The provisions of this Chapter 21.60 are not a bar to the imposition of similar, different, or additional City imposed rules, regulations, and standards with respect to the use of the right-of-way in connection with the provision of non-cable service. In addition to other rights it has, the City may establish such rules, regulations, and standards related to the provision of such non-cable service, to the extent not prohibited by state and federal law, as required to protect the public interest.

E. The Council shall consider the legal, technical, and financial qualifications of the proposed transferee and its ability and agreement to comply with all provisions of this Chapter 21.60 when considering whether to approve a proposed transfer. If the Council decides to grant the proposed transfer, it shall do so by ordinance.

F. Notwithstanding the requirements of subsection 21.60.110.A, approval is not required if the grantee sells, assigns, or transfers an ownership or other interest in the grantee, the cable system, or the franchise to an affiliate or parent of the grantee, so long as (1) the proposed assignee or transferee is an entity that controls, is controlled by, or is under the same common control as the grantee, (2) the proposed assignee or transferee shows financial responsibility as may be determined necessary by the City, (3) the proposed assignee or transferee agrees in writing to comply with all of the provisions of the franchise, and (4) the grantee notifies the City within 30 days of the effective date of any affiliate transfer.

Section 15. Section 21.60.120 of the Seattle Municipal Code, last amended by Ordinance 107025, is amended as follows:

~~A. With respect to the local government and educational access channels:~~

~~1. On condition of reimbursement of grantee's actual cost for installation and periodic maintenance, the grantee shall provide a cable return length if technically practicable permitting transmission of originated program material between the head-end of the grantee and:~~

~~a. Each building designated by the Office of Cable Communications and located within a cable district for which the grantee holds a franchise and which is owned and controlled by the City and used for public purposes and not for residential use (fire and police stations excepted), and~~

~~b. Each state-accredited public or private educational institution located within a cable district for which the grantee holds the franchise and which requests such installation; and~~

~~2. If the grantee elects to provide facilities for production of program materials for use on the local government or educational access channels, the grantee shall charge no more than reasonable production costs, a schedule of which charges shall be filed with the Office of Cable Communications on January 2nd of each year.~~

~~B. With respect to basic cable services: the grantee shall provide if technically practicable all subscriber services and a tie-in connection without cost (except for actual cost of installation in the case of an underground connection), to each state-accredited public or private educational institution and each building designated by the Office of Cable Communications which is owned and controlled by the City and used for public purposes and not residential use (fire and police stations excepted), when the cable system passes any such institution or building.)~~

21.60.120 Termination of franchise

A. The City may terminate by ordinance any franchise granted pursuant to the provisions of this Chapter 21.60 in the event of the failure, refusal, or neglect by grantee to comply with any material requirement contained in this Chapter 21.60, a franchise, or rule or regulation of the Office of Cable Communications validly adopted pursuant to this Chapter 21.60, including, but not limited to, if a grantee refuses, neglects, or fails to:

1. Construct, operate, or maintain the cable system in compliance with applicable construction and safety codes, including, but not limited to, the National Electrical Safety Code and the National Electrical Code;

2. Provide cable service to its subscribers in accordance with the terms of this Chapter 21.60 and

the franchise, including all minimum requirements set forth in Section 21.60.060;

3. Comply with the conditions of occupancy of any rights-of-way;

4. Provide, within 30 days of a request from the Office of Cable Communications, all records requested for the purposes of auditing franchise fees, taxes, or other payments due the City, or in connection with another matter related to ensuring compliance with this Chapter 21.60, the franchise, other agreements, or applicable law;

5. Indemnify, defend and hold harmless the City as required by Section 21.60.150; or

6. Provide insurance as required by Section 21.60.160.

B. Cable system failure in all or a portion of any franchise area is noncompliance with a material requirement of this Chapter 21.60 if such failure continues for 24 consecutive hours on ten or more occasions during any 12 consecutive calendar months, or for ten consecutive days.

C. The City may also terminate a franchise if a grantee commits fraud or deceit upon the City.

D. In the event the City intends to terminate a franchise, the City shall provide a written notice to grantee, identifying the reason, advising grantee of the City's intent to terminate the franchise, and demanding that grantee cure the refusal, neglect, or failure within a certain time period, which shall be no less than 15 days. The notice shall state that the grantee is entitled to appeal the City's findings to the Hearing Examiner, in accordance with Chapter 3.02, within 15 days of receipt of such notice. If, within the time period specified in the notice, the problem is not cured to the City's satisfaction, and if the grantee has not filed a timely notice of appeal, then the City may terminate the franchise by ordinance as of a date to be specified in the ordinance. The ordinance may also specify that the franchise will only terminate if the grantee does not comply with the City's requirements within such period as the City may also fix in such ordinance.

E. If the grantee files a timely notice of appeal, pursuant to Chapter 3.02, of the City's notice of intent to terminate its franchise, the Hearing Examiner shall schedule and conduct a hearing in accordance with the Hearing Examiner Rules of Practice and Procedure. The Hearing Examiner shall:

1. Determine whether any refusal, neglect, or failure by grantee to do or comply with any material requirement contained in this Chapter 21.60, a franchise, or rule or regulation of the Office of Cable Communications validly adopted to this Chapter 21.60, has occurred; and

2. If so, determine whether such refusal, neglect, or failure by grantee was beyond the control of grantee as set forth in Section 21.60.270.

F. If the Hearing Examiner determines that no refusal, neglect, or failure has occurred, then the franchise will not terminate.

G. If the Hearing Examiner determines that a refusal, neglect, or failure has occurred, but that it was caused by events beyond the control of the grantee as set forth in Section 21.60.270, then the franchise will not terminate and the requirements of Section 21.60.270 will apply. The Director of the Office of Cable Communications may enter into an agreement with the grantee concerning an appropriate action to cure the grounds on which the proposed franchise termination was based.

H. If the Hearing Examiner determines that a refusal, neglect, or failure has occurred, and that the refusal, neglect, or failure by the grantee was within the grantee's control, then the Hearing Examiner shall report such determination to the Council and to the Office of Cable Communications, and the City may by ordinance declare that the franchise of such grantee shall be terminated as of a date to be specified in the ordinance. The ordinance may also specify that the franchise will only terminate if the grantee does not comply with the City's requirements within such period as the City may also fix in such ordinance.

I. The termination of any franchise shall in no way affect any rights of the City that survive termination under the franchise or any provision of law.

Section 16. A new Section 21.60.125 of the Seattle Municipal Code is added as follows:

21.60.125 Procedures in the event of expiration, termination, revocation, or non-renewal

A. Continuity of service

1. A grantee shall operate the cable system pursuant to this Chapter 21.60 and its franchise without

interruption, except as otherwise provided by this Chapter 21.60 or its franchise. If at any time the grantee's franchise is revoked, terminated, or not renewed upon expiration in accordance with the provisions of federal law, a grantee shall, at the City's request, as trustee for its successor in interest, operate the cable system for a temporary period (the "transition period") as necessary to maintain service to subscribers, and shall cooperate with the City to assure an orderly transition from it to the City or another franchise holder.

2. During the transition period, a grantee shall neither sell any of the cable system assets serving City customers nor make any physical, material, administrative, or operational change that would tend to degrade the quality of service to subscribers, decrease gross revenues, or materially increase expenses without the express permission, in writing, of the City.

3. The transition period shall be no longer than the reasonable period required to arrange for an orderly transfer of the cable system to the City or to another franchise holder, unless mutually agreed to by a grantee and the City. During the transition period, a grantee will continue to be obligated to comply with the terms and conditions of this Chapter 21.60, its franchise, and applicable laws and regulations.

4. If a grantee abandons the cable system during the franchise term or fails to operate the cable system in accordance with the terms of this Chapter 21.60 and its franchise during any transition period, the City, at its option, may operate a grantee's cable system, designate another entity to operate the grantee's cable system temporarily until the grantee restores service under conditions acceptable to the City or until a grantee's franchise is revoked and a new grantee selected by the City is providing service, or obtain an injunction requiring a grantee to continue operations.

5. For its management services during the transition period, the grantee shall be entitled to receive as compensation the "net income" generated during the transition period. For the purposes of this subsection 21.60.125.A.5, "net income" means the amount remaining after deducting from gross revenues all of the actual, direct and indirect expenses associated with operating the grantee's cable system, including the franchise fee, interest, depreciation, and all taxes, all as determined in accordance with generally accepted accounting

principles.

B. City's right to purchase

1. If at any time the grantee's franchise is revoked, terminated, or not renewed upon expiration in accordance with the provisions of federal law, the City shall have the option to purchase the cable system.

2. The City may, at any time thereafter, offer in writing to purchase the grantee's cable system. The grantee shall have 30 days from receipt of a written offer from the City within which to accept or reject the offer.

3. In any case where the City elects to purchase the cable system, the purchase shall be closed within 120 days of the date of the City's audit of a current profit and loss statement of the grantee. The City shall pay for the cable system in cash or certified funds, and the grantee shall deliver appropriate bills of sale and other instruments of conveyance.

4. The price for the cable system shall be determined as follows:

a. In the case of the expiration of a franchise without renewal, at fair market value determined on the basis of the grantee's cable system valued as a going concern, but with no value allocated to the franchise itself. In order to obtain the fair market value, this valuation shall be reduced by the amount of any lien, encumbrance, or other obligation of the grantee that the City would assume; or

b. In the case of revocation for cause, the equitable price of the grantee's cable system.

C. City's right to remove

1. In the event that a purchase has not been completed in accordance with subsection 21.60.125.B, the City may order the removal of the above-ground cable system facilities and the underground cable system facilities from the City at the grantee's sole expense within a reasonable period of time as determined by the City. In removing the cable system facilities, the Grantee shall refill, at its own expense, any excavation that is made by it and shall leave all rights-of-way, public places and private property in as good condition as that prevailing prior to the grantee's removal of its equipment without affecting the electrical or telephone cable

wires or attachments. The indemnification and insurance provisions of the franchise shall remain in full force and effect during the period of removal, and the grantee shall not be entitled to compensation.

2. If the grantee fails to complete any removal required by this subsection 21.60.125.C to the City's satisfaction, after written notice to the grantee, the City may cause the work to be done and the grantee shall reimburse the City for the costs incurred within 30 days after receipt of an itemized list of the costs.

D. The City may seek legal and/or equitable relief to enforce the provisions of this Section 21.60.125.

Section 17. Section 21.60.130 of the Seattle Municipal Code, last amended by Ordinance 107025, is amended as follows:

~~((21.60.130 Compatibility and interconnection.~~

~~A. It is the desire of the City in enacting this chapter that all cable communication systems franchised under this chapter shall, insofar as financially and technically feasible, be compatible one with another and with systems adjacent to the City.~~

~~B. Whenever it is financially and technically feasible, the grantee shall so construct, operate, and modify the system as to be able to tie the same into all other systems within and adjacent to the City.))~~

21.60.130 Subscriber rates

A. By accepting a franchise pursuant to the terms and conditions imposed by this Chapter 21.60, a grantee agrees that the City has the authority and right to regulate the grantee's cable service rates to the maximum extent permitted by law or applicable FCC rules and regulations.

B. All charges to subscribers shall be consistent with a schedule of rates established by the grantee for all services, installations, and equipment offered.

C. Unless exempt by federal law or FCC rule or regulation from any requirement to do so, a grantee shall not, with regard to rates and any other conditions of service, within the franchise area, discriminate or grant any preference or advantage to any person; provided, however, that a grantee may establish different rates for different services as long as the grantee does not discriminate between subscribers of the same services.

Nothing in this Chapter 21.60 either prevents a grantee from offering promotional or bulk discount rates as long as such discounts are available in a uniform and consistent manner in accordance with existing law or prohibits trade promotions customary in the industry as long as such trade promotions are not otherwise prohibited by law.

D. Unless exempt by federal law or FCC rule or regulation from any requirement to do so, any applicant for a new franchise or any grantee operating under an existing franchise and proposing a change in rates shall send to the Office of Cable Communications a schedule of the proposed new or changed rates together with supporting financial data. The Office of Cable Communications shall review submitted materials and verify that the proposed rates reflect allowable increases, in accordance with existing law and FCC rules and regulations.

E. A grantee shall give to subscribers and to the Office of Cable Communications a minimum of 30 days' advance written notice of any proposed change in rates.

Section 18. Section 21.60.140 of the Seattle Municipal Code, last amended by Ordinance 107025, is amended as follows:

~~((21.60.140 Uses permitted.~~

~~Any franchise granted pursuant to the provisions of this chapter shall authorize and permit the grantee to engage in the business of operating and providing a cable communications system in the City, and for that purpose to erect, install, construct, prepare, replace, reconstruct, maintain and retain in, on, over, under, upon, across and along any street such poles, wire, cable, conductors, ducts, conduit, vaults, manholes, amplifiers, appliances, attachments and other property as may be necessary and appurtenant to the cable communications system and in addition, so to use, operate, and provide similar facilities by means of properties (i.e., systems of components thereof) rented or leased from other persons, including but not limited to, any public utility or other grantee franchised or permitted to do business in the City; provided, however, that nothing contained in this section shall relieve the grantee from the requirements of Ordinance 90047 relating to the use of public streets or from the requirements of any other ordinance, rule or regulation enacted or promulgated by or on behalf of~~

~~the City in connection with the exercise of the City's police powers.))~~

21.60.140 Performance bonds

A. No later than the date by which the ordinance requires the grantee to sign the franchise, a grantee shall deliver to the Office of Cable Communications for approval a good and sufficient bond in the penal sum of not less than \$100,000 and maintain the bond continuously in effect. The bond shall be executed by a surety company authorized and qualified to do business in the state as a surety or by other sureties acceptable to the Office of Cable Communications and in a form approved by the City Attorney. The bond shall stipulate that grantee shall strictly comply with each and every condition and covenant of its franchise. The Office of Cable Communications shall file the approved bond with the City Clerk.

B. If at any time during the franchise period the Office of Cable Communications determines that the conduct of a grantee warrants a higher assurance under the bond, then the Office of Cable Communications may require the grantee to furnish a new or additional bond in such amount as may be specified and with such sureties as are acceptable to the Office of Cable Communications. The grantee shall upon demand furnish such new or additional bond and maintain it continuously in effect.

~~Each franchise granted by the City under this chapter shall be for a term of fifteen (15) years from the date of its acceptance by the grantee.))~~

21.60.150 Indemnification

A. General indemnification. By accepting a franchise granted pursuant to this Chapter 21.60, grantee covenants and agrees for itself, its officers, agents, employees, successors, and assigns, at all times to indemnify, defend, and hold the City, its officers, officials, boards, commissions, agents, and employees (collectively the “indemnified parties”) harmless from and against any and all lawsuits, claims, causes of

actions, injury, damages, judgments, settlements, disability, losses, liabilities, costs, or expenses (including attorneys' fees and disbursements of counsel) of any nature that any of the indemnified parties may at any time suffer, sustain, or incur arising out of, or based upon, or in any way connected with any act or omission of the grantee, its successors, or assigns, its parent or subsidiary corporations, its employees, agents, contractors, or subcontractors, or any of their employees, agents, contractors, or subcontractors, including without limitation any construction, excavation, reconstruction, readjustment, repair, maintenance, operation, or use of the right-of-way or other property of the City, or by exercising any privilege conferred by this Chapter 21.60 or by such franchise, and including any neglect or omission to keep the cable system in a safe condition. The grantee's obligation to indemnify, defend, and hold the indemnified parties harmless includes the obligation to pay attorneys' fees, expert fees, and all other costs of defending any indemnified claim, including all costs incurred by the City in recovering against the grantee. The grantee shall consult and cooperate with the City in the grantee's defense of the indemnified parties. If judgment is rendered against the indemnified parties in any such suit or action, the grantee shall fully satisfy such judgment within 90 days after such suit or action has been finally determined. To the maximum extent permitted by law, the grantee's indemnity obligation shall not be extinguished or reduced in the event that an act or omission of the indemnified parties is a concurrent or contributing cause of the claim, except that no indemnity shall be owed in the event that the cause of any claim is the sole negligence of the indemnified parties.

B. Indemnification for relocation. By accepting a franchise granted pursuant to this Chapter 21.60, grantee covenants and agrees to indemnify the City for any damages, claims, additional costs, or expenses assessed against, or payable by, the City arising out of or resulting, directly or indirectly, from the grantee's failure to remove, adjust, or relocate any of its facilities located on City property or right-of-way in a timely manner in accordance with the franchise and relocation schedule, unless grantee's failure arises directly from the City's negligence or willful misconduct.

Section 20. Section 21.60.160 of the Seattle Municipal Code, last amended by Ordinance 105427, is

amended as follows:

~~((21.60.160 Termination of franchise.~~

~~The City may terminate by ordinance enacted for such purpose any franchise granted pursuant to the provisions of this chapter in the event of the wilful failure, refusal, or neglect by grantee to do or comply with any material and substantial requirement contained in this chapter or rule or regulation of the Office of Cable Communications validly adopted pursuant to this chapter. System failure in all or a major part of any cable district shall constitute noncompliance with a material requirement of this chapter if such failure continues for a period of ten (10) consecutive days or for a period of twenty-four (24) consecutive hours on thirty (30) or more occasions during any period of twelve (12) consecutive calendar months.))~~

21.60.160 Insurance

A. Commercial General Liability insurance for a minimum limit of liability of \$2,000,000 each occurrence Combined Single Limit (CSL) bodily injury and property damage for premises/operations, products/completed operations, personal/advertising injury, contractual, independent contractors, and employers’/stop gap liability

B. Automobile Liability insurance for owned, non-owned, leased, or hired vehicles, as applicable, with minimum limits of \$2,000,000 CSL; and

C. Workers Compensation insurance for Washington State as required by Title 51 RCW; provided the Office of Cable Communications may increase the minimum policy limits and coverage from time to time as it deems appropriate to adequately protect the City and the public. The grantee specifically acknowledges that the limits of liability specified in this Section are minimum limits of liability only and, except for the policy limits, shall not be construed to limit the liability of the grantee or any of the grantee's insurers. Each insurance policy shall be issued by an insurer rated A: VII or higher in the A.M. Best's Key Rating Guide, unless procured as a surplus lines placement by a licensed Washington State surplus lines broker, or as may otherwise be approved by the Office of Cable Communications. Each policy shall provide for at least 30 days' notice to the Director of the Office of Cable Communications of any change, cancellation, or lapse thereof, or as much notice as is allowed under the policy, and that "This policy is issued and intended to comply with the conditions and requirements of Section 21.60.160 of the Seattle Municipal Code."

Section 21. Section 21.60.170 of the Seattle Municipal Code, last amended by Ordinance 105427, is amended as follows:

~~((21.60.170 Proceeding before Hearing Examiner.~~

~~The Office of Cable Communications shall initiate a proceeding before a Hearing Examiner pursuant to the Administrative Code of the City for the purpose of having the Examiner make the determinations contemplated by Section 21.60.180 if:~~

~~C. The Office of Cable Communications has received a petition requesting institution of such proceedings and signed by at least twenty-five (25) percent of the subscribers within the cable district served by the grantee; provided however, that this subsection shall not be so interpreted as to preclude consideration by the Office of Cable Communications of complaints by nonsubscribers concerning matters in which such nonsubscriber(s) have a material interest.)~~

21.60.170 Service to low-income households, and other service, build and construction requirements

A. Service to low-income households

1. New franchise

a. Each new franchise shall allow grantee flexibility as to where and how to provide cable service within its franchise area. As provided in subsection 21.60.170.A.1.b, grantee's actual service area must satisfy a low-income service provision requirement within two years of the effective date of the franchise. Grantee is encouraged to satisfy that requirement as soon within that period as is feasible.

b. At all times after the date that is two years after the effective date of any new franchise, a significant portion of the total households to which grantee offers cable service shall be households that fall below the median income level as measured by census block group data.

2. Renewed franchise. At all times, a significant portion of the total households to which grantee offers cable service shall be households that fall below the median income level as measured by census block group data.

3. All grantees to verify low-income requirement. Grantee shall meet with and provide

documentation to the Office of Cable Communications not less frequently than semiannually to demonstrate that it has met the low-income service provision requirement in subsection 21.60.170.A.1.b (for a new franchise, if applicable at the time of a particular meeting) or in subsection 21.60.170.A.2 (for a renewed franchise). Quarterly, the Office of Cable Communications shall provide to Council a copy of grantee's documentation demonstrating that grantee has met its low-income service provision requirement along with the Office of Cable Communications' analysis of grantee's documentation. If grantee does not demonstrate compliance, the Office of Cable Communications shall report the noncompliance to Council in its quarterly report. The Office of Cable Communications shall provide these quarterly reports for the first five years of a new franchise, and for the first two years of a renewed franchise, and shall continue to provide these quarterly reports thereafter if so requested by the chair of the Council committee with oversight responsibility for cable issues.

a. If the Office of Cable Communications determines that the requirement is not being met, it may impose other requirements, including but not limited to (i) imposing penalties; (ii) requiring grantee to expand the provision of cable service to other areas of the city, to ensure that the low-income service provision requirement will be met; and (iii) mandating any other action intended to incent compliance with the low-income service provision requirement.

b. The Office of Cable Communications may also impose penalties for grantee's failure to comply with such additional requirements within a specified time.

4. The Office of Cable Communications shall develop procedures and metrics to implement this subsection 21.60.170.A to describe how compliance with the low-income service provision requirement will be measured and what threshold of service will be deemed to constitute compliance.

B. Other service requirements

1. Each franchise shall document, to the satisfaction of the Office of Cable Communications, the service area where grantee intends to initially offer cable service and, if applicable, where grantee currently

offers cable service.

2. Grantee shall not deny cable service to any customer based upon race, nor shall grantee base decisions about construction or maintenance of the cable system or facilities upon race.

C. Build out requirements. The build out requirements, if any, for a franchise shall be set forth in grantee's franchise.

D. Construction requirements. The construction of new cable facilities or the extension of existing cable facilities by grantee shall be accomplished in accordance with a plan, design, and construction schedule first submitted to and approved by the Office of Cable Communications with respect to the requirements of this Chapter 21.60, and then submitted to and approved by the Director of Transportation with respect to the requirements of Title 15. In either case, grantee shall at all times comply with this Chapter 21.60 and with Title 15 as the same now reads or is later amended, except that if this Chapter 21.60 and Title 15 are in any respect inconsistent the provisions of Title 15 control.

Section 22. Section 21.60.180 of the Seattle Municipal Code, last amended by Ordinance 105427, is amended as follows:

~~((21.60.180 Determinations by Hearing Examiner.~~

~~In any proceeding as set out in Section 21.60.170, it shall be the duty of the Hearing Examiner after receiving testimony and evidence from all interested parties:~~

~~A. To determine whether any such failure, refusal or neglect by grantee to do or comply with any such material requirement, limitation, term, condition, rule or regulation has occurred; and~~

~~B. If so, to determine whether such failure, refusal or neglect by grantee was with just cause; and~~

~~C. If such failure, refusal or neglect by the grantee was with just cause, to direct compliance within such time and upon such terms and conditions as are reasonable;~~

~~Provided, however, if the issue before the Hearing Examiner involves noncompliance with Section 21.60.380 he shall make a recommendation to the Council regarding a time certain for compliance by grantee.))~~

21.60.180 Approval of the Director of Transportation required for right-of-way use

- A. If it is practicable to use poles already in the right-of-way, the grantee shall use such poles and shall comply with Chapter 15.32 in doing so. If grantee does not use poles already in the right-of-way, all poles, cables, wires, antennae, conduits, or appurtenances shall be constructed and erected in compliance with the provisions of the pole attachment permit(s) and street use permit(s) authorizing their installation.
- B. If, in any part of the franchise area for which the grantee has been awarded a franchise, the City proposes to place electric power or communications wires and cables underground or to require the same, grantee may place facilities in the underground project, but if grantee does not do so and subsequently enters the area to serve it, grantee shall place its facilities underground. In areas where all other utilities have their facilities underground the grantee shall underground its facilities in accordance with Section 15.32.130.
- C. Nothing in this Chapter 21.60 prevents the City or any local improvement district or utility local improvement district from sewerage, paving, grading, altering, or otherwise improving or reimproving any of the streets of the City, including the installation of City-owned utilities, and the City is not liable for any damages resulting to the grantee by reason of the performance of such work or by exercise of such rights of the City. This Chapter 21.60 does not deprive the City of any rights or privileges that it now has, or that may hereafter be conferred upon it, to regulate and control the use of the right-of-way. If any right-of-way is improved or the grade thereof changed, modified, raised, or lowered, or the size, position, or location of any City-owned public utilities changed, modified, or altered, any of the installations belonging to the grantee that may be affected by or conflict with any such changes, alterations, or modifications shall be promptly adjusted, removed, altered, raised, lowered, or otherwise modified to conform to the improvements or changes made, by and at the expense of grantee and in conformity with the requirements of the Director of Transportation.
- D. If it is necessary for the grantee, in the erection of poles or in the construction of underground pipes or conduits, to excavate in any portion of any right-of-way, the grantee shall file with the Director of Transportation an application for permission to do such work in accordance with Title 15, and obtain a permit

from or approval of the Director of Transportation before beginning such work. If grantee disturbs the surface of any City right-of-way for any purpose, grantee shall be responsible for its restoration in accordance with Section 15.32.160. The City has the right to make use of any or all of the poles of the grantee for wires, cables, and conductors to carry any City-owned systems or facilities requiring such use.

E. If the Director of Transportation grants permission for use of any right-of-way of the City for the purpose of moving any building or structure, then grantee shall raise or remove any wires, cables, or conductors that may obstruct the removal of such building or structure in accordance with Section 15.32.110.

Section 23. Section 21.60.190 of the Seattle Municipal Code, last amended by Ordinance 105427, is amended as follows:

~~((**21.60.190 Declaration of termination of franchise.**~~

~~If the Hearing Examiner shall determine that such failure, refusal or neglect by the grantee was without just cause, he shall report such determination to the City Council whereupon the City may by ordinance declare that the franchise of such grantee shall be terminated and forfeited as of a date to be specified in such ordinance unless there be compliance by the grantee within such period as the City may also fix in such ordinance. Such ordinance shall be published once in the City official newspaper within three (3) days after the same shall have become a law.))~~

21.60.190 Permission from property owner or tenant for installation

A. If cable passes over or under private or publicly owned property, grantee is solely responsible for obtaining all necessary permission from the property owner.

B. Grantee shall not install or attach any of its facilities to any property without first securing the written permission of the owner or tenant of any property involved, or of such other person who has the right to approve or disapprove the attachment (authorized party), except if there is an existing utility easement. If such permission or easement is later revoked, the grantee at the request of the authorized party shall promptly remove any of its facilities and promptly restore the property to its original condition at grantee's expense.

Grantee shall perform all such installations and removals in compliance with state and local law and shall be responsible for any damage to residences or other property caused by the installation or the removal. In the event a grantee fails to perform such restoration, the authorized party has the right to do so at the sole expense of the grantee. Demand for payment for such restoration must be submitted by the authorized party in writing to the grantee.

C. Provision of cable services may not be conditioned on any right of entry agreement that requires an exclusive, long-term service commitment. However, the preceding sentence does not affect the grantee's right to furnish additional consideration in exchange for a right of entry agreement.

Section 24. Section 21.60.200 of the Seattle Municipal Code, last amended by Ordinance 105427, is amended as follows:

~~((21.60.200 City rights not affected.~~

~~The termination and forfeiture of any franchise shall in no way affect any other rights of the City under the franchise or any provision of law.))~~

21.60.200 Compliance with chapter, franchise and other laws

Construction, maintenance, and operation of the grantee's system, including subscriber connections, shall be in accordance with the provisions of this Chapter 21.60, the grantee's franchise agreement with the City, and, unless otherwise provided in the franchise, the provisions of all other applicable codes, ordinances, rules, regulations, and specifications of the City currently existing or later enacted, including, but not limited to, those concerning electrical work and street use excavation, removal and relocation of property, and other street work.

Section 25. Section 21.60.210 of the Seattle Municipal Code, last amended by Ordinance 121148, is amended as follows:

~~((21.60.210 Cable districts and access areas.~~

~~A. Cable district boundaries and designations shall be as depicted on Exhibit "1" "CABLE DISTRICTS"~~

attached to Ordinance 121148.

B. Access districts shall be as depicted on Exhibit "B"-"ACCESS AREAS" attached to Ordinance 105427.))

21.60.210 Compliance with state and federal laws and regulations

This Chapter 21.60 and any franchise granted pursuant to it shall at all times be interpreted as to require the grantee to comply with all applicable state and federal laws, including FCC rules and regulations relating to the provision of cable services. Such interpretation of this Chapter 21.60 does not diminish, impair, alter, or affect any contractual benefit to the City or grantee or any contractual obligation of the grantee under any franchise issued under this Chapter 21.60.

Section 26. Section 21.60.220 of the Seattle Municipal Code, last amended by Ordinance 120138, is amended as follows:

21.60.240 No recourse against City for loss or expense

Section 76. A new Section 21.60.825 of the Seattle Municipal Code is added as follows:

21.60.825 Cable customer privacy

In addition to complying with the requirements in this Section 21.60.825, a grantee shall fully comply

with all obligations under 47 U.S.C. § 551.

A. Definitions.

For purposes of this Section 21.60.825:

"Affiliate" means any person or entity that is owned or controlled by, or under common ownership or control with, a grantee, and provides any cable service or other service.

"Necessary" means required or indispensable.

"Non-cable-related purpose" means any purpose that is not necessary to render, or conduct a legitimate business activity related to, a cable service or other service provided by the grantee to a customer. Market research, telemarketing, and other marketing of services or products are considered non-cable-related purposes.

"Personally identifiable information" means specific information about a customer, including, but not limited to, a customer's (a) login information, (b) extent of viewing of video programming or other services, (c) shopping choices, (d) interests and opinions, (e) energy uses, (f) medical information, (g) banking data or information, (h) web browsing activities, or (i) any other personal or private information. "Personally identifiable information" does not mean aggregate information about customers that does not identify particular persons.

B. Collection and use of personally identifiable information.

1. A grantee shall not use the cable system to collect, record, monitor, or observe personally identifiable information without the prior affirmative written or electronic consent of the customer unless, and only to the extent that, such information is: (a) used to detect unauthorized reception of cable communications, or (b) necessary to render a cable service or other service provided by the grantee to the customer.

2. A grantee shall take such actions as are necessary to prevent any affiliate from using the facilities of the grantee in any manner, including, but not limited to, sending data or other signals through such facilities, to the extent such use will permit an affiliate unauthorized access to personally identifiable information on the computer or other equipment of a customer (regardless of whether such equipment is owned

or leased by the customer or provided by a grantee) or on any of the facilities of the grantee that are used in the provision of cable service. This subsection 21.60.825.B.2 does not prohibit an affiliate from obtaining access to personally identifiable information to the extent otherwise permitted by this Section 21.60.825.

3. A grantee shall take such actions as are reasonably necessary to prevent a person or entity (other than affiliates) from using the facilities of the grantee in any manner, including, but not limited to, sending data or other signals through such facilities, to the extent such use will permit such person or entity unauthorized access to personally identifiable information on the computer or other equipment of a customer (regardless of whether such equipment is owned or leased by the customer or provided by a grantee) or on any of the facilities of the grantee that are used in the provision of cable service.

C. Disclosure of personally identifiable information. A grantee shall not disclose personally identifiable information without the prior affirmative written or electronic consent of the customer, except as follows:

1. A grantee may disclose for a non-cable-related purpose the name and address of a customer to any general programming tiers of service and other categories of cable and other service provided by the grantee if the grantee has provided the customer the opportunity to prohibit or limit such disclosure in accordance with this Section 21.60.825 and 47 U.S.C. § 551, and such disclosure does not directly or indirectly disclose:

- a. A customer's extent of viewing of a cable service or other service provided by the grantee;
- b. The extent of any other use by a customer of a cable service or other service provided by the grantee, including, but not limited to, a disclosure of the particular viewing selections by a person subscribing to a cable service or other service, or the particular web sites visited by a customer to non-cable service (i.e., a grantee may only disclose the fact that a person subscribes to non-cable service);
- c. The nature of any transactions made by a customer over the cable system of the grantee;

or

d. The nature of programming or sites that a customer subscribes to or views (i.e., a grantee may only disclose the fact that a person subscribes to a general tier of service or a package of channels with the same type of programming).

2. A minimum of 30 days before making any disclosure of personally identifiable information of any customer as provided in this subsection 21.60.825.C, the grantee shall notify in writing the Office of Cable Communications and each customer about which the grantee intends to disclose information of the specific information that will be disclosed, to whom it will be disclosed, and notice of the customer's right to prohibit the disclosure of such information for non-cable-related purposes. The notice to customers may be included with or made a part of the customer's monthly bill for cable service or other service or may be made by separate mailed notice. Each time that this notice is given to a customer, the grantee also shall provide the customer with an opportunity to prohibit the disclosure of information in the future. Such opportunity shall be given in one of the following forms: a toll-free number that the customer may call, a website option, or such other equivalent methods as may be approved by the Office of Cable Communications.

3. Additionally, within 45 days after each disclosure of personally identifiable information of any customer as provided in this subsection 21.60.825.C, the grantee shall notify in writing the Office of Cable Communications and each customer about which the grantee has disclosed information of the specific information that has been disclosed, to whom it has been disclosed, and notice of the customer's right to prohibit the disclosure of such information for non-cable-related purposes. The notice to customers may be included with or made a part of the customer's monthly bill for cable service or other service or may be made by separate mailed notice. Each time that this notice is given to a customer, the grantee also shall provide the customer with an opportunity to prohibit the disclosure of information in the future. Such opportunity shall be given in one of the following forms: a toll-free telephone number that the customer may call; a website option; or such other equivalent methods as may be approved by the Office of Cable Communications.

4. A grantee may disclose personally identifiable information only to the extent that it is necessary

to render, or conduct a legitimate business activity related to, a cable service or other service provided by the grantee to the customer.

5. To the extent required by federal law, a grantee may disclose personally identifiable information pursuant to a subpoena or valid court order authorizing such disclosure, or to a governmental entity.

D. Access to information. Any personally identifiable information gathered and maintained by a grantee shall be made available for customer examination within 30 days of receiving a request by a customer to examine such information at the local offices of the grantee or other convenient place within the City designated by the grantee. Upon a reasonable showing by the customer that the information is inaccurate, a grantee shall correct such information.

E. Privacy notice to customers.

1. A grantee shall annually mail a separate, written privacy statement to customers consistent with 47 U.S.C. § 551(a)(1) and shall provide a customer a copy of such statement at the time the grantee enters into an agreement with the customer to provide cable service or other service. The written notice shall be in a clear and conspicuous format and be printed in ten-point type or larger.

2. In the statement required by subsection 21.60.825.E.1, the grantee shall state substantially the following regarding the disclosure of customer information: "Unless a customer affirmatively consents electronically or in writing to the disclosure of personally identifiable information, any disclosure of personally identifiable information for purposes other than to the extent necessary to render, or conduct a legitimate business activity related to, a cable service or other service, is limited to:

a. Disclosure pursuant to a subpoena or valid court order authorizing such disclosure; or to a governmental entity, but only to the extent required by applicable federal law; or

b. Disclosure of the name and address of a customer to any general programming tiers of service and other categories of cable and other services provided by the grantee that does not directly or indirectly disclose:

- 1) A customer's extent of viewing of a cable service or other service provided by the grantee,
- 2) The extent of any other use by a customer of a cable service or other service provided by the grantee, including, but not limited to, a disclosure of the particular viewing selections by a person subscribing to a cable service or other service, or the particular web sites visited by a customer of non-cable service (i.e., a grantee may only disclose the fact that a person subscribes to non-cable service),
- 3) The nature of any transactions made by a customer over the cable system, or
- 4) The nature of programming or sites that a customer subscribes to or views (i.e., a grantee may only disclose the fact that a person subscribes to a general tier of service, or a package of channels with the same type of programming).

3. The statement shall also inform the customers of their right to prohibit the disclosure of their names and addresses in accordance with subsection 21.60.825.C for non-cable-related purposes. This opportunity will be presented in the form of a toll-free telephone number or website, provided by the grantee with the privacy notice or other manner acceptable to the Office of Cable Communications. If a customer exercises the customer's right to prohibit the disclosure of name and address as provided in subsection 21.60.825.C or this subsection 21.60.825.E, such prohibition against disclosure shall remain in effect permanently, unless the customer subsequently notifies the grantee in writing that the customer wishes to permit the grantee to disclose the customer's name and address.

F. Privacy reporting requirements. The grantee shall provide a semi-annual report to the City summarizing:

1. The type of personally identifiable information that was actually collected or disclosed during the reporting period, including:
 - a. For each type of personally identifiable information collected or disclosed, a statement sufficient to demonstrate that the personally identifiable information collected or disclosed was: 1) collected or disclosed only to the extent necessary to render, or conduct a legitimate business activity related to, a cable

Measures that have been taken, or could be taken, to prevent the unauthorized access to personally identifiable information by a person other than the customer or the grantee, including, among other things, a description of the technology that is or could be applied by the grantee to prohibit unauthorized access to personally identifiable information by any means.

G. Nothing in this Section 21.60.825 shall prevent the City from obtaining personally identifiable information to the extent not prohibited by 47 U.S.C. § 551.

H. The grantee shall provide the names of the entities described in subsection 21.60.825.F.1.b to whom personally identifiable information was disclosed, within 30 days of receiving a request for such names from the City. However, the grantee need not provide the name of any court or governmental entity to which such disclosure was made if such disclosure would be inconsistent with applicable federal law.

I. Any aggrieved person may begin a civil action for damages for invasion of privacy against any grantee.

J. Destruction of personally identifiable information. A grantee shall destroy, within 90 days, any personally identifiable information if the personally identifiable information is no longer necessary for the purpose for which it was collected and there are no pending requests or orders for access to such personally identifiable information under this Section 21.60.825, pursuant to a court order, or pursuant to 47 U.S.C. § 551.

21.60.840 Verification of compliance by quarterly reporting form

The grantee shall maintain, in a manner consistent with the privacy rights of customers, an accurate and comprehensive file of: (1) any and all complaints regarding the cable system or the grantee’s operation of the cable system to provide cable service, by number and type and their disposition; (2) service requests,

identifying the number and nature of the requests and their disposition; (3) service interruptions and their disposition; and (4) all telephone calls from customers to grantee, and their response times.

A. The Office of Cable Communications will develop and provide a quarterly reporting form to monitor the grantee's compliance with this Subchapter II. The grantee shall complete the form and send it to the Office of Cable Communications on a quarterly basis, within 30 days of the end of the quarter. All data in the report shall reflect activity within an area that reasonably approximates the jurisdictional boundaries of King County, including the City. To measure the grantee's compliance with standards related to customer telephone response times, the report shall include, at a minimum, the following information from the grantee: 1) the total number of calls offered to a grantee; 2) the number of calls handled by the grantee's IVR within 30 seconds; 3) the total number of calls during which a customer requested, in any fashion, to speak with a CSR; 4) the total number of calls transferred to a CSR; 5) the total number of calls transferred to a CSR that were answered within 30 seconds; 6) the average wait time before a call to a CSR was answered; and 7) other information that may be requested by the Office of Cable Communications, and is retained by the grantee, to assess the overall level and effectiveness of grantee's customer service practices or is necessary to address customer service complaints. If calls abandoned by callers exceed five percent of calls handled, the grantee shall provide an explanation. Any grantee of a new franchise is not required to complete or send the report described in this Section 21.60.840 until 12 months after the effective date of the new franchise.

B. To determine whether the grantee has met the standard for CSR telephone response time, the Office of Cable Communications shall divide the total number of calls answered by a CSR within 30 seconds by the total number of calls transferred to a CSR. This quotient shall not reflect calls that are self-directed to the IVR only. Only telephone calls that result in a customer being directed to a CSR shall be included in this standard.

C. If the grantee fails to provide such reports on a timely basis, or if they are incomplete, the City may impose monetary sanctions of up to \$1,000 for the first quarter, up to \$2,000 for the second consecutive

quarter of noncompliance, up to \$2,500 for the third consecutive quarter of noncompliance, and up to \$3,000 for each subsequent consecutive non-compliant quarters to encourage compliance.

D. The grantee shall permit the City to review and audit the information required under this Section 21.60.840 at any time during normal business hours upon reasonable notice.
