CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to land use and zoning; amending maximum size of use limits and minimum parking requirements for indoor sports and recreation uses; amending Sections 23.50.027 and 23.54.015 of the Seattle Municipal Code.

WHEREAS, indoor sports and recreation facilities are venues that provide opportunities to community members for recreation, health, and community-building, and can support the space needs of

organizations that provide a cultural value to Seattle; and

WHEREAS, Comprehensive Plan policies for Manufacturing Industrial Centers (MIC) seek to encourage economic activity and development in Seattle’s industrial areas by supporting the retention and expansion of existing industrial businesses and by providing opportunities for the creation of new businesses consistent with the character of industrial areas; and

WHEREAS, indoor sports and recreation facilities have characteristics that allow them to be relatively compatible with an industrial context compared to uses such as housing and customer-serving retail; and

WHEREAS, limiting criteria are an integrated part of this legislation and would limit the potential location of indoor sports and recreation facilities exceeding 10,000 square feet to areas with lower potential to disrupt industrial uses and would limit the potential number of such facilities; and

WHEREAS, indoor sports and recreation facilities are differentiated from spectator sports facilities that would draw crowds, and no change to existing regulations concerning spectator sports facilities in industrially-zoned areas is proposed; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 23.50.027 of the Seattle Municipal Code, last amended by Ordinance 124172, is amended as follows:

23.50.027 Maximum size of nonindustrial use

A. Applicability

1. Except as otherwise provided in this Section 23.50.027, the maximum size of use limits on gross floor area specified in Table A for 23.50.027 apply to principal uses on a lot, and apply separately to the categories of uses. The total gross floor area occupied by uses limited under Table A for 23.50.027 shall not exceed 2.5 times the area of the lot in an IG1, IG2, IB, or IC zone.

2. The combined square footage of any one business establishment located on more than one lot is subject to the size limitations on non-industrial uses specified ~~((on))~~ in Table A for 23.50.027.

3. The maximum size of use limits in Table A for 23.50.027 do not apply to the area identified in Exhibit A for 23.50.027. In that area no single non-office use listed in Table A for 23.50.027 may exceed 50,000 square feet in size.

Footnotes for Table A for 23.54.015¹ No parking is required for urban farms or community gardens in residential zones.² Required parking for spectator sports facilities or exhibition halls must be available when the facility or exhibition hall is in use. A facility shall be considered to be "in use" during the period beginning three hours before an event is scheduled to begin and ending one hour after a scheduled event is expected to end. For sports events of variable or uncertain duration, the expected event length shall be the average length of the events of the same type for which the most recent data are available, provided it is within the past five years. During an inaugural season, or for nonrecurring events, the best available good faith estimate of event duration will be used. A facility will not be deemed to be "in use" by virtue of the fact that administrative or maintenance personnel are present. The Director may reduce the required parking for any event when projected attendance for a spectator sports facility is certified to be 50 percent or less of the facility's seating capacity, to an amount not less than that required for the certified projected attendance, at the rate of one space for each ten fixed seats of certified projected attendance. An application for reduction and the certification shall be submitted to the Director at least 15 days prior to the event. When the event is one of a series of similar events, such certification may be submitted for the entire series 15 days prior to the first event in the series. If the Director finds that a certification of projected attendance of 50 percent or less of the seating capacity is based on satisfactory evidence such as past attendance at similar events or advance ticket sales, the Director shall, within 15 days of such submittal, notify the facility operator that a reduced parking requirement has been approved, with any conditions deemed appropriate by the Director to ensure adequacy of parking if expected attendance should change. The

expected attendance should change. The parking requirement reduction may be applied for only if the goals of the facility's Transportation Management Plan are otherwise being met. The Director may revoke or modify a parking requirement reduction approval during a series, if projected attendance is exceeded. ³ For indoor sports and recreation uses that exceed 25,000 square feet in size in the Ballard Interbay Northend Manufacturing Industrial Center, the minimum requirement is 1 space for each 2,000 square feet. ⁽³⁾ ⁴ The amount of required parking is calculated based on the maximum number of staff or animals the center is designed to accommodate. ⁽⁴⁾ ⁵ The general minimum requirements of Part I of Table A for 23.54.015 are superseded to the extent that a use, structure, or development qualifies for either a greater or a lesser minimum parking requirement (which may include no requirement) under any other provision. To the extent that a non-residential use fits within more than one line in Table A for 23.54.015, the least of the applicable minimum parking requirements applies. The different parking requirements listed for certain categories of non-residential uses shall not be construed to create separate uses for purposes of any requirements related to establishing or changing a use under this Title 23.
