3. Multiunit residential consolidated curbside/alley garbage collection service. Multiunit residences with a single combined utility account may consolidate garbage into fewer service units than the number of dwelling units on the premises. Upon request, multiunit residences with multiple combined utility accounts, such as townhouse complexes, may consolidate garbage service if such premises share a single water irrigation meter for which a homeowner's association is financially responsible and agrees to be financially responsible for the

combined utility account, or as determined by the General Manager/CEO. In the event of consolidation, the total consolidated service volume divided by the number of dwelling units must be at least equal to the minimum equivalent service volume per unit, as determined by the General Manager/CEO.

4. Minimum charge, no pickup service. A charge per month or portion thereof of \$6.85 shall be billed directly to the owner, homeowner association, or occupant of any residence not subscribing to pickup service to cover landfill closure costs, billing, collection, Low Income Rate Assistance, and hazardous waste costs. To be eligible for the minimum charge (zero container rate), a customer may not generate any garbage or rubbish for collection or disposal. With occupied premises, the customer must demonstrate a consistent and effective practice of selective purchasing to minimize refuse, of recycling materials whenever practical, and of composting any yard waste generated on the premises, and the customer must have qualified for the rate on or before December 31, 1988. A customer is not eligible for the zero-container rate by hauling the customer's garbage and rubbish to a transfer station or disposal site, or by disposal in another customer's containers or by the use of prepaid stickers. Vacant dwelling units in multiunit residences where each dwelling unit receives a separate combined utility bill qualify for the minimum charge where the conditions of this subsection 21.40.050.A.4 are met. Vacant dwelling units in multiunit residences with a single combined utility account do not qualify for the minimum charge.

5. Extra bundles. A customer may place an extra bundle with its container for regular pickup. The charge will be billed directly to the owner or occupant, unless a prepaid sticker is used. A prepaid sticker authorizes pickup of the bundle when placed with the customer's container. The sticker must be affixed to the bundle in order for the bundle to be picked up by the collector, and the customer not to be billed. The following charges will apply to each extra bundle:

~~((Effective through March 31, 2020: \$12.00 per bundle~~

~~Effective April 1, 2020: \$12.35 per bundle~~

~~Effective April 1, 2021: \$12.70 per bundle~~

Each pickup of up to three electronic products set out at the curb shall be billed at \$20. Each pickup of compact fluorescent lightbulbs (CFLs) or household batteries shall be billed at \$5. The General Manager/CEO may establish additional conditions for electronic products eligible for pickup.

8. Curbside/alley compostable waste. A collection charge for weekly service will be billed monthly directly to the owner, homeowner association, or occupant, according to the following schedule:

To qualify for the home composting exemption, customers must actively compost all vegetative food waste on-site, agree to comply with public and environmental health guidelines and allow Seattle Public Utilities representatives to evaluate their composting methods.

10. New/changed account: a charge of \$10 for the establishment of a new account or for each change in an existing account. This charge shall apply when the owner or property manager of any single-family residence or multifamily structure (duplex, triplex, fourplex, or structure with five or more units) establishes a new account or requests any change in his/her account requiring a change in account number or customer number. The new/changed account charge is not applicable to customers qualified for Low Income Rate Assistance.

11. Physical disability exemption. An exemption will be provided to qualified residents to allow for backyard collection at curbside rates when the resident is physically unable to take garbage and rubbish containers to the curb. Qualifying criteria shall include, but are not limited to, the resident's physical condition, qualification for backyard service in other City programs, a physician's recommendation, the presence of other physically capable persons in the household, special topography, and other unique property conditions, taking into account the contractors' ability to provide different combinations of container sizes to make curbside pickup feasible.

collections of all nondetachable containers (cans), bundles, or bundles of yard waste:

General Manager/CEO, and collection of garbage and rubbish from such premises shall be made at such frequency as is necessary as determined by the General Manager/CEO of Seattle Public Utilities, but in no event less than once each week. E. The General Manager/CEO of Seattle Public Utilities may adjust the service level to a single-family residence to match the garbage and rubbish actually collected from the premises, or, for multifamily structures, to match the amount of garbage and rubbish reasonably anticipated from the dwelling units on the premises, and the customer will be responsible for the appropriate charges for the adjusted service level in accordance with this Section 21.40.050.

cy = number of cubic yards picked up at each collection

The following trip and volume rates will apply for uncompacted or compacted material:
