEEL achieves this goal by investing in high-quality educational services and programs that help children succeed in school, increasing capacity for such programs in underserved communities and strengthening school-community connections.

DEEL is responsible for weaving together early learning programs in the City to provide families with the opportunity to prepare their children to enter school ready to succeed. As part of this work, DEEL provides child care subsidies to low-income families; operates the Seattle Preschool Program; and provides wraparound services, training, and professional development. By braiding and blending resources from the Families, Education, Preschool, and Promise (FEPP) Levy; the state Early Childhood Education and Assistance Program; the Sweetened Beverage Tax (SBT); and the City's General Fund, the department seeks to ensure families in the city have access to high quality early learning programs and services.

For school-age children, DEEL builds linkages between the City of Seattle, the Seattle Public School District, and other organizations to ensure successful levy implementation. Levy investments are made in programs that improve academic achievement and helps students graduate ready for the postsecondary path of their choice. To that end, each program undergoes ongoing program evaluation to ensure it delivers on specific targeted outcomes intended to improve academic achievement. The department provides annual reports detailing program targets and results to policy makers and the community.

DEEL serves as the liaison between the City and the higher education community on education issues of joint concern. The department builds partnerships with, and facilitates collaboration between, local higher education representatives to increase academic, economic and social advancement. DEEL aligns City investments with institutions' priorities, initiatives and goals to increase student success and higher levels of educational attainment. Part of this work includes implementation of the Seattle Promise program. The Seattle Promise provides two years of free college for Seattle public high school graduates, removing financial barriers to higher education facing many Seattle public school students. Seattle Promise students have the opportunity to obtain up to 90 credits of instruction towards a degree, credential, certificate or pre-apprenticeship program. In Fall 2019, Seattle Promise expanded to all 17 Seattle Public High Schools.

Budget Snapshot

	2019 Actuals	2020 Adopted	2021 Proposed

Department of Education and Early Learning

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

DEEL implements its mission to support Seattle's children by leveraging its funding from the FEPP Levy; the City's General Fund; Sweetened Beverage Tax (SBT) revenues; federal, state, and private grants; and partnerships with other City departments. The City is projecting significant revenue losses due to COVID-19 and the resulting public health crisis. As a result, the 2021 Proposed Budget includes reductions for most departments across the City, including DEEL. The General Fund can no longer provide the same level of support to DEEL's budget and as a result, the General Fund support to DEEL is reduced by 19% from the 2020 Adopted Budget. Because DEEL has other funding sources, including the FEPP Levy, DEEL mitigates the General Fund reduction by consolidating those activities that overlap the two funds and by reducing General Fund support for those activities that can benefit from efficiencies such as the provider training and professional development work that is moving to a remote platform. As a result of these strategies, the General Fund reductions will have minimal impact on staffing and services.

Although DEEL General Fund support is reduced, the DEEL budget includes additional SBT funding for a new Prenatal-3 grant program. Based on a recommendation from the Sweetened Beverage Community Advisory Board (CAB), the budget includes one-time SBT funding of \$1.5 million for this new grant program for community-based organizations. DEEL will work closely with the CAB and King County Best Starts for Kids (BSK) to develop the grant program. Some gaps in prenatal-to-3 services have been identified through the BSK work.

The budget also includes several technical changes to align the DEEL budget with the FEPP Levy Implementation & Evaluation Plan. These changes include aligning the budget for the Seattle Preschool Program, Seattle Promise, the Opportunities and Access grants, and the School-Based Investment grants.

Description of Incremental Budget Changes

Baseline

Central Rate and Technical Baseline Adjustments

Expenditures	\$(2,355)
--------------	-----------

Department of Education and Early Learning

The item includes adjustments for central rate for IT, HR, and FAS rates.

Adjustment for One-Time Budget Changes

Expenditures \$(4,336,086)

This item removes one-time funding from the 2020 Adopted Budget. The reduction includes several one-time items funded by Sweetened Beverage Tax (SBT) including the final Seattle Promise Endowment payment and funding for preschool facilities. The SBT authorizing ordinance included \$5 million for an endowment for the Promise program over a three-year period, and 2020 was the last year of endowment funding. The 2020 Adopted Budget included one-time SBT funding for preschool facilities; and funds for connecting families to child care and diapers. The adjustments also include one-time expenditures tied to SPP tuition revenues.

Proposed Operating

Early Learning - General Fund Shift to Levy

Expenditures \$(2,431,108)

Because the General Fund can no longer support DEEL operations and services at the same level, this item shifts some General Fund expenses to the Family and Education Levy (FEL) using fund balance, and reduces other General Fund expenses due to efficiencies and overlap with the Families, Education, Preschool, and Promise (FEPP) Levy. Both the Parent Child Plus program and early learning labor costs (including intake staff, educational specialists, coaches and managers) shift to the FEL Levy, using available fund balance. Due to overlap with the levy and other efficiencies, there are net reductions to the General Fund budget for early learning training, health care, and miscellaneous contracted services. These funding reductions will have minimal service impacts.

Eliminate General Fund Support for Summer Literacy Contract

Expenditures \$(134,989)

This item removes General Fund support for a summer literacy program that was added to DEEL's budget in 2017. DEEL has levy funding for this type of programming through the Opportunities and Access Request for Investments and other similar programs are required to seek competitive grant funding through the DEEL funding opportunities.

Child Care Resources and Referrals

Expenditures \$140,000

The Mt Baker Allen Family Center is a community resource center co-located with 95 units of permanent supportive and permanently affordable housing in Southeast Seattle. The Center serves families living in or near poverty with a wide array of community-based services and support to shorten and prevent family homelessness and to strengthen vulnerable families, including child care resources and referrals. This item continues funding for the childcare referral, parent coaching, and other training services. The 2020 Adopted Budget included funding (that was administered by DEEL) for these services in the Human Services Department (HSD) budget.

Leadership & Administration - General Fund Shift to Levy

Expenditures -

This change request shifts labor costs in DEEL's Leadership & Administration BSL from General Fund to FEPP levy funds in 2021. This shift will not have impact on services or staffing and is consistent with the approach that the department has taken in 2020 to absorb General Fund revenue loss.

New Prenatal-3 Grant Program

Expenditures \$1,500,000

Department of Education and Early Learning

Based on a recommendation from the Sweetened Beverage Tax Community Advisory Board (CAB), this item adds one-time Sweetened Beverage Tax (SBT) funding of \$1.5 million for a new prenatal to 3-year-old grant program for community-based organizations. A portion of this funding is reserved for administering the grant program. DEEL will work closely with the CAB and King County Best Starts for Kids (BSK) to develop the grant program. Some gaps in prenatal-to-3 services have been identified through the BSK work. The CAB may consider identifying ongoing SBT funding in the 2022 budget process.

Position Transfers & Reclassifications

Position Allocation

-

This item transfers several positions between divisions within DEEL as well as recognizes two reclassifications that were completed in 2020.

This change request transfers the following positions across DEEL divisions:

- 2.0 FTE Planning & Development Specialist Srs from Leadership & Administration to Early Learning
- 1.0 FTE Strategic Advisor 2, Exempt from Leadership & Administration to Early Learning
- 1.0 FTE Public Relations Specialist Sr from Leadership & Administration to K-12
- 1.0 FTE Strategic Advisor 2, Exempt from Early Learning to Leadership & Administration
- 1.0 FTE MSA Sr from Early Learning to Leadership & Administration
- 1.0 FTE Strategic Advisor 2, Exempt from K-12 to Leadership & Administration

These transfers better align the work with the location of the position and are supported by two rationales:

- Positions transferred out of Leadership & Administration that directly support the work of a single division and should be budgeted within that division solely.
- Positions transferred to Leadership & Administration for positions that support multiple teams or functions within the department and would be more accurately categorized as administrative support.

Additionally, the following positions have been reclassified in 2020 as part of an effort to better align classifications with the scope of work and responsibilities.

- 1.0 FTE Public Relations Specialist Sr reclassified to Planning & Development Specialist Sr in K-12
- 1.0 FTE Planning & Development Specialist I reclassified to Planning & Development Specialist Sr in K-12

The budget for all of these position transfers and reclassifications is assumed in the FEPP Levy Spending Plan Alignment items.

Reductions - SBT - Early Learning

Expenditures

\$(433,519)

This item reduces funding for training and professional development. The reduction will have minimal impact on service levels. Due to the COVID-19 pandemic, DEEL has moved to conducting trainings and professional development online, and the department expects to continue this practice even when the pandemic is over. Also, DEEL has other fund sources to support early learning training and professional development. As a result of the reduced cost, and the availability of other funding, DEEL does not need this level of SBT support.

Proposed Technical

Upward Bound Grant

Expenditures

\$28,352

Revenues

\$36,851

Department of Education and Early Learning

This is a technical change to align the Upward Bound Grant revenue and spending. The Upward Bound program serves high school students from low-income families and the goal of the program is to increase the rate at which participants complete secondary education and enroll in and graduate from institutions of postsecondary education.

FEPP Levy Spending Plan Alignment - Early Learning

Expenditures	\$3,090,773
Revenues	\$(1,300,000)

This item adds FEPP Levy budget authority to the Early Learning BSL in alignment with the FEPP spending plan. This item also includes a reduced amount for projected tuition revenue for the Seattle Preschool Program and equivalent spending authority.

FEPP Levy Spending Plan Alignment - K-12 Programs

Expenditures	\$(729,521)
--------------	-------------

This change item aligns the K-12 Programs BSL with the FEPP Levy spending plan per the Implementation & Evaluation Plan. The increased spending in 2021 supports continued implementation of school-based investments, opportunity & access investments, out-of-school time investments, and other K-12 investments.

FEPP Levy Spending Plan Alignment - Leadership & Administration

Expenditures	\$(175,183)
--------------	-------------

This change request aligns the Leadership & Administration BSL with the FEPP Levy spending plan.

FEPP Levy Spending Plan Alignment - Post-Secondary

Expenditures	\$789,137
--------------	-----------

This change request aligns the Post-Secondary Programs BSL with FEPP Levy Spending per the Implementation & Evaluation Plan. The increased funding for the Post-Secondary Programs BSL supports the continued expansion of the Seattle Promise program in 2021-2022. During this period, Seattle Promise will reach its full implementation status and is projected to serve 870 13th and 14th Year students per school year. This change request increases support for tuition, equity scholarships, and programmatic support, per the Implementation & Evaluation Plan to support full program implementation.

Technical Adjustment - Revenue

Revenues	\$786,857
----------	-----------

This technical adjustment aligns FEPP Levy revenues with the revenue forecast, and updates DEEL's grant revenues to align with contract amounts. Finally, this adjustment corrects projected SPP tuition revenue assumptions.

Technical Adjustments - GF - Early Learning

Expenditures	-
--------------	---

This is a budget neutral technical adjustment to update project, activity, and account codes.

Technical Adjustments - Leadership & Administration

Expenditures	\$312,634
--------------	-----------

Department of Education and Early Learning

This adjustment makes technical adjustments and corrections to the Leadership & Administration BSL. This includes budget-neutral changes between budget programs, projects, activities, and accounts in order to align costs with the proper coding.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$(280,869)
--------------	-------------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures	\$221,670
--------------	-----------

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime and temporary labor. There is no increase assumed from 2021 to 2022.

DEEL-Balancing

Revenues	\$1,847,372
----------	-------------

This is a technical item to balance revenues and expenditures for the Funds managed by this department.

Human Services Department

Jason Johnson, Interim Director

(206) 386-1001

<http://www.seattle.gov/humanservices/>

Department Overview

The mission of the Human Services Department (HSD) is to connect people with resources and solutions during times of need, so all Seattle residents can live, learn, work and take part in strong and healthy communities. HSD contracts with more than 170 community-based human service providers and administers programs to ensure Seattle residents have food and shelter, education and job opportunities, access to health care, opportunities to gain social and economic independence and success, and many more of life's basic necessities. HSD is committed to working with the community to provide appropriate and culturally relevant services.

HSD's strategic plan, "Healthy Communities, Healthy Families," identifies six results:

- All youth in Seattle successfully transition into adulthood.
- All people living in Seattle are able to meet their basic needs.
- All people living in Seattle are housed.
- All people living in Seattle experience moderate to optimum health conditions.
- All people living in Seattle are free from violence.
- All older adults experience stable health and are able to age in place.

HSD's work is funded by a variety of revenue sources, including federal, state, and inter-local grants, as well as the City's General Fund. External grants represent over 41% of HSD's \$269 million proposed 2021 budget, while the General Fund represents 55%. In addition, \$4 million of HSD's expenditures are backed by the City's Sweetened Beverage Tax Fund, representing roughly 1.8% of the department's proposed budget for 2021. Approximately 1.2% of HSD's 2021 budget is supported by Short Term Rental tax revenues which support permanent supportive housing investments.

Budget Snapshot

	2019 Actuals	2020 Adopted	2021 Proposed

Human Services Department

Budget Overview

The Mayor's 2021 Proposed Budget for the Human Services Department makes significant investments in addressing homelessness, community safety, and Coronavirus response while eliminating non-essential administrative and labor spending. Where possible, the preservation of investment in programs serving Seattle's most vulnerable residents has remained a priority for this administration despite the steep drop in City revenues caused by the events of 2020 and their impacts on the local economy.

The proposed budget for the Human Services Department includes approximately \$130 million in funding for addressing homelessness, including significant one-time funding from the Federal government to support those experiencing homelessness during the COVID-19 pandemic. The proposed budget restructures HSD's budget for addressing homelessness to reflect the establishment of the King County Regional Homelessness Authority (KCRHA). The budget will now show a distinct budget program with funds set aside for the City to contract with KCRHA, once operational, to provide homeless services which have historically been managed by the Human Services Department. In addition, this budget reduces the size of HSD's team responding to unsheltered persons. HSD will consider the focus and role of the department's reconfigured outreach team and its relationship to the homelessness outreach continuum.

The proposed budget also creates a new Safe and Thriving Communities Division within HSD to elevate and consolidate the department's investments in safety and violence prevention. This division will house the City's work to counter domestic violence and sexual assault, a team of victim advocates transferred from the Seattle Police Department in 2020, and HSD's investments in youth and community safety which will be transferred from the department's existing Youth and Family Empowerment Division. This new division will be comprised of repurposed positions and budget to begin 2021 and will have an initial budget of over \$21 million.

-

-

Total Incremental Changes	\$32,815,023	(1.00)
Total 2021 Proposed Budget	\$268,814,600	384.75

Description of Incremental Budget Changes

Baseline

Removal of One-Time Budget Changes

Expenditures	\$(18,293,991)
Revenues	\$(2,583,826)

This item includes budget adjustments to remove one-time changes in the 2020 Adopted Budget. Budget Summary Levels are impacted as follows:

- Supporting Affordability and Livability: \$ (8,219,976)
- Preparing Youth for Success: \$ (2,393,558)
- Addressing Homelessness: \$ (6,264,419)
- Supporting Safe Communities: \$ (579,681)
- Leadership and Administration: \$ (109,128)
- Promoting Healthy Aging: \$ (180,000)
- Promoting Public Health: \$ (547,229)

Several items removed in this baseline adjustment due to one-time funding are proposed by the Mayor to continue as ongoing adds in the Operating section of this budget.

Provider Contract Inflation

Expenditures	\$2,873,579
--------------	-------------

This increase provides an inflationary adjustment for HSD's General Fund-backed contracts of 1.9%. This item complies with Ordinance 125865, which requires contracts to be inflated in line with the Consumer Price Index for Wages as published by the U.S. Bureau of Labor Statistics.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$1,310,401
--------------	-------------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures	\$954,358
--------------	-----------

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime and temporary

Human Services Department

labor. There is no increase assumed from 2021 to 2022. This does not include a 2021 salary increase for non-represented Executives, Managers and Strategic Advisors.

Operating Budget Changes to Adjust for Central Costs in Human Services Fund

Expenditures	\$(99,080)
--------------	------------

This item adjusts the budget of grant funding sources in the Human Services fund. Change Request HSD-940 adds budget for citywide central costs; these costs are funded by baseline budget. This change request provides the offsetting entry that corresponds to the increase per funding source in the citywide adjustment.

Proposed Operating

Restructure HSD's Budget for Addressing Homelessness

Expenditures	\$(901,189)
--------------	-------------

Position Allocation	-
---------------------	---

This item restructures HSD's budget for Addressing Homelessness into four new budget programs:

- King County Regional Homelessness Authority, which will hold budget for staff and programs which were previously under the purview of the City but are now part of the new regional agency
- Contract Oversight and Administration, which will hold labor and overhead budget for a small team to remain with HSD and manage the City's sizable contract with KCRHA and a select few other programs that will remain with the City.
- City-Managed Homelessness Programs, which will hold budget for contracts not moving to the KCRHA.
- Unsheltered Outreach and Response, which will hold budget for staff and operations budget for HSD's team responding to those living unsheltered and for the City's contract with the LEAD program. LEAD will work in partnership with HSD to conduct outreach and case management for people living unsheltered.

This item also repurposes four positions previously associated with the Navigation Team to staff the new Safe and Thriving Communities division in HSD.

COVID Emergency Solutions Grant Appropriation

Expenditures	\$23,000,000
--------------	--------------

Revenues	\$23,000,000
----------	--------------

This item adds appropriation to spend the City's \$23,000,000 one-time Emergency Solutions Grant (ESG) award from the U.S. Department of Housing and Urban Development. This award was granted to the City to assist with the cost of sheltering those experiencing homelessness during the COVID-19 pandemic and will be used for this purpose. An additional \$3 million of the total \$26 million award was appropriated for the same purpose in 2020.

Joint COVID-19 Relief Plan

Expenditures	\$10,000,000
--------------	--------------

As part of the 2020 budget, the Mayor and City Council have invested \$233 million in COVID-19 relief programs. To further address community needs, an additional \$45 million will be invested from the City reserves and other funding sources, with approximately half appropriated in 2020 and the remainder in 2021. The investments will be distributed according to a spending plan, which includes assistance to small business, childcare, individuals experiencing homelessness or at risk of losing their home, people experiencing food insecurity, and immigrants and refugees.

Human Services Department

In HSD, \$10,000,000 is included in 2021. Of this amount, \$2 million is proposed to provide assistance to continue the City's support of emergency shelter providers in managing increased costs due to COVID-19 and \$8 million is proposed for rental assistance and eviction prevention.

Operations and Services for New Shelter Capacity

Expenditures	\$2,750,000
--------------	-------------

This item provides ongoing funding to support operations and services for 125 new shelter units planned for opening in the 4th quarter of 2020.

Transfer Hygiene Investments to Seattle Public Utilities

Expenditures	\$(824,000)
--------------	-------------

This item request transfers \$824,000 to Seattle Public Utilities (SPU) for the management of mobile hygiene facilities and portable toilets for people experiencing homelessness. There is a corresponding action in the proposed budget for SPU.

Consolidate Safety Investments in New Safe and Thriving Communities Division

Expenditures	\$901,189
--------------	-----------

Position Allocation	-
---------------------	---

This item transfers funding and positions into the existing Safe Communities BSL to create a new Safe and Thriving Communities Division within HSD. This division will elevate and consolidate the department's investments in safety and violence prevention. The division will house the City's work to counter domestic violence, a team of victim advocates transferred from the Seattle Police Department in 2020, and HSD's existing investments in youth and community safety which will be transferred from the department's existing Youth and Family Empowerment Division.

This item includes the repurposing of four positions previously associated with the Navigation Team for staffing in this new division.

Critical Incident Community Responders

Expenditures	\$428,000
--------------	-----------

This item makes ongoing the City's one-time 2020 investment in Community Critical Incident Responders, a program operated by the nonprofit Community Passageways. This intervention was developed jointly between HSD and the Seattle Police Department in response to several shootings in the early part of 2020 as a community-based solution to mitigate and prevent shootings.

Transfer Victim Advocacy Team to HSD

Expenditures	\$1,280,124
--------------	-------------

Position Allocation	11.00
---------------------	-------

The item permanently transfers the Seattle Police Department's Victim Advocacy Team to the Human Services Department. This transfer was initially made by the City Council in the 2020 second quarter supplemental budget. This team is comprised of 11 FTEs and a budget of \$1.25 million. These resources will be added to the proposed new Community Safety Division in HSD.

Transfer Youth Safety Investment for Rainier Beach to the Department of Neighborhoods

Human Services Department

Expenditures \$(518,486)

This item transfers funding for a contract with Rainier Beach a Beautiful Safe Place for Youth from the Human Services Department to the Department of Neighborhoods (DON). This program operates in a different manner than most of HSD's investments in youth safety and violence prevention and is a better fit with DON's approach to grant-making for small grassroots organizations. There is a corresponding item in the proposed budget for the Department of Neighborhoods.

Continued Funding for Legal Services for DV/SA Survivors

Expenditures \$150,000

This item makes ongoing a one-time 2019-2020 investment made by the City Council to contract for legal representation for survivors of sexual violence. This legal support is focused on defending the civil rights and wishes of sexual violence survivors regardless of the criminal and civil judicial systems' procedures and responses.

Funding to Support Alternative Solutions to Police Responses

Expenditures \$2,000,000

This item adds budget for a Joint Community Safety Interdepartmental Team to advise upon and implement policies to reinvent policing and re-imagine community safety in the City of Seattle by centering the experiences of Black, Indigenous and People of Color (BIPOC) communities. Specific investments will be informed by the participatory budgeting process that will begin in 2020.

Continued Funding for One-Time Adds

Expenditures \$2,606,000

This item provides continued funding for one-time budget adds from the 2019/2020 and 2020 budget processes totaling \$2.6 million.

The \$2.6 million budget is allocated to these program areas:

- \$100k for Homeless Day Center operations
- \$756k for Homeless Shelter programs
- \$656k for Homeless Outreach programs
- \$300k for Youth Development programs
- \$300k for Information & Referral services at community locations
- \$439k for Domestic Violence and Sexual Assault interventions
- \$55k for Chronic Disease support programs

Continued Funding for Generations Aging with Pride Senior Program

Expenditures \$180,000

This item will make ongoing a one-time investment made by Council in 2019 and 2020 to support Generations Aging with Pride, a senior center on Capitol Hill serving the LGBTQ community. GenPride's services include health and nutrition workshops, social events to mitigate social isolation, LGBTQ-specific programming held at area senior centers, and social services and support groups.

Continued Funding for Crisis Connections One Call

Expenditures \$403,030

This item provides additional one-time funding in 2021 for the City Council's one-time investment to pilot the

Human Services Department

OneCall single diversion portal. OneCall is a dedicated line for SFD and other emergency medical responders to assist in serving individuals in mental health crisis. The line is operated by the non-profit Crisis Connections. It was officially launched in October of 2019. This item will extend the pilot for an additional year to allow for further data collection and analysis on the program's cost effectiveness and outcomes.

Continued Funding for Mt. Baker Family Resource Center

Expenditures \$706,200

This item provides an additional year of one-time startup funding for programs operating at Mercy Housing's Mt. Baker Allen Family Center project. This a community resource center co-located with 95 units of permanent supportive and permanently affordable housing in Southeast Seattle which was previously funded by the City through a one-time add in the 2020 budget. The Center serves families living in or near poverty with a wide array of community-based services and support to shorten and prevent family homelessness and to strengthen vulnerable families. There is also an incremental change in proposed budget for the Department of Education and Early Learning which brings the City's total proposed investment in this project for 2021 to \$840,000.

Transfer Good Food Bag Contracts

Expenditures \$55,000

This items transfers \$55,000 in Sweetened Beverage Tax fund appropriation from the Office of Sustainability and Environment to the Human Services Department for the Fresh Bucks Good Food Bag Program. There is a corresponding change in the proposed budget for the Office of Sustainability and Environment. This transfer will eliminate the administrative burden posed by the current arrangement, in which the two departments jointly manage the program under a memorandum of agreement and run invoices and reimbursements for program expenses.

Re-purpose SBT Funding for COVID-19 Response

Expenditures -

This item reallocates Sweetened Beverage Tax proceeds within HSD for expenses related to operating the City's food support network during the COVID-19 pandemic. Anticipated expenses include personal protective equipment for staff, sanitation supplies, bulk-buy food purchases, and home-delivered food and meals. Funding would be repurposed from a professional services contract for a public awareness campaign, vendor contracts for the Out-of-School Time program, and unallocated contract funding.

Transfer Food Opportunity Fund to DON

Expenditures \$(500,000)

This item transfers ongoing funding for a Food Opportunity Fund grant program from the Human Services Department to the Department of Neighborhoods. This budget is backed by Sweetened Beverage Tax revenue.

Childcare Bonus Fund Appropriation

Expenditures \$3,842,573

This item adds appropriation for anticipated Childcare Bonus Fund project awards in 2021. HSD has received 2 project applications to date and expects to receive additional applications before the end of 2020. Average funding requests are from \$1M to \$3M. HSD plans to review applications and make funding decisions in late 2020 or early 2021.

Additional Appropriation for Spending Backed by Grant Revenue in the Human Services Fund

Human Services Department

Expenditures \$2,689,005

This item adds \$2.6m in appropriation to the Human Services fund backed by increased revenue from grant funding sources. Additional appropriation increases for HSD's grant funding sources are included in baseline changes for central costs and the annual wage increase for employees. The total impact to each Budget Summary Level is:

A \$438k increase to the Supporting Affordability & Livability BSL:

- \$157K reduction in funding for the Utility Discount program which accounts for the discontinuation of the Vehicle Licensing component of the program
- \$526K increase in King County & Federal grants for older adult nutrition programs
- \$70K increase in CDBG administration funding

A \$1.2m increase to the Addressing Homelessness BSL:

- \$1.3M technical change in 2021 to federal McKinney grant appropriation; this reflects a change in how the McKinney grant is budgeted by showing the full award in one year with anticipated budget carry-forward; it is not an increase in grant funding.
- \$300K reduction in 2021 and 2022 in the Housing Opportunities for People with AIDS budget
- \$177K increase in 2021 and \$237k increase in 2022 in budget backed by the City's Housing Levy

A \$1.6m increase to the Promoting Health Aging BSL:

- \$1.2M increase in Medicaid TXIX case management funding
- \$292k reduction for Health Home funding
- \$150k increase for Victims of Crime Advocacy funding
- \$380k increase for King County Vets, Seniors, and Human Services Levy funding
- \$105k increase in Redmond Fire Department funding

Leadership & Administration BSL - \$205k increase in administration budget funded by grant indirect revenue.

Additional Grant Revenue to the Human Services Fund

Revenues \$3,458,591

This item adds \$3.4m in revenue to the Human Services fund from grant funding sources. The total impact to each Budget Summary Level is:

Supporting Affordability & Livability - \$323K increase

- \$151K reduction in funding for the Utility Discount program; the Vehicle Licensing component of the program is not continuing
- \$400K increase in King County & Federal grants for older adult nutrition programs
- \$155k increase in CDBG admin funding
- \$100k reduction in 2021 and \$300k reduction in 2022 of Childcare Bonus revenue

Addressing Homelessness - \$1.6M increase

- \$1.7M increase in McKinney grant revenue; this reflects a change in how the McKinney grant is budgeted by showing the full award in one year with anticipated carry forward; it is not an increase in grant funding; plus \$424k transferred from the Supporting Safe Communities BSL
- \$300K reduction in 2021 and 2022 in the Housing Opportunities for People with AIDS budget
- \$177K increase in OH Housing Levy revenue

Promoting Health Aging - \$1.6M increase

- \$1.2M increase in Medicaid TXIX case management funding
- \$292k reduction in 2021 and 2022 in Health Home funding
- \$150k increase in 2021 and 2022 Victims of Crime Advocacy funding
- \$480k increase in 2021 and 2022 in King County Vets, Seniors, and Human Services Levy funding
- \$105k increase in 2021 and 2022 in Redmond Fire Dept. funding

Human Services Department

Supporting Safe Communities - \$424k reduction in 2021 - transfer of McKinney grant to Addressing Homelessness BSL

Leadership & Administration BSL - \$235k increase in 2021 in grant indirect revenue.

Use of Human Services Fund Balance

Revenues \$4,370,206

This item adds \$4.37M in appropriation for the Human Services Fund in 2021 and is backed by restricted use fund balance in the Human Services fund. These funds will be used in two ways:

- \$3.95M in Childcare Bonus Funds are added to fund the construction of childcare facilities in Seattle in 2021
- \$425k of Sex Industry Victims Fund dollars will support victims support programs in HSD in 2021

This item also includes a technical correction to a revenue account for \$800k of baseline revenue that should be shown as use of fund balance. These funds support programs for older adults in the Healthy Aging BSL.

Reduce Age Friendly Seattle Team Operating Budget

Expenditures \$(60,358)

This item reduces budget for contracts and administration for HSD's Age Friendly Seattle team.

Shift funding for Strategic Advisor from General Fund to Grant Funding

Expenditures \$(100,036)

This item shifts funding for a Strategic Advisor position in the Federal Grants unit from General Fund to Community Development Block Grant administration funds from the U.S. Department of Housing and Urban Development.

Reduce Support for Homelessness Continuum of Care

Expenditures \$(421,996)

This item reduces HSD's investment in the administrative functions of programs which currently comprise the region's multi-agency homelessness system. These functions will largely be folded into the new King County Regional Homelessness Authority in 2021, to which the City will be making an investment in excess of \$70m per year. The costs of these administrative functions will be covered by this annual contribution from the City. Functions include:

- Administration of the Continuum of Care board currently conducted by All Home
- Homeless Management Information System database
- Coordinated Entry system

Eliminate Support for Parking Scofflaw Mitigation Program

Expenditures \$(100,000)

This item eliminates an ongoing budget add made by Council for the 2020 budget which was intended to provide support for the Scofflaw program of the Interfaith Task Force on Homelessness. HSD and the Interfaith task force were unable execute on a contract for this work in 2020 and this cut will not result in a reduction in current service levels.

Eliminate Administrative Specialist II Position

Human Services Department

Expenditures	\$(90,589)
Position Allocation	(1.00)

This item eliminates an Administrative Specialist supporting the contract unit in the Homeless Strategy and Investments Division. This position is currently vacant and the reduction will not result in a layoff.

Eliminate Assistant Finance Analyst Position

Expenditures	\$(80,150)
--------------	------------

This item eliminates budget for a Finance Analyst position in the Leadership and Administration Division. It is anticipated that the pending transition to a regional homelessness authority will result in a lower central finance workload handled by this position. This action eliminates the budget only, and the pocket will be repurposed within the department for a Principal Accountant for which existing administrative budget exists.

Eliminate Executive Assistant Position

Expenditures	\$(109,518)
Position Allocation	(1.00)

This item eliminates an Executive Assistant position in the Leadership and Administration Division. This position is currently vacant and will not result in a layoff.

Eliminate Planner Position

Expenditures	\$(130,350)
Position Allocation	(1.00)

This item eliminates a planner position from the contract unit in HSI. This position is currently vacant and will not result in a layoff.

Eliminate Assistant Management Systems Analyst Position

Expenditures	\$(84,206)
Position Allocation	(1.00)

This item eliminates an Assistant Management Systems Analyst position from the Data, Performance, and Evaluation (DPE) team in the Leadership and Administration Division. The workload for the DPE team will be reduced as Homelessness work shifts to the new King County Regional Homelessness Authority and this position is no longer needed.

Eliminate Manager II Position

Expenditures	\$(77,328)
Position Allocation	(1.00)

This item eliminates a Manager II position in the planning unit in HSI. This position is currently vacant and has been deemed non-essential in light of the 2021 revenue projections and the impending transition to KCRHA. This reduction will not result in a layoff.

Eliminate Management Systems Analyst Position

Expenditures	\$(126,342)
Position Allocation	(1.00)

Human Services Department

This item eliminates a Management Systems Analyst position the Homeless Strategy and Investments division. This position is currently vacant and the reduction will not result in a layoff.

Eliminate Sr. Grants and Contracts Specialist Position

Expenditures	\$(26,656)
Position Allocation	(1.00)

This item eliminates a Sr. Grants and Contracts Specialist position from the Homeless Strategy and Investments division. This position is currently vacant and will not result in a layoff. Remaining grants and contracts staff will increase contract load from 20 to 25 each. This item reduces the General Fund portion of the position, which is also partially funded through Federal grant funding. The grant funding will go to support the King County Regional Homelessness Authority in 2021.

Eliminate Strategic Advisor I Position

Expenditures	\$(115,991)
--------------	-------------

This item eliminates budget for a Strategy Advisor 1 in the Leadership and Administration Division. The pocket will be repurposed to hire a Sr. Accountant for the LAD Finance Team using existing administration budget.

Eliminate Administrative Specialist I Position

Expenditures	\$(84,509)
Position Allocation	(1.00)

This item eliminates an Administrative Specialist I position from the planning unit of the Youth and Family Empowerment division. The duties performed by this position will be spread among five senior planners and a planning manager.

Eliminate Senior Grants & Contracts Specialist Position

Expenditures	\$(112,998)
Position Allocation	(1.00)

This item eliminates a Senior Grants and Contracts Specialist position from the Youth and Family Empowerment division. It is anticipated that this position will be vacant due to an impending retirement at the end of 2020 and will not result in a layoff. This action reduces the division's grants and contracts staff from 11 to 10 FTE.

Eliminate Sr Human Services Program Supervisor Position

Expenditures	\$(130,848)
Position Allocation	(1.00)

This item eliminates a Senior Human Services Program Supervisor position from the Community Services Unit in the Youth and Family Empowerment Division. An existing Manager II will take on the supervisory duties of this position and eliminate a layer management in the program. This position is currently vacant and will not result in a layoff.

Eliminate Strategic Advisor II Position

Expenditures	\$(167,493)
Position Allocation	(1.00)

This item eliminates a Strategic Advisor II position from the Homeless Strategy and Investments division. This position is currently vacant and will not result in a layoff.

Human Services Department

Eliminate Sr. Planner Position

Expenditures	\$(146,437)
Position Allocation	(1.00)

This item eliminates a Sr. Planner position in the Homeless Strategy and Investment division. This position is currently vacant and is a function which will be undertaken by the King County Regional Homelessness Authority in 2021.

Administrative Planning and Policy Budget Reduction

Expenditures	\$(17,994)
--------------	------------

This item reduces the budget in the Leadership and Administration Division for administrative planning and policy. These funds were not obligated to essential services heading into 2021 and can be cut without direct impacts to staffing or services.

Proposed Technical

General Fund Labor & Operating Transfers

Expenditures	-
--------------	---

This net zero change request includes adjustments to HSD's general fund and SBT labor & operating budget at the project and org level. The changes include:

- Transfer of \$75k of budget for rent for the Navigation Team at the Central Building from Preparing Youth for Success and Supporting Affordability & Livability to Addressing Homelessness
- Transfer of \$146k for a Sr. Grants & Contracts Specialist and increased labor cost from the Leadership & Administration BSL to the Supporting Safe Communities BSL
- Transfer of \$127k for a Management Systems Analyst position from the Healthy Aging BSL to the Leadership & Administration BSL
- Transfer of \$175k for a Strategic Advisor from Supporting Affordability & Livability BSL to the Promoting Public Health BSL

Correction to Utility Discount Program Budget

Expenditures	\$6,110
--------------	---------

This item corrects an error in the baseline budget for the Utility Discount program in the Human Services Fund by adding a correct funding source and adds \$6,110 of appropriation to bring planned expenditures into balance the program's revenues.

Technical Change in CDBG Budget

Expenditures	-
--------------	---

This item moves partial funding for the Mt. Baker Family Resources center from General Fund to Community Development Block Grant.

Rebalance Grant Revenues and Expenditures

Revenues	\$100,000
----------	-----------

This change request balances revenue to expense at the project level.

Appropriations by Budget Summary Level and Program

HSD - BO-HS-H1000 - Supporting Affordability and Livability

The purpose of the Supporting Affordability & Livability Budget Summary Level is to support educational programs for children, youth, and families; and provide utility payment and transportation assistance to Seattle residents with low incomes.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Access to Services	3,977,852	4,657,503	4,675,522
Community Facilities	4,254,155	8,672,325	5,666,342
Emergency Preparedness and Program Administration	1,936,698	1,181,250	738,823
Food & Nutrition	15,517,371	18,412,356	18,203,072
Total	25,686,076	32,923,434	29,283,758
Full-time Equivalents Total*	28.00	32.00	32.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Supporting Affordability and Livability Budget Summary Level:

Access to Services

The purpose of the Access to Services Program is to provide information and access to community resources that support affordability and livability, including utility payment assistance and vehicle license rebates to low income residents in the City of Seattle.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Access to Services	3,977,852	4,657,503	4,675,522
Full Time Equivalents Total	14.00	16.00	16.00

Community Facilities

The purpose of the Community Facilities Program is to support the construction of facilities that are primarily for the benefit of low-income people in Seattle, including childcare facilities.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Community Facilities	4,254,155	8,672,325	5,666,342

Emergency Preparedness and Program Administration

Human Services Department

This Budget Summary Level is being combined with the Affordability and Livability Budget Summary Level in the 2019 Budget.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Emergency Preparedness and Program Administration	1,936,698	1,181,250	738,823
Full Time Equivalents Total	3.00	3.00	3.00

Food & Nutrition

The purpose of the Food & Nutrition Program is to provide access to nutritious, affordable, and culturally relevant food and education to children in childcare programs and other settings, older adults, and individuals with low incomes.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Food & Nutrition	15,517,371	18,412,356	18,203,072
Full Time Equivalents Total	11.00	13.00	13.00

HSD - BO-HS-H2000 - Preparing Youth for Success

The purpose of the Preparing Youth for Success Budget Summary Level is to support programs that help youth succeed academically; learn job and life skills; and develop alternatives to criminal activity, violence, and homelessness.

Program Expenditures	2019	2020	2021
	Actuals	Adopted	Proposed
Family Support	5,087,618	6,186,955	6,759,892
Safety	5,662,075	7,217,195	-
Youth Development	8,202,884	8,207,827	7,378,209
Total	18,952,577	21,611,976	14,138,101

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle Information Technology Department.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Citywide Indirect Costs	642	-	-

Cost Pool

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Cost Pool	(301)	-	-

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This may include personnel costs related to department leadership and administration or other administrative costs such as external rent and operating supplies or services.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Departmental Indirect Costs	11,902,654	12,580,508	12,664,162
Full Time Equivalents Total	59.50	60.50	58.50

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Indirect program is to fund administrative costs generated by sub-departmental units such as costs related to divisional management or training. The Human Services Department budgets all divisional indirect costs within the direct service Budget Summary Level beginning in the 2019 budget.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Divisional Indirect Costs	65,041	-	-

Indirect Cost Recovery

Human Services Department

The purpose of the Indirect Cost Recovery program is to recover costs associated with indirect programs within Leadership and Administrative BSL from the department's direct cost programs. The Human Services Department will be discontinuing allocation of indirect costs to direct services in the 2019 budget.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Indirect Cost Recovery	(33,473)	-	-

Paid Time Off

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Paid Time Off	(6,399)	-	-

Pooled Benefits

The purpose of the Pooled Benefits program is to fund department costs associated with health and dental insurance, workers compensation, and unemployment insurance contributions.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Pooled Benefits	154	-	-

HSD - BO-HS-H6000 - Promoting Healthy Aging

The purpose of the Promoting Healthy Aging Budget Summary Level is to give older adults the ability to age in place and experience stable health. Programs provide a network of community support that improves choice, promotes independence, and enhances the quality of life for older people and adults with disabilities.

Program Expenditures	2019	2020	2021
	Actuals	Adopted	Proposed
Care Coordination	3,227,611	3,165,991	3,090,627
Case Management	27,988,972	34,347,107	36,188,281
Healthy Aging	11,118,698	11,009,234	10,983,144
Total	42,335,281	48,522,333	50,262,052
Full-time Equivalents Total*	202.00	202.00	202.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Promoting Healthy Aging Budget Summary Level:

Care Coordination

Human Services Department

The purpose of the Care Coordination Program is to support unpaid family caregivers with respite care and other services to enable them to continue caregiving.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Care Coordination	3,227,611	3,165,991	3,090,627
Full Time Equivalents Total	3.00	3.00	3.00

Case Management

The purpose of the Case Management Program is to support older adults and adults with disabilities with in-home services to enable them to live independently in the community.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Case Management	27,988,972	34,347,107	36,188,281
Full Time Equivalents Total	167.00	167.00	167.00

Healthy Aging

The purpose of the Healthy Aging Program is to provide older adults with resources and activities that promote social engagement and good health.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Healthy Aging	11,118,698	11,009,234	10,983,144
Full Time Equivalents Total	32.00	32.00	32.00

HSD - BO-HS-H7000 - Promoting Public Health

The purpose of the Promoting Public Health Budget Summary Level is to provide funds for public health services and programs, including primary care, medical, dental, and specialty services, and access to health insurance for at-risk and vulnerable populations; programs to provide access to chemical and dependency services; and programs to reduce the disparities in health among the Seattle population.

Program Expenditures	2019	2020	2021
	Actuals	Adopted	Proposed
HIV Management	986,759	1,065,966	1,033,313
Physical Health Care	10,045,359	10,853,786	11,180,684
Total	11,032,118	11,919,752	12,213,997

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Promoting Public Health Budget Summary Level:

Human Services Department

HIV Management

The purpose of the HIV Management Program is to support low-income individuals living with HIV with case management services to improve their quality of life and to provide education to prevent HIV transmission.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
HIV Management	986,759	1,065,966	1,033,313

Physical Health Care

The purpose of the Physical Health Care Program is to improve access to medical care and other health resources to vulnerable populations in Seattle including homeless individuals, families, and adults.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Physical Health Care	10,045,359	10,853,786	11,180,684

Office for Civil Rights

Mariko Lockhart, Director

(206) 684-4500

<http://www.seattle.gov/civilrights/>

Department Overview

The Office for Civil Rights (OCR) envisions a city of liberated people where community historically impacted by racism, oppression, and colonization hold power and thrive. OCR's mission is to end structural racism through accountable community relationships and anti-racist organizing, policy development, and civil rights enforcement.

OCR works to achieve equity and advance opportunity in Seattle by:

- developing policies and promoting partnerships to achieve racial equity and social justice;
- enforcing City, state and federal antidiscrimination in housing, employment, public accommodations, and contracting, and civil rights laws such as all-gender restroom ordinance, ban on conversion therapy provided to minors ordinance, fair chance housing ordinance, and closed captioning ordinance using restorative justice methods, investigations, compliance, and settlement negotiations;
- conducting housing and employment testing based on protected classes;
- staffing the Seattle Human Rights Commission, Seattle Women's Commission, Seattle Lesbian, Gay, Bisexual, Transgender, and Queer Commission, and the Seattle Commission for People with disAbilities;
- administering the Title VI program of the 1964 Civil Rights Act, which relates to physical access to governmental facilities, projects, and programs, and Title II complaints alleging discrimination on the basis of disability in the provision of services, activities, programs or benefits by the City;
- offering free civil rights trainings and technical assistance to businesses and community groups on civil rights laws; and
- making available a wide array of civil rights information, including translations into other languages.

OCR leads the City's Race and Social Justice Initiative (RSJI). RSJI is committed to eliminating institutional and structural racism through a four-prong approach: 1) build an anti-racist network within City government and shift internal practices and develop decision-making skills that eliminate institutional and structural racism; 2) transform the internal government culture of the City toward one rooted in racial justice, humanistic relationships, belonging and wellbeing; 3) align racial justice efforts with local community organizing and strengthen relationships with communities most impacted by structural racism; and 4) work in relationship with national and regional racial justice leaders from all communities and sectors to advance racial justice.

Budget Snapshot

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Office for Civil Rights

Budget Overview

The 2021 Proposed Budget adds staffing capacity to the Office for Civil Rights (OCR) to lead the Citywide Title VI compliance work and adds funding for the annual City Race and Social Justice (RSJ) Summit. The budget also includes one-time savings from holding an OCR leadership position vacant in 2021.

The City is projecting significant revenue losses due to COVID-19 and the resulting public health crisis. As a result, the budget includes reductions for most departments across the City. Because OCR is a small department with limited flexibility in its budget, and because of its key role in RSJ across the City, the reductions to OCR's budget are minimal and do not impact staffing or services. The details of the changes to OCR's budget are included in the Incremental Budget Changes section below.

Incremental Budget Changes

Office for Civil Rights

	2021 Budget	FTE
Total 2020 Adopted Budget	7,055,083	35.00
Baseline		
Annual Wage Increase (AWI) Title Specific	2,138	-
Space Lease Adjustment	40,206	-
Adjustment for One-Time Budget Changes	(1,042,596)	-
Baseline Adjustments for Personnel Costs	35,033	-
Proposed Operating		
One-time Leadership Savings	(168,000)	-
RSJ Summit	15,000	-
Title VI Compliance	77,547	0.50
Transfer Indigenous People's Day funding to DON	(32,000)	-
Proposed Technical		
Citywide Adjustments for Standard Cost Changes	(64,429)	-
Total Incremental Changes	\$(1,137,101)	0.50
Total 2021 Proposed Budget	\$5,917,982	35.50

Description of Incremental Budget Changes

Baseline

Annual Wage Increase (AWI) Title Specific

Expenditures \$2,138

Office for Civil Rights

This item includes annual wage increase (AWI) adjustments for Civil Rights Analyst positions.

Space Lease Adjustment

Expenditures	\$40,206
--------------	----------

This item includes space lease (rent) adjustments in 2021.

Adjustment for One-Time Budget Changes

Expenditures	\$(1,042,596)
--------------	---------------

This item includes budget adjustments for one-time changes in the 2020 Adopted Budget. As part of the 2020 Adopted Budget, the City Council added one-time funding of \$1.08 million for criminal justice grants. This item removes that one-time funding from the ongoing budget. OCR plans to make the criminal justice grant awards in late 2020 and spend the funding over a 2-year period. Additional funding for this program may be considered in the 2022 budget. This item also includes adjustments for two positions to reflect the annual cost in 2021 and removes one-time funding for criminal justice engagement.

Baseline Adjustments for Personnel Costs

Expenditures	\$35,033
--------------	----------

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime and temporary labor. There is no increase assumed from 2021 to 2022. This does not include a 2021 salary increase for non-represented Executives, Managers and Strategic Advisors.

Proposed Operating

One-time Leadership Savings

Expenditures	\$(168,000)
--------------	-------------

This item reflects one-time salary savings from holding the OCR Deputy Director position vacant until 2022.

RSJ Summit

Expenditures	\$15,000
--------------	----------

This item adds funding to OCR's budget for the City's annual Race and Social Justice (RSJ) Summit. Previously, OCR has received funding from the Office of Arts and Culture. The budget adds funding to OCR to ensure a stable funding source for this important work. The summit is open to both City employees and community members.

Title VI Compliance

Expenditures	\$77,547
Position Allocation	0.50

This item adds 0.5 FTE to OCR to implement, monitor, and ensure citywide compliance with Title VI federal grant requirements. Title VI of the Civil Rights Act of 1964 prohibits discrimination under any program or activity receiving federal financial assistance on the basis of race, national origin, and color. Over time, protected classes such as sex, age, and disability were added. Previously, OCR had a dedicated part-time position for Title VI compliance, but the position was abrogated in 2011, and work was reassigned to existing staff. Since then, staff have not had sufficient capacity to meet the demands of the work.

Office for Civil Rights

Transfer Indigenous People's Day funding to DON

Expenditures \$(32,000)

This item transfers funding for the Indigenous People's Day celebration from OCR to the Department of Neighborhoods (DON). This funding is more closely aligned with DON's line of business. The funding was added to OCR's budget in the 2017, 2019, and 2020 budgets to create a stable dedicated source of funding for the annual celebration. There is a corresponding increase in the DON budget to reflect the transfer.

Proposed Technical

Citywide Adjustments for Standard Cost Changes

Expenditures \$(64,429)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Expenditure Overview

	2019 Actuals	2020 Adopted	2021 Proposed
Appropriations			
OCR - BO-CR-X1R00 - Civil Rights			
00100 - General Fund	4,923,963	7,055,083	5,917,982
Total for BSL: BO-CR-X1R00	4,923,963	7,055,083	5,917,982
 Department Total	 4,923,963	 7,055,083	 5,917,982
 Department Full-Time Equivalents Total*	 31.00	 35.00	 35.50

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Office for Civil Rights

Appropriations by Budget Summary Level and Program

OCR - BO-CR-X1R00 - Civil Rights

The purpose of the Civil Rights Budget Summary Level is to encourage and promote equal access and opportunity, diverse participation, and social and economic equity in Seattle. OCR works to eliminate discrimination in employment, housing, public accommodations, contracting, and lending in Seattle through enforcement, and policy and outreach activities. In addition, OCR is responsible for directing the Race and Social Justice Initiative, which leads other City departments to design and implement programs that help eliminate institutionalized racism.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed

Seattle Department of Construction and Inspections

Nathan Torgelson, Director

(206) 684-8600

www.seattle.gov/sdc

Department Overview

The Seattle Department of Construction and Inspections (SDCI) administers City ordinances regulating building construction, the use of land, and housing. It supports Mayor Durkan's priority of delivering essential City services and building safer, more just communities.

SDCI is responsible for developing and enforcing policies and codes related to public safety, environmental protection, land use, construction and rental housing, including:

- Environmentally Critical Areas Ordinance (ECA)
- Housing and Building Maintenance Code (HBMC)
- Just Cause Eviction Ordinance
- Rental Registration and Inspection Ordinance (RRIO)
- Seattle Building and Residential Codes
- Seattle Condominium and Cooperative Conversion Ordinances
- Seattle Electrical Code
- Seattle Energy Code
- Seattle Grading Code
- Seattle Land Use Code
- Seattle Mechanical Code
- Seattle Noise Ordinance
- Seattle Rental Agreement Regulation Ordinance
- Seattle Shoreline Master Program (SSMP)
- Seattle Tenant Relocation Assistance Ordinance (TRAO)
- Seattle Tree Protection Ordinance
- State Environmental Policy Act (SEPA)
- Stormwater Code
- Side Sewer Code

SDCI reviews land use and construction-related permits, annually approving more than 53,000 permits and performing approximately 240,000 on-site inspections. SDCI's work includes permit review and community involvement with Master Use Permits (MUPs); shoreline permits and design review; review and approval of permits for construction, mechanical systems, site development, elevators, electrical installation, boilers, furnaces, refrigeration, signs and billboards; field inspections for all construction and trade-related permits; annual maintenance inspections of boilers, elevators, and refrigeration equipment; and home seismic retrofits.

SDCI also enforces compliance with the codes and handles more than 35,000 contacts per year at the Code Compliance Complaint Center.

SDCI operations are funded by a variety of fees and General Fund resources. SDCI must demonstrate that its fees are set to recover no more than the cost of related services. To provide this accountability, SDCI uses cost accounting to measure the full cost of its programs. Each program is allocated a share of departmental administration and other overhead costs to calculate the revenue requirements of the program.

Seattle Department of Construction and Inspections

Budget Snapshot

	2019 Actuals	2020 Adopted	2021 Proposed
Department Support			
General Fund Support	6,969,921	8,276,562	7,525,307
Other Funding - Operating	68,596,423	87,902,900	90,377,020
Total Operations	75,566,345	96,179,462	97,902,327
Total Appropriations	75,566,345	96,179,462	97,902,327

Full-Time Equivalents Total* 411.50 428.50 429.50

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

Despite economic impacts related to the COVID-19 pandemic which have lowered overall permitting volumes from the record levels of the past three years, the City of Seattle continues to see high-value large-scale development project applications in 2020. Because permitting activity continues to be relatively strong given economic conditions, the 2021 Proposed Budget continues to support 21 permitting positions that were scheduled to sunset on December 31, 2020. These positions will help SDCI continue to improve permit turnaround times, while also preparing "shovel ready" projects that will be able to begin construction once economic recovery occurs. These positions are funded by permit fees and other building and land use revenues.

Otherwise, the budget consists of modest funding reductions and budget shifts, most notably to fund a person to coordinate Sound Transit 3 permitting activities. The budget also includes ongoing funding for an electrical inspector that was previously funded only through 2021; this position is intended to ensure compliance with state electrical contractor licensing regulations.

Accela is the City's enterprise-wide permitting system that allows greater sharing between departments that are using the system, including SDCI, the Seattle Department of Transportation and the Seattle Fire Department. Improvements are being made throughout 2020 and are expected to continue in 2021 as the department continues to enhance the new system. SDCI's 2021 Proposed Budget includes the transfer of one Information Technology Professional from the Seattle Information Technology Department (Seattle IT) to SDCI to provide a dedicated resource for SDCI business-specific needs related to Accela.

Except for Code Compliance and Land Use Code Development, SDCI is primarily fee-supported and its fees and charges are necessary to fund its permitting and inspections operations. Per state law and Seattle Municipal Code, all fees collected by SDCI for processing and inspecting permits are used for that purpose, and the fee structure is established accordingly. The 2021 Proposed Budget aligns Construction and Inspections Fund revenues with current revenue forecasts which have been adjusted due to the COVID-19 public health crisis and its associated economic impacts. The department will use its reserves to mitigate the impacts of these revenue adjustments. The budget also adjusts revenues to align with budget legislation that reduces administrative electrical permit fees by 10% and equipment fees associated with refrigeration and furnace installations by 20% to align permit fee revenues with expenses.

Seattle Department of Construction and Inspections

Incremental Budget Changes

Seattle Department of Construction and Inspections

Total Incremental Changes	\$1,722,865	1.00
Total 2021 Proposed Budget	\$97,902,327	429.50

Description of Incremental Budget Changes

Baseline

Baseline Adjustments for Personnel Costs

Expenditures \$1,282,884

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime and temporary

Seattle Department of Construction and Inspections

labor. There is no increase assumed from 2021 to 2022. This does not include a 2021 salary increase for non-represented Executives, Managers and Strategic Advisors.

Information Technology Adjustment

Expenditures	\$249,968
--------------	-----------

This action aligns SDCI's budget for Information Technology billings so that the budget matches the Central Cost Manual (CCM). The funding source for this item is the Construction and Inspections Fund.

Overtime Adjustment

Expenditures	-
--------------	---

This budget-neutral item transfers \$50,000 of overtime budget from the Inspections BSL to the Permit Services BSL. This item aligns the budget with a restructuring of the Site Development group in 2018.

Credit Card Transaction Fee Adjustment

Expenditures	-
--------------	---

This action aligns the credit card transaction fee budget to the correct account in SDCI. This is a net-zero budget transfer.

Adjustment for One-Time Budget Changes

Expenditures	\$(758,890)
Revenues	\$(1,934,941)

This item includes budget adjustments for one-time changes in the 2020 Adopted Budget, including reductions of \$401,000 to purchase laptops, \$230,000 for eviction legal defense, \$60,000 to contract with community-based organizations, \$35,000 for a vehicle purchase, \$25,000 in one-time costs for the Accela permitting system, and \$7,000 for outreach materials.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$810,788
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Electrical Contractor Enforcement

Expenditures	-
--------------	---

This action adds \$136,143 of ongoing General Fund appropriation authority in 2022 to fund an electrical inspector position. This position was added to the 2020 budget by the City Council, but funding was only identified through 2021. The position is intended to enforce Washington State regulations related to electrical contractor licensing in the City of Seattle.

Sunset Position Extensions and Conversions

Seattle Department of Construction and Inspections

Position Allocation

-

This action extends the sunset dates of 14 Land Use Services and Inspections positions through 2022 and converts 7 Permit Services sunset positions to regular status. All of these positions were previously set to expire at the end of 2020. This action maintains staffing capacity to support the volume and complexity of permit reviews and inspections; it also decreases review times and addresses bottlenecks. These positions are funded by permit fees and the associated costs are included in the baseline budget.

Transfer SDCI Accela Resource from Seattle IT to SDCI

Expenditures \$179,764

Position Allocation 1.00

This action transfers ongoing budget and position authority for one Information Technology Professional-A (ITP-A) from the Seattle Information Technology Department (Seattle IT) to SDCI. This position requires in-depth knowledge of the SDCI business process workflow and its integration with Accela and is more appropriately housed in SDCI than in Seattle IT. There is a corresponding decrease in the proposed Seattle IT budget. The funding source is SDCI's Construction and Inspections Fund.

Fee Legislation Revenue Change

Revenues \$(430,000)

This action reduces Construction and Inspections Fund revenues based on proposed budget legislation. This permit fee legislation includes a 10% reduction to the administrative fee for electrical permits as well a 20% reduction to the equipment fee for refrigeration and furnace installations. SDCI reviews its fees annually and adjusts permit fees to align with actual expenses to administer and support the permits.

General Fund Reduction - Government Policy, Safety and Support (GPSS)

Expenditures \$(45,282)

This item reduces the remaining discretionary budget in Code Development and reallocates a Planning and Development Specialist, Senior position. This position reallocation will shift costs from the General Fund to the Construction and Inspections Fund and the position will be reclassified to a Strategic Advisor 2, General Government. This position will serve as the department lead and liaison for the Sound Transit 3 (ST3) project. This action also transfers budget associated with a reorganization of the Public Disclosure work group from the General Fund to the Construction and Inspections Fund.

General Fund Reduction - Code Compliance

Expenditures \$(54,794)

SDCI is reallocating one Housing/Zoning Technician position in Code Compliance that is funded by the General Fund. This position is moving to the Inspections program where the position will be funded by permit fees and reclassified to an Elevator Inspector Senior. The City needs an additional Elevator Inspector because approximately 1500 new conveyances have been installed in Seattle since 2015; this equipment requires annual inspections to maintain safety. This action also eliminates \$88,405 of discretionary non-labor General Fund budget in Code Compliance.

General Fund Reduction - Inspections

Expenditures -

This ongoing action reduces the Inspections Program's General Fund budget by \$32,178 and increases the Construction and Inspections Fund appropriation authority by the same amount. This shift of labor costs is due to a decrease in non-violation inspections.

Seattle Department of Construction and Inspections

General Fund Reduction - Land Use

Expenditures \$(13,277)

This ongoing item eliminates the General Fund portion of the Land Use temporary labor budget and shifts a portion of the Land Use labor allocations from the General Fund to the Construction and Inspections Fund. SDCI Land Use division's support of General Funded new code review has declined over the years and therefore there are no significant impacts anticipated from this reduction.

Proposed Technical

Overhead Technical Adjustment

Expenditures \$71,704

This action adjusts the distribution of indirect overhead expenses across programs. This adjustment is necessary to account for budget changes in the following SDCI budget programs: Compliance; Government Policy Safety & Support; Indirect Cost Recovery Offset; Inspections; Land Use Services; Permit Services; and Rental Housing. The adjustment is also necessary to redistribute indirect overhead across SDCI programs in response to proposed changes throughout the department as included in SDCI's 2021 Proposed Budget. This change results in a \$152,000 increase in General Fund and a corresponding decrease in the Construction and Inspections Fund.

SDCI Revenue Budget Update

Revenues \$(13,620,167)

This action adjusts Construction and Inspections Fund revenues to align with current revenue forecasts. The forecasts have been updated due to the COVID-19 crisis and other economic conditions.

Balancing for SDCI Fund Balance

Revenues \$18,234,227

This is a technical item to balance revenues and expenditures for the Construction and Inspections Fund.

Seattle Department of Construction and Inspections

Appropriations by Budget Summary Level and Program

SDCI - BO-CI-U2200 - Land Use Services

The purpose of the Land Use Services Budget Summary Level is to provide land use permitting services.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Land Use Services	17,107,829	21,979,865	22,603,024
Land Use Services CBA	-	1,672,241	1,672,241
Total	17,107,829	23,652,106	24,275,265
Full-time Equivalents Total*	86.00	99.00	99.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Land Use Services Budget Summary Level:

Land Use Services

The purpose of the Land Use Services Program is to provide land use permitting services to project applicants, City of Seattle departments, public agencies, and residents. Land Use staff provide permit process information and regulatory expertise to inform pre-application construction project design. Land Use staff also review development concepts as part of a developer's permit application. The Land Use review process includes eliciting public input and facilitating public meetings and design review board meetings. It may also include coordination with various city and county agencies, defending project decisions during appeal to the Hearing Examiner or coordinating the department recommendation for a development application through the City Council approval process. These services are intended to ensure that development proposals are reviewed in a fair, reasonable, efficient, and predictable manner, and to ensure that the plans substantially comply with applicable codes, legal requirements, policies, and community design standards.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Land Use Services	17,107,829	21,979,865	22,603,024
Full Time Equivalents Total	86.00	99.00	99.00

Land Use Services CBA

The purpose of the Land Use Services CBA Program is to display the amount of unallocated Contingent Budget Authority (CBA) in the Land Use Services BSL that has not been accessed. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Land Use Services CBA	-	1,672,241	1,672,241

Seattle Department of Construction and Inspections

SDCI - BO-CI-U2300 - Permit Services

The purpose of the Permit Services Budget Summary Level is to facilitate the review of development plans and processing of permits.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Permit Services	21,543,557	24,756,782	25,409,275
Permit Services CBA	-	3,666,136	3,666,136
Total	21,543,557	28,422,917	29,075,410
Full-time Equivalents Total*	103.00	105.00	105.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Permit Services Budget Summary Level:

Permit Services

The purpose of the Permit Services Program is to facilitate the review of development plans and processing of permits.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Permit Services	21,543,557	24,756,782	25,409,275
Full Time Equivalents Total	103.00	105.00	105.00

Permit Services CBA

The purpose of the Permit Services CBA Program is to display the amount of unallocated Contingent Budget Authority (CBA) in the Permit Services BSL that has not been accessed for construction plan review and peer review contracts. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Permit Services CBA	-	3,666,136	3,666,136

SDCI - BO-CI-U23A0 - Inspections

The purpose of the Inspections Budget Summary Level is to provide on-site inspections of property under development, inspections of mechanical equipment at installation and on an annual or biennial cycle, and certification of installers and mechanics.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Inspections	21,069,562	22,825,122	23,914,754

Seattle Department of Construction and Inspections

Inspections Services CBA	-	2,726,100	2,726,100
Total	21,069,562	25,551,222	26,640,854
Full-time Equivalents Total*	103.00	104.00	104.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Inspections Budget Summary Level:

Inspections

The purpose of the Inspections Program is to provide timely on-site inspections of property under development at predetermined stages of construction; work closely with project architects, engineers, developers, contractors, and other City of Seattle departments to approve projects as substantially complying with applicable City codes, ordinances, and approved plans; and to issue final approvals for occupancy.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Inspections	21,069,562	22,825,122	23,914,754
Full Time Equivalents Total	103.00	104.00	104.00

Inspections Services CBA

The purpose of the Inspections Services CBA Program is to display the amount of Contingent Budget Authority (CBA) that has not been accessed within the Inspections BCL for construction inspections and electrical inspections with plan review. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Inspections Services CBA	-	2,726,100	2,726,100

SDCI - BO-CI-U2400 - Compliance

The purpose of the Compliance Budget Summary Level is to ensure land and buildings are developed, used and maintained according to applicable code standards, reduce deterioration of structures and properties, enforce tenant protections, and support outreach and education for landlords and tenants in coordination with other departments and community organizations.

Program Expenditures	2019	2020	2021
	Actuals	Adopted	Proposed
Compliance	-	-	8,315,855
Compliance	7,280,669	8,492,156	-
Rental Housing	-	-	2,160,668
Rental Housing	1,693,324	2,124,557	-
Total	8,973,994	10,616,713	10,476,523
Full-time Equivalents Total*	50.50	51.50	51.50

Seattle Department of Construction and Inspections

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Compliance Budget Summary Level:

Compliance

The purpose of the Compliance Program is to investigate and respond to violations of code standards for the development, use, maintenance, and management of land and buildings, facilitate compliance by property owners and other responsible parties, pursue enforcement actions against violators through the legal system, reduce the deterioration of structures and properties to reduce blight, and manage the adoption of administrative rules and response to claims. The program also supports outreach and education for landlords and tenants, working in coordination with other departments and community organizations.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Compliance	7,280,669	8,492,156	8,315,855
Full Time Equivalents Total	37.50	38.50	38.50

Rental Housing

The purpose of the Rental Housing Program is to improve the quality of the rental housing stock in Seattle and investigate and respond to violations of tenant protection regulations. By registering and inspecting all rental housing properties the program helps ensure key life, health and safety standards are met. The program provides assistance to property owners and tenants regarding relocation assistance, just cause eviction, and other duties and responsibilities of owners and tenants.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Rental Housing	1,693,324	2,124,557	2,160,668
Full Time Equivalents Total	13.00	13.00	13.00

SDCI - BO-CI-U2500 - Leadership and Administration

The purpose of the Leadership & Administration Budget Summary Level is to lead and direct department employees, provide policy guidance, and oversee relationships with the community.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Citywide Indirect Costs	36,483	22,090,564	23,382,591
Departmental Indirect Costs	-	-	4,068,703
Departmental Indirect Costs	(12,012)	3,813,536	-
Divisional Indirect Costs	23,320	2,783,467	2,951,440
Indirect Cost Recovery Offset	-	(28,658,332)	(30,402,734)
Total	47,792	29,235	-

Seattle Department of Construction and Inspections

Full-time Equivalents Total*	59.00	59.00	59.00
*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here			

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs Program is to collect and allocate departmental central costs such as pooled costs, paid-time-off, and other City central costs. The costs in this program are allocated to all department programs except the Contingent Budget Authority (CBA) Programs, the Process Improvements & Technology (PI&T) Program, and other programs in Leadership and Administration.

	2019 Actuals	2020 Adopted	2021 Proposed
Expenditures/FTE			
Citywide Indirect Costs	36,483	22,090,564	23,382,591

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs Program is to lead and support department employees; provide policy guidance and financial stewardship; manage the public disclosure of documents; and oversee relationships with the community, government agencies, and the media. The costs in this program are allocated to all department programs except the Contingent Budget Authority (CBA) Programs, the Process Improvements & Technology (PI&T) Program, and other programs in Leadership and Administration.

	2019 Actuals	2020 Adopted	2021 Proposed
Expenditures/FTE			
Departmental Indirect Costs	(12,012)	3,813,536	4,068,703
Full Time Equivalents Total	32.00	32.00	32.00

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Program is to provide support functions for SDCI's primarily fee funded programs: Land Use Services, Permit Services, Inspections; and for the fee-funded portion of the Government Policy, Safety and Support Program. The costs in this program are allocated only to the programs described above.

	2019 Actuals	2020 Adopted	2021 Proposed
Expenditures/FTE			
Divisional Indirect Costs	23,320	2,783,467	2,951,440
Full Time Equivalents Total	27.00	27.00	27.00

Indirect Cost Recovery Offset

Seattle Department of Construction and Inspections

The purpose of the Indirect Cost Recovery Offset Program is to offset the proportionate share of Citywide Indirect Costs, Departmental Indirect Costs, and Divisional Indirect Costs that allocate to the department's other Budget Summary Level programs as overhead. It is necessary to offset the full cost of indirect cost programs to calculate the budget appropriation and revenue requirements of the related programs.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Indirect Cost Recovery Offset	-	(28,658,332)	(30,402,734)

SDCI - BO-CI-U2600 - Government Policy, Safety & Support

The purpose of the Government Policy, Safety & Support Budget Summary Level is to develop and update land use code and technical code regulations, and provide appropriate support for disaster preparation, mitigation, response, and recovery services.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Govt Policy, Safety & Support	2,265,666	2,754,259	2,275,989
Total	2,265,666	2,754,259	2,275,989
Full-time Equivalents Total*	10.00	10.00	10.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDCI - BO-CI-U2800 - Process Improvements & Technology

The purpose of the Process Improvements and Technology Budget Summary Level is to allow the department to plan and implement continuous improvements to its business processes, including related staff training and equipment purchases. The purpose includes ensuring the Department's major technology investments are maintained, upgraded, or replaced when necessary.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Process Improvements and Tech	4,557,944	5,153,009	5,158,285
Total	4,557,944	5,153,009	5,158,285
Full-time Equivalents Total*	-	-	1.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Office of Economic Development

Bobby Lee, Director

(206) 684-8090

www.seattle.gov/economicdevelopment

Department Overview

The Office of Economic Development (OED) seeks to foster an inclusive economy that grows family-wage jobs and increases wealth among underserved communities. OED promotes shared prosperity for all Seattleites, economic growth that is equitable, robust, and enduring. OED supports a healthy business environment for underserved populations, empowers entrepreneurs to innovate, grow and compete, while at the same time supporting low-income Seattle residents to develop their talent towards viable career paths. In addition, with the Mayor's support an in recognition of a changing economy, OED has focused attention on developing and rolling out an Inclusive Creative Industries (ICI) program an economic priority, a strategy to support diverse creative industries and diversify creative industries that historically have not been diverse. Holistically, OED invests in four primary program areas all targeting underserved populations: supporting entrepreneurs; building healthy and vibrant neighborhood business districts; developing the talent of youth and adults; and partnering with key industry sectors. The core services OED provides capitalize on Seattle's economic strengths, particularly in the industry areas of manufacturing and maritime, technology, startups, restaurants, health care, life sciences and global health, clean technology, and the creative economy. To accomplish this mission, the office delivers services designed to:

- support the retention and growth of local small businesses owned by underserved populations through technical assistance, access to capital, affordable commercial space, mentorship and marketing;
- increase the number of low-income youth and adults who obtain the skills necessary to meet industry's needs for qualified workers by building collaborations with community-based organizations in the service of youth and providing Career Connected Learning Grants to support youth career readiness;
- support neighborhood business districts through direct funding, technical support and Business Improvement Area (BIA) formation;
- streamline and advance policies and practices and develop partnerships that lead to sustainable economic growth with shared prosperity;
- support inclusive creative economic development programs and strategies that support small business workforce development, industry advocacy, logistics support including permit coordination, and neighborhood initiatives;
- attract and establish new business via domestic and international investments; and
- support special events through advocacy and permit coordination to encourage and maximize positive business, economic, and cultural activity while ensuring public safety.

In addition to these services, OED manages many financing programs to increase access to capital for projects from micro-loans to major capital lending. Among these financing tools are three federal programs: 1) Individual Development Accounts (IDAs), a matched savings program in which the City provides Community Development Block Grant funds to low-income owned businesses that demonstrate savings and take business training courses; 2) New Markets Tax Credits (NMTC) which leverage private investment in low-income communities through federal tax incentives; and 3) U.S. Department of Housing and Urban Development (HUD) Section 108 loans which provide financing for economic development projects benefiting low and middle-income individuals.

Budget Overview

The COVID-19 pandemic brought unprecedented changes to our community and economy in 2020. The Office of Economic Development (OED) played a leading role in the emergency response efforts to support both businesses and workers to navigate the impacts of the pandemic with a focus on stabilizing those most impacted by the recession. OED will continue to provide emergency support to employers and employees navigating unemployment, safe reopening and small business stabilization, while simultaneously planning for long term recovery and economic stability. OED will build on work began in 2020 to lead a just transition with an Inclusive Economic Agenda by focusing on building self-sufficiency and creating new opportunities for employment, family-wage jobs and community wealth creation, and capacity-building for neighborhood resilience in the face of displacement.

The City is projecting significant revenue losses due to COVID-19 pandemic and the resulting public health crisis and business closures. As a result, the 2021 Proposed Budget includes reductions for most departments across the City. Because of OED's leading role in economic stability and recovery, minor reductions were made while maintaining critical capacity for new and existing programs. The 2021 Proposed Budget includes new allocations to the Small Business Stabilization Fund (SBSF), including the use of temporary staff to implement this new work. To help support that balancing of the City's budget, OED reduced or eliminated workforce development contracts through priority ordering to maintain funding for organizations serving those who will be most impacted by the economic recession. OED also strategically reduced staff in nightlife advocacy, key industry coordination and performance evaluation. These reductions allowed OED to redirect partial resources to support core department needs and achieve overall savings.

Description of Incremental Budget Changes

Joint COVID-19 Relief Plan

Expenditures	\$3,000,000
Revenues	\$1,000,000

As part of the 2020 budget, the Mayor and City Council have invested \$233 million in COVID-19 relief programs. To further address community needs, an additional \$45 million will be invested from the City reserves and other funding sources, with approximately half appropriated in 2020 and the remainder in 2021. The investments will be distributed according to a spending plan, which includes assistance to small business, childcare, individuals experiencing homelessness or at risk of losing their home, people experiencing food insecurity, and immigrants and refugees.

In late 2020, an additional \$5.7 million was provided to the Office of Economic Development (OED) for grants to small businesses throughout Seattle through the Small Business Stabilization Fund (SBSF). Roughly \$2.5 million in grants were awarded in 2020 through this funding source and an additional \$200,000 was available for technical

Office of Economic Development

assistance. The remaining \$ 3 million will be awarded through small business stabilization grants in 2021. This brings the total investment from 2020-2021 in SBSF to over \$9.8 million, supporting close to 1000 businesses.

Nightlife Industry Staffing Reduction & Special Events Funding Swap

Expenditures	\$(97,755)
Position Allocation	(1.00)

The item eliminates the Nightlife Business Advocate position (Strategic Advisor 2). Savings of \$98,000 will be realized in the budget. The remaining \$58,000 from this position elimination will be used to offset a 2021 proposed Arts Admission Tax reduction to OED. This funding currently supports OED's Special Events Lead (Strategic Advisor 1). Small businesses supported by the promotion and advocacy of nightlife through this position will continue to be supported by OED's existing programs and staffing.

Key Industries Director Position Reduction

Expenditures	\$(184,824)
Position Allocation	(1.00)

This item eliminates OED's Director of its Key Industry Team to generate \$185,000 in salary/benefits savings. To accomplish this reduction and mitigate its impacts on the team, management from other OED teams will absorb the remaining industry team members into their respective teams. Staff will maintain the industry support and focus on youth of color employment and BIPOC-owned small businesses engagement. The existing key industry team will continue to support the inclusive growth of the City's key industry sectors.

Leadership Staffing & Program Reductions

Expenditures	\$(152,954)
Position Allocation	(1.00)

This item eliminates the Strategy and Performance Advisor in the Economic Development Leadership program and generates a savings of \$153,000. In addition, \$30,000 in consultant budget that helps fund OED's research capacity is reallocated to fund its existing staffing budget.

Two performance analyst positions remain at OED to mitigate the impact of Strategy and Performance Advisor reduction.

Workforce Development Program Contract Reductions

Expenditures	\$(123,142)
--------------	-------------

OED proposes to reduce and/or eliminate funding for existing Workforce Development contracts by (\$413,000) to achieve savings and support an internal OED budget reallocation. This cut would be accomplished by eliminating a contract with PortJobs (\$50,000) and reducing the Seattle Jobs Initiative (SJI) contract by \$363,345. The reduction to the SJI contract leaves \$1.45 million available to support that work. About two-thirds of this reduction will be reallocated internally to address budget shortfalls to meet current staffing levels.

Operations Funding Reductions & Reallocations

Expenditures	-
--------------	---

This item reallocates \$36,000 previously budgeted to support OED's general operations to help offset 2021 ongoing staffing costs currently not supported by OED's ongoing budget. To achieve this reduction, OED proposes to limit sponsorship of professional and community events, limit professional development opportunities for staff, reduce motor pool use, and cut technology and equipment purchases.

Office of Economic Development

Citywide Adjustments for Standard Cost Changes

Expenditures	\$119,414
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures	\$16,138
--------------	----------

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime, and temporary labor. There is no increase assumed from 2021 to 2022.

Adjustment for One-Time Budget Changes

Expenditures	\$(260,000)
--------------	-------------

This item includes budget adjustments for one-time changes in the 2020 Adopted Budget for the Seattle Vocational Instituted and a study of local employment dependent on fossil fuels.

Revenue Update

Revenues	-
----------	---

This change reflects updates to baseline revenues from the August revenue forecast.

CDBG True Up

Expenditures	\$(4,988)
--------------	-----------

Revenues	-
----------	---

Special Events Revenue Decrease Projection

Revenues	\$(693,000)
----------	-------------

Due to the impacts of the COVID-19 pandemic, large gatherings have been banned, dramatically decreasing Special Event Fee revenues in 2020. Year-to-date 2020 collections total approximately \$46,000 as compared to the proposed \$1.16 million. OED anticipates a \$(693,000) decrease in 2021 for a total of \$467,000 in fees. This projection assumes that special events will slowly be allowed to be held in accordance with Washington's Safe Start recovery plan, that events will tend to attract fewer participants and that fewer events will be held. This 2021 projection is based on calculating a percentage of the fees collected in 2018 will be collected again in 2021. (2018 data was used due a lack of detailed data from 2019 from SPD and given that 2018 SE revenues were almost identical to 2019.) OED assumes the following to project 2021 fees: of 2018 fees, no fees will be collected in Q1, 25% of 2018 fees in Q2, 50% of Q3 fees, and 75% of Q4 fees. OED also assumed that the base fee of \$275.00 will remain in place and will be collected for events that otherwise would generate lower fees than this base amount.

Adjust to Recog 2020 Arts Transfers

Office of Economic Development

Revenues \$(177,000)

This is a technical adjustment which recognizes the change in revenue received from the Office of Arts & Culture first adopted via the 2020 Adopted Budget.

Recog Special Events Lead Ad Tax funding from 2020

Revenues \$116,291

In the Council phase of 2020 Budget development, Council added \$116,291 in Admissions Tax revenue to fund a new Strategic Advisor (1 FTE) to lead Special Events. This technical change properly recognizes this revenue change at OED.

Arts Admission Tax Reduction

Revenues \$(58,000)

The Office of Arts & Culture (Arts) proposes to provide OED \$58,000 less in funding to back OED's Special Events Lead position which was first funded by Arts in 2020. This reduction is necessary due to decreases in projected Admission Tax.

Office of Hearing Examiner

Ryan Vancil, Hearing Examiner

(206) 684-0521

<http://www.seattle.gov/examiner/>

Department Overview

The Office of Hearing Examiner is Seattle's quasi-judicial forum for reviewing factual and legal issues raised by the application of City Code requirements to specific people or property. As authorized by the Seattle Municipal Code, the office conducts hearings and decides appeals in cases where members of the public disagree with a decision made by a City agency. Many of the matters appealed to the Hearing Examiner relate to land use and environmental permit decisions and interpretations made by the Seattle Department of Construction and Inspections. The Hearing Examiner also hears appeals in many other subject areas, and makes recommendations to the City Council on rezone petitions, major institution master plans, and other Council land-use actions.

The Hearing Examiner is appointed by the City Council, and Deputy Hearing Examiners are appointed by the Hearing Examiner. Examiners handle all pre-hearing matters, regulate the conduct of hearings, and prepare decisions and recommendations based upon the hearing record and applicable law. The Seattle Municipal Code requires all examiners to be attorneys with training and experience in administrative hearings. The Hearing Examiner also manages an executive assistant to oversee the administrative areas of the office, a legal assistant to assist with hearings and decision preparation, and an administrative specialist to support all other office positions and provide information to the public.

Budget Overview

The 2021 Proposed Budget maintains support to the Office of Hearing Examiner (HXM) and preserves the services provided by the Hearing Examiner to members of the public and the City Council. Technical adjustments have been made to bring the proposed budget into alignment with an Annual Wage Increase, and other citywide adjustments to internal service costs.

The City is projecting significant revenue losses due to COVID-19 and the resulting public health crisis. As a result, the budget includes reductions for most departments across the City. Because HXM is a small department with limited flexibility in its budget, the reductions to HXM's budget are minimal and do not impact staffing or services. The details of the changes to HXM's budget are included in the Incremental Budget Changes section below.

Office of Housing

Emily Alvarado, Director

(206) 684-3727

<http://www.seattle.gov/housing/>

Department Overview

The mission of the Office of Housing (OH) is to build strong healthy communities and increase opportunities for people of all income levels to live in our city. To accomplish this mission, OH has three Budget Summary Levels:

- Multifamily Housing;
- Homeownership and Sustainability; and
- Leadership and Administration.

Multifamily Housing employs the Housing Levy and other federal and local funding to make low-interest loans to developers to develop or preserve affordable multifamily rental housing. OH monitors the housing portfolio to ensure that the policy objectives of the City are achieved and the units remain in good condition. The portfolio now includes 16,800 units, representing a significant investment of City and other funding in affordable housing over 35 years.

Homeownership and Sustainability includes three programs to assist low-income households:

- The **Home Ownership Program** supports first-time homebuyers and existing low-income homeowners through down payment assistance loans, subsidies for permanently affordable homes, and foreclosure prevention loans.
- The **Home Repair Program** provides grants or no- to low-interest loans to assist with critical home repairs.
- The **Weatherization Program** provides grants to increase energy efficiency and lower utility costs for low-income residents in both single-family and multifamily properties.

Leadership and Administration provides centralized leadership, coordination, technology, contracting, and financial management services to OH programs and capital projects. This includes the Policy and Planning program that establishes long-term strategic plans, develops and implements policy-based tools, and addresses housing-related aspects of citywide land use and community development planning.

Office of Housing

Budget Overview

The budget of the Office of Housing (OH) is primarily supported by the 2016 Housing Levy, the Mandatory Housing Affordability program, and federal and state grants. Funding policies for the Housing Levy are detailed in the Levy Administrative and Financial Plan, adopted by Council through a separate process.

In 2021, the Office of Housing continues to use new resources passed in 2019 and 2020 to invest in affordable housing projects in partnership with developers across the city. The 2021 Proposed Budget is a reflection of the technical changes necessary to advance these investments and provide operating and maintenance subsidies as new buildings complete construction.

In December 2019, OH made a historic investment of \$110 million to create 1,944 new affordable homes across Seattle – the largest number of affordable homes ever funded in a single year in Seattle’s history. These funds support the construction of thirteen new buildings, serving a range of communities, including seniors, low-wage workers and families, and people experiencing homelessness. Several of these new affordable housing buildings also include spaces that benefit both residents and neighbors, such as childcare, a senior health center, and community gathering spaces. OH continues to work with affordable housing developers to complete all 13 projects and prepare them for affordable residency.

In August 2020, the Office of Housing committed approximately \$60 million from the Seattle Housing Levy to invest in 600 new units of permanent supportive housing, a proven long-term solution to homelessness and urgent need during the COVID-19 public health crisis. This funding supports an innovative and accelerated approach to creating permanent supportive housing, with new homes ready for residents to move in by the end of 2021. The 2021 Adopted Budget prepares OH to support these new units with Operating and Maintenance Subsidies upon their completion.

The economic recession caused by the novel coronavirus disease has caused revenues to decline that have resulted in budget reductions across all city departments. The Office of Housing has strategically shifted away from use of General Fund resources in order to continue significantly investing in affordable housing projects. The public health crisis and subsequent economic recession will have far reaching impact on Seattle residents and an adequate supply of affordable housing will play a critical role in Seattle’s economic recovery. With the support of the Mayor and the City Council, additional emergency funding has been provided for Seattle residents for mortgage counseling and foreclosure avoidance in 2021. These programs are designed to increase housing stability for Seattle residents most impacted by the public health crisis and resulting economic recession.

Total 2021 Proposed Budget	\$81,986,305	46.00

Description of Incremental Budget Changes

Joint COVID-19 Relief Plan

Expenditures \$350,000

As part of the 2020 Revised Budget, the Mayor and City Council have invested \$233 million in COVID-19 relief programs. To further address community needs, an additional \$45 million will be invested from the City reserves and other funding sources, with approximately half appropriated in 2020 and the remainder in 2021. The investments will be distributed according to a spending plan, which includes assistance to small business, childcare, individuals experiencing homelessness or at risk of losing their home, people experiencing food insecurity, and immigrants and refugees.

In the Office of Housing \$350,000 is included for 2021 for mortgage counseling and foreclosure prevention. Funding will build off two successful existing programs that serve these functions and will be expanded using these additional resources.

Office of Housing

Transfer REET Revenue to OH

Revenues \$5,000,000

This item reflects the transfer of Real Estate Excise Tax (REET) II funds into the Low-Income Housing Fund (16400) as planned for in the 2020 Adopted Budget. The 2020 Adopted Budget directed the Office of Housing to commit \$25 million to Multifamily capital projects which would be reimbursed by REET II revenues in the amount of \$5 million annually from 2021 through 2025. This item adds \$5 million of revenues out of the REET II fund for the transfer to the Office of Housing.

General Fund Reduction

Expenditures -

This net-zero change swaps all of the General Fund in OH with other OH revenues, thus generating savings for the General Fund. This item supports City budget rebalancing efforts due to declining General Fund revenues during the current economic recession.

O&M Authority Update

Expenditures \$738,000

This item provides OH with the appropriation authority necessary to provide operating and maintenance (O&M) subsidies to new projects that are ready for occupancy. The policy decisions related to these subsidies have been approved in previous actions and have no corresponding revenue changes. This authority adjustment has two components:

- Projects built with funding from the 2016 Levy represent \$738,000 in 2021 and \$767,520 in 2022. This authority will be budgeted in the 2016 Levy O&M fund.
- Projects built with funding from Local Option Sales Tax capital will not be ready until mid-2022, and therefore represent \$1.25 million in 2022. This authority will be budgeted in the new Local Option O&M fund.

Create Fund 16421

This item creates a new fund (16421) for accounting purposes related to new tax revenue passed in the 2020 Adopted Budget. Fund 16421 will track the portion of the Local Option Sales Tax revenue reserved for operating and maintenance (O&M) subsidies for affordable housing projects.

OH Fund Balancing

Revenues \$(12,544,290)

This is a technical item to balance revenues and expenditures for the Funds managed by this department.

Adjustment for One-Time Budget Changes

Expenditures \$(49,039,531)

Revenues \$(19,304,952)

This item includes budget adjustments for one-time changes in the 2020 Adopted Budget. The one-time 2020 expenditures are primarily related to Mercer property proceeds and the Local Options Sales Tax. These investments included funding to create permanently affordable home ownership opportunities and affordable rental units.

Office of Housing

Net-Zero BSL Shift of Personnel Expenses

Expenditures -

This net-zero adjustment shifts personnel costs from one Budget Summary Level to another, in order to reflect minor internal staffing shifts implemented in 2020.

Citywide Adjustments for Standard Cost Changes

Expenditures \$131,045

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Corrections from 2019 Adds

Expenditures \$(250,000)

This action removes two one-time budget additions made in the 2019 Adopted Budget that were relevant for both 2019 and 2020:

- \$50,000 of authority to use fund balance for outreach and engagement
- \$200,000 of General Fund for the Home and Hope contract

Baseline CCM True-Up

Expenditures \$8,784

This action is a true-up of minor discrepancies to align with central department costs

Baseline Adjustments for Personnel Costs

Expenditures \$101,708

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime and temporary labor. There is no increase assumed from 2021 to 2022. This does not include a 2021 salary increase for non-represented Executives, Managers and Strategic Advisors.

CDBG True Up

Expenditures \$(704,540)

Revenues \$(679,306)

Proposed Technical

Updates to Office of Housing Revenues

Revenues \$3,771,638

This item revises revenues in the Office of Housing Funds (16400 and 16600) to reflect updated projections for the 2021 Budget.

Office of Immigrant and Refugee Affairs

Cuc Vu, Director

(206) 233-3886

www.seattle.gov/iandraffairs

Department Overview

The mission of the Office of Immigrant and Refugee Affairs (OIRA) is to improve the lives of Seattle's immigrant and refugee families. OIRA works to strengthen immigrant and refugee communities by engaging them in decisions about the City of Seattle's future and improving the City's programs and services to meet their needs.

OIRA collaborates with the City of Seattle Immigrant and Refugee Commission, community partners, government agencies, faith-based institutions, the private sector, and City departments to achieve our mission. According to the 2018 American Community Survey 5-Year Estimates Data Profiles, immigrants and refugees comprise approximately 18.5 percent of Seattle's population. Today, the immigrant population has likely grown, as recent Census Bureau data shows that one in four (more than half a million) King County residents is foreign-born, increasing diversity in the region.

OIRA is dedicated to supporting the City's Race and Social Justice Initiative by consistently using the racial equity toolkit analysis, operationalizing racial equity in our workplans, and engaging directly with immigrant and refugee communities.

Budget Snapshot

	2019 Actuals	2020 Adopted	2021 Proposed
Department Support			
General Fund Support	4,374,367	4,379,420	3,674,854
Total Operations	4,374,367	4,379,420	3,674,854
Total Appropriations	4,374,367	4,379,420	3,674,854
Full-Time Equivalents Total*	9.50	9.50	9.50

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

Faced with the deepest recession since the Great Depression, the 2021 Proposed Budget seeks to maintain support for vulnerable communities such as Seattle's immigrant and refugee communities while reducing spending to meet the fiscal challenge. Funding for important immigrant assistance programs like the Legal Defense Fund, the New Citizen Campaign, the New Citizen Program, and Ready to Work will be maintained in full.

Because the Immigrant Family Institute (IFI) is based on in-person gatherings of more than 50 participants, OIRA is unable to offer the program due to COVID-19 restrictions. The 2021 Proposed Budget temporarily suspends the IFI until public health guidelines allow indoor gatherings of more than 50 people.

Total Incremental Changes	\$(704,566)	-
Total 2021 Proposed Budget	\$3,674,854	9.50

Description of Incremental Budget Changes

Baseline

Adjustment for One-Time Budget Changes

Expenditures \$(615,000)

This item includes budget adjustments for one-time changes in the 2020 Adopted Budget: \$375,000 for Rapid Response activities against the federal administration's anti-immigrant policies, \$50,000 for Deferred Action for Childhood Arrivals and Temporary Protected Status scholarships, and \$190,000 for the Legal Defense Network.

Baseline Adjustments for Personnel Costs

Expenditures \$3,163

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime and temporary labor. There is no increase assumed from 2021 to 2022. This does not include a 2021 salary increase for non-represented Executives, Managers and Strategic Advisors.

Office of Immigrant and Refugee Affairs

Proposed Operating

Reduction of Funding of Immigrant Family Institute

Expenditures	\$(70,000)
--------------	------------

This item eliminates funding on a one-time basis for the Immigrant Family Institute (IFI) in 2021. IFI is an 8-week program that brings together immigrant youth, their parents/guardians, and Seattle police officers to learn from each other. It is unlikely that the City could offer the IFI program in 2021 due to COVID-19 related public health measures; remote sessions would be much less effective than in-person, trauma-informed, facilitated sessions in bridging understanding between the groups and among the participants individually. OIRA is retaining the staff position that manages IFI. This position primarily supports community outreach and engagement and was expanded to support language access related to the City's COVID-19 response work. The position also supports OIRA's participation in digital literacy work, the Immigrant and Refugee Commission, and community outreach across projects and departments.

Ready to Work Funding Swap

Expenditures	-
Revenues	\$250,200

This item shifts General Fund support (\$250,200) for the Ready to Work program to Community Development Block Grant (CDBG) funding instead.

Elimination of Emergent Activities reserve

Expenditures	\$(10,000)
--------------	------------

This item eliminates a small reserve the Office maintains for responding to emergent threats or challenges to immigrants and refugees. These funds have been used in the past to convene information sessions on refugee removals and a campaign to raise awareness and solicit public comments on the "public charge" rule.

Reduction of Travel and Training

Expenditures	\$(3,740)
--------------	-----------

This item reduces the \$15,000 travel and training budget by 25 percent.

Proposed Technical

Grant Funding Source Cleanup

Expenditures	\$(25,941)
Revenues	-

This technical item removes grant-related budget and revenue lines which should not be included in the baseline budget.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$16,952
--------------	----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Office of Labor Standards

Jeneé Jahn, Interim Director

(206) 256-5426

www.seattle.gov/laborstandards

Department Overview

The mission of the Office of Labor Standards (OLS) is to advance labor standards through thoughtful community and business engagement, strategic enforcement, and innovative policy development, with a commitment to race and social justice. The Office of Labor Standards focuses on the implementation of labor standards for employees working within Seattle city limits. Effective January 2021, there are 15 such standards, established through City ordinances.

- **Paid Sick and Safe Time Ordinance**, requiring employers with one or more employees to provide paid sick and safe time;
- **Fair Chance Employment Ordinance**, restricting how employers can use conviction and arrest records during the hiring process and course of employment;
- **Minimum Wage Ordinance**, establishing a minimum hourly wage that will rise to \$16.39/hour for all employees in the city by 2021;
- **Wage Theft Ordinance**, requiring employers to provide written notice of employment information and pay all compensation due by reason of employment (including wages and tips) on a regular pay day;
- **Secure Scheduling Ordinance**, establishing scheduling requirements for covered retail and food service establishments to provide schedule predictability and increased access to hours;
- **Domestic Workers Ordinance**, which provides protections for domestic workers and establishes a Domestic Workers Standards Board; and
- **Commuter Benefits Ordinance**, requiring employers to provide commuter benefits on a pre-tax basis.

Two ordinances protect the rights of drivers for transportation network companies (TNCs) (i.e. Uber and Lyft):

- **Transportation Network Company Driver Deactivation Rights Ordinance** gives TNC drivers the right to challenge unwarranted deactivations before a neutral arbitrator, and creates a Driver Resolution Center to provide representation for drivers; and
- **Transportation Network Company Minimum Compensation Ordinance** requires that TNC drivers should be paid at least the minimum wage and be reimbursed for expenses and funds a study to determine the precise method for accomplishing this goal.

Four ordinances protect the rights of hotel workers:

- **Hotel Employee Safety Protections Ordinance** requires employers to take certain steps to prevent and report violent and harassing conduct by guests and to support employees who report this misconduct;
- **Protecting Hotel Employees from Injury Ordinance** limits the workload of employees who clean hotel rooms to reduce the frequency and occurrence of injuries associated with room cleaning;
- **Improving Access to Medical Care for Hotel Employees Ordinance** requires employers to provide employees working in large hotels with increased access to medical care; and
- **Hotel Employees Job Retention Ordinance** requires employers to take certain actions to reduce job insecurity in the hospitality industry.

OLS is also responsible for the administration of two additional temporary ordinances that grant protections to certain gig workers during the COVID-19 civil emergency and that are enforceable for up to three years after the conclusion of the civil emergency:

- **Paid Sick and Safe Time for Gig Workers**, requiring covered transportation network and food delivery network companies to provide paid sick and safe time to gig workers during, and for 180 days following the conclusion of, the COVID-19 civil emergency.
- **Premium Pay for Gig Workers**, requiring covered food delivery network companies to provide premium pay

Office of Labor Standards

to gig workers during the COVID-19 civil emergency.

OLS also provides education and technical assistance to the business and worker communities. As a part of these efforts, OLS manages the **Community Outreach and Education Fund** to foster collaboration between OLS and the community with funds to develop awareness and understanding of the worker rights provided by Seattle's labor standards. The office also manages the **Business Outreach and Education Fund**, which provides technical assistance to small businesses to increase compliance with Seattle's labor standards. The fund emphasizes outreach to businesses owned by low-income and historically disenfranchised communities who typically are not served by traditional outreach methods.

Finally, OLS provides technical, policy, and administrative support for the Labor Standards Advisory Commission, consisting of 15 members who advise on matters related to labor standards, as well as to the recently created Domestic Workers Standards Board, a thirteen-member body that advises on issues related to workplace protections for domestic workers.

Budget Overview

The City is projecting significant revenue losses due to COVID-19 and the resulting public health crisis. As a result, the budget includes reductions for most departments across the City. Because the Office of Labor Standards is a small department with limited flexibility in their budget, and because of their outsized role in race and social justice across the City, the reductions to OLS's budget are minimal and do not impact staffing or services. The 2021 Proposed Budget maintains resources and staff to support the significant ongoing work of OLS. The budget also adds resources, including 2.0 Enforcement FTEs, to support the implementation and enforcement of the new Transportation Network Company ordinances. The details of the changes to OLS's budget are included in the Incremental Budget Changes section below.

The 2021 Proposed Budget also provides OLS with technical adjustments in the baseline budget, reflecting increases in lease costs, a one-time decrease in revenue from the General Fund due to 2019 OLS Fund surplus, changes to internal services costs, and agreements with the Coalition of Unions.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$71,444

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures \$60,916

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime and temporary labor. There is no increase assumed from 2021 to 2022. This does not include a 2021 salary increase for non-represented Executives, Managers and Strategic Advisors.

Office of Labor Standards

Lease Cost Increase

Expenditures \$12,920

This item increases appropriation authority by \$12,920 to the Labor Standards BSL for increases in rent, CAM, and property taxes.

Proposed Operating

Planning & Development Staff Reduction

Expenditures \$(130,121)

This item reduces appropriation authority by \$130,121 to the Labor Standards BSL, and unfunds a vacant pocket in the Office of Labor Standards. The pocket was most recently occupied by a staff member who is currently in an out-of-class (OOC) role within the department; when the OOC role ends in December 2021, the staff member will return to this pocket.

Transportation Network Company Ordinance Enforcement

Expenditures \$301,425

Position Allocation 2.00

This item adds two positions to the Office of Labor Standards Enforcement team:

- One 1.0 FTE Strategic Advisor I – Enforcement Strategist
- One 1.0 FTE Civil Rights Analyst Sr. – Investigator

These positions will support the new body of work related to enforcement of the Mayor's Fare Share Plan and the related Transportation Network Company ordinances.

Transportation Network Company Ordinance Outreach and Implementation

Expenditures \$45,000

This item increases appropriation authority by \$45,000 to the Labor Standards BSL, for Office of Labor Standards costs related to the implementation and administration of minimum labor and compensation standards for Transportation Network Company (TNC) drivers.

Proposed Technical

OLS Fund Revenue Updates

Revenues \$(638,416)

This item is a one-time reduction in revenue appropriations from the General Fund to the Office of Labor Standards Fund. Between 2020 and 2021, OLS planned expenditures increased by \$361,584. Additionally, at the close of Calendar Year 2019, OLS had a fund balance of over \$1,000,000, due in part to numerous vacancies and no increase in lease costs. To balance for 2021, they will receive \$1,000,000 less in revenue than the total planned expenditures and use the remaining OLS fund balance to cover the difference.

OLS Balancing Adjustments

Revenues \$1,000,000

This is a technical item to balance revenues and expenditures for the Funds managed by this department.

Department of Neighborhoods

Andrés Mantilla, Director

(206) 684-0535

www.seattle.gov/neighborhoods

Department Overview

The Department of Neighborhoods (DON) strives to strengthen Seattle by engaging all communities. DON serves residents of Seattle by providing programmatic support and building inclusive partnerships to help ensure that they receive equitable access to government and opportunities to build community. This is accomplished by fostering community partnerships, cultivating emerging leadership and facilitating community inclusiveness.

DON has three lines of business:

Community Building delivers technical assistance, supports services, commissions, and programs in neighborhoods to strengthen local communities, engages residents in community improvement, and leverages resources. The programs that support this work include:

- Community Engagement Coordinators
- Community Liaisons
- Community Safety
- Historic Preservation
- Major Institutions and Schools
- P-Patch Community Gardening
- Participatory Budgeting (Your Voice, Your Choice)
- People's Academy for Community Engagement (PACE)

Leadership and Administration provides executive leadership, communications, and internal operations and administration support for the entire department. This support includes financial, human resources, information technology, facility, and administrative functions.

Community Grants provides support to local grassroots projects within neighborhoods and communities by providing funding to implement community-driven improvement projects. The programs that support this work include:

- Neighborhood Matching Fund
- Duwamish River Opportunity Fund
- Find It Fix It
- Healthy Food Fund

Budget Snapshot

	2019 Actuals	2020 Adopted	2021 Proposed
Department Support			
General Fund Support	13,033,014	14,702,374	14,566,403
Other Funding - Operating	4,867	3,225,000	1,472,939
Total Operations	13,037,881	17,927,374	16,039,342

Department of Neighborhoods

Full-Time Equivalents Total*	58.50	65.00	63.00
------------------------------	-------	-------	-------

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

The Seattle Department of Neighborhoods (DON) 2021 Proposed Budget reflects a citywide directive to reduce costs balanced with DON's continued commitment to equitable community engagement. Adjustments were made to create efficiencies and reduce costs while also maintaining the integrity of DON's core programs and services and minimizing the impact on community. DON will continue to improve the coordination of equitable outreach and engagement throughout the City and increase our investments in BIPOC communities through new and continued programming.

Administrative Changes

The proposed budget meets target budget reductions by creating department efficiencies in staffing, utilizing shared cost models, and generating incremental revenues by raising fees. DON will build upon the 2020 Adopted Budget by coordinating and centralizing outreach and engagement through a new partnership with Seattle Public Utilities and program transfers from the Office of Civil Rights and the Human Services Department.

Sweetened Beverage Tax Funding Reduction

In 2020 the Mayor created the Healthy Food Fund (HFF) in coordination with the recommendations of the Sweetened Beverage Tax Community Advisor Board to provide resources to community-based organizations to improve public health. This new community granting program was delayed until 2021 and is funded by the Sweetened Beverage Tax (SBT). The 2021 Proposed Budget reduces SBT funding from the HFF program by \$1.5 million and eliminates 1.5 FTEs. Added to this is a proposed transfer to DON of \$500,000 in Food Opportunity Funds from the Human Services Department. After these changes the HFF will total \$1,506,985 in 2021. DON will redeploy 2.5 FTE from the Neighborhood Matching Fund in order to create this new program and leverage their experience in delivering grants to community based organizations.

Neighborhood Matching Fund Reduction and Alignment with the Healthy Food Fund

The 2021 Proposed Budget restores partial funding to the Neighborhood Matching Fund (NMF) Community Partnership Awards over levels available during the COVID-19 pandemic in 2020. This level is still a reduction from 2020 Adopted Budget amounts, thus reducing project manager workload and allowing for 2.5 NMF staff to be redeployed to create the Healthy Food Fund program. This new fund alignment allows DON to strengthen and diversify the Community Grants division, which centers the needs of community and increases investments in community-driven solutions.

Total Incremental Changes	\$(1,888,032)	(2.00)
Total 2021 Proposed Budget	\$16,039,342	63.00

Description of Incremental Budget Changes

Combine Historic Preservation and Major Institutions Roles

Expenditures	\$(88,655)
Revenues	\$30,220

Historic Preservation and Major Institutions will align staff to better collaborate and create department efficiencies. Two full time positions in the Historic Preservation and Major Institutions programs will be reduced to 60% each.

Department of Neighborhoods

Additionally, revenue will be generated by increasing fees from Citizen Advisory Review and environmental review to reflect increased inflation and align with Seattle Department of Construction and Inspection review fees.

DON and ARTS Shared Work on Seattle Together

Revenues	\$54,960
----------	----------

Office of Arts and Culture (ARTS) will coordinate with DON to advance the Seattle Together campaign. Seattle Together is a collaboration between City departments and local communities that works to center and support BIPOC communities in building a future Seattle where they feel connected, rooted, recognized, prosperous, and safe. As part of this collaboration ARTS will provide 50% of the position cost for the Seattle Together project manager. The funding ensures City's ARTS investments and community investments are targeted to BIPOC communities most impacted by the impending recession and impacts of seclusion and isolation.

Bill SPU for 1.0 FTE Strategic Advisor 1 in the SI Team

Revenues	\$127,395
----------	-----------

This item shifts funding for 1.0 FTE Strategic Advisor 1 position in the Strategic Initiatives team. DON will enter an agreement with Seattle Public Utilities (SPU), building upon an established inter-departmental cost-sharing model aimed at improving coordination of equitable community engagement throughout the City. This position was originally funded by the General Fund and will now be billed to SPU.

Reduce NMF Awards and Redeploy 2.5 NMF Staff to HFF

Expenditures	\$(830,000)
Revenues	\$275,208

This item reduces Neighborhood Matching Fund (NMF) awards by \$830,000 and redeploys 2.5 NMF staff to support the Healthy Food Fund (HFF) program created through a recommendation from the Sweetened Beverage Tax Community Advisory Board. This change will shift related staff costs from the General Fund (GF) to the Sweetened Beverage Tax Fund (SBT). The awards reduction will result in an average of 25 fewer NMF-funded projects per year. In order to mitigate the impact on racial equity, DON will refocus remaining available awards for vulnerable and historically disadvantaged communities. While this change means fewer projects will be funded through NMF, the alignment of these two granting programs allows DON to strengthen and diversify its Community Grants division overall.

Reduce SBT funding in DON

Expenditures	\$(1,500,000)
Position Allocation	(1.50)

This item reduces Sweetened Beverage Tax (SBT) funding to the Healthy Food Fund program by \$1.5 million and eliminates 1.5 FTEs. This change responds to reduction in STB revenues and funding priorities recommended by the Sweetened Beverage Tax Community Advisory Board. These reductions are mitigated by the redeployment of 2.5 FTE from the Neighborhood Matching Fund and an on-going transfer of \$500,000 Food Opportunity Fund from The Human Services Department.

Food Opportunity Fund Transfer from HSD

Expenditures	\$500,000
--------------	-----------

Transfer Food Opportunity Fund programming from HSD to DON.

Transfer Rainier Beach a Safe Place For Youth

Department of Neighborhoods

Expenditures \$518,486

This item transfers the Rainier Beach: A Beautiful Safe Place for Youth program from Seattle Human Services Department (HSD) to DON. This program uses an innovative, community-led approach to reduce violence that affects youth in the Rainier Beach neighborhood and continues to be a model for alternatives to community safety. These funds are being transferred to DON as the programming is more closely aligned to DON's community engagement work. These funds were originally managed by HSD and were transferred to DON via the Q2 2020 supplemental as one-time funding. This change makes that transfer on-going.

Transfer Indigenous People's Day funding from SOCR to DON

Expenditures \$32,000

This item transfers Indigenous People's Day (IPD) celebration programming from OCR to DON as the programming is more closely aligned to DON's community engagement work. This funding is for the City of Seattle's annual IPD celebration, including but not limited to the morning march, the daytime City Hall celebration, and the evening celebration at the Day Break Star Center.

Eliminate PACE Program Coordinator Position

Expenditures \$(128,724)

Position Allocation (1.00)

This item eliminates the PACE Program Coordinator (Planning & Development Specialist II) position to meet target budget reduction. The PACE programming will have to be temporarily scaled down and aspects of it will be integrated into various other programs, such as building a civic education component around the Census results and redistricting process.

Reinstate Census SA1 Position

Expenditures \$155,095

Position Allocation -

This item reinstates the Census Strategic Advisor and restores funding in order to continue census work that has been extended into 2021. This position will continue to coordinate engagement during the newly extended 2020 census, provide feedback to engagement partners, and develop a comprehensive outreach and engagement plan for Seattle's upcoming council redistricting process following the results of the 2020 census. In addition, this position will absorb some of the work from the eliminated PACE Program Coordinator position – building a civic education curriculum focused on understanding the implications of the Census results and the need to actively engage in the council redistricting process. This work will include sustaining and leveraging the community relationships and network of partners DON has cultivated during the past two years, to ensure that historically underrepresented communities are educated about and actively engaged in the Seattle City Council Redistricting Process.

Space to Host Community Based Organizations

Expenditures \$360,000

This item continues one-time funding for space lease that was appropriate in the 3rd quarter supplemental in 2020. Seattle King County Black Lives Matter in coordination with the City of Seattle and Seattle King County Public Health will lease a space for the following phased purposes. 1.Direct services 2.Service coordination location 3.Potential night shelter/day resource and hygiene center.

Vacancy Assumptions

Expenditures \$(25,238)

Department of Neighborhoods

This item assumes under spend in DON's overall personnel budget by predicting short-term vacancies and applying savings towards target budget reduction.

Adjustment for One-Time Budget Changes

Expenditures	\$ (1,122,812)
--------------	----------------

This item includes budget adjustments for one-time funding that was part of the 2020 Adopted Budget: AIDS Walk Memorial (\$65,000), Emergency Hub in a Box (\$32,000), South Park Public Safety Coordinator (\$75,000), Seattle Repertory Theatre's Public Works Seattle Program (\$75,000), P-Patch Community Garden Preservation and Enhancement SBT Funding (\$725,000), and Census Strategic Advisor position (\$148,000).

Citywide Adjustments for Standard Cost Changes

Expenditures	\$84,222
--------------	----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures	\$133,044
--------------	-----------

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime and temporary labor. There is no increase assumed from 2021 to 2022. This does not include a 2021 salary increase for non-represented Executives, Managers and Strategic Advisors.

Reallocate Community Partnership projects to Small Sparks projects

Expenditures	-
--------------	---

This item reallocates Community Partnership projects to Small Sparks projects to true up with community demand for small-scale projects.

Annualize cost of Grants Contracts Spec Sr

Expenditures	\$24,550
--------------	----------

Transfer an Administrative Staff Assistant position from the CL program to the CEC program

Expenditures	-
Position Allocation	-

This item transfers an Administrative Staff Assistant position from the Community Liaisons program to the Community Engagement Coordinators program. This is a budget neutral transfer.

Increase .75 FTE Admin Spec II to 1.0 FTE

Position Allocation	0.25
---------------------	------

Department of Neighborhoods

DON will Increase a .75 FTE Administrative Specialist II to 1.0 FTE to reflect increased administrative needs. This change was implemented in 2018 and will only affect position authority. This change is budget neutral.

Increase .75 FTE Plng & Dev Spec II to 1.0 FTE

Position Allocation	0.25
---------------------	------

DON will Increase a .75 FTE Planning & Development Specialist II position authority to 1.0 FTE to reflect increased administrative needs. This change was implemented in 2018 and will only affect position authority. This change is budget neutral.

Technical Adjustments - Centralize Health Care

Expenditures	-
--------------	---

This item is a net zero technical adjustment that corrects for changes in centralize health care budget for accounting purposes.

Department of Neighborhoods

Department of Neighborhoods

Appropriations by Budget Summary Level and Program

DON - BO-DN-I3100 - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide executive, community, financial, human resource, technology and business support to the Department of Neighborhoods.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Citywide Indirect Costs	1,545,767	1,429,700	2,628,366
Departmental Indirect Costs	2,191,274	2,875,016	2,547,589
Total	3,737,041	4,304,716	5,175,954
Full-time Equivalents Total*	15.75	19.75	20.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle Information Technology Department.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Citywide Indirect Costs	1,545,767	1,429,700	2,628,366

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This may include personnel costs related to department leadership and administration or other administrative costs such as external rent and operating supplies or services.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Departmental Indirect Costs	2,191,274	2,875,016	2,547,589
Full Time Equivalents Total	15.75	19.75	20.00

Department of Neighborhoods

DON - BO-DN-I3300 - Community Building

The purpose of the Community Building Budget Summary Level is to deliver technical assistance, support services, and programs in neighborhoods to strengthen local communities, engage residents in neighborhood improvement, leverage resources, and complete neighborhood-initiated projects.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Community Engagement Coordinators	2,046,467	2,478,682	2,284,166
Community Liaisons	335,657	868,095	742,399
Community Safety	-	184,000	953,486
Duwamish River Opportunity Fun	281,586	249,799	-
Find It Fix It	1,501	30,000	-
HALA	138,306	-	-
Healthy Food Fund	-	2,500,000	-
Historic Preservation	940,171	937,278	800,579
Major Institutions and Schools	212,517	243,036	166,779
Participatory Budgeting (Your Voice Your Choice)	182,969	136,388	122,673
People's Academy for Community Engagement (PACE)	133,288	150,942	25,301
P-Patch Community Gardening	817,762	1,599,956	791,169
Total	5,090,225	9,378,176	5,886,552
Full-time Equivalents Total*	34.75	37.25	35.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Community Building Budget Summary Level:

Community Engagement Coordinators

The purpose of the Community Engagement Coordinators Program is to provide a range of technical assistance and support services for residents and neighborhood groups to develop a sense of partnership among neighborhood residents, businesses, and City government.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Community Engagement Coordinators	2,046,467	2,478,682	2,284,166
Full Time Equivalents Total	12.00	15.00	16.00

Community Liaisons

The purpose of the Community Liaisons Program is to provide equitable outreach and engagement in a culturally competent manner to historically underserved communities. This is done for City

Department of Neighborhoods

departments through independent contractors who serve as resources and liaisons for community members, provide quality translations and interpretations and advise on best practices for engaging with their communities.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Community Liaisons	335,657	868,095	742,399
Full Time Equivalents Total	3.75	3.75	3.00

Community Safety

The purpose of the Community Safety program is to support the City of Seattle's commitment to being a safe, vibrant, and interconnected city that ensures all residents can live safely and securely.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Community Safety	-	184,000	953,486

Duwamish River Opportunity Fun

The purpose of the Duwamish River Opportunity Fund Program is to support new and existing small-scale programs focused on the challenges faced by communities in the Duwamish River area.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Duwamish River Opportunity Fun	281,586	249,799	-

Find It Fix It

The purpose of the Find It Fix It (FIFI) Program is provide funds for grassroots projects to improve neighborhood infrastructure.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Find It Fix It	1,501	30,000	-

HALA

The purpose of the Housing Affordability Livability Agenda (HALA) Program is to address affordable housing and livability within the City through outreach and engagement efforts.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
HALA	138,306	-	-
Full Time Equivalents Total	1.00	-	-

Healthy Food Fund

Department of Neighborhoods

The purpose of the Healthy Food Fund Program is to support community-based projects and programs that are food-related consistent with the overarching goal of the Sweetened Beverage Tax of improving public health.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Healthy Food Fund	-	2,500,000	-
Full Time Equivalents Total	-	1.50	-

Historic Preservation

The purpose of the Historic Preservation Program is to provide technical assistance, outreach, and education to the general public, owners of historic properties, government agencies, and elected officials to identify, protect, rehabilitate, and re-use historic properties

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Historic Preservation	940,171	937,278	800,579
Full Time Equivalents Total	7.00	7.00	7.00

Major Institutions and Schools

The purpose of the Major Institutions and Schools Program is to coordinate community involvement in the development, adoption, and implementation of Major Institution Master Plans, and to facilitate community involvement in school re-use and development.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Major Institutions and Schools	212,517	243,036	166,779
Full Time Equivalents Total	2.00	2.00	2.00

Participatory Budgeting (Your Voice Your Choice)

The purpose of the Participatory Budgeting (Your Voice Your Choice) Program is to provide a process in which Seattle residents democratically decide how to spend a portion of the City's budget.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Participatory Budgeting (Your Voice Your Choice)	182,969	136,388	122,673
Full Time Equivalents Total	2.00	1.00	1.00

People's Academy for Community Engagement (PACE)

The purpose of the People's Academy for Community Engagement (PACE) Program is to provide leadership development and skill building of emerging leaders in a multicultural, participatory adult learning environment where participants learn hands-on strategies for community building, inclusive engagement, and accessing governments from experts in the field

Department of Neighborhoods

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
People's Academy for Community Engagement (PACE)	133,288	150,942	25,301
Full Time Equivalents Total	1.00	1.00	-

P-Patch Community Gardening

The purpose of the P-Patch Community Gardening Program is to provide community gardens, gardening space, and related support to Seattle residents while preserving open space for productive purposes, particularly in high-density communities

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
P-Patch Community Gardening	817,762	1,599,956	791,169
Full Time Equivalents Total	6.00	6.00	6.00

DON - BO-DN-I3400 - Community Grants

The purpose of the Community Grants Budget Summary Level is to provide support to local grassroots projects within neighborhoods and communities by providing funding to implement community-based self-help projects.

Program Expenditures	2019	2020	2021
	Actuals	Adopted	Proposed
Duamish River Opportunity Fund	-	-	249,799
Find It Fix It	-	-	30,000
Healthy Food Fund	-	-	1,472,939
Neighborhood Matching	4,205,748	4,244,482	3,224,097
Total	4,205,748	4,244,482	4,976,835
Full-time Equivalents Total*	8.00	8.00	8.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Community Grants Budget Summary Level:

Duamish River Opportunity Fund

The purpose of the Duamish River Opportunity Fund Program is to support new and existing small-scale programs focused on the challenges faced by communities in the Duamish River area.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Duamish River Opportunity Fun	-	-	249,799

Find It Fix It

Department of Neighborhoods

The purpose of the Find It Fix It (FIFI) Program is provide funds for grassroots projects to improve neighborhood infrastructure.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Find It Fix It	-	-	30,000

Healthy Food Fund

The purpose of the Healthy Food Fund Program is to support community-based projects and programs that are food-related consistent with the overarching goal of the Sweetened Beverage Tax of improving public health.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Healthy Food Fund	-	-	1,472,939

Neighborhood Matching

The purpose of the Neighborhood Matching Program is to support local grassroots projects within neighborhoods and communities. The Neighborhood Matching Fund provides funding to match community contributions of volunteer labor, donated professional services and materials, or cash, to implement community-based self-help projects.

	2019	2020	2021
Expenditures/FTE	Actuals	Adopted	Proposed
Neighborhood Matching	4,205,748	4,244,482	3,224,097
Full Time Equivalents Total	8.00	8.00	8.00

DON - BO-DN-I3900 - Donations Fund

The purpose of the Donations Fund Budget Summary Level is to support P-Patch Community Gardening Programs.

Program Expenditures	2019	2020	2021
	Actuals	Adopted	Proposed
Donations Fund	4,867	-	-
Total	4,867	-	-

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Office of Planning and Community Development

Sam Assefa, Director

(206) 386-1010

<http://www.seattle.gov/opcd/>

Department Overview

The Office of Planning and Community Development (OPCD) was established in December 2015 with a mission of strengthening citywide planning and implementation and ensuring City departments are aligned and coordinated in planning for Seattle's future development. OPCD coordinates City departments to ensure that development decisions and investments advance equitable growth, consistent with Seattle's Comprehensive Plan. The department is guided by its vision of "an inspiring city, in harmony with nature, where everyone thrives." In addition to partnering with other City departments, OPCD works closely with community partners and other agencies to implement that vision. During the last five years, OPCD has accomplished a wide range of projects, including implementation of legislation to make it easier for property owners to create accessory dwelling units (ADUs) and develop affordable housing; development of new Design Guidelines in six neighborhoods; 130th Street and 145th Street station area planning; industrial and maritime strategy planning; funding 25 community-initiated projects to combat displacement and increase access to opportunity through the Equitable Development Initiative (EDI); and numerous other items.

The director of OPCD serves in the Mayor's various subcabinets to facilitate coordinated decision-making to address policies and investments that support Seattle's BIPOC communities. OPCD works with the Mayor's Office and members of the cabinet to ensure the City's investments support community development objectives and that department priorities are aligned and reflected in policies and budget resources.

OPCD is organized in five divisions: Equitable Development, Long Range Planning, Community Planning, Land Use Policy, and Urban Design. OPCD also houses two independent commissions: the Seattle Design Commission and the Seattle Planning Commission.

Equitable Development

This division leads the City's Equitable Development Initiative (EDI) in collaboration with City departments and community groups to invest in community-led efforts aimed at addressing issues of racial equity, social justice, economic mobility and residential, cultural and commercial displacement. The Equitable Development Framework guides how the City prioritizes its work; shapes its budgets, policies, programs, and investments; and structures the implementation of targeted strategies and equitable development projects by using clear objectives for reducing disparities and achieving equitable outcomes for marginalized populations.

Long Range Planning

This division leads the development of strategies, policies, and actions on issues of Citywide importance through efforts such as annual amendments and periodic major updates to Seattle's Comprehensive Plan. This division provides data support for OPCD and other City departments in the areas of demographics, land use, and related data monitoring and analytics. This division also represents the City in regional planning initiatives and works with partners to conduct research and analysis on current issues and trends to forecast potential future challenges and opportunities.

Community Planning

This division works at the neighborhood, district, corridor or community scale to develop localized strategies for addressing community-defined priorities and outcomes. These efforts are typically undertaken in collaboration with community partners and involve multiple City departments as well as other agencies, such as Sound Transit. Outcomes range from community visioning and near-term tactical interventions to legislative actions such as adoption of design guidelines and rezoning. Decisions about where to focus these efforts are informed by data on

Office of Planning and Community Development

racial equity, growth, displacement and access to opportunity, environmental issues and other topics. Projects are often in response to major capital investments or market forces that will catalyze community change and/or contribute to increased displacement. This division also leads site- and area-specific efforts to facilitate desired change in the built environment and property redevelopment that achieves community-benefit outcomes.

Land Use Policy

Land Use Policy includes work on topics such as affordable and market-rate housing policy, and departmental efforts that implement changes to the City's land use (zoning) code and other City regulatory and incentive codes. The group coordinates closely with SDCl. The division guides major policy updates, such as the industrial/maritime strategy. This division previously led several housing-related initiatives including the Affordable Middle-Income Housing Advisory Council. The division provides technical support to other departmental and non-departmental efforts, such as State Environmental Policy Act (SEPA) review and preparation of legislation to implement actions. The Land Use Policy Division is currently operating jointly with Urban Design to realize efficiencies.

Urban Design

OPCD's urban design group supports near- and long-term planning efforts related to design and placemaking for the physical environment. The division prepares design guidelines, area planning, and project-specific placemaking efforts such as the Lid I-5 study, 520 corridor design, and ST3 station area design guidelines. They collaborate frequently with the Design Commission, other departments and partner agencies. The division provides technical support to other departmental and non-departmental functions related to design. As noted above, the Urban Design division is currently operating jointly with Land Use Policy to realize efficiencies.

In addition, two independent commissions are housed within OPCD:

- The **Seattle Design Commission** advises the Mayor, City Council, and City departments on civic design excellence in capital improvement projects that are located on City land, in the City right-of-way, or constructed with City funds. The commission also evaluates projects that seek long-term or permanent use of a right-of-way. The commission focuses their recommendations on aesthetic, environmental and design principles and policies, and promotes interdepartmental and interagency coordination. The 10 Commissioners that comprise the Seattle Design Commission are supported by 3 FTE staff for meetings that occur twice a month. Commission meetings include the review of City-funded capital projects such as community centers, park facilities, fire stations and police stations.
- The **Seattle Planning Commission** advises the Mayor, the City Council and City departments on broad planning goals, policies and plans for the physical development of the city. Comprised of 3.5 FTE staff and 16 volunteers, the commission's work is framed by the Comprehensive Plan and seeks public comment and participation as a part of the process to achieve the plan's vision. The commission provides independent analysis and promotes issues vital to livability.

Budget Snapshot

	2019 Actuals	2020 Adopted	2021 Proposed
Department Support			
General Fund Support	10,783,893	24,652,100	11,184,413

Office of Planning and Community Development

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

Due to the current economic conditions caused by the COVID-19 pandemic, OPCD's 2021 Proposed Budget includes a 10% General Fund budget reduction. OPCD met its reduction target by minimizing high-level management positions, including eliminating a Chief of Staff and two senior advisors, and restructuring into five divisions with four division managers. OPCD continues to focus on "delivering more with less" for all major aspects of its work plan. Priority initiatives include Equitable Development projects, ST3 and community planning, affordable housing, and long-range planning. As described in the department overview, the Urban Design division of OPCD will operate jointly with the Land Use Policy division to realize staffing efficiencies.

The Equitable Development Initiative (EDI) continues to be an important program within OPCD. The EDI program is coordinated by OPCD and guided by an interdepartmental working group consisting of staff from the Office of Housing (OH), Department of Neighborhoods (DON), Office of Economic Development (OED), Office of Arts and Culture (ARTS), Mayor's Office (MO), and City Budget Office (CBO). It is also informed by an external community advisory board representing impacted communities. In 2017, the City Council identified the initial five projects for the EDI program. Since then, the EDI program has completed two additional rounds of project funding and now supports a total of 25 unique projects. Support for each of these projects includes a mix of capacity building and capital development funding, which can include site acquisition.

The EDI program was initially funded with \$16 million in one-time proceeds from the sale of surplus property known as the Civic Square Block. The Washington State Legislature passed the Short-Term Rental Tax (STRT) in the 2018 legislative session and therefore, since 2019, the EDI program has also been funded with STRT revenues. In July 2019, the City Council passed Ordinance 125872, which created a new fund for STRT and directed that \$5 million from this fund be dedicated annually to EDI projects. However, these revenues are currently in decline due to the COVID-19 pandemic. Therefore, the 2021 Proposed Budget includes \$3.1 million of one-time General Fund revenues to maintain the \$5 million annual budget. Ongoing General Fund supports EDI staff and other administrative components of the program, and the 2021 Proposed Budget includes \$430,000 of Community Development Block Grant (CDBG) dollars for EDI grants. CDBG dollars are received as part of a grant from the federal government and will support construction or site development work.

In 2019, the City reached agreement on the sale of the Mercer Megablock properties in South Lake Union, resulting in new revenues, of which \$15 million was appropriated in the 2020 Adopted Budget for a new EDI site acquisition program. OPCD plans to spend \$5.2 million of this amount in 2020; the rest will carry forward to 2021. This funding will help project partners acquire site control for EDI projects that include housing in order to advance the project toward concrete implementation outcomes. In recognition of the increased complexity of EDI funding, the 2021 Proposed Budget includes a new Budget Summary Level for EDI.

One of the core functions of OPCD is to serve as the steward of the City's Comprehensive Plan, a 20-year vision and roadmap for Seattle's future. The Comprehensive Plan guides City decisions about where to accommodate and plan for new jobs and residences, how to improve the transportation system, and where to make capital investments such as utilities, sidewalks, and libraries. It provides a framework to guide most of Seattle's big-picture decisions on how to manage growth to achieve environmental sustainability, racial equity, shared prosperity, and healthy and vibrant neighborhoods.

The Washington State Growth Management Act (GMA) requires that cities undertake a major review and update of their comprehensive plans every eight years. Under the GMA, comprehensive plans must accommodate the growth that is anticipated over the next 20 years. The previous major update of the Seattle Comprehensive Plan anticipated growth of 70,000 housing units and 115,000 jobs during the 2015-2035 planning period. The next major update will extend the planning period to approximately 2044. Based on faster-than-anticipated growth to date and updated

Office of Planning and Community Development

state and regional projections for population and employment, this plan will likely anticipate significantly more growth. In response, the City will review and revise as needed the Urban Villages growth strategy and policies that guide City actions that include land use, transportation, housing, and public investments. The 2021 Proposed Budget adds \$130,000 in one-time resources for OPCD to work on an Environmental Impact Study and engage in community outreach to support the next major update to the Comprehensive Plan. Additional funding for the Comprehensive Plan update is anticipated in the 2022 and 2023 budgets, for an estimated total project budget of \$575,000.

Another major initiative for OPCD is Sound Transit 3 (ST3) light rail station area planning. ST3 will include 14 new light rail stations and 11 miles of guideway in Seattle. Starting in 2019, City departments and other jurisdictions began substantive work on station area planning for ST3 facility integration into our neighborhoods and business districts, including policies and implementation strategies concerning urban design and neighborhood integration of Sound Transit investments. OPCD is engaged in supporting station design and neighborhood integration, including the evaluation of station area planning principles supported by station context frameworks for each station area, strategy development and implementation for Equitable Transit Oriented Development (ETOD), and Anti-Displacement. OPCD is also the lead department on developing station design guidelines and incentive zoning for station areas, while providing strong support of the interagency Racial Equity Toolkit (RET) analysis we are conducting with Sound Transit. In 2020, OPCD received a Federal Transit Administration grant for planning the light rail line from Ballard to West Seattle; this work will begin in 2021.

OPCD is coordinating with the Department of Finance and Administrative Services (FAS) to facilitate the transfer of two City-owned Mutual and Offsetting Benefit (MOB) properties to community ownership. These properties are already serving as home to non-profit organizations, as well as providing a long-term lease of the former Fire Station 6, which is currently an underutilized surplus property. The City's MOB properties include Byrd Barr Place, the Greenwood Senior Center operated by the Phinney Neighborhood Association, and the Central Area Senior Center. Fire Station 6 is the intended home of Africatown Community Land Trust's (ACLT) William Grose Center for Cultural Innovation. The City intends to transfer Fire Station 6 to ACLT if and when the organization meets the readiness criteria established for the transfer of MOB properties. The City recognizes that the property transfers and long-term lease will support community wealth building and create permanent homes for communities at risk of displacement, including the Black community in the Central District. The property transfers of the MOB properties and a long-term lease are dependent on the organizations meeting criteria that ensure stable delivery of ongoing community services. The City Council will need to approve a long-term lease agreement for Fire Station 6 and the permanent transfer of the two MOB properties to community ownership.

Description of Incremental Budget Changes

Baseline

Adjustment for One-Time Budget Changes

Expenditures	\$(16,689,919)
Revenues	\$(134,255)

This item includes budget adjustments for one-time changes in the 2020 Adopted Budget, including reductions of \$15,540,000 for the Equitable Development Initiative, \$650,000 for the Comprehensive Plan update, \$331,000 for strategic land acquisition, \$134,000 for Sound Transit 3, and \$35,000 for a natural capital valuation study.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$267,364
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures	\$52,637
--------------	----------

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime and temporary labor. There is no increase assumed from 2021 to 2022. This does not include a 2021 salary increase for non-represented Executives, Managers and Strategic Advisors.

Proposed Operating

Fund the Comprehensive Plan Major Update

Expenditures	\$130,000
--------------	-----------

This item funds the first phase of the next major update of the City's Comprehensive Plan, which is required under state law and is anticipated to take three years to complete. The Comprehensive Plan major update will be funded in

Office of Planning and Community Development

the 2021-2023 budgets. In 2021, OPCD will begin by identifying a potential range of alternatives and conducting preliminary SEPA scoping; OPCD will also begin a robust public launch of the update, with a strong emphasis on engaging BIPOC communities. In 2022, OPCD will conduct the environmental analysis and draft Environmental Impact Statement (EIS) and continue with community engagement. In 2023, OPCD will finalize the EIS and conduct any additional necessary analysis and outreach to release a final plan for adoption. The total budget for the three years of the project is \$150,000 for community engagement and \$425,000 for the SEPA/EIS work.

Provide General Fund Support to the Equitable Development Initiative

Expenditures -

This budget-neutral item provides \$3,140,500 of General Fund resources to OPCD's budget to support the Equitable Development Initiative. This item replaces Short-Term Rental Tax revenues which are declining due to the COVID-19 crisis. This funding is one-time.

Create New Budget Summary Level for the Equitable Development Initiative

Expenditures -

This budget-neutral item creates a new BSL for the Equitable Development Initiative (EDI). This change moves ongoing budget authority for grant awards (\$5 million Short-Term Rental Tax and \$430,000 of Federal Community Development Block Grant) from the Planning and Community Development BSL (BO-PC-X2P00) to this new EDI BSL (BO-PC-X2P40). This item also moves the ongoing budget of \$134,948 General Fund for EDI consultants to this new BSL.

Delete Four Positions

Expenditures	\$(714,932)
Position Allocation	(4.00)

This item removes four positions from OPCD's budget. Two of these are vacant Strategic Advisor 3 positions that were previously assigned as OPCD's Chief of Staff and Citywide Initiatives Division Manager. One is a vacant Strategic Advisor 1 position in the urban design team. The fourth position is a Strategic Advisor 3 that is currently filled and on-loan to another department. OPCD has restructured its organization to streamline its leadership functions and reduce additional layers of management.

Right-Size Funding for Deputy Director Position

Expenditures	\$(26,580)
--------------	------------

This item resets the OPCD deputy director's salary to the midpoint of the salary range.

Adjust Real Estate Advisor Position

Expenditures	\$(18,363)
--------------	------------

This item reduces OPCD's budget to align with a position classification modification. The 2020 Adopted Budget included a new Real Estate Advisor position to support the Equitable Development Initiative. This position was budgeted as a Strategic Advisor 2; however, the Seattle Department of Human Resources has since classified this position as a Strategic Advisor 1. This item aligns the budget accordingly.

Reduce Non-Labor Budget

Expenditures	\$(86,343)
--------------	------------

Office of Planning and Community Development

This item reduces various discretionary items in OPCD's budget, including consultant services, travel, training and community planning.

Proposed Technical

Budget Neutral Adjustments

Expenditures -

This budget-neutral technical adjustment makes a series of internal corrections to align budget with anticipated costs. For the commissions, this item moves non-labor budget to labor. Another change is to move the Design Commission's commissioner compensation budget to the temporary labor category. This item also adjusts motor pool charges at the detail project level. Finally, this adjustment moves all labor costs to the leadership and administration detail project. These changes will facilitate reporting and expenditure tracking to help ensure that all labor and benefit categories are appropriately allocated.

Appropriations by Budget Summary Level and Program

OPCD - BO-PC-X2P00 - Planning and Community Development

The purpose of the Planning and Community Development Budget Summary Level is to manage a collaborative vision for planning that advances equitable development and creates great places in the City of Seattle that is consistent with Seattle's Comprehensive Plan, and to inform and guide growth related decisions for future development.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Planning	10,268,767	29,543,063	6,840,496
Planning Commission Management	515,126	609,037	638,469
Total	10,783,893	30,152,100	7,478,965
Full-time Equivalents Total*	40.50	41.50	37.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Planning and Community Development Budget Summary Level:

Planning

The purpose of the Planning Program is to manage a coordinated vision for growth and development in the City of Seattle that is consistent with Seattle's Comprehensive Plan, and to inform and guide growth related decisions for future development.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Planning	10,268,767	29,543,063	6,840,496
Full Time Equivalents Total	37.50	38.50	34.50

Planning Commission Management

The purpose of the Planning Commission is to advise the Mayor, the City Council and City departments on broad planning goals, policies and plans for the physical development of the city. The commission also provides independent analysis and promotes issues vital to livability.

Expenditures/FTE	2019 Actuals	2020 Adopted	2021 Proposed
Planning Commission Management	515,126	609,037	638,469
Full Time Equivalents Total	3.00	3.00	3.00

Office of Planning and Community Development

OPCD - BO-PC-X2P10 - Design Commission

The purpose of the Design Commission Budget Summary Level is to give advice to the Mayor, City Council, and City Departments, concerning City-funded Capital Improvement Projects, projects that seek long-term use of the right-of-way, or major transportation projects.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Design Commission	546,906	571,108	593,159
Total	546,906	571,108	593,159
Full-time Equivalents Total*	3.50	3.50	3.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

OPCD - BO-PC-X2P40 - Equitable Development Initiative

The purpose of the Equitable Development Initiative Budget Summary Level is to foster community leadership and support organizations that promote equitable access to housing, jobs, education, parks, cultural expression, healthy food, and other community needs and amenities. The goal of the Equitable Development Initiative is to address displacement and the unequal distribution of opportunities in order to sustain a diverse Seattle.

Program Expenditures	2019 Actuals	2020 Adopted	2021 Proposed
Equitable Development Initiative	-	-	5,564,948
Total	-	-	5,564,948

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Community Police Commission

Brandy Grant, Interim Executive Director

(206) 256-5545

<http://www.seattle.gov/policecommission/>

Department Overview

The Office of the Community Police Commission (CPC) is the administrative and policy support entity of the Community Police Commission. The CPC is charged with providing community oversight and input on the police reform efforts that are the subject of a Settlement Agreement between the City and the U.S. Department of Justice regarding police practices. Membership of the CPC was modified in 2017 through legislation addressing changes in civilian oversight of the police ([Ordinance 125315](#)). A 21-member board appointed by the Mayor, the City Council and the Community Police Commission governs the CPC. Each commissioner serves a three-year term.

The CPC provides an independent forum for dialogue and widespread input on the reform efforts embodied in the Settlement Agreement and Memorandum of Understanding established by the Department of Justice. Ongoing community input is a critical component of achieving and maintaining effective and constitutional policing.

The CPC leverages the ideas, talent, experience and expertise of the people of Seattle to ensure police services:

- fully comply with the Constitution of the United States;
- ensure public and officer safety; and
- promote public confidence in the Seattle Police Department and its officers.

In 2017, the CPC's role was further refined through legislation addressing changes in the civilian oversight of the police ([Ordinance 125315](#)). The CPC is still charged with fulfilling and prioritizing the responsibilities as specified under the Consent Decree and Memorandum of Understanding and its role now includes:

- reviewing and providing input to many city partners on the police accountability system, police services and the Seattle Police Department's policies and practices;
- engaging in community outreach to obtain the perspectives of the community on police-community relations, the police accountability system, police services, policies and practices and providing that input to other City departments;
- maintaining connections with representatives of disenfranchised communities and community groups; and
- advocating for reforms to state law that will enhance public trust and confidence in policing and the criminal justice system.

Budget Snapshot

	2019 Actuals	2020 Adopted	2021 Proposed

Community Police Commission

Budget Overview

The Community Police Commission (CPC) staffing was expanded in 2017 to meet the increased role described in the Police Accountability Ordinance. The 2021 Proposed Budget for the CPC includes salary adjustments for positions that were added and/or reclassified as part of that transition. The budget was also adjusted for minor Citywide technical changes which are described below. Funding is reserved in the City Attorney's office's proposed budget for future external legal fees, estimated at \$80,000, as determined by CPC leadership.

In 2021, the City Budget Office will be undertaking a study to examine opportunities for shared coordination of resources across the three police accountability entities, the Community Police Commission, the Office of the Inspector General and the Office of Police Accountability. This study will make recommendations regarding coordination of community engagement, communications, administrative support (e.g. accounting, human resources) or other functions. The recommendations could lead to budget or operational efficiencies but will ensure the independence of each entity.

Incremental Budget Changes

Community Police Commission

	Dollars	FTE
2020 Adopted Budget	1,847,285	9.00
Proposed Operating		
Increase salary and benefits for reclassification of positions	108,751	-

Description of Incremental Budget Changes

Proposed Operating

Increase salary and benefits for reclassification of positions

Expenditures	\$108,751
Position Allocation	-

This change increases the salary and related fringe benefits for the reclassification of positions that CPC has done over the last three years. The following changes were made:

- Strategic Advisor 2, Exempt to an Executive 3
- Strategic Advisor 1, Exempt to a Strategic Advisor 2, Exempt

Community Police Commission

- Public Relations, Sr to a Strategic Advisor 1, Exempt
- Planning and Development, Supervising to a Strategic Advisor 1, Exempt

Proposed Technical

Adjustment for One-Time Budget Changes

Expenditures \$(280,000)

This item includes budget adjustments for one-time changes in the 2020 Adopted Budget including external legal fees and funding for CPC's 2020 workplan items including a strategic plan, an executive search, a complainant appeals task force and organizational development.

Citywide Adjustments for Standard Cost Changes

Expenditures \$29,464

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures \$7,064

This centrally administered change adjusts appropriations to reflect an annual wage increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, family medical leave, retirement, overtime and temporary labor. There is no increase assumed from 2021 to 2022. This does not include a 2021 salary increase for non-represented Executives, Managers and Strategic Advisors.

Office of Emergency Management

Laurel Nelson, Interim Director

(206) 233-5076

<https://www.seattle.gov/emergency-management>

Department Overview

The Office of Emergency Management (OEM) is responsible for the city-wide emergency management program. The mission of OEM is, “We partner with the community to prepare for, respond to, mitigate the impacts of, and recover from disasters.” This office has the city-wide responsibility to:

- maintain and manage the Emergency Operations Center (EOC) to ensure overall unity of effort when responding to disasters,
- manage the City’s activities related to emergency planning, preparedness, mitigation, response, and recovery operations,
- administer trainings and exercises that prepares City responders, volunteers, and the public to respond and recover from disasters, and
- seek and administer post disaster recovery costs and pre-disaster mitigation grants.

OEM also focuses substantial effort in preparing the community for disaster through public education, capability-building with community organizations, vulnerable population outreach, limited English proficiency, low income and immigrant and refugee communities. Utilizing partnerships and grant funding, OEM garners additional staffing resource support using volunteers who deliver preparedness programs, stipend paid Community Safety Ambassadors who speak multiple languages reaching Seattle’s diverse neighborhoods, and interns hired to assist with special projects.

The dedicated staff of OEM ensure the City meets the national and international Emergency Management Accreditation Program (EMAP) standards and compliance with RCW 38.52 and WAC 118. Those standards and codes require that a program effectively carry out several functions (Planning, Operations, Mitigation & Recovery, Communications, Alert and Warning, Hazard Analysis, Training & Exercises, and Community Education & Outreach) to ensure a comprehensive emergency management program. OEM maintains plans as required by City codes including the Comprehensive Emergency Management Plan, Continuity of Government, Continuity of Operations Plans, and the City’s Hazard Mitigation Plan. The Mitigation Plan keeps the City eligible for millions of dollars in federal hazard mitigation grants and staff assist in the recouping of millions of dollars in federal public assistance funds following any Federally declared disaster.
