3. Multiunit residential consolidated curbside/alley garbage collection service. Multiunit residences with a single combined utility account may consolidate garbage into fewer service units than the number of dwelling units on the ((premise)) premises. Upon request, multiunit residences with multiple combined utility accounts, such as townhouse complexes, may consolidate garbage service if such premises share a single water irrigation meter for which a homeowners association is financially responsible and agrees to be financially responsible for the combined utility account, or as determined by the Director. In the event of consolidation, the total consolidated service volume divided by the number of dwelling units must be at least equal to the minimum

equivalent service volume per unit, as determined by the Director.

4. Minimum (~~(Charge, No Pickup Service)~~) charge, no pickup service. A charge per month or portion thereof of \$6.85 shall be billed directly to the owner, homeowners association, or occupant ((;)) of any residence not subscribing to (~~(pick-up)~~) pickup service to cover landfill closure costs, billing, collection, Low Income Rate Assistance, and hazardous waste costs. To be eligible for the minimum charge (zero container rate), a customer may not generate any garbage or rubbish for collection or disposal. With occupied premises, the customer must demonstrate a consistent and effective practice of selective purchasing to minimize refuse, of recycling materials whenever practical, and of composting any yardwaste generated on the premises, and the customer must have qualified for the rate on or before December 31, 1988. A customer is not eligible for the zero container rate by hauling his or her garbage and rubbish to a transfer station, disposal site, or by disposal in another customer's containers or by the use of prepaid stickers. Vacant dwelling units in multiunit residences where each dwelling unit receives a separate combined utility bill qualify for the minimum charge where the conditions of this (~~(paragraph)~~) subsection 21.40.050.A.4 are met. Vacant dwelling units in multiunit residences with a single combined utility account do not qualify for the minimum charge.

5. Extra (~~(Bundles)~~) bundles. A customer may place an extra bundle with its container for regular pickup. The charge will be billed directly to the owner or occupant, unless a prepaid sticker is used. A prepaid sticker authorizes pickup of the bundle when placed with the customer's container. The sticker must be affixed to the bundle in order for the bundle to be picked up by the collector, and the customer not to be billed. The following charges will apply to each extra bundle:

~~(Effective through March 31, 2015: \$10.20 per bundle~~

~~Effective April 1, 2015: \$10.45 per bundle~~
