

WHEREAS, in March 2019, Resolution 31870 stated that the City should “[d]evelop a consistent and thorough monitoring and reporting process regarding housing production and loss of households at 30 to 120 percent AMI, including change of tenure and net change in affordable units on a particular development site, and deducting housing units funded by OH [Seattle Office of Housing]”; and

WHEREAS, the July 2019 report prepared for the City’s Office of Planning and Community Development by the Urban Displacement Project, University of California, Berkeley, titled *Heightened Displacement Risk Indicators for the City of Seattle’s Equitable Development Monitoring Program*, states that “a more granular and localized” data set is needed to “best meet the City’s racial equity goals”; and

WHEREAS, in its September 29, 2021 response to Statement of Legislative Intent OPCD-004-A-001, (“Report by OPCD, OH, and SDCI on displacement monitoring gaps”) the City determined that there are currently no sources that provide rental information data with a high level of granularity; and

WHEREAS, the Council intends that the submission of information regarding the number and size of residential rental units and rental amounts to a research university contracted to provide a report to the City will help to fill the identified data gaps and better allow the City to make policy to decrease displacement risk and gentrification and inform updates to the City’s Comprehensive Plan update; and

WHEREAS, the Council intends for the Office of Planning and Community Development or other executive department to enter into a contract with a research university to provide the City with reports analyzing this data and continue to hold such a contract for as long as the City requires the designated information be provided to the designated research university; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:
