Attachment 1 - Second Amendment to Interlocal Agreement between The City of Seattle, Washington, and the Seattle Park District

**SECOND AMENDMENT TO INTERLOCAL AGREEMENT BETWEEN
THE CITY OF SEATTLE, WASHINGTON, AND THE SEATTLE PARK DISTRICT**

This Amendment is made between The City of Seattle, Washington (the “City”), a first-class city organized under the laws of the State of Washington, and the Seattle Park District, a municipal corporation organized under chapter 35.61 RCW and the laws of the state of Washington, amending the Interlocal Agreement executed October 30, 2014.

WHEREAS, on April 28, 2014, the Seattle City Council approved Ordinance 124468, which authorized the Mayor to sign an interlocal agreement formalizing the relationship between The City of Seattle and the Seattle Park District for implementation of park and recreation services and infrastructure in Seattle; and

WHEREAS, voters approved Proposition 1 on August 5, 2014, creating the Seattle Park District as permitted under chapter 35.61 RCW; and

WHEREAS, The City of Seattle and the Seattle Park District desire to amend the interlocal agreement authorized by Ordinance 124468 to provide that the Seattle Park District may delay six-year planning cycles in extraordinary circumstances; and

WHEREAS, by Ordinance _____ of the City, the Mayor is authorized to execute this Amendment on behalf of the City; and

WHEREAS, by Resolution 36 of the Board of Commissioners of the Seattle Park District (“District Board”), the President of the District Board is authorized to execute this Amendment on behalf of the Seattle Park District; NOW, THEREFORE,

The City and the Seattle Park District agree to amend the Interlocal Agreement as follows:

1. Other Agreements. Section 4.3, Six-Year Planning Cycles, is amended by adding the underlined language to read in its entirety as follows:

- 4.3 Six-Year Planning Cycles. The City and the Seattle Park District agree to engage in planning activities on a six-year cycle. For each six-year cycle, beginning with the cycle that includes 2021 through 2026, the Superintendent of Parks and Recreation, City Council and the Mayor will consider the recommendations of the Community Oversight Committee, upon conclusion of a public process, and will recommend to the District Board an updated list of Seattle Park District funded projects, programs and services including projected costs, as part of the public process. The Park District Board may delay the start of a new six-year planning cycle by one year by resolution with a 3/4 vote in the event of a natural disaster, exigent economic circumstances, or other emergency as determined by the Park District Board and instead approve an interim annual budget for the Seattle Park District consistent with the process outlined in Section 4.2 of this Agreement. The decision to delay the start of the six-year planning cycle may be renewed on an annual basis by resolution with a 3/4 vote in the event that the Park District Board determines that the natural disaster, exigent economic circumstances, or other emergency is continuing. For the purposes of this subsection, “3/4 vote” in this

context shall mean a ¾ vote of all Board Members who are available to participate in the Board Meeting and are capable of performing the duties of office. Equitable distribution of services among Seattle's various peoples and neighborhoods, including addressing historical and developing gaps in access for low-income and communities of color, will be considered in developing each update.

2. Other Agreements. Section 4.4, Community Oversight Committee, is amended by removing stricken language adding the underlined language to read in its entirety as follows:

- A. 4.4. Community Oversight Committee. In addition to the community-based Park Board, which advises the City pursuant to chapter 3.26 of the Seattle Municipal Code, a Community Oversight Committee ("Oversight Committee") shall be formed to provide advice to the Mayor, City Council, and Superintendent of Parks and Recreation, and to provide oversight of the projects, programs and services undertaken jointly by the City and the Seattle Park District, pursuant to this agreement, as follows: The Oversight Committee shall have 15 members: 4 Park Board members; 7 members, one from each Council district; and 4 additional members to be considered for appointment based on recommendations from City commissions, including the Immigrant and Refugee Commission, the Commission for People with DisAbilities, the Human Rights Commission, the Seattle Lesbian Gay Bisexual Transgender Commission, and the Women's Commission. All member appointments are to be confirmed by the City Council. The Mayor Shall appoint the Chair of the Oversight Committee.
- B. The City will seek to appoint Oversight Committee members with a diversity of expertise, and perspectives including but not limited to parks management, public financing, urban horticulture, landscape architecture, contract management, and the interests of low-income and communities of color.
- C. Oversight Committee terms for Park Board members will coincide with their Park Board terms. The 11 other members will serve 3-year terms that begin in April. The initial terms for these seats shall be staggered, so that 4 members serve a one-year term, 4 members serve a 2-year term, and the 3 remaining members serve a 3-year term.
- D. The Oversight Committee will advise on spending and activities including:
 - 1. Establish a Major Projects Challenge Fund application process and evaluation criteria, and make recommendations to the Superintendent

of Parks and Recreation (“Superintendent”) on the annual allocation of the Major Projects Challenge Fund.

2. Reviewing an annual report prepared by SPR for the Seattle Park District and the City, including assessment of performance measures and expenditure of District funds including interest earnings, and reporting to the Superintendent and Park Board on implementation issues, concerns and needed adjustments to services or spending.
3. Hold public meetings and make recommendations to the Superintendent in connection with each 6-year update to the spending plan.
4. Provide to the Mayor, City Council, and Superintendent of Parks and Recreation an annual report on the progress of expenditures, a mid-term report half-way through each 6-year period, and a final report in advance of each 6-year update to the spending plan. ~~Progress on construction of park development on the 14 land-banked sites in Initiative 4.4 will be among the issues addressed in the first mid-term report.~~

3. Integration. This Amendment culminates negotiations and discussions between The City of Seattle and the Seattle Park District concerning the amendment of the Interlocal Agreement, and supersedes all prior agreements, statements, and intentions with respect to the amendment of the Interlocal Agreement. This Amendment shall be executed in two counterparts, one for each of the parties, each of which shall be deemed to be an original, and the same instrument. Except as expressly set forth in this Amendment, the Interlocal Agreement as previously adopted and amended remains in full force and effect.

IN WITNESS WHEREOF, the parties have executed this Amendment this ____ day of _____, 2020.

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title:

AN ORDINANCE relating to Seattle Parks and Recreation; authorizing an amendment to the Interlocal Agreement between The City of Seattle and the Seattle Park District.

Summary and background of the Legislation: The proposed Ordinance is an amendment to the Interlocal Agreement (ILA) between the City of Seattle and the Seattle Park District, which outlines the governance structure and planning procedures of the Seattle Park District. This legislation makes several amendments to the ILA that will affect the next financial plan cycle, including:

- Allowing for a delay of the six-year planning cycle in the event of a natural disaster, exigent economic circumstances, or other emergency; and
- Clarifying that the Park District Oversight Committee's recommendations are considered by the Superintendent, the Mayor, and City Council.

The ILA specifies that financial planning for the Seattle Park District must occur on a six-year cycle, and that a public process will inform the Park District Oversight Committee's recommendations for funding priorities to the Superintendent, Mayor, and City Council. The first cycle spanned from 2015-2020 and the second cycle was slated for 2021-2026. As currently written, the ILA does not allow for any delay of this six-year planning process in the event of an emergency (e.g., a natural disaster or pandemic).

In the first several months of 2020, SPR had initiated this planning process by convening the Park District Oversight Committee and Board of Park Commissioners, publishing a public survey, and holding one community meeting. However, the current COVID-19 crisis has interrupted this process. This amendment will allow for an annual budget process rather than a full six-year planning cycle until the public, community representatives, and elected officials can have adequate time to weigh in on priorities for the next Park District cycle, and until the significant economic uncertainties associated with pandemic response stabilize. An annual budget process is proposed for 2021, using the 2015-2020 six-year cycle as a base.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

If yes, please fill out the table below and attach a new (if creating a project) or marked-up (if amending) CIP Page to the Council Bill. Please include the spending plan as part of the attached CIP Page. If no, please delete the table.

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget?

☐ Yes ☒ No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

If so, describe the nature of the impacts. This could include increased operating and maintenance costs, for example.

The legislation itself does not have any direct financial impacts, but it affects the timeframe for the development of a six-year financial plan for the Seattle Park District, which is a substantial share of SPR's overall funding portfolio. In 2020, Seattle Park District funds account for 20% of SPR's overall adopted budget. SPR will develop an annual budget for the Park District, which will be adopted by the City of Seattle as part of the biennial budget process and the Park District Board via resolution in November 2020.

Is there financial cost or other impacts of *not* implementing the legislation?

Estimate the costs to the City of not implementing the legislation, including estimated costs to maintain or expand an existing facility or the cost avoidance due to replacement of an existing facility, potential conflicts with regulatory requirements, or other potential costs or consequences.

Park District expenses in 2020 total \$54 million and are embedded in almost every one of SPR's core lines of business. Given SPR's inability to conduct a robust public process given COVID-19 response, failing to approve an option to extend current Seattle Park District funding in lieu of a full six-year planning process would jeopardize the many essential services this funding supports.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

If so, please list the affected department(s) and the nature of the impact (financial, operational, etc.).

No.

b. Is a public hearing required for this legislation?

If yes, what public hearing(s) have been held to date, and/or what public hearing(s) are planned/required in the future?

No.

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

If yes, please describe the measures taken to comply with RCW 64.06.080.

No.

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

For example, legislation related to sale of surplus property, condemnation, or certain capital projects with private partners may require publication of notice. If you aren't sure, please check with your lawyer. If publication of notice is required, describe any steps taken to comply with that requirement.

No.

e. Does this legislation affect a piece of property?

If yes, and if a map or other visual representation of the property is not already included as an exhibit or attachment to the legislation itself, then you must include a map and/or other visual representation of the property and its location as an attachment to the fiscal note. Place a note on the map attached to the fiscal note that indicates the map is intended for illustrative or informational purposes only and is not intended to modify anything in the legislation.

No.

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

If yes, please explain how this legislation may impact vulnerable or historically disadvantaged communities. Using the racial equity toolkit is one way to help determine the legislation's impact on certain communities. If any aspect of the legislation involves communication or outreach to the public, please describe the plan for communicating with non-English speakers.

Approving this amendment will ensure that the next six-year financial plan cycle is informed by a robust public engagement and prioritization process, including consideration of the needs of historically underserved communities throughout the City. Attempting to shape a six-year plan during the current crisis, without the ability to hold in-person community meetings and considering other emergent needs on the minds of the public, advisory bodies, and elected officials, would likely not result in a six-year funding plan that fully considers critical policy issues like impacts on vulnerable communities. Further, the needs of Seattle residents and vulnerable communities are evolving as the pandemic continues, and the Park District planning process should be informed by an in-depth analysis of the disparities exacerbated by the current pandemic and how Park District-funded services can mitigate those impacts. SPR will build equity analysis into the Park District Oversight Committee and Board of Park Commissioners prioritization process, which requires careful consideration and ongoing discussion. SPR believes that shifting this conversation to after the current public health crisis will result in a more thoughtful, well-developed financial plan grounded in racial equity.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

This answer should highlight measurable outputs and outcomes.

Background: Jose Is a software engineer at Founded and led Uplyft Unidos, Lyft's LatinX Employee Resource Group. Since moving to Seattle in 2016 he has used our bike lanes, access roads, and trails to commute, recreate, and transport himself around the city. Access to bicycle travel is essential for some, and he would like to work with the city to advocate for bicycle transportation. He also recognizes that we are still missing the mark in providing these resources equitably. This inequity has only become more pronounced this year, as public transportation became essential trips only, and this is a topic he would like to assist the city in tackling.

EXPERIENCE

LYFT | SENIOR SOFTWARE ENGINEER
Q2/2019 – Present | Seattle, WA
Client Networking Team

- Designed, implemented, and open sourced Envoy Mobile, a new client networking library based on the Envoy project.
- Focused on the implementation of the library's core networking aspects: DNS, HTTP, threading design, bridging platform (iOS, Android) stacks with the native C++ core.
- Architected and implemented a revamped version of the HTTP stack that allows for extensibility via HTTP filters. This platform will enable future work around smart network behavior, security, compression, and protocol experimentation (QUIC).
- Created a real-time time-series metrics pipeline to extract metrics out of Lyft's mobile clients.
- Led cross-company collaboration to build solutions on top of the Envoy Mobile platform.

LYFT | SENIOR SOFTWARE ENGINEER
01/01/2019 – Present | Seattle, WA
Tech Lead (since Q3 2018) for Lyft's Networking team.

- Defined the team's roadmap for H2 2018 and H1 2019, advancing projects involving multiple teams across Lyft's Infrastructure org. The roadmap focuses on projects for developer productivity, and site reliability through self healing systems. The network team's work was foundational in decomposing Lyft's monolith and building Lyft's modern, service-oriented architecture.
- Created onboarding documentation and curricula that was used to onboard half a dozen new Network team members.

LYFT | SOFTWARE ENGINEER
08/15/2016 – Present | Seattle, WA
Server Networking Lead in Lyft's Networking team. Our team standardizes how machines at Lyft handle traffic and communicate.

- Member of the team that implemented and open sourced Envoy, a C++ Edge/Service communications bus. Current maintainer of the project. Focused on Envoy's Outlier Detection, Rate limit, Concurrency, and Control Plane subsystems.
- Developed, open source, and maintain Ratelimit. Ratelimit is a go/gRPC generic rate limit service used in production at Lyft and other industry peers to enable network and application level global ratelimiting in a distributed system.
- Designed, implemented, and rolled out Lyft's control plane solution for Envoy. The platform has enabled Lyft to deploy data plane changes at unprecedented speed. Moreover, the modern control plane has been crucial in Lyft's migration to Kubernetes based infrastructure, making an internally hybrid service mesh transparent to service owners.

A RESOLUTION setting the time and place for a hearing on the appeal of Robert Wexler, Hearing Examiner Case Number CWF-0149, from the findings and recommendation report of the Hearing Examiner on the final assessment roll for Local Improvement District No. 6751, and directing that the City Clerk provide any required notice of the hearing in the manner required by law.

Summary and background of the Legislation:

Council designated the Hearing Examiner (HE), to conduct the hearing on the Waterfront Local Improvement District (LID) final assessment roll. He filed his report of findings and recommendation with the City Clerk on September 8, 2020. His filing of the report initiated the possibility of appeals from his report to Council. This resolution would set the time and place for the hearing of the appeal from the HE report filed by Robert Wexler regarding Hearing Examiner Case Number CWF-0022. The hearing would be held by the Public Assets and Native Communities Committee on January 5, 2021.

The Council may not approve the final assessment roll for the Waterfront Local Improvement District (LID) without reviewing and deciding upon appeals of the HE's recommendation on the final assessment roll. The LID assessment would fund \$160 million of improvements plus approximating \$15.5 million on financing costs of the LID.
