Factors that may be considered in whether to reduce the penalty include whether the violation was caused by the act or neglect of another; or whether correction of the violation was commenced promptly prior to citation but that full compliance was prevented by a condition or circumstance beyond the control of the person cited.

D. Entry of Order. After hearing the explanation of the person cited and any other information presented at the hearing, the Hearing Examiner shall enter an order finding that the person cited committed the violation and assessing a monetary penalty in an amount determined pursuant to this ((section)) Section 10.52.034. The Hearing Examiner's decision is the final decision of the City on this matter.

Any certifications or declarations authorized under RCW 9A.72.085 shall also be admissible without further evidentiary foundation. The Director of (~~(Planning and Development)~~) Construction and Inspections shall issue a permit for the driveway work only upon a determination that: (a) the design, standard of construction, operational use, location or number of locations of the proposed driveway or driveways will not unreasonably interfere with the safe and efficient flow of vehicular and pedestrian traffic upon the adjoining streets and sidewalks, giving particular consideration to the effect upon traffic flowing to and from the proximate limited access facility; and (b) denying the permit would totally deprive the property to be served of vehicular access. The Director of (~~(Planning and Development)~~) Construction and Inspections may attach conditions to any permit as may be reasonably required under the particular circumstances for the protection of public safety.

A. The owner of a structure or trees on property abutting a public place has an obligation to maintain it so that it does not create a hazard to the public using the public place; and, if a hazard to the public should develop, to promptly place barricades in the public place to warn the public of the danger and discourage entry into the area of risk. Upon discovering the hazard, the owner shall immediately inform the Director of ~~((Planning and Development))~~ Construction and Inspections, and, as to park drives and boulevards, the Superintendent of Parks and Recreation, and as to other public places, the Director of Transportation.

B. Whenever the Director of ~~((Planning and Development))~~ Construction and Inspections finds that a building is unsafe, according to the Building Code ~~((SMC))~~ Title 22), or any other applicable ordinance, and a

hazard to public safety, health, or welfare may exist to members of the public using a public place, then the authorizing official may in ~~((his or her))~~ the official's discretion immediately barricade the public place or require the owner or occupant of the adjoining property to set up barricades to the extent necessary, so as to prevent public access to such area in the interest of public safety. If the City incurs an expense in erecting or maintaining barricades, the authorizing official shall bill the owner or occupant the cost thereof together with an administrative charge equal to ~~((fifteen))~~ 15 percent ~~((15%))~~ of the amounts expended.

The Director of ~~((Planning and Development))~~ Construction and Inspections forthwith shall notify the owner or ~~((his or her))~~ the owner's agent of such hazardous condition and to correct this condition within ten ~~((10))~~ days from the date of notice thereof.

Every such application shall state the location of the building to be moved, its dimensions and principal materials, and shall describe the route over which the building is to be moved, the length of time that will be required to move it, and the proposed new location thereof. Before any permit to move a building to a site within the City is issued, specific written approval must be obtained from the Department of Construction and ~~((Land Use))~~ Inspections. The concurrence of the Superintendent of Parks and Recreation is necessary if the building or such equipment will be moved along or across a park drive or boulevard; and the approval of all utilities is also necessary, if those utilities are to be disturbed.

Section 54. Subsection 15.32.300.C of the Seattle Municipal Code, which section was last amended by Ordinance 124167, is amended as follows:

15.32.300 Attachments to City-owned poles.

* * *

C. If additional communication space is available on City-owned poles, after reserving one ~~((H))~~ space for the City and after accounting for the space occupied by existing services already on the poles, the City may permit additional attachments in communication space under the following conditions:

1. The needs of the City are paramount. The City shall be the determinant regarding any question of right to attach, construction compliance or contract interpretation regarding attachment to poles. Permission to make attachments to the City's poles may be withdrawn for violation of applicable codes, for breach of contract, for failure to supply proof of required permits, by governmental directive or for any reason associated with the City's requirements for the use of its poles or public right-of-way. The City may direct the immediate removal of attachments at the owner's expense, if attachments fail to conform to codes or the City's requirements, or if attachments interfere with City operations.

2. All attachments shall be made in accordance with all applicable codes as well as City electrical standards, guidelines and practices.

3. All attachments, including co-lashing, shall be subject to prior approval of the Department of Information Technology, Seattle Department of Transportation and the City Light Department in accordance with the following principles, requirements and procedures:

a. Providing for the safety of the public, City employees, private contractors, and other users of poles is a fundamental principle which must be observed.

b. The primary function of the City's poles is to support the City's electrical lines and equipment.

c. The City shall neither replace existing poles with taller poles nor add crossarms to existing poles to create more communication space on the poles, except as described in subsection 15.32.300.C, 4 below.

d. Any new attachments must accommodate any prior agreements between the City and

other entities regarding use of space on the poles.

e. The City shall not relinquish the one ~~((4))~~ communication space reserved for its own use on every pole. At the request of the applicant, however, the City shall consider creating additional space for communication uses on the poles by taking such actions as removing secondary rack wiring and substituting triplex wire, moving streetlight fixtures, guy wires and other attachments to the poles and by providing for co-lashing. Any actions undertaken to create more communication space shall be considered make-ready work, and any such costs shall be borne by the applicant.

f. Approval of attachments may include requirements for extra mitigation measures in certain areas, such as residential, critical areas and shoreline zones, greenbelts, parks, historic districts and viewsheds. All such extra measures, including any additional public involvement and/or environmental review, shall be taken in accordance with directives from the General Manager and Chief Executive Officer of the City Light Department, and all costs associated with such extra measures and review shall be paid by the applicant.

g. All make-ready costs such as costs for any permits, environmental review, adjustment of other equipment on the pole, tree replacement and tree trimming, shall be paid by the applicant prior to making any attachments to the poles.

h. As a condition of securing the City's permission to use its poles for attachment of cable, all applicants shall be required to permit co-lashing to their own cable of up to two ~~((2))~~ other cables, which may be owned and operated by other entities. All cable attachments that initially occupy a space on a City-owned pole shall be required to provide an external or internal support ("messenger") wire that is capable of supporting two ~~((2))~~ other cables in addition to the initial cable installed by the applicant. Owners of cable subsequently co-lashed to the initial cable shall pay the owner of the initial cable a proportionate share of the cost of the messenger wire. All entities co-lashing together shall be required to provide one another with reciprocal indemnity provisions equivalent to those which must be granted to the City by each of them pursuant to Section 15.32.150. Co-lashing shall not be required of any applicant until all other spaces on the pole, other

than the City's reserved space, have been utilized. The City Light Department shall issue a Department Policy and Procedure for providing co-lashing space based on costs, operational convenience, cable size, and other criteria which are developed in the course of producing such Department Policy and Procedure.

i. In addition to the indemnification required by Section 15.32.150, the City may require that the applicant provide the City and entities permitted to co-lash with additional indemnification, such as indemnification from a parent company, and/or require that the applicant provide proof of specific insurance provisions acceptable to the City which cover potential exposure of both the applicant and the City.

j. As a further condition of securing the City's permission to use its poles for attachment of cable, all applicants upon request shall be required to provide the City with capacity on the applicant's cable over and above the capacity specifications submitted by the applicant. Such additional capacity may be in the form of dedicated fiber or dedicated space on the same cable being installed by the applicant or in the form of separate cable, as specified by the Department of Information Technology, and shall be dedicated to the City for as long as the cable is attached to the City's poles. The City shall have the right to use that capacity for any governmental purpose and the right to lease that capacity to any public or nonprofit entities. The incremental costs of adding the specified amount of capacity for the City shall be borne by the City.

k. Applications for attachment to City-owned poles shall be submitted to the City Light Department. The City Light Department shall then coordinate that request with Seattle Department of Transportation and the Department of Information Technology. Approval of all three (~~((3))~~) departments shall be required prior to the issuance of a permit to attach to the poles.

l. All applications for pole attachment shall be considered on a first-come, first-serve basis, provided that where space is limited, attachment permits shall be given first to public entities, second to entities which are common carriers, third to entities which request attachment to six (~~((6))~~) poles or less for their own private communication needs, and fourth to others.

m. If no space can be created on the poles requested, the applicant may seek an exception to any

of the requirements set forth in this section by submitting a written request to a three (~~((3))~~) person review committee comprised of one (~~((1))~~) representative each from the Department of Information Technology, Seattle Department of Transportation and the City Light Department. The committee shall review the request with reference to considerations which may warrant making an exception including, but not limited to reduced environmental effects, the lack of alternatives for achieving equivalent service available to the applicant, the lack of alternative routing which can be made available and the feasibility of undergrounding all or part of the cable. After engaging in a review of the application, the committee shall forward a recommendation to the Mayor and City Council. Exceptions will not be recommended where the City Light Department believes the safety will be compromised by the granting of an exception. Any exceptions to the requirements of this (~~section~~) Section 15.32.300 must be approved by ordinance.

n. All entities that are provided attachments to City-owned poles, other than Class II attachments, including attachments by means of co-lashing, shall pay a rental fee for each such attachment at a rate established by ordinance. All income from such pole rental rates shall be paid into the Light Fund.

4. Provisions for (~~(Special Attachments:)~~) special attachments

a. Class II attachments shall be limited to situations where: (i) make-ready costs are paid by the provider; (ii) pole/equipment, installation, operation, and maintenance costs are paid by the provider; and (iii) visual impacts of antennas and other attachments are reduced to a degree acceptable to the General Manager and Chief Executive Officer.

b. Class II attachment requests are subject to public notice and comment. Approval of attachments may include requirements for extra mitigation measures in certain areas, such as residential, critical areas and shoreline zones, greenbelts, parks, historic districts and view-sheds. All such extra measures, including any additional public involvement and/or environmental review, shall be taken in accordance with directives from the General Manager and Chief Executive Officer of the City Light Department, and all costs associated with such extra measures and review shall be paid by the applicant. Where a request meets the

following criteria in Seattle, the applicant shall apply to the Department of (~~Planning and Development~~) Construction and Inspections and pay for an attachment siting review and recommendation consistent with the application, fee, notice, timeline and criteria for an administrative conditional use permit. The recommendation of the Department of (~~Planning and Development~~) Construction and Inspections shall be advisory to the General Manager and Chief Executive Officer:

Zone	Street Type	Zoning Height Limit (ft)	Pole Height Requested (ft)
SF, L-1, NC-1	Nonarterial	<40	<60
SF, L-1, NC-1	Arterial	<40	>60
L-2, L-3, L-4, NC-2	Either	<40	>60
NC-3, C, I, MI	Either	<40	>60

c. Where the request is for a location outside Seattle, the applicant shall comply with all applicable requirements of the local jurisdiction where the property is located.

d. Class II attachments shall be permitted substantially in the form of the site agreements authorized by Ordinance 118737, together with special terms and conditions within the site agreement.

e. Class II rental rates shall be established at fair market value as determined by the City Light Department and set forth in the special terms and conditions within the site agreement. All income from such Class II rental rates shall be paid into the Light Fund.

Section 55. Section 15.44.020 of the Seattle Municipal Code, last amended by Ordinance 117569, is amended as follows:

15.44.020 Excavation and fill near public places-Permit.

It is unlawful to excavate or fill in excess of (~~three~~) 3 feet (~~((3'))~~), measured vertically, on private property within any area between the vertical prolongation of the margin of a public place, and a (~~one hundred~~) 100 percent (~~((100%))~~) slope line (~~((forty-five))~~) 45 degrees (~~((45°))~~) from a horizontal line) from the existing elevation of the margin of a public place to the proposed elevation of the private property, without first obtaining a permit from the Director of Construction and (~~Land Use~~) Inspections to do so, and no work shall

commence toward such excavation or fill until a permit therefor has been issued.

Section 56. Section 15.44.090 of the Seattle Municipal Code, last amended by Ordinance 118409, is amended as follows:

15.44.090 Permit procedures.

The following procedures and criteria shall be used in processing an application for the permit required by Section 15.44.003 or Section 15.44.020:

A. Plans, specifications and methods of construction required by the authorizing official shall be submitted in quadruplicate.

B. Shoring plans submitted shall be designed by and bear the seal of a professional engineer licensed in the state.

C. All shoring systems, including the members, their connections, and support, shall be designed to carry the loads imposed on them and details shall be shown on the plans.

D. Allowable stresses, including allowances for short term loading, for timber, steel, or concrete shall be based on the Seattle Building and Construction Code (Title 22).

E. Soil investigations and reports may be required for all excavations described in Section 15.44.020 so that appropriate pressures may be established. The authorizing official may require investigations at any depth whenever specific conditions existing at the site of such excavation reveal an unstable soil structure, circumstances indicate that the excavation may impair the lateral support of any public place or any adjacent City property, or that such further investigation will supply information necessary to properly evaluate the application for the permit or shoring plans submitted. When highway traffic can come within a horizontal distance from the top of the shoring equal to one-half ($((\frac{1}{2}))$) of its height, the pressure shall have added to it a live load surcharge pressure equal to not less than (~~((two))~~) 2 feet ($((2'))$) of earth.

F. Soldier piles, tie-back rods, anchors, and other shoring materials that are intended to remain in a public place after completion of the construction on adjoining property shall be shown on the plans submitted

and so identified. If approved, the authorizing official may require that the plans filed be supplemented upon completion of construction, with a set of plans or other documents showing such residuals in public places, as constructed.

G. When the plans presented show an encroachment upon the property interest of an abutting owner or of a franchise holder in a public place, the authorizing official may require that the consent of the person so affected be obtained as a condition of the issuance of the permit provided for in Section 15.44.020.

H. If in the opinion of the Director of Transportation or Director of Construction and ~~((Land Use))~~ Inspections the design of any excavation or fill, whether shored or not, does not adequately protect the public place, the authorizing official may require a third party review of the design. Third party review requires the applicant's geotechnical and/or additional technical studies to be reviewed by an independent third party, paid for by the applicant but hired by the authorizing official. Third party review shall be conducted by a qualified engineering consultant.

I. Backfilling and restoring of excavations or cave-ins in public places is regulated by Chapter 15.26. Section 57. Section 15.52.020 of the Seattle Municipal Code, last amended by Ordinance 123361, is

amended as follows:

B. A representative of the transit division of King County government;

C. Three citizens and one alternate appointed by the Mayor, subject to confirmation by the City Council; an alternate may vote when the appointee is absent. One of the citizens shall have experience in organizing special events with attendance over 10,000 people; another shall have experience organizing smaller events. Members shall serve without compensation, by reason of their committee membership. Citizen members and alternates may be reimbursed for expenses incurred in attending committee meetings and performing committee duties. The Mayor shall appoint the chair of the Committee, who shall serve for a term of two years and may be reappointed. The incumbent chair shall hold over at the expiration of ~~((his or her))~~ the term until a

successor is appointed and qualifies. The chair shall provide for maintaining committee records, arranging meeting times and places, sending statements, and issuing permits on behalf of the Committee.

6. Lock or remove all doors and/or lids on furniture used for storage, appliances, and furnaces which are located outside an enclosed, locked building or structure;

7. Maintain the building and equipment in compliance with the minimum standards specified in Sections 22.206.010 through 22.206.140 and in a safe condition, except for maintenance duties specifically imposed in this Section 22.206.170 on the tenant of the building; provided that this subsection 22.206.160.A.7 shall not apply to owner-occupied dwelling units in which no rooms are rented to others;

8. Affix and maintain the street number to the building in a conspicuous place over or near the principal street entrance or entrances or in some other conspicuous place. This provision shall not be construed to require numbers on either appurtenant buildings or other buildings or structures where the Director finds that the numbering is not appropriate. Numbers shall be easily legible, in contrast with the surface upon which they are placed. Figures shall be no less than 2 inches high;

9. Maintain the building in compliance with the requirements of Section 3403.1 of the Seattle Building Code;

10. Comply with any emergency order issued by the Department of ~~((Planning and Development~~)) Construction and Inspections; and

11. Furnish tenants with keys for the required locks on their respective housing units and building entrance doors.

B. It shall be the duty of all owners of buildings that contain rented housing units, regardless of any lease provision or other agreement that purports to transfer the owner's responsibilities hereunder to an operator, manager or tenant, to:

1. Maintain in a clean and sanitary condition the shared areas, including yards and courts, of any building containing two or more housing units;

2. Supply enough garbage cans or other approved containers of sufficient size to contain all garbage disposed of by such tenants;

C. Just ~~((Cause Eviction.))~~ cause eviction

1. Pursuant to provisions of the state Residential Landlord-Tenant Act (RCW 59.18.290), owners may not evict residential tenants without a court order, which can be issued by a court only after the tenant has an opportunity in a show cause hearing to contest the eviction (RCW 59.18.380). Owners of housing units shall not evict or attempt to evict any tenant, or otherwise terminate or attempt to terminate the tenancy of any tenant unless the owner can prove in court that just cause exists. Owners may not evict residential tenants from rental

housing units if the units are not registered with the Department of ((~~Planning and Development~~)) Construction and Inspections as required by Section 22.214.040, regardless of whether just cause for eviction may exist. An owner is in compliance with this registration requirement if the rental housing unit is registered with the Department of ((~~Planning and Development~~)) Construction and Inspections before entry of a court order authorizing eviction or before a writ of restitution is granted. A court may grant a continuance in an eviction action in order to give the owner time to register the rental housing unit. The reasons for termination of tenancy listed below, and no others, shall constitute just cause under this Section 22.206.160:

a. The tenant fails to comply with a three day notice to pay rent or vacate pursuant to RCW 59.12.030(3); a ten day notice to comply or vacate pursuant to RCW 59.12.030(4); or a three day notice to vacate for waste, nuisance (including a drug-related activity nuisance pursuant to chapter RCW 7.43 ((~~Chapter 7.43~~))) or maintenance of an unlawful business or conduct pursuant to RCW 59.12.030(5);

b. The tenant habitually fails to pay rent when due which causes the owner to notify the tenant in writing of late rent four or more times in a 12 month period;

c. The tenant fails to comply with a ten day notice to comply or vacate that requires compliance with a material term of the rental agreement or that requires compliance with a material obligation under ((~~RCW~~)) chapter 59.18 RCW;

d. The tenant habitually fails to comply with the material terms of the rental agreement which causes the owner to serve a ten day notice to comply or vacate three or more times in a 12 month period;

e. The owner seeks possession so that the owner or a member of his or her immediate family may occupy the unit as that person's principal residence and no substantially equivalent unit is vacant and available in the same building. "Immediate family" shall include the owner's domestic partner registered pursuant to Section 1 of Ordinance 117244 or the owner's spouse, parents, grandparents, children, brothers and sisters of the owner, of the owner's spouse, or of the owner's domestic partner. There shall be a rebuttable presumption of a violation of this subsection ((~~22.206.160.C.1.a~~)) 22.206.160.C.1.e if the owner or a member

of the owner's immediate family fails to occupy the unit as that person's principal residence for at least 60 consecutive days during the 90 days immediately after the tenant vacated the unit pursuant to a notice of termination or eviction using this subparagraph as the cause for eviction;

f. The owner elects to sell a single-family dwelling unit and gives the tenant at least 60 days written notice prior to the date set for vacating, which date shall coincide with the end of the term of a rental agreement, or if the agreement is month to month, with the last day of a monthly period. For the purposes of this Section 22.206.160, an owner "elects to sell" when the owner makes reasonable attempts to sell the dwelling within 30 days after the tenant has vacated, including, at a minimum, listing it for sale at a reasonable price with a realty agency or advertising it for sale at a reasonable price in a newspaper of general circulation. There shall be a rebuttable presumption that the owner did not intend to sell the unit if:

1) Within 30 days after the tenant has vacated, the owner does not list the single-family dwelling unit for sale at a reasonable price with a realty agency or advertise it for sale at a reasonable price in a newspaper of general circulation, or

2) Within 90 days after the date the tenant vacated or the date the property was listed for sale, whichever is later, the owner withdraws the rental unit from the market, rents the unit to someone other than the former tenant, or otherwise indicates that the owner does not intend to sell the unit;

g. The tenant's occupancy is conditioned upon employment on the property and the employment relationship is terminated;

h. The owner seeks to do substantial rehabilitation in the building; provided that, the owner must obtain a tenant relocation license if required by Chapter 22.210 and at least one permit necessary for the rehabilitation, other than a Master Use Permit, before terminating the tenancy;

i. The owner (i) elects to demolish the building, convert it to a cooperative, or convert it to a nonresidential use; provided that, the owner must obtain a tenant relocation license if required by Chapter 22.210 and a permit necessary to demolish or change the use before terminating any tenancy, or (ii) converts

the building to a condominium provided the owner complies with the provisions of Sections 22.903.030 and 22.903.035;

j. The owner seeks to discontinue use of a housing unit unauthorized by Title 23 after receipt of a notice of violation thereof. The owner is required to pay relocation assistance to the tenant(s) of each such unit at least two weeks prior to the date set for termination of the tenancy, at the rate of:

1) \$2,000 for a tenant household with an income during the past 12 months at or below 50 percent of the County median income, or

2) Two months' rent for a tenant household with an income during the past 12 months above 50 percent of the County median income;

k. The owner seeks to reduce the number of individuals residing in a dwelling unit to comply with the maximum limit of individuals allowed to occupy one dwelling unit, as required by Title 23, and:

1)

a) The number of such individuals was more than is lawful under the current version of Title 23 (~~or Title 24~~) but was lawful under Title 23 or 24 on August 10, 1994;

b) That number has not increased with the knowledge or consent of the owner at any time after August 10, 1994; and

c) The owner is either unwilling or unable to obtain a permit to allow the unit with that number of residents.

2) The owner has served the tenants with a 30 day notice, informing the tenants that the number of tenants exceeds the legal limit and must be reduced to the legal limit,

3) After expiration of the 30 day notice, the owner has served the tenants with and the tenants have failed to comply with a ten day notice to comply with the limit on the number of occupants or vacate, and

4) If there is more than one rental agreement for the unit, the owner may choose which agreements to terminate; provided that, the owner may either terminate no more than the minimum number of rental agreements necessary to comply with the legal limit on the number of occupants, or, at the owner's option, terminate only those agreements involving the minimum number of occupants necessary to comply with the legal limit;

1.

1) The owner seeks to reduce the number of individuals who reside in one dwelling unit to comply with the legal limit after receipt of a notice of violation of the Title 23 restriction on the number of individuals allowed to reside in a dwelling unit, and:

a) The owner has served the tenants with a 30 day notice, informing the tenants that the number of tenants exceeds the legal limit and must be reduced to the legal limit; provided that, no 30 day notice is required if the number of tenants was increased above the legal limit without the knowledge or consent of the owner;

b) After expiration of the 30 day notice required by subsection 22.206.160.1.1.a above, or at any time after receipt of the notice of violation if no 30 day notice is required pursuant to subsection 22.206.160.1.1.a, the owner has served the tenants with and the tenants have failed to comply with a ((10)) ten day notice to comply with the maximum legal limit on the number of occupants or vacate; and

c) If there is more than one rental agreement for the unit, the owner may choose which agreements to terminate; provided that, the owner may either terminate no more than the minimum number of rental agreements necessary to comply with the legal limit on the number of occupants, or, at the option of the owner, terminate only those agreements involving the minimum number of occupants necessary to comply with the legal limit.

2) For any violation of the maximum legal limit on the number of individuals

allowed to reside in a unit that occurred with the knowledge or consent of the owner, the owner is required to pay relocation assistance to the tenant(s) of each such unit at least two weeks prior to the date set for termination of the tenancy, at the rate of:

a) \$2,000 for a tenant household with an income during the past 12 months at or below 50 percent of the county median income, or

b) Two months' rent for a tenant household with an income during the past 12 months above 50 percent of the county median income;

m. The owner seeks to discontinue use of an accessory dwelling unit for which a permit has been obtained pursuant to Sections 23.44.041 and 23.45.545 after receipt of a notice of violation of the development standards provided in those sections. The owner is required to pay relocation assistance to the tenant household residing in such a unit at least two weeks prior to the date set for termination of the tenancy, at the rate of:

1) \$2,000 for a tenant household with an income during the past 12 months at or below 50 percent of the county median income, or

2) Two months' rent for a tenant household with an income during the past 12 months above 50 percent of the county median income;

n. An emergency order requiring that the housing unit be vacated and closed has been issued pursuant to Section 22.206.260 and the emergency conditions identified in the order have not been corrected;

o. The owner seeks to discontinue sharing with a tenant of the owner's own housing unit, i.e., the unit in which the owner resides, seeks to terminate the tenancy of a tenant of an accessory dwelling unit authorized pursuant to Sections 23.44.041 and 23.45.545 that is accessory to the housing unit in which the owner resides or seeks to terminate the tenancy of a tenant in a single-family dwelling unit and the owner resides in an accessory dwelling unit on the same lot. This subsection 22.206.160.C.1.o does not apply if the

owner has received a notice of violation of the development standards of Section 23.44.041. If the owner has received such a notice of violation, subsection 22.206.160.C.1.m applies;

p. A tenant, or with the consent of the tenant, ~~((his or her))~~ the tenant's subtenant, sublessee, resident, or guest, has engaged in criminal activity on the premises, or on the property or public right-of-way abutting the premises, and the owner has specified in the notice of termination the crime alleged to have been committed and the general facts supporting the allegation, and has assured that the Department of ~~((Planning and Development))~~ Construction and Inspections has recorded receipt of a copy of the notice of termination. For purposes of this subsection 22.206.160.C.1.p a person has "engaged in criminal activity" if he or she:

1) Engages in drug-related activity that would constitute a violation of ~~((RCW Chapters))~~ chapters 69.41, 69.50 or 69.52 RCW, or

2) Engages in activity that is a crime under the laws of this state, but only if the activity substantially affects the health or safety of other tenants or the owner.

2. Any rental agreement provision which waives or purports to waive any right, benefit or entitlement created by this subsection 22.206.160.C.1.p shall be deemed void and of no lawful force or effect.

3. With any termination notices required by law, owners terminating any tenancy protected by this ~~((section))~~ Section 22.206.160 shall advise the affected tenant or tenants in writing of the reasons for the termination and the facts in support of those reasons.

4. If a tenant who has received a notice of termination of tenancy claiming subsection 22.206.160.C.1.e, 22.206.160.C.1.f, or 22.206.160.C.1.m as the ground for termination believes that the owner does not intend to carry out the stated reason for eviction and makes a complaint to the Director, then the owner must, within ten days of being notified by the Director of the complaint, complete and file with the Director a certification stating the owner's intent to carry out the stated reason for the eviction. The failure of the owner to complete and file such a certification after a complaint by the tenant shall be a defense for the tenant in an

eviction action based on this ground.

5. In any action commenced to evict or to otherwise terminate the tenancy of any tenant, it shall be a defense to the action that there was no just cause for such eviction or termination as provided in this ((section)) Section 22.206.160.

6. It shall be a violation of this ((section)) Section 22.206.160 for any owner to evict or attempt to evict any tenant or otherwise terminate or attempt to terminate the tenancy of any tenant using a notice which references subsections 22.206.160.C.1.e, 22.206.160.C.1.f, 22.206.160.C.1.h, 22.206.160.C.1.k, 22.206.160.C.1.l, or 22.206.160.C.1.m as grounds for eviction or termination of tenancy without fulfilling or carrying out the stated reason for or condition justifying the termination of such tenancy.

7. An owner who evicts or attempts to evict a tenant or who terminates or attempts to terminate the tenancy of a tenant using a notice which references subsections 22.206.160.C.1.e, 22.206.160.1.f or 22.206.160.1.h as the ground for eviction or termination of tenancy without fulfilling or carrying out the stated reason for or condition justifying the termination of such tenancy shall be liable to such tenant in a private right for action for damages up to \$2,000, costs of suit, or arbitration and reasonable attorney's fees.

Section 79. Section 22.206.180 of the Seattle Municipal Code, last amended by Ordinance 120302, is amended as follows:

22.206.180 Prohibited acts by owners.

3. Request, cause or allow any gas, electricity, water or other utility service supplied by the owner to be discontinued; or
4. Remove or exclude a tenant from the premises except pursuant to legal process; or

5. Evict, increase rent, reduce services, increase the obligations of a tenant or otherwise impose, threaten or attempt any punitive measure against a tenant for the reason that the tenant has in good faith reported violations of this Code to the Department of ~~((Design, Construction and Land Use))~~ Construction and Inspections or to the Seattle Police Department, or otherwise asserted, exercised, or attempted to exercise any legal rights granted tenants by law and arising out of the tenant's occupancy of the building; or

6. Enter a tenant's housing unit or premises except:

a. At reasonable times with the tenant's consent, after giving the tenant:

~~((1))~~ 1) at least two ~~((2))~~ days' notice of intent to enter for the purpose of inspecting the premises, making necessary or agreed repairs, alterations or improvements, or supplying necessary or agreed services; or

~~((1))~~ 2) at least one ~~((1))~~ day's notice for the purpose of exhibiting the dwelling unit to prospective or actual purchasers, mortgagees, tenants, workers or contractors; or

b. In an emergency; or

c. In case of abandonment as defined by state law; or

7. Prohibit a tenant or the tenant's authorized agent or agents, if accompanied by the tenant, from engaging in the following activities when related to building affairs or tenant organization:

a. Distributing leaflets in a lobby and other common areas and at or under tenants' doors;

b. Posting information on bulletin boards, provided that tenants comply with all generally applicable rules of the landlord governing the use of such boards. Such rules cannot specifically exclude the posting of information related to tenant organizing activities if the rules permit posting of other types of information by tenants;

c. Initiating contact with tenants;

d. Assisting tenants to participate in tenant organization activities;

e. Holding meetings, including political caucuses or forums for speeches of public

officials or candidates for public office, unattended by management, conducted at reasonable times and in an orderly manner on the premises, held in any community rooms or recreation rooms if these rooms are open for the use of the tenants; provided that the tenant complies with all other generally applicable rules of the landlord governing the use of such rooms. Any generally applicable rules must be written and posted in or near such a room. If a community or recreation room is not available, meetings may take place in common areas which include a laundry room, hallway or lobby; provided all generally applicable rules of the landlord governing such common areas and applicable fire and safety codes are followed.

B. The following rebuttable presumptions shall apply in any proceeding to collect a civil penalty for violation of subsection 22.206.180(())A.5.

1. Any owner who takes any action listed in ~~((Section))~~ subsection ((22.206.180 A5)) 22.206.180.A.5 within ~~((ninety-))90(())~~ days after a tenant has in good faith reported violations of this Code ~~((chapter)) Chapter 22.206 ((SMC))~~ to the Department of ~~((Design, Construction and Land Use))~~ Construction and Inspections or to the Seattle Police Department, or otherwise asserted, exercised or attempted to exercise any legal rights granted tenants by law and arising out of a tenant's occupancy of the building, or within ~~((ninety-))90(())~~ days after any inspection or proceeding by a governmental agency resulting from such legal right asserted, exercised or attempted to be exercised by a tenant, creates a rebuttable presumption affecting the burden of proof that the action was taken for the reason that the tenant had in good faith reported violations of this Code to the Department of ~~((Design, Construction and Land Use))~~ Construction and Inspections or to the Seattle Police Department or otherwise asserted, exercised or attempted to exercise any legal rights granted the tenant by law; except that, if at the time an owner gives a notice of termination of tenancy pursuant to chapter 59.12 RCW, the tenant is in arrears in rent or in breach of any other lease or rental obligation, there is a rebuttable presumption that the landlord's action is neither a reprisal nor retaliatory action against the tenant.

2. A tenant who makes a complaint or report to a governmental authority about an owner or

owner's property within ~~((ninety (90)))~~ 90(()) days after notice of a proposed increase in rent or other action in good faith by the owner creates a rebuttable presumption that the complaint or report was not made in good faith, unless the complaint or report was that the proposed increase in rent or other action was unlawful, in which case no such presumption applies.

3. The rebuttable presumption under subsection 22.206.180(())B.1 shall not apply with respect to an increase in rent if the owner, in a notice to the tenant of an increase in rent, specifies reasonable grounds for said increase and the notice of said increase does not violate ~~((SMC))~~ subsection 7.24.030(())A.

The Director of SPU may delegate authority to the Director of ((DPD)) DCI or the Director of Seattle Department of Transportation regarding the provisions of this subtitle pertaining to review of drainage control plans, review of erosion control plans, and inspection and enforcement authority pertaining to temporary erosion and sediment control measures for projects conducted in the public right-of-way.

C. The Directors of ((DPD)) DCI, SDOT, and SPU are authorized to take actions necessary to implement the provisions and purposes of this ((subtitle)) Subtitle VIII in their respective spheres of authority to the extent allowed by law, including, but not limited to, the following: promulgating and amending rules and regulations, pursuant to the Administrative Code, Chapter 3.02 of the Seattle Municipal Code; establishing and conducting inspection programs; establishing and conducting or, as set forth in Section 22.802.040, requiring responsible parties to conduct monitoring programs, which may include sampling of discharges to or from drainage control facilities, the public drainage system, or receiving waters; taking enforcement action; abating nuisances; promulgating guidance and policy documents; and reviewing and approving, conditioning, or disapproving required submittals and applications for approvals and permits. The Directors are authorized to

exercise their authority under this ((subtitle)) Subtitle VIII in a manner consistent with their legal obligations as determined by the courts or by statute.

D. The Director of SPU is authorized to develop, review, or approve drainage basin plans for managing receiving waters, drainage water, and erosion within individual basins. A drainage basin plan may, when approved by the Director of SPU, be used to modify requirements of this subtitle, provided the level of protection for human health, safety and welfare, the environment, and public or private property will equal or exceed that which would otherwise be achieved. A drainage basin plan that modifies the minimum requirements of this subtitle at a drainage basin level must be reviewed and approved by Ecology and adopted by City ordinance.

E. The Director of SPU is authorized, to the extent allowed by law, to develop, review, or approve an Integrated Drainage Plan as an equivalent means of complying with the requirements of this subtitle, in which the developer of a project voluntarily enters into an agreement with the Director of SPU to implement an Integrated Drainage Plan that is specific to one or more sites where best management practices are employed such that the cumulative effect on the discharge from the site(s) to the same receiving water is the same or better than that which would be achieved by a less integrated, site-by-site implementation of best management practices.

F. The Director of SPU is authorized, to the extent allowed by law, to enter into an agreement with the developer of a project for the developer to voluntarily contribute funds toward the construction of one or more drainage control facilities that mitigate the impacts to the same receiving water that have been identified as a consequence of the proposed development.

G. The Director of SPU is authorized, to the extent allowed by law, to enter into an agreement with the developer of a project for the developer to voluntarily construct one or more drainage control facilities at an alternative location, determined by the Director, to mitigate the impacts to the same receiving water that have been identified as a consequence of the proposed development.

H. If the Director of SPU determines that a discharge from a site, real property, or drainage facility, directly or indirectly to a public drainage system, a private drainage system, or a receiving water within or contiguous to Seattle city limits, has exceeded, exceeds, or will exceed water quality standards at the point of assessment, or has caused or contributed, is causing or contributing, or will cause or contribute to a prohibited discharge or a known or likely violation of water quality standards in the receiving water or a known or likely violation of the City's municipal stormwater NPDES permit, and cannot be adequately addressed by the required best management practices, then the Director of SPU has the authority, to the extent allowed by law, to issue an order under Chapter 22.808 requiring the responsible party to undertake more stringent or additional best management practices. These best management practices may include additional source control or structural best management practices or other actions necessary to cease the exceedance, the prohibited discharge, or causing or contributing to the known or likely violation of water quality standards in the receiving water or the known or likely violation of the City's municipal stormwater NPDES permit. Structural best management practices may include but shall not be limited to: drainage control facilities, structural source controls, treatment facilities, constructed facilities such as enclosures, covering and/or berming of container storage areas, and revised drainage systems. For existing discharges as opposed to new projects, the Director may allow 12 months to install a new flow control facility, structural source control, or treatment facility after the Director notifies the responsible party in writing of the Director's determination pursuant to this subsection 22.800.080.H and of the flow control facility, structural source control, or treatment facility that must be installed.

I. Unless an adjustment per subsection 22.800.040.B or an exception per subsection 22.800.040.C is approved by the Director, an owner or occupant who is required, or who wishes, to connect to a public drainage system shall be required to extend the public drainage system if a public drainage system is not accessible within an abutting public area across the full frontage of the property.

J. The Director of (~~(DPD)~~) DCI has the authority, to the extent allowed by law, to require sites with

addition or replacement of less than 5,000 square feet of impervious surface or with less than one acre of land disturbing activity to comply with the requirements set forth in Section 22.805.080 or Section 22.805.090 when necessary to accomplish the purposes of this subtitle. In making this determination, the Director of ((DPD)) DCI may consider, but not be limited to, the following attributes of the site: location within an Environmentally Critical Area; proximity and tributary to an Environmentally Critical Area; and proximity and tributary to an area with known erosion or flooding problems.

Any suit brought against the Director of ((DPD)) DCI, Director of SPU, or other employee because of an act or omission performed in the enforcement of any provisions of this ((subtitle)) Subtitle VIII, shall be defended by the City.

B. Submittal Requirements for Drainage Control Review and Approval

1. Information Required for Standard Drainage Control Review. The following information shall be submitted to the Director for all projects for which drainage control review is required.

a. Standard Drainage Control Plan. A drainage control plan shall be submitted to the Director. Standard designs for drainage control facilities as set forth in rules promulgated by the Director may be used.

- 7) The owner(s)' signatures acknowledged by a notary public.

2. Information Required for Large Project Drainage Control Review. In addition to the submittal

requirements for standard drainage control review, the following information is required for projects that include: one acre or more of land disturbing activities; 5,000 square feet or more of new and replaced impervious surface; conversion of 3/4 acres or more of native vegetation to lawn or landscaped area; or conversion of 2.5 acres or more of native vegetation to pasture.

a. Comprehensive Drainage Control Plan. A comprehensive drainage control plan, in lieu of a standard drainage control plan, to comply with the requirements of this subtitle and rules promulgated hereunder and to accomplish the purposes of this subtitle shall be submitted with the permit application. It shall be prepared by a licensed civil engineer in accordance with standards adopted by the Director of ((DPD)) DCI.

The Director of ((DPD)) DCI may also require appropriate information about adjoining properties that may be related to, or affected by, the drainage control proposal in order to evaluate effects on the adjacent property. This additional information may be required as a precondition for permit application review and approval.

5. Where an applicant simultaneously applies for more than one of the permits listed in subsection 22.807.020.A for the same property, the application shall comply with the requirements for the permit that is the most detailed and complete.

C. Authority to Review. The Director may approve those plans that comply with the provisions of this ((subtitle)) Subtitle IX and rules promulgated hereunder, and may place conditions upon the approval in order to assure compliance with the provisions of this subtitle. Submission of the required drainage control application information shall be a condition precedent to the processing of any of the above-listed permits. Approval of drainage control shall be a condition precedent to issuance of any of the above-listed permits. The Director may review and inspect activities subject to this subtitle and may require compliance regardless of whether review or approval is specifically required by this subsection 22.807.020.C. 22.900D.010 Development permit fees

* * *

D. Phased Permits

1.

a. If a new building project is proposed to be built in phases and the Director determines that separate development permits may be issued for approved portions of the project, the development fee for the entire permit shall be based on the value of work according to Table D-2 for 22.900D.010.

b. If the shoring and/or excavating work is included with the complete foundation (below grade) phase of the building project, the fees for such work shall be included in the fees described above.

c. If the proposed building project includes a separate shoring and/or excavation phase that is not combined with the complete foundation (below grade) phase, the shoring and/or excavation work will be reviewed and issued as a separate permit. The fees for the excavation portion of that permit shall be based on Section 22.900D.145, and the fees for the shoring portion of that permit shall be based on the value of

that structural portion of the work according to Table D-2 for 22.900D.010. No credit will be given for any of these fees toward the phased building permit.

2. In addition to the fee specified in subsection 22.900D.010.D.1 above, if an applicant requests division of an already-submitted permit application a fee shall be charged for each separate application as specified in Table D-2 for 22.900D.010, and the fee to process this request shall be charged at the ~~((DPD))~~ DCI hourly rate.

E. Calculation of Development Fees. The development fee for a permit shall be calculated as described in this ~~((section))~~ Section 22.900D.010.

1. Table D-1 for 22.900D.010 establishes the Development Fee Index for value-based development fees. Except as specified in Section 22.900D.010.F below, Table D-2 for 22.900D.010 establishes the permit fee and plan review fee, calculated as a percentage of the development fee index where determined by value.

2. For the calculation of the Development Fee Index, as specified in Table D-1 for 22.900D.010, if a building is more than three stories high using construction Types 1A and 1B, the total building valuation may be modified for structure height depending on the building occupancy as described in the current Director's Rule clarification on "Implementation of the Fee Subtitle, Building Valuation," which is incorporated by reference.

3. If two or more buildings are allowed under one permit, they shall be assessed fees as separate buildings under Table D-2 for 22.900D.010. The individual fees shall then be added to determine the total development fee for the permit.

H. Certificate of Occupancy. The issuance of a Certificate of Occupancy for existing buildings, either if no Certificate of Occupancy has previously been issued or if a change of occupancy is requested, requires a building permit. If there is no construction valuation (there is no work which would require a building permit), the minimum building permit fee shall be assessed. In addition to the minimum building permit fee, if records research, plan examination or inspection is required, charges shall be assessed at the ((DPD)) DCI hourly rate. If work is being done as authorized by a permit, the permanent Certificate of Occupancy fee is not assessed in addition to the building permit fee. The fee for a temporary Certificate of Occupancy shall be charged at the rate of 1/2 the base fee. Section 110. Section 22.900D.170 of the Seattle Municipal Code, last amended by Ordinance 124636, is renumbered 22.900G.080 and further amended to read as follows:

~~((22.900D.170))~~ 22.900G.080 Design Commission fees

A. City Capital Improvement Projects, as Defined in ~~((SMC))~~ Section 3.58.020. Design Commission fees shall be assessed at a rate of 0.3 percent of the construction cost for City capital improvement projects for which billing will commence on or before December 31, 1998, except as specified in subsections 22.900G.080.B and 22.900G.080.D ~~((of this section))~~. Billing will occur at the time of contract award by the Department of Finance, who will forward the bills to the Department for distribution to appropriate City departments. Payment will be made through a fund transfer to the Department Operating Fund.

B. Major City Capital Improvement Projects. Except as specified in subsection 22.900G.080.D ~~((of this section))~~, Design Commission fees shall be assessed at a rate of up to 0.3 percent of the construction cost for major City capital improvement projects (greater than \$10,000,000 ~~((+))~~ construction budget) for which billing will commence on or before December 31, 1998. The fee shall be set through negotiations with the City Budget Director and the Design Commission. Billing shall occur in accordance with a schedule agreed upon by the City Budget Director and the Design Commission.

C.

1. For City capital improvement projects, as defined in Section 3.58.020, for which no billing commenced under subsections 22.900G.080.A or 22.900G.080.B on or before December 31, 1998, and that do not fall within an exception in subsection 22.900G.080.D ~~((of this section))~~, the City Budget Director, the

Design Commission, and each affected City department will attempt to agree on that department's projects ((~~7~~)) that are expected to be assessed by the Design Commission in the following year. If no agreement is reached by a date established by the City Budget Director, the City Budget Director will establish the list of such projects. The City Budget Director may establish the assessable appropriation of a City capital improvement below the actual appropriation in order that the project not be assessed an unduly high fee relative to the cost of the anticipated Design Commission review.

2. The City Budget Director will assess a uniform fee of up to ((~~one percent~~)) one percent of the total of all departments' capital improvement project appropriations for those projects assessable for Design Commission fees. Such fee shall be set so as to be sufficient, when combined with other funding sources, to support the anticipated costs of the Design Commission for the following year, but in no case shall the fee exceed ((~~one percent~~)) one percent.

3. The Director of ((~~Planning and Development~~)) Construction and Inspections shall bill each department in the amount determined by the City Budget Director, and that amount shall be paid by fund transfer to the Department Operating Fund.

4. If a capital improvement project's appropriation has been included in a fee assessed under this section, but Design Commission review of that project is delayed into a future year, that appropriation amount shall not be counted again in the calculation of the fee for any future year. If review of a project on which a fee has been assessed under this subsection 22.900G.080.C is canceled, or if review commences on a project that, but for timeliness, would have been included but was not included in the calculation of a fee under this subsection 22.900G.080.C, the City Budget Director shall adjust the department's total assessable appropriation downwards or upwards, respectively, when establishing the subsequent year's fee.

D. Special Exceptions. The Commission will bill non-City projects at the hourly rate of \$107 an hour per Commissioner for subcommittee review, or \$754 an hour for full Commission review, except that fees may be waived, in whole or in part, at the discretion of the Commission with the concurrence of the City Budget

Director in the following circumstances:

1. Whenever Commission fees, if charged, would be disproportionate to the sums available and could cause abandonment of the project for the following types of projects: art-works, projects funded by grants and donations, neighborhood self-help projects undertaken by volunteers and nonprofit organizations, and small capital improvements;

2. For low-income and special needs housing projects subject to Design Commission review.

E. Street Use Permit Reviews. Street use permit reviews, which are required before issuance of a street use permit for improvements within the public right-of-way, will be billed at the hourly rate of \$107 an hour per Commissioner for subcommittee review, or \$754 an hour for full Commission review. Billing will be sent to the Seattle Department of Transportation for inclusion into the plan review costs charged to the applicant, or be billed directly by the Department. For those projects billed through the Seattle Department of Transportation, payment will be made by a fund transfer from the Seattle Transportation Operating Fund to the Department Operating Fund from funds paid by the applicant.

F. Early Master Use Permit Stage or Projects Outside City Contract Process. For design review at an early Master Use Permit stage or for projects outside The City of Seattle contract award process, Design Commission fees will be billed by the Department at an hourly rate of \$107 an hour per Commissioner for subcommittee review, or \$754 an hour for full Commission review.

to Section 15.35.010 which shall be charged as part of the single fee for the master filming permit.

2. In addition to the amounts specified in Table F-2 for 22.900F.020, applicants shall reimburse the Department for actual costs associated with review of the application.

3. The fee for renewal of noise variances is the same as for new applications.

4. Fees for noise variances are not refundable.

23.49.181 Bonus floor area for affordable housing in the PSM 85-120 zone

* * *

E. Affordable housing

1. Amount. An applicant using bonus floor area shall provide an amount of net rentable floor area of low-income housing, applicable to units for sale or rent, equal to at least 17.5 percent of the net bonus floor area obtained. For purposes of this subsection 23.49.181.E, "net rentable floor area" is equal to 80((~~%~~)) percent of the gross floor area of the low-income housing.

2. Serving income-eligible households. For the purposes of this Section 23.49.181, a housing unit serves income-eligible households only if either:

a. For a period of 50 years beginning upon the issuance of a final certificate of occupancy by the Department of ((~~Planning and Development~~)) Construction and Inspections for the affordable housing, the housing is used as rental housing solely for income-eligible households at rent limited so that annual housing costs, including rent and basic utilities, do not exceed 30 percent of 80 percent of median income, and the housing unit and the structure in which it is located are maintained in decent and habitable condition, including basic appliances in the housing unit; or

b. The unit is sold for owner-occupancy to an income-eligible household at an initial sale price limited so that the annual housing costs, including mortgage principal and interest, real estate taxes, insurance, plus homeowner dues if applicable, are not expected to exceed 35 percent of median income, according to a calculation based on reasonable assumptions and approved by the Director of Housing, and the unit is subject to a recorded instrument satisfactory to the Director of Housing with a term extending until 50 years after the issuance of a final certificate of occupancy by the Department of ((~~Planning and Development~~)) Construction and Inspections for the structure using the bonus floor area for which that affordable housing is provided, providing for sales prices on any resale consistent with affordability on the same basis as the initial sale, allowing resales only to income-eligible households, and requiring that upon any resale, the housing unit be in decent and habitable condition, including adequate basic appliances in the housing unit.

3. Location, size, and other requirements. Affordable housing may be provided within the area

defined on Map A for 23.49.180 where additional height is permitted. Alternatively, affordable housing may be provided on one or more different lots within South Downtown, subject to approval by the Director of Housing under the criteria in this subsection 23.49.181.E and to the conditions in subsection 23.49.181.B.2. Approval requires a determination by the Director of Housing that the affordable housing will (a) provide a public benefit; and (b) be more affordable than market rents or sale prices, as applicable, for housing in South Downtown. The affordable housing shall be provided in a range of unit sizes consistent with RCW 36.70A.540 and comply with all requirements of RCW 36.70A.540.

4. Time of completion. Unless affordable housing is to be provided on a lot other than that of the project using the bonus and the Director of Housing has made all approvals described in subsections 23.49.181.B.2 and 23.49.181.E.3, the affordable housing shall be completed and ready for occupancy at or before the time when a certificate of occupancy is issued for any bonus floor area that is based on the affordable housing and as a condition to any right of the applicant to such a certificate of occupancy.

5. No subsidies for affordable housing; exceptions ((-))

a. In general, and except as may be otherwise required by applicable federal or state law, no bonus floor area may be earned by providing affordable housing if:

1) Any person is receiving or will receive with respect to the housing any charitable contributions or public subsidies for housing development or operation, including, but not limited to, tax exempt bond financing, low-income housing tax credits, federal loans or grants, City of Seattle housing loans or grants, county housing funds, and State of Washington housing funds; or

2) The housing is or would be, independent of the requirements for the bonus floor area, subject to any restrictions on the income of occupants, rents or sale prices.

b. As exceptions to the general rule in subsection 23.49.181.E.5.a:

1) All affordable housing provided as a condition to bonus floor area within the area defined on Map A for 23.49.180 where additional height is permitted may consist wholly or in part of the

same units used to satisfy terms under which the lot or a portion thereof was transferred by a public body, and any units of affordable housing provided as a condition to bonus floor area on a lot outside the area defined on Map A for 23.49.180 where additional height is permitted, may consist wholly or in part of the same units used to satisfy terms under which the lot or a portion thereof was transferred by a public body;

2) The improvements on the lot may qualify for, and affordable housing provided as a condition to bonus floor area may consist wholly or in part of the same units used to satisfy conditions of, property tax exemptions pursuant to Chapter 5.73; and

3) The prohibition on public subsidies for affordable housing does not include Internal Revenue Code Section 45D, New Markets Tax Credits.

c. The Director of Housing may require, as a condition of any bonus floor area, that the owner of the lot upon which the affordable housing is located agree not to seek or accept any subsidies, other than as described in subsection 23.49.181.E.5.b, related to housing. The Director of Housing may require that such agreement provide for the payment to the City, for deposit in an appropriate sub-fund or account, of the value of any subsidies received in excess of any amounts allowed by such agreement.

d. As an exception to the restriction on subsidies, the Director of Housing may allow the building or buildings in which the affordable housing is located to be financed in part with subsidies based on determinations that:

1) the total amount of affordable housing is at least 300 net residential square feet greater than the minimum amount of affordable housing that would be needed to satisfy the conditions of this Section 23.49.181;

2) the public benefit of the affordable housing net of those subsidies, as measured through an economic analysis, exceeds the public benefit from the minimum amount of affordable housing; and

3) the subsidies being allowed would not be sufficient to leverage private funds for production of the affordable housing, under restrictions required in this Section 23.49.181, without

additional City subsidy.

6. Agreements and approvals. The Director of Housing is authorized to accept and execute agreements and instruments to implement this Section 23.49.181. Except with respect to bonus floor area based on an amount of affordable housing for which a certification by the Director of Housing is delivered pursuant to subsection 23.49.181.B.3, issuance of the Master Use Permit, building permit, or certificate of occupancy for the project using the bonus floor area may be conditioned on satisfactory agreements and instruments signed by applicants and other owners. An applicant or prospective applicant may request, and the Director of Housing may provide, a determination that a linkage agreement or security arrangement, or both, would satisfy specific provisions of this Section 23.49.181, whether or not an applicant has proposed a specific development to use bonus floor area, but no such approval or agreement shall affect the determination, under Chapter 23.76 or other applicable law, of the date as of which any development regulations apply to a permit application.

7. Reports and fees. An applicant for bonus floor area shall pay a review fee and the housing owner shall provide annual reports to the Office of Housing. Fees shall be paid in accordance with the applicable fee ordinance item or Section 22.900G.015.

When an existing alley is used for access to parking spaces, open storage, or loading berths on a lot, and the alley does not meet the minimum width established in subsection 23.53.030.D ~~((of this section))~~, except as provided in subsection 23.53.030.G ~~((of this section))~~, a dedication equal to half the difference between the current alley right-of-way width and minimum right-of-way width established in subsection 23.53.030.D ~~((of this section))~~ shall be required; provided, however, that if right-of-way has been dedicated since 1982, other lots on the block shall not be required to dedicate more than that amount of right-of-way. a. A setback equal to half the distance between the current alley right-of-way width and the minimum right-of-way width established in subsection 23.53.030.D shall be required; provided, however, that if a setback has been provided under this provision, other lots on the block shall provide the same setback. The area of the setback may be used to meet any development standards, except that required parking may not be located in the setback. Underground and overhead structures which would not prevent the future widening

and improvement of the right-of-way may be permitted in the required setback by the Director of the Department of ~~((Planning and Development))~~ Construction and Inspections after consulting with the Director of Transportation.

b. All structures shall be designed to accommodate the grade of the future alley right-of-way.

c. A no-protest agreement to future street improvements shall be required, as authorized by ~~((RCW Chapter))~~ chapter 35.43 RCW. The agreement shall be recorded with the title to the property with the King County ~~((Department of Records and Elections))~~ Recorder's Office.

23.58A.014 Bonus residential floor area for affordable housing

* * *

B. Performance option

1. Amount of affordable housing. An applicant using the performance option shall provide affordable housing with a gross floor area at least equal to the greatest of

a. ~~((Fourteen))~~ 14 percent of the gross bonus residential floor area obtained through the performance option, except that an applicant may elect to provide affordable housing equal to ~~((8))~~ eight percent of the gross bonus residential floor area obtained through the performance option if the housing is

affordable to, and restricted to occupancy by, households with incomes no higher than 50 percent of median income as defined by Section 23.84A.025; or

- b. ((Three hundred)) 300 net residential square feet; or
- c. any minimum floor area specified in the provisions of the zone.

The percentage of gross bonus residential floor area obtained through the performance option to be provided as affordable housing may be reduced by the Council below 14 percent of the gross bonus residential floor area to no less than 12 percent of the gross bonus residential floor area as a Type V decision on an official land use map amendment or text amendment when the Council determines that the reduction is needed to accomplish Comprehensive Plan goals and policies or to reflect economic conditions of the area. Applicants may provide affordable housing as part of the development using extra floor area, or by providing or contributing to affordable housing at another location, subject to requirements in subsection 23.58A.014.B.8 and approval in writing by the Director of Housing prior to issuance of any permit after the first building permit for the development using the bonus residential floor area and before any permit for any construction activity other than excavation and shoring for the development using the bonus residential floor area is issued.

2. Agreement. The City and the affordable housing owner shall enter into an agreement specifying the affordable housing requirements under this subsection 23.58A.014.B. This agreement shall be executed and recorded prior to issuance and as a condition to issuance of any permit after the first building permit for the development using the bonus residential floor area and before any permit for any construction activity other than excavation and shoring for the development using the bonus residential floor area is issued.

3. Duration. Affordable housing shall serve only income-eligible households for a minimum period of 50 years from the later of the date when the agreement between the housing owner and the City is recorded, or the date when the affordable housing becomes available for occupancy as determined by the City.

4. Unit size and distribution. Affordable housing shall be provided in a range of sizes comparable to those units that are available to other residents. To the extent practicable, the number of

bedrooms in affordable units must be in the same proportion as the number of bedrooms in units within the entire development. The affordable units shall generally be distributed throughout the development and have substantially the same functionality as the other units in the development.

5. Additional standards for rental housing. For rental housing:

a. monthly rent, including basic utilities, shall not exceed 30 percent of the income limit for the unit, all as determined by the Director of Housing, for a minimum period of 50 years; and

b. the housing owner shall submit a report to the Office of Housing annually that documents how the affordable housing meets the terms of the recorded agreement.

6. Additional standards for owner-occupied housing. For owner-occupied housing, the initial sale price of the unit and subsequent sale prices upon resale of the unit during the 50-year affordability period shall be restricted to an amount determined by the Director of Housing to be affordable to an income-eligible household, such that the annualized housing payment for the unit does not exceed 35 percent of the annual income of an income-eligible household, adjusted by the household size expected to occupy the unit based on the number of bedrooms. The method to determine the sale price of the unit, subject to approval by the Director of Housing, includes mortgage principal and interest payments as calculated by prevailing interest rates, real estate taxes, insurance, homeowner association dues and any other housing cost deemed reasonable by the Director of Housing, and requirements relating to down-payment amount and homebuyer contributions. The unit shall be subject to recorded instruments satisfactory to the Director of Housing providing for sale prices on any resale consistent with the affordability restriction on the same basis for a minimum period of 50 years.

7. Additional standards for on-site performance. If the affordable housing is provided within the development using the bonus residential floor area, the affordable housing shall be completed and ready for occupancy at or before the time when a certificate of occupancy is issued for any other units in the development using the bonus residential floor area, and as a condition to any right of the applicant to such a certificate of occupancy.

8. Additional standards for off-site performance. If the affordable housing is not provided within the development using the bonus residential floor area, it may be provided off-site according to the following standards:

a. Development that uses bonus residential floor area within the South Lake Union Urban Center must provide off-site affordable housing within the South Lake Union Urban Center. Outside the South Lake Union Urban Center, the applicant shall demonstrate to the satisfaction of the Director of Housing that the off-site affordable housing is located within the same urban center or village as the development using the bonus residential floor area or within 1 mile of the development using the bonus residential floor area or that it is infeasible for the off-site affordable housing to be located within this area. If the affordable housing is not located within the same urban center or village as the development using the bonus residential floor area or within 1 mile of the development using the bonus residential floor area, it shall be:

1) located within Seattle city limits and within 0.5 mile of a light rail or bus rapid transit station; or

2) if the applicant demonstrates that providing the affordable housing in such a location is also infeasible, then the Director of Housing may allow the affordable housing to be provided within the Seattle city limits and within 0.25 mile of a bus or streetcar stop.

b. The applicant shall provide to the City an irrevocable letter of credit, or other sufficient security approved by the Director of Housing, prior to issuance and as a condition of issuance of any permit after the first building permit for the development using the bonus residential floor area and before any permit for any construction activity other than for excavation and shoring for the development is issued, unless completion of the affordable housing has already been documented to the satisfaction of the Director of Housing and the affordable housing is subject to recorded restrictions satisfactory to the Director of Housing. The letter of credit or other security shall be in an amount equal to the Payment Option amount calculated according to provisions in subsection 23.58A.014.C, plus an amount equal to interest on such payment. The

Director of Housing is authorized to adopt, by rule, terms and conditions of such security including the amount of security and rate of annual interest, conditions on which the City shall have a right to draw on the letter of credit or other security, and terms should the City become entitled to realize on any such security.

c. Any failure of the affordable housing to satisfy the requirements of this subsection 23.58A.014.B shall not affect the right to maintain or occupy the bonus residential floor area if the Director of Housing certifies to the Director that either:

1) the applicant has provided the City with a letter of credit or other sufficient security pursuant to subsection 23.58A.014.B.8.b; or

2) there have been recorded one or more agreements or instruments satisfactory to the Director of Housing providing for occupancy and affordability restrictions on affordable housing with the minimum floor area determined under this Section 23.58A.014, all affordable housing has been completed, and the affordable housing is on a different lot from the bonus residential floor area or is in one or more condominium units separate from the bonus residential floor area under condominium documents acceptable to the Director of Housing.

d. Unless and until the Director of Housing shall certify as set forth in subsection 23.58A.014.B.8.c, it shall be a continuing permit condition, whether or not expressly stated, for each development obtaining bonus residential floor area based on the provision of housing to which this Section 23.58A.014 applies, that the affordable housing shall be maintained in compliance with the terms of this Section 23.58A.014 and any applicable provisions of the zone, as documented to the satisfaction of the Director of Housing.

9. Limits on subsidies for affordable housing

a. Except as allowed in subsections 23.58A.014.B.9.b and 23.58A.014.B.9.c, no bonus residential floor area may be earned by providing affordable housing if:

1) Any person is receiving or will receive with respect to the affordable housing

any charitable contributions or public subsidies for development or operation, including, but not limited to, tax exempt bond financing, tax credits, federal loans or grants, City of Seattle housing loans or grants, county housing funds, and State of Washington housing funds; or

2) The housing is or would be, independent of the requirements for the bonus residential floor area and Chapter 5.73, subject to any restrictions on the income of occupants, rents or sale prices.

b. For the purpose of this subsection 23.58A.014.B.9, the qualification for and use of property tax exemptions pursuant to Chapter 5.73, or any other program implemented pursuant to ((RCW)) chapter 84.14 RCW, does not constitute a subsidy and any related conditions regarding incomes, rent or sale prices do not constitute restrictions.

c. As an exception to subsection 23.58A.014.B.9.a, the Director of Housing may allow the building or buildings in which the affordable housing is located to be financed in part with subsidies based on the determination that:

1) the total amount of affordable housing is at least 300 net residential square feet greater than the amount otherwise required through the performance option under this Section 23.58A.014;

2) the public benefit of the affordable housing, as measured through an economic analysis, exceeds the amount of the payment-in-lieu that would otherwise be paid by at least the value of any subsidies; and

3) the subsidies being allowed would not be sufficient to leverage private funds for production of the affordable housing, under restrictions as required for the performance option, without additional City subsidy in an amount greater than the payment-in-lieu amount that would otherwise be paid.

10. Fees shall be paid by the applicant and owner of affordable housing to the Department of ((Planning and Development)) Construction and Inspections and the Office of Housing as specified under Chapter 22.900G.

4. Unit size and distribution. Affordable housing shall be provided in a range of sizes comparable to those units that are available to other residents. To the extent practicable, the number of bedrooms in affordable units must be in the same proportion as the number of bedrooms in units within the entire development. The affordable units shall generally be distributed throughout the development and have substantially the same functionality as the other units in the development.

5. Additional standards for rental housing. For rental housing:

for the unit, all as determined by the Director of Housing, for a minimum period of 50 years; and

b. the housing owner shall submit a report to the Office of Housing annually that documents how the affordable housing meets the terms of the recorded agreement.

6. Additional standards for owner-occupied housing. For owner-occupied housing, the initial sale price of the unit and subsequent sale prices upon resale of the unit during the 50-year affordability period shall be restricted to an amount determined by the Director of Housing to be affordable to an income-eligible household, such that the annualized housing payment for the unit does not exceed 35 percent of the annual income of an income-eligible household, adjusted by the household size expected to occupy the unit based on the number of bedrooms. The unit shall be subject to recorded instruments satisfactory to the Director of Housing providing for sale prices on any resale consistent with the affordability restriction on the same basis for a minimum period of 50 years.

7. Additional standards for on-site performance. If the affordable housing is provided within the development using the bonus non-residential floor area, the affordable housing shall be completed and ready for occupancy at or before the time when a certificate of occupancy is issued for any chargeable floor area in the development using the bonus non-residential floor area, and as a condition to any right of the applicant to such a certificate of occupancy.

If the affordable housing is not located within the same urban center or village as the development using the bonus residential floor area or within one mile of the development using the bonus non-residential floor area, it shall be located either:

- 1) within the Seattle city limits and within 0.5 mile of a light rail or bus rapid transit station; or
- 2) if the applicant demonstrates that providing the affordable housing in such a location is also infeasible, then the Director of Housing may allow the affordable housing to be provided in the city within the Seattle city limits and within 0.25 mile of a bus or streetcar stop.

b. The applicant shall provide to the City an irrevocable letter of credit, or other sufficient security approved by the Director of Housing, prior to and as a condition of issuance of any permit after the first building permit for the development using the bonus nonresidential floor area and before any permit for construction activity other than excavation and shoring is issued, unless completion of the affordable housing has already been documented to the satisfaction of the Director of Housing and the affordable housing is subject to recorded restrictions satisfactory to the Director of Housing. The letter of credit or other security shall be in an amount equal to the payment option amount calculated according to provisions in subsection 23.58A.024.D, plus an amount equal to interest on such payment. The Director of Housing is authorized to adopt, by rule, terms and conditions of such security including the amount of security and rate of annual interest, conditions on which the City shall have a right to draw on the letter of credit or other security, and terms should the City become entitled to realize on any such security.

c. Any failure of the affordable housing to satisfy the requirements of this subsection

23.58A.024.B shall not affect the right to maintain or occupy the bonus nonresidential floor area if the Director of Housing certifies to the Director that either:

23.60A.203 Standards for floating on-water residences

* * *

D. Verification of a floating on-water residence

1. Each floating on-water residence shall be verified by the Director, and the owner shall pay a one-time fee to receive a verification number. The fee shall be established by the Director to recover the reasonable costs of the program for issuing a verification number. Owners of a floating on-water residence allowed pursuant to subsection 23.60A.203.B may apply to the Director for verification or may wait until the Director asks for verification information. If a floating on-water residence is not verified, the Director may require the owner to submit verification information and pay the required fee.
2. Verification shall constitute legal establishment of a floating on-water residence pursuant to the requirements of subsection 23.60A.203.B and the definition of floating on-water residence in Section 23.60A.912.
3. A house barge authorized under Section 23.60A.204 may submit verification and be regulated as a floating on-water residence rather than a house barge.
4. If an owner disputes the Director's denial of verification as a floating on-water residence, the owner may appeal the Director's determination to the hearing examiner, in conformance with the hearing examiner rules, within 30 days of date the Director's determination was mailed. The appeal shall be conducted de novo, and the City shall have the burden of showing by a preponderance of the evidence that the decision of the Director was correct. Nothing in this Section 23.60A.203 precludes the City from enforcing this code under Chapter 23.90 if there is no timely appeal to the hearing examiner or following a decision of the hearing examiner upholding the City's denial of floating on-water residence verification.
5. The owner shall display the verification number issued by the ~~((DPD))~~ Department of Construction and Inspections on the pier and landward side of the floating on-water residence in ~~((numbers))~~ numerals at least 3 inches high in a location legible from the pier, or on the side most commonly used for

access from the pier, or if public access to the pier is not available then on a side visible from the water.

6. Failure to verify a floating on-water residence or to correctly display a verification number is a violation of this Chapter 23.60A that is subject to the enforcement process in Chapter 23.90 and does not forfeit the owner's right to maintain a floating on-water residence.

7. Verification is transferable between owners but is not transferable to another floating on-water residence, except for a replaced floating on-water residence as provided in subsections 23.60A.203.C.1.f and 23.60A.203.C.1.g.

b. If an owner disputes the Director's denial of verification as a house barge under this Section 23.60A.204, the owner may appeal the Director's determination to the hearing examiner, in conformance with the hearing examiner rules, within 30 days of date the Director's determination was mailed. The appeal shall be conducted de novo, and the City shall have the burden of showing by a preponderance of the evidence that the decision of the Director was correct. Nothing in this Section 23.60A.204 precludes the City from enforcing this code under Chapter 23.90 if there is no timely appeal to the hearing examiner or following a decision of the hearing examiner upholding the City's denial of house barge verification.

c. The owner of a house barge that complies with the requirements of subsections 23.60A.204.B.1 and 23.60A.204.B.2 may choose to have the house barge verified and regulated as a floating on-water residence under Section 23.60A.203 instead of under this Section 23.60A.204.

d. The owner shall display the verification number issued by the ((DPD)) Department of Construction and Inspections on the pier and landward side of the vessel, in ((numbers)) numerals at least 3 inches high in a location legible from the pier, or on the side most commonly used for access from the pier, or if public access to the pier is not available then on a side visible from the water.

e. Failure to verify an authorized house barge or correctly display a verification number is a violation of this Chapter 23.60A that is subject to the enforcement process in Chapter 23.90 and does not forfeit the owner's right to maintain an authorized house barge.

4. A house barge verification number is transferable between owners but is not transferable to another house barge, except to a house barge that has been replaced as provided in subsection 23.60A.204.C.

5. House barges must be moored at a recreational marina, as defined by Section 23.60A.926.

b. If the Director denies verification as a vessel containing a dwelling unit under this subsection 23.60A.214.D and an owner disputes the Director's denial of verification, the owner may appeal the Director's determination to the hearing examiner, in conformance with the hearing examiner rules, within 30 days of the date the Director's determination was mailed. b. A copy of the Department of Neighborhoods Director's decision shall be sent to the Director and mailed to the owner and the applicant at the addresses provided in the application. 3. The applicant for the certificate of approval, not involving approval of preliminary and subsequent design phases also may elect to have the appeal proceed immediately rather than be postponed for consolidation with appeals of related permit applications or with a predecision hearing, if the applicant agrees in writing that the time period for review of those permits or approvals is suspended until the Hearing Examiner issues a decision on the appeal of the certificate of approval.

4. The Hearing Examiner shall hear the appeal de novo in accordance with the standards and procedures established for Hearing Examiner appeals by Chapter 3.02. B. In addition, certain DNS's require a ((fourteen-))14((+)) day period prior to agency action (((Section)) subsection 25.05.340(())B), and FEIS's require a seven (((7))) day period prior to agency action (((Section)) subsection 25.05.460(())E).

D. This section does not preclude developing plans or designs, issuing requests for proposals (RFPs), securing options, or performing other work necessary to develop an application for a proposal, as long as such activities are consistent with subsection 25.05.070.A.

E. No final authorization of any permit shall be granted until expiration of the time period for filing an appeal in accordance with Section 25.05.680, or if an appeal is filed, until the fifth day following termination of the appeal. 4. Each of the registers shall be kept current and maintained at the SEPA Public Information Center for public inspection. In addition, the registers, or updates thereof containing new entries added since the last mailing, shall be mailed once every week to those organizations and individuals who make written request unless no new entries are made on the register, in which event a copy of the register or update shall be mailed when a new entry is added. In addition, notice of a DNS and notice of the right to appeal a DNS in accordance with Section 25.05.680, shall be submitted in a timely manner to at least one ~~((4))~~ community newspaper with distribution in the area impacted by the proposal for which the DNS was adopted, and shall be posted in a conspicuous place in the

E. Publication in the SEPA Register. Section 171. Section 25.05.680 of the Seattle Municipal Code, last amended by Ordinance 123913, is amended as follows:

25.05.680 Appeals

Appeal provisions in SEPA are found in RCW 43.21C.060, 43.21C.075, 43.21C.080, 43.21C.420, and WAC 197-11-680. The following provisions attempt to construe and interpret the statutory and administrative rule provisions. In the event a court determines that code provisions are inconsistent with statutory provisions or administrative rule, or with the framework and policy of SEPA, the statute or rule will control. Persons considering either administrative or judicial appeal of any decision that involves SEPA are advised to read the statutory and rule sections cited above.

A. Master Use Permits and Council Land Use Decisions ~~((:))~~

1. For proposals requiring a Master Use Permit under ~~((SMC))~~ Chapter 23.76, Procedures for Master Use Permits and Council Land Use Decisions, for which the Department of Construction and ~~((land use))~~ Inspections or a non-City agency is the lead agency, SEPA appeal procedures shall be as provided in Chapter 23.76.

2. For proposals requiring Master Use Permits or Council Land Use Decisions for which a City department other than the Department of Construction and ~~((land use))~~ Inspections is lead agency and is a project proponent or is funding a project and where the City department chooses to conduct SEPA review prior to submitting an application for the Master Use Permit or Council Land Use Decision:

a. The following agency environmental determinations shall be subject to appeal to the Hearing Examiner by any interested person as provided in this subsection:

~~((i.))~~ 1) Determination of Nonsignificance (DNS);

~~((ii.))~~ 2) Adequacy of the Final EIS as filed in the SEPA Public Information

Center.

b. An appeal shall be commenced by filing of a notice of appeal with the Office of the Hearing Examiner no later than ~~((five-))5((:00))~~ p.m. the fourteenth day following the filing of the decision in the SEPA Public Information Center or publication of the decision in the City official newspaper, whichever is later; provided that when a ~~((fourteen-))14((:))~~ day DNS comment period is required pursuant to this ~~((chapter))~~ Chapter 25.05, appeals may be filed no later than the twenty-first day following such filing or publication. The appeal notice shall set forth in a clear and concise manner the alleged errors in the decision. Upon timely notice of appeal the Hearing Examiner shall set a date for hearing and send notice to the parties. Filing fees for appeals to the Hearing Examiner are established in Section 3.02.125.

B. Decisions Not Related to Master Use Permits or Council Land Use Decisions ~~((:))~~

1. The following agency decisions on proposals not requiring a Master Use Permit shall be subject to appeal to the Hearing Examiner by any interested person as provided in this subsection:

a. Determination of Nonsignificance.

b. Adequacy of the final EIS as filed in the SEPA Public Information Center. Notice of all decisions described in this subsection shall be filed promptly by the responsible official in the City's SEPA Public Information Center.

2. An appeal shall be commenced by the filing of a notice of appeal with the office of the Hearing Examiner no later than the fifteenth day following the filing of the decision in the SEPA Public Information Center or publication of the decision in the City official newspaper, whichever is later; provided that when a ~~((fourteen-))14((+))~~ day DNS comment period is required pursuant to this ~~((chapter))~~ Chapter 25.05, appeals may be filed no later than the twenty-first day following such filing or publication. The appeal notice shall set forth in a clear and concise manner the alleged errors in the decision. Upon timely notice of appeal the Hearing Examiner shall set a date for hearing and send notice to the parties. Filing fees for appeals to the Hearing Examiner are established in Section 3.02.125.

3. Appeals shall be considered de novo and limited to the issues cited in the notice of appeal. The determination appealed from shall be accorded substantial weight and the burden of establishing the contrary shall be upon the appealing party. The Hearing Examiner shall have authority to affirm or reverse the administrative decisions below, to remand cases to the appropriate department with directions for further proceedings, and to grant other appropriate relief in the circumstances. Within ~~((fifteen-))15((+))~~ days after the hearing, the Hearing Examiner shall file and transmit to the parties written findings of fact, conclusions of law, and a decision.

4. The Hearing Examiner is authorized to promulgate rules and procedures to implement the provisions of this ~~((section))~~ Section 25.05. The rules shall be promulgated pursuant to Chapter 3.02 ~~((of this code))~~.

5. If the agency has made a decision on a proposed action, the Hearing Examiner shall consolidate any allowed appeals of procedural and substantive determinations under SEPA with any hearing or

appeal on the underlying City action. For example, an appeal of the adequacy of an EIS must be consolidated with a hearing or appeal on the agency's decision or recommendation on the proposed action, if both proceedings are allowed by ordinance.

C. Judicial Appeals ((:))

1. SEPA authorizes judicial appeals of both procedural and substantive compliance with SEPA.

2. When SEPA applies to a decision, any judicial appeal of that decision potentially involves both those issues pertaining to SEPA (SEPA issues) and those which do not (non-SEPA issues). If there is a time limit established by statute or ordinance for appealing the underlying governmental action, then appeals (or portions thereof) raising SEPA issues must be filed within such time period. If there is no time period for appealing the underlying governmental action, and a notice of action under RCW 43.21C.080 is used, appeals must be commenced within the time period specified by RCW 43.21C.080.

3. If the proposal requires more than one (((H))) governmental decision that will be supported by the same SEPA documents, then RCW 43.21C.080 still only allows one (((H))) judicial appeal of procedural compliance with SEPA, which must be commenced within the applicable time to appeal the first governmental decision.

4. If there is no time limit established by statute or ordinance for appeal, and the notice of action provisions are not used, then SEPA provides no time limit for judicial appeals. Appeal times may still be limited, however, by general statutes of limitation or the common law.

5. For the purposes of this subsection, "a time limit established by statute or ordinance" does not include time limits established by the general statutes of limitation in ((Chapter)) chapter 4.16 RCW.

D. RCW 43.21C.420 bars certain SEPA appeals if the City has elected to adopt optional elements of the City's Comprehensive Plan or development regulations pursuant to RCW 43.21C.420. Unless an ordinance enacting or amending the Comprehensive Plan or development regulations expressly recites that it is being adopted pursuant to the authority of RCW 43.21C.420, RCW 43.21C.420 does not affect the availability of

appeals. If RCW 43.21C.420 applies to a non-project EIS as described in RCW 43.21C.420, then unless the City Council by ordinance establishes a different time frame for submitting a complete application for purposes of RCW 43.21C.420 (5) with respect to that EIS, the time frame is 24 hours following the date of issuance of the final EIS.

E. Official Notice of the Date and Place for Commencing a Judicial Appeal ((-))

1. Official notice of the date and place for commencing an appeal must be given if there is a time limit established by statute or ordinance for commencing an appeal of the underlying governmental action. The notice shall include the time limit for commencing an appeal, the statute or ordinance establishing the time limit and where an appeal may be filed.

2. Notice is given by:

a. Delivery of written notice to the applicant, all parties to any administrative appeal, and all persons who have requested notice of decisions with respect to the particular proposal in question; and

b. Following the agency's normal methods of notice for the type of governmental action taken.

3. Written notice containing the information required by subsection 25.05.680.E.1 ((of this section)) may be appended to the permit, decision documents, or SEPA compliance documents or may be printed separately.

4. Official notices required by this subparagraph shall not be given prior to final agency action.

A copy of the maps shall be maintained in the SEPA Public Information Center.

The maps shall be used and amended as follows:

1. The maps are advisory and used by the Director of (~~((DPD))~~ the Department of Construction and Inspections to provide guidance in determining applicability of SEPA to a property. If the Director of (~~((DPD))~~ the Department of Construction and Inspections determines that a proposal is located in an area that has been incorrectly mapped as an environmentally critical area, then the Director shall apply SEPA in the same manner as would be applied in areas that are not environmentally critical.

2. The boundaries and contents of these designated environmentally critical areas maps may be amended by the Director following the environmentally critical areas maps amendment process as set forth in subsection (~~((C of Section))~~ 25.09.020.C of the regulations for environmentally critical areas.
