CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to land use and zoning; establishing the Connected Community Development Partnership Bonus Pilot Program; and adding new Sections 23.40.090 through 23.40.097 to the Seattle Municipal Code.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. The City Council finds and declares:

A. In April 2021 the City published *Market Rate Housing Needs and Supply Analysis*, which identified that:

1. Approximately 46,000 Seattle households are cost burdened, meaning that those households

spend more than half of their incomes on rent;

2. Housing supply is not keeping pace with demand;

3. Housing costs are increasing more quickly than income;

4. Seattle has insufficient zoned capacity for “missing middle” ownership housing;

5. The rental housing market has a shortage of housing affordable and available to lower income households;

6. Approximately 34,000 lower-wage workers commute more than 25 miles to Seattle demonstrating a latent demand for affordable workforce housing; and

7. As Seattle’s share of higher income households grows, development of housing for those households increases economic and physical displacement of lower income residents.

B. With the passage of Chapter 332, Laws of 2023, Seattle must modify current land use regulations to accommodate a range of middle housing types. The City is currently in the process of environmental review for the next major update to the Comprehensive Plan, which must meet the requirements of Chapter 332, Laws of 2023. To inform future implementation of the Comprehensive Plan update, the City has an interest in exploring development pilots to demonstrate development types and partnerships that leverage community assets to provide equitable development that will not contribute to economic and physical displacement of current residents.

C. Implementing this pilot program is implementing an affordable housing incentive program under RCW 36.70A.540. The pilot program applies in most zones where residential development is allowed except some highrise zones, historic districts, and industrial areas that allow residential uses. Additional development capacity is available for development utilizing the pilot program in areas with historical racially restrictive covenants or census tracts identified by the Office of Housing for the community preference policy. Increased residential development in the area where the pilot program applies, in addition to supporting housing affordability, will increase housing choices and support development of housing and amenities, consistent with

the Comprehensive Plan. The pilot program substantially increases residential development capacity for qualifying development in the areas where it applies. And, the increased residential development capacity provided in the areas where the pilot program applies can be achieved, subject to consideration of other regulatory controls on development.

D. After a public hearing, the Council has determined that the 80 percent of Area Median Income (AMI) income level for rental housing and 100 percent of AMI income level for owned housing set forth in this ordinance will allow for cross-subsidy for units with deeper affordability and is needed to address local housing market conditions consistent with RCW 36.70A.540(2)(b)(iii).

Section 2. New Sections 23.40.090 through 23.40.097 are added to the Seattle Municipal Code as follows:

23.40.090 Connected Community Development Partnership Bonus Pilot Program - Purpose

Sections 23.40.091 through 23.40.097 establish the requirements for the Connected Community Development Partnership Bonus Pilot Program. The purpose of the program is to demonstrate the social benefits of equitable development including community-serving uses and housing available to a spectrum of household incomes by setting onsite affordability standards and incentives for development of housing and equitable development uses through partnerships between public, private, and community-based organizations.

23.40.091 Definitions for Sections 23.40.090 through 23.40.097

For the purposes of Sections 23.40.090 through 23.40.097:

“Equitable development use” means activities, as determined by rule, where all components and subcomponents of the use provide mitigation against displacement pressure for individuals, households, businesses, or institutions, that comprise a cultural population at risk of displacement. An equitable development use may include, but is not limited to, activities such as gathering space, arts and cultural space, educational programming or classes, direct services, job training, or space for other social or civic purposes. Equitable development uses may also include commercial uses including but not limited to commercial

kitchens and food processing, craft work and maker spaces, cafes, galleries, co-working spaces, health clinics, office spaces, and retail sales of food and goods.

“Owner unit incentive development” means a qualifying development using bonus floor area where, as determined by rule, on the date of complete building permit application submittal by a qualifying community development organization: (i) some or all of the development site is owned by a person or family with an annual income not to exceed 120 percent of area median income and who have continually resided in a dwelling unit on the property for the past ten years; and (ii) an executed partnership agreement or other binding contractual agreement with a qualifying community development organization exists affirming the applicant’s obligation to provide a dwelling unit on-site for the current owner at no cost and prohibiting resale or sublet by the owner for at least ten years, except in the event of the owner’s death.

“Qualifying community development organization” means a non-profit organization registered with the Washington Secretary of State or a public development authority created pursuant to RCW 35.21.730, that has as its purpose the creation or preservation of affordable state or federally subsidized housing, social housing, or affordable commercial space, affordable arts space, community gathering spaces, or equitable development uses. A qualifying community development organization can consist of a partnership among one or more qualifying community development organizations, or one or more qualifying community development organizations and a partnering for-profit development entity.

“Qualifying development” means a development located on site in which a qualifying community development organization has a legally established and ongoing property-related interest on the date of complete building permit application submittal. To have a legally established and ongoing property-related interest, a qualifying community development organization shall: own at least 51 percent of the property; own at least ten percent when a partner in an entity provides site control for development; have a controlling and active management role in a corporation or partnership that owns a property, such as a sole managing member of a limited liability company or sole general partner of a limited partnership; or some other beneficial interest,

as determined by rule.

“Social housing” means a residential or mixed-use structure with at least 30 percent of the dwelling units affordable to households with incomes no higher than 80 percent of area median income that is developed, publicly owned, and maintained in perpetuity by a public development authority, the charter for which specifies that its purpose is development of social housing and at a range of affordability levels within the Seattle corporate limits. Social housing is intended to promote social cohesion, sustainability, and social equity through an intentional distribution of units to households with a broad mix of sizes and incomes ranging between zero percent and 120 percent of median income.

23.40.092 Enrollment period, eligibility requirements, and owner unit incentive development application requirements

A. The enrollment period for the Connected Community Development Partnership Bonus Pilot Program expires on the earlier of: when applications meeting the requirements of Sections 23.40.090 through 23.40.092 have been submitted for 35 projects; or December 31, 2029.
