CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the Building and Construction Codes, Subtitle VI, Fire Code; adding, deleting, and revising various Seattle Fire Department permit, certificate, inspection, and plan review fees and related provisions; and amending Sections 15.35.010, 22.602.010, 22.602.045, 22.602.050, 22.602.070, and 22.602.090 of the Seattle Municipal Code.

WHEREAS, Seattle Fire Department permit, inspection, certification, and plan review fees were last modified on January 1, 2017, as authorized by Ordinance 125189; and

WHEREAS, amendments to the Seattle Fire Code from time to time require the introduction of new Seattle

Fire Department permits, the elimination of other permits, and modifications to permit titles and administration, to ensure consistency between the permit structure and Seattle Fire Code regulations; and

WHEREAS, to benefit customers, The City of Seattle wishes to more closely align certain Seattle Fire Department certifications with relevant State of Washington certifications; and

WHEREAS, the City wishes to maintain or improve cost recovery for the provision of fire prevention services related to specific permitted activities, inspections, plan reviews, and certifications; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Subsection 22.602.010 of the Seattle Municipal Code, last amended by Ordinance 118391, is amended as follows:

22.602.010 Title and purpose((;))

A. Title. ~~((The ordinance codified in this chapter))~~ This Chapter 22.602 shall be known as the "Fire Code Permit and ~~((Inspection))~~ Fee Ordinance."

B. Purpose. It is the purpose of this ~~((chapter))~~ Subtitle VI to prescribe fees in accordance with the regulatory authority vested in the Seattle Fire Department and for services provided, as follows:

1. Fees for permits including, but not limited to, permits to store, handle, or use hazardous materials or conduct hazardous processes;
2. Fees for second acceptance tests of fire protection equipment, systems, or devices as required by the Seattle Fire Code;
3. Fees for inspections or plan review by the Fire Prevention Division of the Seattle Fire Department, outside regular business hours;
4. Fees for the examination and/or review of plans;
5. Fees for filing of code alternates/variances resulting from other than plan review;

6. Fees for the administration of examinations and certificates issued as prescribed in the Seattle Fire Code;

~~((7. Fees for subsequent inspections required to gain compliance with Seattle Fire Code requirements after completion of one (1) initial permit inspection and two (2) reinspections;))~~

~~7((8)). Fees for subsequent inspections by the Fire Prevention Division of the Seattle Fire Department required to gain compliance with Seattle Fire Code requirements; ((and))~~

~~8((9)). Fees for training provided by the Seattle Fire Department ((-)) ; and~~

9. Fees for filing testing documentation for fire protection systems and emergency responder radio coverage systems.

Section 2. Section 22.602.045 of the Seattle Municipal Code, last amended by Ordinance 125189, is amended as follows:

22.602.045 Fees

A. The fees for the following non-hazardous material permits are established in Schedule A. See Table A for 22.602.045.

^a **Time Charge.** Where a time charge is indicated, a fee shall be charged equal to actual labor costs plus administrative overhead costs for field inspection and/or review exceeding one hour. When requested or when necessary for Fire Prevention Division staff to conduct inspections for the purpose of Seattle Fire Code compliance for any of the above Schedule A permits outside of regular business hours (Monday through Friday, 8 a.m. to 4:30 p.m.), a time charge will be added to the above permit cost. The time charge, when applicable, will be equal to the actual labor cost, including administrative overhead costs and other services.

^b **Late Fee.** Payment for Schedule A permit renewals, where allowed, which is received more than 30 calendar days but fewer than 91 calendar days past the permit expiration date shall be equal to 1.25 times the renewal fee. The renewal permit will be valid for only one year from the expiration date of the prior permit. Permits for which no renewal payment has been received within 90 calendar days following the permit expiration date will be cancelled. Permits that have been cancelled may be reinstated, effective from the expiration date, if the permit holder pays a late penalty of 1.5 times the fee for an original permit within 180 days of the expiration date. Thereafter, any person whose permit has been cancelled shall not be allowed to reinstate the cancelled permit, but shall be required to submit a new permit application and pay a late penalty of 1.5 times the fee for an original permit.

B. The fees for the following special event permits are established in Schedule B. See Table B for 22.602.045.

^a **Late Fee Applied.** Schedule B permit applications for permits 1102, 2500 FM, 2511, 8020, 8206, 8207, and 8208 that are received by the Seattle Fire Department fewer than ten calendar days prior to the event, not counting the day of the event for which they apply, shall be assessed a late fee in addition to the permit fee ((and any applicable time charge)). The late fee shall be equal to 50 percent of the original permit fee.

Applications received three or fewer business days prior to the event may not be processed and the permit may not be issued. Payment for Schedule B permit renewals, where allowed, which is received more than 30 calendar days but fewer than 91 calendar days past the permit expiration date shall be equal to 1.25 times the renewal fee. The renewal permit will be valid for only one year from the expiration date of the prior permit. Permits for which no renewal payment has been received within 90 calendar days following the permit expiration date will be cancelled. Permits that have been cancelled may be reinstated, effective from the expiration date, if the permit holder pays a late penalty of 1.5 times the fee for an original permit within 180 days of the expiration date. Thereafter, any person whose permit has been cancelled shall not be allowed to reinstate the cancelled permit, but shall be required to submit a new permit application and pay a late penalty of 1.5 times the fee for an original permit. Note: new applications for permits 8206-FVH and 2500-LPG are not subject to late fees; the renewal process for these annual permits does include late fees and if permits are not renewed timely, late fees related to the renewal will be applied as described above in this footnote a. ^b **Late Fee Applied.** Applications for temporary, non-renewable Schedule B permits numbered from 2503 to 2505.4, 3201, 3201-CTY, 3201-SFD, and from 7801.1 to 7802, that are received by the Seattle Fire Department fewer than 30 calendar days prior to the event, not counting the day of the event for which they apply, shall be assessed a late fee in addition to the permit fee and any applicable time charge. The late fee shall be equal to 50 percent of the original permit fee. Applications received three or fewer business days prior to the event may not be processed and the permit may not be issued. ^c **Fireworks Permits.** An application for a fireworks permit shall be made in writing to the fire code official at least 30 calendar days in advance of the display. At the time the permit application is submitted, the fire code official shall be consulted regarding requirements for standby fire apparatus.□

C. The fees for the following special hazards permits are established in Schedule C. See Table C for 22.602.045.

Special Hazards Permits

Fees for special hazards permits are established in Schedule C (See Table C for 22.602.045). In some cases these fees are based on the quantity of hazardous material stored and/or handled at the site and the relative risk posed by each material.

1. Definitions:

a. “Quantity Range Number,” as established in the Quantity Range Table below, is a number between 1 and 2 that is assigned to a hazard category based upon the amount of hazardous material located at the site.

QUANTITY RANGE TABLE

QUANTITY RANGE NUMBER	SOLIDS (Pounds)	LIQUIDS (Gallons)	GASES (Cubic Feet)
1	0-550	0-55	0-1,000
1.25	>550-5,500	>55-550	>1,000-5,000
1.5	>5,500-27,500	>550-2,750	>5,000-50,000
1.75	>27,500-55,000	>2,750-5,500	>50,000-100,000
2	>55,000	>5,500	>100,000

b. “Assigned Risk Factor,” as established below, is a number between 1 and 1.5 assigned to each hazard class and category of hazardous material indicating the relative hazard posed by materials in that hazard category and the potential nature of controls required by the Fire Code.

Hazard Class	Assigned Risk Factor	Hazard Class	Assigned Risk Factor
Aerosol products	1.3	Organic peroxides	
Cellulose nitrate	1.3	Unclassified	1.5
Combustible fiber	1.2	Class I	1.4
Combustible liquids		Class II	1.3
Class II	1.2	Class III	1.2
Class III-A	1.1	Class IV	1.0
Class III-B	1.0		
Compressed gases		Oxidizers	

Highly toxic	1.5	Class 4	1.5
Pyrophoric	1.4	Class 3	1.4
Flammable	1.4	Class 2	1.2
Unstable	1.4	Class 1	1.1
Oxidizing	1.4	Pyrophoric liquids and solids	1.3
Toxic	1.3	Toxic liquids and solids	1.2
Corrosive	1.3	Unstable (reactive) liquids and solids	
Corrosive Liquids and Solids	1.1	Class 4	1.5
Cryogenic Fluids	1.3	Class 3	1.4
Explosives	1.5	Class 2	1.3
Fireworks	1.4	Class 1	1.0
Flammable liquids, Class I	1.4	Water-reactive materials	
Flammable solids	1.3	Class 3	1.5
Highly toxic liquids and solids	1.5	Class 2	1.3
Magnesium	1.3	Class 1	1.0

c. “Fixed permit cost” is the minimum cost for the Seattle Fire Department to issue a hazardous material permit.

The fixed permit cost is ((~~\$255~~)) \$288.

d. “Base permit fee” is determined by multiplying the sum of the products of the quantity range number and assigned risk factor for each hazard class by the fixed permit cost and is represented by the following equation:

$$\text{Base permit fee} = [\Sigma (Q_1)(R_1) + (Q_2)(R_2) \dots] [F]$$

Where: Q = The quantity range number.

R = The assigned risk factor.

F = The fixed permit cost of ((~~\$255~~)) \$288.

When an individual material has multiple hazards, only the hazard presented by the hazard class that has been assigned the highest risk factor shall be considered in the fee calculation.

The fee is calculated to be half of the annual permit fee of the annual permit that will be issued to the facility once compliance is achieved. This permit cannot be renewed but additional 1070 permits can be issued as needed to cover the entire compliance plan period.³ This permit is valid for 24 months and is renewed on a biannual basis. ~~((Schedule C flat-fee permits which had been grandfathered at below market rate permit fees under prior fee schedules will increase 25 percent annually until such time as they reach parity with renewal rates identified in the current Schedule C.))~~ □

¹ Fees apply to non-pre-approved applicants.

² Fees for pre-approved applicants equal 1/2 of the fee identified in Table C-4915 for 22.602.045.

³ Any pre-approved applicant found to be in violation of permit conditions may be removed from the pre-approved applicant list and subject to non-pre-approved applicant fees and conditions.

⁴ Each applicant who receives a minimum of six permits (Code 4915) during a six-month period and is found to be in compliance with all permit conditions will be considered ~~((a pre-approved applicant))~~ for pre-approved status upon request after the six-month period. Applicants who obtain fewer than six permits (Code 4915) during a six-month period will be considered ~~((pre-approved applicants))~~ for pre-approved status only after six permits have been issued and no permit violations are noted.

L. Fees for certification examinations are established in Schedule L. Each examination fee listed under Schedule L includes one test and one opportunity to retake the test under the following “re-test” conditions: the person taking the examination does not pass the examination the first time and the “re-test” occurs within 90

calendar days of the original test. Upon successfully passing a certification examination, and upon providing evidence of current State of Washington certification if required by State law for that certification type, the person who took the test will be certified by The City of Seattle for that certification type for one year. The certification may be renewed for two subsequent years at no cost to the licensee. The licensee will, however, need to demonstrate continued competence and continue to comply with State regulations where applicable as a condition of certification renewal. The renewal of the license will be denied if the Seattle Fire Department becomes informed and verifies that the licensee no longer meets the qualifications for the license. Testing is required once every three years.
