Gorge - 240V AC Station Service Switchgear Replacement

Project No:	MC-CL-XS6581	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 121 Stte Highway 20
Current Project Stage:	Stage 6 - Closeout	Council District:	Outside City of Seattle
Start/End Date:	2017 - 2021	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$2,230	Urban Village:	Outside City of Seattle

This project mitigates safety hazards at the Gorge and Diablo Powerhouses by replacing the 240V circuit breakers with new breakers that allow for remote operation. Recent policy and regulation changes related to electrical Arc Flash hazards have highlighted safety issues related to this equipment.

Gorge Crane Rehabilitation

Project No:	MC-CL-XS6639	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 121 State Highway 20
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Outside City of Seattle
Start/End Date:	2021 - 2024	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$4,857	Urban Village:	Not in an Urban Village

This project refurbishes or replaces mechanical and electrical systems for the Gorge powerhouse cranes and will provide safety upgrades to comply with current code. The Gorge powerhouse crane has never undergone a major refurbishment. The three Gorge generating units are planned for overhauls within the next ten years, and will require a reliable crane. The crane control system is being modernized to allow for better control and accuracy.

Gorge U21-24 overhauls

Project No:	MC-CL-XS6640	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 121 State Highway 20
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Outside City of Seattle
Start/End Date:	2023 - 2027	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$27,877	Urban Village:	Not in an Urban Village

This project overhauls Gorge units 21 - 24. The final scope of work will be determined during project chartering, but is expected to include replacing the stator winding, stator core, and excitation system. Refurbishment is expected for rotor components and other mechanical components. Planning is currently forecast to start in 2022 which would mean construction on the first unit would likely begin in 2025.

This project funds installation of technology and equipment to modernize the distribution grid, including distribution system sensors, automated and remote switches, and demand response systems. This project implements the Grid Modernization Plan and Roadmap, which describes the work needed to build a next-generation electric grid that can flexibly and cost-effectively absorb demand growth from electrification of buildings and transportation.

Total Project Cost:	N/A	Urban Village:	Outside City of Seattle

This ongoing project funds upgrades to generating plants that will either prevent oil spills through process improvements and equipment replacement, or provide additional containment capacity for accidental spills. These upgrades will include replacing oil filled transformers with dry-type transformers, building larger containment basins around oil filled equipment, reconfiguring powerhouse sumps, installing oil/water separators, and replacing greased valve bushings with greaseless bushings.

Project No:	MC-CL-YS7756	BSL Code:	BC-CL-Y
Project Type:	Discrete	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	17th Ave West
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:	2019 - 2027	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$2,274	Urban Village:	Ballard-Interbay Northend

This project plans, designs, and constructs a 26 kV substation in the Interbay area. This project installs 2-100 MVA transformers into a facility large enough to accommodate a third transformer at the site if required in the future. The project adds to the distribution network and provides a new path for power to the area. It provides assurance to the developers who are interested in projects in the South Lake Union district that City Light will be able to serve their needs reliably.

This ongoing project funds replacement and improvement of the Utility's information technology infrastructure. This infrastructure provides applications, data storage, and print services to the utility, and supports activities and applications including Microsoft Outlook, remote connectivity, electronic communications and recording of power marketing transactions (E-tagging), the City InWeb and network, common and City Light applications, UNIX services, and infrastructure change management. Components purchased by this project include servers, network and communications equipment, disk storage, and application and operating system software. Infrastructure is upgraded or replaced based upon a combination of factors, such as maintenance schedules, equipment warranties, availability of vendor support, Gartner recommendations, application growth, and security demands.

Current Project Stage:	N/A	Council District:	Council District 7, Council District 1
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

The ongoing program will plan, design, procure, construct, and commission large City Light capital investment projects to deliver infrastructure required to meet electrification, environmental justice, and/or sustainability goals and mandates and customer demand associated with Maritime Transportation (MARTEP). MARTEP Projects stem from public and private maritime transportation efforts to transition from emission-based energy sources to City Light electrical service and that requires City Light to design and construct new infrastructure.

Massachusetts Street Substation - Networks

Project No:	MC-CL-YN8202	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	1555 Utah Ave S
Current Project Stage:	N/A	Council District:	Council District 2
Start/End Date:	N/A	Neighborhood District:	Greater Duwamish
Total Project Cost:	N/A	Urban Village:	Greater Duwamish

The ongoing project increases Massachusetts Street Substation network capacity. It funds a programmatic approach for comprehensive management of underground network assets serving customers in Pioneer Square and the area bounded by University Street, Third Avenue, Terrace Street, and the Freeway. The project funds completion of engineering design and analysis and construction work required to improve and enhance the network system supporting existing and neat future network customers in the areas. This project defers the need date for a new network substation until no further capacity is available from Union Street and the other network substations. It provides sufficient and reliable electrical capacity for the growing power needs of City Light customers.

Project Category:	New Facility	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project upgrades City Light's remote vault monitoring capability for the Digital Grid system (formerly Hazeltine system). The project consists of substation receivers, workstations, applications, server pairs and alarm PCs. The project provides remote monitoring of network transformers, protectors, vaults, and supports daily utility operations. The project enhances the network monitoring capability by allowing a real time alarm and an event generated from the field to be processed and sent to the alarm PCs of an abnormal electrical component or environmental condition occurrence. The most crucial alarm PC is situated in the System Control Center where it is monitored by with Power Dispatchers 24/7.

Outage Management System Phase II Implementation

Project No:	MC-CL-YD9967	BSL Code:	BC-CL-Y
Project Type:	Discrete	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2017 - 2023	Neighborhood District:	Multiple
Total Project Cost:	\$11,678	Urban Village:	Multiple

This project funds City Light's Outage Management System (OMS) upgrade in order to maintain its availability to be available 100% of the time. However, its application, operating system, and database have aged to the point where OMS' availability is at risk. It was fielded in 2011 and has not been significantly modified since. The upgrade of OMS will bring it to a currently supported product version (application, OS, database, physical infrastructure, etc.). The scope of this project is to cover as much as possible of the as-is system, with an additional change to integrate with the ongoing deployment of the Advanced Metering Infrastructure (AMI) initiative.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides electrical lines from substations to customers' property lines. This project builds new and replaces old line segments, relocates lines for construction clearances and may replace rotten and damaged poles in the distribution system. This work is driven by specific customer projects, for their direct benefit, to identify and upgrade feeders that are affected before the new load from those projects comes online. City Light is reimbursed by the customers for this work.

This ongoing project supports the capitalized portion of work resulting from unplanned, non-emergency, overhead outages. These outages result from events, such as storms, accidents, and equipment failures. The project funds permanent storm repairs and construction of new infrastructure to bypass failing equipment. The project ensures that customers' electric power is restored as quickly as possible.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project funds the purchase and implementation of a system capable of storing and analyzing complex asset condition assessment data, including inspection, testing and sampling results. This project will replace the current XFMR transformer system and would also track the environmental impacts of related transformers. This project was formerly known as "Asset Condition Assessment and Test Tracking System."

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides the infrastructure required to install the basic control network and integrate existing, major control systems for a Skagit wide network controls program, to be located at each of the Skagit facilities. This project improves monitoring and control of the Skagit facilities, reduces maintenance and potential outages, and reduces cost and time of maintenance and outages. This project incorporates features that lead to enhanced data acquisition that is part of the NERC requirements.

Ross Dam - AC/DC Distribution System Upgrade

Project No:	MC-CL-XS6373	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 128 State Highway 20
Current Project Stage:	Stage 3 - Design	Council District:	Outside City of Seattle
Start/End Date:	2005 - 2028	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$17,164	Urban Village:	Not in an Urban Village

This project upgrades aging AC electrical distribution system at Ross Dam with a new electrical distribution system. It installs conduit, ducting, distribution panels and wire. It improves the 4 kV system, improves lighting, and provides improvements on top of the dam including a center substation room, emergency generator, valve houses, and a 130-volt battery bank. New conduit and conductors improve reliability of spillgate operations and other dam operations requiring electric power. New electrical equipment, new lighting, and the addition of emergency lighting allow staff greater operational flexibility, safety, and efficiency.

Security Improvements

Project No:	MC-CL-YD9202	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project plans, designs and implements projects, improving the physical security of City Light critical facilities, in order to mitigate unauthorized access and criminal activities that could cause significant system damage, power outages, and other related disruptions to the electrical system. The project reduces the risk of sabotage, vandalism, theft, and terrorism that can result in the loss of valuable infrastructure for generation and distribution of power. The project also reduces risk of noncompliance with North American Reliability Council (NERC) 1200 Standards to improve security at critical facilities that house command and control systems. It enhances reliability of the power system, reduces the risk of lost revenues, and reduces the jeopardy to public safety and emergency response due to loss of lifeline services such as medical services, water and wastewater systems, communications, law enforcement, banking, transportation system, etc.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project funds structural upgrades to buildings. This project is for miscellaneous, unidentified seismic issues other than the Georgetown Steam Plant, Service Centers and Substations, which are funded through other projects. The project protects City Light's assets, employees, customers, visitors, equipment, and materials.

Skagit - Babcock Creek Crossing

Project No:	MC-CL-XS6514	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Newhalem Creek Rd, Marblemount, WA 98267
Current Project Stage:	Stage 3 - Design	Council District:	Outside City of Seattle
Start/End Date:	2015 - 2028	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$935	Urban Village:	Outside City of Seattle

This project provides a permanent and more stable crossing across Babcock Creek, near Newhalem. The road to Babcock Creek provides access to a critical communication tower and currently only has a temporary bridge crossing it. The permanent crossing will be either a bridge or vented ford.

Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Outside City of Seattle

This project provides design and construction of several new structures to support industrial and recreational boat operations on our Skagit reservoirs. Structures include a new tour dock, new dry dock, additions to the existing boat houses and a new barge landing in Diablo. The project provides improved visitor access for the Skagit Boat Tour, safer boat fueling facilities, reduced impact of snowfall on boats, consolidated barge landings, and improved dry docks.

This ongoing project provides support of the relicensing activities for the Skagit River Hydroelectric Project including support of staff, environmental studies, documentation, and consultation needed to submit an application to relicense the project. Relicensing work will begin in 2019. The current Federal Energy Regulatory Commission (FERC) license for the Skagit Project expires in 2025, and the license application is due for submission to FERC in May 2023.

Skagit - Sewer System Rehabilitation

Project No:	MC-CL-XS6232	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 126 State Highway 20
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2015 - 2023	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$5,685	Urban Village:	Not in an Urban Village

This project funds the replacement or repairs of numerous sewer pipe breaks, leaks, and sags in the combined Skagit River sewer/drainage collection system, located at the Diablo Dam site and also provides major renovations to the aging Newhalem wastewater treatment plant. This project eliminates potential overloads in the sewage treatment plant that can cause pollution of the Skagit River and surrounding soil contamination.

Skagit Facilities Plan

Project No:	MC-CL-XS6520	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Newhalem Creek Rd, Marblemount, WA 98267
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	2010 - 2021	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Outside City of Seattle

This project implements a comprehensive facility plan to optimize buildings and structures at two Skagit town sites. The project preserves essential facilities that support SCL's power production needs, and retains important civic, cultural, and historic features in keeping with the historic preservation requirements of the Skagit FERC Licensing agreement. The project will reduce operational costs by dismantling and removing surplus facilities that require significant on-going maintenance.

Skagit Facility Conservation

Project No:	MC-CL-XS6515	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Newhalem Creek Rd, Marblemount WA 98267
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides funding for structural improvements to existing facilities at Skagit, both residential and commercial. It replaces lights, windows, and HVAC systems, insulates buildings, and performs related work. The project dramatically reduces the amount of energy expended to keep structures warm or cool depending upon the season.

Skagit Powerhouses - Install Protection Relays

Project No:	MC-CL-XS6415	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	500 Newhalem Creek Rd, Marblemount, WA 98267
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project enhances generating reliability by adding protective relays to generating systems at the Ross, Diablo, and Gorge plants, whose generator protective relays do not meet present IEEE Standards. The project funds the addition of microprocessor relays to the existing system, certain auxiliary protective equipment, and modifies the design of the existing protection system to upgrade functionality. This will limit the potential for damage when surges and faults occur in transmission lines due to lightning strikes, load rejections, and other unexpected events.

Total Project Cost:	\$114	Urban Village:	Not in an Urban Village

This project provides expansion of the AutoLab in the Seattle Municipal Tower to what is now the Central Files Room. The extra space will be used as an equipment lab for Power Production electrical engineers to conduct necessary testing of cyber security, remote monitoring and automation equipment in a simulation environment. The testing will be conducted prior to installing and activating the equipment at our generation sites. This project also provides required HVAC upgrades as well as the installation of equipment racks, wire ways, and access security.

Solar Microgrid for Resilience

Project No:	MC-CL-XF9238	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	New Investment	Location:	TBD
Current Project Stage:	Stage 6 - Closeout	Council District:	TBD
Start/End Date:	2016 - 2022	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$5,148	Urban Village:	Not in an Urban Village

This project provides construction of an islandable microgrid located at a City of Seattle designated emergency shelter such as a community center, where a solar photovoltaic (PV) system coupled with an appropriately-sized battery energy storage system will be installed. The project provides backup power to support critical emergency facilities and services during extended power outages when electricity distribution facilities are down due to a catastrophic event, such as an earthquake, severe windstorm (or associated flooding), fire or landslide. The Washington State Dept. of Commerce will grant the utility approximately half of the funding to cover the costs for this project.

Sound Transit - City Light System Upgrades

Project No:	MC-CL-ZT8475	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	Improved Facility	Location:	City Wide
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2017 - 2021	Neighborhood District:	Multiple
Total Project Cost:	\$1,075	Urban Village:	Multiple

This project increases the capacity of City Light power distribution systems to serve increased power requirements projected for Sound Transit's Link system. Initial upgrades will be in the Capitol Hill Sound Transit Station area. Construction there may be underway in 2017. Other areas projected to need power distribution system upgrades include area between the International District Station and Lake Washington, the University of Washington Station area, areas in the Rainier valley, and some areas along the proposed Lynnwood Link line.

Sound Transit 3 - City Light

Project No:	MC-CL-ZT8467	BSL Code:	BC-CL-Z
Project Type:	Ongoing	BSL Name:	Customer Focused - CIP
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides the engineering and construction of relocated and/or new Seattle City Light facilities required for two new light rail lines and related transit facilities from downtown Seattle to Ballard and West Seattle, approved in November 2017 as part of the Sound Transit 3 initiative. City Light activities include engineering and construction of electric power feeder relocations and upgrades, power services for the planned light rail lines, and various other tasks. Sound Transit's plans will require City Light work through several future budget cycles.

Sound Transit Light Rail East Link - City Light

Project No:	MC-CL-ZT8450	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	New Facility	Location:	I-90
Current Project Stage:	Stage 6 - Closeout	Council District:	Outside City of Seattle
Start/End Date:	2011 - 2021	Neighborhood District:	Central
Total Project Cost:	\$2,169	Urban Village:	Not in an Urban Village

This project plans for and relocates City Light's electrical facilities, as required by state law, enabling Sound Transit's construction of the East LINK light rail line from Seattle's International District Station to the Bellevue Redmond area. The department also plans to work with Sound Transit on a memorandum of agreement regarding cost reimbursement for its work, which is expected to be 100% reimbursable in keeping with past work with Sound Transit.

Sound Transit Lynnwood - City Light

Project No:	MC-CL-ZT8471	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	Rehabilitation or Restoration	Location:	City Wide
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2015 - 2025	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$13,875	Urban Village:	Outside City of Seattle

This project supports Sound Transit's Lynnwood Link, which will extend from the Northgate Transit Center at 5th Ave NE & NE 100th Street to our service area boundary at NE 200th Street, near the I-5 Right of Way. This project will include 100 blocks of relocations, a significant fraction of which will convert lines from overhead to underground. The project will install two feeders for each of the light rail line's traction power stations and upgrade the radial system's capacity where needed to serve the new load. The low and medium power service connections for the line's stations will be handled through the existing service projects, ?business as usual.?

Stormwater Compliance

Project No:	MC-CL-YD9236	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	City Wide
Current Project Stage:	N/A	Council District:	
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds the installation of lighted canopies and the associated drainage improvements that are necessary to bring City Light into compliance with the current rules and regulations. As a result of a City wide storm water audit and several surprise inspections from the Department of Ecology, it was discovered that there are several areas where measures are needed to bring City Light’s storm water protection program into compliance. Some of our facilities drain directly to Superfund sites and the successful implementation of a compliant storm water system not only reduces our liability in the short term, but it has a direct impact on the amount of funding we may be ordered to provide for the cleanup of current and future Superfund sites. Currently, City Light stores raw materials (gravel, cold mix, backfill material, vegetative matter), salvage material (wire, metal products, electronics, transformers, poles) and warehouse materials (timbers, unfinished metal, galvanized poles) outside, where product can leach into the drainage systems.

Streetlight LED Conversion Program

Project No:	MC-CL-ZL8441	BSL Code:	BC-CL-Z
Project Type:	Ongoing	BSL Name:	Customer Focused - CIP
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project upgrades streetlights with LED fixtures, which will reduce annual energy consumption by 40% (for those lights replaced), provide Greenhouse Gas avoidance of 5,446 metric tons of carbon per year, and reduce maintenance cost of the Utility's streetlight system. With a total system conversion, it is estimated that annual operating costs will be reduced \$3.7 Million per year. The savings in energy and maintenance costs will pay for the initial investment within the life of the new system.

Substation Automation

Project No:	MC-CL-YS8424	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project replaces and upgrades substation automation systems, including Remote Terminal Units (RTU) and annunciators, in each of City Light's fourteen substations, and upgrades equipment at two substations annually. The project reduces the likelihood and length of system outages due to failure as the current equipment is wearing out and cannot be replaced in kind because the equipment is no longer manufactured. The project also enhances energy efficiency, and reduces the probability of fines from appropriate governing bodies if loss of a substation, due to equipment failure, causes instability of the western interconnection grid and/or loss of load.

This ongoing project funds substation improvements identified in City Light's Comprehensive Facilities Plan, seismic fitness reports, and periodic inspections targeting transmission and distribution buildings. The project implements items necessary to support assigned personnel, such as lunchroom and locker room facilities required by the union contracts, as well as structural and mechanical corrections and enhancements at substation facilities.

Substation Equipment Improvements

Project No:	MC-CL-YS7752	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project adds, replaces, and upgrades substation equipment, particularly substation electrical and control equipment. The project also funds installation of remote control and monitoring of substation equipment from the System Control Center, which facilitates faster response time to correct system instability or outages. This work maintains and improves system reliability, permits compliance with high voltage and environmental regulations, and ensures safe work sites.

Substation Transformer Replacements

Project No:	MC-CL-YS7776	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	2136 N 163rd St, Shoreline
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides the review of power transformers at substations and determines dissolved gas concentration, insulation aging, oil leaks, maintenance cost, service stress, and fault interrupting history. The project replaces transformers prioritized by those with the highest risk of failure, or those presenting substation capacity limits. The project enhances system reliability by replacing aging substation transformers before they fail in service.

Tolt Relicensing

Project No:	MC-CL-XC6985	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Tolt River Dam
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides the necessary documentation with the FERC by June 2027 to either acquire a new operating license for the Project or decommission it. South Fork Tolt Hydroelectric Project (the Project) FERC License expires in July 2029. Without a license the Project cannot be legally operated. The FERC relicensing process will require preparing and filing a Notice of Intent (NOi), Preliminary Application Document (PAD), and Preliminary and Final License Applications. The PAD, which is due in 2024, will be a substantial document requiring consultant assistance and additional City Light staff resources. Work began in 2021 to prepare the PAD and start the relicensing process. The main study phase of relicensing will occur in 2025 and 2026, which will require consultant and agency support for studies, reporting, and preparation of the license application which is due in 2027. If City Light were to decide to cease operating the Project instead of relicensing it, a Decommissioning Application would need to be filed, which requires many of the same elements and funding to complete this work.

Underground Customer Driven Capacity Additions

Project No:	MC-CL-YR8360	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides electrical lines from substations to customers' property lines. This project builds new and replaces old underground line segments, and may replace rotten and damaged poles in the distribution system that have underground facilities beneath them. This work is driven by specific customer projects, for their direct benefit, to identify and upgrade feeders that are impacted before the new load from those projects comes online. City Light is reimbursed by the customers for this work.

University Substation - Network

Project No:	MC-CL-YN8464	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	645 NW 45Th
Current Project Stage:	N/A	Council District:	Council District 4
Start/End Date:	N/A	Neighborhood District:	Northeast
Total Project Cost:	N/A	Urban Village:	University District

This ongoing project funds a programmatic approach for comprehensive management of underground network assets serving customers in the University area. This project funds annual work required, such as feeder balancing, engineering analysis to determine system feeder assignments for new services, and replacement of cables that fail while in service. It reduces the probability of cable failures and long costly customer outages.

Western Energy Imbalance Market

Project No:	MC-CL-XP9976	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	System Wide
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2017 - 2021	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$13,993	Urban Village:	Not in an Urban Village

This project provides funding to allow City Light to participate in the Western energy imbalance market (EIM) run by the California Independent System Operator (CAISO). City Light will need IT systems, an implementation agreement with CAISO, possible additional staff and training to participate in the market. Participation will allow City Light to more efficiently use generation and transmission assets, buy and sell energy in shorter term increments, and use pricing to match loads and resources across more buyers and sellers than existing markets currently permit. By doing this, City Light will more effectively integrate renewable energy across the West due to its flexible hydro capacity. City Light is planning to begin participating in the market in the spring of 2019.

Seattle Public Utilities

Drainage and Wastewater

Overview

Seattle Public Utilities (SPU) maintains the network of sewer and drainage systems throughout the City of Seattle. These systems include approximately:

- 448 miles of sanitary sewers
- 968 miles of combined sewers
- 68 Pump Stations
- 5.5 miles of wastewater force mains
- 84 City-owned and permitted Combined Sewer Overflow points
- 38 Combined Sewer Overflow control detention tanks/pipes
- 481 miles of storm drains / 290 storm drain outfalls
- 33,750 catch basins
- 65 miles of ditches, 128 miles of culverts
- 30 miles of stream channel (49 creeks, 6 of which are salmon bearing)
- 9 acres of green stormwater infrastructure
- 17 detention/treatment ponds
- 295 drainage flow control facilities
- 578 water quality structures

The Drainage and Wastewater (DWF) Capital Improvement Program (CIP) is the vehicle for rehabilitating, replacing, improving, and expanding this infrastructure, as well as constructing projects that protect and enhance our City's public health and environmental resources. Planned spending in the DWF CIP is approximately \$1.24 billion over the next six years, from 2022 to 2027.

Thematic Priorities/Project Selection Criteria

The goal of the DWF CIP is to construct facilities that reduce the frequency of flooding and sewer backups for customers and improve water quality and habitat in the environment by reducing sewage overflows and the impacts of flooding and stormwater pollution. Projects in the DWF CIP are guided by various Federal regulations, City policies, long-term plan documents, the Drainage Systems Analysis, the Wastewater System Analysis, and the SPU Asset Management Committee (AMC) benefit criteria. Many DWF CIP projects are outlined in the Plan to Protect Seattle's Waterways and Asset Management Plans. In addition to candidate capital projects identified from these planning documents, projects are identified from external projects and opportunities and emergencies or other unexpected events. All potential capital projects are prioritized for consideration into the CIP budget. Priority rankings are based on the following set of criteria:

- **Public Health, Safety & Environment:** The overriding priority for the DWF is protecting public health and safety, improving services to customers and decreasing our impact on the environment. Examples of highly ranked projects in this category include the South Park Pump Station, Localized Flood Control program, Sanitary Sewer Overflow Capacity program, South Park Water Quality Facility, and NDS Partnering.
- **Infrastructure Reliability & Risk:** How a project addresses infrastructure conditions or vulnerabilities, based on an understanding of the consequence of a risk occurring and its likelihood. Examples of highly ranked projects in this category include the Pipe Rehabilitation and Pump Station improvement programs.

2022-2027 Proposed Capital Improvement Program

- **Regulatory, Mandates, Legal Agreements:** The City of Seattle/SPU must meet State and Federal regulatory requirements to comply with the Clean Water Act (CWA) and the Consent Decree that was entered in court on July 3, 2013, between the City, the U.S. Environmental Protection Agency (EPA), and the U.S. Department of Justice (DOJ). The two most significant regulatory drivers associated with the CWA are the National Pollutant Discharge Elimination System (NPDES) Waste Discharge Permit (aka NPDES CSO Permit) and the NPDES Phase I Municipal Stormwater Permit (aka NPDES MS4 Permit). This ranking category considers the degree to which the project is driven by Federal, State, and local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties and the specific mandates of the City Council and Mayor. Examples of highly ranked projects in this category include the Ship Canal Water Quality Project, CSO Retrofits, South Park Water Quality Facility, and Natural Drainage System (NDS) Partnering.
- **External Drivers and Opportunities:** SPU's responsiveness to, or engagement with, the projects of other Departments or jurisdictions, or opportunities to provide multiple benefits, address service equity, or reduce ratepayer costs through outside funding opportunities. Examples of highly ranked projects in this category include the Seattle Department of Transportation's Move Seattle projects.
- **Service Equity:** Factors in service equity are incorporated into the prioritization of potential projects in any program based on amalgamated data from the Office of Sustainability and Environment, including race, education, language and median income. Known disparities of historical service levels are also considered within racial equity planning tools such as stakeholder analyses and inclusive outreach planning.

Every project is rated against each criterion. Criteria ratings are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each LOB, with reviews by key internal stakeholders. Project priority rankings are used to clarify and document which projects are most important and why, to help determine which projects at the margin will be included, excluded or deferred from the CIP, and which projects should receive priority attention if a staff or financial resource constraint should arise.

To aid SPU in making responsible decisions on behalf of ratepayers prioritized projects must then be justified through a business case process that establishes that a problem or opportunity is timely and important and that the proposed solution is superior to alternatives based on a triple bottom line analysis (economic, environmental, and social) of life-cycle benefits and costs. The process also recognizes that a project may be a "must-do" project (e.g. required by regulations). Business Cases must be approved by the SPU CEO/General Manager and Asset Management Committee.

DWW Priorities that are also Mayor/Council Priorities

Improvements to DWW infrastructure result in safer communities, a healthier environment, and regulatory compliance which are goals inherent within the Mayor's key values (safe, affordable, vibrant and interconnected City that fosters innovation).

- **Aligning Capital Investments with Community Planning.** SPU has aligned planning for the South Park Water Quality Facility with the Office of Planning and Community Development's Open Space planning in the S. Park Urban Village area and the Duwamish Valley Action Plan.

2022-2027 Proposed Capital Improvement Program

- **Aligning Capital Investments with Seattle Department of Transportation’s modal plan.** SPU has several projects to facilitate citywide interconnectivity efforts:
 - Primary investments are around supporting transportation led projects as part of the Move Seattle Levy, described below within the shared costs projects Budget Control Level (BCL).
 - SPU is also leading a joint SPU/SDOT project in the South Park industrial area providing long desired Drainage Conveyance and Roadway infrastructure.
 - The NDS Program, described below, collaborates with SDOT and has identified numerous joint sidewalk/bioretenction project locations.
- **Expand use of Green Stormwater Infrastructure** has been identified by Mayor and Council as a priority. Projects that will help achieve the Citywide stretch goal to manage 700MG of stormwater annually with GSI by 2025, include the following:
 - The Natural Drainage Systems (NDS) Partnering program will use bioretention to reduce storm water pollution in creeks and to improve neighborhoods. The NDS Partnering Program will build natural drainage systems along approximately 66 blocks (330’ block equivalents) in the Longfellow, Thornton, and Pipers Creek watersheds. The first of these projects was 30th Ave NE, with construction led by SDOT, which was completed in 2019.
 - GSI in Urban Villages Program. SPU and Council created the GSI in Urban Villages Program to complement proposed up zones through HALA, as well as the City’s overall growth strategy. This new program has flexibility to address a variety of system problems within urban villages and urban centers, including flooding, sewer backups, water quality, and creek protection. Early Green Infrastructure in Urban Villages projects include Cloverdale Bioretention (South Park neighborhood, construction 2021), Crown Hill GSI and Lake City Floodplain Park (Options Analysis in progress), and a variety of development partnerships.
 - RainWise Program fights water pollution by offering rebates to property owners for controlling stormwater at residences, schools, and businesses. This program was developed by SPU but is now delivered jointly with King County Wastewater Treatment Division. Over 1,500 Seattle residents and businesses have installed voluntary rain gardens or cisterns through this program, managing over 26 million gallons of runoff every year.

CIP Highlights

2022-2027 Proposed Drainage and Wastewater Fund CIP by BCL (In ‘000s; total may not sum due to rounding)

2022-2027 Proposed Capital Improvement Program

Protection of Beneficial Uses: This program makes improvements to the City’s drainage system to reduce the harmful effects of stormwater runoff on creeks and receiving water bodies and preserves the storm water conveyance function of our creeks through stream culvert repair and rehabilitation. The program includes projects to meet regulatory requirements, primarily NDS Partnering Projects (a key component of Seattle’s Plan to Protect Seattle’s Waterways) which improves water quality with GSI approaches while partnering with SDOT to provide streetscape enhancements. The program also includes projects that are part of the SPU and Council-created GSI in Urban Villages Program. Funding in the DWF CIP is focused on cost effective stormwater and water quality projects such as NDS Partnering, GSI in Urban Villages projects, Capitol Hill Water Quality project, and the Taylor Creek Culvert Replacement project.

Sediments: The City of Seattle is a Potentially Responsible Party (PRP) for cleanup liabilities for contaminated sediments at the Lower Duwamish Waterway Superfund Site, the Harbor Island Superfund Site, and Gas Works Park because of alleged historic contributions from Combined Sewer Overflows (CSO) and storm drain discharges, or other City-owned facilities. The City continues to work with EPA, the Washington State Department of Ecology, King County, and other PRPs on an assessment of contaminants and sources. The Sediments program provides funding for studies and analysis for cleanup of contaminated sediment sites in which the City is a participant, for engineering design and construction of actual cleanup of contaminated sites, and for liability allocation negotiations. The study phase of sediment remediation projects often requires multiple years before specific cleanup actions are defined. Current projections reflect cleanup construction adjacent to Gasworks Park, the Duwamish Waterway Sediment Remediation, and East Waterway Remediation projects beginning in 2024 based on preliminary schedules.

Combined Sewer Overflows: This program consists of projects that are mandated by State and Federal regulations to control combined sewer overflows (CSOs) into the City's receiving waters. During heavy rainfall events, the combination of stormwater (about 90 percent of the volume) and sewage may exceed the capacity of the combined sewer system (CSS) and overflow into our waterways – causing a combined sewer overflow (CSO). CSOs spill a mixture of raw sewage and stormwater into local waterways at 85 outfalls throughout the City. In some instances, these spills may violate water quality standards, create unacceptable risk to public health, contaminate sediment and habitat for endangered species and pollute the Puget Sound.

Annual CSOs have been reduced from 20-30 billion gallons per year by both the City and the County in 1970 to about 1 billion gallons per year, today. The City’s overflows account for 100-200 million gallons per year. SPU currently does not meet regulatory mandates that limit CSOs to one untreated overflow per outfall location per year. SPU is required by State and Federal law to achieve control of CSOs by 2030. The CSO Long Term Control Plan (LTCP), also called the Plan to Protect Seattle’s Waterways, was approved by regulators in May 2015. Ultimately the Consent Decree requires completion of construction of all CSO reduction projects by December 2030. CSOs must be proven to be controlled one year after completion of construction. Continuing investments in CSO control will enable SPU to achieve compliance with the 2030 milestone.

Projects in the CSO Program include large infrastructure projects (e.g. storage structures, pipes, tunnels, wet weather treatment plants, stormwater separation, pump stations, etc.), smaller retrofits, construction of Green Stormwater Infrastructure (GSI) for CSO control, and development and

2022-2027 Proposed Capital Improvement Program

implementation of regulatory required plans such as the Plan to Protect Seattle's Waterways. The largest project in the DWF CIP is the Ship Canal Water Quality Project (SCWQP). The SCWQP consists of a 2.7-mile-long, approximately 18-foot-diameter tunnel that, when completed, will capture and store approximately 75 million gallons of sewage and stormwater flows from Ballard, Fremont, Wallingford and Queen Anne.

Other key efforts in the program include Pump Station 13 Upgrade and Force Main Rehabilitation and Pump Station 22 Retrofit and Force Main Upgrade. Planning work is underway and will continue through the coming years for additional CSO reduction efforts to meet CSO Consent Decree compliance date requirements. SPU currently expects to spend approximately \$350 million over the next six years on CSO reduction projects. The majority of this spending is associated with the SCWQP.

Rehabilitation: This program consists of projects that repair, rehabilitate or replace existing drainage and wastewater assets to maintain or improve the current functionality level of the system. Assets that are addressed include:

- pump station structures, airlift conversions, major mechanical, ventilation and electrical components;
- drainage facilities including water quality structures, flow control structures and large surface water facilities; and
- drainage and wastewater conveyance pipes and structures (catch basins, maintenance holes and sandboxes).

Work within this program is a critical component to achieving SPU's Consent Decree target of four sanitary sewer overflows per 100 miles of sewer pipe annually. Individual projects are defined by the type and method of rehabilitation and/or replacement and include emergency rehabilitation, no-dig pipe lining rehabilitation by crews or contract, full mainline dig pipe replacement by contract, dig point sewer pipe and structure rehabilitation by crews or contract, and pump station repairs or replacement by crew or contractor.

This proposed budget will include a new drainage facility master project to rehabilitate or replace water quality structures, flow control structures and large surface water facilities by crew or contractor.

Flooding, Sewer Back-up, and Landslides: This program is responsible for preventing and alleviating flooding and sewer backups in the City of Seattle, with a primary focus on the protection of public health, safety, and property. The program area is focused on planning, design, and construction of new pipes, ditches, culverts, detention facilities, and GSI that control and/or convey storm runoff to the ultimate discharge locations of creeks, lakes, and the Puget Sound. This program also involves protecting SPU drainage and wastewater infrastructure in landslide prone areas, both from impending small landslides, and providing drainage improvements where surface water generated from the City right-of way is contributing to small landslides. Lastly, this program also includes sewer capacity projects that reduce sewer backups and helps lower the risk of exceeding the Consent Decree target of four sanitary sewer overflows per 100 miles of sewer pipe per year. Major projects in this program include the Pearl Street SSO reduction project, the 12th Avenue drainage project, and the South Park Water Quality and Pump Station project. The South Park Water Quality Facility is a regulatory commitment within the Plan to Protect Seattle's Waterways.

Shared Cost Projects: This program includes individual capital improvement projects which typically benefit multiple Lines of Business (LOB) (e.g. the Water LOB and the Drainage and Wastewater LOB) and whose costs are "shared," or paid for by more than one of SPU's utility funds.

The Proposed Budget for the Shared Cost program includes budgets for a number of interdepartmental projects including the Alaskan Way Viaduct and Seawall Replacement, Move Seattle, Center City Streetcar, and Sound Transit Link Light Rail. This BCL also includes funding for SPU Facility Improvements such as the South Operations Center, the North Operations Center, and a new dewatering facility near the South Transfer Station. Other programs in this BCL include DWW Heavy Equipment Purchases, 1% for the Arts, and several smaller projects.

Technology: The Technology CIP is managed in six program areas that provide a department-wide view of technology investments to address SPU's strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing;
- Enterprise Information Management;
- IT Infrastructure;
- Project Delivery & Performance;
- Science & System Performance; and
- Asset Information Management.

Investments in 2021 address several of SPU's key initiatives, including:

- Financial Management and Internal Controls;
- Operational Excellence and Performance Management;
- An Easy and Engaged Customer Experience;
- Data-driven Decision Support; and
- Project Delivery/Project Controls.

In 2022, SPU will continue focusing its technology spending on the highest priority business needs. These projects would primarily be within the Customer Contact and Billing Program, Project Delivery and Performance Program, as well as the Asset Information Management Program.

With the new Customer Information System (CIS) already in place, the next major projects for SPU within the Customer Contact and Billing Program include the Utilities Customer Self-Service Portal project, the Customer Contact and Billing Upgrade, CIS Workflow, and the CIS Reporting. Other projects slated would be enhancements to SPU's Enterprise Project Management System and the Development Systems Integration project, and the Maximo Business Intelligence upgrade along with other projects that have been deferred in previous years.

CIP Revenue Sources

Historically, the DWF CIP has been funded primarily by revenue bonds serviced by ratepayers. However, DWF financial policies adopted in 2003 gradually increase cash contributions from SPU to fund the CIP. By 2007, a 3-year average of 25 percent of total CIP costs were funded by a cash contribution, with the remaining capital needs being debt financed.

2022-2027 Proposed Capital Improvement Program

SPU's DWF CIP is funded largely by Drainage and Sewer ratepayers. SPU issues bonds, serviced by ratepayers that cover approximately 75 percent of the CIP, with the remainder funded by cash. DWF rates were approved by the Mayor and City Council in 2021 for the three-year period of 2022-2025.

SPU also actively seeks grants and low-interest loans. Loans like this offer a lower interest rate than what SPU can borrow/issue debt and offset the need to draw down extra dollars from the construction fund. SPU also receives Remedial Action Grants from the Washington State Department of Ecology for up to 50 percent of sediments cleanup project costs.

Summary of Upcoming Budget Issues and Challenges

The biggest challenge for DWF will be continuing to manage priority projects while still complying with regulatory requirements from the EPA, and Washington State Department of Ecology (DOE) - all within the financial limitations of the Fund.

The City negotiated a Consent Decree between the City, the EPA, and the DOJ for compliance with the CWA and State regulations. The Consent Decree was entered in court on July 3, 2013, and includes deadlines for development and implementation of the LTCP and will drive spending in the CSO Reduction Program over the next several years. The Consent Decree also includes requirements to implement a Capacity Management, Operations and Maintenance (CMOM) Program, which drives operations and maintenance spending and CIP spending in the Rehabilitation Program. Additionally, an NPDES permit for stormwater includes requirements to help protect local waterways and the Puget Sound from damaging pollutants and excessive runoff. This increased regulatory emphasis on protecting and improving water quality has resulted in the need for the City to make substantial investments in detention, water quality treatment (e.g., GSI), CSO retrofits, pipe and pump station rehabilitation, and inflow/infiltration reduction.

- Detention: This focuses on storing stormwater and/or sewage during a rainfall event and can be accomplished through detention ponds (for stormwater), GSI (for stormwater) or underground tanks or tunnels (for both wastewater and stormwater). Detention can be added to the drainage system to offset the impacts of larger storms that overwhelm the conveyance capacity of the combined sewer system and can result in backups of sewage, localized flooding and releases of untreated sewage.
- Water Quality Treatment: This focuses on removing pollutants and can be accomplished through GSI or the use of technology such as specialized media filters. GSI is the use of green solutions to help reduce untreated overflows by allowing stormwater to infiltrate slowly into the ground, cutting the volume of stormwater entering the system, and providing water quality treatment through natural processes as the polluted runoff comes in contact with the soil and vegetation. The use of GSI is required as part of development through Seattle's NPDES permit and Stormwater Code.
- CSO Retrofits: This focuses on optimizing the existing collection, pumping and storage systems, using low-cost repairs and modifications to reduce overflows to waterways.
- Pipe and Pump Station Rehabilitation: This consists of repairing, rehabilitating, or replacing existing gravity sewer pipes, wastewater pump stations, and/or force mains that have deficiencies or have reached the end of their useful life.

2022-2027 Proposed Capital Improvement Program

- Inflow/Infiltration Reduction: This focuses on filling in cracks in sewer lines that allow groundwater to enter the system. It also addresses parts of the system where there are direct stormwater connections to the sanitary sewer system which can/should be directed to a separated stormwater system. By reducing inflow/infiltration, it is possible to reduce the frequency and volume of SSOs and sewer backups.

Other challenges DWF faces in meeting its obligations:

- 1) Addressing public expectations: it is challenging to address public expectations around our basic service level programs, such as flooding and system capacity. SPU is unable to prioritize these programs at this time due to rate pressure caused by the significant costs of the federally mandated consent decree. The separated drainage and wastewater systems are at capacity during storm events, or lacking the fundamental infrastructure at various locations across the City. The impacts can range from very serious (basement sewer back-ups) to nuisance (limited street or yard flooding) issues.
- 2) Construction Costs: due to market conditions and building large infrastructure in dense urban areas costs to construct drainage and wastewater infrastructure have increased significantly putting additional pressure on the portfolio.
- 3) Climate Change: increasing rainfall intensities resulting from climate change are increasing pressure on drainage and wastewater infrastructure leading to increased CSOs and driving the need for larger solutions and additional system improvements.

Future Projects/What is on the Horizon

Over the next 10 years, the DWF CIP will be driven largely by regulatory requirements, major transportation projects, and Operations Crew Facilities. Major projects include the completion of the Ship Canal Water Quality Project, sediment remediation, and other projects necessary under the LTCP/Plan to Protect Seattle's waterways, and localized flooding reduction in Broadview, and flood reduction and water quality improvements in South Park.

SPU is moving forward with a comprehensive planning effort within the [Shape Our Water](#) plan. The result of this effort will be an integrated system plan, to better identify the highest priority locations and potential funding and financing strategies. The Shape Our Water project will provide a 50-year plan for managing and improving Seattle's drainage and wastewater systems and increasing our water resilience. Through this planning effort, SPU will identify the partnerships, programs, and projects that will improve the performance and resilience of our drainage and wastewater systems while optimizing social and environmental co-benefits for the City. We are developing our plan through technical analysis, robust community engagement and an integrated approach to planning. By the end of 2023, SPU will have near- and long-term plans for drainage and wastewater programs, partnerships, and infrastructure investments over the next 50 years. This planning is part of building a better Seattle by providing drainage and wastewater services that are affordable, safe, green, and just in a climate uncertain future.

Beneficial Uses Program

Project No:	MC-SU-C3317	BSL Code:	BC-SU-C333B
Project Type:	Ongoing	BSL Name:	Protection of Beneficial Uses
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project develops drainage related projects to improve the water quality, stream function and habitat in the streams and receiving waters of Seattle. Projects include stream and habitat restoration to reduce flooding, culvert repair and replacements to protect public safety, and green stormwater infrastructure projects to address flooding and control and clean runoff to streams.

Broadview Long-Term Plan

Project No:	MC-SU-C3812	BSL Code:	BC-SU-C380B
Project Type:	Ongoing	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	Broadview
Current Project Stage:	N/A	Council District:	Council District 5
Start/End Date:	N/A	Neighborhood District:	Northwest
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

The Broadview Long-Term Plan had been an ongoing program to address longstanding drainage and wastewater problems. The current funded capital project within that program is the 12th Avenue NW Drainage Basin project, which addresses public and private flooding problems in that area by providing stormwater detention and green infrastructure.

Resources	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total

Creek Culvert Replacement Program

Project No:	MC-SU-C3314	BSL Code:	BC-SU-C333B
Project Type:	Ongoing	BSL Name:	Protection of Beneficial Uses
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides for the repair and replacement of stream culverts that are part of SPU's critical drainage infrastructure. Culverts are prioritized for repair or replacement based on structural condition. Projects are then sequenced based on prioritization and other factors such as readiness to proceed, ability to address other drainage needs (e.g., flooding, maintenance), potential partnerships, synergies with other projects and availability of funding.

CSO Facility Retrofit

Project No:	MC-SU-C3611	BSL Code:	BC-SU-C360B
Project Type:	Ongoing	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project retrofits, upgrades, and modifies existing Combined Sewer Overflows (CSO) reduction facilities in Seattle CSO basins. Retrofit projects cost-effectively optimize and maximize existing system operation to minimize CSOs to the greatest extent possible, reducing long term CSO storage needs. This project assists in achieving State Department of Ecology's requirement of an average of no more than one CSO event per outfall per year.

Drainage Capacity Program

Project No:	MC-SU-C3802	BSL Code:	BC-SU-C380B
Project Type:	Ongoing	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides flood control and local drainage and wastewater projects to improve system capacity or increase the existing level of service. Candidate projects are identified through DWW investigations, claims, complaints, studies, and prior planning. Drainage “spot” projects and small landslides prevention projects are also included within this program. The Localized Flood Control Program improves Drainage and Wastewater levels of service.

This project is for future combined sewer overflow (CSO) reduction projects that will be identified through the CSO Long-Term Control Plan (LTCP) Update. Future projects are most likely to include underground storage projects, wastewater lift station improvements, and/or wastewater conveyance system improvements. Planning for the projects began in 2018, and the projects should complete their construction by 2030.

Green Stormwater Infrastructure Program

Project No:	MC-SU-C3610	BSL Code:	BC-SU-C360B
Project Type:	Ongoing	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides construction of Green Stormwater Infrastructure (GSI) as a component of combined sewer overflow (CSO) reduction within the uncontrolled CSO basins. Work includes roadside bioretention and the RainWise program. RainWise provides financial incentives to private property owners within our uncontrolled CSO basins for construction of properly sized and installed raingardens or cisterns. The program supports the City's current regulatory strategy for compliance with CSO National Pollutant Discharge Elimination System (NPDES) permit.

GSI for Protection of Beneficial Uses

Project No:	MC-SU-C3316	BSL Code:	BC-SU-C333B
Project Type:	Ongoing	BSL Name:	Protection of Beneficial Uses
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides construction of Green Stormwater Infrastructure (GSI) within the separated stormwater system. Work includes right-of-way retrofits with bioretention and/or biofiltration for water quality treatment and flow control, as well as potential expansion of private property incentives for construction of properly sized and installed rain gardens or cisterns (RainWise program) into creek watersheds. The Natural Drainage Systems Projects within this program will achieve the water quality goals for the NDS Partnering Program identified in Seattle’s Plan to Protect Seattle’s Waterways (the Long Term Control Plan requirement within our Consent Decree) while coordinating with SDOT and community groups to deliver co-benefits such as sidewalks. The program also includes projects that are part of the SPU and Council created GSI in Urban Villages Program which will deliver multi-purpose green infrastructure projects in urban villages and urban centers through community partnerships and development synergies.

Long Term Control Plan

Project No:	MC-SU-C3604	BSL Code:	BC-SU-C360B
Project Type:	Ongoing	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project supports the ongoing implementation of SPU's Combined Sewer Overflow (CSO) Reduction Long Term Control Plan (LTCP) in accordance with SPU's National Pollutant Discharge Elimination System (NPDES) permit and the Federal CSO Control Policy. On May 1, 2012, the Environmental Protection Agency/Department of Justice issued a draft Consent Decree to the City of Seattle which requires the development and submission of a Long-Term Control Plan for approval by May 30, 2015. It further stipulates that all CSO Control Measures are to be constructed as expeditiously as practicable, and in no event later than December 31, 2030. The Consent Decree also allows the City to propose storm water control project(s) as part of an Integrated Plan, in addition to the CSO Control Measures. The LTCP identified projects and programs to reduce the number and volume of CSOs, meet receiving water quality standards, and protect designated beneficial uses. The LTCP includes flow characterization, monitoring, and hydraulic modeling; development of CSO control alternatives; development of control alternatives that takes into consideration costs and performance; operational plan revisions; public participation; implementation schedule; and post-construction monitoring.

Pipe Renewal Program

Project No:	MC-SU-C3710	BSL Code:	BC-SU-C370B
Project Type:	Ongoing	BSL Name:	Rehabilitation
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

SPU operates and maintains approximately 1,423 miles of wastewater conveyance (combined and separated) pipe. The age of this infrastructure varies; however, significant portions of the system were constructed prior to 1950. This ongoing program repairs, replaces, rehabilitates and renews the conveyance system by SPU crews and various contracting construction projects.

Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides for improvements and upgrades to the 68 SPU-owned wastewater pump stations and force mains. Typical improvements may include, but are not limited to, replacement of existing pump station assets including pumps, motors, and valves, and installation of new assets such as SCADA systems, generators, and emergency plugs. This project enhances and extends the useful life of the existing pump stations which protects water quality.

Sanitary Sewer Overflow Capacity

Project No:	MC-SU-C3804	BSL Code:	BC-SU-C380B
Project Type:	Ongoing	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program is designed to improve sanitary sewer service to Seattle customers by addressing current and projected capacity limitations of the wastewater system through capital project improvements. Such improvements may include demand management measures such as infiltration and inflow (I/I) reduction, increased conveyance capacity, and individual customer measures such as installation of backflow preventers or grinder pumps to reduce the risk that customers will experience backups of sewage into their homes and businesses during storm events.

Sediment Remediation

Project No:	MC-SU-C3503	BSL Code:	BC-SU-C350B
Project Type:	Ongoing	BSL Name:	Sediments
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program provides for City of Seattle participation in cleanup of contaminated sediment sites at multiple locations across Seattle for which the City's drainage and wastewater utilities may have some liability. Typical phases of such projects include preliminary studies and analyses, preliminary engineering for actual cleanup efforts, and liability allocation negotiations. This program enhances the natural environment of Seattle and addresses both State and Federal regulatory agency requirements.

Ship Canal Water Quality Project

Project No:	MC-SU-C3614	BSL Code:	BC-SU-C360B
Project Type:	Discrete	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	West Ship Canal
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2014 - 2027	Neighborhood District:	Multiple
Total Project Cost:	\$570,000	Urban Village:	Multiple

The City of Seattle (the City) has prepared a comprehensive strategy, called The Plan to Protect Seattle's Waterways (the Plan) to reduce overflows and discharge of pollutants from combined sewers and the storm drain system. The City must control sewer discharges to protect public health, the environment, to comply with the Clean Water Act, the United States District Court Consent Decree, and State regulations. On May 29, 2015, the City submitted the plan to EPA and Ecology for approval. The largest project identified in the Plan is the Ship Canal Water Quality Project. This project is a joint project between SPU and King County to design and construct a storage tunnel to capture Combined Sewer Overflows for 5 SPU outfalls and two King County outfalls. The tunnel will be 2.7 miles long and run from Wallingford to Ballard. The tunnel will be approximately 18 feet in diameter and have a storage volume of about 30 million gallons. The purpose of the project is to bring all seven outfalls into compliance with the State's control standard of one untreated overflow per year per outfall on a 20-year moving average. Note all City/County funding allocations are for informational purposes, only. Actual resource allocations will be determined through ongoing project governance agreements and interagency coordination between the City and King County.

Resources	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total

South Park Stormwater Program

Project No:	MC-SU-C3806	BSL Code:	BC-SU-C380B
Project Type:	Discrete	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	698 S Riverside DR
Current Project Stage:	Stage 3 - Design	Council District:	Council District 1
Start/End Date:	2006 - 2025	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$134,876	Urban Village:	Greater Duwamish

This program constructs a pump station (PS), a water quality facility (WQF), and additional drainage conveyance in South Park. The PS will allow the existing storm drain outfall to drain the system when the tide is high and will support future drainage projects. The WQF will treat most stormwater flows from the basin, reducing pollutant loading to the Duwamish. Excessive flows will bypass the WQF and be pumped directly to the river. This program was formerly titled "South Park Pump Station."

Thornton Confluence Improvement

Project No:	MC-SU-C3811	BSL Code:	BC-SU-C380B
Project Type:	Discrete	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	Thornton Creek
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2008 - 2019	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$7,907	Urban Village:	Not in an Urban Village

This project provides creek realignment, floodplain excavation, culvert replacement, and riparian plantings at the confluence of the north and south branches of Thornton Creek. SPU has acquired a number of flood prone properties in this area over the last decade. Using these properties, this project increases culvert capacity, floodplain area and flood storage, and provides stream habitat benefits. The project will help alleviate flooding and reduce maintenance at Meadowbrook Pond.

Seattle Public Utilities

Solid Waste

Overview

Seattle Public Utilities (SPU) collects and disposes of solid waste generated within the City of Seattle. To fulfill this responsibility, the City owns and manages the following significant infrastructure:

- Two transfer stations;
- One recycling and re-use facility;
- Two household hazardous waste facilities;
- A fleet of trucks and heavy equipment; and
- Three closed landfills previously used by the City.

The Solid Waste Fund (SWF) Capital Improvement Plan (CIP) is the planning tool for rehabilitating, replacing, improving, and expanding infrastructure, as well as constructing projects that protect, conserve, and enhance our region's environmental resources. Planned spending in the SWF CIP is approximately \$85 million over the next six years, from 2022 through 2027.

Major anticipated projects include:

- Cleanup of the historic South Park Landfill (2023-2025) at the South Park Development Project.
- Minimum operational improvements prior to the full redevelopment of the old South Transfer Station campus (2023-2025).

These projects comprise approximately 62% of the SWF CIP. Other significant projects include the Waste Removal project at the Midway Landfill, replacing two compactors, major repair to the South transfer Station tipping floor, drainage improvements at both Transfer Stations, and SPU's annual equipment investment.

Thematic Priorities

The SWF places a high priority on managing environmental issues and addressing regulatory requirements related to current and historic solid waste facilities while protecting employees and customer health and safety and extending the useful life of the two transfer stations.

- Managing environmental issues and regulations: SPU is required to improve former landfill sites and act as necessary when conditions change. For example, underground gas levels at these sites are monitored. When increasing gas levels are detected, SPU implements improvements to extract the excess gas or otherwise mitigate the environmental impacts of the gas increase. Landfill projects are also triggered by Washington State Department of Transportation improvements to Interstate-5 that require modification to landfill infrastructure in the right-of-way and support of Sound Transit projects that impact the Midway Landfill. Additionally, the new transfer stations are designed to reduce the environmental impacts of the existing stations on neighboring communities.

Project Selection Criteria

SPU identifies candidate capital projects from several sources – planning (e.g., comprehensive plans, program plans), external projects and opportunities, and emergencies or other unexpected events. Under SPU's Asset Management System, projects must be justified through a business case process that

2022-2027 Proposed Capital Improvement Program

establishes that a problem or opportunity is timely and important and that the proposed solution is superior to alternatives based on a triple bottom line analysis (economic, environmental, and social) of life-cycle benefits and costs. The process also recognizes that a project may be a “must do” project (e.g. required by regulations or Consent Decrees).

Prioritization of SPU projects are based on the following set of criteria:

- **Regulatory Mandates, Legal Agreements:** The degree to which the project is driven by Federal, State, and local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties. Examples of highly ranked projects in this category include the South Park Development project and Kent Highlands and Midway Landfills programs.
- **External Drivers:** SPU’s responsiveness to, or engagement with, the projects of other departments or jurisdictions, and the specific mandates of the City Council and Mayor. An example of a project in this category is the 1% for Arts program.
- **Infrastructure:** How a project addresses infrastructure conditions or vulnerabilities. An example of a highly ranked project in this category is the operational improvements at the South Transfer Station.
- **Level of Service:** The importance of this project in providing or improving services to customers. An example of a highly ranked project in this category is the replacement of two compactors at the transfer stations.
- **Other Factors:** Other important factors include high net present value or cost-effectiveness, social or environmental benefits that were not otherwise recognized, a project already in progress or near completion, limited time opportunity, demonstration projects, community visibility, or outside funding.

Every project is rated against each criterion. Criteria are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each LOB, with reviews by key internal stakeholders. The ranking scheme and criteria are the same for all LOBs and are approved by the SPU General Manager/CEO and Asset Management Committee. Project priority rankings are used to clarify and document which projects are most important and why, to help determine which projects at the margin will be included, excluded or deferred from the CIP, and which projects should receive priority attention if a staff or financial resource constraint should arise.

CIP Highlights

Shared Cost Projects	4,561	2,550	2,517	795	823	338	11,584
Technology	1,508	1,508	1,508	1,507	1,508	1,508	9,045
Total	14,675	17,616	20,862	6,800	4,084	2,345	66,381

New Facilities: This program includes the planning, design, and construction of new facilities to enhance solid waste operations. In 2022, SPU will continue to implement its Solid Waste Facilities Master Plan. The key project drivers of the New Facilities budget are the South Park Development (landfill cleanup) and the South Transfer Station operational improvements projects.

Rehabilitation and Heavy Equipment: This program includes design and construction of projects that repair and/or upgrade solid waste facilities other than the transfer stations. In 2022, the key drivers of this budget level are the Midway projects and new funding for the Solid Waste Plan Update as required by the Washington State Department of Ecology.

Shared Cost Projects: This program includes individual capital improvement projects that typically benefit multiple Lines of Business (LOB) (e.g., the Water LOB and the Drainage and Wastewater LOB) and which costs are "shared," or paid for by more than one of SPU's utility funds. For 2022, the key driver for this budget includes heavy equipment purchases, which reflects the best estimate of the required fleet of trucks and heavy equipment for the transfer stations.

Technology: The Technology CIP is managed in six program areas that provide a department-wide view of technology investments to address SPU's strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing;
- Enterprise Information Management;
- IT Infrastructure;
- Project Delivery & Performance;
- Science & System Performance; and
- Asset Information Management.

Investments in 2022 address several of SPU's key initiatives, including:

- Financial Management and Internal Controls;
- Operational Excellence and Performance Management;
- Easy and Engaged Customer Experience;
- Data-driven Decision Support; and
- Project Delivery/Project Controls.

2022-2027 Proposed Capital Improvement Program

In 2022, SPU will continue focusing its technology spending on the highest priority business needs. These projects would primarily be within the Customer Contact and Billing Program, Project Delivery and Performance Program, as well as the Asset Information Management Program.

With the new Customer Information System (CIS) already in place, the next major projects for SPU within the Customer Contact and Billing Program include the Utilities Customer Self-Service Portal project, the Customer Contact and Billing Upgrade, CIS Workflow, and the CIS Reporting. Other projects slated would be enhancements to SPU's Enterprise Project Management System and the Development Systems Integration Project, and the Maximo Business Intelligence upgrade, along with other projects that have been deferred in previous years.

CIP Revenue Sources

Much of the SWF CIP is funded through bond proceeds and current cash contributions, the mix of which is determined by SWF financial policies, the overall financial health of the SWF, and the best value and equity to ratepayers. SPU last issued debt in 2014, 2015, and 2016, and refunded 2011 bond debt in 2021. SPU is not planning any SWF bond issuances and will use current cash contributions and existing cash on hand to pay for the CIP. Cash contributions to construction and repayment of debt come from rate-based charges to customers whose solid waste services are handled by the City's solid waste infrastructure and programs.

SPU also actively seeks grants, low-interest loans, and other funding sources whenever possible and prudent. The Solid Waste Utility is currently in the middle of a capital-intensive historic landfill remediation process and operational improvements at the old South Transfer Station. These projects are the primary drivers of CIP spending and have required rate increases for financing.

Summary of Upcoming Budget Issues and Challenges

Solid Waste faces logistical and financial issues as it reconstructs its primary facilities and addresses site cleanup efforts.

- Logistics: SWF is focusing on remediating the South Park Landfill and must continue to use the site for trailer parking and household hazardous waste collection during construction.
- Financial Challenges: Operational improvements at the old South Transfer Station along with site remediation efforts puts considerable short-term financial strain on the SWF. While the SWF is funding and building these major projects, it is working to address environmental stewardship by encouraging waste reduction and recycling, which results in declining demand for disposal services.

Future Projects/What is on the Horizon

Once the South Park Landfill cleanup work and South Transfer Station operational improvements are completed, SPU will begin a thorough planning process to guide the future redevelopment of the South Transfer Station campus. The planning will take broader City needs into consideration before selecting a redevelopment scenario. Spending for the future development will be better defined over the next 3-5 years.

2022-2027 Proposed Capital Improvement Program

Kent Highlands

Project No:	MC-SU-C2402	BSL Code:	BC-SU-C240B
Project Type:	Ongoing	BSL Name:	Rehabilitation & Heavy Equipment
Project Category:	Improved Facility	Location:	Kent Highlands
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program funds compliance activities related to the Kent Highlands landfill closure project. These activities include environmental studies to demonstrate the effectiveness of the Kent Highlands landfill closure project, as well as various landfill improvements. The environmental studies are required under the existing Consent Decree with the State Department of Ecology and validate that current environmental controls are effective and reduce the likelihood of additional capital or O&M expenditures. The landfill improvements include replacement of existing flares, drainage improvements, groundwater protection, water treatment and mitigating earthquake risks associated with steep slopes.

Midway Landfill

Project No:	MC-SU-C2403	BSL Code:	BC-SU-C240B
Project Type:	Ongoing	BSL Name:	Rehabilitation & Heavy Equipment
Project Category:	Improved Facility	Location:	Kent
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program funds compliance activities related to the Midway landfill closure project. These activities include environmental studies to demonstrate the effectiveness of the Midway landfill closure project. The studies are required under the existing Consent Decree with the State Department of Ecology and validate that current environmental controls are effective and reduce the likelihood of additional capital or O&M expenditures. The flare improvements are also a regulatory requirement. To ensure that SPU maintains regulatory compliance, a smaller flare or new technology will be required. The current telemetry used to monitor the environmental control systems at the Kent Highlands Landfill and the Midway Landfill, both Superfund sites, are nearly obsolete and the equipment is no longer supported. In addition, the current system only transmits alarm conditions and does not have any data acquisition functionality. This program funds a replacement system that will allow remote data acquisition as well as alarm functionality. The largest effort under this program is the Midway landfill improvement project that funds removal of waste in the WSDOT Right of Way to allow construction of two additional lanes on I-5 and the Sound Transit Federal Way Link project. This is a joint project involving Sound Transit, WSDOT and SPU it is regulated by the Department of Ecology under a Consent Decree Amendment.

Miscellaneous Station Improvement

Project No:	MC-SU-C2303	BSL Code:	BC-SU-C230B
Project Type:	Ongoing	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides modifications, upgrades, and wear replacement for the two new City Transfer Stations. The new facilities will require periodic capital upgrades and replacement to extend the useful life of these assets. Examples of this work include replacement of the wear surface on the STS tipping floor, replacement of the large refuse compactors and replacement of HVAC/Life Safety components.

Resources	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total

North Transfer Station Rebuild

Project No:	MC-SU-C2306	BSL Code:	BC-SU-C230B
Project Type:	Discrete	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	N. 34th St.
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 4
Start/End Date:		Neighborhood District:	Lake Union
Total Project Cost:	\$111,015	Urban Village:	Not in an Urban Village

The project constructs a new North Recycling and Disposal Station to replace the existing, aging facility. The new facility will meet customer and employee needs, regulatory requirements, and waste management goals for at least the next 50 years. Safety, operational, and capacity concerns at the existing transfer station necessitate building a new facility. The new facility will benefit the public by providing reliable transfer of solid waste from the City and preventing the accumulation of waste and unsanitary conditions within the City.

South Park Development

Project No:	MC-SU-C2304	BSL Code:	BC-SU-C230B
Project Type:	Discrete	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	8100 2nd Ave S
Current Project Stage:	Stage 3 - Design	Council District:	Council District 1
Start/End Date:	2007 - 2026	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$22,377	Urban Village:	Greater Duwamish

This project studies, plans, designs and constructs remediation of the historic South Park Landfill site to minimize environmental impacts. SPU owns a portion of the site on which the landfill once operated, and was a historic operator of the landfill at one time. This project will meet the requirements of a Consent Decree with the Washington Department of Ecology for remediation of the historic South Park Landfill. This project is tied to the STS 2 project and some redesign of remedial elements will be required and construction has been delayed three years to 2023.

Resources	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total

South Recycling Center

Project No:	MC-SU-C2302	BSL Code:	BC-SU-C230B
Project Type:	Discrete	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	8100 2nd AVE S
Current Project Stage:	Stage 3 - Design	Council District:	Council District 1
Start/End Date:	2006 - 2025	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$43,202	Urban Village:	Greater Duwamish

SPU postponed South Transfer Station phase construction and a smaller project is proceeding to complete cleanup work at the old South Park Landfill. SPU decided to postpone development plans (including the construction of the recycling facility) to allow a more holistic evaluation of future needs and job opportunities that best support our zero-waste vision. A recycling facility may still be included in the future plans, but partial development of the site at this time could severely limit what we can do in the future. The scope of the project has been reduced to only include the remediation of the South Park Landfill (required under a Consent Decree), minimal operational improvements, and a path along 5th Avenue to mitigate the street vacation at the new South Transfer Station. The reduced STS2 project will be designed during 2021-2022 and constructed in 2023.

Future site development plans will happen over the next 5 years in a parallel process.

Seattle Public Utilities

Water

Overview

SPU delivers an average of approximately 124 million gallons of drinking water per day to 1.5 million people and businesses in Seattle and 21 suburban water districts and municipalities, plus the Cascade Water Alliance. The water system infrastructure includes:

- The Cedar and South Fork Tolt supply sources (dams, reservoirs, etc.);
- Three groundwater wells;
- Two primary water treatment plants;
- 11 booster chlorination facilities;
- 325 million gallons of treated water storage;
- 30 pump stations;
- 1,823 miles of transmission and distribution system pipelines;
- Almost 200,000 meters and service connections;
- More than 17,000 distribution system valves;
- About 19,000 hydrants;
- Monitoring and control systems; and,
- Various buildings and other related facilities.

In addition to replacing and improving the supply, treatment, transmission and distribution systems, the capital program includes investments in watershed stewardship projects, Cedar River Watershed Habitat Conservation Plan implementation, water conservation programs, vehicles, heavy equipment, and technology.

Planned spending in the Water Capital Improvement Program (CIP) is \$757 million over the next six years. Major projects include:

- Water system improvements associated with transportation projects, including Move Seattle; Madison Street Bus Rapid Transit; East Marginal Way Heavy Haul Corridor; Roosevelt Eastlake Rapid Ride;
- Operational and Regional Facility construction;
- Replacement of the Bitter Lake and Lake Forest Park Reservoirs covers;
- Seismic upgrades of the Eastside and Riverton Reservoirs, Magnolia Tank, and the Cedar River Transmission Pipeline near Renton;
- Pump station improvements at Spokane Pump Station;
- Addressing a slide area through which the Tolt Pipelines pass, upstream of the Tolt Treatment Plant.

The 2022-2027 Proposed CIP also includes many ongoing programs, such as improving the distribution and transmission system water mains, valves, steel storage tanks, and pump stations; watershed stewardship and conservation projects and programs; and facilities, vehicles, and heavy equipment investments. In addition, it includes continued funding for the water system seismic improvement program and funding for dam safety studies and upgrade projects.

SPU funds Water capital projects through a combination of cash and the issuance of bonds. The primary source of cash and debt repayment funds come from sale of water charged to retail and wholesale customers in the region. SPU's approved 2019 Water System Plan, a Washington Department of Health (WDOH) regulatory requirement, describes how SPU meets current and future water demands, ensures

2022-2027 Proposed Capital Improvement Program

high quality drinking water, and invests in and maintains its water system at the lowest life-cycle cost for the next 20 years.

Thematic Priorities

The overarching goal of the Water CIP is to ensure that the water system is properly maintained, upgraded, and expanded to reliably deliver high-quality, safe drinking water to customers, protect the environment, and comply with regulations. The primary themes driving the CIP in the next six years are asset preservation, health and human safety, environmental sustainability, and race and social justice.

- SPU is committed to making **asset preservation** investments to create or enhance operational efficiency. SPU uses asset management principles to determine the timing of rehabilitation or replacement of its infrastructure. Projects that fall into this category vary, ranging from water main replacement related to transportation projects to rehabilitation of steel storage facilities.
- SPU’s commitment to **health and human safety** is also addressed through SPU’s reservoir covering projects. Consistent with Ordinance 120899 and required by state regulators, SPU has finished replacing its open finished drinking water reservoirs with underground structures that will improve water quality and system security. Additionally, SPU will begin constructing new covers on the Lake Forest Park and Bitter Lake reservoirs to replace the existing floating covers that will have reached the end of their useful life. Finally, as a result of a recently completed seismic study, two reservoirs will remain uncovered – Roosevelt and Volunteer – and are disconnected from the drinking water system, filled with treated water and available for emergency storage needs after major emergencies such as earthquakes.
- SPU is committed to **environmental sustainability**. This can best be seen in SPU’s responsibilities as outlined in the 50-year Habitat Conservation Plan (HCP), an agreement between local, state and federal agencies. The HCP seeks to ensure the long-term ecological integrity of the Cedar River Watershed, which supplies the majority of the City’s drinking water. It simultaneously addresses the needs of protected wildlife species in and along the Cedar River. Investments in the regional conservation and low-income conservation programs also help in management of our natural resources, while helping customers reduce their utility bills.
- SPU is also committed to **race and social justice**. One example of this commitment is the Low-Income Water Conservation Program. This ongoing program provides water use efficiency resources to the City’s low-income customers to implement water conservation measures. Typical improvements consist of installing water-efficient fixtures, primarily low water use toilets, but also faucet aerators and common-area efficient clothes washers.

Project Selection Criteria

SPU identifies candidate capital projects from several sources – planning (e.g., comprehensive plans, program plans), external projects and opportunities, and emergencies or other unexpected events. Under SPU’s Asset Management system, projects must be justified through a business case process that

establishes that a problem or opportunity is timely and important, and that the proposed solution is superior to alternatives based on a triple bottom line analysis (economic, environmental and social) of life cycle costs and benefits. The process also recognizes that a project may be a “must do” project (e.g., required by regulation).

SPU prioritizes its capital projects into three categories – Priorities 1, 2 and 3, with 1 being the most important and critical. Some projects are part of an externally driven project. Typically, SPU lacks control over the timing of externally driven projects.

Priority rankings are based on the following set of criteria:

- **Regulatory Mandates, Legal Agreements:** The degree to which a project is driven by federal, state, and local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties. Examples of highly ranked projects in this category include the dam safety upgrades and the Habitat Conservation Program.
- **External Drivers:** SPU’s responsiveness to, or engagement with, projects of other Departments or Jurisdictions, and the specific mandates of the City Council and Mayor. Examples of highly ranked projects in this category include SR 520 Rest of the West phase and the Bitter Lake Reservoir improvement project.
- **Infrastructure:** How a project addresses infrastructure conditions or vulnerabilities. Examples of highly ranked projects in this category include watermain Rehabilitation, seismic upgrades and Tank Improvements programs.
- **Level of Service:** The importance of a project in providing or improving services to customers. Examples of highly ranked projects in this category include the Water Infrastructure – New Taps and Service Renewals programs.
- **Other Factors:** Other important factors include high net present value or cost-effectiveness, social or environmental benefits not otherwise captured, a project already in progress or near completion, limited time opportunity, demonstration projects, community visibility, outside funding.

Every project is rated against each criterion. Criteria ratings are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each Line of Business (LOB), with review by key internal stakeholders. The ranking scheme and criteria are the same for all LOBs and are approved by the SPU GM/CEO and Asset Management Committee. Project priority rankings are used to clarify and document which projects are most important (and why), to help determine which projects at the margin will be included or excluded (or deferred) from the CIP, and which projects should receive priority attention if a staff or financial resource constraint should arise.

In addition to SPU’s internal review process described above, most of SPU’s wholesale customers participate in an Operating Board, and through that Board, conduct an annual review of a subset of SPU’s CIP projects, particularly those involving regional assets and impacting wholesale rates.

CIP Spending by Major Category

(In '000s; total may not sum due to rounding)

Water Fund	2022	2023	2024	2025	2026	2027	Total
Distribution	35,688	44,375	50,675	51,248	59,406	70,448	311,840
Transmission	16,514	12,604	17,623	22,368	9,407	7,639	90,430
Watershed Stewardship	2,170	414	335	328	958	425	3,090
Water Quality & Treatment	3,605	2,120	5,261	23,750	20,250	23,000	63,143
Water Resources	7,053	10,646	9,989	30,970	28,375	15,764	36,797
Habitat Conservation Program	2,604	1,126	1,030	925	1,058	75	8,409
Shared Cost Projects	24,088	28,218	43,372	32,374	16,261	17,652	217,703
Technology	4,244	4,244	4,244	4,243	4,244	4,244	25,439
Grand Total	95,966	103,745	132,529	166,205	139,958	139,246	756,850

Distribution: Projects and programs in this category relate to rehabilitation and improvements to the City's water mains and appurtenances, water storage tanks, pump stations, and other facilities that are part of the system that distributes treated water throughout the City of Seattle and to retail customers outside of the City.

Decreases in the **Distribution BCL** in 2022 are primarily due to shifting seismic improvements and pump station improvements to later years in the 6-year CIP. These decreases are offset by increased investments in water main extension projects at multiple worksites across Seattle's retail area. In 2022 to 2027, the budget increases to rehabilitate and replace water mains because more of this large asset class is reaching the end of its service life.

Transmission: The purpose of this program category is to rehabilitate and improve the City's large transmission pipelines that bring untreated water to the treatment facilities and convey treated water from the treatment facilities to Seattle and to our wholesale customers that purchase a portion of SPU's supply for their retail customers.

Increases in the **Transmission BCL** in 2022 are primarily due to construction of an approximately 2550-foot-long section of rehabilitated raw water pipeline to re-establish functionality and dependability of this raw water transmission supply line through an area of historic slope instability and seismic vulnerability,

2022-2027 Proposed Capital Improvement Program

and scope changes for 430 Pipeline Improvement project that includes more pipeline length and mortar repairs after pipeline inspection.

Watershed Stewardship: Projects and programs in this category improve protection of our sources of drinking water, provide habitat protection and restoration, sustain the environment, and enhance environmental quality, both locally and regionally. Most of the projects in this program category are located within the Cedar and Tolt River municipal watersheds.

- The Cedar River Municipal Watershed is 90,638 acres of land owned by the City of Seattle and provides about 65% of the drinking water used by 1.5 million people in the greater Seattle area supplied by SPU. The City of Seattle is required by law to maintain a clean drinking water supply. To that end, the City restricts public access and management is guided by a Habitat Conservation Plan. The Cedar River Watershed is an unfiltered surface water supply which produces some of the best water in the world.
- The South Fork Tolt River Watershed is the second supply watershed in SPU’s freshwater supply system, providing roughly 35% of SPU’s drinking water supply. Located in the foothills of the Cascades in east King County, it first came on-line in 1964, and since 1989 has also supported a small Seattle City Light hydro-electric facility. The Tolt Treatment Facilities, which includes filtration, can provide up to 120 million gallons of drinking water per day.

Increases in the **Watershed Stewardship BCL** in 2022 are due largely to the S. Fork Tolt River Watershed, which is required to satisfy State regulatory requirements. In addition to providing fish passage, this program will reduce the potential for excessive sedimentation, catastrophic infrastructure (i.e. forest road) failure, and impacts to drinking water quality. The increase of \$425K in 2027 is for anticipated bridge replacement project and road work.

Water Quality and Treatment: The purpose of this program category is to construct, rehabilitate or improve water treatment facilities, and cover the remaining open water reservoirs. State and federal drinking water regulations and public health protection are key drivers of investments in this program category. To comply with regulations, SPU has invested hundreds of millions of dollars in building two new primary treatment facilities and covering two and burying five reservoirs that contain treated water that is distributed directly to Seattle retail and wholesale customers for drinking purposes.

The shift in the **Water Quality & Treatment BCL** in 2022-2024 to 2025-2027 is due to an updated cashflow projection for the Lake Forest Park Reservoir Covering Project and Bitter Lake Reservoir Covering Project. The plan is for another floating cover at Lake Forest Park instead of the aluminum roof previously considered. Construction of the Lake Forest Park Reservoir replacement cover began in 2021 and will be completed in 2022. The Bitter Lake Reservoir improvement is anticipated to start towards the end of 2023.

Water Resources: The purpose of this program category is to manage our water resources to meet anticipated demands and in-stream flow requirements – the amount of water provided to the river to support aquatic habitat, wetlands, riparian vegetation, and water quality – and to promote residential and commercial water conservation. The requirements for in-stream flows are detailed in agreements with state and federal agencies and include provisions for minimum stream flows in the Cedar and South Fork Tolt Rivers. Examples of the types of programs/projects in this category include the Dam Safety Program and Sockeye Broodstock Weir and other improvements associated with the hatchery and fish ladder.

Decreases in the **Water Resources BCL** in 2022 are due to the Broodstock Collection Facility Retrofit being delayed. The increase in 2023-27 are due to dam safety projects such as the Tolt Early Warning System Upgrade and Tolt Debris Boom, which are both to comply with Federal Energy Regulatory Commission (FERC) requirements. The \$25M increase in 2025 and 2026 are a result of projects under development in the Dam Safety program, one of which is also a FERC requirement.

Habitat Conservation Program: This program category includes projects and programs directly related to implementation of the Cedar River Watershed Habitat Conservation Plan. The Habitat Conservation Plan benefits the utility and the ratepayers it serves by providing legal certainty under the Endangered Species Act for the City's continued operations within the Cedar River Watershed, which supplies 65% of the SPU's drinking water. The Habitat Conservation Program requires SPU to invest \$100 million over 50 years, with \$60 million in the first decade, on approximately 30 capital projects and 60 O&M activities in three areas: management of in-stream flows for people and fish, forest and land conservation activities, and mitigation for the blockage of salmon and steelhead fish as they return to the Cedar River to spawn. The Water Fund's CIP projects in this area are grouped into eight categories: road improvements and decommissioning, stream and riparian restoration, upland forest restoration, Landsburg fish passage, Cedar River sockeye hatchery, improvements to the Ballard Locks for fish passage and water conservation, fish habitat protection and restoration in the lower Cedar River below the municipal watershed boundary, and evaluation of Cedar permanent dead storage in Chester Morse Lake.

Increases in the **Habitat Conservation Program BCL** in 2022 are due to the Downstream Fish Habitat program. These funds will be expended on land acquisition and restoration to improve salmon habitat as part of the Cedar River HCP commitments. All expenditures except for those offset by grant revenue are HCP mitigation requirements.

Shared Cost Projects: This program includes individual capital improvement projects which typically benefit multiple lines of business (e.g., the water line of business and the drainage and wastewater line of business) and whose costs are "shared," or paid for, by more than one of SPU's utility funds. For the next six years, the Shared Cost program includes funding for several interdepartmental programs and projects including Move Seattle, SR520 Rest of the West and the Roosevelt Eastlake Rapid Ride. Funding is also included for SPU's Heavy Equipment Purchases and several smaller projects.

Decrease in the **Shared Cost Projects BCL** in 2022 is primarily due to delays in the Center City Streetcar. Projects in the Move Seattle Levy, heavy equipment purchases and other facility construction projects such as retrofits/upgrades to older operational buildings are continued in the out-years.

Technology: The Technology capital portfolio is managed in six program areas, which provide a department-wide view of technology investments to address SPU's strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing
- Enterprise Information Management
- IT Infrastructure
- Project Delivery & Performance
- Science & System Performance
- Asset Information Management

Investments in 2022 address several of SPU’s key initiatives, including:

- Financial Management and Internal Controls
- Operational Excellence and Performance Management
- An Easy and Engaged Customer Experience
- Data-driven Decision Support
- Project Delivery/Project Controls

In 2022, SPU will focus its technology spending on the highest priority business needs. These projects would primarily be within the Customer Contact and Billing Program, Project Delivery and Performance Program, as well as the Asset Information Management Program.

With the New Customer Information System already in place, the next major projects for SPU within the Customer Contact and Billing Program would be the Utilities CSS Portal project as well as other projects such as CIS Workflow and the CIS Reporting. Other projects slated would be enhancements to SPU’s Enterprise Project Management System (EPMS) as well as the Development Systems Integration project, along with other projects that have been deferred in previous years

CIP Revenue Sources

SPU’s Water CIP is funded largely by Water ratepayers. About 75% of the Water Fund’s Operating revenues come from retail ratepayers, split approximately evenly between residential and commercial customers. Another 20% of the Water Fund’s overall revenues come from wholesale purveyors who serve surrounding jurisdictions. The remaining 5% consists of non-rate revenue, which include such items as tap fees received. SPU issues bonds, serviced by ratepayers, which in the current period covers 70% of the CIP, with the remainder funded by cash, i.e.: directly by ratepayer revenue.

SPU actively seeks grants, low interest loans, and other funding sources whenever possible. And, as mentioned above, SPU also receives payments from developers that are intended to offset the cost of installing new taps when they connect newly constructed buildings to SPU watermain. These “tap fees” are a volatile revenue source, trending with the construction-related sectors of the economy.

Summary of Upcoming Budget Issues and Challenges

These important issues create financial challenges and opportunities for the Water Fund in the future.

Water Conservation: The City of Seattle, Seattle residents and businesses, and Seattle’s wholesale water partners have worked together to reduce water consumption. As a result, consumption has declined since the 1980’s and is projected to flatten out. In 2018, consumption was 30% below the peak of 1984, despite serving a larger population. Seattle currently has some of the lowest per capita water consumption in the nation. While this accomplishment helps contribute to a sustainable future for the region, it puts financial pressure on the utility because fixed costs, including the costs of the CIP, need to be distributed across fewer units of water sold. This trend also puts pressure on SPU management and employees to deliver services as efficiently as possible. In the future, it may also influence water rate design.

Transitioning from Major Projects toward Asset Management: The Water Fund continues its transition from a period of building large capital projects to a time of physical infrastructure rehabilitation including

2022-2027 Proposed Capital Improvement Program

those driven by dam safety regulations and seismic upgrades. Past investments include water treatment facilities for the Tolt and Cedar water supplies, coverings for seven open reservoirs in response to federal/state regulations, construction of a second pipeline for the Tolt system, and investments to meet federal requirements embodied in the Cedar River Watershed Habitat Conservation Plan. These investments helped secure the supply and distribution of high-quality drinking water and provide appropriate stewardship of the watersheds consistent with federal and state requirements.

The City of Seattle is now better positioned than many water utilities in the nation in terms of regulatory compliance. Residents, businesses and rate payers will benefit from these investments for years to come. Although the focus will shift from major projects to physical infrastructure rehabilitation, the utility will be paying debt service over the next several budget cycles on the bonds that were issued for these major projects. Against the backdrop of these trends, the 2022-2027 Water CIP has been developed to:

- Provide for water system modifications associated with various Seattle and regional transportation projects;
- Recognize the need to look harder at the water system’s resiliency in a major earthquake event and begin to make strategic investments to reduce risk;
- Preserve the transmission and distribution systems through careful investment in aging infrastructure renewal;
- Provide stewardship of the watersheds, to ensure a reliable source of high-quality drinking water;
- Comply with federal and state regulations governing water quality, system reliability, and habitat protection in the watersheds in which SPU operates; and
- Prioritize projects to deliver on infrastructure and regulatory requirements within the limited resources of the Water Fund.

Future Projects/What is on the Horizon

The Water CIP has completed a multi-decade period of investments in major infrastructure projects. These projects have positioned SPU to meet drinking water quality and environmental regulations. Projects have included the Tolt and Cedar Water Treatment Facilities, Tolt Pipeline 2, Reservoir Covering Program, the Cedar River Watershed HCP, and a new Water Quality Laboratory. SPU has also made a major reinvestment in the Supervisory Control and Data Acquisition System which is used to monitor and control the regional and retail water system. However, these investments have also led to increasing debt service payments that constrain future budgets.

The 6-year CIP funds the work to replace covers at the Lake Forest Park and Bitter Lake reservoirs, address the Tolt Pipelines slide area, and construct Operational and Regional Facilities. Beyond these projects, emphasis will be on asset management-based rehabilitation and replacement of distribution system infrastructure (e.g., mains, valves, hydrants, meters), as well as water system infrastructure improvements related to transportation projects, such as the Move Seattle Levy.

Additionally, SPU recognizes the need to look harder at the water system’s resiliency in a major earthquake event and begin to make strategic investments to reduce risk. SPU completed a seismic analysis in 2018 that defined recovery time to agreed levels of service and developed a prioritized list of recommended investments to improve resiliency. Initial funding to begin implementation of those improvements is included in this capital program (Eastside and Riverton Reservoirs, Magnolia Tank, and the Cedar River Transmission Pipeline near Renton) while others will be developed over the course of the

next several decades. Likewise, initial funding to plan and begin implementation of Dam Safety programs, including those tied to regulatory requirements and seismic risk, are included in this capital program.

Ballard Locks Improvements

Project No:	MC-SU-C1606	BSL Code:	BC-SU-C160B
Project Type:	Discrete	BSL Name:	Habitat Conservation Program
Project Category:	Improved Facility	Location:	NW 54th St 30th Ave NW
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 6
Start/End Date:	2000 - 2025	Neighborhood District:	Ballard
Total Project Cost:	\$1,302	Urban Village:	Ballard-Interbay Northend

This project provides improvements at the Ballard Locks to upgrade conditions for salmon. Improvements are focused on conserving the amount of freshwater needed to operate the locks to reduce the demand for freshwater from the Cedar River and increase the availability of freshwater for salmon. This project is a requirement of the Cedar River Habitat Conservation Plan (HCP).

Cedar Bridges

Project No:	MC-SU-C1307	BSL Code:	BC-SU-C130B
Project Type:	Ongoing	BSL Name:	Watershed Stewardship
Project Category:	Improved Facility	Location:	Cedar River Watershed
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program replaces aging bridges and related structures, such as abutments, asphalt approaches, and guardrails in the Cedar River Watershed. This project improves aging bridge assets on priority roads in the watershed transportation system to provide City employees, City contractors, and visitors with safe and adequate access to City water supply and hydroelectric assets while minimizing and reducing environmental impacts over time. Work in this program area also maintains compliance with state laws, safety and environmental regulations, and tribal access agreements including Washington Department of Natural Resources (WDNR) forest practice regulations, and Washington Department of Health (DOH) Watershed Protection Plan regulations.

Resources	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total

Dam Safety

Project No:	MC-SU-C1506	BSL Code:	BC-SU-C150B
Project Type:	Ongoing	BSL Name:	Water Resources
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program maintains the safety of SPU's water supply dams in the Cedar River and South Fork Tolt River Municipal Watersheds and the in-town reservoir dams. Typical improvements may include, but are not limited to, upgrades to the dams' failure warning systems, spillways, outlet works, piping, and other civil, mechanical, and structural systems. This program ensures the continuing safe functioning, operation and monitoring of SPU's water supply dams and associated facilities per Federal Energy Regulatory Commission (FERC), state and local regulations, and SPU requirements to prevent loss of life and/or property damage and loss of SPU's ability to deliver reliable drinking water supply to its customers.

Distribution Infrastructure

Project No:	MC-SU-C1138	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides funding for modifications and relocations of existing Distribution System assets resulting from third party project impacts to Distribution System infrastructure located in the right-of-way or on public property. The costs are recovered from third parties and primarily other public utilities and agencies through Memorandums of Agreement and standard charges. This program covers all Distribution System modifications and relocations that are funded by third parties excluding Water main Extension project projects. The benefit of this project is accommodation of third party development by relocating or modifying existing Distribution System infrastructure, while retaining a Distribution System that continues to provide cost effective service to the ratepayer.

Distribution System Improvements

Project No:	MC-SU-C1128	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program improves service reliability, pressure, capacity, and fire flow in the City's water distribution system. Typical improvements may include, but are not limited to, booster pump station installation, creation of new service zones, and tank elevation or replacement, as well as additional water main pipelines and pressure reducing valves. These improvements to service levels meet Washington Department of Health (DOH) regulations and SPU's Distribution System Pressure Policy to provide greater than 20 psi service pressure. These improvements provide higher flow of water for fire protection which improves public safety and results in smaller and shorter fires.

Distribution System In-Line Gate Valve

Project No:	MC-SU-C1136	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program replaces line valves in the water distribution system throughout the City of Seattle that fail or are obsolete due to age or lack of replacement parts. The replacement of these gate valves extends the useful life of the water main and restores the performance of the water distribution system. This ongoing program also adds valves within the system to enhance system performance, enhance operational control, and reduce the number of customers whose service is interrupted during a water main shut down.

Downstream Fish Habitat

Project No:	MC-SU-C1607	BSL Code:	BC-SU-C160B
Project Type:	Discrete	BSL Name:	Habitat Conservation Program
Project Category:	Improved Facility	Location:	Cedar River Watershed
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2008 - 2024	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$17,456	Urban Village:	Not in an Urban Village

This project provides protection and restoration of fish habitat along the lower Cedar River, below the City's municipal watershed boundary at the Landsburg Dam and includes both acquisition of habitat lands and habitat restoration on the main stem of the Cedar River. This project is a requirement of the Cedar River Habitat Conservation Plan (HCP).

Instream Flow Management Studies

Project No:	MC-SU-C1608	BSL Code:	BC-SU-C160B
Project Type:	Ongoing	BSL Name:	Habitat Conservation Program
Project Category:	Improved Facility	Location:	Cedar River Watershed
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program provides research and monitoring to examine the effects of instream flows on salmon species in the Cedar River. This ongoing program monitors flow compliance, verifies accretion flows downstream of Landsburg, improves flow-switching criteria, and develops a better understanding of relationships between stream flow and aquatic habitat. This ongoing program is a requirement of the Cedar River Habitat Conservation Plan (HCP).

Regional Water Conservation

Project No:	MC-SU-C1504	BSL Code:	BC-SU-C150B
Project Type:	Ongoing	BSL Name:	Water Resources
Project Category:	Improved Facility	Location:	Citywide and Regional
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides customer incentives for residential, commercial, institutional, and industrial water efficiency capital improvements. Typical examples include, but are not limited to, water efficient toilets and urinals, clothes washers, landscape irrigation devices, upgrades in industrial process water, and replacing water-cooled equipment with air-cooled versions. The program benefits both existing and future ratepayers. Water conservation provides low-cost options for meeting potential challenges from climate change, managing Seattle's drinking water resources, and customer efficiency and potential cost savings on water bills.

Reservoir Covering-Bitter Lake

Project No:	MC-SU-C1419	BSL Code:	BC-SU-C140B
Project Type:	Discrete	BSL Name:	Water Quality & Treatment
Project Category:	Improved Facility	Location:	N 143rd St and Linden Ave N
Current Project Stage:	Stage 3 - Design	Council District:	Council District 5
Start/End Date:	2013 - 2025	Neighborhood District:	Northwest
Total Project Cost:	\$45,094	Urban Village:	Not in an Urban Village

This project addresses the need for a new cover on Bitter Lake Reservoir once the existing floating cover has reached the end of its useful life. Replacing the existing structure with a new hard covered structure within the same footprint will be one of the options considered. A new cover will be designed and constructed to improve and maintain the water quality protection and security enhancement functions of the existing cover.

Tank Improvements

Project No:	MC-SU-C1134	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program implements water quality, seismic, and other improvements to steel water tanks in Seattle. Functional water tanks are essential to public health protection as they assure that the distribution system is under pressure at all times, even when pump stations or control valves malfunction. Depressurization of the water system may result in siphoning back contaminants from faulty private systems and from the ground into the water pipes.

Project Category:	Improved Facility	Location:	Tolt River Watershed
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2004 - 2020	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$1	Urban Village:	Not in an Urban Village

This project replaces aging bridges and related structures, such as abutments, asphalt approaches, and guardrails in the Cedar River Watershed. This project improves aging bridge assets on priority roads in the watershed transportation system to provide City employees, City contractors, and visitors with safe and adequate access to City water supply and hydroelectric assets while minimizing and reducing environmental impacts over time. Work in this project also maintains compliance with state laws, safety and environmental regulations, and tribal access agreements including Washington Department of Natural Resources (WDNR) forest practice regulations, and Washington Department of Health (DOH) Watershed Protection Plan regulations.

Transmission System Seismic Improvements

Project No:	MC-SU-C1210	BSL Code:	BC-SU-C120B
Project Type:	Ongoing	BSL Name:	Transmission
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program upgrade transmission system infrastructure that is seismically vulnerable and will remain functional after a major earthquake. Vulnerable transmission pipelines, reservoirs and pump stations will be upgraded. These upgrades will be completed over a 50-year time period.

Treatment Facility/Water Quality Improvements

Project No:	MC-SU-C1413	BSL Code:	BC-SU-C140B
Project Type:	Ongoing	BSL Name:	Water Quality & Treatment
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program provides construction of various smaller-scale water quality and treatment facility rehabilitation and improvement projects that may develop on short notice over the course of each year. It enhances SPU's ability to address water system improvement needs that relate to public health protection and drinking water regulatory compliance.

Water Infrastructure-Hydrant Replace/Relocate

Project No:	MC-SU-C1110	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program renews or replaces existing hydrants in the City's water distribution system. In general, hydrant renewal or replacement may occur as a result of hydrant malfunction, catastrophic failure due to vehicle damage, or to meet SPU criticality criteria such as spacing, location, cost, opportunity projects, or flow and pressure problems. This program improves access to fire hydrants for the Seattle Fire Department (SFD) and helps to reduce the damage as a result of fire by locating fire hydrants in alternate or additional locations.

Water Infrastructure-New Hydrants

Project No:	MC-SU-C1112	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program installs new hydrants in the City's water distribution system. In general, new hydrants are installed to meet service requests made by private property owners and to comply with Washington Administrative Code (WAC) or Seattle Fire Department (SFD) requirements. This program also helps to reduce the damage as a result of fire by locating new fire hydrants throughout the City's direct service area.

Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program installs new drinking water services throughout the City of Seattle. This project provides new connections to existing water mains with no interruption of service to adjacent existing customers, and the installation of metered water service lines from the new tap to the new customer's property lines. This program meets City responsibility for new service connections in the Seattle Municipal Code (SMC) to provide reliable drinking water supply to customers.

Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program replaces existing plastic or galvanized water services in the City's water distribution system. Service replacement may occur as a result of leaking, failing, or to reduce damage in case of failure of the water service. This program improves Seattle's water system and extends the life of the water distribution system.

Project Category:	New Investment	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program improves water system performance, reliability, and flexibility during severe weather events, supply and infrastructure emergencies, as well as enhancing environmental performance for fish and supporting regulatory and policy compliance in these areas. Project improvements include Tolt Reservoir Temperature and the Overflow Dike in Chester Morse Lake, and may include but are not limited to, dam integrity and alternatives to improved crest control, reservoir water temperature, and water quality management. In addition, the S. Fork Tolt Dam is up for relicensing under the Federal Energy Regulatory Commission (FERC), which expires July 19, 2029. The relicensing process will take 5-7 years depending on the relicensing approach taken with Seattle City Light and FERC. Seattle City Light is the Tolt Dam license holder and will lead the relicensing effort but significant support from SPU is anticipated. Both utilities (SPU/SCL) are establishing CIP numbers budgeted for the relicensing process.

This ongoing program replaces or rehabilitates existing water mains in Seattle. Replacements occur when leaks and breaks become too frequent and the cost of ongoing repairs is no longer cost effective. The benefits of this program can include improved service reliability, fire flow, water quality and lower maintenance costs. These benefits vary depending on the specific water main and site conditions.

Alaskan Way Viaduct & Seawall Replacement Program

Project No:	MC-SU-C4102	BSL Code:	BC-SU-C410B
Project Type:	Discrete	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2001 - 2025	Neighborhood District:	Multiple
Total Project Cost:	\$87,522	Urban Village:	Multiple

This project relocates, replaces, and protects water infrastructure affected by the replacement of the Alaskan Way Viaduct and Seawall. This project encompasses many sub-projects which are collectively known as the Alaskan Way Viaduct and Seawall Replacement project (AWVSR project). The Washington State Department of Transportation (WSDOT) is the lead for the SR-99 replacement, while the City of Seattle is the lead on development of the waterfront public space, implementation of the new surface Alaskan Way, and design and construction of the seawall.

This ongoing project provides applications, upgrades and data management tools in support of SPU's work and asset management projects. Several new and updated technology solutions designed to enhance the efficiency and effectiveness of drinking water, sewer, drainage, and solid waste operations are planned. Activities within this project aim to further enhance safety and improve responsiveness of SPU's utility operations.

Emergency Storms Program

Project No:	MC-SU-C4120	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds water and drainage & wastewater infrastructure capital improvement projects resulting from previous and possible future storm events. Projects within this project are potentially Federal Emergency Management Agency (FEMA) reimbursable and need to be separated for tracking and reimbursement purposes. Typical improvements include but are not limited to repairing and improving roads, bridges, and other stream crossing structures in the City's Municipal Watersheds, as well as replacing damaged equipment, such as pumps and security gates, and stabilizing debris slide areas and stream banks.

This ongoing project provides SPU staff with new and replacement heavy equipment that is used throughout Seattle and King County. Typical purchases include backhoes, graders, loaders, dozers, service trucks, and dump trucks. This equipment transports work crews and tools to job sites and supports the safe and efficient replacement, repair, and maintenance of infrastructure that delivers high quality drinking water to 1.5 million customers in King County.

This ongoing project provides for electronic and mechanical system upgrades as required at various City facilities. The drinking water Supervisory Control and Data Acquisition (SCADA) system was installed in 2005 throughout King County. System components include, but is not limited to, treatment/flow/pressure sensors, remote control pumps/valves used in the conveyance and quality of drinking water and the delivery of water to fire hydrants, also known as "fire flow".

Meter Replacement

Project No:	MC-SU-C4101	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds replacement of existing water meters when they fail or become obsolete. Meters measuring up to two inches are replaced when they stop running. Meters measuring three inches or more are repaired when possible, but are replaced when repair costs exceed replacement costs. Accurate water meters ensure that customers are billed fairly for the water they use. Since water meters also are used to bill customers for their wastewater discharges, 48 percent of the funding is allocated to the Drainage and Wastewater line of business.

Other Major Transportation Projects

Project No:	MC-SU-C4123	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds projects that mitigate undesirable impacts and take advantage of opportunities generated by the capital transportation projects of the Washington State Department of Transportation (WSDOT) and the Seattle Department of Transportation (SDOT) throughout the City. Work may include, but is not limited to, physically protecting the infrastructure during the transportation construction process, repairing and replacing damaged infrastructure, and improving existing infrastructure to meet higher standards. Project sites may include, but are not limited to, State Route 520, Interstate 5, and Interstate 90.

This ongoing project provides technology applications and application upgrades in support of improvements to project delivery and performance. Planned projects include continued development of an Enterprise Project Management System, replacement of the Engineering Support Contract Payments system, and SPU's share of costs for the City's central financial system upgrades. Future projects may include development of new Enterprise Resource Planning systems such as HR provisioning and financial reporting. This project will result in an improved ability to plan and deliver projects on schedule and within budget.

Regional Facility - Other

Project No:	MC-SU-C4107	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Regional
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Outside City of Seattle

This ongoing facilities project renovates, rehabilitates, replaces existing buildings, and constructs new facilities at various locations outside of City limits to address deficiencies, failures, and functional changes in the drinking water system. These improvements increase the useful life of the facilities, preserve the value of the assets, and provide a safe working environment.

This ongoing project will provide new and improved technology applications and accompanying data management tools to support the gathering, monitoring, tracking and analysis of science and engineering information. Several planned projects include replacement of obsolete regulatory compliance tracking applications, upgrades to field monitoring equipment, and the integration of SCADA data with other data systems. This project enhances SPU's ability to control water quality and comply with environmental and health regulations.

Finance and Administrative Services

Overview

The Finance and Administrative Services (FAS) Capital Improvement Program (CIP) is the department's blueprint for planning, replacing, maintaining, remodeling and upgrading FAS-managed facilities and IT infrastructure. These assets are used by City departments, as well as certain nonprofit organizations that serve the public, to deliver critical services to Seattle residents.

FAS' proposed CIP includes appropriations for ongoing capital programs and discrete, one-time capital projects with multi-year durations. Multi-year projects are identified by multiple priorities, including City goals (e.g., greenhouse gas reduction, public safety, improved ADA access), code compliance and severity of system deficiencies, and importance to tenant department operations. Planned schedules and funding commitments for these types of multi-year projects are typically made every year in conjunction with the annual budget process. The six-year FAS 2022-2027 CIP includes approximately \$217.7 million in funding for new and existing projects and programs.

Thematic Priorities

FAS is responsible for the operation and maintenance of approximately 3.2 million square feet of building space throughout the city, including municipal courts, police and fire facilities, shops and fleet maintenance facilities, high-rise office space in the civic core, parking garages and some of the City's community-based public service facilities. FAS' capital investments either improve or enhance the operational capacity of these mission-critical facilities and systems. FAS' CIP addresses the following priorities:

- **Life and safety issues** – High priority is given to projects intended to ensure continuity of service at facilities that provide emergency or other essential services (e.g., replacing generators near the end of their useful lives at essential facilities, such as police or fire stations). Projects that mitigate potential threats to human life and safety, such as mold and lead abatement and other hazardous conditions in building interiors and structural failures, also receive priority.
- **Federal, state and local requirements** – FAS must consider regulatory requirements in assessing capital needs when replacing existing, failing systems in FAS-managed facilities. One example is the Washington Administrative Code requirement to upgrade fire alarm panels and install fire sprinklers when substantial alterations are made in the course of upgrading or modernizing an existing building. Substantial alterations may also require facility improvements mandated by the Americans with Disabilities Act (ADA), which meet the City's dual goals of compliance with federal requirements and provision of equitable access.
- **Race and Social Justice Initiative (RSJI)** – FAS integrates the City's social equity contracting requirements into all aspects of the execution of CIP projects. Women and minority-owned business (WMBE) vendors, construction contractors and subcontractors may be contracted for design and construction work, furthering the City's goal to promote contracting with WMBE businesses. FAS works within the inclusion plan guidelines published by City Purchasing and Contracting for consultant, contracting and purchasing work. Additionally, Priority Hire, a community workforce agreement (CWA) and apprenticeship rules for construction contracts over \$5 million to further FAS' compliance with the City's community workforce goals and RSJI objectives.
- **Sustainability** – Several City sustainability policies and the Seattle building code guide FAS, as a building owner, to focus on meeting the energy-efficiency requirements of the Seattle Energy Code. Efforts focus on achieving cost-effective measures to reduce energy use and incorporating other sustainability strategies required by regulations. FAS will continue to address new sustainability

efforts, such as the “Green Fleet Action Plan” and the “2030 Challenge,” by proposing additional projects to reduce energy use and greenhouse gas emissions.

- **Asset preservation** – As authorized in Ordinance [121642](#), FAS dedicates annual funding in the CIP to support the replacement of existing building systems, guided by strict policies to ensure those funds are used exclusively to preserve, extend or replace failing and existing components such as roofs, windows, structures, electrical capacity, boilers or other systems at the end of their useful lives.

Aligning Capital Investments with Growth and/or Community Planning

FAS’ 2022-2027 Proposed CIP focuses primarily on preserving existing City assets and infrastructure. FAS’ commitment to support the operational growth and capacity challenges of our public safety departments is also demonstrated in the CIP investments to build and expand existing public safety facilities. Examples are seen in the rebuild of Fire Station 31 and the replacement of the Fire Station 5 dock. The FAS CIP Asset Preservation programs span across city districts to preserve the real property assets on FAS properties within the communities we serve.

Project Selection Criteria

Projects to be considered for inclusion in the FAS CIP fit the priority themes above and adhere to the capital and asset preservation policies adopted in Resolution [31203](#). They typically fall into two categories: Projects that improve or enhance operational effectiveness or projects that preserve the City’s capital assets. FAS solicits requests from its tenant departments for facilities-related projects that create or enhance operational effectiveness, vets them for timeliness and appropriateness and evaluates each request on its own merit. FAS also seeks Executive direction regarding projects that increase departments’ operational capacity and other areas of opportunity to consider when planning the City’s CIP priorities.

Asset preservation work is planned on a six-year cycle and evaluated for specific project development and execution. Department staff uses a custom database known as the Unifier Asset Management and Preservation System (Unifier), to maintain building-specific facilities condition indices and known building deficiencies in the more than 100 FAS-managed buildings.

Every year, FAS revises the list of facility asset preservation projects that need to be addressed. This list is compiled from annually updated asset management data generated by building condition assessments, energy audits, performance metrics and other capital planning studies. Elements that extend the useful life of improvements, increase tenant comfort and reduce utility bills are integrated into existing projects where feasible. The recent Facility Condition Assessment report supports the needed investments in asset preservation.

2022-2027 CIP Highlights:

FAS’ 2022-2027 Proposed CIP includes new critical investments and the endorsed ongoing programs and funding adjustments over six years, focusing on asset preservation of FAS properties and infrastructure, space consolidations supporting a key mayoral initiative, and improvements to public safety facilities. Below are specific programs and discrete capital projects with funding adjustments:

- **FAS SMT Tenant Improvement** – This project includes the continued implementation of the SMT FAS Consolidated Master Space Plan. This multiphase project will improve staff equity in work spaces, customer access to FAS public service counters and accommodate additional department staff while reducing FAS’ SMT footprint.

- **Seismic Retrofit Assessment** – This item adds funding for the Seismic Retrofit Facilities Improvements program. FAS facilities house important City services, many of which will be critical in the event of an earthquake. The Seismic Retrofit Facilities Improvements program will perform a preliminary engineering evaluation of the current portfolio and develop an implementation plan for seismic retrofits in FAS facilities to increase the City’s resiliency, reduce life safety issues due to a catastrophic event and reduce the risk of downtime or impacts to critical City services.
- **Animal Shelter** – The Seattle Animal Shelter continues to require substantial improvements to its infrastructure needs. Prioritizing safety projects, a seismic study and a backup generator installation will be completed in 2022. The remaining improvements will be developed into a proposed program for execution in 2023 and 2024.
- **Fire Station 31 Replacement** – This project provides funding for the design and construction of a new Fire Station 31 to replace the existing facility. This budget cycle proposes an adjusted spend plan to reflect current conditions but does not change the total project cost.
- **City Tax System (SLIM) Replacement** – This project provides funding to begin evaluating and planning for the replacement of the Seattle Licensing and Information Management (SLIM). Future funding will need to be allocated.

CIP Revenue Sources

The 2022-2027 Proposed CIP is supported by funding sources including Limited Tax General Obligation (LTGO) bonds, REET I and space rent charges by FAS to City departments. LTGO bond funding is used to fund projects such as SMT Elevator Rehab and HCM Replacement. The related debt service is funded by the rates charged by FAS to City departments. Endorsed REET I funds are focused on specific facility improvement needs, such as Earthquake Preparedness, Animal Shelter, and Fire Station 31 debt service.

Summary of Upcoming Budget Issues and Challenges

FAS’ most pressing long term CIP budget issues continue to involve the age and condition of many City-owned buildings and responding to federal, state and local code requirements and City sustainability goals, among other challenges. Below are specific programs and projects related to FAS budget challenges:

- **Asset Preservation** – The FAS Asset Preservation Program, created by Ordinance [121642](#), dedicates funds derived from space rent to replace building systems in 100 City buildings inside and outside of the downtown core. The Asset Preservation (AP) Program has historically been funded at a level of \$4 million annually from space rent charges. This funding level is short of the annual funding level of \$12 million that FAS’ current models suggest to adequately address deficiencies and deferred major maintenance work, estimated at more than \$100 million. Therefore, additional REET 1 is proposed for this purpose in the 2022-2027 Proposed CIP.
- **Building, Energy and Land Use Codes and City Sustainability Goals** – FAS’ efforts will play a major role in the City’s achievement of its sustainability and environmental goals. FAS must continue to provide reliable, compliant and structurally sound facilities that City departments use and that the public accesses. These investments require that FAS be diligent in evaluating and incorporating strategies and methods that achieve code compliance, energy efficiency and accessibility in the operations, maintenance and infrastructure improvements of its buildings, all in a cost-effective manner. How best to educate, inform and involve the public with regard to accomplishing these various goals is an on-going challenge.

Future Projects/What Is on the Horizon

City facilities must be accessible, reliable, well maintained and responsive to the needs of operating departments to ensure public safety and the delivery of critical services to customers. FAS will utilize the Facility Condition Assessment report to help in prioritizing the major maintenance and infrastructure project needs. However, FAS faces an ongoing challenge in adequately funding these needed asset preservation and major maintenance requirements at the City's aging facilities, including the 31-year-old Seattle Municipal Tower, Seattle Fire Department (SFD) Headquarters and multiple FAS' shops and yards.

Another issue is ensuring that capital projects are accurately budgeted and fully funded in the face of continued rising costs of construction. Furthermore, the City's public works requirements on capital projects have brought unique challenges to contractors bidding on public work, and these requirements have also impacted project costs and administration. Understanding how policies (including CWA, sustainability, energy efficiency, ADA, and RSII) and regulatory requirements influence and impact the City's capital programs and project costs needs to be a continuing conversation between CBO, FAS and capital departments.

Lastly, there are numerous Mayoral initiatives, from decarbonization and sustainability-driven projects, to electrification of vehicles and ongoing support of homelessness strategies that FAS stands ready to execute when funding opportunities become available.

ADA Improvements - Citywide

Project No:	MC-FA-ADAIMPCTY	BSL Code:	BC-FA-GOVTFAC
Project Type:	Discrete	BSL Name:	General Government Facilities - General
Project Category:	Improved Facility	Location:	Multiple City facilities
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2012 - 2022	Neighborhood District:	Multiple
Total Project Cost:	\$1,335	Urban Village:	Multiple

ADA Improvements Citywide Project provides FAS technical assistance, consultant engagement and City policy work. Policy guidance from FAS will provide the necessary support to the departments prioritization and implementation of ADA improvements as identified in the Citywide Transition Plan.

Project Category:	Improved Facility	Location:	FAS facilities
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project is the FAS American with Disabilities Act (ADA) ongoing program that will address specific ADA improvements and upgrades at various FAS-owned and operated facilities. Past work has included reconfiguration of restrooms, meeting rooms and other spaces, reconfiguration of facility amenities such as drinking fountains and various public access routes to sites, buildings and public spaces. Future funding allows FAS to implement its long-term strategy that resolves the most critical public-facing ADA deficiencies first and maximizes accessibility to the greatest extent possible.

This ongoing program provides for long term preservation and major maintenance to the FAS schedule 1 facilities. Schedule 1 facilities are comprised of existing and future office buildings located in downtown Seattle, including but not limited to City Hall, the Seattle Municipal Tower and the Justice Center. Typical improvements may include, but are not limited to, energy efficiency enhancements through equipment replacement, upgrades/repairs to heating/ventilation/air conditioning systems, upgrades/repairs to electrical systems, upgrades/repairs to fire suppression systems, roof repairs or replacement, and structural assessments and repairs. This work ensures the long-term preservation of the operational use of the facilities.

This ongoing program provides for long term preservation and major maintenance to the FAS schedule 2 facilities. Schedule 2 facilities are comprised of existing and future structures, shops and yards located throughout Seattle, including but not limited to City vehicle maintenance facilities at Haller Lake and Charles Street, FAS shops located at Airport Way S., fire stations, police precincts including the animal shelter, and other FAS managed facilities used for City Services. Typical improvements may include, but are not limited to, energy efficiency enhancements through equipment replacement, upgrades/repairs to heating/ventilation/air conditioning systems, upgrades/repairs to electrical systems, upgrades/repairs to fire suppression systems, roof repairs or replacement, and structural assessments and repairs. This work ensures the long-term preservation of the operational use of the facilities.

City Facilities Project Delivery Services

Project No:	MC-FA-CTYPDS	BSL Code:	BC-FA-FASPDs
Project Type:	Ongoing	BSL Name:	FAS Project Delivery Services
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides pass-through budget authority for FAS to provide design and construction management services, as requested by City departments, at facilities that are neither managed nor leased by FAS. Typical work may include, but is not limited to, the following services: predesign, programming, master planning, conceptual planning, architectural and engineering design and construction administration. FAS proposes to use the second and fourth quarterly supplemental budget process to "right size" the pass-through budget authority for this project. This approach allows FAS to meet the present needs of departments that have funding for their projects and is consistent with year-end accounting and budgetary requirements.

This project provides predesign, design, and construction services for developing or reconfiguring space and other adjacent functions in the Downtown Civic Campus. Work may include, but is not limited to, working with project sponsors to catalog space and equipment needs, energy efficiency improvements, developing planning options, developing project cost estimates, and construction. Work may also include analysis of how vacated space in other facilities might be utilized for other city uses.

Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2016 - 2020	Neighborhood District:	Multiple
Total Project Cost:	\$7,970	Urban Village:	Multiple

This project funds FAS's capital work efforts towards meeting the Drive Clean Seattle (DCS) initiative, a comprehensive transportation electrification strategy to transition Seattle's transportation sector from reliance on fossil fuels to the maximal use of clean, carbon-neutral electricity. Work will include but is not limited to, the design, permitting, and construction of 150 electric vehicle charging stations in the Seattle Municipal Tower to provide capacity for the conversion of City fleet to electric vehicles. Future work may include the installation of charging stations at additional sites.

Energy Efficiency for Municipal Buildings

Project No:	MC-FA-ENEFFMBLD	BSL Code:	BC-FA-EXTPROJ
Project Type:	Ongoing	BSL Name:	FAS Oversight-External Projects
Project Category:	Improved Facility	Location:	Multiple City facilities
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project funds energy efficiency work across City facilities, managed by the Office of Sustainability and Environment (OSE), in support the City's goal to achieve a 20% reduction in building energy use by the year 2020. OSE will implement a package of energy efficiency projects, as well as continue a suite of O&M improvements, program management, measurement and tracking, and building assessments. The energy efficiency upgrades are expected to generate utility rebates paid by Seattle City Light and Puget Sound Energy, to be deposited into the General Subfund and shown here as future General Subfund revenue. Work may include but is not limited to, building tune-ups, facility improvements, building energy upgrades, and energy efficiency measures.

Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides funding for FAS to implement information technology (IT) proposals, to replace existing FAS IT systems that are at the end of their useful lives, accommodate new programmatic and operational needs, and allow the department to function efficiently. FAS coordinates development and implementation of these proposals with the Seattle Information Technology Department. Specific projects include replacing FAS' department-wide budget system, developing a new risk management information system, and assessing and replacing FAS' Capital Projects Information Management System.

Fire Facilities South Lake Union

Project No:	MC-FA-PSFSSLU	BSL Code:	BC-FA-PSFACFIRE
Project Type:	Discrete	BSL Name:	Public Safety Facilities Fire
Project Category:	New Facility	Location:	TBD
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Multiple
Start/End Date:	2017 - 2019	Neighborhood District:	Lake Union
Total Project Cost:	\$300	Urban Village:	Multiple

This project provides for site evaluation and acquisition (and potential future design and construction) for a new Marine Emergency Response facility for a freshwater and land-based fire apparatus in the vicinity of the South Lake Union and Denny Triangle neighborhoods. Due to recent population growth in these neighborhoods, there is an ever-increasing need to site a new facility. Initial funding supports the City's site evaluation work and/or design and pre-planning costs. The total cost of developing the facility has not yet been determined.

Financial Planning Strategy: The estimated cost to reach 100% design, including land acquisition and demolition of the old structure is \$11.3m. Once the project reaches the 30% design milestone it will be baselined and FAS will establish a total project cost. The financial planning estimate above is based on the midpoint of the Total Project Cost range. The expenditures per year are based on typical design, bidding and construction durations of similar projects. The current financial strategy is to finance acquisition, design, and construction with REET backed LTGO bonds.

O&M Impacts: O&M impacts will be evaluated as the project advances through the design process.

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Fire Station 31 Temporary Station

Project No:	MC-FA-FS31IMP	BSL Code:	BC-FA-PSFACFIRE

Fire Station 32

Project No:	MC-FA-FFERPFS32	BSL Code:	BC-FA-NBHFIRES
Project Type:	Discrete	BSL Name:	Neighborhood Fire Stations
Project Category:	Improved Facility	Location:	3715 SW Alaska St
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 1
Start/End Date:	2010 - 2019	Neighborhood District:	Southwest
Total Project Cost:	\$11,908	Urban Village:	West Seattle Junction

This project, part of the 2003 Fire Facilities and Emergency Response Levy Program, rebuilds Fire Station 32 in a three-story structure at its existing site. It also provides temporary quarters for firefighters while the fire station is under construction. The existing Fire Station 32 is seismically vulnerable and cannot feasibly be renovated to provide the space necessary to support modern firefighting equipment and emergency functions. The project supports firefighters in the provision of high-quality emergency services to the West Seattle community and will protect them in the event of an earthquake.

Fire Station 5

Project No:	MC-FA-FS5	BSL Code:	BC-FA-PSFACFIRE
Project Type:	Discrete	BSL Name:	Public Safety Facilities Fire
Project Category:	Improved Facility	Location:	925 Alaskan Way
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2014 - 2023	Neighborhood District:	Downtown
Total Project Cost:	\$14,391	Urban Village:	Downtown

This project, located on the downtown Seattle waterfront, provides a seismic and safety upgrade for Fire Station 5 and makes functional improvements to the facility and building systems. The project renovates the fire station and replaces the existing dock to protect fire fighters in the event of an earthquake and allows them to provide high-quality marine and land-based emergency service. The project was originally timed to coincide with the Seawall replacement project as this facility is physically attached to the Seawall structure, and dock replacement work was timed to align with Washington State Ferries (WSF) projects along the Waterfront.

Total Project Cost:	N/A	Urban Village:	Downtown

This ongoing project provides an annual contribution (including increases for inflation) to a capital renewal fund for the Garden of Remembrance, located next to Benaroya Hall, per an agreement with Benaroya Hall Music Center (BHMC), a private, non-profit affiliate of the Seattle Symphony. This project pays for major maintenance and replaces garden installations including, but not limited to, irrigation equipment, landscaping, electrical/lighting fixtures, and mechanical water features. The project is managed by the BHMC and is displayed within FAS' CIP for informational purposes only.

Human Capital Management System

Project No:	MC-FA-HCMSYS	BSL Code:	BC-FA-A11T
Project Type:	Discrete	BSL Name:	Information Technology
Project Category:	New Investment	Location:	700 5th Ave
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:	2021 - 2026	Neighborhood District:	
Total Project Cost:	\$60,936	Urban Village:	Downtown

This technology project funds the planning, design and replacement of the aging Human Resource Information System (HRIS), which includes the citywide payroll and benefit system, with a new Human Capital Management (HCM) system. The timing of this project is critical for the citywide HR, timekeeping and payroll system, which will no longer be supported after 2023. The project was approved by the Enterprise Oversight Board (EOB) in February 2020 and will be managed out of the FAS Business Systems division, with funding and partnership from Seattle Department of Human Resources (SDHR) and Seattle IT (ITD)

O&M Impacts: To begin the strategic planning for implementing a new system, both FAS Business Systems and Seattle Department of Human Resources (SDHR) will hire 1.0 FTE and 2.0 FTEs respectively in 2020. Additional funding from ITD will allow for a strategic consulting firm to assist with this body of work and finalize the implementation budget and schedule. Additional staffing and services will be required in 2021 and 2022 for the life of the project.

North Seattle Public Safety Facilities

Project No:	MC-FA-SPSFDEBT	BSL Code:	BC-FA- SPSFDEBT
Project Type:	Ongoing	BSL Name:	Seattle Public Safety Facilities Debt Service
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides funding for long term public safety facility needs in North Seattle. These funds are for planning, design, and possible construction of facilities, as well as potential debt service for larger bond funded projects. Due to the current age of both police and fire facilities, along with expected growth in Northgate and other areas in North Seattle, planning for future improvements is critical to maintaining emergency response.

Seattle Municipal Tower Chiller Plant Replacement

Project No:	MC-FA-SMTCHLRPL	BSL Code:	BC-FA-APSCH1FAC
Project Type:	Discrete	BSL Name:	Asset Preservation - Schedule 1 Facilities
Project Category:	Rehabilitation or Restoration	Location:	700 Fifth AVE
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:	2018 - 2020	Neighborhood District:	Downtown
Total Project Cost:	\$18,000	Urban Village:	Downtown

This project replaces the chiller plant in the Seattle Municipal Tower (SMT). The project will require a multi-year execution plan to allow for permitting, design, procurement and construction to occur during the windows of opportunity when cooling is not required. This highly technical, complex construction effort is a once-in-a generation endeavor. With a dwindling supply of spare parts for maintenance and repairs, it is no longer feasible to defer this critical work, and delaying the project would put FAS at risk of not being able to provide essential cooling to City of Seattle offices and other building tenants. Project costs shown here are exclusive of \$1 million expended on preliminary work on this project in 2018. Those funds are included in the Asset Preservation - Schedule 1 Facilities project (MC-FA-APSCH1FAC).

Seattle Municipal Tower Elevator Rehab

Project No:	MC-FA-SMTELVRHB	BSL Code:	BC-FA-APSCH1FAC
Project Type:	Discrete	BSL Name:	Asset Preservation - Schedule 1 Facilities
Project Category:	Rehabilitation or Restoration	Location:	700 Fifth AVE
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:	2019 - 2022	Neighborhood District:	Downtown
Total Project Cost Range:	28,000 - 32,000	Urban Village:	Downtown

This project will improve the operation, reliability, and system performance of the Seattle Municipal Tower (SMT) elevators. The work will bring the SMT elevators to current building codes and into compliance with Americans with Disabilities Act (ADA) requirements. This project is envisioned to be a multi-year effort that must be phased to minimize impacts on SMT ongoing building operations, and on the approximately 4,000 city staff who work in the building and the public who visit the SMT to access City services.

Seattle Municipal Tower IDF Infrastructure Upgrades

Project No:	MC-FA-SMTIDFINF	BSL Code:	BC-FA-GOVTFAC
Project Type:	Discrete	BSL Name:	General Government Facilities - General
Project Category:	Improved Facility	Location:	700 Fifth AVE
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:	2015 - 2020	Neighborhood District:	Downtown
Total Project Cost:	\$2,500	Urban Village:	Downtown

This project provides electrical, cooling, and fire separation upgrades for 15 existing Intermediate Distribution Frame (IDF) rooms in the Seattle Municipal Tower (SMT) that house network, telephone and security systems. The resultant electrical and cooling capacity increases will allow the systems in the room to be upgraded now (in the case of Voice over IP phones) and in the future. In addition to these capacity infrastructure upgrades, fire separations will be established for the rooms. This project will enhance the reliability of the systems housed in the IDF rooms by improving the infrastructure that serves them and protecting the rooms from potential damage caused by events outside of the rooms.

Total Project Cost:	\$4,700	Urban Village:	Multiple

The Seattle License Information System (SLIM) manages the issuance and renewal of business licenses and the collection of revenue from fees and taxes. SLIM is now outdated and can no longer adequately meet the needs of expanding business license, tax collection, and enforcement processes and needs to be upgraded. Recommendations for a SLIM replacement will be considered as the Multi-City Business License and Tax Portal project is implemented.

Information Technology

Seattle Information Technology Department

Overview

The Seattle Information Technology Department (Seattle IT) aims to be a best-in-class digital service delivery team for City of Seattle departments and the residents we serve. Seattle IT provides powerful technology solutions to the City and public; including, data, telephone, and radio networks; applications and application infrastructure; desktop, mobile and printing devices; cloud services; website and internet connections; television channel; data centers, servers, storage, and backup. Seattle IT also manages designated projects on behalf of the City, other departments, and regional partners.

Seattle IT's Capital Improvement Program (CIP) supports major maintenance, improvements, replacements, and upgrades to the City's existing technology systems, as well as the development and implementation of new projects. Seattle IT's 2022-2027 Proposed CIP budget is \$107.7 million. Details for 2022 are provided in the following table.

CIP Program Name	2022 Proposed	Planned Spending
Discrete Projects		
Criminal Justice Information System Projects	\$13,076,000	Implement case management systems for agencies including Seattle Municipal Court, the Hearing Examiner, and the City Attorney.
Ongoing CIP Programs		
800 MHz Radio Network Program	\$723,000	Maintain radio network infrastructure and public safety radios.
Applications Development - Public Safety	\$1,500,000	Implement work, schedule, and timekeeping system for Seattle Police Department
Computing Services Architecture	\$2,182,000	Computer equipment related to a new Unified Communication System (to replace the City's current telephone system) as well as routine equipment replacement and upgrades for servers, storage, and facility infrastructure.
Data & Telephone Infrastructure	\$5,691,000	Network equipment related to Unified Communication System, and routine equipment replacement and upgrades.
Fiber-Optic Communication Installation & Maintenance	\$4,468,000	Fiber installation and maintenance.
Seattle Channel Maintenance & Upgrade	\$345,000	Equipment replacement and maintenance.
Department Total	\$27,985,346	

CIP Revenue Sources

Seattle IT's CIP has been funded through a variety of revenue sources, including:

- **Rates and Allocations:** There are multiple services within the department that are cost-allocated based on a percentage of use for the service provided or billed directly to a department based on the actual cost of time and labor or quantity of materials provided. Seattle IT's budget also includes some projects that are funded using proceeds from general obligation bonds. Rates and allocations provide the funds to repay the debt service on these bonds.
- **State and Federal Grants:** Federal and state grants have been used to finance system replacements and new capabilities. In some cases, Seattle IT has been the direct recipient of the funds; in others, Seattle IT has managed grant-funded projects for customers. The use of grant funding for the Seattle IT CIP has been intermittent.
- **Cable Franchise Fees:** Seattle IT collects Cable Franchise Fee revenues that are set in franchise agreements with the cable providers. Some of this revenue has been used to fund the CIP Program which supports the Seattle Channel. Cable Fees have historically provided less than 1% of Seattle IT's CIP program.
- **Reserves:** In some instances, Seattle IT's rates and allocations include the collection of funds which are accumulated and held in a reserve in Seattle IT's Fund Balance. Currently, this is only done for the 800 MHz radio system, although it has been considered for other areas. Expenditures of these reserve funds appear Seattle IT's CIP program. Historically, there is a low level of spending for ongoing Operations & Maintenance items, with intermittent large expenditures associated with major replacements and upgrades.
- **Private Dollars:** In the past, Seattle IT projects have occasionally included funding from external non-public sources. Such instances are highly intermittent, usually for relatively small dollar value and not projected to continue at any appreciable level.
- **Levy:** In the past, Seattle IT received some CIP funding from a levy for the development, acquisition and installation of the 800 MHz emergency radio communication system. Going forward, the future replacement and upgrade of the county-wide radio system is funded by the Puget Sound Emergency Radio Network levy. Outside of that, no additional levy funding is anticipated.
- **Bonds & Future Bond Proceeds:** Seattle IT utilizes funding from City bond sale proceeds to implement significant capital projects in the CIP. Rates and allocations typically provide the funds to repay the debt service on these bonds.
- **Use of Fund Balance:** Seattle IT may use existing fund balance or planned carryforward to implement some projects in its CIP.
- **To Be Determined:** Occasionally, Seattle IT's CIP includes future projects for which a specific funding source has yet to be specified. These projects will not go forward unless and until funding is secured.

2022-2027 CIP Highlights

Seattle IT's 2022-2027 Proposed CIP Budget includes the following transfers and modifications to CIP programs:

- Computing Services Architecture (\$33,697,000) includes funding to replace hardware relating to the Next Generation Datacenter (NGDC). Seattle IT's 6-year capital plan requires lifecycle replacement of existing aging equipment that is no longer effective or secure. The 2022-2027 Proposed CIP includes new funding to support the City's IT infrastructure lifecycle replacements and invest in newer, more secure technology.
- Data & Telephone Infrastructure (\$6,341,000) includes funding for the Unified Communications (UC) project as well as the Data Network Hardware project. Within the Unified Communications project, the legacy telephony system has planned replacements and software updates as support expires. Seattle IT's 6-year capital plan encompasses end of life equipment replacement and the purchase of new technology for increased security and continued support within the Data Network Hardware project. The 2022-2027 Proposed CIP includes new funding to support software and major hardware for the City's data and telephone systems.
- Criminal Justice Information System Projects (\$3,000,000) project includes bond funded budget to support the Municipal Court Information System (MCIS) replacement. As the MCIS project has progressed, the updated spend plan reflects a shift in the timing of expenditures, which resulted in the transfer of \$3,000,000 of bond funding from 2021 to 2022 to better align with the projected spending timeline. The 2022-2027 Proposed CIP reflects the additional appropriation and associated bond issuance transferring to 2022.
- Applications Development - Public Safety (\$1,500,000) includes funding to implement a work, schedule, and timekeeping solution for the Seattle Police Department.

Thematic Priorities

Seattle IT's priorities are:

Priority 1: Connective and Collaborative

Enable collaboration by providing tools and information anytime, anywhere, from any device.

Priority 2: Efficient and Flexible

Provide business process and operations efficiencies that enable rapid response and technology changes while upholding fiscal responsibility.

Priority 3: Talent and Capabilities

Continuous investment in an inclusive and supportive workforce that keeps pace with a dynamic technology and business landscape.

Priority 4: Modern and Innovative

Further City priorities, including social justice and equity goals, through the acquisition and implementation of leading-edge technology solutions and practices.

Priority 5: Reliable and Sustainable

Provide clients with ongoing practical, security and modern infrastructure, platforms and tools to support their business needs.

Priority 6: Privacy and Transparency

Respect privacy guidelines that apply to every part of the IT workplan, as well as provide a clear picture of IT resources to stakeholders.

Project Selection Criteria

STEP 1: Identification of Technology Needs and Opportunities

In this step, needs and opportunities for technology investments are identified. This happens on a rolling basis throughout the year, as well as during the budget planning process. Input comes from multiple places, including:

- customer department requests and requirements (including technology plan alignment to department strategic plans)
- Seattle IT Strategic Agenda
- technology roadmaps (updated annually)
- asset replacement schedules
- coordination with partners (regional efforts, vendor partners, etc.)

This step includes development of initial cost estimates and other resource requirements, potential timing, and dependencies. At the completion of this step, potential projects are added to the Citywide IT Project Portfolio for tracking and consideration through Seattle IT's Project Gate Review process.

STEP 2: Identification of CIP and Non-Discretionary Projects

As part of the Gate Review process, items identified in Step 1 are filtered to determine if they are (1) CIP-appropriate or not and (2) discretionary or not. Criteria for determining if they are CIP appropriate or not include:

- overall dollar value
- timeframe of implementation (e.g., multi-year project)
- lifespan of investment
- investment in/preservation of long-term infrastructure
- the nature of the acquisition (e.g., goods, services, etc.)

Criteria for determining if they are non-discretionary include:

- legally mandated (e.g., debt service, federal or state law/regulation changes, court orders, etc.)
- urgent security or risk mitigation needs (e.g., major system failure, major security breach)
- reimbursable services to others (e.g., Seattle IT manages a regional fiber consortium where the partners contract with/through us to get work done).

Projects which are determined to be non-discretionary are automatically moved forward for inclusion in Seattle IT's initial CIP and budget proposal. Discretionary projects proceed to Step 3. Regardless of discretionary status, project requests complete the Gate Review process to validate projects are established with the appropriate governance, value proposition and risk mitigation planning.

STEP 3: Prioritization of CIP-Appropriate Discretionary Projects:

In this step, proposed investments are screened to determine if they are a match for Seattle IT's normal maintenance/upgrade/replacement programs within the CIP. Investments such as these tend to be smaller in scale (less than \$250,000), "like for like" replacements (e.g., old equipment replaced by new equipment with little to no functionality change), etc. These projects are rated by program managers based on criteria tailored to each program and implemented as annual funding allows.

Larger capital investments which are best implemented on a stand-alone basis due to the size and complexity of the project are evaluated and ranked separately based on the following criteria:

- asset preservation/replacement/maintenance
- product lifecycles
- legal requirements/mandates
- security/risk mitigation
- reimbursable from other sources (other depts. or outside entities, grants, reserves)
- dependencies (on other products, equipment, etc.; also on staff/resource availability/long-term supportability)
- internal customer demands (including capacity) – including Mayoral/Council/Mayor's IT Subcabinet priority
- external customer demands – public, businesses, etc.
- external drivers (vendor changes, regional commitments, etc.)
- efficiency/effectiveness improvements/resource savings and return on investment
- key future trend/forward-looking/pro-active

Summary of Upcoming Budget Issues and Challenges

- **Hybrid Workforce.** The shift of the City's workforce to a hybrid-remote model will continue to put pressure on the IT infrastructure and resources necessary to secure our more distributed technology environment and continue to provide efficient services to employees. For example, the City's Virtual Private Network infrastructure was enhanced during the pandemic but will require ongoing financial and technical support to continue to serve the larger remote population of City staff. Similarly, the majority of City employees are not equipped to be mobile, flexible, and resilient. Most employees do not have laptops, and logistics related to asset management, device support, and equipment deployment will continue to be challenging unless additional

investments are made to support remote employees. Finally, some previous and in-flight capital IT projects, such as the Unified Communications system, were designed based on a pre-pandemic set of assumptions and use cases; some of those decisions concerning, for example, conference room technology, mobility, and fixed telephone sets will likely be in flux over the next 12-24 months, which may result in additional expenses. Funding from the Coronavirus Local Recovery Fund (CLRF) appropriated to Seattle IT will help cover upfront costs in these investments needed to shift to a hybrid-remote model.

- **Disaster Recovery/Preparedness** - A future consideration as we invest in new programs and technologies is the need for disaster recovery and business continuity capabilities. Our reliance on systems continues to grow and, while our capital investment projects deliver new functionality, this work typically does not account for the redundancy or infrastructure needs to support an expedient disaster recovery scenario. The additional costs that come when planning that work are usually deemed cost prohibitive when sizing a Capital Improvement Project. As we continue to plan our capital program, we will need to account for a more robust disaster recovery investment or be prepared to accept the risks.
- **Rapid and major changes in technology.** The continued rapid rate of change in technology presents a major challenge for the City. User demands (both internal staff and constituents) around technology continue to grow as available functionality expands exponentially. New technologies provide new solutions and new opportunities, but at the same time they can initially disrupt productivity, require upfront costs, and impact security, privacy, and the governance landscape. Vendors regularly “de-certify” and stop supporting products the City relies upon, leaving the choice of spending significant amounts of money to upgrade to supported products or risk running important/critical City functions on unsupported platforms. At the same time, the method by which vendors deliver technology solutions is rapidly changing. Many vendors have moved or are moving away from delivering a software product to the City for installations on City servers; instead, they are offering cloud-based and hosted solutions that the City can access on a subscription basis. While offering many benefits, this changing delivery approach requires increased City investments in identity management, data integration, and contract management.
- **Planning for future investments and lifecycle management.** Departments want to move fast to leverage new technologies before Seattle IT has developed the platforms, teams, or culture to make this happen. Seattle IT balances the competing objectives of doing things right and doing them right now.
- **Platform First.** Similar to all large enterprises, where technology has overtaken the organization’s operations organically and over a long period of time, the City of Seattle also sits on hundreds of legacy technology solutions. A fragmented technology footprint is a major cyber security concern but in today’s challenging economic climate, it is also a financial liability. A key factor in achieving reductions in the City’s technology investment is directly dependent on a Platform First approach where 80% of the City’s technology business is performed on 20% of technology solutions. Seattle IT continues to promote the platform first approach but will have limited success without a formal City-Wide commitment to address this as an enterprise issue versus a tactical IT problem.

- **Privacy.** The data privacy risks associated with technology continue to grow - the variety of threats from malware, ransomware, social media, compromised web sites, and other sources continues to multiply, as does our continued reliance on connected devices through telework. Cloud services like Office 365 and the increased use of mobile devices offer a new set of security and privacy-related challenges. At the same time, the City collects and uses a vast and expanding amount of data on a regular basis. Some of this data contains personally identifiable information or may otherwise pose a privacy concern if exposed or if used in a manner inconsistent with public expectations. Emphasis is shifting away from end-point security to risk management of critical assets and assurance of identity. Preventive controls are no longer reliable, requiring a greater emphasis on the ability to locate and quickly remediate compromised technology.
- **Public Expectation.** The public has high expectations for how government performs, including how technology is used to deliver efficient and accessible government services. Some Seattle residents are tech savvy while others still lack internet access. Generational differences also create different expectations regarding services. Investments in new technology-enabled government services must balance many audiences.

Future Projects/What is on the Horizon

Seattle IT has identified several initiatives and issues which will need to be addressed at some point in the future.

- **Software systems which require replacement/upgrades.** Prior to IT consolidation, the Department of Information Technology CIP did not include funds to cover replacement of large applications owned and operated by individual departments. Since consolidation, Seattle IT has “inherited” responsibility for many such systems, most of which did not come with any long-term replacement funding. Replacement and upgrades for systems owned and operating by Seattle Public Utilities and Seattle City Light are generally being funded out of the utilities’ CIPs with Seattle IT acting as the service provider. However, funds for other large applications and systems needing replacement are not comprehensively programmed into Seattle IT’s CIP. Seattle IT will continue to address these needs on a case-by-case basis as the need arises.
- **Long-term major upgrades to the Regional Radio System.** The City is part of a regional public safety radio system (Puget Sound Emergency Radio Network). The current technology platform is approaching phased obsolescence and needs to be replaced or upgraded in the next few years. The four co-owners of the existing system, including the City of Seattle and King County, are working together to implement a replacement radio system. A levy to fund this important initiative was passed in spring 2015, and a formal governance structure for the effort was adopted via an Inter-Local Agreement signed by the 12 participating jurisdictions. The current CIP does not reflect the results of any potential changes related to the new system, as discussions regarding the long-term governance and operational support are still ongoing.
- **Infrastructure systems which require replacement/upgrades.** Seattle IT’s CIP contains sufficient funding to cover routine replacement of lesser value items, especially those which occur every year (e.g., switches, mid-range servers, etc.) However, larger value, intermittent replacements

Seattle Information Technology Department

are more difficult to fund within existing budget. These needs will continue to be addressed on a case-by-case basis as the need arises.

800 MHz Radio Network Program

Project No:	MC-IT-C3550	BSL Code:	BC-IT-C0700
Project Type:	Ongoing	BSL Name:	Capital Improvement Projects
Project Category:	New Investment	Location:	700 5th Ave / Various
Current Project Stage:	N/A	Council District:	Council District 3
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This project funds the upgrades and replacement of software and hardware for the City of Seattle's portion of the King County Regional 800 MHz radio system. The 800 MHz radio system provides the communication infrastructure required for public safety operations such as 911, Medic One, Fire and Police.

O&M Impacts: This CIP project represents ongoing capital purchases to support our operating shared services projects. Ongoing impacts are built into Seattle IT's budget.

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Applications Development - Public Safety

Project No:	MC-IT-C6307	BSL Code:	BC-IT-C0700
Project Type:	Ongoing	BSL Name:	Capital Improvement Projects
Project Category:	New Investment	Location:	700 5th AVE
Current Project Stage:	N/A	Council District:	Council District 3
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This project provides funds to develop and implement software applications used by the Seattle Police Department (SPD) and the Seattle Fire Department (SFD). The applications will improve personnel oversight and deployment, in addition to enhancing the accessibility and quality of SPD and SFD data. These applications will support ongoing efforts to achieve improved transparency and compliance.

Fiber-Optic Communication Installation and Maintenance

Project No:	MC-IT-C3600	BSL Code:	BC-IT-C0700
Project Type:	Ongoing	BSL Name:	Capital Improvement Projects
Project Category:	New Investment	Location:	VARIOUS
Current Project Stage:	N/A	Council District:	Council District 3
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This ongoing project provides for the installation and maintenance of a high-speed fiber-optic communication network for the City and its external fiber partners. The fiber network includes, but is not limited to, sites such as libraries, public schools, fire and police stations, community centers, and other City facilities.

Permit System Integration

Project No:	MC-IT-C6305	BSL Code:	BC-IT-C7000
Project Type:	Discrete	BSL Name:	Capital Improvement Projects
Project Category:	New Investment	Location:	700 5th AVE
Current Project Stage:	Stage 5 - Execution (IT Only)	Council District:	Council District 3
Start/End Date:	2017 - 2021	Neighborhood District:	Downtown
Total Project Cost:	\$7,956	Urban Village:	Downtown

This project provides funding to develop, implement, support a cross-department platform for the City’s regulatory oversight. The platform will provide internal and external stakeholders with streamlined processes and accessibility. In addition, the project seeks to automate labor-intensive processes while establishing tracking and reporting of performance metrics.

O&M Impacts: No O&M Impacts for 2022-2027 Budget.

Appendices

Appendix A: New or Expanded Capital Facilities

Seattle City Light

Project Name	Project ID	Project Capacity	Project Location	2021 Budget*
MC-CL-XB6351	Boundary Powerhouse - Unit 51 Generator Rebuild	Rationale: The Unit 51 generator at Boundary is the original installation and its typical 30-year life expectancy has expired. It has accelerated deterioration of its windings caused by thermocycling (frequent startup and shutdowns of the generator, resulting in more pronounced temperature fluctuations). Failure of a generator can cause lost revenue, which during runoff could be many millions of dollars. Additionally, a failure may cause a fire and set off the fire extinguishing system, which would expose the powerhouse and its personnel to safety risks inherent with fire, smoke, and carbon dioxide (CO2) discharge for fire suppression. A rewind also allows for an updated insulation design that will permit the use of water as a fire protection system, providing an improvement in worker safety. Also, if the technology is advanced sufficiently by the time of the rewind, we may add a rotor mounted scanner or other diagnostic equipment. Alternative(s): Defer work indefinitely.	10382 Boundary Rd, Metaline, WA 99153	\$19

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- XB6353	Boundary Powerhouse - Unit 54 Generator Rebuild	Rationale: The Unit 54 generator at Boundary is the original installation and its typical 30-year life expectancy has expired. It has accelerated deterioration of its windings caused by thermocycling (frequent startup and shutdowns of the generator, resulting in more pronounced temperature fluctuations). Failure of a generator can cause lost revenue, which during runoff could be many millions of dollars. Additionally, a failure may cause a fire and set off the fire extinguishing system, which would expose the powerhouse and its personnel to safety risks inherent with fire, smoke, and carbon dioxide (CO2) discharge for fire suppression. A rewind also allows for an updated insulation design that will permit the use of water as a fire protection system, providing an improvement in worker safety. Also, if the technology is advanced sufficiently by the time of the rewind, we may add a rotor mounted scanner or other diagnostic equipment. Alternative(s): Defer work indefinitely.	10382 Boundary Rd, Metaline, WA 99153	\$6,452
MC-CL- XB6401	Boundary Facility - Minor Improvement s Program	Rationale: Setting up and monitoring separate capital projects entails considerable administrative costs which may unreasonably increase the cost of small projects, even when identified in advance. Covering such projects under the emergent project program allows for accountability and tracking at the subproject level, with minimal overhead costs. A recent example is a FERC requirement for a mobile emergency generator as a redundant source of power to open spill and sluice gates. Project Weighted Rating-40.8, Primary Rationale-Varies Alternative(s): The only alternative for emergent projects is to find some other way to fund emergency needs that arise. Usually, for capital projects, this involves emergency appropriations involving the passage of special City ordinances, among other things. The time required to cut through the red tape of special appropriations could be prohibitively long, given that the needs that arise are either of an emergency nature or cannot be predicted. The only alternative for planned small capital projects is to secure separate budgeting for each one by putting each small project into the same administrative league as multi-million dollar projects.	10382 Boundary Rd, Metaline, WA 99153	\$202

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XB6493	Boundary Powerhouse Generator Step-up Transformer Replacement	Rationale: Design to begin in 2010. Closeout in 2017. First transformer delivered in 2012. Alternative(s): An alternative approach would be to repair or replace units as they fail from deferred maintenance. This approach would eventually result in a significant loss of revenue and/or fines from a regulatory agency. Accepting the risk of failure would not be in the best interest of the utility. Having a spare unit onsite would prevent such failures.	10382 Boundary Rd, Metaline, WA 99153	\$7,183
MC-CL- XB6535	Boundary Powerhouse - Unit 52 Generator Rebuild	Rationale: This project is part of the Utility's Generator Rebuild Program, a series of projects to maintain and extend the useful life of the Utility's aging generators. The program rebuilds ten generators, accounting for 70 percent of City Light's generating capability. Alternative(s): No Alternatives Provided.	Boundary Rd, Metaline, WA 99153	\$5,480
MC-CL- XB6565	Landis and Gyr RTU Modernizatio n Boundary, Cedar Falls and Skagit	Rationale: Replace failing gear with new. Alternative(s): No Alternatives Provided.	Boundary, Skagit and Cedar Falls power facilities	\$520
MC-CL- XB6566	Boundary - DC Battery System & Charge Modernizatio n	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	Boundary Rd, Metaline, WA 99153	\$78
MC-CL- XB6987	Boundary - Licensing Mitigation	Rationale: In order to continue to operate the facility, the City must obtain a new FERC license. The decision to apply for a new license has been made and we have embarked on the default FERC licensing process, the Integrated License Process (ILP). While the cost of attaining a new license to operate Boundary Dam is very significant, Boundary provides anywhere from 25% to 40% of SCL's power requirements and produces power at a cost significantly below the market rate. The plant's operations are shaped to deliver power during peak-load hours, an operating regime that allows the City to meet continued service area load growth and provide regional system reliability. For these reasons, the Utility has determined that obtaining a new license is a priority and we are confident that it will continue to be a cost effective source of renewable power for the City. Alternative(s): No Alternatives Provided.	10382 Boundary Rd, Metaline, WA 99153	\$16,927

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XC6406	Cedar Falls/South Fork Tolt - Minor Improvements Program	Rationale: Setting up and monitoring separate capital projects entails considerable administrative costs which may unreasonably increase the cost of small projects, even when identified in advance. Covering such projects under the emergent project program allows for accountability and tracking at the subproject level, with minimal overhead costs. A recent example is the replacement of an Oil-filled Transformer. Project Weighted Rating-40.8, Primary Rationale-Varies Alternative(s): The only alternative for emergent projects is to find some other way to fund emergency needs that arise. Usually, for capital projects, this involves emergency appropriations involving the passage of special City ordinances, among other things. The time required to cut through the red tape of special appropriations could be prohibitively long, given that the needs that arise are either of an emergency nature or cannot be predicted. The only alternative for planned small capital projects is to secure separate budgeting for each one by putting each small project into the same administrative league as multi-million dollar projects.	19901 Cedar Falls Rd SE, North Bend, WA 98045	\$746
MC-CL- XC6450	Cedar Falls Powerhouse - Unit 5/6 Generator Protective Relay	Rationale: The present generator protection is outdated and lacks some basic protection elements to protect it from abnormal frequency and voltages. The existing relay does not meet the North American Electric Reliability Council (NERC) and the Western Electricity Coordinating Council (WECC) regional requirements for maintaining the generator in-service during system disturbances. This deficiency was identified as part of the NERC/WECC compliance program, and has been scheduled for replacement as part of a prioritized program along with other outmoded technology present in SCL's aging infrastructure. Alternative(s): 1. Do the project described. 2. Do Nothing. This is not considered to be a viable approach since the present generator protection scheme does not meet the ANSI/IEEE Standard or the WECC/NERC regional requirements for the protection of generators.	19901 Cedar Falls Rd SE, North Bend, WA 98045	\$1,183
MC-CL- XC6573	Cedar Falls - Bank 6 Replacement	Rationale: This project improves generation reliability by replacing this critical transformer prior to failure. It will also enhance overall operational performance since new transformers are more efficient, have more environmental protections, and require less maintenance. Alternative(s): The only alternative to this project is to run the transformer to failure which would necessitate an emergency project to replace it.	Cedar Falls	\$1,887
MC-CL- XC6625	Cedar Falls Rehabilitation	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	Cedar Falls	\$150

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XF8389	Special Work Equipment - Shops	<p>Rationale: This project provides new tools and work equipment to replace outdated equipment. The project updates technical systems to current standards, as our current transformer test equipment relies on out dated computer equipment and programming that is no longer supported. Some equipment does not meet latest safety standards. Other equipment is no longer supported by replacement parts or can no longer be repaired to provide accurate cutting, bending, etc. Some equipment needs to be updated to provide for increased production or size of stock material worked. Other equipment needs updated programming to provide for the latest technology advancements. The project ensures the transformers CL purchases and installs are safe and will last up to and beyond the average life span. It also ensures that we receive what we paid for, as specified, and that it will fit our system without problems such as oil leaks, incorrect voltage, and non-functional safety interlocks, etc. Replacing shop special tools and equipment will allow customer service enhancements by providing newer technology for more accurate fabrication of parts and other shop made items, safer tools to use, and newer equipment with more safeguards built in. Alternative(s): The recommended alternative would be to fully fund the special tool requests. This option would allow for the stated goals to be realized. Alternatives to funding special tools budget for shops are to not fund it or to fund at a lower level. Both of these options would slow production and would impact the opportunity to effectively serve the shops customers. It could also impact safety and injury rates where older equipment is less efficient and less ergonomic, requiring more repetitive motion and more labor with less automation.</p>	System wide	\$292
MC-CL- XF9006	Safety Modification s	<p>Rationale: Project 9006 was established to correct imminent and critical safety hazards not covered by divisional budgets. Investments will lower the risk of WA State compliance penalties and possible costs related to employee or customer injuries. Alternative(s): 1. Complete the projects as they emerge within established budget. Proactive response reduces the risk of employee and customer injuries, and related costs, as well as potential non-compliance penalties. 2. Do not fund project. This may leave significant safety problems unresolved, leading to increased compliance penalties. 3. Defer the project. The impact is similar to alternative 2 above, and also results in a continual growth of open and unfunded safety projects.</p>	Citywide	\$1,701

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XF9101	Equipment Fleet Replacement	<p>Rationale: As mobile equipment ages, it reaches a point where it becomes more economical to replace the equipment than to continue to repair it. In the past, the mobile equipment fleet coordinator used a twenty year replacement plan to maintain City Light's vehicle pool. Due to replacement deferrals starting in the mid 90's and the budget cuts which began in 2000, that replacement plan by necessity was revised. We are now faced with replacing fleet on an as needed basis. That priority is to replace the most often used, specialized, or critical equipment to the Utility, or the most costly to maintain and least reliable vehicles first. To get back to an established plan will require seven plus years of enhanced financing. A seven year recovery plan requires \$10 million annually. That plan has been underfunded for 15 years. The planned annual purchases, per the twenty year plan for the heavy fleet equates to approximately \$8 million per year. That \$10 million replaces the equipment that normally needs to be replaced every year and addresses some of the equipment that has been deferred. The proposed \$10 million will not fully cover inflation and the increasing cost of materials as many purchases now have a steel surcharge added. There are also added emissions requirements for the coming years starting in 2007. This will require about \$10,000 per diesel engine along with design changes to accommodate space for higher heat and larger exhaust pipes. The Memorandum of Understanding between the Fleet Management Department (FMD) and Seattle City Light (SCL) regarding financing and management of the City Light Fleet states on June 22, 1998, the City Council adopted Resolution 29771. In that resolution is reference to Timely Replacement of Vehicles. The recommendation is to replace vehicles in a timely manner, when fully depreciated.</p> <p>Alternative(s): The recommended alternative is to address the backlog of City Light vehicles, heavy and light fleet, on a plan spread over 7 or more years (a \$30 million backlog currently on a \$130 million fleet) A second plan would be to not purchase fleet vehicles. This option would result in paying both higher maintenance costs for worn out vehicles and higher rental costs both for specialized vehicles and daily use vehicles currently at \$2 million annually. It also has safety ramifications when considering malfunctions and inopportune breakdowns. A third plan would be to continue to not address the back log but replace on an as needed basis. This plan requires more rental costs and time loss due to equipment down time. It also does not address the need to be more fuel efficient and environmentally friendly. This plan to replace only as needed would be less</p>	System wide	\$7,715
------------------	-----------------------------------	--	-------------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

		reliable for tracking or budgeting. Address the back log through a seven year or longer plan.		
MC-CL- XF9103	Office Furniture and Equipment Purchase	Rationale: Workplace and process improvements completed under program 9159, plus ongoing organizational change, require the purchase of office furniture and equipment in order to achieve the project objectives. Each year Utility Support Services completes approximately 450 service requests requiring furniture reconfiguration, at least a third of which involve ergonomic corrections. Alternative(s): 1. Fund program 9103. 2. Don't fund program 9103 and purchase all office furnishings and equipment from the O&M budget. 3. Maintain office furniture until it can no longer be sustained in acceptable condition and then replace in total with a future ad hoc program.	System wide	\$8,521
MC-CL- XF9107	North and South Service Center Improvement s	Rationale: The purpose of the proposed subprojects, SSC locker room remodeling, NSC building on the main site, and the SSC yard study, is to improve each facility in support of the assigned staff/crews. Results include improved efficiency and reduced maintenance. Planning in the employee parking lot is necessary since an off-ramp will be constructed over a portion of the lot. The SSC yard study subproject includes planning for the revisions needed when the off ramp is built from the Spokane Street Viaduct to 4th Avenue South. The off ramp is to be placed over the employee parking lot. Alternative(s): 1. Continue the improvements as proposed. 2. Defer improvements. 3. Replace the service centers with state-of-the-art facilities. 4. Do no improvements until the service center is unusable and then replace the asset.	Outside City of Seattle	\$5,686
MC-CL- XF9134	Seismic Mitigation	Rationale: Several seismic surveys of City Light facilities have been done in past years. Some of the deficiencies were corrected; usually as part of a major construction program, however many of the deficiencies remain. Our structural engineering unit has an unscheduled plan to review prior surveys and release a prioritized corrective action plan. Plan implementation funding will be considered at the next budget cycle, or earlier, by special appropriation. Alternative(s): 1. Budget for emergent projects is recommended until the above action plan is in place. 2. Take no corrective action. 3. Contract for a comprehensive seismic study. Include cost estimates and a firm schedule requirement in the study results. Initiate a program of projects to make corrections.	Outside City of Seattle	\$1,364

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XF9151	Facilities Regulatory Compliance	Rationale: Before City Light property is sold the area must be evaluated for any contamination. This project allows each property to be thoroughly investigated for contamination. Alternative(s): The alternative is to pass on contaminated properties to new owners and therefore incur long standing environmental liability.	500 Newhalem Creek Rd, Marblemoun t, WA 98267	\$348
MC-CL- XF9152	Environment al Safeguarding and Remediation of Facilities	Rationale: Statutory fines for mishandling or releasing hazardous and dangerous materials can reach tens of thousands of dollars per day and civil liability claims for damages stemming from a release or spill can reach into the millions. More important is City Light's position, as a responsible member of the community, to safeguard the environment. Alternative(s): 1. Fund Program 9152. 2. Don't fund Program 9152 and address environmental issues as directed by environmental agencies using O&M funds. 3. Incorporate money in other capital projects to address environmental issues. 4. Shift risk by outsourcing or by purchasing environmental insurance.	Outside City of Seattle	\$72
MC-CL- XF9159	Workplace and Process Improvement	Rationale: This program defines a separate workplace improvement element devoted specifically to integrate people and processes within the built environment as opposed to the long term strategic asset management focus of other facilities programs. Projects proposed under this program are justified based on an asset life cycle that is typically shorter than that used for replacement or improvement of building elements serving multiple and varied work groups and processes. Implement properly authorized process improvement projects within one month of the agreed upon completion date. Alternative(s): 1. Fund Program 9159. 2. Eliminate Program 9159 and expense business function support projects. 3. Force individual business units to budget for their own improvements and institute a charge back system to bill them for materials and outsourced labor.	System wide	\$451
MC-CL- XF9161	Substation Comprehensi ve Improvement s	Rationale: 1. Reduce the risk to communications equipment and power network controls in order to sustain City Light's historically high system reliability. 2. Reduce workplace complaints among substation staff so that City Light maintains its harmonious relationship with electrical workers. Alternative(s): 1. Fund Program 9161. 2. Eliminate Program 9161 and make limited scope improvements in reaction to critical situations. 3. Eliminate Program 9161 and fund substation improvements out of other programs. 4. Make no improvements and finance increasing risk through insurance. 5. Eliminate Program 9161 and complete substation improvements as an O&M expense.	System wide	\$1,311

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XF9233	Georgetown Steamplant Access Road	Rationale: The Georgetown Steamplant is a National Historic building of great interest to the public and one of the cultural sites of Gerogetown itself. As an environmental justice community, it is important that the City provide access to residents and visitors to be able to show their rich history. Tours are provided to the public and we plan on operating the building as a museum in the future. Alternative(s): Several alternatives for an access route have been reviewed together with King County, and the current agreement includes the chosen alternative.	Off Wa 99 At King County Airport	\$1,478
MC-CL- XF9235	Denny Substation Tenant Improvement s	Rationale: The Seattle Design Commission operating under the guidelines set forth by the Urban Design Merit program unanimously approved the construction of the Denny Substation Project with the condition that the two shell spaces be developed as neighborhood enhancements. As stipulated by the Design Commission, the spaces shall be funded by the Capital Improvement Program, be fully programmed as part of the Denny Substation project and address any mitigation associated with vacating Pontius street. Alternative(s): Altenatives to not moving forward with this project would impact the overall Denny Substation Project - as it would impact the ability to vacate Pontius Street - which is critical to developing the planned Denny Substation for efficient layout of the yard and substation equipment. Options for the community center and the learning center are being explored through best value and benefit to the community and neighborhood, and City Light customers.	Valley Street	\$38
MC-CL- XF9320	Energy Conservation	Rationale: Energy reduction is a Department and City goal. SCL Conservation Unit's energy audits of our facilities will identify a program of projects to accomplish these goals. With documented savings, there will be recovery of some of the costs from BPA. Alternative(s): Do nothing. Continue to consume energy at existing levels.	System wide	\$1,100

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-XP6102	Special Work Equipment - Generation Plant	<p>Rationale: Special equipment needs and new tooling frequently arise on an unpredictable basis. Technology obsolescence and evolution, which are not easily predicted, also play a part in replacement. This project provides some financial coverage for meeting these needs on a first-come, first serve basis. Without this authority, funding for special tooling and equipment would not be readily available and could take months to acquire. This category of acquisition often provides rapid payoff in terms of the efficiency of work execution. Alternative(s): The only alternative is to find some other way to fund special equipment needs that arise. For capital projects, this usually involves emergency appropriations involving the passage of special City ordinances. The time required for special appropriations could be prohibitively long when needs can not always be predicted or arise sometimes from an emergency nature.</p>	Outside City of Seattle	\$922
MC-CL-XP6385	Power Production - Network Controls	<p>Rationale: A 2003 Report from Westin Engineering identified limits to our automation, remote control and supervisory control capabilities at Skagit. Among other things, the report found that there are protocol issues within and between the facilities and between the facilities and the System Control Center. Improvements are necessary before supervisory control, such as remote start stop and remote loading can be achieved. The consequence of not coordinating all the individual controls and monitoring projects is that we will not resolve our protocol issues, and that we will continue to limit our ability to remotely control and operate the plants. This leads to reduced efficiencies and higher production costs. Project Weighted Rating-26.8, Primary Rationale-Reliability Alternative(s): Do nothing. This is not advisable as it can lead to higher maintenance costs and to unscheduled outages due to unforeseen catastrophic bearing failures. Do partial replacements. This has been the approach. However, there are incompatible pieces that cannot be replaced or replicated as some components are no longer in production. This results in greater potential of system failures due to outdated electronic components being run past their life or not updatable.</p>	500 Newhalem Creek Rd, Marblemount, WA 98267	\$158

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XP6530	Hydro Project Spill Containment	Rationale: The project will implement upgrades that will either prevent spills, from oils, greases, fuels and other petroleum products, through process improvements and equipment replacement, or provide additional containment capacity for accidental spills. Options for reducing spills include replacing oil filled transformers with dry type transformers, building larger containment basins around oil filled equipment, reconfiguring powerhouse sumps to separate potentially oily water from non-oily water, installing oil/water separators on transformer and generator cooling water systems, and replacing greased valve bushings with greaseless bushings. Because each powerhouse is unique, different solutions will be designed and implemented at each facility. Alternative(s): No Alternatives Provided.	Outside City of Seattle	\$215
MC-CL- XP6600	SMT AutoLab	Rationale: This project supports continued new cyber security and automation projects. The existing equipment lab is too small and the HVAC system doesn't adequately cool existing equipment. Alternative(s): The project will also look at enlarging the existing lab on SMT 35, as well as looking at alternate spaces to create a new lab. Existing IT labs will be considered.	System Wide	\$114

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-XP6990	Endangered Species Act Mitigation	<p>Rationale: This project protects and restores fisheries habitat in the Skagit and Tolt basins by implementing the Endangered Species Program for recovery of listed fish species that are potentially affected by City Light projects. The project scope includes land purchase, restoration, assessment, and management. The ESA prohibits harming listed species and their habitat. SCL's facilities impact these species since the dams have changed the downstream hydrology, affecting the rearing and spawning habitat for Chinook, and rearing habitat for bull trout and steelhead. When SCL lowers the flow to reduce generation (load following), thousands of chinook juveniles may be adversely affected. In addition, the Skagit Project separates the bull trout population into four distinct populations. Concerns have also been expressed about interference with access to spawning areas resulting from lower reservoir levels and the potential of entraining bull trout. Since SCL's licenses for the Skagit and Tolt were issued prior to the listing, they provide no protection for third party lawsuits under ESA. We have no "take" permit. SCL licenses can also be reopened by Federal agencies, e.g. the U.S. Fish and Wildlife Service, seeking additional measures to protect and restore the listed species. Alternative(s): 1. Complete the projects envisaged by the City Council and incorporated into the Recovery Plans for each basin and work to obtain legal protection. 2. Complete projects as budgeted, extending the timeframe. 3. Terminate the project at current expenditure levels. This would result in failure to carry out a Council and Executive mandate and increase the Department's liability under the ESA. We would not be able to obtain legal protection.</p>	Outside City of Seattle	\$1,154
--------------	-----------------------------------	---	-------------------------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XS6232	Skagit - Sewer System Rehabilitatio n	<p>Rationale: Sewer pipes in the Town of Diablo are so badly cracked and broken that high flows in the river raise the groundwater level above the sewer pipes. The sewage system attempts to drain high levels of ground water (a phenomenon called "infiltration") from the Skagit River through our sewage plant. The excessive plant flow upsets the delicate balance of bacteria in the sewage treatment plant that process the sewage, "washing out" the plant, causing it to stop functioning properly and releasing raw sewage into the Skagit River. This project will provide a design for a sewer pipe rehabilitation, which will eliminate the "washout" problem caused by groundwater infiltration. During heavy storms, the ground becomes saturated and groundwater enters sewer lines via breaks in the pipes, resulting in pipe flows that exceed the capacity of the treatment plant. When this happens, the sewage overflow is passed directly into the Skagit River without treatment. This sort of situation happens once every three to four years. Such sewage overflows, in addition to being a source of pollution affecting downstream users, causes a violation of our sewage discharge permit. When this situation occurs, we are required to contact appropriate authorities and are at risk of being fined. Alternative(s): 1. Do the project described. Replace all broken and deteriorated pipe lengths. Clean pipes with root penetration but no major breaks. This option provides maximum design life. 2. Do nothing: Sewage overflows, permit violations and sewer systems breakdown will result. 3. Pipe liners: Use an alternative pipe rehabilitation method in which a liner is placed inside the original pipe, leaving the existing pipe in place. Eliminates pipe cracks and leaking joints, but is a non-structural solution. 4. Perform a project that supports only the Reflector Bar infrastructure. The rationale is that Hollywood improvements would not be needed pending the outcome of the housing evaluation.</p>	Milepost 126 State Highway 20	\$161
------------------	---	---	-------------------------------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XS6373	Ross Dam - AC/DC Distribution System Upgrade	Rationale: The operation of critical components of the dam, such as gates, valves, and lighting, depend on the power distribution system. The electrical system is 50 years old and has been in service beyond its normal life expectancy. Extra space for breakers is not available, cable insulation is starting to strip, and the existing gear is not approved for lockout/tagout requirements. Presently there is a risk of losing power to the dam spillgates. New conduit and conductors will improve reliability of spillgate operations and other dam operations requiring electric power. New electrical equipment, new lighting, and the addition of emergency lighting will allow staff greater operational flexibility, safety, and efficiency. Alternative(s): Doing nothing will result in eventual loss of control of motors and valves used for water spill control and could cause the dam to be overtopped. Maintaining power to operational components on the dam (for instance the spillgate) is needed to ensure the operation of Ross, which provides an average of 100 megawatts.	Milepost 128 State Highway 20	\$776
MC-CL- XS6405	Skagit Facility - Minor Improvement s Program	Rationale: Emergent capital projects are, by definition, unpredictable. This project provides some financial coverage for such projects on a first-come, first serve basis. Without this authority, funding for emergency work would not be readily available, and could take months to acquire. Setting up and monitoring separate capital projects entails considerable administrative costs which may unreasonably increase the cost of small projects, even when identified in advance. Covering such projects under the emergent project program allows for accountability and tracking at the subproject level, with minimal overhead costs. A recent example is Emergency Generators for the Wastewater Treatment Plants. Project Weighted Rating-40.8, Primary Rationale-Varies Alternative(s): The only alternative for emergent projects is to find some other way to fund emergency needs that arise. Usually, for capital projects, this involves emergency appropriations involving the passage of special City ordinances, among other things. The time required to cut through the red tape of special appropriations could be prohibitively long, given that the needs that arise are either of an emergency nature or cannot be predicted. The only alternative for planned small capital projects is to secure separate budgeting for each one by putting each small project into the same administrative league as multi-million dollar projects.	500 Newhalem Creek Rd, Marblemoun t, WA 98267	\$2,468

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XS6415	Skagit Powerhouses - Install Protection Relays	Rationale: Generator protective relaying at the Ross, Diablo, and Gorge plants does not meet present IEEE Standards. Protective relaying allows the system to automatically and instantaneously respond to surges and faults that may occur in transmission lines due to lightning strikes, load rejections, and other unexpected events, limiting the potential for damage when these events occur. Protection is currently inadequate for some equipment faults, which could lead to fire or additional equipment damage. Such damage can cause generator outages, lost revenues due to loss of generation, longer time to repair, and in some cases causing personnel injury. Project Weighted Rating-38.1, Primary Rationale-Reliability Alternative(s): No Alternatives Provided.	500 Newhalem Creek Rd, Marblemoun t, WA 98267	\$107
MC-CL- XS6515	Skagit Facility Conservation	Rationale: No Rationale Provided. Alternative(s): 1. Do nothing. 2. Perform work as detailed.	Newhalem Creek Rd, Marblemoun t WA 98267	\$484
MC-CL- XS6520	Skagit Facilities Plan	Rationale: The Skagit FERC Licensing agreement requires SCL to meet Section 106 of the National Historic Preservation Act of 1966, to take into account the effects of SCL's undertakings on historic properties. Additionally, the Skagit Licensing Agreement requires SCL to implement a historic resource mitigation and management plan demonstrating proper management of these resources. The Skagit Facilities Plan is SCL's commitment to meeting this licensing agreement requirement and results in better management of the overall resources and better operations and maintenance of the overall assets. Alternative(s): See the separate Skagit Facilities Plan that addresses alternatives. The alternatives include doing nothing, which does not conform to the FERC licensing requirements, and compromises our facilities as an asset to our power production operations and our civic and cultural stewardship responsibilities. The alternative to increase O&M resources (labor and budgets) is another option. This option improves facilities that are not required to meet program needs (improvements to vacant buildings).	Newhalem Creek Rd, Marblemoun t, WA 98267	\$817
MC-CL- XS6540	Skagit - Boat Facility Improvement s	Rationale: Design and construct several new structures to support industrial and recreational boat operations on our Skagit reservoirs. Structures to include a new tour dock, new dry dock, additions to the existing boat houses and a new barge landing in Diablo. Alternative(s): No Alternatives Provided.	Newhalem Creek Rd, Marblemoun t, WA 98267	\$290
MC-CL- XS6562	Ross - Governors	Rationale: The project will be best coordinated with the Bank 44 and 42 replacement projects in order to take advantage of the same outage. Alternative(s): No Alternatives Provided.	Ross Powerhouse	\$95

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XS6564	Ross - Exciters 41- 44	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	Ross Powerhouse	\$756
------------------	------------------------------	---	--------------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XS6610	Diablo Dam - Spill Gate Trunnion Upgrades	<p>Rationale: FERC requires the floodgates on the dams be demonstrated regularly. Gates 2, 3, 14 and 15 at Diablo Dam were tested per FERC requirements in July 2013. Gate 2 trunnion had the highest friction of those tested. Along with the high numeric values there was mechanical noise from the trunnion when the gate was operated. Gate 2 was LOTO'd, and in 2014 the trunnion was disassembled, inspected and found to be deteriorated. The trunnion pins were cleaned of corrosion, the bronze bushing was replaced with like-kind new materials, and the unit was reassembled and tested successfully. After repairs to gate 2, Mechanical Engineering studied why gate 2 failed, establishing requirements for testing the other gates, and identifying a repair method. During this program, it was identified that: ? all the other gates (being of similar design) were at risk of failing by this method, ? the other gates tested at the same time were better than gate 2, but none met the standard of a coefficient of friction of 0.3 or less, ? replacement with like-kind materials offered only a renewal of the time. Maintenance inputs would remain the same (annual lubrication of 20 gates at approx. 3 hr/gate for a two-person crew) ? replacement with a permanent sealed bushing was the preferred method of rehabilitation. The project will rehabilitate all Tainter gate arms' trunnion bushings with new synthetic bushings that are permanently sealed and lubricated. Alternative(s): Do nothing and the Trunnions could seize up, causing a failure of the gate in the open position. This is considered a Dam Failure by FERC standards, and would be extremely costly to ratepayers. Replace with like-kind materials was performed for Gate 2. However there is no significant savings in labor to replace with like-kind (bronze), vs permanently lubricated, sealed, synthetic bushings. Materials savings only with this option, and maintenance continues as in the past which amounts to 2 persons @ 3 hrs/ea per gate, so for 20 gates about 120 person-hours for annual maintenance. Over the expected 75 year life, this amounts to a total of 9,000 hours @\$100/hr (total loaded rate) this amounts to \$900,000 in maintenance in 2014 dollars. Replace with new permanently sealed and lubricated synthetic bushings, labor is the same as for like-kind option, but materials are significantly more expensive than replacement with bronze bushings. However SCL can then avoid the maintenance cost of 120 person-hours annually and the \$900k in 2014 dollars for maintenance over the life of the improvement. The increased material cost for the new bushing type is \$2,660 per gate. That amounts to an upcharge of 53,200 for all 20 gates. As noted previously there is no labor difference between replace in kind vs these new bushings. The labor</p>	Milepost 126 Stte Highway 20	\$306
------------------	--	--	------------------------------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

		savings in maintenance alone pays for the new bushing type.		
MC-CL-XS6986	Skagit - Relicensing	Rationale: Procurement of a new license for the Skagit River Hydroelectric Project from the Federal Energy Regulatory Commission (FERC) is required to continue operations. Alternative(s): No Alternatives Provided.	Newhalem Creek Rd, Marblemount, WA 98267	\$41,522
MC-CL-XS6991	Skagit Licensing Mitigation	Rationale: As part of the relicensing of the Skagit River Hydroelectric Project, City Light is required to provide mitigation for 30 years of continued project operation between 1995 and 2024. The license incorporates the Wildlife Settlement Agreement signed in 1991 by the City of Seattle and numerous interveners (Federal and State agencies, tribes, and environmental groups). This stipulates that the City shall make available a total of \$17,000,000 (in 1990\$) to secure and preserve valuable wildlife habitat. The charges to this CIP project will be credited towards the \$17,000,000 total. Alternative(s): 1. Perform work as scheduled in the Settlement Agreements and required by the license. This is the preferred approach to meeting our license obligations. 2. Delay implementation. This increases our liability since the bridge is falling down and poses a safety hazard which will only increase in future years. 3. Do not undertake some mitigation. This would have severe repercussions as the agencies and tribes are carefully monitoring our progress and participating as partners on many projects. They would likely contest our license should we not fulfill our commitments.	500 Newhalem Creek Rd	\$82

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YD9009	Communications Improvements	Rationale: Project 9009 provides the necessary flexibility to address emergent communication system problems that arise between biennial budget requests. These tend to be smaller projects costing less than \$10K per incident. During any given year there are a variety of requests requiring immediate attention. In addition, this program includes small specific improvement projects that are too small to warrant uniquely assigned project numbers. Each of these small projects has a separate scope of work, schedule, budget, and tracking mechanisms. An example is the project to monitor tower movement on our transmission towers near Oso, WA. Alternative(s): Option 1: Respond to customer requests for emergent and critical work in a timely manner. This approach preserves operational reliability, safety and security. This project provides flexibility to respond to these unknown communications problems or requirements. The alternative to having PE 9009 is to make special requests to the City Council for budget appropriations when emergencies occur. This is time consuming and limits the department's flexibility to react to emergent communications problems. Option 2: Fund the project at a reduced level and incur the risk that emergent trouble cannot be met and worker safety, security and system reliability is compromised.	System Wide	\$700
------------------	--------------------------------	---	-------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YD9102	Special Work Equipment - Other Plant	<p>Rationale: This project is a roll up of requests from individual work units in the Electrical Services Branch and other units in the department except for Generation Division (see CIP 6102) and Power Stations (see CIP 7902). All tools and work equipment over \$5,000 dollars must be capitalized. The purpose of this project is to collect these requests into a project to allow better tracking and review of the expenditures throughout the year. Requests have been reviewed and prioritized during the 2003-04 budget cycle and purchases deferred. The proper funding of tools for high voltage electrical and related work supports the department's goals of safety, productivity and employee morale. Alternative(s): 1. See description. 2. Do nothing. Do not allow units to purchase new tools or equipment valued at over \$5,000. This alternative is not acceptable as the department would be unable to meet the needs and expectations of our customers. 3. Prioritize and review the individual units' requests and adjust CIP to budgeted targets. This would be a new way to budget for this CIP. Individual units may need to defer equipment purchases and in some cases work may be deferred. Risks include the possibility that unplanned equipment failures in deferred equipment will delay work completion. Option 3 has been selected and only the highest priorities for equipment have been funded. This project is being funded at approximately one third the level that historically has been required.</p>	System Wide	\$794
------------------	--	---	-------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YD9108	Transmission & Generation Radio Systems	Rationale: This project builds or replaces communications infrastructure consisting of fiber optic rings, digital microwave, telephone networks and two-way radio systems. This project provides City Light with command and control capabilities for the operation of the electrical system. This project ensures the safe, reliable and efficient operation of the system and positions SCL to meet the Federal Energy Regulatory Commission's vital communications systems requirements. Alternative(s): Option 1 Proceed as proposed. Option 2 Do nothing and continue to have systems that are incompatible with each other, require a high degree of maintenance, at greater cost, and in some cases, rely on commercial carriers for service and system protection; and/or face the loss of capability, capacity, coverage, licenses, and electrical system reliability. This alternative maintains the inadequate data exchange between sites, switches, feeders, meters, and communications systems and networks. Option 3 Install digital microwave instead of fiber systems at all substations and facilities. This is not cost effective, very difficult to locate land or space, design the system, acquire the land or space, provide power and get permits for adequate sites. Future upgrades are very difficult and expensive, and increases maintenance costs.	System Wide	\$630
------------------	--	--	-------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YD9202	Security Improvement s	<p>Rationale: If Seattle City Light's Security Improvements Program is underfunded, its critical facilities face increased risk to sabotage, vandalism, theft, and terrorism that can result in the loss of valuable infrastructure for generation and distribution of power, as well as noncompliance with North American Reliability Council (NERC) 1200 Standards, adopted May 2, 2006, to improve security at critical facilities that house command and control systems. Curtailment of Seattle City Light's electric operations would impact reliability of the power system in the Pacific Northwest, create lost revenues, and jeopardize public safety and emergency response due to loss of lifeline services such as medical services, water and wastewater systems, communications, law enforcement, banking, transportation system, etc. Alternative(s): Option 1, Status Quo: No centralized security system. Operate local security systems in place and use local law enforcement and private security companies to address security on a limited basis. Use private security services and/or request additional assistance from local law enforcement during times when the Federal government has raised the alert level for the nation or region, or for a situation that has occurred requiring additional security services. Option 2, Centralized Security System: Seattle City Light installs security enhancements to delay, detect, and respond to security intrusions at its critical facilities that are connected to a central security monitoring center that will be staffed by trained security guards on a 24/7 basis to monitor and respond to security incidents. Department wide response procedures will be established and coordination with local law enforcement will be established for responding to security incidents.</p>	System Wide	\$2,326
------------------	------------------------------	---	-------------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YD9307	Distribution Area Communications Networks	Rationale: The communication systems now employed are in need increased capacity, better security, faster speeds, and increased reliability to meet new regulatory requirements. This will meet our ever increasing data and voice communication needs and take us twenty years or more into the future. Maintenance costs are lower because increased redundancy and reliability as well as better system alarms and the capability to remotely troubleshoot and reprogram the system. Traffic on the network is easily rerouted until major failures can be repaired. The new requirements of security, relaying, Automated Meter Reading, Automated Distribution and other automated systems will be easier to implement at lower cost once this project is completed. The system is easily upgraded to increase capacity or take advantage of new technology as it becomes available. Alternative(s): Option 1 Proceed as proposed. Install/complete fiber optic rings. Option 2 Do nothing. Have an inadequate communications network, with a high expense O&M component.	Citywide	\$2,396
------------------	--	--	----------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YD9957	Enterprise Geographic Information System	<p>Rationale: MOVED FROM DESCRIPTION, 7/10/2013, WYKPIISJ UPDATED AS OF 4/13/2012, HIBNESM: The Enterprise GIS Initiative will support the Seattle City Light 2013-2018 Strategic Plan in these objectives: 1. Improve customer experience and rate predictability. 2. Increase workforce performance and safety practices. 3. Enhance organizational performance. 4. Continue conservation and environmental stewardship. Replacing our multiple, incompatible GIS systems with a single enterprise level GIS will eliminate redundant data entry into GIS and other systems, increase data quality and put information into the hands of the people who need it, when they need it, including engineering, operations, asset management and environmental affairs. An enterprise GIS will improve field worker safety and reduce the occurrence of expensive project changes in the field resulting from inaccurate or incomplete information. It will also streamline software maintenance and support requirements and ease integration to other future utility systems requiring access to GIS data. This new system will provide: 1. A centralized geospatial data store improving data access and interoperability to support other enterprise systems such as Outage Management (OMS), Work and Asset Management (WAMS), Mobile Workforce, System Planning/Analysis, Automated Utility Engineering Design (AUD), Advanced Metering Infrastructure (AMI) and Business Intelligence (BI). 2. Electronic and web based access to distribution, transmission, streetlight, joint use and fiber optics/communications infrastructure information. 3. A flexible, configurable system that can accommodate evolving business information needs. The additional transmission, streetlight, joint use and fiber optics information that the utility needs to maintain as we move to an asset centric maintenance and planning model essentially doubles the size of the GIS dataset. The number of staff supporting GIS needs has seen an overall reduction in the last decade Alternative(s): This business case and proposal presents 3 options for dealing with the problem: A. Do Nothing B. Replace the current DAMS editor and convert TLM Services C. Install a new unified GIS system A. Do nothing. Do not fund the work. Continue to leave our Radial Distribution System's GIS data at risk, and by extension, baseline OMS functionalities. Apply additional resources to manually maintain systems using current tools. Write and support multiple custom interfaces and procedures to provide base line GIS data required by OMS & WAMS. Do not take advantage of new business processes and functionality of automation between GIS, OMS and WAM. B. Replace the current DAMS editor and convert TLM</p>	System Wide	\$790
------------------	---	---	-------------	-------

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

Services. The current DAMS editor was originally implemented in 1994 as a suite of custom applications using Environmental Systems Research Institute (ESRI) Arc/INFO GIS products. DAMS tools are so obsolete that SCL is no longer backward compatible with our City partners in the Common Geographic Data Base (CGDB). To begin addressing these issues, the existing DAMS editor needs to be replaced. This project would incorporate into the DAMS GIS the final piece of connectivity data, between the customer meter and the transformer that is currently stored in the separate Transformer Load Management (TLM) database. This work will position City Light to begin working toward a unified GIS and to better leverage our GIS investment through new and improved integration to other major IT systems. Examples might include: 1. The ability to replace obsolete engineering analysis and planning systems, such as TLM and NLM/Loadflow, with modern GIS based applications. 2. The ability to more robustly model the underground portions of our Radial distribution system. 3. The ability to move closer to a unified GIS, including both our Radial and Network distribution systems in a single GIS data store, at City Light. C. Install a new unified GIS system. This option would install a new unified

MC-CL-YD9967	Outage Management System Phase II Implementation	Rationale: See attachments Alternative(s): See attachments	Citywide	\$2,203
MC-CL-YD9969	Enterprise Software Solution Replacement Strategy	Rationale: This project is an ongoing commitment to provide a sustainable funding stream to keep enterprise level resources up to date and fully functional. Software systems today are as critical to operate City Lights business as poles and wires. The Utility can no longer afford to delay regular required upgrades and or replacements to the system. Alternative(s): City Light could decide not to upgrade the systems, as prescribed, but that could create a significant risk if the system goes unsupported by the vendor or if something were to happen with the software. Operations and Maintenance costs could rise significantly while attempting to maintain the software on our own.	City Wide	\$11,082

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8129	Network Hazeltine Upgrade	<p>Rationale: Using the Network Hazeltine system provides reliable power by remotely monitoring the electrical vaults and electrical equipment within the entire downtown service area. The Power Dispatchers constantly monitor the real time status of the network using the Hazeltine system. This program costs \$304K per year and avoids problems that can easily exceed twice that amount for Seattle City Light and its customers. The utility's cost for one such problem can range from \$200K up to as much as \$3M. Aggregated customer costs can range from \$100K up to \$5M. The benefit cost ratio for any one problem can range from 0.99 $(\\$200k + \\$100k) / \\$304k$ to be as high as 26.3 $(\\$3M + \\$5M) / \\$304k$. We usually avoid 4 to 5 smaller problems each year and a larger problem, with combined costs of \$1.53M, every 5 years. The yearly benefit cost is then $[4 * 0.99 + 1.53M / (304k * 5)] = 5.0$. Alternative(s): 1. Do nothing. Do not change existing Hazeltine system. Hazeltine has changed the production of their transmitters, forcing utilities to pay a premium for the transformers that is a fraction of the cost of upgrading to their Next Generation equipment. 2. Upgrade to Hazeltine's Next Generation system, changing station receivers and transmitters on each transformer. Total cost is about \$2.2 million. 3. Develop SCL proprietary network EMS system, capable of monitoring plus a new function of control of NP's, BTS's, and primary switches if they are added. Total cost ranges from \$7 million to \$17 million, depending on communications option selected. This excludes developmental costs. 4. Buy any upgrades from vendors only. Wait for Hazeltine or other vendors, to develop network EMS systems with the desired control and monitoring features. No products or competitors to Hazeltine are available at this time for cost estimates. 5. Add sensors to existing or future Hazeltine system to enhance the monitoring of the network environment. This would enable system operators to detect and respond to abnormal field condition and thereby improve customer reliability. 6. Continue existing program of upgrading the sensors to match the current SCL standard. In 2007 and 2008, review the Hazeltine program and determine if more significant upgrades are feasible. Presently, this is the recommended action and funding level for 2007 and 2008. The 2009 and beyond dollars are expected expenditures for the significant Hazeltine upgrades, if approved.</p>	System Wide	\$539
------------------	---------------------------------	---	-------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8130	Network Maintenance Hole and Vault Rebuild	<p>Rationale: The Network Maintenance Hole (MH) & Vault Rebuild project provides reliable electric service by repairing or replacing damaged electrical maintenance holes/vaults and ducts located within the network. This project also reduces unsafe working conditions for our workers and potential hazards to the public. In the 1990s, licensed engineering consultants conducted a series of structural surveys on approximately 1,200 underground maintenance holes and vaults. Based on the survey, 38 MH/vaults have been repaired or replaced at a cost of \$14.1Million. Subsequent additional surveys have been done. Our prioritized list of facilities requiring major repairs or replacements includes replacing 78 MH/vaults and 350 vault roofs. The vaults that we are replacing for the 2007-2008 period have exceeded their expected lifetime. These are among the oldest facilities and include brick structures in Pioneer Square that are approximately 100 years old. Replacing now provides an opportunity to construct a route for bringing main stem feeder service cables through the Pioneer Square area and to a significant portion of the Downtown core area (City Hall, Justice Center, Seattle Municipal Tower) rather than using the Alaskan Way Viaduct structure. By repairing or replacing six manholes/vaults, rebuilding at least 10 vault/manhole roofs and 2,800 feet of old clay tile duct banks. Surveys performed by licensed civil engineering consultants have identified 78 maintenance holes/vaults requiring replacement as well as roofs for an additional 350 underground right-of-way facilities. Alternative(s):</p> <p>Alternative 1 - No Action: Vaults and maintenance holes with failing structures and grates would be left in place until catastrophic failure. Problems associated with deferring repair work include reduced worker and public safety, increased City liability, increased City paving expense, negative impacts on traffic flow through downtown when repairs are not coordinated with SDOT's paving operations, and loss of use of City Light facilities for customer service needs. The no action alternative is never an option as too many facilities are in states of failure that require at least temporary shoring and loss of use, and many require immediate repair. Alternative 2: Perform temporary fixes to the highest risk facilities until permanent repairs are made at some unspecified future date. Without a specific project to repair vaults and maintenance holes, temporary shoring systems installed in failed facilities has the following challenges: a) Electric crews cannot perform electric work in the failed facility with shoring left in place, effectively resulting in loss of use of the facility. b) Placement and removal of temporary shoring reduces productivity of field</p>	System Wide	\$1,852

Appendix A: New or Expanded Capital Facilities

personnel. c) Wood shoring rots from continuous exposure to moisture has limited life in wet network environments. d) Temporary fixes using steel beams can be applied in facilities with few cables or obstructions from temporary supports. Such repairs require costly custom designs from Civil Engineers and could be applied only where manhole access is not needed for several years. Alternative 3 (Preferred): Make permanent repairs to those facilities in need and continually monitor condition of civil facilities. Work would be prioritized to those facilities in highest need of repair, those associated with new customer load additions and those affected by public right of way projects, such as street paving. Benefits of this approach are improved worker and public safety, reduced City liability, improved tr

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8201	Union Street Substation Networks	<p>Rationale: The Union Street Substation Networks project provides sufficient and reliable electrical capacity for the growing power needs of our customers. It is a programmatic approach for comprehensive management of underground network assets (electrical and in some cases civil) serving customers in the area bounded by Yesler Street, Alaska Way, Pike Street, 6th Avenue, Union Street, the Freeway, University Street, 3rd Avenue and the Waterfront area from Denny to Yesler. The project goal is to increase the capacity of present Union Street Substation network feeder cables to their ultimate service build out limit (an overall increase of 128 MVA) as determined by Union Substations transformer capacity, with allowances for feeder imbalances, feeder diversity and diversity among sub-networks. We will re-conductor and re-route four targeted service feeders by the end of 2008 and perform associated work such as feeder balancing. This includes the work in support of finishing the main stem build out and to address capacity issues in the branch portion of the feeder service cables as needed in response to specific service requests, as well as analyses of branch cable congested areas. Work in 2007 and 2008 as well as successive years is necessary to be able to pick up loads that will likely be transferred from Broad Street sub-networks in 5 years. To meet the projected new loads on the Waterfront and at specific downtown core sites we need to complete re-conductoring and re-routing of four targeted service feeders by the end of 2008 and perform associated work such as feeder balancing that will be transferred from Broad Street, and may be transferred from Massachusetts Street; build and energize a new network substation at least six years before all Downtown network capacity is used so that service cutovers can be done with minimal impact to our customers. This work is essential to meet near term load requirements of the SAM/WaMu and Four Seasons projects. This critical project Alternative(s): Alternatives include: 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without commensurate additions to capacity of feeders serving this area, ultimately leading to multiple cable failures and extended customer outages. This would reduce the reliability of the network system from its present level, subjecting it to more lengthy outages. 2. Reduce customer demand for more load with demand side management measures. This alternative was evaluated in the Network Strategic Systems Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little</p>	1312 Western AV	\$2,015

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8202	Massachusetts Street Substation - Networks	<p>as possible and as close to near-term load requirements as possible. This is no longer feasible as the next increment of feeder capacity additions reach their final capacity targets. 4. Increase capacity of network feeders to the full limit of the substations capability to deliver power. 5. Add measures that improve system reliability to mitigate the severity of any network event. 6. Add measures that improve customer reliability by preventing the chain of events leading to major customer impacts.</p> <p>Rationale: The rationale for this project is to increase the capacity and reliability of present Massachusetts Street Substation network feeder cables to their ultimate service build out limit (an overall increase of 69 MVA), as determined by Massachusetts Street Substation's transformer capacity, with allowance for feeder imbalances, feeder diversity and diversity among sub-networks. The Alaska Way Viaduct project will require the relocation of all 13kV distribution feeders that are suspended from the viaduct. These include feeders serving Pioneer Square and the downtown core. Additional duct banks and electrical vaults must be built throughout the Pioneer Square area to accommodate the feeder relocations. Doing the engineering for this relocation during 2007 will ensure that timely civil construction can be done in order to avoid many conflicts with other utilities and mitigate some of the traffic impacts that will occur during the Viaduct and Seawall construction. Alternative(s): Alternatives include: 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without commensurate additions to capacity of feeders serving this area, ultimately leading to multiple cable failures and extended customer outages. This would reduce the customer reliability of the network systems from its present level, subjecting it to infrequent but lengthier outages. 2. Reduce customer demand for more load with demand side management measures. This alternative was evaluated in the Network Strategic Systems Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders to the full limit of the substations capability to deliver power. 4. Add measures that improve system reliability to mitigate the severity of any network event. 5. Add measures that improve customer reliability by preventing the chain of events leading to major customer impacts.</p>	1555 Utah Ave S	\$3,164
------------------	--	--	-----------------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8203	Broad Street Substation - Network	<p>Rationale: Customer demand for higher loads continues. Capacity of the cables serving two sub-networks is near overload, requiring immediate attention to avoid cable failure and customer outages. In the next five years, customers are projected to exceed the capacity of cables in another five network subareas. This capital project addresses the means to serve customer demand for higher capacity. Reliability measures identified in the Network Strategic System Plan are incorporated into this capacity driven work. Without this critical project it is very likely that there will be insufficient reliable electrical capacity in the very near future to hook up new customers and to serve present customers such as the Westin building. hernanju (7/29/21010): The project goal increases capacity of present Broad Street Substation network feeder cables to their ultimate service build-out limit (an overall increase of just under 100 MVA) as determined by Broad Street Substation's transformer capacity. This project constructs ten vaults and ten blocks of duct banks, re-conductors and relocates three primary feeders per year, upgrades/optimizes network transformers as needed, reduces secondary bus ties (reduce the size of the secondary grid resulting in greater reliability), and performs ancillary work. Alternative(s): Alternatives include: 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without commensurate additions to capacity of feeders serving this area, ultimately leading to multiple cable failures and extended customer outages. This would reduce the customer reliability of the network systems from its present level, subjecting it to infrequent but lengthier outages. 2. Reduce customer demand for more loads with demand side management measures. This alternative was evaluated in the Network Strategic Systems Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little as possible and as close to near-term load requirements as possible. 4. Increase capacity of network feeders to the full limit of the substations capability to deliver power. 5. Add measures that improve system reliability to mitigate the severity of any network event. 6. Add measures that improve customer reliability by preventing the chain of events leading to major customer impacts.</p>	319 6th AVE N	\$2,331
------------------	---	--	------------------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8301	First Hill - Network	<p>Rationale: At present, capacity of the cables serving the First Hill network is exceeded in several areas, requiring operation restrictions to avoid cable failure and customer outages. In the next few years, four or more large customer loads are expected to be added, exceeding the capacity of cables. Based on projected new loads within the First Hill area (Harborview and Swedish Medical Centers), the electrical capacity of the cables serving the sub-network will be exceeded, requiring immediate action to avoid cable failures and long costly customer outages. This project will provide and overall electrical capacity increase of 32.4 MVA for First Hill Substation customers. Alternative(s): Alternatives include: 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without the department making commensurate additions to capacity of feeders serving this area. This would ultimately lead to multiple cable failures and extended customer outages. This would also leave the customer reliability of network systems at its present level, subject to infrequent but lengthy outages. 2. Reduce customer demand for more loads with demand side management measures. This alternative was evaluated in the Network Strategic System Plan and found to have a negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little as possible and as close to near-term load requirements as possible. 4. Increase capacity of network feeders to the full limit of the substation's capability to deliver power. 5. Add measures which improve system reliability to mitigate the severity of any network event. 6. Appendix A: New or Expanded Capital Facilities

MC-CL- YN8404	Denny Substation - Network	<p>Rationale: This project is a result of a four years of advocacy by customers to make sure that the electrical distribution system has sufficient capacity to meet the projected loads in the rapidly growing area of North Downtown, and that the system has the reliability and voltage stability to support the research activities of the emerging biotech industry there. The principal stakeholders are the Fred Hutchinson Cancer Research Center, the UW School of Medicine, the Seattle Biomedical Research Institute, Rosetta Inpharmatics, ZymoGenetics, Children's Hospital and Medical Center, and the startups at the Accelerator Project. This five to seven year infrastructure project is specifically tailored and designed to the core needs of this business sector in the North Downtown area. The research activities and the laboratory equipment are so sensitive to system reliability and voltage stability that this area requires an extraordinary level of service from the utility. The motto is "World class research requires world class facilities.". The utility through this project is a partner in that effort. Because existing City Light substations cannot accommodate the new network feeders, this project requires the construction of a new North Downtown substation in a three to five year period, proposed as project 7757, North Downtown Substation Development. This network project cannot exist without the new substation. Alternative(s): 1. Enhance the service using non-network feeders from other substations. 2. Have individual customers invest in private reliability improvements. 3. Install network system in core service area, including the biotech industries. 4. Install network system throughout North Downtown area. Option 1 is not feasible because the availability of feeders from adjacent substations is limited and in question over time. Option 2 has been tried recently, but did not meet the reliability needs of this set of customers. Option 3 is the recommended option, as it is effective in meeting the need and cost effective. Option 4 includes all customers in the area, which is not necessary and expensive.</p>	Valley Street	\$10,647
------------------	----------------------------------	--	---------------	----------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8464	University Substation - Network	<p>Rationale: This project increases electrical capacity and reliability for University Substation customers in response to increased customer demand. At present, capacity of the cables serving the University network is exceeded in several areas, requiring operation restrictions to avoid cable failure and customer outages. In the next few years, larger customer loads are expected to be added, exceeding the capacity of cables. Based on projected new loads within the University area (University of Washington, Sound Transit) the electrical capacity of the cables serving the sub network will be exceeded, requiring immediate action to avoid cable failures and long costly customer outages. Alternative(s): 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without the department making commensurate additions to capacity of feeders serving this area. This would ultimately lead to multiple cable failures and extended customer outages. This would also leave the customer reliability of the network system at its present level, subject to infrequent but lengthy outages. 2. Reduce customer demand for more loads with demand side management measures. This alternative was evaluated in the Network Strategic System Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little as possible and as close to near term load requirements as possible. 4. Increase capacity of network feeders to the full limit of the substation's capability to deliver power. 5. Add measures which improve system reliability to mitigate the severity of any network event. 6. Add measures which improve customer reliability by preventing the chain of events leading to major customer impacts.</p>	645 NW 45Th	\$366
MC-CL- YR8322	Dallas Ave. 26 kV Crossing	<p>Rationale: Boeing and the other industrial customers in this area have critical facilities (e.g., Boeing wind tunnels) that depend on reliable power. The additional feeders assure reliable power supply to Boeing's operations and local industrial plants and residences. The Boeing Company has lobbied our management and the City Council to ensure that this line is replaced. Alternative(s): The do nothing alternative would leave Boeing and others with reduced reliability and in violation of previous SCL commitment.</p>	Dallas Ave S	\$206

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YR8351	Overhead Equipment Replacements	<p>Rationale: Equipment that is aging, overloaded, or of an outdated design poses a risk to the reliability of the system and could lead to unplanned outages and additional restoration expenses. By replacing the oldest and failing parts of our system, and those parts that are not made anymore, and we have no spare parts. We will replace items such as rotten and damaged cross-arms, transformers, hardware, old lead cable, PCB transformers, etc. By doing so, the system will be more maintainable and customer outages will be fewer and not as long.</p> <p>Alternative(s): The do nothing alternative leaves the existing system in place. As the aging and outdated equipment fail they will cause unplanned outages. This necessitates the immediate, unplanned replacement of these facilities. This causes hardship for the customers that are impacted and increased expense for City Light, especially if overtime is required to get the customers re-energized.</p>	System Wide	\$48,718
MC-CL-YR8353	Underground Equipment Replacements	<p>Rationale: Avoid unplanned outages or interruption of service due to equipment failure. Alternative(s): The do nothing alternative would allow the equipment to deteriorate beyond its useful life and result in increased outages to customers.</p>	System Wide	\$17,045
MC-CL-YR8355	Overhead Customer Driven Capacity Additions	<p>Rationale: This project adds capacity to the distribution system to accommodate increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.</p>	System Wide	\$2,579
MC-CL-YR8356	Overhead System Capacity Additions	<p>Rationale: This project adds capacity to the distribution system to maintain the reliability level for the existing customers on the system and accommodate the increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.</p>	System Wide	\$2,260

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YR8358	Overhead 26kV Conversion	Rationale: The existing 4kV equipment has lasted beyond its useful life and is no longer supported by manufacturers. In some places, the 4kV system no longer has the capacity to carry the system loads we are now experiencing. The system also demands ever increasing O&M resources. Alternative(s): The do nothing alternative leaves the 4kV system in place. The capacity concerns will remain and grow worse as more loads are added to the system. Obtaining 4kV equipment will become increasingly difficult and O&M will increase as the system continues to age.	System Wide	\$1,053
MC-CL-YR8360	Underground Customer Driven Capacity Additions	Rationale: This project adds capacity to the distribution system to accommodate increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.	System Wide	\$3,079
MC-CL-YR8361	Underground System Capacity Additions	Rationale: This project adds capacity to the distribution system to maintain the reliability level for the existing customers and accommodate the increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.	System Wide	\$2,551
MC-CL-YR8362	Underground 26kV Conversion	Rationale: This project increases capacity to deliver power to City Light customers, rebuilds and maintains the backbone of the system, saves energy by reducing transformer and line losses, improves quality and reliability of service to customers, and releases unit substation properties for better neighborhood uses. Alternative(s): The do nothing alternative leaves the 4kV system in place. The capacity concerns will remain and grow worse as more loads are added to the system. Obtaining 4kV equipment will become increasingly difficult and O&M will increase as the system continues to age. Operations and maintenance costs are not expected to change as a result of this project. The Capitol Hill Underground Ordinance area does not have capacity at 4 kV to serve the load growth in the area, thus requiring City Light to install vaults, ducts and underground at 26 kV.	System Wide	\$1,005

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YR8425	Distribution Automation	<p>Rationale: The new distribution switching equipment is capable of intelligent controls. The integration of this equipment into the Seattle's distribution system will provide significant benefits and will set the stage for a Smart Distribution System that will become one of the main components of a Smart Grid. S&C Electric offers first generation switching equipment with compatible intelligence built in. Through this CIP, the Smart Distribution infrastructure can be designed, constructed, and operated until fully built out. With SMART GRID in place, operators of the distribution system can optimize the operation of our distribution system, reducing time for outage restoration and preventing some outages in the first place. A smart distribution system can also provide real time data of the system, maximizing the capability of the system, and may allow for deferment of capital expenditure. A fiber cable system that can support this operation has been partially constructed. This fiber ring project can continue and be expanded to provide adequate coverage for Smart Grid and other communication needs of Seattle City Light in the future. Fiber optics communication allows secure communications and meets NERC Cyber Security requirements. As the power system is changed or redesigned through usual needs to serve customers, automated switches can be installed in consonance with the integrated DA plan. Eventually the whole distribution system in Seattle Service Area would have a capability to become a Distribution Automation system. Alternative(s): 1. Business as Usual. Automatic switches will be installed as need arises. Power system switching will be done through manually operated switches. Outage restoration will depend on feeder patrols. 2. Expand pilot projects. Candidates are SODO, which is highly congested with power lines and serves the industrial customers, White Center & Burien areas, which have potential for growth, and south Duwamish commercial area. Include the South Lake Union area when the City decides to proceed with the development. Required? Yes. Distribution Automation needs to be a properly funded project. City Light will have a distribution system ready to deliver automation as part of a SMART GRID initiative.</p>	Citywide	\$2,998
------------------	----------------------------	--	----------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YR8452	Pole Attachments	<p>Rationale: City Light is legally and contractually obligated to make space available on its facilities to government and private entities for communication and other purposes. Customers wishing to utilize space on City Light facilities are required to pay in advance for any necessary work required to provide the necessary space and minimum clearances to the electrical equipment. This ensures that the attachments meet all applicable federal, state and local safety codes. Customers are not allowed to make any attachments until all make ready work, including tree trimming, has been completed and the system made safe for the communication worker. Speed to market in the communications industry is critical for them to maintain their competitive advantage. Customers pay in advance for City Light crews to complete this work on overtime, without interrupting the normal assignments of the crews. All construction charges are deposited into the Light Fund. New wireless facilities and pole attachments generate an additional \$100,000 in rental revenue annually. Currently \$3.3 million in annual rental revenue is being generated and will continue to increase as construction and make ready work is completed. All rental revenue is deposited into the Light Fund. The communications industry and associated technology are growing at an astounding rate. City Light has experienced a 375 percent increase in pole attachment applications since 2007. All trends indicate that this growth will increase by an average of 24 percent annually. This does not take into account major initiatives such as fiber to the home, Advanced Metering Infrastructure (AMI), or vast expansion of existing networks and Distributed Antenna Systems (DAS). Completing the construction for make ready work and wireless facilities will enable City Light to fulfill its legal and contractual obligations to our customers. Customers will be provided a small measure of rate relief through increased revenue streams from these additi</p> <p>Alternative(s): It is possible that some or all of this construction work could be outsourced to electrical utility construction companies. This alternative presents obstacles like logistics, compatible parts, quality control, and required electrical reviewers. These challenges negate any cost savings and sometimes take longer to construct.</p>	System Wide	\$16,057
MC-CL-YR9974	PCB Tracking and Condition Assessment Project	<p>Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.</p>	System Wide	\$300

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YS7121	Replace Breakers BPA Covington and Maple Valley Substations	Rationale: City Light's interconnection agreement with Bonneville Power makes City Light the owner of the breakers in the Maple Valley Yard. City Light is required by this agreement to make upgrades as required. The breakers are currently over capacity due to the addition of another 500 kV line into the area. Alternative(s): If SCL does not replace the breakers, they may be forced to do so through legal means due to a breach of contract.	Kent	\$11
MC-CL-YS7750	Substation Plant Improvements	Rationale: The Power Stations CIP Review Committee evaluates subprojects for this category based on cost benefit ratios and departmental policies. Proposed work includes seismic improvements to old buildings, refurbishment of concrete buildings, upgrades to potable water systems, and construction of storage facilities for materials and tools. Incidental work that Power Stations do to improve station security is also funded in this project. Alternative(s): The water system at the North Substation is old, deteriorating, and becoming unreliable for drinking and for fire protection. Allowing the present systems to deteriorate may endanger employees and further put the safety and reliability of key system resources at risk. Additional seismic improvements are planned at Broad Street substation. Refurbishment of concrete structures is planned at North Substation. Storage facilities for tools and safety protective ground cables are planned for Delridge and East Pine substations. There are several levels of alternatives for improving security at Seattle City Light's fourteen substations. They range from installing more effective perimeter fencing, to adding remote monitoring systems, to catch intruders.	System Wide	\$1,108
MC-CL-YS7751	Substation Capacity Additions	Rationale: We plan to design the feeder get-aways to carry power from substations as needed. Alternative(s): The alternatives to making capacity additions to existing substations are: 1. Accepting limitations on service to customers. 2. Successfully promoting voluntary power demand reductions. 3. Meeting capacity demand increases by new substations and transmission lines.	System Wide	\$2,199

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YS7752	Substation Equipment Improvements	Rationale: The project includes a regular program of critical electrical equipment replacements at the substations, because this equipment becomes less reliable as it ages. The 2005-2006 plans continue a program to provide supervisory control of breaker functions. This allows remote control and monitoring of substation equipment from the System Control Center, which allows the System Control Center to diagnose the seriousness of an equipment malfunction or switch equipment more quickly. This allows a faster response time to correct system instability or outages. Alternative(s): This project is where the utility funds work on equipment that the maintenance review process identifies as being more cost effective to replace or refurbish than to continue to maintain. A review team prioritizes replacements by their criticality rating. This is a figure provided by the System Control Center that identifies the components of Seattle's distribution infrastructure that are especially important to the system as a whole. For example, an equipment failure at Broad Street Substation may cause more of a problem than one at Canal Substation because it is not as easy to switch loads into the network grid.	System Wide	\$6,117
MC-CL-YS7753	Relaying Improvements	Rationale: Relays are protective devices that guard system components when electrical equipment fails. When a relay senses a problem with a major piece of equipment, it opens the circuit flowing to that component and isolates it from the rest of the electrical system. This protects the rest of the distribution system from potentially cascading effects if one part fails to operate properly. Recent technological advances in relay and protection equipment and software allow remote control and documentation of system events. The work plan includes installing digital fault recorder (DFR) equipment and software at the substations. City Light is changing electro-mechanical relay components to electronic, programmable devices. This will make it easier to detect and manage equipment problems. Alternative(s): Almost every change out of high voltage substation equipment requires that its relay and metering be reset and modified. Not continuing to have a significant relay improvement program would keep us using old technology that is not maintained by its manufacturers.	System Wide	\$5,105
MC-CL-YS7755	Substations Demand Driven Improvements	Rationale: Requests from other agencies typically occur without enough notice to be included in the biennial budgeting process. The Power Stations Division budgets a nominal sum for each year to cover requests and to request spending authority. Alternative(s): The alternative to implementing regional demands is failing to meet City commitments to regional agreements.	System Wide	\$5

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YS7756	Interbay Substation - Development	<p>Rationale: The Broad Street Substation is reaching its capacity to serve the network and the growing South Lake Union neighborhood. The limiting factor is an inability to construct additional underground feeders to carry electrical current in to the area. The existing 26 kV distribution system and substations are becoming overloaded and a new 26-kV substation will feed the areas load growth. The 115 kV ring bus work at Broad Street and Canal Substations will provide the connections to the transmission system. The new substations will provide 10 to 15 new 26 kV getaways, adding to the distribution network and providing a new path for power to the area. Because City Light already owns property for a station in Interbay, it is the nearest opportunity we have to add capacity in the western part of the service area that will off-load demand from the Broad Street Substation for the South Lake Union district. Developers who are interested in projects in the SLU district want to know that City Light will be able to serve their needs reliably. Alternative(s): 1. Not build the new substation. 2. Option one build: Contract out the design and construction 3. Option two build: Have City Light design and integrate the facility into the distribution system, and construct the facility. It requires at least 36 months to site, contract for design, construct, and energize a distribution substation. There are several alternatives such as installing distributed generation facilities to meet load growth. City Light has considered constructing additional transmission corridors from the University Substation and/or Canal Substation. Both alternatives require crossing a body of water, which are expensive options even if environmental challenges do not delay or halt progress. Given the recognized growth in South Lake Union, City Light selected the most cost effective and achievable option - constructing a station at Interbay to serve the growing load in that part of the service territory.</p>	17th Ave West	\$247
MC-CL-YS7776	Substation Transformer Replacements	<p>Rationale: To replace aging substation transformers before they fail in service. Appendix A: New or Expanded Capital Facilities

MC-CL-YS7783	Substations Oil Containment	<p>Rationale: The rationale of this project is to get City Light into compliance with the Clean Water Act regulations (Title 40, Code of Federal Regulations, Part 112) which require that oil containment measures be taken that will prevent oil spills into any streams or open bodies of water. During preparation of the Oil Spill Plans required by the regulations, a comparison of existing oil containment facilities was made with the recently revised (August 2002) regulations, which resulted in discovery of instances at 11 of our substations of design problems or capacity problems that should be resolved to fully meet the regulations.</p> <p>Substation Scope of Recommended Oil Containment: (Scott McLean's project estimates) Duwamish Sub - Add oil containment at the bus bays and potential transformers. Major issues are proximity to the Duwamish River, which with porous soils raises the prospect of an oil spill finding its way to groundwater and into the river in a short period of time. Broad Sub - Remedy the insufficient capacity of the oil containment system and lack of impervious sumps. Major issue with the existing system is that spilled oil can overflow the undersized unlined sumps into the combined yard drain sys (i.e. combined drainage and oil containment system) and from there into City drains. There is no oil containment in the E yard. Improve the system or set up a contingency plan. Bothell Sub 1. Provide lining for the currently unlined sumps at transformers and OCBs, and provide for separating the oil containment system from the drainage system. Major issues include unlined sumps; no oil containment for oil tanks at west side next to wetland, combined drainage/oil containment system can spread an oil spill into the yard gravel. 2. Retrofit with impervious sumps at bulk storage tanks with normally closed valve. 3. Pipe 3 CBs at SW yard to MH with OSV. East Pine Sub - Remedy the undersized combined oil containment system, which has the potential of overflowing i</p> <p>Alternative(s): 1. Implement improvements recommended by Oil Spill Plans as soon as possible, to obtain compliance with the applicable federal regulations (Title 40, Code of Federal Regulations, Part 112). 2. Implement recommended improvements over a phased period of time, to obtain compliance with the applicable federal regulations (Title 40, Code of Federal Regulations, Part 112), giving priority to the sites of highest environmental risk. This is the selected alternative. 3. Do nothing.</p>	System Wide	\$548
--------------	-----------------------------------	---	-------------	-------

Appendix A: New or Expanded Capital Facilities

MC-CL-YS8424	Substation Automation	<p>Rationale: Seattle City Light's (SCL) remote monitoring and control of critical substation equipment from our system control center dates from the 1970s, when SCL led the industry's development. The basic configuration in each substation is unchanged since those early days. The configuration consists of a Remote Terminal Unit (RTU), which collects electric system measurements and status; forwards them promptly to the control center; conveys power dispatcher commands back to the substation to operate high voltage switches and circuit breakers for electric system reconfiguration in real time. Industry developments and the toll of decades have made necessary the upgrade of this system. The existing Remote Terminal Unit equipment is 40 years old, wearing out and cannot be replaced in kind because the equipment is no longer manufactured. It has insufficient capacity to address the needs of added substation sensors and controls, cannot offer the computerized capabilities of new technology, cannot support automation of the distribution system feeders radiating from the substations, is too slow to meet the speed requirements of new control applications, is energy inefficient and cannot support modern demands of sophisticated asset management of expensive high-voltage equipment, and it doesn't provide the insight into the operation of the substation that today's staff could be using to improve operation and maintenance practices. Further, an RTU failure will significantly affect the operation of the Automatic Generation Control (AGC) at the EMS. The AGC relies heavily on the RTU for accurate data acquisition of real time power flow on transmission lines to neighboring utilities, comprising the Western Interconnection governed by the Western Electricity Coordinating Council (WECC). The AGC enables the proper allocation of a pool of power generation to the appropriate load required by each utility customer. Loss of AGC due to RTU failure will in turn cause fines from the appropriat Alternative(s): Option I - Replace at Failure: This strategy poses significant business risk that will grow as the equipment ages. Currently, the average age is about 40 years old. This analysis assumes that this equipment will fail at an increasing rate at or before reaching 60 years old. The current technology can no longer be replaced or maintained because it is no longer manufactured. When the RTU fails, it will take one year to replace and require one year of manual operation, which adds approximately \$1Million of additional labor costs above the \$1.3 Million planned cost of replacement. Should SCL lose more than 2 RTUs in one year, it would take longer to replace and require more labor to manually operate the substations. However, replacing this equipment with</p>	System Wide	\$1,275

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

modern technology will set the foundation to support future smart grid applications like AMI (Advanced Metering Infrastructure), OMS(Outage Management System), Asset Management applications, Distribution Automation, and reactive power management, to name a few. It will also allow SCL to meet future NERC compliance requirements for substation equipment and install intrusion control measures for substation security. Option II - Preferred Option: Planned RTU Replacement over 7 Years at a rate of 2 per year. This option will: Remove existing RTU. Install new server systems in every substation. Install supervisory control of feeders (30 feeders for each station) that serve network loads to allow remote control of feeder breakers from the EMS. Install group control of network feeders to enable load restoration in case of a sub-network or total substation outages. Install new annunciators and monitors for productive operator interfaces. Two other options were discussed but not pursued for this analysis. One alternative considered adding a server to each substation over 7 years, but did not propose to connect it. This option didn't return sufficient benefit and resulted in the disadvantage of prolonging the peri

MC-CL-YT7011	Transmission Capacity	Rationale: The capacity of the system is based on winter and summer peaks, weather conditions, and N-1 criteria. Additional capacity shall be added to meet the planning criteria for power delivery of new load demand. Alternative(s): If transmission lines are overloaded, overhead wires could sag beyond National Electric Safety Code clearances causing an unsafe condition, and underground lines could exceed the insulation's temperature rating causing damage to the cable. In order to avoid these situations from overload, which could cause long term outages; shorter term load shedding would be used.	System Wide	\$24
MC-CL-YT7104	Transmission Reliability	Rationale: As structures, insulators and conductors reach their end of life expectancy and need to be replaced to maintain existing systems. To meet the National Electric Reliability Council and Western Electricity Coordinating Council reliability criteria, it is necessary to add additional transmission lines that are not capacity driven. Wood poles will have a shorter replacement life of approximately 40-60 years depending on condition assessment. Alternative(s): Allow the lines to fail before replacing them. This can cause a dangerous safety issue and will reduce the availability of the system at unscheduled and inopportune times. The August 2003 East Coast blackout has shown that inattention to the transmission system has large implications.	System Wide	\$3,064

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YT7105	Transmission Inter-Agency	Rationale: Seattle City Light is required to relocate facilities at the request of other agencies. Drivers for the relocations are road realignments, construction of facilities, regional upgrades, and changes in lighting. Inter-agency projects may or may not be reimbursable depending on real estate drivers. Alternative(s): Do not meet other agencies needs and potentially delay local, state, or regional construction programs. If interagency agreements are not met, there are usually contractual, permit, or franchise rights involved, which could lead to litigation.	System Wide	\$567
MC-CL-YT7125	Denny Substation Transmission Lines	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	System Wide	\$1,001

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YT8461	Transmission Line Inductor Installation	<p>Rationale: Rationale: This project is based upon a Memorandum of Agreement (MOA) between Bonneville Power Administration (BPA), Puget Sound Energy (PSE), and Seattle City Light (SCL), aimed at improving the reliability of the regional electric grid in the Puget Sound Area Northern Intertie (PSANI). Since the early 2000's, BPA has limited energy transfers between the Puget Sound area and Canada due to congestion in the Puget Sound Area. This project will reduce congestion and upgrade the reliability of the transmission system, reducing the risk of region-wide customer power outages in the future. Objectives for this project include: 1. Install series inductors on the Massachusetts to Union to Broad (MA-US-BR) and Denny to Broad (DN-BR) 115kV Underground Transmission Cable Lines in the downtown Seattle Transmission System by 2017. 2. Complete all Transmission System Improvements within the 2013 - 2018 CIP Forecast and Budget. 3. Complete all agreed upon Transmission System Improvements per the MOA by the end of 2017. 4. Complete necessary upgrades to existing substation and transmission equipment or structures to support Seattle City Light's 2013 - 2018 Strategic Plan Initiative for Transmission System Improvements. Project Goals: 1. Enhance customer experience and service reliability for SCL customers. 2. Reinforce transmission interties and interconnections with PSE and BPA. 3. Improve SCL asset strengths and load capacity on existing transmission systems. 4. Reduce the risk of region-wide customer power.</p> <p>Alternative(s): City Light belongs to the Columbia Grid, a regional transmission planning organization. SCL and other Columbia Grid members considered alternatives such as new phase shifting transformers, 500kV transmission lines, and additional underground cables. The goal of the regional analysis was to minimize costs and impacts using a one-utility approach for solving the transmission congestion issues. The selected projects were chosen after two years of transmission system studies and analysis. The 2011 report can be found in City of Seattle Ordinance 123779, as an attachment with a table of the alternatives considered.</p>	System Wide	\$285
------------------	---	--	-------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-ZC9937	New Customer Information System	<p>Rationale: A Customer Information System (CIS) is a key information asset for all utilities. The CIS needs to support the business model and directions of the utilities. Products in the CIS market become less viable over time while others become more viable as they mature and evolve. The current billing system, Consolidated Customer Service System (CCSS), that supports customer billing and call center operations of SCL and SPU was implemented originally in 2000 and was upgraded in 2006. This mission critical system supports SPU and SCL call center utility billing functions. As such, it bills over \$900 million in annual retail revenues for both utilities and issues more than 5 million bills per year. The underlying technologies that support the CCSS system are obsolete and no longer supported by the vendor. Replacing CCSS with a new or revised customer care and billing system enables high priority business capabilities that are not currently supported within the existing or upgraded Banner product. Implementation is expected to take 30 months with the assistance of a systems integrator and/or a team of new and dedicated FTEs who will be responsible for the delivery of all project deliverables. Alternative(s): 1. Do nothing. This alternative will have Seattle maintain its business relationship with the current vendor and plan for future upgrades on a periodic basis, about every four years. 2. Contract for customization of the current version to enhance capabilities and functions. 3. Purchase an upgraded version of the application from the same vendor. 4. Replace the CCSS with a different CIS. This alternative will involve developing a strategic plan, a business plan, and procurement plan. This alternative will require a sizable upfront cost for implementation. The utility plans to conduct a business requirements study in 2012 to identify the benefits and costs associated with each option and assist in making the best choice.</p>	700 5th Avenue	\$3,109
MC-CL-ZC9972	Call Center Improvements - City Light	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	University District / Roosevelt / Northgate	\$45
MC-CL-ZL8377	Transportation Streetlights	<p>Rationale: 2010 EMS Streetlighting that SCL owns may need to be relocated for transportation purposes, just as other SCL facilities. Often SCL will pay to move all types of its facilities if a project is deemed a Transportation Project. Utilizing SDOT as the design and construction management consultant allows SCL to avoid being in the critical path of transportation projects. It also allows for leveraging engineering staff. Alternative(s): The do nothing alternative would hamper transportation projects and cause delays to the public.</p>	System Wide	\$6,784

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL-ZL8378	Streetlights: Arterial, Residential and Floodlights	<p>Rationale: Streetlights and floodlights are provided in public right of way, and on private property, for either public or private benefit. Often these lights are attached on existing City Light wood poles, but they may also be installed on separate metal poles, depending on the application. City Light owns the arterial and non-arterial lighting systems throughout the City of Seattle per Ordinance 119497. In other jurisdictions, franchise agreements may dictate City Light's requirement to support lighting needs. City Light has historically provided the resources to install street lighting. These capital costs are then reimbursed by the requesting party through monthly billing according to Seattle Municipal Code 21.49.060, Schedule T, Option C.</p> <p>Alternative(s): The do nothing alternative would deny new lighting, a service authorized by ordinance. In residential areas, public safety would remain at present levels. Along arterials, the existing aging system would deteriorate beyond usefulness and lag behind improved lighting standards.</p>	System Wide	\$4,334
MC-CL-ZL8441	Streetlight LED Conversion Program	<p>Rationale: 2010 EMS - This project will reduce annually energy consumption by 40% (for those lights replaced), provide Greenhouse Gas Avoidance of 5,446 metric tons of carbon per year, and reduce maintenance cost of the Utility's streetlight system. The savings in energy and maintenance costs will pay for the initial investment within the life of the new system. The overall goal of this project is to improve customer service and reduce cost. With a total system conversion, it is estimated that annual operating costs will be reduced from \$10,180,213.59 per year to \$6,510,231.31 per year. Debt service for system conversion capital cost may be made with these savings. Through 2011, 20,000 cobrahead residential fixtures have been installed. In 2012, residential conversion will take place from the southern border of City Light's service area to Brandon St. The 2013 conversion effort includes residential and minor collector arterials in Zone 2 (250 watt High Pressure Sodium replacements), from Brandon St to Denny Way. Complete conversion of the residential streetlights completion anticipated by the end of 2014. Arterial cobrahead luminaire conversion will continue through 2017. Ornamental LED conversion anticipated through 2021.</p> <p>Alternative(s): No Alternatives Provided.</p>	Citywide	\$2,983
MC-CL-ZL8481	Seattle Waterfront Streetlight Installation	<p>Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.</p>	1312 Western AVE	\$6,385

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-ZS8054	Meter Additions	<p>Rationale: Background: Of the 400,000 meters in City Light's metering system, approximately 80,000 are older than 30 years. City Light's Rates Unit estimates that replacing the meters would result in an increase in revenues of more than \$450,000 annually. City Light has a fiduciary responsibility to continually update the metering system. Due to continuous budget constraints, both in labor and material, targets of 10,000 obsolete meter exchanges were reduced in 2000, 2006 and 2008 to our current level of 5300, thus the backlog of older meters continues to increase. Methodology: New Service Installations: Over the past 9 years, new or upgraded services have averaged 5,500 a year. Material budgeting was based on a 2006 to 2008 average and current labor figures. These project funds support the demands of new construction and upgraded services. Obsolete Meter Exchange: The life cycle of a meter is 30 years based on the electro-mechanical meter. However, current and future electronic technology may reduce this life-span up to 50%. Older meters slow with age, resulting in a loss of revenue to the Department. Obsolete meters can account for up to 3 percent loss in department revenue. The Technical Metering Unit expects to exchange 10,000 obsolete meters annually starting in 2013 through 2016. Alternative(s): 1. Continue to replace obsolete meters at current level of 5,300 annually. City Light could not accurately bill for electrical consumption. Incur loss of City Light revenue due to slow meters. Results in increasing backlog of meters over 30 years old. Increased future utility costs due to replacing obsolete meters at an accelerated pace with higher labor and material costs. 2. Continue to replace obsolete meters at higher level of 10,000 annually. Increase number of customers who receive accurate and timely bills. Reduce loss of utility revenues due to slow meters. Avoid higher cost of meter replacement when meters fail.</p>	System Wide	\$3,830
MC-CL-ZS8350	Overhead Outage Replacements	<p>Rationale: During unplanned outages, work often must be done that requires the complete replacement, rather than repair just one piece of equipment that is normally capitalized. This includes poles and transformers. This project is intended to capture those expenditures. Alternative(s): During an unplanned outage, feeder switching will restore most, if not all of the affected customers. The do nothing alternative possibly leaves the few affected customers without power. The system also remains in its damaged condition which severely limits the flexibility to switch the feeders to allow for other outages, both planned and unplanned. Planned outages are needed to accommodate line moves and other system work.</p>	System Wide	\$1,043

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-ZS8352	Underground Outage Replacements	Rationale: During unplanned outages, work often must be done that requires the complete replacement rather than repair just one piece of equipment that is normally capitalized. This includes cable and transformers. When there are no customer outages, the goal is to restore the system to its normal configuration within two months, unless customer driven construction mandates an earlier deadline or the magnitude of the scope of the outage makes this impractical. Alternative(s): During an unplanned outage, feeder switching will restore most, if not all, of the affected customers. The do nothing alternative possibly leaves the few affected customers without power. The system also remains in its damaged condition which severely limits the flexibility to switch the feeders to allow for other outages, both planned and unplanned.	System Wide	\$1,350
MC-CL-ZS8363	Network Additions and Services: Broad Street Substation	Rationale: The Broad Street Substation Network Additions and Services project connects approximately five small, four medium, and five large properties costing \$4.6 million and performs capacity additions work associated with service connections. These connections include condominiums, office buildings, medical facilities, hotels, and commercial and apartment buildings. Alternative(s): No Alternatives Provided.	319 6th AV N	\$10,901
MC-CL-ZS8364	Network Additions and Services: First Hill, Massachusetts, Union & University	Rationale: This Network Additions and Services project for the customers in the First Hill, Massachusetts, Union, and University District network areas provides service connections to approximately nine small, five medium, and four large properties costing \$3.5 million. These connections include condominiums, office buildings, medical facilities, hotels, and commercial and apartment buildings. Alternative(s): No Alternatives Provided.	1555 Utah AV S	\$3,903
MC-CL-ZS8365	Large Overhead and Underground Services	Rationale: There is a continuous demand for additional electric power services as new construction and renovation work occurs. Seattle City Light provides service to new customers in a safe, reliable, timely, and cost effective manner as a means to fulfill its commitment to be a customer and community focused organization. Alternative(s): Each service connection may have unique aspects that would require or facilitate design, construction, and financing alternatives. Seattle City Light will fully consider alternatives as a means to fulfill its commitment to be a customer and community-focused organization.	System Wide	\$3,371

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-ZS8366	Medium Overhead and Underground Services	<p>Rationale: There is a continuous demand for additional electric power services as new construction and renovation work occurs. Seattle City Light provides service to new customers in a safe, reliable, timely, and cost effective manner as a means to fulfill its commitment to be a customer and community focused organization.</p> <p>Alternative(s): Each service connection may have unique aspects that would require or facilitate design, construction, and financing alternatives. Seattle City Light will fully consider alternatives as a means to fulfill its commitment to be a customer and community-focused organization.</p>	System Wide	\$19,508
MC-CL-ZS8367	Small Overhead and Underground Services	<p>Rationale: There is a continuous demand for additional electric power services as new construction and renovation work occurs. Seattle City Light provides service to new customers in a safe, reliable, timely, and cost effective manner as a means to fulfill its commitment to be a customer and community focused organization.</p> <p>Alternative(s): Each service connection may have unique aspects that would require or facilitate design, construction, and financing alternatives. Seattle City Light will fully consider alternatives as a means to fulfill its commitment to be a customer and community-focused organization.</p>	System Wide	\$6,020
MC-CL-ZS8379	Normal Emergency	<p>Rationale: This project will collect costs related to the annual storm invoked work orders, which results in more accurate accounting for weather related and other emergency outage situations and leads to better planning for similar future events. SCL traditionally has budgeted for these events in the Outage capital project. This did not allow us to easily account for emergencies versus billed work, such as car and pole accidents. Separating these charges will allow us to track costs and feasibly plan for future emergency situations. Alternative(s): To continue to mix emergency and non emergency work in the Outage capital project. This project does not add a body of work but clarifies the accounting for it.</p>	System Wide	\$687
MC-CL-ZS8380	Major Emergency	<p>Rationale: This project will collect costs related to emergency work. This will result in more accurate accounting for weather related and other emergency outage situations. This project does not add a body of work, but clarifies the accounting for it. SCL traditionally has budgeted for these events in the Outage capital projects. This did not allow us to easily account for emergencies versus billed work such as car and pole accidents. Separating these charges will allow us to track costs and feasibly plan for future emergency situations. Alternative(s): To continue to mix emergency and non emergency work in the Outage capital projects.</p>	System Wide	\$2,885

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-ZS8405	Network Additions and Services - Denny	Rationale: This is a mandated project that provides electrical service connections and related improvements in response to requests for service from customers. The project provides targeted civil and electrical design assistance to customers to connect existing and proposed buildings to the North Downtown network system. The conversion effort is quite large since we are installing a new network in this area. It is imperative to participate in early design discussions with customers building in the area. For existing buildings, the conversions to network service are complicated and require expert assistance. This project provides service connections to biotech industry, condominiums, office buildings, medical facilities, hotels, and commercial and apartment buildings. Alternative(s): 1. Do nothing. 2. Hook up customers as they request. Option 2 is recommended as it is most compatible with our mission of customer service.	Valley Street	\$6,057
--------------	--	---	---------------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-ZS8426	Advanced Metering Infrastructure	<p>Rationale: City Light is at a point where replacement is unavoidable and needed in the short term due to the age and condition of its meters, meter reading equipment, and software. Approximately 50% of 350,000 residential meters in the field are at least 30 years old, which is outside the estimated lifespan for electro-mechanical meters. As of February 2009, residential electro-mechanical meters are no longer being manufactured. The software and handheld devices currently used by City Light meter readers to manually capture and record reads will no longer be supported after 2012. In addition, City Light currently employs 57 FTEs in Customer Billing and 44 FTE Meter Readers, of which 43%, or 25 FTE and 19 FTE respectively, are eligible to retire by 2014. This presents an opportunity for SCL to make operational changes that move the utility from a manual to an automated system at a time when it is needed. Alternative(s): Option 1 - Recommended solution: Full AMI implementation as entered. This option's up front capital costs result in significant net savings due primarily to reduced labor costs and increased revenue. In addition, it establishes the infrastructure, technology, and capabilities for improved customer service and support for future plans and operations. Option 2 - Status quo: Continue current meter replacement cycle using current commercially available digital meters without communication capabilities. At the current expenditure rate, between 5,000 and 7,000 meters are installed annually (replacement of failed meters, new meter growth, service changes, etc.). This option minimizes current annual capital costs, but does not provide for timely replacement of all electro-mechanical meters. In the event of accelerated failure rates from the aging meter population, capital costs would escalate. Other options previously screened out: A. Replace failed electro-mechanical meters with working electro-mechanical meters. The cost of purchasing electro-mechanical meters is currently lower than digital units but they are no longer being manufactured. SCL would have to acquire used or refurbished replacement meters from other utilities or companies, with the risk that availability will be reduced over time. B. Replace current electro-mechanical meters on an accelerated schedule using commercially available digital meters without communication capabilities. This option carries significant capital costs for meters, although it does not require the communications and IT infrastructure. It provides limited benefits, primarily through increased meter accuracy, but provides severely limited benefits compared to AMI deployment. C. Deploy AMI on a limited basis to Commercial and Industrial customers, plus a limited number of small services with</p>	Citywide	\$410

Appendix A: New or Expanded Capital Facilities

MC-CL-ZT8307	Alaskan Way Viaduct and Seawall Replacement - Utility Relocations	<p>access problems. Partial implementation would require reduced capital costs but substantially the same investment.</p> <p>Rationale: The Alaskan Way Viaduct replacement includes a complex transmission and network/non-network relocation, design and construction, and is on a fast track. This work is integrated and required by the broader transportation project. The externally generated project and schedule includes significant electrical relocation work in the near term that will extend for over a decade. The utility is required to relocate for transportation relocated projects. The City's overall plan for the Alaskan Way Viaduct project includes utility funded relocations for the viaduct replacement and for rebuilding the Seawall. The series of subprojects that make up the Alaskan Way Viaduct replacement have opportunities for system improvements that will also be funded under this program. For most of the subprojects in the Alaskan Way Viaduct project, utility relocations will lead the construction. Therefore any delay in accomplishing SCL work will result in delays along the overall projects critical path. While the designs & construction schedules for the various subprojects in the Alaskan Way Viaduct program are being sequenced and detail design is underway for the immediate projects, the central waterfront elements of the overall project are beyond this budget cycle and are still in the preliminary design phases. Alternative(s): The Alaskan Way Viaduct program provides the utility with a combination of obligations and opportunities for system improvements over the next 6 years. The Alaskan Way Viaduct program will likely be the City's primary construction focus as its various projects impact traffic and roadway construction, seawall stabilization, and urban design on the waterfront. Seattle City Light facility relocations will be a part of each of these projects. The global nature of the Viaduct Program also provides the opportunity to make system improvements that will provide for increased reliability and capacity for our customers. For example, work in the south end will include system improvements that will increase feeder capacity and reliability for Port customers. Undergrounding of transmission lines near Broad Sub are being done as part of an overall SDOT street improvement with costs shared based on a negotiated MOA with SDOT. The return of Aurora, north of Harrison Street to a city street, and the decommissioning of the Battery Street Tunnel provides an opportunity to extend ducts and vault across Aurora to help provide system capability to the NODO area.</p>	SR 99 / Battery St	\$6,408

Appendix A: New or Expanded Capital Facilities

MC-CL-ZT8369	Overhead and Underground Relocations	<p>Rationale: This project provides the means to move City Light system infrastructure, located in the public right-of-way for transportation projects, including street widening and street vacation projects. This means moving distribution lines to make way for construction of buildings, bridges, airport runways, tunnels, and for other utilities. This project moves electrical lines to accommodate or take advantage of transportation-related projects being constructed by other agencies. The project builds new and replaces old line segments, installs and replaces poles, and adds or renovates underground facilities to the distribution system, as necessary, to relocate distribution systems for transportation projects, street vacations, or other projects proposed by outside (non-City Light) agencies. Some projects are paid for by City Light and some are paid for by the requesting agencies. This project provides the means to move the system for transportation projects in the public right of way, including street widening and street vacation projects. Alternative(s): The do nothing alternative leaves the distribution of facilities in their current location, which would interfere with the projects of the other agencies.</p>	System Wide	\$4,080
MC-CL-ZT8435	State Route 520 Bridge Relocations	<p>Rationale: SCL is legally required to relocate its infrastructure to support transportation driven projects. Alternative(s): No Alternatives Provided.</p>	SR 520 / Lake Washington	\$7,478
MC-CL-ZT8471	Sound Transit Lynnwood - City Light	<p>Rationale: See alternatives. This is a legally required relocations project for SCL. Alternative(s): The Sound Transit Lynnwood Link project is a mandatory distribution system relocations project for SCL. Pursuant to SCL's status as a utility operating in the public transportation right-of-way, SCL is required by Washington State law to facilitate construction of new transportation projects by other agencies, such as Sound Transit. Therefore, this is not an optional project for SCL.</p>	City Wide	\$2,794

Seattle Public Utilities

Project Name	Project ID	Project Capacity	Project Location	2021 Budget*
MC-SU-C1111	Water Infrastructure-Water Main Extensions	This project will install approximately 8,000 feet of new watermains per year.	Citywide	\$2,016
MC-SU-C1112	Water Infrastructure-New Hydrants	This project will improve fire protection by increasing the number of fire hydrants in the city.	Citywide	\$50
MC-SU-C1504	Regional Water Conservation	This project will extend SPU's water supply by up to 11 MGD using demand reduction from customer upgrades in water-using facilities and equipment to be more water efficient.	Citywide and Regional	\$1,183
MC-SU-C1505	Seattle Direct Water Conservation	This project will upgrade water-using facilities to be more water efficient and accelerate conservation savings by 3 million gallons per day in conjunction with reservoir covering, other system efficiencies, and upgrades to low income customer facilities.	Citywide and Direct Service	\$681
MC-SU-C2302	South Recycling Center	This project will replace the existing facility to increase the capacity to recycle more solid waste and improve the transfer capability of non-recyclable materials.	8100 2nd AVE S	\$900
MC-SU-C3604	Long Term Control Plan	This project will determine size and location of all future CSO control facilities within the City.	Various	\$100
MC-SU-C3610	Green Stormwater Infrastructure Program	This project increases capacity to convey combined sewer flows by slowing stormwater flows and reducing volumes entering the combined system, this is achieved by slowing, infiltrating or reusing stormwater.	Citywide	\$310
MC-SU-C3611	CSO Facility Retrofit	This project will retrofit, upgrade, and modify existing Combined Sewer Overflow reduction facilities.	Various	\$112
MC-SU-C3703	Pump Station & Force Main Improvements	This program will provide wastewater pump station improvements, upgrades, repairs and rehabilitation.	Various	\$8,993
MC-SU-C3802	Drainage Capacity Program	This program will provide flood control and local drainage and wastewater projects in under-served parts of Seattle to improve system capacity or increase the existing level of service.	Various	\$2,978
MC-SU-C3804	Sanitary Sewer Overflow Capacity	This project will add capacity to the existing sanitary sewer collection system to improve service and accommodate growth.	Various	\$3,799
MC-SU-C3806	South Park Stormwater Program	New Pump Station with capacity of 44 cubic feet per sec, an associated stormwater filtration facility will treat flows up to 11 CFS, with the balance of higher flows bypassing filtration and pumped directly to the river.	698 S Riverside DR	\$19,032

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-SU-C3812	Broadview Long-Term Plan	Program does not increase capacity.	Broadview	\$4,158
MC-SU-C4107	Regional Facility - Other	This program will improve facilities at SPU's regional sites.	Regional	\$2,700

**Amounts in thousands of dollars.*

DEPARTMENT OF FINANCE AND ADMINISITRATIVE SERVICES

Project ID:	MC-FA-ADAIMPFAS
Project Title:	ADA Improvements - FAS
Location:	FAS facilities
2022 Proposed Budget:	5,267,714
Description:	This project is the FAS American with Disabilities Act (ADA) ongoing program that will address specific ADA improvements and upgrades at various FAS-owned and operated facilities. Past work has included reconfiguration of restrooms, meeting rooms and other spaces, reconfiguration of facility amenities such as drinking fountains and various public access routes to sites, buildings and public spaces. Future funding allows FAS to implement its long-term strategy that resolves the most critical public-facing ADA deficiencies first and maximizes accessibility to the greatest extent possible.

DEPARTMENT OF PARKS AND RECREATION

Project ID:	MC-PR-31008
Project Title:	Rainier Beach CC Debt Service
Location:	8825 Rainier AVE S
2022 Proposed Budget:	985,533
Description:	This project funds the 20-year debt service payment on bonds issued from 2019 -2033 to pay for the renovation of Rainier Beach Community Center.

Project ID:	MC-PR-41004
Project Title:	Aquarium Major Maintenance
Location:	1483 Alaskan WAY
2022 Proposed Budget:	1,252,000
Description:	This ongoing project provides funds for major maintenance at the Aquarium and other related items. Typical projects include seawater pump replacement, tank repairs, energy efficient systems upgrades, exterior decking repairs, Americans with Disabilities (ADA) access improvements, roofing and seismic upgrades, and related work. The facility was constructed in 1980, and a partial addition was installed on Pier 59 portion of the building in 2006. Due to the harsh saltwater environment, Aquarium facilities have a shorter lifespan than similar facilities no located over saltwater. The individual projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, and improve the overall Aquarium experience for the public. This project is part of the Seattle Park District measure put before voters in 2014.

Project ID:	MC-PR-41017
Project Title:	Landscape Restoration Program
Location:	Citywide

2022-2027 Proposed Capital Improvement Program

Appendix B: Capital Projects passing the \$5 million threshold with the 2022 Proposed allocation.

2022 Proposed Budget: 305,000

Description: This ongoing program restores developed landscape areas by replacing and installing shrubbery, trees, turf, structural elements, and other elements in parks throughout the City. The program also includes a monitoring and plant establishment project, which provides necessary labor and materials to ensure that each restoration site is checked twice a year for the first three years after planting.

SEATTLE CITY LIGHT

Project ID: MC-CL-WC2250

Project Title: Energy Efficiency

Location: NA

2022 Proposed Budget: 28,393,643

Description: This ongoing project funds energy efficiency programs at City Light.

Project ID: MC-CL-WC3133

Project Title: Environmental Claims

Location: System Wide

2022 Proposed Budget: 11,636,595

Description: This ongoing project funds all environmental liability clean-up and remediation work on City Light owned and non-owned properties, whether voluntary or ordered by State or Federal environmental regulating agencies.

Project ID: MC-CL-XF9103

Project Title: Office Furniture and Equipment Replacement

Location: System wide

2022 Proposed Budget: 8,520,500

Description: This ongoing project provides renovations of office space and capital replacement of office equipment, including modular office workstations, conference room ensemble furniture, flexible group workspaces, and major office machines. Improvements will enhance worker safety, with improved light, airflow, and ergonomics, as well as enhance productivity and team collaboration. This project also supports the City's Space Reduction Pilot, which aims to reduce the utility's footprint in the downtown core by 25% to achieve cost efficiencies.

Project ID: MC-CL-XF9161

Project Title: Substation Comprehensive Improvements

Location: System wide

2022 Proposed Budget: 1,310,867

2022-2027 Proposed Capital Improvement Program

Appendix B: Capital Projects passing the \$5 million threshold with the 2022 Proposed allocation.

Description:	This ongoing project funds substation improvements identified in City Light's Comprehensive Facilities Plan, seismic fitness reports, and periodic inspections targeting transmission and distribution buildings. The project implements items necessary to support assigned personnel, such as lunchroom and locker room facilities required by the union contracts, as well as structural and mechanical corrections and enhancements at substation facilities.
Project ID:	MC-CL-XS6232
Project Title:	Skagit - Sewer System Rehabilitation
Location:	Milepost 126 State Highway 20
2022 Proposed Budget:	161,097
Description:	This project funds the replacement or repairs of numerous sewer pipe breaks, leaks, and sags in the combined Skagit River sewer/drainage collection system, located at the Diablo Dam site and also provides major renovations to the aging Newhalem wastewater treatment plant. This project eliminates potential overloads in the sewage treatment plant that can cause pollution of the Skagit River and surrounding soil contamination.
Project ID:	MC-CL-ZS8350
Project Title:	Overhead Outage Replacements
Location:	System wide
2022 Proposed Budget:	1,042,904
Description:	This ongoing project supports the capitalized portion of work resulting from unplanned, non-emergency, overhead outages. These outages result from events, such as storms, accidents, and equipment failures. The project funds permanent storm repairs and construction of new infrastructure to bypass failing equipment. The project ensures that customers' electric power is restored as quickly as possible.
Project ID:	MC-CL-ZT8435
Project Title:	State Route 520 Bridge Relocations
Location:	SR 520 / Lake Washington
2022 Proposed Budget:	7,477,982
Description:	This project provides relocation and installation of power service infrastructure, such as feeder extensions, to support WSDOT's replacement of the State Route 520 Bridge from Montlake to I-5. This project is projected to be fully reimbursable by WSDOT.

SEATTLE DEPARTMENT OF TRANSPORTATION

Project ID:	MC-TR-C020
Project Title:	New Traffic Signals
Location:	Citywide

2022-2027 Proposed Capital Improvement Program

Appendix B: Capital Projects passing the \$5 million threshold with the 2022 Proposed allocation.

2022 Proposed Budget: 1,867,000

Description: This ongoing project installs new traffic signals or significant capital improvements to existing signals to improve traffic flow, reduce the frequency and severity of traffic collisions, and support pedestrian, bicycle or transit activity. Location choices are based upon pedestrian, bicycle, and vehicle volumes; school, senior citizen, and handicapped accessible crossing requirements; transit speed and reliability; and collisions frequency criteria.

Project ID: MC-TR-C054

Project Title: SPU Drainage Partnership - Broadview Pedestrian Improvements

Location: Various

2022 Proposed Budget: 8,099,889

Description: This funding will be used to partner with SPU's South Park Drainage Improvement projects. SPU is planning to install a pump station to control flooding in the South Park area. However, that alone will not control flooding. Many streets in the area are in poor condition and don't have a street drainage collection system. This funding will allow SPU and SDOT to partner to install the needed collection systems and repair the deteriorated roads.

Project ID: MC-TR-C060

Project Title: Bike Master Plan - Urban Trails and Bikeways

Location: Multiple

2022 Proposed Budget: 1,000,999

Description: This program supports the City's Urban Trails and Bikeways. Activities include spot improvements, bike facility safety improvements, bike parking, education & outreach as well as planning & research.

Project ID: MC-TR-C096

Project Title: Georgetown to South Park Trail

Location: Various

2022 Proposed Budget: 4,289,131

Description: This project will create a walkable, bikeable path uniting the Georgetown and South Park neighborhoods. The path will enhance walkability between Georgetown and South Park's historic Main Streets. Funding covers preliminary engineering, design, and outreach.

Project ID: MC-TR-C105

Project Title: Thomas Street Redesigned

Location: Thomas St. from 5th Ave N to Dexter Ave N

2022 Proposed Budget: 3,849,649

Description: The project makes improvements to Thomas St from 5th Ave N to Dexter Ave N, including, but not limited to: (1) a half block closure of 5th Ave N and Thomas St to create a public plaza adjacent to the Seattle Center skate park, (2) a 36' wide pedestrian and bicycle promenade from 5th Ave N to Dexter Ave N, and (3) a protected intersection at Dexter Ave N and Thomas St.

Project ID: MC-TR-C112

2022-2027 Proposed Capital Improvement Program

Appendix B: Capital Projects passing the \$5 million threshold with the 2022 Proposed allocation.

Project Title:	Structures Major Maintenance
Location:	Citywide
2022 Proposed Budget:	3,659,999
Description:	This program provides for major maintenance and rehabilitation of the City's bridges and structural assets that are maintained by the Roadway Structures Division. Examples of improvements that could be funded by this project include: electrical and mechanical upgrades of moveable bridge operating and control systems, repair of cracks and maintenance of concrete and steel structures, and site protection of bridge facilities.

SEATTLE PUBLIC UTILITIES

Project ID:	MC-SU-C1128
Project Title:	Distribution System Improvements
Location:	Citywide
2022 Proposed Budget:	2,498,183
Description:	This ongoing program improves service reliability, pressure, capacity, and fire flow in the City's water distribution system. Typical improvements may include, but are not limited to, booster pump station installation, creation of new service zones, and tank elevation or replacement, as well as additional water main pipelines and pressure reducing valves. These improvements to service levels meet Washington Department of Health (DOH) regulations and SPU's Distribution System Pressure Policy to provide greater than 20 psi service pressure. These improvements provide higher flow of water for fire protection which improves public safety and results in smaller and shorter fires.

Project ID:	MC-SU-C3708
Project Title:	Outfall Rehabilitation Program
Location:	Various
2022 Proposed Budget:	500,000
Description:	This ongoing project provides rehabilitation of outfalls throughout Seattle Public Utilities service area. Typical improvements may include, but are not limited to, repair, rehabilitation or replacement of outfall structures. This project will investigate the condition of each of the outfalls and complete an options analysis, followed by design, construction, and closeout activities.

Project ID:	MC-SU-C5404
Project Title:	IT Infrastructure
Location:	N/A
2022 Proposed Budget:	1,750,000

2022-2027 Proposed Capital Improvement Program

Appendix B: Capital Projects passing the \$5 million threshold with the 2022 Proposed allocation.

Description: This ongoing IT asset management project ensures the availability, reliability, and security of SPU's corporate computing infrastructure. The project acquires and maintains SPU-owned and managed servers, local networks, shared storage and backup systems, operating software, and communications infrastructure.

SEATTLE PUBLIC LIBRARY

Project ID: MC-PL-B3100
Project Title: IT Infrastructure
Location: Various Locations
2022 Proposed Budget: 6,382,000
Description: This project represents system-wide Information Technology (IT) Infrastructure improvements for The Seattle Public Library, including enterprise equipment upgrades and integrated library system (ILS) replacement.

1% for Art: A program administered by the Office of Arts and Culture (ARTS) that sets aside one percent of eligible City capital improvement project funds for the commission, purchase, and installation of artworks.

2000 Parks Levy (“Neighborhood Parks, Green Spaces, Trails, and Zoo Levy”): A \$198.2 million, eight-year levy lid lift passed by Seattle voters in November 2000. The levy is designed to fund more than 100 park, open space, and recreation projects throughout the city.

2008 Parks Levy (“Parks and Green Spaces Levy”): A \$145.5 million, six-year levy lid lift passed by Seattle voters in November 2008. The levy was designed to fund park and green space acquisition, capital expansion and renovation of parks, and park facilities throughout the city.

Americans with Disabilities Act (ADA): A comprehensive civil rights law for people with disabilities passed by the federal government in 1990.

Allocation: The expenditure amount planned for a project or service that requires additional legislative action, or “appropriation,” before expenditures are authorized.

Appropriation: A legal authorization granted by the City’s legislative authority (the City Council) to make expenditures and incur obligations for specific purposes.

Asset Preservation (also known as Major Maintenance): Capital improvement projects that involve major repairs or rehabilitation of existing City facilities.

Capital Improvement Program (CIP): Annual appropriations from specific funding sources are shown in the City’s budget for certain capital purposes, such as street improvements, building construction, and some types of facility maintenance. The CIP is a six-year allocation plan presented as a document separate from the Budget that details all projects, fund sources, and expenditure amounts including many multi-year projects that require funding beyond the one-year period of the annual Budget.

Capital Projects Funds: Funds with resources set aside to acquire or construct major capital facilities that allow the monitoring of revenues and expenditures of authorized voter approved and Councilmanic bonds and levies.

Capital Projects Passing the \$5 million threshold (Appendix B): Pursuant to the 1999 settlement agreement in *CLEAN, et. al v. City of Seattle*, the City has adopted policies regarding public notification when capital projects cross certain spending thresholds. Resolution 31203 updated those policies to require a list of all Capital Projects for which the City has cumulatively spent more than \$5 million with the adoption of the current annual Budget be published as an appendix to the Capital Improvement Program.

Community Development Block Grant (CDBG): An annual grant to Seattle and other local governments from the U.S. Department of Housing and Urban Development to support economic development projects, housing and services in low-income neighborhoods.

Comprehensive Drainage Plan: A Citywide drainage management program for capital improvements and ongoing maintenance. It establishes a monitoring program and identifies measures to control flooding and pollution, such as regulatory controls and public education.

Cumulative Reserve Fund (CRF): A source of ongoing local funding to support capital projects in general government departments. The CRF consists of two accounts: The Capital Projects Account and the Revenue Stabilization Account. The Capital Projects Account has three Funds: REET I Capital Projects Fund, REET II Capital Projects Fund, and the Unrestricted Cumulative Reserve Fund.

Design Build Operate (DBO): A non-conventional approach to implementation of major capital projects, wherein a single vendor is responsible for design, construction, and long-term operation of a facility.

Debt Service: Annual principal and interest payments that local government owes on money that it has borrowed.

Endangered Species Act (ESA): Legislation passed by the federal government in 1973 to conserve the ecosystems upon which endangered species depend upon and to conserve and recover listed species.

Fire Facilities and Emergency Response Levy: A \$167 million, eight-year levy lid lift, approved by voters in November 2003. The Levy includes funds for more than 40 projects to upgrade, renovate, or replace most of the City's fire stations, construct new support facilities for the Fire Department, construct a new Emergency Operations Center and Fire Alarm Center, procure two new fireboats and rehabilitate an existing one.

Fund Balance: The difference between the assets and liabilities of a fund. This incorporates the difference between the revenues and expenditures each year.

General Fund: A central fund into which most of the City's general tax revenues and discretionary resources are pooled and allocated to support many of the operations of City government. General Fund dollars appear in the CIP in two places: the General Fund contribution to the Cumulative Reserve Fund (if any) and appropriations to capital projects from a department's operating budget.

Geographic Information System (GIS): A tool that enables users to analyze and understand the spatial relationships among things that exist and occur in a location. The results of geographic analysis can be communicated with maps and/or reports.

Growth Management Act (GMA): Passed by the state legislature in 1990, the Growth Management Act encourages strategic land use planning and provides protection for environmentally sensitive areas.

Habitat Conservation Plan (HCP): A 50-year commitment by the City and Seattle Public Utilities to protect and restore the Cedar River Watershed.

Leadership in Energy and Environmental Design (LEED): A green building rating system for new and existing commercial, institutional, and multi-family residential buildings that evaluates environmental performance from a "whole building" perspective. There are four rating levels: Bronze, Silver, Gold, and Platinum.

Levy Lid Lift: An increase in regular property taxes for a general or designated purpose—for example, the 2008 Parks Levy.

Levy to Move Seattle: A nine-year, \$930 million-dollar levy passed by voters in November 2015. The levy provides funding to improve safety for all travelers, maintain streets and bridges, and invest in reliable, affordable travel options.

Limited Tax General Obligation (“LTGO” or “Councilmanic”) Bonds: Bonds that are issued by the City Council without voter approval. The debt service on these bonds is typically repaid from existing general government revenues or from revenues generated by the project(s) financed with the bonds.

Major Maintenance: See “Asset Preservation” above.

Municipal Art Plan: A plan prepared by the Office of Arts and Culture that establishes budgets for new 1% for Art program projects and describes the status of existing projects.

Neighborhood Matching Subfund (NMF): A fund administered by the Department of Neighborhoods to provide money to Seattle neighborhood groups and organizations for neighborhood-initiated improvement, organizing, or planning projects. The community’s contribution of volunteer labor, materials, professional services or cash is “matched” by cash from the fund.

Operating Budget: The portion of a budget that deals with recurring expenditures such as salaries, electric bills, postage, printing, paper supplies, and gasoline.

Public Works Trust Fund: A low-interest state revolving loan fund designed to help local governments with the repair, replacement, and rehabilitation of public works infrastructure.

REET I and REET II: The Real Estate Excise Tax (REET) is levied on all sales of real estate with the first 0.25% of the locally imposed tax going to REET I and the second 0.25% for REET II.

Seattle Metropolitan Park District: In August 2014, voters passed a ballot measure creating the Seattle Metropolitan Park District. The goal of the park district is to provide long-term, stable funding to support recreation programming, parks projects and the critical needs for investment in major and ongoing maintenance.

Unlimited Tax General Obligation (“UTGO” or “voted”) Bonds: Bonds issued after receiving approval by 60% of the voters in an election with at least 40% voter turnout. The debt service on these bonds is repaid from additional (“excess”) property tax revenues that voters approve as part of the bond measure.

Introduction

The City of Seattle and its more than 12,000 employees build and maintain infrastructure, provide utility service, support the needs of the city's residents, and create recreational, cultural, and other enriching opportunities. In providing excellent service, these employees use and maintain dozens of city-owned properties, a fleet of vehicles ranging from fire trucks to golf carts, and equipment and facilities necessary to complete the City's mission.

Budgeting for a large organization with many functions is a crucial and complex process. A proposed budget requires solid forecasts on commodities (such as the price of fuel), economic strength (as it impacts tax revenues, among other budgetary components), and demand for services (from parking meters to libraries to police officers to disc golf courses).

This book is designed to provide clear and accurate information on the budgetary process, estimated revenue streams, and a basic description of departmental needs and spending.

City of Seattle Budget Process

In its simplest terms, the City budget is proposed by the Mayor (Executive), checked for compliance with the law (City Attorney), and amended and passed by the City Council (Legislative) before returning to the Mayor for his or her approval and signature. The budget itself is composed of two main documents: an operating budget and a capital improvement program (CIP) budget. The CIP budget consists of large expenditures on infrastructure and other capital projects. The operating budget is primarily composed of expenditures required by the City to deliver the day-to-day array of City services.

Charts summarizing the City's budget process and organization can be found at the end of this section.

Budget Preparation

The budgeting process begins early each year as departments assess needs and budget forecasters work to estimate revenues and costs. Operating budget preparation is based on the establishment of a current services or "baseline" budget. Current services is what it sounds like – continuing programs and services the City provided in the previous year, in addition to previous commitments that will affect costs in the next year, such as a voter-approved levy for new park facilities, as well as labor agreements and changes in health care, insurance, and cost-of-living- adjustments for City employees.

During the budget preparation period, the City Budget Office (CBO) makes two General Fund revenue forecasts, one in April and one in August. Both are used to determine whether the City's projected revenues are sufficient to meet the projected costs of the current services budget. If revenues are not sufficient to cover the cost of current services, the City must identify changes to close the gap – either through reductions or increased revenues or a combination of both. If the revenue forecast shows that additional resources are available, then the budget process identifies new or expanded programs to meet the evolving demands for City services. Regardless, the City is required by state law to prepare a balanced budget.

In May, departments prepare and submit Budget Memos to CBO for analysis and mayoral consideration. The Mayor's Office reviews and provides direction to departments on the Budget Memos, giving direction on items they should include in their formal budget submittal. In early June, CBO receives departmental

Introduction & Budget Process

operating budget and CIP submittals, including all position (employee) changes. Mayoral review and evaluation of department submittals takes place through the end of August. CBO, in conjunction with individual departments, then finalizes the operating and CIP budgets.

In late September, the Mayor submits the proposed budget and CIP to the City Council. In addition to the budget documents, CBO prepares supporting legislation and other related documents.

After the Mayor submits the proposed budget and CIP, the City Council conducts public hearings. The City Council also holds committee meetings in open session to discuss budget requests with department representatives and CBO staff. Councilmembers then recommend specific budget actions for consideration by their colleagues.

During the budget review process, the City Council may choose to explain its budget actions further by developing statements of legislative intent and budget guidance statements for future budget action. Intent statements describe the Council's expectations in making budget decisions and generally require affected departments to report back to the City Council on results.

After completing the public hearing and deliberative processes the City Council votes to adopt the budget, incorporating its desired budget changes, in late November. The Mayor can choose to approve the Council's budget, veto it, or let it become law without mayoral signature. The Mayor must veto the entire budget or none of it, as there is no line-item veto in Seattle. Copies of budget documents are available for public inspection at the CBO offices, at the Seattle Public Library, and on the Internet at <http://www.seattle.gov/budget>.

During the year, the City may have a need to change the adopted budget to respond to evolving needs. The City makes such changes through supplemental budget appropriation ordinances. A majority of the City Council may, by ordinance, eliminate, decrease, or re-appropriate any unspent appropriations during the year. The City Council, generally with a three-fourths vote, may also increase appropriations from available money to meet necessary expenditures that were not foreseeable earlier. Additional unforeseeable appropriations related to settlement of claims, emergency conditions, or laws enacted since passage of the annual operating budget ordinance require approval by a two-thirds vote of the City Council. Absent such changes, departments are legally required to stay within their annual budget appropriation.

Reader's Guide

This reader's guide describes the structure of the budget book and outlines its content. The budget book is designed to present budget information in an accessible and transparent manner – the way decision-makers consider the various proposals. It is designed to help residents, media, and City officials more easily understand and participate in the budget deliberations.

A companion document, the 2022-2027 Proposed Capital Improvement Program (CIP), identifies expenditures and fund sources associated with the development and rehabilitation of major City facilities, such as streets, parks, utilities, and buildings over the next six years. The CIP also shows the City's financial contribution to projects owned and operated by other jurisdictions or institutions. The CIP fulfills the budgeting and financial requirements of the Capital Facilities Element of Seattle's Comprehensive Plan by providing detailed information on the capacity impact of new and improved capital facilities.

The 2022 Proposed Budget and 2022-2027 Proposed CIP can also be found online at the City Budget Office's webpage. In addition to PDF files containing the Proposed Budget and Proposed CIP, the site contains department-customized expenditures and revenues.

The 2022 Proposed Budget

This document is a description of the proposed spending plan for 2021. It contains the following elements:

- **Proposed Budget Executive Summary** – A narrative describing the current economy, highlighting key factors relevant in developing the budget document, and how the document addresses the Mayor's priorities;
- **Summary Tables** – a set of tables that inventory and summarize expected revenues and spending for 2021;
- **General Fund Revenue Overview** – a narrative describing the City's General Fund revenues, or those revenues available to support general government purposes, and the factors affecting the level of resources available to support City spending;
- **Selected Financial Policies** – a description of the policies that govern the City's approach to revenue estimation, debt management, expenditure projections, maintenance of fund balances, and other financial responsibilities;
- **Departmental Budgets** – City department-level descriptions of significant policy and program changes from the 2020 Adopted Budget, the services provided, and the spending levels proposed to attain these results;
- **Appendix** – an array of supporting documents including Cost Allocation, a summary of cost allocation factors for internal City services; a summary of position changes by department contained in the 2021 Proposed Budget; and a glossary.

Reader's Guide

Departmental Budget Pages: A Closer Look

The budget presentations for individual City departments (including offices, boards, and commissions) constitute the heart of this document. They are organized alphabetically within seven functional clusters:

- Arts, Culture, & Recreation;
- Education, Health & Human Services;
- Livable and Inclusive Communities;
- Public Safety;
- Utilities, Transportation & Environment; and
- Administration.

Each cluster comprises several departments sharing a related functional focus, as shown on the organizational chart following this reader's guide. Departments are composed of one or more budget control levels, which in turn may be composed of one or more programs. Budget control levels are the level at which the City Council makes appropriations.

As indicated, the proposed budget appropriations are presented in this document by department, budget summary level, and program. At the department level, the reader will also see references to the underlying fund sources (General Fund and Other) for the department's budgeted resources. The City accounts for all of its revenues and expenditures according to a system of funds. In general, funds are established to account for specific revenues and permitted expenditures associated with those revenues. For example, the City's share of Motor Vehicle Fuel taxes must be spent on road-related transportation activities and projects, and are accounted for in a fund in the Transportation Fund. Other revenues without statutory restrictions, such as sales and property taxes (except voter-approved property taxes), are available for general purposes and are accounted for in the City's General Fund. For many departments, such as the Seattle Department of Transportation, several funds, including the General Fund, provide the resources and account for the expenditures of the department. For several other departments, the General Fund is the sole source of available resources.

Reader's Guide

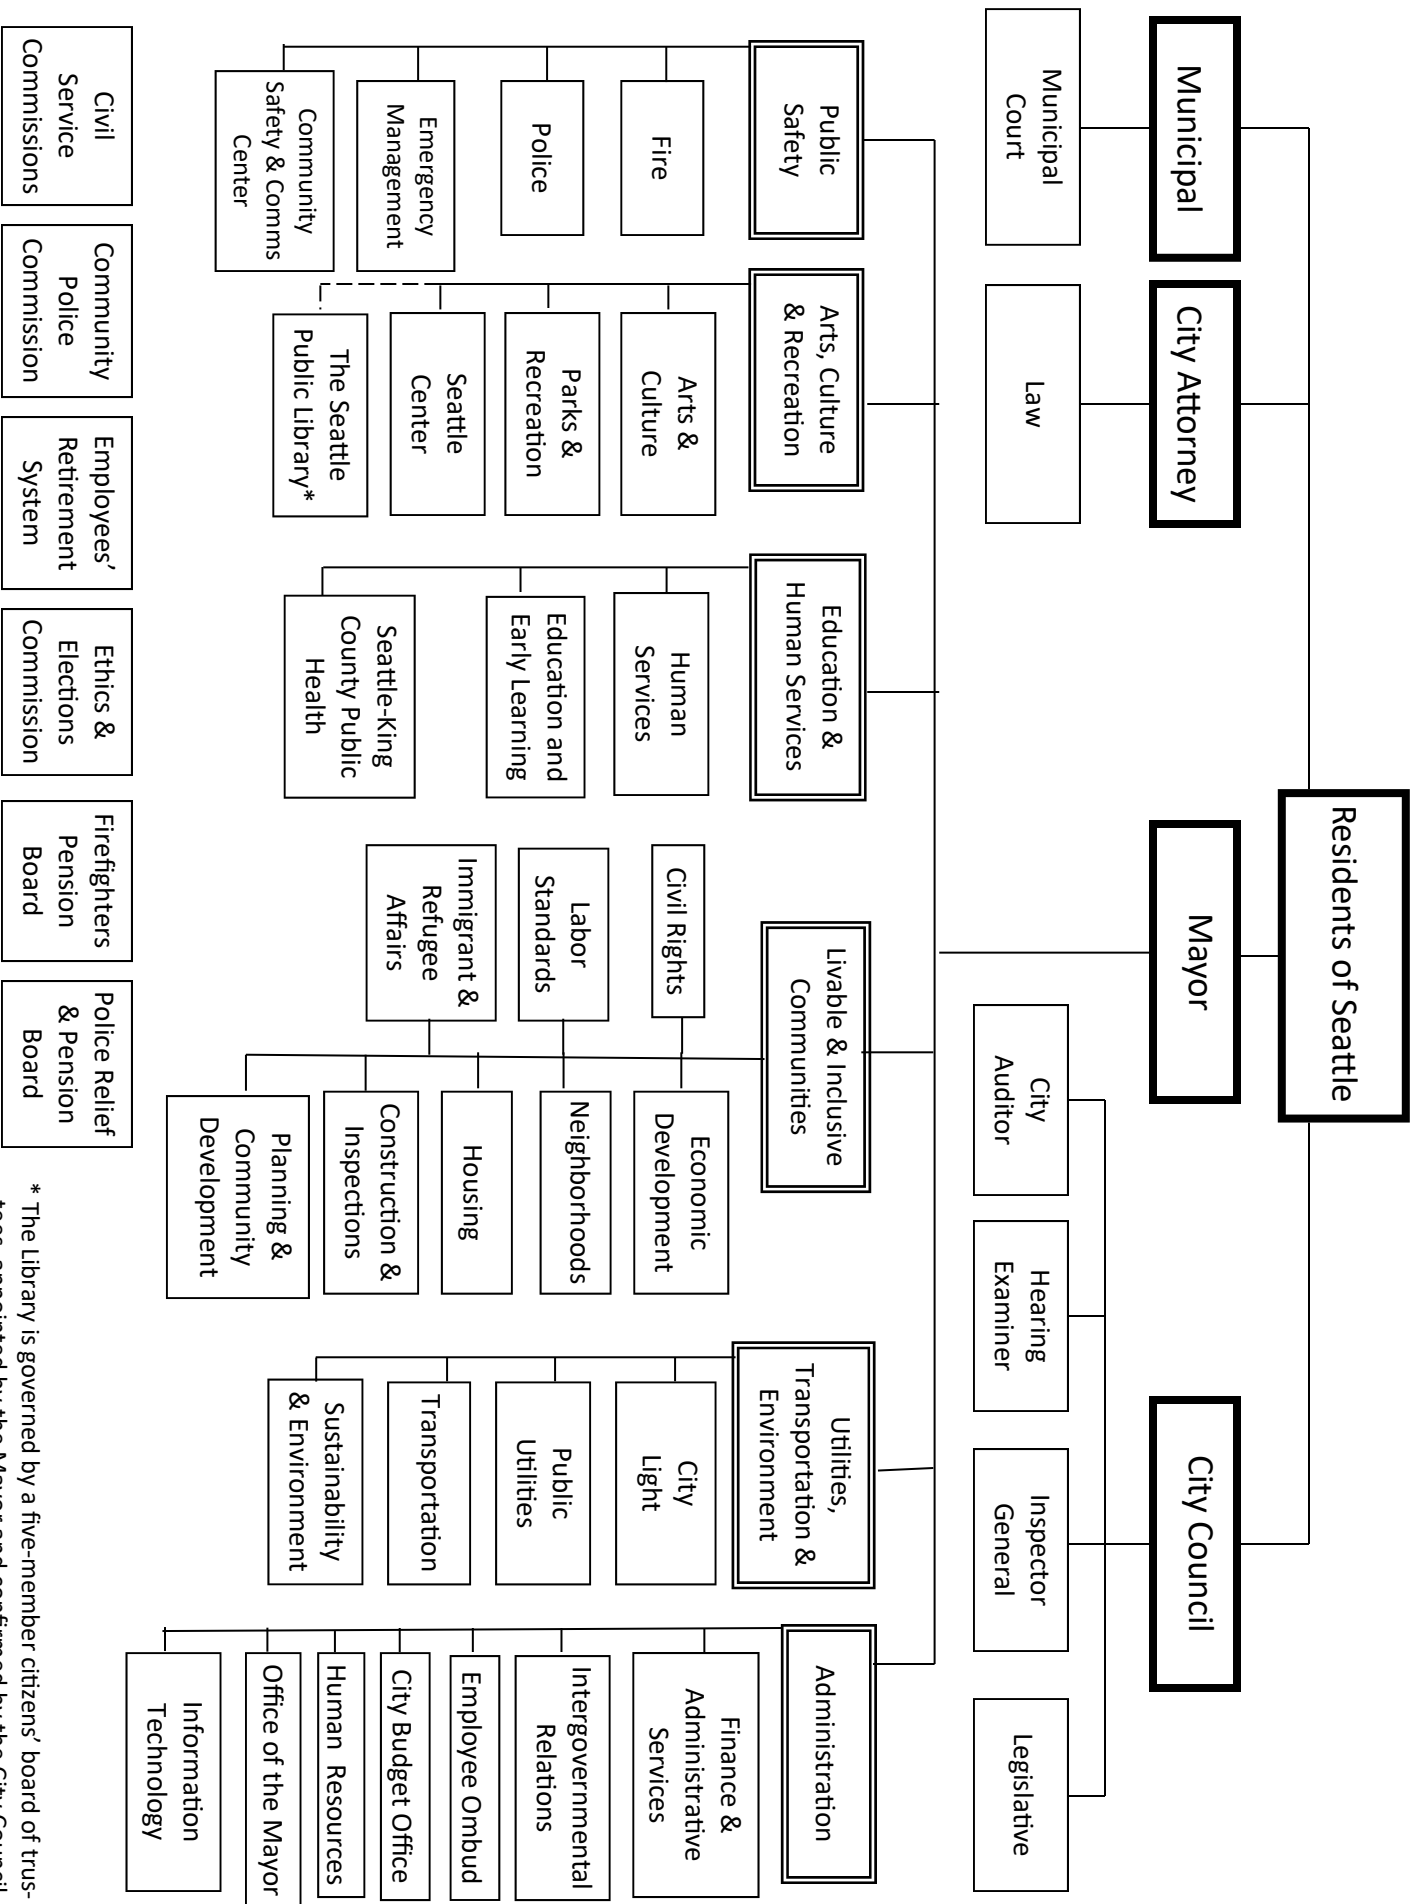

Budget Presentations

Most department-level budget presentations begin with information on how to contact the department. The department-level budget presentation then goes on to provide a general overview of the department's responsibilities and functions within City government, as well as a summary of the department's overall budget. A narrative description of the issues impacting the department's 2022 Proposed Budget then follows. The next section of the department-level budget presentation provides a numerical and descriptive summary of all of the incremental budget changes included in the 2022 Proposed Budget, along with a discussion of the anticipated operational and service-level changes that will result. The department-level budget presentation concludes with summary level tables that describe the department's overall expenditures and revenues by type as well as by budget control level and program. All department, budget control, and program level budget presentations include a table summarizing historical and adopted expenditures, as well as proposed appropriations for 2022.

A list of all position changes proposed in the budget has been compiled in the appendix. Position modifications include eliminations, additions, reclassifications, and status changes (such as a change from part-time to full-time status), as well as adjustments to departmental head counts that result from transfers of positions between departments.

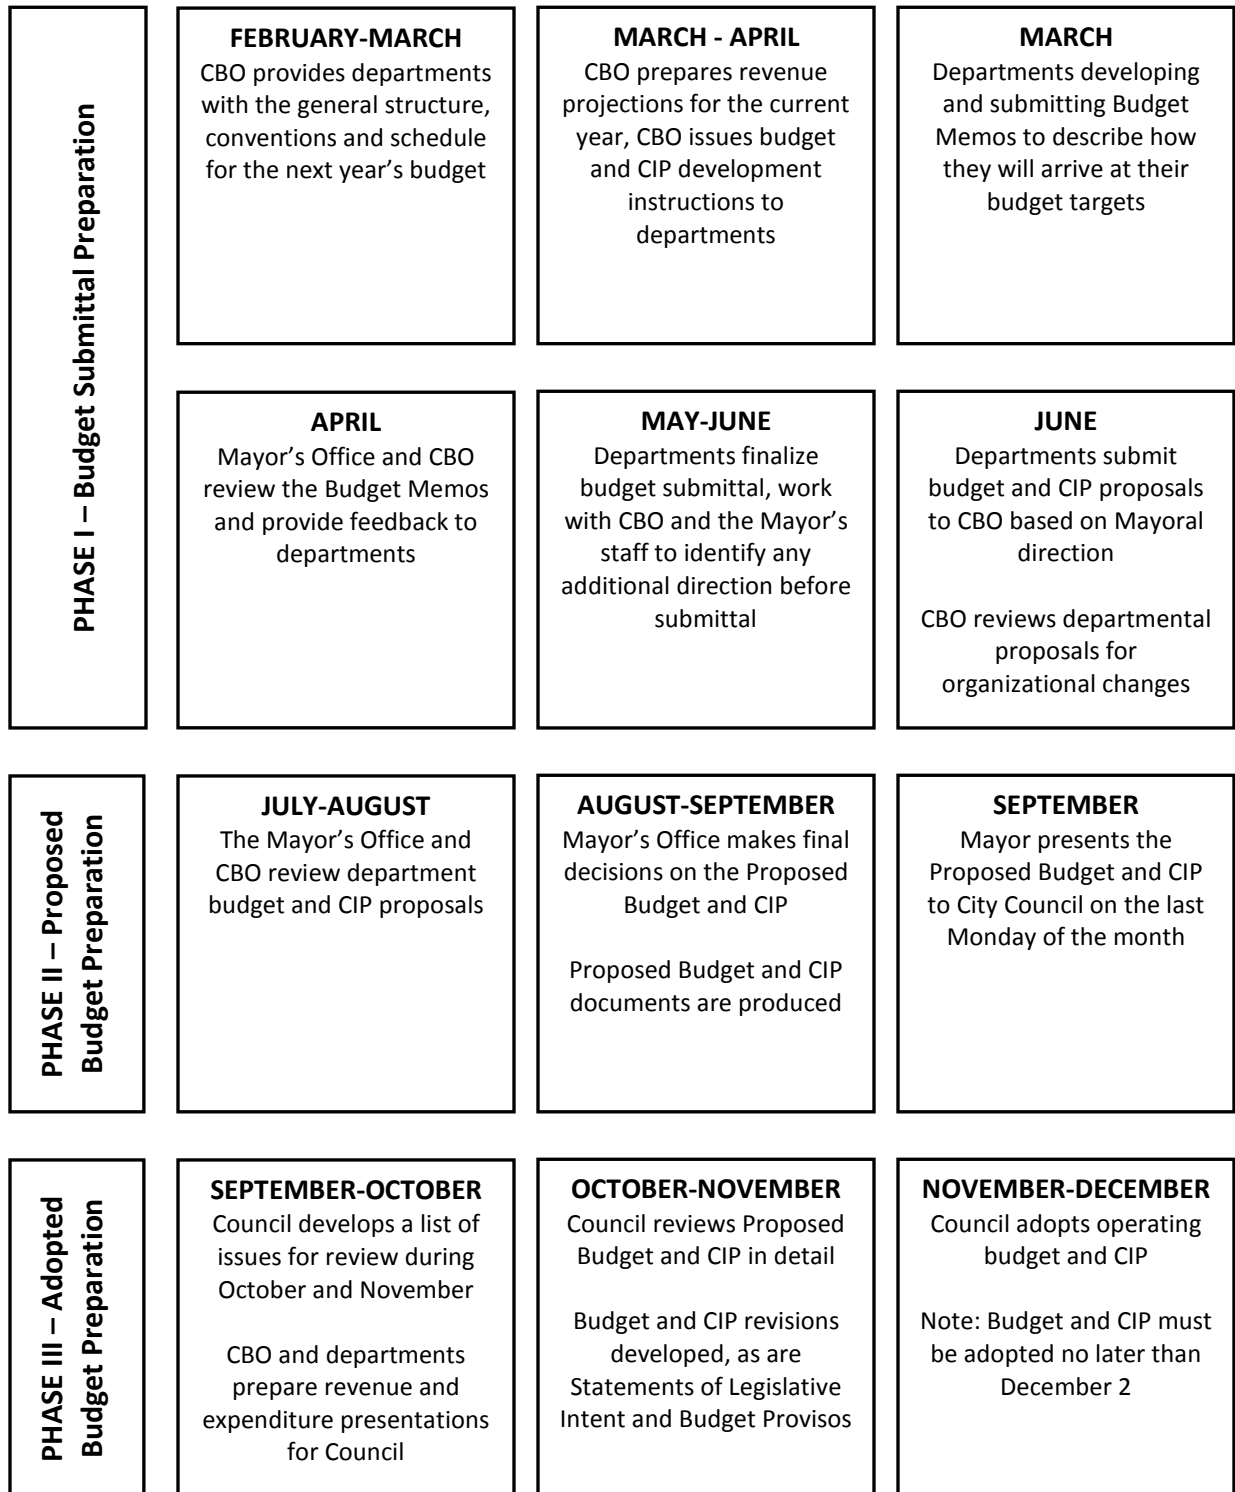

For information purposes only, an estimate of the number of staff positions to be funded under the 2022 Proposed Budget appears in the departmental sections of the document at each of the three levels of detail: department, budget control, and program. These figures refer to regular, permanent staff positions (as opposed to temporary or intermittent positions) and are expressed in terms of full-time equivalent employees (FTEs). In addition to changes that occur as part of the budget document, changes may be authorized by the City Council or the Human Resources Director throughout the year, and these changes may not be reflected in the estimate of staff positions presented for 2022. These changes are summarized in the appendix.

Where relevant, departmental sections include a statement of projected revenues for the years 2021 through 2022.

* The Library is governed by a five-member citizens' board of trustees, appointed by the Mayor and confirmed by the City Council.

Budget Process Diagram

Summary of the 2022 Proposed Budget

Introduction

Mayor Durkan's 2022 Proposed Budget will be the last of her administration. If the City had maintained its usual biennial approach to budgeting, 2022 would have been the second year of the 2021-2022 biennium, and the 2022 Proposed Budget would have followed through on the second year of a two-year financial plan. However, due to the unprecedented financial uncertainties created by the COVID-19 pandemic, the budget for 2021 was proposed and adopted as a single-year budget. Thus, the 2022 Proposed Budget takes the 2021 budget as a starting point. As detailed in this summary, the economic, financial, and public health circumstances have led to significant changes relative to 2021. Following a brief review of the region's underlying economic conditions and their impact on City revenues, this section provides highlights of those changes. While changes are proposed in every City department and address the wide range of service provided by the City, this summary highlights the following issues: Financial Assistance from the Federal Government; Restoration of Base Funding; Expanding Approaches to Community Safety; Addressing the Immediate Needs of Those Experiencing Homelessness and Investing in Affordable Housing for the Long-term; the Clean City Initiative; Ongoing Commitments to Invest in BIPOC Communities, Implementing the Green New Deal; Investments in the Duwamish Valley; and the overall funding approach for the Council's "JumpStart" revenue priorities. This summary focuses on general government functions, additional information about the City's "enterprise" functions, including Seattle City Light, Seattle Public Utilities and the Seattle Department of Construction and Inspections can be found in the separate budget book sections for those departments.

The Local Economy and City Revenues

COVID-19 remains a dominant influence on both the national and local economies, and its influence is being felt across the world economy as well. The dramatic drop in employment and overall economic activity associated with the onset of the pandemic has eased, and the fiscal stimulus provided by the federal government has had the intended effect of promoting activity across the economy. For example, unemployment for the Seattle regional economy, which peaked at a rate of 17.1% in April of 2020, has now fallen to 5.0%. The recovery has been uneven in terms of its impact on different sectors within the economy, and employment in the service sector continues to lag, with the restaurant, tourism and entertainment industries still facing significant, COVID-19-related restrictions. To date, City, state and federal relief efforts have targeted assistance to these industries and those who work within them.

The 2022 Proposed Budget is balanced to a revenue forecast that was developed in July and August 2021 and formally presented to the City Council on August 17, 2021. The forecast highlighted the significant positive impacts of the federal stimulus, and the initial success of the widespread vaccination efforts implemented in the first half of this year. Consumer spending returned more quickly than had been expected, and this has led to a material increase in the City's largest revenue streams, including both sales, and business and occupation (B&O) taxes. The general consensus among national forecasters is that the most significant impacts of the stimulus, having arrived more rapidly than anticipated, will also likely dissipate sooner than had been originally anticipated. Thus, relative to the forecasts developed in April 2021, the new forecast of General Fund and related general government

Summary of the 2022 Proposed Budget

resources includes a projected increase of almost \$55 million in 2021, but less than \$25 million for 2022. In total, the 2022 forecast projects that General Fund and related general government resources will total \$1.74 billion. The comparable revised figure for 2021 is \$1.71 billion. (The 2021 total is \$1.79 billion but that includes \$66.5 million associated with a property transaction that has been delayed, and the City has already allocated those anticipated proceeds.)

The generally good news about a faster and more robust economic recovery that underlies the upward revision in the August revenue forecast, has been tempered by the growing threat of COVID-19's Delta variant. The rapidly spreading variant has increased case counts both locally and across the nation, and is leading to the readoption of social distancing policies that could hamper continued economic recovery. Locally, data indicate that since July recovery of the hospitality sector – namely hotels and restaurants – has plateaued. The “return-to-office” plans of major local employers, including Amazon and Microsoft, have been delayed. The ultimate economic and revenue impacts of these developments remain unclear as many sectors within the local economy, particularly the high-wage technology sector, have adapted to the realities of COVID, and have even taken advantage of some of the economic opportunities it has provided.

Other economic risks have also intensified. Inflation has risen notably and this puts pressure on the cost side of local government at the same time that revenues have been reduced. Supply chain disruptions have hampered the manufacturing sector, and concerns about how COVID-19 will affect where employees will work in the long-run has dampened demand for commercial office space and commercial construction has begun to slow in response. The tax revenues generated by construction have become a notable share of both sales and B&O taxes.

These risks will be monitored over the coming months and will inform the revenue forecast that will be provided to the City Council in late October or early November, as it moves closer to final budget decisions.

Financial Assistance from the Federal Government

In addition to the funding available from City sources, the 2022 Proposed Budget also relies upon significant one-time federal financial assistance. First in 2020 and again in 2021, the federal government has provided significant financial relief directly to local municipalities. For Seattle, this has included more than \$160 million from the 2020 CARES Act, approximately \$230 million from the 2021 Coronavirus Local Fiscal Recovery (CLFR) fund, and an additional \$50+ million in targeted assistance included in the overall 2021 American Rescue Plan Act (ARPA). The CLFR funds have been awarded in two tranches, with the first half available in 2021 and the second half in 2022. The 2022 Proposed Budget includes appropriation of the second tranche, which amounts to approximately \$116 million.

Additional federal support provided to the state and county has been a source of financial relief and assistance to Seattle residents and businesses. Moreover, throughout the pandemic, the Federal Emergency Management Agency (FEMA) has been providing, on a reimbursement basis, resources to directly address the costs of mass testing and vaccinations, as well as measures needed to provide appropriately socially-distanced shelter and housing for those experiencing homelessness. The City has had to “front” these costs, but reimbursements have begun to flow from FEMA.

Summary of the 2022 Proposed Budget

In both 2020 and 2021, the available federal assistance has been used by the City to provide support to those most directly affected by the pandemic. This has included financial assistance to small businesses, particularly those in the service and hospitality sector, and to the residents who work in those sectors, or who have otherwise faced financial hardships due to job loss, illness or other factors. This has taken the form of direct financial grants, expanded emergency food provision, socially distanced shelter and housing, as well as increased hygiene services for those who remain living unsheltered. The City also used a share of these resources to help maintain basic City operations, providing personal protection equipment to first responders, investing in the technology needed to sustain remote work for a large number of City employees, and adapting City facilities to operate in a safe, socially-distanced paradigm.

The 2022 Proposed Budget includes allocations of the final major tranche of federal assistance, namely the \$116 million provided by the second tranche of CLFR funding. The proposed uses of these funds shift from a primary focus on immediate assistance and relief to longer-term perspective. The investments proposed for 2022 represent lasting investments that will help provide a platform for a more equitable recovery, with the specific goal of improving opportunities for those most affected by the pandemic. At the same time, the proposed spending does include continued assistance for those facing immediate needs. In summary, the budget directs federal funding to the following areas:

Affordable housing: More than \$50 million of the available CLFR funding will be used to build or acquire affordable housing. Access to affordable housing is perhaps the greatest challenge facing the city, and increased investment in this area will also help create jobs throughout the housing development pipeline and increase the number of people served by the shelter system by giving people a place to go after shelters.

COVID-19 pandemic related food and shelter programs: During 2020 and 2021, the City has ramped up food support and homeless shelter capacity to de-densify the system and reduce risk of COVID transmission. For 2022, approximately \$25 million of CLFR funds will be appropriated for these purposes. At the same time, the budget recognizes that as the current health crisis eases, the City and the region must transition to a more sustainable model of shelter and food assistance. As described later, this transition will be overseen by the King County Regional Homelessness Authority (KCRHA), as part of new policy and governance approach to dealing with homelessness.

Invest in economic inclusion: The allocations proposed for 2022 also include \$14.5 million for investments in workforce development, childcare provider stabilization to ensure help parents transition back to work or to a specific workplace, and a small business ownership fund designed to give underinvested communities the opportunity to own space and build equity while offering a public benefit. Funding in the amount of \$6.7 million is also proposed to support the Seattle Promise program, which provides free tuition and educational support to young people who are interested in pursuing education at one of the Seattle Colleges.

In addition to these community-focused allocations, the budget allocates the remaining federal funds to enhance clean-up activities focused on parks and the public right-of-way, and to defray the costs associated with sustaining safe work environments and/or remote work for City employees. Further details about the previous and proposed uses of federal aid are provided in the “Seattle Rescue Plan” section of the budget book.

Summary of the 2022 Proposed Budget

While they are summarized above as separate items for transparency and clarity, the 2022 Proposed Budget uses these federal resources in combination with the forecast City resources to develop a comprehensive plan for City spending in 2022. Key components of the plan are described in the sub-sections that follow.

Restoration of Base Funding

The economic slowdown and associated decline in City revenues caused by COVID-19 forced a significant reallocation of City resources in both 2020 and 2021. In particular, the proceeds from several voter-approved property tax measures were redirected from their originally intended purposes to support basic operations, which had otherwise been funded by the City's General Fund. Property taxes have not suffered significant declines through the pandemic, so these voter-approved funding streams provided a reliable resource to help "cushion" the impacts of other revenues falling short of expectations. For example, revenues from the voter-approved Metropolitan Park District (MPD) were shifted from their originally intended purposes to support basic operations at Seattle Parks and Recreation (SPR). Funding that had been intended to enhance programming, expand major maintenance, and support various capital investments was instead used to pay salaries and other operational costs as parks facilities continued operations in support of pandemic relief. A similar approach was taken with resources provided by the Seattle Public Library Levy. This approach represented a significant policy choice by the City's elected officials, and it required a supermajority vote of the City Council to authorize spending in a manner that was not originally intended by the voters.

In this context, Mayor Durkan has made it a priority to restore base funding where possible. This includes the restoration of \$7.7 million in General Fund to SPR, and \$5 million to the Seattle Public Library. At the same, funding for capital projects provided by Real Estate Excise Tax revenues have largely been restored to pre-pandemic levels as this revenue stream has rapidly recovered. While these allocations do not expand services or fund new programs, they do have the affect of honoring and restoring the original intent of voters.

Expanding Approaches to Community Safety

The Mayor's 2022 Proposed Budget builds upon recent efforts to expand the City's approach to ensuring community safety through programs and approaches that expand beyond a traditional, uniformed police response. This includes investments in the Seattle Fire Department (SFD), the Seattle Police Department (SPD), and the Human Services Department (HSD).

In 2021, SFD continued to expand the Health One program that was initiated as a pilot in 2019. This program responds to individuals immediately in their moment of need and helps them navigate the situation – whether they need medical care, mental health care, shelter, or other social services. In 2022, approximately \$2 million is provided to SFD to initiate a "Triage Team" as a complementary program. This program is being developed under the umbrella of SFD's Mobile Integrated Health (MIH) unit, which includes Health One. The Triage Team is designed to respond to non-medical, non-criminal calls identified by the 911 dispatch center at the Community Safety and Communications Center (CSCC).

Summary of the 2022 Proposed Budget

This specialized response model will operate out of SFD in close connection with the CSCC and will be dispatched after SFD and SPD 911 operators determine the appropriate form of response.

SPD has also continued to develop non-traditional approaches to addressing community safety. In 2022, this will include an expansion of the existing Community Service Officer program. The addition of five officers and one supervisor will expand the CSO team to a total of 24. CSOs are non-commissioned officers who work as liaisons between the community and SPD. They serve to bridge the service gap on non-criminal calls for service and perform a variety of public safety-related community service and outreach work that does not require the enforcement authority of a sworn officer.

Significant community safety investments are also proposed in the Human Services Department (HSD). For example, an additional \$1.5 million is appropriated to the department to support an investment in the new Regional Peacekeepers Collective, bringing the total funding for this program to \$2 million. The goal of the Regional Peacekeepers Collection is to prevent and eliminate youth gun violence. This investment is complemented by continued funding in the amount of \$10 million to continue support for community-developed or community-led solutions to increase safety and reduce violence. HSD recently completed a contract award process that allocated the \$10 million from the 2021 Adopted Budget to an initial set of new programs. The 2022 funding will ensure that these programs can be sustained into the future. The 2022 Proposed Budget also includes funding for two additional victim advocates, and there will be sufficient resources in HSD's base budget to initiate a new Domestic Violence Intervention Project (DVIP). This pilot project is modeled after the national best practice *Colorado State Differentiated Treatment Program*. The program provides funding for community-based, nonprofit organizations who provide consultation and treatment services for batterers.

At the same time that the budget makes these commitments to new approaches to community safety, funding is also provided to support increased uniformed staffing at SPD. This past two years have seen a dramatic reduction in the size of SPD's uniformed force as resignations and retirements reached unprecedented levels. The 2022 Proposed Budget for SPD includes funding sufficient to add a net of 35 new officers. This increase would increase the average officer count to 1,230 still well short of the 1,343 officers that had been funded for 2021. The Mayor is committed to restoring SPD staffing to previous levels, but recognizes that this will require a sustained commitment to recruitment. Accordingly, the budget includes funding to provide financial incentives for both newly hired recruits and lateral transfers from other departments.

Addressing the Immediate Needs of Those Experiencing Homelessness and Investing in Affordable Housing for the Long-term

COVID-19 has posed significant challenges to the City's long standing efforts to address the needs of those experiencing homelessness. The economic impacts of the pandemic have increased the number of individuals living without shelter at the same time that the social-distancing and hygiene practices needed to contain COVID-19 have demanded costly changes in the way shelter services are provided. Recognizing these challenges, the 2022 Proposed Budget for HSD includes \$115 million for services in support of those experiencing homelessness. In addition to base funding for emergency shelters, case management, diversion, outreach, hygiene/day centers, homelessness prevention and permanent supportive housing supportive services, this human services budget includes investments to sustain

Summary of the 2022 Proposed Budget

shelter facilities established in response to COVID-19, expand shelter opportunities (including three new tiny-home villages), and implement a new approach to leverage federally funded housing vouchers. In particular, the proposed budget provides \$6 million in City-funded support services to pair with these vouchers. By pairing supportive services with the voucher, housing becomes more accessible to people with a higher acuity of need, who may have a longer history of homelessness, who may be unsheltered, and for whom support services will help with stabilization and successful retention of housing.

More broadly, the Human Services Department's 2022 budget marks a milestone in establishing a true regional approach toward addressing the crisis of homelessness. Rather than being directly administered by HSD, more than 90% of the funding allocated for homelessness will be transferred to the recently established KCRHA. The Mayor's Office, HSD and KCRHA worked together to identify priorities and funding gaps in the current homelessness programs and address them in this budget. HSD is also working closely with the KCRHA to ensure the Authority has the appropriate infrastructure in place to assume administration of 2022 contracts that fund homelessness services across the city.

While investments in shelter and other forms of emergency housing are essential, the long-term solution to the region's housing crisis rests in increased access to affordable housing. Accordingly, the proposed budget includes an historically large investment in affordable housing. Made possible by a combination of resources from the Mandatory Housing Affordability (MHA) program, federal CLFR funds and the payroll expense tax, the Office of Housing (OH) will have more than \$190 million for 2022 investments in housing capital and home ownership. This includes \$6 million to promote home ownership, as recommended by the Equitable Communities Initiative (ECI) Task Force, and \$15.7 million from a continued investment in the Strategic Investment Fund that was established in the last year's budget, as part of an overall financial commitment to address historical disparities that primarily impact Black, Indigenous, and People of Color (BIPOC) communities. These funds will be specifically targeted to address the risk of residential displacement from these communities.

Clean City Initiative

Trash, litter and debris have become more common sights across the city during the COVID-19 pandemic. To address this issue the proposed budget includes \$10.4 million in funding for critical operations that ensure our public spaces are clean, safe, and accessible. This investment package includes:

- Funding to continue the Clean Cities Initiative through August 2022, funding a surge-level response to address immediate recovery needs through strategies such as purple bag, community litter abatement, graffiti rangers and needle disposal.
- Support for City efforts to maintain clean and accessible right-of-way (ROW) and parks, resourcing the expanded demand on Seattle Parks and Recreation to address impacts of unsheltered populations including litter removal, site restoration, storage of personal belongings, and data collection & reporting.
- Enhanced RV remediation, RV pump outs and additional Hygiene Stations, resourcing Seattle Public Utilities to work collaboratively with people living in RVs to maintain clean and accessible areas in the ROW around RVs. SPU will hire a new Field Coordinator who will support connecting people

Summary of the 2022 Proposed Budget

living in RVs to resources as part of their role. In addition, SPU will add 3 hygiene station locations to the 18 locations currently planned in 2022.

The funding needed to support these additional investments is derived both from the City's own financial resources and the federal CLFR dollars available in 2022.

Ongoing Commitments to Invest in BIPOC communities

The 2021 Adopted Budget included funding commitments that acknowledge a pattern of underinvestment rooted in centuries of institutional racism. The Strategic Investment Fund, mentioned above in the context of affordable housing investments, was one element of these investments. In addition to this \$30 million fund, the budget also included \$30 million to support recommendations to be brought forward by the ECI Task Force, nearly \$30 million for a Council-designed Participatory Budget process, and \$10 million to support community-driven community safety investments. This latter component corresponds to the funding noted previously that HSD recently distributed among a group of new community-proposed programs. The 2022 Proposed Budget includes sufficient resources not only to sustain these community safety programs, but also to continue the recommendations of the ECI Task Force, and move forward with the Participatory Budgeting program.

The ECI Task Force has made recommendations for ongoing funding in the areas of homeownership (noted previously), work force training, education, healthcare access, and business development, among others. The 2022 Proposed Budget will provide the resources needed to make these investments ongoing, consistent with the Task Force recommendations.

The same approach is taken with Participatory Budgeting. Although the initial spending recommendations have not yet been developed for this program, by building \$30 million of funding into the ongoing base budget, the 2022 Proposed Budget ensures that there will be sufficient funding to implement the recommendations that do emerge as ongoing programs. In addition, because a share of the 2021 funding for Participatory Budgeting remains unspent, there will also be an opportunity to expand the current Participatory Budgeting process to include recommendations for a significant set of one-time investments.

The 2022 Proposed Budget also includes funding to continue the Strategic Investment Fund, although in a slightly modified form that also helps address some of the priorities articulated in the Council's JumpStart legislation. In particular, \$14.3 million of what had been the \$30 million Strategic Investment Fund will be directed on an on-going basis to the existing Equitable Development Initiative (EDI), with the remaining \$15.7 million directed to OH to help mitigate the risk of residential displacement. These two approaches are consistent with the goals that have been articulated for the Strategic Investment Fund, and also help meet Council's direction to use payroll taxes to support EDI and expand investments in affordable housing.

Moreover, these are not the only proposed investments that will target historical disparities primarily experienced by BIPOC communities. For example, the budget includes proposals to increase City support for capital facilities and programs that prioritize Seattle's Native American and Indigenous residents by more than \$1 million. In addition, an appropriation of \$400,000 is proposed to continue efforts to battle increasing incidents of hate crimes, some motivated by ignorance around the source of

Summary of the 2022 Proposed Budget

COVID-19. The budget also includes significant new investments in the Duwamish Valley, described below, which are designed to benefit the residents of this diverse community.

Implementing the Green New Deal

The City of Seattle has been a long-standing leader and shown a steadfast commitment to advancing policies to protect the environment and address the undeniable threat of global climate change. The Mayor proposes to further these commitments, and to meet the Council direction regarding the use of payroll tax resources, by providing more than \$14 million of funding to implement a series of Green New Deal priorities. This includes:

- \$4.1 million in support of operationalizing the Duwamish Valley Action Plan with programmatic and capital investments in the South Park and Georgetown neighborhoods;
- \$6.5 million held in reserve awaiting recommendations from the recently convened Green New Deal Advisory Board;
- \$1.7 million to advance conversions from oil-heated to more efficient carbon-neutral electric heat;
- additional funding to both assess and mitigate vehicle emissions; and workforce investments designed to expand employment opportunities in the new “green” economy.

Further details regarding the Duwamish Valley proposal are provided below. The vast majority of the funding to support the Green New Deal investments listed here comes from the proceeds of the new payroll expense tax, but a share is also made possible by the federal CLFR dollars.

This package complements a wide range of investments in transit, electrification, sustainability, and workforce development throughout the city. These include \$3.8 million in existing work at OSE on climate justice, buildings and energy, and transportation electrification, \$3.2 million budgeted at the Department of Finance and Administrative Services for municipal fleet electrification, and \$2.9 million in REET funding for the Municipal Energy Efficiency Program which electrifies and makes energy improvements at City-owned facilities.

In addition, the Seattle Department of Transportation’s 2022-2027 Capital Improvement Plan (CIP) includes \$231 million (\$16 million in new funding) covering Pedestrian Master Plan projects, Bike Master Plan projects, transit projects, and other projects supporting bike and pedestrian master plans. Seattle City Light is budgeting \$9.7 million for Transportation Electrification, \$2.8 million in new CIP spending for Grid Modernization, and \$5.5 million for its “Create Our Energy Future” initiative advancing Green New Deal and decarbonization goals. At the same time, Seattle Public Utilities is proposing \$600,000 for utility-funded grants for workforce development and circular economy investments aligned with the Green New Deal.

Investing in the Duwamish Valley

The 2022 Proposed Budget includes more than \$8.5 million for new investments in the Duwamish Valley. These investments will advance key priorities of the Duwamish Valley Action Plan (DVAP). The

Summary of the 2022 Proposed Budget

DVAP is a community-led plan driven by environmental justice and racial equity, all designed to deliver measurable improvements in community health and well-being. The DVAP includes seven priority focus areas: healthy environment, parks and open spaces, community capacity, mobility and transportation, economic opportunity and jobs, affordable housing, and public safety. The 2022 budget demonstrates the City's commitment to this community and includes:

- \$500,000 to expand youth training and leadership development;
- \$550,000 to invest in economic and workforce development;
- nearly \$200,000 to support inclusive community engagement;
- \$1,000,000 to incentivize the conversion of heavy-duty vehicles from fossil fuels to clean electricity; and
- \$6.35 million to construct or rehabilitate community spaces to ensure climate pollution-free operations, improve resiliency, address environmental inequities.

Overall Approach to the Use of Payroll Taxes and the JumpStart Priorities

The Green New Deal and associated Duwamish Valley investments represent one use of the payroll expense tax revenues available for 2022. An overall review of how these resources are deployed is important for understanding the overall 2022 Proposed Budget.

In July 2021, Council adopted Ordinance 126393, which established a separate fund to receive payroll tax revenues and set out a specific annual spending plan for the these revenues for 2022 and beyond. This included formulas that would allocate the revenues between support of the overall General Fund and investments in four priority policy areas: affordable housing; economic recovery and assistance to small businesses, the Green New Deal, and the Equitable Development Initiative.

The package of legislation submitted with the 2022 Proposed Budget includes legislation that would amend this legislation as the budget includes a modified allocation of the payroll tax revenues. The proposed changes are necessary in order to reconcile the priorities identified in Ordinance 126393 with Council actions in support of other critical funding needs, including homelessness, community safety, BIPOC investments, domestic violence prevention and victim services, appropriate compensation for City employees, and the ongoing shortfall in some City revenues.

Nonetheless, the 2022 Proposed Budget does meet the funding targets established under Ordinance 126393. It does so by combining payroll tax revenues with the federal CLFR resources. On net, nearly \$100 million of new funding is provided for affordable housing and expanded shelter offerings, approximately \$25 million is proposed for economic recovery and business assistance, and more than \$14 million each is proposed for the Green New Deal and the Equitable Development Initiative.

Sustaining these levels of funding going forward will be a challenge because the CLFR resources will not be available in 2023 and beyond. Further work will be needed by the Council and perhaps the next Mayor to fully reconcile all the City's competing policy demands.

Race and Social Justice Initiative (RSJI)

RACE AND SOCIAL JUSTICE INITIATIVE IN 2022 BUDGET CHANGES

Introduction

This chapter provides an overview of significant changes in the City’s 2022 budget that advance the [Race and Social Justice Initiative \(RSJI\)](#). The City implements many more initiatives within department base funding that are not included below in this summary of changes.

City of Seattle Race and Social Justice Initiative

Significant evidence shows all Seattle residents do not have the same opportunities and quality of life because of their race and where they live. Race produces similar conditions for people of color and other under-represented groups in the City of Seattle’s workforce. To address racial inequities, in 2004 Seattle became the first city in the U.S. to establish a program to explicitly eliminate institutional racism. Institutional racism exists when an organization’s programs, policies, and spending work to the benefit of white people and to the detriment of people of color, usually unintentionally. The City uses a Racial Equity Toolkit to guide policy, program and budget decisions so they support positive racial equity outcomes. The City government also uses a racial equity lens to create a workforce inclusive of people of color and other marginalized or under-represented groups at all levels of City employment.

The Office for Civil Rights leads RSJI in the City and provides support for departments and staff. Each City department has a “Change Team” – a group of employees who champion RSJI activities and strengthen a department’s capacity to get more employees involved—to support internal transformation. The team facilitates and participates in discussions on race, racism, and strategies to overcome institutional barriers to racial and social equity.

Below are examples from the City’s 2022 Proposed Budget illustrating how the City continues to use policies, programs, and investments to change racial equity outcomes through stronger relationships with communities; align policies and strategies across departments; and share knowledge and resources to create opportunities to integrate equity goals. The 2022 budget continues the Mayor’s record level of investments in community safety and equity-focused programs led by community-based organizations, sustaining the commitment of \$100 million in new investments.

ARTS, CULTURE AND RECREATION

Office of Arts and Culture

Individual Artist Relief

\$1,500,000

This item provides financial support to individual artists and creative workers, workers who have been negatively impacted by COVID-19. Most of the individuals in this category are small business owners, entrepreneurs, and sole proprietors. The financial support will be paired with a workforce development component in partnership with the Office of Economic Development (OED).

Equity and Cultural Education

Race and Social Justice Initiative (RSJI)

\$1,200,000

This item continues funding for the Equitable Communities initiative Task Force in 2022. The goal is to increase leadership and empowerment opportunities for BIPOC youth through the creation of culturally-relevant programming. Arts will be directing the funds to provide:

- Culturally-relevant youth and family programming and classroom residences with BIPOC-centered cultural institutions, museums and other informal learning spaces during the school day
- Cultural education programs outside of school by BIPOC-led creative youth development organizations
- Awards for BIPOC youth who want to engage in arts & culture on their own terms (e.g. buying instruments + individual lessons)

Seattle Parks and Recreation Department

Formalize Rec’N the Streets Program

\$10,000

This item transfers \$660,000 from multiple funds with SPR’s budget to formalize a mobile recreation pilot, Rec’N the Streets, which delivers programming in partnership with community using neighborhood-based data and equity maps.

MPD Funding Realignment for HR/Workforce Equity (see Capital Changes)

\$700,000

The 2022 Proposed Budget reallocates \$700,000 of Seattle Park District (MPD) resources from SPR’s capital budget for Acquisitions (MC-PR-21001) to support an ongoing investment in the department’s Human Resources Team. This change supports a revised service model that advances SPR’s vision of becoming an anti-racist organization and is aligned to meet the growing demand for services from a department with over 1,000 regular positions and an additional 800-1,000 temporary staff throughout the year. These resources will allow SPR to increase HR support by 4.25 FTE to 16.0 FTE total, bringing its ratio of FTE to HR staffing into alignment with similarly sized departments. Specifically, this adds:

- a Workforce Equity Advisor (1.0 FTE)
- a Training Coordinator dedicated to anti-racism training deliverables (1.0 FTE);
- an HR Business Partner for the Grounds Maintenance Division (1.0 FTE);
- increases capacity for performance reporting (0.5 FTE), leave of absence (0.5 FTE), and managerial needs (0.25 FTE);
- and reclasses 4.0 positions to Strategic Advisor and Manager roles to better align with their job duties and increased supervisory roles.

Please see the capital changes section of the proposed budget for the corresponding reduction to SPR’s Capital Improvement Program.

MPD Funding Realignment for Departmental Equity Team (see Capital Changes)

\$300,000

The 2022 Proposed Budget reallocates \$300,000 of Seattle Park District (MPD) resources from SPR’s capital budget for Acquisitions (MC-PR-21001) to support an ongoing investment in SPR’s Equity Team. This change creates a dedicated, centralized team to work with staff across divisions to establish unified goals and educational curriculums centered around equity. This proposed funding for this change is

Race and Social Justice Initiative (RSJI)

\$600,000, including \$300,000 from the MPD capital budget and an additional \$300,000 from the net-zero reallocation of base operating costs.

Specifically, this adds three Strategic Advisors to plan, develop and implement equity strategies and structurally embed RSJI policies and practices across the department. Two positions will be added in the Superintendent's office and one position will be added in the Parks and Environment Division. In addition, this item provides the department's Change Team with a small annual budget for supplies.

Please see the capital changes section of the proposed budget for the corresponding reduction to SPR's Capital Improvement Program.

MPD Funding Realignment for Equitable Park Development Fund (see Capital Changes)

\$300,000

The 2022 Proposed Budget reallocates \$300,000 of Seattle Park District (MPD) resources from SPR's capital budget to SPR's operating budget to begin to transition the Major Projects Challenge Fund to a new Equitable Park Development Fund as recommended by the Park District Oversight Committee (PDOC) in 2020. The investment will focus on partnering with communities and community groups to make improvements to parks and park facilities in neighborhoods that have a history of racial disparities in access to green space and in safety from environmental harms. This change also adds two FTE per PDOC's recommendation to lead this work within the department.

Please see the capital changes section of the proposed budget for the corresponding reduction to SPR's Capital Improvement Program.

Language Premium Staff Stipend

Various Departments

\$440,000

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021. This budget action acknowledges the additional value contributed by employees who speak multiple languages.

EDUCATION AND HUMAN SERVICES

Department of Education and Early Learning

Equitable Communities Initiative

\$4,000,000

This item continues funding for an Equity and Cultural Education Fund. As part of the Equitable Communities Initiative (ECI) Task Force, the education workgroup recommended \$6 million to establish an Equity and Cultural Education Fund; with \$2 million specified for cultural education annually. The Fund is designed to benefit BIPOC youth impacted by systemic inequities in education. The appropriation for the fund is split between DEEL (\$4 million) and ARTS (\$2 million). Some of the funding will support administrative costs to operate the program. Activities supported by the Fund include:

1. Youth leadership and cultural education
2. Family support and engagement

Race and Social Justice Initiative (RSJI)

3. Educator diversity and professional/organizational development

Participants in these activities may be youth, families, educators, and/or community-based organizations. While the Fund prioritizes BIPOC-led community-based organizations and sole proprietors, it does not preclude partnerships with formal education systems and institutions. Funds may also be used to support organizational development for BIPOC-led non-profits and evaluation activities.

Human Services Department

Funding for Community Safety Capacity Building

\$10,000,000

This item provides \$10 million for community-developed or community-led solutions to increase safety and reduce violence. These investments renew the Mayor's 2021 investment of \$10 million to continue community safety capacity building.

Maintain Keiro Enhanced Shelter Units (125 units)

\$6,587,625

The Keiro building in the Central District is planned to house a 125-unit, 24/7 non-congregate enhanced shelter starting in the fall of 2021. The shelter will be operated by Africatown Community Land Trust whose goal is to acquire, steward and develop land assets that are necessary for the Black/African diaspora community to grow and thrive in place in the Central District. The shelter will serve single adults with culturally responsive services, case management, housing navigation services, and behavioral health support.

Gender-Based Violence Victims Services

\$875,000

This proposal adds funding for community-based victim services and addresses a 2022 funding gap due to a reduction of fines and fees from offenders due to changes in State law and increased diversion programs. Victims of gender-based violence are disproportionately BIPOC young women and children. These programs give victims of sexual violence the support they need to move forward in their lives with the physical, emotional and debilitating pain and trauma they experience. These programs provide a support system to those survivors who may otherwise live in isolation.

Investments to Address Hate Crimes

\$400,000

This funding will continue the 2021 investments made in Ordinance 126308 to address the increase in hate crimes and bias that disproportionately affect the Asian American and Pacific Islander Community in Seattle. Two programs will be continued:

- Community Based Organization Intervention Funding, including advocacy, counseling, mental health support, trauma response, and care.
- Innovation Funds to Community Based Organizations.

Visiting Nurse Project

\$150,000

This item will provide funding to hire a Registered Nurse (RN) to provide home based nursing care to approximately 200 individuals within communities that have higher rates of serious health conditions or deaths which are disproportionately communities of color. This funding will integrate a nursing

Race and Social Justice Initiative (RSJI)

component into African American Elders Program (AAEP) care coordination and family caregiver support services. This position is essential to supporting the most vulnerable elders especially in emergency situations by providing culturally appropriate and trusted social and health resources.

Reentry Programs for Formerly Incarcerated individuals (Equitable Communities Initiative)

\$1,500,000

This item funds contracted organizations to provide reentry programs for formerly incarcerated individuals. The goals of the programs are to decrease the likelihood that individuals will reoffend and increase the likelihood of attaining meaningful employment. This program was recommended by the Equitable Communities Initiative Task Force.

Culturally Responsive & Inclusive Access to Healthcare (Equitable Communities Initiative)

\$1,000,000

This item funds community-based organizations, including local community health boards, to provide access and entry to appropriate, desired, and impactful health care, including the provision of technical assistance to health care providers around the specific needs of specific communities. This program was recommended by the Equitable Communities Initiative Task Force.

Culturally Responsive & Inclusive Direct Healthcare (Equitable Communities Initiative)

\$1,500,000

This item funds programs for Community Health Centers and community-based organizations. Contracted organizations will provide innovative and alternative ways to achieve health and healing for communities that have historically had a higher rate of negative health disparities. This program was recommended by the Equitable Communities Initiative Task Force.

Farm to Table (Equitable Communities Initiative)

\$200,000

This item increases funding for Farm to Table, which works with local farmers to provide locally grown and produced foods to preschool and after school programs and offers nutrition education. Participants in the program are children and families who disproportionately identify as BIPOC. This program was recommended by the Equitable Communities Initiative Task Force.

Funding for Services from agencies specializing in American Indian and Alaska Native populations

\$1,200,000

Building upon the one-time funding in the 2021 budget, this item provides on-going funding to support programs that reduce the disproportionate impacts of homelessness, domestic violence, sexual assault and violence on American Indian/Alaska Native (AIAN) communities.

Regional Peacekeepers Collective

\$1,500,000

This budget item transfers funding from Seattle Police Department to the Human Services Department to fund community safety investments in the Regional Peacekeepers Collective for approximately 18 months. The goal of the Regional Peacekeepers Collection is to prevent and eliminate youth gun violence by ensuring sustainable conditions that allow young people to live and be healthy, happy, hopeful, safe, and thriving.

Race and Social Justice Initiative (RSJI)

LIVABLE & INCLUSIVE COMMUNITIES

Seattle Department of Construction and Inspections

Race and Social Justice Initiative Staffing

\$168,105

This item adds ongoing budget and position authority for a new staff person fully dedicated to advancing the Race and Social Justice Initiative (RSJI) in SDCI. This position will add essential expert-level guidance regarding succession planning, leadership training and development, and change management. The position will also support City-wide initiatives such as the Seattle Promise program. This item is funded through SDCI's overhead (9% General Fund and 91% permit fees in the Construction and Inspections Fund). The total amount includes approximately \$3,000 for one-time items.

Office of Economic Development

Maritime Workforce Development Program

\$500,000

This item adds \$500,000 in one-time resources to develop a workforce development program within the manufacturing and maritime key industries. Rebuilding a stronger, and more equitable economy from COVID-19 cannot exclusively focus on the most immediate, visible impacts of the pandemic. Rather, it will require creating more middle-wage jobs and more wealth-generating businesses in industries that will thrive in the future and ensuring there is equitable access to jobs in, and ownership of, those businesses. Investments in economic inclusion are not only crucial for the city's recovery – they will also make businesses more competitive.

Small Business Development Capital (Equitable Communities Initiative)

\$5,000,000

This item adds \$5,000,000 for programming and 1.0 FTE intended to decrease the barriers BIPOC populations face in securing financing for their small businesses. Funding will be provided in the form of small business grants to leverage additional lending as needed for small business growth and expansion that leads to additional small business employment and long-term commercial wealth. This item was recommended by the Equitable Communities Initiative Task Force.

Small Business Technical Assistance (Equitable Communities Initiative)

\$2,500,000

This item adds \$2,500,000 for the purpose of providing technical assistance to small businesses. These services will be provided via contractual relationships with local Community Development Financial Institutions ("CDFIs") and other organizations selected through an RFP process in 2021 for the same purpose. This item was recommended by the Equitable Communities Initiative Task Force.

Youth Healthcare Career Exploration (Equitable Communities Initiative)

\$500,000

This item adds \$500,000 for programming and 0.5 PTE intended to increase the number of BIPOC representation in the healthcare profession. Funding will be intended for BIPOC focused organizations to

Race and Social Justice Initiative (RSJI)

create programs that advance youth career exploration activities, mentorships, internships, and partnerships in the health care sector. This item was recommended by the Equitable Communities Initiative Task Force.

Healthcare Career Pipeline (Equitable Communities Initiative)

\$1,700,000

This item adds \$1,700,000 for ongoing programming and 1.0 full time staff member intended to address the need for greater BIPOC representation in the healthcare profession, especially in positions which impact health outcomes, by focusing on programs that support new and/or non-traditional paths into healthcare careers and includes technical assistance for smaller healthcare providers. Funding will be used to contract with partner organizations to develop viable career pathways for intended for BIPOC individuals within the health care profession. This item was recommended by the Equitable Communities Initiative Task Force.

Small Business Ownership Fund

\$7,600,000

This item \$7,600,000 to create a Small Business Ownership Fund. Funding is intended for BIPOC owned businesses in high displacement areas to finance the acquisition and development of commercial space, providing opportunities to own space and build equity. Financing will be paired with OED's technical assistance programs which will support businesses during the construction process.

Permit Fee Reform – Racial Equity Toolkit

\$50,000

This item adds \$50,000 to undertake a Racial Equity Toolkit process around the potential impacts of changing fees for film and special event permitting in the right of way. This investment would help to ensure that any fee reforms were properly informed by an equity analysis prior to potentially proposed legislation.

Office of Housing

Investments to Address Residential Displacement (Strategic Investment Fund)

\$15,700,000

This proposal provides a dedicated resource for investments in the acquisition of property located in high risk of displacement neighborhoods, including land and buildings, that is specifically intended to address residential displacement. This item is a companion to the \$14.3 million allocation of investments in the equitable development initiative in the Office of Planning and Community Development budget.

Homeownership Development (Equitable Communities Initiative)

\$4,875,000

This item adds 4,875,000 to develop an affordable housing program that creates equitable access to homeownership opportunities intended for Black, Indigenous, and People of Color (BIPOC) households who have been impacted by historically discriminatory housing policies, to remain in the City of Seattle, be rooted in place, and create generational wealth through homeownership. This item was recommended by the Equitable Communities Initiative Task Force.

Race and Social Justice Initiative (RSJI)

Ownership Retention Program (Equitable Communities Initiative)

\$875,000

This item adds \$875,000 to the Ownership Retention Program, that responds to homeowner's need to stay in their homes and their ability to develop their property as a means to secure assets for generational wealth and stabilize communities at risk of displacement. This item was recommended by the Equitable Communities Initiative Task Force.

Single Family Oil Heat Conversion

\$1,498,461

This item provides funding to fully meet the 2022 production targets of 125 oil-to-electric heat pump conversions for low-income households regardless of any delay to the Heating Oil Tax. This is part of the Clean Heat Program for oil home heating conversions, which is a collaboration between the OH and the Office of Sustainability and Environment (OSE). This item creates one Property Rehab Specialist position to implement the Clean Heat program. Funding for this program is supported by Payroll Expense Tax resources as it is consistent with the JumpStart policy goals regarding Green New Deal investments. Funding will be supported by the Oil Heat Tax in 2023 and beyond.

Workforce Development; Affordable Housing and Homeless Service Providers

\$750,000

This item adds \$750,000 to develop and strengthen the workforce in housing social service agencies throughout the city. This investment seeks to advance educational and technical training, intended for BIPOC workers and to create new employment pipelines for the sector while simultaneously ensuring high quality delivery of housing and services to vulnerable people.

Office of Immigrant and Refugee Affairs (OIRA)

Language Access and Contracting Capacity

\$246,656

This item increases funding to support language access functions that will increase meaningful access for speakers of languages other than English to Seattle programs and services. The funding adds two positions, the first of which is a Language Access Specialist who will work with the existing specialist in supporting City departments to develop internal Language Access plans and improve their communication with different communities. This position will also actively work with translators in the community to create linguistically accessible materials for the City. The second position will support OIRA's procurement and contracting needs generally and as it relates to Language Access needs. Lastly, this funding covers the operating costs of a City-wide cloud-based computer-assisted translation tool (SmartCAT). This tool will help facilitate City departments' translation requests and will serve as a repository and reference of translated content.

Language Premium Staff Stipend

\$12,000

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

Race and Social Justice Initiative (RSJI)

Restore Immigrant Family Institute Funding

\$70,000

The 2021 Adopted Budget suspended funding for the Immigrant Family Institute (IFI) in 2021 because the in-person nature of the programming was not compatible with pandemic social distancing requirements. This item restores funding in the 2022 budget with the intent to resume programming for the IFI. The IFI is an 8-week program that brings together immigrant and refugee families and Seattle Police officers in hopes of creating understanding and relationships.

OIRA-CLFR Re-Employment Pathways for Immigrants and Refugees

\$250,000

This item addresses the negative economic impact of the pandemic on low-wage, limited English speaking immigrant and refugee adults and further invests in their digital skill building and device ownership through the Ready to Work (RTW) program. This further continues opportunities for educational and training pathways to help immigrants and refugee adults obtain family wage jobs.

Office of Labor Standards

Independent Contractor Legislation Resourcing

\$488,262

This item increases appropriation by \$488,262 and adds two ongoing positions to implement the Independent Contractor Protection Ordinance, passed on June 14, 2021. The ordinance provides labor standards protections for independent contractors, including pre-contract disclosures and a requirement for timely payment, as well as establishing multiple enforcement mechanisms. Ongoing appropriation of \$427,612 will support education and outreach through community partnerships, and ongoing salary costs for 1.0 FTE Paralegal and 1.0 FTE Planning & Development Spec II. One-time appropriation of \$60,650 will support new employee initial set up, consultant services to develop ordinance related notices, press releases, educational documents, initial media campaign, updates to existing ordinance materials, translations, and language access services.

Domestic Worker Standards Board Recommendations

\$500,000

This item increases appropriation by \$500,000, providing one-time resources for further implementation of recommendations from the Domestic Workers Standards Board (Board). The Board was established by the Domestic Workers Ordinance (Seattle Municipal Code 14.23) to provide a forum for hiring entities, domestic workers, worker organizations, and the public to consider, analyze, and make recommendations to the City on the legal protections, benefits, and working conditions for domestic worker industry standards. In 2021, the DWSB issued recommendations for improving the working conditions of domestic workers, including enhancing outreach and education and pursuing additional policies that address existing needs of domestic workers.

The additional funding would support one or more of the Board recommendations like:

- (1) A study/evaluation of portable paid time off (portable benefits) solutions.
- (2) Funding the creation, translation, and dissemination of new Domestic Workers Ordinance materials and communications.
- (3) Funding partnerships with community organizations to conduct additional outreach and education.

Race and Social Justice Initiative (RSJI)

Department of Neighborhoods

Investment in the Equitable Food Fund (Equitable Communities Initiative)

\$750,000

This item adds \$750,000 of new funding and 1 FTE for additional investments in the Equitable Food Fund (EFF). This investment was recommended by the Equitable Community Initiative Task Force.

Increase Equitable Food Fund Programming

\$1,500,000

This item adds \$1.5M to the EFF for awards. This item adds position authority and allocates funding for 4 FTEs to scale and administer the fund. This funding increase was recommended by the Sweetened Beverage Tax Citizens Advisory Board (SBTCAB).

Chinatown International District Outreach & Engagement

\$151,701

This item adds position and budget authority for 1 FTE Strategic Advisor 1 to provide overall strategic advisement, coordination, and support for the portfolio of investments in the Chinatown-International District (CID).

Restore Funding for South Park Public Safety Coordinator

\$110,000

This item restores funding for the South Park Public Safety Coordinator. Funding for this contract was added on a one-time basis in the 2021 Adopted Budget and as a result removed from the Baseline as previously described. This change is an on-going restoration of funding.

Provide Resources for Wealth Education (Equitable Communities Initiative)

\$1,800,000

This item adds \$1,800,000 to develop a holistic wealth education program intended to support BIPOC residents and business owners build wealth and achieve stability. The program should include a pipeline of generational wealth resources related to homeownership, business development, financial planning, education, and health and leverage technology to connect BIPOC communities to available services from the City and partner organizations. This investment was recommended by the Equitable Community Initiative Task Force.

Office of Planning and Community Development

Equitable Development Initiative and Strategic Investment Fund Expansion

\$14.3 million

This item utilizes funding from the JumpStart Payroll Expense Tax to expand the Equitable Development Initiative (EDI) and its sister program, the Strategic Investment Fund (SIF). Funds will be distributed through a 2022 grant application process. This item also includes three new staff positions. A Grants and Contracts Specialist will support the technical aspects of the contract and invoicing processes at OPCD, and two Planning and Development Senior positions will provide additional project management capacity and technical assistance to community organizations as they build organizational capacity, work

Race and Social Justice Initiative (RSJI)

on project development, and work through legal, financial, and organizational issues. This item is a companion to the \$15.7 million allocation of investments to address residential displacement in the Office of Housing budget.

Duwamish Valley Program Development Projects

\$2.3 million

This one-time item funds essential improvements to the South Park Neighborhood Center to establish it as a Resilience Hub that benefits the community by housing community-supportive services, providing clean air, serving as a cooling center, and operating with solar energy. The funding will also support design and implementation of community-supportive uses and/or economic development uses as part of the development of the Unity Electric site, as well as community-supportive gathering spaces in Georgetown. This funding will also ensure the building design includes climate resilience infrastructure such as solar energy at the South Park Community Center. These items are part of a package of investments that expand the Duwamish Valley Program in 2022 and is funded by Payroll Expense Tax (JumpStart) funds.

Duwamish Valley Program - Staffing and Engagement

\$192,722

This item supports implementation of the Duwamish Valley Action Plan. It provides a 3-year sunset position that enables OPCD to hire a program coordinator for the Duwamish Valley Program (DVP); it also includes \$30,000 to support meaningful, inclusive and coordinated community engagement. These items are part of a package of investments that expand the Duwamish Valley Program in 2022 and is funded by Payroll Expense Tax (JumpStart) funds.

Indigenous Planner

\$158,684

This item creates the City's first staff position dedicated to Indigenous Planning. The position will develop frameworks and processes for incorporating Indigenous planning concepts into City planning and community development work; it will also expand the City's planning approach and increase the ability to engage with the Indigenous Seattle Working Group and other Indigenous Seattle residents. The intent is to enable the City to transition from the erasure of Native American culture and experiences to a process where Indigenous methodologies are incorporated and implemented. This item also supports the City's climate resilience, transportation, and green infrastructure goals.

Equitable Zoning Outreach

\$225,300

This one-time item enables OPCD to partner with affected community to develop equitable development zoning tools; it also builds on OPCD's efforts to develop land use strategies that support equitable development. The goal is to address barriers in the City's land use and zoning regulations that make it difficult for EDI and other affordable housing and community-based development projects to succeed. Funding will be used to compensate community members for participating in a steering committee that will shape the equitable zoning tools; support engagement by providing translation, childcare, food, or online outreach/advertising; and engage community-based subject matter experts, e.g., Black and Indigenous developers, architects, and organizers, to advise OPCD.

Race and Social Justice Initiative (RSJI)

RSJI Training

\$26,000

The 2022 Proposed Budget funds RSJI trainings and activities for the Planning Commission, the Design Commission, and OPCD. This item provides four annual RSJI training sessions for new and continuing Commissioners. It also provides funding for RSJI trainings and presentations for OPCD staff. OPCD's baseline budget does not include funding for these activities.

PUBLIC SAFETY

Community Police Commission (CPC)

Pilot Community Police Oversight Young Leader Internship & Fellowship Program

\$32,044

As an organization, CPC has identified significant high barriers that keep youth from being able to engage in changing public safety. There is also a lack of opportunity, training, and support for youth to be connectors in their own communities and be appropriately compensated for professional work in the field, and to empower and embolden their communities to advocate for their own vision of public safety. This proposal aims to fill the gap of opportunities for Black, Indigenous, Latinx, Pacific Islander, Immigrant or Refugee youth from our community to be formally trained in and compensated for work in transforming public safety. These leaders will in turn have access to many opportunities that are not often available to youth of color. The point of this fellowship is to center and lift up historically underserved populations and to help develop their voices and professional skills.

Seattle Fire Department

Add Diversity Recruitment and Work Culture FTE

\$166,663

This item restores a position that was eliminated as part of the COVID reductions in the 2021 Adopted Budget. This 1.0 FTE will focus on advancing the department's goals of promoting diversity, equity, and inclusion in the workplace, spanning from recruitment to retention.

Seattle Municipal Court

Increase to Jail Diversion Subsidized Home Monitoring Program

\$88,000

The increased funding would continue to remove the barrier of economic ability for participation for the indigent defendants as EHM has been self-funded by the defendants paying based on their income scale. There is still economic barrier that creates a gap, which adversely impacts indigent communities and lower income communities of color. This vital subsidy is critical for reducing that economic inequality and disparity in our public safety system.

Race and Social Justice Initiative (RSJI)

Contract With Community-based Provider Social Worker in the Community Resource Center **\$140,000**

This item funds a social worker/case manager in the Community Resource Center (CRC) at the Court. This position is intentionally called-out as a non-court employee to bridge the gap between community-based non-profits and the clients who present in need of services at the Seattle Justice Center. The position will make culturally appropriate referrals to community-based agencies which will support clients in services with the goal of long-term self-sufficiency outside of the court system. The mission of the CRC is to “make it easy for individuals to access life-changing services so that they can move forward in health and stability.” CRC services are available to all members of our community, and many programs and services are aimed at assisting low-income communities of color, especially Black and African Americans who have historically been the most disadvantaged group with the lowest income levels in our region.

Seattle Police Department

Office of Police Accountability Video Analyst **\$156,698**

This item includes ongoing funding for a full-time video content creator who will be responsible for analyzing and creating video/audio content that is specific to every applicable OPA case with video or audio (in-car video, body worn video, public video, 911 calls, etc.) that details the information used to make investigative decisions. As OPA continues to build relationships and trust in the community, it is essential that OPA has the appropriate staffing to support OPA’s transparency and accountability goals. OPA’s complaint process directly affects vulnerable and disadvantaged communities, as often complainants are from these communities; race and ethnicity is a prominent and important issue between these communities and the Department. In order to serve these communities and improve relations, OPA must continue to improve the accessibility of all portions of the complaint process, which includes sharing investigative evidence used in the decision making process, and having information regarding the findings available outside of the written, English language.

UTILITIES AND TRANSPORTATION

Seattle Public Utilities

Drainage and Wastewater Apprenticeship Program **\$500,000**

This item increases Drainage and Wastewater Fund appropriation to pay for five additional apprentices in the Drainage and Wastewater (DWW) Line of Business. This would increase apprenticeships to twelve, from a baseline of seven. Positions are loaned by Seattle Department of Human Resources (SDHR). Hiring for Drainage and Wastewater Apprentices would aim to draw on a diverse cohort, providing a critical jobs pathway.

Race and Social Justice Initiative (RSJI)

Shared – Green New Deal Business Development Strategy

\$600,000

This item pilots a community grant program focused on green workforce development specific to the water and waste sectors and will complement the City of Seattle's Green New Deal initiative. This effort will focus on local green business and sustainability investments, especially in BIPOC and other historically underserved communities. The pilot will initially fund \$600,000 in grants, leveraging existing position authority for oversight and within waste and waste related job and business efforts. These will specifically focus on job opportunities for BIPOC community members, historically disadvantaged communities, and at-risk youth by offering support services to increase competitiveness in the labor market.

Shared – DON MOA Expansion

\$312,000

The 2022 Proposed Budget for Seattle Public Utilities funds expanded community engagement and education efforts in partnership with the Department of Neighborhoods (DON). This body of work will include expanded efforts for donation matching, expanded outreach, and RSJI trainings, and funds capacity for inclusive engagement between community and the Customer Review Panel.

Expanded RV Remediation

\$556,063

This item transfers \$556,064 in General Fund authority from Seattle Department of Transportation (SDOT) and adds one field coordinator in order to support expanded RV cleaning services as part of a broader RV remediation program. The Field Coordinator (1.0 FTE) will connect individuals residing in RVs/vehicles to resources, facilitate trash removal around vehicles in the ROW, and to manage storage of personal belongings, as required, as part of the City's efforts to increase access to the ROW. This work will include expanding Purple bag distribution and collection to RV sites, at up to 10 RV sites weekly serving ~30% of RV need. Moreover, there will be additional cleanings at smaller RV sites. New contracted teams will work 4 days a week and identify and clean sites in one of five zones per day. The number of sites will vary based on size and amount of trash. This provides direct hygiene services to persons experiencing limited shelter, who are disproportionately from communities of color.

Seattle Department of Transportation

TNC Tax Funding for ReSET O&M Programs

\$150,000

This item adds \$150,000 of Transportation Network Tax funding to pedestrian and public space improvements as part of the City's equitable recovery effort focused on addressing the disproportionate impact of the events of the past year and how recovery efforts should be prioritized in those communities. This is a companion request to Capital Program expansion of \$650,000, which aims to create a equitable and vibrant recovery through a series of pedestrian, transit access and livability improvements. This will support one-time operation and maintenance efforts for improvements that are not creating capital assets, such as pavement marking and painting.

Race and Social Justice Initiative (RSJI)

TNC Tax Funding for ReSET Capital Programs

\$650,000

This item funds public space projects aimed at supporting equitable and vibrant recovery through a series of pedestrian, transit access and livability improvements. This investment would focus on spaces that bring people together to support community recovery. Project work includes street lighting improvements, pedestrian paving projects, crosswalks, curb ramps, and more in communities that have historically seen less investment in transportation infrastructure.

Transportation Equity Workgroup

\$183,709

This item increases appropriation by \$183,709 to continue funding for the Transportation Equity Workgroup (TEW) from the Transportation Network Company (TNC) tax proceeds. Appropriation for the non-labor TEW expense is currently one-time funding, ending in 2021. This proposal requests to change the funding from one-time to ongoing to continue this important work in delivering projects with a focus on impacts to BIPOC communities.

Duwamish Valley Investments - 8th Ave Pedestrian Improvements

\$1,750,000

This change is part of a package of investments that expand the Duwamish Valley Program for 2022. The expanded program is intended to increase opportunities for youth and provide community and economic development in accordance with the Duwamish Valley Action Plan. This item will link the Georgetown community to its only waterfront access by improving 8th Ave. S and the street end park, including pedestrian safety, natural drainage, and open space.

Office of Sustainability and Environment (OSE)

Oil Home Heating Conversion

\$200,000

This Green New Deal item adds \$200,000 in one-time Payroll Expense Tax (Jumpstart) funding to support the Clean Heat Program for oil home heating conversions. This funding will provide for temporary staffing at OSE for implementation, fund 80 middle-income rebates, and fund targeted outreach in racially diverse neighborhoods with a high percentage of oil heated homes. This includes strategic marketing and communication to ensure rebate opportunities reach neighborhoods with lower participation rates as well as communities most impacted by environmental and racial injustice. An accompanying \$1.5 million item for fully funded low-income home heating conversions is in the Office of Housing's proposed budget.

Clean Energy Pre-Apprenticeship Scholarships

\$1,000,000

This Green New Deal item adds \$1,000,000 in federal funding (CLFR) to OSE's budget to provide scholarships for 75-100 individuals to participate in pre-apprenticeship training. This funding covers application and enrollment costs, tools, PPE, and work gear. It also provides post-training support services for new apprentices, in order to support retention in the clean energy workforce. Funding will also support targeted inclusive outreach (in-language and through trusted networks) to advance green and just workforce development and priority hire goals.

Race and Social Justice Initiative (RSJI)

Increase to Environmental Justice Fund

\$550,000

This item adds \$550,000 to the Environmental Justice Fund. This is aligned with a recommendation from the Equitable Communities Initiative Task Force for immediate and long-term funding for community-based efforts to address health disparities. These investments will aim to address health disparities through investments in food access and environmental justice.

Support for Duwamish Valley Businesses

\$275,000

This item increases appropriation authority at the Office of Sustainability and Environment in order to support small and industrial businesses in South Park and Georgetown with COVID-19 relief and response, technical assistance, marketing support, financial advice, marketing, and providing local vendors better opportunities for City contracting and procurement. These items are part of a package of investments that expand the Duwamish Valley Program in 2022.

Funding for Greening of Industrial Properties

\$300,000

This item increases appropriation authority at the Office of Sustainability and Environment in order to fund community-led efforts to green the industrial areas of South Park and Georgetown. This funding would support grants to community-based organizations for outreach, engagement, and implementation in private industrial properties. Some of this funding may also support Seattle Department of Transportation and Seattle Public Utilities in these departments' efforts to green the right of way and work related to water management. These items are part of a package of investments that expand the Duwamish Valley Program in 2022.

Expand Duwamish Valley Youth Corps

\$500,000

This item increases appropriation authority at the Office of Sustainability and Environment in order to expand the Duwamish Valley Youth Corps. This item provides funding for expanded participation, capacity building, youth workforce development, and recreational programming. It also supports Green New Deal goals around green investments and workforce development. These items are part of a package of investments that expand the Duwamish Valley Program in 2022.

Rebates for Heavy Duty Electric Vehicles

\$1,000,000

This item increases appropriation authority at the Office of Sustainability and Environment for a program offering rebates for electric heavy duty vehicles in the Duwamish Valley, such as drayage trucks, school buses, and other fleets. This builds on a current grant-funded partnership with SCL, Duwamish River Cleanup Coalition, African Chamber of Commerce, and the Northwest Seaport Alliance to explore how to electrify drayage trucks in a manner that does not burden independent BIPOC truck owners/drivers. This program advances RSJI goals by providing crucial economic assistance as well as furthering air quality goals, and helping to achieve a just climate transition. These items are part of a package of investments that expand the Duwamish Valley Program in 2022.

Duwamish Green Workforce Development Investments

\$275,000

This item increases appropriation authority at the Office of Sustainability and Environment in order to fund efforts to connect upcoming developments in the Duwamish Valley with local job creation. This

Race and Social Justice Initiative (RSJI)

funding will address priorities from the Industrial and Maritime Strategy as well as the Duwamish Valley Action Plan, and will focus on green economy careers, aiming to facilitate pathways to jobs in manufacturing, logistics, and the maritime sector, as well as work supporting sea level rise adaptation, the electric vehicle industry, and climate change resilience. These items are part of a package of investments that expand the Duwamish Valley Program in 2022.

ADMINISTRATION

Office of the Employee Ombud

Increase Anti-Hate Crimes Training Capacity

\$151,701

This item creates a 1.0 FTE Strategic Advisor 1, Exempt pocket in the Office of the Employee Ombud (OEO), and increases ongoing appropriation authority by \$151,701 to OEO. The ongoing body of work for this position is training development and coordination related to anti-hate crimes and crimes of bias within City departments. This body of work was created in response to the Mayor's Executive Order 2020-01: Addressing Hate Crimes and Crimes of Bias, as well as Seattle City Council Ordinance 126308.

Department of Finance and Administrative Services

Equitable Communities Initiative (ECI) Funding for Workforce Equity and WMBE support

\$1,000,000

This item, recommended by the Equitable Communities Initiative Task Force, adds ongoing funding to provide technical assistance to WMBE firms to do business with the City and aims to provide wrap-around services to support construction apprenticeship training and retention of Black and Indigenous People of Color community (BIPOC) apprentices and workers.

Priority Hire Expansion

\$500,000

This item is an additional one-time investment in the Priority Hire Program. The scalable program provides technical assistance to WMBE firms to do business with the City, and wrap-around services intended to support construction apprenticeship training and retention of apprentices and workers who are members of Black, Indigenous, and People of Color (BIPOC) communities.

Finance General

Participatory Budgeting Reserve

\$30,000,000

The 2022 Proposed Budget includes ongoing funding for the participatory budgeting process. In 2021, the administration of the participatory budgeting process was shifted from the Department of Neighborhoods (DON) to the Office for Civil Rights (OCR). OCR's mission is to end structural racism and discrimination through accountable community relationships and anti-racist organizing, policy development, and civil rights enforcement. Also in 2021, positions were added to the Office for Civil

Race and Social Justice Initiative (RSJI)

Rights (OCR) to develop a Request for Proposal (RFP) to select an organization to run the participatory budgeting process. The 2021 Adopted Budget included \$28.3 million for Participatory Budgeting, and the 2022 amount of \$30 million in Finance General is reserved for future allocations.

Seattle Department of Human Resources

Restore Career Quest Scholarships and Implement Central Mentorship Tracking

\$175,000

This item increases ongoing appropriation authority by \$175,000 to the Seattle Department of Human Resources Workforce Equity Unit. \$150,000 will be used to reinstate Career Quest scholarships for City employees, and \$25,000 will be used to purchase and maintain software to align, enhance, and bring to scale the City of Seattle's 7+ mentorship programs. Career Quest scholarships have a proven track record of providing opportunities for employees, particularly female and persons of color, to learn new skills, directly increasing their performance and productivity.

Seattle Rescue Plan

Background

In response to the ongoing COVID-19 pandemic public health emergency and resulting economic downturn, the U.S. Congress passed, and the President signed, the American Rescue Plan Act of 2021 (ARPA) in March 2021. ARPA is a \$1.9 trillion package intended to combat the COVID-19 pandemic, including the public health and economic impacts via direct relief to families and grants to all levels of government. The ARPA bill built on prior federal COVID relief efforts from the CARES Act of 2020 and the Consolidated Appropriations Act of 2021.

The “Seattle Rescue Plan” (SRP) is the City’s so far nearly \$300M package of federal recovery funds to aid Seattle’s response to and recovery from the pandemic and COVID-related economic impacts. By far the largest single grant in SRP is \$232M in Coronavirus Local Fiscal Recovery (CLFR) Funds, which is for local direct aid to address COVID public health and economic impacts, certain infrastructure needs (water, sewer, and broadband), and revenue shortfalls. Federal COVID-19-related resources that have made their way to the City from ARPA or other previous bills have been grouped under the Seattle Rescue Plan umbrella. To-date, these additional resources include targeted aid for housing, rental assistance, and support for seniors, among other targeted grants. It is likely the City will receive additional COVID-19 resources in the coming months/years from Federal agencies and state pass-throughs.

On May 27, 2021, Mayor Jenny A. Durkan, together with Council President M. Lorena González and Councilmember Teresa Mosqueda, announced the first Seattle Rescue Plan (SRP1), a \$128.4 million package in federal recovery funds to aid Seattle's recovery from the pandemic and COVID-related economic impacts. SRP1 comprised two pieces of legislation that were passed by the Council on June 21, 2021:

- the first bill (Ord 126371) authorized spending \$91 million out of \$116 million of Coronavirus Local Fiscal Recovery (CLFR) funds in direct aid as well as \$12.2 million of HOME Investment Partnerships Program funds, both provided by the federal American Rescue Plan Act (ARPA), and
- the second bill (Ord 126372) authorized spending \$25 million of General Fund moneys, made possible by revenues accepted from the CLFR grant, for cash assistance to Seattle’s low-income households who have experienced the economic impacts caused by the COVID-19 crisis and those disproportionately impacted by the COVID-19 public health crisis.

The proposed investments are informed by and are a reflection of shared priorities of the Mayor and the Council, as represented in Council Resolution 31999, which was adopted in March of this year to guide the City's investment of ARPA funds. The Executive and Council engaged in community outreach to inform and guide the investment areas for the CLFR resources including round table listening sessions with business, non-profit, and community stakeholders and public hearings.

For an in depth look at the City’s plan for spending the first tranche of CLFR dollars, as well as the blueprint for evaluating the impact of the investments, see the first annual Recovery Plan report submitted to the U.S. Treasury and published on the City’s website here:

Seattle Rescue Plan

http://www.seattle.gov/Documents/Departments/FinanceDepartment/Seattle%20Rescue%20Plan/Seattle%20Recovery%20Plan%20Performance%20Report_Aug2021_vFinal.pdf

In summer 2021, the Mayor and Council also worked together to pass Seattle Rescue Plan 2 (SRP2), which comprised several more targeted federal grants authorized by ARPA, as well as another COVID relief grant authorized in last year's federal Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA). These grants totaled over \$52 million and funded rent relief, aid to seniors, mass transit operating support and capital investment, and support for McCaw Hall.

In April of 2021, the City also passed a nearly \$18 million bill (Ord 126320) that reprioritized funds from the Coronavirus Relief Fund (CRF) grant, and focused on health, food, and families, as well as administrative capacity needed to manage, track, and report on all the federal funding coming to Seattle.

Seattle Rescue Plan 3

The third Seattle Rescue Plan (SRP3) allocates and authorizes spending of the second, and final, \$116 million tranche of CLFR funds, arriving in 2022. This spending package is part of the 2022 Proposed Budget. Much of SRP3's funding allocations were pre-determined due to funding commitments approved by Council in SRP1 and the CRF Reappropriation bill earlier in 2021. With the remainder, SRP3 focuses funding around three larger themes:

Focus investment in affordable housing: concentrating funding allows the City to have a more meaningful impact on an issue area, and affordable housing is not only one of the most pressing issues facing Seattle in and of itself, but also has additional benefits such as enabling workers to live in the city instead of weathering long commutes to their worksites, creating jobs throughout the housing development pipeline, and improving throughput of the homelessness shelter system by giving people a place to go out of shelters.

Transition COVID-19 pandemic related food and shelter programs to post-pandemic operations that build upon lessons learned during the pandemic: during 2020 and 2021, the City has ramped up food support and homeless shelter capacity to de-intensify the system and reduce risk of COVID transmission, and this capacity will be transitioned to improved approaches to shelter and food operations relative to pre-pandemic programs.

Invest in economic inclusion: SRP3 includes investments in workforce development to create pathways to middle-wage jobs, childcare provider stabilization grants to ensure that parents have childcare options available to enable them to work, and a small business ownership fund leveraging outside match funding to give small business owners in underinvested communities the opportunity to own space and build equity while offering a public benefit.

The departmental allocations of this second tranche of CLFR funds are shown in the table below. Note that CLFR funds must be obligated by 2024 and spent by 2026, but the funding all arrives in two tranches, one in 2021 and one in 2022. As such, the 2022 Proposed Budget appropriates all the CLFR funds needed for obligating/spending in 2022-2024/2026, with later-year funds intended to be left unspent in 2022 and carried forward into future years.

Seattle Rescue Plan

See the individual Incremental Changes described in department sections in this budget book for more information about each item.

Table 1. Summary of CLFR Items in the 2022 Budget

Dept	Item Title	2022 Funding	Expected spend-through year
	Housing/Homelessness Total	\$72,811,077	
OH	Expanded Capital Investment in Affordable Rental Housing Production and Preservation	\$50,498,109	2026
HSD	One-year of ramp down funding for COVID Mitigation in Shelters	\$3,660,559	2022
HSD	Maintain Keiro Enhanced Shelter Units (125 units)	\$6,587,625	2024
HSD	Maintain Salvation Army-SODO Enhanced Shelter units (241 units)	\$12,064,784	2023
	Recovery Total	\$18,337,216	
FG	CLFR Revenue Replacement - Workforce Development	\$4,500,000	2022
OED	Small Business Ownership Fund	\$7,600,000	2024
SDOT	Clean City Initiative Funding Expansion	\$2,800,000	2022
SPR	Clean City Funding Continuation	\$2,800,000	2022
SPU	Clean City Initiative - CLFR Support for Cleanup Events	\$184,272	2022
SPU	Clean City Initiative - CLFR support for Graffiti, Needles, and Cleanup	\$452,944	2022
	Community Well-being Total	\$13,911,518	
DEEL	Child Care Stabilization Grants Expansion	\$2,400,000	2022
DEEL	Seattle Promise Additional Support	\$6,757,891	2023
CBO	Innovation and Performance - Affordable Seattle	\$820,995	2024
ITD	Affordable Seattle	\$1,432,632	2024
HSD	One-time funding to transition COVID-19 pandemic related food programs	\$2,500,000	2022
	City Services and Reopening Total	\$11,641,816	
CBO	Innovation and Performance - Impact Evaluation	\$930,000	2024
CBO	Federal funds project management staffing	\$2,072,024	2024
FAS	Internal Federal Funds Project Staffing	\$1,411,000	2024
OEM	Internal Federal Funds Project Staffing	\$268,592	2022
ITD	Critical IT Infrastructure Needs	\$4,000,000	2022
ITD	PC Replacement Program Mobility	\$500,000	2022
ITD	Software Costs for Vaccine Verification Platform	\$10,200	2022
SDHR	Employee Vaccine Verification System	\$450,000	2022
FG	CLFR Revenue Replacement - FEMA Contingency	\$2,000,000	2023
	Grand Total	\$116,701,628	

Seattle Rescue Plan

The \$4.5 million item in Finance General shown in the table above is for general fund (GF) revenue replacement to enable spending on the workforce development programming listed in the table below. This “swapping” of funds is necessary because workforce development programming is not generally eligible for direct use of CLFR funds, but is for GF use.

The workforce development programming seeks to create strong pathways to middle wage jobs and more wealth-generating businesses in industries that will thrive in the future. Investments in economic inclusion will help Seattle recover from the pandemic and position our local economy for continued equitable growth. See the individual Incremental Changes described in department sections in this budget book for more information about each item.

Table 2. Summary of Workforce Development Items Enabled by CLFR Funds

Dept	Item Name	2022 Funding	Expected spend-through year
ARTS	Individual Artist Relief and Workforce Development	\$1,500,000	2022
FAS	Priority Hire	\$500,000	2024
OED	Maritime Workforce Development	\$500,000	2023
OH	Workforce Development; Affordable Housing and Homeless Service Providers	\$750,000	2023
OIRA	Re-Employment Pathways for Immigrants and Refugees	\$250,000	2023
OSE	Clean Energy Pre-Apprenticeship Scholarships	\$1,000,000	2023
	Total Workforce Development	\$4,500,000	

Coronavirus Local Fiscal Recovery (CLFR) Fund

Funds from the first tranche of the CLFR grant have been deposited in the new CLFR Fund (Fund 14000), which was established in CB 126371 along with authorizing spending of those moneys. Managing the CLFR funds, revenues and spending, exclusively out of this new fund instead of spread out between different funds and mixed in with other non-CLFR spending in other funds makes it easier to track and report CLFR spending, especially important for a highly restricted funding source like this federal grant. The second tranche of CLFR funds will be managed through Fund 14000 in the same way.

*FAS excludes the LTGO Bond and Interest Redemption Fund (20130) and Business Improvement Area funds (BIAs) which are not budgeted.

**For departments that receive General Fund (GF) transfers from Finance General (FG), the GF amount is shown in the department receiving the transfer instead of FG. These departments include: the Office of Labor Standards, Firefighters' Pension, Police Pension, Seattle Public Library and Finance & Administrative Services.

General Fund Revenue Overview

City Revenue Sources and Fund Accounting System

The City of Seattle budget authorizes annual expenditures for services and programs for Seattle residents. State law authorizes the City to raise revenues to support these expenditures. There are four main sources of revenues. First, taxes, license fees, and fines support activities typically associated with City government, such as police and fire services, parks, and libraries. Second, certain City activities are partially or completely supported by fees for services, regulatory fees, or dedicated property tax levies. Examples of City activities funded in-whole or in-part with fees include certain facilities at the Seattle Center, recreational facilities, and building inspections. Third, City utility services (electricity, water, drainage and wastewater, and solid waste) are supported by charges to customers for services provided. Finally, grant revenues from private, state, or federal agencies support a variety of City services, including social services, street and bridge repair, and targeted police services.

The City accounts for all revenues and expenditures within a system of accounting entities called “funds.” The City maintains numerous funds. The use of multiple funds is necessary to ensure compliance with state budget and accounting rules and is desirable to promote accountability for specific projects or activities. For example, the City of Seattle has a legal obligation to ensure revenues from utility use charges are spent on costs specifically associated with providing utility services. As a result, each of the City-operated utilities has its own fund. For similar reasons, expenditures of revenues from the City’s various property tax levies are accounted for in separate funds. As a matter of policy, several City departments have separate funds. For example, the operating revenues and expenditures associated with those revenues for the City’s parks are accounted for in the Park and Recreation Fund. The City also maintains separate funds for debt service and capital projects, as well as pension trust funds, including the Employees’ Retirement Fund, the Fireman’s Pension Fund, and the Police Relief & Pension Fund. The City holds these funds in a trustee capacity, or as an agent, for current and former City employees.

The City’s primary fund is the General Fund. The majority of resources for services typically associated with the City, such as police and fire or libraries and parks are received into and spent from one of two funds of the City’s general government operation: the General Fund for operating resources and the Cumulative Reserve Fund for capital resources.

All City revenue sources are directly or indirectly affected by the performance of the local, regional, national, and even international economies. For example, revenue collections from sales, business and occupation, and utility taxes, fluctuate significantly as economic conditions affecting personal income, construction, wholesale and retail sales, and other factors in the Puget Sound region change. The following sections describe the current outlook for the local and national economies, and present greater detail on forecasts for revenues supporting the General Fund and the Cumulative Reserve Fund.

National Economic Conditions and Outlook

The National Bureau of Economic Research (NBER) officially announced on July 19 that the COVID-19 sparked recession which began in February 2020 ended in April 2020. The two-month downturn was the shortest but also the steepest in U.S. history, it followed a 128-month long expansion – the longest on record since 1854. U.S. real GDP fell by 3.5% and payroll employment by 8.6 million jobs in 2020, the unemployment rate peaked at 14.4% in April 2020. For comparison, real GDP declined by 2.5% and the

Revenue Overview

economy lost 5.9 million jobs in the last recession in 2009, the unemployment rate peaked at 10.6% in January 2010.

In response to the economic downturn, the Federal Reserve lowered its benchmark interest rate to 0% to 0.25% in March 2020 and returned to aggressive quantitative easing, increasing its balance sheet by more than \$3 trillion. In the same month, Congress passed the \$2.2 trillion economic stimulus bill, the Coronavirus Aid, Relief and Economic Security Act authorizing cash payments, extra unemployment benefits, relief for businesses, support for the health care sector, and state and local government support. An additional \$900 billion in stimulus was approved as part of the Consolidated Appropriations Act in December 2020. In March 2021, Congress passed the \$1.9 trillion American Rescue Plan Act. The total \$5 trillion in pandemic-era stimulus is more than triple the Great Recession aid.

Boosted by massive fiscal stimulus, real GDP recovered faster than during previous recessions and surpassed its pre-recession 2019 Q4 level in 2021 Q2. Labor market recovery will however take longer. The pandemic caused large changes in workers' preferences and employers' demands for skills, and exacerbated longer term demographic pressures on labor force participation. Total employment is expected to return to pre-pandemic levels in 2022 Q4, but disruptions in some sectors will last years.

Revenue Overview

Seattle Metropolitan Area Economic Conditions and Outlook

Labor Market The regional economy has in the last decade considerably outperformed the U. S. economy in income and employment growth. In February 2020, the seasonally adjusted unemployment rate for the Seattle Metropolitan Statistical Area (MSA) was just 3.0%, compared to 3.8% for Washington and 3.5% for the U.S. As a result of the stay-at-home orders imposed in March and April, the unemployment rate increased rapidly nationwide and peaked in April 2020, reaching 16.1% in the Seattle MSA, 16.3% in Washington and 14.7% in the U.S. Since then, it has declined somewhat, but in June 2021 it was still elevated: 5.1% in the Seattle MD, 5.2% in Washington and 5.9% in the U.S. The magnitude and the speed at which the job losses occurred is unprecedented, as shown in Figure 3. The recession lasted just two months and the employment situation has significantly improved since then, but job losses are still almost as large as during the deepest point of the Great Recession.

Figure 3. Recession Job Losses in U.S. and Seattle MD

Source: U.S. Bureau of Labor Statistics, Washington State Employment Security Department.

Although virtually all sectors in the Seattle region have seen employment increase in the decade after the Great Recession, the principal driver of growth has been high-technology business. Strong growth in the technology sector has spurred growth in professional and business services, as well as leisure and hospitality services and health care. Employment growth at these businesses boosted the demand for office space and housing in the city, spurring a construction boom.

Seattle recovered from both the 1990 and the 2007 recessions much earlier than the U.S. The 2001 recession after the collapse of the dotcom bubble and 9/11 terrorist attacks hit the region harder and the recovery took much longer. The path of total employment recovery from the 2020 recession has so far been slower on the regional than the national level as well. A closer look at the industry sectors in Figure 4 shows where the effects differ considerably. Regional employment in manufacturing and leisure and hospitality services declined significantly more and both sectors are also recovering more slowly than on the national level. These two sectors represented just 18.9% of total regional employment in February 2020, yet account for 80.9% of jobs lost and not recovered in the Seattle MD as of June 2021. The information sector and trade have grown, as work-from-home and e-commerce increased demand for tech sector services.

Revenue Overview

Figure 4. Change in Employment by Industry, Seattle MD vs U.S., February 2020 to June 2021

Construction activity is highly cyclical, with periods of strong growth often followed by steep downturns. Seattle experienced a prolonged construction boom in the last ten years. The value of building permits issued by Seattle's Department of Construction & Inspections (DCI) increased from on average \$1.82 billion every year between 2000 and 2009, to on average \$3.33 billion every year between 2011 and 2019. As shown in Figure 5, investors appear to be taking a wait and see approach during the pandemic, resulting in a decline in the value of permits issued. The biggest drop occurred for commercial building permits, which accounted for 56.4% of total in 2019 and fell by 51.6%, whereas residential permits accounted for 31.5% of total in 2019 but fell by just 4.9%. The total value of building permits issued fell by 37.6% in 2020 year-over-year and 31.1% compared to the average from 2015 to 2019. For comparison, during and immediately after the last recession in 2008, 2009 and 2010 the total value of building permits issued was down 20.1%, 24.7% and 15.6% year-over-year respectively.

Figure 5. Value of Building Permits Issued by City of Seattle

Revenue Overview

Inflation The Great Recession pushed inflation into negative territory in 2009, the first time in 54 years that consumer prices had declined on an annual basis. During the subsequent recovery, inflation has remained subdued, with the U.S. Consumer Price Index for All Urban Consumers (CPI-U) averaging 1.8% per year over the period 2010-2019. Lower consumer demand due to the COVID-19 pandemic put significant downward pressure on prices, the U.S. CPI-U increased by just 1.0% during the 12-month period ending July 2020. Inflation is expected to recover in 2021 and average 2.1% in the next five years.

Local inflation tends to track national inflation because commodity prices and national economic conditions are key drivers of local prices. Seattle inflation has, however, been running higher in recent years due to the region's high housing price inflation. From 2011 to 2019, Seattle CPI-U has grown on average 2.2% each year, compared to 1.8% for the U.S. CPI-U. Average annual housing inflation for this period was 3.9% for Seattle and 2.3% for the U.S. This trend will very likely continue, as the pandemic has increased demand in the housing market, resulting in home prices rising quickly. Supply chain disruptions caused by the pandemic in combination with the re-opening economy and demand stimulated by fiscal stimulus caused prices to spike sharply in the first half of 2021. Labor shortages have led to fast growth of wages which were 8.5% higher in August 2021 than in February 2020. These price pressures are expected to persist until the end of 2022. After a drop to 1.6% in 2020, Seattle area CPI-U inflation is expected to continue to track higher than national inflation, reach 4.1% in 2021 and average 2.8% in the next few years.

Regional Economic Outlook The regional economy and its labor force are well diversified, and with a large share of technology and e-commerce sector employment, the Seattle area has the potential for healthy employment growth once the current problems subside.

Based on the August CBO regional economic forecast, Seattle MD payroll employment is expected to grow 1.9% in 2021. Labor market recovery is slow and gradual. Based on the forecast, the 2019 Q4 peak will be reached in 2022 Q3. This would still be a quicker recovery than after the 2007 recession, when employment took five and half years to recover.

Figure 6. Payroll Employment Growth, Seattle MD

Revenue Overview

Personal income per capita in 2020 is expected to be 5.6% higher than in 2019 due to the fiscal stimulus. Personal outlays per capita are predicted to be 3.8% lower in 2020 as the personal savings rate grew dramatically, but the additional savings and pent-up demand will result in an 8.8% growth in 2021.

Figure 7. Per Capita Personal Income, Seattle MD

Source: U.S. Bureau of Economic Analysis, Seattle City Budget Office

There are several sources of uncertainty and downside risk for the regional economy and Seattle in particular, both in the short- and long-run. Initial optimism after the rollout of vaccines in the spring was cooled down by the emergence of the Delta variant at the beginning of summer. Consumer sentiment dropped significantly. Plateaus in TSA screened travelers, hotel occupancy rates, and OpenTable reservations signal a more cautious and slower return to pre-pandemic spending patterns.

Boeing's 737 MAX was finally approved to resume service by the FAA in November 2020 after being grounded in March 2019, but the collapse in demand for travel and canceled orders have led Boeing to consolidate its two 787 assembly lines into a single location in South Carolina. Closing the assembly line in Everett where Boeing employs 30,000 workers will have prolonged negative consequences not just for the local aerospace and manufacturing industry, but the local economy as a whole.

Prosperity in the leisure and hospitality sector, local hotels and restaurants, is closely tied to tourism, conventions and cruises. The leisure and hospitality sector was a notable employer in the region before the pandemic and faces a very slow recovery. Long term effects will depend on consumers' perception of how safe it is to engage in these activities. Based on the May 2021 forecast by CBRE Hotels Research in partnership with Kalibri Labs, the Seattle hotel industry will not fully recover until the end of 2024.

The outlook for the construction sector depends largely on the extent to which employers shift to work-from-home and the resulting drop in demand for new office space. Brick-and-mortar retail was hit hard by the pandemic and lost significant market share to online commerce. A large drop in commercial construction permits issued by Seattle DCI foreshadows a decline in construction activity.

Finally, the payroll expense tax that the Seattle City Council passed in July 2020 will add to business costs, possibly slowing down employment recovery, and making Seattle less attractive relative to other cities in the region. The evidence so far is anecdotal and indirect, evaluating the full impact will take some time.

Revenue Overview

City Revenue

The following sections describe forecasts for revenue supporting the City's primary operating fund, the General Fund, its primary capital funds – the Cumulative Reserve Funds, and two select other funds – the Sweetened Beverage Tax Fund and the Short-Term Rental Tax Fund.

General Fund Revenue Forecast

Taxes primarily support expenses paid from the General Fund. The COVID-19 pandemic caused a 5.3% drop in total revenue and a 9.1% drop in tax revenue in 2020. A 29.7% increase in tax revenue expected in 2021 is to a large extent due to a new Payroll Expense Tax (PET). Without this tax, tax revenue would only grow 9.5 % and total revenue 8.5% in 2021. Beginning in 2022, total projected PET revenues of \$234.6 million are moved from the General Fund to the JumpStart Payroll Expense Tax Fund, but a \$147.7 million transfer from the JumpStart Payroll Expense Tax Fund to the General Fund is included in the 2022 Proposed Budget. The total General Fund revenue forecast for the 2022 Proposed Budget is \$1,576.9 million, its composition by source is in Figure 8 and Figure 9.

Revenue Overview

Property Tax

Property tax is levied primarily on real property owned by individuals and businesses. Real property consists of land and permanent structures, such as houses, offices, and other buildings. In addition, property tax is levied on various types of personal property, primarily business machinery and equipment. Under Washington State law, property taxes are levied by governmental jurisdictions in accordance with annual levy-amount growth and total tax rate limitations.

Assessed Value (AV) – Although increasing in total value, Seattle AV growth for the 2021 tax collection year slowed significantly from 14.53% in 2019 to 5.09% in 2020 to 1.63% in 2021. Growth is expected to increase to 5.33% and \$274.9 billion in total value for the 2022 tax collection year, driven largely by increases in residential property values.

Figure 10. Seattle Total Assessed Value

New Construction -- In addition to the allowed annual maximum 1% levy growth, state law permits the City to increase its regular levy in the current year by an amount equivalent to the previous year's tax rate times the value of property constructed or remodeled within the last year, as determined by the King County Assessor. The City is receiving \$10.6 million in additional levy revenues from new construction in 2021 based on \$5.00 billion in new construction added to the tax roll. The 2022 Proposed Budget assumes a decrease in new construction value to \$3.79 billion in 2021. These new construction amounts are projected to generate \$8.1 million in 2022 revenue.

Revenue Overview

Figure 11. Seattle New Construction Property Tax Revenue

The 2022 Proposed Budget assumes 1% growth plus new construction. The forecast for the 2022 Proposed Budget’s General Fund (General Purpose) portion of the City’s property tax is \$302.3 million. Additionally, the City is levying approximately \$271.4 million for 5 voter-approved lid lifts in 2022. There are no new lid lifts added in 2022 and none expire in 2021. All levy lid lift proceeds are accounted for in other funds than the City’s General Fund. Finally, the City is levying \$16.3 million in 2022 to pay debt service on voter-approved bond measures.

Seattle Parks District. In August 2014, voters approved creation of a Metropolitan Park District (MPD). Pursuant to RCW 35.61, the MPD is a legally separate taxing jurisdiction from the City of Seattle, whose property tax levy authority of \$0.75 per \$1,000 assessed value is outside of the City’s statutory rate limit of \$3.60 per \$1,000 assessed value and whose revenues will not be accounted for in the City’s General Fund. The MPD, per its second 6-year spending plan (2021-2026), is levying approximately \$56.0 million in 2022.

Medic 1/Emergency Medical Services. Voters in November 2019 approved a 6-year (2020-2025 collection years) renewal of the Medic 1/EMS levy at \$0.265 per \$1,000 of AV. Seattle’s share of this revenue is based on Seattle’s assessed value multiplied by the County rate. These revenues are recorded in the General Fund and expended by the Seattle Fire Department. This generates \$69.9 million in revenue in 2022.

Figure 12 shows the different jurisdictions whose rates make up the total property tax rate imposed on Seattle property owners, as well as the components of the City’s 2021 property tax.

Revenue Overview

Figure 12.

(tax rate = \$2.25 per \$1,000 assessed value)

Revenue Overview

Retail Sales and Use Tax

The retail sales and use tax (sales tax) is imposed on the sale of most goods and certain services in Seattle. The tax is collected from consumers by businesses which, in turn, remit the tax revenue to the state. The state sends the City its share of the collections each month.

The sales tax rate in Seattle increased from 10.1% to 10.25% on April 1st, 2021 as a result of the new county housing services tax and the increased transportation benefit district rate approved by voters in November 2020. The basic sales tax rate of 10.25% is a composite of separate rates for several jurisdictions as shown in Figure 13. The City of Seattle's portion of the overall rate is 0.85%. In addition, Seattle receives a share of the revenue collected by the 0.1% King County Criminal Justice Levy. Revenue collected by the Seattle Transportation Benefit District is accounted for in a separate fund and is used to make transportation improvements in Seattle.

Figure 13. Sales and Use Tax Rates in Seattle

Of the City's four major taxes, the sales tax is the most volatile because it is the most sensitive to changing economic conditions. Over half of sales tax revenue comes from retail trade and construction activities, which are very sensitive to changing economic conditions.

Seattle's sales tax base grew rapidly in the late 1990s, driven by a strong national economy, expansion at Boeing in 1996-1997, and the stock market and technology booms. The recession that followed the bursting of the stock market bubble and the September 11, 2001 terrorist attacks ushered in three successive years of declining revenue. This was followed by four years of healthy growth, 2004–2007, led by a surge in construction activity. That expansion ended in 2008 with the onset of the Great Recession, which caused the largest contraction in the sales tax base in more than 40 years. In a period of five quarters beginning with the third quarter 2008, the sales tax base shrunk by 18.2%. The decline was led by a steep drop in construction along with falling sales in almost every industry.

After hitting bottom in 2010, Seattle's sales tax base has rebounded strongly, with construction leading the way. Other fast-growing industries include motor vehicle and parts retailing, e-commerce retailing,

Revenue Overview

professional, scientific and technical services, accommodation, and food services. Over the 2011-2018 period sales tax revenue increased at an average rate of 8.4% per year.

Sales tax revenue fell 13.0% in 2020. The biggest decline took place in tax revenue from leisure and hospitality services which fell by 60.5%. Construction sector revenue declined by 10.8%, but trade services just by 0.2% thanks to online sales. Revenue from the rest of the industries was lower by 7.3%. Sales tax revenue is expected to recover in 2021, as fiscal stimulus fuels consumer spending. Revenue for the first six months of 2021 was already 0.5% higher than for the same period in 2019.

Figure 14. Retail Sales Tax Revenue

Business and Occupation Tax

Seattle's principal business tax is the business and occupation (B&O) tax, levied on the gross receipts of most business activity that takes place in the city. Small businesses with taxable gross receipts below \$100,000 are exempt from the tax. Between January 1, 2008 and January 1, 2016, the City's B&O tax also included a square footage tax that was complementary to the gross receipts tax. The square footage tax was implemented to offset an expected revenue loss from state mandated changes in the allocation and apportionment of B&O income.

The City levies the gross receipts tax at different rates on different types of business activity, as indicated in Figure 15. Most types of business activity, including manufacturing, retailing, wholesaling, and printing and publishing, are subject to a tax of 0.222% on taxable gross receipts. Services and transporting freight for hire are taxed at a rate of 0.427%. In 2017 and 2018, the City increased B&O tax rates to the maximum allowed under state law. In addition, the special 0.15% rate for international investment management services was eliminated on January 1, 2017.

Figure 15. Seattle Business and Occupation Tax Rates, 2016 – 2020

	2016	2017	2018-present
Wholesaling, Retail Sales and Services	0.215%	0.219%	0.222%
Manufacturing, extracting	0.215%	0.219%	0.222%
Printing, publishing	0.215%	0.219%	0.222%
Service, other	0.415%	0.423%	0.427%
International investment management	0.150%	NA	NA

Revenue Overview

Other things being equal, the B&O tax base is more stable than the retail sales tax base. The B&O base is broader than the sales tax base, which does not cover most services. In addition, the B&O tax is less reliant than the sales tax on the relatively volatile construction and retail trade sectors, and it is more dependent upon the relatively stable service sector.

B&O receipts have fluctuated with the economy's ups-and-downs, rising rapidly during the late-1990s stock market and dot-com boom and the housing bubble of the mid-2000s, going flat from 2001–2004 during the previous decade's first recession, and falling sharply during the Great Recession. During the Great Recession, the B&O tax base lost 16.8% of its value between first quarter 2008 and second quarter 2010.

Figure 16. B&O Tax Revenue

Source: Seattle City Budget Office

B&O tax revenue has grown at a healthy pace during the recovery from the Great Recession. Over the 2011-2018 period, revenue increased on average at a 7.2% annual rate. Growth was weak in 2013 because of a drop in revenue from audit activity and an increase in refund payments, not because of a weakening of tax base growth. Industries growing rapidly during the recovery have been construction, information, real estate, management of companies and enterprises, food services, and accommodation.

B&O revenue payments fell 17.6% in 2020. The leisure and hospitality sector was the biggest contributor to total B&O revenue decline, accounting for 26.4% of the drop in payments for the 2020 obligation year. Professional and business services accounted for an additional 22.9% of the drop, trade 16.9% and construction 12.3%. B&O tax revenue from information services increased by 6.3% and offset some of the loss. In addition to the negative effects of the pandemic, revenue dropped as a result of HB 1059, which changes the due date for annual payments from January 31 to April 15 beginning with 2020 obligations. January and February payments were accrued to 2020, but April and May payments accrued to 2021. Just like sales and use tax, B&O revenue is expected to recover in 2021. Payments for the first two quarters of 2021 are just 0.94% lower than payments from the same period in 2019, with strong information and financial services sectors countered by slight declines in leisure and hospitality and to a smaller extent professional and business services.

Revenue Overview

Utility Business Tax - Private Utilities

The City levies a tax on the gross income derived from sales of utility services by privately owned utilities within Seattle. These services include telephone, steam, cable communications, natural gas, and refuse collection for businesses.

Natural gas prices remain low. The City levies a 6% utility business tax on gross sales of natural gas and on sales of steam which has natural gas as an energy source. The bulk of revenue from the natural gas tax is received from Puget Sound Energy (PSE). PSE's natural gas rates are approved by the Washington Utilities and Transportation Commission (WUTC). Another tax is levied on consumers of gas delivered by private brokers. It is also assessed at 6% on gross sales. Spot prices, those paid for delivery in the following month, continue to be low. Temperatures play a key role in gas related revenues and are inversely related to natural gas usage and subsequent tax receipts.

Telecommunications tax revenues continue to decline. The utility business tax is levied on the gross income of telecommunication firms at a rate of 6%. Revenue from traditional land-line services has been on a steady decline. This was counteracted by the increasing prevalence of mobile/wireless phones. While new smartphone users have added to the wireless tax revenue base, the increased use of data and internet services which are not taxable have caused declines in the revenue streams.

As more and more wireless phone users are using the devices for data transmission instead of voice or text applications, and telecom companies change their rate plans to respond to this consumer behavior, the City may continue to see tax revenue declines. Some recent court decisions have altered what types of wireless phone calls the City can tax; the City may no longer assess a tax on interstate and international phone calls. There are continued pressures on this revenue stream.

Cutting the cord is affecting Cable Tax revenues. The City has franchise agreements with cable television companies operating in Seattle. Under the current agreements, the City levies a 10% utility tax on the gross subscriber revenues of cable TV operators, which accounts for about 90% of the operators' total revenue. The City also collects B&O taxes on miscellaneous revenues not subject to the utility tax. The imposition of a 4.4% franchise fee makes funds available for cable-related public access purposes. This franchise fee is deposited into the City's Cable Television Franchise Fund. Cable revenues have been declining year over year for some time. Increased competition from satellite and streaming services appear to be taking customers away from traditional cable providers. That is expected to continue and will be a drag on revenues.

Utility Business Tax - Public Utilities

The City levies a tax on most revenue from retail sales collected by City-owned utilities (Seattle City Light and Seattle Public Utilities). Tax rates range from a State-capped 6% on City Light up to a current 15.54% on the City Water utility. The COVID-induced recession is having a small impact on commercial revenues for the utilities, while residential usage is resilient. The 2022 Proposed Budget assumes moderate growth in usage and utility rates yielding an approximately 4.0% growth in 2022 for all public utility revenues compared to 2021 revised expectations, to a combined \$178.1 million.

Other Notable Taxes

Admission Tax. The City imposes a 5% tax on admission charges to most Seattle entertainment events, the maximum allowed by state statute. This revenue source is highly sensitive to swings in attendance

Revenue Overview

at events and is dependent on economic conditions, as people's ability to spend money on entertainment is influenced by the general prosperity in the region. The COVID-19 pandemic has almost completely wiped out admissions tax revenue in 2020. Full recovery is expected by 2022, aided by the revenue generated by the new Climate Pledge Arena. Beginning in 2022, all admissions tax revenues will be receipted into the Arts & Culture Fund. The Office of Arts and Culture section of this document provides further detail on the office's use of Arts Account revenue from the admission tax and the implementation of this change.

New Heating Oil Tax delayed. Effective September 1, 2020, Council imposed a \$0.236 per gallon tax on heating oil service providers for every gallon of heating oil sold and delivered within Seattle. In consideration of the pandemic's effects on households and businesses, Council delayed implementation until September 1, 2021 and then further delayed until April 1, 2022. This tax is estimated to generate approximately \$780,000 in 2022. The revenues primarily support low-income household oil furnace conversion programs administered by the Office of Sustainability and Environment.

New Transportation Network Company Tax. In November 2019, Council approved a tax on transportation network companies (TNC), such as Uber and Lyft, effective July 1, 2020. As approved, the tax of \$0.57 per trip is owed for all rides originating in Seattle by TNC's with more than 1 million rides per calendar quarter. Council has reduced the ride threshold to 200,000 rides per quarter effective in October 2020. The first proceeds are not expected until the first quarter of 2021. This tax is estimated to raise \$5.5 million in 2021 and \$9.1 million in 2022.

Licenses and Permits

The City requires individuals and companies conducting business in Seattle to obtain a City business license. In addition, some business activities, such as taxi cabs and security systems, require additional licenses referred to as professional and occupational licenses. The City also assesses fees for public-safety purposes and charges a variety of fees for the use of public facilities and rights-of-way.

In 2005 the City instituted a two-tier business license fee structure. The cost of a license, which had been \$80 per year for all businesses, was raised to \$90 for businesses with worldwide revenues of more than \$20,000 per year and lowered to \$45 for businesses with worldwide revenues less than \$20,000 per year. The City increased the fees for 2015 license renewals to \$110 and \$55, respectively. To provide funding for additional police officers, a new business license fee structure took effect for 2017 licenses. Fees increased for businesses that have a taxable income (reported for B&O tax purposes) greater than \$500,000. Fees for all other businesses remain at 2016 levels until 2020. Fee increases were being phased in over a three-year period, 2017–2019, and will increase with inflation annually thereafter.

Figure 17. Business License Fee Schedule, 2016 – 2021

Taxable income	2016*	2017	2018	2019	2020	2021	2022
Less than \$20,000	\$55	\$55	\$55	\$55	\$56	\$56	\$59
\$20,000 - \$500,000	\$110	\$110	\$110	\$110	\$113	\$114	\$120
\$500,000 - \$2 mil.	\$110	\$480	\$480	\$500	\$511	\$515	\$543
\$2 mil. - \$5 mil.	\$110	\$1,000	\$1,000	\$1,200	\$1,227	\$1,238	\$1,306
More than \$5 mil.	\$110	\$1,000	\$2,000	\$2,400	\$2,455	\$2,476	\$2,613

*2016 fee is based on worldwide gross income, not taxable income.

Revenue Overview

Parking Meters/Traffic Permits

As part of the overall response to the Corona virus, the City suspended on-street parking rates as of April 4, 2020. On July 13 the system was restarted with rates set at \$0.50 per hour and are anticipated to increase gradually at intervals as occupancy levels increase with the recovery into 2021 and 2022. Overall, 2020 revenue losses, relative to 2019 Actuals were about \$28 million, falling from \$38.3 million to \$10.4 million. 2021 revenues are anticipated to increase slightly to \$11.3 million, then more substantially in 2022 to \$19.3 million as rates continue to rise in response to greater demand for on street parking.

Street Use and Traffic Permits. Traffic-related permit fees, such as meter hood service, commercial vehicle load zone, truck overload, gross weight and other permits are tied to construction and trade services primarily. These revenues are projected to increase modestly as service work returns more fully in 2021 and 2022 but construction activity slows. The 2022 Proposed Budget assumes revenues of approximately \$4.8 million in 2021 and \$7.4 million in 2022.

Court Fines

Typically, between 50% and 60% of court fine revenues collected by the Seattle Municipal Court are from parking citations written by Seattle Police Department parking enforcement (PEOs) and traffic officers. Fines from photo enforcement in selected intersections and school zones now comprise approximately 35-45% of revenues and 5-10% comes from traffic and other non-parking related citations.

Total 2022 General Fund court fines and fees revenues are projected to increase to \$26.7 million from \$24.7 million in 2021 and \$17.0 million in 2020. Of this total, red-light camera enforcement revenues (i.e., non-school zone cameras) are anticipated to be \$3.9 million in 2022. These amounts are fully recognized in the General Fund. Beginning in 2021 the City will again direct 20% of red-light camera revenues to the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund after Council suspended this transfer for 2018-20. An additional estimated \$940,000 in red light camera revenues will be booked directly into the SSTPI Fund in 2021 and \$984,000 in 2022. Non-camera fine revenues are projected at approximately \$22.4 million in 2022, which is an increase from expected 2021 revenues of \$20.7 million.

The 2022 Proposed Budget includes revenues from 3 new school zone speeding enforcement cameras active for the fall 2021 term. This is a downward revision from previous plans to install 10 new cameras at 6 schools effective January 2021. The forecast for 2022 revenues is \$10.6 million. School zone camera revenues are accounted for in the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund.

Interest Income

Through investment of the City's cash pool in accordance with state law and the City's own financial policies, the General Fund receives interest and investment earnings on cash balances attributable to several of the City's funds that are affiliated with general government activities. Many other City funds are independent, retaining their own interest and investment earnings. Interest and investment income to the General Fund varies widely, subject to significant fluctuations in cash balances and changes in earnings rates dictated by economic and financial market conditions. Rates are projected to increase gradually coming out of the current period as the economy stabilizes and the Federal Reserve tapers off its actions in response to the recession. This revenue will remain reduced at about \$2.2 million in 2021 and 2022.

Revenue Overview

Revenue from Other Public Entities

Washington State shares revenues with Seattle. The State of Washington distributes a portion of tax and fee revenue directly to cities. Specifically, portions of revenues from the State General Fund, liquor receipts (both profits and excise taxes), and motor vehicle fuel excise taxes, are allocated directly to cities. Revenues from motor vehicle fuel excise taxes are dedicated to street maintenance expenditures and are deposited into the City's Transportation Fund. Revenues from the other taxes are deposited into the City's General Fund.

Criminal Justice revenues. The City receives funding from the State for criminal justice programs. The State provides these distributions out of its General Fund. These revenues are allocated on the basis of population and crime rates relative to statewide averages. These revenues have been affected by State budget changes in the recent past and, while not expected, could be affected in future budgets out of Olympia.

Marijuana related revenues are being shared with local jurisdictions. As part of the State's 2016 budget, marijuana related tax revenues are being shared with local jurisdictions for public safety purposes. The state has adopted a complicated allocation of these revenues, but in general only those cities in counties that have legalized marijuana sales will receive excise tax distributions based on both their jurisdictions proportion of marijuana related sales as well as a per capita basis. Because this is a relatively new revenue stream with a growing tax base, the forecast is imprecise.

State budget restores liquor related revenues to cities. Cities in the state of Washington typically receive two liquor related revenues from the State. One is related to the liquor excise tax on sales of spirits and the other is a share in the State Liquor and Cannabis Board's profits accrued from the operation from their monopoly on spirits sales. The State no longer holds the monopoly in liquor sales in the state due to the passing of Initiative 1183 in November of 2011. The initiative guaranteed the cities would continue to receive distributions in an amount equal to or greater than what they received from liquor board profits prior to the implementation of the initiative as well as an additional \$10 million to be shared annually. There was no guarantee concerning liquor excise taxes. In recent budgets the State has eliminated, on a temporary basis, the sharing of liquor excise taxes. The most recent State budget has restored fully the excise tax funding to cities.

Service Charges and Reimbursements

Internal service charges reflect current administrative structure. In 1993, the City Council adopted a resolution directing the City to allocate a portion of central service expenses of the General Fund to City utilities and certain other departments not supported by the General Fund. The intent is to allocate a fair share of the costs of centralized general government services to the budgets of departments supported by revenues that are largely self-determined. These allocations are executed in the form of payments to the General Fund from these independently supported departments. More details about these cost allocations and methods are detailed in the Cost Allocation section of this budget.

Revenue Overview

Interfund Transfers

Interfund transfers. Occasionally, transfers from departments to the General Fund take place to pay for specific programs that would ordinarily be executed by a general government department or to capture existing unreserved fund balances. A detailed list of these transfers is included in the General Fund revenue table found in the Funds and Other section. This includes the transfer of school zone camera revenues described under Court Fines above.

Cumulative Reserve Fund – Real Estate Excise Tax

Cumulative Reserve Fund resources are used primarily for the maintenance and development of City general government capital facilities. These purposes are supported mainly by revenues from the Real Estate Excise Tax (REET), but also, to a lesser degree, by the proceeds from certain property sales and rents, street vacation revenues, General Fund transfers, and interest earnings on fund balances.

The REET is levied by the City at a rate of 0.5% on sales of real estate measured by the full selling price. Because the tax is levied on transactions, the amount of revenue that the City receives from REET is determined by both the volume and value of transactions.

Commercial segment fell by 56.7% in 2020 and is expected to stay low in 2021 and 2022. Residential segment stayed about same as in 2019, as the 18.9% increase in single family sales almost completely offset the 44.8% drop in multifamily sales. Due to generally high residential sales and few large December commercial sales, 2020 revenue ended \$14.2 mil. above November 2020 forecast. The updated forecast adds \$17.5 mil. in additional 2021 REET revenue to \$82.5 million. REET is expected to decline slightly to \$80.5 million in 2022 as real estate market cools down - average sale price of homes is rising fast, but sales of both existing single-family homes and condos are predicted to decline.

Figure 18. REET Revenues

Revenue Overview

Sweetened Beverage Tax Fund

On June 5, 2017, the City Council approved the Sweetened Beverage Tax (SBT) effective January 1, 2018. Distributors of sweetened beverages are liable for the tax of \$0.0175 per fluid ounce of sweetened beverage distributed into the city of Seattle for final sale to the consumer. Sweetened beverages include sodas, energy drinks, sweetened juices and teas, sport drinks and ready-to-drink coffee drinks. The 2022 Proposed Budget includes revenues of \$22.3 million in 2022 and \$20.7 million in 2021. Restaurant consumption is anticipated to increase somewhat in 2021 and further in 2022. The City received \$15.6 million in 2020 and \$24.1 million in 2019. Revenues will be used to fund educational and food access programs primarily through the Department of Education and Early Learning (DEEL), the Human Services Department (HSD) and the Office of Sustainability and Environment (OSE). Beginning in 2020 these revenues and associated expenditures are moved from the General Fund to the Sweetened Beverage Tax Fund in the City's accounting system.

Short-Term Rental Tax Fund

Effective January 1, 2019, the State legislature authorized the public facilities district that is the Washington State Trade and Convention Center to impose a 7% tax on the sale of or charge made for the furnishing of lodging (including but not limited to any short-term rental). The proceeds generated from short-term rental charges in Seattle are distributed to the City of Seattle to support community-initiated equitable development and affordable housing programs. These revenues have been severely affected by the significant reduction in travel due to COVID-19 concerns. Under general expectations of a gradual reopening of travel and tourism, the 2022 Proposed Budget assumes 2021 and 2022 revenues of \$7.2 million and \$9.8 million respectively. Beginning in 2020 these revenues and associated expenditures are moved from the General Fund to the Short-Term Rental Tax Fund in the City's accounting system.

Payroll Expense Tax

On July 6, 2020 the City Council approved the Payroll Expense Tax (PET) effective January 1, 2021. The tax is on businesses with \$7 million or higher Seattle payroll expense in the prior year. The tax rates are tiered according to the size of the businesses payroll (less than \$100 million/\$100 million to less than \$1 billion/\$1 billion or more) and the employee's compensation (less than \$150,000/\$150,000 to less than \$400,000/\$400,000 or more). Tax rates range from 0% for employees with annual compensation less than \$150,000, regardless of the size of the business' overall payroll, to 2.4% for employees with annual compensation of \$400,000 or more, working in businesses with total payroll of \$1 billion or greater. For 2021, businesses will consolidate quarterly filing information and report and pay on a single tax return due January 31, 2022. For 2022 and going forward the PET will be reported and paid on a quarterly basis. The 2022 Proposed Budget anticipates 2021 revenues of \$217.7 million and \$234.6 million in 2022. This is a new tax and these estimates are uncertain due to the lack of public data on where individuals work and what their compensation is. Estimates should improve over time as businesses adjust to paying the tax and the data improve. Beginning in 2022 the PET revenues and associated expenditures are moved from the General Fund to the JumpStart Payroll Expense Tax Fund in the City's accounting system.

Multi-Department Revenue Summary

In recent years, the City of Seattle has implemented new dedicated revenues for specific purposes in multiple departments. The revenues and expenditures for these multi-department revenues are summarized in the financial plan section of the budget, and additional detail on the expenditure changes in the 2022 Proposed Budget is included below.

This section includes a summary of the following revenues:

Short-Term Rental Tax

Sweetened Beverage Tax

Transportation Network Company Tax

Community Development Block Grant (federal grant used in multiple departments)

Short-Term Rental Tax

The Short-Term Rental Tax (STRT) supports the Equitable Development Initiative (EDI), supportive housing and debt service. The Equitable Development Initiative (EDI) was established in 2016 to provide investments in neighborhoods that support those most impacted by displacement and low access to opportunity. The program's objectives include advancement of economic opportunity and wealth-building strategies, preventing displacement, and building on local cultural assets. Ordinance 125872 states that the Office of Planning and Community Development (OPCD) should receive an annual STRT allocation of \$5 million annually to provide EDI grants to outside organizations. Short-term rental tax revenues were in decline in 2021 due to the COVID-19 pandemic, but they appear to be recovering. The proposed budget allocates \$5 million of STRT in OPCD's budget for EDI grants. In addition, the proposed budget allocates \$3.4 million of STRT for permanent supportive housing investments in the Human Services Department and \$2 million for debt service payments on low-income housing.

Sweetened Beverage Tax

The 2022 proposed budget provides \$21.9 for SBT or Sweetened Beverage Tax-funded programming. The budget supports ongoing funding for Fresh Bucks and Healthy Food in Schools at the Office of Sustainability and Environment (OSE), the Childcare Assistance Program (CCAP) at the Department of Education and Early Learning (DEEL), food system support at the Human Services Department (HSD), and recreational programming at Seattle Parks and Recreation (SPR). Changes for 2022 include providing \$1.5 million in ongoing funding for DEEL's Prenatal-to-3 grant programming, which was first funded as a one-time pilot program for 2021, and which has been a priority for the Sweetened Beverage Tax Community Advisory Board. The 2022 proposed budget also restores \$1.5 million to the Department of Neighborhood's Equitable Food Fund (formerly the Healthy Food Fund), bringing its SBT funding to nearly \$3 million.

Multi-Department Revenue Summary

Transportation Network Company (TNC) Tax

On September 19, 2019, Mayor Jenny A. Durkan announced a proposed tax on rides with Transportation Network Companies (TNCs) originating 1,000,000 trips or more per quarter from the City of Seattle. Legislation submitted with the 2020 Proposed Budget and passed as part of the 2020 Adopted budget enacted the tax, made appropriations based on forecast revenues, and enacted driver protections. However, due the pandemic-related drop in TNC trip volume, projected revenues from the tax were subsequently reduced to \$0 for 2020 and 75% of the original forecast for 2021; 2020 spending and 2021 budget proposals were curtailed accordingly. As anticipated by the 2021 Proposed Budget, the City Council passed ordinances to reduce the trip threshold for tax eligibility from 1,000,000 down to 200,000 trips per quarter in November 2021. Accounting for this reduced trip threshold and anticipating a partial recovery in trip volumes, the 2022 Proposed Budget assumes \$9.1 million of TNC tax revenue, a 64% increase over the 2021 Adopted revenue forecast but still less than half of the original, pre-pandemic forecast for 2022.

In the 2022 Proposed Budget, the Department of Finance and Administrative Services (FAS) is responsible for maintaining the accounting and tax infrastructure necessary to enforce and collect the tax. The Office of Labor Standards (OLS) is responsible for enforcing the TNC Minimum Compensation and Deactivation ordinances and for operating the Dispute Resolution Center (DRC). Finally, the Seattle Department of Transportation and the Office of Housing will receive appropriations of \$3.25 million and \$1.3 million respectively.

Community Development Block Grant (CDBG)

Funding Source Overview

In 2017, as part of the implementation of a new enterprise-wide financial management system, the Community Development Block Grant (CDBG) Fund (17810) was dissolved, and budget was distributed to various other funds in alignment with the direct fund model. The Human Services Department (HSD) is the City department which acts as custodian for all grants from the U.S. Department of Housing and Urban Development, including CDBG funding. However, CDBG is a relatively flexible funding source and is used by many City departments.

Budget Overview

In the 2022 Proposed Budget, CDBG funds are distributed to departments and projects as detailed in Table 1. All projects are subject to federal CDBG eligibility requirements, and for some projects, final eligibility has not yet been determined. As with the 2021 project plan, the 2022 project plan notes that funds supporting services previously provided by HSD will continue to be part of the City's contribution to the King County Regional Homelessness Authority (KCRHA). Table 2 below shows expected income from CDBG-funded loan programs managed by the Office of Housing.

Multi-Department Revenue Summary

Table 1: Community Development Block Grant (CDBG) 2022 Project Plan

Department	Title	2022 CDBG
Human Services Department (HSD)	Human Services CDBG Admin & Planning	\$1,012,527
	Homeless Services (KCRHA subrecipient grants)	\$3,151,628
	Homeless Services (KCRHA admin)	\$24,600
	Community Facilities Clinic Development	\$1,000,000
	Mount Baker Family Resource Center	\$155,734
	Minor Home Repair	\$449,917
	HSD Total	\$5,794,406
Office of Housing (OH)	Office of Housing CDBG Admin & Planning	\$160,972
Office of Economic Development	Small Business Support	\$1,364,000
Office of Immigrant and Refugee Affairs	ESL for Work (Ready to Work)	\$650,200
Office of Planning and Community Development	Equitable Development Initiative	\$430,000
Seattle Parks and Recreations	Seattle Conservation Corp Park Upgrades	\$808,000
Total		\$9,207,578
Expected Resources		\$9,207,578
Balance		\$0

Table 2: Community Development Block Grant (CDBG) 2022 Expected Program Income

Department	Title	2022 CDBG Program Income
Office of Housing (OH)	Home Repair Revolving Loan Program	\$605,462
	Homebuyer Assistance Revolving Loan Program	\$315,004
	Rental Housing Preservation and Development Revolving Loan Program	\$366,435
Total		\$1,286,901

City Fiscal Reserve Funds

The State of Washington permits the City to maintain two financial reserves to draw upon in the event of certain unanticipated expenditure or revenue pressures.

Emergency Fund

Under the authority of RCW 35.32A.060, the City maintains the Emergency Fund (EMF) of the General Fund. The EMF is the principal reserve for the City to draw upon when certain unanticipated expenses occur during the fiscal year. Eligible expenses include costs related to storms or other natural disasters. State law limits the amount of money the City can set aside in this reserve to 37.5 cents per \$1,000 of assessed value of property within the city.

Prior to 2017, the City's practice had been to fully fund the emergency reserve to this maximum limit. In 2017, the City modified the existing financial policies for the EMF to establish a minimum balance of \$60 million, and to adjust that minimum each year with the rate of inflation. This policy struck a balance between ensuring that resources will be available to address unanticipated expenditures and making resources available to address current needs.

Due to the ongoing impacts of COVID-19 and the related economic downturn, the City's revenue forecasts remain significantly reduced from pre-pandemic expectations; concurrently, the City continues to realize significant expenses to address the ongoing emergency. In response, in 2020 and planned in 2021, the City will have drawn \$31.3 million from the EMF, reducing the reserve balance to \$33.7 million.

In the current environment, it is not realistic for the City to meet the fund balance requirements for the Emergency Fund in the immediate future, and current policy does not define a process for rebuilding the reserve after a significant drawdown of funds. Legislation submitted with the 2022 Proposed Budget updates the EMF policy to require that the Emergency Fund be replenished to the target balance within a period of five years, sooner if practically possible. Based on current CPI-U projections, the updated policy would require the EMF to reach a \$77 million balance by the end of 2026. The 2022 Proposed Budget contributes \$10 million to the EMF, rebuilding the reserve balance to \$43.7 million at the end of 2022.

Revenue Stabilization Fund

Under the authority of RCW 35.21.070, the City maintains a second financial reserve called the Revenue Stabilization Fund (RSF), also known as the Rainy Day Fund. The RSF provides resources for the City to draw upon to maintain City services in the event of a sudden, unanticipated shortfall in revenue due to economic downturns or other factors. City code limits the balance of this reserve to five percent of General Fund tax receipts. Ordinance 123743 requires the City to deposit an amount equivalent to 0.5% of General Fund tax revenues into the RSF, with some limited exceptions. In addition, City policy requires the deposit of 50% of any unplanned year-end fund balance in the General Fund into the RSF. The RSF has a fund balance cap equal to five percent of total annual General Fund tax revenue.

The City adopted significant RSF funding enhancements in 2011 via Ordinance 123743, including the required annual deposit of 0.5% of General Fund tax revenues into the RSF. These changes enabled the City to rebuild the Rainy-Day Fund reserves that had been spent down in 2009 and 2010 in the midst of the Great Recession. The new policies facilitated the rebuilding of this reserve fund from a low of \$10.5 million in 2010 to \$57.8 million by 2020. Additionally, the policies specified that contributions to the fund are suspended when tax revenues decline and are reduced to 0.25% in the following year.

In response to ongoing COVID-19 emergency and related economic downturn, the City will have withdrawn \$54.7 million from the RSF over 2020 and 2021, reducing the reserve balance to \$6.0 million. City policy requires a contribution of \$3.1 million dollars in 2022. The 2022 Proposed Budget exceeds this requirement, contributing \$15 million and rebuilding the RSF reserve balance to \$21.0 million. The recent revenue forecast update effectively

provided a significant infusion of one-time General Fund resources, and the replenishment of the RSF is a prudent and appropriate use for such one-time funding, particularly in the context of ongoing economic uncertainty created by the COVID-19 pandemic.

City Bond Issuance and Debt Service

In addition to cash resources, the City also uses bonds and property tax levies to fund a variety of capital improvement projects. The City's budget must include funds to pay interest and principal on outstanding and proposed bonds. The City has issued three types of debt to finance its capital improvement programs: unlimited tax general obligation bonds, limited tax general obligation bonds and revenue bonds.

Unlimited Tax General Obligation Bonds

The City may issue Unlimited Tax General Obligation (UTGO) Bonds for capital purposes if a proposition authorizing their issuance is approved by 60% of the voters in an election in which the number of voters exceeds 40% of the voters in the most recent general election. Payment of principal and interest is backed by the "full faith and credit" of the City. This means that the City commits itself to include in its property tax levy an amount that is sufficient to pay principal and interest on the bonds. Property taxes levied to pay debt service on UTGO bonds are not subject to the statutory limits in state law on the taxing authority of local governments, which is why UTGO bonds are "unlimited" (see the "Property Tax" section of the "Revenue Overview" for a description of statutory limits on property tax rates and growth). However, state law does limit the amount of UTGO bonds that can be outstanding at any time to 7.5% of assessed valuation of property in the city: 2.5% for open space and park facilities, 2.5% for utility purposes, and 2.5% for general purposes. As of December 31, 2020, there were approximately \$252 million in UTGO bonds outstanding.

Limited Tax General Obligation Bonds

The City Council may authorize the issuance of Limited Tax General Obligation (LTGO) Bonds, also known as Councilmanic bonds, in an amount up to 1.5% of assessed valuation, without a vote of the people. The City pledges its full faith and credit to the payment of principal and interest on LTGO bonds, but this pledge must be fulfilled within the City's statutory property tax limitations. Thus, these are "limited" general obligation bonds. The combination of UTGO bonds issued for general purposes and LTGO bonds cannot exceed 2.5% of assessed property valuation. If LTGO bonds are issued up to the 1.5% ceiling, then UTGO bonds for general purposes are limited to 1% of assessed value.

The City also guarantees debt issued by the Pike Place Market Preservation and Development Authority, the Seattle Indian Services Commission, the Seattle Chinatown/International District Preservation and Development Authority, and the Museum Development Authority. As of December 31, 2020, the guarantees totaled \$34.3 million out of \$820.5 million outstanding LTGO debt. Guarantees count against the City's LTGO debt capacity.

Revenue Bonds

Revenue bonds are used to provide financing for the capital programs of City Light and the three other utilities - Water, Drainage and Wastewater, and Solid Waste - which are grouped together in Seattle Public Utilities. The City does not pledge its full faith and credit to the payment of debt service on revenue bonds. Payment of principal and interest on the bonds issued by each utility is derived solely from the revenues generated by the issuing utility. No tax revenues are used to pay debt service.

When revenue bonds are sold, the City commits itself to set fees and charges for the issuing utility that will be sufficient to pay all costs of operations and maintenance, and all payments of principal and interest on the bonds. While the amount of revenue bonds is not subject to statutory limits, the utility's ability to repay debt with interest is a practical constraint.

City Bond Issuance and Debt Service

Forms of Debt Authorized by State Law

Table 1 below summarizes the conditions and limitations that apply to the issuance of the general obligation debt issued by the City.

Table 1: Summary of Conditions and Limitations for City Debt Issuances

Form of Debt	Voter Approval Required	Source of Repayment	Statutory Limitation	Current Limit ¹	Outstanding 12-31-20 ¹
Unlimited Tax General Obligation Bonds (UTGO)					
Parks & Open Space	Yes	Property Tax	2.5% of AV	\$6.5 Billion	\$0
Utility	Yes	Property Tax	2.5% of AV	\$6.5 Billion	\$0
General Purposes	Yes	Property Tax	1.0 % of AV ²	\$2.6 Billion	\$251 Million
Limited Tax General Obligation Bonds (LTGO)		Taxes and Other Revenues	1.5% of AV ²	\$3.9 Billion	\$893 Million ³

¹ As of 12/31/20, assuming the latest certified assessed value of \$262.1 billion, issued on January 27, 2021 for taxes payable in 2021.

² The sum of UTGO and LTGO debt for general purposes cannot exceed 2.5% of assessed valuation.

³ Includes \$34.3 million of PDA debt guarantees.

City Debt Management Policies and Bond Ratings

The use of debt financing by the City is subject to federal and state laws as well as the City's own debt management policies ([Resolution 31553](#)).

The City has earned very high ratings on its bonds as a result of a strong economy and prudent financial practices. The City's UTGO debt is rated Aaa by Moody's Investors Service, AAA by Fitch IBCA, and AAA by Standard & Poor's (S&P), which are the highest possible ratings. The City's LTGO debt is rated Aaa by Moody's, AAA by Fitch, and AAA by S&P. In addition, the City's utilities have very high ratings for revenue debt, reflecting sound finances and good management.

2022 Projected Bond Issues

In 2022, the City expects to issue approximately \$133 million of limited tax general obligation (LTGO) bonds for a variety of purposes. Table 2 lists the financed projects and other details of the financing plan. Bond proceeds will be deposited into the 2022 Tax Exempt and Taxable Multipurpose Bond Funds. City departments responsible for all or portions of projects listed in Table 2 will then draw money from this fund as appropriated to implement the projects. The appropriation authority for using these bond funds are in the respective departments' sections of this budget.

City Bond Issuance and Debt Service

Approximate Par Amount	Issuance Costs & Pricing Adjustments	Approximate Issuance Cost for 2022
\$133,440	3%	\$3,887

2022 Debt Service

In 2022, debt service associated with outstanding LTGO bond issues as well as the planned 2022 bond issuances is expected to be approximately \$99 million. Appropriation authority for debt service costs are in the respective departments' sections of this budget. The Debt Service Appendix lists debt service amounts by paying fund.

Selected Financial Policies

Through a series of Resolutions and Ordinances, the City has adopted a number of financial policies that are designed to protect the City's financial interests and provide a framework and guidelines for the City's financial practices. For additional information about these policies, please refer to the City of Seattle website: http://www.seattle.gov/financedepartment/financial_policies.htm.

Budgetary Basis

- The City budgets on a modified accrual basis. Property taxes, sales taxes, business and occupation taxes, and other taxpayer-assessed revenues due for the current year are considered measurable and available and, therefore, as revenues, even though a portion of the taxes may be collected in the subsequent year. Licenses, fines, penalties, and miscellaneous revenues are recorded as revenues when they are received in cash since this is when they can be accurately measured. Investment earnings are accrued as earned.
- Expenditures are considered a liability when they are incurred. Interest on long-term debt, judgments and claims, workers' compensation, and compensated absences are considered a liability when they are paid.

Appropriations and Execution

- The adopted budget generally makes appropriations for operating expenses at the budget control level within departments, unless the expenditure is from one of the General Fund reserve accounts, or is for a specific project or activity budgeted in the General Subfund category called Finance General. These projects and activities are budgeted individually.
- Capital projects programmed in the CIP are appropriated in the budget at the program or project level. Grant-funded activities are controlled as prescribed by law and federal or state regulations.
- Within the legally adopted budget authorizations, more detailed allocations, as approved by CBO, are recorded in the City's accounting system, called SUMMIT, at the lowest levels of each department's organizational structure and in detailed expenditure accounts. Throughout the budget year, CBO monitors revenue and spending performance against the budget to protect the financial stability of the City.
- In accordance with Washington state law, any unexpended appropriations for operating or ordinary maintenance expenditures automatically lapse at the close of the fiscal year, except for any appropriation continued by ordinance. Unexpended appropriations for capital outlays remaining at the close of the fiscal year are carried forward to the following year, except for any appropriation abandoned by ordinance.

Budget Transfers

The Budget Director may approve, without ordinance, appropriation transfers within a department or agency of up to 10%, and with no more than \$500,000 of the appropriation authority for the particular budget control level or, where appropriate, line item, being increased. In addition, no transfers can reduce the appropriation authority of a budget control level by more than 25%.

Selected Financial Policies

Debt Policies

- The City of Seattle seeks to maintain the highest possible credit ratings for all categories of short- and long-term General Obligation debt that can be achieved without compromising delivery of basic City services and achievement of adopted City policy objectives.
- The City will reserve \$100 million of legal limited tax (councilmanic) general obligation debt capacity, or 12% of the total legal limit, whichever is larger, for emergencies. The 12% reserve is now significantly greater than \$100 million.
- Except in emergencies, net debt service paid from the General Subfund will not exceed 9% of the total General Fund budget. In the long run, the City will seek to keep net debt service at 7% or less of the General Fund budget.

General Fund - Fund Balance and Reserve Policies

- State law allows the City to maintain an emergency reserve at a maximum statutory-authorized level of 37.5 cents per \$1,000 of assessed property value in the city. The City's previous practice had been to fully fund the emergency reserve to this maximum limit. However, over the past several years assessed values have undergone significant growth and are expected to continue at a rate that far outpaces the projected City's revenue growth rate. In 2017 the City modified the existing financial policies for the Emergency Subfund (ESF) to establish a minimum balance of \$60 million, and to adjust that level each year with the rate of inflation. This implies that the ESF would continue to grow, but at somewhat lower rate than under the previous policy. This policy change strikes a balance between ensuring that resources will be available to address unanticipated expenditures and making resources available to address current needs.
- Annual contributions of 0.50% of forecasted tax revenues are automatically made to the Revenue Stabilization Account of the Cumulative Reserve Subfund (commonly referred to as the "Rainy Day Fund").¹ In addition, 50% of any unanticipated excess General Subfund fund balance at year's end is automatically contributed to the Rainy Day Fund. These automatic contributions are temporarily suspended when the forecasted nominal tax growth rate is negative or when the total value of the Rainy Day Fund exceeds 5% of total tax revenues. In addition to the automatic contributions, the City may also make contributions to the Rainy Day Fund via ordinance. Expenditures from the Rainy Day Fund require the approval of a majority of the members of the Seattle City Council and must be informed by the evaluation of out-year financial projections.

Other Citywide Policies

- As part of the Mayor's budget proposal, the Executive develops a revenue estimate that is based on the best available economic data and forecasts.
- The City intends to adopt rates, fees, and cost allocation charges no more often than biennially. The rate, fee, or allocation charge structures may include changes to take effect at

¹ The 0.50% contribution is lowered to 0.25% of forecasted tax revenues for any year immediately following the suspension of contributions as a result of negative nominal tax revenue growth.

Selected Financial Policies

specified dates during or beyond the biennium. Other changes may still be needed in the case of emergencies or other unanticipated events.

- In general, the City will strive to pay for general government current operating expenditures with current revenues, but may use fund balance or other resources to meet these expenditures. Revenues and expenditures will be monitored throughout the year.
- In compliance with State law, no City fund whose purpose is restricted by state or local law shall be used for purposes outside of these restrictions.
- Working capital for the General Fund and operating funds should be maintained at sufficient levels so that timing lags between revenues and expenditures are normally covered without any fund incurring negative cash balances for greater than 90 days. Exceptions to this policy are permitted with prior approval by the City Council.

Office of Arts and Culture

Royal Alley-Barnes, Acting Director

(206) 684-7171

<http://www.seattle.gov/arts/>

Department Overview

The Office of Arts & Culture (ARTS) envisions a city driven by creativity that provides the opportunity for everyone to engage in diverse arts and cultural experiences. The Office promotes Seattle as a cultural destination and invests in Seattle's arts and cultural sector to ensure the City provides a wide range of high-quality programs, exhibits and public art. ARTS includes eight programs: Cultural Partnerships, Communications and Outreach, Equity and Youth, Cultural Facilities Operations, Public Art, Artwork Conservation, Administrative Services, and Cultural Space. These programs are supported by two funding sources: the Arts and Culture Fund, which is funded through the City's admission tax revenues, and the Municipal Arts Fund, which is supported by the 1% for Arts contributions from Capital Projects.

The **Cultural Partnerships** Program invests in cultural organizations, youth arts programs, individual artists and community groups to increase residents' access to arts and culture, and to promote a healthy cultural sector in the city. The Cultural Partnerships program offers technical assistance and provides grants to arts and cultural organizations throughout the city.

The **Communications and Outreach** Program works to ensure greater community access to arts and culture through annual forums and award programs by showcasing community arts exhibits and performances at City Hall and King Street Station, and by developing materials to promote Seattle as a creative capital. This program also works on innovative ways to reach out to communities about the opportunities of the department.

The **Cultural Space** Program provides resources to fund the development of new cultural spaces, the retention of crucial cultural anchors, and physical space improvements in existing cultural institutions. The program exists to preserve, create and activate cultural square footage in the city of Seattle; to work with artists and arts organizations to strengthen their role in charting the future of their creative spaces; and to work with developers and builders to incorporate arts and culture into new projects.

The **Cultural Facilities Operations** Program provides operational support for Langston Hughes Performing Arts Institute, a cultural facility that provides rental spaces and technical assistance, and that works in partnership with LANGSTON, a non-profit organization, to present programs and events, with the goal of providing quality cultural programs with educational components that meet the needs of the African American community. This program also supports the operation and programming of the King Street Station. This includes a rotating gallery opened to the public. Programming is submitted by the community and reviewed by a community advisory group. This program also provides technical assistance to applicants and selected programs.

The **Equity and Youth** Program invests in teaching artists, educators and organizations that are working toward a stronger more vibrant creative youth culture. ARTS does this through funding, professional development, school and community arts partnerships, arts education initiatives (The Creative Advantage), and career-connected learning in the arts and creative industries. The program also supports arts and cultural learning and events for our city's young people.

The **Public Art** Program integrates artists and their ideas in the design of City facilities, manages the City's portable artworks collection and incorporates art in public spaces throughout Seattle. This program is funded through the 1% for Art program, which by ordinance requires eligible City capital projects to contribute 1% of their budgets to the Municipal Arts Fund for the commission, purchase and installation of public artworks.

Office of Arts and Culture

The **Artwork Conservation** Program supports the City of Seattle's Public Art investment in permanent art. This program provides professional assessment, conservation, repair, and routine and major maintenance of artwork for the City's approximately 400-piece permanently sited art collection.

The **Administrative Services** Program provides executive management and support services for the office; engages in Citywide initiatives; supports the Seattle Arts Commission (a 16-member advisory board that advises the office), the Film and Music Commission in partnership with the Office of Economic Development (a 21-member advisory board), Mayor, and City Council on arts programs and policy; and promotes the role of the arts in economic development, arts education for young people, and cultural tourism. Funding within this program also covers basic department overhead costs, including office space, human resources, and IT.

Budget Snapshot

	2020 Actuals	2021 Adopted	2022 Proposed

Full-Time Equivalents Total*	39.09	39.09	40.34

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The Office of Arts & Culture (ARTS) is funded by Admission Tax revenue and the 1% for Art Program. This funding supports arts-related programs and capital expenditures to keep artists living and working in Seattle, builds community through arts and cultural events and the placement of public art, and increases arts opportunities for youth. ARTS commits to an anti-racist work practice that centers the creativity and leadership of Black, Indigenous, and People of Color (BIPOC) – those most impacted by structural racism – to move toward systems that benefit us all.

In 2022, ARTS will shift to concurrent year Admission Tax funding, meaning the budget supported by the Arts and Culture fund will operate using same-year projected revenue. Previously, ARTS developed its budget using revenue collected from two years prior. However, keeping that funding structure would have meant ARTS would face 2020's COVID-induced revenue shortfall in 2022, resulting in drastic cuts. Switching to concurrent year funding allows ARTS to avoid such a scenario. In addition, to provide some financial cushion if revenue actuals come in lower than projected, ARTS will have a sizeable operating reserve to rely on. The 2021 Adopted Budget included legislation to revise the Arts and Culture Fund financial policies to set the operating reserve at 20% of its operating budget.

Federal Funding Support

The City of Seattle is receiving federal Coronavirus Local Fiscal Recovery Funds (CLFR), which will be awarded in two tranches. The first tranche, appropriated in 2021 through Ordinance 126371, included an allocation of \$3.375 million to Arts to provide COVID-related relief to arts and cultural organizations. The 2022 Proposed Budget allocates \$1.5

Office of Arts and Culture

million of General Fund funds enabled by Coronavirus Local Fiscal Recovery (CLFR) funds to Arts as part of Seattle Rescue Plan 3 (SRP3). This funding will provide financial and workforce development support to artists and creative workers who have been negatively affected by the COVID-19 pandemic. See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Equitable Communities Initiative

In late 2020, the Mayor convened the Equitable Communities Initiative (ECI) Task Force. The task force was charged with developing strategies that begin to address the disparities caused by years of disinvestment in communities of color. From December 2020 to June 2021, the Task Force of 26 community leaders met weekly for more than 60 cumulative hours in over 30 meetings. The task force recommendations, released in June 2021, included \$6 million for an Equity and Cultural Education Fund. The ECI task force funding was appropriated in 2021 through Ordinance 126401.

The 2022 Proposed Budget includes ongoing funding of \$6 million for the Equity and Cultural Education Fund, including \$2 million to be targeted to cultural education. The appropriation for the fund is split between the Department of Education and Early Learning (\$4 million) and ARTS (\$2 million). The two departments will jointly run a competitive process to award the funding to community organizations. A small portion of the funding will support administrative and programmatic costs for the City departments.

Waterfront Art

The 2022 Proposed Budget adds \$1.7 million to the Arts budget for artwork on the Waterfront. There will be 8 art installations at the Waterfront in total, with one permanent project - the Land Buoy Bells - already installed. This funding will be used to cover costs related to installing the remaining artwork.

Total 2022 Proposed Budget	\$20,416,416	40.34

Description of Incremental Budget Changes

Baseline

Baseline Adjustments for Personnel Costs

Expenditures \$45,631

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Citywide Adjustments for Standard Cost Changes

Expenditures \$87,938

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

City Artists One-Time Change Reversal

Expenditures \$180,000

This item restores a one-time reduction in the 2021 Adopted Budget related to a shift in timing of support for the City Artists Program.

Seattle Together One-Time Change Reversal

Expenditures \$(66,922)

This item reverses a one-time addition in the 2021 Adopted Budget that supported a temporary position housed at Department of Neighborhoods and worked on the Seattle Together program.

Arts in Parks

Expenditures \$380,000

Revenues \$380,000

This item restores the Arts in Parks program which was eliminated in the 2021 Adopted Budget due to COVID-19 budget strains. The program is funded by Seattle Parks and Recreation and the grants are then administered by

Office of Arts and Culture

ARTS. The purpose of the program is to activate park spaces through arts and cultural activities proposed and implemented by local artists and community members.

Creative Economy Position Add

Expenditures	\$75,851
Position Allocation	0.50

This item adds a half-time Career Connected Learning Project Manager position that will support the Creative Industries partnership with the Office of Economic Development (OED). This position will split their time between supporting the Seattle Music Commission that is housed in OED, managing the Mixers event series, and supporting Career Days events. ARTS will also continue to maintain a budget for shared creative economy programming priorities, including the mixers, career days, and an internship partnership with the Northwest Folklife Festival.

Custodial Position

Expenditures	\$70,544
Position Allocation	0.75

This item adds a 0.75 FTE Maintenance Laborer position that will provide janitorial support at King Street Station. ARTS has been using a Term-Limited employee for this role and are converting it to a permanent position that will increase the number of custodial positions to one full-time and two part-time. This change will ensure that the facility is well-maintained without strain on the staff.

Tsutekawa Gate Replacement

Expenditures	\$28,000
--------------	----------

This item uses funds from the 1% for Arts contribution from capital projects to fund a portion of replacement of the Tsutekawa Gates at the Washington Park Arboretum.

Waterfront Artworks

Expenditures	\$1,700,000
--------------	-------------

This item uses funds from the 1% for Arts contribution from capital projects to fund artworks on the Waterfront Seattle project. One permanent project - the Land Buoy Bells – has already been installed. These funds will be used to cover the costs of installing the remaining projects which will be completed by 2024.

Individual Artist Relief and Workforce Development

Expenditures	\$1,500,000
--------------	-------------

This item provides financial support to individual artists and creative workers, who have been negatively impacted by COVID-19. Most of the individuals in this category are small business owners, entrepreneurs, and sole proprietors. The financial support will be paired with a workforce development component in partnership with the Office of Economic Development (OED). The City received a federal funds package known as the Coronavirus Local Fiscal Recovery (CLFR) in 2021 that was divided into 2021 and 2022 buckets. The funds were placed in several spending categories, with workforce development being one. This funding is placed in that category because of the professional development component in this proposal.

Equity and Cultural Education

Expenditures	\$2,000,000
--------------	-------------

Office of Arts and Culture

This item continues funding for the Equitable Communities Initiative Task Force in 2022. The goal is to increased leadership and empowerment opportunities for BIPOC youth through the creation of culturally-relevant programming. Arts will be directing the funds to provide:

- Culturally-relevant youth and family programming and classroom residencies with BIPOC-centered cultural institutions, museums, and other informal learning spaces during the school day
- Cultural education programs outside of school by BIPOC-led creative youth development organizations
- Awards for BIPOC youth who want to engage in arts & culture on their own terms (e.g. buying instruments + individual lessons)

Proposed Technical

Revenue Adjustments

Revenues	\$7,374,814
----------	-------------

This technical item adjusts revenues for the Arts' funds, removes Ad Tax revenue transfer from the General Fund (GF), and adds the admissions tax revenue into the Arts and Culture Fund 12400.

ARTS-Balancing Reversal

Revenues	\$771,144
----------	-----------

This technical item reverses one-time revenue changes in the 2021 Adopted Budget related to fund balancing: a contribution of \$313,270 to the Municipal Arts Fund and a use of \$1,084,414 from the Arts and Culture Fund.

ARTS-OED-Balancing Reversal

Revenues	\$(62,597)
----------	------------

This technical item reverses one-time revenue changes in the 2021 Adopted Budget related to fund balancing: a use of \$62,596.92 from the Arts and Culture Fund.

Fund Balancing Entries

Revenues	\$(118,998)
----------	-------------

This is a technical item to record a fund balancing entry for the Arts and Culture (12400) and Municipal Arts (12010) funds, which are primarily managed by this department.

Seattle Parks and Recreation

Jesús Aguirre, Superintendent

(206) 684-4075

<http://www.seattle.gov/parks/>

Department Overview

Seattle Parks and Recreation (SPR) works with all residents to be good stewards of the environment and to provide safe, welcoming opportunities to play, learn, contemplate, and build community. SPR manages a [6,400+ acre park system of over 485 parks](#) and extensive natural areas. SPR provides athletic fields, tennis courts, play areas, specialty gardens, and more than 25 miles of boulevards and 120 miles of trails. The system comprises about 12% of the city's land area. SPR also manages many facilities, including 26 [community centers](#), eight [indoor swimming pools](#), two [outdoor \(summer\) swimming pools](#), three [environmental education centers](#), two [small craft centers](#), four [golf courses](#), an outdoor stadium, and much more. The Woodland Park Zoological Society operates the Zoo and the Seattle Aquarium Society operates the Seattle Aquarium; both properties are owned by and receive financial support from the City.

Department employees work hard to develop partnerships with park neighbors, volunteer groups, non-profit agencies, local businesses, and Seattle Public Schools to effectively respond to increasing requests for use of Seattle's park and recreation facilities. Perhaps the most significant partnership is with the Associated Recreation Council (ARC) which provides child care and supports recreation programs at SPR-owned facilities, including community centers and small craft centers. ARC, a non-profit organization, also supports and manages the recreation advisory councils. These advisory councils are made up of volunteer community members who advise SPR's staff on recreation programming at community centers and other facilities. This collaborative relationship with ARC enables the department to offer quality child care and a wide range of recreation programs to the public.

SPR's funding is a combination of tax dollars from the City's General Fund, Seattle Park District funds, Real Estate Excise Tax and revenue from a variety of other sources including grants, user fees and rental charges. Funding for new parks facilities historically came from voter-approved levies. In 2014, Seattle voters approved the formation of a new taxing district known as the Seattle Park District. Property taxes collected by the Seattle Park District provide funding for City parks and recreation including maintaining parklands and facilities, operating community centers and recreation programs, and developing new neighborhood parks on previously acquired sites.

Budget Overview

The 2022 Proposed Budget for the Seattle Parks and Recreation Department (SPR) focuses on economic recovery, including restoration of pandemic related reductions made in the 2021 Adopted Budget to the Park Fund, General Fund (GF), and Real Estate Excise Tax Funds (REET); realigning resources to support SPR's commitment to equity; addressing rising costs due to inflation and a challenging bidding climate; and increasing investments towards the City's response to obstruction removals, cleanliness, and safety in right-of-way (ROW) and park areas.

Restore COVID-19 Funding Reductions

In 2020 and 2021, SPR took significant cuts to its budget in response to revenue losses and economic impacts associated with the COVID-19 pandemic. The 2022 Proposed Budget assumes programming and participation return to pre-pandemic levels and restores funding to resume services and replenish capital project budgets.

Specifically, the 2021 Adopted Budget reduced SPR's General Fund (GF) budget by \$11.4 million and assumed a \$10.6 million loss of revenue in the Park Fund. These reductions were partially offset by shifting Park District (MPD) resources away from Park District initiatives to support operating expenses, mitigating service impacts and avoiding layoffs. The 2022 Proposed Baseline Budget returns \$7.7 million of ongoing GF to SPR, assumes Park Fund revenues rebound as fee-based services are reinstated, and restores Park District funding to initiatives impacted in 2021. Some of this MPD funding is proposed to be reallocated towards other SPR priorities as described later in this overview and in more detail in the Incremental Changes section of this budget book.

Due to the COVID-19 pandemic and declared emergency, the 2021 Adopted Budget as authorized by the City Council suspended SPR's minimum General Fund requirement per section 3.3 of the interlocal agreement establishing the Seattle Park District (Ordinance 124468). The 2022 Proposed Budget brings SPR back above its minimum requirement of \$106,411,169 through the combination of baseline adjustments and proposed GF increases.

SPR's REET funding was also reduced by \$19.3 million in 2021. The 2022 Proposed Budget invests approximately \$22.9 million including:

- \$16.7 million for major maintenance, ADA projects, and emerging SPR priorities;
- \$1.25 million for the Major Projects Challenge Fund including support for the Green Lake Small Craft Center and South Park Community Center and Campus projects;
- \$1.5 million for Outdoors for All;
- \$847,000 for Municipal Energy Efficiency Projects;
- \$3 million for Pier 58 Replacement; and
- a technical reduction of \$411,000 to align the 2022 budget with debt-service payments.

As stated above, the Park District provided a reliable funding source allowing SPR to pivot operations to mission essential functions and retain highly trained employees to provide parks and recreation services as deemed safe. In addition, throughout the pandemic SPR implemented a conservative fiscal management approach and therefore is able to identify one-time fund balance in the Park and Recreation Fund to support certain projects impacted by the pandemic related reallocations including land-banked site development and Lake City community center.

- In 2020, SPR reallocated \$4.7 million of Park District funding for land-banked site development, impacting numerous projects. The 2022 Proposed Budget restores \$3.5 million towards developing new parks.

Seattle Parks and Recreation

- The 2022 Proposed Budget also includes a \$5M reserve in the Park and Recreation Fund for the future renovation of the Lake City Community Center. This commitment had been in the endorsed budget funded by the Park District, however the delay in planning for the second cycle of the Park District pushes MPD support for this project out to at least 2023. Funding from both sources will be aligned with the project timeline and scope during the next Park District six-year cycle (2023-2028).

Due to the magnitude of the reductions to SPR's CIP in both 2020 and 2021, not all projects that were cut will be restored and some projects are still delayed. SPR prioritized their 2022 REET funding with a focus on equity; 60% of the restored funding in 2022 will be used for projects in census tracts identified as 'Highest or Second Highest Need/Disadvantaged by OPCD's Race and Social Equity Index. Approximately 36% are citywide programs, and the remaining 4% is distributed between projects in the Middle Need/Disadvantaged tracts. Projects include Garfield Super Block, Be'er Sheva, renovations of the Maple Wood playfield, additional funding for the South Park Campus, and Rainier Community Center Play Area. For a fuller list of projects, see SPR's 2022-2027 Capital Improvement Program.

Equity Investments and Funding Realignments

Formalize Rec'N the Streets Program

The 2022 Proposed Budget formalizes SPR's pilot program, Rec'N the Streets. Since Fall 2020, a team of SPR employees have been redeployed to develop and deliver this community-centered programming, serving approximately 6,000 participants from August-December 2020 in the midst of the pandemic. This change will establish two permanent teams by redirecting funding from Laurelhurst Community Center and the Outdoor Opportunities (O2) Program. One temporary team will also be funded with savings from community centers that will be closed for planned capital projects in 2021 and 2022.

O2 is an outdoor expedition program that generally serves a cohort of about 200 youth per year. Due to staffing vacancies in Fall 2019 and then the impact of COVID-19, this program has not run since Summer 2019. Based on data from the pilot for Rec'N the Streets, SPR expects the two mobile Rec'N the Streets teams will serve significantly more people than the average O2 cohort.

Laurelhurst Community Center will transition from a facility with limited public operating hours and staffing to a premier rental facility similar to Golden Gardens and Pritchard Beach. Laurelhurst is one of the smallest community centers; it doesn't have an attached gym. It is located within three miles of three other community centers. The facility hosts some limited recreation programming and events, drop-in activities, and short-term facility rentals. It does not host licensed childcare. SPR will continue to offer some programming at the adjacent Laurelhurst Elementary gym following this change. The pottery studio will close. Pottery is offered at eight other SPR sites including nearby Montlake and Green Lake. Laurelhurst ranks in the bottom third of the Equity and Priority Populations Index, a metric that measures the need for recreation services in each community center's service area.

Increase Workforce Equity

The 2022 Proposed Budget shifts \$1 million of base Park District funding from the Park Land Acquisition and Leverage Fund (Acquisitions) to institutionalize and expand SPR's work in addressing structural racism through organizational change. Funding will support workforce equity efforts in the Human Resources (HR) division and the expansion of the department's Equity Team staffing. SPR's 2022 budget for Acquisitions will be replenished using one-time Park Fund resources and the ongoing funding need will be reviewed in the next Park District funding cycle (2023-2028).

SPR's Human Resources team will be adjusted in support of a revised service model that advances the department's vision of becoming an anti-racist organization and is aligned to meet the growing demand for HR services from a department with over 1,000 regular positions and an additional 800-1,000 temporary and seasonal staff. The two main workstreams will include HR Business Partners, assigned to support SPR's major divisions, and Business Services & Employee Care, responsible for backend operations and subject matter expertise. The budget adds approximately four positions in support of these changes; this includes one Workforce Equity Strategic Advisor, one

Seattle Parks and Recreation

Training Coordinator dedicated to anti-racism training deliverables, one HR Business Partner, and increased capacity for performance reporting, leave of absence, and managerial needs.

SPR's Equity Team will assist with the planning, development, and implementation of equity strategies and structurally embed RSJI policies and practices across the department. SPR currently has one Strategic Advisor leading these efforts within the Superintendent's Office and one Equity Advisor in the Recreation Division. The proposed budget adds three new positions to expand this work; two will be located in the Superintendent's Office and one in the Parks and Environment Division.

SPR's commitment to the Race and Social Justice Initiative calls on the department to challenge and change institutional barriers that perpetuate harm. The department also recognizes there is much work to do and is working to position itself as a learning organization that is in a constant state of action; this requires additional and sustained investment in these dedicated resources.

Transition to a Community Response and Equitable Park Development Fund

The 2022 Proposed Budget also adds funding and two positions to begin transitioning the Major Projects Challenge Fund (MPCF) to a new Community Response and Equitable Park Development Fund as recommended by a taskforce convened in collaboration with the Park District Oversight Committee (PDOC); this is funded through a \$300,000 transfer from the MPCF. The fund has never had dedicated staff and these positions were recommended by the taskforce to better engage and support community groups with their park-related needs. The new fund is intended to address barriers identified through the first two rounds of MPCF awards, including project size and matching requirements, and distribute funds more equitably.

Realign and Add Resources to Support Increased Operating Costs

SPR has increasingly been asked to absorb Annual Wage Increases (AWI), citywide cost changes, and utility rate increases using Park Fund and Park District resources in lieu of General Fund support. In previous budgets, SPR has identified one-time resources such as fund balance and interest earnings to cover these costs, but these strategies are not sustainable. One challenge is that the first cycle of the Park District only increased funding by 2.5% annually – less than the cost of AWI and utility rate increases.

The proposed budget redirects \$4.1 million of ongoing Park District funding from the Major Maintenance Backlog and Asset Management capital project to cover these new and compounded cost increases. SPR will consider options for reconciling the MPD's annual rate to cover future inflationary costs as part of the next Park District planning process.

Increase Investments for Safe and Clean Spaces

The 2022 Proposed Budget increases funding and staff capacity for SPR to maintain safe and clean spaces in both park and right-of-way (ROW) areas. These investments include:

- \$2.8 million of one-time Coronavirus Local Fiscal Recovery (CLFR) funding to continue SPR's role in supporting the interdepartmental Clean Cities program through August 2022. This funding is part of Seattle Rescue Plan 3 (SRP3). See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3;
- \$900,000 of ongoing General Fund to add 6.5 FTE supporting the increased demand on SPR to address impacts of unmanaged encampments, such as litter removal, storage of personal belongings, and data collection & reporting in compliance with Multi-Department Rules (MDARs); and
- \$2 million of one-time Cumulative Reserve Subfund (CRS-U) funding to support site restoration of parks that have been significantly damaged due to prolonged use and misuse during the COVID-19 pandemic.

The Seattle Department of Transportation will also increase its annual payment to SPR from \$1 million to \$1.1 million to reflect inflationary increases since their funding agreement for obstruction removals was originally established in 2018.

Seattle Parks and Recreation

The 2022 Proposed Budget also includes \$963,000 of ongoing General Fund for security to assist with beach closures and Late Night teen programming, temporary resources to broaden coverage and expand hours to enforce park code compliance, and increasing a dispatcher position to full-time to address increased maintenance calls related to park cleanliness and safety.

Other Changes

In addition to the changes described above, the proposed budget includes other changes to make temporary resources permanent for out of school time staffing and capital project management; fund staff stipends for employees supporting language access; increase security and maintenance at Fort Lawton; provide one-time resources for Rise Above; and implement numerous technical changes to align budget with spending across projects and initiatives.

For more details on specific changes to SPR's 2022 Proposed Budget and 2022-2027 Capital Improvement Program (CIP), please see the Proposed Changes section of these budget book pages and the accompanying CIP Proposed Budget Book pages.

Description of Incremental Budget Changes

Baseline

2021 One-time Items Adjustment

Expenditures \$(747,000)

This item includes an adjustment to reduce one-time funding added in the 2021 Adopted Budget for the Clean Cities program pilot. See Proposed Changes for a proposal that continues this work through August 2022 using Coronavirus Local Fiscal Recovery (CLFR) resources.

2021 Water Utility Savings Adjustment

Expenditures \$300,000

Seattle Parks and Recreation

This item restores one-time Park District funding reduced in the 2021 Adopted Budget in response to the COVID-19 pandemic. Due to the nine months of facility closures, the department was able to achieve one time water savings to partially offset revenue losses.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$2,338,455
--------------	-------------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for Judgement and Claims, healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures	\$260,808
Revenues	-

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Annual Inflation for Seattle Park District (2.5%)

Expenditures	\$883,055
Revenues	\$1,366,722

This budget change increases the Park District operating initiatives and revenues by 2.5% as required annually by the Interlocal Agreement.

Restore Park Fund to Operating Budget

Expenditures	\$884,633
Revenues	\$4,137,046

In 2021, SPR estimated a \$10.5 million revenue loss in the Park Fund due to extended facility closures and programming reductions associated with the COVID-19 pandemic. The 2021 Adopted Budget included a technical adjustment to transfer \$6.4 million of those revenues and expenditure reductions into a "COVID Planning 2021" Budget Program in the Park Fund to keep track of targeted underspend; this item reverses that adjustment and redistributes the one-time savings back to division budgets.

The remaining \$4.1 million of revenue and expenditure reductions were funded with Park District resources including Park District operating savings (\$884,633) and a one-time funding realignment with SPR's Capital Improvement Program (\$3.3million).

The 2022 Proposed Budget returns these Park District resources to the initiatives from which the savings were realized, including:

- Initiative 1.3 Savings Our Forest (\$175,703)
- Initiative 3.3 Better Programs for Young People - Seattle's Future (\$330,789)
- Initiative 3.6 Put the Arts in Parks (\$283,141)
- Initiative 4.11 Urban Parks Partnership (\$95,000)

This change does not have a corresponding capital adjustment since the \$3.2 million realignment within the

Seattle Parks and Recreation

Waterfront Piers Rehabilitation project was a one-year change and Park District funding remained in the outyears of the Capital Improvement Program beginning in 2022.

Reverse Park District Realignment: Restore General Fund to Operating Budget

Expenditures

-

In 2021, SPR's General Fund budget was reduced by \$11.4 million due to pandemic-related revenue losses. This reduction was partially offset by realigning \$7.7 million of Park District funding from SPR's capital budget to SPR's operating budget. The remaining \$3.7 million included ongoing efficiencies and savings found within the department.

This baseline change increases General Fund appropriation by \$7.7 million and reduces Park District appropriation by the same amount within SPR's operating budget. Please see "Reverse Park District Realignment: Restore Park District Funding to Capital Budget" for the corresponding baseline adjustment to restore these Park District funds to SPR's capital budget.

This baseline change, along with other proposed changes, brings the department above its minimum General Fund allocation as required by the Seattle Metropolitan Park District; this minimum requirement had been lifted in 2020 and 2021 due to the COVID-19 pandemic.

Reverse Park District Realignment: Restore Park District Funding to Capital Budget

Expenditures

\$7,716,558

In 2021, SPR's General Fund budget was reduced by \$11.4 million due to pandemic-related revenue losses. This reduction was partially offset by realigning \$7.7 million of Park District funding from SPR's capital budget to SPR's operating budget. The remaining \$3.7 million included ongoing efficiencies and savings found within the department.

This baseline change restores \$7.7 million of Park District resources to SPR's capital budget as described below:

- Park Land Acquisition and Leverage Fund (\$1.5 million)
- Major Projects Challenge Fund (\$1.8 million)
- Major Maintenance Backlog and Asset Management (\$4.4 million)

Please see "Reverse Park District Realignment: Restore General Fund to Operating Budget" for the corresponding baseline adjustment that adjusts SPR's operating budget.

Technical Baseline Adjustments

Expenditures

-

Revenues

-

This net-zero change adjusts SPR's budget to more accurately reflect healthcare allocations by distributing funds from the Leadership and Administration BSL to other BSLs.

Proposed Operating

Language Premium Staff Stipend

Expenditures

\$40,800

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as

Seattle Parks and Recreation

interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

Out of School Time (OST) Staffing

Expenditures	\$124,099
Revenues	\$124,099
Position Allocation	1.00

This item makes permanent a temporary (TLT) position piloted since early 2020. The Early Learning Administrative Staff Analyst position is a vital liaison between SPR and the Department of Education and Early Learning (DEEL), created to support the growing body of work associated with DEEL's Seattle Preschool Programs. The position will be funded by the rental revenue generated from third-party preschool programs operating within SPR facilities. This position will continue to support partnerships with DEEL, ARC, and third-party preschool providers, in addition to overall efforts in early learning initiatives within SPR.

Make Approved TLT Positions Permanent

Expenditures	-
Position Allocation	3.25

In 2019, SPR received emergency position authorization for the creation of 3 Capital Project Coordinators to help meet the Planning and Development Division's capital project delivery needs. This proposal makes these positions permanent to retain capacity in preparation for the next Park District cycle and to implement the department's existing portfolio of projects as well as those in the planning and design phases. This change also increases a Management Systems Analyst supporting the division's project management software from part time to full time. Position costs are fully funded within the department's capital improvement program.

Fort Lawton Maintenance and Security Increment

Expenditures	\$214,372
--------------	-----------

This item is for maintenance of the Fort Lawton property which the City leases from the US Army. This funding will increase security and maintenance at the site. Seattle Parks and Recreation and the Office of Housing each pay half of the total cost.

Rise Above

Expenditures	\$200,000
--------------	-----------

This item provides \$200,000 one-time General Fund for Rise Above. Rise Above provides education and outreach to American Indian youth and families in Seattle through community based partnerships.

Formalize Rec'N the Streets Program

Expenditures	\$10,000
Revenues	\$10,000
Position Allocation	(0.25)

This item transfers \$660,000 from multiple funds within SPR's budget to formalize a mobile recreation pilot, Rec'N the Streets, which delivers programming in partnership with community using neighborhood-based data and equity maps. Funding will be reallocated from Outdoor Opportunities (-\$259,000) and Laurelhurst Community Center (-\$190,000) to establish two permanent teams. The Outdoor Opportunities program has not run since Summer 2019

Seattle Parks and Recreation

and will no longer be offered. It served about 200 youth annually while Rec’N the Streets reaches over 6,000 participants.

Laurelhurst Community Center will be converted to a premier rental facility. Laurelhurst is one of the smallest community centers; it doesn’t have an attached gym. It is located within three miles of three other community centers. The facility hosts some limited recreation programming and events, drop-in activities, and short-term facility rentals. It does not host licensed childcare. SPR will continue to offer some programming at the adjacent Laurelhurst Elementary gym following this change.

In addition, SPR will use one-time savings from planned community center closures in 2022 (-\$211,000) to fund a third, temporary team.

This change eliminates two part-time positions (-1.50 FTE) and uses those resources to create capacity for Rec’N the Streets. Specifically, it reassigns positions from Outdoor Opportunities and Laurelhurst to support the program; reclasses a Recreation Attendant to a Recreation Leader and a Recreation Center Coordinator to a Recreation Program Coordinator, Sr.; and increases three Recreation Leader positions from part time to full time (1.25 FTE). There are no layoffs associated with these changes.

This change is a net zero reallocation of existing resources. The \$10,000 adjustment recognizes revenue SPR is appropriating towards these program costs.

Clean City Funding Continuation through August

Expenditures	\$2,800,000
--------------	-------------

This item extends SPR’s funding for the Clean City Initiative through August 2022 by continuing the investment to clean up litter and garbage across the city. The Clean City Initiative pulls together and expands efforts from Seattle Public Utilities, Seattle Parks and Recreation, Office of Economic Development, and Seattle Department of Transportation to address the backlog in maintenance.

Specifically, the 2022 Proposed Budget continues funding for four crews to provide enhanced trash removal (dumping), garbage collection and litter pick-up; power washing of hardscapes, graffiti removal; storm drain cleaning, lighting repairs/replacement, and cleaning abandoned encampments. The work is above and beyond routine O&M the department typically does during the year.

This item is part of a package of CLFR-funded or CLFR-enabled items comprising Seattle Rescue Plan 3 (SRP3). See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Security & Compliance

Expenditures	\$963,004
Position Allocation	0.50

This item adds funding to support park code compliance and to increase SPR’s capacity to address issues related to cleanliness and safety at parks and beaches. Specifically, this budget adds \$300,000 to contract with security for the Late Night program and for beach closures at Alki and Golden Gardens; \$40,000 to increase a dispatcher position from half-time to full time (0.5 FTE) to respond to increased call volume; \$480,000 funding for temporary resources to broaden park code compliance coverage and expand hours; and \$140,000 in general nonlabor support.

Support City Efforts to Maintain Clean and Accessible Parks and ROW

Expenditures	\$900,000
Position Allocation	6.50

Seattle Parks and Recreation

These resources support the increased demand on Seattle Parks & Recreation to address impacts of unsheltered populations including litter removal, site restoration, storage of personal belongings, and data collection and reporting. This change in the 2022 Proposed Budget will assist the City to meet legal requirements and Council and Mayoral expectations around the identification and storage of personal belongings.

This item adds \$45,000 for supplies, training, and equipment as well as creates 6.5 new positions in SPR including:

- Field Coordinators - Strategic Advisor I (2.0 FTE) - \$300,000
- Strategic Support - Strategic Advisor I (1.0 FTE), Admin Specialist III (1.0 FTE) - \$250,000
- Data Support - Management Systems Analyst, Sr. (1.0 FTE) - \$130,000
- Storage+ - Admin Specialist III (1.0 FTE) - \$100,000
- Comms Team Support: Strategic Advisor I (0.5 FTE) - \$75,000

Increase SDOT Payment for ROW Obstruction Removals

Expenditures	-
Revenues	\$100,000

This item increases the Seattle Department of Transportation's (SDOT) annual payment to SPR for obstruction removals in right-of-way (ROW) areas from \$1,000,000 to \$1,100,000 to reflect inflationary adjustments since the contract was initiated in 2018. SPR partners with SDOT and Seattle Public Utilities in the cleaning of unsanctioned encampments on parklands and in the ROW. As of 2021, SPR facilitates the City's obstruction process and prioritizes sites for removal based on hazards and other site conditions. The General Fund had been picking up a larger share of these inflationary costs; this item realigns funding support to reflect SDOT's share of costs and offsets General Fund support by \$100,000.

MPD Funding Realignment for Inflation-Based Costs (see Capital Changes)

Expenditures	\$1,000,000
--------------	-------------

The 2022 Proposed Budget reallocates \$4.1 million from the Seattle Park District's (MPD) Major Maintenance Backlog and Asset Management Project (MC-PR-41001) to support inflationary cost increases in 2022. The first funding cycle of the Park District ended in 2020 with 2021 and 2022 representing bridge years until the second funding cycle begins in 2023. In 2021, SPR used one-time resources including the appropriation of interest earnings, fund balance, and delaying repayment of intra-fund loans to cover cost increases such as AWI and utilities; these strategies are not sustainable. To keep property taxes at the legislated +2.5% cap in 2022 requires the ongoing redirection of MPD resources to cover these inflationary increases including base costs that have compounded over time (\$1.6 million), utility rate increases (\$1 million), and anticipated wage increases (\$1.5 million).

The net change to SPR's operating budget is \$1 million for utility cost increases. The remaining operating costs include base expenses that are already appropriated and will now be backed with MPD capital resources and planning reserves for estimated annual wage increases that will be appropriated at a later date.

Please see the capital changes section of the proposed budget for the corresponding reduction to SPR's Capital Improvement Program.

MPD Funding Realignment for HR/Workforce Equity (see Capital Changes)

Expenditures	\$700,000
Position Allocation	4.25

The 2022 Proposed Budget reallocates \$700,000 of Seattle Park District (MPD) resources from SPR's capital budget for Acquisitions (MC-PR-21001) to support an ongoing investment in the department's Human Resources Team. This change supports a revised service model that advances SPR's vision of becoming an anti-racist organization and is aligned to meet the growing demand for services from a department with over 1,000 regular positions and an

Seattle Parks and Recreation

additional 800-1,000 temporary staff throughout the year.

These resources will allow SPR to increase HR support by 4.25 FTE to 16.0 FTE total, bringing its ratio of FTE to HR staffing into alignment with similarly sized departments. Specifically, this adds:

- a Workforce Equity Advisor (1.0 FTE)
- a Training Coordinator dedicated to anti-racism training deliverables (1.0 FTE);
- an HR Business Partner for the Grounds Maintenance Division (1.0 FTE);
- increases capacity for performance reporting (0.5 FTE), leave of absence (0.5 FTE), and managerial needs (0.25 FTE); and
- reclasses 4.0 positions to Strategic Advisor and Manager roles to better align with their job duties and increased supervisory roles.

Please see the capital changes section of the proposed budget for the corresponding reduction to SPR's Capital Improvement Program.

MPD Funding Realignment for Departmental Equity Team (see Capital Changes)

Expenditures	\$300,000
Position Allocation	3.00

The 2022 Proposed Budget reallocates \$300,000 of Seattle Park District (MPD) resources from SPR's capital budget for Acquisitions (MC-PR-21001) to support an ongoing investment in SPR's Equity Team. This change creates a dedicated, centralized team to work with staff across divisions to establish unified goals and educational curriculums centered around equity. This proposed funding for this change is \$600,000, including \$300,000 from the MPD capital budget and an additional \$300,000 from the net-zero reallocation of base operating costs.

Specifically, this adds three Strategic Advisors to plan, develop and implement equity strategies and structurally embed RSJI policies and practices across the department. Two positions will be added in the Superintendent's office and one position will be added in the Parks and Environment Division. In addition, this item provides the department's Change Team with a small annual budget for supplies.

Please see the capital changes section of the proposed budget for the corresponding reduction to SPR's Capital Improvement Program.

MPD Funding Realignment for Equitable Park Development Fund (see Capital Changes)

Expenditures	\$300,000
Position Allocation	2.00

The 2022 Proposed Budget reallocates \$300,000 of Seattle Park District (MPD) resources from SPR's capital budget to SPR's operating budget to begin to transition the Major Projects Challenge Fund to a new Equitable Park Development Fund as recommended by the Park District Oversight Committee (PDOC) in 2020. The investment will focus on partnering with communities and community groups to make improvements to parks and park facilities in neighborhoods that have a history of racial disparities in access to green space and in safety from environmental harms. This change also adds two positions per PDOC's recommendation to lead this work within the department.

Please see the capital changes section of the proposed budget for the corresponding reduction to SPR's Capital Improvement Program.

Proposed Capital

Partial Restoration of Land-Banked Site Development Funding

Expenditures	\$3,500,000
--------------	-------------

Seattle Parks and Recreation

This item uses one-time fund balance to replenish funding for land-banked site development. In 2020, \$4.7 million of Park District resources were cut from this project due to the COVID-19 pandemic and need to redirect capital funding to support operating initiatives. In 2022, the Park and Recreation Fund has one-time savings that can be appropriated to complete projects in development and resume priority planning efforts towards pandemic impacted projects (48th & Charleston, Ernst Park Addition Development, Morgan Junction RUV, Wedgewood, and West Seattle Junction).

One-time Funding for Site Restoration

Expenditures	\$2,000,000
--------------	-------------

This item adds \$2,000,000 one-time funding from the Cumulative Reserve Subfund (CRS-U) to restore park properties that have been severely damaged after prolonged overuse and misuse during the COVID-19 pandemic. Restoration varies by site, depending on the amount of damage, and includes pest control, fencing, soil and tree replacement, vegetation management, irrigation repairs, drainage repairs, graffiti removal, and more. In some cases, repairs to critical assets like play areas, comfort stations, synthetic fields, buildings, and more is required, greatly increasing both the time and funding needed to make sites safe and operational for the public again. With this one-time funding, SPR estimates it can restore up to 50 sites in 2022; this does not include major repairs to park assets such as replacing play area equipment and comfort stations.

MPD Funding Realignment for Inflationary Cost Increases (see Operating Changes)

Expenditures	\$(4,153,058)
--------------	---------------

This item reallocates \$4.1 million from the Seattle Park District's Major Maintenance Backlog and Asset Management Project (MC-PR-41001) to support inflationary cost increases in 2022. The first funding cycle of the Park District ended in 2020 with 2021 and 2022 representing bridge years until the second funding cycle begins in 2023. In 2021, SPR used one-time resources including the appropriation of interest earnings, fund balance, and delaying repayment of intra-fund loans to cover cost increases such as AWI and utilities; these strategies are not sustainable. To keep property taxes at the legislated +2.5% cap in 2022 requires the redirection of Park District resources to cover these inflationary increases including base costs that have compounded over time, utility rate increases, and anticipated wage increases.

Please see the proposed operating changes for the corresponding adjustment to SPR's operating budget.

MPD Funding Realignment for HR/Workforce Equity (see Operating Changes)

Expenditures	\$(700,000)
--------------	-------------

The 2022 Proposed Budget reallocates \$700,000 of Seattle Park District (MPD) resources from SPR's capital budget for Acquisitions (MC-PR-21001) to support an ongoing investment in the department's Human Resources Team. This change supports a revised service model that advances SPR's vision of becoming an anti-racist organization and is aligned to meet the growing demand for services from a department with over 1,000 regular positions and an additional 800-1,000 temporary staff throughout the year.

Please see the operating changes section of the proposed budget for more details including the corresponding increase to SPR's operating budget.

MPD Funding Realignment for Departmental Equity Team (see Operating Changes)

Expenditures	\$(300,000)
--------------	-------------

The 2022 Proposed Budget reallocates \$300,000 of Seattle Park District (MPD) resources from SPR's capital budget for Acquisitions (MC-PR-21001) to support the ongoing investment in a new Department Equity Team. This change creates a dedicated, centralized team to work with staff across divisions to create unified goals and educational

Seattle Parks and Recreation

curriculums centered around equity.

Please see the operating changes section of the proposed budget for more details including the corresponding increase to SPR's operating budget.

Use One-Time Park Fund Resources to Replenish Acquisitions Fund Balance

Expenditures	\$1,000,000
--------------	-------------

This item uses one-time Park Fund resources to restore \$1 million to the Acquisitions capital project (MC-PR-21001) in 2022. This change offsets the two proposed budget items related to increased HR capacity (\$700,000) and creation of a Departmental Equity Team (\$300,000). In addition, the capital budget for Acquisitions was reduced in 2020 to realign Park District resources in support of basic operating services. This change will result in a net-zero change to the baseline budget in 2022. SPR will review its annual funding level as part of the next Park District planning process.

MPD Funding Realignment for Equitable Park Development Fund (see Operating Changes)

Expenditures	\$(300,000)
--------------	-------------

The 2022 Proposed Budget reallocates \$300,000 of Seattle Park District (MPD) resources from SPR's capital budget to SPR's operating budget to begin to transition the Major Projects Challenge Fund to a new Equitable Park Development Fund as recommended by the Park District Oversight Committee (PDOC) in 2020. The investment will focus on partnering with communities and community groups to make improvements to parks and park facilities in neighborhoods that have a history of racial disparities in access to green space and in safety from environmental harms.

Please see the operating changes section of the proposed budget for the corresponding increase to SPR's operating budget.

REET Restoration: Ongoing Major Maintenance Projects

Expenditures	\$9,999,000
--------------	-------------

This item adds nearly \$10 million to the Major Maintenance Backlog and Asset Management project (MC-PR-41001) in 2022 to extend and preserve the life of assets and replace them at the end of their serviceable life. These refurbishments and replacements improve safety and avoid system failure. In addition, this makes adjustments to the REET funding levels within this project in the outyears of the Capital Improvement Program to align with the updated revenue forecast.

SPR's total Real Estate Excise Tax (REET) funding was reduced by \$19.3 million in 2021; this change is one of many changes intended to restore REET funds to SPR as revenues recover following the COVID-19 pandemic.

REET Restoration: ADA Compliance Project

Expenditures	\$2,500,000
--------------	-------------

This item adds \$2.5 million to the ADA Compliance project (MC-PR-41031) in 2022 and makes adjustments to the REET funding levels within this project in the outyears of the Capital Improvement Program to align with the updated REET revenue forecast.

SPR's total Real Estate Excise Tax (REET) funding was reduced by \$19.3 million in 2021; this change is one of many changes intended to restore REET funds to SPR as revenues recover following the COVID-19 pandemic.

REET Restoration: Adjust Athletic Field Conversion Schedules

Seattle Parks and Recreation

Expenditures \$(2,314,000)

This item adjusts the current project schedules for Soundview Playfield Conversion Project and West Queen Anne Playfield Conversion project in the 2022-2027 CIP. Funding for Soundview Playfield Conversion is reduced in 2022 and 2023 with funding planned for 2024. This project was delayed due to COVID-related cuts in 2020 and will be further delayed from 2023 to 2024. This change allows Seattle Parks and Recreation (SPR) to focus on Asset Preservation projects in equity priority areas in 2022 and 2023.

The six year CIP also restores funding to the West Queen Anne Playfield Conversion Project in 2026 to re-start planning & design. West Queen Anne Playfield conversion was put on hold in 2020 due to COVID-related cuts.

REET Restoration: Boat Moorage Restoration Project

Expenditures \$2,314,000

This item adds \$2.3 million of funding to the Boat Moorage Restoration Project (MC-PR-41021) in 2022 due to revised engineering estimates for the work planned and designed at the South Leschi moorage. The project reflects SPR's commitment in the operating agreement with Marina Management to build the floating breakwater to protect the marina, reduce shoreline erosion, and make it ADA accessible. The project is also supported by \$1 million in State grants from 2016 for which extensions have been received and are now at risk of being lost if the project is delayed beyond 2022.

SPR's total Real Estate Excise Tax (REET) funding was reduced by \$19.3 million in 2021; this change is one of many changes intended to restore REET funds to SPR as revenues recover following the COVID-19 pandemic.

REET Restoration: Carkeek Park Bridge Replacement Project

Expenditures \$2,214,000

This item adds \$2.2 million to create a new Carkeek Park Bridge Replacement project (MC-PR-41075) in 2022 and makes adjustments to the REET funding levels within this project in the outyears of the Capital Improvement Program to align with the updated REET revenue forecast. This funds planning, design and construction of a replacement pedestrian bridge at Carkeek Park to continue to provide access to the beach, as well as removal of the old pedestrian bridge.

SPR's total Real Estate Excise Tax (REET) funding was reduced by \$19.3 million in 2021; this change is one of many changes intended to restore REET funds to SPR as revenues recover following the COVID-19 pandemic.

REET Restoration: South Park Community Center and Campus Improvements

Expenditures \$2,000,000

This item adds \$1 million of REET funds for the South Park Campus Improvements Project (MC-PR-21013) and \$1 million of REET funds to the Community Center Rehabilitation & Development Project (MC-PR-41002) for the South Park Community Center Stabilization Project in 2022. This item is part of a package of investments that expand the Duwamish Valley Program for 2022.

This change is in addition to other items in the 2022-2027 Proposed Capital Improvement Program that increase funding for the South Park Community Center and Campus Improvement projects in 2022 including \$120,000 for Municipal Energy Efficiency Projects (MC-PR-41030) and a to-be-determined share of the Major Projects Challenge Fund (MC-PR-21002).

SPR's total Real Estate Excise Tax (REET) funding was reduced by \$19.3 million in 2021; this change is one of many changes intended to restore REET funds to SPR as revenues recover following the COVID-19 pandemic.

Seattle Parks and Recreation

Add REET Funding for Major Projects Challenge Fund Projects

Expenditures \$1,250,000

This item adds Real Estate Excise Tax (REET) funding to supplement Park District resources in the 2022 Major Projects Challenge Fund (MC-PR-21002). \$750,000 REET is specifically added to support the Green Lake Small Craft Center. The remaining \$500,000 REET and baseline funding of \$1.5 million MPD will be allocated to both the Green Lake Small Craft Center and South Park Community Center and Campus Improvements projects; both projects are expected to need additional funds due to rising construction costs. Any funds remaining following the completion of these two remaining Challenge Fund projects are intended to support capacity building for the transition to the Equity Fund.

Municipal Energy Efficiency Program

Expenditures \$846,809

This item provides funding for energy efficiency projects including \$526,809 from the Citywide Resource Conservation program budget (housed within FAS' CIP) and \$320,000 of new REET directly allocated to SPR. In 2022 this funding will support the following projects:

- Yesler Community Center (\$200,000) - gym electrification
- Helene Madison Pool (\$120,000) - electric service upgrade
- Jefferson Community Center (\$147,103)– HVAC improvements
- Hiawatha Community Center Phase II (\$155,000)– building envelop improvements and HVAC decarbonization
- South Park Community Center (\$120,000) – electrical service upgrade for decarbonization
- Heat Pump Water Heater Program (\$104,706) – decarbonization of hot water heating at community centers

Outdoors For All

Expenditures \$1,500,000

The 2022 Proposed Budget provides \$1.5 million one-time REET funding for Outdoors For All to renovate the historic Building 18 firehouse in Magnuson Park. Outdoors For All has already secured \$10.75 million for the project, including a previous commitment from the City of \$1 million.

Pier 58 Replacement and Pier 63 Demolition

Expenditures \$7,500,000

Revenues \$1,500,000

This change request adds \$3 million of REET funds to fully fund the replacement of Pier 58. It also adds \$3 million of CRS-U funds and \$1.5 million of reimbursable budget authority for State grants to allow for the demolition of Pier 63.

Proposed Technical

MPD Initiative Rebalancing - Capital

Expenditures \$(3,996,893)

This technical adjustment balances the Park District capital budget by initiative to align with the 2022 Park District spending plan. These changes include:

- Lake City Community Center Improvements: The Lake City Community Center Improvements project included a \$5 million placeholder in the 2022 capital budget assuming Park District funding through the updated Park District spending plan. This placeholder has been shifted to the 2023 budget year in alignment with the Park District planning timeline. SPR has also included a \$5 million planning reserve in its Park and Recreation Fund financial plan

Seattle Parks and Recreation

(10200) to support this project; funding will be appropriated through a future budget process in alignment with future planning efforts.

- Parks Central Waterfront Piers Rehabilitation Project: Shifts \$936,192 for the Parks Central Waterfront Piers Rehabilitation Project from 2023 to 2022 to align with the updated 2022 Park District spending plan.

In addition, this includes small budget reconciliations across multiple capital projects resulting in a net change of (\$66,915).

MPD Initiative Rebalancing - Operating

Expenditures	-
--------------	---

This technical adjustment balances the Park District operating budget by initiative to align with the 2022 Park District spending plan and includes net-zero fund transfers.

REET I and II Technical Adjustment

Expenditures	-
--------------	---

This is a net zero technical adjustment that is necessary to balance the REET I & II capital funds.

REET Debt Service True Up

Expenditures	\$(411,372)
--------------	-------------

This item aligns SPR's annual budget for debt service payments with the actual debt service schedule for 2022-2027.

Centralize Event Scheduling Functions

Expenditures	-
Revenues	-
Position Allocation	0.50

This technical adjustment transfers revenue and expenditures within SPR's budget at the detail project level, from the Magnuson Park Partnership Management project to the Event Scheduling project. Both units facilitate and manage short-term rentals at Magnuson Park and this change centralizes functions within Event Scheduling. It includes one position transfer who is responsible for scheduling and increases a half-time Contracts and Concession Coordinator to full time to align with hours the position has historically worked using existing budget authority.

Technical Project Clean Up

Expenditures	\$327,319
Revenues	\$327,319

This budget neutral change adjusts expense and revenue budget within projects to correctly align budget and expenditures.

Technical Position Clean Up

Expenditures	-
Revenues	-
Position Allocation	-

Seattle Parks and Recreation

This technical change adjusts expense and revenue budgets within projects to correctly align the budgets and accounts with position reclassifications done outside of the previous budget process and/or APEX/SAM adjustments, and other technical position changes.

Adjust 300 Elliot Rent Budget

Expenditures -

This item represents a net-zero technical change to transfer Park Fund resources within SPR's budget to cover rent escalation at 300 Elliot and streamline the rental budget in one project to more efficiently manage monthly billings. As negotiated in the lease agreement for the property, rental costs increased by 3% in 2022 for an estimated increase of \$80,000. SPR's capital planning and project delivery staff are located in this facility.

Reconcile CIP Labor Accounts

Expenditures -

This proposal adjusts the CIP to align labor expenses with capital related position changes.

Seattle Center

Robert Nellams, Director

(206) 684-7200

<http://www.seattlecenter.com/>

Department Overview

Seattle Center is home to cultural and educational organizations, sports teams, festivals, community programs (including cultural and community celebrations), and entertainment facilities. Millions of people visit the 74-acre Seattle Center campus annually. Consistently rated as one of the City's top attractions, Seattle Center is a premier urban park whose purpose is to create exceptional events, experiences, and environments that delight and inspire the human spirit and build a stronger community.

The history of Seattle Center dates back to a time well before it existed as a City department in its current form. Prior to the 1850s, the land on which Seattle Center sits was a part of a Native American trail which was later occupied by the David Denny family and eventually donated to the City of Seattle. In 1927, the new Civic Auditorium, now Marion Oliver McCaw Hall, and Arena, now the newly rebuilt Opera Center, were constructed with funding from a levy and a contribution from a local business owner. In 1939, a large military Armory was constructed. In 1948, the Memorial Stadium was built and the Memorial Wall was added in 1952. Finally, in 1962, the community pulled together these facilities and added new structures to host the Seattle World's Fair/Century 21 Exposition. At the conclusion of the fair, the City took ownership of most of the remaining facilities and campus grounds to create Seattle Center. Since its creation in 1963, Seattle Center has nurtured artistry and creativity by providing a home for and technical assistance to a wide variety of arts and cultural organizations. These tenants play a critical role in the arts and cultural landscape of the region.

Originally created after the World's Fair, Seattle Center operated the Coliseum. Later, this facility was renamed KeyArena. Seattle Center operated this major public assembly venue on the campus for sports and concert events. Now Seattle Center is undergoing major changes with the renovation of the Arena, which began in 2019. Following an RFP process, the City selected Oak View Group (OVG)/Seattle Arena Company (ArenaCo) to renovate the Arena using private funding. The renovation was completed in 2021, and ArenaCo is operating the building. The new building is hosting the NHL's newest franchise, the Kraken, as well as the WNBA's Seattle Storm along with a variety of concerts, family shows, and other events.

Seattle Center is financed by a combination of tax dollars from the City's General Fund and revenue earned from commercial operations. Major sources of commercial revenues include facility rentals, parking fees, long-term leases to non-profit organizations, sponsorships, food sales, and monorail fares.

Due to the size and importance of commercial revenues, Seattle Center confronts many of the same market factors as other businesses. Changing consumer preferences, fluctuating demand, and the many options customers have in terms of discretionary spending all influence the financial performance of Seattle Center. Seattle Center's situation is also unique in that it must meet the simultaneous financial challenges of competition with other facilities that host events; the presence on campus of long-term, non-profit tenants; and the need to balance its public and private event offerings.

Seattle Center

Budget Overview

As the rollout of the COVID-19 vaccine eases public health restrictions on gatherings and events, Seattle Center anticipates a gradual return to normal operations starting in 2022. This anticipation is boosted by the opening of the Climate Pledge Arena in October 2021. Some of Seattle Center's largest revenue sources are events and parking and with headlining concerts and long-awaited Kraken hockey games at the Arena, Seattle Center's revenues are expected to increase.

Despite this, Seattle Center is still dealing with the long-term financial impacts of the pandemic. Seattle Center has not held a major event for over a year and a half, and they have granted rent-relief to their tenants for most of 2020 and 2021. The 2021 Adopted Budget had included legislation that increased Seattle Center's interfund loan from \$5 million to \$18 million and extended the repayment period from 2026 to 2033.

Even with the on-going reductions identified in the 2021 Adopted Budget and the increase in the interfund loan, the impacts of the pandemic on the department's ability to generate revenue was greater than anticipated. Seattle Center would have needed to identify additional cuts in 2022 to remain within the current loan requirements. These cuts would have had drastic impacts on the staffing, programming, and maintenance of the facility. To avoid layoff situations and further adverse reductions on revenue-generating programming, the 2022 Proposed Budget includes \$1.2 million in General Fund support. This one-time support also allows Seattle Center to pay off their interfund loan by 2033.

In anticipation of the resumption of events, the 2022 Proposed Budget also restores 2021 reductions to the McCaw Hall fund baseline budget. The City, Seattle Opera, and the Pacific Northwest Ballet's contributions to the McCaw Hall Capital Reserve Fund will also resume in 2022 after it was temporarily paused in 2021 because of the financial strains caused by the pandemic.

Lastly, Seattle Center's 2022 Capital Improvement Program (CIP) includes replacing windows in the Armory, adding fog jets to the International Fountain, addressing mechanical systems leaks in buildings across the campus, upgrading pedestrian lighting along Thomas Street, and replacing the Fisher Pavilion roof. Seattle Center also

Seattle Center

received additional Real Estate Excise Tax (REET) funding which will be used to renovate the first floor Armory restrooms to better meet ADA guidelines and expand capacity of the women's restroom. For more details on Seattle Center's capital projects, see the 2022-2027 Adopted CIP Overview.

Seattle Center

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures	\$400,271
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures	\$144,107
--------------	-----------

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

One-time Operating Fund Swap Reversal

Expenditures	-
--------------	---

This change reverses a one-time funding shift of \$2.6 million that occurred in the 2021 Adopted Budget to provide Seattle Center with additional General Fund support to keep its Interfund Loan at a manageable level.

Adjustment of Use of/Contribution to Fund Balance for Baseline

Revenues	\$579,387
----------	-----------

Proposed Operating

Restoration of McCaw COVID Reductions

Expenditures	\$2,121,460
--------------	-------------

This change reinstates the event-related expenses for McCaw Hall that were reduced from the department's 2021 budget because of the COVID-19 pandemic. The department had assumed a much smaller level of events in the facility in 2021. This item assumes those events will return in 2022; therefore, it increases appropriation authority.

Resumption of McCaw Hall Capital Reserve Contributions

Expenditures	\$281,000
--------------	-----------

This proposal resumes the annual contribution to the McCaw Hall Capital Reserve Fund. This fund is established in the McCaw Hall Operating Agreement between the City, Pacific Northwest Ballet and Seattle Opera. Every year, these entities contribute an amount (50% from the City, 25% each from the Opera and Ballet) into this fund that is dedicated to address ongoing capital improvements for McCaw Hall. By unanimous agreement, contributions were suspended for 2020-2021 due to the financial constraints brought on by the COVID-19 pandemic. Contributions are to resume in 2022.

Seattle Center

Campus Signage Package Debt Service

Expenditures	\$864,088
Revenues	\$864,088

This item increases appropriation authority to pay for the debt service on a comprehensive campus-wide signage package. Ordinance 120006 approved the issuance of \$8,000,000 in bonds to pay for this package. The debt service begins in December 2021 with an interest only payment; principal payments begin in 2022 and go through 2031. The debt service will be funded by increased sponsorship revenues.

Transfer On-Loan Position to Seattle Center

Expenditures	\$197,392
Position Allocation	1.00

This item transfers a position from The Office of Planning and Community Development (OPCD) to Seattle Center. The position has been on loan from OPCD to the Seattle Center for the last several years to assist in the Seattle Center Master Planning process and related redevelopment projects. This adjustment permanently transfers the position and its associated budget to the Seattle Center.

Unfunded Position Abrogations

Position Allocation	(2.00)
---------------------	--------

This item abrogates two vacant positions in a continuation of a proposal in the 2021 Adopted Budget. The previous proposal anticipated upcoming vacancies in 2 positions (1.0 FTE Sound Operator and 1.0 FTE Accounting Technician). The department unfunded these positions to realize the savings, but was allowed to temporarily maintain the pocket to avoid a potential layoff situation. The work performed by these positions has been redistributed to other staff.

Proposed Capital

Resumption of McCaw Capital Reserve Funds Appropriation

Revenues	\$597,987
----------	-----------

This item reinstates the appropriation of funds into and out of the McCaw Capital Reserve Fund. This fund is a contractual reserve fund which receives contributions from the City, Pacific Northwest Ballet, and Seattle Opera. The monies in this fund pay for ongoing capital improvements to McCaw Hall. Due to the financial constraints on all parties brought on by the COVID-19 pandemic, contributions were temporarily paused in 2020 and 2021. The contributions will resume in 2022.

Update Fund 30010 (REET) 2022-2027 Project Budgets

Expenditures	\$4,380,171
--------------	-------------

This item re-aligns the REET (fund 30010) CIP allocation by project for 2022 - 2027. These projects include:

- \$2.1M to replace the Fisher Pavilion roof and improvements to the Thomas Street pedestrian walkway
- \$635,000 to replace Seattle Children's Theater's roof
- \$475,000 for campus HVAC Improvements
- \$430,000 for improvements to public space gatherings
- \$425,000 for General Site Improvements which include LED lighting for the International Fountain and other needed improvements on the campus
- \$300,000 for Armory Rehabilitation which covers emergency repairs, major maintenance, and overall tenant improvements. The use of these funds is directed by the Armory Operating Board

Seattle Center

CEN/OSE Capital Coordination - Energy Efficiency for Municipal Buildings

Expenditures \$77,986

This item funds two projects aimed at furthering the City's Municipal Energy Efficiency Project (MEEP). The projects include installation of LED lighting at the Bagley Wright Theatre as well as LED lighting in McCaw Hall. The Bagley Wright project will provide an LED lighting upgrade for the lobby, shop spaces as well as the house lights. The McCaw Hall project will fund an LED lighting upgrade in various back of house spaces replacing T-8 fluorescent lights.

Armory Restroom Renovation

Expenditures \$1,100,000

This REET funding is to renovate outdated restrooms on the first floor of the Seattle Center Armory. These restrooms are located on the east side of the building and are the closest to the ADA accessible entrance near the Artists at Play playground and the Center Theatre. The project will bring the restrooms up to ADA standards and will increase capacity in the women's restroom.

Armory Generator

Expenditures -

This item adds \$800,000 in REET I funding in 2023 for improvements needed to replace the emergency generator in the Armory, an urgent priority identified in the 2021 Facility Condition Assessment.

Proposed Technical

Revenue Adjustment

Revenues \$4,795,925

This proposal makes technical adjustments to Seattle Center's revenue budget to align with projected business levels. The department had assumed a much lower level of events in the facility in 2021. This item assumes those events will return in 2022; therefore, it increases the estimated revenues.

General Fund Support

Expenditures -

This item offers one-time General Fund revenue support of \$1,200,000 to the Seattle Center Campus Fund. Some of Seattle Center's largest revenue sources are events and parking, and due to public health restrictions on large gatherings, Center was not able to hold in-person events for most of 2020 and 2021. This one-time shift in funding from Center's operating fund to the General Fund allows Center to avoid making budget reductions to maintenance, programming, and staffing costs which would have largely impacted the facility's operations.

Fund Balancing Entries

Revenues \$(1,673,773)

This is a technical item to record a fund balancing entry for the Seattle Center Campus (11410) and McCaw Hall (11430) funds, which are primarily managed by this department.

Expenditures/FTE	Actuals	Adopted	Proposed
Indirect Cost Recovery Offset	(936,138)	(5,880,822)	4,580,822

Seattle Public Library

Tom Fay, Interim Chief Librarian

(206) 386-4636

<http://www.spl.org>

Department Overview

The Seattle Public Library (SPL), founded in 1891, includes the world-renowned Central Library, 26 neighborhood libraries, a robust "virtual library" available 24/7 through SPL's popular website and a Mobile Services division. While the Central Library supports library services for downtown residents and workers, it is also the hub for planning and developing systemwide programs and services. In addition, the Central Library provides critical computer and Wi-Fi access for people without internet service, as well as community meeting rooms and an auditorium for cultural and educational programs. The 26 neighborhood libraries provide services and programs close to where people live, go to school and work, and serve as neighborhood anchors for lifelong learning, civic engagement, and economic vitality.

The Library is governed by a five-member Library Board of Trustees, who are appointed by the Mayor and confirmed by the City Council. Board members are eligible to serve two five-year terms. The Revised Code of Washington (RCW 27.12.240) and the City Charter (Article XII, Section 5) grant the Board of Trustees "exclusive control of Library expenditures for Library purposes." The Library Board adopts an annual Operations Plan in December after the City Council approves the Library's budget appropriation.

Budget Snapshot

	2020 Actuals	2021 Adopted	2022 Proposed
Department Support			
General Fund - Operating	57,000,693	54,301,685	60,491,274

Total Operations	77,172,107	77,674,995	85,316,584
Capital Support			
Other Funding - Capital	2,404,339	9,237,000	9,502,000
Total Capital	2,404,339	9,237,000	9,502,000
Total Appropriations	79,576,447	86,911,995	94,818,584

Budget Overview

In 2020, the City was projecting significant revenue loss due to the economic impacts of COVID-19. As a result, the General Fund support to the Seattle Public Library (SPL) was reduced by \$5.8 million in the 2021 Adopted Budget (10% of the SPL General Fund budget). SPL was able to partially offset this reduction with 2019 Library Levy resources primarily designated to expand operating hours. Because of COVID-19, the budget assumed that library branches would not fully reopen until summer 2021.

Seattle Public Library

Library services have been significantly modified in 2021. In early 2021, the Central Library and many branches continued Curbside Pickup Service and/or book returns, with remaining staff working in the other branches to process materials for Curbside Services and Mobile Services or offering virtual services, programming and online customer services. In addition, five branches provided access to restrooms to help support the insecurely housed.

As COVID-19 vaccinations became available and public health guidance changed, SPL was able to move to reopening the Central Library and library branches in a limited capacity. Due to the significant modifications in Library services in 2020 and 2021, SPL has budget savings that will be used in 2022 to support operations. In total \$700,000 from current and prior year budgets will be used to support SPL operations in 2022.

In addition to the budget savings of \$700,000, the 2022 Proposed Budget includes \$5.1 million in General Fund support to fully restore the \$5.8 million operating reduction. This funding will allow SPL to return to pre-pandemic operating hours as well as expand operating hours as outlined in the 2019 Library Levy.

In addition to fully restoring operating hours, the funding restores the labor budgets for circulation staff, special collections, technology, and community partnerships. The restoration of funding also supports the budget for books and materials.

Seattle Public Library

Description of Incremental Budget Changes

Baseline

Baseline Adjustments for Personnel Costs

Expenditures \$43,764

This change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Reconciliation with 2021 Adopted Central Cost Manual

Expenditures -

This is a budget neutral technical change to align budget with the Central Cost Manual.

Update Capital Master Projects

Expenditures -

This is a budget neutral technical change to update the Capital Improvement Program (CIP) master projects.

Proposed Operating

Restore Operating Budget

Expenditures \$5,797,000

This item restores \$5.1 million in General Fund resources for SPL operations, and uses \$700,000 in SPL fund balances to bring the operating budget back to pre-pandemic levels. Due to projected declines in General Fund revenues, the 2021 Adopted Budget included a \$5.8 million reduction in General Fund resources for the SPL budget. Because of COVID-19, library services in 2021 were disrupted and branches remained closed in early 2021 aside from providing curbside services and restroom services at some branches. Branches started reopening in spring 2021, and fully reopened in September 2021. Due to both the service disruptions, and the influx of federal resources, the SPL budget will not be fully spent in 2021. This allows SPL to use \$700,000 in unspent resources in 2022 to support operations, reducing the need for General Fund support by the same amount.

Proposed Capital

Increase Capital Budget

Expenditures \$362,000

This item allocates additional Real Estate Excise Tax (REET) funding to support seismic retrofit projects at Library's highest-risk Carnegie-era branches. The 2019 Library Levy includes funding for seismic projects at the Green Lake, Columbia, and University Branches. The REET revenues plays a vital role in supporting projects that are beyond the scope of the Library's levy including building upgrades that would be considerably less expensive if performed concurrent with the seismic work.

SPL Energy Efficiency for Municipal Buildings

Expenditures \$425,000

This item includes funding for energy efficient projects in municipal buildings. The funding will be allocated to energy efficient projects at the Green Lake and Broadview library branches. This funding is part the Municipal Energy

Seattle Public Library

Efficiency Project (MEEP), a citywide capital project spanning multiple departments to improve building energy efficiency in City-owned facilities.

Proposed Technical

Align 2012 Library Levy to Spending Plan

Expenditures	\$(138,000)
--------------	-------------

This is a technical adjustment to bring the beginning balance for Fund 18100 into alignment with the spending plan associated with the voter approved 2012 Library Levy.

Align 2019 Library Levy to Spending Plan

Expenditures	\$893,000
--------------	-----------

This is a technical adjustment to bring the beginning balance for Fund 18200 into alignment with the spending plan associated with the voter approved 2019 Library Levy.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$961,825
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process. The largest change in is the health care bill (\$708,000) as SPL restores staffing levels.

Fund Balancing

Revenues	\$542,000
----------	-----------

This is a technical item to record a fund balancing entries for the Library Fund (10410), the 2012 Library Levy Fund (18100), and the 2019 Library Levy Fund (18200).

Language Premium Staff Stipend

Expenditures	\$84,000
--------------	----------

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

Revenue Adjustments

Revenues	\$6,477,589
----------	-------------

SPL generated revenues are projected to chart a slow recovery during 2022. As the economy recovers different elements of our enterprise revenues are projected to recover at different rates, with private event rentals expected to experience the slowest recovery. SPL contracted with a new vendor to deaccession books and materials, which is expected to generate \$60,000 for 2022. This item also reflects an increase in collection of levy property tax revenues and interest earnings for 2022.

Seattle Public Library

SPL - BO-PL-B2CTL - Chief Librarian's Office

The purpose of the Chief Librarian's Office is to provide leadership for the Library in implementing the policies and strategic direction set by the Library Board of Trustees, and in securing the

Seattle Public Library

necessary financial resources to operate the Library in an effective and efficient manner. The Chief Librarian's Office serves as the primary link between the community and the Library, and integrates community needs and expectations with Library resources and policies.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Chief Librarian's Office	680,826	662,806	636,962
Total	680,826	662,806	636,962

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPL - BO-PL-B4PUB - Library Program and Services

The purpose of the Library Programs and Services Division is to provide services, materials, and programs that benefit and are valued by Library patrons. Library Programs and Services provides technical and collection services and materials delivery systems to make Library resources and materials accessible to all patrons.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Collections and Access	17,478,874	18,069,421	19,511,758
Information Technology	5,052,461	5,287,228	5,790,396
Public Services	36,678,765	37,113,404	41,469,416
Total	59,210,101	60,470,053	66,771,569

Department of Education and Early Learning

Dwane Chappelle, Director

(206) 233-5118

www.seattle.gov/education

Department Overview

The mission of the Department of Education and Early Learning (DEEL) is to transform the lives of Seattle's children, youth, and families through strategic investments in education. DEEL lives its mission by investing in equitable education opportunities, high-quality learning environments, and student and family supports. DEEL investments contribute to four department results for all Seattleites: (1) families have access to affordable, quality childcare, (2) children are kindergarten ready, (3) students graduate high school college and career ready, (4) students attain a postsecondary degree, credential, or certificate.

DEEL investments span prenatal-to-postsecondary and weave together a continuum of supports for children, youth, and families that address educational opportunity gaps and disparities. By braiding and blending resources from the Families, Education, Preschool, and Promise (FEPP) Levy, the Sweetened Beverage Tax (SBT), the City's General Fund, and the Early Childhood Education and Assistance Program (ECEAP), DEEL stewards direct-service programs, contracts with community-based and institutional partners, and provides quality teaching and professional development supports to service providers.

DEEL builds linkages across the youth-service continuum, and partnership is at the core of all we do. DEEL's Child Care Assistance Program (CCAP) and the Seattle Preschool Program (SPP) are implemented in partnership with a network of community-based child care and early education providers including the Seattle Public School District. School Based Health Centers are implemented in partnership with Public Health Seattle—King County, Seattle Public School District, and community-based health care providers. Finally, the Seattle Promise Program is made possible through partnerships with the Seattle Colleges and Seattle Public School District. Indeed, DEEL's approach to education investments depends on collective impact.

DEEL uses a results-based accountability framework and performance monitoring to track progress toward outcomes. DEEL also convenes an Oversight Committee to monitor and advise of FEPP Levy investments, as well as regularly attends and presents to the SBT Community Advisory Board.

Department of Education and Early Learning

Budget Overview

DEEL implements its mission to support Seattle's children by leveraging its funding from the FEPP Levy; the City's General Fund; Sweetened Beverage Tax (SBT) revenues; federal, state, and private grants; and partnerships with other City departments. The 2022 Proposed Budget allocates federal resources to support expansion of the Seattle Promise program and to provide additional stabilization grants to child care providers. The budget also continues funding for the Black, Indigenous and People of Color (BIPOC) investments recommended by the Equitable Communities Initiative (ECI) Task Force and continues funding for a Prenatal-3 grant program. The 2022 Proposed Budget also adds staffing capacity to DEEL to support the department's expanded portfolio of work. Key investments are highlighted below and more detailed information can be found in the incremental changes section.

Seattle Promise

The City of Seattle is receiving approximately \$232 million in federal Coronavirus Local Fiscal Recovery Funds (CLFR), which will be awarded in two tranches. The first tranche, appropriated in 2021 through Ord 126371, included an allocation of \$4 million to expand the Seattle Promise program. The 2022 Proposed Budget includes an additional \$6.7 million in CLFR funds for Seattle Promise to bring the total investment to \$10.7 million. The funding is part of the Seattle Rescue Plan 3 (SRP3). See the Seattle Rescue Plan section of this 2022 Budget Book for more information on SRP3.

The federal funding is directed to alleviate impacts on students during COVID-19 and to support new partnerships with the University of Washington and extended tuition and program supports at Seattle Colleges. Funds will offer additional college preparation and persistence support for recent public high school graduates, particularly students of color, participating in the program. Funds will also bolster Promise scholar pathways to college completion through a new partnership with the University of Washington and extended tuition and program supports at Seattle Colleges. New federal funding and partnerships will address educational equity toward three key program outcomes: student preparation for college-level coursework, retention in college, and completion of certificate, credential, degree or transfer to four-year institution.

Equitable Communities Initiative

In late 2020, the Mayor convened the Equitable Communities Initiative (ECI) Task Force. The task force was charged with developing strategies that begin to address the disparities caused by years of disinvestment in communities of color. From December 2020 to June 2021, the Task Force of 26 community leaders met weekly for more than 60 cumulative hours in over 30 meetings. The task force recommendations, released in June 2021, included \$6 million for an Equity and Cultural Education Fund. The ECI task force funding was appropriated in 2021 through Ord 126401.

The 2022 Proposed Budget includes ongoing funding of \$6 million for the Equity and Cultural Education Fund, including \$2 million to be targeted to cultural education. The appropriation for the fund is split between DEEL (\$4 million) and ARTS (\$2 million). The two departments will jointly run a competitive process to award the funding to community organizations. A small portion of the funding will support administrative and programmatic costs for the City departments.

Child Care

The COVID-19 pandemic highlighted challenges in the child care system, including affordability and access for families. The onset of COVID-19, with new guidelines for health, safety, and class ratios has increased the burden of providers to operate safely while maintain financial solvency. There has been recognition at the national, regional and local level that the child care sector is both crucial to keeping our economy functioning during COVID-19 and particularly vulnerable financially.

There are significant investments being made in child care at the state, regional, and local levels of government. Some of the investments include funding for child care facilities, provider stabilization grants, and expanded eligibility for the State's Working Connections Child Care (WCCC) program. In addition, the recently renewed King

Department of Education and Early Learning

County Best Starts for Kids Levy includes funding for a new Countywide child care subsidy program which is expected to be implemented in mid-2022.

The City of Seattle allocated federal funding in 2021 for investments in child care facilities (\$5 million), one-time bonus payments for child care workers (\$3 million), and child care provider stabilization grants (\$2.4 million). The 2022 Proposed Budget includes additional federal funding for child care stabilization grants (\$2.4 million). These funds will be used to address the economic hardship child care providers and their employees experienced due to a loss of income, layoffs, and reduced work hours because of the COVID-19 crisis. Two populations are eligible for assistance: 1) licensed child care providers (both centers and family child care homes); and 2) family, friend, and neighbor (FFN) providers.

Description of Incremental Budget Changes

Baseline

Align Budget to Central Cost Manual

Expenditures \$(196,810)

This is a technical change to align the 2022 baseline budget to the 2021 adopted central cost manual.

Baseline Adjustments for Personnel Costs

Expenditures \$153,483

This change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Contract Inflation

Expenditures \$130,465

This is a technical baseline change to include an inflationary adjustment on General Fund and Sweetened Beverage Tax (SBT) contracts.

FEPP Funding Source Update

Expenditures -

Revenues -

This is a technical change to update the funding source code for the Families Education Preschool and Promise Levy (FEPP) from funding source code FEPP21 to FEPP22.

Grants Funding Source Code Changes

Expenditures -

Revenues -

This is a technical change to update the funding source codes for the Early Childhood Education and Assistance Program (ECEAP) grant.

Remove 2021 One-Time Adds

Expenditures \$(2,117,000)

This is a technical change to remove one-time budget adds from the baseline budget. The adjustments include removing Sweetened Beverage Tax (SBT) funding for the Prenatal-3 grant program, and making a technical

Department of Education and Early Learning

adjustment to the Families and Education Levy (FEL) budget. The SBT funding for the Prenatal-3 grant program is continued and described in the proposed budget changes below. The 2021 Adopted Budget included an appropriation increase for the FEL Levy, but the budget increase was duplicative as the FEL budget authority automatically carries forward from one year to the next.

Proposed Operating

Child Care Stabilization Grants Expansion

Expenditures	\$2,400,000
--------------	-------------

The change request allocates \$2.4M in CLFR federal funds to expand the child care stabilization grant program that began in 2020. These funds will be used to address the economic hardship child care providers and their employees experienced due to a loss of income, layoffs, and reduced work hours because of the COVID-19 crisis. Two populations are defined for assistance: 1) licensed child care providers (both centers and family child care homes); and 2) family, friend, and neighbor (FFN) providers.

Continue Prenatal to Three Grant program

Expenditures	\$1,500,000
--------------	-------------

This item continues funding the Prenatal-3 grant program which was included in the 2021 Adopted Budget as a one-time investment. This program provides funding to community-based organizations that specialize in high-quality prenatal-to-three and kindergarten readiness services that seek to reduce disparities in outcomes for children based on race, gender, or other socioeconomic factors. Priority is given to organizations that offer culturally and linguistically relevant services and outreach, as well as those led by people of color and serving communities of color and/or low-income communities. This ongoing funding has been recommended by the Sweetened Beverage Tax Community Advisory Board and the program is funded with the Sweetened Beverage Tax (SBT).

Data and Evaluation Analyst

Expenditures	\$151,701
Position Allocation	1.00

This item adds 1.0 FTE K-12 data analyst to communicate K-12 investment accomplishments and show the collective impact of K-12 investments on student outcomes. This position will involve gathering and analyzing data from various data sources (education and finance) to create internal and external dashboards to inform planning, continuous improvements, and ensure progress is being made to reach department goals and results.

Equitable Communities Initiative - Education

Expenditures	\$4,000,000
Position Allocation	1.00

This item continues funding for an Equity and Cultural Education Fund. As part of the Equitable Communities Initiative (ECI), the education workgroup recommended \$6 million to establish an Equity and Cultural Education Fund, with \$2 million specified for cultural education annually. The Fund is designed to benefit BIPOC youth impacted by systemic inequities in education. The appropriation for the fund is split between DEEL (\$4 million) and ARTS (\$2 million). Some of the funding will support administrative costs to operate the program.

Activities supported by the Fund include:

1. Youth leadership and cultural education
2. Family support and engagement
3. Educator diversity and professional/organizational development

Department of Education and Early Learning

Participants in these activities may be youth, families, educators, and/or community-based organizations. While the Fund prioritizes BIPOC-led community-based organizations and sole proprietors, it does not preclude partnerships with formal education systems and institutions. Funds may also be used to support organizational development for BIPOC-led non-profits and evaluation activities.

Seattle Promise Additional Support

Expenditures	\$6,757,891
--------------	-------------

This item includes the second appropriation of federal Coronavirus State and Local Fiscal Recovery Funds (CLFR) for the Seattle Promise program. In total (and including funds previously allocated in 2021), \$10.7 million in CLFR funding is allocated to Seattle Promise to address impacts on students during COVID-19 and to support new partnerships with the University of Washington and extended tuition and program supports at Seattle Colleges. Funds will offer additional college preparation and persistence support for recent public high school graduates, particularly students of color, participating in the program. Proposed funds will also bolster Promise scholar pathways to college completion through a new partnership with the University of Washington and extended tuition and program supports at Seattle Colleges. New federal funding and partnerships will address educational equity toward three key program outcomes: student preparation for college-level coursework, retention in college, and completion of certificate, credential, degree or transfer to four-year institution.

Senior Finance Analyst

Expenditures	\$141,608
Position Allocation	1.00

This item adds 1.0 FTE Senior Finance Analyst position to provide general financial and accounting support to both the DEEL finance and accounting units to meet the growing body of work stemming from new programming and associated funding. This position will provide financial management, grants monitoring, and accounting support for all of DEEL's investments.

Proposed Technical

Balancing

Revenues	\$(1,840,042)
----------	---------------

This is a technical item to record fund balancing entries for DEEL levy funds.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$(91,328)
--------------	------------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Early Childhood Education and Assistance (ECEAP) Grant Increase

Expenditures	\$505,496
--------------	-----------

This item reflects an increase in the ECEAP preschool grant program in recognition of the additional funds received to support complex needs and to implement summer programming. The City administers the Washington State ECEAP grant which provides high-quality preschool services to low income (110% FPL) families in Seattle.

Department of Education and Early Learning

Additionally, the state added funds to expand programming into the summer to reduce learning loss caused by COVID.

Early Learning Budget Technical Adjustments

Expenditures -

This is a budget neutral technical change request to align budget to the appropriate accounting activities.

Early Learning FEPP Spending Plan Alignment

Expenditures \$3,821,608

This item is a technical change to align the 2021 Proposed Budget with the Families, Education, Preschool and Promise (FEPP) Levy Implementation & Evaluation Plan, and adjust for Seattle Preschool Program projected tuition collection. The plan includes a 7-year program budget summary and is based on cost model projections that include non-labor inflation, labor cost changes and other programmatic changes. For the 2021-2022 school year, DEEL anticipates adding six new Seattle Preschool Program classrooms and three family child care sites. DEEL is also adding staffing to support program growth.

ECEAP Budget Adjustments

Expenditures -

This is a budget neutral Change Request for the ECEAP grant to better align project and activity budget items to their appropriate use.

K-12 FEPP Spending Plan Alignment

Expenditures \$1,285,212

This item is a technical change to align the 2021 Proposed Budget with the Families, Education, Preschool and Promise (FEPP) Levy Implementation & Evaluation Plan. The plan includes a 7-year program budget summary and is based on cost model projections that include non-labor inflation, labor cost changes and other programmatic changes.

Language Premium Staff Stipend

Expenditures \$2,400

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

Leadership and Admin FEPP Spending Plan Alignment

Expenditures \$31,040

This item is a technical change to align the 2021 Proposed Budget with the Families, Education, Preschool and Promise (FEPP) Levy Implementation & Evaluation Plan. The plan includes a 7-year program budget summary and is based on cost model projections that include non-labor inflation, labor cost changes and other programmatic changes.

Department of Education and Early Learning

Post-secondary FEPP Spending Plan Alignment

Expenditures	\$307,324
--------------	-----------

This item is a technical change to align the 2021 Proposed Budget with the Families, Education, Preschool and Promise (FEPP) Levy Implementation & Evaluation Plan. The plan includes a 7-year program budget summary and is based on cost model projections that include non-labor inflation, labor cost changes and other programmatic changes.

Revenue Adjustments

Revenues	\$7,663,214
----------	-------------

This change request modifies DEEL's revenue budget associated with grants and the FEPP levy. These amounts tie to the proposed expenditure changes.

Second Quarter Supplemental Budget Ongoing Items

Expenditures	\$17,545
Position Allocation	4.00

This item adds four positions that were authorized during the 2021 Q2 Supplemental Budget and continues an appropriation increase to reflect an increase in the federal Upward Bound grant. The positions include two positions supporting the Seattle Promise program (A Strategic Advisor who will support program expansion and a Strategic Advisor who will support Data and Evaluation) and two positions supporting the Seattle Preschool Program ramp up (a Human Services Coordinator who supports enrollment and an Early Education Specialist Coach to support teachers).

Sweetened Beverage Tax Funding Source Cleanup

Expenditures	-
--------------	---

This is a budget neutral technical change request to remove the old funding source code (SWBEVTAX) which existed under the General Fund in the first year of the program.

Department of Education and Early Learning

Appropriations by Budget Summary Level and Program

DEEL - BO-EE-IL100 - Early Learning

The purpose of the Early Learning Budget Summary Level is to help children enter school ready to succeed, provide preschool teachers with resources and training, and assist Seattle families with gaining access to early learning resources.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Early Learning	44,749,997	58,358,374	65,108,201
Total	44,749,997	58,358,374	65,108,201
Full-time Equivalents Total*	60.50	61.50	63.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

DEEL - BO-EE-IL200 - K-12 Programs

The purpose of the K-12 Division Budget Summary Level is to manage K-12 investments.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
K-12 Programs	31,503,980	33,835,328	38,253,800
Total	31,503,980	33,835,328	38,253,800
Full-time Equivalents Total*	17.00	17.00	18.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

DEEL - BO-EE-IL300 - Post-Secondary Programs

The purpose of the Post-Secondary Budget Summary Level is to help achieve the goal of the City's Education Action Plan that 70% of all student groups in Seattle Public Schools will go on to attain a post-secondary credential by the year 2030.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Post-Secondary Programs	8,162,361	5,212,088	12,281,988
Total	8,162,361	5,212,088	12,281,988

Human Services Department

Tanya Kim, Acting Director

(206) 386-1001

<http://www.seattle.gov/humanservices/>

Department Overview

The mission of the Human Services Department (HSD) is to connect people with resources and solutions during times of need, so all Seattle residents can live, learn, work, and take part in strong and healthy communities. HSD contracts with more than 170 community-based human service providers and administers programs to ensure Seattle residents have food and shelter, education and job opportunities, access to health care, opportunities to gain social and economic independence and success, and many more of life's basic necessities. HSD also serves King County as the Area Agency on Aging. HSD is committed to working with the community to provide appropriate and culturally relevant services.

Through the lens of racial equity, HSD supports programs, initiatives, and policies that address six investment impact areas:

1. Preparing Youth for Success
2. Supporting Affordability and Livability
3. Addressing Homelessness
4. Promoting Public Health
5. Supporting Safe Communities
6. Promoting Healthy Aging

HSD's work is funded by a variety of revenue sources, including federal, state, and inter-local grants, as well as the City's General Fund, Sweetened Beverage Tax Fund, Short Term Rental tax revenues, and the Payroll Tax Fund. External funding such as grants represent 34% of HSD's \$286.8 million 2022 Proposed Budget.

Human Services Department

Budget Overview

The 2022 Proposed Budget for the Human Services Department (HSD) is \$286.8 million. The proposed budget prioritizes investments in addressing homelessness and community safety, and expanding programs for those who have disproportionately been affected by increases in violence and lack of access to healthcare. The 2021 Adopted Budget had a significant amount of one-time COVID-response related funding, and while that funding is no longer available, the 2022 Proposed Budget, using Coronavirus Local Fiscal Recovery (CLFR) funding and other resources, mitigates the service impacts to homelessness investments and makes a significant investment in permanent housing.

The proposed budget for the Human Services Department includes \$115 million in funding for addressing homelessness. Of this funding, 91% (\$104.2 million) will be transferred to the King County Regional Homelessness Authority (KCRHA) to support programs started by HSD that will become part of KCRHA's budget. The Mayor's office, HSD and KCRHA worked together to identify priorities and funding gaps in the current homelessness programs and address them in this budget. HSD is working closely with the KCRHA to ensure the Authority has in place the appropriate infrastructure to assume administration of 2022 contracts that fund homelessness services across the city.

Of note among all of the funded activities, the proposed budget prioritizes a new approach to the use of Federal Emergency Housing Vouchers by making support services available through on-going funding proposed in this budget and, as needed, from the Rapid Rehousing program. The Federal priority for these vouchers is to expand access to rental assistance to persons experiencing homelessness and thus facilitate access to stable housing. These vouchers are restricted to just rental assistance. By pairing supportive services with the voucher, housing becomes more accessible to people with a higher acuity of need, who may have a longer history of homelessness, who may be unsheltered, and for whom support services will help with stabilization and successful retention of housing.

In 2021, HSD invested one-time funding for COVID-19 pandemic response in opening new shelter and creating new housing options through an increase in funding to RRH. The proposed budget further prioritizes multi-year federal funding for the ongoing support of 24/7 non-congregate emergency shelters. One year of funding is also provided for the continued mitigation measures to prevent the spread of COVID-19 and ensure clients are safe.

HSD staff worked closely with the KCRHA to ensure that the 2022 Proposed Budget also reflects the priorities of the KCRHA through increased shelter options and improved throughput from shelter to housing. Separately, one-time capital funding for tiny home villages was awarded to the City as part of the State's 2021 budget process. To operationalize this \$2 million grant, the Mayor's proposed budget includes funding for the operations of these villages or other non-congregate emergency shelter. These proposed changes to the HSD budget are in addition to base funding for emergency shelters, case management, diversion, outreach, hygiene/day centers, homelessness prevention, and permanent supportive housing supportive services.

In 2021, the new Safe and Thriving Communities Division began operations to elevate the department's investments in community safety and violence prevention. The division includes three units: Community Safety, Crime Survivor Services, and the Mayor's Office on Domestic Violence and Sexual Assault (MODVSA). The 2022 Proposed Budget continues the investments in these programs by prioritizing investments in programs to help support survivors/victims of gender-based violence, adding two additional victim advocates, and renewing the Mayor's 2021 investment of \$10 million to continue community safety capacity building.

Continuing the investments proposed by the Equitable Communities Initiatives Task Force, the 2022 Proposed Budget sustains funding to reduce the disproportionate negative impacts of the criminal justice system and healthcare system on members of Black, Indigenous, and People of Color (BIPOC) communities. An additional \$1.5 million investment is proposed to reduce the disproportionate impacts of homelessness, domestic violence and sexual assault on American Indian/Alaska Native communities.

Additional changes within the HSD budget include one-time funding to transition COVID-19 pandemic related

Human Services Department

programs at food banks back to baseline levels.

The proposed budget allocates CLFR to HSD as part of Seattle Rescue Plan 3 (SRP3). SRP3 funds investments in emergency shelter and food support. See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Not included in the HSD budget, but related to HSD programs, the following items are being funded:

- In Finance General, a \$600,000 reserve has been created for finance support to HSD. Because of the department's dramatic budget growth, additional support is needed to ensure that the department is complying with Federal Grants requirements and City standards for accounting, budgeting and procurement processes.
- In 2022, \$200,000 of CRS-U funding will support tenant improvements and betterment costs associated with the Lake City expansion site of the Indian Health Board.
- In 2022, \$100,000 of CRS-U will support a youth home feasibility study for United Indians of All Tribes.

Human Services Department

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures	\$896,046
Revenues	\$193,201

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures	\$225,946
Revenues	\$5,479

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Correction to Questica Baseline Total in Preparing Youth for Success BSL

Expenditures	\$8,050
--------------	---------

This item corrects an error in the central budget system, Questica, baseline total in the Preparing Youth for Success General Fund BCL by adding \$8,050. The total in Questica is \$8,050 lower than the baseline total shown in the 2021 Adopted Budget Book.

Proposed Operating

Funding for 6 Positions for King County Regional Homelessness Authority

Expenditures	\$811,244
--------------	-----------

To appropriately manage the City's investments in homelessness, HSD seeks to include in the KCRHA's contract, funding associated with six HSD positions that were abrogated in the 2021 adopted budget due to a projected decline in revenues. Since then, significant new federal and general fund funding has allowed for the expansion of homelessness programs, necessitating the additional budget so the KCRHA can staff appropriately for implementation and administration of this expanded programming.

Services to pair with Federal Emergency Housing Vouchers and other housing supportive services

Expenditures	\$6,000,000
--------------	-------------

This funding will pair services with emergency housing vouchers that will serve up to 498 households. Housing vouchers typically have not been paired with supportive services. Unfortunately, this means that the vouchers have not been able to target persons who, but for services, may not be able to retain their housing. By pairing these vouchers with services, KCRHA will effectively be able to serve persons who are unsheltered and those for whom housing retention would be doubtful without access to supportive services, effectively reaching a variety of service needs. KCRHA also seeks to use these vouchers to transition individuals from permanent supportive housing to housing that is less service intensive.

Human Services Department

Maintain Africatown Keiro Enhanced Shelter Units (125 units)

Expenditures \$6,587,625

The Keiro building in the Central District is planned to house a 125 unit, 24/7 non-congregate enhanced shelter starting in the fall of 2021. The shelter will be operated by Africatown Community Land Trust and will serve single adults with culturally responsive services, case management, housing navigation services, and behavioral health support. Funding is for three years. This item is part of a package of CLFR-funded items comprising Seattle Rescue Plan 3 (SRP3). See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Maintain Salvation Army-SODO Enhanced Shelter units (241 units)

Expenditures \$12,064,784

During the COVID-19 pandemic, three basic, congregate shelter locations (City Hall, King County Administration Building, and 4th & Jefferson) were combined and converted to a single, non-congregate enhanced shelter in SODO. This funding is planned to maintain the 241 shelter units in their current format at a new location when the SODO site closes in September 2022. This funding includes \$2 million for startup funding and two years of funding for operations, maintenance and services. This item is part of a package of CLFR-funded items comprising Seattle Rescue Plan 3 (SRP3). See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Services funding for non-congregate emergency shelter (120 units)

Expenditures \$2,400,000

Funding for operations, maintenance, and services for three tiny home villages (estimated 120 units) or other non-congregate emergency shelter or temporary housing options focused on supporting persons needing enhanced services to successfully transition to permanent housing. One-time start-up costs are planned to be funded through \$400,000 CLFR in the Seattle Rescue Plan 1 and a \$2 million grant from the State of Washington's Department of Commerce.

One-year of continued funding for COVID mitigation in shelters

Expenditures \$3,660,559

This one-year of funding allows shelters to adjust programmatic changes to continue to keep shelter clients safe and prevent the spread of COVID-19. Changes made during the pandemic include expansion of open hours, increased spacing between shelter beds, increased daily services, enhanced disinfection protocols and additional personal protective equipment. This item is part of a package of CLFR-funded items comprising Seattle Rescue Plan 3 (SRP3). See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Homelessness Team Position Abrogation for KCRHA Transition

Position Allocation (20.00)

This item abrogates 20 positions from the Addressing Homelessness budget control level in HSD though the funding remains. In 2022, the funding for these positions will transfer to KCRHA, an independent entity, thus the position authority is not needed within the department. Outside of these 20 pockets, HSD will retain three positions for KCRHA contract oversight and administration. These positions will reside in the Leadership and Administration division of HSD.

Maintain Funding for (Muslim Housing Services) Transitional Housing

Expenditures \$100,000

This request is to sustain 19 affordable multi-bedroom transitional housing units for immigrant and refugee families. These units are leased from Seattle Housing Authority (SHA) at a subsidized rate and are essential since large units

Human Services Department

are difficult to find in private housing portfolios. The cost for the leases, maintenance and repairs of these units has increased dramatically in recent years.

Seattle Housing Authority Partnership to Stable Housing via Outreach and Case Management

Expenditures	\$300,000
Revenues	\$300,000
Position Allocation	2.50

With a matching grant from Seattle Housing Authority (SHA), this item will fund anti-racist, culturally appropriate, outreach, case management, and services focused on SHA's extremely low-income older adults and adults with disabilities who are disproportionately BIPOC. This item will help address individual and systemic challenges accessing behavioral health and other supportive services.

Continuation of Funding for Community Safety Capacity Building

Expenditures	\$10,000,000
--------------	--------------

This item provides \$10 million for community-developed or community-led solutions to increase safety and reduce violence. These investments renew the Mayor's 2021 investment of \$10 million to continue community safety capacity building.

Gender-Based Violence Victims Services

Expenditures	\$875,000
--------------	-----------

This proposal adds \$875,000 for community-based victim services. This addresses a 2022 funding gap due to a reduction of fines and fees from offenders due to changes in State law and increased diversion programs.

Two additional Victim Advocates

Expenditures	\$219,817
Position Allocation	2.00

This item adds two victim advocates to the Crime Survivors Services Unit. Victim advocates provide support to victims or survivors of Gender-Based Violence who interact with Seattle-King County criminal legal system. Caseloads for victim advocates have increased in 2020 and 2021 during the COVID-19 pandemic.

Funding for Services from agencies specializing in American Indian and Alaska Native populations

Expenditures	\$1,200,000
--------------	-------------

Building upon the one-time funding in the 2021 budget, this item provides on-going funding to support programs that reduce the disproportionate impacts of homelessness, domestic violence, sexual assault and violence on American Indian/Alaska Native (AIAN) communities.

Investments to Address Hate Crimes

Expenditures	\$400,000
--------------	-----------

This funding will continue the 2021 investments made in Ordinance 126308 to address the increase in hate crimes and bias that disproportionately affect the Asian American and Pacific Islander Community in Seattle. Two programs will be continued:

- Community Based Organization Intervention Funding, including advocacy, counseling, mental health support, trauma response, and care.

Human Services Department

- Innovation Funds to Community Based Organizations.

Regional Peacekeepers Collective

Expenditures \$1,500,000

This request transfers funding from Seattle Police Department to the Human Services Department to fund community safety investments in the Regional Peacekeepers Collective for approximately 18 months. The goal of the Regional Peacekeepers Collection is to prevent and eliminate youth gun violence by ensuring sustainable conditions that allow young people to live and be healthy, happy, hopeful, safe, and thriving.

Continued Funding for Crisis Connections One Call

Expenditures \$403,030

This item provides on-going funding for the one-time investment to continue the pilot for the OneCall single diversion portal. OneCall is a dedicated line for SFD and other emergency responders to assist in serving individuals in mental health crisis. The line is operated by the non-profit Crisis Connections. It was officially launched in October of 2019. This item will extend the pilot to allow for further data collection and analysis on the program's cost effectiveness and outcomes.

Transfer LEAD Contract Budget to Safe and Thriving Communities Division

Expenditures -

This item transfers \$6,372,995 for the Law Enforcement Assisted Diversion contract from the City-Managed Homelessness Programs budget within the Addressing Homelessness BSL to the Supporting Safe Communities BSL. The scope of this program's work is better aligned with HSD's community safety portfolio.

Domestic Violence Intervention Project (DVIP)

Expenditures -

The City of Seattle's Domestic Violence Intervention Project (DVIP) is a pilot project modeled after the national best practice Colorado State Differentiated Treatment Program. The program provides funding for community-based, nonprofit organizations who are providing consultation and treatment services for batterers and can be classified as a criminal justice diversion program. Additional funding has been requested for this program by the Seattle Municipal Court. The City Budget Office (CBO) has determined that adequate resources for diversion programs exist within HSD. The department plans to perform an RFP to competitively award funding for diversion programs to ensure targeted, evidence-based expansion that serves the diverse needs of program applicants (i.e. limited-English/immigrants and refugees, LGBTQIA+, and BIPOC communities).

Reentry Programs for Formerly Incarcerated individuals (Equitable Communities Initiative)

Expenditures \$1,500,000

This item funds contracted organizations to provide reentry programs for formerly incarcerated individuals. The goals of the programs are to decrease the likelihood that individuals will reoffend and increase the likelihood of attaining meaningful employment. This program was recommended by the Equitable Communities Initiative Task Force.

One-time funding to transition COVID-19 pandemic related food programs

Expenditures \$2,500,000

This item provides one-time funding to ramp down COVID-19 pandemic-related food support programs back to

Human Services Department

previous levels. HSD intends to utilize the funding as follows: \$220,000 for Ethnic Grocery Bags, \$1 million for meals in permanent supportive housing and emergency shelters and \$1.28 million for food banks. Individualized food delivery services will decrease as compared to pandemic-related delivery levels. This item is part of a package of CLFR-funded items comprising Seattle Rescue Plan 3 (SRP3). See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Farm to Table (Equitable Communities Initiative)

Expenditures	\$200,000
--------------	-----------

This item increases funding for Farm to Table, which works with local farmers to provide locally grown and produced foods to preschool and after school programs and offers nutrition education. Participants in the program are children and families who disproportionately identify as BIPOC. This program was recommended by the Equitable Communities Initiative Task Force.

Visiting Nurse Project

Expenditures	\$150,000
--------------	-----------

This item will provide funding to hire a Registered Nurse (RN) to provide home based nursing care to approximately 200 individuals within communities that have higher rates of serious health conditions or deaths which are disproportionately communities of color. This funding will integrate a nursing component into African American Elders Program (AAEP) care coordination and family caregiver support services. This position is essential to supporting the most vulnerable elders especially in emergency situations by providing culturally appropriate and trusted social and health resources.

Culturally Responsive & Inclusive Access to Healthcare (Equitable Communities Initiative)

Expenditures	\$1,000,000
--------------	-------------

This item funds community-based organizations, including local community health boards, to provide access and entry to appropriate, desired, and impactful health care, including the provision of technical assistance to health care providers around the specific needs of specific communities. This program was recommended by the Equitable Communities Initiative Task Force.

Culturally Responsive & Inclusive Direct Healthcare (Equitable Communities Initiative)

Expenditures	\$1,500,000
--------------	-------------

This item funds programs for Community Health Centers and community-based organizations. Contracted organizations will provide innovative and alternative ways to achieve health and healing for communities that have historically had a higher rate of negative health disparities. This program was recommended by the Equitable Communities Initiative Task Force.

Annual Funding for HealthOne Program

Expenditures	\$238,717
--------------	-----------

This item provides annual funding for three FTE Sr. Counselor positions added in the 2021 budget under SFD-001-B-002 to expand the HealthOne program. The 3.0 position pockets were added to the HSD budget in 2021, and this change aligns the funding and positions.

Continuing 2021 Q2 Supplemental Items

Expenditures	\$(96,387)
Position Allocation	7.00

Human Services Department

This item continues budget changes adopted in the 2021 2nd quarter supplemental budget.

Human Services Department Leadership Structure Change

Expenditures	-
Position Allocation	-

This proposal is to re-establish a two-deputy structure within HSD that will ensure the success of two critical initiatives, the successful launch of the Safe and Thriving Communities Division and the transition to the King County Regional Homelessness Authority. Returning to a two-deputy structure will allow focused executive leaders to work closely with communities and stakeholders to build trust and focus on identifying the harms BIPOC communities have experienced and to work closely with those communities to identify and remove the contributing factors and barriers. This organizational structure mimics the current structure HSD is operating under and can be achieved by re-classifying an existing position with no additional funding.

Increase in External Lease Costs

Expenditures	\$37,244
Revenues	\$4,458

This item increases appropriation authority to pay for increases in external lease costs.

Language Premium Staff Stipend

Expenditures	\$192,000
--------------	-----------

This item increases ongoing appropriation authority to the Human Services Department for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

One Time Items Removed

Expenditures	\$(62,242,791)
Revenues	\$(34,006,374)
Position Allocation	(1.00)

This item removes one-time revenue and expenditure budget lines from the 2022 baseline. The below items were not continued in the 2022 Proposed budget.

- \$1.8 million in start-up funding for tiny-home villages (2021 HOM-008-B-002 and HOM-009-B-002)
- \$750,000 to maintain rapid rehousing caseloads (HOM-014-A-003)
- \$109,187; 1 FTE Grant and contract administrations (HOM-019-A-003)
- \$80,000 for vehicle resident outreach (HOM-022-A-001)
- \$33,000 for programs supporting Native and Indigenous children and families (HSD-005-A-003)
- \$1.12 million for drug user health services (HSD-009-B-002)
- \$200,000 to increase harm reduction programs (HSD-050-B-002)
- \$33 million in one-time COVID Relief funding (ESG-CV and Joint Relief)

Provider Contract Inflation

Expenditures	\$4,595,316
--------------	-------------

This item provides 2.4% contract inflation to HSD agency providers in accordance with ordinance #125865. The

Human Services Department

inflation factor is taken from the Consumer Price Index for Urban Wage Earners and Clerical Workers for the 12-months ending in June.

Revenue Backed Budget Changes in the Human Services Fund

Expenditures	\$(12,224,242)
Revenues	\$(12,224,242)

This item reduces budget in the Human Services Fund. The significant reduction is primarily due to the transfer of the McKinney grant to the King County Regional Homelessness Authority.

Transfer HealthOne Budget from SFD to HSD

Expenditures	\$349,120
--------------	-----------

This item transfers funding from Seattle Fire Department (SFD) for the Health One program. The corresponding reduction is reflected in the SFD budget (SFD-900). This budget was added to SFD to pay for HSD counselors supporting the HealthOne program and has been used for that purpose through inter-departmental billing. This transfer aligns the budget to where the positions reside in HSD and eliminates the need for inter-departmental billing.

Proposed Technical

Alignment of Budget Related to KCRHA

Expenditures	-
--------------	---

This technical change transfers the Housing Connector contract funding into the KCRHA budget program.

Central Cost True Up

Expenditures	-
--------------	---

This item corrects baseline budget amounts for central cost accounts.

Funding Source ID Update

Expenditures	-
Revenues	-

This item updates funding source ID codes from the current values to the next budget year values.

Human Services Fund Labor and Operating Adjustment

Expenditures	-
Revenues	-

This item makes net-zero revenue and expense changes by program and org to the baseline budget in the Human Services Fund.

Labor & Operating Budget Adjustment

Expenditures	-
Position Allocation	-

This items adjusts HSD's base labor and operating budget to align with 2022 funding for positions and contracts.

Human Services Department

Org Code Correction

Expenditures -

This item corrects missing coding in baseline budget lines.

Transfer Mobile Crisis Team Budget to Addressing Public Health BSL

Expenditures -

This item transfers budget from 2021 CBA HOM-007-A-003 from the Addressing Homelessness BSL to the Promoting Public Health BSL. This budget provides funding for mobile crisis teams and is better aligned under the Public Health BSL.

Appropriations by Budget Summary Level and Program

HSD - BO-HS-H1000 - Supporting Affordability and Livability

The purpose of the Supporting Affordability & Livability Budget Summary Level is to support educational programs for children, youth, and families; and provide utility payment and transportation assistance to Seattle residents with low incomes.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Access to Services	6,431,535	4,675,522	5,192,949
Community Facilities	3,609,155	5,666,342	2,293,247
Emergency Preparedness and Program Administration	1,479,055	738,823	703,526
Food & Nutrition	29,059,889	18,203,072	21,641,283
Total	40,579,635	29,283,758	29,831,005
Full-time Equivalents Total*	32.00	32.00	41.85

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Supporting Affordability and Livability Budget Summary Level:

Access to Services

The purpose of the Access to Services Program is to provide information and access to community resources that support affordability and livability, including utility payment assistance and vehicle license rebates to low-income residents in the City of Seattle.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Access to Services	6,431,535	4,675,522	5,192,949
Full Time Equivalents Total	16.00	16.00	17.60

Community Facilities

The purpose of the Community Facilities Program is to support the construction of facilities that are primarily for the benefit of low-income people in Seattle, including childcare facilities.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Community Facilities	3,609,155	5,666,342	2,293,247
Full Time Equivalents Total	-	-	8.00

Emergency Preparedness and Program Administration

Human Services Department

This Budget Summary Level is being combined with the Affordability and Livability Budget Summary Level in the 2019 Budget.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Emergency Preparedness and Program Administration	1,479,055	738,823	703,526
Full Time Equivalents Total	3.00	3.00	3.00

Food & Nutrition

The purpose of the Food & Nutrition Program is to provide access to nutritious, affordable, and culturally relevant food and education to children in childcare programs and other settings, older adults, and individuals with low incomes.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Food & Nutrition	29,059,889	18,203,072	21,641,283
Full Time Equivalents Total	13.00	13.00	13.25

HSD - BO-HS-H2000 - Preparing Youth for Success

The purpose of the Preparing Youth for Success Budget Summary Level is to support programs that help youth succeed academically; learn job and life skills; and develop alternatives to criminal activity, violence, and homelessness.

Program Expenditures	2020	2021	2022
	Actuals	Adopted	Proposed
Family Support	5,825,274	6,759,892	6,183,419
Safety	7,862,305	86,542	-
Youth Development	6,878,305	7,815,347	7,546,941
Total	20,565,884	14,661,781	13,730,360

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Preparing Youth for Success Budget Summary Level:

Family Support

The purpose of the Family Support Program is to focus on strengthening and empowering families, through systems navigation support and family management, so that youth in Seattle successfully transition into adulthood.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed

Human Services Department

Family Support	5,825,274	6,759,892	6,183,419
Full Time Equivalents Total	11.00	11.00	5.80

Safety

The purpose of the Safety Program is to support youth and adults at risk of involvement with the criminal justice system through violence prevention, intervention and re-entry supports to foster successful transitions to adulthood and safe communities.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Safety	7,862,305	86,542	-
Full Time Equivalents Total	4.00	1.00	-

Youth Development

The purpose of the Youth Development Program is to provide youth with strength-based experiences and employment and training which helps them to become more socially, culturally, emotionally, physically and cognitively competent.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Youth Development	6,878,305	7,815,347	7,546,941
Full Time Equivalents Total	16.00	15.00	18.85

HSD - BO-HS-H3000 - Addressing Homelessness

The purpose of the Addressing Homelessness Budget Summary Level is to support a range of programs that provide resources and services to Seattle's low-income and homeless residents to reduce homelessness.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
City-Managed Homelessness Programs	-	6,445,906	8,570,221
Contract Oversight and Administration	-	928,403	883,555
Homeless Outreach and Provider Ecosystem (HOPE) Team	-	-	1,199,208
Homelessness Prevention and Support	26,381,932	-	-
King County Regional Homelessness Authority	-	133,594,289	104,201,015
Navigation Team	2,310,994	-	-
Shelters & Housing	78,344,693	-	-
Unsheltered Outreach and Response	-	7,502,009	-
Total	107,037,618	148,470,607	114,854,000
Full-time Equivalents Total*	53.25	41.25	11.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Human Services Department

The following information summarizes the programs in Addressing Homelessness Budget Summary Level:

City-Managed Homelessness Programs

The purpose of the City-Managed Homelessness Programs Budget Program is to provide funding for homeless services and provider contracts managed directly by the City and not under the purview of the King County Regional Homelessness Authority.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
City-Managed Homelessness Programs	-	6,445,906	8,570,221

Contract Oversight and Administration

The purpose of the Contract Oversight and Administration budget program is to fund staff responsible for managing contracts and outcomes with the City's homelessness providers, including the City's contract with the King County Regional Homelessness Authority.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Contract Oversight and Administration	-	928,403	883,555
Full Time Equivalents Total	-	33.25	3.00

Homeless Outreach and Provider Ecosystem (HOPE) Team

The purpose of the HOPE team budget program is to provide funding for the City's work to conduct outreach to and mitigate the impacts of those living unsheltered.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Homeless Outreach and Provider Ecosystem (HOPE) Team	-	-	1,199,208
Full Time Equivalents Total	-	-	8.00

Homelessness Prevention and Support

The purpose of the Homelessness Prevention and Support Program is to provide outreach and support services to homeless individuals and prevention programs which assist those at risk of homelessness so they remain housed.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Homelessness Prevention and Support	26,381,932	-	-
Full Time Equivalents Total	20.50	-	-

King County Regional Homelessness Authority

Human Services Department

The purpose of the King County Regional Homelessness Authority budget program is to provide funding to support the operations and programs of organization responsible for supporting those experiencing homelessness in the Seattle/King County region.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
King County Regional Homelessness Authority	-	133,594,289	104,201,015

Navigation Team

The purpose of the Navigation Team program is to coordinate a response to unauthorized homeless encampments by referring individuals to safe sleeping programs and addressing the environmental issues in the encampment areas.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Navigation Team	2,310,994	-	-
Full Time Equivalents Total	13.00	-	-

Shelters & Housing

The purpose of the Shelters and Housing Program is to support homeless individuals in moving to permanent housing through temporary safe sleeping spaces and supportive housing programs.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Shelters & Housing	78,344,693	-	-
Full Time Equivalents Total	19.75	-	-

Unsheltered Outreach and Response

The purpose of the Unsheltered Outreach and Response budget program is to provide funding for the City's work to conduct outreach to and mitigate the impacts of those living unsheltered.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Unsheltered Outreach and Response	-	7,502,009	-
Full Time Equivalents Total	-	8.00	-

HSD - BO-HS-H4000 - Supporting Safe Communities

The purpose of the Supporting Safe Communities Budget Summary Level is to support programs that help reduce instances of individuals experiencing trauma, violence, and crisis.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Advocacy	6,134,335	-	-

HSD - BO-HS-H5000 - Leadership and Administration

The purpose of the Leadership & Administration Budget Summary Level is to provide executive, community, financial, human resource, technology, and business support to the Human Services Department.

Program Expenditures	2020	2021	2022
	Actuals	Adopted	Proposed
Citywide Indirect Costs	172,137	-	-
Departmental Indirect Costs	12,758,340	12,828,518	14,361,229
Divisional Indirect Costs	7,477	-	-

Human Services Department

Paid Time Off	-	-	-
Total	12,937,954	12,828,518	14,361,229
Full-time Equivalents Total*	60.50	59.50	66.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle Information Technology Department.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Citywide Indirect Costs	172,137	-	-

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This may include personnel costs related to department leadership and administration or other administrative costs such as external rent and operating supplies or services.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Departmental Indirect Costs	12,758,340	12,828,518	14,361,229
Full Time Equivalents Total	60.50	59.50	66.00

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Indirect program is to fund administrative costs generated by sub-departmental units such as costs related to divisional management or training. The Human Services Department budgets all divisional indirect costs within the direct service Budget Summary Level beginning in the 2019 budget.

HSD - BO-HS-H6000 - Promoting Healthy Aging

The purpose of the Promoting Healthy Aging Budget Summary Level is to give older adults the ability to age in place and experience stable health. Programs provide a network of community support that improves choice, promotes independence, and enhances the quality of life for older people and adults with disabilities.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Care Coordination	3,608,045	3,090,627	2,401,263
Case Management	36,998,907	36,188,281	42,722,679
Healthy Aging	12,751,577	11,266,477	11,866,473
Total	53,358,529	50,545,385	56,990,415
Full-time Equivalents Total*	202.00	213.00	207.25

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Promoting Healthy Aging Budget Summary Level:

Care Coordination

The purpose of the Care Coordination Program is to support unpaid family caregivers with respite care and other services to enable them to continue caregiving.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Care Coordination	3,608,045	3,090,627	2,401,263
Full Time Equivalents Total	3.00	3.00	2.31

Case Management

The purpose of the Case Management Program is to support older adults and adults with disabilities with in-home services to enable them to live independently in the community.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Case Management	36,998,907	36,188,281	42,722,679
Full Time Equivalents Total	167.00	174.00	182.92

Healthy Aging

The purpose of the Healthy Aging Program is to provide older adults with resources and activities that promote social engagement and good health.

Human Services Department

Office for Civil Rights

Mariko Lockhart, Director

(206) 684-4500

<http://www.seattle.gov/civilrights/>

Department Overview

The Office for Civil Rights (OCR) envisions a city of liberated people where community historically impacted by racism, oppression, and colonization hold power and thrive. OCR's mission is to end structural racism through accountable community relationships and anti-racist organizing, policy development, and civil rights enforcement.

OCR works to achieve equity and advance opportunity in Seattle by:

- developing policies and promoting partnerships to achieve racial equity and social justice;
- enforcing City, state and federal antidiscrimination in housing, employment, public accommodations, and contracting, and civil rights laws such as all-gender restroom ordinance, ban on conversion therapy provided to minors ordinance, fair chance housing ordinance, and closed captioning ordinance using restorative justice methods, investigations, compliance, and settlement negotiations;
- conducting housing and employment testing based on protected classes;
- staffing the Seattle Human Rights Commission, Seattle Women's Commission, Seattle Lesbian, Gay, Bisexual, Transgender, and Queer Commission, and the Seattle Disability Commission;
- administering the Title VI program of the 1964 Civil Rights Act, which relates to physical access to governmental facilities, projects, and programs, and Title II complaints alleging discrimination on the basis of disability in the provision of services, activities, programs or benefits by the City;
- offering free civil rights trainings and technical assistance to businesses and community groups on civil rights laws; and
- making available a wide array of civil rights information, including translations into other languages.

OCR leads the City's Race and Social Justice Initiative (RSJI). RSJI is committed to eliminating institutional and structural racism through a four-prong approach: 1) build an anti-racist network within City government and shift internal practices and develop decision-making skills that eliminate institutional and structural racism; 2) transform the internal government culture of the City toward one rooted in racial justice, humanistic relationships, belonging and wellbeing; 3) align racial justice efforts with local community organizing and strengthen relationships with communities most impacted by structural racism; and 4) work in relationship with national and regional racial justice leaders from all communities and sectors to advance racial justice.

Office for Civil Rights

Budget Overview

The 2022 Proposed Budget restores funding for a Deputy Director position, reflects positions added to OCR in 2021 for the Participatory Budgeting Process, and provides stable funding to support the Seattle Disability Commission. Other changes to the budget include technical adjustments for increases in lease costs, language premium pay, increases in personnel costs and other central rate adjustments.

Incremental Budget Changes

Office for Civil Rights

	Dollars	FTE
2021 Adopted Budget	6,997,982	35.50

Language Premium Staff Stipend	2,400	-
Participatory Budgeting Positions	-	3.00
Total Incremental Changes	\$416,203	3.00
Total 2022 Proposed Budget	\$7,414,185	38.50

Description of Incremental Budget Changes

Baseline

Baseline Adjustments for Personnel Costs

Expenditures	\$84,141
--------------	----------

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Office for Civil Rights

Restore Leadership Funding

Expenditures \$168,000

This is a technical baseline adjustment to restore funding for the Deputy Director Position. The 2021 Adopted Budget included one-time savings for holding the position vacant in 2021.

Proposed Operating

Increase Seattle Disability Commission Support

Expenditures \$66,000

This item funds interpretation services and consultant support for the Seattle Disability Commission (SDC). This is an ongoing need and OCR has historically funded this work with one-time underspend in their budget. This item creates stable funding for consultant services and interpretation services tailored to managing the diverse and unique challenges and access needs related to a commission with a majority membership of individuals who self-identify as living with a disability for the Seattle Disability Commission (SDC).

Proposed Technical

Central Building Lease Cost Increase

Expenditures \$29,566

This is a technical change to reflect the increase in external lease costs at the Central Building.

Citywide Adjustments for Standard Cost Changes

Expenditures \$66,096

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Language Premium Staff Stipend

Expenditures \$2,400

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

Participatory Budgeting Positions

Position Allocation 3.00

This is a technical adjustment to reflect three positions added in Ordinance 126360 to support the participatory budgeting process. No budget is required as the ordinance fully funded the positions in 2021 through 2023 and unspent funds from 2021 will automatically carryforward to 2022. The positions will sunset as of December 31, 2023. Additional information about the funding for Participatory Budgeting projects can be found in the Finance General section of the budget book.

Office for Civil Rights

Appropriations by Budget Summary Level and Program

OCR - BO-CR-X1R00 - Civil Rights

The purpose of the Civil Rights Budget Summary Level is to encourage and promote equal access and opportunity, diverse participation, and social and economic equity in Seattle. OCR works to eliminate discrimination in employment, housing, public accommodations, contracting, and lending in Seattle through enforcement, and policy and outreach activities. In addition, OCR is responsible for directing the Race and Social Justice Initiative, which leads other City departments to design and implement programs that help eliminate institutionalized racism.

Seattle Department of Construction and Inspections

Nathan Torgelson, Director

(206) 684-8600

www.seattle.gov/sdc

Department Overview

The Seattle Department of Construction and Inspections (SDCI) administers City ordinances regulating building construction, the use of land, and housing. It supports Mayor Durkan's priority of delivering essential City services and building safer, more just communities.

SDCI is responsible for developing and enforcing policies and codes related to public safety, environmental protection, land use, construction and rental housing, including:

- Environmentally Critical Areas Ordinance (ECA)
- Housing and Building Maintenance Code (HBMC)
- Just Cause Eviction Ordinance
- Rental Registration and Inspection Ordinance (RRIO)
- Seattle Building and Residential Codes
- Seattle Condominium and Cooperative Conversion Ordinances
- Seattle Electrical Code
- Seattle Energy Code
- Seattle Grading Code
- Seattle Land Use Code
- Seattle Mechanical Code
- Seattle Noise Ordinance
- Seattle Rental Agreement Regulation Ordinance
- Seattle Shoreline Master Program (SSMP)
- Seattle Tenant Relocation Assistance Ordinance (TRAO)
- Seattle Tree Protection Ordinance
- State Environmental Policy Act (SEPA)
- Stormwater Code
- Side Sewer Code

SDCI reviews land use and construction-related permits, annually approving more than 48,000 permits and performing approximately 230,000 on-site inspections. SDCI's work includes permit review and community involvement with Master Use Permits (MUPs); shoreline permits and design review; review and approval of permits for construction, mechanical systems, site development, elevators, electrical installation, boilers, furnaces, refrigeration, signs and billboards; field inspections for all construction and trade-related permits; annual maintenance inspections of boilers, elevators, and refrigeration equipment; and home seismic retrofits.

SDCI also enforces compliance with the codes and handles more than 37,000 contacts per year at the Code Compliance Complaint Center.

SDCI operations are funded by a variety of fees and General Fund resources. SDCI must demonstrate that its fees are set to recover no more than the cost of related services. To provide this accountability, SDCI uses cost accounting to measure the full cost of its programs. Each program is allocated a share of departmental administration and other overhead costs to calculate the revenue requirements of the program.

Seattle Department of Construction and Inspections

------------------------------	--------	--------	--------

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

Despite economic impacts related to the COVID-19 pandemic which have lowered overall permitting volumes from record levels at the end of the 2010s, the City of Seattle continues to see a high volume of trade permits. Building development activity also remains stable; through August 2021, SDCI brought in \$3.6 billion in intake valuation and has issued permits totaling \$2.2 billion in project valuation. SDCI anticipates an additional \$1.8 billion in intake valuation for the rest of 2021. The department continues to have a backlog of permits to process and inspections to perform; therefore, the 2022 Proposed Budget includes three additional inspections positions, a new small business permit facilitator position, and a code compliance FTE. The proposed budget also includes an additional staff person to work on green buildings/energy code issues, an FTE fully dedicated to advancing the City's Race and Social Justice Initiative, an additional finance position, and two additional FTEs to work in human resources.

The proposed budget takes a significant step forward to address building safety issues. First, it adds resources to develop a future proposal that will require buildings with unreinforced masonry to be seismically retrofitted. The retrofits will decrease the chance that the buildings will collapse in a large earthquake and increase the chance that they can be safely occupied after a small or moderate earthquake. The proposed budget also adds a position to oversee SDCI's emergency response and recovery efforts, to conduct related trainings, and the proposed budget includes one-time funding for emergency kits that will be used to evaluate structural damage to buildings after a disaster.

Accela is the City's enterprise-wide permitting system that allows greater sharing between departments that are using the system, including SDCI, the Seattle Department of Transportation and the Seattle Fire Department. Improvements are being made throughout 2021 and are expected to continue in 2022 as the department continues to enhance the new system. SDCI's proposed budget includes funding for an additional consultant team to address the backlog of needed Accela adjustments and enhancements. The proposed budget also includes funding to convert historical permitting information into the Accela format to increase accessibility and usability of legacy permitting data for architecture firms, City departments, building owners, and other permit customers.

Except for Code Compliance and Land Use Code Development, SDCI is primarily fee supported and its fees and charges are necessary to fund its permitting and inspections operations. Per state law and Seattle Municipal Code, all fees collected by SDCI for processing and inspecting permits are used for that purpose, and the fee structure is established accordingly. The 2022 Proposed Budget aligns Construction and Inspections Fund revenues with current revenue forecasts. The department will use both increased revenues and reserves to pay for increased expenditures in the proposed budget, such as Accela enhancements. The budget also adjusts revenues to align with proposed

Seattle Department of Construction and Inspections

budget legislation that reduces electrical, refrigeration and mechanical equipment fees in order to align permit fee revenues with expenses.

Seattle Department of Construction and Inspections

Description of Incremental Budget Changes

Baseline

Baseline Adjustments for Personnel Costs

Expenditures \$251,334

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,421,781

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Small Business Permit Facilitator

Expenditures \$168,105

Position Allocation 1.00

This item adds a new small business permit facilitator to SDCI's budget. The person in this role will act as a single point of contact to help businesses and fill vacant commercial spaces downtown and in South Lake Union as well as other neighborhood business districts impacted by COVID-19. The position will provide early guidance on regulatory issues, the permitting process, application requirements, and the corrections process to help permit applicants advance more quickly through the permit process. This position will also assist in permitting for the arts community, which has been hit particularly hard during COVID-19. This item is funded through SDCI's overhead (9% General Fund and 91% permit fees in the Construction and Inspections Fund). Of the total amount, approximately \$3,000 is one-time.

Unreinforced Masonry (URM) Program

Expenditures \$222,746

Position Allocation 1.00

The 2022 Proposed Budget advances efforts to address unreinforced masonry issues by adding funding for a full-time advisor and a third-party consultant. This position and contractor will support the policy recommendations of the Unreinforced Masonry (URM) Policy Committee. The Committee recommends that the City require URM building owners to seismically retrofit their buildings in order to decrease the likelihood they will collapse in a large earthquake and increase the chance they can be safely occupied after a small or moderate earthquake. Of the total amount, \$200,000 is General Fund and \$23,000 is from the Construction and Inspections Fund; \$104,000 of the total amount is one-time.

Emergency Response

Expenditures \$179,105

Position Allocation 1.00

Seattle Department of Construction and Inspections

This item adds a position to serve as SDCI's emergency response coordinator. This position will maintain the SDCI Emergency Response Plan, coordinate and monitor training for SDCI staff on the plan and specific responsibilities, and partner and coordinate with the Office of Emergency Management (OEM) on exercises, initiatives and strategic planning for emergency response and recovery. This item also includes a one-time purchase of emergency response kit supplies that will enable SDCI personnel to evaluate structural damage after a natural disaster. This item is funded by the Construction and Inspections Fund and includes approximately \$14,000 for one-time items.

Race and Social Justice Initiative Staffing

Expenditures	\$168,105
Position Allocation	1.00

This item adds ongoing budget and position authority for a new staff person fully dedicated to advancing the Race and Social Justice Initiative (RSJI) in SDCI. This position will add essential expert-level guidance regarding succession planning, leadership training and development, and change management. The position will also support City-wide initiatives such as the Seattle Promise program. This item is funded through SDCI's overhead (9% General Fund and 91% permit fees in the Construction and Inspections Fund). The total amount includes approximately \$3,000 for one-time items.

Green Buildings and Energy Code Staffing

Expenditures	\$203,105
Position Allocation	1.00

The 2022 Proposed Budget supports the Green Building Incentive Program and high performing Energy Code requirements with the addition of one new FTE fully dedicated to this work. This item adds expert-level staff to develop and oversee inspection during construction, conduct product approvals, provide for code interpretations, and develop a comprehensive final inspection process for sophisticated green and energy efficient systems in new buildings per new Energy Code requirements established in Ordinance 126358, which Council approved in June 2021. This item is designed to help Seattle achieve Washington State's goal of reducing energy consumption by 70% by 2030. This position is funded by permit fees and includes roughly \$38,000 for a vehicle purchase and other one-time costs.

Code Compliance Staffing

Expenditures	\$289,967
Position Allocation	1.00

This action adds ongoing budget and position authority for Code Compliance staff and provides for increased labor costs due to business-driven position reclassifications. These positions provide capacity to support policy development, process improvement, training, and organizational development and will manage the following Code Compliance enforcement programs: Housing, the Rental Registration and Inspection Ordinance (RRIO), Property Owner and Tenant Assistance (POTA), Land Use, Shoreline, Environmental, Tree Protection, Vacant Buildings, Junk and Abatement, and Construction and technical codes. This item is funded by permit fees and includes approximately \$3,000 for one-time costs.

Building Inspections Manager

Expenditures	\$168,105
Position Allocation	1.00

This item adds ongoing budget and position authority for a Building Inspections Manager. This investment increases SDCI's ability to effectively oversee an increasingly complex building construction workload, including more sophisticated building systems and a high-volume construction atmosphere. This item also improves the Inspections

Seattle Department of Construction and Inspections

Team's span of control, increases the ability to develop meaningful staff training, and improves the customer experience by adding another accountability oversight manager. This position is funded by permit fees in SDCI's Construction and Inspections Fund and includes roughly \$3,000 for one-time items.

Building Inspections Mechanical Inspector

Expenditures \$178,985

Position Allocation 1.00

This item adds ongoing budget and position authority for a Mechanical Inspector. This position increases capacity to help SDCI keep up with current workload demand and anticipated sustained construction activity. It also adds capacity to handle increased "Subject to Field Inspection" field reviews and inspections as well as an increased number of outdoor equipment installations. This position is funded by permit fees and includes \$38,000 for a vehicle and other one-time items.

Periodic Inspections Manager

Expenditures \$181,770

Position Allocation 1.00

This action adds ongoing budget and position authority for a Periodic Inspections Manager. SDCI's periodic inspection workload increases every year because all elevators and boilers are inspected annually, in addition to inspections required by new construction. This position will provide expertise on complex building system workloads, including new energy efficiency standards, green concepts, climate change impacts, and innovations in built environment products and systems. This position will streamline business processes and develop new customer service performance targets for billing and annual certificate issuance needs. This position is paid for via permit fees and includes about \$3,000 for one-time items.

Budget/Finance Staffing

Expenditures \$168,105

Position Allocation 1.00

The 2022 Proposed Budget adds one FTE to SDCI's Finance and Accounting team. This will allow each division in SDCI to have a dedicated finance staff person. This position will also support the department's Principal Economist by querying and analyzing permitting and performance data for reports required by the Mayor's Office and City Council; it will also assist with data requests from the local media and public disclosure requests. This position is supported by permit fees and includes \$3,000 for one-time items.

Human Resources Staffing

Expenditures \$254,067

Position Allocation 2.00

This item adds two positions to SDCI's Human Resources (HR) team. Adding these positions will enable critical succession planning, provide capacity to plan for staff turnover, and strengthen SDCI's role in Citywide HR Governance and projects. This item is funded from SDCI overhead (9% General Fund and 91% permit fees in the Construction and Inspections Fund). Of the total amount, \$6,000 is one-time.

SDCI Accela Enhancements Team

Expenditures \$821,235

This one-time item adds an additional Accela enhancements team for SDCI. This team directly supports the goal of improving customer service by streamlining permitting processes. The team will work on SDCI's backlog of more

Seattle Department of Construction and Inspections

than 200 Accela-related defects and needed adjustments. The added team will be staffed with consultants/contractors. This item is funded by permit fees in SDCI's Construction and Inspections Fund.

Virtual Permitting Counter

Expenditures	\$575,160
--------------	-----------

This action adds one-time budget authority to modernize customer service at SDCI. This item will deploy software to create a virtual permitting counter that will serve as an online version of the "walk in" experience at the Applicant Services Center in the Seattle Municipal Tower. This item is funded with permit fees.

Legacy Permitting History Conversion

Expenditures	\$1,084,632
--------------	-------------

This action adds one-time appropriation authority to convert historical permit information into the current Accela format. It also includes an update of the Permit and Property Records tool. This item directly improves customer service by increasing on-line access to permit history data and documents. SDCI Engineering Services and Land Use staff depend on historical data in order to analyze and approve current permit applications. Customers, from large architect/engineering firms to single-family homeowners, use historical records to determine as-built conditions and to confirm that existing structures were built to code. The Seattle Fire Department depends on these permit files for Certificates of Occupancy as well for access to plans for buildings that have recently burned. This investment is funded by permit fees in SDCI's Construction and Inspections Fund.

Labor Collection System Replacement

Expenditures	\$802,000
--------------	-----------

This action adds one-time budget authority to replace SDCI's aging Labor Collection System (LCS) with an integrated time-keeping system. The goal is to replace the existing application, which is at the end of its life, with an application that uses up-to-date technology and can be more easily maintained. SDCI requires a custom application for timekeeping due to the large number of project codes used in the department, as well as the need to track non-employee time. The current application was developed in 2006 and has had only minor updates since its original release. This item is funded by permit fees in SDCI's Construction and Inspections Fund.

Increased Position Costs from Business-Driven Position Reclassifications

Expenditures	\$183,759
--------------	-----------

Position Allocation	-
---------------------	---

The action adds ongoing budget authority to cover increased labor costs due to business-driven position reclassifications that allow SDCI to better fulfill business needs, provide appropriate customer service response levels, and retain talented staff.

Fee Legislation Revenue Change

Revenues	\$(1,291,907)
----------	---------------

This item recognizes a reduction in projected Construction and Inspections Fund revenues due to proposed budget legislation. SDCI's permit fee legislation includes a 25% reduction to the administrative fee for electrical permits as well as a 33% reduction to various refrigeration and furnace installation fees. SDCI reviews its fees annually and adjusts permit fees to align with the actual expenses of administering and supporting the permits.

Seattle Department of Construction and Inspections

Proposed Technical

Adjustments for Staff Added During 2021

Expenditures	\$3,250,413
Position Allocation	22.00

This action adds ongoing budget and position authority to adjust for staff added in the 2021 mid-year supplemental budget ordinance (Council Bill 120112). This includes 5 additional staff to work on the Accela permitting system, 2 positions to work on virtual design review, 1 FTE to work on the Property Owner and Tenant Assistance program, 1 position to work on building commissioning, and a total of 13 inspectors to conduct electrical, site development, elevator, pressure system, drainage, and building inspections.

Credit Card Transaction Fees

Expenditures	-
--------------	---

This change reflects a \$375,000 adjustment for credit card transaction fees. The baseline budget for these fees is \$875,000; however, costs have averaged \$1.25 million per year for the past three years. Because this adjustment includes an offset to overhead, this is a net-zero budget adjustment in the Construction and Inspections Fund.

Fund Balancing Entries

Revenues	\$(3,546,500)
----------	---------------

This item is a technical item to balance revenues and expenditures for fund 48100, the Construction and Inspections Fund, which is managed by SDCI.

General Fund Revenue Adjustments

Revenues	\$340,000
----------	-----------

This item captures centrally projected and forecast General Fund revenue increments for this department.

Overhead Technical Adjustment

Expenditures	\$303,296
--------------	-----------

This action adjusts the distribution of indirect overhead expenses across SDCI's budget programs. This adjustment is necessary to account for 2022 Proposed Budget changes in the following programs: Compliance; Government Policy Safety & Support; Indirect Cost Recovery Offset; Inspections; Land Use Services; Permit Services; and Rental Housing.

Revenue Adjustments

Revenues	\$15,406,449
----------	--------------

This item adjusts Construction and Inspections Fund revenues to align with current revenue forecasts. The forecasts have been updated based on current economic conditions.

Appropriations by Budget Summary Level and Program

SDCI - BO-CI-U2200 - Land Use Services

The purpose of the Land Use Services Budget Summary Level is to provide land use permitting services.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Land Use Services	19,295,020	22,603,024	23,234,210
Land Use Services CBA	-	1,672,241	1,672,241
Total	19,295,020	24,275,265	24,906,451
Full-time Equivalents Total*	99.00	99.00	102.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Land Use Services Budget Summary Level:

Land Use Services

The purpose of the Land Use Services Program is to provide land use permitting services to project applicants, City of Seattle departments, public agencies, and residents. Land Use staff provide permit process information and regulatory expertise to inform pre-application construction project design. Land Use staff also review development concepts as part of a developer's permit application. The Land Use review process includes eliciting public input and facilitating public meetings and design review board meetings. It may also include coordination with various city and county agencies, defending project decisions during appeal to the Hearing Examiner or coordinating the department recommendation for a development application through the City Council approval process. These services are intended to ensure that development proposals are reviewed in a fair, reasonable, efficient, and predictable manner, and to ensure that the plans substantially comply with applicable codes, legal requirements, policies, and community design standards.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Land Use Services	19,295,020	22,603,024	23,234,210
Full Time Equivalents Total	99.00	99.00	102.00

Land Use Services CBA

The purpose of the Land Use Services CBA Program is to display the amount of unallocated Contingent Budget Authority (CBA) in the Land Use Services BSL that has not been accessed. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Land Use Services CBA	-	1,672,241	1,672,241

Seattle Department of Construction and Inspections

SDCI - BO-CI-U2300 - Permit Services

The purpose of the Permit Services Budget Summary Level is to facilitate the review of development plans and processing of permits.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Permit Services	22,713,821	25,409,275	25,921,169
Permit Services CBA	-	3,666,136	3,666,136
Total	22,713,821	29,075,410	29,587,305
Full-time Equivalents Total*	105.00	105.00	106.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Permit Services Budget Summary Level:

Permit Services

The purpose of the Permit Services Program is to facilitate the review of development plans and processing of permits.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Permit Services	22,713,821	25,409,275	25,921,169
Full Time Equivalents Total	105.00	105.00	106.00

Permit Services CBA

The purpose of the Permit Services CBA Program is to display the amount of unallocated Contingent Budget Authority (CBA) in the Permit Services BSL that has not been accessed for construction plan review and peer review contracts. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Permit Services CBA	-	3,666,136	3,666,136

SDCI - BO-CI-U23A0 - Inspections

The purpose of the Inspections Budget Summary Level is to provide on-site inspections of property under development, inspections of mechanical equipment at installation and on an annual or biennial cycle, and certification of installers and mechanics.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Inspections	23,873,625	23,914,754	27,866,751

Seattle Department of Construction and Inspections

Inspections Services CBA	-	2,726,100	2,726,100
Total	23,873,625	26,640,854	30,592,851
Full-time Equivalents Total*	104.00	104.00	121.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Inspections Budget Summary Level:

Inspections

The purpose of the Inspections Program is to provide timely on-site inspections of property under development at predetermined stages of construction; work closely with project architects, engineers, developers, contractors, and other City of Seattle departments to approve projects as substantially complying with applicable City codes, ordinances, and approved plans; and to issue final approvals for occupancy.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Inspections	23,873,625	23,914,754	27,866,751
Full Time Equivalents Total	104.00	104.00	121.00

Inspections Services CBA

The purpose of the Inspections Services CBA Program is to display the amount of Contingent Budget Authority (CBA) that has not been accessed within the Inspections BCL for construction inspections and electrical inspections with plan review. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Inspections Services CBA	-	2,726,100	2,726,100

SDCI - BO-CI-U2400 - Compliance

The purpose of the Compliance Budget Summary Level is to ensure land and buildings are developed, used and maintained according to applicable code standards, reduce deterioration of structures and properties, enforce tenant protections, and support outreach and education for landlords and tenants in coordination with other departments and community organizations.

Program Expenditures	2020	2021	2022
	Actuals	Adopted	Proposed
Compliance	-	9,519,887	10,164,705
Compliance	7,999,089	-	-
Rental Housing	-	2,160,668	2,279,744
Rental Housing	1,859,253	-	-
Total	9,858,342	11,680,556	12,444,449
Full-time Equivalents Total*	51.50	52.50	54.50

Seattle Department of Construction and Inspections

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Compliance Budget Summary Level:

Compliance

The purpose of the Compliance Program is to investigate and respond to violations of code standards for the development, use, maintenance, and management of land and buildings, facilitate compliance by property owners and other responsible parties, pursue enforcement actions against violators through the legal system, reduce the deterioration of structures and properties to reduce blight, and manage the adoption of administrative rules and response to claims. The program also supports outreach and education for landlords and tenants, working in coordination with other departments and community organizations.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Compliance	7,999,089	9,519,887	10,164,705
Full Time Equivalents Total	38.50	39.50	40.50

Rental Housing

The purpose of the Rental Housing Program is to improve the quality of the rental housing stock in Seattle and investigate and respond to violations of tenant protection regulations. By registering and inspecting all rental housing properties the program helps ensure key life, health and safety standards are met. The program provides assistance to property owners and tenants regarding relocation assistance, just cause eviction, and other duties and responsibilities of owners and tenants.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Rental Housing	1,859,253	2,160,668	2,279,744
Full Time Equivalents Total	13.00	13.00	14.00

SDCI - BO-CI-U2500 - Leadership and Administration

The purpose of the Leadership & Administration Budget Summary Level is to lead and direct department employees, provide policy guidance, and oversee relationships with the community.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Citywide Indirect Costs	-	23,382,591	24,773,696
Departmental Indirect Costs	-	4,068,703	4,821,561
Departmental Indirect Costs	1,260	-	-
Divisional Indirect Costs	557	2,951,440	3,377,118
Indirect Cost Recovery Offset	-	(30,402,734)	(32,972,375)
Total	1,817	-	-

Seattle Department of Construction and Inspections

Full-time Equivalents Total*	59.00	59.00	64.00
*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here			

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs Program is to collect and allocate departmental central costs such as pooled costs, paid-time-off, and other City central costs. The costs in this program are allocated to all department programs except the Contingent Budget Authority (CBA) Programs, the Process Improvements & Technology (PI&T) Program, and other programs in Leadership and Administration.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Citywide Indirect Costs	-	23,382,591	24,773,696

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs Program is to lead and support department employees; provide policy guidance and financial stewardship; manage the public disclosure of documents; and oversee relationships with the community, government agencies, and the media. The costs in this program are allocated to all department programs except the Contingent Budget Authority (CBA) Programs, the Process Improvements & Technology (PI&T) Program, and other programs in Leadership and Administration.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Departmental Indirect Costs	1,260	4,068,703	4,821,561
Full Time Equivalents Total	32.00	32.00	37.00

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Program is to provide support functions for SDCI's primarily fee funded programs: Land Use Services, Permit Services, Inspections; and for the fee-funded portion of the Government Policy, Safety and Support Program. The costs in this program are allocated only to the programs described above.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Divisional Indirect Costs	557	2,951,440	3,377,118
Full Time Equivalents Total	27.00	27.00	27.00

Indirect Cost Recovery Offset

Seattle Department of Construction and Inspections

The purpose of the Indirect Cost Recovery Offset Program is to offset the proportionate share of Citywide Indirect Costs, Departmental Indirect Costs, and Divisional Indirect Costs that allocate to the department's other Budget Summary Level programs as overhead. It is necessary to offset the full cost of indirect cost programs to calculate the budget appropriation and revenue requirements of the related programs.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Indirect Cost Recovery Offset	-	(30,402,734)	(32,972,375)

SDCI - BO-CI-U2600 - Government Policy, Safety & Support

The purpose of the Government Policy, Safety & Support Budget Summary Level is to develop and update land use code and technical code regulations, and provide appropriate support for disaster preparation, mitigation, response, and recovery services.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Govt Policy, Safety & Support	2,385,589	2,275,989	2,597,918
Total	2,385,589	2,275,989	2,597,918
Full-time Equivalents Total*	10.00	10.00	11.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDCI - BO-CI-U2800 - Process Improvements & Technology

The purpose of the Process Improvements and Technology Budget Summary Level is to allow the department to plan and implement continuous improvements to its business processes, including related staff training and equipment purchases. The purpose includes ensuring the Department's major technology investments are maintained, upgraded, or replaced when necessary.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Process Improvements and Tech	5,784,804	5,158,285	9,853,160
Total	5,784,804	5,158,285	9,853,160
Full-time Equivalents Total*	-	1.00	6.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Office of Economic Development

Pamela Banks, Interim Director

(206) 684-8090

www.seattle.gov/economicdevelopment

Department Overview

The Office of Economic Development (OED) is committed to building an inclusive economy in the City of Seattle. OED works at all levels of our local economy to:

- Support small and micro-businesses.
- Partner with neighborhood business districts, and support Business Improvement Area (BIA) formation.
- Support creative business sectors, workers, and special event organizers.
- Partner with key industries that drive innovation, job growth and global competitiveness, including technology, manufacturing, maritime, clean technology startups, healthcare, and creative industries.
- Invest in our local workforce with an emphasis on young people, low-income, as well as un-and under-employed adults.

Seattle--like all other cities and communities across the country is experiencing significant impacts from COVID-19 on our small businesses, workers, industries, neighborhoods, individuals, and families. Our Black, Indigenous, people of color, women, LGBTQ+, immigrant, refugee, and low-income communities have been disproportionately impacted as existing inequities have been exacerbated by the pandemic and ongoing institutional racism. As the city transitions from emergency COVID-19 response toward longer-term recovery, OED will play a leading and critical role in near- and long-term economic development and community resilience efforts. Through collaborative partnerships, our investments, strategies, and programs will work to achieve our population results for an inclusive economy and resilient communities:

- Neighborhood Recovery: Neighborhoods and communities rebound from the impacts of COVID-19 and thrive.
- Downtown Revitalization: Businesses, employees, residents, visitors, and cultural institutions in downtown neighborhoods are revitalized after COVID-19 and thriving.
- Small Business Support: Entrepreneurs and small businesses can recover from the impacts of COVID-19, stabilize, and grow their businesses.
- Education and Workforce Development: Current and future workers are employed and trained in opportunity sectors that are resistant to automation and have middle and high-wage earning potential.
- Targeted Investments in BIPOC Communities: Black, Indigenous, and People of Color communities recover from the impacts of COVID-19 and generate positive long-term outcomes.
- Access to Resources: Individuals and families recover from immediate economic and social impacts of COVID-19.

Budget Overview

The COVID-19 pandemic continues to affect Seattle's local and regional economy and disproportionately impact our Black, Indigenous and People of Color (BIPOC) communities. The Office of Economic Development (OED) has taken a leading role in delivering the emergency response to small businesses and workers, and has led in planning for Seattle's economic recovery and community resilience efforts. OED's programs further Seattle's Inclusive Economic Agenda by focusing on building community and generational wealth, connecting current and future workers to family-wage jobs and opportunities of the future economy that are resistant to automation, and capacity-building for neighborhood resilience in the face of displacement. OED programs intend to reduce the impact COVID-19 and systemic racism have had on individuals and communities who have been disproportionately harmed by both. Additional department operating changes help OED adjust to revenue changes and focus staff on citywide economic recovery strategies.

In July of 2020, City Council passed the JumpStart Payroll Tax legislation and Spending Resolution with collection of the tax set to begin on January 1, 2022. The 2022 Proposed Budget utilizes this tax in conjunction with other funding sources to invest \$17.8M in economic recovery and economic resiliency programming. These new investments in small business operating capital, workforce development, and small business ownership opportunities were informed by community process and align with the Council's JumpStart priorities.

Supporting Workers & Economic Recovery in 2022 OED will coordinate and implement a citywide workforce development strategy to support un/under employed, low income earning, and youth/young adult workers who are disproportionately impact by COVID, transition to middle-high wage careers that are resistant to automation and develop the in-demand skills for the future economy. New workforce development program investments totaling \$4.5M in Seattle Rescue Plan 3, enabled by funding from the federal Coronavirus Local Fiscal Recovery (CLFR) dollars will be distributed between OED and five other City departments. OED will provide coordinated leadership across the full portfolio of workforce development programming. New investments made within OED will focus on developing an inclusive maritime workforce development strategy.

Fulfilling the Equitable Communities Initiative Task Force Recommendations In 2021, City Council and Mayor Durkan allocated \$30M to recommendations made by the Equitable Communities Initiative Task Force. The Proposed Budget continues these investments intended to reduce the historic harm of institutional racism on BIPOC communities. The \$9.7 million in ECI investments made within OED are intended to connect BIPOC young people and adults to healthcare careers and create opportunities for small businesses to access capital and technical assistance. These investments are supported by and align with the JumpStart Payroll Tax and Spending Resolution.

Small Business Ownership Fund To complement the investments recommended by the Equitable Communities Initiative Task Force and further the City's economic recovery strategy, OED will launch the Small Business Ownership Fund. This investment is provided as part of Seattle Rescue Plan 3, enable by funding from CLFR. This fund will support small businesses ability own their properties, create place based economic growth, and advance anti-displacement initiatives throughout the city.

Description of Incremental Budget Changes

One-time Reversals

Expenditures	\$(3,386,000)
Revenues	\$(1,000,000)

This item reverses one-time changes to the 2021 Adopted Budget. \$14,000 will be restored to the baseline for the Creative Industry Advocate salary. \$50,000 in workforce development will be removed from the baseline.

Office of Economic Development

\$3,000,000 will be removed from the joint COVID relief funding. \$350,000 will be removed as part of the Clean City Initiative.

Maritime Workforce Development

Expenditures	\$500,000
--------------	-----------

This item adds \$500,000 in one-time resources to create a workforce development program within the manufacturing and maritime key industries where Seattle holds a competitive advantage. Rebuilding a stronger, and more equitable economy after COVID-19 must focus on those most impacted by the pandemic including our communities of color and women. This item is part of a set of workforce development programming enabled by CLFR funds, and is part of Seattle Rescue Plan 3 (SRP3). The workforce development programming seeks to create strong pathways to middle wage jobs and more wealth-generating businesses in industries that will thrive in the future. Investments in economic inclusion will help Seattle recover from the pandemic and position our local economy for continued equitable growth. The other departments receiving workforce development allocations enabled by CLFR funds are ARTS, FAS, OH, OIRA, and OSE. See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Small Business Development Capital (Equitable Communities Initiative)

Expenditures	\$4,980,621
--------------	-------------

This item adds \$5,000,000 for on-going programming and 1.0 FTE intended to decrease the barriers BIPOC populations face when securing financing for their small businesses. Funding will be provided in the form of small business grants to leverage additional lending as needed for small business growth and expansion that leads to additional small business employment and long-term commercial wealth. This item was recommended by the Equitable Communities Initiative Task Force, and is funded with Payroll Tax resources as it is consistent with the JumpStart policy goals regarding economic resiliency.

Small Business Technical Assistance (Equitable Communities Initiative)

Expenditures	\$2,480,621
--------------	-------------

This item adds \$2,500,000 and 1 FTE to fund on-going technical assistance intended for BIPOC small business owners. These services will be provided via contractual relationships with local Community Development Financial Institutions ("CDFIs") and other organizations selected through an RFP process in 2021 for the same purpose. This item was recommended by the Equitable Communities Initiative Task Force, and is funded with Payroll Tax resources as it is consistent with the JumpStart policy goals regarding economic resiliency.

Youth Healthcare Career Exploration (Equitable Communities Initiative)

Expenditures	\$480,621
--------------	-----------

This item adds \$500,000 for on-going programming and 1.0 FTE intended to increase the number of BIPOC representation in the healthcare profession. Funding will be intended for BIPOC focused organizations to create programs that advance youth career exploration activities, mentorships, internships, and partnerships in the health care sector. This item was recommended by the Equitable Communities Initiative Task Force, and is funded with Payroll Tax resources as it is consistent with the JumpStart policy goals regarding economic resiliency.

Healthcare Career Pipeline (Equitable Communities Initiative)

Expenditures	\$1,680,621
--------------	-------------

This item adds \$1,700,000 for ongoing programming and 1.0 full time staff member intended to address the need for greater BIPOC representation in the healthcare profession, especially in positions which impact health outcomes, by focusing on programs that support new and/or non-traditional paths into healthcare careers and includes

Office of Economic Development

technical assistance for smaller healthcare providers. Funding will be used to contract with partner organizations to develop viable career pathways intended for BIPOC individuals within the health care profession. This item was recommended by the Equitable Communities Initiative Task Force, and is funded with Payroll Tax resources as it is consistent with the JumpStart policy goals regarding economic resiliency.

ECI Staffing Changes

Position Allocation	4.00
---------------------	------

This change increases the Office of Economic Development's position authority by 3.5 FTEs to provide sufficient staffing support within the Business Services BSL to implement the goals set out by the Equitable Communities Initiative Taskforce. This change is included in the Third Quarter 2021 Supplemental legislation for 2021 and this item formalizes the staffing increase for 2022.

Small Business Ownership Fund

Expenditures	\$7,600,000
--------------	-------------

This item adds \$7,600,000 to create a Small Business Ownership Fund. Funding is intended for BIPOC owned businesses in high displacement areas to finance the acquisition and development of commercial space, providing opportunities to own space and build equity. Financing will be paired with OED's technical assistance programs which will support businesses during the construction process. This investment is provided as part of Seattle Rescue Plan 3, enable by funding from CLFR.

Permit Fee Reform Racial Equity Toolkit

Expenditures	\$50,000
--------------	----------

This item adds \$50,000 of one-time funding to undertake a Racial Equity Toolkit process around the potential impacts of changing fees for film and special event permitting in the right of way. This investment would help to ensure that proposed fee reforms are properly informed by an equity analysis prior to drafting new legislation and fee schedules.

Revenue Adjustments - Seattle Investment Fund Contribution

Revenues	\$(91,000)
----------	------------

This on-going change reduces Seattle Investment Fund, LLC's (SIF) annual contributions to the General Fund by \$(91,000) to recognize the decrease in staff support OED provides the SIF. The 2022 baseline budget assumed a SIF contribution of \$117,000 to cover City's costs of engaging in asset management for the New Market Tax Credit (NMTC) funded real estate portfolio held by SIF. The projects in this portfolio are scheduled to complete by the end of 2022.

Contract Reduction & Shift in Funding Source

Expenditures	\$(90,987)
--------------	------------

This on-going change proposes to cut Community Development Block Grant (CDBG) spending with community-based contractors by \$91,000 and reallocate that CDBG funding to backfill for OED staff time spent providing technical assistance to small businesses. This shift in the use of CDBG would free up the General Fund (GF) previously backing this staff. General Fund savings resulting from this change will be used to support the reduction of revenue from the Seattle Investment Fund as previously described. Contract reductions for technical assistance will be support by the other funding allocations previously described.

Admissions Tax Cut for Special Events Staffing

Office of Economic Development

Revenues \$(63,919)

This on-going change decreases the Admissions Tax revenue received from the Office of Arts and Culture (Arts) which had previously supported the Office of Economic Development's Special Events Program Lead, Strategic Advisor 1 position. Through this change, OED will receive enhanced General Fund support in 2022 to backfill for this loss in funding which will ensure the seamless continuation of special events coordination work.

Funding Source Shift for Special Events Staffing

Expenditures -

This on-going change swaps the backing of OED expenditures related to the Special Events Lead Strategic Advisor 1 position, previously backed by the Office of Arts and Culture's (Arts) Admissions Tax. Due to a decrease in the revenue anticipated to be received from Arts Admissions Tax previously described, the General Fund will now fully back this position.

Healthcare Cost Tech Adjustment

Expenditures \$77,516

This is a technical adjustment to recognize \$77,516 in healthcare costs associated with the permanent hire of 4.0 FTEs brought on to support the work of the investments identified by the Equitable Communities Taskforce. Since healthcare costs are billed to one project in the Finance & Administration BSL, those cuts were reduced from the change requests made to the Business Services BSL and moved to the correct location.

Language Premium Staff Stipend

Expenditures \$4,800

This item increases ongoing appropriation authority for language services stipends by \$4,800. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

Deputy Director

Expenditures \$200,328

Revenue Adjustments

Revenues \$388,001

This item increases OED's projection for Special Event (SE) permit fee collections by \$388,000 in 2022 to reflect a total SE fee collection of \$855,000 in 2022. This change assumes that OED will collect about 75% of the total fees collected in 2019 when SE permitting was at its peak of \$1.14M.

Health Care Technical Adjustment

Expenditures -

Baseline

Citywide Adjustments for Standard Cost Changes

Office of Economic Development

Expenditures \$42,896

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures \$126,550

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Office of Hearing Examiner

Ryan Vancil, Hearing Examiner

(206) 684-0521

<http://www.seattle.gov/examiner/>

Department Overview

The Office of Hearing Examiner is Seattle's quasi-judicial forum for reviewing factual and legal issues raised by the application of City Code requirements to specific people or property. As authorized by the Seattle Municipal Code, the office conducts hearings and decides appeals in cases where members of the public disagree with a decision made by a City agency. Many of the matters appealed to the Hearing Examiner relate to land use and environmental permit decisions and interpretations made by the Seattle Department of Construction and Inspections. The Hearing Examiner also hears appeals in many other subject areas, and makes recommendations to the City Council on rezoning petitions, major institution master plans, and other Council land-use actions.

The Hearing Examiner is appointed by the City Council, and Deputy Hearing Examiners are appointed by the Hearing Examiner. Examiners handle all pre-hearing matters, regulate the conduct of hearings, and prepare decisions and recommendations based upon the hearing record and applicable law. The Seattle Municipal Code requires all examiners to be attorneys with training and experience in administrative hearings. The Hearing Examiner also manages an executive assistant to oversee the administrative areas of the office, a legal assistant to assist with hearings and decision preparation, and an administrative specialist to support all other office positions and provide information to the public.

Budget Snapshot

Office of Housing

Emily Alvarado, Director

(206) 684-3727

<http://www.seattle.gov/housing/>

Department Overview

The mission of the Office of Housing (OH) is to build strong healthy communities and increase opportunities for people of all income levels to live in our city. To accomplish this mission, OH has three Budget Summary Levels:

- Multifamily Housing;
- Homeownership and Sustainability; and
- Leadership and Administration.

Multifamily Housing employs the Housing Levy and other federal and local funding to make low-interest loans to developers to develop or preserve affordable multifamily rental housing. OH monitors the housing portfolio to ensure that the policy objectives of the City are achieved and the units remain in good condition. The portfolio now includes 19,000 units, representing a significant investment of City and other funding in affordable housing over 39 years.

Homeownership and Sustainability includes three programs to assist low-income households:

- The **Home Ownership Program** supports first-time homebuyers and existing low-income homeowners through down payment assistance loans, subsidies for permanently affordable homes, and foreclosure prevention loans.
- The **Home Repair Program** provides grants or no- to low-interest loans to assist with critical home repairs.
- The **Weatherization Program** provides grants to increase energy efficiency and lower utility costs for low-income residents in both single-family and multifamily properties.

Leadership and Administration provides centralized leadership, coordination, technology, contracting, and financial management services to OH programs and capital projects. This includes the Policy and Planning program that establishes long-term strategic plans, develops and implements policy-based tools, and addresses housing-related aspects of citywide land use and community development planning.

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Office of Housing

Budget Overview

The Office of Housing (OH) is primarily supported by the 2016 Housing Levy, the Mandatory Housing Affordability program, and federal and state grants. Funding policies for the Housing Levy are detailed in the Levy Administrative and Financial (A&F) Plan, adopted by Council through a separate process. The A&F plan can be found [here](#). Throughout the COVID-19 pandemic, the need for housing production, acquisition, and preservation has remained critical for equitable response and recovery. The Office of Housing has continued significant investment in affordable housing projects in partnership with developers to produce and preserve multifamily rental housing that remains affordable under long-term income and rent restrictions.

In July of 2020, City Council passed the JumpStart Payroll Tax legislation and Spending Resolution with collection of the tax set to begin on January 1, 2022. The 2022 Proposed Budget utilizes this tax in conjunction with the base and other funding sources to invest \$198.8M in affordable housing of which \$114.3M are new investments detailed below. This investment is more than twice the amount available from base resources. These new investments, in housing capital, community-drive acquisition and development, and homeownership opportunities were informed by community process and align closely with the JumpStart spending priorities. Together these planning processes result in expanded funding for affordable housing for the purpose of alleviating poverty, reducing rates of homelessness, stimulating economic recovery, and building generational wealth for communities disproportionately impacted by COVID-19 and systemic and institutional racism.

New Investments in Housing Capital (\$89.5M) As a core component of ongoing COVID-19 response and recovery, the proposed budget includes significant new investments for rental housing capital with a focus on residents making at or below 30% of the average median income (AMI). The proposed budget invests \$89.5M for the production, preservation, or acquisition of affordable housing. This investment is made up of \$50.5M from Seattle Rescue Plan 3 using federal Coronavirus Local Fiscal Recovery (CLFR) dollars, \$17M from the Payroll Tax Fund and \$1.3M from the transportation network company (TNC) tax, and \$20.7M in new Mandatory Housing Affordability (MHA) projected revenue.

Community Driven Acquisition and Development of Affordable Housing (\$15.7M) The Strategic Investment Fund invests \$15.7M in communities facing high displacement pressure by acquiring or developing property for affordable housing projects. This investment compliments \$14.3M of additional funding for the Equitable Development Initiative in the Office of Planning and Community Development (OPCD). Both strategies use a community driven approach to addressing high displacement pressures as identified by the Equitable Community Indicator Report published by OCPD in September 2020.

Expanding Home Ownership to Grow Generational Wealth (\$6M) The Equitable Communities Task Force recommended \$6M in on-going investments to improve homeowner rates and homeownership retention intended to grow generational wealth in Black, Indigenous, and People of Color (BIPOC) communities that have been disproportionately impacted by a historically racist housing policies.

Additional Investments (\$3.1M)

Office of Housing

Incremental Budget Changes

Office of Housing

Total 2022 Proposed Budget	\$198,795,464	51.00

Description of Incremental Budget Changes

Removal of One-Time 2021 Budget Adds

Expenditures	\$(2,700,000)
Revenues	\$12,465,681

This baseline adjustment removes one-time 2021 Budget Adds from OH's 2022 budget. These one-time adds included funding for the following: the Home & Hope program (\$200K), Aurora Commons feasibility study (\$200K), Aurora Commons acquisition (\$1.5M), Central Area predevelopment work (\$250K), the Home for Good program (\$200K), and oil heat conversion (\$200K).

Office of Housing

Investments in Affordable Housing Capital

Expenditures \$17,000,000

This item adds \$17,000,000 in one-time funding for the production, preservation, or acquisition of affordable housing, including essential rehabilitation investments to extend the useful life of existing units. This item is funded with Payroll Tax resources as it is consistent with the JumpStart policy goals regarding investments in affordable housing.

Expanded Capital Investment in Affordable Rental Housing Production and Preservation

Expenditures \$50,498,109

This item adds \$50,498,109 in one-time funding for the production, preservation, or acquisition of affordable housing, including essential rehabilitation investments to extend the useful life of existing units. This item includes funding that is part of a package of CLFR-funded or CLFR-enabled items comprising Seattle Rescue Plan 3 (SRP3). See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Investments to Address Residential Displacement (Strategic Investment Fund)

Expenditures \$15,700,000

This proposal provides a dedicated resource for investments in the development of property located in high risk of displacement neighborhoods, including land and buildings, that is specifically intended to address residential displacement. This item is a companion to the \$14.3 million allocation of investments in the equitable development initiative in the Office of Planning and Community Development budget. This item is funded with Payroll Tax resources as it is consistent with the JumpStart policy goals regarding investments in affordable housing.

Homeownership Development (Equitable Communities Initiative)

Expenditures \$4,875,000

This item adds \$4,875,000 to develop an affordable housing program that creates equitable access to homeownership opportunities intended for Black, Indigenous, and People of Color (BIPOC) households who have been impacted by historically discriminatory housing policies, to remain in the City of Seattle, be rooted in place, and create generational wealth through homeownership. This item was recommended by the Equitable Communities Initiative Task Force and is funded with Payroll Tax resources as it is consistent with the JumpStart policy goals regarding home ownership.

Ownership Retention Program (Equitable Communities Initiative)

Expenditures \$875,000

This item adds \$875,000 to the Ownership Retention Program, that responds to homeowner's need to stay in their homes and their ability to develop their property as a means to secure assets for generational wealth and stabilize communities at risk of displacement. This item was recommended by the Equitable Communities Initiative Task Force, and is funded with Payroll Tax resources as it is consistent with the JumpStart policy goals regarding home ownership.

Transportation Network Company Tax Revenue Authority

Expenditures \$1,300,000

This item adds appropriation authority for new TNC revenue. Funds will be spent on OH capital investments.

Office of Housing

Single Family Oil Heat Conversion

Expenditures	\$1,498,461
Position Allocation	1.00

This item provides funding to fully meet the 2022 production targets of the 125 oil-to-heat electric heat pump conversions for low-income households regardless of any delay to the Heating Oil Tax. This item creates one Property Rehab Specialist position to implement the Oil Heat Conversion program. Funding for this program is supported by Payroll Tax resources as it is consistent with the JumpStart policy goals regarding Green New Deal investments. Funding will be supported by the Oil Heat Tax in 2023 and beyond.

Intake and Application Support for Expanded Weatherization Programs

Expenditures	\$26,539
Revenues	-
Position Allocation	1.00

This request adds a revenue-backed 1.0 FTE Development Finance Specialist to OH's Weatherization program in recognition of the significant growth of the program and need for intake, application, and related administrative support.

Fine Revenue for Multifamily Electrification

Expenditures	\$61,500
--------------	----------

This item appropriates OSE's fine-related revenue from enforcement of the building tune-up regulation. OH will use these funds for electrification or energy efficiency improvements in affordable housing multifamily buildings.

Workforce Development; Affordable Housing and Homeless Service Providers

Expenditures	\$750,000
--------------	-----------

This item adds \$750,000 to develop and strengthen the workforce in housing social service agencies throughout the city. This investment seeks to advance educational and technical training, intended for BIPOC workers to create new employment pipelines for the sector while simultaneously ensuring high quality delivery of housing and services to vulnerable people. This item is part of a set of workforce development programming enabled by CLFR funds, and is part of Seattle Rescue Plan 3 (SRP3). The workforce development programming seeks to create strong pathways to middle wage jobs and more wealth-generating businesses in industries that will thrive in the future. Investments in economic inclusion will help Seattle recover from the pandemic and position our local economy for continued equitable growth. The other departments receiving workforce development allocations enabled by CLFR funds are ARTS, FAS, OED, OIRA, and OSE. See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Reserve Funding for Equitable Communities Initiative Recommendation

Expenditures	\$250,000
--------------	-----------

This item holds \$250,000 in reserve for the implementation of consultant recommendations contracted in 2021. This item was recommended by the Equitable Communities Initiative Task Force and is funded by Payroll Tax resources as it is consistent with the JumpStart policy goals regarding home ownership.

Continuation of O&M Subsidy Adjustment

Expenditures	\$767,520
--------------	-----------

This item continues the appropriation authority needed to provide operating and maintenance (O&M) subsidies to new projects that are ready for occupancy.

Office of Housing

Local Option O&M Subsidies

Expenditures	\$1,929,400
--------------	-------------

Revenue from the Local Option Sales Tax funding source is two-fold: \$13.3 million for capital, and O&M subsidies for the projects built with the capital funds after they are complete. The two projects built with Local Option Sales Tax capital dollars are nearing completion and will be occupied in 2022. This technical adjustment reflects the appropriation authority necessary to begin distributing O&M subsidies to these projects in 2022.

Continuation of 2021 Q2 Ongoing Changes

Expenditures	\$409,594
Position Allocation	3.00

This item continues two ongoing adjustments made in the 2021 Q2 supplemental ordinance: 1) a net-zero shift of the budgeted medical benefit expenses from one operating BSL to two other operating BSLs, and 2) the addition of a Community Development Specialist for the Homeownership program.

Projected Revenue Adjustments

Expenditures	\$20,772,343
Revenues	\$22,823,227

This technical adjustment represents projected revenue changes from the baseline amounts in the 2022 Proposed Budget. Revenue adjustments tied to specific change requests are shown in those change requests and not included here. Amounts represent incremental differences only. These changes include inflationary adjustments, updated projections, and technical corrections.

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures	\$185,433
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures	\$60,260
--------------	----------

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Appropriations by Budget Summary Level and Program

OH - BO-HU-1000 - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide centralized leadership, strategic planning, program development, and financial management support services to the office.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Citywide Indirect Costs	1,180,829	1,268,302	1,402,636
Departmental Indirect Costs	2,079,852	2,793,834	2,812,227
Policy & Planning	1,163,411	2,192,892	3,717,666
Pooled Benefits	56,961	105,966	(404,309)
Total	4,481,053	6,360,994	7,528,220
Full-time Equivalents Total*	17.50	17.50	19.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle Information Technology Department.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Citywide Indirect Costs	1,180,829	1,268,302	1,402,636

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This may include personnel costs related to department leadership and administration or other administrative costs such as external rent and operating supplies or services.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Departmental Indirect Costs	2,079,852	2,793,834	2,812,227
Full Time Equivalents Total	9.50	9.50	9.50

Policy & Planning

Office of Housing

The purpose of the Policy & Planning program is to provide strategic planning, program development, and vacant land redevelopment services to increase housing opportunities for Seattle residents.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Policy & Planning	1,163,411	2,192,892	3,717,666
Full Time Equivalents Total	8.00	8.00	10.00

Pooled Benefits

The purpose of the Pooled Benefits program is to fund department costs associated with health and dental insurance, workers compensation, and unemployment insurance contributions.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Pooled Benefits	56,961	105,966	(404,309)

OH - BO-HU-2000 - Homeownership & Sustainability

The purpose of the Homeownership & Sustainability Budget Summary Level is to provide loans and grants to low-income Seattle residents to support first-time home-buyers, health and safety home repair needs, and energy efficiency improvements.

Program Expenditures	2020	2021	2022
	Actuals	Adopted	Proposed
Home Ownership	4,025,545	2,657,545	8,256,222
Home Repair	762,690	1,349,285	1,386,785
Weatherization	3,425,829	5,997,393	7,677,387
Total	8,214,064	10,004,223	17,320,395
Full-time Equivalents Total*	16.00	16.00	18.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Homeownership & Sustainability Budget Summary Level:

Home Ownership

The purpose of the Home Ownership program is to support first-time homebuyers and existing low-income homeowners through down payment assistance loans, subsidies for permanently affordable homes, and foreclosure prevention loans.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Home Ownership	4,025,545	2,657,545	8,256,222
Full Time Equivalents Total	2.50	2.50	2.50

Office of Housing

Home Repair

The purpose of the Home Repair program is to provide grants or no- to low-interest loans to assist low-income homeowners with critical home repairs.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Home Repair	762,690	1,349,285	1,386,785
Full Time Equivalents Total	2.00	2.00	2.00

Weatherization

The purpose of the Weatherization program is provide grants to increase energy efficiency and lower utility costs for low-income residents in both single-family and multifamily properties.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Weatherization	3,425,829	5,997,393	7,677,387
Full Time Equivalents Total	11.50	11.50	13.50

OH - BO-HU-3000 - Multifamily Housing

The purpose of the Multifamily Housing Budget Summary Level is to develop, preserve, and monitor affordable multifamily rental housing; and to support affordable housing providers and low-income residents.

Program Expenditures	2020	2021	2022
	Actuals	Adopted	Proposed
Asset Management	9,067,572	3,797,030	6,628,374
Multifamily Lending	125,828,753	64,374,058	167,318,476
Total	134,896,325	68,171,087	173,946,850
Full-time Equivalents Total*	12.50	12.50	13.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Multifamily Housing Budget Summary Level:

Asset Management

The purpose of the Asset Management program is to monitor the housing portfolio to ensure that the policy objectives of the City are achieved and the units remain in good condition.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Asset Management	9,067,572	3,797,030	6,628,374
Full Time Equivalents Total	6.50	6.50	6.50

Office of Housing

Multifamily Lending

The purpose of the Multifamily Lending program is to employ the Housing Levy and other federal and local funding to make low-interest loans to developers to develop or preserve affordable multifamily rental housing.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Multifamily Lending	125,828,753	64,374,058	167,318,476
Full Time Equivalents Total	6.00	6.00	7.00

Office of Immigrant and Refugee Affairs

Cuc Vu, Director

(206) 233-3886

www.seattle.gov/iandraffairs

Department Overview

The mission of the Office of Immigrant and Refugee Affairs (OIRA) is to improve the lives of Seattle's immigrant and refugee communities. OIRA does this by:

- Equitably engaging with immigrants and refugees to help advise on new City of Seattle issues and policies and enhance current ones.
- Ensuring that City of Seattle programs, services, and information are accessible to vulnerable immigrant and refugee community members regardless of their English-language proficiency and citizenship status.
- Partnering with community-based organizations, the Seattle Immigrant and Refugee Commission, and other partners to administer programs focused on helping immigrants successfully integrate into the civic life and culture of the city.

The City's Race and Social Justice Initiative guides OIRA's work, as direct and early engagement with community members and organizations informs the department's new decisions, initiatives, and policies. OIRA operationalizes racial equity in all its workplans, especially in working with other City departments on outreach, engagement, and language accessibility.

Between 2000 and 2018, King County's total population increased by around 496,000 residents. The foreign-born population increased by about 255,000 residents, accounting for 52 percent of the total population growth. In 2018, about 23.5 percent of King County's residents were born in another country. According to the non-partisan think tank New American Economy, immigrant household incomes accounted for \$31 billion in household income and \$12.7 billion in taxes paid to support the Seattle Metropolitan Area.

Budget Snapshot

	2020 Actuals	2021 Adopted	2022 Proposed

Total Appropriations	13,608,322	3,864,854	4,349,065
Full-Time Equivalents Total*	9.50	9.50	11.00

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

Office of Immigrant and Refugee Affairs

During the COVID-19 pandemic, OIRA's Language Access program modeled what a highly effective centralization of language access Citywide could look like, expanding support to other departments as well as directly providing translation services and recommendations on in-language outreach. OIRA responded to the urgent need to produce materials in many languages accessible to immigrant and refugee community members to help them navigate COVID restrictions and information and access relief resources. The 2022 Proposed Budget increases support for the City's Language Access needs, so that OIRA may maintain these gains and further expand language access support to departments.

The 2021 Adopted Budget paused the Immigrant Family Institute (IFI) due to public health restrictions placed on indoor gatherings. The 2022 Budget includes funding to resume IFI activities in some format, in anticipation of a return to normal operations with the help of the COVID-19 vaccine.

Federal Funding Support

The 2022 Proposed Budget allocates \$250,000 of General Fund funds enabled by Coronavirus Local Fiscal Recovery (CLFR) funds to OIRA as part of Seattle Rescue Plan 3 (SRP3). This funding will provide workforce development support to low-wage, limited-English-proficiency immigrant and refugee adults who have been negatively affected by the COVID-19 pandemic. See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Total Incremental Changes	\$484,211	1.50
Total 2022 Proposed Budget	\$4,349,065	11.00

Description of Incremental Budget Changes

Baseline

Baseline Adjustments for Personnel Costs

Office of Immigrant and Refugee Affairs

Expenditures \$31,230

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Citywide Adjustments for Standard Cost Changes

Expenditures \$64,325

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Language Premium Staff Stipend

Expenditures \$12,000

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

Language Access and Contracting Capacity

Expenditures \$246,656

Position Allocation 1.50

This item increases funding to support language access functions that will increase meaningful access for speakers of languages other than English to Seattle programs and services. The funding adds two positions, the first of which is a Language Access Specialist who will work with the existing specialist in supporting City departments to develop internal Language Access Plans and improve their communication with different communities. This position will also actively work with translators in the community to create linguistically accessible materials for the City. The second is a half-time position which will support OIRA's procurement and contracting needs generally and as it relates to language access needs. Lastly, this funding covers the operating costs of a City-wide cloud-based, computer-assisted translation tool (SmartCAT). This tool will help facilitate City departments' translation requests and will serve as a repository and reference of translated content.

Re-employment Pathways for Immigrants and Refugees

Expenditures \$250,000

This item addresses the negative economic impact of the pandemic on low-wage, limited-English-proficiency immigrant and refugee adults, further investing in their digital skill-building and device ownership through the Ready to Work (RTW) program. This further expands opportunities for educational and training pathways to help program participants obtain family-wage jobs.

Proposed Technical

Restore Immigrant Family Institute funding

Expenditures \$70,000

Office of Immigrant and Refugee Affairs

The 2021 Adopted Budget suspended funding for the Immigrant Family Institute (IFI) in 2021 because the in-person nature of the programming was not compatible with pandemic social distancing requirements. This item restores funding in the 2022 Budget with the intent to resume programming for the IFI. The IFI is an 8-week program that brings together immigrant and refugee families and Seattle police officers to improve understanding and build relationships.

Remove one-time increase to Legal Defense Fund

Expenditures \$(190,000)

The Council added one-time funding to the Legal Defense Network in 2021 to restore its funding to 2020 levels. This item removes that one-time increase of \$190,000 in the 2022 Budget.

Expenditure Overview

	2020 Actuals	2021 Adopted	2022 Proposed
Appropriations			
OIRA - BO-IA-X1N00 - Office of Immigrant and Refugee Affairs

Office of Labor Standards

Steven Marchese, Director

(206) 684-5397

www.seattle.gov/laborstandards

Department Overview

The mission of the Office of Labor Standards (OLS) is to advance labor standards through thoughtful community and business engagement, strategic enforcement, and innovative policy development, with a commitment to race and social justice. The Office of Labor Standards focuses on the implementation of labor standards for workers that perform work within Seattle city limits. Effective January 2021, there are 16 such standards, established through City ordinances:

- **Paid Sick and Safe Time Ordinance** requires employers with one or more full-time equivalent employees to provide paid sick and safe time;
- **Fair Chance Employment Ordinance** restricts how employers can use conviction and arrest records during the hiring process and course of employment;
- **Minimum Wage Ordinance** establishes a minimum hourly wage that increases each year based on rates set by ordinance and adjusted for the rate of inflation;
- **Wage Theft Ordinance** requires employers to provide written notice of employment information and pay all compensation due by reason of employment (including wages and tips) on a regular pay day;
- **Secure Scheduling Ordinance** establishes scheduling requirements for covered retail and food service establishments to provide schedule predictability and increased access to hours;
- **Domestic Workers Ordinance** provides protections for domestic workers and establishes a Domestic Workers Standards Board; and
- **Commuter Benefits Ordinance** requires employers to provide commuter benefits on a pre-tax basis.

Two ordinances protect the rights of drivers for transportation network companies (TNCs) (i.e. Uber and Lyft):

- **Transportation Network Company Driver Deactivation Rights Ordinance** gives TNC drivers the right to challenge unwarranted deactivations before a neutral arbitrator, and creates a Driver Resolution Center to provide representation for drivers; and
- **Transportation Network Company Minimum Compensation Ordinance** requires that TNCs provide a minimum guaranteed per-trip payment that is at least the equivalent of Seattle's large employer minimum wage plus compensation for reasonable expenses.

Four ordinances protect the rights of hotel workers:

- **Hotel Employee Safety Protections Ordinance** requires employers to take certain steps to prevent and report violent and harassing conduct by guests and to support employees who report this conduct;
- **The Protecting Hotel Employees from Injury Ordinance** limits the workload of employees who clean hotel rooms to reduce the frequency and occurrence of injuries associated with room cleaning;
- **The Improving Access to Medical Care for Hotel Employees Ordinance** requires employers to provide employees working in large hotels with increased access to medical care; and
- **The Hotel Employees Job Retention Ordinance** requires employers to take certain actions to reduce job insecurity in the hospitality industry.

OLS is also responsible for the administration of three additional temporary ordinances that grant protections to certain workers during the COVID-19 civil emergency and that are enforceable for up to three years after the conclusion of the civil emergency:

Office of Labor Standards

- **Paid Sick and Safe Time for Gig Workers**, requiring covered transportation network and food delivery network companies to provide paid sick and safe time to gig workers during, and for 180 days following the conclusion of, the COVID-19 civil emergency.
- **Premium Pay for Gig Workers**, requiring covered food delivery network companies to provide premium pay to gig workers.
- **Grocery Employee Hazard Pay**, requiring certain grocery businesses to pay hazard pay to employees during the civil emergency.

Starting September 1, 2022, the Office of Labor Standards will be responsible for enforcing a 17th ordinance, the Independent Contractor Protections Ordinance, which requires certain hiring entities to provide independent contractors with certain pay and expense information prior to contracting and at time of payment, as well as with timely payment.

OLS provides education and technical assistance to the business and worker communities. As a part of these efforts, OLS manages the **Community Outreach and Education Fund** to foster collaboration between OLS and the community with funds to develop awareness and understanding of the worker rights provided by Seattle's labor standards. The office also manages the **Business Outreach and Education Fund** which provides technical assistance to small businesses to increase compliance with Seattle's labor standards. The fund emphasizes outreach to businesses owned by low-income and historically disenfranchised communities who typically are not served by traditional outreach methods. OLS manages the **Driver Resolution Center** contract which funds a community organization that provides no-cost, culturally appropriate, consultation, support, legal services and outreach to TNC drivers that are facing deactivation.

Budget Snapshot

	2020 Actuals	2021 Adopted	2022 Proposed

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The 2022 Proposed Budget increases resources and staff to support both the significant ongoing and growing body of work of the Office of Labor Standards. This includes sustained funding for 2.0 FTEs that were added in the 2021 Adopted Budget to support the implementation of Transportation Network Company Legislation and the Driver Resolution Center established by the Driver Deactivation Rights ordinance.

In addition to the ongoing City ordinances that OLS currently enforces, OLS will begin to implement in 2022 the Independent Contractor Protection Ordinance, which was passed on June 14, 2021. The addition of the Independent Contractor Protection ordinance will grow the scope of workers and hiring entities covered by laws enforced by OLS.

Office of Labor Standards

The 2022 Proposed Budget includes ongoing funding for implementation of this law, including outreach and education, as well as 2.0 FTEs to accommodate this growth.

The 2022 Proposed Budget increases resources and staff to support both the significant ongoing and growing body of work of the Office of Labor Standards. This includes sustained funding for 2.0 FTEs that were added in the 2021 Adopted Budget to support the implementation of Transportation Network Company Legislation and the Driver Resolution Center established by the Driver Deactivation Rights ordinance.

In addition to the ongoing City ordinances that OLS currently enforces, OLS will begin to implement in 2022 the Independent Contractor Protection Ordinance, which was passed on June 14, 2021. The addition of the Independent Contractor Protection ordinance will grow the scope of workers and hiring entities covered by laws enforced by OLS. The 2022 Proposed Budget includes ongoing funding for implementation of this law, including outreach and education, as well as 2.0 FTEs to accommodate this growth.

The 2022 Proposed Budget also provides one-time funding to address recommendations from the Domestic Workers Standards Board, as presented to Council during 2021, makes permanent a manager position to oversee Outreach and Community Engagement, and adds a Deputy Director position to reflect the department's growing size and complexity. Lastly, the 2022 Proposed Budget provides OLS with a number of technical adjustments, including updates to lease, personnel, and allocated costs for central services like human resources.

Office of Labor Standards

Description of Incremental Budget Changes

Baseline

Remove One-time Items

Expenditures	\$35,121
Revenues	\$35,121

This item reduces appropriation to remove one-time items that were added as part of the 2021 Adopted Budget, including \$50,000 for Domestic Worker Standards Board recommendations and \$45,000 for the implementation of the Transportation Network Tax. This item also reinstates funding for a Planning and Development Specialist position, which was temporarily unfunded in the 2021 Adopted Budget as a cost-saving measure.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$105,767
--------------	-----------

This item reflects citywide technical adjustments made in the baseline phase to reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures	\$34,529
--------------	----------

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Increase in External Lease Costs

Expenditures	\$13,307
--------------	----------

This item increases appropriation authority by \$13,307 to pay for increases in external lease costs.

Proposed Operating

Drivers Resolution Center Continuation

Expenditures	\$3,500,000
--------------	-------------

This item increases appropriation by \$3,500,000 to continue operating the Driver Resolution Center (DRC) as required by the Deactivation Rights Ordinance. The Driver Resolution Center comprises a contracted vendor who creates and support the DRC for Transportation Network Company (TNC) drivers as well as staff resourcing to oversee the DRC contract and provide logistical support and outreach. The Driver Resolution Center was initiated July 1, 2021, with appropriation for six months of DRC operations added to the 2021 budget through mid-year supplemental legislation.

Domestic Worker Standards Board Recommendations

Expenditures	\$500,000
--------------	-----------

This item increases appropriation by \$500,000, providing one-time resources for further implementation of recommendations from the Domestic Workers Standards Board (DWSB). The DWSB was established by the Domestic

Office of Labor Standards

Workers Ordinance (Seattle Municipal Code 14.23, effective July 1, 2019) to provide a forum for hiring entities, domestic workers, worker organizations, and the public to consider, analyze, and make recommendations to the City on the legal protections, benefits, and working conditions of domestic workers. In 2021, the DWSB issued a set of recommendations designed to improve the effectiveness of the Domestic Workers Ordinance and improve the working conditions of domestic workers in Seattle. The additional funding would support implementation of one or more of the DWSB's recommendations.

Independent Contractor Legislation Resourcing

Expenditures	\$488,262
Position Allocation	2.00

This item increases appropriation by \$488,262 and adds two ongoing positions to implement the Independent Contractor Protection Ordinance, passed on June 14, 2021. The ordinance provides labor standards protections for independent contractors; specifically requiring certain hiring entities to provide pre-contract and payment disclosures and to timely pay independent contractors. The ordinance establishes multiple enforcement mechanisms, including traditional labor standards enforcement, an expedited complaint system, and a court navigator program. Ongoing appropriation of \$427,612 will support education and outreach through community partnerships and implementation (e.g. rulemaking, and ongoing salary costs for 1.0 FTE Paralegal and 1.0 FTE Planning & Development Spec II. An additional one-time appropriation of \$60,650 will support new employee initial set up and initial implementation costs including rulemaking, language access, and outreach and communication efforts like press releases, media campaign, development and/or updates to required forms and notices, and other educational materials.

Deputy Director

Expenditures	\$172,417
Position Allocation	1.00

The item increases appropriation by \$172,417 and adds a Deputy Director (Executive 1) position which will support the Director on critical functions of department operations and strategic planning. The Deputy Director will direct strategic planning and management systems key to promoting the effectiveness of the Department's and City of Seattle's strategies in advancing worker protections in policy and practice. This position add aligns the Office of Labor Standards organizational structure with other similarly sized departments and offices.

Outreach Manager

Position Allocation	1.00
---------------------	------

This item adds an Outreach Manager position to support the supervision and oversight of OLS's Outreach Unit, consisting currently of four Engagement Specialists, and will indirectly supervise other team members on discrete projects, including from our administrative, policy and enforcement teams. An emergency position was approved for 2021 on March 26, 2021; this item makes the position permanent.

Language Premium Staff Stipend

Expenditures	\$4,800
--------------	---------

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

Office of Labor Standards

Proposed Technical

OLS Fund Revenue Updates

Revenues \$3,365,949

This item increases revenue from the General Fund to the Office of Labor Standards fund to reflect the budget changes described above.

Office of Labor Standards Fund Balancing Entry

Revenues \$1,453,133

This is a technical item to record a fund balancing entry for the 00190 Office of Labor Standards Fund, which is managed by this department.

Office of Labor Standards

Appropriations by Budget Summary Level and Program

OLS - BO-LS-1000 - Office of Labor Standards

The purpose of the Office of Labor Standards Budget Summary Level is to implement labor standards for workers performing work inside Seattle's city limits . This includes investigation, remediation, outreach and education, and policy work related to existing labor standards and those that the City may enact in the future.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Business Outreach & Education	518,533	600,000	600,000
Community Outreach & Education	1,473,944	1,500,000	1,500,000
Office of Labor Standards	4,264,143	5,176,457	10,030,660
Total	6,256,621	7,276,457	12,130,660
Full-time Equivalents Total*	28.00	30.00	34.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Office of Labor Standards Budget Summary Level:

Business Outreach & Education

The purpose of the Business Outreach and Education program is to facilitate assistance and outreach to small businesses owned by low-income and historically disenfranchised communities, who typically are not served by traditional outreach methods, to increase awareness and compliance with Seattle's labor standards.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Business Outreach & Education	518,533	600,000	600,000

Community Outreach & Education

The purpose of the Community Outreach and Education program is to strengthen the collaboration between OLS and the community by funding community-based organizations and enhancing their capacity to increase awareness and understanding of Seattle's labor standards among populations and industries with low-wage jobs and that experience high-incidents of workplace violations including: female-identifying workers, workers of color, immigrant and refugee workers, LGBTQ workers, workers with disabilities, veterans and youth workers.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Community Outreach & Education	1,473,944	1,500,000	1,500,000

Office of Labor Standards

Office of Labor Standards

The purpose of the Office of Labor Standards Program is to develop and implement labor standards that advance workplace equity for employees working inside Seattle's city limits. This includes enforcement outreach and education, and policy work.

Department Overview

The Seattle Department of Neighborhoods (DON) mission is to strengthen Seattle by engaging all communities. DON serves residents of Seattle by providing programmatic support and building inclusive partnerships to help ensure that they receive equitable access to government and opportunities to build community.

DON has three lines of business:

Community Building delivers technical assistance, supports services, boards and commissions, and programs in neighborhoods to strengthen local communities, engages residents in community improvement, and leverages resources. The programs that support this work include:

- Community Engagement Coordinators
- Community Liaisons
- Community Safety
- Historic Preservation
- Major Institutions and Schools
- P-Patch Community Gardening
- Participatory Budgeting (Your Voice, Your Choice)
- People's Academy for Community Engagement (PACE)
- Reimagination and Recovery

Leadership and Administration provides executive leadership, communications, and internal operations and administration support for the entire department. This support includes financial, human resources, information technology, facility, and administrative functions.

Community Grants provides financial and technical support to local grassroots projects within neighborhoods and communities by providing funding to implement community-driven improvement projects. The programs that support this work include:

- Neighborhood Matching Fund
- Duwamish River Opportunity Fund
- Food Equity Fund

Budget Snapshot

	2020 Actuals	2021 Adopted	2022 Proposed

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

The Seattle Department of Neighborhoods (DON) 2022 Proposed Budget is anchored in both restoration and reimagination. Adjustments were made to both restore funding and positions lost during the pandemic as well as increase needed investments in new programs and resources that prioritize the needs of Seattle's most disenfranchised communities. It reflects DON's commitment to centering racial equity, investing in community-driven solutions, and reimagining local government to better serve Black, Indigenous, and People of Color (BIPOC) communities.

Advancing Equity

The 2022 Proposed Budget adds funding to build and launch programs centered on advancing equity. It includes a new investment of \$1.8M from the Equitable Communities Initiative to develop a holistic generational wealth education program to help residents and business owners disproportionately affected by systemic racism to build wealth and achieve stability. In addition, the newly launched Food Equity Fund (FEF) will receive two increases in funding for a total new investment of \$2.25M. This investment increase was a coordinated recommendation from the Equitable Communities Initiative Task Force in 2021 as well as the Sweetened Beverage Tax Community Advisory Board. This investment increase includes five new FTEs to scale and administer this granting program. The FEF will invest in community-based projects designed and led by the people most impacted by race, social, health, and environmental injustices.

Strengthening Outreach and Engagement

The 2022 Proposed Budget strengthens DON's investment in improving coordination of equitable community engagement throughout the City. It includes position and budget authority for a full-time employee to provide strategic advisement, coordination, and support to the City's portfolio of work in the Chinatown International District. It also adds two new Strategic Advisor positions, backed by revenues from Seattle Public Utilities, that will allow DON to increase equitable engagement to communities most impacted by the City's growth and infrastructure needs.

Restoring Staffing

As a result of budget reductions in 2020 and 2021, some DON programs have been operating with reduced staffing. The 2022 Proposed Budget restores staffing for both the Historic Preservation and Major Institutions and Schools programs, better positioning DON to meet the demands of future development as the City recovers from the pandemic. DON will also realign existing staff to address emerging and on-going outreach and engagement needs in coordination with other City departments.

Additional Investments

DON's proposed budget provides additional investments to support the Seattle City Charter mandated redistricting process, the facilitation of Payroll Tax Oversight Committee, as well as proven programs that address public safety in South Park, Rainier Beach, and Chinatown International District.

Department of Neighborhoods

Description of Incremental Budget Changes

One-time reversals

Expenditures	\$(250,000)
--------------	-------------

This Item reverses one-time funding in the 2021 Adopted Budget. Items being removed include South Park Public Safety Coordinator (\$75K) and Chinatown/International District Visioning Phase II (\$175K).

Health Care Reconciliation - Leadership & Administration

Expenditures	-
--------------	---

This item transfers healthcare expenditures to the correct BSL. This item is an account reconciliation and is budget neutral.

Health Care Reconciliation - Community Building BSL

Expenditures	-
--------------	---

This item transfers healthcare expenditures to the correct BSL. This item is an account reconciliation and is budget neutral.

True up of retirement accounts

Expenditures	\$34,430
--------------	----------

This item is a true up of retirement account expenditures per the updated Central Cost Manual.

Other budget neutral baseline accounts clean up

Expenditures	-
--------------	---

This item is a budget-neutral accounts reconciliation.

Expenditure to Revenue Reconciliation

Expenditures	\$(140,057)
--------------	-------------

This item is a true up of expenditure authority based on revised revenue projections.

Investment in the Food Equity Fund (Equitable Communities Initiative)

Expenditures	\$750,000
--------------	-----------

Position Allocation	1.00
---------------------	------

This item adds \$750,000 of on-going funding and 1 FTE Planning & Development Specialist II (PDS II) for additional investments in the Food Equity Fund (FEF). This investment was recommended by the Equitable Communities Initiative Task Force.

Department of Neighborhoods

Increase Food Equity Fund Programming

Expenditures	\$1,500,000
Position Allocation	4.00

This item adds \$1.5M to the FEF for awards. This item adds position authority and allocates funding for 4 FTEs to scale and administer the fund. The FEF was originally proposed in 2020 as the Healthy Food Fund, bringing together resources from DON and HSD; however, launch of that program was delayed due to COVID-19. This funding increase was recommended by the Sweetened Beverage Tax Citizens Advisory Board (SBTCAB) and the Equitable Communities Initiative Task Force.

Add SA1 for Chinatown International District Outreach & Engagement

Expenditures	\$151,701
Position Allocation	1.00

This item adds position and budget authority for 1 FTE Strategic Advisor 1 to provide overall strategic advisement, coordination, and support for the portfolio of investments in the Chinatown-International District (CID). Funding for community planning was included in prior budgets as one-time; this item makes support for that work ongoing.

Add Staffing for Outreach and Engagement for Seattle Public Utilities

Expenditures	\$371,805
Revenues	\$371,805
Position Allocation	2.00

This item adds position and funding for 1.0 FTE Strategic Advisor 1 (SA1) and 1.0 FTE Strategic Advisor 2 (SA2) and program expenses to support community outreach and engagement interdepartmental partnerships. These changes will be revenue-backed by revenues from Seattle Public Utilities (SPU). DON will enter into a Memorandum of Agreement (MOA) with SPU, building upon an established inter-departmental cost-sharing model aimed at improving coordination of equitable community engagement throughout the City.

Restore Staffing for Historic Preservation and Major Institutions and Schools programs

Expenditures	\$78,839
--------------	----------

This item restores to full funding 1 FTE Community Development Specialist position in the Historic Preservation program and a 1 FTE Planning & Development Specialist Sr position in the Major Institutions and Schools program.

Restore Funding for South Park Public Safety Coordinator

Expenditures	\$110,000
--------------	-----------

This item restores funding for the South Park Public Safety Coordinator. Funding for this contract was added on a one-time basis in the 2021 Adopted Budget and as a result removed from the Baseline as previously described. This change is an on-going restoration of funding.

Factor Inflation to Rainier Beach: A Beautiful Safe Place for Youth

Expenditures	\$22,531
--------------	----------

This item provides 2.4% inflationary adjustment to 2021 base funding for Rainier Beach: A Beautiful Safe Place for Youth programming.

Department of Neighborhoods

Provide Resources for Redistricting

Expenditures	\$275,000
--------------	-----------

This item provides resources for redistricting which include commissioner support, temporary staffing back-fill, consultant support, language access needs, information technology, and other programmatic expenses as dictated by the Seattle Municipal Code for the purpose of redrawing Seattle City Council districts follow the 2020 Census.

Provide Resources for Wealth Education (Equitable Communities Initiative)

Expenditures	\$1,800,000
Position Allocation	2.50

This item adds \$1,800,000 in on-going funding to develop a holistic wealth education program intended to support BIPOC residents and business owners build wealth and achieve stability.

The program should include a pipeline of generational wealth resources related to home ownership, business development, financial planning, education, and health and leverage technology to connect BIPOC communities to available services from the City and partner organizations. This investment was recommended by the Equitable Community Initiative Task Force.

Eliminate Funding for Find It Fix It

Expenditures	\$(30,000)
--------------	------------

This item eliminates funding for Find It Fix It awards. DON provides financial and technical support to local grassroots projects within neighborhoods and communities by providing funding to implement community-driven improvement projects. The programs that support this work include the Neighborhood Matching Fund, Duwamish River Opportunity Fund and Food Equity Fund.

Payroll Tax Oversight Committee Facilitation

Expenditures	\$171,701
Position Allocation	1.00

This item provides funding for 1 FTE Strategic Advisor 1 to facilitate the newly created payroll tax oversight committee.

Language Premium Staff Stipend

Expenditures	\$16,800
--------------	----------

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

Repurpose existing position from Community Engagement Coordinators to Community Liaisons Program

Expenditures	-
Position Allocation	-

This item repurposes an existing position and funding from the Community Engagement Coordinator program to the Community Liaison program to align with citywide needs and department priorities. This change is budget neutral.

Department of Neighborhoods

Centralize Budget for Language Access for Certain Programs in DON

Expenditures -

This item moves \$16,000 from the Community Liaisons (CL) program expenses budget for Language Access to the Leadership and Administration/Departmental Indirect Costs program). This amount will be consolidated to the existing Language Access budget of \$2,143 in Internal Operations, for a total Language Access budget of \$18,143. This budget-neutral adjustment aims to better align where the central budget for Language Access should be accessed and tracked.

True up Expenditure and Revenue Budget for Outreach & Engagement

Expenditures \$(321,495)

Revenues \$(321,495)

This item reduces expenditure budget authority by \$321,945 commensurate with the estimated revenue reduction pertaining to the DON/SDOT Memorandum of Agreement.

Centralize Health Care - Proposed Phase

Expenditures -

This item is a budget neutral technical adjustments to move health care budget from individual programs to the Central Indirect Costs program. DON centralizes health care costs in this program.

Baseline

Baseline Adjustments for Personnel Costs

Expenditures \$88,690

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Citywide Adjustments for Standard Cost Changes

Expenditures \$149,439

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Community Building Budget Summary Level:

Community Engagement Coordinators

The purpose of the Community Engagement Coordinators Program is to provide a range of technical assistance and support services for residents and neighborhood groups to develop a sense of partnership among neighborhood residents, businesses, and City government.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Community Engagement Coordinators	2,546,378	2,589,516	2,752,612
Full Time Equivalents Total	15.00	17.00	20.00

Community Liaisons

The purpose of the Community Liaisons Program is to provide equitable outreach and engagement in a culturally competent manner to historically underserved communities. This is done for City departments through independent contractors who serve as resources and liaisons for community members, provide quality translations and interpretations and advise on best practices for engaging with their communities.

Department of Neighborhoods

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Community Liaisons	537,775	742,399	718,665
Full Time Equivalents Total	3.75	3.00	4.00

Community Safety

The purpose of the Community Safety program is to support the City of Seattle's commitment to being a safe, vibrant, and interconnected city that ensures all residents can live safely and securely.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Community Safety	721,506	1,028,486	1,086,017

Duwamish River Opportunity Fun

The purpose of the Duwamish River Opportunity Fund Program is to support new and existing small-scale programs focused on the challenges faced by communities in the Duwamish River area.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Duwamish River Opportunity Fun	192,275	-	-

Food Equity Fund

The purpose of the Food Equity Fund Program is to support community-based projects and programs that are food-related consistent with the overarching goal of the Sweetened Beverage Tax of improving public health.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Full Time Equivalents Total	1.50	-	-

Historic Preservation

The purpose of the Historic Preservation Program is to provide technical assistance, outreach, and education to the general public, owners of historic properties, government agencies, and elected officials to identify, protect, rehabilitate, and re-use historic properties

	2020	2021	2022

Historic Preservation	1,007,627	800,579	838,541
Full Time Equivalents Total	7.00	7.00	7.00

Housing Affordability and Livability Agenda (HALA)

The purpose of the Housing Affordability Livability Agenda (HALA) Program is to address affordable housing and livability within the City through outreach and engagement efforts.

Department of Neighborhoods

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Housing Affordability and Livability Agenda (HALA)	22,503	1	-

Major Institutions and Schools

The purpose of the Major Institutions and Schools Program is to coordinate community involvement in the development, adoption, and implementation of Major Institution Master Plans, and to facilitate community involvement in school re-use and development.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Major Institutions and Schools	213,256	166,779	207,656
Full Time Equivalents Total	2.00	2.00	2.00

Participatory Budgeting (Your Voice Your Choice)

The purpose of the Participatory Budgeting (Your Voice Your Choice) Program is to provide a process in which Seattle residents democratically decide how to spend a portion of the City's budget.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Participatory Budgeting (Your Voice Your Choice)	156,631	122,673	122,673
Full Time Equivalents Total	1.00	1.00	1.00

People's Academy for Community Engagement (PACE)

The purpose of the People's Academy for Community Engagement (PACE) Program is to provide leadership development and skill building of emerging leaders in a multicultural, participatory adult learning environment where participants learn hands-on strategies for community building, inclusive engagement, and accessing governments from experts in the field

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
People's Academy for Community Engagement (PACE)	100,502	25,301	156,244
Full Time Equivalents Total	1.00	-	-

P-Patch Community Gardening

The purpose of the P-Patch Community Gardening Program is to provide community gardens, gardening space, and related support to Seattle residents while preserving open space for productive purposes, particularly in high-density communities

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
P-Patch Community Gardening	867,329	791,169	791,169

Department of Neighborhoods

Full Time Equivalents Total	6.00	6.00	6.00
-----------------------------	------	------	------

Re-imagination and Recovery

The purpose of the Re-imagination and Recovery program is to provide transformational, people-centered programming and services informed by data and best practices that enhance and expand government support in under-served communities.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Re-imagination and Recovery	-	-	1,751,553
Full Time Equivalents Total	-	-	2.50

DON - BO-DN-I3400 - Community Grants

The purpose of the Community Grants Budget Summary Level is to provide support to local grassroots projects within neighborhoods and communities by providing funding to implement community-based self-help projects.

	2020 Actuals	2021 Adopted	2022 Proposed
Program Expenditures			
Duwamish River Opportunity Fun	-	249,799	249,799
Find It Fix It	-	30,000	-
Food Equity Fund	-	1,472,939	3,703,560
Neighborhood Matching	2,581,399	3,224,097	3,228,995
Total	2,581,399	4,976,835	7,182,354
Full-time Equivalents Total*	8.00	8.00	13.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Community Grants Budget Summary Level:

Duwamish River Opportunity Fun

The purpose of the Duwamish River Opportunity Fund Program is to support new and existing small-scale programs focused on the challenges faced by communities in the Duwamish River area.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Duwamish River Opportunity Fun	-	249,799	249,799

Find It Fix It

The purpose of the Find It Fix It (FIFI) Program is provide funds for grassroots projects to improve neighborhood infrastructure.

Department of Neighborhoods

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Find It Fix It	-	30,000	-

Food Equity Fund

The purpose of the Food Equity Fund Program is to support community-based projects and programs that are food-related consistent with the overarching goal of the Sweetened Beverage Tax of improving public health.

Rico Quirindongo, Interim Director

(206) 386-1010

<http://www.seattle.gov/opcd/>

Department Overview

The Office of Planning and Community Development (OPCD) was established in December 2015 with a mission of strengthening citywide planning and implementation and ensuring City departments are aligned and coordinated in planning for Seattle's future development. OPCD coordinates City departments to ensure that development decisions and investments advance equitable growth, consistent with Seattle's Comprehensive Plan. The department is guided by its vision of "an inspiring city, in harmony with nature, where everyone thrives." In addition to partnering with other City departments, OPCD works closely with community partners and other agencies to implement that vision. During the last five years, OPCD has accomplished a wide range of projects, including annual amendments to the City's Comprehensive Plan, implementation of legislation to make it easier for property owners to create accessory dwelling units (ADUs) and develop affordable housing; development of new Design Guidelines in six neighborhoods; 130th Street and 145th Street station area planning; industrial and maritime strategy planning; funding 41 community-initiated projects to combat displacement and increase access to opportunity through the Equitable Development Initiative (EDI); and numerous other items.

The director of OPCD serves in the Mayor's various subcabinets to facilitate coordinated decision-making to address policies and investments that support Seattle's BIPOC communities. OPCD works with the Mayor's Office and members of the cabinet to ensure the City's investments support community development objectives and that department priorities are aligned and reflected in policies and budget resources.

OPCD is organized in five divisions: Equitable Development, Long Range Planning, Community Planning, Land Use Policy, and Urban Design. OPCD also houses two independent commissions: the Seattle Design Commission and the Seattle Planning Commission. OPCD also staffs the Equitable Development Initiative Advisory Board.

Equitable Development

This division leads the City's Equitable Development Initiative (EDI) in collaboration with City departments and community groups to invest in community-led efforts aimed at addressing issues of racial equity, social justice, economic mobility and residential, cultural and commercial displacement. Six equity drivers are key to achieving racial equity outcomes. The Equitable Development Framework guides how the City prioritizes its work; shapes its budgets, policies, programs, and investments; and structures the implementation of targeted strategies and equitable development projects by using clear objectives for reducing disparities and achieving equitable outcomes for marginalized populations.

Long Range Planning

This division leads the development of strategies, policies, and actions on issues of Citywide importance through efforts such as annual amendments and periodic major updates to Seattle's Comprehensive Plan. This division provides data support for OPCD and other City departments in the areas of demographics, land use, and related data monitoring and analytics. This division also represents the City in regional planning initiatives and works with partners to conduct research and analysis on current issues and trends to forecast potential future challenges and opportunities.

Community Planning

This division works at the neighborhood, district, corridor or community scale to develop localized strategies for addressing community-defined priorities and outcomes. These efforts are typically undertaken in collaboration with community partners and involve multiple City departments as well as other agencies, such as Sound Transit. Outcomes range from community visioning and near-term tactical interventions to legislative actions such as

Office of Planning and Community Development

adoption of design guidelines and rezoning. Decisions about where to focus these efforts are informed by data on racial equity, growth, displacement and access to opportunity, environmental issues and other topics. Projects are often in response to major capital investments or market forces that will catalyze community change and/or contribute to increased displacement. This division also leads site- and area-specific efforts to facilitate desired change in the built environment and property redevelopment that achieves community-benefit outcomes.

Land Use Policy

Land Use Policy includes work on topics such as affordable and market-rate housing policy, and departmental efforts that implement changes to the City's land use (zoning) code and other City regulatory and incentive codes. The group coordinates closely with SDCI. The division guides major policy updates, such as the industrial/maritime strategy. This division previously led several housing-related initiatives including the Affordable Middle-Income Housing Advisory Council. The division provides technical support to other departmental and non-departmental efforts, such as State Environmental Policy Act (SEPA) review and preparation of legislation to implement actions. The Land Use Policy Division is currently operating jointly with Urban Design to realize efficiencies.

Urban Design

OPCD's urban design group supports near- and long-term planning efforts related to design and placemaking for the physical environment. The division prepares design guidelines, area planning, and project-specific placemaking efforts such as the Lid I-5 study, 520 corridor design, and ST3 station area design guidelines. They collaborate frequently with the Design Commission, other departments and partner agencies. The division provides technical support to other departmental and non-departmental functions related to design. As noted above, the Urban Design division is currently operating jointly with Land Use Policy to realize efficiencies.

In addition, two independent commissions and the Equitable Development Initiative Advisory Board are housed within OPCD:

- The **Seattle Design Commission** advises the Mayor, City Council, and City departments on civic design excellence in capital improvement projects that are located on City land, in the City right-of-way, or constructed with City funds. The commission also evaluates projects that seek long-term or permanent use of a right-of-way. The commission focuses their recommendations on aesthetic, environmental and design principles and policies, and promotes interdepartmental and interagency coordination. The 10 Commissioners that comprise the Seattle Design Commission are supported by 3 FTE staff for meetings that occur twice a month. Commission meetings include the review of City-funded capital projects such as community centers, park facilities, fire stations and police stations.
- The **Seattle Planning Commission** advises the Mayor, the City Council and City departments on broad planning goals, policies and plans for the physical development of the city. Comprised of 3.5 FTE staff and 16 volunteers, the commission's work is framed by the Comprehensive Plan and seeks public comment and participation as a part of the process to achieve the plan's vision. The commission provides independent analysis and promotes issues vital to livability.
- The **Equitable Development Initiative (EDI) Advisory Board** was made permanent by the passage of Ordinance 126173 in September 2020. The Board is comprised of 13 members representing those communities most harmed and receiving the most disinvestment according to the City's Equitable Development Monitoring Program. The EDI Advisory Board provides guidance to the City on the implementation of the EDI to ensure that the program furthers the City's Race and Social Justice Initiative goals. The board implements the accountability goals of the Equitable Development Implementation Plan, provides guidance on equity goals related to the City's Comprehensive Plan, develops funding criteria, and creates recommendations for EDI grant allocations.

Office of Planning and Community Development

Budget Snapshot

	2020 Actuals	2021 Adopted	2022 Proposed
Department Support			
General Fund Support	14,380,966	12,955,449	9,178,118
Other Funding - Operating	1,861,817	877,659	22,254,149
Total Operations	16,242,782	13,833,108	31,432,266
Total Appropriations	16,242,782	13,833,108	31,432,266

Full-Time Equivalents Total* 45.00 42.00 46.50

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

OPCD's 2022 Proposed Budget continues funding to update the City's Comprehensive Plan and contains significant new investments to advance the City's Race and Social Justice Initiative. Other priority items include the Equitable Development Initiative, Sound Transit 3, community and long-range planning, and monitoring affordable housing and displacement.

Race and Social Justice

Almost all of the new items in OPCD's 2022 Proposed Budget advance the City's Race and Social Justice Initiative to combat systemic racism, eliminate racial disparities and achieve racial equity in Seattle. A total of \$17 million is added to advance RSJI as follows:

- \$14.3 million from the payroll tax (also known as JumpStart) is added to OPCD's budget to fund additional equitable development grants in 2022. This item also supports added staff to administer the grant processes and contracts for EDI and Strategic Investment Fund; it also provides additional project management capacity and technical assistance for community organizations.
- \$2.5 million to expand the Duwamish Valley Program in 2022. The funding includes a new three-year sunset program coordinator position, community outreach, and investments in community assets including the South Park Community Center, South Park Neighborhood Center, Georgetown gathering spaces, and community-supported development at the Unity Electric site. This work is intended to foster climate and community resilience, provide opportunities for youth, and advance economic development as documented in the Duwamish Valley Action Plan.
- \$157,000 of General Fund for the City's first indigenous planner position. Establishing this position will help to combat the erasure of Native people in City planning and related processes.
- \$25,000 of General Fund for equitable zoning. The goal is to address barriers in the City's land use and zoning regulations that make it difficult for EDI and other affordable housing and development projects to succeed.
- \$18,000 of General Fund and \$8,000 of Real Estate Excise Tax to conduct RSJI trainings for OPCD staff, members of the Planning Commission, and members of the Design Commission.
- \$13,000 of General Fund for a real estate database subscription. Data will be used to monitor displacement risk and community indicators, support land acquisitions for the Strategic Investment Fund and Equitable Development Initiative, and to inform policy development and planning strategies.

Office of Planning and Community Development

The Equitable Development Initiative and Strategic Investment Fund

The Equitable Development Initiative (EDI) continues to be an important and growing program within OPCD. The EDI program is coordinated by OPCD and guided by an interdepartmental working group consisting of staff from the Office of Housing (OH), Department of Neighborhoods (DON), Office of Economic Development (OED), Office of Arts and Culture (ARTS), Mayor's Office (MO), and City Budget Office (CBO). It is also informed by an external board representing impacted communities. In 2017, the City Council identified the initial five projects for the EDI program. The program has grown to 41 community-based projects today. Support for each of these projects includes a mix of capacity building and capital development funding, which can include site acquisition.

The EDI program was initially funded with \$16 million in one-time proceeds from the sale of surplus property known as the Civic Square Block. The Washington State Legislature passed the Short-Term Rental Tax (STRT) in the 2018 legislative session and therefore, since 2019, the EDI program has also been funded with STRT revenues. In July 2019, the City Council passed Ordinance 125872, which created a new fund for STRT and directed that \$5 million from this fund be dedicated annually to EDI projects. Therefore, the 2022 Proposed Budget includes \$5 million of STRT for EDI. Ongoing General Fund supports EDI staff and other administrative components of the program, and the 2022 Adopted Budget includes \$430,000 of Community Development Block Grant (CDBG) dollars for EDI grants. CDBG dollars are received as part of a grant from the federal government and will support construction or site development work.

In 2019, the City reached agreement on the sale of the Mercer Megablock properties in South Lake Union, resulting in new revenues, of which \$30 million was appropriated in the 2021 Adopted Budget for a new site acquisition program called the Strategic Investment Fund (SIF). The SIF is a competitive grant process that was designed to create unique opportunities for transformational equitable development in areas at high risk of displacement or in areas of low access to opportunity. The goal of the fund is to leverage the investment to achieve multiple community benefits, including affordable housing, affordable commercial spaces, cultural spaces, and childcare facilities. SIF grantees were selected by a panel of community members during the summer of 2021. Work to develop and administer the associated grant contracts will continue into 2022 and beyond.

The most recent expansion of EDI occurs in the 2022 Proposed Budget with the additional allocation of \$14.3 million from the payroll tax, also known as JumpStart. In addition to grant awards, this funding source will also support three new positions to help the EDI team administer its funding and projects as well as provide technical assistance to community organizations. This tax was imposed via Ordinance 126108, which was passed by the City Council in July 2020. In July 2021, the City Council established a spending plan for these revenues when they passed Ordinance 126393, and this plan included a specific allocation to the Equitable Development Initiative. The ongoing funding of this program through the payroll tax and short-term rental tax mean that City investments in these community-driven projects and land acquisitions will continue indefinitely and will be a lasting legacy for Seattle and its BIPOC community members.

Long-Range Planning

One of the core functions of OPCD is to serve as the steward of the City's Comprehensive Plan, a 20-year vision and roadmap for Seattle's future. The Comprehensive Plan guides City decisions about where to accommodate and plan for new jobs and residences, how to improve the transportation system, and where to make capital investments such as utilities, sidewalks, and libraries. It provides a framework to guide most of Seattle's big-picture decisions on how to manage growth to achieve environmental sustainability, racial equity, shared prosperity, and healthy and vibrant neighborhoods.

The Washington State Growth Management Act (GMA) requires that cities undertake a major review and update of their comprehensive plans every eight years. Under the GMA, comprehensive plans must accommodate the growth that is anticipated over the next 20 years. The previous major update of the Seattle Comprehensive Plan anticipated growth of 70,000 housing units and 115,000 jobs during the 2015-2035 planning period. The next major update will extend the planning period to approximately 2044. Based on faster-than-anticipated growth to date and updated state and regional projections for population and employment, this plan will likely anticipate significantly more growth. In response, the City will review and revise as needed the Urban Villages growth strategy and policies that

Office of Planning and Community Development

guide City actions that include land use, transportation, housing, and public investments. The 2021 Adopted Budget added \$130,000 in one-time resources for OPCD to work on an Environmental Impact Study and engage in community outreach to support the next major update to the Comprehensive Plan. The 2022 Proposed Budget includes \$350,000 to continue community engagement work and complete major elements of the environmental review process, including State Environmental Policy Act (SEPA) scoping and a draft Environmental Impact Statement (EIS). Additional funding for the Comprehensive Plan update is anticipated in the 2023 budget, for an estimated total project budget of \$575,000. The 2022 Proposed Budget also includes \$150,000 to initiate work on Regional Growth Center Subarea Planning, which is part of the Comprehensive Plan update.

OPCD leads the ST3 West Seattle Ballard Link Extensions (WSBLE) Planning Work Group, one of seven work groups in the Citywide WSBLE Work Plan. 2022 work plan activities fall into three main categories: 1) advancing station design; 2) engaging in station area planning; and 3) carrying out the City's Federal Transit Administration transit-oriented development pilot grant of \$1.75 million. Early station area planning is underway in the Chinatown-International District through the Jackson Hub community planning process, which will produce planning and coordinated investment strategies in mid-2022. Early planning is also underway in the Maritime and Industrial station areas that include SODO, Smith Cove, Interbay, and Ballard, with land use legislation expected in mid-2022. Delridge and Westlake station areas may also scope and launch early station area planning efforts in 2022.

Total 2022 Proposed Budget	\$31,432,266	46.50

Description of Incremental Budget Changes

Baseline

Adjustments for Personnel Costs

Expenditures \$134,880

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Align Baseline for Workers' Compensation

Expenditures \$41,819

Office of Planning and Community Development

This technical adjustment aligns OPCD's baseline budget with the 2021 Adopted Central Cost Manual for Workers' Compensation charges. This item was a new cost for the department in 2021 and it was inadvertently omitted from the 2021 Adopted Budget.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$131,365
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Reversal of One-Time Items in 2021 Adopted Budget

Expenditures	-
--------------	---

The 2021 Adopted Budget replaced \$4,715,500 of Short-Term Rental Tax (STRT) with \$4,715,500 of General Fund for OPCD's Equitable Development Initiative (EDI). This one-time adjustment was made because STRT revenues were in decline due to the COVID-19 pandemic. This item reverses this funding change and restores the baseline budget to \$5 million of STRT for EDI grants.

Proposed Operating

Duwamish Valley Program Development Projects

Expenditures	\$2,300,000
--------------	-------------

This one-time Green New Deal item funds essential improvements to the South Park Neighborhood Center to establish it as a Resilience Hub that benefits the community by housing community-supportive services, providing clean air, serving as a cooling center, and operating with solar energy. The funding will also support design and implementation of community-supportive uses and/or economic development uses as part of the development of the Unity Electric site, as well as community-supportive gathering spaces in Georgetown. This funding will also ensure the building design includes climate resilience infrastructure such as solar energy at the South Park Community Center. These items are part of a package of investments that expand the Duwamish Valley Program in 2022, and is also part of a package of Green New Deal items funded by payroll tax (JumpStart) funds.

Duwamish Valley Program Staffing and Engagement

Expenditures	\$192,722
Position Allocation	1.00

This item supports implementation of the Duwamish Valley Action Plan. It provides a 3-year sunset position that enables OPCD to hire a program coordinator for the Duwamish Valley Program (DVP); it also includes \$30,000 to support meaningful, inclusive and coordinated community engagement. These items are part of a package of investments that expand the Duwamish Valley Program in 2022.

Equitable Development Initiative and Strategic Investment Fund Expansion

Expenditures	\$14,300,000
Position Allocation	3.00

This item utilizes funding from the JumpStart payroll tax to expand the Equitable Development Initiative (EDI) and its sister program, the Strategic Investment Fund (SIF). Funds will be distributed through a 2022 grant application process. This item also includes three new staff positions. A Grants and Contracts Specialist will support the

Office of Planning and Community Development

technical aspects of the contract and invoicing processes at OPCD, and two Planning and Development Senior positions will provide additional project management capacity and technical assistance to community organizations as they build organizational capacity, work on project development, and work through legal, financial, and organizational issues. This item is a companion to the \$15.7 million allocation of investments to address residential displacement in the Office of Housing budget.

Indigenous Planner

Expenditures \$158,684

Position Allocation 1.00

This item creates the City's first staff position dedicated to Indigenous Planning. The position will develop frameworks and processes for incorporating Indigenous planning concepts into City planning and community development work; it will also expand the City's planning approach and increase the ability to engage with the Indigenous Seattle Working Group and other Indigenous Seattle residents. The intent is to enable the City to transition from the erasure of Native American culture and experiences to a process where Indigenous methodologies are incorporated and implemented. This item also supports the City's climate resilience, transportation, and green infrastructure goals.

Comprehensive Plan Major Update – Phase 2

Expenditures \$220,000

The 2022 Proposed Budget continues to allocate funding to update the City's Comprehensive Plan in a phased approach. The plan update, which is required under state law, began in 2021 and is anticipated to take three years to complete. During 2022, OPCD will be continuing community engagement and completing major elements of the environmental review process, including State Environmental Policy Act (SEPA) scoping and a draft Environmental Impact Statement (EIS). This item, in addition to \$130,000 in OPCD's baseline budget, brings total 2022 funding to \$350,000. The total budget for the three years of the project is \$150,000 for community engagement and \$425,000 for the SEPA/EIS work.

Regional Growth Center Subarea Planning

Expenditures \$150,000

This one-time item funds a consultant to begin work on subarea planning as part of the Comprehensive Plan major update. This will satisfy a Puget Sound Regional Council (PSRC) requirement and ensure access to federal transportation funding. Subarea plans, developed through a phased approach that commences in 2022, will address diverse policies and actions needed in anticipation of projected housing and job growth in a way that supports long-term equitable recovery and vitality for all six of Seattle's regionally designated centers.

Equitable Zoning Outreach

Expenditures \$25,300

This one-time item enables OPCD to partner with affected community to develop equitable development zoning tools; it also builds on OPCD's efforts to develop land use strategies that support equitable development. The goal is to address barriers in the City's land use and zoning regulations that make it difficult for EDI and other affordable housing and community-based development projects to succeed. Funding will be used to compensate community members for participating in a steering committee that will shape the equitable zoning tools; support engagement by providing translation, childcare, food, or online outreach/advertising; and engage community-based subject matter experts, e.g., Black and Indigenous developers, architects, and organizers, to advise OPCD.

RSJI Training

Expenditures \$26,000

Office of Planning and Community Development

The 2022 Proposed Budget funds RSJI trainings and activities for the Planning Commission, the Design Commission, and OPCD. This item provides four annual RSJI training sessions for new and continuing Commissioners. It also provides funding for RSJI trainings and presentations for OPCD staff. OPCD's baseline budget does not include funding for these activities.

CoStar Multifamily and Commercial Real Estate Database Subscription

Expenditures	\$13,000
--------------	----------

This item funds a subscription to the CoStar Multifamily and Commercial Real Estate Database to provide market-rate multifamily and commercial real estate data for the Seattle market. CoStar data will be used to monitor displacement risk and community indicators; support evaluation of equitable development grant requests for property acquisition; inform housing and land use policy development; aid the analysis of Comprehensive Plan alternatives; and inform community planning for neighborhoods and areas around new transit stations.

OPCD Internal Reorganization

Expenditures	\$12,051
Position Allocation	0.50

This item eliminates three vacant positions and replaces them with 3.5 Planning and Development Specialist II positions. As the office works on its staffing plan and work assignments, it has identified an opportunity to re-purpose its three existing vacancies as lower-level planning positions to better align position classifications with work functions and increase efficiency. This adjustment includes a small savings to the General Fund and about \$15,000 of REET expenses for Design Commission staffing.

Transfer On-Loan Position to Seattle Center

Expenditures	\$(197,392)
Position Allocation	(1.00)

This item transfers a position and associated appropriation authority from OPCD to Seattle Center. The position has been on loan from OPCD to the Seattle Center for the last several years to assist in the Seattle Center Master Planning process and related redevelopment projects.

Proposed Technical

Labor Budget Adjustment

Expenditures	\$90,729
--------------	----------

This item aligns the department's salary and benefit budget with its actual labor costs.

Office of Planning and Community Development

Appropriations by Budget Summary Level and Program

OPCD - BO-PC-X2P00 - Planning and Community Development

The purpose of the Planning and Community Development Budget Summary Level is to manage a collaborative vision for planning that advances equitable development and creates great places in the City of Seattle that is consistent with Seattle's Comprehensive Plan, and to inform and guide growth related decisions for future development.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Planning	15,099,665	7,036,532	10,656,193
Planning Commission Management	563,589	638,469	667,892
Total	15,663,253	7,675,001	11,324,085
Full-time Equivalents Total*	41.50	38.50	43.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Planning and Community Development Budget Summary Level:

Planning

The purpose of the Planning Program is to manage a coordinated vision for growth and development in the City of Seattle that is consistent with Seattle's Comprehensive Plan, and to inform and guide growth related decisions for future development.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Planning	15,099,665	7,036,532	10,656,193
Full Time Equivalents Total	38.50	35.50	40.50

Planning Commission Management

The purpose of the Planning Commission is to advise the Mayor, the City Council and City departments on broad planning goals, policies and plans for the physical development of the city. The commission also provides independent analysis and promotes issues vital to livability.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Planning Commission Management	563,589	638,469	667,892
Full Time Equivalents Total	3.00	3.00	3.00

Office of Planning and Community Development

OPCD - BO-PC-X2P10 - Design Commission

The purpose of the Design Commission Budget Summary Level is to give advice to the Mayor, City Council, and City Departments, concerning City-funded Capital Improvement Projects, projects that seek long-term use of the right-of-way, or major transportation projects.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Design Commission	579,529	593,159	654,149
Total	579,529	593,159	654,149
Full-time Equivalents Total*	3.50	3.50	3.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

OPCD - BO-PC-X2P40 - Equitable Development Initiative

The purpose of the Equitable Development Initiative Budget Summary Level is to foster community leadership and support organizations that promote equitable access to housing, jobs, education, parks, cultural expression, healthy food, and other community needs and amenities. The goal of the Equitable Development Initiative is to address displacement and the unequal distribution of opportunities in order to sustain a diverse Seattle.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Equitable Development Initiative	-	5,564,948	19,454,032
Total	-	5,564,948	19,454,032

Community Police Commission

Brandy Grant, Executive Director

(206) 256-5545

<http://www.seattle.gov/policecommission/>

Department Overview

The Office of the Community Police Commission (CPC) is the administrative and policy support entity of the Community Police Commission. The CPC is charged with providing community oversight and input on the police reform efforts that are the subject of a Settlement Agreement between the City and the U.S. Department of Justice regarding police practices. Membership of the CPC was modified in 2017 through legislation addressing changes in civilian oversight of the police ([Ordinance 125315](#)). A 21-member board appointed by the Mayor, the City Council and the Community Police Commission governs the CPC. Each commissioner serves a three-year term.

The CPC provides an independent forum for dialogue and widespread input on the reform efforts embodied in the Settlement Agreement and Memorandum of Understanding established by the Department of Justice. Ongoing community input is a critical component of achieving and maintaining effective and constitutional policing.

The CPC leverages the ideas, talent, experience and expertise of the people of Seattle to ensure police services:

- fully comply with the Constitution of the United States;
- ensure public and officer safety; and
- promote public confidence in the Seattle Police Department and its officers.

In 2017, the CPC's role was further refined through legislation addressing changes in the civilian oversight of the police ([Ordinance 125315](#)). The CPC is still charged with fulfilling and prioritizing the responsibilities as specified under the Consent Decree and Memorandum of Understanding and its role now includes:

- reviewing and providing input to many city partners on the police accountability system, police services and the Seattle Police Department's policies and practices;
- engaging in community outreach to obtain the perspectives of the community on police-community relations, the police accountability system, police services, policies and practices and providing that input to other City departments;
- maintaining connections with representatives of disenfranchised communities and community groups; and
- advocating for reforms to state law that will enhance public trust and confidence in policing and the criminal justice system.

Budget Snapshot

Community Police Commission

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

The Community Police Commission (CPC) budget adds funding to pilot a Community Police Oversight Young Leader Internship and Fellowship Program. The program will target youth of color from the community and include hands-on professional experience, development, and mentoring. These emerging leaders will then be prepared to enter careers in government and community organizations fighting for a safer community – be it in police reform, gun safety, violence prevention, legislative work, community organizing, or whatever role meets their aspirations.

The budget is also adjusted for minor Citywide technical changes which are described below. Funding is reserved in the City Attorney's office's budget for future external legal fees, estimated at \$50,000, as determined by CPC leadership.

Incremental Budget Changes

Community Police Commission

	Dollars	FTE
2021 Adopted Budget	1,712,564	9.00
Baseline		
Citywide Adjustments for Standard Cost Changes	102,336	-
Proposed Operating		
Funding for Pilot Community Police Oversight Young Leader Internship & Fellowship Program	32,044	-

Total Incremental Changes	\$158,799	-
Total 2022 Proposed Budget	\$1,871,363	9.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$102,336

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle

Community Police Commission

Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Funding for Pilot Community Police Oversight Young Leader Internship & Fellowship Program

Expenditures \$32,044

This item funds a Pilot Community Police Oversight Young Leader Internship & Fellowship Program. The program will have the following includes:

- Internship: This position is a 10-week full-time (40 hours/week) internship during the summer of 2022.
- Fellowship: This position is a 12-week full-time (40 hours/week) summer (April - August 2022) followed by a 36-week part-time (10 hours/week) school year (September 2022-March 2023).

Proposed Technical

Baseline Adjustments for Personnel Costs

Expenditures \$24,419

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Community Safety and Communications Center

Christopher Lombard, Interim Director

Department Overview

The Community Safety and Communications Center (CSCC) is home to the Seattle 911 center. Previously housed within the Seattle Police Department (SPD), the Seattle 911 center is the largest of its kind in the Pacific Northwest, both by staff size and volume of calls received. During 2019, call takers answered more than 800,000 calls and hundreds of thousands of non-emergency calls. The center employs between 130 to 140 employees who work 24 hours a day, 365 days a year. CSCC was established in 2021 to provide timely, accurate, and vital information to the City's first responders, city service providers, and to the public. The department is envisioned to provide civilian and community-based services and solutions to community safety challenges.

911 Communications Center (911 center): The 911 center is primary Public Safety Answering Point (PSAP) for the receipt, triage, and dispatch of public safety services within the City of Seattle. The 911 center divides operations into two functions, call taking and dispatching. The civilian call takers receive requests from the community, alarm monitoring companies, and other public safety organizations via 911, the non-emergency telephone line, and the SPD administrative dispatch line. Call takers prioritize each call and determine the nature of the emergency and the resources necessary to respond to the emergency. Calls that are related to fire or medical are transferred to the Seattle Fire Department Dispatch (SFD) center (the City's other PSAP) for response. If a call is criminal or other type, call takers enter details of the incident into the Computer Aided Dispatch (CAD) system which relays the information to a dispatcher. The dispatcher notifies public safety service responders of the incident details and remains in contact with responders via radio systems to ensure responder and community safety. The dispatcher coordinates responses for multiple incidents at a time often involving responses from multiple city departments and external agencies.

Community Safety and Communications Center

Budget Overview

[Ordinance 126237](#) transferred the 911 center from SPD to CSCC effective June 1, 2021. Since the transition, the department has worked to identify internal ongoing needs as an independent department and integrate non-uniformed and alternate methods of dispatch.

In 2021, CSCC began the process of implementing a protocol dispatch system. This project will help the 911 center standardize operational structures to call taking, reduce bias among call takers, and begin to operationalize dispatching non-uniformed and alternative response to uniformed police. In addition, CSCC is working closely with the Seattle Fire Department (SFD) to stand up a new triage response team. This team will respond to calls for welfare checks and persons down that do not require a uniformed police or fire response.

To support operations as an independent department, the 2022 Proposed Budget includes staffing to help stand up back of the house administrative support. This administrative support was previously provided by SPD, and due to the size of the 911 center, will require an internal team to handle these functions. Additionally, the department will assist in the execution of two IT projects to improve employee performance management and collect additional information about 911 calls. More information about these projects is contained in the budget book section for Seattle IT.

Community Safety and Communications Center

Citywide Adjustments for Standard Cost Changes	1,832,940	-
Total Incremental Changes	\$2,994,893	145.00
Total 2022 Proposed Budget	\$20,881,987	146.00

Description of Incremental Budget Changes

Baseline

911 Center and PEO Unit Budget Realignment

Expenditures \$(17,887,095)

This item zeros out the 2021 Adopted Budget for CSCC. The 2021 Adopted Budget contained funding for the 911 center and the PEO unit for a portion of the year. This change request zeros out the budget so the 911 center budget can be properly annualized in CSCC, and the PEO unit budget can be properly annualized in SDOT.

Annualize the 911 Center Budget

Expenditures \$17,929,854

Position Allocation 140.00

This item annualizes the 911 center positions and budget. As part of the 2021 Adopted Budget, the 911 center's budget was split across SPD and CSCC. This request fully funds the 911 center by consolidating all funding from SPD into CSCC.

Proposed Operating

Back of House Staffing for Administrative Support

Expenditures \$726,037

Community Safety and Communications Center

Position Allocation 4.00

This change request adds 4.0 FTE (Principal Accountant, Payroll Supervisor, Sr. Personnel Analyst, Strategic Advisor 1) for CSCC administrative needs. These positions will help CSCC stand up independent finance, budgeting, and human resources operations that will support the day to day needs of the department.

Deputy Director for the CSCC

Expenditures \$230,958

Position Allocation 1.00

This item adds a Deputy Director and position funding to CSCC. Under SPD, the 911 center had a Deputy Director that carried out these responsibilities, and this position was not transferred to CSCC. The Deputy Director will manage high-level functions such as labor relations, public information requests, and developing and implementing department policies.

Fund a Technical and Operational Study for 911 Center

Expenditures \$150,000

This item funds a one-time study for the 911 center. As an independent department from SPD, the 911 center will need further assistance to develop their own policies, identify gaps as an independent agency, and plan to integrate non-uniformed and/or alternate methods of dispatch. This funding will be used to hire a consulting firm to perform these services. The scope of work is to be finalized during negotiations with the selected firm.

Proposed Technical

Baseline Adjustments for Personnel Costs

Expenditures \$12,199

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,832,940

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for Judgement and Claims, healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Office of Emergency Management

Curry Mayer, Director

(206) 233-5076

<https://www.seattle.gov/emergency-management>

Department Overview

The Office of Emergency Management (OEM) is responsible for the city-wide emergency management program. The mission of OEM is, “We partner with the community to prepare for, respond to, mitigate the impacts of, and recover from disasters.” This office has the city-wide responsibility to:

- maintain and manage the Emergency Operations Center (EOC) to ensure overall unity of effort when responding to disasters,
- manage the City’s activities related to emergency planning, preparedness, mitigation, response, and recovery operations,
- administer trainings and exercises that prepares City responders, volunteers, and the public to respond and recover from disasters, and
- seek and administer post disaster recovery costs and pre-disaster mitigation grants.

OEM also focuses substantial effort in preparing the community for disaster through public education, capability-building with community organizations, vulnerable population outreach, limited English proficiency, low income and immigrant and refugee communities. Utilizing partnerships and grant funding, OEM garners additional staffing resource support using volunteers who deliver preparedness programs, stipend paid Community Safety Ambassadors who speak multiple languages reaching Seattle’s diverse neighborhoods, and interns hired to assist with special projects.

The dedicated staff of OEM ensure the City meets the national and international Emergency Management Accreditation Program (EMAP) standards and compliance with RCW 38.52 and WAC 118. Those standards and codes require that a program effectively carry out several functions (Planning, Operations, Mitigation & Recovery, Communications, Alert and Warning, Hazard Analysis, Training & Exercises, and Community Education & Outreach) to ensure a comprehensive emergency management program. OEM maintains plans as required by City codes including the Comprehensive Emergency Management Plan, Continuity of Government, Continuity of Operations Plans, and the City’s Hazard Mitigation Plan. The Mitigation Plan keeps the City eligible for millions of dollars in federal hazard mitigation grants and staff assist in the recouping of millions of dollars in federal public assistance funds following any Federally declared disaster.

OEM personnel ensure that the EOC and those who staff it, are ready and prepared to coordinate disaster response and recovery efforts at any time. EOC operations focus on coordination of action plans, information, and any needed resources through a unity of effort. The EOC also assists elected officials and high-level managers in critical, policy-level decision making. The Mayor has the responsibility and authority through a proclamation of local emergency and certain emergency powers to use all City resources to address conditions of emergency. Pre-EOC operations are managed through the OEM’s Staff Duty Officer (SDO) program which provides a 24/7 point of contact in case of emergency for departments, agencies, Mayor, Department Directors, Council members or other stakeholders. SDOs monitor and assist in dozens of incidents every year.

There are three key groups that provide guidance and direction to the emergency management program: Disaster Management Committee, Strategic Work Group, and Emergency Executive Board. OEM engages in hundreds of interactions with various agencies every year to maintain mutual proficiency in response and recovery; for example partnerships with colleges, universities, schools both public and private, healthcare facilities, the Coast Guard, Army and Navy, Pacific Northwest National Laboratory, businesses, non-profits such as the American Red Cross, and agencies with whom the City has emergency preparedness partnerships such as Airbnb. OEM also works closely with dedicated emergency management staff housed in several departments (Human Services Department, Finance &

Office of Emergency Management

Administrative Services, Department of Transportation, Parks & Recreation Department, Fire Department, Public Utilities, and City Light).

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The 2022 Proposed Budget builds on OEM's first year of operation in 2021 by fully funding a Finance and Grants Manager. This position will help operate finance, accounting, budget, contracting, and grant management activities to support OEM's mission of providing emergency management services to the city.

The Proposed Budget also allocates Coronavirus Local Fiscal Recovery (CLFR) funds to OEM as part of Seattle Rescue Plan 3 (SRP3). These funds will help OEM manage FEMA Public Assistance funding applications, which is essential to the emergency response work of the City. See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Seattle Fire Department

Harold D Scoggins, Fire Chief

(206) 386-1400

www.seattle.gov/fire

Department Overview

The Seattle Fire Department (SFD) provides fire protection and prevention, technical rescue and emergency medical services for the City of Seattle. It deploys engine companies, ladder companies, aid and medic units and fireboats to mitigate the loss of life and property resulting from fires, medical emergencies and other disasters. SFD maintains 33 fire stations that are strategically located within six battalions to provide optimal response times to emergencies. Each battalion serves specific geographic areas in the city: the downtown/Central Area, north and northeast Seattle, northwest Seattle, south and southeast Seattle and West Seattle.

SFD has a strong record on prevention of fires. Seattle has fewer fires than the national average and of other cities with similar population size. Seattle averages 0.9 fires annually per 1,000 residents, which is lower than the national average of 3.9. Over the past five years, the average number of total structure fires per year in Seattle has been 687. Total fire dollar loss averaged \$23.8 million per year.

SFD provides emergency medical responses, which account for approximately 77% of all fire emergency calls in Seattle. In order to respond to the emergency medical demand, all Seattle firefighters are trained as emergency medical technicians (EMTs) to provide basic emergency medical care, or basic life support. SFD staffs seven medic units each with two firefighter-trained paramedics to provide more advanced medical care or advanced life support. Additionally, the department has five full-time and two peak-time aid units staffed by firefighters to provide basic life support citywide.

In 2016, SFD implemented the Low Acuity Alarm Program to reduce non-emergency calls to the 911 system and to provide improved service and care to individuals with non-emergent needs. In 2019, the program was renamed Mobile Integrated Health to better reflect its work, which now includes the Health One multidisciplinary response team of firefighters and case managers. Health One launched in 2019 to respond to individuals immediately in their moment of need and help them navigate the situation - whether they need medical care, mental health care, shelter, or other social services. Currently, core activities of Mobile Integrated Health are high utilizer intervention (individuals and locations), low acuity data and trend analysis, establishment of referral partnerships and alternate treatment/transportation development.

The department also has marine, hazardous materials, high-angle, tunnel and confined-space rescue teams. In addition, SFD officers and firefighters are members of local and national disaster response teams such as the Federal Emergency Management Agency (FEMA)'s Urban Search and Rescue Task Force and wild land firefighting. SFD's fire prevention efforts include fire code enforcement, building inspections, plan reviews of fire and life safety systems, public education and fire safety programs, regulation of hazardous materials storage and processes and regulation of places of public assembly and public events to ensure life safety.

Seattle Fire Department

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The 2022 Proposed Budget for the Seattle Fire Department adds funding to enhance department operations in several areas including emergency responses, diversity recruitment, dispatch training, and IT system upgrades.

In response to extensive research into community response models and on best practices gleaned from around the country, SFD will add a new specialized triage response program. This program is being developed under the umbrella of SFD's Mobile Integrated Health (MIH) unit. The MIH unit developed and operationalized the highly successful Health One program and as a result, SFD has acquired the appropriate experience, capacity and back-end support that will help stand up the new triage response model. The Triage Team is designed to respond to non-medical, non-criminal calls - such as person down and wellness checks - identified by the 911 dispatch center at the Community Safety and Communications Center (CSCC). This specialized response model will operate out of SFD in close connection with the CSCC and will be dispatched after SFD and SPD 911 determine the call is appropriate for individuals who do not need an urgent medical or safety intervention.

The department will also add two new positions. A Strategic Advisor 2 that was originally added in the 2019 Adopted 2020 Endorsed Budget but eliminated during the pandemic due to budget restrictions, will be reinstated to enhance diversity in the department through recruiting and outreach efforts and workforce development. Additionally, a Firefighter/Dispatch Training Coordinator will be added to the Fire Alarm Center to ensure that dispatchers receive the consistent, reliable training necessary to meet various local and national standards and requirements for this work.

The Fire Department has also been working with Seattle IT to address challenges and inefficiencies with two aging IT systems used for Safety and Training, and for Fire Incident Reporting. Both systems will be replaced in 2022, which will provide significant improvements in usability and overall functionality.

Seattle Fire Department

Description of Incremental Budget Changes

Baseline

Baseline Adjustments for Personnel Costs

Expenditures \$121,939

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

CCM Healthcare Reconciliation

Expenditures -

This baseline adjustment reconciles the Central Cost Manual adopted budget healthcare costs through a net-zero adjustment.

Citywide Adjustments for Standard Cost Changes

Expenditures \$7,896,624

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

L2898 Contract Adjustment

Expenditures \$1,140,655

This item increases appropriation authority to the 2022 baseline budget per the terms of the Collective Bargaining Agreement for the Fire Chiefs covering 2019, 2020 and 2021. This agreement was adopted via Council Bill 120107.

Reduce One-Time Equipment Funding

Expenditures \$(383,000)

This item removes the one-time funding of \$383,000 in the 2021 Adopted Budget that was provided to procure AEDs, Lucas Devices, and Ballistic sets.

Restore One-Time Reduction of FPD Special Events Staff Funding

Expenditures \$155,242

This item restores a one-time reduction of \$155,242 in the 2021 Adopted Budget of the Lieutenant Inspector position that supports Special Event activity managed in the Fire Prevention Division.

Restore One-Time Reduction of Funding for FPD Construction Inspection Staffing

Expenditures \$135,262

This item restores a one-time reduction of \$135,262 in the 2021 Adopted Budget to the Construction Inspection staffing budget.

Seattle Fire Department

Restore One-Time Reduction to Event Services OT

Expenditures \$915,028

This item restores a one-time reduction of \$915,028 in the 2021 Adopted Budget to the budget for event services overtime that is supported by revenues from staffing events.

Restore One-Time Reduction to Funding for FPD Plan Review Staffing

Expenditures \$147,108

This item restores a one-time reduction of \$147,108 in the 2021 Adopted Budget to the Construction Plan Review staffing budget.

Technical Adjustment for Restored Positions

Expenditures -

This net-zero technical adjustment moves budget from the general expenditure account to the appropriate line item accounts for the two positions that were restored via Council Budget Actions for 2021.

L27 Salary Adjustments

Expenditures \$1,934,541

This baseline adjustment to personnel costs accounts for the 2021 1% COLA for Local 27 members that was not included in the 2021 Adopted Budget assumptions. It also includes the salary, step and longevity increases.

Health One Continuation

Expenditures \$103,500

This technical change provides ongoing funding to sustain the third Health One unit that will be put in service in the 4th quarter of 2021. The 2021 Adopted Budget provided funding for firefighter staffing of the third unit assuming a mid-year launch, necessitating a baseline increase to fund a full year of operations in 2022.

This item also removes the one-time funding that was added for the initial acquisition of a vehicle for the third unit.

Proposed Operating

Triage Team Response Program

Expenditures \$2,150,000

This item adds funding to field a new specialized triage response program that will respond directly to non-medical, non-criminal calls - such as person down and wellness checks - identified by the 911 dispatch center at the Community Safety and Communications Center (CSCC). The specialized response model will operate out of SFD in close connection with the CSCC; personnel will be dispatched after SFD and SPD 911 determine that the call is a wellness check for individuals who do not need an urgent medical or safety intervention.

Seattle Fire Department

Add Diversity Recruitment and Work Culture FTE

Expenditures	\$166,663
Position Allocation	1.00

This item restores a position that was eliminated as part of the COVID reductions in the 2021 Adopted Budget. This 1.0 FTE Strategic Advisor 2, Exempt will focus on advancing the department's goals of promoting diversity, equity, and inclusion in the workplace, spanning from recruitment to retention.

Add Training Coordinator to Fire Alarm Center

Expenditures	\$108,196
Position Allocation	1.00

This proposal adds a 1.0 FTE - a Firefighter/Dispatcher Training Coordinator - to the Fire Alarm Center. This new position will provide a more thorough and consistent level of training for dispatchers and will help ensure that the department meets the numerous local and federal standards provided for this function. A portion of the position costs are offset by a \$57,000 reduction to the overtime budget that was regularly used to provide ad hoc training.

Fire Incident Reporting IT System Upgrade

Expenditures	\$499,000
--------------	-----------

This adjustment adds funding to replace the 18-year-old Fire Incident Reporting IT system with a new software solution. The proposed solution has a modern interface for better usability; auto-populates required fields; works with all SFD IT devices; ensures that all required data for the recently-updated State and Federal standards is collected; and automatically generates the required reports. One-time costs for the upgrade are \$434,000 and ongoing annual costs are approximately \$65,000.

Safety and Training IT System Upgrade

Expenditures	\$318,000
--------------	-----------

This adjustment adds funding to replace the 22-year-old Safety and Training IT system with a new software solution. The proposed solution will have a more streamlined, user-friendly interface; more robust content that includes industry-specific, pre-developed trainings; better tracking of certifications and trainings; and lower annual IT maintenance costs. One-time costs for the upgrade are \$208,000 and ongoing annual costs are approximately \$110,000.

L27 Crisis Counseling Services

Expenditures	\$150,000
--------------	-----------

This item provides an increase of \$150,000 in appropriation authority for the Seattle Fire Department in the Leadership and administrative Budget Control Level (00100-BO-FD-F1000) to pay Local 27 Firefighters' Union to provide crisis counseling services for the membership. The program would provide trauma-informed counseling services, referrals, and training that would focus on de-escalation, scene safety, and evasive defense to keep firefighters safe and increase positive interactions with persons in crisis or suffering with mental illness. The program would also provide firefighters with help to manage the stresses and process the traumatic environments they face regularly, especially under compounding crises.

Seattle Fire Department

Proposed Technical

Backfill OT for Family Medical Leave

Expenditures	\$2,000,000
--------------	-------------

This increases the budget for backfill costs in SFD for when members of the department are on leave to care for family members. Prior to 2022, a below the line reserve was being held in the General Fund in recognition of the Paid Family Care Leave (PFCL) backfill costs. Now that the City has had several years of experience in allocating PFCL backfill costs to departments, there is a basis for estimating the ongoing annual costs for this department. Instead of allocating budget at year-end in a supplemental budget request, the budget is being added as ongoing and can be managed at the department's discretion.

Revenue Adjustments

Revenues	\$3,139,909
----------	-------------

2022 proposed revenue adjustments for Seattle Fire Department.

SFD Budget Transfer To HSD

Expenditures	\$(349,120)
--------------	-------------

This item decreases appropriation authority by \$349,120 in the Fire Department (SFD), in the Operations Budget Control Level (00100-F3000) of the General Fund. The budget will transfer to the Human Services Department (HSD) from the Fire Department. The budget had been added to SFD to pay for counselors supporting the Health One program. SFD has been paying HSD to provide the staffing. This action transfers the budget to HSD to fund their authorized positions. This will eliminate the need for inter-departmental billing and align the budget with the position authority granted to HSD. HSD's corresponding Change Request is numbered HSD-117.

HSD Position Transfer To SFD

Expenditures	\$96,387
Position Allocation	1.00

This item increases appropriation authority by \$96,387 and 1 FTE Administrative Specialist III (position #10007047) in the Fire Department (SFD), in the Operations Budget Control Level (00100-F3000) of the General Fund. The budget and position will transfer to the Fire Department from the Human Services Department (HSD). The budget and position were added to HSD in 2021 under SFD-001-B-002 for the Health One program in error. SFD will utilize the position to support their operation of the Health One program. HSD's corresponding Change Request is numbered HSD-21Q2.

Increase in External Lease Costs

Expenditures	\$16,884
--------------	----------

This item increases appropriation authority by \$16,884 to pay for increases in external lease costs. The external lease obligations are collected by the Department of Finance and Administrative Services (FAS) and FAS pays the external leases.

Language Premium Staff Stipend

Expenditures	\$2,400
--------------	---------

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as

Seattle Fire Department

interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

Firefighter's Pension

Steve Brown, Executive Secretary

(206) 625-4355

<http://www.seattle.gov/firepension/>

Department Overview

The Firefighters' Pension Fund (FPEN) provides pension and medical benefit services to eligible firefighters, active and retired, and their beneficiaries. FPEN is a closed plan that only covers firefighters who were hired before October 1, 1977. Retiree benefits for firefighters hired more recently are primarily covered through a separate state-managed plan.

Management of firefighter benefits funds transitioned in the 1970s from local to state control. Prior to that time, the City paid into FPEN to provide for firefighter retiree benefits. In March 1970, the state created the Law Enforcement Officers and Fire Fighters Retirement System Plan 1 (LEOFF 1). Seattle firefighters hired between March 1970 and October 1977 enrolled in LEOFF 1, but also received additional benefit coverage through FPEN. As a result, this group of firefighters receives retiree benefits primarily from the state's LEOFF 1 plan, but also any earned increment from the City's FPEN that exceeds LEOFF 1 coverage. Both FPEN and LEOFF 1 closed to new enrollees in October 1977. Firefighters hired after that date enroll in the state's LEOFF 2 plan and do not receive benefits from FPEN.

The Seattle Firefighters' Pension Board is a five-member quasi-judicial body chaired by the Mayor or his/her designee, which formulates policy, rules on disability applications, and provides oversight of the Firefighters' Pension Fund. Four staff employees of the board handle all of its operational functions. Staff positions associated with Firefighters' Pension Fund are not reflected in the City's position list.

The projections of annual pension and medical benefits, which comprise about 97% of the total annual FPEN budget, are based on the forecasts of an independent actuary. The Firefighters' Pension Fund has two statutory funding sources:

- The first is a component of the City's property tax levy. These revenues are placed in the City's General Fund, which funds the Fire Pension Fund's annual budget.
- The second is the state fire insurance premium tax.

These statutory funding sources are in addition to other smaller funding sources that support the Firefighters' Pension Fund obligations.

The Firefighters' Pension Fund includes two funds: the Fire Pension Fund, which pays current pension, medical, and death benefits; and the Actuarial Account, which was established by [Ordinance 117216](#) in 1994 to accumulate a balance sufficient to pay all future pension liabilities of the fund by 2028.

Budget Overview

The Firefighters' Pension Fund (FPEN) receives almost all of its revenue from the City's General Fund. FPEN's expenditures pay the legally mandated pension and medical benefits, including long-term care, to eligible retired firefighters and qualified beneficiaries. Most of FPEN's retirees are represented by either Local 27 (firefighters' union) or Local 2898 (fire chiefs' union) and their total pension benefits are increased annually with a cost-of-living adjustment (COLA) equal to the negotiated annual wage increases (AWI) for the active union members at the Seattle Fire Department and then offset by benefits paid by the state's LEOFF 1 pension plan which has its own annual growth rate.

In November 2016, Council passed Ordinance 125190 which requires an actuarially determined level payment amount from the City to the FPEN Fund each year to cover pension benefit costs. Any remaining difference between the payment amount and actual pension benefit costs is transferred to the Actuarial Account for FPEN's future pension obligations. The account is invested in a portfolio managed by the Department of Finance and Administrative Services (FAS). The 2022 Proposed Budget assumes an annual rate of return of 5.5% on the investment portfolio and that the returns are continuously reinvested.

The 2022 Proposed Budget increases \$901,127 from the 2021 Adopted Budget. It includes an increase of \$23,127 for centrally adjusted administrative and labor costs and an increase of an estimated \$878,000 to allow for the year-end transfer to the Actuarial Account.

Citywide Adjustments for Standard Cost Changes

Expenditures \$23,127

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Adjustments for Actuarial Fund Transfer

Expenditures \$878,000
 Revenues \$901,127

This change increases appropriation authority in the Firefighters' Pension Fund (61040) and revenues in the Firefighters' Actuarial Account (61050) to ensure sufficient authority to make the expected end-of-year transfer in accordance with Ordinance 125190. If necessary, this transfer will be funded by use of existing fund balance.

Office of Inspector General for Public Safety

Lisa Judge, Inspector General

(206) 684-3663

<http://www.seattle.gov/oig>

Department Overview

The Office of Inspector General for Public Safety (OIG) was established in 2017 via [Ordinance 125315](#). OIG provides oversight of management, practices, and policies of the Seattle Police Department (SPD) and Office of Police Accountability (OPA), monitoring of ongoing fidelity to organizational reforms implemented pursuant to the goals of the 2012 Federal Consent Decree and Memorandum of Understanding, and auditing and review of criminal justice system policies and practices related to policing and other criminal justice matters.

OIG is empowered to help ensure the fairness and integrity of the delivery of law enforcement services and the investigation of allegations of police misconduct. OIG has been established to make systemic recommendations for lasting reform that are intended to reflect the values of Seattle's diverse communities.

Responsibilities of OIG include:

- performing oversight activities that ensure the ongoing integrity of SPD and OPA processes and operations;
- ensuring SPD is meeting its mission to address crime and improve quality of life through the delivery of constitutional, professional, and effective police services that retain the trust, respect, and support of the community;
- conducting risk management reviews and performance audits;
- reviewing misconduct complaint-handling and investigations by OPA;
- evaluating SPD's response to incidents involving death, serious injury, serious use of force, mass demonstrations, serious property or vehicle damage, or other issues of significant public concern to assess the integrity of the process; and
- making recommendations to policymakers for increasing the effectiveness of SPD and related criminal justice system processes.

Office of Inspector General for Public Safety

Budget Overview

The Office of Inspector General (OIG) 2022 Proposed Budget establishes a position and consultant funding to begin surveillance reviews of technologies that have been approved by City Council per the Seattle Municipal Code Chapter 14.18. Position authority and funding for one investigator position is also added to increase the capacity of the investigation unit. The budget is also adjusted for minor Citywide technical changes which are described below.

Incremental Budget Changes

Office of Inspector General for Public Safety

	Dollars	FTE
2021 Adopted Budget	2,979,486	15.00
Baseline		
Citywide Adjustments for Standard Cost Changes	46,503	-
Final Position Determination of 2021 Position	14,704	-
Proposed Operating		
Staffing Surveillance Ordinance Requirements	383,679	1.00
Additional Investigator for OPA Oversight	161,701	1.00
Proposed Technical

Total Incremental Changes	\$657,227	2.00
Total 2022 Proposed Budget	\$3,636,713	17.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$46,503

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Final Position Determination of 2021 Position

Expenditures \$14,704

This item represents the difference in the final classification determination of a 2021 Adopted Budget position. The determination was higher than the funding in the 2021 Adopted Budget.

Office of Inspector General for Public Safety

Proposed Operating

Staffing Surveillance Ordinance Requirements

Expenditures	\$383,679
Position Allocation	1.00

Under the surveillance ordinance (SMC Chapter 14.18), the Office of Inspector General (OIG) and Office of City Auditor (OCA) are required to complete annual surveillance usage reviews of technologies that have been approved by City Council. OIG is charged with reviewing SPD technologies and OCA handles those of other City departments. The review includes but is not limited to assessment of how surveillance technology is used, including its frequency and usage patterns over time; data management protocol effectiveness; and how deployment of surveillance technologies impacted or could impact civil liberties or have disproportionate racial impacts and how these concerns are being mitigated. This change adds funding and position authority for one senior public safety auditor (Strategic Advisor 2) and \$200,000 in ongoing consulting dollars to allow OIG to meet the requirements of Chapter 14.18 without compromising other significant departmental priorities.

Additional Investigator for OPA Oversight

Expenditures	\$161,701
Position Allocation	1.00

This change provides position authority and funding for one Strategic Advisor 1 position to work as an Audit and Investigations Specialist. This position will improve the OIG ability to meet the Office of Professional Accountability (OPA) oversight requirements as outlined in [Ordinance 125315](#).

Proposed Technical

Baseline Adjustments for Personnel Costs

Expenditures	\$50,640
--------------	----------

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Law Department

Peter S. Holmes, City Attorney

Civil Division, (206) 684-8200; Criminal Division, (206) 684-7757

<http://www.seattle.gov/cityattorney>

Department Overview

The department provides legal advice to City officials, represent the City in litigation, and protect the public health, safety, and welfare of the community by prosecuting violations of City criminal and civil ordinances and state law. The three department divisions are described below.

The **Administration Division** provides executive leadership, communications, and operational support for the entire department. It is comprised of the executive leadership team, human resources, finance, media relations, and information technology staff.

The **Civil Division** provides legal counsel and representation to the City's elected and appointed policymakers in litigation at all levels of county, state, federal courts, and administrative agencies. The Civil Division is organized into seven specialized areas of practice: Employment, Environmental Protection, Land Use, Government Affairs, Torts, Regulatory Enforcement & Economic Justice (REEJ), and Contracts & Utilities. Precinct Liaison services are specifically budgeted, but are functionally a part of REEJ. These attorneys provide support to the City's police precincts, legal advice to police and other City departments, and address issues of concern to the community.

The **Criminal Division** prosecutes misdemeanor crimes in Seattle Municipal Court, provides legal advice to City clients on criminal justice matters, monitors state criminal justice legislation of interest to the City, and participates in criminal justice reform efforts, policy development and management of the criminal justice system. The Criminal Division is comprised of a Prosecution Support Unit, Case Preparation Unit, Domestic Violence Unit (prosecutors and victim advocates), Appeals, Review and Filing Unit, Specialty Courts Unit (Infractions, Mental Health, Veterans' Court, LEAD, and Pre-filing Diversion), and Trial Team Unit.

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The 2022 Proposed Budget provides additional resources to the Law Department (LAW) to increase staffing to meet the litigation and prosecutorial demands of the city.

Law Department

The 2017 Adopted Budget created the Pre-Filing Diversion (PFD) Program led by the Law Department with assistance from the Seattle Municipal Court (SMC) targeting 18–24-year-old individuals. In 2022, additional funding is provided for community-based contract inflation in addition to a Strategic Advisor and increasing a part-time paralegal to fulltime, giving the PFD program a total of 4 staff. PFD is composed of three diversion programs: 18–24-year-old individuals' misdemeanor cases, non-intimate partner domestic violence and suspended drivers' licensing. The new Strategic Advisor will lead the data and policy work not only for PFD but other diversion programs underway in LAW and SMC.

In the last seven years, use of outside counsel has increased for the Civil Division. The Law Department uses outside counsel when there is a conflict of interest, specific expertise is required, or existing staff is at capacity. The 2022 Proposed Budget through the Judgment and Claims Fund (JCF) adds three Assistant City Attorney positions and reinstates funding for two positions (unfunded in the 2021 Adopted Budget) in the areas of Torts, Contracts and Utilities, Employment and Government Affairs where outside counsel has increased primarily due to capacity. The department has also increasingly used outside counsel to assist in cases with large electronic document productions called eDiscovery. Five years ago, LAW purchased eDiscovery software (Nuix Discover) and engaged contract staff expertise to assist paralegals and attorneys. Adding a Strategic Advisor and a senior paralegal funded through the JCF will allow the department to bring this work in-house, and have the effect of reducing the total cost of legal representation charged to the JCF. Between the five funded attorneys and the two new eDiscovery staff, LAW expects to save over \$2.5 million annually in General Fund resources.

The current Criminal Division case management application, DAMION, was implemented in 1998 to track all aspects of prosecution including police reports, charging decisions, victims, witnesses, defendants, court dates and disposition. The application also relies upon significant data exchanges with the Seattle Police Department (SPD) and the Seattle Municipal Court (SMC). This desktop system is at the end of its lifecycle and the vendor is no longer fully supporting the application for updates and maintenance. The Law department, in coordination with the Seattle Information Technology Department (ITD), released a request for proposals (RFP) in 2020 to identify a replacement solution. The contract was awarded to Aeon-Nexus in 2021 and implementation is underway with a 'go-live' date in the second quarter of 2022.

In 2017, the City and King County (KC) jointly formed the Regional Domestic Violence Firearms Enforcement Unit. At that time the City was responsible for funding a 0.60 FTE KC Deputy Prosecutor however funding was not added to the department's budget. The increase in 2022 provides this funding in addition to licensing and space at King County.

The department recognizes the need for a complete and funded human resources (HR) team. Since 2011 the department has grown by over 60 FTE. A newly funded HR manager and Personnel Specialist will join the Senior Personnel Specialist for 3.0 FTE to serve a department of over 200 FTE. Further, the Administration Division is reorganized where HR, Information Technology and Finance will separately report to executive leadership.

In the 2021 Adopted Budget, one-time funding was provided to LAW for the Community Police Commission (CPC) to retain outside legal services and representation in policing-related matters, particularly with relation to United States v. City of Seattle, before the U.S. District Court of Western Washington. There is \$50,000 in funding added for these legal services in 2022.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$421,271

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle

Law Department

Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Reclasses - Information Technology (IT) Section

Expenditures	\$41,735
--------------	----------

Two positions in the Law Departments IT function have been reclassified from an IT Pro Cs to an IT Pro Bs. This request fully funds the wage movement as a result of these reclassifications.

Compensation Changes - Step Advancement

Expenditures	\$25,590
--------------	----------

In 2019, the city agreed to a Memorandum Of Agreement (MOA) with Local 21-PA (Prosecuting Attorneys) Union to increase the pay of four employees related to providing equitable pay with peers.

Inflation for Pre-Filing Diversion (PFD) Contracts

Expenditures	\$9,225
--------------	---------

This change request provides inflation of the PFD service contracts in 2022. This includes contracts for the Domestic Violence PFD program piloted in 2021 and the Young Adult PFD program which has been operating since 2017.

Removal of One-time Items

Expenditures	\$(80,000)
--------------	------------

This item removes the one-time funding for Community Police Commission legal services added in the 2021 Adopted Budget.

Annual Rent Adjustment

Expenditures	\$234,031
--------------	-----------

This item increases the rental budget in the Columbia Center for increases in the lease (\$1 per sq ft for the main space and 2.5% for Suite 2010). It also increases the budget available for Common Area Maintenance (CAM) and Property Tax payments. The CAM has increased significantly since 2019 and now represents approximately 15% of the costs, up from an estimated 9% in 2019.

Proposed Operating

Fully Staff Current Pre-File Diversion Program

Expenditures	\$247,490
Position Allocation	1.50

This item increases the part-time Paralegal supporting the Pre-Filing Diversion (PFD) program to full-time and adds a Strategic Advisor position to oversee the policy work associated with all diversion programs. The program requires support of 4.0 FTE to maintain current and expanded operations originally funded in 2017.

Law Department

Civil Division Attorney Staffing

Expenditures	\$904,846
Revenues	\$904,846
Position Allocation	3.00

The Law Department engages outside counsel due to conflicts of interest, needed expertise, or staffing capacity. The department analyzed outside counsel data from 2018-2020 related to capacity of existing staff in the Civil Division. During that period, approximately \$13 million was spent on outside counsel related to capacity limitations. Of this, over \$11 million in expenditures was related to General Fund matters. Most of the remaining \$2M was reimbursed by utility departments. With the reinstatement of funding for two defunded Assistant City Attorney (ACA) positions (Employment Litigation and Complex Litigation) and creation of three additional ACA positions (Torts, Contracts and Utilities, and Complex Litigation) to address capacity issues the General Fund savings could be more than \$2 million annually. Funding is provided through the Judgment and Claims Fund.

Electronic Discovery Staffing

Expenditures	\$287,195
Revenues	\$287,195
Position Allocation	2.00

The Law Department hires outside counsel or contract staff to assist in cases with large electronic document productions (called “eDiscovery”). The department analyzed data from 2018-2020 related to eDiscovery expenses. During that period, approximately \$5 million was spent on outside counsel and \$1 million on consultant services. Of this amount, approximately \$100,000 is reimbursable by the utilities, the remainder is a General Fund expense. The General Fund savings could be more than \$500,000 annually with the hiring of two staff members to manage eDiscovery. Funding is provided through the Judgment and Claims Fund.

Criminal Case Management System (CCMS) Licensing and Maintenance

Expenditures	\$247,490
--------------	-----------

The Law Department has been collaborating with the Information Technology Department (ITD) to develop a new Criminal Case Management System (CCMS). This item funds \$247,490 of increased costs associated with the maintenance and licensing for CCMS replacing the Damion system. The current baseline budget for Damion is \$35,000 and this add reflects the remaining need above the base. At this time, it is unknown whether the department will pay these costs or if they will be incorporated into ITD rates. This is a placeholder until additional information is available.

Firearms Surrender MOA with King County

Expenditures	\$145,484
Position Allocation	(1.00)

In 2017, the City entered into a six-year Memorandum of Agreement (MOA) with King County to standup and staff a regional unit to enhance public safety and public health with effective processing, service and enforcement of Protection Orders and Orders to Surrender Weapons. The Law Department was originally budgeted for the Program Manager however the most competitive candidate for this position was County employee and the Program Manager position remains vacant. This item eliminates the Criminal Division Manager 3 (1.0 FTE) and moves the budget to the contractual services line item. In addition, this item increases appropriation by \$145,484. These two actions provide funding for LAW to fully support the MOA with King County for 1.0 FTE Program Manager, a 0.6 FTE Deputy Prosecuting Attorney and computer licensing for staff to continue the Regional Domestic Violence Firearms Enforcement Unit. Funding has been requested for this purpose in the 2021 Second Quarter Supplemental Ordinance.

Law Department

Fund Human Resources Manager

Expenditures	\$167,029
--------------	-----------

The Law Department is reorganizing the Administration Division management structure to be consistent with other City departments. The department has grown by over 60 FTE since 2011 requiring a Human Resources (HR) manager through the reclassification of a vacant unfunded Deputy City Attorney position. The HR manager will supervise a Personnel Specialist Senior and a Personnel Specialist in providing HR resources for over 200 FTE. Currently, high level HR functions are provided by the Administration Division Chief, which has also been responsible for serving as the budget and finance lead, and supervising IT. These functions will now independently report to department leadership.

Fund Personnel Specialist

Expenditures	\$96,799
--------------	----------

An unfunded Personnel Specialist was added in the 2020 Budget. As part of the reorganization of the Administration Division this position will be funded and work with the new HR manager and the Senior Personnel Specialist to provide HR staffing for a department of over 200 FTE.

Proposed Technical

Appropriation for 2nd LEAD Prosecutor

Expenditures	\$149,064
Revenues	\$149,064

This appropriation supports the second Law Enforcement Assisted Diversion (LEAD) prosecutor position in 2022. This position was added in early 2020 but appropriation was not included in the 2021 Adopted Budget. This position is fully funded by a memorandum of agreement (MOA) with the Public Defender's Association. This MOA, which has been in effect since 2017, provides consistent staffing for duties related to the operation of LEAD in the City of Seattle. This funding and position authority will continue to be contingent on the execution of MOA agreements for this purpose on a biennial basis. This item is included in the Third Quarter Supplemental Ordinance.

Position Change from 2021 Second Quarter Supplemental Budget

Position Allocation	0.20
---------------------	------

This item continues a position change made in the 2021 Second Quarter Supplemental Budget. An Accounting Technician II was increased from 0.8 FTE to 1.0 FTE.

Funding for Legal Fees

Expenditures	\$50,000
--------------	----------

In the 2021 Adopted Budget, one-time funding was provided to the Law Department for the retention of outside legal services for the Community Police Commission (CPC) to receive legal advice and representation in policing-related matters, particularly with relation to United States v. City of Seattle, before the U.S. District Court of Western Washington. Per SMC 3.29.480B, private legal representation for police oversight entities shall be selected and retained by the City Attorney's Office, in consultation with the oversight entity. The funding for the legal services shall be separate from the oversight entity's operational budget. The CPC has identified a need of \$50,000 for legal services in 2022.

Seattle Municipal Court

The Honorable Willie Gregory, Presiding Judge

(206) 684-5600

<http://www.seattle.gov/courts/>

Department Overview

The Seattle Municipal Court (SMC or Court) adjudicates misdemeanors, gross misdemeanors, infractions (e.g., traffic and parking tickets, traffic camera violations, and other violations), and civil violations related to building and zoning offenses. The Judicial Branch of Seattle government has seven elected judges and six appointed magistrates. There are more cases processed here than any other municipal court in the State of Washington; in 2020, 7,173 criminal cases were filed at SMC.

This is a transformational time for how criminal justice is delivered in Seattle and across America. SMC judges are working towards immediate and profound change to address institutionalized racism embedded in the fabric of the criminal justice system, implementing policies to promote racial equity, working with stakeholders to transform the system and improve outcomes, and engage the community.

SMC is committed to excellence in providing fair, accessible, and timely resolution of alleged violations of the Seattle Municipal Code in an atmosphere of respect. The Court strives to take a holistic approach to address the root causes of criminal behavior and ensure ongoing public safety. Whether individuals come to the Court to resolve a ticket or appear at a criminal hearing, SMC seeks to meet people where they are and remove barriers to success, with the goal of reducing racial disparities and recidivism.

The Court continues to develop a Race and Social Justice Initiative (RSJI). The mission statement of the SMC RSJI Change Team is to *"inspire action by facilitating personal, structural and a systemic change in our environment. We promote wide range, multi-perspective conversations focusing on but not limited to race, gender, ethnicity and social justice issues; and by examining and changing our policies and practices to achieve equity in our Court and Community."* SMC judges, leadership and staff have participated in several RSJ trainings to increase awareness, skills, and knowledge and to build a common foundation for understanding all four levels of racism (internalized, interpersonal, institutional, and structural). The goal is to ensure all court employees have the training they need to advance equity when serving the community and fulfilling their roles in the Court. The RSJI change team has developed a toolkit and plan to launch it to evaluate SMC programs, services, and policies to ensure equitable outcomes and minimize harm.

Throughout the COVID-19 pandemic, SMC coordinated emergency response with municipal legal system stakeholders, including the Seattle City Attorney's Office and the King County Department of Public Defense, to protect the health and safety of all court participants. SMC worked collaboratively with stakeholders to reduce the jail population as much as possible. While the courthouse was closed to the public early in the pandemic, the in-custody arraignment calendar continued to ensure individuals had an opportunity for release as soon as feasible. The courthouse re-opened in early July 2020 with modified operations and COVID safety protocols in place including physical distancing, mask requirements and temperature checks.

In 2020 the court implemented virtual hearings for criminal cases using WebEx video/telephone conferencing and electronic form processing using Adobe sign. SMC expanded options for infraction cases to include telephone hearings, and hearings by written statement.

Court Programs and Services

In 2020 SMC restructured the Programs and Services division which includes Probation Services. This was in response to a [2020 report](#) commissioned from the Vera Institute of Justice (Vera), a leading criminal justice reform organization. SMC is addressing the report findings and evolving an approach to probation through the following strategies:

Seattle Municipal Court

- Focus probation services on high-risk case types: Prioritizing probation referrals on domestic violence, driving under the influence, and mental health cases; and have discontinued the practice of monitoring individuals' criminal records after case obligations have been completed, except in cases where record monitoring is required by state statute. As of early 2021, SMC had reduced clients on active supervision by 16% and reduced records checks by 78%, resulting in 1,640 less clients on SMC probation.
- Make probation goal-based: Shifting to a goal-based supervision approach, focused on short-term engagement aligned with client treatment needs and community-based supportive services. SMC implemented a new case closure policy which has reduced caseloads and focused resources on the clients who benefit most from probation support. Prior to 2020, probation cases typically stayed open for a set period of time, often several years. Now, probation counselors administratively close cases when their client has completed their goals.
- Re-design Pretrial Services: Pretrial Services engages with clients to connect them to social services and support their return to Court. Co-located with the Community Resource Center (CRC), Pretrial Services offer an alternative to jail aimed at promoting personal liberty, maintaining community safety, and assuring that those accused of a crime attend court hearings. Pretrial Services works to support individuals participating in a variety of **alternatives to detention** such as Electronic Home Monitoring (EHM) and Secure Remote Alcohol Monitoring (SCRAM), with options for subsidized or reduced costs for low income and homeless individuals.
- Engage community and listen to client feedback: The Court conducted a user survey in 2020 that received over 1,000 responses and held a series of focus groups to hear directly from clients. The resulting [reports](#) provide many creative ideas for how to make the court as a whole more equitable and client centered. Judges and court leadership also participated in a series of healing circles with local community leaders in order to build trust and understanding with organizations serving Black, Indigenous, and People of Color (BIPOC) communities. This engagement provides opportunity for bringing the community voice to the Court as well as opportunity for future collaboration. SMC also instituted a new probation client feedback survey. Clients are asked for anonymous feedback about their experience when exiting probation. So far, 78% of clients completing the survey feel supported, encouraged, and motivated by their probation counselor.

The 2021 Proposed Budget supports the redesigned Programs and Services approach by providing continued staffing support for the [Community Resource Center](#) (CRC). The CRC is a social services hub located in the courthouse that is a critical resource for court clients who may be struggling with homelessness, drug addiction, or other challenges. Services include: food and clothing, housing through Coordinated Entry for All, health and hygiene, grocery cards and food stamps, substance use disorder assessment and treatment, and employment and job readiness.

Specialty Courts

In addition to three general trial courts, the jail arraignment calendar, and the master jury trial calendar the Court serves individuals and the community through several specialty court calendars:

- **Seattle Community Court.** In August 2020, the Court launched a revitalized [Seattle Community Court](#) (SCC) in collaboration with the Seattle City Attorney's Office and King County Department of Public Defense. Structured as a pretrial release program, SCC is founded on a release-first principle where individuals choosing to participate are immediately released from jail so they can begin setting goals and connecting to community services. SCC is a pathway for people to have their low-level misdemeanor charges dismissed while completing community service. Unlike national community court models, SCC participants do not give up their constitutional right to trial to participate, and program eligibility is not affected by previous criminal history. In its first year, nearly 250 individuals have chosen to participate in Seattle Community Court.
- **Mental Health Court** is a specialized court where the judge, defense, prosecution, probation counselors, and a mental health clinician work as a team to improve outcomes for the participant. Individuals are referred to this voluntary program by judges, defense attorneys, prosecutors, jail staff, or others. Mental Health Court has saved the city jail costs and hospital bed days.
- **Seattle Veterans Treatment Court** is a voluntary, court-monitored treatment program that addresses the mental health and/or substance use issues of veteran defendants. This program is a collaboration between

Seattle Municipal Court

the Court, prosecution, defense, the King County Department of Community and Human Services, the Washington State Department of Veterans Affairs, and the U.S. Department of Veterans Affairs.

- **Domestic Violence Courts** were established in 2004 and are staffed by designated judges and specialized probation counselors. A dedicated domestic violence court allows judges to ensure follow-through, aid domestic violence survivors, and hold individuals accountable, with the assistance of justice partners and social service agencies. The Court has been integral in piloting a collaborative treatment modality known as the [Domestic Violence Intervention Project](#) (DVIP), a pretrial, pre-conviction diversion program. This pilot project is aimed at improving safety for survivors via individualized batterer intervention and is a multi-agency/system collaboration and response.
- [Seattle Youth Traffic Court](#), established in 2012, provides eligible teen drivers charged with a traffic violation the opportunity to maintain a clean driving record. Youth appear before a court of their peers who act as judges, jurors, defense attorneys and prosecutors. The peer jury determines an appropriate sanction based on the nature of the violation and impact on the community. Throughout the 2020-2021 school year, Youth Court hearings were held virtually. This program is a collaboration between the Court, Seattle University School of Law, Garfield High School, and the Seattle Police Department.

Community Outreach

The Court recognizes undoing institutional racism within the legal system requires meaningful engagement with the community to identify solutions. SMC judges are committed to a community engagement process to listen to the community and to quickly act upon input. The Court continues an engagement process started in 2020 centered in healing circles, with a restorative approach to engagement. The Court also conducted multiple independently led virtual focus groups with court users focused on accessibility, inclusion, and racial equity. The Court is open to opportunities for future engagement with the City Council's criminal legal system realignment work, the Seattle Office of Civil Rights, Seattle City Attorney, King County Department of Public Defense, and community-based providers such as Law Enforcement Assisted Diversion (LEAD).

In previous community-led conversations, such as the City's Reentry workgroup, SMC heard the need for restorative, community-based alternatives to the criminal legal system. The Court participates in the City Attorney's Office/Choose 180 Pre-filing Diversion Program and works with the City Attorney's Office and LEAD on a Consolidated Calendar where LEAD clients have a coordinated and problem-solving approach to resolving outstanding SMC cases.

While the COVID-19 pandemic has paused the program since early 2020, the Court typically holds quarterly [SMC in the Community](#) outreach events that bring court services and resources to Seattle neighborhoods. These events are an opportunity for community members to receive assistance with resolving SMC warrants, learn about options for addressing Seattle and King County tickets by setting up a payment plan or community service plan, get help with reinstating their driver's license, and access supportive services through the Community Resource Center.

Infractions

The Court processes hundreds of thousands of traffic, parking, and traffic camera tickets every year. In 2020, the Court processed 12,422 school zone camera tickets, 36,861 traffic camera tickets, and 277,384 parking tickets. Individuals may schedule hearings with a magistrate to contest or mitigate their tickets; magistrates held 33,088 infraction hearings in 2020. SMC added options to conduct infraction hearings remotely via telephone and participants also have the option to submit a written statement online or by mail to participate in their hearing. The infraction hearing volume was much lower in 2020 due to the City's efforts to suspend parking and traffic enforcements due to the COVID-19 pandemic.

The Court works with individuals who are unable to pay their tickets through payment plans or by converting the amount owed into community service hours. Through the King County-City of Seattle PolicyLink Fine/Fee grant, the Court is routinely engaging with King County and community partners on how to reform local legal financial obligation practices. The Court is planning to implement a relicensing calendar and broaden its hardship policies and has engaged community groups like LELO (Legacy of Equality, Leadership, and Organizing) in these efforts.

Seattle Municipal Court

Municipal Court Information System Replacement

The Court is replacing its almost 30-year-old legacy municipal court information system, MCIS, with a modern and adaptable case management solution. The new system will streamline court processes, improve the accessibility of court services to the public, and make it easier for partners at the Seattle Police Department, King County, and others to work collaboratively with the Court.

Language Access and Accessibility

SMC has provided Interpreter Services in 149 languages since 2005. A court priority is ensuring access to justice for Limited English Proficiency (LEP) and deaf, hard-of-hearing, or deaf-blind (D/HH/DV) individuals. Free interpreter services are provided for criminal and civil matters, including court hearings, trials, attorney-client interviews, probation appointments, prosecution witnesses, mental health evaluations, customer service, and translation of court forms and letters.

Since March 2020 interpreter services have been provided remotely. Interpreters were trained to work in WebEx. SMC Interpreter Services created a remote interpreting webinar for Washington state interpreters to learn how to work remotely. Every interpretation request from the court, attorneys, investigators, or psychologist was accommodated. In 2020, over 2,500 interpreted events were conducted with the help of 123 freelance interpreters in 53 languages, including American Sign Language. Approximately 40% of the requests are for Spanish language interpreters. Other frequent requests for interpretation include the Vietnamese, Somali, Amharic, Tigrinya, Cantonese, Mandarin, Russian, Punjabi, and Arabic languages.

Budget Snapshot

	2020 Actuals	2021 Adopted	2022 Proposed
Department Support

Total Operations	36,382,381	38,377,201	40,001,139
Total Appropriations	36,382,381	38,377,201	40,001,139
Full-Time Equivalents Total*	215.10	205.85	206.35

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

Through the 2021 Adopted Budget, the Court committed to implementing the recommendations from the 2020 Vera Institute of Justice [evaluation](#) of probation services. Although not inclusive of all actions, below are the significant Programs and Services changes enacted in 2021:

- Adopted judicial guidelines to focus probation on the following cases 1) Driving Under the Influence (DUI) 2) Domestic Violence (DV) 3) Mental Health Court and 4) person-based assault cases. Judges retain independent authority for exceptions.
- Shortened probation and shifted to a goals-based focus, with fewer requirements, and fewer individuals monitored solely on criminal records. Used incentives to encourage success.
- Judicial adoption of new sentencing practices to reduce overall court caseloads.

Seattle Municipal Court

- Collected data on race, ethnicity and gender to understand why racial disparities and gender disparities exist and explore gender-responsive programming.
- Engaged with providers and community organizations to inform policies and practices.

Seattle Community Court (SCC) was launched mid-year 2020. This pretrial release program aims to reduce incarceration, and rapidly resolve low-level, non-violent cases by connecting participants to community resources. The Community Resource Center at the Court will connect people charged with certain low-level offenses to support services including chemical dependency treatment, mental healthcare and housing assistance. The City supported this effort by adding \$100,000 in one-time funding for the Court to contract with a non-profit for a case manager equipped to make culturally appropriate referrals to community-based agencies. This will support clients in achieving long-term self-sufficiency outside the court system. It was difficult for the Court to find a provider without the stability of permanent funding. This budget provides permanent funding for this position.

The Court is committed to the least restrictive option for release while protecting community safety. Included in this budget is funding to increase the number of subsidized electronic home monitoring slots for indigent defendants and those at risk of experiencing homelessness. The program provides judges an alternative to incarceration.

Efforts to become a transformational anti-racist organization has inspired the court to expand training and development in Race and Social Justice initiatives. This continues in 2022 through standard training and adds training for staff on working with diverse communities more effectively such as trauma-informed approaches. A new course is available for developing a comprehensive career plan for court employees toward management and leadership roles.

A priority for the Court is to continue preparing for the replacement of the Municipal Court Information System (MCIS). MCIS is over 30 years old and was developed internally using the legacy IBM Informix platform to capture key court case events and meet the reporting requirements of the state's Administrative Office of the Courts (AOC). Over time, the Court has enhanced this system to provide important case management information, increased application functionality and improved data exchanges and public access. The Court and the City are highly dependent on MCIS to provide a continuing, permanent record of court case events, dates, hearings, and outcomes. MCIS also tracks defendant compliance with court ordered sanctions and tracks all related fines and fees. Data related to the collection of fines and fees from the Seattle Police Department's parking and traffic ticket devices are highly dependent on MCIS. Daily data exchanges with the City of Seattle departments, King County and the State of Washington agencies rely on MCIS fully functioning with modern technology capabilities.

This project, began in 2016, is included in the Seattle Information Technology Department (Seattle IT) Capital Improvement Program, as part of the Criminal Justice Information System Replacement Project, with an estimated total cost of \$41 million over six years.

Schedule and Milestones:

- 2017: \$2.5 million was appropriated to Seattle IT to conduct an options analysis comparing available options, vendor demonstrations, and conduct research for information on technology capabilities, while concurrently documenting MCIS current business practices and requirements.
- 2018: \$5 million was appropriated to develop an RFP, data preparation, business process engagement and organizational change management.
- 2019: \$3 million was appropriated to finalize an RFP, evaluate proposals, specific vendor demonstrations and interviews, fit gap analysis and contract negotiations.
- 2020: \$8.3 million appropriated with the vendor on board.
- 2021: \$8.5 million appropriated for project team and vendor implementation.
- Implementation began in late 2019, continues through 2020, 2021 and 2022, with a go-live date in early 2023.

Seattle Municipal Court

Incremental Budget Changes

Seattle Municipal Court

	Dollars	FTE

Proposed Technical		
Position Changes from 2021 Third Quarter Supplemental Budget	-	0.50
Judicial Salary Technical Adjustment	27,650	-
MCIS 2.0 Support - Sunset Positions	-	-
Total Incremental Changes	\$1,623,938	0.50
Total 2022 Proposed Budget	\$40,001,139	206.35

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,081,799

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for Judgement and Claims, healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

DSHS Community Court Contract

Expenditures \$15,000

Seattle Municipal Court

The Court contracts with the State Department of Social and Health Services (DHS) for a 0.50 FTE to provide case management in the Community Resource Center (CRC). This increase provides wage inflation.

Data Services Contract Inflation

Expenditures	\$18,000
--------------	----------

This increase provides inflation to cover increased vendor costs to support maintenance of the Municipal Court Information System (MCIS).

MCIS License Costs

Expenditures	\$42,289
--------------	----------

Maintaining the cost of additional IBM licenses is required to run tests in the current MCIS 1.0 system in order to migrate existing data to the new MCIS 2.0 system. The full costs are split between Information Technology Department MCIS capital project and the Court. This only represents the Court cost.

Proposed Operating

Jail Diversion Subsidized Home Monitoring Program

Expenditures	\$88,000
--------------	----------

This item increases the subsidized electronic home monitoring (EHM) program by \$88,000. The EHM program provides an alternative to confinement at pre-trial or at sentencing for judges when considering release decisions. Subsidized slots remove the barrier of ability to pay for indigent defendants and those at risk of experiencing homelessness. The additional General Fund subsidy will support on average 38 clients per month for one year. This will increase the number of monthly slots from 17 to 38.

Community Based Provider Contract - Court Resource Center

Expenditures	\$140,000
--------------	-----------

In the 2021 Adopted Budget, \$100,000 in one-time funding was added for the Court to contract with a non-profit to provide case management at the Community Resource Center (CRC). This item increases the funding to provide a full-time permanent case manager from a community non-profit to be co-located in the CRC at Seattle Justice Center. The case manager will make culturally appropriate referrals to community-based agencies which will support clients in services with the goal of long-term self-sufficiency outside of the court system. This position is intentionally called-out as a non-court employee to bridge the gap between community-based non-profits and the clients who present in need of services at the Seattle Municipal Court.

RSJI Training and Leadership Development

Expenditures	\$168,000
--------------	-----------

Revenues	-
----------	---

This item increases appropriation by \$168,000 from the Trial Court Improvement Account (TCIA) in 2022 to expand court-wide Race and Social Justice Initiative (RSJI) training, and leadership development. The training will increase the awareness, skills, and knowledge of court employees about RSJI. It will also build a common foundation for understanding all four levels of racism (internalized, interpersonal, institutional, and structural) for court employees to be centered towards equity when serving the community and fulfilling their roles in the Court. <p>

This appropriation includes a career development component and training for Court leadership and management. The Court leadership/management requires enhanced skills to become equity change agents. At the same time, Black, Indigenous, and People of Color (BIPOC) employees continue to face challenges in promotional opportunities

Seattle Municipal Court

within the Court. The proposed budget will create a path to increase the diversity of SMC's workforce across positions, particularly at the leadership level.

Language Premium Staff Stipend

Expenditures	\$43,200
--------------	----------

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

Proposed Technical

Position Changes from 2021 Third Quarter Supplemental Budget

Position Allocation	0.50
---------------------	------

This item adds all SMC position changes made in the 2021 Third Quarter Supplemental Budget, ensuring that FTE counts in the Proposed Budget are correct. This corrects positions errors from the 2021 Adopted Budget.

Judicial Salary Technical Adjustment

Expenditures	\$27,650
--------------	----------

Washington State elected judicial salaries are set by Washington Citizens' on Salaries for Elected Officials. As directed in Ordinance 122112, SMC judicial salaries are set at 95% of the district court. A salary schedule has been set and a wage increase was mandated for increase effective July 1, 2022. Setting SMC judicial salaries at this level qualifies the city to receive a contribution from the state for one-time improvements. The state's contribution is generally \$150,000 annually and is applied to the Trial Court Improvement Account in Finance General. Ordinance 122112 permits appropriation by annual budget or by separate ordinance, solely to fund allowable SMC related expenditures.

MCIS 2.0 Support - Sunset Positions

Expenditures	-
Position Allocation	-

SMC is providing key resources for the MCIS 2.0 Replacement Project from existing staff. This item extends expiring sunset positions through "go-live" and user testing in key project areas which is anticipated to be through 2023. These positions are funded by the MCIS 2.0 bond project.

Seattle Municipal Court

Seattle Municipal Court

Appropriations by Budget Summary Level and Program

SMC - BO-MC-2000 - Court Operations

The purpose of the Court Operations Budget Summary Level is to hold hearings and address legal requirements for defendants and others who come before the Court. Some proceedings are held in formal courtrooms and others in magistrate offices, with the goal of providing timely resolution of alleged violations of City ordinances and misdemeanor crimes committed within the Seattle city limits.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Court Operations	16,528,117	17,352,506	17,788,625

Seattle Police Department

Adrian Diaz, Interim Chief of Police

(206) 684-5577

<http://www.seattle.gov/police/>

Department Overview

The Seattle Police Department (SPD) addresses crime, enforces laws, and enhances public safety by delivering respectful, professional, and dependable police services. SPD divides operations into five precincts. These precincts define east, west, north, south, and southwest patrol areas, with a police station in each area. The department's organizational model places neighborhood-based emergency response services at its core, allowing SPD the greatest flexibility in managing public safety. Under this model, neighborhood-based personnel in each precinct assume responsibility for public safety management, primary crime prevention and law enforcement. Precinct-based detectives investigate property crimes and crimes involving juveniles, whereas detectives in centralized units located at SPD headquarters downtown and elsewhere conduct follow-up investigations into other types of crimes. Other parts of the department function to train, equip, and provide policy guidance, human resources, communications, and technology support to those delivering direct services to the public.

Interim Police Chief Adrian Diaz has committed the department to five focus areas to anchor itself throughout the on-going work around the future of community safety:

- **Re-envisioning Policing** - Engage openly in a community-led process of designing the role the department should play in community safety
- **Humanization** - Prioritize the sanctity of human life in every situation and affirm each individual's worth
- **Reinventing Community Engagement** - Establish true and lasting relationships through respectful interactions in every situation
- **Fiscal Stewardship** - Examine critically every dollar spent to ensure it meaningfully contributes to community safety
- **Employee Wellness and Morale** - Support exceptional police services by ensuring the department retains the best employees

In 2018, SPD was found to be in "full and effective compliance" with court-ordered reforms set forth in the 2012 U.S. Department of Justice ("DOJ") Settlement Agreement ("Consent Decree"). In May 2020, the City and SPD asked the court to terminate the sustainment period, stating SPD had fully demonstrated a culture of continuous improvement and innovation by meeting all of the court's requirements. Following the murders of George Floyd and Breonna Taylor by police officers, and the ensuing civil rights reckoning demanding a new model of community safety, the City and SPD asked to withdraw the termination order and committed to a community-led process of re-envisioning public safety.

This effort led to the establishment of the Community Safety Work Group (CSWG) led by the Department of Neighborhoods, Human Services Department, Seattle Police Department, and the Office for Civil Rights to integrate community input into policy changes and operationalize community priorities to reshape community safety and policing in Seattle. An SPD Functional Analysis Interdepartmental Team (IDT) was also established to advise the CSWG and Mayor on operational and functional aspects of SPD as it pertains to reimagining community safety.

Seattle Police Department

Budget Overview

The Seattle Police Department (SPD) 2022 Proposed Budget uses funds available due to officer attrition and reinvests them in administrative improvements within the department as well as multiple community safety investments including an alternative 911 response model, an additional CSO unit, and a gun violence prevention strategy program.

Community Safety

The 2022 budget builds on the findings from the Community Safety Work Group and SPD Functional Analysis Interdepartmental Team. The significant community outreach conducted through this effort found there was interest in a more visible patrol presence and the police developing deeper relationships with the neighborhoods they serve. The findings also heard from the community a desire to expand the scope of public safety to include wrap-around measures that target the forces that lead people to interact with officers in the first place.

In response to this feedback, the City's budget makes the following community safety investments:

- **Additional Community Service Officer Unit:** This expansion will increase the capacity of the Community Service Officer (CSO) program allowing for more comprehensive services to be deployed across the city. CSOs are civilian employees who help residents and businesses involved in non-criminal calls navigate services, engage with communities and neighborhoods, and support programming for at-risk youth.
- **Specialized Triage Response:** The City of Seattle proposes to field a new specialized triage response, housed within the Seattle Fire Department Mobile Integrated Health (MIH) program, that will respond directly to non-criminal and non-medical calls, such as wellness checks, identified by 911 at the CSCC. Utilizing a new 911 call-taking protocol system, dispatchers will be furnished with a new specialized triage response that will not include sworn police officer.
- **Regional Peacekeepers Collective:** The Regional Peacekeepers Collective is a violence prevention program that uses a public health approach to provide high-intensity engagement to young people likely to be victims or perpetrators of gun violence. The Collective connects at-risk young people to violence-prevention services by using referrals from Harborview Medical Center (HMC), the King County Prosecuting Attorney's Office, community-based outreach workers, and partner organizations to Regional Peacekeepers Collective partners.

Seattle Police Department

Staffing Levels and Accountability

The SPD Functional Analysis IDT found that historic attrition rates have significantly changed staffing and structure at SPD. They have experienced a net loss of over 193 officers since the beginning of 2020. Even with a significant reduction in tasks, patrol staffing would only be brought back up to minimum levels necessary for maintaining adequate response times. To address the need to adequately respond to in-progress crimes and emergencies, the budget includes hiring and retention incentives for new and lateral transfer officers.

The budget also continues to expand activities pertaining to sustainment of the federal consent decree, reinforcing implemented reforms and investing in accountability structures within the department. In continuing to invest in accountability structure, this budget adds capacity to the Office of Police Accountability (OPA) by adding a video content creator to analyze video and audio content specific to applicable OPA cases used to make investigative decisions.

Description of Incremental Budget Changes

Proposed Operating

Community Service Officer Expansion

Expenditures	-
Position Allocation	6.00

Seattle Police Department

This item adds one team of Community Service Officers (CSO) to SPD's Collaborative Policing Bureau. The five officers and supervisor will expand the CSO team to a total of 24. CSOs are non-commissioned officers who work as liaisons between the community and SPD. They serve to bridge the service gap on non-criminal calls for service and perform a variety of public safety-related community service and outreach work that does not require the enforcement authority of a sworn officer. CSOs will also help augment the police force and potentially provide a pathway for individuals interested in policing but not ready to become a sworn officer.

Hiring and Retention Incentives

Expenditures	-
--------------	---

This item transfers \$1,087,500 to the Leadership and Administration BSL from various department BSLs for entry level and lateral hiring bonuses in 2022.

Language Premium Staff Stipend

Expenditures	\$19,200
--------------	----------

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

Office of Police Accountability Video Analyst

Expenditures	\$156,698
Position Allocation	1.00

This request adds a full-time video content creator who will be responsible for the creation of OPA investigation related videos for internal and external consumption. This position will be responsible for analyzing and creating video/audio content that is specific to every applicable OPA case with video or audio (in-car video, body worn video, public video, 911 calls, etc.) that details the information used to make investigative decisions. Currently, some of this work is being completed by other staff, but the workload is too significant and needs a full-time employee dedicated to this work to support transparency surrounding allegations of police misconduct.

Reduction for Community Safety Investments

Expenditures	\$(3,650,000)
--------------	---------------

This item reduces funding in SPD and reallocates it to the Seattle Fire Department and Human Services Department to fund community safety investments in the Triage Team (SFD) and the Regional Peacekeepers Collective (HSD).

Technology Investments

Expenditures	-
--------------	---

This item transfers \$5,000,000 to the Leadership and Administration BSL from various BSLs with available budget for continued investment in technology solutions and infrastructure to advance department goals related to data governance, privacy and transparency, officer wellness, equity and accountability. This transfer allows for both the continuation of technology projects currently underway and implementation of new solutions born out of collaborative research efforts.

Proposed Technical

Adjustment for One-Time Budget Changes

Seattle Police Department

Expenditures \$14,058,745

This item includes budget adjustments for one-time changes in the 2021 Adopted Budget.

Adjustment for One-Time Budget Changes

Expenditures -

This technical change request transfers funding between accounts and BSLs to align budget with anticipated expenditures. In 2021 SPD reserved a portion of its sworn salary savings to finance the continuation of the Work, Scheduling, and Timekeeping project, along with contracts for a mental health professional (MHP) to expand access to mental health resources for police employees, and with a third-party backgrounding service to alleviate delays in the hiring process. Expenditures for these items will continue into 2022, and this request will transfer budget to the accounts and BSLs where the expenditures will be charged.

Adjustments to Separation Pay & Deferred Compensation

Expenditures -

This technical change request transfers funding between accounts to align budget with anticipated expenditures. The budget for separation pay and deferred compensation benefits for sworn personnel does not fully support annual expenditures. Historically, these budget shortfalls have been offset by sworn salary savings. This request transfers budget from salary accounts to the separation pay and deferred compensation accounts where the expenditures will be charged.

Adjustments to Standard Cost Changes

Expenditures \$(2,745,433)

This technical change request transfers funding between BSLs to eliminate negative account/BSL combinations resulting from SPD-940 Citywide Adjustments for Standard Cost Changes. This request also zeros out FAS central costs (FASALLOC, FASFLT, FASFUEL & FASMAINT) for the 911 Call Center and Parking Enforcement in SPD; these costs are assigned to the CSCC and SDOT starting in 2022.

Baseline Adjustments for Personnel Costs

Expenditures \$266,951

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

BLET and Post-BLET Adjustments

Expenditures -

This technical change request transfers funding between BSLs to align BSL budget with anticipated expenditures for new officers during the recruit and student officer phases.

CCM Reconciliation Adjustments

Expenditures \$2,675,344

This change makes adjustments to reconcile the 2022 Baseline with the 2021 Adopted Central Cost Manual.

Paid Family Care Leave Backfill

Expenditures \$2,000,000

Seattle Police Department

This item increases the budget for backfill costs in SPD when members of the department are on leave to care for family members.

Revenue Adjustments

Revenues \$(7,440,875)

This change reflects updates to baseline revenues.

Salary & Benefit Baseline Adjustments

Expenditures -

This change adjusts salary & benefit accounts (excluding healthcare) to better align anticipated costs by BSL, program, project and account.

Transfer 911 Call Center Positions out of SPD

Position Allocation (140.00)

This item transfers 140 positions from the 911 Call Center in SPD to the new Community Safety and Communications Center (CSCC). The 911 Call Center was transferred from SPD to the CSCC in June 2021.

Transfer Funding for Parking Enforcement & 911 Call Center Jan-May Except Allocated Costs

Expenditures \$(13,191,248)

This change transfers remaining funding for Parking Enforcement and the 911 Call Center for Jan-May out of SPD and includes operational costs, PEO special events overtime and back office support.

Transfer Grant-Funded Victim Advocate Position out of SPD

Position Allocation (1.00)

This item transfers 1 full-time Grant-funded Victim Advocate position (#10007052) from the Seattle Police Department to the Human Services Department. This position was created in the 2020 Fourth Quarter Supplemental budget legislation (Ordinance 126257, Section 4, item # 4.33), which appropriated funds for the Law Enforcement Based Victim Specialist Grant.

Transfer Parking Enforcement Positions out of SPD

Position Allocation (120.00)

This item transfers 120 Parking Enforcement positions to the Seattle Department of Transportation (SDOT). The Parking Enforcement Unit was transferred from SPD to SDOT in September 2021.

Citywide Adjustments for Standard Cost Changes

Expenditures \$2,868,442

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for Judgement and Claims, healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Police Relief and Pension

Dan Oliver, Executive Secretary

(206) 386-1286

<http://www.seattle.gov/policepension/>

Department Overview

The Police Relief and Pension Fund (PPEN) provides pension and medical benefit services to eligible active and retired police officers and their beneficiaries. PPEN is a closed plan which only covers police officers who were hired before October 1, 1977. Retiree benefits for police officers hired more recently are primarily covered through a separate state-managed plan.

The management of police benefits funds transitioned in the 1970s from local to state control. Prior to that time, the City paid into PPEN to provide for police officer retiree benefits. In March 1970, the State of Washington took over the provision of certain police pensions through Revised Code of Washington (RCW) Section 41.26, the Law Enforcement Officers and Fire Fighters (LEOFF) Plan 1. Seattle police officers hired between March 1970 and October 1977 enrolled in LEOFF 1, but also received additional benefit coverage through PPEN. As a result, this group of police officers receives retiree benefits primarily from the state's LEOFF 1 plan, but also any earned increment from the City's PPEN that exceeds LEOFF 1 coverage. Both PPEN and LEOFF 1 closed to new enrollees in October 1977. Police officers hired after that date enroll in the state's LEOFF 2 plan and do not receive benefits from PPEN.

The Seattle Police Pension Board is a seven-member quasi-judicial body chaired by the Mayor or the Mayor's designee, which formulates policy, rules on disability applications, and provides oversight of the Police Pension Fund. Three staff employees of the board handle all of its operational functions. Staff positions associated with Police Relief and Pension are reflected in the City's position list.

The projections of annual pension and medical benefits, which comprise about 97% of the total annual PPEN budget, are based on the forecasts of an independent actuary. The City's General Fund provides funding for nearly all of PPEN's annual budget that supports the Police Relief and Pension Fund obligations. The Police Pension Fund also has a statutory funding source from police auction proceeds, which contribute a small amount towards the annual budget.

Police Relief and Pension

Budget Overview

The Police Relief and Pension Fund (PPEN) pays legally mandated pension and medical benefits, including long-term care, to eligible retired police officers and qualified beneficiaries. The total pension benefits for PPEN members are increased annually through locally negotiated cost of living adjustments (COLA) and local inflation. These increases are then offset by the benefits paid by the state's LEOFF 1 pension plan which has its own annual growth rate.

Most of PPEN's retirees are represented by either the Seattle Police Management Association (SPMA) or the Seattle Police Officer's Guild (SPOG).

The 2022 Proposed Budget's retiree medical and long-term care costs are \$15.38 million, unchanged from the 2021 Adopted Budget. The actuarial report anticipates medical and long-term care costs will increase over the next 15 to 20 years due to PPEN's aging membership and annual trend rates for medical and long-term care costs.

The 2022 Proposed Budget includes appropriation increases of \$28,747 for centrally adjusted administrative and labor costs. The Proposed Budget reduces the General Fund transfer by \$3.36 million and an intentional use of \$3.66 million of existing fund balance to provide resources against expected expenditures.

Incremental Budget Changes

Police Relief and Pension

	Dollars	FTE
2021 Adopted Budget	26,651,531	3.00
Baseline		
Citywide Adjustments for Standard Cost Changes	28,747	-
Proposed Technical		
Reduction of GF revenue contribution	-	-
Total Incremental Changes	\$28,747	-
Total 2022 Proposed Budget	\$26,680,278	3.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$28,747

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Police Relief and Pension

Proposed Technical

Reduction of GF revenue contribution

Revenues \$28,747

This change reduces the GF contribution for 2022 to the Police Relief and Pension Fund (61060) with the intent of reducing available fund balance. The General Fund transfer is reduced by \$3.36 million requiring an expected, intentional use of \$3.66 million of existing fund balance to provide resources against expected expenditures. A total increase of \$28,747 is needed to cover incremental labor costs in 2022.

Department Overview

Seattle City Light was created by the residents of Seattle in 1902 to provide affordable, reliable, and environmentally sound electric power to the City of Seattle and neighboring suburbs. Owned by the community it serves, City Light is a nationally recognized leader in energy efficiency, renewable resource development, and environmental stewardship.

City Light provides electric power to approximately 470,000 residential, business, and industrial customers within a 131-square-mile service area. City Light provides power to the City of Seattle and surrounding jurisdictions, including parts of Shoreline, Burien, Tukwila, SeaTac, Lake Forest Park, Renton, Normandy Park, and areas of unincorporated King County.

City Light owns about 2,000 megawatts of very low-cost, environmentally-responsible, hydroelectric generation capacity. In an average year, City Light meets about 50% of its load with hydroelectric facilities that it owns directly and obtains the remainder primarily through the Bonneville Power Administration (BPA). City Light is the nation's ninth largest publicly-owned electric utility in terms of customers served.

Budget Overview

The Seattle City Light 2022 Proposed Budget maintains investments at current service levels. In keeping with the department's commitment to financial health and affordability, proposed changes are net-zero reprioritizations necessary to support the business strategies outlined in the approved [2022-2026 Strategic Business Plan](#) and remain within the funding levels approved in the 2022 rate ordinance ([Ord 126302](#)). Retail revenues continue to stabilize from COVID-19 pandemic impacts and are projected to be at or above levels forecast for 2021. However, wholesale

Seattle City Light

are currently projected to be below forecast due to less-than-expected precipitation and snowpack as well as higher-than-expected energy prices in the wholesale market.

The theme of the 2022-2026 Strategic Plan is “Recover, Refocus, Restart,” and it includes four main business strategies. The budget proposals align closely with these strategies and are summarized below.

Ensure Financial Health and Affordability - adds funding to support a range of customer service-oriented improvements in areas including outreach, training, and technology. These efforts are part of City Light’s Road to Recovery plan and will help to address high bill issues, correct billing errors, and prepare the department to restart credit and collections activities after a five-year hiatus.

Improve Customer Service Experience - increases funding to improve the customer experience through technology enhancements, process improvements, and added resources in engineering and meter reading, all of which reduce wait times for new customer connections and ensure a consistent customer experience.

Create Our Energy Future - adds operations and maintenance (O&M) funding and reallocates department resources to support items such as transportation and building electrification, grid modernization, and cybersecurity.

Develop Workforce and Organizational Agility – adds funding to areas such as technology planning, data analytics and reporting, employee development and retention, training, and support for race and social justice work; and reallocates staff to employee relations, organizational change management, and business process management.

To fund the business strategy proposals and ensure that all budget changes were net-zero, City Light implemented reductions in numerous contracting and services accounts. Additionally, the vacancy rate was increased from 6% to 8%. The utility plans to provide the same level of service despite these reductions.

Capital program spending was also kept at baseline budget levels except for revenue-backed items and a net-zero technical adjustment that moved the deferred O&M account, an account that capitalized conservation incentives, to the capital budget. Noteworthy changes include increases for Skagit relicensing studies and improvements, Maritime Transportation Electrification, and grid modernization; and a reduction for the Denny Transmission Line project that is tentatively on hold. For more detailed information on the capital program, please see the 2022-2027 Adopted Capital Improvement Program.

To support the capital program and other eligible City Light costs, the 2022 Proposed Budget anticipates a 2022 bond issue of approximately \$225 million.

Description of Incremental Budget Changes

Proposed Operating

O&M Reductions

Expenditures \$(19,336,887)

This adjustment contains reductions to City Light's operations and maintenance (O&M) budget that were taken to ensure that other incremental increases in business strategy priority areas were net-zero, and that the overall operating budget did not increase. All non-labor O&M accounts were evaluated and available budget was identified for redeployment based on historical underspending; reductions were primarily in consulting and service accounts. Additional savings were realized due to reductions in FERC fees, an increase to the vacancy rate from 6% to 8%, and

Seattle City Light

a change to the use of leased office space (it will be utilized as surge capacity), that allows for the rent cost to be capitalized as part of the Reimagining City Light Workspace project. Current levels of service will not be affected by these proposed reductions.

Ensure Financial Health & Affordability - Road to Recovery

Expenditures	\$675,000
--------------	-----------

This item adds funding to support a range of customer service-oriented improvements, as outlined in the 2022-2026 Strategic Business Plan, in areas including outreach, training, and technology. These resources will also help to address high bill issues, correct billing errors, and prepare the department to restart credit and collections activities after a five-year hiatus. These efforts are part of City Light's Road to Recovery plan that focuses on long-term financial health and on providing sustainably affordable electricity for City Light customer-owners.

Improve Customer Service Experience

Expenditures	\$1,318,270
--------------	-------------

This item increases funding for core customer services to improve the customer experience, which is one of the business strategies in City Light's 2022-2026 Strategic Plan. Funding will go towards technology enhancements and process improvements, as well as to bolstering engineering and meter reading resources. The goal of these efforts is to help reduce wait times for new customer connections and ensure a consistent customer experience.

Create Our Energy Future

Expenditures	\$2,816,000
--------------	-------------

This adjustment adds O&M funding and reallocates department resources to support items such as transportation and building electrification, grid modernization, and cybersecurity. These initiatives are a part of City Light's clean energy business strategy to "create our energy future," aligning with Seattle's decarbonization goals (Green New Deal) and supporting compliance with new requirements outlined by Washington State's recently passed Clean Energy Transformation Act (CETA) and Low-Carbon Fuel Standard (LCFS).

Develop Workforce and Organizational Agility

Expenditures	\$2,496,132
--------------	-------------

This item reallocates funding to support City Light's "develop workforce and organizational agility" business strategy as outlined in the 2022-2026 Strategic Business Plan. Funding is added to areas including technology planning, data analytics and reporting, employee development and retention, training, and support for race and social justice work. In addition, this change reallocates staff to employee relations, organizational change management, and business process management.

Proposed Capital

Annual Capital Spending Adjustments

Expenditures	\$28,725,010
--------------	--------------

This annual adjustment reprioritizes funding in the capital program and aligns budgets with the most up-to-date information on planned project spending. For more details on the capital program please see the 2022-2027 Proposed CIP.

Seattle City Light

CenTrio Electrification Program

Expenditures \$2,000,000

This item provides funding for City Light's CenTrio Electrification Program (CTEP) to plan, design, procure, construct, and commission large City Light capital investment projects to deliver the infrastructure required to meet the electrification needs of CenTrio, a franchise utility that delivers steam for the heating of multiple downtown buildings in Seattle.

Grid Modernization

Expenditures \$1,719,000

This item adds funding to develop a portfolio of strategic programs that prepare City Light for industry-wide changes that are driven by the need for deep decarbonization. SCL produced a Grid Modernization Plan and Roadmap to advance the development of the dynamic, flexible distribution system of the future, while developing the skills and technologies necessary to enable increased customer electrification and improve grid resiliency and security. The plan describes eighteen specific projects and tasks for the next two years as well as outlining ten-year goals. Projects range from planning, operations, supporting technologies, and physical infrastructure upgrades.

Maritime Transportation Electrification Program

Expenditures \$300,000

This item provides the initial funding for the new Maritime Transportation Electrification Program to plan, design, procure, construct, and commission large City Light capital investment projects to deliver the infrastructure required to meet electrification, environmental justice, and sustainability goals and mandates, as well as to meet the customer demands associated with Maritime Transportation. Funding will increase in future years and averages \$3.4 million annually from 2023-2027.

Reimaging City Light Workspace

Expenditures \$8,220,000

This item adds appropriation authority to an existing project to fund the work related to City Light's Space Utilization Master Plan. With nearly half of City Light employees located in the downtown core, this project will address office space deficits in the physical work environment. Additionally, SCL will make investments in the Seattle Municipal Tower to update the building's infrastructure to include electrical systems, HVAC and lighting.

Skagit Relicensing

Expenditures \$14,798,000

This item adds funding to the existing Skagit Relicensing project for several expanded commitments. As part of its commitment to do more for the Skagit River watershed, City Light is undertaking additional protection, mitigation, and enhancement measures in addition to the FERC relicensing process requirements. These include items like establishing a Fish Habitat Fund, expanding the original study plan, expediting the early implementation of some measures, adding flows to the bypass reach, and adding additional strategic outside counsel and public relations consultants to the project.

Utility Next Project

Expenditures \$1,000,000

City Light created 17 project charters in early 2021 to prepare for future federal, state, and other grant funding opportunities expected to emerge in response to the COVID-19 pandemic. This project provides matching funds for

Seattle City Light

grant awards that will help advance City Light's progress with grid modernization, electrification and workforce development.

Proposed Technical

Adjustments for Personnel Costs

Expenditures	\$238,748
--------------	-----------

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$3,773,894
--------------	-------------

Citywide technical adjustments reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Net-Zero Transfer from Seattle IT

Expenditures	\$2,129,309
Position Allocation	8.00

This item transfers operational technology that is specific to City Light from Seattle IT. This net-zero transfer aligns with the reduction in the Seattle IT budget and includes 8.0 FTEs (7.0 Information Technology Professional B's and 1.0 IT Programmer Analyst) and \$2.1 million dollars to fund all labor and non-labor costs for the Outage Management System, Asset Suite and Work, the Asset Management system (WAMS) and department-specific GIS operations.

Revenue Adjustments

Revenues	\$1,465,529,673
----------	-----------------

This annual adjustment aligns City Light revenue accounts with the financial forecast used for the 2022 Proposed Budget.

Technical Adjustments

Expenditures	\$6,128,282
--------------	-------------

This item includes a variety of budget adjustments including net-zero realignments of detail projects, budgetary overheads, and position transfers to accommodate SCL's new project and organizational structure; increases to labor budgets for the Local 77 Labor Settlement; O&M increases for transportation electrification and tree trimming services to align budgets with the current need; and net-zero adjustments to accommodate increases outlined in the Central Cost Manual. These adjustments are consistent with the Strategic Plan and proposed rates.

Appropriations by Budget Summary Level and Program

SCL - BC-CL-W - Conservation & Environmental - CIP

The purpose of the Conservation & Environmental - CIP Budget Summary Level is to provide for the costs of conservation incentives and other energy efficiency programs. This Budget Summary Level also supports the utility's renewable resource development programs, hydroelectric relicensing, and real estate.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Conservation & Environmental	-	-	42,723,625
Total	-	-	42,723,625
Full-time Equivalents Total*	10.71	-	-

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SCL - BC-CL-X - Power Supply - CIP

The purpose of the Power Supply - CIP Budget Summary Level is to provide for the capital costs of electrification, facility improvements, maintaining the physical generating plant and associated power licenses, and regulatory requirements. This Budget Summary Level supports capital projects identified in the department's Capital Improvement Plan.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
BOUNDARY	35,598,616	41,849,396	38,706,014

The following information summarizes the programs in Transmission and Distribution - CIP Budget Summary Level:

DISTRIBUTION OTHER

The Distribution Other program funds the capital costs for the installation, major maintenance, rehabilitation, and replacement of other elements of the utility's transmission and distribution systems not included in other programs.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
DISTRIBUTION OTHER	14,293,193	21,412,396	24,103,550
Full Time Equivalents Total	10.09	10.09	20.03

NETWORK

The Network program funds the capital costs for the installation, major maintenance, rehabilitation, and replacement of network system equipment.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
NETWORK	19,528,227	26,713,358	24,534,112
Full Time Equivalents Total	29.30	29.30	37.85

Seattle City Light

RADIAL

The Radial program funds the capital costs for the installation, major maintenance, rehabilitation, and replacement of radial system equipment.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
RADIAL	71,245,168	81,227,390	98,332,201
Full Time Equivalents Total	71.57	71.57	108.98

SUBSTATIONS

The Substation program funds the capital costs for the installation, major maintenance, rehabilitation, and replacement of substation equipment.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
SUBSTATIONS	15,945,944	28,519,766	25,846,796
Full Time Equivalents Total	39.04	39.04	91.29

TRANSMISSION

The Transmission program funds the capital costs for the installation, major maintenance, rehabilitation, and replacement of transmission lines and other elements of the utility's transmission system.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
TRANSMISSION	4,753,713	16,437,304	6,742,558
Full Time Equivalents Total	10.06	10.06	11.39

SCL - BC-CL-Z - Customer Focused - CIP

The purpose of the Customer Focused - CIP Budget Summary Level is to provide for the capital costs of rehabilitation and replacement of the utility's financial systems and information technology infrastructure, the development and implementation of large software applications, customer service connections, meters, and other customer-driven projects, including large inter-agency projects requiring utility services or relocations. This Budget Summary Level supports capital projects identified in the department's Capital Improvement Plan.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
CUSTOMER AND BILLING	3,856,115	107,335	3,153,611
CUSTOMER IT SYSTEMS	2,102,070	1,829,581	1,393,061
CUSTOMER OTHER	232,444	-	-
LOCAL JURISDICTIONS	12,825,030	13,313,719	20,486,237
SERVICE CONNECTIONS	49,026,780	59,548,500	62,265,825
TRANSPORTATION RELOCATIONS	29,932,252	19,762,439	21,153,527
Total	97,974,692	94,561,574	108,452,261

Seattle City Light

Full-time Equivalents Total*	61.82	72.53	180.74
*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here			

The following information summarizes the programs in Customer Focused - CIP Budget Summary Level:

CUSTOMER AND BILLING

The Customer and Billing program provides the funding to support a portion of the customer billing functions at the utility and to fund City Light's customer call center improvement program.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
CUSTOMER AND BILLING	3,856,115	107,335	3,153,611

CUSTOMER IT SYSTEMS

The Customer IT Systems program provides for the capital costs of rehabilitation and replacement of the utility's customer information technology infrastructure, and the development and implementation of large software applications. This program supports capital projects identified in the department's Capital Improvement Plan.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
CUSTOMER IT SYSTEMS	2,102,070	1,829,581	1,393,061
Full Time Equivalents Total	-	10.71	-

CUSTOMER OTHER

The Customer Other program provides funding to support the customer service engineering program and the Neighborhood Voluntary Undergrounding program.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
CUSTOMER OTHER	232,444	-	-
Full Time Equivalents Total	0.13	0.13	-

LOCAL JURISDICTIONS

The Local Jurisdictions program funds the capital costs for projects in local jurisdictions requiring utility services or relocations.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
LOCAL JURISDICTIONS	12,825,030	13,313,719	20,486,237
Full Time Equivalents Total	10.32	10.32	16.90

Seattle City Light

SERVICE CONNECTIONS

The Service Connections program funds the capital costs of customer service connections and meters.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
SERVICE CONNECTIONS	49,026,780	59,548,500	62,265,825
Full Time Equivalents Total	42.66	42.66	148.87

TRANSPORTATION RELOCATIONS

The Transportation Relocations program funds the capital costs for large inter-agency transportation projects requiring utility services or relocations.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
TRANSPORTATION RELOCATIONS	29,932,252	19,762,439	21,153,527
Full Time Equivalents Total	8.71	8.71	14.97

SCL - BO-CL-A - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide overall management and policy direction for Seattle City Light and to provide core management and administrative services such as communications, finance, human resources, facility management and IT program support. This BSL is also utilized to provide for the general expenses of the utility that are not attributable to a specific organizational unit such as insurance and bond issue costs, legal fees, indirect costs related to employee benefits and PTO, general claims costs, and services provided by the City's internal services departments through the central cost allocation mechanism.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
CITY ALLOCATIONS	-	64,478,959	-
DEPARTMENT WIDE COSTS	-	46,093,273	-
Indirect Cost Recovery	-	(111,554,271)	-
Indirect Cost Recovery Offset	(7,509,106)	-	-
PEOPLE AND CULTURE ADMIN O&M	15,584,262	(64,566)	-
Pooled Benefits and PTO	-	70,535,403	-
Total	8,075,155	69,488,798	-
Full-time Equivalents Total*	90.17	218.50	-

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Seattle City Light

CITY ALLOCATIONS

The City Allocations program funds the costs for city services that are provided to the utility.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
CITY ALLOCATIONS	-	64,478,959	-

DEPARTMENT WIDE COSTS

Seattle City Light

SCL - BO-CL-S - Short Term Purchased Power

The purpose of the Short-Term Purchased Power Budget Summary Level is to acquire wholesale power, transmission, and other related services (including renewable energy credits) to manage the utility's short-term demand given the variability of hydroelectric power. This Budget Summary Level provides appropriations for planned transactions up to 24 months in advance.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
SHORT TERM PURCH PWR OPS O&M	21,852,702	45,410,408	-
Total	21,852,702	45,410,408	-

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SCL - BO-CL-T - Transmission and Distribution O&M

The purpose of the Transmission and Distribution O&M Budget Summary Level is to provide reliable electricity to customers through operation and maintenance of City Light's overhead and underground distribution systems, substations, and transmission systems. The utility's energy delivery engineering and customer operations functions are included in this Budget Summary Level.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
TRANSMISSION & DISTRIB ADMIN O&M	17,092,520	12,243,452	-
TRANSMISSION & DISTRIB FLEET O&M	8,605,345	16,635,600	-
TRANSMISSION & DISTRIB POWER DISTRIB OPS O&M	69,358,103	70,329,316	-
Total	95,055,968	99,208,368	-
Full-time Equivalents Total*	508.75	508.75	-

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Transmission and Distribution O&M Budget Summary Level:

TRANSMISSION & DISTRIB ADMIN O&M

The Transmission & Distribution Administration O&M program funds the administrative work with City Light's overhead and underground distribution systems, substations and transmission systems.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
TRANSMISSION & DISTRIB ADMIN O&M	17,092,520	12,243,452	-
Full Time Equivalents Total	103.65	103.65	-

Seattle City Light

TRANSMISSION & DISTRIB FLEET O&M

The Transmission & Distribution Fleet program funds fleet management and support for distribution, transmission and generation programs.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
TRANSMISSION & DISTRIB FLEET O&M	8,605,345	16,635,600	-
Full Time Equivalents Total	81.94	81.94	-

TRANSMISSION & DISTRIB POWER DISTRIB OPS O&M

The Transmission & Distribution Power Distribution Operations O&M program funds the operation and maintenance of City Light's overhead and underground distribution systems; engineering of energy delivery; customer operation services such as metering, billing, and account management; substations; and transmission systems.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
TRANSMISSION & DISTRIB POWER DISTRIB OPS O&M	69,358,103	70,329,316	-
Full Time Equivalents Total	323.16	323.16	-

SCL - BO-CL-TAXES - Taxes

The purpose of the Taxes Budget Summary Level is to pay City Light's legally required tax payments for state, city, and local jurisdictions. This Budget Summary Level includes funding for franchise contract payments negotiated with local jurisdictions in City Light's service territory.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Taxes	-	-	114,320,504
Total	-	-	114,320,504

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SCL - BO-CL-UTILOPS - Utility Operations O&M

The purpose of the Utility Operations O&M Budget Summary Level is to provide reliable electricity to customers through operation and maintenance of City Light's power production facilities, substations, transmission systems, and overhead and underground distribution systems in a clean, safe, efficient, reliable, and environmentally responsible manner. The utility's energy delivery engineering, power production engineering, generation operations, asset management, power system functions, renewable resource development programs, hydroelectric relicensing, and real estate are also included in this Budget Summary Level.

Seattle Public Utilities

Mami Hara, General Manager & CEO

(206) 684-3000

<http://www.seattle.gov/util/>

Department Overview

Seattle Public Utilities (SPU) provides reliable, efficient and environmentally conscious utility services to enhance the quality of life and livability in all communities SPU serves. SPU operates three distinct utilities: Drainage and Wastewater, Solid Waste, and Water. The three utilities each have unique revenue sources and capital improvement projects but share many operations and administration activities within SPU and the City.

Drainage and Wastewater: The Drainage and Wastewater Utility collects and disposes or discharges storm runoff and wastewater from residences, businesses, institutions and public properties within the City. In addition to handling sewage and storm water runoff, Drainage and Wastewater works with other government agencies and private parties to address Federal EPA-mandated sediment cleanup projects where contamination is linked to storm water or sewage, such as Gas Works Park and the Lower Duwamish Waterway. The Drainage and Wastewater systems include approximately 448 miles of separated sanitary sewers, 968 miles of combined sewers, 481 miles of storm drains, 68 pump stations, 84 permitted combined sewer overflow outfalls, 290 storm drain outfalls, 578 water quality structures, 295 drainage flow control facilities, and 38 combined sewer overflow control detention tanks and pipes.

Solid Waste: The Solid Waste Utility collects and processes recycling, compostables, and residential and commercial garbage to promote public health and safety, quality of life, and environmental stewardship. The City owns and operates two transfer stations, two household hazardous waste facilities, a fleet of trucks and heavy equipment, and several closed landfills. The Solid Waste Capital Improvement Plan (CIP) supports the transfer stations, heavy equipment, and post-closure projects on landfills previously used by the City. In addition, SPU contracts with private companies who collect household refuse, compostable material, and recyclables. The companies deliver the material to recycling and composting facilities and to transfer stations for its ultimate processing or disposal. In concert with its waste handling and disposal activities, Solid Waste engages its customers in environmental sustainability programs that promote recycling, composting and reducing waste generation. Solid Waste also works to keep Seattle clean, by targeting illegal dumping, automobile abandonment, graffiti removal and providing public litter cans and recycling bins across Seattle.

Water: The Water Utility provides reliable, clean, and safe water to more than 1.5 million customers in and around Seattle for consumption and other uses. The water delivery system extends from Edmonds to Des Moines and from Puget Sound to Lake Joy near Duval. SPU delivers water directly to its customers in Seattle and adjacent areas and provides wholesale water to 21 suburban water utilities and interlocal associations for distribution to their customers. The Water Utility includes 1,800 miles of pipeline, 30 pump stations, two primary water treatment plants, 11 booster chlorination facilities, three wells and 104,000 acres in two watersheds. The Utility builds, operates, and maintains the City's water infrastructure to ensure system reliability, to conserve and enhance the region's environmental resources, and to protect public health and safety. SPU engages the community in conservation efforts to reduce water consumption.

SPU monitors its funds using Council-adopted financial performance metrics developed in advisement with external financial advisors. These metrics include net income, cash balances, cash contributions to CIP, debt service coverage (a measure of revenue available to fulfill annual debt service obligations), and, for the Drainage and Wastewater Fund, debt to asset ratio. Based on these metrics, among other factors, rating agencies have assigned all three of funds with strong, investment grade bond ratings in line with peer west coast utilities, noting specifically elected officials' commitment to sound financial management and a history of adopting prudent rates. Water bonds are rated AA+ and Aaa, Drainage and Wastewater bonds are rated AA+ and Aa1, and Solid Waste bonds are rated AA+ and Aa3 by S&P and Moody's, respectively. Strong ratings help to minimize borrowing costs and, in turn, customers'

Seattle Public Utilities

bills into the long-term.

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The 2022 Proposed Budget for Seattle Public Utilities (SPU) maintains SPU's role of providing essential services to Seattle residents and businesses during this period of economic and public health challenges. As a result of the COVID-19 pandemic, SPU has worked to support customers in need of financial assistance and has provided crucial public hygiene services for the unsheltered population. Due to the pandemic, SPU delayed the adoption of the 2021-2026 Strategic Business Plan until 2021 as well as a scheduled water rate ordinance to keep 2021 water rates at their 2020 levels. The 2022 Proposed Budget includes adjustments based on updated financial planning as well as changes reflected in capital planning. The net impact of these changes decreases SPU's Proposed Budget by \$84 million.

Strategic Business Plan Overview

In 2021, the city adopted the 2021-2026 Strategic Business Plan that guides the Utility's operations and investments. This updated plan reduced the growth of rates across all lines of business from 5.2% to 4.2 % annually, an approximately 20 percent reduction. A nine-member Customer Review Panel oversaw the development of the plan. The new plan sets a transparent and integrated direction for all SPU utilities and contains projected six-year rate paths for water, drainage, wastewater, and solid waste lines of business. SPU will continue with programmatic reprioritization, efficiency improvements, and refinement of the CIP and operating budgets outlined in the 2021-2026 plan to streamline utility services and deliver on regulatory requirements.

Drainage and Wastewater Highlights

The city adopted Drainage and Wastewater Rates in September 2021 that are lower than the endorsed rates from the 2021-2026 Strategic Business Plan. Drainage rates will grow by 6.0% in 2022, while wastewater rates will grow

Seattle Public Utilities

by 2.0%. SPU wastewater rates include King County treatment rates that are passed through to customers.

Efficiencies, Reductions, and Deferrals:

The 2022 Proposed Budget decreases the Drainage and Wastewater Operations and Maintenance (O&M) budget by \$5.4 million relative to the 2021 Adopted Budget. This reflects various technical changes related to taxes and fees, debt service, major service contracts, central costs, labor-related changes, and other miscellaneous changes.

The 2022-2027 Proposed CIP reduces the Drainage and Wastewater Fund budget by an overall \$44.8 million in 2022. This reflects updated project timelines and scope shifts as well as strategic priorities. Updates include:

- Deferring \$25.4 million in costs associated with construction of Natural Drainage System projects and the Taylor Creek Restoration Project by shifting construction from 2021 to 2022;
- Increasing by \$10.2 million funding for projects to reduce flooding, sewer backups, and landslides;
- Decreasing by \$4.5 million funding for the Ship Canal Water Quality Project due to an updated construction schedule;
- Decreasing Shared Cost Projects by \$22.6 million in 2022 with changes primarily coming from a decrease of \$10.8 million in projects related to Move Seattle and a \$11.3 million decrease from South Operations Center costs shifting from 2022 to 2023.

None of the efficiencies, reductions, or deferrals are expected to adversely affect services provided to customers or significantly change long-term goals of capital projects.

For more information on SPU's capital projects, please see the accompanying 2022-2027 Proposed CIP.

Water Highlights

The Water Line of Business delivers potable water directly to retail customers both inside the City and in adjacent areas. In 2020, retail customers provided about 75% of the Water Fund's operating revenues, with roughly equal revenues coming from residential and commercial users. SPU also delivers water to districts and agencies who then deliver water to their direct customers. This wholesaling of water represented about 20% of Water's operating revenues in 2020. The remaining revenue was generated by non-rate fees and other sources.

As a result of the COVID-19 pandemic, stay-at-home orders, and social distancing guidelines, consumption and revenue patterns have shifted dramatically since March 2020. Billed residential consumption and revenue have exceeded forecast by a considerable amount while billed consumption and revenue for General Service (commercial and multifamily residential) have been well below forecast. In total, retail consumption declined 4.7% and retail revenue declined 2.9%.

The Water Line of Business has moved away from a period of intensive capital investment in new projects and is transitioning into maintenance and improvements of the existing transmission and distribution systems. SPU will continue its efforts to complete reservoir retrofits and covering, water supply and asset preservation projects as detailed in the 2022-2027 Proposed CIP.

Due to the pandemic, SPU deferred introducing new water rates from 2020 to 2021 and did not increase rates in 2021. The City Council adopted Water Rates for 2022-2023 in September 2021. Retail water rates will increase an average of 2.6% in 2022.

Changes to the Water Fund: The 2022 Proposed Budget increases the Water O&M budget by \$10.8 million compared to the 2021 Adopted Budget. This reflects various technical changes to taxes and fees, debt service, central costs, labor-related changes, and other miscellaneous adjustments.

The 2022 Proposed Budget and 2022-2027 Proposed CIP reduces the Water Fund core and shared CIP budgets by \$11.2 million. This decrease is primarily due to a decrease of \$13.6 million in the Shared Cost Project BCL from the delay of the Center City Connector project.

Seattle Public Utilities

For more information on these changes, please see the accompanying 2022-2027 Proposed CIP.

Solid Waste Highlights

The Solid Waste Line of Business provides collection services to residents and businesses within Seattle. Financial support of this service is primarily generated through charges based on the amount of garbage collected from residential and commercial waste collection contracts. Solid Waste will pursue opportunities for efficiencies in service delivery as it anticipates decreased demand for services as a result of its conservation efforts to reduce solid waste and increase recycling activity.

Solid Waste Utility Rates for the 2020, 2021, and 2022 period were legislated in 2019. Rates submitted for 2020-2022 were informed by the 2018-2023 Strategic Business Plan. The approved rates included increases of 3.0% in 2020, 2.9% in 2021, and 2.9% in 2022, for an average annual increase of 3.0% over the three-year period. This is below the average Solid Waste Rate path assumed in the 2018-2023 Strategic Business plan that assumed average annual increases of 3.4% over the same three-year period. Revised solid waste rates for a 3-year period will be proposed in 2022 and will be informed by the 2021-2026 Strategic Business Plan.

As a result of the COVID-19 pandemic and stay-at-home policies, solid waste tonnage and revenue in the residential sector has climbed, while tonnage and revenue in the commercial sector has fallen.

Changes to the Solid Waste Fund: The 2022 Proposed Budget increases the Solid Waste O&M budget by \$6 million compared to the 2021 Adopted Budget. These changes represent updated projections for taxes, debt service, major service contract payments, and labor and inflation-related increases. The 2022-2027 Proposed CIP includes a \$17.8 million reduction due to costs from the South Park landfill redevelopment and South Transfer Station Phase 2 shifting from 2022 into 2024. This reflects the most current project timeline that may continue to shift as the design advances for these two projects.

For more information on these changes, please see the accompanying 2022-2027 Proposed CIP.

Shared Across All Enterprise Funds

SPU corporate functions including leadership and administration, project delivery, and customer service are shared across all three enterprise funds and allocated proportionally. These functions are included individually by fund and each line of business collects enough rate revenues to pay for these costs. Across all three Enterprise Funds, SPU will reduce the Shared CIP by \$27 million in 2022, representing shifting construction timelines, equipment purchases, and facility construction projects.

General Fund

In addition to the three utility enterprise funds, SPU receives General Fund dollars to support activities that go beyond direct utility service provision and support general government services. The General Fund portion of the SPU budget provides resources for:

- Public hygiene services for the unsheltered, which includes shower trailers, portable toilets, and handwashing stations, first deployed in response to the COVID-19 pandemic and continuing in 2022;
- The Clean City Program, which addresses public blight issues in Seattle including public litter, illegal dumping, graffiti on public property, and litter issues related to unsanctioned homeless encampments;
- The Trees for Seattle Program (previously called ReLeaf), which works to maintain and increase the urban tree canopy in Seattle; and,
- General government functions like maintaining survey markers throughout Seattle, standardizing construction specifications and planning documents, and maintaining engineering records for the City.

Programmatic increases: The 2022 Proposed Budget adds approximately \$1.6 million to the SPU General Fund budget with an additional \$637K in federal funds to support general government functions. This increase represents:

- Continuing the Mayor's Clean City Initiative through August 2022;

Seattle Public Utilities

- Changing the RV Remediation Pilot to a program. This program reduces trash and litter from illegally parked recreational vehicles (RVs) in the public right-of-way or on Seattle Parks and Recreation property;
- Increased emphasis on RV remediation beyond conversion to a program which includes increased outreach, purple bag service for RVs, and enhanced cleaning of RV encampments; and,
- Increased administrative support for SPU's Clean City programs.

Existing Homelessness Programs: The 2022 Proposed Budget includes funding for SPU to continue three other programs related to homelessness issues in Seattle. These programs include the Encampment Bag Program, the Litter Abatement Program, and the Needle Program. Under these programs, SPU provides trash removal from encampments, removes litter from the public right-of-way in neighborhoods affected by unsanctioned homeless encampments, removes used needles from the public right-of-way, and installs and services public needle disposal boxes throughout Seattle. Since first implementing the programs as pilots in 2017, service levels have expanded. The 2022 Proposed Budget maintains these expanded service levels.

Coronavirus Local Fiscal Recovery Fund

The Coronavirus Local Fiscal Recovery Fund (CLFR), comprising federal recovery and relief awards legislated by the U.S. Congress in the American Rescue Plan Act (ARPA), will support \$637,000 in spending for Clean Cities. These amounts will allow graffiti abatement, needle pickup, and community clean activities to continue at levels expanded in 2021.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$653,374

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Seattle Public Utilities

Baseline Adjustments for Personnel Costs

Expenditures \$757,441

This item adjusts appropriations to restore annual wage increases for non-represented Executives, Managers, and Strategic Advisors, which was foregone in 2021 due to financial constraints.

Reversing One-Time Appropriation for the Clean City Initiative

Expenditures \$(593,000)

This item removes a one-time appropriation increase from the 2021 Budget that provided \$593,000 in General Fund appropriation to support the Clean Cities Initiative.

Shared - GIS Billing

Expenditures \$458,000

This item increases appropriation authority by \$458,000 in Seattle Public Utilities (SPU) in the Leadership and Administration BSL for all three ratepayer funds. This item increases appropriation for Geographic Information System (GIS) work that was previously paid to Seattle Information Technology (SIT) through the general allocation of costs in the Central Cost Manual. This appropriation was added to SPU's 2021 budget in the Second Quarter Supplemental Budget Amendment. This item adds this appropriation to SPU's baseline budget for 2022.

Shared - Accounting Division Positions

Position Allocation 5.00

This item adds 5.0 FTE positions in Accounting Division to SPU's baseline budget. The positions were added to SPU in the 2021 second quarter supplemental budget amendment.

Converting Administrative Staff Analyst to Full-Time

Position Allocation 0.50

This item converts an existing Administrative Staff Analyst position from 0.5 FTE to 1.0 FTE. This Administrative Staff Analyst position will support the Financial and Risk Services Branch at Seattle Public Utilities. This position was added to SPU in the Second Quarter Supplemental Budget Amendment. This item adds this position authority to SPU's baseline budget for 2022.

Add 1.0 FTE Field Coordinator for RV remediation and expanded Encampment Bag program

Position Allocation 1.00

This item provides 1.0 FTE position authority a Field Coordinator in Seattle Public Utilities (SPU), in the General Fund, in the Utility Service and Operations BSL. This item adds to the 2022 Baseline Budget a pocket provided in the third quarter supplemental budget. This position will connect individuals residing in RVs/vehicles to resources, facilitate trash removal around vehicles in the ROW, and manage storage of personal belongings.

Proposed Operating

Clean Cities Initiative - CLFR Support for Cleanup Events

Expenditures \$184,272

This item would increase appropriation in the Coronavirus Local Fiscal Recovery Fund for the Utility Operations and Services BCL by \$184,272 to support continuation of the Mayor's expanded Clean City Initiative through August 2022. This funding supports clean-up events in conjunction with Seattle Department of Transportation and Seattle

Seattle Public Utilities

Parks and Recreation. This is a one-time increase in 2022.

Clean Cities Initiative - CLFR support for Graffiti, Needles, and Cleanup

Expenditures	\$452,944
--------------	-----------

This item increases appropriation by \$452,944 in the Coronavirus Local Fiscal Recovery Fund, in the Utility Operations and Services BCL, to support continuation of the Mayor's expanded Clean City Initiative through August 2022. This includes support for graffiti abatement, needle collection, and cleaning the public right-of-way. This is a one-time increase in 2022.

General Fund - Clean City Administrative Support

Expenditures	\$233,056
Position Allocation	1.00

This item increases General Fund appropriation authority by \$233,056 and adds position authority for 1.0 FTE Administrative Staff Analyst to address oversight, tracking, and reporting needs for the Clean City program. This position will provide support for growing program needs, as both permanent and temporary Clean City activities have increased by \$4 million since 2019.

General Fund - RV Remediation TES Conversion

Expenditures	-
Position Allocation	1.00

This item adds 1.0 FTE position authority for a Planning and Development Specialist II to provide support for the Clean City RV Remediation Program. This authority will allow conversion from temporary to permanent staffing as this program transitions out of the pilot phase. This item does not require additional appropriation authority.

DWW - RV Wastewater Pilot Expansion

Expenditures	\$100,000
--------------	-----------

This item increases appropriation in the Drainage and Wastewater Fund by \$100,000 for additional funding to provide wastewater services for Recreational Vehicles (RV) being used as shelter. This expands an existing pilot program, and allows SPU to implement a mobile wastewater pump out component. This is intended to reduce instances of sewage being released into catch basins, reducing cleanup costs, and maintaining health of critical waterways as required under the City's National Pollution Discharge Elimination System (NPDES) Type II permit.

Expanded RV Pump Out

Expenditures	\$75,000
--------------	----------

This item increases Drainage and Wastewater Fund appropriation by \$75,000 in the Utility Services and Operations BSL for increased wastewater pump-out services to RVs being used as a primary residence. This \$75,000 increase, on top of a separate \$100,000 increase, would allow SPU to move from a six-week servicing cycle to a four-week servicing cycle.

Expanded RV Remediation

Expenditures	\$556,063
--------------	-----------

This item increases General Fund appropriation by \$556,064 to provide ongoing funding in SPU's Utility Services and Operation BSL for expanded RV cleaning services and funding for a Field Coordinator (Strategic Advisor 1). The Field Coordinator pocket has been added in the third quarter supplemental and is also included as a Baseline Budget item

Seattle Public Utilities

in the Proposed.

The coordinator will help connect individuals residing in RVs/vehicles to resources, facilitate trash removal around vehicles in the Right of Way (ROW), and will manage storage of personal belongings, as required. This work is intended to maintain public access to the ROW. This work will expand Encampment Bag Program distribution and collection to RV sites at up to ten encampment sites per week. Seattle Department of Transportation (SDOT) is funding this expansion through a corresponding General Fund reduction.

Funding additional three hygiene stations

Expenditures	\$274,500
--------------	-----------

This item increases General Fund appropriation by \$274,500 to provide ongoing funding in SPU's Utility Services and Operation BSL for three additional public hygiene stations, with the intent to service RV encampments.

Drainage and Wastewater Apprenticeship Program

Expenditures	\$500,000
--------------	-----------

This item increases appropriation in the Drainage and Wastewater Fund (44010) by \$500,000 to pay for five additional apprentices in the Drainage and Wastewater (DWW) Line of Business. This would increase apprenticeships to twelve, from a baseline of seven. Positions are loaned by Seattle Department of Human Resources (SDHR).

Shared - Green New Deal-Aligned Business Development Strategy

Expenditures	\$600,000
--------------	-----------

This item would increase appropriation in the Water Fund, the Drainage and Wastewater Fund, and the Solid Waste Fund by \$600,000 in 2022 to pilot a community grant program focused on environmental stewardship and community innovation. This program is aligned with the Seattle Green New Deal. It will support both emerging and established business models for green workforce development that is specific to the water and waste sectors. Grants will support programs that promote water resiliency and expand "circular economy" efforts to reduce waste and promote recycling. These investments aim to reduce Seattle's collective water and waste costs and enhance stewardship and reuse of local resources.

Shared - Department of Neighborhoods MOA Expansion

Expenditures	\$312,000
--------------	-----------

This item increases appropriation in the Water Fund, the Drainage and Wastewater Fund, and the Solid Waste Fund appropriation by \$312,000 to expand SPU's existing partnership with the Department of Neighborhoods (DON) that supports community engagement and education. This funding will support a number of initiatives. These include panel recruitment and public engagement with the SPU Customer Review Panel, efforts to publicize and grow donation matching, and trainings for SPU employees.

Water - Customer Service Maintenance Laborer

Expenditures	-
Position Allocation	1.00

This item provides 1.0 FTE position authority for a Maintenance Laborer in the Meter Reading group. Meter reading demands have increased due to population growth and development, increasing annual meter readings by 50,000 since 2013. This position does not require any additional appropriation authority.

Seattle Public Utilities

DWW - CSO Planning

Expenditures	\$250,000
--------------	-----------

This item increases appropriation in the Drainage and Wastewater Fund to pay for temporary staffing and professional services. This funding will support area-based Combined Sewer Overflow (CSO) planning in coordination with King County, as well as the development of future long-term control plan updates in accordance with the consent decree between Seattle Public Utilities (SPU) and the United States Environmental Protection Agency (EPA).

DWW - Drainage Rehabilitation Program Manager

Expenditures	\$164,710
Position Allocation	1.00

This item increases appropriation in the Drainage and Wastewater Fund and provides 1.0 FTE position authority for a Strategic Advisor 2 position that will manage Seattle Public Utility's (SPU) drainage rehabilitation work. This is in accordance with the 2021-2026 Strategic Business Plan, which calls for increasing the pace of rehabilitation work on aging drainage infrastructure assets. This is intended to prevent flooding and improve water quality.

DWW - Green Stormwater Infrastructure Drainage Asset Management

Expenditures	-
Position Allocation	1.00

This item provides 1.0 FTE position authority for a Senior Civil Engineer in the Drainage and Wastewater line of business. This position will provide ongoing support of the Green Stormwater Infrastructure (GSI) Drainage Asset Management Program. This is in accordance with the 2021-2026 Strategic Business Plan, which commits to expanding and innovating GSI for stormwater management and flow control. This body of work requires dedicated asset management and operational guidance. This body of work is currently being supported by . temporary staffing. This position add does not require any additional appropriation.

DWW - King County Clean Water Plan Review

Expenditures	\$250,000
--------------	-----------

This item increases appropriation in the Drainage and Wastewater Fund by \$250,000 to implement an effort to evaluate and analyze the King County regional wastewater treatment system that serves the City of Seattle. This work is a continuation of the effort initiated under a City Council 2021 Statement of Legislative Intent (SLI).

DWW - Sewer Pipe Rehabilitation Program Pipe Assessor

Expenditures	\$138,493
Position Allocation	1.00

This item increases appropriation in the Drainage and Wastewater Fund by \$138,493 in order to add 1.0 FTE position authority for a Senior Civil Engineering Specialist. This position will support sewer rehabilitation work, providing pipe assessment services to determine rehabilitation needs and project scopes of work to support renewal of the aging sewer system. This represents an increased level of investments in sewer rehabilitation, in accordance with the 2021-2026 Strategic Business Plan, and is a direct result of a capital investment analysis completed in 2019.

DWW - Utility GIS for Side Sewer

Expenditures	\$199,413
Position Allocation	2.00

Seattle Public Utilities

This item increases appropriation in the Drainage and Wastewater Fund by \$199,413 and provides position authority for 2.0 FTE Associate Civil Engineering Specialist II positions that will support side sewer site plan resourcing and will be based in the Utility's Geographic Information System (GIS) team. The City's National Pollutant Discharge Elimination System (NPDES) Municipal Stormwater Permit requires electronic mapping of all authorized connections to the municipal storm sewer system. Demand for side sewer permits has increased due to increasing construction and development, creating a backlog of work. These needs are currently being resourced with temporary staffing.

Solid Waste - Heavy Truck Drivers

Expenditures	-
Position Allocation	2.00

This item provides position authority 2.0 FTE Heavy Truck Drivers in the Solid Waste Operations Division. These positions meet growing demand and increased loads driven by higher levels of compostable organics. SPU is currently relying on temporary staffing. Positions are being added to reduce heavy truck driver turnover and maintain consistent staffing levels. No additional appropriation authority is required for these positions.

Solid Waste - Lead Inspector

Expenditures	\$109,862
Position Allocation	1.00

This item increase appropriation in the Solid Waste Fund by \$109,862 and provides 1.0 FTE position authority for a Lead Solid Waste Field Representative. This position will support the significantly-increased workload of the Inspection and Compliance Team (ICT), which inspects solid waste collection at commercial and multifamily properties to ensure code compliance. The ICT also responds to Field Activity (FA) requests submitted when property owners report issues with equipment or services. The need for increased staffing for the ICT is driven by population growth and increasing commercial and multifamily properties.

Solid Waste - North Household Hazardous Waste Collection

Expenditures	\$210,868
Position Allocation	1.00

This item increases appropriation in the Solid Waste Fund by \$210,868 and provides 1.0 FTE position authority for an Environmental Field Specialist (EFS) for operations support at the North Household Hazardous Waste (NHHW) facility. This position is required to help maintain growing customer demand at the NHHW site. The King County Hazardous Waste Management Program will reimburse SPU for the cost of this position.

Solid Waste – Plan Review FTE

Expenditures	\$111,697
Position Allocation	1.00

This item increases appropriation in the Solid Waste Fund by \$111,697 and adds 1.0 FTE position authority for a Planning and Development Specialist II. This position will support solid waste plan reviews for new developments. Solid waste plan reviews have increased in volume due to growth and development, as well as increasing design complexity.

Solid Waste - Solid Waste PPM Support

Expenditures	\$125,000
--------------	-----------

This item increases appropriation in the Solid Waste Fund by \$125,000 to provide for a temporary Management Systems Analyst. This temporary staffing will support the Solid Waste Planning and Program Management group,

Seattle Public Utilities

and will provide direct support for mandatory reporting and for producing the annual Waste Prevention and Recycling Report submitted to the City Council.

Shared - Cybersecurity

Expenditures	\$358,038
Position Allocation	2.00

This item increases appropriation in the Water Fund, Drainage and Wastewater Fund, and Solid Waste Fund by \$358,038 and provides 2.0 FTE position authority. This provides for one Manager 3 and one Information Technology Professional-A. These positions will develop and implement cybersecurity policies necessary to safeguard Seattle Public Utility (SPU) technology assets.

Shared - GIS Maintenance

Expenditures	\$304,601
Position Allocation	2.00

This item will increase appropriation in the Water Fund and the Drainage and Wastewater Fund by \$304,602 and provides for 2.0 FTE positions for Geographic Information System (GIS) Maintenance. These positions will consist of 1.0 Information Technology Professional – B and 1.0 Information Technology Professional – C. These positions will provide internal GIS capacity for SPU. This represents a transfer of work from Seattle Information Technology (SIT), which is reducing budget for core GIS services to SPU. Seattle IT is supportive of these position adds.

Shared - Unifier MOA

Expenditures	\$183,794
--------------	-----------

This item increases appropriations in the Water Fund, Drainage and Wastewater Fund, and the Solid Waste Fund by \$183,794 to pay for a three-year, term-limited Information Technology Professional-B resource in Seattle Information Technology (SIT) to support the Oracle Primavera Unifier application. This application supports maintenance of contract documents used in construction management and payments. Additional staffing support will resolve an existing backlog of errors and provide dedicated support to SPU, in order to avoid late payments and associated financial risks.

Shared - Budget System Administration and Reporting

Expenditures	\$137,770
--------------	-----------

This item increases appropriations in the Water Fund, Drainage and Wastewater Fund, and Solid Waste Fund by \$137,770 to add a term-limited Senior Management Systems Analyst to the Seattle Public Utilities (SPU) Budget Group. This position would administer the Utility's budgeting tool and develop reports using the Utility's primary data tool.

Shared - Communications and Marketing Advisor

Expenditures	\$151,012
Position Allocation	1.00

This item increases appropriation in the Water Fund, Drainage and Wastewater Fund, and Solid Waste Fund by \$151,012 and adds 1.0 FTE position authority for a Communications and Marketing Advisor, Strategic Advisor 1. This position would serve as communications liaison to the Customer Response Division and as lead marketing strategist for Seattle Public Utilities (SPU). This position will lead communication strategies for customer service initiatives and the Utility Discount Program. It will also provide communications support to the SPU/City Light Contact Center and Utility Account Services.

Seattle Public Utilities

Shared - Contracts and Procurement Specialists

Expenditures	-
Position Allocation	2.00

This item provides position authority for 2.0 FTE in the Contracts and Procurement group. These positions will serve as Senior Project Funding and Agreement Coordinators, one supporting consultant contracts and one supporting purchases. This body of work is currently being supported by expiring temporary staffing and risks backlogs and delays. These positions do not require any additional appropriation authority.

Shared - Customer Service Meter Reading Position

Expenditures	-
Position Allocation	1.00

This item adds 1.0 FTE position authority for a Meter Reader in the Meter Reading group. Meter reading demands have increased due to population growth and development, increasing annual meter readings by 50,000 since 2013. This position does not require any additional appropriation authority.

Shared - File Digitization and Reduction

Expenditures	\$119,590
--------------	-----------

This item increases appropriation in the Water Fund, the Drainage and Wastewater Fund, and the Solid Waste Fund by \$119,590 to pay for a three-year, term-limited Civil Engineering Specialist II to support the Workspace Reimagined Initiative that seeks to reduce the Utility's footprint in City-owned buildings.

Shared - Leak Adjustment and Crossed Meter Work

Expenditures	-
Position Allocation	1.00

This item provides position authority for 1.0 FTE Accounting Technician III position in Customer Accounts and Billing Services. This position will address needs driven by the Leak Adjustment Director's Rule, which adjusts billing to account for repaired leaks and has led to a two-fold increase in workload for Customer Accounts. It will also address estimated billing adjustments, field activity completions, service order assignments, accounting approvals for escrow refunds, unclaimed property, and solid waste billing. These service levels are currently being supported by temporary staffing and overtime. This change does not require any additional appropriation authority.

Shared - Logistics Energy Audits

Expenditures	\$250,000
--------------	-----------

This item increases Water Fund, Drainage and Wastewater Fund, and Solid Waste Fund appropriation by \$250,000 to provide energy audits at SPU facilities and to plan for energy generation across all lines of business within the Utility in order to meet the City of Seattle's goal of 100 percent Clean energy by 2050.

Shared - Principal Economist

Expenditures	\$78,169
Position Allocation	0.50

This item increases appropriations in the Water Fund, Drainage and Wastewater Fund, and Solid Waste Fund by \$78,169 and adds 0.5 FTE in position authority to convert a current 0.5 FTE Principal Economist to a 1.0 FTE Principal

Seattle Public Utilities

Economist.

Shared - Support for Customer Accounts and Billing Services

Expenditures	-
Position Allocation	2.00

This item provides position authority for 2.0 FTE Account Technician II-BU positions in Customer Account and Billing Services. These positions will be responsible for daily billing tasks including Meter Data Management exceptions, Customer Care Billing, errors in bill segments, water billing adjustments, escrow funds, high strength billing, and returned payments. The positions would also help support programming such as unclaimed property, the Utility Discount Program, and the Emergency Assistance Program. Increases in this body of work are driven by population growth and development. These positions do not require any change in appropriation.

Shared - Utility Portal Support

Expenditures	\$162,550
Position Allocation	1.00

This item increases appropriation in the Water Fund, the Drainage and Wastewater Fund, and the Solid Waste Fund by \$162,550 and provides 1.0 FTE position authority for an Information Technology Professional-B. This position will provide administration and functional support to the Utility Customer Self Service Portal (UCSS Portal). This position will partner with business stakeholders to optimize and enhance application functions, install patches, report deficiencies, resolve issues, and monitor the system. SPU cannot adequately maintain the technology required without this requested staffing support, risking a loss of functionality for customers and risking system interruptions.

Shared - Utility Website Support

Expenditures	\$107,691
Position Allocation	1.00

This item increases appropriation in the Water Fund, Drainage and Wastewater Fund, and Solid Waste Fund by \$107,691 and adds 1.0 FTE position authority for a Senior Public Relations Specialist to serve as a web specialist in communications and outreach. This position will provide internal support for SPU's Inweb, as well as support for SPU's external-facing website. This position will provide coverage to manage web content, accessibility requirements, and public announcements.

Proposed Capital

Water Capital Changes

Expenditures	\$(11,249,910)
--------------	----------------

This item decreases the Water Fund Core and Shared CIP by \$11,249,910 in 2022. The primary focus is on asset management for distribution and transmission pipes, water system impacts associated with the various Seattle and regional transportation projects, and upgrades to water system facilities such as operation buildings.

Drainage & Wastewater Capital Changes

Expenditures	\$(44,809,782)
--------------	----------------

This item decreases the Drainage and Wastewater Fund (DWF) by \$44.8 million in 2022 across all BSLs. These changes reflect updated project timelines, scope shifts and reflects the strategic priorities of Seattle Public Utilities.

Solid Waste Capital Changes

Seattle Public Utilities

Expenditures \$(17,823,083)

This item decreases the Solid Waste Fund by \$17.8 million in 2022 across all Capital Budget Summary Levels (BSLs). This shifts various project costs between years for a total addition of \$4.8 million over the six-year CIP from 2022-2027.

Technology Capital Changes

Expenditures -

This item maintains the Technology Capital Improvement Program (CIP) with no increase in 2022. This will not impact the Water, Drainage and Wastewater, and Solid Waste funds in 2022. The total increase for the 6-year period is \$10,050,000.

Proposed Technical

Revenues for Water, Drainage and Wastewater, and Solid Waste Funds

Revenues \$112,109,319

This item provides projected 2022 revenue for the Water, Drainage and Wastewater, and Solid Waste Funds. Total Water Fund revenue is anticipated to be \$4.86 million lower than in 2021; total Drainage and Wastewater Fund revenue is anticipated to be \$97 million higher; and total Solid Waste Fund revenue is anticipated to be \$10.2 million higher.

Reconciling the 2022 Baseline with the Adopted CCM

Expenditures -

This item makes technical, net-zero changes between account groups and fund in order to align the 2022 Baseline with the Adopted Central Cost Manual. This change request will affect multiple funds and multiple Budget Service Levels.

Transfer Operational Technology from ITD

Expenditures \$1,017,866

Position Allocation 3.00

This item transfers technology deemed operational to Seattle Public Utilities (SPU). This includes the transfer of 3.0 FTE position authority and non-labor budget for the Maximo work and asset management system.

The IT Maximo team is dedicated to managing Maximo, a key work and asset management system used solely by SPU. Due to its nature and impact on SPU's business operations, Seattle IT and SPU have deemed this operational technology and are proposing to transfer the ownership and operation of the system to SPU.

Both Seattle IT and SPU support this transfer of operational technology. Seattle IT has a corresponding item in the proposed budget.

Transfer GIS Operational Technology Staff from ITD

Expenditures \$169,316

Position Allocation 1.00

This item transfers 1.0 FTE position authority from Seattle IT to SPU. This pocket is currently held by IT, but the position is entirely dedicated to SPU supporting business processes and GIS-related functions. The incumbent reports to SPU's Operations and Control Center, and: works with staff to ensure asset data in GIS is accurate by

Seattle Public Utilities

ensuring utility system changes are recorded; supports the Utility Locate program (“Call Before You Dig”) for the Water and the Drainage and Wastewater lines of business; performs GIS analysis projects as requested; and trains staff in Field Operations to use GIS tools.

Both Seattle IT and Seattle Public Utilities are in favor of this position transfer. In this role, the incumbent works closely with Central GIS Program staff in Seattle IT, but more importantly supports core functions in Seattle Public Utilities. This transfer will not inhibit the incumbent’s ability to coordinate work with Seattle IT, but will enhance Seattle Public Utilities ability to direct the work to their highest priorities because they will directly manage the tasks performed. Seattle IT has a corresponding item in the proposed budget.

Shared - Technical Adjustments

Expenditures	\$5,860,441
--------------	-------------

This item adjusts the appropriations for the Water Fund, Drainage and Wastewater Fund, Solid Waste Fund, and General Fund in various operating and maintenance Budget Summary Levels for a net increase of approximately \$5.9 million in 2022. The main drivers of change are: (A) labor-related increases and inflation, (B) revised projections for taxes, debt service, major service contract payments, (C) a technical increase for a cost that was anticipated on the CIP but that will be paid out of the O&M budget, and (D) SPU identified reductions to the baseline.

The item includes appropriation for estimated annual wage increases. Annual wage increase assumptions are included in both the proposed budget and in rate proposals. SPU will adhere to negotiated and approved rates for actual annual wage increases.

The adjustments included in this request and the SPU budget overall are consistent with the adopted 2021-2026 Strategic Business Plan as well as with the Water Fund and Drainage and Wastewater Fund rate proposals approved in 2021.

Fund Balancing

Revenues	\$(196,985,770)
----------	-----------------

This is a technical item to record fund balancing entries for the 43000 Water Fund, 44010 Drainage and Wastewater Fund, and 45010 Solid Waste Fund, which are managed by Seattle Public Utilities.

Seattle Public Utilities

Expenditure Overview

	2020 Actuals	2021 Adopted	2022 Proposed

Appropriations by Budget Summary Level and Program

SPU - BC-SU-C110B - Distribution

The purpose of the Distribution Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade the City's water lines, pump stations, and other facilities.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Distribution	25,368,862	31,095,001	35,688,387
Total	25,368,862	31,095,001	35,688,387
Full-time Equivalents Total*	79.00	79.00	79.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C120B - Transmission

The purpose of the Transmission Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade the City's large transmission pipelines that bring untreated water to the treatment facilities, and convey water from the treatment facilities to Seattle and its suburban wholesale customers' distribution systems.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Transmission	5,382,036	20,129,412	16,514,021
Total	5,382,036	20,129,412	16,514,021
Full-time Equivalents Total*	5.00	5.00	5.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C130B - Watershed Stewardship

The purpose of the Watershed Stewardship Budget Summary Level, a Capital Improvement Program funded by water revenues, is to implement projects associated with the natural land, forestry, and fishery resources within the Tolt, Cedar, and Lake Youngs watersheds.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Watershed Stewardship	1,753,381	298,356	2,170,333
Total	1,753,381	298,356	2,170,333
Full-time Equivalents Total*	8.00	8.00	8.00

Seattle Public Utilities

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C140B - Water Quality & Treatment

The purpose of the Water Quality & Treatment Budget Summary Level, a Capital Improvement Program funded by water revenues, is to design, construct, and repair water treatment facilities and remaining open-water reservoirs.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Water Quality & Treatment	886,253	13,214,127	3,604,945
Total	886,253	13,214,127	3,604,945
Full-time Equivalents Total*	14.00	14.00	14.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C150B - Water Resources

The purpose of the Water Resources Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade water transmission pipelines and promote residential and commercial water conservation.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Water Resources	2,221,777	12,031,263	7,052,669
Total	2,221,777	12,031,263	7,052,669
Full-time Equivalents Total*	12.00	12.00	12.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C160B - Habitat Conservation Program

The purpose of the Habitat Conservation Budget Summary Level, a Capital Improvement Program funded by water revenues, is to manage projects directly related to the Cedar River Watershed Habitat Conservation Plan.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Habitat Conservation Program	3,989,560	1,474,395	2,603,765
Total	3,989,560	1,474,395	2,603,765
Full-time Equivalents Total*	15.00	15.00	15.00

Seattle Public Utilities

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C230B - New Facilities

The purpose of the New Facilities Budget Summary Level, a Capital Improvement Program funded by solid waste revenues, is to design and construct new facilities to enhance solid waste operations.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
New Facilities	1,403,445	19,250,000	6,155,694
Total	1,403,445	19,250,000	6,155,694
Full-time Equivalents Total*	9.00	9.00	9.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C240B - Rehabilitation & Heavy Equipment

The purpose of the Rehabilitation and Heavy Equipment Budget Summary Level, a Capital Improvement Program funded by solid waste revenues, is to implement projects to repair and rehabilitate the City's solid waste transfer stations and improve management of the City's closed landfills and household hazardous waste sites.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Rehabilitation & Heavy Eqpt	702,835	1,220,000	2,450,000
Total	702,835	1,220,000	2,450,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C333B - Protection of Beneficial Uses

The purpose of the Protection of Beneficial Uses Budget Summary Level, a Capital Improvement Program funded by drainage revenues, is to make improvements to the City's drainage system to reduce the harmful effects of storm water runoff on creeks and receiving waters by improving water quality and protecting or enhancing habitat.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Protection of Beneficial Uses	7,652,565	21,139,104	20,910,556

Seattle Public Utilities

Total	7,652,565	21,139,104	20,910,556
Full-time Equivalents Total*	14.00	14.00	14.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C350B - Sediments

The purpose of the Sediments Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to restore and rehabilitate natural resources in or along Seattle's waterways.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Sediments	3,176,623	3,867,219	4,560,404
Total	3,176,623	3,867,219	4,560,404
Full-time Equivalents Total*	7.00	7.00	7.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C360B - Combined Sewer Overflows

The purpose of the Combined Sewer Overflow (CSO) Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to plan and construct large infrastructure systems, smaller retrofits, and green infrastructure for CSO Summary.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Combined Sewer Overflows	88,650,004	134,109,402	98,151,462
Total	88,650,004	134,109,402	98,151,462
Full-time Equivalents Total*	30.00	30.00	30.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C370B - Rehabilitation

The purpose of the Rehabilitation Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to rehabilitate or replace existing drainage and wastewater assets in kind, to maintain the current functionality of the system.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
-----------------------------	-------------------------	-------------------------	--------------------------

Seattle Public Utilities

Rehabilitation	28,438,599	38,267,638	40,685,437
Total	28,438,599	38,267,638	40,685,437
Full-time Equivalents Total*	30.00	30.00	30.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C380B - Flooding, Sewer Backup & Landslide

The purpose of the Flooding, Sewer Back-up, and Landslides Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to plan, design and construct systems aimed at preventing or alleviating flooding and sewer backups in the City of Seattle, protecting public health, safety, and property. This program also protects SPU drainage and wastewater infrastructure from landslides, and makes drainage improvements where surface water generated from City rights-of-way contributes to landslides.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Flooding, Sewer Backup & Lndsl	13,944,483	42,898,658	29,967,149
Total	13,944,483	42,898,658	29,967,149
Full-time Equivalents Total*	25.00	25.00	25.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C410B - Shared Cost Projects

The purpose of the Shared Cost Projects Budget Summary Level, which is a Capital Improvement Program, is to implement the Water, Drainage and Wastewater, and Solid Waste Utility's share of capital improvement projects that receive funding from multiple SPU funds.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Shared Cost Projects	41,521,497	69,272,585	42,182,815
Total	41,521,497	69,272,585	42,182,815
Full-time Equivalents Total*	95.00	95.00	95.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C510B - Technology

The purpose of the Technology Budget Summary Level, a Capital Improvement Program, is to make use of technology to increase the Water, Drainage and Wastewater, and Solid Waste Utility's

Seattle Public Utilities

efficiency and productivity.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Technology	13,056,071	12,200,099	10,050,000
Total	13,056,071	12,200,099	10,050,000
Full-time Equivalents Total*	41.00	41.00	41.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BO-SU-N000B - General Expense

The purpose of the General Expense Budget Summary Level is to provide for the Utility's general expenses such as debt service, taxes and major contracts.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Budget Reserves	-	8,914,284	13,019,732
Capital Purchases	122,115	238,859	313,636
Debt Service	165,195,185	170,057,449	166,747,774
Major Contracts	286,693,118	308,299,579	302,774,050
Taxes and Fees	136,939,573	161,090,218	151,611,849
Total	588,949,991	648,600,389	634,467,041
Full-time Equivalents Total*	-	-	1.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in General Expense Budget Summary Level:

Budget Reserves

The purpose of the Budget Reserves Program is to appropriate funds to maintain a necessary working reserve for unanticipated expenditures that may develop during the fiscal year. These are important due to the utility need to plan revenue on a six-year horizon.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Budget Reserves	-	8,914,284	13,019,732

Capital Purchases

The purpose of the Capital Purchases Program is to provide appropriation for the utility to purchase equipment that cannot be purchased using bond proceeds.

Seattle Public Utilities

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Capital Purchases	122,115	238,859	313,636

Debt Service

The purpose of the Debt Service Program is to provide appropriation for new bond issuance costs as well as principal and interest payments on previously issued bonds and loans.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Debt Service	165,195,185	170,057,449	166,747,774

Major Contracts

The purpose of the Major Contracts Program is to provide appropriation for large service contracts that SPU has with solid waste contractors and for water and wastewater treatment costs.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Major Contracts	286,693,118	308,299,579	302,774,050
Full Time Equivalents Total	-	-	1.00

Taxes and Fees

The purpose of the Taxes Program is to provide appropriation for payment of city and state taxes.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Taxes and Fees	136,939,573	161,090,218	151,611,849

SPU - BO-SU-N100B - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide overall management and policy direction for Seattle Public Utilities and to provide core management and administrative services like finance, human resources, and facility management.

Program Expenditures	2020	2021	2022
	Actuals	Adopted	Proposed
Citywide Indirect Costs	60,733,914	62,592,009	66,778,969
Departmental Indirect Costs	69,318,385	83,286,162	88,426,694
Divisional Indirect Costs	1,012,393	1,253,337	1,279,806
Indirect Cost Recovery Offset	(22,076,537)	(20,302,238)	(22,293,753)
Paid Time Off Indirect Costs	(1,841,519)	4,443,206	4,353,109
Pooled Benefits Indirect Costs	2,615,087	8,025,203	8,808,284
Total	109,761,724	139,297,679	147,353,108
Full-time Equivalents Total*	116.60	118.60	139.60

Seattle Public Utilities

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle Information Technology Department.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Citywide Indirect Costs	60,733,914	62,592,009	66,778,969

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This may include personnel costs related to department leadership and administration or other administrative costs such as external rent and operating supplies or services.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Departmental Indirect Costs	69,318,385	83,286,162	88,426,694
Full Time Equivalents Total	116.60	118.60	139.60

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs program is to fund administrative costs generated by sub-departmental units.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Divisional Indirect Costs	1,012,393	1,253,337	1,279,806

Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery Offset program is to reflect the adjustment to the Leadership and Administration BSL occurring as a result of the Utility's general and administrative overhead allocation.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Indirect Cost Recovery Offset	(22,076,537)	(20,302,238)	(22,293,753)

Paid Time Off Indirect Costs

Seattle Public Utilities

The purpose of the Paid Time Off program is to fund salary and benefit costs associated with City-provided leave benefits such as holiday pay, sick time, vacation time, executive leave or other leave benefits, including termination payouts for vacation and sick leave.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Paid Time Off Indirect Costs	(1,841,519)	4,443,206	4,353,109

Pooled Benefits Indirect Costs

The purpose of the Pooled Benefits program is to fund department costs associated with health and dental insurance, workers compensation, and unemployment insurance contributions.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Pooled Benefits Indirect Costs	2,615,087	8,025,203	8,808,284

SPU - BO-SU-N200B - Utility Service and Operations

The purpose of the Utility Service and Operations Budget Summary Level is to fund the direct delivery of essential Customer Service programs and the operating expenses for Pre-Capital Planning & Development, Project Delivery, Drainage and Wastewater, Solid Waste, Water and General Fund programs.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Customer Service	21,484,811	24,491,609	24,730,490
Drainage System	7,404,905	10,169,240	10,406,370
DWW Facilities & Equip	1,453,767	1,277,248	1,292,747
DWW System Operations	25,534,479	27,281,525	29,123,478
Emergency Response	17,433,500	2,260,259	2,360,772
Engineering	9,107,814	18,127,091	18,191,338
Pre-Capital Planning	3,462,550	4,392,736	4,243,265
Solid Waste Facilities & Equip	4,718,953	5,983,638	5,929,372
Solid Waste Operations	27,506,585	33,571,626	37,195,372
Wastewater System	11,388,263	12,825,670	13,337,154
Water Distribution System	10,150,346	12,860,675	12,954,197
Water Facilities & Equipment	2,379,938	2,961,111	2,869,012
Water Supply & Transmsn Systm	5,250,727	5,285,926	5,418,362
Water System Operations	25,487,188	29,590,414	44,129,291
Total	172,763,826	191,078,767	212,181,219
Full-time Equivalents Total*	932.70	937.70	952.70

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Public Utilities

The following information summarizes the programs in Utility Service and Operations Budget
Summary Level:

Customer Service

The purpose of the Customer Service Program is to provide appropriation to manage and provide customer service support for the direct delivery of programs and services.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Customer Service	21,484,811	24,491,609	24,730,490
Full Time Equivalents Total	249.00	249.00	254.00

Drainage System

The purpose of the Drainage System Program is to provide appropriation for maintaining the drainage system, drainage conveyance, stormwater detention and green stormwater infrastructure.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Drainage System	7,404,905	10,169,240	10,406,370
Full Time Equivalents Total	-	-	2.00

DWW Facilities & Equip

The purpose of the DWW Facilities and Equipment Program is to provide appropriation for drainage and wastewater operating and decant facilities

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
DWW Facilities & Equip	1,453,767	1,277,248	1,292,747

DWW System Operations

The purpose of the DWW System Operations Program is to provide appropriation for drainage and wastewater overall system planning, system modeling and analysis, source control, compliance and outreach and education.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
DWW System Operations	25,534,479	27,281,525	29,123,478
Full Time Equivalents Total	-	-	1.00

Emergency Response

The Emergency Response Program provides appropriation to procure necessary equipment and provide maintenance and support services in case of emergencies.

Expenditures/FTE	2020	2021	2022
------------------	------	------	------

Seattle Public Utilities

	Actuals	Adopted	Proposed
Emergency Response	17,433,500	2,260,259	2,360,772

Engineering

The purpose of the Engineering Program is to provide engineering design and support services, construction inspection, and project management services to capital improvement projects and to the managers of facilities.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Engineering	9,107,814	18,127,091	18,191,338
Full Time Equivalents Total	107.00	107.00	107.00

Pre-Capital Planning

The purpose of the Pre-Capital Planning Program is to support business case development, project plans, and options analysis. This program will capture all costs associated with a project that need to be expensed during its life cycle, including any post-construction monitoring and landscape maintenance.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Pre-Capital Planning	3,462,550	4,392,736	4,243,265

Solid Waste Facilities & Equip

The purpose of the Solid Waste Facilities & Equipment Program provides appropriation to maintain and support the solid waste facilities and landfills.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Solid Waste Facilities & Equip	4,718,953	5,983,638	5,929,372
Full Time Equivalents Total	-	-	1.00

Solid Waste Operations

The purpose of the Solid Waste Operations Program provides appropriation for overall solid waste system planning, operations of the transfer stations, solid waste outreach and management of the Local Hazardous Waste Mitigation Program (LHWMP).

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Solid Waste Operations	27,506,585	33,571,626	37,195,372
Full Time Equivalents Total	91.56	91.56	97.56

Wastewater System

The Wastewater System Program provides appropriation to maintain wastewater conveyance,

Seattle Public Utilities

pump stations and storage.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Wastewater System	11,388,263	12,825,670	13,337,154
Full Time Equivalents Total	233.05	233.05	233.05

Water Distribution System

The Water Distribution System Program provides appropriation to maintain water distribution conveyance, pump stations and reservoirs.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Water Distribution System	10,150,346	12,860,675	12,954,197
Full Time Equivalents Total	120.09	120.09	120.09

Water Facilities & Equipment

The Water Facilities & Equipment Program provides appropriation to maintain water storage facilities.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Water Facilities & Equipment	2,379,938	2,961,111	2,869,012

Water Supply & Transmssn Systm

The Water Supply and Transmission System Program provides appropriation to operate and maintain the water pipelines, reservoirs and water sheds.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Water Supply & Transmssn Systm	5,250,727	5,285,926	5,418,362

Water System Operations

The Water System Operations Program provides appropriation to plan and monitor the overall water system and water quality lab, and includes the work for the Cedar River Habitat conservation.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Water System Operations	25,487,188	29,590,414	44,129,291
Full Time Equivalents Total	132.00	137.00	137.00

Seattle Department of Transportation

Sam Zimbabwe, Director

(206) 684-5000

<http://www.seattle.gov/transportation>

Department Overview

The Seattle Department of Transportation (SDOT) develops, maintains, and operates a transportation system that promotes the safe and efficient mobility of people and goods, and enhances the quality of life, environment, and economy of Seattle and the surrounding region. The City's transportation infrastructure is estimated to be worth approximately \$28 billion, including these major system assets:

- 1,548 lane-miles of arterial streets;
- 2,396 lane-miles of non-arterial streets;
- 2,293 miles of sidewalks;
- 124 bridges;
- 499 stairways;
- 581 retaining walls;
- 22 miles of seawalls;
- 1,118 signalized intersections;
- 47 miles of multi-purpose trails;
- 2,293 miles of improved sidewalks and median pathways;
- 142 miles of on-street bicycle facilities;
- 38,000 street trees;
- 1,512 pay stations;
- 31,823 curb ramps;
- more than 194,000 signs

The SDOT budget covers three major lines of business:

The **Transportation Capital Improvement Program** includes the major maintenance and replacement of SDOT's capital assets; the program also develops and constructs additions to the City's transportation infrastructure. The program includes the Major Maintenance/Replacement, Major Projects, and Mobility-Capital Budget Summary Levels (BSLs).

Operations and Maintenance covers day-to-day operations and routine maintenance that keep people and goods moving throughout the city, which includes operating the city's movable bridges and traffic signals, cleaning streets, repairing potholes, issuing permits, maintaining trees, and transportation planning and engineering. The four BSLs in this area are: Bridges and Structures; Maintenance Operations; Mobility-Operations; and Right-of-Way Management.

Business Management and Support provides overall policy direction and business support for SDOT and includes the Leadership and Administration and General Expense BSLs.

Seattle Department of Transportation

Budget Snapshot

	2020 Actuals	2021 Adopted	2022 Proposed
Department Support			
General Fund Support	32,500,540	54,595,885	67,083,508

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The City of Seattle, like the rest of the country, is still recovering from the impacts of the COVID-19 pandemic. In addition to adverse public health impacts, the pandemic has had a devastating impact on national, state, and local economies resulting in significant declines in revenues and increases in emergency spending. While 2020 saw significant decreases in resources available to local governments, 2021 saw more optimistic rebounds in overall revenues including an infusion of significant amounts of federal relief funds. However, many transportation-specific funding sources are lagging.

Significant revenue shortfalls from 2020 due to the economic downturn, as well as cost pressures from the West Seattle Bridge closure and resulting traffic mitigation, increasing construction costs, and emergency storm and transportation event response activities have consumed much of the Seattle Department of Transportation's (SDOT's) financial reserves. Consequently, SDOT's budget is relying on revenues collected in the year of expenditure, as well as numerous sources of one-time grants and other partner funding, and a continuation of 2021 budget reductions through 2022. For this reason, the 2022 Proposed Budget for the Seattle Department of Transportation reflects largely a cost-to-continue budget that maintains core services with limited expansion of projects and programs.

General principles underlying our approach to the 2022 Proposed Budget are:

- Maintaining essential services, safety requirements and basic maintenance and restoration of transportation infrastructure (including the West Seattle High Bridge)
- Minimizing direct impacts to underserved communities and engaging in an equity-centered recovery process
- Improving financial transparency and funding flexibility through aligning the Capital Improvement Program with anticipated annual spending; and
- Maintaining continuity of necessary staff resources to support core services, delivery, and return-to-work ramp-up activities.

Seattle Department of Transportation

The 2022 Proposed Budget continues making investments that enhance safe environments for walking, biking, riding transit, driving, and moving freight based on geographic equity and community need. All budget investments are intended to further integrate SDOT's master plans and continue to implement a comprehensive Move Seattle strategy that maintains and expands the City's transportation infrastructure. All investments are prioritized based on safety, need, regulatory requirements and policies established by the City.

Some highlights of the 2022 Proposed Budget are:

Transportation Network Company Tax Investments: Revenue collected from the new taxes on Transportation Network Companies (TNCs) established in 2020 are split between housing and transportation purposes, after implementation costs and the Dispute Resolution Center has been fully funded. In the 2022 Proposed Budget, SDOT is anticipating \$3,200,000 to support two primary activities:

- **Development updates to the Center City Connector streetcar project (\$2.4 million):** This work will support updating cost estimation and impacts, after the project was paused in 2018. The work is critical in allowing SDOT to determine next steps on the project and integrate planning with Sound Transit 3 project work.
- **Recovering with Sustainable and Equitable Transportation (ReSET) program (\$550,000):** This new program will invest TNC tax dollars into pedestrian, transit access, and livability projects in communities that were disproportionately impacted by COVID-19, both in health impacts and economic conditions. The program will reach communities directly through focus groups and direct engagement activities.

Capital Budget Re-appropriation: As part of the 2022 Proposed Budget, SDOT will be aligning their Capital Improvement Program budget with the department's Capital Spending Plan, a more frequently updated cost planning exercise than the annual budget. Rather than accumulating unspent capital appropriations year-over-year, SDOT will seek to amend the budget so appropriations better reflect projected current year capital spending. This process allows SDOT to communicate capital budgets through the annual budget process with more transparency and consistency to Council and the general public, and is a best practice already used in the Seattle Public Utilities and Seattle City Light capital budgets.

Clean-Up in the Right-of-Way (ROW): Trash, litter and debris across the city has worsened during the COVID-19 pandemic. To address this, the proposed budget includes \$10.03 million in funding for critical operations that ensure our public spaces are clean, safe, and accessible. This investment package includes:

1. **Continue the Clean Cities Initiative:** Through August 2022, funding a surge-level response to address immediate recovery needs through strategies such as the purple bag program, community litter abatement, graffiti rangers and needle disposal. SDOT will continue to participate in the City's Clean Teams response, along with the Parks Department and Seattle Public Utilities, to provide a coordinated, rapid response to address hotspots throughout the city.
2. **Support City efforts to maintain clean and accessible ROW and Parks:** Resourcing the expanded demand on Seattle Parks and Recreation (SPR) to address impacts of unmanaged encampments, such as litter removal, site restoration, storage of personal belongings, and data collection and reporting. Included in this work is continuation of SDOT's base level funding for SPR cleaning in the ROW.
3. **Enhance RV remediation:** SDOT will be resourcing Seattle Public Utilities to work collaboratively with people living in RVs to maintain clean and accessible areas in the ROW around RVs. As part of this effort, SPU will hire a new Field Coordinator who will support connecting people living in RVs to resources as part of their role.

Workforce Continuity: Over the last 3 years, SDOT has relied on temporary workers to support new initiatives and pilot programs, ramp up delivery on projects with discrete timelines (i.e. the Levy to Move Seattle), and fill workforce gaps left by major economic changes during COVID. Because much of this work is critical in sustaining transportation programs and infrastructure into the future, SDOT is proposing to add 37.5 FTE in the 2022 Proposed Budget to help transition its temporary workforce into permanent support for ongoing programs, as well as establish

Seattle Department of Transportation

critical new positions for transportation priorities. This does not include 120 additional positions due to the transfer of Parking Enforcement Officers to SDOT (see section below for more detail) and adding 3 administrative positions to support this work.

Seattle Transportation Benefit District: As part of the 2021 budget process, the City Council passed legislation that increased the City's vehicle license fees (also known as "car tab fees") from \$20 per vehicle to \$40 per vehicle. The City Council also directed SDOT to undertake a public engagement process to determine how to allocate the revenue from the car tab increase. SDOT conducted public outreach in early 2021 and proposed a spending plan based on this feedback, and Council adopted this plan for the first 6 months. The 2022 Proposed Budget programs these revenues consistent with that stakeholder engagement process. In addition, the proposed budget continues to invest in transit service and capital investments that are funded by STBD's sales tax, consistent with Ordinance 126115.

West Seattle Bridge and other Bridge Investments: In March of 2020, the West Seattle High Bridge was closed to traffic due to cracking of the main span. City Council requested an audit on all City bridges, which was published by the Office of City Auditor in September 2020. The report found that bridges across the city required more investment in maintenance and repairs. SDOT is proposing to increase bridge investments by \$5.3 million to replace components of movable (basculage) bridges as well as the 4th Ave South bridge.

Parking Enforcement: This change implements the transfer of the Parking Enforcement unit from the Seattle Police Department (SPD) to SDOT in the 2022 Proposed Budget, totaling \$15,013,173 and 120.00 FTE. Ordinance 126420 authorized the transfer of Parking Enforcement Officers from the Police Department to SDOT effective September 2021. This unit was transferred because its core functions - the management of street parking and the right-of-way, and the enforcement thereof - is more appropriately situated in SDOT than in SPD. The Mayor's Proposed Budget provides annual funding for this unit.

Federal Funding: The Proposed Budget allocates Coronavirus Local Fiscal Recovery (CLFR) funds to SDOT as part of Seattle Rescue Plan 3 (SRP3), as well as Clean City funding noted in the "Clean-up in the Right-of-Way section above". See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3, and the SDOT budget changes section for more detail on this addition.

Transportation Revenues

The 2022 Proposed Budget relies on several funding sources to support transportation needs—sources include: federal, state, and local grants; bonds; Move Seattle property tax levy; Commercial Parking Tax; vehicle license fees; fees for service; Real Estate Excise Tax; street vacation fees; gas tax; multimodal funds; property sale proceeds; school zone and red light camera fines; sales tax; and an annual allocation from the City's General Fund.

In 2022, projected transportation-specific revenues are expected to decrease compared to 2021 Adopted Revenues. Total departmental revenues decreased by \$46.5 million or 10%, due almost entirely to the large one-time federal grant allocations that occurred in 2021 for specific projects. Offsetting this lower grant revenue in 2022 are increases in Commercial Parking Tax and revenues related to the Transportation Benefit District (both sales tax and vehicle license fee components), as the new measure comes into effect. These changes largely reflect optimism around economic recovery through COVID-19, but financial pressure continues for SDOT as costs to deliver transportation services increase faster than revenues are projected to increase.

The 2022 Proposed Budget includes legislation to adjust SDOT's street use permit fees. These changes advance the goal of full cost recovery for permitting while continuing existing free permit programs for businesses and homeowners. The fee permit bill updates the hourly service rates and permit fees to improve cost recovery, adds new permit fees for "Street Improvement Lite" and Council term permits, and changes the Street Vacation filing fee to a permit fee to standardize the fee collection process in SDOT's permit system. The budget legislation will also transition Public Space Management permits from charging separately for review and issuance fees to instead incorporate the cost of review into the permit fee. This means that while public space management permit fees are increasing, overall costs to most applicants will go down and will also be more predictable and transparent.

Seattle Department of Transportation

For 2022, projected commercial parking tax revenue has been adjusted upward to \$40.2 million, an increase of \$11 million, reflecting actual and forecasted returns in this revenue stream as people return to downtown. These revenues are leveraged to back bond financing of both seawall and waterfront projects and general transportation needs. Investments of Real Estate Excise Tax (REET) supporting SDOT's Capital Improvement Program (CIP) will be focused on funding the West Seattle Bridge through debt service payments and other bridge investments, which will limit future investment in other City projects long-term. Gasoline taxes are projected to remain steady in 2022 at \$14.9 million compared to \$14.2 million, and School Zone and red-light camera revenues are projected at \$11.6 million for 2022, a slight decrease over 2021 Adopted projections of \$13.7 million due to uncertainty about camera installations and driver behavior. Finally, as part of the 2015 Move Seattle Levy, SDOT is required to receive a minimum amount of General Fund resources, which is calculated at \$46.4 million in 2022, adjusted for inflation. The 2022 Proposed Budget invests \$50 million of General Fund towards transportation purposes (not including TNC tax and Parking Enforcement Officer investments, which are General Fund activities not counted toward the minimum requirement).

Description of Incremental Budget Changes

Waterfront Funding Transfer

Expenditures -

Seattle Department of Transportation

This change request shifts funding between the two Central Waterfront capital projects in the SDOT budget, the Alaskan Way Main Corridor project (MC-TR-C072) and the Overlook Walk and East West Connections project (MC-TR-C073).

It reduces LID, Philanthropy, REET and LTGO bond proceeds in the Alaskan Way Main Corridor project by \$15,000,000 in 2023 and increases these funding sources in the Overlook Walk and East West Connections project. This is in order to ensure adequate funding for the Overlook Walk project, one of the projects funded by the Waterfront Local Improvement District, which has seen its estimated cost increase significantly and is slated to begin major construction next year.

This shift is partially offset by increasing reimbursable budget authority in the Alaskan Way Main Corridor project by \$9 million. This represents \$9 million in additional State funding that the WSDOT and City have jointly requested from the State legislature to cover increased cost for the Alaskan Way Main Corridor due to the delayed completion of the SR-99 Tunnel. WSDOT has recommended to the legislature that this cost be funded from the delay settlement funds from the SR-99 tunneling contractor.

Baseline

Baseline Adjustments for 2020 Ongoing Q4S Items

Expenditures	\$(2,500,000)
--------------	---------------

This item adds ongoing appropriations created by the 2020 4th Quarter Supplemental Budget Legislation.

Baseline Adjustments for 2021 One-Time Operating Expense Items

Expenditures	\$9,425,450
--------------	-------------

This item reversing one-time operating expense items from the 2021 budget.

Baseline Adjustments for 2021 Ongoing Operating Admin Transfers

Expenditures	-
--------------	---

This technical item reconciles ongoing operating administrative budget transfer approved during the first quarter of 2021 in the Proposed 2022 Budget.

Baseline Adjustments for Personnel Costs

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Baseline Adjustments for Personnel Costs - Parking Enforcement Officers

Expenditures	\$4,045
--------------	---------

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints. This item only applies to Parking Enforcement Officers.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$5,083,676
--------------	-------------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle

Seattle Department of Transportation

Department of Human Resources, and for Judgement and Claims, healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

First Hill Streetcar Operations Technical Adjustment

Expenditures -

This item makes technical adjustments to SDOT's baseline budget for the projected operating expenses of the First Hill Streetcar. This item is budget-neutral and makes accounting adjustments to in order to budget at the appropriate level of detail.

Revenue Adjustments - Baseline

Revenues \$16,320,334

This item aligns SDOT's 2022 Revenues with the current revenue forecast as of 3/18/2021.

South Lake Union Streetcar Operations Technical Adjustment

Expenditures -

This item makes technical adjustments to SDOT's baseline budget for the projected operating expenses of the South Lake Union Streetcar. This item is budget-neutral and makes accounting adjustments to in order to budget at the appropriate level of detail.

Proposed Operating

Administrative Staffing Costs for Parking Enforcement Unit

Expenditures \$908,000

This item transfers the PEO unit's administrative support ("back of house") budget to SDOT. This funding will be used to support 3.0 FTE providing human resources and finance support that were previously approved in the 2021 Adopted Budget. Previously, these functions were performed by SPD and will now be performed by SDOT.

Car Share Budget Legislation

Revenues \$(147,000)

This item reduces the 2022 revenue to General Fund by \$105,000 and to Transportation Fund by \$42,000 to account for proposed changes to the car share provisions of the Seattle Municipal Code. The Seattle Department of Transportation is proposing budget legislation to update car share operations fees, update geographic coverage requirements for equitable service, and incentivize electrifying car share. Car sharing provides transportation options for Seattle residents and has been a successful part of Seattle's sustainable transportation system since the early 2000s. The proposed legislation reduces a portion of the car share fees to better align with current paid parking costs and increase program flexibility by moving to a fee-per-trip model charged to the car share company. In the short term, SDOT expects lower revenues from car share due to this change. But as car share fleet sizes expectedly grow over time, car share revenue is expected to increase under the proposed change in the fee model.

Citywide Integrated Transportation Plan

Expenditures \$2,500,000

This item funds a Citywide Integrated Transportation Plan that includes integrating all the various transportation modes (pedestrian, bike, transit, freight) into a single plan that addresses the City's key priorities: equity, climate action, safety, and asset management.

Seattle Department of Transportation

Clean City Initiative Funding Expansion

Expenditures \$2,800,000

This item increases budget by \$2,800,000 to extend funding for the Clean City Initiative into 2022. Clean City is a joint effort by Seattle Public Utilities, Seattle Parks and Recreation, Office of Economic Development, and Seattle Department of Transportation to address a backlog in removal of litter and garbage across the city. Funding for this request is Federal recovery assistance (CLRF2). This would fund clean-up services through August 2022. This item is part of a package of CLFR-funded or CLFR-enabled items comprising Seattle Rescue Plan 3 (SRP3). See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Climate Implementation Plan and Calculator

Expenditures \$300,000

This item increases the General Fund appropriation by \$300,000 to advance SDOT's climate actions as part of the Green New Deal. The request would fund \$150,000 for consultant services to develop an SDOT Climate Implementation Plan. It also funds \$150,000 for updating SDOT's Climate and Congestion Calculator, which includes adding key data that will improve calculation of emissions baselines and evaluation of alternatives. This is part of a package of Green New Deal items funded by the payroll expense tax (Jumpstart) funds.

New \$20 Vehicle License Fee-Funded Operating Investments

Expenditures \$4,058,627

Position Allocation 2.00

The 2022 Proposed Budget increases operating appropriations due to the new \$20 vehicle license fee (VLF) effective July 2021 and imposed via Ordinance 126234. This item increases funding for operations and maintenance consistent with a 2021 prioritization process that was conducted to solicit external stakeholder feedback as directed by a 2021 Adopted Budget proviso. This item provides \$1.89 million for bridges & structures maintenance, \$500,000 for bike traffic signals, and \$556,000 for each of the following three items: bicycle lane cleaning, crosswalk remarking, and citywide transportation planning. This item also adds two positions for bridge maintenance planning work.

Planning and Street Use Reductions

Expenditures \$(407,804)

This item continues reductions of various programs that were reduced in the 2021 Adopted Budget. The reductions impact various programs in Street Use and Planning areas, including reduction for direct purchases and contracted services, postponing non-urgent services in Waterways Operations, materials, supplies, and holding positions vacant for labor savings reductions. These reductions were made in response to the pandemic and the decreased revenues associated with reduced economic activity. The reductions lower both labor and non-labor expenses in a manner that minimizes impacts to existing staff and service delivery.

Program Reductions

Expenditures \$(300,506)

This item reflects a continuation of reductions identified in the 2021 budget process. It reduces budget across multiple programs in SDOT's Transportation Operations, Policy and Planning, and Right-of-Way Maintenance and Urban Forestry divisions for activities including traffic control plan review services, small-scale transportation planning initiatives, and reduces frequency of street sweeping and mowing services. The reductions were made in response to the pandemic and the decreased revenues associated with reduced economic activity.

Seattle Department of Transportation

SDOT Encampment Clean-Up Funding Transfer to Parks

Expenditures	\$100,000
--------------	-----------

This item increases SDOT's annual payment by \$100,000 to Seattle Parks and Recreation Department (SPR) for obstruction removals in ROW areas from \$1,000,000 to \$1,100,000 to reflect inflationary adjustments since the contract was initiated in 2018. SPR partners with SDOT and Seattle Public Utilities in the cleaning of unsanctioned encampments on parklands and in the right-of-way. As of 2021, SPR facilitates the City's obstruction process and prioritizes sites for Multi-Department Rules (MDAR) removal based on hazards and other site conditions.

SDOT Staffing Needed to Support Existing Commitments

Expenditures	-
Position Allocation	30.50

This item maintains staffing capacity within SDOT to continue to provide basic services and voter-approved projects and programs delivered throughout the department by converting 20 Term-Limited Assignment (TLA) positions, 2 contract-in positions, and 2 emergency positions to regular ongoing positions; by adding 0.5 FTE to an existing position; and by requesting 6 new regular positions, for a total increase of 30.5 FTE. No additional budget appropriation authority or revenues are needed, as the costs and funding for these positions are already built into SDOT's 2022 baseline Budget. These positions support and perform essential services necessary to fulfill SDOT's mission and commitments to the community. All 24 conversions in this request (20 TLA positions, 2 contract-in positions, and 2 emergency positions) will expire during 2021-2022; establishing regular, ongoing positions at the start of 2022 to carry out this work will help ensure seamless delivery of services, with the potential to retain experienced and knowledgeable staff.

Sound Transit Staffing

Expenditures	\$131,427
Position Allocation	2.00

This item adds 1.0 FTE Strategic Advisor 3 to work with Sound Transit 3 (ST3) and with other City departments to provide information, analysis, and engineering expertise to determine the best alignment for the West Seattle to Ballard Light Rail Extension (WSBLE). This item also creates 1.0 FTE Executive 2 position to serve as the City's ST3 Designated Representative to Sound Transit, a role funded by Sound Transit and previously performed by a consultant.

STBD Transit Service and Staffing

Expenditures	\$19,185,928
Position Allocation	1.00

This item supports ongoing and planned transit service investments funded by Seattle Transportation Benefit District (STBD) Proposition 1, which voters passed in the November 2020 election. This budget adjustment is consistent with the spending allocations identified in Ordinance 126115. It also includes a budget-neutral conversion of one emergency position to a permanent position. This FTE manages the ORCA Opportunity and Transportation Access programs.

Street Use Contingent Budget Authority

Expenditures	\$1,000,000
--------------	-------------

This item provides contingent budget authority for Street Use Permitting and Enforcement to allow the program to adjust to rapid changes in permit volumes that had not been anticipated during the annual budget development process. This spending authority will only be utilized with the advice and consent of the City Budget Office based on

Seattle Department of Transportation

a review of permit volumes, revenues, and service delivery metrics such as permit processing times and overtime utilization.

Street Use Service Rate and Fee Updates

Revenues \$3,262,000

This item increases revenues from the Street Use Permit and Enforcement Program to reflect anticipated revenues from proposed budget legislation. This legislation updates the hourly service rates and permit fees to improve cost recovery, adds new permit fees for Street Improvement Lite and Council Term permits, changes the Street Vacation filing fee to a permit fee, and modifies the structure of Public Space Management permits. The legislation continues existing free permit programs for businesses and homeowners. The legislation advances the goal of achieving full cost recovery in SDOT's street use program.

Streetcar Operations Reductions

Expenditures \$(400,000)

This one-time item reduces appropriation authority by \$200,000 in the South Lake Union Streetcar Operations BSL and by \$200,000 in the First Hill Streetcar Operations BSL. This reduction continues the service levels in place since September 2020 and is consistent with reductions made in the 2021 Adopted Budget. The item reduces the frequency of service on both streetcar lines and changes the hours of streetcar operations.

TNC Tax Funding for ReSET O&M Programs

Expenditures \$150,000

This item adds \$150,000 of Transportation Network Tax funding to pedestrian and public space improvements as part of the City's equitable recovery effort focused on addressing the disproportionate impact of the events of the past year and how recovery efforts should be prioritized in those communities. This is a companion request to Capital Program expansion of \$650,000, which aims to create an equitable and vibrant recovery through a series of pedestrian, transit access and livability improvements. This will support one-time operation and maintenance efforts for improvements that are not creating capital assets, such as pavement marking and painting.

Transfer Parking Enforcement Budget Overtime

Expenditures \$803,000

This item transfers the PEO unit overtime budget to SDOT. As part of the 2021 Adopted Budget, the PEO overtime budget was split across SPD and CSCC. This change request recognizes this funding for overtime in SDOT.

Transfer Parking Enforcement Unit budget

Expenditures \$13,772,024

Position Allocation 120.00

This item transfers the Parking Enforcement Officer (PEO) unit budget from Seattle Police Department (SPD) and Community Safety and Communications Center (CSCC) to the Seattle Department of Transportation, and includes the transfer of 120 Parking Enforcement Officer positions. As part of the 2021 Adopted Budget, the PEO unit budget was split across the SPD and CSCC. This item recognizes this funding for the PEO unit center in SDOT.

Transfer to Support Seattle Public Utilities RV Remediation

Expenditures \$(556,064)

Seattle Department of Transportation

This item transfers \$556,064 to Seattle Public Utilities to support enhanced RV remediation in the right-of-way. This program was established in 2018 and is supported by the General Fund to help manage trash and abandoned RVs on city streets.

Transit and Mobility Reductions

Expenditures \$(2,183,591)

This item reflects continuation of reductions identified in the 2021 budget process. The reductions were made in response to the pandemic and the decreased revenues associated with reduced economic activity. The reductions lower both labor and non-labor expenses in a manner that minimizes impacts to existing staff and service delivery. This reduction impacts multiple programs within the Transit and Mobility Division including: less public education programming for the Pay-by-Phone program for parking fees, reducing the number of parking pay stations from 1,500 to 1,000 citywide, reducing labor support for the Corridor Project Development program, reducing labor support for Transit Service and Strategy Development program, and lowering the credit card processing fee budget for parking paid by credit card transactions.

Transportation Equity Workgroup

Expenditures \$183,709

This item increases appropriation by \$183,709 to continue funding for the Transportation Equity Workgroup (TEW) from the Transportation Network Company (TNC) tax proceeds. Appropriation for the non-labor TEW expense is currently one-time funding, ending in 2021. This proposal changes the funding from one-time to ongoing to continue this important work in delivering projects with a focus on impacts to BIPOC communities.

Transportation Operations Reductions

Expenditures \$(2,115,251)

This item reduces budget in the Transportation Operations Division continuing reductions identified in the 2021 budget process. This will provide less funding for travel pattern studies and planning for spot improvements. It also reduces software expenses in the Transportation Operations Center and Traffic Data & Records groups. The reductions were made in response to the pandemic and the decreased revenues associated with reduced economic activity.

Proposed Capital

ATEC Revenue Allocations to APS Capital Program

Expenditures \$1,400,000

This item increases funding for installation of Accessible Pedestrian Signals at signalized intersections. This item is funded through Automated Traffic Enforcement Camera revenue that is restricted for purposes dedicated to "equitable access and mobility for persons with disabilities". This revenue is new in 2021 as SDOT embarks on Automated Traffic Enforcement through a pilot program extending to 2023.

Center City Connector Project Development Update

Expenditures \$2,400,000

This item adds \$2,400,000 using Transportation Network Company (TNC) Tax revenues to advance a Center City Connector (C3) Project Development Update. Resolution 31914 directs these revenues to be used in support of projects related to transportation and transit including the Center City Streetcar Connector. The C3 project is one of five high-priority, high-capacity transit projects identified in the 2012 and 2016 Transit Master Plans. Largely on pause at 100% design since April 2018, additional scope needs, and emerging issues necessitate a comprehensive project review to assess how to proceed with the C3 project. The request utilizes TNC taxes intended for streetcar

Seattle Department of Transportation

capital and operations. The C3 project is a proposed expansion of the Seattle Streetcar system that will join the existing South Lake Union and the First Hill Streetcar lines, creating a contiguous streetcar system throughout downtown Seattle with new north-south connections from Stewart St. at Westlake Center to Jackson St. in Pioneer Square. The new connection was estimated to increase daily streetcar ridership from approximately 5,500 average weekday riders to an estimated 18,000 riders, and provide multi-modal connections to Colman Dock, King Street Station, and Link light rail.

CIP Adjustment

Expenditures	\$41,687,820
--------------	--------------

This item appropriates budget that was abandoned as part of the 3rd Quarter Supplemental Budget Legislation. With this change, SDOT is implementing a new Capital Budget process that realigns the department's six-year CIP budget to the latest project spending plans, which are updated and communicated to Council and the public more frequently than the annual budget. SDOT intends to make this part of an annual synchronization of SDOT's capital budget and spend plan to ensure greater transparency and more up-to-date information on SDOT's Capital Budget programs and projects.

CIP Adjustment - West Seattle Bridge Bonds

Expenditures	\$(23,250,000)
--------------	----------------

This change updates 2022 bond sale assumptions and grant budget awarded to the West Seattle Bridge project.

Duwamish Valley Investments - 8th Ave Pedestrian Improvements

Expenditures	\$1,750,000
--------------	-------------

This change is part of a package of investments that expand the Duwamish Valley Program for 2022. The expanded program is intended to increase opportunities for youth and provide community and economic development in accordance with the Duwamish Valley Action Plan. This item will link the Georgetown community to its only waterfront access by improving 8th Ave. S and the street end park, including pedestrian safety, natural drainage, and open space.

New \$20 Vehicle License Fee-Funded Capital Investments

Expenditures	\$3,669,445
--------------	-------------

The 2022 Proposed Budget increases capital appropriations due to the new \$20 vehicle license fee (VLF) effective July 2021 and imposed via Ordinance 126234. This item increases funding for capital projects consistent with a 2021 prioritization process that was conducted to solicit external stakeholder feedback as directed by a 2021 Adopted Budget proviso. This item adds \$2.2 million to the Vision Zero CIP, \$1.1 million to the Sidewalk Safety Repair project, and \$334,000 for the SDOT ADA Program.

North of Downtown Mobility Action Plan Update

Expenditures	\$394,000
--------------	-----------

This item increases budget for the North of Downtown Mobility Action Plan Capital Improvement Project that supports mobility and access in the "North of Downtown" Queen Anne and neighborhood by constructing infrastructure, such as bicycle, pedestrian, and transit improvements around the new arena construction. This request fully appropriates the annual contribution from the Oak View Group, Seattle's arena partner, for the Plan. Please see the proposed 2022-2027 CIP for more information on this project.

Position Budget Changes

Seattle Department of Transportation

Expenditures

-

This item is a budget-neutral, technical change that shifts appropriation between accounts within several capital projects related to position requests in SDOT's 2022 Proposed Budget.

Program Incremental REET to Moveable Bridges & 4th Avenue South Bridge

Expenditures

\$5,252,000

This item increases budget by \$6,452,000 of Real Estate Excise Tax (REET) with \$5,252,000 in 2022 and \$1,200,000 in 2023 to fund the replacement of mechanical/electrical components for three of the City's moveable bridges and support rehabilitation work on the 4th Avenue South bridge. The University, Ballard, and Spokane bascule bridges will collectively receive \$4,300,000 of REET resources to replace and upgrade various mechanical and electrical components to ensure continued operations. These bridges provide vital connections throughout the city for transit, vehicular, pedestrian, and bicycle traffic and also preserve maritime connections between Seattle's various bodies of water. The remaining \$2,152,000 of appropriation will support repairs for the 4th Avenue South bridge (commonly referred to as "4th Over Argo"). This bridge serves as a primary connection between the Georgetown and Downtown neighborhoods. The structure's age, higher volume of vehicular traffic, and increased vehicle weight loads have caused deterioration of the cantilevered ends of the main span piers. Repairs must be made to the bridge to ensure the safety of the public and maintain neighborhood connections.

Rainier Beach Neighborhood Street Activation

Expenditures

\$250,000

The proposed budget provides \$250,000 to fund public space improvements in Detective Cookie Chess Park in the Rainier Beach Neighborhood. Improvements include adding hardscape to improve transit access, pedestrian lighting, and landscaping to complement a community-led design initiative that serves BIPOC seniors and youth.

Shoreline Street Ends Restoration

Expenditures

\$585,000

This item restores 2022 appropriation authority that had been reduced in the 2021 Adopted Budget as part of COVID-19 reductions. This funding will be used to continue permit enforcement, project development, and program management functions in the Shoreline Street Ends program. The 2021 reduction was based on concerns over revenue shortfall that did not materialize.

Sound Transit Outreach

Expenditures

\$560,230

This item increases budget by \$560,231 for Sound Transit 3 (ST3) using Street Use fees. Of this amount, \$248,835 will be used to obtain outreach services to be provided by the Department of Neighborhoods to continue engagement support for West Seattle and Ballard Extensions. An additional \$311,395 is allocated for professional services to assist with engineering analysis, impact and alternative review associated with the West Seattle and Ballard Link Extension alignment.

STBD Capital Transit Investments

Expenditures

\$1,000,000

This item provides capital investments funded by Seattle Transportation Benefit District (STBD) Proposition One, which voters passed in the November 2020 election. The STBD Transit Improvements CIP will support the design and delivery of bus-only lanes and other transit priority projects in 2022-2027. This item is consistent with Ordinance

Seattle Department of Transportation

126115, which allocates up to \$3 million of STBD sales tax annually for maintenance and capital improvements that will maximize the efficiency and reliability of transit operations.

TNC Tax Funding for ReSET Capital Programs

Expenditures	\$400,000
--------------	-----------

This item funds public space projects aimed at supporting equitable and vibrant recovery through a series of pedestrian, transit access and livability improvements. This investment would focus on spaces that bring people together to support community recovery. Project work includes street lighting improvements, pedestrian paving projects, crosswalks, curb ramps, and more in communities that have historically seen less investment in transportation infrastructure.

Proposed Technical

2021 Q2 Supplemental Ongoing O&M Items

Expenditures	\$1,010,000
--------------	-------------

This technical item aligns operating adjustments approved in the 2021 2nd Quarter Supplemental Budget Legislation with the 2022 Proposed Budget.

Citywide Adjustments for Standard Cost Changes - Parking Enforcement

Expenditures	\$2,958,971
--------------	-------------

This change request reflects citywide technical adjustments made in the baseline phase to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process, and apply to the Parking Enforcement division, only.

Fund Balancing Entries

Revenues	\$112,843,991
----------	---------------

This is a technical item to record a fund balancing entry for the Move Seattle Levy Fund (10398), Transportation Fund (13000), School Safety and Traffic Improvement Fund (18500), and West Seattle Bridge Bond Fund (36810) which are primarily managed by SDOT.

Ongoing Staffing Added in 2021 Q2

Expenditures	\$288,600
Position Allocation	2.00

This is a technical adjustment that applies a 2021 supplemental budget change, which added position authority for the Office of the Waterfront to the 2022 budget. Costs are already budgeted within the Waterfront Project.

Revenue Adjustments - Executive

Revenues	\$2,919,846
----------	-------------

This item is a technical revenue adjustment based on the August 2021 CBO revenue forecast and SDOT forecasting of Gas Tax based on State Data. Other corrections are included where adjustments were identified for SDOT's baseline budget, as well as incremental changes to the Baseline Revenue Forecast.

Seattle Department of Transportation

SDOT "Out Year" Base CIP Adjustment

Expenditures	\$(19,705,840)
Revenues	\$2,700,000

This technical change aligns budget changes made during the 2021 fiscal year to correctly reflect them as part of the 2022-2027 Proposed Capital Improvement Program.

SDOT Debt Service Technical Adjustment for 2022

Expenditures	\$(8,572,234)
--------------	---------------

This item is a debt service technical change that updates anticipated Debt Service costs due to changes in financing cost assumptions, adjustments to revenue source allocations within the department, and alignment of annual Long Term General Obligation bond needs based on current project spend plans.

SDOT O&M Technical Adjustment

Expenditures	\$(9,706,459)
--------------	---------------

This technical change adjusts operating budgets for various cost changes and budget transfers related to contract inflation, work group reorganizations, and central cost adjustments.

SDOT Q3S "Out Year" Base CIP Adjustment

Expenditures	-
Revenues	-

This item captures the budget impact from 2021 Q3 Supplemental future years.

SDOT Reimbursable Technical Adjustment

Expenditures	\$(2,506,702)
--------------	---------------

This technical change identifies revenues and budget changes associated with work that is fully reimbursed by grants, partnerships, and other city departments.

Street Use Expenditure Alignment

Expenditures	\$(2,999,681)
--------------	---------------

This technical adjustment aligns the budget with anticipated expenditures in SDOT's Street Use program, which is funded by permit issuance fees, hourly service fees, use and occupation fees, and modification fees.

Revenue Adjustments

Revenues	\$31,739,186
----------	--------------

This is a technical adjustment to align revenues with forecast revenues for the 2022 Budget. Revenue updates in Finance General include many different Funds; the General Fund, Sweetened Beverage Tax Fund, Short-Term Rental Tax Fund, Payroll Tax Fund, Real Estate Excise Tax Funds, Bond Funds, Cumulative Reserve Subfund - Unrestricted, Payroll Tax Fund and the Coronavirus Local Fiscal Recovery Fund.

Seattle Department of Transportation

Expenditure Overview

Appropriations	2020 Actuals	2021 Adopted	2022 Proposed
SDOT - BC-TR-16000 - Central Waterfront

Appropriations by Budget Summary Level and Program

SDOT - BC-TR-16000 - Central Waterfront

The purpose of the Central Waterfront Budget Summary Level is to design, manage, and construct improvements to the transportation infrastructure and public spaces along the Central Waterfront.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Central Waterfront	81,948,195	68,650,059	111,616,309
Total	81,948,195	68,650,059	111,616,309
Full-time Equivalents Total*	-	-	1.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BC-TR-19001 - Major Maintenance/Replacement

The purpose of the Major Maintenance/Replacement Budget Summary Level is to provide maintenance and replacement of roads, trails, bike paths, bridges and structures.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Bridges & Structures	57,944,941	46,259,735	88,171,043
Landslide Mitigation	1,950,752	282,212	372,466
Roads	43,044,471	27,249,234	29,003,207
Sidewalk Maintenance	2,219,274	3,063,723	5,015,939
Signs, Signals and Markings	1,035,929	1,435,737	1,412,999
Trails and Bike Paths	394,662	1,067,125	1,000,999
Urban Forestry	-	8,937	8,934
Urban Forestry	86,627	-	-
Total	106,676,655	79,366,703	124,985,587
Full-time Equivalents Total*	98.25	98.25	100.25

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Major Maintenance/Replacement Budget Summary Level:

Bridges & Structures

Seattle Department of Transportation

The purpose of Bridges and Structures Program is to provide for safe and efficient use of the city's bridges and structures to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Bridges & Structures	57,944,941	46,259,735	88,171,043
Full Time Equivalents Total	13.75	13.75	14.75

Landslide Mitigation

The purpose of the Landslide Mitigation Program is to proactively identify and address potential areas of landslide concerns that affect the right-of-way.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Landslide Mitigation	1,950,752	282,212	372,466
Full Time Equivalents Total	2.00	2.00	2.00

Roads

The purpose of the Roads program is to provide for the safe and efficient use of the city's roadways to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Roads	43,044,471	27,249,234	29,003,207
Full Time Equivalents Total	47.00	47.00	47.00

Sidewalk Maintenance

The purpose of Sidewalk Maintenance Program is to maintain and provide for safe and efficient use of the city's sidewalks to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Sidewalk Maintenance	2,219,274	3,063,723	5,015,939
Full Time Equivalents Total	6.00	6.00	6.00

Signs, Signals and Markings

The purpose of Signs, Signals and Markings Program is to design, plan and maintain the city's signs, signals, and street, sidewalk markings

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Signs, Signals and Markings	1,035,929	1,435,737	1,412,999

Seattle Department of Transportation

Full Time Equivalents Total - - 1.00

Trails and Bike Paths

The purpose of Trails and Bike Paths Program is to maintain and provide for safe and efficient use of the city's trails and bike paths to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Trails and Bike Paths	394,662	1,067,125	1,000,999
Full Time Equivalents Total	27.75	27.75	27.75

Urban Forestry

The Tree and Landscape Maintenance program provides services to implement the citywide Urban Forestry Management Plan through education, stewardship, protection and maintenance of SDOT's green infrastructure assets including trees and landscapes. Arborists, Foresters, and the Landscape Architect provide design guidance, construction management support, citywide policy guidance and implementation including street tree permitting. Urban Forestry field operations provides critical maintenance of more than 40,000 SDOT street use tree assets and emergency response to over 350,000 right-of-way trees. Field operations is also responsible for the maintenance and operation of more than 200 formally landscaped right-of-way areas such as medians along Beacon Avenue South and Sand Point Way NE.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Urban Forestry	86,627	8,937	8,934
Full Time Equivalents Total	1.75	1.75	1.75

SDOT - BC-TR-19002 - Major Projects

The purpose of the Major Projects Budget Summary Level is to design, manage and construct improvements to the transportation infrastructure for the benefit of the traveling public including freight, transit, other public agencies, pedestrians, bicyclists and motorists.

Program Expenditures	2020	2021	2022
	Actuals	Adopted	Proposed
Alaskan Way Viaduct	1,800,480	-	-
First Hill Streetcar	15	-	-
Mercer West	208,101	-	-
SR-520	1,107,262	805,931	1,951,405
Total	3,115,858	805,931	1,951,405
Full-time Equivalents Total*	24.50	24.50	24.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Department of Transportation

The following information summarizes the programs in Major Projects Budget Summary Level:

Alaskan Way Viaduct

The purpose of the Alaskan Way Viaduct and Seawall Replacement Program is to fund the City's involvement in the replacement of the seismically-vulnerable viaduct and seawall. The Alaskan Way Viaduct is part of State Route 99, which carries one-quarter of the north-south traffic through downtown Seattle and is a major truck route serving the city's industrial areas

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Alaskan Way Viaduct	1,800,480	-	-
Full Time Equivalents Total	23.00	23.00	23.00

First Hill Streetcar

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
First Hill Streetcar	15	-	-

Mercer West

The purpose of the Mercer West Program is to use existing street capacity along the west portion of Mercer Street more efficiently and enhance all modes of travel, including pedestrian mobility, and provide an east/west connection between I-5, State Route 99, and Elliott Ave W.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Mercer West	208,101	-	-

SR-520

The purpose of the SR-520 Program is to provide policy, planning and technical analysis support and to act as the City's representative in a multi-agency group working on the replacement of the State Route 520 bridge.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
SR-520	1,107,262	805,931	1,951,405
Full Time Equivalents Total	1.50	1.50	1.50

SDOT - BC-TR-19003 - Mobility-Capital

The purpose of the Mobility-Capital Budget Summary Level is to help maximize the movement of traffic throughout the city by enhancing all modes of transportation including corridor and intersection improvements, transit and HOV improvements, and sidewalk and pedestrian facilities.

Seattle Department of Transportation

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Corridor & Intersection Imprv	37,596,135	43,006,274	54,599,194
Freight Mobility	17,610,152	18,110,133	3,884,438
Intelligent Transp System	4,903,793	7,515,393	1,005,004
Neighborhood Enhancements	6,473,172	7,991,922	5,070,084
New Trails and Bike Paths	18,248,719	16,647,527	18,917,598
Sidewalks & Ped Facilities	31,844,732	31,725,687	31,128,120
Transit & HOV	27,838,006	86,152,354	47,410,717
Total	144,514,709	211,149,289	162,015,155
Full-time Equivalents Total*	138.50	138.50	144.50
*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here			

The following information summarizes the programs in Mobility-Capital Budget Summary Level:

Corridor & Intersection Imprv

The purpose of the Corridor & Intersection Improvements Program is to analyze and make improvements to corridors and intersections to move traffic more efficiently. Examples of projects include signal timing, left turn signals and street improvements.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Corridor & Intersection Imprv	37,596,135	43,006,274	54,599,194
Full Time Equivalents Total	38.50	38.50	38.50

Freight Mobility

The purpose of the Freight Mobility Program is to help move freight throughout the city in a safe and efficient manner.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Freight Mobility	17,610,152	18,110,133	3,884,438
Full Time Equivalents Total	4.50	4.50	4.50

Intelligent Transp System

The purpose of the Intelligent Transportation System (ITS) Program is to fund projects identified in the City's ITS Strategic Plan and ITS Master Plan. Examples of projects include implementation of transit signal priority strategies; installation of closed-circuit television (CCTV) cameras to monitor traffic in key corridors; and development of parking guidance, traveler information and real-time traffic control systems.

Seattle Department of Transportation

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Intelligent Transp System	4,903,793	7,515,393	1,005,004
Full Time Equivalents Total	9.25	9.25	9.25

Neighborhood Enhancements

The purpose of the Neighborhood Enhancements Program is to plan and forecast the needs of specific neighborhoods including neighborhood and corridor planning, development of the coordinated transportation plans, traffic control spot improvements and travel forecasting. The program also constructs minor improvements in neighborhoods based on these assessments.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Neighborhood Enhancements	6,473,172	7,991,922	5,070,084
Full Time Equivalents Total	19.75	19.75	19.75

New Trails and Bike Paths

The purpose of the New Trails and Bike Paths Program is to construct new trails and bike paths that connect with existing facilities to let users transverse the city on a dedicated network of trails and paths.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
New Trails and Bike Paths	18,248,719	16,647,527	18,917,598
Full Time Equivalents Total	1.00	1.00	1.00

Sidewalks & Ped Facilities

The purpose of the Sidewalks & Pedestrian Facilities Program is to install new facilities that help pedestrians move safely along the city's sidewalks by installing or replacing sidewalks, modifying existing sidewalks for elderly and handicapped accessibility, and increasing pedestrian lighting.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Sidewalks & Ped Facilities	31,844,732	31,725,687	31,128,120
Full Time Equivalents Total	52.50	52.50	57.50

Transit & HOV

The purpose of the Transit & HOV Program is to move more people in less time throughout the city.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Transit & HOV	27,838,006	86,152,354	47,410,717
Full Time Equivalents Total	13.00	13.00	14.00

Seattle Department of Transportation

SDOT - BO-TR-12001 - South Lake Union Streetcar Operations

The purpose of the South Lake Union Streetcar Operations Budget Summary Level is to operate and maintain the South Lake Union Seattle Streetcar.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
S Lake Union Streetcar Ops	3,527,212	4,224,358	4,324,358
Total	3,527,212	4,224,358	4,324,358

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-12002 - First Hill Streetcar Operations

The purpose of the First Hill Streetcar Operations Budget Summary Level is to operate and maintain the First Hill Seattle Streetcar.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
First Hill Streetcar Ops	7,999,103	9,466,145	9,666,145
Total	7,999,103	9,466,145	9,666,145

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-16000 - Waterfront and Civic Projects

The purpose of the Waterfront and Civic Projects Summary Level is to pay for expenses related to reimbursable design and construction services provided by the Central Waterfront program for other City departments and external partners. Additionally, the BSL provides planning and leadership support for other Civic Projects.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Waterfront and Civic Projects	11,084,054	30,612,193	28,074,553
Total	11,084,054	30,612,193	28,074,553
Full-time Equivalents Total*	-	-	1.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-17001 - Bridges & Structures

Seattle Department of Transportation

The purpose of the Bridges and Structures Budget Summary Level is to maintain the City's bridges and structures which helps provide for the safe and efficient movement of people, goods, and services throughout the City. Additionally, the BSL provides general construction management, engineering support for street vacations, scoping of neighborhood projects, and other transportation activities requiring engineering oversight.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Bridge Operations	3,973,815	3,923,867	3,923,866
Engineering & Ops Support	456,543	1,589,400	1,616,751
Structures Engineering	1,166,557	1,356,154	1,356,154
Structures Maintenance	5,640,558	9,515,991	9,419,236
Total	11,237,474	16,385,412	16,316,007
Full-time Equivalents Total*	57.00	57.00	59.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Bridges & Structures Budget Summary Level:

Bridge Operations

The purpose of Bridge Operations is to ensure the safe and efficient operations and preventive maintenance for over 180 bridges throughout the city.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Bridge Operations	3,973,815	3,923,867	3,923,866
Full Time Equivalents Total	17.50	17.50	17.50

Engineering & Ops Support

The purpose of the Engineering Ops & Support program is to provide engineering support services to other SDOT projects, perform engineering related to bridges and structures, and manage stormwater pollution control.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Engineering & Ops Support	456,543	1,589,400	1,616,751
Full Time Equivalents Total	3.00	3.00	3.00

Structures Engineering

The purpose of the Structures Engineering Program is to provide engineering services on all the bridges and structures within the city to ensure the safety of transportation users as they use or move in proximity to these transportation facilities.

Seattle Department of Transportation

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Structures Engineering	1,166,557	1,356,154	1,356,154
Full Time Equivalents Total	3.50	3.50	3.50

Structures Maintenance

The purpose of the Structures Maintenance Program is to provide for the maintenance of the city's bridges, roadside structures and stairways.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Structures Maintenance	5,640,558	9,515,991	9,419,236
Full Time Equivalents Total	33.00	33.00	35.00

SDOT - BO-TR-17003 - Mobility Operations

The purpose of the Mobility-Operations Budget Summary Level is to promote the safe and efficient operation of all transportation modes in the city. This includes managing the parking, pedestrian, and bicycle infrastructure; implementing neighborhood plans; encouraging alternative modes of transportation; and maintaining and improving signals and the non-electrical transportation management infrastructure.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Commuter Mobility	14,888,613	13,861,293	14,286,825
Neighborhoods	1,730,567	1,041,261	1,198,262
Parking & CurbSpace	13,384,397	12,900,993	13,473,615
Signs & Markings	3,506,509	4,232,251	4,788,224
Traffic Signals	9,200,698	9,889,766	10,310,160
Transit Operations	53,812,852	-	-
Transit Operations	-	32,128,132	46,314,062
Urban Planning	3,540,327	2,979,501	6,375,828
Total	100,063,962	77,033,197	96,746,976
Full-time Equivalents Total*	141.75	141.75	147.75

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Mobility Operations Budget Summary Level:

Commuter Mobility

The purpose of the Commuter Mobility Program is to provide a variety of services, including enforcement of City commercial vehicle limits, transit coordination, and planning, to increase mobility and transportation options to the residents of Seattle.

Seattle Department of Transportation

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Commuter Mobility	14,888,613	13,861,293	14,286,825
Full Time Equivalents Total	51.25	51.25	51.25

Neighborhoods

The purpose of the Neighborhoods Program is to plan and forecast the needs of specific neighborhoods including neighborhood and corridor planning, development of the coordinated transportation plans, traffic control spot improvements and travel forecasting. The program also constructs minor improvements in neighborhoods based on these assessments.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Neighborhoods	1,730,567	1,041,261	1,198,262
Full Time Equivalents Total	2.50	2.50	2.50

Parking & Curb Space

The purpose of Parking and Curb Ramp Program is to manage the City's parking resources, maintain and operate pay stations and parking meters for on-street parking, manage curbspace, develop and manage the City's carpool program and Residential Parking Zones.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Parking & Curb Space	13,384,397	12,900,993	13,473,615
Full Time Equivalents Total	31.00	31.00	32.00

Signs & Markings

The purpose of the Signs & Markings Program is to design, fabricate and install signage, as well as provide pavement, curb and crosswalk markings to facilitate the safe movement of vehicles, pedestrians and bicyclists throughout the city.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Signs & Markings	3,506,509	4,232,251	4,788,224
Full Time Equivalents Total	19.50	19.50	22.50

Traffic Signals

The purpose of the Traffic Signals Program is to operate the Traffic Management Center that monitors traffic movement within the city and to maintain and improve signals and other electrical transportation management infrastructure.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Traffic Signals	9,200,698	9,889,766	10,310,160
Full Time Equivalents Total	24.25	24.25	25.25

Seattle Department of Transportation

Transit Operations

The Purpose of the Transit Operations Program is to purchase Metro Transit service hours on routes with at least 65% of the stops within the city of Seattle and to support regional transit service in conjunction with other cities, transit agencies, and transportation benefit districts who contribute to the cost of providing regional transit service. The program also funds ORCA Opportunity which provides youth ORCA cards for Seattle Public Schools Students, Seattle Promise scholarship students or similar programs. The program also funds and administers a \$20 low-income VLF rebate to qualified individuals and supports access to transit service for low-income riders. The Transit Operations program revenues support the implementation of City-wide improvements to maximize transit operations.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Transit Operations	53,812,852	32,128,132	46,314,062
Full Time Equivalents Total	2.75	2.75	3.75

Urban Planning

The Urban Planning Program is comprised of Adaptive Streets, Citywide & Community Planning, GIS, Urban Design, and the Center City Mobility Plan.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Urban Planning	3,540,327	2,979,501	6,375,828
Full Time Equivalents Total	10.50	10.50	10.50

SDOT - BO-TR-17004 - ROW Management

The purpose of the (Right-of-Way) ROW Management Budget Summary Level is to review projects throughout the city for code compliance for uses of the right-of-way and to provide plan review, utility permit and street use permit issuance, and utility inspection and mapping services.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
St Use Permit & Enforcement	38,715,389	42,995,188	41,130,232
Street Use Contingent Budget	-	-	1,000,000
Total	38,715,389	42,995,188	42,130,232
Full-time Equivalents Total*	139.25	139.25	140.25

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in ROW Management Budget Summary Level:

St Use Permit & Enforcement

Seattle Department of Transportation

The purpose of the Street Use Permitting and Enforcement is to review projects throughout the city for code compliance for uses of right-of-way and to provide plan review, utility permit and street use permit issuance, and utility inspection and mapping services.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
St Use Permit & Enforcement	38,715,389	42,995,188	41,130,232
Full Time Equivalents Total	139.25	139.25	140.25

Street Use Contingent Budget

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Street Use Contingent Budget	-	-	1,000,000

SDOT - BO-TR-17005 - Maintenance Operations

The purpose of the Maintenance Operations Budget Summary Level is to maintain the City's roadways and sidewalks; maintain, protect and expand the City's urban landscape in the street right-of-way through the maintenance and planting of new trees and landscaping to enhance the environment and aesthetics of the city; and manage and administer street parking rules and regulations in the right-of-way.

Program Expenditures	2020	2021	2022
	Actuals	Adopted	Proposed
Emergency Response	7,536,909	4,704,695	7,604,695
Operations Support	4,857,252	5,026,700	5,020,143
Pavement Management/Repair	13,255,683	15,064,086	15,064,084
Street Cleaning	6,427,663	8,582,820	8,445,636
Tree & Landscape Maintenance	5,372,851	6,367,138	6,367,133
Total	37,450,359	39,745,439	42,501,691
Full-time Equivalents Total*	144.50	145.50	145.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Maintenance Operations Budget Summary Level:

Emergency Response

The purpose of the Emergency Response Program is to respond to safety and mobility issues such as pavement collapses, severe weather, landslides and other emergencies to make the right-of-way safe for moving people and goods. This program proactively addresses landslide hazards to keep the right-of-way open and safe.

Seattle Department of Transportation

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Emergency Response	7,536,909	4,704,695	7,604,695
Full Time Equivalents Total	19.00	19.00	19.00

Operations Support

The purpose of the Operations Support Program is to provide essential operating support services necessary for the daily operation of SDOT's equipment and field workers dispatched from three field locations in support of street maintenance activities. These functions include warehousing, bulk material supply and management, tool cleaning and repair, equipment maintenance and repair, project accounting and technical support, and crew supervision.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Operations Support	4,857,252	5,026,700	5,020,143
Full Time Equivalents Total	22.50	23.50	23.50

Pavement Management/Repair

The purpose of the Pavement Management and Repair Program is to assess the condition of asphalt and concrete pavements and establish citywide paving priorities for annual resurfacing, preservation and maintenance of all streets and adjacent areas such as sidewalks and road shoulders by making spot repairs and conducting annual major maintenance paving and rehabilitation.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Pavement Management/Repair	13,255,683	15,064,086	15,064,084
Full Time Equivalents Total	57.25	57.25	57.25

Street Cleaning

The purpose of the Street Cleaning Program is to keep Seattle's streets, improved alleys, stairways and pathways clean, safe and environmentally friendly by conducting sweeping, hand-cleaning, flushing and mowing on a regular schedule.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Street Cleaning	6,427,663	8,582,820	8,445,636
Full Time Equivalents Total	22.50	22.50	22.50

Tree & Landscape Maintenance

The purpose of the Landscape & Tree Maintenance Program is to provide planning, design, construction and construction inspection services for landscape elements of transportation capital projects, as well as guidance to developers on the preservation of city street trees and landscaped sites during construction.

Seattle Department of Transportation

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Tree & Landscape Maintenance	5,372,851	6,367,138	6,367,133
Full Time Equivalents Total	23.25	23.25	23.25

SDOT - BO-TR-17006 - Parking Enforcement

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Parking Enforcement	-	-	18,446,040
Total	-	-	18,446,040
Full-time Equivalents Total*	-	-	120.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-18001 - Leadership and Administration

The purpose of the Leadership & Administration Budget Summary Level is to provide executive, community, financial, human resource, technology and business support to the Seattle Department of Transportation.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Citywide Indirect Costs	43,771,972	44,965,979	47,369,503
Departmental Indirect Costs	18,899,204	-	-
Departmental Indirect Costs	-	17,888,096	18,427,975
Divisional Indirect Costs	14,489,355	11,413,509	11,648,913
Indirect Cost Recovery Offset	(73,269,222)	(73,357,349)	(77,446,391)
Pooled Benefits and PTO	4,762,052	-	-
Total	8,653,361	910,235	-
Full-time Equivalents Total*	214.25	214.25	232.75

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

Seattle Department of Transportation

The Purpose of Citywide Indirect Cost Program is to allocate the City's general service costs to SDOT in a way that benefits the delivery of transportation services to the public.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Citywide Indirect Costs	43,771,972	44,965,979	47,369,503

Departmental Indirect Costs

tbd

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Departmental Indirect Costs	18,899,204	17,888,096	18,427,975
Full Time Equivalents Total	120.00	120.00	129.50

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Program is to provide division leadership and unique transportation technical expertise to accomplish the division's goals and objectives in support of the department's mission.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Divisional Indirect Costs	14,489,355	11,413,509	11,648,913
Full Time Equivalents Total	94.25	94.25	103.25

Indirect Cost Recovery Offset

Indirect Cost Recovery Offset Program includes Department Management Indirect cost recovery and General Expense Indirect Cost Recovery. This program equitably recovers and allocates departmental and general expense indirect cost from all transportation activities and capital projects to fund departmental management and support services essential for delivery of transportation service to the public.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Indirect Cost Recovery Offset	(73,269,222)	(73,357,349)	(77,446,391)

Pooled Benefits and PTO

This budget program contains the funding associated with employee leave, time off, and benefit-related costs for Workers' Compensation, healthcare and other centrally distributed benefit costs.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Pooled Benefits and PTO	4,762,052	-	-

SDOT - BO-TR-18002 - General Expense

Seattle Department of Transportation

The purpose of the General Expense Budget Summary Level is to pay for general business expenses necessary to the overall delivery of transportation services, such as Judgment and Claims contributions and debt service payments.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Citywide Initiatives	5,554,106	5,296,014	10,176,730
Debt Service	44,294,320	41,890,893	39,442,436
Judgment & Claims	2,602,751	8,098,973	9,897,522
Total	52,451,177	55,285,880	59,516,688

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in General Expense Budget Summary Level:

Citywide Initiatives

The purpose of the Citywide Initiatives program is to support citywide or multi-departmental system or process improvement initiatives.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Citywide Initiatives	5,554,106	5,296,014	10,176,730

Debt Service

The purpose of Debt Service Program is to meet principal repayment and interest obligations on debt proceeds that are appropriated in SDOT's Budget

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Debt Service	44,294,320	41,890,893	39,442,436

Judgment & Claims

The purpose of the Judgement & Claims Program is to represent SDOT's annual contribution to the City's centralized self-insurance pool from which court judgements and claims against the city are paid.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Judgment & Claims	2,602,751	8,098,973	9,897,522

The Office of the Waterfront and Civic Projects

Marshall Foster, Director

206-684-8413

<http://www.seattle.gov/office-of-the-waterfront-and-civic-projects>

The Office of the Waterfront and Civic Projects is responsible for coordinating the City's waterfront improvement efforts, including project management, design, construction, and financial management. Organizationally, it is a unit of the Seattle Department of Transportation (SDOT), although its director reports directly to the Mayor. The Office of the Waterfront and Civic Projects is charged with administering the overall program and ensuring that it is managed efficiently and delivers on the Concept Design and Framework Plan for the Central Waterfront as adopted by the City in Resolution 31399.

The projects that make up the Central Waterfront program are included in SDOT's budget and in the budgets of two other City departments (Seattle Parks and Recreation and Finance and Administrative Services). Although there are multiple funding sources and multiple projects within the waterfront improvement program, the program itself includes all the projects listed below.

Seattle Department of Transportation

- Alaskan Way Main Corridor project (MC-TR-C072)
- Overlook Walk and East/West Connections (MC-TR-C073)

Seattle Parks and Recreation

- Parks Central Waterfront Piers Rehabilitation (MC-PR-21007)
- Aquarium Expansion (MC-PR-21006)

Department of Finance and Administrative Services

- Pike Place Market PC-1 North Waterfront Entrance project (complete)
- Local Improvement District Administration

In addition, there are funds budgeted in CIP projects for Seattle Public Utilities (SPU) and Seattle City Light (SCL) for utility relocations related to the Central Waterfront program. The Office of the Waterfront and Civic Projects is leading construction activities for these relocations, which in SDOT's budget are combined in a reimbursable project (MO-TR-R043). The Office of Arts and Culture also has funding from the Waterfront program's 1% for Arts contribution.

The Central Waterfront Improvement Fund is a single fund from which multiple departments draw funding resources. The fund tracks the interfund loan and philanthropic funds as well as other revenues. The fund supports certain costs associated with the design and construction of the waterfront improvement program and related costs for City administration, including the Office of the Waterfront and Civic Projects. Appropriations made from the Central Waterfront Improvement Fund are for these purposes.

In 2019, the City Council legislated the Waterfront Local Improvement District (LID) Fund which holds LID assessment payments and LID bonds, and pays for expenditures related to the Waterfront Local Improvement District (#6751). The pre-payment, and LID bond issuance are anticipated to occur in late 2021. For more information on LID and project status, visit the [Waterfront Seattle](#) website.

Office of Sustainability and Environment

Michelle Caulfield, Interim Director

(206) 615-0815

www.seattle.gov/environment

Department Overview

The Office of Sustainability & Environment (OSE) develops and implements citywide environmental policies and programs that propel Seattle toward a sustainable, equitable, and climate pollution-free future. OSE collaborates with a wide range of stakeholders to develop policies and programs that advance healthy communities and facilitate a just transition from fossil fuels, while prioritizing people and communities most affected by economic, racial, and environmental injustices. OSE's work focuses on the following areas:

Climate and Environmental Justice: OSE develops policies and conducts research on reducing and addressing the impacts of climate pollution. This includes goal assessment, action planning, community outreach, and performance measurement. OSE coordinates implementation of the Seattle Green New Deal, the Seattle Climate Action Plan, and the Equity and Environment Initiative and plans and implements policies that transition buildings to 100% clean energy and advance zero carbon transportation.

Sustainable Communities. OSE works with key stakeholders to support sustainable communities. The office administers the Fresh Bucks and Healthy Food in Schools programs to provide equitable access to healthy, affordable, culturally relevant food. OSE also fosters interdepartmental coordination within the City of Seattle to help maintain, preserve, and restore Seattle's urban forest.

Citywide Coordination: OSE coordinates interdepartmental efforts to advance a healthy, equitable, and sustainable environment. These efforts include the Duwamish Valley Program, as well as interdepartmental planning around the Green New Deal, urban forestry, and energy efficiency. OSE is responsible for coordinating four prominent Boards and Commissions: the Urban Forestry Commission, the Sweetened Beverage Tax Community Advisory Board, the Environmental Justice Committee, and the Green New Deal Oversight Board.

Budget Snapshot

Office of Sustainability and Environment

Budget Overview

The 2022 proposed budget represents a significant investment in OSE's Climate Justice and Equity initiatives, including the Duwamish Valley Program and the Green New Deal. These proposals boost OSE's General Fund and payroll expense tax-funded programming by \$1.3 million compared to the 2021 Adopted Budget.

After being delayed due to the COVID-19 pandemic, the Green New Deal (GND) launched in 2021 with the establishment of the Green New Deal Oversight Board (GNDOB), which will help to oversee and advise the implementation of Green New Deal policies in Seattle. The Proposed Budget includes \$14.3 million in dedicated Green New Deal funding, consistent with the City Council's "Jumpstart" priorities. The following Green New Deal items are budgeted at OSE and funded by the payroll expense tax:

- Duwamish Valley Program investments supporting the green economy and environmental justice (see below): \$1,775,000;
- Environmental Justice Fund: \$550,000 in new grant funding;
- Clean Buildings Accelerator program to help business owners comply with new state commercial buildings standards: \$220,000; and
- Oil home heating conversions: \$200,000 in one-time funding for rebates and staff support.

In addition, the proposed budget allocates \$1 million in General Fund for Clean Energy Pre-Apprenticeship Scholarships, that will fund job training in the clean energy workforce. This item is supported by federal Coronavirus Local Fiscal Recovery (CLFR) funding.

Additional payroll tax funded Green New Deal items are proposed in the Office of Planning and Community Development (OPCD), the Office of Housing (OH), and Seattle Department of Transportation (SDOT). \$6.5 million is also budgeted in Finance General as a set-aside for priorities that will be identified by the GNDOB and the citywide GND interdepartmental team (IDT).

The proposed budget also deepens investments in the Duwamish Valley with \$8.5 million in new investments for the Duwamish Valley Program across OSE, OPCD, SDOT, and Seattle Parks and Recreation (SPR). These investments will build on grant-funded work establishing a Duwamish Valley Resilience District. These efforts are also intended to advance the goals and principles of the Green New Deal by focusing on job creation and a just transition away from fossil fuels. Of this \$8.5 million, \$2.375 million is budgeted in OSE and includes:

- Green New Deal investments that target Duwamish Valley communities: \$1,775,000 (see item above), which includes \$500,000 for expanding investments in youth leadership and training opportunities, \$1 million in rebates for electric heavy duty vehicles operating in Duwamish-area neighborhoods, and \$275,000 for Clean Energy workforce development;
- Greening and improving urban tree cover in industrial spaces: \$300,000; and
- Duwamish-area small business support: \$275,000.

Details on these items can be found in the Incremental Budget Changes section.

Ongoing initiative support: The 2022 Proposed Budget continues to fund existing initiatives in OSE that support tackling the climate crisis and growing sustainable communities, including:

- Fresh Bucks & Food Policy Initiatives
- Equity and Environment Initiative
- Equitable Transportation
- Building Energy Policy & Programs
- Building Energy Benchmarking & Tune-Ups
- Urban Forestry

Office of Sustainability and Environment

OSE will also continue to coordinate and provide technical assistance for the interdepartmental Municipal Energy Efficiency Project (MEEP). MEEP is a capital project spanning multiple departments that makes energy efficiency improvements to City-owned facilities. In 2022, this programming will be supported by \$2.9 million in Real Estate Excise Tax (REET) revenues, an increase of \$445,000 over 2021, with additional funding provided to Seattle Public Library and the Seattle Department of Parks and Recreation. This funding is appropriated in the relevant departments' capital budgets. For more detail about this project, please see the Municipal Energy Efficiency Project located in the Department of Finance and Administrative Services' 2022-2027 Capital Improvement Program.

Office of Sustainability and Environment

Description of Incremental Budget Changes

Baseline

Remove 2021 Joint COVID-19 Relief Plan amounts from baseline

Expenditures \$(3,400,000)

This item removes from the baseline budget \$3.4 million that were used to fund emergency grocery vouchers through the first quarter of 2021.

Restore Transportation Electrification Program Budget

Expenditures \$25,000

This item restores \$25,000 to the Transportation Electrification program budget, reversing a one-time 2021 reduction.

Restore Professional Development Funds

Expenditures \$15,000

This item restores \$15,000 for OSE's professional development budget, reversing a one-time 2021 reduction.

Restore Community Partnership Support

Expenditures \$10,000

This item restores \$10,000 to OSE's budget for sponsorship and participation in community partners' annual events, reversing a one-time 2021 cut. This funding has previously supported partner events and OSE's Earth Day event but will be applied in 2022 entirely towards supporting partner organizations.

Restore Communications Budget

Expenditures \$10,500

This item restores \$10,500 to OSE's communications budget, reversing a one-time 2021 cut.

Language Premium Staff Stipend

Expenditures \$2,400

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

Citywide Adjustments for Standard Cost Changes

Expenditures \$70,485

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget

Office of Sustainability and Environment

process.

Baseline Adjustments for Personnel Costs

Expenditures \$77,047

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Revenue Adjustments - Benchmarking & Tune-Up

Revenues \$61,000

This item revises the revenues forecasted in 2022 for the benchmarking & tune-ups programs (currently projected at zero). Revenue is projected at \$20,000 for Benchmarking and for \$41,000 for Tune-Ups.

Revenue Adjustments

Revenues \$949,872

This is a technical adjustment to align base revenues with forecast revenues for the 2022 Budget. Revenues in this department are General Fund cost recovery for central services provided by this department and charged to the six-funds.

Proposed Operating

Expand Youth Leadership, Capacity Building, and Duwamish Valley Youth Corps

Expenditures \$500,000

This Green New Deal item expands the youth leadership and capacity building in the Duwamish Valley by providing funding for expanded participation, capacity building, youth workforce development, and recreational programming. This funding will support partnerships between the City and community organizations on planned utility, transportation, and parks and recreation investments that benefit youth and the community. Specific support will expand the number of youth served per year, provide up to 50 youth summer jobs with the City and Port, support 12 new Youth Leadership Council members, and provide additional community organizational capacity. This item is part of a package of investments that expand the Duwamish Valley Program in 2022 and are also part of a package of Green New Deal items funded by payroll expense tax (Jumpstart) funds.

Duwamish Green Workforce Development Investments

Expenditures \$275,000

This Green New Deal item funds efforts to connect major upcoming investments in the Duwamish Valley to local job creation. This funding will address priorities from the Industrial and Maritime Strategy as well as the Duwamish Valley Action Plan, and will focus on green economy careers, aiming to facilitate pathways to jobs in manufacturing, logistics, and the maritime sector, as well as work supporting sea level rise adaptation, the electric vehicle industry, and climate change resilience. These items are part of a package of investments that expand the Duwamish Valley Program in 2022, and also form parts of a package of Green New Deal items funded by payroll expense tax (Jumpstart) funds.

Duwamish Valley Business Relief and Response

Expenditures \$275,000

This item provides GF funding to support small and industrial businesses in South Park and Georgetown with technical assistance, marketing support, and financial advice to assist with COVID-19 relief and response. Funding

Office of Sustainability and Environment

will also be applied towards facilitating contracting and procurement for local vendors with the City of Seattle. These collaborations will also serve to advance development of the Duwamish Valley Resilience District.

This parallels work that is being funded by a grant from Robert Wood Johnson Foundation for the Duwamish Valley Resilience District. This item is part of a package of investments that expand the Duwamish Valley Program for 2022.

Greening Industrial Properties in the Duwamish Valley

Expenditures \$300,000

This item provides GF funding for community-led efforts to green the industrial areas of South Park and Georgetown. Funding would support grants to community-based organizations for outreach, engagement, and implementation of greening efforts in private industrial properties. Some of this funding may also support Seattle Department of Transportation and Seattle Public Utilities in these departments' efforts to green the right of way and work related to water management. These items are part of a package of investments that expand the Duwamish Valley Program in 2022.

Rebates for Heavy-Duty Electric Vehicles

Expenditures \$1,000,000

This Green New Deal item provides one-time funding for electric heavy duty vehicle rebates for operators in the Duwamish Valley. Examples include drayage trucks, schoolbuses, and other industrial and commercial fleets. This item is part of a package of investments that expand the Duwamish Valley Program in 2022 and is also part of a package of Green New Deal items funded by payroll expense tax (Jumpstart) funds.

Oil Home Heating Conversions

Expenditures \$200,000

This Green New Deal item adds \$200,000 in one-time appropriation to support the Clean Heat Program for oil-to-electric heat pump conversions for both low-income and middle-income households. This is part of a larger package totaling \$1.7 million in one-time funding split between the Office of Housing (OH) and OSE. This appropriation at OSE will fund additional conversion rebates for middle-income households, targeted outreach to BIPOC and historically disadvantaged communities, and temporary staffing to support program implementation. In future years, this programming at both OSE and OH will be supported by revenues from the Oil Home Heating Tax, which has been delayed until April 2022. An accompanying request for \$1.5 million is in the Proposed Budget for the Office of Housing. This is part of a package of Green New Deal items funded by payroll expense tax (Jumpstart) funds.

Clean Buildings Accelerator Program

Expenditures \$220,000

This Green New Deal item funds development and implementation of a Clean Buildings Accelerator program. This program will provide support services for under-resourced building owners to comply with Washington State Clean Buildings Standards. This support would capitalize on the opportunity for early compliance incentive funding provided by the State, as well as making building owners eligible for existing efficiency incentives offered by Seattle City Light. This work will also help prepare buildings owners for future Seattle emissions standards. This is part of a package of Green New Deal items funded by payroll expense tax (Jumpstart) funds.

Increase Environmental Justice Fund (Equitable Communities Initiative)

Expenditures \$550,000

This item adds \$550,000 to the Environmental Justice Fund. These investments aim to provide immediate and long-term funding for community-based efforts to address health disparities through investments in food access and environmental justice. This is part of package of Green New Deal items funded by payroll expense tax (Jumpstart)

Office of Sustainability and Environment

funds.

This investment was recommended by the Equitable Communities Initiative Task Force.

Clean Energy Pre-Apprenticeship Scholarships

Expenditures	\$1,000,000
--------------	-------------

The Proposed Budget allocates GF enabled by Coronavirus Local Fiscal Recovery (CLFR) funds to OSE as part of Seattle Rescue Plan 3 (SRP3). This Green New Deal item adds \$1 million for Clean Energy Pre-Apprenticeship Scholarships. This funding will pay for application and enrollment costs, tools, PPE, and work gear. Post-training support services for new apprentices will also be provided with the goal of increasing retention in the clean energy workforce. Funding will also support targeted inclusive outreach (in-language and through trusted networks) to advance green and just workforce development and priority hire goals. This is part of a package of Green New Deal items, with this item funded by funding provided from the federal government for COVID-19 relief.

See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Transportation Electrification Program Support

Expenditures	\$154,926
Revenues	\$154,926

This proposal provides funding for a Planning and Development Specialist, Sr., supporting the Transportation Electrification (TE) Program. This position will provide project management, interdepartmental coordination, and research support for the Citywide TE Program. No new position authority is required. Seattle City Light will reimburse OSE for this body of work through 2025.

Green New Deal Coordination

Expenditures	\$15,000
--------------	----------

This item adds \$15,000 in General Fund appropriation for coordination between internal (City) and external (Oversight Board) Green New Deal teams. This includes funding for work planning, coordination meetings, retreats and workshops, facilities rentals, and materials.

Office of Sustainability and Environment

Appropriations by Budget Summary Level and Program

OSE - BO-SE-X1000 - Office of Sustainability and Environment

The purpose of the Office of Sustainability and Environment Budget Summary Level is to coordinate interdepartmental environmental sustainability initiatives, identify and develop next generation policies and programs, and lead the City's climate change action planning to move towards carbon neutrality.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed

Office of the City Auditor

David G. Jones, City Auditor

(206) 233-3801

<http://www.seattle.gov/audit/>

Department Overview

The Office of City Auditor was established by City Charter and serves as Seattle's independent performance audit function. The City Auditor is appointed by the City Council to a four-year term of office.

The Office of City Auditor seeks to promote honest, efficient management and full accountability throughout City government. It serves the public interest by providing the City Council, the Mayor and City employees with accurate information, unbiased analyses and objective recommendations on how best to use public resources.

The Office of City Auditor conducts audits of City departments, programs, grantees and contracts, as well as some non-audit projects. Most of the office's work is performed in response to specific concerns or requests from City Councilmembers, but the City Auditor also independently initiates work to fulfill the office's mission. If resources are available, the City Auditor responds to requests from the Mayor, City departments and the public.

Through its work, the Office of City Auditor answers the following types of questions:

- Are City of Seattle programs being carried out in compliance with applicable laws and regulations, and is accurate information furnished to the City Council and Mayor on these programs?
- Do opportunities exist to eliminate inefficient use of public funds and waste?
- Are programs achieving desired results?
- Are there better ways to achieve program objectives at lower costs?
- Are there ways to improve the quality of service without increasing costs?
- What emerging or key issues should the City Council and Mayor consider?

Office of the City Auditor

Budget Overview

The 2022 Proposed Budget includes technical adjustments to reflect changes to internal service costs, as well as \$100,000 of ongoing General Fund. This restores cuts made in the 2021 Adopted Budget due to declining revenues resulting from the COVID-19 pandemic. In addition, the proposed budget includes a technical adjustment to remove Sweetened Beverage Tax funds that were added to fund a five-year evaluation.

Incremental Budget Changes

Office of the City Auditor

	Dollars	FTE
2021 Adopted Budget	2,520,212	10.00
Baseline		
Citywide Adjustments for Standard Cost Changes	21,469	-
Proposed Operating		
Restore General Fund	100,000	-
Proposed Technical		
Remove Sweetened Beverage Tax Funds	(500,000)	-
Total Incremental Changes	\$(378,531)	-
Total 2022 Proposed Budget	\$2,141,681	10.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$21,469

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Restore General Fund

Expenditures \$100,000

In the 2021 Adopted Budget, the Office of City Auditor's budget was reduced by 5% (\$103,989) to offset revenue losses related to the COVID-19 pandemic. This change restores \$100,000 on an ongoing basis.

Office of the City Auditor

Proposed Technical

Remove Sweetened Beverage Tax Funds

Expenditures \$(500,000)

This technical item reduces the Auditor's 2022 budget by \$500,000 to remove one-time Sweetened Beverage Tax resources added to the department for a five-year evaluation. The Auditor's Office received the equivalent of \$500,000 each year from 2017 - 2021 per Ordinance requirements (ORD 125324 section 5B).

City Budget Office

Ben Noble, Director

(206) 615-1962

<http://www.seattle.gov/budgetoffice/>

Department Overview

The City Budget Office (CBO) is responsible for developing and monitoring the City's annual budget, carrying out budget-related functions, overseeing fiscal policy and financial planning activities, policy analysis, and preparing legislation for City Council review. CBO provides strategic analysis relating to the use of revenues, debt, long-term issues, and special events. The office also provides technical assistance, training, and support to City departments in performing financial functions. The Innovation and Performance team is also in CBO, supporting and advancing initiatives by using data and design to solve problems.

Budget Overview

The 2022 Proposed Budget for the City Budget Office (CBO) has several budget changes, as well as three technical changes related to changes in expected revenues, Citywide charges and personnel costs. With the creation of the new Office of Economic and Revenue Forecasts (ERF), a position is transferred from CBO to the ERF, and funding is added to CBO to cover functions not covered by the ERF. In response to many new offices and funds created in the City in recent years, a budget and policy analyst position is also included in the proposed budget.

The proposed budget also allocates Coronavirus Local Fiscal Recovery (CLFR) funds to CBO as part of Seattle Rescue Plan 3 (SRP3). These are the ongoing costs to support the additions made as a part of this plan, to cover through 2024. Three positions were added for impact analysis and evaluation, and three staff were added for project management. Separately for the proposed budget, a Strategic Advisor 3 is being added to support management of these efforts Citywide. See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

City Budget Office

Incremental Budget Changes

Innovation and Performance Impact Evaluation Staff and Affordable Seattle	1,750,995	3.00
Revenue Adjustments	-	-
Proposed Operating		
New Office of Economic and Revenue Forecasts	(19,151)	(1.00)
Increase to Budget and Policy Analysis	163,679	1.00
Total Incremental Changes	\$4,290,614	7.00
Total 2022 Proposed Budget	\$11,435,925	43.00

Description of Incremental Budget Changes

Federal funds project management staffing

Expenditures	\$2,072,024
Position Allocation	4.00

This item adds funding to support the 2022-2024 costs of three positions first hired in 2021, as well as one new sunseting Strategic Advisor 3 position, all to manage federal funding source implementation, including problem identification, solution development, internal and external liaising, budgeting, reporting, and tracking.

This item is part of a package of CLFR-funded or CLFR-enabled items comprising Seattle Rescue Plan 3 (SRP3). See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures	\$177,419
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

City Budget Office

Baseline Adjustments for Personnel Costs

Expenditures	\$145,648
--------------	-----------

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Innovation and Performance Impact Evaluation Staff and Affordable Seattle

Expenditures	\$1,750,995
Position Allocation	3.00

This item provides support for conducting impact analysis and evaluation of the City's recovery investments, optimization of existing City affordability investments, and implementation of a unified application tool for those investments. There is a related item in ITD for the implementation of the unified application tool, Affordable Seattle.

This item is part of a package of CLFR-funded or CLFR-enabled items comprising Seattle Rescue Plan 3 (SRP3). See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Revenue Adjustments

Revenues	\$(376,143)
----------	-------------

This is a technical adjustment to align base revenues with forecast revenues for the 2022 Proposed Budget. Revenues in this department are General Fund cost recovery for central services provided by this department and charged to the six funds through an allocation process. In addition, this item ends expected revenues from operating transfers from departments, which will end in 2021.

Proposed Operating

New Office of Economic and Revenue Forecasts

Expenditures	\$(19,151)
Position Allocation	(1.00)

To complement the work of the new forecast office, a net \$19,000 is reduced from the City Budget Office to provide resources for an unfunded position to support analysis and forecasting work that is not covered by the new office. A position and funding is also transferred from CBO to the new revenue forecast office.

Increase to Budget and Policy Analysis

Expenditures	\$163,679
Position Allocation	1.00

This item adds \$164,000 for a Strategic Advisor 2 position in the City Budget Office. In recent years, additional offices have been created in the City, as well as new funds. This has increased the workload in the office, as each of these requires dedicated staff to support, monitor and manage resources.

Civil Service Commissions

Andrea Scheele, Executive Director

(206) 233-7118

<http://www.seattle.gov/civil-service-commission>
<http://www.seattle.gov/public-safety-civil-service-commission>

Department Overview

The **Civil Service Commissions (CIV)** is the administrative entity serving both the Civil Service Commission and the Public Safety Civil Service Commission. The Commissions are quasi-judicial bodies charged with providing fair and impartial hearings on disciplinary actions and other employment related issues. Each commission is governed by a separate three-member board, with one member appointed by the Mayor, one appointed by the City Council, and one elected by, and representing, the employees. The term of each commissioner is three years.

The **Civil Service Commission (CSC)** provides fair and impartial hearings of alleged violations of the City's personnel rules. Employees may file appeals with the CSC regarding all final disciplinary actions and alleged violations of the Personnel Ordinance, as well as related rules and policies. The CSC may issue orders to remedy violations and may also make recommendations to the Mayor and the City Council regarding the administration of the personnel system. In addition, the CSC investigates allegations of political patronage to ensure the City's hiring practices are established and carried out in accordance with the merit principles set forth in the City Charter. The CSC conducts public hearings on personnel related issues and may propose changes to personnel rules, policies, and laws to the Mayor and the City Council.

The purpose of the **Public Safety Civil Service Commission (PSCSC)** is to implement, administer, and direct a civil service system for sworn personnel of the Seattle Police Department (SPD) and uniformed personnel of the Seattle Fire Department (SFD). The PSCSC directs and oversees entry-level and promotional civil service exams for positions in SPD and SFD, and the PSCSC provides sworn police and uniformed fire employees with a quasi-judicial hearing process on appeals concerning disciplinary actions, examination and testing, and related issues.

Total 2022 Proposed Budget	\$601,557	2.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$33,261

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures \$5,565

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Proposed Operating

Positions Reclassification Increase

Expenditures \$30,000

This item increases ongoing appropriation authority by \$30,000 to the Civil Service Commissions. This increase provides the department with sufficient budget authority to cover an increase in personnel compensation due to two position reclassifications approved in 2020 by the Seattle Department of Human Resources.

Civil Service Commissions

Increase for Ongoing Subscriptions and Services

Expenditures \$10,000

This item increases ongoing appropriation authority by \$10,000 to the Civil Service Commissions for an increase in subscriptions and services necessary to perform the core duties of the department, including court recording software, legal research, and publications for administrative rulemaking.

Office of Economic and Revenue Forecasts

Director Position, Vacant

Contact Information Not Yet Available

Department Overview

In July 2021 via Council Bill 120124, the City Council created the Office of Economic and Revenue Forecasts. The office's responsibilities, as stated in the legislation, are to staff the Economic and Revenue Forecast Council, perform economic and revenue forecasts, conduct special studies at the request of the Forecast Council and provide ad hoc analytical support on economic and revenue estimation for legislative and executive staff consistent with the work program. Such analyses are to be nonpartisan and confidential to the extent allowed by law.

The legislation also established the Economic and Revenue Forecast Council which shall receive and review the general forecasts of local economic activity and the specific forecasts of the revenues that support the City's general government programs and services. The forecasts approved by the Forecast Council by the Director of the Office of Economic and Revenue Forecasts are the official city economic and revenue forecasts and shall serve as the basis for the estimates of revenues described in RCW 35.32A.030 and 35.32A.040, provided that the Mayor or Council shall have the authority to deviate from the official forecasts as provided in Section 3.44.010. The Forecast Council shall be composed of the Mayor or designee, the Director of Finance, the Council President or designee, and the Chair of the City Council Finance Committee or designee. If the Council President and the Chair of the Council Finance Committee are the same individual, the position held by the Chair of the Council Finance Committee shall be determined by the Council President. The Forecast Council shall select one member to serve as Chair of the Forecast Council annually.

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

The 2022 Proposed Budget establishes a budget and staffing for the new Office of Economic and Revenue Forecasts (ERF). The budget provides the foundation for staff and resources necessary to carry out the office's purpose as described above in the department overview. The budget adds personnel funding for the office's 3.0 FTE: an Executive 2 position that will serve as the office's director (position authority added in the 2nd Quarter 2021 Supplemental Budget); a Strategic Advisor 2 position that will serve as the office's economist (transferred from the City Budget Office); and a new Strategic Advisor 1 position that will provide data visualization expertise and other

Office of Economic and Revenue Forecasts

support. In addition to staffing, the budget provides resources for one-time office setup expenses, internal service department charges, subscriptions and journals, training, and other necessary expenditures to produce and verify revenue forecasts.

Incremental Budget Changes

Office of Economic and Revenue Forecasts

	Dollars	FTE
2021 Adopted Budget	-	-
Proposed Operating		
Office Setup and Operations	150,250	-
Position Changes and Personnel Costs	484,669	2.00
Total Incremental Changes	\$634,919	2.00
Total 2022 Proposed Budget	\$634,919	3.00

Description of Incremental Budget Changes

Proposed Operating

Office Setup and Operations

Expenditures \$150,250

This item includes both one-time (\$24,000) and ongoing (\$126,250) appropriations to set up and establish a new office. These non-personnel-related items include subscriptions to journals and datasets, travel and training, unique IT licenses, and estimates for one-time and ongoing internal service charges such as technology purchases, cubicle setup, and office space rent. Of the total ongoing amount, \$16,750 for subscriptions and IT licenses will be reduced from CBO's budget as those items are transferred to this new office.

Position Changes and Personnel Costs

Expenditures \$484,669
Position Allocation 2.00

This item includes position changes and related appropriation for salary and benefits. For this annual budget, it is assumed the office will have hired the Director in 2021 and thus, this person will be in place at the start of 2022. The City Council added 1.0 FTE for the Director position in the 2nd Quarter 2021 Supplemental Budget, so the position authority is already in place. It is also assumed the Strategic Advisor 2 position transferring from CBO will start in this office at the beginning of 2022. This item includes position authority for an additional 1.0 FTE, Strategic Advisor 1, which is assumed to begin in April 2022 and will provide data visualization services and other office support.

Office of the Employee Ombud

Amarah Khan, Director

(206) 256-5982

Department Overview

In 2018, the Mayor issued [Executive Order 2018-04](#) creating the Office of the Employee Ombud (OEO) following the recommendations issued by the Anti-Harassment Inter-departmental Team on improving the City's workplace culture. OEO's mission is to support City employees in all branches of City government by assessing their concerns regarding workplace conduct that may be considered inappropriate; may constitute harassment, discrimination, or retaliation; and/or is in conflict with the City's Personnel Rules, Citywide workplace expectations, and other City policies. OEO is the primary conflict management resource for the City.

The OEO provides assistance to City employees through a variety of means, including conflict management and resolution, clarifying the City's processes and systems for reporting and investigations; facilitating discussions to break down miscommunication; providing the contact for represented employees' unions; and understanding what remedies are available through State or Federal agencies. The OEO also supports employees with referrals to the City's contracted Employees Assistance Program (EAP) for appropriate emotional assistance.

In addition to individual employee services, the OEO engages with policy improvements that support the City's continuous effort to provide every City employee a safe and respectful workplace where they can do their best work in serving the residents of Seattle. OEO, as part of its systemic change mission, offers trainings and capacity building to City departments so that practices and behaviors that cause conflict among us can be addressed in a proactive manner. Beginning in 2020, the OEO submits an annual report to the Mayor's Office and City Council that addresses issues extending beyond the experiences of individual employees. The report includes recommendations to clarify the City's Personnel Rules, complaint and investigations systems or trainings, and share information on patterns of inappropriate workplace conduct at the City.

Office of the Employee Ombud

Budget Overview

The 2022 Proposed Budget furthers the Mayor's commitment to the Office of the Employee Ombud and the growth necessary to carry out the office's mission. Since the creation of the department in the second quarter of 2019, it has received over 500 requests for assistance. In order to be able to keep up with the growing need, the proposed budget adds two additional positions: one position will serve as the coordinator for anti-hate crimes and crimes of bias training and development; another position will provide administrative support to the director and office.

The 2022 Proposed Budget also provides for citywide technical adjustments related to space sublease costs, internal services costs, and personnel costs.

Incremental Budget Changes

Office of the Employee Ombud

	Dollars	FTE
2021 Adopted Budget	733,298	4.00
Baseline		
Citywide Adjustments for Standard Cost Changes	49,395	-
Baseline Adjustments for Personnel Costs	20,867	-
Proposed Operating		
Increase Anti-Hate Crimes Training Capacity	151,701	1.00
Increase Administrative Support Capacity	87,618	1.00
Proposed Technical		
Space Sublease Costs	49,200	-
Total Incremental Changes	\$358,781	2.00
Total 2022 Proposed Budget	\$1,092,079	6.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$49,395

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Office of the Employee Ombud

Baseline Adjustments for Personnel Costs

Expenditures	\$20,867
--------------	----------

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Proposed Operating

Increase Anti-Hate Crimes Training Capacity

Expenditures	\$151,701
Position Allocation	1.00

This item creates a 1.0 FTE Strategic Advisor 1, Exempt pocket in the Office of the Employee Ombud (OEO), and increases ongoing appropriation authority by \$151,701 to OEO. The ongoing body of work for this position is training development and coordination related to anti-hate crimes and crimes of bias within City departments. This body of work was created in response to the Mayor's Executive Order 2020-01: Addressing Hate Crimes and Crimes of Bias, as well as Seattle City Council Ordinance 126308.

Increase Administrative Support Capacity

Expenditures	\$87,618
Position Allocation	1.00

This item creates a 1.0 FTE Administrative Specialist I pocket in the Office of the Employee Ombud (OEO), and increases ongoing appropriation authority by \$87,618 to OEO. The ongoing body of work for this position is administrative support, including, but not limited to, case intake, scheduling, ordering supplies, and developing marketing materials.

Proposed Technical

Space Sublease Costs

Expenditures	\$49,200
--------------	----------

This items increases one-time appropriation authority by \$49,200 to the Office of the Employee Ombud (OEO) for office sublease costs in 2022. Through December 31, 2022, OEO will sublease office space from the City Attorney's Office, located in Columbia Tower, at the same rate of OEO's prior office lease costs in Seattle City Hall. Prior office lease costs were included in the standard costs and rates that OEO paid to the Department of Finance & Administrative Services in 2019 and 2020.

Employees' Retirement System

Jeff Davis, Executive Director

(206) 386-1293

<http://www.seattle.gov/retirement/>

Department Overview

The Seattle City Employees' Retirement System has two major functions: administration of retirement benefits and management of the assets of the Retirement Fund. Employee and employer contributions, as well as investment earnings, provide funding for the system. Approximately 9,400 active employee members, 2,800 terminated employee members and 7,100 retired employee members participate in the plan.

The provisions of the plan are set forth in [Chapter 4.36](#) of the Seattle Municipal Code. The plan is a "defined benefit plan" which means an employee's salary, years of service, and age at the time of retirement are used to determine the amount of retirement benefits. At retirement, members are given a choice of several payment options to collect their retirement benefit. The Retirement System is led by a seven-member Board of Administration and an Executive Director appointed by the Board.

Please note that the appropriations detailed in the following tables reflect only the costs to administer the system and do not reflect payment of retiree benefits.

Budget Overview

The Seattle City Employees' Retirement System (SCERS) relies on the long-term health of its assets to sustain its long-term financial obligations to SCERS members. The long-term health of SCERS is measured by the annual January 1 funding status, a percentage that represents the value of the asset portfolio over the reserves needed to pay retirement benefits to employees.

As of January 1, 2021, SCERS net assets are valued at \$3.4 billion with a 71.6% funded status. This is an increase from 68.9% in 2020, and is still higher than the low of 62% in 2010. SCERS funding status has generally increased steadily since 2010 due to changes SCERS has made to positively impact the funding status over the long-term.

Employees' Retirement System

Annual Contributions: The plan's actuaries determine an "annual required contribution" (ARC) into SCERS so its assets grow in tandem with pension costs, which rise as new employees join SCERS, wages increase, and retirees live longer. In response to the drop in the value of its invested assets and its funded status coming out of the 2008-09 recession, SCERS and the City enhanced the plan in 2013 by revising its ARC calculation so SCERS will be fully funded after a fixed 30-year period beginning January 1, 2013 and ending January 1, 2043. In addition to the employee and employer annual required contributions, the City pays an additional fluctuating amount to achieve the fully funded status by 2043. These amounts are reflected in departmental budgets throughout the 2022 Proposed Budget.

Investment Return Assumption: In January 2014, SCERS decreased its long-term investment return assumption from 7.75% to 7.50% in anticipation of slower asset growth over the next 30 years. Effective January 2020, SCERS decreased this assumption further to 7.25%. This assumption raises the ARC so the plan relies more on employee and employer contributions that are based on salaries, which are less volatile than the investment returns affected by portfolio experience and the economy.

Asset Smoothing: SCERS implemented an asset smoothing policy in 2011 to protect the funded status from volatile year-to-year swings by recognizing annual investment return gains and losses evenly over five years. This policy results in gradual changes in the ARC so the City's contribution is more stable.

Pension Plan for New Employees Hired On or After January 1, 2017: The City began evaluating plan changes in 2012 to reduce the cost of the plan for employees and the City, thereby enhancing SCERS' fiscal stability over the long run, while still maintaining an adequate retirement benefit for employees. In 2016, the City and labor unions agreed, and Council approved, a new defined benefit plan (SCERS II) for new employees hired on or after January 1, 2017. SCERS II has a similar structure to the existing plan (SCERS I).

Under SCERS II, there is an estimated 3.8% combined savings for annual employer and employee contributions. Members of the new plan will contribute 7% of their salary toward their retirement benefit, compared to 10.03% under SCERS I. Given the lower contributions into the plan, the new SCERS II plan will provide a retirement benefit lower than the SCERS I plan, but consistent with the design of the current SCERS I plan. The SCERS II benefit will still provide City retirees with an adequate retirement income when combined with Social Security.

The 2022 Proposed Budget includes total appropriation decreases of \$209,332. This decrease is the result of several annual citywide cost adjustments for internal City service costs and adjustments to true-up the budget with the SCERS Board's approved 2021-2022 budget. On June 11, 2020 the SCERS Board of Administration reviewed and approved a change to make the approximately \$12.8 million annual Investment Management Fees non-appropriated beginning with the 2021 budget and going forward. This treatment will be the same as for the pension payments to member retirees, which are also non-appropriated. Investment management fees will continue to be reported to the Board, recorded in the City's financial system and detailed in the annual audited financial statements that are posted publicly on SCERS's website (see p. 32 of 2019 Annual Financials). The financial statements are reviewed and accepted annually by the SCERS Board, which is chaired by the Council Finance Committee Chair. The 2022 Proposed Budget also includes a technical adjustment to reduce SCERS' positions by one, which reflects an action taken earlier in 2021 in the second quarter supplemental ordinance to remove this unneeded position.

Employees' Retirement System

Incremental Budget Changes

Employees' Retirement System

Description of Incremental Budget Changes

True-up 2022 Baseline to SCERS Board-approved

Expenditures	\$(296,010)
Revenues	\$(209,332)

Adjust 2022 Baseline to 2022 SCERS Board-approved amounts:

In 2019, The SCERS Board of Administration approved a 2 year budget (for 2021 and 2022). The 2022 budget was approved for \$8,717,555 with the understanding that the few ISF fund amounts may change without going back to the Board for approval.

Using the 2021 Adopted budget as the baseline to compare to SCERS' 2022 Board Approved budget, the following baseline changes will need to be made (all considered technical changes given this is just a true-up to the approved budget and no new positions or projects are being started in 2022).

Baseline

Baseline Adjustments for Personnel Costs

Expenditures	\$47,479
--------------	----------

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$39,199
--------------	----------

Employees' Retirement System

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Technical

Continuing position change from 2021 Q2 Supplemental

Position Allocation (1.00)

Technical change to continue in the budget system a position change made in the 2021 Q2 Supplemental Budget.

Ethics and Elections Commission

Wayne Barnett, Executive Director

(206) 684-8500

<http://www.seattle.gov/ethics/>

Department Overview

The Seattle Ethics and Elections Commission (SEEC) helps foster public confidence in the integrity of Seattle city government by providing education, training, and enforcement of the City's Ethics Code, Whistleblower Code, and lobbying regulations. It also promotes informed elections through education, training, and enforcement of the City's Elections Code and Election Pamphlet Code. With the passage of [Initiative 122](#) in November 2015, the Commission now administers and funds the Democracy Voucher Program.

The Commission's work on behalf of the City of Seattle centers around five main lines of business:

Ethics Code: The Commission conducts ethics training for all City of Seattle employees upon request and through the City's New Employee and New Supervisor Orientation programs. It also provides ethics training information for City employees via the City's intranet site. The Commission issues advisory opinions regarding interpretations of the Code of Ethics and also investigates and rules upon alleged violations of the Code. More than thirty years of formal advisory opinions, organized and searchable by topic, are available on the Commission's website.

Whistleblower Code: The Commission helps to protect an employee's right to report improper governmental action and to be free from retaliation as a result of such reporting. The Commission either investigates allegations of improper governmental actions itself or refers allegations to the appropriate agency.

Elections Code and Election Pamphlets Code: The Commission fulfills the public's mandate of full campaign disclosure by:

- training organizations required to report campaign contributions and expenditures in proper reporting procedures;
- auditing campaign reports;
- working with organizations to correct errors; and
- making all campaign finance information available to the public.

Since 1993, the Commission has made summary reports of campaign financing information available to the public, and since 1995, the Commission has published campaign financing information on its website. The Commission also produces voters' pamphlets for City elections and ballot measures. It makes these pamphlets available in several languages and produces a video voters' guide with King County.

Lobbying Regulations: The Commission is charged with administering the City's lobbying regulations. The Commission collects and posts information so that residents know who is lobbying and how much they are being paid to lobby. The Commission also enforces compliance with the lobbying regulations.

Democracy Voucher Program: The Commission administers the Democracy Voucher Program which was approved with the passage of I-122 in November 2015. The primary goal of the program is to provide \$100 in vouchers to eligible Seattle residents so that they can contribute to candidates for City office who qualify to participate in the program.

Budget Overview

The 2022 Proposed Budget for the Seattle Ethics and Elections Commission adds two positions. The first is to carry out new work related to recent amendments to the City's Lobbying Code and to assist with an expanding body of work with the administration of campaign finance and lobbying laws, and the second is a net-zero conversion of temporary staff in the Democracy Voucher program to full time to carry out the ongoing work of candidate engagement, ensuring voucher accountability, and managing the technical operating needs of the program.

The proposed budget also removes funding for Democracy Voucher program costs like voucher payments, printing and mailing, as 2022 is on off-year in the bi-annual election cycle.

Ethics and Elections Commission

Description of Incremental Budget Changes

Baseline

Baseline Adjustments for Personnel Costs

Expenditures \$19,482

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Citywide Adjustments for Standard Cost Changes

Expenditures \$117,749

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Ethics and Elections Commission

Proposed Operating

Lobbying Administration 1.0 FTE

Expenditures	\$151,701
Position Allocation	1.00

This item creates one full-time Strategic Advisor 1, Exempt position in the Seattle Ethics and Elections Commission to address new work due to recent amendments to the City's Lobbying Code, and to assist with an expanding body of work related to the administration of campaign finance and lobbying laws.

Democracy Voucher Program 1.0 FTE Add

Expenditures	-
Position Allocation	1.00

This net-zero adjustment uses temporary labor funding to add a permanent Management Systems Analyst (MSA) to the Democracy Voucher Program. The position was added in a temporary capacity in 2020 to improve candidate engagement, ensure voucher accountability and to help manage the technical operating needs of the program and it's been determined that the position will be needed in an ongoing capacity to successfully carry out program requirements.

Resident Enrollment Project - One-Time

Expenditures	\$75,000
--------------	----------

This one-time add funds research, testing, technology, and community input to improve the enrollment process in the Democracy Voucher Program for residents who are not registered voters (registered voters are automatically enrolled in the program).

Proposed Technical

DEPT Balancing

Revenues	\$(2,131,922)
----------	---------------

This is a technical item to balance revenues and expenditures for the Funds managed by this department.

Zero Out 2021 One Time Adjustments

Expenditures	\$(7,666,006)
Revenues	\$(5,417,751)

This entry zeroes out the 2021 Use of Fund Balance adjustment and the election cycle increase for voucher disbursements.

<http://www.seattle.gov/fas>

Department Overview

The Department of Finance and Administrative Services (FAS) is often the public's first interaction with the City of Seattle, operating as a customer-focused front door that assists with everything from starting a business or paying utilities, to reporting a pothole, requesting public information or even adopting a new pet. The department's 600-plus employees span across 16 divisions and work behind-the-scenes providing critical functions, like processing payments to 13,000 City employees, managing 120 City facilities—including police and fire stations—and directly providing \$270 million in City services annually.

Broadly, FAS' work can be split into four categories.

Customer Services

FAS oversees the City's Customer Service Bureau, the Downtown Customer Service Center and the six neighborhood customer service centers located throughout the city. Over the phone, online and in person, customers can get information, request services, pay bills, resolve problems and voice opinions. The department also oversees the Find It, Fix It app, which operates similar to a 311 line for the City. Over most of the pandemic, FAS also operated a remote COVID-19 hotline that supported residents across King County in scheduling free COVID tests and vaccination appointments. In addition, FAS oversees the City's efforts to comply with Title II of the Americans with Disabilities Act. Finally, through the Seattle Animal Shelter, FAS advocates for animal welfare, reunites lost animals with their owners and finds suitable owners to adopt homeless animals.

Regulatory Services

FAS ensures that all businesses operating in Seattle are properly licensed and pay the required business and occupation taxes. FAS issues regulatory licenses for certain business types including taxis, transportation network companies and for-hire vehicles, adult entertainment venues, door-to-door salespeople, short-term rentals, recreational cannabis establishments and trade shows—and enforces requirements related to those licenses. FAS also monitors certain types of businesses to increase consumer safety and ensure proper charges for services. This includes setting rate caps for tows on private property, as well as ensuring that consumers are not overcharged due to an inaccurate device, such as a gas pump or a supermarket scanner or scale. As the central coordinator for City contracting, FAS establishes policies and procedures to ensure fair competition for City-funded construction projects and oversees programs to ensure everyone in the community has equal access to jobs and opportunities involving those projects. As part of these efforts, FAS administers the City's Priority Hire program to increase employment within the construction trades among women, people of color and those living in economically distressed ZIP codes. FAS also enforces animal-related ordinances, including the investigation of animal cruelty, neglect and abuse.

Financial Services

FAS also prioritizes sustained fiscal health for the City in balance with the goals set forth by the Mayor and the City Council. The department accomplishes this by providing Citywide financial direction and cohesive policies to City departments. In addition, FAS manages the City's bond issuance and internal loan programs, administers City-levied taxes, oversees the City's retirement boards, invests City funds and issues reports on City financial activity. FAS ensures that City revenues are collected, and that vendors and City employees are paid properly in a timely manner. As a partner with the City's Law Department, FAS administers the payment of claims and judgments for damages against the City. The department also oversees City financial systems and partners with the Seattle Department of

Department of Finance and Administrative Services

Human Resources to oversee the City's human resources system. City Finance also provides financial oversight of the Central Waterfront Improvement Fund.

Operational Services

FAS designs, builds and maintains most City-owned buildings, including Seattle City Hall, the Seattle Municipal Tower, the Justice Center, the Joint Training Facility, 33 neighborhood fire stations and five police stations. When departments need to acquire property or when the City no longer has a purpose for a property, FAS is responsible for managing the acquisition or disposition of the property. FAS also maintains the City's 4,000-vehicle fleet, which includes police patrol cars, fire engines and heavy equipment. Finally, FAS leads all Citywide emergency management logistics. The department has played an important role throughout the pandemic by helping launch the City's four mass test sites, which provided over 1 million free tests, and by standing up and operating the largest civilian-led mass vaccination site at Lumen Field. The site, a partnership between FAS, Swedish and First and Goal, provided more than 102,000 vaccines—44 percent of which served BIPOC residents. FAS's budget is split into the following sixteen divisions:

Public Facing Divisions

- **Consumer Protection** regulates 21 specific business types including short-term rentals, adult entertainment, cannabis businesses, taxis, - for-hire or TNC vehicles and others to protect consumers.
- **Customer Service** leads the City's 311 phone service and serves constituents through its Customer Service Bureau and neighborhood customer service centers. The division also manages Americans with Disabilities Act Title II compliance.
- **License and Tax Administration** manages the new Payroll Expense Tax, the City business licensing process and collects more than \$500 million in annual fees and taxes from 100,000 commercial enterprises doing business in the City.
- **Purchasing and Contracting** manages bids, public works and contracting needs. The division also supports the City's race and social justice initiative by expanding contracting equity for women- and minority-owned businesses and supporting labor equity on City construction projects..
- **Seattle Animal Shelter** promotes safety and animal welfare by enforcing animal laws, operating sheltering and adoption programs, managing a spay and neuter clinic and providing care and services for over 5,000 animals annually.
- **Treasury Services** receives, processes, reconciles and distributes the City's funds. Treasury also collects debts and monitors cash flow to ensure City operations, like utilities and payroll, are funded. They are the legal stewards of the City's cash assets.

Internal Facing Divisions

- **Accounting and Budget Services** provides everything from budget oversight to financial planning for FAS, other small departments and City executive offices to create transparent, understandable financial reports.
- **Business Systems** manages Citywide business processes and software to support financial activities across the organization, as well as across multiple jurisdictions in Western Washington.
- **Capital Development** plans, designs and builds City structures, facilities and work spaces in a manner that is fiscally responsible, environmentally sustainable and responsibly compliant with equal access for all.
- **Citywide Accounting and Payroll** prepares the City's Comprehensive Annual Financial Report and other reports required by the State and Federal government to facilitate transparency in the City's 420,000-plus annual transactions. The division also implements standard accounting practices and manages all payroll.
- **Facility Operations** manages and maintains more than 120 public structures, including offices, parking garages, maintenance shops and police and fire stations.
- **Fleet Management** leads the procurement, maintenance and fueling for the City's 3,800-plus vehicle fleet, providing safe, cost-effective services and environmentally sustainable transportation for City employees.
- **Human Resources** partners with FAS' diverse group of divisions to support recruitment, hiring, compensation and classification, and performance management in a way that is equitable and fosters a respectful, collaborative and safe work environment.

Department of Finance and Administrative Services

- **Logistics and Emergency Management** leads emergency planning/procurement, security services, access management, janitorial services, warehouse operations and mail distribution for the City.
- **Real Estate Services** manages a Mayoral directive for innovative and efficient citywide real estate portfolio development. The team acquires, disposes of and leases real property for public purposes. The team also collaborates with City departments on real estate transactions.
- **Risk Management** reviews City contracts to specify appropriate insurance levels, advises City departments on how to reduce or avoid loss, adjusts claims for damages filed and administers all City insurance policies and the City's self-insurance program.

Internal service operations in FAS are primarily supported through charges to other City departments and, in some cases such as when the City leases space, by private businesses or individuals. FAS also collects certain fees specifically to pay for its services, such as the Seattle Animal Shelter Spay and Neuter Clinic, pet licensing, the Weights and Measures program and for-hire driver licenses. The General Fund supports certain FAS services, including administration of the City's taxes and business licensing services.

Organizational Structure

In addition to the central FAS services mentioned above there are several budgetary units across the City for which FAS is not directly responsible for staffing or service provision but are housed within the FAS organizational structure. For these areas FAS works with the City Budget Office to facilitate resource requests and financial plans when required. Those units are:

- **Judgment and Claims**, which provides for the payment of legal claims and suits brought against the City government.
- **Jail Services**, which provides for the booking, housing, transporting and guarding of City inmates who are adults charged with or convicted of misdemeanor crimes alleged to have been committed within city limits.
- **Indigent Defense Services**, which secures legal defense services, as required by state law, for indigent people facing criminal charges in Seattle Municipal Court.
- **Transit Benefits**, which pays for the transit benefits offered to City employees.

Budget Snapshot

	2020 Actuals	2021 Adopted	2022 Proposed
Department Support			
General Fund Support	37,776,239	54,396,056	53,530,283
Other Funding - Operating	223,605,111	266,990,139	265,635,683
Total Operations	261,381,350	321,386,194	319,165,966
Capital Support			
General Fund Support	59,947	-	-
Other Funding - Capital	47,248,891	38,198,443	56,654,505
Total Capital	47,308,838	38,198,443	56,654,505
Total Appropriations	308,690,188	359,584,637	375,820,471
Full-Time Equivalents Total*	610.00	623.00	626.00

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Department of Finance and Administrative Services

Budget Overview

As an internal services department, the Department of Finance and Administration (FAS) supports all City departments through its fleets, facilities, customer service, finance, contracting and purchasing functions. FAS bills many of its functions to other City departments through central rates and allocations. FAS also performs general government functions, like business licensing and tax collection, consumer protection, parking meter collections, and operation of the Seattle Animal Shelter, which are funded directly in the General Fund.

Investing in Critical Technology Systems

The 2022 Proposed Budget includes investments in several IT systems, including the fleet asset management system, and the replacement systems for both the Online Business Directory and the Risk Management software system. The proposed budget also includes partial funding for a replacement software solution that maintains the Business and Occupation Tax and other tax data (SLIM). In addition to these key investments, FAS continues to work with Seattle IT and Seattle Department of Human Resources on the implementation of a Human Capital Management system (HCM) to ensure the effectiveness of the City's payroll, human resources and timekeeping capabilities. The HCM vendor selection process is expected to be complete by year-end 2021.

Another Citywide system, the Citywide Contract Management System is expected to be complete by 2022. The proposed budget adds funding for one permanent position and one temporary position to manage ongoing change management and be the central point of contact for departments' ongoing process improvement with the new system.

Responding to COVID-19

Throughout 2020 and 2021, FAS has been at the center of the City's response to the COVID-19 crisis. Establishing a central warehouse for city supplies, developing safety protocols for reopening, working with the Seattle Fire Department (SFD) to find locations and set-up the four mass testing sites around the City, and then standing up and operating the largest civilian-led mass vaccination site in the country at Lumen Field are among the ongoing efforts of the department. These activities finished in July 2021. As services at City buildings continue to resume, FAS will continue to lead the effort to ensure they are safe and accessible. The majority of these expenses will be reimbursed by external revenues.

This budget also adds funding, backed by central rates, for four positions that were temporarily defunded in the 2021 Adopted Budget. FAS has faced increased demands related to the City's COVID-19 response, including increases in hiring and purchasing activities. One of the positions being funded is in human resources, and two are in logistics and emergency planning. The logistics and emergency management positions will lead purchasing and warehousing efforts.

Capital Projects

The proposed budget includes a capital investment in two of FAS' office floors in the Seattle Municipal Tower. This investment will complete the final two phases of FAS' space improvements. These space improvements will be designed with a new office work reality in mind and will include flexible workspaces and improvements to a public-facing floor of the building. The proposed budget also includes funding for the asset preservation program.

Supporting Effective First Response

FAS is responsible for all of the City's public safety facilities, including maintenance on existing facilities and the design and construction of any new facilities. The proposed budget includes capital investments in essential services, such as a new generator for the Seattle Animal Shelter, and a seismic assessment for five public safety facilities that were all built prior to the 2001 Nisqually earthquake.

Department of Finance and Administrative Services

Taxation Implementation

The 2020 Adopted Budget launched the City's Fare Share program with a tax on Transportation Network Companies (TNC), to support critical transportation and housing projects. As the Citywide tax administrator, FAS is responsible for collecting this tax. Although new positions were added in the 2021 Adopted Budget, FAS was able to absorb the work with existing treasury and finance staff. The proposed budget removes the positions added to FAS in the 2021 Adopted Budget.

Along with the TNC tax, the City established a payroll expense tax on companies with high employee salaries. Positions to support implementation were added to the FAS budget in 2021; however, they will not be needed until 2023 when auditing of revenues begins. The proposed budget temporarily reduces funding for six vacant positions that were added to support the implementation of this tax and the Heating Oil tax (which has been delayed).

Investing in Workforce Development

The proposed budget further invests in the City's Priority Hire program. In addition to the \$1 million recommended for investment by the Equitable Community Initiative Task Force, the 2022 Proposed Budget includes \$500,000 more for the Priority Hire program. The program provides technical assistance to Women and Minority Business Enterprises (WMBE) firms to do business with the City, and wrap-around services intended to support construction apprenticeship training and retention of apprentices and workers who are members of Black, Indigenous, and People of Color (BIPOC) communities.

Historic Seattle and Pike Place Market PDA Support

Given the important nature of the services provided, the City has an interest in ensuring the continuation of public development authorities (PDAs) and the important housing, social, economic development, and other community services they provide. The proposed budget adds appropriation authority to issue Limited Term General Obligation (LTGO) bonds for use by PDAs, including Pike Place Market PDA and the Historic Seattle PDA. This kind of support to PDAs has been used in the past for Pike Place Market, most recently for the Central Waterfront MarketFront Entrance project in 2015 and is consistent with the City's debt management policies which allows capital lending to PDAs.

Coronavirus Local Fiscal Recovery (CLFR) funds

The Proposed Budget allocates Coronavirus Local Fiscal Recovery (CLFR) funds to FAS as part of Seattle Rescue Plan 3 (SRP3). The CLFR funds support three positions through 2024 to manage federal funds related to COVID-19. These positions play a critical role in ensuring compliance with CLFR requirements. See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Total 2022 Proposed Budget	\$375,820,471	626.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,458,073

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Language Premium Staff Stipend

Expenditures \$9,600

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations

Department of Finance and Administrative Services

are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021.

Proposed Operating

Funding for Workforce Equity and WMBE Support (Equitable Communities Initiative)

Expenditures	\$1,000,000
Revenues	\$1,000,000

This item adds ongoing funding to provide technical assistance to WMBE firms to do business with the City and aims to provide wrap-around services to support construction apprenticeship training and retention of Black and Indigenous People of Color community (BIPOC) apprentices and workers. This investment was recommended by the Equitable Communities Initiative Task Force.

Priority Hire Expansion

Expenditures	\$500,000
Revenues	\$500,000

This item is an additional one-time investment in the Priority Hire Program. The scalable program provides technical assistance to WMBE firms to do business with the City, and wrap-around services intended to support construction apprenticeship training and retention of apprentices and workers who are members of Black, Indigenous, and People of Color (BIPOC) communities. The item is funded by a transfer of General Fund from Finance General.

This item is part of a set of workforce development programming enabled by CLFR funds, and is part of Seattle Rescue Plan 3 (SRP3). The workforce development programming seeks to create strong pathways to middle wage jobs and more wealth-generating businesses in industries that will thrive in the future. Investments in economic inclusion will help Seattle recover from the pandemic and position our local economy for continued equitable growth.

The other departments receiving workforce development allocations enabled by CLFR funds are: ARTS, OED, OH, OIRA, and OSE. See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Historic Seattle Public Development Authority Capital Needs - Good Shepherd Center

Expenditures	\$1,800,000
--------------	-------------

The City is issuing Limited Tax General Obligation (LTGO) bond proceeds in 2022 to provide financing support to Historic Seattle Public Development Authority for a seismic retrofit improvement of the Good Shepherd Center. This item provides appropriation for FAS to loan funds to Historic Seattle for eligible capital expenditures. FAS will develop a loan agreement with Historic Seattle (subject to authorization by Council ordinance) that will describe the full terms of the loan and repayment schedule.

Pike Place Market Public Development Authority Capital Needs

Expenditures	\$6,000,000
--------------	-------------

The City is issuing Limited Term General Obligation (LTGO) bond proceeds in 2022 to provide financing support to the Pike Place Market Preservation and Development Authority (PPMPDA) to further its mission of continuing to provide opportunities for market farmers, merchants and shoppers, while also expanding residential opportunities for low-income residents. This item provides appropriation for FAS to loan funds to the PPMPDA for eligible capital expenditures. This amount was included in the 2021 Adopted Budget; however, the timing of projected funding needs of the PPMPDA have changed to 2022. The funding in the 2021 Adopted Budget for this same purpose was abandoned in full in the 2nd Quarter Supplemental Budget Ordinance in 2021.

Department of Finance and Administrative Services

Technical Change to the Bond Interest and Redemption Fund

Expenditures	\$278,873
Revenues	\$505,211

This item adds appropriation to pay the debt service associated with the 2022 debt issuance planned on behalf of the public development authorities.

Eliminate Two Positions Added for TNC Tax Administrative Support

Position Allocation	(2.00)
---------------------	--------

This item eliminates two positions that were added in the 2021 Adopted Budget to support the administrative work of the Fare Share program, the program name using the Transportation Network Company (TNC) funding. The existing team is absorbing this body of work and the department did not fill the positions. TNC funding for the positions was reallocated to support TNC system costs.

Temporarily Defund Vacant Tax Positions

Expenditures	\$(1,070,600)
--------------	---------------

This item temporarily defunds six positions in the Department of Finance and Administrative Services (FAS). The areas impacted are License and Tax Administration and Treasury Services. This temporary reduction is possible because the Heating Oil tax implementation was delayed and the auditing for the Payroll Tax is not expected to be fully operational in 2022. This item also reduces the funding for the two TNC related positions that are eliminated in the 2022 Proposed Budget.

Non-Labor Reductions

Expenditures	\$(415,500)
--------------	-------------

This item reduces the non-labor budget in several programs including Accounting and Budget Services and Fleet Management. It also includes a true-up of fuel use projections.

Waterfront Redevelopment Local Improvement District Administrative Cost Reduction

Expenditures	\$(1,114,505)
--------------	---------------

This item reduces budget appropriation for the administrative expenses associated with the implementation of the Central Waterfront Local Improvement District (LID). Starting in 2022, after LID Bonds are sold, there will be no additional Waterfront LID administration costs outside of the normal operations of FAS Treasury Services. This change right sizes the 2022 budget for the Waterfront LID.

Judgement and Claims Fund 2022 Adjustment

Expenditures	\$2,678,754
Revenues	\$2,678,754

Starting in 2016, the Judgment and Claims (JC) fund expenditures have been showing a higher trend in the settlement and judgments in tort cases and the use of outside counsel. This trend continues through 2021 and is expected to remain high through 2022. In 2018, Resolution 31847 revised the JC policies and began ramping up the budget appropriation based on the actuarial reports beginning with a 50% confidence level of meeting actual expenditures in 2019 with increases of 10% each successive year until 90% is achieved by 2023. This additional appropriation will increase funding to the 80% confidence level in 2022.

Department of Finance and Administrative Services

Transfer Public Disclosure Position to Seattle IT

Expenditures	\$(143,583)
Position Allocation	(1.00)

This item transfers the Citywide Public Records Act Program, and position and budget authority for one Strategic Advisor from the Department of Finance and Administrative Services to the Seattle Information Technology Department. This position has been working in Seattle IT since Q4 2020 as part of an operating agreement between the departments.

Refunding Critical Positions Unfunded in the 2021 Budget

Expenditures	\$607,435
--------------	-----------

This item adds funding for four critical positions previously unfunded to meet prior budget reductions. The positions are critical to support base operations in the areas of human resources, accounting support to small department and executive offices, and support for logistics and emergency planning.

Citywide Contract Management System (CCMS) Support

Expenditures	\$352,742
Position Allocation	1.00

This item adds funding and position authority for one permanent position and one temporary position for the ongoing production support of the new Citywide Contract Management System (CCMS). CCMS is an enterprise-wide system that incorporates comprehensive contract lifecycle management, including contract development, contract management, contract administration and contract termination functionality for all City departments. The new CCMS system will cover virtually all of the City's procurement and other contracting mechanisms, including blanket contracts, consultant contracts, Public Works contracts, leases, concessionaires, intergovernmental agreements, human services provider agreements and grants, etc.

Online Business Directory Replacement

Expenditures	\$581,000
--------------	-----------

This item adds one-time funding to replace the existing Online Business Directory (OBD), which is used to display companies, including self-identified minority-owned, women-owned and LGBTQ businesses, who have either expressed interest in doing business with the City or who are doing business with the City. The City's Consultant Roster Program is also integrated with the OBD. The system is a critical component of the City's overall contracting and WMBE program and is used both internally and externally. With over 14,000 businesses registered in the OBD, the system is an essential tool in connecting businesses with City purchasers who need their products and services. The existing system is outdated and has critical user experience issues.

Risk Envision System Replacement

Expenditures	\$505,000
--------------	-----------

This item adds one-time funding to replace the existing Risk Management Information System (RMIS) by utilizing a system like the one Seattle Department of Human Resources is using for Workers' Compensation claims. This item was previously approved in the 2020 Adopted Budget with a bond funding source but was later determined to be ineligible for bond funding. The funding for this project is now included in risk management rates.

Fleet Capital Asset Management Software Implementation

Expenditures	\$175,000
--------------	-----------

Department of Finance and Administrative Services

This item adds one-time funding for the implementation of a Capital Asset Management software (CAM) with integration to the current fleet information management system, Fleet Anywhere. CAM will enable FAS to better project future fleet capital costs and make informed policy decisions on fleet life cycles and electrification. CAM integrates maintenance cost analysis and projections which will enhance FAS' ability to project citywide maintenance costs, improve rate calculations and methodology, and right-size fleet staffing to meet the demands of the fleet.

American Medical Response Study

Expenditures	\$25,000
--------------	----------

This item adds one-time funding for a study of the American Medical Response contract's wages.

Fort Lawton Increased Maintenance Needs

Expenditures	\$428,745
Revenues	\$428,745

This item increases ongoing appropriation authority for facility and property maintenance needs at the Fort Lawton property. The Department of Finance and Administrative Services identified the need to dedicate more property management resources to the location to maintain the property per the terms of the agreement with the US Army. This item will be funded by the Office of Housing Department and the Parks and Recreation Department via central rates.

2022 Transit Benefit Fund Revenue and Expenditure Adjustment

Expenditures	\$605,000
Revenues	\$605,000

This change increases appropriation authority in the Transit Benefit Fund (63000) to align with expected transit usage in 2022. It also increases revenues in the fund in equal amount.

Internal Federal Funds Project Staffing

Expenditures	\$1,411,000
Position Allocation	3.00

This item adds funding for essential temporary staff to ensure the City is properly resourced to manage federal funds related to COVID-19 recovery. This item provides three years of funds to support three positions through 2024. This item is part of a package of CLFR-funded or CLFR-enabled items comprising Seattle Rescue Plan 3 (SRP3). See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Proposed Capital

Update Debt Service for Seattle Public Safety Facilities

Expenditures	\$(167,512)
--------------	-------------

This technical change updates the public safety facilities' funding due to a debt service cost change.

Animal Shelter Capital Improvements

Expenditures	\$500,000
--------------	-----------

FAS is the lead department for the care and control of animals at the Seattle Animal Shelter (SAS) and coordinating the sheltering and care of animals during a disaster. The Pets Evacuation and Transportation Standards Act of 2006

Department of Finance and Administrative Services

requires the City to accommodate households with pets or service animals displaced by an earthquake. This requirement includes continuing animal care, refrigeration and communication with law enforcement and other external agencies. Facility upgrades are required to meet this responsibility.

This project establishes a new ongoing program to address evolving safety and operational requirements of the Seattle Animal Shelter. The initial projects in this program will address SAS' highest priorities, including replacement of the emergency generator for the building. The current generator for the building was installed in 2004. The typical life span of a diesel generator is 18 years. In the event of an emergency such as an earthquake or long-term power outage, the current generator does not have enough capacity to support the SAS' operational needs.

Seismic Program: Public Safety Facilities Assessment

Expenditures	\$350,000
--------------	-----------

This item adds funding for the Seismic Retrofit Facilities Improvements program. FAS facilities house important City services, many of which will be critical in the event of an earthquake. The Seismic Retrofit Facilities Improvements program will perform a preliminary engineering evaluation of the current portfolio and develop an implementation plan for seismic retrofits in FAS facilities to increase the City's resiliency, reduce life safety issues due to a catastrophic event and reduce the risk of downtime or impacts to critical City services.

The 2003 Fire Facilities and Emergency Response Levy retrofitted or rebuilt 32 neighborhood fire stations and constructed the Joint Training Facility, however the remaining 49 buildings in the portfolio are still potentially at risk. This item includes funding for a seismic assessment of five public safety facilities.

Seattle Municipal Tower (SMT) Tenant Improvement of FAS Space

Expenditures	\$1,612,000
--------------	-------------

This item adds funding for the SMT Master Space Plan; it assumes an additional \$2.5 million in the 2023 CIP. This plan will reduce FAS' footprint, co-locate functions and create more equitable workspaces in the City's Downtown Civic Campus.

The SMT Master Plan's first phase was funded with \$3.0 million in previous adopted budgets to address FAS' tenant improvement needs within FAS occupied floors. The proposed budget completes phases 2 and 3 of the FAS SMT Master Space Plan, reducing the FAS SMT footprint from four floors to three, improving space utilization and creating efficiencies.

Additional Real Estate Excise Tax (REET) for Asset Preservation

Expenditures	\$1,350,000
--------------	-------------

This item adds additional REET funding to the 2022 Proposed Budget for Asset Preservation needs in addition to the \$4 million collected annually in space rent central rates.

Tenant Improvement at Park 95

Expenditures	\$500,000
--------------	-----------

This item adds unrestricted cumulative reserve funds to separate Parking Enforcement Officer (PEO) vehicles from Seattle Police Department (SPD) equipment. The PEO unit has transferred to the Seattle Department of Transportation; since it is no longer part of SPD, there is a greater need for separation.

City Tax System (SLIM) Replacement

Expenditures	\$4,300,000
--------------	-------------

Department of Finance and Administrative Services

This item adds funding for an estimated total project cost of \$11.2 million with the initial funding of \$4,300,000 in 2022 to begin evaluating and planning for the replacement of the Seattle Licensing and Information Management (SLIM). Future funding will need to be allocated.

Allocate Municipal Energy Efficiency Project (MEEP) funds to Seattle Parks and Recreation

Expenditures \$(526,809)

This item transfers \$526,809 of 2022 CIP funding to Seattle Parks and Recreation for municipal energy efficiency projects at several community center sites.

Allocate Municipal Energy Efficiency Project (MEEP) funds to Seattle Center

Expenditures \$(78,000)

This item transfers \$78,000 of 2022 CIP funding to Seattle Center for a municipal energy efficiency project at Seattle Rep/Bagley Wright Theatre and McCaw Hall.

Allocate Municipal Energy Efficiency Project (MEEP) funds to Seattle Public Library (SPL)

Expenditures \$(300,000)

This item transfers \$300,000 of 2022 CIP funding to Seattle Public Library for a municipal energy efficiency project at Green Lake Library.

Proposed Technical

Cost of Issuance and Debt Service Budget Control Level (BCL) Adjustment

Expenditures \$(8,532,742)

This is a technical item that updates the Budget Control Level (BCL) for bond issuance and debt service costs.

Fund Balancing Entries

Revenues \$(14,258,949)

This is a technical item to record a fund balancing entry for the 50300 Finance and Administrative Services Fund, 67600 FileLocal Agency Fund, 50321 Fleet Capital Fund, and 12100 Wheelchair Accessible Fund, which are primarily managed by this department.

Reduce Fleet Capital Appropriation

Expenditures \$(4,820,618)

This item reduces 2022 fleet capital program appropriation in response to FAS' 2021 3rd Quarter Supplemental Budget Ordinance request to increase appropriation in 2021. FAS will order 2022 vehicle replacement in 2021 to help offset the delays in vehicle replacement timelines.

Re-entry of Baseline Expenditure Budget

Expenditures \$223,750,541

Department of Finance and Administrative Services

This item is the re-entry of the expenditure budget data removed in the 'Reversal of Rolled Budget Lines. This item aligns the base budget data at all levels, including the detail project level.

Revenue Adjustments

Revenues	\$210,110,998
----------	---------------

This technical adjustment adds the 2022 Proposed Budget's revenue budget.

Reversal of Baseline Budget Data

Expenditures	\$(223,750,542)
Revenues	\$(203,766,282)

This item is a technical adjustment to reverse the budget lines in the budget system, they are re-entered in 'Re-entry of Base Expenditure Budget' and 'Revenue Adjustments.'

Reversal of Central Adjustment

Expenditures	\$(1,458,073)
--------------	---------------

This item reverses the centrally budgeted Citywide technical adjustments made in the baseline phase that reflect changes to internal services costs, including rates from Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process. The budget for this central adjustment is added back in the Technical Changes item below.

Reversal of One Time Items

Expenditures	\$(6,000,000)
--------------	---------------

This item includes budget adjustments for one-time changes in the 2021 Adopted Budget.

Seattle Public Schools Agreement Position Technical Add to Baseline

Position Allocation	2.00
---------------------	------

This item adds two positions that were approved in 2020 to support the body of work that came from an agreement with Seattle Public Schools. These positions were not added to the 2021 Adopted Budget. This technical item adds them to the 2022 Proposed Budget.

Technical Changes

Expenditures	\$2,919,172
--------------	-------------

This item reflects baseline and technical adjustments to several Budget Control Levels, increasing appropriation by \$2.9 million across all funds and several programs in the Department of Finance and Administrative Services (FAS). This increase includes baseline updates, such as making past supplemental budget additions ongoing and adjusting the budget for external lease costs. It also includes technical adjustments and changes to inflation compared to the 2021 Adopted Budget.

FAS - BC-FA-ADAIMPR - ADA Improvements

The purpose of the ADA Improvements - FAS Budget Summary Level is to update or modify facilities for compliance with the standards contained in the American with Disabilities Act.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
ADA Improvements	944,901	1,000,000	400,000
Total	944,901	1,000,000	400,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Department of Finance and Administrative Services

FAS - BC-FA-APSCH1FAC - Asset Preservation - Schedule 1 Facilities

This purpose of the Asset Preservation - Schedule 1 Facilities Budget Summary Level is to provide for long term preservation and major maintenance to the Department of Finance and Administration's schedule 1 facilities. Schedule 1 facilities consist of existing and future office buildings located in downtown Seattle, including but not limited to City Hall, the Seattle Municipal Tower and the Justice Center. Typical improvements may include, but are not limited to, energy efficiency enhancements through equipment replacement, upgrades/repairs to heating/ventilation/air conditioning systems, upgrades/repairs to electrical systems, upgrades/repairs to fire suppression systems, roof repairs or replacement, and structural assessments and repairs. This work ensures the long-term preservation of the operational use of the facilities.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Asset Preserv_Sch 1 Facilities	14,861,043	10,652,000	13,002,000
Total	14,861,043	10,652,000	13,002,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-APSCH2FAC - Asset Preservation - Schedule 2 Facilities

This purpose of the Asset Preservation - Schedule 2 Facilities Budget Summary Level is to provide for long term preservation and major maintenance to the Department of Finance and Administration's schedule 2 facilities. Schedule 2 facilities comprise existing and future structures, shops and yard located throughout Seattle, including but not limited to City vehicle maintenance facilities at Haller Lake and Charles Street, Finance and Administrative Services shops located at Airport Way S., fire stations, police precincts including the animal shelter, and other FAS managed facilities used for City Services. Typical improvements may include, but are not limited to, energy efficiency enhancements through equipment replacement, upgrades/repairs to heating/ventilation/air conditioning systems, upgrades/repairs to electrical systems, upgrades/repairs to fire suppression systems, roof repairs or replacement, and structural assessments and repairs. This work ensures the long-term preservation of the operational use of the facilities.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Asset Preserv_Sch 2 Facilities	3,947,483	3,393,000	2,348,000
Total	3,947,483	3,393,000	2,348,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-EXTPROJ - FAS Oversight-External Projects

Department of Finance and Administrative Services

The purpose of the FAS Oversight-External Projects Budget Summary Level is to provide a structure for debt financing projects, including information technology projects, for City departments that lack their own capital program.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
FAS Oversight - External Proj	2,491,442	2,500,000	1,595,191
Total	2,491,442	2,500,000	1,595,191

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-FASPDs - FAS Project Delivery Services

The purpose of the FAS Project Delivery Services Budget Summary Level is to execute capital projects in general government facilities.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
FAS Project Delivery Services	6,393,548	3,500,000	3,500,000
Total	6,393,548	3,500,000	3,500,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-GARDENREM - Garden of Remembrance

The purpose of the Garden of Remembrance Budget Summary Level is to provide City support for replacing components of the memorial located at the Benaroya Concert Hall.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Garden of Remembrance	29,218	30,065	30,937
Total	29,218	30,065	30,937

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-GOVTFAC - General Government Facilities - General

The purpose of the General Government Facilities - General Budget Summary Level is to execute capital projects in general government facilities.

Department of Finance and Administrative Services

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
General Govt Facilities	5,437,138	180,000	2,462,000
Total	5,437,138	180,000	2,462,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-NBHFIRES - Neighborhood Fire Stations

The purpose of the Neighborhood Fire Stations Budget Summary Level is to replace and renovate fire stations and other emergency response facilities as part of the Fire Facilities and Emergency Response Levy program.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Neighborhood Fire Stations	3,425,627	3,723,378	4,180,624
Total	3,425,627	3,723,378	4,180,624

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-PRELIMENG - Preliminary Engineering

#N/A

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Preliminary Engineering	26,049	-	-
Total	26,049	-	-

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-PSFACFIRES - Public Safety Facilities Fire

The purpose of the Public Safety Facilities - Fire Budget Summary Level is to renovate, expand, replace, or build fire facilities.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Public Safety Facilities_Fire	5,648,265	5,220,000	7,200,000
Total	5,648,265	5,220,000	7,200,000

Department of Finance and Administrative Services

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-PSFACPOL - Publ Safety Facilities Police

The purpose of the Public Safety Facilities - Police Budget Summary Level is to renovate, expand, replace, or build police facilities.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Publ Safety Facilities_Police	4,104,125	-	-
Total	4,104,125	-	-

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BO-FA-BUDCENTR - Leadership and Administration

The purpose of the Leadership and Administration budget summary level is to provide executive, communications, financial, human resource, and business support and strategic planning and analysis to the department. This BSL also supports FAS Citywide, department-wide, and divisional indirect costs, as well as indirect costs related to paid time off and pooled benefits, to meet the City's standard indirect cost model.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Citywide Indirect Costs	7,767,079	7,115,341	8,165,955
Departmental Indirect Costs	5,864,398	8,457,006	8,748,558
Divisional Indirect Costs	6,331,792	6,757,270	7,425,581
Indirect Cost Recovery Offset	(19,962,391)	(22,329,617)	(24,285,283)
Paid Time Off	-	-	(1)
Pooled Benefits	-	-	9,544
Total	878	-	64,354
Full-time Equivalents Total*	47.00	47.00	73.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Total	-	-	1,800,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BO-FA-INDGTDEF - Indigent Defense Services

The purpose of the Indigent Defense Services Budget Summary Level is to secure legal defense services, as required by State law, for indigent people facing criminal charges in Seattle Municipal Court. Funding is also provided for a pilot program offering civil legal representation to indigent defendants.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Indigent Defense Services	8,439,881	9,606,474	9,606,474
Total	8,439,881	9,606,474	9,606,474

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BO-FA-JAILSVCS - Jail Services

The purpose of the Jail Services Budget Summary Level is to provide for the booking, housing, transporting, and guarding of City inmates. The jail population, for which the City pays, are adults charged with or convicted of misdemeanor crimes alleged to have been committed within the Seattle city limits.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Jail Services	7,850,866	18,539,147	18,539,147
Total	7,850,866	18,539,147	18,539,147

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BO-FA-JR000 - Judgment & Claims Litigation

The purpose of the Litigation Expenses Budget Summary Level is to pay anticipated, pending or actual judgments, claims payments, advance claims payments, and litigation expenses incurred while defending the City from judgments and claims. The Litigation Expenses Budget Summary Level is supported by the Judgment/Claims Fund of the General Fund.

Department of Finance and Administrative Services

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed

FAS - BO-FA-JR010 - Judgment & Claims General Legal

Department of Finance and Administrative Services

The purpose of the General Legal Expenses Budget Summary Level is to pay legal costs associated with litigation or potential litigation involving the City, where the City is a party or potential party in a legal action, or other special projects that need legal review. The General Legal Expenses Budget Summary Level is supported by the Judgment/Claims Fund of the General Fund.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
GF General Legal	1,382	88,321	88,321
Total	1,382	88,321	88,321

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BO-FA-JR020 - Judgment & Claims Police Action

The purpose of the Police Action Expenses Budget Summary Level is to pay pending or actual settlements and judgments against the City related to police action cases, or pay related costs to investigate and defend the City against claims and judgments related to police action cases. The Police Action Expenses Budget Summary Level is supported by the Judgment/Claims Fund of the General Fund.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
GF Police Action	1,746,084	1,120,918	3,799,672
Total	1,746,084	1,120,918	3,799,672

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BO-FA-OCS - Office of Constituent Services

The purpose of the Office of Constituent Services Budget Summary Level is to lead City departments to improve on consistently providing services that are easily accessible, responsive and fair. This includes assistance with a broad range of City services, such as transactions, information requests and complaint investigations. This BSL includes the City's Customer Service Bureau, the Neighborhood Payment and Information Service centers, Citywide public disclosure responsibilities and service-delivery analysts.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Office of Constituent Services	6,109,097	6,725,328	6,936,359
Total	6,109,097	6,725,328	6,936,359
Full-time Equivalents Total*	39.00	39.00	36.00

Department of Finance and Administrative Services

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BO-FA-PPM - Pike Place Mkt

The purpose of the Pike Place Market Budget Summary Level is to manage disbursement of resources to the Pike Place Market Preservation and Development Authority (PDA) to keep Market buildings in a good working condition to serve the public. Projects include capital improvements to items such as roofing, floors, windows, plumbing, and elevator repairs."

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Pike Place Mkt Waterfront Entr	-	6,000,000	6,000,000
Total	-	6,000,000	6,000,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BO-FA-RCCP - Regulatory Compliance and Consumer Protection

The purpose of the Regulatory Compliance and Consumer Protection Budget Summary Level is to support City services and regulations that attempt to provide Seattle consumers with a fair and well-regulated marketplace. Expenditures from this BSL include support for taxicab inspections and licensing, the weights and measures inspection program, vehicle impound and consumer complaint investigation.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
RCCP - ICMS System Work	134,859	-	102,230
Reg Compl & Consumr Protection	7,747,576	9,760,735	10,190,982
Total	7,882,436	9,760,735	10,293,213
Full-time Equivalents Total*	48.00	48.00	39.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Finance General

Ben Noble, Director

(206) 615-1962

<http://www.seattle.gov/financedepartment/>

Department Overview

Finance General is controlled by the City Budget Office and provides a mechanism for allocating General Fund and other central resources to reserve and bond redemption funds, City departments, and certain programs where the City Council, Mayor, or City Budget Office need additional oversight.

Budget Snapshot

	2020 Actuals	2021 Adopted	2022 Proposed
Department Support			
General Fund Support	222,520,452	325,990,485	247,607,475
Other Funding - Operating	55,945,006	89,644,809	192,112,509
Total Operations	278,465,458	415,635,294	439,719,984
Total Appropriations	278,465,458	415,635,294	439,719,984

Budget Overview

Finance General serves as a central repository for ongoing City costs; including General Fund contributions to the operations of City departments, debt service payments made from centrally-managed Funds and contributions to outside organizations. It also provides a mechanism to hold appropriations temporarily until the City determines the appropriate managing department; to execute complex transfers of funds; to act as a contingency reserve to respond to unpredictable situations; and, to cover costs that vary with economic conditions.

In the 2022 Budget, Finance General is the mechanism to transfer General Fund resources to the below departments:

- Seattle Public Library;
- Office of Labor Standards;
- Police Pension;
- Fire Pension;
- Finance and Administrative Services; and
- Information Technology;

Description of Incremental Budget Changes

Proposed Operating

Participatory Budgeting Reserve

Expenditures \$30,000,000

Finance General

The 2022 Budget includes ongoing funding for the participatory budgeting process. In 2021, the administration of the participatory budgeting process was shifted from the Department of Neighborhoods (DON) to the Office for Civil Rights (OCR). OCR's mission is to end structural racism and discrimination through accountable community relationships and anti-racist organizing, policy development, and civil rights enforcement. Also in 2021, positions were added to the Office for Civil Rights (OCR) to develop a Request for Proposal (RFP) to select an organization to run the participatory budgeting process. The 2021 Adopted Budget included \$28.3 million for Participatory Budgeting, and \$1.05 million was transferred to the Office for Civil Rights, with the remainder held in Finance General for one-time expenditures, such as executing the process, one-time investments selected through the process, and a potential evaluation of the process when complete. The 2022 Budget amount of \$30 million in Finance General is reserved for future allocations and is intended to be ongoing to support community-selected projects with ongoing costs.

Rebuilding Fiscal Reserve Funds

Expenditures	\$25,000,000
Revenues	\$25,000,000

This item begins the process of rebuilding the financial reserves in the Emergency Fund and the Revenue Stabilization Fund. In response to the pandemic, the City used reserves to continue essential services and to ensure that the City's response was scaled for the emergency at hand. Prior to the pandemic, at the beginning of 2020, the balance in the Emergency Fund was \$65 million and the Revenue Stabilization fund was \$57.7 million. In 2020, the City transferred \$14.7 million from the Emergency Fund and \$29 million from the Revenue Stabilization Fund to the General Fund. In 2021, the Adopted budget assumes that an additional \$13.4 million is transferred from the Emergency Fund, in addition to \$5.2 million of carryforward, for a total of \$18.6 million and \$25.7 million from the Revenue Stabilization Fund. The 2022 budget includes General Fund appropriation to begin re-building reserves, with a transfer of \$10 million into the Emergency Fund and \$15 million into the Revenue Stabilization Fund. This item also captures the revenues into the fiscal reserve funds as a result of these transfers.

Arena Payments

Expenditures	\$7,373,000
--------------	-------------

Starting in 2022, the City may need to make Rent Adjustment payments to the Arena for certain tax (Business and Occupation Tax, Sales Tax, Admissions Tax, Commercial Parking Tax, and Leasehold Excise Tax) and parking revenues generated at the Climate Pledge Arena that exceed specific revenue thresholds. For 2021 revenues that exceed the thresholds, the City will make one payment to the Arena due June 2022. For revenues generated in 2022 and subsequent years, the City's Operating Agreement with the Arena provides for two payments, should revenues exceed the thresholds: a Tenant Advance due in December of the current tax year and a Final Rent Adjustment due in June of the following year. There will likely be variance between the estimated payment amounts and the actual payments made to the arena, especially in the first years of making the payments. Adjustments to these early estimates will need to be made via supplemental budget request in the current year.

Payments made to Arena in 2022:

- 1) June 2022 Payment: 2021 Final Rent Adjustment Payment – based on 2021 revenues
- 2) December 2022 Payment: 2022 Tenant Advance Payment – based on 2022 Q1 & Q2 revenues

For simplicity of payment, rent adjustments will be directly budgeted in Finance General in the various Funds which received the revenue. This appropriation includes the 2021 Final Rent Adjustment Payment and the 2022 Tenant Advance Payment in the Arts Fund (Admissions Tax), the Transportation Fund (Commercial Parking Tax) and the General Fund (all other revenue streams).

Green New Deal Reserve

Expenditures	\$6,491,539
--------------	-------------

Finance General

This Green New Deal item funds a Green New Deal (GND) Reserve. The funding set aside here will prioritize efforts to achieve a just climate transition, making Seattle climate pollutant-free by 2030, helping communities most harmed by economic, racial, and environmental injustice. The GND Oversight Board will provide recommendations for key priorities, and the internal GND interdepartmental team (IDT) and Mayor's Office will develop and submit a spending plan for subsequent legislation.

Insurance Premium Cost Increase

Expenditures	\$2,441,000
--------------	-------------

This item increases appropriations by \$2,441,000 to Finance General for increased insurance premium costs due to a tightening insurance market and increased coverage. This amount is equal to the 2021 revised budget for insurance premiums. If costs continue to rise, additional budget may be needed in a 2022 supplemental request.

Human Services Department Finance Support Reserve

Expenditures	\$600,000
--------------	-----------

This item is a reserve for finance support to the Human Services Department. The Human Services Department budget has grown dramatically in recent years and additional support is needed to ensure that the department is complying with Federal Grants requirements and City standards for accounting, budgeting and procurement processes.

Proposed Technical

Removal of One-Time Items

Expenditures	\$(211,921,879)
Revenues	\$(320,345,238)

This technical modification removes one-time revenues, expenditures and fund balancing entries from the 2022 baseline budget for Finance General.

Admissions Tax Revenue Directly to Arts Fund

Expenditures	\$(11,384,500)
--------------	----------------

Prior to 2022, appropriations were made out of Finance General in the General Fund to transfer Admission Tax receipts to the Arts and Culture Fund. This budget reduction is in recognition that the Admissions Tax revenues will begin being deposited directly into the Arts and Culture Fund (12400) in 2022 instead of passing through the General Fund.

Finance General Debt Service Adjustments

Expenditures	\$(1,747,097)
--------------	---------------

This is a technical change request to true up debt service payments for Finance General in the Cumulative Reserve Subfund, the Real Estate Excise Tax Funds, the General Fund and the Short-Term Rental Tax Fund. These are technical adjustments to budget the precise amount of debt service, which is only known after bond issuance.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$(1,080,287)
--------------	---------------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for Judgement and Claims, healthcare, retirement and industrial insurance

Finance General

charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Language Premium General Fund Transfer

Expenditures \$88,800

This item increases ongoing appropriation authority for language services stipends. Per the Coalition of City Unions collective bargaining agreement, City employees who are multilingual and provide language services, such as interpretation and translation, to communicate with clients and/or other employees in business-related situations are now eligible for a monthly language premium stipend. The amounts in the 2022 budget are estimates based on the eligible employees from 2021. The amounts in Finance General are appropriations in the General Fund to transfer resources in support of employees in the Seattle Public Library and the Office of Labor Standards, which do not spend funds directly out of the General Fund.

State Paid Family Medical Leave Reserve Increment

Expenditures \$481,751

Prior to 2022, there was \$2 million of reserves for City Paid Parental Leave benefits appropriated in Finance General, in addition to a \$4.48 million below the line reserve held in the General Fund, for a total of \$6.48 million. The below the line reserve was being held pending agreement with the City Unions on the synchronization of the City leave benefits with the State Paid Family Medical Leave benefit. This agreement has been reached and so the below the line reserve is being formally appropriated in the budget. Costs that the City bears in relation to the State Paid Family Medical Leave and Paid Parental Leave are primarily for back-fill staffing costs in departments when employees are on extended leave. Prior to 2022, these funds were requested by and allocated to departments in the fourth quarter or third quarter supplemental amendment once back-fill costs in departments could be accurately projected for the current year. The largest back-fill needs have been in the public safety departments, so the 2022 Budget includes \$2 million of this reserve in each of the Seattle Fire Department Budget and the Seattle Police Department Budget, accounting for \$4 million of the \$6.48 million reserve. The Finance General portion in 2022 is the remaining \$2.48 million for all other departments, which consists of the existing \$2 million appropriation and this \$481,751 increment. If these funds are not needed in a given year, the appropriation in Finance General will lapse.

Transfer to FAS for Equitable Communities Initiative

Expenditures \$1,000,000

This item increases appropriations in Finance General in order to transfer monies to the Finance and Administrative Services Fund (50300) to provide technical assistance to WMBE firms to do business with the City and support construction apprenticeship training and retention of Black and Indigenous People of Color community (BIPOC) apprentices and workers.

For more detail see the Equitable Communities Initiative item in the Department of Finance and Administrative Services section of the budget book.

Use of LTGO Fund Balance for Debt Service

Expenditures -

This is a one year technical adjustment to use remaining fund balance in completed bond funds to pay for debt service that was paid for by General Fund resources.

Coronavirus Local Fiscal Recovery Revenue Replacement - FEMA Contingency

Expenditures \$2,000,000

Finance General

This item reserves \$2 million of Coronavirus Local Fiscal Recovery (CLFR) Funding for a General Fund revenue replacement, if needed, pending departmental spending activity on pandemic emergency response and recovery efforts. In the 2022 Budget, full FEMA reimbursement is assumed for certain activities within the Department of Finance and Administrative Services and their Fund (50300). However, if the actual spending includes ineligible items, or new work is required which is not covered under current FEMA categories, this funding will be used as revenue replacement for the General Fund, which will then need to be appropriated to transfer to the Finance and Administrative Services Fund (50300). Currently, there is no mechanism to get General Fund to the Finance and Administrative Services Fund and additional Council action would need to be taken to get appropriations. If the contingency is not needed, this reserve could be repurposed for other things, which would also require subsequent Council action.

This item is part of a package of CLFR-funded or CLFR-enabled items comprising Seattle Rescue Plan 3 (SRP3). See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Update Recurring Reserve Amounts

Expenditures	\$2,831,325
--------------	-------------

The Finance General department pays a variety of recurring costs on behalf of the City each year, related to General Fund payments for election costs, fire hydrant maintenance, street lighting, debt service and other contracts. This item includes baseline budget changes to these recurring reserve amounts to maintain the same level of service.

Coronavirus Local Fiscal Recovery Revenue Replacement - Workforce Development

Expenditures	\$4,500,000
Revenues	\$4,500,000

This item appropriates funds out of the Coronavirus Local Fiscal Recovery (CLFR) Fund (14000) for revenue replacement into the General Fund. The revenue replacement into the General Fund is supporting several departmental Workforce Development initiatives which are ineligible for the CLFR funds directly, but which may be funded using General Fund. These items include:

\$500,000 for Priority Hire in FAS;
\$1,000,000 for Green Energy Apprenticeships in the Office of Sustainability and Environment;
\$1,500,000 for Creative Industry and Artist Relief in Arts;
\$500,000 for Maritime and Manufacturing Strategies in OED;
\$750,000 for Housing Providers Certification Program in OH;
\$250,000 for Immigrant Refugee Work Readiness Program in OIRA.

This item is part of a set of workforce development programming enabled by CLFR funds, and is part of Seattle Rescue Plan 3 (SRP3). The workforce development programming seeks to create strong pathways to middle wage jobs and more wealth-generating businesses in industries that will thrive in the future. Investments in economic inclusion will help Seattle recover from the pandemic and position our local economy for continued equitable growth.

The departments receiving workforce development allocations enabled by CLFR funds are: ARTS, FAS, OED, OH, OIRA, and OSE. See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Restore General Fund Support to Library

Expenditures	\$5,097,000
--------------	-------------

This item restores most of the General Fund transfers to the Seattle Public Library which were reduced in 2020 and 2021 as both cost-saving measures and unneeded funding due to reduced operating hours. The full restoration cost

Finance General

is \$5.8 million, but in 2022 SPL will use \$700,000 of fund balance in 10410 Fund in lieu of General Fund transfers.

Cash Transfer of 2022 Tax-Exempt Bond funds to IT Fund

Expenditures	\$13,076,000
--------------	--------------

This is technical appropriation that is required to transfer 2022 bond proceeds into the Information Technology fund for the Criminal Justice Information Systems (MC-IT-C6304) project. The project expenditures are appropriated in the Information Technology fund.

Finance General Appropriations to Special Funds

Expenditures	\$149,238,038
--------------	---------------

The item includes adjustments needed to maintain sufficient appropriation to execute needed General Fund transfers to the Finance and Administrative Services Fund, Information Technology Fund, Library Fund, Office of Labor Standards Fund, Police Relief and Pension Fund and the Firefighters Pension Fund, as well as transfers from the Payroll Tax Fund to the General Fund.

Revenue Adjustments

Revenues	\$510,674,987
----------	---------------

This is a technical adjustment to align revenues with forecast revenues for the 2022 Budget. Revenue updates in Finance General include many different Funds; the General Fund, Sweetened Beverage Tax Fund, Short-Term Rental Tax Fund, Payroll Tax Fund, Real Estate Excise Tax Funds, Bond Funds, Cumulative Reserve Subfund - Unrestricted, Payroll Tax Fund and the Coronavirus Local Fiscal Recovery Fund.

Fund Balancing Entries

Revenues	\$32,954,564
----------	--------------

This is a technical item to record a fund balancing entry for the General Fund, Payroll Tax Fund, Sweetened Beverage Tax Fund, Short-Term Rental Tax Fund, Emergency Fund and Revenue Stabilization Fund, which are multi-departmental Funds without a primary custodian department.

Finance General

Expenditure Overview

Appropriations	2020 Actuals	2021 Adopted	2022 Proposed

Appropriations by Budget Summary Level and Program

FG - BO-FG-2QA00 - Appropriation to Special Funds

The purpose of the Appropriation to Special Funds Budget Summary Level is to appropriate General Fund and other centrally managed resources, several of which are based upon the performance of certain City revenues, to bond redemption or special purpose funds. These appropriations are implemented as operating transfers to the funds or accounts they support.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Appropriation to Special Funds	225,003,924	278,524,335	352,351,411
Total	225,003,924	278,524,335	352,351,411

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FG - BO-FG-2QD00 - General Purpose

The purpose of the General Purpose Budget Summary Level is to provide appropriation authority to those programs for which there is no single appropriate managing department, or for which there is Council and/or Mayor desire for additional budget oversight.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
General Purpose	-	137,110,959	87,368,574
Reserves	53,461,533	-	-
Total	53,461,533	137,110,959	87,368,574

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in General Purpose Budget Summary Level:

General Purpose

The purpose of the General Purpose Budget Program is to provide appropriation authority to those programs for which there is no single appropriate managing department, or for which there is Council and/or Mayor desire for additional budget oversight.

Seattle Department of Human Resources

Kimberly Loving, Interim Director

(206) 684-7999

<http://www.seattle.gov/personnel/>

Department Overview

The Seattle Department of Human Resources (SDHR) is responsible for centrally setting the strategic direction for human resources services: identifying, hiring, and retaining the City's dynamic, diverse workforce, as well as developing and administering a compensation and benefits program to create a quality employee experience. SDHR also provides core human resources (HR) support services to all City employees. SDHR operations:

- create greater HR accountability and collaboration citywide so that consistent, cost-effective services are provided to all employees;
- provide full-service HR to 20 supported departments;
- manage the evolving HR alignment strategic plan;
- ensure a culture of respect and dignity for all employees;
- develop consistent policies, improved services, and programs that enhance the workforce;
- develop proactive workforce equity through our Workforce Equity Strategic Action Plan; and
- provide executive recruitment and succession planning services.

SDHR establishes Citywide personnel rules; offers strategic consultative assistance to departments, policymakers and employees; and ensures department staff and managers receive information and resources required to meet business needs and legal requirements such as leave administration.

The **Director's Office** establishes Citywide personnel rules; offers strategic consultative assistance to departments, policymakers and employees; provides internal fiscal management and budget development; and spearheads Citywide programs and efforts such as the Human Resources Strategic Plan and the Workforce Equity Initiative.

Citywide Shared Administrative Services administers Citywide quality and cost-effective employee benefits, including health care and workers' compensation; provides Citywide safety, classification/compensation and Workforce Analytics & Reporting services; manages the City's voluntary deferred compensation plan; and handles absence management.

Citywide Workforce Equity leads the Workforce Equity Strategic Plan and proactively addresses policies, processes, and practices that advance the City's ability to maintain consistent and equitable treatment of employees Citywide. Partners include the Office for Civil Rights and the community to end racial disparities and create fair and equitable City career pathways.

Citywide Labor Relations develops and implements labor relations strategies in collaboration with labor management teams across the City and develops training in coordination with HR systems administration and operations, while bargaining the impacts of management strategy and philosophy with labor partners.

Citywide Service Delivery and Talent Acquisition provides HR support to executive offices; strategic alignment with department HR leaders and staff; and talent engagement, selection, and staffing accountability for equitable outcomes.

Citywide HR Planning and Innovation is the strategy by which the Citywide HR workplan is developed by the multi-departmental Human Resources Leadership Team (HRLT) and focuses on projects intended to improve HR practices, standardize HR processes, implement Citywide HR programs, and update policies to meet workforce and business needs.

Seattle Department of Human Resources

Citywide Human Resources Investigations Unit responds to and thoroughly investigates employee allegations of harassment, discrimination, retaliation and harassment-related misconduct in a manner that reflects an acknowledgement of the historical limitations of the employment law.

Personnel Compensation Trust Funds

The Seattle Department of Human Resources (SDHR) administers five Personnel Compensation Trust Funds related to employee benefits. These funds are managed through Citywide contractual obligations on behalf of employees and City departments. The administering department collects funds from other City departments, which are then paid out to various insurance companies, service providers, and individuals.

Health Care Fund: contains the revenues and expenses related to the City's medical, dental, and vision insurance programs; Flexible Spending Account program; Employee Assistance Program; COBRA continuation coverage; and other healthcare-related items. The City is self-insured for both the Aetna and Kaiser medical plans, the vision plan, and one dental plan and carries insurance for the remaining dental plan.

Fire Fighters Health Care Fund: was created to track fire fighter employee contributions previously held within the larger Health Care Fund. Fire fighter premium collections are distributed directly to the trust that provides fire fighters' healthcare.

Industrial Insurance Fund: captures the revenues and expenditures associated with the City's Workers' Compensation and Safety programs. Since 1972, the City of Seattle has been a self-insured employer as authorized under state law. The Industrial Insurance Fund receives payments from City departments to pay for these costs and related administrative expenses. Overall costs include fees levied by the Washington State Department of Labor and Industries, reinsurance premiums, and administrative costs to manage the program.

Unemployment Insurance Fund: contains the revenues and expenditures associated with the City's unemployment benefit and administration costs. The City is a self-insured employer with respect to unemployment insurance.

Group Term Life Insurance Fund: contains the revenues and expenses related to the City's group term life insurance, long-term disability insurance, and accidental death and dismemberment insurance plans.

Seattle Department of Human Resources

Budget Overview

The Seattle Department of Human Resources (SDHR) strives for a consistent, equitable employee experience at the City so that employees can do their best work. SDHR supports employee resources such as benefits & professional development and department services such as employee relations & job classifications. SDHR provides full human resources (HR) services to most small- and medium-sized departments, while the City's larger departments employ their own HR staff. This structure has created the potential for varying levels of HR services and employee experiences across the City. The 2020 Adopted Budget highlighted the work of SDHR to continue to align the City's HR practices, creating strategic changes in workplace culture that would lead to the deepest impacts on workforce equity. However, the City experienced significant revenue losses in 2021 due to COVID-19 and the resulting public health and economics crises, and the 2021 Adopted Budget reduced SDHR's appropriation across various programs.

The 2022 Proposed Budget for SDHR reinstates some of these previously-reduced programs and responds to emerging issues across the City, particularly related to economic recovery and Race and Social Justice (RSJ) issues. The budget includes increased appropriation and 3.5 FTE over several divisions, including:

City Leadership Academy

The City Leadership Academy (CLA) is a nine-month development program for City of Seattle employees who want to expand their leadership skills, create change, and model racial equity, social justice, and inclusion. The CLA is a key strategy in creating a safe and inclusive workplace, as well as providing pathways for advancement for City personnel. The 2020 Proposed Budget included an on-going position and associated funding for this program, but these items were not included by the City Council in the 2020 Adopted Budget. Without those resources, the program was discontinued. The 2022 Proposed Budget includes a permanent position and operational budget authority to reinstate the program and ensure it continues to equip leaders with the skills to lead change, develop an inclusive culture, and collaborate across departments. The CLA is partially funded by \$5,000 departmental sponsorships per employee accepted into the program.

Career Quest Scholarships and Mentoring

The Career Quest program has a proven track record of providing opportunities for employees, particularly female and persons of color, to learn new skills by matching them with career coaches who help them to identify and plan career goals and access career development workshops that directly increase their performance and productivity. Prior to 2019, SDHR maintained a \$150,000 Career Quest scholarship fund that provided City employees with funding for college and professional courses that support their career mobility and benefit City business. The 2019 Adopted Budget eliminated the fund to preserve core HR services while reducing expenses, and the 2022 Proposed Budget restores the fund. The budget also includes funding to purchase mentorship-tracking software to align, enhance, and bring-to-scale the City of Seattle's numerous mentorship programs.

Executive Recruitment

SDHR supports citywide talent acquisition, but currently has limited resources for recruiting executive positions. Historically, directors are either directly appointed or selected with the assistance of a third-party recruiter, and an executive search advisor within SDHR manages the recruiter contracts, leaving departments to pay all direct hiring costs. The 2022 Proposed Budget includes two temporary positions to pilot a new Executive Recruitment business unit for two years that will provide robust, efficient, and RSJ-centered recruitment services.

Vaccine Verification

In August 2021, the Mayor announced a requirement for all City of Seattle executive branch employees to be fully vaccinated against COVID-19 as a condition of employment. The 2022 Proposed Budget allocates Coronavirus Local Fiscal Recovery (CLFR) funds to SDHR as part of Seattle Rescue Plan 3 (SRP3) to hire personnel and manage a vendor contract for HIPAA-compliant software that will track and verify employee COVID-19 vaccination, exemption, and testing status in partnership with the Seattle Information Technology Department. See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Fire and Police Exams

The Fire and Police Exams business unit develops and administers merit-based, entry-level, and promotional exams under the direction of the Public Safety Civil Service Commission and on behalf of the Seattle

Seattle Department of Human Resources

Police Department (SPD) and Seattle Fire Department (SFD). The 2017 Police Accountability Ordinance states that an SPD applicant who has completed two or more years of service in the Peace Corps, AmeriCorps, or other verified equivalent work experience or community service may be entitled to have 10 percent credit added to their examination score. This change is intended to increase the hiring competitiveness of those candidates who have experience working in community service roles and have developed skills that may ultimately help SPD better serve the diverse Seattle community. The 2022 Proposed Budget adds a half-time permanent position to support implementation and administration of the community service preference points program. The budget also increases the unit's baseline budget to support higher exam administration costs.

Other 2022 Proposed Budget Items

Several additional baseline and operational adjustments are included in the proposed budget, which:

- align the personnel budget with actual costs in the Labor Relations business unit;
- increase the department's policy development and management capacity;
- convert a temporary healthcare advisor in the Health Care Fund to a permanent position;
- cover higher costs from vendors that provide employee learning and development courses; and
- adjust appropriation for changes to central costs including internal services, health care, retirement, and workers' compensation charges.

Finally, the 2022 Proposed Budget includes net-zero technical adjustments for simplification and alignment of SDHR's budget. These adjustments reallocate funds within budget programs to facilitate SDHR's complex indirect cost recovery.

Personnel Compensation Trust Funds

The following provides a summary of each of the five individual funds that comprise the Personnel Compensation Trust Funds and are administered by SDHR.

Health Care Fund: Total City health care costs including medical, dental, and vision care are expected to reach \$302 million in 2022. Claims growth in 2022 is expected to be around 6.0%, but with possible volatility month to month as patients seek care that was foregone in 2020 and 2021, but also possible continued suppression in response to COVID-19. The 2022 Proposed Budget assumes an estimate of 11,844 regular and 350 benefits-eligible temporary employees enrolled in healthcare.

Fire Fighters Health Care Fund: Firefighter payments remain level at \$2.0 million in the 2022 Proposed Budget.

Industrial Insurance Fund: The 2022 Proposed Budget assumes expenditures in the Industrial Insurance Fund (IIF) of \$36 million, an increase of approximately 52%, with the majority of growth due to shifting liabilities from other funds to the IIF. Removing the effect of these, total rates have increased by 19.4%, most of which is being collected via pooled costs to offset losses in 2020 and maintain the State-mandated reserve in line with the increased liability of the Fund. The remaining increase is due to projected increases in medical claims, time-loss claims, and administrative costs, the majority of which is due to increased costs for assessments of self-insured employers performed by Washington State Department of Labor and Industries.

Unemployment Insurance Fund: The 2022 Proposed Budget for unemployment expenses is reduced from the 2021 Adopted Budget, which assumed an elevated number of unemployment claims due to potential COVID-19 related layoffs. Due to a variety of management responses and federal aid, no upsurge occurred. The 2022 Proposed Budget assumes a return to trend based on actual expenditures.

Group Term Life Fund: Total costs in the fund are expected to remain at 2021 levels of approximately \$6.6 million in 2022. The City underwent a bid process with carriers in 2019 and 2020, which led to reductions in rates for these employee insurance plans. The reductions mainly affect the premium costs of employees, as they pay the majority of the total cost. The reduction does, however, allow the City to keep its expected costs unchanged in 2022.

Seattle Department of Human Resources

Description of Incremental Budget Changes

Baseline

Reverse 2021 One-time Budget Items

Expenditures \$(1,014,511)

This item reverses one-time budget authority from 2021. \$738,000 was added in the 2021 Adopted Budget to track the transfer of Seattle Department of Human Resources fund balance, held in the General Fund, to the Department of Finance & Administrative Services (FAS). This amount was used for the continued development of the Human Resources Information System (HRIS) replacement project. The remaining \$276,511 was used for the salary and benefits for temporary positions related to the HRIS replacement project that ended in 2021 with the transfer of primary project management to FAS.

Citywide Adjustments for Standard Cost Changes

Expenditures \$255,963

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures \$235,037

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Align Strategic Advisor Labor Unit Budget

Expenditures \$151,881

This item increases ongoing appropriation authority by \$18,925 to the Seattle Department of Human Resources (SDHR) Business Operations Unit and by \$132,896 to SDHR's Labor Relations Unit to cover a gap between the budget and actual costs for salaries and benefits. The current midpoint Strategic Advisor 3 wage, on which the budget is based, is 12% less than the competitive rate at which SDHR has been able to hire labor negotiator positions.

Increase Budget to Cover Higher Vendor Fees

Expenditures \$77,000

This item increases ongoing appropriation authority by \$65,000 to the Seattle Department of Human Resources (SDHR) Learning & Development Unit and by \$12,000 to SDHR's Compensation and Classification Unit to cover increased vendor costs. Respectively, the budget covers increased costs for LinkedIn Learning (formerly Lynda.com), a citywide platform that provides City employees unlimited access to over 16,000 online professional development and learning courses, and for salary survey technical data subscriptions.

Increase Fire and Police Exams Budget

Expenditures \$70,000

This item increases ongoing appropriation authority by \$70,000 to the Seattle Department of Human Resources Fire

Seattle Department of Human Resources

and Police Exams Unit due to higher costs in the second year, 2022, of the public safety civil service exams administration cycle.

Proposed Operating

Add Position to Support Community Service Preference Points

Expenditures	\$62,153
Position Allocation	0.50

This item increases ongoing appropriation authority by \$62,153 and adds a 0.5 FTE Personnel Analyst Assistant position to the Seattle Department of Human Resources (SDHR) Fire and Police Exams Unit to support implementation and administration of the community service preference points program for police position applicants. The 2017 Police Accountability Ordinance 125315 states the following: "An applicant for an Seattle Police Department (SPD) position who has completed service in the Peace Corps, AmeriCorps, or other verified equivalent work experience or community service of two years or more may be entitled to have 10 percent credit added to the examination score." The complex verification process requires this additional resource to administer fairly and consistently for all applicants.

Increase Policy Management Capacity

Expenditures	\$151,701
Position Allocation	1.00

This item increases ongoing appropriation authority by \$151,701 and adds a 1.0 FTE Strategic Advisor 1 position to the Seattle Department of Human Resources (SDHR) Business Operations Unit to manage various emerging policy issues within SDHR. These policy issues will include, but are not limited to, emergency response coordination, logistics, and continuity of operations functions for which SDHR is responsible.

Convert Temporary Health Advocacy Advisor to Permanent

Expenditures	\$162,746
Revenues	\$162,746
Position Allocation	1.00

This item converts a 1.0 FTE Strategic Advisor 1 Health Advocacy Advisor term-limited temporary (TLT) position, ending in December 2021, to a 1.0 FTE permanent pocket beginning in January 2022. The costs for this position will be covered by the Health Care Fund (see following proposal).

Health Care Fund Budget Authority for Health Advocacy Advisor

Expenditures	\$162,746
--------------	-----------

This item increases ongoing budget authority to the Health Care Fund for increased administrative and personnel costs. The previous proposal converts a 1.0 FTE Strategic Advisor 1 Health Advocacy Advisor temporary position, ending in December 2021, to a 1.0 FTE permanent pocket beginning in January 2022, and this item increases the fund budget to cover the costs associated with this change.

Reinstate the City Leadership Academy Program

Expenditures	\$249,239
Revenues	\$85,000
Position Allocation	1.00

This item increases ongoing appropriation authority by \$249,239 and adds a 1.0 FTE Strategic Advisor 1 position to

Seattle Department of Human Resources

the Seattle Department of Human Resources (SDHR) Learning & Development Unit to reinstate the City Leadership Academy (CLA) program. The new position will act as permanent CLA program coordinator. The program is partially funded by participant fees.

Executive Recruitment Unit Addition

Expenditures	\$247,931
--------------	-----------

This item increases appropriation authority by \$247,931 to the Seattle Department of Human Resources (SDHR) to pilot a new Executive Recruitment business unit. This unit will be staffed with an existing 1.0 FTE Executive Recruitment Advisor, as well as two temporary positions: a Strategic Advisor 1 and a Personnel Analyst. This unit will provide comprehensive full-cycle executive recruitment service that accurately identifies job requirements; maximizes the generation of diverse, robust, and qualified applicant pools; effectively and equitably assesses candidates; and ensures a transparent process that produces a hire in which all stakeholders have confidence. This unit will also establish a standard practice for executive recruitment, reduce time to fill executive positions, and improve the quality and diversity of hires. The cost impact is expected to be a budget-neutral shift from third-party vendor to SDHR services.

Restore Career Quest Scholarships and Implement Central Mentorship Tracking

Expenditures	\$175,000
--------------	-----------

This item increases ongoing appropriation authority by \$175,000 to the Seattle Department of Human Resources (SDHR) Workforce Equity Unit. \$150,000 will be used to reinstate Career Quest scholarships for City employees, and \$25,000 will be used to purchase and maintain software to align, enhance, and bring to scale the City of Seattle's 7+ mentorship programs. Career Quest scholarships have a proven track record of providing opportunities for employees, particularly female and persons of color, to learn new skills, directly increasing their performance and productivity.

Employee Vaccine Verification System

Expenditures	\$450,000
--------------	-----------

This item increases one-time appropriation authority by \$450,000 to the Seattle Department of Human Resources for employee vaccine verification system and implementation, including contracting with a software provider and hiring temporary staff for contract management and change management. This item is part of a package of Coronavirus Local Fiscal Recovery (CLFR) funded or CLFR-enabled items comprising Seattle Rescue Plan 3 (SRP3). See the Seattle Rescue Plan section of this 2022 Budget Book for more on SRP3.

Proposed Technical

2022 Health Care Fund Expenditure Adjustment

Expenditures	\$26,311,779
Revenues	\$26,474,524

This adjustment to the health care fund reflects a trend rate of 6% in 2022. The City's total health care enrollment is expected to have only a slight increase (0.5%) in 2022 compared to the 2021 Adopted Budget.

2022 Industrial Insurance Expenditure Adjustment

Expenditures	\$9,665,323
Revenues	\$(133,261)

This item adjusts expenditures in the Industrial Insurance Fund to reflect 2022 expected amounts.

Seattle Department of Human Resources

2022 Unemployment Insurance Revenue and Expenditure Adjustments

Expenditures	\$(2,225,984)
Revenues	\$(2,225,984)

This item adjusts expenditures, revenues, and use of fund balance in the Unemployment Insurance Fund to reflect 2022 expected amounts.

Move Budget from Temporary Placeholder to Official Project

Expenditures	-
--------------	---

The central budget system, Questica, created a temporary placeholder project to track resources for the new Human Resources Investigation Unit. The final approved project was set up in the City's PeopleSoft financial system using a different naming convention. For a short time, both the placeholder and final project were available in Questica and some budget entries were inadvertently posted to the placeholder project. This budget-neutral item consolidates the entire budget in the Questica final project.

Budget-neutral Balancing for June Submittal

Expenditures	-
--------------	---

This item distributes program-level central cost changes to the appropriate detail projects and balances indirect cost distribution between Seattle Department of Human Resources Budget Service Levels.

Budget-neutral Alignment

Expenditures	-
--------------	---

The central budget system, Questica, allows for changes at the program level. This budget-neutral item realigns budget at the program level to improve the Seattle Department of Human Resources' ability to characterize, develop, and monitor its budget.

Redistribute Program-level Annual Wage Increase

Expenditures	-
--------------	---

This net-zero technical adjustment redistributes program-level central cost changes to the detail projects.

Redistribute Program-level Changes

Expenditures	-
--------------	---

This item redistributes City Budget Office entries made at the budget program level to the detail project level and balances central costs to the 2021 Adopted Central Cost Manual through budget-neutral entries.

Central Cost Manual and Revenue Alignment

Revenues	\$3,194,304
----------	-------------

This item updates interdepartmental and outside revenues to match the Central Cost Manual allocations and estimates and reverses a duplicate revenue entry.

Assign Program Changes to Project

Expenditures	-
--------------	---

Seattle Department of Human Resources

This net-zero technical adjustment reassigns program-level central changes to detail projects and moves an autogenerated Questica entry to the correct project.

September Indirect Cost Balancing

Expenditures	-
--------------	---

This net-zero technical adjustment distributes indirect project costs in accordance with the City's standard complex indirect cost allocation methodology.

Appropriations by Budget Summary Level and Program

SDHR - BO-HR-GTL - GTL/LTD/AD&D Insurance Service

The purpose of the Group Term Life Budget Summary Level is to provide appropriation authority for the City's group term life insurance, long-term disability insurance, and accidental death and dismemberment insurance.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
GTL/LTD/AD&D Insurance	6,453,489	6,663,381	6,663,381
Total	6,453,489	6,663,381	6,663,381

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here.*

SDHR - BO-HR-HEALTH - Health Care Services

The purpose of the Health Care Budget Summary Level is to provide for the City's medical, dental, and vision insurance programs; the Flexible Spending Account; the Employee Assistance Program; and COBRA continuation coverage costs.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Health Care Services	258,365,220	277,670,290	304,144,814
Total	258,365,220	277,670,290	304,144,814

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here.*

SDHR - BO-HR-INDINS - Industrial Insurance Services

The purpose of the Industrial Insurance Budget Summary Level is to provide for medical, wage replacement, pension, and disability claims related to occupational injuries and illnesses, occupational medical monitoring, workplace safety programs, and related expenses.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Industrial Insurance Services	23,467,010	23,940,991	33,606,314
Total	23,467,010	23,940,991	33,606,314

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here.*

Seattle Department of Human Resources

SDHR - BO-HR-N5000 - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to establish Citywide personnel rules and policies; provide consultative assistance to employees, departments, and policymakers; and lead Citywide programs and initiatives with the underlying objective of workforce equity. This Budget Summary Level also provides services that support City and SDHR department management, including financial and accounting services.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Citywide Indirect Costs	2,656,248	2,794,864	3,023,885
Departmental Indirect Costs	3,698,723	4,006,738	3,560,376
Divisional Indirect Costs	4,666,922	4,900,729	4,837,130
Indirect Cost Recovery	(10,875,290)	(13,094,886)	(13,278,185)
Pooled Benefits	(87,471)	2,130,555	2,306,795
Total	59,133	738,000	450,000
Full-time Equivalents Total*	35.00	32.00	33.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here.*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Citywide Indirect Costs	2,656,248	2,794,864	3,023,885

Departmental Indirect Costs

Expenditures/FTE			
Pooled Benefits	(87,471)	2,130,555	2,306,795

SDHR - BO-HR-N6000 - HR Services

The purpose of the HR Services Budget Summary Level is to provide Citywide strategic and technical human resources support while incorporating workforce equity strategies. This BSL administers employee benefits including health care and workers' compensation, the voluntary deferred compensation plan, and absence management; provides recruitment and staffing services; delivers employee training and development services; and negotiates and implements collective bargaining agreements. Other functions include safety, compensation/classification, supported employment programs, and Citywide human resources information management services.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
HR Investigations	1,121,028	1,343,833	1,327,716
HR Service Delivery	1,530,573	1,767,510	1,762,392
HR Shared/Admin Services	8,498,903	8,310,447	8,546,713

SDHR - BO-HR-UNEMP - Unemployment Services

The purpose of the Unemployment Insurance Budget Summary Level is to provide the budget authority for the City to pay unemployment compensation expenses.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Unemployment Services	2,059,982	4,735,984	2,510,000
Total	2,059,982	4,735,984	2,510,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here.*

Seattle Information Technology Department

Jim Loter, Interim Chief Technology Office

(206) 386-0026

<http://www.seattle.gov/seattleIT>

Department Overview

The Seattle Information Technology Department (Seattle IT) provides strategic direction for and management of the City's information technology resources. These include telecommunications, data, and supporting physical infrastructure; applications and application infrastructure; computer engineering and operations; data centers, servers, storage, and backup equipment; desktop, mobile, and printing devices; cloud services; digital engagement services; and the services to provide, maintain, and support all of the above for the City.

With a full view of the City's IT needs, Seattle IT looks for opportunities to consolidate multi-department IT requests into one Citywide project, identifies similar programs that can share a common platform, and considers where a department may already have a solution that another department could utilize.

Seattle IT is organized into 8 divisions: 1) Applications; 2) Collaboration and Workplace Technologies; 3) Security and Infrastructure; 4) Project Delivery; 5) Client and Community Engagement; 6) Data Privacy, Accountability, and Governance; 7) Chief of Staff; and 8) Finance.

The **Applications Division** is responsible for building, maintaining, and supporting applications that provide a variety of business functions performed by our clients. The division manages enterprise-wide software solutions including GIS, CRM, and Permitting; provides development and support for applications that are specific to departments' business needs, including finance and human resources, public safety and dispatch, and utility systems; and supports ongoing software maintenance and enhancements.

The **Collaboration and Workplace Technologies Division** provides the services, platforms, data, and modern tools and technologies to support City employees in performing their day-to-day work no matter where they are, including device and customer support, web support, automation, and IT service management. The division processes the 110,000 plus service tickets each year by solving problems, answering questions, and helping people seamlessly work together to effectively deliver City services and communicate information to the public.

The **Security and Infrastructure Division** delivers the extensive infrastructure technologies behind the City's digital capabilities. This division includes the security and cyber risk functions that help ensure the City's data and other technology assets are safe.

The **Project Delivery Division** includes the project delivery teams, portfolio and resource management, and quality assurance to ensure the successful delivery of Citywide IT Portfolio projects.

The **Client and Community Engagement Division** oversees several business-critical areas including client engagement; governance; digital equity; broadband, cable television, and wireless telecommunication; Seattle Channel, and ad hoc projects. The division serves as the primary liaison for our internal clients, our public, and our elected officials.

The **Data Privacy, Accountability & Compliance Division** provides structure and guidance essential for City departments to fully incorporate appropriate data management and compliance practices into daily operations, and to build public trust and confidence in how we collect and manage the public's information.

The **Chief of Staff Division** provides the services that enable the successful operation of the department including corporate performance management, human resources, communications, RSJI, change management, and administrative services.

Seattle Information Technology Department

The **Finance Division** provides budget, accounting, payroll, contracting, and purchasing services to the department.

As an internal service department, Seattle IT provides services to other City departments that in turn pay Seattle IT for the services they purchase. As such, Seattle IT receives revenue from most of the major fund sources within the City, including the General Fund, Seattle City Light, Seattle Public Utilities, Seattle Department of Transportation, Seattle Department of Construction and Inspections and the Retirement Fund. Seattle IT also receives funds from the City's Cable Television Fund, grants and other government agencies external to the City (e.g., Seattle Public Schools, the Port of Seattle) that buy Seattle IT services for special projects.

Cable Fund Overview

Beginning in 1996, the City of Seattle entered into cable franchise agreements that included a franchise fee as compensation for cable television providers locating in the public right-of-way. The City has approved franchises with CenturyLink, Comcast and Wave Division I.

The Cable Television Franchise Fund (created by [Ordinance 118196](#)) revenues come from the franchise fee collected from the agreements. Related expenditures are budgeted in Seattle IT and charged to the Cable Television Franchise Fund. [Resolution 30379](#) establishes usage policies for the fund. The fund pays for the following services:

- administration of the Cable Customer Bill of Rights as well as the public, education, and government access costs the City is obligated to fund under the terms of its cable franchise agreements;
- support of the Seattle Channel, including both operations and capital equipment;
- programs and projects promoting technology literacy and access, including related research, analysis, and evaluation; and
- use of innovative and interactive technology, including television and online content, to provide ways for residents to access City services.

Budget Snapshot

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

Adopting to a Hybrid Workplace

Seattle IT is committed to supporting a hybrid remote-in person workforce. Due to the COVID-19 pandemic, nearly

Seattle Information Technology Department

all areas of Seattle IT's lines of businesses have experienced an increased demand from customer departments. Seattle IT is committed to prioritizing workloads and finding efficiencies to execute this increased workload. To ensure the sustainability of these efforts, the 2022 Proposed Budget contains increases that will enable the department to continue providing this level of service in the long term. Key changes include:

- decreasing the assumed vacancy rate from 6% to 4%;
- funding to reflect cost increases for Adobe and Microsoft licensing;
- aligning the PC replacement program to reflect increased device counts and costs; and
- adjusting ongoing maintenance costs for to support the Unified Communications (UC) rollout.

The Proposed Budget allocates Federal Coronavirus Local Fiscal Recovery (CLFR) Fund to Seattle IT as part of Seattle Rescue Plan 3 (SRP3). These changes will allow Seattle IT to staff areas of the department where increased demand for service is highest, enable continued support for telework, and support the implementation of Affordable Seattle ("Affordability Portal"). See the Seattle Rescue Plan section of this 2022 Budget Book for more details on SRP3.

Position Transfers

The 2022 Proposed Budget includes transfers of positions from Seattle IT to Seattle City Light (SCL) and Seattle Public Utilities (SPU) for work that was deemed to be specialized operational technology best suited in the departments outside Seattle IT. Further details on these transfers are in the Incremental Budget Changes section.

Seattle IT Initiatives

The 2022 Proposed Budget includes funding for Seattle IT to continue to provide core IT services, enhance the city's cyber security posture, and implement new projects on behalf of the City. Three key changes to improve the delivery of IT services include funding to replace end-of-life server hardware, continuing support for the Citywide Contract Management System, and continuing to increase funding for cybersecurity insurance.

Supporting the Citywide Public Records Act

In response to Mayor Durkan's Directive on Citywide Public Records Act (CPRA) improvements, Seattle IT is committing new staffing and technological resources to improve how the city handles Public Records. These investments will result in fewer fulfillment delays, increased response consistency across the City, and improve the way the City stores and handles public records.

Cable Television Franchise Fund

As described in the narrative above, the Cable Television Franchise Fund receives revenues from cable television provider franchise fees. These funds pay for programs such as the Seattle Channel, the Cable Customer Bill of Rights, initiatives that promote technology literacy and access, and technology that provides ways for residents to access City services. As Seattle residents increasingly discontinue their cable television service in favor of internet-based streaming video services that are not subject to the City's regulatory structure, the City has seen cable franchise fee revenues decline significantly and this trend continues in 2021. There are no programming changes proposed at this time.

Department Initiatives

Seattle IT's budget includes funding for two department-specific IT Initiatives projects: Seattle City Light IT Initiatives and Seattle Public Utilities IT Initiatives. These project funds are appropriated in both Seattle IT and in department budgets.

In addition, Seattle IT will be supporting department IT projects for the Department of Finance and Administrative Services (FAS), the Seattle Fire Department (SFD), the Seattle Police Department (SPD), the City Clerk, Seattle Department of Constructions and Inspections (SDCI), and the newly formed Community Safety and Communications Center (CSCC). Each of these projects will modernize or replace legacy systems that are critical to each department's core business functions. These initiatives and projects are shown in the Seattle IT budget book pages; however,

Seattle Information Technology Department

additional detail is available in the budget book sections for those departments.

Seattle Information Technology Department

Description of Incremental Budget Changes

Baseline

Remove 2021 One-Time Items

Expenditures	\$(2,817,054)
Revenues	\$(17,054)

This item includes budget adjustments for one-time changes added in the 2021 Adopted Budget. This includes a transfer of \$2.3 million to the Department of Finance and Administrative Services (FAS).

Baseline Technical Adjustments

Expenditures	\$(1,367,423)
Revenues	\$(2,978,673)
Position Allocation	(39.60)

This technical baseline change realigns the 2021 Retirement Driven Attrition budget with the final position reductions to be realized in 2021. In addition, IT is making a correction to the FTE count to reflect a position that was mistakenly included at 0.5 FTE. This change also reduces annual operating funding for a cancelled Seattle Police Department (SPD) project by \$1,346,340.

Realign Post-Rate Revenue Changes

Expenditures	\$85,875
Revenues	\$1,607,947

This baseline change updates budget and revenues to reflect changes made to Seattle IT's budget after customer rates were set during the 2021 budgeting process.

Labor & Maintenance Realignment

Expenditures	\$576,942
Revenues	\$576,942

This baseline change realigns Seattle IT's budget to where the corresponding body of work is occurring. It also realigns funding for annual software maintenance contracts with the projected IT service needs. The increase in budget represents the impact this realignment has on IT's share of its own services and does not impact the department's total cost of labor or maintenance.

Principal & Interest True-Up

Expenditures	\$2,094,839
Revenues	\$2,328,402

This baseline change adjusts the amount and distribution of principal and interest budget based on the debt service schedule and planned spending in the 2022 CIP

Vacancy Rate Decrease from 6% to 4%

Expenditures	\$2,160,963
Revenues	\$2,160,963

This item decreases Seattle IT's budgeted vacancy rate from 6% to 4%. This change better reflects IT's current head

Seattle Information Technology Department

count and the increasing demand for IT services as a result of remote work.

Inflation using CBO-provided values

Expenditures	\$3,935,123
Revenues	\$3,935,123

This baseline change adjusts inflation factors as prescribed by the City Budget Office for the 2022 budget.

Adjust Capital Projects Outyears

Expenditures	-
--------------	---

This baseline update includes adjusting Seattle IT's budget to reflect the out year changes to our ongoing CIP projects.

Proposed Operating

Unified Communications (UC) Ongoing Costs

Expenditures	\$2,893,874
Revenues	\$2,893,874

This item adds funding to Seattle IT's Security & Infrastructure division for the ongoing costs to maintain the new Unified Communications (UC) system after rollout and stabilization in 2022.

Maintenance Funding for New Systems and Department Specific Technology

Expenditures	\$2,188,837
Revenues	\$2,188,837

This item adds annual maintenance budget for newly implemented technologies and existing contracts with significant increases. These increases affect business applications utilized by Seattle City Light (SCL), the Seattle Fire Department (SFD), the Seattle Police Department (SPD), Seattle Department of Human Resources (SDHR), and the Office of Inspector General (OIG).

Funding for Adobe and Microsoft Annual Support Costs

Expenditures	\$1,875,000
Revenues	\$1,875,000

This item adds \$1.3 million for the City's Microsoft Enterprise Agreement and \$575,000 for an Adobe contract to ensure the City is able to maintain and strengthen successful remote working and collaboration. In 2020, expenses for these contracts grew due to increased City usage and vendor pricing changes.

Funding for Standard Device Lifecycle Replacement

Expenditures	\$1,523,077
Revenues	\$1,523,077
Position Allocation	2.00

This item increases device funding and add 2.0 FTEs (2.0 Information Technology Professional C) for the City's PC Lifecycle Replacement program. Additional funding is required to reflect increased device counts and cost increases.

Seattle Information Technology Department

Citywide Public Records Act Transfer and Resource Additions

Expenditures	\$1,488,221
Revenues	\$185,380
Position Allocation	5.00

This item transfers the Citywide Public Records Act (CPRA) program from the Finance and Administrative Services (FAS) department to Seattle IT by transferring the program's base budget and associated 1.0 FTE (1.0 Information Technology Professional B). Additionally, this item includes a request for additional budget, position authority for 4.0 FTE (4.0 Strategic Advisor 2), and three systems to help create a more mature CPRA program.

Citywide Contract Management System Ongoing Support

Expenditures	\$339,434
Revenues	\$339,434
Position Allocation	1.00

This item creates a new Seattle IT cost pool for the new Citywide Contract Management System (CCMS), transfers existing IT budget to support the system into the cost pool, and adds funding for technical support and maintenance costs that will be initially charged to the Department of Finance and Administrative Services (FAS) costs but ultimately paid by Seattle IT. This item also requests position authority for an additional 1.0 FTE (Information Technology Professional B) to support the ongoing maintenance of the system.

True Up Funding for Cyber Security Insurance

Expenditures	\$63,000
Revenues	\$63,000

This item adds \$63,000 to the Security & Infrastructure division to ensure adequate funding for the renewal of the City's cyber security liability insurance.

Critical IT Infrastructure Needs

Expenditures	\$4,000,000
--------------	-------------

This CLFR item extends the funding for critical IT resources identified in 2021. The \$2.3M appropriated in 2021 is continued here to allow for a full twelve months of work for 20.0 FTEs. As a result of the COVID-19 pandemic, customer department demand has increased across all of Seattle IT's lines of business. This funding will provide staffing across the most in-demand lines of business such as the solution desk and cybersecurity. This item is backed by revenue from the Coronavirus Local Fiscal Recovery (CLFR) Fund.

Affordable Seattle

Expenditures	\$1,432,632
--------------	-------------

This CLFR item provides support for optimization of existing City affordability investments and implementation of a unified application tool for those investments. In partnership with the City Budget Office (CBO), this program will improve efficacy of City aid programs addressing negative economic impacts by streamlining access to City benefit programs via a unified application portal. Seattle IT will provide development, QA/QC, and technical assistance to the product manager and end-users. There is a related item in CBO for impact evaluation staff and Affordable Seattle. This item is backed by revenue from the Coronavirus Local Fiscal Recovery (CLFR) Fund.

Seattle Information Technology Department

Additional Funding to Support Hybrid Workplace

Expenditures	\$500,000
--------------	-----------

This CLFR-backed item provides additional funding to support upgrading desktop computers to laptops and staffing for the PC Replacement Program in 2022. This funding will support emergent hybrid workplace needs that are not captured by the program's base budget. This item is backed by revenue from the Coronavirus Local Fiscal Recovery (CLFR) Fund.

Software Costs for Vaccine Verification Platform

Expenditures	\$10,200
--------------	----------

This CLFR-backed item increases appropriation to cover software costs supporting employee vaccination verification efforts. This item is backed by revenue from the Coronavirus Local Fiscal Recovery (CLFR) Fund.

Process Automation Software

Expenditures	\$198,450
Revenues	\$198,450

SPU and SCL have implemented a new software application, NICE robotic process automation, through their joint CIS Workflow capital project. This request adds the annual software subscription cost of \$198,450 for NICE to the Utilities annual ITD rates.

Transfer GIS Operational Staff to SPU

Expenditures	\$(169,316)
Revenues	\$(149,982)
Position Allocation	(1.00)

This item transfers 1.0 FTE (Information Technology Professional B) from Seattle IT to Seattle Public Utilities (SPU) to support departmental operational GIS needs. Due to the specialized nature of SPU's GIS need, this position is best resourced within SPU.

Transfer Operational Technology to SPU

Expenditures	\$(1,017,866)
Revenues	\$(1,017,866)
Position Allocation	(3.00)

This item transfers technology deemed operational to Seattle Public Utilities (SPU). This includes the transfer of 3.0 FTE (2 Information Technology Professional B, 1 Information Technology Professional A) and non-labor budget for the Maximo Work and Asset Management systems (WAMS). This system is proprietary to SPU.

Transfer GIS Operational Staff to SCL

Expenditures	\$(141,975)
Revenues	\$(122,641)
Position Allocation	(1.00)

This item transfers 1.0 FTE (IT Programmer Analyst) from Seattle IT to Seattle City Light (SCL) to support departmental operational GIS needs. Due to the specialized nature of SCL's GIS need, this position is best resourced within SCL.

Seattle Information Technology Department

Transfer Operational Technology to SCL

Expenditures	\$(1,987,335)
Revenues	\$(1,987,335)
Position Allocation	(7.00)

This item transfers technology deemed operational to Seattle City Light (SCL). This includes the transfer of 7.0 FTE (7 Information Technology Professional B) and non-labor budget for the Outage Management (OMS), Asset Suite and Work and Asset Management system (WAMS). This system is proprietary to SCL.

Business Systems Analyst for Utility Customer Applications

Expenditures	\$171,599
Revenues	\$171,599
Position Allocation	1.00

This item adds 1.0 FTE (Information Technology Professional B) and the associated budget to support the ongoing maintenance and testing needs for the Seattle City Light (SCL) and Seattle Public Utilities (SPU) Customer Information Systems (CIS).

Developer for Utility Customer Applications

Expenditures	\$171,599
Revenues	\$150,265
Position Allocation	1.00

This item adds 1.0 FTE (Information Technology Professional B) and the associated budget for on-going support, enhancements, and maintenance for the Seattle City Light (SCL) and Seattle Public Utilities (SPU) Customer Self Service Portal.

FAS Online Business Directory Replacement

Expenditures	\$581,000
Revenues	\$581,000

This item will fund the replacement of the existing Online Business Directory (OBD), which is used to display companies, including self-identified minority-owned, women-owned and LGBTQ business, who have expressed interest in doing business with the City.

FAS Risk/Envision System Replacement

Expenditures	\$505,000
Revenues	\$505,000

This item will replace the existing Risk Management Information System (RMIS) by potentially utilizing a system similar currently being used by the Seattle Department of Human Resources (SDHR). The current system requires manual processes that are manual and time-consuming, and the new system will provide a more streamlined system that will enable FAS to process claims more efficiently.

FAS Investment Portfolio Management Software Replacement

Expenditures	\$250,000
Revenues	\$250,000

Seattle Information Technology Department

This item funds the procurement and implementation a new software for managing the City's investments. The current system is no longer supported by the vendor.

FAS Capital Asset Management Software Implementation

Expenditures	\$175,000
Revenues	\$175,000

This item implements AssetWorks' Capital Asset Management (CAM) with integration to the current fleet information management system, Fleet Anywhere (FA). CAM would enable FAS to model and compare different possible future fleet procurement plans to project future fleet capital costs and to help make policy decisions on fleet life cycles, electrification, maintenance operations staffing needs, and whether and how much to incorporate renewable fuels, etc. CAM integrates maintenance cost analysis and projections which would enhance FAS's ability to project citywide maintenance costs, improve rate calculations and methodology, and right-size fleet staffing to meet the demands of the fleet.

FAS Lease Accounting System

Expenditures	\$75,000
Revenues	\$75,000

This item funds a system to support the City's GASB Statement 87 reporting requirements in recognition of certain lease assets and liabilities for leases in 2022. These were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.

RecordPoint Implementation

Expenditures	\$478,800
Revenues	\$478,800

This item funds the planning and implementation of a Citywide electronic records management system. Seattle IT has partnered with the City Clerk's office to pilot the use of RecordPoint for this purpose and this proposal will begin the work to turn this pilot into an enterprise system for all City departments to use.

SDCI Labor Collection System (LCS) Replacement

Expenditures	\$802,000
Revenues	\$802,000

This project will replace SDCI's aging Labor Collection System (LCS), which is nearing the end of its life, with an application that uses up-to-date development technology and can be more easily maintained.

SFD National Fire Incident Reporting System Modernization

Expenditures	\$499,000
Revenues	\$499,000

This project will fund the modernization of the Seattle Fire Department (SFD) National Fire Incident Reporting System (NFIRS). NFIRS captures fire incident data that is required to be reported to the State and Federal governments. Modernizing NFIRS will allow SFD to entire fire incident data more quickly, eliminate time-consuming manual processes, and increase the information quality of reports.

Seattle Information Technology Department

SFD Safety and Training System

Expenditures	\$318,100
Revenues	\$318,100

This project funds a new Safety and Training system for Seattle Fire Department (SFD). SFD seeks a vendor hosted SaaS solution to replace the current 22-year-old, inhouse developed application. The solution will enhance SFD's ability to track, record, and report on safety standards and training across the department.

CSCC 911 Logging Recorder CAD Integration

Expenditures	\$107,000
Revenues	\$107,000

This item implements a connection between the NICE 911 logging recorder and the Versaterm Computer Aided Dispatch (CAD) system. This will allow CSCC to collect additional information on 911 calls to monitor and improve the call taking process.

CSCC Employee File Repository System

Expenditures	\$59,000
Revenues	\$59,000

This project will fund an employee file repository system. As a new department, the Community Safety and Communications Center (CSCC) does not have a tool to formally document employee information and performance. This system will allow CSCC to capture this information and operationalize it to identify areas of improvement and inform positive feedback.

DAP Cloud Expenses

Expenditures	\$76,076
Revenues	\$76,076

This item adds the estimated budget needed to fund the cloud usage costs associated with the Seattle Police Department's (SPD) Data Analytics Platform. These costs will be direct billed to SPD based on actuals usage.

Add Staff for Department GIS Needs

Expenditures	\$153,016
Revenues	\$131,682
Position Allocation	1.00

This item adds one 1.0 FTE (Information Technology Professional C) to provide dedicated GIS support currently being performed by a term limited employee that is expiring. This position would reside in Seattle IT's GIS & CADD team

Radio Communications Shop Sunset Positions

Position Allocation	2.00
---------------------	------

This item adds two sunset positions to the Radio Communications Shop to complete the installation of Seattle Police Department (SPD) and Seattle Fire Department (SFD) mobile device terminals. This proposal requests position authority only, as project funding for this body of work is already in place. These positions will sunset at the end of 2022.

Seattle Information Technology Department

General Fund Backfill for Cable Fund

Revenues -

This item provides \$400,000 of ongoing General Fund support for the Digital Equity program in the Seattle Information Technology Department which was supported by Cable Franchise Fees prior to 2020. Cable Television Fund revenues are steadily declining, and these funds enable continuation of the program.

Proposed Capital

Work Schedule and Timekeeping Program

Expenditures \$1,500,000

Revenues \$1,500,000

This item adds \$1.5M to support the Seattle Police Department (SPD) implementation of the Work, Schedule, and Timekeeping (WST) Project. This funding is needed to fund consultant, software, and backfill costs needed to complete the project.

Technology Infrastructure CIP Adjustment

Expenditures \$1,100,000

Revenues \$1,100,000

This funding supports the City's IT infrastructure lifecycle replacements and invest in newer, more secure technology. There are telephony upgrades to support the Seattle Police Department's (SPD) 911 functionality will be required. In addition, there are also some purchases needed to support the new Unified Communications backbone.

Proposed Technical

Baseline Adjustments for Personnel Costs

Expenditures \$879,771

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

SPD Count Update

This change represents the update to Seattle IT's cost recovery data to reflect the separation of Parking Enforcement Officers and the Community Safety Communication Center from Seattle Police Department.

Healthcare Adjustment

Expenditures \$820,633

Revenues \$820,633

This change aligns Seattle IT's healthcare budget with the anticipated 2022 need.

Citywide Adjustments for Standard Cost Changes

Expenditures \$667,047

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget

Seattle Information Technology Department

process.

Cable Fund Technical Adjustments

Expenditures	\$(756,793)
Revenues	\$(756,793)

This item adjusts the Cable Television Franchise Fee Fund (10101) budget to reflect the impact of changes with the Seattle Information Technology Operating Fund (50410) involving the use of Franchise Fee revenue. This change reflects budget changes as well as changes in cost allocation methodologies that have shifted where cost allocations away from the Cable Fund.

Indirect Cost Adjustment

Expenditures	\$612,636
Revenues	\$612,636

This item represents the impacts of 2022 proposed budget changes on Seattle IT's indirect cost model.

Customer Engagement Applications Dissolution

Expenditures	\$50,380
Revenues	\$50,380

This item moves budget out of the Customer Engagement Applications detail project to reflect the impact of a recent management reorganization in Seattle IT. Beginning in 2021 this service is no longer offered, and the associated budget and resources have shifted under other IT cost pools.

Operating Impacts of Technology Infrastructure CIP Adjustment

Expenditures	\$41,250
Revenues	\$41,250

This item reflects the operating impacts of CIP changes. As a result of the Technology Infrastructure CIP adjustment, this funding request is to cover the first year of interest costs on the proposed bond issuance.

GIS Small Department Billable Correction

Expenditures	\$30,000
Revenues	\$30,000

This item adds funding for GIS billable work for various small departments.

Decrease in External Lease Costs

Expenditures	\$(42,131)
--------------	------------

This item decreases appropriation authority to pay for decreases in Seattle IT's external lease costs.

MCIS Technical

Expenditures	\$3,000,000
Revenues	\$3,000,000

This change adds \$3 million of bond funding to the MCIS Replacement project in 2022. Early in 2021, based on the

Seattle Information Technology Department

updated MCIS project spending plan, legal appropriation and the associated bond issuance was reduced from \$10 million to \$7 million. The \$3 million of legal appropriation was submitted for abandonment in the Q2 2021 Supplemental Ordinance, with the plan to then shift that appropriation and associated bond issuance into 2022 to better align with projected spending.

SPU's CIP Technology Adjustment

Expenditures	\$(2,150,000)
Revenues	\$(2,150,000)

This item reduces appropriation authority in the Applications BSL to align with the anticipated Seattle Public Utilities (SPU) CIP budget changes for technology projects in 2022.

SDCI's Technology Budget Adjustment

Expenditures	\$830,007
Revenues	\$830,007

This item revises appropriation authority in the Applications BSL to align with the anticipated SDCI budget for technology projects in 2022.

Inflation Adjustment

Expenditures	\$1,111,243
Revenues	\$1,111,243

This change updates Seattle IT's personnel budget to reflect the most current inflation guidance provided by the City Budget Office.

Changes to Seattle IT's Funding Methodologies

Expenditures	\$(8,282)
Revenues	\$(8,282)

This technical item adjusts Seattle IT's budget to reflect a change in two rate allocation mechanisms. These rate pools have changed due to internal departmental consolidations or transfers to Seattle City Light (SCL) and Seattle Public Utilities (SPU). It also implements a new mechanism to provide departments with an estimate for their GIS direct bill needs.

SCL's CIP Technology Adjustment

Expenditures	\$(8,669,040)
Revenues	\$(8,669,040)

This item reduces appropriation authority in the Applications BSL to align with the anticipated Seattle City Light (SCL) CIP budget changes for technology projects in 2022.

Continuation of 2021 CLFR Positions

Position Allocation	23.00
---------------------	-------

This technical change request recognizes CLFR-backed sunset positions that were added as part of the 2021 2Q Supplemental Process. 3.0 FTE will continue supporting the Affordable Seattle program, and the remaining 20.0 FTE will continue supporting Critical IT infrastructure needs that have arisen due to increased demand for IT services.

Seattle Information Technology Department

Seattle Information Technology Department

Appropriations by Budget Summary Level and Program

ITD - BC-IT-C0700 - Capital Improvement Projects

The Capital Improvement Projects Budget Summary Level provides support for citywide or department-specific IT projects and initiatives within Seattle IT's Capital Improvement Program (CIP).

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Application Services CIP	13,508,480	11,679,600	14,576,000
Application Services CIP	142,065	-	-
Citywide IT Initiatives CIP	5,547,932	-	-
Communications CIP	11,416,653	12,875,262	5,690,670
Enterprise Compute Services CIP	2,815,168	7,484,983	2,182,188
Fiber Enterprise Initiatives CIP	2,448,089	4,356,485	4,468,011
Programmatic Initiatives CIP	252,158	-	-
Radio Communications CIP	542,831	705,049	723,098
Seattle Channel CIP	190,867	336,759	345,380
Total	36,864,241	37,438,137	27,985,346

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Capital Improvement Projects Budget Summary Level:

Application Services CIP

This budget program contains Capital Improvement Program (CIP) funding associated with developing, implementing and enhancing various software applications used by City departments.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Application Services CIP	13,650,545	11,679,600	14,576,000

Citywide IT Initiatives CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with a portfolio of capital IT initiatives. Projects in this program may support multiple departments.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Citywide IT Initiatives CIP	5,547,932	-	-

Communications CIP

Seattle Information Technology Department

This budget program contains the Capital Improvement Program (CIP) funding associated with ongoing design, acquisition, replacement and upgrading of software, infrastructure and major hardware for the City's data, communications and telephonic systems which may include switches, and or connectivity infrastructure.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Communications CIP	11,416,653	12,875,262	5,690,670

Enterprise Compute Services CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement, and upgrading of server and storage systems.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Enterprise Compute Services CIP	2,815,168	7,484,983	2,182,188

Fiber Enterprise Initiatives CIP

This budget program (formerly Technology Engineering & Project Management CIP) contains the Capital Improvement Program (CIP) funding associated with major maintenance and installation of a high-speed fiber-optic communication network for the City and its external fiber partners.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Fiber Enterprise Initiatives CIP	2,448,089	4,356,485	4,468,011

Programmatic Initiatives CIP

This budget program contains the Capital Improvement Program (CIP) funding for one-time Seattle IT Programmatic Initiatives including the acquisition and development of a new data center, the remodeling of Seattle IT space in the Seattle Municipal Tower, and the acquisition of new technology management tools.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Programmatic Initiatives CIP	252,158	-	-

Radio Communications CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement and upgrading of software and hardware for the City of Seattle's portion of the King County Regional 800 MHz radio system.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Radio Communications CIP	542,831	705,049	723,098

Seattle Channel CIP

Seattle Information Technology Department

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement and upgrading of the cablecasting and production systems for the Seattle Channel.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Seattle Channel CIP	190,867	336,759	345,380

ITD - BO-IT-D0100 - Leadership and Administration

The Leadership and Administration Budget Summary Level provides executive, community, financial, human resource, and business support to Seattle IT.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Chief of Staff	14,990,524	-	-
Chief Privacy Office	761,670	-	-
Citywide Indirect Costs	11,321,390	6,850,652	6,757,575

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Chief of Staff

This budget program contains the funding associated with the leadership and accountability of core administrative support to ITD's divisions. These efforts include the oversight of ITD's talent, workforce planning and training, communications, finance, corporate performance, and organizational change management.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Chief of Staff	14,990,524	-	-
Full Time Equivalents Total	60.00	-	-

Chief Privacy Office

Seattle Information Technology Department

This budget program provides oversight and guidance required for City Departments to incorporate appropriate privacy and surveillance ordinance compliance practices into City operations with the objective of building public trust and confidence in how we collect and manage the public's personal information.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Chief Privacy Office	761,670	-	-
Full Time Equivalents Total	2.00	-	-

Citywide Indirect Costs

This budget program contains the funding associated with the various overhead costs charged to Seattle IT, including budget and expenses that have been allocated from other City departments.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Citywide Indirect Costs	11,321,390	6,850,652	6,757,575

CTO / Executive Team

This budget program contains the funding associated with the Chief Technology Officer (CTO) and the Seattle IT Executive Team. The CTO sets technology standards and strategies to ensure the City's technology investments are used efficiently and effectively.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
CTO / Executive Team	2,943,938	-	-
Full Time Equivalents Total	13.00	-	-

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department including executive, financial, communications, human resources, business support, and strategic planning and analysis services. It also includes the costs for the City's Privacy and Surveillance program.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Departmental Indirect Costs	-	18,306,629	22,166,763
Full Time Equivalents Total	-	82.00	81.50

Executive Advisor

This budget program contains funding for key administrative support functions including process improvement, governance, interdepartmental service delivery, support for ITD's Racial Social Justice Initiative and community focused technology strategies.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed

Seattle Information Technology Department

Executive Advisor	1,562,551	-	-
Full Time Equivalents Total	9.00	-	-

Indirect Cost Recovery Offset

This budget program is used for the indirect cost recovery of Citywide and Departmental indirect costs incurred by Seattle IT.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Indirect Cost Recovery Offset	(5,428,988)	-	-

Pooled Benefits and PTO

This budget program contains the funding associated with employee leave, time off, and benefit-related costs for Workers' Compensation, healthcare and other centrally distributed benefit costs for Seattle IT staff.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Pooled Benefits and PTO	455,448	(28,468)	115,281

ITD - BO-IT-D0200 - Cable Franchise

The purpose of the Cable Fee Support to Information Technology Fund Budget Control Level is to authorize the transfer of resources from the Cable Television Franchise Fund to the Seattle Information Technology Department's Information Technology Fund. These resources are used by the department for a variety of programs consistent with Resolution 30379.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Cable Franchise for Info Tech	6,199,140	7,171,058	6,414,265
Total	6,199,140	7,171,058	6,414,265

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

ITD - BO-IT-D0300 - Technology Infrastructure

The Technology Infrastructure Budget Summary Level develops, maintains, and manages core IT services including communications and data networks, data center and cloud computing infrastructure, and database systems.

Office of Intergovernmental Relations

Lily Wilson-Codega, Director

(206) 684-0213

<http://www.seattle.gov/oir>

Department Overview

The Office of Intergovernmental Relations (OIR) provides advice and information to, and on behalf of, City elected officials, City departments, and external partners. The primary goal of these efforts is to ensure the City's interests are advanced with regional, state, federal, tribal, and international entities to enable the City to better serve the Seattle community.

OIR is also responsible for engaging with other jurisdictions and governmental entities to collaborate and advocate for outcomes that are in the interest of the City and region. OIR implements and manages lobbying contracts and ensures the City's lobbying resources align with the City's strategic advocacy priorities.

Budget Snapshot

	2020 Actuals	2021 Adopted	2022 Proposed
Department Support			
General Fund Support	3,074,834	2,810,942	3,059,062
Total Operations	3,074,834	2,810,942	3,059,062
Total Appropriations	3,074,834	2,810,942	3,059,062
Full-Time Equivalents Total*	10.00	9.00	10.00

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here.*

Budget Overview

The 2022 Proposed Budget restores funding to the Office of Intergovernmental Relations (OIR) after the 2021 Adopted Budget reduced funding in the following areas: state lobbying contracts, membership dues to the Association of Washington Cities (AWC), and travel and conference costs. Additionally, the proposed budget provides OIR with an additional pocket for the department's state lobbying body of work. There is no new increase in appropriation authority proposed. Finally, the proposed budget includes Citywide technical adjustments related to internal services costs and personnel costs.

Office of Intergovernmental Relations

Incremental Budget Changes

Office of Intergovernmental Relations

	Dollars	FTE
2021 Adopted Budget	2,810,942	9.00
Baseline		
Citywide Adjustments for Standard Cost Changes	19,503	-
Baseline Adjustments for Personnel Costs	43,117	-
State Lobbying Contracts Restoration	118,000	-
Association of Washington Cities Membership Restoration	57,500	-
Travel and Conference Budget Restoration	10,000	-
Proposed Operating		
State Lobbyist Pocket Add	-	1.00
Total Incremental Changes	\$248,120	1.00
Total 2022 Proposed Budget	\$3,059,062	10.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$19,503

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures \$43,117

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

State Lobbying Contracts Restoration

Expenditures \$118,000

This item is a restoration of appropriation authority of \$118,000 to the Office of Intergovernmental Relations (OIR). In 2021, OIR took a one-time reduction in appropriation authority of \$118,000, due to significant revenue losses from the COVID-19 economic and public health crises. This reduction was associated with reduced department resources for representation and lobbying abilities in Olympia, WA, and one-time resources were identified to temporarily fill this need in 2021. This item restores the one-time reduction on an ongoing basis.

Office of Intergovernmental Relations

Association of Washington Cities Membership Restoration

Expenditures	\$57,500
--------------	----------

This item is a restoration of appropriation authority of \$57,500 to the Office of Intergovernmental Relations (OIR). In 2021, OIR took a one-time reduction in appropriation authority of \$57,500, due to significant revenue losses from the COVID-19 economic and public health crises. This reduction was associated with a 50% reduction of 2021 membership dues to the Association of Washington Cities (AWC). This item restores the one-time reduction.

Travel and Conference Budget Restoration

Expenditures	\$10,000
--------------	----------

This item is a restoration of appropriation authority of \$10,000 to the Office of Intergovernmental Relations (OIR). In 2021, OIR took a one-time reduction in appropriation authority of \$10,000, due to significant revenue losses from the COVID-19 economic and public health crises. This reduction was associated with reduced travel and conference expenses in 2020 and 2021, which expect to return in 2022. This item restores the one-time reduction.

Proposed Operating

State Lobbyist Pocket Add

Position Allocation	1.00
---------------------	------

This item creates a 1.0 FTE Strategic Advisor 2, Exempt pocket in the Office of Intergovernmental Relations (OIR). This add will help to ensure that all regular OIR positions can be filled with qualified candidates. No increase in appropriation authority is needed to fund this position.

Office of Intergovernmental Relations

Expenditure Overview

	2020 Actuals	2021 Adopted	2022 Proposed

Legislative Department

M. Lorena González, Council President

(206) 684-8888 TTY: (206) 233-0025

<http://www.seattle.gov/council/>

Department Overview

The Legislative Department is comprised of the Seattle City Council, as well as two primary divisions: Central Staff and the Office of the City Clerk. Each division supports various aspects of the Council and works with members of the public and City departments to facilitate and develop effective and responsive public policy. The Council and Legislative Department are part of the legislative branch of government, which also includes the Office of City Auditor, the Office of Hearing Examiner, and the Office of Inspector General for Public Safety.

The Council is composed of two at-large and seven district-elected seats for a total of nine, nonpartisan, elected Councilmembers. In November 2019, seven district Councilmembers were elected to a four-year term beginning in 2020. Two at-large Councilmembers are elected to align with the election for a four-year term with the Mayor and City Attorney election in 2021. This approach staggers the district and at-large elections two years apart.

The City Council establishes city laws; creates, evaluates and approves policies, legislation, and regulations; approves the City's annual operating and capital improvement budgets; and provides oversight to the City's executive departments. Each Councilmember has a staff of legislative assistants who assist in this work.

Central Staff provides policy and budget analysis for Councilmembers and their staffs, as well as consultant contract services for the Legislative Department. The Office of the City Clerk advances principles of open government and inclusive access through effective facilitation of the legislative process and transparent, accountable stewardship of public information and the official record, including City Council proceedings and legislation. The City Clerk serves as ex-officio elections administrator and filing officer. The office manages the City's Boards and Commissions Registry Program; coordinates public records disclosure requests; and provides information technology, administrative and operational support to the Legislative Department.

Communications and Human Resources/Finance teams are also a part of the Legislative Department. Communications staff assist Councilmembers and the Council as a whole in communicating values, goals and issues to the public by providing marketing and public relations services, including website and social media management, strategic media relations and public affairs work. Human Resources/Finance staff provide employee relations, talent acquisition, employee development, performance management, benefits administration services, finance, budget, accounting, and payroll for the Legislative Department and Office of City Auditor.

Legislative Department

Budget Snapshot

	2020 Actuals	2021 Adopted	2022 Proposed
Department Support			
General Fund Support	18,559,193	18,441,784	19,060,165
Total Operations	18,559,193	18,441,784	19,060,165

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

The 2022 Proposed Budget includes technical adjustments to bring the department's baseline budget into alignment with internal service cost changes and the removal of one-time items added in prior year budgets. In addition, the proposed budget restores General Fund that had been cut following COVID-19 related revenue losses in 2020 and 2021; this funding will support ongoing personnel and operating expenses.

Legislative Department

Incremental Budget Changes

Legislative Department

	Dollars	FTE
2021 Adopted Budget	18,441,784	100.50
Baseline		
Citywide Adjustments for Standard Cost Changes	328,381	-
One-Time Items	(210,000)	-

Restore General Fund	500,000	-
Total Incremental Changes	\$618,381	-
Total 2022 Proposed Budget	\$19,060,165	100.50

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$328,381

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for Judgement and Claims, healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

One-Time Items

Expenditures \$(210,000)

This item includes budget adjustments for one-time changes in the 2021 Adopted Budget including:

- (\$60,000) added to supplement funding for a King County survey on human service wage inequities; and
- (\$150,000) to fund a Transportation Impact Fee Study.

Proposed Operating

Restore General Fund

Expenditures \$500,000

This item restores \$500,000 of General Fund reductions that were taken in the 2021 Adopted Budget due to COVID-19 related revenue losses.

Legislative Department

Appropriations by Budget Summary Level and Program

LEG - BO-LG-G1000 - Legislative Department

The purpose of the Legislative Department Budget Summary Level is to set policy, enact City laws, approve the City's budget, provide oversight of City departments, and support the mission of the Council.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Central Staff	3,365,180	3,560,685	3,577,027
City Clerk	4,010,941	3,821,245	3,845,327
City Council	7,103,118	6,363,620	6,692,324
Total	14,479,238	13,745,550	14,114,678
Full-time Equivalents Total*	95.50	95.50	95.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Legislative Department Budget Summary Level:

Central Staff

The purpose of the Central Staff Program is to provide high-quality, objective research and analysis to the Council and its individual members on a variety of policy and budget issues, as well as consultant contract services for the Legislative department.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Central Staff	3,365,180	3,560,685	3,577,027
Full Time Equivalents Total	19.00	19.00	19.00

City Clerk

The purpose of the City Clerk Program is to support and facilitate the City's legislative process in compliance with the Open Public Meetings Act; manage the City's Records Management Program and ensure public access to the City's records; preserve the City's official and historical records in compliance with the Public Records Acts; manage the City's Boards and Commissions Registry; serve as the City's ex officio elections officer; and provide information technology, administrative and operational support to the Legislative Department.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
City Clerk	4,010,941	3,821,245	3,845,327
Full Time Equivalents Total	27.50	27.50	27.50

City Council

Legislative Department

The purpose of the City Council Program is to set policy; review, consider and determine legislative action; approve the City's budget; and provide oversight of City departments. The goal of the City Council is to be transparent, effective and accountable, as well as to promote diversity and health of all neighborhoods. This program consists of the nine Councilmembers, their Legislative Assistants and the Communications staff.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
City Council	7,103,118	6,363,620	6,692,324
Full Time Equivalents Total	49.00	49.00	49.00

LEG - BO-LG-G2000 - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide executive, community, financial, human resource, technology and business support to the department.

Program Expenditures	2020	2021	2022
	Actuals	Adopted	Proposed
Citywide Indirect Costs	2,842,721	2,897,642	3,099,241
Departmental Indirect Costs	1,237,234	1,798,592	1,846,246
Total	4,079,955	4,696,234	4,945,487
Full-time Equivalents Total*	5.00	5.00	5.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle Information Technology Department.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Citywide Indirect Costs	2,842,721	2,897,642	3,099,241

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This may include personnel costs related to department leadership and administration or other administrative costs such as external rent and operating supplies or services.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Departmental Indirect Costs	1,237,234	1,798,592	1,846,246
Full Time Equivalents Total	5.00	5.00	5.00

Office of the Mayor

Jenny A. Durkan, Mayor

(206) 684-4000

<http://www.seattle.gov/mayor/>

Department Overview

The Office of the Mayor works to provide leadership to the residents, employees, and regional neighbors of the City of Seattle and to create an environment that encourages ideas, civic discourse, and inclusion for the City's entire diverse population.

In the municipality of Seattle, the Mayor governs the Executive Branch as its chief executive officer. The many legal roles and responsibilities of the Mayor, and those working directly for the Mayor, are prescribed in the City Charter, state statutes and municipal ordinances. Elections for this nonpartisan office are held every four years.

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

The 2022 Proposed Budget for the Office of the Mayor's budget has no significant changes and continues existing staffing and services, with technical adjustments made to Citywide charges and personnel costs.

Office of the Mayor

Incremental Budget Changes

Office of the Mayor

	Dollars	FTE
2021 Adopted Budget	7,440,359	39.50
Baseline		
Citywide Adjustments for Standard Cost Changes	89,101	-
Baseline Adjustments for Personnel Costs	108,814	-
Revenue Adjustments	-	-
Total Incremental Changes	\$197,915	-
Total 2022 Proposed Budget	\$7,638,274	39.50

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$89,101

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures \$108,814

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Revenue Adjustments

Revenues \$(142,803)

This item adjusts the Mayor's Office budget by removing revenue associated with salary donation back to the City.

<i>Ending Unreserved Budgetary Fund Balance</i>	848	741	1,097	574	0	0	0

Assumptions

¹ Revenue projections reflect a continuing decline in Franchise Fees and associated PEG revenues. In addition, one of the three Cable providers, CenturyLink, ended its Cable service as of 12/31/20, with only a modest amount of Nov/Dec franchise fee revenue from CenturyLink arriving in 2021.

² 2021 Revenues came from a \$150,000 settlement with CenturyLink to wrap up that franchise agreement plus one-time corrective payments from Comcast for prior year shortfalls for Franchise Fees & PEG.

³ This represents a transfer from ITD fund 50410. The refund shown for 2020 is estimated and still being reviewed.

⁴ Seattle IT has no outstanding Interfund loans affecting cable fund. This is the interest paid on interfund loans made from the [Information Technology Fund (50410)] to the [Cable TV Franchise Fund (10101)] that were open in 2020. The loans and the interest were both paid in December 2020.

⁵ Placeholder for potential impacts of FCC Order 621; franchise fees and in-kind donations.

Footnotes

SPR will evaluate options to address increased base operating costs due to inflation as part of its next MPD 6-year planning cycle.

The outyears of the financial plan do not make any assumptions regarding increases to SPR's fees and charges. Once the City emerges from the COVID-19 pandemic and decision are made regarding the next MPD spending plan, SPR will assess its fees & charges to consider inflationary and/or other changes.

Notes

1. For the design and construction of specific tenant improvement projects at approved sites to bring classrooms up to licensable status
2. Primm will be expanding the center to add three classrooms in addition to remodeling and renovating their building. This award is a legacy SPP Levy Grant.
3. Summer Extension is a program to help address the learning loss caused by COVID-19 and to better prepare current preschoolers, especially rising kindergarteners, for the fall
4. Funding for three additional SPP classrooms, serving an additional 55 students, until the 2025-26 SY

Notes:

1. Outyear property tax growth estimated at 1% based on CBO forecast.
2. 2021 Supplemental Changes through June 2, 2021
3. 2021 Property Tax matches FAS correction for 2020 error
4. 2022 labor cost reserves set aside for pending wage changes (excluded from expenditures; ties to FEPP I&E Plan totals)
5. 2023-2025 expenditure growth rate matches the FEPP implementation plan
6. 2021 K-12 projected underspend is primarily in Policy and Program Support due to high personnel vacancy rates
7. 2021 Early Learning projected underspend is primarily due to lower than anticipated utilization of preschool slots and low utilization of quality teaching programming
8. Reserves against fund balance provides resources to continue FEPP programming in 2026 and was anticipated in the levy
9. Reserves to Sustain Programming use prior year underspend to sustain increased programming and costs not anticipated in the original levy

1 - Per CBO, 2012 levy estimated to collect 99.6% of total levied amount. Revenues collected in 2020 and beyond are delinquent payments of prior year taxes.

2 - Per CWA, 2020 revenues were overstated by \$59.2k. These revenues have been adjusted in 2021.

3 - SPL has set aside remaining fund balance from the 2012 levy for its capital program to address construction inflation and unforeseen emergent projects

Footnotes

The first cycle of the Park District ended in 2020 (2015-2020). Due to the COVID-19 pandemic, development of the next cycle was delayed until 2022. 2022 property taxes will be held to 2021 collection levels plus inflation. SPR will begin development of the next cycle of the Park District Financial Plan in 2022 for 2023-2028. Numbers for the 2023-2028 outyears are for illustrative purposes only.

Notes:

¹ 2020 beginning fund balance is the cash balance on January 1, 2020.

² 2020 actual revenues do not include fair market value (non-cash) or RSA surcharge revenues and will differ from total revenues in Peoplesoft.

³ A portion of the legislated 2021 adjustments are spread into various revenue and expenditure categories. Revised revenues include bond sales.

⁴ Out year assumptions represent forecasted cash flows in the utility's Financial Planning Model which is used to evaluate City Light rate impacts, potential bond offerings, and the overall financial performance of the utility.

(1) Please note that SPU's 2020 ending fund balance / 2021 starting fund balance reflects the current assets (operating cash and equity in pooled investments) and includes cash on hand, petty cash, revolving funds, change funds, and the net increase or decrease in the value of investments.

(2) Water Fund Total Budgetary Revenues (Row 38) includes transfers from the construction fund, a transaction that is not recorded in the Budget Book tables and is otherwise considered a form of contribution from fund balance.

(3) Please note that SPU revenues are determined assuming that the capital improvement program will only achieve approximately 85% of the budgeted expenditures. SPU applies this assumption in order to keep rates as low as possible for ratepayers. SPU is including the underspending assumption in the "Planning Reserves" line above to reflect that we are projected to end the year with positive fund balance.

(4) SPU is providing the 2021-2026 SBP assumptions for the 2023 to 2025 out-year projections because that is the currently endorsed path. However, the rate forecast is based on the adopted rate study that used slightly revised projections for taxes, debt service, and major service contracts. Including the revised forecast would show higher positive year-end fund balances.

(1) Please note that SPU's 2020 ending fund balance / 2021 starting fund balance reflects the current assets (operating cash and equity in pooled investments) and includes cash on hand, petty cash, revolving funds, change funds, and the net increase or decrease in the value of investments.

(2) Drainage and Wastewater Total Budgetary Revenues (Row 35) includes: transfers from the Construction Fund, King County reimbursements, and contributions from the Public Works Transfer Fund. These transactions are not recorded in the Budget Book tables and are otherwise considered contributions from fund balance.

(4) Please note that SPU revenues are determined assuming that the capital improvement program will only achieve approximately 85% of the budgeted expenditures - 95% on the Ship Canal Water Quality Project. SPU applies this assumption in order to keep rates as low as possible for ratepayers. SPU is including the underspending assumption in the "Ending Balance Sheet" line above to reflect that we are projected to end the year with positive budgetary fund balance.

(3) SPU is providing the 2021-2026 SBP assumptions for the 2023 to 2025 out-year projections because that is the currently endorsed path. However, the rate forecast is based on the adopted rate study that used slightly revised projections for taxes, debt service, and major service contracts, which are higher in the SBP projections shown above. Including the revised, lower forecast would show positive year-end fund balances.

¹ Assumes annual increases of 2% for revenues and 2.5% for expenditures.

² Assume full collection of external revenue projections.

³ Assumes emergency expenditures recovered in full from FEMA and/or CRF. Assumes \$4.9 million of net CRF distributed to the FAS Fund in 2021.

⁴ Assumes FEMA/emergency reimbursement of \$2.8M in 2021, \$3M in 2022, and \$3M in 2023.

⁵ Vaccine Center costs and revenue in Q2 2021 supplemental.

⁶ CBO is requesting that City Council authorize an interfund loan of up to \$10 million (\$8 million from the Fleet Capital Fund and \$2 million from the Wheelchair Accessible Fund) to the Finance and Administrative Services Fund, to be repaid within three years to avoid a permanent diversion of funds in compliance with BARS Section 3.9.1.

Assumptions:

¹Rates: Allocated: Revenues in the out years include revenues to be collected for un-funded items added late in the 2022 budget and for CPRA Transfer from FAS in addition to standard inflation per CBO.

²Billable Project Revenues: Double budget appropriation for IT Project Management resources that are not assigned to specific Projects.

³ITD's Cost of Technology Consumption: ITD's consumption of ITD projects and services. Represents intra-fund (50410) revenue.

⁴Non-City Agency Revenues: Revenue collected from Agencies outside of the City of Seattle (e.g., King County).

⁵Rates Direct Billed (2020 CIP Carryforward Items): Unspent CIP budget, carried forward from FY 2020 to FY 2021, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).

⁶Rates Direct Billed (2020 Operating Carryforward Items): Unspent operating budget, carried forward from FY 2020 to FY 2021, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).

⁷Rates: Direct Billed (2020 Grants Carryforward): Unspent Rainier Beach Grant budget, carried forward from FY 2020 to FY 2021, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).

⁸Q2 Supplemental includes MCIS bond proceeds from 2020 and un-collected Direct Billed revenues from abandoned CIP budget.

⁹One-Time Projects: Reserves for various one-time ITD projects.

¹⁰Expenditures in the out years are reflecting the real debt service schedule in the out years instead of standard inflation per CBO.

¹¹Current Year Grant/Svc Contract/Capital CFD Revenues: Includes the direct billed revenues to be collected in FY 2021 for CIP (excluding PC-IT-C7050 'Radio Communications CIP'), Encumbrances, Grants, and Special Carryforward budgets.

¹²Current Year Grant/Svc Contract/Capital Expenditure CFD's: Includes the allocated revenues collected in FY 2020 for CIP (excluding PC-IT-C7050 'Radio Communications CIP'), and Special Carryforward budgets.

¹³Computer Replacement: PC replacements for various departments, including the Law Department which replaces all of its PCs every five years, versus a portion each year.

¹⁴CIP Delayed Revenue Collection: Revenues Seattle IT was unable to collect in 2020 that will be collected in 2021.

¹⁵Revenue for Un-funded Items Added Late in the 2022 Budget: These items were added late in the budget process and did not include revenue for 2022. Revenue collection is reflected in the out years.

Note:

ORD 126227 authorized an interfund loan of \$25 million from the Information Technology Fund (54010) to the Transportation Fund (13000), to be repaid within four years to avoid a permanent diversion of funds in compliance with BARS Section 3.9.1.

Cost Allocation Tables:

These tables provide information about how the City allocates internal service costs (i.e. overhead provided by City agencies to other City agencies) to customer agencies.

Cost Allocation

Central Service Departments and Commissions - 2022 Cost Allocation Factors

Central Service Department	Cost Allocation Factor
City Auditor	Audit hours spent on direct department projects averaged over prior two-year period.
City Budget Office	Percent of FTE time spent on cost allocation departments/funds.
Civil Service Commission	Five-year average number of cases by department.
Office of Civil Rights	Enforcement: 3-year average number of cases filed by department. RSJI: Percent of Department Trainings Policy: 100% General Fund
Office of Employee Ombud	Budgeted FTE by department.
Office of Intergovernmental Relations	Staff time and assignments by department.
Office of Sustainability and Environment	Management assessment of FTE time on work programs.
Department of Finance and Administrative Services	Various factors and allocations. See Appendix B(1) for details on services, rates, and methodologies.
Seattle Information Technology	Various factors and allocations. See Appendix B(2) for details on services, rates, and methodologies.
Law Department	Two-year average of civil attorney and paralegal service hours by department (excludes hours that are covered by direct billing via MOAs), including proportionate amount of overhead.
Legislative Department	City Clerk's Office based on number of Legislative items; Central Staff and Legislative Assistants on assignments; City Council 100% General Fund or by MOA* and City Clerk based on workload.
Seattle Department of Human Resources	Various factors and allocations. See Appendix B(3) for details on services, factors, and methodologies.
State Examiner (State Auditor)	75% by PeopleSoft data points; 25% by budgeted FTEs.
Emergency Management	Actual expenditure dollar spread.

*Memorandum of Agreement (MOA) on charges

Cost Allocation

Department of Finance and Administrative Services Billing Methodologies – B(1)

Service Provider	Org	Service Provided	Billing Methodology	Billing Method
Fleet Management Division				
Vehicle Leasing	FAD03	<ul style="list-style-type: none"> Vehicles owned by, and leased from, Fleet Services Vehicles owned directly by Utility Departments 	<ul style="list-style-type: none"> Calculated rate per month per vehicle based on three lease-rate components: 1) vehicle replacement; 2) routine maintenance; and 3) overhead. Charge for overhead only as outlined in MOUs with Utilities. 	Fleets rates.
Motor Pool	FAD04	Daily or hourly rental of City Motor Pool vehicles.	Actual vehicle usage by department per published rates. Rates vary by vehicle type and are based on time usage, with a set minimum and maximum daily charge.	Direct bill.
Vehicle Maintenance	FAD05	<ul style="list-style-type: none"> Vehicle Maintenance labor. Vehicle parts and supplies. 	<ul style="list-style-type: none"> Actual maintenance service hours, not included in the routine maintenance component of the Lease Rate (above). Billed at an hourly rate. Actual vehicle parts and supplies, used in vehicle maintenance services, and not included in the routine maintenance component of the Lease Rate (above). Billed at cost plus a percentage mark-up. 	Direct bill.
Vehicle Fuel	FAD07	Vehicle fuel from City-operated fuel sites or private vendor sites through the Voyager Fuel Card program.	Actual gallons of fuel pumped, billed at cost plus per-gallon mark-up.	Direct bill.
Facility Services				
Property Management Services	FAC03	Office & other building space.	Property Management Services for City-owned buildings.	Space rent rates.
Property Management Services	FAC03	Leased spaces.	Service agreements with commercial tenants, building owners and/or affected departments.	Direct bill.
Real Estate Services	FAC03	Real estate transactions including acquisitions, dispositions, appraisals, etc.	Applicable operating costs based on staff time per customer department.	Cost Allocation to Relevant Funds.
Facilities Maintenance	FAC04	Crafts Services: Plumbing, carpentry, HVAC, electrical, painting.	<ul style="list-style-type: none"> Regular maintenance costs included in office space rent and provided as part of space rent. Non-routine services charged directly to service user(s) at an hourly rate. 	Space rent rates; direct bill.
Janitorial Services	FAC05	Janitorial services.	Janitorial services included in rate charges for the downtown core campus buildings.	Space rent rates.
Parking Services	FAC06	Parking services.	Monthly parking costs for City vehicles are charged to department based on actual use. Hourly parking vouchers are sold to departments in advance of use, as requested. Vouchers for private tenants and personal vehicles of City staff are sold on monthly and hourly bases, as requested.	Direct bill; direct purchase

Glossary

Appropriation: A legal authorization granted by the City Council, the City's legislative authority, to make expenditures and incur obligations for specific purposes.

Biennial Budget: A budget covering a two-year period. Under state law, a biennium begins with an odd-numbered year.

Budget - Adopted and Proposed: The Mayor submits to the City Council a recommended expenditure and revenue level for all City operations for the coming fiscal year as the Proposed Budget. When the City Council agrees upon the revenue and expenditure levels, the Proposed Budget becomes the Adopted Budget, funds are appropriated, and legal expenditure limits are established.

Budget - Endorsed: The City of Seattle implements biennial budgeting through the sequential adoption of two one-year budgets. When adopting the budget for the first year of the biennium, the Council endorses a budget for the second year. The Endorsed Budget is the basis for a Proposed Budget for the second year of the biennium, and is reviewed and adopted in the fall of the first year of the biennium.

Budget Control Level: The level at which expenditures are controlled to meet State and City budget law provisions.

Capital Improvement Program (CIP): Annual appropriations from specific funding sources are shown in the City's budget for certain capital purposes such as street improvements, building construction, and some kinds of facility maintenance. These appropriations are supported by a six-year allocation plan detailing all projects, fund sources, and expenditure amounts, including many multi-year projects that require funding beyond the one-year period of the annual budget. The allocation plan covers a six-year period and is produced as a separate document from the budget document.

Chart of Accounts: A list of expenditure, revenue, and other accounts describing and categorizing financial transactions.

Community Development Block Grant (CDBG): A U.S. Department of Housing and Urban Development (HUD) annual grant to Seattle and other local governments to support economic development projects, human services, low-income housing, and services in low-income neighborhoods.

Comprehensive Annual Financial Report of the City (CAFR): The City's annual financial statement prepared by the Department of Finance & Administration.

Cost Allocation: Distribution of costs based on some proxy for costs incurred or benefits received.

Cumulative Reserve Subfund (CRS): A significant source of ongoing local funding to support capital projects in general government departments. The CRS consists of two accounts: the Capital Projects Account and the Revenue Stabilization Account. The Capital Projects Account has six subaccounts: REET I, REET II, Unrestricted, South Lake Union Property Proceeds, Asset Preservation Subaccount - Fleets and Facilities, and the Street Vacation Subaccount. The Real Estate Excise Tax (REET) is levied on all sales of real estate, with the first .25% of the locally imposed tax going to REET I and the second .25% to REET II. State law specifies how each REET can be spent.

Debt Service: Annual principal and interest payments the City owes on money it has borrowed.

Errata: Adjustments, corrections, and new information sent by departments through the City Budget Office to the City Council during the Council's budget review as an adjunct to the Mayor's Proposed Budget. The purpose is to adjust the Proposed Budget to reflect information not available upon submittal and to correct inadvertent errors.

Glossary

Full-Time Equivalent (FTE): A term expressing the amount of time for which a position has been budgeted in relation to the amount of time a regular, full-time employee normally works in a year. Most full-time employees (1.00 FTE) are paid for 2,088 hours in a year (or 2,096 in a leap year). A position budgeted to work half-time for a full year, or full-time for only six months, is 0.50 FTE.

Fund: An accounting entity with a set of self-balancing revenue and expenditure accounts used to record the financial affairs of a governmental organization.

Fund Balance: The difference between the assets and liabilities of a particular fund. This incorporates the accumulated difference between the revenues and expenditures each year.

General Fund: A central fund into which most of the City's general tax revenues and discretionary resources are pooled, and which is allocated to support many of the operations of City government. Beginning with the 1997 Adopted Budget, the General Fund was restructured to encompass a number of subfunds, including the General Fund Subfund (comparable to the "General Fund" in prior years) and other subfunds designated for a variety of specific purposes. These subfunds are listed and explained in more detail in department chapters, as well as in the Funds, Subfunds, and Other section of the budget document.

Grant-Funded Position: A position funded 50% or more by a categorical grant to carry out a specific project or goal. Seattle Municipal Code 4.04.030 specifies that "categorical grant" does not include Community Development Block Grant funds, nor any funds provided under a statutory entitlement or distribution on the basis of a fixed formula including, but not limited to, relative population.

Neighborhood Matching Subfund (NMF): A fund supporting partnerships between the City and neighborhood groups to produce neighborhood-initiated planning, organizing, and improvement projects. The City provides a cash match to the community's contribution of volunteer labor, materials, professional services, or cash. The NMF is administered by the Department of Neighborhoods.

Operating Budget: That portion of a budget dealing with recurring expenditures such as salaries, electric bills, postage, printing, paper supplies, and gasoline.

Position/Pocket Number: A term referring to the title and unique position identification number assigned to each position authorized by the City Council through the budget or other ordinances. Positions may have a common title name, but each position has its own unique identification number assigned by the Records Information Management Unit of the Seattle Department of Human Resources at the time position authority is approved by the City Council. Only one person at a time can fill a regularly budgeted position. An exception is in the case of job-sharing, where two people work part-time in one full-time position.

Program: A group of services within a department, aligned by common purpose.

Reclassification Request: A request to change the job title or classification for an existing position. Reclassifications are subject to review and approval by the Classification/Compensation Unit of the Seattle Department of Human Resources and are implemented upon the signature of the Director of Human Resources, as long as position authority has been established by ordinance.

Reorganization: Reorganization refers to changes in the budget and reporting structure within departments.

SUMMIT: The City's central accounting system managed by the Department of Finance & Administration.

Sunsetting Position: A position funded for only a specified length of time by the budget or enabling ordinance.

TES (Temporary Employment Service): A program managed by the Seattle Department of Human Resources. TES places temporary workers in departments for purposes of filling unanticipated, short-term staffing needs, such as vacation coverage, positions vacant until a regularly-appointed hire is made, and special projects.

Type of Position: There are two types of budgeted positions. They are identified by one of the following characters: **F** for Full-Time or **P** for Part-Time.

Glossary

- **Regular Full-Time** is defined as a position budgeted for 2,088 compensated hours per year, 40 hours per week, 80 hours per pay period, and is also known as one full-time equivalent (FTE).
- **Regular Part-Time** is defined as a position designated as part time, and requiring an average of 20 hours or more, but less than 40 hours of work per week during the year. This equates to an FTE value of at least 0.50 and no more than 0.99.

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION approving interest rates set by the Seattle City Employees' Retirement System (SCERS) Board of Administration for 2022.

WHEREAS, the Seattle City Employees' Retirement System (SCERS) currently pays interest on employee contributions at an annual rate of 5.75 percent (compounded annually) for contributions made before December 31, 2011, and 2.92 percent (also compounded annually) for employee contributions made after that date; and

WHEREAS, Seattle Municipal Code Section 4.36.505 provides that “[n]othing in this Section 4.36.505 shall be construed to limit the right of the Board [of Administration] to make changes in rates of interest, subject to approval of the City Council, whenever the Board deems it necessary or advisable...”; and

WHEREAS, the SCERS Board of Administration, at its August 12, 2021, meeting, voted to adjust the annual interest rate for 2022 on all contributions received after December 11, 2011, to 1.77 percent (compounded annually); and

WHEREAS, the SCERS Board intends to review and adjust this rate annually, based on market conditions;

NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE MAYOR

CONCURRING, THAT:

Section 1. The City Council approves the 2022 credit interest rate adopted by the SCERS Board of Administration of 1.77 percent (compounded annually) on all member contributions received after December 31, 2011. Member contributions received on or before December 31, 2011, will continue to accrue credit

interest at a rate of 5.75 percent (also compounded annually). These rates will apply at the beginning of the first full pay period of 2022.

Adopted by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its adoption this _____ day of _____, 2021.

President _____ of the City Council

The Mayor concurred the _____ day of _____, 2021.

Jenny A. Durkan, Mayor

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
RET	Paige Alderete/206-601-8469	Dave Hennes / 206-684-0537

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title:

A RESOLUTION approving interest rates set by the Seattle City Employees' Retirement System (SCERS) Board of Administration for 2022.

Summary and background of the Legislation:

Per Seattle Municipal Code 4.36.505.F, this resolution provides City Council approval of the 2022 interest rates on member contributions set by the SCERS Board of Administration.

Under the policy enacted by the SCERS Board, in 2022, contributions received on or before December 31, 2011 will earn 5.75% annual interest, compounded annually. Contributions received after that date will earn 1.77% interest, also compounded annually. The Board reviews and adjusts the post-2011 interest rates annually, based on a policy target of the average yield on 30-year U.S. Treasury Bonds for the immediately preceding June 1 to May 31 period.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

This legislation has no direct financial implications for City appropriations, revenues, or positions. However, the new interest rates for 2022 will grow member contribution balances a bit more slowly than the historical average, lowering the Retirement Fund's costs and incrementally lowering the system's normal cost. These impacts are estimated along with other factors in the retirement system's periodic actuarial valuations.

Is there financial cost or other impacts of *not* implementing the legislation?

The proposed change reflects a small decrease in market interest rates in the last year. Not implementing the legislation would not recognize the action taken by the SCERS Board of Administration or the practice of the last several years. Inaction would leave the rate at the 2021 level.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
This legislation affects all SCERS members, who are employed across the City but has no effect on departmental costs.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- d. **Does this legislation affect a piece of property?**
No.
- e. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
No perceived impact on vulnerable or historically disadvantaged communities.
- f. **Climate Change Implications**
1. **Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No.
 2. **Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**
No.
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**
N/A

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION amending Resolution 31334; establishing the City Council's intent to fund the Seattle City Employees' Retirement System (SCERS) as informed by the January 1, 2021, Actuarial Study.

WHEREAS, the City provides and manages a defined-benefit pension for its non-uniformed employees to serve as a source of retirement income, along with Social Security; and

WHEREAS, the City Council previously declared, in Resolution 31334, its intention to fully fund the actuarially required contribution amounts into the Seattle City Employees' Retirement System (SCERS), including a plan to amortize the system's unfunded liability in 30 or fewer years; and

WHEREAS, the January 1, 2021, valuation study performed by the SCERS actuary identified the contribution rate necessary to fully fund the system; and

WHEREAS, the City will update its contribution rate to SCERS annually to a level not less than the actuarial required contribution for that year as determined by the most recent valuation; and

WHEREAS, under SMC 4.36.505 the SCERS Board of Administration shall recommend to the City Council any necessary revisions in the rate of contributions of members and the City; and

WHEREAS, the SCERS Board of Administration, at its August 12, 2021, meeting, voted to recommend to the City Council that it maintain the 2021 employer contribution rate of 16.10 percent for fiscal year 2022, under the rationale that it is prudent in the interest of funding stability and in anticipation of declining changes to assumptions resulting from the upcoming Experience Study in 2022; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE MAYOR

CONCURRING, THAT:

Section 1. Resolution 31334, last amended by Resolution 31978, is amended as follows:

* * *

Section 1. The City will fully fund its actuarially required contributions to SCERS in the 2012 Adopted Budget and thereafter. The City will base its contribution rate on a five-year smoothed asset valuation as described in the most recent actuarial report, and the rate will be sufficient to amortize the system's unfunded liabilities in 30 or fewer years.

Section 2. To that end, the ~~((2021))~~ 2022 Adopted Budget will include sufficient appropriation for the City to ~~((pay))~~ maintain payment of 16.10 percent of regular (non-overtime) payroll into SCERS. This is greater than the employee contribution rates into the system. It ~~((brings))~~ keeps the combined contribution ~~((to))~~ at 25.56 percent. ~~((, which is the actuarially required amount for 2021 as described in the January 1, 2020 Actuarial Valuation.))~~ The employer contribution rate must not be less than the required Actuarial Contribution Rate of 15.33 percent and a combined contribution rate of 24.68 percent, as determined by the January 1, 2021, Actuarial Valuation.

Section 3. The City endorses the actuarial assumptions and methods adopted by the SCERS Board of Administration, utilized beginning with the January 1, 2011, valuation, and modified by the Board as a result of the actuary's investigation of the system's experience from 2014 through 2017. These include:

- A. The entry age normal actuarial cost method;
- B. An investment return rate of 7.25 percent;
- C. A five-year smoothed method for asset valuation;
- D. Generational mortality tables that take future life expectancy improvements into account;
- E. Expected average membership growth of 0.5 percent per year; and
- F. Other economic and demographic assumptions as described in the valuation.

Section 4. Each year, and in the event the SCERS Board of Administration should wish to

change its actuarial assumptions and methods, the City requests that the Board consult with the Mayor and the City Council by the tenth day of July regarding the impacts of such changes on funding requirements, as described in ((SMC)) Seattle Municipal Code subsection 4.36.550.A, to allow sufficient time to make budget preparations.

Section 5. The City will update its contribution rate to SCERS annually to a level not less than the actuarial required contribution for that year as determined by the most recent valuation. The City may elect to exceed the required contribution rate in any given year in the interest of funding stability or to amortize the system's unfunded liability in fewer than 30 years.

Section 6. Beginning with the January 1, 2013, Actuarial Valuation and thereafter, the amortization period is closed and fixed. That is to say, the amortization rate should be sufficient to retire the system's unfunded liability over the period 2013-2042. Since closed amortizations can generate excessive contribution rate volatility in the second half of the period, the Council may consider re-opening the amortization period after 15 years. At any time, the SCERS Board and its actuary may recommend additional amortization layers and/or separate amortization periods for any new unfunded liabilities or surpluses generated after January 1, 2013.

* * *

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
RET	Paige Alderete/206-601-8469	Dave Hennes / 206-684-0537

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title:

A RESOLUTION amending Resolution 31334; establishing the City Council's intent to fund the Seattle City Employees' Retirement System (SCERS) as informed by the January 1, 2021, Actuarial Study.

Summary and background of the Legislation:

Per Resolution 31334 the City has committed to appropriate annually sufficient funds to make contributions to the retirement system to a level not less than the actuarial required contribution for that year as determined by the most recent actuarial valuation of the retirement systems liabilities. This resolution provides City Council approval of the 2022 contribution rate in compliance with Resolution 31334. The combined contribution rate for 2022 will stay consistent with the 2021 rate at 25.56 percent. The City's portion of the combined contribution rate for 2022 will remain 16.10 percent of regular payroll into SCERS. This contribution rate is consistent with the recommendation of the SCERS Board of Administration as provided to the City Council under Seattle Municipal Code 4.36.505 A. It is the Board's conclusion that this contribution rate is in the interest of funding stability and in anticipation of rising future contribution requirements due to expected downward changes to assumptions in the upcoming Experience Study in 2022. Therefore, it is prudent to maintain the 2021 Actuarially Required Contribution rate in 2022.

The City may elect to exceed the required contribution rate in any given year. In 2022, the minimum required Actuarial Contribution Rate is 15.33 percent with a combined contribution rate of 24.68 percent as determined by the January 1, 2021 Actuarial Valuation.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

This legislation does not adjust appropriations, revenues, or positions. The 2022 contribution rate is captured through approval of the budget.

Is there financial cost or other impacts of *not* implementing the legislation?

Not implementing the full actuarially required contribution in 2022 would go against Council Resolution 31334, would place greater cost burden on the City and potentially members in future years to fund the pension system. Not meeting the required contribution would be reflected on the System's financial audit, valuation, and the City's CAFR.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

This legislation affects the City's contribution rate into the pension system.

b. Is a public hearing required for this legislation?

No.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No

d. Does this legislation affect a piece of property?

No

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

No perceived impact on vulnerable or historically disadvantaged communities

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

No.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

No.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

N/A

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION adopting revised financial policies for the Emergency Fund.

WHEREAS, the Mayor and City Council are committed to maintaining high standards of financial management; and

WHEREAS, adopting and periodically updating financial policies are important actions that help to ensure consistent and rational financial planning and management; and

WHEREAS, Resolution 31717 revised financial policies for the Emergency Subfund; and

WHEREAS, as part of the City's conversion from SUMMIT to PeopleSoft 9.2, the Emergency Subfund was renamed the Emergency Fund; and

WHEREAS, the World Health Organization (WHO) has declared that the Coronavirus Disease 2019 (COVID-19) is a global pandemic; and

WHEREAS, on February 29, 2020, the Washington Governor issued Proclamation 20-05, proclaiming a state of emergency for all counties throughout the state of Washington in response to new cases of COVID-19; and

WHEREAS, in response to outbreaks of COVID-19 in Seattle, Mayor Jenny Durkan proclaimed a civil emergency exists in Seattle in the Mayoral Proclamation of Civil Emergency dated March 3, 2020; and

WHEREAS, on March 5, 2020, the City Council adopted Resolution 31937 affirming the civil emergency, modifying orders transmitted by the Mayor related to the emergency, and establishing Council's expectations related to future orders and reporting by the Mayor during the civil emergency; and

WHEREAS, on March 13, 2020, the President of the United States declared a national state of emergency in response to the COVID-19 pandemic; and

WHEREAS, on March 23, 2020, the Governor issued a “Stay Home, Stay Healthy” order, which, combined with other measures taken to prevent the transmission of COVID-19, effectively closed many businesses in the state of Washington; and

WHEREAS, the immediate economic impacts from the COVID-19 emergency have been drastic and are expected to last much longer than the civil emergency itself; and

WHEREAS, these impacts are being felt across all industry sectors, including retail, restaurant, hospitality, transportation, logistics, arts, and culture; and

WHEREAS, at the end of August 2020, over 3,000 businesses in the Seattle metropolitan area were closed, with an estimated 59 percent of those closures being permanent, and over 32,700 people in Seattle were unemployed; and

WHEREAS, the impacts of the COVID-19 emergency include a severe local, state, national, and global economic recession, all of which impact the City’s revenue streams; and

WHEREAS, the Mayor and City Council used some of the resources contained in the Emergency Fund to address the City’s response to the COVID-19 emergency in 2020 and 2021; and

WHEREAS, the City will not be able to restore the balance of the Emergency Fund according to the policy adopted in 2016 for several years; and

WHEREAS, the Mayor and City Council have reviewed the financial policies for the Emergency Fund and wish to revise and update those policies; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE MAYOR CONCURRING, THAT:

Section 1. Attachment A to this resolution is adopted as the Financial Policies for the Emergency Fund,

which were last amended by Resolution 31717.

Adopted by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its adoption this _____ day of _____, 2021.

President _____ of the City Council

The Mayor concurred the _____ day of _____, 2021.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2021.

Monica Martinez Simmons, City Clerk

Attachment A - Emergency Fund Financial Policies

FINANCIAL POLICIES FOR THE CITY OF SEATTLE EMERGENCY FUND

Introduction

The Emergency Fund is the City’s main reserve fund and is available to pay for unanticipated or unplanned expenditures that occur during the course of the fiscal year.

Fund Structure

Policy 1. Fund structure. The City shall maintain in the City Treasury an Emergency Fund as described in RCW 35.32A.060. [Ord 125492]

Expenditures

Policy 2. Emergency expenditures. By an ordinance approved by three-fourths of all of its members, the City Council may authorize the expenditure of sufficient money from the Emergency Fund to meet the expenses or obligations:

1. Caused by fire, flood, explosion, storm, earthquake, epidemic, riot, insurrection, act of God, act of the public enemy or any other such happening that could not have been anticipated; or
2. For the immediate preservation of order or public health, or for the restoration to a condition of usefulness of public property the usefulness of which has been destroyed by accident; or
3. In settlement of approved claims for personal injuries or property damages, exclusive of claims arising from the operation of a public utility owned by the city; or
4. To meet mandatory expenditures required by laws enacted since the last budget was adopted. [RCW 35.32A.060, Ord 120489]

Policy 3. Other expenditures with insufficient or no appropriations. By an ordinance approved by three-fourths of all its members, the City Council may appropriate from the Emergency Fund an amount sufficient to meet the actual and necessary expenditures of the City for which insufficient or no appropriations have been made due to causes which could not reasonably have been foreseen at the time of the making of the budget. [RCW 35.32A.060, Ord 120489] Expenditures of this type need not be appropriated from the Emergency Fund, but can be appropriated from other City funds whose purposes are consistent with the intended expenditure, provided sufficient balances are available and provided an ordinance approving the expenditure is passed by three-fourths of all the members of the City Council. [Res 30379]

Revenues/Fund Balances

Policy 4. Fund balance requirements. At the beginning of each year, sufficient funds shall be appropriated to the Emergency Fund so that its balance shall not be less than \$60,000,000 as measured in 2016 dollars and adjusted to current nominal dollars by the Seattle Consumer Price Index for All Urban Consumers (CPI-U) (per the Washington Economic Forecast Summary as prepared by the State of Washington), and, per state law, shall not exceed thirty-seven and one-half cents per thousand dollars of taxable assessed value in the city. [Res 28953, Res 31717], unless a severe or long-lasting event has resulted in a significant depletion of the Fund's resources, consistent with the purposes identified in Policy 2. [New Policy]

If such circumstances lead to deep or multiple years of spending from the fund, the City shall make contributions to satisfy the target balance within a period of five years, and sooner if practically possible. [New policy]

The City may also choose to reimburse the Emergency Fund during the year for any expenditures incurred, by transferring unexpended and unencumbered balances from another City fund, or from other reimbursements the City may receive. [Res 30379]

Planning/Reporting Requirements

Policy 5. Year-to-date appropriations. The City Council will receive with every appropriation request for emergency or other expenditures with insufficient or no appropriation a list of all such year-to-date appropriations, the fund from which they were appropriated, and the cumulative dollar total for the year. [Res 30379, Revised from Res 27206]

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
City Budget Office		Chloe Wilkes

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: A RESOLUTION adopting revised financial policies for the Emergency Fund.

Summary and background of the Legislation: Due to the COVID-19 pandemic and related economic downturn, the City's revenues have been and will continue to be significantly reduced from estimates established prior to the pandemic. Simultaneously, the City has realized and continues to realize significant, previously unforeseen expenses to address the emergency.

The Emergency Fund exists for City expenses during an emergency or expenses that could not have been anticipated during the annual budget adoption. The COVID-19 emergency has presented both challenges; accordingly, the 2020 Revised and the 2021 Adopted leverage some of the balance of the Emergency Fund to address emergency expenses and reduced revenues.

The existing financial policies for the Emergency Fund, last adopted in 2016 during a much different economic scenario, require that the City make contributions to maintain the Emergency Fund at \$60 million in 2016 dollars, inflated annually by CPI-U. The policy does not define a process for rebuilding the reserve after a significant drawdown of funds.

Due to the severe and prolonged revenue shortfall, increased expenses, and anticipated length of the COVID-19 emergency, it is not realistic for the City to meet the fund balance requirements for the Emergency Fund in the immediate future. This legislation calls for the replenishment of the Emergency Fund to satisfy the target balance within a period of five years, sooner if practically possible.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

If the City were to follow the Emergency Fund policies as currently written, it would never be able to use the balance without replenishing it in less than a year. This does not reflect the reality of a longer-term or more significant emergency such as the COVID-19 pandemic.

Is there financial cost or other impacts of *not* implementing the legislation?

No.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

Not directly.

b. Is a public hearing required for this legislation?

No.

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

No.

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times*

No.

e. Does this legislation affect a piece of property?

No.

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

Not applicable.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

Not applicable.

List attachments/exhibits below:

Summary Attachment A – Emergency Fund Financial Policies, as revised since adoption of Resolution 31717 in 2016

FINANCIAL POLICIES FOR THE CITY OF SEATTLE EMERGENCY FUND

Introduction

The Emergency Fund is the City's main reserve fund and is available to pay for unanticipated or unplanned expenditures that occur during the course of the fiscal year.

Fund Structure

Policy 1. Fund structure. The City shall maintain in the City Treasury an Emergency Fund as described in RCW 35.32A.060. [Ord 125492]

Expenditures

Policy 2. Emergency expenditures. By an ordinance approved by three-fourths of all of its members, the City Council may authorize the expenditure of sufficient money from the Emergency Fund to meet the expenses or obligations:

1. Caused by fire, flood, explosion, storm, earthquake, epidemic, riot, insurrection, act of God, act of the public enemy or any other such happening that could not have been anticipated; or
2. For the immediate preservation of order or public health, or for the restoration to a condition of usefulness of public property the usefulness of which has been destroyed by accident; or
3. In settlement of approved claims for personal injuries or property damages, exclusive of claims arising from the operation of a public utility owned by the city; or
4. To meet mandatory expenditures required by laws enacted since the last budget was adopted. [RCW 35.32A.060, Ord 120489]

Policy 3. Other expenditures with insufficient or no appropriations. By an ordinance approved by three-fourths of all its members, the City Council may appropriate from the Emergency Fund an amount sufficient to meet the actual and necessary expenditures of the City for which insufficient or no appropriations have been made due to causes which could not reasonably have been foreseen at the time of the making of the budget. [RCW 35.32A.060, Ord 120489] Expenditures of this type need not be appropriated from the Emergency Fund, but can be appropriated from other City funds whose purposes are consistent with the intended expenditure, provided sufficient balances are available and provided an ordinance approving the expenditure is passed by three-fourths of all the members of the City Council. [Res 30379]

Revenues/Fund Balances

Policy 4. Fund balance requirements. At the beginning of each year, sufficient funds shall be appropriated to the Emergency Fund so that its balance shall not be less than \$60,000,000 as measured in 2016 dollars and adjusted to current nominal dollars by the Seattle Consumer Price Index for All Urban Consumers (CPI-U) (per the Washington Economic Forecast Summary as prepared by the State of Washington), and, per state law, shall not exceed thirty-seven and one-half cents per thousand dollars of taxable assessed value in the city. [Res 28953, Res 31717], unless a severe or long-lasting event has resulted in a significant depletion of the Fund's resources, consistent with the purposes identified in Policy 2. [New Policy]

If such circumstances lead to deep or multiple years of spending from the fund, the City shall make contributions to satisfy the target balance within a period of five years, and sooner if practically possible. [New policy]

The City may also choose to reimburse the Emergency Fund during the year for any expenditures incurred, by transferring unexpended and unencumbered balances from another City fund, or from other reimbursements the City may receive. [Res 30379]

Planning/Reporting Requirements

Policy 5. Year-to-date appropriations. The City Council will receive with every appropriation request for emergency or other expenditures with insufficient or no appropriation a list of all such year-to-date appropriations, the fund from which they were appropriated, and the cumulative dollar total for the year. [Res 30379, Revised from Res 27206]

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION requesting King County and the State of Washington to increase services to address behavioral health conditions.

WHEREAS, the term “behavioral health services” is understood to incorporate mental health services and substance use disorder treatment; and

WHEREAS, King County created and operates the King County Integrated Care Network, which encompasses all behavioral health providers in King County who provide Medicaid-funded behavioral health services; and

WHEREAS, King County is the Behavioral Health Administrative Services Organization for the county, which is responsible for the provision of behavioral health services to people who are in crisis; and

WHEREAS, the State of Washington has substantial influence over the availability of services and stability of the behavioral health workforce, including through investments in the newly created 988 hotline for mental health crises, setting behavioral health Medicaid rates, and provision of non-Medicaid behavioral health resources; and

WHEREAS, the 2020 Point-in-Time Count of people experiencing homelessness in King County estimates that 54 percent of people experiencing homelessness have a psychiatric or emotional condition, 44 percent have a substance use disorder, and 47 percent have post-traumatic stress disorder; and

WHEREAS, the most recent results from the Washington State Syringe Exchange Health Survey conducted by the University of Washington found that 82 percent of respondents whose main drug was heroin and 48 percent whose main drug was methamphetamine were interested in reducing or stopping their drug use;

and

WHEREAS, the most recent National Survey on Drug Use and Health conducted by the U.S. Department of Health and Human Services estimates that 487,000 people in Washington need but do not receive treatment at a specialty facility for substance use; and

WHEREAS, the February 1, 2021, results of the Household Pulse Survey conducted by the Centers for Disease Control and Prevention estimated that 46.3 percent of adults in Washington reported symptoms of anxiety or depression and 30.1 percent were unable to get needed counseling or therapy; and

WHEREAS, the most recent National Survey on Drug Use and Health conducted by the U.S. Department of Health and Human Services estimates that 52 percent of Washingtonians ages 12 through 17 who have depression did not receive any care in the last year; and

WHEREAS, research published by Veronica Dupéré in the *Journal of Adolescent Health* indicates that high school students with depression are more than twice as likely to drop out of school as their peers; and

WHEREAS, in March 2021, Washington State Governor Jay Inslee signed an emergency proclamation declaring a children and youth mental health crisis and directed the Washington Health Care Authority and Department of Health to immediately begin work on recommendations for supporting the behavioral health needs of children and youth over the next six to 12 months and to address and triage the full spectrum of rising pediatric behavioral health needs; and

WHEREAS, Public Health-Seattle and King County reports a 30 percent increase in behavioral health crisis calls from January 2020 to September 2021; and

WHEREAS, a ranking by Mental Health America of low prevalence of mental illness and high access to care in 2020 places Washington forty-sixth out of all states and the District of Columbia; and

WHEREAS, King County currently funds the Crisis Solutions Center, a voluntary crisis stabilization facility that provides up to 72 hours of stabilization, monitoring, and referral services for individuals in behavioral crisis and up to 14 days of additional residential services for individuals who are homeless or

at risk of homelessness; and

WHEREAS, the Crisis Solutions Center typically accepts referrals from first responders and designated crisis responders, not a broader range of service domains and agencies, such as behavioral health agencies, homelessness service providers, or diversion programs; and

WHEREAS, King County funds three Mobile Crisis Teams of mental health and substance use disorder professionals that help individuals in crisis stabilize and connect with services; and

WHEREAS, it is estimated that three additional Mobile Crisis Teams would be necessary to provide coverage to the entire county 24 hours per day, seven days per week; and

WHEREAS, the existing post-crisis follow-up teams may meet only one-sixth of the total need for these services in the county; and

WHEREAS, a meeting of providers and local leaders in October 2021 to discuss the behavioral health services in King County identified 18 recommendations to strengthen the system;

WHEREAS, the City budget, through multiple budget actions, provides funds to expand behavioral health services, including school-based services; NOW, THEREFORE,

**BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE MAYOR
CONCURRING, THAT:**

Section 1. The Council supports requests presented to King County's Department of Community and Human Services to increase funding for behavioral health resources to substantially increase the availability of a mobile crisis response, post-crisis follow-up teams, crisis stabilization facilities, and other treatment programs.

Section 2. The Council urges the Governor, State Legislature, and Washington State Health Care Authority to provide additional support for behavioral health services, both through Medicaid and with non-Medicaid resources.

Section 3. The Council declares that funds provided in the 2022 Adopted Budget to expand behavioral

health services, including school-based health services, and to lease facilities for and operate a new voluntary crisis stabilization center are provided in acknowledgement of the shared role that all levels of government have in creating and maintaining a strong behavioral health system and with the expectation that King County will make new investments to create and operate a new voluntary crisis stabilization center, as well as further expand other components of the behavioral health service system in the county.

Section 4. The Council requests that the Office of Intergovernmental Relations communicate these positions and actions to the King County Council, King County Executive, Washington State Legislature, and Governor of Washington.

Adopted by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its adoption this _____ day of _____, 2021.

President _____ of the City Council

The Mayor concurred the _____ day of _____, 2021.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
Legislative	Jeff Simms 206-475-9046	

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: A RESOLUTION requesting King County and the State of Washington to increase services to address behavioral health conditions.

Summary and background of the Legislation: This resolution declares support for requests to King County to expand mental and behavioral health services, urges additional State investments in these services, and states the expectation that funding that would be provided in the 2022 Adopted Budget for mental and behavioral health services constitutes the City of Seattle's contribution toward service expansions.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes ___x___ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes ___x___ No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs? No

Is there financial cost or other impacts of *not* implementing the legislation? No

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?** The resolution notes increased funding in the Human Services Department (HSD), and if additional resources are provided by the county or state, it would affect HSD's operations.
- b. **Is a public hearing required for this legislation?** No
- c. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?** No
- d. **Does this legislation affect a piece of property?** No
- e. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the**

public? The expansion of mental and behavioral health services would improve access to underserved and historically marginalized populations, such as people experiencing homelessness. There are no communications to the public.

f. Climate Change Implications

1. **Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?** No
2. **Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.** No

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s). Not applicable.**

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION modifying the Mayoral Civil Emergency Order of October 29, 2021, related to hiring incentives for public safety emergency response.

WHEREAS, on March 3, 2020, Mayor Durkan issued a Proclamation of Civil Emergency declaring a civil emergency within the city of Seattle based on the confirmed spread of COVID-19 in King County and resulting deaths; and

WHEREAS, on October 29, 2021, pursuant to the civil emergency declaration, the Mayor issued a civil emergency order authorizing immediate hiring incentives for public safety emergency response; and

WHEREAS, Seattle Municipal Code (SMC) subsection 10.02.020.B states, “[t]he Council may ... by resolution, modify or reject the order. If the Council modifies or rejects the order, said modification or rejection shall be prospective only, and shall not affect any actions taken prior to the modification or rejection of the order”; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE THAT:

Section 1. The civil emergency order by Mayor Durkan related to hiring incentives for public safety emergency response, dated October 29, 2021, and attached to this resolution as Exhibit A, is modified as shown in Exhibit B.

Adopted by a vote of the City Council the _____ day of _____, 2021, and
signed by me in open session in authentication of its adoption this _____ day of _____

_____, 2021.

President _____ of the City Council

Filed by me this _____ day of _____, 2021.

CIVIL EMERGENCY ORDER

CITY OF SEATTLE

IMMEDIATE HIRING INCENTIVES FOR PUBLIC SAFETY EMERGENCY RESPONSE

AN EMERGENCY ORDER relating to staffing shortages in the Community Safety Communications Center and the Seattle Police Department; implementing an incentive program for hiring 911 dispatchers, and police officers.

WHEREAS, in my capacity as Mayor, I proclaimed a civil emergency exists in the City of Seattle in the Mayoral Proclamation of Civil Emergency dated March 3, 2020; and

WHEREAS, the civil emergency necessitates the utilization of emergency powers granted to the Mayor pursuant to: the Charter of the City of Seattle, Article V, Section 2; Seattle Municipal Code (SMC) Chapter 10.02; and chapter 38.52 RCW;

WHEREAS, SMC 10.02.020.A.15 authorizes the Mayor to make and proclaim an order that she believes is imminently necessary for the protection of life and property;

WHEREAS, pursuant to SMC 10.02.025, this order is based on the facts described below; the Mayor believes it is in the best interest of public safety, rescue and recovery efforts, and the protection of property that the exercise of certain rights be temporarily limited; and the conditions of this order are designed to provide the least necessary restriction on those right; and

WHEREAS, the facts stated in that proclamation continue to exist, as well as the following additional facts:

WHEREAS, the City of Seattle strives to maintain a highly qualified, diverse, and engaged first responders for public safety emergency services to meet the complex demands of the Seattle communities; and

WHEREAS, the COVID-19 pandemic that began in March of 2020 has had widespread impacts on the operations of public safety departments for the City and contributed to each aforementioned department experiencing staffing shortages during the first half of 2021; and

WHEREAS, the COVID-19 pandemic has increased the need for timely emergency responses for the City; and

WHEREAS, the executive, in acknowledging emergent staffing shortages, had previously transmitted legislation to the City Council on July 29, 2021, regarding hiring incentives for the Seattle Police Department, however Council declined to consider the legislation, and took no action to address the public safety crisis; and

WHEREAS, the City's public safety departments have been unable to keep pace with the record-setting attrition in 2020 and the first half of 2021, and were faced with significant staffing shortages in the aforementioned departments predating the COVID-19 Vaccine Mandate for City Employees:

- a. Seattle Police Department had 310 vacancies as of July 2021. SPD has only hired 62 officers thus far in 2021, which combined with a loss of 141 officers in the same timeframe exacerbating the staffing shortage that began in 2020.
- b. The Community Safety Communications Center had 21 vacancies as of July 2021 and has only been able to hire 17 in 2021.

WHEREAS, the aforementioned staffing shortages threaten public safety by increasing response times and threaten the safety and wellness of existing public safety and first responder employees; and

WHEREAS, Seattle is experiencing a year-to-date 35 percent increase compared to 2020 in shots fired incidents and a 76 percent increase year-to-date in shots fired compared to 2019, and also a 29 percent increase in non-fatal shootings year-to-date compared to 2020; and due to the cumulative impact of the Seattle Police Department's pre-existing staffing shortages and the additional vaccine mandate staffing losses SPD is currently at its lowest level of deployable officers, 1015, which has resulted in priority 1 response times increasing by almost one minute on average and priority 2 calls increasing by almost 13 minutes.

WHEREAS, The City of Seattle 911 call volumes have remained steady, however due to the cumulative impact of the pre-existing staffing shortages and the additional losses due to the vaccine mandate, the CSCC has redirected all of its resources to maintain acceptable 911 call answering performance times, spending 40% more in overtime than the year prior; and as of October 28, 2021, CSCCS informed the executive's office of the need to significantly scale back on staffing the SPD administrative line.

WHEREAS, the potential staffing losses resulting from the COVID-19 vaccine mandate going into effect on October 18, 2021, and while losses appear likely to be relatively small overall and additional officers continue to be vaccinated, they likely will nonetheless impact pre-existing staffing shortages in the aforementioned departments; the cumulative effect being an impact on public safety services to the city as outlined above.

WHEREAS, The City of Seattle recognizes the need to hire additional 911 dispatchers and police officers responsibly and quickly to meet community expectations; and

WHEREAS, the aforementioned departments have seen an increase in competition for qualified applicants for the aforementioned positions due, in part, to regional and national shortages coupled with regional and national hiring incentives at other 911 dispatch and law enforcement agencies; and

WHEREAS, the Mayor has identified an immediate need to fund incentives to increase hiring at the Community Safety Communications Center and the Seattle Police Department to address emergent public safety concerns and does not believe the City can or should wait until 2022 to implement these measures and previous attempts to get Council to consider an ordinance to operationalize these measures has failed; NOW, THEREFORE,

BE IT PROCLAIMED BY THE MAYOR OF THE CITY OF SEATTLE THAT:

I, JENNY A. DURKAN, MAYOR OF THE CITY OF SEATTLE, ACTING UNDER THE AUTHORITY OF SEATTLE MUNICIPAL CODE SECTIONS 10.02.020 AND 10.02.025, AND MY MAYORAL PROCLAMATION OF CIVIL EMERGENCY, DATED MARCH 3, 2020, HEREBY ORDER:

SECTION 1:

- A. The Seattle Community Safety and Communication Center may offer dispatch candidates a hiring incentive of up to \$25,000, depending on experience level, to be paid after beginning employment with The City of Seattle.
 - i. Incentives provided to lateral dispatch hires shall not exceed \$25,000 per hire.
 - ii. Incentives provided to new recruit hires shall be provided one time and shall not exceed \$10,000 per hire.
 - iii. If an employee who has received this incentive leaves the department, that person may not receive an incentive to return.
 - iv. Half of the hiring incentive will be paid in the first paycheck and the second half upon completion of any probationary period established by law.
- B. The Seattle Police Department may offer police officer candidates a hiring incentive of up to \$25,000, depending on experience and training level, to be paid after beginning employment with The City of Seattle.
 - i. Incentives provided to lateral police officer hires shall not exceed \$25,000 per hire.
 - ii. Incentives provided to new recruit hires shall be provided one time and shall not exceed \$10,000 per hire.
 - iii. If an employee who has received this incentive leaves the department, that person may not receive an incentive to return.
 - iv. Half of the hiring incentive will be paid in the first appropriate paycheck (e.g., after completion of the academy or lateral equivalent) and the second half upon completion of any probationary period established by law.

SECTION 2:

All mayoral proclamations and orders presently in effect shall remain in full force and effect except that, insofar as any provision of any such prior proclamation is inconsistent with any provision of this proclamation, then the provision of this proclamation shall control.

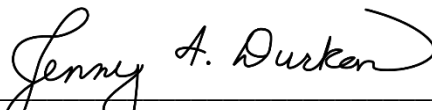

SECTION 3:

A copy of this Civil Emergency Order shall be delivered to the Governor of the State of Washington and to the County Executive of King County. To the extent practicable, a copy of this Civil Emergency Order shall be made available to all news media within the City and to the general public. In order to give the widest dissemination of this Civil Emergency Order to the public, as many other available means as may be practical shall be used, including but not limited to posting on public facilities and public address systems. SMC 10.02.100.

SECTION 4:

This Civil Emergency Order shall immediately, or as soon as practical, be filed with the City Clerk for presentation to the City Council for ratification and confirmation, modification or rejection, and if rejected this Civil Emergency Order shall be void; however, any such rejection or modification shall not affect any actions previously taken. The City Council may, by resolution, ratify, modify or reject the order. If the City Council modifies or rejects this Civil Emergency Order, said modification or rejection shall be prospective only, and shall not affect any actions taken prior to the modification or rejection of this Civil Emergency Order. The Council shall endeavor to act on any order within 48 hours of its being presented to the Council by the Mayor.

DATED at Seattle, Washington, this 29th day of October, 2021, at 6:03 o'clock p.m.,

JENNY DURKAN
MAYOR OF THE CITY OF SEATTLE

City of Seattle
Mayor Jenny A. Durkan

CIVIL EMERGENCY ORDER

CITY OF SEATTLE

IMMEDIATE HIRING INCENTIVES FOR PUBLIC SAFETY EMERGENCY RESPONSE

AN EMERGENCY ORDER relating to staffing shortages in the Community Safety Communications Center and the Seattle Police Department; implementing an incentive program for hiring 911 dispatchers, and police officers.

WHEREAS, The City of Seattle recognizes the need to hire additional 911 dispatchers and police officers responsibly and quickly to meet community expectations; and

WHEREAS, the aforementioned departments have seen an increase in competition for qualified applicants for the aforementioned positions due, in part, to regional and national shortages coupled with regional and national hiring incentives at other 911 dispatch and law enforcement agencies; and

WHEREAS, the City authorized one-time hiring bonuses for the SPD through Ordinance 125784, which was in place during the pandemic and expired on June 30, 2020;

WHEREAS, the preliminary evaluation of that incentive program, issued on September 16, 2019, indicated that hiring incentives may be a factor for candidates accepting employment with SPD, but the sample size at the time was too small to draw conclusions;

WHEREAS, the final evaluation of that incentive program was due to the Council in April 2020 but was never submitted;

WHEREAS, the City is experiencing pandemic-related staffing shortages across departments, including those that provide direct services;

WHEREAS, as part of the Council's deliberations on the 2022 Proposed Budget, the Council is considering multiple actions to assess and address pandemic-related staffing shortages across the City, including adding appropriation and position authority to CSCC for additional dispatchers (Council Budget Action (CBA) CSCC-001-B-001); requesting quarterly reporting from SPD on its staffing model, use of overtime, and performance in responding to 911 calls (CBA SPD-001-A-001); and requesting that the City Budget Office (CBO) and Seattle Department of Human Resources report to the Council on the potential for a City-wide hiring incentive for front line workers (CBA CBO-013-A-001);

WHEREAS, the November 2, 2021, revenue update from CBO indicates that there will be an \$80.7 million decrease in General Fund revenues in 2021 and a \$61.6 million decrease in 2022;

WHEREAS, SPD and CSCC have sufficient appropriation authority in 2021 to provide immediate hiring incentives to address vacancies associated with the City vaccine mandate, but the amount and need for 2022 hiring incentives should be informed by the Council's action on the 2022 Proposed Budget and the revised revenue forecast;

~~((WHEREAS, the Mayor has identified an immediate need to fund incentives to increase hiring at the Community Safety Communications Center and the Seattle Police Department to address emergent public safety concerns and does not believe the City can or should wait until 2022 to implement these measures and previous attempts to get Council to consider an ordinance to operationalize these measures has failed;))~~ NOW, THEREFORE,

BE IT PROCLAIMED BY THE MAYOR OF THE CITY OF SEATTLE THAT:

I, JENNY A. DURKAN, MAYOR OF THE CITY OF SEATTLE, ACTING UNDER THE AUTHORITY OF SEATTLE MUNICIPAL CODE SECTIONS 10.02.020 AND 10.02.025, AND MY MAYORAL PROCLAMATION OF CIVIL EMERGENCY, DATED MARCH 3, 2020, HEREBY ORDER:

SECTION 1:

- A. The Seattle Community Safety and Communication Center may offer dispatch candidates a hiring incentive of up to \$25,000, depending on experience level, to be paid after beginning employment with The City of Seattle.
 - i. Incentives provided to lateral dispatch hires shall not exceed \$25,000 per hire.
 - ii. Incentives provided to new recruit hires shall be provided one time and shall not exceed \$10,000 per hire.
 - iii. If an employee who has received this incentive leaves the department, that person may not receive an incentive to return.
 - iv. Half of the hiring incentive will be paid in the first paycheck and the second half upon completion of any probationary period established by law.
- B. The Seattle Police Department may offer police officer candidates a hiring incentive of up to \$25,000, depending on experience and training level, to be paid after beginning employment with The City of Seattle.
 - i. Incentives provided to lateral police officer hires shall not exceed \$25,000 per hire.
 - ii. Incentives provided to new recruit hires shall be provided one time and shall not exceed \$10,000 per hire.
 - iii. If an employee who has received this incentive leaves the department, that person may not receive an incentive to return.
 - iv. Half of the hiring incentive will be paid in the first appropriate paycheck (e.g., after completion of the academy or lateral equivalent) and the second half upon completion of any probationary period established by law.
- C. Total expenditures for hiring incentives authorized by this order shall not exceed \$500,000.
- D. The authority to offer the hiring incentives authorized by this order shall expire on the earlier of December 31, 2021 or the termination of the Civil Emergency proclaimed on March 3, 2020.

SECTION 2:

All mayoral proclamations and orders presently in effect shall remain in full force and effect except that, insofar as any provision of any such prior proclamation is inconsistent with any provision of this proclamation, then the provision of this proclamation shall control.

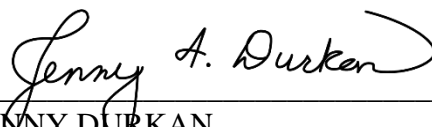

SECTION 3:

A copy of this Civil Emergency Order shall be delivered to the Governor of the State of Washington and to the County Executive of King County. To the extent practicable, a copy of this Civil Emergency Order shall be made available to all news media within the City and to the general public. MAYOR OF THE CITY OF SEATTLE

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
LEG	Freeman / 48178	NA

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title:

A RESOLUTION modifying the Mayoral Civil Emergency Order of October 29, 2021, related to hiring incentives for public safety emergency response.

Summary and background of the Legislation:

On March 3, 2020, the Mayor proclaimed a civil emergency related to containing the spread of COVID-19, the disease caused by a novel coronavirus.

On October 29, 2021, the Mayor issued an emergency order pursuant to the civil emergency proclamation providing hiring bonuses for police officer and public safety dispatch candidates.

Pursuant to Seattle Municipal Code subsection 10.02.20.B, when the Mayor issues an emergency order the Council may by resolution: (1) ratify and confirm the order, (2) modify the order, or (3) reject the order. If the Council does nothing, the civil emergency order is in effect unless it is later modified or rejected by the Council. The Council can modify or reject an emergency order by resolution. The Code contemplates that Council will endeavor to act on a civil emergency order within 48 hours.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

If yes, please fill out the table below and attach a new (if creating a project) or marked-up (if amending) CIP Page to the Council Bill. Please include the spending plan as part of the attached CIP Page. If no, please delete the table.

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

The legislation would authorize the Mayor to use unexpended fund balance from salary savings in the Seattle Police Department (SPD) and the Seattle Community Safety and Communication Center (SCSCC) to offer hiring incentives for new police officers and dispatchers. Fund balance is fungible General Fund that may otherwise be expended or

carried forward into 2022 for other eligible uses. The authority to use fund balance for hiring incentives would expire at the end of 2021, unless extended by a future ordinance, and would be limited to \$500,000, which is what the Mayor's Office estimates would be needed for the remainder of the year.

Is there financial cost or other impacts of *not* implementing the legislation?

It may take longer to fill vacant positions at SPD and SCSCC.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
NA
- b. **Is a public hearing required for this legislation?**
NA
- c. **Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
NA
- d. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
NA
- e. **Does this legislation affect a piece of property?**
NA
- f. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
NA
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**

File #: Res 32028, **Version:** 1

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION concerning the health, well-being, and safety of domestic workers; expressing Council's intent to establish a right to portable Paid Time Off (PTO) for domestic workers in Seattle; and requesting the Office of Labor Standards to work with community stakeholders to draft legislation creating a portable PTO policy for domestic workers.

WHEREAS, paid time off (PTO) is vital to workers' health and well-being; and

WHEREAS, The City of Seattle (City) has long recognized the value of providing workers with paid leave to care for their personal and family members' health conditions or safety needs; and

WHEREAS, in 2012, the City enacted the Paid Sick and Safe Time (PSST) Ordinance requiring employers to provide employees working in Seattle with paid leave for health and safety reasons; and

WHEREAS, the PSST Ordinance recognized that PSST "promote[s] the safety, health and welfare of the people of the City of Seattle by reducing the chances that worker's illnesses will intensify or be prolonged, by reducing the exposure of co-workers and members of the public to infectious diseases, and by reducing the exposure of children at schools and day cares to infectious diseases; resulting in a healthier and more productive workforce, better health for older family members and children, enhanced public health and improved family economic security"; and

WHEREAS, the PSST Ordinance further declared, "To safeguard the public welfare, health, safety, and prosperity of the city of Seattle, all persons working in our community should have access to adequate paid sick and safe leave, because doing so will ensure a more stable workforce in our community, thereby benefiting workers, their families, employers, and the community as a whole"; and

WHEREAS, in 2020, the City extended the coverage of PSST to workers hired as independent contractors by

enacting the PSST for Gig Workers Ordinance, an emergency ordinance requiring food delivery network companies and transportation network companies to provide app-based workers with PSST during the COVID-19 public health emergency; and

WHEREAS, many domestic workers do not get paid leave for health or safe time purposes (such as related to domestic violence, sexual assault, and stalking), or other critical needs like bereavement, needed family time, or when their workplace is closed for public health reasons, negatively impacting workers' physical and mental health, safety, and economic wellbeing; and

WHEREAS, in 2021, a survey of Seattle domestic workers conducted by the Domestic Workers Coalition reported that 65 percent of domestic workers and nearly 90 percent of housecleaners surveyed did not get PSST; and

WHEREAS, few domestic workers receive PSST because they often work short-term jobs with multiple hiring entities and are often classified as independent contractors; and

WHEREAS, PSST can be difficult to accrue, track, and use when workers have multiple hiring entities for varying periods of time; and

WHEREAS, community organizations that work with domestic workers report that domestic workers often work when sick due to their lack of paid leave; and

WHEREAS, universal paid leave, such as PTO, is a flexible type of paid leave that permits broad application and provides workers with greater opportunity to manage their personal and family needs; and

WHEREAS, a portable PTO policy, that travels with the worker, is an innovative public health solution to protect the health and safety of domestic workers who may not accrue adequate PTO or PSST from any one single employer or household; and

WHEREAS, a portable PTO policy helps advance the City's interests to provide critical paid leave rights to domestic workers who largely lack access to paid leave; and

WHEREAS, the COVID-19 crisis has deepened the urgency for PTO, with domestic workers facing massive

loss of work hours, illness of workers and family members, safety risks from entering homes of individuals who are sick or at risk for illness, and disproportionate health impacts of COVID on Black, Indigenous, and People of Color (BIPOC) workers; and

WHEREAS, according to the Economic Policy Institute (EPI), nannies, housecleaners, and home care workers in the United States (U.S.) are 92 percent women, 52 percent BIPOC workers, and disproportionately immigrants, with 35 percent born outside of the U.S., compared with just 17 percent of the rest of the workforce; and

WHEREAS, a portable PTO policy for domestic workers aligns with the Seattle's Race and Social Justice Initiative (RSJI) and should be made a priority under the RSJI, which directs the City to develop policies to eliminate systemic racism and analyze its policy development through a race and social justice lens; and

WHEREAS, many groups of domestic workers are explicitly left out of many federal labor and employment protections-a policy decision dating back to the New Deal, when majority-Black domestic and farmworkers were excluded from landmark federal labor laws as a concession to racist Southern lawmakers and those federal exclusions are repeated in numerous state labor laws in Washington and across the country; and

WHEREAS, the Washington Workers Compensation law specifically excludes from coverage a single domestic worker working for a private home employer; and

WHEREAS, the Washington Industrial Safety and Health Act excludes from coverage domestic workers who are employed by private home employers; and

WHEREAS, domestic workers continue to suffer the impacts of being historically excluded from basic labor protections; and

WHEREAS, the City has taken steps to address this historical exclusion, with the implementation of the Domestic Workers Ordinance (DWO) and the creation of the Domestic Workers Standards Board

(DWSB); and

WHEREAS, the DWO guarantees rights to minimum wage, rest and meal breaks, and other basic labor protections for domestic workers, regardless of their status as employees or independent contractors; and

WHEREAS, the DWSB has been collaborating with a community coalition comprised of domestic workers, domestic worker organizations, hiring entity organizations, and policy experts called the “Domestic Workers Coalition” with the long-term goal of creating a portable PTO policy; and

WHEREAS, in May 2021, the DWSB, in consultation with the Domestic Workers Coalition, recommended the creation of a mandated portable PTO policy for domestic workers to the Council’s Finance and Housing Committee (Committee); and

WHEREAS, in August 2021, the Committee issued a letter to the DWSB supporting the submission of a proposal for the 2022 budget that would fund the Office of Labor Standards (OLS) to develop a portable PTO policy in collaboration with the DWSB and community partners; and

WHEREAS, in 2019, the City of Philadelphia passed an ordinance giving domestic workers the right to portable paid leave benefits, which is undergoing administrative rulemaking; and

WHEREAS, the Domestic Workers Coalition has conducted surveys and focus groups of workers and hiring entities and has been providing research and policy expertise in support of the DWSB to develop a portable PTO policy; and

WHEREAS, domestic workers are essential workers, making all other work possible by caring for children, cleaning homes, and supporting elders and persons with disabilities; and

WHEREAS, a recent survey of domestic hiring entities conducted by the Domestic Workers Coalition in 2021 found that nearly 60 percent of respondents support the concept of hiring entities paying for domestic worker benefits, including paid leave and health insurance; and

WHEREAS, establishing a right to portable PTO for domestic workers and creating a portable PTO policy will

fulfill the City's goal of building an economy that can provide shared prosperity for everyone and will establish an important model that may be applicable to other low wage workers; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE THAT:

Section 1. The Seattle City Council (Council) intends to establish a right to portable paid time off (PTO) for domestic workers in Seattle and requests the Office of Labor Standards (OLS) to collaborate with a community coalition to draft legislation that would create a portable PTO policy for domestic workers.

A. The community coalition may include members of the Domestic Workers Standards Board (DWSB), which includes hiring entity representatives, domestic workers, members of the Domestic Workers Coalition, and representatives of organizations that advocate for the improvement of domestic worker conditions in Seattle.

B. OLS and the community coalition should conduct direct engagement with domestic workers and hiring entities regarding the portable PTO policy and systems design.

C. In developing this legislation, OLS should be guided by the following principles, and other principles outlined in the DWSB recommendations for a portable PTO policy:

1. Racial equity. Center race in the creation of a policy that aligns with the City's Race and Social Justice Initiative to eliminate racial disparities and achieve racial equity in Seattle. Analyze the policy through a race and social justice lens.

2. Worker-centered policy. Center workers in the creation of a policy that impacts their lives and working conditions. Workers best know their conditions and needs.

3. Privacy and security. Consider administering portable PTO benefits through a third-party and including rigorous cyber-security testing as part of the systems design to ensure maximum security of information. The system should protect sensitive worker information from both hiring entities and government entities, as permitted by law.

4. User-centered design. Create a simple and user-friendly system to implement the portable

PTO program, to help ensure both workers and hiring entities will use it. Engage both workers and hiring entities in how to best design the system.

5. Mandated policy. Develop a policy that requires hiring entities to pay for portable PTO for domestic workers. Relying on a hiring entity's voluntary participation in a portable PTO program is not sufficient to meaningfully improve workers' lives.

6. Equitable access. Ensure equitable access to portable PTO, including equity for domestic workers who have limited English proficiency, work in occupations that do not accrue paid sick and safe time under the Paid Sick and Safe Time (PSST) Ordinance, and are hired as employees or independent contractors.

7. Flexibility. Provide broad usage and flexibility for portable PTO and avoid creating a system that requires workers to justify the reasons for their leave.

8. Recordkeeping. Ensure the policy has a method to ensure appropriate recordkeeping that does not burden workers.

9. Sustainability. Evaluate the feasibility of different models and consider the cost of on-going operations. The policy should reference or identify sources of funding for implementation and enforcement.

10. Accountability. Develop a policy that reflects specific short and long-term measurable goals, a commitment to transparency, and methods for evaluation.

Section 2. Council requests that OLS submit legislation that would create a portable PTO policy to the Council Committee overseeing OLS by no later than the first quarter of 2023.

Section 3. Council approves allocation of City resources in the 2022 Adopted Budget to support policy development and outreach efforts for the creation of a portable PTO policy, recognizing that successful development of a portable PTO policy for domestic workers depends on OLS's close collaboration with domestic workers, domestic worker organizations, and policy experts who comprise the Domestic Workers Coalition to develop sound, innovative policy, and facilitate robust and effective outreach to domestic workers and hiring entities.

Adopted by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its adoption this _____ day of _____, 2021.

President _____ of the City Council

Filed by me this _____ day of _____, 2021.

Monica Martinez Simmons, City Clerk

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: A RESOLUTION concerning the health, well-being, and safety of domestic workers; expressing Council's intent to establish a right to portable Paid Time Off (PTO) for domestic workers in Seattle; and requesting the Office of Labor Standards to work with community stakeholders to draft legislation creating a portable PTO policy for domestic workers.

Summary and background of the Legislation: The Domestic Workers Ordinance, Seattle Municipal Code Chapter 14.23, (1) established rights to minimum wage and other basic labor protections for domestic workers in Seattle and (2) created the Domestic Workers Standards Board (DWSB). The DWSB provides a forum for hiring entities, domestic workers, worker organizations, and the public to make recommendations on ways to improve the legal protections, benefits, and working conditions of domestic workers.

In May 2021, the DWSB, in consultation with the Domestic Workers Coalition, recommended the creation of a portable paid time off (PTO) policy for domestic workers to Council's Finance and Housing Committee (Committee). The DWSB recommended the portable PTO policy for domestic workers because they may not accrue meaningful amounts of paid leave as employees in short-term jobs for multiple hiring entities or they may not qualify for mandated paid sick leave as independent contractors. In August 2021, the Committee issued a letter to the DWSB supporting (1) a resolution to affirm the Council's commitment to creating a portable PTO policy for domestic workers and (2) the submission of a proposal to fund OLS's development of the policy.

This resolution reflects Council's intent to establish a right to portable PTO for domestic workers. In the resolution, Council requests the Office of Labor Standards (OLS) to collaborate with a community coalition to draft legislation that would create a portable PTO policy for domestic workers. The resolution specifies that OLS and the community coalition should follow a set of guiding principles and directly engage stakeholders for consultation and feedback. Council requests draft legislation by no later than the first quarter of 2023 and references the allocation of funds to OLS to support their development of the policy.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes **x** No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes x No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

The resolution requests OLS to draft legislation that would create a portable PTO policy for domestic workers and references the Council's consideration of appropriations in the 2022 Adopted Budget to accomplish this work. The 2022 Proposed Budget includes a one-time appropriation to OLS of \$500,000 to develop a portable PTO policy and implement other DWSB recommendations.

Is there financial cost or other impacts of *not* implementing the legislation?

There are no financial costs of not implementing the legislation.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

The resolution requests OLS to develop a portable PTO policy for domestic workers and submit accompanying legislation.

b. Is a public hearing required for this legislation?

No.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

d. Does this legislation affect a piece of property?

No.

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

The resolution reflects the Council's intention to create a portable PTO policy that would cover domestic workers who are majority women and disproportionately workers of color. According to the Economic Policy Institute (EPI), nannies, housecleaners, and home care workers in the United States (U.S.) are 92 percent women, 52 percent BIPOC workers, and disproportionately immigrants, with 35 percent born outside of the U.S., compared with just 17 percent of the rest of the workforce. While domestic workers have long needed paid leave for personal and safety reasons, the COVID-19 crisis has deepened the urgency for PTO, with domestic workers facing massive loss of work hours, illness of workers and family members, safety risks from entering homes of individuals who are sick or at risk for illness, and disproportionate health impacts of COVID on Black, Indigenous, and People of Color (BIPOC) workers.

f. Climate Change Implications

- 1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**

N/A.

- 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

N/A.

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

The resolution includes sustainability and accountability as guiding principles for the portable PTO policy. These principles focus on evaluating the feasibility of different models; identifying funding sources for ongoing operations; and creating a policy that reflects short and long-term measurable goals, a commitment to transparency, and methods for evaluation.
