Section 14. Section 22.900D.150 of the Seattle Municipal Code, last amended by Ordinance 124919, is amended as follows:

### **22.900D.150 Electrical permit fees**

#### **A. Permit Fees When Plans and Specifications Are Reviewed**

1. Permit fees for electrical installations for which plans and specifications are reviewed by the Director shall be charged on a valuation basis as set forth in Table D-14 for 22.900D.150.

((2. If approved by the Director to submit plans for advance plan examination, 50 percent of

~~the estimated permit fee shall be collected at the time of the permit application and plan submittal.~~

3-)) 2. The Director shall determine the value of the construction, which is the value to the vendee of all labor, material, fittings, apparatus, and the like, whether actually paid for or not, supplied by the permit holder and/or installed by the permit holder as a part of, or in connection with, a complete electrical system, but that does not include the cost of utilizing equipment connected to the electrical system. The Director may require verification of the stated cost of any work subject to these fees.

If the cost of any proposed installation is unknown, an estimate of the cost shall be made and used to compute the permit fee.

The permit fee specified in Table D-14 for 22.900D.150 is due at the time of application. Upon completion of the installation, a fee adjustment may be made in favor of The City of Seattle or the permit holder, if requested by either party.

((4-)) 3. If a duplicate set of approved plans is submitted for examination and approval at any time after a permit has been issued on the original approved plans, hourly charges for Departmental work shall be assessed.

B. Permit Fees If Plans and Specifications Are Not Required

1. Permit fees for electrical installations, additions, and alterations for which plans and specifications are not required shall be as set forth in Table D-15 for 22.900D.150. The permit fee specified in Table D-15 for 22.900D.150 is due at the time of application.

2. Permit fees for temporary electrical installations shall be charged for services only at the rate set forth in Table D-15 for 22.900D.150.

3. If the base fee and SDCI hourly rate are used to calculate the fee in Table D-15 for 22.900D.150, use Section 22.900B.010 to determine the permit fee.

4. Permit exemptions in the Electrical Code apply to the fees in 22.900D.150.

C. Phased Permits

1. If an electrical project is proposed to be installed in phases and the Director determines that separate electrical permits may be issued for portions of the project, the permit fee for the initial permits shall be based on the estimated value of the work under that permit according to Table D-14 for 22.900D.150. The fee for the final permit shall be the fee based on the total value of the electrical installations minus the sum of the values of the initial permits.

2. If an applicant requests that an application for a permit be divided into separate applications subsequent to the initial submittal of a unified application, an additional fee shall be charged at the rate of one times the base fee for each separate application which results from the division.

**D. Renewals and Reestablishment**

The fee to renew or reestablish an electrical permit is 1/2 times the base fee.
