affordable housing development, health services, child care services, and other community services that support the needs of diverse populations in areas at risk of displacement; and

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Findings. The City Council finds that:

A. On March 3, 2020, the Mayor proclaimed that a civil emergency exists in the City of Seattle related to the COVID-19 virus.

B. On March 11, 2020, the Governor of Washington State and the Local Health Officer for Public Health - Seattle & King County issued parallel orders prohibiting gatherings of 250 people or more for social, spiritual and recreational activities in King County.

C. On March 13, 2020, the Governor of Washington state issued an emergency order announcing all K-12 schools in Washington to be closed from March 17, 2020 through June 19, 2020 to combat the spread of the disease.

D. On March 13, 2020, the President of the United States declared a national emergency to allow the government to marshal additional resources to combat the virus.

E. On March 23, 2020, the Governor of Washington State issued an emergency order (“the Stay Home, Stay Safe” order) announcing that “[a]ll people in Washington State shall immediately cease leaving their home or place of residence except: (1) to conduct or participate in essential activities, and/or (2) for employment in essential business services.”

F. As of June 11, 2020, the Washington State Department of Health confirmed 25,171 cases of COVID-19 and 1,204 deaths caused by the virus in Washington State, with 8,611 confirmed cases and 586 deaths caused by the virus in King County.

G. The COVID-19 crisis has had a significant impact on the local economy impacting the retail, restaurant, construction, gig economy, and other industries resulting in layoffs and reduced work hours for a significant percentage of this workforce and loss of income for small businesses. These impacts are being felt most strongly by low income workers, people of color, immigrants, and members of the LGBTQIA community, who have become unemployed or had their work hours severely reduced and will have both immediate and long-term impacts.

H. There are at least 38,000 businesses in the City of Seattle employing a minimum of 655,000 individuals. Since the Governor of Washington closed or limited operations of many businesses in the state beginning in March, the statewide unemployment rate went from 5.1 percent in March to 15.4 percent in April. This equates to 199,000 individuals in March, and 610,000 individuals in April who are unemployed. In the Seattle/ Bellevue/Everett area, the unemployment rate went from 5.6 percent in March to 14.5 percent in April. This equates to 96,000 individuals in March and 248,000 individuals in April who are unemployed. Rising unemployment will put more and more Seattle households, particularly low-income households, in financial peril.

I. Providing financial assistance to small business owners and operators is necessary to prevent small

businesses from having to close permanently due to the hardship associated with government-mandated full or partial closure of their businesses, or requirements to implement new businesses practices and physical modifications to the business to meet public health guidance, during and after the COVID-19 crisis. Such assistance shall provide economic benefits to the public by saving or creating jobs, moderating impacts to local tax revenue by supporting continue operations of small businesses and ensuring that businesses can modify operations as necessary to comply with public health guidance.

J. Federal and state assistance is inaccessible to many people with low-incomes, to many small businesses, and is being delayed for many others, and will not be sufficient to meet their basic needs during the COVID-19 public health and financial crisis. In addition, federal assistance provided to small businesses may not allow flexibility in terms of non-payroll costs that can be covered, timeline for expending funds, etc. Therefore, additional and immediate financial support to small businesses and people with low-incomes is necessary to help meet their basic needs and to help minimize impacts to public health as well as the local economy.

K. The economic impacts from the COVID-19 emergency are drastic and immediate but are also expected to last much longer than the civil shut-down emergency itself.

L. Data from the 2012-2016 American Community Survey (ACS) shows that: over 60,000 households in Seattle with incomes at or below 80 percent of AMI are cost burdened, paying more than 30 percent of their income for rent and utilities; and 29,000 households with incomes at or below 50 percent of area AMI are severely cost burdened, paying over 50 percent of their income for rent and utilities, and, as a result, are at potential risk of homelessness.

M. The COVID-19 emergency poses a serious threat to the housing stability of households who are unable to pay rent due during the crisis and is expected to impact the ability for people to be securely housed beyond 2020.

N. Spending on equitable development investments, including the community-identified and City-

approved projects included in the Equitable Development Financial Investment Strategy, achieves a clear public purpose in advancing the City’s core value of racial and social equity through fostering the development and improvement of physical and social assets serving communities, economic development, education, and workforce training programs, and other public benefits.

O. The spending plan is being tailored to address both the shorter (2021) and longer-term (2022 and beyond) basic human health and public health needs created by the multiple and overlapping crises, which include the long-running affordable housing and homelessness crisis, food insecurity, and loss of childcare and small businesses through the community, which has now been greatly exacerbated and complicated by the COVID-19 pandemic and related economic and unemployment crises.

P. Investments in the programs and services described in this ordinance will help counteract the economic and health impacts caused by the COVID-19 crisis by investing in low-income communities, small businesses, and other services that will continue to be needed in 2021 and beyond by people who saw significant reductions in income due to employment changes and business closures or reductions stemming from the crisis.

Q. The City’s Adopted 2020 Budget fully appropriates all available municipal revenues to address the many and varied needs of the community.

R. At an April 22 presentation to the Select Budget Committee, the City Budget Director stated that a “Rapid Recovery” in City General Fund finances from the COVID 19 civil emergency would result in a \$100 million or 7 percent reduction in General Fund revenues available for City spending priorities in 2020, and further stated that a “Slow Recovery” scenario would result in a \$186 million or 13 percent reduction in General Fund revenues and about \$113 million reduction in other general government revenues in 2020, for a total reduction of about \$300 million in 2020.

S. The City will impose a new payroll tax through Council Bill 119810 that is expected to provide new and sufficient revenues to allow the City, in 2021, to replenish emergency funds used in 2020 to make public

assistance available to households most impacted by the COVID-19 civil emergency and to provide resources to maintain services and provide longer term solutions to address the inequities exacerbated by the COVID-19 crisis.

Section 2. Proceeds from the new payroll tax imposed by the ordinance introduced as Council Bill 119810 may only be used as described in subsections 2.A and 2.B of this ordinance. The programs funded in this spending plan may be used to provide assistance to low income people who live or work in Seattle. The Council intends to adopt by resolution or through adoption of the annual budget, spending details by year and program area to provide: (1) specific allocations of funds for each program area based on the anticipated annual revenue from the payroll tax authorized by the ordinance introduced as Council Bill 119810; and (2) programmatic details such as income levels served by proposed housing investments. The spending plan may be amended from time to time by the City Council by ordinance.

A. In 2021, to replenish the City's Emergency Fund and Revenue Stabilization Fund balance that was reduced in 2020 to fund programs that address the economic impacts caused by COVID-19. Any remaining proceeds from the payroll tax are intended to be used as follows:

1. To administer the payroll tax authorized by the ordinance introduced as Council Bill 119810 and to administer the investments described in subsections 2.A.2 and 2.A.3 of this ordinance.

2. To (1) provide continuity of services and programs administered or supported by the City prior to the COVID-19 crises that, absent the support from the payroll tax revenue, would see a reduction in funding; and (2) funding to support increased costs and the expansion of services and programs administered or funded by the City that support low-income communities, immigrant and refugee communities, people experiencing homelessness or housing insecurity, people experiencing food insecurity, and to fund other City programs and services that address the needs of low-income households and small businesses. It is the Council's intent that funding is prioritized for investments in services and programs that service lower-income neighborhoods.

3. To extend funding for programs and services that received funding in 2020 as described in the ordinance introduced as Council Bill 119812.

B. In all subsequent years, the proceeds from the payroll tax will be allocated as described in the resolution intended by this section or through adoption of the annual budget and further described in an implementation plan adopted by the City Council biennially, with the first plan adopted in 2021 for spending in years 2022 and 2023. The intent is to use the proceeds from the payroll tax authorized by the ordinance introduced as Council Bill 119810 as follows:

1. To administer and evaluate the effectiveness of the payroll tax authorized by the ordinance introduced as Council Bill 119810, to administer the investments described in subsections 2.B.2 through 2.B.5 of this ordinance, and to evaluate the effectiveness of at least those investments described in subsection 2.B.4 of this ordinance.

2. Housing and services. To support (1) capital costs associated with the construction or acquisition of housing for low-income households, including but not limited to people with disabilities, the elderly, low-wage working people, homeless individuals and families, and families with children; (2) operating and services costs of rental housing serving households at or below 30 percent of area median income (AMI); (3) associated infrastructure to support the ongoing operations costs for the housing, such as maintenance, retrofitting, and energy efficient upgrades to support the housing; and (4) rental assistance programs.

It is the Council's intent that new construction of housing projects funded with this tax will be built consistent with the City's Housing Funding Policies as adopted by Ordinance 119531, or as may be amended. These include, but are not limited to:

a. Requirements and goals that advance labor equity outcomes, such as: the payment of prevailing wages, apprenticeship utilization, and employment of Women and Minority Owned Businesses. Imposing additional requirements including, but not limited to: preferred entry to apprenticeship programs, requirements for pre-apprenticeship, mentoring or other training programs, and utilization of workers from

economically distressed areas, will be considered for new construction housing projects based on the results of the evaluation of the 2nd and Mercer housing pilot project, expected in mid-2021. The implementation plan that will be adopted by the City Council in 2021 will guide spending for 2022 and 2023, and may impose further labor equity-related requirements for new construction projects and recommend any needed amendments to the City's Housing Funding Policies to impose such requirements.

b. Prioritize projects that advance equitable development goals and address displacement, including those proposed or supported by local, community-based, non-profit organizations that are culturally relevant and historically rooted, particularly when the project site is in an area that is at high risk for displacement.

c. Utilize well-located publicly owned properties to achieve cost savings for affordable housing development through reduced or no-cost land transfers, favorable purchase terms, and efficient funding and disposition processes.

3. To support the Equitable Development Initiative (EDI). Funding may be used to support community-initiated equitable development projects that advance economic mobility and opportunity, prevent residential, commercial, and cultural displacement, build on local cultural assets, promote transportation mobility and connectivity, develop healthy and safe neighborhoods, and enable equitable access to all neighborhoods.

4. To support local businesses and tourism to spur the local economic recovery, and to provide economic stability for the city's workforce.

5. For investments that advance Seattle's Green New Deal as described in Resolution 31895. Investments should be prioritized in communities historically most harmed by economic, racial, and environmental injustice.

Section 3. On or before June 30, 2021, the Executive is requested to submit an Implementation Plan for the payroll tax spending for years 2022 and beyond to the City Council that includes:

- A. Specific spending proposal for years 2022 and beyond;
- B. Proposed outcomes for each funded program or service and the tracking and evaluation framework to measure actual results as compared to the proposed outcomes and to implement improvements as needed;
- C. How the programs or services will be implemented (i.e., responsible department, funding processes, etc.);
- D. Proposed policies for implementing and evaluating the effectiveness of funded programs or services;
- E. Recommended modifications to the City's Housing Funding policies imposing new labor equity outcomes for new construction housing projects, if appropriate; and
- F. Proposal for the detailed roles and responsibilities for the Oversight Committee described in Section 5 of this ordinance.

The Executive, with the support of the Seattle Office for Civil Rights, will conduct racial equity analysis on the proposed implementation plan prior to submittal to the City Council. The completion of this analysis should not delay submittal of the Implementation Plan by June 30, 2021. The Executive is expected to work cooperatively with the City Council in the development of this implementation plan to ensure it is consistent with the proposed spending plan.

Section 4. A new Section 3.35.100 is added to the Seattle Municipal Code as follows:
